Ocala City Council Agenda - Revised
Tuesday, March 3, 2026

Meeting Information

Location
Ocala City Hall
110 SE Watula Avenue
Second Floor - Council Chambers
Ocala, Florida

https://www.ocalafl.gov/meetings

Time
4:00 PM

Council Members
Ire Bethea Sr., Council President
Jay A. Musleh, Pro Tem
Kristen Dreyer
James P. Hilty Sr.
Barry Mansfield

Mayor
Ben Marciano

City Manager
Peter Lee

Mission Statement

The City of Ocala provides fiscally responsible services consistent with the community's current and future expectations.

City Council's Strategic Priorities

Priority 1: Economic hub
Priority 2: Fiscally sustainable
Priority 3: Engaged workforce
Priority 4: Operational excellence
Priority 5: Quality of place

WELCOME!
Citizens are encouraged to participate in City of Ocala meetings. Speakers wishing to provide public comments to the City Council should complete a written public comment form and shall submit said form to the City Clerk prior to the meeting being called to order. Unless otherwise permitted, no person shall be permitted to provide public comments to City Council if they have not completed and submitted a public comment card prior to the meeting being called to order. Speakers will be limited to 3 (three) minutes. Additional time may be granted by the Council President. When recognized, state name and address. Citizen groups are asked to name a spokesperson.

The City of Ocala encourages civility in public discourse and requests that speakers limit their comments to specific motions and direct their comments to the Council. Cell phones should be turned off or set to vibrate.

The order of agenda items may be changed if deemed appropriate by City Council.

Citizens are encouraged to provide comments in writing to the City Clerk before meetings for inclusion into the public record. Citizens may also provide input to council members via office visits, phone calls, letters and e-mail that will become public record. In some instances, i.e., Quasi-Judicial Hearings, these particular contacts may be prohibited.

APPEALS
Any person who desires to appeal any decision at this meeting will need a record of the proceedings and for this purpose may need to ensure that a verbatim record of the proceedings is made that includes the testimony and evidence upon which the appeal is made.

ADA COMPLIANCE
If reasonable accommodations are needed for you to participate in this meeting, please call the City Manager's Office at 352-629-8401 at least 48 hours in advance so arrangements can be made.

Revised 3/2: Added 4b, 10b. Renumbered Section 10.

1. Call to Order

2. Roll Call

2a. New Employees
- Jaime Antonetti, Growth Management
- Nakita Daniels, Growth Management
- Ben Maxson, Growth Management

3. Public Notice

4. Proclamations and Awards

4a. Presentation of the Flood Awareness Week Proclamation to City Engineering Department Director, Sean Lanier; Civil Engineer, Payal Pandya; and to Civil Engineer, Austin Cash

4b. Recognition of Ocala Police Department Excelsior Award by the Commission of Florida Law Enforcement Accreditation **2026-0888**

5. Presentations

5a. Engineering & Water Resources Department Director, Sean Lanier - Ocala Vulnerability Assessment

6. Consent Agenda

Consent Agenda items are considered to be routine and will be enacted by one roll call vote. There will be no separate discussion of these items unless members of Council or the public request specific items to be removed for separate discussion and action.

6a. One-year lease for office space at Ocala International Airport with Ascente Aviation LLC, with a monthly receivables amount of $1,369

Presentation By: Matthew Grow

6b. Annual renewal of the office and hangar lease with the Florida Department of Agriculture and Consumer Services for lease-year revenues of $54,874

Presentation By: Matthew Grow

6c. One-year renewal of contract with Southern Lawn Care Mid Florida, Inc., for specialty grounds maintenance services with expenditure amount not to exceed $72,600

Presentation By: Greg Vandeventer

6d. Resolution 2026-15 to approve and adopt the Marion County Comprehensive Emergency Management Plan **RES-2026-15**

Presentation By: Sean Lanier

6e. Reappointment of Jane Cosand to the Ocala Historic Preservation Advisory Board for a new three-year term ending March 1, 2029

Presentation By: Angel Jacobs

6f. Reappointment of Dustin Magamoll to the Board of Adjustment for a new four-year term ending March 1, 2030

Presentation By: Angel Jacobs

6g. Appointment of Erica Gibb to the Board of Adjustment for the remainder of an unexpired four-year term ending March 1, 2028

Presentation By: Angel Jacobs

6h. Reappointment of Michael Kroitor and Shirley J. Wright to the Municipal Code Enforcement Board for new three-year terms ending March 1, 2029

Presentation By: Angel Jacobs

6i. City Council meeting minutes

Presentation By: Angel Jacobs

7. Consent Agenda Items Held for Discussion

Should any items be removed from the Consent Agenda for discussion, they will be discussed at this time.

8. Introduction and First Readings of Ordinances

(Second and Final Reading - March 17, 2026)

8a. Ordinance 2026-9 to adopt recommended changes to actuarial assumptions and methods for the City of Ocala General Employees' Pension Plan, as outlined in the 2014-2024 Experience Study **ORD-2026-9**

9. Public Hearings / Second and Final Readings / Adoption of Ordinances

9a. Ordinance 2026-7 to rezone approximately 2.26 acres for properties located in the 1400 block of NE 14th Street (Parcel 26496-005-00 & 26496-005-01) from RO, Residential Office, and R-1, Single Family Residential, to R-3, Multi- Family Residential (Case ZON25-0016) (Quasi-Judicial)

Presentation By Endira Madraveren

Introduced by: James P. Hilty Sr

9b. Ordinance 2026-8 to rezone two properties totaling approximately 30.49-acres located at 5019 W Silver Springs Blvd and the parcel adjacent to the east (Parcel 23180-000-00 & 23176-003-00) from PD, Planned Development, to M-1, Light Industrial (Case ZON25-0018) (Quasi-Judicial)

Presentation By: Emily Johnson

Introduced by: Kristen M. Dreyer

10. General Business

10a. One-Year renewal of Agreement for Tree Trimming and Line Clearance Services with Davey Tree Expert Company in an amount not to exceed $2,541,543

Presentation By: Chad Lynch

10b. Contract extension and expansion for Supervisory Control Data Acquisition Software Services with Survalent Technology Corporation for a total initial cost of $339,541 **2026-0570**

Presentation By: Chad Lynch

10c. Five-year renewal with Davenport Group for server virtualization software, VMware, maintenance and support in an estimated expenditure of $171,648

Presentation By: Christopher Ramos

10d. Utilization of a cooperative purchasing agreement with Government Finance Officers Association for consulting services in an amount not to exceed $233,000

Presentation By: Christopher Ramos

10e. Three-year Agreement with Environmental Systems Research Institute, Inc., to provide citywide geographic information system software with an estimated aggregate expenditure of $180,900

Presentation By: Kelly Vann

10f. One-year renewal of contract service agreement with American Pipe & Tank, Inc, for the provision of wastewater services with an aggregate expenditure not to exceed $100,000

Presentation By: Sean Lanier

10g. One-year renewal of contract with Southern Lawn Care Mid Florida, Inc., for ground maintenance services in an amount not to exceed $261,900

Presentation By: Greg Vandeventer

10h. First Amendment to the Agreement for Third Party Liability/Workers' Compensation Claims Administration Services between the City of Ocala and PMA Management Corp. renewing the agreement for an additional three-year term and establishing a total contract sum not to exceed $802,239

Presentation By: Todd Swanson

10i. Continued utilization of the State of Florida's contract with WEX Bank for fuel card services for renewal term expenditures in an amount not to exceed $96,000

Presentation By: Michael Balken

10j. Utilization of a cooperative purchasing agreement with Iteris, Inc., for the purchase of traffic signal travel time readers with connected vehicle capability in the amount of $384,000

Presentation By: Darren Park

10k. Purchase and Sale Agreement for approximately 6.65 acres of real property located east of NW Martin Luther King, Jr. Ave., identified by Parcel ID: 25502-000-00, in an amount not to exceed $550,000

Presentation By: Darren Park

10l. Budget Resolution 2026-130 to amend the Fiscal Year 2025-26 budget to transfer funds from the Stormwater Reserve for Contingency account to purchase parcel 25502-000-00 in the amount of $550,000 **BR-2026-130**

Presentation By: Darren Park

10m. Budget Resolution 2026-131 to amend the Fiscal Year 2025-26 budget to appropriate grant funding from the Florida Department of Transportation for the design and construction of fuel farm, wash rack, and parking concrete pads in the amount of $478,285 and transfer funds from the Reserve for Projects account in the amount of $119,572 **BR-2026-131**

Presentation By: Matthew Grow

10n. Three-year renewal of the lease with Enterprise Leasing Company of Florida LLC at the Ocala International Airport for annual rent and fees of approximately $410,374

Presentation By: Matthew Grow

10o. Three-year renewal of the lease with Avis/Budget Rental Car, LLC, at the Ocala International Airport for annual rent and fees of approximately $310,368

Presentation By: Matthew Grow

Vulnerability Assessment

Task 9: Public Presentation

August 19, 2025

Agreement No. 24PLN40

Kimley»Horn

OCALA

Project Introduction

This project has been collaboratively funded by the City of Ocala and the Florida Department of Environmental Protection's Resilient Florida Grant Program.

Project Objective

To conduct a Vulnerability Assessment compliant with s. 380.093, F.S. identifying risks associated with flooding events in the City of Ocala.

What is a Vulnerability Assessment?

Definition: A Vulnerability Assessment is a study conducted at the City or County level to evaluate the impact of flooding on critical assets.

Purpose

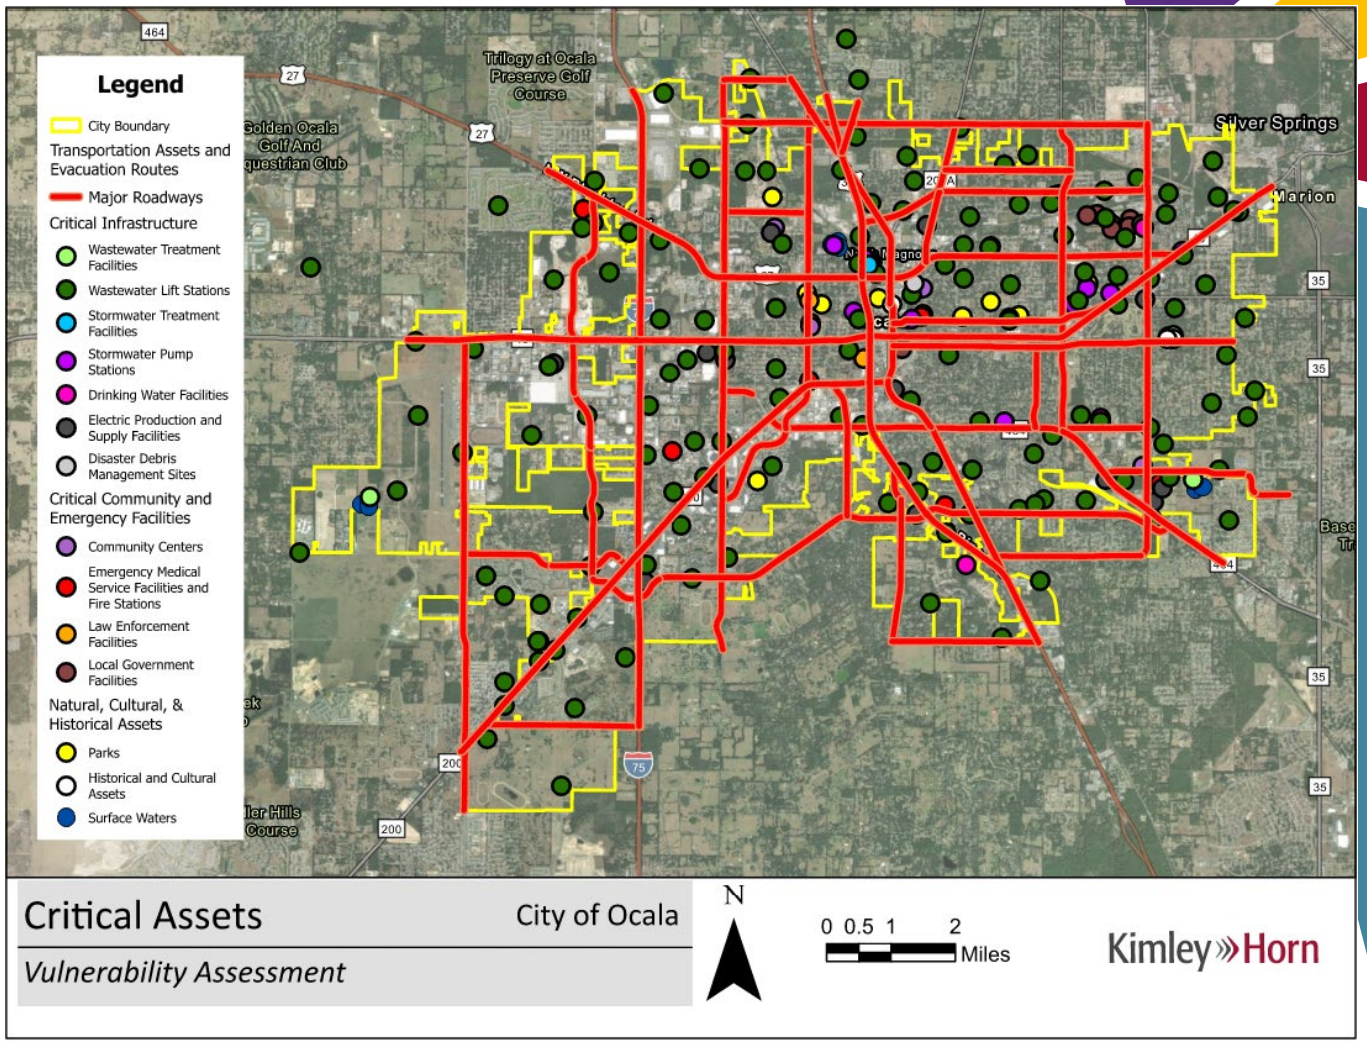
- To identify risks associated with flooding due to rainfall
- To identify vulnerable property or infrastructure
- To prioritize high-risk focus areas
- To devise resilience-based strategies to target risks
  - Adaptation Plan

What is Included?

- Inventory of City-Owned Critical Assets
  - Examples: Roadways, Utilities, City Buildings, Parks, and More.
- A Planning-level Flood Risk Analysis
  - Terrain-based floodplain modeling to generate rainfall.

Why is this Important?

- Vulnerability Assessments are required per F.S. 380.093
- City received FDEP grant funding to complete
- Results of the Assessment are used to apply for State funding through the Resilient Florida Grant Program
- Supports long-term planning efforts and emergency preparedness
- Builds a stronger, more resilient community



Project Schedule

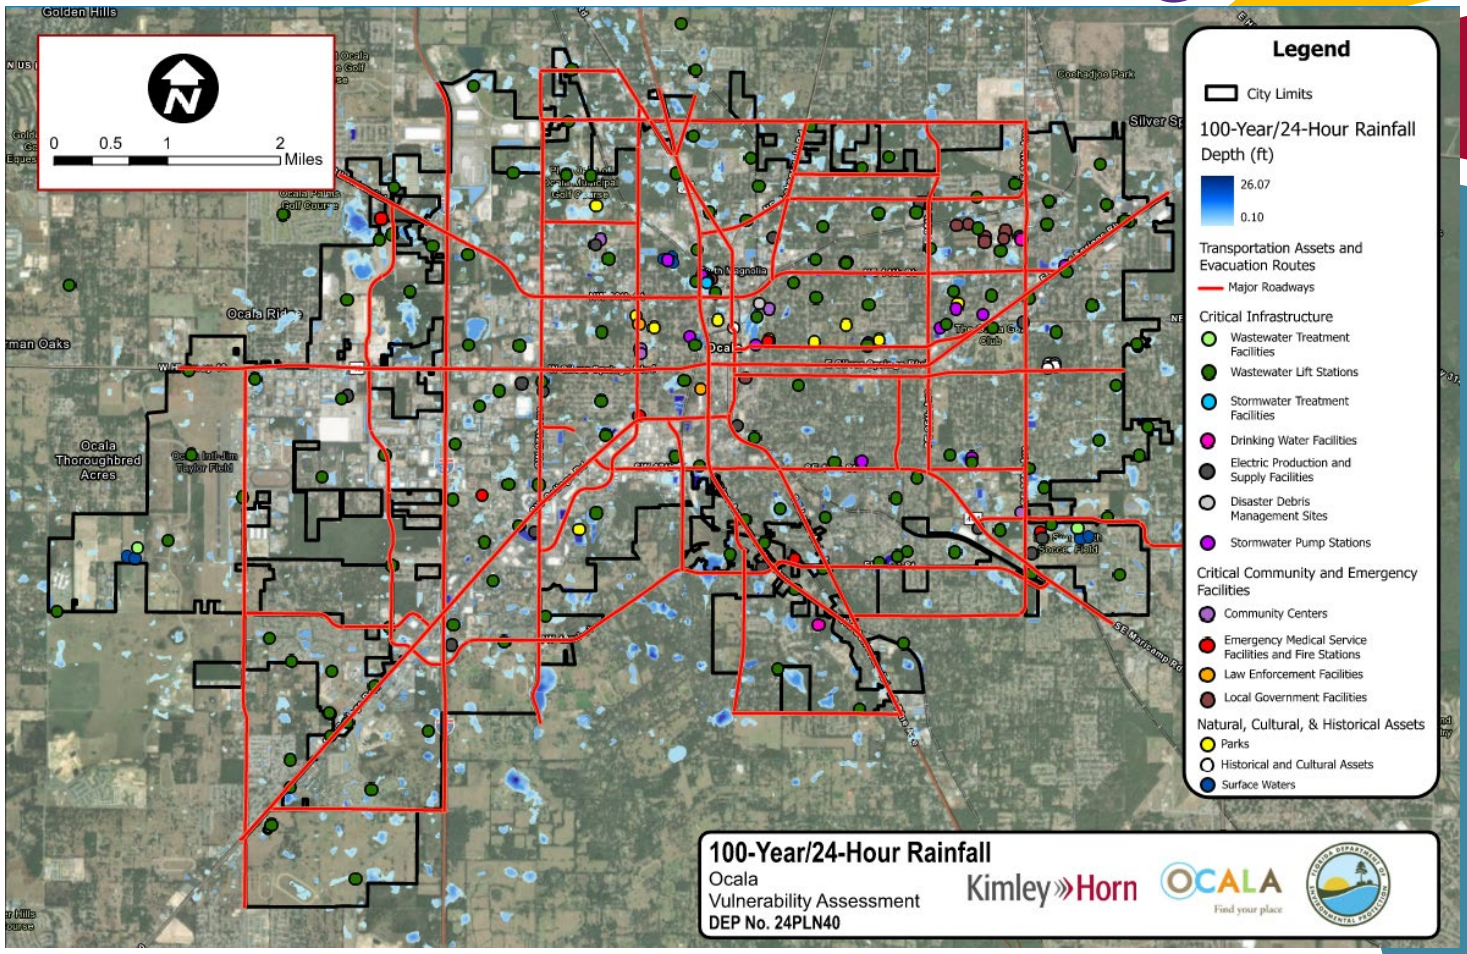
Task #	Task Title
1	Identify Vulnerability Assessment Data Standards
2	Kickoff Meeting
3	Public Outreach Meeting
4	Acquire Background Data
5	Exposure Analysis
6	Sensitivity Analysis
7	Identify Focus Areas
8	Final Vulnerability Assessment Report, Maps and Tables
9	Public Presentation
10	Adaptation Plan

Data Collection

Data Required:

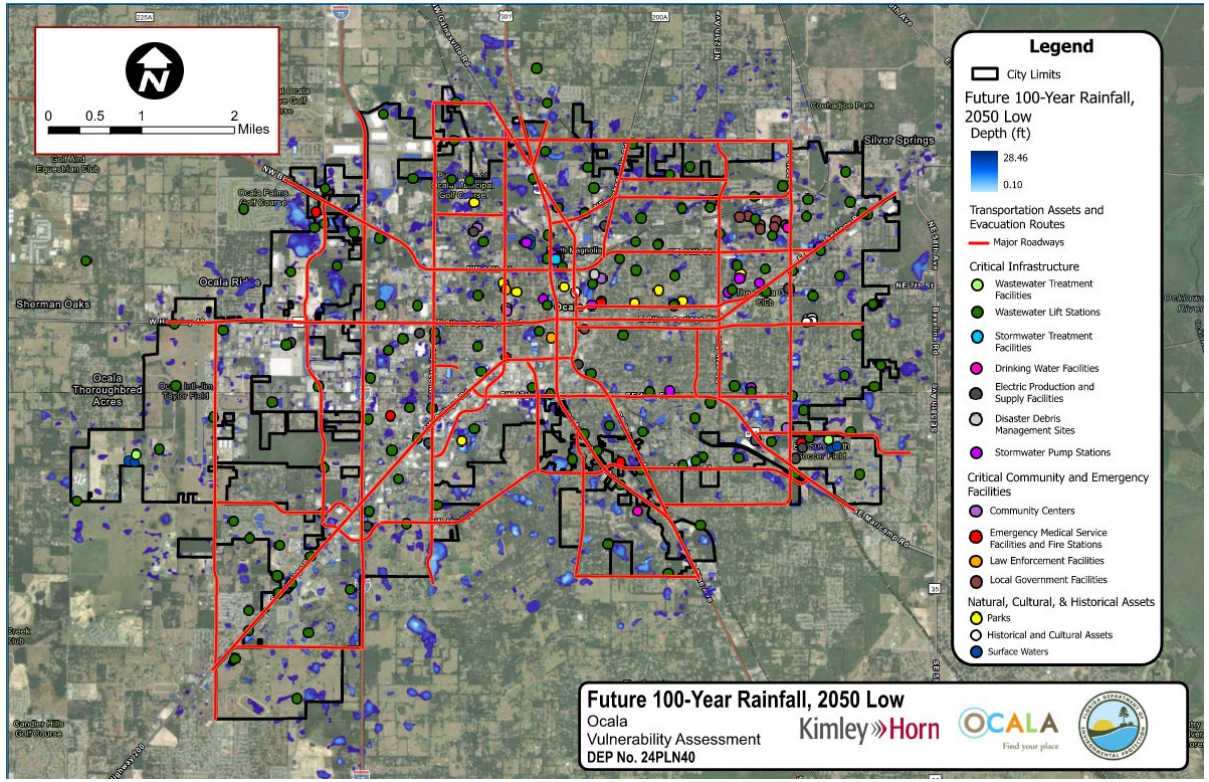
- Topographic Data
- Flood Scenario Data
  - Rainfall
- Inventory of City-Owned Assets
  - Transportation Assets and Evacuation Routes
  - Critical Infrastructure
  - Critical Community and Emergency Facilities
  - Natural, Cultural, and Historical Resources

Flood Scenarios



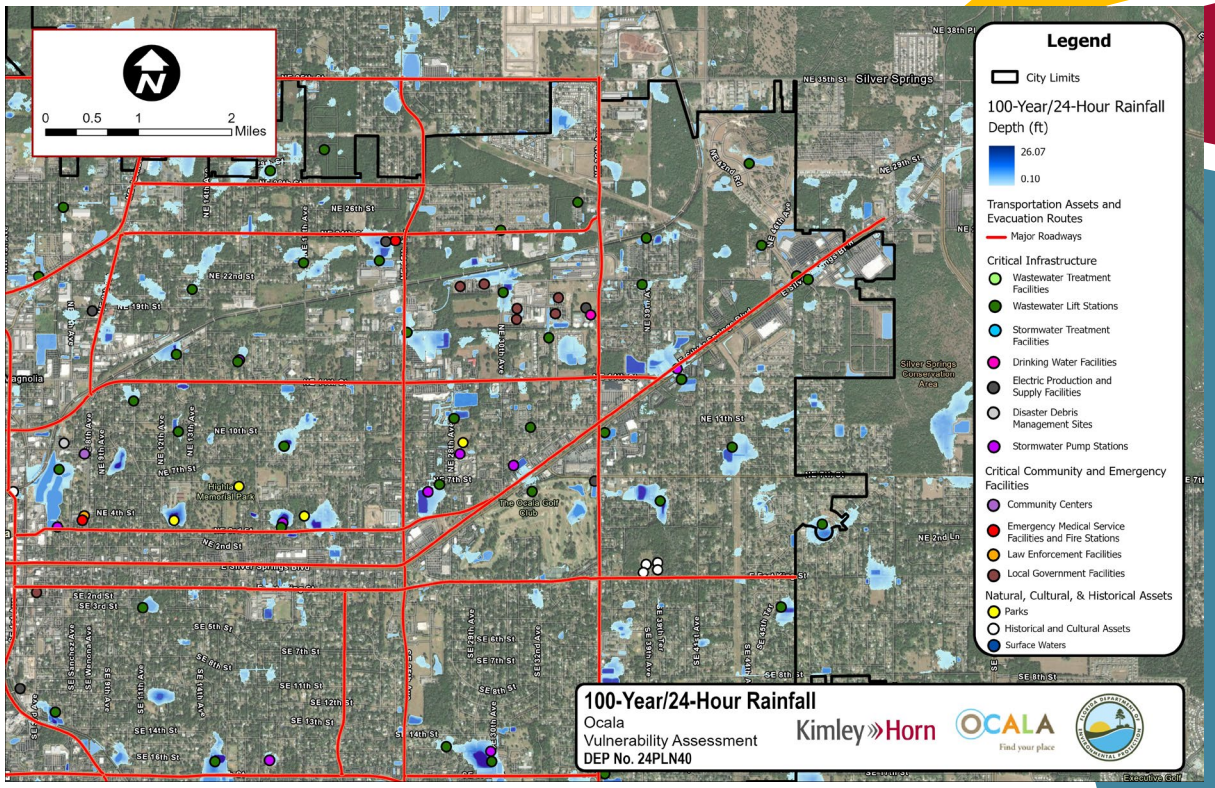
Scenario Number	Scenario	Source
Rainfall		
1	100-Year/24 Hour	NOAA Atlas 14
2	500-Year/24 Hour	NOAA Atlas 14
3	Future 100-Year, 2050 Low	NOAA Atlas 14 & FIU CF's
4	Future 100-Year, 2050 High	NOAA Atlas 14 & FIU CF's
5	Future 100-Year, 2080 Low	NOAA Atlas 14 & FIU CF's
6	Future 100-Year, 2080 High	NOAA Atlas 14 & FIU CF's

Exposure Analysis



Objective:

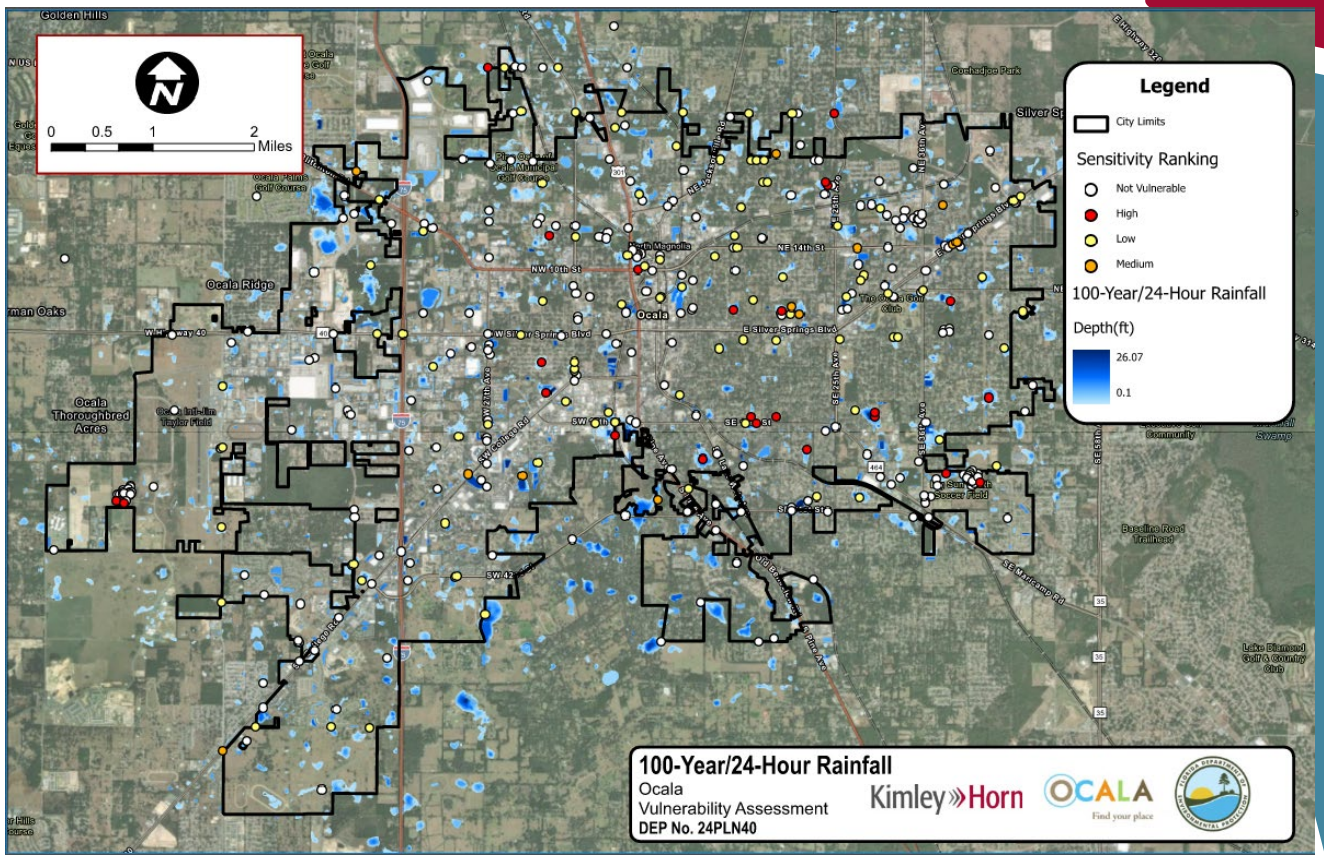
To identify water depth for flood scenarios including:



- Rainfall-Induced Flooding

100-Year Rainfall

Future 100-Year Storm Surge



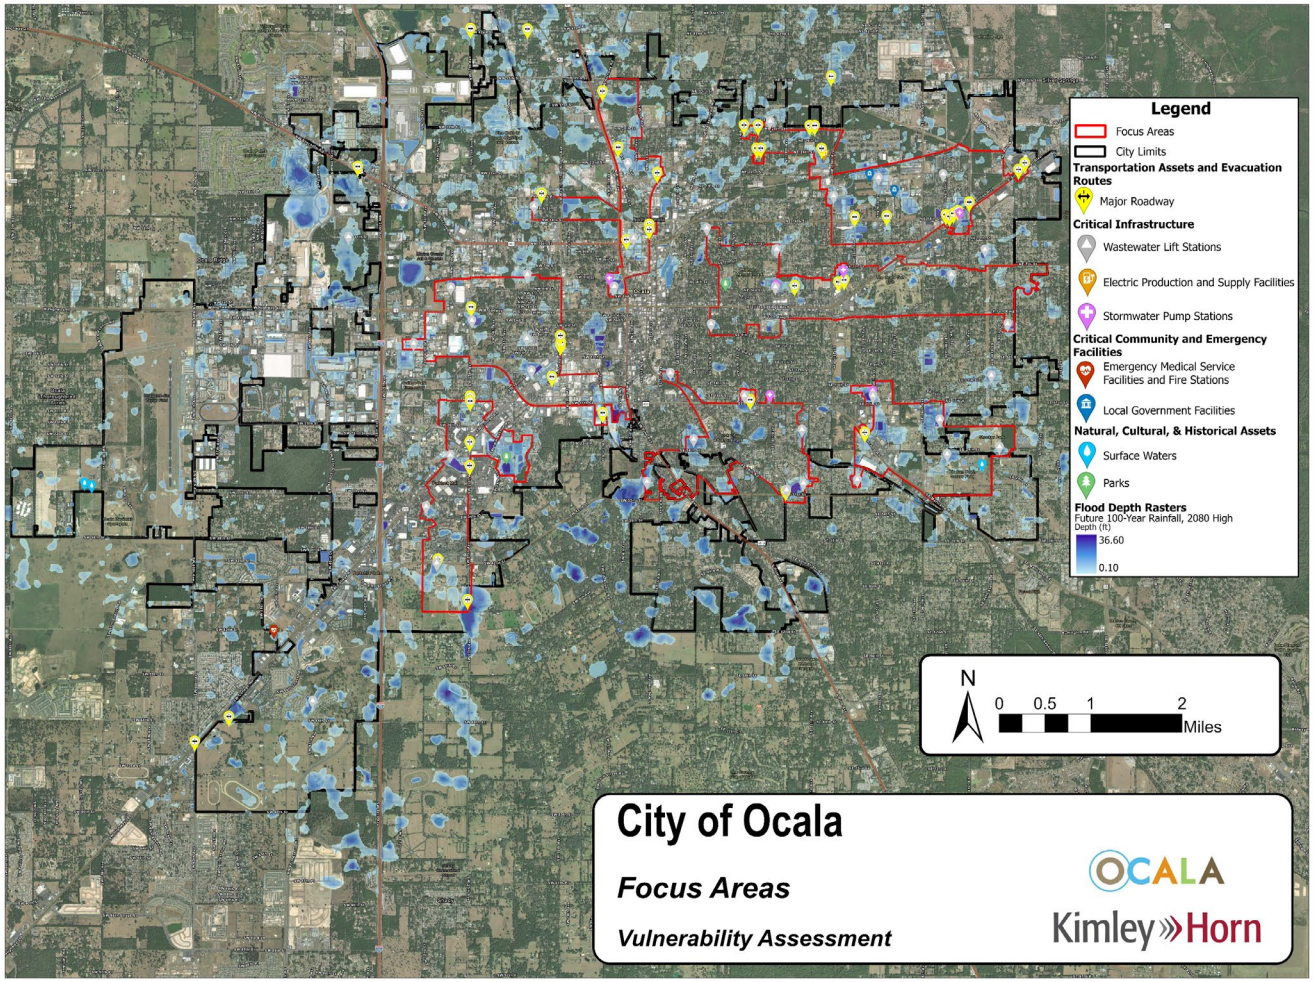
100-Year Storm Surge – Zoomed in

Sensitivity Analysis

Objective:

To measure the impact of flooding on assets and evaluate the flood severity on each asset class for flood scenarios including:

- Rainfall-Induced Flooding

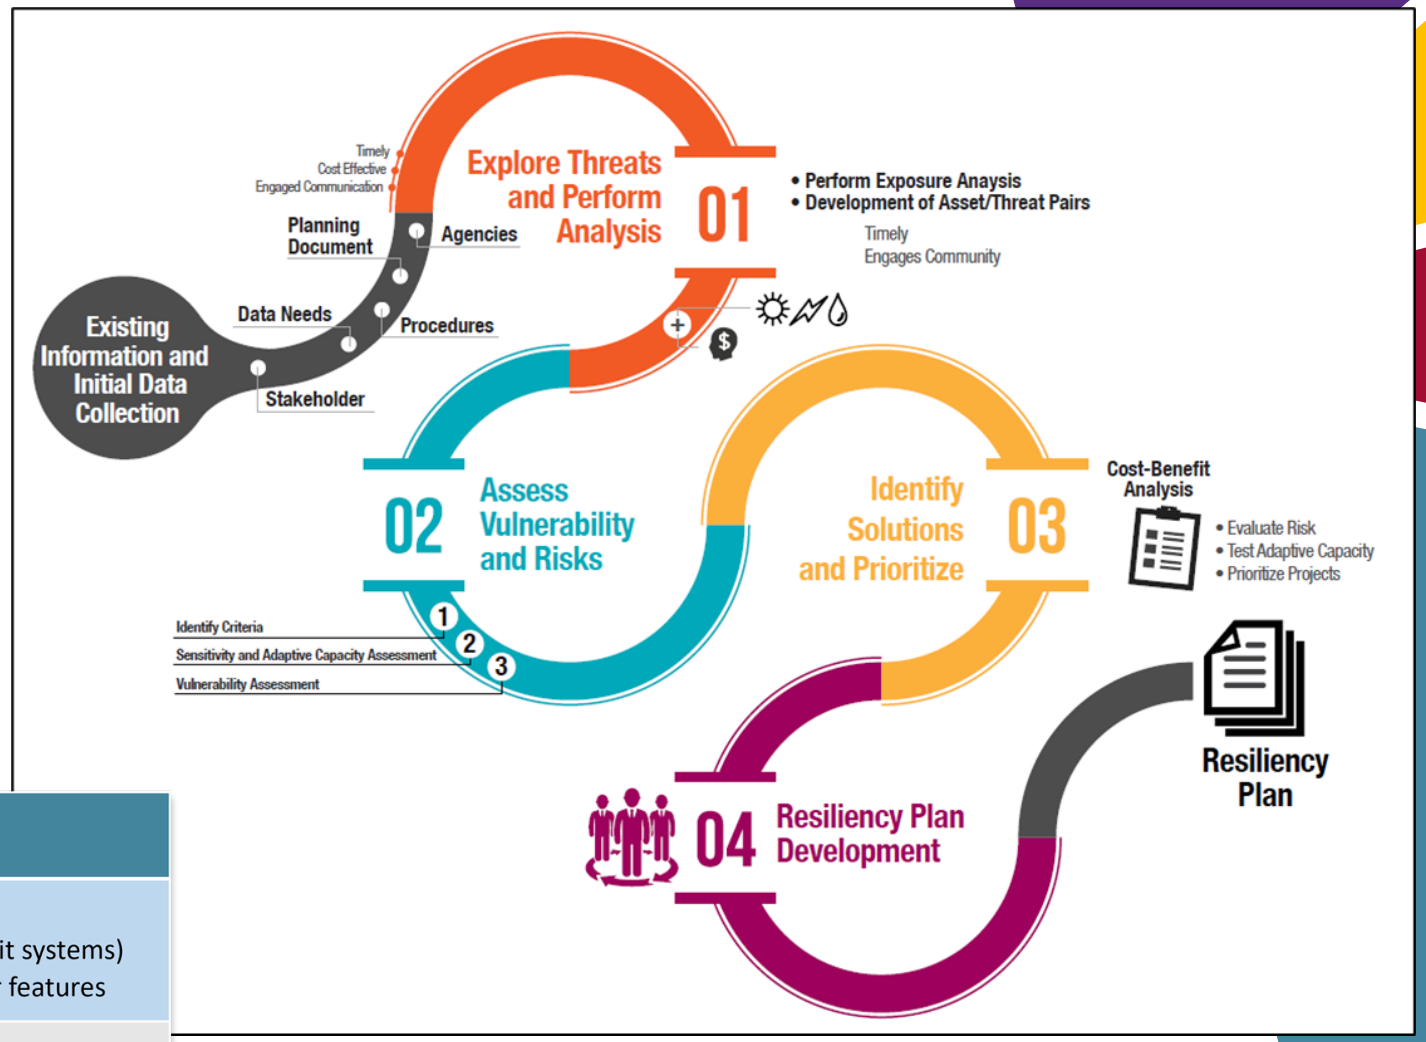


Identify Focus Areas

Objective:

Identify highly vulnerable focus areas within the City which can benefit from future adaptation strategies.

Methodology:



- Exposure/Sensitivity Analysis Results
- City and Resident Input

Adaptation Plan

Objective:

To devise adaptation interventions and/or strategies to increase resiliency.

Intervention	Example
Blue, Gray and Green Infrastructure	**Blue** • Regional stormwater facilities (credit systems) • Integrated passive parks with water features
	Gray • Hardening or raising of infrastructure • Adding storage/capacity • Diverting flows
	Green • Living shorelines • Bioswales, upflow filters, filter marshes • Landscaping – green roofs, canopy coverage

Next Steps

- Finalize the Vulnerability Assessment
  - Submit Final Vulnerability Assessment Report, Maps, and Tables
- Complete the Adaptation Plan
- Submit for FDEP Resilient Florida Grant Funding
- Begin implementation of resilience projects

Thank you!

Presentation By: Matthew Grow

Department: Aviation

FORMAL TITLE:
One-year lease for office space at Ocala International Airport with Ascente Aviation LLC, with a monthly receivables amount of $1,369

OCALA'S RELEVANT STRATEGIC GOALS:
Fiscally Sustainable, Economic Hub

PROOF OF PUBLICATION:
NA

BACKGROUND:
Ascente Aviation ("Ascente") approached Ocala International Airport ("OIA") staff to request office space within the general aviation terminal building. Ascente provides on-demand helicopter charter services.

FINDINGS AND CONCLUSIONS:
This 438-square-foot office space first became available in the summer of 2025. An appraisal was commissioned, which determined the space's value to be $37.50 per square foot (gross lease). Securing this lease with Ascente will leave no vacant office space available at OIA. The Airport Advisory Board and Airport staff recommend approval.

FISCAL IMPACT:
Fiscal Year 2025-26 annual revenue is $10,950 in account 451-362-000-000-02-31211.

PROCUREMENT REVIEW:
This agreement has been reviewed by the Procurement & Contracting Officer in compliance with City policies and procedures.

LEGAL REVIEW:
This lease will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with Changes
- Table

- Deny

LEASE FOR OFFICE SPACE AT AIRPORT TERMINAL Ascente Aviation, LLC

THIS LEASE is entered into and effective on February 1st, 2026, between:

- City of Ocala, a Florida municipal corporation; and
- Ascente Aviation, LLC

WHEREAS:

A. Landlord owns the Airport including the Terminal.

B. Landlord occupies the Exclusive Space and leases, to third parties, the Leased Space.

C. Tenant desires to lease from Landlord, and Landlord desires to lease to Tenant, the Premises, being part of the Leased Space.

NOW THEREFORE, in consideration of the matters set forth above (which are incorporated herein by reference), the exchange of the mutual promises set forth herein, and other good and valuable consideration, the parties hereto agree as follows:

1. **Definitions**. In addition to the other terms defined in this Lease, the following definitions:

1.1. *Airport* – The City of Ocala International Airport.

1.2. *Base Rent* – As set forth in paragraph 4.1.

1.3. *Common Area* – As set forth in paragraph 7.

1.4. *Exclusive Space* – The portion of the Terminal exclusively occupied by Landlord.

1.5. *Intended Use* – Tenant's intended use of the Premises as an office and meeting space with services ancillary thereto.

1.6. *Lease Year* – A period of one (1) year, with the First Lease Year commencing on the Effective Date and ending on the first anniversary thereof, and subsequent Lease Years commencing on the first day after the expiration of the prior Lease Year and ending one (1) year thereafter.

1.7. *Leased Space* – Portions of the Terminal leased, or to be leased, by Landlord to Tenant and the Other Lessees.

1.8. *Other Lessees* – Lessees of the Leased Space other than Tenant.

1.9. *Premises* – The portion of the Leased Space being leased by Landlord to Tenant under this Lease as more specifically set forth in paragraph 2.

1.10. *Real Property* – The Terminal and that part of the Airport parking lot generally depicted on the sketch attached hereto as **Exhibit A**.

1.11. *Rent* – All amounts to be paid by Tenant to Landlord hereunder including Base Rent, Additional Rent, and as otherwise expressly provided in this Lease.

1.12. *Tenant Parking Spaces* – As set forth in paragraph 2.2.2.

1.13. *Terminal* – The "General Aviation Terminal" located at the Airport.

2. **Lease of Premises**.

2.1. Landlord leases to Tenant, and Tenant leases from Landlord, those premises as described and depicted by cross-hatching on the sketch attached hereto as **Exhibit B** (the "Premises") within the Leased Space. (The sketch is attached only to provide a visual guide to the location of the Premises in relation to the presently existing exterior and interior walls of the Terminal). Landlord may construct, improve and alter the Terminal from time to time as Landlord chooses as long as such activities do not interfere with Tenant's lease of the Premises hereunder.

2.2. The use and occupation by Tenant of the Premises shall include the:

2.2.1. Non-exclusive use, in common with Landlord, Other Lessees and, to the extent permitted by Landlord, other persons (including members of the public), and subject to the provisions of this Lease, of the Common Areas (as set forth in paragraph 7).

2.2.2. The exclusive use of the parking spaces ("Tenant Parking Spaces") in the parking lot designated as Ascente Aviation Assigned Spaces" on the sketch attached hereto as **Exhibit A**. Landlord may relocate the Tenant Parking Spaces to other locations within the Terminal parking lot and may reduce the number of Tenant Parking Spaces if Tenant has historically not utilized all of the Tenant Parking Spaces previously assigned to it.

3. **Term**.

3.1. The term of this Lease commences with the Effective Date and ends at 5:00 p.m. on the first anniversary of the Effective Date.

4. **Rent**.

4.1. Base Rent. Tenant shall pay to Landlord rent ("Base Rent"), commencing on the Effective Date as follows:

4.1.1. During the Initial Term, the Base Rent shall be in the amount of One Thousand Three Hundred and sixty-eight 75/100 Dollars ($1,368.75) per month.

4.1.2. The Base Rent is payable without Landlord's demand on the first day of each calendar month during the Lease term. If this Lease commences on a day other than the first day of a calendar month, or terminates on a day other than the last day of a calendar month, the Base Rent will be prorated on a daily basis.

4.1.3. All Rent payable under this Lease shall be paid to Landlord without set-off or withholding for any reason and shall be mailed or delivered to Landlord at the address set forth in paragraph 23.11, or such other address of which Landlord shall notify Tenant, so that it is received prior to the date it is due.

5. **Additional Payments and Tenant Obligations**.

5.1. Additional Rent Payments. In addition to the Base Rent under paragraph 4, all other payments that Tenant is obligated to make under this Lease are considered Rent (the "Additional Rent"), regardless of whether the payments are so designated. (The foregoing shall apply solely to remedies available to Landlord for failure to pay such Additional Rent, and not for sale tax purposes). All Additional Rent payments are due and payable at the time Landlord demands payment or at the time the next succeeding Base Rent installment is due, whichever occurs first. Landlord shall have the same remedies for Tenant's failure to pay Additional Rent as it does for Tenant's failure to pay monthly installments of Base Rent. All further references to "Rent" shall include both monthly installments of Base Rent and Additional Rent.

5.2. Sales and Use Taxes. At the time Rent payments are made, Tenant agrees to pay to Landlord all sales and use taxes that arise because of payment of Rent to Landlord.

5.3. Past Due Rent. If Tenant shall fail to pay any Rent when due, Tenant shall also pay to Landlord an initial late payment service charge covering administrative and overhead expenses equal to twelve percent (12%) of the amount overdue. A payment is considered late if received ten (10) days or more after such payment is due. (This is not a grace period; any payment not received when due is a default.) If payment made by check is dishonored by Tenant's bank, the amount due shall be deemed a "late payment" and treated as set forth herein.

5.4. Amounts Advanced by Landlord. Any amount advanced by Landlord pursuant to the terms and provisions of this Lease shall be repaid to Landlord by Tenant by the first of the calendar month following the date of such advance unless otherwise specifically provided in this Lease.

5.5. Tenant's Taxes. Tenant further covenants and agrees to pay promptly when due all taxes assessed against all fixtures, furnishings, equipment and stock-in-trade placed in or on the Premises during the term of this Lease.

6. **Security Deposit.**

6.1. Amount and Purpose of Security Deposit.

6.1.1. Within ten (10) days after the Effective Date, Tenant shall deposit with Landlord a security deposit (the " Security Deposit") in the amount of $1,368.75 as security for Tenant's faithful performance and observance of the Lease terms, conditions, and provisions, including without limitation, surrender of possession of the Premises to Landlord. The Security Deposit

does not constitute prepayment of any Rent for any month during the Term of this Lease.

6.1.2. In the event that Tenant extends the term of this Lease, Tenant shall, prior to the commencement of the Renewal Term, increase the Security Deposit so that it equals twice the amount of Base Rent calculated under paragraph 4.1.1.

6.2. Application or Retention of Security Deposit. If Tenant defaults on any of the terms, conditions, or provisions of this Lease, including but not limited to the payment of Rent or additional payments, Landlord may apply or retain all or part of the Security Deposit to the extent required to pay the delinquent Rent or additional payments, or to reimburse Landlord for all sums incurred or expended because of Tenant's default. Reimbursable sums include, but are not limited to, any damages or deficiencies that result from reletting the Premises. Such damages or deficiencies are reimbursable to Landlord regardless of whether they occur before or after Landlord's summary proceedings or other reentry. If Landlord applies or retains any part of the Security Deposit, Tenant shall deposit with Landlord an equal amount to replace that which has been applied or retained so that Landlord has a full Security Deposit at all times during the Terms of this Lease. The replacement amount is payable on Landlord's demand.

6.3. Interest. No interest shall be paid or be payable on the Security Deposit. Tenant hereby irrevocably waives the benefit of any provision of law requiring the Security Deposit to be held in escrow or by a third party, and such Security Deposit shall be deemed to be the property of Landlord and may be co-mingled by Landlord, with Landlord's own funds. Landlord may deliver or credit the funds deposited hereunder by Tenant to a buyer of Landlord's interest in the Premises in the event that such interest is sold and, thereupon, Landlord shall be fully, finally, and absolutely discharged from any further liability with respect to such Security Deposit and all other obligations and liabilities hereunder, and this provision shall also apply to the benefit of any and all subsequent transferees. Tenant agrees that Tenant will look solely to Landlord or its successor(s) in interest, as applicable, for the return of its Security Deposit.

6.4. Return of Security Deposit. If Tenant complies fully with all the terms, provisions, covenants, and conditions of this Lease, Landlord shall return the Security Deposit to Tenant within 30 days after the date on which this Lease terminates and after Tenant delivers possession of the Premises to Landlord.

7. **Common Areas**.

7.1. Common Areas means the areas and facilities in the Terminal, and the Real Property, made available by Landlord for the common use and benefit of occupants the Terminal (including Landlord, Tenant and the Other Lessees) and their customers, employees and invitees.

7.2. Common Areas shall include the following areas within the Real Property:

7.2.1. The main lobby.

7.2.2. The meeting rooms within the Terminal provided that Tenant may use the meeting rooms, when they are not being used by Landlord, on a "first come, first served" basis with the Other Lessees. Tenant shall reserve use of the meeting rooms though Landlord or its designated representative.

7.2.3. The public restrooms.

7.2.4. The hallways.

7.2.5. The covered front entrance and airside patio space.

7.2.6. Parking spaces within the parking lot that have not been assigned by Landlord for the exclusive use of Landlord or any Other Lessees.

7.2.7. Such other areas designated by Landlord as Common Areas.

7.3. Common Areas shall not include the following areas within the Terminal:

7.3.1. The Exclusive Space.

7.3.2. Parking spaces within the parking lot that have been exclusively assigned by Landlord for use by Landlord or Other Lessees.

7.3.3. Such other areas designated by Landlord as not being Common Areas.

7.3.4. The portions of the parking lot other than the Tenant Parking Spaces.

7.4. Throughout the term hereof, Landlord shall operate and maintain the Common Areas for the use and benefit of the occupants of the Terminal and their customers, employees and invitees. Landlord may exercise exclusive control of the Common Areas and therefore, may: (a) temporarily close any part of the Common Areas; and (b) make such changes in the Common Areas as in its reasonable opinion are in the best interests of the Terminal's occupants.

7.5. Tenant shall keep all Common Areas free of obstructions created or permitted by Tenant. Tenant shall permit the use of the Common Areas only for normal uses. If in Landlord's opinion unauthorized persons are using any of the Common Areas because of Tenant's occupancy of the Premises, Tenant shall, upon Landlord's demand, enforce Landlord's rights against all such unauthorized persons. Landlord shall nonetheless have the right at any time to remove or restrain any such unauthorized persons from the Common Areas.

8. **Rules**.

8.1. Tenant acknowledges that it will occupy the Terminal along with Landlord and the Other Lessees of the Leased Space, and that, it is in the best interests of all occupants of the Terminal to be governed by certain rules ("Rules") governing the use of the Terminal including the use of Common Areas.

8.2. Tenant shall comply with all Rules adopted by Landlord. Violation of any rule by Tenant or by any of Tenant's agents, employees, contractors, guests or invitees shall be a default of this Lease.

8.3. The initial Rules are attached as **Exhibit C**. Landlord may adopt amended Rules hereafter in its sole discretion after consultation with Tenant and the Other Lessees. Any amendment to the Rules or Amended Rules shall be effective upon delivery thereof to Tenant.

8.4. Wherever there is any conflict between the Rules and the provisions of this Lease, the provisions of this Lease shall govern.

8.5. Landlord shall not be responsible to Tenant for any nonobservance of the Rules on the part of Other Lessees but shall take reasonable efforts to compel the Other Lessees to observe the Rules, including actions under its leases with such Other Lessees.

9. **Landlord's Services and Utilities**. Landlord shall provide or pay for the following:

9.1. Utilities.

9.1.1. Landlord shall pay for the usual and reasonable electricity, water, sewer, and trash collection services that are provided by the utility providers for the Terminal; but Landlord shall not be responsible for any failure to provide those utility services (even if Landlord, in its capacity as a utility provider, is the provider of the utility services), unless the failure to provide the utility services is due to Landlord's failure to pay amounts owed for such services. Tenant shall not use any electrical equipment that in Landlord's reasonable opinion will overload the wiring installations or interfere with the reasonable use of such installations by Landlord or other Tenants in the building in which the Premises are located. Tenant shall use reasonable energy conservation measures to avoid excessive use of utilities.

9.1.2. Notwithstanding paragraph 9.1.1, Tenant shall be responsible for paying for telephone service and Internet service.

9.2. Ad Valorem Taxes. Landlord shall pay all ad valorem taxes and assessments (if any) on the Premises that accrue during the Term.

9.3. Janitorial Service.

9.3.1. Landlord will provide janitorial, maintenance and trash removal services for the Common Areas within the Terminal, including, but not limited to, restroom cleaning, lobby and hallway cleaning and refuse removal from the Common Areas as necessary to maintain them in a clean condition.

9.3.2. Tenant shall be responsible for all janitorial service within the Premises and, if requested by Landlord, for any meeting rooms utilized by Tenant immediately following their use by Tenant. Tenant shall dispose of all refuse or rubbish from the Premises in one or more trash dumpsters at the

Terminal to be provided by Landlord and designed by Landlord for such purposes.

9.4. No Liability for Interruption of Services. Landlord shall not be liable for full or partial stoppage or interruption of the above services or utilities unless negligence on the part of Landlord shall be shown, and Landlord shall not be liable for consequential damages in any event.

10. **Use of Premises**.

10.1. The Premises shall be used and occupied by Tenant solely for the Intended Use, and for no other use without Landlord's prior written consent, which consent may be withheld by Landlord in its sole discretion. Without limiting the foregoing, Tenant shall not utilize the Premises to provide aeronautical services, other than the Intended Use, including, without limitation, fueling, hangaring, tie-down and parking, aircraft rental, aircraft maintenance, flight instruction and similar services, for airplanes not owned or utilized by Tenant in its charter business.

10.2. Tenant agrees that no business shall be carried on, nor any act or acts done or permitted to be done on the Premises that in any manner conflicts with any applicable valid law or regulation of the City of Ocala, County of Marion, State of Florida, the United States or any department, bureau or agency thereof.

10.3. Tenant will not do or suffer to be done in or upon the Premises any act or thing which amounts to a nuisance or creates waste to the Premises.

10.4. Tenant shall observe and comply with all recorded restrictive covenants applicable to the Premises.

10.5. Nuisance/Hazardous Substances.

10.5.1. Tenant shall not commit any nuisance, nor permit the admission of any objectionable noise, or odor, nor burn any trash or refuse within the Premises, nor bring on, deposit or allow to be brought on or deposited on the Premises any asbestos materials or any other Hazardous Substance or materials as the same may be defined by State, Federal or local laws, rules, statutes, or regulations; nor make any use of the Premises or any part thereof or equipment therein which is improper, offensive or contrary to any law.

10.5.2. Tenant shall not cause or commit any Hazardous Substance to be used, stored, generated or disposed of on or in the Premises by Tenant, Tenant's agents, employees, contractors, or invitees, without first obtaining Landlord's written consent. If Hazardous Substances are used, stored, generated, or disposed of on or in the Premises except as permitted above, or if the Premises become contaminated in any manner for which Tenant is legally liable, Tenant shall indemnify and hold harmless Landlord from any and all claims, damages, fines, judgments, penalties, costs, liabilities or losses (including, but without limitation, a decrease in value of the Premises, damages due to loss or restriction of rentable or usable space, or any damages due to adverse impact on marketing of the space, and any

and all sums paid for settlement of claims, attorneys' fees, consultant and expert fees, and costs) arising during or after the Lease Term and arising as a result of such contamination by Tenant. Without limitation of the foregoing, if Tenant causes or permits the presence of any Hazardous Substance on the Premises and such results in contamination, Tenant shall promptly, at its sole expense, take any and all actions necessary to return the Premises to the condition existing prior to the presence of any such Hazardous Substance on the Premises. Tenant shall first obtain Landlord's approval for any such remedial action.

10.5.3. As used herein "Hazardous Substance" means any substance which is toxic, ignitible, reactive, or corrosive and which is regulated by any local government, the State of Florida, or the United States Government. "Hazardous Substance" includes any and all material or substances which are defined as "Hazardous Substance" pursuant to State, Federal, or local government law. "Hazardous Substance" includes, but is not restricted to, asbestos, polychlorobipenyls ("PCB's") and petroleum.

10.6. Tenant's Acceptance of Premises. Tenant acknowledges that it has had a full and complete opportunity to inspect the Premises and hereby accepts the Premises in the condition they are on the Effective Date.

10.7. AS IS. Landlord is not making and specifically disclaims any warranties or representations of any kind or character, express or implied, with respect to the Premises, including, but not limited to, zoning, tax consequences, physical or environmental conditions, availability of access, ingress or egress, operating history or projections, valuation, governmental approvals, governmental regulations, or any other matter or thing relating to or affecting the Premises including, without limitation: (a) the value, condition, merchantability, marketability, profitability, suitability or fitness for a particular use or purpose of the Premises, (b) the manner or quality of the construction or materials incorporated into any part of the Premises, and (c) the manner, quality, state of repair, or lack of repair of the Premises. Tenant agrees that with respect to the Premises, Tenant has not relied upon and will not rely upon, either directly or indirectly, any representation or warranty of Landlord or any agent of Landlord. Tenant represents that it is relying solely on its own expertise and that of Tenant's consultants, and that Tenant has conducted such inspections and investigations of the Premises, including, but not limited to, the physical and environmental conditions thereof, and shall rely upon same, and, shall assume the risk that adverse matters, including, but not limited to, adverse physical and environmental conditions, which may not have been revealed by Tenant's inspections and investigations. Landlord is not liable or bound in any manner by any verbal or written statements, representations, or information pertaining to the Premises furnished by any real estate broker, agent, employee, servant, or other person, unless the same are specifically set forth or referred to in this Lease. Moreover, Tenant's execution of this Lease shall be deemed to constitute an express waiver by Tenant or its successors and assigns of any right to sue Landlord and of Tenant's right to cause Landlord to be joined in an action brought under any federal, state, or local law, rule, act, or regulation which prohibits or regulates the use, handling, storage, transportation, or disposal of a hazardous or toxic substance or which requires removal or remedial action with respect to such hazardous or toxic

substance, specifically including but not limited to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 United States Code. Section 9601, et seq. and Part IV of the Florida Air and Water Pollution Control Act, Chapter 403, Florida Statutes. TENANT ACKNOWLEDGES AND AGREES THAT TENANT ACCEPTS THE PREMISES "AS IS, WHERE IS," WITH ALL FAULTS, AND THERE ARE NO ORAL AGREEMENTS, WARRANTIES, OR REPRESENTATIONS (EXCEPT AS SPECIFICALLY PROVIDED HEREIN) COLLATERAL TO OR AFFECTING THE PREMISES BY LANDLORD, ANY AGENT OF LANDLORD OR ANY THIRD PARTY ACTING FOR ON BEHALF OF LANDLORD. This paragraph 10.7 shall survive the expiration or early termination of this Lease.

11. **Improvements**.

11.1. Permissible Alterations and Additions to Property.

11.1.1. Landlord shall have the right at any time to change the arrangement or location of entrances or passageways, doors and doorways, and corridors, elevators, stairs, toilets, or other public parts of the Terminal. On giving Tenant reasonable notice, Landlord shall have the right to change the name, number, or designation by which the Terminal is known.

11.1.2. Except as set forth herein concerning the Tenant Improvements, Tenant may not make any alterations or additions to the Premises, including but not limited to cutting the walls, ceiling, roofs, or floors, changing the exterior color, or altering the architecture, without on each occasion obtaining Landlord's prior written consent which shall not be unreasonably withheld. Tenant shall submit to Landlord plans and specifications for all alterations and additions at the time Landlord's consent is sought.

11.2. Signs.

11.2.1. Landlord has caused, or shall cause, to be constructed and installed signs for designating Tenant's business in the front of the Terminal, and on the wayfinding signage within the Terminal. Tenant shall be responsible for furnishing any proprietary messaging to be installed on the sign placed in front of the Terminal. Landlord will furnish the Tenant's chosen business name on the existing wayfinding sign within the Terminal interior. Tenant shall, as Additional Rent, reimburse Landlord for the cost of such signs, and shall hereafter bear all costs of repairing or replacing such signs.

11.2.2. In addition to the signage identified above, Landlord has installed and operates a digital message board on the Terminal street entrance at 60th Avenue. Tenant may request addition of proprietary messaging to include the Tenant's name and logo or other specific graphics to be displayed on the message board. Tenant requested messaging must be consistent with rules established by Landlord from time to time in its sole discretion.

11.2.3. Tenant shall cause to be constructed and installed signs for the purpose of identifying the Tenant Parking Spaces designated for sole use of the Tenant.

11.2.4. No other signs, whether building, freestanding, pylon or other signs, shall be placed within or on the Terminal without prior consent of Landlord.

12. **Condition of Premises**.

12.1. Tenant's Acceptance and Maintenance of Premises. Upon Tenant's occupancy of the Premises, Tenant will be deemed to have accepted the Premises in the condition they are in on that date insofar as Landlord's obligation to provide them is concerned. Subject to Landlord's obligations set forth in this Lease, Tenant agrees to maintain the Premises in the same condition, order, and repair as they are on that date, except for reasonable wear and tear arising from the use specified in this Lease.

12.2. Landlord's Obligation to Repair. Except as set forth in paragraph 12.3, Landlord shall keep the Terminal and Commons Areas in good order, condition and repair. Landlord shall make all repairs within a reasonable time after notice from Tenant stating the need for repairs. Landlord shall not be liable for any damage or inconvenience that may arise through repair or alterations of any part of the Terminal or the Common Areas; provided that Landlord, to the extent practical, shall endeavor to make any repairs or alterations in such a manner to minimize any inconvenience to any Tenant.

12.3. Tenant's Obligation to Repair. Notwithstanding paragraph 12.2, Tenant shall be responsible for the following:

12.3.1. Replacing all lighting inside the Premises, including replacing ballasts.

12.3.2. Shampooing any carpets and waxing floors not covered by carpets.

12.3.3. Providing pest control within the Premises.

12.3.4. Installing, maintaining, repairing and replacing any security alarm or security system within or servicing the Premises.

12.4. Damage to Premises. On Landlord's demand, Tenant shall pay for all damages to the Premises, the Terminal or any portion thereof that are caused by the act or neglect of Tenant, its invitees, or any persons in Tenant's employ or control.

12.5. Condition at End of Term. At the earlier of the expiration of the Lease Term or the termination of this Lease (either, the "Expiration Date"), Tenant will quit the Premises and will surrender them to Landlord. Tenant shall have the right to remove from the Premises and improvements all movable trade fixtures, movable equipment, and articles of personal property used or procured for use in connection with the operation of its business on or before the Expiration Date, provided that Tenant shall promptly repair, or cause to be repaired, any damages resulting to the Premises or improvements by reason of this removal. Any trade fixtures,

equipment, or articles of personal property of Tenant that remain at or on the Premises after the Expiration Date (or as to any Tenant Improvements, Tenant is obligated to remove, prior to the deadline set forth therein for Tenant to remove the Tenant Improvements) shall be deemed to have been abandoned by Tenant, and may either be retained by Landlord as its property or disposed of by Landlord without accountability to Tenant for the value of these trade fixtures, equipment, or articles of personal property, or any proceeds derived from the sale of these items.

12.6. Damage to Property. Except for the negligence of Landlord or Landlord's employees, agents or contractors, Landlord shall not be responsible for any damage to property of Tenant or of others located in or about the Premises or the Common Areas, nor for the loss of or damage to any property of Tenant or of others by theft or misappropriation or otherwise. Landlord shall not be liable for any injury or damage to persons or property resulting from fire, explosion, falling plaster, steam, gas, electricity, water, rain or leaks from any part of the Premises or from the pipes, appliances or plumbing works or from the roof, street or subsurface or from any other place or by dampness or by any other cause of whatever nature. Landlord shall not be liable for any such damage caused by Other Lessees or persons in the Premises, occupants of adjacent property, occupants of the Terminal, or the public, except for any latent defect in the Premises or the Terminal.

13. **Entry and Inspection of Premises**.

13.1. Landlord is entitled to enter the Premises during all reasonable hours for the following reasons:

13.1.1. To provide services or fulfill other obligations hereunder.

13.1.2. To examine the Premises.

13.1.3. To make all repairs, additions, or alterations that Landlord or agent deems necessary for safety, comfort, or preservation of the Premises or of the building.

13.1.4. Within the last six (6) months of the Initial Term, or any Renewal Term, Subject to approval by Tenant as to time and date, said approval not to be unreasonably withheld by Tenant, Landlord or Landlord's designated agent may show the Premises to prospective lessees of the Premises.

13.1.5. To remove signs, fixtures, alterations, or additions that do not conform to this Lease.

13.2. Landlord shall at all times have and retain a key with which to unlock all doors in and on the Premises, excluding Tenant's vaults, safes and file cabinets.

13.3. Landlord shall have the right to use any means that Landlord may deem proper to open doors in an emergency to obtain entry to the Premises. Tenant waives any claim for damages for any injury or inconvenience to or interference with Tenant's business, any loss of occupancy or quiet enjoyment of the Premises, and any other loss in, upon, or arising from Landlord's entry onto the Premises in an emergency.

13.4. Any entry to the Premises obtained by Landlord for any of the above stated purposes and by any of such means, or otherwise, shall not be construed or deemed a forcible or unlawful entry onto the Premises, or an eviction of Tenant from the Premises or any part of the Premises.

14. **Insurance**.

14.1. Liability. Tenant agrees that Landlord shall not be held responsible or liable to Tenant, Tenant's employees, customers, invitees, licensees, or others for any damage to personal property or personal injury caused by or arising out of Tenant's operation, conduct and use of the Premises, or the acts or omissions of Tenant, its employees, clients, invitees, licensees or others or by catastrophe. Tenant shall hold Landlord harmless and indemnify Landlord from and against all liability, damages, costs and attorneys' fees, injury, actions or causes of action whatsoever suffered or occasioned upon the Premises or arising out of the operation, conduct and use of the Premises, except those caused or created by Landlord.

14.2. Comprehensive, Fire, and Extended Insurance on Premises. Landlord shall maintain the following insurance coverage:

14.2.1. Comprehensive general public liability insurance on the Premises with limits determined by Landlord in the exercise of its sole discretion.

14.2.2. Landlord shall keep the Terminal and Common Areas presently existing or subsequently built on the Premises insured by a company that is duly authorized to do business in Florida. The insurance must be for the full insurable value of the Terminal and Common Areas (but not any improvements constructed by Tenant or Other Lessees, including, without limitation, the Tenant Improvements) against loss or damage by fire and any other risks that may be insured now or in the future by extended coverage. These risks include but are not limited to flood and windstorm. All insurance shall provide that the proceeds are to be delivered to Landlord.

14.3. Prohibited Conduct Effecting Insurance. Tenant may not perform or fail to do any act with respect to the Premises, may not use or occupy the Premises, and may not conduct or operate Tenant's business, in any manner that is objectionable to the insurance companies providing insurance under paragraph 14.2, it causes them to void or suspend any insurance, or that causes them to increase the premiums above the amounts that would usually have been in effect for the occupancy under this Lease. Tenant may not permit or suffer another person to do so with respect to the Premises.

14.4. Tenant's Insurance. Tenant shall carry:

14.4.1. *Commercial General Liability*. Coverage must be afforded under a Commercial General Liability policy with limits not less than:

14.4.1.1. $1,000,000 each occurrence and $2,000,000 aggregate for Bodily Injury, Property Damage, and Personal and Advertising Injury.

14.4.1.2. $1,000,000 each occurrence and $2,000,000 aggregate for Products and Completed Operations.

14.4.1.3. $100,000 each occurrence for Damage to Premises.

14.4.1.4. Policy must include coverage for contractual liability and independent contractors.

14.4.1.5. City of Ocala, a Florida municipal corporation, its officials, employees, and volunteers are to be covered as an additional insured with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liability arising out of activities performed by or on behalf of Tenant. The coverage shall contain no special limitation on the scope of protection afforded to Landlord, its officials, employees, and volunteers.

14.4.2. *Environmental Liability*. If hazardous substances or materials are used, controlled or possessed by Tenant, Pollution Liability or other similar Environmental Impairment Liability must be maintained, at a minimum limit of not less than Two Million Dollars ($2,000,000) per claim providing coverage for damages including, without limitation, third-party liability, clean up, corrective action, including assessment, remediation and defense costs.

14.4.3. *Workers' Compensation and Employer's Liability*. Coverage must be afforded per Chapter 440, Florida Statutes. Any person or entity performing work for or on behalf of Tenant must provide Workers' Compensation insurance. Exceptions and exemptions will be allowed by the City's Risk Manager, if they are in accordance with Florida Statute.

14.4.3.1. Tenant waives, and Tenant shall ensure that Tenant's insurance carrier waives, all subrogation rights against Landlord and Landlord's officers, employees, and volunteers for all losses or damages. Landlord requires the policy to be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or equivalent.

14.4.3.2. These insurance requirements shall not relieve or limit the liability of Tenant. Landlord does not in any way represent that these types or amounts of insurance are sufficient or adequate to protect Tenant's interests or liabilities but are merely the minimums. No insurance is provided by Landlord under this Lease to cover Tenant or its contractors or sub-contractors. Tenant has sole responsibility for loss to business or personal property, equipment, contents, improvements or betterments.

14.4.4. *Additional Insurance*. Coverage for any improvements constructed by Tenant to the Premises (including the Tenant Improvements) or for

Tenant's personal property on the Premises, in such amounts and pursuant to such terms as Tenant shall elect in its sole discretion.

14.4.5. *Duplicate Insurance*. Insurance required of Tenant shall be considered primary, and insurance or self-insurance of Landlord shall be considered excess, as may be applicable to claims against Landlord which arise out of this Lease.

14.4.6. *Insurance Certificate Requirements*. Tenant shall provide Landlord with valid Certificates of Insurance (binders are unacceptable) for the insurance set forth in paragraphs 14.4.1 through 14.4.3, at least ten (10) days prior to execution of this Lease and no later than thirty (30) days prior to commencement of any improvements.

14.4.6.1. Tenant shall provide a Certificate of Insurance to Landlord with a thirty (30) day notice of cancellation; ten (10) days' notice if cancellation is for nonpayment of premium.

14.4.6.2. In the event that the insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Tenant to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested, and addressed to the certificate holder (City of Ocala).

14.4.6.3. In the event this Lease term goes beyond the expiration date of the insurance policy, Tenant shall provide Landlord with an updated Certificate of Insurance no later than ten (10) days prior to the expiration of the insurance currently in effect. Landlord reserves the right to suspend this Lease until this requirement is met.

14.4.6.4. Tenant shall provide copies of Additional Insured endorsements to Landlord to verify Landlord's status as an Additional Insured on all applicable polices.

14.4.6.5. The Lease, Contract number, event dates, or other identifying reference must be listed on the Certificate of Insurance.

14.4.7. *Landlord May Change Limits***.** Landlord reserves the right to increase or decrease, or expand or narrow, the minimum limits or amounts of insurance requirements set forth above whenever the liability of Landlord under Florida law (including the Florida Tort Claims Act) increases or Landlord's defined areas of liability or risk are expanded. Landlord shall give Tenant a minimum of sixty (60) days advance written notice for any modification or change in the insurance limits as set forth herein.

14.5. Indemnification. Tenant agrees to indemnify and save Landlord harmless from and against any and all liabilities or damages for any injury to or death of any person or persons or damage to property caused by the negligence or willful misconduct of Tenant, its invitees, agents and employees, or by a default by Tenant under this Lease. Tenant agrees to indemnify Landlord against all loss, claims, fines,

penalties or damages resulting from any generation, use, treatment, storage or release of any hazardous or toxic materials or substances or wastes at the Premises during the Lease Term or resulting from any violation during the Lease Term of any environmental laws, Rules or regulations applicable to the Premises or any operation conducted thereon. Tenant's grant of indemnity to Landlord hereby survives expiration of this Lease.

15. **Construction Liens**. Tenant shall not subject Landlord's interest or estate to any liability under any construction or other lien law. No provisions of this Lease may be construed as to imply that Landlord has consented to Tenant incurring such a lien. If any construction lien, lis pendens, or other lien is filed against the Premises or the building for any work, labor, services, or materials that a lienor claims to have performed or furnished for Tenant or any person holding through or under Tenant, Tenant must cause that lien to be canceled and discharged of record within twenty (20) days after Landlord gives notice to Tenant. If such a lien is filed, Landlord may satisfy the lien after giving notice to Tenant as provided in this paragraph and without limiting Landlord's rights or remedies under this Lease. Tenant shall promptly reimburse Landlord for any amounts expended to satisfy the lien and for any expenses incurred in connection with that satisfaction. Tenant has no right of setoff against Landlord. Tenant's failure to cancel and discharge of record any lien under to this paragraph is a default by Tenant under the provisions of this Lease.

16. **Assignments and Sublets**.

16.1. Permissible Assignments and Sublets. Tenant may not assign, mortgage, pledge, or encumber this ease, nor sublet, license, or grant any concession for the use of the Premises, to another person without obtaining Landlord's prior written consent. Landlord may withhold such consent in the exercise of its sole discretion.

16.2. Continued Liability of Tenant. If Tenant makes any assignment, sublease, license, or grant of a concession, Tenant will nevertheless remain unconditionally liable for the performance and financial obligations of all of the terms, conditions, and covenants of this Lease.

16.3. Landlord's Right to Collect Rent From Any Occupant. If Tenant is in default on any payments under this Lease and any other person is subletting or occupying the Premises, or if Tenant assigns this Lease, Landlord may collect Rent from the assignee, subtenant, or occupant. Landlord may apply the net amount collected to the Rent required under this Lease. Landlord's collection of the Rent does not waive the covenant against assignment and subletting under this Lease nor does it constitute Landlord's acceptance of the assignee, subtenant, or occupant as a Tenant, nor Landlord's waiver of Tenant's further performance of the covenants contained in this Lease.

17. **Default by Tenant**.

17.1. Events of Default. Upon the happening of one or more of the events set forth below (any of which is referred to hereinafter as an "Event of Default"), Landlord shall have any and all rights and remedies hereinafter set forth:

17.1.1. If Tenant should fail to pay Rent when it becomes due and such failure continues for ten (10) days after Landlord provides Tenant with written notice of such failure.

17.1.2. If Tenant should fail to pay Rent within ten (10) days of when it becomes due more than three (3) times during any of twelve (12) consecutive months (notwithstanding Landlord's acceptance of Rent from Tenant), without the necessity of Landlord providing Tenant with notice of the third failure to pay Rent or providing Tenant with an opportunity to cure such third failure.

17.1.3. If Tenant violates any other term, condition or covenant herein on the part of Tenant to be performed and such failure continues for thirty (30) days after Landlord provides Tenant with written notice of such failure; provided, however, if the default is one which cannot be cured within thirty (30) days, Tenant will have such additional time as maybe required so long as Tenant diligently pursues the remedy. Notwithstanding the foregoing, the following shall constitute an immediate Event of Default without notice or an opportunity to cure: (a) if Tenant has previously defaulted under a term, condition or covenant of this Lease and is provided with notice of and an opportunity to clear such breach, any subsequent breach of the same term, condition, or covenant shall constitute a breach of this Lease without further notice or opportunity to cure; (b) a failure of Tenant to provide insurance or proof thereof as required by paragraph 14.4 shall constitute an immediate Event of Default without notice or an opportunity to cure; or (c) if the default endangers or unreasonably interferes with Airport activities, as determined by Landlord in its reasonable discretion.

17.1.4. In the event a petition in bankruptcy under any present or future bankruptcy laws (including but not limited to reorganization proceedings) be filed by or against Tenant and such petition is not dismissed within thirty (30) days from the filing thereof, or in the event Tenant is adjudged a bankrupt;

17.1.5. In the event an assignment for the benefit of creditors is made by Tenant; or

17.1.6. In the event of an appointment by any court of a receiver or other court officer of Tenant's property and such receivership is not dismissed within thirty (30) days from such appointment.

17.2. Landlord's Remedies.

17.2.1. If any Event of Default occurs, Landlord shall have the right, at the option of Landlord, to pursue one or more of the following remedies, in addition to all other remedies available at law or equity:

17.2.1.1. Terminate this Lease and thereupon reenter and take possession of the Premises with or without legal process.

17.2.1.2. Declare all remaining Rent under the Lease immediately due and owing.

17.2.1.3. Without terminating this Lease, reenter and relet the Premises, or any part thereof, with or without legal process, for the account of Tenant upon such terms and conditions as Landlord may deem advisable or satisfactory, in which event the rents received on such reletting shall be applied:

a. First, to the expenses of such reletting and collection including but not limited to, necessary renovation and alterations of the Premises, reasonable attorney's fees, any real estate commissions paid;

b. Second, toward payment of all sums due or to become due Landlord hereunder; and

c. Third, if a sufficient sum shall not be thus realized or secured to pay such sums and other charges due Landlord, then, Tenant shall pay Landlord any deficiency monthly, and Landlord may bring an action therefor as such monthly deficiency shall arise.

d. Nothing herein, however, shall be construed to require Landlord to reenter and relet in any event. Landlord shall not, in any event, be required to pay Tenant any surplus of any sums received by Landlord on a reletting of the Premises in excess of the Rent provided in this Lease.

17.2.1.4. Remove all or any part of Tenant's property from the Premises and any property removed may be stored in any public warehouse or elsewhere at the cost of, and for the account of Tenant, and Landlord shall not be responsible for the care or safekeeping thereof whether in transport, storage or otherwise. Tenant hereby waives any claim against Landlord for loss, destruction and/or damage or injury that may be occasioned by any of the previously mentioned acts. In addition to any statutory lien granted to Landlord, this Lease shall be deemed and considered to grant Landlord a security interest in the previously mentioned items and Landlord shall have all the rights of a secured party under the Uniform Commercial Code.

17.2.2. No reentry or taking possession of the Premises by Landlord shall be construed as an election on Landlord's part to terminate this Lease unless a written notice of such intention is given to Tenant. Notwithstanding any such reletting without termination, Landlord may at all times thereafter elect to terminate this Lease for such previous default. Any such reentry shall be allowed by Tenant without hindrance, and Landlord shall not be liable in damages for any such reentry, or guilty of trespass or forcible entry.

17.3. Landlord May Cure Tenant's Defaults. If Tenant shall default in the performing of any covenant or condition of this Lease, Landlord may, at its sole discretion, perform the same for the account of Tenant and Tenant shall reimburse Landlord for any expense incurred therefore together with interest thereon at the highest legal rate. This provision imposes no duty on Landlord nor waives any right of Landlord otherwise provided in this Lease.

18. **Default by Landlord**.

18.1. Landlord's Default. Landlord will be deemed in default or this Lease if Landlord fails to perform or observe any agreement or condition of this Lease on its part to be performed or observed and if such failure continues for thirty (30) days after Tenant provides Landlord with written notice of such failure. If the default is one that cannot be cured within thirty (30) days, Landlord will have such additional time as may be required so long as Landlord diligently pursues the remedy.

18.2. Remedies upon Landlord's Default. If Landlord defaults in the performance of any of the obligations or conditions required to be performed by Landlord under this Lease, Tenant may, after giving notice as provided above, cure the default and deduct the cost thereof from Rent subsequently becoming due hereunder, as its sole and exclusive remedy; under no circumstances, may Tenant terminate this Lease based on a Landlord Default.

19. **Quiet Enjoyment**. Landlord covenants that so long as Tenant pays the Rent and Additional Rent and performs the covenants under this Lease, Tenant is entitled to peaceful and quiet possession and enjoyment of the Premises for the Lease term, subject to the Lease provisions.

20. **Destruction or Damage to Premises from Casualty**.

20.1. If the Premises are destroyed or damaged by fire or other casualty during the Lease term and the Premises are rendered untenantable, Landlord shall have the option to either rebuild or terminate this Lease. Such option shall be exercised by notice in writing to Tenant thirty (30) days of the casualty. If Landlord elects to rebuild, then Landlord shall proceed without unnecessary delay in such rebuilding.

20.2. If the Premises are not rendered untenantable because of such casualty, Landlord shall repair the Premises without unnecessary delay.

20.3. Tenant shall be entitled to a reduction of Rent in proportion to the amount of floor space of which Tenant is deprived the use while rebuilding is occurring or repairs are being made.

21. **Eminent Domain**.

21.1. In the event any portion of the Premises or any of the Tenant Parking Spaces shall be taken by public or quasi-public use or condemned under eminent domain, then at the option of Landlord or Tenant upon the giving of thirty (30) days written notice (after such notice of condemnation), this Lease shall terminate and expire as of the date of such taking and any prepaid rental shall be prorated as of the effective date of such termination. Notwithstanding the foregoing, Tenant may not

terminate this Lease based solely upon a condemnation of the Tenant Parking Spaces if Landlord replaces the condemned Tenant Parking Spaces with the same number of parking spaces within the Terminal parking lot.

21.2. Except as provided in this paragraph, no other taking, appropriation or condemnation shall cause this Lease to be terminated. No such appropriation or condemnation proceeding shall operate as or be deemed an eviction of Tenant or a breach of Landlord's covenant of quiet enjoyment.

21.3. All damages awarded and any good faith deposit made by the condemning authority for such taking under the power of eminent domain whether for the whole or a part of the Premises shall belong to and be the sole property of Landlord whether such damages shall be awarded as compensation for the taking of the fee or diminution in value to the leasehold or to the fee of the Premises; provided, however, that Tenant shall be entitled to any part of a damage award or separate award for Tenant's business damages. Any award (excluding business damages) will be paid to Landlord, and amount of the purchase price to be paid by Tenant upon the exercise of its option will be reduced accordingly.

22. **Estoppel Certificates**.

22.1. Landlord or Tenant shall have the right to request the other party to provide an estoppel certificate, as described below, without charge, 15 days after the requesting party sends a written notice. This estoppel certificate shall consist of a written statement certifying the following information to the requesting party or to any person specified by that party:

22.1.1. Whether the terms of this Lease have been assigned, supplemented, modified or otherwise amended and, if so, specifics of the assignment, supplementation, modification or other amendment.

22.1.2. Whether, to the best of the knowledge of the party providing the certificate, each of the obligations on its part to be performed to date under the Lease have been performed.

22.1.3. Whether Tenant has any offsets, counterclaims, defenses, deductions or credits whatsoever with respect to the Lease.

22.1.4. Whether, as of the date of the certificate, any Rent is due from Tenant under the Lease.

22.1.5. The amount of Base Rent currently payable by Tenant under the Lease and the date through which such Base Rent has been paid.

22.1.6. Attaching a true and correct copy of the Lease including all supplements, modifications or other amendments thereto, or assignments of the Lease.

23. **Miscellaneous Provisions**.

23.1. Public Entity Crimes. As provided in Sections 287.132 through 287.133, Florida Statutes, by entering into this Lease or performing any work in furtherance hereof,

Tenant certifies that it, its affiliates, suppliers, subcontractors and consultants who will perform hereunder, have not been placed on the convicted vendor list maintained by the State of Florida Department of Management Services within the thirty six (36) months immediately preceding the effective date hereof. This notice is required by Section 287.133(3)(a), Florida Statutes.

23.2. Scrutinized Companies. As provided in Section 287.135, Florida Statutes by entering into this Lease or performing any work in furtherance hereof, Tenant certifies that it, its affiliates, suppliers, subcontractors and consultants who perform hereunder, have not been placed on the Scrutinized Companies Activities in Sudan List or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List created pursuant to Section 215.473, Florida Statutes. If Landlord determines, using credible information available to the public, that a false certification has been submitted by Tenant, this Lease may be terminated and a civil penalty equal to the greater of Two Million Dollars ($2,000,000) or twice the amount of this Lease shall be imposed, pursuant to Section 287.135, Florida Statutes.

23.3. Recording of Lease. Landlord and Tenant agree that neither this Lease nor any notice or memorandum of this Lease shall be recorded in the public records.

23.4. Accord and Satisfaction. If Tenant pays or Landlord receives any amount that is less than the amount stipulated to be paid under any Lease provision, that payment is considered to be made only on account of an earlier payment of that stipulated amount. No endorsement or statement on any check or letter may be deemed an accord and satisfaction. Landlord may accept any check or payment without prejudice to Landlord's right to recover the balance due or to pursue any other available remedy.

23.5. RADON GAS. RADON IS A NATURALLY OCCURRING RADIOACTIVE GAS THAT, WHEN IT HAS ACCUMULATED IN A BUILDING IN SUFFICIENT QUANTITIES, MAY PRESENT HEALTH RISKS TO PERSONS WHO ARE EXPOSED TO IT OVER TIME. LEVELS OF RADON THAT EXCEED FEDERAL AND STATE GUIDELINES HAVE BEEN FOUND IN BUILDINGS IN FLORIDA. ADDITIONAL INFORMATION REGARDING RADON AND RADON TESTING MAY BE OBTAINED FROM YOUR COUNTY PUBLIC HEALTH UNIT.

23.6. Broker Representation. Each party covenants to and represents to the other that neither party has dealt with any real estate broker, sales person or agent in this Lease and each party hereby agrees to indemnify and hold harmless the other from and against any real estate brokers claiming by, through or under them.

23.7. Entity Tenant. If Tenant is a corporation or other entity, the persons executing this Lease on behalf of Tenant hereby covenant, represent and warrant that Tenant is duly organized or duly qualified (if foreign) entity and is authorized to do business in the State where the Premises is located (a copy of evidence thereof to be supplied to Landlord upon request); and that the person or persons executing this Lease on behalf of Tenant is duly authorized to execute, acknowledge, and deliver this Lease to Landlord (a copy of a resolution to that effect to be supplied to Landlord upon request).

23.8. Enforcement. All of the terms and provisions of this Lease, whether so expressed or not, shall be binding upon, inure to the benefit of, and be enforceable by the parties and their respective legal representatives, heirs, estates, successors and permitted assigns.

23.9. Exclusive Venue. The parties agree that the exclusive venue for any litigation, suit, action, counterclaim, or proceeding, whether at law or in equity, which arises out of concerns, or relates to this Lease, any and all transactions contemplated hereunder, the performance hereof, or the relationship created hereby, whether sounding in contract, tort, strict liability, or otherwise, shall be in Marion County, Florida.

23.10. JURY WAIVER. EACH PARTY HEREBY COVENANTS AND AGREES THAT IN ANY LITIGATION, SUIT, ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF CONCERNS, OR RELATES TO THIS LEASE, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. ANY PARTY MAY FILE AN ORIGINAL COUNTERPART OR A COPY OF THIS LEASE WITH ANY COURT, AS WRITTEN EVIDENCE OF THE CONSENT OF THE PARTIES HERETO OF THE WAIVER OF THEIR RIGHT TO TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY THE OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

23.11. Notices.

23.11.1. All notices, requests, consents and other communications (each a "Communication") required or permitted under this Agreement shall be in writing (including emailed communication) and shall be (as elected by the person giving such notice) hand delivered by messenger or courier service, emailed or mailed by Registered or Certified Mail (postage pre-paid), Return Receipt Requested, addressed as follows or to such other addresses as any party may designate by Communication complying with the terms of this paragraph:

23.11.1.1. If to Landlord: Attn: Airport Director, Ocala International Airport, 1770 SW 60th Avenue Ste 600, Ocala, FL 34474; Fax: 352-629-8887; Email: airport@ocalaairport.com or mgrow@ocalafl.gov

a. With a copy to: Contracting Officer, 110 SE Watula Avenue, 3rd Floor, Ocala, FL 34471; Fax: 352-690-2025; Email: notices@ocalafl.org.

23.11.1.2. If to Tenant: Attn: Marisel Brignoni, Current Address, City, FL ZipCode Email: mariselb@gmail.com

23.11.2. Each such Communication shall be deemed delivered:

23.11.2.1. On the date of delivery if by personal delivery;

23.11.2.2. On the date of email transmission if by email (subject to paragraph 23.11.5); and

23.11.2.3. If the Communication is mailed, on the earlier of: (a) the date upon which the Return Receipt is signed; or (b) the date upon which delivery is refused.

23.11.2.4. Notwithstanding the foregoing, service by personal delivery delivered, or by email sent, after 5:00 p.m. shall be deemed to have been made on the next day that is not a Saturday, Sunday or legal holiday.

23.11.3. If a Communication is delivered by multiple means, the Communication shall be deemed delivered upon the earliest date determined in accordance with the preceding subparagraph.

23.11.4. If the above provisions require Communication to be delivered to more than one person (including a copy), the Communication shall be deemed delivered to all such persons on the earliest date it is delivered to any of such persons.

23.11.5. Concerning Communications sent by email:

23.11.5.1. The Communication shall not be deemed to have been delivered if the sender receives a message from the sender's or the recipient's internet service provider or otherwise that the email was not delivered or received but, if the email was sent by the sender on the last day of a deadline or other time period established by this Agreement, the time for the sender to re-send the Communication by a different authorized means shall be extended one (1) business day;

23.11.5.2. If the sender receives an automatic reply message indicating that the recipient is not present to receive the email (commonly referred to as an "out of the office message"), the email shall not be deemed delivered until the recipient returns but, if the email was sent by the sender on the last day of a deadline or other time period established by this Agreement, the time for the sender to re-send the Communication by a different authorized means shall be extended one (1) business day;

23.11.5.3. Any email that the recipient replies to, or forwards to any person, shall be deemed delivered to the recipient.

23.11.5.4. The sender must print the email to establish that is was sent (though it need not do so at the time the email was sent); and

23.11.5.5. The sender shall maintain the digital copy of the email in its email system for a period of no less than one (1) year after it was sent.

23.12. Governing Laws. This Lease and all transactions contemplated by this Lease shall be governed by, and construed and enforced in accordance with, the laws of the State of Florida without regard to principles of conflicts of laws.

23.13. Attorney's Fees. If any legal action or other proceeding (including, without limitation, appeals or bankruptcy proceedings) whether at law or in equity, which: arises out of, concerns, or relates to this Lease, any and all transactions contemplated hereunder, the performance hereof, or the relationship created hereby; or is brought for the enforcement of this Lease, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this Lease, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses even if not taxable as court costs, incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

23.14. Counterparts. This Lease may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute the same instrument.

23.15. Remedies. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power or remedy hereunder shall preclude any other or further exercise thereof.

23.16. Severability Clause. Provisions contained in this Lease that are contrary to, prohibited by or invalid under applicable laws or regulations shall be deemed omitted from this document and shall not invalidate the remaining provisions thereof.

23.17. Waiver.

23.17.1. A failure to assert any rights or remedies available to a party under the terms of this Lease, or a waiver of the right to remedies available to a party by a course of dealing or otherwise shall not be deemed to be a waiver of any other right or remedy under this Lease, unless such waiver of such right or remedy is contained in a writing signed by the party alleged to have waived his other rights or remedies.

23.17.2. No payment by Tenant or receipt by Landlord or its agents of a lesser amount than the Rent and other charges stipulated in this Lease shall be deemed to be other than a payment on account thereof, nor shall any endorsement or statement on any check or any letter accompanying any check or payment be deemed an accord and satisfaction, and Landlord or its agents may accept such check or payment without prejudice to

Landlord's right to recover the balance of the amount due or to pursue any other remedy provided in this Lease or by applicable Law.

23.18. Time.

23.18.1. Time is of the essence of all of the provisions and terms of this Agreement.

23.18.2. If a time period is five (5) days or less, intervening Saturdays, Sundays or legal holidays will be excluded from the calculation.

23.18.3. When any time period specified herein falls or ends upon a Saturday, Sunday or legal holiday, the time period shall automatically extend to 5:00 p.m. on the next ensuing business day.

23.18.4. For purposes of this Agreement, "legal holiday" means: (a) the day set aside by Section 110.117, Florida Statutes, for observing New Year's Day, Martin Luther King, Jr.'s Birthday, Memorial Day, Independence Day, Labor Day, Veterans' Day, Thanksgiving Day or Christmas Day; (b) the Friday after Thanksgiving; (c) Christmas Eve; (d) if Christmas is on weekend, the Monday after Christmas Day; and (e) any other day upon which the Clerk of the Court of Marion County, Florida, is closed for ordinary business.

23.19. Signatures by Facsimile or Digital Execution. It is the intent and agreement of the parties hereto that the signatures, initials and handwritten or typewritten modifications to this Lease shall be as legally binding upon the parties if in the form of a facsimile or digital execution (such as scanning and emailing) as if the original signatures, initials, and modifications were present on the documents in the hands of each party. Neither party shall assert the statute of frauds nor unenforceability or invalidity of this Lease, or any addendum or modification of this Lease, because of the use of facsimile or digital copies and not originals in any litigation; both parties simply waive and relinquish any such defense.

23.20. Entire Understanding. This Lease represents the entire understanding and agreement between the parties with respect to the subject matter hereof, and supersedes all other negotiations (if any) made by and between the parties. The provisions of this Lease may not be amended, supplemented, waived, or changed orally but only by a writing making specific reference to this Lease signed by the party as to whom enforcement of any such amendment, supplement, waiver or modification is sought.

23.21. Exhibits.

23.21.1. All exhibits attached hereto are incorporated herein by reference.

23.21.2. The following exhibit are attached to this Lease.

23.21.2.1. **Exhibit A** – Sketch of Real Property and Tenant Parking Spaces.

23.21.2.2. **Exhibit B** – Sketch of Premises.

23.21.2.3. **Exhibit C** – Rules for Terminal.

IN WITNESS WHEREOF, the parties have executed this Lease effective the Effective Date as set forth above.

RULES FOR TERMINAL

The following Rules apply to Tenant, and all other occupants of the Terminal (including Landlord):

1. All terms defined in the Lease shall have the same meaning as set forth herein.

2. Tenant shall coordinate the use of the Terminal building meeting/event spaces with Airport Administration.

3. No person shall:

   a. Use or operate any equipment or machinery that, in Landlord's reasonable opinion, is harmful to the building or disturbing to occupants of other parts of the Terminal;

   b. Permit any odor, noise, sound or vibration which may, in Landlord's reasonable opinion, in any material way tend to impair the use of any part of the Terminal or interfere with the business or occupancy of any other occupant, or make or permit any disturbance of any kind in the Terminal, or interfere in any way with other occupants or those having business in the Terminal;

   c. Obstruct any sidewalks, halls, passageways or other Common Areas, or use the same for any purpose other than ingress and egress to and from the Premises, or use the same as a waiting room or lounging place;

   d. Use or permit any of the rest rooms, toilets, water closets, sinks or other apparatus or systems to be used for any purpose other than those for which they were constructed, or permit any sweepings, rubbish, rags, ashes, chemicals, refuse or other unsuitable substances to be thrown or placed in any of them;

   e. Place or allow to be placed any items on the outside of the Terminal or on the windows, window sills or projections of them that could be visible from outside the Terminal, or attach any awnings, antennae or other projections to the roof or outside walls of the Premises or the Terminal, or enter upon the roof of the Terminal;

   f. Bring in or remove from the Terminal any heavy or bulky objects except by experienced movers or riggers approved by Landlord and only after Tenant shall have notified Landlord of the weight and size of the objects and the time, method and manner of bringing in or removing the same, or bring in or remove from the Terminal any furniture or freight except during the hours designated by Landlord;

   g. Use electricity in the Premises in excess of the capacity of any of the electrical apparatus in or service to the Premises, or add to or alter the electrical systems serving the Premises; and

   h. Make any room-to-room canvass to solicit business from other occupants of the Terminal.

4. No solicitors shall be allowed in the Terminal, and if present, shall be reported by Tenant to Landlord.

5. The Terminal is a "No Smoking" building. No person may smoke tobacco or any other matter except in the portions of the Common Area designated as a "Smoking Area" by Landlord. The currently designated areas are: the sidewalk area on the East end of the covered Terminal entrance and the sidewalk area immediately South of the building near the trash dumpster enclosure. Ash/cigarette disposal towers are installed at these locations.

6. Each occupant shall be responsible for the observance of all of the Rules and regulations by its employees, agents, clients, customers, invitees, and guests.

7. Electric wiring of every kind shall be introduced and connected as directed by Landlord and no boring or cutting for wires will be allowed except with the consent of Landlord. The location of telephones, call boxes, etc., shall be prescribed by Landlord.

8. Nothing shall be thrown out of the windows of the Terminal.

RE: Appraisal of Real Property – Fair Market Annual Rent Estimates for various properties at the Ocala International Airport (OCF), Ocala, Marion County, Florida
SJM File: 25426B

Dear Mr. Overby:

At your request, we have prepared an appraisal report of the fair market rent estimates for the above referenced property at the Ocala International Airport (OCF) as of October 8, 2025, the date of valuation and property visit. OCF is a general aviation airport owned and operated by the City of Ocala. The client and intended user is McFarland Johnson, Inc. (MJI). Additional intended users include the City of Ocala, OCF and Federal Aviation Administration. The intended use of this report is to assist MJI and their clients, City of Ocala and OCF, in negotiating the future rent for the subject property as described herein.

For purposes of this report, the subject property includes terminal office space and aeronautical land at OCF. The OCF main terminal is located at 1770 SW 60 Avenue and was constructed in 2020. The terminal contains a total area of about 17,500 square feet and consists of various spaces including include common areas (corridors, bathrooms, passenger terminal, conference rooms etc.), fixed base operator (FBO) space, professional office space, rental car space (office and counter areas) and restaurant space. The scope of this appraisal includes an estimate of the annual fair market rent for the office space within the terminal. The scope of this appraisal also includes an estimate of the fair market annual rent for the aeronautical land at the airport.

The scope of our analysis included a visit to the airport and the property, as well as market research concerning similar properties located at OCF and other airports. This analysis includes an estimate of the fair market annual rent for the terminal office space and aeronautical land as described herein based on a comparison with other rental rates for similar aeronautical properties within the competitive market area consistent with the definition of market rent.

Mr. Robert Overby
December 16, 2025

The appraisal report states our opinion of market value, subject to various assumptions and limiting conditions contained in this appraisal report. The property visit and analyses forming the basis of our valuation have been performed by the undersigned. The appraisal has been prepared in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP) as adopted by the Appraisal Standards Board of the Appraisal Foundation.

Respectfully submitted,

CERTIFICATION

We certify that, to the best of our knowledge and belief, ...

- the statements of fact contained in this report are true and correct.

- the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are our personal, impartial, and unbiased professional analyses, opinions, and conclusions.

- we have no present or prospective interest in the property that is the subject of this report, and no personal interest with respect to the parties involved.

- we have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

- our engagement in this assignment was not contingent upon developing or reporting predetermined results.

- compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

- the analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute, which include the Uniform Standards of Professional Appraisal Practice (USPAP).

- the undersigned has made a personal inspection of the property that is the subject of this report.

- no one provided significant real property appraisal assistance to the persons signing this certification.

- we have not performed services regarding the subject property within the prior three years.

- the use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

- as of the date of this report, Andrew H. Magenheimer has completed the continuing education program for Designated Members of the Appraisal Institute.

SLACK, JOHNSTON & MAGENHEIMER, INC.

Andrew H. Magenheimer, MAI
CERT. GEN. RZ1073

ASSUMPTIONS AND LIMITING CONDITIONS

The appraisal is subject to the following assumptions and limiting conditions:

1. No responsibility is assumed for the legal description or for matters including legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated.

2. No legal opinion related to a title search was provided and all existing liens and encumbrances, including deed restrictions and developers agreements, have not been investigated unless otherwise stated. The property is appraised as though free and clear.

3. Responsible ownership and competent property management are assumed.

4. The information furnished by others has been gathered from sources deemed to be reliable, however, no warranty is given for its accuracy.

5. All engineering and surveying is assumed to be correct. Any sketches, plats, or drawings included in this report are included to assist the reader in visualizing the property. We have made no survey of the property, and assume no responsibility in connection with such matters.

6. It is assumed that there are no hidden or inapparent conditions of the property, subsoil, or structures that render it more or less valuable. No responsibility is assumed for unusual soil conditions and no opinion as to these matters is to be inferred or construed from the attached report other than those specifically stated in the report. Unless stated otherwise, the soil conditions of the subject property are assumed to be adequate to support development utilizing conventional construction techniques. We recommend the client obtain an opinion from a competent engineering firm.

7. It is assumed that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless noncompliance is stated, defined, and considered in the appraisal report.

8. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless a nonconformity has been stated, defined, and considered in the appraisal report.

9. It is assumed that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.

10. It is assumed that the utilization of the land and improvements is within the boundaries or property lines of the property described and that there is no encroachment or trespass unless noted in the report.

11. Any proposed or partially completed improvements included in this report are assumed to be completed in accordance with approved plans and specifications and in a workmanlike manner.

12. Our estimates of future values were formulated based upon market conditions as of the date of appraisal, considerate of future projections concerning supply and demand. The appraiser has no responsibility for significant events that alter market conditions subsequent to the effective date or dates of appraisal.

13. This study is to be used in whole and not in part. No part of it shall be used in conjunction with any other appraisal. Publication of this report or any portion thereof without the written consent of the appraiser is not permitted.

14. The appraiser, by reason of this report, is not required to give further consultation, testimony, or be in attendance in court with reference to the property in question unless arrangements have been previously made.

15. Neither all, nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraiser, or the firm with which the appraiser is connected), shall be disseminated to the public through advertising, public relations, news, sales, or other media without the written consent and approval of the appraiser. The use of this report in any public offering or syndication document is specifically prohibited.

16. Unless otherwise stated in this report, the existence of hazardous substances, including without limitation asbestos, polychlorinated biphenyls, petroleum leakage, or agricultural chemicals, which may or may not be present on the property, or other environmental conditions, were not called to the attention of, nor did the appraiser become aware of such during the appraiser's inspection. The appraiser has no knowledge of the existence of such materials on or in the property unless otherwise stated. The appraiser, however, is not qualified to test such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde foam insulation, or other hazardous substances or environmental conditions, may affect the value of the property, the value estimated is predicated on the assumption that there is no such condition on or in the property or in such proximity thereto that it would cause a loss in value. No responsibility is assumed for any such conditions, nor for any expertise or engineering knowledge required to discover them. It is recommended that the client retain an expert in this field, if needed.

17. Disclosure of the contents of this report by the appraiser is controlled by the Appraisal Institute of which one or more signatures of this report is an MAI member and by the Florida Department of Professional Regulation, Division of Appraisal State Certification. The analysis and value conclusions, as well as non-public information about the subject property, are confidential matters and cannot be divulged to any persons other than the party for whom the report is prepared.

Exceptions to this confidentiality provision are requests by committees of the Appraisal Institute or the Florida Department of Professional Regulations for peer review, and subpoenas by any court having jurisdiction to request production of the report.

Appraisal Assumptions

18. This appraisal assumes the subject property is free and clear of any environmental contamination associated with past and present airport use. The analysis of environmental contamination is beyond our expertise and Phase I and II environmental audits are recommended for the property. The existence of environmental contamination could have a significant effect on the value conclusions within this report.

    Acceptance or use of this report constitutes acceptance of the preceding conditions.

OWNERSHIP, LEGAL DESCRIPTION AND HISTORY OF THE PROPERTY

Ownership

OCF is owned and operated by the City of Ocala, 110 SE Watula Avenue, Ocala, Florida 34471. Ocala has a five-member Airport Advisory Board appointed by the City Council. The subject land and building are represented to be property of the City of Ocala. There are no known transfers of ownership of the subject property within the past five years. It should be clearly understood that the identification of ownership and title analysis was not performed and is beyond the scope of this appraisal.

Legal Description

A legal description for the subject property was not provided or reviewed and is not considered relevant to provide a credible opinion of value.

Property History

The construction of the Ocala International Airport (OCF) was completed in 1968 and replaced the original Jim Taylor Field that was built in 1928 and located near moder-day downtown Ocala. The original OCF included a single runway (18/36; 5,006 feet), taxiway, ramp and terminal facilities. In the early 1970's, a crosswind runway (08/26; 3,010 feet), and related taxiways was constructed at the north end of the airfield. In 1980's,the primary runway was extended (18/36; 7,467 feet) to its current configuration to increase capacity. During this time OCF expanded to add an air traffic control tower, apron expansion and construction of additional facilities (hangars, T-hangars, etc.). OCF originally had limited commercial airline services which ended in the 1980s. In 2020, OCF constructed a new general aviation terminal facility that includes offices, FBO space, rental car counters and restaurant. Over time, OCF has continued to develop facilities to meet the needs of the community and has maintained a Part 139 certification, Class IV air-carrier airport from the FAA. Currently, primary aviation services are provided by the Sheltair Aviation, a full-service fixed base operator (FBO).

As noted, for purposes of this report, the subject property includes terminal office space and aeronautical land at OCF. The OCF main terminal is located at 1770 SW 60 Avenue, was constructed in 2020 and contains a total area of about 17,500 square feet. The terminal includes three demised office spaces within the new terminal building that range in size from 313 to 438 square feet. The current rent for office space within the terminal is $30.00 per square foot on a full service basis. The scope of this appraisal also includes an estimate of the fair market annual rent for the aeronautical land at the airport. Current aeronautical land rental rates at OCF range from $0.08 to $0.58 per square foot. The range of aeronautical land rental rates are attributable to the age the lease and rental escalations included in the respective leases.

INTENDED USE, INTENDED USER AND DATE OF THE APPRAISAL

The scope of our analysis is to provide an indication of the annual fair market rent for the subject property as described herein. The date of valuation is October 8, 2025 and the date of the report is December 16, 2025. The client and intended user of this report is McFarland Johnson, Inc. (MJI). Additional intended users include the City of Ocala, OCF and Federal Aviation Administration. It is our understanding the intended use of the appraisal is to assist MJI and their client, OCF, in negotiating future leases. There are no other intended uses or intended users of this report.

SCOPE OF THE APPRAISAL

The scope of this appraisal report is to provide an analysis of the subject property and its surrounding environment in order to estimate its highest and best use and fair market annual rent for the subject property as described herein. We have made a recent visit to the property and reviewed factual data concerning its condition. The data reviewed included available lease, land use plan and other items provided by the client.

This appraisal included an estimation of the highest and best use of the property. This analysis includes a visit to the property, gathering information concerning potential uses of the property, as well as a review of market conditions for the property. The subject property is considered by OCF to be aeronautical property due to its land use designation and location adjacent to the OCF Airport Operating Area (AOA).

After concluding the highest and best use, the valuation methods are considered. Our estimate of the fair market rental rate for the hangar building that comprises the subject property was primarily based on market research of general aviation airport rental rates for similar properties on a statewide basis. In this analysis, we have spoken with aviation consultants on a national basis, as well as reviewed local and national surveys of airport rates and charges. In addition, we periodically survey numerous airports within the State of Florida.

Our survey included a review of the method of establishing rental rates and charges. Generally, airport properties within Florida do not sell and; therefore, determining rental rates and charges based on capitalization rates and sales prices is not possible. There are two generally acceptable methods of estimating rental rates: 1) market comparative analysis based on market research and 2) a comparison of non-airport (off-port) land values and improvement values to airport (on-port) properties.

It is our opinion that the on-port/off-port method of estimating rental rates for aeronautical property is not a reliable way of estimating market rents, especially when comparable airport rental information is available. Inherent in real estate is the bundle of rights each

property possesses. In most areas, aeronautical properties are owned by aviation authorities and may only be used by leasing the property. In addition to the ownership differences in non-aviation and aeronautical property, the permitted use of properties differ greatly. Generally, the FAA mandates that aeronautical properties may only be used for aeronautical related uses; therefore, it is difficult to quantify the impact of this restriction on airport properties and relate it to a unit of comparison for estimating rental rates with properties of different use.

Furthermore, market rent is generally defined as the rent a property would command as indicated by the current rents paid and asked for similar property. It is our opinion that the restriction of use of aeronautical property is so finite that they cannot be compared to non-aviation property.

It is our opinion that market research produces the best method of estimating market rental rates between similar property types. This method serves as the basis for our estimation of the fair market annual rent for the subject property.

As stated, we periodically survey airports within Florida. The primary emphasis of our survey is general aviation rates and charges, including a variety of general aviation, as well as non hub and small hub commercial airports. For the purpose of this analysis and in consideration of the general aviation primary use of OCF, our analysis has focused on general aviation and smaller commercial airports in Florida. The airports have been compared based on location, size, annual operations and other activity statistics. The data collected includes statistical information described above, as well as rates and charges for various types of airport properties.

For the purpose of this analysis, the annual terminal office and aeronautical land rental rates at general aviation airports were the focus of our analysis. The valuation section of this report will further discuss the comparison of airport properties and the valuation conclusions.

DEFINITION OF VALUE AND INTEREST APPRAISED

The Uniform Standards of Professional Appraisal Practice (USPAP 2024) defines **Market Value** as a type of value, stated as an opinion, that presumes the transfer of a property (i.e. a right of ownership or a bundle of rights), as of a certain date, under specific conditions set forth in the value definition that is identified by the appraiser as applicable in an appraisal.

We have relied on the Dictionary of Real Estate Appraisal, Seventh Edition, definition of **Market Value** as "the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in cash in United States dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

(Federal Register 77472, Volume 75, No. 237, December 10, 2010)

Other pertinent definitions from the Dictionary of Real Estate Appraisal, Seventh Edition, as follows:

Fee Simple Estate is the "absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat."

Leased Fee Interest is "a freehold (ownership interest) where the possessory interest has been granted to another party by creation of a contractual landlord-tenant relationship (i.e., a lease)".

Leasehold Interest is the "interest held by a lessee (tenant) through a lease transferring the rights of use and occupancy for a stated term under certain conditions."

Market Rent is "the most probable rent that a property should bring in a competitive and open market reflecting all conditions requisite to a fair lease transaction, the lessee and lessor each acting prudently and knowledgeably, and assuming the rent is not affected by

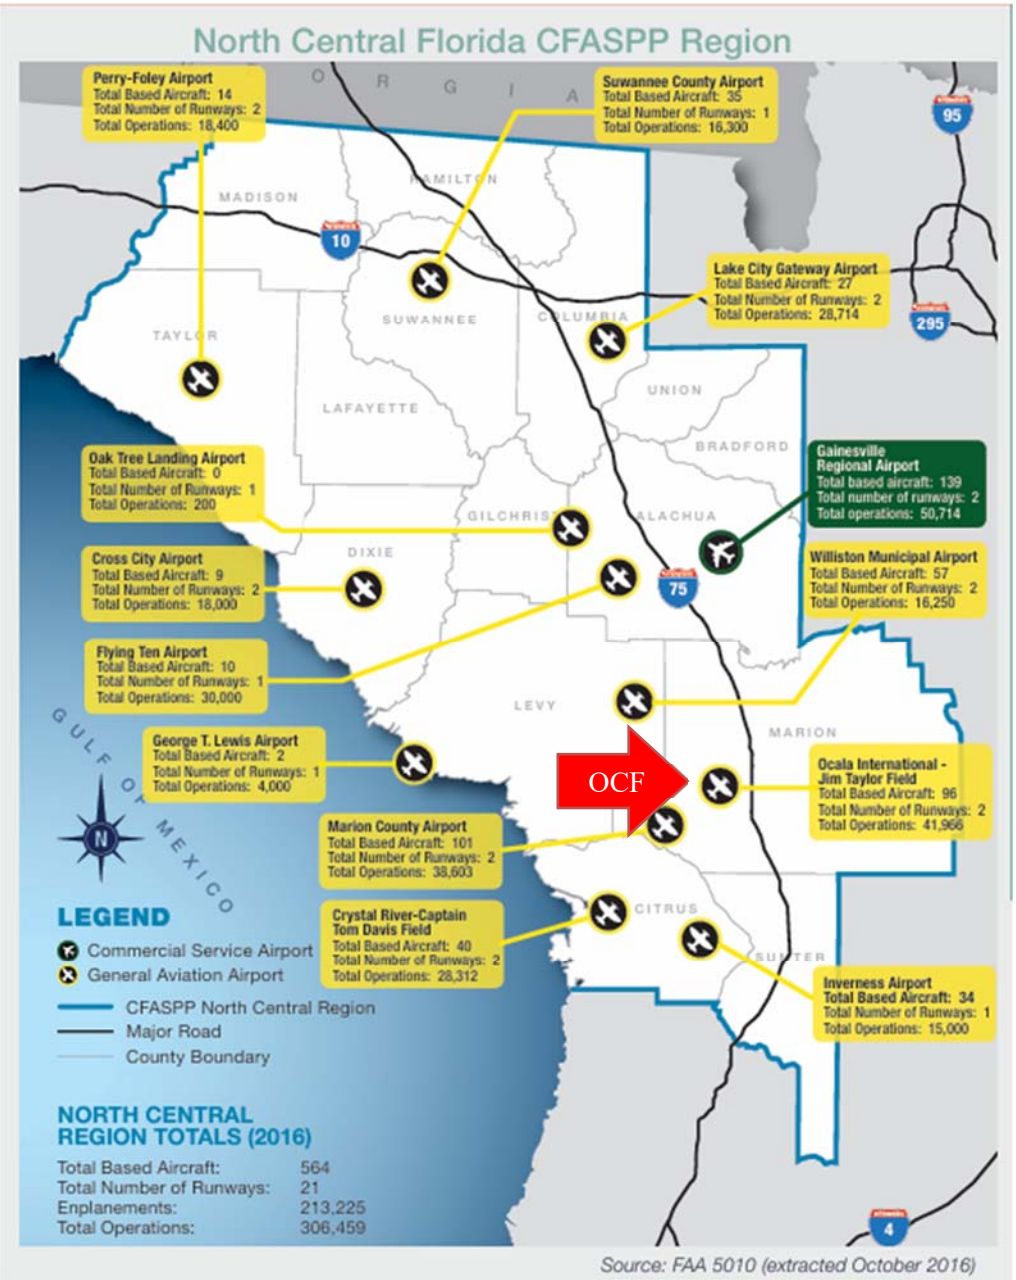
undue stimulus. Implicit in this definition is the execution of a lease as of a specified date under conditions whereby:

- Lessee and lessor are typically motivated;
- Both parties are well informed or well advised, and acting in what they consider their best interests;
- Payment is made in terms of cash or in terms of financial arrangements comparable thereto; and
- The rent reflects specified terms and conditions typically found in that market, such as permitted uses, use restrictions, expense obligations, duration, concessions, rental adjustments and reevaluations, renewal and purchase options, frequency of payments (annual, monthly, etc.), and tenant improvements (TIs)."

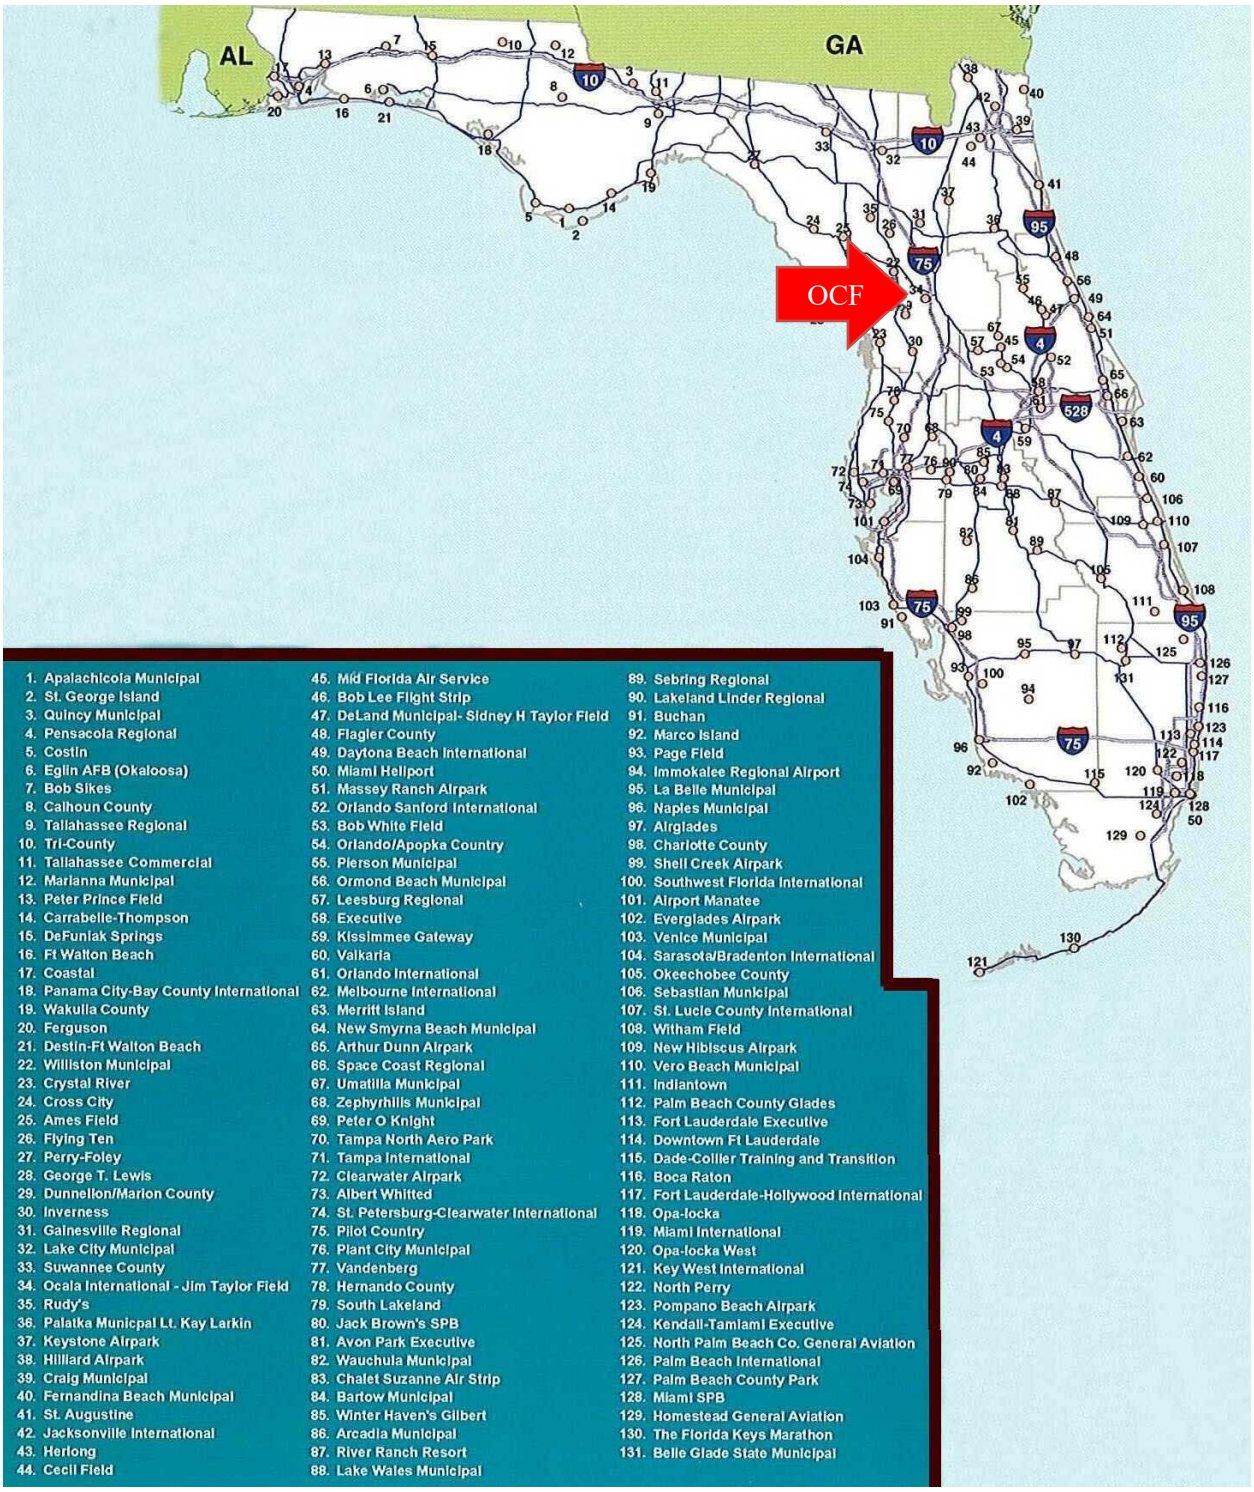
AREA DISCUSSION

The Ocala International Airport (OCF) is located in west central Marion County in Florida. OCF is more specifically located in the vicinity of the intersection of Highway 40 and N.W. 60 Avenue, approximately five miles west of downtown Ocala. The recipients of this report are familiar with Marion County and Ocala areas and the area analysis is therefore limited.

AVIATION OVERVIEW



The aviation industry in north central Florida is characterized by numerous smaller general aviation airports with one regional non hub commercial service airport located in the vicinity of an area of population concentration. It was noted, OCF is classified as a FAA Part 139 commercial service airport, although there is currently no commercial service at the airport. According to a review of the most recently published FAA's "Airport Activity Statistics of Certified Route Air Carriers" and hub classifications, the local regional commercial airport is as follows:



Airport	CY 2024 Enplanements	Hub Size
Gainesville Regional	290,563	Non

A review of the "Florida Aviation System Plan 2035" (FASP) prepared by the Florida Department of Transportation (FDOT) and Federal Aviation Administration (FAA) identifies 131 public airports in Florida. The FASP classifies airports within Florida into two general categories: Commercial Service and General Aviation. Within Florida, the FASP identifies 19 commercial airports and 112 community (general aviation) airports. The FASP divides the state into nine regions and identifies the airports within each region according to the use classification. OCF is classified as a "general aviation" airport. The FASP identifies the public airports in the North Central Florida region as follows:

Commercial Airports	Community Airports	Community Airports
Gainesville Reg'l	Suwannee County	Flying Ten
	Lake City Gateway	Williston Municipal
	Perry-Foley	Ocala Int'l
	Oak Tree Landing	Crystal River
	Cross City	George T. Lewis
	Inverness	Marion County

The FASP is useful in establishing the universe of airports within the state and segregating the airports based on use characteristics. The FASP helps identify the airports which are similar in terms of geographic location and use.

Ocala International Airport (OCF)

Ocala International Airport (OCF) is located in west central Marion County and is owned and operated by the City of Ocala. Ocala has a five-member Airport Advisory Board appointed by the City Council. As noted, OCF is classified as a FAA Part 139 commercial service airport, although there is currently no commercial service at the airport. OCF currently serves corporate, training and recreational general aviation needs of Marion County.

The airport property contains about 1,532 acres and is comprised of both aeronautical and non-aeronautical uses. The aeronautical land is the property included in the Airport Operating Area (AOA). The AOA is generally referred to as the area around the airport "inside the fence" and includes the runways, ramps, control tower, general aviation and support areas.

The aeronautical land at the airport is mostly developed with several different general aviation improvements including t-hangars, corporate hangars and a central FBO facility. The improvements at the airport consist of the original airport improvements, as well as tenant-constructed improvements. There is available aeronautical land for additional development. OCF has two runways in a 08-26, 18-36 configuration. The following is a summary of the airport facilities:

<u>Location</u>	
Coordinates:	N 29°10.31' W 82°13.45'
Elevation:	90'
<u>Airport Facilities</u>	
Hours of Operation:	1100-0200Z
Certification:	FAA Part 139, Class IV
Control Tower:	Yes
U.S. Customs:	No
Fire/Rescue Station:	No; OCF has an ARFF truck on-site
Runways:	18-36 7,467' x 150' Grooved Asphalt, S-60 D-125, 2D-220 08-26 3,009' x 50' Asphalt, S-30
Approaches:	ILS, GPS, Vortac

The following are operational statistics for OCF. The operation information was taken from the most recent FAA's "Airport Operations at Airports with Control Towers".

OCF & Florida Airport Operations

	Total Operations				GA Operations			
Year	**OCF**	% change	**Florida**	% change	**OCF**	% change	**Florida**	% change
2019	77,136		6,776,734		74,795		4,465,894	
2020	63,123	-18.2%	5,809,924	-14.3%	61,013	-18.4%	4,024,719	-9.9%
2021	54,974	-12.9%	5,857,123	0.8%	52,041	-14.7%	3,921,467	-2.6%
2022	65,042	18.3%	6,487,755	10.8%	62,040	19.2%	4,238,052	8.1%
2023	81,881	25.9%	7,173,732	10.6%	78,528	26.6%	4,795,945	13.2%
2024	92,750	13.3%	7,479,735	4.3%	89,354	13.8%	4,950,841	3.2%

In addition, the operations at OCF are divided by category as follows:

OCF Operations

Year	Local	Itinerant	AirTaxi	AirCarrier	Military	Total
2019	25,589	49,206	1,214	35	1,092	77,136
2020	21,280	39,733	1,261	31	818	63,123
2021	16,754	35,287	1,943	48	942	54,974
2022	20,016	42,024	2,149	10	843	65,042
2023	26,395	52,133	2,424	6	923	81,881
2024	29,410	59,944	2,741	0	655	92,750

According to the available information, the based aircraft at OCF are as follows:

OCF Based Aircraft

Year	SE	ME	Jet	Helo	Based Aircraft	% Change
2019	123	21	13	9	166	
2020	115	19	11	11	156	-6.0%
2021	107	18	11	10	146	-6.4%
2022	116	21	17	11	165	13.0%
2023	124	20	18	9	171	3.6%
2024	145	21	21	9	196	14.6%

According to the airport manager, the fuel volume at OCF is as follows:

OCF Fuel Flowage

Year	AvGas	JetA	Total	% Change
2019	170,568	760,269	930,837	
2020	116,353	655,400	771,753	-17.1%
2021	121,680	980,270	1,101,950	42.8%
2022	153,222	1,039,858	1,193,080	8.3%
2023	214,520	1,071,249	1,285,769	7.8%
2024	238,379	1,100,653	1,339,032	4.1%

In addition, according to the most recent FAA's U.S. Civilian Airmen Statistics, the licensed pilots in Marion County and Florida are divided by category as follows:

Marion County Airmen Population

Year	Total	Commercial	Airline Transport	Student	Private
2019	853	172	195	179	292
2020	764	165	176	106	303
2021	910	162	213	241	280
2022	959	167	213	287	279
2023	1,086	192	229	359	292
2024	1,144	188	239	384	317

Florida Airmen Population

Year	Total	Commercial	Airline Transport	Student	Private
2019	68,914	11,691	20,223	22,225	14,186
2020	72,499	12,565	20,572	24,357	14,401
2021	75,551	12,841	21,175	26,531	14,388
2022	79,403	12,847	21,959	29,293	14,665
2023	85,597	13,212	23,185	33,038	15,507
2024	90,323	13,664	24,117	35,802	16,071

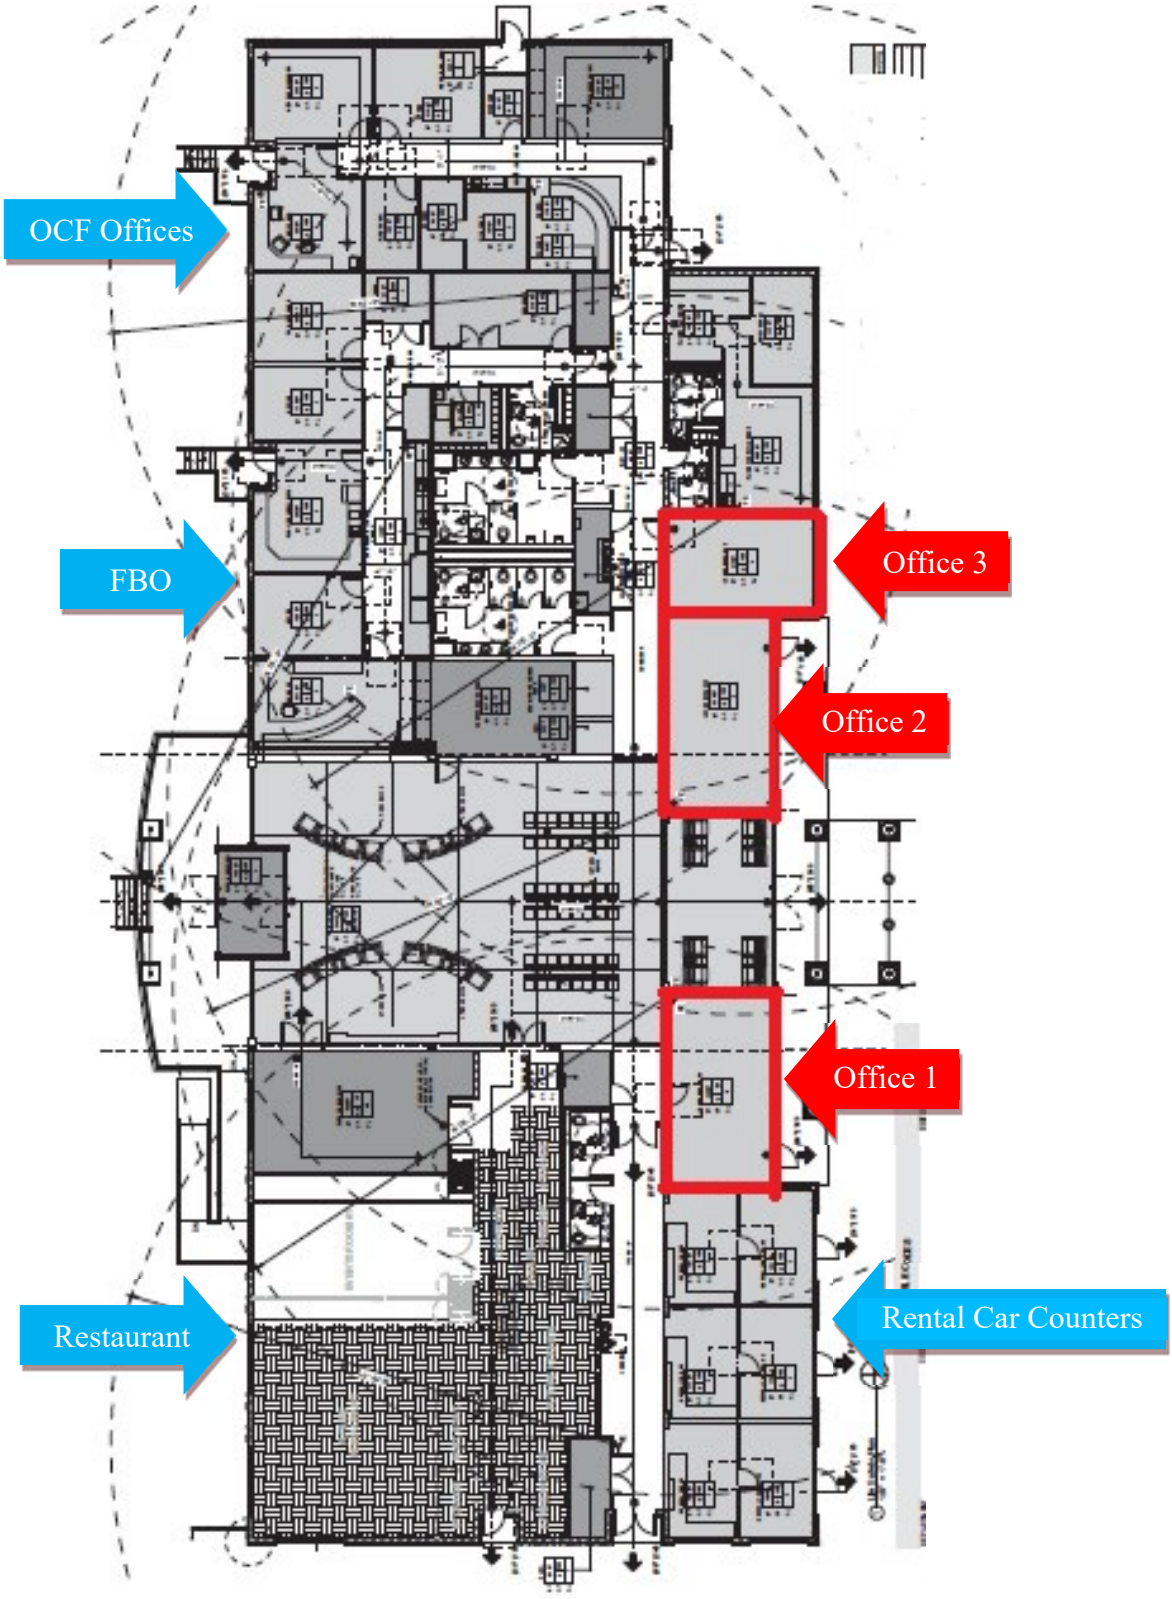
The above statistics of airport activity at OCF were analyzed in terms of the business trends in the area.

DESCRIPTION OF THE PROPERTY

As noted, the scope of this appraisal includes office space within the terminal, as well as aeronautical land at the airport.

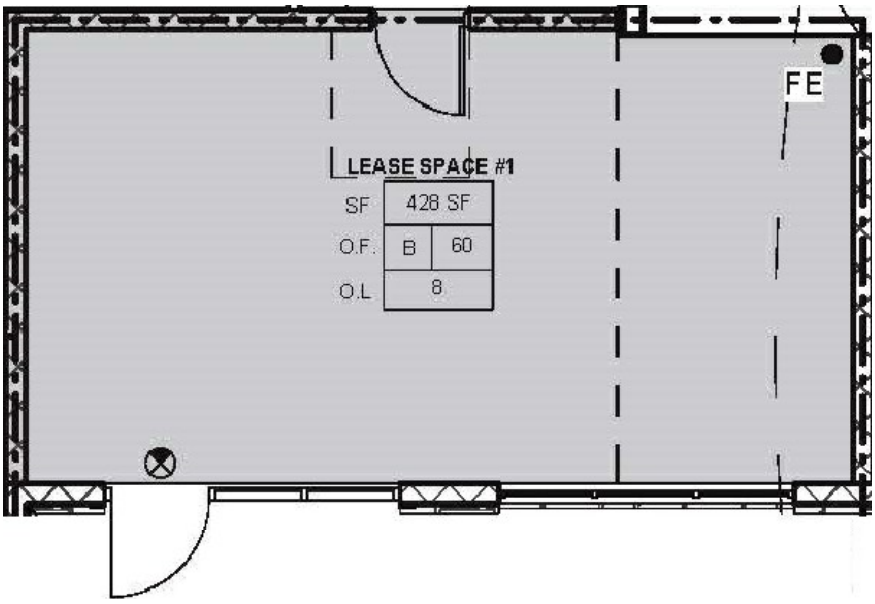
OCF Aeronautical Land

As noted, the appraisal includes an estimate of the fair market annual rent for the aeronautical land at OCF. As noted, the airport property contains about 1,532 acres and is comprised of aeronautical uses. The aeronautical land is the property included in the Airport Operating Area (AOA). The AOA is generally referred to as the area around the airport "inside the fence" and includes the runways, ramps, control tower, general aviation and support areas for the airport.



OCF Terminal

The subject property includes three office spaces within the terminal building. The OCF main terminal is located at 1770 SW 60 Avenue and was constructed in 2020. The terminal is of CBS construction with decorative stone veneer and a standing seam metal roof. The terminal contains a total area of about 17,500 square feet. The various spaces within the new terminal building include common areas (corridors, bathrooms, passenger terminal, conference rooms etc.), fixed base operator (FBO) space, professional office space, rental car space (office and counter areas) and restaurant space. Finishes include porcelain tile flooring, 2' x 2' acoustical ceiling tiles, decorative lighting, painted drywall, solid core doors, HVAC and fire sprinklers. Based on the design/layout of the facility, the building reflects a common area factor of about 36%. It should be noted, the scope of this portion of our analysis is limited to estimates of market rent for the three office spaces within the terminal building. A breakdown of the various areas is shown in the chart below.



FBO Space:	2,828 SF
Office Space:	
Space 1:	428 SF
Space 2:	438 SF
Space 3:	313 SF
	1,179 SF
Rental Car Office/Counter:	
Space 1:	364 SF
Space 2:	355 SF
Space 3:	365 SF
	1,084 SF

OCF Terminal Floorplan

Office 1

Office 2 & 3

ZONING AND LAND USE

The subject property is located within the City of Ocala and is zoned GU (Government Use), within the AOZ (Airport Overlay Zone), with a land use of "Employment Center". The purpose of the overlay zone is to regulate heights and structures and vegetation and to regulate the uses of land within the vicinity of general aviation public use airports, to avoid the creation of airport hazards and inhibit the development of uses which may be adversely affected by airport operations.

As stated, development at OCF is governed by the City of Ocala through the use of minimum standards, leasing standards, rules and regulations, as well as development standards included in airport's masterplan. The minimum standards provide for minimum requirements for aeronautical operations at the airport. The minimum standards are considered to severely restrict the potential uses of the airport property.

REAL ESTATE TAXES

The Marion County Property Appraiser's (MCPA) office has assessed the subject property for 2025 as follows:

	Market Value Assessment			
MCPA Parcel	Land	Improvements	Total	Taxes
23320-000-00	$24,337,500	$7,366,754	$31,704,254	$0.00

The subject property is exempt from ad valorem taxation based on its ownership and use.

HIGHEST AND BEST USE

According to The Dictionary of Real Estate Appraisal (Seventh Edition) published by the Appraisal Institute, the pertinent terms relating to highest and best use may be defined as follows:

Highest and Best Use is "the reasonably probable use of property that results in the highest value. The four criteria that highest and best use must meet are legal permissibility, physical possibility, financial feasibility and maximum productivity."

In estimating highest and best use, there are four stages of analysis:

1. Possible Use - normally dictated by physical constraints.
2. Permissible Use - what use would be permitted in consideration of existing zoning and other applicable laws governing the use of the property, as well as any deed restrictions that may exist.
3. Feasible Use - which possible and permissible uses will produce a net return to the owner of the site.
4. Maximally Productive - among feasible uses, which use will produce the highest net return to the land.

To meet the tests of highest and best use, the use cannot be speculative or conjectural. It must be legal and probable. There must be a profitable demand for such use and it must return to the land the highest net return for the longest period of time. These tests have been applied to the subject property. In arriving at the estimate of highest and best use, the subject property was analyzed as vacant, as well as improved.

As Vacant

The highest and best use, as vacant, considers among all reasonable alternative uses, the use that yields the highest present land value, after payments are made for labor, capital, and coordination. The use of a property based on the assumption that the parcel of land is vacant or can be made vacant by demolishing any improvements.

As discussed, inherent in real estate is the "bundle of rights" that each property possesses. This concept compares the rights of property ownership with a bundle of sticks, with each stick representing individual property rights such as the rights to use, sell or lease the property or to choose to exercise any or none of these rights. Typically, the highest and best use of vacant commercial property is dictated by the physical characteristics of the site (size, shape, configuration, location and zoning), as well as the supply and demand for parcels with similar characteristics.

As stated, the aeronautical land at OCF is the land located on the Airport Operating Area (AOA). The AOA is that portion of the airfield "inside the fence" and uses within this area are limited to aeronautical and related activities. Property uses within the AOA are restricted by the airport's Minimum Standards to uses which provide for the operation of the airfield and related aeronautical uses. These uses include pilot training, commercial and charter aircraft service, aircraft sales and service, aviation fuel sales and other similar uses, which due to their relationship with aircraft operation, are classified as aeronautical activities. Due to the location of the aeronautical land within the AOA, any uses of the site would be required to be aeronautical related. Due to the location of the aeronautical land within the OCF AOA, the highest and best use, as though vacant, is limited to the development of aeronautical facilities consistent with this designation.

As Improved

Highest and best use, as improved considers the use that should be made of a property as it exists. An existing property should be renovated or retained, as is, so long as it continues to contribute to the market value of the property, or until the return from a new improvement would more than offset the cost of demolishing the existing building and constructing a new one.

The OCF terminal represents a building typical of general aviation airports and is functional in design. The building was constructed in 2020 and is considered to be in very good condition. The buildings are considered to provide contributory value to the property as a whole and the highest and best use as improved of the terminal building would be for its continued use.

SUMMARY OF ANALYSIS AND VALUATION

The Federal Aviation Administration mandates that airport operators, such as OCF, charge fair market rent for all airport property in an effort to make the facility self-sustaining. The scope of this appraisal is limited to an estimate of the fair market rent for subject terminal office space, as well as aeronautical land at OCF. The properties that are subject of this report are designated as aeronautical based on their use as described herein. As noted, OCF is classified as a general aviation airport based on the activity level of the airport.

As discussed in the scope of the appraisal, consistent with the definition of "market rent" and based on the availability of comparable rental information, it is our opinion that market research is the best method of estimating fair market rent for aeronautical land and improvements for the properties that are the subject of this report at OCF as described herein. This method serves as the basis for our estimation of the fair market rental for the components that comprise the subject properties described herein. Our comparable rental analysis will focus primarily on similar general aviation airports in Florida.

In our analysis, we considered the size, use and operation of OCF in the estimates of the fair market rent for the different components that comprise the subject property. OCF classifies as a general aviation airport based on the type and level of operations at the airport. The FAA classifies airports in terms of "Hub Size" based on a percentage of total U.S. enplaned revenue passengers per year as follows:

Classification	Enplaned Passengers
Large Hub	Over 10,000,000
Medium Hub	2,475,000 to 10,000,000
Small Hub	500,000 to 2,475,000
Non-Hub	Less than 500,000
General Aviation	Not Applicable

The classification of the airports provides a guideline when comparing rentals at different airports. Our market research began with a review of available information prepared by third parties. Our analysis of available information indicated that there is limited reliable information available for aeronautical rentals at general aviation airports in Florida. As noted, we periodically survey rates and charges at over 50 airports in Florida

Slack, Johnston & Magenheimer General Aviation Survey

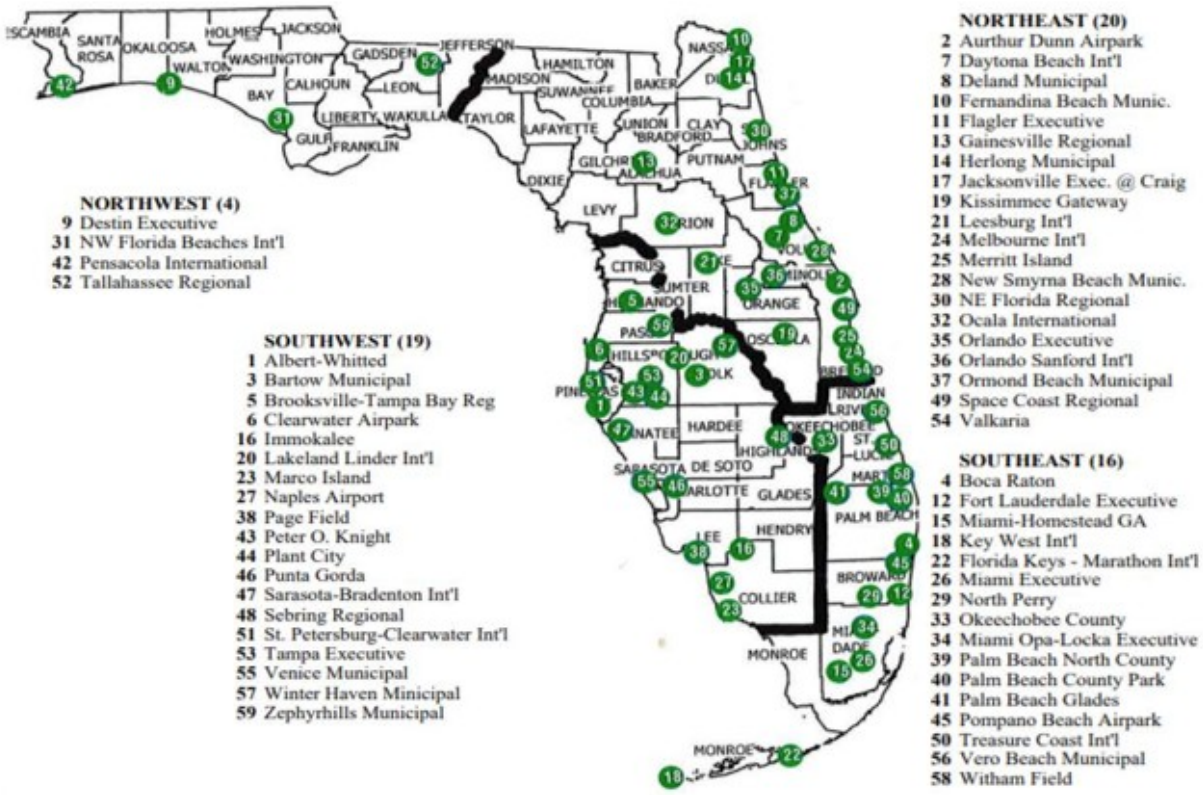
The scope of our survey began by establishing the universe of airports to compare to OCF with a review of the Florida Airport System Plan (FASP). The FASP identifies 131 public airports in Florida. The scope of the survey was limited by excluding large and medium hub commercial airports (airports with greater than 1.65 million annual enplanements) from the survey. This limiting factor excludes seven commercial airports from the survey

(Miami Int'l, Tampa Int'l, Orlando Int'l, Ft. Lauderdale Int'l, Palm Beach Int'l, Jacksonville Int'l and Southwest Florida Regional).

Our general aviation survey further considered annual operations as a secondary limiting factor. Based on a review of the FASP, airports with annual operations of less than 25,000 were also excluded from our survey. This limiting factor served to further reduce the scope of our survey by excluding about 40 general aviation airports. The airports excluded by the limiting factor are typically smaller, rural airports having a limited market for rates and charges information.

Through the use of the above limiting factors, our annual general aviation survey included over 50 public airports within Florida. Our market research focused on general aviation rates and charges within Florida based on a mail questionnaire, as well as telephone interviews with several airport managers and FBO operators. Refer to the following page for a summary of the general aviation airport survey, as well as the addenda.

This was a direct survey and the reliability of the information collected is considered good. For purposes of this analysis, the aeronautical land and building rental information is the most important portion of our survey. The format of the questionnaire of the aviation survey regarding ground rent asked for a range and average. It was our intention to survey current ground rental rates. When survey responses shows a range of rates at the airfield, an effort is made to clarify the rationale behind the variance. This is an important factor in our effort to report current rental rates, which are not skewed in favor of older leases with fixed or limited-increase rental rates.



As stated, OCF is a general aviation airport in central Florida. For purposes of this analysis, we reviewed current aeronautical land rental rates at similar general aviation airports in the area. In addition, we reviewed building rental rates at other general aviation airports in the central Florida and competitive regions. Once the information was collected, the next factor considered was the comparison of airports to one another. The variety of airports surveyed necessitated a review of units of comparison that consider the size, use and activity characteristics. For valuation purposes, we reviewed recent rental information obtained from airport managers, as well as FBO operators as will be further discussed subsequently.

General Aviation Airport Survey - Florida 2024-25

Prepared by: Slack, Johnston & Magenheimer, Inc.

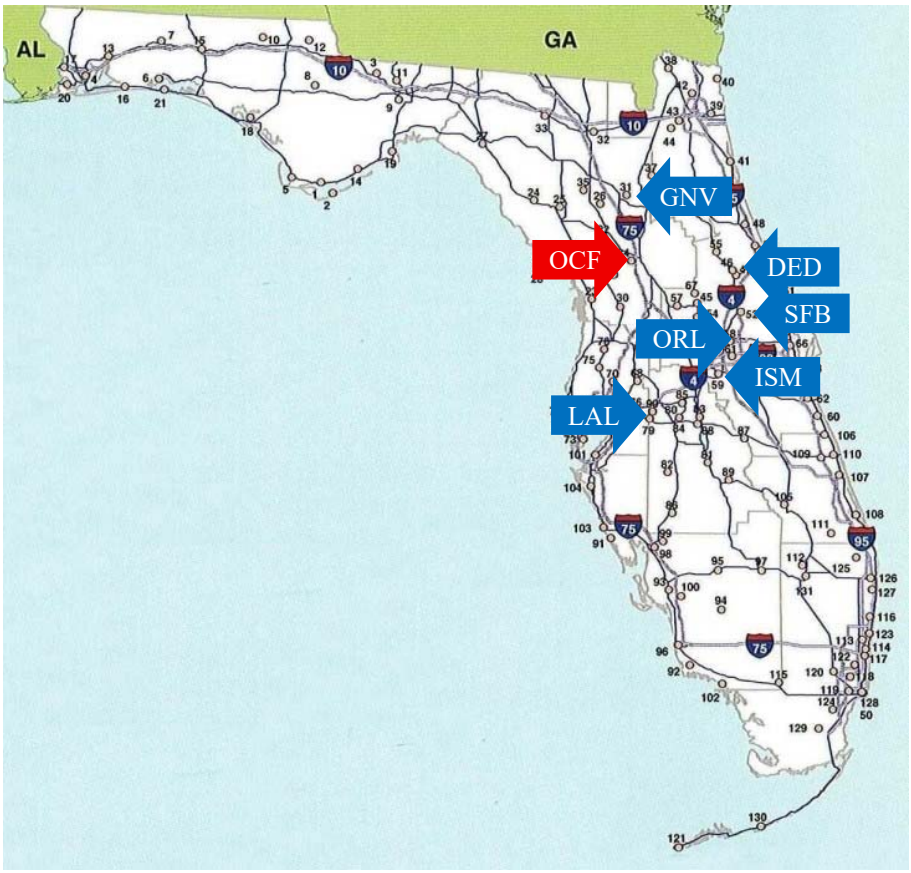
© Slack, Johnston & Magenheimer, Inc. 2025. All rights reserved.

The scope of this section of the appraisal report provides an indication of the fair market rent for the aeronautical land and terminal office space that comprise the subject property at OCF as outlined herein. The components have been analyzed separately as follows.

Aeronautical Land Analysis



The aeronautical parcels at OCF are located within the Airport Operating Area (AOA) and would be limited to aeronautical uses. As noted, the AOA of OCF represents all the land associated with the airfield and excludes the non-aviation areas. Aeronautical uses within the AOA includes fixed base operations, airport-owned, as well as tenant development (hangars, t-hangars, etc.) on leased land.

Our analysis included a review of the OCF rent roll for the aeronautical tenants at the airport. Based on information provided, there are several aeronautical land leases at the airport that range in size from about 0.25 to 22.00 acres and the annual aeronautical land rental rates range from $0.08 to $0.58 per square foot. The variation in rental rates is attributable to several factors including the size, date of the lease, lease escalations and inclusion of ancillary lands. Most of the aeronautical land rental rates are in the $0.20 to $0.30 per square foot.

Our analysis of the fair market annual aeronautical land rent for OCF was based on a comparative analysis of aeronautical land rental rates at other similar airports in central Florida. The restrictions on the use of land at these airports are most similar to the ownership and development restrictions at OCF. In this analysis, a direct market rent survey was performed of current annual aeronautical land rent. The aeronautical land at these airports is owned and controlled by the respective airport sponsors and leased to individual tenants. In our analysis, the unit of comparison is annual land rent per square foot. Aviation parcels are typically leased on a net basis, with the tenant responsible for expenses associated with the activity and operation of the parcel. The aeronautical land is leased for development, as well as in conjunction with airport-owned improvements at the airports. A summary of the current annual market aeronautical land rent for these airports follows.

Summary of Aeronautical Land Rental Rates

Airport Name	FASP	Hub Size	Aircraft Weight Limit <30K	Control Tower (Hrs.)	Nav. Aids/ Approaches	Based Aircraft	Fuel Flowage (K gal.)	GA Ops (K)	Annual Land Rent ($/Sq.Ft.)	Runway Configuration	
Gainesville Reg'l	NC	Non	no	yes	ILS GPS	173	1,654	58.5	$0.30	11/19 07/25	7,504 x 150 A 4,158 x 100 A

Lakeland Linder Int'l LAL	C	GA	yes	yes	GPS VORTAC ILS/DME	326	2,255	133.6	$0.40	09/27 05/23	8,500 x 150 A 5,000 x 150 A
Deland Municipal DED	EC	GA	no	no	GPS VORTAC	150	150	117.3	$0.28	12/30 05/23	6,001 x 100 A 4,301 x 75 A
Kissimmee Gateway ISM	EC	GA	no	yes	GPS VORTAC ILS/DME	239	2,708	126.7	$0.35	15/33 06/24	6,001 x 100 A 5,001 x 150 A
Orlando Executive ORL	EC	GA	no	yes	GPS ILS/DME	290	5,110	166.3	$0.45	07/25 13/31	6,004 x 150 A 4,625 x 100 A
Ocala Int'l OCF	NC	GA	no	yes	GPS VORTAC TACAN	196	1,339	89.4		18/36 08/26	7,467 x 150 A 3,009 x 50 A

The comparable annual aeronautical land rental rates range from $0.28 to $0.45 per square foot, with an average of $0.36 per square foot. These airports are considered a good representative sample of similar airports within the subject region.

Based on this market rental information, there appears to be some correlation between the activity at the airport and the annual aeronautical land rental rates. Based on the level of aeronautical activity, it is our opinion that fair market annual land rental rate for the aeronautical land at OCF should be within the middle of the range of the comparable aeronautical land rents as discussed herein. Based on our overall analysis of the current aeronautical land rental information at area airports, as well as current activity at OCF, we have formed the opinion that the annual aeronautical land rental rate for the subject parcel is $0.35 per square foot.

Building Rental Analysis

As stated, the scope of this appraisal includes an estimate of the annual fair market rent for the office space with the OCF terminal. The terminal is located at 1770 SW 60 Avenue and was constructed in 2020. The terminal contains a total area of about 17,500 square feet and consists of various spaces including common areas (corridors, bathrooms,

passenger terminal, conference rooms etc.), fixed base operator (FBO) space, professional office space, rental car space (office and counter areas) and restaurant space. The terminal office space that is the subject of this report includes three office spaces that range in size from 313 to 438 square feet and total 1,179 square feet. As noted, the current annual rent for office space within the OCF terminal is $30.00 per square foot on a full service basis.

For valuation purposes, we reviewed recent rental information concerning similar type rentals at other airports in Florida within general aviation, as well as commercial, terminal buildings. In this analysis, we have used the annual rent per square foot unit of comparison. Based on our research, rental rates for terminal office space is rented on a full service basis, with the landlord responsible for expenses.

The rentals were selected based on their size, type, condition, location and use. Of the information collected, we have selected rentals from several airports that are considered similar based on the salient characteristics under analysis. Our analysis focused on a review of rental rates for terminal office space. A summary chart and location map of the comparable rentals are presented as follows.

Summary of General Aviation Building Rentals

No.	Airport Name	FASP Reg.	Hub Size	Type	Rent $/SF/Yr.
1	Peter O. Knight TPF	WC	GA	Office	$41.00
2	Tampa Executive VDF	WC	GA	Office	$28.00
3	Space Coast Regional TIX	TC	GA	Office	$37.00
4	Orlando Executive ORL	EC	GA	Office	$46.00
5	Gainseville Regional GNV	NC	Non	Office	$52.00
6	Albert Whitted SPG	WC	GA	Office	$42.00
7	Palm Beach North County F45	SE	GA	Office	$36.00

As noted, we reviewed rental rates for terminal office space at several Florida airports based on discussion with airport sponsors, as well as FBO operators that rent office space within their terminal facilities. Based on our survey of similar space at other airports, the comparable terminal office annual rental rates range from $28.00 to $52.00 on a full service basis.

The rentals were selected based on their size, type, condition, location and use and are considered directly comparable to the subject terminal office space as described herein. Of the information collected, we have focused on various terminal office space located within general aviation terminals or, in the case of GNV, an airline terminal building. The terminal office annual rent for commercial airline office space at GNV was $52.00 per square foot and is considered to represent an upper limit of achievable rents for comparative rent purposes. The terminal office annual rental rates for space located at the six general aviation airports under review range from $28.00 to $46.00, with an average of about $38.30 per square foot. Based on our overall analysis of the terminal office rents at area airports, we would estimate the fair market rent for the subject property should be in the middle of the range of comparables rentals. For valuation purposes, we have formed the opinion that the fair market annual terminal office rental rate for the office space at the OCF terminal is $37.50 per square foot.

RECONCILIATION

The process of reconciliation reviews and reexamines the approaches to value that were employed in the appraisal. Our analysis began with defining the scope of the assignment. The purpose of the appraisal is to estimate the fair market annual rent for the subject property. The subject property is considered by OCF to be aeronautical due to its location adjacent to the OCF Airport Operating Area (AOA). Due to the parcel location at OCF, zoning and land use, potential uses of the property is limited to aeronautical related uses.

Based on our market research, there are two methods of estimating market rent: across the fence and market research. Please refer to the Scope of the Appraisal section for a description of these methods. This analysis has considered both approaches, but relied on the market research method as the most appropriate way to estimate fair market annual rent for the subject property.

It is our opinion that the unique aspects associated with the master plan and aeronautical land, as well as the restricted highest and best use of airport properties support our use of the market research method.

In the preceding section of the report, we provided market research for the property components that comprise the subject property. Our market research included aeronautical land and terminal office space rentals at other similar airports in Florida. The information collected was considered to be of good quality and indicative of fair market annual rental rates for the subject property. The airports and rental rates were compared based on use and activity characteristics as previously discussed in the valuation section. The following is a summary of our estimate of fair market annual rent for the subject property as of October 8, 2025, as follows:

Fair Market Annual Rental Per Square Foot:	
Terminal Office Space:	$37.50 (1)
Aeronautical Land:	$0.35

Note (1): Rent of a full service basis

ADDENDUM B – OCF Airport Summary

OCALA INTL. - JIM TAYLOR FIELD
OCF

Airport:	Ocala International Airport - Jim Taylor Field (OCF)
City:	Ocala, Florida
County:	Marion
Sponsor:	City of Ocala
Role:	General Aviation (National)
CFASPP Region:	North Central (cfaspp.com)
FDOT District:	5
Website:	Ocala - Jim Taylor

Ocala International-Jim Taylor Field (OCF) is a "Nationally" ranked Part 139 certified general aviation (GA) airport located approximately 70 miles northwest of downtown Orlando.

The airport has two runways, the longest of which measures 7,467 feet long by 150 feet wide (Runway 18-36). Recreational flying, flight training, freight/cargo, and business aviation represent the primary activities at the airport.

A state-of-the-art, 17,500 square foot GA terminal building was completed in 2020 and is home to the airport's fixed base operator (FBO), office space, and a restaurant that has been instrumental in attracting members of the public to the airport. Through its tenants, the airport supports a variety of career training and education opportunities for current and aspiring aviation professionals. Spanning over 800 acres of prime land for aviation and non-aviation opportunities, the Airport is proactively enhancing its infrastructure to support future growth and development.

OCF also serves as a gateway to the area's renowned equine industry and the recently opened World Equestrian Center (WEC), the largest equestrian complex in the U.S.

AIRPORT CHARACTERISTICS

1. New GA Terminal Opened in 2020 with Restaurant
2. Supports the Local Community with Several Annual Events
3. Serves as a Gateway to the Area's Renowned Equine Industry

RUNWAY INFORMATION (2)

Runway 18-36: 7,467' x 150'
Runway 8-26: 3,009' x 50'

Overview of the FASP 2043 Update:

Per Florida statute, the Florida Aviation System Plan (FASP) is periodically updated to summarize the airport and aviation needs in Florida while remaining consistent with the goals of the Florida Transportation Plan (FTP). The FASP 2043 Update focuses on reviewing the applicability of the various goals, objectives, and performance measures to support two primary goals: 1) provide for more efficiency in decision making within FDOT to support funding and development decisions, and 2) provide airports within the system with recommendations for development that support their individual missions while contributing to the overall strength and health of the Florida airport system.

ADDENDUM C – General Aviation Airport Summary

General Aviation Airport Summary - Florida 2024-25

Prepared By: Slack, Johnston & Magenheimer, Inc.
7245 SW 87 Avenue, Suite 300, Miami, Florida 33173
305-670-2111 E-mail: Info@SJMiami.com Website: SJMiami.com

Slack, Johnston & Magenheimer's 2024-25 general aviation airport survey included 59 airports within Florida. The 2024-25 survey was our 30th state-wide survey and included a variety of general aviation, non-hub commercial and small hub commercial airports with greater than +/-25,000 annual operations. Large and medium hub commercial airports were excluded from the survey. The primary focus of our survey was rental rates and charges for airport properties, including both aviation and non-aviation uses. The airports have been classified based on location, physical size, annual operations, based aircraft and fuel flowage. The data collected includes statistical information, as well as rates and charges information, for various types of airport properties.

The rates and charges information included fuel flowage fees, ground, pavement and building rental rates as well as a variety of aircraft storage rates including tie downs, T, shade, corporate and community hangars. The survey results have been summarized into selected categories and represent only a portion of the information gathered. It should be noted this is a summary of our survey findings and this survey should not solely be relied upon to establish rates at any airport.

Slack, Johnston & Magenheimer's 2024-25 survey continues to indicate that, although there is a wide variation in geographic locations and non-aviation property values throughout the state, there is less of a variation in rental rates and charges for various components at general aviation airports. In our summary the state was divided into four geographic regions. A list of the airports surveyed, as well as a state map delineating the geographic divisions is attached.

The scope of our survey included email questionnaires and personal telephone interviews with airport managers and fixed base operators (FBOs) conducted during mid-2025. In addition, our analysis included a review of several secondary general aviation data sources. These included the Florida Department of Transportation Florida Aviation System Plan and Federal Aviation Administration reports, as well as various third party data sources.

This year's survey indicates that general aviation airport activity in Florida has rebounded from the impacts of the Covid pandemic and activity has continued to stabilize over the past year, with mostly more measured growth typical of pre-pandemic activity. Statewide, average based aircraft levels have increased about 2% and average general aviation operations have increased about 7%, while average fuel flowage has remained level. By comparison to statewide indicators of airport activity compared to 2019 (i.e., pre-pandemic), based aircraft have increased about 9%, general aviation operations have increased about 16% and fuel flowage has increased about 46%.

The survey indicated regional airport activity including operations, based aircraft and fuel flowage has been stable, with some variations. As compared to last year, the southeast region indicated increases in based aircraft and operations and slight decline in fuel flowage, while the southwest region indicated a slight decline in based aircraft and increases in general aviation operations and fuel flowage. Also compared to last year, the northeast and northwest regions indicated increases in based aircraft, operations and fuel flowage. It was noted that the advent and prevalence of Virtower has increased the reliability of general aviation operation tracking; especially at airports without air traffic control towers.

In our continued effort to monitor the condition of the general aviation industry in Florida, we have reviewed the general aviation activity levels over the past several years, including the historic activity levels of annual airport operations and civilian airmen population. In addition, we continue to monitor the commercial aviation industry in Florida, including enplaned passengers and cargo activity.

Our analysis of the annual operations at all Florida airports with FAA control towers indicates that last year total operations increased about 4%, while general aviation operations increased about 3%. By comparison to the 2019 operations, total operations and general aviation operations both increased about 10%. In addition, over the same period of the time the allocation of operations between itinerant and local operations has remained mostly evenly split between itinerant and local operations. An analysis of operations on a regional level indicates the growth of operations has primarily been in the northwest and southwest regions, with increases in total operations of about 20% and 29%, respectively, as well as increases of general aviation operations about 28% and 26%, respectively as compared to 2019 activity. During the same time period, in the northeast region total operations increased about 9% and general aviation operations increased about 13%, while both total and general aviation operations were mostly level for the southeast region. In addition, on a statewide basis last year, itinerant operations accounted for about 46% of total operations. Regionally, itinerant operations varied between the regions (Northeast 41%, Northwest 51%, Southeast 46% and Southwest 53%) last year.

Our analysis also considered the civilian airport statistics in Florida and nationally. In the past year, nationally the population of total pilots increased about 5%, private pilots increased about 3% and student pilots increased about 9%, as compared to Florida where the population of total pilots increased about 6%, private pilots increased about 4% and student pilots increased about 8%. By comparison to the pilot populations in 2019, nationally the total pilots increased about 30%, private pilots increased about 8% and student pilots increased about 79%, while in Florida total pilots increased about 31%, private pilots increased about 13% and student pilots increased about 61% over the same time period.

A review of the commercial aviation activity concerning enplaned passengers and enplaned cargo tonnage indicates that activity continues to be primarily centered at Florida's large and medium hub airports. Over the past year, enplaned passenger volume increased about 3%, while enplaned cargo volume declined about 1%. By comparison to statewide indicators of enplaned passengers and cargo activity in 2019, total enplaned passenger volume has increased about 12%, while cargo volume has increased about 16%. It was noted Miami International continues to be the dominant cargo airport with over 75% of the total cargo volume and was the beneficiary of the total cargo volume increase as compared to pre-pandemic levels. The balance of the cargo volume at all the other commercial service airports has remained mostly level over the same since 2019, despite increased competition throughout central Florida's commercial service airports.

The following information summarizes our survey. As always, we thank those who participated in the survey. We look forward to continuing to serve the rates and charges and general real estate valuation and consulting needs of the Florida aviation community. Slack, Johnston & Magenheimer is a valuation firm based in Miami, Florida for over 60 years and has provided appraisal and consulting services to over 60 airports. ADDENDUM D - Qualifications of the Appraisers

ANDREW H. MAGENHEIMER, MAI

EDUCATION:

Bachelor's Degree, The University of the South, Sewanee, Tennessee, 1986

EXPERIENCE:

Over thirty years in the field of real estate, involved in various forms of consultation, appraisal, economic research and market analysis.

June, 1997 to Present, Principal, Slack, Johnston & Magenheimer, Inc.

August, 1991 to May, 1997, Senior Appraiser, Slack & Johnston, Inc.

February, 1987 to July, 1991, Staff Appraiser, Dixon & Friedman, Inc.

GENERAL APPRAISAL EXPERIENCE:

Appraisals - Vacant land, environmentally sensitive land, aviation facilities, industrial facilities, shopping centers, office buildings, apartment buildings, residential developments and single-family residences.

Consulting - Economic research, market analysis, feasibility analysis and ad valorem real estate tax assessment appeals pertaining to industrial, commercial and residential properties.

Litigation Support – Appraisals and consulting, including expert testimony, concerning various property types.

AFFILIATIONS:

Licensed Florida Real Estate Broker

Florida State-Certified General Real Estate Appraiser, Certification No. RZ1073

Appraisal Institute Member, MAI, Certificate Number 10133, Continuing Education Completed

2002 President of the South Florida Chapter of the Appraisal Institute

Member of the Miami Board of Realtors

Member of the Florida Keys Board of Realtors

Corporate Member of Florida Airport Council (FAC)

File #: 2026-0836 Agenda Item #: 6b.

NA

BACKGROUND:
The Florida Department of Agriculture and Consumer Services, Division of Forestry (Forestry) has been a tenant at the Ocala International Airport since approximately 2002. Forestry operates several helicopters and fixed-wing aircraft assets in a forest fire mitigation role and often bases multiple aircraft from its Ocala hub. The current lease (Contract No. AIR/210446) expires on March 31, 2026. Forestry requested an annual renewable lease extension with a commencement date of April 1, 2026, and continues in effect from year to year until either party provides notice of termination.

The proposed gross lease includes a blended rate for hangar and office space over the rental period based on a formula of dedicated office space, common office space, and dedicated hangar space, which totals 5,813 square feet. The 2026 blended rate equates to $9.44 per square foot and increases by 3 percent annually.

Revenue will be applied to account 451-362-000-000-02-31191.

FINDINGS AND CONCLUSIONS:
- Forestry is a tenant in excellent standing.
- The lease is for office and hangar space at 750 SW 60th Avenue, otherwise known as Hangar 19.
- The Florida Department of Fish and Wildlife (FWC) is the other tenant in Hangar 19.
- This lease agreement represents a 3 percent rental amount increase for 2026 with subsequent annual 3% increases until the lease is terminated.
- Either party may terminate the lease with 90 day written notice.

- The Ocala Airport Forestry office employs two pilots and two mechanics.

FISCAL IMPACT:
First lease-year annual revenue is $54,874.
Rent increases 3 percent annually.
Revenue will be applied to account 451-362-000-000-02-31191.

PROCUREMENT REVIEW:
This agreement has been reviewed by the Procurement and Contracting Officer in compliance with City policies and procedures.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:
- Approve with Changes

Lease Number AIR/210446

AIRCRAFT STORAGE HANGAR LEASE AGREEMENT

This HANGAR LEASE AGREEMENT (Agreement) is made and entered into on _____, by and between those parties listed below.

LESSEE: Florida Department of Agriculture and Consumer Services
Lessee Name

Address: 407 South Calhoun Street (Street) | Tallahassee (City) | FL (State) | 32399 (Zip Code)

Email Address: Leasing@FDACS.gov

LESSOR: City of Ocala
Lessor Name

Address: 1770 SW 60th Avenue, Suite 600 (Street) | Ocala (City) | FL (State) | 34474 (Zip Code)

FEID: 59-6000392

Email Address: _____

ARTICLE 1 – AIRCRAFT INFORMATION

FAA Registration No. N115FC Owned: Yes Make/Model: Leonardo AW-119 Helicopter Year: 2024 Engines: Single

FAA Registration No. N120FC Owned: Fed-owned Make/Model: UH-1H Helicopter Year: 1970 Engines: Single

FAA Registration No. _____ Owned: _____ Make/Model: _____ Year: _____ Engines: _____

ARTICLE 2 – DESCRIPTION OF THE HANGAR AND AIRCRAFT

The Lessor hereby rents to Lessee 5,813 square feet of real property consisting of Hangar Number(s) 19 (Hangar) located at the Ocala International Airport Airport (Airport). The Hangar shall be used and occupied by Lessee for the storage/parking of the above-referenced aircraft (Aircraft), or any other similar aircraft owned or leased by Lessee (Substitute Aircraft), provided Lessee has submitted written notification to the Lessor to store the Substitute Aircraft in the Hangar. All provisions of this Agreement applicable to the Aircraft shall also be applicable to the Substitute Aircraft.

ARTICLE 3 – TERM

The Term of this agreement shall commence on the 1st day of April, 2026, and shall continue in effect for from year to year, being automatically renewed each year, unless terminated under the terms of this Agreement. Either party may terminate this Agreement upon ninety (90) days written notice to the other party prior to termination. Lessee shall be obligated to pay applicable rent for a period of 90 days upon Lessee giving notice to terminate, unless Lessor is successful at renting the Hangar to another tenant at which point the balance of rent due shall be prorated.

ARTICLE 4 – RENT

For the use of said Hangar, Lessee shall pay the Lessor the rental amount of $4,575.36 + 0% sales tax per month for services and use of the Hangar. Monthly rental rate shall increase by 3% annually upon renewal. Otherwise, monthly rental rate may only be changed upon sixty (60) days written notice to the Lessee. If transmitted via email said notice shall be considered given upon Lessor's receipt of an acknowledgment email from Lessee.

The rent shall be payable the month following the month of occupancy in accordance with Section 215.422, Florida Statutes (F.S.). In the event that this lease agreement is terminated on any day other than the first or last day of a calendar month, the applicable rentals, fees, and charges for that month shall be paid for on a prorated per day basis. Lessee agrees that the rent is due and owing on a monthly basis.

Rental invoices shall be submitted monthly to Lessee at:

LESSEE: Florida Department of Agriculture and Consumer Services
Lessee Name

Address: 407 South Calhoun Street (Street) | Tallahassee (City) | FL (State) | 32399 (Zip Code)

Email Address: Leasing@FDACS.gov

Rental payments shall be paid to Lessor at:

LESSOR: City of Ocala
Lessor Name

Address: 1770 SW 60th Avenue, Suite 600 (Street) | Ocala (City) | FL (State) | 34474 (Zip Code)

ARTICLE 5 – OBLIGATIONS OF LESSOR

The Lessor covenants and agrees:

A. Maintenance and Repairs: Lessor will maintain the structural components of the Hangar, including doors and door mechanisms, and normal building maintenance without additional cost to the Lessee. Where available to the storage facility, the Lessor will provide minimal electrical power for occasional use of power tools, shop lights, battery chargers, or similar devices. Lessor shall maintain the exterior of the facility so to conform with all applicable health and safety laws, ordinances, and codes.

B. Utilities: Lessor shall promptly pay all gas, water, power, and electric light rates or charges which become payable during the term of this Agreement for the gas, water, and electricity used by the Lessee on the premises. The Lessor reserves the right to assess an additional fee for extraordinary consumption of utilities by the Lessee as shall be determined by the Lessor.

C. Lessee shall have at all times the right of ingress to and egress from the rented premises. To ensure this right, Lessee shall at all times keep all required security badges current and follow all Department of Homeland Security, Transportation Security Administration, and Airport security requirements. Lessor shall make all reasonable efforts to keep adjacent areas to the rented premises free and clear of all hazards and obstructions, natural or man-made. Lessor reserves the right to improve and perform maintenance on all runways, taxiways, and apron areas. Improvement and maintenance operations may require restricted hangar access on a temporary basis with prior written notice to Lessee. Lessor shall make all reasonable efforts to notify Lessee when improvement and maintenance operations are scheduled. Lessee shall provide Lessor with up-to-date email contacts to facilitate notifications.

ARTICLE 6 – OBLIGATIONS OF LESSEE

The Lessee covenants and agrees:

A. Storage: The Hangar shall be used for storage/parking of the Aircraft identified in Article 1 or Substitute Aircraft. The Aircraft shall not be non-airworthy. The Lessor reserves the right to require the Lessee to show evidence that the Aircraft has successfully passed a Federal Aviation Administration (FAA) approved airworthiness inspection within the past 18 months. If the Aircraft is an FAA-legal ultralight, the Lessor may require the Lessee to demonstrate that the Aircraft is capable of flight.

B. Building Maintenance, Repair, and Alterations: Lessee shall maintain the Hangar in a neat and orderly condition and shall keep the Hangar floor clean and clear of oil, grease, and toxic chemicals. Lessee shall not engage in any hazardous activities within or about the Hangar including welding, torch cutting, spray painting, or any activities which utilize open flame devices. No hazardous or flammable materials will be stored within or about the Hangar unless stored within an EPA or local fire marshal approved container/cabinet. No boxes, crates, rubbish, paper, or other litter that could cause or support combustion shall be permitted to accumulate within or about the Hangar. Lessee shall properly dispose of all trash, waste oil, fuel, solvents, cleaning supplies, rags, and other waste materials off of the Lessor's property. At no time will the Lessee dispose of waste fuel on the ground. Lessee shall not store or dispose of any items of any kind outside of the Hangar or on Airport property outside of the Hangar.

Lessee shall be responsible for all damage to the Hangar or any property, real or personal, located on or about the Hangar as a result of the Lessee's negligence or the negligence or abuse of Lessee's guests or invitees. In the event the Lessee does not promptly repair any damaged premises or property for which the Lessee is responsible, the Lessor reserves the right to make such repairs at the Lessee's expense, which shall become due and payable as part of the Lessee's next monthly rental payment.

Lessee shall make no structural, electrical, or other modification (including painting, wall and/or floor coverings) to the premises without first obtaining the Lessor's written permission and obtaining applicable permit(s) as required. All repairs, maintenance, improvements, or alterations made by Lessee shall be accomplished in accordance with

the city building/fire codes. The Lessee shall not erect or attach any signage to the outside of the Hangar without the express written consent of the Lessor.

Lessee shall engage wind locks at all times when hangar door is closed. Lessee shall report any malfunction of the hangar doors immediately to the Lessor. Lessee shall hold the Lessor harmless from damage to aircraft of hangar contents due to Lessee's failure to engage wind locks or report door malfunction.

C. Use of Hangar: The Hangar is for storage of Lessee's Aircraft. The Lessee may only perform preventative maintenance within the Hangar, on Aircraft owned by the Lessee, and as approved under Federal Aviation Regulations Part 43. Painting and major aircraft repairs are prohibited unless otherwise approved in writing by the Lessor and the local fire marshal. Temporary storage of non-aviation items may be allowed if approved in writing by the Lessor or its designated representative. Said storage shall be incidental to the storage of aircraft. The Lessee will be allowed to park his or her car in/on the rented premises only during such time that Lessee is using the Aircraft. Vehicles used to access the Hangar shall have an Airport-issued vehicle permit affixed to the vehicle as directed by the Airport.

D. Commercial Activity: Lessee shall conduct no commercial activity of any kind whatsoever in, from, or around the Hangar without express written consent of the Lessor. For the purpose of this Agreement, commercial activity shall be defined as any activity relating to the buying or selling of goods or services. Commercial activity is governed by the Lessor's Minimal Standards and Requirements for Aeronautical Activities. Participation in a commercial activity in, from, or around the Hangar may result in immediate termination of this Agreement.

E. Access: Lessee agrees to use only the locks supplied by the Lessor. The Lessee will be issued two proprietary style keys which may only be copied by the Lessor. In the event that Lessee loses or damages the lock(s) or key(s), the Lessee shall be responsible for the cost of replacing the lock or re-keying the lock core, as required, and the cost of the key replacement. The Lessor shall retain a master key allowing access to the Hangar. Replacement costs shall be as published in the Lessor's Schedule of Rates and Charges.

Authorized representatives of the Lessor and any applicable federal, state, or local agency having jurisdiction shall have the right of access to the premises during daylight hours, and upon twenty-four (24) hours advance notice to the Lessee, for the purpose of inspection to determine compliance with the provisions of this Agreement or applicable federal, state, or local regulations, or to perform maintenance or make repairs to the leased property.

If any deficiency in compliance with this Agreement is found, including any fire or accident hazard, Lessee shall be so informed and shall rectify the hazard within five (5) days of notice. If not rectified within the five (5) days specified, the Lessor reserves the right to correct the deficiency through reasonable means. Any expenses incurred

by the Lessor in correcting the deficiency will be paid by the Lessee. The Lessor must submit a detailed invoice with supporting documentation to the Lessee listing the commodities or services purchased to correct the deficiency.

Lessee shall follow all security rules and regulations set forth in writing by the Lessor and any agency having jurisdiction. Lessee agrees to Pay all fees specified in the Lessor's Schedule of Rates and Charges for security materials including fees associated with lost access badges, locks, and keys.

F. Termination: On termination of this Agreement, Lessee shall immediately surrender possession of the Hangar and shall remove the Aircraft and all other personal property therein, leaving the Hangar in the same condition as when received, ordinary wear and tear excepted.

ARTICLE 7 – COMPLIANCE WITH LAWS

Each party agrees to comply with all applicable ordinances, rules, and regulations established by any federal, state, or local government agency. Each party agrees to comply with any and all applicable federal, state, or local laws, ordinances, regulations, ruling, orders, and standards, now or hereafter, promulgated for the purpose of protecting the environment. Each party agrees to cooperate with any investigation or inquiry by any governmental agency regarding possible violation of any environmental law or regulation.

ARTICLE 8 – INDEMNIFICATION

Except to the extent arising from Lessor's default hereunder or the act(s) or omission(s) of Lessor or Lessor's agents, Lessee hereby expressly agrees to indemnify and hold Lessor harmless from and against any and all liability for fines and physical damage to property or injury or death to persons, including reasonable expense and attorney's fees, arising from or resulting out of, or in any way caused by Lessee's use of the Hangar.

ARTICLE 9 – SUBAGREEMENTS/ASSIGNMENT

Lessee shall not assign or sublease the Hangar without prior written approval of the Lessor. In the event that the Lessee wishes to temporarily assign or sublease the Hangar, Lessee must first submit a request to the Lessor in writing. The parking of aircraft not owned or leased by Lessee in the Hangar is prohibited.

ARTICLE 10 – CONDITION OF PREMISES

Except as provided herein, Lessee shall accept the Hangar in its present condition without any liability or obligation on the part of the Lessor to change or alter the present condition of the Hangar.

ARTICLE 11 – INSURANCE

Lessee will provide self-insurance through the State Risk Management Trust Fund for general liability insurance in accordance with Section 284.30, F.S. Further, Lessee shall provide aviation insurance for hull, single limit liability and/or

guest voluntary settlement coverage on the Aircraft or Substitute Aircraft under policy number AV 004794077-59, as same may be amended, cancelled, or renegotiated by the State of Florida from time to time. Pursuant to Section 284.01, F.S., Lessee will provide self-insurance coverage against loss from fire, lightning, sinkholes, and other hazards customarily insured by extended coverage.

ARTICLE 12 – CASUALTY

In the event the Hangar or the means of access thereto shall be damaged by fire or any other cause, the rent payable hereunder shall not abate provided that the Hangar is not rendered unusable by such damage. If the Hangar is rendered unusable and the Lessor elects to repair the Hangar, the rent shall abate for the period during which such repairs are being made, provided the damage was not caused by the acts or omissions of the Lessee or its employees, agents, or invitees. If such damage was caused by the Lessee or its employees, agents, or invitees, the rent shall not abate. If the Hangar is rendered unusable and the Lessor elects not to repair the Hangar, this Agreement shall terminate.

ARTICLE 13 – TAXES AND FEES

If at any time during which this Agreement is in effect, the Hangar, leasehold interest in the Hangar, or rental payments applicable to the Hangar become subject to any federal, excise, or other tax or fee, Lessee agrees to assume the payment of such taxes or fees upon thirty (30) days written notice of such fees becoming due and owing. Lessee shall not be responsible for the payment of any retro-active or back taxes.

ARTICLE 14 – NINETY DAY TERMINATION

Either party of this Agreement shall have the right, with or without cause, to terminate this Agreement by giving ninety (90) days prior written notice to the other.

ARTICLE 15 – NON-EXCLUSIVE RIGHTS

Notwithstanding anything herein contained that may be, or appear to be, to the contrary, it is expressly understood and agreed that the rights granted under this Agreement are nonexclusive and the Lessor herein reserves the right to grant similar privileges to another Lessee or other Lessees on other parts of the Airport.

ARTICLE 16 – GOVERNING LAW AND VENUE

This Agreement will become valid when executed and accepted by the Lessor or its agent and the Lessee. This Agreement will be deemed made and entered in the State of Florida and will be governed by and construed in accordance with the laws of Florida. In the event there is a dispute between parties, suit will be brought only in federal or state courts in Florida and venue will be in Leon County, Florida.

ARTICLE 17 – RELATIONSHIP OF PARTIES

Lessee shall not at any time during the term of this Agreement be considered an agent of the Lessor, and the Lessor shall not be responsible for the acts of omissions of the Lessee or the Lessee's agents or invitees.

ARTICLE 18 – ENTIRE AGREEMENT

This Agreement constitutes the entire Agreement between parties as of its effective date and supersedes all prior independent agreements between the parties related to the renting of the Hangar. Any change or modification hereof must be in writing and signed by both parties.

ARTICLE 19 – WAIVER

The waiver by either party of any covenant or condition of this Agreement shall not thereafter preclude such party from demanding performance in accordance with the terms hereof.

ARTICLE 20 – SEVERABILITY

If a provision hereof shall be finally declared void or illegal by any court or administrative agency having jurisdiction, this entire Agreement shall not be void, but the remaining provisions shall continue in effect nearly as possible in accordance with the original intent of the parties.

ARTICLE 21 – SUCCESSORS BOUND

This Agreement shall be binding on and shall insure to benefit of the heirs, legal representatives, and successors of the parties hereto.

ARTICLE 22 – SOVEREIGN IMMUNITY

Notwithstanding anything herein to the contrary, this Agreement is subject to Section 768.28, F.S., which, among other things, provides that nothing herein will be deemed to (i) waive any defense of sovereign immunity available to either party, (ii) increase the limits of either party's liability, and (iii) allow a party to assume any liability for the other party's negligence.

ARTICLE 23 – AVAILABILITY OF FUNDS

Pursuant to Section 255.2502, F.S., Lessor acknowledges that the State of Florida's performance and obligation to pay under this contract is contingent upon an annual appropriation by the Legislature.

ARTICLE 24 – RADON GAS

Radon is a naturally occurring radioactive gas that, when it has accumulated in a building in sufficient quantities, may present health risks to persons who are exposed to it over a period of time. Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your county health department. See Section 404.056(5), Florida Statutes. Lessor certifies that if any radon is present, it is at a measurement level less than 4 PCI/L.

ARTICLE 25 – HUMAN TRAFFICKING

Pursuant to Section 787.06(13), F.S., if the Lessor is a nongovernmental entity, Lessor shall submit to the Lessee, upon execution of this Agreement, any renewal of this Agreement, or any extension of this Agreement, an affidavit signed by an

officer or representative of the Lessor under penalty of perjury attesting that the Lessor does not use coercion for labor or services as defined in Section 787.06, F.S.

ARTICLE 26 – INSEPCTOR GENERAL

Lessor understands and will comply with Section 20.055(5), F.S. regarding cooperating with the Inspector General in any investigation, audit, inspection, review, or hearing pursuant to Section 20.055, F.S.

Department: Recreation and Parks

FORMAL TITLE:
One-year renewal of contract with Southern Lawn Care Mid Florida, Inc., for specialty grounds maintenance services with expenditure amount not to exceed $72,600

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
After a competitive solicitation, City Council awarded the contract for specialty grounds maintenance services to Southern Lawn Care Mid Florida, Inc. ("Southern Lawn Care"), on April 4, 2023 (Contract No. REC/230103). Specialty grounds maintenance services include manicured and more detailed mowing services required for downtown areas and medians. The contract was for an initial term of three years, through March 20, 2026, and offered two one-year renewal terms. The compensation for these services was originally set at an amount not to exceed $196,911.

On January 2, 2025, the City and Southern Lawn Care entered into the First Amendment to the agreement in order to modify the service locations and mowing frequencies and increase the expenditure threshold to $205,000 for the remainder of the initial three-year term.

FINDINGS AND CONCLUSIONS:
Southern Lawn Care Mid Florida, Inc., has met all requirements for the provision of specialty ground maintenance services specified in City of Ocala Contract Number: REC/230103, from March 21, 2023, to present. The Recreation & Parks Department requests for the contract to be renewed for the first of two available one-year renewal terms.

FISCAL IMPACT:
The contract for specialty ground maintenance services will have an annual fiscal impact of $72,600. Recreation & Parks grounds maintenance services are budgeted in the Recreation & Parks Department budget (001-021-120-572-57-34010).

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

SECOND AMENDMENT TO AGREEMENT FOR SPECIALTY GROUNDS MAINTENANCE SERVICES

THIS SECOND AMENDMENT TO AGREEMENT FOR SPECIALTY GROUNDS MAINTENANCE SERVICES ("Second Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 27-4898723) ("Vendor").

WHEREAS, on April 6, 2023, City and Vendor entered into an Agreement for Specialty Grounds Maintenance Services (the "Original Agreement"), City of Ocala Contract Number: REC/230103, for a term of three (3) years, from March 21, 2023, through March 20, 2026; and

WHEREAS, on January 2, 2025, City and Vendor entered into a First Amendment to Agreement for Specialty Grounds Maintenance Services (the "First Amendment") to amend the service locations and mowing frequencies; and

WHEREAS, City and Vendor now desire to extend the Original Agreement, as amended, for the first of two (2) additional one (1) year renewal periods available under the terms of the Original Agreement.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Vendor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Second Amendment.
3. **RENEWAL TERM**. The Original Agreement, as amended, is hereby renewed for an additional one (1) year term beginning **MARCH 21, 2026**, and terminating **MARCH 20, 2027**. Thereafter, the parties acknowledge and agree that there remains the option for the Original Agreement to be renewed for up to **ONE (1)** additional **ONE (1) YEAR** period upon written agreement between the parties.
4. **COMPENSATION.** City shall pay Vendor a maximum limiting amount not to exceed **SEVENTY-TWO THOUSAND, SIX HUNDRED AND NO/100 DOLLARS ($72,600)** (the "Contract Sum") over the one (1) year Renewal Term as full and complete compensation for the timely and satisfactory performance of services in accordance with the Contract Documents. The pricing in this Agreement shall only be adjusted by written amendment executed by both parties.
5. **NOTICES**. All notices, certifications or communications required by this Second Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Vendor:	Southern Lawn Care Mid Florida, Inc. Attention: Tim McQuaig 13900 NE 41st Terrace Anthony, Florida 32617 Phone: 352-304-3921 E-mail: kawboy32x@gmail.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

6. **COUNTERPARTS.** This Second Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

7. **ELECTRONIC SIGNATURE(S).** Vendor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Second Amendment. Further, a duplicate or copy of the Second Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Second Amendment for all purposes.

8. **LEGAL AUTHORITY**. Each person signing this Second Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Second Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Second Amendment.

FIRST AMENDMENT TO AGREEMENT FOR SPECIALTY GROUNDS MAINTENANCE SERVICES

THIS FIRST AMENDMENT TO AGREEMENT FOR SPECIALTY GROUNDS MAINTENANCE ("First Amendment") is entered into by and between **CITY OF OCALA**, a Florida municipal corporation ("City"), and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 27-4898723) ("Vendor").

WHEREAS, on April 6, 2023, City and Southern Lawn Care Mid Florida, Inc. entered into an Agreement for Specialty Grounds Maintenance Services (the "Original Agreement"), City of Ocala Contract Number: REC/230103 for a term of three (3) years from March 21, 2023, to March 20, 2026; and

WHEREAS, City and Vendor desire to modify the service locations and mowing frequencies as outlined in the Scope of Work and Price Proposal, attached to the Original Agreement as **Exhibit A – Amended Scope of Work** and **Exhibit B – Amended Price Proposal**.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Southern Lawn Care Mid Florida, Inc. agree as follows:

1. **RECITALS.** City and Vendor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Vendor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this First Amendment.
3. **AMENDMENT TO EXHIBIT A – SCOPE OF WORK.** The document attached to the Original Agreement as Exhibit A – Scope of Work is hereby deleted in its entirety and replaced with the document attached hereto as **Exhibit A – Amended Scope of Work.**
4. **AMENDMENT TO EXHIBIT B – PRICE PROPOSAL.** The document attached to the Original Agreement as Exhibit B – Price Proposal is hereby deleted in its entirety and replaced with the document attached as **Exhibit B- Amended Price Proposal**.
5. **COMPENSATION.** City shall pay Vendor an amount not to exceed the maximum limited amount of **TWO HUNDRED FIVE THOUSAND, NO/100 DOLLARS ($205,000)** (the "Contract Sum") over the initial contract term in accordance with the unit pricing set forth in **Exhibit B – Amended Price Proposal**. The pricing in this Agreement shall only be adjusted by written amendment executed by both parties.
6. **NOTICES**. All notices, certifications or communications required by this First Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

BACKGROUND

Contractor will provide all materials, equipment and labor while providing professional grounds maintenance services at multiple locations throughout the City. It shall be the responsibility of the Vendor to maintain the sites outlined in the most efficient and effective manner

EQUIPMENT REQUIREMENTS

Contractor must possess and properly maintain (for the duration of this contract) the following equipment:

1. Five (5) weed eaters
2. Five (5) edgers
3. Five (5) backpack blowers
4. One (1) three-wheel blower (for parking lots)
5. Five (5) mowers which shall include a combination of push and greater zero turn mowers
6. Two (2) trucks/trailers
7. Three (3) backpack sprayers

Working Hours: The normal/standard working hours for this project are 7:00 AM – 5:00 PM Monday through Friday, excluding holidays. Contractor shall provide 48-hour advance notice to City Project Manager for work outside normal shift hours. The city may decline the request.

MOWING FREQUENCIES

Month	Cuts per month
January	1
February	1
March	4
April	4
May	4
June	4
July	5
August	4
September	4
October	2
November	1
December	1
Total:	**35**

***The City anticipates mowing frequencies as outlined above, however; the City reserves the right to adjust these frequencies as needed.**

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

DEFINITIONS

1. Trash: Trash is defined as anything loose and useless (examples but not limited to) bottles, cans, paper, plastic bags, plastic bottles, plastic food wrappers and Styrofoam cups and plates.

2. Debris: Debris is defined as objects lying on the ground in an area to be mowed that are mostly organic (examples but not limited to) tree limbs less than six inches (6") in diameter and smaller than six feet (6') in length, tree branches, twigs, hedge clippings and sapling trimmings. One (1) or two (2) broken concrete blocks would qualify as debris but an abundance of blocks would be the City's responsibility to move. If the Contractor finds large items such as old tires, concrete blocks, old chairs or sofas, dead car batteries, etc., on a site to be mowed please call the City contact to report the findings and the City will remove and properly dispose of the debris. Otherwise, it is the Contractor's responsibility to remove and properly dispose of debris before mowing.

MOWING

1. Mowing and all related services at a park or parcel should be started and completed on the same day (weather permitting). For larger parcels, the Contractor should attempt to complete all work in one area and then move the operation to the next area of that parcel. The intent is that a parcel will not be left for days with the parcel mowed, but with high grass still standing around benches, bleachers, etc. waiting on follow up trimming and weed eating.
2. Each area under this contract must be mowed with properly sized equipment to avoid scalping rutting and cutting off tops in sodded areas. Many of the properties under this contract are "lawns", not just typical park grass (Bahia), and as such must be mowed with more care than one would use in an open park. Properly sized equipment is often key to complying with this requirement**. Note: This may require the use of hand equipment such as push mowers, weed eaters, etc., in limited areas.**

3. Mower must be cleaned before moving to a different property if the next property has a different type of grass.

4. Mow at a height of three (3) inches for Bahia grass, four (4) inches for St. Augustine grass, and three (3) inches for Zoysia grass.

5. Mow all grassed areas in accordance with the frequency indicated on the price page proposal. Specific mowing dates and days will be set by the City. Contractor must follow City noise ordinance when planning mowing times.

6. The City does not include an allowance for delays caused by inclement weather; however, the City will grant time extensions, on a day-to-day basis for delays caused by the effects of rain or other inclement weather conditions. No additional compensation will be made for delays caused by the inclement weather.

7. All equipment must be properly maintained, mechanically. The blades must be sharpened so that the grass is cut and not torn, causing damage to the grass. Tires must be equally inflated

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

to avoid uneven cuts, etc. The Vendor is responsible for operating equipment at speeds that result in proper cuts.

8. Vendor must pick up and remove trash and debris in and around the area to be mowed to include fence lines before mowing and properly dispose of it so it is not chopped up by mower. The Vendor is responsible for a clean area (free of trash and debris) with neat appearance, even cut and no clumps of grass to remain in the mowed areas. If the cuttings leave a thick blanket like cover over the existing cut area the operator must repeat the cycle to scatter the grass cuttings. All mowed areas will be inspected by the City's contract monitoring group. Debris must be removed from the site; not thrown under trees. **Grass clippings must be bagged at the Downtown Square and City Hall.**

9. The Contractor will be responsible for all damages incurred to any water sprinkler systems, fences, shrubs, trees, value boxes, etc., while performing the grounds maintenance. Leaning signs and bollards leaning due to contact with equipment will need to be straighten up. Any ground sprinklers damaged are to be repaired immediately to comply with water conservation regulations. All damages are to be reported to the User City where final disposition will be made as to replace and/or repair.

10. Backflow assemblies are located in various areas throughout the City. In the event a backflow assembly unit is damaged or destroyed by the Vendor, the Vendor shall be liable for all damages and shall be responsible for any costs associated with the repair or replacement of the unit(s). The Vendor's employees shall at all times have a wrench in their possession to shut off the water should damage occur. Report any damage within 15 minutes to Jeff Kerley, (352) 368-5527. In the event that Jeff Kerley cannot be reached, please call Parks Operations (352) 368-5550 or the Park Ranger on-call number (352) 789-1133.

11. Water meter damage should be reported to the Water Resources Department (352) 351-6772. Repairs must be made within 48 hours of damage occurrence, with the exception of utility related repairs, which must be completed as soon as possible.

12. No air blowers shall be used to blow grass debris into roadway. Grass clippings shall be blown away from roadways, but not into retention ponds. All cuttings must be kept off/removed from the streets, sidewalks, pavilions, restrooms and trails.

13. When mowing, grass is to be directed away from pools, ponds, retention areas, fences, athletic fields, landscape beds, gardens, plaza's, splash pads, playgrounds, artwork, picnic areas, fence lines and other park amenities. In insistences where mowing occurs around the above-mentioned areas, a rear discharge mower must be used. All cuttings must be kept off/removed from these areas and amenities. If cuttings do manage to get into these areas, Vendor shall be responsible for blowing those areas off, and/or costs to remediate the situation (i.e. cleaning out a pool).

TRIMMING AND WEED CONTROL

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

1. The use of chemicals in place of weed eating around parks amenities and support facilities is NOT permitted. Glyphosate and other non-selective herbicides and similar chemicals with application rates per the manufacturer's recommendations are only permitted to be used to spray fence lines and cracks in sidewalks and other paved surfaces or to kill or retard the growth directly under trees as specified herein and shall not be used for any other purpose unless written consent is provided by the City. All plans for use of herbicides must be approved in writing by the City Project Manager before herbicides are applied.

2. When using chemicals to treat fence lines, special care shall be used so chemicals are not sprayed onto adjacent private property and use a cone on the sprayer to prevent overspray. Care should be taken to not over spray onto adjacent turf. A three inch (3") swath is to be sprayed on either side of the fence to maintain grass and weed control providing the adjacent side of the fence is not private property. If the adjacent side is private property only a three inch (3") swath shall be sprayed on the City property. Once the vegetation has been trimmed down to ground level with a weed eater or similar device and the remaining vegetation removed from the fence, the area should be treated with chemicals. Trimming and chemical treating of said vegetation shall be done on the same day the mowing is done. Over spraying resulting in damage of grass will require exact replacement of sod at Contractor's expense.

3. A one foot (1') diameter area from the base of trees shall be maintained when trimming around trees. Chemically kill or restrict the growth directly under trees using Glyphosate and other non-selective herbicides or other suitable and equally effective herbicide. When chemically trimming around trees, special care is to be given to avoid spraying the suckers growing from the ground around the tree; this may damage or kill the tree. Removal of the bark by weed eater or other equipment that is greater than 25% of the diameter of the tree will result in the tree being replaced at the expense of the Contractor. This is common around Crape Myrtles and not normally found around Oaks and other common hard wood trees.

4. Sidewalks, courts (basketball, racquetball, tennis), parking lots, curbs and hard surface trails (asphalt/concrete) are to be mechanically edged (NOT chemically edged) and where there are cracks in the sidewalks, trails and curbs with grass and weeds growing through the cracks the vegetation shall be sprayed with an approved herbicide and after the vegetation is dead it is to be removed with a weed-eater or similar string device and remove debris as work is being done. Walking trails need to be edged once monthly, one the first mowing date of each month.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. The Contractor shall provide an assigned Project Manager, who will be the primary point of contact. Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
3. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

4. The employees of the Contractor must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in as good appearance as the job conditions permit.
5. Contractor will operate as an independent Contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
6. No smoking is allowed on City property or projects.
7. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
8. All company trucks must have a visible company name/logo on the outside of the vehicle.

MISCELLANEOUS

1. Report sinkholes found in any area to the City Parks Operations Division Head.

2. At least one crewmember must communicate fluently in English.

3. A supervisor or crew leader must be on-site to certify that all work has been completed according to the specifications of the contract. While the City will certainly monitor the Contractor's work for compliance with the contract specifications, it is **not** the City's responsibility to supervise or monitor the work of crews performing the work. If the City has to frequently contact the Contractor about issues, it is indicative of improper supervision by the Contractor, and the City may terminate the contract for cause.

4. Properties having gates: Any gates needing repair for failure to close, open, or lock must be reported to the department* responsible for that area. All gates must be closed and locked when finished mowing. *If Contractor is unsure of which City department is responsible for the gate in question, please notify the City Parks Operations Division Head.

5. All Contractor's employees are to wear shirts or have a badge which identifies their company, and all trucks belonging to the Contractor must bear the company's name. Shirts must be worn at all times while working on City property.

6. When working near roadways or within roadway medians, the Contractor shall wear an FDOT approved vest; and FDOT approved safety cones and FDOT approved "Men Working Signs" shall be placed appropriately in front of and behind their truck. The Contractor is responsible for fully understanding these requirements and costs related to compliance shall be included in Contractor's price proposal.

7. Contractor will submit a weekly report to the City Project Manager. The weekly report shall list the properties mowed, and identify any problems or issues at any of the sites as well as the Contractor's recommendations to resolve the issue or problem.

8. Contractor will suggest a schedule for what day each park is going to be mowed during the week and shall provide that schedule to the City Project Manager for approval. The City reserves the right to

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

designate the scheduled mowing day for any particular property as needed to accommodate City programming schedules and will discuss same with Contractor when establishing the schedule

9. All properties will be mowed in a one week period (one cycle). During March to May when the properties are mowed every other week, the properties shall all still be mowed in one week (and not split up between the two weeks).

10. To allow for bad weather or other unforeseen issues, certain properties may be mowed on Saturday. This extra day is not intended to be used every week, but only in the above mentioned circumstances.

11. If a property is not mowed within the one week period (Monday thru Saturday), then the property will not be mowed until the next mowing cycle and regularly scheduled day. The properties that are not mowed during that cycle will not be billed or paid by the City. It will be the City's responsibility to determine if the properties missed during that cycle will need to be mowed before the next cycle. If so, the City will mow them.

12. The properties should be mowed according to the schedule to avoid having more than seven (7) days between mowing during the weekly mowing schedule.

13. If the Contractor is regularly not able to complete the scheduled mowing cycle as outlined above, the City will interpret this to mean that the Contractor does not have the resources to successfully execute this contract and may terminate the contract for cause.

14. A batwing mower can be used at Lillian Bryant and Ocala Regional Sportsplex to assist in getting the parks mowed in the allotted time. The Contractor may store this piece of equipment at WRF #3 under the following conditions:
    A. The City will not provide a covered storage area.
    B. The City will not be responsible for any damage to the equipment while it is stored on City property.
    C. The equipment will only be accessible at WRF #3 from 8am to 5pm during the week.
    D. All other specifications must be complied with.

CITY OF OCALA RESPONSIBILITIES

1. The City of Ocala will furnish, the following services/data to the Contractor for the performance of services:

    A. Access to City buildings and facilities to perform the work.
    B. Provide access to drawings, specifications, schedules, reports, and other information prepared by/for the City of Ocala pertinent to the Contractor's responsibilities.
    C. Provide office facilities for the Contractor, if needed.

2. The City reserves the right to purchase any materials for the Contractor to use. The Contractor shall not charge a mark-up fee for material furnished by the City.

CONTRACTOR RESPONSIBILITIES

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

1. The Contractor shall complete all work performed under this solicitation in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
2. The Contractor shall obtain and pay for any and licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this contract.
3. Installation shall be in compliance with all requirements and instructions of applicable manufacturers.
4. Contractor is responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
5. If the Contractor is advised to leave a property by the property owner or their representative, the Contractor shall leave at once without altercation. Contractor shall then contact the City Project Manager within 24 hours and advise of the reason for not completing the assigned project.
6. Data collected by the Contractor shall be in a format compatible with, or easily converted to City's databases. A sequential naming convention should be applied to the files and documentation provided to the City.
7. The Contractor shall ensure that all documents prepared under this contract have been prepared on a Windows-based operating system computer using the most current version of Microsoft Office, which includes: Word, Excel, Power Point, Access or any other software as specified and approved by City staff.

SUB-CONTRACTORS

1. Contractor must perform a minimum of 30% of the work with their own forces.
2. Services assigned to sub-Contractors must be approved in advance by the City Project Manager.

SAFETY

1. The Contractor shall be fully responsible for the provision of adequate and proper safety precautions meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-Contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.
3. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.

Docusign Envelope ID: 43B27703-D450-4532-81CA-97030AD44CFE

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

AGREEMENT FOR SPECIALTY GROUNDS MAINTENANCE SERVICES

THIS AGREEMENT FOR SPECIALTY GROUNDS MAINTENANCE SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 27-4898723) ("Vendor").

WHEREAS, on December 15, 2022, City issued an Invitation to Bid ("ITB") for the provision of providing specialty grounds maintenance services at multiple locations throughout the City, ITB No.: REC/230103 (the "Solicitation"); and

WHEREAS, five (5) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, the bid submitted by Vendor was the second-lowest; and

WHEREAS, Michael Faison Lawn Maintenance, LLC was offered but ultimately declined the award of the contract for the provision of specialty grounds maintenance services; and

WHEREAS, as the second-lowest bidder, Southern Lawn Care Mid Florida, Inc., was chosen as the intended awardee to provide specialty grounds maintenance services at multiple locations throughout the City (the "Services");

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Vendor shall only include this Agreement and those documents listed in this section as Exhibits to this Agreement. Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

   Exhibits to Agreement: The Exhibits to this Agreement are as follows:

   Exhibit A: Scope of Work (A-1 through A-7)
   Exhibit B: Price Proposal (B-1)
3. **SCOPE OF SERVICES.** Vendor shall provide all materials, labor, supervision, tools, accessories, equipment, and permits necessary for Vendor to perform its obligations under this Agreement as set forth the attached **Exhibit A - Scope of Work** and Contract Documents. The Scope of Work under this Agreement may only be adjusted by written amendment executed by both parties.
4. **COMPENSATION.** The highest total compensation payable to Vendor by City under this Agreement for the timely and satisfactory performance of services in compliance with the Contract Documents shall be **ONE HUNDRED NINETY-SIX THOUSAND, NINE HUNDRED ELEVEN AND NO/100 DOLLARS ($196,911)** (the "Contract Sum") as full and complete compensation for the timely and satisfactory performance of services to the City over the Initial Term of the Agreement in accordance with the Contract Documents and unit pricing set forth below.

   B. **Renewal Pricing Increases.** Pricing shall remain firm and fixed during the Initial Term of this Agreement. Any renewal price adjustment shall be subject to negotiation and must be approved by the City of Ocala. Vendor shall submit a written request for price adjustment

identifying the reason for the price increase, and attach suitable documentation in support of same, no less than **NINETY (90) DAYS** prior to the expiration of the then existing Contract Term. No retroactive price adjustments will be allowed. Pricing increases shall not exceed the lesser of: (i) the amount of the percentage increase reflected in the Consumer Price Index for all Urban Consumers (CPI-U), not seasonally adjusted, based upon the most recent **TWELVE (12) MONTH** period; or (ii) **THREE PERCENT (3%) ANNUALLY** unless there are mitigating market conditions.

C. **Invoice Submission**. All invoices submitted by Vendor shall include the City Contract Number, an assigned Invoice Number, an Invoice Date and Location of Services. Vendor shall submit the original invoice through the responsible City Project Manager at: **Recreation and Parks Division Head**, 828 NE 8th Avenue, Ocala, Florida 34470 Attn: **Bill Rodriguez**, E-Mail: wcayro@ocalafl.org; Telephone: (352) 358-5503.

D. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

E. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Vendor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Vendor within **THIRTY (30)** calendar days of the Vendor's remedy or resolution of the inadequacy or defect.

F. **Excess Funds**. If due to mistake or any other reason Vendor receives payment under this Agreement in excess of what is provided for by the Agreement, Vendor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Vendor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

G. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Vendor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Vendor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **EFFECTIVE DATE AND TERM.** This Agreement shall become effective and commence on **MARCH 21, 2023** and continue for a term of **THREE (3) YEARS**, through and including **MARCH 20, 2026**. This Agreement may be renewed for **TWO (2)** additional **ONE-YEAR (1-Year)** periods by written consent between City and Vendor.

6. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, pandemics, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof as soon as it becomes aware.
B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Vendor performance shall be extended for a number of days equal to the duration of the force majeure.
C. Vendor shall be entitled to an extension of time only and, in no event, shall Vendor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.

6. **INSPECTION AND ACCEPTANCE OF THE WORK**. All services, work, and materials provided by Vendor under this Agreement shall be provided under the direction and to the satisfaction and approval of the Project Manager.
   A. The Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials, the rate of progress of the work, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Vendor in its Bid. The authority vested in the Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the Services.
   B. Neither the Project Manager's review of Vendor's work nor recommendations made by Project Manager pursuant to this Agreement will impose on Project Manager any responsibility to supervise, direct, or control Vendor's work in progress or for the means, methods, techniques, sequences, or safety precautions or programs incident to Vendor's provision of Services under this Agreement.
7. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Documents, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.
   A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Vendor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Vendor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Vendor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:
      (1) Vendor's performance or workmanship falls below acceptable City or trade standards;
      (2) Vendor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;
      (3) Vendor provides material that does not meet the specifications of the Agreement;
      (4) Vendor fails to complete the work required within the time stipulated in the Agreement; or

(5) Vendor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Vendor cannot or will not perform to the requirements of the Agreement.

B. **Vendor's Opportunity to Cure Default**. City may, in its sole discretion, provide Vendor with an opportunity to cure the violations set forth in City's notice of default to Vendor. Vendor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Vendor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Vendor Default**. In the event Vendor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:
(1) City shall be entitled to terminate this Agreement without further notice;
(2) City shall be entitled to hire another vendor to complete the required work in accordance with the needs of City;
(3) City shall be entitled to recover from Vendor all damages, costs, and attorney's fees arising from Vendor's default prior to termination; and
(4) City shall be entitled to recovery from Vendor any actual excess costs by: (i) deduction from any unpaid balances owed to Vendor; or (ii) any other remedy as provided by law.

D. **Termination for Non-Funding**. In the event that budgeted funds to finance this Agreement are reduced, terminated, or otherwise become unavailable, City may terminate this Agreement upon written notice to Vendor without penalty or expense to City. City shall be the final authority as to the availability of budgeted funds.

E. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The Project Manager shall provide written notice of the termination. Upon receipt of the notice, Vendor shall immediately discontinue all work as directed in the notice, notify all subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Vendor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Vendor as permitted under this Agreement and approved by City.

8. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Vendor's performance. Any such evaluation will become public record.
9. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any Vendor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.
10. **VENDOR REPRESENTATIONS**. Vendor expressly represents that:

A. Vendor has read and is fully familiar with all of the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in

scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Vendor under this Agreement.

B. Vendor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Vendor in the Contract Documents, and that the City's written resolution of same is acceptable to Vendor.

C. Vendor has had an opportunity to visit, has visited, and has had an opportunity to examine and ask questions regarding the sites upon which the work is to be performed and is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Vendor's own investigation.

D. Vendor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.

E. **Public Entity Crimes.** Neither Vendor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Vendor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Vendor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

11. **VENDOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Vendor:

A. Vendor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.

B. Vendor shall be solely responsible for the means, methods, techniques, sequences, or procedures, and safety precautions or programs incident thereto.

C. Vendor shall be responsible to see that the finished work complies accurately with the contract and the intent thereof.

D. Vendor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, and be responsible for all costs associated with same.

E. Vendor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Vendor and City may otherwise agree in writing.

12. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive

arrangement with Vendor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.

13. **STORAGE OF MATERIALS/EQUIPMENT**. Vendor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of equipment and materials (whether furnished by Vendor or City) to be utilized in the performance of or incorporated into the work.

14. **COMMERCIAL AUTO LIABILITY INSURANCE.** Vendor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Vendor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Vendor does not own vehicles, Vendor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Vendor's Commercial General Liability policy or separate Commercial Automobile Liability policy.

15. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Vendor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial general liability insurance with limits not less than:
    A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and
    B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.
    C. Policy must include coverage for contractual liability and independent contractors.
    D. The City, a Florida municipal corporation, and its officials, employees, and volunteers are to be covered as additional insureds with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liabilities arising out of activities performed by or on behalf of Vendor. This coverage shall contain no special limitation on the scope of protection to be afforded to the City, its officials, employees, and volunteers.

16. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Vendor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement adequate workers' compensation and employer's liability insurance covering all of its employees in at least such amounts as required by Chapter 440, Florida Statutes, and all other state and federal workers' compensation laws, including the U.S. Longshore Harbor Workers' Act and the Jones Act, if applicable. Vendor shall similarly require any and all of its subcontractors to afford such coverage for all of its employees as required by applicable law. Vendor shall waive and shall ensure that Vendor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Vendor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent. **Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.**

17. **MISCELLANEOUS INSURANCE PROVISIONS.**
    A. Vendor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Vendor shall not be interpreted as limiting

Vendor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Vendor's interests or liabilities or to protect Vendor from claims that may arise out of or result from the negligent acts, errors, or omissions of Vendor, any of its agents or subcontractors, or for anyone whose negligent act(s) Vendor may be liable.

B. No insurance shall be provided by the City for Vendor under this Agreement and Vendor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.

C. Certificates of Insurance. No work shall be commenced by Vendor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Vendor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. Vendor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.org. Vendor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. Failure to Maintain Coverage. In the event Vendor fails to disclose each applicable deductible/self-insured retention or obtain or maintain in full force and effect any insurance coverage required to be obtained by Vendor under this Agreement, Vendor shall be considered to be in default of this Agreement.

E. City as an Additional Insured. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation and Professional Liability policies.

F. Notice of Cancellation of Insurance. Vendor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Vendor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Vendor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.org.

G. Failure to Maintain Coverage. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Vendor. Vendor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

H. Severability of Interests. Vendor shall arrange for its liability insurance to include, or be endorsed to include a severability of interests/cross-liability provision so that the "City of

Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

18. **SAFETY/ENVIRONMENTAL.** Vendor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the work. Vendor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:
    A. All employees on the work and other persons that may be affected thereby;
    B. All work, materials, and equipment to be incorporated therein, whether in storage on or off the site; and
    C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities.

    All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Vendor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Vendor. Vendor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

19. **TRAFFIC CONTROL AND BARRICADES.** Vendor shall mitigate impact on local traffic conditions to all extents possible. Vendor is responsible for establishing and maintaining appropriate traffic control and barricades. Vendor shall provide sufficient signing, flagging and barricading to ensure the safety of vehicular and pedestrian traffic at all locations where work is being done under this Agreement.

20. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Vendor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.

21. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Vendor or any other persons or organizations having a direct contract with Vendor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Vendor or any other persons or organizations having a direct contract with Vendor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Vendor, subcontractor, or of any of their agents or employees. nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.

22. **INDEPENDENT CONTRACTOR STATUS.** Vendor acknowledges and agrees that under this Agreement, Vendor and any agent or employee of Vendor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Vendor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Vendor nor

its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Vendor in its performance of its obligations under this Agreement.

23. **ACCESS TO FACILITIES.** City shall provide Vendor with access to all City facilities as is reasonably necessary for Vendor to perform its obligations under this Agreement.
24. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.
25. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Vendor under this Agreement be abandoned, or should Vendor become insolvent, or if Vendor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.
26. **PUBLIC RECORDS.** Vendor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, Vendor shall:
    A. Keep and maintain public records required by the public agency to perform the service.
    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if Vendor does not transfer the records to the public agency.
    D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of Vendor or keep and maintain public records required by the public agency to perform the service. If Vendor transfers all public records to the public agency upon completion of the contract, Vendor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Vendor keeps and maintains public records upon completion of the contract, Vendor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE

CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.org; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

27. **AUDIT.** Vendor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
28. **PUBLICITY.** Vendor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
29. **E-VERIFY.** Pursuant to section 448.095, Vendor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Vendor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Vendor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Vendor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Vendor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Vendor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.
30. **CONFLICT OF INTEREST.** Vendor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Vendor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Vendor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
31. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.
32. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.
33. **INDEMNITY.** Vendor shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from, all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this

Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Vendor, its agents, and employees.

34. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.
35. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Vendor:	Southern Lawn Care Mid Florida, Inc. Attention: Tim McQuaig 13900 NE 41st Terrace Anthony, Florida 32617 Phone: 352-304-3921 E-mail: kawboy32x@gmail.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.org
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.org

36. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.
37. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR

RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

38. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.

39. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.

40. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.

41. **MUTUALITY OF NEGOTIATION.** Vendor and City acknowledge that this Agreement is a result of negotiations between Vendor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.

42. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.

43. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

44. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.

45. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

46. **ELECTRONIC SIGNATURE(S).** Vendor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.

47. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.

48. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on 4/6/2023.

BACKGROUND

Contractor will provide all materials, equipment and labor while providing professional grounds maintenance services at multiple locations throughout the City. It shall be the responsibility of the Vendor to maintain the sites outlined in the most efficient and effective manner

EQUIPMENT REQUIREMENTS

Contractor must possess and properly maintain (for the duration of this contract) the following equipment:

1. Five (5) weed eaters
2. Five (5) edgers
3. Five (5) backpack blowers
4. One (1) three-wheel blower (for parking lots)
5. Five (5) mowers which shall include a combination of push and greater zero turn mowers
6. Two (2) trucks/trailers
7. Three (3) backpack sprayers

Working Hours: The normal/standard working hours for this project are 7:00 AM – 5:00 PM Monday through Friday, excluding holidays. Contractor shall provide 48-hour advance notice to City Project Manager for work outside normal shift hours. The city may decline the request.

MOWING FREQUENCIES

Month	Cuts per month
January	1
February	1
March	2
April	2
May	4
June	4
July	5
August	4
September	4
October	2
November	1
December	1
Total:	**31**

***The City anticipates mowing frequencies as outlined above, however; the City reserves the right to adjust these frequencies as needed.**

DocuSign Envelope ID: 0F53FB7A-DF1B-41D5-95D5-C800F4A07147 DocuSign Envelope ID: B136820D-B8B1-49D4-8CA8-6C66C0037CDF

DEFINITIONS

1. Trash: Trash is defined as anything loose and useless (examples but not limited to) bottles, cans, paper, plastic bags, plastic bottles, plastic food wrappers and Styrofoam cups and plates.

2. Debris: Debris is defined as objects lying on the ground in an area to be mowed that are mostly organic (examples but not limited to) tree limbs less than six inches (6") in diameter and smaller than six feet (6') in length, tree branches, twigs, hedge clippings and sapling trimmings. One (1) or two (2) broken concrete blocks would qualify as debris but an abundance of blocks would be the City's responsibility to move. If the Contractor finds large items such as old tires, concrete blocks, old chairs or sofas, dead car batteries, etc., on a site to be mowed please call the City contact to report the findings and the City will remove and properly dispose of the debris. Otherwise, it is the Contractor's responsibility to remove and properly dispose of debris before mowing.

MOWING

1. Mowing and all related services at a park or parcel should be started and completed on the same day (weather permitting). For larger parcels, the Contractor should attempt to complete all work in one area and then move the operation to the next area of that parcel. The intent is that a parcel will not be left for days with the parcel mowed, but with high grass still standing around benches, bleachers, etc. waiting on follow up trimming and weed eating.
2. Each area under this contract must be mowed with properly sized equipment to avoid scalping rutting and cutting off tops in sodded areas. Many of the properties under this contract are "lawns", not just typical park grass (Bahia), and as such must be mowed with more care than one would use in an open park. Properly sized equipment is often key to complying with this requirement**. Note: This may require the use of hand equipment such as push mowers, weed eaters, etc., in limited areas.**

3. Mower must be cleaned before moving to a different property if the next property has a different type of grass.

4. Mow at a height of three (3) inches for Bahia grass, four (4) inches for St. Augustine grass, and three (3) inches for Zoysia grass.

5. Mow all grassed areas in accordance with the frequency indicated on the price page proposal. Specific mowing dates and days will be set by the City. Contractor must follow City noise ordinance when planning mowing times.

6. The City does not include an allowance for delays caused by inclement weather; however, the City will grant time extensions, on a day-to-day basis for delays caused by the effects of rain or other inclement weather conditions. No additional compensation will be made for delays caused by the inclement weather.

7. All equipment must be properly maintained, mechanically. The blades must be sharpened so that the grass is cut and not torn, causing damage to the grass. Tires must be equally inflated

DocuSign Envelope ID: 0F53FB7A-DF1B-41D5-95D5-C800F4A07147 DocuSign Envelope ID: B136820D-B8B1-49D4-8CA8-6C66C0037CDF

to avoid uneven cuts, etc. The Vendor is responsible for operating equipment at speeds that result in proper cuts.

8. Vendor must pick up and remove trash and debris in and around the area to be mowed to include fence lines before mowing and properly dispose of it so it is not chopped up by mower. The Vendor is responsible for a clean area (free of trash and debris) with neat appearance, even cut and no clumps of grass to remain in the mowed areas. If the cuttings leave a thick blanket like cover over the existing cut area the operator must repeat the cycle to scatter the grass cuttings. All mowed areas will be inspected by the City's contract monitoring group. Debris must be removed from the site; not thrown under trees. **Grass clippings must be bagged at the Downtown Square and City Hall.**

9. The Contractor will be responsible for all damages incurred to any water sprinkler systems, fences, shrubs, trees, value boxes, etc., while performing the grounds maintenance. Leaning signs and bollards leaning due to contact with equipment will need to be straighten up. Any ground sprinklers damaged are to be repaired immediately to comply with water conservation regulations. All damages are to be reported to the User City where final disposition will be made as to replace and/or repair.

10. Backflow assemblies are located in various areas throughout the City. In the event a backflow assembly unit is damaged or destroyed by the Vendor, the Vendor shall be liable for all damages and shall be responsible for any costs associated with the repair or replacement of the unit(s). The Vendor's employees shall at all times have a wrench in their possession to shut off the water should damage occur. Report any damage within 15 minutes to Jeff Kerley, (352) 368-5527. In the event that Jeff Kerley cannot be reached, please call Parks Operations (352) 368-5550 or the Park Ranger on-call number (352) 789-1133.

11. Water meter damage should be reported to the Water Resources Department (352) 351-6772. Repairs must be made within 48 hours of damage occurrence, with the exception of utility related repairs, which must be completed as soon as possible.

12. No air blowers shall be used to blow grass debris into roadway. Grass clippings shall be blown away from roadways, but not into retention ponds. All cuttings must be kept off/removed from the streets, sidewalks, pavilions, restrooms and trails.

13. When mowing, grass is to be directed away from pools, ponds, retention areas, fences, athletic fields, landscape beds, gardens, plaza's, splash pads, playgrounds, artwork, picnic areas, fence lines and other park amenities. In insistences where mowing occurs around the above-mentioned areas, a rear discharge mower must be used. All cuttings must be kept off/removed from these areas and amenities. If cuttings do manage to get into these areas, Vendor shall be responsible for blowing those areas off, and/or costs to remediate the situation (i.e. cleaning out a pool).

TRIMMING AND WEED CONTROL

DocuSign Envelope ID: 0F53FB7A-DF1B-41D5-95D5-C800F4A07147 DocuSign Envelope ID: B136820D-B8B1-49D4-8CA8-6C66C0037CDF

1. The use of chemicals in place of weed eating around parks amenities and support facilities is NOT permitted. Glyphosate and other non-selective herbicides and similar chemicals with application rates per the manufacturer's recommendations are only permitted to be used to spray fence lines and cracks in sidewalks and other paved surfaces or to kill or retard the growth directly under trees as specified herein and shall not be used for any other purpose unless written consent is provided by the City. All plans for use of herbicides must be approved in writing by the City Project Manager before herbicides are applied.

2. When using chemicals to treat fence lines, special care shall be used so chemicals are not sprayed onto adjacent private property and use a cone on the sprayer to prevent overspray. Care should be taken to not over spray onto adjacent turf. A three inch (3") swath is to be sprayed on either side of the fence to maintain grass and weed control providing the adjacent side of the fence is not private property. If the adjacent side is private property only a three inch (3") swath shall be sprayed on the City property. Once the vegetation has been trimmed down to ground level with a weed eater or similar device and the remaining vegetation removed from the fence, the area should be treated with chemicals. Trimming and chemical treating of said vegetation shall be done on the same day the mowing is done. Over spraying resulting in damage of grass will require exact replacement of sod at Contractor's expense.

3. A one foot (1') diameter area from the base of trees shall be maintained when trimming around trees. Chemically kill or restrict the growth directly under trees using Glyphosate and other non-selective herbicides or other suitable and equally effective herbicide. When chemically trimming around trees, special care is to be given to avoid spraying the suckers growing from the ground around the tree; this may damage or kill the tree. Removal of the bark by weed eater or other equipment that is greater than 25% of the diameter of the tree will result in the tree being replaced at the expense of the Contractor. This is common around Crape Myrtles and not normally found around Oaks and other common hard wood trees.

4. Sidewalks, courts (basketball, racquetball, tennis), parking lots, curbs and hard surface trails (asphalt/concrete) are to be mechanically edged (NOT chemically edged) and where there are cracks in the sidewalks, trails and curbs with grass and weeds growing through the cracks the vegetation shall be sprayed with an approved herbicide and after the vegetation is dead it is to be removed with a weed-eater or similar string device and remove debris as work is being done. Walking trails need to be edged once monthly, one the first mowing date of each month.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. The Contractor shall provide an assigned Project Manager, who will be the primary point of contact. Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
3. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.

DocuSign Envelope ID: 0F53FB7A-DF1B-41D5-95D5-C800F4A07147 DocuSign Envelope ID: B136820D-B8B1-49D4-8CA8-6C66C0037CDF

4. The employees of the Contractor must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in as good appearance as the job conditions permit.
5. Contractor will operate as an independent Contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
6. No smoking is allowed on City property or projects.
7. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
8. All company trucks must have a visible company name/logo on the outside of the vehicle.

MISCELLANEOUS

1. Report sinkholes found in any area to the City Parks Operations Division Head.

2. At least one crewmember must communicate fluently in English.

3. A supervisor or crew leader must be on-site to certify that all work has been completed according to the specifications of the contract. While the City will certainly monitor the Contractor's work for compliance with the contract specifications, it is **not** the City's responsibility to supervise or monitor the work of crews performing the work. If the City has to frequently contact the Contractor about issues, it is indicative of improper supervision by the Contractor, and the City may terminate the contract for cause.

4. Properties having gates: Any gates needing repair for failure to close, open, or lock must be reported to the department* responsible for that area. All gates must be closed and locked when finished mowing. *If Contractor is unsure of which City department is responsible for the gate in question, please notify the City Parks Operations Division Head.

5. All Contractor's employees are to wear shirts or have a badge which identifies their company, and all trucks belonging to the Contractor must bear the company's name. Shirts must be worn at all times while working on City property.

6. When working near roadways or within roadway medians, the Contractor shall wear an FDOT approved vest; and FDOT approved safety cones and FDOT approved "Men Working Signs" shall be placed appropriately in front of and behind their truck. The Contractor is responsible for fully understanding these requirements and costs related to compliance shall be included in Contractor's price proposal.

7. Contractor will submit a weekly report to the City Project Manager. The weekly report shall list the properties mowed, and identify any problems or issues at any of the sites as well as the Contractor's recommendations to resolve the issue or problem.

8. Contractor will suggest a schedule for what day each park is going to be mowed during the week and shall provide that schedule to the City Project Manager for approval. The City reserves the right to

DocuSign Envelope ID: 0F53FB7A-DF1B-41D5-95D5-C800F4A07147 DocuSign Envelope ID: B136820D-B8B1-49D4-8CA8-6C66C0037CDF

designate the scheduled mowing day for any particular property as needed to accommodate City programming schedules and will discuss same with Contractor when establishing the schedule

9. All properties will be mowed in a one week period (one cycle). During March to May when the properties are mowed every other week, the properties shall all still be mowed in one week (and not split up between the two weeks).

10. To allow for bad weather or other unforeseen issues, certain properties may be mowed on Saturday. This extra day is not intended to be used every week, but only in the above mentioned circumstances.

11. If a property is not mowed within the one week period (Monday thru Saturday), then the property will not be mowed until the next mowing cycle and regularly scheduled day. The properties that are not mowed during that cycle will not be billed or paid by the City. It will be the City's responsibility to determine if the properties missed during that cycle will need to be mowed before the next cycle. If so, the City will mow them.

12. The properties should be mowed according to the schedule to avoid having more than seven (7) days between mowing during the weekly mowing schedule.

13. If the Contractor is regularly not able to complete the scheduled mowing cycle as outlined above, the City will interpret this to mean that the Contractor does not have the resources to successfully execute this contract and may terminate the contract for cause.

14. A batwing mower can be used at Lillian Bryant and Ocala Regional Sportsplex to assist in getting the parks mowed in the allotted time. The Contractor may store this piece of equipment at WRF #3 under the following conditions:
    A. The City will not provide a covered storage area.
    B. The City will not be responsible for any damage to the equipment while it is stored on City property.
    C. The equipment will only be accessible at WRF #3 from 8am to 5pm during the week.
    D. All other specifications must be complied with.

CITY OF OCALA RESPONSIBILITIES

1. The City of Ocala will furnish, the following services/data to the Contractor for the performance of services:

    A. Access to City buildings and facilities to perform the work.
    B. Provide access to drawings, specifications, schedules, reports, and other information prepared by/for the City of Ocala pertinent to the Contractor's responsibilities.
    C. Provide office facilities for the Contractor, if needed.

2. The City reserves the right to purchase any materials for the Contractor to use. The Contractor shall not charge a mark-up fee for material furnished by the City.

CONTRACTOR RESPONSIBILITIES

DocuSign Envelope ID: 0F53FB7A-DF1B-41D5-95D5-C800F4A07147 DocuSign Envelope ID: B136820D-B8B1-49D4-8CA8-6C66C0037CDF

1. The Contractor shall complete all work performed under this solicitation in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
2. The Contractor shall obtain and pay for any and licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this contract.
3. Installation shall be in compliance with all requirements and instructions of applicable manufacturers.
4. Contractor is responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
5. If the Contractor is advised to leave a property by the property owner or their representative, the Contractor shall leave at once without altercation. Contractor shall then contact the City Project Manager within 24 hours and advise of the reason for not completing the assigned project.
6. Data collected by the Contractor shall be in a format compatible with, or easily converted to City's databases. A sequential naming convention should be applied to the files and documentation provided to the City.
7. The Contractor shall ensure that all documents prepared under this contract have been prepared on a Windows-based operating system computer using the most current version of Microsoft Office, which includes: Word, Excel, Power Point, Access or any other software as specified and approved by City staff.

SUB-CONTRACTORS

1. Contractor must perform a minimum of 30% of the work with their own forces.
2. Services assigned to sub-Contractors must be approved in advance by the City Project Manager.

SAFETY

1. The Contractor shall be fully responsible for the provision of adequate and proper safety precautions meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-Contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.
3. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.

DocuSign Envelope ID: 0F53FB7A-DF1B-41D5-95D5-C800F4A07147 DocuSign Envelope ID: B136820D-B8B1-49D4-8CA8-6C66C0037CDF

ITEM	DESCRIPTION	UOM	Cuts Per Year	Unit Cost
1	City Hall Complex - 110 SE Watula Avenue (including Citizens' Circle and Electric Customer Service Center). Boundaries are E. Ft King to the north, SE Watula to the east, SE Osceola to the west, and SE 3rd ST to the south. Osceola and SE 3rd St mowing corner 15ft off Mow ROW between SE 3rd St. and Ft. King on Osceola west side of the railroad track behind the restaurant Mow at a height of 4". clippings must be picked up.	Each	31	$231.75
2	Murphy Parking Lot - W. Hwy 40 to the south, N. Magnolia to the east. NW 1st Ave to the west and NW 1 St to the north	Each	31	$36.05
3	Downtown Square - S. Broadway St and SE 1st Ave and twelve (12) small islands surrounding the square. Mow the square at 4" and the grass clippings must be picked up.	Each	31	$36.05
4	Hershberger Park - 1735 N. Magnolia Ave - mow all three sections.	Each	31	$77.25
5	10th Street Park- NE 10th St. and N. Magnolia Ave - Mow from 10th St to the south to Johnson Tire to the north, and N. Magnolia to the west to dirt road to the east.	Each	31	$36.05

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
Bid released to the public: 12/15/2022

BACKGROUND:
Due to the size and scope of work for grounds maintenance, parks mowing is divided into two sections: Recreation & Parks grounds maintenance services and specialty grounds maintenance services (which includes most of the manicured mowing in Downtown and the medians). Awarding the work via two contracts ensures that the work will be manageable for smaller contractors who might want to submit a proposal for one section, but not both. Our specialty mowing areas require a more detailed residential cut compared to the Recreation & Parks grounds maintenance services.

On December 15, 2022, the City issued its Invitation to Bid ("ITB") No. REC/230103 for specialty grounds maintenance services. On January 25, 2023, bids were received from five (5) vendors. The bids from Michael Putch, LLC and SLC Ocala, LLC were rejected as non-responsive due to failure to meet the licensing requirements as set forth in the solicitation. Bid results for the remaining responsive bidders are summarized below:

Council originally approved the award of this agreement to Michael Faison Lawn Maintenance, LLC on March 7, 2023, for the annual amount of $54,758.40. Michael Faison Lawn Maintenance, LLC, subsequently withdrew his services citing an inability to perform the work at the rate originally quoted.

As the second lowest responsive and responsible bidder, Southern Lawn Care Mid Florida, Inc., has been selected as the intended awardee for the provision of specialty grounds maintenance services at an annual contracted amount of $65,636.92, an increase of $10,878.52 from that of Michael Faison Lawn Maintenance, LLC.

FINDINGS AND CONCLUSIONS:
· Southern Lawn Care Mid Florida, Inc. meets all solicitation requirements for the provision of specialty grounds maintenance services. After a review of references and all other bid criteria, staff recommends awarding the contract to Southern Lawn Care Mid Florida, Inc.
· The term of the agreement is for three years, with two optional one-year renewals upon mutual written consent of both parties.
· The annual contract amount for specialty grounds maintenance services is $65,636.92 which yields an aggregate total of $196,911 over the three-year contract term.

FISCAL IMPACT:
The contract for specialty grounds maintenance services will have an annual fiscal impact of $65,636.92. Recreation and Parks grounds maintenance services are budgeted in the Recreation and Parks Department budget (001-021-120-572-57-34010). Adequate funds are budgeted to cover the cost of these services.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

FORMAL TITLE:
Resolution 2026-15 to approve and adopt the Marion County Comprehensive Emergency Management Plan

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place, .

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The City of Ocala (City) participates in the voluntary National Flood Insurance Community Rating System (CRS) developed by the Federal Emergency Management Agency (FEMA). The City of Ocala is a Class 3 Community and is currently undergoing its triennial verification. As a Class 3 community, property owners in the City of Ocala qualify for a discount on their flood insurance. Properties in Special Flood Hazard Areas (SFHA) receive a 35% discount on their Flood Insurance. Also, properties in Non-Special Flood Hazard Areas (Non-SFHA) receive a 10% discount on their Flood Insurance.

One of the areas for receiving credits for the CRS is having a flood warning and response plan. The 2025 FEMA Coordinator's Manual lists the following as one of the required credit criteria for a flood warning and response plan (Activity 610):

"The community must have a flood warning and response plan that has been adopted by the community's governing body or by an office that has been delegated approval authority by the community's governing body….If the plan is prepared at the borough, county, or parish level, it must include or be adopted by the individual communities seeking credit for it."

In the previous CRS verification, the City earned 235 points out of the maximum 395 points available for Activity 610. As we work to earn credits to move up in the program, any reductions in previously earned credits would make this goal difficult. More importantly, earning credit under Activity 610 is a requirement for Class 4. Loss of the Activity 610 credit would result in the City moving back to Class 5. In previous verification cycles, the City formally adopted Marion County's Comprehensive Emergency Management Plan (CEMP) and included the adoption in documentation for the Activity.

FINDINGS AND CONCLUSIONS:
Marion County's CEMP addresses the CRS-required flood warning and response plan and was adopted by the City in the previous verification cycle. The City needs CRS Activity 610 credits to maintain its Class 3 status in the current verification cycle. Staff recommends adoption of Marion County's Comprehensive Emergency Management Plan.

RESOLUTION 2026-15

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA ADOPTING THE COMPREHENSIVE EMERGENCY MANAGEMNT PLAN ADOPTED BY THE BOARD OF COUNTY COMMISSIONERS OF MARION COUNTY, FLORIDA; PROVIDING DIRECTION TO STAFF AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Chapter 252, *Florida Statutes*, authorizes and empowers the State of Florida, Division of Emergency Management to promulgate rules and regulations to carry out the provisions of the State Emergency Management Act; and

WHEREAS, Section 252.38, *Florida Statutes*, requires political subdivisions of the State of Florida, including Marion County, Florida to adopt a comprehensive emergency management plan; and

WHEREAS, Rule 27P-6, *Florida Administrative Code*, further requires counties, including Marion County, Florida, to adopt and implement a comprehensive emergency management plan; and

WHEREAS, in accordance with said Chapter 252, *Florida Statutes*, and Rule 27P-6, *Florida Administrative Code*, the Board of County Commissioners of Marion County, Florida, developed and has revised from time to time a Comprehensive Emergency Management Plan which has been reviewed and approved by the State of Florida, Department of Emergency Management; and

WHEREAS, most recently on or about August 20, 2024, the Board of County Commissioners of Marion County, Florida, adopted the revised *Comprehensive Emergency Management Plan,* which is attached hereto as Exhibit 1; and

WHEREAS, Chapter 252, *Florida Statutes*, and Rule 27P-6, *Florida Administrative Code*, do not require municipalities to adopt comprehensive emergency management plans but instead permit their adoption, provided that they comply with the plans adopted by the State of Florida and the county in which the municipality exists; and

WHEREAS, routinely throughout the year, as well as prior to and during any emergency situations, the City of Ocala, Florida, and its staff routinely work in close coordination with the Emergency Management staff designated by the Board of County Commissioners of Marion County, Florida, and in accordance with said *Comprehensive Emergency Management Plan*; and

WHEREAS, the City Council of the City of Ocala, Florida, has reviewed the *Comprehensive Emergency Management Plan* adopted by the Board of County Commissioners of Marion County, Florida, and has determined that said plan adequately and effectively meets the needs of the City of Ocala, Florida; and

WHEREAS, the City Council of the City of Ocala, Florida, desires to adopt the *Comprehensive Emergency Management Plan* adopted by the Board of County Commissioners of Marion County, Florida, as its own; and

WHEREAS, the City Council of the City of Ocala, Florida, finds and determines that the adoption of the *Comprehensive Emergency Management Plan* adopted by the Board of County Commissioners of Marion County, Florida, serves a public purpose, protects the health, safety, and welfare of and is in the best interest of the City of Ocala, Florida, and its citizens.

NOW THEREFORE, IT IS HEREBY RESOLVED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida, adopts the above-outlined recitals and incorporates them herein as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of adopting the *Comprehensive Emergency Management Plan* adopted by the Board of County Commissioners of Marion County, Florida, for the City of Ocala, Florida, and is adopted pursuant to the authority granted by Chapters 166 and 252, *Florida Statutes*.

Section 3. Adoption of the Comprehensive Emergency Management Plan.

The *Comprehensive Emergency Management Plan*, adopted by the Board of County Commissioners of Marion County, Florida, on or about August 20, 2024, as may be amended from time to time and attached hereto as Exhibit 1, is adopted by the City of Ocala, Florida, as its own comprehensive emergency management plan as permitted by Section 252.38, *Florida Statutes*.

Section 4. Direction to Staff.

A copy of this Resolution shall be forwarded to the State of Florida, Department of Emergency Management, and the Board of County Commissioners of Marion County, Florida.

Section 5. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

APPROVED AND ADOPTED, with a quorum present and voting, by the City Council of the City of Ocala, Florida this _____ day of March 2026.

RESOLUTION 24- R-307

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF MARION COUNTY, FLORIDA, ADOPTING THE COMPREHENSIVE EMERGENCY MANAGEMENT PLAN

WHEREAS, section 252.35(2) Florida statutes, authorizes and empowers the State Division of Emergency Management (hereafter the "Division") to promulgate rules and regulations to carry out the provisions of the State Emergency Management Act; and

WHEREAS, Chapter 27P-6, Florida Administrative Code, requires each County to develop a Comprehensive Emergency Management Plan; and

WHEREAS, Section 27P-6.0023, Florida Administrative Code further requires that the governing body of Marion County adopt by resolution, the Marion County Comprehensive Emergency Management Plan; and

WHEREAS, Marion County in compliance with the above requirements, has revised the Comprehensive Emergency Management Plan, which has been reviewed and approved by the Division and will become effective only upon adoption by the Board of County Commissioners; and

WHEREAS, the Board of County Commissioners of Marion County has determined that the adoption of the approved Comprehensive Emergency Management Plan will promote the health, safety and welfare interest of the citizens of Marion County.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Marion County, Florida that:

Section 1: The Comprehensive Emergency Management Plan, incorporated herein by reference, is hereby adopted.

DULY ADOPTED in regular session 20th day of August, 2024.

ATTEST:

GREGORY C. HARRELL, CLERK

BOARD OF COUNTY COMMISSIONERS
MARION COUNTY, FL

MICHELLE STONE, CHAIR

TO: MICHELLE STONE, CHAIR

FROM: Preston Bowlin, Emergency Management Director

DATE: August 12, 2024

SUBJECT: MARION COUNTY COMPREHENSIVE EMERGENCY MANAGEMENT PLAN (CEMP)

DESCRIPTION/BACKGROUND:
A Comprehensive Emergency Management Plan (CEMP) provides for how a jurisdiction plans for, prevents, protects against, responds to and recovers from threats and hazards. Chapter 27P-6.0023 of the Florida Administrative Code provides the requirements, format and standards required for each County's CEMP, and further requires the adoption of the plan by the Marion County Board of County Commissioners.

A county's CEMP is required to address responses and actions in the event of an emergency. It shall clearly identify those positions or agencies responsible for specific functions under given circumstances, and it shall demonstrate the ability to communicate with those emergency support functions and state agencies that support the State of Florida's Emergency Management Plan.

The Marion County Division of Emergency Management, working with local stakeholders, has reviewed and updated the CEMP to incorporate new state, federal, and regional guidelines, or directives, and to address other changes specific to the local stakeholders and community. The Marion County CEMP is provided today for the Board's consideration.

BUDGET/IMPACT:
None

RECOMMENDED ACTION:
Motion to adopt by Resolution the Marion County Comprehensive Emergency Management Plan.

STATE OF FLORIDA
DIVISION OF EMERGENCY MANAGEMENT

Ron DeSantis
Governor

Kevin Guthrie
Director

July 12, 2024

Preston Bowlin, Director
Marion County Emergency Management
692 NW 30th Ave,
Ocala, FL 34475

Dear Director Bowlin:

In accordance with the provisions of Rule Chapter 27P-6 Florida Administrative Code (FAC), the Florida Division of Emergency Management (FDEM) has completed its review of the Marion County Comprehensive Emergency Management Plan (CEMP). The review team has determined that your plan meets the CEMP compliance criteria. We hope that the comments and discussions the review team had with you and your staff during the review will assist you in future planning efforts and enhance the update of your CEMP.

The approved plan must now be adopted by resolution by the governing body of the jurisdiction within 90 days in accordance with Rule 27P-6.006(11) FAC. You must forward a copy of the adoption resolution and an electronic copy of the adopted plan to FDEM to complete compliance. Failure to adopt the plan by resolution within 90 days will result in a letter of non-compliance unless an adoption extension is requested in accordance with Rule 27P-6.006(11) FAC.

If you have any questions or need additional information regarding the plan's approval, please contact your review team leader, Austin Delgado, at (850) 524-8189 or by email: Austin.Delgado@em.myflorida.com

Sincerely,

Andrew Sussman,
All-Hazards Unit Manager

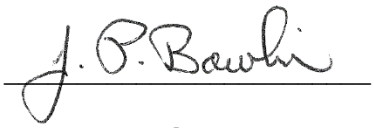
County Debris Management Plan (reference only, county
maintained and provided to EM as needed.)



Promulgation Statement

The Comprehensive Emergency Management Plan (CEMP) is the framework for countywide preparedness, response, recovery, and mitigation activities. It is the intent of the CEMP to provide a structure for standardizing plans countywide to facilitate interoperability between local, state, and federal governments.

Normal day-to-day procedures usually are not sufficient for effective disaster response, as extraordinary emergency measures may have to be implemented quickly if loss of life and property is to be kept at a minimum. Emergency procedures and actions to cope with the possibility of disaster occurrence are addressed in this Comprehensive Emergency Management Plan.

The CEMP is the guide for emergency prevention, protection, mitigation, response, and recovery operations in all jurisdictions of Marion County. Personnel and agencies assigned specific emergency responsibilities must have a working knowledge of functions and actions described herein and be prepared to act in accordance with the plan itself.

This Plan will become effective upon official adoption by the Marion County Board of County Commissioners.

J Preston Bowlin, Director
Marion County Division of Emergency Management

I. INTRODUCTION

Marion County is vulnerable to a variety of hazards that threaten our population, businesses, and the environment. The *Comprehensive Emergency Management Plan* (CEMP) establishes the framework, as authorized by Chapter 252, Florida Statutes, to ensure that Marion County is prepared to deal with these hazards. The CEMP is designed as an all-hazards plan establishing uniform policy and procedures for effective coordination. The CEMP defines the functional roles and responsibilities of each entity that partners in Marion County's disaster organization and their relationship to each other. In addition, the County's CEMP provides a comprehensive approach to reducing the effects of disasters on its population and physical environment.

A. Purpose

The purpose of the Comprehensive Emergency Management Plan (CEMP) is to provide uniform policies and procedures for the effective coordination of actions necessary to prevent (when possible), prepare for, respond to, recover from, and mitigate natural or man-made disasters which might affect the health, safety or welfare of individuals residing in and visiting Marion County. The CEMP is designed to accomplish the following:

1) Minimize suffering, loss of life, personal injury and damage to property resulting from hazardous or emergency conditions.
2) Provide a framework for a comprehensive emergency management system which addresses all aspects of emergency prevention, preparedness, response, recovery, and mitigation.
3) Minimize disaster related material shortages and service system disruptions which would have an adverse impact on the residents of the county.
4) Provide immediate relief and promote short-term and long-term recovery following a disaster.

B. Scope

The Marion County Comprehensive Emergency Management Plan is designed for use in all natural and man-made disasters. The plan:

1) Establishes policies and procedures under which Marion County Government, local governments, and regional, state and federal disaster organizations will operate in response to disasters and emergencies.
2) Establishes a unified direction and control structure, as well as staff roles, resource allocation, and decision-making criteria. It delineates lines of authority, responsibilities, and working relations of various entities.
3) Addresses the various types of emergencies and disasters which could occur, and procedures for disseminating warnings and supplementary instructions regarding such events.
4) Specifies the responsibilities of elected and appointed local government officials, county department directors, and other responding agencies.
5) Provides a framework for expeditious, effective, and coordinated use of all municipal and county resources.
6) Establishes a framework for short-term and long-term recovery and mitigation efforts.

C. Methodology

1) The emergency response agencies are represented on the Emergency Management Advisory Committee and Policy Group that provides input by participating in the planning, implementation, evaluation, and revision of this document as well as the emergency management program based on this document. Many of the planning issues are addressed in the various standing committees that are part of the Marion County Division of Emergency Management program.

2) The CEMP is a dynamic document that adapts to changes in policy, priorities, and needs, and will be updated as needed. The Emergency Management Director is responsible for developing and maintaining the CEMP and ensuring that necessary revisions to the plan are prepared, coordinated, published, and distributed. The CEMP will be reviewed and updated periodically as required to incorporate new state, federal, and regional guidelines, or directives, and to address any other necessary changes. At a minimum, the CEMP is reviewed by the Division of Emergency Management every four years. The Emergency Management Director may make administrative edits as necessary without seeking formal approval, provided such edits do not affect the policy or intent of the plan. Final adopting authority for this plan is reserved to the Board of County Commissioners. A Record of Changes, displayed at the front of the document, is used to record all published changes.

D. Plan Organization

The CEMP is composed of the following elements:

1) The Basic Plan consists of the Introduction; Situation; Concept of Operations; Responsibilities; Financial and Administrative Management; Training and Exercises; Volunteers; Public Awareness and Education; and References, Authorities and Mutual Aid Agreements.

2) The Recovery Appendix outlines the procedures for damage assessment; requests for federal disaster assistance, to include public assistance and individual assistance; and hazard mitigation.

3) The Mitigation Appendix outlines emergency management responsibilities about local mitigation activities.

4) The Emergency Support Function (ESF) Appendixes form the basis of disaster response activities embodied in the plan. The ESF Appendixes detail by name and organization the lead, support and coordinating entities and roles and responsibilities. Each appendix outlines specific functions that may be carried out. These tasks utilize the ESF concept of federal and state plans and can also be applied to specific functions within the Incident Command System.

E. Assumptions

1) If sufficient resources are not available within the county, assistance can be obtained from the state government or other counties. If county and state resources are insufficient to cope with a disaster, the Governor will request federal assistance through a Presidential Emergency or Major Disaster Declaration.

2) Municipalities have developed emergency plans and have the capability to execute them.

II. SITUATION

A. Geographical, Climatological and Topographical Characteristics

Located in north central Florida, Marion County covers approximately 1,663 square miles and is home to a population of approximately 385,915 (2021 US Census Bureau). It is larger than the state of Rhode Island and is Florida's fifth largest county. Marion County is inland, centered between the Atlantic Ocean to the east and the Gulf of Mexico to the west. Because of this, Marion County is not affected as much by hurricanes as the more coastal counties to its east and west. Marion County is fortunate to be approximately 110 feet above sea level. Population centers include the incorporated municipalities of Belleview, Dunnellon, Ocala, and Towns of McIntosh and Reddick. The county seat, City of Ocala, is by far the most populated municipality.

Known as the "Horse Capital of the World," the county's rich equine and agricultural heritage is internationally renowned. Marion County's natural resources are equally admired. Marion County is an inland county and does not suffer from coastal effects of tropical disturbances. It comprises thousands of acres of national forest, 32,000 acres of lakes, 92 miles of rivers and more than 40 springs, including Silver Springs, which is recognized as one of the largest artesian spring formations in the world. Marion County has three large lakes at its opposite borders. Lake Kerr is in the northeastern part of the county, near the town of Salt Springs, near the border with Putnam County. Lake Weir, the largest lake within our county, is in the far southern region near the border with Lake County. Part of Lake George is also located within Marion County. Approximately 1/3 of the county is the Ocala National Forest. Marion County is situated approximately 74 miles from the Atlantic coast and 17 miles from the Gulf Coast of Florida. Some of areas are considered environmentally sensitive. Drainage patterns are associated with the numerous lakes and rivers.

Land use patterns are influenced by the waterways, road system, and environmentally sensitive areas. As with most of the Central Florida Area, more areas are being developed for residential and commercial uses. Marion County's population grew 13.9% from the 331,341 people who lived there in 2010. For comparison, the population in the US grew 7.2% and the population in Florida grew 14.5% during that same period. Marion County is experiencing a steady increase in construction permitting. Much of the construction is contained within existing platted subdivisions and other areas of infill development. All county jurisdictions have adopted comprehensive land use plans, zoning, and building codes.

B. Hazards Analysis

Hazard identification, analysis, and risk assessments are detailed in the Marion County Local Mitigation Strategy (LMS). They involve the identification of natural, technological, and human-caused hazards and assessments of risks to people, public and private property, structures, and the environment. The LMS also details data and loss estimation projections and can be utilized in the post-event assessments to elevate consequences for each to the hazard categories. (The full hazard identification and vulnerability analysis can be found in Chapter Six and Chapter Seven of the Marion County LMS.)

Hazards Affecting Marion County				
Weather	**Natural**	**Ecological**	**Technological/Societal**	**Health**
Hurricane and Tropical Storm Severe Winter Storm Tornado Extreme Heat Severe Weather Events	Wildfire Flood Drought Sinkholes River Erosion	Pest Infestation Animal Disease	Power Failures HazMat Incidents Urban Fire Radiological Societal/Civic Evacuation Mass Casualty Traffic Related Civil Disturbance Terror Acts Cyber Security Mass Planned Events	Pandemic/ Epidemic Aging Population

1) Hurricane and Tropical Storm

   Level of Vulnerability: High Probability – Major Impact

   Hurricane season is from June through November with regions of major hurricane activity in the Gulf and Western Caribbean during June and October. Although coastal areas are more susceptible to hurricanes, wind and water damage could extend inland to Marion County. Hurricane Idalia (2023), Hurricane Nicole (2022), Hurricane Eta (2020), and Hurricane Irma (2017) passed in the vicinity of Marion County with wind speeds equal to that of tropical storms causing damage. The greatest threat from wind and heavy rains will be to those living in structurally unsound housing and mobile homes. Further specific information is in the Local Mitigation Strategy. Extensive damage to residential and commercial areas and infrastructure would be anticipated. Primary hazards from this type of event include tornadoes, freshwater flooding from heavy rainfall, and extensive wind damage.

Consequences:

- Notification and warning.
- Law enforcement/traffic control.
- Mass evacuation and re-entry.
- Mass care (pre and post event).
- Public health.
- Infrastructure damage.
- Property damage/loss.
- Debris clearance.
- Animal issues.
- Public information.
- Long-term economic impacts.
- Recovery assistance programs.
- Economic and social disruption.
- Widespread psychological impacts.
- General Population and Special Needs Sheltering.

2) Severe Winter Storm/Extreme Cold Weather

Level of Vulnerability: Low Probability – Minimal to Moderate Impact

Severe winter weather and below freezing temperatures are taxing to the resources of citizens, business, timber, and agriculture. Below freezing temperatures can cause electrical power outages leaving many homes without heat. The need for emergency shelters could exist during long-term power outages. Marion County is in USDA Plant Hardiness Zone 9 and typically experiences freezing weather between December 15 and March 15. Historical events from other Florida locations are included below since Marion County is no less vulnerable than those other areas that were severely affected by freezes. The average winter temperature in Marion County in January is 57 degrees, however, the County experiences sub-freezing temperatures on average 3-4 times per year.

Consequences:

- Power outages.
- Infrastructure damage (road/culvert washout).
- Emergency Cold Weather Sheltering.
- Property damage/loss from wind, water, and fires.
- Fresh water flooding.
- Public information.
- Storm surge flooding (winter storms).
- Agricultural damage/loss.
- Economic loss.

3) Severe Weather Events

Level of Vulnerability: High Probability – Minor to Major Impact

Severe thunderstorms are officially defined as storms that can produce hail that is an inch or larger or wind gusts over 58 mph. Hail this size can damage property such as plants, roofs, and vehicles. Wind this strong can break off large branches, knock over trees, or cause structural damage to trees. Marion County contains thousands of water oak trees that can easily fall over during a severe storm resulting in road closures, damage to homes, vehicles, and people. Thunderstorms also produce tornados and dangerous lightning. Heavy rain can cause flash flooding. These hazards can produce tornados, lightning, flooding, and dangerous straight-line winds. Marion County experiences numerous severe weather watches and warnings throughout the year.

Consequences:

- Power outages.
- Infrastructure damage.
- Mass casualty/fatality.
- Animal issues.
- Property damage/loss from wind and water.
- Evacuations (day/night, road congestion).
- Agricultural damage/loss.
- Economic loss.
- Public information/messaging.
- Debris.
- Sheltering.

4) Tornado

Level of Vulnerability: High Probability – Minor to Major Impact

Tornadoes are characterized by violent and destructive winds as well as hail, flooding, and lightning. The most common, least destructive tornadoes are warm weather tornadoes that occur between May and August. Cool season tornadoes are the most destructive, occurring between December and April. On April 20, 2015, an F-1 tornado touched down in Oak Run and Palm Cay, retirement communities on State Road 200. Approximately 60 homes were damaged and three were destroyed. The Marion County Property Appraisers Office submitted a total damage report of $908,916.00. On Saturday, March 12, 2022, strong early morning storms and one confirmed F-1 tornado caused severe damage to some areas of Marion County. This tornado caused a total of $13,116,373 in property damage. Tornados are weather events and, like other weather-related hazards, are unpredictable.

Consequences:

- Power outages.
- Infrastructure damage.
- Mass casualty/fatality.
- Animal issues.
- Property damage/loss from wind and water.
- Evacuations (day/night, road congestion).
- Agricultural damage/loss.

- Economic loss.
- Public information/messaging.
- Search and rescue.
- Debris.
- Sheltering.

5) Extreme Heat

Level of Vulnerability: Medium Probability – Minor to Moderate impact

A heat wave is a prolonged period of excessively hot weather, which may be accompanied by high humidity. A heat wave is measured relative to the usual weather in the area and relative to normal temperatures for the season. The term is applied both to routine weather variations and to extraordinary spells of heat which may occur only rarely. Drought and heat waves are weather events and, like other weather-related hazards, are unpredictable. However, it is expected that droughts and heat waves are a normal part of the long-term weather pattern that is typical of Central Florida's climate. These climatic conditions can be deadly to people and animals that are unable to escape the heat or hydrate their bodies properly. When temperatures reach 100+ degrees, special needs populations and households without air conditioning are vulnerable. While Summer days in Marion County can reach temperatures in excess of one-hundred degrees Fahrenheit, sustained periods of these temperatures for four or more consecutive days are not on record. There are records of individual days and two-day events surpassing one-hundred degrees during the 2015 to 2020 period, but there were no recorded events of four or more days of sustained temperatures surpassing one-hundred degrees.

Consequences:

- Notification and warning.
- Economic disruption/loss.
- Agricultural loss.
- Public information/messaging.
- Animal issues.

6) Wildfire

Level of Vulnerability: High Probability – Minor to Major impact

A wildfire is an uncontrolled fire that spreads through vegetative fuels. Vegetative fuels include those that are characteristic of wild lands, such as trees, grasses, understory growth, and ground litter; and those that are purchased at nurseries for home or community landscaping purposes, including trees, mulch, grasses, and ornamental plants. Approximately one-third of Marion County is U. S. Forest land which is located generally east of the Ocklawaha River. Additionally, large portions of the County are dedicated to agricultural uses especially in the northwest portion of the County which is located within a Farmland Preservation Area. These agricultural areas are intermingled with populated areas as well as high-value property. Reddick, McIntosh, and Dunnellon are all located within the rural areas of the County and are therefore at the highest risk for potential damage due to their proximity to wild lands. Areas with few trees such as urban areas, which include, the City of Ocala, the City of Belleview, and portions of unincorporated Marion County near the urban core, are densely developed and have a low vulnerability to wildfire.

Consequences:

- Notification and warning.
- Law enforcement/traffic control.
- Fire/rescue.
- Evacuation and re-entry.
- Public information/messaging.
- Property damage/loss.
- Economic disruption/loss.
- Agricultural loss.
- Mass care (short and long term).
- Feeding evacuated population.
- Animal issues (relocation, feeding).
- Economic recovery assistance programs.

7) Flood

Level of Vulnerability: High Probability – Minor to Major impact

For Florida, flooding is a continuous problem. While flooding results from either storm surge associated with hurricanes, riverbank overflow, or ponding, it is the latter two that represent a hazard to Marion County. Heavy rains and the subsequent inability of a river to accommodate the added runoff almost always causes flooding resulting from riverbank overflow. There are several areas within Marion County that would be similarly affected, including the Ocklawaha and Rainbow Rivers. This problem is compounded when heavy rains fell simultaneously in counties surrounding Marion County, thus adding to the volume of runoff received by local rivers. Ponding occurs in low areas that are either poorly drained or have supersaturated soils (high water table). Low lying areas not associated with waterways within the county as well as subdivisions with inadequate stormwater retention areas are prone to flooding and standing water, creating hazardous traffic conditions and repetitive flood areas.

Consequences:

- Notification and warning.
- Law enforcement/traffic control.
- Fire/rescue. Search and rescue.
- Public information/messaging.
- Evacuation and re-entry.
- Property damage/loss.
- Economic disruption/loss.
- Road Closures
- Agricultural loss.
- Mass care (short and long term).
- Feeding evacuated population.
- Public health (contamination of water supply).
- Infrastructure damage/loss (water distribution and treatment systems).
- Animal issues (relocation, feeding).
- Economic recovery assistance programs.

8) Drought

Level of Vulnerability: High Probability – Minor to Major impact

Drought is a protracted period of deficient precipitation resulting in extensive damage to crops, resulting in loss of yield. Drought risk is based on a combination of the frequency, severity, and spatial extent of drought (the physical nature of drought) and the degree to which a population or activity is vulnerable to the effects of drought. Crop loss is the greatest economic concern especially from those crops that are major exports. The vulnerability is greater in the various types of crops that are more susceptible to drought than others. Newly planted crops are extremely vulnerable to drought. Livestock must also be monitored and managed properly in cases of severe drought. Farmers in general are particularly affected by drought conditions; as the water table falls, deeper wells need to be drilled for irrigation purposes. There have been no recorded drought events in Marion County in the past 10 years.

Consequences:

- Notification and warning.
- Economic disruption/loss.
- Agricultural loss.
- Public information/messaging.
- Animal issues (relocation, feeding).
- Economic recovery assistance programs.

9) Sinkholes

Level of Vulnerability: High Probability – Minor to Major impact

A sinkhole is a natural depression or hole in the surface topography caused by the removal of soil or bedrock, often both, by water. Sinkholes may vary in size from less than a meter to several hundred meters both in diameter and depth and vary in form from soil-lined bowls to bedrock-edged chasms. They may be formed gradually or suddenly and are found worldwide. All jurisdictions in Marion County are susceptible to sinkhole events. The eastern half of Marion County is sparsely populated and mainly consists of the Ocala National Forest. Geologically, the "Hawthorn Layer," which is an impermeable layer of clay over the aquifer, underlies this area and significantly reduces the likelihood of sinkholes. The Hawthorn layer also reduces the vulnerability of the aquifer as our drinking water supply. The western half of Marion County is a high recharge area of permeable sands and an "unconfined aquifer" with an increased vulnerability to HAZMAT spills. The material covering the aquifer is 30 to 200 feet thick, consisting mainly of incohesive and permeable sand.

Consequences:

- Notification and warning.
- Law enforcement/traffic control.
- Fire/rescue.
- Public information/messaging.
- Evacuation and re-entry.
- Property damage/loss.
- Economic disruption/loss.
- Infrastructure damage/loss.
- Economic recovery assistance programs.
- Environmental concerns.

10) Riverine Erosion

Level of Vulnerability: Low Probability – Minimal to Minor impact

Riverine erosion is damage from water moving at a velocity to cut into the land and transport soil into the mainstream of the river or collapse the banks. The following rivers may be susceptible to riverine erosion: Withlacoochee River, Silver River, Ocklawaha River, and Rainbow River. Marion County has not experienced a riverine erosion event in recorded history. Probability is low for erosion incidents on the Ocklawaha, Silver, and Rainbow Rivers in Marion County as they are all slow-moving rivers.

Consequences:

- Notification and warning/public information.
- Evacuation and re-entry.
- Property damage/loss.
- Infrastructure damage/loss.

11) Pest Infestation/Animal Disease

Level of Vulnerability: Low probability – Minor to Moderate Impact

The agricultural sector of the county is subject to the impacts of exotic pests and diseases such as Mediterranean fruit flies and canker. Both affected the county during the decade of the 1990s. Impact is generally limited to the agricultural sector.

Consequences:

- Economic loss.
- Infectious disease control.
- Disposal of diseased livestock/agricultural stock.
- Need for mass feeding.

12) Power Failures – Critical Infrastructure Disruption

Level of Vulnerability: Low probability – Minor to Moderate Impact

The potential exists for disruptions to electrical power, gas pipelines, or other segments of the automated monitoring and control infrastructure. Also, disruptions to computer systems can occur through accidental or intentional acts (i.e., cyberterrorism).

Consequences:

- Notification and warning.
- Law enforcement/traffic control.
- Fire/rescue.
- Public information/messaging.
- Sheltering.
- Evacuation and re-entry.
- Economic disruption/loss.
- Economic recovery assistance programs.

13) HazMat Incidents /Radiological

Level of Vulnerability: Low to Moderate Probability – Minor to Major Impact

A hazardous material is any substance that, if released into the environment, would have a harmful or fatal effect on persons and animals coming into contact with it. Hazardous materials include highly flammable fuels, herbicides and pesticides, petroleum and related products, natural gas, and chemicals. Radioactive substances, although they are frequently included within the category of hazardous materials, were not considered a hazard within this

analysis, although there are relatively large numbers of facilities within Marion County, which use small amounts of these substances. In any case, there are over 3,000 hazardous chemicals licensed for transport by the US Department of Transportation, many of which would have a disastrous effect if released in an accident. Marion County and its communities are vulnerable to the effects of hazardous materials accidents resulting from both transportation and industry. Light industry present in Ocala/Marion County store and utilize materials such as natural gas, anhydrous ammonia, petroleum distillates, chlorine, and pesticides on a daily basis and hazardous materials are transported to and through the County by rail, highway (I-75, US-441, US-27, etc.), and air.

Consequences:

- Evacuations.
- Notification and warning.
- Public information.
- Mass care.
- Mass casualty/fatality.
- Law enforcement/traffic control.
- Large scale contamination issues.
- Mass decontamination.
- Overcrowded hospitals.
- Contaminated land and/or water.
- Environmental damage/loss.
- Communications failure.

14) Urban Fire

Level of Vulnerability: Low Probability – High Impact

Urban fires in cities or towns involve buildings with potential for spread to adjoining structures. There are certain sectors of the populations which are more vulnerable to fire than others.

Consequences:

- Evacuations.
- Public information.
- Mass care/mass casualty/fatality.
- Law enforcement/traffic control.
- Environmental damage/loss.
- Sheltering.

15) Societal/Civic Evacuation

Level of Vulnerability: Low Probability – Minimal to Moderate Impact

Emergency evacuation is the immediate and urgent movement of people away from the threat or actual occurrence of a hazard. Examples range from the small-scale evacuation of a building due to a storm or fire to the large-scale evacuation because of a bomb threat, widespread fire, or hazardous materials release. Marion County has a low occurrence of evacuation.

Consequences:

- Transportation/traffic control.

- Law enforcement/security issues.
- Impact to social services.
- Public Information/messaging.
- Sheltering.
- Special needs population care.

16) Mass Casualty

Level of Vulnerability: Medium Probability – Major Impact

A mass casualty is any incident in which emergency medical services resources, such as personnel and equipment, are overwhelmed by the number and severity of casualties. The public more commonly recognizes events such as a building collapse, train and bus collisions, earthquakes, and other large-scale emergencies. Events such as the Oklahoma City bombing in 1995 and the September 11, 2001, attacks are well-publicized examples of mass casualty incidents.

Consequences:

- Notification and warning.
- Public information.
- Mass care.
- Search and rescue.
- Mass casualty/fatality.
- Law enforcement/traffic control/security.
- Large scale contamination issues/mass decontamination.
- Overcrowded hospitals.

17) Traffic Related

Level of Vulnerability: Moderate Probability – Minor to Moderate Impact

Marion County contains several major state roads. It also contains one interstate (I-75) that runs north and south across the central part of the county, with interchanges at County Road 484, SR 200, SR 40, US 27, SR 326, and CR 318. There is one city-owned international airport (Ocala International Airport). A major transportation incident is a distinct possibility and could cause significant problems, especially if combined with a terrorist act or Hazmat incident. As the population in Marion County continues to grow, traffic related incidents are becoming more frequent.

Consequences:

- Evacuations.
- Notification and warning.
- Public information.
- Mass care.
- Mass casualty/fatality.
- Law enforcement/traffic control.
- Large scale contamination issues.
- Mass decontamination.
- Overcrowded hospitals.
- Contaminated land and/or water.
- Animal issues (relocation, medical).

- Environmental damage/loss.
- Communications failure.
- Re-route traffic.

18) Civil Disturbance

Level of Vulnerability: Low Probability – Minimal to Minor Impact

Marion County has a low occurrence of civil unrest. Marion County contains two State prisons: Marion Correctional Institution (1,324 capacity) and Lowell Correctional Institution (1,047 capacity). In the event of an institutional emergency within the correctional facilities located in Marion County, coordination with State and/or Federal authorities may be required. However, the probability is very low and not considered a planning issue.

Consequences:

- Transportation/traffic control.
- Public health/quarantine.
- Law enforcement/security issues.
- Impact to social services.
- Impact on jail and detention facilities.

19) Terrorist Acts

Level of Vulnerability: Low Probability – Minimal to Moderate Impact

Marion County does not contain high profile targets of opportunity for potential terrorist groups. An incident involving weapons of mass destruction (WMD) by a terrorist organization using chemical, biological or nuclear substances is a distinct possibility in surrounding metropolitan areas in light of the contemporary worldwide terrorist threat. A significant act of terrorism within the state of Florida could moderately impact Marion County indirectly.

Consequences:

- Infectious disease control/treatment.
- Mass casualty/fatality.
- Mass panic.
- Inadequate law enforcement/fire/rescue resources.
- Large-scale contamination/decontamination issues.
- Large-scale evacuation.
- Large-scale sheltering.
- Search and rescue.
- Public information.
- Economic and social disruption.
- Psychological needs.
- Re-entry.
- Law enforcement/security.

20) Epidemic/Pandemic

Level of Vulnerability: Low probability – Minor to Moderate Impact

The United States and all political subdivisions are subject to an incursion of various infectious diseases and epidemics. Such outbreaks normally involve more than one county

and will require close coordination with the Florida Department of Health in Marion County and other state and federal officials. The COVID-19 pandemic, also known as the coronavirus pandemic, is an ongoing pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The World Health Organization declared the outbreak a Public Health Emergency of International Concern in January 2020 and a pandemic in March 2020.

As of March 16, 2023, the World Health Organization reported 760,360,956 confirmed cases of COVID-19 globally, including 6,873,477 deaths. As of March 16, 2023, in the United States, the Centers for Disease Control reported 103,672,529 confirmed cases, with 1,119,762 deaths attributed to COVID-19. Through March 2, 2023, the Florida Department of Health has reported 7,531,055 confirmed cases, with 86,850 deaths. Through March 2, 2023, the Florida Department of Health has reported 105,490 confirmed cases of COVID-19 in Marion County, with 2,497 deaths.

Mosquitoes can be a health hazard because they can transmit serious diseases and viruses through their bites. Mosquitoes are prone to grow in numbers after hurricanes and hinder the disaster recovery process.

Consequences:

- Economic loss.
- Mass casualty/fatality.
- Infectious disease control.
- Disposal of diseased livestock/agricultural stock.
- Need for mass feeding.
- Mass care.
- Personal protective equipment shortage
- Hospitals overcrowded.
- Morgues exceeding capacity.
- Impacts on fire rescue protocols.
- Resource supply chain issues.
- Staffing shortages.

21) Aging Population

Level of Vulnerability: Low Probability – Minimal Impact

Aging population is a phenomenon that occurs when the median age of a country or region increases due to rising life expectancy and/or declining fertility rates. The largest area of expenditure in many countries is now healthcare, whose cost is likely to increase dramatically as populations age. This would present governments with hard choices between higher taxes, including a possible reweighing of tax from earnings to consumption, and a reduced government role in providing health care.

Consequences:

- Public information
- Economic impacts

22) Coastal Oil Spills

Level of Vulnerability: Low probability – Minor Impact

As Marion County is not a coastal county, this threat is not considered a hazard to the community. Mutual aid may be utilized to support our neighboring counties that our coastal communities.

23) Cyber Security

Level of Vulnerability: High Probability –Minor to Major Impact

Cybersecurity threats are acts performed by individuals with harmful intent, whose goal is to steal data, cause damage to or disrupt computing systems. Common categories of cyber threats include malware, social engineering, man in the middle (MitM) attacks, denial of service (DoS), and injection attacks. Cyber threats can originate from a variety of sources, from hostile nation states and terrorist groups to individual hackers and trusted individuals such as employees or contractors who abuse their privileges to perform malicious acts.

Consequences:

- Disrupt economies.
- Mass panic.
- Interruption of workflow.
- Supply chain issues.
- Threat on intellectual property.
- Threat on intelligence information.
- Damage to critical information technology infrastructure.
- Ransom Demands.

24) Special Events

Level of Vulnerability: High Probability –Moderate Impact

Many special events occur every year within Marion County. Special events may include, but are not limited to, large scale municipal events that impact the entire county, smaller scale municipal events (monthly street parties, gatherings, etc.), visiting dignitaries, holiday parades, Worlds Equestrian Center (WEC) events, sporting events, and the numerous other events that attract people to the natural resources of Marion County. All special events that have an impact on the entire county or are of a high security nature are typically coordinated through the lead agency with support from the Marion County Division of Emergency Management Division. The National Incident Management System (NIMS) is utilized as the management structure to which all responsible stakeholders adhere. Special events occur in Marion County throughout the year. Concerns from the public safety sector are large gatherings of people in a relatively confined space; no-notice severe weather events, and a mass casualty incident (MCI) where local resources are overwhelmed. The Emergency Management Division encourages pre-planning and the creation of an Incident Action Plan to coordinate all stakeholders that have responsibility for the special event.

Consequences:

- Inadequate law enforcement/fire/rescue/hazmat/bomb squad resources.
- Law enforcement/security.
- Mass casualty/fatality.
- Mass panic.
- Large-scale evacuation.
- Large-scale sheltering.
- Infectious disease control/treatment.

- Large-scale contamination/decontamination issues.
- Search and rescue.
- Public information/messaging.
- Economic and social disruption.
- Psychological needs.
- Re-entry.

C. Demographic Information

1) Population Data – Located in north central Florida, Marion County covers 1,663 square miles and is home to a population of approximately 385,915 (2021 US Census Bureau). The population per square mile is approximately 236.7. Marion County is the 19th most populous county in the State of Florida.

Jurisdiction	Population
Marion County	385,915
Ocala	64,096
Belleview	5,577
Dunnellon	1,967
McIntosh	479
Reddick	463

2) According to the 2021 census data, the demographic makeup of the county is White 68%, Hispanic or Latino 15.5%, Black 13.7%, and Asian1.8%.

3) Distribution of Population by Age

Age Range	Percent
Under 18	19%
18 - 64	53%
65 and over	29%

4) Marion County has a special needs population of approximately 780.

5) Marion County has a farm workers population of approximately 4,000.

6) According to a tourism study conducted by Marion County, within July 2020 – June 2021, the total number of visitors to Marion County was 1,906,200. This was an increase of 2.0% from April 2018 – April 2019. The Ocala/Marion visitors generated 1,140,700 room nights in paid accommodations in July 2020 – June 2021, an increase of 14.3% from April 2018 – April 2019. Some of the events/venues that attract the tourist population were sporting events, horse shows, World Equestrian Center, Santos Trail Mountain biking, and Silver Springs State Park.

7) In Marion County it is estimated that 13.1% of the population speak a language other than English at home, the majority of which is Spanish.

8) Population of people with hearing difficulty is 15,041.

9) There are an estimated 475 homeless individuals in Marion County, Florida.

10) Within Marion County, there are just over 50 manufactured and mobile home communities containing roughly 33,886 units.

11) According to the Marion County Sheriff's Office, the average daily census of the county jail is anywhere between 1,400-1,800 inmates. The county jail is located at 3290 NW 10th Street, Ocala, FL 34475.

D. Economic Profile

Work Area Profile Summary

	Count	Share
Total Primary Jobs	96,900	100.0%
Jobs by Worker Age		
Age 29 or younger	20,935	21.6%
Age 30 to 54	50,064	51.7%
Age 55 or older	25,901	26.7%
Jobs by Earnings		
$1,250 per month or less	20,744	21.4%
$1,251 to $3,333 per month	43,238	44.6%
More than $3,333 per month	32,918	34.0%
Jobs by NAICS Industry Sector		
Agriculture, Forestry, Fishing and Hunting	1,770	1.8%
Mining, Quarrying, and Oil and Gas Extraction	113	0.1%
Utilities	258	0.3%
Construction	7,168	7.4%
Manufacturing	7,717	8.0%
Wholesale Trade	3,796	3.9%
Retail Trade	15,060	15.5%
Transportation and Warehousing	2,869	3.0%
Information	656	0.7%
Finance and Insurance	2,196	2.3%
Real Estate and Rental and Leasing	1,513	1.6%
Professional, Scientific, and Technical Services	3,807	3.9%
Management of Companies and Enterprises	178	0.2%
Administration & Support, Waste Management and Remediation	4,685	4.8%
Educational Services	9,233	9.5%
Health Care and Social Assistance	16,309	16.8%
Arts, Entertainment, and Recreation	2,376	2.5%
Accommodation and Food Services	9,427	9.7%
Other Services (excluding Public Administration)	2,525	2.6%
Public Administration	5,244	5.4%

Source: U.S. Census Bureau, OnTheMap Application and Longitudinal Employer-Household Dynamics program.

Marion County Housing Summary	
Housing Units (as of July 2021 – Census Bureau)	181,756
Percent Owner Households	76.1%
Median Home Value	$160,300
Median Household Income	$50,808

III. CONCEPT OF OPERATIONS

A. General

1) The emergency management program addresses prevention, preparedness, response, recovery and mitigation. For the purposes of this plan, this concept of operations will focus on emergency response and relief efforts and measures to be taken for a smooth transition into intermediate and long-term recovery from a major or catastrophic emergency.

2) The basic concept for emergency operations in Marion County calls for a coordinated effort and graduated response by personnel and equipment from municipal, county, and other disaster support agencies in preparation for, in response to, and recovery from local disasters. The municipal governments bear the initial responsibility for disaster response and recovery operations within their jurisdiction. When a municipality's resources are inadequate, assistance will be requested from the county. If the requested assistance is beyond the county's capability, the county will request state and federal assistance from the State Emergency Operations Center (SEOC). To ensure an adequate and timely response by emergency personnel and the maximum protection and relief to citizens of Marion County prior to, during and after a disaster, the concept also provides for:

    - Providing emergency notification and warning.
    - Describing emergency mobilization procedures.
    - Delineating emergency decision-making processes.
    - Describing types and methods of implementation of emergency protective actions.
    - Conducting rapid assessments of emergency impacts and immediate emergency resource needs.
    - Providing security to the hardest hit areas.
    - Coordinating information and instructions to the public.
    - Conducting emergency relief operations to ensure victims have been identified and that their needs are met.
    - Conducting preliminary damage assessments to determine the need for federal assistance.
    - Summarizing procedures for requesting federal disaster assistance.
    - Relaxation of protective actions and coordination of reentry into evacuated areas
    - Restoration of essential public facilities and services.
    - Preparing for federal disaster assistance (public and individual).
    - Coordination of resources and materials.
    - Coordination of volunteer organizations.
    - Dissemination of information and instructions to the public.

- Restoration of public infrastructure damaged by the emergency

3) The Emergency Operations Center (EOC) serves as the central command and control point for emergency-related operations and activities and requests for deployment of resources. In the event the EOC is threatened or rendered inoperable, a secondary EOC is activated. The locations of the primary and secondary EOC are listed below:

Primary: Marion County Emergency Management (MCSO Operations)
698 NW 30th Ave
Ocala, Florida 34475
Lat: 29.19232875108719 / Long: -82.17219427227974

Secondary: On File (Secure Location)

4) The EOC will be activated for all incidents requiring a significant dedication of resources and/or extraordinary inter-agency coordination outside the realm of normal, day-to-day emergency situations responded to by law enforcement, fire, and emergency medical services (EMS) agencies.

5) The EOC will provide all staff with the appropriate rehabilitation supplies, food, and sleeping accommodations while they are assigned to the EOC during an activation.

6) Marion County uses WebEOC as the primary resource management and information sharing system. All EOC and emergency support functions (ESF) representatives are trained on the use of WebEOC. WebEOC information and resources include shelters, points of distributions (POD), disaster recovery centers (DRC), essential elements of information, local and state resource requests, emergency shelter status, and other applicable information.

7) In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the county follows the National Incident Management System (NIMS) for disaster management. The Director of Emergency Management will serve as coordinator for the implementation of the incident management system. NIMS provides a consistent approach to prepare for, prevent, mitigate, respond to, and recover from disaster occurrences regardless of cause, size, or complexity. This system integrates effective practices in emergency preparedness and response into a comprehensive framework for incidental management. Use of the Incident Command System (ICS) is integral to NIMS and will be the management framework used for incident response within the county. The Incident Command System functions on the concepts of a modular organization, unified command, multiagency coordination, span of control, common terminology, action planning process, comprehensive resource management, integrated communications, and pre-designated facilities.

8) The county is a signatory to the Statewide Mutual Aid Agreement (SMAA). If resources within the county are insufficient for disaster response and recovery operations, mutual aid will be requested from the state emergency operations center (SEOC), or other local jurisdictions in the state.

9) During disaster operations, numerous private sector and private nonprofit organizations provide resources. Included among these are the American Red Cross (RC), Salvation Army, various non-government organizations (NGOs), Interfaith Emergency Services, United Way, Chamber & Economic Partnership, the World Equestrian Center (WEC), and others.

B. Levels of Disaster

Florida Statute 252.34 defines a disaster as any natural, technological, or civil emergency that causes damage of sufficient severity and magnitude to result in a declaration of a state of emergency by a county, the Governor, or the President of the United States. F.S. 252.34 also identifies disasters by the severity of resulting damage, as follows:

1) Catastrophic disaster – one that requires massive state and federal assistance, including immediate military involvement.
2) Major disaster – one that will likely exceed local capabilities and require a broad range of state and federal assistance.
3) Minor disaster – one that is likely to be within the response capabilities of local government and to result in only a minimal need for state or federal assistance.
4) Emergency – Any occurrence, or threat thereof, whether natural, technological, or manmade, in war or in peace, which results or may result in substantial injury or harm to the population or substantial damage to or loss of property.

C. Plan Activation

1) Marion County will activate the Comprehensive Emergency Management Plan (CEMP) in the event of any of the following:
    a) Pursuant to Chapter 252, Florida Statutes, and in accordance with the Emergency Management Inter-Local Agreement to ensure health, safety, and welfare of the community.
    b) When the Chairperson (Vice Chairperson or their designee) of the Board of County Commissioners declares a local state of emergency for Marion County.
    c) Upon declaration of the state of emergency by the Governor, as provided by Chapter 252.36, Florida Statutes, where Marion County is one of the areas threatened.
    d) Whenever emergency response actions are required for the immediate protection of life and property prior to the proclamation of a local state of emergency.

D. Organization

1) Normal

Marion County is administered by a Board of County Commissioners (BOCC) consisting of five elected officials, with one acting as the chairperson. The County Administrator is appointed by, and reports to, the Board of County Commissioners. Marion County Division of Emergency Management is administered by the elected Sheriff of Marion County. The Marion County Division of Emergency Management Director is appointed by the Sheriff. The Sheriff shall not report to the County during normal operations of the Emergency Management Director, but the Sheriff shall report to the Chairperson of the BOCC, or their designee, in time of emergency or a declared disaster under Florida Statue 252, or if otherwise requested to do so by the County.

2) Emergency Support Functions (ESF)
    a) Coordination of disaster response and recovery activities will be facilitated by using emergency support functions. Marion County will use 18 ESFs to align county response and recovery activities with those of the state.

b) Each ESF will have a primary agency or agencies designated based on their orientation, capabilities, and resources. Numerous other agencies will be designated as support agencies within each ESF.

c) A brief description of each of the 18 ESFs follows. The Emergency Support Function Appendixes 1 through 18, address each of the ESFs in more detail.

ESF #1 – Transportation
Provides coordination of transportation support to the public, county departments and other government and private agencies and voluntary organizations requiring transportation to accomplish disaster evacuation, response, and recovery missions.

ESF #2 – Communications & Technology
Provides coordination of telecommunications support necessary to conduct disaster response and recovery operations including the restoration of downed communications systems.

ESF #3 – Public Works and Engineering
Provides public works and engineering support necessary to restore the community's infrastructure. Includes the areas of debris clearance and disposal, temporary construction of emergency access routes, restoration of critical public services, restoration of water and wastewater systems, construction management and inspection, and emergency demolition or stabilization of damaged structures.

ESF #4 – Firefighting
Detects and suppresses fires resulting from, or occurring coincidentally with, a disaster.

ESF #5 – Information and Planning
Collects, analyzes, and disseminates appropriate information on emergency operations which facilitates decision making in response and recovery operations.

ESF #6 – Mass Care and Human Services
Coordinates efforts to provide sheltering, feeding, and emergency first aid.

ESF #7 – Logistics/Resource Support
Locates, procures, and provides required resources in support of emergency operations.

ESF #8 – Health and Medical Services
Provides a coordinated response to public health and medical needs following a disaster.

ESF #9 – Search and Rescue
Locates, rescues, and provides immediate medical treatment to survivors who are lost, isolated, or trapped as a result of a disaster.

ESF #10 – Hazardous Materials
Responds to an actual or potential release of hazardous materials.

ESF #11 – Bulk Distribution
Identifies, secures, and arranges for the transportation and distribution of food and water to disaster survivors.

ESF #12 – Electrical Utilities
Coordinates the restoration of utility systems and availability of petroleum products for response and recovery operations.

ESF #13 – Military Support
Coordinates the use of military assets, including National Guard and active-duty forces, in support of emergency operations.

ESF #14 – Public Information

Coordinates and disseminates appropriate information to the public during emergency operations.

ESF #15 – Volunteers and Donations

Coordinates the effective utilization of disaster volunteers and donated goods during response and recovery operations. Manages the County's relief supplies reception and distribution system.

ESF #16 – Law Enforcement

Coordinates law enforcement activities during evacuation, response, and recovery operations to include law and order, traffic control, security, and reentry operations.

ESF #17 – Animal Protection

Coordinates animal protection activities for both small and large animals to include emergency veterinary care, evacuation, rescue, temporary confinement, shelter, food and water, identification for return to owners, and disposal of dead animals.

ESF #18 – Business and Industry

Coordinates evacuation, response, and recovery operations with the business community.

E. Internal EOC Operations

1) The EOC is a unique environment. Members of the EOC Staff represent many organizations which have numerous and varied responsibilities in response and recovery operations. EOC representatives can commit resources of their respective organizations and act as a conduit for tasks to be passed from the EOC to their organizations. Accordingly, EOC representatives are directly responsible only to their organization and to the EM Director.

2) Many organizations in the EOC are included as part of one or more ESFs. For each ESF, primary and support organizations are identified. These ESF groupings are designated to coordinate resources and mutual support within and between various functional areas. The agency designated as primary is responsible for coordinating resources and supporting agencies will assist as needed.

3) To facilitate span of control and to ease the flow of communication and coordination, the EOC will also use a modified Incident Command System combined with ESFs during activations. Similar functions will be grouped together with an EOC staff member appointed to oversee activities within each grouping. The groupings will be Operations, Planning, Logistics, and Administration / Finance. EOC staff members will aid the areas in these groupings and facilitate transmission of requests and information to the EM Director.

4) Response and recovery periods tend to overlap. Organizationally, the EOC will operate in similar fashion for both response and recovery operations. As additional agencies are needed in the EOC, they will be phased into the EOC operations. The EOC will coordinate recovery operations with federal and state representatives (see Recovery Appendix).

5) Mitigation activities are generally conducted on a day-to-day basis through various county departments also generally conducted by the municipal departments as well. Disaster related mitigation activities will be carried out through the same emergency management system as structured for response and recovery. See the Mitigation Appendix at the back of the plan for further information on mitigation.

F. Warning and Dissemination

1) General

   a) The purpose of this section is to outline the systems available for warning the responsible government officials and the general public of the threat of an impending disaster or that an actual emergency situation is in progress in the County.

   b) Warnings of impending or potential emergencies, such as a hurricane, tornado, severe weather, an airplane crash, a major hazardous materials release, or any other significant event that may impact multiple jurisdictions or large numbers of people must be disseminated to responsible officials, emergency response agencies, and to the public. The notification is for the purpose of implementing emergency government and management procedures and reporting such actions to State emergency management agencies. It is also necessary to take appropriate protective actions and preparedness and response measures.

2) County Warning Point (CWP)

   a) The State Watch Office operates 24/7, 365 days a year as a daily extension of the Florida State Emergency Operations Center. The State Watch Office (SWO) monitors local, state, and national media as well as communicates with Florida's counties and state agencies to ensure that the State Emergency Response Team is aware of any on-going or developing situations. The SWO maintains communications systems and warning capabilities to ensure that the state's population and emergency management agencies are warned of developing emergency situations and can communicate emergency response decisions as mandated by § 252.35 F.S.

   b) The Marion County Public Safety Communications Center and Marion County Sheriff's Office are designated as the official County Warning Point for Marion County.

   c) The CWP is staffed 24 hours a day, 7 days a week. The County Warning Point has communication systems to adequately send and receive warning information to and from all relevant sources. The County Warning Point has an alternate power source of diesel generators on site.

   d) Marion County Division of Emergency Management utilizes the Everbridge © system (AlertMarion) in the County Warning Point, EOC and on mobile devices. This program is used to notify specific geographic areas of the county to notify the citizens of a possible emergency and life safety threats.

   e) Effective July 1, 2020, §252.351 F.S. requires the Division of Emergency Management (FDEM) to create a list of reportable incidents and requires political subdivisions to report incidents contained on the list located in the Florida Division of Emergency Management State Watch Office-Guide for Florida County Warning Points and PSAPs (Version 2021). It also authorizes FDEM to establish guidelines a political subdivision must follow to report an incident and requires FDEM to annually provide the list of reportable incidents to each political subdivision with an effective date. An online list of reportable incidents can be found at www.floridadisaster.org/SWO.

3) Significant Incidents

Notifications of watches, warnings, or the occurrence of significant events will be received at the CWP and EOC through bulletins and advisories from the National Weather Service received via AlertMarion (Everbridge), the Integrated Public Alert and Warning System (IPAWS), NOAA Weather Radio, local media, telephone, and the public. These significant incidents may include but are not limited to:

a) Any incident that may require a substantial evacuation and/or relocation of a given area.

b) Any event posing a potential threat for a mass casualty incident.

c) Any weather-related warning advisory.

d) Any formation of tropical weather systems.

e) Any incident, which closes, or significantly blocks major roadways within the County.

f) Any large or multiple structure fires.

g) Any prolonged shutdown of public utilities.

h) Any incident where Marion County public resources are being deployed out of the County.

i) Any event posing a major environmental threat.

4) Alerting

Marion County Division of Emergency Management is the primary agency responsible for alert and notification. Upon the receipt of notification of any such significant event the Communications Supervisor, on-duty Communications personnel, or Emergency Management staff shall implement the procedure appropriate to the event (weather, fire, hazardous materials, mass casualty incidents, etc.).

a) The Communications Director, Manager, or their designee will alert the on-call Emergency Management Staff, as needed. The Director or their designee may advise that one or a combination of the following actions will be initiated by either the County Warning Officer or Emergency Management Staff:

i) Everbridge © AlertMarion (Mass or specific geo-coded "targeted" notification)

ii) Notify the State Watch Office, via e-mail or telephone.

iii) Notify one or more designated agencies of county government or political subdivision(s).

iv) Initiate a partial or full call-out-alert using the AlertMarion – "Employee Groups".

v) Emergency Alert Broadcast System.

vi) Mass Email.

vii) Local Media/Radio.

viii) Notify the appropriate public information officers.

ix) Alert the appropriate field command staff.

x) Social media.

5) Call Out Alert

The call-out alert when initiated will be made to county governmental staff and non-county EOC staff in accordance with the Emergency Notification Procedure utilizing telephone numbers maintained by Emergency Management. It will be the responsibility of Primary Agencies/Departments for ESF's to notify their respective support agencies, division directors, and staff under their span of control.

In addition, the following actions may be initiated:

a) An alert will be sent to all Public Safety Answering Points, and they will in turn notify public safety agencies for which they are jurisdictionally responsible.

b) Marion County political subdivisions, and other governmental and non-governmental agencies will be contacted and utilize their own internal procedures to notify their staff of the threat or emergency.

c) Warning the public, whether via AlertMarion, Emergency Alert System (EAS), the Integrated Public Alert and Warning System (IPAWS), social media. or other available means, will include instructions for any required actions (i.e., evacuation, keeping away from a disaster area, seeking cover from a threatened tornado, etc.).

6) Notification:

Upon notification of an emergency or disaster situation, the Emergency Management Director is responsible for disseminating warnings to:

a) The Sheriff.

b) Applicable County Administration personnel.

c) Mayors (or designee) of each municipality within the County.

d) The primary agency contacts for each Emergency Support Function.

The Emergency Management Director or designee will report to the EOC to supervise activation procedures for an actual or impending emergency. Key warning personnel will coordinate with adjacent jurisdictions using telephone, radio, courier, or any other means necessary and available. Each Mayor or their representative will alert the municipal services in his/her community and supervise the dissemination of warnings in their municipality.

The primary agency contact for each ESF will contact all of the support agencies to the ESF. All agencies will notify their personnel to begin activation procedures as described in the ESF Appendices and implementing SOG's.

7) Levels of Activation

The level of the county EOC activation will depend on the nature and scope of the threat to the county. Additional information regarding activation is defined in the Emergency Operations Center Standard Operations Procedure.

Level	Description
3 – Steady State/Monitoring	Level 3 is typically a "monitoring" phase. Notification will be made to those state agencies and Emergency Support Functions who would need to take action as part of their everyday responsibilities. The emergency operation center will be staffed with County Warning Point Communicators and Emergency Management staff. On a daily basis the county EOC is at Level 3 activation
2 – Partial Activation	This is limited agency activation. All primary, or lead, Emergency Support Functions are notified of the situation. The Emergency Operations Center will be staffed by Emergency Management personnel and necessary Emergency Support Functions.
1 – Full Activation	In full scale activation, all primary and support agencies under the county plan are notified. The County Emergency Operations Center will be staffed by Emergency Management personnel and all Emergency Support Functions.

8) Warning to the General Public

Marion County must provide the public with sufficient advance warning time for effective preparation and for emergency plans to be implemented. The following warning systems are available to disseminate warnings and warning information to the public:

- Everbridge © AlertMarion.
- Emergency Alert System (EAS).
- Integrated Public Alert and Warning System (IPAWS)
- Website www.marionso.com.
- Website www.alertmarion.com.
- Website Marion County, FL | Home (marionfl.org)
- Citizens Information Line (rumor control).
- Fax to media and local businesses.
- NOAA Weather Alert Radio.
- Radio and TV Stations.
- Cable Information Channels.
- Public Speaking Events.
- Public Displays.
- Public Address or Door-to-Door, if needed.

G. Emergency Decision Making

Two key elements that are essential for making sound emergency decisions are (1) Knowing the amount of time that is needed to respond to the emergency and (2) Knowing the number of resources that are needed and available. When making emergency action decisions, the following general methodology will be used:

1) In hurricanes or weather-related emergencies, pre-emergency hazard times are computed based on Hurrevac, a hurricane tracking program. These times, therefore, are based on the actual characteristics of the event (i.e., forward speed of the storm and the distance tropical storm conditions extend from the eye). Total evacuation times are the combination of the

clearance and pre-emergency hazard times.

2) The probabilities generated by the National Weather Service (NWS) will be used when recommending protective measures. These probabilities are simple mathematical odds deduced from computer weather models.

3) Pre-emergency hazard time is the amount of time between the onset of the event and the actual arrival of hazardous conditions.

4) After determining the total pre-emergency time and the length of time before the arrival of hazardous conditions, a projection is made of when a decision must be reached. This is decision time.

5) Decision time is the amount of time available before the issuance of protective actions to allow adequate response time for the threatened population.

6) Execution time is the time available that allows for the completion of an emergency action before hazardous conditions are experienced. This would include a mobilization time.

7) During the process of decision making, determination for the issuance of protective actions and furnishing of assistance will be based on the following priority:

    a) Life-threatening circumstances - A problem is directly linked to life threatening circumstances; such requests will receive first priority.

    b) Protection of property - A threat exists for large-scale damage to property.

8) Operational responses to the above situations will be based upon the following:

    a) Availability of Resources - ESF-7 (Logistics Section) must assess the availability of resources, consider anticipated problems, and identify the most effective method of meeting the request.

    b) Location of Resources - ESF-7 (Logistics Section) staff will identify the closest available resources.

    c) Arrival Time - ESF-7 (Logistics Section) staff will estimate the time of arrival of resources.

H. Resource Management:

1) A resource management program will be maintained that follows Florida Statue Chapter 274, Florida Statutes. This law regulates the acquisition, supervision, accountability, control, transfer, and disposal of all tangible personal property owned by the governing board, commission, or authority of a county or a taxing district of the State, and by the Office of the Sheriff. Florida Statute 274.02 specifies that the Marion County Clerk of the Court, or his/her designee, shall establish by rule the requirements for the recording of property and for the periodic review of property for inventory purposes.

I. Protective Actions

1) Evacuations

    a) Most evacuations will be local in scope and an emergency response incident commander will initiate actions. In such cases, the actions will be coordinated and administered by emergency response officials using local resources in accordance with operational procedures. During any county administered

evacuation that does not require activation of the EOC, Emergency Management will provide assistance under the various County agencies' normal statutory authority through coordination. In the event of a multi-jurisdictional operation, the County BOCC Chairperson may issue a declaration of a local state of emergency and evacuation order in support of a municipality. This decision will include consultation with the Emergency Management Director, Sheriff, and representatives of the jurisdictions involved.

b) All County assistance and support of such actions will be coordinated from the EOC under the direction of the Emergency Management Director. Decisions on issues, such as deploying and pre-deploying personnel; determining evacuation routes; directing people caught on evacuation routes to safe shelter; ensuring the sufficiency of fuel; and addressing any matters relative to the ordered protective actions will be made by the appropriate functional groups in the EOC.

c) Evacuation route maps are in the EOC and available for use in an emergency and will be released to the media by ESF-14 and the PIO upon activation. Local action for evacuation and reentry will be coordinated with ESF-1, ESF-3 and ESF-16. Regional Evacuation will be coordinated utilizing the existing Regional Hurricane Evacuation Procedure.

2) Sheltering

a) The opening of general population shelters is a responsibility of ESF-6 and coordinated in the EOC with other ESF's that will be needed to support shelter operations. The opening of special needs shelters is the responsibility of ESF-8 in coordination with ESF-6.

b) Marion County Division of Emergency Management will notify the Marion County Public Schools Emergency Management Coordinator of the need for school shelters. The Superintendent or designee will meet with the Emergency Management Director or designee to discuss the need for school shelters, the impact of closure on the school year, and possible reopening dates. Decisions to close schools will be coordinated between the Emergency Management Director and the Marion County Public Schools Superintendent. Each school that is designated as a possible shelter has shelter teams. These teams consist of that school's administrative staff.

c) If Marion County becomes a host county for sheltering, various non-profit agencies will lead this effort at the direction of Emergency Management. Local community centers, churches, and government facilities can be utilized as host shelters.

d) In Place Sheltering – when a no notice event such a hazardous materials spill or release occurs, it may not be practical to remove residents from their homes. The decision to evacuate must be weighed against the exposure the residents and emergency workers may experience during the evacuation. In-place sheltering means that residents will be advised to remain in their homes with the windows closed and all open-air circulation systems turned off.

e) Refuge of Last Resort – Marion County does not identify structures to be used as refuge of last resort nor does it condone or staff refuge of last resort. Residents are expected to evacuate or relocate as necessary. However once sustained winds reach 45 mph, all residents will be urged to stay off roads and seek shelter in the

nearest substantial building in a room without windows.

J. Relief Operations

a) Once the emergency has passed, coordination of relief operations will begin, including search and rescue operations, mass casualty activities, provision of emergency supplies, preliminary damage assessment, emergency debris removal, and emergency restoration of utilities. The EOC will continue to direct management and coordination of all emergency response functions. Emergency relief agencies as well as all levels of government and the responding disaster relief organizations will be represented through various emergency support functions in the Emergency Operations Center.

b) The primary initial local coordinating agency for requesting resources and relief from State and Federal sources and allocating such supplies within the County will be the Emergency Operations Center. State and Federal Emergency Response Teams will be established and sent as soon as possible after the emergency. Ideally, these Emergency Response Teams will be in Marion County at or near the Emergency Operations Center and will carry out all State coordination and assistance functions until the Federal Disaster Field Office (DFO) is established.

c) The municipalities will make requests for immediate relief supplies and resources to the EOC. The EOC will consolidate all city requests into a county request for immediate relief resources.

K. Activation of the National Response Framework

When it becomes apparent that the anticipated magnitude and extent of damages will be beyond the capabilities of the County and State, and that federal resources will be necessary to support efforts, the Governor will contact the Director of the Federal Emergency Management Agency's (FEMA) Regional Office in Atlanta and request activation of the National Response Framework. Activation of this plan authorizes the mobilization of federal resources necessary to augment State and local emergency efforts.

1) FEMA's Advanced Emergency Response Team

a) An advance element of the Emergency Response Team (ERT/A) is the initial group to respond in the field and serves as the nucleus for the full Emergency Response Team (ERT). The ERT/A is headed by a team leader from FEMA and is composed of FEMA program and support staff and representatives from selected federal agencies.

b) A part of the ERT/A will deploy to the EOC to work directly with the County to obtain information on the impacts of the emergency and to begin to identify specific requirements for federal assistance. Other members of the ERT/A will deploy directly to the most affected areas to identify an appropriate location for the Disaster Field Office (DFO); establish communications; and set up operations in the field.

2) FEMA's Emergency Response Team

The Federal Coordinating Officer (FCO) will head the full Emergency Response Team (ERT). The ERT is composed of the FCO, FEMA program and support staff, and representatives from

each of the 12 federal ESF's. The responsibilities of the ERT include:

a) Coordinating overall federal response and emergency response activities to the State and County.

b) Working with the County and State to determine and to coordinate those requirements with the ESF's.

c) Tasking the ESF's or any other federal agency to perform missions in support of the State and County.

d) Upon their arrival, the team leader and ESF's will receive an operational briefing from the Emergency Management Director or designee and be assigned space from which to conduct their activities. Once this is completed, federal ESF staff will establish contact with their counterparts on the County and State ESF's to coordinate the provision of federal assistance to meet resource needs, which exceed the capability of the State and affected local governments.

IV. DIRECTION AND CONTROL

A. Governor

Under the provisions of Florida Statute 252.36, the Governor is responsible for meeting the dangers presented to the state and its people by emergencies. In the event of an emergency beyond the control or capability of local governments, the Governor may assume direct operational control overall, or any part of the emergency management functions within the state. Pursuant to the authority vested in the Governor under Florida Statute 252.36, the Governor may take any action authorized by that statute, including:

1) Declare a State of Emergency to exist through the issuance of an Executive Order or Proclamation.

2) Activate the response, recovery and mitigation components of existing State and local emergency plans.

3) Serve as Commander in Chief of the Florida National Guard and of all other forces available for emergency duty.

4) Authorize the deployment and use of any forces, supplies, materials, equipment, and facilities necessary to implement emergency plans.

5) Suspend the provisions of any regulatory statute prescribing the procedures for conduct of state business or the order or rules of any state agency, if strict compliance with any such statute, order, or rule would in any way prevent, hinder, or delay necessary emergency actions in coping with the emergency.

6) Utilize all available resources of the state and local governments, as reasonably necessary to cope with the emergency.

7) Transfer the direction, personnel, and functions of state departments, agencies, or units to perform or facilitate emergency services.

8) Commandeer or utilize any private property necessary to cope with the emergency.

9) Direct and compel the evacuation of all or part of the population from any threatened or stricken area.

10) Prescribe routes, modes of transportation, and destinations for evacuees.

11) Control ingress and egress to and from an emergency area, the movement of persons within the area, and occupancy of premises therein.

12) Suspend or limit the sale, dispensing, or transportation of alcoholic beverages, firearms, explosives, or combustibles.

13) Make provisions for the availability of temporary emergency housing.

B. Governor's Authorized Representative (GAR)

Section 252.36, Florida Statutes, authorizes the Governor to delegate or otherwise assign his command authority and emergency powers as deemed prudent. The Governor has appointed the State Coordinating Officer (State Director of Emergency Management) as his authorized representative to act on his behalf in carrying out the provisions of Florida Statutes Chapter 252.

C. Board of County Commissioners

Under the provisions of Florida Statute 252.38, the Board of County Commissioners is responsible for safeguarding the life and property of the citizens of Marion County, and to provide for the effective and orderly governmental control and coordination of emergency operations. To effectively carry out these emergency responsibilities the Board has delegated this authority to the Marion County Sheriff. On June 21, 1988, the Marion County Board of County Commissioners and the Marion County Sheriff executed an Inter-local Agreement delegating the authority of emergency management operations to the Sheriff, consistent with federal, state, and local law, including but not limited to Florida Statutes Chapter 252, the Florida Administrative Code, applicable County Ordinances.

D. Emergency Management Director

Florida Statute 252.38 directs each county to establish an Emergency Management Office and appoint a Director to carry out the provisions of Florida Statutes 252.31 - 252.90, in accordance with the interlocal agreement by and between the Marion County Board of County Commissioners and Marion County Sheriff. The Marion County Sheriff's Emergency Management Director is the designated Emergency Manager for the County. In this capacity, the Director is directly and solely responsible for:

1) Organization, administration, and operation of Emergency Management.

2) Serves in the capacity of advisor to the Board of County Commissioners during emergency or disaster operations.

3) Coordinator of activities services and programs to emergency planning and emergency response throughout Marion County.

4) Maintaining liaison with State, Federal, and other local Emergency Management Agencies.

5) Development and maintenance of operational planning for emergency responses.

6) Instituting training programs and public information programs.

7) Ascertaining the requirements of the County to implement emergency response operations.

8) Taking all preparatory steps necessary, including the partial or full emergency mobilization of agencies of county and municipal governments in advance.

9) Cooperating with the Governor's Authorized Representative, the State Division of

Emergency Management, and all other Federal and relief agencies in matters pertaining to Emergency Management.

10) Taking measures to carry into effect any request from municipalities, agencies, the Florida Division of Emergency Management, or Federal agencies for any appropriate Emergency Management activity.

11) Carry out any implemented actions deemed necessary by the Sheriff or Board of County Commissioners.

E. Additional Direction and Control Policies

1) City/Town Mayors/Managers of incorporated jurisdictions have the responsibility and authority to direct and control emergency/disaster operations in their jurisdictions.

2) Legally constituted municipalities, pursuant to Florida Statute 252.38, may establish emergency management programs and develop emergency management plans in conformance with Federal, State and County plans. The municipalities' command and control operations will be supported by the County Emergency Operations Center.

3) A Policy Group for the Marion County Emergency Operations Center will be requested to report to the Emergency Operations Center to convene on a threat or already occurring disaster/situation. The Policy Group will provide overall direction for emergency operations. The Emergency Management Director or designee in conjunction with the Policy Group will determine when to request the Board of County Commission to issue the Local State of Emergency, evacuation orders, and similar orders or directives. The Emergency Management Director, in consultation with the Sheriff, will determine if and when a curfew should be enacted. The Policy Group is designed to provide policy and operational guidance.

4) The public officials in other incorporated cities of Marion County are responsible to provide policy guidance in the administration of emergency management programs in their respective jurisdictions.

5) The Emergency Management Director will serve as senior liaison officer for Marion County when coordinating with the Florida Division of Emergency Management, Florida Military forces, and United States Military forces. When the provisions of this plan are in effect, centralized direction and control will be coordinated through the Marion County Emergency Operations Center.

6) The Emergency Management Director, when required, to ensure quick response to an actual or impending emergency/disaster, will activate appropriate portions of this plan.

7) Pursuant to the interlocal agreement, the Sheriff of Marion County is responsible for the administration of Emergency Management to provide for the health, safety, and welfare of the citizens of Marion County. Within this structure, the Marion County Sheriff's Division of Emergency Management is responsible for all aspects of emergency management including preparedness, response, recovery, and mitigation efforts.

F. Marion County Response Team Organization

1) To facilitate the use of the ESF Concept, the EOC organizational structure has been designed for Marion County using the Incident Management System (IMS) as a guide. The Marion County Division of Emergency Management Director or designee will serve as the Incident Commander for the County EOC.

2) Each section within the IMS contains functional responsibilities that can be matched with corresponding Emergency Support Functions in the State CEMP. In the IMS used by Marion County, depending on the scope of the disaster, one agency may be responsible for several tasks, each represented by a different ESF in the State CEMP.

G. Marion County NIMS Integration

1) In order to facilitate the integration to the National Response Framework (NRF) and National Incident Management System (NIMS), Marion County incorporates the NIMS structure into all response and incident plans prior to the deadline set by the federal government for compliance.

2) NIMS compliance is mandated for federal, state, and local jurisdictions by the following directives: Homeland Security Act of 2002; HSPD-5 Management of Domestic Incidents; HSPD-8 National Preparedness; and the National Response Framework or NRF.

V. TRAINING AND EXERCISES

A. General

This section will outline a training program that will ensure that emergency responders and the public fully understand the overall concept of Emergency Management and their responsibilities before, during and after an emergency/disaster. The Emergency Management Director and emergency management staff are responsible for these activities.

B. Training

1) General

Marion County Division of Emergency Management has developed an Integrated Preparedness Plan (IPP) that will guide Marion County to improve the capability to mitigate, prepare for, respond effectively to, and recover from an emergency or disaster. A Multi-Year Training and Exercise Plan is maintained for the emergency management program.

a) Mitigation/Preparedness Training

- Department/agency heads will designate Emergency Coordinators within their organization.
- Department/agency heads and Emergency Coordinators will participate in Emergency Management training to better prepare their organizations for responding to emergencies/disasters and establish mitigation methods.
- Department/agencies will identify needed Emergency Management training and request it from Marion County Division of Emergency Management.

b) Response Training

- Group training is encouraged for the Marion County Emergency Operations Center staff, Executive Policy Group, individuals, information officers, all government division/department heads and their Emergency Coordinators, damage assessment teams, human needs assessment teams, school board personnel, medical/health, institutional personnel, volunteers, communications/dispatchers, etc.

- Community awareness programs are provided to train citizens as to what actions are expected of them before, during and after an emergency/disaster.
- Preparing citizens for protective action and self-help practices immediately following a disaster is part of the Emergency Management training program.
- The Emergency Management training program encourages members of all groups to take advantage of available training.

c) Recovery Training

- Recovery exercises complete the process of exercising the Marion County Comprehensive Emergency Management Plan. Recovery exercises are designed to fit the format from tabletop to full-scale exercises.
- Individual and departmental evaluations of exercise performance are used to determine internal training requirements.

C. Exercises

"Exercising" is the primary way to activate, test, and evaluate the components of the Marion County Comprehensive Emergency Management Plan and to determine if the plan will work in an actual emergency/disaster situation. All exercises will follow the Homeland Security Exercise & Evaluation Program (HSEEP) including After Action Reports.

1) Four principal reasons for exercises:
   a) To detect deficiencies in a plan.
   b) To detect deficiencies in the overall system.
   c) To identify potential personnel and staff problems of divisions/agencies.
   d) To detect problems relative to functions and operations of equipment.
2) Progressive Exercising
   a) Tabletop exercises are designed to detect potential problems with coordination, to determine the appropriateness of assigned responsibilities and to achieve a certain level of familiarity of a plan.
   b) Functional exercises are more complex and are designed to test individual functions, such as direction and control, multiple functions, decision making, warning, public information, or recovery.
   c) Full-scale exercises are the highest level of exercise. It is culmination of the exercise program. It is designed to evaluate the operational capability of the emergency management system over a substantial period. It tests major components and sub-components of the plan.
3) Exercise Requirements for Every Jurisdiction
   a) Each of the municipalities in Marion County is responsible by law for the safety and welfare of its citizens. Training should therefore involve the utilization of all municipal as well as County capabilities in a coordinated effort in accordance with individual plans and Standard Operating Guidelines (SOG's)
   b) Marion County Division of Emergency Management will conduct, at a minimum, an annual tabletop exercise, which will incorporate the participation of all

emergency operations center representatives and municipalities, utilizing the CEMP as a guide.

c) An evaluation of each exercise will be completed for the purpose of addressing operational deficiencies and revising plans and procedures.

D. Responsibilities

1) Marion County Division of Emergency Management is responsible for ensuring the Marion County Emergency Operations Center staff and operational responders fully understand their procedures and responsibilities, as outlined in the Marion County Comprehensive Emergency Management Plan.

2) Training and scheduling of training for Emergency Management purposes will be coordinated through Marion County Division of Emergency Management.

3) Department/agency heads should budget for, and participate in, training activities related to emergency preparedness programs.

4) Municipalities: The Mayor (or designee) is responsible for the training of personnel under the jurisdiction of that office. Appropriate personnel should attend training courses offered by Federal, State, and local organizations whenever possible.

5) Marion County Division of Emergency Management will:

   a) Coordinate all disaster-related training within the County to ensure that all the overall objectives of the CEMP are being met. As an example:

      - EOC Operations.
      - Recovery/damage assessment.
      - Finance administration/reimbursement.

6) Emergency Management will assist or provide guidance to County departments and agencies, municipalities, and non-governmental disaster agencies as required, in attaining coordinated training and education objectives.

VI. PREPAREDNESS ACTIVITIES

A. General Issues

1) Protection of Records

   All County departments, constitutional authorities and other governmental agencies must ensure protection of their records during disaster situations. Agencies in potential hurricane flood zones are particularly vulnerable to record damage from water. All agencies have the potential for record damage from fire and possible resulting water damage. Specific measures for protecting records must be reflected in agency disaster plans. Those agencies with vital records (e.g., Clerk of Circuit Court, Property Appraiser, Florida Department of Health – Marion County, School Board, etc.) must take special care to ensure the safety of these records. Offsite storage of duplicate vital records, whenever feasible, is strongly recommended. All agencies should also have plans which address the recovery of damaged records.

2) Special Needs Registration

The Marion County Special Needs Program is for residents with specific health and medical conditions and those requiring transportation assistance. The program helps to aid in sheltering, evacuation, and transportation for registered residents during times of disasters with the resources available within Marion County. The registry is a confidential listing of those needing assistance and is updated on an annual basis through contact with the registered residents. Residents with medical needs such as nebulizers, oxygen, feeding tubes, or Alzheimer's disease are examples of medical criteria that are eligible for the registry. Marion County Division of Emergency Management maintains the registry.

Residents that wish to register for the Marion County Special Needs Program, are instructed to fill out the application and return to the address on the application. Residents may also visit https://snr.flhealthresponse.com/ and sign up online. Emergency Management strives to offer sheltering space for residents; however, it is strongly encouraged to seek shelter with friends and family first.

B. Public Awareness and Education

1) Continuing Education, Pre-disaster Prevention and Preparedness, and Post-disaster Recovery and Mitigation: County officials must strive to keep residents informed about disaster preparedness, emergency operations, and hazard mitigation. Public information in the disaster preparedness/emergency management area is divided into three phases: continuing education, pre-disaster preparation, and post-disaster recovery and mitigation. Continuing education is intended to increase awareness of disaster preparedness information, educate on ways to protect life and property, and inform the public on the availability of further assistance and information. Pre-disaster preparation informs the public of the imminent danger and provides details about evacuation procedures, sheltering, actions to take, and other critical information such as the availability of sandbags. During the post-disaster period, the public is informed about such things as disaster assistance, health precautions, and long-term sheltering.

2) Rumor Control in Public Information – It is important, especially immediately before and after a disaster, to keep the public informed on all relevant matters to include government decisions, recommendations, and instructions. Reliable official information is imperative to ensure against rumors or inconsistent messages that can cause panic, fear, and confusion. Therefore, all reports disseminated to the public about a disaster must be issued through a single Public Information Office. Similarly, all media inquiries should be forwarded to the same Public Information Office. During a disaster or an activation, news media should be permitted access to the media room/center of the EOC and, following meetings, be briefed on the outcome of the meeting to the extent necessary to promote emergency preparedness. A continuous flow of official information is also necessary to provide full knowledge of disaster conditions and relief services. The primary citizens information line is located within the EOC. A back-up citizens information line is located at the alternate EOC location.

3) Disaster Response and Recovery Information – The Director of Emergency Management has the overall responsibility for providing disaster prevention, preparedness, response, and recovery and mitigation information to the public. Both the Marion County Sheriff's and Marion County's Public Information Offices will provide support to the Emergency Management Director in these tasks. The Public Information Offices will ensure that public service announcements are prepared to keep the public informed on disaster prevention, preparedness, response, recovery, and mitigation.

4) Comprehensive Public Information Program – The County conducts a comprehensive public information program throughout the year. The public information program includes news

features on television and radio and speaking engagements to a vast range of audiences, and informational messages promoted across a wide range of communications platforms, including a variety of County publications and social media. All requests for emergency preparedness talks are accepted to include civic groups, church groups, mobile home parks, business and industry, public schools and universities, hospitals, nursing homes, and similar facilities and entities.

5) Broadcast Media – The broadcast media provides an excellent resource for the county's information program. Emergency Management representatives' interface with radio and television reporters, news personnel, and weather personnel on a regular basis. Local broadcast stations regularly provide public service announcements provided by the county or the state. Marion County has two Emergency Alert System (EAS) stations (a primary and an alternate). Under the EAS system, radio, and television stations, as well as cable companies, in the County will provide emergency announcements when the EAS system is activated.

6) Brochures – Marion County Division of Emergency Management produces and distributes specialized brochures and pamphlets to promote awareness of its functions, including hurricane awareness, special needs registration, and volunteer programs.

7) Be Alert Marion Messaging (BAMM) – The Be Alert Marion Messaging, or BAMM, is a method of community warnings and notifications in times of disaster or emergency situations. Marion County works with public and private partners to advise residents and guests of possible threats. The program is used to advise individuals of evacuations or other hazards using electronic message billboards. BAMM is a voluntary program where local businesses, non-profits, and faith-based agencies would support the program by posting emergency messages to digital signs and billboards.

8) Methods of Information Distribution – There are numerous other methods employed to provide disaster preparedness information to the public. Emergency Management works with phone companies and other distributors of directories to place pertinent disaster preparedness data in their publications. Emergency Management also coordinates with Ocala Electric Utilities and other public utilities to ensure appropriate disaster planning information is included with utility bills.

9) Reaching Citizens with Special Needs – Special efforts are dedicated to reaching those citizens with special needs. EM works with County and state social services agencies and home health care agencies to ensure disaster preparedness information is disseminated to the handicapped and elderly. They also provide information to the various public and private human services organizations for their clients. Those citizens who need assistance during an evacuation are encouraged in disaster pamphlets and in personal contacts to register with the Special Needs Program.

10) Emergency Management Public Awareness & Education Program – Emergency Management is responsible for developing and managing the emergency management public awareness and education program. Upon activation of the EOC, ESF #14 will direct the public information element of the EOC. ESF #14 will serve as the County's representative to all media (TV, radio, and newspaper) and as the focal point for all public information. ESF #14 will also provide pertinent information to the appropriate personnel for inclusion on the County's website. In addition, ESF #14 provides emergency information to subscribers to the County's Citizens Information Line.

11) EOC Media Room – The EOC has a room dedicated as the media center for emergency operations. Most interviews of the County emergency staff will be conducted in this area.

12) Evacuation routes maps can be found at https://www.floridadisaster.org/planprepare/disaster-preparedness-maps/. The current evacuation route map for Marion County can be found on page 48 of this plan.

VII. FINANCIAL MANAGEMENT

A. General

It is the intent of this policy to provide guidance for basic financial management to all departments and agencies responding under the provisions of the plan to ensure those funds are provided expeditiously, and to ensure financial operations are conducted in accordance with appropriate Federal, State and Marion County policies, regulations, and standards.

B. Assumptions

1) Due to the nature of most emergency situations, financial operations will often be carried out with compressed time frames and other pressures, necessitating the use of non-routine procedures. This, in no way, lessens the requirements of sound financial management and accountability.

2) A Presidential disaster or emergency declaration will permit funding from the Federal Disaster Relief Fund under the provisions of the Stafford Act in addition to the financial resources initiated at the local and state levels.

C. Expenditure of Funds

Timely financial support of any extensive response activity could be crucial in saving lives and property. While innovative means of procurement may be called for during times of emergencies, it is still mandatory that good accounting principles and practices be employed to safeguard the use of public funds from the potential of fraud, waste, and abuse.

1) In concert with federal guidelines, officials of the primary and support agencies will give approval for expenditure of funds for response operations. Each agency is responsible for establishing effective administrative controls of funds and segregation of duties for proper internal controls, and to ensure that actions taken, and costs incurred are consistent with the missions identified in this plan.

2) Extreme care and attention to detail must be taken throughout the emergency response period to maintain logs, formal records, and file copies of all expenditures (including personnel time sheets). This will provide clear and reasonable accountability and justification for future reimbursement requests. Reimbursement is NOT an automatic "given," so, as much deliberative prudence as time and circumstances allow should be used.

3) The Marion County Clerk of Court will be responsible for financial management regarding State/Federal assistance requested by the Marion County Board of County Commissioners. Any financial management regarding State/Federal assistance requested by the Marion County Sheriff will be handled by the Marion County Sheriff's Budget and Finance Division. The statutory duties and obligations of the Clerk of Court regarding financial accounting shall be respected and adhered to all times as required by law. The Marion County Board of County Commissioners will execute any funding agreements with other legal entities. The Sheriff or his or her designee will execute funding agreements on behalf of the Office of the Sheriff.

4) All records relating to the allocation and disbursement of funds pertaining to activities and elements covered in this plan must be maintained, as applicable, in compliance with:

    a) The Code of Federal Regulations - Title 44 Emergency Management and Assistance (CFR 44); relevant Circulars and Federal Statutes, in a manner consistent with provisions of the Federal Stafford Act.

    b) Florida Statutes Chapter 252, relating specifically to emergency management powers and responsibilities of local government.

    c) Marion County Clerk of Court – Finance.

    d) Marion County Sheriff's Budget and Finance Division.

    e) The Handbook for Disaster Assistance, Department of Community Affairs, and Division of Emergency Management has been prepared to provide basic information and instructions. This handbook can be obtained from Marion County Division of Emergency Management.

5) The Clerk of the Court, along with the County Finance Director, is responsible for implementing, maintaining, and tracking all financial projects and matters pertaining to the Board of County Commissioners during and after a disaster. The Marion County Sheriff's Budget and Finance Division is responsible implementing, maintaining, and tracking all financial projects and matters pertaining to the Marion County Sheriff's Office. The preservation of vital records for the continuation of government will be the responsibility of Department Heads and Constitutional Officers. Each municipality and school district are responsible for implementing, maintaining, and tracking all financial projects and matters pertaining to their jurisdiction.

6) Funding sources for day-to-day emergency management activities and operations are available and include the following:

    a) Emergency Management Preparedness and Assistance (EMPA).

    b) Emergency Management Performance Grant (EMPG).

7) Pre-Disaster Funding Sources are available through the following:

    a) Pre-Disaster Mitigation Program Flood Mitigation Assistance.

8) Post Disaster Funding Sources are available through the following:

    a) FEMA Public Assistance Program Hazard Mitigation Grant Program.

9) Mutual Aid Requests

    Marion County is a signatory to the Statewide Mutual Aid Agreement. The Emergency Management Director has responsibility for overseeing the mutual aid process in a disaster, along with assistance from the Region 3 State Coordinator. Mutual Aid requests for Marion County are coordinated through Marion County Division of Emergency Management or through automatic mutual aid agreements between the EMS, Fire, and Law Enforcement Agencies during an emergency that does not require State Assistance. Conversely, any request for disaster assistance from outside Marion County will be coordinated through Marion County Division of Emergency Management as referenced in the Statewide Mutual Aid Agreement. The WebEOC System is used for requests during a disaster situation.

10) Reimbursement processes and submittal will be conducted through www.floridapa.org.

VIII. REFERENCE AND AUTHORITIES

A. General

Ultimate responsibility for the protection of life and property and the preservation of public peace, health and safety lies with local governments. The authority for local governments to respond to situations and take actions necessary to safeguard the life and property of its citizens is set forth in the following laws and regulations:

B. Federal

1) Robert T. Stafford Disaster Relief and Emergency Assistance Act.
2) Public Law 106-390.
3) Post-Katrina Emergency Management Reform Act.
4) Homeland Security Act of 2002.
5) Homeland Security Presidential Directive #5.
6) Homeland Security Presidential Directive #8.
7) National Response Framework.
8) National Incident Management System.

C. State

1) Chapter 252 of the Florida Statutes (State Emergency Management Act, as amended). Florida Statute 252.38 directs each county to establish and maintain an emergency management plan and program that is coordinated and consistent with the State Comprehensive Emergency Management Plan and program. The statute further specifies county and municipal emergency management powers and responsibilities.
2) Governor's Executive Order 80-29, which delegates specific emergency responsibilities and directs certain emergency management actions to county governments.
3) The State of Florida Comprehensive Emergency Management Plan.
4) Rules 9G-6, 9G-7, 9G-11, 9G-14, 9G-19 and 9G-20, Florida Administrative Code.

D. County

1) Marion County Interlocal Agreement dated June 21, 1988, with the Board of County Commissioners and Office of the Sheriff.
2) Marion County Integrated Preparedness Plan (IPP).
3) Marion County Local Mitigation Strategy.
4) Marion County Emergency Operation Center SOP.

E. Marion County Responsibilities & Authorities

1) Chapter 252.38, Florida Statutes delineates the emergency management responsibilities of political subdivisions in safeguarding the life and property of citizens and other persons within the political subdivision. Key points within the statutes are listed below.

a) Marion County shall perform emergency management functions within the territorial limits of Marion County and conduct those activities pursuant to F.S. 252.31 – 252.91, and in accordance with state and county emergency management plans and mutual aid agreements. Marion County has the authority to establish, as necessary, a primary and one or more secondary emergency operating centers (EOCs) to provide continuity of government and direction and control of emergency operations.

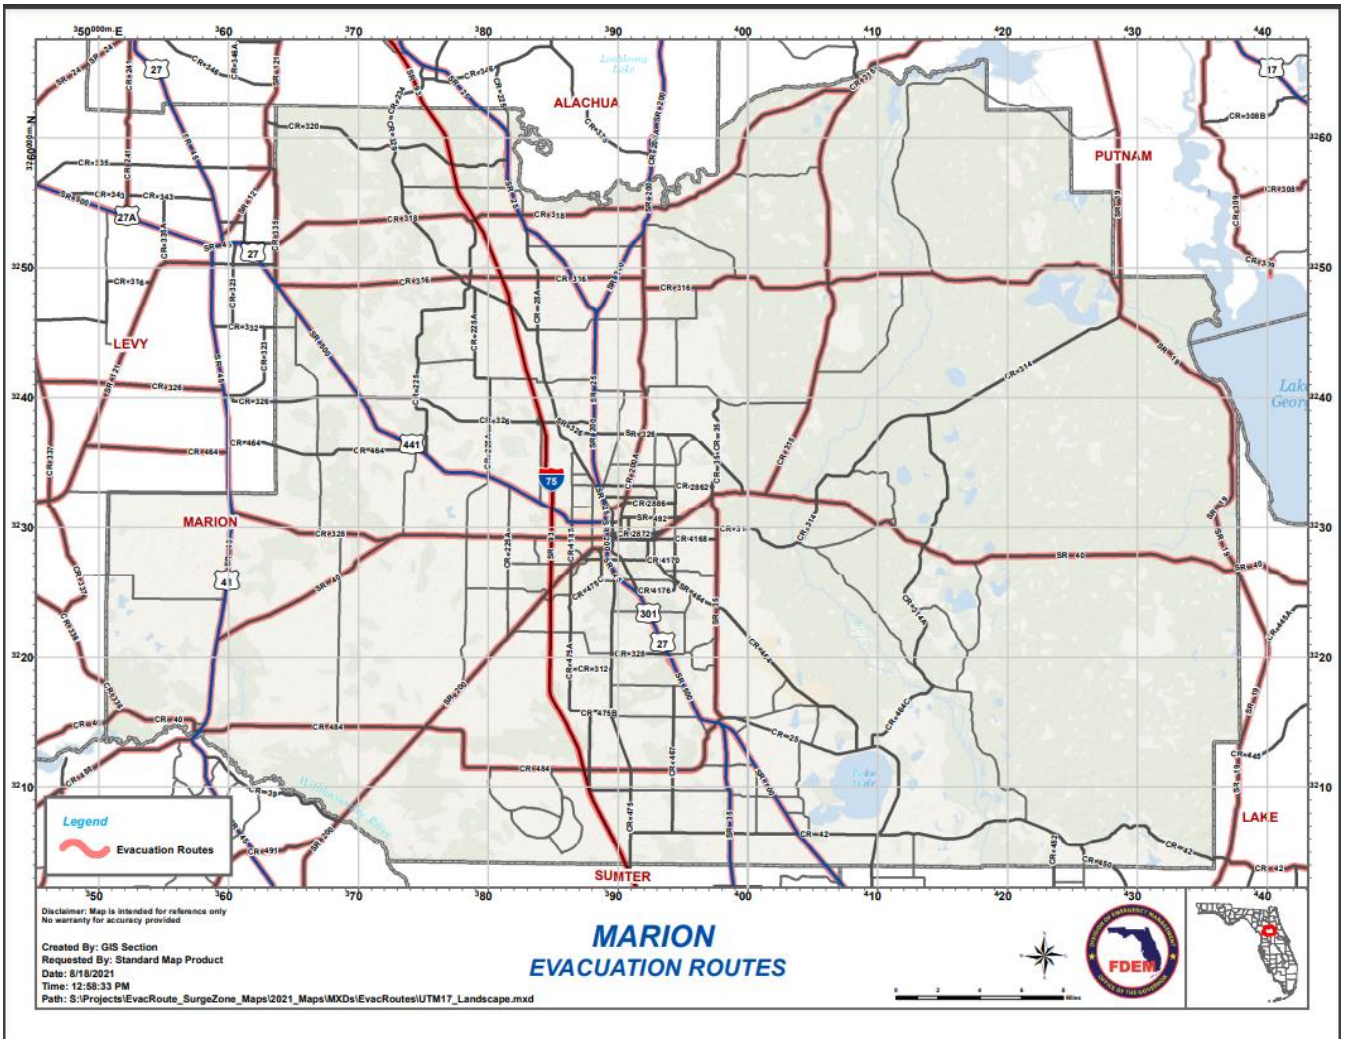
b) Marion County has the power to appropriate and expend funds; make contracts; obtain and distribute equipment, materials, and supplies for emergency management purpose; provide for the health and safety of persons and property, including assistance to victims of any emergency; and direct and coordinate the development of emergency management plans and programs in accordance with the policies and plans set forth by federal and state emergency management agencies.

c) Marion County has the authority to request state assistance or invoke emergency related mutual aid assistance by declaring a local state of emergency. The duration of the local state of emergency shall be limited to 7 days, and it may be extended as necessary in 7-day increments for a total duration of not more than 42 days. Marion County participates in current Statewide Mutual Aid Agreements. The County also has the power and authority to waive the procedures and formalities otherwise required of Marion County by law, pertaining to:

- Performance of public work and taking whatever prudent action is necessary to ensure the health, safety, and welfare of the community.
- Entering contracts and incurring obligations.
- Employment of permanent and temporary workers.
- Utilization of volunteers.
- Rental of equipment.
- Acquisition and distribution, with or without compensation, of supplies, materials, and facilities.
- Appropriation and expenditure of public funds.

2) Marion County recognizes the right of municipalities within the County to establish their own emergency management plans and programs. Those municipalities establishing emergency management programs will coordinate their activities and programs with Marion County Division of Emergency Management in accordance with 252.38(2) Florida Statues.

3) Marion County Division of Emergency Management serves the entire County. It is the responsibility of Marion County to establish and maintain an emergency management office, and to develop a comprehensive emergency management plan and program that are consistent with the state comprehensive emergency management plan and program.



4) Marion County Division of Emergency Management shall review emergency management plans required of external agencies and institutions.

5) Marion County School Board shall, during a declared local state of emergency and upon the request of the Emergency Management Director (or designee), provide facilities and personnel

to staff those facilities. Marion County School Board shall, when providing transportation assistance, coordinate the use of its vehicles and personnel with the Sheriff's Emergency Management Division.

F. State of Florida Rapid Impact Assessment Team (RIAT) 9
G. Survivor Services 14

I. INTRODUCTION

Following a disaster, many critical post-disaster concerns will have to be addressed. Resolution of these issues will require a coordinated local, state and federal effort. The recovery appendix establishes a detailed framework of federal and state government support for local government efforts to restore essential public and social services following a disaster. Much of this support involves the coordination and administration of federal disaster assistance. This will outline the process for assessing the need for and administration of local, state and federal disaster assistance.

Disaster recovery operations highlight the importance of the recovery period. Public Officials must be prepared to lead the community to recovery (victims and their families, emergency workers and volunteers), restore utilities, repair roads, and plan for future development, without losing sight of the less visible damage caused by emergencies and disasters.

II. GENERAL

In the post impact phase of a disaster the Emergency Operations Center will be established to manage, coordinate, control and direct the response and recovery efforts. The EOC will serve as the coordination point for establishing the Rapid Impact Assessment Teams (RIAT), staging areas and other sites for coordinated assistance. The EOC will be manned by representatives from the applicable ESF and other agencies involved in the recovery process. The EOC will be organized along the same lines of responsibility as the state and federal response and recovery systems.

Direction, control and coordination during the immediate recovery phase focuses on the following types of activities:

- Establishment of an inter-county recovery network designed to provide the support for movement of response actions, relief supplies and services into the county.
- Acquisition, allocation and administration of the distribution of emergency supplies including food, water, ice and medications.
- Managing post-event sheltering operations.
- Initiating preliminary damage assessment (airborne and ground), debris removal and the restoration of utilities.

The primary local coordinating agency for requesting resources and relief supplies and support within the county is Emergency Management. This function will be performed from the EOC under the direction of the Emergency Management Director. If necessary, the EOC may be moved to an alternate EOC facility identified during the impact assessment to provide access to functional equipment or meet space requirements. This transfer to an alternate EOC will only take place when there is sufficient evidence that sustainment of operation is achievable and immediate danger has passed allowing recovery efforts to be initiated safely.

1. Marion County Emergency Management has primary responsibility for coordinating recovery efforts. The Emergency Management Director will appoint

the local liaison to the Joint Field Office (JFO) and state recovery staff, upon activation of the JFO.

2. The Emergency Management Director will request the State to participate in establishing a DRC and will appoint a Liaison Officer to the State Recovery Staff. Individual ESF's in the EOC will coordinate with their state counterparts during response and recovery operations. To assure the flow of accurate and timely recovery information, and to coordinate relief and recovery efforts, state and federal agencies will coordinate with the Liaison Officer in the EOC.

   a. The Emergency Management Director will appoint the Liaison Officer to coordinate recovery activities with the municipalities. Individual ESF's in the EOC will coordinate with their municipal counterparts during response and recovery operations. In order to assure the flow of accurate and timely recovery information, and to coordinate relief and recovery efforts, municipalities will be encouraged to have liaisons in the EOC.

   b. All recovery activities are coordinated through the Emergency Management Director and begin during the response phase (as dictated by the disaster) with an evaluation of:

      - Situation reports.
      - Mission assignments logged and tracked.
      - Municipal status update reports received from local governments.
      - EOC briefings.
      - Local conference calls.
      - Impact assessment data, as well as other impact information received from other sources.
      - Damage reports received from citizens.

      These information sources are reviewed and monitored to start the identification of areas that should receive priority for damage assessment and human needs assessment. This gathering of intelligence sets the stage for the operational transition from response to recovery activities (as dictated by the disaster).

   c. The Coordinator for ESF-14 is the Public Information Officer (PIO) and is responsible for providing public information and education programs regarding the recovery effort and available local, state and federal assistance. The PIO will follow procedures established in ESF-14 Public Information for the dissemination of information as well as the EOC SOG's. Should the event escalate and require NIMS and NRP response, the PIO will participate in the Joint Information System (JIS). (See ESF-14)

      Public information programs will use all the resources outlined above in reaching the population in Marion County. Special efforts will be made to reach the hearing/sight impaired; non-English speaking or those not in touch with traditional communications outlets.

d. The Emergency Management Director is responsible for the overall coordination and establishment of a Disaster Recovery Center for the affected area. The Director will serve as the Special Projects Coordinator/County Recovery Center Coordinator to coordinate with state and federal individual assistance officers in the establishment of a Disaster Field Office.

e. The Emergency Management Director is responsible for the following items in support of the State of Florida RIAT Teams:

Pre-designation of helicopter landing zones for RIAT aviation support. Landing zone locations (GPS coordinates) are listed in the Critical Facilities Inventory and have been transmitted to State of Florida Division of Emergency Management.

Pre-designation of staging areas and sites for RIAT operations. Staging area locations (GPS coordinates) have been transmitted to State of Florida Division of Emergency Management.

f. The county utilizes the established process under the Stafford Act as amended by the Disaster Mitigation Act 2002, for obtaining and administering state and federal disaster assistance. When the President issues a disaster declaration that includes Marion County, the County will receive notice from the State directly as well as through the media coverage. The Emergency Management Director will ensure that this information is transmitted to the Policy Group and all ESF's for coordination of financial reimbursement with county agencies while maintaining compliance procedures for financial transactions, accurate accounting, grants management, document tracking and payroll procedures. Each County agency is responsible for the collection and documentation of reimbursement information, identification of public assistance projects, and submission to Clerk for countywide consolidation and submission to FEMA.

The Emergency Management Director will transmit disaster declaration, recovery assistance information and technical assistance resources to the municipalities, special taxing districts and not-for-profit organizations, who perform essential governmental type services, as described in FEMA regulations via fax, conference calls, internet e-mail and web page, media outlets and other communications mechanisms.

Each city/ town is responsible for identifying public assistance projects. The recovery staff for the city will coordinate with the State regarding implementing the appropriate programs authorized by the declaration. For further information regarding the damage assessment process and the public assistance process, review the damage and mitigation sections of the CEMP.

g. During a disaster event the county recovery activities outlined in this section are the same for declared and non-declared disasters with the

exception of available federal and/or state resources. Without a federal disaster declaration, financial assistance for victims is limited and heavy reliance is placed on the Marion Disaster Recovery Network, American Red Cross, Salvation Army, charitable agencies, volunteer donations and insurance coverage. Businesses must depend on insurance coverage or obtain loans/refinancing for recovery. The County and municipal governments must meet infrastructure recovery needs through existing operating funds and insurance or resort to bond issues to fund disaster recovery.

h. The primary departments, agencies and groups that have support roles and will be involved in recovery operations are the following:

- Emergency Management
- Fire Rescue
- Sheriff's Office
- Property Appraiser
- Office of County Engineer (Public Works/Roads)
- School Board
- Building Safety
- Health Department
- Ocala Marion County Community Foundation
- American Red Cross
- Salvation Army
- Volunteers

III. RECOVERY FUNCTION

A. Damage Assessment Function

Damage assessment is the first and one of the most important steps in the recovery process. It is the basis for determining the type and amount of state and/or Federal financial assistance necessary for recovery and mitigation. An initial impact assessment is conducted during the response and immediate recovery phase to support a request for a gubernatorial proclamation and for the state to request a presidential declaration.

Damage assessment has a two-fold mission:

- To identify the immediate needs and resources required to assist disaster victims.
- To substantiate requests for supplemental assistance.

Marion County's capability to conduct its own assessment may be limited due to the extensive damage associated with a catastrophic event.

B. General

Once emergency conditions subside, rapid and thorough assessments must be conducted to assess the overall damage to homes and businesses within the affected areas; to assess the overall damage to critical public facilities and services; and to determine whether those damages are sufficient to warrant supplemental federal disaster assistance.

Recovery response to a disaster will be based upon the assessment of lives impacted, public and private property losses, the reports of actions taken to alleviate the situation and the expenditures committed to that effort. To determine the magnitude of the disaster and the degree of assistance necessary, the recovery team at the EOC must have information concerning property damage and operational costs as soon as practicable after the disaster occurrence. Initial assessments may indicate the necessity for outside assistance, a State of Florda Declaration, including possible requests for a Presidential Disaster Declaration.

In a catastrophic disaster when damage assessment has been waived, information and data on damages must still be compiled for briefings, planning for additional recovery resources and prioritizing recovery efforts.

C. Responsibilities

Emergency Management

- Provides damage assessment training as described in the Basic Plan.
- Collects and consolidates initial damage assessment reports.
- Transmits damage assessment information to the State Watch Office housed with the State Emergency Operations Center in Tallahassee, FL.
- Requests technical assistance if damage assessment is beyond county capabilities.
- Coordinates with state, federal and other damage assessment teams.
- Contacts Damage Assessment Coordinator (Property Appraiser) to report to EOC.

Property Appraisers Office

The Property Appraiser will act as lead in conducting damage assessment of private property and businesses as well as public property and infrastructure.

- Ensures damage assessment teams are properly trained and equipped.
- Contacts Damage Assessment Team members to report to Staging Area for deployment.
- Coordinates damage assessment information received from private property and businesses.
- Assigns damage assessment teams to impact areas.

- Monitors threshold amounts for minor damage, major damage and destroyed properties.
- Provides residents with information regarding recovery assistance, informing residents of available services, location of the Disaster Recovery Center, handing out brochures, etc.
- Obtains property assessment information for team members.
- Assists in determining damage assessment values for private property.

Public Works

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.
- Continue to provide support as required to support the recovery phase.
- Implement the Marion County Debris Management Plan as necessary.

Utilities (Public and Private)

- Prioritize the restoration of electric power, based on the priority restoration list that is maintained by Utility Providers.
- Participate in EOC briefings, Incident Action Plans, Situation Reports and meetings.
- Monitor and direct power restoration resources and response activities.

D. Initial Safety and Damage Assessment

In the immediate aftermath of the disaster, Marion County will conduct a countywide local impact assessment consistent with the Florida Division of Emergency Management established guidelines. The goal of this assessment is to determine the magnitude and severity of damage to structures and infrastructure; and, in the event of a severe rainfall event, determine the level of flooding damage.

All impact assessment team members must report impact assessment results through their designated chain of command to the damage assessment unit in the EOC within 12 hours of disaster impact. The results are mapped on a Geographic Information System map with color-coded categories.

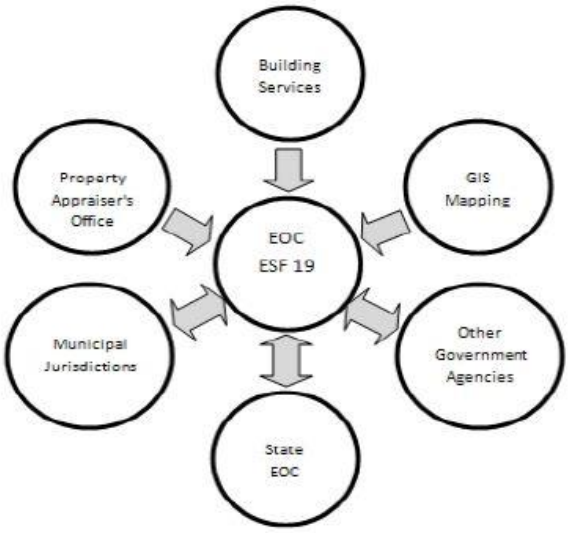
The impact assessment data provides a countywide general overview of the most significantly impacted areas and, therefore establishes a prioritization mechanism for damage assessment team deployment, resource allocation, and disaster assistance.

If outside assistance will be required, the initial damage assessment will be used as the basis for a local declaration of emergency. If requested and then granted, FEMA aid programs are then active to assist.

E. County Damage Assessment and Preliminary Damage Assessment

An impact assessment is needed to quickly assess the life safety needs, magnitude of the disaster and eligibility for state and federal aid. Damage assessment is accomplished in phases. The initial assessment scans the affected area to determine the width and breadth of damage, looking at critical facilities to determine the immediate and life safety needs.

Damage Assessment Unit is the county's single point for receiving damage assessment reports and determining the disaster magnitude. The Marion County Property Appraisers Office provides analysis support for damage assessment. This agency can provide a graphic depiction of damage levels as well as monetary damage assessments.



As information is received, the Property Appraiser uses computer analysis to determine dollar cost damage and mapping. This information can provide complete damage analysis support for the county. The Marion County Damage Assessment Coordinator (Property Appraiser) assigns teams, backed-up with out-of-county mutual aid, to perform a "structure by structure" damage assessment and coordinate with municipalities.

Damage Assessment Unit produces a preliminary damage assessment for the state EOC Situation Report and other government agencies.

The initial damage assessment begins immediately after the incident occurs. This damage assessment determines whether more detailed damage assessments are necessary and identifies those areas where further efforts should be concentrated. The damage assessment data is reported to the Marion County Emergency Operations Center within twelve hours of the emergency occurrence by all County departments, municipalities and eligible private nonprofit agencies.

From the damage assessments, a "quick dollar estimate" of the damages will be derived based on certain presumptions and assumptions predetermined by the recovery team in the Marion EOC. The team will use damage estimates from the property values from the Property Appraisers files and standard rates for labor and equipment.

Damage Assessment Information Flow

In order to confirm that the impact from disasters meets disaster assistance thresholds, a Preliminary Damage Assessment (PDA) is requested by the EMD as soon as possible after damage assessment data is compiled, or if the magnitude of the event overwhelms the ability of the county to conduct its own damage assessment. The PDA will inspect impacted areas in coordination with the County EOC.

If the preliminary damage assessment indicates that the damage is severe and widespread, a declaration of a State of Emergency may be possible without a detailed written damage assessment. In that case state and federal teams may be dispatched to assist in completing the damage assessment.

Information is collected and evaluated, using State Damage Assessment Forms, Situation Reports, Essential Elements of Information (EEI) and other means and is shared with State and Federal officials as needed.

The Damage Assessment Unit is the single point to consolidate and evaluate damage assessment information. This assessment is formatted using State Damage Assessment Forms to facilitate rapid dissemination of information.

F. State of Florida Rapid Impact Assessment Team (RIAT)

Following any major or catastrophic disaster, a rapid assessment of local damage and victim needs is essential in determining the critical resources needed to support disaster victims. To accomplish this, the State will deploy a RIAT Team(s) (RIAT) immediately following a catastrophic emergency or disaster in Marion County that requires immediate damage assessment to provide local officials full understanding as to the extent and impact of the emergency or disaster.

1. RIAT Composition and Support

Objective: To augment and assist Marion County officials with an accurate assessment of damage to local infrastructure (particularly roads and communications) and determine the immediate needs of the victim population in the affected area through coordinated use of the RIAT Team resources.

Team Composition: The RIAT Team is a small group of civilian and military personnel experienced in conducting rapid assessment surveys following a catastrophic emergency or disaster. The RIAT Team will conduct assessments in coordination with officials from Marion County and effected municipalities. If required organizations are unable to assist the RIAT Team in this operation due to the level of disaster damage, the RIAT Team is prepared to conduct assessments independently.

Deployment: Florida Division of Emergency Management will initiate RIAT deployment. The RIAT team leader will coordinate assessment activity with the Marion County Emergency Management Director or designee. Marion County officials required to assist RIAT operations will immediately report to the Emergency Operations Center (EOC) when advised of RIAT arrival in Marion County.

Supporting Plans: All Marion County organizations and local municipalities tasked in this plan will prepare supporting plans or operating procedures applicable to their area of responsibility or support.

2. Key Assumptions

RIAT Team will be available for deployment immediately following a catastrophic emergency or disaster in Marion County. Local road systems or helicopter landing zones will permit timely arrival and operation of RIAT.

3. Logistic Appraisal

The RIAT is organized and equipped to be self-sustaining if necessary. Logistic support from Marion County will be situation dependent. Current designated RIAT landing/staging zones:

Primary: Marion County Sheriff's Office – Operations
692 NW 30th Ave
Ocala, Florida 34475

(29.192166, -82.174702)

Secondary: Marion County Sheriff's Office South – Multi District
3260 SE 80th Street
Ocala, Florida 34480

(29.105344, -82.091162)

4.

Marion County Support Agencies

Emergency Management – Coordinate RIAT activity and support requirements with local support agencies and organizations. Serve as Public Assistance Officer (PAO).

Marion County Property Appraiser – Coordinate overall damage assessment operations; determine eligibility under FEMA guidelines of public and private damage. Provide field officers to assist in facility (homes, businesses and public buildings) damage assessment.

Marion County Facilities Management – Coordinates assessment of damage to county buildings, facilities and recreational sites.

Marion County Public Works – Assists in evaluating the damage to utilities and traffic control systems; roads and flood control facilities; and transportation resources.

American Red Cross – Identification of immediate personal, disaster relief needs for individuals affected by the event. Victim mass care requirements - food, water, clothing, shelter/housing, medical needs, etc.

Marion County School Board - Damage to school buildings and property.

Florida Department of Health in Marion County - Assist recovery efforts in the restoration of the public health, health care and social services networks to promote the resilience, health and well-being of affected individuals and communities.

All support agencies above and municipal agencies involved will be notified of the kickoff meeting as potential applicants.

5. Damage Assessment Operations

Deployed when directed by the State EOC, the RIAT with supporting Ground Support Team (GST) will move to the Marion County EOC or designated landing zone to establish a base of operations. Following arrival of the RIAT, the Emergency Management Director and the RIAT Team Leader will conduct a situation briefing to ensure both RIAT team members and local officials have the same initial assessment information.

State EOC will determine when RIAT assessments are completed and notify the team leader to terminate activity.

Assessment Methods – Damage assessment can be conducted using several different methods depending on the availability of resources and extent of damage to local transportation system and facilities.

Aerial Reconnaissance – conducted when there may be no other way to enter an area; when the damaged area is so large that this method provides the best opportunity to identify specific areas to be surveyed by DAT's; or when the damage is so extensive and catastrophic that a detailed damage assessment may not be needed. MCSO &

Civil Air Patrol provides resources to assist with aerial reconnaissance in Marion County.

Windshield Survey – used to assess a large area in a relatively short period of time. It may be utilized when areas are inaccessible on foot and a general overview of the area is all that may be required. A windshield survey provides the opportunity for team members to exchange views as they assess the area together. This process allows for the team to quickly record the number of homes and businesses destroyed or damaged. The raw figures acquired by this method can be extrapolated to give a good overview of the extent of the disaster.

Walk Through – the most effective, thorough and time-consuming method for damage assessment. This method is most often used when the assessment needs to be very detailed and specific. In a marginal situation, detailed information needs to be gathered in order to assess the extent to which the jurisdiction is eligible for state or federal disaster assistance.

6. Individual and Business Preliminary Damage Assessment

Individual and business preliminary damage assessment is essential to gauge the overall effects of the emergency or disaster and the economic damage. This information is vital in supporting requests for federal disaster assistance. When conducting a preliminary damage assessment of public facilities, information on the extent of damages will be essential in applying for and obtaining federal disaster assistance. Some of the information needed may not be readily available during the actual preliminary assessment and may need to be collected in follow-up damage assessment and project worksheet processes. Damage Assessment Forms are available for Individual, Business and Public Assistance. Preliminary damage impact assessment teams will assess and record damages to the following public facilities and services to determine the severity of the disaster and determine immediate public needs.

Disaster Assessment Teams: Teams composed of local, County and/or municipal, officials working individually or with a RIAT member to conduct the assessment of a specified area or location. The Marion County Property Appraisers Office is the overall coordinator of the Damage Assessment, and all teams will report Damage Assessment to the Emergency Operations Center. Teams should make the following determinations.

7. Private Residences and Businesses

- Primary versus secondary residences -- secondary homes are not eligible for disaster assistance.
- Homeowner or rental property -- homeowners are eligible for assistance for losses to both property and contents, whereas renters may only be eligible for losses to contents.
- Extent of damage -- damage less than 10% of the fair market value is considered minimal; major damage (structural damage to foundations, walls, roofs, etc.) falls within the range of 11 - 74% of fair market value;

and structures damaged in excess of 74% of the fair market value are considered to be destroyed.

- Insured versus uninsured damage -- insured damages and losses are not eligible for disaster assistance.
- Estimated days out of operation -- this information is needed to estimate the total dollar loss to a business.
- Number of employees -- used to estimate the amount of disaster unemployment for a business.
- Replacement costs -- replacement costs of land, structures and content are eligible for disaster assistance.
- Number of uninhabitable structures -- may indicate the need for temporary housing.

8. Public Facilities and Services

- Resources needed to accomplish emergency debris removal to clear major roadways.
- Damage to roads, streets and bridges.
- Damage to water control facilities (i.e. - drainage systems, dikes, levees).
- Damage to public buildings and equipment.
- Damage to private and public utilities (i.e. - water and wastewater systems, electric and phone services, natural gas delivery systems, etc.).
- Damage to parks and recreational sites.
- Boundaries of the disaster area(s).
- Status of transportation systems.
- Access points to the disaster area(s).
- Status of communications systems.
- Status of medical systems.
- Disaster casualty information.
- Shelter/mass care information.
- Status of critical facilities.
- Major resource needs/shortfalls.

9. Assessing Economic Injury

Two methods exist to assess economic injury. The first extrapolates actual damage against existing studies. An actual survey of recovered business and receipts is the second. Extensive studies have been completed using hypothetical disasters. The Model Community Post-Disaster Economic Redevelopment Plan notes that economic activity virtually ceased in the immediate area of Hurricane Andrew. Businesses destroyed or damaged numbered 82,000. Jobs lost were approximately 85,000.

10. Short term and Long-Term Recovery

Short-Term Recovery Phase – This phase will begin immediately after the disaster impact and continues for approximately six months. Damage Assessment Unit will consider the following functions and prioritize as the disaster dictates: the implementation of individual assistance programs through Disaster Recovery Centers (DRCs) and Red Cross Service Centers and public assistance programs through

damage survey teams and forms completion. Other short-term activities may include: long-term sheltering (hotels/motels, mobile homes, tent cities, etc.), on-going human service delivery, debris removal, contractor licensing, permitting and inspections.

Long-Term Recovery Phase – This phase will begin within a week of the disaster impact and may continue for years. DAMAGE ASSESSMENT UNIT will consider the following functions and prioritize as the recovery phase dictates on-going human service delivery; rebuilding the economy, infrastructure, and homes; implementation of hazard mitigation projects, and funds recovery.

G. Survivor Services

1. ***Disaster Recovery Center (DRC):*** Online registration is the planned primary mechanism for the registration of affected citizens and persons impacted by a disaster. A Disaster Recovery Center may be established in the immediate area to provide immediate "one-stop shopping" for information and tele-registration. The Emergency Management Director will work closely with the ESF's to ensure the selected facilities or locations can support DRC operations for extended periods. It is anticipated that the Center will be located close to the impacted area. The concept is to have only one center open. Possible locations for a DRC will be coordinated with the Chamber and Economic and Partnership (CEP) and other property management interests.

   The location will be determined depending on the disaster. The DRC Coordinator will provide the state and federal agencies with a list of locations identified in the pre-event planning stage and that have been inspected by preliminary damage assessment teams and found safe. The DRC Coordinator will ensure Memoranda of Understanding are completed for each non-county facility selected for use as a DRC. Once DRC sites have been confirmed, the locations will be released to the PIO at the JIC, where a coordinated press release will be provided to all available media sources indicating the DRC location(s). FEMA has established the following guidelines for determining if a building is suitable for use as a Recovery Center.

   - Minimum of 5,000 sq. ft. of floor space
   - Waiting area capable of accommodating 100 persons
   - Access for the disabled
   - Separate parking areas for childcare, crisis counseling, and first aid
   - Adequate parking
   - Located near public transportation systems
   - Adequate utilities and communications
   - Adequate rest rooms and janitorial services.

   Workers for the DRC will be contacted via telephones, paging system and cell phones if available. A pre-event briefing, if possible, will include directions to DRC workers as anticipated. If normal contact methods are unavailable or in risk of interruption, back up measures will

be automatically implemented. Request are made through WebEOC or other resource request mechanisms.

2. ***The County Recovery Center Coordinator*** -- will work closely with ESF-2 (Communications & Technology), ESF 3 (Public Works), ESF-6 (Mass Care), ESF-7 (Logistics/Resource Support) and ESF-16 (Law Enforcement) to ensure each DRC has the necessary utilities, supplies and materials to conduct operations. Once DRC sites and locations have been confirmed, county, state and federal PIO's will prepare a coordinated press release to advise persons affected by the disaster of the location of DRC's, assistance available through the DRC's, and any documentation they may require to support their claims for assistance.

a. ***Staffing*** – DRC's will be staffed with representatives from appropriate federal, state and county agencies, private relief organizations and other organizations capable of providing disaster related information to individuals and businesses. Recovery Center staffing includes representatives from the organizations listed below. Additional agencies and volunteer staff may be stationed at the Recovery Center as required.

b. ***FEMA/State Recovery Center Manager and Support Staff*** -- responsible for the overall management of the DRC.

c. ***Florida Agency for Workforce Innovation*** -- provides assistance and information to disaster victims about unemployment compensation and disaster unemployment assistance.

d. ***Florida Dept. Of Agriculture and Consumer Services*** -- provides assistance and information to disaster victims about low interest disaster loans that cover agricultural and farm losses.

e. ***U.S. Small Business Administration*** -- provides assistance and information to disaster victims about low interest disaster loans for homeowners and business owners.

f. ***American Red Cross*** -- provides assistance and information about resources available through the American Red Cross.

g. ***Salvation Army*** -- provides assistance and information about assistance available through the Salvation Army.

h. ***Crisis Counselors*** -- provides professional counseling services to help relieve mental health problems caused or aggravated by the disaster event.

i. ***Florida Dept Of Financial Services*** -- provides assistance and information about resolving insurance claims and banking problems.

j. ***Florida Dept. of Children & Families*** -- provides assistance and information on the availability of regular and emergency food stamps and individual/family grants.

k. ***National Flood Insurance Program*** -- assists in determining whether damaged properties are located within designated flood plains.

l. ***Temporary housing staff (FEMA)*** -- provides assistance and information about the availability of rental and mortgage assistance, and other housing programs.

m. ***Internal Revenue Service*** -- provides assistance and information about how the disaster will affect their taxes.

3. Feeding Distribution Sites and Temporary Living Areas

ESF-6 Mass Care and ESF-11 Food and Water serves as the primary coordinating agencies during recovery. They will coordinate with the Logistics Section Chief for the placement of feeding, distribution and temporary living and will provide Emergency Management with copies of any Memoranda of Understanding for any site utilized that does not appear in the county database as a pre-approved location.

If local American Red Cross chapters cannot open a sufficient number of post-storm host emergency shelters to house and accommodate the number of persons forced from their residences, ESF-6 Mass Care will coordinate the provision of additional emergency shelter for persons affected by the disaster with the aid of state and federal ESF's. ESF-11 will also coordinate provisions for feeding disaster victims and emergency workers. They will work closely with their state and federal counterpart and other similar response organizations to establish fixed and mobile feeding kitchens and bulk distribution sites.

Requests for bulk food, water and ice will be processed through ESF-11 Food and Water. ESF-11 will coordinate with its state and federal counterparts to locate a secure pre-packaged food and federal surplus commodities. ESF-11 will also locate and secure adequate supplies of water and purification units. ESF-11 will coordinate with ESF-7 Resource Support to locate and secure refrigerated trucks and boxcars for cold storage if required.

4. Direction and Control of Recovery Operations

The Emergency Management Director will appoint a Public Assistance Officer (PAO) who will be responsible for coordinating all activities related to federal reimbursement to local government and eligible private not-for-profit organizations, for their eligible costs incurred as a result of the event. The County PAO will also be responsible for staffing a Public Assistance Section at the Disaster Recovery Center (DRC). Each municipality, special district or not for-profit must have their own

separate application with FEMA and will be required to file their own Request for Public Assistance (RPA). The County PAO will work closely with ESF-14 Public Information to notify all eligible governments and private not-for-profit organizations of the availability of federal public assistance funds. Notification may occur through written correspondence and telephone contacts, notices in local newspapers, and broadcasts on local radio and television stations. Potential eligible applicants will be notified of the date, time and location of the scheduled applicants briefing. The State has the responsibility to conduct the Applicant's Briefing.

5. Debris Disposal Procedures

See the Marion County Debris Management Plan

Insurance Coordination Procedures

Most Public Assistance Grants will not be processed until insurance coordination with the appropriate carrier has been completed. County and local government Risk Managers must work to expedite the turn-around of insurance documents and documentation. The State Public Assistance Office will administer all public assistance grants, agreements and contracts. Administrative staff will be responsible for providing technical assistance to eligible applicants and sub-grantees and for maintaining and submitting all documents and paperwork necessary to obligate and disburse public assistance funds. This includes establishing a system for the processing of payments to sub-grantees and to FEMA; and establishing and maintaining accounting records for each payment draw down by the State, and each payment to the sub-grantees.

6. Administrative Procedures

Although each local agency may be a separate applicant and eventual sub-grantee, Marion County Clerk of the Court – Finance Director will coordinate the process outlined below with state and federal officials, as needed.

Applicant Briefing (Kick-off meeting)

An applicant briefing will be scheduled to advise potential eligible applicants (municipalities, county government and private non-profit entities) of the availability and requirements of federal assistance. Each potential applicant will be asked to complete and return a Request for Public Assistance (RPA) form. Damages suffered by each potential applicant are reported on the RPA that is used by the Federal Coordinating Officer (FCO) and PAO to determine the number of damage survey and inspection teams.

A completed RPA will be transmitted to the FCO for each potential applicant. If the RPA is denied by the FCO, the County PAO will notify

the potential applicant in writing, explaining the specific reason(s) for denial and providing information on appeal procedures.

Potential applicants will also be requested to complete and return a "Designation of Sub-grantee's Agent" form that designates the official authorized to sign the funding agreement and execute relevant public assistance documents. Before any public assistance funds are released, the State and Applicant must enter into a disaster relief funding agreement.

List of Potential Projects and Projects Worksheet

Each potential applicant must submit, within the designated application period, a "List of Projects" to be reviewed for public assistance. This list should identify, for each damage site and project, the disaster assistance category, site location, description of the damage and scope of work necessary to repair, replace or restore projects to pre-disaster conditions. Damage survey and inspection teams, comprised of county, state and federal engineers, planners and architects, will review each project and activity on the List of Projects.

The State Public Assistance Officer will coordinate with each applicant to arrange the survey and inspection schedules, ensure participation by appropriate local officials and ensure necessary records and documentation are available. The inspection team will prepare Project Worksheets (PW) for each project, identifying activity descriptions, scopes of work and cost estimates. Each PW undergoes two levels of review before approval by the FCO. This approval must occur within 45 days of the date of first inspection. The first review, performed jointly by the state/federal damage survey and inspection team, is for concurrence on the PW. If state and federal inspectors concur, the PW goes to the FCO for approval. If there is a disagreement on the PW, it is returned to the applicant for resolution of the discrepancy. The second review, conducted by FEMA staff, is done before final approval of the FCO. If the PW is approved, it is forwarded to the FCO for approval. If there is a discrepancy, it is returned to the survey and inspection team for resolution of the discrepancy.

Any changes made to a PW during any stage of the review process will be returned to the applicant, who will then have an opportunity to review the change, concur or not concur and attach any additional documentation or statements to support their position.

Program Assistance and Management

The State Public Assistance Officer (PAO) will administer all public assistance grants, agreements and contracts. Administrative staff will be responsible for providing technical assistance to eligible applicants and sub-grantees and maintaining and submitting all documents and paperwork necessary to obligate and disburse public assistance funds. This includes establishing a system for the processing of payments to sub-

grantees and to FEMA; and establishing and maintaining accounting records for each payment draw down by the State and each payment to subgrantees. Public Assistance will be handled using the Public Assistance Manual and forms from the state.

Final Inspections

When all PWs in any project application have been completed, a project summary must be submitted by the Sub-grantee to the State PAO and Governor's Authorized Representative. State and federal inspectors will conduct a final inspection of the project to verify the project's completion. Final inspection documents will then be prepared and forwarded to the FCO for the preparation of any closing supplements.

Staff Support

The County Public Assistance Office, established by the PAO, will be flexible and capable of expanding and contracting as required by the event. Typical staffing of the Public Assistance Office and related duties are:

Public Assistance Officer -- responsible for the overall management of the Public Assistance Office and coordination and technical assistance for county departments for activities related to federal reimbursement of eligible expenditures;

Assistant Public Assistance Officer -- assists the Public Assistance Officer in the management of the office and coordinating and technical assistance for county departments related to reimbursement for eligible expenditures;

Public Assistance Coordinator -- coordinates the scheduling of damage survey inspection teams and assists in the review of completed Project Worksheets (PWs);

Public Assistance Inspectors -- review public damage as part of state damage survey inspection teams and provides technical assistance to eligible county departments in the preparation and review of PWs;

Insurance Coordinator -- provides technical assistance to eligible local applicants on National Flood Insurance Program (NFIP) and other insurance requirements and reviews completed PWs for compliance with insurance requirements;

Administrative Staff – provide technical and administrative assistance to eligible county departments with eligible damages and maintain accurate accounting of all financial transactions;

Support Staff -- prepare routine correspondence and applications, maintain files and perform necessary clerical work;

Legal Staff -- review public assistance policies and procedures for compliance with applicable local, state and federal requirements and regulations.

Employment of Temporary Staff -- In the event of a catastrophic event, the existing staff of the County and municipal government(s) may be insufficient to staff the Public Assistance Office. The PAO will contact the following sources for additional temporary staff:

- Professional engineering associations -- for temporary public assistance inspectors.
- Florida Chapter, American Planning Association – for temporary public assistance inspectors.
- State agencies -- for temporary public assistance inspectors, administrative and other support staff.

Habitability Certification

Once structures, buildings and homes have been severely damaged, and/or had power cut off in impacted areas, power cannot be restored until inspected by a certified electrician. The Marion County Building Official will notify utility suppliers in the County of reinstatement of electrical service. All buildings damaged must be permitted for rebuilding or restoration and all new work must be up to current codes. Condemnation of severely damaged buildings and structures will be accomplished when they become public safety issues. These are legal responsibilities of all jurisdictions within the county.

PW Information and Preparation Support

PW information and preparation support is the responsibility of the applicant agency, the state and Federal Emergency Management Agency.

National Flood Insurance Program

Marion County participates in the National Flood Insurance Program. Citizens cannot buy flood insurance if their local jurisdictional government does not participate in the program. Marion County does participate in the Community Rating System, which allows communities to have an impact on the rates paid by their citizens for flood insurance. Communities are classified as Class 1 (most premium reduction allowed) through Class 10 (no reduction allowed). Communities not participating are classified as Class 10.

Community Name	Number of Policies	Date Most Recent Rate Map	Community Rating System Rank
Unincorporated Marion	3,738	2017	7
City of Ocala	476	2017	3

Marion County developed a Comprehensive Land Use Plan that limits building and rebuilding within the wetlands and flood plains. The Comprehensive Land Use Plan is the basis for rebuilding, building and planning within the flood plains. All recovery actions, both short and long term, must be consistent with the Comprehensive Plan and the County Land Development Code.

Unmet Needs Coordination

During a long-term recovery phase unmet needs will be forwarded to ESF-15. With assistance from the volunteer groups, ESF-15 will utilize existing lists of community service providers, local churches, community outreach programs and municipalities to fulfill all requests consistent with Volunteer Florida's Unmet Needs Coalition Guidance (adopted by reference).

Human Needs Assessment Teams, municipalities and local officials will meet to help identify unmet needs.

Community Relations

The Marion County Emergency Management Director or designee will act as the County Community Relations Coordinator for the functions listed below. Marion County Sheriff's Office volunteers will assist the Community Relations Coordinator in this capacity. This team will function as the liaison with the FEMA/State Team. The Community Relations Team in conjunction with the Damage Assessment Team will determine the most critically damaged or impacted areas for the FEMA/State Team to focus on. The various municipalities, Chamber and Economic Partnership (CEP), ministerial associations and other civic organizations will be contacted to assist in assessing the community needs. In addition, ESF-8 lead and support agencies will be used to identify Special Needs or special concerns that need to be addressed. At this time, there are no special concerns that need to be addressed; however, Marion County will continue to monitor the community should such needs arise. During the recovery phase, special effort will be made to reach impacted individuals that may need assistance with the assistance identified above.

Emergency Temporary Housing

1. Coordination

The Marion County State Housing Initiatives Partnership (SHIP) Coordinator will serve as the coordinating agency with their State counterpart to provide site(s) for possible emergency housing. The County will rely heavily on state and federal assistance for temporary or emergency housing. The Marion County SHIP Coordinator will work directly with the Disaster Housing Task Force to coordinate all local housing operations.

2. Local Disaster Housing Task Force

The Local Disaster Housing Task Force will be made up of representatives from Marion County Growth Services, Marion County Property Appraiser, Marion County Community Services, Marion County Veterans Services Marion County Building Department, City of Ocala Building Department and the City of Ocala Growth Management.

The Local Disaster Housing Task Force may draw resources and program support from the Marion County Growth Services and Marion County Property Appraiser primarily on land use, emergency permitting, site availability and code issues. The Task Force will also ensure timely communication of mission-critical information and issues between and among all levels of government. Communications with the private sector should be coordinated through Emergency Support Function (ESF) 18 and with ESF 15. A Client Management System will be activated on a conditional basis as the need for social services escalates.

The Local Disaster Housing Task Force will be responsible for implementing a Disaster Housing mission. An initial determination must be made in order to position the resources needed to implement the Disaster Housing mission. While the numbers will likely change as better data is received, the following informational components are needed to quantify the disaster housing need:

- Total number of residential structures (by type) with major damage classified as destroyed or deemed uninhabitable.
- The estimated number of residential structures which might be made habitable with minimal repairs.
- Determine the status of available hotel and motel units.
- Determine the status and availability of public housing units.

- Determine the status and availability of privately-owned, vacant rental properties, which could be used for disaster housing.
- Determine the status and availability of manufactured housing units or other fabricated dwellings which could be used for disaster housing and total pad counts.
- Available useable land meeting the suitability criteria for emergency community sites, including available space in existing/vacated manufactured home parks.
- Status of restoration of utilities.
- Availability of community services including fire, EMS, law enforcement, healthcare, schools, etc.
- Status and availability of college/university housing.

Marion County has disaster need assumptions that will assist in quantifying the community needs:

- Uninsured homeowners whose homes are destroyed or have major damage may require disaster housing assistance.
- One or two-family zoned lots of sufficient size to place temporary units' onsite.
- Uninsured residents of multi-family units that are damaged or destroyed will likely need Direct Housing Assistance in commercial manufactured home parks or community sites.
- Homeowners who have insurance will not be eligible for Direct Housing Assistance.
- Owners of secondary homes will not be eligible for direct housing assistance.
- Non-seasonal, permanent manufactured home residents whose units are damaged or destroyed will likely require disaster housing assistance.

Marion County Comprehensive Emergency Management Plan (CEMP)

Mitigation Appendix

Version: 2024

INTRODUCTION

Hazard mitigation is any action taken to permanently reduce or eliminate long-term risk to people and their property from the effects of hazards. Some examples of hazard mitigation include land use planning techniques that limit infrastructure in high hazard areas and programs for retrofitting existing structures to meet new building codes and standards. Ideally, a community can minimize the effects of future hazards through a mix of code enforcement, planning, and responsible development. Every community is exposed to some level of risk from hazards. The general purpose of the mitigation annex is to clarify emergency management responsibilities regarding local mitigation activities. Marion County has a FEMA approved Local Mitigation Strategy (LMS). The Local Mitigation Strategy is maintained by Marion County Planning and Growth Services. The Marion County Local Mitigation Strategy was approved by resolution on May 19, 2021. The Marion County Local Mitigation Strategy expires on May 19, 2026.

I. GENERAL

Hazards cannot be eliminated, but it is possible to determine what the hazards are, where the hazards are most severe, and identify local actions that can be taken to reduce the severity of the hazard.

A. Costs to Communities

Hazards have real costs to businesses and residents. Businesses in high hazard areas can suffer when damaged or isolated by storms. Residents who build in flood prone areas are subject to evacuation, damage to their homes, lower home values, and higher insurance premiums. Critical facilities such as hospitals, schools, airports, utilities and major government buildings should not be placed in high hazard areas because the functions these facilities provide are too valuable to be placed in jeopardy, especially during times of disaster. And of course, community health and safety are beyond price.

B. Costs to Local Government

Community infrastructure such as roads, drainage structures, sewer lines, electric lines, telephone lines that are built in high hazard areas are subject to frequent damage and extremely costly repair. Also, if a local government belongs to the National Flood Insurance Program and allows development in the floodplain without proper elevation and construction techniques, the federal government can withdraw the community's access to federal flood insurance for both public and private structures. Furthermore, a local government is responsible for as much as 12.5 percent of their local public cost of a federally declared disaster and 100 percent of any damage from smaller events that are not declared disasters. These costs can put a significant strain on the local government budget.

C. Lead Agency for Pre-Disaster and Post-Disaster Mitigation Operations

Marion County Division of Emergency Management is the lead agency for all mitigation activities in the county. The Emergency Management Director or designee has responsibility for directing all pre- and post-disaster mitigation activities and for coordinating mitigation activities with the Marion County Local Mitigation Strategy Working Group.

D. Support Agencies for Pre-Disaster and Post-Disaster Mitigation Operations

Marion County Division of Emergency Management is responsible for coordinating mitigation planning with operational assistance from a number of supporting agencies. Lead and support agencies for mitigation activities are described in this appendix.

E. Concept of Operations

This appendix provides an overview of the management of pre- and post-disaster mitigation activities in Marion County. The purpose is to provide guidance for the activities necessary for Marion County to reduce the potential for damage and loss from future disasters affecting the county.

1. Emergency Management Organization System Used During Mitigation

The County has adopted NIMS and operates under this system during emergency operations. This system is especially effective for managing response and recovery operations that involve multiple agencies each working on different though inter-related tasks. The organization system employed during mitigation activities is streamlined in large part because the Marion County Planning and Growth Division has the primary responsibility for implementing the County's Local Mitigation Strategy. Although there are times when Emergency Management provides assistance to supporting agencies, the vast majority of mitigation activities are carried out by the respective County departments.

2. Notification and Coordination of Agency Participation in Mitigation Operations

a. Pre-Disaster Operations

Mitigation activities in the pre-disaster environment are the responsibility of Emergency Management. Marion County Division of Emergency Management through the Local Mitigation Strategy (LMS) assists in pre-disaster mitigation activities. The Marion County LMS identifies the hazards to which Marion County is vulnerable; assesses the facilities and structures that are most vulnerable to hazards; offers a prioritized list of mitigation projects to take advantage of available funding; and links mitigation projects to these sources of funding. Emergency Management works with Flood Plain Managers to identify damaged structures in Special Flood Hazard Areas (SFHAs) to assist with pre and post disaster operations.

Marion County Planning and Growth Services is responsible for maintaining the Marion County LMS.

b. Post-Disaster Operations

Marion County Division of Emergency Management will also be responsible for coordinating local agency participation in post-disaster mitigation activities. Local agencies involved in these operations will vary according to the specifics of each event. Emergency Management staff will contact all agencies for post-disaster mitigation activities and notify them as to their role in these operations. Given the rural nature of the county and the relatively small number of agencies involved in mitigation activities, notifications can be made quickly via telephone using the Marion County Call Out list located in the EOC.

3. Coordination of Mitigation Activities with Municipalities and the State

The Marion County Division of Emergency Management Director or designee will be responsible for coordinating mitigation activities with Growth Services with the municipalities and the State EOC. All municipalities will be updated throughout the response, recovery and mitigation phases of the event. During non-event periods, meetings will be held quarterly or monthly if needed. During events, briefing meetings will be held daily. The Emergency Management Director or designee will coordinate on an as needed basis with the Bureau of Recovery and Mitigation at the Florida Division of Emergency Management.

4. Local Government Status in the National Flood Insurance Program

Marion County participates in the National Flood Insurance Program (NFIP). The County also actively supports public education regarding building policies in flood prone areas.

5. Process for Identifying Mitigation Opportunities in the Post-Disaster Environment

Marion County Division of Emergency Management is responsible for coordinating all recovery operations in the county. As a result of this active role in the recovery process, Emergency Management is well poised to identify opportunities for future mitigation projects such as elevation and/or acquisition of floodprone structures, drainage improvement projects and infrastructure enhancement projects. Marion County Division of Emergency Management works closely with the damage assessment teams in the field, including the Marion County Property Appraiser, the Marion County Building Safety Department, the Office of the County Engineer, the City of Ocala Building Department, the City of Ocala Engineering and Public Works staff, the City of Belleview Engineer, and Public Works staff.

6. Process to Manage Mitigation Assistance Funds

All mitigation and recovery grants are applied for and administered by Marion County Division of Emergency Management. Emergency Management has managed a variety of recovery and mitigation grants in the past including Hazard Mitigation Grant Program funds. Emergency Management is also the administrator for all emergency management grants involving the County. Funding sources including technical assistance funding from FEMA and the Flood Mitigation Assistance Programs are available. Additional resources are identified in the LMS which has been updated.

II. PRE-DISASTER HAZARD MITIGATION ACTIVITIES

Pre-disaster hazard mitigation activities are described in detail in the Marion County Local Mitigation Strategy. The Local Mitigation Strategy is a community-based plan to make the county and local communities safer and more resistant to natural and technological hazards. The Marion County LMS is available from the Marion County Growth Services.

III. POST-DISASTER MITIGATION FUNCTIONS

a. Planning Assumptions

Personnel resources for daily operations in Marion County are limited. In the aftermath of a disaster, these resources are stretched even further. As a result, the County relies in large part on information generated by all departments during the local damage assessment process, the prioritized project list from the Marion County LMS, and overall guidance from the Emergency Management Director or Designee in determining specific mitigation priorities following a disaster.

b. Lead Agency with Responsibility for Providing Mitigation Assessment

Marion County Division of Emergency Management is the primary agency charged with post-disaster mitigation assessment. The Emergency Management Director or designee has the primary responsibility for assessing mitigation needs in the post-disaster environments.

c. Roles and Responsibilities of Lead and Support Agencies

i. Marion County Division of Emergency Management

Marion County Division of Emergency Management will serve as the coordinating organization for all post-disaster mitigation activities. Emergency Management will notify all supporting agencies required for mitigation assessment operations; coordinate all activities required to identify potential mitigation projects and initiatives, coordinate the application process for mitigation related grants; and may serve as the grant administrator for all mitigation grants.

The Emergency Management Director or designee also serves as the point of contact for providing information to residents of the county describing how they can minimize damage from future disasters.

ii. Marion County Property Appraiser

The Marion County Property Appraiser will support Marion County Division of Emergency Management by providing technical expertise regarding property values, damages and losses to properties as a result of a disaster.

iii. Marion County Building Department

The Marion County Building Department will provide support to Emergency Management in identifying mitigation activities that could

reduce the vulnerability of public infrastructure, businesses and housing stock to damage and loss from natural and manmade disasters.

iv. Marion County Office of the County Engineer

The Marion County Office of the County Engineer will assist Emergency Management in identifying potential road, culvert and water and sewer mitigation projects.

d. Coordination Between Lead and Support Agencies

Emergency Management will serve as the organization responsible for coordinating mitigation activities for lead and support agencies. The Marion County Division of Emergency Management Director or designee is the person responsible for this task. The process of coordination is straightforward given the rural nature of the county and the small number of agencies actively involved in post-disaster mitigation activities.

In Marion County, much of the work involved in identifying opportunities for possible mitigation activities is carried out during the pre-disaster mitigation phase (e.g. during the mitigation project identification process carried out by the Marion County LMS Working Group). Opportunities for mitigation are also discovered during the initial and preliminary damage assessments and throughout the public assistance processes. The supporting agencies noted above document damage to public infrastructure, businesses and residences working in conjunction with Emergency Management. The Marion County LMS Working Group, along with input from supporting agencies, then considers, development trends, the information gathered during the recovery phase and determinations are made regarding potential mitigation projects. The LMS Working Group also participates in public education venues such as fairs, conferences, community meetings and distributes public information through PSAs, flyers, pamphlets, newspaper and newsletter articles.

e. Equipment and Resources Necessary for Mitigation Assessment

i. The Marion County Division of Emergency Management Director will be responsible for ensuring all equipment and resources necessary for mitigation assessment are available when needed.

ii. Vehicles used for mitigation assessment include city and county government vehicles, fire department vehicles and any other applicable vehicles.

iii. The following equipment is provided by Emergency Management and used for mitigation assessment: office supplies, maps and disposable

cameras. Other resources may be requested on an as needed basis through Emergency Management.

iv. Equipment, vehicles and supplies necessary for mitigation activity are located throughout the county either in stations, assigned to individual personnel or readily accessible to department personnel.

Specific Mitigation Pre-Disaster Activities

Marion County Division of Emergency Management participates in providing information to the citizens of Marion County in ongoing public outreach activities. This includes the use of newspaper advertisements, public services announcements, radio spots, flyers, fairs and conferences. Presentations are made at both public and private meetings to inform attendees of mitigation activities available. The county also actively supports public education regarding building policies in flood prone areas.

The Marion County Local Mitigation Strategy Working Group involves members of private industry and the community in mitigation activities. This civic involvement provides a meeting ground for resource and information sharing regarding mitigation problems and opportunities in the community.

Potential Funding Sources for Mitigation Activities/Projects

Depending on project characteristics, Marion County may have a variety of funding outlets available for mitigation measures. These include, but are not limited to:

FEMA Hazard Mitigation Grant Program.
Community Development Block Grant.
Florida Coastal Management Program.
Flood Mitigation Assistance.
Florida Communities Trust.
Special Event-Specific Appropriations and Grants.
Mitigation Measures in Conjunction with Repair/Restoration.
Public Assistance through FEMA
Florida Communities Trust (acquisition/open space).
Direct Congressional Appropriation.
Direct Legislative Appropriation.
Local Capital Improvement Budgets.

In addition to monitoring funding opportunities, the County evaluates the benefit of structural mitigation measures (flood proofing, wind retrofit, storm water management, flood plain management, infrastructure hardening, acquisition and demolition) and non-structural initiatives (zoning, tax and financial incentives,

permitting, bond strategies and insurance rebates) and related development techniques and trends.

f. Floodplain Managers

Marion County strives to minimize risk and reduce vulnerability. As the local government entity, Marion County plays an important role in hazard mitigation by leveraging county funds and applying for federal dollars to implement projects to minimize risk and reduce vulnerability. Marion County Growth Services offers resources for residents for property in the unincorporated area of Marion County wishing to learn more about their property's flood risk. Growth Services staff helps residents determine whether their property is in a flood zone as well as provides information about the county's flood insurance rate maps and special rules for building within a flood plain. Growth Services could also be able to provide copies of elevation certificates currently on file.

After a presidentially declared disaster, local officials led by the Marion County Property Appraisers Office, inspect homes damaged by flood waters to determine whether a structure was damaged to the extent that it will have to meet current building codes and floodplain management regulations when it is repaired. A determination of "substantial damage" applies to a severely damaged home or other structure in a Special Flood Hazard Area, regardless of the cause of damage, where the community participates in the National Flood Insurance Program (NFIP).

The Marion County Flood Plain Manager works with local Floodplain Managers to identify damaged structures by coordinating the damage assessment process and sharing information on mitigation needs with the LMS. The EM Coordinator works with the Flood Plain Manager(s) to determine how best to mitigate flood prone areas of the county; local building inspectors makes substantial damage determinations. If the cost of repairing the structure is 50 percent or more of its market value before the disaster, it is considered substantially damaged. Land value is not a consideration; the determination is based strictly on the value of the damaged structure.

Marion County
Division of Emergency Management
Emergency Support Functions (ESF)

Response partners from local agencies, state agencies, voluntary agencies, and private organizations form Emergency Support Functions or ESFs. These individuals serve as subject matter experts supported by the Marion County Division of Emergency Management.

Version: 2024

Emergency Support Function (ESF) 1

Transportation

Primary Agency: Marion County School Board Transportation

Support Agencies: Marion County Sheriff's Office
Marion County Fire/Rescue
Marion County Airport
City of Ocala Fleet Management
Marion County Senior Services
Marion County Transit
Sun Tran

I. Purpose

The purpose of Emergency Support Function 1 is to provide, in a coordinated manner, the resources (human, technical, equipment, facility, materials, and supplies) of member agencies to support emergency transportation needs during an emergency or disaster in Marion County. Emergency Support Function 1 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. Emergency Support Function 1 resources are used when individual agencies are overwhelmed and County Emergency Management Team requests additional transportation services.

The priorities for allocation of these assets will be:

a. Evacuation and reentry assistance to individuals without their own transportation
b. Evacuation and reentry assistance to non-ambulatory special needs individuals
c. Transportation services for individuals for human service functions other than evacuation and reentry, such as relocation to other shelters and/or transportation to and from disaster assistance facilities, e.g., food, water and ice distribution points
d. Movement of personnel, equipment and supplies to support emergency operations in the field and at activated emergency facilities
e. Maintenance of vehicles necessary to provide transportation assistance
f. Other needed transportation services, as indicated

II. Concept of Operations

A. General

6. Emergency Support Function 1 is organized consistent with State Emergency Operations Center and the Incident Command System. This structure and system supports incident assessment, planning, procurement, deployment, and coordination and support operations to Marion County through the Marion County Emergency Management Team, Area Operations, and State

Emergency Response Teams to assure a timely and appropriate response to an emergency or situation.

7. Procedures, protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe Emergency Support Function 1 capabilities.

3. In a large event requiring local or State mutual aid assistance, Emergency Support Function 1 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of required assets.

4. Throughout the response and recovery periods, Emergency Support Function 1 will evaluate and analyze information requests to move people, materials, equipment, and other resources as necessary; develop and update assessments of the transportation service situation and status in the impact area; and undertake contingency planning to meet anticipated demands or needs.

B. Organization

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Marion County School Board staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Emergency Operations Center, Logistics Section Chief will coordinate the support resources from ESF 1.

c. During the response phase, Emergency Support Function 1 will evaluate and analyze information regarding transportation services requests. Also, Emergency Support Function 1 will develop and update assessments of the transportation services status in the impacted area and undertake contingency planning to meet anticipated requirements.

d. Marion County School Board will develop and maintain the overall Emergency Support Function 1 Emergency Operations Plan and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies. However, support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan.

e. Marion County School Board shall be represented in Emergency Support Function 5 (Information and Planning) and support disaster intelligence collection and analysis as relates to the Emergency Support Function 1 mission.

2. AREA

a. The Infrastructure Services Branch Chief, in consultation with the requesting jurisdiction, may obtain additional transportation service resources via established mutual aid agreements.

b. The Florida Department of Transportation serves as the lead agency for transportation service coordination and support, and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 1 missions, and will provide operational support to the EOC and/or field activities.

C. Alerts/Notifications

1. The Marion County School Board will notify the County Warning Point when information comes to their attention indicating that an emergency or disaster situation is developing.

2. The County Warning Point, will notify Marion County EM when the county or an area of the county has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.

3. Emergency Support Function 1 will be activated or placed on standby upon notification by the County Emergency Management Office. The primary and support Transportation representatives or designees will jointly manage the emergency activities of Emergency Support Function 1.

4. Upon instructions to activate Emergency Support Function 1, Marion County School Board will implement procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. Actions

Actions carried out by Emergency Support Function 1 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 1 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services may be provided:

- Assessment of potential impacts of scenario events and transportation needs.
- Continuous inventory of transportation assets, including transit buses, trolleys, passenger vans, wheelchair equipped buses, and School District school buses.
- Transportation of resources and Emergency Support Function 1 assets, including buses, vans, equipment, and supplies.
- Transportation and evacuation public information and risk communication.
- Transportation management, command, and control of assets.
- Transportation activities related to terrorist threats and/or events.
- Evacuation and re-entry support.
- Maintain a list of essential employees who because of their expertise and nature of assigned responsibilities are “on call” throughout all phases of a major disaster operation.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Transportation response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 1 personnel (i.e., County, State, Regional, and Federal).

- Coordinate with Emergency Support Function 5 (Information and Planning) to identify essential elements of information that should be incorporated into rapid needs assessments for Emergency Support Function 1.

- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.

- Develop and present training courses for Emergency Support Function 1 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.

- Conduct all hazards exercises involving Emergency Support Function 1.

- Coordinate with Emergency Support Function 5 (Emergency Management) to incorporate disaster intelligence into Emergency Support Function 1 training, preparedness and planning, including the use of this analysis to scale the mission requirements for the School System and Emergency Support Function 1 in a hurricane or other major disaster.

- Assess vulnerability of evacuation routes and shelters to storm surge, and develop alternative protective measures in transporting evacuees to safe shelters.

- Assign and schedule sufficient personnel to implement Emergency Support Function 1 tasks for an extended period of time.

- Maintain a list of Emergency Support Function 1 assets that that can be deployed during an emergency. Refer to the NIMS Resource Typing System in organizing and typing these resources.

- Manage inventory of wheelchair lift-equipped buses and other pre-designated assets that are essential to meeting the transportation needs of special needs groups.

- Develop, test, and maintain an automated or manual listing of emergency contacts, agency transportation resources, and points of contact for assets that can be attained through vendors or other sources.

2. RESPONSE ACTIONS

- Coordinate operations of Emergency Support Function 1 in the County Emergency Operations Center and/or at other locations as required.

- Establish and maintain a system to support on-scene direction and control and coordination with County EOC, regional task force and State EOC.

- Transportation support RDSTF in the investigation of a terrorist attack.

- Pre-position response resources when it is apparent that transportation resources will be necessary. Relocate transportation resources when it is apparent that they are endangered by the anticipated impacts of the emergency situation.

- Monitor and direct transportation resources and response activities.

- Participate in EOC briefings, and sessions to prepare Incident Action Plans and Situation Reports.

- Obtain State resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.

- Coordinate with other County ESFs to obtain resources and to facilitate an effective emergency response among all participating agencies.

- Notify drivers of the potential threat and put drivers on stand-by alert status, updating as conditions change. In the event drivers are off duty when a potential threat arises, those designated will report by telephone or in person to the dispatch office at ECAT for further instructions.

- Evaluate and task the transportation support requests for threatened and/or impacted areas.

- Establish communications with appropriate field personnel and ensure that they are ready for timely response.

- Coordinate with support agencies to develop, prioritize, and implement strategies for the initial response to EOC requests. The Emergency Medical Services Agency will provide transportation for the more critical special needs persons (see Emergency Support Function 8). These include persons who would not be able to travel by ambulatory means or wheelchair. Transportation for ambulatory and wheelchair persons will be provided by the Marion County School Board.

- Utilize pre-determined evacuation routes to the extent possible. These routes are based on the designated general and special need shelters and are reviewed annually. Updates will be provided by the various EOC agencies as to the conditions of existing routes and any additional routes available by existing and changing conditions.

- Relay all emergency traffic regulations to all affected personnel.

3. RECOVERY ACTIONS

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.

- Initiate financial reimbursement process for recovery activities when such support is available.

- After the initial actions are completed, assist in recovery operations of the EOC. Support agencies will continue to provide necessary emergency transportation, transportation of persons with special needs, transportation of emergency personnel, and transportation of emergency goods and services.

4. MITIGATION ACTIONS

- Coordinate with Emergency Management to identify potential hazards and their impacts, and determine how these impacts may impede the Emergency Support Function 1 operation.

- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. Direction and Control

1. Emergency Support Function 1 complies with the Incident Management System (NIMS). The NIMS guides the direction and control system adopted by the Department of Public Safety, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.

2. The Emergency Support Function 1 system operates at two levels: 1) County Emergency Operations Center; and 2) Field operations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 1 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Coordinators and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 1 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by the Marion County School Board with status of the call lists updated at least annually.

5. All transportation field personnel are subordinate to the Emergency Support Function 1 at the County Emergency Operations Center.

6. In accordance with a mission assignment from Emergency Support Function 1, and further mission tasking by a local primary agency, each support organization assisting Emergency Support Function 1 assignment will retain administrative control over its own resources and personnel, but will be under the operational control of Emergency Support Function 1.

F. Responsibilities

1. PRIMARY AGENCY – MARION COUNTY SCHOOL BOARD

- Provide leadership in directing, coordinating, and integrating overall County efforts to provide Transportation evacuation assistance to affected areas and populations.

- Staff and operate a National Incident Management System compliant command and control structure (i.e., Incident Command System) to assure that services and staff are provided to areas of need.

- Coordinate and direct the activation and deployment of support agencies under Emergency Support Function 1 in carrying out specified missions to evacuate personnel from vulnerable areas.

- In coordination with Emergency Support Function 5, evaluate the emergency situation, make strategic decisions, and identify resource needs and secure resources required for field operations.

- Coordinate supplemental assistance in identifying and meeting the Transportation needs of disaster victims.

- Assume the lead in the organization, assignment and staffing at the facilities at which Emergency Support Function 1 is required to be located.

- Coordinate the use of transportation resources to support the emergency response, including the movement of evacuees in need to designated shelters.

- Maintain a current inventory of transportation assets from participating agencies, including their location and condition.

- Pre-position transportation resources as needed.

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Marion County School Board)

Marion County School Board maintains a list of available resources at the Marion County School Board Office. The list is updated at least once each year, and contains the following: 1) contact information for essential employees who have a role and responsibility in Emergency Support Function 1; and 2) inventory of resources that can be deployed for Emergency Support Function 1 support including vehicles (trolleys, passenger vans, and busses).

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 1 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. Expenditures by support entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 2

Communications & Technology

Primary Agency:	Marion County Public Safety Communications Marion County Sheriff's Office Public Safety Communications
Support Agencies:	Ocala Police Department 911 Center (Police, Fire, and EMS) Marion County Sheriff's Office Information Technology Marion County Information Technology Ocala Information Technology Marion County Emergency Communications Radio Team (MERT) Amateur Radio Emergency Services (ARES) Commercial Communications Companies

I. Purpose

The purpose of Emergency Support Function 2 is to provide Communications coordination and support services in support of emergency events in Marion County. Emergency Support Function 2 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. Emergency Support Function 2 resources are used when individual agencies are overwhelmed and the County Emergency Management Team requests additional communications services.

The Marion County Public Safety Communications will coordinate Emergency Support Function 2 assets (both equipment and services) that may be available from a variety of sources before and after the activation of the County EOC.

Specific Emergency Support Function 2 objectives include:

- Establish and maintain communications between and among the key facilities that are integral to efficient disaster operations.
- Ensure that the County Warning Point is prepared to respond to emergencies, recover, and mitigate their impacts.
- Ensure that the County Warning Point is prepared to provide the mission essential communications services required during normal operations.

II. Concept of Operations

A. General

1. Emergency Support Function 2 is organized consistent with the Incident Command System. This structure and system supports incident assessment, planning, procurement, deployment, and coordination and support operations to Marion County through the Marion County Emergency

Management Team, Area Operations, and State Emergency Response Teams to assure a timely and appropriate response to an emergency or situation.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plans (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe Emergency Support Function 2 capabilities.

3. In a large event requiring local or State mutual aid assistance, Emergency Support Function 2 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 2 will evaluate and analyze information communications requests; develop and update assessments of the communications service situation and status in the impact area; and to undertake contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode, technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

6. The primary and support agencies will support the establishment of communications between key facilities that are listed below. These facilities have a key role in emergency response and recovery under the National Incident Management System.

a. Communications Systems

- Local EOC and local government agencies
  Telephone and fax
  Paging
  E-mail
  Dedicated lines, when applicable
  Radio, when applicable
  Commercial wireless (Cellular, ESMR)
- Local EOC and State EOC
  Telephone and fax
  ESATCOM e-mail
- Local EOC and other municipal EOC
  Telephone and fax
  ESATCOM e-mail
  Commercial wireless, when applicable
- ESF/ICS groups
  Radio
  Commercial wireless
  Mobile communications vehicle
  Helicopter (Air 1)
- Shelters and feeding sites

- Marion Emergency Radio Team (MERT)
  Paging Commercial wireless.
- Distribution sites, staging areas, Disaster Resource Centers
  Telephone
- Amateur radio (ARES)
  Paging
  Commercial wireless

b Priorities for Repair and Restoration

- Emergency Communications 9-1-1 Public Safety radio
- Non-Emergency communications Telephone service Local Government radio

B. Organization

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Sheriff's Office staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Emergency Operations Center, Logistics Section Chief will coordinate the support resources from the support agencies.

c. During the response phase, Emergency Support Function 2 will evaluate and analyze information regarding communications services requests. Also, Emergency Support Function 2 will develop and update assessments of the communications services status in the impacted area and undertake contingency planning to meet anticipate demands and needs.

d. Support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan.

e. Communications shall be represented in ESF 5 (Information and Planning) and keep management of ESF 5 fully apprised of developing conditions as relates to carrying out the Emergency Support Function 2 mission.

2. AREA

a. The Logistics Chief, in consultation with the requesting jurisdiction, may obtain additional communications service resources via established mutual aid agreements.

b. The Department of Management Services, State Technology Office, serves as the lead agency for communications service coordination and support and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 2 responsibilities and will function as coordinators, assessors, and operational personnel in support of EOC or field activities.

C. Alerts/Notifications

1. The impacted party will notify the County Warning Point when information comes to their attention indicating that an emergency or disaster situation is developing. The report will include all relevant information that is known at the time. Additional information should be reported as it becomes available.
2. The County Warning Point, will notify Marion County EM when the County or an area of the County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.
3. Upon instructions to activate ESF 2, Public Safety Communications will implement procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. Actions

Actions carried out by Emergency Support Function 2 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 2 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services may be provided:

- Assessment of potential impacts of scenario events and communications needs.
- Input into Incident Action Plans.
- Provision of communications personnel.
- Provision of communications equipment and supplies.
- Analysis of loss of functionality of communications system.
- Determination of available communications assets.
- Accumulation of damage information from assessment teams.
- Coordination of communications support.
- Prioritization of deployment of resources based on response needs.
- Communications management, command, and control of assets.
- Communications activities related to terrorist threats and/or events.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Communications response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 2 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 2. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Conduct all hazards exercises involving Emergency Support Function 2.
- Coordinate with ESF 5 (Emergency Management) to incorporate disaster intelligence into

ESF 2 training, preparedness and planning, including the use of this analysis to scale the mission requirements for ESF 2 in a hurricane or other major disaster.

- Assess the vulnerability of communications equipment and systems to the effects of storm surge, hurricane force winds, blast, and other natural, technological, and man-made hazards.
- Assess worst case scenario damage to the communications system, with emphasis on scenarios that will cause the loss of functionality of the system.
- Identify mission essential functions, including: 911 calls processing; emergency dispatch of Law and Fire/Rescue; and 24-hour answer point for County.
- Identify alternative facilities and systems that will serve as backup communications and dispatches in the event of major emergency that prevents the ECC from assuming or maintaining its mission essential functions.
- Train personnel in the following: 1) Incident Command System; 2) Procedures for pre-staging communications assets for rapid deployment to affected area; 3) COOP implementation.

2. RESPONSE ACTIONS

- Coordinate operations at the Emergency Support Function 2 office in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with County EOC, regional task force and State EOC.
- Communications support RDSTF in the investigation of a terrorist attack.
- Preposition response resources when it is apparent that communications resources will be necessary. Relocate communications resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct communications resources and response activities.
- Participate in EOC briefings, and meetings to prepare Incident Action Plans and Situation Reports.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County Emergency Support Functions to obtain resources and to facilitate an effective emergency response among all participating agencies.

3. RECOVERY ACTIONS

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.
- Continue to provide support as required to support the recovery phase.
- Initiate financial reimbursement process for these activities when such support is available.
- After the initial actions are completed, assist in recovery operations of the EOC. Support agencies will continue to provide necessary emergency communications.
- Assess communications systems for damage, including repair of towers and repeaters.
- Query other Public Safety agencies for damage reports.
- Query wireless providers and local media for damage reports.

- Contact other Emergency Support Functions to determine their communications requirements.

4. MITIGATION ACTIONS

- Coordinate with the LMS Steering Committee and Emergency Management to identify potential hazards and their impacts; and how these impacts may impede the Emergency Support Function 2 operation.
- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impacts of future disasters on communications systems in Marion County.

E. Direction and Control

1. Emergency Support Function 2 complies with the Incident Management System (NIMS). The NIMS guides the direction and control system adopted by Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.

2. The Emergency Support Function 2 system operates at two levels: 1) County Emergency Operations Center; and 2) Field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 2 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by the Sheriff's Office with status of the call lists updated at least monthly and all other documents at least annually.

5. All Communications field personnel are subordinate to the Emergency Support Function 2 at the County Emergency Operations Center.

6. In accordance with a mission assignment from Emergency Support Function 2, and further mission tasking by a Local primary agency, each support organization assisting Emergency Support Function 2 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 2

F. Responsibilities

1. PRIMARY AGENCY – MARION COUNTY PUBLIC SAFETY COMMUNICATIONS & MARION COUNTY SHERIFF'S OFFICE PUBLIC SAFETY COMMUNICATIONS

- Provide and maintain communications during an emergency.
- Provide Emergency Support Function 5 with updates on the potential impacts of winds on communications systems, resource shortfalls, and potential impacts on carrying out the Emergency Support Function 2 mission.
- Maintain an inventory of personnel, equipment, and vendors, which will be used in the

restoration of services.

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Communications Center)

- Provide communications for all their appropriate personnel.
- Marion Emergency Radio Team (MERT) provides communications at shelters, feeding sites, staging areas, distribution centers, and DRCs as needed.
- Provide technical assistance where necessary for our communications teams.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 2 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. Expenditures by support entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 3

Public Works and Engineering

Primary Agency: Marion County Office of the County Engineer

Support Agencies:
City of Belleview Public Works
City of Dunnellon Public Services
City of Ocala Engineering
City of Ocala Parks and Recreation
City of Ocala Public Works
Florida Department of Transportation
Marion County Fleet Management
Marion County Utilities
Marion County Parks and Recreation
Marion County Solid Waste

I. Purpose

The purpose of Emergency Support Function 3 is to provide Public Works and Engineering coordination and support life, safety, property and essential services during emergency events in Marion County. Emergency Support Function 3 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. Emergency Support Function 3 resources are used when individual agencies are overwhelmed and County Emergency Management Team requests additional public works and engineering service assistance.

II. Concept of Operations

A. General

1. Emergency Support Function 3 is organized consistent with State Emergency Operations Center and the Incident Command System. This structure and system supports incident assessment, planning, procurement, deployment and coordination, and support operations to Marion County through the Marion County Emergency Management Team, Area Operations, and State Emergency Response Teams to assure a timely and appropriate response to an emergency or situation.
2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Appendixes, Support Appendixes and Standard Operating Guidelines, which describe Emergency Support Function 3 capabilities.
3. In a large event requiring local or State mutual aid assistance, Emergency Support Function 3 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 3 will evaluate and analyze information regarding public works and engineering service requests for response, develop and update assessments of the impacted area, and undertake contingency planning to meet anticipated demands or needs.

B. Organization

1. COUNTY

1. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Marion County Office of the County Engineer staff to provide support that will provide for an appropriate, coordinated, and timely response.
2. During an emergency or disaster event, the Emergency Operations Center, Operations Section Chief will coordinate the support resources from ESF 3.
3. During the response phase, Emergency Support Function 3 will evaluate and analyze information regarding public works and engineering services requests. Also, Emergency Support Function 3 will develop and update assessments of the public works and engineering services status in the impacted area and undertake contingency planning to meet anticipate demands and needs.
4. Marion County Office of the County Engineer develops and maintains the overall Emergency Support Function 3 Emergency Operations Plan and accompanying Appendices, Appendixes and Standard Operating Guidelines that govern response actions related to emergencies. However, support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan.

2. AREA

1. The Operations Section Chief, in consultation with the requesting jurisdiction, may obtain additional public works and engineering service resources via established mutual aid agreements.
2. The Florida Department of Transportation serves as the lead agency for public works and engineering service coordination and support and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 3 responsibilities and will function as coordinators, assessors, and operational personnel in support of EOC or field activities.

C. Alerts/Notifications

1. Marion County Emergency Management will notify the County Warning Point when information comes to their attention indicating that an emergency or disaster situation is developing. The report will include all relevant information that is known at the time.
2. The County Warning Point, will notify Marion County EM when the County or an area of the County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.
3. Emergency Support Function 3 will be activated or placed on standby upon notification by the County Emergency Management Office. The primary and support Public Works and Engineering representatives or designees will jointly manage the emergency activities of Emergency Support Function 3.
4. Upon instructions to activate Emergency Support Function 3, Marion County Office of the County Engineer will implement procedures to notify and mobilize all personnel, facilities, and

physical resources likely to be needed, based on the emergency circumstance. Marion County will assist in facilitating this notification process.

D. Actions

Actions carried out by Emergency Support Function 3 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 3 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Public Works and Engineering response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 3 personnel (i.e., County, State, Regional, and Federal).
- Coordinate with Emergency Support Function 5 to assess potential damage, loss of functionality of essential facilities, and volume of debris (by category) to scale missions requirements for each function in ESF 3. Identify anticipated resource shortfalls.
- Incorporate findings into functional plans and concepts of operation, including the creation of geographical divisions of Marion County, as described in NIMS guidance.
- Address planning issues on an on-going basis to identify response zones and potential staging areas.
- Conduct planning with Emergency Support Function 3 support agencies, Regional Domestic Security Task forces, and other emergency support functions to refine Public Works and Engineering operations.
- Conduct training and exercise for EOC and Public Works and Engineering Team members.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and implement emergency response and Public Works and engineering strategies.
- Develop and present training courses for Emergency Support Function 3 personnel, provide information on critical facilities to the Marion County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Participate in all hazards exercises involving Emergency Support Function 3.
- Annually update and maintain inventory of the personnel, vehicles, and equipment to be used during the preparation, response, and recovery phases of an emergency or disaster.
- Prepare and maintain a list of personnel to ensure that the 24-hour staffing needs are met to facilitate the restoration of vital infrastructure.
- Maintain up to date pre/post event contracts for first push and debris monitoring.
- Maintain a list of construction contractors and engineering firms with active County contracts who would be available for infrastructure repairs.

- Prioritize and implement emergency clearing of debris from transportation routes to provide access for emergency response personnel, equipment, and supplies in areas affected by an emergency or disaster.
- Prioritize and implement the clearing, repair, or reconstruction of transportation facilities (i.e., streets, roads, bridges, ports, waterways, airfields) necessary to restore transportation capabilities.
- Prioritize and implement the restoration of critical public facilities and services
- Prepare a prioritized list and perform the demolition or stabilization of damaged public structures and facilities, which pose an immediate hazard or safety risk to the public health.
- Coordinate and assist other ESFs (Emergency Support Functions) within the Marion County EOC (Emergency Operations Center).
- When requested through Marion County's EOC, provide assistance to other local governments through existing inter-local agreements.

2. RESPONSE ACTIONS

- Coordinate operations at the Emergency Support Function 3 office in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with county EOC, regional task force and State EOC.
- Support mutual aid procedures for the following resources; Hazardous Materials (ESF-10), Interoperable Communications and Command Vehicles.
- Maintain Resource Management and Logistical Support.
- Deploying of Impact Assessment Teams to determine post-storm impact to Infrastructure Services functional group resources and ability to perform Continuity of Operations of essential functions.
- Mutual Aid procedures to assist with supporting issues related to a terrorist event.
- Public Works and Engineering support RDSTF in the investigation of a terrorist attack.
- Preposition response resources when it is apparent that public works and engineering resources will be necessary. Relocate public works and engineering resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct public works and engineering resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.
- Coordinate with support agencies, as needed, to support emergency activities.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County ESFs to obtain resources and to facilitate an effective emergency response among all participating agencies.

3. RECOVERY ACTIONS

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.
- Continue to provide support as required to support the recovery phase.

- Initiate financial reimbursement process for these activities when such support is available.

4. MITIGATION ACTIONS

- Identify and seek funds for retrofitting critical facilities and providing auxiliary power.
- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. Direction and Control

1. Emergency Support Function 3 complies with the Incident Management System (NIMS). The NIMS guides the direction and control system adopted by Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.

2. The Emergency Support Function 3 system operates in two levels: 1) County Emergency Operations Center; and 2) Field operations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 3 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Chiefs and staff at the County Emergency Operations Center assist the incident commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 3 Emergency Operations Plan, its accompanying Appendices, Appendixes, and Standard Operating guidelines are maintained by the Marion County Emergency Management with status of the call lists updated at least monthly and all other documents at least annually.

5. In accordance with a mission assignment from Emergency Support Function 3, and further mission tasking by a local primary agency, each support organization assisting Emergency Support Function 3 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 3.

F. Responsibilities

1. PRIMARY AGENCY – MARION COUNTY OFFICE OF THE COUNTY ENGINEER

- Serve as the lead agency for ESF 3, supporting the response and recovery operations after activation of the EOC and the secondary agency with respect to the Damage Assessment Team (Group). The Director, Building Inspections Department will be the Chair of the Damage Assessment Team. Engineering personnel will be paired up with Building Inspections personnel to conduct initial assessments of the disaster area and will provide assessment information to the Chairperson.
- Attend and document all EOC briefings to better disseminate any important information or actions to their staff and support agencies. This representative or their alternate should be prepared to provide status reports on all actions under the public works function (ESF 3) at each EOC briefing.
- Participate with the Operations Chief and the Road Department in setting priorities for road clearing to better assist ESF 9 (Search & Rescue) and their emergency response personnel.
- Coordinate the recovery efforts of support agencies under ESF 3 and the efforts of other ESFs under this plan.

- Assist other local governments under existing or future Mutual Aid Agreements made between Marion County and representatives of the local governments as coordinated through ESF 5 (Information & Planning).
- Maintain a listing of construction contractors and engineering consulting firms with active County contracts who would be available to assist with infrastructure repairs. Maintain an alternate list of contractors and engineers who do not have active County contracts, but who have expressed interest in assisting.
- Negotiate and administer design contracts with consulting engineering firms for the repair of storm water management systems and the transportation infrastructure, as required.
- Coordinate with County Purchasing in awarding and administering construction contracts for the repair of storm water management systems and the transportation infrastructure.
- Provide documentation on utilization of manpower, equipment, and costs directly related to emergency operations by the Road Department. This documentation should be provided to the representative under ESF 7 (Resource Support) for official record keeping.
- Manage all debris disposal.
- Approve of sites for open burning or air curtain incineration (Department of Solid Waste from the Florida Department of Environmental Protection). The Marion County Debris Management Plan is incorporated herein by reference.
- Office of the County Engineer will coordinate traffic signal assessment with FDOT and all municipalities.

2. SUPPORT AGENCIES

- Support agencies will provide assistance to the Emergency Support Function with services, staff, equipment, and supplies that complement the entire emergency response effort as the County Emergency Management Team addresses the consequences generated by the hazards that may impact the County (i.e., severe weather, tropical cyclones, environmental biological, terrorism, technological, and mass migration, etc.). Because services and resources are subject to change from time to time, emergency coordinators are responsible for frequently updating their resources capabilities with the Emergency Support Function 3.
- Emergency Management will provide EOC support, conduct briefings, direct needs assessments, distribute key information, and serve as liaison to the State EOC to request resources.
    - Identify and train the staff of the Marion County Office of the County Engineer in emergency and disaster response procedures. There will be a minimum of one representative at the EOC during full level activation.
    - The Marion County Office of the County Engineer representative will attend and document all EOC briefings to better disseminate any important information or actions to their staff. This representative or their alternate should be prepared to provide status reports on all actions taken by Marion County Office of the County Engineer personnel under ESF 3 at each EOC briefing.
    - Evaluate the initial damage assessment received from the Damage Assessment Team to participate in setting priorities for road clearing to better assist ESF 9 (Search & Rescue) and their emergency response personnel.
    - Provide in-house repair and construction services, as resources are available, after clearing and stabilization phases are complete.

- As a part of ESF 3, assist other local governments under existing or future Mutual Aid Agreements made between Marion County and representatives of the local governments as coordinated through ESF 5 (Information & Planning).
- Develop, maintain, and update annually an inventory showing the location of personnel, equipment, and supplies on hand to accomplish recovery of the transportation infrastructure of Marion County.
- Provide documentation, to Emergency Management, on utilization of manpower, equipment, and costs directly related to emergency operations by Road Department.
- Keep the ESF 5 (Information & Planning) and ESF 14 (Public Information Officer) at the EOC informed of the status (i.e., opened or closed) of each site, location, types of debris taken and hours of operation. Provide public service announcements to be released by ESF 14 at the EOC. Post all activated reduction and burn sites advising the public of dates and times of operations.
- Provide documentation on utilized manpower, equipment, and costs directly related to emergency operations to the representative under ESF 7 (Resource Support), for official record keeping and reporting to Federal and State for possible reimbursement.

Other Utility Companies

- Advise the ESF 3 representative of the status of restoration of utility services within service areas.
- Have one representative available to respond to questions and provide information at EOC briefings. Maintain one representative from each utility company until each is deactivated by the EOC. Provide damage assessment information to the Damage Assessment Team Chairperson so the Public Works representative can prioritize recovery operations.
- Provide adequate manpower to restore their particular utility.
- Provide documentation on utilized manpower, equipment, and costs directly related to emergency operations to their representative for official record keeping and reporting to Federal and State for possible reimbursement or make arrangements for separate D.S.R. from Federal or State governments.

Florida Department of Transportation

- Identify to the ESF 3 representative all critical State transportation routes requiring immediate clearing and restoration in order to save lives and property.
- Provide equipment and personnel for clearing of the prioritized transportation routes, which will allow emergency personnel and equipment to rescue and respond to an affected area.
- As the primary State of Florida agency for ESF 3, FDOT will coordinate the State's ESF 3 operations with the County's ESF 3.
- Provide documentation on utilized manpower, equipment, and costs directly related to emergency operations to their State representative under ESF 7 (Resource Support), for official record keeping and reporting to Federal and State for possible reimbursement or make arrangements for separate D.S.R. from Federal or State governments.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 3 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by support entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 4

Firefighting

Primary Agencies: Marion County Fire Rescue

Support Agencies: City of Ocala Fire Rescue
Division of State – Fire Marshall
Florida Forest Service
Florida Fire Chiefs' Association
US Forest Service

I. Purpose

The purpose of Emergency Support Function 4 is to provide Fire Service in coordination to support life, safety, property and essential services during emergency events in Marion County. Emergency Support Function 4 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. Emergency Support Function 4 resources are used when individual agencies are overwhelmed and County Emergency Management Team requests additional fire service assistance.

II. Concept of Operations

A. General

1. Emergency Support Function 4 is organized consistent with the Incident Command System. This structure and system support incident assessment, planning, procurement, deployment, and coordination and support operations to Marion County through the Marion County Emergency Management Team, Area Operations, and State Emergency Response Teams to assure a timely and appropriate response to an emergency or situation.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe Emergency Support Function 4 capabilities.

3. In a large event requiring local and State mutual aid assistance, Emergency Support Function 4 will coordinate with support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 4 will evaluate and analyze information regarding fire detection, suppression, and prevention requests for response, develop and update assessments of the fire service

situation and status in the impact area, and do contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Operations staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Emergency Operations Center Operations Section Chief will coordinate the support resources from ESF 4.

c. During the response phase, Emergency Support Function 4 will evaluate and analyze information regarding fire service requests. Also, Emergency Support Function 4 will develop and update assessments of the fire service status in the impact area and undertake contingency planning to meet anticipate demands and needs.

d. Emergency Management develops and maintains the overall Emergency Support Function 4 Emergency Operations Plan and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies. However, support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan.

2. AREA

a. The Operations Chief, in consultation with the requesting jurisdiction, may obtain additional fire service resources via established mutual aid agreements.

b. The Florida Department of Financial Services, the Division of State Fire Marshall serves as the lead agency for fire service coordination and support and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 4 responsibilities and will function as coordinators, assessors, and operational personnel in support of EOC or field activities.

c. If more than one county emergency management operation center is activated State fire service may support the coordination of the event response with regional resources or request additional resources from the State Emergency Operations Center, the Fire Service agencies will participate in a multi-Agency coordinating entity to coordinate requests for fire service resources among multiple Emergency Operations Centers.

C. ALERTS/NOTIFICATIONS

1. The applicable agency will notify the County Warning Point when information comes becomes known indicating that an emergency or disaster situation is developing. This report will include all relevant information that is known at the time. Additional information should be reported as it becomes available.

2. The County Warning Point, will notify Marion County EM when the county or an area of the County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.

3. Emergency Support Function 4 will be activated or placed on standby upon notification by Emergency Management. The primary and support fire departments will jointly manage the emergency activities of Emergency Support Function 4.

4. Upon instructions to activate Emergency Support Function 4, County and City Fire Departments will implement its operating procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 4 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 4 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services may be provided:

- Assessment of Fire Service needs and potential impacts.
- Fire Service personnel.
- Fire Service equipment and supplies.
- Evacuation and Re-entry support.
- Emergency responder health and safety.
- Radiological/chemical/biological hazards.
- Mental health and crisis counseling for responders.
- Fire Service Public Information and risk communication.
- Fire Service Management, Command and control of assets.
- Fire Service activities related to terrorist threats and/or events.
- Logistical Staging areas and Points of Dispensing.
- Catastrophic incident and alternate Fire Service facility support.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop fire service response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 4 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 4. This involves the active participation on inter-agency

preparedness organizations, which collaborate in such activities on a regular basis.

- Local and State Fire Departments will jointly address planning issues on an on-going basis to identify response zones, potential staging areas, potential medical facilities and establish specialized teams.
- Conduct planning with Emergency Support Function 4 support agencies, Regional Domestic Security Task forces, and other emergency support functions to refine Fires Service operations.
- Develop and refine procedures to be used in the following field surveys: Rapid Impact Assessment (i.e., recon), Community Fire Service assessment.
- Conduct training and exercise for EOC and fire service response team members.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and implement emergency response and fire fighting strategies.
- Develop and present training courses for Emergency Support Function 4 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Participate in all hazards exercises involving Emergency Support Function 4.

2. RESPONSE ACTIONS

- Coordinate operations of Emergency Support Function 4 in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with county EOC, Regional Domestic Security Task Force and the State EOC, or other coordination entities as appropriate.
- Establish Mutual Aid procedures for the following resources: Fire Suppression, Interoperable Communications, and Command Vehicles.
- Resource Management and Logistical Support.
- Implementation of Impact Assessment Teams to determine post-storm impact to Emergency Services and ability to perform Continuity of Operations of essential functions.
- Mutual Aid procedures to assist with supporting issues related to a terrorist event.
- Fire Service support RDSTF in the investigation of a terrorist attack.
- Preposition response resources when it is apparent that fire-fighting resources will be necessary. Relocate fire fighting resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct fire fighting resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.

- Coordinate with support agencies, as needed, to support emergency activities.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County ESFs to obtain resources and to facilitate an effective emergency response among all participating agencies.

3. RECOVERY ACTIONS

- The Operations Section Chief, in consultation with the requesting jurisdiction, may obtain additional fire service resources via established mutual aid agreements.
- The Florida Department of Financial Services serves as the lead agency for fire service coordination and support and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 4 responsibilities and will function as coordinators, assessors, and operational personnel in support of EOC or field activities.
- If more than one county emergency management operation center is activated fire service may support the coordination of the event response with regional resources or request additional resources from the State Emergency Operations Center, the State Fire Service agencies will participate in a Multi-Agency coordinating entity to coordinate requests for fire service resources among multiple Emergency Operations Centers.

4. MITIGATION ACTIONS

- Identify and seek funds for retrofitting critical facilities and providing auxiliary power.
- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. DIRECTION AND CONTROL

1. Emergency Support Function 4 complies with the Incident Command System (composed of Planning, Operations, Logistics and Finance/Administration Sections with their standardized positions, forms and terminology) to manage its emergency/disaster responsibilities. Key to this system is the Emergency Management Department, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. The Emergency Management Department also serves as the focal point for Emergency Support Function 4 activities. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions, and other private voluntary agencies have knowledge about the system and Emergency Support Function 4 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 4 system operates at two levels: 1) County Emergency Operations Center; and 2) Field operations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 4 commander. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Coordinators and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 4 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by the Marion County Emergency Management.

5. All Fire Departments field personnel are subordinate to the Emergency Support Function 4 at the County Emergency Operations Center.

6. In accordance with a mission assignment from Emergency Support Function 4, and further mission tasking by a local primary agency, each support organization assisting Emergency Support Function 4 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 4.

F. RESPONSIBILITIES

1. PRIMARY AGENCY – MARION COUNTY FIRE RESCUE

- Provide leadership in directing, coordinating, and integrating overall County efforts to provide fire service assistance to affected areas and populations.
- Staff and operate a Incident Management system compliant command and control structure (i.e., Incident Command System) to assure that services and staff are provided to areas of need.
- Coordinate and direct the activation and deployment of County agencies fire service personnel, supplies, and equipment and provide certain direct resources.
- Emergency Support Function 4 Representatives or designees will jointly evaluate the emergency situation, make strategic decisions, and identify resource needs and secure resources required for field operations.
- Monitor fire fighting emergency response and recovery operations. Emergency Support Function 4 Fire Chiefs or designees will coordinate all State and Federal fire fighting resources into the affected areas from staging areas.
- Manage fire fighting and other emergency incidents in accordance with each department's Standard Operating Guidelines and under the direction of Emergency Support Function 4 Representatives or designee.
- Make specific requests for fire fighting assistance to the State ESF 4/State Fire Marshal's Office, through the Marion County Liaison, as needed. The State will activate resources through the State Emergency Response Plan.
- Re-assess priorities and strategies, throughout the emergency, according to the most critical fire service needs.
- Assist with emergency evacuations and re-entry of threatened areas of the County.

- Demobilize resources and deactivate the ESF 4 station upon direction from the County Incident Commander.

- Emergency Management will provide EOC support, conduct briefings, direct needs assessments, distribute key information, and serve as liaison to the State EOC to request resources.

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with Emergency Management)

- Support agencies will provide assistance to the Emergency Support Function with services, staff, equipment, and supplies that compliment the entire emergency response effort as the County Emergency Management Team addresses the consequences generated by the hazards that may impact the County (i.e., severe weather, tropical cyclones, environmental biological, terrorism, technological, and mass migration, etc.). Because services and resources are subject to change from time to time, emergency coordinators are responsible for frequently updating their resources capabilities with the Emergency Support Function 4.
- County and City law enforcement agencies (Emergency Support Function 16) can provide crowd control, security measures, roadway assessments, and ingress/egress actions to protect the public and property in, near and around areas involved in fore fighting operations; keep emergency forces informed of hazardous areas.
- City, County, and private utilities (Emergency Support Function 12) will coordinate with Emergency Support Function 4 to address fire prevention and suppression problems due to leaking natural gas, downed power lines, and water flow problems.
- County Office of the Engineer (Emergency Support Function 3) and other departments will provide road clearing equipment and other major resources needed to clear roadways in support of emergency response actions.
- The Public Safety Communications (Emergency Support Function 2) will provide radio communications support, to the extent possible, to support communications among various Fire Department agencies responding to the impacted areas.
- American Red Cross and other community agencies (Emergency Support Function 6) will provide field support to emergency response personnel (food, water, basic assistance, etc.).
- The Florida Fire Chiefs' Association will work with the Department of Financial Services by forwarding requests for fire fighting assistance to the five regional response zones designated in the State of Florida Fire-Rescue Disaster Response Plan (prepared by the Florida Fire Chiefs Association).
- The Department of Agriculture and Consumer Services, Division of Forestry serves as a primary agency during activation of the State Emergency Operations Center for a wildfire, will also request and coordinate the use of all State controlled and/or Forestry Agency Compact assets that are ordered for control of wildfires.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 4 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by other department entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 5

Information and Planning

Primary Agency: Marion County Emergency Management

Support Agencies: Marion County Growth Services
Marion County Property Appraiser
Marion County Fire Rescue
Ocala Police Department
Marion County Sheriff's Office
Marion County Clerk of the Court, Finance Division

I. Purpose

The purpose of ESF 5 is to: 1) collect, analyze, and disseminate tactical information on the nature, scope and potential impacts of an incident or major disaster; 2) use this intelligence to support the Command Group, Logistics, and Operations in their impact assessment and response missions; and 3) identify and anticipate future needs and resource requirements, and incorporate this analysis into Incident Action Plans.

II. Concept of Operations

A. General

1. Emergency Support Function 5 is organized consistent with the Incident Command System in order to provide incident assessment, planning, procurement, deployment, coordination and support operations to Marion County through the Marion County Emergency Management Team, Area Operations and State Emergency Response Teams to assure a timely and appropriate response to an emergency or situation.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plan (i.e. Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe Emergency Support Function 5 capabilities.

3. In a large event requiring local or state mutual aid assistance, Emergency Support Function 5 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. The development of a fully functional, effective, and sustainable ESF 5 capability for Marion County will be guided by the following principles:

   a. All Emergency Support Functions will be fully integrated into all phases of ESF 5.

   b. ESF 5 will address the potential impacts of natural, technological, and man-made hazards.

   c. Planning for recovery will begin on Day 1 of the event through ESF 5.

   d. Emphasis will be given to pre-disaster planning for post-disaster utilization of disaster intelligence to support Incident Action Planning.

   e. Greater use will be made of proven technologies to support ESF 5, including HAZUS-MH, GIS, SLOSH, Hurrivac, and remote sensing.

5. Information and Planning will give priority to five fundamental, interrelated functions:

   a. Use of technology and human intelligence to collect, analyze, and disseminate information on disaster impacts, including direct impacts (people, buildings, infrastructure) and indirect impacts (debris generated, hazmat releases)

   b. Assess the capabilities of local government, the business community, and volunteer agencies to effectively respond to the disaster.

   c. Assess and prioritize the immediate needs of impacted communities and neighborhoods.

   d. Incorporate the analyses into Incident Action Plans that establish operational objectives, and identify resource requirements to accomplish these objectives.

   e. Utilize an Incident Action Matrix to establish priorities, assign tasks to agencies, and track progress in meeting objectives.

B. ORGANIZATION

1. COUNTY

   a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Emergency Management Department staff to provide support that will allow for an appropriate, coordinated, and timely response.

   b. The Emergency Management Department develops and maintains the overall Emergency Support Function 5 Emergency Operations Plan and accompanying Appendices, annexes and Standard Operating Guidelines that govern response actions related to emergencies. However support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan. Consistent with NIMS, ESF 5 will establish and integrate four interrelated intelligence and planning functions: 1) Intelligence; 2) Planning; 3) Documentation; and 4) Technical Services if needed.

2. AREA

a. The Florida Division of Emergency Management serves as the lead agency for Information and Planning coordination and support and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 5 responsibilities and will function as coordinators, assessors, and operational personnel in support of EOC or field activities.

C. ALERTS/NOTIFICATIONS

1. The Emergency Management Division will notify the County Warning Point when information comes to their attention indicating that an emergency or disaster situation is developing. The report will include all relevant information that is known at the time.

2. Upon instructions to activate ESF 5, the Emergency Management Department will implement procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 5 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 5 encompasses a full range of activities from training to the provision of field services.

1. PREPAREDNESS ACTIONS

Priority will be given to developing an enhanced ESF 5 capability in Marion County as part of an ongoing effort to ensure operational readiness for major or catastrophic disasters. This section highlights four key preparedness initiatives.

Intelligence Collection and Analysis

The ability to acquire, analyze, and disseminate information and intelligence on disasters and their impacts is fundamental to effective use of intelligence to establish operational and logistical objectives and priorities. Intelligence can be collected, analyzed, and used in support of three overlapping phases of disaster operations: pre-landfall (hurricanes); impact assessment and immediate response; and sustained response and initial recovery.

- *Pre-disaster* analyses (predicted impacts), which use HAZUS-MH, SLOSH and other predictive tools to estimate disaster impacts.
- Immediate, post-disaster *impact assessments*, which focus on: 1) disaster impacts on people, buildings, and infrastructure – with emphasis on

assessments of functionality of essential services; and 2) local response capabilities and immediate needs.

- Post disaster *damage assessments*, which assess buildings, infrastructure, debris and

Intelligence on predicted and observed disaster impacts will be used by ESF 5 to assess Marion County ESF capabilities (response and recovery).

Incident Action Planning

Disaster intelligence will provide critical input to the Incident Action Plan (IAP), which provides:

- current information that accurately describes the incident situation and resource status;
- predictions of the probable course of events;
- alternative strategies to attain critical incident objectives; and
- an accurate, realistic IAP for the next operational period.

In a hurricane operation, the National Hurricane Center issues Hurricane Advisories every six hours, and this information can be used by HAZUS-MH and other tools to estimate the area of impact, and potential impacts on people, buildings, and infrastructure. The IAP planning cycle should be synchronized to coincide with the six hour NHC Advisory cycle:

Training

Training is a critical Preparedness component of ESF 5. The objective is to develop and sustain a capability in Marion County to routinely implement each phase and function of ESF 5. Accordingly, training will address the following:

- ESF 5 – Planning and Information – overview of key components of ESF 5; role, requirements and integration of ESF 5 under NIMS.
- Intelligence and Analysis - procedures for identifying, collecting, prioritizing and utilizing intelligence.
- Use of Predictive Models – coordination with Florida DEM in use of HAZUS-MH and SLOSH for rapid needs assessment; templates; SOPs; identification of needed local expertise (GIS)
- Preparation and Utilization of Incident Action Plans

Exercises

Consistent with NIMS, Marion County may incorporate ESF 5 plans and procedures into exercises that will be conducted at the local and State level.

2. RESPONSE ACTIONS

The effectiveness of a response operation will be a function in large part by the ability of ESF 5 to generate accurate, timely and usable disaster intelligence *prior*

to, during and *after* an event occurring. Specific operational objectives and standards are outlined below, to guide the continued development of ESF 5 in Marion County.

3. RECOVERY ACTIONS

A Recovery Planning Unit may be established in the Marion County ESF 5. Its mission will be to use disaster intelligence – including disaster impacts on the population, buildings, and infrastructure – to identify major recovery issues, needs, priorities, and short-term strategies. The need for a Recovery Unit in ESF 5 is in acknowledgement of the following factors:

- As reflected in the figure below, planning for recovery should begin with initial analyses of the potential impacts of the disaster (for hurricanes, in the pre-landfall phase). Recovery planning under ESF 5 will address the following:

  - Building inspection requirements and priorities
  - Emergency and temporary housing issues
  - Business impacts (direct and indirect)
  - Debris management
  - Route clearance
  - Utilities restoration

Recovery Planning

Mitigation Actions

Pre- and post-disaster analyses of disaster impacts on buildings, infrastructure, and the general population can be used to support mitigation decision-making. Examples include:

- Analysis of the performance of essential facilities (hospitals, shelters, police, and fire) in scenario disasters can be used in mitigation measures to strengthen these facilities.
- Analysis of community economic impacts – including the total percentage of building stock damaged in disaster and replacement values – can be used in setting mitigation and recovery goals and priorities.
- The Local Mitigation Strategy Steering Committee can use ESF 5 analysis in adjusting mitigation goals, objectives, and priorities.

E. DIRECTION AND CONTROL

1. Emergency Support Function 5 complies with the Incident Command System (composed of Planning, Operations, Logistics and Finance/Administration Sections with their standardized forms and terminology) to manage its emergency/disaster responsibilities. Key to this system is the Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. Emergency Management also serves as the focal point for Emergency Support Function 5 activities. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions, and

other private voluntary agencies have knowledge about the system and Emergency Support Function 5 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 5 system operates in two arenas; 1) The County Emergency Operations Center; 2) field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 5 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Coordinators and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 5 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by the Emergency Management with status of the call lists updated at least annually.

5. In accordance with a mission assignment from Emergency Support Function 5, and further mission tasking by a Local primary agency, each support organization assisting Emergency Support Function 5 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 5.

F. RESPONSIBILITIES

1. PRIMARY AGENCY – EMERGENCY MANAGEMENT

- Direct and manage the ESF 5 function, including the four branches: Intelligence, Planning, Technical Services, and Documentation.
- Collect and process information received from Rapid Impact Assessment Teams (RIAT) and predictive models, analyze this information, and share with the Planning section.
- Identify and train County staff to support the (4) ESF 5 sections, as outlined in the Plan.
- Ensure that requests for RIAT and RRT are forwarded to the SEOC in accordance with SOP's.
- Coordinate the development and implementation of the Preparedness activities, as outlined in the Plan.
- Coordinate with ESF 5 in the Florida Division of Emergency Management (DEM) in accessing and utilizing analysis from HAZUS-MH, SLOSH, and other tools to support the Intelligence section.
- Coordinate with ESF 7, Resource Management, to ensure that all available resources are logged and requests for resources are filled.
- Ensure that copies of all news releases and situation reports are transmitted to the SEOC (if present, this will be the responsibility of a SERT Liaison).

2. SUPPORT AGENCIES

(Note: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Emergency Management)

- The Property Appraisers Office is responsible for the establishment, staffing, and training of damage assessment teams within their jurisdiction. Teams will consist of County/City staff, supplemented with local specialists, and be deployed to impacted areas to perform preliminary damage assessments.
- The Road Department will support the damage assessment teams by providing staff to inspect roads and bridges.
- The Volunteer fire departments will assist in conducting needs assessments during their search and rescue operations. These reports will be transmitted to the ESF 4 representative who will forward the information to ESF 5.
- The Department of Health, Environmental Health Services will collect information and intelligence on estimated damages to health and medical facilities, and identification of potential impediments to response and immediate recovery.
- The Marion County School Board will provide intelligence transportation requirements and potential shortfalls in moving evacuees to designated shelters.
- The American Red Cross will provide information and analysis on shelter needs, shortfalls, potential impediments to the shelter mission and forecasts of future shelter requirements.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 5 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. Expenditures by support entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 6

Mass Care

Primary Agency: Marion County Emergency Management

Support Agencies:
American Red Cross
United Way
Salvation Army
Interfaith
Marion County Fire Rescue
Marion County Public Schools
Marion County Senior Services
Marion County Sheriff's Office
College of Central Florida
Community Foundation for Ocala/Marion County

I. Purpose

The purpose of Emergency Support Function 6 is to coordinate the emergency provision of temporary shelters, emergency mass feeding, and the bulk distribution of coordinated relief supplies for victims of a disaster and disaster workers. Emergency Support Function 6 resources are used when individual agencies are overwhelmed and County Emergency Response Team requests additional mass care, mass feed assistance, and bulk distribution of coordinated relief supplies.

II. Concept of Operations

A. General

1. Emergency Support Function 6 is organized consistent with State Emergency Operations Center and the requirements of the National Response Plan, the National Incident Management System, and the Incident Command System. This structure and system support incident assessment, planning, procurement, deployment, and coordination and support operations to Marion County through the Marion County Emergency Management Team, Area Operations, and State Emergency Response Teams to assure a timely and appropriate response to an emergency or situation.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe Emergency Support Function 6 capabilities (based on the National Planning Scenarios, the Universal Task List, and the

Target Capabilities). Periodic training and exercises are also conducted to enhance effectiveness.

3. In a large event requiring local or State mutual aid assistance, Emergency Support Function 6 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 6 will evaluate and analyze information on requirements for mass care, mass feeding and bulk distribution of relief supplies; develop and update assessments of the mass care and mass feeding situation and status in the impact area; and undertake contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

6. The State of Florida has adopted ARC 3041 as model shelter guidelines. Regardless of the scale of the emergency or disaster, all shelters should be managed in accordance with these guidelines. The American Red Cross will train without charge shelter managers and shelter staff to operate shelters under American Red Cross guidelines.

7. ESF 8 has been tasked to address the requirements of persons with special needs, including their sheltering requirements. ESF 6 will coordinate with ESF 8 to ensure regular diet feeding at the special needs shelter. Special diet requirements will remain the responsibility of ESF 8.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the support agencies staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Emergency Operations Center, Operations Section Chief will coordinate the support resources from the support agencies.

c. During the response phase, Emergency Support Function 6 will evaluate and analyze information regarding mass care, mass feeding, and bulk distribution of relief supplies. Also, Emergency Support Function 6 will develop and update assessments of the mass care services status in the impact area and undertake contingency planning to meet anticipate demands and needs.

d. The Marion County Emergency Management develops and maintains the overall Emergency Support Function 6 Emergency Operations Plan and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies. However support agencies may develop and maintain their own similar documents for internal

use, which must be compatible with and in support of the overall Emergency Operations Plan.

e. Emergency Support Function 6 falls under the Operations Section, and is closely coordinated with the other Emergency Support Functions that address basic needs of the impacted population: Food and Water (ESF 11), Volunteers and Donations (Emergency Support Function 15), Animal Protection (ESF 17) and Special Needs (ESF 8). Emergency Support Function 6 organization will be guided by the following:

- ESF 6, will provide input to the Operations Section in the assessment of the magnitude of the problem (ESF 5); the identification of operational priorities; and assessments of resources needs and potential shortfalls.
- Primary and support agencies will provide sufficient personnel to staff the Emergency Support Function 24 hours per day, seven days per week. The staff will be qualified persons able to facilitate decisions for the department they represent.
- Emergency Support Function 6 coordinator at the EOC will be the coordinating link or conduit for the operations during an emergency or disaster operation.
- The Red Cross chapter DOC will continuously provide support information to the Emergency Support Function 6 representative at the EOC by providing comprehensive reports on all sheltering and mass feeding operations. These comprehensive reports will address openings, closings, shelter locations, shelter censuses and mass feeding locations.
- Support agencies, other than those represented at the EOC, will coordinate all their responsibilities under Emergency Support Function 6. This information will be condensed and forwarded to the Emergency Support Function 6 representative at the EOC.
- The EOC leadership will determine the need to establish a County Staging Area to receive disaster related commodities from the State Logistics Staging Area or if directed from Federal Mobilization Sites or Federal Staging Areas. County Staging Areas receive these disaster commodities, account for them, store commodities as required, ship commodities to Points of Distribution, redirect and recover unused supplies.

2. AREA

a. The Human Services Branch Chief, in consultation with the requesting jurisdiction, may obtain additional mass care resources via established mutual aid agreements.

b. The Florida Department of Business and Professional Regulation serve as the lead agency for Emergency Support Function 6 coordination and support and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 6 responsibilities and will function as coordinators, assessors, and operational personnel in support of EOC or field activities.

C. ALERTS/NOTIFICATIONS

1. The County Warning Point will notify the Marion County Emergency Management when information comes to their attention indicating that an emergency or disaster situation is developing. The report will include all relevant information that is known at this time. Additional information should be reported as it becomes available.

2. Emergency Support Function 6 will be activated or placed on standby upon notification by the County Emergency Management Department. The primary and support Mass Care representatives or designees will jointly manage the emergency activities of Emergency Support Function 6.

3. Upon instructions to activate Emergency Support Function 6, the applicable agencies will implement procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 6 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 6 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services.

- Assessment of the potential disaster impacts on the general population, including vulnerable groups that are identified in the Basic Plan.
- Emergency responder health and safety.
- Mental health and crisis counseling for responders.

1. PREPAREDNESS ACTIONS

a. General

- Actions and activities that develop Mass Care response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 6 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 6. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Conduct planning with Emergency Support Function 6 support agencies, Regional Domestic Security Task forces, and other emergency support functions to refine Mass Care operations.
- Conduct training and exercise for EOC and Mass Care Team members.

- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and present training courses for Emergency Support Function 6 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Participate in all hazards exercises involving Emergency Support Function 6.

b. Shelter Planning

- Work with local government, and voluntary service delivery units, Marion County Emergency Management, Marion County School District, and other applicable agencies in activities related to survey the suitability of facilities to be used as shelters utilizing Florida State standards adopted from ARC 4496 as guidelines.
- Maintain and annually update a roster of primary contact Emergency Support Function 6 Personnel representing each agency under ESF 6.
- Coordinate closely with the EOC and Emergency Management to ensure an annually updated shelter list is available and maintained at the EOC.
- Work with EOC to ensure an up-to-date comfort station resource list is available from the supporting agencies under Emergency Support Function 6.
- Coordinate with the EOC in the assessment of public need to determine the opening or closing of public shelters before and after an emergency or disaster event.

c. Mass Feeding

- Coordinate with Emergency Support Function 5 and Emergency Support Function 11 to develop and refine procedures for establishing and operating mass feeding sites, to be operated by volunteer agencies.
- Coordinate with Logistics in establishing, managing, and supplying mass feeding sites.

2. RESPONSE ACTIONS

a. General

- Coordinate operations of Emergency Support Function 6 in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with county EOC, regional task force and State EOC.

- Activate mutual aid procedures to assist with supporting issues related to a terrorist event.
- Implement mass care support RDSTF in the investigation of a terrorist attack.
- Pre-position response resources when it is apparent that Mass Care resources will be necessary. Relocate Mass Care resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct public works and engineering resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.
- Coordinate with support agencies, as needed, to support emergency activities.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County Emergency Support Functions to obtain resources and to facilitate an effective emergency response among all participating agencies.

b. Shelter Management

- Once the CEMP is activated, Emergency Support Function 6 will be organized in a manner that ensures rapid response to the mass care needs of people affected by a disaster. When activated, agencies in ESF 6 will operate under these plans and financially support their own activities.
- Emergency Support Function 2: Ensure that each shelter has a working communications system and has contact with Marion County EOC and the Marion County Public Schools. This may include radio, telephone, and/or cellular telephone communication devices. The ESF 6 Representative at the EOC will keep the EOC director and ESF 2 informed about any unmet need regarding communications.
- Open shelters in accordance with public need as assessed by the managing agency and county emergency management.
- Monitor occupancy levels and ongoing victim's needs and will provide the EOC with a daily listing of "Open" shelters.

c. Mass Care

- Coordinate with Emergency Support Function 8 (Health and Medical) to ensure people at mass care sites with the need for a level of care higher than the standard first aid will have their need addressed.
- Ensure that a sufficient number of first aid trained and qualified personnel are stationed at each mass care site.
- Coordinate with Emergency Support Function 15 (Volunteers and Donations) regarding the use and coordination of voluntary agencies who spontaneously engage in providing mass care.

- Emergency Support Function 12 (Energy): Provide for power service restoration to mass care sites and for the acquisition of supplemental power sources.
- Emergency Support Function 16 (Law Enforcement): Provide security resources needed at mass care sites. Marion County Sheriff's Department provides security at shelter, and Mass care facility locations in the county provide security at shelter and Mass care facility locations in the city limits.

d. Mass Feeding

- Provide information to and coordinate with Emergency Support Function 5 and Emergency Support Function 11 regarding mass feeding sites established by the American Red Cross, Salvation Army, United Way, Interfaith, Marion County Churches, and other volunteer agencies.
- Coordinate with Emergency Support Function 5 and Emergency Support Function 11 to establish mass feeding sites operated by volunteer agencies. The first priorities of mass feeding activities will be disaster victims. Emergency workers will be encouraged to utilize established mass feeding sites in lieu of individual site distribution.
- Coordinate mass feeding locations to ensure optimal logistics for public service based on emergency needs.
- Emergency Support Function 3 (Public Works and Engineering) and Emergency Support Function 8: Coordinate sanitation provisions through daily inspection and garbage removal from mass sheltering and feeding sites.
- Emergency Support Function 11 and Emergency Support Function 15: Coordinate with Emergency Support Function 6 in provision of food and water to mass feeding sites. This will include procuring food from the USDA, donations, and private vendors.
- Emergency Support Function 11: Coordinate with Emergency Support Function 6 to identify the need for storage and distribution of food for mass feeding sites.
- Provide staffing in the EOC under coordination of the lead agency if required. Agencies may be called upon to supply clerical/ administrative personnel.

3. RECOVERY ACTIONS

- Continuously monitor occupancy levels and ongoing victims' needs and will provide the EOC with a daily listing of open shelters.
- Ensure a copy of the Shelter Registration Form will be forwarded to the American Red Cross "Disaster Welfare Inquiry", this form will have a post disaster address for each person housed at the shelters who provided that information upon their final departure. This will assist in reuniting families that may have been separated during the disaster incident.
- Coordinate the consolidation of shelters, staff, resources (i.e., communications and law enforcement), and supplies as sheltering needs diminish.

- Continue to coordinate with Emergency Support Function 5, Emergency Support Function 11, and Emergency Support Function 15 to establish and maintain mass and mobile feeding sites. The need and location of these sites will be reviewed and evaluated daily. Sites may be closed when no longer needed and feeding routes for mobile units should be established or changed according to need.

4. MITIGATION ACTIONS

- Participate in shelter deficit reduction strategies/activities and shelter demand studies.
- Work with the Marion County Emergency Management on public education programs to reduce shelter demand.
- Educate citizens on disaster preparedness activities.

E. DIRECTION AND CONTROL

1. Emergency Support Function 6 complies with the National Response Plan, and the National Incident Management System (NIMS). The NIMS guides the direction and control system adopted by Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.

2. The Emergency Support Function 6 system operates at two levels: 1) County Emergency Operations Center; and 2) Field operations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 6 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Sections staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. All Mass Care field personnel are subordinate to the Emergency Support Function 6 at the County Emergency Operations Center.

F. RESPONSIBILITIES

1. PRIMARY AGENCY: EMERGENCY MANAGEMENT

a. Provide training in Emergency Support Function 5, including the use of disaster intelligence to support decision-making (pre- and post-disaster).

b. Support first responders, including provision of food and water.

c. Coordinate with Emergency Support Function 6 in addressing employee well-being issues, particularly in major disasters that place a burden on emergency managers.

2. Support Agencies

(NOTE: Each Support Agency should review its own roles and responsibilities)

a. Marion County Public Schools

- Marion County Public Schools will represent Emergency Support Function 6 (Mass Care) and the support agencies during activation of the EOC due to an emergency or disaster.
- The MCPS will open impact shelters and establish fixed feeding sites within the shelters. First aid and counseling will be available at mass care sites.
- The MCPS will develop and maintain a roster of personnel to staff an ESF desk. Ensure the presence of resource materials in sufficient quantities in the ESF EOC location. These materials would include:
  - Shelter listings for Marion and Surrounding Counties.
  - Locations of all operating mass feeding sites and major feeding routes.
  - Provide buses for logistical supplies to the shelters.

b. American Red Cross

- Support Emergency Support Function 6 sheltering activities with personnel and facilities.
- The ARC will open host shelters and establish fixed feeding sites within the shelters. First aid and counseling will be available at mass care sites.
- Support Emergency Support Function 6 by providing personnel and equipment to assist with accomplishing its Mass Care mission responsibilities.
- Support Emergency Support Function 6 mass feeding through ARC resources.

d. FDOH in Marion County

- Supply personnel and equipment to provide medical services in shelters.
- Assist through Emergency Support Function 8 in supplying personnel and equipment to provide emergency transportation of medically needy persons from shelters to more advanced care facilities.
- Under Emergency Support Function 8, Emergency Medical Services will assist in providing mass care to persons with special needs.
- Emergency Support Function 8 will supply personnel to monitor and control public health factors to prevent the spread of decease at mass care sites (see ESF 8 for details).

e. Marion County Sheriff's Department

- Assist through Emergency Support Function 16 in supplying personnel and equipment to provide security at Mass Care sites (see ESF 16 for details).

f. Municipal Police Department

- Assist through Emergency Support Function 16 in supplying personnel and equipment to provide security at Mass Care sites (see ESF 16 for details).

g. Salvation Army

- Support Emergency Support Function 6 with information regarding Salvation Army services in the impacted area. Provide staff to the ESF 6 desk when requested. Supply lists of Salvation Army personnel and facilities in Marion County to the Emergency Support Function 6 representative.
- The Salvation Army will establish mobile and fixed feeding sites. They are the primary agency for managing comfort stations. They will assist in the distribution of relief supplies. Provide crisis counseling, and supplement shelters where needed.

h. Volunteers of Marion County

- Refer spontaneous volunteers wishing to assist in providing Mass Care.
- Refer ad hoc voluntary and other groups wishing to assist in providing mass care.

i. Marion County Fire Rescue

- Supply personnel and equipment to assist with providing feeding support to the EOC and emergency workers.

G. Financial Management

1. Emergency Support Function 6 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. Expenditures by support entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 7

Resource Support

Primary Agency: Marion County Emergency Management

Support Agencies: Marion County Finance Department
Marion County Clerk of the Court
Marion County Sheriff's Office
Private Partners
All agencies with resource needs during the event

I. Purpose

The purpose of Emergency Support Function 7 is to acquire the necessary resources to support disaster operations. Provide fiscal and logistical managerial support through timely and efficient acquisition and distribution of resources, purchasing, contracting, renting, and leasing of supplies and equipment. Provide coordination of the documentation of reimbursable expenditures as determined by the Federal Emergency Management Agency (FEMA).

II. Concept of Operations

A. General

1. Emergency Support Function 7 is organized consistent with State Emergency Operations Center and the requirements of the Incident Command System. This structure and system support incident assessment, planning, procurement, deployment, and coordination and support operations to Marion County through the Marion County Emergency Management Team, Area Operations, and State Emergency Response Teams to assure a timely and appropriate response to an emergency or situation.

2. Procedures, protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe Emergency Support Function 7 capabilities.

3. Resource needs during response and recovery operations will likely be met through the State Emergency Operations Center and/or Statewide Mutual Aid Agreement. Priority for resource acquisition will be given to those services and materials that are necessary to protect life and ensure the safety and security of survivors.
4. The focal point for all requests for resources will be the Emergency Operations Center (EOC). Resource requests unable to be provided by applicable ESFs will

be routed to the Logistics Section. In coordination with Logistics Section, the Emergency Support Function 7 representative will determine the sources of the needed resources. The Emergency Support Function 7 representative will follow procedures as outlined in the Logistics Standard Operating Procedures.

a. *Procurement Process*

- Equipment and materials will be procured from both intra-departmental and inter-departmental supplies. Requests unable to be filled by in-County inventories are procured by the Logistics Section from commercial vendors. Sources include assets within county government and the municipalities. During disaster situations, all resources within county government agencies are considered available. Coordination for such resource reallocation will be accomplished within the EOC. If necessary, reimbursement will be made in accordance with local directives.
- If needed supplies and equipment are not available within county government resources, Emergency Support Function 7 will attempt to purchase or lease them from commercial sources.
- When resources cannot be acquired through local sources, requests for these items will be made to the State EOC. These requests may be filled by state resources, Intra state mutual aid, interstate mutual aid, or federal resources.

  Note: The County will be responsible for costs incurred for resources brought in from outside sources. If the county has been declared for federal disaster assistance, funds expended for requested resource support are reimbursable.

- The Statewide Mutual Aid Agreement will be implemented as necessary to obtain required goods and services from other jurisdictions.
- Contracts for resources or services will be initiated by Emergency Support Function 7. Contracts will be managed by the agency responsible for the support provided.
- Emergency Support Function 7 will conduct operations in accordance with all local, state, and federal laws and regulations.
- In some cases, needed resources may be available thru donations and volunteers. Coordination will be maintained between Emergency Support Function 7 and Emergency Support Function 15 on a continual basis.
- Information is disseminated to volunteer groups, vendors and other governmental agencies that may supplement local resources in a variety of ways. Volunteer organizations have direct participation in emergency operations in Marion County.

5. Transportation requirements will be coordinated through Emergency Support Function 1.

    a. All available transportation assets will be used to deliver resources to affected areas.

    b. Sources include county and municipal assets, as well as those belonging to private nonprofit organizations.

    c. Existing County resources will be transported to the disaster area by the County department normally responsible for the resources.

    d. Commercial vendors are responsible for transportation of their own product/service.

6. Staging Areas.

    a. The County Staging Area is mission tasked and reports to the Logistics Section.

    b. Marion County Emergency Management office manages the CSA.

7. Storage Facilities. There are numerous storage facilities available throughout the county. Emergency Support Function 7 will identify and lease any further storage space that would be necessary. Leasing of additional buildings or warehouses is not anticipated due to the amount of property holdings by the County.

    a. The replacement of any damaged or destroyed facilities would be accomplished by relocating the affected personnel to other county-owned buildings, or space obtained as outlined above, temporarily until the damaged facilities can be repaired or replaced by County personnel or through contractual arrangements secured on an emergency basis through Emergency Support Function 7.

8. It is the responsibility of agencies receiving loaned property to maintain appropriate accountability of items received.

    a. Agencies will monitor and track loaned items.

    b. Documentation will be provided to lending organizations for their records.

B. ORGANIZATION

1. COUNTY

During an emergency or disaster, the primary and support agencies of Emergency Support Function 7 will assign personnel to the Marion County Emergency Operations Center. In addition, Emergency Support Function 7 will:

- Operate under the direction of Emergency Management.
- Operate throughout the emergency, either in the Marion County Emergency Operations Center, or at a location designated by the Finance/ Admin Chief in coordination with Emergency Management.
- Alert designated primary personnel of possible resource needs and to report to the Marion County Emergency Operations Center.

- Maintain liaison with other Emergency Support Functions and interested parties.
- At the tasking of the Logistics Chief, take action if another Emergency Support Function requires assistance in obtaining needed items. Emergency Support Function 7 finds a source for needed items and provides to the requesting emergency support function the name of the contact person, the price and schedule for when the material can be made available at the established location.
- Unless otherwise directed and in order to provide resource support when needed during disaster operations, the Emergency Support Function 7 function will be staffed on a 24 hour basis at the EOC.

C. ALERTS/NOTIFICATIONS

1. Notification of the impending disaster from the County EOC. Employees receive verbal notification of the status of the disaster. Employees are instructed to report to the EOC or other work assignments as needed. All employees are considered to be on stand-by and make themselves available by telephone, cellular phone, or pager.

D. ACTIONS

Actions carried out by Emergency Support Function 7 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Resource capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 1 personnel (i.e., County, State, Regional, and Federal).
- Assist in the coordination of documents for Emergency Declaration.
- Prepare documentation for public assistance requests from outside agencies and for impending damage survey reports (DSRs) from County departments and Constitutional Officers.
- Establish a work schedule for staff to report to the EOC before, during, and after the storm and a general outline of individual responsibilities.
- Pack office supplies, telephone lists, disaster files, and laptops for transfer to the EOC.
- Keep disaster file up to date with phone numbers of employees, State EOC, and FEMA representatives. Establish emergency contact persons for all support agencies and outside agencies who are likely applicants for public assistance. Obtain home phone, cellular, and/or pager numbers for each agency's designated contact persons.
- Place Clerk of Court personnel on standby or direct to staging areas with some facilities staffed for immediate response.

2. RESPONSE ACTIONS

- Coordinate operations of Emergency Support Function 7 in the County Emergency Operations Center and/or at other locations as required.
- Act as County representative agency for all FEMA communications and documentation requirements.
- Coordinate reporting of initial disaster information and estimates to the FEMA representative. Act as liaison between FEMA and all outside agency applicants for public assistance.
- Provide fiscal guidance, technical support, and funding options to the BOCC and EOC.
- Provide other support as requested by Emergency Management. Prepare budget transfers, amendments, or loan documents for approval by the BOCC.
- Fulfill other responsibilities as ESF-7 Lead Agency. Coordinate as necessary with the Office of the Clerk of the Court. Support agencies may be directed to deploy personnel and other resources.
- Activate, dispatch, and deactivate/recall resources utilizing EMConstellation. Procedures for creating missions in EMConstellation are contained in the EOC.
- Lease buildings for staging area warehouses, or to replace damaged or destroyed facilities.
- Provide communications resources in coordination with Emergency Support Function 2.
- Provide transportation resources in coordination with Emergency Support Function 1.
- Assist, facilitate, and coordinate contractual services between the County and commercial sources.
- Provide office furniture, equipment, and supplies from existing County inventories, or have them procured.
- Provide food and fuel in cooperation with Emergency Support Functions 11 and 12 respectively.
- The Emergency Management office will maintain records for all properties loaned to Emergency Support Function 7 in support of the County Emergency Operations Center by the state or federal governments.

3. RECOVERY ACTIONS

Emergency Support Function 7 will support the County's Logistics Section with providing logistical support for:

- Staff movement.
- Procuring equipment after disaster events.

4. MITIGATION ACTIONS

- Work with other county agency and local purchasing directors and other purchasing agents.

- Encourage local jurisdictions to work with the County Emergency Operations Center personnel to build data bases for acquisition of goods and services that may be needed for preparedness, response, and recovery.

E. DIRECTION AND CONTROL

1. Emergency Support Function 7 complies with the National Incident Management System.

2. The Emergency Management office is responsible to the BOCC for the operation of resources during normal operations and emergencies. In times of emergency, when the County Emergency Operations Center is in operation, the ESF 7 Coordinator works directly with the senior official in the emergency operations center to meet the needs of this support function.

3. Emergency Support Function 7 supports the Logistics Section.

F. RESPONSIBILITIES

1. PRIMARY AGENCY – MARION COUNTY EM

- Responsible for allocating and coordinating resources and support activities through Emergency Support Function 7. Designated support agencies will furnish resources as required. Such support will be terminated at the earliest practical time.
- Provide support staff for the procurement of commodities and services, the leasing of buildings, and other facilities and facilities management.
- Coordinate and allocate food, equipment, and supplies made available through current county stocks or if necessary, from commercial sources.
- Serve as the primary agency for Emergency Support Function 7 and be present at the Marion County Emergency Operations Center and/or on call at the Clerk of Court Offices on a 24-hour basis.
- Identify funding for emergency expenditures.
- Maintain records of expenditures.
- Keep the Board and County Coordinator informed of expenditure and reimbursement information.
- Coordinate recovery actions with FEMA to include the DSR process.
- Provide training to EOC agencies for proper financial management during disasters.
- Serve as County's point of contact for financial management activities

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Marion County Clerk of Court)

Emergency Support Function support agencies (Finance, Information Resources & Purchasing) will provide manpower and any materials (additional computer hardware/software, vendor contacts, etc.) dependent on the characteristic needs of the impending disaster.

a. Purchasing

- Develop memorandums of understanding with vendors for essential items needed before and after a disaster.
- Provide staff in EOC to coordinate resource requests.
- Identify suppliers for resources.

b. Information Resources

- Protect vital County computer records.
- Provide staff assistance to EOC as requested.

G. FINANCIAL MANAGEMENT

1. The power to temporarily suspend such procedures and formalities is granted under Chapter 252.38 of Florida Statutes.
2. Once the Emergency Declaration is in effect Emergency Support Function 7, in conjunction with the support agencies, assumes the full responsibility for resource support for all BOCC departments and other Elected Officials within the guidelines of the Emergency Declaration.
3. All inter-departmental and a portion of intra-departmental procurement from existing inventories is handled on the departmental level with no assistance from Emergency Support Function 7. If this course is pursued, departments are instructed to document all transactions pursuant to FEMA audit requirements.
4. Resources obtained from outside sources (other governmental entities or commercial suppliers) are routed through Emergency Support Function 7 as necessary.
5. Expenditures for cost recovery are documented through the F-ROC forms during the incident and after the incident period. All response agencies work with Emergency Support Function 7 personnel in notifying the Department of Administration of expenditures based on standard accounting procedures.
6. Each county agency is responsible for tracking its own costs associated with Emergency Support Function 7operations, using the standard procedures established by the support agency's standard accounting and tracking procedures.
7. Each county agency will file for reimbursement of the costs it incurs through its own agency's accounting and reimbursement filing system. Each county agency is responsible for monitoring staff hours using its own tracking system, and requesting financial reimbursement for staff hours incurred in association with Emergency Support Function 7 operations.
8. The State Emergency Operations Center through the Marion County Emergency Operations Center will provide appropriate forms, and provide guidance to complete forms for efficient tracking and reimbursement.

Emergency Support Function (ESF) 8

Health and Medical

Primary Agency: Florida Department of Health in Marion County

Support Agencies: Marion County Fire Rescue
HCA Florida Ocala Hospital
Advent Health Hospital
American Red Cross
Medical Examiner's Office

I. Purpose

The purpose of Emergency Support Function 8 is to provide health and medical coordination in support of emergency events in Marion County. Emergency Support Function 8 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. The Emergency Support Function 8 Liaison is appointed by and located in the FDOH in Marion County and directs all aspects of emergency management. Emergency Support Function 8 resources are used when individual agencies are overwhelmed and the County Emergency Management Team requests additional Health and Medical assistance.

II. Concept of Operations

A. General

1. Emergency Support Function 8 complies with the Incident Management System. The NIMS guides the direction and control system adopted by Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines

3. In a large event requiring local or State mutual aid assistance, Emergency Support Function 8 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 8 will evaluate and analyze information regarding medical and public health assistance requests for response; develop and update assessments of the health and public health situation and status in the impact area and; undertake contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode (i.e., hospital evacuation, biological threat, hazardous materials release, pandemic disease or radiological event.) technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Health Department staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Emergency Operations Center, Operations Section Chief will coordinate the support resources from the ESF 8.

c. During the response phase, Emergency Support Function 8 will evaluate and analyze information regarding health and public health assistance requests. Also, Emergency Support Function 8 will develop and update assessments of the Health and Medical status in the impact area and does contingency planning to meet anticipate demands and needs.

d. FDOH in Marion County and support agencies develop and maintains the overall Emergency Support Function 8 Emergency Operations Plan and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies. However, support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan.

C. ALERTS/NOTIFICATIONS

1. Marion County Health Department will notify the County Warning Point when information comes to their attention indicating that an emergency or disaster situation is developing. The report will include all relevant information that is known at this time. Additional information should be reported as it becomes available.

2. The County Warning Point will notify the Marion County EM when the county or an area of the County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.

3. Emergency Support Function 8 will be activated or placed on standby upon notification by Emergency Management. The primary and support Health and

Medical representatives or designees will jointly manage the emergency activities of ESF 8.

4. Upon instructions to activate ESF 8, FDOH in Marion County will implement procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 8 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 8 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services provide framework upon which actions will occur:

- Assessment of Health and Medical needs and potential impacts.
- Health and Medical personnel.
- Health and Medical equipment and supplies.
- Emergency responder health and safety.
- Radiological/chemical/biological hazards.
- Mental health and crisis counseling for responders.
- Health and Medical Public Information and risk communication.
- Health and Medical Management, Command and control of assets.
- Health and Medical activities related to terrorist threats and/or events.
- Evacuation support.
- Logistical Staging and Points of Distribution.
- Hazardous Materials facility support.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Health and Medical response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 8 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 8. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Jointly address with State Health and Medical the planning issues on an on-going basis to identify response zones, potential staging areas, and potential medical facilities and establish specialized teams.
- Conduct planning with Emergency Support Function 8 support agencies, Regional Domestic Security Task forces, and other emergency support functions to refine Health and Medical operations.
- Develop and refine procedures to be used in the following field surveys: Rapid Impact Assessment (i.e., recon), Community Health and Medical assessment.

- Conduct training and exercise for EOC and Health and Medical Team members.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and implement emergency response and Health and Medical strategies.
- Develop and present training courses for Emergency Support Function 8 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Participate in all hazards exercises involving Emergency Support Function 8.

2. RESPONSE ACTIONS

- Coordinate operations of Emergency Support Function 8 in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with county EOC, regional task force and State EOC.
- Establish Mutual Aid procedures for the following resources; Specialized Medical Assistance Response Teams, Hazardous Materials, Disaster Mortuary Operational Response Team, Interoperable Communications and Command Vehicles, Resource Management and Logistical Support
- Deploy Impact Assessment Teams to determine post-storm impact to Emergency Services functional group resources and ability to perform Continuity of Operations of essential functions.
- Support Health and Medical RDSTF in the investigation of a terrorist attack.
- Preposition response resources when it is apparent that health and medical resources will be necessary. Relocate health and medical resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct Health and Medical resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.
- Coordinate with support agencies, as needed, to support emergency activities.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County ESFs to obtain resources and to facilitate an effective emergency response among all participating agencies.

3. RECOVERY ACTIONS

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.
- Continue to provide support as required to support the recovery phase.
- Initiate financial reimbursement process for these activities when such support is available.

4. MITIGATION ACTIONS

- Identify and seek funds for retrofitting critical facilities and providing auxiliary power.
- Provide personnel as available with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. DIRECTION AND CONTROL

1. Emergency Support Function 8 complies with the Incident Management System.

2. The Emergency Support Function 8 system operates at two levels 1) County Emergency Operations Center; and 2) Field operations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 8 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Sections and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. All Health and Medical field personnel are subordinate to the Emergency Support Function 8 at the County Emergency Operations Center.

5. In accordance with a mission assignment from Emergency Support Function 8, and further mission tasking by a local primary agency, each support organization assisting Emergency Support Function 8 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 8.

F. RESPONSIBILITIES

1. PRIMARY AGENCY – FDOH in Marion County

- Provide leadership in directing, coordinating, and integrating overall County efforts to provide Health and Medical assistance to affected areas and populations.
- Staff and operate a National Incident Management system compliant command and control structure (i.e., Incident Command System) to assure that services and staff are provided to areas of need.
- Coordinate and direct the activation and deployment of County agencies Health and Medical service personnel, supplies, and equipment and provide certain direct resources.

- Evaluate the emergency, make strategic decisions, and identify resource needs and secure resources required for field operations.
- Coordinate supplemental assistance in identifying and meeting the Health and Medical needs of disaster victims.
- Implement the organization, assignment, and staffing at the facilities at which ESF 8 is required to be located.

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Marion County Health Department)

- Support agencies will provide assistance to the Emergency Support Function with services, staff, equipment, and supplies that compliment the entire emergency response effort as the County Emergency Management Team addresses the consequences generated by the hazards that may impact the County (i.e., severe weather, tropical cyclones, environmental biological, terrorism, technological, and mass migration, etc.). Because services and resources are subject to change from time to time, emergency coordinators are responsible for frequently updating their resources capabilities with the Emergency Support Function 8.
- Emergency Management will provide EOC support, conduct briefings, direct needs assessments, distribute key information, and serve as liaison to the State EOC to request resources.
- Marion County Fire Rescue coordinates the evacuation of patients from disaster areas when deemed appropriate, transport of victims to medical facilities outside the at risk area in accordance with approved Trauma Transport Protocols, transport needs with ESF 1, and coordinate the following resources; ALS/BLS vehicles, Emergency Medical Technicians, and Paramedics, EMS procurement, aircraft transport and ensure the health and safety of emergency responders.
- Medical Examiners Office will assure the provision for decedent identification and mortuary services including temporary morgue services in accordance with established, victim identification protocol, preparing and disposing of remains, coordinate with the ARC on victim identification, mortuary protocol for family notification in accordance with established ARC procedures.

Hospitals will:

- Provide contact information regarding Hospital Incident Command structure upon EOC activation.
- Provide, as required, staff representation to Emergency Support Function 8 to participate in ongoing planning and decision making.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 8 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its

own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by support agencies will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 9

Search and Rescue

Primary Agency: Marion County Fire Rescue

Support Agencies: City of Ocala Fire Rescue
City of Ocala Police Department
Marion County Sheriff's Office

I. Purpose

The purpose of Emergency Support Function 9 is to provide search and rescue coordination and support services in support of emergency events in Marion County. Emergency Support Function 9 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives.

II. Concept of Operations

A. General

1. Emergency Support Function 9 is organized consistent with the State Emergency Operations Center and the Incident Command System in order to provide incident assessment, planning, procurement, deployment, coordination and support operations to the Marion County Emergency Management Team, Area Operations and State Emergency Response Team officials to assure a timely and appropriate response to an emergency/disaster event.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of NIMS compliant Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines

3. In a large event requiring local and State mutual aid assistance, Emergency Support Function 9 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 9 will evaluate and analyze information regarding search and rescue, and prevention requests for response, develop and update assessments of the search and rescue situation and status in the impact area, and do contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Marion County Sheriff's Office staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Emergency Operations Center Operations Section Chief will coordinate the support resources from the ESF 9 staff.

c. During the response phase, Emergency Support Function 9 will evaluate and analyze information regarding search and rescue requests. Also, Emergency Support Function 9 will develop and update assessments of the search and rescue status in the impact area and do contingency planning to meet anticipate demands and needs.

d. Marion County Fire Rescue will develop and maintain the overall Emergency Support Function 9 Emergency Operations Plan and accompanying Appendices, annexes and Standard Operating Guidelines that govern response actions related to emergencies. However, support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan.

2. AREA

a. The Operations Section Chief, in consultation with the requesting jurisdiction, may obtain additional search and rescue resources via established mutual aid agreements.

b. The Florida Department of Financial Services serves as the lead agency for search and rescue coordination and support and will designate a liaison to the EOC from the Regional Office and/or the Regional Domestic Security Task Force (RDSTF). The liaisons have been trained to carry out Emergency Support Function 9 responsibilities and will function as coordinators, assessors, and operational personnel in support of EOC or field activities.

c. If more than one county emergency management operation center is activated State search and rescue may support the coordination of the event response with regional resources or request additional resources from the State Emergency Operations Center, the State search and rescue agencies will participate in a Multi-Agency coordinating entity to coordinate requests for search and rescue resources among multiple Emergency Operations Centers.

C. ALERTS/NOTIFICATIONS

1. Marion County EM will notify the County Warning Point when information becomes known indicating that an emergency or disaster situation is developing. This report will include all relevant information that is known at the time. Additional information should be reported as it becomes available.

2. Marion County EM, will notify Emergency Support Function 9 when the county or an area of the County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.

3. Emergency Support Function 9 will be activated or placed on standby upon notification by Emergency Management. The City and County Fire Chief's, or their designees will assist in managing the emergency activities of ESF 9.

4. Upon instructions to activate ESF 9, County and City Fire Departments will implement its operating procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 9 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 9 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services may be provided:

- Assessment of Search and Rescue needs and potential impacts.
- Search and Rescue personnel.
- Search and Rescue equipment and supplies.
- Evacuation and Re-entry support.
- Emergency responder health and safety.
- Radiological/chemical/biological hazards.
- Mental health and crisis counseling for responders.
- Search and Rescue Public Information and risk communication.
- Search and Rescue Management, Command and control of assets.
- Search and Rescue activities related to terrorist threats and/or events.
- Logistical Staging areas and Points of Dispensing.
- Catastrophic incident and alternate Search and Rescue facility support.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Search and Rescue response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 9 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 9. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.

- Local and State search and rescue teams will jointly address planning issues on an on-going basis to identify response zones, potential staging areas, and potential medical facilities and establish specialized teams.
- Conduct planning with Emergency Support Function 9 support agencies, Regional Domestic Security Task forces, and other emergency support functions to refine Search and Rescue Operations.
- Develop and refine procedures to be used in the following field surveys: Rapid Impact Assessment (i.e., recon), Community Search and Rescue assessment.
- Conduct training and exercise for EOC and Search and Rescue Team members.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and implement emergency response and Search and Rescue strategies.
- Develop and present training courses for Emergency Support Function 9 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Participate in all hazards exercises involving Emergency Support Function 9.

2. RESPONSE ACTIONS

- Coordinate operations of Emergency Support Function 9 in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with county EOC, regional task force and State EOC.
- Establish Mutual Aid procedures for the following resources; Urban Search and Rescue, Interoperable Communications and Command Vehicles, Resource Management, and Logistical Support.
- Mutual Aid procedures to assist with supporting issues related to a terrorist event.
- Search and Rescue support RDSTF in the investigation of a terrorist attack.
- Preposition response resources when it is apparent that fire-search and rescue resources will be necessary. Relocate fire-search and rescue resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct Search and Rescue resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.
- Coordinate with support agencies, as needed, to support emergency activities.

- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County ESFs to obtain resources and to facilitate an effective emergency response among all participating agencies.

3. RECOVERY ACTIONS

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.
- Continue to provide support as required to support the recovery phase.
- Initiate financial reimbursement process for these activities when such support is available.

4. MITIGATION ACTIONS

- Identify and seek funds for retrofitting critical facilities and providing auxiliary power.
- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. DIRECTION AND CONTROL

1. Emergency Support Function 9 complies with the Incident Command System composed of Planning, Operations, Logistics and Finance/Administration Sections with their standardized forms and terminology) to manage its emergency/disaster responsibilities. Key to this system is Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. Emergency Management also serves as the focal point for Emergency Support Function 9 activities. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions and other private voluntary agencies have knowledge about the system and Emergency Support Function 9 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 9 system operates in two arenas; 1) the county Emergency Operations Center; 2) field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 9 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Sections Coordinators and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. All search and rescue field personnel are subordinate to the Emergency Support Function 9 at the County Emergency Operations Center.

5. In accordance with a mission assignment from Emergency Support Function 9, and further mission tasking by a Local primary agency, each support organization

assisting Emergency Support Function 9 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 9.

F. RESPONSIBILITIES

1. *PRIMARY AGENCY – MARION COUNTY FIRE RESCUE*

- Provide leadership in directing, coordinating, and integrating overall County efforts to provide Search and Rescue assistance to affected areas and populations.
- Staff and operate a National Incident Management system compliant command and control structure (i.e., Incident Command System) to assure that services and staff are provided to areas of need.
- Coordinate and direct the activation and deployment of County agencies Search and Rescue personnel, supplies, and equipment and provide certain direct resources.
- Evaluate the emergency situation, make strategic decisions, identify resource needs, and secure resources required for field operations.
- Monitor Search and Rescue emergency response and recovery operations. ESF 9 Representatives or designees will coordinate all State and Federal Search and Rescue resources into the affected areas from staging areas.
- Manage Search and Rescue, and other emergency incidents in accordance with each department's Standard Operating Guidelines and under the direction of ESF 9 Representatives or designee.
- Provide assistance in initial needs assessment, and augment Search and Rescue operations through specialized response capabilities.
- Make specific requests for Search and Rescue assistance to the State ESF 9/State Fire Marshal's Office, through the Marion County Liaison, as needed. The State will activate resources through the State Emergency Response Plan.
- Continue to re-assess priorities and strategies, throughout the emergency, according to the most critical Search and Rescue needs.
- Demobilize resources and deactivate the ESF 9 station upon direction from the County Incident Commander.

2. *SUPPORT AGENCIES*

(NOTE: Each Support Agency should review its own roles and responsibilities)

a. Support agencies will help Emergency Support Function 9 with services, staff, equipment, and supplies that compliment the entire emergency response effort as the County Emergency Management Team addresses the consequences generated by the hazards that may impact the County (i.e., severe weather, tropical cyclones, environmental biological, terrorism, technological, and mass migration, etc.). Because services and resources are subject to change from time to time, emergency coordinators are responsible for frequently updating their resources capabilities with the Emergency Support Function 9.

b. Marion County Emergency Management will provide EOC support, conduct briefings, direct needs assessments, distribute key information, and serve as liaison to the State EOC to request resources.

c. County and City law enforcement agencies (Emergency Support Function 16) can provide crowd control, security measures, roadway assessments, and ingress/egress actions to protect the public and property in, near and around areas involved in firefighting operations; keep emergency forces informed of hazardous areas.

d. City, County, and private utilities (Emergency Support Function12) will coordinate with ESF 9 to address Search and Rescue problems due to leaking natural gas, downed power lines, and water flow problems.

e. City and County Public Works (Emergency Support Function 3) and other departments will provide road clearing equipment and other major resources needed to clear roadways in support of emergency response actions.

f. Emergency Support Function 2 will provide radio communications support, to the extent possible, to support communications among various Fire Department agencies responding to the impacted areas.

g. Marion County Fire Rescue (Emergency Support Function 8) will provide emergency medical care and transportation of victims beyond initial collection sites.

h. American Red Cross and other community agencies (Emergency Support Function 6) will provide field support to emergency response personnel (food, water, basic assistance, etc.).

i. The Florida Fire Chiefs' Association will work with the Department of Financial Services by forwarding requests for search and rescue assistance to the five regional response zones designated in the State of Florida Fire-Rescue Disaster Response Plan (prepared by the Florida Fire Chiefs Association).

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 9 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by other department entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 10

Hazardous Materials

Primary Agency: Marion County Fire Rescue/City of Ocala Fire Rescue

Support Agencies: Regional Domestic Security Task Force
Florida Department of Health in Marion County
Marion County Office of County Engineer
Marion County Solid Waste
City of Ocala Public Works Department

I. Purpose

The purpose of Emergency Support Function 10 is to provide hazardous materials coordination and support services including life, safety, protection of property, and the environment during emergency situations in Marion County. ESF 10 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives.

II. Concept of Operations

A. General

1. Emergency Support Function 10 is organized consistent with the Incident Command System in order to provide incident assessment, planning, procurement, deployment, coordination and support operations.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field.

3. In a large event requiring State, Federal or mutual aid assistance, Emergency Support Function 10 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 10 will evaluate and analyze information regarding the identification of securing, removing and disposing of the hazardous materials requests for response, develop and update assessments of the hazardous materials situation and status in the impact area, and do contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode technical and subject matter expertise may be provided by an appropriate

person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Marion County Emergency Management staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the primary and support agencies of Emergency Support Function 10 will respond directly to Operations.

c. During the response phase, Emergency Support Function 10 will evaluate and analyze information regarding hazardous materials requests. Also, Emergency Support Function 10 will develop and update assessments of the hazardous materials status in the impact area and perform contingency planning to meet anticipated demands and needs.

d. Emergency Management develops and maintains the overall Emergency Support Function 10 Emergency Operations Plan.

C. ALERTS/NOTIFICATIONS

1. Marion County Emergency Management will notify the County Warning Point when information comes known indicating that an emergency or disaster situation is developing. The report will include all relevant information that is known at the time. Additional information should be reported as it becomes available.

2. Emergency Support Function 10 will be activated or placed on standby upon notification by the County Emergency Management Office. The primary and support hazardous materials agencies will coordinate and support the emergency activities of ESF 10.

3. Upon instructions to activate ESF 10, local and State hazardous materials teams will implement its operating procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 10 are grouped into several phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 10 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services may be provided.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop hazardous materials response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 10 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 10. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Local and State hazardous materials teams will jointly address planning issues on an on-going basis to identify response zones, potential staging areas, and potential medical facilities and establish specialized teams.
- Conduct planning with Emergency Support Function 10 support agencies, Regional Domestic Security Task forces, and other emergency support functions to refine hazardous materials operations.
- Conduct training and exercise for EOC and fire department personnel.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency.
- Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and present training courses for Emergency Support Function 10 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Participate in all hazard exercises involving Emergency Support Function 10.

2. RESPONSE ACTIONS

- Coordinate operations at the Emergency Support Function 10 office in the County Emergency Operations Center and/or at other locations as required.
- Establishment and maintain a system to support on-scene direction, control and coordination with the local incident commander and the county EOC.

- Establish Mutual Aid procedures for the following resources; Hazardous Materials Response Teams, Interoperable Communications and Command Vehicles.
- Resource Management and Logistical Support.
- Mutual Aid procedures to assist with supporting issues related to a terrorist event or hazardous substance incident.
- Hazardous materials support RDSTF in the investigation of a terrorist attack.
- Preposition response resources when it is apparent that hazardous materials response resources will be necessary. Relocate hazardous materials response resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct hazardous materials resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.
- Coordinate with support agencies, as needed, to support emergency activities.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County ESFs to obtain resources and to facilitate an effective emergency response among all participating agencies.

3. RECOVERY ACTIONS

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.
- Continue to provide support as required to support the recovery phase.
- Initiate financial reimbursement process for these activities when such support is available.

4. MITIGATION ACTIONS

- Identify deficiencies or areas to be improved, and seek funds to enhance protective measures to lessen the impact on vulnerable populations, and/or minimize damage to critical facilities.
- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. DIRECTION AND CONTROL

1. Emergency Support Function 10 complies and uses the Incident Command System. Key to this system is Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. Emergency Management also serves as the focal point for Emergency Support Function

10 activities. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions, and other private voluntary agencies have knowledge about the system and Emergency Support Function 10 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 10 system operates in two arenas; 1) the county Emergency Operations Center, 2) field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 10 coordinator.

4. A staffing directory and the Emergency Support Function 10 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard

5. All hazardous materials field personnel are subordinate to the Emergency Support Function 10 at the County Emergency Operations Center.

6. In accordance with a mission assignment from Emergency Support Function 10, and further mission tasking by a Local primary agency, each support organization assisting Emergency Support Function 10 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 10. Delegation of mission operational control may be delegated to a Management Support Unit, Multi-Agency Coordination Team or a local entity.

F. RESPONSIBILITIES

1. PRIMARY AGENCY – MARION COUNTY FIRE RESCUE

- Provide training to public safety communications personnel to ensure recognition of a hazardous material and information to be obtained upon notification of a release that will determine the proper emergency response.

- Provide training to all public safety personnel and first responders in awareness and recognition (level 1) of hazardous materials.

- Provide training to the operations level (level 2) for all personnel responding to a hazardous materials incident that will be involved in the securing of the release, and/or removal and disposal of the material

- Coordinate the notification and response of all agencies required to handle the incident.

- Notify the State Warning Point and make request for State assistance when necessary.

- Maintain a list of available department resources that may be used to respond to and recover from the incident.

- Coordinate with Fire Services to ensure that the material is recovered and disposed of in accordance with local, State and Federal regulations.

- Will coordinate with local fire department and the Road Department to accept any material that has been approved for disposal in the county landfill. The department will also assist Emergency Management with identification of fixed facilities that produce or store hazardous materials.

- Provide leadership in directing, coordinating, and integrating overall County efforts to provide hazardous materials assistance to affected areas and populations.

- Emergency Management will provide EOC support, conduct briefings, direct needs assessments, distribute key information, and serve as liaison to the State EOC to request resources.

- Maintain a list of mutual aid agencies and private contractors that are trained and qualified to respond to an incident.

- Ensure that all first responders are trained in awareness and operations level of hazardous materials response as defined in the guidelines established by the State Emergency Response Commission.

- Ensure that public safety communications personnel are trained in the awareness level of hazardous materials response and that guidelines have been established to dispatch the proper response upon notification of hazardous materials incidents.

- Emergency Support Function 10 will coordinate the response and recovery efforts to hazardous materials incidents upon notification of a release by ensuring that coordination and cooperation is maintained in identifying the material. Then securing, removing and properly disposing of the hazardous material.

- The presence of any radioactive material will be determined by properly trained personnel using basic detection equipment who will then determine if any evacuations are necessary. If evacuations are necessary, ESF 10 will coordinate with other ESFs to ensure that shelters are opened and the public is informed as the situation changes.

- Coordinate the response of all agencies required to handle the hazardous materials incident and the necessary cleanup involved in recovery.

- Minor incidents are usually handled by jurisdictional fire departments with minimal use of resources. Larger incidents will involve a cooperative effort between all support agencies, private contractors and the Florida Department of Environmental Protection.

- In a large event requiring local and State or mutual aid assistance, Emergency Support function 10 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use if any required assets.

- During a State declared disaster requests for resources or assistance from State agencies will be made through established and proven procedures as set forth in the State of Florida Comprehensive Emergency Management Plan (CEMP).

- Notify State Warning Point of all hazardous materials incidents and request State assistance when needed.

- Coordinate with the Florida Department of Environmental Protection (DEP) for notification and response to hazardous materials incidents when the ability to identify the material or mitigate the incident is beyond the capabilities of the county.

- Maintain an accurate and current listing of all fixed facilities that produce or store hazardous materials. Prepare site specific plans for each facility that produces or stores extremely hazardous substances (EHS) and update these plans annually or as necessary through the year.

- Staff and operate a National Incident Management system compliant command and control structure (i.e., Incident Command System) to assure that services and staff are provided to areas of need.

- Coordinate and direct the activation and deployment of County agencies hazardous materials personnel, supplies, and equipment and provide certain direct resources.

- ESF 10 members or designees will jointly evaluate the emergency situation, make strategic decisions, and identify resource needs and secure resources required for field operations.

- ESF 10 is responsible for monitoring hazardous materials emergency response and recovery operations. ESF 10 members or designees will coordinate all State and Federal hazardous materials resources into the affected areas from staging areas.

- ESF 10 will manage hazardous materials and other emergency incidents in accordance with each department's Standard Operating Guidelines and under the direction of ESF 10 members or designee.

- ESF 10 members or designee will make specific requests for hazardous materials assistance to the State ESF 10 through the Marion County Liaison, as needed. The State will activate resources through the State Emergency Response Plan.

- ESF 10 members or designees will continue to re-assess priorities and strategies, throughout the emergency, according to the most critical hazardous materials needs.

- ESF 10 will demobilize resources and deactivate the ESF 10 station upon direction from the County Incident Commander.

- The owner of the material will be financially responsible for the material and will incur all cost and responsibility of the clean up and disposal activities.

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the City of Ocala Fire Department)

Support agencies will provide assistance to the Emergency Support Function with services, staff, equipment, and supplies that compliment the entire emergency response effort as the County Emergency Response Team addresses the consequences generated by the hazards that may impact the County (i.e., severe weather, tropical cyclones, environmental biological, terrorism, technological, and mass migration, etc.). Because services and resources are subject to change from time to time, emergency coordinators are responsible for frequently updating their resources capabilities with the Emergency Support Function 10.

- The Road Department (ESF3) will assist with the removal and disposal of any hazardous material deemed safe for disposal in the county landfill. This will be done in accordance with local guidelines and agreements. These guidelines will be updated and changed as deemed necessary.
- Emergency Medical Services will be responsible for transporting injured personnel to medical facilities. Patients will be decontaminated by the fire department personnel before delivery to EMS when possible. EMS will be responsible for notification of the local hospitals regarding the number of patients, severity of injuries and the material involved in the incident. Baptist Hospital is responsible for patient coordination with all other hospitals during multiple casualty incidents. Contamination patients will be handled by each hospital in accordance with their standard operating procedures.
- Hospitals will accept contaminated patients in accordance with the standard operating procedures. Emergency Medical Services will notify the receiving hospital while on scene so appropriate hospital staff are available to receive the patients.
- The appropriate fire departments will be dispatched to any release of a hazardous material upon notification. It will be their responsibility to attempt to positively identify the material, determine the hazard, and take immediate actions necessary within their capabilities to protect life and property. Each fire department is responsible to ensure their personnel receive the required training to perform any actions taken during a hazardous materials incident and to call for assistance when the necessary actions are beyond their capabilities. Contractor through Mutual Aid agreement with Marion County will respond to an incident upon request. Contractor personnel possess certification in all levels of training and respond with the

equipment necessary to handle most hazardous materials incidents and a full support staff of chemists at their facility. Upon arrival contractor personnel will coordinate with the fire department Incident Commander to assist in the identification and establishment of hot and cold zones, decontamination site, determining the proper methods and equipment to be used. Fire Department personnel will mostly likely perform decontamination of all personnel leaving the hot zone. If required, a contractor will be obtained to properly dispose of all decontamination material.

- County and City law enforcement agencies (ESF16) can provide crowd control, security measures, roadway assessments, and ingress/egress actions to protect the public and property in, near and around areas involved in fore fighting operations; keep emergency forces informed of hazardous areas.
- City, county, and private utilities (ESF12) will coordinate with ESF 10 to address fire prevention and suppression problems due to leaking natural gas, downed power lines, and water flow problems.
- City and County Public Works (ESF3) and other departments will provide road clearing equipment and other major resources needed to clear roadways in support of emergency response actions.
- The Sheriff's Office (ESF2) will provide radio communications support, the extent possible, to support communications among various Fire Department agencies responding to the impacted areas.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 10 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by support agencies entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 11

Bulk Distribution (Food and Water)

Primary Agency: Marion County Emergency Management

Support Agencies: Community Foundation for Ocala/Marion County
United Way
Salvation Army
American Red Cross
Interfaith
FDOH in Marion County
Florida Department of Children and Families

I. Purpose

The purpose of Emergency Support Function 11 is to plan for and provide the distribution of food, water, and ice to local victims following a disaster. Hurricane preparedness education campaigns teach the public to be prepared to be self sufficient for 72 hours. However other potential hazards may create the need for distribution of these basic necessities.

In the wake of a major disaster requiring the need for distribution of food, water and ice to the public, pre-identified locations for distribution will be prepared and the commodities transported to each location.

II. Concept of Operations

A. General

1. Emergency Support Function 11 is organized consistent with the Incident Command System in order to assure a timely and appropriate response to an emergency/disaster event.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field.

3. In a large event requiring local and State mutual aid assistance, Emergency Support Function 11 will coordinate with support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 11 will evaluate and analyze requirements for food, water, and ice; develop and update assessments of the food and water situation and status

in the impact area; and undertake contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode, technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Emergency Management staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Emergency Operations Center Logistics Section Chief will coordinate the support resources from the support agencies.

c. Following a major disaster that impacts a large portion of the population and creates the widespread loss of electrical power for an extended period of time, there may be a need to provide food, water, and ice to the public. It is anticipated that hurricanes present the highest vulnerability for this need.

d. Water, ice, and meals will go through the County Staging Area, where they will be accounted for and further shipped to the PODs or other facilities.

e. The County Staging Area will be prepared to receive and onward ship resources without undo delay. In addition, PODs will be prepared to receive and off load vehicles immediately.

f. When the need arises the County must be able to respond quickly and obtain the necessary commodities, establish sufficient distribution sites to serve the affected areas and transport the commodities to these sites.

g. Public information will be released through the local media to inform the public of the locations for assistance. The quick restoration of electrical power is of vital importance to the timely recovery from the disaster.

h. Restoration of power to water treatment and pumping facilities, grocery stores and ice production facilities will reduce the need for distribution of these commodities to the public.

i. In some cases, emergency food stamps may need to be issued and coordinated with the State for implementation of plan for that purpose.

C. ALERTS/NOTIFICATIONS

1. Emergency Support Function 11 will be activated or placed on standby upon notification by Emergency Management.

2. Upon instructions to activate ESF 11, Emergency Management will implement its operating procedures to notify ESF 11 support agencies.

D. ACTIONS

Actions carried out by Emergency Support Function 11 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 11 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop food and water response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 11 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 11. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Address planning issues on an ongoing basis to identify response zones and potential staging areas.
- Maintain an accurate roster of personnel assigned to perform ESF 11 missions during an emergency or disaster.
- Identify and schedule disaster response training for ESF 11 personnel.
- Periodically update the list of available ice and water vendors.

2. RESPONSE ACTIONS

- Inventory food and water supplies.
- Coordinate with ESF 6 to identify mass feeding sites and the potential number of people in shelters.
- Coordinate with ESF 12 to monitor power outages.
- Work with ESF 15 to coordinate use of donated good and services to support the ESF 11 mission.
- Identify local resources for the acquisition of food, potable water and ice and attempt to obtain written agreements.
- Identify and procure sites for distribution of food, water, and ice following a disaster.
- Provide for the transportation of food, water, and ice to the distribution sites and maintain a resource list for equipment needed for moving and handling the materials.
- Coordinate with the State to provide emergency food stamp assistance.
- Coordinate with the Regional Recovery Center for delivery of food, water, and ice not available through local resources.

- Coordinate with local power companies to restore power to water treatment plants, grocery stores and ice producing companies as a priority. This will significantly reduce the need for distribution of food, water, and ice.
- Educate the public to prepare for disasters and the procedures that need to be taken to be self sufficient for 72 hours following a major disaster.
- Coordinate with the County Health Department for testing and treatment of all potable water distributed.

3. RECOVERY ACTIONS

- Continue to monitor food, water and ice needs.
- Monitor nutritional concerns.
- Assess special food concerns of impacted population.
- Maintain logistical links with supporting agencies with a role in ESF 11.

4. MITIGATION ACTIONS

- Use risk assessment tools to identify vulnerable populations in Marion County.

E. DIRECTION AND CONTROL

1. Emergency Support Function 11 uses the Incident Command System emergency/disaster responsibilities. Key to this system is the Emergency Management Agency, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.

2. The Emergency Support Function 11 system operates in two arenas: 1) the county Emergency Operations Center; 2) field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the lead Emergency Support Function 11

4. In accordance with a mission assignment from Emergency Support Function 11, and further mission tasking by a local primary agency, each support organization assisting Emergency Support Function 11 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 11. Delegation of mission operational control may be delegated to a management Support Unit, Multi-Agency Coordination Team or a local entity.

F. RESPONSIBILITIES

1. PRIMARY AGENCY – Marion County Emergency Management

- Identify local resources with the ability to supply large amounts of non-perishable food, potable water, ice, and equipment necessary to transport and handle the commodities following a major disaster.
- Prior to hurricane season each year, work with local agencies to identify possible locations to be used for the distribution of food, water and ice.
- Work with volunteer agencies to obtain volunteers to staff distribution centers. Also coordinate with the other county departments and elected officials for use of non-essential post-disaster employees to work at the sites.
- Notify the County Health Department of the locations of distribution sites and arrange for testing and treatment of all bulk potable water.
- Attempt to coordinate with local businesses and relief organizations to ensure that all locations of feeding stations, distributions sites and other assistance sites are placed where there is the most need and press releases issued so the public is informed where to obtain this assistance.

2. SUPPORT AGENCIES

- Prepare and provide educational materials and presentations that will inform the public of the need to remain self sufficient for at least 72 hours and the necessary actions for that purpose.
- Maintain and update a power restoration list that will include all of the locations identified for use by ESF 11 for procurement, distribution, storage, and staging. This will be coordinated with the local electrical power companies in the EOC following the disaster.
- Maintain a list of post disaster, non-essential county employees to be deployed as needed to support the distribution of supplies.
- Maintain a listing of available volunteers and donated goods that can be used in support of ESF 11. Coordination of these efforts will take place in the EOC.
- Provide feeding stations and serve food at each of the distribution sites in addition to their individual operations.
- Responsible for testing, monitoring and treating all bulk potable water that is being distributed to the public.
- Coordinate the distribution of emergency food stamps in the disaster area based on established procedures of the Department.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 11 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency

Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by other department entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 12

ENERGY

Primary Agency: Marion County Emergency Management

Support Agencies: City of Ocala Electric Utilities
Clay Electric Cooperative
Duke Utilities
Sumter Electric Cooperative
TECO/Peoples Gas

I. Purpose

The purpose of ESF 12 is to establish policies to be used in the coordination with private providers for restoration of power during emergencies or following a major disaster. Expedient recovery is dependent upon the restoration of power to homes and businesses. Power outages are usually caused by major disasters such as hurricanes, tornadoes or other severe weather. However, other events such as fuel shortages, civil disturbances, disruption of transmission and distribution systems or power generating plant failure may also cause temporary disruption of power.

ESF 12 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. Emergency Support Function 12 resources are used when individual agencies are overwhelmed and County Emergency Management Team requests additional energy services assistance.

II. Concept of Operations

A. General

1. Emergency Support Function 12 is organized consistent with the Incident Command System to provide incident assessment, planning, procurement, deployment, coordination and support operations to the Marion County Emergency Management Team, Area Operations and State Emergency Response Team officials to assure a timely and appropriate response to an emergency/disaster event.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field.

3. In a large event requiring local and state mutual aid assistance, Emergency Support Function 12 will coordinate with support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. When an event is focused in scope to a specific type or response mode, technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

5. The potential for widespread loss of power is relatively high in Marion County due to the frequency of severe weather. Loss of power to large areas of the County may require that shelters be opened and some basic services be provided. All of the power companies serving have well established and proven storm plans and procedures.

B. ORGANIZATION

1. COUNTY

a. Marion County Utilities serves as the lead agency for ESF 12 and will work with the support agencies listed above to coordinate the response and process resource requests for power companies during major power outages. Upon notification by the power companies of any major problem or potential problem, the office will coordinate with ESF 6 and ESF 8 to open shelters as necessary.

Utility Providers, using established hurricane response plans and standard operating procedures, will:

- provide their own resources through contractual agreements with other power providers to perform damage assessment; and

- obtain necessary equipment, repair or rebuild transmission and distribution systems, and restore power.

b. Utility Providers maintain a power restoration priority plan that will guide the allocation and restoration of power as the situation dictates.

c. Utility Providers public information officers who, in conjunction with the Emergency Management, will issue statements and press releases that address existing or potential power problems or shortages.

d. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Utility Provider staff to provide support that will allow for an appropriate, coordinated, and timely response.

e. During an emergency or disaster event, the Emergency Operations Center Planning Section Chief will coordinate the support resources from the support agencies.

C. ALERTS/NOTIFICATIONS

1. Utility Providers will notify the County Warning Point when information comes becomes known indicating that an emergency or disaster situation is developing. This report will include all relevant information that is known at the time. Additional information should be reported as it becomes available.

2. The County Warning Point will notify Emergency Management. Emergency Management will notify Support Function 12 when the County or an area of the County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.

3. Upon instructions to activate, ESF 12 will implement its operating procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 12 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 12 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop energy service response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 12 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with ESF 12. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- In preparation of an emergency or disaster, ESF 12 will coordinate with Utility Providers and major fuel providers to determine response and recovery needs and priorities.
- Emergency Management will coordinate with the Emergency Management to identify emergency shelter power generation capacity and needs, or other emergency power needs.
- Utility Providers will deliver public education campaigns that address safety around electricity, emergency procedures for homes and businesses and hurricane preparedness.
- Emergency Management will maintain the special needs registration list which includes those citizens that are dependant on electricity to operate medical equipment.

2. *RESPONSE ACTIONS*

- Coordinate operations at the Emergency Support Function 12.
- Establish and maintain a system to support on-scene direction and control and coordination with County EOC.
- Prioritize the restoration of electric power, based on the priority restoration list that is maintained by Utility Providers.
- Participate in EOC briefings, Incident Action Plans, Situation Reports and meetings.
- Monitor and direct power restoration resources and response activities.

3. *RECOVERY ACTIONS*

- The EOC, in consultation with the requesting jurisdiction, may obtain additional energy service resources via established mutual aid agreements.
- The Clerk of Court will use County Contracts for Emergency Purchases of goods and services as referenced in the Emergency Purchasing Manual and/or the Office of Purchasing Homepage. They will keep Emergency Management informed on the progress in identifying vendors and obtaining of contracts. The Clerk of Court shall notify Emergency Management when resources become difficult to locate so that the State Division of Emergency Management can be notified that local resources are being depleted and they can expect requests for additional needs.

4. *MITIGATION ACTIONS:*

- Identify mitigation measures and funds to reduce the vulnerability of electric power to the effects of hurricanes and other major hazards.
- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. DIRECTION AND CONTROL

1. Emergency Support Function 12 complies and uses the Incident Command System, to manage its emergency/disaster responsibilities. Key to this system is Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions, and other private voluntary agencies have knowledge about the system and Emergency Support Function 12 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 12 system operates in two arenas; 1) The County Emergency Operations Center; 2) field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 12 commander.

4. A staffing directory and the Emergency Support Function 12 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by Support Agencies with status of the call lists updated at least monthly and all other documents at least annually.

F. RESPONSIBILITIES

1. PRIMARY AGENCY

- Maintain a close working relationship with the local power companies to ensure that timely notification of potential problems are received and requests for support and resources are processed as quickly as possible.

- Maintain a power restoration priority list based upon the facilities required to provide sheltering, sanitary facilities, food water, ice and other basic needs. This priority list shall be used and amended as the situation dictates, as a priority list for energy allocation.

- Coordinate with power companies to prepare and release public information regarding the power emergency. This information will be disseminated through the Emergency Alerting System when necessary and through all local media in cooperation with ESF 14.

- Coordinate with ESF 6 and ESF 8 to open shelters as necessary.

- When requested, coordinate with other ESF 12 support agencies to obtain needed resources and make requests to the State Division of Emergency Management when local resources have been exhausted.

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with Emergency Management)

- All agency personnel designated to support implementation of Utilities have received the necessary and required training, and are appropriately certified and qualified for implementation of their assigned tasks
- Standard operating guides, equipment inventories, personnel rosters, training records and similar documentation are prepared and maintained as current, and that this documentation is readily accessible during implementation of Utilities
- The agency cooperates with the primary agencies through participation in training sessions, exercises, planning meetings and similar functions intended to maintain readiness for implementation of Utilities
- Equipment, vehicles, facilities and personnel are maintained in readiness to implement all defined support roles for implementation of Utilities
- Other assignments are completed as requested by the primary agencies before, during and following implementation of Utilities.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 12 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by other department entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 13

Military Support

Primary Agency: Marion County Sheriff's Office

Support Agencies:
Florida National Guard
Florida Department of Law Enforcement
Federal Bureau of Investigation
Marion County Emergency Management
Marion County Fire Rescue
Marion County Administration
City of Ocala Police Department
City of Dunnellon Police Department
City of Belleview Police Department

I. Purpose

The purpose of Emergency Support Function 13 is to provide military support coordination and support services in support of emergency events in Marion County. ESF 13 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. Emergency Support Function 13 resources are used when individual agencies are overwhelmed and County Emergency Response Team requests additional military support assistance.

II. Concept of Operations

A. General

1. Emergency Support Function 13 is organized consistent with the State Emergency Operations Center and the requirements of the National Response Plan, the National Incident Management System, and the Incident Command System in order to provide incident assessment, planning, procurement, deployment, coordination and support operations to the Marion County Emergency Management Team, Area Operations and State Emergency Response Team officials to assure a timely and appropriate response to an emergency/disaster event.

2. Florida National Guard has been an active member of the Emergency Operations Center for many years. These local representatives are knowledgeable of the working of the county EOC. However in an actual event, Guard Units from other areas of Florida may be sent to Marion County with assigned missions. The mission leader will make contact with the

appropriate agency responsible for the mission. Once the Guard is activated in Marion County, they will supply a liaison to the county's EOC to ensure communication and coordination.

4. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. These are in the form of NIMS compliant Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe Emergency Support Function 13 capabilities (based on the National Planning Scenarios, the Universal Task List, and the Target Capabilities). Periodic training and exercises are also conducted to enhance effectiveness.

5. In a large event requiring, State, Federal, or mutual aid assistance, Emergency Support Function 13 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

6. Throughout the response and recovery periods, Emergency Support Function 13 will evaluate and analyze information regarding humanitarian, security request for response, develop and update assessments of the military support service situation and status in the impact area, and do contingency planning to meet anticipated demands or needs.

7. When an event is focused in scope to a specific type or response mode technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, Military support agency staff is integrated with the staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the primary and support agencies of Emergency Support Function 13 will respond indirectly to the Emergency Operations Section Chief under the overall direction of the County Incident Commander.

c. During the response phase, Emergency Support Function 13 will evaluate and analyze information regarding military support service requests. Also, Emergency Support Function 13 will develop and update assessments of the military support service status in the impact area and does contingency planning to meet anticipate demands and needs.

d. Marion County Sheriff's Office develops and maintains the overall Emergency Support Function 13 Emergency Operations Plan and accompanying Appendices, annexes and Standard Operating Guidelines that govern response actions related to emergencies. However support

agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan. All such documents will be in compliance with the National Response Plan, The National Incident Management System, the Incident Command System, and the County Comprehensive Emergency Management Plan.

C. ALERTS/NOTIFICATIONS

1. Emergency Management will notify the County Warning Point when information becomes known indicating that an emergency or disaster situation is developing. This report will include all relevant information that is known at the time. Additional information should be reported as it becomes available.

2. Emergency Management will activate Support Function 13 when the county or an area of the County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.

4. Upon instructions to activate ESF 13, County and City Fire Departments will implement its operating procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 13 are grouped into several phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 13 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services may be provided:

- Assessment of Military Support Service needs and potential impacts.
- Military Support Service personnel.
- Military Support Service equipment and supplies.
- Humanitarian and Security support.
- Evacuation.
- Impact Assessment.
- Search and Rescue.
- Transportation of Supplies and Services.
- Provide and Operate Generators.
- Mass Feeding.
- Comfort Stations.
- Remove and Transport Debris.
- Water Purification.
- Base Camps for Emergency Workers.
- Aviation Operations.
- Law Enforcement and Security.

- Engineer Support.
- Civilian Acquired Skills.
- Communications.
- Clear Roads and Bridges.
- Emergency Medical Support.
- Emergency responder health and safety.
- Radiological/chemical/biological hazards.
- Mental health and crisis counseling for responders.
- Military Support Service Public Information and risk communication.
- Military Support Service Management, command and control of assets.
- Military Support Service activities related to terrorist threats and/or events.
- Logistical Staging areas and Points of Dispensing.
- Catastrophic incident and alternate Military Support Service facility support.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop military support service response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 13 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 13. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Military Support Service will jointly address planning issues on an ongoing basis to identify response zones, potential staging areas, potential critical facilities, and establish specialized teams.
- Conduct planning with Emergency Support Function 13 support agencies, Regional Domestic Security Task forces, and other emergency support functions to refine Fires Service operations.
- Conduct training and exercise EOC and response team members.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and implement emergency response and military support service strategies.
- Develop and present training courses for Emergency Support Function 13 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Participate in all hazards exercises involving Emergency Support Function 13.

2. RESPONSE ACTIONS

- Coordinate operations at the Emergency Support Function 13 office in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with county EOC, Regional Domestic Security Task Force, and State EOC.
- Establish Mutual Aid procedures for the following resources: Humanitarian, Security and Air and Ground transport, Interoperable Communications and Command Vehicles, Emergency Management Assistance Compact (EMAC): Out of State National Guard units and Organizations will be under the Command and Control of the Adjutant General of Florida. In addition to the guidance outlined in the EMAC additional coordination between the Technical Advisory Groups of Florida will be contained in established Memorandum of Agreements and Memorandum of Understandings.
- Resource Management and Logistical Support.
- Implementation of Impact Assessment Teams to determine post-storm impact to Emergency Services and ability to perform Continuity of Operations of essential functions.
- Mutual Aid procedures to assist with supporting issues related to a terrorist event.
- Military Support Service support RDSTF in the security mission of a terrorist attack.
- Preposition response resources when it is apparent that military support resources will be necessary. Relocate military support resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct military support resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.
- Coordinate with support agencies, as needed, to support emergency activities.
- Military Support Services may assist with emergency response and security missions.
- Military Support Services may assist with humanitarian missions of threatened areas of the County.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other County ESFs to obtain resources and to facilitate an effective emergency response among all participating agencies.

3. *RECOVERY ACTIONS*

- The Operations Section Chief, in consultation with the requesting jurisdiction, may obtain additional military support resources via established mutual aid agreements.
- If more than one county emergency management operation center is activated State environmental protection may support the coordination of the event response with regional resources or request additional resources from the State Emergency Operations Center, the State Environmental Protection agencies will participate in a Multi-Agency coordinating entity to coordinate requests for hazardous materials resources among multiple Emergency Operations Centers.

4. *MITIGATION ACTIONS*

- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. DIRECTION AND CONTROL

1. Emergency Support Function 13 complies with the National Response Plan, the National Incident Management System and uses the Incident Command System composed of Planning, Operations, Logistics and Finance/ Administration Sections with their standardized Units, Teams, positions, forms and terminology) to manage its emergency/disaster responsibilities. Key to this system is Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. The Marion County Sheriff's Office will serves as the focal point for Emergency Support Function 13 activities. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions, and other private voluntary agencies have knowledge about the system and Emergency Support Function 13 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 13 system operates in two arenas; 1) the county Emergency Operations Center; 2) Field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 13 commander. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Coordinators and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

5. All military support field personnel are subordinate to the Emergency Support Function 13 at the County Emergency Operations Center.

6. In accordance with a mission assignment from Emergency Support Function 13, and further mission tasking by a Local primary agency, each support organization assisting Emergency Support Function 13 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 13.

Delegation of mission operational control may be delegated to a Management Support Unit, Multi-Agency Coordination Team or a local entity.

F. RESPONSIBILITIES

1. *PRIMARY AGENCY – MARION COUNTY SHERIFF'S OFFICE*

- Provide leadership in directing, coordinating, and integrating overall County efforts to provide Military Support Service assistance to affected areas and populations.
- Coordinate and direct the activation and deployment of County agencies Military Support Service personnel, supplies, and equipment and provide certain direct resources.
- ESF 13 liaisons or designees will jointly evaluate the emergency situation, make strategic decisions, and identify resource needs and secure resources required for field operations.
- ESF 13 liaisons or designees will coordinate all State and Federal military support resources into the affected areas from staging areas.
- Local and State support agencies will manage emergency incidents in accordance with each department's Standard Operating Guidelines and under the direction of ESF 13 liaison or designee.
- ESF 13 liaisons or designee will make specific requests for military support assistance to the Florida National Guard through the Marion County Liaison, as needed. The State will activate resources through the State Emergency Response Plan.
- Emergency Management will provide EOC support, conduct briefings, direct needs assessments, distribute key information, and serve as liaison to the State EOC to request resources.

2. *SUPPORT AGENCIES*

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with Emergency Management).

- RIAT Recon Mission
- Law Enforcement /Security Support to State and Local
- Coordinate Humanitarian Support to ESF 15 for distribution of medical supplies to impacted areas
- Staff and operate a National Incident Management system compliant command and control structure (i.e., Incident Command System) to assure that services and staff are provided to areas of need.

- ESF 13 liaison or designees will continue to re-assess priorities and strategies, throughout the emergency, according to the most critical Military Support Service needs.
- ESF 13 will demobilize resources and deactivate the ESF 13 station upon direction from the County Incident Commander.
- Support agencies will aid the Emergency Support Function with services, staff, equipment, and supplies that compliment the entire emergency response effort as the County Emergency Response Team addresses the consequences generated by the hazards that may impact the County (i.e., severe weather, tropical cyclones, environmental biological, terrorism, technological, and mass migration, etc.). Because services and resources are subject to change from time to time, emergency coordinators are responsible for frequently updating their resources capabilities with the Emergency Support Function 13.
- Local and State law enforcement agencies (ESF16) can provide crowd control, security measures, roadway assessments, and ingress/egress actions to protect the public and property in, near and around areas involved in military support operations; keep emergency forces informed of hazardous areas.
- ESF6 will provide field support to emergency response personnel (food, water, basic assistance, etc.).
- ESF 15 provide humanitarian services i.e., supplies (ice, water, food, etc.) to impacted areas.

G. Financial Management

1. Emergency Support Function 13 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency Management Agency fiscal agents and directly with vendors as necessary.

Emergency Support Function (ESF) 14

PUBLIC INFORMATION

Primary Agency: Marion County Emergency Management

Support Agencies: Public Information Office from the Marion County BOCC
Marion County Fire Rescue, Public Information Officer
Marion County School Board, Public Information Officer
Marion County FDOH in Marion County, Public Information Officer
City of Ocala Public Information Officers
Any additional PIOs from other agencies in EOC

I. Purpose

The purpose of ESF 14 is to disseminate information on emergencies to the public through the news media.

The following assumptions will guide the dissemination of public information in Marion County:

- Extensive destruction of media communications facilities and loss of electrical power may severely disrupt the normal flow and dispersal of information in the disaster area.
- The demand for public information within the disaster area may exceed the capability of county government to provide service. Additional support may be requested from other local agencies or the state.
- After a disaster, information can be erroneous, vague, difficult to confirm and contradictory.
- After a disaster, there will be significant demand for information on volunteer resources that are needed.
- A significant natural disaster, emergency condition or other incident may be of such magnitude that the means of dispersing public information in the disaster area may be severely affected or cease to function.

II. Concept of Operations

A. General

1. Emergency Support Function 14 is organized consistent with the Incident Command System to provide incident assessment, planning, procurement, deployment, coordination and support operations to the Marion County Emergency Management Team.

2. Procedures, protocols, and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field. In a large event requiring local and state mutual aid assistance, Emergency Support Function 14

will coordinate with support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

3. Emergency Management will act as the lead agency for ESF 14. Depending on the severity of the situation, other local public information officers and County staff will assist with media advisories and releases. Lead or support agency public information staff will operate from the Emergency Operations Center (EOC) on a 24-hour schedule to help maintain the flow of public information.

4. The Marion Sheriff's Office and other state and local law enforcement agencies will assist ESF 14 because much of the protective actions taken during disasters involve the use of law enforcement resources. When the EOC is activated, law enforcement representatives will notify the public information office of impending operations. Depending on the severity of the disaster, Emergency Management may activate a 24-hour citizen information center to handle citizens' inquiries.

5. In a catastrophic disaster, ESF 14 and ESF 15 (volunteer goods and services) will work together to release information regarding volunteer goods and services that need to be sent to the disaster area, and where volunteers and donors may go to deliver such goods or services. All ESFs will routinely provide information to ESF 14 to keep government officials and citizens aware of current events.

6. The Marion County EOC has a Citizen Information Lines that will be activated during major and catastrophic disaster events in Marion County. The CIC will remain in operation during the recovery phase of the disaster event to provide citizens with information regarding location of disaster recovery centers, distribution sites, individual, and other assistance programs that are available. The Citizen Information Center is staffed with employees of the County that have been trained to support the EOC and assist the citizens who call. The *Citizen Information Line SOG/SOP* details guidance and procedures for the implementation, operation, and deactivation of the Citizen Information Line.

B. ORGANIZATION

1. COUNTY

a. The Public Information function will be a part of the Command Staff. The Public Information Officer is responsible for interfacing with the public and media and/or agencies with incident-related information requirements.

b. During a disaster, the County EOC will act as the central coordinating facility for receiving and disseminating public information. Information flow to the EOC will occur directly from news media reports and citizen public information phone calls. Information will flow from the EOC in the form of media briefings, news releases, and situation reports. Information will also flow from ESF 14 to the State EOC.

C. ALERTS/NOTIFICATIONS

1. Emergency Support Function 14 will be activated or placed on standby upon notification by Emergency Management. The primary and support Volunteers and PIO representatives or designees will jointly manage the emergency activities of ESF 14.

2. When notified that the EOC has been activated, the ESF 14 coordinator will:

- Conduct an immediate survey of all ESF agencies to assess damage, determine ability to continue to provide services and determine support capabilities.

- Establish contact with the County PIOs to coordinate dissemination of media information relative to volunteers and donations

- Establish contact with the State ESF 14 coordinator to advise of current situation, status and emerging needs.

D. ACTIONS

Actions carried out by Emergency Support Function 14 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service.

The following is a series of checklists to help guide the ESF 14 Function throughout the 4 phases of Emergency Management. These checklists are a tool and may not encompass the full scope of activities within the ESF 15 function.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Public Information capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 14 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 14. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Coordinate with local media on public information procedures, content of information, information dissemination strategies, and roles and responsibilities of the Marion County Public Information Officer under the Incident Command System.
- Coordinate with the Florida DEM, and specifically the application of multimedia public information strategies, techniques, and monitoring efforts.

2. RESPONSE ACTIONS

- Notify the media of disaster impacts, protective measures, and other topics that will facilitate and expedite response and recovery, and address public information needs.
- Support establishment of a Joint Information Center, if required. Provide staffing.
- Activate the Citizen Information Lines to handle phone calls from individuals. Marion County's 9-1-1 system is TTY compatible. The ATT Language Line handles inquiries from callers who do not speak English.
- Provide updates to the news media about disaster conditions and actions taken in response to those conditions.
- Regularly disseminate information from summary reports and briefings to the news media.
- Provide continuing trained public information staff in support roles to assist local response and recovery efforts.

- Continue to staff citizen information lines.
- Continue to coordinate with ESF 15 to provide public information concerning what types of volunteer service are required.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.

3. RECOVERY ACTIONS

- Coordinate closely with ESF 5 in assessing disaster recovery issues, priorities, problems, and other factors that need to be shared with the news media.
- Coordinate with ESF 6 to announce closing of shelters, location of mass feeding, and comfort stations.
- Support establishment of a Joint Information Center, if required. Provide staffing.
- Maintain records of all releases for documentation after the event.
- Coordinate with State EOC for dissemination of information on location of recovery centers.
- Coordinate with ESF 5 in answering reporter's questions on damage assessment findings, statistics, disaster response performance, and other potentially sensitive issues.

4. MITIGATION ACTIONS

- Coordinate with Local Mitigation Strategy Steering Committee members and other mitigation officials in developing and disseminating messages to the media on the role of mitigation in reducing future disaster losses, mitigation success stories in Marion County, LMS priorities, and other mitigation issues.

E. DIRECTION AND CONTROL

1. Emergency Support Function 14 complies with the National Response Plan, the National Incident Management System and uses the Incident Command System) composed of Planning, Operations, Logistics and Finance/Administration Sections with their standardized forms and terminology) to manage its emergency/disaster responsibilities. Key to this system is Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. BOCC serves as the focal point for Emergency Support Function 14 activities. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions, and other private voluntary agencies have knowledge about the system and Emergency Support Function 14 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 14 system operates in two arenas; 1) The County Emergency Operations Center; 2) field locations.

F. RESPONSIBILITIES

1. *PRIMARY AGENCY*

Emergency Management disseminates emergency information to the general public during disasters. The agency provides information to the news media in briefings, situation reports, news releases, or emergency alert announcements. EM will:

- Disseminate information concerning specific disasters, their associated threats, and protective actions to the news media and general public. Media interviews as well as scripted and recorded public service announcements are part of this effort.
- Provide a central point allowing the news media and general public access to information concerning protective actions taken by the county. Media representatives visiting the Emergency Operations Center (EOC) during a disaster will be housed in the media center or other specified locations. Media access to the EOC itself will be limited and temporary.
- Establish a format for managing and staffing public information telephone lines before, during, and after a disaster.
- Release public information concerning needed volunteer goods and services.
- Coordinate closely with support agencies in the preparation of consistent and accurate messages, and the dissemination of messages through daily briefings and news conferences.

2. *SUPPORT AGENCIES*

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Emergency Management)

The Public Information Officer will work closely with Public Information Officers from support agencies to ensure consistency and accuracy in the development and delivery of messages on disaster impacts, actions taken, protective measures for the public, and other issues. ESF 14 will coordinate with the media representatives or PIOs from all agencies supporting the event.

G. FINANCIAL MANAGEMENT

Emergency Support Function 14 is responsible for managing financial matters related to resources that are procured and used during an event.

Emergency Support Function (ESF) 15

Volunteers and Donations

Primary Agency: Marion County Emergency Management

Support Agencies: Community Foundation for Ocala/Marion County
United Way
Interfaith
Salvation Army
American Red Cross
Marion County Churches and Faith Based Organizations
Marion County Business and Organizations

I. Purpose

The purpose of Emergency Support Function 15 to coordinate the efficient and effective utilization of unaffiliated volunteers and donated resources to meet the needs of the impacted area(s) of Marion County following a disaster or other incident of significance.

Overall management, coordination, and prioritization of volunteer support and distribution of donated resources to meet the needs of the impacted area(s) following a disaster or other incident of significance.

The following **policies** apply:

- All unaffiliated volunteer activity will be coordinated by ESF-15.
- All unsolicited offers of donations will be routed to and/or coordinated by ESF-15.
- All requests for goods or services that can be provided through volunteers or donations will be coordinated by ESF-15.

II. Concept of Operations

A. General

1. Emergency Support Function 15 is organized consistent with State Emergency Operations Center.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center.

3. In a large event requiring local or State mutual aid assistance, Emergency Support Function 15 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 15 will evaluate and analyze information regarding the availability of volunteers and donated goods and services.

5. A number with multi-line rollover capacity will be used for incoming volunteer and donations related calls. The Marion County PIO will publicize the importance of outside callers using this line for instructions PRIOR to sending donations or arriving for volunteer assignment.

7. The pre-designated reception center/ warehouse space will be utilized by ESF-15 to receive, sort, inventory, and redistribute donated goods to agencies and churches.

8. Prioritization of needs will be established as soon as possible.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, support agency staff is integrated with the Emergency Management staff to provide support that will allow for an appropriate, coordinated, and timely response.

b. During an emergency or disaster event, the Logistics Section Chief will coordinate the support resources from the support agencies.

c. During the response phase, Emergency Support Function 15 will evaluate and analyze information regarding volunteers and donations requests. Also, Emergency Support Function 15 will develop and update assessments of the requirements for volunteers and donations in the impacted area and undertake contingency planning to meet anticipated demands and requirements.

d. Emergency Management develops and maintains the overall Emergency Support Function 15 Emergency Operations Plan and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies

e. Staffing of ESF 15 positions will be accomplished through using resources of Marion County along with personnel from ESF 15 support agencies, and trained and screened unaffiliated volunteers.

f. Individual organizations supporting ESF 15 will maintain contact with the ESF 15 EOC liaison to advise of status and response capabilities.

g. Volunteer and donations services and will provide a liaison to facilitate requests for ESF 15 resources to local Emergency Operations Centers.

C. ALERTS/NOTIFICATIONS

1. Emergency Support Function 15 will be activated or placed on standby upon notification by Emergency Management. The primary and support Volunteers and Donations representatives or designees will jointly manage the emergency activities of ESF 15.

2. When notified that the EOC has been activated, the ESF 15 coordinator will:

- Conduct an immediate telephone survey of all Health and Human Service agencies to assess damage, determine ability to continue to provide services and determine support capabilities.
- Establish contact with the County PIO to coordinate dissemination of media information relative to volunteers and donations
- Establish contact with the State ESF 15 coordinator to advise of current situation, status and emerging needs.

D. ACTIONS

Actions carried out by Emergency Support Function 15 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 15 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services.

The following is a series of checklists to help guide the ESF 15 Function throughout the 4 phases of Emergency Management. These checklists are a tool and may not encompass the full scope of activities within the ESF 15 function.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop Volunteers and Donations response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 15 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 15. This involves the active participation on inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Local and State Volunteers and Donations will jointly address planning issues on an on-going basis to identify response zones, potential staging areas and specific requirements.
- Conduct planning with Emergency Support Function 15 support agencies, and other emergency support functions to refine Volunteers and Donations operations.
- Develop and refine procedures to be used in field surveys:
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Participate in all hazards exercises involving Emergency Support Function 15.

2. RESPONSE ACTIONS

- Coordinate operations at the Emergency Support Function 15 office in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction and control and coordination with county EOC, regional task force and state EOC.
- Preposition response resources when it is apparent that volunteer and donations resources will be necessary. Relocate ESF 15 resources when it is apparent that they are endangered by the likely impacts of the emergency situation.
- Monitor and direct ESF 15 resources and response activities.
- Participate in EOC briefings, Incident Action Plans, Situation Reports, and meetings.
- Obtain County resources through the County Comprehensive Emergency Management Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other ESFs and serve as an informational group on the availability and coordination of resources from volunteers and donations.
- Catalog and update local unmet needs and communicating those needs to volunteer and donations primary support staff.
- Coordinate with ESF 7 and Logistics to identify staging areas for donations, factoring in the location, scope, and magnitude of the event. Donations strategy will replicate that of FEMA's G288 Donations Management Workshop.
- Coordinate with ESF 7 and Logistics in identifying Volunteer Reception Centers, which will be patterned after the Volunteer Florida publication Unaffiliated Volunteers in Response and Recovery.

3. RECOVERY ACTIONS

- Recovery operations of ESF-15 will be a continuation of activity begun during the Response Phase and may continue beyond EOC activation period.
- Activity by organization/agencies involved with ESF-15 in recovery operation may continue even though recovery centers have closed.

4. MITIGATION ACTIONS

- ESF-15 will work with Emergency Management assist in the promotion of the benefits of individual, neighborhood, and community preparedness.

E. DIRECTION AND CONTROL

1. Emergency Support Function 15 uses the Incident Command System (composed of Planning, Operations, Logistics and Finance/Administration Sections. Key to this system is Emergency Management, which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. Emergency Management serves as the focal point for Emergency Support Function 15 activities. It is responsible for ensuring that all appropriate program departments, support agencies, other Emergency Support Functions, and other private voluntary agencies have knowledge about the system and Emergency

Support Function 15 expectations, as well as coordinate and cooperate efficiently during an event.

2. The Emergency Support Function 15 system operates in two arenas; 1) The county Emergency Operations Center; 2) field locations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 15 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Coordinators and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 15 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by The Chamber of Commerce with status of the call lists updated at least monthly and all other documents at least annually.

F. RESPONSIBILITIES

1. PRIMARY AGENCY

- Activate the ESF-15 liaison for duty at the EOC.
- Notify all support agencies for assessment, activation, and mobilization purposes.
- Coordinate with other ESFs to determine available resources and needs.
- Organize and provide lead staff for all facilities directly related to ESF-15 purpose.
- Coordinate disbursement of donated goods to agencies in need.

2. SUPPORT AGENCIES

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with Emergency Management)

- Provide personnel and resources to staff operations supportive of ESF-15 purpose.
- Notify and mobilize personnel as directed by ESF-15 representative.
- Maintain regular communication with ESF-15 representative at the EOC.
- Maintain records of personnel, funds and time expended in support of directed operations.
- Provide names and contact information of all tasked personnel to the ESF-15 representative.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 15 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each

agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by support entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 16

Law Enforcement

Primary Agency: Marion County Sheriff's Office

Support Agencies:
City of Ocala Police Department
City of Dunnellon Police Department
City of Belleview Police Department
Florida Department of Law Enforcement
Federal Bureau of Investigation
Florida Wildlife Commission
Florida Highway Patrol
Northeast Florida Regional Domestic Security Task Force

I. Purpose

The purpose of Emergency Support Function 16 is to provide law enforcement coordination and support services in support of emergency events in Marion County. ESF-16 can provide personnel and resources to support prevention, preparedness, protection, response, recovery, and mitigation in support of the primary emergency management objectives. The ESF-16 Emergency Coordination Officer (ECO) is appointed by and located in the Marion County Sheriff's Office and directs all aspects of emergency management. Emergency Support Function 16 resources are used when individual agencies are overwhelmed and County Emergency Management Team requests additional law enforcement assistance.

II. Concept of Operations

A. General

1. Emergency Support Function 16 is organized consistent with the State Emergency Operations Center and the requirements of the National Response Plan, the National Incident Management System, and the Incident Command System in order to provide incident assessment, planning, procurement, deployment, coordination and support operations to Marion County through the Marion County Emergency Management Team, Area Operations and State Emergency Response Team to assure a timely and appropriate response to an emergency or situation.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center.

3. In a large event requiring local or State mutual aid assistance or Federal assistance, Emergency Support Function 16 will coordinate with support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 16 will evaluate and analyze information regarding law enforcement support requests, and

develop and update assessments of the law enforcement resource status in the impact area, and conduct contingency planning to meet anticipated demands or needs.

5. When an event is focused in scope to a specific type or response mode technical and subject matter expertise may be provided by an appropriate person(s) from a supporting agency with skills pertinent to the type of event, who will advise and/or direct operations within the context of the Incident Command System structure.

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, all support agency staff are integrated with the Marion County Sheriff's Office staff to provide support that will allow for an appropriate, coordinated and timely response to the field Incident Commander.

b. During an emergency or disaster event, the Operations Section Chief will coordinate the support resources from ESF 16.

c. During the response phase, Emergency Support Function 16 will evaluate and fulfill all valid requests for law enforcement resources. Also, Emergency Support Function 16 will complete and update assessments and contingency plans for the law enforcement support services deployed or anticipated in the incident area.

d. Marion County Sheriff's Office will develop and maintain the overall Emergency Support Function 16 Emergency Operations Plan and accompanying Appendices, annexes and Standard Operating Guidelines that govern response actions related to emergencies.

C. ALERTS/NOTIFICATIONS

1. Emergency Support Function 16 will be activated or placed on standby upon notification by the County Emergency Management Office. The primary and support law enforcement agencies will coordinate and support the emergency activities of ESF 16.

2. Upon instructions to activate ESF 16, local and State law enforcement will implement procedures to notify and mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.

D. ACTIONS

Actions carried out by Emergency Support Function 16 are grouped into the phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 16 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services. The following services may be provided:

- Scene security, intelligence, investigations, or other special law enforcement services.

- Law Enforcement personnel.
- Law Enforcement Specialty Teams (SWAT, HDT, Forensics, Perimeter Security, Waterborne Security).
- Law Enforcement equipment and supplies.
- Evacuation and Re-entry support.
- Post event security and escort services.
- Emergency responder health and safety.
- Scene support for Radiological/chemical/biological hazards.
- Mental health and crisis counseling for responders.
- Law Enforcement Public Information (crisis and risk communication).
- Law Enforcement Management - Command and control of assets.
- Law Enforcement activities related to terrorist threats and/or events.
- Logistical Staging areas and Points of Dispensing.
- Catastrophic incident and alternate law enforcement service facility support.

The following is a series of checklists to help guide the ESF 15 Function throughout the 4 phases of Emergency Management. These checklists are a tool and may not encompass the full scope of activities within the ESF 15 function.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop law enforcement response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 16 personnel (i.e., County, State, Regional, and Federal) and other emergency support functions that will respond with Emergency Support Function 16. This involves the active participation of inter-agency preparedness organizations, which collaborate in such activities on a regular basis.
- Local and State law enforcement will jointly address planning issues on an on-going basis to identify response zones, potential staging areas, medical facilities, and establish specialized security, tactical or other response teams.
- Conduct planning with Emergency Support Function 16 support agencies, Regional Domestic Security Task Forces, and other emergency support functions to refine law enforcement coordination and support operations.
- Develop and refine procedures to be used in response operations.
- Conduct training and exercises for EOC and response team members.
- Prepare and maintain emergency operating procedures, resource inventories, personnel rosters, and resource mobilization information necessary for implementation of the responsibilities of the lead agency. Ensure lead agency personnel are trained in their responsibilities and duties.
- Develop and implement emergency response and law enforcement security and/or investigations services.
- Develop and present training courses for Emergency Support Function 16 personnel, provide information on critical facilities to the County Emergency Management and develop protocols for frequently provided services.
- Maintain liaison with support agencies.
- Conduct vulnerability analysis at critical facilities and make recommendations to improve the physical security.
- Participate in all hazards exercises involving Emergency Support Function 16.

2. RESPONSE ACTIONS

- Coordinate operations of Emergency Support Function 16 in the County Emergency Operations Center and/or at other locations as required.
- Establish and maintain a system to support on-scene direction, control, and coordination with the local Incident Commander, the county EOC, Regional Domestic Security Task Force, and the State EOC, or other coordination entities as appropriate.
- Establish Mutual Aid and liaison procedures for the following resources; Urban and Light Search and Rescue, Physical Security, Traffic Control, Escort Services, Patrol, Intelligence and Investigations support, Interoperable Communications and other resources, as required.
- Resource Management and Logistical Support.
- Implementation of Impact Assessment Teams to determine post-storm impact to Emergency Services and the ability to perform Continuity of Operations Plans to ensure the delivery of essential functions.
- Intelligence and Investigations support in the investigation of a suspected terrorist attack.
- Pre-position response resources when it is apparent that law enforcement resources will be necessary and be prepared to relocate resources to a safe area if they are endangered by the impact of the emergency situation.
- Monitor and direct law enforcement resources and response activities.
- Participate in EOC briefings, develop Incident Action Plans, Situation Reports, and attend meetings.
- Coordinate with support agencies, as needed, to support emergency response activities.
- Obtain County resources through the County Comprehensive Emergency Plan (CEMP); coordinate all resources into the affected areas from designated staging areas.
- Coordinate with other county ESFs to obtain resources and facilitate effective emergency response among all participating agencies and jurisdictions.

3. RECOVERY ACTIONS

- Continue to provide support as required until response activities are concluded or until they can be managed and staffed by the primary incident agency or jurisdictions.
- Continue to provide support as required to support the recovery phase. Normally, the requirements for law enforcement diminish during the recovery phase and the majority of assignments can be handled by the primary incident agency or jurisdictions.
- Initiate financial reimbursement process for these activities when such support is available.

4. MITIGATION ACTIONS

- Apply geographic information systems (GIS) to identify location(s) of vulnerable populations and critical infrastructure.
- Identify deficiencies or areas to be improved, and seek funds to enhance protective measures to lessen the impact on vulnerable populations, and/or minimize damage to critical facilities.
- Provide personnel with the appropriate expertise to participate in activities designed to reduce or minimize the impact of future disasters.

E. DIRECTION AND CONTROL

1. Emergency Support Function 16 complies with the Incident Command System (which is comprised of the following sections: Planning, Operations, Logistics and Finance/Administration with standardized forms and terminology) to manage emergency/disaster events. The Marion County Sheriff's Office serves as the lead agency for Emergency Support Function 16 activities. Emergency Management functions as the disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County. It is responsible for ensuring that all appropriate departments, support agencies, other Emergency Support Functions, and other private voluntary agencies are familiar with their roles and responsibilities about the emergency management system, in general, and Emergency Support Function 16 responsibilities, in particular.

2. Emergency Support Function 16 system operates in two arenas; the County Emergency Operations Center; 2) field locations.

3. During emergency activations, all management decisions regarding County or regional responses are made at the County Emergency Operations Center by the Emergency Support Function 16 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Coordinators and staff at the County Emergency Operations Center assist the on-scene incident commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 16 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by the Marion County Sheriff's Department with status of the call lists updated at least monthly and all other documents at least annually.

5. All local law enforcement field personnel are subordinate to the Emergency Support Function 16 at the County Emergency Operations Center.

6. In accordance with a mission assignment from Emergency Support Function 16, and further mission tasking by a Local primary agency, each support organization assisting Emergency Support Function 16 assignment will retain administrative control over its own resources and personnel but will be under the operation control of Emergency Support Function 16. Delegation of mission operational

control may be delegated to a Management Support Unit, Multi-Agency Coordination Team or a local entity.

F. RESPONSIBILITIES

1. *PRIMARY AGENCY*

- Provide leadership in directing, coordinating, and integrating overall County efforts to provide public safety assistance, rescue and recovery to affected areas and populations.
- Staff and operate a National Incident Management system compliant command and control structure (i.e., Incident Command System) to assure that services and staff are provided to areas of need.
- Coordinate and direct the activation and deployment of public safety personnel, supplies, and equipment and provide certain direct resources.
- ESF 16 members or designees will jointly evaluate the emergency situation, make strategic decisions, identify resource needs, and secure resources required for field operations.
- ESF 16 is responsible for monitoring law enforcement emergency response and recovery operations. ESF 16 members or designees will coordinate all State and Federal law enforcement resources into the affected areas from staging areas.
- ESF 16 will manage emergency incidents in accordance with each department's Standard Operating Guidelines and under the direction of the ESF 16 Emergency Coordinating Officer.
- ESF 16 members or designee will make specific requests for law enforcement assistance to ESF 16 at the State Emergency Operations Center. The State will activate resources through the State Emergency Response Plan.
- ESF 16 members or designees will continue to re-assess priorities and strategies, throughout the emergency, according to the most critical law enforcement needs.
- ESF 16 will demobilize resources and deactivate the ESF 16 station upon direction from the Emergency Operations Center's Operations Chief or Emergency Management Director.

2. *SUPPORT AGENCIES*

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Marion County Sheriff's Office)

- Support agencies will provide assistance to the Emergency Support Function with services, staff, equipment, and supplies that compliment the entire emergency response effort as the County Emergency Response Team addresses the consequences generated by the hazards that may impact the County (i.e., severe weather, tropical cyclones, environmental biological, terrorism, technological, and mass migration, etc.). Because services and resources are subject to change from time to time, emergency coordinators are responsible for frequently updating their resources capabilities with the Emergency Support Function 16.

- Emergency Management will provide EOC support, conduct briefings, direct needs assessments, distribute key information, and serve as liaison to the State EOC to request resources.
- Local Police Departments will send a liaison to the EOC to facilitate requests in conjunction with ESF 16.
- The Florida Department of Law Enforcement agency is responsible for the State overall command and coordination of Emergency Support Function 16, and the deployment of State law enforcement assets to affected local agencies. Responsible for staffing the State Emergency Operations Center, Regional Operations Center's, and maintaining liaison with affected Sheriff's and Chief's.
- The Department of Agriculture and Consumer Services, Office of Agricultural Law Enforcement will be responsible for assisting FDLE in the coordination of logistics (i.e., fuel, meals, generators, cots, etc.) in support of law enforcement. Assist in patrol assignments requiring four wheel drive vehicles. Furthermore, provide assistance in fixed post and other assignments as required.
- The Department of Business and Professional Regulation, Division of Alcoholic Beverages and Tobacco will be responsible for assisting law enforcement in staffing and coordinating fixed post assignments, and conducting assessments of all assignments staffed by Emergency Support Function 16.
- The Department of Corrections will be responsible for State prison evacuations, assistance to FDLE in county prison evacuation, debris removal, and as a source on inmate labor (on public property consistent with agency capabilities and responsibilities.
- The Department of Environmental Protection, Division of Law Enforcement will be responsible for assisting FDLE in the coordination of State park and State law enforcement related activities such as patrols, search and rescue missions, hazardous material incidents and damage assessments.
- The Florida Department of Financial Services, Division of Insurance Fraud will be responsible for assisting FDLE in staffing and coordination of intelligence gathering, search and rescue efforts with the State Fire Marshall, and post-disaster task forces and investigative efforts relating to unlicensed adjusters and fraudulent insurance claims and other insurance related crime. Further, provide assistance in other assignments as required.
- The Florida Sheriff's Task Force will ensure that a representative is dispatched to the State Emergency Operations Center to assist FDLE in coordinating the response from other Sheriff's Offices in the State. Responding personnel will be available to provide general law enforcement services to the impacted Sheriff(s) and Chiefs, and will provide equipment as required to fulfill their assignments.
- The Florida Police Chief Association will ensure that a representative is dispatched to the State Emergency Operations Center to assist FDLE in coordinating the response from other police departments in the State. Responding personnel will be available to provide general law enforcement services to the impacted Sheriff(s) and Chiefs, and will provide equipment as required to fulfill their assignments.
- The Department of Highway Safety and Motor Vehicles, Division of Florida Highway Patrol will be responsible for assisting FDLE in the coordination of Regional and Highway Evacuation Lane Plan (HELP), evacuations, traffic control,

road status closure information, high visibility patrol, and escorts. Furthermore, provide assistance in fixed post and other assignments as required.

- The Department of Lottery, Division of Security will be available for limited logistical transport assistance to State law enforcement, as required, and provide other law enforcement services consistent with agency capabilities and responsibilities.
- The Florida Fish and Wildlife Conservation Commission, Division of Law Enforcement will be responsible for conducting waterborne security evacuations, search and rescue, waterborne law enforcement, and patrol of rural natural areas, assist FDLE with communications issues and assist in mission requiring four-wheel drive, all terrain vehicles, vessels or aircraft. Further, provide assistance in fixed post and other assignments as required.
- The Department of Transportation, Division of motor Carrier Compliance will be responsible for assisting FDLE in coordinating size, weight and registration requirements as they pertaining to the movement of relief supplies and recovery equipment, including lowering size and weight restrictions and establishing fixed post assignments associated with Florida's transportation infrastructure, provide assistance as required.
- The Department of Juvenile Justice when possible will assist FDLE in coordinating activities and services, which may include but are not limited to; transporting of victims and/or supplies to disaster relief sites, providing temporary housing, preparing supplies for dissemination to disaster relief sites, assisting with the relocation of displaced citizens, assisting with food support services, providing limited, temporary manpower for restoration and cleanup, providing clerical/administrative support for command/communications centers.

G. Financial Management

1. Emergency Support Function 16 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. This section will coordinate closely with the Logistics Section to ensure that procurements and staff hours are properly documented and processed for payment and potential reimbursement. It will also be responsible for following up all financial issues after response has ceased by coordinating with Emergency Management officials, the State Division of Emergency Management fiscal agents and the Federal Emergency management Agency fiscal agents and directly with vendors as necessary.

3. Expenditures by other department entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 17

Animal Issues

Primary Agency: Marion County Animal Services

Support Agencies:
Marion County Sheriff's Office
Marion County Veterinary Association
City of Ocala Police Department
City of Ocala Animal Control Division
Florida Veterinary Medical Association
Florida Animal Control Association
FDOH in Marion County
Silver Springs Attractions
Marion County Cattlemen's Association
Horse Organizations in Marion County
Ocala Breeders Sales
Southeastern Livestock Pavilion
World Equestrian Center
Central Florida Veterinary Medical Association
University of Florida
Institute of Food & Agricultural Science

I. Purpose

The purpose of Emergency Support Function 17 is to provide for the coordination of local resources in response to small pet, livestock, exotic animal care, agricultural issues, natural resource protection and recovery needs before, during, and following a significant natural or technological disaster. These issues are often overlooked in the planning process for disasters.

Emergency Support Function 17 will provide overall management, coordination, and prioritization of county-wide services and assets to support animal, agriculture, and natural resource needs in the event of a major emergency or disaster.

Emergency Support Function 17 readiness planning is guided by the following assumptions:

- Human lives may be lost due to the refusal of owners to evacuate without their pets or livestock. Public education by the County and animal-related organizations is needed to make the people aware of pet sheltering facilities available, and the need to plan in advance.
- The large number of homeless/injured pets, livestock, and exotic animals, would be a health and nuisance/bite threat which would necessitate a response to address the capture and subsequent sheltering of these animals.
- Triage and treatment of sick and injured animals to include euthanasia, if necessary, would have to be accomplished by veterinarians at designated shelters and private

offices.

- Commercial pet/livestock food would need to be imported into the county by prior arrangement with vendors. Food drops for wild animals would be organized by various wild-animal-related groups and state agencies.
- The accumulation of shelter animal waste and carcasses must be removed to approved solid waste dumping sites.
- The accumulation of animal carcasses throughout the County must be removed to approve solid waste dumping sites and/or burnt on site.
- Sheltered animals will need to be re-united with their owners after the disaster.
- Natural resources could be severely affected by disaster requiring a coordinated response effort
- A catastrophic event destroying the forests of Marion County would have a deep economic affect.
- Marion County has an abundance of food crops and livestock, any damage to these assets would have a deep economic affect.

II. Concept of Operations

A. General

1. Emergency Support Function 17 is organized consistent with the Incident Command System. This structure and system supports incident assessment, planning, procurement, deployment, and coordination and support operations to Marion County through the Marion County Emergency Management Team.

2. Procedures protocols and plans for disaster response activities are developed to govern staff operations at the Marion Emergency Operations Center and in the field.

3. In a large event requiring local or State mutual aid assistance, Emergency Support Function 17 will work with its support agency counterparts to seek and procure, plan, coordinate and direct the use of any required assets.

4. Throughout the response and recovery periods, Emergency Support Function 17 will evaluate and analyze information regarding the availability of animal protection services.

5. At the time of activation of the EOC, Emergency Support Function 17 will be staffed on a 24-hour schedule to interface and communicate with other agencies and prioritize assistance requests.

B. ORGANIZATION

1. COUNTY

a. Emergency Management, or designee at the Emergency Operations Center, is responsible for all activity of the Emergency Support Function. All volunteer animal-related agencies will coordinate directly with this Emergency Support Function at the EOC. Marion County Extension Service will coordinate agriculture, and all large animals Emergency Support Function Activity with this ESF at the EOC.

b. During an activation of the County Emergency Operations Center, ESF 17 staff is directed by the Planning Section Chief. During an emergency or disaster event, the Planning Section Chief will coordinate the support resources from the support agencies.

c. During the response phase, Emergency Support Function 17 will evaluate and analyze information regarding volunteers and donations requests. Also, Emergency Support Function 17 will develop and update assessments of the requirements for resources to provide services in the impacted area and undertake contingency planning to meet anticipated demands and requirements.

d. Emergency Management develops and maintains the overall Emergency Support Function 17 Emergency Operations Plan and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies.

e. Staffing of ESF 17 positions will be accomplished through using resources of the personnel from ESF 17 support agencies, and trained and screened unaffiliated volunteers.

C. ALERTS/NOTIFICATIONS

1. Emergency Support Function 17 will be activated or placed on standby upon notification by the County Emergency Management Office. The primary and support representatives or designees will jointly manage the emergency activities of ESF 17.

2. Initial notification will be sent by the Emergency Operations Center to the support agencies of notification of this ESF. Immediately following notification to activate this ESF, Marion County Emergency Management will complete the following:

   - Assure necessary emergency operating facilities and reporting systems are established.
   - Establish communications with the support agencies, obtain status report,
   - Request appropriate representation to the EOC.

D. ACTIONS

Actions carried out by Emergency Support Function 17 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 17 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services.

The following is a series of checklists to help guide the ESF 17 Function throughout the phases of Emergency Management. These checklists are a tool and may not encompass the full scope of activities within the ESF 15 function.

1. PREPAREDNESS ACTIONS

- Actions and activities that develop response capabilities may include planning, training, orientation sessions, and exercises for Emergency Support Function 17 personnel (i.e., County, State, Regional, and Federal).
- Conduct planning with Emergency Support Function 17 support agencies, and other emergency support functions to refine operations.
- Deliver preparedness programs that address ESF 17 issues.
- Promote public awareness programs to address the phases of emergency management.
- Stockpile any supplies that may be needed for an activation.

2. RESPONSE ACTIONS

- Coordinate with Emergency Support Function 1 (Transportation), and Emergency Support Function 6 (Mass Care), to provide support in sheltering animals whose owners will not evacuate without their pets.
- Identify, mobilize, and deploy assessment representatives to the disaster area(s) to determine the specific health and safety needs and priorities. Emergency Support Function 17 will coordinate with other Emergency Support Functions represented at the EOC to provide support to aid in the relief efforts.

3. RECOVERY ACTIONS

- Provide continued care of sheltered animals, provide an extended network for the adoption of unclaimed animals, and assist in the relocation of sick and injured animals to permanent facilities until a return to normal operations.
- Work with the support agencies to complete recovery actions

4. MITIGATION ACTIONS

- Develop and deliver guidance for pet owners, farmers and owners of livestock on measures that can be taken to reduce losses from scenario disaster events

E. DIRECTION AND CONTROL

1. Emergency Support Function 17 complies with the Incident Management System (NIMS). which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Marion County.

2. The Emergency Support Function 17 system operates at two levels: 1) County Emergency Operations Center; and 2) Field operations.

3. During emergency activations, all management decisions regarding County or regional response are made at the County Emergency Operations Center by the Emergency Support Function 17 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Section Coordinators and staff at the County Emergency Operations Center assist the commander in carrying out the overall mission.

4. A staffing directory and the Emergency Support Function 17 Emergency Operations Plan, its accompanying Appendices, Annexes, and Standard Operating guidelines are maintained by the Marion County Emergency Management with status of the call lists updated at least annually.

F. RESPONSIBILITIES

1. PRIMARY AGENCY

- Maintain equipment and resources necessary to manage livestock in a disaster situation.
- Provide or arrange the transportation of livestock in the aftermath of a disaster.
- Assist in the establishment of housing for livestock and displaced animals.
- Function as the County's representative/liaison to the Emergency Operations Center (EOC) Team for the activities and responsibilities carried out by the primary and support agencies of this ESF.
- Investigate all animal bites.
- Facilitate the transportation of injured, stray, or nuisance animals to animal care facilities.
- Assist emergency response teams with animal-related problems.
- Make the arrangements for the removal and disposal of dead animals.
- Coordinate with the Marion County Public Health Unit for the release of public information regarding animals and related health issues.
- Enforce the Marion County Animal Control Ordinance.
- Provide for quarantine of bite animals for observation. Impounding animals roaming at large.
- Euthanize sick and/or injured animals through assigned and authorized persons.
- Return wild animals to their natural environment.
- Respond to animal-related inquiries.

- Investigate animal cruelty and neglect complaints.

3. SUPPORT AGENCIES:

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Marion County Emergency Management).

- Notify, activate, and mobilize all personnel and equipment to perform or support assigned functions.
- Designate and assign personnel for staffing of all facilities at which this Emergency Support Function is required, and providing representation when it is determined by the primary agency of this Emergency Support Function to be necessary.
- Coordinate all actions of the support agency with the primary agency when performing the assigned missions of this Emergency Support Function.
- Identify all personnel and resource requirements to perform assigned missions which are in excess of the support agencies' capabilities.

- Notify, activate, and mobilize all agencies assigned to the ESF.
- Coordinate all support agency actions in performance of missions assigned to this ESF.
- Coordinate requests for assistance and additional resources necessary during performance of the mission with the appropriate agencies.
- Function as the County's representative/liaison to the Emergency Operations Center (EOC) Team for the activities and responsibilities carried out by the primary and support agencies of this ESF.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 17 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

2. Expenditures by support entities will be documented by those entities and submitted directly to the Finance/Administration Section or a designated Finance Service officer as soon as possible.

Emergency Support Function (ESF) 18

Business and Industry

Primary Agency: Chamber and Economic Partnership (CEP)

Support Agencies: Marion County Administrator's Office
Marion County Emergency Management
Marion County Community Services Division
City of Ocala, Community Programs Department
Community Foundation for Ocala/Marion County

I. Purpose

The purpose of Emergency Support Function (ESF) 18 is to coordinate local actions that will provide immediate and short-term assistance for the needs of business, industry, and economic stabilization. Preparedness and response assistance may include accessing the financial, workforce, technical, and community resources that may affect a community's ability to restore business operations as quickly as possible and resume focus on long-term business strategies. Coordination of local business assistance is done primarily through networks of local and regional economic, workforce and tourism development partners, as well as business support organizations who determine the most efficient and effective ways to manage the access to these services at the local and regional level. ESF 18 will support the Marion County Emergency Operations Center (EOC) efforts via identification and solicitation of resources to meet identified needs. ESF 18 will also support county efforts by facilitating and coordinating intermediate and long term economic impact statements.

II. Concept of Operations

A. General

The coordination of local agencies and organizations involved in assisting economic development, workforce, tourism and other business support agencies and organizations includes the performance of tasks related to preparedness, response, recovery and mitigation where local resources are not sufficient and local government requests state assistance. Included among ESF 18 tasks are the following:

1. Provide information and training on implementing support to the business community.

2. Provide economic damage assessments to EOC.

3. Provide recovery assistance to businesses of all sizes in all industry sectors through the networks of state, regional and local partners.

4. Coordinate with regional and local economic and workforce development and business organizations to refer volunteer personnel; coordinate efforts to provide immediate assistance to the employers and employees in the county.

5. Coordinate with the Plans Section to ensure that information is provided on the assessment of overall physical and economic damage to the business communities and business preparedness, response and recovery matters, before, during and after the disaster.

6. Facilitate communication of specific business and industry sector status or ability to return to normal operation post event. This information will be used to provide appropriate and timely logistical support.

7. Coordinate with the ESF 14 PIO to support public education efforts, press releases, media interviews, and distribution of printed materials that describes the available resources and business assistance initiatives, including small business assistance centers and workshops, that are being activated in each impacted community.

8. Coordinate with all ESFs as deemed appropriate based on the disaster event type.

9. Coordinate and facilitate the delivery of a comprehensive economic impact statement as appropriate based on the disaster event type.

10. Coordinate with local economic development organizations and other sources of business damage impact information to determine general business needs and to determine the desire and need of the community to request activation of the Florida Small Business Emergency Bridge Loan Program and/or small business assistance centers and workshops.

11. Coordinate with ESF 15 Volunteers and Donations to locate and arrange for distribution of emergency and longer term relief supplies that can be sourced from Florida-based companies.

12. Coordinate and facilitate pre and post event workshops for educating and training businesses in disaster preparation, business continuity planning and recovery.

13. Support the development of and training for an enhanced pool of qualified Marion County businesses that can respond to public and private resource needs (products and services).

B. ORGANIZATION

1. COUNTY

a. During an activation of the County Emergency Operations Center, ESF 18 staff is directed by the Planning Section Chief. During an emergency or disaster event, the Planning Section Chief will coordinate the support resources from the support agencies.

b. During the response phase, Emergency Support Function 17 will evaluate and analyze information regarding business and industry requests. Also, Emergency Support Function 18 will develop and update assessments of the requirements for resources to

provide services in the impacted area and undertake contingency planning to meet anticipated demands and requirements.

c. Emergency Management develops and maintains the overall Emergency Support Function 18 Emergency Operations Plan and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies.

d. Staffing of ESF 17 positions will be accomplished through using resources of the Marion County Emergency Management along with personnel from ESF 18 support agencies, and trained and screened unaffiliated volunteers.

C. ALERTS/NOTIFICATIONS

1. Emergency Support Function 18 will be activated or placed on standby upon notification by Emergency Management. The primary and support representatives or designees will jointly manage the emergency activities of ESF 18.

2. Initial notification will be sent by the Emergency Operations Center to the support agencies of notification of this ESF. Immediately following notification to activate this ESF, Marion County Emergency Management will complete the following:

   - Assure necessary emergency operating facilities and reporting systems are established.
   - Establish communications with the support agencies, obtain status report,
   - Request appropriate representation to the EOC.

D. ACTIONS

Actions carried out by Emergency Support Function 18 are grouped into phases of emergency management: prevention, preparedness, protection, response, recovery, and mitigation. Each phase requires specific skills and knowledge to accomplish and requires significant cooperation and collaboration between all supporting agencies and the intended recipients of service. Emergency Support Function 18 encompasses a full range of activities from training to the provision of field services. It also functions as a coordinator and, at times, assumes direct operational control of provided services.

The following is a series of checklists to help guide the ESF 18 Function throughout the phases of Emergency Management. These checklists are a tool and may not encompass the full scope of activities within the ESF 18 function.

1. PREPAREDNESS ACTIONS

- ☐ Education and training of business community.
- ☐ Encourage and coordinate local agencies/organizations and resource organizations participation in disaster exercises.
- ☐ Assist in releasing information annually on disaster planning and safety for businesses through news releases, electronic advisories, or printed materials/brochures.

- Develop and maintain a database of all county/local primary economic, tourism, and workforce development organizations and other designated business support organization emergency coordinators.

- Assist local primary economic development organizations and their support organizations in identifying financial or other resources that may be employed to assist in immediate and long-term business recovery.

- Develop and maintain a database of agencies and private associations that will provide additional support to conduct emergency support for business recovery in any impacted community.

2. RESPONSE ACTIONS

- Track the business and economic preparation and recovery activities of all local primary economic and tourism development organizations as well as other business support organizations before, during, and after the disaster.

- Maintain a roster of support agencies/organizations emergency coordinators.

- Coordinate with ESF 14 to both provide and disseminate information pertinent to assisting in emergency response and recovery to impacted businesses and communities.

- Coordinate initial assessment of general business impact (in terms of employment, lost revenues, lost customers, etc.) through coordination of locally based economic development and business support agencies/organizations

3. RECOVERY ACTIONS

- Continue to coordinate assessments of general business impact (in terms of physical damage, employment, lost revenues, lost customers, etc.) working with locally based economic development, tourism, workforce, and business support agencies/organizations.

- Coordinate with state, regional and local agencies/organizations, to compile estimates of physical damage to local business communities necessary to determine the need to request activation of the Florida Small Business Emergency Bridge Loan.

- Coordinate with federal, State, regional and county agencies and other business support resources to establish Business Assistance/Resource Centers and Business Resource Workshops in impacted communities.

- Coordinate the compilation of longer-term economic impact assessment of general business impact (in terms of employment, lost revenues, lost customers, etc.) through locally based economic, tourism development and business support agencies/organizations.

- Coordinate the development and delivery of comprehensive intermediate and long term economic impact statements.

- Contact and maintain communications with the private sector, local and statewide economic development, tourism, workforce and business support organizations and state agencies to foster participation in ESF 18 activities.

- Participate in long-term recovery activities involving state and federal agencies.

- Facilitate and coordinate the involvement and participation of local and regional economic development, tourism, workforce and business support organizations in such efforts at the local level.

4. MITIGATION ACTIONS

- Facilitate the identification of and access to sources of infrastructure financing that augment existing state and community resources that enhance mitigation efforts.

- Participate on the Local Mitigation Strategy Committee.

E. DIRECTION AND CONTROL

1. The activities of ESF 18 initially will be coordinated through the Marion County EOC

F. RESPONSIBILITIES

1. PRIMARY AGENCY

- Maintain a roster of personnel to staff the ESF 18 and ensure appropriate assignment of staff as long as the EOC is operational.

- Coordinate overall preparedness, response, recovery, and mitigation activities for ESF 18.

2. SUPPORT AGENCIES:

(NOTE: Each Support Agency should review its own roles and responsibilities and revise in conjunction with the Marion County Emergency Management).

ESF 18 representatives need to be aware of their organization's capability to provide services and support for business and economic recovery in impacted communities and ensure availability of those services and support as needed for response and recovery.

G. FINANCIAL MANAGEMENT

1. Emergency Support Function 18 is responsible for managing financial matters related to resources that are procured and used during an event. During a response, each agency/department is responsible for recording and tracking its own expenditures and seeking reimbursement from the appropriate resource after the event. If a federally declared disaster exists, then a reimbursement formula is established by the Federal Emergency Management Agency that may be as much as 100 percent, but usually does not exceed 75 percent.

FORMAL TITLE:
Reappointment of Jane Cosand to the Ocala Historic Preservation Advisory Board for a new three-year term ending March 1, 2029

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The Ocala Historic Preservation Advisory Committee (OHPAB) oversees the City's historic resources, advises City Council and City departments on matters related to these resources, and manages Certificates of Appropriateness for properties located within the Tuscawilla Park and Ocala Historic Districts. It consists of nine members.

The term of current board member Jane Cosand expired on March 1, 2026, and she has submitted an application for reappointment to a new three-year term ending on March 1, 2029. For the previous year, OHPAB held 11 meetings, of which Ms. Cosand was present for nine and excused for two. There were no other applicants.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why do you think you are qualified to serve on this board/commission?

I am qualified to serve on this board/commission because my professional background combines public service, regulatory compliance, and direct community engagement. I have spent over a decade working in systems that require accountability, ethical decision making, and collaboration with multiple stakeholders, including public agencies, service providers, and residents. My experience spans education, behavioral health, care coordination, and real estate, giving me a practical understanding of how policies and decisions made at the board level directly impact individuals, families, and neighborhoods. I am skilled at reviewing complex information, navigating regulations, and advocating for solutions that balance compliance with real world needs. Currently, as a Realtor serving Marion County, I work closely with residents, business owners, and local professionals, which keeps me grounded in the day to day realities facing our community. I bring strong organizational skills, clear communication, and the ability to think critically under pressure while remaining fair, respectful, and community focused. I am committed to serving with integrity, preparation, and a genuine desire to contribute thoughtful input that supports responsible growth, transparency, and the overall well being of the city.

4. Topics for Discussion

4a. Sanitation Rate Study

Presentation By: Darren Park

Darren Park, Public Works Director, opened the discussion by referencing the November 12 meeting in which the consultant's recommendations for sanitation services were previously reviewed. Staff had been directed at that time to evaluate the potential impact of discontinuing curbside single-stream recycling on future rate increases, as well as to examine options for bringing Trinity Villa's sanitation rates into alignment with those applied to other multifamily complexes. Mr. Park then introduced the consultant to present the updated information and invited attendees to ask questions throughout the presentation.

Thierry Boveri, Vice President of Raftelis, introduced himself and noted that the firm's lead analyst was also present. Mr. Boveri stated that the purpose of the presentation was to provide a brief recap of the original sanitation rate study previously presented, followed by an update based on the Council's direction. He outlined three specific items identified for re-evaluation:

- the impact of delaying rate implementation until March,
- adjusting the Trinity Villas rate to align with the multifamily rate, and
- determining the effect on rates if the City eliminated the curbside single-stream recycling program under the existing contract.

Mr. Boveri advised that each item would be addressed in detail and that the goal of the updated review was to support further direction from the Council. He then referenced a slide from the November presentation illustrating the forecasted revenue requirements of the solid waste system, including operating and maintenance expenses, indirect cost allocations, and capital needs. Mr. Boveri noted that revenues were insufficient beginning in FY 2025 to fully fund capital requirements, although operating costs could be met. He attributed the shortfall primarily to inflationary increases in solid waste operations, which have exceeded typical consumer inflation. Although some rate adjustments had been made in prior years, he stated that the system had not kept pace over the last decade. The consultant therefore developed a two-year rate adjustment plan intended to restore financial sustainability while moderating customer impacts.

Mr. Boveri reviewed additional components of the November presentation, noting that commercial bill impacts had previously been outlined. He emphasized that recommended commercial rate increases were proportional to those proposed for residential and multifamily customers, with slightly higher adjustments in the first two years followed by inflationary increases thereafter.

He reiterated that the original recommendations included a two-year rate adjustment plan followed by annual indexing aligned with industry-specific inflation metrics, specifically the solid waste “garbage and trash” index within the Consumer Price Index. This approach was intended to maintain pace with rising costs and preserve adequate margins for required capital needs. He further recommended that the City conduct periodic cost-of-service reviews every three to five years, or sooner if significant operational changes occurred.

Mr. Boveri summarized the three main areas the Council requested for re-evaluation: delaying the rate implementation date, adjusting Trinity Villas’ rate structure, and analyzing the impact of eliminating curbside recycling services. He reported that delaying implementation until March did not materially affect the financial condition of the solid waste enterprise fund, with projected cash balances remaining above policy targets.

Regarding Trinity Villas, Mr. Boveri presented three scenarios for adjusting their rates to align with the multifamily customer class: maintaining the current rate (baseline), phasing in adjustments over three years, or phasing in over five years. Both phase-in options ultimately align the Trinity Villas rate with the multifamily rate by FY 2028 or FY 2030, respectively. He noted that the financial impact to the enterprise fund is minimal due to the small number of accounts affected, and the question is primarily one of rate equity. Council direction on the preferred option would be needed at a future point.

Mr. Boveri then addressed the evaluation of eliminating curbside recycling. He outlined

key assumptions, including an estimated annual reduction of approximately $1.6 million in contractor costs if curbside recycling services were discontinued. This would be partially offset by an estimated $200,000 annual increase in landfill disposal costs due to recyclable material being routed to the solid waste stream. The net reduction to the system was estimated at approximately $1.4 million annually. For conservative modeling, these changes were assumed to begin in FY 2027, though implementation as early as April could generate additional savings. He also identified potential one-time costs of approximately $1 million for operational adjustments, and an ongoing annual cost of roughly $100,000 to support a staffed convenience center to provide residents with an alternative recycling option.

Mr. Park clarified that the estimated one-time cost assumption for replacing recycling carts was intentionally conservative. He noted that not all residents would require a second cart if curbside single-stream recycling were eliminated, as some already have sufficient capacity and others may not request an additional cart. The higher estimate was used to ensure adequate budgeting, and Mr. Park emphasized that the figure represents a cautious upper-range projection.

Council Member Musleh asked how many accounts were included in the Trinity Villas customer group and whether their waste generation was relatively minimal. Mr. Park responded that there were approximately 240 accounts, most of which were single-occupancy and predominantly elderly residents. He noted that Trinity Villas does not receive curbside single-stream recycling service but does have access to a cardboard dumpster onsite, which is generally sufficient for their level of usage.

Mr. Boveri reiterated that the Trinity Villas matter was primarily an equity consideration, as the number of accounts involved did not materially impact the overall financial condition of the sanitation system. He then presented projected rate increases under the scenario in which curbside recycling is retained. Under this option, single-family and multifamily customers would see increases of just under $2.00 per month in FY 2026 and FY 2027, followed by increases of approximately $1.00 per month in subsequent years. Commercial customer increases would remain consistent with the November recommendations, as recycling adjustments do not affect commercial service.

He concluded his updated analysis and requested Council direction on the items previously identified. Mr. Park added that staff was seeking specific direction regarding the future of curbside single-stream recycling and the rate alignment for Trinity Villas. He stated that if curbside single-stream recycling were to be eliminated, the Council would also need to determine whether to reinstate staffed drop-off recycling locations. Should the Council wish to proceed with drop-off sites, staff would begin with existing viable locations and return for further direction as needed.

Mr. Park noted that eliminating curbside recycling would also require establishing a new contract for processing the collected materials. He estimated that implementing the

change-and notifying all customers-would require approximately three months. This timeline includes securing the processing contract, reinstating drop-off sites, and informing residents both of the discontinuation of curbside single-stream recycling and the availability of the designated drop-off locations.

Council Member Musleh asked which materials would be accepted for recycling should drop-off locations be reestablished, noting that glass would likely not be included. Mr. Park confirmed that glass would not be accepted and identified cardboard, paper, steel and aluminum cans, and plastics #1 and #2 as viable materials. He added that residents often cannot reliably identify plastic types, which can complicate source separation.

Council Member Dreyer asked about rate implementation timing and confirmed the effective date of the first rate increase as March 1, with the second increase occurring on October 1. Under the proposed structure, subsequent annual adjustments would follow the solid waste CPI index. Mr. Park noted that eliminating curbside single-stream recycling would lower the projected rate increases. Staff displayed the comparative rate tables and charts at the Council Member's request.

Council Member Hilty asked for clarification regarding disposal practices at regional facilities and whether recyclable materials placed in the regular waste stream would be separated by the processor, potentially generating credits for the City. Mr. Park explained that while the State of Florida previously maintained a recycling goal, it no longer has a comprehensive plan in place. Only three counties currently meet the former goal, all of which operate waste-to-energy facilities. He stated that achieving high diversion rates requires waste-to-energy processing, which is not contemplated in the City's scenarios, and that dual-stream or single-stream processing would not produce such credits.

Council Member Hilty asked about the status of potential gasification or waste-to-energy initiatives at the County level and whether such facilities, if developed, could process the City's recyclable materials should curbside single-stream recycling be discontinued. Mr. Park responded that this would depend on County decisions and contractual arrangements, but confirmed that the City's existing five-year disposal contract includes a termination-for-convenience provision, making such a shift technically possible. He noted that geographic and economic feasibility would be key considerations, and that long-distance hauling to out-of-county facilities would not be practical.

Council Member Hilty clarified that his assumption was based on the possibility of a waste-to-energy facility being developed within Marion County. Mr. Park agreed that, if a local facility were operational, routing material there could be viable.

Council Member Hilty also asked whether the City had evaluated sending waste directly to the County landfill rather than the current disposal site, and whether there was a cost difference. Mr. Park stated that the County's gate rate is higher than the City's current rate. Upon further discussion, he confirmed that the County charges approximately $69

per ton, compared to the City's current rate of $58.73 per ton.

Council Member Hilty asked whether the proposed recycling drop-off locations would require staffing. Mr. Park responded that the sites would not be staffed and would utilize traditional dumpsters, as the City has been unable to source the former igloo-style containers. He confirmed that the drop-off sites would operate as unmanned collection points, with materials serviced and removed by the contractor.

Council Member Mansfield asked whether the proposed unmanned recycling dumpsters would be used appropriately for recyclable materials or whether they risked becoming general trash receptacles. Mr. Park responded that while a large portion of curbside recycling is currently contaminated, contamination is typically much lower at voluntary drop-off sites. He explained that users who bring materials to designated recycling dumpsters generally do so intentionally and are more likely to follow proper guidelines. If contamination occurred, the City would address it with the contracted vendor, though past experience with igloo-style bins did not present significant issues. Mr. Boveri added that drop-off locations typically include separate containers for different materials, resulting in minimal contamination at processing facilities.

Council members discussed whether the City could modify its existing contract with the current recycling contractor to transition from curbside single-stream collection to servicing unmanned drop-off recycling sites. Mr. Park stated that this would require review by Procurement but could be feasible if the contractor agreed, noting that the structure and value of the contract would change significantly. Several council members expressed support for eliminating curbside recycling and moving to drop-off locations, while allowing residents to choose whether to participate. Council members also discussed the implementation timeline, with a preference for a later start date-such as June 1 or the beginning of FY 2027-to allow sufficient time for notifications and operational adjustments. Mr. Boveri clarified that his financial projections assumed cost savings would not begin until FY 2027 to accommodate any direction the Council might provide. The Council generally agreed with proceeding on a two-year rate phase-in and exploring conversion to drop-off recycling by mid-year.

Mayor Marciano expressed support for eliminating curbside recycling but emphasized the importance of clear public messaging, noting that residents may perceive both rising rates and reduced services. Mr. Park responded that the City could highlight the reduced rate increase made possible by discontinuing curbside recycling and frame the change as a cost-saving measure in the community's best interest. The Mayor agreed, noting that a smaller volume of cleaner recycled material from drop-off sites is preferable to the high contamination levels currently seen in curbside recycling.

Council Member Musleh opened discussion on Trinity Villas, noting the need to balance rate equity with sensitivity to the property's low-income senior residents. He acknowledged the historical basis for their reduced rate but questioned how to fairly treat

similar income-restricted properties. Other council members raised concerns about drawing consistent eligibility lines and avoiding the creation of broader discounted-rate programs that would be difficult to administer.

Several council members supported phasing in any increase gradually to minimize impact. After considering options ranging from five to ten years, the Council reached consensus on a seven-year phase-in to bring Trinity Villas to the standard multifamily rate. Council also agreed that City staff should meet directly with Trinity Villas' administrators to notify them of the change in advance.

The Council discussed the effective date for transitioning away from curbside single-stream recycling. Members agreed that implementation should occur prior to the end of the fiscal year, with consensus forming around a July 1 start date. Mr. Park confirmed that the existing recycling carts are owned by the contractor, who may choose whether to remove them or allow residents to repurpose them as additional refuse carts. Staff will review the City's recycling policy and return with recommended adjustments.

Council members also revisited concerns about affordability for residents with financial challenges. Finance Director Peter Brill explained that assistance previously available through LIHEAP could be applied to the entire utility bill but, due to recent federal changes, can now only be applied to the electric portion. Other assistance agencies exist, though funding is limited. Staff noted that customer service works closely with residents to connect them with available programs and payment arrangements as needed.

Mr. Park sought clarification from Council regarding whether the July 1 implementation date should apply both to terminating curbside single-stream recycling and launching the new unmanned drop-off recycling locations. Council Member Musleh confirmed that both actions should take effect on the same date.

Council briefly revisited which materials would be accepted at the drop-off sites. After discussion, consensus was reached to include steel, aluminum, paper, cardboard, and plastics #1 and #2, with the understanding that the processing vendor may later adjust acceptable materials based on market conditions. Council noted that steel volumes from households would likely be minimal, and staff confirmed that steel and aluminum are currently collected together but could be separated if needed.

Council reaffirmed direction to staff and confirmed there were no additional comments. The work session was adjourned.

	Council Member Kristen M. Dreyer
	Council Member Barry Mansfield
	Council President Ire J. Bethea Sr
Excused:	Council Member James P. Hilty Sr

3. Public Notice

- **Public Notice for the February 10, 2026 City Council Work Session Meeting was posted on January 15, 2026**

4. Topics for Discussion

4a. Vision 2050

City Manager Pete Lee opened the workshop by noting that the Vision 2050 draft is a long-awaited update and an important step forward for the City. He explained that Vision 2050 serves as a recalibration of the previous Vision 2035 plan, which has been a critical tool in guiding priorities and implementing strategies over the years. Mr. Lee emphasized that the new vision will help maintain the community's desired character and set a blueprint for future growth.

Growth Management Director Jeff Shrum then provided a brief overview of the draft Vision 2050 plan. He introduced Planning Director Audrey Hill and consultant Ali Palmer from Kimley-Horn & Associates, who assisted in developing the plan. Mr. Shrum encouraged Council members to consider what their vision for 2050 looks like, posing questions about future development patterns, population and demographic changes, governance challenges, and transportation innovations. He stressed that while predicting 25 years ahead is difficult, the vision document provides essential guidance for shaping the City's future. Mr. Shrum concluded by turning the presentation over to planning staff for a detailed review of the draft Vision 2050.

Planning Director Aubrey Hale introduced the structure and purpose of the Vision 2050 document, explaining that it is divided into six sections, with the first five forming the

core of the plan. These sections include the story of the vision, citywide initiatives, focus areas, and key next steps for implementation. Mr. Hale noted that Vision 2050 builds upon Vision 2035, refining its principles and continuing its emphasis on economic diversification, vibrant neighborhoods, and a strong urban center.

He explained that the document identifies high-priority initiatives to be achieved within the next five years, followed by future considerations for six to ten years. Vision 2050 also introduces urban form opportunities, which focus on creating higher-density, mixed-use areas through context-driven, form-based codes rather than traditional zoning. State Road 40 was highlighted as a major corridor for connectivity and development.

Mr. Hale emphasized the community engagement process, noting that over 1,000 participants contributed input through outreach and focus groups. He also reviewed accomplishments from Vision 2035, including the consolidation of land use categories, adoption of form-based codes for downtown and midtown, and major updates to the comprehensive plan.

He concluded by stressing that Vision 2050 is a dynamic document that will require periodic updates. To support public access, he introduced a QR code that links to the plan and related resources.

Chief Planning Official Endira Madraveren focused on Section 2 of the Vision 2050 document, which addresses bringing the vision to life. She noted that many long-term goals from Vision 2035 have been accomplished and will continue to guide the City's future. Ms. Madraveren emphasized leveraging Community Redevelopment Agency funding before its sunset for projects such as the redevelopment of North Magnolia and streetscape improvements along major corridors. She also highlighted ongoing efforts to activate West Ocala through redevelopment of brownfield sites, including the Mary Sue Rich Community Center at Reed Place.

Ms. Madraveren described the extensive community engagement process, which included four citywide summits and 23 outreach sessions with strategic groups and departments. This input helped build consensus and shape the long-term implementation of Vision 2050.

Mr. Hale then discussed the role of consultants in the process, including Kimley-Horn and Urban3. Urban3 provided an analysis of land value economics and evidence-based design, revealing key insights such as the higher return on investment from mixed-use development compared to large single-use properties. Their findings showed that downtown mixed-use blocks generate significantly more value per acre than big-box retail sites, reinforcing the importance of infill development.

Mr. Hale also reviewed trends and projections, noting that Ocala's population is expected to grow by nearly 31 percent by 2050, reaching approximately 92,000 residents. He explained that Vision 2050 introduces four building blocks to guide growth: land use

and housing, mobility and connectivity, public and open spaces, and gateways. These components will shape citywide initiatives, focus areas, and opportunities for catalytic development and redevelopment.

Mr. Hale explained that the Ocala 2050 plan updates the earlier 2035 vision, keeping many of the same elements like complete streets, trails, land use, and the heat map. The major new feature is “urban form opportunities” marked by blue dots - areas where the city can encourage denser development to increase tax revenue. He then highlighted key action items, including updating the land development code, maintaining the capital improvement program, incentivizing infill development, refining special districts, using CRA tools for redevelopment, supporting workforce training, and evaluating annexation through ROI analysis. He also covered mobility priorities such as mobility fees, transportation project planning, expanding transit, supporting Rails-to-Trails, and improving pedestrian safety and complete streets.

Ms. Madraveren outlined actions for recreation, cultural spaces, gateways, and focus areas in the Ocala 2050 plan. She highlighted updating the parks master plan to assess park needs, identifying sites for new regional sports complexes, and creating a master plan for further improvements at Tuscawilla Park. She described integrating open-space requirements into the development code and using mapping to guide future public art installations. She then covered gateway enhancements - developing a citywide plan, setting design standards, and improving key corridors like SR 40 and I-75. Finally, she reviewed four focus areas (East Ocala, Central Core, West Ocala, Airport), noting planned mixed-use development, catalytic sites, regional park opportunities, and trail connections, with emphasis on SR 40 as a major east-west corridor.

Mr. Hale reviewed the final focus areas in the Ocala 2050 vision. For the High-Intensity Central Core, he noted that earlier catalytic sites have already developed, so new potential redevelopment areas - especially Midtown, underused parking lots, and areas around Tuscawilla Park - are now being identified. He emphasized strengthening connections along SR 40, extending complete streets into the hospital district, and updating older studies and the Tuscawilla master plan.

In the West Ocala Focus Area, he highlighted MLK Avenue as the spine, with key catalytic intersections along SR 40 and US 27. Priorities include expanding the Heritage Trail, attracting essential industries like a grocery store, streamlining approvals, and using the CRA to support redevelopment.

For the Airport Focus Area, he described its industrial character, the need to activate city-owned airport industrial park property, improved roadway connections, and a strong community request for expanding SunTran fixed-route service to the airport.

He closed by outlining next steps: adopting the 2050 vision, amending the comprehensive plan, updating the outdated land-development code, aligning regulations with the new vision, and refreshing older master plans so they reflect current conditions

and future goals.

Council Member Musleh asked for clearer data on total city green space, noting that the public often confuses vacant land with parks, DRAs, and other open spaces. Mr. Hale said the 11% figure reflects only undeveloped land and does not include parks or DRAs. City Manager Lee added staff can calculate total green-space acreage and provide clearer reporting, which will be refined through the upcoming Recreation and Parks Master Plan update.

Mr. Lee emphasized that the vision is a guiding - not regulatory - document that helps prioritize the city's work program. He highlighted the importance of downtown, West Ocala, SR 40, the airport, and parks, and stressed aligning growth and redevelopment strategies with the Urban3 study, maintenance obligations, transportation planning, and careful annexation decisions. He added that refining permitting and inspection systems is essential for efficiency, and overall, the vision provides the tool needed to organize and advance these ambitious priorities.

Council Member Mansfield asked how the City can encourage redevelopment of privately owned downtown industrial properties. Mr. Lee explained that the updated vision identifies broader catalytic areas and that the City now has more tools, such as CRA programs and brownfield incentives, to help transition underused industrial sites. He said the City often works directly with property owners or through public-private partnerships to support redevelopment, noting similar approaches used for recent downtown projects.

Council Member Dreyer noted that the School Board is preparing to sell nearby surplus properties and encouraged the City to engage early so the sites can be redeveloped in ways that maximize value for the School Board and align with the City's vision.

Council Member Dreyer asked whether initiatives from the TDC's GAP Study were incorporated into the 2050 vision. Staff explained that while the study came in late and was not directly included, they were mindful of it during planning and can review it again to integrate any structurally compatible ideas. Mr. Hale added that some urban-form opportunity areas were influenced by earlier conversations related to the GAP Study, particularly in the southwest.

Mayor Maricano asked how the 2050 Vision should guide annual City priorities. Mr. Lee explained that the vision functions as a toolbox: some initiatives are ongoing, while others will shift in priority as projects are completed and community needs evolve. He noted that tools like the CRA, form-based codes, and corridor plans will continue to guide work, and priorities may change year to year. Mr. Shrum added that the Transportation Improvement Program and the Capital Improvement Program provide the annual mechanism to align capital projects with the long-term vision.

Council Member Dreyer asked whether any single city serves as a model for the 2050

Vision. Mr. Lee responded that no single place fits perfectly, but several cities offer useful components or best practices, such as Greenville (SC), Panama City, Huntsville, Winter Park, and Winter Garden. He emphasized that Ocala must adapt ideas to its own character, noting strong "bones" for continued downtown growth. He highlighted ongoing needs such as connectivity improvements across SR 40, enhanced walkability, and increasing downtown residents, workers, and visitors to support a more vibrant, 16-hour-a-day downtown.

Council Member Musleh praised the inclusion of both the airport and east-side areas in the vision, noting the airport district's long-untapped potential and urging continued focus on activating the airport industrial park. Mr. Shrum said the vision is designed to align with the airport's master plan and future passenger-service opportunities. Council President Bethea commented that recent West Ocala investments, such as West Oak, Water Recharge Park, and the Mary Sue Rich Center, show how vision work becomes tangible progress, and emphasized continuing efforts on connectivity, housing, and redevelopment in that area. Council Members noted that Ocala has drawn from other cities' successful ideas and that this draft provides a strong foundation for moving into the 2050 planning phase.

Mr. Hale encouraged Council members to review the draft vision document, send any edits or suggestions within the next few weeks, and noted staff is preparing to bring a final version forward soon. Mr. Shrum added that the Planning Commission had just reviewed the draft and that public hearings are expected around April or May, with public feedback available through the posted QR code. Mr. Lee noted a few inaccuracies still need to be cleaned up before wider release. Council President Bethea requested a media effort to notify the public about the QR code and feedback opportunity, and staff agreed.

7. Consent Agenda Items Held for Discussion

Should any items be removed from the Consent Agenda for discussion, they will be discussed at this time.

8. Introduction and First Readings of Ordinances

(Second and Final Reading - March 3, 2026)

8a. Ordinance 2026-7 to rezone approximately 2.26 acres for properties located in the 1400 block of NE 14th Street (Parcel 26496-005-00 & 26496-005-01) from RO, Residential Office, and R-1, Single Family Residential, to R-3, Multi- Family Residential (Case ZON25-0016) (Quasi-Judicial)

Introduced By: James P. Hilty Sr

8b. Ordinance 2026-8 to rezone two properties totaling approximately 30.49-acres located at 5019 W Silver Springs Blvd and the parcel adjacent to the east (Parcel 23180-000-00 & 23176-003-00) from PD, Planned Development, to M-1, Light Industrial (Case ZON25-0018) (Quasi-Judicial)

Introduced By: Kristen M. Dreyer

9. Public Hearings / Second and Final Readings / Adoption of Ordinances

9a. The sale of beer, wine and liquor for on-premise consumption for 3100 College Road Holdings, LLLP, doing business as Paddock Market located at 3100 SW College Road, Unit 300 (Parcel 23735-002-00) (Quasi-Judicial)

Presentation By: Endira Madraveren

Council President Bethea opened the public hearing at 4:19 PM.

Chief Planning Official Endira Madraveren discussed an application submitted by Paddock Market for the property located at 3100 SW College Road. The applicant is requesting an alcohol permit to allow the sale of beer/wine/liquor for on-premises

consumption. She provided a brief overview of the following: property's history, business operations, service calls (seven calls during a two-year period), surrounding uses (no churches/daycares/schools within a 500-foot radius), and staff findings. Staff recommends approval.

Rod Feiner, Attorney for property owner, Coker & Feiner Law Firm, 1133 SE 4th Avenue, Fort Lauderdale, FL 33316, stated the applicant is requesting an alcohol permit to allow the sale of beer/wine/liquor for on-premises consumption. He clarified the restaurant licensing process through the State of Florida with Council Member Musleh. The State of Florida requires each individual restaurant to apply for a license after receiving a general location permit from the City.

No public comment.

10f. Contract for the renovation and expansion of Ocala Police Department's Real Time Crime Center to FSV Construction Company in the amount of $992,054

Presentation By: Michael Balken

Council Member Musleh expressed concern about the monies coming from carry-forward from previous years' budgets, especially if they are coming from accounts unrelated to building expenses.

Police Chief Mike Balken confirmed the carry-forward monies in the budget will be

allocated towards the project cost. He will provide a list of the carryforward items from prior years to Council Member Musleh. Chief Balken confirmed the buildout will take approximately four to six months.

Council Member Musleh informed City Manager Pete Lee the carry-forward concerns need to be addressed. He suggested big projects be put into reserve funds rather than carry-forward. He also informed Chief Balken his comments are not directed at this item specifically, but rather the bigger picture. Mr. Lee confirmed the City is evaluating the use of carry-forward monies as staff prepares the budget.

Council Member Hilty discussed how the carry-forward option allows unspent, unobligated funds from one fiscal year to move into the next, preventing the loss of budgeted money and enhancing fiscal efficiency.

Council Member Dreyer suggested allocating carry-forward (or carryover) funds from the City's operating budget to a reserve fund to maintain financial stability.

Mr. Lee discussed the changed staff is making in budgeting and auditing practices.

Council Member Musleh explained how allocating carry-forward money, unspent funds from a previous budget period moved to a new one, is generally considered not helpful for determining which specific projects saved money, because it obscures the true performance of the current budget cycle.

There being no further discussion the motion carried by roll call vote.

11. Internal Auditor's Report

12. City Manager's Report

- **Sculpture Scroll, Saturday, February 21, 2026, from 11 AM to 5 PM**
- **Fire Station 8 groundbreaking ceremony, Thursday, February 19, 2026, at 10 AM**
- **State Road 40 discussions with FDOT Update**

City Manager Pete Lee discussed recent meetings with FDOT regarding State Road 40 and Downtown connectivity. The City proposed a speed limit change to 25 miles per hour, which FDOT issued a notice confirming a speed study was performed and speed limits will be modified from US441 to west of Tuscawilla Avenue to 25 miles per hour, within two to three weeks. The City is working on implementing a comprehensive plan for State Road 40 and will continue discussions with FDOT.

- **Skate Park grand opening**

City Manager Pete Lee reported the Skate Park will be opening this week to the public.

- **Draft letter for discontinuation of curbside recycling**

City Manager Pete Lee discussed the draft fact sheet for discontinuation of curbside recycling. He requested feedback from Council regarding the draft document and method of outreach (mail notice to residents with utility bill/press release).

Council Member Musleh favors mailing the notice with the utility bill.

Council President Bethea spoke on the importance of Government City transparency, which is essential for building public trust, ensuring accountability for tax dollars, and fostering civic engagement.

Council Member Dreyer favors the draft letter. She noted that the media failed to mention that the City is going to establish recycling centers around the City.

Council Member Musleh expressed disappointment regarding the poorly released news media article.

Mayor Marciano discussed how the new process will decrease the contamination rate. Furthermore, he favors issuing an informational letter to the public.

Mr. Lee stated the City will evaluate the placement of the recycling centers to ensure easy access for the public.

13. Ocala Police Department Report

- **Overview of Crime and Traffic Stops**

Police Chief Mike Balken reported on crime data for the period, January 26, 2026 to February 8, 2026: 7,829 total incidents, 5,473 proactive calls, 2,356 dispatched calls, quadrant breakdown (dispatched versus proactive), 274 crimes, 214 arrests, 1,105 traffic stops, and 158 crashes.

- **Department Highlights**

Police Chief Mike Balken reported the department successfully managed a double homicide related to domestic violence within three hours, due to the efforts of the real-time Crime Center.

14. Ocala Fire Rescue Department Report

- **Unit Responses**

Fire Chief Clint Welborn reported on unit responses for a two-week period, February 3, 2026 to February 16, 2026. The two busiest units: Fire Rescue Four (164-unit responses) and Fire Engine One (127-unit responses).

- **Service calls update**

Fire Chief Clint Welborn reported on call type spotlights for a three-week period, February 3, 2026 to February 16, 2026: motor vehicle accidents 66, structure fires 6, and community paramedicine/core 37, and calls for service 986 (3,308 calls-to-date).

Department Highlights

Fire Chief Clint Welborn reported for a two-week period, February 3, 2026 to February 17, 2026, the department responded to several vehicle accidents and fires. The department recruited a new Firefighter/EMT named Emil Henry. Furthermore, he invited the public to attend the groundbreaking ceremony for Fire Rescue Station #8, on Thursday, February 19, 2026, at 10 AM.

17a. Fully Executed Contracts Under $50,000

18. Comments by Mayor

- Status update for the intersection located at 7th and 42nd

Mayor Marciano requested an update on the status of the intersection of SW 7th Ave and SW42nd St/SW 32nd St.

Chief of Staff Chris Watt stated the proposal is hopefully moving forward in a Senate reconciliation package.

City Manager Pete Lee and City Engineer & Director of Water Resources Sean Lanier debriefed City Council on the intersection design. The City is waiting for a quote and construction schedule from Marion Rock. The street median will not be removed, as there is enough room for vehicles to perform a U-turn at the intersection.

Council Member Hilty discussed a concern about the intersection at SW 42nd St and SW 36th Ave. Mr. Lanier explained the County's lane expansion project for 27th Avenue

should improve traffic in the area.

- **Past Florida League of Mayors event hosted by the City**

  Mayor Marciano recognized the City for hosting a successful Florida League of Mayors event. The event drew eighty Mayors from the State of Florida.

- **April 2026 Government Step Challenge**

  Mayor Marciano reported the City will be competing against other municipalities for the April 2026 Government Step Challenge.

19. Comments by City Council Members

- **Council Member Hilty commented on the PCA rate**

  Council Member Hilty reported following the extreme cold weather, Leesburg announced rate increases to $137.97 (approximately $8 increase for households) and gas increases to $2.50 per month. He lauded the City's ability to absorb the costs through the PCA fund, keeping rates for Ocala residents steady.

- **Council Member Hilty commented on the Marion County Veterans Hall of Fame**

  Council Member Hilty invited City Council and the Mayor to the Marion County Veterans Hall of Fame event.

- **Council Member Dreyer commented on a past meeting at Ft. King Middle School regarding traffic concerns in the neighborhood**

  Council Member Dreyer debriefed Council on a past meeting at Fort King Middle School regarding traffic concerns in the neighborhood. The City received complaints from residents of Heritage Hills regarding parents creating a secondary car lane within the neighborhood, which is obstructing the flow of traffic. Fort King Middle School’s principal has engaged with the parents to remedy the matter. She explained the school will be expanding the AI Magnet Program to create openings for three hundred new students, which will increase traffic, and the City is actively working on finding a solution to address the traffic concern.

  City Council unanimously agreed to direct the City Manager to meet with the school’s Interim Superintendent to request they inform the City of future capacity expansions.

20. Adjournment

- **Adjourned at 5:09 PM**

Department: Finance

FORMAL TITLE:
Ordinance 2026-9 to adopt recommended changes to actuarial assumptions and methods for the City of Ocala General Employees' Pension Plan, as outlined in the 2014-2024 Experience Study

OCALA'S RELEVANT STRATEGIC GOALS:
Fiscally Sustainable

PROOF OF PUBLICATION:
NA

BACKGROUND:
The Board of Trustees commissioned an actuarial experience study to evaluate the demographic and economic assumptions used in the annual valuations of the General Employees' Pension Plan. The study reviewed plan experience for the period October 1, 2014 through September 30, 2024, and recommends updates to ensure the assumptions accurately reflect recent actuarial experience and comply with current actuarial standards of practice.

These changes aim to produce stable, predictable costs, ensuring that the plan's funding requirements are based on the most accurate, up-to-date data available.

FINDINGS AND CONCLUSIONS:

Adoption of these recommendations will result in adjustments to the required City contribution, unfunded actuarial accrued liability (UAAL), and the plan's funded ratio.

The following changes are recommended for adoption, effective with the October 1, 2025, actuarial valuation:

1. **Entry Age Normal Cost Allocation**
    - Spread normal costs over the whole career of each member (from date of hire).
    - *Impact:* Slight decrease in required City contribution
2. **Investment Return Assumption**

- Lower the assumed investment return from 6.60 to 6.50 percent per year
- *Impact:* Increase in required city contribution.

3. **Salary Increase Assumption**
   - Increase assumed rates to better match observed experience.
   - *Impact:* Increase in required City contribution.
4. **Mortality Rates**
   - Adopt updated mortality tables as mandated by Florida law, reflecting recent changes in the Florida Retirement System.
   - *Impact:* Decrease in required City contribution.
5. **Retirement Rates**
   - Adjust rates: generally lower for normal retirement, higher for early retirement.
   - *Impact:* Decrease in required City contribution.

Change	Assumption	Increase/(Decrease) Required City/State Contribution	Increase/(Decrease) UAAL	Funded Ratio
	Current			75.9%
(1)	6.50% Investment Return	348,571	2,674,340	75.1%
(2)	Entry Age Normal Cost Allocation	(12,453)	115,056	75.9%
(3)	Salary Increases	130,510	(180,406)	76.0%
(4)	Mortality Rates	(242,379)	(1,767,887)	76.4%
(5)	Retirement Rates	(46,027)	(289,387)	76.0%
(6)	Withdrawal Rates	53,145	72,956	75.9%
(7)	Disability Rates	54,567	363,910	75.8%
(8)	Combination (6.60%)	(58,979)	(1,703,915)	76.4%
(9)	Combination (6.50%)	287,896	913,086	75.6%

FISCAL IMPACT:
An increase in employer contributions of $287,896.

ORDINANCE 2026-9

AN ORDINANCE OF THE CITY OF OCALA, AMENDING THE CITY OF OCALA GENERAL EMPLOYEES' RETIREMENT SYSTEM, ADOPTED PURSUANT TO ORDINANCE NO. 5988, AS SUBSEQUENTLY AMENDED; IS HEREBY FURTHER AMENDED BY AMENDING SECTION 43-67, BENEFIT AMOUNTS AND ELIGBILITY; PROVIDING FOR SEVERABILITY OF PROVISIONS; PROVIDING FOR CODIFICATION; REPEALING ALL ORDINANCES IN CONFLICT AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Ocala, Florida has a pension plan for certain of its former employees which was initially developed in or about January 1, 1955, and, though not offered as a benefit for current employees, remains a benefit for certain former employees; and

WHEREAS, the regulations governing said pension plan are codified at Section 43, *Code of Ordinances, City of Ocala, Florida,* and provide for oversight of said pension plan by a Board of Trustees of the Ocala General Employees' Retirement System (hereinafter "Board of Trustees"); and

WHEREAS, in accordance with the provisions of Section 43-67(b)(8)(b)(4), *Code of Ordinances, City of Ocala, Florida,* the Board of Trustees initiated an actuarial experience study which was conducted by Foster & Foster Actuaries and Consultants and the results of which were presented to the Board of Trustees of the Ocala General Employees' Retirement System (hereinafter "Board of Trustees") on or about November 10, 2025; and

WHEREAS, contained within the product of said actuarial experience study were certain recommended adjustments to the City of Ocala, Florida's current pension plan regulations in Section 43, *Code of Ordinances, City of Ocala, Florida*; and

WHEREAS, the Board of Trustees reviewed said study and the accompanying proposed amendments to the current pension plan regulations in Section 43, *Code of Ordinances, City of Ocala, Florida*, and recommends that the City of Ocala adopt all the recommended changes contained in the experience study; and

WHEREAS, said recommended assumption changes require approval by City Council and some of the recommended assumption changes require an amendment to the *Code of Ordinances, City of Ocala, Florida* so as to update Section 43-67 accordingly; and

WHEREAS, this ordnance amends Section 43-67, *Code of Ordinances, City of Ocala, Florida*, so as to implement the recommended changes to the current pension plan regulations as suggested in the actuarial

experience study; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendment to Section 43-67, *Code of Ordinances, City of Ocala, Florida,* contained herein serves a public purpose and furthers the protection of the health, safety and welfare of the citizens of Ocala, Florida; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendment to Section 43-67, *Code of Ordinances, City of Ocala, Florida,* contained herein are in the best interest of the City of Ocala, Florida and its citizens.

NOW THEREFORE, be it ordained by the City Council of the City of Ocala, Florida, in regular session, as follows:

Section 1. Ratification, Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida ratifies the above-outlined recitals as true and correct; adopts and incorporates them herein as part and parcel of this ordinance.

Section 2. Purpose and Authority for Ordinance.

This ordinance is adopted for the purpose of amending and revising Section 43-67 of the *Code of Ordinances, City of Ocala, Florida* so as to adopt the recommended assumption changes to the City of Ocala's General Employees' Retirement System.

Section 3. Amendment of Section 43-67 *Code of Ordinances, City of Ocala, Florida*.

Section 43-67(b) of the *Code of Ordinances, City of Ocala, Florida* is hereby amended by removing the ~~stricken through~~ text and inserting the underlined text as follows:

Sec. 43-67. Benefit amounts and eligibility

***

(b) *Variable benefit and contribution program.*

***

(8) *Assumptions and methods.*

a. The actuarially determined employer contributions used for the target total employer contribution percentage and for the preliminary and final total employer contribution percentage shall be developed using the following actuarial assumptions and methods.

b. Actuarial assumptions:

1. The investment return (net of investment related expenses) assumption shall be approved by Council following negotiations between city staff and the Pension Board. ~~Beginning with the actuarial valuation as of October 1, 2021, the investment return (net of investment~~

~~related expenses) assumption shall be reduced from seven (7) percent per annum compounded annually to six and one-half (6.5) percent per annum compounded annually. To accomplish this reduction, the assumed rate will be reduced each fiscal year by ten (10) basis points until the six and one-half (6.5%) percent is reached. The schedule of changes will be as follows:~~

~~i. For the actuarial valuation as of October 1, 2021, the assumed rate will be six and nine tenths (6.9) percent per annum compounded annually.~~
~~ii. For the actuarial valuation as of October 1, 2022, the assumed rate will be six and eight tenths (6.8) percent per annum compounded annually.~~
~~iii. For the actuarial valuation as of October 1, 2023, the assumed rate will be six and seven tenths (6.7) percent per annum compounded annually.~~
~~iv. For the actuarial valuation as of October 1, 2024, the assumed rate will be six and six tenths (6.6) percent per annum compounded annually.~~
~~v. For the actuarial valuation as of October 1, 2025, the assumed rate will be six and one-half (6.5) percent per annum compounded annually.~~

2. The price inflation assumption shall be 2.5 percent per annum compounded annually.

3. The mortality rate assumption for non-disabled members shall be the mortality tables used in either of the two most recently published actuarial valuation reports of the Florida Retirement System, as set forth in Florida Statutes §112.63(1)(f), including any adjustments permitted therein.

~~4.~~ ~~Except as provided in subparagraphs (8)b.1. through (8)b.3. above, the assumptions used in the October 1, 2013 actuarial valuation shall be the same as used in the October 1, 2012 actuarial valuation report accepted by the board. Thereafter, the assumptions used in the October 1, 2012 actuarial valuation report other than investment return, price inflation and mortality shall continue to apply until revised in accordance with recommendations of the pension board as approved by the city council.~~ The pension board shall have an experience study prepared no less frequently than every five years, and based on the experience study may recommend changes in assumptions, which shall be implemented as approved by the city council. ~~Upon approval of revised assumptions, this subsection shall be amended to reflect the revisions.~~

c. Actuarial methods:

1. The actuarial cost method shall be the ~~traditional~~ entry age <u>normal</u> cost method~~, as prescribed by GASB Statement Nos. 67 and 68~~.

2. The actuarial value of assets shall be based upon a five-year straight-line recognition of the difference between expected earnings on the net market value of assets and actual earnings on the net market value of assets. The net market value of assets shall be the total fiduciary net position of the plan as defined by GASB Statement Nos. 67 and 68, excluding any reserves held which are not designated for currently adopted plan benefits valued as part of the plan liabilities. After adjusting the current market value of assets for this delayed recognition, the resulting actuarial asset value shall neither exceed 120 percent, nor fall

below 80 percent, of the net market value of assets. For the first four valuation dates commencing October 1, 2012 (for the revised contribution applicable to the year beginning October 1, 2013), the actuarial value of assets are determined, assuming that this same five-year recognition method applies to the differences between the expected and actual investment returns for the years ending September 30, 2009 and later.

d. *Amortization methods.* The annual actuarial valuations prepared as of October 1, 2012 (for the revised contribution applicable to the year beginning October 1, 2013) and following shall utilize the same schedule of amortization bases and periods utilized in the October 1, 2012 actuarial valuation report dated February 22, 2013, but all amortized as level dollar amounts under the new interest rate assumption. The amortization base(s) created as of October 1, 2012 to accommodate the change in assumptions, change in asset valuation method and change in benefits are amortized over 20 years using level dollar amounts. For all actuarial valuation dates, commencing on October 1, 2013 and following, all changes in the entry age unfunded actuarial accrued liability resulting from asset and liability actuarial gains or losses, and from any associated benefit changes in accordance with subsection 43-67(6), shall be amortized over layered ten-year periods as level dollar amounts.

Section 4. Direction to Staff.

The City Council of the City of Ocala, Florida directs staff to take any and all other steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 5. Direction to the Codifier.

It is the intention of the City Council of the City of Ocala, Florida that (1) this ordinance shall become and be made a part of the *Code of Ordinances, City of Ocala, Florida*, (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by the City Council.

Section 6. Repealing Inconsistent and/or Conflicting Provisions.

The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 7. Severability of Ordinance Provisions.

If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 8. Modifications Arising from Consideration at a Public Hearing.

It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 9. Effective Date of Ordinance.

This ordinance shall become effective immediately upon approval by the Mayor or becoming law without such approval.

PASSED AND ADOPTED, in a regular session with a quorum present and voting, by the City Council of the City of Ocala, Florida this ____ day of March 2026.

CITY OF OCALA
GENERAL EMPLOYEES' PENSION PLAN

ACTUARIAL IMPACT STATEMENT

December 1, 2025

Attached hereto is a comparison of the impact on the Minimum Required Contribution (per Chapter 112, Florida Statutes) and the Required City Contribution, resulting from the implementation of the following changes:

Adoption of the below change in methods and assumptions, resulting from a special Actuarial Experience Study:

- Spread Normal Costs over the full career of each Member instead of starting from the first valuation date an employee becomes a Member.
- An overall increase in the assumed rates for salary increases.
- Adjustments to retirement rates, generally lower than previously assumed for normal retirement and higher than previously assumed for early retirement.
- Adjustments to the assumed rates of withdrawal, resulting in generally fewer withdrawals than previously assumed.
- Reducing the disability rates by 50% at all ages.
- Mortality rates were changed to the same as used in the July 1, 2024 Florida Retirement System valuation report for non-special risk lives. [1]
- The investment return assumption is lowered from 6.60% to 6.50%. [1]

[1] Note that mortality and 6.50% investment return assumptions are currently mandated by the City Ordinances.

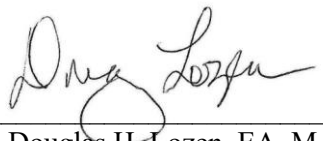
The cost impact, determined as of October 1, 2024, applicable to the fiscal year ending September 30, 2026, is as follows:

	Proposed	Current
Minimum Required Contribution	$11,798,330	$11,491,698
Member Contributions (Est.)	394,449	375,713
City Required Contribution	$11,403,881	$11,115,985

CITY OF OCALA
GENERAL EMPLOYEES' PENSION PLAN

ACTUARIAL IMPACT STATEMENT

December 1, 2025



Unless otherwise noted, all data, assumptions, methods and plan provisions are the same as in the October 1, 2024 actuarial valuation report. In performing this Actuarial Impact Statement, we were provided with all necessary information to evaluate the changes. It should be noted that changes to retirement benefits could potentially affect participants' retirement or termination behavior. We will monitor and advise of any recommended changes with future experience studies.

Future actuarial measurements may differ significantly from the current measurements presented in this report for a variety of reasons including: changes in applicable laws, changes in plan provisions, changes in assumptions, or plan experience differing from expectations. Due to the limited scope of the analysis, we did not perform an analysis of the potential range of such future measurements.

Please note that contents of this analysis and the October 1, 2024 actuarial valuation report are considered an integral part of the actuarial opinions. In reviewing the results presented in this study, it should be noted that there are risks that may not be inherently apparent to the reader that should be carefully considered. For key risks, please see the Discussion of Risk section of the October 1, 2024 actuarial valuation report.

In performing the analysis, we used third-party software to model (calculate) the underlying liabilities and costs. These results are reviewed in the aggregate and for individual sample lives. The output from the software is either used directly or input into internally developed models to generate the costs. All internally developed models are reviewed as part of the process. As a result of this review, we believe that the models have produced reasonable results. We do not believe there are any material inconsistencies among assumptions or unreasonable output produced due to the aggregation of assumptions.

The changes presented herein are in compliance with Part VII, Chapter 112, Florida Statutes and Section 14, Article X of the State Constitution. The undersigned is familiar with the immediate and long-term aspects of pension valuations and meets the Qualification Standards of the American Academy of Actuaries necessary to render the opinions contained herein.

Douglas H. Lozen, EA, MAAA
Enrolled Actuary #23-7778

STATEMENT OF PLAN ADMINISTRATOR

The prepared information presented herein reflects the estimated impact of the proposed Ordinance.

ACTUARIAL ASSUMPTIONS AND METHODS

Mortality Rate	*Healthy Active Lives:* **Female:** PubG.H-2010 (Above Median) for Employees. **Male:** PubG.H-2010 for Employees, set back one year. *Healthy Retiree Lives:* **Female:** PubG.H-2010 for Healthy Retirees. **Male:** PubG.H-2010 for Healthy Retirees, set back one year. *Beneficiary Lives:* **Female:** PubG.H-2010 (Below Median) for Healthy Retirees. **Male:** PubG.H-2010 for Healthy Retirees, set back one year. *Disabled Lives:* PubG.H-2010 for Disabled Retirees, set forward three years. All rates for healthy lives are projected generationally with Mortality Improvement Scale MP-2018. We feel this assumption sufficiently accommodates future mortality improvements. The previously described mortality assumption rates were mandated by Chapter 2015-157, Laws of Florida. This law mandates the use of the assumptions used in either of the two most recent valuations of the Florida Retirement System (FRS). The above rates are those outlined in Milliman's July 1, 2023 FRS valuation report for non-special-risk employees, with appropriate adjustments made based on plan demographics.
Interest Rate	6.60% (prior year 6.70%) per year compounded annually, net of investment related expenses. This assumption is mandated by City Ordinances.
Payroll Growth	0.00% for purposes of amortizing the Unfunded Actuarial Accrued Liability. This assumption cannot exceed the ten-year average payroll growth, in compliance with Part VII of Chapter 112, Florida Statutes.

Salary Increases

Salary Scale	
Service	Rate
0	14.00%
1-2	6.50%
3-4	5.50%
5-14	4.50%
15-24	3.50%
25+	4.50%

This assumption was adopted based on the May 5, 2017 actuarial experience study.

Administrative Expenses

$176,727 annually, based on the average of actual expenses incurred in the prior two fiscal years.

Amortization Method

New UAAL amortization bases are amortized over 10 years.

The amortization payment is subject to a minimum based on a 30-year amortization of the UAAL, if the UAAL is positive, in order to comply with Actuarial Standard of Practice No. 4.

Bases established prior to the valuation date are adjusted proportionally to match the Expected Unfunded Actuarial Accrued Liability as of the valuation date, in order to align prior year bases with the portion of the current year UAAL associated with prior year sources.

Disability Rates

Age	% Becoming Disabled During the Year
20	0.051%
30	0.058
40	0.121
50	0.429
60	1.611

Termination Rates

Service	Termination Rate
0	20.00%
1-4	15.00
5-9	7.50
10-19	4.00
20+	6.50

These rates were adopted based on the May 5, 2017 actuarial experience study.

Normal Retirement

Age	Probability of Retirement
65	50%
66	33%
67	33%
68	100%

Members with at least 30 years of Credited Service are assumed to retire immediately. This assumption was adopted based on the May 5, 2017 actuarial valuation report.

Early Retirement

25 or more Years of Credited Service

Credited Service	Assumption
25	10.50%
26	5.50%
27	11.50%
28	7.50%
29	4.00%

Less than 25 Years of Credited Service

Age	Assumption
55-60	5.75%
61	6.50%
62	12.00%
63	5.00%
64	3.00%

This assumption was adopted based on the May 5, 2017 actuarial experience study.

Funding Method

Entry Age Normal Actuarial Cost Method. The following loads are applied for determining the minimum required contribution:

Interest - None, based on a beginning of year funding methodology.

Salary - A full year, based on current 3.94% assumption.

Asset Smoothing Methodology	The Actuarial Value of Assets is based upon 5- year straight line recognition of the difference between expected earnings on the net market value of assets and actual earnings on the net market value of assets. The net market value of assets shall be the total fiduciary net position as defined by GASB 67/68, excluding any reserves held which are not designated for currently adopted plan benefits valued as part of the plan liabilities. The resulting value shall be adjusted if it does not fall between 120% and 80% of the market value of assets. This change shall be made assuming that this 5-year recognition method applies to differences between the expected and actual investment returns for the years ending September 30, 2009 and later. This method is mandated by Ordinance 2013-48.

SUMMARY OF CURRENT PLAN
(Through Ordinance 2024-12)

Variable Benefit and Contribution Program

All Members who are employed and not participating in the DROP on September 30, 2013 and do not fall in the Grandfathered group (see below) shall earn benefits for credited service on and after October 1, 2013 in accordance with the variable benefit and contribution program.

Average Final Compensation	Average final salary of the 8 highest years of the last 10 years prior to termination.
Salary	Effective October 1, 2013 salary means base wages and overtime payments up to 300 hours per calendar year, including all tax deferred, tax sheltered or tax-exempt items of income derived from elective employee payroll deductions or salary reductions, but excluding management deferred compensation and all other compensation.
Normal Form	Life Annuity
Member Contribution Rate	Minimum: 3% Maximum 5% **Current: 5%**
Multiplier	Minimum: 1.3% Maximum 2.55% **Current: 1.3%**
Normal Retirement Date	Same as old plan.
Early Retirement Date	Same as old plan.
Vesting	5 Year Cliff.
Cost of Living Adjustment	None for benefits earned on and after October 1, 2013.

The Member Contribution Rate and Multiplier will be adjusted as necessary so that the Target Total Employer Contribution Percentage is within the mandated corridors.

Provisions in Effect for Grandfathered Members within 5 years of Retirement as of September 30, 2013. All other Members have benefits frozen as of that date.

Credited Service	Years and fractional parts of years of continuous uninterrupted service with the City as a General Employee.
Salary	Total compensation reported on the W-2, but excluding accumulated sick leave and vacation pay and special bonuses, plus all tax deferred, tax sheltered, or tax exempt items of income.
Average Final Compensation	Average of Salary paid during the highest three (3) years of the last five (5).
Normal Retirement	
Date	First of the month following the earlier of: 1) age 65 and the completion of 5 years of Credited Service, or 2) 30 years of Credited Service, regardless of age.
Benefit	2.55% of Average Final Compensation (AFC) times Credited Service plus $100 supplement.
Form of Benefit	10 Year Certain and Life Annuity (options available).
Early Retirement	
Date	Earlier of: 1) age 55 and the completion of 5 years of Credited Service, or 2) the completion of 25 years of Credited Service, regardless of age.
Benefit	Same as for Normal Retirement but reduced 3% for each year that Early Retirement precedes Normal Retirement.
Vesting (Termination of Employment)	
Less than 5 years	Refund of Member Contributions without interest.
5 years of more	Vested accrued benefit (determined as for Normal Retirement) paid beginning at the otherwise Normal Retirement Date, or a refund of Member Contributions without interest.

Disability	
Eligibility	After completion of 5 years of Credited Service, or from date of hire if service incurred.
Benefit	$50, plus 1% of AFC times Credited Service. Minimum benefit is $100 per month.
Form of Benefit	Paid until earlier of death or recovery (with 120 payments guaranteed).
Cost-of-Living Adjustment	All Retirees, including Normal, Early, Disability, DROP, and Vested Terminated participants, and their joint pensioners and Beneficiaries (but excluding pre-retirement death Beneficiaries) shall receive a 3% automatic lifetime COLA, beginning the first October 1 after one year of benefit payments.
Pre-Retirement Death Benefits	
Non-vested	Refund of Member Contributions without interest.
Vested or Eligible to Retire	Accrued benefit payable to beneficiary for 10 years.
Supplemental Benefit	$100.00 per month, payable for life, to all retirees (including disability retirees).
Contributions	
Members	8.18% of Salary, beginning October 1, 2008.
City	Remaining amount necessary to pay the Normal Cost and fund the accrued, past service liability as provided in Part VII of Chapter 112, Florida Statutes.
Deferred Retirement Option Plan	
Eligibility	Satisfaction of Normal Retirement requirements (earlier of (1) Age 65 and 5 years of Credited Service, or (2) 30 years of Credited Service, regardless of age).
Participation	Not to exceed 96 months.
Rate of Return	6.5% or actual net rate of investment return (total return net of brokerage commissions and transaction costs) credited each fiscal quarter.
Form of Distribution	Cash lump sum (options available) at termination of employment.

CITY OF OCALA

PLAN

ACTUARIAL EXPERIENCE STUDY
November 6, 2025

FOSTER & FOSTER
ACTUARIES AND CONSULTANTS

November 6, 2025

Board of Trustees
City of Ocala
General Employees' Pension Plan

Re: Actuarial Experience Study

Dear Board:

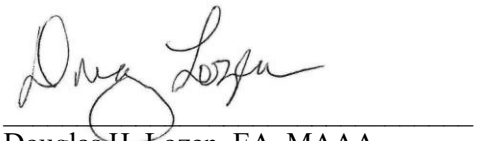
The following report presents the results of an actuarial experience study of the actuarial assumptions and methods used for actuarial valuation purposes for the City of Ocala General Employees' Pension Plan. In the course of the analysis, we compiled plan experience from October 1, 2014 through September 30, 2024. While we cannot verify the accuracy of all the information provided, the supplied information used for performance of the annual actuarial valuations or compiled from prior year annual reports was reviewed for consistency and reasonableness. As a result of this review, we have no reason to doubt the substantial accuracy of the information and believe it has produced appropriate results.

The report includes a review of demographic and economic experience, a comparison of this experience to current actuarial assumptions, our recommendations for consideration regarding changes in assumptions or methods to be effective for the October 1, 2025 actuarial valuation, and the estimated actuarial impact of these suggested changes. We believe implementing the recommended changes will assist in achieving the objective of developing costs that are stable, predictable, and represent our best estimate of anticipated experience.

It is important to remember that the ultimate cost of your retirement plan is independent of any actuarial assumptions or methods used throughout the valuation process. This cost will be the sum of the benefits paid from the fund and the administrative expenses incurred, less any net investment gains received. Future actuarial measurements may differ significantly from current measurements due to such factors as: plan experience differing from that anticipated by assumptions; changes in assumptions; increases or decreases expected as part of the natural operation of the methodology used (such as the end of an amortization period); changes in plan provisions or applicable law.

Please note the contents of this analysis and the October 1, 2024 actuarial valuation report are considered integral parts of the actuarial opinions. In reviewing the results presented in this study, it should be noted there are risks that may not be inherently apparent to the reader that should be carefully considered. For key risks, please see the Discussion of Risk section of the October 1, 2024 actuarial valuation report.

The actuarial measurements included in this report are based on actuarial asset values as of September 30, 2024 and would be different if market asset values were used instead of actuarial asset values.



In performing the analysis, we used third-party software to model (calculate) the underlying liabilities and costs. These results are reviewed in the aggregate and for individual sample lives. The output from the software is either used directly or input into internally developed models to generate the costs. All internally developed models are reviewed as part of the process. As a result of this review, we believe that the models have produced reasonable results. We do not believe there are any material inconsistencies among assumptions or unreasonable output produced due to the aggregation of assumptions.

Foster & Foster does not provide legal, investment or accounting advice. Thus, the information in this report is not intended to supersede or supplant the advice or the interpretations of the plan or its affiliated legal, investing or accounting partners.

The undersigned are familiar with the immediate and long-term aspects of pension valuations and meet the Qualification Standards of the American Academy of Actuaries necessary to render the actuarial opinions contained herein. All sections of this report are considered an integral part of the actuarial opinions.

Respectfully submitted,

FOSTER & FOSTER INC.

Douglas H. Lozen, EA, MAAA

Kevin H. Peng, ASA, EA, MAAA

ACTUARIAL STANDARDS OF PRACTICE

The Actuarial Standards Board (ASB) is responsible for determining which actuarial activities are the best representations of generally accepted actuarial principles, and is also responsible for issuing guidance in the form of Actuarial Standards of Practice (ASOPs) to help actuaries in various practice areas deliver results and recommendations that are consistent with those representations. Generally speaking, ASOPs identify what the actuary should consider, document, and disclose when performing actuarial assignments.

The experience study and related measurements of benefit obligations for the plan are subject to the "coordinated guidance" provided in various ASOPs, including but not limited to:

- ASOP No. 4, *Measuring Pension Obligations and Determining Pension Plan Costs or Contributions*, which ties together the standards shown below, provides guidance on actuarial cost methods, and addresses overall considerations for measuring pension obligations and determining plan costs or contributions
- ASOP No. 23, *Data Quality*
- ASOP No. 25, *Credibility Procedures*
- ASOP No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*
- ASOP No. 35, *Selection of Demographic and Other Noneconomic Assumptions for Measuring Pension Obligations*
- ASOP No. 41, *Actuarial Communications*
- ASOP No. 44, *Selection and Use of Asset Valuation Methods for Pension Valuations*
- ASOP No. 51, *Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions*
- ASOP No. 56, *Modeling*

This report refers to ASOPs by number (e.g. ASOP No. 4) throughout. It is important to keep in mind that this experience study report only reflects the guidance provided in the final releases of the above-mentioned ASOPs issued by the ASB on or before the date of this report. The results provided in this report reflect the requirements of, and are consistent with, the applicable above-mentioned Actuarial Standards of Practice. When applicable, details from the relevant ASOP will be provided in the report section associated with a particular analysis or topic.

EXPERIENCE REVIEW SUMMARY

Below is a summary of our key findings and suggested changes for your consideration. The remainder of the document provides details of our analysis, documents our suggestions, and determines the estimated corresponding actuarial impact.

- Entry Age Normal Cost Spread Method – We recommend to spread Normal Costs over the full career of each Member instead of starting from the first valuation date an employee becomes a Member.

- Investment Return – In the summary section of this report, we have illustrated the impact of lowering the investment return assumption from 6.60% to 6.50% per year, for informational purposes.

- Salary Increases – We recommend an overall increase in the assumed rates based on experience observed during the period.

- Mortality Rates – Chapter 2015-157, Laws of Florida, mandates the Board to employ the mortality tables used in either of the two most recently published actuarial valuation reports of the Florida Retirement System (FRS). In conjunction with its July 1, 2024 actuarial valuation, the FRS adopted changes to the assumed mortality tables. Therefore, compliance requires incorporation of the updated assumption with the October 1, 2025 actuarial valuation.

- Retirement Rates – We recommend adjustments to retirement rates, generally lower than previously assumed for normal retirement and higher than previously assumed for early retirement.

- Withdrawal Rates – We recommend adjustments to the assumed rates of withdrawal, resulting in generally fewer withdrawals than previously assumed.

- Disability Rates – We recommend reducing the disability rates by 50%.

REVIEW OF SELECT VALUATION METHODS

In this section, we have evaluated the following valuation method:

- ❖ Entry Age Normal Cost Allocation

Entry Age Normal Cost Allocation

Under the Entry Age Normal Actuarial Cost Method, a "Normal Cost" is calculated for each individual active employee. The first step to calculate this Normal Cost is that a projection is made of the annual benefits that a Member will be entitled to at retirement and the total value of those benefits at their retirement age. The second step is to calculate an even funding amount over their career so that the full value of their projected retirement benefit is accumulated by the time they retire. This even funding amount is called the Normal Cost.

At any given point in time, the Actuarial Accrued Liability is equal to the total Present Value of projected Benefits less the Present Value of Future Normal Cost contributions.

In order to explain the current and proposed method, let's assume that a new Member is not projected to get any salary increases and that they will retire at age 65 and that the Plan will not receive any investment earnings on the contributions made.

Hypothetical Member	
Hire Date	4/1/2024
Annual Salary	$50,000
Birth Date	10/1/1994
Projected Retirement Date	10/1/2059
Annual Projected Benefit at Retirement *(2.55% X 35.5 Years X $50,000 AFC)*	$45,263
Value of Projected Benefit at age 65 *($45,263 annual benefit X Life Annuity Factor)*	$506,940

Current Allocation Method
Spreads the cost of the benefit over the 35 years from the first valuation date (10/1/2024) to the Projected Retirement Date (10/1/2059).

Normal Cost = $14,484
($506,940 projected value of retirement benefit spread over 35 years)
Accrued Liability as of 10/1/2024 = $0

Proposed Allocation Method
Spreads the cost of the benefit over 35.5 years from the date of hire (4/1/2024) to the Projected Retirement Date (10/1/2059).

Normal Cost = $14,280
($506,940 projected value of retirement benefit spread over 35.5 years)
Accrued Liability as of 10/1/2024 = $7,140

As can be seen on the previous page, under the proposed method, the Normal Cost is smaller and the Accrued Liability is larger than under the current method. Both methods are acceptable. However, it is our opinion that the proposed method is better from the perspective of actually spreading out the cost over a Member's entire career and for better reflecting the initial liability that is present for Members on a valuation date who were hired during previous year.

The impact on funding requirements of changing the Entry Age Normal Cost Allocation Method is a slight decrease in the City's contribution requirement (due to a smaller Normal Cost) and slight increase in the UAAL (due to a larger Accrued Liability), as shown below.

Entry Age Normal Cost Allocation	Required City/State Contribution	Increase / (Decrease)	UAAL	Funded Ratio
Current	11,115,985		60,781,302	75.9%
Proposed	11,103,532	(12,453)	60,896,358	75.9%

REVIEW OF ECONOMIC ASSUMPTIONS

ASOP No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*, provides guidance to actuaries in selecting (including giving advice on selecting) economic assumptions – primarily investment return, discount rate, post-retirement benefit increases, inflation, and compensation increases – for measuring obligations under defined benefit pension plans.

Throughout the remainder of this section, we have used the standards set forth in ASOP No. 27 as a guideline for reviewing and if applicable, selecting recommended changes to the following economic actuarial assumptions and methods:

- Investment Return
- Salary Increases

Please keep in mind that ASOP No. 27 (and ASOP No. 35) recognizes a range of reasonable assumptions and states "the actuary should recognize the uncertain nature of the items for which assumptions are selected and, as a result, may consider several different assumptions reasonable for a given measurement. The actuary should also recognize that different actuaries will apply different professional judgment and may choose different reasonable assumptions. As a result, a range of reasonable assumptions may develop both for an individual actuary and across actuarial practice."

Investment Return

The investment return assumption is critical in the actuarial valuation since it determines the portion of assets that will come from investment income rather than contributions from the plan sponsor and its participants. The investment return assumption should be determined based on the long-term rate of return (net of investment-related fees) the plan expects to earn over the life of the plan. The assumed rate of investment return is currently 6.60% per year compounded annually, net of investment-related expenses.

We believe that the decision to modify the investment return assumption shall be made based upon input from your investment professionals, reflecting any significant changes to the asset allocation, and their judgment of capital market returns. Keep in mind, however, that this assumption should reflect the best estimate of investment returns expected to be realized until the last participant in the plan dies, which could be 50+ years from now.

ASOP No. 27 provides that in developing a reasonable assumption, the actuary may consider a broad range of data and other inputs, including the judgment of investment professionals. The data that may be considered includes: current yields to maturity of fixed income securities; forecasts of inflation, GDP growth, and total returns for each asset class; historical and current investment data (including real and nominal returns); the inflation and inflation risk components implicit in the yield of inflation-protected securities; dividend yields, earnings yields, real estate capitalization rates; and historical plan performance.

For purposes of reviewing the investment return assumption, a building block approach is often used, whereby the actuary determines the weighted average expected real rate of return for the plan's target investment portfolio and then adjusts for inflation and expenses not reflected in the real rates of return. Foster & Foster is an actuarial firm, and we do not have the required expertise to produce our own capital market assumptions. For this reason, ASOP No. 27 addresses that the actuary will often collect capital market assumptions from external sources in order to determine the forward-looking expected arithmetic and/or geometric returns. The capital market assumptions can be broadly classified into the following categories: expected returns by asset class; standard deviation by asset class; and correlation coefficients between asset classes.

ASOP No. 27 states "to determine the forward-looking expected geometric return for an entire portfolio, the actuary should take the weighted average of the forward-looking expected arithmetic return for each of the asset classes and adjust such determination to reflect the variance of the entire portfolio…in general, a forward-looking expected geometric return for an asset class can be approximated by taking the forward-looking expected arithmetic return and subtracting one-half of the variance of the asset class". Below, we have employed this technique in order to review the current investment return assumption used in actuarial valuations.

Capital Market Assumptions – Board Investment Advisor

In order to complete the GASB 67/68 disclosures each year, the Board's investment advisor provides our firm with a broad target asset allocation (based on guidance from GASB) along with their corresponding forward-looking expected arithmetic returns by asset class. Below is the excerpt from the most recent GASB 67/68 disclosures, based on a September 30, 2024 measurement date.

Asset Class	(1) Target Allocation	(2) Expected Arithmetic Return by Asset Class (Long-Term)	(3) = (1) x (2) Expected Portfolio Arithmetic Return (Long-Term)
Fixed Income	25.00%	1.70%	0.43%
Hedge Fund of Funds	6.00%	2.80%	0.17%
Real Estate	12.00%	2.60%	0.31%
US Equity	24.00%	5.00%	1.20%
Developed Non US Equity	8.00%	5.00%	0.40%
Emerging Non US Equity	10.00%	5.50%	0.55%
Private Equity	5.00%	7.30%	0.37%
Private Debt	5.00%	3.70%	0.19%
Opportunistic	5.00%	2.50%	0.13%
Total Real	100.00%		3.75%
Assumed Inflation			2.50%
Total Nominal			6.25%

It is important to note that the investment return assumptions used for GASB purposes (as provided by the pension plan's Investment Consultant, Segal Marco Advisors) reflect shorter-term capital market expectations, typically based on a 20-year horizon. In contrast, the return assumption used in the actuarial valuation reflects a much longer time horizon, spanning potentially 75+ years, until the last member of the plan has passed. This difference in time horizons is the key reason for the potential discrepancy between the GASB weighted average return (6.25%) and the actuarial assumption (6.60%).

Salary Increases

The salary increase assumption is used to project a participant's compensation while actively employed, from the valuation date until the assumed retirement age. This allows the actuary to estimate the pension benefit the member will be entitled to at retirement. Generally, a participant's compensation will increase over the long term in accordance with inflation, productivity growth, and merit adjustments. Currently, the valuation utilizes a service-based salary scale assumption.

When reviewing the experience, the actual increase exceeded the assumption for most service breakpoints. Based on this experience, we recommend amending the assumed rates of salary increases to better align with actual plan experience.

Service	Count	Salary (Prior Year)	Actual Salary	Expected Salary	Actual Increase	Expected Increase	Proposed Increase
1-2	26	1,004,159	1,109,292	1,069,429	10.47%	6.50%	8.50%
3-9	319	14,935,705	16,228,060	15,630,961	8.65%	4.65%	6.75%
10-18	727	38,244,154	40,764,112	39,781,833	6.59%	4.02%	5.25%
19-24	443	29,228,854	30,601,127	30,251,864	4.69%	3.50%	4.00%
25+	202	15,018,211	15,696,970	15,694,030	4.52%	4.50%	4.50%
<Total>	1717	98,431,083	104,399,561	102,428,117	6.06%	4.06%	5.03%

The impact of only the recommended changes to the salary increase assumption is an increase in the funding requirements.

Salary Increases	Required City/State Contribution	Increase / (Decrease)	UAAL	Funded Ratio
Current	11,115,985		60,781,302	75.9%
Proposed	11,246,495	130,510	60,600,896	76.0%

REVIEW OF DEMOGRAPHIC ASSUMPTIONS

ASOP No. 35, *Selection of Demographic and Other Noneconomic Assumptions for Measuring Pension Obligations*, provides guidance to actuaries in selecting (including giving advice on selecting) demographic and other noneconomic assumptions for measuring obligations under defined benefit pension plans.

Throughout the remainder of this section, we have used the standards set forth in ASOP No. 35 as a guideline for reviewing and if applicable, selecting recommended changes to the following demographic and other noneconomic actuarial assumptions:

- Mortality Rates
- Retirement Rates
- Withdrawal Rates
- Disability Rates

Generally, demographic assumptions are based on actual plan experience with additional consideration for current trends. ASOP No. 35 states "the actuary should use professional judgment to estimate possible future outcomes based on past experience and future expectations and select assumptions based upon application of that professional judgment. For any given measurement, the actuary will typically be able to identify two or more reasonable assumptions for the same contingency."

Demographic trends generally remain consistent over time, absent significant changes in plan provisions. Therefore, the best true indicator of future experience is past experience. For each assumption, this analysis compares actual experience for the studied time period to the current assumptions used for purposes of the actuarial valuations. Note that actuarial assumptions reflect average experience over long periods of time. A change in actuarial assumptions generally occurs when experience over a period of years indicates a consistent pattern.

Mortality Rates

The rate of mortality is the probability of death at a given age. As mortality rates have continued to decline over time, concern has increased about the impact of potential future mortality improvement on the magnitude of pension obligations. ASOP No. 35 discusses the importance of actuaries considering mortality improvements when measuring pension obligations. Specifically, an actuary should adjust mortality rates to reflect mortality improvement prior to the measurement date and include an assumption as to the expected mortality improvement after the measurement date, if reasonable.

The Society of Actuaries underwent a comprehensive experience study with the primary objective to develop mortality tables comprised solely of public-sector lives. Additionally, contributors to the study were asked to identify plan members as teachers, public safety personnel, or general employees. This helped provide new insights into the composition of gender-specific pension mortality by factors such as job category, specifically in the public sector. The published tables were released as the Pub-2010 Public Retirement Plans Mortality Tables.

Chapter 2015-157, Laws of Florida, mandates the Board to employ the mortality tables used in either of the two most recently published actuarial valuation reports of the Florida Retirement System (FRS). In conjunction with its July 1, 2019 actuarial valuation, the FRS adopted the Pub-2010 tables, as recommended by their actuary. FRS subsequently made additional changes to the assumed mortality rates (including replacement of the MP-2018 mortality improvement projection scale with the MP-2021 mortality improvement projection scale) in conjunction with its July 1, 2024 actuarial valuation. Accordingly, we are obligated to incorporate these latest changes in conjunction with the October 1, 2025 valuation.

The following tables illustrate life expectancies at various ages for pre-retirement and post-retirement under the prior mortality assumption and new mortality assumption. Additionally, the tables illustrate the effect of generational mortality improvement projection by comparing a retiree age 60 in 2024 with one age 60 in 2044:

Prior Mortality Assumption

Sample Ages	Future Life Expectancy (Years) as of 2024 [1]					
	Healthy Pre-Retirement		Healthy Post-Retirement		Disabled Retirement	
	Male	Female	Male	Female	Male	Female
40	55.80	59.05	45.08	47.87	27.63	30.60
45	50.58	53.78	40.16	42.90	24.05	27.03
50	45.40	48.53	35.32	38.04	20.95	23.88
55	40.31	43.35	30.64	33.28	18.14	20.84
60	35.36	38.24	26.09	28.53	15.46	17.84
65	30.59	33.23	21.70	23.84	12.90	14.87
70	25.97	28.33	17.50	19.31	10.49	12.03
75	21.55	23.60	13.61	15.09	8.25	9.41
80	17.41	19.12	10.16	11.27	6.29	7.15

Sample Age 60	Future Life Expectancy (Years) [1]					
	Healthy Pre-Retirement		Healthy Post-Retirement		Disabled Retirement	
	Male	Female	Male	Female	Male	Female
In 2024	35.36	38.24	26.09	28.53	15.46	17.84
In 2044	37.16	39.79	27.88	30.17	15.46	17.84

[1] Life expectancy in future years assumes generational improvements using the MP-2018 projection scale (no projection for Disabled lives).

Updated Mortality Assumptions

Sample Ages	Future Life Expectancy (Years) [1]					
	Healthy Pre-Retirement		Healthy Post-Retirement		Disabled Retirement	
	Male	Female	Male	Female	Male	Female
40	54.62	56.58	44.45	47.40	29.54	33.45
45	49.51	51.40	39.64	42.48	26.03	29.67
50	44.42	46.24	34.88	37.65	22.70	26.02
55	39.41	41.13	30.23	32.88	19.44	22.43
60	34.53	36.12	25.70	28.13	16.40	19.09
65	29.83	31.23	21.34	23.48	13.72	15.92
70	25.30	26.48	17.18	18.99	11.19	12.80
75	20.96	21.90	13.31	14.79	8.75	9.85
80	16.90	17.58	9.89	11.01	6.58	7.32

Sample Age 60	Future Life Expectancy (Years) [1]					
	Healthy Pre-Retirement		Healthy Post-Retirement		Disabled Retirement	
	Male	Female	Male	Female	Male	Female
In 2024	34.53	36.12	25.70	28.13	16.40	19.09
In 2044	36.01	37.38	27.38	29.59	18.63	21.24

[1] Life expectancy in future years assumes generational improvements using the MP-2021 projection scale.

Impact of Mortality Assumption Change

Sample Ages	Future Life Expectancy Increase/(Decrease) Years					
	Healthy Pre-Retirement		Healthy Post-Retirement		Disabled Retirement	
	Male	Female	Male	Female	Male	Female
40	-1.18	-2.47	-0.63	-0.47	1.91	2.85
45	-1.07	-2.38	-0.52	-0.42	1.98	2.64
50	-0.98	-2.29	-0.44	-0.39	1.75	2.14
55	-0.90	-2.22	-0.41	-0.40	1.30	1.59
60	-0.83	-2.12	-0.39	-0.40	0.94	1.25
65	-0.76	-2.00	-0.36	-0.36	0.82	1.05
70	-0.67	-1.85	-0.32	-0.32	0.70	0.77
75	-0.59	-1.70	-0.30	-0.30	0.50	0.44
80	-0.51	-1.54	-0.27	-0.26	0.29	0.17

Sample Age 60	Future Life Expectancy Increase/(Decrease) Years					
	Healthy Pre-Retirement		Healthy Post-Retirement		Disabled Retirement	
	Male	Female	Male	Female	Male	Female
In 2024	-0.83	-2.12	-0.39	-0.40	0.94	1.25
In 2044	-1.15	-2.41	-0.5	-0.58	3.17	3.40

In reviewing the tables above, you can see that the updated mortality assumption results in decreases in assumed future life expectancies for all categories, except for disabled Retirement.

Adoption of the statutory mortality rate changes results in decreases to the City's annual contribution requirement and the Plan's UAAL, as disclosed below:

Mortality Rates	Required City/State Contribution	Increase / (Decrease)	UAAL	Funded Ratio
Current	11,115,985		60,781,302	75.9%
Proposed	10,873,606	(242,379)	59,013,415	76.4%

Retirement Rates - Early

A retirement rate is the associated probability at a specific point in time that a participant will retire, given that they have attained the eligibility requirements for retirement. The associated cost due to retirement experience is determined by the age at which participants retire (or enter DROP). The current eligibility requirement for Early Retirements are earlier of (1) the attainment of age 55 and completion of 5 years of service or (2) completion of 25 years of service, regardless of age. Currently, the valuation uses a table of rates vary by age and service for Early Retirement.

The table below illustrates the comparison of the actual Early Retirement experience to the current assumption.

Early Retirement (Less Than 25 Years of Service)

Age	Count	Actual	Expected	Actual Rate	Expected Rate	Proposed Rate
55-60	311	27	17.89	8.68%	5.75%	7.25%
61	53	6	3.45	11.32%	6.50%	9.00%
62	51	4	6.12	7.84%	12.00%	10.00%
63	51	11	2.55	21.57%	5.00%	12.25%
64	46	5	1.38	10.87%	3.00%	7.00%
<Total>	512	53	31.39	10.35%	6.13%	8.18%

Early Retirement (More Than 25 Years of Service)

Service	Count	Actual	Expected	Actual Rate	Expected Rate	Proposed Rate
25	68	10	7.14	14.71%	10.50%	12.50%
26	62	4	3.41	6.45%	5.50%	6.00%
27	57	10	6.56	17.54%	11.50%	14.50%
28	45	5	3.38	11.11%	7.50%	9.25%
29	40	3	1.6	7.50%	4.00%	5.75%
<Total>	272	32	22.08	11.76%	8.12%	9.91%

As can be seen above, members elected Early Retirement more often than assumed. This experience was realized after the plan change in 2013. Given this experience, we recommend an adjustment to the Early Retirement assumption, as shown in the above.

Retirement Rates - Normal

The current eligibility requirements for Normal Retirement are the earlier of (1) attainment of age 65 and completion of 5 years of service, or (2) completion of 30 years of service, regardless of age. Currently, the valuation uses a table of rates by years eligible for normal retirement.

The tables below illustrate the comparison of the actual Normal Retirement experience to the current assumption.

Normal Retirement (Less Than 30 Years of Service)

Age	Count	Actual	Expected	Actual Rate	Expected Rate	Proposed Rate
65	49	15	24.5	30.61%	50.00%	40.00%
66	38	19	12.54	50.00%	33.00%	40.00%
67	17	9	5.61	52.94%	33.00%	40.00%
68	8	3	8	37.50%	100.00%	70.00%
69	5	2	5	40.00%	100.00%	70.00%
70+	3	1	3	33.33%	100.00%	100.00%
<Total>	120	49	58.65	40.83%	48.88%	44.75%

Normal Retirement (30+ Years of Service)

Service	Count	Actual	Expected	Actual Rate	Expected Rate	Proposed Rate
30	34	24	34	70.6%	100.0%	80.0%
31	11	9	11	81.8%	100.0%	90.0%
32	2	1	2	50.0%	100.0%	90.0%
33+	1	1	1	100.0%	100.0%	100.0%
<Total>	48	35	48	72.9%	100.0%	83.1%

Review of tables in the above shows that since 2014, Members elected to deferred Normal Retirement somewhat beyond the current assumption. As you can see, the recommended changes result in generally lower rates of normal retirement. This results in a later assumed retirement age and a lengthened period of time to fund future benefit accruals, thereby decreasing current costs, as shown below.

Retirement Rates	Required City/State Contribution	Increase / (Decrease)	UAAL	Funded Ratio
Current	11,115,985		60,781,302	75.9%
Proposed	11,069,958	(46,027)	60,491,915	76.0%

Withdrawal Rates

The withdrawal rate, or termination rate, is the probability that a participant will separate employment from a cause other than disability, death, or retirement. Currently, the valuation uses a service-based table.

Overall, the actual incidence of termination was less than expected in aggregate. Given this experience, we recommend adjustments to the rates as shown below.

Withdrawal Rates

Service	Count	Actual	Expected	Actual Rate	Expected Rate	Proposed Rate
1-4	79	7	11.85	8.9%	15.0%	12.0%
5-9	193	12	14.48	6.2%	7.5%	7.0%
10-19	551	22	22.04	4.0%	4.0%	4.0%
20+	162	3	10.53	1.9%	6.5%	4.0%
<Total>	985	44	58.9	4.5%	6.0%	5.2%

The recommended changes have the effect of lowering the assumed rates of termination. The aggregate effect is an increase to the City's contribution requirement, as shown below.

Withdrawal Rates	Required City/State Contribution	Increase / (Decrease)	UAAL	Funded Ratio
Current	11,115,985		60,781,302	75.9%
Proposed	11,169,130	53,145	60,854,258	75.9%

Disability Rates

The disability rate assumption is the probability that a member will become disabled while an active participant in the plan. Currently, the valuation utilizes an age-based table with relatively low expected probabilities. Over the past ten years, the plan expected 15.66 disabilities and there was 1 disability during that time. Given this experience, we recommend decreasing the disability rates by 50% for all ages.

The impact of only the recommended changes to the disability rates assumption is an increase in funding requirements.

Disability Rates	Required City/State Contribution	Increase / (Decrease)	UAAL	Funded Ratio
Current	11,115,985		60,781,302	75.9%
Proposed	11,170,552	54,567	61,145,212	75.8%

SUMMARY

As stated throughout the content of this report, we have recommended the Board consider several changes to the actuarial assumptions utilized for purposes of completing the annual valuations. It is our belief that these changes reflect sound actuarial principles, are in compliance with the Actuarial Standards of Practice, are our best estimate of anticipated future experience, and will assist in achieving the objective of developing costs that are stable and predictable. Below, we have provided a summary of the estimated actuarial impact for the discussed changes. Please note we have also included the impact of lowering the investment return assumption to 6.50% per year, for informational purposes.

Change	Assumption	Increase/(Decrease) Required City/State Contribution	Increase/(Decrease) UAAL	Funded Ratio
	Current			75.9%
(1)	6.50% Investment Return	348,571	2,674,340	75.1%
(2)	Entry Age Normal Cost Allocation	(12,453)	115,056	75.9%
(3)	Salary Increases	130,510	(180,406)	76.0%
(4)	Mortality Rates	(242,379)	(1,767,887)	76.4%
(5)	Retirement Rates	(46,027)	(289,387)	76.0%
(6)	Withdrawal Rates	53,145	72,956	75.9%
(7)	Disability Rates	54,567	363,910	75.8%
(8)	Combination (6.60%)	(58,979)	(1,703,915)	76.4%
(9)	Combination (6.50%)	287,896	913,086	75.6%

ORDINANCE NUMBER 2026 - _____

AN ORDINANCE OF THE CITY OF OCALA, AMENDING THE CITY OF OCALA GENERAL EMPLOYEES' RETIREMENT SYSTEM, ADOPTED PURSUANT TO ORDINANCE NO. 5988, AS SUBSEQUENTLY AMENDED; IS HEREBY FURTHER AMENDED BY AMENDING SECTION 43-67, BENEFIT AMOUNTS AND ELIGBILITY; PROVIDING FOR SEVERABILITY OF PROVISIONS; PROVIDING FOR CODIFICATION; REPEALING ALL ORDINANCES IN CONFLICT AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Ocala, Florida has a pension plan for certain of its former employees which was initially developed in or about January 1, 1955, and, though not offered as a benefit for current employees, remains a benefit for certain former employees; and

WHEREAS, the regulations governing said pension plan are codified at Section 43, *Code of Ordinances, City of Ocala, Florida,* and provide for oversight of said pension plan by a Board of Trustees of the Ocala General Employees' Retirement System (hereinafter "Board of Trustees"); and

WHEREAS, in accordance with the provisions of Section 43-67(b)(8)(b)(4), *Code of Ordinances, City of Ocala, Florida,* the Board of Trustees initiated an actuarial experience study which was conducted by Foster & Foster Actuaries and Consultants and the results of which were presented to the Board of Trustees of the Ocala General Employees' Retirement System (hereinafter "Board of Trustees") on or about November 10, 2025; and

WHEREAS, contained within the product of said actuarial experience study were certain recommended adjustments to the City of Ocala, Florida's current pension plan regulations in Section 43, *Code of Ordinances, City of Ocala, Florida*; and

WHEREAS, the Board of Trustees reviewed said study and the accompanying proposed amendments to the current pension plan regulations in Section 43, *Code of Ordinances, City of Ocala, Florida*, and recommends that the City of Ocala adopt all the recommended changes contained in the experience study; and

WHEREAS, said recommended assumption changes require approval by City Council and some of the recommended assumption changes require an amendment to the *Code of Ordinances, City of Ocala, Florida* so as to update Section 43-67 accordingly; and

WHEREAS, this ordnance amends Section 43-67, *Code of Ordinances, City of Ocala, Florida*, so as to implement the recommended changes to the current pension plan regulations as suggested in the actuarial experience study; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendment to Section 43-67, *Code of Ordinances, City of Ocala, Florida*, contained herein serves a public purpose and furthers the protection of the health, safety and welfare of the citizens of Ocala, Florida; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendment to Section 43-67, *Code of Ordinances, City of Ocala, Florida*, contained herein are in the best interest of the City of Ocala, Florida and its citizens.

NOW THEREFORE, be it ordained, by the City Council of the City of Ocala, Florida, in regular session, as follows:

Section 1. Ratification, Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida ratifies the above-outlined recitals as true and correct; adopts and incorporates them herein as part and parcel of this ordinance.

Section 2. Purpose and Authority for Ordinance.

This ordinance is adopted for the purpose of amending and revising Section 43-67 of the *Code of Ordinances, City of Ocala, Florida* so as to adopt the recommended assumption changes to the City of Ocala's General Employees' Retirement System.

Section 3. Amendment of Section 43-67 *Code of Ordinances, City of Ocala, Florida*.

Section 43-67(b) of the *Code of Ordinances, City of Ocala, Florida* is hereby amended by removing the ~~stricken through~~ text and inserting the underlined text as follows:

Sec. 43-67. Benefit amounts and eligibility

***

(b) *Variable benefit and contribution program.*

***

(8) *Assumptions and methods.*

a. The actuarially determined employer contributions used for the target total employer contribution percentage and for the preliminary and final total employer contribution percentage shall be developed using the following actuarial assumptions and methods.

b. *Actuarial assumptions:*

1. The investment return (net of investment related expenses) assumption shall be approved by Council following negotiations between city staff and the Pension Board. ~~Beginning with the actuarial valuation as of October 1, 2021, the investment return (net of investment related expenses) assumption shall be reduced from seven (7) percent per annum compounded annually to six and one-half (6.5) percent per annum compounded annually. To accomplish this reduction, the assumed rate will be reduced each fiscal year by ten (10) basis points until the six and one-half (6.5%) percent is reached. The schedule of changes will be as follows:~~

~~i. For the actuarial valuation as of October 1, 2021, the assumed rate will be six and nine tenths (6.9) percent per annum compounded annually.~~

~~ii. For the actuarial valuation as of October 1, 2022, the assumed rate will be six and eight tenths (6.8) percent per annum compounded annually.~~

~~iii. For the actuarial valuation as of October 1, 2023, the assumed rate will be six and seven tenths (6.7) percent per annum compounded annually.~~

~~iv. For the actuarial valuation as of October 1, 2024, the assumed rate will be six and six tenths (6.6) percent per annum compounded annually.~~

~~v. For the actuarial valuation as of October 1, 2025, the assumed rate will be six and one-half (6.5) percent per annum compounded annually.~~

2. The price inflation assumption shall be 2.5 percent per annum compounded annually.

3. The mortality rate assumption for non-disabled members shall be the mortality tables used in either of the two most recently published actuarial valuation reports of the Florida Retirement System, as set forth in Florida Statutes §112.63(1)(f), including any adjustments permitted therein.

4. ~~Except as provided in subparagraphs (8)b.1. through (8)b.3. above, the assumptions used in the October 1, 2013 actuarial valuation shall be the same as used in the October 1, 2012 actuarial valuation report accepted by the board. Thereafter, the assumptions used in the October 1, 2012 actuarial valuation report other than investment return, price inflation and mortality shall continue to apply until revised in accordance with recommendations of the pension board as approved by the city council.~~ The pension board shall have an experience study prepared no less frequently than every five years, and based on the experience study may recommend changes in assumptions, which shall be implemented as approved by the city council. ~~Upon approval of revised assumptions, this subsection shall be amended to reflect the revisions.~~

c. *Actuarial methods:*

1. The actuarial cost method shall be the ~~traditional~~ entry age <u>normal</u> cost method~~, as prescribed by GASB Statement Nos. 67 and 68~~.

2. The actuarial value of assets shall be based upon a five-year straight line recognition of the difference between expected earnings on the net market value of assets and actual earnings on the net market value of assets. The net market value of assets shall be the total fiduciary net position of the plan as defined by GASB Statement Nos. 67 and 68, excluding any reserves held which are not designated for currently adopted plan benefits valued as part of the plan liabilities. After adjusting the current market value of assets for this delayed recognition, the resulting actuarial asset value shall neither exceed 120 percent, nor fall below 80 percent, of the net market value of assets. For the first four valuation dates commencing October 1, 2012 (for the revised

contribution applicable to the year beginning October 1, 2013), the actuarial value of assets are determined assuming that this same five-year recognition method applies to the differences between the expected and actual investment returns for the years ending September 30, 2009 and later.

d. *Amortization methods*. The annual actuarial valuations prepared as of October 1, 2012 (for the revised contribution applicable to the year beginning October 1, 2013) and following shall utilize the same schedule of amortization bases and periods utilized in the October 1, 2012 actuarial valuation report dated February 22, 2013, but all amortized as level dollar amounts under the new interest rate assumption. The amortization base(s) created as of October 1, 2012 to accommodate the change in assumptions, change in asset valuation method and change in benefits are amortized over 20 years using level dollar amounts. For all actuarial valuation dates, commencing on October 1, 2013 and following, all changes in the entry age unfunded actuarial accrued liability resulting from asset and liability actuarial gains or losses, and from any associated benefit changes in accordance with subsection 43-67(6), shall be amortized over layered ten-year periods as level dollar amounts.

Section 4. Direction to Staff.

The City Council of the City of Ocala, Florida directs staff to take any and all other steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 5. Direction to the Codifier.

It is the intention of the City Council of the City of Ocala, Florida that (1) this ordinance shall become and be made a part of the *Code of Ordinances, City of Ocala, Florida*, (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by the City Council.

Section 6. Repealing Inconsistent and/or Conflicting Provisions.

The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 7. Severability of Ordinance Provisions.

If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 8. Modifications Arising from Consideration at a Public Hearing.

It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 9. Effective Date of Ordinance.

This ordinance shall become effective immediately upon approval by the Mayor or becoming law without such approval.

PASSED AND ADOPTED, in a regular session with a quorum present and voting, by the City Council of the City of Ocala, Florida this ____ day of March 2026.

STAFF RECOMMENDATION (Motion Ready):
Ordinance 2026-7 to rezone approximately 2.26 acres for properties located in the 1400 block of NE 14th Street (Parcel 26496-005-00 & 26496-005-01) from RO, Residential Office, and R-1, Single Family Residential, to R-3, Multi- Family Residential (Case ZON25-0016) (Quasi-Judicial)

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:

- Applicant: Arun & Anjana Singh
- Property Owner: Arun & Anjana Singh

Key Points:

The petitioner requests to rezone two contiguous properties (parcels 26496-005-00 and 26496-005-01), comprising approximately 2.26 acres of undeveloped property, from RO (Residential Office) and R-1 (Single-Family Residential) to R-3 (Multi-Family Residential). The two parcels have split zoning designations, with RO on the northern portion and R-1 on the remainder.

Zoning and Land Use Factors for Consideration:

- The property is surrounded by the Institutional District (INST) on the eastern, western, and southern sides of the property.
- The R-3 zoning district allows for a broad range of uses, including Multi-family, assisted living facilities, and conference centers.
- The subject property's access is from a major arterial roadway (SR 492/NE 14th Street).

FINDINGS AND CONCLUSIONS:

- The proposed rezoning is consistent with the Low Intensity Future Land Use classification and Section 122-244 of the Code of Ordinances.
- City utilities are available at this location, and no level of service issues have been identified for public facilities as a result of the zoning amendment.
- The Planning and Zoning Board approved the request by a vote of six to one.

Staff recommends approval.

Section 2. Direction to Staff. The City Council of the City of Ocala, Florida directs staff to take any and all steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 3. Repealing Inconsistent and/or Conflicting Provisions. The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures, and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 4. Severability of Ordinance Provisions. If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 5. Modifications Arising from Consideration at a Public Hearing. It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its

consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 6. Direction to the Codifier. It is the intention of the City Council of the City of Ocala, Florida that (1) the zoning map of the City of Ocala is hereby amended to reflect the change in zoning classification from RO, Residential Office, and R-1, Single Family residential, to R-3, Multi-family Residential, as to lands described in Section 1 of this ordinance; (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by City Council.

Section 7. This ordinance shall become effective upon approval by the mayor, or upon becoming law without such approval.

Presentation By: Emily Johnson

Department: Growth Management

STAFF RECOMMENDATION (Motion Ready):
Ordinance 2026-8 to rezone two properties totaling approximately 30.49-acres located at 5019 W Silver Springs Blvd and the parcel adjacent to the east (Parcel 23180-000-00 & 23176-003-00) from PD, Planned Development, to M-1, Light Industrial (Case ZON25-0018) (Quasi-Judicial)

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:

- Applicant: Steven Mendez, Manager, Chi Ocala Rancho LLC
- Property Owner: Chi Ocala Rancho LLC

Key Points:

The petitioner requests to rezone 30.49 acres of property from PD, Planned Development, to M-1, Light Industrial. Parcel 23180-000-00 has historically been used for agricultural purposes and is currently developed with three nonconforming single-family residences, built as early as 1958. Parcel 23176-003-00 has historically remained vacant and undeveloped.

On November 19, 2024, the City Council approved a rezoning of the subject properties via Ordinance 2025-7. The associated PD Plan and Standards Book were adopted concurrently via Resolution 2025-6 and approved a maximum development program of up to 468 multifamily residential units and up to 180,991 square feet of commercial/retail uses, not to exceed a maximum floor area ratio (FAR) of 0.75.

Zoning and Land Use Factors for Consideration:

- The subject property is surrounded by M-1 zoned properties and existing industrial uses.
- The surrounding area west of I-75 is primarily developed with heavy commercial and industrial uses, with a limited number of retail/business establishments.
- The existing Employment Center Future Land Use category only allows for residential development as part of a mixed-use Planned Development (PD).
- The existing single-family residences located on Parcel 23180-000-00 are nonconforming under the current PD, Planned Development, zoning district. The single-family residences would similarly remain nonconforming under the proposed M-1 zoning district.

Planning & Zoning Commission Meeting:

Staff presented the rezoning request to the Planning & Zoning Commission on January 12, 2026. The Chairman requested confirmation that the existing nonconforming use must cease and be demolished before any new structures are added, and staff confirmed. The applicant's agent noted that a demolition permit had recently been submitted for the nonconforming single-family residences and provided additional background on the decision to rezone the property for industrial use. The Planning & Zoning Commission voted six to zero to recommend approval.

FINDINGS AND CONCLUSIONS:

- The proposed rezoning is consistent with the industrial and heavy commercial development pattern surrounding the subject property.
- Residential uses are not permitted in the M-1 zoning district. The existing single-family residences on the subject properties will remain nonconforming and must be removed prior to any further development.
- The proposed rezoning is consistent with the existing Employment Center Future Land Use classification and pursuant to Section 122-244 of the Code of Ordinances.
- City utilities are available at this location, and no level of service issues have been identified for public facilities as a result of the zoning amendment.

Staff recommends approval.

ORDINANCE 2026-8

AN ORDINANCE AMENDING THE ZONING MAP OF THE CITY OF OCALA, FLORIDA, CHANGING THE ZONING FROM PD, PLANNED DEVELOPMENT, TO M-1 LIGHT INDUSTRIAL, FOR CERTAIN PROPERTY LOCATED AT 5019 W SILVER SPRINGS BLVD AND THE PARCEL ADJACENT TO THE EAST (PARCEL 23180-000-00 & 23176-003-00), APPROXIMATELY 30.49 ACRES (CASE NO. ZON25-0018); PROVIDING DIRECTION TO STAFF; REPEALING INCONSISTENT AND/OR CONFLICTING PROVISIONS; PROVIDING FOR SEVERABILITY OF ORDINANCE PROVISIONS; PROVIDING FOR MODIFICATIONS ARISING FROM CONSIDERATIONS AT A PUBLIC HEARING; PROVIDING DIRECTION TO THE CODIFIER; AND PROVIDING FOR AN EFFECTIVE DATE.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session, as follows:

Section 1. The lands described below are hereby rezoned and reclassified according to the zoning regulation of the City of Ocala, Florida, as M-1, Light Industrial:

PARCEL NUMBER 23180-000-00:

PARCEL 1:

THE NORTH 1/2 OF THE EAST 1/2 OF THE WEST 1/2 OF THE S.E. 1/4 OF THE N.E. 1/4 OF SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA.

PARCEL 2:

THAT PART OF THE SOUTH 1/2 OF THE EAST 1/2 OF THE WEST 1/2 OF THE S.E. 1/4 OF THE N.E. 1/4 OF SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, LYING NORTH OF STATE ROAD 40.

PARCEL 3:

WEST 1/4 OF THE S.E. 1/4 OF THE N.E. 1/4, NORTH OF STATE ROAD 40, AND THE EAST 26 FEET OF THE EAST 1/4 OF THE S.W. 1/4 OF THE N.E. 1/4, NORTH OF STATE ROAD 40, IN SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, ALL LYING NORTH OF STATE ROAD 40.

PARCEL 4:

THE WEST 1/2 OF THE EAST 1/2 OF THE S.E. 1/4 OF THE N.E. 1/4 OF SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA, EXCEPT THAT PART LYING SOUTH OF STATE ROAD 40.

PARCEL 5:

COMMENCE AT THE NORTHEAST CORNER OF SECTION 16, RANGE 21 EAST, TOWNSHIP 15 SOUTH, IN MARION COUNTY, FLORIDA; THENCE RUN N89°39'03"W., ALONG THE NORTH BOUNDARY OF SAID SECTION 16, FOR A DISTANCE OF 1324.35 FEET; THENCE RUN S.00°31'19"W., ALONG THE WEST BOUNDARY OF THE NORTHEAST 1/4 OF THE NORTHEAST 1/4 OF THE SAID SECTION, FOR A DISTANCE OF 1325.46 FEET; THENCE RUN N.89°38'36"W., ALONG THE NORTH BOUNDARY OF THE SOUTHWEST 1/4 OF THE NORTHEAST 1/4 OF SAID SECTION, FOR A DISTANCE OF 26.02 FEET TO THE POINT OF BEGINNING; THENCE CONTINUING WESTERLY ALONG SAID LINE, FOR A DISTANCE OF 26.02 FEET; THENCE RUN S.00°31'31"W., FOR A DISTANCE OF 766.93 FEET TO THE POINT OF CURVATURE OF A TANGENT CURVE, CONCAVE TO THE EAST, AND HAVING FOR IT'S ELEMENTS: A RADIUS OF 470.87 FEET, A CENTRAL ANGLE OF 11°35'35", A CHORD DISTANCE OF 95.12 FEET, AND A CHORD BEARING OF S.05° 10'10"E.; THENCE RUN SOUTHERLY ALONG SAID CURVE, FOR A DISTANCE OF 95.28 FEET; THENCE RUN S.11°04'07"E., FOR A DISTANCE OF 81.66 FEET; THENCE RUN N.00°31'31"E., ALONG THE WEST BOUNDARY OF THE EAST 26.00 FEET OF THE SOUTHWEST 1/4 OF THE NORTHEAST 1/4 OF THE SAID SECTION, FOR A DISTANCE OF 941.61 FEET TO THE POINT OF BEGINNING.

LESS AND EXCEPT FROM THE ABOVE DESCRIBED LANDS:

BOOK 1918, PAGE 500; AND BOOK 5825, PAGE 19; AND BOOK 5825, PAGE 22.

AND

PARCEL NUMBER 23176-003-00:

THE NORTH 424.02 FEET OF THE EAST 1/4 OF THE SOUTHEAST 1/4 OF THE NORTHEAST 1/4, SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA.

Section 2. Direction to Staff. The City Council of the City of Ocala, Florida directs staff to take any and all steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 3. Repealing Inconsistent and/or Conflicting Provisions. The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures, and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 4. Severability of Ordinance Provisions. If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 5. Modifications Arising from Consideration at a Public Hearing. It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 6. Direction to the Codifier. It is the intention of the City Council of the City of Ocala, Florida that (1) the zoning map of the City of Ocala is hereby amended to reflect the change in zoning classification from PD, Planned Development, to M-1, Light Industrial, as to lands described in Section 1 of this ordinance; (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish

said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by City Council.

Section 7. This ordinance shall become effective upon approval by the mayor, or upon becoming law without such approval.

RESOLUTION 2025-6

A RESOLUTION APPROVING A PLANNED DEVELOPMENT (PD) PLAN AND ASSOCIATED PD STANDARDS BOOK (W HWY 40 MIXED USE PD PLAN) FOR PROPERTY LOCATED AT 5019 W. HIGHWAY 40 ALONG WITH THE PARCEL TO THE NORTHWEST, OCALA, MARION COUNTY, FLORIDA (CASE NO. PD24-45515).

Whereas, CHI Ocala Rancho, LLC submits a PD plan (Case PD24-45515) for property located at 5019 West Highway 40 along with the parcel to the northwest, approximately 30.49 acres to allow for the construction of 468 multi- family units, commercial and retail mixed-use development; and

Whereas, as an associated Ordinance 2025-7 amends the zoning map of the City of Ocala changing parcel 23176-003-00 & 23180-000-00 from No Zoning & B-5, Wholesale Business District, to PD, Planned Development; and

Whereas, on October 14, 2024, the Planning and Zoning Commission recommended approval of the applicant's request by a 4-0 vote.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session, as follows:

1. The City of Ocala does hereby approve the W Hwy 40 Mixed Use PD plan (Exhibit "A") and PD standards book (Exhibit "B").

2. The effective date for this resolution will be November 19, 2024.

3. The approved PD plan and associated PD standards book shall apply to the following described land located in Ocala, Marion County, Florida, to wit:

CHI OCALA RANCHO
PD PLAN

W HWY 40 MIXED USE - CONCEPTUAL PD PLAN

CONCEPTUAL PD PLAN

SCALE: 1"= 100'

PROPOSED DEVELOPMENT:

THE PROPOSED DEVELOPMENT ON THIS SITE WILL BE A MULTI-FAMILY APARTMENT COMPLEX AND FIVE COMMERCIAL LOTS.
THE TOTAL PROPOSED APARTMENT BUILDING AREA IS 202,105 S.F. (SUBJECT TO CHANGE)
THE TOTAL PROPOSED CLUBHOUSE BUILDING AREA IS 6,845 S.F. (SUBJECT TO CHANGE)
THE PROPOSED NUMBER AND SIZE OF BUILDINGS WILL DEPEND ON FINAL SITE PLAN DESIGN.
THE BUILDINGS SHALL BE THREE STORIES WITH A MAXIMUM HEIGHT OF 50 FEET.
THE MINIMUM BUILDING SETBACKS SHALL BE 25 FEET ON THE FRONT, REAR, AND SIDE.
THE MAXIMUM ALLOWABLE DENSITY IS 481 APARTMENT UNITS.
THE PROPOSED CONCEPTUAL PLAN SHOWS 468 APARTMENT UNITS.

SITE COVERAGE:

TOTAL SITE AREA	= 1,312,026 S.F. = 30.12 ACRES
PROPOSED APARTMENT BUILDING AREA	= 202,105 S.F. (THREE STORY) F.A.R.=0.1540
PROPOSED CLUB HOUSE/OFFICE BUILDING	= 6,845 S.F.
PROPOSED MAINTENANCE BUILDING	= 894 S.F.
PROPOSED PET WASH	= 225 S.F.
PROPOSED POOL AREA	= 2,228 S.F.
PROPOSED MAIL KIOSK	= 300 S.F.
PROPOSED BOCCE COURT	= 2,590 S.F.
PROPOSED VOLLEYBALL	= 3,868 S.F.
PROPOSED PICKLEBALL	= 7,320 S.F.
PROPOSED DUMPSTER AREA	= 1,656 S.F.
PROPOSED SIDEWALK	= 25,958 S.F.
PROPOSED PAVEMENT	= 285,247 S.F.
PROPOSED AMENITIES TO COUNT AS OPEN SPACE	= 24,249 S.F. (AMENITIES MAY VARY AT TIME OF DEVELOPMENT PHASE)
COMMERCIAL LOT 1	= 41,383 S.F.
COMMERCIAL LOT 2	= 40,517 S.F.
COMMERCIAL LOT 3	= 43,281 S.F.
COMMERCIAL LOT 4	= 48,362 S.F.
COMMERCIAL LOT 5	= 47,304 S.F.
PROPOSED IMPERVIOUS AREAS (RESIDENTIAL)	= 514,966 S.F.
PROPOSED IMPERVIOUS AREAS (COMMERCIAL)	= 176,676 S.F.
PROPOSED DRAINAGE RETENTION AREA	= 88,277 S.F.
TOTAL PROPOSED OPEN SPACE	= 532,107 S.F.
PROPOSED INTERIOR LANDSCAPING MINIMUM PER CODE	= 28,525 S.F.
PROPOSED OPEN SPACE PER CODE:	= 328,007 S.F.
PROPOSED AGGREGATE OPEN SPACE PER CODE:	= 131,203 S.F.

THE ABOVE AREAS ARE PRELIMINARY AND CONCEPTUAL ONLY. FINAL COVERAGE WILL BE DETERMINED AT TIME OF FINAL SITE PLAN.

DRAINAGE SUMMARY:

THIS DEVELOPMENT SHALL UTILIZE AN ONSITE PRIVATE DRAINAGE FACILITY. THE RETENTION AREA SHALL BE MAINTAINED BY THE OWNER. STORMWATER RUNOFF FROM THE COMMERCIAL LOTS AND MULTI-FAMILY AREA SHALL BE ROUTED VIA CURB & INLET SYSTEMS TO THE PROPOSED RETENTION AREAS SHOWN ON THIS PLAN. THE STORMWATER RETENTION AREA WILL ATTENUATE THE 100YR-24HR POST STORM EVENT. NO DRAINAGE RETENTION AREAS ARE PROPOSED ON THE COMMERCIAL LOTS.
ALL FINISH FLOOR ELEVATIONS OF THE PROPOSED BUILDINGS SHALL BE SET AT 1 FT ABOVE THE MAXIMUM STAGE REACHED IN THE PROPOSED RETENTION AREA FOR THE 100YR-24HR POST STORM EVENT.

LANDSCAPE & IRRIGATION:

LANDSCAPING AND IRRIGATION DESIGN WILL ADHERE TO CITY OF OCALA CODE REQUIREMENTS AND WILL BE DESIGNED AT THE TIME OF FINAL SITE PLAN SUBMITTAL.

ARCHITECTURAL RESTRICTIONS:

TO BE DETERMINED BASED ON DISCUSSIONS WITH CITY STAFF. CITY STAFF WILL REVIEW ARCHITECTURAL ELEVATIONS AND MAKE RECOMMENDATIONS BASED ON PRELIMINARY PLANS SUBMITTED.

OPERATION & MAINTENANCE:

A LEGALLY FILED MAINTENANCE AGREEMENT SHALL BE FILED WITH THE FINAL PD PLAN. THE OWNER OR THEIR SUCCESSORS OR ASSIGNS WILL MAINTAIN THE PROPOSED IMPROVEMENTS ON THIS SITE.

PROPOSED DEVELOPMENT SCHEDULE:

THE PROPOSED DEVELOPMENT CONSTRUCTION SCHEDULE IS ANTICIPATED TO BEGIN WITHIN 1 TO 5 YEARS OF THE PROPOSED PD PLAN APPROVAL. THIS TIMELINE IS ONLY AN ESTIMATE AND IS NOT A GUARANTEE. NOR DOES THIS ESTIMATE INCLUDE THE ENTIRE DEVELOPMENT OF THE SITE AS THIS MAY OCCUR IN PHASES BASED ON ECONOMIC CONDITIONS. PHASE 1 OF THE DEVELOPMENT IS ANTICIPATED TO BE COMPLETED WITHIN 2 YEARS OF THE FINAL DEVELOPMENT PLAN APPROVAL. PHASE 2 IS ANTICIPATED TO BE COMPLETED WITHIN 5 YEARS OF THE FINAL DEVELOPMENT PLAN APPROVAL.

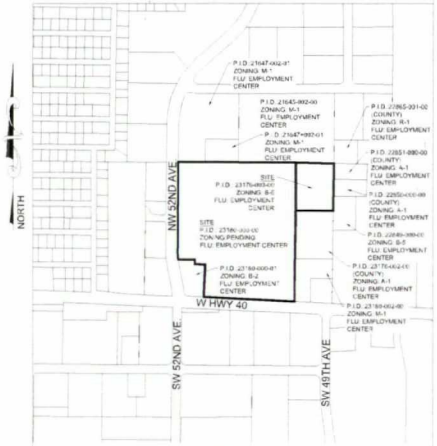
WATER & SEWER:

CENTRAL WATER & SEWER SERVICES FOR THE PROPOSED BUILDINGS WILL BE AT THE OWNERS EXPENSE. THE OWNER WILL CONNECT TO THE EXISTING CITY OF OCALA CENTRAL WATER & SEWER SYSTEMS.

ELECTRIC UTILITIES:

ELECTRICAL UTILITIES SHALL BE PROVIDED BY THE EXISTING OCALA ELECTRIC UTILITIES LOCATED ADJACENT TO THE SITE.

PUBLIC WORKS:



THIS SITE WILL BE SERVED VIA DUMPSTER PADS/COMPACTOR. A COMMERCIAL IMPACT FEE WILL BE REQUIRED AND DETERMINED AT TIME OF SITE PLAN SUBMITTAL.

FIRE DEPARTMENT:

BUILDING(S) SHALL HAVE APPROVED ADDRESS NUMBERS PLACED IN A POSITION TO BE PLAINLY LEGIBLE AND VISIBLE FROM THE STREET OR ROAD FRONTING THE PROPERTY. ADDRESS NUMBERS SHALL CONTRAST WITH THEIR BACKGROUND. NUMERALS SHALL BE NOT LESS THAN SIX INCHES IN HEIGHT FOR RESIDENTIAL BUILDINGS, STRUCTURES, OR PORTIONS THEREOF.

PROPOSED ROADWAY SECTION:

THE PROPOSED ROADWAYS WITHIN THIS DEVELOPMENT WILL ADHERE TO CITY OF OCALA AND FDOT SPECIFICATIONS AND WILL BE DESIGNED AND DETAILED AT THE TIME OF THE IMPROVEMENT PLAN OR SITE PLAN STAGE.

PARCEL 1:
THE NORTH 1/2 OF THE EAST 1/2 OF THE WEST 1/2 OF THE S.E. 1/4 OF THE N.E. 1/4 OF SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA.

PARCEL 2:
THAT PART OF THE SOUTH 1/2 OF THE EAST 1/2 OF THE WEST 1/2 OF THE S.E. 1/4 OF THE N.E. 1/4 OF SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, LYING NORTH OF STATE ROAD 40.

PARCEL 3:
WEST 1/4 OF THE S.E. 1/4 OF THE N.E. 1/4, NORTH OF STATE ROAD 40, AND THE EAST 26 FEET OF THE EAST 1/4 OF THE S.W. 1/4 OF THE N.E. 1/4, NORTH OF STATE ROAD 40, IN SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, ALL LYING NORTH OF STATE ROAD 40.

PARCEL 4:
THE WEST 1/2 OF THE EAST 1/2 OF THE S.E. 1/4 OF THE N.E. 1/4 OF SECTION 16, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA, EXCEPT THAT PART LYING SOUTH OF STATE ROAD 40.

PARCEL 5:
COMMENCE AT THE NORTHEAST CORNER OF SECTION 16, RANGE 21 EAST, TOWNSHIP 15 SOUTH, IN MARION COUNTY, FLORIDA; THENCE RUN N89°39'03"W, ALONG THE NORTH BOUNDARY OF SAID SECTION 16, FOR A DISTANCE OF 1324.35 FEET; THENCE RUN S 00°31'19"W, ALONG THE WEST BOUNDARY OF THE NORTHEAST 1/4 OF THE NORTHEAST 1/4 OF THE SAID SECTION, FOR A DISTANCE OF 1323.48 FEET; THENCE RUN N 89°38'36"W, ALONG THE NORTH BOUNDARY OF THE SOUTHWEST 1/4 OF THE NORTHEAST 1/4 OF SAID SECTION, FOR A DISTANCE OF 26.02 FEET TO THE POINT OF BEGINNING; THENCE CONTINUING WESTERLY ALONG SAID LINE, FOR A DISTANCE OF 26.02 FEET; THENCE RUN S 00°31'31"W, FOR A DISTANCE OF 786.93 FEET TO THE POINT OF CURVATURE OF A TANGENT CURVE, CONCAVE TO THE EAST, AND HAVING FOR ITS ELEMENTS: A RADIUS OF 470.87 FEET, A CENTRAL ANGLE OF 11°35'35", A CHORD DISTANCE OF 95.12 FEET, AND A CHORD BEARING OF S 05°16'10"E, THENCE RUN SOUTHERLY ALONG SAID CURVE, FOR A DISTANCE OF 95.28 FEET; THENCE RUN S 11°04'07"E, FOR A DISTANCE OF 81.66 FEET; THENCE RUN N 00°31'31"E, ALONG THE WEST BOUNDARY OF THE EAST 26.00 FEET OF THE SOUTHWEST 1/4 OF THE NORTHEAST 1/4 OF THE SAID SECTION, FOR A DISTANCE OF 941.61 FEET TO THE POINT OF BEGINNING.

LESS AND EXCEPT FROM THE ABOVE DESCRIBED LANDS:
BOOK 1918, PAGE 300; AND BOOK 5825, PAGE 19; AND BOOK 5825, PAGE 22

OPEN SPACE:

THERE SHALL BE A MINIMUM OPEN SPACE REQUIREMENT OF 25% OF THE GROSS TOTAL ACREAGE FOR ALL DEVELOPMENT IN ANY PD PROJECT. AT LEAST 10% OF THE TOTAL REQUIRED OPEN SPACE SHALL BE IN USEABLE AGGREGATE FORM. AGGREGATE OPEN SPACE IS DEFINED AS COMMON OPEN SPACE AREAS THAT IS DESIGNED AND INTENDED FOR USE BY THE OCCUPANTS/RESIDENTS OF A PD.
OPEN SPACE REQUIRED FOR THIS SITE = 328,007 S.F.
AGGREGATE OPEN SPACE REQUIRED FOR THIS SITE = 131,203 S.F.
BUFFERS ARE TO BE PROVIDED AS SPECIFIED ON THIS PLAN AND/OR AS REQUIRED BY CODE AT TIME OF DEVELOPMENT.

PARKING CALCULATIONS:

(BASED ON 1.5 PARKING SPACE PER UNIT.)

PROPOSED UNITS	= 468 UNITS
PARKING REQUIRED	= 468 x 1.5 = 702 SPACES
PARKING PROVIDED	= 738 PARKING SPACES

PARK & AMENITY AREAS:

THE PROPOSED PARK & AMENITY AREAS SHOWN ON THIS PLAN WILL PROVIDE A NATURAL SETTING AND PROVIDE NATURAL TREE PRESERVATION WHERE POSSIBLE. THE PARKS WILL INCLUDE A COMBINATION OF BENCHES, PICNIC TABLES, COVERED PICNIC AREA, AND OUTDOOR ACTIVITY AREAS SUCH AS PLAYGROUNDS, BOCCE, HORSE SHOES, PICKLE BALL, VOLLEYBALL, OR SIMILAR AMENITIES DETERMINED AT FINAL DEVELOPMENT DESIGN PLAN.

Presentation By: Chad Lynch

Department: Electric Utility

FORMAL TITLE:
One-Year renewal of Agreement for Tree Trimming and Line Clearance Services with Davey Tree Expert Company in an amount not to exceed $2,541,543

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
Bid released to the public 01/30/2023

BACKGROUND:

Ocala Electric Utility (OEU) is responsible for maintaining a safe and reliable electric distribution system. Vegetation interference remains a primary cause of electric service interruptions. OEU maintains an extensive network of overhead electric distribution lines throughout its service area, many of which are located near trees and other vegetation.

OEU utilizes qualified utility vegetation management contractors to perform tree trimming and line clearance activities. The approved annual budget, including contingency funding, supports ongoing vegetation management across a significant portion of the overhead system each year. These services are essential to maintaining system reliability and supporting efficient power restoration efforts following weather-related events involving vegetation.

FINDINGS AND CONCLUSIONS:
On April 18, 2023, City Council approved a three-year agreement with Davey Resource Group for tree trimming and line clearance services (Contract No. ELE/230159). To ensure continuity of essential services, OEU is requesting approval of a one-year renewal to the existing agreement.

FISCAL IMPACT:
Funds for this contract are budgeted annually in account #457-032-231-531-53-34070 at an estimated annual budget of $2,541,543. The expenditure will not exceed that amount during the term of the renewal.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This amendment will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

- Deny

FIRST AMENDMENT TO AGREEMENT FOR TREE TRIMMING AND LINE CLEARANCE SERVICES

THIS FIRST AMENDMENT TO AGREEMENT FOR TREE TRIMMING AND LINE CLEARANCE SERVICES ("First Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **THE DAVEY TREE EXPERT COMPANY**, a foreign for-profit corporation duly organized in the state of Ohio and authorized to do business in the state of Florida (EIN: 34-0176110) ("Contractor").

WHEREAS, on April 19, 2023, City and Contractor entered into an Agreement for Tree Trimming and Line Clearance Services (the "Original Agreement"), City of Ocala Contract Number: ELE/230159, for a term of three (3) years, from April 18, 2023 through April 17, 2026; and

WHEREAS, City and Contractor now desire to renew the Original Agreement for the first of two (2) additional one (1) year renewal periods available under the terms of the Original Agreement.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Contractor agree as follows:

1. **RECITALS.** City and Contractor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Contractor is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this First Amendment.
3. **RENEWAL TERM**. The Original Agreement is hereby renewed for an additional one (1) year term beginning **APRIL 18, 2026**, and terminating **APRIL 17, 2027**. Thereafter, the parties acknowledge and agree that there remains the option for the Original Agreement to be renewed for up to **ONE (1)** additional **ONE (1) YEAR** period upon written agreement between the parties.
4. **COMPENSATION.** City shall pay Contractor a maximum limiting amount not to exceed **TWO MILLION, FIVE HUNDRED FORTY-ONE THOUSAND, FIVE HUNDRED FORTY-THREE AND NO/100 DOLLARS ($2,541,543)** (the "Contract Sum") over the one (1) year Renewal Term as full and complete compensation for the timely and satisfactory performance of services in accordance with the Contract Documents. The pricing in this Agreement may only be adjusted by written amendment executed by both parties.
5. **NOTICES**. All notices, certifications or communications required by this First Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:

The Davey Tree Expert Company
Attention: Rachel Palmer

If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

6. **COUNTERPARTS.** This First Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
7. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this First Amendment. Further, a duplicate or copy of the First Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original First Amendment for all purposes.
8. **LEGAL AUTHORITY**. Each person signing this First Amendment on behalf of either party individually warrants that he or she has full legal power to execute this First Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this First Amendment.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK. SIGNATURE PAGE TO FOLLOW.]

IN WITNESS WHEREOF, the parties have executed this First Amendment on _____.

AGREEMENT FOR TREE TRIMMING AND LINE CLEARANCE SERVICES

THIS AGREEMENT FOR TREE TRIMMING AND LINE CLEARING SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **THE DAVEY TREE EXPERT COMPANY,** a foreign profit corporation duly organized in the state of Ohio and authorized to do business in the state of Florida (EIN: 34-0176110) ("Contractor").

WHEREAS, on January 30, 2023, City issued an Invitation to Bid for the provision of tree trimming and line clearing services, ITB No.: (ELE/230159) (the "Solicitation"); and

WHEREAS, eight (8) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, The Davey Tree Expert Company was chosen as the intended awardee to provide tree trimming and line clearing services (the "Project"); and

WHEREAS, Contractor certifies that Contractor is qualified and possesses the required experience and licensure.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Contractor shall only include this Agreement and those documents listed in this section as Exhibits to this Agreement. Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.
   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:
      Exhibit A: Scope of Work (A-1 through A-17)
      Exhibit B: Price Proposal (B-1)
      Exhibit C: Compatible Species (C-1)

      If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A, then (2) Exhibit B, then (3) Exhibit C.
3. **SCOPE OF SERVICES.** Contractor shall provide all materials, labor, supervision, tools, accessories, equipment necessary for Contractor to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work**. The Scope of Work and/or pricing under this Agreement may only be adjusted by written amendment executed by both parties.
4. **COMPENSATION.** City shall pay Contractor a maximum limiting amount not to exceed **SEVEN MILLION, SIX HUNDRED THOUSAND, SIX HUNDRED TWENTY-NINE AND NO/100 DOLLARS ($7,624,629)** (the "Contract Sum") over the contract term as full and complete compensation for the timely and satisfactory performance of services in accordance with the pricing detailed in **Exhibit B – Price Proposal**.
   A. **Pricing Increase and Escalation.** Pricing shall remain firm and fixed during the Initial Term of this Agreement. Any renewal price adjustment shall be subject to negotiation and must be approved by the City of Ocala. Contractor shall submit a written request for price adjustment identifying the reason for the price increase, and attach suitable documentation in support of same, no less than **NINETY (90) DAYS** prior to the expiration of the then existing Contract Term. No retroactive price adjustments will be allowed. Pricing increases

shall not exceed the lesser of: (i) the amount of the percentage increase reflected in the Consumer Price Index for all Urban Consumers (CPI-U), not seasonally adjusted, based upon the most recent **TWELVE (12) MONTH** period; or (ii) **THREE PERCENT (3%) ANNUALLY** unless there are mitigating market conditions.

B. **Invoice Submission**. All weekly invoices submitted by Contractor shall include the City Contract Number, an assigned invoice number, invoice date, crew members by classification, vehicles, billing rates, hours worked with totals, invoice period, and a total invoice amount. Contractor shall submit the original invoice through the responsible City Project Manager at: **Ocala Electric Utility,** Attn: **Lisa Crouthamel, 1805 NE 30th Avenue, Bldg. 400, Ocala, Florida 34470**, E-Mail: lcrouthamel@ocalafl.org.

C. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

D. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

E. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

F. **Amounts Due to the City**. Contractor must be current and remain current in all obligations due to the City during the performance of services under this Agreement. Payments to Contractor may be offset by any delinquent amounts due to City or fees and/or charges owed to the City.

G. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **TERM OF AGREEMENT**. This Agreement shall become effective and commence on **APRIL 18, 2023** and continue in effect for a term of **THREE (3) YEARS**, through and including **APRIL 17, 2026** (the "Term"). This Agreement may be renewed for up to **TWO (2)** additional **ONE (1) YEAR** periods by written consent between City and Contractor.

6. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, pandemics, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof, as soon as it becomes aware.

B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Contractor performance shall be extended for a number of days equal to the duration of the force majeure. Contractor shall be entitled to an extension of time only and, in no event, shall Contractor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.

7. **INSPECTION AND ACCEPTANCE OF THE WORK**. Contractor shall report its progress to the City Project Manager as set forth herein. All services, work, and materials provided by Contractor under this Agreement shall be provided to the satisfaction and approval of the Project Manager.

A. The Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials furnished, or workmanship performed, the rate of progress of the work, the interpretation of the plans and specifications, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Contractor in its Bid. The authority vested in the Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the work.

B. Neither the Project Manager's review of Contractor's work nor recommendations made by Project Manager pursuant to this Agreement will impose on Project Manager any responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident Contractor's furnishing and performing the work.

8. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Document, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.

A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Contractor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Contractor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Contractor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:

(1) Contractor fails to timely and properly perform any of the services set forth in the specifications of this Agreement;

(2) Contractor provides material that does not meet the specifications of this Agreement;

(3) Contractor fails to complete the work required within the time stipulated in this Agreement; or

(4) Contractor fails to make progress in the performance of this Agreement and/or gives City reason to believe that Contractor cannot or will not perform to the requirements of this Agreement.

B. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Contractor Default**. In the event that Contractor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:
(1) City shall be entitled to terminate this Agreement without further notice;
(2) City shall be entitled to hire another Contractor to complete the required work in accordance with the needs of the City;
(3) City shall be entitled to recover from Contractor all damages, costs, and attorney's fees arising from Contractor's default prior to termination; and
(4) City shall be entitled to recovery from Contractor any actual excess costs by: (i) deduction from any unpaid balances owed to Contractor; (ii) filing a claim under the Contractor's performance bond, or (iii) any other remedy as provided by law.

D. **Termination for Non-Funding**. In the event that budgeted funds to finance this Agreement are reduced, terminated, or otherwise become unavailable, City may terminate this Agreement upon written notice to Contractor without penalty or expense to City. City shall be the final authority as to the availability of budgeted funds.

E. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The Project Manager shall provide written notice of the termination. Upon receipt of the notice, Contractor shall immediately discontinue all work as directed in the notice, notify all subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Contractor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Contractor as permitted under this Agreement and approved by City.

9. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.

10. **PERFORMANCE BOND.** Contractor shall furnish to the City a Performance Bond in an amount not less than **TWO MILLION, FIVE HUNDRED THOUSAND AND NO/100 DOLLARS ($2,500,000)** to guarantee the performance of work under this Agreement in strict accordance with the Contract Documents.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

11. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Contractor's performance. Any such evaluation will become public record.
12. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any Contractor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.

13. **CONTRACTOR REPRESENTATIONS**. Contractor expressly represents that:
    A. Contractor has read and is fully familiar with all of the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Contractor under this Agreement.
    B. Contractor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Contractor in the Contract Documents, and that the City's written resolution of same is acceptable to Contractor.
    C. Contractor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.
    D. **Public Entity Crimes.** Neither Contractor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Contractor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Contractor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

14. **CONTRACTOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Contractor:
    A. Contractor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.
    B. Contractor shall be solely responsible for the means, methods, techniques, sequences, or procedures and safety precautions or programs incident thereto.
    C. Contractor shall be responsible to see that the finished work complies accurately with the contract and the intent thereof.
    D. Contractor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, and be responsible for all costs associated with same.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

E. Contractor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Contractor and City may otherwise agree in writing.

15. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Contractor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.
16. **RESPONSIBILITIES OF CITY.** City or its Representative shall issue all communications to Contractor. City has the authority to request changes in the work in accordance with the terms of this Agreement and with the terms in **Exhibit A.** City has the authority to stop work or to suspend any work.
17. **COMMERCIAL AUTO LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.
18. **GENERAL LIABILITY INSURANCE.** Contractor shall procure and maintain, for the life of this Agreement, commercial general liability insurance with minimum coverage limits not less than:

    A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for bodily injury, property damage, and personal and advertising injury; and
    B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for products and completed operations.
    C. Policy must include coverage for contractual liability and independent contractors.
    D. The City, a Florida municipal corporation, and its officials, employees, and volunteers are to be covered as additional insureds with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liabilities arising out of activities performed by or on behalf of Contractor. This coverage shall contain no special limitation on the scope of protection to be afforded to the City, its officials, employees, and volunteers.

19. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement adequate workers' compensation and employer's liability insurance covering all of its employees in at least such amounts as required by Chapter 440, Florida Statutes, and all other state and federal workers' compensation laws, including the U.S. Longshore Harbor Workers' Act and the Jones Act, if applicable. Contractor shall similarly require any and all of its subcontractors to afford such coverage for all of its employees as required by applicable law. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent. **Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver**.

20. **MISCELLANEOUS INSURANCE PROVISIONS.**

A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.

B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.

C. Certificates of Insurance. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.org.** Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. City as Additional Insured. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation and Professional Liability policies.

E. Notice of Cancellation of Insurance. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.org.

F. Failure to Maintain Coverage. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. Severability of Interests. Contractor shall arrange for its liability insurance to include, or be endorsed to include, a severability of interests/cross-liability provision so that the "City of

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

21. **SAFETY/ENVIRONMENTAL.** Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Contractor shall make an effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury or property damage. EPA, DEP, OSHA and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:
    A. All employees on the work and other persons that may be affected thereby;
    B. All work, materials and equipment to be incorporated therein, whether in storage on or off the site; and
    C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

    All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.
22. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.
23. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Contractor, subcontractor, or of any of their agents or employees. nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.
24. **EMERGENCIES**. In an emergency affecting the welfare and safety of life or property, Contractor, without special instruction or authorization from the City Project Manager, is hereby permitted, authorized and directed to act at its own discretion to prevent threatened loss or injury. Except in the case of an emergency requiring immediate remedial work, any work performed after regular working hours, on Saturdays, Sundays or legal holidays, shall be performed without additional expense to the City unless such work has been specifically requested and approved by the City Project Manager. Contractor shall be required to provide to the City Project Manager with the names, addresses and telephone numbers of those representatives who can be

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

contacted at any time in case of emergency. Contractor's emergency representatives must be fully authorized and equipped to correct unsafe or excessively inconvenient conditions on short notice by City or public inspectors.

25. **COMPLIANCE WITH F.S. 287.135.** City may terminate Agreement immediately upon discovering that Contractor: (A) has been placed on the Scrutinized Companies that Boycott Israel List; (B) is engaged in a boycott of Israel; (C) has been placed on the Scrutinized Companies with Activities in Sudan List; (D) has been placed on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; or (E) has been engaged in business operations in Cuba or Syria. This Agreement may also be terminated immediately if the Contractor falsely certified they are eligible to bid and contract with local government entities under F.S. 287.135.
26. **INDEPENDENT CONTRACTOR STATUS.** Contractor acknowledges and agrees that under this Agreement, Contractor and any agent or employee of Contractor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Contractor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Contractor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Contractor in its performance of its obligations under this Agreement.
27. **ACCESS TO FACILITIES.** City shall provide Contractor with access to all City facilities as is reasonably necessary for Contractor to perform its obligations under this Agreement.
28. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.
29. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Contractor under this Agreement be abandoned, or should Contractor become insolvent, or if Contractor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.
30. **PUBLIC RECORDS.** Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, Contractor shall:
    A. Keep and maintain public records required by the public agency to perform the service.
    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the

contract term and following completion of the contract if Contractor does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of Contractor or keep and maintain public records required by the public agency to perform the service. If Contractor transfers all public records to the public agency upon completion of the contract, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Contractor keeps and maintains public records upon completion of the contract, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.org; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

31. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
32. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
33. **E-VERIFY.** In accordance with Executive Order 11-116, Contractor shall utilize the U.S. Agency of Homeland Security's E-Verify system, https://e-verify.uscis.gov/emp, to verify the employment eligibility of all employees hired during the term of this Agreement. Contractor shall also require all subcontractors performing work under this Agreement to utilize the E-Verify system for any employees they may hire during the term of this Agreement.
34. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
35. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

36. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

37. **INDEMNITY.** Contractor shall indemnify and hold harmless City and its elected officials, employees and volunteers against and from all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Contractor, its agents, and employees.

38. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.

39. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	The Davey Tree Expert Company Attention: Rachel Palmer 1500 N. Mantua Street Kent, Ohio 44240 Phone: 330-548-1931 or 800-445-8733 E-mail: rachel.palmer@davey.com
If to City of Ocala:	Daphne M. Robinson, Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.org
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.org

40. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

41. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.
42. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
43. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
44. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
45. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
46. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
47. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

48. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
49. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
50. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.
51. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
52. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

BACKGROUND

1. Contractor must perform the selective clearing, pruning, and herbicide treatment of vegetation along the Ocala Electric Utility's (OEU) electrical system. Contractor agrees to provide all labor, supervision, tools, equipment, and material necessary to perform the work required.
2. All work shall be performed in accordance with FDOT Design Standards (latest edition) and ANSI specifications for Tree Care Operations (A300) (latest edition).

   http://www.fdot.gov/roadway/designstandards/Standards.shtm

CERTIFICATIONS AND EXPERIENCE REQUIREMENTS

1. Contractor must possess and maintain a Florida Department of Transportation Maintenance of Traffic (FDOT) certification AND Line Clearance.
2. Contractor is responsible for all maintenance of traffic. Traffic control will be per the FDOT 600 Series Index, providing a Worksite Traffic Supervisor who is responsible for initiating, installing, and maintaining all traffic control devices. Ensure that the Worksite Traffic Supervisor is certified in the advanced training category by a Department approved training provider
3. Contractor must possess and maintain an International Society of Arboriculture (ISA) Arborist certification.

GENERAL REQUIREMENTS

1. All vegetation management work performed on OEU's electric system shall adhere to the pruning specifications as required by the Arbor Day Foundation for Tree Line USA Utility designation, and use either ISA's Best Management Practices "Utility Pruning of Trees" a special companion publication to the ANSI A300, or, as a reference, "Pruning Near Electric Utility Lines" a field pocket guide for qualified line-clearance tree workers by Dr. Alex Shigo. The handbooks shall be provided by the Contractor, and a copy shall be kept on each line clearance truck as an on-site reference to proper line clearance pruning for tree crews in the field.
2. Pruning shall be done in such a manner as to protect current tree health and condition. OEU shall consider unskilled or careless work methods by workers as just cause for termination of the specific workers, or the Agreement, as deemed justified by the City.
3. All workers shall be Qualified Line-clearance Arborists/Trainees as detailed in ANSI Z133.1 Annex B to work in the proximity of Electric Utility lines.
4. All work shall be performed in full compliance with all OSHA regulations including Construction Regulations 1926; and General Industry Regulations 1910.
5. Contractor shall comply with all applicable federal, state, county, and local laws, ordinances, regulations, orders, or decrees in effect during the period of performance.

REPORTS, DELIVERABLES AND HOURS

1. **Reports:** Contractor shall furnish OEU with bi-weekly reports indicating the nature and character of the work performed, the dates of performance of such work together with any other pertinent information needed to properly describe or measure the work performed, including total hours, the address, and crew type.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

2. **Work hours.** All work shall be performed between the hours of 7:00 a.m. to 5:30 p.m., Monday through Friday, excluding City-observed holidays. Work performed outside of normal work hours must be approved by the City Project Manager.

CONTRACTOR'S RESPONSIBILITES

Contractor, as part of its work and without additional cost or expense to OEU unless specifically otherwise indicated, shall:

1. In advance of performing any pruning work, notify property owners of the nature of the work, and from the property owner or authorized agent, individual or board having authority there-over obtain the necessary permission for each tree (tree is defined as = > 4 inches DBH) removed. Signed documentation shall be provided to OEU Arborist.
2. Unless otherwise directed by an authorized OEU agent in writing, secure all permits and licenses imposed by law, pay all charges and fees, and give notices necessary and incidental to the due and lawful performance of this work.
3. In accordance with Florida Statute 163.3209 Contractor shall notify the Utility Arborist a minimum of five (5) working days prior to beginning work in the area of designated Canopy and/or Scenic Roads, and in Ocala's Historic Districts. Exceptions are during emergency conditions only.
4. Comply with all City, State, and County tree ordinances, including but not limited to, the City of Ocala Tree Ordinance Chapter 118, Marion County Scenic Roads Ordinance 99-1 & 97-1.
5. Not obligate OEU to make any payments to another party, nor make any promises or representations of any nature to another party for, or on behalf of, OEU without prior written approval of an authorized agent of the City; no work shall be performed by the Contractor on any tree or brush involved in such payments, promises, or representations until said approval has been obtained in writing.
6. Immediately inform Utility Arborist of any damage complaints which may arise from this Agreement; regardless of cause or extent of damage. Contractor shall keep OEU Arborist informed of the status of each complaint and of any settlement made.
7. All forms necessary for compliance with contractual specifications shall be provided by the Contractor and will require approval by OEU.

COMPLIANCE ASSURANCE

1. Contractor shall work progressively along the line from the starting point and shall complete all work in a given portion of the line before starting work in another portion. Line Circuit maps shall be kept current during the progress of the work, marking all areas completed with colored marker. All exceptions shall be noted on work orders and circuit maps, which shall be returned to OEU Arborist once completed.
2. During the progress of the work, the General Foreman/Contractor Supervisor on the job shall contact OEU each morning, before crews are dispatched, and provide the address or pole location(s) on the line and the nearest road access where crews will work that day.
3. In the event the Contractor plans to deviate from the normal work schedule, e.g. leaving the job site or starting location due to inclement weather or other cause, the General Foreman shall contact OEU immediately.
4. During the progress of work, the Utility Arborist shall make regular inspections to evaluate all tree trimming, removals, and herbicide application to ensure Contractor compliance with the Pruning

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

Specifications. Job sites shall be marked with cones and signs visible from the nearest road to identify crew location.

EMERGENCY CONDITIONS

1. In the event of an emergency and when specifically requested by OEU, Contractor shall make the crews performing under this Agreement available to perform work necessitated by the emergency.
2. After-hours/emergency restoration:
   a) Contractor agrees to provide line clearing "after-hours" and "emergency" restoration assistance to OEU in a timely manner.
   b) Contractor shall receive payment for such work at the rates set forth in the Contract Documents.
   c) Contract crews that are normally assigned to OEU shall not be released to assist other utilities without the consent of the City.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor's personnel shall at all times present a neat appearance and wear hard hats in the Contractor's standard color, or colors chosen for safety purposes, which clearly identify supervisors from crew members. Ocala Electric Utility (OEU) reserves the right to remove Contractor's personnel from OEU's property without cause.
2. Contractor shall furnish, maintain, have inspected and keep in good working order all tools and equipment and shall pay all expenses necessary for and in connection with tree maintenance work performed for OEU. All equipment shall be neat, and clean as possible, at all times. All Contractor trucks (doors or sides) shall be clearly, specifically, and visibly marked with Contractor's identification.
3. Contractor shall maintain all equipment in proper working condition, adequately maintained to perform this scope of work. Equipment shall be marked with company's name and logo. Equipment shall be overall in good condition. Contractor shall, at the request of OEU, immediately remove any equipment considered to be substandard or inappropriate.
4. Contractor's standard equipment for time and material arial bucket trucks including any equipment transitioned to hourly or storm restoration purposes is as follows:
   a) All safety equipment is required.
   b) All equipment required, but not limited to, hydraulic pole chain saw, gas-powered chain saw capable of cutting large trees, tree pruning tools, ropes, and sufficient supporting tools.
   c) OEU has reserved the right to perform crew and equipment inspections for compliance. OEU may shut down crews with inadequate or inappropriate equipment.
5. Contractor shall be responsible for securing and area for parking and storage of vehicles and equipment.
6. Additionally, when required to perform under emergency conditions, trucks shall contain the same number of sets of rain-suits (international orange or other visible colors), rubber boots as men normally assigned to the crew, and other requisites for access to and performance of foul-weather work.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

7. During those periods when work is being performed hereunder, Contractor shall furnish, on a weekly basis, accurate daily itemized information or standard time sheets showing the location of the work performed that day, the names and number of men and equipment hours involved, and the measured area (pole to pole) of trees trimmed.
8. Contractor shall at all times be aware of the line voltage and construction of electric circuits before work is commenced in the vicinity thereof.
9. Electric circuits shall at all times remain energized during the performance of work, and Contractor's shall not interfere with the normal operation of such electric circuits. All Contractor-caused electric service interruptions are subject to repair at Contractor's expense. NOTE: Scheduled interruptions may be requested from OEU on a limited basis.
10. In the event that the Contractor becomes aware of dangerous, broken, loose, or faulty line equipment, OEU shall be advised of the exact pole location(s) and nature of the condition found.
11. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
12. The Contractor shall provide an assigned Project Manager, who will be the primary point of contact. Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
13. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
14. Contractor's employees must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in as good appearance as the job conditions permit.
15. All work shall be accomplished in full compliance with all OSHA regulations including Construction Regulations 1926; and General Industry Regulations 1910.
16. Contractor shall comply with all applicable federal, state, county, and local laws, ordinances, regulations, orders, or decrees in effect during the period of performance.
17. Contractor will operate as an independent contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
18. No smoking is allowed on City property or projects.
19. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
20. All company trucks must display a visible company name/logo on the outside of the vehicle.

LINE CLEARANCE SPECIFICATIONS

1. **PRIMARY VOLTAGES**

   a) All trees interfering with the safe operation and maintenance of overhead lines shall be trimmed or removed. Primary conductors shall receive a minimum of ten feet (10') of clearance to the side and above conductor. Branches extending beneath shall be pruned back to provide a clear space beneath

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

from ground to sky where reasonable. All vegetation such as underbrush growing under conductor or to the side shall be removed or sprayed with herbicide whenever possible.

b) Trees shall be trimmed so as to provide a minimum clearance from primary distribution conductors of three (3) years regrowth. The rate of tree regrowth, type of tree, line importance and voltage of conductors should all be considered in determining actual clearance necessary.

c) The following list of examples should be used as minimum guideline:

- Ten feet (10') of clearance on conifers and slow growing trees such as Live Oak, Dogwood, Red Bud, and Cedar.
- Twelve feet (12') of clearance on medium growth trees such as Water Oak, Laurel Oak, Sweetgum, and Red Maple.
- Fifteen feet (15') of clearance on fast growth trees such as Mulberry, Wild Cherry, Sycamore, Chinaberry, and Camphor.

Open wire secondary conductors shall receive a minimum of 5 ft (5') of clearance to the side, above, and below the conductor.

2. **INSULATED AND BUNDLED SECONDARY (TRIPLEX)**

All triplex secondary up to the pole serving the customer shall receive, when attainable, at least three feet (3') of tree clearance to the side, above and below the conductor.

Rubbing or weight bearing limbs on service lines shall be pruned to prevent damage to line whenever access is unimpeded and no potential for property damage exists. This includes service wire to structure.

3. **AUXILARY WIRES**

All auxiliary wires attached to OEU's poles shall receive a minimum of 5 feet (5') of clearance to the side and above. Branches extending beneath shall be pruned back to provide a clear space beneath from ground to sky where reasonable. Weight bearing limbs shall be removed to eliminate stress on the electrical system.

4. **SUB-TRANSMISSION 69kV**

Where reasonably possible, 69kV Sub-transmission lines shall receive between 15 and 20 feet of clearance to the side, and above. All vegetation such as underbrush growing under conductor or to the side shall be removed or sprayed with herbicide whenever possible.

5. **TRANSMISSION 230kV**

Floor - Clearance for vegetation from the bottom of 230kV conductors shall be the maximum attainable by removing and or applying herbicide to all incompatible species (species capable of attaining a height greater than 18 feet) within the corridor boundaries, and not less than twenty-five feet (25').

Side - Clearance from vegetation growing into the corridor from the side toward the conductor shall be the maximum attainable and no less than twenty-five feet (25') from the outside conductor depending on corridor width.

6. **POLE AND GUYING CLEARANCES**

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

a) Vegetation growing around utility poles and guy wires shall be cleared to provide a minimum of five feet of clearance, and herbicide applied as noted in the "Herbicide Policy" section below.

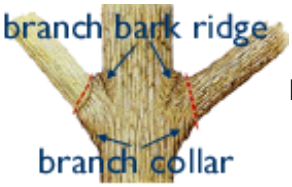
b) All vines ascending poles and guy wires shall be cut at the ground. Herbicide shall be applied at the cut base as noted in Section 9.0.

PRUNING

1. All vegetation management work performed within the City of Ocala Utility Services electric system shall adhere to pruning specifications set forth by the Arbor Day Foundation, and ANSI A300 Standard guidelines for Tree Line USA Utility designation.
2. ISA's Best Management Practices "Utility Pruning of Trees" a special companion publication to the ANSI A300 or "Pruning Near Electric Utility Lines" A field pocket guide for qualified line-clearance tree workers, by Dr. Alex Shigo, shall be provided by the Contractor to all crews as a reference guide to correct pruning methods for line clearance pruning.
3. Trees shall be pruned to provide the maximum clearance attainable from OEU wires and equipment, and where previous pruning was to proper laterals re-establish with maximum attainable clearance, or improve upon the pruning cuts and clearance provided from all previous tree maintenance.
4. Limbs overhanging primary shall be removed or shortened to reduce leverage and potential for breakage.
5. Pruning shall be done in such a manner as to protect current tree health and condition.
6. Job sites shall be cleaned up before crews move on and shall including raking or blowing sites in residential or commercial areas to appear as they were, or better than, before work commenced.
7. All cut limbs (hangers) shall be removed during the course of normal pruning. Hangers observed in trees after crew departure shall be removed upon notification, at the Contractor's expense.
8. Whenever reasonable, the floor of the easement shall be cleared. Seedling trees that have the genetic propensity to grow into the clearance zone shall be cut at the base and herbicide applied to the cut stump. Exceptions shall be trees required by the City or County on commercial property, and private landscaping. These exceptions shall be reported to the Utility Arborist for mitigation procedures.

CONIFEROUS / EVERGREEN SPECIES

Prune coniferous/evergreen trees below and beside electric conductors to a pyramidal shape by using reduction cuts to provide clearance and reshape the tree to its natural form. Young trees growing within the ten-foot easement should be removed to prevent future interference whenever reasonable.



HARDWOOD, DECIDUOUS, AND SEMI-DECIDUOUS SPECIES

1. For the purpose of maintaining the health of the trees all pruning cuts shall be made to a lateral branch at least one third the diameter of the branch being removed, or near the trunk at an angle just outside of the branch bark collar.
2. Where reasonable, pruning shall be directional so that remaining branches and new growth are directed away from the power lines and facilities.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

3. Limbs ***shall not*** be Lions Tailed, i.e. stripped of lateral branches leaving long limbs with foliage only at the end, beside or above conductors. Long limbs ascending beside and above conductors shall be shortened to a proper lateral to remove the threat of blowing or breaking over lines.
4. Remove all large deadwood, diseased branches, broken branches, rubbing branches, and branch stubs that could endanger the line regardless of position within street or landscape trees.

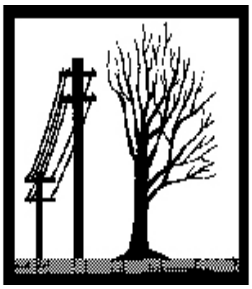
a. PRUNING DIAGRAMS

Pruning cuts should be made just outside, but not into, the branch collar

For safety and to prevent damage by tearing the bark beneath the limb use the three point pruning method for limbs too large to support with one hand.

Do not lions-tail, reduce the length of long branches by using the directional trimming method: cut just above the node leaving a branch at least 1/3 the size of the original and growing away from the lines.

Don't Top!



Topping is defined as cutting limbs or leads between nodes, which reduces the effectiveness of tree defense responses and forces auxiliary sprouts that shoot straight up as shown below.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

Small trees that must be left under power lines should be reduced in height using correct pruning cuts that direct the new growth away from the lines.

Do not leave stubs!

Directional pruning is the preferred method for large trees near power lines. Remove or reduce the ledge beneath lines back to the inside of the lowest line on the pole. In residential areas private trees should be pruned to retain as much foliage around and covering pruning cuts as possible to preserve the aesthetic value while maintaining clearance from the power lines.

DEBRIS AND WOOD DISPOSAL

1. Large trunk or limb wood removed from landscape and street trees shall be removed unless permitted by the property owner to be left on site.
2. All removals over four inches (4”) in diameter at breast height (DBH) shall be described and drawn on a Utility approved permission form with property owner’s signature prior to removal.
3. Remove, as reasonably possible, trees that present a hazard to OEU facilities, quick growing non-native trees, trees growing as sprouts from stumps, trees which cannot be privately maintained under Utility facilities, fence-row trees, roadside trees adjoining agricultural lands and trees originating aside of OEU poles or guy wires.
4. All trees and brush removed shall be cut 2" or less above the ground line whenever physically possible. When fence-row trees are cut they shall be cut at fence height to prevent damage to fencing and cut surfaces apply herbicide to prevent re-sprouting.
5. Contractor shall be responsible for all wood and chip disposal and all costs incurred therein.
6. Debris shall not be left on job sites overnight without property owner’s express permission.

HERBICIDE POLICY

1. The Herbicide Label is the law and shall be read and understood by everyone handling and / or applying herbicide on the OEU System.
2. Herbicides shall be purchased by OEU and supplied to the time and material crews.
3. Herbicide logs shall be kept current and shall include date, type of herbicide used, location of application, and scope of job. Herbicide logs shall be available for inspection upon request.
4. Additionally, all state, county and local laws, rules, and ordinances relating to herbicide application shall be observed.
5. Herbicide handling and application shall be performed by, or under the supervision of, a licensed herbicide applicator.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

6. Customers shall be notified of intent to use herbicide on rights-of-way and easements adjacent to private property. Areas adjacent to crops or nursery stock shall not be sprayed.

APPLICATION

1. Apply low volume basal solution or foliar applications to areas around poles and anchor guys where vines were cut, or where any other woody stemmed, or vine type vegetation threatens or impedes physical access to or around
2. Cut Stump - Herbicide Treatment Procedure - All stumps of deciduous trees removed shall be treated with herbicide to prevent re-sprouting. Where spraying is not reasonable, herbicide should be applied manually with a brush to cut stumps.
3. Foliar - Herbicide Treatment Procedure – In appropriate areas, undesirable species shall be treated with a low volume foliar or basal stem application to prevent future interference with OEU's conductors.
4. Weeds growing up inside trans-closures shall be sprayed with low volume foliar application, and ground treated with an approved herbicide to prevent re-sprouting.
5. Compatible Species of Plants to be Left and NOT to be treated - All native grasses, ferns, herbaceous plants, annual weeds, and annual plants, and those compatible woody species listed in Exhibit C - Compatible Species SHALL NOT be treated unless otherwise specified herein or as directed to do so by OEU Arborist.
6. Invasive exotic species shall be treated as directed by the Utility Arborist.

TREATMENT AROUND POLE AND GUY WIRE ATTACHMENTS

Cut off all vines ascending all poles and guy wires as near the root as accessible. Apply low volume basal solution or foliar applications to areas around poles and anchor guys where vines were cut off or where any other woody-stemmed or vine-type vegetation threatens or impedes physical access to or around poles or anchors.

CONTRACT PERSONNEL REQUIREMENTS

All Contractor personnel working on the OEU system shall meet the specifications below.

SUPERVISION

Contractor shall maintain ISA Certified local supervision whenever the crews are in service. In addition, the Contractor shall provide oversight of their local supervisor(s) and communication with the Utility Arborist on a weekly basis to ensure contractual compliance and City satisfaction.

GENERAL FOREMAN- POSITION REQUIREMENTS

This individual shall be an ISA Certified Arborist or ISA Certified Tree Worker/Climber Specialist or have equivalent experience and education and the ability to attain certification within six (6) months of the date of hire, and have basic computer skills.

They must possess a State of Florida Herbicide Applicators License, and be MOT Certified.

This individual shall directly supervise all local work, and is responsible for tree crew productivity. He shall:

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

- Be responsible for hiring training and retaining competent field personnel
- Be responsible for ensuring that field personnel know, understand, and apply the line clearances, and pruning methods as detailed in the Contract Documents.
- Have the capability of facilitating the local repair of all contractual equipment.
- Be familiar with all OEU reporting procedures, and shall report to the Utility Arborist.
- Have the ability to read and understand work orders, maps, and circuit diagrams, and relay that information to crews in an understandable manner to ensure that assigned jobs are completed efficiently and correctly.
- Be responsible for pre-notification of customers prior to sending crews to work on private trees, except in emergency situations. Notification shall include thorough inspection of job sites, and communication with customers to arrange for removals (where it is in the best interest of OEU), and completion of all associated paperwork.
- Understand the need for good customer relations and be able to instill that ethic in all crew members.
- Be familiar with all local, city, county, state, and Federal regulations and ordinances pertaining to the tree and utility industries.

CREW CLASSIFICATION REQUIRMENTS

All personnel performing work under this Agreement shall be Qualified Line-clearance Arborist as detailed in ANSI Z133.1 Annex B at the time of hire. Exception:

Position Classifications for Contract Personnel

General Foreman	Minimum three (3) years of experience
Herbicide Specialist	Minimum one (1) year of herbicide experience
Foreman A	Minimum one (1) year of experience
Foreman B	Entry Level
Trimmer A	Minimum one (1) year of experience
Trimmer B	Entry Level
Ground-man	Entry Level

Time of employment shall be used as a guideline for classification, but actual skills and knowledge of the position and personal ability, work ethic, and attitude shall determine the approved classification.

Herbicide Specialist

This individual shall possess a Florida Herbicide Applicators License and shall know and understand the local regulations and be familiar with native and exotic plant species within the Marion County area.

Foreman A

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

These individuals are required to handle any line clearance assignments safely and efficiently. Classification A, B depend on experience and mastery of requirements. To be determined by years of experience they shall:

- Have at least one-year experience.
- Have experience with tree identification in the area. They should be familiar with tree growth rates, wood decay, strength of various species of trees and how to determine a hazardous tree.
- Be familiar with, and have the ability to perform tree removals under all circumstances, including roping, rigging, and climbing.
- Have the ability to read and understand written directions, maps, and diagrams, and follow directions, written and verbal, concerning job specifications.
- Encourage, retain, and develop personnel assigned to their crew, and shall be responsible to the General Foreman for crew productivity.
- Instruct others in safety, climbing practices, efficiency in pruning, removals, equipment operation and maintenance.
- Operate efficiently and productively all types of trucks and equipment used on line clearance operations.
- Maintain this equipment in operating order (general field maintenance only) i.e. aerial lifts, chippers, and chain saws and all associated equipment (general field maintenance only).

Foreman B

These individuals must have completed the requirements for line clearance Tree Trimmer A and know Contractor and utility work procedures, safety rules, and have the required knowledge and abilities of a foreman. Must be familiar with various types of distributions and transmission electrical construction, installations and probable operation voltage of facility or equipment.

Trimmer/ Climber A

This individual must have successfully completed all the requirements of apprentice line clearance tree trimmer and developed proficiency. In addition to those requirements, they must show leadership by helping teach lower classification clearance trimmers and apprentices.

This individual shall know:

- Have at least one year of experience.
- Have the ability to perform all areas in line clearance operation, and be proficient in bucket and climbing line clearance including roping and rigging.
- Emergency aerial rescue procedures and how to operate all equipment in an emergency.
- All major trees, shrubs, and poisonous plants in the area. They shall be familiar with growth and re-growth rates, wood decay, strength of various woods, how to determine hazard trees, etc.
- Contractor and OEU reporting procedures and be able to take over any crew in an emergency.
- Read and understand work orders, maps and circuit diagrams, secure permissions, and be able to write out reports clearly.
- Basic maintenance and repair of tools and equipment used in daily operations.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

Trimmer/Climber B

These individuals must complete the requirements of all ground operations and begin training for trimmer/climber entry level. Individuals must start all required training. Must know required knots.

Ground Personnel

Upon hire, ground personnel shall:

- Use required personal protective equipment (PPE) for line clearance and tree crew operations.
- Know the safe and proper operation of equipment, power, and hand tools used in cleaning up brush and logs, cutting R/W or performing stump spray.
- Know maintenance procedures for tools and equipment.
- Know procedures for handling ropes used in lowering limbs and logs from over wires, houses, or other obstacle and of sending tools to pruners up in the trees.
- Tie and use the following knots or their equivalent; Clove Hitch, and Sheet Bend
- Clean up all debris created by the crew before moving the truck from the location.

The following are required of all field employees:

Learn and observe all safety rules required for line clearance and tree care operations.

- Maintain a clean and neat appearance, and dress appropriately for the job
- Develop prompt and regular work habits.
- Conduct themselves in a professional manner at all times on the job.
- Act and speak respectfully when communicating with all Utility customers and personnel at all times while on the job.

TIME AND MATERIAL MAINTENANCE CREWS

1. Contractor shall provide Time and Material Maintenance crews for the purpose of working, as needed, outside of the scheduled circuit pruning. All contractual specifications shall apply.
2. Payment shall be Time and Materials for circuit crews.
3. OEU reserves the right to dictate crew composition, crew make-up, number and equipment for Time and Material crews. OEU reserves the right to request additional Time and Materials crews as needed to be paid at the contract rate.
4. All equipment supplied shall be six (6) years in age or less. Contractor shall furnish all items such as: chain saws, pole saws, ropes, climbing equipment, personal protective equipment (PPE), and all miscellaneous items required to perform the work described in these specifications. Additional equipment (as needed) will be available within five (5) days of request from OEU.
5. The price for equipment shall include fuels, lubricant and maintenance, but is not limited to these items. No charges shall be made for equipment while it is down for repairs.

SAFETY

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

1. Contractor shall take all necessary or advisable precautions for the safety of all persons and property at, on, or near its work. Contractor shall comply with all applicable provisions of federal, state and local safety laws and building codes and any safety regulations of OEU. Contractor shall erect and maintain all necessary or advisable safeguards, as required by the conditions and progress of work, for the protection of workers and the public and shall post danger signs warning against the hazards created by its work.
2. In case of any emergency involving danger to life or property, the Contractor shall act with good judgment to prevent or minimize injury or damage to life or property.
3. Contractor shall not permit or suffer the introduction of alcoholic beverages or neither liquors nor any narcotics upon the work embraced by this purchase order or upon any grounds owned or controlled by City. Contractor shall not permit entry upon the work or into City grounds of any employee of the Contractor or of any subcontractor of Contractor who is under the influence of any alcoholic beverage or liquor or any narcotic (whether or not medically prescribed), or any non-narcotic drug or medication where the fact of such influence may be dangerous to the employee, to the public, to the work, or to City's grounds, facilities, personnel.
4. Contractor shall be fully responsible for the provision of adequate and proper safety precautions meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-contractors, all building and site occupants, staff, public, and all persons in or around the work area.
5. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.
6. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor’s responsibility.

PROTECTION OF WORK AND PROPERTY

1. Contractor shall protect all work and property from damage or loss that may result from the performance of this purchase order. Should its work be suspended temporarily, Contractor shall take such steps as may be necessary or advisable to protect it against damage or loss.
2. Work or property destroyed, damaged, or lost, except by act of omission of OEU, shall be replaced or repaired to OEU's satisfaction at the Contractor's expense.
3. Should any work or property require such replacement or repair prior to the final payment, and the Contractor fails or refuses to replace or repair it in accordance with the purchase order, OEU may replace or repair such work or property, or in case of damage to the property of a third party, reimburse the private property owner thereof and deduct the cost of such replacement, repair or reimbursement from any funds due or to become due to the Contractor under the purchase order, or, if final payment has been made, Contractor shall reimburse OEU such amounts.

INSPECTION OF WORK

1. All work performed by the Contractor is subject to inspection and approval by OEU. Any work not meeting OEU or generally accepted line clearance standards or turned in falsely will be redone at no cost to OEU. If subsequent inspections are required after the initial follow up the actual cost shall be billed to Contractor.
2. The presence of OEU personnel shall not in any way alter, modify, or lessen the obligation of the Contractor to comply with the requirements of this purchase order.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

3. Any inspection by OEU's personnel shall not be considered as an acceptance of waiver of warranty or other rights of the work inspected.
4. If the inspection results in a determination of unsatisfactory performance, on the part of the Contractor, the non-conforming work shall be corrected.

ACCEPTANCE INSPECTION

1. Twice monthly, the General Foreman over the Contractor's work shall schedule time to ride out completed sections of circuit with Utility Arborist. Notated circuit maps shall be provided with measurements clearly marked.
2. All work that is not in accordance with the Contract shall be noted by location. All such work shall be repaired at no cost to OEU before final invoice is approved for payment.

APPROVAL OF WORK

All work shall be subject to the approval of OEU. Contractor shall perform all work in such a manner as to comply with the Contract. OEU shall have the authority to stop the work without cost or liability whenever such stoppage is necessary to ensure proper compliance with the Contract.

CORRECTION OF WORK

1. Contractor shall promptly correct all work deemed by OEU as failing to conform to the specifications. Contractor shall promptly remedy the lack of performance and execute the work in accordance with the specifications, without expense to OEU.
2. If the Contractor fails to correct work deemed by OEU as failing to comply with the construction standards or project drawings/specifications within a reasonable time after notice has been given to the Contractor, OEU may correct such work at the expense of the Contractor. Such expense may be deducted by OEU from any payments due or to become due to the Contractor or, if final payment has been made, the Contractor shall reimburse OEU such amounts.

WORK PROCEDURE

1. Work performed under this Agreement will be performed near energized electrical conductors of OEU's Electric Distribution and Transmission System.
2. Contractor will establish and conform to safe work practices appropriate for such work. Contractor will comply with operating procedures established by OEU for such work and all procedures used to perform such work shall conform to federal OSHA, ANSI Z-133, and State of Florida, local requirements.
3. OEU reserves the right to delegate line clearance projects. Contractor agrees to respond to all assignments and provide additional time and equipment crews as requested by the City in a timely manner. Such assignments shall include but not be limited to electric system construction and maintenance projects, reliability projects, restoration, customer requests and debris disposal.
4. It is the Contractor's responsibility to document instruction and training of his employees of possible hazards involved in working around energized conductors.
5. The Contractor responsible for tree pruning and right-of-way clearing will coordinate all work locations with OEU representative in order to assure continuity and maximum benefit to OEU.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

6. Before starting work in an area where energized primary conductors are involved, the Contractor or someone assigned the responsibility by him/her will notify the System Control Dispatcher of the circuit number, work location and crew doing the work.
7. If the Contractor's Foreman feels the conditions warrant it, he/she will arrange with OEU representative to have the automatic re-closer turned off (Request a Hold on the Circuit). If this action is taken, it is imperative that the crews remain in radio contact with the System Control Dispatcher in the event there is an accidental trip-out so electric service can be restored in the shortest possible time. At the end of the workday, the System Control Dispatcher shall be notified of the crews leaving the area. If the automatic re-closer has been turned off, the OEU representative will have the responsibility to turn it back on.
8. In the event of severe weather entering our service area, every effort must be made to restore all circuits to normal operating conditions as soon as possible. Safe work practices shall be followed at all times and where special requirements or hazards exist, they shall be made known to OEU representative and worked in the safest manner practical.
9. In the event of a serious accident where assistance is needed, the Contractor shall notify the System Control Dispatcher of the type assistance needed, the location and the crew number.
10. The caller shall stay by the radio until the System Control Dispatcher has all the information necessary in order to get emergency equipment to their location.
11. If the Contractor's crew is without radio equipment, contact for emergency aid shall be made through the 911 emergency telephone number.

RADIO EQUIPMENT

1. OEU will provide 2-way radios as agreed, one of which is for Circuit Trimming Crews, for the purpose of maintaining field communications between OEU and the Contractor. This shall be provided at no cost to the Contractor and shall be returned to OEU at the termination of this Agreement. The Contractor shall assume responsibility for the radios while they are issued to him/her.
2. Contractor shall provide its own communication equipment between its crews, supervisors, and OEU personnel. Control Center Dispatch shall have access to all crews for verification of crew status.

TIME SHEETS

Time sheets will be turned into the Utility Arborist each pay period. The time sheet must show a work location for each day along with the usual names, rates and hours worked of each crew member and the equipment used.

TREE TRIM AREA MAPS

OEU will provide the Contractor with one (1) copy of OEU Circuit/Tree Trim Area Maps to facilitate routing crews. One copy of these maps shall be retained by the supervisor as a record showing when specific areas were pruned. A copy of the Tree Trim Area Map shall be returned to OEU Arborist when the work is completed in that area.

NOTIFICATION OF PROPERTY OWNERS

1. Contractor shall be responsible for contacting property owners prior to pruning in a given area to discuss specific work needed, obtain signatures, and arrange for access. Contractor shall provide a courtesy

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

notification when the actual pruning will be performed. Contractor personnel contacting property owners shall be polite, courteous, and as neat as possible.

2. Contractor shall supply all supervisory employees with identification having the employee's photograph, employee's name, company logo, and telephone number permanently affixed. Contractor's employees shall have this identification on their person at all times while working on OEU's customer property.
3. If for any reason the Contractor must prune in areas where permission has not been secured; it shall be the Contractor's responsibility to advise property owners that pruning is to be performed before commencing whenever reasonable. Where the Contractor is unable to secure permission from property owners for required clearances, it shall be documented, and proceed to prune taking as much as acceptable by property owner.
4. Contractor is expected to make every effort to notify property owners. Owners contacted by door hanger who have made no response shall be considered notified unless door hangers are not removed. In the event of an unresponsive property owner, an effort shall be made to contact by phone if a number can be obtained. If unable to contact customer, trimming shall proceed as routine, but removals over four (4) inches in diameter shall be left and noted on maps for the Utility Arborist to address.
5. The supervisor and foreman shall use their best effort in trying to secure the desired clearances.
6. Trees burning in the conductor, or dangerous/hazardous trees, where the property owner refuses permission to prune or remove, must be reported in writing to the Utility Arborist. A "Tree Work Refusal" form or signed door hanger may be used for this purpose with suitable notations that a property owner refused permission. One copy of the form shall be retained by the Contractor for his/her records.
7. Contractor shall obtain written permission for all tree removals and make every attempt to remove all nuisance trees along OEU's easement. The cost to remove trees along the pruning path are considered incidental in per-mile cost.

CONTRACTOR RESPONSIBILITIES

1. Contractor shall complete all work performed under this solicitation in accordance with policies and procedures of the City of Ocala and all applicable state and federal laws, policies, procedures, and guidelines.
2. Contractor shall obtain and pay for any and licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this Agreement.
3. Contractor is responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor at its expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
4. If the Contractor is advised to leave a property by the property owner or their representative, the Contractor shall leave at once without altercation. Contractor shall then contact the City Project Manager within 24 hours and advise of the reason for not completing the assigned project.

SITE HOUSEKEEPING AND CLEANUP

1. **Cleanup:** Contractor shall keep the premises free at all times from accumulation of waste materials and rubbish caused by operations and employees. Such responsibilities shall include but not limited to:

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

A. Periodic cleanup to avoid hazards or interference with operations at the site, and to leave the site in a reasonable neat condition.

B. Work site will be completely cleaned after each day of work.

C. Contractor shall dispose of debris in a legal manner.

2. **Final Cleaning:** Upon completion of work, clean entire work area as applicable.

A. All furnishings and equipment shall be placed back in the original locations.

B. All work areas must be returned to original condition.

C. Contractor shall clean and remove from the premises, all surplus and discarded materials, rubbish, and temporary structures, and shall restore in an acceptable manner all property, both public and private, which has been damaged during the prosecution of the work and shall have the work in a neat and presentable condition. *Note: Any and all debris shall be removed from the premises. New construction debris, trash, etc., shall not be left or buried on site.*

PRICING

The City shall pay Contractor only for the actual units that Contractor provides, installs, or constructs.

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

ITEM	DESCRIPTION	Hourly Rate Year 1	Hourly Rate Year 2	Hourly Rate Year 3	Overtime Rate (% over regular rate)

Low-growing shrubs and small trees, which will not conflict with power lines, should be left growing where utility easements and rights-of-way are adjacent to drainage ditches, bodies of water, and natural woodlands, or where customers prefer a natural barrier.

These species may be reduced in height, directionally trimmed or removed to provide line clearance and clearance around poles and guys as required.

Common Name	**Botanical Name**
Native Plum	Prunus sp.
Native Hawthorn	Crataegus sp.
Bayberry/Wax Myrtle	Myrica cerifera
Fringe Tree	Chionanthus virginicus
Wild Olive	Osmanthus americanus
Gall-berry	Ilex glabra
Yaupon holly	Ilex vomitoria
Elderberry	*Sambucus nigra* subspecies *canadensis*
Willow	*Salix caroliniana*

This list is representative of native species growing in the Marion County area, but is in no way comprehensive or exclusive.

Contractor's Supervisors should be knowledgeable of local species and aware of beneficial versus invasive species populating the Marion County area.

If Contractor's employees are unsure of species identity, information may be obtained from the Utility Arborist, local County Agent or Forester, or by independent research**.**

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

DocuSign Envelope ID: 720AA329-4DDD-4D65-BBD2-97D2A83C71A0

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

Hearing Date:

Entered by: lcrouthamel@Ocalafl.org

Effective Date:

History of Legislative File

Ver-sion:	Acting Body:	Date:	Action:	Sent To:	Due Date:	Return Date:	Result:
1	City Council	04/18/2023	Approved				Pass

Action Text:

Notes: Council Member Mansfield asked if City staff can perform the work to save money. Director of Electric Utility Doug Peebles explained how utilizing a vendor is cost-effective compared to expensing money for additional staff and equipment.

Council Member Mansfield and Mayor Guinn requested staff present an in-house approach to Council.

Council Member Dreyer questioned what the City will do with the additional staff once the aggressive tree trimming is complete.

Vegetation Manager Anthony Santana stated he will provide cost analysis data showing how it's cost effective for the City to utilize a vendor. Currently, the City has a three-person in-house crew. He provided a brief overview of the tree trimming

scope and work miles.

There being no further discussion the motion carried by roll call vote.

Aye: 5 Council President Mansfield, Council Member Bethea Sr, Pro Tem Dreyer, Council Member Musleh, and Council Member Hilty Sr

STAFF RECOMMENDATION (Motion Ready):

Approve a three-year contract with Davey Resource Group, a division of the Davey Tree Expert Co., for tree trimming and power line clearing services with a total estimated cost of $7,624,629

..end

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence.

PROOF OF PUBLICATION:
Bid released to the public 01/30/2023

BACKGROUND:

Ocala Electric Utility (OEU) directs resources to deliver safe and reliable power to the community to meet customers' expectations. One of the leading causes of electric power failures is vegetation interference. OEU has approximately 767 linear miles of overhead powerlines throughout the service area, often conflicting with vegetation. OEU uses specialized utility vegetation management contractors to clear trees away from powerlines.

The annual budget, along with a 3% contingency, enables vegetation trimming along 25% of the overhead powerlines. Tree trimming and clearing also play a significant role in restoring power after weather events that result in tree-related outages. OEU has reduced power outages caused by vegetation by 24% from 2018 to 2022.

FINDINGS AND CONCLUSIONS:
On January 30, 2023, the City issued its Invitation to Bid (ITB) #: ELE/230159 for the clearing, pruning, and herbicide treatment of vegetation along the overhead powerlines. A total of eight (8) firms responded to the solicitation, were evaluated based on price and subject to the City's Local Vendor Preference Ordinance, 2017-35. After submitting a local vendor preference affidavit affirmatively demonstrating that it satisfied the requirements of Ordinance 2017-35 and reducing its bid to 1% below that of lowest bidder, Davey Resource Group, a division of The Davey Tree Expert Co., was found to be the lowest responsive and responsible bidder.

FISCAL IMPACT:
Funds for this contract are budgeted each fiscal year in account #457-032-231-531-53-34070 at an estimated annual budget of $2,541,543.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy and Local Vendor Preference Ordinance 2017-35.

LEGAL REVIEW:
This Agreement has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

File #: 2026-0570 Agenda Item #: 10b.

Submitted By: Brittany Craven

Presentation By: Chad Lynch

Department: Electric Utility

FORMAL TITLE:
Contract extension and expansion for Supervisory Control Data Acquisition Software Services with Survalent Technology Corporation for a total initial cost of $339,541

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
N/A

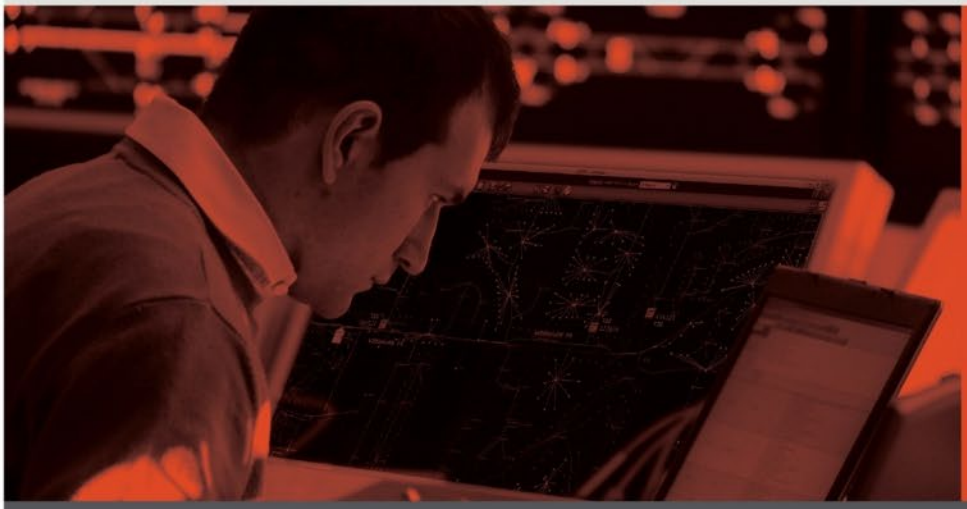
BACKGROUND:
The City of Ocala has utilized Survalent's Supervisory Control and Data Acquisition (SCADA) system since 2013 as the primary platform for monitoring and controlling electric distribution operations. This system is fully integrated into OEU's infrastructure and is essential for real-time visibility, outage management, and operational reliability.

A comprehensive review conducted on December 3, 2025, confirmed that Survalent remains the most practical and least disruptive option for continued SCADA services. The proposed contract includes enhancements such as Geographic Information System (GIS) integration, Distribution Management System (DMS) upgrades, advanced dashboards, and training workshops, while deferring higher-cost components to align with the Utility Network rollout in fiscal year 2027.

FINDINGS AND CONCLUSIONS:
Staff determined that maintaining and expanding the Survalent SCADA platform is the most cost-effective and risk-mitigated approach. Transitioning to a new vendor would require extensive re-engineering, increase cybersecurity exposure, and disrupt critical utility operations. Survalent's proposal supports continuity, phased modernization, and future readiness for automation and outage management integration. The solution includes platinum-level support and implementation workshops, ensuring reliable performance and alignment with OEU's strategic objectives. The phased approach allows for immediate implementation of essential upgrades. Staff recommends approval of this software project.

FISCAL IMPACT:

Funds for the initial upgrade cost of $249,441 and annual maintenance and support totaling $90,100 are available in account number 332-032-203-531-53-52045



PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

"Electric utility people don't use the words 'good' and 'reliable' lightly. We just don't throw around words like that very often. But with Survalent, it's well-deserved."

- Central Georgia EMC

1 List of Deliverables & Prices

Item	Qty	Description	Price (USD)
		SurvalentONE GIS Import Licenses and Services	
1.	1	**SurvalentONE GIS Wizard** The GIS Wizard is used to import the distribution network model and geographic displays into the ADMS. The GIS Wizard checks for the absence of essential electrical information such as phase, KVA and section names and provides an additional level of electrical connectivity check to ensure the data that is imported is complete and correct. It also checks the spatial relationship for your field devices such as transformers and service locations, ensuring the secondary network is accurate. The graphical user interface allows the GIS Specialist to quickly locate database objects with data issues, enabling them to quickly fix them in the GIS. Note: Requires an ESRI ArcGIS for Desktop Basic license (not included). Note: Hardware is not included. This application normally runs on the PDS Server.	
	1	**SurvalentONE GIS Wizard - ESRI GNM Adapter** GIS Wizard adapter that provides an interface to import ESRI GIS data stored in Geometric Network Model (GNM) format. Customer is responsible for providing and configuring the tools to export the connectivity model, distribution transformers, service locations, generators, primary meters, and DMS network model information to a geodatabase (.gdb) file or SQL tables according to Survalent specifications. The interface supports both full import and incremental import.	
	1	**Remote Service of GIS Import & Implementation** 1. **GIS Workshops** - This meeting is designed to clarify the customer's requirements, answer any questions, and review the GIS import requirements that will serve as the basis for the deployment design. It is typically conducted in three sessions, each lasting 2 hours. 2. **Import Service** - a) Conversion of GIS data with the use of GIS Wizard and GIS Import Configuration Editor application and preparation for importing the connectivity model from the ESRI GNM system with 80 feeders; b) Customer guidance and check of the GIS file during the clean-up process (customer's responsibility); c) Import of service territory dwg; d) Preparation of the graphics for the connectivity import: creating SCS color tables, GIS pmacros and GIS Symbols; e) Import of the connectivity model from the GIS database into the SCADA system with the use of Survalent Connectivity Import facility; f) Generating database points for manual switches; g) DB import of transformers and customer service locations; h) Transformers and meters import in SmartVU. **3. GIS Installation & Commissioning, and Training**	

Item	Qty	Description	Price (USD)
		Note 1: Pre-requisites for GIS import - The City is required to provide: a) Error free GIS file (gdb) b) Energy sources: identify the line sections to be used as energy sources c) DWG or DXF of service territory/street map Note 2: Survalent will assist in the file cleanup and data conversion check (lack of information and ambiguous connections) followed by a report on detected errors. The City is obligated to correct the GIS errors before an import can be conducted. The process can take multiple GIS file exchange iterations until completed. Note 3: It is assumed that Network Topology Processing has already been implemented by The City and is functioning properly at all substations.	
		SubTotal of Line Item #1 – GIS Import Implementation:	**$59,062**
		SurvalentONE DMS License/FLISR and Services	
2.	1	**SurvalentONE Base DMS Software [Dual Server]** The base Distribution Management System (DMS) software provides support for a distribution network model. This license is a pre-requisite for the advanced DMS applications such as FLISR, Distribution Power Flow, Distribution State Estimator, Cold Load Pickup, Pre-Switching Validation, Distribution Contingency Analysis and Volt/Var Optimization (VVO).	
	1	**SurvalentONE FLISR/LOV [Level 3]** The FLISR/LOV application helps minimize the downtime caused by outages that trip and lock out breakers in a distribution substation. The FLISR/LOV application works in conjunction with hardware, software, telecommunications and grid engineering to decrease the number of customers affected by a power outage by automatically opening and closing switches to isolate compromised sections of line and to re-energize healthy sections of the system to restore energy. **Note: The license is based on fair use limit of up to 80 feeders.**	
	Lot	**Remote Service of FLISR Implementation for 4 Feeders** 1. **FLISR/LOV Workshops –** This meeting is designed to clarify the customer's requirements, answer any questions, and review the FLISR/LOV requirements with customer. It is typically conducted in two sessions, each lasting 2 hours. 2. **FLISR/LOV Simulation Test –** This test will evaluate the performance and correctness of a Fault Location, Isolation, and Service Restoration (FLISR)/Loss of Voltage (LOV) system under simulated conditions. 3. **FLISR/LOV Configurations** a) Database preparation: ▪ Creation of 3 points for each feeder and up to 6 downline devices involved in FLISR (FLISR mode, FLISR enable and FLISR lockout) ▪ Assigning lockout points to 4 corresponding feeders	

Item	Qty	Description	Price (USD)
		▪ creation of alarm format, command state strings and 3 global FLISR points b) Graphics preparation: ▪ Generating colors color tables, fonts and pmacros. ▪ adding pMacros to the SLDs for FLISR status ▪ adding pMacros to the connectivity for the fault targets at the downline reclosers c) FLISR implementation: ▪ Assigning global FLISR points ▪ Creating default records for DMS tables ▪ Enable FLISR for up to 4 feeders (linking the points to the DMS records) ▪ Add fault targets at the downline devices ▪ Global FLISR settings: selecting the 3 FLISR points ▪ KVA aggregation via STC Explorer (reading KVA from transformers in GIS and assignment to conductors) ▪ Creating summary views for FLISR d) LOV implementation ▪ Populating Settings Catalog ▪ Creation of necessary points ▪ Populating DMS fields for 4 Feeder Main and downline devices 4. **FLISR/LOV Installation & Commissioning for 4 Feeders, and Training** Pre-requisites for FLISR implementation - Listed below is the <u>mandatory</u> data per equipment type that the customer needs to provide for successful implementation of FLISR: a) Feeder main ▪ Rated phase amps (the maximum amount of current that the feeder can supply before triggering its protection). ▪ Recloser status ▪ Voltage, current and power factor (if connected KVA scaled by feeder injection load transfer option is used) b) Telemetered devices (switches, breakers, tie switches) ▪ Current (A) and Voltage (kV) ratings of the device ▪ Status of the fault target indicators for the device used to determine the fault location ▪ Lockout point (pseudo or telemetered) for the devices that can trigger FLISR event. ▪ Lockout timer for the devices that can trigger FLISR event but don't have telemetered lockout point. ▪ Voltage, current (A) and power factor for the devices that can trigger FLISR event and the connected KVA scaled by feeder injection load transfer option is used. c) Conductor ▪ Transformer KVA (the sum of all connected KVA transformer ratings connected to the conductor). For connectivity import, the transformers KVAs are read from the GIS and assigned to the conductor with Survalent KVA aggregation utility. For manually drawn schematics, the KVAs must be manually assigned to each conductor as part of the FLISR implementation service. d) Substation transformer ▪ Nominal voltage of the low and high side of the substation transformer Optional data will be discussed during the project integration. Note: It is assumed that Network Topology Processing has already been implemented by	

Item	Qty	Description	Price (USD)
		The City and is functioning properly at all substations.	
		SubTotal of Line Item #2 – FLISR/LOV Implementation:	**$54,993**
		SurvalentONE ADMS DMS Licenses & Services	
3.	1	**SurvalentONE Distribution Power Flow** The Distribution Power Flow (DPF) application provides a complete and consistent load flow solution for the power system that best fits all available SCADA measurements and estimated load profiles associated with the power system model. The DPF application computes and presents individual phase voltages, currents, and losses on the entire distribution network. This data is based on the estimated load profiles at distribution points (i.e. distribution transformers) as well as bus voltages and other SCADA measurements within the substations and along the feeders. With the DPF license, users have access to Cold Load Pickup (CLP) function, Pre-Switching Validation (PSV) function, and four studies – Switching Study, Load Transfer Study, Short-Circuit Analysis Study and Restoration Study. **Note: Distribution Power Flow (DPF) license is valid for up to 80 feeders.** **SurvalentONE Distribution State Estimator** The Distribution State Estimator (DSE) function extends the functionality of Distribution Power Flow (DPF). The DSE function makes use of SCADA measurements outside the substations, perform consistency checks and eliminates time skews on all measurements, and adds modelling of micro-grids (with use of telemetered data) and distributed generation (e.g. rooftop solar panels) and incorporates these into the DSE calculation, with reverse power flow capability. After the time skews are removed, a consistency check is made at any point where voltage, current, and real and reactive power measurements are all available. Any SCADA measurements that DSE deems to be inconsistent are alarmed and flagged, and not used in the calculation. **SurvalentONE Cold Load Pickup** When a distribution circuit is restored after an extended outage, the demand is usually greater than before the outage. Attempting to restore this load can be problematic, particularly on feeders in urban settings. Some utilities experience cold load pick up factors greater than 2 for extended outages. In response to anticipated cold load pick up, the Operators will increase protection settings on the affected distribution feeder, but occasionally the power transformer protection operates taking out other distribution feeders in the process. The purpose of the Cold Load Pickup (CLP) application is to predict the extent of the cold load to be picked up and identify potential impacts on other substation equipment. When any load is re-energized following an outage, the CLP application calculates the temporary additional power of each load that has optional cold load pickup characteristics defined. **SurvalentONE Pre-Switching Validation** The Pre-Switching Validation (PSV) function evaluates the expected result of a switching action by executing a topology/connectivity analysis and a power flow calculation in a study mode and advises the user of any undesirable consequences of the proposed action.	

Item	Qty	Description	Price (USD)
		The user has the option to either cancel the attempted action or to proceed in spite of the warning message. If the user proceeds with the control operation, the pre-switching validation warning message will be logged in the event summary.	
	Lot	**Remote Service of Distribution Power Flow (DPF) and Distribution State Estimation (DSE) Implementation for 4 Feeders** Services Included: 1. **DPF & DSE Workshops –** This meeting is designed to clarify the customer's requirements, answer any questions, and review the DPF/DSE requirements with customer. It is typically conducted in two sessions, each lasting 2 hours. 2. **DPF/DSE Simulation Test –** This test will evaluate the performance and correctness of a DPF/DSE system under simulated conditions. 3. **Implementation of Power Flow and DSE on 4 feeders and associated cap banks and voltage regulators:** ▪ Preparation of DMS tables ▪ Creation of pseudo points for feeder main (load flow, Volts and Amps security analysis and output points) ▪ Creation of pseudo points for DMS Catalogs ▪ Editing Line Sections to populate the required DMS Editor fields for Feeder Mains, Transformers, Breakers, Capacitors, Regulators ▪ Populating DMS Catalogs (conductor types, compositions, impedances, constructions, load profile, general settings) ▪ Creating views for managing Power Flow ▪ Setting switch pmacros for pre-switch validation ▪ Populating Distribution State Estimator fields for 4 feeder mains and downline devices associated with those feeders. 4. **DPF/DSE Installation & Commissioning for 4 Feeders, and Training** Pre-requisites for PF implementation: Listed below is the mandatory data for DMS catalogs and settings that govern the operation of the DMS program that the customer needs to provide for successful implementation of Power Flow: a) Conductor types ▪ Conductor name, coming from the GIS model (for both OH and UG conductors) ▪ Engineering unit for resistance (for both OH and UG conductors) ▪ Engineering units (US or metric) for length (for both OH and UG conductors) ▪ Type of OH conductor (ANACONDA, ACSR, ALUM, AAC, COOPER, CW, CWC, HDALUM, HDCOPPER, HHHC, STEEL, USER, Z IMP) ▪ Resistance of OH conductors at a standard temperature (usually 25 C) ▪ Resistance of OH conductors at a specific temperature, used for temperature-dependent ampacity modelling. ▪ Ampacity (the nominal current-carrying capacity of the OH conductor) ▪ GMR of the OH and central UG conductor (in feet or centimeters)	

Item	Qty	Description	Price (USD)
		▪ OH and central UG conductor diameter (in inches or millimeters) ▪ Neutral conductor name (for OH conductor) ▪ Resistance of a UG central conductor ▪ Neutral type (for UG conductor) ▪ Outside diameter, including neutral (for UG conductor) ▪ Resistance of the concentric neutral conductor (for UG conductor) ▪ Neutral strand diameter (for UG concentric conductor) ▪ GMR of the concentric neutral conductor (for UG conductor) ▪ Number of strands in the concentric neutral conductor (for UG conductor) ▪ Conductor diameter (including the tape shield) (for UG tape - shield conductor) ▪ Thickness of the tape shield, in millimeters (for UG conductor) b) Construction types ▪ Construction name (coming from the GIS model) ▪ Horizontal (X) and vertical (Y) coordinates of the phase and neutral conductors with respect to the reference point. c) Load profiles It is recommended to have as many load profiles as possible. The load profiles can be effective, only if there are at least 2 different load profiles on a feeder. The load profiles are imported from the GIS database as conductor attributes. It is recommended to have at least 4 load profiles: general (could be used when there is a mix of types on a line section), residential, commercial, and industrial. For better results, additional load profile types are required for each line section (different load profiles per feeder, different types of residential, commercial, or industrial load profiles, etc.) d) Load compositions The load compositions are conductor attributes and define the type of load connected to the conductor. They define the load composition using three components, constant power, constant impedance, and constant current. e) Time curves The time curves offer load adjustments for short – duration outages, up to 120 minutes. A maximum of 12 time curves can be defined in the SCADA database, as conductor attributes, and they are imported from the GIS database as an integer from 1-12. The data for a time – curve consists of scale factors, with a 5 min increment, starting from the time of the outage induration of 120 minutes.	
		SubTotal of Line Item #3 – DPF/DSE Implementation:	**$63,786**
		SurvalentONE Interface Service	
4. a	1	**Remote Service of MultiSpeak AMI setup and configuration** • SmartVU preparation for AMI, setting up MS AMI interface, import task and task schedule. • Installation, Commissioning and Training	
		SubTotal of Line Item #4.a – AMI Interface Service:	**$10,200**

Item	Qty	Description	Price (USD)
4. b	1	**Remote Service of MultiSpeak OA setup and configuration** • MultiSpeak OA setup and configuration for up to 10 points. City of Ocala has already owned MultiSpeak OA Interface license. • Installation, Commissioning and Training	
		SubTotal of Line Item #4.b – MultiSpeak OA Interface Service:	**$5,400**
		SurvalentONE SCADA Live! License & Service	
5.	1	**SurvalentONE Live! SCADA Package** SurvalentONE Live! SCADA Package is a cutting-edge web application that allows users to access SCADA information from any web-enabled device, such as a computer, tablet, or smartphone. Its user-friendly design and full responsiveness ensure seamless access and navigation, whether you're in the control room or on the move. The application features a powerful "Point Browser" tool for effortless data exploration, with pre-built detailed SCADA dashboards for quick insights into points, stations, and communication lines. Plus, the unique "Custom Dashboard" feature allows users to create personalized widgets for analysis, collaboration, and sharing into workspaces. Additionally, it offers a "Query Builder" tool for efficient data export alarms, events, and historical datasets to CSV. Note: Requires product release V25.1 or later. Note: Requires a Microsoft SQL Server license (not included). Note: Requires a Wildcard TLS/SSL certificate that allows you to manage Subject Alternative Names (SANs) along with the key.pem and chain.pem file. Certificate needs to be a Public Certificate (not private or self signed certificate). The application does not support certificates with a password/passphrase (may be supported in future updates). We recommend a RSA encryption (sha256) with a private key of 2048 or higher without password.	
	5	**SurvalentONE Live! Concurrent Users License**	
	Lot	**Remote Service of SCADA Live! Installation, Setup, Configuration and Training** The installation and configuration process entails establishing the Microsoft Windows Containers environment, installing the required application prerequisites, loading the application containers, and adjusting configurations. A final step involves thorough testing to ensure proper functionality of the application and seamless communication with other SurvalentONE components. Remote services for the configuration of one (1) dashboard based on the customer's point database. The process begins with an initial workshop, during this session, examples of dashboards are presented, and collaborative decisions are made regarding the information to be displayed on each of the two dashboards. Subsequently, the dashboards will be configured, incorporating up to 50 widgets on each. The final phase encompasses testing to ensure the dashboard presents the agreed information. "The Live! training is designed to be conducted remotely through a web platform with instructor-led sessions. The comprehensive training program will cover essential aspects, including installation and deployment procedures, applying updates or patches, user and	

Item	Qty	Description	Price (USD)
		group management, and the creation of dashboards. Participants will gain hands-on experience by utilizing their own deployed environment for practical exercises, ensuring a practical and tailored learning experience. Note: City of Ocala is responsible for additional hardware, network connections and configuration.	
		SubTotal of Line Item #5 – SCADA Live! Implementation:	**$33,888**
		SurvalentONE ADMS OTS Licenses & Service	
6.	1	**SurvalentONE OTS Single Server** The Operator Training Simulator (OTS) consists of a second independent copy of the ADMS system operating with simulation programs instead of scan tasks. The OTS system provides facilities that allow the instructor to maintain many different copies of the database to select any of these to use for a training session and to execute multiple simultaneously running event scripts.	
	1	**SurvalentONE Data Forwarding** SCADA Data Forwarding(DF) provides a means for external support systems (PDS, QAS, OTS, etc.) to receive near-real-time SCADA data from the active control system. The data is retrieved from data sources by the active control system and forwarded to the external systems. Data can be forwarded to multiple external systems simultaneously, and includes all telemetered data, manually entered data, tags, limit overrides, etc.	
	1	**Remote Service of OTS & Data Forwarding (DF) Installation, Commissioning and Training** Note: City of Ocala is responsible for OTS hardware platform and network connection. Scripting service is not included;	
		SubTotal of Line Item #6 – SCADA OTS Implementation:	**$22,112**
		TOTAL SYSTEM PRICE (ITEM 1 ~ 6)	**$249,441**
		Annual Support Pans:	
7.	1	**Gold SCADA/DMS Support Plan [1 Year]** The Gold SCADA/DMS Support Plan provides the following: a) Access to the latest software releases of the delivered software components, effectively providing an extended warranty on these software components and providing access to the latest product features. b) Access to the Survalent Support Portal which includes the ability to create and track support cases, and provides access to software downloads, product documentation, knowledge base articles, and support forums. c) 24x7 access to priority, telephone emergency support from the Survalent Support Team. Cases will be treated on a first-come, first serve basis. d) 2 Global User Conference training passes and conference passes per year.	$72,455

Item	Qty	Description	Price (USD)
		e) 25 hours (not more than 8 hours per day) per year of Remote Services. All services will be performed by Survalent staff from Survalent offices. Any hours not used during the support period will expire. **Refer to Note 9 &10.**	
8.	1	**Platinum SCADA/DMS Support Plan [1 Year]** The Platinum SCADA/DMS Support Plan provides the following: a) Access to the latest software releases of the delivered software components, effectively providing an extended warranty on these software components and providing access to the latest product features. b) Access to the Survalent Support Portal which includes the ability to create and track support cases, and provides access to software downloads, product documentation, knowledge base articles, and support forums. c) 24x7 access to priority, telephone emergency support from the Survalent Support Team. Cases will be treated on a first-come, first serve basis. d) 3 Global User Conference training passes and conference passes per year. e) 25 hours (not more than 8 hours per day) per year of Remote Services. All services will be performed by Survalent staff from Survalent offices. Any hours not used during the support period will expire. f) Access to a Survalent System Specialist on-site for 2 days to provide technical assistance with software updates, assess system health and performance, perform system tuning, and any other technical assistance desired. Site visit is once per year, and must be used during the support period. **Refer to Note 9 &10.**	$90,100

"We chose Survalent because of familiarity, ease-of-use and their reputation for excellent customer service. We have not been disappointed."

- Warren Rural Electric Cooperative

2.1 Recommended Hardware Platforms

The following table lists the recommended upgrade hardware components for physical system servers and virtual machines:

Physical Hardware Recommendations	Virtual Hardware Recommendations
Production ADMS Server DELL PowerEdge R660xs Rack Server (or equivalent) 1 x Intel® Xeon® Silver 4310 2.1G, 12C/24T 48GB RAM 2 x 960GB Solid State Drive (RAID-1) Windows Server 2022 Standard Edition (16 Cores)	**Production ADMS Server** 6 Vcores 48GB RAM 960GB Storage Windows Server 2022 Standard Edition
Operator Workstation DELL Precision T5860 Workstation (or equivalent) 1 x Intel Xeon W-2235 3.8GHz 6C/12T 32GB RAM 2 x 512GB Solid State Drive (RAID-1) NVIDIA Quadro P400 (5820T) Windows 11 Professional Edition	
OTS Server DELL PowerEdge R660xs Rack Server (or equivalent) 1 x Intel® Xeon® Silver 4310 2.1G, 12C/24T 32GB 2 x 3.84TB Solid State Drive (RAID-1) Windows Server 2022 Standard Edition (12 Cores)	**TS Server** 6 Vcores 32GB RAM 1920GB Storage Windows Server 2022 Standard Edition
DMZ RDBMS Server DELL PowerEdge R660xs Rack Server (or equivalent) 1 x Intel® Xeon® Silver 4314 2.4G, 16C/32T 96GB RAM 2 x 3.84TB Solid State Drive (RAID-1) Windows Server 2022 Standard Edition (16 Cores) Microsoft SQL Server 2022 Standard Edition (10 CAL)	**DMZ RDBMS Server** 8 Vcores 96GB RAM 3840GB Storage Windows Server 2022 Standard Edition Microsoft SQL Server 2022 Standard Edition (10 CAL)
DMZ SCADA Web Server DELL PowerEdge R660xs Rack Server (or equivalent) 1 x Intel® Xeon® Silver 4310 2.1G, 12C/24T 32GB RAM 2 x 480GB Solid State Drive (RAID-1) Windows Server 2022 Standard Edition (16 Cores)	**DMZ SCADA Web Server** 6 Vcores 32GB RAM 480GB Storage Windows Server 2022 Standard Edition
DMZ SCADA Live! Server DELL PowerEdge R660xs Rack Server (or equivalent) 1 x Intel® Xeon® Silver 4309Y 2.8G, 8C/16T 64GB RAM 2 x 480GB Solid State Drive (RAID-1) Windows Server 2022 Standard Edition (16 Cores)	**DMZ SCADA Live! Server** 4 Vcores 64GB RAM 480GB Solid State Drive (RAID-1) Windows Server 2022 Standard Edition

Note: The size of the QA server should align with the requirements of ADMS Hosts, Replicator/Archiver, and OTS servers etc. that concurrently need to undergo testing as planned by Ocala.

3 Preliminary Project Schedule

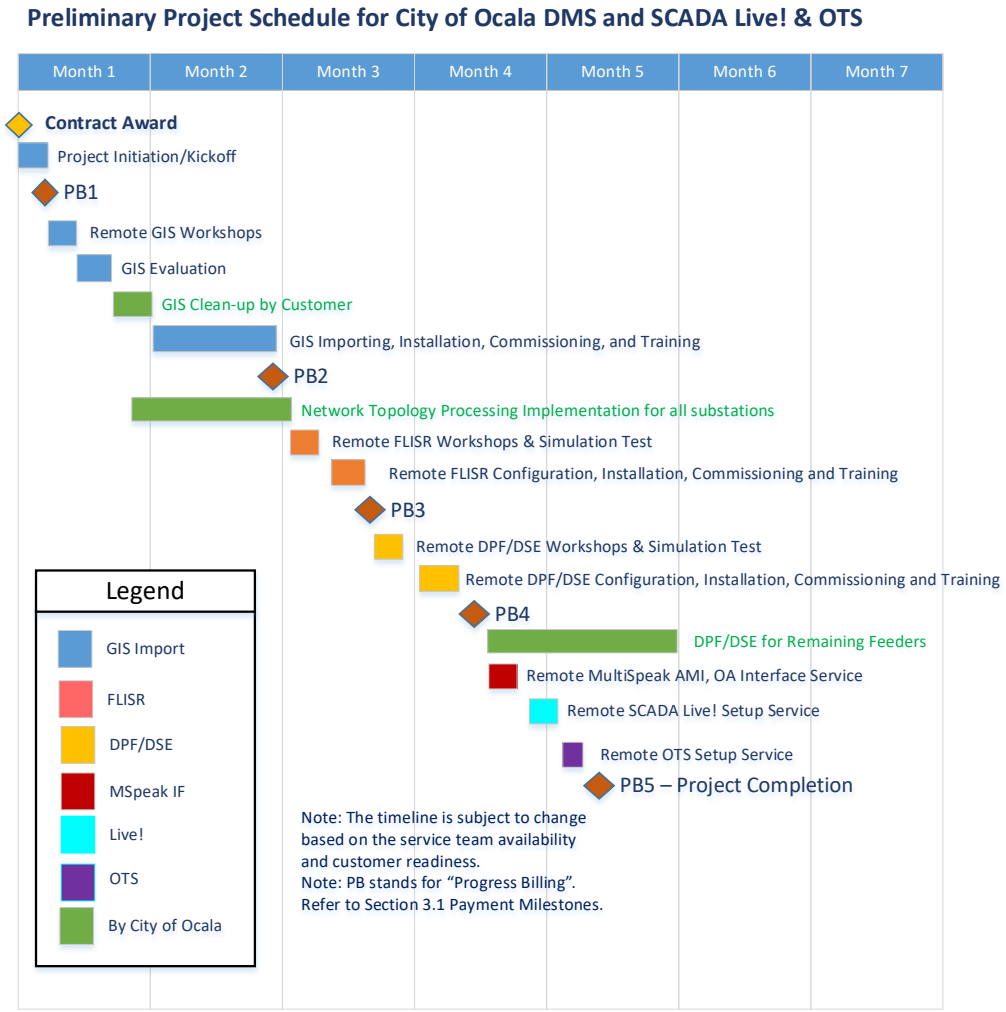

Figure 3-1: Preliminary Project Schedule

[THIS PAGE INTENTIONALLY LEFT BLANK]

4 Commercial Conditions

4.1 Payment Milestone

Milestone	Payment (%)
Completion of Project Kick off - PB1	40%
Completion of GIS import - PB2	30%
Completion of FLISR Implementation - PB3	10%
Completion of DPF/DSE implementation - PB4	10%
Completion of Project Closure - PB5	10%
Total	**100.00%**

Note: City of Ocala 's responsibility for completing tasks such as Network Topology, FLISR, DPF/DSE Implementation etc. work for the remaining substations/Feeders, as well as commissioning activities outside of Survalent's scope, should not impact payment milestones above or delay project closure timeline as outlined in project Schedule in Section 3.

4.2 Proposal Validity

This proposal is valid until March 31, 2026.

4.3 Terms and Conditions

Refer to Appendix A: Survalent Terms and Conditions of Sales, Software License Agreement, and Software Maintenance Agreement.

4.4 Notes

End User: City of Ocala Utility Services

Shipping Terms: EXW Ontario, Canada

Estimated shipment lead time is approximately 6 to 8 weeks from receipt of purchase order for Item 1. Each subsequent item will require additional time as follows:

- Item 2: 2 to 3 weeks
- Item 3: 2 to 3 weeks
- Item 4: 1 to 2 weeks
- Item 5: 2 to 3 weeks
- Item 6: 1 week

Please send purchase order to stcorder@survalent.com

Unless otherwise noted, prices do not include applicable state, provincial, federal, withholding or other local taxes. Applicable taxes will be included in each invoice. Should the purchaser claim an exemption from any applicable state, provincial, federal, withholding or other local taxes, the purchaser shall provide such exemption information to Survalent.

This quote is based on Survalent (a) Standard Terms and Conditions of Sale, (b) Software License Agreement, and (c) Support and Maintenance Terms and Conditions, as applicable.

Note 1: SurvalentONE DMS software licenses are valid for up to 80 feeders and includes 12 months warranty from date of operational use.

Note 2: Software licenses are non-refundable and cannot be exchanged.

Note 3: Survalent reserves the right to issue temporary licenses until payment has been received in full.

Note 4: Survalent reserves the right to periodically audit the end user system configuration to ensure the software has been deployed in accordance with the Survalent Software License Agreement.

Note 5: Please ensure the end user client name is identified on the purchase order; purchase orders may be rejected if this information is missing.

Note 6: Services will be scheduled at a mutually agreeable time. Customer changes to the agreed schedule may result in an additional charge.

Note 7: Services will be scheduled at a mutually agreeable time. Customer changes to the agreed schedule may result in an additional charge.

Note 8: This quote assumes file-based licensing. If dongles are required, an additional cost will apply.

Note 9: These support prices in Item 7 & 8 include support costs for new licenses as well as existing licenses covered by current City of Ocala's gold support plan. The pricing of whichever support plan City of Ocala chooses will apply during the next annual renewal (05/30/2026) if all the licenses included in this quote are purchased.

Note 10: Any software licenses purchased during an active maintenance term will be subject to a prorated maintenance fee covering the period from the date of purchase through the end of the current maintenance term. Thereafter, such licenses shall be included in the support renewal and subject to renewal fees at Survalent's then-current rates.

4.5 Authorization

This quotation is not valid unless signed by an authorized representative of Survalent.

Approved By: _____

Nivedita Pandit, Manager, Proposals

"I have no doubt about Survalent's commitment to our success, and I appreciate your personal interest and commitment to ensure that success."

Appendix A Survalent Terms and Conditions of Sales, Software License Agreement, Software Maintenance Agreement

[THIS PAGE INTENTIONALLY LEFT BLANK]

Survalent.

SURVALENT TECHNOLOGY INC.

STANDARD TERMS AND CONDITIONS OF SALE

A) Acceptance – These standard Terms and Conditions of Sale ("Terms") form a part of and are incorporated into this Agreement ("Agreement") between **SURVALENT TECHNOLOGY INC.** ("Seller") and the Buyer or Licensee ("Buyer") for the sale, lease, license or provision of Seller's tangible and intangible products, software, equipment, services, samples and other matters subject to this Agreement from Seller to Buyer ("Products"), and they supersede any contrary provisions presented by Buyer, unless expressly agreed to in writing by Seller. Should the Buyer's purchase order include changes or additions to specifications which are not included in Seller's quotation or proposal, acceptance and acknowledgment of the order by Seller shall not be deemed a waiver of Seller's right to charge and invoice for such changes or additions. In addition, in the event of Buyer's changes or additions made after receipt of a purchase order, Seller shall charge and invoice for the work as necessary. Buyer's acceptance of and/or payment for Products, in whole or in part, shall constitute an acceptance of these Terms.

B) Prices – Unless stated differently in the Quote/Proposal, all prices for Products are ExWorks (Seller's point of shipment). Prices quoted are subject to change at any time and without notice. Prices do not include any Federal, Provincial, or Municipal taxes, including, but not limited to, excise, sales, goods and services, tariffs, use taxes, duties, or other fees imposed on any Product or in connection with this Agreement ("Taxes"). All such Taxes shall be added to the Buyer's billing where applicable. If Seller delays shipment beyond the scheduled shipping date for any reason other than the Seller's fault, or if this Agreement includes Products obtained by the Seller from third parties, the Products shall be subject to any price increases in effect at the time of shipment. Prices quoted may be adjusted for inflation annually, effective on each January 1st of the calendar year ("Inflation Adjustment").

C) Payments – All invoices are due and payable thirty (30) days from the date of invoice. Seller may charge pro rata interest at the maximum rate permitted by law. No discount for early payment is authorized without Seller's written consent. Seller reserves the right at any time to (i) change terms of payment, (ii) withdraw credit or require full or partial payment in advance, should doubt arise as to the financial responsibilities of the Buyer. All holdbacks are limited to 10% of the purchase order value and up to ninety (90) days after delivery of the Products to the carrier. Holdbacks required for periods longer than 90 days carry an interest charge of 1.5% per month (18% per annum). Holdbacks do not apply to amounts invoiced for taxes, freight, spare parts, documentation and commissioning.

D) Security Interest – The title, ownership, and right of property of the applicable Products sold hereunder shall remain with Seller until all payments, including deferred payments, shall have been paid in full, and the Buyer shall do all that is necessary to maintain such right and title for the Seller. The Buyer shall assume all risk of loss or damage incurred once the applicable Products have been delivered.

E) Delivery – Unless stated differently in the Quote/Proposal, delivery shall be ExWorks (Seller's point of shipment), with the risk of loss passing to the Buyer once the Products are made available for pickup at the Seller's point of shipment. The Seller, at its discretion, may make and invoice partial shipments. Shipping dates are best estimates based on the Seller's production schedule at the time of quotation, but are subject to change depending on adjustments to the production schedule after the Buyer's purchase order is received, as well as the prompt receipt of all necessary information and specifications related to the Products. Upon receiving the Products, the Buyer is required to inspect them and either accept or reject them within thirty (30) days. If the Buyer does not notify the Seller in writing of any rejection, including the reasons for it, within this period, the Products will be considered accepted, and the Buyer waives any right to later reject the Products. The Seller reserves the right to make changes or improvements to the Products at any time, without liability or obligation to make such changes or improvements to Products already delivered.

Survalent.

F) Force Majeure – Seller shall not be responsible for any failure or delay in the performance of any obligation hereunder if such failure or delay is due to a cause beyond Seller's control including, without limitation, acts of God, wars, riots, strikes, fires, storms, floods, embargoes, shortages of labor or materials, labor disputes and governmental acts, legislation and directives. In the event of any such failure or delay, the period of Seller's performance shall be extended, without liability for penalty, for the period of such failure or delay.

G) Intellectual Property & Confidential Information –

(a) Intellectual Property - Seller shall own all right, title and interest in and to all intellectual property, including without limitation all inventions, patents, patent applications, source code, firmware, copyrights, and trade secrets incorporated in any Products.

(b) Confidential Information - "Confidential Information" shall mean any trade secret or other competitively sensitive information or data (whether oral, written, electronic or otherwise) relating to Seller or its respective businesses or operations which is or was disclosed by Seller to Buyer in the course of developing, negotiating or performing this Agreement. With regard to (i) Confidential Information that does not constitute a trade secret under applicable law, during the term hereof and for five (5) years following the termination or expiration hereof; and (ii) Confidential Information that constitutes a trade secret under applicable law, for so long as such Confidential Information remains a "trade secret" under applicable laws Buyer shall not disclose any Confidential Information to any other third party, or use the Confidential Information for its own benefit, except for the purposes approved by Seller in writing. Buyer shall not decompose or reverse engineer all or any portion of the Confidential Information or analyze it for such purposes. Buyer shall use its best efforts to avoid unauthorized disclosure of the Confidential Information. All Confidential Information provided by Seller to Buyer shall be and remain the property of Seller, and any Confidential Information, and any copies thereof, shall be promptly returned to Seller upon written request, or destroyed at Seller's option.

H) Compliance with Laws – Except to the extent otherwise specifically agreed to in writing by the parties, Buyer shall be responsible for the receiving, installation, use and maintenance of all Products, and Seller shall have no obligation or responsibility of any kind with respect thereto. Buyer shall comply with all laws and regulations governing the purchase or license, installation or use of Products, including, without limitation, obtaining all licenses, permits and registrations and fulfilling all other requirements of governmental agencies.

I) Cancellation Or Delivery Deferment – Buyer’s purchase order may be canceled or delivery deferred only with Seller’s written consent with conditions for payment of cancellation charges which may include, without limitation: Seller's direct costs; sales, general and administrative overhead; reasonable contract profits and any other costs and expenses to which Seller has or will become obligated pursuant to this Agreement.

J) Patent, Trademark and Copyright Infringement – Seller shall indemnify and hold Buyer harmless from any damages awarded in a final non-appealable judgment against Buyer in any suit or proceeding to the extent such damages are based on a claim of direct infringement by any Products of a Canadian patent, trademark or copyright, provided that Buyer notifies Seller promptly in writing and gives Seller full authority, information and assistance for the defense or settlement of such claim. In the event the use of any Products are enjoined or restricted as a result of any such claim, at Seller's option and expense, it may: (1) procure for Buyer the right to continue using the Products; (2) replace the Products with non-infringing Products of comparable quality; (3) modify the Products so they become non-infringing; or (4) remove the Products and refund the purchase price of such Products. Seller shall have no liability for claims of infringement by any Products, if any Products are used for any purposes other than those specified by Seller. These provisions shall not apply to any Products manufactured by any party other than Seller or to any use thereof with any such Products or to any Products manufactured to Buyer's design or specifications, and Buyer agrees to indemnify Seller for any damages based on claims of patent, trademark and/or copyright infringement by any such Products. For software licenses, additional terms and conditions may apply for the grant of use, restriction, and copyright provided in the Seller’s Software Product License Agreement.

K) Limited Warranty – Seller warrants that the Products furnished hereunder will, at the time of shipment, be free from defects of material and workmanship under normal use and service and will conform to Seller's applicable standard written specifications or, if appropriate, to the specifications accepted in writing by Seller, for the period specified in the contract. If no warranty period is specified in the contract, the warranty period shall be 60 days. Seller's obligation shall be limited to, at Seller's option and expense, replacing or repairing any Products within such warranty period, provided: (1) Seller receives written notice of any nonconformance or defect within thirty (30) days from the date such nonconformance or defect is first discovered; and (2) after Seller's written authorization, the Products are returned to Seller's factory of origin with all freight charges prepaid; and (3) Seller determines the Products have a nonconformance or defect covered under this warranty. Any such repair or replacement shall not extend the warranty period provided hereunder. Where this Agreement governs the sale, lease, license or provision of software, equipment, and services as Products from Seller to Buyer, Buyer's use of such Products is made expressly subject to the Seller's applicable terms and conditions of sale and/or license agreement for such Products, which are incorporated into these Terms for all purposes and a copy of which Buyer acknowledges as having received, and they shall supersede any contrary provisions herein. No rights, warranties or title to such Products are given to Buyer except as expressly set forth herein. All advice and recommendations of Seller are intended for use by persons having skill, at their own risk, and Seller, not controlling or supervising the installation or use of Products after sale, does not warrant or guarantee such advice or recommendations. Seller assumes no responsibility, and Buyer waives all claims against Seller, for results obtained or damages incurred from the use of Seller's advice and recommendations. The warranties set forth herein may be asserted by Buyer only and shall not apply to any products manufactured by parties other than Seller or to any Products which, in the opinion of Seller, are damaged by or subjected to, without limitation, improper handling, storage, installation, use or maintenance; abnormal or undisclosed environmental conditions; tampering; unauthorized repairs or modifications; accidental or intentional damage or acts of God. THE WARRANTIES SET FORTH HEREIN ARE IN LIEU OF AND EXCLUDE ALL OTHER WARRANTIES, GUARANTEES OR REPRESENTATIONS, WHETHER EXPRESSED, IMPLIED OR STATUTORY, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. SELLER NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PARTY TO ASSUME FOR SELLER ANY OTHER OBLIGATIONS OR LIABILITIES IN CONNECTION WITH THIS AGREEMENT.

L) Limitation of Liability – Seller's total aggregate liability on any claims for loss or liability arising out of or related to this Agreement (including, without limitation, loss or liability arising from negligence, warranty, contract, strict liability or operation of law) shall in no case exceed the purchase price paid for the affected Products. IN NO EVENT SHALL SELLER BE LIABLE FOR OR OBLIGATED IN ANY MANNER TO PAY SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING, WITHOUT LIMITATION, LOSS OF PROFITS OR PRODUCTION, INSTALLATION/DEINSTALLATION COSTS, PLANT DOWNTIME, LOSS OF USE OF PRODUCTIVE FACILITIES OR EQUIPMENT, RECORDS OR DATA, PROPERTY DAMAGE, PERSONAL INJURIES, OR GOVERNMENTAL FINES OR PENALTIES, WHETHER SUFFERED BY BUYER OR ANY THIRD PARTY.

M) Indemnification – Buyer shall indemnify, defend and hold harmless Seller, its affiliates and their respective directors, officers, members, employees, agents, contractors, successors and assigns from and against all losses, damages, expenses, claims, demands, suits, judgments, penalties, and costs of any kind whatsoever, including legal fees and expenses arising out of this Agreement or Buyer's use, acts or omissions in connection with any Products.

N) Assignment – Any assignment or attempted assignment of this Agreement, in whole or in part, without the prior written consent of Seller shall be void. Seller may assign any of its rights, liabilities and obligations arising out of this Agreement without prior written notice to Buyer and without Buyer's written consent.

O) Publicity – Unless otherwise instructed by the Buyer, required by law or regulation, Seller reserves the right to publish or make public the Buyer's name and information of the Seller's scope of work as related to this Agreement in presentations, conferences, press release, and other media.

P) Governing Law and Forum – This Agreement is made under and shall be governed in all respects by the Laws of the State of New York and the Laws of the United States of America applicable therein. Buyer hereby agrees to the exclusive jurisdiction of the courts of New York for the purposes of resolving any dispute arising under or in connection with this Agreement and irrevocably waives, to the fullest

extent permitted by law, any objection which Buyer may now or hereafter have to any such proceedings.

Q) Entire Agreement – The headings in this Agreement are inserted for convenience only and shall not be used in the interpretation hereof. Any rule or principle of contractual construction that would otherwise require any aspect of this Agreement to be interpreted against the party primarily responsible for its drafting shall not be employed in the interpretation hereof. This Agreement may only be amended by a written document signed by Seller. No waiver of any provision of this Agreement, or of a breach hereof, shall be effective unless it is in writing and signed by Seller. No waiver of a breach of this Agreement (whether express or implied) shall constitute a waiver of a subsequent breach. All provisions of this Agreement are severable, and the unenforceability or invalidity of any of them, in whole or in part, shall not affect the validity or enforceability of the remaining provisions of this Agreement. This Agreement constitutes the entire understanding between the parties and supersedes all previous understandings, agreements, communications and representations, whether written or oral, concerning the Products.

R) English Language – The parties hereto agree that this Agreement and any related documents or notices be drafted and executed in the English language.

Software License Agreement

IMPORTANT - YOU SHOULD READ THIS AGREEMENT CAREFULLY BEFORE USING THIS SOFTWARE. BY (i) PROCEEDING WITH AN ORDER FOR SOFTWARE, AND/OR INSTALLATION OR UPGRADE OF THE SOFTWARE, AFTER RECEIVING A COPY OF THIS DOCUMENT; OR (ii) CLICKING *"I Accept the Terms of the License Agreement*," DURING INSTALLATION OF THE SOFTWARE, YOU ACKNOWLEDGE THAT YOU HAVE READ AND UNDERSTAND THIS AGREEMENT AND AGREE TO ABIDE BY ITS TERMS AND CONDITIONS.

This is a software license agreement ('License Agreement') between you ('you' or 'Licensee') and Survalent Technology Inc. ('Survalent') for use of the software provided by Survalent ('Software'). This is not an agreement for sale of the Software. This is a license agreement only. Please read the terms and conditions of this License Agreement before using the Software. By verifying and/or using the Software, you are agreeing to be legally bound by this License Agreement and the terms and conditions set out below.

This agreement incorporates by reference Survalent's **Sales Terms and Conditions** and **Support and Maintenance Terms and Conditions** (if applicable).

LICENSE: In consideration of the Licensee's payment of the relevant fees to Survalent, Survalent grants the Licensee a limited, non-exclusive, non-transferable license to use the Software, program copies, documentation, and related materials (collectively, the 'Licensed Material') developed by Survalent solely in accordance with the terms and conditions set out in this License Agreement. It does not give the Licensee the right to own the Licensed Material.

You acknowledge and agree that as between the parties, Survalent retains the title to its Licensed Material, and all intellectual or industrial property rights therein, including any updates, new releases, modifications or enhancements, whether or not made or authorised by Survalent. All rights not expressly granted to the Licensee are reserved and retained by Survalent.

BUNDLED SOFTWARE LICENSE INFORMATION: The Licensee might also receive Software produced by other companies as part of a 'bundle' of Software ('Bundled Software'). This Software might have been included in the Survalent product to enhance features and capabilities. Bundled Software is provided under license from the original manufacturer. In the absence of a discrete license from the manufacturer to the customer, the Licensee is permitted to use the Bundled Software under the same terms as this license from Survalent. The Licensee agrees to be legally bound by the provisions of this license for use of any and all Bundled Software included with the Software that does not have its own license included in its packaging. Under the provisions of this Survalent license agreement, 'Bundled Software' is included in the terms 'Licensed Material' and 'Software'.

USE LIMITATIONS:
This Software is designed to be used on a computer system and/or network. You may only:

a) Use the Software in the format specified in your purchase documents;
b) Access the version of the Software provided by Survalent under this License Agreement on one (1) network.

You must not:

a) Copy, resell, distribute or transfer all or any part of the Software or Licensed Material;
b) Provide access to the Software or Licensed Material to any person other than your personnel who reasonably require access to the Software and Licensed Material;
c) Attempt to disassemble, decompile or otherwise reverse engineer or reverse compile the Software;
d) Alter, customize, modify or create derivative works of the Software or Licensed Material; or
e) Remove, obliterate or alter any proprietary notice on the Software or Licensed Material.

You may make one (1) copy of the Software solely for system back-up, emergency start-up, disaster

recovery and security purposes. Such copy must be externally labelled as Licensed Material, and must contain all proprietary notices.

UNAUTHORIZED USE: The Licensee shall notify Survalent immediately if the Licensee becomes aware of any unauthorized use of the whole or part of the Software by any person.

SERVICES: This License Agreement applies to any services provided by Survalent in connection with the Software, including deployment, installation, configuration or other services, and to any updates, new releases, modifications or enhancements to the Software provided by Survalent.

SOFTWARE UPDATES AND UPGRADES: Vendor may make software updates or upgrades available for download from time to time. Access to such updates or upgrades is provided only during an active support period. During the applicable warranty period, updates will be made available solely as necessary to correct covered software defects. Outside of an active support period, software updates or upgrades are not made available.

This clause addresses only the availability of software releases and does not create any obligation to provide ongoing maintenance, support, or professional services.

EFFECTIVE DATE AND TERMINATION: The license is effective on the date the Licensee acquires the Licensed Material, and will remain in force until terminated in accordance with its terms. Upon termination, all Licensed Material is to be destroyed or returned postage prepaid to Survalent.

Survalent may terminate this License Agreement immediately on written notice on the happening of one of the following events:

a) Your unremediable breach or threatened unremediable breach of any of your obligations under this License Agreement;
b) Your unremedied breach or threatened breach of any of your obligations under this License Agreement after having been given thirty (30) days written notice to remedy such breach;
c) The occurrence of any of the following events with regard to your affairs: (i) any step is taken to enter into any scheme of arrangement with creditors,(ii) any step is taken to appoint a receiver or manager, a liquidator, an administrator or other like person, (iii) the suspension of debts generally, or (iv) you are deemed insolvent;
d) Your merger or takeover by another party.

Upon termination of this License Agreement for any reason, you must immediately cease using the Software and Licensed Materials and destroy or return to Survalent all copies of the Software and Licensed Materials in your possession or control.

RESPONSIBILITIES: Survalent guarantees that its Software, when correctly used, substantially comply with the technical specifications given in the documentation. The Licensee has nonetheless been notified and specifically agrees that with the present state of technology, it is impossible to guarantee that the Software is completely error-free, and that Survalent cannot guarantee that its Software will operate without interruption or is compatible with all equipment or configurations. The Licensee is therefore responsible for taking all appropriate steps to reduce, insofar as possible, the consequences of any incident or operating interruption, in particular by notifying Survalent of any problem in a timely fashion. The Licensee is also responsible for the use of the Software, and the qualification and competence of its personnel.

LICENSEE AGREES TO BACKUP REGULARLY ALL FILES GENERATED BY THE LICENSED MATERIAL, TO ELIMINATE CATASTROPHIC LOSS OF DATA. Survalent shall not be responsible for any costs, loss or damage associated with loss of data, recreating data, substitute equipment or programs, claims by third parties or similar costs.

By using the Software the Licensee agrees to accept all risk associated with its use and agrees to indemnify Survalent against all and any recourse by any third party. Survalent and/or its associates, employees and agents will not be held responsible for any loss, whether direct, indirect or consequential, real or imagined, past, present or future, resulting from the use of the Software by the Licensee or by any person or entity related to the Licensee including their customers.

In no case shall the liability of Survalent exceed the amount of the purchase price of the Software. To the fullest extent permitted by law, Survalent's excludes:

a) Any term, condition or warranty that may otherwise be implied by custom, law or statute;
b) Any liability for loss caused by the negligence of Survalent; and
c) Any liability for any loss or damage suffered by a party or any other person that is indirect or consequential, including but not limited to loss of revenue, loss of income, loss of business, loss of profits, loss of goodwill or credit, loss of business reputation, loss of use, loss of time, loss of interest, damage to credit rating or loss or denial of opportunity.

Some countries and states do not allow the exclusion of implied warranties, terms or conditions, so the above exclusions may not apply to you. In that case the following statements apply to the fullest extent permitted by law:

If Survalent is liable for a breach of a term, condition or warranty described above, its liability is, to the fullest extent permitted by law, limited to any one or more of the following as Survalent determines in its absolute discretion:

a) In relation to goods:
    (i) replacing or repairing the goods;
    (ii) supplying an equivalent item of the goods;
    (iii) paying the cost of replacing or repairing the goods; or
    (iv) paying the cost of acquiring or hiring equivalent goods; and
b) In relation to services:
    (i) the re-supply of the services; or
    (ii) the payment of the cost of having the services re-supplied.

PRIVACY & CONFIDENTIALITY OPT IN/OPT OUT: The Licensee acknowledges that Survalent may collect and store information relating to the Licensee's Software database, graphics and configuration preferences. Survalent uses the information it collects for providing customer support services, upgrading Software, Software revisions and to improve Software quality and delivery, and staff training. Survalent warrants that only authorised personnel will have access to this information

Survalent supports the Licensee's right to privacy and confidentiality. The Licensee may provide written notice to Survalent opting out of any information collection by Survalent. Upon receipt of such written notice, Survalent will remove the Licensee's information from the database within ten (10) business days.

ADVERTISING: Unless the Licensee specifically objects in writing, Survalent has the right to give the Licensee's name in its list of references of the Software and to publish this list.

GOVERNING LAW AND SEVERABILITY: The license shall be governed and construed in accordance with the laws of the United States of America and the State of New York. Furthermore it is understood that this agreement shall be treated as though it were executed in New York and the parties agree that any action relating to this agreement shall be instituted and prosecuted in the courts of the competent jurisdiction of the State of New York. If for any reason, a court of competent jurisdiction finds any provision or portion of this agreement unlawful, void, or for any reason unenforceable, it shall be deleted and shall in no way affect the enforceability of any other provisions of this agreement.

By (i) proceeding with an order for Software and/or installation or upgrade of the software, after receiving a copy of this document, or (ii) clicking "*I Accept the Terms of the License Agreement*," during installation of the Software, you acknowledge that you have read and understand this License Agreement and agree to abide by its terms and conditions. You also agree that except as expressly stated this License Agreement is the complete and exclusive agreement between us concerning the Software and supersedes all prior agreements, proposals or communications, verbal or written between us relating to the subject matter in this License Agreement. This License Agreement may be amended only in writing signed by both parties.

Survalent.

SURVALENT TECHNOLOGY INC.
SUPPORT AND MAINTENANCE TERMS AND CONDITIONS

These Support and Maintenance Terms and Conditions, including the Service Level Agreement ("SLA"), set out the basis on which Survalent Technology Inc. ("Survalent") shall provide support and maintenance services to the Client.

1 Definitions: The following terms have the meanings set forth below whenever they are used:

"Agreement"	The Support and Maintenance Terms and Conditions
"Contract"	A contract for the supply by Survalent and purchase by Client of Support and Maintenance in accordance with this Agreement which shall become effective upon Survalent's acceptance of an Order in accordance with Clause 2.1. The Contract shall be comprised of the Order Acknowledgement, this Agreement and the Order plus any other documents specifically referenced and incorporated therein.
"Documentation"	The applicable end user manuals, training material and other information made available by Survalent to Client at its discretion in either printed or machine-readable form with respect to the Software.
"Hardware"	The equipment used by the Client to operate the Software.
"Hardware Specification"	The minimum technical specification and configuration that must be met by the Hardware in order to ensure the correct operation of the Software, as set out in the Documentation.
"Hot fix"	A software patch on a part of the Software containing a quick-fix remedy to an urgent Issue, and does not undergo the same quality procedures as a regular Update due to the time constraints involved.
"Issue"	The failure of the Software to comply with a reasonable interpretation of its Documentation.
"License"	The license under which the Client may use the Software granted under terms and conditions as applied at the time of such license grant.
"License Fee"	The fee paid by Client to Survalent in respect of its License to use the Software.
"Maintenance"	The provision of Software Hot fix, Updates and Upgrades in accordance with the SLA
"Order"	Client's purchase order for Support and Maintenance, which references the applicable Quote and is subject to this Agreement.
"Order Acknowledgement"	Survalent's written (including email) acknowledgement of Client's Order.
"Quote"	A written quotation for the provision of Support and Maintenance, as confirmed in the Order Acknowledgement, and which specifies: i) the name of the Software to be supported; and ii) the Support and Maintenance Fee
"SLA"	The service level agreement set out in Schedule A hereto.

"Software"	The software licensed by Survalent to Client under the License and supported under the Contract, as set out in the Order Acknowledgement, and including all Hot fixes, Updates and Upgrades supplied to Client under the Contract.
"Support"	Those activities relating to the collection and evaluation of data relating to Issues, establishing the work-arounds and the provision of software fixes to resolve such Issues in accordance with the SLA.
"Support and Maintenance Fee"	The fee payable by Client to Survalent in respect of the provision of Support and Maintenance for the Software, as set out in the Quote, or as calculated in accordance with Clause 3.2 and Clause 3.5.
"Third Party Software"	Software that is developed and supplied by parties other than Survalent, and in conjunction with which the Software will operate, as set out in the Documentation.
"Update"	A release of the Software containing fixes to one or more Issues, and potentially some minor enhancements to the Software functionality.
"Upgrade"	A release of the Software providing significant enhancements to the Software functionality.
"Working Day"	A day from Monday to Friday excluding Canada's statutory and bank holidays.

2 Contract:

2.1 Upon receipt of a Quote, Client may accept the Quote by submitting an Order referencing the Quote. Survalent shall check the Order to ensure that it is consistent with the Quote and this Agreement and shall issue an Order Acknowledgement. Survalent's issue of an Order Acknowledgement shall create a binding Contract for the supply and purchase of Support and Maintenance, as set out in the Order Acknowledgement.

2.2 Any terms and conditions in addition to, or at variance with, this Agreement contained within Client's Order shall be void and of no effect unless Survalent incorporates them expressly in the Special Conditions.

2.3 The Special Conditions (if any) shall take precedence over the provisions of this Agreement, which they expressly amend or remove. Subject to the foregoing, in the event of any conflict, this Agreement shall take precedence over any Order Acknowledgement.

2.4 The order of precedence of the documents making up the Contract shall be as follows (highest first): a) the Special Conditions; b) this Agreement; c) the remainder of the Order Acknowledgement relating to Support and Maintenance (other than the Special Conditions); and d) the Order.

2.5 In the event that Client does not wish to proceed with an Order subject to this Agreement, it may cancel the corresponding Contract without liability, provided it notifies Survalent of such in writing (to include by email) within three (3) working days of receipt of the corresponding Order Acknowledgement. After this period, any Contract may only be terminated in accordance with the provisions of Clause 9.2.

2.6 Survalent may increase the annual Support and Maintenance Fee with at least thirty (30) days prior written notice to Client. Such increases shall apply to subsequent additional Support and Maintenance services purchased during an ongoing Support period as well as subsequent renewal of the Support and Maintenance Contract.

3 Support and Maintenance:

3.1 Subject to the terms and conditions of the Contract, and for the duration set out in the Order Acknowledgement, Survalent shall provide Support and Maintenance in respect of the Software.

3.2 The Support period Effective Date either begins (i) at the date the Software was purchased or (ii) at the date the Software license was activated or (iii) at the renewal date of the expiration of the previous Support period or (iv) at the renewal date of a multi-year Support Contract. Support must be purchased within one (1) month after expiration of the previous Support period. In the event the Support had expired beyond the one (1) month period, an additional out of compliance fee will be determined and charged to Client to bring Support level current to start the new Support period.

3.3 Survalent shall not be obliged to provide Support and Maintenance if undisputed payment of the Support and Maintenance Fee by Client is overdue.

3.4 In consideration for the payment of the Support and Maintenance Fee, Survalent shall:

a) Respond to Issues in accordance with the provisions of the SLA;

b) Supply Support and Maintenance only to Client's designated personnel;

c) Promptly notify and make available to Client all new Updates of the Software (and associated Documentation) for use by Client only in accordance with the terms of the License Agreement;

d) Respond to reasonable queries from Client.

3.5 In the event that Client chooses to remain on an Upgrade release of the Software that is not current or not the immediately preceding Software version, Survalent may, at its discretion and subject to written agreement with Client, continue to provide Support and Maintenance on such older Software in consideration of an increased Support and Maintenance Fee to be determined.

3.6 Survalent shall advise Client through the support portal of all new Upgrades of the Software, and shall, at Client's request and upon payment of the corresponding fee (if any), make such Upgrades (and associated Documentation) available for use by Client.

3.7 In order to permit delivery of Hotfixes, Updates and Upgrades, the Client should have access to the internet. Survalent accepts no liability for any loss or damage or delays in access to Updates and Upgrades arising from Client's failure to obtain such access.

3.8 Upon request, Client shall ensure that Survalent's support personnel are provided with the appropriate approvals, access information and remote electronic access to the Software, or physical access to the computer equipment on which the Software is installed if in Survalent's reasonable opinion such physical access is necessary, for the purpose of investigating or rectifying reported Issues. In the event of Client providing such access but without the appropriate approvals, or in the event of Client not providing such access, Client shall not seek any action or remedy from Survalent in association with any loss or damage to Client arising from such unauthorized access or lack of access.

3.9 Survalent shall not be obliged to continue to provide Support in respect of the relevant Issue if Client cannot provide or obtain such approvals, information and access set out in Clause 3.8 above.

3.10 Survalent may supply Support and Maintenance itself or by its appointed agents. Survalent will remain fully responsible for the delivery of the Support and Maintenance to Client.

3.11 The provision of Support is limited to (i) the current version and (ii) the immediately preceding version of the Software. It is the Client's responsibility to review Survalent's customer support portal to determine whether the Client's current Software version qualifies for Support. Furthermore, Client can get proactive notification of Updates and Upgrades by subscribing to Survalent's support portal notification service.

3.12 Survalent shall be under no obligation to provide Support in respect of:

a) Issues resulting from any modifications or customization of the Software not made by Survalent.

b) Incorrect or unauthorized use of Software or operator error where such use or operation is not in

accordance with the Documentation;

c) Recreation or re-entry of data lost for any reason whatsoever;

d) Performance of the generalized duties of a network administrator;

e) Any programs used in conjunction with the Software;

f) Faults in the Hardware;

g) Faults in the Third-Party Software; and

h) Use of the Software with computer hardware, operating systems or other supporting software other than the Hardware and the Third-Party Software.

3.13 Survalent shall notify Client in writing as soon as Survalent is aware that any Issue is not covered by Clause 3.4 and/or if such Issue is covered by Clause 3.12 and any time spent by Survalent investigating such Issues at Client's request after such notification will be chargeable at Survalent's labor and material rates at the time of the request. Survalent shall invoice such charges at Survalent's discretion and such shall be paid within 30 days from the date of said invoice.

4 Client's Cooperation and Obligations:

4.1 Client shall provide cooperation and support to Survalent in Survalent's efforts to deliver the Support and Maintenance service. Such cooperation and support shall include, but not be limited to:

a) A reasonable level of responsiveness to Survalent's requirements and communications;

b) The timely transmittal and release to Survalent of appropriate and accurate documentation, information and materials in respect of reported Issues;

c) Granting to Survalent remote access to the Hardware on which the Software is installed if required for the provision of effective Support;

d) Make available competent Client's personnel to assist Survalent when and to the extent as is reasonably requested by Survalent;

e) The use of the Software only in accordance with the relevant Documentation and any License Agreement.

4.2 Client shall:

a) Ensure that the Software is managed in a proper manner and that all persons with administrative authority over the Software shall be competent trained employees or shall be persons under their supervision;

b) Use the latest Update or Upgrade of the Software made available to it by Survalent; and

c) Copy and use the Software, Updates, Documentation and all other materials provided hereunder only in accordance with the terms of the Licence Agreement;

d) Keep adequate backup copies of data, databases, and application programs and agrees that Client is solely responsible for any and all restoration and reconstruction of lost or altered files, data and programs.

4.3 Client agrees that if Client does not perform Client's obligations under the Contract and such non-performance affects Survalent's ability to perform, Survalent shall not be considered in default under the Contract to the extent so affected.

5 Personnel:

5.1 In the event that Survalent visits Client's premises, Client shall advise Survalent's staff, agents or subcontractors of all rules, regulations and practices with which they should comply while on those premises. Survalent's staff, agents and subcontractors shall comply with such rules and regulations

whenever they are on Client's premises. Client shall take reasonable precautions to ensure the health and safety of Survalent's staff, agents and sub-contractors while they are on Client's premises.

5.2 Without in any way restricting the right of an employee freely to accept employment and change employment, if either party (the "Hiring Party") induces the other party's employee engaged in the delivery of Support or Maintenance or the development or integration of the Client Software to enter its service at any time during the term of the Contract or during a period of six months thereafter then the Hiring Party shall pay to the other party an amount being equivalent to fifty percent (50%) of the employee's net annual salary such sum being a genuine pre-estimate of the cost of the disruption that such inducement would cause to the efficient conduct of the affected party's business.

6 Fees & Payment:

6.1 Survalent may invoice the Support and Maintenance Fee at least sixty (60) days before the Effective Date.

6.2 Payment from Client must be received by Survalent prior to the beginning of a renewal period to maintain continuous Support and Maintenance service.

6.3 Client shall be liable for any other agreed upon fees, any national, federal, value added, sales, excise, tariff, state, local or other taxes or customs duties applicable. For the avoidance of doubt, should Client be required by any law or regulation to make any deduction on account of tax including but not limited to Withholding Tax or otherwise on any sum payable under the Contract the sum payable shall be increased by the amount of such tax to ensure that Survalent receives a sum equal to the amount to be paid under the Contract.

6.4 Survalent may charge Client pro rata interest at the maximum rate permitted by law on any undisputed sum outstanding payable to Survalent. Client shall notify Survalent in writing within ten (10) days of receipt of an invoice that the invoice is in dispute.

6.5 In the event that Client purchases additional Software, including but not limited to the purchase of new Upgrades in accordance with Clause 3.6, the Support and Maintenance Fee may be adjusted to account for the additional Software support.

7 Warranty:

7.1 Subject to the limitations upon its liability in Clause 8, Survalent warrants to Client that all services supplied under the Contract will be carried out with reasonable skill and care by personnel whose qualifications and experience will be appropriate for the tasks to which they are allocated.

7.2 Save as expressly provided in Clause 7.1 of this Agreement, Survalent specifically excludes, and without limitation, all other conditions, warranties, representations or other terms relating to the Contract including any warranties that might otherwise be implied or incorporated into the Contract, such as those of satisfactory quality, fitness for a particular or any purpose, or ability to achieve any particular result.

7.3 In the event that Client believes the warranty in Clause 7.1 has not been met on any occasion, Client shall promptly notify Survalent according to the escalation process set out in the SLA, providing all details that may be necessary for Survalent to remedy the breach, and Survalent shall use all its reasonable endeavours to remedy such breach (either by itself or through a third party).

8 Limitation of Liability:

8.1 Survalent's total maximum aggregate liability on any claims for loss or liability arising out of or related to the Contract (including, without limitation, (i) loss of, damage to or corruption of data, (ii) loss of use, (iii) loss or liability arising from negligence, warranty, contract, strict liability or operation of law) shall in no case exceed the Support and Maintenance Fee paid by Client during the twelve (12) month period immediately prior to Client's claim in respect of the Support and Maintenance that is the subject of such claim.

8.2 Survalent hereby excludes all liability that Survalent has not expressly accepted in the Contract. These limitations will apply regardless of the form of action, whether under statute, in contract, tort, including negligence, or any other form of action. For the purposes of this Clause 8, “Survalent” includes Survalent’s employees, sub-contractors, licensors and suppliers who shall therefore have the benefit of the limits and exclusions of liability set out in this Clause.

8.3 No action, regardless of form, arising out of transactions occurring under or contemplated under the Contract may be brought by either party more than one (1) years after the cause of action has accrued.

8.4 Client shall have no remedy in respect of any representation (whether written or oral) made upon which Client relied in entering into the Contract (“Misrepresentation) and Survalent shall have no liability to Client other than pursuant to the express terms of the Contract.

8.5 IN NO EVENT SHALL SURVALENT BE LIABLE FOR OR OBLIGATED IN ANY MANNER TO PAY SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING, WITHOUT LIMITATION, LOSS OF PROFITS OR PRODUCTION, INSTALLATION/DEINSTALLATION COSTS, PLANT DOWNTIME, LOSS OF USE OF PRODUCTIVE FACILITIES OR EQUIPMENT, RECORDS OR DATA, PROPERTY DAMAGE, PERSONAL INJURIES, OR GOVERNMENTAL FINES OR PENALTIES, WHETHER SUFFERED BY CLIENT OR ANY THIRD PARTY.

9 Duration & Termination.

9.1 Each Contract shall become effective on the Effective Date and shall continue for a period of twelve (12) months, unless and until terminated in accordance with the provisions of Clauses 2.5 or 9.2.

9.2 Either party (“the Initiating Party”) may forthwith terminate the Contract at any time:

a) On giving written notice to the other party if the other party commits any material breach of any term of the Contract and in the case of a breach which is reasonably capable of remedy fails to remedy that breach to the reasonable satisfaction of the Initiating Party within thirty (30) days of a written request to remedy the same; or

b) On giving written notice to the other party if the other party has filed for bankruptcy. As used in this section 9.2 b), the term "bankruptcy" shall mean (i) apply for or consent to the appointment of, or the taking of possession by a receiver, custodian, trustee or liquidator of itself or of all or substantially all of its assets, (ii) commence a voluntary case under applicable bankruptcy laws (as now or hereafter in effect), (iii) be adjudicated as bankrupt or insolvent, (iv) file a petition seeking to take advantage of any other law providing for relief of debtors, or (v) acquiesce to, or fail to have dismissed within sixty (60) days, any petition filed against it in any involuntary case under such bankruptcy laws.

9.3 The expiry of the Contract or the termination thereof for whatever reasons shall be without prejudice to any other rights or remedies a party may be entitled to under law and shall not affect the respective rights and liabilities of either of the parties accrued prior to such termination.

10 Intellectual Property:

Survalent is the owner or licensee of the patent, copyright, trade secrets, trademarks and any other intellectual property rights which exists in the Hotfixes, Updates and Upgrades. Title to the Hotfixes, Updates and Upgrades shall remain vested in Survalent. For the avoidance of doubt title and all intellectual property rights to any design, new software, new protocol, new interface, enhancement, update, derivative works, revised screen text or any other items that Survalent creates shall remain vested in Survalent. Any rights not expressly granted herein are reserved to Survalent.

Survalent.

11 Confidentiality:

11.1 Confidential Information shall be defined as any information (whether disclosed in oral, written or electronic form) belonging or relating to Survalent's or Client's business affairs or activities and which: (i) has been marked as confidential or proprietary, (ii) has been identified orally or in writing as being of a confidential nature, or (iii) may reasonably be supposed to be confidential in the circumstances.

11.2 Each party undertakes that for a period of five years from the date of disclosure it will not, without the prior written consent of the other party, use, disclose, copy or modify the other party's Confidential Information (or permit others to do so) other than is necessary for the performance of its rights and obligations under the Contract. Each party hereby agrees that it shall treat the other's Confidential Information with the same degree of care as it employs with regard to its own Confidential Information of a like nature and in any event in accordance with best current commercial security practices, disclosing such Confidential Information only to those of its employees, consultants and bona fide professional advisers who need to have such information for the purposes of the Contract, and ensuring that such employees, consultants and professional advisers shall be bound by the same confidentiality obligations as are set out in this clause.

11.3 The provisions of Clause 11.2 shall not apply to: a) any information in the public domain otherwise than by breach of the Contract; b) information lawfully in the possession of the receiving party thereof before disclosure by the disclosing party; c) information lawfully obtained without restriction from a third party; and d) information required to be disclosed by a court of competent jurisdiction, governmental body or applicable regulatory authority provided that the party under such duty to disclose shall use all reasonable endeavours to give the other party as much prior notice of such disclosure as is reasonably practicable and permitted by law.

11.4 Each party may publicize its involvement with the other party.

11.5 If the Contract is terminated, each party shall, at the other party's option, return or destroy all Confidential Information of the other party.

12 Assignment:

Either party may assign the Contract or otherwise transfer any rights or obligations under the Contract with the other party's prior written consent, such consent not to be unreasonably withheld.

13 Force Majeure:

Neither party is responsible for failure to fulfil its obligations hereunder due to causes beyond its reasonable control that directly or indirectly delay or prevent its timely performance hereunder. Dates or times by which each party is required to render performance under the Contract shall be postponed automatically to the extent that the party is delayed or prevented from meeting them by such causes.

14 Notices:

All notices made pursuant to any Contract must be made in writing. Any written notice to be given or made pursuant to the provisions of any Contract shall be sent postage prepaid by registered, or recorded mail, or reputable courier service, or by email, addressed to the other party's address or information stated above. Unless otherwise provided in the Contract, all notices shall be deemed as given on the day of their receipt by the receiving party.

15 Entire Agreement:

The Contract constitutes the entire agreement between the parties with respect to the subject matter hereof and shall supersede all previous representations, agreements and other communications between the parties, both oral and written. The Contract shall prevail notwithstanding any variance with the terms and conditions of any order or purchase order submitted by Client.

Survalent.

16 Survival:

The following clauses shall continue to be in effect after the termination or expiration of the Contract: 1, 5.2, 6, 7, 8, 9.3, 10, 11, and 14 - 18 inclusive.

17 General:

If any provision of the Contract is adjudged by a court of competent jurisdiction to be invalid, void, or unenforceable, the parties agree that the remaining provisions of the Contract shall not be affected thereby, and that the remainder of the Contract shall remain valid and enforceable. No waiver by either party of any term hereof shall constitute a waiver of any such term in any other case whether prior or subsequent thereto. No single or partial exercise of any power or right by either party shall preclude any other or further exercise thereof or the exercise of any such power or right under the Contract. The Contract may not be changed, modified, amended, released or discharged except by a subsequent written agreement or amendment executed by duly authorised representatives of Survalent and Client.

Survalent.

Schedule A

Service Level Agreement

A) Issue Reporting.

Clients must report Issues to Survalent in the following ways:

E-mail	support@survalent.com
Customer Online Support Portal	www.survalent.com (Click on Support) • Login username & password will be provided to Client by the Effective Date
Phone	US/Canada: +1 (855) 402-2600 Colombia: +57 (04) 609-1224 Peru: +51 (01) 730-6751 International: +1 (905) 285-2247

All Issues will be logged as support cases and can be tracked by Client via the online support portal. The response and resolution times set out below shall only apply to Issues logged via Survalent's support e-mail, online customer support portal, or by phone numbers noted above. **If any other methods of communication, not listed above, is used to communicate information relating to a support Issue, response and resolution times may be compromised.**

B) Support Time / Hours.

Survalent will provide telephone support for reporting, correcting and resolving issues within the timeframes set forth herein. Survalent will maintain records of all reported Issues made by Client personnel.

Telephone support will be available to Client during business hours from Monday to Friday, between 08:00 hrs and 18:00 hrs (ET). Support will be available during non-business hours (NBH), including holidays, for Clients with NBH Support service option in their Contract.

Survalent observes **Canadian and Ontario** statutory and banking holidays. The list of Survalent's holidays:

Family Day (3rd Monday of February)	Thanksgiving Day (Third Monday in October)
Good Friday (Friday before Easter)	Christmas Eve (December 24)
Victoria Day (Monday before May 25)	Christmas Day (December 25)
Canada Day (July 1)	Boxing Day (December 26)
Civic Holiday (First Monday in August)	New Year's Eve (December 31)
Labour Day (First Monday in September)	New Year's Day (January 1)

Survalent.

C) Issue Categories / Response Time.

Issues will be categorised as set out below by Survalent in Survalent's reasonable opinion at the time each Issue is reported:

Priority	Description	Response Time Business / Non-Business Hours
Urgent	Classified as a serious issue that affects System functionality, performance, or stability that results in the loss or failure of the System or a significant component, and so impacts the overall operation of the System, and therefore must be addressed immediately.	• Bronze – 6 hours / 12 hours • Silver – 4 hours / 6 hours • Gold – 2 hours / 4 hours • Platinum – 1 hour / 2 hours • Titanium – 1 hour / 2 hours
High	Classified as an important issue that affects System functionality, performance, or stability but does not impact the overall operation of the System, but nevertheless must be addressed quickly	• Bronze – 12 hours / 24 hours • Silver – 8 hours / 16 hours • Gold – 4 hours / 8 hours • Platinum – 2 hours / 4 hours • Titanium – 2 hours / 4 hours
Medium	Classified as a minor issue which affects a component of the System, but which does not affect the operations, performance, or stability of the System, and so can be addressed over a longer time period	• Bronze – 24 hours / 48 hours • Silver – 12 hours / 24 hours • Gold – 8 hours / 16 hours • Platinum – 4 hours / 8 hours • Titanium – 4 hours / 8 hours
Low	Classified as an information request/documentation issue, which does not affect System software/hardware functionality, and so can be addressed over a longer time period.	• Bronze – 48 hours / 96 hours • Silver – 24 hours / 48 hours • Gold – 12 hours / 24 hours • Platinum – 8 hours / 16 hours • Titanium – 8 hours / 16 hours

Severity	Description	Resolution Target
Critical	Classified as a serious issue that affects System functionality, safety, performance, or stability that seriously compromises the operation of the System.	Survalent will use best efforts to resolve the Issue during and after business hours to provide a resolution or workaround. If the resolution requires a software fix, the fix will be provided in a subsequent Hot Fix, Update, or Upgrade.
Major	Classified as an important issue that affects System functionality, safety, performance, or stability but does not impact the overall operation of the System.	Survalent will use best efforts to resolve the Issue during business hours to provide a resolution or workaround. If the resolution requires a software fix, the fix will be provided in a subsequent Hot Fix, Update, or Upgrade.
Minor	Classified as a minor issue that does not affect System functionality, performance, or stability, such as cosmetic issues that are considered important that do not affect operation of the System.	Survalent will provide initial response during normal business hours. Survalent will suggest a workaround if appropriate. If the resolution requires a software fix, the fix will be provided in a subsequent Hot Fix, Update, or Upgrade.

Survalent.

Note: Response time may rollover to next business day hours depending on time of received request. Survalent shall use its reasonable efforts to respond and resolve Issues during the timeframes noted. The current status of the Issue can be viewed via Survalent customer online support portal.

Survalent shall use its reasonable efforts to respond and resolve Issues during the timeframes noted. The current status of the Issue can be viewed via Survalent customer online support portal.

D) Escalation.

In the event that the Client has concerns regarding the Survalent's progress with a particular issue or with any other matter regarding the delivery of Support and Maintenance, the Client may raise such concerns with Survalent according to the following escalation path:

a.	Manager Customer Support – Jesus Rafael De La Fuente Acosta	jacosta@survalent.com	(905) 285-9491
b.	VP Customer Success – Gustavo Maragno	gmaragno@survalent.com	(905) 285-2258

E) Upgrades, Updates and Hot fix process

Where an Upgrade, Update or Hot fix is used to remedy an Issue, it is the responsibility of the Client to ensure that this release resolves the Issue and that the Client is satisfied to continue with this release until a future Update, Upgrade or Hot fix is available. If the Client finds that the Upgrade, Update or Hot fix does not resolve the Issue to an acceptable level then the Client is free to revert back to their previous version of the software and shall notify Survalent of such. Survalent shall then create a new Issue, which shall be resolved in accordance to the Clause C above.

Control your critical network operations with confidence

With Survalent, you can control your critical network operations with confidence. We're the most trusted provider of advanced distribution management systems (ADMS) for electric, water/wastewater, gas, and transit utilities across the globe.

Over 500 utilities in 30 countries rely on the SurvalentONE platform to effectively operate, monitor, analyze, restore, and optimize operations. By supporting critical utility operations with a fully integrated solution, our customers have significantly improved operational efficiencies, customer satisfaction and network reliability.

Our unwavering commitment to excellence and to our customers has been the key to our success for over 50 years.

"Thanks again for all the work, explanation, advice and assistance. The expertise and advice on our configuration is much appreciated.
Your willingness to anticipate our needs and help us avoid traps we wouldn't otherwise be aware of is invaluable to us"

- Hydro One Brampton

Subject: Your policy exception has been approved.
Date: Monday, January 12, 2026 9:54:49 AM

Your policy exception has been **approved**.

Approval Comments: drobinson@ocalafl.org
After speaking with Christopher Ramos, Director of Information Technology, this exception seeks upgrades to the City's existing supervisory control and data aquisition (SCADA) software solution with Survalent Technology Corporation. The City has utilized the Survalent SCADA system since 2013. The City has an ongoing need for this solution, the outlined enhancements, additional modules and maintenance and support package. It is in the City's best interest to utilize Survalent's solution to supply these services to maintain performance, consistency, and compatibility. PLEASE CREATE A MUNIS CONTRACT SO THAT EXPENDITURES CAN BE EFFECTIVELY TRACKED. PLEASE ENSURE THAT THIS EXCEPTION REQUEST IS ATTACHED TO THE MUNIS CONTRACT. BECAUSE THIS ACQUISITION WILL EXCEED $50,000, PLEASE SCHEDULE FOR A COUNCIL AGENDA.

Procurement/Contract/P-Card Exception

Select exception type: Procurement

Reason for procurement exception: Policy Exception for Best Value/Approach

Ocala Electric Utility (OEU) respectfully requests to authorize the extension and expansion of Supervisory Control and Data Acquisition (SCADA) software services with Survalent Technology Corp., as outlined in the attached proposal. This request is supported by documented operational necessity, prior competitive solicitation efforts, detailed technical evaluation, and the strategic importance of maintaining continuity with OEU's existing SCADA platform.

OEU currently operates Survalent's SCADA system as the core platform for real-time monitoring and control of its electric distribution infrastructure. The system was originally procured through a competitive RFP process and is supported through annual maintenance, support and licensing agreements. It is fully integrated into OEU's operational, network, and control environments and serves as a mission-critical system for daily utility operations.

Over the past year, OEU has conducted two separate competitive solicitations for SCADA services, including comprehensive evaluations and vendor presentations. During the initial RFP process, Survalent Technology Corp. was ranked highest based on technical compatibility, system maturity, and ability to meet OEU's operational and future grid modernization needs. Despite these good-faith efforts, the solicitation results were ultimately rejected, and no award has been made to date.

Following these solicitations, OEU conducted a detailed internal review of Survalent's updated proposal during a cross-departmental meeting on December 3, 2025, involving OEU and IT staff. This review further validated Survalent's solution as the most practical and least disruptive path forward.

Justification for Procurement Exception:

1. Continuity, Integration, and Risk Mitigation

Enter a brief description of your exception request:	Survalent's SCADA system is already fully integrated into OEU's infrastructure, including existing dual-server architecture, historian functionality (via the current replicator and archiver), and a DMZ-based SCADA web server. Transitioning to a new vendor would require extensive system redesign, data conversion, retraining, and parallel operations, introducing unnecessary operational risk to a critical utility function. 2. Demonstrated Competitive and Technical Due Diligence In addition to two formal solicitation efforts, OEU performed a detailed technical review of Survalent's proposal, including GIS integration, Distribution Management System (DMS) functionality, training, outage analysis, metering integration, and web-based dashboards. The review confirmed that OEU's existing data structure is largely compatible with Survalent's requirements and aligns with the City's ongoing Utility Network (UN) preparation efforts. 3. Phased and Cost-Conscious Implementation Strategy The proposed extension allows OEU to proceed with enhancements that are immediately beneficial—such as GIS integration, DMS upgrades, web-based dashboards, training, and simulation tools—while deferring higher-cost or UN-dependent components (e.g., OMS and advanced ADMS/FLSR functionality) to a future phase. This approach avoids duplicative work, reduces unnecessary expense, and aligns implementation timing with the anticipated Utility Network rollout in FY27. 4. Operational Efficiency and Future Readiness The DMS component represents an upgrade to the existing SCADA system and is a prerequisite for future grid automation and self-healing capabilities. Proceeding with DMS now positions OEU to support future substations, advanced automation, and OMS integration without requiring a full system replacement. 5. Proven Support Model and Knowledge Transfer Survalent's support and implementation model mirrors the City's current arrangement, which has proven effective. The proposal includes workshops for each implementation item, ongoing platinum-level support, and a shared implementation approach in which Survalent implements the initial substation and supports City staff through configuration and rollout of subsequent substations. Training investments made to date further strengthen the value of continuity with the existing platform. 6. IT and Network Alignment IT staff have reviewed hosting and network considerations, including SCADA network versus City network placement, DMZ requirements, and server dependencies. Survalent has committed to providing a network diagram, server placement recommendations, and a high-level implementation timeline to support proper planning and documentation. Based on the factors outlined above, OEU respectfully requests approval to proceed with an extension of SCADA software services with Survalent Technology Corp. under the existing SCADA framework. The attached proposal reflects a carefully reviewed, phased, and operationally sound approach that ensures uninterrupted service, protects prior investments, and supports the City's long-term grid modernization strategy. PRO-070, ARTICLE I. EXEMPTIONS FROM COMPETITIVE PROCUREMENT REQUIREMENTS A.10 "Annual licenses, maintenance and support services, and upgrades to existing information technology software, hardware, or firmware, where the initial purchase was competitively sourced and continued use has been approved by the Director of Information Technology."
Attach all documents related to the exception that can assist the Contracting Officer's decision.	STC_City_of_Ocala_Utility_Services_A25_5_610684_Rev2_OneLive_&_DMS_Quote.pdf

Presentation By: Christopher Ramos

Department: Information Technology

FORMAL TITLE:
Five-year renewal with Davenport Group for server virtualization software, VMware, maintenance and support in an estimated expenditure of $171,648

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
In 2021, Ocala Electric Utility (OEU) completed a capital improvement project to replace server hypervisors and network switches with the Dell VxRail system for the Electric SCADA network. The implemented hardware utilizes virtualization technology software.

Virtualization is a technology that allows multiple virtual machines to run on a single physical computer, enabling more efficient use of resources by partitioning the hardware. This means that different operating systems and applications can operate independently on the same machine, improving flexibility and reducing costs.

Due to this network's mission-critical nature, newer and more redundant architecture was established to increase the system's availability, resiliency, security, and reliability. The systems were provisioned with an initial three-year hardware and software warranty.

FINDINGS AND CONCLUSIONS:
The previous contract with VMware is coming to an end, and a continuing software maintenance agreement must be renewed for the City to continue utilizing the existing virtualization software and hardware. These systems are mission-critical to the City's ability to provide safe and reliable power to citizens. Broadcom acquired VMware from Dell in 2024 and previous licensing models for software maintenance are no longer renewable. Broadcom now requires, upon renewal of licensing, that all customers change to their new platform with a 5-year subscription.

As a political subdivision of the state of Florida, the City of Ocala qualifies as an eligible user of cooperative purchasing agreements like the General Service Administration's (GSA) Multiple Award Schedule (MAS). GSA contracts are negotiated by the federal government with the intent of securing "most favored customer" pricing plus a discount offered to GSA and other authorized purchasers. The underlying agreement (GSA Contract No. 47QSWA18D008DF for IT Hardware and IT Outsourcing) is valid through August 21, 2028, and Davenport Group, an authorized dealer of Carahsoft products, was evaluated and determined by Information Technology Department stsff to be cost-effective and to afford the City best value.

FISCAL IMPACT:
Funds for this purchase are budgeted/encumbered in account 457-032-277-531-53-52050 and will be charged to Munis Contract #260393. The previous 1-year contract was approved on 2/18/2025 at the amount of $40,354.26.

Year 1: $57,216.00
Year 2: 26,608.00
Year 3: 26,608.00
Year 4: 26,608.00
Year 5: 26,608.00

All subsequent years will utilize the same account and Munis contract for tracking.

Staff recommends approval of this agreement.

PROCUREMENT REVIEW:
These goods and services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
N/A. The City's standard and approved Purchase Order Terms will be utilized for this purchase.

192	VMware Cloud Foundation - Per Core Subscription Subscription Term: 12 Months Subscription Dates: 2/26/2026 - 2/25/2027	$298.00	$57,216.00
		Sub-Total	**$57,216.00**

VMware Subscription - Years Two - Five

Qty	Description	Unit Price	Ex. Price
96	VMware Cloud Foundation - Per Core Subscription Subscription Term: 48 Months Subscription Dates: 2/26/2027 - 2/25/2031 **$28,608.00 Paid Yearly**	$298.00	$114,432.00
		Sub-Total	**$114,432.00**

Total **$171,648.00**

Payment Terms:

Payment for products, software, subscriptions, and maintenance is Net 30 from the invoice date unless otherwise agreed upon. Davenport Group Care Services are considered maintenance for the purpose of these terms.

Davenport Group Professional Services are invoiced separately upon completion. The billing will be from the invoice date.

Recurring contracts will be reconciled based on actual usage, with invoice adjustments made to match the preceding terms' usage. Metered products billed periodically require payment upon receipt of the invoice.

Block Hours require payment in advance upon receipt of the invoice.

Payment Methods:

We accept ACH, bank-to-bank transfer, and credit card payments. A 4% processing fee applies to credit card transactions.

Pricing:

Pricing is valid through the expiration date stated in the quote, after which it is subject to change. Supplier provisions that alter pricing may affect subscription renewals.

Products listed may be subject to tariffs imposed by governmental authorities. Tariff charges are not included in the quoted prices and will be added to the invoice. Applicable taxes and shipping will also be included.

This proposal is subject to credit approval. Davenport Group reserves the right to cancel orders arising from pricing or other errors.

Cancellations, Late Fees & Non-Payment

Cancellation: Non-term and out-of-contract software contracts require 30 days' written notice for cancellation.

Late Fees: A 1.5% monthly fee will be assessed on past due amounts.

Non-Payment: Davenport Group reserves the right to cancel orders if payment is not received in accordance with these terms.

Returns & Inspections

Return Policy: Returns are not accepted unless the manufacturer confirms a product as defective. In such cases, Davenport Group will engage the manufacturer under its terms to replace or rectify the defective product.

Inspection: Customer must inspect all shipments upon receipt and notify Davenport Group within three (3) business days of any discrepancies or damaged items. Davenport Group cannot take corrective action after this period.

*Quotes and pricing terms are negotiated between Customer and Davenport Group and may be unique to the Customer. All data and information provided by Davenport Group is confidential and proprietary and may not be reproduced, published, or distributed beyond the Customer organization without the express prior written consent of Davenport Group. By proceeding with the purchase, Customer acknowledges and agrees to these terms.

Thank you for your business!

Davenport Group Partner Services Subscription Agreement

This Partner Services Agreement (the "Subscription Agreement") is entered into between City of Ocala, hereinafter referred to as "Client", and Davenport Group Inc., hereinafter referred to as "Authorized Partner".

1. Managed Services:

The Client hereby subscribes to the Managed Services described in Table 1.1 below.

Table 1.1 **60-Month Term Commitment**

Subscription Term (Months)	Description	Billing Cycle	# of Payments	Payment Amount	Total Subscription Amount
12	VMware Cloud Foundation - Per Core Subscription Subscription Dates: 2/26/2026 - 2/25/2027	Initial Payment	1	$57,216.00	**$57,216.00**
48	VMware Cloud Foundation - Per Core Subscription Subscription Dates: 2/26/2027 - 2/25/2031	Yearly	4	$28,608.00	**$114,432.00**

2. Payment Terms:

Table 1.1 outlines the subscription term, products, billing cycle, number of payments, and total subscription amount. Perpetual licenses require upfront payment in full. Subscription services are invoiced according to the terms listed below:

Payment Terms: Net 30

Estimated Subscription Start Date: February 26, 2026.

Billing Cycle: Yearly

3. **Renewal Terms:**

This subscription agreement does not contain an automatic renewal provision. Davenport Group will provide Client with written notification sixty (60) days prior to the expiration, including any pricing changes for the renewed term.

4. **Microsoft Specific Terms:**

Notwithstanding Section 3, Microsoft subscriptions are subject to the following specific terms:

4.1 Auto-Renewal:
Microsoft subscriptions shall automatically renew unless Client provides at least thirty (30) days' written notice prior to the expiration, either through the Davenport Group MyCloud Portal or by written notice to Davenport Group.

4.2 License Quantities:
Client may increase license quantities anytime (billed pro-rata immediately); decreases take effect at the next renewal date only.

4.3 Pricing Changes:
Microsoft establishes subscription pricing and may adjust pricing upon renewal without prior notification.

5. **Early Termination:**

In the event of early termination by the Client, the Client shall be responsible for the guaranteed term of engagement listed in Table 1.1 and the balance of fees shall be due immediately.

6. **Acknowledgment of Third-Party Vendor Terms and Conditions:**

Client acknowledges that use of the services or licenses is contingent upon acceptance and compliance with the third-party vendor's EULAs (End-User License Agreements) located at https://davenportgroup.com/eula. Davenport Group shall not be liable for Client's breach of vendor terms.

7. **Authorized Partner Responsibilities:**

Davenport Group is an authorized reseller partner acting on its own behalf, not as an agent or fiduciary of the Vendor(s). Davenport Group shall coordinate with the Vendor to ensure Client receives the Services listed in Table 1.1, but is not responsible for any Vendor's failure to provide or support the Services in accordance with the applicable Vendor terms.

8. Acceptance and Authorization:

IN WITNESS WHEREOF, the parties, through their duly authorized representatives, have executed this Subscription Agreement effective as of the date of the last signature below.

Special Item No. 518210C: Cloud and Cloud-Related IT Professional Services

Includes commercially available cloud computing services such as Infrastructure as a Service (Iaa S), Platform as a Service (Paa S), and Software as a Service (Saa S) and emerging cloud services. IT professional services that are focused on providing the types of services that support the Government 's adoption of, migration to or governance/management of Cloud computing. Specific labor categories and/or fixed price solutions (e.g. migration services, etc.) that support activities associated with assessing Cloud solutions, refactoring workloads for Cloud solutions, migrating legacy or other systems to Cloud solutions, providing management/governance of Cloud solutions, DevOps, developing cloud native applications or other Cloud oriented activities.

NOTE: Subject to Cooperative Purchasing

FSC/PSC Class D305 IT AND TELECOM- TELEPROCESSING, TIMESHARE, AND CLOUD COMPUTING Cloud Computing Services

Table 1: Cloud Computing Services (i.e. IaaS, etc.)

SIN Description	Sub-Categories
• Commercially available cloud computing services • Meets the National Institute for Standards and Technology (NIST) definition of Cloud Computing essential characteristics. • Open to all deployment models (private, public, community or hybrid), vendors specify deployment models	**1. Software as a Service (SaaS):** Consumer uses provider's applications on cloud infrastructure. Does not manage/control platform or infrastructure. Limited application level configuration may be available. **2. Platform as a Service (PaaS):** Consumer deploys applications onto cloud platform service using provider-supplied tools. Has control over deployed applications and some limited platform configuration but does not manage the platform or infrastructure. **3. Infrastructure as a Service (IaaS):** Consumer provisions computing resources. Has control over OS, storage, platform, deployed applications and some limited infrastructure configuration, but does not manage the infrastructure.

NOTE: Offerors may optionally select the single sub-category that best fits each cloud service offering, per Service Model Guidance, or select no sub-category if the offering does not fit an existing NIST service model.

DESCRIPTION OF CLOUD COMPUTING SERVICES (i.e. IaaS, etc.) AND PRICING

a) The information provided below is designed to assist Offerors in qualifying cloud computing services and provide complete descriptions.

b) In addition to standard pricing requirements, all pricing models must have the core capability to meet the NIST Essential Cloud Characteristics, particularly with respect to on-demand self-service, while allowing alternate variations at the task order level at agency discretion, pursuant to the guidance on NIST Essential Characteristics.

Table 2 summarizes the additional Offeror provided description requirements for services proposed under the Cloud
Computing Services (i.e Iaa S, etc.). All mandatory description requirements must be complete, and adequate according to evaluation criteria.

In addition, there is one "Optional" reporting descriptions which exists to provide convenient service selection by relevant criteria. Where provided, optional description requirements must be complete and adequate according to evaluation criteria:

1) The NIST Service Model provides sub-categories for the Cloud SIN and is strongly encouraged, but not required. The Service Model based sub-categories provide this SIN with a structure to assist ordering activities in locating and comparing services of interest. Contractors may optionally select the single service model most closely corresponding to the specific service offering.

2) If a sub-category is selected it will be evaluated with respect to the NIST Service Model definitions and guidelines in "Guidance for Contractors".

Table 2: Cloud Service Description Requirements

#	Description Requirement	Reporting Type	Instructions
1	Provide a brief written description of how the proposed cloud computing services (i.e. Iaa S, etc.) satisfies each individual essential NIST Characteristic	Mandatory	The cloud service must be capable of satisfying each of the five NIST essential Characteristics as outlined in NIST Special Publication 800-145. See 'GUIDANCE FOR CONTRACTORS: NIST Essential Characteristics' below in this document for detailed overall direction, as well as guidance on inheriting essential characteristics. The NIST "Measured Service" characteristic requires a minimal "pay as you go" unit of measurement appropriate for the service. In the case of SaaS, the appropriate maximum measured increment of service shall be no more than 30 days per user, or some other equivalent discrete measurement that provides the government with the advantage of frequent (approximately every 30 days) "pay as you go" metering cycles. SaaS products, where consumption is only measured on an annual basis, may better fit under "Term Software License" SIN 132-32. Likewise, offers of any combinations of IaaS, Paa S or any other cloud product services in a bundle or other fashion that do not meet the frequency requirements of approximately 30 - day measurement and billing cycles, will not be accepted as complying with the NIST Measured Service characteristic.
2	Select NIST deployment models for the cloud computing service proposed.	Mandatory	Contractors must select at least one NIST deployment model as outlined in NIST Special Publication 800 - 145 describing how the proposed cloud computing service is deployed. Select multiple deployment models if the service is offered in more than one deployment model. See 'GUIDANCE FOR CONTRACTORS: NIST Deployment Model' below in this document for detailed direction on how to best categorize a service for the NIST deployment models.
3	Optionally select the most appropriate NIST service model that will be the designated sub- category, or may select no sub-category.	Optional	Contractor may select a single NIST Service model to sub-categorize the service as outlined in NIST Special Publication 800-145. Sub- category selection is optional but recommended. See 'GUIDANCE FOR CONTRACTORS: NIST Service Model' below in this document for detailed direction on how to best categorize a service for the NIST Iaa S, Paa S, and Saa S service models.

2) GUIDANCE FOR OFFERORS

This section offers guidance for interpreting the Contractor Description Requirements in Table 2 (above) including the NIST essential cloud characteristics, service models and deployment models. This section is not a list of requirements.

Offeror specific definitions of cloud computing characteristics and models or significant variances from the NIST essential characteristics or models are discouraged and will not be considered in the scope of this SIN or accepted in response to evaluation factors. The only applicable cloud characteristics, service model/subcategories and deployment models for this SIN will be drawn from the NIST 800-145 special publication. Services qualifying for listing as cloud computing services (i.e. Iaa S, etc.) under this SIN must substantially satisfy the essential characteristics of cloud computing as documented in the NIST Definition of Cloud Computing SP 800-145[1]

Offerors must select deployment models corresponding to each way the service can be deployed. Multiple deployment model designations for a single cloud service are permitted but at least one deployment model must be selected.

Both Cloud service model (i.e. Iaa S, etc.) and deployment model (i.e. public, etc.) designations must accord with NIST definitions. Guidance is offered in this document on making the most appropriate selection

a) NIST Essential Characteristics

General Guidance

NIST's essential cloud characteristics provide a consistent metric for whether a service is eligible for inclusion in this SI N. It is understood that due to legislative, funding and other constraints that government entities cannot always leverage a cloud service to the extent that all NIST essential characteristics are commercially available. For the purposes of the Cloud SIN, meeting the NIST essential characteristics is determined by whether each essential capability of the commercial service is available for the service, whether or not the Ordering Activity actually requests or implements the capability. The guidance in Table 3 offers examples of how services might or might not be included based on the essential characteristics, and how the Contractor should interpret the characteristics in light of current government contracting processes.

---

1 7 **http://csrc.nist.gov/publications/nistpubs/800-145/SP800-145.pdf**

Table 3: Guidance on Meeting NIST Essential Characteristics

Characteristic	Capability	Guidance
On-demand self-service	• Ordering activities can directly provision services without requiring Contractor intervention. • This characteristic is typically implemented via a service console or programming interface for provisioning	Government procurement guidance varies on how to implement on-demand provisioning at this time. Ordering activities may approach on-demand in a variety of ways, including "not-to-exceed" limits, or imposing monthly or other appropriate payment cycles on what are essentially on demand services. Services under this SIN must be capable of true on- demand self-service, and ordering activities and Contractors must negotiate how they implement on demand capabilities in practice at the task order level: • Ordering activities must specify their procurement approach and requirements for on- demand service • Contractors must propose how they intend to meet the approach • Contractors must certify that on-demand self-service is technically available for their service should procurement guidance become available.
Broad Network Access	• Ordering activities are able to access services over standard agency networks • Service can be accessed and provisioned using standard devices such as browsers, tablets and mobile phones	• Broad network access must be available without significant qualification and in relation to the deployment model and security domain of the service • Contractors must specify any ancillary activities, services or equipment required to access cloud services or integrate cloud with other cloud or non-cloud networks and services. For example, a private cloud might require an Ordering Activity to purchase or provide a dedicated router, etc. which is acceptable but should be indicated by the Contractor.
Resource Pooling	• Pooling distinguishes cloud services from simple offsite hosting. • Ordering activities draw resources from a common pool maintained by the Contractor • Resources may have general characteristics such as regional location	• The cloud service must draw from a pool of resources and provide an automated means for the Ordering Activity to dynamically allocate them. • Manual allocation, e.g. manual operations at a physical server farm where Contractor staff configure servers in response to Ordering Activity requests, does not meet this requirement • Similar concerns apply to software and platform models; automated provisioning from a pool is required • Ordering activities may request dedicated physical hardware, software or platform resources to access a private cloud deployment service. However the provisioned cloud resources must be drawn from a common pool and automatically allocated on request.
Rapid Elasticity	• Rapid provisioning and de- provisioning commensurate with demand	• Rapid elasticity is a specific demand-driven case of self-service • 'Rapid' should be understood as measured in minutes and hours, not days or weeks. • Elastic capabilities by manual request, e.g. via a console operation or programming interface call, are required. • Automated elasticity which is driven dynamically by system load, etc. is optional. Contractors must specify whether automated demand-driven elasticity is available and the general mechanisms that drive the capability.

Measured Service	• Measured service should be understood as a reporting requirement that enables an Ordering Activity to control their use in cooperation with self service	• Procurement guidance for on-demand self-service applies to measured service as well, i.e. rapid elasticity must be technically available but ordering activities and Contractors may mutually designate other contractual arrangements. • Regardless of specific contractual arrangements, reporting must indicate actual usage, be continuously available to the Ordering Activity, and provide meaningful metrics appropriate to the service measured • Contractors must specify that measured service is available and the general sort of metrics and mechanisms available • The goal of the Measured Service requirement is to ensure Ordering Activities realize the full benefit of "pay as you go" consumption models. Consumption measurements that are not discrete enough or frequent enough (greater than 30 days), will not fulfill this NIST essential characteristic and will not be eligible for inclusion in this SIN.

Inheriting Essential Characteristics

Cloud Services (i.e. Iaa S, etc.) may depend on other cloud services, and cloud service models such as Paa S and Saa S are able to inherit essential characteristics from other cloud services that support them. For example a Paa S platform service can inherit the b road network access made available by the Iaa S service it runs on, and in such a situation would be fully compliant with the broad network access essential characteristic. Cloud Services (i.e. Iaa S, etc.) inheriting essential characteristics must make the inherited characteristic fully available at their level of delivery to claim the relevant characteristic by inheritance.

Inheriting characteristics does not require the inheriting provider to directly bundle or integrate the inherited service, bu t it does require a reasonable measure of support and identification. For example, the Ordering Activity may acquire an Iaa S service from "Provider A" and a Paa S service from "Provider B". The Paa S service may inherit broad network access from "Provider A" but must identify and support the inherited service as an acceptable IaaS provider.

Assessing Broad Network Access

Typically broad network access for public deployment models implies high bandwidth access from the public internet for authorized users.
In a private cloud deployment internet access might be considered broad access, as might be access through a dedicated shared high bandwidth network connection from the Ordering Activity, in accord with the private nature of the deployment model.

Resource Pooling and Private Cloud

All cloud resource pools are finite, and only give the appearance of infinite resources when sufficiently large, as is sometimes the case with a public cloud. The resource pool supporting a private cloud is typically smaller with more visible limits. A finite pool of resources purchased as a private cloud service qualifies as resource pooling so long as the resources within the pool can be dynamically allocate d to the ultimate users of the resource, even though the pool itself appears finite to the Ordering Activity that procures access to the pool as a source of dynamic service allocation.

1) NIST Service Model

The Contractor may optionally document the service model of cloud computing (e.g. Iaa S, Paa S, Saa S, or a combination thereof, that most closely describes their offering, using the definitions in the NIST Definition of

Cloud Computing SP 800 -145. The following guidance is offered for the proper selection of service models.

NIST's service models provide this SIN with a set of consistent sub-categories to assist ordering activities in locating and comparing Cloud services (i.e. Iaa S, etc.) of interest. Service model is primarily concerned with the nature of the service offered and the staff and activities most likely to interact with the service. Contractors should select a single service model most closely corresponding to their proposed service based on the guidance below. It is understood that cloud services can technically incorporate multiple service models and the intent is to provide the single best categorization of the service.

Contractors should take care to select the NIST service model most closely corresponding to each service offered. Contractors should not invent, proliferate or select multiple cloud service model sub-categories to distinguish their offerings, because ad-hoc categorization prevents consumers from comparing similar offerings. Instead vendors should make full use of the existing NIST categories to the fullest extent possible.

For example, in this SIN an offering commercially marketed by a Contractor as "Storage as a Service" would be properly characterized as Infrastructure as a Service (Iaa S), storage being a subset of infrastructure. Services commercially marketed as "LAMP as a Service" or "Database as a Service" would be properly characterized under this SIN as Platform as a Service (Paa S), as they deliver two kinds of platform services. Services commercially marketed as "Travel Facilitation as a Service" o r "Email as a Service" would be properly characterized as species of Software as a Service (Saa S) for this SIN.

However, Contractors can and should include appropriate descriptions (including commercial marketing terms) of the service in the full descriptions of the service's capabilities.

When choosing between equally plausible service model sub-categories, Contractors should consider several factors:

a) Visibility to the Ordering Activity. Service model sub-categories in this SIN exist to help Ordering Activities match their requirements with service characteristics. Contractors should select the most intuitive and appropriate service model from the point of view of an Ordering Activity.

b) Primary Focus of the Cloud Service (i.e. Iaa S, etc.). Services m ay offer a mix of capabilities that span service models in the strict technical sense. For example, a service may offer both Iaa S capabilities for processing and storage, along with some Paa S capabilities for application deployment, or Saa S capabilities for specific applications. In a service mix situation the Contractor should select the service model that is their primary focus. Alternatively contractors may choose to submit multiple service offerings for the SIN, each optionally and separately subcategorized.

c) Ordering Activity Role. Contractors should consider the operational role of the Ordering Activity's primary actual
d) consumer or operator of the service. For example services most often consumed by system managers are likely to fit best as Iaa S; services most often consumed by application deployers or developers as Paa S, and services most often consumed by business users as Saa S.

e) Lowest Level of Configurability. Contractors can consider Iaa S, Paa S and Saa S as an ascending hierarchy of complexity, and select the model with the lowest level of available Ordering Activity interaction. As an example, virtual machines are an Iaa S service often bundled with a range of operating systems, which are Paa S services. The Ordering Activity usually has access to configure the lower level Iaa S service, and the overall service should be considered Iaa S. In cases where the Ordering Activity cannot configure the speed, memory, network configuration, or any other aspect of the Iaa S component, consider categorizing as a Paa S service.

Cloud management and cloud broker services should be categorized based on their own characteristics and not those of the othe r cloud services that are their targets. Management and broker services typically fit the Saa S service model, regardless of whether the services they manage are Saa S, Paa S or Iaa S. Use

Table 3 to determine which service model is appropriate for the cloud management or cloud broker services, or, alternately choose not to select a service model for the service.

The guidance in Table 4 offers examples of how services might be properly mapped to NIST service models and how a Contractor should interpret the service model sub-categories.

Table 4: Guidance on Mapping to NIST Service Models

Service Model	Guidance
Infrastructure as a Service (IaaS)	Select an IaaS model for service based equivalents of hardware appliances such as virtual machines, storage devices, routers and other physical devices. • IaaS services are typically consumed by system or device managers who would configure physical hardware in a non-cloud setting • The principal customer interaction with an IaaS service is provisioning then configuration, equivalent to procuring and then configuring a physical device. Examples of IaaS services include virtual machines, object storage, disk block storage, network routers and firewalls, software defined networks. Gray areas include services that emulate or act as dedicated appliances and are directly used by applications, such as search appliances, security appliances, etc. To the extent that these services or their emulated devices provide direct capability to an application they might be better classified as Platform services (PaaS). To the extent that they resemble raw hardware and are consumed by other platform services they are better classified as IaaS.

Platform as a Service (PaaS)	Select a PaaS model for service based equivalents of complete or partial software platforms. For the purposes of this classification, consider a platform as a set of software services capable of deploying all or part of an application. ● A complete platform can deploy an entire application. Complete platforms can be proprietary or open source ● Partial platforms can deploy a component of an application which combined with other components make up the entire deployment ● PaaS services are typically consumed by application deployment staff whose responsibility is to take a completed agency application and cause it to run on the designated complete or partial platform service ● The principal customer interaction with a PaaS service is deployment, equivalent to deploying an application or portion of an application on a software platform service. ● A limited range of configuration options for the platform service may be available. Examples of complete PaaS services include: ● A Linux/Apache/MySQL/PHP (LAMP) platform ready to deploy a customer PHP application, ● a Windows .Net platform ready to deploy a .Net application, ● A custom complete platform ready to develop and deploy a customer application in a proprietary language ● A multiple capability platform ready to deploy an arbitrary customer application on a range of underlying software services. The essential characteristic of a complete PaaS is defined by the customer's ability to deploy a complete custom application directly on the platform. PaaS includes partial services as well as complete platform services. Illustrative examples of individual platform enablers or components include: ● A database service ready to deploy a customer's tables, views and procedures, ● A queuing service ready to deploy a customer's message definitions ● A security service ready to deploy a customer's constraints and target applications for continuous monitoring The essential characteristic of an individual PaaS component is the customer's ability to deploy their unique structures and/or data onto the component for a partial platform function. Note that both the partial and complete PaaS examples all have two things in common: ● They are software services, which offer significant core functionality out of the box ● They must be configured with customer data and structures to deliver results As noted in IaaS, operating systems represent a gray area in that OS is definitely a platform service, but is typically bundled with IaaS infrastructure. If your service provides an OS but allows for interaction with infrastructure, please sub-categorize it as IaaS. If your service "hides" underlying infrastructure, consider it as PaaS.

Software as a Service (SaaS)	Select a SaaS model for service based equivalents of software applications. • SaaS services are typically consumed by business or subject-matter staff who would interact directly with the application in a non-cloud setting • The principal customer interaction with a SaaS service is actual operation and consumption of the application services the SaaS service provides. Some minor configuration may be available, but the scope of the configuration is limited to the scope and then the permissions of the configuring user. For example an agency manager might be able to configure some aspects of the application for their agency but not all agencies. An agency user might be able to configure some aspects for themselves but not everyone in their agency. Typically only the Contractor would be permitted to configure aspects of the software for all users. Examples of SaaS services include email systems, business systems of all sorts such as travel systems, inventory systems, etc., wiki's, websites or content management systems, management applications that allow a customer to manage other cloud or non-cloud services, and in general any system where customers interact directly for a business purpose. Gray areas include services that customers use to configure other cloud services, such as cloud management software, cloud brokers, etc. In general these sorts of systems should be considered SaaS, per guidance in this document.

2) Deployment Model

Deployment models (e.g. private, public, community, or hybrid) are not restricted at the SIN level and any specifications for a deployment model are the responsibility of the Ordering Activity.

Multiple deployment model selection is permitted, but at least one model must be selected. The guidance in Table 4 offers examples of how services might be properly mapped to NIST deployment models and how the Contractor should interpret the deployment
model characteristics. Contractors should take care to select the range of NIST deploym ent models most closely corresponding to each service offered.

Note that the scope of this SIN does not include hardware or software components used to construct a cloud, only cloud capabilities delivered as a service, as noted in the Scope section.

Table 5: Guidance for Selecting a Deployment Model

Deployment Model	Guidance
Private Cloud	The service is provided exclusively for the benefit of a definable organization and its components; access from outside the organization is prohibited. The actual services may be provided by third parties, and may be physically located as required, but access is strictly defined by membership in the owning organization.
Public Cloud	The service is provided for general public use and can be accessed by any entity or organization willing to contract for it.
Community Cloud	The service is provided for the exclusive use of a community with a definable shared boundary such as a mission or interest. As with private cloud, the service may be in any suitable location and administered by a community member or a third party.
Hybrid Cloud	The service is composed of one or more of the other models. Typically hybrid models include some aspect of transition between the models that make them up, for example a private and public cloud might be designed as a hybrid cloud where events like increased load permit certain specified services in the private cloud to run in a public cloud for extra capacity, e.g. bursting.

Special Item No. 532420L: Leasing of new electronic equipment

Leasing of new electronic equipment. Includes the following lease types:
Lease to Ownership, and Lease with Option to Own

NOTE: Subject to Cooperative Purchasing

FSC/PSC Class W070 LEASE OR RENTAL OF EQUIPMENT- ADP EQUIPMENT/SOFTWARE/SUPPLIERS/SUPPORT EQUIPMENT
Lease of Products

INFORMATION TECHNOLOGY CATEGORY HARDWARE SUBCATEGORY

SIN 532420L Option 1 Lease Terms and Conditions

Option 1 Lease Terms and Conditions does not contain a cancellation clause and all leases automatically expire on September 3 0th or sooner.

52.207-5	Option to Purchase Equipment	Feb 1995
52.227-14	Rights in Data-General	May 2014

1. STATEMENT

a. It is understood by all parties to this contract that orders issued under this SIN shall constitute a lease arrangement. Un less the ordering activity intends to obligate other than annual appropriations to fund the lease, the base period o f the lease is from the date of the product acceptance through September 30 of the fiscal year in which the order is placed.

b. Agencies are advised to follow the guidance provided in Federal Acquisition Regulation (FAR) Subpart 7.4 Product Lease or Purchase and OMB Circular A-11. Agencies are responsible for the obligation of funding consistent with all applicable legal principles when entering into any lease arrangement.

2. FUNDING AND PERIODS OF LEASING ARRANGEMENTS

a. Annual Funding. When annually appropriated funds are cited on an order for leasing, the following applies:

i. The base period of an order for any lease executed by the ordering activity shall be for the duration of the fiscal year. All ordering activity renewal options under the lease shall be specified in the delivery order. All orders for leasing shall remain in effect through September 30 of the fiscal year or the planned expiration date of the lease, whichever is earlier, unless t he ordering activity exercises its rights hereunder to acquire title to the product prior to the planned expiration date or unless the ordering activity exercises its right to terminate under GSAR 552.212 -4. Orders under the lease shall not be deemed to obligate succeeding fiscal year's funds or to otherwise commit the ordering activity to a renewal.

ii. All orders for leasing shall automatically terminate on September 30, unless the ordering activity notifies the Contractor in writing thirty (30) calendar days prior to the expiration of such orders of the ordering activity's intent to renew. Such notice to renew shall not bind

the ordering activity. The ordering activity has the option to renew each year at the original rate in effect at the time the order is placed. This rate applies for the duration o f the order. If the ordering activity exercises its option to renew, the renewal order shall be issued within 15 days after funds become available for obligation by the ordering activity, or as specified in the initial order. No termination fees shall apply if the ordering activity does not exercise an option.

a. Crossing Fiscal Years Within Contract Period. Where an ordering activity has specific authority to cross fiscal years with annual appropriations, the ordering activity may place an order under this option to lease product for a period up to the expiration of its period of appropriation availability, or twelve months, whichever occurs later, notwithstanding the intervening fiscal years.

3. DISCONTINUANCE AND TERMINATION

Notwithstanding any other provision relating to this SIN, the ordering activity may terminate products leased under this agreement, at any time during a fiscal year in accordance with the termination provisions contained in GSAR 552.212 -4(l) Termination for the ordering activity's convenience, or (m) Termination for cause. Additionally, no termination for cost or fees shall be charged for non-renewal of an option.

4. The following terms and conditions may be included.

a. ASSIGNMENT OF CLAIMS

GSAR 552.232-23, Assignment of Claims, is incorporated herein by reference as part of these lease provisions. The ordering activity's contracting officer will acknowledge the assignment of claim for a lease in accordance with FAR 32.8. The extent of the assignee's protection is in accordance with FAR 32.804. Any setoff provision must be in accordance with FAR 32.803.

b. PEACEFUL POSSESSION AND UNRESTRICTED USE

In recognition of the types of products available for lease and the potential adverse impact to the ordering activity's
mission, the ordering activity's quiet and peaceful possession and unrestricted use of the product shall not be disturbed in the event the product is sold by the Contractor, or in the event of bankruptcy of the Contractor, corporate dissolution of the Contractor, or other event. The product shall remain in the possession of the ordering activity until the expiration of the lease. Any assignment, sale, bankruptcy, or other transfer of the leased product by the Contractor will not relieve the Contractor of its obligations to the ordering activity and will not change the ordering activity's duties or increase the burdens or risks imposed on the ordering activity.

c. COMMENCEMENT OF LEASE

The date on which the ordering activity accepts the products is the Commencement Date of the lease. Acceptance is as defined elsewhere in the contract, or as further specified in the order.

d. INSTALLATION AND MAINTENANCE

i. Installation and Maintenance, when applicable, normally are not included in the charge for leasing. The Contractor may require the ordering activity to obtain installation and maintenance services from a qualified source. The ordering activity may obtain installation and/or maintenance on the open market, from the Contractor's schedule contract, or from other sources. The ordering activity may also perform installation and/or maintenance in house, if qualified resources exist. In any event, it is the responsibility of the ordering

activity to ensure that maintenance is in effect for the Lease term for a ll products leased.

ii. When installation and/or maintenance are ordered under this schedule to be performed by the Contractor, the payments, terms and conditions as stated in this contract apply. The rates and terms and conditions in effect at the time the order is issued shall apply during any subsequent renewal period of the lease. The maintenance rates and terms and conditions may be added to the lease payments with mutual agreement of the parties.

e. MONTHLY PAYMENTS:

i. Prior to the placement of an order under this Special Item Number, the ordering activity and the Contractor must agree on a "base value" for the products to be leased. For Lease to Ownership (Capital Lease) the base value will be the contract purchase price (less any discounts). For Lease with Option to Own (Operating Lease), the base value will be the contract purchase price (less any discounts), less a mutually agreed upon residual value (pre-stated purchase option price at the conclusion of the lease) for the products. The residual value will be used in the calculation of the original lease payment, lease extension payments, and the purchase option price.

ii. To determine the initial lease term payment, the Contractor agrees to apply the negotiated lease factor to the agreed upon base value:

For Example: Lease factor one (1) percent over the rate for the three-year (or other term) Treasury Bill (T-bill) at the most current U. S. Treasury auction.
The lease payment may be calculated by using a programmed business calculator or by using "rate" functions provided in commercial computer spreadsheets.

iii. For any lease extension, the extension lease payment will be ba sed on the original residual value, in lieu of the purchase price. The ordering activity and the Contractor shall agree on a new residual value based on the estimated fair market price at the end of the extension. The formula to determine the lease payment will be that in 5.b. Above.

iv. The purchase option price will be the fair market value of the product or payment will be based upon the unamortized principle, as shown on the payment schedule as of the last payment prior to the date of transfer of ownership, whichever is less.

v. The point in time when monthly rates are established is subject to negotiation and evaluation at the order level.

vi. In the event the ordering activity desires, at any time, to acquire title to product leased hereunder, the ordering activity may make a one-time lump sum payment.

f. LEASE END/DISCONTINUANCE OPTIONS

i. Upon the expiration of the Lease Term, Termination for Convenience, or Termination for Non - Appropriation, the ordering activity will return the Product to the Contractor unless the ordering activity by 30 days written notice elects either:

1. to purchase the product for the residual value of the product, or
2. to extend the term of the Lease, as mutually agreed. To compute the lease payment, the residual value from the preceding lease shall be the initial value of the leased product. A new residual value shall be negotiated for the extended lease and new

lease payments shall be computed.

ii. Relocation - The ordering activity may relocate products to another location within the ordering activity with prior written notice. No other transfer, including sublease, is permitted. ordering activity shall not assign, transfer or otherwise dispose of any products, or any interest therein, or crate or suffer any levy, lien or encumbrance then except those created for the benefit of Contractor or its assigns.

iii. Returns

1. Within fourteen (14) days after the date of expiration, non-renewal or termination of a lease, the ordering activity shall, at its own risk and expense, have the products packed for shipment in accordance with manufacturer's specifications and return the products to Contractor at the location specified by Contractor in the continental US, in the same condition as when delivered, ordinary wear and tear excepted. Any expenses necessary to return the products to good working order shall be at ordering activity's expense.

2. The Contractor shall conduct a timely inspection of the returned products and within 45 days of the return, assert a claim if the condition of the product exceeds normal wear and tear.

3. Product will be returned in accordance with the terms of the contract and in accordance with Contractor instruction.

4. With respect to software, the ordering activity shall state in writing to the Contractor that it has:
   i. deleted or disabled all files and copies of the software from the equipment on which it was installed;
   ii. returned all software documentation, training manuals, and physical media on which the software was delivered; and
   iii. has no ability to use the returned software.

g. UPGRADES AND ADDITIONS

i. The ordering activity may affix or install any accessory, addition, upgrade, product or device on the product ("additions") provided that such additions:

1. can be removed without causing material damage to the product;
2. do not reduce the value of the product; and
3. are obtained from or approved by the Contractor and are not subject to the interest of any third party other than the Contractor.

ii. Any other additions may not be installed without the Contractor's prior written consent. At the end of the lease term, the ordering activity shall remove any additions which:

1. were not leased from the Contractor, and
2. are readily removable without causing material damage or impairment of the intended function, use, or value of the product, and restore the product to its original configuration.

iii. Any additions that are not so removable will become the Contractor's property (lien free).

iv. Leases of additions and upgrades must be co-terminus with that of the product.

h. RISK OF LOSS OR DAMAGE

The ordering activity is relieved from all risk of loss or damage to the product during periods of transportation, installation, and during the entire time the product is in possession of the ordering activity, except when loss or damage is due to the fault or negligence of the ordering activity. The ordering activity shall assume risk of loss or damage to the product during relocation, (i.e., moving the product from one ordering activity location to another ordering activity location), unless the Contractor shall undertake such relocation.

i. TITLE

During the lease term, product shall always remain the property of the Contractor. The ordering activity shall have no property right or interest in the product except as provided in this leasing agreement and shall hold the product subject and subordinate to the rights of the Contractor. Software and software licenses shall be deemed personal property. The ordering activity shall have no right or interest in the software and related documentation except as provided in the license and the lease. Upon the Commencement Date of the Lease Term, the ordering activity shall have an encumbered license to use the software for the Lease Term. The ordering activity's encumbered license rights in the software will be subject to the same rights as provided to a purchaser of a license under the terms of this contract except that the ordering activity will not have an unencumbered, paid -up license until it has made all lease payments for the full Lease Term in the case of a Lease To Ownership or has otherwise paid the applicable purchase option price.

j. TAXES

The lease payments, purchase option prices, and interest rates identified herein exclude a ll state and local taxes levied on or measured by the contract or sales price of the product furnished hereunder. The ordering activity will be invoiced for any such taxes as Contractor receives such tax notices or assessments from the applicable local t axing authority. Pursuant to the provisions of FAR 52.229-1 State and Local Taxes, the ordering activity agrees to pay tax or provide evidence necessary to support an exemption from the tax.

k. ADDITIONAL LEASE TERMS

Offeror may propose additional lease terms and conditions for billings, payments, and/or invoices, as long as they are consistent with the terms and conditions specified elsewhere.

INFORMATION TECHNOLOGY CATEGORY HARDWARE SUBCATEGORY

SIN 532420L Option 2 Lease Terms and Conditions

Option 2 Lease Terms and Conditions contains a cancellation clause, in which the fee must be in accordance with applicable legal principles.

To the extent an Offeror wishes to propose alternative lease terms and conditions that provide for lower discounts/prices based on the ordering activity's stated intent to fulfill the projected term of a lease including option years, while at the same time including separate charges for early end of the lease, the following terms apply. These terms address the timing and extent of the ordering activity's financial obligation including any potential charges for early end of the lease.

52.207-5	Option to Purchase Equipment	Feb 1995

52.227-14	Rights in Data-General	May 2014

1. LEASING PRICE LIST NOTICE
   a. Contractors must include the following notice in their contract price list for SIN 532420L:

      "The ordering activity is responsible for the obligation of funds consistent with applicable law. Agencies are advised to review the lease terms and conditions contained in this price list prior to ordering and obligating funding for a lease."

2. STATEMENT OF ORDERING ACTIVITY INTENT
   a. The ordering activity and the Contractor understand that a delivery order issued pursuant to this SIN is a lease arrangement and contemplates the use of the product for the term of the lease specified in such delivery order (the "Lease Term"). In that regard, the ordering Activity, as lessee, understands that the lease provisions contained herein and the rate established for the delivery order are premised on the ordering Activity's intent to fulfill that agreement, including acquiring products for the period of time specified in the order. Each lease hereunder shall be initiated by a delivery order which shall, either through a statement of work or other attachment, specify the product being leased, and the required terms of the transaction.

   b. Each ordering activity placing a delivery order under the terms of this option intends to exercise each renewal option and to extend the lease until completion of the Lease Term so long as the need of the ordering activity for the product or functionally similar product continues to exist and funds are appropriated. Contractor may request information from the ordering activity concerning the essential use of the products.

3. LEASE TERM
   a. The date on which the ordering activity accepts the products is the Commencement Date of the lease. For acceptance to occur, the products must operate in accordance with the product's published specifications and statement of work.

      Acceptance shall be in accordance with the terms of the contract or as otherwise negotiated by the ordering activity and the Contractor.

   b. Any lease is executed by the ordering activity on the basis that the known requirement for such product exceeds the initial base period of the delivery order, which is typically 12 months, or for the remainder of the fiscal year. Pursuant to FAR and/or DFAR 232.703-3(b), delivery orders with options to renew that are funded by annual (fiscal year) appropriations may provide for initial base periods and option periods that cross fiscal years as long as the initial base period or each option period does not exceed a 12 month period. This cross fiscal year authority does not apply to multi-year leases.

   c. The total Lease Term will be specified in each delivery order, including any relevant renewal options of the ordering activity. All delivery orders, whether for the initial base period or renewal period, shall remain in effect through September 30 of the fiscal year (unless extended by statute), through any earlier expiration date specified in the delivery order, or until the ordering activity exercises its rights hereunder to acquire title to the product prior to such expiration date. The ordering activity, at its discretion, may exercise each option to extend the term of the lease through the lease term. Renewal delivery orders shall not be issued for less

than all of the product and/or software set forth in the original delivery order. Delivery orders under this SIN shall not be deemed to obligate succeeding fiscal year funds. The ordering activity shall provide the Contractor with written notice of exercise of each renewal option as soon as practicable. Notice requirements may be negotiated on an order-by-order basis.

d. Where an ordering activity's specific appropriation or procurement authority provides for contracting beyond the fiscal year period, the ordering activity may place a delivery order for a period up to the expiration of the Lease Term, or to the expiration of the period of availability of the multi-year appropriation, or whatever is appropriate under the applicable circumstances.

4. LEASE TERMINATION

a. The ordering activity must elect the Lease Term of the relevant delivery order. The Contractor (and assignee, if any) will rely on the ordering activity's representation of its intent to fulfill the full Lease Term to determine the monthly lease.
payments calculated herein.

i. The ordering activity may terminate or not renew leases under this option at no cost, pursuant to a Termination for Non-Appropriation as defined herein (see paragraph (c) below). In any other event, the ordering activity's contracting officer may either terminate the relevant delivery order for cause or Termination for Convenience in accordance with GSAR 552.212-4 paragraphs (l) and (m).

ii. The Termination for Convenience at the end of a fiscal year allows for separate charges for the early end of the lease (see paragraph (d) below). In the event of termination for the convenience of the ordering activity, the ordering activity may be liable only up to the amount beyond the order's Termination Ceiling. Any termination charges calculated under the Termination for Convenience clause must be determined or identified in the delivery order or in the lease agreement.

b. Termination for Convenience of the Ordering Activity: Leases entered into under this option may not be terminated except by the ordering activity's contracting office responsible for the delivery order in accordance with GSAR 552.212-4, Contract Terms and Conditions Commercial Items, paragraph (l) Termination for Convenience of the ordering activity. The costs charged to the ordering activity as the result of any Termination for Convenience of the ordering activity must be rea sonable and may not exceed the sum of the fiscal year's payment obligations less payments made to date of termination plus the Termination Ceiling.

c. Termination for Non-Appropriation: The ordering activity reasonably believes that the bona fide need will exist for the entire Lease Term and corresponding funds in an amount sufficient to make all payments for the lease Term will be available to the ordering activity. Therefore, it is unlikely that leases entered into under this option will terminate prior to the full Lease Term. Nevertheless, the ordering activity's contracting officer may terminate or not renew leases at the end of any initial base period or option period under this paragraph if (a) it no longer has a bona fide need for the product or functionally similar product; or (b) there is a continuing need, but adequate funds have not been made available to the ordering activity in an amount sufficient to continue to make the lease payments. If this occurs, the ordering activity will promptly notify the Contractor, and the product lease will be terminated at the end of the last fiscal year for which funds were appropriated. Substantiation to support a termination for non- appropriation shall be provided to the Contractor upon request.

d. Termination Charges: At the initiation of the lease, termination ceilings will be established for each year of the lease term. The termination ceiling is a limit on the amount that a Contractor may be paid by the ordering activity on the Termination for Convenience of a lease. No claim will be accepted for future costs: supplies, maintenance, usage charges or interest expense beyond the date of termination. In accordance with the bona fide needs rule, all termination charges must
reasonably represent the value the ordering activity received for the work performed based upon the shorter lease term. No Termination for Convenience costs will be associated with the expiration of the lease term.

e. At the order level, the ordering activity may, consistent with legal principles, negotiate lower monthly payments or rates based upon appropriate changes to the termination conditions in this section.

4. The following terms and conditions may be included.

a. ASSIGNMENT OF CLAIMS

GSAR 552.232-23, Assignment of Claims, is incorporated herein by reference as part of these lease provisions. The ordering activity's contracting officer will acknowledge the assignment of claim for a lease in accordance with FAR 32.8. The extent of the assignee's protection is in accordance with FAR 32.804. Any setoff provision must be in accordance with FAR 32.803.

b. PEACEFUL POSSESSION AND UNRESTRICTED USE

In recognition of the types of products available for lease and the potential adverse impact to the ordering activity's
mission, the ordering activity's quiet and peaceful possession and unrestricted use of the product shall not be disturbed in the event the product is sold by the Contractor, or in the event of bankruptcy of the Contractor, corporate dissolution of th e Contractor, or other event. The product shall remain in the possession of the ordering activity until the expiration of the lease. Any assignment, sale, bankruptcy, or other transfer of the leased product by the Contractor will not relieve the Contractor of its obligations to the ordering activity and will not change the ordering activity's duties or increase the burdens or risks imposed on the ordering activity.

c. COMMENCEMENT OF LEASE

The date on which the ordering activity accepts the products is the Commencement Date of the lease. Acceptance is as defined elsewhere in the contract, or as further specified in the order.

d. INSTALLATION AND MAINTENANCE

i. Installation and Maintenance, when applicable, normally are not included in the charge for leasing. The Contractor may require the ordering activity to obtain installation and maintenance services from a qualified source. The ordering activity may obtain installation and/or maintenance on the open market, from the Contractor's schedule contract, or from other sources. The ordering activity may also perform installation and/or maintenance in house, if qualified resources exist. In any event, it is the responsibility of the ordering activity to ensure that maintenance is in effect for the Lease term for all products leased.

ii. When installation and/or maintenance are ordered under this schedule to be performed by the Contractor, the payments, terms and conditions as stated in this contract apply. The rates and terms and conditions in effect at the time the order is issued shall apply during any subsequent renewal period of the lease. The maintenance rates and terms and conditions may be added to the lease payments with mutual agreement of the parties.

e. MONTHLY PAYMENTS:

i. Prior to the placement of an order under this Special Item Number, the ordering activity and the Contractor must agree on a "base value" for the products to be leased. For Lease to Ownership (Capital Lease) the base value will be the contract purchase price (less any discounts). For Lease with Option to Own (Opera ting Lease), the base value will be the contract purchase price (less any discounts), less a mutually agreed upon residual value (pre-stated purchase option price at the conclusion of the lease) for the products. The residual value will be used in the calculation of the original lease payment, lease extension payments, and the purchase option price.

ii. To determine the initial lease term payment, the Contractor agrees to apply the negotiated lease factor to the agreed upon base value:

For Example: Lease factor one (1) percent over the rate for the three-year (or other term) Treasury Bill (T-bill) at the most current U. S. Treasury auction.
The lease payment may be calculated by using a programmed business calculator or by using "rate" functions provided in commercial computer spreadsheets.

iii. For any lease extension, the extension lease payment will be based on the original residual value, in lieu of the purchase price. The ordering activity and the Contractor shall agree on a new residual value based on the estimated fair market price at the end of the extension. The formula to determine the lease payment will be that in 5.b. Above.

iv. The purchase option price will be the fair market value of the product or payment will be based upon the unamortized principle, as shown on the payment schedule as of the last payment prior to the date of transfer of ownership, whichever is less.

v. The point in time when monthly rates are established is subject to negotiation and evaluation at the order level.

vi. In the event the ordering activity desires, at any time, to acquire title to product leased hereunder, the ordering activity may make a one-time lump sum payment.

f. LEASE END/DISCONTINUANCE OPTIONS

i. Upon the expiration of the Lease Term, Termination for Convenience, or Termination for Non - Appropriation, the ordering activity will return the Product to the Contractor unless the ordering activity by 30 days written notice elects either:

1. to purchase the product for the residual value of the product, or
2. to extend the term of the Lease, as mutually agreed. To compute the lease payment, the residual value from the preceding lease shall be the initial value of the leased product. A new residual value shall be negotiated for the extended lease and new lease payments shall be computed.

ii. Relocation - The ordering activity may relocate products to another location within the ordering activity with prior written notice. No other transfer, including sublease, is permitted. ordering activity shall not assign, transfer or otherwise dispose of any products, or any interest therein, or crate or suffer any levy, lien or encumbrance then except those created for the benefit of Contractor or its assigns.

iii. Returns

1. Within fourteen (14) days after the date of expiration, non-renewal or termination of a lease, the ordering activity shall, at its own risk and expense, have the products packed for shipment in accordance with manufacturer's specifications and return the products to Contractor at the location specified by Contractor in the continental US, in the same condition as when delivered, ordinary wear and tear excepted. Any expenses necessary to return the products to good working order shall be at ordering activity's expense.

2. The Contractor shall conduct a timely inspection of the returned products and within 45 days of the return, assert a claim if the condition of the product exceeds normal wear and tear.

3. Product will be returned in accordance with the terms of the contract and in accordance with Contractor instruction.

4. With respect to software, the ordering activity shall state in writing to the Contractor that it has:
   i. deleted or disabled all files and copies of the software from the equipment on which it was installed;
   ii. returned all software documentation, training manuals, and physical media on which the software was delivered; and
   iii. has no ability to use the returned software.

g. UPGRADES AND ADDITIONS

i. The ordering activity may affix or install any accessory, addition, upgrade, product or device on the product ("additions") provided that such additions:

1. can be removed without causing material damage to the product;
2. do not reduce the value of the product; and
3. are obtained from or approved by the Contractor, and are not subject to the interest of any third party other than the Contractor.

ii. Any other additions may not be installed without the Contractor's prior written consent. At the end of the lease term, the ordering activity shall remove any additions which:

1. were not leased from the Contractor, and
2. are readily removable without causing material damage or impairment of the intended function, use, or value of the product, and restore the product to its original configuration.

iii. Any additions that are not so removable will become the Contractor's property (lien free).

iv. Leases of additions and upgrades must be co-terminus with that of the product.

h. RISK OF LOSS OR DAMAGE

The ordering activity is relieved from all risk of loss or damage to the product during periods of transportation, installation, and during the entire time the product is in possession of the ordering activity, except when loss or damage is due to the fault or negligence of the ordering activity. The ordering activity shall assume risk of lo ss or damage to the product during relocation, (i.e., moving the product from one ordering activity location to another ordering activity location), unless the Contractor shall undertake such relocation.

i. TITLE

During the lease term, product shall always remain the property of the Contractor. The ordering activity shall have no property right or interest in the product except as provided in this leasing agreement and shall hold the product subject and subordinate to the rights of the Contractor. Software and software licenses shall be deemed personal property. The ordering activity shall have no right or interest in the software and related documentation except as provided in the license and the lease. Upon the Commencement Date of the Lease Term, the ordering activity shall have an encumbered license to use the software for the Lease Term. The ordering activity's encumbered license rights in the software will be subject to the same rights as provided to a purchaser of a license under the terms of this contract except that the ordering activity will not have an unencumbered, paid -up license until it has made all lease payments for the full Lease Term in the case of a Lease To Ownership or has otherwise paid the applicable purchase option price.

j. TAXES

The lease payments, purchase option prices, and interest rates identified herein exclude all state and local taxes levied on or measured by the contract or sales price of the product furnished hereunder. The ordering activity will be invoiced for any such taxes as Contractor receives such tax notices or assessments from t h e applicable local taxing authority. Pursuant to the provisions of FAR 52.229-1 State and Local Taxes, the ordering activity agrees to pay tax or provide evidence necessary to support an ex-emption from the tax.

k. ADDITIONAL LEASE TERMS

Offeror may propose additional lease terms and conditions for billings, payments, and/or invoices, as long as they are consistent with the terms and conditions specified elsewhere.

Special Item No. 541370GEO: Earth Observation Solutions

Provides geospatial earth observation technologies, products, and services to include, but not limited to ground, satellite and aerial based sensor data and imagery; worldwide digital transmission, internet, data, and video services and products through various networks, platforms, and applications. Offerings include global coverage, imagery, archive storage and distribution, monitoring, basemaps (mosaics), and earth observation solutions for accurate, mission critica l information for uses to include, but not limited to, environmental, agriculture, meteorology, forestry, fish & wildlife habitats, disaster response and recovery, defense, maritime, mapping, humanitarian support, transportation, and public safety.

Special Item No. 54151S: Information Technology Professional Services

IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.

NOTE: Subject to Cooperative Purchasing

Commercial Job Title: Consulting Engineer

Minimum/General Experience: Has approximately 5 years of experience. Possesses understanding covering the planning, research, development, design, testing, evaluation, production, analysis, and implementation of information systems, programs and equipment. Provides technical assistance to others working on requirements, definition, system requirements analysis, system level design and integration, operations support planning and/or the coordination of the preparation of system development specifications and specialty engineering plans. May be skilled in systems engineering, electrical engineering or industrial engineering activities.

Functional Responsibility: Working under close supervision, person provides technical or scientific and project support for multiple large-scale projects that cross-cut multiple specialization and product development areas. Applies advanced business and/or technical expertise to assist others with defining, analyzing, validating and documenting complex customer operating environments, states of technology and current engineering processes. Provides advanced technical support to others

involved in applying specialized knowledge to complex customer processes and requirements. Supports complex technical investigations through advanced research techniques, analysis or development phases of engineering projects. Works with other engineering disciplines in the development and application of processes to improve quality, reliability, cost customer appeal, and satisfaction.

Minimum Education: B.A. or B.S. in Computer Science, Engineering, Mathematics, Economics or Business.

Commercial Job Title: Information Architect

Minimum/General Experience: Has approximately 2 years of experience with skills covering the planning, research, development, design, testing, evaluation, production, analysis, and implementation of multi-tier network configurations for web enabled applications. Possesses a clear understanding of the interrelationships of firewalls, network devices, and servers and clear knowledge of a specific web enabling technology (i.e. Microsoft or Netscape servers). Possesses experience with database and/or email integration, Internet network design (DMZ, routers, switching) and system administration practices.

Functional Responsibility: Designs Intranet/Internet/Extranet architectures and develops implementations plans; administration activity; i.e., hardware, security, firewalls. Implements security architecture using LDAP, SSL and firewalls. Installs, configures and maintains all Intranet/Internet/Extranet tools, databases and features; provides support to e-commerce and other systems. Implements server design, development, and operation as well as analyze and develop requirements for hardware sizing/capacity, data validation, security and integration points to other applications.

Minimum Education: B.S. in Engineering, Mathematics, Computer Science, Operations Research, or applied science.

Commercial Job Title: Project Manager

Minimum/General Experience: Has approximately 2 years of experience within information system project-oriented environments. Leads planning, scheduling, monitoring, and reporting activities for projects. Facilitates needs assessment and development of recommended project control solutions to be used for planning, scheduling and tracking of each project though integration of various project management tools. Develops project controls and reporting procedures. Assists in the training of the project team on application of the procedures. Analyzes project progress/costs and assists with development and evaluation of alternatives when the project falls behind schedule or exceeds budget. Develops and delivers presentations to customer management. Integrates specific industry methodologies to appropriate project management solutions.

Functional Responsibility: Possesses a thorough understanding of the process requirements and provide b o t h technical and management oversight of the project. Responsible for customer satisfaction, serves as the single point of contact, compliance with the Statement of Work, project planning and management, resource allocation, and reporting.

Minimum Education: B.S. in Engineering, Mathematics, Computer Science, Operations Research, or applied science.

Commercial Job Title: Senior Consulting Engineer

Minimum/General Experience: Has approximately 10 years of experience. Possesses understanding covering the planning, research, development, design, testing, evaluation, production, analysis, and implementation of information systems, programs and equipment. Provides technical assistance to others working on requirements, definition, system requirements analysis, system level design and integration, operations support planning and/or the coordination of the preparation of system development specifications and specialty engineering plans. May be skilled in systems engineering, electrical engineering or industrial engineering activities.

Functional Responsibility: Provides supervision, person provides technical or scientific and project support for multiple large- scale projects that cross-cut multiple specialization and product development areas. Applies advanced business and/or technical expertise to assist others with defining, analyzing, validating and documenting. complex customer operating environments, states of technology and current engineering processes. Provides advanced technical support to others involved in applying specialized knowledge to complex customer processes and requirements. Supports complex technical investigations through advanced research techniques, analysis or development phases of engineering projects. Works with other engineering disciplines in the development and application of processes to improve quality, reliability, cost customer appeal, and satisfaction.

Minimum Education: B.S. in Engineering, Mathematics, Computer Science, Operations Research, or applied science.

Special Item No. 561422: Automated Contact Center Solutions (ACCS)

ACCS is defined as any combination of products, equipment, software and/or services that are required to establish and maintain contact center capabilities managed by the contractor for an agency. These include a wide range of automated and attended managed solutions that allow agencies to respond to inquiries from the public. Permissible offerings under this SIN may include any technologies or services required to deliver and support ACCS to agencies, including but not limited to: • Technology: Automated services to include but not limited to Artificial Intelligence (AI), Chat Bots, Robotic Process Automation, Interactive Voice Response (IVR), Voice/Speech Recognition, Text-to-Speech, Voicemail, Callback, Web Callback, Email Delivery, Hosted Online Ordering, Hosted Email Web Form, Hosted FAQ Service, etc.

NOTE: Subject to Cooperative Purchasing

Special Item No. 611420: Information Technology Training

Includes training on hardware, software, cloud, and

other applicable systems. NOTE: Subject to

Special Item No. 811212: Maintenance of Equipment, Repair Services and/or Repair/Spare Parts

Maintenance, Repair Service, and Repair Parts/Spare Parts for Government-Owned General Purpose Commercial Information Technology Equipment, Radio/Telephone Equipment

NOTE: Subject to Cooperative Purchasing

FSC/PSC Class J070 - Maintenance and Repair Service)(Repair Parts/Spare Parts - See FSC Class for basic equipment)

FSC/PSC Class J058 – Maintenance and Repair of Communication Equipment

INFORMATION TECHNOLOGY CATEGORY HARDWARE SUBCATEGORY

SIN 811212 Hardware Maintenance Order Terms

1) Service Areas
   a) The maintenance and/or repair service rates per the contract are applicable to any ordering activity locations within a (**insert miles) mile radius of the Contractor/Original Equipment Manufacturer (OEM) service points.. If any additional charge is to apply because of the greater distance from the Contractor/OEM service locations, the mileage rate or other distance factor shall be negotiated at the Task Order level.

   b) When maintenance and/or repair services cannot be performed at the ordering activity installation site, the repair services will be performed at the Contractor's plant(s) listed below:

Address		
City	State	Zip Code

2) Loss or Damage
   When the Contractor moves equipment to its/OEM location for repairs, the Contractor shall be responsible for any damage or loss, from the time the equipment is removed from the ordering activity installation, until the equipment is returned to such installation.

3) Scope
   a) The Contractor shall provide maintenance for all equipment listed herein, as requested by the ordering activity during the contract term. Repair service and repair parts/spare parts shall apply exclusively to the equipment types/models within the scope of the Information Technology Category.

   b) Equipment placed under maintenance service shall be in good operating condition.
      i. In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by the Contractor, without charge to the ordering activity.

      ii. Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by the Contractor, if the equipment was under the Contractor/OEM guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.

      iii. If the equipment was not under the Contractor/OEM responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the ordering activity, in accordance with the provisions of the contract.

4) Responsibilities
   a) For equipment not covered by a maintenance contract or warranty, repair service personnel shall complete repairs as soon as possible after notification by the ordering activity that service is required. Within the service areas, this repair service should normally be done within 4 hours after notification.

b) If the Ordering Activity task or delivery order specifies a factory authorized/certified service personnel then the Contractor is obligated to provide such a factory authorized/certified service personnel for the equipment to be repaired or serviced, unless otherwise agreed to in advance between the Ordering Activity and the Contractor.

5) Maintenance Rate Provisions

a) The Contractor shall bear all costs of maintenance, including labor, parts, and such other expenses as are necessary to keep the equipment in good operating condition, provided that the required repairs are not occasioned by fault or negligence of the ordering activity.

i. Regular Hours: The basic monthly rate for each make and model of equipment shall entitle the ordering activity to maintenance service during a mutually agreed upon nine (9) hour principal period of maintenance, Monday through Friday, exclusive of holidays observed at the ordering activity location.

ii. After Hours: Should the ordering activity require that maintenance be performed outside of regular hours, charges for such maintenance, if any, will be specified in the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016). Periods of less than one hour will be prorated to the nearest quarter hour.

iii. Travel and Transportation: If any charge is to apply, over and above the regular maintenance rates, due to the distance between the ordering activity location and the Contractor/OEM's service area, the charge will be negotiated at the Task Order level.

	Yes	No
Indicate if there will be an additional charge for travel and transportation.		

a) Quantity Discounts from listed maintenance service rates for multiple equipment owned and/or leased by an ordering activity shall be provided below.

Quantity Range	Discounts
Units	%
Units	%
Units	%

2) Loss or Damage

When the Contractor moves equipment to its/OEM location for repairs, the Contractor shall be responsible for any damage or loss, from the time the equipment is removed from the ordering activity installation, until the equipment is returned to such installation.

3) Scope

   a) The Contractor shall provide maintenance for all equipment listed herein, as requested by the ordering activity during the contract term. Repair service and repair parts/spare parts shall apply exclusively to the equipment types/models within the scope of the Information Technology Category.

   b) Equipment placed under maintenance and/or service shall be in good operating condition.

      i) In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by the Contractor, without charge to the ordering activity.

      ii) Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by the Contractor, if the equipment was under the Contractor/OEM guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.

      iii) If the equipment was not under the Contractor/OEM responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the ordering activity, in accordance with the provisions of the contract.

4) Responsibilities

a) For equipment not covered by a maintenance contract or warranty, repair service personnel shall complete repairs as soon as possible after notification by the ordering activity that service is required. Within the service areas, this repair service should normally be done within 4 hours after notification.

b) If the Ordering Activity task or delivery order specifies a factory authorized/certified service personnel then the Contractor is obligated to provide such a factory authorized/certified service personnel for the equipment to be repaired or serviced, unless otherwise agreed to in advance between the Ordering Activity and the Contractor.

5) Repair Service Rate Provisions

a) Charges for repair service will include the labor charge, computed at the rates set forth below, for the time during which repairmen are actually engaged in work, and, when applicable, the charge for travel or transportation.

b) Multiple Machines: When repairs are ordered by the ordering activity on two or more machines located in one or more buildings within walking distance of each other, the charges will be computed from the time the repairman commences work on the first machine, until the work is completed on the last machine. The time required to go from one machine to another, or from one building to another, will be considered actual work performance, and chargeable to the ordering activity, provided the time consumed in going between machines (or buildings) is reasonable.

c) At the Contractor/OEM's Facility

i) When equipment is returned to the Contractor/OEM's Facility for adjustments or repairs which are not covered by the guarantee/warranty provision, the cost of transportation, packing, etc.from the ordering activity location to the Contractor's plant, and return to the ordering activity location, shall be borne by the ordering activity.

ii) The ordering activity should not return defective equipment to the Contractor/OEM for adjustments and repairs or replacement without prior consultation and instruction.

d) At the Ordering Activity Location (Within Established Service Areas)

i) When equipment is repaired at the ordering activity location, and repair service rates are established for service areas or zones, the listed rates are applicable to any ordering activity location within such service areas or zones.
No extra charge, time, or expense will be allowed for travel or transportation of repairmen or machines to or from the ordering activity office; such overhead is included in the repair service rates.

e) At the Ordering Activity Location (Outside Established Service Areas)

i) If repairs are to be made at the ordering activity location, and the location is outside the service area terms defined in the GSA Price list. Rates negotiated at the task order will apply.

ii) When the overall travel charge computed at the above mileage rate is unreasonable (considering the time required for travel, actual and necessary transportation costs, and the allowable ordering activity per diem rate for each night the repairman is required

to remain overnight at the ordering activity location), the ordering activity shall have the option of reimbursing the Contractor for actual costs, provided that the actual costs are reasonable and allowable. The Contractor shall furnish the ordering activity with a report of travel performed and related expenses incurred. The report shall include departure and arrival dates, times, and the applicable mode of travel.

f) Labor Rates

i) Regular Hours: Contract rates shall entitle the ordering activity to repair service during the period 8:00 a.m. to 5:00 p.m., Monday through Friday, exclusive of holidays observed at the ordering activity location. There shall be no additional charge for repair service, which was requested during regular hours, but performed at the convenience of the Contractor outside the regular hours.

ii) After Hours: Should the ordering activity require that service be performed outside of regular hours, charges for such service, if any, will be specified in the GSA Price List (I -FSS-600 CONTRACT PRICE LISTS (OCT 2016). Periods of less than one hour will be prorated to the nearest quarter hour.

iii) Sundays and Holidays: When the ordering activity requires that repair service be performed on Sundays and Holidays observed at the ordering activity location, the Sundays and Holidays repair service rates shall apply, and will be specified in the GSA Price List (I-FSS-600 CONTRACT PRICE LISTS (OCT 2016). Periods of less than one hour will be prorated to the nearest quarter hour.

Repair Service Rates

	Minimum Charge * - Regular Hours	Hourly Rate - After Hours	Hourly Rate - Sunday and Holidays
Contractor/OEM Facility			
Ordering Activity Location (Within Established Service Areas)			
Ordering Activity Location (Outside Established Service Areas)			

*MINIMUM CHARGES INCLUDE FULL __HOURS ON THE JOB

4) Repair Parts/Spare Parts Rate Provision

a) All parts, furnished as spares or as repair parts in connection with the repair of equipment, unless otherwise indicated in the GSA Price list shall be new, standard parts manufactured by the OEM.

b) All parts shall be furnished at the prices indicated in the Contractor's commercial pricelist dated___, at a Discount of ---- % from such listed prices.

Special Item No. 333429: 3D Printing Solutions and Additive Manufacturing Solutions

333249 Includes printers; ancillary equipment, technical services and supplies required to generate functional prototype images and printed objects. Equipment may include all classes and sizes of 3D Printers, laser imaging devices, post processing devices and ancillary accessories and software to produce functional items. Technical services include but are not limited to: 3D Printing and laser imaging to produce a digital file used to generate functional prototype images and printed objects. All types of consumables and other items related to this SIN are included.

Special Item No. 518210ERM: Electronic Records Management

518210ERM Electronic Records Management Solutions provide a comprehensive capability to solve the complex challenges posed by the movement, manipulation, archiving, security, and management of electronic records. The vendor provides professional management and administrative support personnel with the necessary skills to perform effective record management services for both classified and/or unclassified records. The services are provided using either Government or vendor equipment and facilities or a combination of both. The objective of electronic records management services is to permit the access, maintenance, control, storage, disposition, and transfer of electronic records. Includes any ancillary supplies and/or services necessary to provide a total electronic records management solution.

Vendor Certification for SIN 518210ERM -

DocuSign Envelope ID: C1F48D18-8E78-4C8C-BF0E-538241A72803

SIN 518210ERM Vendor Certification for Electronic Records Management Solutions- Hyland

Version 3.0 (As of MAS Refresh 18)

For the purposes of the MAS Solicitation, eight (8) specific elements of Electronic Records Management (ERM) Services have been identified. These 8 elements are fully defined and the corresponding requirements are identified in NARA's *Universal Electronic Records Management Requirements* spreadsheet attachment to the Solicitation. These requirements have been established and are administered by the National Archives and Records Administration (NARA). Vendors may provide any combination of the 8 elements of ERM solutions; however, vendors must certify that they are capable of meeting all standards associated with the elements they propose by completing this self-certification. *Vendors must include a completed copy of this certification in their published GSA MAS Contract Price List to help illustrate their ERM capabilities to federal customer agencies.*

Proposed Elements of Electronic Records Management Services:
By selecting the below Elements, you are self-certifying you meet NARA's Universal ERM Requirements for that Element. Select all Elements that apply.

X Element 1 - Office Management Applications
X Element 2 - Electronic Messages
X Element 3 - Social Media
☐Element 4 - Websites
X Element 5 - Photographs (Born-Digital and Scanned Images)
X Element 6 - Digital Audio and Video
X Element 7 - Structured Data
X Element 8 - Shared Drives

In the space below you must provide a brief summary description for each of the above Elements that you have checked off. The summary must include which ERM products/ services/ solutions- currently awarded under SIN 518210ERM of your MAS contract- are related to the respective Element. Example questions are provided for each Element to assist with your response. Those questions are based on NARA's Universal Electronic Records Management Requirements and reflect common questions from agencies. *If you cannot provide a summary description for a given Element, or you do not currently offer products/services/solutions under SIN 518210ERM related to that Element, you cannot self-certify that Element on this form.* Please use as much space as you need below, but be concise! Please respond as "Not applicable" for any Element you did not select above.

The specifics of your below responses are not part of the evaluation criteria for adding SIN 518210ERM. The intention of the below section is to assist agencies with market research and

DocuSign Envelope ID: C1F48D18-8E78-4C8C-BF0E-538241A72803

help agencies understand your offerings / capabilities as they relate to the above ERM Elements you have selected.

If you have questions about the above ERM Elements and the information on NARA's Universal ERM Requirements spreadsheet, please contact NARA's Records Management Policy Team at rmpolicy@nara.gov.

Element 1 - Office Management Applications

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 1. Some example questions to consider are: Which office management applications does your service/solution manage (e.g. Microsoft 365, Google Workspace, etc.)? How do you associate Office Management documents with a records schedule? How do you apply metadata to Office Management documents?

The Alfresco Digital Business Platform provides out-of-the-box capabilities for office management, alleviating the need for 3rd party collaboration tools in many scenarios. These features include version control, redaction, annotations, basic workflow, and record management. The Alfresco Enterprise Viewer also provides the option to actively collaborate on documents and annotations in real-time.

Alfresco provides native connectivity directly to Office products via Alfresco Office Services. Office 365 is fully supported through an add-on plugin, available for an additional charge, which provides significantly higher functionality. Users can edit Microsoft Office documents including Word, Excel and PowerPoint that are stored in Alfresco from the Digital Workspace directly in Office 365 Online.

Alfresco also provides the Google Docs Integration, which allows you to use Google Docs to edit document content stored in Alfresco Content Services, as an alternative to the online and offline editing capabilities in Alfresco Share.

Alfresco provides a very flexible Content Model that allows you to create and manage your own custom property models. Customers can create custom types, aspects, and properties to apply to documents. Taxonomy is applied using rules within the Alfresco environment so that, when content is added, the proper content model (taxonomy) is applied to the added content. Once content is stored in the Alfresco content repository, moving it to Records Management can be triggered by a file rule, metadata properties, or ad-hoc user task.

Element 2 - Electronic Messages

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 2. Some example questions to consider are: Which electronic messages does your service/solution manage (e.g. SMS/MMS, iMessage, WhatsApp, social media messages, voicemail, etc.)? Are you able to capture SMS/MMS at the carrier-level? How do you apply metadata to electronic messages? Where are records stored (e.g. managed in the system in which they were created or in a dedicated recordkeeping system)?

Alfresco manages virtually any file format for storage, workflow, and records management capabilities. Records are stored in their native file format in the Alfresco repository, which can have a backend database of choice (Standard DB, S3 Bucket, etc.) There are purpose-built

DocuSign Envelope ID: C1F48D18-8E78-4C8C-BF0E-538241A72803

integration methods for monitoring email messages for easy ingestion and metadata capture. Emails and attachments can be ingested into the Alfresco Content Services solution and made available via IMAP or the Outlook plugin. Alfresco then displays files using a transform engine to allow visibility through the Alfresco viewer. Alfresco does not support SMS/MMS capture at the carrier level, but using open APIs enables easy configuration to 3rd party tools built for this purpose.

Element 3 - Social Media

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 3. Some example questions to consider are: Which social media platforms does your solution/services capture and manage (e.g. Facebook, YouTube, Instagram, WordPress)? What technology is used to capture social media records? What frequency can your solution/services capture? How do you address changes in what social media platforms allow for capture?

Alfresco can manage social media posts as per any other content via use of Alfresco Federation Services. While the social media itself remains in its original storage location, it can be tracked and made subject to records management and additional Alfresco functions. The frequency of capture can be configured via the job scheduler, which can be trigger based, time-bsed, or a combination of the two.

Questions for Element 4 - Websites

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 51821OERM that help agencies meet Element 4. Some example questions to consider are: What technology do you use to crawl websites? Do you have the capability to capture internal and external sites? What formats do you use for web captures? Can you capture websites in NARA-acceptable formats? What quality assurance processes/tools do you offer?

Not applicable.

Questions for Element 5 - Photographs (Born-Digital and Scanned Images)

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 5. Some example questions to consider are: How do you associate Photographs with a records schedule? How do you apply metadata for categorization and searchability to Photographs?

The Alfresco DBP manages content in its native format, and based on that format, applies the necessary metadata related to the content type. For photos and digital images, Alfresco will apply standard metadata properties that include Name, Title, Author, Created Date, etc. - but in addition will apply metadata around the photo itself, including the EXIF data. The EXIF data includes data and time of capture, photo size, resolution, camera manufacturer, etc.

Photos and digital images are stored in the Alfresco content repository using the database of choice (S3 bucket, Standard DB, etc.), where Records Management capabilities can be applied in a variety of ways including folder rules, ad-hoc user task, or metadata properties.

Questions for Element 6 - Digital Audio and Video

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 51821OERM that help agencies meet Element 6. Some example questions to consider are: How do you associate Digital Audio and

DocuSign Envelope ID: C1F4BD18-8E78-4C8C-BF0E-538241A72B03

Video files with a records schedule? How do you apply metadata for categorization and searchability to Digital Audio and Video?

Alfresco can import, store, and manage virtually any file format, including audio and video files. The Alfresco Enterprise Viewer provides viewing and redaction capabilities for photos or videos stored within Alfresco. Metadata properties are defined in the content modeler and can be driven based on folder rules or document type as they are ingested into Alfresco. Video and audio files are stored in the Alfresco content repository, where Records Management capabilities can be applied in a variety of ways including folder rules, ad-hoc user task, or metadata properties.

Questions for Element 7 - Structured Data

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 51821OERM that help agencies meet Element 7. Some example questions to consider are: What is your approach to managing structured data? Do you offer solutions additional to what the agency uses, work with their current systems, or both?

Alfresco provides a highly configurable content model allowing virtually any information to be captured as meta-data relevant to a content item. Meta-data stored is subject to the same records management capability as the content itself. Using this content model key structured data can be stored alongside unstructured data.

Questions for Element 8 - Shared Drives

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 8. Some example questions to consider are: What capabilities does your solution/services provide for identifying duplicates? What other organizational methods do you employ for managing shared drives?

Out of the box, Alfresco prevents uploading a file with the same name and will identify that via naming convention. Duplicate detection is also available via the search engine.

Alfresco recommends leveraging Federation Services for managing content stored in shared drives. Alfresco Federation provides a powerful and easy way to search and manage content federated from leading business systems and content management applications. Manage in place functionality allows you to access, control, and govern content residing in more than sixty different business and content repository types. This provides a single view of information across different content systems, by synchronizing content into Alfresco Content Services. By connecting information from different systems, you can provide a single view of information stored across multiple repositories.

Hyland Software, Inc. hereby certifies that we are capable of meeting all standards described in the solicitation and NARA's Universal Electronic Records Management Requirements attachment for each of the sections of ERM Elements we have proposed, as indicated above.

Change log for Version 3.0

1. The following ERM Elements were removed or updated in order to remain at parity with the Elements listed in NARA's Universal Electronic Records Management Requirements spreadsheet (Version 3)
    - Removed Cloud Services
    - Removed Engineering Drawings
    - Changed Digital Media (Photo) to Photographs
    - Combined Digital Audio and Video
2. The following ERM Elements names have been updated to remove the reference to their former name used in Version 1 of this document:
    - Element 1 - Office Management Applications: removed "(formerly 'Desktop Applications')" from the Element name
    - Element 7 - Structured Data: removed "(formerly 'Databases')" from the Element name
3. Added requirement for contractors to provide a brief summary of awarded offerings for each ERM Element that they self-certify. Added instructional language along with example questions for each Element to assist contractors with their responses.

SIN 518210ERM Vendor Certification for Electronic Records Management Solutions – AvePoint

Version 3.0 (As of MAS Refresh 18)

For the purposes of the MAS Solicitation, eight (8) specific elements of Electronic Records Management (ERM) Services have been identified. These 8 elements are fully defined and the corresponding requirements are identified in NARA's *Universal Electronic Records Management Requirements* spreadsheet attachment to the Solicitation. These requirements have been established and are administered by the National Archives and Records Administration (NARA). Vendors may provide any combination of the 8 elements of ERM solutions; however, vendors must certify that they are capable of meeting all standards associated with the elements they propose by completing this self-certification. *Vendors must include a completed copy of this certification in their published GSA MAS Contract Price List to help illustrate their ERM capabilities to federal customer agencies.*

Proposed Elements of Electronic Records Management Services:
By selecting the below Elements, you are self-certifying you meet NARA's Universal ERM Requirements for that Element. Select all Elements that apply.

- ■ Element 1 - Office Management Applications
- ■ Element 2 - Electronic Messages
- ■ Element 3 - Social Media
- ■ Element 4 - Websites
- ■ Element 5 - Photographs (Born-Digital and Scanned Images)
- ■ Element 6 - Digital Audio and Video
- ■ Element 7 - Structured Data
- ■ Element 8 - Shared Drives

In the space below you must provide a brief summary description for each of the above Elements that you have checked off. The summary must include which ERM products/ services/ solutions — currently awarded under SIN 518210ERM of your MAS contract — are related to the respective Element. Example questions are provided for each Element to assist with your response. Those questions are based on NARA's Universal Electronic Records Management Requirements and reflect common questions from agencies. *If you cannot provide a summary description for a given Element, or you do not currently offer products/services/solutions under SIN 518210ERM related to that Element, you cannot self-certify that Element on this form.* Please use as much space as you need below, but be concise! Please respond as "Not applicable" for any Element you did not select above.

The specifics of your below responses are not part of the evaluation criteria for adding SIN 518210ERM. The intention of the below section is to assist agencies with market research and

DocuSign Envelope ID: E6833937-348C-477A-B6F3-E8E000D56597

help agencies understand your offerings / capabilities as they relate to the above ERM Elements you have selected.

If you have questions about the above ERM Elements and the information on NARA's Universal ERM Requirements spreadsheet, please contact NARA's Records Management Policy Team at rmpolicy@nara.gov.

Element 1 - Office Management Applications

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 1. Some example questions to consider are: Which office management applications does your service/solution manage (e.g. Microsoft 365, Google Workspace, etc.)? How do you associate Office Management documents with a records schedule? How do you apply metadata to Office Management documents?

The AvePoint platform broadly supports and manages data within office automation and productivity suites, including Microsoft (e.g., Office 365, Dynamics 365, Exchange, Power Platform…, etc.), Google Workspace, and Salesforce. For records management, AvePoint applies metadata tagging to support a records schedule using a rules-based engine that can include logic such as filename, location, contents, file type, etc., to apply management rules based on applied tags.

Element 2 - Electronic Messages

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 2. Some example questions to consider are: Which electronic messages does your service/solution manage (e.g. SMS/MMS, iMessage, WhatsApp, social media messages, voicemail, etc.)? Are you able to capture SMS/MMS at the carrier-level? How do you apply metadata to electronic messages? Where are records stored (e.g. managed in the system in which they were created or in a dedicated recordkeeping system)?

The AvePoint platform primarily supports SMS messages for Omni-channel communications in solutions for citizen services. Messages are captured using third-party communication solutions such as Twilio. Metadata is applied when content, including electronic messages, is captured in a supported repository. Records are stored using Microsoft content management and database solutions (e.g., SharePoint and Azure services).

Element 3 - Social Media

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 3. Some example questions to consider are: Which social media platforms does your solution/services capture and manage (e.g. Facebook, YouTube, Instagram, WordPress)? What technology is used to capture social media records? What frequency can your solution/services capture? How do you address changes in what social media platforms allow for capture?

The AvePoint platform captures messages that may be stored in office management applications, including Microsoft and Google. Metadata is applied when content, including social media content, is captured in a supported repository. However, it does not manage social media platforms directly (e.g., Facebook, YouTube, Instagram, WordPress).

Questions for Element 4 - Websites

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 4. Some example questions to consider are: What technology do you use to crawl

DocuSign Envelope ID: E6833937-348C-477A-B6F3-E8E000D56597

websites? Do you have the capability to capture internal and external sites? What formats do you use for web captures? Can you capture websites in NARA-acceptable formats? What quality assurance processes/tools do you offer?

The AvePoint platform will capture and manage data within internal sites (e.g., SharePoint). For internal/intranet sites on SharePoint, full-fidelity quality is ensured as metadata tags are applied directly to the source content in-place. The AvePoint platform does not currently crawl external websites/the web for capture.

Questions for Element 5 - Photographs (Born-Digital and Scanned Images)

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 5. Some example questions to consider are: How do you associate Photographs with a records schedule? How do you apply metadata for categorization and searchability to Photographs?

The AvePoint platform will capture and manage photographs by applying metadata tags to the digital file. The capability allows categorization, search indexing, and the enforcement of retention and disposal (and other management rules) as configured by admins in the platform. Metadata is applied when content, including photograph and general image content, is stored in a supported repository.

Questions for Element 6 - Digital Audio and Video

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 6. Some example questions to consider are: How do you associate Digital Audio and Video files with a records schedule? How do you apply metadata for categorization and searchability to Digital Audio and Video?

The AvePoint platform will capture and manage audio/video content by applying metadata tags to the digital file. The capability allows categorization, search indexing, and the enforcement of retention and disposal (and other management rules) as configured by admins in the platform. Metadata is applied when content, including digital audio and video content, is stored in a supported repository.

Questions for Element 7 - Structured Data

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 7. Some example questions to consider are: What is your approach to managing structured data? Do you offer solutions additional to what the agency uses, work with their current systems, or both?

The AvePoint platform captures data that may be stored in office management applications, including Microsoft and Google. Metadata is applied when content, including structured data, is captured in a supported repository (e.g., SharePoint, shared drives, file stores). However, the AvePoint platform does not directly capture structured data databases (e.g., CRM).

Questions for Element 8 - Shared Drives

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 8. Some example questions to consider are: What capabilities does your solution/services provide for identifying duplicates? What other organizational methods do you employ for managing shared drives?

DocuSign Envelope ID: E6833937-348C-477A-B6F3-E8E000D56597

The AvePoint platform integrates directly with Shared Drives and captures and manages file-share content by applying metadata tags to the files. The capability allows categorization, search indexing, and the enforcement of retention and disposal (and other management rules) as configured by admins in the platform. Other capabilities of the solution include a 'Storage Optimization' component that can analyze file content for "ROT" (Redundant, Obsolete, and Trivial) which includes identifying Duplicate files.

AvePoint hereby certifies that we are capable of meeting all standards described in the solicitation and NARA's Universal Electronic Records Management Requirements attachment for each of the sections of ERM Elements we have proposed, as indicated above.

Change log for Version 3.0

1. The following ERM Elements were removed or updated in order to remain at parity with the Elements listed in NARA's Universal Electronic Records Management Requirements spreadsheet (Version 3)
    - Removed Cloud Services
    - Removed Engineering Drawings
    - Changed Digital Media (Photo) to Photographs
    - Combined Digital Audio and Video
2. The following ERM Elements names have been updated to remove the reference to their former name used in Version 1 of this document:
    - Element 1 - Office Management Applications: removed "(formerly 'Desktop Applications')" from the Element name
    - Element 7 - Structured Data: removed "(formerly 'Databases')" from the Element name
3. Added requirement for contractors to provide a brief summary of awarded offerings for each ERM Element that they self-certify. Added instructional language along with example questions for each Element to assist contractors with their responses.

DocuSign Envelope ID: 94211256-BA2C-4DFF-8EAF-66E462CB4B50

SIN 518210ERM Vendor Certification for Electronic Records Management Solutions - Gimmal

Version 3.0 (As of MAS Refresh 18)

For the purposes of the MAS Solicitation, eight (8) specific elements of Electronic Records Management (ERM) Services have been identified. These 8 elements are fully defined and the corresponding requirements are identified in NARA's *Universal Electronic Records Management Requirements* spreadsheet attachment to the Solicitation. These requirements have been established and are administered by the National Archives and Records Administration (NARA). Vendors may provide any combination of the 8 elements of ERM solutions; however, vendors must certify that they are capable of meeting all standards associated with the elements they propose by completing this self-certification. *Vendors must include a completed copy of this certification in their published GSA MAS Contract Price List to help illustrate their ERM capabilities to federal customer agencies.*

Proposed Elements of Electronic Records Management Services:
By selecting the below Elements, you are self-certifying you meet NARA's Universal ERM Requirements for that Element. Select all Elements that apply.

- [x] Element 1 - Office Management Applications
- [x] Element 2 - Electronic Messages
- [x] Element 3 - Social Media
- [x] Element 4 - Websites
- [x] Element 5 - Photographs (Born-Digital and Scanned Images)
- [x] Element 6 - Digital Audio and Video
- [x] Element 7 - Structured Data
- [x] Element 8 - Shared Drives

In the space below you must provide a brief summary description for each of the above Elements that you have checked off. The summary must include which ERM products/ services/ solutions — currently awarded under SIN 518210ERM of your MAS contract — are related to the respective Element. Example questions are provided for each Element to assist with your response. Those questions are based on NARA's Universal Electronic Records Management Requirements and reflect common questions from agencies. *If you cannot provide a summary description for a given Element, or you do not currently offer products/services/solutions under SIN 518210ERM related to that Element, you cannot self-certify that Element on this form.* Please use as much space as you need below, but be concise! Please respond as "Not applicable" for any Element you did not select above.

The specifics of your below responses are not part of the evaluation criteria for adding SIN 518210ERM. The intention of the below section is to assist agencies with market research and

DocuSign Envelope ID: 94211256-BA2C-4DFF-8EAF-66E462CB4B50

help agencies understand your offerings / capabilities as they relate to the above ERM Elements you have selected.

If you have questions about the above ERM Elements and the information on NARA's Universal ERM Requirements spreadsheet, please contact NARA's Records Management Policy Team at rmpolicy@nara.gov.

Element 1 - Office Management Applications

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 1. Some example questions to consider are: Which office management applications does your service/solution manage (e.g. Microsoft 365, Google Workspace, etc.)? How do you associate Office Management documents with a records schedule? How do you apply metadata to Office Management documents?

Gimmal Records manages records in-place, documents stored in SharePoint Online and On-Prem, Box, Documentum, FileNet and local Windows file shares. Documents are classified based on the metadata, location and content and a retention period is applied to them based on the records schedule assigned to the classification with support for multi-phased and prioritization of schedules. The metadata used to classify and manage the documents varies within the different repositories. Gimmal Records uses mechanisms available within each of the managed repositories to lock documents identified as records to prevent editing of these documents. Gimmal Records also supports multiple capabilities once a document has reached the end of its lifecycle:

- multi-level approvals
- mark as permanent to facilitate the long term retention of the document
- permanently delete from the source repository
- export to transfer to other archival repositories

Element 2 - Electronic Messages

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 2. Some example questions to consider are: Which electronic messages does your service/solution manage (e.g. SMS/MMS, iMessage, WhatsApp, social media messages, voicemail, etc.)? Are you able to capture SMS/MMS at the carrier-level? How do you apply metadata to electronic messages? Where are records stored (e.g. managed in the system in which they were created or in a dedicated recordkeeping system)?

Gimmal Records provides an integration for Microsoft Outlook that allows emails and attachments to be stored in SharePoint (online and on-premise) with metadata. Electronic messages exported from the source system into standard email formats can be classified and managed using the metadata of such files using mechanisms outlined in Element 1 above.

Element 3 - Social Media

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 3. Some example questions to consider are: Which social media platforms does your solution/services capture and manage (e.g. Facebook, YouTube, Instagram, WordPress)? What technology is used to capture social media records? What frequency can your solution/services capture? How do you address changes in what social media platforms allow for capture?

DocuSign Envelope ID: 94211256-BA2C-4DFF-8EAF-66E462CB4B50

Gimmal Records does not directly capture data from social media platforms but if information captured from these platforms is saved into a standard file structure, Gimmal Records can be used to classify such files using the metadata and managed through its necessary lifecycle using mechanisms outlined in Element 1 above.

Questions for Element 4 - Websites

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 4. Some example questions to consider are: What technology do you use to crawl websites? Do you have the capability to capture internal and external sites? What formats do you use for web captures? Can you capture websites in NARA-acceptable formats? What quality assurance processes/tools do you offer?

Gimmal Records does not crawl websites but if information captured from websites is saved into a standard file format, Gimmal Records can be used to classify such files using the metadata and managed through its necessary lifecycle using mechanisms outlined in Element 1 above.

Questions for Element 5 - Photographs (Born-Digital and Scanned Images)

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 5. Some example questions to consider are: How do you associate Photographs with a records schedule? How do you apply metadata for categorization and searchability to Photographs?

Any digital image stored in a repository managed by Gimmal Records can be classified as a record. Once classified, Gimmal would manage the files through its lifecycle using the mechanisms outlined in Element 1 above.

Questions for Element 6 - Digital Audio and Video

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 6. Some example questions to consider are: How do you associate Digital Audio and Video files with a records schedule? How do you apply metadata for categorization and searchability to Digital Audio and Video?

Any digital audio and video stored in a repository managed by Gimmal Records can be classified as a record. Once classified, Gimmal would manage the files through their lifecycle using the mechanisms outlined in Element 1 above.

Questions for Element 7 - Structured Data

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 7. Some example questions to consider are: What is your approach to managing structured data? Do you offer solutions additional to what the agency uses, work with their current systems, or both?

Gimmal Records does not connect directly to structured data systems. However, structured data stored in accessible file formats, or reports generated from structured data systems, can be classified and managed using the mechanisms outlined in Element 1 above.

Questions for Element 8 - Shared Drives

DocuSign Envelope ID: 94211256-BA2C-4DFF-8EAF-66E462CB4B50

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 8. Some example questions to consider are: What capabilities does your solution/services provide for identifying duplicates? What other organizational methods do you employ for managing shared drives?

Gimmal Records can access and manage documents stored on on-prem Windows servers, in SharePoint (on-prem and cloud) and Box repositories. The documents can be evaluated using metadata criteria and the content of text-based files to determine the appropriate classification and then managed through its lifecycle in-place.

[Offeror Name] hereby certifies that we are capable of meeting all standards described in the solicitation and NARA's Universal Electronic Records Management Requirements attachment for each of the sections of ERM Elements we have proposed, as indicated above.

SIN 518210ERM Vendor Certification for Electronic Records Management Solutions - ProofPoint

Version 3.0 (As of MAS Refresh 18)

For the purposes of the MAS Solicitation, eight (8) specific elements of Electronic Records Management (ERM) Services have been identified. These 8 elements are fully defined and the corresponding requirements are identified in NARA's *Universal Electronic Records Management Requirements* spreadsheet attachment to the Solicitation. These requirements have been established and are administered by the National Archives and Records Administration (NARA). Vendors may provide any combination of the 8 elements of ERM solutions; however, vendors must certify that they are capable of meeting all standards associated with the elements they propose by completing this self-certification. *Vendors must include a completed copy of this certification in their published GSA MAS Contract Price List to help illustrate their ERM capabilities to federal customer agencies.*

Proposed Elements of Electronic Records Management Services:
By selecting the below Elements, you are self-certifying you meet NARA's Universal ERM Requirements for that Element. Select all Elements that apply.

☒ Element 1 - Office Management Applications
☒ Element 2 - Electronic Messages
☒ Element 3 - Social Media
☒ Element 4 - Websites
☒ Element 5 - Photographs (Born-Digital and Scanned Images)
☒ Element 6 - Digital Audio and Video
☒ Element 7 - Structured Data
☒ Element 8 - Shared Drives

In the space below you must provide a brief summary description for each of the above Elements that you have checked off. The summary must include which ERM products/ services/ solutions — currently awarded under SIN 518210ERM of your MAS contract — are related to the respective Element. Example questions are provided for each Element to assist with your response. Those questions are based on NARA's Universal Electronic Records Management Requirements and reflect common questions from agencies. *If you cannot provide a summary description for a given Element, or you do not currently offer products/services/solutions under SIN 518210ERM related to that Element, you cannot self-certify that Element on this form.* Please use as much space as you need below, but be concise! Please respond as "Not applicable" for any Element you did not select above.

The specifics of your below responses are not part of the evaluation criteria for adding SIN 518210ERM. The intention of the below section is to assist agencies with market research and

help agencies understand your offerings / capabilities as they relate to the above ERM Elements you have selected.

If you have questions about the above ERM Elements and the information on NARA's Universal ERM Requirements spreadsheet, please contact NARA's Records Management Policy Team at rmpolicy@nara.gov.

Element 1 - Office Management Applications

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 1. Some example questions to consider are: Which office management applications does your service/solution manage (e.g. Microsoft 365, Google Workspace, etc.)? How do you associate Office Management documents with a records schedule? How do you apply metadata to Office Management documents?

The Proofpoint Enterprise Archive supports the archiving, storage and management of email from Microsoft Exchange and O365. Mail is sent to Proofpoint through the Journaling feature. Customers can create comprehensive Retention Policies in the Proofpoint UI and as messages are archived a Retention Policy that matches is applied. Messages are stored in a forensically sound, immutable manner, and stored in multiple locations. Storage is SEC 17a-4 compliant. Metadata is stored in association with the original messages allowing for an enriched experience in the UI.

[Response for Element 1 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."]

Element 2 - Electronic Messages

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 2. Some example questions to consider are: Which electronic messages does your service/solution manage (e.g. SMS/MMS, iMessage, WhatsApp, social media messages, voicemail, etc.)? Are you able to capture SMS/MMS at the carrier-level? How do you apply metadata to electronic messages? Where are records stored (e.g. managed in the system in which they were created or in a dedicated recordkeeping system)?

Proofpoint has build connectors to natively archive from the following platforms

1. Teams
2. Slack
3. Zoom
4. SharePoint
5. OneDrive
6. FaceBook
7. LinkedIn
8. Twitter
9. Instagram
10. YouTube
11. Bloomberg
12. Sales Force Chatter
13. Box
14. Viva Engage (fka Yammer)
15. Symphony

We also work with a network of third party connector vendors which allows us to support a huge variety of additional content types, like SMS/text (either carrier or device level), What's App etc.

Metadata can be added by Proofpoint and by third party providers during the capture phase of archiving and is stored in association with the messages.

Records are stored in the Proofpoint Enterprise Archive with is located in top-tier Proofpoint colocation facilities.

[Response for Element 2 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."]

Element 3 - Social Media

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 3. Some example questions to consider are: Which social media platforms does your solution/services capture and manage (e.g. Facebook, YouTube, Instagram, WordPress)? What technology is used to capture social media records? What frequency can your solution/services capture? How do you address changes in what social media platforms allow for capture?

Proofpoint can capture and store data from the following Social Media platforms:

- FaceBook
- LinkedIn
- X (fka Twitter)
- Instagram
- YouTube

Typically we are capturing natively with the source platform APIs. Frequency of capture depends on the platform and the configuration we set up for customers, but is multiple times daily.

Managing changes in the source platforms is an ongoing activity and we maintain close relationships with these social media outlets to ensure we are as up to date as possible.

[Response for Element 3 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."]

Questions for Element 4 - Websites

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 4. Some example questions to consider are: What technology do you use to crawl websites? Do you have the capability to capture internal and external sites? What formats do you use for web captures? Can you capture websites in NARA-acceptable formats? What quality assurance processes/tools do you offer?

Proofpoint works with third party providers to capture website information. Their capabilities vary widely and customers are free to choose the right website capture tool that meets their requirements and store that data in a Proofpoint Archive.

[Response for Element 4 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."

Questions for Element 5 - Photographs (Born-Digital and Scanned Images)

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 5. Some example questions to consider are: How do you associate Photographs with a records schedule? How do you apply metadata for categorization and searchability to Photographs?

We do not support archiving photographs as independent data elements. We, of course, support archiving photos if they are included in emails or other supported messages, but not independently.

[Response for Element 5 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."]

Questions for Element 6 - Digital Audio and Video

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 6. Some example questions to consider are: How do you associate Digital Audio and Video files with a records schedule? How do you apply metadata for categorization and searchability to Digital Audio and Video?

Video and Audio that is sent for storage in the archive can have retention policy applied during the archiving process. Retention can be based on the received date, file type, source platform etc. If transcripts are provided in text format, we can apply retention based on keywords in those transcripts. Metadata, like categorization tags, can be applied during the archiving process.

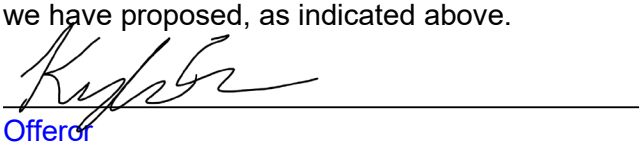
[Response for Element 6 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."]

Questions for Element 7 - Structured Data

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 7. Some example questions to consider are: What is your approach to managing structured data? Do you offer solutions additional to what the agency uses, work with their current systems, or both?

Proofpoint typically supports structured data in the form of spreadsheets. We can ingest various structured data file types and can usually index the contents making them easy to search through. Generally, we are not a structured data management solution.

[Response for Element 7 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."]



Questions for Element 8 - Shared Drives

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 8. Some example questions to consider are: What capabilities does your solution/services provide for identifying duplicates? What other organizational methods do you employ for managing shared drives?

We have extensive processes in place to reduce duplicates in the archive. This is especially so for email data. Deduplication starts during the journaling process where envelope wrappers allow for messages to multiple recipients can be collapsed into a single copy for archival purposes. Follow that we employ a "wait and compare" delay of a few minutes to deduplicate messages that are identical before moving to the next phase of the archiving process. We then apply hash values to messages and perform additional deduplication on messages that have the same hash value.

[Response for Element 8 here — use as much space as you need. If you did not self-certify this Element in the above section, please put "Not Applicable."]

Proofpoint, subject to the declarations made herein, certifies that we are capable of meeting all standards described in the attached spreadsheet NARA's Universal Electronic Records Management Requirements attachment for each of the applicable sections of ERM Elements we have proposed, as indicated above.

Vendor Certification for SIN 493110RM –

493110RM Includes capabilities to manage the movement, manipulation, archiving, security, and management of physical records, including any ancillary supplies and/or services necessary to provide a total physical records management solution.

Vendor Certification for SIN 3361E –

3361E Includes electric and autonomous vehicles and accessories.

SIN 518210FM Financial Management Quality Service Management Office (FM QSMO) Core Financial Management (FM) Solutions and IT Professional Services –

518210FM Includes Core Financial Management Solutions (Core FS) and Financial Management (FM) services and solutions that are complementary to or augment Core FS and/or support agency modernizations. Offerings include financial management software suites in a cloud environment; services, applications, and modules that help agencies adopt FM QSMO solutions; and IT professional services and/or labor categories, software, cloud computing and IT training that support FM QSMO adoption.

Cooperative Purchasing: Yes
Set Aside: No
FSC/PSC Code : DB10

ATTACHMENT I - AUTHORIZED PARTICIPATING DEALERS

Carahsoft certifies that all dealers participating in the performance of this contract have agreed that their performance will be in accordance with all terms and conditions of this GSA Schedule.

For the complete listing of authorized participating dealers please see:

https://www.carahsoft.com/buy/gsa-schedule-contracts/gsa-multiple-award-schedule-contract/authorized-dealers

ATTACHMENT II – Contractor Team Arrangements

Schedule Contractors participating in a Contractor Team Arrangement must abide by all terms and conditions of their respective contracts. This includes compliance with Clause 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

For the complete listing of Contractor Team Arrangements, please contact Carahsoft for details.

ATTACHMENT III – Commercial Supplier Arrangements

For the complete list of Commercial Supplier Agreements vetted and approved by GSA for inclusion into the GSA Schedule Contract, please see: https://www.carahsoft.com/buy/gsa-schedule-contracts/approved-csas

ATTACHMENT IV A – U.S. Government Adobe FITARA Addendum

Introduction

This Federal Supply Schedule Addendum supplements GSA Federal Supply Schedule Contract Number GS-35F-0119Y between Carahsoft Technology Corporation and the General Services Administration.

The Adobe Category Management Offering addresses current OMB Memorandum's (M-16-04, M-16-12), Circular A-130, OFPP and, GSA Federal Cyber, electronic government and Category Management policy requirements.

The Adobe Data Centric Security and Electronic Signature Solutions provide the best-in-class technology to the federal government. Providing a streamlined avenue for agencies to acquire Adobe technology through category management will improve the acquisition and management of the proposed solutions.

Solution 1 — Adobe enterprise digital rights Category management

The Adobe Enterprise Digital Rights Management Bundle provides a DRM solution to documents allowing only people with specific credentials the ability to apply persistent protection to sensitive documents and information. With this level of dynamic protection you can revoke and change permissions within a document regardless of document location and you can protect against potential fraudulent activity. In addition, you can perform certificate based digital signatures on PDF documents when used with Acrobat*.

SKU	Description	List Price	GSA Price	Discount Level 1 >$5M Annual Spend*	Discount Level 2 >$15M Annual Spend*	Discount Level 3 >$20M Annual Spend*
210T-1423-DRM1	Adobe Enterprise Digital Rights Management Bundle 12 Months TERM Tier 1: Up to 1,000 Users	$405,600.00	$367,623.29	8%	15%	30%
210T-1423-DRM2	Adobe Enterprise Digital Rights Management Bundle 12 Months TERM Tier 2: Up to 5,000 Users	$625,600.00	$567,023.29	8%	15%	30%
210T-1423-DRM3	Adobe Enterprise Digital Rights Management Bundle 12 Months TERM Tier 3: Up to 10,000 Users	$1,251,200.00	$1,134,046.58	8%	15%	30%

210T-1423-DRM4	Adobe Enterprise Digital Rights Management Bundle 12 Months TERM Tier 4: Up to 25,000 Users	$2,777,400.00	$2,517,343.16	8%	15%	30%

Adobe Consulting Services are required with the purchase of each bundle listed above. The recommended number of hours per bundle are listed below.

- 210T-1423-DRM1 – Up to 165 Hours
- 210T-1423-DRM2 – Up to 330 Hours
- 210T-1423-DRM3 – Up to 330 Hours
- 210T-1423-DRM4 – Up to 490 Hours
- 210T-1423-DRM5 – Up to 670 Hours

Please note: the hours listed above are estimates. Each agency may require more or less hours depending on project scope. All service items are available to the government at the GSA Schedule Price.

*Discount Level Detail

Aggregate discounts are calculated on a per agency basis. Agencies are eligible for additional discounts based on the following;

- Level 1 Discount Level is reached when parent agency reaches annual spend of $5,000,000.00
- Level 2 Discount Level is reached when parent agency reaches annual spend of $15,000,000.00
- Level 3 Discount Level is reached when parent agency reaches annual spend of $20,000,000.00

Annual spend is calculated based on the total aggregate purchases made by any combination of sub agencies that fall underneath a parent agency in a 12 month period. The 12 month Period, or annual spend, is calculated based on the Adobe Fiscal Year which begins on December 1st. A full listing of eligible parent and sub agencies can be found on OPM.gov located HERE.

In addition to the bundle pricing and discounts offered in the chart above, Carahsoft would like to offer the government additional discounts for all Adobe Experience Manager and Analytics software available on the GSA Schedule. Upon the purchase of any bundle listed above the ordering agency will receive 7% off any additional** Adobe Term licenses. The initial period of performance for all eligible Adobe Term Licenses purchased will be 12 months. In the event an ordering organization should require a custom or pro-rated period of performance, we will work with the agency on a per opportunity basis. The additional 7% discount for add on licenses will be offered so long as ordering agency has an active DRM Bundle Term License.

We are dedicated to providing the Enterprise Digital Rights Management solution to all federal agencies regardless of agency size. The Adobe team welcomes the opportunity to support any ordering organization that may require less than 1,000 users and custom configurations may be discussed on a per opportunity basis.
Discounts cannot be combined with discounts offered on existing BPA's or contracts that an agency may have in place with Carahsoft or an authorized Adobe/Carahsoft reseller.
*Bundle requires supported version of Acrobat to be installed
**Additional discounts limited to Adobe Experience Manager and Analytics Software only, excludes services and training.

Solution 2 — Adobe Electronic Signatures category management

Adobe Sign

Adobe Sign is licensed in two ways: by signature transaction and by seat. The discounts below apply to either licensing model. Pricing for the following Adobe Sign products purchased shall be in accordance with the established GSA price list/rate less the applicable guaranteed minimum discount percentages specified in the table below. Current GSA SKU's and licensing models for Sign eligible for discounts listed below are;

Licensing Model: Per Seat/User

SKU	Description	List Price	GSA Price
210-7041-ES	Adobe Document Cloud for Enterprise - Premium eSign Services P2 - Per Seat - Purchase Min 5 Seats Req (300 Transactions per Seat Included) - 12 Months	$540.00	$527.76

Licensing Model: Per Transaction

SKU	Description	List Price	GSA Price
210-7041-T	Adobe Document Cloud for Enterprise - Premium eSign Services P2 - Per Transaction 1-300 Transaction Purchase Req (Existing eSign Account Required) – 12 Months	540.00	$527.76

Discounts are offered on a per total order basis as outlined in the table below:

Tier	Order Transaction Amount	Discount from GSA
Tier 1	$25,000.00 - $75,000.00	2%
Tier 2	$75,000.01 - $125,000.00	4%
Tier 3	$125,000.01 - $200,000.00	6%
Tier 4	$200,000.01 - $500,000.00	8%
Tier 5	$500,000.01 +	

*Discounts are not cumulative.

Discounts cannot be combined with discounts offered on existing BPA's or contracts that an agency may have in place with
Carahsoft or an authorized Adobe/Carahsoft reseller.

ATTACHMENT IV B – U.S. Government Nutanix FITARA Addendum

Introduction

This Federal Supply Schedule Addendum supplements GSA Federal Supply Schedule Contract Number GS-35F-0119Y between Carahsoft Technology Corporation and the General Services Administration.

The Nutanix Hybrid Cloud Infrastructure Category Management Offering addresses requirements of the Data Center Optimization Initiative (DCOI) established in OMB Memorandum M-16-19 and fulfills the data center requirements of the Federal Information Technology Acquisition Reform (FITARA).

Federal customers to date have selected configurations of Nutanix software, hardware and maintenance across 42 different configurations and 1,000s of individual part numbers. Our goal here is to offer incentives in the form of solutions of the Nutanix software, hardware and maintenance bought 90% of the time with full capabilities to build a hybrid cloud infrastructure. We also considered which of these configurations purchased line up consistently with what type of deployment, labeling each solution as such.

Incentives:

To enable agencies to quickly stand up Hybrid Cloud Infrastructure and incent them to leverage lessons learned from other agencies that have built Shared Services with Nutanix. Carahsoft and Nutanix are offering four types of Hybrid Cloud Infrastructure solutions and are described in detail with corresponding incentives offers for each:

- Hybrid Cloud Infrastructure Pilot/Micro Agency Solution (Solution 1)
- Hybrid Cloud Infrastructure Base Solutions (Solutions 2-4)
- Hybrid Cloud Infrastructure Scale out Solutions (Solutions 5-8)
- Hybrid Cloud Software Defined Datacenter Solutions (Solutions 9-10)

SOLUTION 1 Hybrid Cloud Infrastructure Pilot/Micro Agency Solution

Description: Hybrid Cloud Infrastructure Pilot/Micro Agency Solution

Ideal agency investment to prove out Hybrid Cloud infrastructure, train administrators & have an entry point at minimum cost for pilots or micro agencies. Quantity one would be offered per agency/micro agency. Nutanix would also provide specific to workloads: test plans, summary of expected outcomes, federal customer references and a total cost of ownership economic study.

1. **Solution 1:** Hybrid Cloud Infrastructure Base Solution - Nutanix Initial Pilot/Micro Agency

SKU	DESCRIPTION	LIST PRICE	GSA PRICE	Offer Price
422-HC-PLT- SLN	Solution 1: Hybrid Cloud Infrastructure Base Solution - Nutanix Initial Pilot/Micro Agency	$164,960.62	$153,460.85	$81,242.66

SOLUTIONS 2-4 Hybrid Cloud Infrastructure Base Solutions

Description: Hybrid Cloud Infrastructure Base Solutions

Hybrid Cloud Infrastructure Base Solutions with full Nutanix Hybrid Cloud Infrastructure capabilities 75% configured with descriptions that align with initial deployment strategy. Nutanix will offer this cumulative per year

volume incentive per agency, starting over annually. Carahsoft will track and report on agency by agency consumption. Nutanix would be interested in advice to incent government Shared Service centers.

2. **Solution 2:** Hybrid Cloud Infrastructure base Solution - Nutanix Enterprise Block
3. **Solution 3:** Hybrid Cloud Infrastructure base Solution - Nutanix Branch Office Block
4. **Solution 4:** Hybrid Cloud Infrastructure base Solution - Nutanix High Performance Flash Block

SKU	Description	List Price	GSA Price	Discount Level 1	Discount Level 2	Discount Level 3	Discount Level 4	Discount Level 5	Discount Level 6	Discount Level 7
422-HC-B-ENT-SLN	**Solution 2:** Hybrid Cloud Infrastructure Base Solution - Nutanix Enterprise Block	$225,305.74	$209,635.52	$203,376.78	$202,437.65	$200,559.39	$198,681.14	$186,083.36	$184,205.10	$181,387.72
422-HC-B-BRANCH-SLN	**Solution 3:** Hybrid Cloud Infrastructure Base Solution - Nutanix Branch Office Block	$96,240.99	$89,530.56	$86,863.62	$86,479.63	$85,711.65	$84,943.67	$78,125.57	$77,357.59	$76,205.62
422-B-FLASH-SLN	**Solution 4:** Hybrid Cloud Infrastructure Base Solution - Nutanix High Performance Flash Block	$523,995.56	$487,682.63	$473,062.67	$470,727.78	$466,057.99	$461,388.20	$444,603.14	$439,933.35	$432,928.67

Discount Level Detail

Aggregate discounts are calculated on a per agency basis. Agencies are eligible for additional discounts based on the following;

- Level 1 Discount Level is reached when parent agency purchases 1 solution each year
- Level 2 Discount Level is reached when parent agency purchases 2-5 total solutions each year
- Level 3 Discount Level is reached when parent agency purchases 6-10 total solutions each year
- Level 4 Discount Level is reached when parent agency purchases 11-20 total solutions each year
- Level 5 Discount Level is reached when parent agency purchases 21-40 total solutions each year
- Level 6 Discount Level is reached when parent agency purchases 41-99 total solutions each year
- Level 7 Discount Level is reached when parent agency purchases 100+ total solutions each year

See Workload Sizing Guide matrix below for the Solution number applied to enterprise workloads that are linear scalable. Therefore, multiples of sizing metrics can be matched to agency requirements per workload type to calculate ROMs. All sizing must be validated by Nutanix SEs, so workload mix on a single Nutanix Hybrid cloud infrastructure is considered.

SOLUTIONS 5-8 Hybrid Cloud Infrastructure Scale out Solutions

Description: Hybrid Cloud Infrastructure Scale out Solutions

Hybrid Cloud Infrastructure Scale out Solutions with full Nutanix hybrid cloud infrastructure capabilities 100% configured with descriptions that align with scale out deployment strategy. Nutanix will offer this cumulative per year volume incentive per agency, starting over annually. Carahsoft will track and report on agency by agency consumption. Nutanix would be interested in advice to incent government Shared Service centers.

5. **Solution 5:** Hybrid Cloud Infrastructure Scale out Solution - Nutanix Cold Storage Block
6. **Solution 6:** Hybrid Cloud Infrastructure Scale out Solution - Nutanix Enterprise Block
7. **Solution 7:** Hybrid Cloud Infrastructure Scale out Solution - Nutanix Branch Office Block
8. **Solution 8:** Hybrid Cloud Infrastructure Scale out Solution - Nutanix High Performance Flash Block

- Level 6 Discount Level is reached when parent agency purchases 41-99 total solutions each year
- Level 7 Discount Level is reached when parent agency purchases 100+ total solutions each year

SOLUTIONS 9-10 Hybrid Cloud Software Defined Datacenter Solutions

Description: Hybrid Cloud Software defined datacenter

Hybrid Cloud Software defined datacenter and Tactical platforms with Nutanix Hybrid Cloud Infrastructure capabilities, applicable to a strategy where it is ideal to source validated and Nutanix supported hardware infrastructure separately from the Nutanix software. Nutanix would consider cumulative per year volume incentive, starting over annually.

9. **Solution 9:** Hybrid Cloud Software defined datacenter Solution – 4 node software only enterprise
10. **Solution 10:** Hybrid Cloud Tactical infrastructure software Solution – 8 node software only tactical

SKU	Description	List Price	GSA Price	Discount Level 1	Discount Level 2	Discount Level 3	Discount Level 4
422-HC-SW-TACT-SLN	**Solution 9** Hybrid Cloud Software defined datacenter Solution	$81,600.00	$79,967.76	$74,419.20	$73,603.20	$72,787.20	$71,563.20
422-HC-SW-SSERV-SLN	**Solution 10** Hybrid Cloud Tactical Infrastructure Software Solution	$163,200.00	$159,935.52	$148,838.40	$147,206.40	$145,574.40	$143,126.40

Discount Level Detail

Aggregate discounts are calculated on a per agency basis. Agencies are eligible for additional discounts based on the following;

- Level 1 Discount Level is reached when parent agency reaches annual spend of $500,000.00
- Level 2 Discount Level is reached when parent agency reaches annual spend of $1,000,000.00
- Level 3 Discount Level is reached when parent agency reaches annual spend of $2,000,000.00
- Level 4 Discount Level is reached when parent agency reaches annual spend of $5,000,000.00

Sizing is specific to Nutanix partner hardware platforms and available upon request from Nutanix systems engineers. All Nutanix validated and supported partner hardware platforms build and deploy systems by node count. Eight and four node solutions were selected because that is the full scale out configuration of the individual partner hardware platforms for enterprise and tactical solutions.

Nutanix Software capabilities that are included with each of the solutions to enable the Nutanix Hybrid Cloud infrastructure regardless of whether the hardware is procured from Nutanix or separately from a Nutanix certified and supported hardware vendor:

Webscale hyper converged architecture, Nutanix Acropolis application mobility fabric, Acropolis distributed storage fabric, PRISM Enterprise management, Acropolis hypervisor, Acropolis file services, Acropolis block services, Acropolis Container services, Nutanix Cloud Connect, Shared Service self-service portal, data locality, data tiering, compression, de- duplication, security hardening, security control monitoring, security control breach automated remediation, NIST security control documentation for ATO, 1 year HW and SW maintenance including all software updates with 24x7x365 phone support - 4 hr response with non-returned disk service.

ATTACHMENT IV C - U.S. Government VERITAS FITARA Addendum

Introduction

Veritas Enterprise Data Management empowers government departments, on the federal and local level, to combine key capabilities from a family of solutions that reduces complexity, streamlines operations, and empowers agencies to recognize enormous business value.

With Veritas Enterprise Data Management solutions, federal agencies can have the insight and availability they need to understand what information they have, know how to keep it protected, and realize what they should delete. This leads to the best possible return on information (ROI): the ability to gain better visibility and insight into unstructured data and to control, store, and protect citizen information.

SOLUTIONS — Enterprise Data Management Solutions

Carahsoft will provide the following Veritas Enterprise Data Management Solutions through the GSA Schedule at the following discount options.

Product Family	Description/Business Value
360 DATA MANAGEMENT	Veritas 360 Data Management offerings provide data visibility, compliance readiness, business continuity, data protection and recoverability, while maintaining data/workload portability and storage optimization All product SW/HW components are included *See Bundle Information on page
DATA INSIGHT	Veritas Data Insight helps organizations improve unstructured data governance to reduce costs, reduce risk, and achieve compliance through actionable intelligence into data ownership, usage, and access controls All product SW components
EDISCOVERY	From ECA and keywords to concepts and TAR, Veritas' eDiscovery Platform provides the ultimate analysis toolkit for isolating potentially relevant items, revealing context, and prioritizing what's most important 8100/8200 APPLIANCES, Collector SW all included
EV 247	EV 247 frees customers from the overheads of owning, running, or managing email and file archives by leveraging Microsoft Azure cloud platforms, powered by the world's leading archiving technology. This is a cloud platform, software archiving solution, and managed service all in one All product SW components, cloud storage, and management fees are included
INFOSCALE	Veritas InfoScale minimizes downtime by providing high availability and disaster recovery over any distance for your critical business services, including individual databases, custom applications, and complex multitier applications across physical and virtual environments All product SW components included

Enterprise Data Management Platform – Aggregate (Both Product & Services) Agency Spend with Initial Enterprise Support and Service Option from Below	**Discount Level 1 >$3M Annual Spend***	**Discount Level 2 >$8M Annual Spend***	**Discount Level 3 >$15M Annual Spend***
	2%	5%	10%

One of the following Veritas Consulting Services are strongly recommended with the purchase of each product family listed above. The Service Descriptions and recommended number of hours per family is listed below:

Service Option	Service Personnel	Service Description
1	Business Critical Services Assist (BCS) – Proactive Product Account Management	Business Critical Services (BCS) Assist. Provides a designated, accountable Business Critical Coordinator (BCC) to oversee, support delivery, and assist with case management and escalations during local business hours for rapid response, priority queuing, helps ensure preventable issues don't recur (through quarterly reporting), and that solutions and recommendations are documented for future reference.

2	Remote Product Specialist (RPS) - On- Call, Dedicated Specialist	Remote Product Specialists (RPS). Get your mission critical application up and running as quickly as possible in the event of an issue or an unplanned outage. Includes an assigned, advanced level product expert to personalize your support experience and ensure priority call queuing.
3	On-Site Business Critical Engineer (BCE) - On-Site Resource	A Business Critical Engineer (BCE). Optimizes the Veritas environment. The BCE can minimize downtime by identifying potential issues before they impact performance and help optimize solutions so that each product feature is used fully to maximize the value from your software investment

Recommended Minimum by Discount Level – Services Only

		Recommended Service Options		
Aggregate Revenue for Agency	**Services Discount Level**	**BCS**	**RPS**	**BCE Consultant FTE = 2040 hrs**
$0 - $8M	Discount Level 1 (2%)	1 / per product	1/ per product	500 Hours
$8M - $15M	Discount Level 2 (5%)	1 / per product	1 / per product	1,020 Hours
>$15M	Discount Level 3 (10%)	2 / per product	2 / per product	2,040 Hours

SUPPORT SKUs for NetBackup

For any agency with NetBackup currently installed or with the initial purchase of NetBackup, premier services offerings are available through the following bundles on the Carahsoft GSA. Offered skus are inclusive of Netbackup licensing, estimated service hours below, and either a SW or HW based Netbackup appliance.

As a rule of thumb, Veritas and Carahsoft recommend the following estimates of service hours in support of our software installations. These estimates are based on Front End TB count of the backup environment:

- < 100TB – 80 hours
- 101-250TB – 120 hours
- 250-500TB – 180 hours
- > 500TB – 240 hours

Please note: the hours listed above are estimates. Each agency may require more or less hours depending on project scope. All service items are available to the government at the full GSA Schedule price.

Per Agency Aggregate Spend Detail

Aggregate discounts are calculated on a per agency basis. Agencies are eligible for additional discounts based on the following:

- Level 1 Discount Level is reached when parent agency reaches annual spend of $3,000,000.00
- Level 2 Discount Level is reached when parent agency reaches annual spend of $8,000,000.00
- Level 3 Discount Level is reached when parent agency reaches annual spend of $15,000,000.00

Annual spend is calculated based on the total aggregate purchases made by any combination of sub agencies that fall underneath a parent agency in a 12 month period. The 12 month Period, or annual spend, is calculated based on the ***Veritas Fiscal Year which begins on April 1st***. A full listing of eligible parent and sub agencies can be found in the Appendix.

The initial period of performance for all support/maintenance contracts that come with eligible Veritas Licenses purchased will be 12 months. In the event an ordering organization should require a custom or pro -rated period of performance, we will work with the agency on a per opportunity basis.

We are dedicated to providing the Enterprise Data Management solutions to all federal agencies regardless of agency size. The Veritas team welcomes the opportunity to support any ordering organization that may require less than 1,000 users and custom configurations may be discussed on a per opportunity basis.

Discounts cannot be combined with discounts offered on existing Blanket Purchase Agreements or contracts that an agency may have in place with Carahsoft or an authorized Veritas/Carahsoft reseller.

ATTACHMENT V – Approved IT Manufacturers

Approved IT Manufacturers:

Please reference GSA eLibrary: GSA eLibrary Contractor Information

Promotions:

Quantity Discounts applicable to the purchase of **ElasticSearch Federal, Inc. Products**

General Qualification Criteria

- GSA discount is based on the cumulative annual volume of then-active orders under Carahsoft's GSA Schedule at the time of quoting. The annual volume discount tiers are calculated independently for each specific offering (Self-Managed or FedRAMP Moderate Cloud), and spend is not transferable or cumulative between the two offerings or with any other offering.
- GSA discounts applicable only to:
    - GSA orders purchased directly from Carahsoft through its GSA Schedule and under the terms of the Distribution Agreement between Elastic and Carahsoft, dated June 14, 2021.
    - Orders executed on or before **September 30th, 2027,** unless Elastic, in its sole discretion, explicitly approves discounts related to Orders executed after that date in writing.
    - The Elastic Products described in the below tables, specifically "Federal Enterprise Resource Unit - 64 GB" for Self-Managed and "Elasticsearch Service - GovCloud" for FedRAMP Moderate Cloud.
- The following do not contribute to cumulative annual volume:
    - Active orders executed prior to the modification of Carahsoft's GSA Schedule, which incorporates the below discounts.
    - Contracts or orders executed outside of Carahsoft's GSA Schedule
- GSA discounts are not valid with any other offer and may not be combined with any other offer, alternative discounting program, or promotions.
- The Total Discount being offered is off the List price and is not in addition to the basic discount, the total discount includes the basic discount.
- The GSA Advantage published price represents the discount at tier 1.

Self-Managed: **SBF-ENT-ADV**

Annual Volume	**GSA Discount**	**Product**	**Note(s):**
$0 - $60,000,000	27.5%	Federal Enterprise Resource Unit - 64 GB	Qualifying discount off Commercial List Price in spend band

Carahsoft Google Cloud GSA Discount Program Usage Terms:

Upon purchasing GSA MAS approved SKU GCP-PLTFM-BID, customer will receive administrator privileges to a Google Cloud billing account ID where Google Cloud resources can be accessed by creating projects. Customer usage will be invoiced based on consumption monthly in arrears. Monthly invoices will include Google Cloud service usage reports showing volume of consumption and applicable discounts by resource. Customer is responsible for all charges associated with a Google Cloud billing account during and after the period of performance of a purchase agreement. Discontinuing consumption billing will require **customer removal of projects** from the Google Cloud billing account ID. Contact GoogleSupport@Carahsoft.com for assistance with removing projects from a Google Cloud billing account ID.

Promotional Discount Period: During promotional period, which is in effect through **June 30th, 2026**, Carahsoft GSA MAS GCP-PLTFM-BID SKU will include a 20% discount off MSRP for the following SKU groups:
Cloud Enterprise 2025
https://cloud.google.com/skus/sku-groups/cloud-enterprise-2025
Standard VMs (1 Year CUD)
https://cloud.google.com/skus/sku-groups/standard-vms-1-year-cud
Standard VMs (3 Year CUD)
https://cloud.google.com/skus/sku-groups/standard-vms-3-year-cud
Local SSDs (1 Year CUD)
https://cloud.google.com/skus/sku-groups/local-ssds-1-year-cud
Local SSDs (3 Year CUD)
https://cloud.google.com/skus/sku-groups/local-ssds-3-year-cud

During promotional period, which is in effect through **June 30th, 2026**, Carahsoft GSA MAS GCP-PLTFM-BID SKU will include a 50% discount for network standard egress, premium GCE egress and the following SKUs:

- Cloud Storage | BandwidthDownloadAmerica | 22EB-AAE8-FBCD
- Cloud Storage | BandwidthDownloadAsia | 1F8B-71B0-3D1B
- Cloud Storage | BandwidthDownloadAustralia | 9B2D-2B7D-FA5C

Exclusions:
Google Cloud console resources consumed outside of these SKU groups will be billed at standard GSA rates.

Google Gemini for Government – GSA Promotional Program:

1. Promotional discount term: August 22nd, 2025 – September 30th, 2026

    a. If an Agency elects to make a purchase of the Gemini for Government promo SKU at any time during the Gemini for Government Promotion Discount Period, they will receive the promotional Discounted Price of $0.47 for 12 months from the purchase date.

    b. Qualifying customers: Federal agencies of any executive agency or independent establishment in the legislative or judicial branch of the Government (except the Senate, the House of Representatives, the Architect of the Capitol, and any activities under the Architect's direction).
    "Executive agency" means an executive department, a military department, or any independent establishment within the meaning of 5 U.S.C.101, 102, and 104(1), respectively, and any wholly owned Government corporation within the meaning of 31 U.S.C. 9101.

    c. No overages will be charged – usage will be throttled once usage quotas for corresponding user count have been reached. Additional capacity available by adding additional users. No maximum number of users per Agency and no additional charges for adding additional users during promotional period.

    d. Upon expiration of promotional period, agencies that choose to renew will need to pay for the services at the then current GSA price under a per user per month basis. Customers may be eligible for volume-based discounts based on user count.

Microsoft Volume Licensing

Microsoft is providing the following OneGov special offers available through the General Services Administration (GSA) Multiple Award Schedule (MAS). Eligible federal government customers may elect to participate in any or all of the special offers by purchasing from one of seven Microsoft LSPs with an existing GSA MAS contract. Special Offers will be documented in the applicable Amendment and Channel Price Sheet (CPS) executed between Microsoft, the Microsoft LSP partner, and the federal government customer. Any and all discounts described herein are not applicable to pre-existing products sales.

Section 1: Summary of Offers

Offer Name	Offer	Details	Offer Period
OneGov Custom M365 G5 + M365 Copilot Suite	M365 Copilot provided at no additional cost until the next anniversary date of existing Enrollment Year 2: 25% G5 &50% Copilot discount Year 3: 25% G5 &25% Copilot discount	This offer is valid to Net New and Incremental Copilot sales for the Bridge sku. Pre-existing Copilot purchases can be converted to Suite sku at anniversary (CPS required). First Year Offer: (existing) M365 G5 subscription + $0 M365 Copilot Step Up SKU (no change to underlying SKUs) • Requires Supplemental CPS Second and Third Year Offer: Discounted Price using Lead Status OneGov G5+Copilot Suite SKU • Requires Revised Final CPS Available to: All USG Federal Customers across GCC, GCC High & DOD environments. Excludes Commercial, Secret/Top Secret	Customers can opt in through 9/30/2026. Valid for 3 contract years post-award; may cross contracts. (Latest possible end date 2029) No minimum commitment required.
OneGov Custom M365 Copilot Agents SKU	Unlimited agents $8.64MRP per user per month for non-G5 users	This offer is complementary to the G5+Copilot Suite; it is for non-G5 users to be able to provide enterprise-wide availability of Copilot across all Users. • Requires Supplemental CPS Example for clarity - A customer with 10,000,users: 8,000 G5 users purchase OneGov G5&Copilot Suite + 2,000 F5 users purchase Copilot Agents sku = 100% Enterprise Copilot coverage Excludes Commercial, Secret/Top Secret	Discounts enabled when enterprise-wide coverage is validated and customer opts in through 9/30/2026 Valid for 3 contract years post-award; may cross contracts. (Latest possible end date 2029)

M365 G3 Step Up to M365 G5 Suite	70% Discount for G5 Step-Up SKU	All existing M365 G3 USG Federal Customers at the time of public announcement of the offer across GCC, GCC High & DOD environments/tenants. Excludes Commercial, Secret/Top Secret If USG Federal Customer selects only the Microsoft 365 G3 to G5 Step-Up Offer, they receive a 70% discount for up to the remainder of the existing enrollment. If the customer combines the M365 G3 to G5 Step-Up offer with the M365 G5 + Copilot Suite offer, the discount structure is as follows: Year 1: M365 G3 to G5 Step with 70% Discount and Copilot Bridge with $0 Cost. Requires Supplemental CPS Year 2: M365 G5 + M365 Copilot Suite, which includes 25% G5 discount and 50% Copilot discount. Requires Revised Final CPS Year 3: M365 G5 + M365 Copilot Suite, which includes 25% G5 discount and 25% Copilot discount. Requires Revised Final CPS	Customers can opt in through 9/30/2028. Valid through full contract PoP; may cross contracts. (latest possible end date 2033) No minimum user commitment
Entra Governance ID	Discount of 75% on Eligible Entra ID Governance SKUs	Receive 75% discount on Net New and Incremental Sales of Entra ID Governance for up to 12 months on applicable SKUs across Commercial, GCC, GCCH and DoD Clouds Excludes Secret/Top Secret	Discounts enabled when customer opts in through September 30, 2026, and pricing is valid thru Customer's next anniversary. No minimum user commitment required.

Dynamics 365	100% Discount on Eligible SKUs	This offer is valid for Net New and Incremental sales for up to 12 months on applicable SKUs • Requires Supplemental CPS Eligible Dynamics 365 Product Families include: • D365 Customer Service • Supply Chain Management • Contact Center • Field Service Customer required to confirm selected part numbers from available Product Families via CPS/End user quote. Excludes Secret/Top Secret	Discount enabled when Customer opts in through September 30, 2026, and pricing is valid thru Customer's next anniversary. Only SKUs provided on the CPS will receive the special offer discounted pricing No minimum user commitment required.
Cyber Security and Monitoring	Discount of 50% on Eligible SKUs	Offer is 50% discount on Net New and Incremental sales of Eligible SKUs: • Microsoft Sentinel • Azure Monitor • Log Analytics • Data Retention Customer required to confirm selected part numbers from available Product Families via CPS/End user quote. Requires Revised Final or Supplemental CPS Excludes Secret/Top Secret	Discount enabled when customer opts in for the eligible SKUs Only SKUs provided on the CPS will receive the special offer discounted pricing; Valid through full enrollment PoP (latest possible end date 2031); may cross contracts

Department: Information Technology

STAFF RECOMMENDATION (Motion Ready):
Approve one-year renewal with Dell Technologies for software and hardware maintenance and support in an estimated expenditure of $90,779

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
In 2021, Ocala Electric Utility (OEU) completed a capital improvement project to replace server hypervisors and network switches with the Dell VxRail system for the Electric SCADA network. Due to this network's mission-critical nature, a newer, more redundant architecture was established to increase the system's availability, resiliency, security, and reliability. The systems were provisioned with an initial three-year hardware and software warranty and subsequent one-year renewals.

FINDINGS AND CONCLUSIONS:
The first one-year hardware and software warranty renewal is coming to an end, and a continuing software and

hardware maintenance agreement must be renewed for the City to continue utilizing the existing hardware. These systems are mission-critical to the City's ability to provide safe and reliable power to citizens. The annual renewal includes ProSupport Plus Mission Critical support, which offers four-hour hardware replacements in case of a hardware failure and 24/7 technical support.

As a political subdivision of Florida, the City of Ocala qualifies as an eligible user of Florida Department of Management Services (DMS) alternate contract source (ACS) agreements under Rule 60A-1.001, Florida Administrative Code. ACS agreements have been competitively solicited by governmental agencies and evaluated and determined by the Florida Secretary of Management Services to be cost-effective and to afford the best value. DMS's ACS Agreement for Computer Equipment, Peripherals, and Related Services, Contract 43210000-23-NASPO-ACS, is effective for a twenty-month term commencing on October 24, 2023, and expiring on June 30, 2025.

FISCAL IMPACT:
Funds for the annual renewal of $90,778.63 are budgeted in Fiscal Year 2024-25 and will be paid from encumbered funds in the below accounts under Munis Contract No. ITS/250378.

Software - 457-032-277-531-53-52050 = $47,951.14
Hardware - 457-032-277-531-53-52055 = $42,827.49

PROCUREMENT REVIEW:
These goods and services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
N/A. The City's standard and approved Purchase Order terms and conditions shall govern this purchase. Any conflicting terms and conditions offered by the suppliers will be reviewed for form and legality by City Attorney, William E. Sexton.

Presentation By: Christopher Ramos

Department: Information Technology

FORMAL TITLE:
Utilization of a cooperative purchasing agreement with Government Finance Officers Association for consulting services in an amount not to exceed $233,000

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The Government Finance Officers Association (GFOA) is a nonprofit, vendor-neutral professional association that advances excellence in state and local government finance through best practices, training, research, and consulting.

Through its Research and Consulting Center, GFOA provides objective enterprise resource planning (ERP) advisory services centered on governance, business-process improvement, requirements definition, procurement support, and implementation oversight. ERP systems are integrated software platforms that support core administrative functions across multiple departments, typically including finance, budget, procurement, human resources, payroll, and time management.

Under the scope of consulting services to be provided, GFOA will evaluate how the City of Ocala's current administrative processes operate within the City's current ERP system (Tyler Technologies' Munis) and from that evaluation subsequently map "as-is" workflows and document "to-be" processes aligned to modern best practices. GFOA will then develop functional requirements and a needs assessment/action plan to ready the organization, and-if a new system is pursued-assist with scope development for a competitive solicitation, serve in an advisory capacity for review of vendor proposals as well as during contract negotiations to mitigate risk and ensure accountability.

Alternatively, should the City elect to retain Munis, GFOA can provide implementation advisory services to optimize existing processes, policies, and prerequisite readiness tasks.

FINDINGS AND CONCLUSIONS:

These consulting services will help Ocala evaluate and document current processes within Munis, identify opportunities for improvement, and develop a strategic action plan. Staff recommends GFOA because of its nationally recognized expertise in ERP advisory services, including governance, process improvement, and best -practice guidance for public-sector organizations. GFOA is vendor-neutral and has successfully assisted hundreds of governments, including many in Florida, with similar projects.

On December 10, 2025, the Information Technology Department sought a procurement exception to piggyback the contract awarded to GFOA by Mono County, California. Mono County competitively solicited business process review and project management consulting services for their new ERP system under Request for Proposals No. 250746. Two vendors responded and on June 18, 2024, the contract was awarded to GFOA for an initial term of five years ending June 30, 2029. GFOA has agreed to extend pricing and services to the City of Ocala under essentially the same terms and conditions as the Mono County Agreement.

Task/Deliverable	Milestone	Mono County Contract	Price for Ocala
1	**Project Planning**		
1-A	Project Management Documents	$8,000	$8,000
2	**Process Improvement**		
2-A	Process Analysis	$25,000	$25,000
2-B	Future State Documentation	$20,000	$20,000
OPTION – 2-C	Expanded Process List (2-A and 2-B)	Not Included	$10,000
3	**Goals and Requirements**		
3	Requirements	$10,000	$10,000
4	**Action Plan**		
4-A	Needs Assessment Report	$25,000	$25,000
4-B	Action Plan	$5,000	$5,0000
5	**Develop RFP**		
5	RFP	$10,000	$10,000
6	**Evaluation Strategy**		
6	Evaluation Guidebook	$7,500	$7,500
6	**Evaluation and Selection of Vendor**		
6-A	Proposal Assessment	$25,000	$25,000
6-B	Demo Scripts and Facilitation	$15,000	$15,000
6-C	Request for Clarification / Discovery	$10,000	$10,000
7	**Prerequisites**		
7	Chart of Accounts	$20,000	$20,000
7	Hourly at $275/hour	Not Included	$30,000
8	**Contract Negotiations**		
8	Contract Negotiations	$12,500	$12,500
TOTAL NOT-TO-EXCEED PRICE for PHASE 1, 2 and 3		**$193,000**	**$233,000**
9	**Implementation Advisory Services (IAS)***		
9-TE	IAS Services ($275/hour (estimate 600 hours)	$165,000	$165,000
10	**Post Project Reviews***		
10-TE	Project Reviews ($275/hour (estimate 100 hours)	$27,500	$27,500
NOT-TO-EXCEED PRICE for PHASE 4		**$385,500**	**$415,500**
TOTAL PRICE			

The Information Technology Department has met with three local government agencies that had previously used GFOA consulting services for their ERP initiatives. All three confirmed that GFOA was instrumental in reviewing existing processes, documenting workflows, defining requirements for their next ERP system, and assisting with RFP development and vendor selection. These positive endorsements reinforce the City's confidence that GFOA's expertise will provide significant value and reduce risk as Ocala evaluates its ERP strategy.

The City is pursuing these services because Munis has not fully met operational needs. While Munis provides core functionality, departments still rely on manual processes for certain workflows, reducing efficiency and increasing error risk. User adoption and ease of use have also been sources of concern, as some processes require complex navigation that slows productivity and increases training requirements. Additionally, contract management within the system has proven cumbersome, creating inefficiencies in tracking and compliance. These issues have prompted the City to evaluate whether optimizing Munis or transitioning to a new ERP system would better support critical functions.

Staff recommends approval of this engagement.

FISCAL IMPACT:
Funds for the consulting services will be budgeted/encumbered in account #001-035-530-516-51-31010 and will be paid under Munis Contract No. 260309.

If the City elects to retain the Tyler Technologies Munis system, the GFOA consulting services fee will follow the "Alternative Pricing" and will be reduced to $93,000. Any future charges will be billed at $275 per hour for advisory and project review services.

Section IV – Alternative Pricing

In the event that the City selects to not move forward with the procurement of a new ERP system, GFOA will modify pricing to facilitate implementation of GFOA's action plan focused on business process improvements, policy change, or optimized use of the existing Tyler Technologies ERP system. Below presents an alternative price schedule without procurement of a new system.

Task/Deliverable	Milestone	Mono County Contract	Price for Ocala
1	**Project Planning**		
1-A	Project Management Documents	$8,000	$8,000
2	**Process Improvement**		
2-A	Process Analysis	$25,000	$25,000
2-B	Future State Documentation	$20,000	$20,000
3	**Goals and Requirements**		
3	Requirements	$10,000	$10,000
4	**Action Plan**		
4-A	Needs Assessment Report	$25,000	$25,000
4-B	Action Plan	$5,000	$5,000
TOTAL NOT-TO-EXCEED PRICE for PHASE 1, 2 and 3		**$93,000**	**$93,000**
9	**Implementation Advisory Services (IAS)***		
9-TE	IAS Services ($275/hour (estimate 600 hours)	$165,000	$165,000
10	**Post Project Reviews***		
10-TE	Project Reviews ($275/hour (estimate 100 hours)	$27,500	$27,500
NOT-TO-EXCEED PRICE for PHASE 4		**285,500**	**$285,500**
TOTAL PRICE			

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

COOPERATIVE PURCHASING AGREEMENT FOR INTERNAL BUSINESS PROCESS REVIEW AND PROJECT MANAGEMENT CONSULTING SERVICES

THIS COOPERATIVE PURCHASING AGREEMENT FOR INTERNAL BUSINESS PROCESS REVIEW AND PROJECT MANAGEMENT CONSULTING SERVICES ("Piggyback Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **GOVERNMENT FINANCE OFFICERS ASSOCIATION**, a foreign not-for-profit corporation duly organized in the state of Illinois and authorized to do business in the state of Florida (EIN: 36-2167796) ("Contractor").

WHEREAS, after a competitive procurement process, the County of Mono, California ("Mono County") entered into an Agreement with the Government Finance Officers Association for the Provision of Internal Business Process Review and Project Management Consulting Services (the "Mono County Agreement"); and

WHEREAS, in accordance with Chapter 287, Florida Statutes and the City of Ocala's contracting and procurement policies and procedures, City has the legal authority to "piggyback" the purchase of goods and services as contracted by another governmental entity as a form of inter-governmental cooperative purchasing when seeking to utilize the same or similar services provided for in said contract; and

WHEREAS, City desires to purchase labor, services, and materials for the provision of internal business process review and project management consulting services pursuant to essentially the same terms and conditions provided under the Mono County Agreement as applicable and amended by the terms and conditions of this Piggyback Agreement; and

WHEREAS, Contractor agrees to extend the terms, conditions, and pricing of the Mono County Agreement to the City of Ocala, subject to the terms and conditions of the Piggyback Agreement.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS.** City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **DEFINITIONS.** As used in this Piggyback Agreement, the following terms shall have the meaning specified below:
   A. **Piggyback Agreement:** shall mean this Cooperative Purchasing Agreement for Internal Business Process Review and Project Management Consulting Services as it may from time to time be amended or modified pursuant to its terms and provisions.
   B. **Mono County Agreement:** shall mean the Agreement between Mono County and the Government Finance Officers Association and its exhibits, as amended and attached hereto as **Exhibit A – Mono County Agreement.**
3. **INCORPORATION OF MONO COUNTY AGREEMENT.** The Mono County Agreement attached hereto as **Exhibit A** is hereby incorporated by reference as if set forth herein in its entirety. However, to the extent that any terms and conditions set forth in the Mono County Agreement conflict with any of the amended or supplemental terms and conditions set forth in this Piggyback Agreement, then the amended and supplemental terms and conditions set forth in this Piggyback Agreement shall be given precedence.

4. **CONTRACT DOCUMENTS.** The Contract Documents which comprise the entire understanding between City and Contractor shall only include this Agreement and those documents listed in this section as Exhibits to this Agreement. Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

   Exhibits to Agreement: The Exhibits to this Agreement are as follows:

   A. Exhibit A: Mono County Agreement (A-1 through A-14)

   B. Exhibit B: Contractor Proposal (B-1 through B-30)

5. **AMENDED TERMS AND CONDITIONS.** The following terms and conditions of the Mono County Agreement are modified and replaced, in their entirety, as follows:

   A. The terms "County of Mono," or "County" shall be replaced and intended to refer to the "City of Ocala."

   B. **COMPENSATION.** City shall pay Contractor a price not to exceed the maximum limiting amount of **TWO HUNDRED THIRTY-THREE THOUSAND AND NO/100 DOLLARS ($233,000)** over the contract term for the performance of the work and in accordance with the contract documents based on the most current prices set forth in **Exhibit A – Mono County Agreement**.

   C. **TIME FOR PERFORMANCE.** This Agreement shall become effective and commence on **FEBRUARY 18, 2026** and continue through and including **JUNE 30, 2029**.

   D. **Invoice Submission**. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and Invoice Date. Contractor shall submit the original invoice through the responsible City Project Manager at: City of Ocala Information Technology Department, 210 SE Watula Avenue, Ocala, Florida 34471, Attn: **Christopher Ramos,** E-Mail: cramos@ocalafl.gov, Office: 352-629-8209.

   E. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

   F. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

   G. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

H. **Amounts Due to the City.** Contractor must be current and remain current in all obligations due to the City during the performance of services under the Agreement. Payments to Contractor may be offset by any delinquent amounts due to the City or fees and/or charges owed to the City.

I. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

6. **COMMERCIAL AUTO LIABILITY INSURANCE**. Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.

7. **GENERAL LIABILITY INSURANCE.** Contractor shall procure and maintain, for the life of this Agreement, commercial general liability insurance with minimum coverage limits not less than:

   A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for bodily injury, property damage, and personal and advertising injury; and
   B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for products and completed operations.
   C. Policy must include coverage for contractual liability and independent contractors.
   D. Policy must include Additional Insured coverage in favor of the City that is no less restrictive than that afforded under the CG 20 26 04 13 Additional Insured Form.

8. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Worker's Compensation insurance shall be provided by Contractor as required by Chapter 440, Florida Statutes, or any other applicable state or federal law, including the U.S. Longshoremen's and Harbor Workers Compensation Act and the Jones Act.

   A. Contractor shall similarly require any and all subcontractors to afford such coverage for all of its employees as required by applicable law.

   B. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent.

   C. Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.

9. **ADDITIONAL INSURANCE REQUIREMENTS.**
   A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as

limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.

B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.

C. **Certificates of Insurance**. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.gov.** Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. **City as Additional Insured**. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation, Auto Liability (except when required by Risk Management) and Professional Liability policies**. Workers Compensation policy must contain a Waiver of Subrogation in favor of the City**.

E. **Notice of Cancellation of Insurance**. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.gov.

F. **Failure to Maintain Coverage**. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. **Severability of Interests**. Contractor shall arrange for its liability insurance to include or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

10. **PUBLIC RECORDS.** Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, Contractor shall:

    A. Keep and maintain public records required by the public agency to perform the service.

    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if Contractor does not transfer the records to the public agency.

    D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of Contractor or keep and maintain public records required by the public agency to perform the service. If Contractor transfers all public records to the public agency upon completion of the contract, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Contractor keeps and maintains public records upon completion of the contract, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.gov; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

11. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.

12. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.

13. **E-VERIFY.** Pursuant to section 448.095, Contractor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Contractor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Contractor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Contractor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Contractor may

lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Contractor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.

14. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
15. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.
16. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.
17. **INDEMNITY.** Contractor shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from, all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Contractor, its agents, and employees.
18. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.
19. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	Government Finance Officers Association Attention: Michael J. Mucha 660 N Capital Street, NW Washington, DC 20001 Phone: 202-393-8020 E-mail: mmucha@gfoa.org
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

20. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

21. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

22. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
23. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
24. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
25. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
26. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
27. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.
28. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
29. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
30. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.
31. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations,

understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.

32. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on _____.

AGREEMENT BETWEEN COUNTY OF MONO AND GOVERNMENT FINANCE OFFICERS ASSOCIATION FOR THE PROVISION OF INTERNAL BUSINESS PROCESS REVIEW AND PROJECT MANAGEMENT CONSULTING SERVICES

INTRODUCTION

WHEREAS, the County of Mono (hereinafter referred to as "County") may have the need for the services of Government Finance Officers Association of the United States and Canada (hereinafter referred to as "Contractor"), and in consideration of the mutual promises, covenants, terms and conditions hereinafter contained, the parties hereby agree as follows:

TERMS AND CONDITIONS

1. SCOPE OF WORK

Contractor shall furnish to County, upon its request, those services and work set forth in Attachment A, attached hereto and by reference incorporated herein. Requests by County to Contractor to perform under this Agreement will be made by the Director of Administration, or an authorized representative thereof. Requests to Contractor for work or services to be performed under this Agreement will be based upon County's need for such services. County makes no guarantee or warranty, of any nature, that any minimum level or amount of services or work will be requested of Contractor by County under this Agreement. By this Agreement, County incurs no obligation or requirement to request from Contractor the performance of any services or work at all, even if County should have some need for such services or work during the term of this Agreement.

Services and work provided by Contractor at County's request under this Agreement will be performed in a manner consistent with the requirements and standards established by applicable federal, state, and county laws, ordinances, and resolutions. Such laws, ordinances, regulations, and resolutions include, but are not limited to, those that are referred to in this Agreement.

This Agreement is subject to the following Exhibits (as noted) which are attached hereto, following all referenced Attachments, and incorporated by this reference. In the event of a conflict between the terms of an attached Exhibit and this Agreement, the terms of the Exhibit shall govern:

- ☐ **Exhibit 1**: General Conditions (Construction)
- ☐ **Exhibit 2**: Prevailing Wages
- ☐ **Exhibit 3**: Bond Requirements
- ☐ **Exhibit 4**: Invoicing, Payment, and Retention
- ☐ **Exhibit 5**: Trenching Requirements
- ☐ **Exhibit 6**: Federal Contracting Provisions
- ☐ **Exhibit 7**: CDBG Requirements
- ☐ **Exhibit 8**: HIPAA Business Associate Agreement
- ☐ **Exhibit 9**: Other _____

2. TERM

The term of this Agreement shall be from July 1, 2024, to June 30, 2029, unless sooner terminated as provided below.

3. CONSIDERATION

A. Compensation. County shall pay Contractor in accordance with the Schedule of Fees (set forth as Attachment B) for the services and work described in Attachment A that are performed by Contractor at County's request.

B. Travel and Per Diem. Contractor will not be paid or reimbursed for travel expenses or per diem that Contractor incurs in providing services and work requested by County under this Agreement, unless otherwise provided for in Attachment B.

C. No Additional Consideration. Except as expressly provided in this Agreement, Contractor shall not be entitled to, nor receive, from County, any additional consideration, compensation, salary, wages, or other type of remuneration for services rendered under this Agreement. Specifically, Contractor shall not be entitled, by virtue of this Agreement, to consideration in the form of overtime, health insurance benefits, retirement benefits, disability retirement benefits, sick leave, vacation time, paid holidays, or other paid leaves of absence of any type or kind whatsoever.

D. Limit upon amount payable under Agreement. The total sum of all payments made by County to Contractor for services and work performed under this Agreement shall not exceed $385,500 (hereinafter referred to as "Contract Limit"). County expressly reserves the right to deny any payment or reimbursement requested by Contractor for services or work performed that is in excess of the Contract Limit.

E. Billing and Payment. Contractor shall submit to County, on a monthly basis, an itemized statement of all services and work described in Attachment A, which were done at County's request. The statement to be submitted will cover the period from the first (1st) day of the preceding month through and including the last day of the preceding month. Alternatively, Contractor may submit a single request for payment corresponding to a single incident of service or work performed at County's request. All statements submitted in request for payment shall identify the date on which the services and work were performed and describe the nature of the services and work which were performed on each day. Invoicing shall be informative but concise regarding services and work performed during that billing period. Upon finding that Contractor has satisfactorily completed the work and performed the services as requested, County shall make payment to Contractor within 30 days of its receipt of the itemized statement. Should County determine the services or work have not been completed or performed as requested and/or should Contractor produce an incorrect statement, County shall withhold payment until the services and work are satisfactorily completed or performed and/or the statement is corrected and resubmitted.

If Exhibit 4 ("Invoicing, Payment, and Retention") is attached to this Agreement, then the language contained in 4 shall supersede and replace this Paragraph 3.E. in its entirety.

F. Federal and State Taxes.

(1) Except as provided in subparagraph (2) below, County will not withhold any federal or state income taxes or social security from any payments made by County to Contractor under the terms and conditions of this Agreement.

(2) County shall withhold California state income taxes from payments made under this Agreement to non-California resident independent contractors when it is anticipated that total annual payments to Contractor under this Agreement will exceed One Thousand Four Hundred Ninety-Nine dollars ($1,499.00).

(3) Except as set forth above, County has no obligation to withhold any taxes or payments from sums paid by County to Contractor under this Agreement. Payment of all taxes and other assessments on such

sums is the sole responsibility of Contractor. County has no responsibility or liability for payment of Contractor's taxes or assessments.

(4) The total amounts paid by County to Contractor, and taxes withheld from payments to non-California residents, if any, will be reported annually to the Internal Revenue Service and the California State Franchise Tax Board.

4. WORK SCHEDULE

Contractor's obligation is to perform, in a timely manner, those services and work identified in Attachment A that are requested by County. It is understood by Contractor that the performance of these services and work will require a varied schedule. Contractor, in arranging his/her schedule, will coordinate with County to ensure that all services and work requested by County under this Agreement will be performed within the time frame set forth by County.

5. REQUIRED LICENSES, CERTIFICATES, AND PERMITS

Any licenses, certificates, or permits required by the federal, state, county, or municipal governments, for Contractor to provide the services and work described in Attachment A must be procured by Contractor and be valid at the time Contractor enters into this Agreement. Further, during the term of this Agreement, Contractor must maintain such licenses, certificates, and permits in full force and effect. Licenses, certificates, and permits may include, but are not limited to, driver's licenses, professional licenses or certificates, and business licenses. Such licenses, certificates, and permits will be procured and maintained in force by Contractor at no expense to County. Contractor will provide County, upon execution of this Agreement, with evidence of current and valid licenses, certificates and permits that are required to perform the services identified in Attachment A. Where there is a dispute between Contractor and County as to what licenses, certificates, and permits are required to perform the services identified in Attachment A, County reserves the right to make such determinations for purposes of this Agreement.

6. OFFICE SPACE, SUPPLIES, EQUIPMENT, ETC

Contractor shall provide such office space, supplies, equipment, vehicles, reference materials, support services and telephone service as is necessary for Contractor to provide the services identified in Attachment A to this Agreement. County is not obligated to reimburse or pay Contractor for any expense or cost incurred by Contractor in procuring or maintaining such items. Responsibility for the costs and expenses incurred by Contractor in providing and maintaining such items is the sole responsibility and obligation of Contractor.

7. COUNTY PROPERTY

A. Personal Property of County. Any personal property such as, but not limited to, protective or safety devices, badges, identification cards, keys, uniforms, vehicles, reference materials, furniture, appliances, etc. provided to Contractor by County pursuant to this Agreement is, and at the termination of this Agreement remains, the sole and exclusive property of County. Contractor will use reasonable care to protect, safeguard and maintain such items while they are in Contractor's possession. Contractor will be financially responsible for any loss or damage to such items, partial or total, that is the result of Contractor's negligence.

B. Products of Contractor's Work and Services. Any and all compositions, publications, plans, designs, specifications, blueprints, maps, formulas, processes, photographs, slides, videotapes, computer programs, computer disks, computer tapes, memory chips, soundtracks, audio recordings, films, audio-visual presentations, exhibits, reports, studies, works of art, inventions, patents, trademarks, copyrights, or intellectual properties of any kind that are created, produced, assembled, compiled by, or are the result, product, or

manifestation of, Contractor's services or work under this Agreement are, and at the termination of this Agreement shall remain, the sole and exclusive property of County. At the termination of the Agreement, Contractor will convey possession and title to all such properties to County.

C. Retained Rights. County acknowledges that Contractor conducts ongoing research and consulting services for other governments and clients and has accumulated expertise in this field. Notwithstanding anything set forth in this Agreement to the contrary and the foregoing provisions of this Section 7, Contractor will retain all right, title and interest in and to all GFOA Materials and all GFOA Materials are, and shall remain, GFOA's sole and exclusive property. For purposes of this Agreement and any SOW, "GFOA Materials" means all methodologies, ideas, concepts, processes, techniques, tools, solutions, trade secrets, research data, databases of information and specialized database applications, software applications, computer programming and/or coding, and other materials, information and know-how developed by Contractor or any of its contractors or affiliates prior to the execution of this Agreement, during the Term of this Agreement or independent of the Services being provided under this Agreement or any SOW. The County shall not have or obtain any right or title to or interest in the GFOA Materials (or in any modifications or enhancements thereto) except as explicitly set forth in this Agreement. County shall have a perpetual license to all GFOA Materials provided to it before, during, or after the Term of this Agreement.

8. INSURANCE

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the Contractor, his agents, representatives, employees or subcontractors.

A. Minimum Scope and Limit of Insurance. Coverage shall be at least as broad as (please select all applicable):

☒ Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than $1,000,000 per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

☒ Automobile Liability: ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limit no less than $1,000,000 per accident for bodily injury and property damage.

☒ Workers' Compensation: as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than $1,000,000 per accident for bodily injury or disease.

☐ Worker's Compensation Exempt: Contractor is exempt from obtaining Workers' Compensation insurance because Contractor has no employees. Contractor shall notify County and provide proof of Workers' Compensation insurance to County within 10 days if an employee is hired. Such Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of County for all work performed by Contractor, its employees, agents, and subcontractors. Contractor agrees to defend and indemnify County in case of claims arising from Contractor's failure to provide Workers' Compensation insurance for employees, agents and subcontractors, as required by law.

☒ Professional Liability (Errors and Omissions): Insurance appropriate to the Contractor's profession, with limit no less than $1,000,000 per occurrence or claim, $1,000,000 aggregate.

☐ Contractors' Pollution Legal Liability and/or Asbestos Legal Liability and/or Errors and Omissions (if project involves environmental hazards) with limits no less than $1,000,000 per occurrence or claim, and $1,000,000 policy aggregate.

If the Contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or the higher limits maintained by the contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the County.

B. Other Insurance Provisions. The insurance policies are to contain, or be endorsed to contain, the following provisions:

(1) **Additional Insured Status**: The County, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

(2) **Primary Coverage:** For any claims related to this contract, the Contractor's insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

(3) **Umbrella or Excess Policy:** The Contractor may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the Contractor's primary and excess liability policies are exhausted.

(4) **Notice of Cancellation**: Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the County.

(5) **Waiver of Subrogation**: Contractor hereby grants to County a waiver of any right to subrogation which any insurer of said Contractor may acquire against the County by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

(6) **Self-Insured Retentions**: Self-insured retentions must be declared to and approved by the County. The County may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or County. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds $100,000 unless approved in writing by County. Any and all deductibles and SIRs shall be the sole responsibility of Contractor or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. County may deduct from any amounts otherwise due Contractor to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. County reserves the right to obtain a copy of any policies and endorsements for verification.

(7) **Acceptability of Insurers**: Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the County.

(8) **Claims Made Policies**: If any of the required policies provide claims-made coverage:

a. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.

b. Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.

c. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work.

(9) **Verification of Coverage**: Contractor shall furnish the County with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements. All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the County before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The County reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. County reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

(10) **Special Risks or Circumstances**: County reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

9. STATUS OF CONTRACTOR

All acts of Contractor, its agents, officers, and employees, relating to the performance of this Agreement, shall be performed as an independent contractor, and not as an agent, officer, or employee of County. Contractor, by virtue of this Agreement, has no authority to bind or incur any obligation on behalf of, or exercise any right or power vested in, County, except as expressly provided by law or set forth in Attachment A. No agent, officer, or employee of County is to be considered an employee of Contractor. It is understood by both

Contractor and County that this Agreement shall not, under any circumstances, be construed to create an employer-employee relationship or a joint venture. As an independent contractor:

A. Contractor shall determine the method, details, and means of performing the work and services to be provided by Contractor under this Agreement.

B. Contractor shall be responsible to County only for the requirements and results specified in this Agreement, and except as expressly provided in this Agreement, shall not be subjected to County's control with respect to the physical action or activities of Contractor in fulfillment of this Agreement.

C. Contractor, its agents, officers and employees are, and at all times during the term of this Agreement shall represent and conduct themselves as, independent contractors, and not employees of County.

10. DEFENSE AND INDEMNIFICATION

Contractor shall defend with counsel acceptable to County, indemnify, and hold harmless County, its agents, officers, and employees from and against all claims, damages, losses, judgments, liabilities, expenses, and other costs, including litigation costs and attorney's fees, arising out of, resulting from or in connection with, the performance of this Agreement by Contractor, or Contractor's agents, officers, or employees. Contractor's obligation to defend, indemnify, and hold County, its agents, officers, and employees harmless applies to any actual or alleged personal injury, death, damage or destruction to tangible or intangible property, including the loss of use. Contractor's obligation under this Paragraph extends to any claim, damage, loss, liability, expense, or other costs that are caused in whole or in part by any act or omission of Contractor, its agents, employees, supplier, or anyone directly or indirectly employed by any of them, or anyone for whose acts or omissions any of them may be liable.

Contractor's obligation to defend, indemnify, and hold County, its agents, officers, and employees harmless under the provisions of this Paragraph is not limited to, or restricted by, any requirement in this Agreement for Contractor to procure and maintain a policy of insurance and shall survive any termination or expiration of this Agreement.

11. RECORDS AND AUDIT

A. Records. Contractor shall prepare and maintain all records required by the various provisions of this Agreement, federal, state, county, municipal, ordinances, regulations, and directions. Contractor shall maintain these records for a minimum of four (4) years from the termination or completion of this Agreement. Contractor may fulfill its obligation to maintain records as required by this Paragraph by substitute photographs, micrographs, or other authentic reproduction of such records.

B. Inspections and Audits. Any authorized representative of County shall have access to any books, documents, papers, records, including, but not limited to, financial records of Contractor, that County determines to be pertinent to this Agreement, for the purposes of making audit, evaluation, examination, excerpts, and transcripts during the period such records are to be maintained by Contractor. Further, County has the right, at all reasonable times, to audit, inspect, or otherwise evaluate the work performed or being performed under this Agreement.

12. NONDISCRIMINATION

During the performance of this Agreement, Contractor, its agents, officers, and employees shall not unlawfully discriminate in violation of any federal, state, or local law, against any employee, or applicant for employment, or person receiving services under this Agreement, because of race, religious creed, color, ancestry, national origin, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation.

Contractor and its agents, officers, and employees shall comply with the provisions of the Fair Employment and Housing Act (Government Code section 12900, et seq.), and the applicable regulations promulgated thereunder in the California Code of Regulations. Contractor shall also abide by the Federal Civil Rights Act of 1964 (P.L. 88-352) and all amendments thereto, and all administrative rules and regulations issued pursuant to said Act.

13. TERMINATION

This Agreement may be terminated by County without cause, and at will, for any reason by giving to Contractor thirty (30) calendar days written notice of such intent to terminate. Contractor may terminate this Agreement without cause, and at will, for any reason whatsoever by giving to County thirty (30) calendar days written notice of such intent to terminate.

Notwithstanding the foregoing, if this Agreement is subject to General Conditions (set forth as an Exhibit hereto), then termination shall be in accordance with the General Conditions and this Paragraph shall not apply.

14. ASSIGNMENT

This is an agreement for the personal services of Contractor. County has relied upon the skills, knowledge, experience, and training of Contractor as an inducement to enter into this Agreement. Contractor shall not assign or subcontract this Agreement, or any part of it, without the express written consent of County. Further, Contractor shall not assign any moneys due or to become due under this Agreement without the prior written consent of County.

15. DEFAULT

If Contractor abandons the work, fails to proceed with the work or services requested by County in a timely manner, or fails in any way as required to conduct the work and services as required by County, then County may declare Contractor in default and terminate this Agreement upon five (5) days written notice to Contractor. Upon such termination by default, County will pay to Contractor all amounts owing to Contractor for services and work satisfactorily performed to the date of termination.

16. WAIVER OF DEFAULT

Waiver of any default by either party to this Agreement shall not be deemed to be a waiver of any subsequent default. Waiver or breach of any provision of this Agreement shall not be deemed to be a waiver of any other or subsequent breach, and shall not be construed to be a modification of the terms of this Agreement unless this Agreement is modified as provided in Paragraph 22.

17. CONFIDENTIALITY

Contractor agrees to comply with various provisions of the federal, state, and county laws, regulations, and ordinances providing that information and records kept, maintained, or accessible by Contractor in the course of providing services and work under this Agreement, shall be privileged, restricted, or confidential. Contractor agrees to keep confidential, all such privileged, restricted or confidential information and records obtained in the course of providing the work and services under this Agreement. Disclosure of such information or records shall be made by Contractor only with the express written consent of County.

18. CONFLICTS

Contractor agrees that he/she has no interest, and shall not acquire any interest, direct or indirect, that would conflict in any manner or degree with the performance of the work and services under this Agreement. Contractor agrees to complete and file a conflict-of-interest statement.

19. POST-AGREEMENT COVENANT

Contractor agrees not to use any confidential, protected, or privileged information that is gained from County in the course of providing services and work under this Agreement, for any personal benefit, gain, or enhancement. Further, Contractor agrees for a period of two (2) years after the termination of this Agreement, not to seek or accept any employment with any entity, association, corporation, or person who, during the term of this Agreement, has had an adverse or conflicting interest with County, or who has been an adverse party in litigation with County, and concerning such, Contractor by virtue of this Agreement has gained access to County's confidential, privileged, protected, or proprietary information.

20. SEVERABILITY

If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction, or if it is found in contravention of any federal, state, or county statute, ordinance, or regulation, then the remaining provisions of this Agreement, or the application thereof, shall not be invalidated thereby, and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

21. FUNDING LIMITATION

The ability of County to enter into this Agreement is based upon available funding from various sources. In the event that such funding fails, is reduced, or is modified, from one or more sources, County has the option to terminate, reduce, or modify this Agreement, or any of its terms within ten (10) days of notifying Contractor of the termination, reduction, or modification of available funding. Any reduction or modification of this Agreement effective pursuant to this provision must comply with the requirements of Paragraph 22.

22. AMENDMENT

This Agreement may be modified, amended, changed, added to, or subtracted from, by the mutual consent of the parties hereto, if such amendment or change order is in written form, and executed with the same formalities as this Agreement or in accordance with delegated authority therefor, and attached to the original Agreement to maintain continuity.

23. NOTICE

Any notice, communication, amendments, additions or deletions to this Agreement, including change of address of any party during the term of this Agreement, which Contractor or County shall be required, or may desire to make, shall be in writing and may be personally served, or sent by prepaid first-class mail or email (if included below) to the respective parties as follows:

County of Mono:
Janet Dutcher, DPA, MPA, CGFM, CPA
P.O. Box 556
Bridgeport, CA 93517
jdutcher@mono.ca.gov

760-932-5494

Contractor:

Michael J. Mucha, Government Finance Officers Association
203 North LaSalle Street, Suite 2700
Chicago, IL 60601-1210
mmucha@gfoa.org
312-977-9700

24. COUNTERPARTS

This Agreement may be executed in two (2) or more counterparts (including by electronic transmission), each of which shall constitute an original, and all of which taken together shall constitute one and the same instrument. For purposes of this Agreement, a photocopy, facsimile, .pdf, or electronically scanned signatures, including but not limited to Docusign or similar service, shall be deemed as valid and as enforceable as an original.

25. ENTIRE AGREEMENT

This Agreement contains the entire agreement of the parties, and no representations, inducements, promises, or agreements otherwise between the parties not embodied herein or incorporated herein by reference, shall be of any force or effect. Further, no term or provision hereof may be changed, waived, discharged, or terminated, unless executed in writing by the parties hereto.

IN WITNESS THEREOF, THE PARTIES HERETO HAVE SET THEIR HANDS AND SEALS, EFFECTIVE AS OF THE DATE LAST SET FORTH BELOW, OR THE COMMENCEMENT DATE PROVIDED IN PARAGRAPH 2 OF THIS AGREEMENT, WHICHEVER IS EARLIER.

ATTACHMENT A

AGREEMENT BETWEEN THE COUNTY OF MONO AND GOVERNMENT FINANCE OFFICERS ASSOCIATION FOR THE PROVISION OF INTERNAL BUSINESS PROCESS REVIEW AND PROJECT MANAGEMENT CONSULTING SERVICES

TERM:

FROM: JULY 1, 2024 TO: JUNE 30, 2029

SCOPE OF WORK:

The scope of work shall be the services as described in the Scope at pages 4 - 23 of the Internal Business Process Review and Project Management Consulting Services in Support of Replacing the County's Enterprise Resource Planning (ERP) System, submitted in response to the County's Request for Proposals due April 15 and attached hereto as Exhibit 1 and incorporated herein by this reference.

ATTACHMENT B

AGREEMENT BETWEEN THE COUNTY OF MONO AND GOVERNMENT FINANCE OFFICERS ASSOCIATION FOR THE PROVISION OF INTERNAL BUSINESS PROCESS REVIEW AND PROJECT MANAGEMENT CONSULTING SERVICES

TERM:

FROM: JULY 1, 2024 TO: JUNE 30, 2029

SCHEDULE OF FEES:

The schedule of fees is set out in the Cost Proposal at pages 32-33 of the Internal Business Process Review and Project Management Consulting Services in Support of Replacing the County's Enterprise Resource Planning (ERP) System, submitted in response to the County's Request for Proposals due April 15 and attached hereto as Exhibit 1 and incorporated herein by this reference.

GFOA's proposal is based on rates of $275 per hour. GFOA will honor a rate of $275 per hour for all future work on this project, including any potential services provided through the end of the County's ERP implementation project. However, GFOA feels that it is in the County's best interest to contract for a fixed price amount based on completion of milestones. GFOA's proposal is based on a fixed (not-to-exceed) amount for completion of milestones. GFOA does not increase costs or require change orders if the project ends up being more complex than initially estimated, runs into delays, or requires additional hours.

☐ See Attachment B1, incorporated herein by this reference (optional).

Government Finance Officers Association

Research and Consulting Center

Proposal for:

City of Ocala, FL

Enterprise Resource Planning (ERP) Advisory Servies
November 25, 2025

Government Finance Officers Association
203 North LaSalle Street, Suite 2700
Chicago, IL 60601-1210
312.977.9700 *fax:* 312.977.4806

November 25, 2025

City of Ocala
Attn: Christopher Ramos
110 SE Watula Avenue
Ocala, FL 34471

Email: cramos@ocalafl.gov

Dear Christopher,

The Government Finance Officers Association (GFOA) is pleased to present this proposal to the City of Ocala ("the City") to provide enterprise resource planning (ERP) advisory services for potential replacement of the City's existing Tyler Technologies administrative system(s). This proposal fulfills the scope identified in the request for proposals (RFP) for Mono County, California (due April 15, 2024) and is consistent with all material terms of GFOA's resulting contract with Mono County dated June 24, 2024. GFOA pricing matches both the hourly rate provided Mono County and the total not-to-exceed limit for comparable services.

We understand the great opportunity that an ERP system replacement project provides and focus on using that chance to make lasting improvements to policies, business processes, and outcomes for the organization. We also understand that ERP projects are about more than software and that change with process, policy, organizational roles can be difficult. We will serve as the City's strategic guide throughout the process to ensure goals are met and the City is able to realize long-term stability and a strong foundation from which it can grow and evolve to meet the needs of both internal customers and those throughout the community.

Over 600 governments, including many in Florida, have found value in our experience, expertise, and detailed approach to ERP projects. As a service provided to members, GFOA can offer independent, objective, and best practice focused consulting services consistent with our mission to improve government management.

If there are any questions or you would like to discuss the proposal, please let me know.

Sincerely,

Michael J. Mucha
Deputy Executive Director / Director, Research and Consulting Center
Government Finance Officers Association

Section I – GFOA Qualifications

The Government Finance Officers Association (GFOA) is the premier association for public sector finance professionals in the United States and Canada. Founded in 1906, GFOA currently has over 29,500 members that look to GFOA as the gold standard for identifying, developing, and communicating leading practices in government management. As a non-profit organization, GFOA's mission is to promote excellence in state and local government financial management. GFOA accomplishes this mission by identifying and developing policies and practices and promoting them through education, training, consulting and leadership.

GFOA's Research and Consulting Center (RCC) is nationally recognized for its comprehensive analytical and advisory services, as well as for research on issues specific to state and local governments' financial, human resource, procurement, payroll and operational management. Since beginning operations in 1977, the RCC has assisted hundreds of cities, counties, public utilities; and other forms of government to create best practice solutions to meet their unique challenges. Approximately 20 years ago, GFOA began consulting for enterprise resource planning (ERP) system assessments, procurement, contract negotiation, and implementation advisory services. GFOA has built a reputation as the unparalleled leader in the field of providing objective, independent advice for ERP procurement and implementation projects. Our approach to ERP projects focuses on business process improvement, effective governance, and building organizational readiness throughout each stage of the procurement process and we have used this approach successfully for ERP projects with a broad scope including finance, budget, procurement, human resources, payroll, time entry, asset management, utility billing, permitting and other related administrative systems. In addition to our consulting projects, we frequently teach our approach as part of GFOA's training program and in some cases even other consulting firms have used GFOA templates and past consulting deliverables to leverage our lessons learned and market leading formats.

GFOA is not affiliated with any software vendor or firm aligned with any software vendor and does not implement ERP software. Our focus is exclusively on providing honest and unbiased recommendations to our clients and leveraging our experience to help all public-sector organizations with informed ERP guidance. The ERP market has

undergone significant change in recent years and governments are increasingly more reliant on technology to implement financial management best practices. In addition, because of the growth in "cloud" and the importance of these systems on the overall administration of local government, these technologies continue to evolve. With our consulting experience and continued research, GFOA has been able to improve its approach and generate additional value for our clients through reduced costs, reduced risk, and best practice recommendations to improve not only technology, but also business process, and ultimately outcomes.

Florida Experience

In addition to bringing best practice examples from across the United States, GFOA is also very familiar with the State of Florida. Over the past 20 years, GFOA has worked with over 25 local governments within the State of Florida. Below are some of our clients that included a similar scope to this project. Those in **bold** are active GFOA projects.

Our consulting services complement and utilize much of our research knowledge and membership network to deliver current, relevant, and proven strategies. The same consultants who regularly advise clients also research and write white papers and journal articles, author and edit publications, conduct training, coordinate GFOA's annual conference, and staff best practice committees.

- **Industry Standard Publications:** GFOA staff prepare the industry's leading publication to guide governmental accountants on all standards and financial reporting guidance. *Governmental Accounting, Auditing, and Financial Reporting* (The "Blue Book") is published by GFOA and GFOA consultants and clients have ready access to GFOA's technical experts throughout the project for any complex accounting or financial reporting questions as we work through business process change, chart of account configuration, or system set up challenges.

- ***Government Finance Review:*** GFOA consultants also regularly contribute articles and serve as reviewers for GFOA's bi-monthly publication, The Government Finance Review, along with other leading journals, books, and white papers. Each issue had articles written about GFOA's experience with ERP projects. Articles for each issue are available at www.gfoa.org/gfr.

- **Rethinking Budgeting Initiative:** Local governments have long relied on incremental, line-item budgeting where last year's budget becomes next year's budget with changes around the margin. Though this form of budgeting has its advantages and can be useful under circumstances of stability, it also has important disadvantages. The primary disadvantage is that it causes local governments to be slow to adapt to changing conditions. The premise of the Rethinking Budgeting initiative is that the public finance profession has an opportunity to update local government budgeting practices to take advantage of new ways of thinking, new technologies, and to better meet the changing needs of communities. GFOA has been working to challenge the status quo of common budgeting practices, identify where governments have ability to take a new approach, and document innovative approaches that can be used to assist with planning, budgeting, and implementation of new programs. Research for this initiative has also provide tools to assist with accounting, procurement, position control, and other areas of financial management.

- **Best Practice Committees:** GFOA has seven standing committees made up of leading finance professionals from governments throughout the United States and Canada that meet regularly to develop best practices to promote and guide sound financial and overall government management.

- **Annual Conference and Training:** GFOA's Annual Conference attracts approximately 5,000-7,000 government finance professionals and provides a forum to discuss innovative practices, learn best practice examples, network with peers, and interact with exhibitors. GFOA also provides ongoing training seminars throughout the country to assist members with continued professional development. GFOA consultants are regular trainers at these seminars including seminars on ERP procurement, project management, and best practices in ERP implementation.

Section II – GFOA Approach

The scope of work proposed for the City of Ocala meets all conditions of the RFP released by Mono County for "Internal Business Process Review and Project Management Consulting Services in Support of Replacing the County's ERP System due on April 15, 2024. The scope of work included:

A. Develop and document existing (as is) and proposed (to be) functional data requirements, including business process workflow, for all County departments utilizing the new ERP software. This analysis should include any third-party applications recommended for integration into the new ERP system.
B. Prepare a Request for Proposal (RFP) that the County will issue for new ERP software and implementation services that allow for a thorough comparison of all qualified vendors.
C. Lead the County through the ERP software selection process, including coordinating software demonstrations and on-site visits. This includes assisting the County with identifying potential risks, issues, and budget impacts to ensure it makes a quality selection decision that achieves its ERP requirements.
D. Participate in contract negotiations with the selected ERP software vendor to ensure a performance-based contract that includes milestones and associated target dates for accomplishment.
E. Act as the County's project manager, guiding the County through implementing the selected ERP software package and assisting with identifying and assessing process change necessary for a successful ERP software installation.

GFOA proposed our standard project approach that is continually refined based on past project experience and ongoing research. Where services have been enhanced or where the scope of the project proposed to the City of Ocala differs from the Mono County RFP or GFOA's agreement with Mono County, we have provided explanation.

ERP system implementations offer much promise for improving business processes, empowering employees with tools to become more effective, and ultimately transforming the entire organization. With improvements in technology and market trends favoring "cloud technologies," this shift not only includes business process, but also risk management, organizational roles, and governance. However, implementation of these systems is a complex effort and many organizations struggle to realize many of the promised benefits. GFOA understands that the City had recently implemented a Tyler Munis ERP system and uses related systems from other vendors including UKG. We also understand that the City is not completely satisfied with these investments and looking to evaluate options and take advantage of improvement opportunities. GFOA's role with this project will be to assess all current administrative systems related to finance, procurement, human resources, payroll, and time entry to develop a high-level

strategy for future system use and alignment with best practices. The scope of GFOA's assessment will consider a broad enough perspective so GFOA to properly advise the organization on both short term and long-term options and needs to connect systems to improve business process efficiency.

GFOA's scope and services for this proposal are organized into major phases (Part 1-4). Within each phase we have identified major tasks and each task includes deliverables and milestone payments that are defined below. GFOA views every project as a partnership with our client and we aim to work together as a team to address project risks, issues, recommendations and build a strategic path forward along with organizational momentum for the ERP implementation. We also understand that the specific plan depends on future analysis and strategic decisions by the City that will occur during the project. As part of the project, GFOA will revise the plan and approach as needed based on needs of the project and goals of the City.

Phase 1 – Analysis and Requirements Definition

- Task 1: Governance and Project Management
- Task 2: Process Improvement
- Task 3: Goals and Requirements

Phase 2 – Strategy

- Task 4: Strategy and Action Plan
- Task 5: RFP Development

Phase 3 – Solutions

- Task 6: Procurement
  - Evaluation Plan
  - System and Vendor Selection
- Task 7: Prerequisites for Implementation
- Task 8: Contract Negotiations

Phase 4 – Implementation Project Management Services

- Task 9: Implementation Advisory Services

Phase 4+ - Sustained Change

Task 10: Post Project Assessments

NOTE: The overall scope of work proposed for the City of Ocala matches the scope of work for Mono County, but GFOA has made slight adjustments to our approach to emphasize the importance of certain readiness tasks. GFOA's proposal for the City of Ocala represents the latest improvement made to our approach and includes:

- *Separate Task 3 to identify goals and requirements (previously was part of Task 5)*
- *New Task 7 to provide more services to help complete prerequisite activities to prepare for implementation.*

GFOA has also included optional services for implementation advisory services (Task 9 and 10) to comply with requirements from the Mono County RFP.

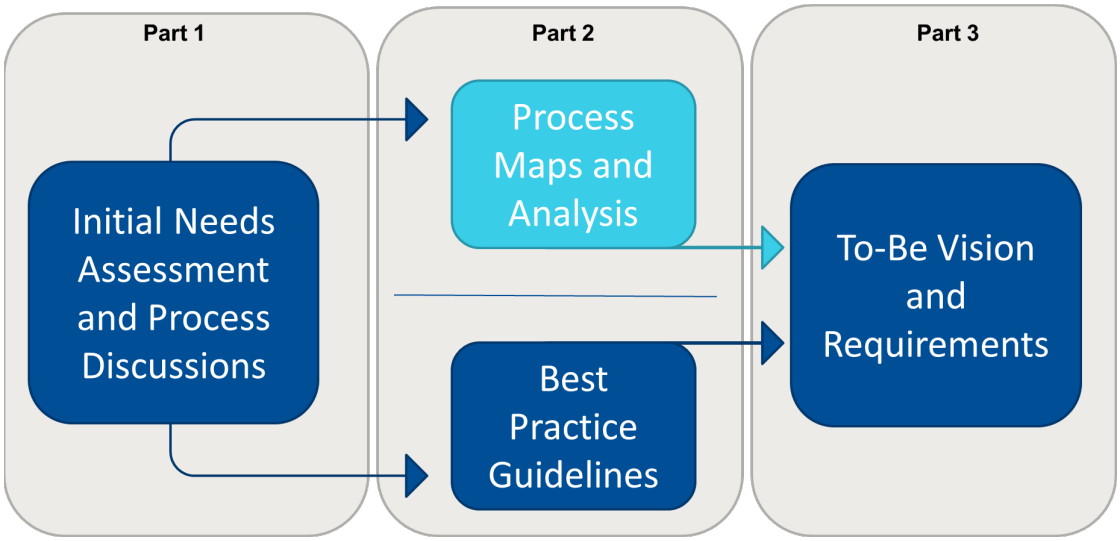
Task 1: Governance and Project Management

Working together, GFOA and the City project manager will prepare the following tools that will be essential to project coordination. In preparing all project planning and management plans, we will work to work this project into the structure that already exists within the organization.

- **Governance Support** – GFOA recognizes that the success of any change project depends on the ability to adapt to the changes that technology brings to both business process and organizational culture. We also understand that any enterprise system is not owned or controlled by one department in the organization. We are proposing to assist the City with the development of a governance structure for the project to establish clear roles, identify responsibilities, and communicate how key stakeholders will work together to manage the project. The project governance structure will also establish clear roles for executive support, managing change, decision making, and escalation of any potential issues. If the City already has a governance structure in place, GFOA will document the existing governance structure and make recommendations based on GFOA's past experience.

  GFOA's recommended governance structure includes a steering committee, project team, and other staff necessary for business process improvement or project readiness functions. The governance structure will contain considerations for potential scope options that the City is considering. We have also found that governance of a future ERP system needs to be enterprise-wide

and will work to develop a collaborative model that works for all stakeholders. Our Financial Foundations Framework identifies five (5) key pillars of effective and sustainable (change) management. Each pillar includes different leadership strategies and/or institutional design principles that we have found translate exceptionally well to ERP governance. For more information, please visit http://gfoa.org/financial-foundations.



- **Staffing Plans -** GFOA will help the City identify a project team and prepare individuals to work through business process change as part of this project and the eventual ERP implementation. GFOA's approach is focused on developing cross-department teams organized by business function. Ideally, these teams will start meeting prior to the implementation to complete essential readiness tasks related to process improvement, policy modernization, and implementation preparation.
- **Project Plan** – GFOA will prepare a project plan that lists tasks and milestones. We then track the project in a collaboration tool (Microsoft Teams or similar). GFOA also will prepare project dashboards, issue lists, and communication tools that will be used throughout the project.
- **Project Management** – GFOA will participate in regular project management meetings and provide a regular (monthly or more frequently as desired) status report for the project. We expect our project manager to serve as a coach, guide, and advisor throughout the project. They will maintain regular communication to address issues, point out risks, provide lessons learned, and ultimately work to help the project be a success. Ongoing costs and effort for all project management activities are built into GFOA's milestones and deliverables. As part of our ongoing project management services, we will help prepare any communications, attend council meetings, or help delivery key messages stakeholders.
- **Project Management Coaching** – GFOA offers coaching services to project management staff. Often, ERP project managers step into a new role – taking on additional responsibilities and a position of authority within the organization. For some new or inexperienced project managers, this can be quite intimidating. For experienced project managers, this project may represent new challenges related to communications, conflict resolution, diverse teams, or change management. GFOA has established an executive coaching program that brings together a cohort of project managers from across GFOA's ERP projects. The program is optional, but provides resources and support that past clients have found useful. Meetings occur monthly (or as necessary) and include both live and on-demand training services.

Task 1: Project Planning and Management	
Duration	• 1 Month + Ongoing Throughout Project
On-Site Presence	• As Necessary

Deliverables	• Project Governance / Project Charter • Project Plan • Staffing Readiness • Status Report Template • Set Up of Project Collaboration Site • Additional Update As Required

Task 2: Process Improvement

GFOA will take a lead role in identifying potential business process changes along with preparing a strategic vision for each functional area in scope. While we will look at opportunities for system improvements, we also want to consider business process and policies – as the most impactful changes occur when system and process/policy change occur together.

GFOA will meet with stakeholders and gather information on how the current systems are being used and how it supports business processes. GFOA will also use any information from prior consulting engagements, the city's own data collection, or the initial system implementation. Through a series of business process workshops, GFOA consultants will work collaboratively to begin ERP readiness and change management efforts. This process will include both opportunities for how modern systems work within local government, and also changes to business process or policy – as the most impactful changes occur when system and process/policy change occur together. Processes discussed are listed in the table below.

Process List	
Process	Task / Topics
Accounting	• Chart of Accounts • General Ledger Transactions • Activity Costing*

Process List	
	• Internal Service Charges* • Grant / Project Tracking • Closing* • Financial Reporting
Budget	• Operating Budget • Capital Improvement Planning (CIP) • Capital Budget • Budget Adjustments / Amendments • Long-Term Financial Planning* • Public Reporting *
Procure – Pay	• Supplier Management • Purchase Requisitions / Purchase Orders • Contract Management • RFP / Bid Process • Change Order • Receiving • Accounts Payable • Invoice Processing • 1099* • Refunds*
Inventory *	• Warehouse Management* • Inventory Requisition* • Physical Counting* • Replenishment*

Customer Billing	• Customer File
	• Billing
	• Payment Processing
	  ○ Online
	  ○ Cashiering Station*
	• Accounts Receivable
	  ○ Aging*
	  ○ Collections*
	• Write-off*

Treasury	• Receipts • Disbursements • Interest Allocation • Bank Reconciliation • Investments* • Debt Management*

Asset Management	• Asset Acquisition
	• Asset Lifecycle
	  ○ Service Request
	  ○ Work Order
	  ○ Inventory
	• Depreciation
	• Transfer / Disposal / Retirement
	• Preventative Maintenance
	• Repair/Replace

Human Resources – Core	• Job Class Maintenance*

Process List	
	• Position Maintenance • Recruitment/Hiring • Pre-Employment Requirements (Conditional Offer) • Onboarding • Employee File • Offboarding/Separation
Human Resources – Enhanced	• Personnel Evaluations • Certification and Training • Performance Improvement Planning/Tracking* • Disciplinary Actions/Grievance*
Benefits	• Plan Administration/Maintenance • Open Enrollment • Ongoing Enrollment • Post Employment*

Time Entry – Payroll	• Time Entry
	  ○ Regular
	  ○ Special (Projects, FEMA, Special Events, etc.)
	• Time Approval
	• Salary Maintenance
	• Payroll Calculations
	• Payroll Processing
	• Payroll Tax Processing
	• Regular Leave
	• Long-Term Leave

*Note: The process areas identified with an * were not included in the Mono County contract, but were listed in the original City of Ocala proposal. GFOA has identified an optional price for the expanded set of processes.*

For the first part, GFOA will facilitate initial business process discussions to better understand the current situation and begin discussing expectations and goals for a future system. For most processes, GFOA will create a process map to illustrate what is currently done. We still expect that a major benefit from sessions facilitated by GFOA consultants is that stakeholders will share a common understanding of the current process and can explore together the current challenges, weaknesses, and areas for improvement. By discussing changes in the open, it is also a critical change management strategy to help the organization begin the transition to a new process.

In part 2, GFOA provides recommendations for change, facilitates a discussion around best practice options, and seeks to educate the City on options available with modern systems and improved process and/or policy. After discussion of options, GFOA will facilitate part 3, which includes documentation of any major project goals, process expectations, and detailed functional requirements.

Task 2: Process Improvement

Duration	• 2-3 Months
On-Site Presence	• 50 %
Deliverables	• Process and System Analysis • To-Be Process Documentation • Functional Requirements

Task 3: Goals and Requirements

GFOA focuses functional requirements development on business process and will prepare requirements in the form of testable use cases that will have value throughout the project. At each step in the business process we will determine both the system requirements and implementation requirements and document those using a Microsoft Excel template that is aligned to our process maps that will be included in the eventual RFP. Requirements development focuses on functional requirements that define "what" needs to be completed (such as tasks, outputs, interfaces, calculations, processing, etc.) and not on "how" the system or the organization handles tasks currently. This allows for future improvement and full utilization of the system tools and built in processes to make the City more efficient.

Task 3: Goals and Requirements	
Duration	• 1 Month
On-Site Presence	• 50 %
Deliverables	• Functional Requirements

Task 4: Action Plan and Strategy Development

GFOA will prepare both a needs assessment report and overall action plan that documents both the internal tasks necessary to ensure organizational readiness for recommended strategies. GFOA will discuss the needs assessment report with City staff to ensure key questions will be answered including:

- Should the City replace its existing ERP system?
- What is the most appropriate scope for the project?
- What is the overall business case for system change?
- What challenges can the City expect?
- What is the estimate budget for the project?
- What can the City do to mitigate risk and better prepare for the project?

Readiness tasks generally identify business process and policy improvement steps that can be initiated prior to the software implementation and help prepare the organization for success. The plan will also include any steps necessary to move forward with the City's procurement strategy including considerations for scope, RFP guidelines, or market strategy. GFOA's project plan will take into account past lesson's learned on

projects and identify several milestones or benchmarks for the organization to measure its readiness progress against. GFOA's readiness plan will cover overall issues related to:

- Project scope
- Change management
- Policy Change
- Governance
- Project management
- Staff planning
- Budgeting for the project
- Project communications
- Project prerequisites

Task 4: Action Plan	
Duration:	• 1 Month
On-Site Presence	• Approximately 50% Onsite
Deliverables	• Needs Assessment • Action Plan

Task 5: Develop Request for Proposal (RFP)

In this phase, GFOA will develop a detailed Request for Proposals (RFP) document for the City (or multiple RFPs depending on the procurement strategy). The GFOA RFP format is designed to remove disparity between proposals and to provide as close to an apples-to-apples comparison as possible. In addition, GFOA develops all RFP's with the end goal in mind – a successful contract that mitigates risk and leads to a successful project. One essential component of the RFP is to establish the scope for implementation and set clear acceptance standards that can be used to hold ERP firms accountable for project outcomes.

GFOA has a template RFP that was specifically designed for ERP procurements and follows current best practices for public procurement. We have continually updated as required by changes in the ERP market and strive to reduce bias, provide proper focus on ERP risk areas, and facilitate effective decision making and contract negotiations. GFOA is also working to develop standardized functional requirements that serve as a baseline for a successful ERP implementation and provides accountability for major areas within a core system. We plan to work collaboratively with the City's procurement team to include any terms and conditions from the City's standard documents, decide on the procurement process, and ensure compliance with any other the City requirements.

When complete, the RFP document will incorporate information developed with many of the other deliverables from this project including:

1) Guidelines / expectations for the procurement
2) Key Objectives / Goals / Critical Success Factors for the Project
3) Detailed project scope including future business process vision
4) Process expectations and functional requirements
5) Interface definitions
6) Data conversion expectations
7) Detailed vendor response templates
8) Procurement terms and conditions

GFOA's preferred RFP strategy is to solicit proposals for both ERP software and ERP implementation services at the same time. We believe this provides for not only a higher quality response, but also a faster timeline. The initial RFP will identify a clear scope, project objectives, and expectations for the project. Vendor responses can then be evaluated against relevant criteria and vendors can be held accountable to promised results.

Task 5: RFP Development	
Duration:	• 1 Month
On-Site Presence	• Approximately 50% Onsite
Deliverables	• RFP Document

Task 6-A: Identify Evaluation Criteria

GFOA's system selection and procurement methodology relies on principles of fairness, attention to detail, and competition, yet remains flexible enough to adapt to local procurement laws or other unique situations. Our approach considers how best to use the procurement process to facilitate a statement of work and contract that holds the vendor accountable, ensures a quality implementation, and makes expectations clear. In addition, the approach is continually enhanced by feedback from the hundreds of public sector clients that we work with, our own staff experience, and the vendor community. Recently, GFOA has been working to incorporate our research on decision architecture and behavioral science into our approach for ERP RFP evaluations. GFOA will work with staff from the City to develop an evaluation strategy and work to define clear evaluation criteria. Once established, GFOA will prepare a guide for evaluators and conduct training alongside procurement staff from the City.

Task 5: Identify Evaluation Criteria	
Duration:	• 1 Month
On-Site Presence	• Minimal Onsite
Deliverables	• Evaluation Guidebook

Task 6-B: Selection of Vendor

Through defined steps, vendors will be evaluated and scored according to pre-defined criteria with the top vendors moving on to compete at the next step. Each step is an opportunity to negotiate terms, address risks, and provide methods for holding stakeholders accountable. Overall, our approach is focused on identifying and mitigating risks throughout the procurement process. GFOA's RFP template provides the opportunity to focus the evaluation on key risk factors in the implementation and separates actual proposal from marketing buzzwords. GFOA's standard evaluation process includes the steps described below.

Step 1: Proposal Assessment

Upon receiving the written proposals from vendors, the City's project team will begin an assessment and analysis of all proposals. GFOA will assist with this assessment by reviewing proposals and providing high level comments on potential risks, issues, and any significant weaknesses/gaps and/or strengths. GFOA recommends that the City incorporate an anonymous review for initial sections that can be evaluated without knowledge of the vendor name. This provides an opportunity to consider the merits of each proposal free from preconceived bias of evaluators.

GFOA has also learned over the years that it can be difficult to evaluate a best fit vendor or the proposal that provides the best value for the City by only looking at a written response. Vendors are quite good at marketing in proposals and proposals may not actually reflect what it's like to work with a firm. GFOA's approach tries to mitigate this misleading presentation by providing multiple opportunities to meet the actual consultants who will be working on the project and supporting the relationship. GFOA will also structure the analysis to try and remove instances of evaluator bias or marketing misrepresentations from the vendors.

After conducting an initial review of anonymous portion of proposals, the City will invite potentially viable solutions for a short virtual presentation (60 minutes). GFOA expects that the number of vendors elevate be based on the number of proposals the City receives, but potentially could include 8-10 vendors. By providing each a short time to present their proposal, the City will be able to evaluate what the differentiating features of each vendor's proposal actually are. It also will give the City a chance to meet representatives for each firm.

After presentations are complete, GFOA and the City's project team will complete the full proposal analysis, which now will include vendor names. GFOA can also leverage our extensive experience to compare each proposal to industry standards. All key findings will be documented in a brief proposal assessment report that identifies GFOA's findings. This report will also identify additional information that will be needed from vendors going forward.

GFOA expects that after reviewing proposals, the City elevates a limited number of vendors for onsite demos/interviews.

Step 2: Software Demos and Team Interviews

GFOA staff will develop detailed demo scripts for each vendor. Demo scripts are based heavily on the requirements and business process decisions built in early tasks. Also, GFOA's approach to software demos provides a focus on implementation activities. GFOA believes that it is critical for vendors to explain HOW the software will be implemented along with the features of the software. The greatest system in the world will not be useful if it is not configured and implemented correctly to meet the needs of the organization.

Our approach to software demos and interviews differentiates GFOA and demonstrates our dedication to continually evolve our approach to a changing ERP market. As software features become more mature, it is less important for governments to evaluate "if" it will work. However, since most of the risk comes from implementation, we work through a series of business process case studies, sample "workshops," and implementation resource interviews to make sure you can effectively evaluate the knowledge and skills of the proposed implementation team.

GFOA will also facilitate a combination of remote and in-person demos and interviews with each vendor. In this role, GFOA would ensure compliance with the demo scripts, take notes, and point out differentiators. GFOA expects that after this first round of software demos and interviews, the City elevate two vendors.

Step 3: Discovery

Discovery acts as another opportunity for the City to clarify unresolved issues before it makes its final elevation. Prior to Discovery, GFOA will develop a Request for Clarification (RFC) letter for each vendor that was elevated. Then, during Discovery, each remaining vendor is invited back on-site for one more day of presentation. During this presentation, any remaining issues with software functionality, implementation approach, data conversion, or scope are clarified and vendors are asked to make any necessary revisions to their proposal. The main focus of this session is to plan the implementation so that the City and vendor can later develop a detailed statement of work. GFOA will facilitate the Discovery session for two proposal teams. Additionally, by clarifying outstanding issues at Discovery, development of the statement of work becomes easier. At the conclusion of Discovery, the City will enter contract negotiations with one vendor.

Task 6: Selection of a Vendor	
Duration:	• 3-4 Months
On-Site Presence	• 25-50% Onsite
Deliverables	• Proposal Analysis • Initial Interview Facilitation

- Demo Scripts and Facilitation
- RFC/Discovery

Task 7: Project Prerequisites

ERP projects are made much more difficult by organizations that wait until the software implementation to begin working on tasks that can be completed prior the project start. GFOA has identified several common project prerequisites and will assist the City by facilitating and/or leading City teams to complete tasks. GFOA will determine specific project prerequisites for the City depending on project goals and the specific scope included in the City project, but expects that tasks listed below many be included.

Potential Prerequisites	
Process	Readiness Tasks
Accounting	• Chart of Accounts
Budget	• Budget Policies • CIP Policies
Procure – Pay	• Procurement Policies • Process Improvements • Data Conversion
Asset Management	• Data Conversions • Asset Management Policies
HR	• Position Control Structure
Payroll	• Pay Calculations • Leave
Technical	• Integrations • Data Conversions • Workflow • Reporting

Task 7: Project Prerequisites	
Duration:	• 1-2 Months
On-Site Presence	• TBD
Deliverables	• TBD

Task 8: Contract Negotiations

GFOA will be involved with the negotiation of any applicable software license contract, software maintenance agreement, hosting / SaaS agreement or implementation services agreement (or multiple contracts if the City selects multiple vendors) In addition, GFOA will lead the development of the statement of work using GFOA's statement of work template. Often ERP vendors will start development of their

statement of work from a template that is focused on limiting scope, suggesting change orders, and confusing responsibility or accountability for project outcomes. GFOA's statement of work template follows the RFP and expectations for all proposals and will serve as a critical document throughout implementation that outlines responsibility for the implementation. GFOA will ensure that the City's statement of work is defined to a fine level of detail to prevent any unnecessary issues or misunderstandings during implementation.

Also, for cloud contracts, it is essential that the City identify and negotiate appropriate service level agreements and other contractual provisions that establish performance standards and identify role responsibility. GFOA will take the lead in establishing this documentation.

Task 8: Contract Negotiations	
Duration:	• 1-2 Months
On-Site Presence	• Offsite
Deliverables	• Software Agreement • Services Agreement • Statement of Work • Service Level Agreements • Third Party Agreements

Task 9: Implementation Advisory Services

GFOA can provide a project oversight role throughout the City's project and work with the City and the City's selected ERP vendor to achieve the City's project goals. A project oversight role with GFOA will enable the City to leverage the presence that GFOA has in the public sector technology industry, and will allow the City to benefit from ERP implementation experience and research along with access to our nationwide membership network. GFOA will also continue our role as lead in contract negotiations for any contract amendments and project support to review milestones and invoices.

GFOA has past experience with project oversight on a variety of projects. We are familiar with the implementation approach proposed by most vendors and can use lessons learned to help avoid some of the challenges that previous clients have faced. We expect to provide these lessons learned as well as proactive management of issues to mitigate any risks to the City's project.

GFOA can also provide implementation advisory services to assist with implementation of the City of Ocala action plan in the event the City decides not to

implement a new ERP system and works to optimize and improve the existing Tyler Technologies system.

Task 9: Implementation	
Frequency	• Ongoing
On-Site Presence	• As Necessary
Deliverables	• Monthly Status Reports • Deliverable Review Reports • Business Process Recommendations • Other Reports As Necessary

The following services are planned to be in scope for this project. GFOA's role can take the form of a project manager, although certain tasks (example administrative tasks) are best provided by someone internal to the City. GFOA will take direction from the City on the specific tasks and assignments and will report monthly on hours used. These tasks have been identified based on feedback from City staff. All services are proposed as an hourly fee where GFOA will invoice for hours worked.

If desired, and where appropriate, GFOA would be willing to provide additional fixed fee proposals for "mini-tasks" or "work orders" throughout the project that identify key milestones instead of an hourly rate. With these mini-tasks or work orders, the City project manager and GFOA project manager would agree to the appropriate scope and price for desired work.

Deliverable Review

As part of the City's statement of work with its selected vendor, GFOA will negotiate terms that require the vendor provide several key deliverables/work products. GFOA will work with the City to help set expectations for the vendor, review templates, monitor progress for deliverable completion, and provide a detailed review of the critical deliverables once complete. GFOA will provide a report to the City outlining any issues (either with compliance against the contract or consistency with best practices). To properly review the deliverables, GFOA expects that it have sufficient levels of participation during the development of the deliverables that may include participation in site visits, conference calls, or other information gathering activities. As part of that participation, GFOA will be available to provide further guidance, best practice information, or other lessons learned.

Note: It is the City's responsibility to accept all deliverables and milestones. GFOA cannot accept or reject items on behalf of the City.

Business Process Design

GFOA assumes that the City will be moving forward with business process changes and best practice recommendations from GFOA's process mapping sessions. During the

implementation project, GFOA will participate in the business process design sessions with the ERP vendor when on-site to ensure that the City will deploy best business practices aligned with earlier recommendations rather than "re-creating the old system." Additionally, as part of the design process, GFOA can provide research into best business practices and communicate both advantages and disadvantages of specific design decisions based on our implementation experience and/or lessons learned from our member network. When GFOA is not able to participate in on-site meetings, we can provide a thorough review of any meeting notes, design documents, or other system or process documentation to review for best practices, process inefficiencies, or other potential issues.

Participation in Project Meetings

GFOA's team will participate in project management meetings and steering committee meetings to provide updates to key stakeholders and help resolve any outstanding issues. If GFOA is not scheduled to be on-site, GFOA will be available to participate remotely (if required).

Periodic Project Reviews

GFOA will conduct project reviews at set milestones in the project. Each review will be completed by GFOA's Director of Research and Consulting or GFOA's Consulting Practice Manager (or a similar senior level representative from GFOA as approved by the City). For the review, GFOA representatives will be on-site and will conduct interviews with project stakeholders and key members of the project governance structure (including vendor staff). GFOA will also review project deliverables, project progress, status reports, and other relevant information. These Periodic Project Reviews will provide a regular and independent assessment of project progress and project health.

The review may include any relevant issue with the project, but is likely to cover project goals, ongoing risks, contract compliance, best practice implementation, business process review, project communications, project decision making, project management, change management, and training strategies, and testing plans.

After the review is complete, GFOA will provide a brief project review report summarizing issues. It is also expected that GFOA would be available to participate in a meeting (either on-site or by phone) to discuss project issues and findings in the project review report.

Overall Project Oversight

Essentially, GFOA's role is to provide an "early warning mechanism," to the City at key points in the implementation process by tracking the progress of activities within the project plan and identifying risk areas.

Development of a thorough implementation plan is an important component to the development of an effective project structure. Furthermore, throughout an ERP system

implementation, plans must be revised and appropriate controls must be present as part of effective project management to minimize deviations from the timeline and/or budget. GFOA will work with the City's vendor and the City project/program managers to monitor project status, resolve project scope and approach issues, and provide input on improving the logic of the overall plan if necessary. We will also work to keep the vendor on-track with the overall objectives of the organization as established in the contract agreements.

Primary activities for overall oversight will include contract monitoring, ongoing change management, support for the City's steering committee, managing the issues log, or other project tasks as may be necessary.

GFOA will provide a monthly status report throughout the duration of the project. The City and GFOA will agree on a format and due date for the status report.

Additional tasks as part of overall project oversight could include:

Contract Monitoring

GFOA has in-depth detailed knowledge of the contract and statement of work and will continue to track project progress against acceptance criteria and payment milestones. This is a critical task in ERP implementations. Based on GFOA's experience, ERP vendors often find it convenient to ignore key contract requirements. GFOA will monitor deliverable activity and if necessary can also review project invoices for contract compliance.

In addition, while we believe our procurement approach significantly reduces the chance that contractual issues will arise during implementation, the City must still be prepared. Because of our detailed knowledge of the statement of work, and our contract negotiation experience and expertise, we are often able to resolve issues or negotiate the scope of necessary change orders saving the City both time and money. As part of these services, GFOA will assist as issues are identified. The process used to resolve issues might involve phone calls, site visits, document review, and/or other activities.

Ongoing Change Management

GFOA will provide support to the overall organizational change management function of the project. GFOA's role in providing overall oversight to the project will enable GFOA to gain an important perspective on project risks, pace of change, and sources of resistance. GFOA will then work with the City staff to develop change management strategies to help overcome project issues. In addition, GFOA feels strongly that change management must focus on a proactive element of good governance, communications, and support for a positive collaborative culture within the project. GFOA will provide assistance and ongoing recommendations in making sure that project leaders are working

to facilitate effective change management tactics throughout the project through their ongoing leadership

Support for the City's Steering Committee and Project Manager

In addition to participating in the City's Steering Committee meetings, GFOA can provide ongoing support and coaching for the Steering Committee and Project Manager. Throughout the project, GFOA may assist with strategy, project communications, budgeting, establishing an ongoing support structure, and any other overall IT governance tasks.

Management of Issues Log

Throughout the project, GFOA will work with the City and vendor to identify risks, project issues, and other concerns and proactively log, track, and resolve those issues. GFOA expects that the vendor will maintain an "issues log" and GFOA can assist both the City's project manager and steering committee in actively managing this log.

Additionally, at specific points in the project where City staff may be better utilized on other tasks (like training, testing, go-live support, etc.), GFOA can take over managing the issues log and ensuring there is a sense of urgency to the vendor completing tasks.

Other Tasks

GFOA is often asked to provide other types of services to clients during implementation. Some of these services have included serving as a subject matter expert, providing additional change management assistance, developing training materials, conducting research, and/or facilitating additional training sessions. If these services are requested, GFOA will work with the City's project manager to develop an appropriate scope within the assumptions of this proposal.

Task 10: Sustained Change / Post Project Assessments

Approximately three to six (3-6) months, or as determined to be an appropriate timeframe after completion of the ERP project (or project phase), GFOA can return to provide a follow up assessment on implementation progress and provide an objective status update on project goals or change progress. GFOA would conduct meetings with stakeholders responsible for implementation and for customer departments most impacted by the implementation to gauge process or evaluate overall success with implementation.

It is expected that GFOA action plan will contain goals/objectives with performance measures to evaluate completion of milestones. GFOA will look at these measures, gather stakeholder input, and if necessary conduct a "mini-assessment" to provide

further recommendations that would enhance or help implementation overcome any present challenges. In the past, GFOA has also used a similar process to review ongoing governance structure, discuss next steps for future improvements, document lessons learned, or provide case study documentation for the project that can be shared.

Task 9: Post Project Reviews	
Frequency	• Ongoing
On-Site Presence	• As Necessary
Deliverables	• Post Project Review

Project Schedule

Below is GFOA's proposed schedule. Assuming a start in January 2026, GFOA would be prepared to release a potential RFP in summer of 2026 and plan for ERP implementation start in late 2026 or early 2027.

Proposed Schedule	Project Start = January 2026															
	1	2	3	4	5	6	7	8	9	10	11	12	1	2	3	4
Task 1: Project Management																
Task 2: Process Improvement																
Task 3: Goals and Requirements																
Task 4: Action Plan																
Task 5: RFP Development																
Task 6-A: Evaluation Strategy																
Task 6-B: Vendor Selection																
Task 7: Project Prerequisites																
Task 8: Contract Negotiations																
Task 9: Implementation										Q	1		2	0	2	7
Task 10: Post Project Review																

As part of the schedule, GFOA expects to complete working using a mix of remote and on-site meetings. Site visits would include conducting meetings, interviewing staff, conducting other data gathering, or facilitating discussions/workshops on the future plan.

Section III – Pricing

GFOA's pricing model is to identify a fixed fee for each deliverable. All travel and expenses are included in the fixed fee cost. GFOA will invoice for deliverables completed each month at the end of the month. Below is a standard list of deliverables for the project.

Task/Deliverable	Milestone	Mono County Contract	Price for Ocala
1	**Project Planning**		
1-A	Project Management Documents	$8,000	$8,000
2	**Process Improvement**		
2-A	Process Analysis	$25,000	$25,000
2-B	Future State Documentation	$20,000	$20,000
OPTION – 2-C	Expanded Process List (2-A and 2-B)	Not Included	$10,000
3	**Goals and Requirements**		
3	Requirements	$10,000	$10,000
4	**Action Plan**		
4-A	Needs Assessment Report	$25,000	$25,000
4-B	Action Plan	$5,000	$5,0000
5	**Develop RFP**		
5	RFP	$10,000	$10,000
6	**Evaluation Strategy**		
6	Evaluation Guidebook	$7,500	$7,500
6	**Evaluation and Selection of Vendor**		
6-A	Proposal Assessment	$25,000	$25,000
6-B	Demo Scripts and Facilitation	$15,000	$15,000
6-C	Request for Clarification / Discovery	$10,000	$10,000
7	**Prerequisites**		
7	Chart of Accounts	$20,000	$20,000
7	Hourly at $275/hour	Not Included	$30,000
8	**Contract Negotiations**		
8	Contract Negotiations	$12,500	$12,500
TOTAL NOT-TO-EXCEED PRICE for PHASE 1, 2 and 3		**$193,000**	**$233,000**
9	**Implementation Advisory Services (IAS)***		
9-TE	IAS Services ($275/hour (estimate 600 hours)	$165,000	$165,000
10	**Post Project Reviews***		
10-TE	Project Reviews ($275/hour (estimate 100 hours)	$27,500	$27,500
NOT-TO-EXCEED PRICE for PHASE 4		**$385,500**	**$415,500**
TOTAL PRICE			

Section IV – Alternative Pricing

In the event that the City selects to not move forward with the procurement of a new ERP system, GFOA will modify pricing to facilitate implementation of GFOA's action plan focused on business process improvements, policy change, or optimized use of the existing Tyler Technologies ERP system. Below presents an alternative price schedule without procurement of a new system.

Task/Deliverable	Milestone	Mono County Contract	Price for Ocala
1	**Project Planning**		
1-A	Project Management Documents	$8,000	$8,000
2	**Process Improvement**		
2-A	Process Analysis	$25,000	$25,000
2-B	Future State Documentation	$20,000	$20,000
3	**Goals and Requirements**		
3	Requirements	$10,000	$10,000
4	**Action Plan**		
4-A	Needs Assessment Report	$25,000	$25,000
4-B	Action Plan	$5,000	$5,000
TOTAL NOT-TO-EXCEED PRICE for PHASE 1, 2 and 3		**$93,000**	**$93,000**
9	**Implementation Advisory Services (IAS)***		
9-TE	IAS Services ($275/hour (estimate 600 hours)	$165,000	$165,000
10	**Post Project Reviews***		
10-TE	Project Reviews ($275/hour (estimate 100 hours)	$27,500	$27,500
NOT-TO-EXCEED PRICE for PHASE 4		**285,500**	**$285,500**
TOTAL PRICE			

Notes:

- GFOA's proposal is based on rates of $275 per hour. GFOA will honor a rate of $275 per hour for all future work on this project, including any potential services provided through the end of the City's ERP implementation project.
- If any milestones are not met or the City elects to remove services for a task/deliverable, GFOA will not invoice for the applicable milestone. The City is not required to use all services.

- *Note: GFOA's milestone pricing includes travel costs.*

Section V – Contract Requirements

GFOA's proposal is based on contract terms included in GFOA agreement with Mono County. GFOA expects update to terms for any required changes due to State of Florida or City of Ocala contract requirements.

From: City of Ocala - Contracting Officer
To: Kimberly Foster; Shayatta J. Roberts; Daphne Robinson; Megan Dugan; Contracts; Eileen M. Marquez; Louis Joseph; Ashley Presley; David C. Williams; Patricia Lewis
Subject: Your policy exception has been approved.
Date: Monday, December 22, 2025 7:41:30 AM

Your policy exception has been **approved**.

Approval Comments: drobinson@ocalafl.org
The department is approved to piggyback the contract awarded to Government Finance Officers Association of the United States and Canada (GFOA), by Mono County, California, for the provision of business process review and project management consulting services for a new ERP system. These goods and services were competitively solicited by the Mono County under RFP No. 250746. Two vendors responded and on June 18, 2024, contract award was made to GFOA. The contract was awarded for a term of five years from JULY 1, 2024 THROUGH jUNE 30, 2029. GFOA has agreed to extend pricing and services to the City of Ocala under the same terms and conditions as the City of Ocala. GFOA's pricing proposal also contains line items for items that were not included in Mono County's contract and for which competitive comparison pricing cannot be ascertained. This pricing has been found to be fair and reasonable by Information Technology staff. PLEASE ESTABLISH A MUNIS CONTRACT NUMBER AND ISSUE A REQUEST TO CONTRACTING SO THAT A FORMAL PIGGYBACK AGREEMENT CAN BE PREPARED. BECAUSE EXPENDITURES WILL EXCEED $50,000, THE CONTRACT NEEDS TO BE PLACED ON A COUNCIL AGENDA. PLEASE ENSURE THAT THIS EXCEPTION APPROVAL IS ATTACHED TO THE MUNIS CONTRACT, CONTRACT REQUEST, AND AGENDA ITEM (IF ANY).

Procurement/Contract/P-Card Exception

Select exception type:	Procurement
Reason for procurement exception:	Piggyback Request in Lieu of Bid
Enter a brief description of your exception request:	We would like to have the attached proposal reviewed for consideration. This is for GFOA services to assist with a needs assessment, ERP readiness, process improvement, and potential system selection for a new ERP system.

Presentation By: Kelly Vann

Department: Information Technology

FORMAL TITLE:
Three-year Agreement with Environmental Systems Research Institute, Inc., to provide citywide geographic information system software with an estimated aggregate expenditure of $180,900

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
Environmental Systems Research Institute, Inc. ("ESRI") geographic information system ("GIS") software is a mapping software used by most City departments. Public Services, Development Services, Emergency Services, and Utility Services all use GIS to map infrastructure locations. The software provides the ability to visualize on a map where work orders, permits, and business licenses are issued, as well as where crimes are committed. The software is also used by many operational and technical areas, including Airport, Budget, Community Development Services, the Customer Service Office, Electric, Engineering, Fiber, Finance, Fire, Growth Management, Human Resources, Information Technology, Police, Public Works, Recreation & Parks, and Water Resources.

FINDINGS AND CONCLUSIONS:
The City is required to pay annual maintenance for the continued use of GIS software. ESRI's Small Municipal and County Government Enterprise Agreement ("SGEA") grants the City access to ESRI's GIS software for a term of three years. Utilizing the SGEA provides the City with numerous benefits, including lower cost per unit for licensed software, substantially reduced administrative and procurement expenses, and complete flexibility to deploy software products when and where needed.

FISCAL IMPACT:
Funds for this purchase are budgeted/encumbered in account 001-035-530-516-51-52045 and will be charged to the City's existing contract with Environmental Systems Research Institute, Inc., under Munis Contract No. 260456. The previous 3-year contract was approved on February 21, 2023, with a total expenditure of $165,000.

Staff recommends approval.

PROCUREMENT REVIEW:

This software was procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:

This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

The items on this quotation are subject to and governed by the terms of this quotation, the most current product specific scope of use document found at https://assets.esri.com/content/dam/esrisites/media/legal/product-specific-terms-of-use/e300.pdf, and your applicable signed agreement with Esri. If no such agreement covers any item quoted, then Esri's standard terms and conditions found at https://go.esri.com/MAPS apply to your purchase of that item. If any item is quoted with a multi-year payment schedule, Esri may invoice at least 30 days in advance of each anniversary date without the issuance or a Purchase Order, and Customer is required to make all payments without right of cancellation. Third-party data sets included in a quotation as separately licensed items will only be provided and invoiced if Esri is able to provide such data and will be subject to the applicable third-party's terms and conditions. If Esri is unable to provide any such data set, Customer will not be responsible for any further payments for the data set. US Federal government entities and US government prime contractors authorized under FAR 51.1 may purchase under the terms of Esri's GSA Federal Supply Schedule. Supplemental terms and conditions found at https://www.esri.com/en-us/legal/terms/state-supplemental apply to some US state and local government purchases. All terms of this quotation will be incorporated into and become part of any additional agreement regarding Esri's offerings. Acceptance of this quotation is limited to the terms of this quotation. Esri objects to and expressly rejects any different or additional terms contained in any purchase order, offer, or confirmation sent to or to be sent by buyer. Unless prohibited by law, the quotation information is confidential and may not be copied or released other than for the express purpose of system selection and purchase/license. The information may not be given to outside parties or used for any other purpose without consent from Esri. Delivery is FOB Origin for customers located in the USA.

1.0—Additional Definitions

In addition to the definitions provided in the Master Agreement, the following definitions apply to this Agreement:

"Case" means a failure of the Software or Online Services to operate according to the Documentation where such failure substantially impacts operational or functional performance.

"Deploy", "Deployed" and "Deployment" mean to redistribute and install the Products and related Authorization Codes within Customer's organization(s).

"Fee" means the fee set forth in the Quotation.

"Maintenance" means Tier 2 Support, Product updates, and Product patches provided to Customer during the Term of Agreement.

"Master Agreement" means the applicable master agreement for Esri Products incorporated by this reference that is (i) found at https://www.esri.com/en-us/legal/terms/full-master-agreement and available in the installation process requiring acceptance by electronic acknowledgment or (ii) a signed Esri master agreement or license agreement that supersedes such electronically acknowledged master agreement.

"Product(s)" means the products identified in Table A—List of Products and any updates to the list Esri provides in writing.

"Quotation" means the offer letter and quotation provided separately to Customer.

"Technical Support" means the technical assistance for attempting resolution of a reported Case through error correction, patches, hot fixes, workarounds, replacement deliveries, or any other type of Product corrections or modifications.

"Tier 1 Help Desk" means Customer's point of contact(s) to provide all Tier 1 Support within Customer's organization(s).

"Tier 1 Support" means the Technical Support provided by the Tier 1 Help Desk.

"Tier 2 Support" means the Esri Technical Support provided to the Tier 1 Help Desk when a Case cannot be resolved through Tier 1 Support.

2.0—Additional Grant of License

2.1 Grant of License. Subject to the terms and conditions of this Agreement, Esri grants to Customer a personal, nonexclusive, nontransferable license solely to use, copy, and Deploy quantities of the Products listed in Table A—List of Products for the Term of Agreement (i) for the applicable Fee and (ii) in accordance with the Master Agreement.

2.2 Consultant Access. Esri grants Customer the right to permit Customer's consultants or contractors to use the Products exclusively for Customer's benefit. Customer will be solely responsible for compliance by consultants and contractors with this Agreement and will ensure that the consultant or contractor discontinues use of Products upon completion of work for Customer. Access to or use of Products by consultants or contractors not exclusively for Customer's benefit is prohibited. Customer may not permit its consultants or contractors to install Software or Data on consultant, contractor, or third-party computers or remove Software or Data from Customer locations, except for the purpose of hosting the Software or Data on Contractor servers for the benefit of Customer.

3.0—Term, Termination, and Expiration

3.1 Term. This Agreement and all licenses hereunder will commence on the Effective Date and continue for the duration identified in the Term of Agreement, unless this Agreement is terminated earlier as provided herein. Customer is only authorized to use Products during the Term of Agreement. For an Agreement with a limited term, Esri does not grant Customer an indefinite or a perpetual license to Products.

3.2 No Use upon Agreement Expiration or Termination. All Product licenses, all Maintenance, and Esri User Conference registrations terminate upon expiration or termination of this Agreement.

3.3 Termination for a Material Breach. Either party may terminate this Agreement for a material breach by the other party. The breaching party will have thirty (30) days from the date of written notice to cure any material breach.

3.4 Termination for Lack of Funds. For an Agreement with government or government-

owned entities, either party may terminate this Agreement before any subsequent year if Customer is unable to secure funding through the legislative or governing body's approval process.

3.5 Follow-on Term. If the parties enter into another agreement substantially similar to this Agreement for an additional term, the effective date of the follow-on agreement will be the day after the expiration date of this Agreement.

4.0—Product Updates

4.1 Future Updates. Esri reserves the right to update the list of Products in Table A—List of Products by providing written notice to Customer. Customer may continue to use all Products that have been Deployed, but support and upgrades for deleted items may not be available. As new Products are incorporated into the standard program, they will be offered to Customer via written notice for incorporation into the Products schedule at no additional charge. Customer's use of new or updated Products requires Customer to adhere to applicable additional or revised terms and conditions in the Master Agreement.

4.2 Product Life Cycle. During the Term of Agreement, some Products may be retired or may no longer be available to Deploy in the identified quantities. Maintenance will be subject to the individual Product Life Cycle Support Status and Product Life Cycle Support Policy, which can be found at https://support.esri.com/en/other-resources/product-life-cycle. Updates for Products in the mature and retired phases may not be available. Customer may continue to use Products already Deployed, but Customer will not be able to Deploy retired Products.

5.0—Maintenance

The Fee includes standard maintenance benefits during the Term of Agreement as specified in the most current applicable Esri Maintenance and Support Program document (found at https://www.esri.com/en-us/legal/terms/maintenance). At Esri's sole discretion, Esri may make patches, hot fixes, or updates available for download. No Software other than the defined Products will receive Maintenance. Customer may acquire maintenance for other Software outside this Agreement.

a. Tier 1 Support

1. Customer will provide Tier 1 Support through the Tier 1 Help Desk to all Customer's authorized users.
2. The Tier 1 Help Desk will be fully trained in the Products.
3. At a minimum, Tier 1 Support will include those activities that assist the user in resolving how-to and operational questions as well as questions on installation and troubleshooting procedures.
4. The Tier 1 Help Desk will be the initial point of contact for all questions and reporting of a Case. The Tier 1 Help Desk will obtain a full description of each reported Case and the system configuration from the user. This may include obtaining any customizations, code samples, or data involved in the Case.
5. If the Tier 1 Help Desk cannot resolve the Case, an authorized Tier 1 Help Desk individual may contact Tier 2 Support. The Tier 1 Help Desk will provide support in such a way as to minimize repeat calls and make solutions to problems available to Customer's organization.
6. Tier 1 Help Desk individuals are the only individuals authorized to contact Tier 2 Support. Customer may change the Tier 1 Help Desk individuals by written notice to Esri.

b. Tier 2 Support

1. Tier 2 Support will log the calls received from Tier 1 Help Desk.
2. Tier 2 Support will review all information collected by and received from the Tier 1 Help Desk including preliminary documented troubleshooting provided by the Tier 1 Help Desk when Tier 2 Support is required.
3. Tier 2 Support may request that Tier 1 Help Desk individuals provide verification of information, additional information, or answers to additional questions to

supplement any preliminary information gathering or troubleshooting performed by Tier 1 Help Desk.

4. Tier 2 Support will attempt to resolve the Case submitted by Tier 1 Help Desk.

5. When the Case is resolved, Tier 2 Support will communicate the information to Tier 1 Help Desk, and Tier 1 Help Desk will disseminate the resolution to the user(s).

6.0—Endorsement and Publicity

This Agreement will not be construed or interpreted as an exclusive dealings agreement or Customer's endorsement of Products. Either party may publicize the existence of this Agreement.

7.0—Administrative Requirements

7.1 **OEM Licenses.** Under Esri's OEM or Solution OEM programs, OEM partners are authorized to embed or bundle portions of Esri products and services with their application or service. OEM partners' business model, licensing terms and conditions, and pricing are independent of this Agreement. Customer will not seek any discount from the OEM partner or Esri based on the availability of Products under this Agreement. Customer will not decouple Esri products or services from the OEM partners' application or service.

7.2 **Annual Report of Deployments.** At each anniversary date and ninety (90) calendar days prior to the expiration of this Agreement, Customer will provide Esri with a written report detailing all Deployments. Upon request, Customer will provide records sufficient to verify the accuracy of the annual report.

8.0—Ordering, Administrative Procedures, Delivery, and Deployment

8.1 **Orders, Delivery, and Deployment**

a. Upon the Effective Date, Esri will invoice Customer and provide Authorization Codes to activate the nondestructive copy protection program that enables Customer to download, operate, or allow access to the Products. If this is a multi-year Agreement, Esri may invoice the Fee up to thirty (30) calendar days before the annual anniversary date for each year.

b. Undisputed invoices will be due and payable within thirty (30) calendar days from the date of invoice. Esri reserves the right to suspend Customer's access to and use of Products if Customer fails to pay any undisputed amount owed on or before its due date. Esri may charge Customer interest at a monthly rate equal to the lesser of one percent (1.0%) per month or the maximum rate permitted by applicable law on any overdue fees plus all expenses of collection for any overdue balance that remains unpaid ten (10) days after Esri has notified Customer of the past-due balance.

c. Esri's federal ID number is 95-2775-732.

d. If requested, Esri will ship backup media to the ship-to address identified on the Ordering Document, FOB Destination, with shipping charges prepaid. Customer acknowledges that should sales or use taxes become due as a result of any shipments of tangible media, Esri has a right to invoice and Customer will pay any such sales or use tax associated with the receipt of tangible media.

8.2 **Order Requirements.** Esri does not require Customer to issue a purchase order. Customer may submit a purchase order in accordance with its own process requirements, provided that if Customer issues a purchase order, Customer will submit its initial purchase order on the Effective Date. If this is a multi-year Agreement, Customer will submit subsequent purchase orders to Esri at least thirty (30) calendar days before the annual anniversary date for each year.

a. All orders pertaining to this Agreement will be processed through Customer's centralized point of contact.

b. The following information will be included in each Ordering Document:

(1) Customer name; Esri customer number, if known; and bill-to and ship-to addresses
(2) Order number
(3) Applicable annual payment due

9.0—Mergers, Acquisitions, or Divestitures

If Customer is a commercial entity, Customer will notify Esri in writing in the event of (i) a consolidation, merger, or reorganization of Customer with or into another corporation or entity; (ii) Customer's acquisition of another entity; or (iii) a transfer or sale of all or part of Customer's organization (subsections i, ii, and iii, collectively referred to as "**Ownership Change**"). There will be no decrease in Fee as a result of any Ownership Change.

9.1 If an Ownership Change increases the cumulative program count beyond the maximum level for this Agreement, Esri reserves the right to increase the Fee or terminate this Agreement and the parties will negotiate a new agreement.

9.2 If an Ownership Change results in transfer or sale of a portion of Customer's organization, that portion of Customer's organization will transfer the Products to Customer or uninstall, remove, and destroy all copies of the Products.

9.3 This Agreement may not be assigned to a successor entity as a result of an Ownership Change unless approved by Esri in writing in advance. If the assignment to the new entity is not approved, Customer will require any successor entity to uninstall, remove, and destroy the Products. This Agreement will terminate upon such Ownership Change.

Submitted By: Christopher Ramos
Presentation By: Christopher Ramos
Department: Information Technology

STAFF RECOMMENDATION (Motion Ready):
Approve a three-year Small Municipal and County Government Enterprise Agreement with Environmental Systems Research Institute, Inc. to provide citywide geographic information system software with an estimated aggregate expenditure of $165,000

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
Environmental Systems Research Institute, Inc. ("ESRI") geographic information system ("GIS") software is a mapping software used by most of the departments in the City. Public Services, Development Services, Emergency Services, and Utility Services use GIS to map infrastructure locations. The software provides the ability to visualize on a map where work orders are issued, crimes are committed, and permits and business licenses are issued.
The City is required to pay annual maintenance for the continued use of GIS software. This software is currently used by many operational and technical areas including Airport, Budget, Community Development Services, the Customer Service Office, Electric, Engineering, Fiber, Finance, Fire, Growth Management, Human Resources, Information Technology, Police, Public Works, Recreation & Parks, and Water Resources.

FINDINGS AND CONCLUSIONS:
The ESRI Small Municipal and County Government Enterprise Agreement ("SGEA") is a three-year agreement that grants the City access to the ESRI GIS software. Utilizing the Enterprise Agreement ("EA") will provide the City with numerous benefits including lower cost per unit for licensed software, substantially reduced administrative and procurement expenses, and complete flexibility to deploy software products when and where needed.

FISCAL IMPACT:
Funds for the annual maintenance renewal of $55,000 are budgeted in FY23 account # 001-035-530-516-51-52010. The remaining $110,000 will be budgeted in FY24 and FY25.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:

This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

Submitted By: Laurie Hornberger

Presentation By: Sean Lanier

Department: Water & Sewer

FORMAL TITLE:
One-year renewal of contract service agreement with American Pipe & Tank, Inc, for the provision of wastewater services with an aggregate expenditure not to exceed $100,000

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
On March 21, 2023, City Council approved a two-year contract with a total expenditure not to exceed $100,000, with the option to renew for two (2) additional one-year terms. On April 1, 2025, City Council approved the first one-year renewal. This request represents the second and final renewal under the agreement. If approved, the renewal term will run from March 22, 2026, through March 21, 2027.

During Fiscal Year 2024-25, American Pipe & Tank, Inc supported the Water Resources Division with the disposal of debris and liquid residuals from the City's wastewater facilities, and tanker truck support for lift station projects and emergencies.

FINDINGS AND CONCLUSIONS:
During the past three years, American Pipe & Tank, Inc has done an outstanding job supporting the City's Water Resources Division wastewater facilities and providing tanker truck support during wastewater emergencies. The vendor has agreed to honor current pricing. City staff recommends approval of the second and final one-year renewal not to exceed an amount of $100,000.

FISCAL IMPACT:
Funding is available for Fiscal Year 2025-26 in accounts 455-030-300-533-53-34010 and 455-030-303-535-53-34010.

PROCUREMENT REVIEW:
These goods and services were procured in compliance with the City's procurement policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

SECOND AMENDMENT TO AGREEMENT FOR WASTEWATER TANKER SERVICES

THIS SECOND AMENDMENT TO AGREEMENT FOR WASTEWATER TANKER SERVICES ("Second Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **AMERICAN PIPE & TANK, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 59-3260569) ("Contractor").

WHEREAS, on March 27, 2023, City and Contractor entered into an Agreement for Wastewater Tanker Services (the "Original Agreement") City of Ocala Contract No.: CIP/230112 for a term of two (2) years from March 22, 2023, through March 21, 2025; and

WHEREAS, on April 8, 2025, City and Contractor entered into a First Amendment to Agreement for Wastewater Tanker Services (the "First Amendment"); to extend the Original Agreement for the first of two available one-year renewals, from March 22, 2025, through March 21, 2026; and

WHEREAS, the City and Contractor now desire to renew the Original Agreement for the final one-year renewal period available under the Original Agreement.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT.** The Original Agreement between City and Contractor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Second Amendment.
3. **RENEWAL TERM.** The Original Agreement, as amended, is hereby renewed for an additional one (1) year term commencing **MARCH 22, 2026**, and ending **MARCH 21, 2027**.
4. **COMPENSATION.** Contractor shall be paid a price not to exceed the maximum limiting amount of **ONE HUNDRED THOUSAND AND NO/100 DOLLARS ($100,000)** (the "Contract Sum") over the contract term as full and complete compensation for the timely and satisfactory performances of wastewater tanker services.
5. **NOTICES.** All notices, certifications or communications required by this Second Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:

American Pipe & Tank, Inc.

6. **COUNTERPARTS.** This Second Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

7. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Second Amendment. Further, a duplicate or copy of the Second Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Second Amendment for all purposes.

8. **LEGAL AUTHORITY**. Each person signing this Second Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Second Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Second Amendment.

FIRST AMENDMENT TO AGREEMENT FOR WASTEWATER TANKER SERVICES

THIS FIRST AMENDMENT TO AGREEMENT FOR WASTEWATER TANKER SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **AMERICAN PIPE & TANK, INC.,** a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 59-3260569) ("Contractor").

WHEREAS, on March 27, 2023, City and Contractor entered into an Agreement for wastewater tanker services (the "Original Agreement") for a term of two (2) years from March 22, 2023, through March 21, 2025; and

WHEREAS, City and Contractor now desire to renew the Original Agreement for the first of two (2) available one-year renewal terms under the Original Agreement.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT.** The Original Agreement between City and Contractor is hereby incorporated by reference as if set forth herein its entirety and remains in full force and effect except for those terms and conditions expressly amended by this Third Amendment.
3. **RENEWAL TERM.** The Original Agreement is hereby renewed for an additional (1) one-year term commencing **MARCH 22, 2025,** and ending **MARCH 21, 2026**. This Agreement may be renewed for up to **ONE (1**) additional **ONE (1) YEAR** period by written consent between City and Contractor.
4. **COMPENSATION.** City shall pay Contractor a price not to exceed **ONE HUNDRED THOUSAND AND NO/100 DOLLARS ($100,000)** (the "Contract Sum") over the Renewal Term as full and complete compensation for the timely and satisfactory provision of services.
5. **NOTICES.** All notices, certifications or communications required by this First Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	American Pipe & Tank, Inc. Attention: Zachary Conomos 418 Cypress Road Ocala, Florida 34472 Phone: 352-615-1114 or 352-687-4281 E-mail: office@americanpipeandtankinc.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

STAFF RECOMMENDATION (Motion Ready):
Approve one-year renewal of contract with American Pipe & Tank, Inc., for the provision of wastewater services with an aggregate expenditure not to exceed $100,000

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
On March 21, 2023, City Council approved a two-year contract (Contract No. CIP/230112) with American Pipe & Tank, Inc. for the provision of wastewater tanker services to support the Water Resources Department. During Fiscal Years 2023 and 2024, American Pipe & Tank, Inc. supported the Water Resources Division with the disposal of debris and liquid residuals from the City's wastewater facilities and tanker truck support for lift station projects and emergencies.

FINDINGS AND CONCLUSIONS:
Contract No. CIP/230112 offered two (2) optional one-year renewal terms. During the past two years, American Pipe & Tank, Inc. has done an outstanding job supporting the City's Water Resources Division wastewater facilities and providing tanker truck support during emergencies. City staff recommends approval of the first one-year renewal in an amount not to exceed $100,000.

FISCAL IMPACT:
Funding is available for Fiscal Year 2025 in G/L 455-030-300-533-34010 for $50,000 and 455-030-303-535-53-34010 for $50,000.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Amendment will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with Changes

- Table
- Deny

AGREEMENT FOR WASTEWATER TANKER SERVICES

THIS AGREEMENT FOR WASTEWATER TANKER SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **AMERICAN PIPE & TANK, INC.** a for-profit corporation duly organized in the and authorized to do business in the state of Florida (EIN: 59-3260569) ("Contractor").

R E C I T A L S :

WHEREAS, on January 4, 2023, City issued an Invitation to Bid ("ITB") for the provision of wastewater tanker services, ITB No.: CIP/230112 (the "Solicitation"); and

WHEREAS, one (1) firm responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, American Pipe & Tank, Inc. was chosen as the intended awardee to provide wastewater tanker services (the "Project"); and

WHEREAS, Contractor certifies that Contractor and its subcontractors are qualified and possess the required licensure and skill to perform the work required for the Project.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

T E R M S O F A G R E E M E N T :

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Contractor shall only include: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the bid submitted by Contractor in response to same (the "Solicitation Documents"); and (d) those documents identified in the Project Specifications section of this Agreement. Each of these documents are incorporated herein by reference for all purposes.

   If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:

      Exhibit A: Scope of Work (A-1 through A-3)
      Exhibit B: Price Proposal (B-1)

      If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A, then (2) Exhibit B.

3. **SCOPE OF SERVICES.** Contractor shall provide all materials, labor, supervision, tools, accessories, equipment, permits, fees, testing, inspections, certifications, and all other things necessary for Contractor to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work** and the Solicitation Documents. In the event of a conflict between this Agreement and the Solicitation Documents, this Agreement and all of its Exhibits shall be given precedence to resolve any identified inconsistency. The Scope of Work under this Agreement may only be adjusted by written amendment executed by both parties.
4. **COMPENSATION.** City shall pay Contractor a maximum limiting amount not to exceed **ONE HUNDRED THOUSAND AND NO/100 DOLLARS ($100,000)** (the "Contract Sum") as full and complete compensation for the timely and satisfactory completion of the work in compliance

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

with the Contract Documents and in accordance with the pricing schedule in **Exhibit B – Price Proposal** over the course of the initial Contract Term as follows:

A. **Pricing Increases/Escalation**. Pricing shall remain firm and fixed during the Initial Term of this Agreement. Any renewal price adjustment shall be subject to negotiation and must be approved by the City of Ocala. Contractor shall submit a written request for price adjustment identifying the reason for the price increase, and attach suitable documentation in support of same, no less than **NINETY (90) DAYS** prior to the expiration of the then existing Contract Term. No retroactive price adjustments will be allowed. Pricing increases shall not exceed the lesser of: (i) the amount of the percentage increase reflected in the Consumer Price Index for all Urban Consumers (CPI-U), not seasonally adjusted, based upon the most recent **TWELVE (12) MONTH** period; or (ii) **THREE PERCENT (3%) ANNUALLY** unless there are mitigating market conditions.

B. **Monthly Progress Payments**: The compensation amount under this section shall be paid by City, monthly, based upon a percentage of completion of the work as invoiced by Contractor and approved by City. The compensation sought under this Agreement is subject to the express terms of this Agreement and any applicable Federal and/or state laws.

C. **Project Schedule and Progress Reports**. A progress report and updated project schedule must be submitted with each monthly pay request indicating the percent of services completed to date. This report will serve as support for payment to Contractor and the basis for payment in the event project is suspended or abandoned.

D. **Invoice Submission**. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and an Invoice Date. City will provide Contractor with an invoice cover sheet. Invoice cover sheets are required to be accurately completed and submitted with each invoice. Contractor shall submit the original invoice, no more than once monthly, through the responsible City Project Manager at: **City of Ocala Engineering Department, Capital Improvement Projects Division,** Attn: **Brian Hutchinson**, Address: **1805 NE 30th Avenue, Bldg. 700, Ocala, Florida 34470**, E-Mail: **whutchinson@ocalafl.org.**

E. **Payment of Invoices by City**. The City Project Manager shall review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

F. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

G. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

H. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **TIME FOR PERFORMANCE**. Time is of the essence with respect to the performance of all duties, obligations, and responsibilities set forth in this Agreement and the Contract Documents.
   A. **Effective Date and Term.** This Agreement shall become effective and commence on **MARCH 22, 2023** and continue in effect for a term of **TWO (2) YEARS**, through and including **MARCH 21, 2025**. This Agreement may be renewed for up to **TWO (2)** additional **ONE YEAR (1-Year)** terms by written consent between City and Contractor.
   B. **Notices to Proceed on Individual Projects**. City shall issue written Notices to Proceed for individual projects in alignment with project schedules. Notices to Proceed shall be issued at the pre-construction conference, after Contractor and City have agreed upon the time needed to complete each individual project as assigned. Contractor agrees to have project signs in place, be able to mobilize, and commence construction work within **SEVEN (7)** days of the date of issuance of a Notice to Proceed for each individual project. Contractor shall complete assigned projects within the time limits specified in the Notice to Proceed and substantial completion and final completion dates shall be strictly enforced by City. At no time will Contractor be allowed to lag behind. Contractor shall be expected to accurately track contract time and progress for each assigned project. Notices to Proceed for additional projects will not be issued if Contractor has failed to properly complete and close out previous projects assigned under this Agreement.
   C. The Time for Performance under this Agreement may only be adjusted by Change Order, in the sole and absolute discretion of City. Any request for an extension of the Time for Performance must be submitted in a writing delivered to the City Project Manager, along with all supporting data. All requests for adjustments in the Contract Time shall be determined by City.
   D. As to any delay, inefficiency, or interference in this performance of this Agreement caused by any act or failure to act by City, the Contractor's sole remedy shall be the entitlement of an extension of time to complete the performance of the affected work in accordance with the Contract Documents. Contractor agrees to make no claim for extra or additional costs attributable to said delays, inefficiencies or interference, except as provided in this Agreement.
   E. None of the provisions of this section shall exclude City's right of recovery for damages caused by delays or inefficiencies caused by any act or failure to act by Contractor, to include costs incurred by City for the procurement of additional professional services.
7. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.
   A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof, as soon as it becomes aware.

B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Contractor performance shall be extended for a number of days equal to the duration of the force majeure. Contractor shall be entitled to an extension of time only and, in no event, shall Contractor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.

8. **INSPECTION AND ACCEPTANCE OF THE WORK**. Contractor shall report its progress to the City Project Manager as set forth herein. All services, work, and materials provided by Contractor under this Agreement shall be provided to the satisfaction and approval of the Project Manager.
   A. The Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials furnished, or workmanship performed, the rate of progress of the work, the interpretation of the plans and specifications, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Contractor in its Proposal. The authority vested in the Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the work.
   B. Neither the Project Manager's review of Contractor's work nor recommendations made by Project Manager pursuant to this Agreement will impose on Project Manager any responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident Contractor's furnishing and performing the work.
9. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Document, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.
   A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Contractor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Contractor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Contractor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:
      (1) Contractor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;
      (2) Contractor provides material that does not meet the specifications of the Agreement;
      (3) Contractor fails to complete the work required within the time stipulated in the Agreement; or
      (4) Contractor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Contractor cannot or will not perform to the requirements of the Agreement.
   B. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Contractor Default**. In the event that Contractor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:
   (1) City shall be entitled to terminate this Agreement without further notice;
   (2) City shall be entitled to hire another contractor to complete the required work in accordance with the needs of City;
   (3) City shall be entitled to recover from Contractor all damages, costs, and attorney's fees arising from Contractor's default prior to termination; and
   (4) City shall be entitled to recovery from Contractor any actual excess costs by: (i) deduction from any unpaid balances owed to Contractor; or (ii) placing a claim against the public construction bond; or (iii) any other remedy as provided by law.

D. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The Project Manager shall provide written notice of the termination. Upon receipt of the notice, Contractor shall immediately discontinue all work as directed in the notice, notify all subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Contractor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Contractor as permitted under this Agreement and approved by City.

10. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.

11. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Contractor's performance. Any such evaluation will become public record.

12. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any contractor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.

13. **CONTRACTOR REPRESENTATIONS**. Contractor expressly represents that:

    A. Contractor has read and is fully familiar with all the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Contractor under this Agreement.

B. Contractor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Contractor in the Contract Documents, and that the City's written resolution of same is acceptable to Contractor.
C. Contractor has had an opportunity to visit, has visited, or has had an opportunity to examine and ask questions regarding the sites upon which the work is to be performed and is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
D. Contractor is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
E. Contractor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.
F. **Public Entity Crimes.** Neither Contractor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Contractor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Contractor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

14. **CONTRACTOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Contractor:
A. Contractor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.
B. Contractor shall be solely responsible for the means, methods, techniques, sequences, or procedures of construction and safety precautions or programs incident thereto.
C. Contractor shall be responsible to see that the finished work complies accurately with the contract and the intent thereof.
D. Contractor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, to include obtaining all permits, licenses, and other authorizations necessary for the prosecution of the work and be responsible for all costs associated with same.
E. Contractor shall operate and cause all construction equipment and materials supplied for or intended to be utilized in the Project to be operated and stored in only those areas prescribed by City. This includes the operations of workmen.
F. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of all construction equipment and materials supplied for or intended to be utilized in the

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

Project, whether furnished by Contractor or City. Contractor shall be responsible for providing adequate safeguards to prevent loss, theft, damage, or commingling with other materials or projects.

G. Contractor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Contractor and City may otherwise agree in writing.

15. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Contractor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.
16. **RIGHT OF ACCESS AND OTHER WORK PERFORMED BY THIRD PARTIES**. City may perform additional work related to the Project itself, or have additional work performed by utility service companies, or let other direct contracts therefore which shall contain General Conditions similar to these. Contractor shall afford the utility service companies and the other contractors who are parties to such direct contracts (or City, if City is performing the additional work with City's employees) reasonable opportunity for the introduction and storage of materials and equipment and the execution of work and shall properly connect and coordinate his work with theirs.
    A. If any part of Contractor's work depends for proper execution or results upon the work of any such other contractor or utility service company (or City), Contractor shall inspect and promptly report to City in writing any latent or apparent defects or deficiencies in such work that render it unsuitable for such proper execution and results. Contractor's failure to so report shall constitute an acceptance of the other work as fit and proper for integration with Contractor's work except for latent or non-apparent defects and deficiencies in the other work.
    B. Contractor shall do all cutting, fitting, and patching of work that may be required to make the parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating, or otherwise altering their work, and will only cut or alter their work with the written consent of City.
17. **STORAGE OF MATERIALS/EQUIPMENT**. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of equipment and materials (whether furnished by Contractor or City) to be utilized in the performance of or incorporated into the work.
18. **RESPONSIBILITIES OF CITY.** City or its representative shall issue all communications to Contractor. City has the authority to request changes in the work in accordance with the terms of this Agreement and with the terms in **Exhibit A – Scope of Work.** City has the authority to stop work or to suspend any work.
19. **COMMERCIAL AUTO LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.
20. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial general liability insurance with limits not less than:

A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and
B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.
C. Policy must include coverage for contractual liability and independent contractors.
D. The City, a Florida municipal corporation, and its officials, employees, and volunteers are to be covered as additional insureds with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liabilities arising out of activities performed by or on behalf of Contractor. This coverage shall contain no special limitation on the scope of protection to be afforded to the City, its officials, employees, and volunteers.

21. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement adequate workers' compensation and employer's liability insurance covering all of its employees in at least such amounts as required by Chapter 440, Florida Statutes, and all other state and federal workers' compensation laws, including the U.S. Longshore Harbor Workers' Act and the Jones Act, if applicable. Contractor shall similarly require any and all of its subcontractors to afford such coverage for all of its employees as required by applicable law. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent. **Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver**.
22. **MISCELLANEOUS INSURANCE PROVISIONS.**

A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.
B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.
C. Certificates of Insurance. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence**

of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.org. Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior. Failure to Maintain Coverage. In the event Contractor fails to disclose each applicable deductible/self-insured retention or obtain or maintain in full force and effect any insurance coverage required to be obtained by Contractor under this Agreement, Contractor shall be considered to be in default of this Agreement.

D. City as an Additional Insured. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation and Professional Liability policies.

E. Notice of Cancellation of Insurance. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.org.

F. Failure to Maintain Coverage. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. Severability of Interests. Contractor shall arrange for its liability insurance to include, or be endorsed to include, a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

23. **SAFETY/ENVIRONMENTAL.** Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Contractor shall make an effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury or property damage. EPA, DEP, OSHA and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

A. All employees on the work and other persons that may be affected thereby;

B. All work, materials and equipment to be incorporated therein, whether in storage on or off the site; and

C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

24. **TRAFFIC CONTROL AND BARRICADES.** The Contractor shall mitigate impact on local traffic conditions to all extents possible. The Contractor is responsible for establishing and maintaining appropriate traffic control and barricades. The Contractor shall provide sufficient signing, flagging and barricading to ensure the safety of vehicular and pedestrian traffic at all locations where work is being done under this Agreement.
    A. In addition to the requirements set forth in bid, the Contractor shall maintain at all times a good and sufficient fence, railing or barrier around all exposed portions of said work in such a manner as to warn vehicular and pedestrian traffic of hazardous conditions.
    B. Should Contractor fail to properly barricade his work or stored material sites in the manner outlined above, the City may have the necessary barricading done, and all cost incurred for said barricading shall be charged to the Contractor.
25. **WORK SITE AND CLEANUP.** Daily, during the progress of the work, Contractor shall keep the premises free from accumulations of waste materials, rubbish, and all other debris resulting from the work. At the completion of the work, Contractor shall remove all waste materials, rubbish, and debris from and about the premises, as well as all tools, appliances, construction equipment and machinery, and surplus materials, and shall leave the site clean and ready for occupancy by City. Contractor shall provide an inventory listing of all surplus materials in an area designated by City. Contractor shall restore to their original condition those portions of the site not designated or alteration by the Contract.
26. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.
27. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Contractor, subcontractor, or of any of their agents or employees, nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.
28. **EMERGENCIES**. In an emergency affecting the welfare and safety of life or property, Contractor, without special instruction or authorization from the City Project Manager, is hereby permitted, authorized and directed to act at its own discretion to prevent threatened loss or injury. Except

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

in the case of an emergency requiring immediate remedial work, any work performed after regular working hours, on Saturdays, Sundays or legal holidays, shall be performed without additional expense to the City unless such work has been specifically requested and approved by the City Project Manager. Contractor shall be required to provide to the City Project Manager with the names, addresses and telephone numbers of those representatives who can be contacted at any time in case of emergency. Contractor's emergency representatives must be fully authorized and equipped to correct unsafe or excessively inconvenient conditions on short notice by City or public inspectors.

29. **INDEPENDENT CONTRACTOR STATUS.** Contractor acknowledges and agrees that under this Agreement, Contractor and any agent or employee of Contractor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Contractor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Contractor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Contractor in its performance of its obligations under this Agreement.
30. **ACCESS TO FACILITIES.** City shall provide Contractor with access to all City facilities as is reasonably necessary for Contractor to perform its obligations under this Agreement.
31. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.
32. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Contractor under this Agreement be abandoned, or should Contractor become insolvent, or if Contractor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.
33. **PUBLIC RECORDS.** The Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, the Contractor shall:
    A. Keep and maintain public records required by the public agency to perform the service.
    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the public agency.

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.org; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

34. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
35. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
36. **E-VERIFY.** In accordance with Executive Order 11-116, Contractor shall utilize the U.S. Agency of Homeland Security's E-Verify system, https://e-verify.uscis.gov/emp, to verify the employment eligibility of all employees hired during the term of this Agreement. Contractor shall also require all subcontractors performing work under this Agreement to utilize the E-Verify system for any employees they may hire during the term of this Agreement.
37. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
38. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.
39. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

40. **INDEMNITY.** Contractor shall indemnify and hold harmless City and its elected officials, employees and volunteers against and from all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Contractor, its agents, and employees.
41. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.
42. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	American Pipe & Tank, Inc. Attention: George Conomos 418 Cypress Road Ocala, Florida 34472 Phone: 352-687-4281 or 352-427-9453 E-mail: office@americanpipeandtankinc.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, Third Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.org
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, Third Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.org

43. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

44. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.
45. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
46. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
47. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
48. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
49. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
50. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

51. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
52. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
53. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.
54. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
55. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement 3/27/2023.

BACKGROUND

Contractor shall provide wastewater tanker services supporting the City of Ocala Water Resources Department's operation of sewage tanker and wastewater plant needs.

All work shall be coordinated with the City Project Manager, Brian Hutchinson, 352-401-6935, e-mail: whutchinson@ocalafl.org.

PROJECT SUMMARY, DELIVERABLES AND HOURS

1. **Project Summary:** Contractor shall perform the following services for the City of Ocala:
   - 7,100-gallon tanker truck service
   - Emergency/Night 7,100-gallon tanker truck service (Contractor must respond with a tanker within an hour and a half of emergency call out)
   - 3,600-gallon vacuum truck service
   - Emergency/Night 3,600-gallon vacuum truck service (Contractor must respond with a tanker within an hour and a half of Emergency call out)
   - Removal of City of Ocala Decant roll-off box and disposal from facilities (dump and return plus tipping fees)
   - Cleaning of City's wastewater treatment plants
   - Removal of Sludge/Wastewater to approved State of Florida offsite facility for treatment and disposal
   - Emergency dumping of lift stations debris for processing
   - Lift station cleaning

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. Contractor shall provide an assigned project manager, who will be the primary point of contact. Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
3. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
4. The employees of the Contractor must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in as good appearance as the job conditions permit.
5. The Contractor will operate as an independent contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
6. No smoking is allowed on City property or projects.

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

7. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
8. All company trucks must display a visible company name/logo on the outside of the vehicle.
9. Contractor must provide a 24-hour contact in the case of emergencies.

CITY OF OCALA RESPONSIBILITIES

1. The City shall furnish the following services/data to the Contractor for the performance of services:
   A. Access to City buildings and facilities as required to perform the work.
   B. Provide access to drawings, specifications, schedules, reports, and other information prepared by/for the City of Ocala pertinent to the Contractor's responsibilities.
   C. Provide office facilities for the Contractor, if needed.
2. City reserves the right to purchase any materials for the Contractor to use. Contractor shall not charge a mark-up fee for material furnished by the City.

CONTRACTOR RESPONSIBILITIES

1. Contractor shall complete all work performed under this solicitation in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
2. Contractor shall obtain and pay for any and licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this contract.
3. Installation shall be performed in compliance with all requirements and instructions of applicable manufacturers.
4. Contractor is responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, Contractor at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
5. If Contractor is advised to leave a property by the property owner or their representative, the Contractor shall leave at once without altercation. Contractor shall then contact the City Project Manager within 24 hours and advise of the reason for not completing the assigned project.
6. Data collected by the Contractor shall be in a format compatible with, or easily converted to City's databases. A sequential naming convention should be applied to the files and documentation provided to the City.
7. Contractor shall ensure that all documents prepared under this contract have been prepared on a Windows-based operating system computer using the most current version of Microsoft Office, which includes: Word, Excel, Power Point, Access or any other software as specified and approved by City staff.

SUB-CONTRACTORS

1. Contractor must perform a minimum of 80% of the work with their own forces.
2. Services assigned to subcontractors must be approved in advance by the City Project Manager.

DocuSign Envelope ID: CC7330C3-F7C2-4EF5-8DC6-51F94BE6926D

SITE HOUSEKEEPING AND CLEANUP

1. **Cleanup:** Contractor shall keep the premises free at all times from accumulation of waste materials and rubbish caused by operations and employees. Such responsibilities shall include but not limited to:
   A. Periodic cleanup to avoid hazards or interference with operations at the site, and to leave the site in a reasonable neat condition.
   B. Work site will be completely cleaned after each day of work.
   C. Contractor shall dispose of debris in a legal manner.
2. **Final Cleaning:** Upon completion of work, clean entire work area as applicable.
   A. All equipment shall be placed back in the original locations.
   B. All work areas must be returned to original condition.
   C. The Contractor shall clean and remove from the premises, all surplus and discarded materials, rubbish, and temporary structures, and shall restore in an acceptable manner all property, both public and private, which has been damaged during the prosecution of the work and shall have the work in a neat and presentable condition. *Note: Any and all debris shall be removed from the premises. Nothing shall be left or buried on site.*

SAFETY

1. Contractor shall be fully responsible for the provision of adequate and proper safety precautions meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.
3. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.

INVOICING

1. All original invoices will be sent to: Brian Hutchinson, Project Manager, Capital Projects Department, 1805 NE 30th Avenue, Building 700 Floor, Ocala, FL, email: WHutchinson@OcalaFL.org.
2. The Contractor shall invoice after services are provided.
3. Weight tickets from a permitted wastewater treatment facility must be included with all invoices submitted by Contractor.
4. The Contractor will be given a coversheet for their invoice. This coversheet must be filled out correctly and submitted with each invoice.

PRICING

1. The city will pay the Contractor only for the actual units that the Contractor provides, or constructs, in accordance with the pricing schedule described in **Exhibit B – Price Proposal.**

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

STAFF RECOMMENDATION (Motion Ready):

Approve award of a two-year contract with American Pipe & Tank, Inc., for the provision of wastewater tanker services with an aggregate expenditure not to exceed $100,000

..end

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence.

PROOF OF PUBLICATION:
Bid released to public 1/4/2023

BACKGROUND:
The City of Ocala requires the services of an experienced vendor to provide wastewater tanker services to support the Water Resources Department with the removal and disposal of liquid residuals from the City's wastewater treatment facilities.

FINDINGS AND CONCLUSIONS:
On January 4, 2023, the City issued its Invitation to Bid (ITB) No.: CIP/230112 for the provision of wastewater tanker services. On February 1, 2023, one (1) bid was received from American Pipe & Tank, Inc.

American Pipe & Tank, Inc., was found to be the lowest responsive and responsible bidder. American Pipe & Tank, Inc., has performed similar work for the City during the last five (5) years. Staff has compared American Pipe & Tank, Inc.'s pricing to others in the marketplace and found the offered pricing to be reasonable.
Staff recommends approval of this two-year contract for a not-to-exceed amount of $100,000 over the course of the initial term with two (2) optional, one-year renewals.

FISCAL IMPACT:
Funding for this contract has been budgeted in FY23 in account strings 455-030-300-533-53-34010 and 455-030-303-535-53-34010.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:
- Approve with Changes
- Table
- Deny

Department: Recreation and Parks

FORMAL TITLE:
One-year renewal of contract with Southern Lawn Care Mid Florida, Inc., for ground maintenance services in an amount not to exceed $261,900

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
After a competitive solicitation, City Council awarded the contract for grounds maintenance services at parks and other facilities managed by the Recreations and Parks Department to Southern Lawn Care Mid Florida, Inc. ("Southern Lawn Care"), on March 7, 2023 (Contract No. REC/230068). The agreement was for an initial term of three years, from March 8, 2023, through March 7, 2026, and offered two optional one-year renewal terms.

On July 5, 2023, the City and Vendor entered into the First Amendment to the agreement in order to modify the locations to be maintained. On October 26, 2023, locations were again modified via the parties' Second Amendment to the agreement. On January 2, 2025, the parties entered into a Third Amendment to the agreement to include additional locations, adjust mowing frequencies, and increase the aggregate expenditure amount under the contract to $690,600. The Fourth Amendment, executed February 3, 2025, added additional locations and increased the expenditure threshold to $698,000.

FINDINGS AND CONCLUSIONS:
Southern Lawn Care Mid Florida, Inc., has met all the requirements for the provision of ground maintenance services specified in City of Ocala Contract Number: REC/230068, from March 8, 2023, to present. The Recreation & Parks Department requests for the contract to be renewed for the first of two available renewal terms.

FISCAL IMPACT:
The contract for ground maintenance services will have an annual fiscal impact of $261,900. Recreation & Parks Department ground maintenance services are budgeted in the Recreation & Parks budget (001-021-120-

572-57-34010)

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

FIFTH AMENDMENT TO AGREEMENT FOR GROUNDS MAINTENANCE SERVICES

THIS FIFTH AMENDMENT TO AGREEMENT FOR GROUNDS MAINTENANCE SERVICES ("Fifth Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN# 27-4898723) ("Vendor").

WHEREAS, on March 14, 2023, City and Vendor entered into an Agreement for Grounds Maintenance Services (the "Original Agreement"), City of Ocala Contract Number: REC/230068 for a term of three (3) years, from March 8, 2023, through March 7, 2026; and

WHEREAS, on July 5, 2023, City and Vendor entered into a First Amendment to Agreement for Grounds Maintenance Services (the "First Amendment") to modify the locations to be maintained by Vendor; and

WHEREAS, on October 23, 2023, City and Vendor entered into a Second Amendment to Agreement for Grounds Maintenance Services (the "Second Amendment") to add an additional location to be maintained by Vendor; and

WHEREAS, on January 2, 2025, City and Vendor entered into a Third Amendment to Agreement for Grounds Maintenance Services (the "Third Amendment") to include additional locations to be maintained by Vendor and adjust mowing frequencies; and

WHEREAS, on February 3, 2025, City and Vendor entered into a Fourth Amendment to Agreement for Grounds Maintenance Services (the "Fourth Amendment") to amend the Price Proposal to include specific locations that were not included in the Original Agreement; and

WHEREAS, City and Vendor now desire to renew the Original Agreement, as amended, for the first of two (2) additional one (1) year renewal periods available under the terms of the Original Agreement.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Vendor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Fifth Amendment.
3. **RENEWAL TERM**. The Original Agreement, as amended, is hereby renewed for an additional one (1) year term beginning **MARCH 8, 2026,** and terminating **MARCH 7, 2027**. Thereafter, the parties acknowledge and agree that there remains the option for the Original Agreement to be renewed for up to **ONE (1)** additional **ONE (1) YEAR** period upon written agreement between the parties.
4. **COMPENSATION**. City shall pay Vendor an amount not to exceed **TWO HUNDRED SIXTY-ONE THOUSAND, NINE HUNDRED AND NO/100 DOLLARS ($261,900)** (the "Contract Sum") over the one (1) year Renewal Term as full and complete compensation for the timely and satisfactory performance of services in accordance with the Contract Documents.

5. **NOTICES**. All notices, certifications or communications required by this Fifth Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Vendor:	Southern Lawn Care Mid Florida, Inc. Attn: Tim McQuaig 13900 NE 41st Terrace Anthony, Florida 32617 Phone: 352-304-3921 E-mail: kawboy32x@gmail.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

6. **COUNTERPARTS.** This Fifth Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

7. **ELECTRONIC SIGNATURE(S).** Vendor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Fifth Amendment. Further, a duplicate or copy of the Fifth Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Fifth Amendment for all purposes.

8. **LEGAL AUTHORITY**. Each person signing this Fifth Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Fifth Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Fifth Amendment.

FOURTH AMENDMENT TO AGREEMENT FOR GROUND MAINTENANCE SERVICES

THIS FOURTH AMENDMENT TO AGREEMENT FOR AGREEMENT FOR GROUNDS MAINTENANCE SERVICES ("Fourth Amendment") is entered into by and between **CITY OF OCALA**, a Florida municipal corporation ("City"), and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN# 27-4898723) ("Vendor").

WHEREAS, on March 14, 2023, City and Vendor entered into an Agreement for Grounds Maintenance Services (the "Original Agreement"), City of Ocala Contract Number: REC/230068 for a term of three (3) years, from March 8, 2023, to March 7, 2026; and

WHEREAS, on July 5, 2023, City and Vendor entered into a First Amendment to Agreement for Agreement for Grounds Maintenance Services (the "First Amendment") to modify the locations to be maintained by Vendor; and

WHEREAS, on October 23, 2023, City and Vendor entered into a Second Amendment to Agreement for Grounds Maintenance Services (the "Second Amendment") to add an additional location to be maintained by Vendor; and

WHEREAS, on January 2, 2025, City and Vendor entered into a Third Amendment to Agreement for Grounds Maintenance Services (the "Third Amendment") to include additional locations to be maintained by Vendor and adjust mowing frequencies; and

WHEREAS, City and Vendor now desire to amend the price proposal to include specific locations that were not included in the Original Agreement as outlined in the **Amended Exhibit B – Price Proposal**.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Vendor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Fourth Amendment.
3. **AMENDMENT TO EXHIBIT B – PRICE PROPOSAL.** The document attached to the Original Agreement as Exhibit B – Amended Price Proposal is hereby deleted in its entirety and replaced with the document attached to this Fourth Amendment as **Amended Exhibit B- Price Proposal**.
4. **COMPENSATION**. Vendor shall be paid an amount not to exceed **SIX HUNDRED NINETY-EIGHT THOUSAND, AND NO/100 DOLLARS ($698,000)** (the "Contract Sum") over the Initial Term as full and complete compensation for the timely and satisfactory provision of services in accordance with the unit pricing schedule described in **Amended Exhibit B – Price Proposal**.
5. **NOTICES**. All notices, certifications or communications required by this Fourth Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

THIRD AMENDMENT TO AGREEMENT FOR GROUND MAINTENANCE SERVICES

THIS THIRD AMENDMENT TO AGREEMENT FOR AGREEMENT FOR GROUNDS MAINTENANCE SERVICES ("Third Amendment") is entered into by and between **CITY OF OCALA**, a Florida municipal corporation ("City"), and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN# 27-4898723) ("Vendor").

WHEREAS, on March 14, 2023, City and Vendor entered into an Agreement for Grounds Maintenance Services (the "Original Agreement"), City of Ocala Contract Number: REC/230068 for a term of three (3) years, from March 8, 2023, to March 7, 2026; and

WHEREAS, on July 5, 2023, City and Vendor entered into a First Amendment to Agreement for Agreement for Grounds Maintenance Services (the "First Amendment") to modify the locations to be maintained by Vendor; and

WHEREAS, on October 23, 2023, City and Vendor entered into a Second Amendment to Agreement for Grounds Maintenance Services (the "Second Amendment") to add an additional location to be maintained by Vendor; and

WHEREAS, City and Vendor now desire to include additional locations to be maintained by Vendor and adjust mowing frequencies as outlined in **Exhibit A – Amended Scope of Work** and **Exhibit B – Amended Price Proposal**.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Vendor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Third Amendment.
3. **AMENDMENT TO EXHIBIT A – SCOPE OF WORK.** The document attached to the Original Agreement as Exhibit A – Scope of Work is hereby deleted in its entirety and replaced with the document attached hereto as **Exhibit A – Amended Scope of Work.**
4. **AMENDMENT TO EXHIBIT B – PRICE PROPOSAL.** The document attached to the Original Agreement as Exhibit B – Second Amended Price Proposal is hereby deleted in its entirety and replaced with the document attached to this Third Amendment as **Exhibit B- Amended Price Proposal**.
5. **COMPENSATION**. Vendor shall be paid an amount not to exceed **SIX HUNDRED NINETY THOUSAND, SIX HUNDRED AND NO/100 DOLLARS ($690,600)** (the "Contract Sum") over the Initial Term as full and complete compensation for the timely and satisfactory provision of services in accordance with the unit pricing schedule described in **Exhibit B – Amended Price Proposal**.
6. **NOTICES**. All notices, certifications or communications required by this Third Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Vendor:	Southern Lawn Care Mid Florida, Inc. Attn: Tim McQuaig 13900 NE 41st Terrace Anthony, Florida 32617 PH: 352-304-3921 E-mail: kawboy32x@gmail.com
If to City of Ocala:	Daphne M. Robinson, Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 PH: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

7. **COUNTERPARTS.** This Third Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

8. **ELECTRONIC SIGNATURE(S).** Vendor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Third Amendment. Further, a duplicate or copy of the Third Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Third Amendment for all purposes.

9. **LEGAL AUTHORITY**. Each person signing this Third Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Third Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Third Amendment.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK. SIGNATURE PAGE TO FOLLOW.]

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

IN WITNESS WHEREOF, the parties have executed this Third Amendment on 1/2/2025.

BACKGROUND

Contractor shall provide grounds maintenance services at multiple locations throughout the city. It shall be the responsibility of the successful party to maintain the sites outlined in the most efficient and effective manner. Contractor will provide all equipment, labor, and materials necessary to provide these services.

EQUIPMENT REQUIREMENTS

Contractor must possess and properly maintain (for the duration of this contract) the following equipment:

1. Ten (10) weed eaters
2. Ten (10) edgers
3. Ten (10) backpack blowers
4. One (1) three-wheel blower
5. Two (2), forty-two inch (42") or greater zero turn mowers
6. Eight (8), fifty-two inch (52") or greater zero turn mowers
7. One (1) batwing mower
8. Three (3) trucks/trailers
9. Three (3) backpack sprayers
10. One (1), twenty-five (25) gallon tank sprayer

Working Hours: The normal/standard working hours for this project are 7:00 AM – 5:00 PM Monday through Friday, excluding holidays. Contractor shall provide 48-hour advance notice to City Project Manager for work outside normal shift hours. The city may decline the request.

MOWING FREQUENCIES

Month	Cuts per month
January	1
February	1
March	4
April	4
May	4
June	4
July	5
August	4
September	4
October	2
November	1
December	1
Total:	**35**

***The City anticipates mowing frequencies as outlined above, however; the City reserves the right to adjust these frequencies as needed.**

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

DEFINITIONS

1. Trash: Trash is defined as anything loose and useless (examples but not limited to) bottles, cans, paper, plastic bags, plastic bottles, plastic food wrappers and Styrofoam cups and plates.

2. Debris: Debris is defined as objects lying on the ground in an area to be mowed that are mostly organic (examples but not limited to) tree limbs less than six inches (6″) in diameter and smaller than six feet (6′) in length, tree branches, twigs, hedge clippings and sapling trimmings. One (1) or two (2) broken concrete blocks would qualify as debris but an abundance of blocks would be the City's responsibility to move. If the Contractor finds large items such as old tires, concrete blocks, old chairs or sofas, dead car batteries, etc., on a site to be mowed please call the City contact to report the findings and the City will remove and properly dispose of the debris. Otherwise, it is the Contractor's responsibility to remove and properly dispose of debris before mowing.

MOWING

1. Mowing and all related services at a park or parcel should be started and completed on the same day (weather permitting). For larger parcels, the Contractor should attempt to complete all work in one area and then move the operation to the next area of that parcel. The intent is that a parcel will not be left for days with the parcel mowed, but with high grass still standing around benches, bleachers, etc. waiting on follow up trimming and weed eating.

2. Mow at a height of two inches (2″) for Bahia grass, four inches (4″) inches for St. Augustine grass, and three inches (3″) for Zoysia grass. Mow Anderson Park at three inches (3″).

3. Mow all grassed areas in accordance with the frequency indicated on the price page proposal. Specific mowing dates and days will be set by the City. Contractor must follow City noise ordinance when planning mowing times.

4. The City does not include an allowance for delays caused by inclement weather; however, the City will grant time extensions, on a day-to-day basis for delays caused by the effects of rain or other inclement weather conditions. No additional compensation will be made for delays caused by the inclement weather.

5. Proper equipment must be used to mow mounds in the parks and parcels sites to prevent scalping, rutting, or cutting off tops of slopes with mowing equipment, causing soil erosion. Size of equipment needs to match the size of the area to be mowed. Note – This may require the use of hand equipment (push mowers, weed eaters, etc.) in limited areas.

6. All equipment must be properly maintained mechanically. The blades must be sharpened so that the grass is cut and not torn, causing damage to the grass plants. Tires must be equally inflated to avoid uneven cuts, etc. The Contractor is responsible for operating equipment at speeds that result in proper cuts.

7. Contractor must pick up and remove trash and debris in and around the area to be mowed to include fence lines before mowing and properly dispose of it so it is not chopped up by mower. The Contractor is responsible for a clean area (free of trash and debris) with neat appearance, even cut and no clumps

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

of grass to remain in the mowed areas. If the cuttings leave a thick blanket like cover over the existing cut area the operator must repeat the cycle to scatter the grass cuttings. All mowed areas will be inspected by the City's contract monitoring group. Debris must be removed from the site; not thrown under trees.

8. The Contractor will be responsible for all damages incurred to any water sprinkler systems, fences, shrubs, trees, value boxes, etc., while performing the grounds maintenance. Leaning signs and bollards leaning due to contact with equipment will need to be straighten up. Any ground sprinklers damaged are to be repaired immediately to comply with water conservation regulations. All damages are to be reported to the User City where final disposition will be made as to replace and/or repair.

9. Backflow assemblies are located in various areas throughout the City. In the event a backflow assembly unit is damaged or destroyed by the Contractor, the Contractor shall be liable for all damages and shall be responsible for any costs associated with the repair or replacement of the unit(s). The Contractor's employees shall at all times have a wrench in their possession to shut off the water should damage occur. Report any damage within 15 minutes to Jeff Kerley, (352) 368-5527. In the event that Jeff Kerley cannot be reached, please call Parks Operations (352) 368-5550 or the Park Ranger on-call number (352) 789-1133.

10. Water meter damage should be reported to the Water Resources Department (352) 351-6772. Repairs must be made within 48 hours of damage occurrence, with the exception of utility related repairs, which must be completed as soon as possible.

11. No air blowers shall be used to blow grass debris into roadway. Grass clippings shall be blown away from roadways, but not into retention ponds. All cuttings must be kept off/removed from the streets, sidewalks, pavilions, restrooms trails, landscape beds and public art.

12. When mowing, grass is to be directed away from pools, ponds, retention areas, fences, athletic fields, landscape beds, gardens, plaza's, splash pads, playgrounds, artwork, picnic areas, fence lines and other park amenities. In insistences where mowing occurs around the above-mentioned areas, a rear discharge mower must be used. All cuttings must be kept off/removed from these areas and amenities. If cuttings do manage to get into these areas, Contractor shall be responsible for blowing those areas off, and/or costs to remediate the situation (i.e. cleaning out a pool).

TRIMMING AND WEED CONTROL

1. The use of chemicals in place of weed eating around parks amenities and support facilities is NOT permitted. Glyphosate and other non-selective herbicides and similar chemicals with application rates per the manufacturer's recommendations are only permitted to be used to spray fence lines and cracks in sidewalks and other paved surfaces or to kill or retard the growth directly under trees as specified herein and shall not be used for any other purpose unless written consent is provided by the City. All plans for use of herbicides must be approved in writing by the City Project Manager before herbicides are applied.

2. When using chemicals to treat fence lines, special care shall be used so chemicals are not sprayed onto adjacent private property and use a cone on the sprayer to prevent overspray. Care should be taken to not over spray onto adjacent turf. A three inch (3") swath is to be sprayed on either side of the fence to maintain grass and weed control providing the adjacent side of the fence is not private property. If

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

the adjacent side is private property only a three inch (3") swath shall be sprayed on the City property. Once the vegetation has been trimmed down to ground level with a weed eater or similar device and the remaining vegetation removed from the fence, the area should be treated with chemicals. Trimming and chemical treating of said vegetation shall be done on the same day the mowing is done. Over spraying resulting in damage of grass will require exact replacement of sod at Contractor's expense.

3. A one foot (1') diameter area from the base of trees shall be maintained when trimming around trees. Chemically kill or restrict the growth directly under trees using Glyphosate and other non-selective herbicides or other suitable and equally effective herbicide. When chemically trimming around trees, special care is to be given to avoid spraying the suckers growing from the ground around the tree; this may damage or kill the tree. Removal of the bark by weed eater or other equipment that is greater than 25% of the diameter of the tree will result in the tree being replaced at the expense of the Contractor. This is common around Crape Myrtles and not normally found around Oaks and other common hard wood trees.

4. Sidewalks, courts (basketball, racquetball, tennis), parking lots, curbs and hard surface trails (asphalt/concrete) are to be mechanically edged (NOT chemically edged) and where there are cracks in the sidewalks, trails and curbs with grass and weeds growing through the cracks the vegetation shall be sprayed with an approved herbicide and after the vegetation is dead it is to be removed with a weed-eater or similar string device and remove debris as work is being done. Walking trails need to be edged once monthly, one the first mowing date of each month.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. The Contractor shall provide an assigned Project Manager, who will be the primary point of contact. Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
3. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
4. The employees of the Contractor must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in as good appearance as the job conditions permit.
5. Contractor will operate as an independent Contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
6. No smoking is allowed on City property or projects.
7. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
8. All company trucks must have a visible company name/logo on the outside of the vehicle.

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

MISCELLANEOUS

1. Report sinkholes found in any area to the City Parks Operations Division Head.

2. At least one crewmember must communicate fluently in English.

3. A supervisor or crew leader must be on-site to certify that all work has been completed according to the specifications of the contract. While the City will certainly monitor the Contractor's work for compliance with the contract specifications, it is **not** the City's responsibility to supervise or monitor the work of crews performing the work. If the City has to frequently contact the Contractor about issues, it is indicative of improper supervision by the Contractor, and the City may terminate the contract for cause.

4. Properties having gates: Any gates needing repair for failure to close, open, or lock must be reported to the department* responsible for that area. All gates must be closed and locked when finished mowing. *If Contractor is unsure of which City department is responsible for the gate in question, please notify the City Parks Operations Division Head.

5. All Contractor's employees are to wear shirts or have a badge which identifies their company, and all trucks belonging to the Contractor must bear the company's name. Shirts must be worn at all times while working on City property.

6. When working near roadways or within roadway medians, the Contractor shall wear an FDOT approved vest; and FDOT approved safety cones and FDOT approved "Men Working Signs" shall be placed appropriately in front of and behind their truck. The Contractor is responsible for fully understanding these requirements and costs related to compliance shall be included in Contractor's price proposal.

7. Contractor will submit a weekly report to the City Project Manager. The weekly report shall list the properties mowed, and identify any problems or issues at any of the sites as well as the Contractor's recommendations to resolve the issue or problem.

8. Contractor will suggest a schedule for what day each park is going to be mowed during the week and shall provide that schedule to the City Project Manager for approval. The City reserves the right to designate the scheduled mowing day for any particular property as needed to accommodate City programming schedules and will discuss same with Contractor when establishing the schedule

9. All properties will be mowed in a one week period (one cycle). During March to May when the properties are mowed every other week, the properties shall all still be mowed in one week (and not split up between the two weeks).

10. To allow for bad weather or other unforeseen issues, certain properties may be mowed on Saturday. This extra day is not intended to be used every week, but only in the above mentioned circumstances.

11. If a property is not mowed within the one week period (Monday thru Saturday), then the property will not be mowed until the next mowing cycle and regularly scheduled day. The properties that are not mowed during that cycle will not be billed or paid by the City. It will be the City's responsibility to

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

determine if the properties missed during that cycle will need to be mowed before the next cycle. If so, the City will mow them.

12. The properties should be mowed according to the schedule to avoid having more than seven (7) days between mowing during the weekly mowing schedule.

13. If the Contractor is regularly not able to complete the scheduled mowing cycle as outlined above, the City will interpret this to mean that the Contractor does not have the resources to successfully execute this contract and may terminate the contract for cause.

14. A batwing mower can be used at Lillian Bryant and Ocala Regional Sportsplex to assist in getting the parks mowed in the allotted time. The Contractor may store this piece of equipment at WRF #3 under the following conditions:
    A. The City will not provide a covered storage area.
    B. The City will not be responsible for any damage to the equipment while it is stored on City property.
    C. The equipment will only be accessible at WRF #3 from 8am to 5pm during the week.
    D. All other specifications must be complied with.

CITY OF OCALA RESPONSIBILITIES

1. The City of Ocala will furnish the following services/data to the Contractor for the performance of services:

    A. Access to City buildings and facilities to perform the work.
    B. Provide access to drawings, specifications, schedules, reports, and other information prepared by/for the City of Ocala pertinent to the Contractor's responsibilities.
    C. Provide office facilities for the Contractor, if needed.

2. The City reserves the right to purchase any materials for the Contractor to use. The Contractor shall not charge a mark-up fee for material furnished by the City.

CONTRACTOR RESPONSIBILITIES

1. The Contractor shall complete all work performed under this solicitation in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
2. The Contractor shall obtain and pay for any and licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this contract.
3. Installation shall be in compliance with all requirements and instructions of applicable manufacturers.
4. Contractor is responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
5. If the Contractor is advised to leave a property by the property owner or their representative, the Contractor shall leave at once without altercation. Contractor shall then contact the City Project Manager within 24 hours and advise of the reason for not completing the assigned project.

Docusign Envelope ID: 5BE85B26-D0D5-43DF-86CC-04F79A24E434

6. Data collected by the Contractor shall be in a format compatible with, or easily converted to City's databases. A sequential naming convention should be applied to the files and documentation provided to the City.
7. The Contractor shall ensure that all documents prepared under this contract have been prepared on a Windows-based operating system computer using the most current version of Microsoft Office, which includes: Word, Excel, Power Point, Access or any other software as specified and approved by City staff.

SUB-CONTRACTORS

1. Contractor must perform a minimum of 30% of the work with their own forces.
2. Services assigned to sub-Contractors must be approved in advance by the City Project Manager.

SAFETY

1. The Contractor shall be fully responsible for the provision of adequate and proper safety precautions meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-Contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.
3. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

SECOND AMENDMENT TO AGREEMENT FOR GROUNDS MAINTENANCE SERVICES

THIS SECOND AMENDMENT TO AGREEMENT FOR GROUNDS MAINTENANCE SERVICES

("Second Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN# 27-4898723) ("Vendor").

WHEREAS, on March 14, 2023, City and Vendor entered into an Agreement for Grounds Maintenance Services (the "Original Agreement"), City of Ocala Contract No.: REC/230068; and

WHEREAS, on July 5, 2023, City and Vendor entered into a First Amendment to Agreement for Grounds Maintenance Services ("First Amendment") to modify the locations to be maintained by Vendor as set forth in the Price Proposal attached to the Original Agreement as Exhibit B; and

WHEREAS, City and Vendor now desire to add a location to be maintained by Vendor as set forth in the Price Proposal attached to the First Amendment as Amended Exhibit B.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Vendor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Second Amendment.
4. **AMENDMENT TO AMENDED EXHIBIT B – PRICE PROPOSAL.** The document attached to the Original Agreement, as amended, as Amended Exhibit B – Price Proposal is hereby deleted and replaced, in its entirety, with the document attached to this Second Amendment as **Exhibit B – Second Amended Price Proposal.**
5. **NOTICES**. All notices, certifications or communications required by this Second Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by email. All notices shall be addressed to the respective parties as follows:

If to Vendor:
Southern Lawn Care Mid Florida, Inc.
Attention: Tim McQuaig
13900 NE 41st Terrace
Anthony, Florida 32617
E-Mail: kawboy32x@gmail.com
PH: 352-304-3921

If to City:
Daphne Robinson, Esq., Contracting Officer
City of Ocala
110 SE Watula Avenue, Third Floor
Ocala, FL 34471
E-Mail:notices@ocalafl.gov
PH: 352-629-8343

with copy to: William E. Sexton, Esq., City Attorney
City of Ocala
110 SE Watula Avenue, Third Floor
Ocala, FL 34471
E-Mail: cityattorney@ocalafl.gov

5. **COUNTERPARTS.** This Second Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
6. **ELECTRONIC SIGNATURE(S).** Vendor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Second Amendment. Further, a duplicate or copy of the Second Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Second Amendment for all purposes.
7. **LEGAL AUTHORITY**. Each person signing this Second Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Second Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Second Amendment.

IN WITNESS WHEREOF, the parties have executed this Second Amendment on _____.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

FIRST AMENDMENT TO AGREEMENT FOR GROUNDS MAINTENANCE SERVICES

THIS FIRST AMENDMENT TO AGREEMENT FOR GROUNDS MAINTENANCE SERVICES ("First Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **SOUTHERN LAWN CARE MID FLORIDA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN# 27-4898723) ("Vendor").

WHEREAS, on March 14, 2023, City and Vendor entered into an Agreement for Grounds Maintenance Services (the "Original Agreement"), City of Ocala Contract No.: REC/230068; and

WHEREAS, City and Vendor desire to modify the locations to be maintained by Vendor as set forth in the Price Proposal attached to the Original Agreement as Exhibit B.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Vendor is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this First Amendment.
4. **AMENDMENT TO EXHIBIT B – PRICE PROPOSAL.** The document attached to the Original Agreement as Exhibit B – Price Proposal is hereby deleted and replaced, in its entirety, with the document attached to this First Amendment as **Amended Exhibit B – Price Proposal.**
5. **NOTICES**. All notices, certifications or communications required by this First Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by email. All notices shall be addressed to the respective parties as follows:

If to Vendor:
Southern Lawn Care Mid Florida, Inc.

5. **COUNTERPARTS.** This First Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

6. **ELECTRONIC SIGNATURE(S).** Vendor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this First Amendment. Further, a duplicate or copy of the First Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original First Amendment for all purposes.

7. **LEGAL AUTHORITY**. Each person signing this First Amendment on behalf of either party individually warrants that he or she has full legal power to execute this First Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this First Amendment.

IN WITNESS WHEREOF, the parties have executed this First Amendment on 7/5/2023.

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

AGREEMENT FOR GROUNDS MAINTENANCE SERVICES

THIS AGREEMENT FOR GROUNDS MAINTENANCE SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **SOUTHERN LAWN CARE MID FLORIDA, INC.** a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 27-4898723) ("Vendor").

WHEREAS, on December 15, 2022, City issued an Invitation to Bid ("ITB") for the provision of grounds maintenance services at multiple locations throughout the City, ITB No.: REC/230068 (the "Solicitation"); and

WHEREAS, three (3) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, the bid submitted by Vendor was the lowest responsible bid; and

WHEREAS, Southern Lawn Care Mid Florida, Inc. was selected to provide grounds maintenance services at multiple locations throughout the City (the "Services");

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Vendor agree as follows:

1. **RECITALS.** City and Vendor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Vendor shall only include this Agreement and those documents listed in this section as Exhibits to this Agreement. Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.
   Exhibits to Agreement: The Exhibits to this Agreement are as follows:
   Exhibit A: Scope of Work (A-1 through A-7)
   Exhibit B: Price Proposal (B-1 through B-3)
3. **SCOPE OF SERVICES.** Vendor shall provide all materials, labor, supervision, tools, accessories, equipment, and permits necessary for Vendor to perform its obligations under this Agreement as set forth the attached **Exhibit A - Scope of Work** and Contract Documents. The Scope of Work under this Agreement may only be adjusted by written amendment executed by both parties.
4. **COMPENSATION.** The highest total compensation payable to Vendor by City under this Agreement for the timely and satisfactory performance of services in compliance with the Contract Documents shall be **SIX HUNDRED FIFTY-THREE THOUSAND, EIGHT HUNDRED**

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

FORTY-SEVEN AND NO/100 DOLLARS ($653,847) (the "Contract Sum") as full and complete compensation for the timely and satisfactory performance of services to the City over the Initial Term of the Agreement in accordance with the Contract Documents and unit pricing set forth below.

A. **Renewal Pricing Increases.** Pricing shall remain firm and fixed during the Initial Term of this Agreement. Any renewal price adjustment shall be subject to negotiation and must be approved by the City of Ocala. Vendor shall submit a written request for price adjustment identifying the reason for the price increase, and attach suitable documentation in support of same, no less than **NINETY (90) DAYS** prior to the expiration of the then existing Contract Term. No retroactive price adjustments will be allowed. Pricing increases shall not exceed the lesser of: (i) the amount of the percentage increase reflected in the Consumer Price Index for all Urban Consumers (CPI-U), not seasonally adjusted, based upon the most recent **TWELVE (12) MONTH** period; or (ii) **THREE PERCENT (3%) ANNUALLY** unless there are mitigating market conditions.

B. **Invoice Submission**. All invoices submitted by Vendor shall include the City Contract Number, an assigned Invoice Number, an Invoice Date and Location of Services. Vendor shall submit the original invoice through the responsible City Project Manager at: **Recreation and Parks Division Head**, 828 NE 8th Avenue, Ocala, Florida 34470 Attn: **Bill Rodriguez**, E-Mail: wcayro@ocalafl.org; Telephone: (352) 358-5503.

C. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

D. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Vendor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Vendor within **THIRTY (30)** calendar days of the Vendor's remedy or resolution of the inadequacy or defect.

E. **Excess Funds**. If due to mistake or any other reason Vendor receives payment under this Agreement in excess of what is provided for by the Agreement, Vendor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Vendor's receipt of the overpayment or must

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

F. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Vendor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Vendor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **EFFECTIVE DATE AND TERM.** This Agreement shall become effective and commence on **MARCH 8, 2023** and continue for a term of **THREE (3) YEARS**, through and including **MARCH 7, 2026**. This Agreement may be renewed for **TWO (2)** additional **ONE-YEAR (1-Year)** periods by written consent between City and Vendor.
6. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, pandemics, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

   A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof as soon as it becomes aware.
   B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Vendor performance shall be extended for a number of days equal to the duration of the force majeure.
   C. Vendor shall be entitled to an extension of time only and, in no event, shall Vendor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.
7. **INSPECTION AND ACCEPTANCE OF THE WORK**. All services, work, and materials provided by Vendor under this Agreement shall be provided under the direction and to the satisfaction and approval of the Project Manager.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

A. The Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials, the rate of progress of the work, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Vendor in its Bid. The authority vested in the Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the Services.

B. Neither the Project Manager's review of Vendor's work nor recommendations made by Project Manager pursuant to this Agreement will impose on Project Manager any responsibility to supervise, direct, or control Vendor's work in progress or for the means, methods, techniques, sequences, or safety precautions or programs incident to Vendor's provision of Services under this Agreement.

8. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Documents, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.

A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Vendor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Vendor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Vendor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:

(1) Vendor's performance or workmanship falls below acceptable City or trade standards;

(2) Vendor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;

(3) Vendor provides material that does not meet the specifications of the Agreement;

(4) Vendor fails to complete the work required within the time stipulated in the Agreement; or

(5) Vendor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Vendor cannot or will not perform to the requirements of the Agreement.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

B. **Vendor's Opportunity to Cure Default**. City may, in its sole discretion, provide Vendor with an opportunity to cure the violations set forth in City's notice of default to Vendor. Vendor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Vendor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Vendor Default**. In the event Vendor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:

(1) City shall be entitled to terminate this Agreement without further notice;

(2) City shall be entitled to hire another vendor to complete the required work in accordance with the needs of City;

(3) City shall be entitled to recover from Vendor all damages, costs, and attorney's fees arising from Vendor's default prior to termination; and

(4) City shall be entitled to recovery from Vendor any actual excess costs by: (i) deduction from any unpaid balances owed to Vendor; or (ii) any other remedy as provided by law.

D. **Termination for Non-Funding**. In the event that budgeted funds to finance this Agreement are reduced, terminated, or otherwise become unavailable, City may terminate this Agreement upon written notice to Vendor without penalty or expense to City. City shall be the final authority as to the availability of budgeted funds.

E. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The Project Manager shall provide written notice of the termination. Upon receipt of the notice, Vendor shall immediately discontinue all work as directed in the notice, notify all subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Vendor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Vendor as permitted under this Agreement and approved by City.

9. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Vendor's performance. Any such evaluation will become public record.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

10. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any Vendor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.
11. **VENDOR REPRESENTATIONS**. Vendor expressly represents that:

    A. Vendor has read and is fully familiar with all of the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Vendor under this Agreement.

    B. Vendor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Vendor in the Contract Documents, and that the City's written resolution of same is acceptable to Vendor.

    C. Vendor has had an opportunity to visit, has visited, and has had an opportunity to examine and ask questions regarding the sites upon which the work is to be performed and is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Vendor's own investigation.

    D. Vendor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.

    E. **Public Entity Crimes.** Neither Vendor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Vendor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Vendor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

12. **VENDOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Vendor:
    A. Vendor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.
    B. Vendor shall be solely responsible for the means, methods, techniques, sequences, or procedures, and safety precautions or programs incident thereto.
    C. Vendor shall be responsible to see that the finished work complies accurately with the contract and the intent thereof.
    D. Vendor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, and be responsible for all costs associated with same.
    E. Vendor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Vendor and City may otherwise agree in writing.
13. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Vendor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.
14. **STORAGE OF MATERIALS/EQUIPMENT**. Vendor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of equipment and materials (whether furnished by Vendor or City) to be utilized in the performance of or incorporated into the work.
15. **COMMERCIAL AUTO LIABILITY INSURANCE.** Vendor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Vendor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Vendor does not own vehicles, Vendor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Vendor's Commercial General Liability policy or separate Commercial Automobile Liability policy.
16. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Vendor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial general liability insurance with limits not less than:

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and
B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.
C. Policy must include coverage for contractual liability and independent contractors.
D. The City, a Florida municipal corporation, and its officials, employees, and volunteers are to be covered as additional insureds with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liabilities arising out of activities performed by or on behalf of Vendor. This coverage shall contain no special limitation on the scope of protection to be afforded to the City, its officials, employees, and volunteers.

17. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Vendor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement adequate workers' compensation and employer's liability insurance covering all of its employees in at least such amounts as required by Chapter 440, Florida Statutes, and all other state and federal workers' compensation laws, including the U.S. Longshore Harbor Workers' Act and the Jones Act, if applicable. Vendor shall similarly require any and all of its subcontractors to afford such coverage for all of its employees as required by applicable law. Vendor shall waive and shall ensure that Vendor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Vendor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent. **Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.**
18. **MISCELLANEOUS INSURANCE PROVISIONS.**

A. Vendor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Vendor shall not be interpreted as limiting Vendor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Vendor's interests or liabilities or to protect Vendor from claims that may arise out of or result from the negligent acts, errors, or omissions of Vendor, any of its agents or subcontractors, or for anyone whose negligent act(s) Vendor may be liable.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

B. No insurance shall be provided by the City for Vendor under this Agreement and Vendor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.

C. Certificates of Insurance. No work shall be commenced by Vendor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Vendor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. Vendor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.org. Vendor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. Failure to Maintain Coverage. In the event Vendor fails to disclose each applicable deductible/self-insured retention or obtain or maintain in full force and effect any insurance coverage required to be obtained by Vendor under this Agreement, Vendor shall be considered to be in default of this Agreement.

E. City as an Additional Insured. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation and Professional Liability policies.

F. Notice of Cancellation of Insurance. Vendor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Vendor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Vendor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.org.

G. Failure to Maintain Coverage. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Vendor. Vendor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

H. Severability of Interests. Vendor shall arrange for its liability insurance to include, or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

18. **SAFETY/ENVIRONMENTAL.** Vendor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the work. Vendor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

    A. All employees on the work and other persons that may be affected thereby;

    B. All work, materials, and equipment to be incorporated therein, whether in storage on or off the site; and

    C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities.

    All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Vendor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Vendor. Vendor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

19. **TRAFFIC CONTROL AND BARRICADES.** Vendor shall mitigate impact on local traffic conditions to all extents possible. Vendor is responsible for establishing and maintaining appropriate traffic control and barricades. Vendor shall provide sufficient signing, flagging and barricading to ensure the safety of vehicular and pedestrian traffic at all locations where work is being done under this Agreement.

20. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Vendor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.

21. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Vendor or any other persons or organizations having a direct contract with Vendor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Vendor or any other persons or organizations having a direct contract with Vendor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Vendor, subcontractor, or of any of their agents or employees. nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.

22. **INDEPENDENT CONTRACTOR STATUS.** Vendor acknowledges and agrees that under this Agreement, Vendor and any agent or employee of Vendor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Vendor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Vendor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Vendor in its performance of its obligations under this Agreement.

23. **ACCESS TO FACILITIES.** City shall provide Vendor with access to all City facilities as is reasonably necessary for Vendor to perform its obligations under this Agreement.

24. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.

25. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Vendor under this Agreement be abandoned, or should Vendor become insolvent, or if Vendor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.

26. **PUBLIC RECORDS.** Vendor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, Vendor shall:
    A. Keep and maintain public records required by the public agency to perform the service.
    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if Vendor does not transfer the records to the public agency.
    D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of Vendor or keep and maintain public records required by the public agency to perform the service. If Vendor transfers all public records to the public agency upon completion of the contract, Vendor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Vendor keeps and maintains public records upon completion of the contract, Vendor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.org; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

27. **AUDIT.** Vendor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.

28. **PUBLICITY.** Vendor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
29. **E-VERIFY.** Pursuant to section 448.095, Vendor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Vendor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Vendor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Vendor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Vendor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Vendor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.
30. **CONFLICT OF INTEREST.** Vendor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Vendor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Vendor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
31. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.
32. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

33. **INDEMNITY.** Vendor shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from, all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Vendor, its agents, and employees.
34. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.
35. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Vendor:	Southern Lawn Care Mid Florida, Inc. Attention: Tim McQuaig 13900 NE 41st Ter Anthony, Florida 32617 Phone: 352-304-3921 E-mail: kawboy32x@gmail.com
If to City of Ocala:	Daphne M. Robinson, Esq. - Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.org

Copy to: William E. Sexton, Esq., City Attorney
City of Ocala
110 SE Watula Avenue, 3rd Floor
Ocala, Florida 34471
Phone: 352-401-3972
E-mail: cityattorney@ocalafl.org

36. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.
37. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.
38. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

39. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
40. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
41. **MUTUALITY OF NEGOTIATION.** Vendor and City acknowledge that this Agreement is a result of negotiations between Vendor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
42. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
43. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.
44. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
45. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
46. **ELECTRONIC SIGNATURE(S).** Vendor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.

47. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.

48. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on 3/14/2023.

BACKGROUND

Contractor shall provide grounds maintenance services at multiple locations throughout the city. It shall be the responsibility of the successful party to maintain the sites outlined in the most efficient and effective manner. Contractor will provide all equipment, labor and materials necessary to provide these services.

EQUIPMENT REQUIREMENTS

Contractor must possess and properly maintain (for the duration of this contract) the following equipment:

1. Ten (10) weed eaters
2. Ten (10) edgers
3. Ten (10) backpack blowers
4. One (1) three-wheel blower
5. Two (2), forty-two inch (42") or greater zero turn mowers
6. Eight (8), fifty-two inch (52") or greater zero turn mowers
7. One (1) batwing mower
8. Three (3) trucks/trailers
9. Three (3) backpack sprayers
10. One (1), twenty-five (25) gallon tank sprayer

Working Hours: The normal/standard working hours for this project are 7:00 AM – 5:00 PM Monday through Friday, excluding holidays. Contractor shall provide 48-hour advance notice to City Project Manager for work outside normal shift hours. The city may decline the request.

MOWING FREQUENCIES

Month	Cuts per month
January	1

***The City anticipates mowing frequencies as outlined above, however; the City reserves the right to adjust these frequencies as needed.**

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

DEFINITIONS

1. Trash: Trash is defined as anything loose and useless (examples but not limited to) bottles, cans, paper, plastic bags, plastic bottles, plastic food wrappers and Styrofoam cups and plates.

2. Debris: Debris is defined as objects lying on the ground in an area to be mowed that are mostly organic (examples but not limited to) tree limbs less than six inches (6″) in diameter and smaller than six feet (6′) in length, tree branches, twigs, hedge clippings and sapling trimmings. One (1) or two (2) broken concrete blocks would qualify as debris but an abundance of blocks would be the City's responsibility to move. If the Contractor finds large items such as old tires, concrete blocks, old chairs or sofas, dead car batteries, etc., on a site to be mowed please call the City contact to report the findings and the City will remove and properly dispose of the debris. Otherwise, it is the Contractor's responsibility to remove and properly dispose of debris before mowing.

MOWING

1. Mowing and all related services at a park or parcel should be started and completed on the same day (weather permitting). For larger parcels, the Contractor should attempt to complete all work in one area and then move the operation to the next area of that parcel. The intent is that a parcel will not be left for days with the parcel mowed, but with high grass still standing around benches, bleachers, etc. waiting on follow up trimming and weed eating.

2. Mow at a height of two inches (2″) for Bahia grass, four inches (4″) inches for St. Augustine grass, and three inches (3″) for Zoysia grass. Mow Anderson Park at three inches (3″).

3. Mow all grassed areas in accordance with the frequency indicated on the price page proposal. Specific mowing dates and days will be set by the City. Contractor must follow City noise ordinance when planning mowing times.

4. The City does not include an allowance for delays caused by inclement weather; however, the City will grant time extensions, on a day-to-day basis for delays caused by the effects of rain or other inclement weather conditions. No additional compensation will be made for delays caused by the inclement weather.

5. Proper equipment must be used to mow mounds in the parks and parcels sites to prevent scalping, rutting, or cutting off tops of slopes with mowing equipment, causing soil erosion. Size of equipment needs to match the size of the area to be mowed. Note – This may require the use of hand equipment (push mowers, weed eaters, etc.) in limited areas.

6. All equipment must be properly maintained mechanically. The blades must be sharpened so that the grass is cut and not torn, causing damage to the grass plants. Tires must be equally inflated to avoid uneven cuts, etc. The Contractor is responsible for operating equipment at speeds that result in proper cuts.

7. Contractor must pick up and remove trash and debris in and around the area to be mowed to include fence lines before mowing and properly dispose of it so it is not chopped up by mower. The Contractor is responsible for a clean area (free of trash and debris) with neat appearance, even cut and no clumps

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

of grass to remain in the mowed areas. If the cuttings leave a thick blanket like cover over the existing cut area the operator must repeat the cycle to scatter the grass cuttings. All mowed areas will be inspected by the City's contract monitoring group. Debris must be removed from the site; not thrown under trees.

8. The Contractor will be responsible for all damages incurred to any water sprinkler systems, fences, shrubs, trees, value boxes, etc., while performing the grounds maintenance. Leaning signs and bollards leaning due to contact with equipment will need to be straighten up. Any ground sprinklers damaged are to be repaired immediately to comply with water conservation regulations. All damages are to be reported to the User City where final disposition will be made as to replace and/or repair.

9. Backflow assemblies are located in various areas throughout the City. In the event a backflow assembly unit is damaged or destroyed by the Contractor, the Contractor shall be liable for all damages and shall be responsible for any costs associated with the repair or replacement of the unit(s). The Contractor's employees shall at all times have a wrench in their possession to shut off the water should damage occur. Report any damage within 15 minutes to Jeff Kerley, (352) 368-5527. In the event that Jeff Kerley cannot be reached, please call Parks Operations (352) 368-5550 or the Park Ranger on-call number (352) 789-1133.

10. Water meter damage should be reported to the Water Resources Department (352) 351-6772. Repairs must be made within 48 hours of damage occurrence, with the exception of utility related repairs, which must be completed as soon as possible.

11. No air blowers shall be used to blow grass debris into roadway. Grass clippings shall be blown away from roadways, but not into retention ponds. All cuttings must be kept off/removed from the streets, sidewalks, pavilions, restrooms trails, landscape beds and public art.

12. When mowing, grass is to be directed away from pools, ponds, retention areas, fences, athletic fields, landscape beds, gardens, plaza's, splash pads, playgrounds, artwork, picnic areas, fence lines and other park amenities. In insistences where mowing occurs around the above-mentioned areas, a rear discharge mower must be used. All cuttings must be kept off/removed from these areas and amenities. If cuttings do manage to get into these areas, Contractor shall be responsible for blowing those areas off, and/or costs to remediate the situation (i.e. cleaning out a pool).

TRIMMING AND WEED CONTROL

1. The use of chemicals in place of weed eating around parks amenities and support facilities is NOT permitted. Glyphosate and other non-selective herbicides and similar chemicals with application rates per the manufacturer's recommendations are only permitted to be used to spray fence lines and cracks in sidewalks and other paved surfaces or to kill or retard the growth directly under trees as specified herein and shall not be used for any other purpose unless written consent is provided by the City. All plans for use of herbicides must be approved in writing by the City Project Manager before herbicides are applied.

2. When using chemicals to treat fence lines, special care shall be used so chemicals are not sprayed onto adjacent private property and use a cone on the sprayer to prevent overspray. Care should be taken to not over spray onto adjacent turf. A three inch (3") swath is to be sprayed on either side of the fence to maintain grass and weed control providing the adjacent side of the fence is not private property. If

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

the adjacent side is private property only a three inch (3") swath shall be sprayed on the City property. Once the vegetation has been trimmed down to ground level with a weed eater or similar device and the remaining vegetation removed from the fence, the area should be treated with chemicals. Trimming and chemical treating of said vegetation shall be done on the same day the mowing is done. Over spraying resulting in damage of grass will require exact replacement of sod at Contractor's expense.

3. A one foot (1') diameter area from the base of trees shall be maintained when trimming around trees. Chemically kill or restrict the growth directly under trees using Glyphosate and other non-selective herbicides or other suitable and equally effective herbicide. When chemically trimming around trees, special care is to be given to avoid spraying the suckers growing from the ground around the tree; this may damage or kill the tree. Removal of the bark by weed eater or other equipment that is greater than 25% of the diameter of the tree will result in the tree being replaced at the expense of the Contractor. This is common around Crape Myrtles and not normally found around Oaks and other common hard wood trees.

4. Sidewalks, courts (basketball, racquetball, tennis), parking lots, curbs and hard surface trails (asphalt/concrete) are to be mechanically edged (NOT chemically edged) and where there are cracks in the sidewalks, trails and curbs with grass and weeds growing through the cracks the vegetation shall be sprayed with an approved herbicide and after the vegetation is dead it is to be removed with a weed-eater or similar string device and remove debris as work is being done. Walking trails need to be edged once monthly, one the first mowing date of each month.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. The Contractor shall provide an assigned Project Manager, who will be the primary point of contact. Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
3. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
4. The employees of the Contractor must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in as good appearance as the job conditions permit.
5. Contractor will operate as an independent Contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
6. No smoking is allowed on City property or projects.
7. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
8. All company trucks must have a visible company name/logo on the outside of the vehicle.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

MISCELLANEOUS

1. Report sinkholes found in any area to the City Parks Operations Division Head.

2. At least one crewmember must communicate fluently in English.

3. A supervisor or crew leader must be on-site to certify that all work has been completed according to the specifications of the contract. While the City will certainly monitor the Contractor's work for compliance with the contract specifications, it is **not** the City's responsibility to supervise or monitor the work of crews performing the work. If the City has to frequently contact the Contractor about issues, it is indicative of improper supervision by the Contractor, and the City may terminate the contract for cause.

4. Properties having gates: Any gates needing repair for failure to close, open, or lock must be reported to the department* responsible for that area. All gates must be closed and locked when finished mowing. *If Contractor is unsure of which City department is responsible for the gate in question, please notify the City Parks Operations Division Head.

5. All Contractor's employees are to wear shirts or have a badge which identifies their company, and all trucks belonging to the Contractor must bear the company's name. Shirts must be worn at all times while working on City property.

6. When working near roadways or within roadway medians, the Contractor shall wear an FDOT approved vest; and FDOT approved safety cones and FDOT approved "Men Working Signs" shall be placed appropriately in front of and behind their truck. The Contractor is responsible for fully understanding these requirements and costs related to compliance shall be included in Contractor's price proposal.

7. Contractor will submit a weekly report to the City Project Manager. The weekly report shall list the properties mowed, and identify any problems or issues at any of the sites as well as the Contractor's recommendations to resolve the issue or problem.

8. Contractor will suggest a schedule for what day each park is going to be mowed during the week and shall provide that schedule to the City Project Manager for approval. The City reserves the right to designate the scheduled mowing day for any particular property as needed to accommodate City programming schedules and will discuss same with Contractor when establishing the schedule

9. All properties will be mowed in a one week period (one cycle). During March to May when the properties are mowed every other week, the properties shall all still be mowed in one week (and not split up between the two weeks).

10. To allow for bad weather or other unforeseen issues, certain properties may be mowed on Saturday. This extra day is not intended to be used every week, but only in the above mentioned circumstances.

11. If a property is not mowed within the one week period (Monday thru Saturday), then the property will not be mowed until the next mowing cycle and regularly scheduled day. The properties that are not mowed during that cycle will not be billed or paid by the City. It will be the City's responsibility to

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

determine if the properties missed during that cycle will need to be mowed before the next cycle. If so, the City will mow them.

12. The properties should be mowed according to the schedule to avoid having more than seven (7) days between mowing during the weekly mowing schedule.

13. If the Contractor is regularly not able to complete the scheduled mowing cycle as outlined above, the City will interpret this to mean that the Contractor does not have the resources to successfully execute this contract and may terminate the contract for cause.

14. A batwing mower can be used at Lillian Bryant and Ocala Regional Sportsplex to assist in getting the parks mowed in the allotted time. The Contractor may store this piece of equipment at WRF #3 under the following conditions:
    A. The City will not provide a covered storage area.
    B. The City will not be responsible for any damage to the equipment while it is stored on City property.
    C. The equipment will only be accessible at WRF #3 from 8am to 5pm during the week.
    D. All other specifications must be complied with.

CITY OF OCALA RESPONSIBILITIES

1. The City of Ocala will furnish, the following services/data to the Contractor for the performance of services:

    A. Access to City buildings and facilities to perform the work.
    B. Provide access to drawings, specifications, schedules, reports, and other information prepared by/for the City of Ocala pertinent to the Contractor's responsibilities.
    C. Provide office facilities for the Contractor, if needed.

2. The City reserves the right to purchase any materials for the Contractor to use. The Contractor shall not charge a mark-up fee for material furnished by the City.

CONTRACTOR RESPONSIBILITIES

1. The Contractor shall complete all work performed under this solicitation in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
2. The Contractor shall obtain and pay for any and licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this contract.
3. Installation shall be in compliance with all requirements and instructions of applicable manufacturers.
4. Contractor is responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
5. If the Contractor is advised to leave a property by the property owner or their representative, the Contractor shall leave at once without altercation. Contractor shall then contact the City Project Manager within 24 hours and advise of the reason for not completing the assigned project.

DocuSign Envelope ID: 63D731CA-E2FB-48BA-B61B-41F678414655

6. Data collected by the Contractor shall be in a format compatible with, or easily converted to City's databases. A sequential naming convention should be applied to the files and documentation provided to the City.
7. The Contractor shall ensure that all documents prepared under this contract have been prepared on a Windows-based operating system computer using the most current version of Microsoft Office, which includes: Word, Excel, Power Point, Access or any other software as specified and approved by City staff.

SUB-CONTRACTORS

1. Contractor must perform a minimum of 30% of the work with their own forces.
2. Services assigned to sub-Contractors must be approved in advance by the City Project Manager.

SAFETY

1. The Contractor shall be fully responsible for the provision of adequate and proper safety precautions meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-Contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.
3. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.

Action Text:

Notes: Council Member Bethea asked if the acreage was increased in the contract. Parks Operation Division Head Bill Rodriguez-Cayro responded yes; the acreage was increased to allow the City to focus on turf maintenance.

Mayor Guinn asked if the contract includes cemetery/DRA maintenance. Director of Public Works Darren Park responded cemetery/DRA maintenance is managed by the Public Works Department.

There being no further discussion the motion carried by roll call vote.

Aye: 5 Council President Mansfield, Council Member Bethea Sr, Pro Tem Dreyer, Council Member Musleh, and Council Member Hilty Sr

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
Bid released to the public: 12/15/2022

BACKGROUND:
On December 15, 2022, the City issued its Invitation to Bid ("ITB") No. REC/230068 for Recreation & Parks grounds maintenance services. On January 25, 2023, bids were received from three (3) vendors. The bid from SLC Ocala, LLC was rejected as non-responsive due to failure to meet the licensing requirements as set forth in the solicitation. Bid results for the remaining responsive bidders are summarized below:

FINDINGS AND CONCLUSIONS:
· Southern Lawn Care Mid Florida, Inc. meets all solicitation requirements for the provision of Recreation and Parks grounds maintenance services. After a review of references and all other bid criteria, staff recommends awarding the contract to Southern Lawn Care Mid Florida, Inc.
· The term of the agreement is for three years, with two optional one-year renewals upon mutual written consent of both parties.
· The annual contract amount for Recreation & Parks grounds maintenance services is $217,948.98, which yields an aggregate total of $653,846.94 over the three-year contract term.

FISCAL IMPACT:
The contract for Recreation and Parks grounds maintenance services will have an annual fiscal impact of $217,948.98. Recreation and Parks grounds maintenance services are budgeted in the Recreation and Parks Department Budget (001-021-120-572-57-34010). Adequate funds are budgeted to cover the cost of these services.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:
· Approve with Changes
· Table

- Deny

Department: Human Resources and Risk Management

FORMAL TITLE:
First Amendment to the Agreement for Third Party Liability/Workers' Compensation Claims Administration Services between the City of Ocala and PMA Management Corp. renewing the agreement for an additional three-year term and establishing a total contract sum not to exceed $802,239

OCALA'S RELEVANT STRATEGIC GOALS:
Fiscally Sustainable, Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
On May 30, 2023, the City entered into an agreement with PMA Management Corp. (Contract No. RSK 230094) to provide third-party administration services for the City's liability and workers' compensation claims. The original contract term runs from April 1, 2023, through March 30, 2026.

Pursuant to the terms of the agreement, one three-year renewal period is available. PMA has formally confirmed its consent to extend the contract for the renewal term. The first amendment renews the contract for the three-year period, April 1, 2026, through March 30, 2029, and establishes a total not-to-exceed amount of $802,239 for claims administration services during the renewal term, consistent with the pricing outlined in the amendment.

PMA Management Corp. is the City's current third-party administrator and provides claims handling, reporting, compliance, and program support for all liability and workers' compensation claims.

FINDINGS AND CONCLUSIONS:
Renewing this agreement maintains continuity in claims management and ensures the City continues to meet statutory and administrative obligations associated with workers' compensation and liability programs. PMA's continued service supports operational efficiency, improved claims handling, and mitigation of risk exposure. Staff recommends approval.

FISCAL IMPACT:
The contract sum for the renewal term shall not exceed $802,239 for the period April 1, 2026, through March 30, 2029. $267,413 annually is budgeted in account 626-099-999-590-81-31010. No budget amendment is required.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's procurement policy.

LEGAL REVIEW:
This amendment will be reviewed and approved for form and legality by City Attorney William E. Sexton.

FIRST AMENDMENT TO AGREEMENT FOR THIRD PARTY LIABILITY/WORKERS' COMPENSATION CLAIMS ADMINISTRATION SERVICES

THIS FIRST AMENDMENT TO AGREEMENT FOR THIRD PARTY LIABILITY WORKERS' COMPENSATION CLAIMS ADMINISTRATION SERVICES ("First Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **PMA MANAGEMENT CORP.**, a for-profit corporation duly organized and authorized in the state of Florida (EIN: 23-2652239) ("Third Party Administrator," "TPA," or "Contractor").

WHEREAS, on May 30, 2023, City and TPA entered into an Agreement for Third Party Liability/Workers' Compensation Claims Administration Services (the "Original Agreement"), City of Ocala Contract No.: RSK/230094, for a term of three years from April 1, 2023, through March 30, 2026; and

WHEREAS, City and TPA now desire to renew the Original Agreement for the sole three (3) year renewal period available under the terms of the Original Agreement.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and TPA agree as follows:

1. **RECITALS**. City and TPA hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT.** The Original Agreement, as amended, between City and Vendor is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except, for those terms and conditions expressly amended by this Second Amendment.
3. **RENEWAL TERM.** The Original Agreement, as amended, is hereby renewed for an additional three (3) year term beginning on **APRIL 1, 2026,** and terminating **MARCH 30, 2029.**
4. **COMPENSATION.** City shall pay TPA a price not to exceed **EIGHT HUNDRED TWO THOUSAND, TWO HUNDRED THIRTY-NINE AND NO/100 DOLLARS ($802,239)** (the "Contract Sum") over the Renewal Term as full and complete compensation for the timely and satisfactory provision of services.
5. **NOTICES.** All notices, certifications or communications required by this First Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to TPA:

PMA Management Corp.

6. **COUNTERPARTS.** This First Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
7. **ELECTRONIC SIGNATURE(S).** TPA, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this First Amendment. Further, a duplicate or copy of the First Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original First Amendment for all purposes.
8. **LEGAL AUTHORITY**. Each person signing this First Amendment on behalf of either party individually warrants that he or she has full legal power to execute this First Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this First Amendment.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK. SIGNATURE PAGE TO FOLLOW.]

IN WITNESS WHEREOF, the parties have executed this First Amendment on _____.

AGREEMENT FOR THIRD PARTY LIABILITY/WORKERS' COMPENSATION CLAIMS ADMINISTRATION SERVICES

THIS AGREEMENT FOR THIRD PARTY LIABILITY/WORKERS' COMPENSATION CLAIMS ADMINISTRATION SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **PMA MANAGEMENT CORP.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 23-2652239) (hereinafter referred to as "Third-Party Administrator," "TPA," or "Contractor").

WHEREAS, on December 19, 2022, City issued a Request for Proposal ("RFP") for the provision of third-party liability and workers' compensation claims administration services to the City of Ocala's Risk Management Department, RFP No.: RSK/230094 (the "Solicitation"); and

WHEREAS, three (3) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, the proposal submitted by PMA Management Corp., was found to be the highest ranked proposal as scored by the City; and

WHEREAS, PMA Management Corp., represents that it has the professional experience and expertise required to provide the necessary third-party liability and workers' compensation claims administration services to the City's Risk Management Department and is willing to do so pursuant to the terms and conditions set forth in this Agreement.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and TPA agree as follows:

1. **RECITALS**. City and TPA hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.

2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and TPA shall only include: (a) this Agreement; and (b) those documents listed in this section as Exhibits to this Agreement. Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:

      Exhibit A: Scope of Work (A-1 through A-13)

      Exhibit B: Proposal – PMA Management Corp. (B-1 through B-32)

   If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A, and then (2) Exhibit B.

3. **SERVICES.** TPA shall provide all materials, labor, supervision, tools, accessories, and equipment necessary for TPA to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work** and **Exhibit B – Proposal**. The Scope of Work under this Agreement may only be adjusted by written amendment executed by both parties.

   A. **Staffing Requirements**. TPA shall provide the City with off-site workers' compensation claims adjusting and administration services for medical only and lost-time claims. In addition to off-site workers' compensation claims adjusting and administration services, TPA shall provide at least one (1) full-time experienced General Liability and Automobile Liability

DocuSign Envelope ID: 8311465D-4DF8-4388-B0BB-7DAFB96CA913

adjuster to work in the City's Risk Management offices Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m. (excluding holidays). TPA shall also provide a part-time experienced adjuster that may work remotely and must provide dedicated claims adjusting 24-hours a day, three (3) days per week. City reserves the right to request the replacement of the adjusters appointed by TPA to service the City under this Agreement.

B. **Disclosure of Vendor Relationships**. City requires full and total transparency with its vendor relationships. Therefore, any commission, service fee or other form of remuneration paid to any agent, broker, lobbyist or third party must have been identified in TPA's proposal for these services. This obligation shall continue throughout the term of this Agreement.

4. **COMPENSATION.** City shall pay TPA an amount not to exceed the sum of **EIGHT HUNDRED TWO THOUSAND, TWO HUNDRED THIRTY-NINE AND NO/100 DOLLARS ($802,239)** (the "Contract Sum") as full and complete compensation for the timely and satisfactory provision of services over the initial contract term in accordance with the Contract Documents, in addition to the other fees set forth in the Exhibit A – Other Service Fee Schedule attached to Exhibit B of this Agreement. The Contract Sum shall be payable to TPA in quarterly installments in the amount of **SIXTY-SIX THOUSAND, EIGHT HUNDRED FIFTY-THREE AND 25/100 DOLLARS ($66,853.25)**.

A. **Pricing**. The Contract Sum shall be payable to TPA in accordance with the Pricing and Fee Schedule set forth in the Pricing Proposal submitted by TPA in response to the City's solicitation for these Services. The pricing under this Agreement may only be adjusted by written amendment executed by both parties.

B. **Commissions and Fees.** The Contract Sum together with the other fees set forth in the *Exhibit A – Other Service Fee Schedule* attached to Exhibit B of this Agreement shall serve as full and complete compensation for TPA's professional services as outlined in **Exhibit A - Scope of Work** and/or **Exhibit B - Proposal**.

(1) No additional compensation shall be due or payable to TPA or any other third-party for the services provided by TPA under this Agreement.

(2) The flat fee paid by the City must be the only remuneration to the Proposer for services provided to the City. Proposer must receive no revenue for these services from subcontractors.

(3) **Failure by TPA to disclose subcontractor compensation agreements or understandings to City in advance shall constitute material breach and service as grounds for termination of this Agreement.**

C. **Invoice Submission**. TPA shall submit invoices to City on a quarterly basis for services rendered and said invoices shall include the City Contract Number, an assigned Invoice Number, and an Invoice Date. Original invoices shall be submitted through the responsible City Project Manager at: **City of Ocala Risk Management Department, Attn: Richard Dennis, E-Mail: rdennis@ocalafl.org ; Telephone: (352)401-3989**.

D. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

E. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by TPA; (ii) is inadequate or defective

DocuSign Envelope ID: 8311465D-4DF8-4388-B0BB-7DAFB96CA913

and has not been remedied or resolved in a manner reasonably satisfactory to the City Project Manager; or (iii) which fails to materially comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to TPA within **THIRTY (30)** calendar days of the TPA's remedy or resolution of the inadequacy or defect.

F. **Excess Funds**. If due to mistake or any other reason TPA receives payment under this Agreement in excess of what is provided for by the Agreement, TPA shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of TPA's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgment at the highest rate allowed by law.

G. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. TPA shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will TPA be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **EFFECTIVE DATE AND TERM**. This Agreement shall become effective and commence on **APRIL 1, 2023** and continue in effect through and including **MARCH 30, 2026** (the "Initial Contract Term"). This Agreement may be renewed for **ONE (1)** additional **THREE-YEAR (3-year)** period by written consent between City and TPA.

6. **FORCE MAJEURE.** Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, pandemics, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

   A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof as soon as it becomes aware.
