Ocala City Council Agenda - Final
Tuesday, June 2, 2026

Meeting Information

Location
Ocala City Hall
110 SE Watula Avenue
Second Floor - Council Chambers
Ocala, Florida

https://www.ocalafl.gov/meetings

Time
4:00 PM

Council Members
Ire Bethea Sr., Council President
Jay A. Musleh, Pro Tem
Kristen Dreyer
James P. Hilty Sr.
Barry Mansfield

Mayor
Ben Marciano

City Manager
Peter Lee

Mission Statement

The City of Ocala provides fiscally responsible services consistent with the community's current and future expectations.

City Council's Strategic Priorities

Priority 1: Economic hub
Priority 2: Fiscally sustainable
Priority 3: Engaged workforce
Priority 4: Operational excellence
Priority 5: Quality of place

WELCOME!
Citizens are encouraged to participate in City of Ocala meetings. Speakers wishing to provide public comments to the City Council should complete a written public comment form and shall submit said form to the City Clerk prior to the meeting being called to order. Unless otherwise permitted, no person shall be permitted to provide public comments to City Council if they have not completed and submitted a public comment card prior to the meeting being called to order. Speakers will be limited to 3 (three) minutes. Additional time may be granted by the Council President. When recognized, state name and address. Citizen groups are asked to name a spokesperson.

The City of Ocala encourages civility in public discourse and requests that speakers limit their comments to specific motions and direct their comments to the Council. Cell phones should be turned off or set to vibrate.

The order of agenda items may be changed if deemed appropriate by City Council.

Citizens are encouraged to provide comments in writing to the City Clerk before meetings for inclusion into the public record. Citizens may also provide input to council members via office visits, phone calls, letters and e-mail that will become public record. In some instances, i.e., Quasi-Judicial Hearings, these particular contacts may be prohibited.

APPEALS
Any person who desires to appeal any decision at this meeting will need a record of the proceedings and for this purpose may need to ensure that a verbatim record of the proceedings is made that includes the testimony and evidence upon which the appeal is made.

ADA COMPLIANCE
If reasonable accommodations are needed for you to participate in this meeting, please call the City Manager's Office at 352-629-8401 at least 48 hours in advance so arrangements can be made.

1. Call to Order

2. Roll Call

2a. New Employees
- Steven Holly, Public Works
- Jason Guess, Information Technology

3. Public Notice

4. Proclamations and Awards

5. Presentations

5a. Municipal Separate Storm Sewer Systems

Presentation By: Sean Lanier

6. Consent Agenda

Consent Agenda items are considered to be routine and will be enacted by one roll call vote. There will be no separate discussion of these items unless members of Council or the public request specific items to be removed for separate discussion and action.

6a. Award of contract to A&A Trucking & Excavating for the Tuscawilla Alum Treatment System Removal project in the amount of $52,469, plus a contingency of $5,246, for a total expenditure not to exceed $57,715

Presentation By: Sean Lanier

6b. Resolution 2026-34 to adopt the Marion County Local Mitigation Strategy Plan 2025 Update **RES-2026-34**

Presentation By: Sean Lanier

6c. Release of an electric utility easement encumbering Parcels 37332-000-00, 37332-002-00, and 36796-010-00

Presentation By: Stephanie Galarza

6d. Release of electric utility easement that encumbers Marion County Parcel 30367-002-02

Presentation By: Tracy Taylor

6e. Resolution 2026-35 to adopt the Agreement for Subordination of Utility Interests to the Florida Department of Transportation that encumbers parcel 2380-000-001 **RES-2026-35**

Presentation By: Tracy Taylor

6f. Resolution 2026-36 to adopt the Agreement for Subordination of Utility Interests to the Florida Department of Transportation that encumbers parcel 23325-003-04 **RES-2026-36**

Presentation By: Tracy Taylor

6g. Resolution 2026-37 to adopt the Agreement for Subordination of Utility Interests to the Florida Department of Transportation that encumbers parcel 23325-003-06 **RES-2026-37**

Presentation By: Tracy Taylor

6h. Resolution 2026-38 to adopt the Agreement for Subordination of Utility Interests to the Florida Department of Transportation that encumbers parcel 2380-000-001 **RES-2026-38**

Presentation By: Tracy Taylor

6i. Florida Department of Transportation Temporary Basecamp Lease at Ocala International Airport

Presentation By: Matthew Grow

6j. City Council meeting minutes

Presentation By: Angel Jacobs

7. Consent Agenda Items Held for Discussion

Should any items be removed from the Consent Agenda for discussion, they will be discussed at this time.

8. Introduction and First Readings of Ordinances

(Second and Final Reading - June 16, 2026)

8a. Ordinance 2026-17 to annex approximately 82.40 acres for property located at 5575 SW 52nd Street (Parcel 23835-000-00) (Case ANX26-0001) (Quasi-Judicial). **ORD-2026-17**

8b. Public Hearing to transmit to the Florida Department of Commerce an amendment to the Future Land Use Element of the Comprehensive Plan and Introduction of Ordinance 2026-18 to change the Future Land Use designation of approximately 82.40 acres for property at 5575 SW 52nd Street (Parcel 23835-000-00) from High Residential (County) to Low Intensity (City) (Case LUC26-0001) (Quasi-Judicial) **ORD-2026-18**

Presentation By: Aubrey Hale

9. Public Hearings / Second and Final Readings / Adoption of Ordinances

9a. Ordinance 2026-16 to rezone from B-2, Community Business, to M-1, Light Industrial, for property located in the 200 block of SW 27th Avenue (Parcel 22780-002-00), approximately 1.25 acres (Case ZON26-0001) (Quasi-Judicial)

Presentation By: Aubrey Hale

Introduced by: James P. Hilty Sr

9b. Expansion of the sale of beer, wine, and liquor for on-premises consumption to include outdoor consumption within the approved sidewalk café area for Martin & Weiss, LLC, doing business as The Tipsy Skipper, located at 48 South Magnolia Avenue, Suite A (Parcel 2853-046-009) (Quasi-Judicial)

Presentation By: Aubrey Hale

9c. Expansion of the sale of beer, wine, and liquor for on-premises consumption to include outdoor consumption within the approved sidewalk café area for Martin & Weiss, LLC, doing business as Mutiny Bar Ocala, located at 46 South Magnolia Avenue, Suite B (Parcel 2853-046-009) (Quasi-Judicial)

Presentation By: Aubrey Hale

10. General Business

10a. One-year renewal of the agreement with C.W. Roberts Contracting, Inc., for Transportation Rehabilitation Improvement Program projects with an aggregate expenditure amount not to exceed $6,000,000

Presentation By: Sean Lanier

10b. Award of a 40-year Ground Lease Agreement to GLJ Aviation LLC

Presentation By: Matthew Grow

10c. Utilization of the Florida Sheriffs Association agreement with Nextran Truck Centers for the purchase of an automated side loader refuse truck for the Public Works department, in the amount of $432,521

Presentation By: John King

10d. Budget Resolution 2026-143 to amend the Fiscal Year 2025-26 budget to transfer funds from the General Liability Claims fund for the purchase of one refuse vehicle for the Public Works Department in the amount of $477,837 **BR-2026-143**

Presentation By: John King

10e. Eighth amendment to the agreement with Waste Pro of Florida, Inc. for single-stream curbside recycling

Presentation By: Darren Park

11. Internal Auditor's Report

12. City Manager's Report

13. Ocala Police Department Report

14. Ocala Fire Rescue Department Report

15. City Attorney's Report

16. Public Comments

17. Informational Items and Calendaring Items

- Tuesday, June 9, 2026 - City Council workshop Re: Boards & Commissions and CRAs - 12:00pm - Council Chambers
- Tuesday, June 16, 2026 - Community Redevelopment Area Agency meeting - 3:45pm - Council Chambers
- Tuesday, June 16, 2026 - City Council meeting - 4:00pm - Council Chambers
- Tuesday, June 23, 2026 - TPO meeting - 3:00pm - Marion County Board of County Commissions Auditorium
- Friday, July 3, 2026 - City offices closed for Independence Day
- Tuesday, July 7, 2026 - City Council meeting - 4:00pm - Council Chambers
- Tuesday, July 21, 2026 - Community Redevelopment Area Agency meeting - 3:45pm - Council Chambers
- Tuesday, July 21, 2026 - City Council meeting - 4:00pm - Council Chambers

17a. Local Mitigation Strategy 2025 Annual Report

17b. Power Cost Adjustment Report - April 2026

17c. Fully Executed Contracts Under $50,000

18. Comments by Mayor

19. Comments by City Council Members

20. Adjournment

Municipal **S**eparate **S**torm **S**ewer **S**ystems **(MS4)** Presentation

June 2, 2026

City Council Meeting

Municipal **S**eparate **S**torm **S**ewer **S**ystems (MS4) is a conveyance or system of conveyances that is owned by a state, city, town, or other public entity that discharges to waters of the United States.

Florida Department of Environmental Protection (FDEP)

- The City of Ocala is required to have an MS4 permit. The permit is issued for five years, and an annual report must be submitted in years two and four of the permit.
- The permit allows development and implementation of a comprehensive Storm Water Management Program (SWMP) that must include appropriate measures to control the quality of storm water discharged to the waters of the United States.
- The City's compliance with the permit may be audited at any time by the Florida Department of Environmental Protection (FDEP).

FDEP requires data regarding the following to be listed on the annual report.

- Sanitation
- Stormwater
- Fleet
- Water Resources
- Code Enforcement

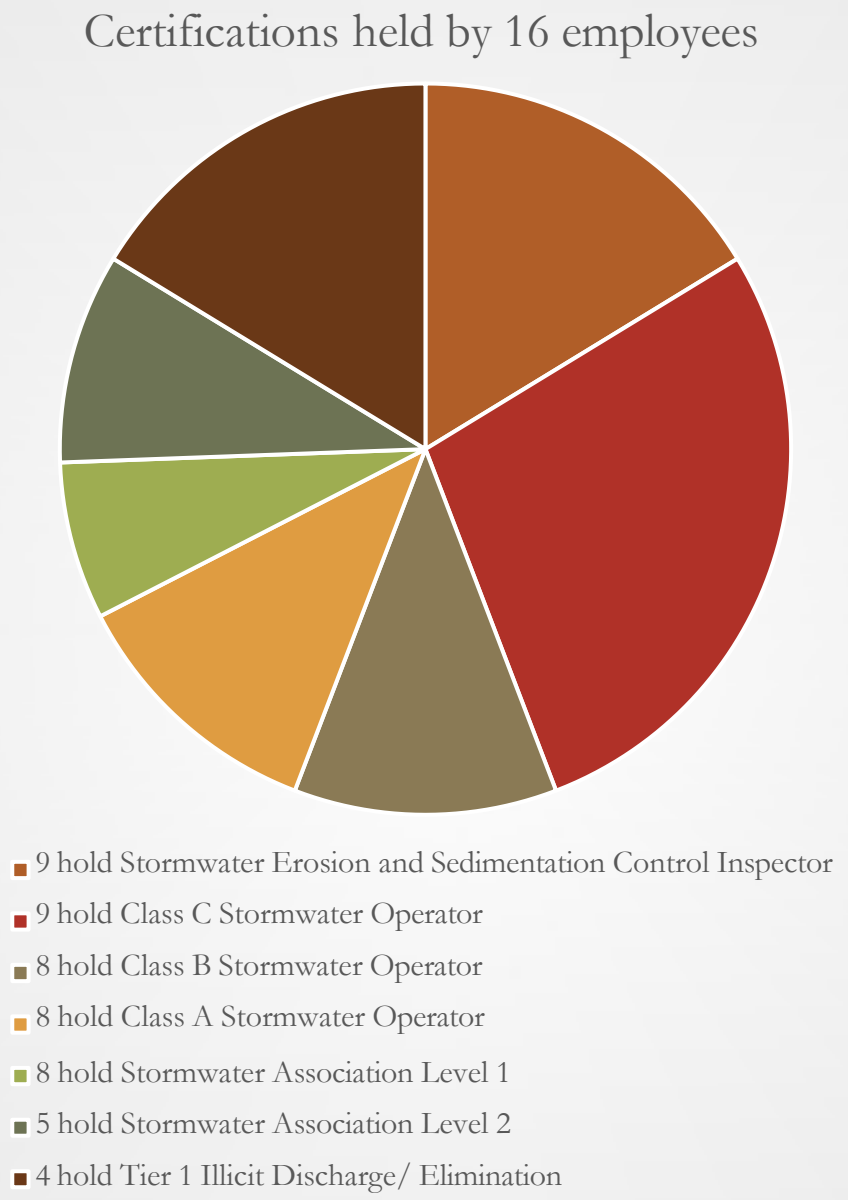
The public plays a role through the Public Works Citizen Reporting System

- **In 2025, there were 116 reports from citizens**
- 34 **Sanitation**- missed collection cans, dead animal, litter
- 7 **Stormwater**- manhole, water in the roadway
- 43 **Streets**- pothole, debris in roadway, rights-of-way obstruction, tree issues
- 22 **Traffic**
- 2 **Mosquito**
- 8 **Miscellaneous**

Stormwater Operations

- **All** City and privately owned/ maintained drainage retention areas (DRAs) are inspected for sinkholes, illicit discharge, erosion, trash/debris, and buildup of sedimentation, and are inspected on a rotating schedule annually.
- Only eight City and 30 private DRAs flow into the Florida Department of Transportation right-of-way that eventually flows to the Silver River. This area is known as Half Mile Creek.
- 57 DRAs went through a demucking process by City staff or contracted services, dependent on staffing, length of project, and cost, since January 1, 2025.

Stormwater Operations Certifications help give credit towards permits and ensure we have qualified staff to maintain the stormwater system.



Sanitation

- March 8: **4.26 TONS**
- October 4: **5.28 TONS**
  - **Total 9.54 TONS**

Waste tires

Sanitation

- April 19:

9,653 POUNDS

- September 13:

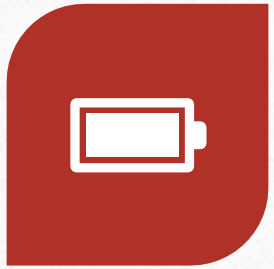
5,846 POUNDS

- Total **15,499 POUNDS**

Household Hazardous Waste

Paint

Fleet
Collected and Disposed of



869 BATTERIES

7,622 GALLONS USED OIL

1,545 USED OIL FILTERS

554 GALLONS OF ANTIFREEZE

Fleet Hazardous Waste

Used motor oil

Discarded batteries

Code Enforcement Environmental Officers

Cleaning practices

- Pour wash water into a utility sink or curbed cleaning facility with a floor drain. Don't pour it out into the parking lot.
- Use dry methods for spill clean-up (sweeping, cat litter, etc.) Don't hose down spills.
- Clean floor mats, filters, and garbage cans in a utility sink or curbed cleaning facility with a floor drain. Don't wash them in a parking lot, alley, sidewalk, or street.
- Recycle grease and oil. Don't pour it into sinks, drains, or onto the parking lot.
- Keep the dumpster area clean and the lid closed. Do not overfill.

Illicit Discharge

As defined by the Environmental Protection Agency (EPA), illicit discharge is any discharge to an MS4 that is not composed entirely of stormwater.

Illicit discharge

Examples:

Sanitary wastewater

Septic tank effluent

Car wash wastewater

Motor oil disposal

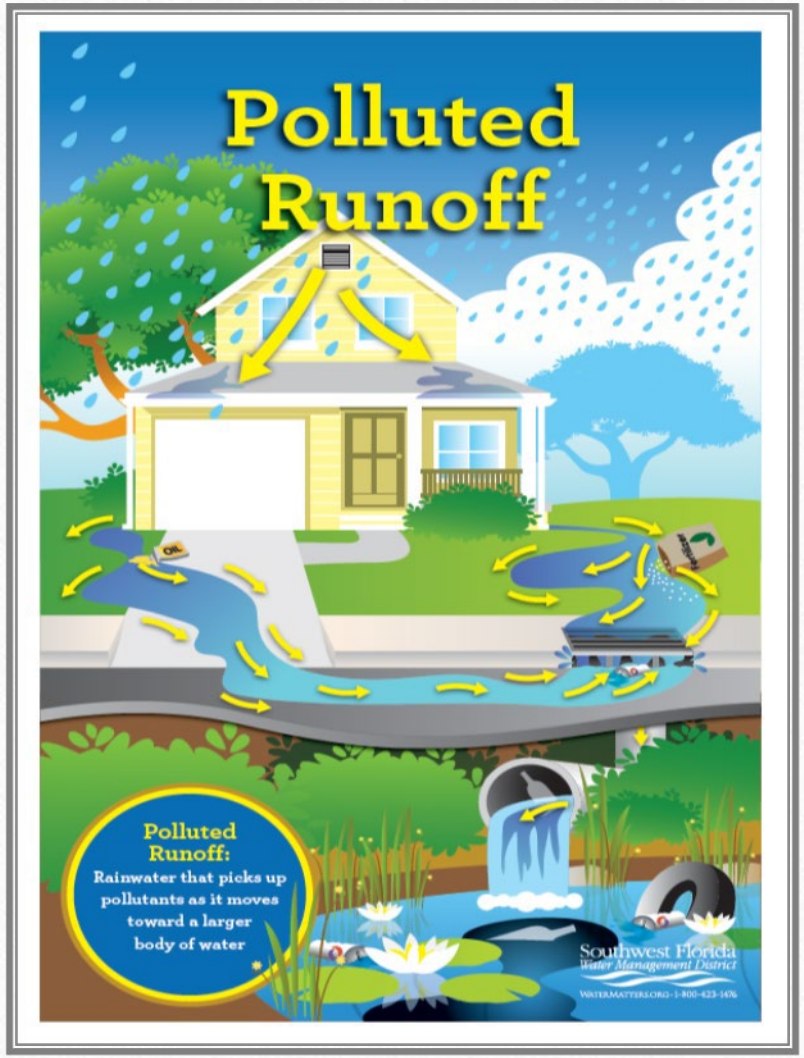
Laundry wastewater

Auto and household toxic disposal

Leaves and yard waste

Six steps to keep illicit discharge out of our waterways

- Recycle used oil, antifreeze, and batteries. Clean up spills immediately with kitty litter or sawdust, and sweep it up.
- Wash vehicles at a commercial car wash where the dirty water is sent to a waste treatment plant.
- Empty bottles of household cleaners, pesticides, and weed killers should be disposed of according to the labels.
- Grass clippings should be kept out of the roadway and storm drains to avoid algae problems in streams.
- Drop off non-water-based paints, thinners, and solvents at appropriate sites. Water-based paints can be rinsed down the sink, and oil-based paints can be mixed with kitty litter or sawdust and discarded in the trash.
- Bag and collect pet waste. The bag can be discarded in the trash, or its contents can be emptied into the toilet and flushed.



Cars

- Recycle Old Motor Oil and Antifreeze
- Use Commercial Car Washes
- Repair All Leaks
- DRIVE LESS!

Lawn

- Choose Slow-Release Fertilizer
- Water-In Your Fertilizer
- Properly Dispose of Hazardous Chemicals
- Pick the Right Pesticides

Erosion

- Vegetate Bare Spots In Your Yard
- Report Issues with Construction Silt Fences
- Fill Holes Created By Animals
- Report Sinkholes

Animals

- Whether Your Pet Walks, Flies, or Slithers- YOU Need to Clean Up After It!
- Flush It, Bury It, Bag It, or Trash It

Nitrates

- Nitrates cause rapid growth of invasive algal blooms in our springs
- Never Dump Anything Down Storm Drains
- Regularly Inspect Your Septic Tank System

Keep in mind…

What we do on land affects the quality of the water we drink and use in so many ways.

Many small sources of pollution add up to cause big water quality problems.

Natural things such as soil, leaves, grass clippings and pet waste can cause water pollution.

Automobiles and other vehicles cause water and air pollution.

Questions/Comments

File #: 2026-0630 Agenda Item #: 6a.

Presentation By: Sean Lanier

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Award of contract to A&A Trucking & Excavating for the Tuscawilla Alum Treatment System Removal project in the amount of $52,469, plus a contingency of $5,246, for a total expenditure not to exceed $57,715

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
Bid released to public: 2/27/26

BACKGROUND:
The City of Ocala requires the services of an experienced Contractor to provide demolition services for the Tuscawilla Park Alum Stormwater Treatment System equipment demolition. The project consists of demolishing the existing alum stormwater treatment system equipment located at Tuscawilla Park. The existing building containing the equipment will be preserved as well as the existing water and power connections. The equipment is located on the south side of parcel #28220-000-00 on NE 3rd Street.

FINDINGS AND CONCLUSIONS:
On February 27, 2026, the City of Ocala issued Invitation to Bid (ITB) No.: CIP/260395 for the Tuscawilla Alum Treatment System Removal Project. On April 3, 2026, two vendors responded to the solicitation on a unit price bid as follows:

Bidder Name & Office Location	Total Bid Amount
A&A Trucking & Excavating, Ocala, FL	**$52,468.70**
Razorback LLC, Tarpon Springs, FL	**$113,400.00**

A&A Trucking & Excavating was found to be the lowest responsive and responsible bidder at $52,468.70.

Staff requests a 10 percent contingency of $5,246 to allow the City Engineer to issue change orders to cover unforeseen conditions and other issues that may arise during construction. With the contingency, the total project budget is not to exceed $57,714.70.

Staff recommends awarding the contract for the demolition of the Tuscawilla Alum Treatment System Removal Project to A&A Trucking & Excavating.

FISCAL IMPACT:
Funding for this project is available in the Fiscal Year 2025-26 budget, under account string 158-020-343-538-69-65010, in the amount of $57,715.

PROCUREMENT REVIEW:
These goods and services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney William E. Sexton.

ALTERNATIVE:

- Approve with Changes
- Table
- Deny

AGREEMENT FOR DEMOLITION AND REMOVAL OF ALUM TREATMENT SYSTEM AT TUSCAWILLA PARK

THIS AGREEMENT FOR DEMOLITION AND REMOVAL OF ALUM TREATMENT SYSTEM AT TUSCAWILLA PARK ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **THOMAS F. AMODEO, D/B/A A & A TRUCKING & EXCAVATING,** a sole proprietorship duly organized and authorized to do business in the state of Florida (EIN:59-3286888) ("Contractor").

WHEREAS, on February 27, 2026, City issued an Invitation To Bid ("ITB") for the demolition and removal of the alum treatment system at Tuscawilla Park, 475 NE 3rd Street, Ocala, Florida, 34470 ITB No.: ENG/260395 (the "Solicitation"); and

WHEREAS, two (2) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, the bid submitted by A & A Trucking & Excavating was found to be the lowest; and

WHEREAS, Contractor was chosen as the intended awardee for the demolition and removal of the alum treatment system at Tuscawilla Park (the "Project"); and

WHEREAS, Contractor certifies that Contractor and its subcontractors are qualified and possess the required current and active Asbestos Supervisor licensure.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.

2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Contractor shall only include: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the quote submitted by Contractor in response to same (the "Solicitation Documents"); and (d) those documents identified in the Project Specifications section of this Agreement. Each of these documents are incorporated herein by reference for all purposes.

   If there is a conflict between the terms of this Agreement and the other Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:
   Exhibit A: Scope of Work (A-1 through A-8)
   Exhibit B: Price Proposal (B-1)
   Exhibit C: Plan Set (C-1)
   Exhibit D: Demolition (D-1 through D-5)
   Exhibit E: Property Appraisal Report (E-1 through E-3)
   Exhibit F: Construction Sign (F-1 through F-2)
   Exhibit G: Asbestos Survey Report (G-1 through G-24)

   If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A, then (2) Exhibit B, then (3) Exhibit C, then (4) Exhibit D, then (5) Exhibit E, then (6) Exhibit F, then (7) Exhibit G).

B. **Project Specifications**: In addition to the Contract Documents and up-to-date copies of shop drawings, this project will require the Contractor to have the following specifications and documents, which are incorporated by reference:

i. **City of Ocala "Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure"** available at: http://www.ocalafl.gov/home/showpublisheddocument/26969

ii. **Florida Department of Transportation ("FDOT") Standard Specifications for Road and Bridge Construction (latest edition)** available at: http://www.fdot.gov/programmanagement/Implemented/SpecBooks/.

iii. **Florida Department of Transportation Standard Plans for Road and Bridge Construction (latest edition):** https://www.fdot.gov/design/standardplans/sprbc.shtm

iv. **Manual on Uniform Traffic Control Devices (MUTCD), latest edition which can be obtained by downloading from:** https://www.fdot.gov/traffic/trafficservices/mutcd.shtm

v. **Florida Department of Transportation Florida Greenbook (latest edition), can be obtained by downloading from:** https://www.fdot.gov/roadway/floridagreenbook/fgb.shtm

3. **SCOPE OF SERVICES.** Contractor shall provide all materials, labor, supervision, tools, accessories, equipment, permits, fees, testing, inspections, certifications, and all other things necessary for Contractor to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work** and the Solicitation Documents. **Upon contract execution, salvage rights belong to the Contractor. Salvage by the Contractor is not allowed prior to the issuance of the City's Notice to Proceed.** In the event of a conflict between this Agreement and the Solicitation Documents, this Agreement and all of its Exhibits shall be given precedence to resolve any identified inconsistency. The Scope of Work and/or pricing under this Agreement may only be adjusted by written amendment executed by both parties.

4. **COMPENSATION.** City shall pay Contractor a lump sum amount of **FIFTY-TWO THOUSAND, FOUR HUNDRED SIXTY-NINE AND NO/100 DOLLARS ($52,469)** (the "Contract Sum") as full and complete compensation for the timely and satisfactory completion of the work. A permit allowance has been established for this Project in the amount of approximately **FIVE HUNDRED AND NO/100 DOLLARS ($500)** and is included in the Contract Sum.

A. **Invoice Submission**. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and an Invoice Date. Contractor shall submit the original invoice through the responsible City Project Manager at: **City of Ocala Engineering Department**, Attn: Daniel Matvejs**, 1805 NE 30th Avenue, Building 700, Ocala, Florida 34470**, E-Mail: Dmatvejs@ocalafl.gov. Weight tickets from a certified landfill must be included with all invoices submitted by Contractor.

B. **Progress Report and Progress Schedule**. A progress report and updated project schedule must be submitted with each monthly pay request indicating the Percent of Services Completed to date. This report will serve as support for payment to Contractor and the basis for payment in the event project is suspended or abandoned.

C. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

D. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within thirty (30) calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

E. **Excess Funds**. If due to mistake, or any other reason, Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within thirty (30) days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

F. **Amounts Due to the City**. Contractor must be current and remain current in all obligations due to the City during the performance of services under this Agreement. Payments to Contractor may be offset by any delinquent amounts due to the City and/or charges owed to the City.

G. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **TIME FOR PERFORMANCE**. Time is of the essence with respect to the performance of all duties, obligations, and responsibilities set forth in this Agreement and the Contract Documents.

A. Contractor shall commence work no later than **FIFTEEN (15)** working days from the date of issuance of a Notice to Proceed for the Project by City.

B. No work shall commence until Contractor has submitted proof of #62-257.900(1) – Notice of Demolition to Florida Department of Environmental Protection and provided proof of mailing for same to the City Project Manager. Demolition may not begin until **TEN (10)** business days (excluding holidays as observed by the State of Florida) after the confirmed delivery date of said Notice. **Notice of Demolition must be sent to FDEP and the City of Ocala Permit applied for within TWO (2) business days after issuance of NTP.**

C. **All work shall be substantially completed by Contractor in a manner satisfactory to the City Project Manager within SIXTY (60) days of the start date indicated on the Notice to Proceed and ready for final payment within SEVEN (7) days of substantial completion**.

D. The Time for Performance under this Agreement may only be adjusted by Change Order, in the sole and absolute discretion of City. Any request for an extension of the Time for Performance must be submitted in a writing delivered to the City Project Manager, along with all supporting data, within **SEVEN (7)** calendar days of the occurrence of the event giving rise to the need for adjustment unless the City allows an additional period of time to ascertain more accurate data. All requests for adjustments in the Contract Time shall be determined by City.

E. As to any delay, inefficiency, or interference in this performance of this Agreement caused by any act or failure to act by City, the Contractor's sole remedy shall be the entitlement of an extension of time to complete the performance of the affected work in accordance with the Contract Documents. Contractor agrees to make no claim for extra or additional costs attributable to said delays, inefficiencies or interference, except as provided in this Agreement.

F. None of the provisions of this section shall exclude City's right of recovery for damages caused by delays or inefficiencies caused by any act or failure to act by Contractor, to include costs incurred by City for the procurement of additional professional services.

6. **LIQUIDATED DAMAGES FOR LATE COMPLETION.** The parties agree that it would be extremely difficult and impracticable under the presently known facts and anticipated circumstances to ascertain and fix the actual damages that City and its residents would incur should Contractor fail to achieve Substantial Completion and/or Final Completion and readiness for final payment by the dates specified for each under the terms of this Agreement. Accordingly, the parties agree that should Contractor fail to achieve Substantial Completion by the date specified, then Contractor shall pay City, as liquidated damages and not as a penalty, the sum of **ONE HUNDRED AND NO/100 DOLLARS ($100)** per day for each calendar day of unexcused delay in achieving Substantial Completion beyond the date specified for Substantial Completion in the Contract Documents. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining work within the time specified in the Contract Documents for Final Completion and readiness for final payment or any proper extension thereof granted by City, Contractor shall pay City, as liquidated damages and not as a penalty, additional sum of **ONE HUNDRED AND NO/100 DOLLARS ($100)** per day for each calendar day of unexcused delay in achieving completion and readiness for final payment.

A. **No Waiver of Rights or Liabilities**. Permitting Contractor to continue and finish the work, or any part thereof, beyond the dates specified for Substantial Completion and/or Final Completion and readiness for final payment shall not operate as a waiver on the part of the City of any of its rights under this Agreement. Any liquidated damages assessed pursuant to this section shall not relieve Contractor from liability for any damages or costs of other contractors caused by a failure of Contractor to complete the work as agreed.

B. **Right to Withhold or Deduct Damages**. When liquidated damages are due and owing, City shall have the right to: (1) deduct the liquidated damages from any money in its hands or from any money otherwise due or to become due to Contractor; or to (2) initiate any applicable dispute resolution procedure for the recovery of liquidated damages within the times specified under this Agreement.

C. **Non-Cumulative**. The parties agree and understand that the amounts set forth under this section for liquidated damages are not cumulative with one another. The amount set forth as liquidated damages for Contractor's failure to achieve Substantial Completion shall be assessed upon default and continue until Substantial Completion is attained. The amount set forth as liquidated damages for Contractor's failure to achieve Final Completion and readiness for payment shall be assessed after Substantial Completion is attained and apply until Final Completion is attained.

D. **Additional Costs.** In addition to the liquidated damages set forth under this section, Contractor agrees to pay all costs and expenses incurred by City due to Contractor's delay in performance to include inspection fees, superintendence costs, and travel expenses.

E. **Injunctive Relief.** The parties acknowledge that monetary damages may not be a sufficient remedy for Contractor's failure to achieve Substantial Completion or Final Completion in accordance with the terms of this Agreement, and that City shall be entitled, in addition to all other rights or remedies in law and equity, to seek injunctive relief.

7. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.

8. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

   A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof, as soon as it becomes aware.

   B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Contractor performance shall be extended for a number of days equal to the duration of the force majeure. Contractor shall be entitled to an extension of time only and, in no event, shall Contractor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.

9. **INSPECTION AND ACCEPTANCE OF THE WORK**. All services, work, and materials provided by Contractor under this Agreement shall be provided under the direction and to the satisfaction and approval of the City Project Manager.

   A. The City Project Manager shall decide all questions regarding the quality, acceptability, or workmanship performed, the rate of progress of the work, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Contractor in its quote. The authority vested in the City Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the work.

   B. Neither the City Project Manager's review of Contractor's work nor recommendations made by City Project Manager pursuant to this Agreement will impose on City Project Manager any responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident Contractor's furnishing and performing the work.

10. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or

the Contract Documents, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.

A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Contractor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Contractor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Contractor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:

(1) Contractor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;

(2) Contractor provides material that does not meet the specifications of the Agreement;

(3) Contractor fails to complete the work required within the time stipulated in the Agreement; or

(4) Contractor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Contractor cannot or will not perform to the requirements of the Agreement.

B. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Contractor Default**. In the event that Contractor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:

(1) City shall be entitled to terminate this Agreement without further notice;

(2) City shall be entitled to hire another contractor to complete the required work in accordance with the needs of City;

(3) City shall be entitled to recover from Contractor all damages, costs, and attorney's fees arising from Contractor's default prior to termination; and

(4) City shall be entitled to recovery from Contractor any actual excess costs by: (i) deduction from any unpaid balances owed to Contractor; or (ii) any other remedy as provided by law.

11. **CONTRACTOR WARRANTY**. Contractor warrants to City that all materials and work shall be of good quality, free from faults and defects in workmanship, and in conformance with the Contract Documents for a period of **TWO (2)** years from the date of final payment by City. Contractor shall, at its own expense, correct any defect, loss, expense, or other damages arising from its work and shall defend any claims related to same.

12. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Contractor's performance. Any such evaluation will become public record.
13. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any contractor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.
14. **CONTRACTOR REPRESENTATIONS**. Contractor expressly represents that:
    A. Contractor has read and is fully familiar with all of the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Contractor under this Agreement.
    B. Contractor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Contractor in the Contract Documents, and that the City's written resolution of same is acceptable to Contractor.
    C. Contractor has had an opportunity to visit, has visited, and has had an opportunity to examine and ask questions regarding the sites upon which the work is to be performed and is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
    D. Contractor has is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
    E. Contractor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.
    F. Contractor represents that neither Contractor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Contractor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Contractor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.
15. **CONTRACTOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Contractor:
    A. Contractor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.

B. Contractor shall ensure that a Florida licensed asbestos supervisor with current asbestos supervisor training is on site during all operations of the Contractor under this Agreement and ensure all workers performing tasks within a regulated area hold Florida asbestos work licenses and have undergone appropriate asbestos training as required by law.

C. Contractor shall be solely responsible for the means, methods, techniques, sequences, or procedures of construction and safety precautions or programs incident thereto.

D. Contractor shall be responsible to see that the finished work complies accurately with the contract and the intent thereof.

E. Contractor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, to include obtaining all permits, licenses, and other authorizations necessary for the prosecution of the work, and be responsible for all costs associated with same.

F. Contractor shall operate and cause all construction equipment and materials supplied for or intended to be utilized in the Project to be operated and stored in only those areas prescribed by City. This includes the operations of workmen.

G. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of all construction equipment and materials supplied for or intended to be utilized in the Project, whether furnished by Contractor or City. Contractor shall be responsible for providing adequate safeguards to prevent loss, theft, damage, or commingling with other materials or projects.

H. Contractor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Contractor and City may otherwise agree in writing.

16. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Contractor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.

17. **STORAGE OF MATERIALS/EQUIPMENT**. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of equipment and materials (whether furnished by Contractor or City) to be utilized in the performance of or incorporated into the work.

18. **RESPONSIBILITIES OF CITY.** City or its Representative shall issue all communications to Contractor. City has the authority to request changes in the work in accordance with the terms of this Agreement and with the terms in **Exhibit A.** City has the authority to stop work or to suspend any work.

19. **COMMERCIAL AUTO LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.

20. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial general liability insurance with limits not less than:

A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and

B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.

C. Policy must include coverage for contractual liability and independent contractors.

D. Policy must include Additional Insured coverage in favor of the City that is no less restrictive than that afforded under the CG 20 26 04 13 Additional Insured Form.

21. **POLLUTION LIABILITY INSURANCE**. Contractors providing services related to the handling, transporting, or abatement of hazardous materials shall provide, for a period of Three (3) Years after final completion of the Work, pollution liability insurance coverage for claims arising from the discharge, dispersal, release, or escape of any irritant or contaminant into or upon land, any structure, the atmosphere, watercourse, or body of water, including groundwater, in an amount not less than One Million Dollars ($1,000,000) per claim, and Two Million Dollars ($2,000,000) aggregate limit. This shall also include coverage for claims of: (a) clean up, either on-site or off site; (b) third party liability, including bodily injury, property damage, natural resource damage, third party property loss of use/revenue, and clean up; and/or (c) costs incurred for the investigation, defense, or settlement of claims, fines or penalties.

22. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Worker's Compensation insurance shall be provided by Contractor as required by Chapter 440, Florida Statutes, or any other applicable state or federal law, including the U.S. Longshoremen's and Harbor Workers Compensation Act and the Jones Act.

A. Contractor shall similarly require any and all subcontractors to afford such coverage for all of its employees as required by applicable law.

B. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent.

C. Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.

23. **ADDITIONAL INSURANCE REQUIREMENTS.**

A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.

B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, or co-insurance penalty to include any loss not covered because of the operation of such deductible, co-insurance penalty, or coverage exclusion or limitation.

C. **Certificates of Insurance**. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.gov.** Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. **City as an Additional Insured**. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation, Auto Liability (except when required by Risk Management) and Professional Liability policies**. Workers Compensation policy must contain a Waiver of Subrogation in favor of the City**.

E. **Notice of Cancellation of Insurance**. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the event that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.gov.

F. **Failure to Maintain Coverage**. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. **Severability of Interests**. Contractor shall arrange for its liability insurance to include, or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

24. **SAFETY/ENVIRONMENTAL.** Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the work. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

A. All employees on the work and other persons that may be affected thereby;

B. All work, materials and equipment to be incorporated therein, whether in storage on or off the site; and

C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

25. **TRAFFIC CONTROL AND BARRICADES.** The Contractor shall mitigate impact on local traffic conditions to all extents possible. The Contractor is responsible for establishing and maintaining appropriate traffic control and barricades. The Contractor shall provide sufficient signing, flagging and barricading to ensure the safety of vehicular and pedestrian traffic at all locations where work is being done under this Agreement.

    A. In addition to the requirements set forth in the Solicitation, the Contractor shall maintain at all times a good and sufficient fence, railing or barrier around all exposed portions of said work in such a manner as to warn vehicular and pedestrian traffic of hazardous conditions.

    B. Should the Contractor fail to properly barricade his work or stored material sites in the manner outlined above, the City may have the necessary barricading done, and all cost incurred for said barricading shall be charged to the Contractor.

26. **WORK SITE AND CLEANUP.** Daily, during the progress of the work, Contractor shall keep the premises free from accumulations of waste materials, rubbish, and all other debris resulting from the work. At the completion of the work, Contractor shall remove all waste materials, rubbish, and debris from and about the premises, as well as all tools, appliances, construction equipment and machinery, and surplus materials, and shall leave the site clean and ready for occupancy by City. Contractor shall provide an inventory listing of all surplus materials in an area designated by City. Contractor shall restore to their original condition those portions of the site not designated or alteration by the Contract.

27. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.

28. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Contractor, subcontractor, or of any of their agents or employees. nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.

29. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.

30. **EMERGENCIES**. In an emergency affecting the welfare and safety of life or property, Contractor, without special instruction or authorization from the City Project Manager, is hereby permitted, authorized and directed to act at its own discretion to prevent threatened loss or injury. Except in the case of an emergency requiring immediate remedial work, any work performed after regular working hours, on Saturdays, Sundays or legal holidays, shall be performed without additional expense to the City unless such work has been specifically requested and approved by the City Project Manager. Contractor shall be required to provide to the City Project Manager with the names, addresses and telephone numbers of those representatives who can be contacted at any time in case of emergency. Contractor's emergency representatives must be fully authorized and equipped to correct unsafe or excessively inconvenient conditions on short notice by City or public inspectors.

31. **INDEPENDENT CONTRACTOR STATUS.** Contractor acknowledges and agrees that under this Agreement, Contractor and any agent or employee of Contractor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Contractor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Contractor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Contractor in its performance of its obligations under this Agreement.

32. **ACCESS TO FACILITIES.** City shall provide Contractor with access to all City facilities as is reasonably necessary for Contractor to perform its obligations under this Agreement.

33. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.

34. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Contractor under this Agreement be abandoned, or should Contractor become insolvent, or if Contractor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the City Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.

35. **PUBLIC RECORDS.** Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, Contractor shall:

    A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if Contractor does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of Contractor or keep and maintain public records required by the public agency to perform the service. If Contractor transfers all public records to the public agency upon completion of the contract, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Contractor keeps and maintains public records upon completion of the contract, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.gov; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

36. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.

37. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.

38. **E-VERIFY**. Pursuant to section 448.095, Contractor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Contractor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Contractor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Contractor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Contractor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Contractor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.

39. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further

disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.

40. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.

41. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

42. **INDEMNITY.** Contractor shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from, all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Contractor, its agents, and employees.

43. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.

44. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by email. All notices shall be addressed to the respective parties as follows:

If to Contractor:	A & A Trucking & Excavating Attention: Thomas Amodeo 2080 NW 35th Street Ocala, FL, 34475 Phone: 352-351-2042 E-mail: artofdstruction@aol.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, Third Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov

Copy to: William E. Sexton, Esq., City Attorney
City of Ocala
110 SE Watula Avenue, Third Floor
Ocala, Florida 34471
Phone: 352-401-3972
Email: cityattorney@ocalafl.gov

45. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.
46. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.
47. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
48. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
49. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.

50. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
51. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
52. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.
53. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
54. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
55. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.
56. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
57. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK. SIGNATURE PAGE TO FOLLOW.]

IN WITNESS WHEREOF, the parties have executed this Agreement on _____.

Title: _____
(Title)

BACKGROUND

1. Contractor shall provide demolition services for the Tuscawilla Park Alum Stormwater Treatment System equipment demolition. The project consists of demolishing the existing alum stormwater treatment system equipment (equipment) located at Tuscawilla Park. The existing building containing the equipment shall be preserved as well as the existing water and power connections. The equipment is located on the south side of **parcel #28220-000-00** on **NE 3rd Street**.
2. The base bid includes but is not limited to: demolition and removal of the alum stormwater treatment system equipment as well as the capping and abandonment of the existing connections to the system equipment. Utility connections for the existing building shall remain. Please follow the demolition specifications **Exhibit D – Demolition 02 41 19,** as well as the plan **Exhibit C – Plan Set**. **Exhibit E – Marion County Property Appraiser Property Record Card** is provided for the Contractor's information to assist with the demolition process.
3. Contractor is responsible for providing all materials, labor, and equipment (in good working condition) to complete the demolition, removal, and hauling away materials for this project.
4. All work shall be coordinated with the City Project Manager, Daniel Matvejs, Engineering Department, 1805 NE 30th Avenue, Building 700, Ocala, FL 34470, email: Dmatvejs@ocalafl.gov.

OTHER REQUIREMENTS

Requirement: Contractor shall use lead-safe practices during total demolition activities.

PERMIT REQUIREMENTS

1. **Permits Required:** Contractor will be responsible for obtaining the following City of Ocala permits at no additional cost to the City:
   - Demolition
   - Right-of-Way
2. **Estimated Permit Cost:** The estimated permit costs are $500.
3. **Permit Application:** The ROW Utilization Permit Application is available under "Documents" at: ROW Utilization Permit Application 12.10.19
4. **Permit Submission Requirements:**
   a. **If Road/Lane Closure is Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of two (2) weeks prior to the projected time the project will start.
   b. **If Road/Lane Closure is not Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of one (1) week prior to the projected time the project will start.
5. **Construction Permit Applications:** For construction permits and related documents, please visit: https://www.ocalafl.org/government/city-departments-a-h/growth-management/building/construction-permits

DEMOLITION TIMEFRAME

1. **Construction Time:** The contract time to **Substantial Completion is 60 calendar days**. The Contract time to **Final Completion is 7 calendar days after substantial**. Contractor agrees, as a condition for submitting a bid, that this project will be completed in the time agreed upon between the City and the Contractor.

The Contractor agrees to commence work on the date specified in a written "Notice to Proceed" by the City. Such "Notice to Proceed" will be issued at the pre-construction conference. The Contractor must be able to mobilize and begin construction no later than 10 calendar days after notification and complete the project by the time limit specified in the "Notice to Proceed." At no time will the Contractor be allowed to lag behind.

LIQUIDATED DAMAGES

1. The Contractor shall pay the City **$100.00** for each calendar day that expires after the time specified for completion, until work is completed.
2. Nothing in this section is intended to limit the right to obtain injunctive relief or any and all relief as may be appropriate. Permission allowing the Contractor to continue and finish any part of the work after the time fixed for its completion or after the date to which the time for completion may have been extended shall in no way operate as a waiver on the part of the City of any of its rights under this Agreement.

MOBILIZATION AND MAINTENANCE OF TRAFFIC

- Obtaining of required permits and the moving of the Contractors operations and equipment required for construction.
- Provide on-site construction power and wiring, as needed.
- Provide on-site sanitary facilities as required by Governing agencies.
- The Contractor will not be permitted to use the City's sanitary facilities during construction. Posting of OSHA required notices and establishing safety programs and procedures.

ANTICIPATED TASKS, DELIVERABLES AND HOURS

1. **Anticipated Tasks:** The Contractor shall be required to perform the following types of services for the City of Ocala. This list is not an attempt to exclusively define those specific activities the Contractor will perform.
   a) Pre-demolition photographs or video: Show existing conditions of adjoining construction and site improvements, including finish surfaces, that might be misconstrued as damage caused by the equipment demolition operations. Submit before the Work begins.
   b) Contractor will provide two construction signs for this project as specified **in Exhibit F - Construction Sign.**
   c) Install temporary chain link construction fencing around proposed demolition site with gate and lock. Contractor must provide a key to lock to the City Project Manager.
   d) Removal of items identified to be preserved and delivered to a location designated by City.
   e) Disconnection and capping of water lines connecting to the equipment.
   f) Disconnection and removal of any other utilities serving the equipment.
   g) Removal and proper disposal of up to 1,500 gallons of aluminum sulfate in accordance with FDEP.
   h) Removal of the alum stormwater treatment system equipment.
   i) Disturbed areas shall be graded and seed/mulched after construction.

2. **Working Hours:** The normal/standard working hours for this project are 7:00 AM – 5:00 PM Monday through Friday, excluding holidays. Contractor shall provide (forty-eight) 48-hour advance notice to City Project Manager for work outside normal shift hours. The City may decline the request.

3. **Emergency Work Hours:** The Contractor must have available staff on site and prepared to begin work within two (2) hours notification of any work deemed "Emergency" (this includes all storm related emergencies). If the work is not completed or staff is not on site by Contract timelines the Contractor will be considered in default of this Agreement.

   A. Upon declaration of default, the City will have full power to appropriate or use any or all suitable and acceptable materials and equipment on the site and may enter into an agreement with others to complete the work under the Contract or may use other methods to complete the work in an acceptable manner. The City will charge all costs that the City incurs because of the Contractor's default, including the costs of completing the work under the Contract, against the Contractor.

   B. If, after default notice by the City, and prior to any action by the City to otherwise complete the work under the Contract, the Contractor establishes their intent to prosecute the work in accordance with the City's requirements, then the City may allow the Contractor to resume the work, in which case the City will deduct from any monies due or that may become due under the Contract, any costs to the City incurred by the delay, or from any reason attributable to the delay.

PROJECT SPECIFICATIONS

This project will require the Contractor to follow the following plans and specifications:

1. Equipment demolition specifications attached as **Exhibit D**.
2. Plan set for the project attached as **Exhibit C.**
3. Construction sign specification attached as **Exhibit F**.
4. City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water, and Sewer Infrastructure available at: https://www.ocalafl.gov/home/showpublisheddocument/26969/638741677724600000
5. Florida Department of Transportation Standard Specifications (FDOT) for Road and Bridge Construction, latest edition available at: https://www.fdot.gov/programmanagement/Implemented/SpecBooks/
6. Florida Department of Transportation Standard Plans for Road and Bridge Construction (latest edition): https://www.fdot.gov/design/standardplans/sprbc.shtm
7. Florida Department of Transportation Florida Greenbook (latest edition) can be obtained by downloading from: www.fdot.gov/roadway/floridagreenbook/fgb.shtm
8. Manual on Uniform Traffic Control Devices (MUTCD), available at: https://www.fdot.gov/traffic/trafficservices/mutcd.shtm
9. FDOT Design Standards available at: https://www.fdot.gov/design/standardplans/DS.shtm
10. All work must be performed in compliance with the Florida Building Code, latest edition. For information please visit the following link: https://floridabuilding.org/c/default.aspx
11. The Contractor must have the above listed documents in addition to up to date copies of shop drawings, plans and bid document at job sites at all times.

12. All material & construction equipment must meet FDOT Standard Specifications for Road and Bridge, latest edition. Substantial completion date will start warranty period for each project assigned.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. An employee roster must be provided to the City Project Manager for all projects assigned.
2. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
3. The Contractor shall provide an assigned project manager, who will be the primary point of contact. Contractor must provide a valid telephone number, email, and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
4. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
5. Contractor's employees must wear suitable work clothes and personal protective equipment as defined by OSHA (hard hats, bucket harnesses, etc.) and meeting Manual on Uniform Traffic Control Devices (MUTCD) and National Electrical Safety Code (NESC) requirements as indicated for all work conducted and be as clean and in as good appearance as the job conditions permit.
6. Contractor will operate as an independent contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
7. No smoking is allowed on City property or projects.
8. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
9. All company vehicles and uniforms must have a visible company name/logo.

SAFETY

1. The Contractor is solely responsible for ensuring safety during demolition and for conformance to all applicable OSHA standards; and local, state, and national codes concerning safety provisions for their employees, sub-contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. Job site visits by City staff do not constitute approval, awareness, or liability for any hazardous condition.
3. Contractor shall be responsible for securing their equipment, materials, clothing, and other property.

CITY OF OCALA RESPONSIBILITIES

1. The City of Ocala will furnish the following services/data to the Contractor for the performance of services:
   A. Provide access to drawings, specifications, schedules, reports, and other information prepared by/for the City of Ocala pertinent to the Contractor's responsibilities.

B. Access to City buildings and facilities to perform the work.

2. The City reserves the right to purchase any materials for the Contractor to use. The Contractor shall not charge a mark-up fee for material furnished by the City.

CONTRACTOR RESPONSIBILITIES

1. The Contractor shall complete all work performed under this Agreement in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
2. The Contractor shall obtain and pay for any and licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this Agreement.
3. Demolition shall be performed in compliance with all requirements and instructions of applicable manufacturers.
4. If the Contractor is advised to leave a property by the property owner or their representative, the Contractor shall leave at once without altercation. Contractor shall then contact the City Project Manager within 24 hours and advise of the reason for not completing the assigned project.
5. Contractor is responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor, at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
6. Data collected by the Contractor shall be in a format compatible with, or easily converted to, City's databases. A sequential naming convention shall be applied to the files and documentation provided to the City.
7. The Contractor shall ensure that all documents prepared under this Contract have been prepared on a Windows-based operating system computer using the most current version of Microsoft Office, which includes: Word, Excel, Power Point, Access or any other software as specified and approved by City staff.
8. **Erosion Sediment and Flood Control:** Provide, maintain, and operate temporary facilities to control erosion and sediment, and to protect work and existing facilities from flooding during construction. Maintain drainage ways and construct temporary drainage facilities to allow runoff to flow properly.
9. **Testing Requirements:** Contractor shall be responsible for arranging, obtaining, and paying for all inspections and tests required. Such inspections and tests shall be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to the City Engineer. Results of all required testing and inspections shall be submitted to the Engineer. For other requirements for Tests and Inspection refer to Article 14 in the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.

SUB-CONTRACTORS

1. Contractor must perform a minimum of 60% of the work with their own forces.
2. Services assigned to sub-contractors must be approved in advance by the City Project Manager.

CONSTRUCTION WORK AREAS

1. The City of Ocala is not responsible for providing property or lay down yards to the Contractor for their materials or equipment. If private property is used, the City requires a copy of the agreement between the property owner and the Contractor. **Utilizing private property without written permission is prohibited.**
2. Components of the project, including temporary work and storage areas, will be located on-site per project. Staging areas will be located at project location. Material and equipment staging areas will be kept in a clean and orderly fashion.
3. Provide on-site sanitary facilities as required by governing agencies.
4. Construction work area must be backfilled or protected by construction fencing at the end of each business day. Any work areas in roadways must at least be filled temporarily with asphalt millings or covered with a FDOT approved steel road plate before the roadway can be opened to traffic. If millings are used the Contractor must maintain the millings daily until the millings are replaced with permanent asphalt.

SITE HOUSEKEEPING AND CLEANUP

1. **Waste/Debris:** The Contractor shall keep the premises free at all times from accumulation of waste materials and rubbish caused by operations and employees. Contractor will provide approved containers for collection and disposal of waste materials, debris, and rubbish. Contractor shall dispose of debris in a legal manner. At least once weekly, Contractor shall dispose of such waste materials, debris, and rubbish off-site.
2. **Cleanup:** Periodic cleanup to avoid hazards or interference with operations at the site, and to leave the site in a reasonable neat condition. Work site will be completely cleaned after each day of work. Sweep all roadways affected by the construction and where adjacent to work daily.
3. **Water Use:** The use of water to prevent the blowing of dust and debris during cutting operations and or cleaning operations is mandatory.
4. **Individual Project Cleaning:** At completion of each individual project, Contractor shall remove from the site all tools, equipment, surplus materials, debris, temporary facilities, scaffolding, and equipment. The areas of work shall be swept thoroughly and all marks, stains, rust, dirt, paint drippings, and the like shall be removed from all new and existing work, to the satisfaction of the City.
5. **Final Cleaning:** Upon completion of work, clean entire work area/project site as applicable.
   A. Leave the work and adjacent areas affected in a cleaned condition satisfactory to the City Project Manager.
   B. The Contractor shall clean and remove from the premises, all surplus and discarded materials, rubbish, and temporary structures, and shall restore in an acceptable manner all property, both public and private, which has been damaged during the prosecution of the work and shall have the work in a neat and presentable condition. *Note: Any and all debris shall be removed from the premises. New construction debris, trash, etc., shall not be left or buried on site.*
   C. Broom clean exterior paved driveways and parking areas and hose clean sidewalks and concrete exposed surfaces if impacted by work or included in work area.

SUBMITTALS

1. Provide submittals as required by City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.
2. Submit copies of permits and approvals for construction as required by laws and regulations of governing agencies.
3. Submit temporary construction parking area plans, storage yard, storage trailer location, staging area plan, and plan for disposal of waste materials.

SAFETY

1. The Contractor is solely responsible for ensuring safety during construction, and for conformance to all applicable OSHA standards; and local, state, and national codes concerning safety provisions for their employees, sub-contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. Job site visits by City staff do not constitute approval, awareness, or liability for any hazardous condition.
3. Contractor shall be responsible for securing their equipment, materials, clothing, and other property.
4. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.
5. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.

INVOICING

1. All original invoices will be sent to: Daniel Matvejs, Project Manager, Engineering Department, 1805 NE 30th Avenue, Building 700, Ocala, FL 34470, email: Dmatvejs@ocalafl.gov
2. A five percent (5%) retainage will be held on the funds until the project has been accepted and issued a final completion by the Owner.
3. Contractor will invoice at least once a month.

PRICING AND AWARD

1. Bidder must upload a completed **Exhibit B - Price Proposal** with their response.
2. Bidder must bid on all line items.
3. Award will be made to the lowest, responsive bidder meeting all requirements outlined in the Scope of Work.
4. Contractor must be willing to honor bid prices up to at least a minimum 90 calendar days after bids are received.
5. **AMOUNTS DUE TO THE CITY.** Contractor/Vendor must be current and remain current in all obligations due to the City during the performance of services under the Agreement. Payments to Contractor/Vendor may be offset by any delinquent amounts due to the City or fees and/or charges owed to the City.

ADDITIONAL INFORMATION FROM THE SOLICITATION

1. The concrete saddles supporting the tank shall be removed, and the concrete slab, as well as the holes for the pipes, shall be patched with non-shrink grout.
2. The contractor will need to install a temporary fence around the work site.

ITEM	DESCRIPTION	UOM	UNIT COST
1	Alum Station System Removal Per Plan Set, Scope of Work, and Exhibits.	LS	$ 49,494.00
2	Bonds	LS	$ 2,474.70

SECTION 02 41 19

DEMOLITION

SECTION 02 41 19 DEMOLITION

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Preparation.
   2. Salvage requirements.
   3. Demolition.

1.2 SUBMITTALS

A. Section 01 33 00 - Submittal Procedures: Requirements for submittals.

B. Demolition Schedule: Indicate overall schedule and interruptions required for utility and building services.

C. Shop Drawings:
   1. Indicate demolition and removal sequence.
   2. Indicate location of items designated for reuse and Owner's retention.
   3. Indicate location and construction of temporary work.

1.3 CLOSEOUT SUBMITTALS

A. Section 01 70 00 - Execution and Closeout Requirements: Requirements for submittals.

B. Project Record Documents: Accurately record actual locations of capped utilities, concealed utilities discovered during demolition, and subsurface obstructions.

1.4 QUALITY ASSURANCE

A. Conform to applicable codes and regulations for demolition work, dust control, and products requiring electrical disconnection and re-connection.

B. Conform to applicable codes and regulations for procedures when hazardous or contaminated materials are discovered.

C. Obtain required permits from authorities having jurisdiction.

D. Perform Work in accordance with federal, state, and local regulations.

1.5 SEQUENCING

A. Section 01 10 00 - Summary: Requirements for sequencing.

B. Owner may conduct salvage operations before demolition begins to remove materials Owner chooses to retain.

1.6 SCHEDULING

A. Section 01 30 00 - Administrative Requirements: Requirements for scheduling.

B. Schedule Work to coincide with new construction.

C. Cooperate with Owner in scheduling noisy operations and waste removal that may impact Owners operation in adjoining spaces.

D. Coordinate utility and building service interruptions with Owner.
   1. Do not disable or disrupt building fire or life safety systems without five (5) days prior written notice to Owner.
   2. Schedule tie-ins to existing systems to minimize disruption.

1.7 PROJECT CONDITIONS

A. Conduct demolition to minimize interference with adjacent facilities.

B. Cease operations immediately if structure appears to be in danger and notify Engineer. Do not resume operations until directed.

PART 2 - PRODUCTS (NOT USED)

PART 3 - EXECUTION

3.1 PREPARATION

A. Notify affected utility companies before starting work and comply with applicable requirements.

B. Mark location and termination of utilities.

C. Erect, and maintain temporary barriers and security devices, including warning signs and lights, and similar measures, for protection of the public, Owner, and existing improvements indicated to remain.

D. Layout cuts in post tensioned concrete elements to avoid cutting concrete within 12 inches of any stressing tendon. Notify Engineer five (5) days in advance of cutting post-tensioned concrete.

E. Erect and maintain weatherproof closures for exterior openings.

F. Provide and maintain temporary measures to prevent spread of dust, odors, and noise.

G. Prevent movement of existing structures, utilities, or other facilities pertaining or adjacent to demolition activities; provide temporary bracing and shoring required.

H. Do not close or obstruct building egress path.

3.2 SALVAGE REQUIREMENTS

A. Coordinate with Owner to identify components and equipment required to be removed and delivered to Owner.

B. Tag components and equipment Owner designates for salvage.

C. Protect designated salvage items from demolition operations until items can be removed.

D. Carefully remove components and equipment indicated to be salvaged.

E. Disassemble as required to permit removal.

F. Package small and loose parts to avoid loss.

G. Mark equipment and packaged parts to permit identification and consolidation of components of each salvaged item.

H. Prepare assembly instructions consistent with disassembled parts. Package assembly instructions in protective envelope and securely attach to each disassembled salvaged item.

I. Deliver salvaged items to Owner. Obtain signed receipt from Owner.

3.3 DEMOLITION

A. Conduct demolition and/or removal operations, and the removal of equipment and debris to ensure minimum interference with roadways, walkways, and parking areas both onsite and offsite, and to ensure minimum interference with occupied or used facilities.

B. Coordinate demolition activities to minimize impacts with Owner’s operations.

C. Maintain protected egress from and access to adjacent existing buildings and parking areas at all times.

D. Do not close or obstruct roadways, driveways, parking areas, or sidewalks without prior written approval from the Engineer.

E. Cease operations immediately when any structure or facility appears to be in danger and notify Engineer.

F. Partial demolition of existing concrete structures and slabs shall include saw cutting in neat, orderly lines.

G. Disconnect and remove designated utilities within demolition areas.

H. Cap and identify abandoned utilities at termination points when utility is not completely removed. Annotate Record Drawings indicating location and type of service for capped utilities remaining after demolition.

I. Demolish in orderly and careful manner. Protect existing improvements and facilities.

J. Carefully remove components indicated to be reused.
   1. Disassemble components as required to permit removal.
   2. Package small and loose parts to avoid loss.
   3. Mark components and packaged parts to permit reinstallation.
   4. Store components, protected from construction operations, until reinstalled.

K. Remove demolished materials from site except where specifically noted otherwise. Do not burn or bury materials on site.

L. Remove materials as Work progresses. Upon completion of Work, leave areas in clean condition.

M. Remove temporary Work.

Confidentiality Notice: This Asbestos Survey Report is intended only for the use of the individual or entity addressed, and may contain information that is privileged, confidential, and exempt from disclosure under applicable law. If you are not the intended recipient or responsible for delivering this report to the intended recipient, you are hereby notified that any dissemination, distribution, or copying of this report, in whole or in part, is prohibited. If you have received this report in error, please notify us immediately. Thank you.

I. INTRODUCTION

Property Address: Alum Stormwater Treatment System
475 NE 3rd Street
Ocala, FL 34470

Survey Performed For: City of Ocala, Engineering & Stormwater Department
1805 NE 30th Avenue, Bldg. 300, Ocala, FL 34470

Survey Performed By: Chris Ritko, Asbestos Building Inspector

Company: DK Environmental & Construction Services
8786 Sonoma Coast Drive
Winter Garden, FL 34787
407-614-4572

Date of On-Site Survey: February 13, 2026

Date of Report: February 20, 2026

DK Environmental & Construction Services, Inc. (DKE) has completed a limited Asbestos Survey at the property address listed above. This report contains the results of the Survey. The purpose of this Survey was to identify the presence of asbestos-containing materials that may be disturbed during planned equipment removal. This limited Asbestos Survey report presents data that describes the location of asbestos-containing material (ACM) identified in the subject property. This Survey was conducted on site by an EPA-trained professional asbestos building inspector.

This report is intended for the exclusive use of our client. The findings are relevant to the conditions observed during the physical process of performing the Survey. These findings should not be treated as absolute, nor should they be relied upon to represent conditions at significantly later dates.

We appreciate the opportunity to provide environmental consulting services to your organization. If you have any questions or need additional assistance, please call (407)614-4572.

Chris Ritko
Asbestos Building Inspector
200244

II. SURVEY SUMMARY

On February 13, 2026, an Asbestos Survey was performed at 475 NE 3rd Street, Ocala, FL 34470. The property is a single-family detached dwelling. It was constructed in 1996.

The purpose of this Survey was to identify the presence of asbestos-containing materials that may be disturbed during planned equipment removal. Limited bulk samples were collected and AHERA protocols were adhered to.

The Asbestos Survey consisted of three basic procedures: 1) conducting a visual inspection of the property; 2) identifying homogeneous areas (HAs) of suspect surfacing, thermal system insulation, and miscellaneous materials; and 3) sampling accessible, friable, and non-friable suspect materials. Some building components may have been inaccessible at the time of this screening, or were not tested because they were covered by other building materials (paneling, tile, siding, etc.). It is possible that ACBMs may be hidden by these materials.

The property was visually inspected for the presence of building materials that are suspected to contain asbestos. With regard to asbestos, bulk material samples were collected and analyzed for asbestos content. These services were performed exercising the customary skill and competence of consulting professionals in the relevant disciplines in this region.

Bulk samples of identified suspect ACM were collected and placed into individual containers for transport to a National Voluntary Lab Accreditation Program (NVLAP)/American Industrial Hygiene Association (AIHA)-accredited laboratory for analysis. The collection of bulk samples consisted of physically removing a small piece of material and placing it in a marked, airtight container. The sample container identification numbers were also recorded in the field notes.

III. ASBESTOS OVERVIEW

Asbestos is a generic name given to a fibrous variety of naturally occurring minerals that have been used for many years in commercial products, based on specific properties of the minerals. Asbestos occurs in fiber bundles, which are composed of long and thin fibers that can be easily separated from one another. These mineral products possess high tensile strength, flexibility, resistance to chemical and thermal degradation, and high electrical resistance. The minerals are easily woven into various types of textiles, fabrics, cloths, sheets, panels, or mixed into adhesives, coatings, surfacing materials and cement products. Typically, asbestos-containing building materials (ACBM) are segregated into three categories: Thermal System Insulation (TSI) usually found on pipes, boilers, and HVAC ducts; surfacing materials such as sprayed or troweled-on fireproofing and insulation, and plasters; and miscellaneous materials including vinyl composite floor tiles, floor sheeting, adhesives, roofing materials, window glazing and cement products.

Friable asbestos-containing material (ACM), is defined as any material containing more than one percent (1%) asbestos as determined using the method specified in Appendix A, Subpart F, 40 CFR Part 763, Section 1, Polarized Light Microscopy (PLM), that, when dry, can be crumbled, pulverized or reduced to powder by hand pressure. (Sec. 61.141)

Non-friable ACM is any material containing more than one percent (1%) asbestos as determined using the method specified in Appendix A, Subpart F, 40 CFR Part 763, Section 1, Polarized Light Microscopy (PLM), that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure. EPA also defines two categories of non-friable ACM, Category I and Category II non-friable ACM, which are described later in this guidance.

"Regulated Asbestos-Containing Material" (RACM) is (a) friable asbestos material, (b) Category I non-friable ACM that has become friable, (c) Category I non-friable ACM that will be or has been subjected to sanding, grinding, cutting or abrading, or (d) Category II non-friable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation operations.

The EPA's National Emission Standard for Hazardous Air Pollutants (NESHAP) regulations and the Florida Department of Environmental Protection (FDEP) Asbestos program regulate the removal and disposal of asbestos-containing building materials (any material containing more than 1% asbestos).

Potential effects on workers or occupants in buildings where asbestos-containing materials (ACM) are present may occur when exposure to asbestos fibers is caused by deterioration, damage or renovation disturbance of ACBMs. Federal regulations pertaining to asbestos include 40 Code of Federal Regulations (CFR) 763 (a subchapter of the Toxic Substance Control Act (TSCA)); Occupational Safety and Health Act (OSHA) 29 CFR 1910 Subpart Z and 29 CFR 1926 Subpart Z.

Asbestos NESHAP regulations must be followed for demolitions and/or renovations of facilities with at least 260 linear feet of regulated asbestos-containing materials (RACM) on pipes, 160 square feet of regulated asbestos-containing materials on other facility components, or at least 35 cubic feet of facility components where the amount of RACM previously removed from pipes and other facility components could not be measured before stripping. If dimensions fall below these thresholds, Asbestos NESHAP regulations need not be followed for demolition and/or renovation activities.

IV. LIMITATIONS

This report has been prepared to assist in evaluating the potential presence of asbestos-containing material in the property. The objective of this assessment was to perform the work with care, exercising the customary skill and competence of consulting professionals in the relevant disciplines in this region. The conclusions presented in this report are professional opinions based upon visual observations of the site at the time of DKE's investigation and the results of laboratory analysis. The opinions presented herein apply to site conditions existing at the time of our investigation and those reasonably foreseeable. DKE cannot act as insurers, and no express or implied representation or warrant is included or intended in our report except that our work was performed, within the limits prescribed by our client, with the customary thoroughness and competence of our profession at the time and place the services were rendered. DKE cannot and will not warrant that this Asbestos Survey that was requested by the client will satisfy the dictates of, or provide a legal defense in connection with, any environmental laws or regulations. It is the responsibility of the client to know and abide by all applicable laws, regulations, and standards. The results reported and conclusions reached by DKE are solely for the benefit of the client. The results and opinions in this report, based solely upon the conditions found on the property as of the date of the Survey, will be valid only as of the date of the Survey.

Please note that the test results relate only to those homogeneous materials tested. If conditions or materials, other than those addressed in this report are encountered during the planned renovation/demolition activities, DKE should be contacted to assess the potential impact of these materials or conditions relative to the findings or recommendations included herein. The survey was performed by observing suspect materials throughout the structure where accessible. DKE must emphasize that it is not possible to look within every location of a building. The visual survey documents only general locations of suspect materials but does not determine exact boundaries. Concealed locations of asbestos may exist at the subject property, and the levels may vary from those stated in this report. There may be variations in the composition of materials which appear similar. Materials may be hidden from view and not accessible. No attempt was made to disassemble equipment or demolish structural elements and finishes as this is beyond the scope of our authorized services. Visual observations were made only at safe and convenient locations. Due to these limitations, wall voids, flooring under carpet, building cavities and mechanical equipment, and other areas may contain unreported asbestos-containing materials. Suspect materials not previously identified in this report may be encountered during any renovation/demolition activity. These materials should be assumed asbestos containing material until sample collection and subsequent analysis prove otherwise. Unsafe structures should be assumed to contain asbestos materials unless the suspect material is noted as sampled. All fire doors should be assumed asbestos containing material since disassembly of locks and/or other work to access the door insulation is not possible.

V. ANALYTICAL RESULTS

Samples were analyzed by Hayes Microbial Consulting in Midlothian, VA. Hayes Microbial Consulting is an American Industrial Hygiene Association (AIHA)-accredited laboratory.

All samples were analyzed utilizing Polarized Light Microscopy (PLM) according to EPA Method 600/R-93/116. Any material that contains greater that one percent asbestos is considered an ACM and must be handled according to the Occupational Safety and Health Administration (OSHA), EPA and applicable state and local regulations.

The following table contains information regarding bulk samples found to contain asbestos by definition. The laboratory report has also been included at the end of this report.

Bulk Collection and Sample Analysis Results

Sample Number	*Description*	*Condition*	*Friable*	*Asbestos Percent and Type*	*Location/ Amount*	*NESHAP Category*

VI. ASBESTOS RECOMMENDATIONS

Asbestos NESHAP regulations must be followed for demolitions and/or renovations of facilities with at least 260 linear feet of regulated asbestos-containing materials (RACM) on pipes, 160 square feet of regulated asbestos-containing materials on other facility components, or at least 35 cubic feet of facility components where the amount of RACM previously removed from pipes and other facility components could not be measured before stripping. If dimensions fall below these thresholds, Asbestos NESHAP regulations need not be followed for demolition and/or renovation activities.

The EPA and NESHAP recommend that a point-counting procedure be utilized for confirmation of asbestos percentage in friable materials that are visually estimated by PLM methodology to contain less than 10% asbestos. The 400 Point Count Procedure referenced in EPA 600/M4-82-020 (1987) and EPA 600/R-93/116 (1993) is commonly employed. Without the material being point counted or if point counting determined that material contains greater than one percent asbestos, it would be deemed an asbestos containing material and would need to be removed by a Florida licensed asbestos contractor prior to disturbance.

Disturbances to Asbestos Containing Materials:

- Should be performed by a Florida Licensed Asbestos Abatement Contractor

- U.S. Occupational Safety and Health Administration (OSHA) regulations apply to the disturbance of material containing any percentage of asbestos fibers as outlined in 29 CFR 1926.1101-OSHA's Asbestos Standard for the Construction Industry. The contractor will need to comply with the specific training, duties and responsibilities outlined in this CFR.

- OSHA 29 CFR 1910.1001. OSHA 29 CFR 1910.1001 requires the communication of information concerning asbestos hazards. Employees engaged in work activities with installed ACM may be exposed to asbestos fibers. The owner or operator should take the necessary steps to reduce the potential for disturbance.

EPA National Emission Standards for Hazardous Air Pollutants (NESHAP) is applicable to amounts of asbestos that contain at least 260 linear feet on pipes or at least 160 square feet on other facility components, or (ii) At least 35 cubic feet off facility components where the length or area could not be measured previously.

The EPA's National Emission Standard for Hazardous Air Pollutants (NESHAP) regulations and the Florida Department of Environmental Protection (DEP) Asbestos program regulate the removal and disposal of asbestos-containing building materials. The Florida Department of Environmental Protection (DEP) administers an asbestos removal program under Chapter 62-257, Florida Administrative Code. The Asbestos NESHAP has been adopted by reference in section 62-204.800, Florida Administrative Code. The program's intent is to minimize the release of asbestos fibers during activities involving the processing, handling, and disposal of asbestos-containing material.

The regulations of these agencies require the removal of friable asbestos-containing materials prior to extensive renovation or demolition projects, and the removal of non-friable asbestos-containing materials that may be rendered friable in the course of renovation or demolition projects. Only a Florida licensed asbestos contractor using properly trained, certified, and licensed asbestos workers can perform asbestos removal projects in Florida. Air monitoring during and after abatement activities is also recommended to document the fiber levels inside and outside the abatement work area.

The asbestos NESHAP requires that an asbestos trained person be on site i.e. 40 CFR 61.145 (c) (8) states in part "no RACM shall be stripped, removed, or otherwise handled or disturbed at a facility regulated by this section unless at least one on-site representative, such as a foreman or management level person or other authorized person, trained in the provisions of this regulation and the means of complying with them is present."

DEP recommends that this "trained person" be on site when non-friable ACM is present so that developing problems can be caught early and corrected without delay. In addition, the regulations require the owner of the building and/or the operator to notify the applicable DEP District Office or Local Pollution Control

Agency before any demolition, or before renovations of buildings that contain a certain threshold amount of asbestos or asbestos containing materials.

Florida requires the submission of a 10-Day Notification for all renovations and demolitions of facilities with at least 260 linear feet of regulated asbestos-containing materials (RACM), 160 square feet of regulated asbestos containing materials on other facility components, or at least 35 cubic feet off facility components. Asbestos waste requires disposal at an approved solid waste disposal facility.

Local agencies may also have specific requirements for demolition/renovation projects involving asbestos-containing building materials.

OSHA 29 CFR 1910.1001 requires the communication of information concerning asbestos hazards. Employees engaged in work activities with installed ACM may be exposed to asbestos fibers. The owner or operator should take the necessary steps to reduce the potential for disturbance.

29 CFR 1926.1101- OSHA's Asbestos Standard for the Construction Industry does apply to the abatement, renovation and/or demolition of all buildings identified with asbestos containing material. The contractor will need to comply with the specific training, duties and responsibilities outlined in this CFR.

If asbestos containing materials identified within, or on, the property will be disturbed or otherwise caused to become friable within the scope of the renovation, they should be removed from the structures prior to the maneuvers taking place according to applicable regulations.

No other recommendations regarding asbestos containing materials are required at this time. In the event concealed building materials are discovered during future renovation or demolition activities, which are suspected to contain asbestos, the materials should be sampled and analyzed to confirm the presence of asbestos prior to the disturbing such materials.

X. GLOSSARY

Active waste disposal site: any disposal site other than an inactive site.

Adequately wet: sufficiently mix or penetrate with liquid to prevent the release of particulates. If visible emissions are observed coming from asbestos-containing material, then that material has not been adequately wetted. However, the absence of visible emissions is not sufficient evidence of being adequately wet.

Asbestos: the asbestiform varieties of serpentinite (chrysotile), riebeckite (crocidolite), cummingtonite-grunerite, anthophyllite, and actinolite-tremolite.

Asbestos-containing waste materials: mill tailings or any waste that contains commercial asbestos and is generated by a source subject to the provisions of this subpart. This term includes filters from control devices, friable asbestos waste material, and bags or other similar packaging contaminated with commercial asbestos. As applied to demolition and renovation operations, this term also includes regulated asbestos-containing material waste and materials contaminated with asbestos including disposable equipment and clothing.

Asbestos mill: any facility engaged in converting, or in any intermediate step in converting, asbestos ore into commercial asbestos. Outside storage of asbestos material is not considered a part of the asbestos mill.

Asbestos tailings: any solid waste that contains asbestos and is a product of asbestos mining or milling operations.

Asbestos waste from control devices: any waste material that contains asbestos and is collected by a pollution control device.

Category I non-friable asbestos-containing material (ACM): asbestos-containing packings, gaskets, resilient floor covering, and asphalt roofing products containing more than 1 percent asbestos as determined using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, Polarized Light Microscopy.

Category II non-friable ACM: any material, excluding Category I non-friable ACM, containing more than 1 percent asbestos as determined using the methods specified in appendix E, subpart E, 40 CFR part 763, section 1, Polarized Light Microscopy that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

Commercial asbestos: any material containing asbestos that is extracted from ore and has value because of its asbestos content.

Cutting: to penetrate with a sharp-edged instrument and includes sawing, but

does not include shearing, slicing, or punching.

Demolition: the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of any facility.

Emergency renovation operation: a renovation operation that was not planned but results from a sudden, unexpected event that, if not immediately attended to, presents a safety or public health hazard, is necessary to protect equipment from damage, or is necessary to avoid imposing an unreasonable financial burden. This term includes operations necessitated by nonroutine failures of equipment.

Fabricating: any processing (e.g., cutting, sawing, drilling) of a manufactured product that contains commercial asbestos, with the exception of processing at temporary sites (field fabricating) for the construction or restoration of facilities. In the case of friction products, fabricating includes bonding, debonding, grinding, sawing, drilling, or other similar operations performed as part of fabricating.

Facility: any institutional, commercial, public, industrial, or residential structure, installation, or building (including any structure, installation, or building containing condominiums or individual dwelling units operated as a residential cooperative, but excluding residential buildings having four or fewer dwelling units); any ship; and any active or inactive waste disposal site. For purposes of this definition, any building, structure, or installation that contains a loft used as a dwelling is not considered a residential structure, installation, or building. Any structure, installation or building that was previously subject to this subpart is not excluded, regardless of its current use or function.

Facility component: any part of a facility including equipment.

Friable asbestos material: any material containing more than 1 percent asbestos as determined using the method specified in appendix E, subpart E, 40 CFR part 763 section 1, Polarized Light Microscopy, that, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure. If the asbestos content is less than 10 percent as determined by a method other than point counting by polarized light microscopy (PLM), verify the asbestos content by point counting using PLM.

Fugitive source: any source of emissions not controlled by an air pollution control device.

Glove bag: a sealed compartment with attached inner gloves used for the handling of asbestos-containing materials. Properly installed and used, glove bags provide a small work area enclosure typically used for small-scale asbestos stripping operations. Information on glove-bag installation, equipment and supplies, and work practices is contained in the Occupational Safety and Health

Administration's (OSHA's) final rule on occupational exposure to asbestos (appendix G to 29 CFR 1926.58).

Grinding: to reduce to powder or small fragments and includes mechanical chipping or drilling.

In poor condition: the binding of the material is losing its integrity as indicated by peeling, cracking, or crumbling of the material.

Inactive waste disposal site: any disposal site or portion of it where additional asbestos-containing waste material has not been deposited within the past year. Installation means any building or structure or any group of buildings or structures at a single demolition or renovation site that are under the control of the same owner or operator (or owner or operator under common control).

Leak-tight: solids or liquids cannot escape or spill out. It also means dust-tight.

Malfunction: any sudden and unavoidable failure of air pollution control equipment or process equipment or of a process to operate in a normal or usual manner so that emissions of asbestos are increased. Failures of equipment shall not be considered malfunctions if they are caused in any way by poor maintenance, careless operation, or any other preventable upset conditions, equipment breakdown, or process failure.

Manufacturing: the combining of commercial asbestos-or, in the case of woven friction products, the combining of textiles containing commercial asbestos-with any other material(s), including commercial asbestos, and the processing of this combination into a product. Chlorine production is considered a part of manufacturing.

Natural barrier: a natural object that effectively precludes or deters access. Natural barriers include physical obstacles such as cliffs, lakes or other large bodies of water, deep and wide ravines, and mountains. Remoteness by itself is not a natural barrier.

Non-friable asbestos-containing material: any material containing more than 1 percent asbestos as determined using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, Polarized Light Microscopy, that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

Nonscheduled renovation operation: a renovation operation necessitated by the routine failure of equipment, which is expected to occur within a given period based on past operating experience, but for which an exact date cannot be predicted.

Outside air: the air outside buildings and structures, including, but not limited to, the air under a bridge or in an open air ferry dock.

Owner or operator of a demolition or renovation activity: any person who owns, leases, operates, controls, or supervises the facility being demolished or renovated or any person who owns, leases, operates, controls, or supervises the demolition or renovation operation, or both.

Particulate asbestos material: finely divided particles of asbestos or material containing asbestos.

Planned renovation operations: a renovation operation, or a number of such operations, in which some RACM will be removed or stripped within a given period of time and that can be predicted. Individual nonscheduled operations are included if a number of such operations can be predicted to occur during a given period of time based on operating experience.

Regulated asbestos-containing material (RACM): (a) Friable asbestos material, (b) Category I non-friable ACM that has become friable, (c) Category I non-friable ACM that will be or has been subjected to sanding, grinding, cutting, or abrading, or (d) Category II non-friable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation operations regulated by this subpart.

Remove: to take out RACM or facility components that contain or are covered with RACM from any facility.

Renovation: altering a facility or one or more facility components in any way, including the stripping or removal of RACM from a facility component. Operations in which load-supporting structural members are wrecked or taken out are demolitions.

Resilient floor covering: asbestos-containing floor tile, including asphalt and vinyl floor tile, and sheet vinyl floor covering containing more than 1 percent asbestos as determined using polarized light microscopy according to the method specified in appendix E, subpart E, 40 CFR part 763, Section 1, Polarized Light Microscopy.

Roadways: surfaces on which vehicles travel. This term includes public and private highways, roads, streets, parking areas, and driveways.

Strip: to take off RACM from any part of a facility or facility components.

Structural member: any load-supporting member of a facility, such as beams and load supporting walls; or any nonload-supporting member, such as ceilings and nonload-supporting walls.

Visible emissions: any emissions, which are visually detectable without the aid of instruments, coming from RACM or asbestos-containing waste material, or from any asbestos milling, manufacturing, or fabricating operation. This does not include condensed, uncombined water vapor.

Waste generator: any owner or operator of a source covered by this subpart whose act or process produces asbestos-containing waste material.

Waste shipment record: the shipping document, required to be originated and signed by the waste generator, used to track and substantiate the disposition of asbestos-containing waste material.

Working day: Monday through Friday and includes holidays that fall on any of the days Monday through Friday.

Asbestos Analysis Information

Analysis Details	All samples were received in acceptable condition unless otherwise noted on the report. This report must not be used by the client to claim product certification, approval, or endorsement by AIHA, NIST, NVLAP, NY ELAP, or any agency. The results relate only to the items tested. Hayes Microbial Consulting reserves the right to dispose of all samples after a period of 60 days in compliance with state and federal guidelines.
PLM Analysis	All Polarized Light Microscopy (PLM) results include an inherent uncertainty of measurement associated with estimating percentages by PLM. Materials with interfering matrix, low asbestos content, or small fiber size may require additional analysis via TEM Analysis.
TEM Analysis	Analysis by TEM is capable of providing positive identification of asbestos type(s) and semi-quantitation of asbestos content.
Definitions	'None Detected' - Below the detected reporting limit of 1% unless point counting is performed, then the detected reporting limit is .25%.
New York ELAP	Per NY ELAP198.6 (NOB), TEM is the only reliable method to declare an NOB material as Non-Asbestos Containing. Any NY ELAP samples that are subcontracted to another laboratory will display the name and ELAP Lab Identification number in the report page heading of those samples. The original report provided to Hayes Microbial Consulting is available upon request.

DEMOLITION NOTES

1. DEMOLITION IS FOR THE EXISTING ITEMS (MAINLY ABOVE GROUND) WITHIN DEMOLITION LIMITS.
2. "DEMOLITION ITEM" SHALL REFER TO ANY EXISTING STRUCTURE OR COMPONENT THAT IS TO BE REMOVED.
3. "REMOVE" SHALL REFER TO THE DEMOLITION (OR DISMANTLING) AND REMOVAL OF ANY DEMOLITION ITEM (OR UTILITY) AND THE HAULING AWAY OF MATERIALS, BY THE CONTRACTOR, TO THE APPROPRIATE DESTINATIONS.
4. THE EXISTING TEMPORARY FENCE IS TO REMAIN IN PLACE DURING AND AFTER THE DEMOLITION PHASE.
5. CONSTRUCTION EQUIPMENT MUST MAINTAIN A MINIMUM APPROACH DISTANCE OF 20' FROM ANY OVERHEAD POWER LINES.
6. ALL ELECTRICAL POWER SUPPLY TO THE DEMOLITION LIMITS IS TO BE PROPERLY DISCONNECTED BY THE CITY OF OCALA BEFORE THE ACTUAL DEMOLITION BEGINS.
7. ALL IN GROUND PULL BOXES (ELECTRICAL VAULTS) ARE TO REMAIN.
8. UNDERGROUND UTILITIES THAT ARE TO BE ABANDONED SHALL REMAIN IN PLACE (TO BE COORDINATED WITH CITY OF OCALA, ENGINEERING & WATER RESOURCES) HOWEVER, ALL EXISTING FUNCTIONAL WATER MAINS, THAT ARE CONNECTED TO THE DEMOLITION ITEMS, ARE TO BE:
   - 8.1. CAPPED AT THE NECESSARY AREAS WHERE DISCONNECTION IS MADE,
   - 8.2. PRESSURE TESTED TO ENSURE THAT THERE ARE NO LEAKS,
   - 8.3. AND WHERE THERE IS A GAP CAUSED BY THE DEMOLITION, SIMILAR ADDITIONAL MATERIAL IS TO BE ADDED, SO THAT THE PIPE NETWORK LOOP IS CLOSED AS NECESSARY.
9. ABOVEGROUND UTILITIES, IF APPLICABLE, ARE TO BE REMOVED TO A DEPTH OF 4' BELOW GRADE (MAX.) AND CAPPED AS NECESSARY.
10. ALL ATTACHMENTS, OF A DEMOLITION ITEM, ARE TO BE REMOVED.
    - 10.1. ATTACHMENTS INCLUDE, BUT ARE NOT LIMITED TO, SUPPORTING STRUCTURES AND ITEMS THAT ARE LOCATED WITHIN, OR IMMEDIATELY ATTACHED TO, A DEMOLITION ITEM.
11. REMOVE ALL LIGHT POLES WITHIN DEMOLITION LIMITS.
12. REMOVE ALL TREES WITHIN DEMOLITION LIMITS.
13. ALL MATERIALS LISTED IN THE "SCOPE OF WORK" SHOULD BE CONSIDERED ASSUMED. MAY NOT INCLUDE ALL MATERIALS PRESENT IN STRUCTURES, ONLY THE BULK OF MATERIALS PRESENT.
14. ALL ENVIRONMENTALLY HAZARDOUS MATERIALS, IF FOUND, ARE TO BE APPROPRIATELY DISPOSED OF SO THAT THEY DO NOT POSE ANY THREAT TO THE ENVIRONMENT.
15. ALL DEMOLITION ITEMS, IF APPLICABLE, ARE TO BE REMOVED 4' BELOW GRADE (MAX.) AND WHAT REMAINS IS TO BE BROKEN UP TO MEET FLORIDA D.E.P. STANDARDS AS STATED IN THE 'D.E.P. WWTF ABANDONMENT REQUIREMENTS':
16. LEVEL WORK AREA AS NECESSARY. BACK FILL, WITH DIRT, ALL VOIDS CREATED BY THE DEMOLITION. USE CLEAN FILL (FREE DRAINING).
17. TO KEEP STORM WATER RUNOFF FLOWING ACROSS AND TO THE PROPER DESTINATION, RETURN ALL DISTURBED AREAS TO GRADE. THE CITY WOULD PREFER THAT THE FULL EXTENT OF THE DEMOLITION LIMITS BE GRADED TO BEST MATCH THE IMMEDIATE SURROUNDING AREA AND/OR THE ELEVATION OF THE EXISTING PARKING AREA (ITEM S ON SHEET 4).
18. SEED, AS NECESSARY, ALL DISTURBED AREAS.

DISCLAIMER

This information provided was derived from documents in the possession of the City of Ocala that are readily available. All existing underground utilities should be considered assumed. Submitted By: Austin Cash

Presentation By: Sean Lanier

Department: Engineering

FORMAL TITLE:
Resolution 2026-34 to adopt the Marion County Local Mitigation Strategy Plan 2025 Update

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The Federal Disaster Mitigation Act of 2000 requires local governments to maintain a Local Mitigation Strategy (LMS) Plan, which identifies potential natural and man-made hazards faced by each community, along with methods to minimize impacts and speed recovery from disasters. Adoption of the LMS makes the County and incorporated cities eligible for grants used for disaster analysis, preparedness, and recovery. A full update to the plan is required every five years. The City adopted the 2020 update by Resolution 2021-22 on May 4, 2021. The full 2025 LMS Plan is attached and can also be found at Local Mitigation Strategy | Marion County, FL <https://www.marionfl.org/agencies-departments/departments-facilities-offices/growth-services/local-mitigation-strategy>

FINDINGS AND CONCLUSIONS:
The LMS Working Group and staff have completed the required update and submitted it to the Florida Division of Emergency Management (FDEM), which granted approval subject to final local government adoption. Marion County Commission is scheduled to adopt the update at its regular meeting on June 2, 2026.

Staff recommends adopting the LMS Plan 2025 Update and authorizing the final submission to the FDEM and FEMA.

FISCAL IMPACT:

RESOLUTION 2026-34

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA ADOPTING THE MARION COUNTY LOCAL MITIGATION STRATEGY PLAN, 2025 UPDATE; PROVIDING FOR THE REPEAL OF INCONSISTENT ARTICLES; PROVIDING DIRECTION TO STAFF AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Ocala, Florida is vulnerable to the human and economic costs of natural, technological, and societal disasters, and the City Council recognizes the importance of reducing or eliminating those vulnerabilities for the overall safety, health, and welfare of the community; and

WHEREAS, the City of Ocala, Florida recognizes that, regardless of efforts and preparation to reduce or eliminate such vulnerabilities, natural, technological, and societal disasters may occur and recovery from such disasters is critical to the overall safety, health, and welfare of the community; and

WHEREAS, the Federal Disaster Mitigation Act of 2000 (hereinafter the "Act") required each local jurisdiction to establish and maintain an individual local mitigation plan or actively participate in the development and maintenance of multi-jurisdictional local mitigation plan; and

WHEREAS, the Act significantly expanded the mitigation planning requirements necessary for state and local jurisdictions to maintain their eligibility for federal hazard mitigation funds; and

WHEREAS, Chapter 44 CFR, Sections 201 & 206 provide that a local jurisdiction(s) must review and revise the local mitigation plan to reflect changes in development, progress in local mitigation efforts, and changes in priorities, and update the local mitigation plan a minimum of every five years in order to continue to be eligible for federal hazard mitigation funds under the United States of America, Federal Emergency Management Agency (hereinafter “FEMA”); and

WHEREAS, the State of Florida, Division of Emergency Management (hereinafter “FDEM”) is the office responsible for reviewing and coordinating local mitigation plans for state and federal compliance as well as distributing state allocated federal hazard mitigation funds; and

WHEREAS, Rule 9G-22, *Florida Administrative Code*, defines a local mitigation plan as the jurisdiction's Local Mitigation Strategy (hereinafter "LMS") and sets forth the method for monitoring and evaluating changes to hazard assessments, project priority list, critical facilities list, repetitive flood-loss list, and map revisions; and

WHEREAS, Marion County, Florida as well as the City of Ocala, Florida, the City of Belleview, Florida, the City of Dunnellon, Florida, the Town of McIntosh, Florida, the Town of Reddick, Florida, together with their community stakeholders, have prepared, adopted, and maintained a Local Mitigation Strategy Plan (hereinafter "LMS Plan") which presents a unified strategy toward building a disaster-resilient community; and

WHEREAS, the Marion County, Florida LMS Working Group is comprised of thirteen members, one each selected from the Board of County Commissioners of Marion County, Florida, the City of Ocala, Florida, the City of Belleview, Florida, the City of Dunnellon, Florida, the Marion County Emergency Operations Center, the Marion County School Board, the Ocala/Marion County Chamber & Economic Partnership, the Ocala Marion County Realtors/Builders Association, the Salvation Army, a local power provider, a local health care provider and two county residents; and

WHEREAS, the Board of County Commissioners of Marion County, Florida tasked the LMS Working Group to create and maintain the Marion County LMS Plan; and

WHEREAS, Marion County's original LMS Plan was approved and adopted in 1999 by Resolution No. 99-R-293 and updated by Resolution 05-R-108; Resolution 11-R-129; Resolution 16-R-115 and Resolution 21-R-214; and

WHEREAS, the LMS Working Group prepared the Marion County Local Mitigation Strategy Five-Year Plan 2025 Update (hereinafter the "Update") pursuant to Chapter 44 CFR Sec. 201 and Rule 9G-22, F.A.C., including conducting public outreach to receive public comment and recommendations regarding the Update; and

WHEREAS, the Update has received conditional approval by the FDEM and FEMA; and

WHEREAS, the FDEM and FEMA conditional approval of the LMS Update will become final upon adoption of the Update by the Board of County Commissioners of Marion County, Florida; and

WHEREAS, the City Council of the City of Ocala, Florida now desires to adopt the Update as adopted by the Board of County Commissioners of Marion County, Florida; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that the adoption of the Update , as adopted by the Board of County Commissioners of Marion County, Florida, serves a public purpose, protects the health, safety and welfare of and is the best interest of the City of Ocala, Florida and its citizens.

NOW THEREFORE, IT IS HEREBY RESOLVED by the City Council of the City of Ocala, Florida as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida adopts the above-outlined recitals and incorporates them herein

as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of adopting the Update adopted by the Board of County Commissioners of Marion County, Florida, by the City of Ocala, Florida, and is adopted pursuant to the authority granted by Chapters 166 and 252, *Florida Statutes*.

Section 3. Adoption of Marion County Local Mitigation Strategy Five-Year Plan, 2025 Update.

The Marion County Local Mitigation Strategy Five-Year Plan, 2025 Update, adopted by the Board of County Commissioners of Marion County, Florida, is adopted by the City of Ocala, Florida.

Section 4. Repeal of Conflicting Articles.

The Marion County Local Mitigation Strategy Five-Year Plan, 2025 Update, as adopted by the City of Ocala, Florida herein, shall be the local mitigation strategy for the City of Ocala, Florida and any other plan or strategy, to the extent that it may be in conflict, is hereby repealed.

Section 5. Direction to Staff.

A copy of this Resolution shall be forwarded to the Board of County Commissioners of Marion County, Florida.

Section 6. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

APPROVED AND ADOPTED, with a quorum present and voting, by the City Council of the City of Ocala, Florida this _____ day of _____ 2026.

CHAPTER ONE
EXECUTIVE SUMMARY

Introduction and Background

Like all counties throughout Florida, the communities of Marion County are vulnerable to a wide range of natural and technological disasters, as demonstrated by the very high human and economic costs of the events that recently impacted the northern portion of the state. To address this vulnerability, the Marion County Working Group for Local Mitigation Strategy (LMS) Development was created in July 1998. The Working Group includes representatives of County agencies and municipal governments, key community groups and private sector organizations. It has the responsibility to develop a comprehensive plan, or *"Strategy"* to eliminate or minimize the impacts of future disasters. The effort to eliminate or minimize the impacts of future disasters is often termed *"hazard mitigation."* Its key purpose is to identify the projects and programs that would be implemented to reduce the impacts of future disasters as resources to make so become available. These proposed projects and programs are termed *"mitigation initiatives."*

Marion County is required to have a FEMA-approved hazard mitigation plan under Section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act). Section 322 of the Stafford Act requires "A mitigation plan that outlines processes for identifying the natural hazards, risks, and vulnerabilities of the area." The Disaster Mitigation Act amended the Stafford act, creating the framework for state, local, tribal and territorial governments to engage in hazard mitigation planning to receive certain types of non-emergency disaster assistance. These plans must be in accordance with the Disaster Mitigation Act of 2000. DMA2K is a mechanism for collaboration between state and local entities that encourages pre-disaster planning, recognizes the need for mitigation, and designates funding for projects through Federal grant opportunities.

The Florida Department of Community Affairs (DCA) provided a grant to Marion County, and any County municipality that desired to participate, in this planning process. Including Unincorporated Marion County, all municipalities have joined the LMS process and are members of the Working Group. These include the City of Ocala, City of Dunnellon, and the City of Belleview. The Towns of Reddick and McIntosh elected to not participate in the 2004 LMS program, however since 2004, both jurisdictions have been active members in the LMS process. Other participants in the Working Group to date include Marion County School Board, Office of Emergency Management, American Red Cross, Ocala Economic Development Council, and Ocala Electric Utility.

The Working Group is a partnership of local governments, community organizations, and prominent

elements of the private sector working together to make the communities of Marion County more resistant to the damage of future disasters.

This document combines appropriate parts of the prior versions of the update of the Local Mitigation Strategy, based on the planning accomplished by the Working Group, and is a report to the community, to local officials, and to the DEO. The 1999 document was originally prepared by Emergency Response Planning & Management, Inc., consultant to the County assisting with development of the Strategy. The Withlacoochee Regional Planning Council wrote the 2004 LMS update, and Marion County Growth Management Department staff members authored the 2010, 2015, 2020, and the 2025 updates.

The Chapters of this document provide information regarding the efforts to date of the Working Group. They summarize the analyses to identify hazards threatening the County and define how communities are vulnerable to those hazards. It also provides a list of the program proposals or projects that were developed to eliminate or minimize identified vulnerabilities.

The protocol that the Working Group will follow, upon approval by FEMA, includes requesting the governing bodies review the Strategy, and take action to adopt or endorse the Strategy. The Strategy will continue to be updated every five years and used in future years as a guide for planning, funding and developing the proposals listed in it. The Working Group's efforts were initiated with the identification of the goals and objectives that should be used to shape the Strategy. The Working Group chose to focus on protecting the citizens of Marion County from natural and man-made disasters, including hurricanes, wildfire, and hazardous materials incidents.

Strategy Development Highlights

Activities of the Working Group are overseen by a Steering Committee of formally designated representatives of the participants; the planning effort itself was originally conducted through four Subcommittees: Public Affairs, Financial Issues, Mitigation Planning and Risk Assessment. Currently, these subcommittees only meet on an as needed basis.

The Working Group has defined, adopted, and initiated a step-by-step planning process designed to determine the actions needed to reduce impacts of future disasters. Using this information, the planning participants have proposed numerous projects to eliminate or minimize these vulnerabilities. These proposed mitigation initiatives will be incorporated into the Strategy for implementation as resources become available. The list presented in this document will continue to change as the Strategy is updated and projects are approved.

In addition, the relevant existing plans, policies and codes of the local governments in Marion County have been assessed in the magnitude of the potentials hazards confronting the County. Based on the findings of these analyses, proposals for enhancements will continue to be considered for development and incorporation into the Strategy. Further, the Working Group will continue to investigate past

disasters that impacted Marion County. These events often clearly illustrate the types of "mitigation initiatives" that should be considered for incorporation into the Strategy.

The "mitigation initiatives" that are identified as needed based on these analyses are proposed by each of the planning participants and then coordinated by the Working Group to ensure that potential inter-jurisdictional impacts or conflicts, or duplication of initiatives, can be avoided. In addition to defining needed "mitigation initiatives," the Working Group, primarily through their own individual organizations, will continue to provide information to the public about the planning process and to obtain input to update the Strategy.

Contents of the Document

The Strategy provides information both describing activities of the Working Group and results of its planning. The Administrative Section provides administrative information regarding the Working Group activities in developing the Strategy. It consists of the bylaws and procedures by which the organization operates, as well as explaining the development and processing of mitigation initiatives for incorporation into the Strategy.

The document contains information that will be common to all participants. Then, each local jurisdiction is provided with its own separate portion of the Strategy for its use. This reflects the Working Group's policy that each local jurisdiction and organization must make its own decisions regarding the mitigation initiatives it wishes to implement, as well as the priorities that they should be given. The proposed mitigation initiatives listed in this document have been reviewed and coordinated by the Working Group.

As previously mentioned, the findings of this planning have resulted in multiple proposals, or mitigation initiatives, to be incorporated into the Strategy. As the Strategy is updated, this list will continue to grow and change, as additional information becomes available. The Working Group will continue to build on the foundation of the Strategy by updating, modifying and expanding the list of proposed mitigation initiatives and seeking to initiate them. In future years with this type of ongoing effort, the vulnerability of Marion County to the human and economic impact of disasters will continue to decrease.

Public Involvement

Since the first LMS meeting, people representing the public and private sector have joined and contributed to the work of the Working Group's four subcommittees and the Steering Committee to observe the development of the plan. As the process continues to move forward, in future years it is hoped that representation will increase, and participation will be evident in several initiatives and public support. The participation rate in the LMS has seen a rise and fall primarily based on the

existence of a threat or the occurrence of a threat in the preceding months. Public participation measures will include:

- Public Workshop - At a minimum, there will be one public workshop held after the completion of the draft Plan and prior to the plan's approval to solicit formal public comments on the LMS document.

- Public Hearings – City and County Commission Meetings. Municipal representatives, or the Public Affairs Subcommittee from the Working Group, will provide progress reports to City and County Board of Commissioners.

- Website - The Working Group posted the LMS document and related information on the Marion County website to further involve neighboring communities, local and regional agencies and other interested participants in the LMS update process. Any suggestions or comments pertaining to the LMS document may be e-mailed or faxed to the Marion County Planning Division.

Additionally, neighboring communities, local and regional agencies involved in hazard mitigation activities, agencies that have authority to regulate development, businesses, academia, other private interests and non-profit organizations were invited and encouraged to actively participate in the planning process and were included in all of the meeting announcements and LMS notices.

In early 2025, members of the Marion County Working Group and Steering Committee for Local Mitigation Strategy were contacted to participate in the 2025 LMS update. The Steering Committee has met regularly since the initial adoption of the document, many of the Working Group members were active in keeping the mitigation initiatives current. For the 2025 LMS update meeting, a memorandum was sent to public and private sector organizations. Representatives from the business community, elected officials, academia, business associations, homeowner and neighborhood organizations, civic organizations, residents and neighboring counties were invited to attend the meeting and encouraged to participate in the Marion County LMS update. The Working Group membership list is shown in Table I-1.

Changes within the 2025 Update

The LMS staff has reviewed each section of the 2020 LMS plan (planning process, risk assessment, mitigation strategy, and plan maintenance) for consistency with updated LMS plan requirements. The review consisted of identifying updated plan requirements as appropriate; necessary data changes for hazards and maps; and other necessary plan maintenance based on the experience of the Working Group members.

Planning Process

No significant changes were identified in the planning process.

Demographic and Population Trends

Demographics

Marion County has a land area that is about 1,588.42 square miles. According to the 2020 United States Census Bureau, there were 375,908 residents in Marion County which yielded a population density at 237 people per square mile. Around 18.7% of Marion County's population resided in incorporated municipalities with the remainder living in the unincorporated county.

Population by Municipality 2024		
Municipality	**Population Totals**	**Percentage of Total Population**
Ocala	63,504	16.89%
Belleview	5,508	1.47%
Dunnellon	1,928	0.51%
Unincorporated Marion County (Including the towns of McIntosh and Reddick)	304,968	81.30%
Total	**375,908**	**100%**

Population projections have been provided by the American Community Survey using data from the U.S. Census Bureau which estimate that by 2024, the population of Marion County could reach 404,347. By the year 2029 that number is estimated to reach 426,923 with an annual rate change of 1.09%.

Population Summary and Projections					
Summary	**Census 2020**	**2024**	**2029**	**2024-2029 Change**	**2024-2029 Annual Rate**
Population	375,908	404,347	426,923	22,576	1.09%
Households	156,906	170,777	182,940	12,163	1.39%
Median Age	50.3	51.0	51.6	0.6	0.23%
Median Male Age	48.8	49.0	49.5	0.5	0.20%
Median Female Age	51.7	52.7	53.5	0.8	0.30%

Marion County will see an increase in the age of the population according to the American Community Survey, going from a median age of 50.3 in 2020 to 51.6 by the year 2029. According to the U.S. Census Bureau, 4.6% of the population is under 5years old, 18.7% of the population is under 18 years old, and 28.8% of the population is at least 65 years or older. Potentially vulnerable populations may include the elderly, the very young, and individuals with disabilities, which may require special considerations for their care. In Marion County 48,098 households contain at least one person with a disability.

Population by Race 2024	
Race	**Percentage**
White	81.40%
Black	13.70%
Hispanic*	17.60%
American Indian/ Native American	0.60%
Asian	1.90%
Hawaiian/ Pacific Islander	0.10%
Two or More Races	2.30%
*Hispanics may be of any race, so also are included in applicable race categories	

National Flood Insurance Program (NFIP) Compliance

The city of Ocala and unincorporated Marion County are both active participants in the NFIP. To ensure continued compliance with the NFIP, each participating community will:

- Continue to enforce their adopted Floodplain Management Ordinance requirements, which include regulating all new development and substantial improvements in Special Flood Hazard Areas (SFHA).
- Continue to maintain all records pertaining to floodplain development, which shall be available for public inspection
- Continue notifying the public when there are proposed changes to the floodplain ordinance or Flood Insurance Rate Maps.
- Maintain the map and Letter of Map Change repositories.
- Continue to promote Flood Insurance for all properties.
- Continue their Community Rating System outreach programs.

Community Rating System

The Community Rating System (CRS) is a voluntary program for NFIP-participating communities. The goals of the CRS are to reduce flood losses, to facilitate accurate insurance rating, and to promote the awareness of flood insurance. The CRS has been developed to provide incentives for communities to go beyond the minimum floodplain management requirements to reduce the losses from flooding. The incentives are in the form of premium discounts.

Risk Assessment

After reviewing the 2020 LMS Plan, it was determined that the types of hazards identified in the existing plan remained consistent for this update. However, there were significant changes in the data collected related to each of the hazards including utilization of the latest FEMA HAZUS-MH model. Updated data was generated to identify hazards included in the plan. Additionally, the list of critical facilities was also updated to reflect the development that has occurred in the County in the previous 5 years. For ease of reference, many of the larger tables were relocated in an appendix section at the end of the document.

Mitigation Strategy

Goals include continued demonstration of participation in the National Flood Insurance Program (NFIP) by providing a current list of repetitive loss properties, a general description of NFIP compliance and participation in the Community Rating System (CRS) and providing a map of flood prone areas in the County provided by the Marion County Stormwater Division. Recent changes include updating more recent iterations of the Mitigation Project list by adding projected costs, potential funding sources and agency/ municipal department source for each project and participating in the East Central Florida Regional Planning Council (ECFRPC) Resiliency Collaborative.

Plan Maintenance

Minor changes included updating the Working Group Membership List and contact information. The Marion County Mitigation Program Responsibilities spreadsheet is shown in Table I-2. It shows the program area and the jurisdiction that is responsible for those mitigation projects. This does not limit these jurisdictions to only one specific type of project.

Marion County

Background

This section of the document illustrates the content and format of the individual jurisdictions represented by the Marion County Local Mitigation Strategy. The updated Strategy is issued for consideration and action by local governments and participating organizations.

Purpose

This portion of the Marion County Local Mitigation Strategy summarizes the findings to date of the hazard identification and vulnerability assessment concerning Marion County and lists the mitigation initiatives proposed to date to address the vulnerabilities identified. The mitigation initiatives listed herein originate from three sources: 1) the analysis of vulnerabilities applicable to Marion County, 2) the assessment of the plans, policies and codes of local government, and/or 3) from experiences with past disasters and emergencies impacting Marion County.

The Marion County Local Mitigation Strategy has been prepared as a County-wide, coordinated mitigation plan, relying on the cooperative, voluntary involvement of all participating jurisdictions, organizations and institutions. Consequently, the planning process recognizes that each participant maintains a separate legal or administrative responsibility apart from the other participants for implementation of the applicable mitigation initiatives. The Strategy therefore relies on the efforts of the participant for implementation. In view of this, this portion of the overall Strategy is that which is to be considered for formal adoption by Marion County and for implementation, as the resources to do so become available.

Incorporation by Reference

Marion County has committed to voluntary participation in the planning process and therefore incorporates by reference and accepts for use the bylaws, operating procedures and other policies for the planning process that have been adopted by the Steering Committee for the Marion County Local Mitigation Strategy Development.

This portion of the Marion County Local Mitigation Strategy highlights the findings of the vulnerability assessments conducted for Marion County during the planning conducted to date. It also provides a table of the mitigation initiatives proposed by Marion County for implementation when resources become available. Empty Attachments indicate that that part of the Strategy has yet to be completed.

Implementation

The implementation of the mitigation initiatives listed in this section is contingent upon Marion County either receiving the necessary financial support to do so or, as appropriate, the agreement and endorsement of the applicable governing body to implement the listed initiative. Listing of an initiative in this section serves only as a proposal for further consideration and action on the part of Marion County to minimize the impacts of future disasters. The Marion County Working Group will continue to participate in the development and maintenance of the Marion County Local Mitigation Strategy. The Strategy will be updated as specified in the bylaws and procedures, with continuing assessment of the vulnerabilities of Marion County to the impacts of future disasters and emergencies, as well as ongoing identification of mitigation initiatives needed to address those vulnerabilities.

City of Belleview

Background

For the Strategy, this section of the document illustrates the content and format of the individual jurisdiction of the City of Belleview Local Mitigation Strategy. The Strategy is issued for consideration and action by local governments and participating organizations.

Purpose

This portion of the City of Belleview Local Mitigation Strategy summarizes the findings to date of the hazard identification and vulnerability assessment concerning the City of Belleview and lists the mitigation initiatives proposed to date to address the vulnerabilities identified. The mitigation initiatives listed herein originate from three sources: 1) the analysis of vulnerabilities applicable to the City of Belleview, 2) the assessment of the plans, policies and codes of local government, and/or 3) from experiences with past disasters and emergencies impacting the City of Belleview.

The City of Belleview Local Mitigation Strategy has been prepared as a County-wide, coordinated mitigation plan, relying on the cooperative, voluntary involvement of all participating jurisdictions, organizations and institutions. Consequently, the planning process recognizes that each participant maintains a separate legal or administrative responsibility apart from the other participants for implementation of the applicable mitigation initiatives. The Strategy therefore relies on the efforts of the participant for implementation. In view of this, this portion of the overall Strategy is that which is to be considered for formal adoption by the City of Belleview and for implementation, as the resources to do so become available.

Incorporation by Reference

The City of Belleview has committed to voluntary participation in the planning process and therefore incorporates by reference and accepts for use the bylaws, operating procedures and other policies for the planning process that have been adopted by the Steering Committee for the City of Belleview Local Mitigation Strategy Development.

This portion of the City of Belleview Local Mitigation Strategy highlights the findings of the vulnerability assessments conducted for the City of Belleview during the planning conducted to date. It also provides a table of the mitigation initiatives proposed by the City of Belleview for implementation when resources become available. Empty Attachments indicate that that part of the Strategy has yet to be completed.

Implementation

The implementation of the mitigation initiatives listed in this section is contingent upon the City of Belleview either receiving the necessary financial support to do so or, as appropriate, the agreement and endorsement of the applicable governing body to implement the listed initiative. Listing of an initiative in this section serves only as a proposal for further consideration and action on the part of the City of Belleview to minimize the impacts of future disasters.

Future Updating of the Strategy

The Marion County Working Group will continue to participate in the development and maintenance of the Marion County Local Mitigation Strategy. The Strategy will be updated as specified in the bylaws and procedures, with continuing assessment of the vulnerabilities of the City of Belleview to the impacts of future disasters and emergencies, as well as ongoing identification of mitigation initiatives needed to address those vulnerabilities.

City of Dunnellon

Background

For the Strategy, this section of the document illustrates the content and format of the individual jurisdiction of the City of Dunnellon Local Mitigation Strategy. The strategy is issued for consideration and action by local governments and participating organizations.

Purpose

This portion of the City of Dunnellon Local Mitigation Strategy summarizes the findings to date of the hazard identification and vulnerability assessment concerning the City of Dunnellon and lists the mitigation initiatives proposed to date to address the vulnerabilities identified. The mitigation initiatives listed herein originate from three sources: 1) the analysis of vulnerabilities applicable to the City of Dunnellon, 2) the assessment of the plans, policies and codes of local government, and/or 3) from experiences with past disasters and emergencies impacting the City of Dunnellon.

The City of Dunnellon Local Mitigation Strategy has been prepared as a County-wide, coordinated mitigation plan, relying on the cooperative, voluntary involvement of all participating jurisdictions, organizations and institutions. Consequently, the planning process recognizes that each participant maintains a separate legal or administrative responsibility apart from the other participants for implementation of the applicable mitigation initiatives. The Strategy therefore relies on the efforts of the participant for implementation. In view of this, this portion of the overall Strategy is that which is to be considered for formal adoption by the City of Dunnellon and for implementation, as the resources to do so become available.

Incorporation by Reference

The City of Dunnellon has committed to voluntary participation in the planning process and therefore incorporates by reference and accepts for use the bylaws, operating procedures and other policies for the planning process that have been adopted by the Steering Committee for the City of Dunnellon Local Mitigation Strategy Development.

This portion of the City of Dunnellon Local Mitigation Strategy highlights the findings of the vulnerability assessments conducted for the City of Dunnellon during the planning conducted to date. It also provides a table of the mitigation initiatives proposed by the City of Dunnellon for implementation when resources become available. Empty Attachments indicate that that part of the Strategy has yet to be completed.

Implementation

The implementation of the mitigation initiatives listed in this section is contingent upon the City of Dunnellon either receiving the necessary financial support to do so or, as appropriate, the agreement and endorsement of the applicable governing body to implement the listed initiative. Listing of an initiative in this section serves only as a proposal for further consideration and action on the part of the City of Dunnellon to minimize the impacts of future disasters.

Future Updating of the Strategy

The Marion County Working Group will continue to participate in the development and maintenance of the Marion County Local Mitigation Strategy. The Strategy will be updated as specified in the bylaws and procedures, with continuing assessment of the vulnerabilities of the City of Dunnellon to the impacts of future disasters and emergencies, as well as ongoing identification of mitigation initiatives needed to address those vulnerabilities.

Town of McIntosh

Background

For the Strategy, this section of the document illustrates the content and format of the individual jurisdiction of the Town of McIntosh Local Mitigation Strategy. The Strategy is issued for consideration and action by local governments and participating organizations.

Purpose

This portion of the Town of McIntosh Local Mitigation Strategy summarizes the findings to date of the hazard identification and vulnerability assessment concerning the Town of McIntosh and lists the mitigation initiatives proposed to date to address the vulnerabilities identified. The mitigation initiatives listed herein originate from three sources: 1) the analysis of vulnerabilities applicable to the Town of McIntosh, 2) the assessment of the plans, policies and codes of local government, and/or 3) from experiences with past disasters and emergencies impacting the Town of McIntosh.

The Town of McIntosh Local Mitigation Strategy has been prepared as a County-wide, coordinated mitigation plan, relying on the cooperative, voluntary involvement of all participating jurisdictions, organizations and institutions. Consequently, the planning process recognizes that each participant maintains a separate legal or administrative responsibility apart from the other participants for implementation of the applicable mitigation initiatives. The Strategy therefore relies on the efforts of the participant for implementation. In view of this, this portion of the overall Strategy is that which is to be considered for formal adoption by the Town of McIntosh and for implementation, as the resources to do so become available.

Incorporation by Reference

The Town of McIntosh has committed to voluntary participation in the planning process and therefore incorporates by reference and accepts for use the bylaws, operating procedures and other policies for the planning process that have been adopted by the Steering Committee for the Town of McIntosh Local Mitigation Strategy Development.

This portion of the Town of McIntosh Local Mitigation Strategy highlights the findings of the vulnerability assessments conducted for the Town of McIntosh during the planning conducted to date. It also provides a table of the mitigation initiatives proposed by the Town of McIntosh for implementation when resources become available. Empty Attachments indicate that that part of the Strategy has yet to be completed.

Implementation

The implementation of the mitigation initiatives listed in this section is contingent upon the Town of McIntosh either receiving the necessary financial support to do so or, as appropriate, the agreement and endorsement of the applicable governing body to implement the listed initiative. Listing of an initiative in this section serves only as a proposal for further consideration and action on the part of the Town of McIntosh to minimize the impacts of future disasters.

Future Updating of the Strategy

The Marion County Working Group will continue to participate in the development and maintenance of the Marion County Local Mitigation Strategy. The Strategy will be updated as specified in the bylaws and procedures, with continuing assessment of the vulnerabilities of the Town of McIntosh to the impacts of future disasters and emergencies, as well as ongoing identification of mitigation initiatives needed to address those vulnerabilities.

Town of Reddick

Background

For the Strategy, this section of the document illustrates the content and format of the individual jurisdiction of the Town of Reddick Local Mitigation Strategy. The Strategy is issued for consideration and action by local governments and participating organizations.

Purpose

This portion of the Town of Reddick Local Mitigation Strategy summarizes the findings to date of the hazard identification and vulnerability assessment concerning the Town of Reddick and lists the mitigation initiatives proposed to date to address the vulnerabilities identified. The mitigation initiatives listed herein originate from three sources: 1) the analysis of vulnerabilities applicable to the Town of Reddick, 2) the assessment of the plans, policies and codes of local

government, and/or 3) from experiences with past disasters and emergencies impacting the Town of Reddick.

The Town of Reddick Local Mitigation Strategy has been prepared as a County-wide, coordinated mitigation plan, relying on the cooperative, voluntary involvement of all participating jurisdictions, organizations and institutions. Consequently, the planning process recognizes that each participant maintains a separate legal or administrative responsibility apart from the other participants for implementation of the applicable mitigation initiatives. The Strategy therefore relies on the efforts of the participant for implementation. In view of this, this portion of the overall Strategy is that which is to be considered for formal adoption by the Town of Reddick and for implementation, as the resources to do so become available.

Incorporation by Reference

The Town of Reddick has committed to voluntary participation in the planning process and therefore incorporates by reference and accepts for use the bylaws, operating procedures and other policies for the planning process that have been adopted by the Steering Committee for the Town of Reddick Local Mitigation Strategy Development.

This portion of the Town of Reddick Local Mitigation Strategy highlights the findings of the vulnerability assessments conducted for the Town of Reddick during the planning conducted to date. It also provides a table of the mitigation initiatives proposed by the Town of Reddick for implementation when resources become available. Empty Attachments indicate that that part of the Strategy has yet to be completed.

Implementation

The implementation of the mitigation initiatives listed in this section is contingent upon the Town of Reddick either receiving the necessary financial support to do so or, as appropriate, the agreement and endorsement of the applicable governing body to implement the listed initiative. Listing of an initiative in this section serves only as a proposal for further consideration and action on the part of the Town of Reddick to minimize the impacts of future disasters.

Future Updating of the Strategy

The Marion County Working Group will continue to participate in the development and maintenance of the Marion County Local Mitigation Strategy. The Strategy will be updated as specified in the bylaws and procedures, with continuing assessment of the vulnerabilities of the Town of Reddick to the impacts of future disasters and emergencies, as well as ongoing identification of mitigation initiatives needed to address those vulnerabilities.

City of Ocala

Background

For the Strategy, this section of the document illustrates the content and format of the individual jurisdiction of the City of Ocala Local Mitigation Strategy. The Strategy is issued for consideration and action by local governments and participating organizations.

Purpose

This portion of the City of Ocala Local Mitigation Strategy summarizes the findings to date of the hazard identification and vulnerability assessment concerning the City of Ocala and lists the mitigation initiatives proposed to date to address the vulnerabilities identified. The mitigation initiatives listed herein originate from three sources: 1) the analysis of vulnerabilities applicable to the City of Ocala, 2) the assessment of the plans, policies and codes of local government, and/or 3) from experiences with past disasters and emergencies impacting the City of Ocala.

The City of Ocala Local Mitigation Strategy has been prepared as a County-wide, coordinated mitigation plan, relying on the cooperative, voluntary involvement of all participating jurisdictions, organizations and institutions. Consequently, the planning process recognizes that each participant maintains a separate legal or administrative responsibility apart from the other participants for implementation of the applicable mitigation initiatives. The Strategy therefore relies on the efforts of the participant for implementation. In view of this, this portion of the overall Strategy is that which is to be considered for formal adoption by the City of Ocala and for implementation, as the resources to do so become available.

Incorporation by Reference

The City of Ocala has committed to voluntary participation in the planning process and therefore incorporates by reference and accepts for use the bylaws, operating procedures and other policies for the planning process that have been adopted by the Steering Committee for the City of Ocala Local Mitigation Strategy Development.

This portion of the City of Ocala Local Mitigation Strategy highlights the findings of the vulnerability assessments conducted for the City of Ocala during the planning conducted to date. It also provides a table of the mitigation initiative proposed by the City of Ocala for implementation when resources become available. Empty Attachments indicate that that part of the Strategy has yet to be completed.

Implementation

The implementation of the mitigation initiatives listed in this section is contingent upon the City of Ocala either receiving the necessary financial support to do so or, as appropriate, the agreement and endorsement of the applicable governing body to implement the listed initiative. Listing of an initiative in this section serves only as a proposal for further consideration and action on the part of the City of Ocala to minimize the impacts of future disasters.

Future Updating of the Strategy

The Marion County Working Group will continue to participate in the development and maintenance of the Marion County Local Mitigation Strategy. The Strategy will be updated as specified in the bylaws and procedures, with continuing assessment of the vulnerabilities of the City of Ocala to the impacts of future disasters and emergencies, as well as ongoing identification of mitigation initiatives needed to address those vulnerabilities.

CHAPTER THREE: LMS PROCEDURES

Contents

CHAPTER THREE: LMS PROCEDURES 1
Documents Reviewed 3
Structure and History 4
Steering Committee 4
Working Group Subcommittees 5
Public Affairs Subcommittee 5
Mitigation Planning Subcommittee 5
Risk Assessment Subcommittee 5
Financial Issues Subcommittee 5
Updating the 2020 LMS Plan 5

Documents Reviewed

The Working Group continues to review existing plans, studies, reports and technical information. One of the primary efforts of the Mitigation Planning Subcommittee is to review the existing plans, policies and regulations of the local governments in Marion County to search for gaps, inconsistencies or contradictions that impact the effectiveness of mitigation planning for the County. Each local government will assist the Working Group by updating their portions of the original LMS. At a minimum, the documents used in this review process include:

Marion County Comprehensive Plan
Marion County Comprehensive Emergency Management Plan
City of Ocala Comprehensive Plan
City of Ocala Land Development Code
City of Belleview Comprehensive Plan
City of Belleview Land Development Code
City of Dunnellon Comprehensive Plan
City of Dunnellon Land Development Code
Town of McIntosh Comprehensive Plan
Town of McIntosh Land Development Code
State of Florida Building Code
SLOSH Models and Atlas
Withlacoochee Regional Hurricane Evacuation Study - WRPC US Census
County Business Patterns
Bureau of Business and Economic Research (BEBR) Economic Outlook
Florida Statistical Abstract
County Tax Assessor Records
Florida Department of Transportation
Florida Geographic Data Library
Hazardous Materials Emergency Plan for the Withlacoochee Region

As adopted in the initial LMS, the Working Group will continue to use the following “ten principles” to guide the planning process and decisions of the Working Group:

1) The program will be a permanent, voluntary association, open to any and all local governments and community-based organizations with interest in the vulnerability of Marion County to disasters.
2) The program will consider, without partiality, the interests of all sectors and areas of the county participating in the planning and programming effort.
3) The program will seek implementation of mitigation initiatives based only on objective and scientifically valid information.
4) The activities of the program will be based on continuing cooperation and collaboration among all sectors of the community.

5) The program's priorities will be commensurate with predicted risk posed by hazards threatening and/or vulnerabilities of the community.
6) The program will seek to address vulnerabilities to all types of hazards (natural, technological, and societal) that threaten any area, population, economic sector, or community function within Marion County and those political subdivisions participating in the program.
7) Mitigation initiatives proposed through the program will be intended to minimize harm to: people and property, community services and functions, valuable environmental and/or cultural resources, and the economic vitality and stability of the community.
8) Mitigation initiatives will be cost-effective, while striving to weigh both the tangible and intangible values of the community.
9) Mitigation plans and programs will seek to balance the use of government regulation, voluntary cooperation, economic incentives, community awareness, and individual responsibility.
10) Community acceptance and understanding of the program's plans and projects will be fostered through trust in the credibility and integrity of its operations.

One of the key objectives of the process for developing the LMS is to propose mitigation initiatives that would, if implemented, improve the programs, plans and policies that guide mitigation programming by local government and other sectors of the community.

Structure and History

The LMS Working Group is a multi-organizational, public and private committee that oversees the activities and projects involved in maintaining a current Plan. The initial Strategy was approved September 1999, with Belleview, Dunnellon, McIntosh and Ocala entering into inter-local agreements with Marion County to create a single unified LMS. The towns of Reddick and McIntosh elected not to participate in the LMS, however since the initial strategy adoption, all jurisdictions within Marion County now participate in the LMS. The Contractual Services Agreement and subcontracts remain in effect as the ongoing basis for updating and maintaining the multi-jurisdictional LMS for the County. The LMS Working Group was created with five subcommittees led by a Steering Committee. The organizational structure is presented below.

Steering Committee

The Steering Committee provides guidance, leadership and coordination to all five of its supporting subcommittees. This committee is responsible for considering and adopting, as needed, the recommendations of the four subcommittees for mitigation initiatives for incorporation into the Strategy and for updates of the plan. According to the by-laws of the Marion County, Florida, Hazard Mitigation Working Group (henceforth the By-laws), the policy-making body can have up to fourteen members, with one representative from each local government and one representative from the business community. Individuals are appointed to the Steering Committee by majority vote.

Working Group Subcommittees

In 2002, the Steering Committee decided to convene the Working Group subcommittees on an as needed basis, where additional research or information is required outside of the borders of the Steering Committee or Marion County Planning Staff. The membership of the four permanent subcommittees is unlimited and open to all interested jurisdictions, organizations and individuals. The permanent subcommittees may be combined or further divided into smaller groups at the discretion of the Steering Committee Chair.

Public Affairs Subcommittee

This subcommittee promotes activities of the Working Group to the public. Activities include developing tools for educating the public and coordinating with the media to raise the community's awareness of the hazards and the mitigation planning process.

Mitigation Planning Subcommittee

This subcommittee reviews and analyzes the various Vulnerability Assessments and Hazard Identification studies that are conducted by the Risk Assessment Subcommittee. The subcommittee also reviews existing plans, policies, codes, and proposed mitigation initiatives before providing recommendations to the Steering Committee for formal adoption into the LMS.

Risk Assessment Subcommittee

This subcommittee defines the natural, technological, and societal hazards that threaten Marion County. Components of communities that are vulnerable to certain hazards are also identified. The level of vulnerability of various facilities, systems and neighborhoods are determined by the hazard identification and vulnerability assessment analysis. This group has oversight of analysis implementation.

Financial Issues Subcommittee

This subcommittee assists the Working Group by identifying potential funding sources for supporting implementation of the mitigation initiatives incorporated in the Strategy. The subcommittee advises regarding funding sources and the approaches for seeking and securing funding by the participants in the planning process.

Updating the 2020 LMS Plan

The process to update the 2020 Marion County LMS Plan began in early 2025. Staff began the process of updating the Plan in accordance with the 5-year update requirement. Staff began work on the Plan update

with a series of internal staff meetings and discussions. A thorough review of the adopted LMS plan, in conjunction with review of FEMA's "Local Mitigation Planning Handbook" document was conducted, to identify changes in Plan requirements.

Staff conducted a meeting with the LMS Committee regarding the LMS update and obtained input on desired changes to the document. The most recent copy of the FEMA HAZUS-MH model was obtained to estimate potential hazards and vulnerabilities using ArcMap software. The revised 2020 draft material was posted to the Marion County Board of County Commissioner's website along with the LMS agenda to provide online access using the internet for all interested parties. Other key events included:

- Maintain LMS Webpage established on the Marion County Growth Services website
- October 16, 2024 - Notification of Commencement of the Plan Update to LMS Committee
- June 24, 2025 - Transmittal of DRAFT Chapters 1-5 to LMS Committee For Review
- June 25, 2025 - LMS Meeting Review of Draft Chapters 1- 5
- July 30, 2025 – Marion Oaks Community Center Public Outreach Meeting
- August 9, 2025 – Silver Springs Shores Community Center Outreach Meeting
- June 2025 – August 2025 – Online Survey (76 Responses)
- October 15, 2025 – Transmittal of DRAFT Chapters 6-8, HAZUS Model Outputs & Survey Data to LMS Committee Members
- October/November 2025 - LMS Committee Review of Draft Chapters 6-8
- October 2025 – (Ongoing) Public Review Draft Chapters/Virtual Public Workshop
- TBD – City of Dunnellon Adoption
- TBD – City of Belleview Adoption
- TBD – Marion County Board of County Commissioners Adoption
- TBD – City of Ocala Adoption
- TBD – Town of Reddick Adoption
- TBD 13, 2021 – Town of McIntosh Adoption

CHAPTER FOUR: LMS INITIATIVES

Contents

CHAPTER FOUR: LMS INITIATIVES 1
Contents 2
Purpose 3
Background 3
Development and Processing of Mitigation Initiatives 3
Format 4
Content 4
Prioritized Project List 5

Purpose

This section of the document details the guidance for implementation of the Marion County LMS. It describes the proposed mitigation initiatives to be initiated by each of the participants in the planning process, as the necessary resources become available to do so. Through implementation of these initiatives the goals and objectives of the Marion LMS can be achieved.

Background

The LMS includes a list ranking for each of the projects submitted. The list guides County-wide implementation of specific mitigation projects on an annual basis. The projects included in the LMS document are eligible for a wide variety of grants and funding opportunities. Achieving a listed position enables the grant applicant to reference the LMS to the importance of that mitigation action.

Development and Processing of Mitigation Initiatives

The mitigation initiatives listed in this section were derived from the stepwise approach used in the planning process. The initiatives have been identified from the results of:

- The hazard identification and vulnerability assessment process undertaken.
- The review of current local government plans, policies and codes.
- The experiences with previous disasters and emergency events.

Once proposed by a jurisdiction or organization, the initiatives are reviewed by the Mitigation Planning Subcommittee and the Steering Committee of the Marion Working Group. This review is intended to identify any unintentional or unwarranted inter-jurisdictional impacts, inconsistencies or duplications. If there are none, the initiative is considered acceptable for incorporation into the Strategy. If concerns are raised regarding inter-jurisdictional impacts, inconsistencies or duplications, then the participant proposing the initiative is requested to respond with additional information or to appropriately modify the proposal.

Once an initiative is accepted for incorporation into the Strategy, any additional information needed to characterize the initiative and justify its implementation is gathered. Next a priority for implementation of the initiative is established by using standard criteria to derive a numerical priority score. The higher the score the higher the priority for implementation by the jurisdiction or organization. The steps in the process to develop and coordinate mitigation initiatives are detailed in the Working Group's Operating Procedures.

Format

The format of this section is designed to facilitate formal action on the Marion LMS by local governments and other participating organizations. The decision makers for participating jurisdictions and organizations can take action to review and modify only their portion of the Strategy, as needed prior to its adoption or acceptance.

A proposed mitigation initiative must have an agency or organization that is defined as the "sponsor" of the initiative. Therefore, in the Marion LMS, all proposed mitigation initiatives identify the sponsor responsible for its implementation when resources become available to do so.

Each jurisdiction or organization participating in the planning process makes its own decisions regarding mitigation needs and priorities. Nevertheless, interjurisdictional considerations have been addressed. During the planning process, the potential for interjurisdictional impacts, inconsistencies or duplication that would be created by implementation of any initiative is considered and addressed appropriately.

Content

Each initiative provides three types of information:

- Acceptance by the participant of the bylaws, procedures and other overall planning criteria adopted and utilized by the Marion Working Group for LMS Development.
- Summaries regarding the hazard identification and vulnerability assessment process undertaken for the participant's area of concern.
- A listing of the proposed mitigation initiative desired by the participant for incorporation into the Marion LMS. The list names the initiative sponsor, briefly describes its scope and intent, the anticipated cost or cost impact of the initiative, the preliminary estimated benefit to cost ratio justifying its validity for implementation, the most likely funding source for implementation, and its assigned score for priority of implementation (The higher the numeric score, the higher its priority).

The contents and the supporting decision making during the planning were developed by representatives of each of the participating jurisdictions or organizations by using a technical approach common to all participants and adopted by the Marion Working Group for LMS Development. This common technical approach is detailed in the Working Group's Operating Procedures.

Additional education and outreach activities to heighten awareness of the public about potential disasters and the importance of Local Mitigation Strategy will be undertaken as opportunities arise. Additional staff education and training opportunities will also be promoted through cooperative activities with the FDEM and FEMA.

VIII. ADOPTION OF AND AMENDMENTS TO THE BYLAWS 21
IX. DISSOLUTION OF THE WORKING GROUP 21

Background and Purpose

The local governments, community groups, and private sector interests in Marion County, Florida, have initiated a comprehensive and coordinated effort to decrease the vulnerability of the communities to natural, technological and societal hazards. To do this, a multi-agency planning organization has been established and given the title, "The Marion County Hazard Mitigation Working Group for Disaster Mitigation and Recovery," or hereinafter, the Working Group. Representatives of the participating local jurisdictions and organizations have been assigned to the Working Group's Steering Committee and subcommittees. The mission of the Working Group is to: identify the hazards that threaten the County; determine the vulnerabilities of the communities to those hazards; and define initiatives that could, if implemented, reduce those vulnerabilities. The findings of this process are expressed in a single, coordinated Local Mitigation Strategy for the promulgation and/or implementation by the participating jurisdictions and organizations. The Working Group is also responsible for updating and maintaining the Local Mitigation Strategy in future years.

The Working Group has adopted bylaws to guide and control its managerial and policy actions such as its charter, methods for representation, voting processes, and similar actions. This document defines the operational procedures by which the Working Group will conduct and maintain the planning process itself.

The Working Group, its Steering Committee and subcommittees require standardized operational procedures to accomplish their responsibilities and to strive for achievement of the following objectives in any action it may take, including but not necessarily limited to the following:

- To ensure all participants in the Working Group, as well as the community at large when appropriate, have an adequate opportunity to review and comment upon any proposal for action by the Working Group.

- To avoid premature, unwarranted or illegal adoption of any proposal for action in the name of the Working Group and/or one of the participating organizations.

- To provide a mechanism for any participant in the Working Group to offer proposals, recommendations and suggestions for further consideration.

- To promote effective coordination and consultation between the Steering Committee and its subcommittees, as well as among the subcommittees themselves.

- To create a procedure to resolve conflicts between governmental entities during the mitigation strategy development and to rectify inconsistencies in policies and regulations in mitigation programming by governmental entities.

- To provide a mechanism for evaluation of the implementation of the strategy and to provide for its continued updating.

- To establish procedures for coordination of local government mitigation activities with those of the business community; and

- To establish a consistent basis to prioritize mitigation initiatives sponsored by members of, or advocated for implementation by, the Working Group.

Procedure for Introducing and Processing a Proposal for Consideration

Any member of the Working Group, or the community at large, is encouraged to develop and justify proposals for consideration and possible action by the Steering Committee or any of its subcommittees. This procedure anticipates that subcommittees, through a procedure for cooperation and consultation (described below) will generate many proposals or requests for their own consideration and/or for consideration by other subcommittees. Nevertheless, this procedure also anticipates receipt of proposals or other requests for consideration from sources independent of a subcommittee, including, but not necessarily limited to, the following:

- Identification of specific hazards, vulnerabilities or risks to be considered in the Mitigation Strategy.

- Proposals or concepts for structural and/or non-structural mitigation strategies to be incorporated into the Strategy.

- Endorsements and/or criticisms of priorities assigned to mitigation initiatives, endorsements given to initiatives, or actions to reject initiatives.

- Needs for and approaches to public information and education programs.

- Requests for endorsement of immediate mitigation and/or post-disaster redevelopment actions for specific geographic areas or sectors of the community.

- Requests for specific actions or endorsements that may or may not be consistent with the mission of the Working Group.

It can be expected that such requests could originate from a range of sources and in a variety of formats. Requests are also likely to be actively solicited from members of the subcommittees and the Working Group. Requests will be processed in the following manner:

Step 1) A request received outside of a meeting of the Steering Committee, or a subcommittee would be transferred to the Working Group's staff for action. A request received during a meeting of the Steering Committee, or a subcommittee would be processed in accord with the instructions of the chairperson of the Steering Committee.

Step 2) The Working Group's staff will prepare a brief written description of the request which would document the origin of the request and record the date and method of disposition of the request by staff.

Step 3) The Working Group's staff would, if necessary, consult with the chair of the Steering Committee regarding its disposition and, if appropriate, prepare the request in the form of a draft resolution for action by the Steering Committee.

Step 4) In most cases, this procedure anticipates that the staff would transmit the request to the lead agency representative of the most appropriate subcommittee to address the nature of the request.

Step 5) The subcommittee's lead agency representative would be responsible for considering the request by the subcommittee and taking further action for its disposition.

Step 6) If warranted, the subcommittee could incorporate the request into the anticipated planning process by the subcommittee itself, refer the request to another subcommittee, or propose the request as suitable for formal action by the Steering Committee.

Procedures for Formal Action by the Steering Committee

Formal actions in the name of the Working Group will only be taken upon an affirmative vote of the Steering Committee. Formal actions include, but are not necessarily limited to, the following:

- Approval and transmittal of any formal document in the name of the Working Group requesting funding for any plan, mitigation initiative or other purpose from an organization external to the Working Group.

- Endorsement by the Working Group of any proposal or request for funding by any jurisdiction or public or private organization of a structural or non-structural hazard mitigation initiative.

- Publication or issuance of a substantive, final document under the name of the Working Group.

- Issuance of any request or instruction having the intended purpose of initiating actions for hazard mitigation or post-disaster redevelopment controls by organizations or jurisdictions within Marion County.

- Publication of a final Mitigation Strategy prepared pursuant to state guidelines and/or under state funding, as well as any subsequent final modification or updating of the Strategy.

- Issuance of any final recommendations in the name of the Working Group regarding post-disaster redevelopment controls or guidelines for the County and/or its municipalities; and

- Any other formal action which, in the opinion of the chair of the Steering Committee, warrants the endorsement and/or concurrence of the Steering Committee.

The determination of whether an action by the Steering Committee a formal action is and subject to this procedure is within the discretion of the chair of the Steering Committee.

It is anticipated by these the Working Group's procedures that formal actions by the Working Group itself will take the form of recommendations for local governments, business interests, and other sectors of the community to utilize their own authorities, responsibilities and resources to implement the Working Group's recommendations and the strategy developed.

As a voluntary community-based public- private organization, the Working Group has no authority in law to independently adopt and enforce any recommendation, plan or strategy. Its strength is in the willing cooperation of the organizations and jurisdictions represented on its Steering Committee to implement the provisions of the Local Mitigation Strategy.

Formal actions taken by the Working Group will occur in the following manner:

Step 1) A proposal for the action is prepared by the sponsor in the form of a draft resolution for action by the Steering Committee. The draft resolution has attached any document(s) to be issued in the name of the Working Group and/or supporting documentation to further explain the intents and purposes of the draft resolution for Working Group action.

Step 2) The draft resolution and attached documentation are provided to the Working Group's staff for recording. The staff will consult with the chair of the Steering Committee

to identify if the County Attorney or other designated individual should review the proposal for comment prior to its circulation to the Steering Committee.

Step 3) The Working Group's staff will copy the draft resolution for distribution to the Steering Committee. In the event that the attached documents are very large in volume or size, a reference copy for inspection by Steering Committee members and other interested individuals will be made available at the offices of Marion County Office of Emergency Management.

Step 4) The Working Group's staff will circulate a copy of the draft resolution to members of the Steering Committee. Except for the case of an emergency meeting, the draft resolution and attachments must be received by the Steering Committee members two weeks prior to the meeting at which discussion and action on the draft resolution and proposed action is planned.

Step 5) Prior to final action, in cases deemed warranted by the chair of the Steering Committee, the action may be postponed until a decision by the County Attorney regarding a need for a public hearing on the proposal. If there is a need, the matter will be referred to the Public Affairs Subcommittee to prepare for and conduct the public hearing in accord with County requirements and prior further action by the Steering Committee.

Step 6) In the absence of a public hearing or after its conclusion, the Steering Committee will take action on the proposal at the next meeting using one of the following options:

- Adopt the original proposal as a formal resolution by affirmative majority vote.
- Reject the original proposal through failure to achieve an affirmative majority vote.
- Modify the proposal in some manner prior to voting on its adoption.
- Instruct a subcommittee to analyze the matter further and advise the Steering Committee of a course of action.
- Delay action on the proposal until the next regularly scheduled meeting of the Steering Committee; or
- By majority affirmative vote, circulate the proposal to the Working Group for review and solicit comment during the next Working Group meeting prior to formal action by the Steering Committee.

Step 7) When formal action by the Steering Committee has been completed, the Working Group's staff will archive a copy with supporting documentation in the project files. The staff will provide a final copy of the resolution, without supporting documentation, to each member of the Steering Committee and if appropriate, and under the signature of the chair of the Steering Committee, distribute the final resolution to the individuals, agencies, or organizations for whom it was intended.

Procedure for Coordination of Committee Activities

The Steering Committee is responsible for ensuring that the planning process undertaken by the Working Group and its subcommittee, as well as the actions to be taken, are effectively coordinated within the management structure of the Working Group as well as with jurisdictions and organizations outside of the Working Group. Coordination of actions will be accomplished through the following mechanisms:

- Coordination mechanisms will be built into the routine functioning of the Working Group, and will include distribution of meeting summaries and minutes to members of the Steering Committee, summation of subcommittee activities at each Steering Committee meetings, periodic release of public information regarding the activities of the Working Group, involvement of the Working Group's staff in subcommittee meetings and similar mechanisms;

- The Steering Committee is responsible for assuring the overall coordination of activities among the remainder of the Working Group, working primarily through the assignment of tasks and activities to the subcommittees and resolving coordination issues during the summation reports in meetings.

- Coordination with outside organizations and the community at large will be achieved by assuring that the Public Affairs Subcommittee is the sole source for information released to the media, and by having the chair of the Steering Committee be designated as the only official spokesperson for the Working Group.

- Coordination of new assignments for subcommittee attention will be achieved by having all such assignments made by the chair of the Steering Committee either directly during a meeting of the Steering Committee, or by conferring with the Working Group's staff prior to making such an assignment.

- Assignments that originate within a subcommittee that warrant the attention and consideration of another are to be coordinated by the designated lead agency representative of the subcommittee through referral to or consultation with the lead agency representatives of the other subcommittees whose involvement is being sought.

Procedures for Resolving Conflicts between Governmental Entities

This procedure recognizes that many of the statutory or regulatory mechanisms for promoting hazard mitigation and post-disaster redevelopment activities are based in the powers and responsibilities of local government. Further, it is recognized that, with five participating county and municipal jurisdictions in Marion County, conflicts and inconsistencies in regulations, statutes, policies and programs regarding disaster mitigation and recovery will arise. Therefore, one of the primary functions of the Working Group is to identify where such conflicts or inconsistencies exist, and to provide mechanisms to address and resolve the associated problem areas.

The Working Group's organizational structure is intended to incorporate representation from each participating local jurisdiction on the Steering Committee, providing a forum to identify, deliberate and resolve conflicts among governmental entities. This organizational structure is anticipated to enhance identification and resolution of conflicts between governmental entities by providing an organized managerial framework supportive of the information exchange, technical analysis, and cooperation necessary to address and resolve such conflicts. Nevertheless, beyond the organizational structure, Marion County's Working Group for Disaster Mitigation and Recovery will utilize the following sequential actions to identify, address and seek to correct conflicts and inconsistencies between governmental entities:

The Mitigation Planning Subcommittee, in cooperation with the Working Group's staff, will develop an initial "baseline" of existing statutes, regulations, policies and procedures of all the local government jurisdictions in Marion County. This baseline will accomplish the following:

- Inventory each governmental entity.
- Catalogue their statutes, plans and policies related to hazard mitigation and post-disaster redevelopment controls.
- Describe and assess the initially apparent shortfalls, conflicts and inconsistencies of and between governmental entities.
- Offer recommendations for the Working Group to consider modifications and/or corrective actions to reduce the number and scope of such shortfalls, conflicts and inconsistencies.

To the extent feasible, the Mitigation Planning Subcommittee, with the support of the Working Group's staff, will further identify the regulations, standards and/or industry and business criteria

utilized for disaster mitigation and recovery by the key elements of the private sector of Marion County. These will be assessed in relationship to the mitigation and recovery programming currently being implemented by the governmental entities of Marion County. This assessment may also indicate shortfalls, conflicts and/or inconsistencies between the public and private sector, warranting further attention from the Working Group as it develops its Local Mitigation Strategy.

As the Mitigation Planning Subcommittee develops the proposed Local Mitigation Strategy for consideration and adoption by the Steering Committee, or during one of the biannual updates, this procedure anticipates that definition of mitigation initiatives, and assignments of priority thereto, will further uncover inconsistencies and contradictions between the desired or needed programming by governmental entities. When such issues are so identified, they will become the responsibility of the Mitigation Planning Subcommittee to identify a resolution to the problem area by using the following steps:

Step 1) The Mitigation Planning Subcommittee will be responsible for identification and precise definition of the inconsistency, contradiction or conflict in mitigation or recovery programming or control among governmental entities or between governmental entities and the private sector.

Step 2) In the event the subcommittee is unable to resolve such conflicts in a timely manner through discussion at its regularly scheduled meetings, and at the discretion of the designated lead agency representative of the Mitigation Planning Subcommittee, a number of individuals from within or outside of the subcommittee will be assigned to serve on a special, temporary task force to further assess the conflict. The number of individuals assigned will be at the discretion of the lead agency representative, as will the need to request the Working Group's staff to support the task force in the evaluation. In all cases, the assigned individuals will include both representatives of the jurisdictions or private sector elements with direct interests in the outcome of the evaluation, and other individuals with no direct interest in the outcome of the evaluation, if at all feasible.

Step 3) The assigned task force will assess the situation and formulate a recommendation for corrective action for consideration and action by the Mitigation Planning Subcommittee. This recommendation will be prepared in writing and provide a complete description of the characteristics and importance of the conflict, define the feasible options available for resolution of the conflict, as well as the basic advantages and disadvantages of each. The recommendation will also identify the option preferred by the task force and the underlying reasons for this preference.

Step 4) The entirety of the Mitigation Planning Subcommittee will review the recommendation of the task force and vote for concurrence. The lead agency

representative will then relay the task force's recommendation, with the results of the vote of the Mitigation Planning Subcommittee on the preferred option, to the chair of the Steering Committee.

Step 5) The recommendation and vote of the Mitigation Planning Subcommittee will then be presented by the chair of the Steering Committee to that group at its next regularly scheduled meeting. Formal action on the recommendation will then be taken in accordance with the procedures given above, and/or if appropriate, the Mitigation Planning Subcommittee will be requested to incorporate the action into the Mitigation Strategy.

The initial baseline will be utilized by the Subcommittee to recommend to the Steering Committee one or more proposed actions by governmental entities to correct inconsistencies and address conflicts and, with the concurrence of the Steering Committee, these would be included in the Working Group's overall Local Mitigation Strategy for Marion County.

Procedures for Evaluating and Updating the Mitigation Strategy

Once prepared, the Working Group's Local Mitigation Strategy will be evaluated and updated on a continuing basis. The Mitigation Planning and Risk Assessment Subcommittees will be responsible for this process.

On no less than a biannual basis, the following steps will be taken by the Working Group to accomplish this procedure:

Step 1. The Mitigation Planning Subcommittee will conduct the following tasks:

- Consult with the Financial Issues Subcommittee to determine the status of funding and implementation of the priority mitigation initiatives as defined in the current edition of the Local Mitigation Strategy, as well as to determine if any new federal, state, local or private sources for funding mitigation initiatives have become available to the Working Group, local government or key elements of the private sector.

- Review the records of the meetings of the Steering Committee and Working Group from the preceding two-year period to identify any proposals for new mitigation initiatives.

- Review the status of federal, state and local legislation related to hazard mitigation programming promulgated during the preceding two-year period and

identify any regulations, requirements or guidelines pertinent to the Working Group's mission or the contents and format of the Local Mitigation Strategy.

- Request the Public Affairs Subcommittee to assess the community's current attitudes and perceptions regarding implementation of the hazard mitigation strategy to date, and the types of modifications and/or enhancements that would likely be acceptable to the community at large.

- Prepare a written description of the status of each of the priority mitigation initiatives, new legislation and/or new funding sources for mitigation initiatives, as well as comments on the public acceptability of likely changes to the Strategy. Transmit the report to the chair of the Steering Committee and each of the Working Group's existing subcommittees.

- Review all post-event assessments of disasters and emergencies occurring in the intervening two-year period to identify the effectiveness of any mitigation initiatives involved, as well as to identify any new vulnerabilities or risks indicated by the events.

- Research any new information regarding hazards threatening the County, the vulnerabilities to those hazards, and the risks associated with the vulnerabilities.

- Review the predicted effectiveness of any mitigation initiatives being initiated at the time of the assessment but not yet completed.

- Prepare a written report regarding the results of the assessment, emphasizing the judged effectiveness of the mitigation initiatives in place and defining any new risks to the community becoming apparent during the preceding two-year period.

- Provide the written report with the chair of the Working Group's Steering Committee and the lead agency representative to each of the subcommittees.

Step 2) Concurrently with Step 1, the Risk Assessment Subcommittee will accomplish the following tasks:

Step 3) Using the results of Steps 1 and 2, the Mitigation Planning Subcommittee will identify those portions of the current edition of the local mitigation strategy that necessitate expansion, enhancement or updating. The lead agency representative will then identify to the chair of the Steering Committee the scope, schedule and resources required to develop a revision of the Local Mitigation Strategy.

Step 4) Upon instruction from the chair of the Steering Committee, and with the cooperation of the Working Group's staff, the Mitigation Planning Subcommittee will prepare a draft of the update and circulate copies to all members of the Steering Committee.

Step 5) The Steering Committee members will individually review the draft of updated Strategy and provide comments to the Mitigation Planning Subcommittee for consideration. Following a reasonable time for review, the Mitigation Planning Subcommittee will revise the draft as needed and submit it to the Steering Committee for review and release as a draft.

Step 6) Pursuant to the procedure given above, the Steering Committee will take formal action to release the draft of the updated Local Mitigation Strategy for public review. Upon an affirmative vote, the draft will be released publicly for a request for comments, or, if not affirmed, the draft will be returned to the Mitigation Planning Subcommittee for further revision.

Step 7) The Public Affairs Subcommittee will prepare media releases and legal notices regarding the availability of the draft for review by the public. The subcommittee will take additional steps to encourage all members of the Working Group to review the draft in detail prior to the meeting to comment more effectively on the document.

Step 8) The Steering Committee and Working Group's staff would prepare a public presentation summarizing the findings and conclusions reached by the Working Group in the preceding steps, as well as highlighting the proposed changes in the Strategy.

Step 9) At the meeting of the Working Group, the presentation prepared in Step 8 will be given to the members, and comments will be received and recorded for further consideration. The record of the meeting will remain open for 15 days after the conclusion of the Working Group’s meeting to receive any further written comments.

Step 10) As needed, following the closure of the comment period, the Mitigation Planning Subcommittee will modify the draft of the strategy and submit a final edition to the Steering Committee for formal adoption in accord with the procedures for such action given above.

Procedures for Coordination of Public and Private Mitigation Initiatives

A major purpose to be achieved in establishing the Working Group is to provide an ongoing forum for cooperative efforts, information exchange and continuing consultation between the public and private sectors of Marion County. As such, the presence of representatives of all local government jurisdictions as well as key elements of the County's private sector on the Steering

Committee and its subcommittees are expected to provide for coordination of public and private sector mitigation initiatives.

In addition to the organizational structure, however, the following responsibilities and provisions will be followed by each of the Working Group's Subcommittees in the conduct of their activities:

All Subcommittees: Each subcommittee's lead agency will have a responsibility to strive to achieve an appropriate balance in representation from the local government, private enterprise and community interest groups. If difficulty is encountered in maintaining a balanced representation, the subcommittee's lead agency may request assistance from the Public Affairs Subcommittee in recruiting additional members from other sources.

The Risk Assessment Subcommittee: In all the analytical efforts conducted by this subcommittee, the risk exposure of both local government and the business community to the hazards threatening the County will be considered.

The Mitigation Planning Subcommittee: In all the planning efforts, including identification of structural and non-structural mitigation initiatives, this subcommittee will include consideration of initiatives applicable to local government, business and industry, as well as the public, whether such initiatives would affect only one of these sectors of the community or all of them.

The Financial Issues Subcommittee: A major focus of this subcommittee's efforts will be on the financial vulnerability of the community to disasters, and the need for effective capabilities in disaster recovery. This subcommittee will work with the Risk Assessment Subcommittee, and the Mitigation Planning Subcommittee to ensure that the financial concerns of the private sector, as well as the public sector, are fully considered in the development, implementation and evaluation of the Local Mitigation Strategy. This subcommittee, in fulfilling its responsibility to seek sources of funding for planning and implementation of mitigation initiatives, will pursue available opportunities for private sector funding of mitigation initiatives as well as governmental sources.

The Public Affairs Subcommittee: It is the responsibility of this subcommittee to engage all sectors of the community in the activities of the Working Group, including the business community. As such, the subcommittee will be available to assist other subcommittees on maintaining the involvement of the private sector and an awareness of the mitigation initiatives undertaken by this component of the community.

Procedure for Identification of Potential Mitigation Initiatives

The Mitigation Planning Subcommittee is responsible for identification and definition of potential mitigation initiatives for inclusion in the Local Mitigation Strategy. Input for this definition process may come from a variety of sources, including but not limited to:

- The Risk Assessment and Financial Issues, based on the results of vulnerability assessment and risk analysis.
- From local input gained through interaction with all members of the Working Group.
- From analysis of the inconsistencies or conflicts among the statutes and policies of local jurisdictions and/or the mitigation programming of the private sector in relation to the public sector.
- A proposal from any source for a mitigation initiative received and processed by the Working Group in accord with procedures given above.

To facilitate evaluation of each proposed mitigation initiative, the Mitigation Planning Subcommittee will define each separate initiative, using the best information readily available at the time, by providing the following:

Item 1: The general type of initiative –

Non-structural initiatives:

- Code, statute or policy development/enforcement
- Plan or procedure development
- Land purchase and restriction
- Training or education
- Research, investigation or analysis
- Other

Structural initiatives:

- Retrofitting of existing vulnerable structures
- Demolition and removal of vulnerable structures
- Construction of new mitigation initiatives
- Reconstruction of existing mitigation initiatives

Item 2: The hazard(s) addressed:

All hazards

- Water hazards
- Wind hazards
- Fire hazards
- Hazardous materials
- Other technological hazards
- Societal hazards
- Agricultural hazards
- Other hazards

Item 3: Risk/loss category affected

- Demonstrated repetitive loss
- Predicted loss
- Level of risk (High, medium, low, uncertain, etc.)

Item 4: The geographic area benefited and/or impacted

- Size (square miles)
- Jurisdiction(s)

Item 5: The estimated population benefited

- Number of people
- Special characteristics or concerns (e.g., special needs) Item 6: For structural initiatives:
- Preferred project sponsor
- Alternative project sponsor
- Estimated cost
- Predicted benefits (Value of damage avoided, environmental resource protected, deaths
- and injuries avoided)
- Schedule for initiation and completion
- Complexity of approval/permitting
- Most likely funding source
- Other possible funding sources
- Probability of community acceptance

Item 6: For non-structural initiatives:

- Alternative implementing agency/organization
- Probable implementing agency/organization
- Estimated costs for implementation
- Proposed schedule for implementation
- Estimated cost impact in the target area
- Predicted benefits (Value of damage avoided, environmental resource protected, death and injuries avoided)
- Complexity of approval/adoption
- Probability of community acceptance

It is the intention of this procedure that this information be preliminary estimates, and that the level of data gathering to support this activity be commensurate with the resources and time available for the analysis. It is not intended that highly detailed, design-level information be gathered to define the proposed mitigation initiatives.

Bylaws of the Marion County, Florida, Hazard Mitigation Working Group

ARTICLE I. PURPOSES OF THE WORKING GROUP

The purpose of the Marion County Hazard Mitigation Working Group is to decrease the vulnerability of the citizens, governments, businesses and institutions of Marion County, Florida, to the future human, economic and environmental costs of natural, technological, and societal/manmade disasters. The Working Group will develop, monitor, and maintain a local strategy for hazard mitigation and post disaster redevelopment which will be intended to accomplish this purpose.

ARTICLE II. MEMBERSHIP

Participation in the Marion County Working Group for Hazard Mitigation is voluntary by all participating entities. Membership is established in accord with the following provisions:

- Membership in the Working Group is open to all jurisdictions, organizations and individuals supporting its purposes; and

- The membership and participation of local governments in the Working Group is controlled by contractual agreements between the Florida Department of Community Affairs, Marion County, and the participating municipalities, which are listed in

Attachment A. These contractual agreements are incorporated hereto by reference, and their provisions are controlling.

ARTICLE III. ORGANIZATIONAL STRUCTURE

The organizational structure of the Working Group shall consist of a Steering Committee and permanent and/or temporary subcommittees.

A. The Steering Committee

The Working Group shall be guided by a Steering Committee of not more than fourteen members, consisting of designated representatives of the following:

- One representative from the government of Marion County and each participating municipality,
- One representative from organizations and associations representing key businesses, industry, and community interest groups of Marion County, and
- Other such individuals appointed by a majority vote of the Steering Committee.

Members of the Steering Committee will be designated by formal resolution, appointment or other action to serve as the official representative and spokesperson for the jurisdiction or organization regarding the activities and decisions of the Working Group. To maintain good standing, members of the Steering Committee must have un-excused absences from more than three consecutive meetings.

B. Subcommittees

The Working Group shall have four permanent subcommittees: Risk Assessment, Mitigation Planning, Public Information, and Financial Issues. Membership of the permanent subcommittees is unlimited and is open to all interested jurisdictions, organizations and individuals.

Temporary subcommittees may be established at any time for special purposes by the chair of the Steering Committee, and their membership designated at that time.

Membership in the subcommittees is not restricted. There are no requirements for individuals to maintain good standing as members of a permanent or temporary subcommittee.

C. Program Staff

The Marion County Community Services Department, or other county agencies as may be subsequently designated, will provide and/or coordinate individual and organizations serving as the program staff for the Working Group.

ARTICLE V. OFFICERS

Any member of good standing of the Steering Committee is eligible for election as an officer. The Steering Committee will have a chair elected by a majority vote of a quorum of members. The Steering Committee will also elect by majority vote a vice-chair. One of these positions will be elected by the representatives of local government and the other by the representatives of the private sector. Each will serve a term of one year and be eligible for re-election for an unlimited number of terms. The chair and vice-chair of the Steering Committee are also considered to be chair and vice-chair of the Working Group.

The chair of the Steering Committee will preside at each meeting of the Steering Committee, make assignments of Steering Committee members to the permanent subcommittees, as well as establish temporary subcommittees and assign personnel to them. The vice-chair will fulfill the duties and responsibilities of the chair in his or her absence.

The chair of each permanent or temporary subcommittee will be designated from the members in good standing of the Steering Committee by its chair and will serve at the pleasure of the chair of the Steering Committee.

ARTICLE VI. RESPONSIBILITIES

A. Steering Committee

The Steering Committee will be responsible for oversight and coordination of all actions and decisions by the Working Group and is solely responsible for formal actions in the name of the Working Group, including the release of reports, development of resolutions, issuance of position papers, and similar activities. The Steering Committee makes assignments to the subcommittees, coordinates their work, and acts on their recommendations.

B. Subcommittees

The permanent subcommittees have the following responsibilities:

1. Risk Assessment - to identify, analyze, and monitor the hazards threatening Marion County and the vulnerabilities of the community to those hazards, as well as to assist in the definition of actions to mitigate the impacts of those hazards.

2. Mitigation Planning - to define structural and non-structural actions needed to decrease the human, economic and environmental impacts of disasters, and to prepare for consideration and action by the Steering Committee a strategy for implementation of those initiatives in both the pre- and post- disaster time frame.
3. Financial Issues - to define the general financial vulnerability of the community to the impacts of disasters, to assist with identification of initiatives to minimize that vulnerability; and seek funding sources for all priority mitigation initiatives identified in the mitigation strategy developed by the Working Group.
4. Public Information - to secure public input and comment on the efforts of the Working Group; to inform the public about the activities of the Working Group; to conduct public information and education programs regarding hazard mitigation; to assist with the conduct of public hearings; and, to promote public acceptance of the strategy developed by the Working Group.

The permanent subcommittees may be combined or further divided into small groups at the discretion of the chair of the Steering Committee, and their duties and responsibilities altered accordingly. The responsibilities of temporary subcommittees will be defined at the time they are established by the chair of the Steering Committee.

C. Program Staff

Technical, clerical and other types of support activities for the Steering Committee and subcommittees will be provided through the Marion County Growth Services Department and other county agencies as assigned. The Growth Services Department will also serve as the legal government representative of the Working Group and is empowered under County statutes to accept and disburse funds, enter contracts, hire staff, and take such other actions as necessary in support of, or in the name of, the Working Group. Other jurisdictions and organizations may also provide such services on a voluntary basis upon request of the Growth Services Department and/or the chair of the Steering Committee.

D. Authority for Actions

Only the Steering Committee has the authority to take final actions in the name of the Working Group. Actions by subcommittees or program staff are not considered as final until affirmed by action of the Steering Committee.

E. Meetings, Voting and Quorum

Meetings of the Steering Committee and its subcommittees will be conducted in accord with Robert's Rules of Order, when deemed necessary by chair of the meeting. Regular meetings of the Steering Committee will be scheduled with a minimum of 10 working days' notice. The scheduling of meetings of a subcommittee is at the discretion of its chair.

All final actions and decisions made in the name of the Working Group will be affirmative by vote of a quorum of the Steering Committee. A quorum shall be fifty percent of the members of the Steering Committee in good standing at the time of the vote. Each member of the Steering Committee will have one vote. Voting by proxy, written or otherwise, is not allowed.

If a standard quorum cannot be obtained, where disposition of an action item is deemed to be critical, the chair or vice-chair may call for a special vote with fewer than the required number of members for a quorum.

F. Special Votes

Special votes may also be undertaken during emergency situations or when there are other extenuating circumstances that are judged by both the chair and vice-chair of the Steering Committee to prohibit scheduling of a regular meeting of the Steering Committee. Special votes may be by telephone, email and/or first-class mail, and shall be in accord with all applicable statutes for such actions.

G. Public Hearings

When required by statute or the policies of Marion County, or when deemed necessary by the Steering Committee, a public hearing regarding actions under consideration for implementation by the Working Group will be held.

H. Documentation of Actions

All meetings and other forms of action by the Steering Committee and permanent subcommittees will be documented and made available for inspection by the public.

VIII. ADOPTION OF AND AMENDMENTS TO THE BYLAWS

The Bylaws of the Working Group may be adopted and/or amended by a two-thirds majority vote of the members in good standing of the Steering Committee. All proposed changes to the bylaws will be provided fourteen (14) days prior to such a vote.

IX. DISSOLUTION OF THE WORKING GROUP

The Working Group may be dissolved by affirmative vote of 100% of the members in good standing of the Steering Committee at the time of the vote, by order of a court of competent jurisdiction, and/or by instruction of the Marion County Board of Commissioners. At the time of dissolution, all remaining documents, records, equipment and supplies belonging to the Working Group will be transferred to the Marion County Office of Emergency Management for disposition.

Introduction and Purpose

The purpose of the Marion County Local Mitigation Strategy is to identify how the key facilities, systems and areas of the community are vulnerable to the natural, technological and societal (man-made) hazards to which they are exposed. First, it is necessary to identify the hazards that are of concern and then to specifically define how the elements of the community are vulnerable to those hazards. This is the "hazard identification and vulnerability assessment process." After specific vulnerabilities are defined, specific mitigation initiatives to counteract those vulnerabilities can be proposed for implementation through the Strategy.

The hazard identification process defines the types of hazards that could impact this County and its communities, as well as the locations where those impacts could occur. With this information, the vulnerability assessment process identifies if and how the facilities, systems or areas within those designated locations may be damaged or made inoperable by an event.

This section of the Strategy reports on hazard identification and vulnerability assessment process. Both natural hazards and technological hazards and threats to the economic vitality of the community are reviewed. It should be noted that new hazard information and methods to utilize it become available on a continuing basis. Therefore, as the LMS planning process continues, additional or modified information will become available to the Working Group.

The primary document is a summary of recommended mitigation actions as highlighted by the experiences of Marion County with the major disasters of the recent past. Interagency Hazard Mitigation Review Team reports were assessed during the planning effort and recommendations made therein regarding mitigation actions that are needed were considered by the Working Group in the development of the Strategy.

Overview of the Hazard Identification Process

Marion County is exposed to many different types of natural, atmospheric, technological and societal hazards that vary significantly in location, scope and seriousness of their effects on the community. The Hazard Identification/Vulnerability analysis process used by the Working Group began by identifying weather related, natural, technological and societal hazards that could potentially impact the geographic area under investigation. Table VI-1 indicates those hazards considered common or having the potential to affect the County.

Table VI-1 Hazards Affecting Marion County				
Weather	Natural	Ecological	Technological/Societal	Health
Hurricane and Tropical Storm	Wildfire	Pest Infestation	Power Failure	Pandemic/Epidemic
Severe Winter Storm	Flood	Animal Disease	HazMat Incidents	Aging Population
Tornado	Drought		Urban Fire	
Extreme Heat	Sinkholes		Radiological	
	Riverine Erosion		Societal/Civic Evacuation	
			Mass Casualty	
			Traffic Related	
			Civil Disturbance	
			Terrorist Acts	

Depending on the characteristics of the hazard and its impact, substantial components of the general population, business community, public services, community institutions and utilities are vulnerable to damage. In considering the vulnerability of Marion County to disasters, it is important to emphasize that some facilities and the populations they serve are often more sensitive to the impacts of disasters than others. For the purposes of the Vulnerability Analysis and Risk Assessment requirements of the LMS, only the weather related, and natural hazards were analyzed. Ecological, technological, societal, and health related hazards remain applicable to Marion County; however, currently there are no set criteria for evaluating hazards not required by 44 CFR 201. At such times these review criteria are developed, they will be further analyzed in the LMS.

The vulnerability range of the community to disasters is very wide and depends on many factors. An ongoing role of the Working Group's Risk Assessment Subcommittee has been to undertake very specific analyses of the communities' vulnerabilities to support development of the Marion County LMS. Only by identifying specific vulnerabilities has the Working Group been able to define the specific mitigation initiatives for incorporation into the Strategy.

A key element in the planning process adopted by the Working Group is to use a methodical, comprehensive approach to define specific vulnerabilities of the community to disaster impacts. The steps in the Hazard Identification and Vulnerability Assessment Process are as follows:

1) Use the hazard identification process to define the hazards that can strike the County and where they could impact.
2) Use a geographic information system (GIS) database to document the location of the identified hazards.
3) Use this information to select key facilities, systems and neighborhoods at risk because they are in or near those locations.
4) Analyze their specific vulnerability of the selected facilities, systems and neighborhoods to the effects of the disaster events.

Hazards Overview

In 1988, the Robert T. Stafford Disaster Relief and Emergency Assistance Act was enacted to support state and local governments when disasters overwhelm local resources. This law, as amended, establishes a process for requesting and obtaining a Presidential Disaster Declaration, defines the type and scope of assistance available from the federal government, and sets the conditions for obtaining that assistance. The Federal Emergency Management Agency (FEMA), now part of the Emergency Preparedness and Response Directorate of the Department of Homeland Security, is tasked with coordinating the response. Since 1960, Marion County has received numerous presidential disaster declarations for such hazards as hurricanes, tornados, fires and severe freezes. Refer to Table VI-2 below.

Table VI-2 Presidential Disaster Declarations, 1960-2024		
Event	**Date**	**Declaration**
Hurricane Donna	9/12/1960	106
Hurricane Dora	9/10/1964	176
Hurricane Gladys	11/7/1968	252
Severe Winter Weather	1/31/1977	526
Severe Freeze	1/15/1990	851
Tornadoes, Flooding, High Winds	3/13/1993	982
Severe Storms, High Winds, tornadoes	1/6/1998	1195
Extreme Fire Hazard	6/18/1998	1223
Fires	4/2/1999	3139
Hurricane Frances	9/4/2004	1545
Hurricane Ivan	9/16/2004	1551
Hurricane Jeanne	9/2/2004	1561
Tropical Storm Fay	8/24/2008	1785
Hurricane Hermine	9/6/2016	4280
Hurricane Irma	9/5/2017	3385
Hurricane Ian	9/23/2022	4673
Hurricane Nicole	11/7/2022	4680
Hurricane Idalia	8/27/2023	4734
Hurricane Debby	8/1/2024	4806
Hurricane Helene	9/23/2024	4828
Hurricane Milton	10/5/2024	4834

Table VI-3 Hazard Matrix: Probability, Frequency, Impacts, and Spatial Extent				
Hazard-Natural	Probability	Impact	Frequency	Distribution
Drought	L	Min	N/A	Countywide
Flood	H	Mod	1 event per year	Flood plains
Riverine Erosion	L	Min	N/A	Riverine basins
Tornado	M	Severe	1 event per 3 years	Countywide
Hurricane and Tropical Storm	L	Severe	1 event per 10 years	Countywide
Wildfire	M	Severe	Several events per year	Rural areas
Extreme Heat	L	Min	N/A	Countywide
Sinkholes	M	Mod	Several events per year	Countywide
Severe Winter Storm	L	Min	N/A	Countywide

Source: National Climatic Data Center

H = High – 1 event recorded per 1-4 years
M = Moderate – 1 event recorded per 5-9 years.
L = Low – 1 event recorded per 10+ years.
N/A = No recorded events or insufficient data.
Min = 1-25% of the total structure/infrastructure is damaged because of the hazard
Mod =25-50% of the total structure/infrastructure is damaged because of the hazard
Severe = 50-100% of the total structure/infrastructure is damaged because of the hazard

Table VI-5. Hazard Matrix: Hazard Extent		
Hazard	**Effect**	**Observation**
Drought	Severity of the drought index?	The worst possible drought event Marion County could experience would be a Category D0 drought, as measured by the Keetch-Byram Drought Index, Some lingering water deficits and slow recovery of pastures or crops while coming out of the drought. Resulting in short-term dryness, slowed planting and growth of crops or pastures.
Flooding	How deep would the flooding be and what is the potential for property damage and loss of life?	During the 100-year flood, water can exceed normal levels by 1 to 5 feet. There are 19,049 parcels in Marion County located within the 100-year Flood Plain. The total assessed value of these parcels is approximately $4,581,189,526. The worst possible single flooding event could cause $600K of property damage and cause 1 injury.
Riverine Erosion	What is the potential for property damage and loss of life?	Approximately 364 improved parcels are located within 25 feet of rivers in Marion County. The total assessed value of these parcels is approximately $88,442,783. In the event of a 500-year flood or another similarly exceedingly rare hydrological event, riverine erosion may occur and affect 1-2 meters of riverbank. Most impacts from such an event would primarily occur on the more developed portions of the Rainbow River. No injuries or loss of life are expected because of river erosion.
Hurricane and Tropical Storm	What category on the Saffir Simpson Scale could impact the jurisdictions?	Potential Category Three Hurricane causing some structural damage to small residences and utility buildings with a minor amount of curtain wall failures. Mobile homes are destroyed.
Tornado	What category on the Fujita Scale could impact the jurisdictions?	Potential F-3 Tornado causing intense damage and destruction within the confined path of the storm.
Sinkholes	What is the maximum potential depth and diameter of a sinkhole?	Sinkholes can be as large as 100' in length by 100' in width and approximately 60' in depth.
Wildfire	What is the potential property damage and How many acres could be expected to burn?	Wildfires can occur as often as 2,218 times each year and can burn approximately 1,359.7 acres. A single wildfire event could damage up to $100K of property.
Extreme Heat	What is the maximum temperature to expect?	The maximum temperature that can be expected is 109 degrees with the possible loss of 1 life.
Severe Winter Storm	What is the minimum temperature to expect?	In 2010 temperatures were at 32 degrees for ten days. A period of two weeks with temperature lows at 32 degrees can be expected. The loss of 1 life is expected.

Hurricane and Tropical Storms

A. Description of Hurricanes and Windstorms

A hurricane is a tropical cyclone, occurring in the Atlantic Ocean or the Northeast Pacific Ocean, east of the International Dateline. Hurricanes are characterized by a large low-pressure center and numerous thunderstorms that produce strong winds and heavy rain. They feed on heat released when moist air rises, resulting in condensation of water vapor contained in the moist air.

Because of its subtropical location and long coastline, Florida is particularly susceptible to hurricanes. The greatest threats posed by a hurricane are storm surge, wind damage and inland flooding. Apart from a few homes on the western shore of Lake George, Marion County communities need only be concerned about the latter two.

Wind damage from the storm itself is related to wind speed and the accompanying "pressure" that is exerted on structures when the wind speed doubles, four times more force is exerted on structures. Wind damage is also caused by hurricane spawned tornadoes. Tornadoes often form on the leading edge of a hurricane and can be more destructive than the hurricane itself. Tornadoes may even form in the relatively weak hurricanes, often causing much or more damage than the parent storm. It is extremely important for residents in flood prone areas of the County to keep track of a storm as it passes over all local and regional drainage basins. Rainfall varies with each hurricane, however, on average, the normal hurricane has between ten and twelve inches of rain.

Hurricane extent is measured using the Saffir-Simpson Hurricane Scale. The scale was developed to make comparisons easier and to make the predicted hazards of approaching hurricanes clearer to emergency managers, National Oceanic and Atmospheric Administration's hurricane forecasters use a disaster-potential scale which assigns storms to five categories. This can be used to give an estimate of the potential property damage and flooding expected along the coast with a hurricane.

Table VI-6. Saffir-Simpson Hurricane Scale		
Category	**Winds**	**Effects**
One	74-95 mph	No real damage to building structures. Damage primarily to unanchored mobile homes, shrubbery, and trees. Also, some coastal road flooding and minor pier damage
Two	96-110 mph	Some roofing material, doors, and window damage to buildings. Considerable damage to vegetation, mobile homes, and piers. Coastal and low-lying escape routes flood 2-4 hours before arrival of center. Small crafts in unprotected anchorages break moorings.
Three	111-130 mph	Some structural damage to small residences and utility buildings with a minor amount of curtain wall failures. Mobile homes are destroyed. Flooding near the coast destroys smaller structures with larger structures damaged by floating debris. Terrain continuously lower than 5 feet ASL may be flooded inland 8 miles or more.
Four	131-155 mph	More extensive curtain wall failures with some complete roof structure failure on small residences. Major erosion of beach. Major damage to lower floors of structures near the shore. Terrain continuously lower than 10 feet ASL may be flooded requiring massive evacuation of residential areas inland as far as 6 miles.
Five	greater than 155 mph	Complete roof failure on many residences and industrial buildings. Some complete building failures with small utility buildings blown over or away. Major damage to lower floors of all structures located less than 15 feet ASL and within 500 yards of the shoreline. Massive evacuation of residential areas on low ground within 5 to 10 miles of the shoreline may be required.

B. Location and Extent

All of Marion County would be vulnerable to hurricane damage from high winds, rain induced flooding and hurricane-spawned tornadoes. The greatest threat from wind and tornadoes will be to those living in structurally unsound housing and mobile homes. Even though most regulations require that mobile homes be anchored to withstand high winds, with "over the top" and frame tie downs, their anchoring systems are usually designed to withstand wind velocities of only 70 to 100 miles per hour. The mobile homes themselves are usually designed to withstand winds up to only sixty miles per hour, thus, even with an advanced tie down system, the structure itself could be destroyed. Using a hazard modeling program, the peak wind gusts speed has been projected for various hurricane events for each census

tract in Marion County. Refer to Appendix A, “Wind Speed by Census Tract”.

Hurricane induced flooding would also present problems for low-lying areas of Marion County filling up too fast, especially along the Ocklawaha River in east Marion County and the Withlacoochee River in southwest Marion County. Also, water retention areas overflowing create flooding problems. Many of the lakes would be impacted as well, although drainage wells or improved drainage systems have mitigated problems in these areas somewhat. Both Marion County and the City of Ocala maintain federally provided flood maps which show the 100-year flood prone areas of Marion County. The Marion County area will meet the 100-year flood level if 10.0 inches of rainfall occur within a twenty-four-hour period.

Table VI-7-Thunderstorm Wind Events 2000-2024						
Location	Date	Time	Event Type	Magnitude (Knots)	Fujita Scale (Tornado)	Propert Damage
Orange Springs	7/7/2000	1824	Storm/Wind	No Report	N/A	$50,000

C. Description of Vulnerabilities

Roads leading into the metropolitan area have been submerged at various points (such as SR 40 and CR 35 in east Marion County and SR 40 in the Ocala National Forest). This hinders evacuation and/or emergency response capabilities, especially evacuation from Volusia County and the coast. Hurricane force winds could occur throughout the County making mobile homes a general county-wide vulnerability.

The HAZUS-MH model calculates loss estimates for hurricanes that can be used to demonstrate the cost effectiveness of mitigation measures. In Marion County, most of the building exposure (approximately 70%) is in the residential category. A projection of direct economic loss by storm event for both property damage and building interruption is shown in Table VI-9. This data indicates that for a 100-year storm, total building related economic losses could exceed one billion dollars. Projected estimates of building damage, debris created, and shelter requirements are also provided in the HAZUS model and shown in Table VI-10 below.

The 100-year return period hurricane approximates a Category 2 storm on the Saffir-Simpson Hurricane Scale. Marion County has not experienced a storm greater than a Category 2 hurricane since historical storm data collection began in 1900.

Table VI-9 Building Exposure by Occupancy Type		
Occupancy	**Exposure ($1,000)**	**Percent of Total**
Residential	± 40,434,904	± 70.4%
Commercial	± 3,914,118	± 6.8%
Industrial	± 2,046,515	± 3.6%
Agricultural	± 7,249,470	± 12.6%
Religious	± 529,417	± 0.9%
Government	± 2,479,144	± 4.3%
Education	± 741,617	± 1.3%
Total	± 57,395,186	± 100.0%

Table VI-10 Building Related Economic Losses (thousands of dollars)					
Event Type	**10-Year**	**20-Year**	**50-Year**	**100-Year**	**500-Year**

Table VI-11 Potential Hurricane Impacts by Event Type					
	Event Type				
	10-Year	20-year	50-Year	100-Year	500-Year
Building Damage					
Buildings At Least Moderately Damaged	± 4	± 58	± 1,320	± 7,376	± 47,109
Buildings Completely Destroyed	± 0	± 0	± 39	± 298	± 4,848
Essential Facilities At Least Moderately Damaged	± 0	± 0	± 2	± 2	± 62
Debris					
Tons of Debris Generated	± 190,709	± 500,162	± 1,315,651	± 2,213,199	± 4,278,936
Shelter Requirements					
Households Displaced	± 0	± 2	± 224	± 901	± 8,125
People Displaced (PPH=2.6)	±0	±5	±584	±2,349	±21,182
Estimated Shelter Demand (15% of People Displaced)	±0	±1	±88	±352	±3,177
Equivalent Households for Shelter	±0	±0	±34	±135	±1,219

People and shelter estimates: Households displaced were converted to people displaced using a Marion County BEBR derived people-per-household (PPH) value of **2.607**. Estimated shelter demand assumes **15%** of displaced persons will seek public shelter. Equivalent households for shelter were calculated by dividing persons by the BEBR PPH. All person and shelter numbers are planning-level estimates and are shown as ± to indicate uncertainty.

D. Vulnerable Critical Facilities

A rough estimate of critical facility vulnerability can be found in the Hazus-MH Hurricane Event report. Critical or essential facilities include fire stations, hospitals, police stations, and schools. For a 100-year hurricane event of the 240 facilities classified as essential facilities by the model, an estimated one facility will have at least moderate damage. It is projected that 186 facilities will have an expected loss of use greater than one day. No facilities are projected to have complete damage, i.e. damage greater than 50% of total value.

E. Probability

Return periods have been calculated using several methodologies which can be used in risk analysis. However, the overriding assumption for hazard mitigation is that hurricanes do strike Florida each year and will affect Marion County at some point in the future. Return periods are shown below.

Table VI-12 - Hurricane Return Periods for the Withlacoochee Region

Area	TS	CAT 1	CAT 2	CAT 3	CAT 4	CAT 5
Withlacoochee Region	6.29	13.73	37.87	75.75	NDE	NDE
100 Mile Radius Affecting Region	1.42	3.43	6.04	8.39	37.87	NDE
Citrus	29.59	37.87	151	151	NDE	NDE
Hernando	15.11	50.5	NDE	151	NDE	NDE
Marion	10.79	37.87	151	NDE	NDE	NDE
Marion	12.59	25.19	75.75	NDE	NDE	NDE
Sumter	13.74	151	75.75	151	NDE	NDE

NDE: No Direct Effect

Note: This data represents the predicted interval between storms, not the number of years since the last storm of any specific category. "NDE" No Direct Effect, indicates a hurricane of this magnitude has not crossed the county or region.

F. History

Shown in Map VI-1 are the tracks of hurricanes in Marion County from 1843-2025 when map is updated This graphic illustrates that hurricane wind vulnerability is countywide. However, none of these hurricane tracks showed winds over 100 knots. Therefore, structural damage from hurricanes in Marion County is expected to be limited to mobile homes and other vulnerable structures.

This countywide history of hurricanes and tropical storms provides information on damages done by
Florida's greatest weather threat.

September 9-12, 1964, Hurricane Dora: Hurricane Dora crossed Florida from east to west before turning to southern Georgia. On September 13-16, Dora produced over 20 inches of rainfall and caused flooding throughout one-third of the state of Florida, extensively affecting the St. Mary's, Santa Fe and Steinhatchee River basins. An estimated $150 million in losses were reported, affecting residential, commercial and agricultural operations.

September 10-11, 1990, Hurricane Donna: Hurricane Donna crossed the central Florida Keys before curving northward along Florida's West Coast, passing over Naples and Fort Myers before continuing across the central peninsula. The storm produced 10 to 12 inches of rain and caused wind and coastal flooding damages estimated at $150 million.

October 7-8, 1996, Tropical Storm Josephine: Tropical Storm Josephine impacted Florida's West Coast with 70 mph winds before exiting through the northeast portion of the state. Sixteen counties experienced extensive damage, with losses estimated to be nearly $45 million.

August 13, 2004, Hurricane Charley: H u r r i c a n e Charley made landfall at Cayo Costa, a barrier island just west of Cape Coral, as a Category 4 storm at approximately 3:45 PM EDT on Friday, 13 August 2004. Winds were estimated at 145 mph, with a minimum central pressure of 941 millibars. A 7-foot storm surge was recorded in Fort Myers at 3:45 PM EDT, around the time of landfall. In the Naples area, the maximum storm tide (the combination of normal tide level plus storm surge) was about 10 to 11 feet above mean sea level. The worst storm tide was north of Naples from Vanderbilt Beach to the Lee County line. In this area, the maximum storm tide was about 10 to 13 feet above mean sea level. Charley took approximately nine hours to traverse the Florida peninsula. It was the strongest hurricane to make landfall in the state since Hurricane Andrew in 1992. Just under 36 hours prior to Charley's landfall, Tropical Storm Bonnie struck the Florida Panhandle near Apalachicola. Not since 1906 have two storms struck the state of Florida so close together since 1906.

September 5, 2004, Hurricane Frances: The large eye of Hurricane Frances made landfall near Sewall's Point, Florida (in the vicinity of Stuart, Jensen Beach, and Port Salerno), as a Category 2 storm at approximately 1 AM EDT on Sunday, 5 September 2004. Winds were estimated at 105 mph, with a minimum central pressure of 960 millibars. Frances then emerged into the Gulf of Mexico near Hudson shortly before midnight. Unlike Hurricane Charley, which will be remembered for wind damage, Frances will be remembered most for flooding, including freshwater (overland and river) and tidal (storm surge). Initial storm surge values include an estimate of 6 feet near Cocoa Beach to the north to near 8 feet around Vero Beach to the south.

September 16, 2004, Hurricane Ivan: Ivan moved across the east-central Gulf of Mexico, making landfall as a major hurricane with sustained winds of near 120 m.p.h. on the 16th just west of Gulf Shores, Alabama. Ivan weakened as it moved inland, producing over 100 tornadoes and heavy rains across much of the southeastern United States, before merging with a frontal system over the Delmarva Peninsula on the 18th. While this would normally be the end of the story, the extratropical remnant low of Ivan split off from the frontal system and drifted southward in the western Atlantic for several days, crossed southern Florida, and re-entered the Gulf of Mexico on the 21st. The low re-acquired tropical characteristics, becoming a tropical storm for the second time on the 22nd in the central Gulf. Ivan weakened before it made its final landfall in southwestern Louisiana as a tropical depression on the 24th.

September 25, 2004, Hurricane Jeanne: The eye of Hurricane Jeanne made landfall near the southern end of Hutchinson Island, just east of Stuart, Florida, as a Category 3 storm at approximately 11:50 PM EDT on Saturday, 25 September 2004. Winds were estimated at 120 mph, with a minimum central pressure of 947 millibars. Many of the intense rain bands and strong winds were felt within two hours prior to landfall. Tropical Storm Jeanne slowly progressed across Citrus, Levy, Gilchrist, and Lafayette Counties on Sunday, hugging the coast of the Florida Big Bend, and positioning itself just east of the capitol in western Madison County by 5 AM EDT Monday morning. Radar rainfall estimates from 25 September to 27 September of 5 to 8 inches covered a large swath of east central Florida. The highest values occurred across southern sections of Brevard and Osceola Counties, where 11 to 13 inches of rainfall was estimated.

August 24, 2008, Tropical Storm Fay: Fay was a long-lived tropical storm that made eight landfalls – including a record four landfalls in Florida – and produced torrential rainfall that caused extensive floods across the Dominican Republic, Haiti, Cuba, and Florida. Heavy rainfall was the most notable hazard caused by Tropical Storm Fay. There were numerous rainfalls reports of more than 20 inches reported across east-central Florida and amounts more than 10 inches were common elsewhere across the central and northern Florida, southwestern Georgia, and southeastern Alabama.

September 6, 2016, Hurricane Hermine: Hurricane Hermine was the first hurricane to make landfall in Florida since Hurricane Wilma in 2005, and the first to develop in the Gulf of Mexico since Hurricane Ingrid in 2013. The ninth tropical depression, eighth named storm, and fourth hurricane of the 2016 Atlantic hurricane season, Hermine developed in the Florida Straits on August 28 from a long tracked tropical wave. The precursor system dropped heavy rainfall in portions of the Caribbean, especially the Dominican Republic and Cuba. After being designated on August 29, Hermine shifted northeastwards due to a trough over Georgia and steadily intensified into an 80 mph Category 1 hurricane just before making landfall in the Florida Panhandle during September 2. After moving inland, Hermine quickly weakened and transitioned into an extratropical cyclone on September 3 near the Outer Banks of North Carolina. The remnant system meandered offshore the Northeastern United States before dissipating over southeastern Massachusetts on September 8.

September 5, 2016, Hurricane Irma: Hurricane Irma was an extremely powerful Cape Verde hurricane that caused widespread destruction across its path in September 2017. Irma was the first Category 5 hurricane to strike the Leeward Islands on record, followed by Maria two weeks later. At the time, it was considered as the most powerful hurricane on record in the open Atlantic region, outside of the Caribbean Sea and Gulf of Mexico until it was surpassed by Hurricane Dorian two years later. It was also the third strongest Atlantic hurricane at landfall ever recorded, just behind the 1935 Labor Day Hurricane and Hurricane Dorian.

Irma developed from a tropical wave near the Cape Verde Islands on August 30. Favorable conditions allowed Irma to rapidly intensify into a Category 3 hurricane on the Saffir–Simpson wind scale by late on August 31. The storm's intensity fluctuated between Categories 2 and 3 for the next several days, due to a series of eyewall replacement cycles. On September 4, Irma resumed intensifying, becoming

a Category 5 hurricane by early on the next day. Early on September 6, Irma peaked with 1-minute sustained winds of 180 mph and a minimum pressure of 914 hPa. Irma was the second-most intense tropical cyclone worldwide in 2017 in terms of barometric pressure, and the strongest worldwide in 2017 in terms of wind speed. Another eyewall replacement cycle caused Irma to weaken back to a Category 4 hurricane, but the storm re-attained Category 5 status before making landfall in Cuba. Although Irma briefly weakened to a Category 2 storm while making landfall in Cuba, the system re-intensified to Category 4 status as it crossed the warm waters of the Straits of Florida, before making landfall on Cudjoe Key September 10. Irma then weakened to Category 3 status, prior to another landfall in Florida on Marco Island later that day. The system degraded into a remnant low over Alabama and ultimately dissipated on September 13 over Missouri.

August 30, 2019, Hurricane Dorian: Hurricane Dorian was an extremely powerful and devastating Category 5 Atlantic hurricane, which became the most intense tropical cyclone on record to strike the Bahamas, and is also regarded as the worst natural disaster in the country's recorded history. It was also one of the most powerful hurricanes recorded in the Atlantic Ocean in terms of 1-minute sustained winds, with those winds peaking at 185 mph (295 km/h). In addition, Dorian surpassed Hurricane Irma of 2017 to become the most powerful Atlantic hurricane on record outside of the Caribbean Sea. Dorian was the fourth named storm, second hurricane, the first major hurricane, and the first Category 5 hurricane of the 2019 Atlantic hurricane season. Dorian struck the Abaco Islands on September 1 with maximum sustained winds of 185 mph (295 km/h), tying with the 1935 Labor Day hurricane for the highest wind speeds of an Atlantic hurricane ever recorded at landfall. Dorian went on to strike Grand Bahama at similar intensity, stalling just north of the territory with unrelenting winds for at least 24 hours. The resultant damage to these islands was catastrophic; most structures were flattened or swept to sea, and at least 70,000 people were left homeless. After it ravaged through the Bahamas, Dorian proceeded along the coasts of the Southeastern United States and Atlantic Canada, leaving behind considerable damage and economic losses in those regions.

Dorian developed from a tropical wave on August 24 over the Central Atlantic. The storm moved through the Lesser Antilles and became a hurricane north of the Greater Antilles on August 28. Dorian proceeded to undergo rapid intensification over the following days, before reaching its peak as a Category 5 hurricane with one-minute sustained winds of 185 mph (295 km/h) and a minimum central pressure of 910 millibars (26.87 inHg) by September 1. It made landfall in the Bahamas in Elbow Cay, just east of Abaco Island, and again on Grand Bahama several hours later, where it remained nearly stationary for the next day or so. After weakening considerably, Dorian began moving northwestward on September 3, parallel to the east coast of Florida. Dwindling in strength, the hurricane turned to the northeast the next day and made landfall on Cape Hatteras at Category 2 intensity on September 6. Dorian transitioned into an extratropical cyclone on September 7, before striking first Nova Scotia and then Newfoundland with hurricane-force winds on the next day. The storm finally dissipated near Greenland on September 10.

March 25, 2020, Covid-19: The COVID-19 pandemic, also known as the coronavirus pandemic, is an ongoing pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). It was first identified in December 2019 in Wuhan, China. The World Health Organization declared the outbreak a Public Health Emergency of International Concern in January 2020 and a pandemic in March 2020. As of 29 January 2021, more than 101 million cases

have been confirmed, with more than 2.19 million deaths attributed to COVID-19. State of Florida confirmed cases numbered 1,687,594 with 26,035 deaths and Marion County numbered 24,012 confirmed cases with 574 deaths.

November 11, 2020, Hurricane Eta: Hurricane Eta was the record-tying twenty-eighth named storm, twelfth hurricane and fifth major hurricane of the extremely active 2020 Atlantic hurricane season, Eta originated from a vigorous tropical wave in the eastern Caribbean Sea on October 31. The system rapidly organized as it progressed west, with the cyclone ultimately becoming a Category 4 hurricane on November 3. With a peak intensity of 150 mph (240 km/h) and 923 mbar (hPa; 27.26 inHg), it was the third most intense November Atlantic hurricane on record, behind the 1932 Cuba hurricane and Hurricane Iota which formed just two weeks later. Some weakening took place as the system made landfall near Puerto Cabezas, Nicaragua, late that same day. Eta rapidly weakened to a tropical depression as it meandered across Central America for two days, before moving north over water. The storm later reorganized over the Caribbean as it accelerated toward Cuba on November 7, making a second landfall on the next day. Over the next five days, the system moved erratically, making a third landfall in the Florida Keys, on November 9, before slowing down and making a counterclockwise loop in the southern Gulf of Mexico, just off the coast of Cuba, with the storm's intensity fluctuating along the way. After briefly regaining hurricane strength on November 11, the system weakened back to a tropical storm once more, before making a fourth landfall on Florida on the next day and proceeding to accelerate northeastward. Eta subsequently became extratropical on November 13, before dissipating off the coast of the Eastern United States on the next day.

Once the system began to reorganize in the Caribbean, tropical storm watches were issued on November 5, in the Cayman Islands. More watches were issued in parts of Cuba, the northwestern Bahamas, and South Florida. Eta brought heavy rainfall and gusty winds to the Cayman Islands and Cuba, the latter of which was already dealing with overflowing rivers that prompted evacuations. Heavy rainfall and tropical-storm force winds were recorded across all the Florida Keys, South Florida and the southern half of Central Florida, bringing widespread flooding. Eta's second approach and landfall brought storm surge and gusty winds to the west coast of Central Florida and supplemental rainfall to northern Florida. One person was killed in Florida after being electrocuted in floodwaters from Eta.

August 4, 2024, Hurricane Debby: Hurricane Debby originated off the coast of Africa as a tropical wave between July 25 and July 26. Debby evolved into a tropical depression near Cuba on August 3rd. When the storm emerged in the Gulf of Mexico it rapidly intensified due to a weak wind shear and higher than average gulf temperatures. On August 5 Debby became a hurricane 90 miles Northwest of Tampa, although it encountered some shear from a deep layer trough over the eastern United States weaking Debby slightly, it made landfall west of Steinhatchee. After landfall, Debby quickly dissipated into a tropical storm as it moved across that panhandle and into Georgia. Debby produced peak storm surge levels of 4-5 feet and produced as much as 5-10 inches of rain over a large portion of Florida, with isolated areas in northern Florida receiving 12 inches of rain. Twenty-six tornadoes were spawned because of Debby occurring between August 4 and August 8. Eighteen fatalities can be contributed to Debby, 17 of those within the United States and one in Canada.

September 26, 2024, Hurricane Helene: Hurricane Helene was the strongest hurricane on record to directly hit Florida's big bend region, it also caused historic rainfall and flooding throughout Appalachian states. Helene originated from a tropical wave off the Caribbean Sea. The storm started

to become more organized on September 22, increasing the chances for tropical development, and by September 24 the storm became Tropical Storm Helene. The next day, Helene entered the Gulf of Mexico where it underwent rapid intensification due to higher-than-average gulf temperatures and became a hurricane at 11 am September 25. A high-pressure ridge over the Southeastern United States put Helene on a northward track. At this stage, Helene was expected to become a very large storm, in fact at one point Helene made history becoming one of the largest 10% of recorded storms. Interacting with favorable winds and ocean temperatures, Helene was able to strengthen to a category 4 hurricane, with maximum sustained winds of 140 mph. Helen made landfall around 11:10 pm September 26th, ten miles west-southwest of Perry, Florida. A central pressure based on the National Weather Service radar doppler was estimated to be somewhere near 938 millibars. Some Big Bend communities experienced historical surge levels as Hurricane Helene produced surges greater than 15 feet. Seventy percent of properties in this area were estimated by local emergency management to have been destroyed. Due to the speed with which Helene was traveling, catastrophic flooding was limited in areas across the Gulf Coast. However, Appalachia did experience catastrophic flooding as the storm moved across the United States, bringing with it 10-18 inches, and in some areas as much as 30 inches of rainfall. Helene was the deadliest hurricane to strike the mainland United States since Hurricane Katrina in 2005, resulting in at least 219 fatalities. Helene is estimated to have caused over $78.7 billion in damage. At the time of writing, a full report has not yet been completed by NOAA for a more comprehensive look at damage, costs, and fatalities.

October 9, 2024, Hurricane Milton: Hurricane Milton became a tropical depression in the Southwestern Gulf of Mexico on 10/05/2024 and was forecasted to become a strong storm with possibly life-threatening storm surges. Later that night Milton became a tropical storm with maximum sustained winds of 40 mph. The next day, hurricane hunters found Milton to be rapidly intensifying as it reached hurricane status, reaching winds of 85 mph. On October 7, Milton strengthened into a major hurricane and within a couple of hours became a strong category five hurricane with max wind speeds of 185 miles an hour reaching near record low pressure in the eye of the storm. Luckily for the East coast of Florida, Milton encountered increasing wind shear before making landfall near Siesta Key on October 9 as a category three storm. Due to Milton's large size, the wind effects were felt for large portions of Florida. Milton spawned at least 19 tornados and caused damage throughout the state from downed trees and powerlines. The northern side of the storm experienced heavy rains and localized flooding as rivers began to spill over their banks.

Floods

A. Description of Hazard

FEMA defines a flood as a general and temporary condition of partial or complete inundation of normally dry land areas from:

1) The overflow of inland or tidal waters.
2) The unusual and rapid accumulation or runoff of surface waters from any source.
3) Mudslides (i.e., mudflows) which are proximately caused by flooding and are akin to a river of liquid and flowing mud on the surfaces of normally dry land areas, as when earth is carried by a current of water and deposited along the path of the current.

A flood inundates a floodplain. Most floods fall into three major categories: riverine flooding, coastal flooding, and shallow flooding. Alluvial fan flooding is another type of flooding more common in the mountainous western states.

Florida historically and annually is affected by a large number of tropical weather systems. While storm surge has the greatest potential for loss of life, recent research indicates that inland flooding was responsible for the largest number of fatalities over the last 30 years. Studies show that 59 percent of the tropical cyclone deaths in the United States resulted from severe inland flooding.

Many parts of Florida are poorly drained, and, in fact, drainage improvements are often discouraged under the current regulatory structures. Florida's Water Management Districts have adopted policies to encourage percolation of rainfall into the ground wherever possible. Placing fill into low lying areas is also discouraged through regulatory means. These policies make flooding conditions and situations difficult to mitigate through drainage improvements or engineering solutions. Avoidance of low-lying areas is the most effective mitigation against flood damage.

B. Location and Extent

As a weather event, the location and/or extent of cumulative rainfall amounts can occur anywhere within the Central Florida area. Historical floods from other Florida locations are described below since Marion County is no less vulnerable than those other areas. Every jurisdiction in Marion County experiences a comparable amount of rainfall per year. The table below displays data collected from weather services around the County and includes annual average rainfall for each jurisdiction. Rainfall amounts that exceed these annual averages in excess of 2-3 inches are associated with higher risk of flooding, especially in vulnerable areas.

Table VI-13 Average Annual Rainfall

Jurisdiction	Rainfall (Inches)
Ocala	51.9
Marion County	51.3
Dunnellon	53.4
McIntosh	50.7
Belleview	52.3
Reddick	50.8

Dam failure can also cause flood damage. The only dam with a potential threat to Marion County is the Moss Bluff Dam on the upper Ocklawaha River. However, failure at the Moss Bluff Dam would be expected to cause minimal property damage due to the large amount of publicly owned preservation land throughout the large marsh complexes of the upper Ocklawaha River.

C. Description of Vulnerabilities

For Florida flooding is a continuous problem. While flooding results from either storm surge associated with hurricanes, riverbank overflow or ponding, it is the latter two that represent a hazard to Marion County. Any structure type that is located within a flood zone and is not elevated or is not protected by levees, beams, or floodwalls is vulnerable to flood damage.

Heavy rains and the subsequent inability of a river to accommodate the added runoff almost always cause flooding resulting from riverbank overflow. There are several areas within Marion County that would be similarly affected, including the Ocklawaha and Withlacoochee Rivers. This problem is compounded when heavy rains fall simultaneously in counties surrounding Marion County, thus adding to the volume of runoff received by local rivers. Ponding occurs in low areas that are either poorly drained or supersaturated soils (high water table). This type of chronic flooding is prevalent in all areas of the County where the drainage basins are located.

A watershed management program (WMP) has been implemented county-wide and provides a holistic view of both water quality and quantity problems. There are 22 watersheds on the Southwest Florida Water Management District (SWFWMD) side of the county and 10 planning units on the (St. Johns Water Management District (SJRWMD) side of the county. Refer to Map VI-8.

The WMP provides mapping of the stormwater management system which identifies where stormwater runoff flows, what type of land uses the runoff flows over, and where the runoff discharges whether to surface water or groundwater. Key documents generated from the WMP are the Floodplain Level of Service (LOS) Report, the Surface Water Resource Assessment (SWRA) Report and the Capital Projects Report. The Floodplain LOS Report identifies flood prone areas throughout the county and assigns a LOS based on the storm event at which a road floods. The SWRA Report provides water quality and quantity trends within the watershed and identifies areas of concern based on discharge locations, pollutant load, etc. The Capital Projects Report identifies corrective actions to mitigate locations of concern found in the SWRA.

In 2017, FEMA updated the Flood Insurance Rate Maps (FIRM) to reflect new data. As a result, there are additional properties now included in flood zones in the County. Map VI-2 shows the location of the FIRM Flood Zones for Marion County. Flood prone areas in the County are shown on Map VI-3.

D. Vulnerable Critical Facilities

Vulnerable Critical Facilities located within the FEMA 100-year floodplain are listed above in the discussion of hurricane vulnerabilities.

E. Probability

Like other weather events included in this section, the rainfall amounts that cause flood conditions are considered a part of the Central Florida climate. Often heavy rainfall is isolated in a small area of a few square miles with severe results that require shelter activation. The probability of severe rainfall events to be a hazard situation is high, as these conditions are met at least once per year, especially in vulnerable areas.

F. History

A history of known flood events is presented in Table VI-14, below.

Table VI-14 Historical Flood Events in Marion County 1994-2024

Location or County	Date	Type	Deaths	Injuries	Property Damage
Ocklawaha	6/16/1994	Flash Flood	0	1	$5,000

Wildfire

A. Description of Hazard

A wildfire is an uncontrolled fire that spreads through vegetative fuels. Vegetative fuels include those that are characteristic of wildlands, such as trees, grasses, understory growth, and ground litter; and those that are purchased at nurseries for home or community landscaping purposes, including trees, mulch, grasses, and ornamental plants. In addition to the presence of fuel, the occurrence and severity of wildfires are governed by weather, such as high temperatures, low humidity, high winds, and drought conditions; and topography (for example, canyons and gulches act as chimneys, intensifying fires in certain areas). Different combinations of these factors contribute to the potential severity of wildfires.

In the wildland/urban interface, buildings and other human development intermingle with vegetative fuels, exposing the development to potential fire damage when wildfires occur. Other factors that affect the vulnerability of development to wildfire are location, weather conditions during the wildfire, and the fire-suppression capabilities of local response agencies.

Wildfires can be a natural or a man-made hazard. Wildfires have burned across the woodlands of Florida for centuries and are part of the natural management of much of Florida's ecosystems. Wildfires caused by lightning are common in Central Florida, especially in association with weather patterns that create intense thunderstorms.

Forest fires from lightning only account for a small percentage of Florida's wildfires. People are still the leading cause of wildfires in Florida. Human activities causing wildfires include escaped nonauthorized pile burns, escaped non-authorized and authorized yard trash burns, and ignition by misuse of agricultural equipment. Potentially, any human activity that employs combustion can start wildfire.

B. Location and Extent

Table VI-15 Marion County Wildfire Data

Year	Number of fires	Acres burned	Most common fire-cause	Second most common fire-cause	Third most common fire cause
Last ten years	425	4,522	Lightning	Non-authorized debris burn- Yard Trash	Non-authorized debris burn-piles
2019	29	144	Non-authorized debris burn- piles	Non-authorized debris burn- Yard Trash	Lightning
2020	45	596	Non-authorized debris burn- piles	Non-authorized debris burn- Yard Trash	Lightning
2021	40	228	Non-authorized debris burn- piles	Non-authorized debris burn- Yard Trash	Lightning
2022	57	256	Non-authorized debris burn- piles	Non-authorized debris burn- Yard Trash	Lightning

Source: Florida Department of Forestry

C. Description of Vulnerabilities

Dry weather and drought conditions are major contributing factors in the size and severity of a wildfire. Fuel load is a factor in fire intensity and speaks to the need for well managed forest lands. As stated previously, Marion County has a large rural population. Those people and facilities located in rural, wooded areas are particularly vulnerable to wildfire. Subdivisions should be designed using Fire Wise principles and homeowners need to create at least 30 feet of cleared area around the house for defensible space. This house-by-house mitigation strategy will be the most effective means to reduce the level of wildfire vulnerability in Marion County due to the large size of the County and the rural distribution of the unincorporated population.

D. Vulnerable Critical Facilities

While the Ocala National Forest comprises less of the Marion County Forest areas, it is considered the area of greatest vulnerability in Marion County. The boundaries of the western edge of the Forest are not defined by a clear line of ownership but are scattered with out-parcels of residential use. There are several clusters of significant populations located within the Forest boundaries. These populations and the critical facilities located in or near the Ocala National Forest are vulnerable to wildfires. Appropriate mitigation can come in the form of enhanced warning systems and the establishment of defensible spaces around all structures.

E. Probability

Florida's typical fire season is from January through May. The potential for wildfires increases dramatically during relatively dry months. These dry months, combined with low humidity and high winds, result in the highest number of reported fires. The largest number of lightning-caused fires occurs in July, coinciding with the peak of the thunderstorm season. Central Florida is known for the greatest concentration of cloud-to-ground lightning strikes in the world.

The wildfire potential map labeled Map VI-4 was created by using the Florida Wildland Fire Risk Assessment web application. Each of the 90-meter analysis areas were assigned a risk level between 1-9 based on the ability of a fire to start and spread in a given terrain type as well as fire spreading potential during a dry climatic year.

F. History

The following table provides a summary of wildfire incidents in Marion County between July 7, 1998, and May 9, 2023, including their locations, dates, associated injuries, fatalities, and property damage. During this period, no fatalities were reported, one injury occurred, and total property damage was estimated at $100,000.

Table VI-16 Historical Wildfire Events, Marion County 1998-2024

Location	Date	Type	Deaths	Injuries	Property Damage
OCALA	7/10/1998	Wildfire	0	0	$0

		Total	**0**	**1**	**$100,000**

Sinkholes

A. Description of Hazard

A sinkhole is a natural depression or hole in the surface topography caused by the removal of soil or bedrock, often both, by water. Sinkholes may vary in size from less than a meter to several hundred meters both in diameter and depth and vary in form from soil-lined bowls to bedrock-edged chasms. They may be formed gradually or suddenly and are found worldwide.

Sinkholes are a common feature of Florida's landscape. They are only one of many kinds of karst landforms, which include caves, disappearing streams, springs, and underground drainage systems, all of which occur in Florida. Karst is a generic term which refers to the characteristic terrain produced by erosional processes associated with the chemical weathering and dissolution of limestone or dolomite, the two most common carbonate rocks in Florida. Limestone in Florida is porous, allowing the acidic water to percolate through their strata, dissolving some limestone and carrying it away in solution. Over eons of time, this persistent erosional process has created extensive underground voids and drainage systems in much of the carbonate rocks throughout the state. Collapse of overlying sediments into the underground cavities produces sinkholes.

"Catastrophic ground cover collapse" is defined as "geological activity that results in all of the following: 1). The abrupt collapse of the ground cover; 2). A depression in the ground cover clearly visible to the naked eye; 3). Structural damage to the building including the foundation; and 4). The insured structure being condemned and ordered to be vacated by the government agency authorized by law to issue such an order for that structure."

Sinkholes are one of Florida's predominant landform features. Development may be sudden and result in property damage or loss of life. Florida has more sinkholes than any other state in the nation. However, most sinkholes that are of a size or location to be considered a hazard, progress to their maximum size over 2 to 3 days giving ample time for evacuation of structures and appropriate levels of emergency response. Florida's average sinkhole size is 3 to 4 feet across, 4 to 5 feet deep.

B. Location and Extent

All jurisdictions in Marion County are susceptible to sinkhole events.

The eastern half of Marion County is sparsely populated and mainly consists of the Ocala National Forest. Geologically, the "Hawthorn Layer," which is an impermeable layer of clay over the aquifer, underlies this area and significantly reduces the likelihood of sinkholes. The Hawthorn layer also reduces the vulnerability of the aquifer as our drinking water supply.

The western half of Marion County is a high recharge area of permeable sands and an "unconfined aquifer" with an increased vulnerability to HAZMAT spills. The material covering the aquifer is 30 to 200 feet thick, consisting mainly of in-cohesive and permeable sand. Sinkholes develop gradually and are small, shallow and few. Sinkhole sizes in Marion County range from over 200' to less than 10' wide however, most sinkholes fall into the under 10' wide range. Most sinkholes in the County are in the most populous areas, increasing the risk from a large sinkhole forming in an urbanized area.

C. Description of Vulnerabilities

Marion County sinkhole potential is mainly focused in the urbanized area around Ocala. Areas in the Ocala National Forest show no vulnerability. Any type of structure is vulnerable to sinkholes. Vulnerability depends more on location and proximity of the structure to existing sinkhole formations than to the type of structure or building materials.

D. Vulnerable Critical Facilities

Vulnerable critical facilities are those facilities that are near or adjacent to existing sinkhole activity. There are no known vulnerable critical facilities currently.

E. Probability

Marion County averages approximately 12 sinkhole events annually. Probability for sinkhole formation in Marion County is generally low throughout the County except for a central area within the City of Ocala boundaries where chances for sinkhole formation are higher due to a greater concentration of karst geology and more permeable soil conditions than in other areas. Shown in Map VI-5 is an analysis of sinkhole vulnerability provided by MEMPHIS (Mapping for Emergency Management Parallel Hazard Information System). The methodology for determining risk potential relied mainly on proximity to existing sinkholes and other geologic features.

F. History

The Florida Geological Survey has recorded 412 sinkholes or subsidence incidents in Marion County. Refer to Appendix B.

Riverine Erosion

A. Description of Hazard

Riverine erosion is damage from water moving at a velocity fast enough to cut into the land and transport soil into the mainstream of the river or collapse the banks. Severe riverine erosion manifests as rapid, dramatic changes to the landscape, characterized by collapsing high banks, massive trees falling into the water, and significantly widened, muddy, or deepened channels. It often involves large-scale bank failure (mass wasting) and can destroy infrastructure like roads, bridges, and homes, particularly during high-flow flood events.

B. Location and Extent

The following rivers may be susceptible to riverine erosion.

- Unincorporated Marion County – Withlacoochee River, Rainbow River, Silver River, Ocklawaha River.
- City of Dunnellon – Rainbow River.

Riverine erosion requires swift moving water to create damage at a level to be considered a disaster. The small elevation drop of the Ocklawaha and the Withlacoochee River valleys do not allow for water to reach a velocity to create severe erosion. Riverine erosion is typically measured by the cubic meters of sediment erosion per year. Various models exist to predict the extent of riverine erosion including the factor of safety approach, bank erosion hazard index (BEHI) and near-bank stress (NBS).

C. Description of Vulnerabilities

Without the velocity to cause damage quickly, the potential erosion damage is by slow erosion over time. Vulnerable facilities are limited to structures that are in, or close to, the water at normal levels and flow rates, including bridges, dams, docks, and boat ramps. Certain residential structures that are built on pilings are also subject to erosion potential. Appropriate mitigation for erosion is periodic inspections of water related structures.

D. Vulnerable Critical Facilities

There are no critical facilities in the County that demonstrate an increased vulnerability to riverine erosion. Dunnellon City Hall is located on the Withlacoochee River but is well above flood stage.

E. Probability

Marion County has not experienced a riverine erosion event in recorded history. Probability is Low for erosion incidents on the Ocklawaha, Silver, and Rainbow Rivers in Marion County as they are all slow-moving rivers.

F. History

There is no known history of riverine erosion hazard events in Marion County.

Drought / Extreme Heat

A. Description of Hazard

Extreme Heat

A heat wave is a prolonged period of excessively hot weather, which may be accompanied by high humidity. A heat wave is measured relative to the usual weather in the area and relative to normal temperatures for the season. The term is applied both to routine weather variations and to extraordinary spells of heat which may occur only rarely. Worldwide, severe heat waves have caused catastrophic crop failures, thousands of deaths from hyperthermia, and widespread power outages due to increased use of air conditioning. A heat wave is considered extreme weather, and a danger because heat and sunlight may overheat the human body.

Heat kills by pushing the human body beyond its limits. In extreme heat and high humidity, evaporation is slowed, and the body must work extra hard to maintain a normal temperature. Most heat disorders occur because the victim has been overexposed to heat or has over-exercised for his or her age and physical condition. Older adults, young children, and those who are sick or overweight are more likely to succumb to extreme heat. Conditions that can induce heat-related illnesses include stagnant atmospheric conditions and poor air quality. Consequently, people living in urban areas may be at greater risk from the effects of a prolonged heat wave than those living in rural areas. Also, asphalt and concrete store heat longer and gradually release heat at night, which can produce higher nighttime temperatures known as the “urban heat island effect.”

Drought and heat waves are weather events and, like other weather-related hazards, are unpredictable. However, it is expected that droughts and heat waves are a normal part of the long-term weather pattern that is typical of Central Florida’s climate. These climatic conditions can be deadly to people and animals that are unable to escape the heat or hydrate their bodies properly. When temperatures reach 100+ degrees, special needs populations and households without air conditioning are vulnerable.

B. Location and Extent

All jurisdictions in Marion County are vulnerable to extreme heat and drought events.

C. History of Extreme Heat Occurrences

While summer days in Marion County can reach temperatures more than one-hundred degrees Fahrenheit, sustained periods of four or more consecutive days is not common. There are records of individual days and/or two-day events surpassing one-hundred degrees during the 2020-2024 time, but there were no recorded events of at least four or more days of sustained temperatures surpassing that threshold.

D. Description of Vulnerabilities to Extreme Heat Occurrences

Heat Index/Heat Disorders: Possible Heat Disorders for People in Higher Risk Groups.

- Heat Index of 130° OR Higher: heatstroke/sunstroke highly higher likely with continued exposure,
- Heat index of 105°- 130°: sunstroke, heat cramps or heat exhaustion likely, and heatstroke possible with prolonged exposure and/or physical activity.
- Heat index of 90°- 105°: sunstroke, heat cramps and heat exhaustion possible with prolonged exposure and/or physical activity.
- Heat index of 80° - 90°: fatigue possible with prolonged exposure and/or physical activity

Based on the latest research findings, the NWS has devised the "Heat Index" (HI), (sometimes referred to as the "apparent temperature"). The HI, given in degrees F, is an accurate measure of how hot it really feels when relative humidity (RH) is added to the actual air temperature.

Drought

A. Description of Hazard

Drought is a protracted period of deficient precipitation resulting in extensive damage to crops, resulting in loss of yield. Drought risk is based on a combination of the frequency, severity, and spatial extent of drought (the physical nature of drought) and the degree to which a population or activity is vulnerable to the effects of drought. The degree of a region's vulnerability depends on the environmental and social characteristics of the region and is measured by their ability to anticipate, cope with, resist, and recover from drought. Society's vulnerability to drought is determined by a wide range of factors, both physical and social, such as demographic trends and geographic characteristics. People and activities will be affected in different ways by different hazards. Understanding and reducing these vulnerabilities is essential in preparing for and dealing with drought.

B. Location and Extent

All jurisdictions in Marion County are vulnerable to extreme heat and drought events.

C. History

There have been no recorded drought events in Marion County in the past 10 years.

D. Description of Vulnerabilities

Crop loss is the greatest economic concern especially from those crops that are major exports. The vulnerability is greater in the various types of crops that are more susceptible to drought than others. Newly planted crops are extremely vulnerable to drought. Livestock must also be monitored and managed properly in cases of severe drought. Farmers in general are particularly affected by drought conditions as the water table falls, and deeper wells need to be drilled for irrigation purposes.

E. Vulnerable Critical Facilities

Of course, water supply is a great concern during a drought and utility managers must be prepared to protect it by instituting water restrictions when needed. During extended periods of extreme heat power supplies also may be depleted due to the widespread use of air conditioning systems. Appropriate mitigation for the potential loss of power is to maintain backup generators for critical facilities.

F. Probability

Map VI-6 shows the drought potential across the country. According to the data, Marion County is just outside the D0-D4 drought range indicating that while the County may not be prone to droughts, there is an increased probability for drought especially in the event of decreased rainfall.

The probability for extreme heat is low for Marion County. According to the National Weather Service, 3 deaths have been attributed to extreme heat in Florida between 2020 and 2023.

Despite the probability for a fatal extreme heat event being relatively low, Marion County does experience 90+ degree temperatures during the summer months thereby increasing the potential risk of less severe adverse but still serious effects from heat.

Table VI-18 Drought Severity Classification

Category	Description	Possible Impacts	Palmer Drought Index	CPC Soil Moisture Model (Percentiles)	USGS Weekly Streamflow (Percentiles)	Standardized Precipitation Index (SPI)	Objective Short- and Long-Term Drought Indicator Blends (Percentiles)
D0	Abnormally Dry	Going into drought: short-term dryness slowly planting, growth of crops or pastures. Coming out of drought: Some lingering water deficits; pastures or crops not fully recovered	-1.0 to -1.9	21-30	21-30	-0.5 to -0.7	21-30
D1	Moderate Drought	Some damage to crops, pastures, streams, reservoirs, or wells low, some water shortages developing or imminent; voluntary water-use restrictions	-2.0 to -2.9	11-20	11-20	-0.8 to - 1.2	11-20
D2	Severe Drought	Crop or pasture losses likely; water shortages common; water restrictions imposed	-3.0 to -3.9	6-10	6-10	-1.3 to -1.5	6-10

D3	Extreme Drought	Major crop/pasture losses; widespread water shortages or restrictions	-4.0 to -4.9	3-5	3-5	-1.6 to -1.0	3-5
D4	Exceptional Drought	Exceptional and widespread crop/pasture losses; shortages of water in reservoirs, streams, and wells creating water emergencies	-5.0 or less	0-2	0-2	-2.0 or less	0-2

Short-term drought indicator blends focus on 1–3-month precipitation. Long-term blends focus on 6-60 months. Additional indices used, mainly during the growing season, include the USDA/NASS Topsoil Moisture, Keetch-Byram Drought Index (KBDI), and NOAA/NESDIS satellite Vegetation Health Indices. Indices used primarily during the snow season and in the West include snow water content, river basin precipitation, and the Surface Water Supply Index (SWSI). Other indicators include groundwater levels, reservoir storage, and pasture/range conditions.

Tornado

A. Description of Tornado Hazards

According to the Glossary of Meteorology (AMS 2000), a tornado is "a violently rotating column of air, pendant from a cumuliform cloud or underneath a cumuliform cloud, and often (but not always) visible as a funnel cloud." A tornado is characterized by the isolated nature of extremely high winds of up to 500 mph. When compared with other states, Florida ranks 4th in the number of tornado events; 19th in tornado deaths; 11th in tornado injuries; and 18th in damages. These rankings are based upon data collected for all states and territories for tornado events between 1950-1995 (SPC, 2002). The northern portion of the state's Gulf Coast including Tampa and Tallahassee along with the Panhandle region have generally experienced more tornadoes than other areas of the state, primarily due to a higher frequency of thunderstorms making their way northeast through the Gulf of Mexico.

B. Location and Extent

Tornado extent is measured using the Enhanced Fujita Scale developed in 2007 and based on the original Fujita Scale. The Enhanced F-scale still is a set of wind estimates (not measurements) based on damage. The scale uses three-second gusts estimated at the point of damage based on a judgment of 8 levels of damage to the 28 indicators listed below.

Table VI-18 Enhanced F Scale Damage Indicators		
Number	**Damage Indicator**	**Abbreviation**
1	Small Barns, Farm Outbuildings	Sbo
2	One- Or Two-Family Residences	Fr12
3	Single-Wide Mobile Home (Mhsw)	Mhsw
4	Double-Wide Mobile Home	Mhdw
5	Apt, Condo, Townhouse (3 Stories Or Less)	Act
6	Motel	M
7	Masonry Apt. Or Motel	Mam
8	Small Retail Bldg. (Fast Food)	Srb
9	Small Professional (Doctor Office, Branch Bank)	Spb
10	Strip Mall	Sm
11	Large Shopping Mall	Lsm
12	Large, Isolated ("Big Box") Retail Bldg.	Lirb

26	Free Standing Pole (Light, Flag, Luminary)	Fsp
27	Tree - Hardwood	Th
28	Tree - Softwood	Ts

Table VI-19 Enhanced Fujita Scale						
Fujita Scale			Derived Ef Scale		Operational Ef Scale	
F Number	Fastest 1/4-Mile (Mph)	3 Second Gust (Mph)	Ef Number	3 Second Gust (Mph) 2	Ef Number3	3 Second Gust (Mph) 4
0	40-72	45-78	0	65-85	0	65-85
1	73-112	79-117	1	86-109	1	86-110
2	113-157	118-161	2	110-137	2	111-135
3	158-207	162-209	3	138-167	3	136-165
4	208-260	210-261	4	168-199	4	166-200
5	261-318	262-317	5	200-234	5	Over 200

Due to the unpredictable pattern of tornadoes, and because the entire state has a relatively high reoccurrence frequency, the entire County is vulnerable to tornado-induced damage. The MEMPHIS (Mapping for Emergency Management Parallel Information System) shows a level of increased tornado vulnerability for the southeast corner of the County, mostly in the Ocala National Forest.

C. Description of Vulnerabilities

The damage potential for a tornado increases as a function of population density. As the number of structures and people increase, the potential damage/injury rate increases. Mobile homes, poorly constructed or substandard housing apartment complexes are especially susceptible to damage from a tornado. Mobile homes and substandard housing are exceptionally susceptible because of their lack of resistance to high winds, apartment complexes and low rent projects because of their size and densities. All the incorporated municipalities, as well as the unincorporated urbanized area of Marion County are vulnerable.

D. Vulnerable Critical Facilities

Specific vulnerable facilities cannot be identified due to the unpredictable nature of tornadoes and based on the awesome destructive power. Mobile homes are of the greatest importance, but wood frame structures are also unable to withstand the intense winds of a tornado. Concrete block structures with wooden roof truss systems are also vulnerable. Appropriate mitigation for tornadoes is to construct a safe room specifically engineered for such use.

E. Probability

Marion County experienced 58 tornadoes between 1959 and 2024. Florida has averaged approximately 75 tornadoes per year since 1950, with an average of 3 deaths and 60 injuries per year. The MEMPHIS system using the TAOS model calculates the annual probability of tornado activity in the southeastern portion of Marion County with a medium risk at one chance in 250. The remainder of the County has a lower vulnerability score of 1 in 500 chances per year. Annualized losses for wind damages are calculated for all wind events, and a specific tornado damage estimate cannot be specified.

The annual probability of tornado activity in Marion County is depicted in Map VI-7.

F. History

Many tornadoes in Florida could have killed scores of people and caused millions of dollars in property damage, but most of these tornadoes did not hit heavily populated areas.

Severe Winter Storms

A. Description of Hazard

A winter storm is an event in which the dominant varieties of precipitation are forms that only occur at cold temperatures, such as snow or sleet, or a rainstorm where ground temperatures are cold enough to allow ice to form (i.e. freezing rain). A freeze is marked by low temperatures below the freezing point. Florida's agricultural production is seriously affected when temperatures remain below the freezing point. Marion County is in USDA Plant Hardiness Zone 9 and typically experiences freezing weather between December 15 and March 15. Other than agricultural losses, hazards include icy roads and bridges, power outages, structural damage from fallen trees and limbs, and exposure of humans and animals to extreme cold.

B. Location and Extent

All jurisdictions in Marion County are susceptible to the severe winter storm hazard. As a weather event, the location and/or extent of winter storm conditions could develop anywhere within Central Florida. Historical events from other Florida locations are included below because Marion County is no less vulnerable than those other areas that were severely affected by freeze or winter storms. The following table expresses wind chill, the combination of temperature and wind, to cool an object. The average winter temperature in Marion County in January is 58.6 degrees, however, the County experiences sub-freezing temperatures on average 3-4 times per year.

Table VI-21 Wind Chill Extent Temperature (F)

Calm	40	35	30	25	20	15	10	5	0	-5	-10
5	36	31	25	19	13	7	1	-5	-11	-16	-22

50	26	19	12	4	-3	-10	-17	-24	-31	-38	-45
55	25	18	11	4	-3	-11	-18	-25	-32	-39	-46
60	25	17	10	3	-4	-11	-19	-26	-33	-40	-48

C. Description of Vulnerabilities

Protection of economically important crops and livestock hinges on the availability and accuracy of weather information. Low-income households are also vulnerable to winter storm conditions if heating systems don't exist or are not operable. Unfortunately, public works departments in Florida don't have the necessary resources to de-ice roads and bridges or remove snow from roadways so even small amounts of snow and ice become a concern.

D. Vulnerable Critical Facilities

Power supply facilities are the most vulnerable critical facilities because winter storms and those with an extended time frame cause peak use periods to be extended. The result is that power suppliers cannot meet demand and must generate a pattern of "rolling brownouts" that create temporary power outages in a geographic pattern.

E. Probability

A moderate storm may be expected in Florida every one to two years. Severe storms, where the greatest numbers of winter crops are lost, may be expected on average once every 15 to 20 years. Florida has a history of winter storms with severe freezes. Since December 1889, there have been at least 20 recorded severe freezes.

F. History

Each winter, Florida faces the threat of at least a moderate freeze. This presents a problem for Florida as a whole because of the large amount of agricultural activity conducted throughout the state. For Marion County this activity is centered on the vegetable and citrus industries. Personal injury or death due to freezes is not considered a hazard except indirectly through fire caused by incorrect or careless use of space heaters, etc.

Florida does not have a long history of winter storms but is quite susceptible to freezing. The most notable winter storm hit the entire state on March 13, 1993, and has become known as the "Storm of the Century" or the "No-Name Storm." The storm came across the Gulf of Mexico as a normal late winter cold front but gathered strength just before landfall. Hitting in the early morning hours with gale force winds, rain, hail, snow, flooding, power outages and widespread freezing conditions, the storm marched across the state and had strong effects as far south as Cuba. These hazards are dealt with individually each winter, but their combined effects proved too much for recovery resources across the state. Each individual emergency was made worse by the lack of warning from the weather forecasters. The storm was a fluke and responders were not prepared. The best mitigation for winter storms and freezing conditions is accurate weather forecasting.

Historical Severe Winter Storms

- December 24-25, 1989: A presidential disaster declaration was issued and crop losses exceeded $18 million. Hardest hit counties were Lake, Alachua, Marion and Polk. The freeze affected over two million acres of agricultural and citrus crops.

- December 30, 2000: Widespread freezing temperatures were observed across most of West central and Southwest Florida during the late evening of December 30 through the mid-morning hours of December 31, 2000, causing $4.5 million in crop damage. Low temperatures in Marion and Levy Counties dropped from the upper teens to lower 20s with durations below freezing for up to thirteen hours. In Citrus, Sumter, Hernando and Pasco counties, low temperatures dropped into the middle 20s and remained below freezing for nine to twelve hours. In Polk, Hillsborough, Manatee, Sarasota, Hardee, De Soto and Highlands counties, low temperatures dropped into the middle 20s to upper 20s and remained below freezing for durations of six to nine hours. In Manatee and Hillsborough counties, freezing temperatures may have caused an estimated two-million dollars in damage to the tropical fish industry. In eastern Charlotte, eastern Lee and extreme northern Pinellas counties, temperatures dropped into the lower 30s and remained below freezing for periods of two to five hours. The freeze caused an estimated 25 to 50 percent damage to tomato, pepper, and squash crops in Lee and Charlotte counties. Temperatures fell into the mid-20s over Glades, Hendry, eastern Collier, and western portions of Palm Beach and Broward counties and fell to 32 degrees in the farming areas of south Miami-Dade County. Approximately 2 million in damage to vegetable crops occurred in Hendry and Glades counties.

- January 1, 2001: The second and coldest night of a two-night freeze in south Florida saw minimum air temperatures ranging from 25 to 30 degrees over interior sections of the peninsula. In the metropolitan areas of Miami-Dade, Broward and Palm Beach counties temperatures were in the middle 30s over the western suburbs. An estimated $6 million in crop damage included losses to corn and newly planted sugar cane in Palm Beach County, and to certain vegetables in Hendry and eastern Collier counties. An additional $5.1 million in crop damage was caused by widespread freezing temperatures across most of In West central and Southwest Florida. Low temperatures in Levy County ranged from the low to middle 20s with total durations below freezing for up to thirteen hours. In Citrus, Sumter, Hernando and Pasco counties, low temperatures ranged from the middle to upper 20s and remained below freezing for durations of nine to thirteen hours. In Polk, Hillsborough, Highlands, Hardee and De Soto counties, low temperatures ranged from the middle to upper 20s and remained below freezing for durations of six to nine hours. Isolated pockets of low temperatures in the upper teens were observed in extremely rural southern Highlands County. In Hillsborough County, the freeze caused nearly four million dollars in damage to the tropical fish crop. In Sarasota, Manatee, Charlotte and Lee counties, low temperatures dropped into the upper 20s and lower 30s and remained below freezing for durations of five to seven hours. In Lee County, the freeze caused nearly three million dollars in damage to the squash and cucumber crop. In Charlotte County, the freeze caused at least 100 thousand dollars damage to the pepper crop.

- January 24, 2003: A plume of Arctic air produces widespread record low temperatures and light snow flurries along the eastern coastline. The snow is described as ocean-effect snow, identical to lake effect snow in that it occurs due to very cold air passing over relatively warm water

temperatures. Snow flurries are reported in the air as far south as Fort Pierce. No major crop damage was reported.

- 2020-2025: Instances of minor individual freezes did occur between 2015 and 2025. However, no severe and/or sustained winter freezes were recorded, in Marion County, during this time.

Omitted Natural Disasters

Tsunamis

Tsunamis are long-wavelength sea waves typically generated by undersea earthquakes, landslides, or volcanic activity. While most commonly associated with tectonically active regions such as the Pacific Ocean basin, tsunamis can also occur in the Atlantic Ocean and Caribbean Sea. These waves travel at high speeds across open water and can increase in height as they reach shallow coastal areas, resulting in coastal inundation, strong currents, and damage to infrastructure.

Marion County is located in north-central Florida and is entirely inland, which significantly reduces its direct exposure to tsunami-related hazards. As a result, the County is not expected to experience primary tsunami impacts such as coastal flooding or wave run-up. However, tsunami events occurring along Florida's Atlantic or Gulf coasts could have indirect or secondary effects on the County, including temporary disruptions to regional transportation networks, supply chains, and coastal-dependent economic activity. Additionally, evacuation movements from coastal counties could place short-term demand on inland infrastructure, public services, and sheltering capacity within Marion County.

Historically, Florida has experienced only minor tsunami-related activity. Waves generated by the 1755 Lisbon earthquake were observed along portions of the eastern seaboard, including Florida, though impacts were minimal. More recent events have primarily involved meteotsunamis along Florida's coasts, producing localized and short-duration water level fluctuations with limited damage. There are no recorded instances of tsunami impacts directly affecting Marion County.

Given its inland location, tsunami risk within Marion County is classified as negligible to very low. However, due to the potential for indirect impacts associated with coastal events, tsunamis are acknowledged as a low-likelihood hazard within the County's Local Mitigation Strategy.

Earthquakes

Earthquakes are the result of sudden releases of energy within the Earth's crust, typically caused by the movement of tectonic plates along faults. These events can produce ground shaking, surface rupture, and, in some cases, secondary hazards such as soil liquefaction or structural instability. The severity of earthquake impacts is influenced by magnitude, depth, distance from the epicenter, and local soil conditions.

Marion County is located within a geologically stable region of the southeastern United States, far from active plate boundaries. As such, the County has an extremely low probability of experiencing a damaging

earthquake. The broader Florida peninsula is situated on the interior of the North American Plate, where seismic activity is infrequent and typically minor in magnitude.

Historically, Florida has experienced only occasional, low-magnitude seismic events, most of which are not felt or result in no damage. Some earthquakes occurring in other regions of the eastern United States have been felt in Florida due to the efficient transmission of seismic waves through the region's underlying geology. For example, the 1886 Charleston earthquake was felt across much of the southeastern United States, including parts of Florida; however, no documented damage occurred within Marion County. There are no known records of earthquake-related damage specific to Marion County.

Given these conditions, earthquake risk in Marion County is classified as very low. Potential impacts are generally limited to weak ground shaking from distant seismic events, with negligible risk to life safety or infrastructure. Nonetheless, earthquakes are recognized within the County's Local Mitigation Strategy as a low-likelihood hazard.

Other Omitted Natural Disasters

Storm surge, debris flow, ice jams, and dam or levee failure are omitted from the Marion County Local Mitigation Strategy due to their extremely low probability of occurrence within the county's geographic and environmental context. Marion County is located inland in north-central Florida and lacks direct coastal exposure, effectively eliminating storm surge risk. Similarly, the county's relatively flat topography and absence of steep slopes or mountainous terrain make debris flows highly unlikely. Ice jams are not a credible hazard given the region's subtropical climate, where sustained freezing conditions necessary for river ice formation do not occur. Finally, the risk of dam or levee failure is minimal due to the absence of large-scale impoundment structures or levee systems whose failure pose a significant threat to life and property. As a result, these hazards are not considered meaningful contributors to the county's overall risk profile and are reasonably excluded from further analysis in the mitigation strategy.

Man-Made Disasters

Societal and technological disasters originating from human activities include hazardous materials incidents, radiological disasters, terrorist acts, civil disturbance, urban fires and explosions and power failures. These incidents generally increase probability as the development density increases. Furthermore, the amount of damage potential also increases in direct proportion to the development density pattern within the impacted area.

Mitigation against man-made disasters includes an overall hardening of all critical facilities including security procedures. It is this focus on preparedness that local communities should implement to better prepare, respond and recover from man-made disasters. The best mitigation efforts are those that will increase the capacity of responding agencies to perform their roles more rapidly and with better efficiency. These mitigation efforts include but are not limited to communications upgrades, computer upgrades, equipment technology upgrades, training, exercises, intergovernmental/interagency coordination and other measures to build up the capacity of each local responding agency. It is the policy of the LMS Working Group to support capacity building efforts based on their overall benefits of creating a more disaster resistant/resilient community.

Armed Violence (Acts of Domestic or Foreign Terrorism, Civil Disturbance or Military Conflict)

Although the federal government recognizes that the United States has entered the post-Cold War era, federal planning guidelines on military threats are in transition. For hazard analysis purposes, it is prudent to scale back on the magnitude of nuclear events for other more likely scenarios. For instance, emergency management attention to other threats of armed violence, such as terrorism, is growing. Terrorism and civil unrest are potential issues of concern in the State of Florida; the state is particularly vulnerable to terrorist activities due to its proximity to Latin America and Cuba. Although potential targets are unpredictable, high-density population centers and military installations are the most likely. Terrorism increases the likelihood of mass casualty and mass evacuation from a target area. For threats of armed violence of any kind, it is very likely that joint jurisdictional management of the operation will take effect, coordinated at the county level between the Sheriff and FDLE. For any of these scenarios, some degree of state and federal involvement may occur. The leading federal agency may be FEMA or the Department of Justice.

Hazardous Materials (Non-Radioactive)

Hazardous sites can include, but are not limited to, propane storage facilities, natural gas pipeline terminals, fuel storage facilities and tank farms. All these items can become extremely dangerous in a hurricane. Often propane tanks or fuel oil tanks are not secured in a hurricane proof fashion because they are not permanent structures. In the case that the structure is a facility versus a tank, there is a higher level of risk as well as protection. Identifying the location of these sites will assist the safe reentry into the area after a storm has passed. In addition, it can help before a storm by indicating where a mitigation strategy should be implemented.

A hazardous material is any substance that, if released into the environment, would have a harmful and sometimes fatal effect on people and animals coming contact with it. Hazardous materials include highly flammable fuels, herbicides and pesticides, petroleum and related products, natural gas and chemicals. Radioactive substances, although they are frequently included within the category of hazardous materials, were not considered a hazard within this analysis, although there are relatively large numbers of facilities within Marion County, which use small amounts of these substances. In any case, there are over 3,000 hazardous chemicals licensed for transport by the US Department of Transportation, many of which would have a disastrous effect if released in an accident.

Marion County and its communities are vulnerable to the effects of hazardous materials accidents resulting from both transportation and industry. Light industry present in Ocala/Marion County, store and utilize materials such as natural gas, anhydrous ammonia, petroleum distillates, chlorine, and pesticides daily and hazardous materials are transported to and through the County by rail, highway and air.

Storage Tanks - Information on the location of the facilities that have storage tanks either above ground or below is required by several government agencies. From this standpoint, finding the most up to date and accurate source of this data is important. These storage tanks are important to emergency management about the substances contained. If any of these tanks with hazardous waste are damaged in a hurricane, the effects on the population can last longer than general cleanup of debris. These contaminants must be contained as soon as possible for emergency managers to re-enter an area. If the

contaminants are allowed to leak for long periods of time the groundwater can be affected, which can further damage the water supply, environment and wildlife.

Hazardous Waste Generating Facilities - The Florida Department of Environmental Protection maintains a database of waste generating facilities. These facilities are classified as small quantity and large quantity generators. The number of generating facilities varies from county to county based on the land uses allowed by the counties. Counties with higher levels of industrial, agricultural and commercial land uses will normally have a greater number of hazardous generating facilities. The FDEP has identified 590 hazardous waste generating facilities in Marion County. Refer to Appendix C.

As stated previously, the best mitigation for man-made disasters is preparation and an overall expansion of the capacity of all responding agencies to deal appropriately with the unlimited variety of emergency situations.

Epidemic/Pandemic Response

The Marion County Department of Health Public Health Preparedness Team is responsible for planning and coordinating the response to epidemic/pandemic conditions affecting the public within Marion County. The agency reviews the recommended guidelines from the Center for Disease Control (CDC), the World Health Organization (WHO) and the Florida Department of Emergency Management (FDEM). The active response is then coordinated with the State of Florida, the CDC, the Marion County Health Department, the Marion County Emergency Operations Center and other local medical providers.

There is no single course of action or recommendation when considering education, response and prevention methods to address an active pandemic or epidemic. Those recommendations and actions will be entirely dictated by the unique characteristics of the pathogen itself. However, once the threat of an epidemic/pandemic is identified it is vital to take the appropriate action to contain, manage and reduce the spread of the virus. The key message at this stage is to reduce the transmission rate - the number of individuals infected by each single infected individual. If on average across a population the transmission rate is greater than one the number of cases will continue to increase. Measures that reduce the transmission rate to less than one will result in a decline in the total number of infections.

Once a significant level of infection is present within a population then reducing this rate of spread becomes vital. Actions targeted at reducing the transmission rate are termed Mitigation and can involve:

- Social distancing (cancel events, closing institutions, work from home etc.).
- Education of the public - to promote actions such as hand washing and avoiding groups etc.
- Sufficient supplies of and ace to Personal Protection Equipment (PPE).
- Economic measures -to provide relief to individuals and businesses and to increase compliance with social distancing related policies.

All these measures aim to limit the population exposed to infection and to reduce the transmission rate between them. This results in a flattening of the curve of cases over time and so reducing the peak in the number of cases needing medical care. This maintains the ability of the healthcare system to provide quality care to those affected and reduce the mortality rate as far as possible. The greater the

stress on the healthcare system the higher the likely mortality rate, as resources are unable to meet demand and healthcare workers themselves exceed their capacity to provide care. Flattening the curve also extends the time scale of the epidemic so that any potential vaccine can at some future point be used to rapidly increase immunity within the population.

March 25, 2020, Covid-19: The COVID-19 pandemic, also known as the coronavirus pandemic, was a pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). It was first identified in December 2019 in Wuhan, China. The World Health Organization declared the outbreak of the Public Health Emergency of International Concern in January 2020 and a pandemic in March 2020. As of 29 January 2021, more than 101 million cases have been confirmed, with more than 2.19 million deaths attributed to COVID-19. State of Florida confirmed cases numbered 1,687,594 with 26,035 deaths and Marion County numbered 24,012 confirmed cases with 574 deaths. While Covid-19, and its variants, are still a global concern, the significance of the virus has been mitigated through continued vaccine development.

Introduction

Depending on the characteristics of the hazard and its impact, substantial components of the general population, business community, public services, community institutions and utilities are vulnerable to damage. In considering the vulnerability of Marion County to disasters, it is important to emphasize that some facilities and the populations they serve are often more sensitive to the impacts of disasters than others. For the purposes of the Vulnerability Analysis and Risk Assessment requirements of the LMS, only the weather related, and natural hazards were analyzed. Ecological, technological, societal, and health related hazards remain applicable to Marion County; however, currently there are no set criteria for evaluating hazards not required by 44 CFR 201. At such times these review criteria are developed, they will be further analyzed in the LMS.

Table VI-1 Hazards Affecting Marion County				
Weather	Natural	Ecological	Technological/Societal	Health
Hurricane and Tropical Storm	Wildfire	Pest Infestation	Power Failure	Pandemic/Epidemic
Severe Winter Storm	Flood	Animal Disease	HazMat Incidents	Aging Population
Tornado	Drought		Urban Fire	
Extreme Heat	Sinkholes		Radiological	
	Riverine Erosion		Societal/Civic Evacuation	
			Mass Casualty	
			Traffic Related	
			Civil Disturbance	
			Terrorist Acts	

Building Exposure

There are an estimated 287,517 parcels in Marion County, with an average parcel size of approximately ±4.82 acres. The estimated total building replacement value (excluding contents) is approximately ±$57.4 billion. Approximately 70% of the building exposure is associated with residential properties. Refer to table VII-2, Building Exposure by Occupancy Type.

Table VII-2 Building Exposure by Occupancy Type		
Occupancy	**Exposure ($1,000)**	**Percent of Total**
Residential	± 40,434,904	± 70.4%
Commercial	± 3,914,118	± 6.8%
Industrial	± 2,046,515	± 3.6%
Agricultural	± 7,249,470	± 12.6%
Religious	± 529,417	± 0.9%
Government	± 2,479,144	± 4.3%
Education	± 741,617	± 1.3%
Total	**± 57,395,186**	**± 100.0%**
Source: Marion County Property Appraiser 2025 parcel valuation data; scaled from Hazus-MH Hurricane Model (March 23, 2021).		

Table VII-2 provides an updated estimate of total building exposure in Marion County based on 2025 parcel and valuation data. Residential exposure continues to dominate the county's-built environment, accounting for more than two-thirds of total exposure value. Agricultural land and government facilities have increased slightly in total valuation due to expanded use and infrastructure development. The overall exposure for the county has grown by approximately 86% since 2021, largely due to population growth and rising construction costs.

Critical Facilities Overview

Critical facilities are important for both evacuation and sheltering. The County's Critical Facilities Inventory is maintained by emergency management staff and updated annually to ensure that preparedness and response actions can provide efficient evacuation, sheltering and recovery. The facilities that are important in the event of a hazard evacuation will vary based on the situation but typically include transportation facilities, medical facilities, communications facilities, potable water facilities, wastewater treatment plants, hospitals and schools. Additional facilities identified in the LMS include emergency operations centers, mobile home parks, childcare centers, and hazardous waste generators.

Sensitive facilities can be critical from the evacuation standpoint because residents of prisons, nursing homes and hospitals will need extra evacuation support. Emergency managers have established agreements and procedures to address these issues. In Marion County, there are no critical facilities that demonstrate an overwhelming structural vulnerability to any particular hazard.

These infrastructure facilities are critical in a timely evacuation and need to be functioning at a level of service that supports evacuation and sheltering efforts. The Critical Facilities list was developed by the Marion County Growth Services Department and includes facilities identified in Table VII-3 thru Table VII-14 and shown on Map VII-2 thru Map VII-11.

Municipal and public buildings located in high-risk areas are also an important consideration. Municipal buildings include police and fire stations that are critical during times of emergency. A listing of fire stations and sheriff stations are included in Table VII-12 and Table VII-13, respectively and shown in Map VII-12 and Map VII-13. Location information was obtained from the Marion County Fire Department and the Marion County Sheriff's Office, respectively. Other municipal buildings that maintain County and City records would be best located outside of the vulnerability zones. In cases where municipal buildings exist in vulnerable locations, retrofitting the buildings to increase protection is a needed precaution.

Water/Wastewater Treatment Plants

Water and wastewater treatment plants are important due to the nature of their role in providing critical infrastructure for sheltering and recovery. If these facilities are damaged, extra warnings and precautions need to be provided to the population serviced by the damaged plant. Contamination of the water supply can come from one unplanned release of waste product due to storm damage. Cleanup of a water supply can take a significant amount of time during which all water would need to be sterilized before use. Providing information to the public is an important protocol in case of contamination. If wastewater facilities do not have access to the public through television or radio, there must be coordination between the EOC and the wastewater facilities to provide initial reports and updates. Marion County does not include these facilities as part of their critical facilities inventory.

Reviewing the Comprehensive Emergency Management Plan provides a listing of protocols that will provide the appropriate level of preparedness for critical facilities. Each water/wastewater facility should have a list of protocols in case of an emergency including but not limited to a) adequate potable water; b) restoration of water supply; c) provision of water for firefighting; and d) demolition or stabilization of damaged structures.

Medical

Medical facilities will be one of the most problematic of all the facilities to evacuate. Presumably people who are residing in the hospital cannot evacuate without assistance. The assistance needed may range from wheelchairs all the way up to cooperative movements with transit agencies for mass evacuations. Therefore, any medical facility needs to have its own protocols for small and mass evacuations in the event it is called upon to evacuate. There are three medical facilities in Marion County: Advent Health, Ocala Regional Medical Center, and West Marion Community Hospital. Because they are inland, they would experience a different type of situation than coastal counties. Inland facilities would be under pressure from the overload of patients arriving from the facilities closer to the coast. Any of the medical facilities in the County may be called upon in a host capacity if a hurricane threatens another region, so having a plan is imperative. The medical facilities in Marion County are shown on Map VII-14 and listed in Appendix F.

Reviewing the Comprehensive Emergency Management Plan provides a list of protocols that will provide the appropriate level of preparedness for critical facilities. Each medical facility should have a list of protocols in case of an emergency including but not limited to staffing, needed equipment, public information, victim identification, etc.

One special area of concern is nursing homes. Some nursing homes may be able to double as medical facilities during a storm, but the quantity of equipment in a nursing home will be much lower than in a hospital. Many of the same protocols as the above medical facilities should be included in a nursing home plan. The major difference is the lack of responsibility to the public. The nursing homes will be most concerned with their current residents and any additional medical supplies they can provide to the hospitals.

Evacuation of childcare facilities also represents a significant challenge in the event of a major disaster. Identifying the location of each provider and the number of children each facility accommodates provides emergency managers with a means to assess the potential risk posed to facilities impacted by a major event. The locations of childcare providers in Marion County are depicted on Map VII-15.

Schools

Most of the time there will be sufficient notice of an oncoming storm, and schools will be closed. Therefore, the location of the schools becomes important primarily for sheltering people who choose not to go to hotels or to the homes of family and friends. Schools are used because of their size and built-in amenities including kitchens, plentiful space and multiple rooms for separation of groups or individuals if necessary. The schools that are set up as shelters will have sufficient supplies for a person to endure a short stay. Those schools that are not opened as shelters may be required to open if the storm or number of individuals seeking shelter is greater than first expected. In such situations they are strictly emergency shelters. Due to the strength and timing of the storm there may not be enough time to supply these additional schools with more than necessities. These additional shelters can include private schools and church schools. Map VII-16 and Table VII-18 provides a listing of schools including their location. This information was obtained from the Marion County School Board.

Sensitive Facilities

Other sensitive facilities and sites may pose a potential danger to the public. Items of the biggest concern in Marion County range from the evacuation of schools and day care centers to the limitations of allowing re-entry of persons into neighborhoods with unknown contaminants. The descriptions below are provided to allow emergency management a clear picture of the locations of such facilities and potential dangers.

Hazardous Sites

Hazardous sites include, but are not limited to, propane storage facilities, natural gas pipeline terminals, fuel storage facilities and tank farms. Each of these items can become extremely dangerous in a hurricane. Often propane tanks or fuel oil tanks are not secured in a hurricane proof fashion because they are not permanent structures. In the case that the structure is a facility versus a tank there is a higher level of risk as well as protection. Identifying locations of these sites will assist the safe re-entry into the area after

a storm has passed. Additionally, it can help before a storm by indicating where a mitigation Strategy should be implemented.

Sabal Trail Pipeline - The Sabal Trail underground natural gas pipeline project originates in Alabama, stretches through Georgia and terminates in Florida and is approximately 515 miles in length. Marion County houses approximately 33 miles of natural gas pipeline and one compressor station located near Dunnellon.

Storage Tanks

Information on locations of facilities that have storage tanks either above ground or below ground is required by several government agencies. From this standpoint, finding the most up-to-date and accurate source of this data is important. The Florida Department of Environmental Protection maintains a database that allows the user to download spreadsheets listing the storage tanks by county. These storage tanks are important to emergency management regarding the substances contained. If any of these tanks with hazardous waste are damaged in a hurricane, the effects on the population can last longer than general cleanup of debris. These contaminants must be contained as soon as possible for emergency managers to re-enter an area. If the contaminants are allowed to leak for long periods of time the groundwater can be affected, which can further damage the water supply, environment and wildlife.

Hazardous Waste Generating Facilities

Each county has a Hazards Analysis program, which includes a database of facilities that are responsible for hazardous materials. These facilities are classified as small quantity and large quantity generators. The number of generating facilities varies from county to county based on the land uses allowed by the counties. Counties with higher levels of industrial, agricultural and commercial land uses will normally have a greater number of hazardous generating facilities. The Marion County Hazardous Materials Facilities are shown on Map VII-1 and listed in Appendix C.

Institutional Populations

The other institutions that require special care may include prisons or detention centers. Marion County has three sensitive institutions that have restrictions on the residents entering and leaving the facility. These include the Lowell Women's Prison, Marion Correctional Institution and the Marion County Jail.

Electrical Generating Facilities

Electrical generating facilities are critical due to the many functions that rely on an electrical power supply and the widespread use of electrical appliances by the populous. These facilities, if damaged, can cause power outages. Loss of power to a public service is more detrimental than a simple lack of electricity to a home. If a hospital, police, emergency management or any other public service loses electricity the ability to provide emergency services is extremely limited. Any medical or emergency service should have a listing of backup sources of power.

The Comprehensive Emergency Management Plan provides a list of protocols that will provide the appropriate level of preparedness for critical facilities. Each energy facility should have a list of protocols in case of an emergency including but not limited to:

- Support agencies providing information, equipment, labor, fuel and repair
- Transportation of fuel or other emergency supplies
- Assess energy supply and demands in restoring systems – on a prioritized allocation method
- Setting up a system to process requests for fuel or power assistance

Mobile Home Parks

Another vulnerable population in any category of storm are residents of mobile home parks. Mobile home structures have a high risk for destruction in a hurricane if erected in wind or flood vulnerability areas. Mobile home residents, due to a lack of structural support, are usually encouraged to evacuate residents of site-built homes and businesses. Because of their early evacuation, the transportation analysis will consider the effect these residents have on the general process. The mobile home parks definition used for this document is the areas that have permanent residents, not including RV seasonal residents. The assumption is made that those residents who are mobile will, in fact, leave the area before the storm approaches. Map VII-17 and Appendix H provide a listing of the mobile home parks in Marion County, obtained from the Marion County Environmental Health Department.

Vulnerability by Jurisdiction

Due to the unpredictable nature of natural disasters, several areas in the County may experience impacts from a hazard event while other areas may experience minimal or no impacts. Therefore, understanding the vulnerability of any location in Marion County is extremely important. Vulnerability was assessed for each hazard and jurisdiction.

Assessment Methodology

The vulnerability assessment was conducted utilizing a Geographic Information System (GIS)- based analysis methodology. The results of the vulnerability assessment are provided for each hazard listed below. A GIS-based analysis was conducted for nine hazards: Hurricane and Tropical Storm; Drought; Extreme Heat; Flood; Tornado; Severe Winter Storm; Riverine Erosion; Sinkhole; And Wildfire.

For the GIS-based assessment, digital data was collected from local, state and national sources. ESRI® ArcGIS™ 9.3.1 was used to assess risk utilizing digital data including local tax records for individual parcels and georeferenced point locations for hazard events. Using these data layers, risk was assessed by estimating the assessed building value associated with parcels determined to be in identified hazard areas. HAZUS-MH was also used to model hurricane force winds and estimate potential losses.

The objective of the GIS-based analysis was to determine the estimated vulnerability of people and buildings to the identified hazards for Marion County using best available geospatial data. In so doing, local databases made available through Marion County such as local tax assessor records and parcel boundaries, were used in combination with digital hazard data. The results of the analysis provided an estimated number of people, as well as the numbers and values of buildings determined to be potentially at risk to those hazards with delineable geographic hazard boundaries.

Table VII-15 Multi-Jurisdictional Vulnerability Assessment Matrix

Marion County Identified Narural Hazards	Unincorporated Area	Ocala	Belleview	Dunnellon	Reddick	McIntosh
Drought	Low	Low	Low	Low	Low	Low
Flood	Medium	Low	Low	Medium	Low	Low
Riverine Erosion	Minimal	Low	Low	Minimal	Low	Low
Tornado	High	High	High	High	High	High
Hurricane	High	High	High	High	High	High
Wildfire	High	High	High	High	High	High
Extreme Heat	Low	Low	Low	Low	Low	Low
Sinkholes	Medium	High	High	High	Low	Low
Severe Winter Storm	Low	Low	Low	Low	Low	Low

High -1 event recorded per 1-4 years
Medium- 1 Event recorded per 5-9
Low- 1 Event recorded per 10+ years.

Vulnerability Assessment Matrix

Riverine erosion

Exposure to riverine erosion remains limited primarily to properties adjacent to the Ocklawaha River and smaller tributaries. Although the number of improved parcels near the river is modest, the increased property valuation results in nearly **±$1.05 billion** in potential exposure. The estimated **2,500 individuals** at risk represent less than 1% of the county's total population, confirming localized vulnerability.

Table VII-16. Vulnerability Assessment: Riverine Erosion		
Improved Parcels within 25' of Riverbank	Exposure (Total Improved Value of Parcels)	Potential Number of Individuals t Risk (2.6 PPH)
± 1,033	± 1,052,640,000	± 2,691

Derived using proportional increase in 2025 exposure values and household density (2.6 PPH).

Sinkholes

Sinkhole risk continues to pose a moderate hazard countywide, particularly in areas underlain by shallow limestone formations. The 2025 data indicate approximately **±2,700 improved parcels** within 200 feet of known sinkholes, with a combined exposure value of roughly **±$1.27 billion**. Based on average household size, approximately **±7,070 individuals** could be directly affected in the event of sinkhole expansion or collapse.

Table VII-17 Vulnerability Assessment: Sinkholes		
Improved Parcels within 200' of an existing Sinkhole	**Exposure (Total Improved Value of Parcels)**	**Potential Number of Individuals at Risk (2.6 PPH)**
± 2,707	± 1,271,000,000	± 7,070

The most potentially dangerous geologic formation for the creation of sinkholes is the location of limestone near the surface. Every type of structure is vulnerable to sinkhole formation in the County. Structures located in the Area III portion of Map VII-18 and structures located approximate to an existing sinkhole are at greater risk regardless of the type of structure. In Map VII-18 and Map VII-19 a visual reference can be seen of both the geologic formation and the existing known sinkholes, respectively. The sinkholes that are known are mainly discovered and recorded by visual references. The known sinkholes for Marion County are presented in Appendix B.

Hurricanes and Tropical Storms

Between 1851 and 2025 approximately one hundred hurricanes of Category 1 to 5 passed within one hundred miles of the Withlacoochee Region. With a minimal history of storms directly hitting the area and a coastline with a small population, the mathematical probabilities of hurricane damage and evacuation are limited. The Withlacoochee Region has been relatively safe from direct hits but storms hitting close to the region are similar to direct hits regarding shelter strategies and other infrastructure related responsibilities. Map VII-20 depicts the frequency of hurricane events by County across the State.

Building-Related Losses

The building related losses are broken into two categories: direct property damage losses and business interruption losses. The direct property damage losses are the estimated costs to repair or replace the damage caused to the building and its contents. The business interruption losses are the losses associated with inability to operate a business because of the damage sustained during the hurricane. Business interruption losses also include the temporary living expenses for those people displaced from their homes because of the hurricane.

Table VII-18 illustrates projected building-related economic losses for hurricane events of varying recurrence intervals. The updated analysis shows total economic losses for a 100-year Category 2 hurricane could exceed ±$1.09 billion, reflecting both the increased building inventory and higher structure valuations. Property damage comprises roughly 89% of total losses, while business interruption accounts for about 11%. These projections reinforce the importance of ongoing resilience and mitigation measures throughout Marion County.

Table VII-18 Building-Related Economic Losses (thousands of dollars)					
	Event Type				
	10-Year	20-Year	50-Year	100-Year	500-Year
Property Damage	± 20,632	± 127,357	± 441,271	± 980,367	± 4,945,494
Building Interruption Loss	± 162	± 5,664	± 37,559	± 115,665	± 985,005
Total	± 20,794	± 133,021	± 478,830	± 1,096,032	± 5,930,499

Source: Scaled from Hazus-MH 2021 hurricane loss outputs using 2025 exposure totals (factor 1.86×).

Map VI-1 shows the hurricane tracks from the hurricanes that have directly affected Marion County in the past 150 years. Being prepared is always important regardless of the lack of recent hurricane history because of the vulnerable characteristics of the County.

Tornadoes

From NOAA's storm prediction center http://www.spc.noaa.gov/wcm/#data , historical tornado path data was collected. Tornado path width can vary dramatically making it difficult to precisely identify areas at risk for tornado damage. The average width of tornado paths in Florida is approximately 58'. For the purposes of the vulnerability assessment, improved parcels within 1,000' of a historical path were included in the analysis.

Table VII-19 Vulnerability Assessment: Tornadoes		
Improved parcels within 1,000' of a Historical Tornado Path	**Exposure (Total Improved Value of Parcels)**	**Potential Number of Individuals at Risk (2.32PPH)**
± 23,794	± 4,912,740,000	± 62,013

Tornado risk remains high across Marion County due to the frequency of past events and the dispersed nature of development. Updated 2025 exposure estimates indicate nearly ±23,800 improved parcels located within 1,000 feet of historical tornado paths. The total improved parcel value exceeds ±$4.9 billion, with an estimated ±62,000 residents potentially exposed to tornado-related impacts.

Floods

Minor flooding occurs every year in Marion County. As seen in the updated FIRM FEMA Flood Maps and Repetitive Loss List data some areas of the County are more susceptible to future flooding. Any structure type that is located within a flood zone and is not elevated or is not protected by levees, beams, or floodwalls is vulnerable to flood damage.

Table VII-20. Vulnerability Assessment: Flooding			
Jurisdiction	**Improved Parcels within a FIRM Type "A" or "AE" Flood Zone**	**Exposure (Total Improved Value of Parcels)**	**Potential Number of Individuals at Risk (2.4PPH)**
Ocala	±4,137	±3,786,869,020	±5,421
McIntosh	±20	±4,970,918	±36
Belleview	±538	±152,330,487	±941
Dunnellon	±589	±269,206,182	±778
Reddick	0	0	0
Unincorporated	±26,143	±9,416,132,318	±27,029

Flooding can produce widespread impacts in both rural and urban areas. Any type of agricultural, commercial, or residential development located in a floodplain is vulnerable to flooding. Increasing urbanization in some areas enhances the threat of flooding where drainage systems cannot cope with the increased input of stormwater runoff. In rural areas, property damage caused by flooding can be devastating to farmers. When flooding occurs during the growing season, farmers can suffer widespread crop loss. In some cases, there may be an opportunity for a second planting of a less profitable crop. Livestock farmers may lose livestock if they are unable to find safety from rising floodwaters. This threat is primarily associated with flash flooding.

Wildfires

The entire county is at risk for wildfire. With Reddick, McIntosh, and Dunnellon at the highest risk for potentially damaged jurisdictions. Unincorporated areas within Marion County such as the Florida Highlands, Lake Tropicana, Marion Oaks, Orange Springs and Silver Springs Shores are also vulnerable due to their close proximity to naturally forested lands.

Table VII-21. Vulnerability Assessment: Wildfires		
Total Estimated Number of Improved Parcels	**Total Improved Value of Parcels**	**Potential Number of Individuals at Risk (2.6PPH)**
±183,786	±$49,218,857,973	±448,848

Drought

The primary agricultural products in the County are crops and livestock, which tend to be somewhat more resilient to drought conditions than vegetable crops. However, any period of drought or extreme heat can

have a detrimental impact on the County's agricultural sector. While no prolonged droughts have been recorded, numerous seasonal droughts have occurred over the years. Drought conditions primarily affect farming and agricultural production. For the purposes of this drought vulnerability assessment, parcels identified as bona fide farming operations were included in the analysis.

Table VII-22. Vulnerability Assessment: Drought	
Total Estimated Number of potential Parcel Farms	**Total Land Value of Parcels**
± 6,870	± $1,123,961,796

Extreme Heat

Extreme heat can have several deleterious effects on the human body. These include in order of increasing severity, sunburn, heat cramps, heat exhaustion, and heat stroke. In addition to the effects on Individual's, various sectors of the agriculture community are affected by extreme heat. Livestock, such as rabbits and poultry, are severely impacted by heat waves. Millions of birds have been lost during heat waves. Milk production and cattle reproduction also decreases during heat waves. Also, the electric transmission system is impacted when power lines sag in high temperatures. The combination of extreme heat and the added demand for electricity to run air conditioning causes transmission line temperatures to rise.

Table 7-23 Vulnerability Assessment: Extreme Heat		
Total Estimated Number Of Improved Parcels	**Total Improved Value Of Parcels**	**Potential Number of Individuals at Risk (2.6PPH)**
±183,786	±$49,218,857,973	±448,848

Severe Winter Storms

Freezes in Marion County generally affect seasonal vegetable crops more significantly than timber crops or livestock, which tend to be more resistant. While the county occasionally experiences hard freezes dipping well below 32°F, most freezing events hover around that threshold. The entire county is considered vulnerable to severe winter storms and associated impacts.

Table 7-24. Vulnerability Assessment: Severe Winter Storm		
Total Estimated Number of Improved Parcels	**Total Improved Value of Parcels**	**Potential Number of Individuals at Risk (2.6PPH)**
±183,786	**±$49,218,857,973**	**±448,848**

Man Made Hazards

Hazardous sites can include, but are not limited to, propane storage facilities, natural gas pipeline terminals, fuel storage facilities and tank farms. All these items can become extremely dangerous in a hurricane. Often propane tanks or fuel oil tanks are not secured in a hurricane proof fashion because they are not permanent structures. In the case that the structure is a facility versus a tank there is a higher level of risk as well as protection. Identifying the location of these sites will assist the safe reentry into the area after a storm has passed. In addition, it can help before a storm by indicating where a mitigation strategy should be implemented.

Repetitive Loss Properties

Flood losses for Marion County are shown in Table VII-25. Additionally, Table VII-26 includes properties that have experienced repetitive losses due to flooding. Marion County has experienced relatively few flooding events and as Table VII-32 indicates, there are few properties at risk of ongoing flood damage. However, the history of various flooding events in the state shows a much greater potential for losses. Dense populations of Marion County are not particularly vulnerable to flooding therefore flood damage costs are expected to be significantly lower than a statewide average would assume.

VII-25. Flood Loss Statistics by Jurisdiction 01/01/1978 - 07/31/2024

Community Name	Total Losses	Closed Losses	Open Losses	CWOP Losses	Total Payments
City Of Ocala	23	18	0	5	223,813.80
City Of Dunnellon	6	3	0	3	11,310.19

Future Development

The vulnerability of future development is hard to determine. Marion County has maintained its agriculture nature for some time. With the onset of development in the counties south of Marion there will be plenty of growth occurring in the coming years. Looking at the population projections below, the explosion of the population is very evident. If the numbers remain accurate there will be an ever-increased need for mitigation of potential hazards. Refer to Table VII-27, Projected Population, 2022-2050.

Table VII-27 Projected Population 2022-2050 Marion County							
County	Population Estimate	Projections for April 1, 2022					
	4/1/2022	2025	2030	2035	2040	2045	2050
MARION	391,983						
Low		385,500	392,900	394,700	392,100	387,600	382,700
Medium		410,100	436,600	457,600	473,900	487,600	500,300
High		434,700	480,200	520,600	555,600	587,500	617,900

Source: BEBR Population Projection for Marion County

Looking at the trends in population growth determination of the effect these growth trends and population expansions are creating needs to be quantified. Below is a table showing the municipalities and the unincorporated area of the county's growth and its effect on disasters. The information is directly linked to growth. The parts of the community that are experiencing very little growth do not have the same concerns over "future development".

The ratings are High (H), Medium (M) and Low (L). The value of H indicates a disaster requiring an extensive amount of mitigation. The value of M indicates where there may be some extra incidents due to the growth trend, but not an excessive need for mitigation. Finally, L means that an increase in population and development trends will have little to no effect on the detrimental aspects of that hazard. The predictions imply that there will be growth primarily in Ocala and the unincorporated areas of the County. It is difficult to measure precisely where people will be living in unincorporated areas. With that in mind the information is primarily limited to the jurisdictions.

Looking now at what already exists in the County, a clearer picture of the potential damage to buildings, human populations and the areas most in need of mitigation projects becomes apparent.

The Future Land Use Map for the County is displayed in Map VII-21. This map is the most up to date data and includes land use information for Marion County and the incorporated jurisdictions. It is clear from this map that most of the land remains in rural, agriculture and conservation land uses. The populations are relatively compact regarding land use ratios. As discussed in a previous question, a chart was developed to indicate which jurisdiction has the highest potential for damage from any one hazard. Therefore, if future development is to occur in or near the existing jurisdiction an effort to address the specific hazard needs to be made.

Table VII-28. Marion County Hazard Effect on Potential Growth									
Jurisdiction	Hazard Type								
	Riverine Erosion	Sinkhole	Hurricane/ Tropical Storm	Tornado	Flood	Wildfire	Extreme Heat	Drought	Winter Storm
Belleview	L	M	L	M	L	L	L	L	L
Dunnellon	H	L	H	M	H	L	L	L	L
McIntosh	L	M	L	L	L	L	L	L	L
Ocala	L	H	M	M	L	L	L	L	L
Reddick	L	M	L	L	L	L	L	L	L
Unincorporated County	M	H	H	M	M	M	M	M	L

Updating and Revising the LMS 48
Adoption and Implementation of the LMS 49

Introduction and Purpose

This section of the LMS describes the recommended plan adopted by the Steering Committee for the ensuing period of maintenance and implementation of the Strategy. These Strategy items cover two major categories:

1. An administrative plan and an organizational structure through which the bylaws and operational procedures of the Working Group are prioritized, and
2. An adopted set of program goals and priorities for guiding efforts of the Working Group for the ensuing planning cycle within which additional mitigation initiatives can be proposed, characterized and prioritized.

The Working Group intends this section to be updated at the conclusion of each planning cycle to guide the continuing efforts of the Working Group.

Administration and Logistics

This portion describes the program for administering the current edition of the Marion County LMS.

Adoption of the Strategy

The contractually designated LMS representative from each municipality is responsible for ensuring their portion of the Strategy remains updated and is presented to their respective local governing bodies for re-adoption, re-endorsement, or other appropriate action. This has been reiterated on numerous occasions, as documented in the Meeting Summaries.

Maintenance of the Strategy

This section describes the plan of Marion Working Group for the continuance of updating, maintenance and implementation of the Strategy.

Coordination of Strategy Implementation and Maintenance

The Working Group focused on what agency should maintain overall responsibility for the LMS. It was noted that the custodian would be responsible for scheduling meetings of the Steering Committee and Subcommittees, recording the proceedings of the meetings, distributing the meeting minutes, coordinating the update of the GIS database, collecting proposed mitigation initiatives, and any other administrative matters that may arise in the maintenance of the Strategy. For the foreseeable future, the Marion County Growth Services Department will maintain responsibility for the following duties:

- Coordination of meetings
- Maintenance of mailing lists
- Maintenance of the Bylaws and procedures
- Maintenance and updating of data
- Receipt of notification of financial opportunities
- Use of the procedure and database to assist in the selection of prioritized initiatives

for funding
- Support to processing of initiatives
- Implementation, as appropriate, of this section of the Strategy
- Publication of updated Strategy documents

Organizational Structure

After review by the Steering Committee, it was decided to maintain the current organization structure and meeting schedules: the Subcommittees will meet as needed; and the Steering Committee and Working Group will meet at least quarterly. The Working Group will continue to report to the Steering Committee and will also include the following:

1. Risk Assessment Subcommittee
2. Mitigation Planning Subcommittee
3. Public Affairs Subcommittee
4. Financial Issues Subcommittee

The Steering Committee Chair may reactivate the above subcommittees upon need of the Working Committee.

Continuing items for Working Group determinations include:

1. Assignment of a Subcommittee member to be responsible for review and update of Guiding Principles database.
2. Assignment of an individual or organization responsible for update and maintenance of GIS database.
3. Increase LMS participation from the public and private sectors.
4. Where appropriate, involve Financial Issues Subcommittee in securing mitigation initiative funding.

And other items may be requested.

Schedule for Strategy monitoring, evaluating, and updating

The Marion County Growth Services Department shall be responsible for monitoring of the Strategy. Monitoring activities include coordinating annual updates by agencies and jurisdictions responsible for individual mitigation actions located on the project list. Coordination may include site visits and meetings with staff and/or the Steering Committee as needed. Monitoring shall occur throughout the year on an as needed basis.

The following are tasks and monitoring activities that should be accomplished prior to or in the early part of the LMS update and revision process. These tasks represent examples of recommended actions and should be reviewed for their applicability by the Emergency Management Director (prior to the update process) or the Working Group (as a part of the update process.)

- On-going information systems – HAZUS-MH GIS databases that have been created for the LMS should be reviewed and updated with each formal revision of the Strategy.

- Monitoring implementation process - Projects that have been implemented need to be taken off the List of Mitigation Initiatives. Members of the Working Group should also attend workshops and stay abreast of current grant funding opportunities.

- Obstacles/problems in implementation - Some listed projects may be considered as poor candidates for grant funding and may need to be revised to be fundable. Criteria have been developed to achieve regular maintenance of the mitigation action list. Projects older than 5 years will be removed from the list unless a new application is submitted.

- Ability to update baseline data - The HAZUS-MH GIS update to the LMS could be made the responsibility of one or several County Departments with GIS capability.

- Monitoring of hazards - The development of local information regarding the effects of hazards (such as the flooded roads database) should be an ongoing process. The Emergency Management Department should monitor the effects of hazards and actions taken and keep a record of such.

- Updatable, objective achievement measures – Various indicators for the evaluation of the performance of the LMS have been related to individual hazard types have been developed however, indicators for several hazards could benefit from more standardized evaluation criteria.

- Citizen participation in the LMS process - It is recommended that future updates of the LMS receive media exposure through press releases to encourage public participation.

- It is recommended that social media platforms be utilized to enhance outreach activities to solicit input from as diverse of a citizen contingent as possible.

Updating and Revising the LMS

The LMS will be reviewed annually, or as circumstances dictate, by the LMS Working Group. The appropriate membership of the committee to include County, agency, municipal and private business representatives will review the Strategy; amending their responsibilities under the Strategy; updating the Hazard Identification / Vulnerability Assessment and Mitigation Initiatives by modifying procedures, maintaining current data and/or adding new projects and deleting completed projects.

Proposed amendments to the LMS that are approved by the Working Group shall be submitted to the Marion County Emergency Management Director for presentation to the Marion County Board of County Commissioners for public comment and final adoption.

The Marion County Growth Services Department and the Steering Committee members shall be responsible for evaluating the Strategy. Evaluation of the Strategy will occur on an annual basis or after a hazard occurrence. Updates necessary for the Strategy's maintenance shall also occur on an annual basis in conjunction with the evaluation process described above. Planning Staff shall also monitor and update the Strategy related to changes in State and Federal hazard mitigation requirements on an annual basis.

Additionally, during the ensuing 5-year planning cycle, the Working Group will continue to develop initiatives for characterization, prioritization and implementation. This includes consideration of:

Private Sector Participation

By increasing business and industry involvement in mitigation planning and programming, the economic and social well-being of the community becomes stronger and more lasting.

Actions to increase involvement of the private sector include:

- Enhancing existing partnerships with chambers of commerce, economic development commissions, and builders' associations.
- Inviting major employers and industries to attend Working Group meetings.
- Inviting local businesses and business leaders to attend Public Forums and other activities scheduled by the Public Affairs Subcommittee.

Vulnerable Neighborhood Needs

Many initiatives proposed for the initial edition of the Strategy focused on reducing the vulnerabilities of local government facilities and systems. This acknowledges the urgency to make existing government infrastructures more resistant to the structural and/or operational impacts of future disasters.

The LMS continues to be expanded and enhanced to address the vulnerability of neighborhoods and population sectors that are at heightened risk from human or economic impacts of disasters. Following are highlights of anticipated actions to be taken during continuing planning cycles:

- Focus on neighborhoods at risk to these hazards:
  - Flood
  - Wildfire
  - Hazardous Materials
  - High Winds Mobile/Manufactured Homes Older Non-Compliant Buildings

- Review the various Guiding Principles documents for inconsistencies and discrepancies in interest areas noted above.

The Risk Assessment Subcommittee will utilize the GIS database provided by project staff, as well as local experience in the area to identify potential all-hazard risks to neighborhoods. This Subcommittee will report to the Working Group as events require.

Mitigating Flood Losses

The Working Group intends this edition of the Strategy also constitute an update to the Marion County's Flood Mitigation Assistance Plan, in accord with FEMA requirements. This specific Plan is consistent with the overall objectives and concepts used in the Working Group's planning and programming for mitigating vulnerability to all types of hazards as expressed in this Strategy. Additionally, the County and its jurisdictions adopted the 2017 FEMA FIRM maps along with a new Flood Plain Ordinance. The County has participated in the NFIP Community Rating System since 1993 and is a Class "7"; the City of Ocala has achieved a Class "3" rating in the CRS program.

Table VIII-1 NFIP Community Ratings					
Communities Participating in the NFIP	**Community Number**	**Participating in the CRS Program**	**CRS Rating**	**Ordinance Number**	**Ordinance Date**
City of Belleview	120383	No	N/A	2014-19	10/23/2014
City of Dunnellon	120574	No	N/A	2017-17	12/6/2017
Marion County	120160	Yes	7	17-08	4/11/2017
Town of McIntosh	120575	No	N/A	2023-07	9/14/2023
City of Ocala	130330	Yes	3	24-R-307	8/20/2024
City of Reddick is not in a flood prone area - not in the NFIP					

Marion County and all communities participating in the NFIP are active participants and ensure compliance with NFIP requirements. *Multi-Jurisdictional Actions Related to Continued Compliance with NFIP. Procedures are consistent across all participating communities.*

- Adopted revised FIRM effective March 2019 in accordance with FEMA Map Modernization Program
- Adopted Floodplain Ordinance effective July 15, 2008, to comply with changes and updates to federal and state regulations.
- Permits in floodplain reviewed to ensure new or substantially improved buildings are reasonably safe from flooding.
- Verify and record lowest floor elevation of all new or substantially improved buildings.
- Require all new developments in floodplain to obtain all necessary federal, state or local permits.
- Prohibit or reduce development in floodway, establishing no-rise no impact in floodway when development or construction is allowed.
- Require 1' freeboard above Base Flood Elevation for new and substantially improved buildings in the Special Flood Hazard Area. Require 1 to 1 compensatory storage.
- New and substantially improved structures, including manufactured homes to be designed or modified and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including effects of buoyancy.
- New construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.
- The City of Ocala adopted by reference the Flood Insurance Study (FIS) and the standards set forth in Section 60.3(c) of the National Flood Insurance Program (NFIP) regulations (44 CFR 59, etc.) in support of Map 3: FEMA Designated Flood Prone Areas (effective date August 2017)

The Marion County Office of Emergency Management has identified over thirty flood-prone areas throughout the County. The Risk Assessment Subcommittee, as part of the "area wide" risk assessment process, will continue to evaluate these areas. In various sections of the Strategy, as well as in the paragraphs below, the human and economic vulnerability to floods includes repetitive flood loss properties.

Mitigating Repetitive Flood Loss

FEMA has identified five repetitive loss structures in the County. The Risk Assessment Subcommittee will assist in identifying mitigation initiatives to relieve these situations.

Mitigating Future Flood Losses

Besides the five identified repetitive flood loss properties, there are significant number of properties within recognized floodplains or flood-prone areas. The Working Group is very interested in reducing flood losses to these areas, so they do not remain subject to repetitive flood loss.

Studying Flood-prone Areas

Marion County Public Works has identified over ninety flood-prone areas, with most areas flooding during heavy rains. The Risk Assessment Subcommittee plans to prioritize those areas that endanger the greatest number of properties, disrupt vital community services, or threaten concentrations of businesses and industries. The Subcommittee will then determine if proposed mitigation initiatives would help these properties, and, if not, propose new mitigation initiatives to solve the repetitive flooding. The Working Group will review the findings of the Subcommittee and act as appropriate.

Continuing Review of Guiding Principles Documents

The mitigation Planning Subcommittee, in conjunction with the Risk Assessment Subcommittee, will continue to evaluate flood-prone areas and their relationship to special flood hazard areas (SFHA), particularly as they pertain to current zoning and future land use. Project staff has provided the Subcommittees GIS maps that depict future land use parcels that are currently zoned for development and are located within SFHA. The Mitigation Planning Subcommittee will coordinate with various municipality planning departments to determine what, if any, action needs to be taken in terms of reviewing current and future land use planning.

Coordination with Local Mitigation Strategy

The Working Group plans to mitigate future flood losses through close integration with plans, programs and initiatives for all natural, technological and societal hazards confronting Marion County communities. The Working Group will, in taking the actions described above, attempt to utilize opportunities to reduce future flood losses and to reduce vulnerabilities to other hazards that threaten structures or neighborhoods in question.

Preparation of a Comprehensive Redevelopment Plan

The Working Group recognizes that the County and each of its communities are vulnerable to a major disaster that could cause significant levels of damage and disruption. Such an event would necessitate numerous decisions by each affected jurisdiction regarding restoration of community services and reconstruction of damaged properties and infrastructure. Without careful planning by all key entities within the County, decisions made in the post- disaster environment may not improve the capabilities of impacted areas to withstand future disasters with less damage. Therefore, an important priority program of the next planning cycle is to begin preparation of the comprehensive, coordinated post-disaster redevelopment plan. The Marion County Office of Emergency Management has discussed proposing an initiative to draft a County-wide Comprehensive Redevelopment Plan.

The County Comprehensive Plan is periodically reviewed in the form of Evaluation and Appraisal Reports (EAR). Elements of the Plan are reviewed for consistency with the existing community growth. Updating the capital improvements element of the Plan allows the County and municipalities to include specific actions that will be completed through inclusion in the budget. The LMS prioritized project list provides reviewers of the capital improvements element an excellent source of ideas.

Projects that deal primarily with the safety of existing buildings and infrastructure can be included in updates of the Land Development Code and other guidelines for building and zoning policy. Areas that the LMS recognized as specifically vulnerable to flooding, wind damage or wildfire should be examined before updating building and zoning codes.

Incorporation of the Strategy into Current and Future Planning Documents

Data and information in the LMS were incorporated into numerous planning documents, processes, programs, ordinances, and development code criteria.

LMS Data:

Data generated from the LMS was used extensively to develop policies and background materials for the Conservation Element of the Marion County Comprehensive Plan. Sinkhole locations and areas vulnerable to wildland fires were included in the Conservation Element Map Series attached to the 2025 update of the Comprehensive Plan and updated accordingly in 2015, 2020, and 2025.

Site planning and development criteria:

The County and its municipalities have taken several steps to incorporate elements of the LMS into local development criteria and site plan review that emphasize the importance of flood, wildfire, and sinkhole mitigation as well as the strategies used to reduce vulnerability.

The County and the City of Ocala have adopted a landscape and irrigation ordinance that requires removal of exotic vegetation and proper management in high fire risk areas as a condition of development approval. Exotic vegetation including cogon grass and other species that increase fire risk now must be removed prior to obtaining site plan approval. Removing fire fuels prior to development can reduce the risk of wildfire damage.

The County and the City of Ocala have adopted regulations relating to Springs Protection which include requiring a geotechnical report with each major site plan or subdivision plat across the entire County. Developers must provide buffers near karst sensitive areas and require geological testing prior to development. Additionally, site engineers now must incorporate Low Impact Development principles in designing stormwater controls to improve the quality of water being reabsorbed into the Floridan Aquifer. These enhanced stormwater controls can better mitigate non-point source pollution and leaching of some hazardous materials into the drinking water supply.

Further, the County now requires each site to provide fire flow within urban interface zones either using centralized services or by providing underground storage tanks.

Comprehensive Emergency Management Plan (CEMP)

Data, hazard analysis methodology, and vulnerable structures and populations were incorporated into the CEMP from the LMS. Data and methodology from the LMS were used in developing the Emergency Support Functions (ESF) contained within the Marion/Ocala CEMP.

Evaluating Progress and Establishing Additional Priorities

The Working Group intends the actions described here will, in most cases, identify and propose specific initiatives for incorporation into future editions of the Strategy. Then, at the close of the next planning cycle, the Working Group will evaluate the progress made towards achieving the program priorities described here, as well as the initiatives proposed as an outcome of this planning effort. As a result, a revised plan of action, and a modified or new set of program priorities, will be established to guide the Working Group focus and to adjust the updated Strategy contents.

The Working Group established project prioritization protocols in the 1999 document. The same protocols remain, allowing the Steering Committee to evaluate and prioritize projects. Many projects are ranked in 1- to 20-numbered style. This process involves a Notice of Intent, followed by a Characterization Sheet. The Working Group then ranks each project based upon the characterization submitted by its project initiator.

Mitigation Goals to Reduce Identified Hazards

The idea of developing mitigation goals reflects to the 1999 Plan with emphasis on “guiding principles.” These guiding principles are related to each hazard identified by the County as critical. Some items in the hazards list were not specific to this area; therefore, goals and mitigation strategies were not created for them.

The 1999 Plan was used merely as a reach tool to understand the DMA 2000 requirements. The Working Group did not establish a new set of goals related to DMA 2000 because most of the 1999 guiding principles still apply Changes were made as needed.

To identify where improvements are needed, an important part of the planning effort by the Working Group is to review and analyze the existing plans, programs of County and municipal government, collectively referred to as the community’s “guiding principles” for mitigation programming. The objective of this analysis is to determine whether there are inconsistencies or discrepancies with local governments, and to determine if the goals and mitigation initiatives are considered adequate to address risks posed by the impacts of future disasters. If the findings of this analysis indicated there is an area of concern, then one or more mitigation initiatives may be defined for incorporation into the Strategy. If there is a suitable sponsor identified for an initiative under consideration, then that agency or organization would include the initiative in its portion of the County Strategy.

It is important to emphasize that the Marion County Working Group considers the review and analysis of the goals and mitigation initiatives as an ongoing part of the planning process, just like the other aspects of the process. The Working Group's review was initiated early in the process and continues through each edition of the Marion County LMS.

Although the level of vulnerability to any community varies throughout the County, the review of the "guiding principles" has been based on an assumed equal level of risk throughout the County for every identified hazard. The analysis process consisted of the review of key documents from each local jurisdiction.

Goals and Mitigation Initiatives for Marion County

Goal #1 – Protect human health, safety and welfare

Objectives

1.1 Limit public expenditures in areas identified as subject to repetitive damage from disasters.

1.2 Ensure the protection of critical facilities such as prohibitions on constructing critical facilities in high-hazard areas.

1.3 Reduce or eliminate development in hazard prone areas such as floodplains.

1.4 Implement additional development restrictions in high-hazard areas.

1.5 Consider the use of land acquisition programs for properties subject to development that are in high-hazard areas.

Goal #2 – To increase business, residential and community awareness of hazard mitigation

Objectives

2.1 Effective dissemination of mitigation information

2.2 Implement a strategy to educate interest in obtaining disaster mitigation and preparedness training

2.3 Develop a single clearinghouse to disseminate accurate and consistent information relating to disaster mitigation.

2.4 Identify segments of the community most at risk and develop strategies that will help increase community awareness.

2.5 Maintain a profile of available funding sources for mitigation projects and make it available through the Marion County website.

2.6 Create and maintain a listing of successfully mitigated projects to showcase best practices countywide.

Goal #3 – To ensure adequate training opportunities to support hazard mitigation

Objectives

3.1 Develop ongoing education and exercise curricula for public and private officials in the areas of hazard mitigation and emergency management.

3.2 Support local training opportunities in hazard mitigation construction techniques for building officials, engineers and other public officials.

3.3 Support existing hazard mitigation training efforts.

3.4 Maintain a profile of existing available resources for mitigation training techniques projects.

Goal #4 – To facilitate preparedness measures to mitigate structural hazards

Objectives

4.1 Encourage local municipalities and eligible not-for-profit entities to review site and building plans for hazard mitigation issues and to include storm hardening in the building plans of all municipal structures.

4.2 Encourage retrofitting of existing residential and business structures using disaster mitigation construction techniques.

4.3 Encourage the development of hazard mitigation related building codes and inspection procedures.

4.4 Encourage local governments to implement prioritized hazard mitigation projects.

4.5 Maintain a profile of existing available funding sources for structural mitigation projects and make it available through the Marion County website, press releases (as applicable), and any Marion County newsletters available to the public.

Goal #5 – To facilitate planning initiatives that ensure effective hazard mitigation programs and policies

5.1 In high-hazard rural areas, all regulatory agencies should discourage expenditures of public funds for infrastructure improvements that attract new residential development.

5.2 Develop strategies to reduce risk to healthcare patients and special needs populations within vulnerable areas, including land development code revisions to discourage the construction of new year-round residential facilities for treatment of special needs populations in coastal high hazard areas.

5.3 Encourage 100% municipal participation in the Community rating System (CRS).

5.4 Encourage all municipalities to develop and maintain an all-hazard Comprehensive Emergency Management Plan (CEMP) that is consistent with other county plans and procedures.

5.5 In areas identified by the vulnerability analysis as being a threat due to the presence of hazardous materials, local governments should encourage compatible land uses and improve public safety.

Goal #6 – Develop and enhance regional mitigation efforts

Objectives

6.1 Coordinate with other government agencies to develop regional mitigation efforts

Goal #7 – Promote mitigation partnerships

Objective

7.1 Develop effective partnerships with public and private sector organizations and significant agencies and businesses for future hazard mitigation efforts.

7.2 Coordinate with the East Central Florida Regional Planning Council Resiliency Collaborative Group's resiliency initiatives

Goal #8 - Reduce flood damage in the County

Objectives: Minimize damage due to flooding from stormwater

8.1 Adapt stormwater related flood control measures in the guiding principles including LDC and Comprehensive Plans

8.2 Approval of construction will not take place for any facility within a designated flood hazard area unless mitigation measures are identified and installed. These regulations will be found in the adopted flood control regulations.

Floods and Flood Related Hazards

Reducing flooding is one of the goals followed by mitigation initiatives that the Mitigation Planning Subcommittee selected for emphasis. The following discussion explains the goals that are now in place, based on the current analysis, and discusses the findings in light of enhancements to plans, policies, and programs that are or could be considered as mitigation initiatives for incorporation into the Marion County LMS.

Goals Analysis for Flood Mitigation and Related Programming

Flood Control

All the municipalities (even those in relatively non-flood-prone areas) and the County for the unincorporated areas have adopted some type of stormwater-related flood control measures in their guiding principles. For example, the County requires that adequate stormwater drainage will be provided to afford reasonable protection from flooding and to prevent degradation of quality of the receiving water. The County has

adopted numerous regulations concerning stormwater runoff and flood control. It will not approve construction of any facility within a designated flood hazard area unless mitigation measures as identified in the applicable regulations have been installed by the developer to overcome an identified flood hazard.

Enhancements regarding flood control programming

The analysis, as illustrated, indicated that there is a wide variability in how many of the key "guiding principles" documents stipulate controls and requirements for flood control measures. To the Mitigation Planning Subcommittee, this indicated a need to further assess, in detail, the current County and municipal flood control regulations. Consequently, the Mitigation Planning Subcommittee has recommended the hiring of a consultant to conduct a County-wide study of the various jurisdictions' compliance with FEMA requirements. Of course, if indicated, changes in the local plans and ordinances would be made resulting in program enhancements to control future flood damages.

Stormwater Runoff Level of Service

Due to the vulnerability of central Florida to flood hazards, the preliminary planning efforts have been geared towards this known hazard. This portion of the report is generated from the database material that deals with issues that are associated with stormwater management and conservation, flood control, and pollution control.

The County's Level of Service standard for new and existing development is listed in the following table:

Table VIII.1 Level of Service Standards

	Residential	Commercial	Industrial
City of Belleview (in the city)	69gpcd	462gud	960gud
City of Belleview (outside the city)	74gpcd	979gud	960gup
City of Dunnellon	125gpcd	125gpcd	125gpcd
City of Ocala	176gpcd	176gpcd	176gpcd
Marion County residential	150gpcd		
Marion County nonresidential	2750g/acre/day	150gpcd	150gpcd

All the municipalities and the County require some type of retention/detention systems to handle stormwater runoff from construction sites. They are required to be designed and located to be "compatible with those natural terrain or landscape barriers that protect the site from flooding". The County has adopted a broad goal to "maintain the direction and rate of historical (pre-development) surface water flows" for all proposed developments.

Enhancements regarding stormwater control programming

From the Working Group's perspective, the analysis to date indicates that the issues with enhanced

stormwater control do not lie in the "guiding principles" for this hazard, but rather in the existing infrastructure to effectively handle excess stormwater when it occurs. Therefore, the planning participants have viewed the enhancements needed in stormwater control to be most effectively addressed through structural mitigation initiatives to improve existing drainage projects or develop new projects. This would require additional funding for implementation of all the projects that are indicated as needed. Several such projects have been discussed with County stormwater management engineers, and it is anticipated that several structural initiatives concerning stormwater management will be proposed prior to finalizing the initial Strategy.

Stormwater Runoff and Pollution Control

A search for the mitigation factor "stormwater management" and the mitigation sub-factor of "pollution control" generated ten reports.

Highlights of the reports include the observation that all municipalities and the County have addressed stormwater management and pollution control. The County has adopted many ambitious regulations concerning stormwater and pollution control including a major ordinance adopted in 2009 specifically focused on protecting the natural springs of Marion County through a combination of stormwater controls, landscaping and irrigation standards, and land use regulations.

The County has established a well head protection area (WHPA) of 200' primary and 1,000'secondary from the well head to protect citizens from the effects of polluted stormwater runoff.

Additional control measures that have been enacted to control and reduce exposure to polluted water also include mandatory hook-ups to water and sewer service within calculated distances to Marion County services depending upon the intensity of the residential and commercial uses as well as the mandatory installation of nitrogen reducing septic systems within the Primary Springs Protection area if Marion County sewer services are not available.

Objective - Minimize damage due to pollution from stormwater

8.3 Design retention/detention systems to handle stormwater runoff from construction sites, not simply for final construction

8.4 Create development codes that provide structural mitigation measures to improve existing drainage projects and secondly develop new projects.

Water Use and Conservation

Of the focus areas selected by the Mitigation Planning Subcommittee, water use and conservation would also be related to wildfire control and the availability of water during drought for wildfire suppression. Thirteen reports have been developed which show some of the "guiding principles" that are currently in place to lessen the impact of stormwater runoff as it relates to conservation and nature, and potable water considerations.

The City of Ocala has included regulations regarding landscaping and particularly water conservation using irrigation systems. While the unregulated use of irrigation systems can create a significant draw on the local

water supply system, it can save considerable amounts of water compared to the use of hoses and lawn sprinklers.

Marion County has a regulation that states that the County shall implement water conservation programs and requirements that are consistent with the water conservation policies of the SJRWMD and the SWFWMD. Additionally, the County has adopted new landscape and irrigation regulations promoting the use of water efficient irrigation and use of native and drought tolerant plants on a countywide scale.

Enhancements regarding water conservation programming

Based on the "guiding principles" assessment, there were no clear indications that modifications or enhancements to plans and programs for water conservation were needed at this time for incorporation into the initial edition of the Strategy.

Goal #9 - Reduce water use and conservation to control the availability of water during drought for wildfire suppression

Objective - Minimize damage due to overuse of water

9.1 Adopt conservation regulations regarding types of landscaping allowed as well as type of irrigation systems allowed.

9.2 Approval of construction will not take place of any facility within a designated flood hazard area unless mitigation measures are identified and installed. These regulations will be found in the municipal flood control regulations.

Enhancements regarding hazardous materials control programming

The hazard identification and vulnerability assessment process undertaken by the Working Group has indicated that there are numerous "critical facilities" that exist within the predicted impact zone of facilities using or storing hazardous materials. The results of the "guiding principles" analysis indicates that it may be very helpful to further develop mitigation programming in this area for such activities as:

1) Awareness and educational programs for the special populations at risk
2) Enhanced accident warning systems for special facilities and population
3) Protective action planning to evacuate or shelter-in-place the populations of special facilities that do not currently have such plans
4) Revisiting the existing emergency plans of health care facilities at risk to incorporate shelter- in-place implementation procedures

To date, the planning participants have not had the opportunity to pursue such potential mitigation initiatives but can consider these and other options for initiatives for corporation into the Strategy.

Goal #10 - Reduce danger of critical facilities to potentially hazardous waste releases

Objective: Enhance critical facilities of potential danger.

10.1 Create an education program that critical facilities could provide to their employees

including directions to constructed-in-place shelters.

10.2 Have each municipality provided an early detection and warning system to the critical facilities in the event of a release.

Mobile and Manufactured Homes

The fact that mobile and manufactured homes is an area of focus for the "guiding principles" analysis reflects these structures have relatively greater vulnerability to high winds and flooding impacts. In addition, a high percentage of Marion County residents use this type of structure as their primary residence. Therefore, the hazard identification and risk assessment information presented indicates the large number of such structures at risk within Marion County, as well as their high level of vulnerability to damage from hurricane force winds.

Enhancements to programming for protection of mobile and manufactured housing

A search of the mitigation sub-factor "mobile homes" in the database produced only one report. The City of Ocala requires all new mobile home parks and subdivisions to be located on arterial or collector streets to facilitate movement of mobile home units into and out of the development. This is an indication that the existing "guiding principles" in Marion County may not be effectively addressing the risks to mobile and manufactured housing. This issue was more fully addressed with the promulgation of the State Building Code in 2007. Nevertheless, some of the potential mitigation initiatives that were previously considered by the Working Group for incorporation into the initial edition of the Marion County LMS regarding this program area were:

Goal #11 - Reduce risk of mobile home residents to natural disasters

Objective: Enhance the quality of the homes and specify locations for construction.

11.1 Develop new or enhanced codes regarding the characteristics of mobile home communities to provide enhanced capability in evacuation and/or sheltering from high winds.

11.2 Replace and/or retrofit mobile structures used in community buildings, schools, and local agency operations.

11.3 Propose other such programmatic improvements that would result in increased protection for residents of mobile and manufactured homes.

11.4 Improve enforcement of existing requirements for tie downs.

Objective: Provide education to residents of mobile homes

11.5 Establish a program for retrofitting community centers as storm shelters.

11.6 Distribute weather radios to mobile home community managers and/or residents of mobile homes for advanced warning of severe weather.

11.7 Establish a program for financially assisting economically disadvantaged mobile home residents in their pair or placement of tie downs.

11.8 Provide public education programs in wind and flood mitigation to existing mobile home residents.

The action items that are needed to ensure operability during a storm are primarily the same for all jurisdictions. To better understand which communities should focus on which action items, a spreadsheet was created. In this spreadsheet the values of High (H), Medium (M) and Low (L) have been assigned to each municipality's need to focus their primary mitigation strategies on a particular action item. A definition of the values and their relationship to the action item is described below.

Actions that promote control of hazards

Storm water controls – Stormwater management plans through grants and fees.

- H – Extreme documented flooding in jurisdiction
- M – Some flooding in specific areas
- L – Little to no flooding

Structures to lessen hazard impacts – Hurricane shutters are one of the most cost-effective mitigation measures. All critical public facilities should be "hurricane hardened." New facilities should be built to current structural standards for withstanding hurricane winds.

- H – Many critical facilities without hurricane hardening
- M – Few critical facilities without hurricane hardening
- L – All critical facilities have hurricane hardening

Actions that protect public facilities and infrastructure

Adjust infrastructure location, design – Avoid building new public infrastructure that will encourage growth in high hazard areas. Design new public infrastructure to withstand disasters.

- H – High development rate
- M – Some new development – very few public buildings
- L – New development – primarily private

Retrofit community facilities – Shutters, hurricane clips, roof retrofits, door braces

- H – Many facilities without hurricane hardening
- M – Few facilities without hurricane hardening
- L – All facilities with hurricane hardening

Hazard-proof new community facilities – Assure proper elevation, backup generators, safeguard computers and communications systems.

- H – All public facilities should comply due to potential hazards
- M – Some potential for future hazards
- L – Very little potential for hazards

Site community facilities to maintain services – Site community facilities near trunk lines for utilities. and ensure that access roads don't flood.

- H – Very little development outside city limits
- M – Expanded city limits
- L – Continual development

Actions that promote emergency preparedness and response

Preparedness plan/program – increase communications system and warning procedures for all disasters. Increase weather-monitoring capabilities.

- H – Level of potential hazards
- M – Level of potential hazards
- L – Level of potential hazards

Emergency response plans – Continue ongoing efforts for planning, preparedness and training. Focus on issues identified in needs assessments.

- H – No specific response plan
- M – A limited response plan
- L – Response plan

Evacuation plan/program – Begin with population/ housing analysis possibly following the census. Perform transportation analysis using updated traffic counts and roadway Capacities.

- H – Based on Population
- M – Based on Population
- L – Based on Population

Sheltering plans – Perform structural analysis of shelters and incorporate population analysis.

- H – No hurricane shelters
- M – Small number of shelters
- L – Adequate shelter

Other Program and Policy Enhancements

In conducting the "guiding principles" analysis, the Working Group recognized that there would be a need for enhancements to plans, policies and programs that would not be directly related to a single type of hazard or disaster event. The progress in addressing this area of program enhancement is summarized below.

Post-Disaster or Long-Term Community Redevelopment

A review of the existing "guiding principles" indicated that another area in need of enhancements for plans, programs and policies is in controlling post-disaster redevelopment. A search of the database on this topic indicates the Marion County Comprehensive Emergency Management Plan addresses recovery in a generic sense; for example, it discusses damage assessment, public assistance, and reconstruction. However, the reconstruction discussion describes the technical assistance that is available to obtain funds for redevelopment, without mentioning stricter building codes/standards that may or may not be in effect.

Enhancements to post-disaster redevelopment programming

The existing "guiding principles" do not appear to provide an adequate basis to effectively manage the post-disaster redevelopment process in the aftermath of a major disaster striking the area. Therefore, one of the enhancements to the existing plans and programs will be to propose to develop a comprehensive, multi-organizational planning process to develop a coordinated plan for management of post-disaster redevelopment operations.

Concept Papers for Consideration by the Marion Working Group for LMS Development

Concept Paper #1 Wildfire Risk Management Ordinance

A Proposed Mitigation Initiative to Develop* a *Wildfire Risk Management Ordinance

Origin of the Initiative: The analysis of the guiding principles governing mitigation programming has indicated that there is no comprehensive guidance for the control of wildfire risk in the unincorporated areas of Marion County or in its municipalities. In comparison with the wildfire risk documented by the hazard identification and vulnerability assessment process conducted for Marion County, as well as experience with wildfires, has demonstrated a need for improved capabilities in wildfire risk management.

Summary of the Initiative: The communities at risk from future wildfires, as defined by the hazard identification and vulnerability assessment process, would propose considering for adoption, at a later appropriate time, a comprehensive addition to the land development code to control the wildfire risk of new developments. This proposed code change could encompass the following basic options:

Mandatory vs. voluntary - Developed vs. undeveloped lands
Small vs. large property tracts - Vegetation control only
Control over tract development pattern - Control over landscaping
Provisions for emergency declarations - Specific locations addressed
Changes to any local restrictions on prescribed burning of properties

Possible Sponsors for the Initiative: The County (Fire-Rescue, Planning and Zoning, Growth Management, etc.) for unincorporated areas at risk; Municipal governments for the towns and cities at risk.

Benefits of the Initiative: For those jurisdictions where adopted, and depending on the terms of the proposed code change, the result during future wildfire events could be a reduction in property damage, a lessening of the threat to public health and safety to residents in the urban interface, and minimization of emergency response and disaster recovery costs.

Cost Impact of the Initiative: The cost to develop and promulgate the proposed ordinance would be very small to local governments. However, depending on the terms of the proposed code change, there could be a cost to land developers and owners for compliance.

Likely Funding Source: It would not be necessary to establish a funding source for a code change such as this.

Concept Paper #2 Notification of Special Populations

A Proposed Mitigation Initiative to Improve Notification of Special Populations at Risk and Their Preparedness for Emergency and Disasters

Origin of the Initiative: The hazard identification and vulnerability assessment process has demonstrated that there are several facilities holding special populations, as well as special needs individual's resident among the general population, that are vulnerable to a variety of natural and technological disasters. Several of these types of disasters have the potential for rapid onset or escalation. Currently Marion County does not have the means to rapidly notify these individuals at risk, and they are typically not prepared to promptly take effective protective actions.

Summary of the Initiative: Marion County and its municipalities need a mechanism to quickly notify these facilities and individuals of a threatening emergency and to have assurance that effective protective actions will be taken. Currently, there is uncertainty as to the optimum way to make these notifications, and guidance for emergency response planning for different types of facilities is limited. Therefore, a study of the optimum notification mechanism for special facilities will be conducted and, as a part of the study, one or more types of effective emergency planning guidance will be defined to address the needs of the facilities and prepared for distribution.

Possible Sponsors for the Initiative: The County's emergency management agency may be the most appropriate sponsor, with the cooperation of other County and municipal agencies who deal with the needs of special populations and special needs individuals. State agencies responsible for health care facilities could also be involved.

Benefits of the Initiative: The Initiative would create an increased capability to protect the health and safety of special populations and special needs facilities once the notification system was in place and the planning guidance distributed and used.

Cost Impact of the Initiative: The costs of the Initiative would be for time and services of personnel in the study of the notification systems needed and development of the guidance documents. An estimated cost of $75,000, for both activities, to enlist the services of a private consultant specializing in this type of service would be a close approximation. Additionally, follow-up costs would be necessary for the purchase and installation of the notification system and the distribution and utilization of emergency planning guide documents.

Likely Funding Sources: Likely funding sources could be a competitive grant from the Florida Division of Emergency Management or from federal grants for programs to support the elderly, economically disadvantaged, or the handicapped.

Concept Paper #3 Post Disaster Redevelopment Plan

A Proposed Mitigation Initiative to Prepare a Comprehensive Post-Disaster Redevelopment Plan

Origin of the Initiative: Review of the existing guiding principles for Marion County and its municipalities indicates that there is no comprehensive plan for guiding and managing the redevelopment of the impacted community in the aftermath of a major disaster.

Summary of the Initiative: Request resources to prepare a County-wide, comprehensive redevelopment plan for management of local government operations in the redevelopment of the impacted communities. The planning would involve County and municipal agencies, and perhaps key elements of the private sector. The plan would address redevelopment issues such as issuance of building permits, construction inspection, contractor qualification, support to impacted businesses and industries, demands on local agencies and personnel, etc.

Possible Sponsors for the Initiative: The County would be the most likely sponsor of this initiative, perhaps utilizing an approach establishing a lead County agency, such as land planning, growth management, permitting and inspection, with other designated support County agencies, such as emergency management, utilities, etc.

Benefits of the Initiative: The availability of a comprehensive, county-wide redevelopment plan would have many benefits in the aftermath of a major disaster. The policies and requirements governing reconstruction of damaged properties, utilities, and the infrastructure would be established. Plans would also be in place to mobilize the additional resources needed at the County and municipal level to expedite the effective and efficient process of helping the community return to normalcy. This plan would enable local governments to speed the reconstruction and redevelopment effort without unwarranted compromise to ensuring the future "disaster-resistance "of the rebuilt communities, minimizing the overall economic and human costs of the event.

Costs Impact of the Initiative: The costs of the Initiative would be for the time and materials needed by County and municipal personnel to meet for decision-making, gather information, prepare documentation, and seek promulgation of the plan by local governing bodies. If desired, a budget for contracting with a consultant to assist in the planning process could be incorporated into the initiative. Overall, an estimated cost of $50,000 to $75,000 could be anticipated.

Likely Funding Sources: A variety of funding sources could be considered for implementation, including local government budgeting, hazard mitigation grant program funding, or funding under the State's Emergency Management and Preparedness Trust Fund (Competitive grant program).

Concept Paper #4 Increase Flood Awareness

A Proposed Mitigation Initiative to Increase Awareness of Flood Hazards and the Need for Flood Insurance

Origin of the Initiative: A survey of both the public and local businesses has indicated that there is a lack of awareness of the flood hazard in areas of Marion County and its municipalities among a significant portion of the respondents. In addition, the surveys have also indicated that significant portion of the property and business owners located in the floodplain do not have flood insurance.

Summary of the Initiative: The proposed initiative would consist of developing and implementing County-wide educational program for both the public and businesses located in the special flood hazard areas. This program could consist, as desired, of the following elements:

> Identification of the properties at risk - Development of educational materials Identifying agents selling flood insurance - Promoting the flood insurance purchase Encouraging flood proofing - Advanced disclosure to property buyers

Possible Sponsors for the Initiative: This Initiative could be sponsored on a County-wide basis by a single agency from the County, with the cooperation of each participating municipality having properties at risk from flood. Insurance agents or associations of agents may wish to cooperate in promoting the purchase of flood insurance. Chambers of Commerce and business associations may be interested in promoting the program to business owners. Mortgage lending institutions and/or Realtors could also be interested, positively or negatively, in the question of advanced disclosure of risk.

Benefits of tile Initiative: The proposed program would be expected to increase the percentage of property and business owners who purchase and maintain flood insurance, thereby lowering the economic impacts of future flood disasters.

Costs Impact of the Initiative: The costs for the Initiative would be for the identification of properties at risk, development of educational materials, and their distribution. Additional costs may be necessary to publicize the program to the community at large to achieve a higher percentage of participation. There would be a cost impact of the program to those property owners purchasing flood insurance for the first time.

Likely Funding Sources: A proposed mitigation initiative such as this would probably be eligible for state funding under the Hazard Mitigation Grant Program, the Flood Mitigation Assistance Program, the competitive County or municipal grant program of the Florida Division of Emergency Management, or similar mitigation-related funding program.

Concept Paper #5 Mobile and Manufactured Housing

A Proposed Mitigation Initiative to Improve Hazard Mitigation Programming for Mobile and Manufactured Housing Residents

Origin of the Initiative: The hazard identification and vulnerability assessment process for Marion County has indicated that there are several mobile and manufactured home communities that are vulnerable to the impacts of high winds, flooding, and wildfires. The guiding principles analysis has also indicated that the County and its municipalities do not currently have specific programs or requirements that address these risks.

Summary of the Initiative: The County and those municipalities having mobile and/or manufactured home communities of significant size would develop programs appropriate to their own needs in areas such as:

Inventorying of existing homes by age/type - Survey of condition of homes
Promulgation of codes for new communities - Funding for home retrofitting
Community-specific vulnerability assessment - Community education programs
Warning and notification systems - Storm shelter development
Community-based emergency planning - Risk disclosure to residents

Possible Sponsors for the Initiative: Development of this program may be the most effective if done on a consistent, county-wide basis. Local governments would have the statutory authority to implement such functions as code promulgation and code enforcement inspections, and the appropriate agency within the

County or its municipalities would be the sponsor if these components are included. Community associations and/or management may be suitable for sponsoring educational components. County and/or municipal emergency services agencies may be good sponsors for vulnerability assessment and emergency planning program components.

Benefits of the Initiative: The higher vulnerability of the residents of mobile and manufactured homes to disaster-related safety risks would be decreased. Depending on the specific components of the proposed program, property damage from future disasters could also be minimized.

Costs Impact of the Initiative: The costs and/or cost impact of the Initiative would vary with the scope of the programs proposed and their components. Generally, there could be personnel costs for program development, design and construction costs for retrofitting programs, and cost-impacts to property owners for meeting the requirements of any codes to be promulgated. Risk disclosure could be claimed to have a cost impact as well.

Likely Funding Sources: Probably funding sources would vary with the program components included. State hazard mitigation grant programs may be suitable for construction and retrofitting. Funds for defined populations, such as low income, may also be available. Community associations and management may be appropriate sources for funding education programs.

Concept Paper #6 Evacuation Routes

A Proposed Mitigation Initiative* of *Hazards Threatening Evacuation Routes

Origin of the Initiative: The hazard identification and vulnerability assessment process has indicated that designated evacuation routes within Marion County and several municipalities are threatened with flooding, debris blockage and other types of hazards. To protect the capability to evacuate, it is necessary to eliminate or minimize these types of hazards.

Summary of the Initiative: All evacuation routes important to the effective evacuation of specific neighborhoods, or to supporting regional hurricane evacuation that are vulnerable to localized flooding would be defined and mitigation initiatives proposed for implementation (e.g., roadway elevation, storm drainage improvement, etc.)

Possible Sponsors for the Initiative: The sponsors selected for this initiative would depend on their responsibility for the roadways of concern. Potential sponsors could include State, County or municipal highway departments, perhaps in conjunction with the County or municipal agency responsible for public works or storm water management.

Benefits of the Initiative: Upon completion of the construction, the greater assurance that evacuation routes will remain available to traffic when needed could reduce evacuation times and help protect the lives of evacuating populations. In most cases, evacuation routes are also the principal roadways serving the community.

Costs Impact of the Initiative: Costs for the initiative would depend on the number of roadways requiring attention, and the scope of the corrective project selected for each point of vulnerability. Costs would likely be

significant in view of the construction-related nature of each project.

Likely Funding Sources: Funding sources could include those typically used for capital improvement projects of this type, such as highway and public works funds. In addition, due to the mitigation- related purposes of these projects, Hazard Mitigation Grant Program and Flood Mitigation Assistance Program may be available.

Concept Paper #7 Business Emergency Preparedness

A Proposed Mitigation Initiative to Develop and Implement* a *Comprehensive Business Emergency Preparedness Program

Origin of the Initiative: A survey of businesses and industries conducted by the Marion County Working Group indicated that there is a significant portion of the County's private sector that is not fully prepared to respond to and recover from future disasters.

Summary of the Initiative: A comprehensive package of awareness, education and guidance materials would be prepared and made available to the private sector. This package, as desired, could consist of one or more of the following:

Awareness information on risk areas - A "model" emergency response plan
A "model" business recovery plan - Information on flood insurance availability Data on business interruption insurance - Workshops on emergency preparedness Creating a business assistance center - Creating a business ESF for the County Establishing a mitigation loan fund - Creating a preparedness award program

A "refresher" package of similar material, or a program of implementation monitoring, could be included in the initiative to maintain the program in future years.

Possible Sponsors for the Initiative: Sponsors from the private sector would probably be the most effective, and could include chambers of commerce, economic development agencies, business roundtables, etc. Insurance companies or associations may also be interested. Public sector sponsors could include County emergency management agencies or business promotion and support offices.

Benefits of the Initiative: Initial implementation and continuing maintenance of the program would result in a business community less vulnerable to extended loss of operation or complete closure as the result of future disasters. This would avoid loss of jobs, purchase of goods and services, and tax revenue generation after future disasters. Depending on the size and characteristics of the businesses participating, the savings could be very substantial.

Costs Impact of the Initiative: Costs would be for the development of the informational and guidance materials, and the resources needed for the implementation method utilized. If a revolving business mitigation loan fund was included in the program, an initial principal amount would be required. If development of a business ESF or a business disaster assistance center was included, the costs for the personnel resources needed for the planning should be considered.

Likely Funding Sources: Funding sources could depend on the scope and characteristics of the program selected as the initiative. Private sector organizations may be interested in funding the educational components of the program, while insurance and banking interests may have an interest in insurance and loan programs.

Initiative/Project Scoring and Prioritization Procedures

This procedure is for the development and maintenance of the Marion County Local Mitigation Strategy (LMS) Mitigation Initiative/Project Listing to prioritize those projects listed in the LMS document. The goal is to provide objective and consistent standards for the LMS Steering Committee for the evaluation, scoring, and prioritization of projects to allow for an effective comparison of projects when potential funding sources become available.

Overview

The scoring/prioritization process is necessary to identify and establish a prioritized list project for the LMS document. Scoring using the information provided by the Mitigation Initiative/Project Application submitted for each project. Scoring projects intends to incorporate three basic considerations:

1. Consider all foreseeable significant decision factors involved in the merit and feasibility of implementing the proposed project,
2. Provide a uniform method to numerically quantify projects for scoring and ranking and support potential computerization of the scoring/prioritization,
3. Provide a uniform method to evaluate projects regardless of their origin, restrictions, and purposes by assessing each project individually to determine the resulting score and prioritization including for the funding situations.

Decision Factors

In all cases, the LMS Steering Committee will score the projects based only on the "worst case" analysis, using the information provided on the Mitigation Initiative/Project Application. The analyses conducted for the "most likely" situation will be useful during the application process for funding or other approval/permitting steps. The higher the numerical score of the project, the higher the overall priority of the project by the LMS Steering Committee.

The scoring procedure in the 2025 LMS Five-Year Plan is identical to the system that was utilized under the 2020 LMS Five-Year Plan. As new projects are reviewed and ranked annually, maintaining the same system allows for consistency within the ranking process.

The decision factor categories considered for scoring are:

1. The population benefited
2. The percentage of the jurisdiction benefited
3. Health and safety considerations
4. The cost of implementing the project
5. The cost impact of the initiative
6. The benefit to cost / cost impact ratio
7. The probability of community acceptance
8. The probability of funding

9. The feasibility of implementation
10. Consistency with other plans and programs

The rankings assigned to each factor are explained below.

Scoring for Prioritization Decision Factors

Total Population Benefited

This decision factor accounts for the total number of people that would be directly or indirectly benefited by implementation of the proposal, reflecting the likely importance to the County of the initiative.

Score	Description of Decision Factor
4	76 to 100% of the total County population (BEBR)
3	51 to 75% of the total County population (BEBR)
2	26 to 50% of the total County population (BEBR)
1	6 to 25% of the total County population (BEBR)
0	Less than 5% of total County population (BEBR)

Percentage of Jurisdictions Population Benefited

This decision factor allows for consideration of the percentage of the population within a defined jurisdiction that would directly or indirectly benefit from implementation of the initiative, reflecting the likely importance t the specific jurisdiction of the initiative.

Score	Description of Decision Factor
4	76 to 100% of the jurisdiction's population
3	51 to 75% of the jurisdiction's population
2	26 to 50% of the jurisdiction's population
1	6 to 25% of the jurisdiction's population
0	Less than 5% of the jurisdiction's population

Health and Safety Considerations

This decision factor is the second step in adding weight to the importance of the human health and safety benefits that are to be derived from implementation of the initiative. (The first step was the multiplier applied to the estimated benefit to cost ratio of the proposed initiative during the preparation of the form "Characterization of proposed mitigation Initiatives".)

Score	Description of Decision Factor
4	76 to 100% of the total County population (BEBR)
3	51 to 75% of the total County population (BEBR)
2	26 to 50% of the total County population (BEBR)
1	6 to 25% of the total County population (BEBR)
0	Less than 5% of total County population (BEBR)

The Cost of the Initiative

This decision factor considers the cost of implementing the initiative.

Score	Description of Decision Factor
4	No quantifiable cost to implement the initiative
3	The cost is estimated to be less than $250,000
2	The cost is estimated to be between $250,000 and $1,000,000
1	The cost is estimated to be between $1,000,000 and
0	The cost is estimated to be over $5,000,000

The Cost Impact of the Initiative

The decision factor considers the cost impact of implementing the initiative. The values are the total over the anticipated life of the initiative.

Score	Description of Decision Factor
4	No quantifiable cost to implement the initiative
3	The cost is estimated to be less than $250,000
2	The cost is estimated to be between $250,000 and $1,000,000
1	The cost is estimated to be between $1,000,000 and
0	The cost is estimated to be over $5,000,000

The Benefit to Cost/Cost Impact Ratio

This decision factor considers the benefit to cost ratio, adjusted for health, safety, and valuable resource protection, of implementing the initiative.

Score	Description of Decision Factor
4	The adjusted benefit to cost ratio is 5.0 or more
3	The adjusted benefit to cost ratio is 4.0 to 4.9
2	The adjusted benefit to cost ratio is 3.0 to 3.9
1	The adjusted benefit to cost ratio is 2.0 to 2.9
0	The adjusted benefit to cost ratio is 1.0 to 1.9

The Probability of Community Acceptance

This decision factor considers the likelihood that the community will accept implementation of the initiative as it is currently planned by the proposed organization.

Score	Description of Decision Factor
4	This initiative is likely to be endorsed by the entire community
3	The initiative would benefit only those directly affected and would not adversely affect or be noticed by the remainder of the community
2	The initiative would be somewhat controversial with and/or opposed by special interest groups or a small percentage of the general population
1	The initiative would be strongly opposed by special interest groups or a significant percentage of the general population
0	The initiative would be strongly opposed by nearly all the general population and special interest groups

The Probability of Receiving Funding for Implementation

This decision factor considers the likelihood that the appropriate officials or agencies would fund the project adequately for its implementation as proposed. The scoring approach for this decision factor relies on the concept that the potential for difficulty in funding means that the initiative should be ranked higher than for one for which funding can be easily secured. This reflects the assumption that one of the fundamental purposes of the Marion County Local Mitigation Strategy is to provide funding for meritorious initiatives which otherwise may not be funded in a timely manner.

Score	Description of Decision Factor
4	No potential funding sources for this initiative can be readily identified
3	The only potential funding source is post-disaster mitigation funds
2	Funding could only be accomplished through matching local dollars with funds from other sources; or would require a mixture of funding sources
1	Funding can probably be obtained through locally controlled long-term budgeting (more than 2 years) or grants for this type of initiative are known to be available and the chance of successful application is moderate
0	Funding is available through locally controlled short-term budgeting (less than 2 years) or a grant for this type of initiative is known to be available and the chance of successful application is high

The Feasibility of Implementation

This decision factor considers issues that are influential to the feasibility of implementation of the initiative from an administrative or managerial perspective. The following list of considerations is to be evaluated for the proposed initiative.

- The time evolved for planning and/or completion
- The requirement to involve numerous agencies and/or jurisdictions
- The type, number and time needed to secure permits and approvals
- The initiative would require a referendum vote by the general public
- The initiative would require a public hearing and/or commission/council approval

Score	Description of Decision Factor
4	The initiative would be relatively easy to put in place within a year.
3	The initiative is not anticipated to be difficult to put in place because none of the considerations listed is applicable or would only have minimum influence on the implementation process.
2	The initiative is somewhat difficult to put in place because one of the considerations listed is applicable and implies significant influence on the implementation process
1	The initiative is difficult to put in place because two of the considerations listed are applicable and imply significant influence on the implementation process.
0	The initiative is very difficult to put in place because three or more of the considerations listed are applicable and imply significant influence on the implementation process.

Consistency with other Plans and Programs

This decision factor is used to consider the level of consistency that the mitigation initiative has with other current plans and programs that have been previously approved, accepted or utilized by the community to be affected or benefited by the initiative. The premise here is that proposed mitigation initiatives should be ranked

higher if they are consistent with these other plans and programs, rather than if they are inconsistent or in conflict with the goals and objectives of generally accepted guiding principles.
The following types of plans, policies and programs to be considered under this decision factor are the following:

The goals and objectives of the Marion County Local Mitigation Strategy

The jurisdiction's comprehensive growth management plan

The jurisdiction comprehensive emergency management plan and/or the Marion County Comprehensive Emergency Operations Plan

Any applicable land development code, zoning ordinance, or land use plan

Any applicable environmental resource preservation or protection plan, policy or ordinance

Any other applicable local, state or federal law of regulation

Score	Description of Decision Factor
4	The initiative is incorporated into at least three of the documents listed, or judged to be highly consistent with all
3	The initiative is incorporated into at least two of the documents listed, or judged to be highly consistent with all documents
2	The initiative is incorporated into at least one of the documents listed, or judged to be highly consistent with all documents
1	The initiative is not known to be incorporated into any of the documents listed, and there is uncertainty whether it is inconsistent with or in conflict with any of the documents listed
0	There is some anticipation that the initiative may have inconsistencies and conflicts with any of the documents listed, but additional analysis is necessary to determine if such conflicts are irresolvable

Funding Sources

These sources described below are administered through the State of Florida and consider hazard mitigation as a main priority in their funding criteria. It is recommended that further information on any of these grants funding sources be investigated by accessing the respective agency website.

Hazard Mitigation Grant Program

The Hazard Mitigation Grant Program (HMGP) operates under the authority of Public Law 100707, the Robert T. Stafford Disaster Relief and Emergency Assistance Act. There are two (2) hazard mitigation programs authorized under the Stafford Act. The site-specific mitigation under Section 406 of the Stafford Act is part of each Damage Survey Report that is written if authorized by the federal/state/local officials and is in accordance with any applicable rules and regulations. This type of mitigation receives 75 percent federal money and requires a state/local match of 25 percent. However, the State of Florida will currently provide half of the 25% match for grant applications that are awarded HMGP funds.

The HMGP under Section 404 provides 75/25 matching funds to eligible applicants to implement immediate and long-term hazard mitigation measures. A total of up to 15 percent of the combined public assistance and individual assistance programs are available to fund hazards mitigation projects.

These measures will be consistent with the state's Hazard Mitigation Administrative Plan and the Hazard Mitigation Plan developed in response to the planning requirements of the Stafford Act. The HMGP is used to fund projects to protect either public or private property.

Examples are:

> Structural hazard control or protection, such as debris basins or stormwater facilities. Retrofitting of critical facilities, such as flood proofing or installation of hurricane shutters. Property acquisition, relocation, and elevation to protect structures from future damage. Development of state and local mitigation standards, and comprehensive mitigation plans or programs with implementation as an essential component.

Public Assistance Funding

Section 406 of the Stafford Act authorizes funding to local governments for cost-effective repairs, restoration, reconstruction, or replacement of a public facility damaged or destroyed by a major disaster. This funding is site specific and must be tied to specific damaged facilities.

The Federal Coordinating Officer may authorize hazard mitigation measures that are necessary for compliance with codes and standards if the measures are in public interest and the following conditions are met:

1. The mitigation measures will substantially reduce or eliminate the risk of recurring damage to the facility.
2. The measures reflect sound engineering and construction practices.
3. The measures are cost-effective.
4. Applicable environmental and floodplain management requirements have been met.

It is important that the State Hazard Mitigation Officer work with the Hazard Mitigation Engineer when inspecting the damage to make site specific recommendations for incorporating hazard mitigation measures into necessary repairs and to include them in the Damage Survey Reports.

Emergency Management Preparedness and Assistance Trust Fund

The Emergency Management Preparedness and Assistance Trust Fund (EMPA) consists of two competitive grant programs: The Emergency Management Competitive Grant Program and the Municipal Competitive Grant Program. Both programs are designed to implement projects that will further State and local emergency management objectives. The Notice of Funding Availability (NOFA) to open grant cycles for the EMPA grant programs are published in the Florida Administrative Weekly. Examples of eligible activities include:

- Storm Shelter and critical facility retrofitting and equipping. Informational studies relating to evacuation scenarios, hurricane insurance risk assessment, transportation methodologies.
- Operational readiness and response equipment (such as radios, potable water delivery system, search and rescue equipment, warning/alert devices).
- Public disaster education projects, including individual training, radio and television public service announcements, brochures/ publications.
- LMS development activities.

Building Resilient Infrastructure & Communities (BRIC)

Building Resilient Infrastructure and Communities (BRIC) support states, local communities, tribes and territories as they undertake hazard mitigation projects, reducing the risks they face from disasters and natural hazards. BRIC is a new FEMA pre-disaster hazard mitigation program that replaces the existing Pre-Disaster Mitigation (PDM) program.

The BRIC program guiding principles are supporting communities through capability- and capacity-building; encouraging and enabling innovation; promoting partnerships; enabling large projects; maintaining flexibility; and providing consistency.

- Conducting a capability gap analysis (or partner network analysis) to determine where partnerships could be helpful or where funding matching opportunities can be leveraged
- Providing or attending training on evaluating, pursuing, or sustaining partnerships
- Supporting partner identification or partnership development activities (e.g., hosting a partner fair, pursuing
- initiatives with higher education institutions, engaging with economic development organizations)
- Involving private-sector and Community-Lifelines operators, such as health and medical, energy, and transportation service providers, in the mitigation planning processes
- Developing a partner database or online portal to submit and share partnership case studies
- Pursuing opportunities for knowledge transfer between partners (e.g., mentoring or shadowing programs)
- Attending state, local, tribal, territorial, regional, or national conferences to support knowledge sharing and partnership development

- Hosting a forum to share best practices and lessons learned or conducting mitigation-related tabletop exercises to build relationships
- Sustaining existing partnership initiatives or capitalizing on existing networks
- Implementing other innovative partnership approaches identified by the Applicant or sub-applicant to meet stated needs

Flood Mitigation Assistance Program (FMAP)

The Florida Division of Emergency Management in coordination with the Federal Emergency management Agency administers the FMAP which is a pre-disaster grant program. Planning is the foundation of flood mitigation. Therefore, the State of Florida and FEMA encourage local governments to identify ways to reduce their risk of flood damage by preparing Flood Mitigation Plans.

Planning grants may be provided to local governments to develop or update the flood portion of Local Mitigation Strategies. Project grants are available to owners of repetitively flooded structures to reduce flood losses. Examples of projects include:

- Elevation of structures insured by the National Flood Insurance Program (NFIP).
- Acquisition of NFIP insured structures and real property.
- Relocation or demolition of NFIP insured structures.
- Dry flood proofing of NFIP insured structures.
- Minor localized drainage projects.
- Beach re-nourishment activities.

Florida Communities Trust

The Florida Communities Trust Program (FCT) provides approximately $66 million annually to local governments. Small local governments with a population of less than 10,000 are eligible for a 100% grant award. The amount of any award or combination of awards to an applicant cannot exceed ten percent of the advertised amount of available funding. Application cycles are announced in the Florida Administrative Weekly at least 75 days prior to each application deadline.

The FCT program offers incentives to assist local governments in protecting resources identified in the comprehensive plan. FCT helps to implement conservation, recreation, open space, and coastal management elements. FCT provides financial and technical assistance to acquire lands that conserve natural resources, correct undesirable development patterns, restore degraded natural areas, enhance resource values, restore deteriorated urban water fronts, reserve lands for later purchase, use innovative land acquisition methods, and provide public access to surface waters.

Florida Small Cities Community Development Block Grant (CDBG)

In addition to the long-established CDBG entitlement programs the state allocates funding for a Neighborhood Revitalization program and an Economic Development program. Typical activities that are eligible for the Revitalization program are:

- Construction of water and sewer lines
- Construction of streets and neighborhood facilities
- Sewer and water system hookups
- Upgrades to systems in low to moderate income neighborhood housing.

Typical activities eligible for funding under the Economic Development program are:

- Assistance to local businesses in retaining or creating jobs.
- Public infrastructure is necessary for business to locate at a desired site.

The CDBG program will also allocate funding to affected areas following Presidentially declared disasters. Current priorities are acquisition of repetitive loss properties, elevation of structures, and drainage projects. As always, CDBG grant funding focuses on low to moderate income households.

Florida DEO Disaster Recovery Initiative

The Department of Economic Opportunity operates a disaster recovery initiative funded by CDBG funds. Disaster Recovery projects rehabilitate damaged housing and infrastructure and strengthen housing and public structures. Residential recovery funds have been used to repair storm-damaged houses, provided funding for buy-outs, and relocation for flood plain residents. Infrastructure funds provide funds for storm water, sewer, drainage, and street improvements. CDBG Disaster Recovery funds are made available to states and local governments designated by the President of the United States as disaster areas. Communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program.

Disaster Recovery funds are most appropriate for long-term recovery needs. Grantees may use funds for recovery efforts that involve housing, economic development, infrastructure and prevention of further damage to affected areas. Activities must meet at least one of three program national objectives:

- Benefit people with low and moderate income
- Aid in the prevention or elimination of slums or blight
- Meeting other urgent community development needs

Other Emergency Related Funding Sources

These funding sources are not specifically targeted by the LMS, however they are included to give a more complete overview of disaster-related funding sources.

Small Business Administration (SBA)

Once implemented, the SBA program can offer low interest rates to individuals and businesses for refinancing, repair, rehabilitation or replacement of damaged property (real and personnel). Loans may be available to businesses which have suffered an economic impact as the result of the disaster. An SBA declaration can be made independently or in concert with a Presidential disaster Declaration. There must be a minimum of 25 homes or businesses with 40 percent or more uninsured losses and/or five businesses with substantial economic or physical losses.

Temporary Housing

In the event of a Presidentially declared disaster, the FEMA managed Temporary Housing Program may be authorized to meet the housing needs of victims. The program has several components including:

1. Mortgage and Rental Assistance Program Individual and Family Grant Program

   Applicable to individuals or families who have received written notice of eviction or foreclosure due to financial hardship caused by the disaster.

2. Rental Assistance

   Provided to homeowners or renters, whose dwelling is determined unlivable as a direct result of the disaster.

3. Minimal Repair Program

   This program provides money for owner occupied primary residences which have sustained minor damage and are unlivable as a direct result of the disaster.

4. Mobile Homes or Other Readily Fabricated Dwellings

   When all other avenues are exhausted, FEMA may initiate the mobile home program. Such homes are moved to, or near, the disaster site and set up.

The Individual and Family Grant Program provides grants up to $10,000 to help families meet serious needs and necessary expenses that are not covered by other governmental assistance programs, insurance, or other conventional forms of assistance. Financial aid can be provided in the following categories:

- Medical expenses
- Transportation costs
- Home repairs

- Replacement of essential property
- Protective measures
- Funeral expenses

75 percent of the costs are funded by FEMA and 25 percent funded by the state and/or local government.

Disaster Unemployment Assistance

Individuals unemployed because of a major disaster and not covered by regular state or private unemployment insurance programs, will be eligible for unemployment benefits. The weekly compensation received will not exceed the maximum amount of payment under Florida's Unemployment Compensation Program and may be provided until an individual is re-employed or up to 26 weeks after the major disaster is declared, whichever is the shorter period.

Farmers Home Administration (FmHA)

Low interest disaster loans are made available to farmers, ranchers and agricultural operators for physical or production losses. Loans of up to 50 percent of the loss are made available to farmers, ranchers and agricultural operators for physical or production losses. Loans of up to 50 percent of the loss or $500,000 (whichever is less) may be made to either the tenant or owner of the agricultural business.

Income Tax Service

The Internal Revenue Service helps victims identify ways in which the disaster affects their federal income tax. Casualty loss credits, early tax refunds and information on lost documentation are some services available to disaster victims.

Food Coupons

Emergency food coupons may be made available to disaster victims. This program is administered by the U.S. Department of Agriculture at the federal level and DHRS at the state level. Length and eligibility for receiving food coupons will be determined by the President.

Community Outreach

FEMA and state officials will conduct "outreach" activities to inform disaster victims concerning what programs are available, where the DACS are located and hours of operations. This outreach will be accomplished by utilizing all media resources and by assembling and deploying outreach teams to remote areas to inform residents of assistance efforts.

Disaster Related Stress Management

Professional services are provided to help relieve disaster related stress and prevent the development of added physical and mental health problems.

Florida Department of Insurance

Assistance and information about resolving insurance claims are provided.

National Fire Programs

Project Grants; Use of Property, Facilities, and Equipment; Provision of Specialized Services Direct Financial Assistance. These programs are administered by a variety of forestry and land management agencies at State and Federal agencies.

Federal Funding Sources

Attached as Appendix "I" is a description of many different federal funding sources related to disaster relief. This information is intended to serve as a starting point for County and Municipal Officials, Nonprofit organizations and businesses to use in identifying sources of assistance.

Cost-Benefit Analysis

One of the important aspects to the LMS is the product, which is a listing of projects a jurisdiction wishes to get funded. The projects get funded through a variety of grants and opportunities. To receive many of the mitigation grants a requirement includes being on the LMS list but also establishing a "benefit" and "cost" analysis of the project that the jurisdiction wishes to complete.

The benefit-cost analysis can be completed with software provided by FEMA. The program considers what future damages and losses are possible and the benefits are the reduction in expected damages. The cost is the amount needed to implement an action that will provide a greater benefit. Normally it is not too hard to figure out the cost – especially if a new structure is being designed. The benefits are harder because the severity of a storm and the probability may be opposite. For example, a hurricane's probability is low – but the severity is high. Some benefits to include in the analysis are damage to buildings, damage to business operations, and displacement of inhabitants, rental loss, and nonprofit function loss. Also make sure that the benefits are calculated for the life of the project and not just directly after completion.

There is a lot of confusion about the benefits of mitigation. Obviously, there are higher benefits for mitigation to a building that is in the 10-year floodplain versus one that is in the 500-year floodplain. Yet a low-occupancy

building, receiving funding in a 10-year floodplain is also not as beneficial. So, most of the projects gain the most benefit points by suggesting mitigation for critical facilities including hospitals, fire stations, assisted living facilities and schools. Also keep in mind that "cost effective" is a big key to having a project funded. Each project then is scored against itself - there can be no comparison because each project has a myriad of possibilities. Make each project count by establishing a convincing cost-benefit analysis.

Incorporate the Requirements of the Mitigation Plan into Other Planning Mechanisms

Marion County's growth and development is guided by its comprehensive plan, land development code and zoning regulations. Due to the nature of the comprehensive plan the LMS plan will be updated and implemented on a more frequent basis than the local comprehensive plan. The projects listed in the LMS are projects that the communities need in a timely manner. Many projects will be completed on a time scale not related to the comprehensive plan's updates. When the time arrives for an update to the comprehensive plan the LMS plan will be observed for trends in capital improvement initiatives. The projects nominated that have not been completed can be included in a general fashion to guide the capital improvements element of the comprehensive plan.

Also, the comprehensive plan reviews issues such as impact fee and future land use. Reviewing the LMS plan will provide the planners of Marion County with a tool that takes the public, private, government and specifically emergency management and looks at what their emergency management concerns are.

When making Changes in the Land Development Code (LDC), staff should refer and review the LMS. At times, changes in the development codes could alleviate persistent problems, creating less vulnerability to future structures. Another plan that should look at the LMS to learn about problem areas and needed projects includes water resource studies to evaluate the current condition of the water supply and look at key flooding issues. The underlying goal of the LMS regarding local jurisdictions will be to educate and inform the departments on the types of projects Marion County is considering implementing through mitigation funding.

Another plan that should look at the LMS to learn about problem areas and projects needed includes Water Resource Studies to evaluate the current condition of the water supply and look at key flooding issues. The underlying goal of the LMS regarding local jurisdictions will be to educate and inform the departments on the types of projects considered for implementation through mitigation funding.

Individual Action Items for Each Jurisdiction Requesting FEMA Approval of or Credit for the Plan

For FEMA program funding these mitigation measures must be cost effective, environmentally sound and technically feasible. The local jurisdiction and the state must prioritize measures based on these criteria. The Marion County Working Group covers several jurisdictions. The action items identified were based upon a county-wide approach to needed mitigation. Therefore, each municipality is responsible for the implementation of the actions they see are needed for their community. All the actions below will not be implemented by each of the municipalities in Marion County.

- Stormwater controls – Stormwater management plans through grants and fees.
- Structures to lessen hazard impacts – Hurricane shutters are one of the most cost-effective mitigation measures. All critical public facilities should be "hurricane hardened." New facilities should be built to current structural standards for withstanding hurricane winds.
- Adjust infrastructure location, design – Avoid building new public infrastructure that will encourage growth in high hazard areas. Design new public infrastructure to withstand disasters.
- Retrofit community facilities – Shutters, hurricane clips, roof retrofits, door braces.
- Hazard-proof new community facilities – Assure proper elevation, backup generators, safeguard computers and communications systems.
- Site community facilities to maintain services – Site community facilities near trunk lines for utilities and ensure that access road don't flood.
- Preparedness plan/program – Increase communications system and warning procedures for all disasters. Increase weather monitoring capabilities.
- Emergency response plans – Continue ongoing efforts for planning, preparedness and training. Focus on issues identified in needs assessments.
- Evacuation plan/program – Begin with population/ housing analysis, possibly following the 2010 census. Perform transportation analysis using updated traffic counts and roadway capacities.
- Sheltering plans – Perform structural analysis of shelters and incorporate population analysis.
- Programs and actions that promote financial assistance for local governments
- Finance mitigation with grants – Attend grant writing workshops. Form strategies to "bundle" several funding sources together.
- Seek financial aid for local government planning – Incorporate hazard mitigation studies with comprehensive planning activities (i.e. population analysis, transportation studies, development trends etc.)
- Develop planning and project revenue sources – For example: Earmark a portion of impact fee assessments for mitigation activities.

- Seek financial aid to local governments for retrofitting structures – Attend grant writing workshops to stay current on new initiative at the federal and state levels.
- Seek financial aid to local governments for acquisition – identify repetitive loss areas that better fit the criteria for acquisition
- Programs and actions that control new development
- Building standards – Participate in and stay current regarding the development of a unified Florida Building Code through the Building Code Study Commission.
- Control type/arrangement of land – Integrate land use planning activities with hazard mitigation.
- Design standards for new development – Address vulnerability of mobile homes and mobile home parks.
- Legal protection for natural mitigation features – Ensure protection of vegetation to reduce wind vulnerability and prevent erosion. Protect the storage capacity of floodplains.
- Setbacks or buffer zones – Review existing policies to assure effectiveness. Review applicability of buffers to mitigate fire vulnerability.
- Tax abatement for using mitigation.
- Density transfer provision – Promote transfer of development rights and density clustering in PUDs to protect the mitigation function of wetlands, and floodplains.

Future Meeting Dates

The meeting dates will be established at the end of each 5-year update cycle. In the upcoming years the Steering Committee will be called together by the Chairman. If for some reason the Working Group establishes a new chair the responsibility will be transferred accordingly. The steps below indicate the protocol for these quarterly meetings.

- January – Notification of Meeting to evaluate document.
- February – Meeting
- March – Notice to discuss possible new projects and receive NOI forms
- April – Meeting
- June – Solicit municipalities for new project applications
- July - Meeting
- October/November – Score new project application / Rank all projects
- December – meeting

The meetings are to take place quarterly. This is to allow jurisdictions to initially look for changes in their projects and community profiles. The second meeting is for the review of the past projects and the review of the protocol for project nomination. The third meeting is for the nomination of new projects. The fourth meeting is to assess the projects for updates, because it is important for projects to be included in the LMS document to receive funding.

The jurisdictions to include in the invitation, but not limited to include – County departments, FDOT, Natural Resources, Forestry, Economic Development, Chamber of Commerce, Emergency Management, and an Academic Representative.

To get a better feel for the changes that have occurred, a yearly survey could be conducted at each of the first yearly meetings, asking for changes in each of the areas and projects previously added to the document. Keeping up with yearly changes is very important in the struggle to get projects funded and create a safer County to live in.

On no less than a biannual basis, the following steps will be taken by the Working Group to accomplish this procedure:

1. The Mitigation Planning Subcommittee will conduct the following tasks:

- Consult with the Financial Issues Subcommittee to determine the status of funding and implementation of the priority mitigation initiatives as defined in the current edition of the LMS, as well as to determine if any new federal, state, local or private sources for funding of mitigation initiatives have become available to the Working Group, local government or key elements of the private sector
- Review the records of the meetings of the Steering Committee and Working Group from the preceding two-year period to identify any Initiatives for new mitigation initiative
- Review the statutes of federal, state and local legislation related to hazard mitigation programming promulgated during the preceding two-year period and identify any regulations, requirements or guidelines pertinent to the Working Groups mission or the contents and format of the LMS
- Request the Public Affairs Subcommittee to assess the implementation of the LMS to date, and the types of modifications and/or enhancements that would likely be acceptable to the community at large
- Prepare a written description of the status of each of the priority mitigation initiatives, new legislation and/or new funding sources for mitigation initiatives, as well as comments on the public acceptability of likely changes to the Strategy. Transmit the report to the chair of the Steering Committee and each of the Working Group's existing subcommittees.

2. Concurrently with Step 1, the Risk Assessment Subcommittee will accomplish the following tasks:

- Review all post-event assessments of disasters and emergencies occurring in the intervening two-year period to identify the effectiveness of any mitigation initiative involved, as well as to identify any new vulnerabilities or risks indicated by the events
- Research any new information regarding hazards threatening the County, the vulnerabilities to those hazards, and the risks associated with the vulnerabilities
- Review the predicted effectiveness of any mitigation initiatives being initiated at the time of the assessment, but not yet completed
- Prepare a written report regarding the results of the assessment, emphasizing the judged effectiveness

of the mitigation initiatives in place and defining any new risks to the community becoming apparent during the preceding two-year period

- Provide the written report to the chair of the Working Group's Steering Committee and the lead agency representative to each of the subcommittees.

3. Using the results of Steps 1 and 2, the Mitigation Planning Subcommittee will identify those portions of the current edition of the LMS that necessitate expansion, enhancement or updating. The lead agency representative will then identify with the chair of the Steering Committee the scope, schedule and resources required to develop a revision of the LMS.

4. Upon instruction from the chair of the Steering Committee, and with the cooperation of the Working Group's staff, the Mitigation Planning Subcommittee will prepare a draft of the updated Strategy and circulate copies to all members of the Steering Committee.

5. The Steering Committee members will individually review the draft of the updated Strategy and provide comments to the Mitigation Planning Subcommittee for consideration. Following a reasonable time period for review, the Mitigation Planning Subcommittee will revise the draft as needed and submit it to the Steering Committee for review and release as a draft.

6. Pursuant to the procedure given above, the Steering Committee will take formal action to release the draft of the updated LMS for public review. Upon an affirmative vote, the draft will be released publicly for a request for comments, or, if not affirmed, the draft will be returned to the Mitigation Planning Subcommittee for further revision.

7. The Public Affairs Subcommittee will review the Strategy for further revisions and legal notices regarding the availability of the draft for review by the public. The subcommittee will take additional steps to encourage all members of the Working Group to review the draft in detail prior to the meeting to comment more effectively on the document.

8. The Steering Committee and Working Group's staff will prepare a public presentation summarizing the findings and conclusions reached by the Working Group in the preceding steps, as well as highlighting the proposed changes in the Strategy.

9. At the meeting of the Working Group, the presentation prepared in Step 8 will be given to the members, and comments will be received and recorded for further consideration. The record of the meeting will remain open for 15 days after the conclusion of the Working Group meeting to receive further written comments.

10. As needed, following the closure of the comment period, the Mitigation Planning Subcommittee will modify the draft of the Strategy and submit a final edition to the Steering Committee for formal adoption in accord with the procedures for such action given above.

Each year the plan should be evaluated. The main question that should be raised is whether the plan still reflects the character of the jurisdictions. The second question, have there been any rules or regulations that have been adopted in the year that would alter the effectiveness of the LMS document? Finally, the third question, are there any changes in the administrative process or participation?

Continuing Public Participation in the Ongoing Mitigation Planning Process

A major goal to be achieved in establishing the working group is to provide an ongoing forum for cooperative efforts, information exchange and continuing consultation between the public and private sectors of Marion County. As such, the presence of representatives of all local government jurisdictions as well as key elements of the county's private sector on the steering committee and its subcommittees are expected to provide for coordination of public and private sector mitigation initiatives.

With the availability of the internet, newspaper, public announcements and members of the steering committee that are involved in many different groups, there is a plethora of public interactions to promote the LMS. The public involvement that has the highest participation includes citizen groups such as the American Red Cross and a variety of church organizations. These people are allowed to participate in all aspects of the working group meetings. Obviously, the voting members of the steering committee are the decision makers for furthering the project lists and amendments to the LMS, based on the recommendations of the working group.

The availability of the plan for public comment will be in the Chamber of Commerce as well as on-line at the Marion County website in PDF format before final adoption. The contact for public participation will be through the Marion County Growth Services Department as well as the director of Emergency Management for Marion County. The contact information will include both telephone as well as email addresses for both agencies. This will allow the public to reach an agency they feel most comfortable in discussing the LMS.

The adoption of the plan will include each of the municipalities and the county. At each of these meetings there is a request for public participation. Marion County and the participating municipalities are responsible for the advertisement of these meetings.

Importance and Advantages of Public Participation

Public participation in the LMS process begins with education about the importance of hazard mitigation. A diverse community of interests will benefit from hazard mitigation planning, particularly when a local government's mitigation strategy address needs to be identified by a group that is educated in emergency management issues. Public involvement helps to guarantee that the public is knowledgeable of and has worked to establish ownership of the strategy. The Marion County LMS Working Group meetings are noticed in all the area newspapers and are open to the public. The meetings have been attended by area media personnel giving publicity to the Strategy.

Involving the public in the planning process is most effective when diversely knowledgeable and motivated

individuals are involved. The involvement of the public helps supports an effective program that better fits their needs as they can provide more local knowledge of historical flooding. Involving the public in the process helps them to become invested in the outcome.

Updating and Revising the LMS

The LMS will be reviewed annually, or as circumstances dictate, by the LMS Working Group. The appropriate membership of the committee to include County, agency, municipal and private business representatives will review the Strategy; amending their responsibilities under the Strategy; updating the Hazard Identification / Vulnerability Assessment and Mitigation Initiatives by modifying procedures, maintaining current data and/or adding new projects and deleting completed projects.

Proposed amendments to the LMS that are approved by the Working Group shall be submitted to the Marion County Emergency Management Director for presentation to the Marion County Board of County Commissioners for public comment and final adoption.

Nominating and Ranking Projects and Initiatives

The first step toward developing the required single, prioritized list of mitigation initiatives is to establish and educate the Working Group. The initial core Working Group members were the County and municipal representatives as appointed by their respective jurisdictions. At their first formal meeting the Working Group initiated more participation from the private sector, by inviting the local Chambers of Commerce to participate in the LMS process.

Education of the group is and will remain an ongoing process. The Working Group found that the most useful information for the LMS process pertained to mitigation grants and the competitive grant process. Also of great interest were the maps generated for structural damage and storm surge. The most valuable information given by the working group were examples of the effects of previous flooding or storm events. These were used as a measure of vulnerability.

Before projects were submitted, a system for evaluating and ranking the projects had to be set into
Place. The adoption of criteria to rank mitigation projects featured lengthy discussion through the course of several Working Group meetings. Once a matrix for scoring projects was agreed upon by the working group, projects could be nominated for scoring in the prioritization process. A separate scoring process was also adopted to evaluate the vulnerability issues of each project. A vulnerability matrix was developed and adopted over several meetings with much discussion as a part of the Vulnerability Assessment. The Working Group directed staff to score the Vulnerability Index and combine it with the score from the Project Ranking Worksheet once completed.

It was agreed that each jurisdiction would first list and prioritize their own projects using their own criteria. However, it was recommended that the adopted LMS Working Group criteria be used. Second, each jurisdiction

would nominate its top three projects for formal ranking. To nominate a project the "Project Nomination Worksheet" is used to provide information about the proposed project regarding each of the ranking criteria.

The ranking process begins by distributing the Project Nomination Sheet and the Project Ranking Worksheet for one project to each voting member. Each voting member fills in the appropriate score for each of the ranking criteria. This process takes place for each project that is nominated. After all the projects are ranked the total score from each voting member is then averaged to form a preliminary score. The score from the Vulnerability Index is then combined with the preliminary score to create a final score.

After the projects were scored and ranked the Working Group created priority groups for implementation.

Adoption and Implementation of the LMS

Implementation of the LMS will be done by each of the local governments in Marion County or by other entities that may identify funding for projects listed in this LMS or future editions of the LMS. As with all plans, studies and strategy documents, the final goal is implementation. The timing of implementation is a factor that is dependent on funding mechanisms therefore a timeline for implementation cannot be established. However, those initiatives with life-safety implications or initiatives that will eliminate losses should be implemented first. The methods for implementation are important but stand as a secondary goal. It is the intent of this strategy to keep all windows of funding opportunity open and open them further if possible.

Status of Past Local Mitigation Projects

Projects Funded from 2021-2025 Priority Project List											
Disaster Number	Project Number	Suffix	Subgrantee	Project Title	Type	Project Status	Date Initially Approved	Federal Share Obligated	Subrecipient Management Costs Obligated Amount	Total Obligated Amount	Non Federal Share
4486	0003	R	Belleview	City of Belleview, Wastewater Treatment Facility, Wind Retrofit	205.8: Retrofitting Public Structures - Wind	Approved	09/19/2022	$21,294.90	$0.00	$21,294.90	$2,366.10

LMS Funding Report by Primary Category

This section is a listing of potential sources of funding for the mitigation initiatives the Working Group has ranked. The websites and programs are updated where appropriate. This list of funding is not specifically emergency management oriented, and many projects fall into more than one category.

Primary Funding Category: Agricultural Assistance

Program: Disaster Reserve Assistance Program

Agency:Farm Service Agency, Emergency and Non-insured Assistance

Agency Type: Federal

Description: Provides emergency assistance to supply eligible livestock with feed. The program is used in the event feed sources such as grazing, foraging, and feed crops have been lost due to some natural disaster. A number of eligibility requirements apply as well as some use restrictions.

Matching Requirement: 0

Webpage: http://www.usda.gov/

Primary Funding Category: Dune Restoration - Erosion Control

Program: Emergency Rehabilitation of Flood Control Works or Federally Authorized

Coastal Protection Works

Agency:U.S. Army Corps of Engineers
Agency Type: Federal

Description: Funds may be used for emergency repairs to flood control facilities and restoration of federally authorized coastal protection systems. The facilities must have been damaged by the winds, rain, and wave actions from a storm event and not from neglect. The funds may not be used for new projects or major improvements of existing facilities.

Matching Requirement: 0

Phone: 202-272-0169

Webpage: http://www.usace.army.mil/

Program: Protection of Essential Highway, Bridge Approaches, and Public Works

Agency:U.S. Army Corps of Engineers

Agency Type: Federal

Description: The U.S. Army Corps of Engineers designs and builds flood and erosion control protection for highways, bridges, hospitals, churches, schools and other public facilities to protect them from further flood damage. The project cost must have a federal limit of $500,000.

Matching Requirement: 0

Phone: 202-272-0169

Webpage: http://www.usace.army.mil/

Program: Snagging and Clearing For Flood Control Agency: U.S. Army Corps of Engineers Agency

Type: Federal

Description: The U.S. Army Corps of Engineers designs and implements the project. All projects must be economically and engineered feasible and complete. The limit for the project is $500,000 with land, easements, and costs above the limit paid for by the sponsor. The sponsor must also agree to maintain the project after construction.

Matching Requirement: 0

Phone: 202-272-0169

Webpage: http://www.usace.army.mil/

Primary Funding Category: General

Program: Capital Budget

Agency:Local Agency

Type: Local

Description: Funding for Capital Budget items are derived from borrowing or bonding money for the implementation of the project. Capital projects are typically non-reoccurring or infrequent expenditures such as construction, renovation, and acquisition costs.

Matching Requirement: 0

Phone: Webpage:

Program: Disaster Relief Program

Agency:Office of Community Planning and Development

Agency Type: Federal

Description: Provides additional grant money to communities that require extra assistance to rebuild impacted areas. The grants allow for a wide range of recovery activities that may not be available through other sources.

Matching Requirement: 0

Phone: 202-708-3587

Agency:Chemical Emergency Preparedness and Prevention Office

Agency Type: Federal

Description: Grants awarded for accident prevention and emergency preparedness programs for chemical accident emergencies. All project periods must not be more than two years long.

Matching Requirement: 0.25

Phone: 202-260-6657

Webpage: http://www.epa.gov/emergencies/content/epcra/index.htm

---

Program: First Responder Anti-Terrorism Assistance

Agency:Fire Administration, Fire Academy

Agency Type: Federal

Description: Provides training to local emergency responders such as police, fire, and EMS through the state fire training programs. The program is designed to provide these first responders with training to help them manage the initial stages of a terroristic act.

Matching Requirement: 0

Phone: 301-447-1158

Webpage: http://www.fema.gov/

Program: Law Enforcement Assistance

Agency: Federal Bureau of Investigation Agency Type: Federal

Description: Provides advanced training to experienced law enforcement personnel through the FBI National Academy.

Matching Requirement: 0

Phone: 202-324-3000

Webpage: http://www.fbi.gov/

Program: Local Law Enforcement Block Grants

Agency: Bureau of Justice Assistance

Agency Type: Federal

Description: Provides funding to support the hiring, training and employment of law enforcement officers and necessary support personnel and systems to help improve local law enforcement.

Matching Requirement: 0

Phone: 202-616-2356

Webpage: http://www.ojp.usdoj.gov/BJA/

Primary Funding Category: Wetlands Development/Restoration

Program: Coastal Wetlands Planning, Protection and Restoration Act

Agency: Fish and Wildlife Service

Agency Type: Federal

Description: Funds available to eligible states for the restoration, management and protection of coastal wetland systems. The grants are issued on a competitive basis and must be used for long-term conservation.

Matching Requirement: 0

Phone: 703-358-2156

Webpage: http://www.fws.gov

Program: Coastal Zone Management Administration Awards

Agency:Office of Ocean and Coastal Resource Management, Nation

Agency Type: Federal

Description: The funds from this program can only be used to implement and improve the Coastal Zone Management programs of the State. From ten to twenty percent of the funds may be used annually for projects in this zone. The projects can include coastal wetland management, public access improvements, hazard mitigation, planning, and assessments of the coastal areas.

Matching Requirement: 0

Phone: 301-713-3102

Webpage: http://www.noaa.gov/

APPENDIX H
Hazard Vulnerability Worksheet

Instructions for Completing Hazard Vulnerability Worksheet

The purpose of this worksheet is to provide a format for listing specific facilities and then scoring them in each of the various areas of vulnerability listed across the top of the page. The total of these scores will provide a "vulnerability score" that can be used to identify facilities with higher than average vulnerabilities, and then allow the owner/operator to evaluate the facility for potential mitigative actions that can reduce that vulnerability.

This worksheet is designed to capture all facilities that are the responsibility of one department within an organization in order that the contact person shown on the worksheet will be the same for all facilities listed. For example, the appropriate utility department and contact person information would be the same on each worksheet if all facilities were sewage system related. If some of the facilities were part of the water system and operated by another person within the utility, then a separate set of worksheets would be completed.

In the event there are numerous facilities that each have a different operating department and contact person, it may be more appropriate to complete a "Critical Facilities Inventory Form" on each rather than use a worksheet for only one or two facilities. This would allow the person scoring the facilities to list all of the disjoint facilities on the worksheet for scoring, but would have the detailed owner/operator information on separate inventory forms so they could be entered into a database.

The following instructions should help the person doing the scoring understand the meaning of each area of the worksheet.

Date: Enter the date this worksheet was completed.

Jurisdiction: Print the name of the jurisdiction that the facilities on this report are located in. If the location is in the unincorporated County then enter the name of the County.

Organization: What is the name of the jurisdiction or organization that actually owns the facility?

Department: If there is a specific department within the jurisdiction or organization that is responsible for the facilities on this report, print the name of that department.

Facility Name and Address: Print the name of the facility and its physical address in one of the spaces on the form. Include the City and Zip Code (preferably nine digit code). The physical address is necessary for GIS mapping purposes. If the latitude and longitude are known for the facility, print them below the address.

Contact Person, Title, Etc.: Print the name, title, mailing address, phone and fax for the person that is to be contacted for questions about the facilities listed. This would most appropriately be the individual that did the scoring on the facilities.

Scoring the Facilities for Vulnerability Facility Category: How critical the facility is to the operationof the organization?

0	Can be more than 72 hours before regaining operational capability
1	Must be operationally capable within 24 to 72 hours
2	Must be operationally capable within 24 hours or less
3	Must not lose operational capability

Facility Type: Which of the following classifications does this facility fall within?

GG-General Government (Government offices, recreation facilities, courthouses, etc.)

PS-Public Safety (Fire or police stations, EOCs, radio/warning systems, jails, bridges, etc. PH-

Public Health (Hospitals, clinics, health departments, etc.)

HC-Health Care (Nursing homes, mental health facilities, etc.)

UT-Utility (Power, phone/cell, water, sewer, stormwater, natural gas, etc.)

PC-Private/Commercial (facilities owned by the private sector, other than utilities)

Public or Private: Is this a public or privately owned facility?

PUB-Public

PRI-Private

Subject to High Winds: How vulnerable is the facility to “sustained” winds of 74 mph or greater.

0	This facility is not particularly vulnerable to high winds due to its construction, profile, design or other factor.
1	This facility is probably vulnerable to a minor degree to the effects of high winds due to one or more of the following characteristics: its construction, profile, design, lack of protection for building openings, high surface area walls, gable ends, expansive ceiling system, or its exposure to a tree lay down zone.
2	This facility is moderately vulnerable to the effects of high winds due to one or more of the following characteristics: its construction, profile, design, lack of protection for building openings, high surface area walls, gable ends, expansive ceiling systems, or its exposure to a tree lay down zone.

3	This facility is highly vulnerable to the effects of high winds due to one or more of the following characteristics: its construction, profile, design, lack of protection for building openings, high surface area walls, gable ends, expansive ceiling systems, or its exposure to a tree lay down zone.

Vulnerability to Flooding:

0	This facility is not vulnerable to flooding and has no history of flood damage.
1	This facility is in a flood-prone area and/or has had some minor flooding incidents from ponding in parking or grassy areas; but has no history of financial impact.
2	The facility is located within a flood-prone area and/or has experienced periodic flooding with only minor financial impact.
3	The facility has a history of flooding and/or has experienced moderate to heavy financial impact from a flood incident.

Vulnerability to Storm Surge:

0	This facility is not subject to damage from a storm surge.
1	This facility is located within a designated storm surge zone, but probably would not sustain damage unless affected by a Category 4 or 5 storm.
2	This facility is located within a designated storm surge zone, but probably would not sustain damage unless affected by a Category 3 storm.
3	This facility is located within a designated storm surge zone, and would probably sustain damage if affected by a Category 1 or 2 storm.

History of Damage:

0	This facility has no history of flood, wind and/or subsidence damage.
1	This facility has had at least one incident of flood, wind and/or subsidence damage that resulted in a loss of less than $1,000 (One Thousand Dollars).
2	This facility has had at least one incident of flood, wind and/or subsidence damage that resulted in a loss of more than $1,000 (One Thousand Dollars) but less than $44,800 (Forty Four Thousand Eight Hundred Dollars).
3	This facility has had at least one incident of flood, wind and/or subsidence damage that resulted in a loss of more than $44,800 (Forty Four Thousand Eight Hundred Dollars).

Subject to Earth Movement or Loss: This category focuses on damage from water action, not from the potential damage of a sinkhole.

0	This facility is not subject to "the undermining of the ground it rests upon" from any wave or water (canal, river, dam, etc.) action.
1	This facility has some possibility of earth loss from its foundation from riverine

	flooding.
2	This facility would probably suffer some deterioration of its foundation from riverine flooding or wave action.
3	This facility has a high probability of deterioration of its foundation from wave action due to its location on the coastline.

Vulnerable to Power Outage:

0	This facility has an onsite generator capable of supporting the entire facility.
1	This facility can lose power but an onsite generator will support only part of the facility; or the building is configured to accept a dedicated portable generator that is readily available. A power outage at this facility will cause some minor difficulties for customers and/or users of this facility until power is restored.
2	This facility is configured to accept a portable generator, but that generator may have to be shared with other facilities depending on the situation. A power outage may create moderate difficulties for customers and/or users of this facility until power is restored.
3	This facility has no emergency power capabilities and/or a power outage may create major difficulties for customers and/or users of this facility until power is restored.

Vulnerability to Lightning: This category is intended to score the facility in question for the effects of the electrical surge from a lightning strike. It is assumed that most facilities could be affected by a fire caused by a direct strike on a structure.

0	This facility is not particularly vulnerable to lightning due to its location, construction, profile or the fact that there are protective systems in place.
1	This facility is vulnerable to lightning, but equipment on site is not of a nature that disruption from a strike would create a public safety/health problem or do major damage to critical systems.
2	This facility is vulnerable to lightning, has critical systems and/or equipment, but protective measures have been taken to lessen the likelihood of system failure from a strike.
3	This facility is vulnerable to lightning and a strike would create a public safety/health problem and/or critical systems will go down. No protective systems are in place.

Vulnerable to Roadway Blockage by Debris or Flooding of Access Roads:

0	This facility is not vulnerable to roadway blockage, or it is a critical facility that will receive immediate attention from road clearing crews.
1	This facility is vulnerable to roadway blockage, but personnel assigned to this facility are equipped to gain access within12 to 24 hours.
	This facility is vulnerable to roadway blockage and will need attention. Road closure in excess of 24 hours will create moderate problems for the facility owner, and/or customers and employees.
3	This facility is highly vulnerable to roadway blockage, and inaccessibility will create moderate to severe problems for the facility owner, and/or customers and employees or no plan is in place to clear the roads or ensure accessibility.

Dependent upon Water Supply:

0	This facility can operate without a normal water supply for over 72 hours. Either the process provided at this facility does not require water or a reserve water supply system is located onsite.
1	This facility can operate without a normal water supply for between 24 and 72 hours. After that period processes and/or onsite staff will experience difficulties.
2	This facility must have a normal water supply within 24 hours or processes and/or onsite staff will be unable to function.
3	This facility must not lose a normal water supply.

Vulnerable to Sewer System Outage:

0	This facility is not vulnerable to a sewer system outage.
1	A sewer system outage would cause minor problems for, or because of, this facility.
2	A sewer system outage would cause moderate problems for, or because of, this facility.
3	A sewer system outage would cause major problems for, or because of, this facility.

Dependent upon Communications:

0	This facility is not vulnerable to communications equipment failure.
1	This facility could lose communications capability without major problems as long as that capability is restored within 24 to 72 hours.
2	This facility will experience major problems if communications capability is not restored within the first 24 hours.
3	This facility must not lose communications capability.

Disruption Causes Health & Safety Hazard:

0	A disruption of this facility poses no hazard to Health & Safety.
1	A disruption of this facility could cause some problems to Health & Safety under certain circumstances.
2	A disruption of this facility for more than 24 hours will likely create Health & Safety problems.
3	A disruption of this facility will absolutely create Health & Safety problems.

Disruption Would Cause Psychological Hardship:

0	A disruption of this facility will cause no psychological hardships.
1	A disruption of this facility for between 24 and 72 hours could cause minor to moderate psychological hardships.
2	A disruption of this facility for over 24 hours would likely cause psychological hardships.
3	A disruption of this facility for any length of time will cause psychological hardships.

Disruption Would Have Economic Impact:

0	Disruption of this facility should not cause any meaningful economic impact.
1	Disruption of this facility should cause some economic impact.
2	Disruption of this facility should cause moderate economic impact.
3	Disruption of this facility should cause major economic impact.

Disruption Impacts Community Services:

0	Disruption of this facility would not affect Community Services.
1	Disruption of this facility could affect certain non-critical Community Services.
2	Disruption of this facility could affect one or more important Community Services.
3	Disruption of this facility could affect a critical Community Service.

Environmental Problems Could Occur

0	Damage to this facility will create no environmental problems.
1	Damage to this facility may create certain short-term environmental problems.
2	Damage to this facility may create a health hazard and/or certain long-term environmental problems.
3	Damage to this facility may create a situation that is life threatening and/or has long-term environmental implications.

Facility Has Historic Value:

0	This facility has no historic value.
1	This is a historic structure, but can be repaired without compromise.
2	This is a historic structure and/or contents that have a historic value that would be difficult to repair or replace without compromising that value.
3	This structure and/or its contents have historic value that can neither be replaced nor repaired.

Facility Impacts
Agriculture:

0	Damage to this facility and/or its contents would have no affect on Agriculture.
1	Damage to this facility and/or its contents will have some affect on Agriculture.
2	Damage to this facility and/or its contents will have moderate affect on Agriculture.
3	Damage to this facility and/or its contents will create a situation that has a major affect on Agriculture.

Hazardous
Materials:

0	Hazardous Materials is not a concern with this facility.
1	This facility is not considered a hazardous materials site, but periodically uses materials and/or processes that could create a minor hazard.
2	This facility is not considered a hazardous materials site, but does contain some materials or processes that could create health and environmental problems or there is a facility within lose proximity that could create hazardous materials problems for this facility.
3	This facility is considered a hazardous materials site. Damage to this facility will likely create a situation with moderate to major health, safety and/or environmental implications.

Subject to Major
Fire:

0	This facility does not face a high risk of major urban fire or wildland fire.
1	This facility is in a position to face the risk of major urban fire or wildland fire, but the threat is considered minor.
2	This facility is in a location that makes it moderately vulnerable to the threat of a major urban fire and/or wildland fire.

3	This facility is located in a position that makes it highly vulnerable to a major urban fire and/or wildland fire.

L

Vulnerability Score:

This number will reflect the sum of the scores in the row corresponding to each facility. The overall score will help identify areas of vulnerability that need to be addressed and give an indication as to the types of mitigation initiatives that need to be recommended for the facility in question. Overall scores of all submitted facilities would be ranked and prioritized for further evaluation; the higher the score, the more closely the facility would be studied for mitigation initiatives.

OFFICE USE ONLY (Completed by LMS Steering Committee):
Project identification number: _____ _____ _____
Jurisdiction **ID Number** **Points/Rank**

APPLICANT INFORMATION

Project Name:_____

Is this Application being filed to update/amend a Project already listed in the LMS Project List? ____No ____Yes If so, what is its currently assigned Project Number: _____

Proposing Jurisdiction(s)/Organization(s)_____

Project Contact Name & Title: _____

Address:_____

Telephone:_____Fax:_____Email:_____

Additional Project Contact(s): At least one additional contact should be provided in addition to that listed above.

Name	Title	Agency	Phone	Email
1)				
2)				

DESCRIBE THE PROJECT: NOTE: If the project is a structural initiative, attach a map of the project location and the area to be benefited. Provide latitude and longitude coordinates of all pertinent features, if possible.

_____

_____

_____

_____

_____

_____

_____

_____

_____

DESCRIBE THE COST OF NO ACTION: Identify the possible results or outcomes if the project is <u>not</u> implemented and answer the questions which follow on the next page. Remember to consider both the direct, and indirect, results and outcomes and describe a reasonably predictable "worst case" situation.

_____

_____

_____

1. Will the project prevent all of the "No Action" outcomes? ___ No ___Yes.

If no, by what percentage would the outcomes be decreased? _____%.
2. What would be the time duration of the outcome for the "worst case"? _____Days.
3. What would be the total direct and indirect dollar losses in the "worst case" outcome? $_____.
4. How many people would be injured, sickened, or killed in the "worst case" outcome? _____ Persons.
5. How many highly valuable or irreplaceable environmental, historic, or cultural resources could be lost under the "worst case" situation?_____

DESCRIBE THE ANTICIPATED PROJECT BENEFITS: This section is to be used for providing updated, detailed information regarding the benefits of the proposed project, or to quantify, to the extent possible, the value of the costs avoided or minimized if the project were not to be implemented.

1. If the proposed project is specifically intended for protection of designated critical facilities- Is a designated "critical facility" to be benefited No Yes. If yes, provide type, name and address of designated critical facility.

Type Agency/organization Street Address Lat/Long

Describe the outcome of the total or partial loss of the designated critical facility (ies) affected:_____

2. For all types of projects, including those for protection of designated critical facilities:
Number of people directly benefited:_____Number of people indirectly benefited:_____

Percentage of jurisdictions population directly benefited:_____% Percentage indirectly benefited_____%

Number of structures to be benefited:_____Total estimated value of structures and contents: $_____

Is avoidance of evacuation to be an outcome of the project? ____ ___
____No____Yes
If yes explain why:_____

Is protection of the ability to evacuation to be an outcome? ____ No Yes.
____

If yes explain why:_____

Estimated number of evacuees benefited by project:_____

Estimated number of businesses avoiding evacuation by project:_____

Valuable environmental resource to be protected: ____ No Yes.
____

If yes, give name, location, acreage and status of resource:

Name Location Acreage Status

Valuable cultural or historic resource to be protected: ____ No ____ Yes.
If yes, give name location acreage and status of resource:

Name	Description/Type	Address	Status

If the preceding information does not adequately describe the benefits of the proposed mitigation initiative, provide an additional explanation of the expected benefits here:

_____
_____
_____

ESTIMATED INITIATIVE/PROJECT COSTS

COST OF THE PROJECT:

Provide an updated annualized cost to implement/complete the project: $_____per year.
Briefly explain the components considered in estimating the annualized cost to implement/complete the project:

_____
_____
_____

COST IMPACT OF THE PROJECT:

Upon implementation/completion of the project, if it is anticipated to have a continuing cost impact (e.g., operation, maintenance, etc.), provide an estimated for its annual cost impact: $_____per year.
Briefly explain the components considered in estimating the annual cost impact to and the anticipated annual amount ($/yr):_____
_____
_____

Define/identify the audience or population most likely to bear the cost impact (check as many as applicable):

☐ The general public	☐ Education institutions/ programs	☐ Health care facilities/services
☐ Buyers of property	☐ Retail businesses	☐ Local/regional governments
☐ Developers/builders	☐ Service businesses	☐ Public safety agency/organization
☐ Property owners	☐ Manufacturers	☐ Rescue/relief organization
☐ Transients/tourists	☐ Tourism-related businesses	☐ Other – Describe Below

_____
_____

BENEFIT/COST COMPARISON OF THE PROJECT:

1. Give the total annualized dollar cost of the "worst case" outcome: $ _____per year.

2. Give the total annualized dollar cost to implement the initiative: $_____per year and/or the total annualized cost impact: $_____ per year.

3. Divide the $/year in #1 above by the $/year in #2 above to derive the benefit to cost ratio.
   Give the ratio for the "worst case":_____

4. Provide adjusted benefit to cost ratios for life safety and resource protection (See instructions):
   For the "worst case" _____

FEASIBILITY OF IMPLEMENTING THE PROJECT:

Provide an updated analysis of the feasibility of implementation by answering these questions:

1. List the supporting documents, if any, in which this project is described (Give date, edition and section of the documents):

A)
B)
C)

2. List the permits/approvals most likely to be needed for full implementation and from whom:

A) Local
B) Regional / State
C) Federal

3. Provide and estimate of the time needed for implementation (in years or fractions of years), using the time necessary for each component step that is applicable:

For structural initiative:
Funding:_____Design:_____Local government approval:_____ State/Federal Approval:_____Property purchase:_____Construction:_____ Final construction inspection/ sign off:_____ TOTAL TIME NEEDED:_____years

For non-structural initiatives:
Funding:_____Development:_____Government or organizational approval:
Duration until initial effectiveness achieved:_____TOTAL TIME NEEDED: _____years

4. Has the propose initiative been used elsewhere for the same purpose: ____ No ____ Yes.
If yes, give the following information:

Where:_____In what time frame:_____
Was the initiative successful in achieving the intended purpose: ____ No Yes.
____
If no, explain why not? _____
_____
_____

Name of contact agency, organization or individual familiar with the initiative:_____
_____
_____

5. Is this proposed initiative likely to be generally acceptable to the affected population? ____ No
____ Yes.
If no, explain:_____
_____
_____

6. If acceptable to the affected population, are there special interest groups or stakeholders who would oppose the initiative? ____ No Yes.

If yes, identify the most likely groups or stakeholders and explain the most likely source of their opposition:_____

7. Have any similar proposed initiative implemented elsewhere encountered significant public controversy or opposition from special interests groups or stakeholders? ____No _____Yes.

If yes, explain the outcome of the controversy or opposition in those cases:_____

8. Are there modifications to the project that could decrease any opposition to the project? No Yes.

If yes, describe these modifications_____

Would these modifications decrease the mitigation effectiveness of the project? No Yes.

If yes, describe these decreases and estimate the percentage of benefits lost with the modifications:

Marion County Board of County Commissioners
2710 E. Silver Springs Blvd
Ocala, FL 34470

Dear Mr. Odom,

This letter serves as notification that AdventHealth Ocala supports the Marion County Local Mitigation Strategy as outlined in the Five-Year Plan. Mandatory protocol will be followed, as established by the FDEM and FEMA, in order to manage resiliency projects.

Please contact me if you have any questions.

Sincerely,

Nathan Thomason,
Chief Financial Officer
AdventHealth Ocala

Preston Bowlin, EM Director
Marion County Emergency Management
PO Box 1987
Ocala, Florida 34477

Re: Marion County Local Hazard Mitigation Plan Approved Pending Adoption

Dear Director Bowlin,

This is to confirm that we have completed a State review of the Marion County Local Mitigation Strategy (LMS) update for compliance with the federal hazard mitigation planning standards contained in 44 CFR 201.6(b)-(d). Based on our review and comments, Marion County developed and submitted all the necessary plan revisions and our staff has reviewed and approved these revisions. We have determined that the Marion County LMS plan is compliant with federal standards, subject to formal community adoption, for the jurisdictions below:

Marion County, Unincorporated
City of Ocala
City of Belleview
City of Dunnellon
Town of Reddick
Town of McIntosh
Advent Health Ocala

Upon submittal of a copy of all participating jurisdictions' documentation of their adoption resolutions to our office, we will send all necessary documentation to the Federal Emergency Management Agency (FEMA) who will issue formal approval of the Marion County LMS.

If you have any questions regarding this matter, please contact your LMS Liaison Evan Jenkins at Evan.Jenkins@em.myflorida.com or 850-443-4280.

Respectfully,

Kristin Lentz

Department: Engineering

FORMAL TITLE:
Release of an electric utility easement encumbering Parcels 37332-000-00, 37332-002-00, and 36796-010-00

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
Staff requests the release of an electric utility easement encumbering Parcels 37332-000-00, 37332-002-00, and 36796-010-00, as referenced and recorded in Marion County Official Records, Book 8802, Pages 524-529. The easement contains numerous errors and was recorded by the Grantors without following the City's required review, acceptance, and recording process. Replacement easements have been obtained and will be recorded simultaneously with the release. A release map has been attached for clarification of the locations.

FINDINGS AND CONCLUSIONS:
Release of this easement is necessary to correct the Clerk's official records. Staff recommends approval.

FISCAL IMPACT:
None

PROCUREMENT REVIEW:
N/A

LEGAL REVIEW:
This release has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with Changes

- Table
- Deny

GRANT FOR ELECTRIC UTILITY EASEMENT
(INDIVIDUAL)

THIS EASEMENT, Made this day between 1) Tony & Becky Mendola, (GRANTOR(s)) their heirs, successors and assigns, and the CITY OF OCALA, a Florida Municipal Corporation, under the laws of the State of Florida, its successors, lessees and assigns (GRANTEE):

WITNESSETH, that, for and in consideration of the mutual benefits, covenants and conditions herein contained, GRANTOR grants and conveys to GRANTEE an easement to install, operate and maintain in perpetuity or until the use thereof is abandoned, such facilities as may be necessary or desirable for providing electric energy and services and communication services, said facilities being located in the following described Easement Area within GRANTOR'S premises in Marion County, Florida, to wit:

2) SEC: 20, 3) TWP: 16, 4) RNG: 22.

5) PARCEL ID #(s) 37332-000-00 / 37332-002-00 / 36796-010-00

6) JOB SITE ADDRESS 704 SE 95th St
Ocala, FL 34480

7) LEGAL DESCRIPTION: (See attached Exhibit "A")

The Easement shall be 8) 10 feet in width and the length and direction are as set forth in City of Ocala work order number 9) EU26-011 (See attached Exhibit "B"). GRANTEE or GRANTOR may hereafter have a survey performed of the actual location of GRANTEE's facilities as installed, and GRANTOR and GRANTEE shall thereafter enter into an amendment to this instrument incorporating the more specific legal description, as determined by such survey, as the length and direction of the Easement; the width of the Easement shall remain the same as set forth above. The party obtaining the survey shall bear all costs and expenses associated therewith and with the preparation and recording of the amendment.

The rights herein granted to GRANTEE by GRANTOR specifically include: (a) the right for GRANTEE to patrol, inspect, alter, improve, repair, rebuild, relocate, and remove said facilities; (b) the right for GRANTEE to increase or decrease the voltage and change the quantity and type of facilities; (c) the right for GRANTEE to clear the Easement Area of trees, limbs, undergrowth, and other physical objects which, in the opinion of GRANTEE, endanger or interfere with the safe and efficient installation, operation, or maintenance of said facilities; (d) the right for GRANTEE to trim or remove any timber adjacent to but outside the Easement Area which, in the opinion of the GRANTEE, endangers or interferes with the safe and efficient installation, operation, or maintenance of said facilities; (e) the reasonable right for GRANTEE to enter upon lands of the GRANTOR adjacent to said Easement Area for the purpose of exercising the rights herein granted; and (f) all other rights and privileges reasonable, necessary, or convenient for GRANTEE'S safe and efficient installation, operation, and maintenance of said facilities and for the enjoyment and use of said easement for the purpose described above.

GRANTOR hereby covenants and agrees that no buildings, structures or obstacles (except fences) shall be located, constructed, excavated or created within the Easement Area. If fences are installed, they shall be placed so as to allow ready access to GRANTEE'S facilities and provide a working space of not less than six feet (6') on the opening side and one foot (1') on the other three sides of any pad mounted transformer. If GRANTOR'S future orderly development of the premises is in physical conflict with GRANTEE'S facilities, GRANTEE shall, within 60 days after receipt of written request from GRANTOR, relocate said facilities to another mutually agreed upon easement area in GRANTOR'S premises, provided that prior to the relocation of said facilities (a) GRANTOR shall pay to GRANTEE the full expected cost of the relocation as estimated by GRANTEE, and (b) GRANTOR shall execute and deliver to GRANTEE, at no cost, an acceptable and recordable easement to cover the relocated facilities. Upon the completion of the relocation, the easement herein shall be considered canceled as to the portion vacated by such relocation.

GRANTOR covenants not to interfere with GRANTEE'S facilities within the Easement Area in GRANTOR'S premises, and GRANTOR further covenants to indemnify and hold GRANTEE harmless from any and all damages and injuries, whether to persons or property, resulting from interference with GRANTEE'S facilities by GRANTOR or by GRANTOR'S agents or employees.

GRANTOR hereby warrants and covenants (a) the GRANTOR is the owner of the fee simple title to the premises in which the above described Easement Area is located, (b) that GRANTOR has full right and lawful authority to grant and convey this easement to GRANTEE and, (c) that GRANTEE shall have quiet and peaceful possession, use and enjoyment of this easement and subject to any use made by GRANTOR not inconsistent with the rights granted herein.

All covenants, terms, provisions and conditions herein contained shall inure and extend to and be obligatory upon the heirs, successors, lessees and assigns of the respective parties hereto.

Any addendums attached to this agreement shall be limited to legal descriptions, surveys or drawings unless prior approval has been received from the City of Ocala.

GRANT FOR ELECTRIC UTILITY EASEMENT
(INDIVIDUAL)

THIS EASEMENT, Made this day between 1) ANTHONY P. MENDOLA AND REBECCA J. MENDOLA, (GRANTOR(s)) their heirs, successors and assigns, and the CITY OF OCALA, a Florida Municipal Corporation, under the laws of the State of Florida, its successors, lessees and assigns (GRANTEE):

WITNESSETH, that, for and in consideration of the mutual benefits, covenants and conditions herein contained, GRANTOR grants and conveys to GRANTEE an easement to install, operate and maintain in perpetuity or until the use thereof is abandoned, such facilities as may be necessary or desirable for providing electric energy and services and communication services, said facilities being located in the following described Easement Area within GRANTOR'S premises in Marion County, Florida, to wit:

2) SEC: 20 , 3) TWP: 16 , 4) RNG: 22 .

5) PARCEL ID #(s) 37332-002-00

6) JOB SITE ADDRESS 9867 S MAGNOLIA AVE
OCALA, FL 34480

7) LEGAL DESCRIPTION: (See attached Exhibit "A")

The Easement shall be 8) 10 feet in width and the length and direction are as set forth in City of Ocala work order number 9) EU26-011 (See attached Exhibit "B"). GRANTEE or GRANTOR may hereafter have a survey performed of the actual location of GRANTEE's facilities as installed, and GRANTOR and GRANTEE shall thereafter enter into an amendment to this instrument incorporating the more specific legal description, as determined by such survey, as the length and direction of the Easement; the width of the Easement shall remain the same as set forth above. The party obtaining the survey shall bear all costs and expenses associated therewith and with the preparation and recording of the amendment.

The rights herein granted to GRANTEE by GRANTOR specifically include: (a) the right for GRANTEE to patrol, inspect, alter, improve, repair, rebuild, relocate, and remove said facilities; (b) the right for GRANTEE to increase or decrease the voltage and change the quantity and type of facilities; (c) the right for GRANTEE to clear the Easement Area of trees, limbs, undergrowth, and other physical objects which, in the opinion of GRANTEE, endanger or interfere with the safe and efficient installation, operation, or maintenance of said facilities; (d) the right for GRANTEE to trim or remove any timber adjacent to but outside the Easement Area which, in the opinion of the GRANTEE, endangers or interferes with the safe and efficient installation, operation, or maintenance of said facilities; (e) the reasonable right for GRANTEE to enter upon lands of the GRANTOR adjacent to said Easement Area for the purpose of exercising the rights herein granted; and (f) all other rights and privileges reasonable, necessary, or convenient for GRANTEE'S safe and efficient installation, operation, and maintenance of said facilities and for the enjoyment and use of said easement for the purpose described above.

GRANTOR hereby covenants and agrees that no buildings, structures or obstacles (except fences) shall be located, constructed, excavated or created within the Easement Area. If fences are installed, they shall be placed so as to allow ready access to GRANTEE'S facilities and provide a working space of not less than six feet (6') on the opening side and one foot (1') on the other three sides of any pad mounted transformer. If GRANTOR'S future orderly development of the premises is in physical conflict with GRANTEE'S facilities, GRANTEE shall, within 60 days after receipt of written request from GRANTOR, relocate said facilities to another mutually agreed upon easement area in GRANTOR'S premises, provided that prior to the relocation of said facilities (a) GRANTOR shall pay to GRANTEE the full expected cost of the relocation as estimated by GRANTEE, and (b) GRANTOR shall execute and deliver to GRANTEE, at no cost, an acceptable and recordable easement to cover the relocated facilities. Upon the completion of the relocation, the easement herein shall be considered canceled as to the portion vacated by such relocation.

GRANTOR covenants not to interfere with GRANTEE'S facilities within the Easement Area in GRANTOR'S premises, and GRANTOR further covenants to indemnify and hold GRANTEE harmless from any and all damages and injuries, whether to persons or property, resulting from interference with GRANTEE'S facilities by GRANTOR or by GRANTOR'S agents or employees.

GRANTOR hereby warrants and covenants (a) the GRANTOR is the owner of the fee simple title to the premises in which the above described Easement Area is located, (b) that GRANTOR has full right and lawful authority to grant and convey this easement to GRANTEE and, (c) that GRANTEE shall have quiet and peaceful possession, use and enjoyment of this easement and subject to any use made by GRANTOR not inconsistent with the rights granted herein.

All covenants, terms, provisions and conditions herein contained shall inure and extend to and be obligatory upon the heirs, successors, lessees and assigns of the respective parties hereto.

Any addendums attached to this agreement shall be limited to legal descriptions, surveys or drawings unless prior approval has been received from the City of Ocala.

GRANT FOR ELECTRIC UTILITY EASEMENT
(LLC)

THIS EASEMENT, Made this day between 3) DIAMONDBACK RANCH,LLC, (GRANTOR) their heirs, successors and assigns, and the CITY OF OCALA, a Florida Municipal Corporation, under the laws of the State of Florida, its successors, lessees and assigns (GRANTEE):

WITNESSETH, That, for and in consideration of the mutual benefits, covenants and conditions herein contained, GRANTOR grants and conveys to GRANTEE an easement to install, operate, and maintain in perpetuity or until the use thereof is abandoned, such facilities as may be necessary or desirable for providing electric energy and services and communication services. Said facilities being located in the following described Easement Area within GRANTOR'S premises in Marion County, Florida, to wit:

4) SEC: 20 , 5) TWP: 16 , 6) RNG: 22 .

7) LEGAL DESCRIPTION: (See attached Exhibit "A")

The Easement shall be 8) 10 feet in width and the length and direction are as set forth in City of Ocala work order number 9) EU26-011 (See attached Exhibit "B"). GRANTEE or GRANTOR may hereafter have a survey performed of the actual location of GRANTEE's facilities as installed, and GRANTOR and GRANTEE shall thereafter enter into an amendment to this instrument incorporating the more specific legal description, as determined by such survey, as the length and direction of the Easement; the width of the Easement shall remain the same as set forth above. The party obtaining the survey shall bear all costs and expenses associated therewith and with the preparation and recording of the amendment.

The rights herein granted to GRANTEE by GRANTOR specifically include: (a) the right for the GRANTEE to patrol, inspect, alter, improve, repair, rebuild, relocate, and remove said facilities; (b) the right for GRANTEE to increase or decrease the voltage and to change the quantity and type of facilities; (c) the right for GRANTEE to clear the Easement Area of trees, limbs, undergrowth, and other physical objects which, in the opinion of GRANTEE, endanger or interfere with the safe and efficient installation, operation, or maintenance of said facilities; (d) the right for GRANTEE to trim or remove any timber adjacent to but outside the Easement Area which, in the opinion of GRANTEE, endangers or interferes with the safe and efficient installation, operation, or maintenance of said facilities; (e) the reasonable right for GRANTEE to enter upon lands of the GRANTOR adjacent to said Easement Area for the purpose of exercising the rights herein granted; (f) all other rights and privileges reasonably necessary or convenient for GRANTEE'S safe and efficient operation and maintenance and use of said easement for the purposes described above.

GRANTOR hereby covenants and agrees that no buildings, structures, or obstacles (except fences) shall be located, constructed, excavated, or created within the Easement Area. If fences are installed, they shall be placed so as to allow ready access to GRANTEE'S facilities. If GRANTOR'S future orderly development of the premises is in physical conflict with GRANTEE'S facilities, GRANTEE shall, within 60 days after receipt of written request from GRANTOR, relocate said facilities to another mutually agreed upon easement area in GRANTOR'S premises, provided that prior to the relocation of said facilities (a) GRANTOR shall pay to GRANTEE the full expected cost of the relocation as estimated by GRANTEE, and (b) GRANTOR shall execute and deliver to GRANTEE, at no cost, an acceptable and recordable easement to cover the relocated facilities upon the completion of the relocation, the easement herein shall be considered cancelled as to the portion vacated by such relocation.

GRANTOR hereby warrants and covenants (a) the GRANTOR is the owner of the fee simple title to the premises in which the above-described Easement Area is located, (b) that GRANTOR has full right and lawful authority to grant and convey this easement to GRANTEE, and (c) that GRANTEE shall have quiet and peaceful possession, use and enjoyment of this easement.

All covenants, terms, provisions, and conditions herein contained shall inure and extent to and be obligatory upon the heirs, successors, lessees, and assigns of the respective parties hereto.

FORMAL TITLE:
Release of Electric Utility Easement that encumbers Marion County Parcel 30367-002-02

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
Staff requests the release of an Electric Utility Easement that encumbers Marion County Parcel 30367-002-02. The easement was recorded in Marion County Public Records, Book 470, Page 69, on December 11, 1963.

FINDINGS AND CONCLUSIONS:
The Release of Easement has been reviewed and accepted by Ocala Electric Utility. The City has no current or future use for the easement; all facilities have been removed. Staff recommends approval.

FISCAL IMPACT:
None

RELEASE OF EASEMENT

KNOW ALL PERSONS BY THESE PRESENTS that the CITY OF OCALA, FLORIDA, a Florida municipal corporation ("City"), whose mailing address is 1805 NE 30th Avenue, Building 700, Ocala, Florida 34470, for and in consideration of the sum of TEN and NO/100 U.S. DOLLARS ($10.00), and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, releases from the Easement(s) granted to the City of Ocala by Howard Johnson Land Company, INC. recorded **in Official Records Book 170, Page 69**, Public Records of Marion County, Florida, the following Real Property (hereinafter the "Released Property"):

DESCRIPTION:

LOT 12, WEST AND SOUTH OF NEW DIXIE HIGHWAY AND NORTH OF OLD DIXIE HIGHWAY, IN GILLIAM'S SUB. OF NE. PART OF SANCHEZ GRANT, SECTION 29, TOWNSHIP 15S, RANGE 22E; AS RECORDED IN PLAT BOOK "A", PAGE 22 OF THE PUBLIC RECORDS OF MARION COUNTY, FLORIDA.

5 ANCHORS TO BE LOCATED ON THE NORTH SIDE OF LOT 122, 30 FEET FROM EXISTING TRANSFORMER POLE.

Any existing facilities located within the Released Property are hereby abandoned by the City and shall revert to the ownership and control of the owner of such Released Property. This Release of Easement shall not release or otherwise affect any rights, privileges, interests, or easements City has on other real property or on the Released Property arising out of other instruments.

The remainder of this page is intentionally left blank.

IN WITNESS WHEREOF, the Grantor has signed and sealed these presents the day and year first above written.

RESOLUTION 2026-35

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA AUTHORIZING EXECUTION OF A SUBORDINATION OF UTILITIES AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION CONCERNING PROPERTY COMMONLY KNOWN AS FDOT PARCEL 102.02; DIRECTING THAT THE SIGNED RESOLUTION AND AGREEMENT BE FORWARDED TO THE FLORIDA DEPARTMENT OF TRANSPORTATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the State of Florida Department of Transportation proposes to construct or improve State Road No. 93 (I-75), Section No. 36210, F.P. No. 452074-1, FDOT Parcel ID 102.02 in Marion County, Florida; and

WHEREAS, it is necessary that certain easement rights presently owned by the City of Ocala, Florida, be subordinate to the rights of the State of Florida Department of Transportation; and

WHEREAS, said subordination is for transportation purposes which are in the public or community interest, is for the public welfare, and in the best interests of the City of Ocala; and

WHEREAS, the State of Florida Department of Transportation has made application to the City of Ocala to execute and deliver to the State of Florida Department of Transportation an Agreement for Subordination of Utility Interests in favor of the State of Florida Department of Transportation, and said request has been duly considered.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session duly assembled as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida adopts the above-outlined recitals and

incorporates them herein as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of authorizing execution of the above-described Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation and is adopted pursuant to the authority granted by Chapters 166, 334, and 335, Florida Statutes.

Section 3. Designation of Signatory.

The City Council of the City of Ocala, Florida hereby designates the President of the City Council as the official who is authorized to sign the Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation.

Section 4. Direction to Staff.

A certified copy of this Resolution shall be forwarded to the State of Florida Department of Transportation at 719 South Woodland Blvd., Deland, Florida, 32720-6834 along with the executed Agreement for Subordination of Utility Interests.

Section 5. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

This resolution adopted this _____ day of _____, 2026.

AGREEMENT FOR SUBORDINATION OF UTILITY INTERESTS

THIS AGREEMENT, made and entered into this _____ day of _____, _____, by and between the CITY OF OCALA, a Florida municipal corporation ("City"), and the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION ("FDOT").

WHEREAS:

A. The City presently has interests in certain lands that have been determined necessary for a transportation facility; and

B. The proposed use of the subject real property for a transportation facility requires subordination of the City's interest to the FDOT; and

C. The FDOT is willing to pay to have the City's facilities located, protected, adjusted, relocated, or removed if necessary, to prevent conflict between the facilities so that the benefits of each may be retained.

NOW, THEREFORE, in consideration of the public welfare, mutual covenants contained herein, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

1. Subordination of Utility / Easement Interests. City hereby subordinates to the interest of FDOT, its successors, or assigns, any and all interest the City has in the real property ("Property") described in the attached **Exhibit A.**

1.1 The interests of the City being subordinated hereby include the interests created by the following instruments:

INSTRUMENT	DATE	FROM	TO	O.R. BOOK/PAGE
Easement	01/28/93	Larry M. Wood, Trustee	City of Ocala	1907/1714
Drainage Easement	08/08/24	KAS Ocala, LLC, a Florida limited liability company	City of Ocala	8397/1797

2. The City shall retain all rights under the instruments identified above, provided, however, that the City's exercise of those rights shall be in accordance with the FDOT's standards as set forth in the FDOT's then-current Utility Accommodation Manual, and subject to the following provisions:

2.1 The FDOT may require, for any present or future transportation facility project, that any City facilities be located, protected, adjusted, relocated, or removed as the FDOT determines is necessary (including the timing of any of such activities) to accommodate the transportation facility project. In the event that any such work is required by the FDOT, the FDOT hereby agrees to pay all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein, which may require additional easement area necessary to provide for sufficient clearance for aerial facilities and vegetation management zones. The work performed pursuant to this section 2.1 shall comply with the City's Design and Construction Standards for Electric Utility Facilities and the National Electrical Safety Code (ANSI Standard C2). Payment of the above shall not include any betterment[1] to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City. And the FDOT shall have full authority over the proceedings.

2.2 Any new construction or relocation of City facilities within the lands will be subject to prior approval by the FDOT, which shall not be unreasonably withheld. Should the FDOT fail to approve any new construction or relocation of facilities by the City or require the City to locate, protect, adjust, relocate or remove its facilities located within said lands, the FDOT hereby agrees to pay the all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein. Payment of said costs shall not include any betterment to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City and the FDOT shall have full authority over the proceedings.

2.3 The FDOT acknowledges that the City is entitled to advanced review of the proposed construction of any other utilities within the lands described herein and that such utilities are required to obtain an FDOT permit which states that the new utility may not interfere with any existing utilities or with the City's rights set forth in the above referenced easements.

3. The terms of this Subordination Agreement shall supersede any contrary provisions within any utility permit issued to the City within the area of the lands described.

4. The City shall have a reasonable right to enter upon the lands described herein for the purposes outlined in Paragraph 2 above, including the right to trim such trees, brush, and growth which might endanger or interfere with the City's facilities, provided that such rights do not interfere with the operation and safety of the FDOT's facilities.

[1] "Betterment" is defined as any upgrading of facilities being relocated that is not attributable to the highway construction and is made solely for the benefit of and at the election of the City.

IN WITNESS WHEREOF, the FDOT has caused these presents to be executed by its duly authorized officer this _____ day of _____, _____.

6) N 1175 FT OF N.E. 1/4 EX E. 3/4 OF N 1/4 OF THE NE 1/4 & EX E 30 FT FOR ROAD EX THAT PART LYING WITHIN MAGNOLIA GARDEN ESTATES K-37

Easement to be 7) 10 feet in width and the length and direction to be defined by City of Ocala Work Order # 8) EUZ-088, C3398.

The rights herein granted to GRANTEE by GRANTOR specifically include: (a) the right for GRANTEE to patrol, inspect, alter, improve, repair, rebuild, relocate, and remove said facilities: (b) the right for GRANTEE to increase or decrease the voltage and to change the quantity and type of facilities: (c) the right for GRANTEE to clear the Easement Area of trees, limbs undergrowth and other physical objects which, in the opinion of GRANTEE, endanger or interfere with the safe and efficient installation, operation or maintenance of said facilities: (d) the right for GRANTEE to trim or remove any timber adjacent to but outside the Easement Area which, in the opinion of Grantee, endangers or interferes with the safe and efficient installation, operation or maintenance of said facilities: (e) the reasonable right for GRANTEE to enter upon lands of the GRANTOR adjacent to said Easement Area for the purpose of exercising the rights herein granted: and (f) all other right and privileges reasonably necessary or convenient for GRANTEE'S safe and efficient installation, operation and maintenance of said facilities and for the enjoyment and use of said easement for the purposes described above.

536

GRANTOR hereby covenants and agrees that no buildings, structures or obstacles (except fences) shall be located, constructed, excavated or created within the Easement Area. If fences are installed, they shall be placed so as to allow ready access to GRANTEE'S facilities and provide a working space of not less than six feet (6') on the opening side and one foot (1') on the other three sides of any pad mounted transformer. If GRANTOR'S future orderly development of the premises is in physical conflict with GRANTEE'S facilities, GRANTEE

shall, within 60 days after receipt of written request from GRANTOR, relocate said facilities to another mutually agreed upon Easement Area in GRANTOR'S premises, provided that prior to the relocation of said facilities (a) GRANTOR shall pay to GRANTEE the full expected cost of the relocation as estimated by GRANTEE, and (b) GRANTOR shall execute and deliver to GRANTEE, at no cost, an acceptable and recordable easement to cover the relocated facilities. Upon the completion of the relocation, the easement herein shall be considered cancelled as to the portion vacated by such relocation.

GRANTOR covenants not to interfere with GRANTEE'S facilities within the Easement Area in Grantor's premises, and GRANTOR further covenants to indemnify and hold GRANTEE harmless from any and all damages and injuries, whether to persons or property, resulting from interference with GRANTEE'S facilities by GRANTOR or by GRANTOR'S agents or employees.

GRANTOR hereby warrants and covenants (a) that GRANTOR is the owner of the fee simple title to the premises in which the above described Easement Area is located, (b) that GRANTOR has full right and lawful authority to grant and convey this easement to GRANTEE, and (c) that GRANTEE shall have quiet and peaceful possession, use and enjoyment of this easement.

All covenants, terms, provisions and conditions herein contained shall inure and extend to and be obligatory upon the heirs, successors, lessees and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the GRANTOR'S hands and seals have been hereunto affixed this 9) 28 day of JANUARY, 19 93.

Any addendum's attached to this agreement shall be limited to legal descriptions, surveys or drawings unless prior approval has been received from the City of Ocala.

GRANT OF DRAINAGE EASEMENTS (NORTHERN DRA, DRAINAGE CONVEYANCE EASEMENT, SOUTHERN DRA)

THIS GRANT OF DRAINAGE EASEMENTS, executed this 8 day of August, 2024, by and between **KAS Ocala, LLC, a Florida limited liability company,** whose post office address is 150 N Wacker Drive, Suite 1220, Chicago, IL 60606 (hereinafter called "Grantor"), to the **City of Ocala, a Florida municipal corporation,** whose post office address is 201 SE 3rd Street, Second Floor, Ocala, Florida 34471 (hereinafter called "Grantee")[1].

(Wherever used herein the terms "Grantor" and "Grantee" shall include singular and plural, heirs, legal representatives, and assigns of individuals, and the successors and assigns of corporations, wherever the context so admits or requires.)

WITNESSETH, that Grantor for good and valuable consideration, the receipt whereof is hereby acknowledged;

1. **Grant of Easements.** Subject to the Reservation set forth in paragraph 3, Grantor does hereby grant, bargain and sell unto Grantee forever the following perpetual, non-exclusive drainage easements (each a "Drainage Easement," and if more than one, the "Drainage Easements") for the construction, operation and maintenance of a stormwater management system consisting of structures, ditches, swales, pipes or other facilities to convey, street or retain surface water and stormwater (all of which items to be located in the following described Drainage Easement Areas being referred to as the "Drainage Facilities"):

   1.1. Two easements (each a "DRA Easement," and if more than one, the "DRA Easements") for the purpose of retaining surface water and stormwater (collectively "Stormwater") from NW 44th Avenue and other public roads (all of such roads being referred to collectively as the "Roads") into two drainage retention areas (each a "DRA," and if more than one, the "DRAs"), one being referred to as the "Northern DRA" and the other being referred to as the "Southern DRA" over, under, across and on the following described property (each a "DRA Easement Area," and if more than one, the "DRA Easement Areas") lying and being in Marion County, Florida:

      1.1.1. Northern DRA Easement: **SEE LEGAL DESCRIPTION ENTITLED "NORTHERN DRA" ON THE ATTACHED EXHIBIT A.**

      1.1.2. Southern DRA Easement: **SEE LEGAL DESCRIPTION ENTITLED "SOUTHERN DRA" ON THE ATTACHED EXHIBIT A.**

[1] By executing the Acceptance by Grantee below Grantor's signature line in this instrument, Grantee acknowledges its acceptance of this instrument including the provisions of paragraphs 3 through 4 hereof.

* EXEMPT FROM DOCUMENTARY EXCISE TAXES UNDER RULE 12 B-4.013(4), FAC (THREAT OF CONDEMNATION).

1.2. An easement (the "Drainage Conveyance Easement") for the purpose of conveying Stormwater from the Roads, into the DRAs, through Drainage Facilities designed to convey Stormwater over, under, across and on the following described land (the "Drainage Conveyance Easement Area") lying and being in Marion County, Florida: **SEE LEGAL DESCRIPTION ENTITLED "DRAINAGE CONEYANCE EASEMENT AREA" ON THE ATTACHED EXHIBIT A.**

2. **Easement Rights and Obligations.**

2.1. Pursuant to the Drainage Easements, Grantee shall have all rights to convey and retain Stormwater in the Easement Areas from the Roads as permitted by Environmental Resource Permit No. 4432518-0 (the "ERP Permit") issued by the Southwest Florida Water Management District (the "WMD"), and any existing amendment thereto that concern such conveyance and retention. No buildings, structures, or obstacles (except fences) shall be located, constructed, or installed within any Drainage Easement Area without the express written consent of Grantee which may be withheld or conditioned by Grantee in its reasonable discretion. Any proposed fence installation with appropriate gates must be approved by Grantee in its reasonable discretion.

2.2. By accepting the Drainage Easements, Grantee agrees to maintain the Drainage Facilities in good operating condition, in full and complete compliance with all conditions and covenants of the ERP Permit and of the WMD, and in full and complete compliance with any applicable rules or regulations of all governmental authorities with jurisdiction over the Drainage Facilities including the WMD. This obligation shall include the normal and ordinary maintenance, repair and replacement of the Drainage Facilities.

2.3. Grantor does hereby covenant that Grantor is lawfully seized of the Drainage Easement Areas in fee simple; that Grantor has good right and lawful authority to grant the Drainage Easements; that Grantor hereby specially warrants that title to the Drainage Easement Areas are free from all encumbrances made by Grantor, and Grantor will defend the same against the lawful claims of all persons claiming by, through or under Grantor, but against none other.

2.4. Subject to: (a) ad valorem taxes for the current year; and (b) easements, limitations, covenants, restrictions and other matters of record, if any, but provided, however, that such reference shall not serve to reimpose same.

3. **Modification.** THIS CONVEYANCE IS SUBJECT TO AND RESERVING the following rights:

3.1. Grantor may modify, enlarge or relocate one or more of the Drainage Facilities, including the DRAs, (the "Existing Drainage Facilities"), at Grantor's sole expense, to accommodate Stormwater runoff from real property owned by Grantor contiguous to the Easement Areas (the "Grantor Parcel") as well as the Roads. Any such modification, enlargement or relocation of the Existing Drainage Facilities, including any conveyance facilities in connection therewith, (all of which are being collectively referred to as the "Modified Drainage Facilities") shall be of the same character, and capable of the same use as, the Existing Drainage Facilities; without limiting the foregoing, the Modified Drainage Facilities shall accommodate the same quantity, and provide the same treatment capacity, for the benefit of the Roads as does each Existing Drainage Facilities.

3.2. In connection with the construction of a Modified Drainage Facility, Grantor shall have a temporary construction easement over the portions of the Roads, necessary for the construction of the Modified Drainage Facility. Grantor shall not interfere with traffic on the Roads in connection with such activities except during such times as permitted by Grantee in its reasonable discretion.

3.3. During construction of the Modified Drainage Facilities, and until City approves the As-Built Surveys of the Modified Drainage Facilities pursuant to paragraph 3.4.2, the Existing Drainage Facilities shall remain available for use by Grantee.

3.4. Upon completion of construction of the Modified Drainage Facilities:

3.4.1. Grantor shall provide Grantee with as-built surveys of the Modified Drainage Facilities for approval by Grantee in its reasonable discretion.

3.4.2. Upon approval of the as-built surveys by Grantee, Grantor and Grantee will enter into an amendment to this instrument relocating the Drainage Easement Areas to the locations of the Modified Drainage Facilities and releasing any portion of the Drainage Easement Areas described in the attached **Exhibit A** that are not part within the new Drainage Easement Areas. The form and substance of such instrument shall be acceptable to Grantee in its reasonable discretion.

3.5. Grantor shall comply with all applicable environmental permitting requirements concerning the Modified Drainage Facilities, and Grantee shall cooperate with Grantor in obtaining any necessary amendment to the Existing Permit concerning the Existing Drainage Facilities. The Modified Drainage Facilities shall comply with all criteria or conditions as governmental authorities may require for the joint uses intended by Grantee and Grantor.

3.6. Following construction of the Modified Drainage Facilities:

3.6.1. Grantee shall continue to maintain the Modified Drainage Facilities to the same extent and standards it was previously obligated to maintain the Existing Drainage Facilities under paragraph 2.2.

3.6.2. In the event of a catastrophic occurrence with respect to any Modified Drainage Facilities (for purposes of this paragraph 3.6.2, "catastrophic occurrence" shall be deemed to be the occurrence of a sinkhole or some other geotechnical occurrence causing the Stormwater retention capability of the Modified Drainage Facilities to cease to exist or to be materially impaired as to functionality), the cost of repair of such catastrophic occurrence shall be borne by Grantor and Grantee on a pro-rata basis. Grantee shall repair the Modified Drainage Facilities and provide Grantor with documentation establishing the actual and reasonable costs associated by Grantee in doing so. Grantor shall reimburse Grantee for the portion of the repair costs equal to the percentage that the volume of Stormwater that Grantor is permitted to convey into the damaged Modified Drainage Facilities by the Amended Permit bears to the total volume of Stormwater permitted by the Amended Permit to be conveyed into such Modified Drainage Facilities. Grantor shall reimburse Grantee within 30 days of Grantee's provision of documentation (such as contracts, invoices, or statements) sufficient to establish the amount incurred by Grantee in repairing the Modified Drainage Facilities. If Grantor fails

to do so, the amount owed shall accrue interest at the maximum rate allowed by law. In the event of any litigation to collect the amount owed, the prevailing party shall recover its attorney's fees.

3.7. Grantor may assign its reimbursement obligations under paragraph 3.6.2 to a property owners' association or Community Development District form pursuant to Chapter 190, Florida Statutes, (either a "POA"), formed for the development of the Grantor Parcel or any portion thereof contiguous to the Modified Drainage Facilities, provided that all of the following conditions are satisfied:

3.7.1. The POA is formed for the specific purpose of owning and maintaining common elements, or reimbursing others for such maintenance, constructed in connection with the development of the portion of the Grantor Parcel that includes the Modified Drainage Facilities; for purposes of this paragraph 3.7 "maintenance" includes repairs.

3.7.2. The POA is granted the authority to own, maintain and operate the Modified Drainage Facilities, or to reimburse others for maintenance of the Modified Drainage Facilities, by a declaration or similar instrument (the "Declaration") recorded in the Public Records of Marion County, Florida.

3.7.3. The POA is empowered under the terms of any recorded Declaration or other instrument to collect assessments from all of the owners (other than governmental entities or the POA) of parcels located on the Grantor Parcel for the purpose of providing funds necessary for the maintenance and operation of the Modified Drainage Facilities, or to reimburse others for such maintenance, in such amounts as, in the reasonable opinion of Grantee, are sufficient to satisfy Grantee's reimbursement obligations under paragraph 3.6.2.

3.7.4. Upon satisfaction of the foregoing conditions, Grantor shall have the right to convey to the POA fee simple title to the Modified Drainage Facilities. The POA shall have the right to assume the reimbursement obligations of Grantor with respect to all the Modified Drainage Facilities which are the subject matter of this instrument, and Grantor shall be released from any and further liabilities or responsibilities with respect to such reimbursement. The conveyance of the Modified Drainage Facilities, assumption of the reimbursement obligations of Grantor by the POA, and the release of Grantor shall be completed in accordance with the following provisions:

3.7.4.1. Simultaneous with the conveyance of the Modified Drainage Facilities to the POA, Grantor and the POA shall enter into an agreement (the "Assumption Agreement"), to be recorded in the Public Records of Marion County, Florida, under which the POA expressly acknowledges assumption of all of Grantor's obligations under this instrument with respect to the Modified Drainage Facilities. A copy of the recorded Assumption Agreement shall be provided to Grantee and to the WMD by formal notice within thirty (30) days of the date of its recordation in the Public Records.

3.7.4.2. Upon completion of the execution of the Assumption Agreement and the recording of the same in the Public Records of Marion County,

Florida, the POA shall have assumed and shall be responsible for all reimbursement obligations of Grantor with respect to the Modified Drainage Facilities which are subject of this instrument.

4. **Additional Rights Concerning Maintenance.** If Grantee fails to maintain the Existing Drainage Facilities or Modified Drainage Facilities, Grantor may, but shall not be obligated, to do so. If Grantor does so, Grantee shall reimburse Grantor for the actual and reasonable costs incurred by Grantee in performing the maintenance, together with ten percent (10%) of such amount to reimburse Grantor for its overhead. The amount owed shall accrue interest at the maximum amount allowed by law. In the event of any litigation to collect the amount owed, the prevailing party shall recover its attorney's fees.

Presentation By: Tracy Taylor

Department: Growth Management

FORMAL TITLE:
Resolution 2026-36 to adopt the Agreement for Subordination of Utility Interests to the Florida Department of Transportation that encumbers parcel 23325-003-04

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The subordination is in support of the Florida Department of Transportation's (FDOT) Interstate 75 (I-75) expansion project. FDOT will cover all expenses related to locating, protecting, adjusting, or removing City facilities if necessary.

INSTRUMENT	DATE	FROM	TO	O.R. BOOK/PAGE
Easement	05/10/79	Meadowbrook Farms, Inc.	City of Ocala	986/772
Easement	05/10/79	Meadowbrook Farms, Inc.	City of Ocala	986/774

FINDINGS AND CONCLUSIONS:
Staff requests the approval of an Agreement for Subordination of utility interests for two electric easements that encumber parcel 23325-003-04. Staff has reviewed and accepted the Subordination, subject to City Council's approval.

Staff recommends approval.

RESOLUTION 2026-36

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA AUTHORIZING EXECUTION OF A SUBORDINATION OF UTILITIES AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION CONCERNING PROPERTY COMMONLY KNOWN AS FDOT PARCEL 103.02; DIRECTING THAT THE SIGNED RESOLUTION AND AGREEMENT BE FORWARDED TO THE FLORIDA DEPARTMENT OF TRANSPORTATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the State of Florida Department of Transportation proposes to construct or improve State Road No. 93 (I-75), Section No. 36210, F.P. No. 452074-1, FDOT Parcel ID 103.02 in Marion County, Florida; and

WHEREAS, it is necessary that certain easement rights presently owned by the City of Ocala, Florida, be subordinate to the rights of the State of Florida Department of Transportation; and

WHEREAS, said subordination is for transportation purposes which are in the public or community interest, is for the public welfare, and in the best interests of the City of Ocala; and

WHEREAS, the State of Florida Department of Transportation has made application to the City of Ocala to execute and deliver to the State of Florida Department of Transportation an Agreement for Subordination of Utility Interests in favor of the State of Florida Department of Transportation, and said request has been duly considered.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session duly assembled as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida adopts the above-outlined recitals and incorporates them herein as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of authorizing execution of the above-described Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation and is adopted pursuant to the authority granted by Chapters 166, 334, and 335, Florida Statutes.

Section 3. Designation of Signatory.

The City Council of the City of Ocala, Florida hereby designates the President of the City Council as the official who is authorized to sign the Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation.

Section 4. Direction to Staff.

A certified copy of this Resolution shall be forwarded to the State of Florida Department of Transportation at 719 South Woodland Blvd., Deland, Florida, 32720-6834 along with the executed Agreement for Subordination of Utility Interests.

Section 5. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

This resolution adopted this _____ day of _____, 2026.

AGREEMENT FOR SUBORDINATION OF UTILITY INTERESTS

THIS AGREEMENT, made and entered into this _____ day of _____, _____, by and between the CITY OF OCALA, a Florida municipal corporation ("City"), and the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION ("FDOT").

WHEREAS:

A. The City presently has interests in certain lands that have been determined necessary for a transportation facility; and

B. The proposed use of the subject real property for a transportation facility requires subordination of the City's interest to the FDOT; and

C. The FDOT is willing to pay to have the City's facilities located, protected, adjusted, relocated, or removed if necessary, to prevent conflict between the facilities so that the benefits of each may be retained.

NOW, THEREFORE, in consideration of the public welfare, mutual covenants contained herein, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

1. Subordination of Utility / Easement Interests. City hereby subordinates to the interest of FDOT, its successors, or assigns, any and all interest the City has in the real property ("Property") described in the attached **Exhibit A**

1.1 The interests of the City being subordinated hereby include the interests created by the following instruments:

INSTRUMENT	DATE	FROM	TO	O.R. BOOK/PAGE
Easement	05/10/79	Meadowbrook Farms, Inc.	City of Ocala	986/772
Easement	05/10/79	Meadowbrook Farms, Inc.	City of Ocala	986/774

2. The City shall retain all rights under the instruments identified above, provided, however, that the City's exercise of those rights shall be in accordance with the FDOT's standards as set forth in the FDOT's then-current Utility Accommodation Manual, and subject to the following provisions:

2.1 The FDOT may require, for any present or future transportation facility project, that any City facilities be located, protected, adjusted, relocated, or removed as the FDOT determines is necessary (including the timing of any of such activities) to accommodate the transportation facility project. In the event that any such work is required by the FDOT, the FDOT hereby agrees to pay all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein, which may require additional easement area necessary to provide for sufficient clearance for aerial facilities and vegetation management zones. The work performed pursuant to this section 2.1 shall comply with the City's Design and Construction Standards for Electric Utility Facilities and the National Electrical Safety Code (ANSI Standard C2). Payment of the above shall not include any betterment[1] to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City. And the FDOT shall have full authority over the proceedings.

2.2 Any new construction or relocation of City facilities within the lands will be subject to prior approval by the FDOT, which shall not be unreasonably withheld. Should the FDOT fail to approve any new construction or relocation of facilities by the City or require the City to locate, protect, adjust, relocate or remove its facilities located within said lands, the FDOT hereby agrees to pay the all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein. Payment of said costs shall not include any betterment to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City and the FDOT shall have full authority over the proceedings.

2.3 The FDOT acknowledges that the City is entitled to advanced review of the proposed construction of any other utilities within the lands described herein and that such utilities are required to obtain an FDOT permit which states that the new utility may not interfere with any existing utilities or with the City's rights set forth in the above referenced easements.

[1] "Betterment" is defined as any upgrading of facilities being relocated that is not attributable to the highway construction and is made solely for the benefit of and at the election of the City.

3. The terms of this Subordination Agreement shall supersede any contrary provisions within any utility permit issued to the City within the area of the lands described.

4. The City shall have a reasonable right to enter upon the lands described herein for the purposes outlined in Paragraph 2 above, including the right to trim such trees, brush, and growth which might endanger or interfere with the City's facilities, provided that such rights do not interfere with the operation and safety of the FDOT's facilities.

FORMAL TITLE:
Resolution 2026-37 to adopt the Agreement for Subordination of Utility Interests to the Florida Department of Transportation that encumbers parcel 23325-003-06

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The subordination is in support of the Florida Department of Transportation's (FDOT) Interstate 75 (I-75) expansion project. FDOT will cover all expenses related to locating, protecting, adjusting, or removing City facilities if necessary.

INSTRUMENT	DATE	FROM	TO	O.R. BOOK/PAGE

RESOLUTION 2026-37

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA AUTHORIZING EXECUTION OF A SUBORDINATION OF UTILITIES AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION CONCERNING PROPERTY COMMONLY KNOWN AS FDOT PARCEL 108.02; DIRECTING THAT THE SIGNED RESOLUTION AND AGREEMENT BE FORWARDED TO THE FLORIDA DEPARTMENT OF TRANSPORTATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the State of Florida Department of Transportation proposes to construct or improve State Road No. 93 (I-75), Section No. 36210, F.P. No. 452074-1, FDOT Parcel ID 108.02 in Marion County, Florida; and

WHEREAS, it is necessary that certain easement rights presently owned by the City of Ocala, Florida, be subordinate to the rights of the State of Florida Department of Transportation; and

WHEREAS, said subordination is for transportation purposes which are in the public or community interest, is for the public welfare, and in the best interests of the City of Ocala; and

WHEREAS, the State of Florida Department of Transportation has made application to the City of Ocala to execute and deliver to the State of Florida Department of Transportation an Agreement for Subordination of Utility Interests in favor of the State of Florida Department of Transportation, and said request has been duly considered.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session duly assembled as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida adopts the above-outlined recitals and incorporates them herein as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of authorizing execution of the above-described Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation and is adopted pursuant to the authority granted by Chapters 166, 334, and 335, Florida Statutes.

Section 3. Designation of Signatory.

The City Council of the City of Ocala, Florida hereby designates the President of the City Council as the official who is authorized to sign the Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation.

Section 4. Direction to Staff.

A certified copy of this Resolution shall be forwarded to the State of Florida Department of Transportation at 719 South Woodland Blvd., Deland, Florida, 32720-6834 along with the executed Agreement for Subordination of Utility Interests.

Section 5. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

This resolution adopted this _____ day of _____, 2026.

AGREEMENT FOR SUBORDINATION OF UTILITY INTERESTS

THIS AGREEMENT, made and entered into this _____ day of _____, _____, by and between the CITY OF OCALA, a Florida municipal corporation ("City"), and the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION ("FDOT").

WHEREAS:

A. The City presently has interests in certain lands that have been determined necessary for a transportation facility; and

B. The proposed use of the subject real property for a transportation facility requires subordination of the City's interest to the FDOT; and

C. The FDOT is willing to pay to have the City's facilities located, protected, adjusted, relocated, or removed if necessary, to prevent conflict between the facilities so that the benefits of each may be retained.

NOW, THEREFORE, in consideration of the public welfare, mutual covenants contained herein, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

1. Subordination of Utility / Easement Interests. City hereby subordinates to the interest of FDOT, its successors, or assigns, any and all interest the City has in the real property ("Property") described in the attached **Exhibit A**

1.1 The interests of the City being subordinated hereby include the interests created by the following instruments:

INSTRUMENT	DATE	FROM	TO	O.R. BOOK/PAGE
Easement	05/10/79	Meadowbrook Farms, Inc.	City of Ocala	986/774
Easement	4/25/2000	Meadowbrook Farms, Inc.	City of Ocala	2783/1138

2. The City shall retain all rights under the instruments identified above, provided, however, that the City's exercise of those rights shall be in accordance with the FDOT's standards as set forth in the FDOT's then-current Utility Accommodation Manual, and subject to the following provisions:

2.1 The FDOT may require, for any present or future transportation facility project, that any City facilities be located, protected, adjusted, relocated, or removed as the FDOT determines is necessary (including the timing of any of such activities) to accommodate the transportation facility project. In the event that any such work is required by the FDOT, the FDOT hereby agrees to pay all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein, which may require additional easement area necessary to provide for sufficient clearance for aerial facilities and vegetation management zones. The work performed pursuant to this section 2.1 shall comply with the City's Design and Construction Standards for Electric Utility Facilities and the National Electrical Safety Code (ANSI Standard C2). Payment of the above shall not include any betterment[1] to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City. And the FDOT shall have full authority over the proceedings.

2.2 Any new construction or relocation of City facilities within the lands will be subject to prior approval by the FDOT, which shall not be unreasonably withheld. Should the FDOT fail to approve any new construction or relocation of facilities by the City or require the City to locate, protect, adjust, relocate or remove its facilities located within said lands, the FDOT hereby agrees to pay the all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein. Payment of said costs shall not include any betterment to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City and the FDOT shall have full authority over the proceedings.

2.3 The FDOT acknowledges that the City is entitled to advanced review of the proposed construction of any other utilities within the lands described herein and that such utilities are required to obtain an FDOT permit which states that the new utility may not interfere with any existing utilities or with the City's rights set forth in the above referenced easements.

3. The terms of this Subordination Agreement shall supersede any contrary provisions within any utility permit issued to the City within the area of the lands described.

[1] "Betterment" is defined as any upgrading of facilities being relocated that is not attributable to the highway construction and is made solely for the benefit of and at the election of the City.

4. The City shall have a reasonable right to enter upon the lands described herein for the purposes outlined in Paragraph 2 above, including the right to trim such trees, brush, and growth which might endanger or interfere with the City's facilities, provided that such rights do not interfere with the operation and safety of the FDOT's facilities.

RESOLUTION 20__ - _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA AUTHORIZING EXECUTION OF A SUBORDINATION OF UTILITIES AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION CONCERNING PROPERTY COMMONLY KNOWN AS FDOT PARCEL 108.02; DIRECTING THAT THE SIGNED RESOLUTION AND AGREEMENT BE FORWARDED TO THE FLORIDA DEPARTMENT OF TRANSPORTATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the State of Florida Department of Transportation proposes to construct or improve State Road No. 93 (I-75), Section No. 36210, F.P. No. 452074-1, FDOT Parcel ID 108.02 in Marion County, Florida; and

WHEREAS, it is necessary that certain easement rights presently owned by the City of Ocala, Florida, be subordinate to the rights of the State of Florida Department of Transportation; and

WHEREAS, said subordination is for transportation purposes which are in the public or community interest, is for the public welfare, and in the best interests of the City of Ocala; and

WHEREAS, the State of Florida Department of Transportation has made application to the City of Ocala to execute and deliver to the State of Florida Department of Transportation an *Agreement for Subordination of Utility Interests* in favor of the State of Florida Department of Transportation, and said request has been duly considered.

NOW THEREFORE, IT IS HEREBY RESOLVED by the City Council of the City of Ocala, Florida as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida adopts the above-outlined recitals and incorporates them herein as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of authorizing execution of the above-described *Agreement for Subordination of Utility Interests* and subsequent amendments thereto with the State of Florida Department of Transportation and is adopted pursuant to the authority granted by Chapters 166, 334, and 335, *Florida Statutes*.

Section 3. Designation of Signatory.

The City Council of the City of Ocala, Florida hereby designates the President of the City Council as the official who is authorized to sign the *Agreement for Subordination of Utility Interests* and subsequent amendments thereto with the State of Florida Department of Transportation.

Section 4. Direction to Staff.

A certified copy of this Resolution shall be forwarded to the State of Florida Department of Transportation at 719 South Woodland Blvd., Deland, Florida, 32720-6834 along with the executed *Agreement for Subordination of Utility Interests*.

Section 5. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

APPROVED AND ADOPTED, with a quorum present and voting, by the City Council of the City of Ocala, Florida this _____ day of _____ 20_____.

SPECIAL WARRANTY DEED

THIS SPECIAL WARRANTY DEED made and executed this 25th day of April, 2000, between **MEADOWBROOK FARMS INC.**, a Florida corporation, whose post office address is P.O. Box 518, Ocala, FL 34478, hereinafter called *'Grantor'*, to **THE CITY OF OCALA**, a Florida municipal corporation, whose post office address is P.O. Box 1270, Ocala, FL 34478, hereinafter called *"Grantee"*

WITNESSETH:

GRANTOR, in consideration of Ten Dollars ($10.00) paid by Grantee, the sufficiency of which is hereby acknowledged, does hereby grant, convey, and transfer to Grantee, the real property located in MARION County, Florida, more particularly described as follows:

SEE ATTACHED EXHIBITS "A", "B", "C", and "D"

TOGETHER with a perpetual non-exclusive easement for the construction, operation and maintenance of a storm drainage system and related appurtenances including, without limitation, open ditches, underground storm water pipes, and above ground drainage structures (all of which items to be located in the drainage easement area being referred to as the "Drainage Facilities") over, under, across and on the real property described in Exhibit "E" situate, lying and being in Marion County, Florida (the "Drainage Easement Area"). The easement rights for drainage specifically include: (a) right of perpetual ingress and egress to control, inspect, alter, improve, construct, repair, maintain, rebuild, relocate, remove and provide access and service to the Drainage Facilities; (b) right to decrease or increase, or change the quantity and type of Drainage Facilities; (c) the right to clear the Drainage Easement Area of trees, limbs, undergrowth, and other physical objects (regardless of the physical location as such trees, limbs, undergrowth, and other physical objects) which, in the opinion of the Grantee, endanger or interfere with the safe and efficient installation, operation or maintenance of the Drainage Facilities; and (d) all the rights and privileges reasonably necessary or convenient for the safe and efficient installation, operation and maintenance of the Drainage Facilities and for the enjoyment and use of the drainage easement for the purposes described above. No buildings, structures or obstacles (except fences) shall be located, constructed, excavated or created within the Drainage Easement Area. Any proposed fence installation with appropriate gates must be approved by the City of Ocala Engineering Department and must allow ready access to the grantee's Drainage Facilities.

TOGETHER with a perpetual, non-exclusive easement for the construction, operation and maintenance of electrical down guys and anchors and attachments thereto (all of which items to be located in the guy-wire easement area being referred to as the "Guy-Wire Facilities") over, under, across and on the real property described in Exhibit "G" (the "Guy-Wire Easement Area") situate, lying and being in Marion County, Florida. The easement rights for guy-wires specifically include: (a) right of perpetual ingress and egress to control, inspect, alter, improve, construct, repair, maintain, rebuild, relocate, remove and provide access and service to the Guy-Wire Facilities; (b) right to decrease or increase, or change the quantity and

GRANTOR covenants that Grantor will warrant and defend the property hereby conveyed against the lawful claims and demands of all persons claiming by, through or under Grantor, but against no others.

IN WITNESS WHEREOF, Grantor has executed this Special Warranty Deed on the year and date first above stated.

Signed and sealed in our presence as witnesses:

and other physical objects (regardless of the physical location as such trees, limbs, undergrowth, and other physical objects) which, in the opinion of the Grantee, endanger or interfere with the safe and efficient installation, operation or maintenance of the Guy-Wire Facilities; (d) all the rights and privileges reasonably necessary or convenient for the safe and efficient installation, operation and maintenance of the Guy-Wire Facilities and for the enjoyment and use of the Guy-Wire Easement for the purposes described above; and (e) the right to permit any other person or any other entity to attach lines or wires to such facilities and lay cable within the Guy-Wire Easement Area. No buildings, structures or obstacles (except fences) shall be located, constructed, excavated or created within Guy-Wire Easement Area. Any proposed fence installation with appropriate gates must be approved by the City of Ocala Engineering Department and must allow ready access to the grantee's Guy-Wire Facilities.

GRANTOR retains and reserves unto itself, its heirs, successors and assigns as owner of all or any portion of the real property described in Exhibit "F", an easement over, upon, and across the real property described in Exhibit "A" and "B" for ingress and egress over and across the real property described in Exhibit "A" and "B" to and from the real property, or any portion of the real property, described in Exhibit "F". The use by Grantor of the retained easement shall be in such a fashion as to not interfere with the Grantee's construction of improvements on the real property which is the subject of the retained easement. The retained easement shall terminate upon Grantee's dedication to the public of a constructed road built upon the real property described in Exhibit "A" and "B". Such dedication shall occur upon, and be evidenced by, either (a) Grantee recording in the Public Records of Marion County, Florida, a resolution dedicating the real property described in Exhibit "A" and "B" or any portion thereof; or (b) Grantee approving a plat of a substantial portion of the real property described in Exhibit "F" dedicating the real property described in Exhibit "A" and "B" or any portion thereof; or (c) the completion of construction of right-of-way improvements upon the real property described in Exhibit "A" and "B", or any portion thereof, in accordance with the City's construction standards, and acceptance by the City. Dedication of portions of the real property described in Exhibit "A and "B" shall be effective only as to the portion so dedicated, and the easement retained herein by Grantor shall not terminate as to the portions not dedicated but shall terminate upon the future dedication of such other portions.

SUBJECT TO:

- Taxes for the year 2000 and all subsequent years;
- Utility Easement in favor of the City of Ocala recorded in OR Book 1552, at Page 1662, as modified by Partial Release recorded in OR Book 2661, at Page 825, Public Records of Marion County, Florida;
- Easement to the City of Ocala recorded in OR Book 2161, at Page 1797, Public Records of Marion County, Florida;
- Easement to the City of Ocala recorded in OR Book 1889, at Page 752, Public Records of Marion County, Florida;

8 of 20

The NE 1/4 of Section 22, Township 15 South, Range 21 East, Marion County, Florida;
The East 1/2 of the NW 1/4 of Section 22, Township 15 South, Range 21 East, Marion County, Florida.
The North 1/2 of the SE 1/4 of Section 22, Township 15 South, Range 21 East, Marion County, Florida.
AND
The NE 1/4 of the SW 1/4 of Section 22, Township 15 South, Range 21 East, Marion County, Florida.
EXCEPT the East 33.00 feet of the entire tract;
AND
EXCEPT the South 33.00 feet of the entire tract.
AND EXCEPT:
Commence Northeast corner of Section 22, Township 15 South, Range 21 East, Marion County, Florida; thence S.00°34'29"W. along the East boundary of the NE 1/4 of said Section 22 a distance of 681.19 feet; thence N.89°25'31"W., 33.00 feet to an intersection with the Westerly right of way line of S.W. 38th Avenue and the Point of Beginning; thence S.00°34'29"W. along said right of way line 760.00 feet; thence departing N.89°25'31"W., 1,146.32 feet; thence N.00°34'29"E. along a line parallel with and 1,146.32 feet Westerly of, as measured at right angles to the aforementioned Westerly right of way line of S.W. 38th Avenue for 760.00 feet to the Southwest corner of those lands described in Official Records Book 2263, Page 649, Public Records of Marion County, Florida; thence S.89°25'31"E. along the South boundary of said lands 1,146.32 feet to the Point of Beginning.
AND EXCEPT:
A parcel of land in Section 22, Township 15 South, Range 21 East, Marion County, Florida, more particularly described as follows:
Commence Northeast corner of Section 22, Township 15 South, Range 21 East, thence N.89°57'47"W. along the North line of said Section 22 for 33.00 feet to an intersection with the Westerly right of way line of S.W. 38th Avenue and the Point of Beginning of the herein described parcel of land; thence continue

LESS AND EXCEPT:

COMMENCE NORTHEAST CORNER OF SECTION 22, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA, THENCE S.00°34'29"W. ALONG THE EAST BOUNDARY OF THE NE 1/4 OF SAID SECTION 22 A DISTANCE OF 1566.19 FEET; THENCE N.89°25'31"W. 33.00 FEET TO AN INTERSECTION WITH THE WESTERLY RIGHT-OF-WAY LINE OF SW 38TH AVENUE AND THE POINT OF BEGINNING; THENCE S.00°34'29"W. ALONG SAID RIGHT-OF-WAY LINE 988.02 FEET; THENCE DEPARTING N.89°25'31"W. 1290.00 FEET; THENCE N.00°34'29"E. ALONG A LINE PARALLEL WITH AND 1290.00 FEET WESTERLY OF, AS MEASURED AT RIGHT ANGLES TO THE AFOREMENTIONED WESTERLY RIGHT-OF-WAY LINE OF SW 38TH AVENUE FOR 1013.02 FEET TO THE PROPOSED SOUTH RIGHT-OF-WAY LINE OF A 100' WIDE RIGHT-OF-WAY; THENCE S.89°25'31"E. ALONG SAID PROPOSED RIGHT-OF-WAY LINE 1265.00 FEET; THENCE S.44°25'31"E. 35.36 FEET TO THE POINT OF BEGINNING.
CONTAINING 29.99 ACRES MORE OR LESS

EASEMENT

O.R. BOOK 986 PAGE 774

KNOW ALL MEN BY THESE PRESENTS: That the undersigned, for and in consideration of the sum of One Dollar, to them in hand paid by the CITY OF OCALA, a municipal corporation under the laws of the State of Florida, receipt whereof is hereby acknowledged, do hereby convey and grant to the CITY OF OCALA the privilege and easement to construct (an electric transmission and distribution line, either or both, over, under, and across) (Water line under and across) the following described land in Marion County, Florida, to-wit:

E ½ of N ½ of S ½ & W ½ of
NE ¼ of SW ¼ & NE ¼ of NE ¼ of SW ¼ & S ½ of SE ¼ of NE ¼ of SW ¼
EX RD R/Way Section 22 Township 15S, Range 21E.

115.00 Acres more or less

"Said easement to be fifteen (15) feet in width, on, over, under and across the centerline of the completed electrical construction."

MARION COUNTY 134140 FLORIDA DEPT. OF REVENUE JUL 30 '79 P.S. 11023 DOCUMENTARY SURTAX ≡00.55

and to place such poles and attachments thereto, water mains and pipes under, across and on, said land as may be necessary in the construction of said line, including the right to trim, cut and keep clear of said line all trees within the easement and those trees and limbs on grantor's property outside of the easement which may endanger the same, with the right to go upon said land from time to time as may be necessary to construct, reconstruct, maintain, and repair said line. No trees or shrubbery shall be planted in, or permanent structures placed or installed on said easement without the prior consent of the CITY OF OCALA.

The undersigned hereby convenant and warrant that they own the said land and have the right to grant this easement.

In WITNESS WHEREOF, The undersigned grantors have hereunto set their hands and seals this 10th day of May, 1979.

RESOLUTION 2026-38

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA AUTHORIZING EXECUTION OF A SUBORDINATION OF UTILITIES AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION CONCERNING PROPERTY COMMONLY KNOWN AS FDOT PARCEL 801.02; DIRECTING THAT THE SIGNED RESOLUTION AND AGREEMENT BE FORWARDED TO THE FLORIDA DEPARTMENT OF TRANSPORTATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the State of Florida Department of Transportation proposes to construct or improve State Road No. 93 (I-75), Section No. 36210, F.P. No. 452074-1, FDOT Parcel ID 801.02 in Marion County, Florida; and

WHEREAS, it is necessary that certain easement rights presently owned by the City of Ocala, Florida, be subordinate to the rights of the State of Florida Department of Transportation; and

WHEREAS, said subordination is for transportation purposes which are in the public or community interest, is for the public welfare, and in the best interests of the City of Ocala; and

WHEREAS, the State of Florida Department of Transportation has made application to the City of Ocala to execute and deliver to the State of Florida Department of Transportation an Agreement for Subordination of Utility Interests in favor of the State of Florida Department of Transportation, and said request has been duly considered.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session duly assembled as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida adopts the above-outlined recitals and incorporates them herein as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of authorizing execution of the above-described Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation and is adopted pursuant to the authority granted by Chapters 166, 334, and 335, Florida Statutes.

Section 3. Designation of Signatory.

The City Council of the City of Ocala, Florida hereby designates the President of the City Council as the official who is authorized to sign the Agreement for Subordination of Utility Interests and subsequent amendments thereto with the State of Florida Department of Transportation.

Section 4. Direction to Staff.

A certified copy of this Resolution shall be forwarded to the State of Florida Department of Transportation at 719 South Woodland Blvd., Deland, Florida, 32720-6834 along with the executed Agreement for Subordination of Utility Interests.

Section 5. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

This resolution adopted this _____ day of _____, 2026.

AGREEMENT FOR SUBORDINATION OF UTILITY INTERESTS

THIS AGREEMENT, made and entered into this _____ day of _____, _____, by and between the CITY OF OCALA, a Florida municipal corporation ("City"), and the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION ("FDOT").

WHEREAS:

A. The City presently has interests in certain lands that have been determined necessary for a transportation facility; and

B. The proposed use of the subject real property for a transportation facility requires subordination of the City's interest to the FDOT; and

C. The FDOT is willing to pay to have the City's facilities located, protected, adjusted, relocated, or removed if necessary, to prevent conflict between the facilities so that the benefits of each may be retained.

NOW, THEREFORE, in consideration of the public welfare, mutual covenants contained herein, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

1. Subordination of Utility / Easement Interests. City hereby subordinates to the interest of FDOT, its successors, or assigns, any and all interest the City has in the real property ("Property") described in the attached **Exhibit A**

1.1 The interests of the City being subordinated hereby include the interests created by the following instruments:

INSTRUMENT	DATE	FROM	TO	O.R. BOOK/PAGE
Easement	01/28/93	Larry M. Wood, Trustee	City of Ocala	1907/1714

2. The City shall retain all rights under the instruments identified above, provided, however, that the City's exercise of those rights shall be in accordance with the FDOT's standards as set forth in the FDOT's then-current Utility Accommodation Manual, and subject to the following provisions:

2.1 The FDOT may require, for any present or future transportation facility project, that any City facilities be located, protected, adjusted, relocated, or removed as the FDOT determines is necessary (including the timing of any of such activities) to accommodate the transportation facility project. In the event that any such work is required by the FDOT, the FDOT hereby agrees to pay all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein, which may require additional easement area necessary to provide for sufficient clearance for aerial facilities and vegetation management zones. The work performed pursuant to this section 2.1 shall comply with the City's Design and Construction Standards for Electric Utility Facilities and the National Electrical Safety Code (ANSI Standard C2). Payment of the above shall not include any betterment[1] to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City. And the FDOT shall have full authority over the proceedings.

2.2 Any new construction or relocation of City facilities within the lands will be subject to prior approval by the FDOT, which shall not be unreasonably withheld. Should the FDOT fail to approve any new construction or relocation of facilities by the City or require the City to locate, protect, adjust, relocate or remove its facilities located within said lands, the FDOT hereby agrees to pay the all costs of such work, including, but not limited to, all costs, including any landowner condemnation attorney fees and other condemnation costs, if necessary, of acquiring easements comparable to the easements being subordinated herein. Payment of said costs shall not include any betterment to the City. In the event that a condemnation action is necessary to acquire a substitute easement, the FDOT will file such action for the use and benefit of the City and the FDOT shall have full authority over the proceedings.

2.3 The FDOT acknowledges that the City is entitled to advanced review of the proposed construction of any other utilities within the lands described herein and that such utilities are required to obtain an FDOT permit which states that the new utility may not interfere with any existing utilities or with the City's rights set forth in the above referenced easements.

3. The terms of this Subordination Agreement shall supersede any contrary provisions within any utility permit issued to the City within the area of the lands described.

[1] "Betterment" is defined as any upgrading of facilities being relocated that is not attributable to the highway construction and is made solely for the benefit of and at the election of the City.

4. The City shall have a reasonable right to enter upon the lands described herein for the purposes outlined in Paragraph 2 above, including the right to trim such trees, brush, and growth which might endanger or interfere with the City's facilities, provided that such rights do not interfere with the operation and safety of the FDOT's facilities.

RESOLUTION 20__ - _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA AUTHORIZING EXECUTION OF A SUBORDINATION OF UTILITIES AGREEMENT WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION CONCERNING PROPERTY COMMONLY KNOWN AS FDOT PARCEL 801.02; DIRECTING THAT THE SIGNED RESOLUTION AND AGREEMENT BE FORWARDED TO THE FLORIDA DEPARTMENT OF TRANSPORTATION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the State of Florida Department of Transportation proposes to construct or improve State Road No. 93 (I-75), Section No. 36210, F.P. No. 452074-1, FDOT Parcel ID 801.02 in Marion County, Florida; and

WHEREAS, it is necessary that certain easement rights presently owned by the City of Ocala, Florida, be subordinate to the rights of the State of Florida Department of Transportation; and

WHEREAS, said subordination is for transportation purposes which are in the public or community interest, is for the public welfare, and in the best interests of the City of Ocala; and

WHEREAS, the State of Florida Department of Transportation has made application to the City of Ocala to execute and deliver to the State of Florida Department of Transportation an *Agreement for Subordination of Utility Interests* in favor of the State of Florida Department of Transportation, and said request has been duly considered.

NOW THEREFORE, IT IS HEREBY RESOLVED by the City Council of the City of Ocala, Florida as follows:

Section 1. Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida adopts the above-outlined recitals and incorporates them herein as part and parcel of this resolution.

Section 2. Purpose and Authority for Resolution.

This resolution is adopted for the purpose of authorizing execution of the above-described *Agreement for Subordination of Utility Interests* and subsequent amendments thereto with the State of Florida Department of Transportation and is adopted pursuant to the authority granted by Chapters 166, 334, and 335, *Florida Statutes*.

Section 3. Designation of Signatory.

The City Council of the City of Ocala, Florida hereby designates the President of the City Council as the official who is authorized to sign the *Agreement for Subordination of Utility Interests* and subsequent amendments thereto with the State of Florida Department of Transportation.

Section 4. Direction to Staff.

A certified copy of this Resolution shall be forwarded to the State of Florida Department of Transportation at 719 South Woodland Blvd., Deland, Florida, 32720-6834 along with the executed *Agreement for Subordination of Utility Interests*.

Section 5. Effective Date of Resolution.

This resolution shall become effective immediately upon adoption.

THIS EASEMENT, Made this day between (PRINT) 1) LARRY M. WOOD TRUSTEE their heirs, successors and assigns (*GRANTOR*), and the City OF OCALA, a municipal corporation, under the laws of the State of Florida, its successors, lessees and assigns (*GRANTEE*):

WITNESSETH, That, for and in consideration of the mutual benefits, covenants and conditions herein contained, GRANTOR grants and conveys to GRANTEE an easement to install, operate and maintain in perpetuity or until the use thereof is abandoned, such facilities as may be necessary or desirable for providing electric energy and service and communication services: said facilities being located in the following

described *Easement Area* within GRANTOR'S premises in MARION County, Florida, to wit:
SEC. 2) 27 , TWP 3) 15 , RNG 4) 21 . Any addendums attached to this agreement shall be limited to legal descriptions, surveys or drawings unless prior approval has been received from the City of Ocala.
Parcel ID # 5) 2380-000-001
LEGAL DESCRIPTION:
6) N 1175 FT OF N.E. 1/4 EX E. 3/4 OF N 1/4 OF THE NE 1/4 & EX E 30 FT FOR ROAD EX THAT PART LYING WITHIN MAGNOLIA GARDEN ESTATES K-37

Easement to be 7) 10 feet in width and the length and direction to be defined by City of Ocala Work Order # 8) EUZ-088, C3398

The rights herein granted to GRANTEE by GRANTOR specifically include: (a) the right for GRANTEE to patrol, inspect, alter, improve, repair, rebuild, relocate, and remove said facilities: (b) the right for GRANTEE to increase or decrease the voltage and to change the quantity and type of facilities: (c) the right for GRANTEE to clear the Easement Area of trees, limbs undergrowth and other physical objects which, in the opinion of GRANTEE, endanger or interfere with the safe and efficient installation, operation or maintenance of said facilities: (d) the right for GRANTEE to trim or remove any timber adjacent to but outside the Easement Area which, in the opinion of Grantee, endangers or interferes with the safe and efficient installation, operation or maintenance of said facilities: (e) the reasonable right for GRANTEE to enter upon lands of the GRANTOR adjacent to said Easement Area for the purpose of exercising the rights herein granted: and (f) all other right and privileges reasonably necessary or convenient for GRANTEE'S safe and efficient installation, operation and maintenance of said facilities and for the enjoyment and use of said easement for the purposes described above.

611

GRANTOR hereby covenants and agrees that no buildings, structures or obstacles (except fences) shall be located, constructed, excavated or created within the Easement Area. If fences are installed, they shall be placed so as to allow ready access to GRANTEE'S facilities and provide a working space of not less than six feet (6') on the opening side and one foot (1') on the other three sides of any pad mounted transformer. If GRANTOR'S future orderly development of the premises is in physical conflict with GRANTEE'S facilities, GRANTEE

shall, within 60 days after receipt of written request from GRANTOR, relocate said facilities to another mutually agreed upon Easement Area in GRANTOR'S premises, provided that prior to the relocation of said facilities (a) GRANTOR shall pay to GRANTEE the full expected cost of the relocation as estimated by GRANTEE, and (b) GRANTOR shall execute and deliver to GRANTEE, at no cost, an acceptable and recordable easement to cover the relocated facilities. Upon the completion of the relocation, the easement herein shall be considered cancelled as to the portion vacated by such relocation.

GRANTOR covenants not to interfere with GRANTEE'S facilities within the Easement Area in Grantor's premises, and GRANTOR further covenants to indemnify and hold GRANTEE harmless from any and all damages and injuries, whether to persons or property, resulting from interference with GRANTEE'S facilities by GRANTOR or by GRANTOR'S agents or employees.

GRANTOR hereby warrants and covenants (a) that GRANTOR is the owner of the fee simple title to the premises in which the above described Easement Area is located, (b) that GRANTOR has full right and lawful authority to grant and convey this easement to GRANTEE, and (c) that GRANTEE shall have quiet and peaceful possession, use and enjoyment of this easement.

All covenants, terms, provisions and conditions herein contained shall inure and extend to and be obligatory upon the heirs, successors, lessees and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the GRANTOR'S hands and seals have been hereunto affixed this 9) 28 day of JANUARY, 19 93.

Any addendum's attached to this agreement shall be limited to legal descriptions, surveys or drawings unless prior approval has been received from the City of Ocala.

Department: Aviation

FORMAL TITLE:
Florida Department of Transportation Temporary Basecamp Lease at Ocala International Airport

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The Florida Department of Transportation (FDOT) reached out to Airport Staff requesting property for use as a temporary basecamp to help the community rapidly recover from various disasters. Staff located approximately 12 acres with good road access and flat terrain that would meet FDOT's requirements.

The premises will be available and utilized by FDOT during a state of emergency declared by the Governor or the President for the limited purpose of establishing and operating base camp facilities. Base camp facilities include, without limitation, sleeping quarters, dining facilities, meeting rooms, communications equipment, latrines, showers, hand-washing stations, vehicle parking, and temporary storage of equipment, materials, and tools.

FINDINGS AND CONCLUSIONS:

- The property is adjacent to SW 67th Ave.
- A full complement of utilities is available at the property should FDOT require them.
- The area can only be used during declared states of emergency.
- The initial term is one year, followed by four mutually agreed-upon annual extensions.
- The Airport Board supports the use and location of the Airport property by FDOT.

FISCAL IMPACT:

None.

PROCUREMENT REVIEW:
This Agreement has been reviewed by the Procurement and Contracting Officer in compliance with City policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

LICENSE AGREEMENT
BY AND BETWEEN
CITY OF OCALA, BY AND THROUGH
OCALA INTERNATIONAL AIRPORT
AND
FLORIDA DEPARTMENT OF TRANSPORTATION

This LICENSE AGREEMENT ("Agreement") is executed and effective on _____ ("Effective Date"), by and between the City of Ocala, ("City"), and The Florida Department of Transportation, an executive agency of the State of Florida ("Licensee," and both City and Licensee together referred to as the "Parties")

RECITALS:

WHEREAS, the City owns and operates the Ocala International Airport, located in Marion County, Florida; and

WHEREAS, Licensee is desirous of utilizing a location at Ocala International Airport to support its emergency response team activities in the event Licensee needs to mobilize during a declared state of emergency; and

WHEREAS, the City is amenable to licensing a portion of land at Ocala International Airport to Licensee as defined herein and, inasmuch as Licensee is a public entity, this Agreement is exempt from competition pursuant to Section 2.05(A)(10) of City's Procurement Code;

NOW THEREFORE, in consideration of the mutual covenants and agreements herein contained, City and Licensee do hereby acknowledge the above recitals as true, and mutually undertake and agree to the following terms and conditions:

1. Premises: City hereby licenses to Licensee use of approximately 11.8 acres of land as depicted on the attached Exhibit A ("Premises"). Licensee shall have exclusive rights to a portion of the Premises when in use for staging, fueling and/or other base camps functions. City will deliver said Premises in "AS IS" condition and City grants no warranties or representations, express or implied, with regard to such.

2. Rights and Uses: The Premises will be available and utilized by Licensee into response to a state of emergency declared by the Governor or the President for the limited purpose of establishing and operating base camp facilities. Base camp facilities, include, without limitation, sleeping quarters, dining facilities, meeting rooms, communications equipment, latrines, showers, hand-washing stations, vehicle parking and temporary storage of equipment, materials and tools utilized by Licensee's employees and contractors. No other uses of the Premises are permitted unless agreed to in writing by the Parties prior to said use. City will not be liable for Licensee's use of the Premises, authorized or otherwise, nor will City be liable for the suitability of the Premises for Licensee's intended and/or contemplated use thereof.

3. Initial Term: The term of this Agreement ("Term") shall be for one (1) year, beginning on the Effective Date.

4. Renewal Options: The Term of this Agreement may be renewed for up to four (4) additional one (1) year periods (each an "Additional Term") upon mutual agreement of both Parties by giving written notice to the other party at least 90 days in advance of the expiration of the Initial Term or any Additional Term.

Notwithstanding the foregoing, the Term of this agreement, including Additional Terms, shall not exceed five (5) years without formal approval of City's Board.

All reports and other correspondence should be addressed as indicated in the Article hereof entitled, "Notices and Communications."

5. Notices and Communications: All notices required or permitted hereunder shall be in writing and shall be served on the Parties at the addresses set forth below. Any such notices shall be either (a) sent by overnight delivery using a nationally recognized overnight courier, in which case notice shall be deemed delivered one business day after deposit with such courier, (b) sent by email, in which case notice shall be deemed delivered upon receipt of confirmation of transmission of such email notice, or (c) sent by personal delivery, in which case notice shall be deemed delivered upon receipt.

To City:

Ocala, Florida 34471
E-mail: cityattorney@ocalafl.gov

Addresses for email notices:

mgrow@ocalafl.gov mabaker@ocalafl.gov

Using the subject line—Re: FDOT/Ocala International Airport and reason for the notice (e.g., emergency response, base camp mobilizing, request for improvements)

To Licensee:

Ronald J. Meade
District Emergency Management Coordinator
Florida Department of Transportation
719 S Woodland Blvd, Deland, FL 32720
ron.meade@dot.state.fl.us
andrew.jenkins@dot.state.fl.us

or to such other address as the addressee may designate in writing by notice to the other party delivered in accordance with the provisions of this Article.

6. Obligations of Licensee: Licensee shall:

A. Provide no less than 72-hour notice prior to occupying and using the Premises. In the event less than 72-hour notice is provided, Licensee must contact Airport Management for access accommodations.
B. Be responsible for maintaining the Premises and ensuring safe parking and storage conditions for its employees and subcontractors. Licensee, its employees, and subcontractors will abide by all security protocols and operating procedures directed by City.
C. Remove all vehicles, equipment, and materials upon termination of this Agreement or upon request from City.
D. Conduct its operation hereunder in a safe, orderly and proper manner, as to not disrupt other users and operations at the Airport,
E. Not commit any nuisance, waste, or damage to the Premises and shall not do or permit to be done anything that may result in the creation, commission, or maintenance of such nuisance, waste, it damage to the Premises.

Additionally, upon termination of this Agreement, City reserves the right to require the Licensee to return the Premises to its original condition, defined as the condition of the Premises prior to the use and occupancy by Licensee. including leveling and grading to ensure proper drainage, along with the application of grass seed or sod.

Upon termination or expiration of this Agreement, City reserves the right to remove and dispose of any and all vehicles, equipment, supplies, materials and/or other items abandoned by Licensee, at Licensee's expense, which expense will include but may not be limited to removal, clean-up and disposal fees and costs, as well as costs associated with the application of grass sod or seed. The City shall provide the Licensee with a minimum of ten (10) days prior written notice identifying what vehicles, equipment, supplies, materials and/or other items it deems abandoned arid indicating its intent to remove and dispose of the same.

7. Obligations of City: City will provide a designated means of access to the Premises and will not unreasonably interfere with Licensee's use and enjoyment of the Premises.

8. City's Rights: City will not be liable for, or required to make, any repairs or perform any maintenance upon the Premises. Notwithstanding the foregoing, any and all requests for maintenance upon the Premises by Licensee must have prior written approval from the City.

9. Leasehold Improvements: Notwithstanding any requirements or obligations contained herein, Licensee will make no alterations or improvements to the Premises without the prior written consent of the City. Any improvements or alterations made by Licensee and approved by the City, either to the Premises or within Airport, as required to support operations within the Premises. Any changes or additions to Licensee Improvements shall require further City review and approval.

10. Compliance With Laws, Regulations, Ordinances, Rules: Licensee will at all times comply with applicable federal, state, and local laws and regulations, Airport Rules and Regulations, and the City Leasehold Development Standards and other mandates whether existing or as promulgated from time to time by the federal, state, or local government, City or Airport Management including but not limited to permitted and restricted activities, security matters, parking,

ingress and egress, environmental and storm water regulations, and any other operational matters related to the operation of the Airport. This will include but not be limited to Licensee precluding its employees, subcontractors, customers, or invitees from entering upon any restricted area of the Airport as noted in procedures, rules, or regulations of the federal, state, or local governments or the City.

11. Hold Harmless/Indemnification: Only to the extent permissible under applicable Florida Law, not to exceed the limitations of liability for tort actions set forth In §768.28, Florida Statutes, and subject to specific appropriation from the Legislature, Licensee will fully indemnify, defend, and hold City harmless from and against all claims or actions and all expenses incidental thereto based upon or arising out of the damages or injuries of every description whatsoever to persons or property due to the use by Licensee of the Premises under this Agreement excluding only the negligence or willful misconduct of City, its officers, agents, or employees. The undersigned on behalf of Licensee hereby waive any and all claims, causes of action, rights, or privileges it may have against the City resulting from the permitted use under this Agreement and access to the Premises excluding only the negligence or willful misconduct of the City, its officers, agents, or employees. The Parties are public entities existing under the laws of the State of Florida and are, therefore, protected by the provisions of Florida Statute 768.28 and related statutes. Any indemnification, attorneys' fees, or related obligations assigned hereunder are limited to the provisions of Florida Statute 768.28 and related statutes. Nothing in this Agreement will be deemed or otherwise interpreted as a waiver of either Party's sovereign immunity protections, or as increasing the limits of liability set forth in Florida Statute 768.28 and related statutes, as the same may be amended from time to time**.**

12. Compliance with Environmental Laws: Licensee will comply with all applicable Environmental Laws insofar as they relate to Licensee's operations at the Airport and Licensee accepts full responsibility and liability for such compliance.

13. Environmental Representations: The term "Hazardous Materials" will be defined to include any substance identified as "hazardous substances" in the Comprehensive Enforcement Response, Compensation and Liability Act of 1980, 42 U.S.C. Section 9601 et seq., as amended ("CERCLA") or identified as "hazardous waste" in the Resource Conservation and Recovery Act, 42 U.S. C. Section 6901 et seq., as amended ("RCRA") or other similar applicable federal or state laws and regulations (collectively, "Environmental Laws"), including but not limited to materials such as asbestos PCB's and urea-formaldehyde.

The term "Hazardous Waste" will be defined to include any substance identified as "hazardous waste" in 40 C.F.R. Parts 2260-265 and appendices, promulgated pursuant to the RCRA and Rule 62-730, Florida Administrative Code, as amended.

Notwithstanding any other provisions of this Agreement, and in addition to any and all other Agreement requirements, and any other covenants and warranties of Licensee. Licensee hereby expressly warrants, guarantees, and represents to City, upon which City expressly relies that:

A. Licensee is knowledgeable of any and all federal, state, regional, and local governmental laws, ordinances, regulations, orders, and rules, without limitation, which govern or which in any way apply to the direct or indirect results and impacts to the environmental and natural resources due to, or in any way resulting from, the conduct by Licensee of its operations pursuant to or upon the Premises. Licensee will keep informed of future changes in environmental laws.

B. Licensee will comply with all applicable federal, state, regional, and local laws, regulations, and ordinances protecting the environmental and natural resources and all rules and regulations promulgated or adapted as some may from time to time be amended and accepts full responsibility

and liability for such compliance.

C. Licensee will, prior to commencement of any such operations pursuant to this License, secure any and all permits, and properly make all necessary notifications as may be required by any and all governmental agencies having jurisdiction over parties or the subject matter hereof.

D. Licensee, its employees, agents, contractors, and all persons working for, or on behalf of Licensee, have been fully and properly trained in the handling and storage of all such hazardous waste materials and other pollutants and contaminants; and such training complies with any and all applicable federal, state, and local laws, ordinances, regulations, rulings, orders, and standards which are now or are hereinafter promulgated.

E. Licensee will neither handle nor store any toxic waste or unsuitable materials on the Premises.

F. Licensee will provide City satisfactory documentary evidence of all such requisite legal permits and notifications as hereinabove required.

G. Licensee will cooperate with any investigation, audit, or inquiry by City or any governmental agency regarding possible violation of any environmental law or regulation.

14. Environmental Remediation: With regard to any contamination caused by Licensee or arising by reason of Licensee's use or occupancy of the Premises, Licensee will immediately take such action as is necessary to cleanup and remediate the Premises at its own expense in accordance with applicable Environmental Laws. The remediation must continue until the Governmental Authorities with jurisdiction have determined that no further action is necessary; it being understood and agreed that Licensee will be obligated to clean up and remediate the Premises to achieve such standards or clean up levels as are reasonably required by the City for properties at the Airport. If the City is unable to lease the Premises during the period of clean up and remediation due to the environmental condition or clean-up work being performed, in addition to any other damages, Licensee will pay to City lost rent and/or costs associated with lost use of the Premises.

15. Federal Storm Water Reputations: Licensee acknowledges that certain properties and uses of properties within the Airport or on City owned land are subject to federal storm water regulations as set forth in 40 CFR Part 122. Licensee will observe and abide by said regulations as applicable to the Premises thereof.

Licensee will participate in any City-organized task force or other work group established to coordinate storm water activities at the Airport. In addition, Licensee will participate in City's Environmental Compliance Program and is subject to and agrees to periodic inspections conducted by Airport staff to monitor the management, handling, storage, and disposal practices associated with any vehicle, substances, hazardous substances, or waste materials.

Licensee will be strictly liable for, and hereby expressly assumes all responsibility for all citations, fines, environmental controls and monitoring, clean-up and disposal, restoration and corrective measures to the extent resulting from the improper use, handling, storage, or disposal of all pollutants or contaminated materials, as same are defined by law, by Licensee or by Licensee's employees, invitees, suppliers, or service providers regardless of whether or not a default notice has been issued and notwithstanding any other obligations imposed upon Licensee pursuant to the terms of this Agreement.

16. Rights Reserved to City: Rights not specifically granted to Licensee by this Agreement are expressly and independently reserved to City. City expressly reserves the right to prevent any use of the described Premises which would interfere with or adversely affect the operation or maintenance of the Airport and City's tenants, or otherwise constitute an Airport or general hazard.

7. Consent Agenda Items Held for Discussion

Should any items be removed from the Consent Agenda for discussion, they will be discussed at this time.

8. Introduction and First Readings of Ordinances

(Second and Final Reading - June 2, 2026)

8a. Ordinance 2026-16 to rezone from B-2, Community Business, to M-1, Light Industrial, for property located in the 200 block of SW 27th Avenue (Parcel 22780-002-00), approximately 1.25 acres (Case ZON26-0001) (Quasi-Judicial)

Introduced By: James P. Hilty Sr

9. Public Hearings / Second and Final Readings / Adoption of Ordinances

9a. Ordinance 2026-15 to establish the Mockingbird Ridge Community Development District generally located west of Interstate 75, southeast of Southwest College Road, north of SW 66th Street and south of SW 40th Street, approximately 169.31 acres (Case CDD26-0001) (Quasi-Judicial)

Presentation By: Endira Madraveren

Introduced By: Kristen M. Dreyer

Chief Planning Official Endira Madraveren presented the request to establish the Mockingbird Ridge Community Development District (CDD), which would finance and maintain public infrastructure including stormwater systems, retaining walls, underground utilities, landscaping, and conservation areas. She explained that the district would be required to submit a proposed budget, a public facilities report within one year, and provide annual updates. Staff found the petition accurate, consistent with the City's comprehensive plan, and appropriate in size and function. They also determined the CDD to be a viable and compatible service provider, confirmed proper advertising, and recommended approval.

There being no further discussion, the motion carried by roll call vote.

RESULT:	ADOPTED
MOVER:	Kristen M. Dreyer
SECONDER:	Barry Mansfield
AYE:	Dreyer, Hilty Sr, Mansfield, and Bethea Sr
EXCUSED:	Musleh

9b. Resolution 2026-30 to consider an amendment to the Planned Development Plan and Standards Book for property located at 5451 SW 66th Street (Parcel 2389-100-009), approximately 32.22 acres (Case PD25-0003) (Quasi-Judicial)

Presentation By: Endira Madraveren

Chief Planning Official Endira Madraveren presented a request to amend the Kenward at Heathbrook (formerly Keys at Ocala 2) PD, established in 2022. The amendment would change building types from duplexes to quadruplexes, allowing up to 146 units without increasing overall density, and reduce minimum lot width to 15 feet to allow fee-simple lots. Additional changes include revised internal layout and circulation, modified access with two points on Tartan Road and removal of access to SW 66th Street, and an increase in preserved open space from 41% to 53%. Staff found the amendment consistent with the existing PD, the Heathbrook DRI, and City code, with available utilities and no service issues identified. The Planning & Zoning Commission recommended denial due to proposed wetland reconfiguration, but staff maintains its recommendation of approval, noting minor clerical revisions since the P&Z review.

Thomas Burkhart, 6580 SW 51st Court, expressed concerns about traffic impacts from removing access to SW 66th Street, noting that directing all traffic to Tartan Road would create congestion and that SW 66th is better suited to handle the volume. He also urged conservation of wetlands, citing significant wildlife activity in the area, and objected to replacing cul-de-sacs with dead ends, stating it would detract from the established Heathbrook aesthetic.

Brian Hayes, 6560 SW 51st Court, presented visual materials comparing the currently approved plan with the proposed amendment. He stated that the existing plan better protects the wetlands and argued that building over wetland areas sacrifices a valuable natural resource without clear benefit to the City. He encouraged the Council to uphold the Planning and Zoning Commission's recommendation for denial and emphasized the importance of preserving environmental features.

Kelly Haynes, 6560 SW 51st Court, addressed the Council and affirmed the concerns raised by previous speakers. She highlighted the Planning and Zoning Commission's April 13 recommendation for denial due to wetland destruction and urged the Council to consider that an approved plan already exists that preserves major wetland areas. She expressed appreciation for the City's long-term vision but asked that environmental impacts be given significant weight.

Rob Batsel, 1531 SE 36 Ave, speaking on behalf of Eisenhower Property Group,

presented an updated plan for the 32-acre site previously approved as the Keys at Ocala II. The revised proposal maintains the same 146 units but replaces the former apartment layout with a townhome product featuring garages, driveways, fewer buildings, and substantially increased open space (from 41% to 53%). Mr. Batsel noted that the plan has been approved by the Heath Brook Architectural Committee and includes enhanced landscaping and buffering along the east boundary. Access remains on Tartan Road with an emergency-only secondary access. Two deviations are requested relating to block lengths and reducing berm width to 10 feet, which the applicant stated still meets safety needs. Regarding wetlands, Mr. Batsel acknowledged a 1.6-acre impact but emphasized that the highest-value wetlands are preserved and that the design improves drainage performance. The project is undergoing state-level environmental and stormwater review, including a formal wetland delineation and review by the Southwest Florida Water Management District.

Beau Clymer, Clymer Farner Barley, 2100 SE 17th St, Suite 202, explained that site grading, stormwater flows, and hydrology have been analyzed and meet regulatory requirements. Mr. Batsel concluded that the revised plan yields a better overall design with more open space, improved drainage, and minimized wetland impacts.

With no further discussion, the motion carried by role call vote.

9c. Resolution 2026-31 to consider an amendment to the Planned Development Plan and Standards Book for property located at 3610 NW First Loop (a portion of Parcel 22817-000-00), approximately 9.31 acres (Case PD20-0003) (Quasi-Judicial)

Presentation By: Endira Madraveren

Chief Planning Official Endira Madraveren explained that the applicant is requesting an amendment to the Saving Mercy Planned Development to increase total residential units from 144 to 200, consisting of 20 duplexes and 180 multifamily units. The amendment also proposes raising the maximum building height from 35 to 45 feet, revising the development layout into four phases, and incorporating minor nonsubstantial updates. Staff noted that the 9.31-acre site is already developed with duplex units, an administrative office, and multifamily units under construction. The proposed density remains within the Employment Center Future Land Use maximum of 24 units per acre, and no new code variations are requested. Staff found the amendment consistent with the comprehensive plan and PD standards, confirmed utilities are available, and reported no level-of-service issues. The Planning and Zoning Commission recommended approval, and staff also recommended approval with conditions.

Chuck Pigeon, Adore Group Inc. Engineering, stated he was available to answer questions and noted that phase two has experienced construction delays due to material supply issues. He also explained that increasing the height to 45 feet would allow a smaller building footprint, more open space, and better site design; although three stories may be partially visible, the building would be set farther from Silver Springs Boulevard.

Mayor Marciano spoke about the high quality product being built and expressed his excitement for the affordable housing project. Council Member Dreyer agreed with the Mayor's comments.

There being no furthr discussion the motion carried by roll call vote.

9d. Resolution 2026-32 to consider an amendment to the 60th Avenue Parcels Planned Development Plan and Standards Book for property located at 3661 SW 60th Avenue and 5800 SW 31st Street (Parcel 23817-002-00 and 23817-002-02), approximately 61.4 acres (Case PD22-44929) (Quasi-Judicial)

Presentation By: Endira Madraveren

Chief Planning Official Endira Madraveren explained that the applicant is requesting amendments to the PD standards originally approved in March 2023. The changes include minor adjustments to the development layout, internal lot configurations, setbacks, roadway design, future rights-of-way, and the addition of internal setbacks applicable to both residential and commercial lots. The amendment also identifies residential signage locations and adds a definition allowing ancillary structures up to 35 feet within the 100-foot height-restricted buffer. The revisions do not alter the previously approved development maximums of 11.88 acres of commercial development and 750 residential units, and do not affect level-of-service findings or density allowances. Staff confirmed consistency with the adopted future land use and noted that sewer extension will be required, with all other utilities available. The Planning and Zoning Commission recommended approval, and staff likewise recommended approval with conditions.

There being no further discussion the motion carried by roll call vote.

10a. Resolution 2026-33 to adopt the Ocala Safety Action Plan associated with supplemental planning studies for the Fiscal Year 2023 Safe Streets and Roads for All grant awarded by the U.S. Department of Transportation

Presentation By: Noel Cooper

Deputy City Engineer Noel Cooper reported explained that the City received a FY23 Safe Streets for All Supplemental Studies grant, including $104,000 in federal funding and a $26,000 City match for a total of $130,000. City Council previously approved the agreement for these studies, which include a citywide safety plan and speed-management plan. Public engagement efforts included two community meetings, a project website, an interactive comment map, an online survey, a stakeholder advisory group that met twice, and a Council workshop held on May 12, 2026. Cooper stated that the Ocala Safety Action Plan will guide roadway-safety improvements, support development of a speed-management traffic plan, and position the City to pursue future safety-grant opportunities. Staff recommended approval.

10c. Award of contract with HDR Engineering, Inc., for the provision of comprehensive operational analysis services for the SunTran transit system in an amount not to exceed $215,998

Presentation By: Tom Duncan

Council Member Mansfield questioned why the City should be spending money on a third party rather than doing the study in-house, noting budgetary concerns.

Transit Administrator Tom Duncan explained HDR did the transportation development plan in 2023. The comprehensive operational analysis of operations will be used as a building block for the transit development plan as staff considers future long term plans.

Growth Management Director Jeff Shrum noted the process was started earlier in the year, and there are discussions with the County as well as the Finance Department and he believes the current fiscal year will be covered in the budget. He emphasized the importance of the study to allow staff to consider the findings as they move forward.

12. City Manager's Report

Fun in the Sand event successful

13. Ocala Police Department Report

total incidents 7762. crime calls increase and traffic stop increase by 20%

K9 Unit update

- **Overview of Crime and Traffic Stops**

Police Chief Balken reported that overall incidents increased slightly by 0.5% to 762 calls, with proactive calls decreasing 6% and dispatch calls rising 13% to more than 2,800. Arrests increased from 267 to 316, while other detentions declined from 224 to 179. Traffic stops rose significantly by 26% to over 1,000, and the city's crash rate decreased by about 9%.

- **K-9 Unit Highlight**

Chief Balken highlighted the work of the department's K-9 Unit, which consists of seven teams handling building searches, apprehensions, drug detection, and recovery of weapons and evidence. He shared operational statistics from the past year, including nearly 700 drug sniffs, 849 arrests (138 attributable directly to K-9 operations), multiple bite captures, and the seizure of firearms, narcotics, and illicit cash. The unit logged more than 1,800 hours of training. Chief Balken concluded by noting that he will soon request acquisition of an explosives-detection K-9, funded entirely through community donations, due to recent incidents requiring outside agency assistance.

14. Ocala Fire Rescue Department Report

- **Service Calls Update**

Fire Chief Clint Welborn reported that the department responded to 1,082 calls during the two-week period, including 114 engine responses, 202 motor-vehicle accidents, six structure fires, and 36 core calls, bringing the year-to-date total to 10,370 responses. He noted that crews handled several significant incidents during the period and shared a brief video recap.

- **Department Highlights**

  Chief Welborn also announced the arrival of the new Rescue 7 apparatus. In response to a light-hearted question from the dais, he added that a rescued kitten featured in the video was adopted by the resident involved in the call.

Patrica Tomlinson - concerns of curbside recycling being removed.

Mammie Fisher - concerns of development behind her neighborhood - BearTrack??

- **Patricia Tomlinson, 606 SE 33rd Avenue, discussed her concerns about discontinuing the roadside recycling program**

  Patricia Tomlinson expressed strong concern about the planned end of curbside recycling in Ocala, citing landfill capacity issues, reduced recycling participation when drop-off sites are required, and limited public education on proper recycling practices. She urged the Council to find an alternative solution, emphasizing Ocala's reputation for natural beauty and the importance of maintaining environmental stewardship.

- **Mamie Fisher, 4680 SW 22nd Place, expressed her dissatisfaction with information and updates provided to concerned citizens regarding proposed neighboring developments**

  Mamie Fisher, 4680 SW 22nd Place, expressed concerns that residents of Bear Track Ranch were not properly informed or engaged regarding a nearby development project. She stated that developers had promised follow-up meetings and buffer commitments but never contacted the community after an initial 2025 meeting. Ms. Fisher emphasized worries about environmental impacts, loss of privacy, and increased density, and asked the City to review notification processes so residents are better informed in the future.

- **Kelly McAtee, 1117 E 28th Avenue, thanked Ocala Fire Rescue for saving her house**

18. Comments by Mayor

Fallen Officer Memorial

Domestic Violence Center update

Randall Bridgeman will be missed

- **Fallen Officer Memorial**

  Mayor Marciano stated he attended the Fallen Officer Memorial last Thursday, and he intends to get more community participation next year to support the families.

- **Domestic Violence Center update**

  Mayor Marciano announced that Meadowbrook Church and Advent Health have provided major support to ensure the continued operation of the locally run domestic-violence and sexual-assault center, now known as Lotus, helping stabilize funding during its transition.

- **Mayor Marciano stated City Auditor Randall Bridgeman will be missed**

  Mayor Marciano honored the late Randall Bridgeman, noting his positive influence and the reminder to live with kindness and service.

- **Ritz Hotel**

  Mayor Marciano reported a developing concern involving the Ritz Hotel, where 35-40 veterans may face homelessness due to a missed federal grant deadline. He has contacted state and federal representatives and urged coordinated efforts to assist the affected veterans and explore potential housing alternatives.

Department: Growth Management

FORMAL TITLE:
Ordinance 2026-17 to annex approximately 82.40 acres for property located at 5575 SW 52nd Street (Parcel 23835-000-00) (Case ANX26-0001) (Quasi-Judicial).

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:

- Petitioner/Property Owner: Ocala 52 Partners, LLC
- Agent: Tillman & Associates Engineering, LLC

Key Points:

The petitioner is requesting to annex the subject property into the city to facilitate future development of the site and connection to available city utilities. The petitioner has submitted two concurrent petitions:

- Future land use amendment to change the future land use classification from High Residential (County) to Low Intensity (City) (LUC26-0001)
- Rezoning to change the zoning from A-1 General Agriculture (County) to PD, Planned Development (City) (PD26-0001).

The applicant acquired the property in July of 2024, and it is approximately 82.40 acres. Currently, the subject property is not located within the Ocala city limits and is within the jurisdiction of Marion County. The property has the following current Marion County designations:

- Future Land Use: High Residential (up to 8/units per acre)

- Zoning: General Agriculture (A-1)
- Current Use: Agriculture

The subject property was formerly used for mining of earth and other minerals until approximately 2022. As a result of the discontinuation of mining activities, FDEP has since issued a Release of Reclamation Obligations in recognition of reclamation activities completed since the mining activity ceased on the property. There are currently several small structures and a septic system on the property, which must be removed prior to any further development of the site. At the southern end of the property, there is a ±6.7-acre lake, and at the northeasterly corner of the property, there is a ±16,000 square foot pond. The concurrently submitted zoning (PD) amendment indicates that both water bodies will be preserved and are integrated into the design of the PD as amenities and drainage retention areas.

Zoning and Land Use Details:

Annexation of the subject property will provide the city with jurisdiction and oversight for any future development of the property. Having direct decision-making authority over development will help the city ensure appropriate urban development that is compatible with other nearby and adjacent city properties. Further, the annexation and future development will facilitate connection to city utilities, improving the efficiency and maintenance of public facilities while also eliminating the negative impacts of the existing septic system.

FINDINGS AND CONCLUSIONS:

- The subject property shares a common property boundary with properties within the City to the north.
- The annexation will not result in the creation of an enclave.
- The requested annexation and future development of the property will provide a positive return on connection to City services.
- The annexation will establish the City as the decision-making authority over the property, providing the opportunity to ensure appropriate and compatible urban development along this southwest fringe area of the city.
- No level of service issues have been identified for public facilities, with the exception that there are currently no connection points for sanitary sewer within the right-of-way of SW 52nd Street. A sanitary sewer connection will be required to the north within the Fore Ranch development.

Staff recommends approval with the following conditions:

1. The existing agricultural use shall cease within one year after zoning approval or prior to any future development of the site whichever occurs first.
2. The existing structures and septic system must be removed from the property prior to any future development of the property.
3. Connection to city public facilities will be required upon further development of the property.

FISCAL IMPACT: N/A

ORDINANCE 2026-17

AN ORDINANCE ANNEXING TO THE CITY OF OCALA, FLORIDA CERTAIN PROPERTY LOCATED AT 5575 SW 52ND STREET (PARCEL 23835-000-00), APPROXIMATELY 82.40 ACRES (ANX26-0001), MARION COUNTY, FLORIDA, PURSUANT TO CHAPTER 171, FLORIDA STATUTES, PROVIDING FOR TERMS AND CONDITIONS OF SAID ANNEXATION, DESCRIBING THE AREA TO BE ANNEXED; PROVIDING DIRECTION TO STAFF; REPEALING INCONSISTENT AND/OR CONFLICTING PROVISIONS; PROVIDING FOR SEVERABILITY OF ORDINANCE PROVISIONS; PROVIDING FOR MODIFICATIONS ARISING FROM CONSIDERATION AT A PUBLIC HEARING; PROVIDING DIRECTION TO THE CODIFIER; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, owners of real property to an unincorporated area of Marion County which is contiguous to the City of Ocala, Florida, have petitioned the City Council of the City of Ocala that said property be annexed to the City of Ocala, Florida, in accordance with Section 171.044, Florida Statutes; and

WHEREAS, it has been determined that the City has public facilities available to accommodate the property, future development will be required to connect and extend city facilities as necessary; and

WHEREAS, the applicant provided a fiscal impact analysis that yields a positive return for the City of Ocala by indicating a development consisting of private rights-of-way; and

WHEREAS, it has been determined by the City Council of the City of Ocala, Florida, that the petition bears the signature of all owners of property in the area proposed to be annexed.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session as follows:

Section 1. City Council of the City of Ocala, Florida in accordance with the powers given and granted to

said City of Ocala in and by Chapter 171, Florida Statutes, does hereby redefine the boundary lines of the City of Ocala, so as to include therein the property contiguous thereto and described below:

THE NE ¼ OF THE SW ¼ AND THE SE ¼ OF THE SW ¼ OF SECTION 33, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA. EXCEPT THE SOUTH 30 FEET FOR ROAD RIGHT-OF-WAY.
AND
THE WEST 1.5 CHAINS OF THE SW ¼ OF SE ¼ OF SECTION 33, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA.
BEING 82.40 ACRES, MORE OR LESS.

Section 2. Direction to Staff. The City Council of the City of Ocala, Florida directs staff to take any and all steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 3. Repealing Inconsistent and/or Conflicting Provisions. The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures, and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 4. Severability of Ordinance Provisions. If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 5. Modifications Arising from Consideration at a Public Hearing. It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 6. Direction to the Codifier. It is the intention of the City Council of the City of Ocala, Florida that (1) the property described in Section 1 of this ordinance be annexed; (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by City Council.

Section 7. Terms and Conditions. The annexation of the subject property is subject to the following conditions:

1. The existing agricultural use shall cease within one year after zoning approval or prior to any future development of the site whichever occurs first.

2. The existing structures and septic system must be removed from the property prior to any future development of the property.

3. Connection to city public facilities will be required upon further development of the property.

Section 8. This ordinance shall become effective upon approval by the mayor, or upon becoming law without such approval.

Staff Report

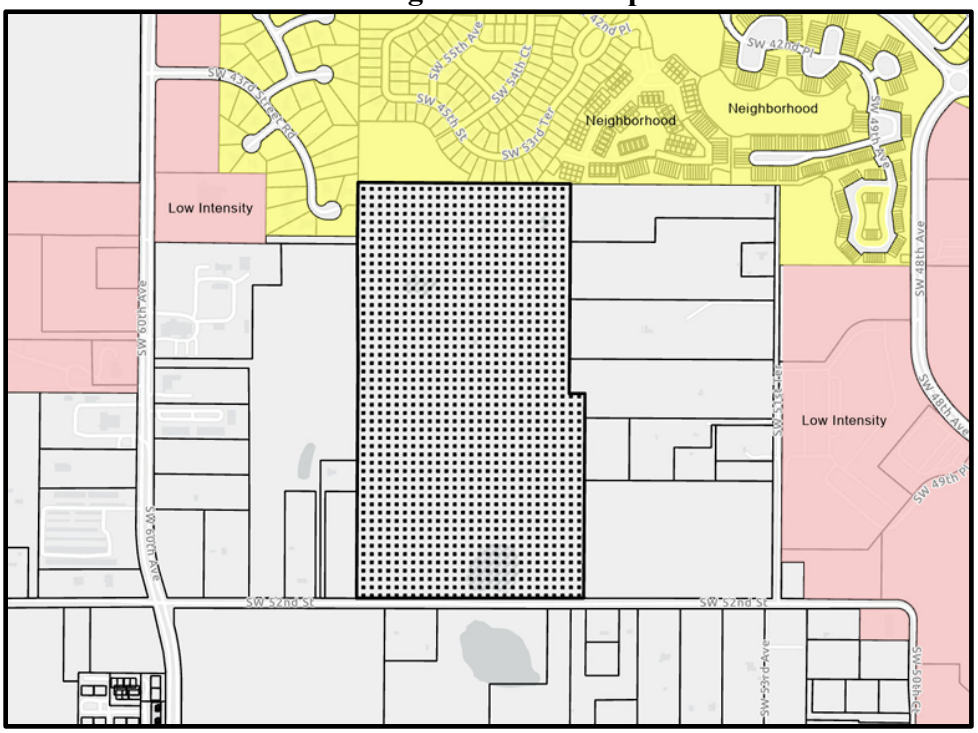
Case No. ANX26-0001
Planning & Zoning Commission: May 26, 2026
City Council (1st Reading): June 2, 2026
City Council (Adoption): August 4, 2026

Applicant:	Ocala 52 Partners, LLC
Property Owner:	Ocala 52 Partners, LLC
Project Planner:	David Sablan, Planner II
Applicant Request:	Annexation of a ±82.40-acre property from unincorporated Marion County
Concurrent Applications:	Future Land Use Change **(LUC26-0001)** to Low Intensity and a zoning change **(PD26-0001)** rezoning the subject property from A-1, General Agriculture (County) to PD, Planned Development (City)

Parcel Information

Acres:	±82.40 acres
Parcel(s)#:	23835-000-00
Location:	5575 SW 52nd Street
Existing use:	Undeveloped (former Quarry)
Future Land Use Designation:	High Residential (County)
Zoning Designation:	A-1, General Agriculture (County)
Special District(s)/Plan(s):	N/A
Approved Agreement(s):	N/A

Figure 1. Case Map



Section 1 - Applicant Request

The applicant is requesting to annex the subject properties into the city to facilitate future development of the site and connection to city utilities. The petitioner has submitted two concurrent petitions:

- Future land use amendment to change the land use classification from High Residential (County) to Low Intensity (City) (LUC26-0001)
- Rezoning to change the zoning from A-1, General Agriculture (County) to PD, Planned Development, with single-family residential (SFR), multi-family residential (MFR), and commercial land uses, and development standards (PD26-0001).

The agent, Tillman & Associates Engineering, LLC, is representing the applicant in this request.

Section 2 - Background Information

The subject property, identified as Parcel 23835-000-00, consists of an approximate 82.40 acres and is generally located within the 5500 block of SW 52nd Street. The property is currently within the jurisdiction of Marion County and shares its northern border with the existing Fore Ranch Planned Unit Development and Hunt Club at Fox Point neighborhood, both of which are located within City of Ocala jurisdiction. The current Marion County designations of the properties are:

Zoning:	A-1, General Agriculture (County). The County code of ordinances indicates the intent of the A-1 district is to preserve agriculture as the primary use. This zoning classification in the Urban Area may be used for agriculture until it is rezoned to another permitted classification.
Future Land Use:	High Residential land use (County), a maximum of 8 dwelling units per acre.

It is noted that the applicant acquired the subject property in July 2024.

Marion County Property Appraiser records (Book 2024, Page 1930) indicate that an agreement was entered into between G.W. O'Neal to White Construction Company, Inc. in April 1994 for exclusive mining rights of earth and minerals from the subject property. The agreement states that the property had been used for mining and removal of earth and minerals in the past, but no records are available to indicate the date of which this mining began. Staff believes mining operations began as early as the 1960s and continued until approximately 2022 based on available aerial imagery. Under Florida Statutes (F.S.) Chapter 378, the cessation of mining operations triggers land reclamation obligations to protect the public's health, safety, and welfare, the protection of the state's environment, and the subsequent beneficial use of the disturbed and reclaimed land. In October 2022 the Florida Department of Environmental Protection (FDEP) issued a Release of Reclamation Obligations in recognition of reclamation activities completed on the property.

Several small structures and a septic system currently exist on the property that will be required to be removed upon development of the property. At the southern end of the property, there is a ±6.7-acre man-made lake with a ±16,000 square foot pond at the northeasterly corner of the property. Both water bodies will be preserved and are integrated into the design of the PD.

Table 1: Adjacent Property Information:

Direction	Future Land Use	Zoning District	Current Use
North	Neighborhood	PUD-04, Planned Unit Development	Fore Ranch PUD
East	High Residential (County)	A-1, General Agriculture (County)	Large lot SFR & Undeveloped
South	High Residential (County)	A-1, General Agriculture (County)	Undeveloped
West	Neighborhood (City) Medium Residential (County)	No Zoning A-1, General Agriculture (County)	Hunt Club at Fox Point Large lot SFR & Undeveloped

Section 3 – Staff Analysis

The subject property is contiguous to the City limits to the north, and the requested annexation does not create an enclave. The applicant has provided a fiscal impact analysis (see attached exhibit) at the request of staff to better understand the impact on City systems and maintenance requirements. It is noted in the analysis that the applicant is proposing that all rights-of-way shall remain private, thus reducing future cost and maintenance to the City.

Consistency with Comprehensive Plan:

The requested annexation is consistent with the following Objectives and Policies of the City of Ocala Future Land Use Element:

1. *Future Land Use Element Policy 12.1. The City shall require that all development have adequate services and facilities including water, roads, sewage collection and treatment, stormwater drainage, recreation, and solid waste disposal, to the extent required by state law, other provisions of this Comprehensive Plan, or the City's Land Development Code.*

   Staff Comment: The annexation would promote the connection to city facilities by removing surcharges associated with utility connections outside of the city. Further, additional development of the subject property will be required to connect to city utilities to ensure adequate public services for the development. Level of service and facility impact will be determined at the time of development.

2. *Future Land Use Element Policy 13.2: The City shall continue to enforce the provisions of the Land Development Code that requires new development to pay for its share of existing or planned capital facilities through an impact fee charge, mobility fee, or other appropriate means.*

   Staff Comment: Development of the site to be annexed will necessitate the review of the development, assessment and payment of the appropriate impact, connection, and service fees.

3. *Sanitary Sewer Sub-Element Policy 5.1: The City shall require that any land or development receiving sanitary sewer services from the city of Ocala will annex into the*

city if or when it becomes contiguous to the City.

Staff Comment: The applicant is requesting the annexation of the subject properties to facilitate the future connection to sanitary sewer service from the city.

4. *Potable Water Sub-Element Policy 5.1: The City shall require that any land or development receiving potable water services from the city of Ocala will annex into the city if or when it becomes contiguous to the City.*

   Staff Comment: The applicant is requesting the annexation of the subject properties to facilitate the future connection to potable water services from the city

Consistency with Land Development Regulations:

The requested rezoning is consistent with the following Sections of the City of Ocala Code of Ordinances:

Subsection 122-246 – Annexed territory:

(a) all territory which may be annexed to the city after the effective date of the ordinance from this section is derived shall be considered to be zoned in the zoning classification given it by the county zoning code; provided that if no such classification exists in the zoning ordinance of the city then the property shall be zoned within the city under that classification most closely corresponding to the existing county classification.

Staff Comment: The annexation request is accompanied by a rezoning application (PD26- 0001) to rezone the property from A-1, General Agriculture (Marion County) to PD, Planned Development (City). The proposed development program and permitted uses included in the proposed PD plan (single family residential, multi-family residential, and commercial), is consistent with the Low Intensity Future Land Use category and the existing Fore Ranch and Hunt Club at Fox Point neighborhoods.

(b) All annexed territory shall, at the earliest available date, be subject to the land use change process to bring the land use into compliance with the comprehensive plan. This process may result in a different land use designation and zoning classification.

Staff Comment: The annexation request is accompanied by a concurrent request to change the subject property future land use from High Residential (Marion County) to Low Intensity (City) (LUC26-0001). Due to the property size (larger than 50 acres), it is necessary to transmit the land use change to the Florida Department of Commerce for an expedited state review, pursuant to F.S. 163.3184. Subsequent to review by state agencies, the concurrent request will provide a City of Ocala future land use designation for the subject properties, providing consistency with this requirement.

Section 4 - Level of Service (LOS) Analysis

A. Required Public Facilities (adopted LOS standards in the comprehensive plan):

For the consideration of annexation, the purpose of this analysis is to identify any potential issues with the city's ability to provide public services to the property to be annexed. The specific services to provide will need to be further evaluated at the time of future development or connection to city services. Currently, the area is not supported by City sanitary sewer service. The nearest connection point resides within the Fore Ranch development north of the subject property. The comprehensive plan sanitary sewer sub element includes policy 2.7, requiring connection, unless the nearest available sewer connections is greater than one-eighth mile from the property. Sewer lines are not located within

the right-of-way of SW 52nd Street and the connection point is not within one-eighth of a mile of the property. Development of the subject property will necessitate connection to City public facilities including sanitary sewer.

The following LOS information is provided to indicate available and remaining capacity for required public facilities (those facilities identified in the Comprehensive Plan, Capital Improvement Element Objective 1). As necessary, the analysis may utilize population per household estimates as established by the Florida Bureau of Economic and Business Research (BEBR). The most recent (2025) estimates indicate an average population per household at 2.33 people for Marion County.

Transportation: The subject property has frontage along SW 52nd Street, which connects to SW 60th Avenue to the west. The congestion management data from the Ocala-Marion TPO for the affected roadway is provided below. Developments proposing to generate 100 or more peak hour trips are required to submit a traffic study as part of the site plan review. The concurrent PD Plan indicates that a maximum of 590 new dwelling units are proposed, a traffic study will be required during the site plan process.

Table 2: Congestion Management Data

Road/Street Names	Lanes	Speed Limit	Functional Classification	Adopted LOS	LOS Capacity	2023 AADT	Existing LOS
SW 60th Ave From: SR 200 To: SW 43rd St Rd	4	45	Arterial	E	35,820	18,300	C

Potable Water: The project is within the City's active service area and service is available. A City water main runs along SW 52nd Street in front of the property. Connections will be determined during the site plan or subdivision review and approval process.

- *Adopted Level of Service (LOS) Potable Water:* 300 gallons per day (gpd) per equivalent residential unit (ERU), or the equivalent of 167 gallons per capita daily (gpcd).
- *Available Capacity:* Capacity is available. The permitted capacity of the City's water system is 18 million gallons daily (mgd), currently 17 million gallons is consumed daily.

Sanitary Sewer: The project is within the City's active service area, however service is not available as there are no existing sanitary sewer lines accessible from the right-of-way directly adjacent to the site. The nearest existing publicly accessible sanitary sewer line is a force main line on SW 50th Ct, approximately 1,875 feet east of the eastern boundary of the project. The extension of City sanitary sewer lines and connections will be determined during the site or subdivision review and approval process.

- *Adopted Level of Service (LOS) Sanitary Sewer: 250 gallons per day (gpd) per equivalent residential unit (ERU), or the equivalent of 80 gallons per capita daily (gpcd).*
- *Available Capacity: Capacity is available. The permitted capacity of Water Reclamation Facility #2 is 6.5 million gallons daily (mgd) and the permitted capacity of Water Reclamation Facility #3 is 4.0 million gallons daily (mgd),* currently 6.3 million gallons is consumed daily.

Parks and Recreation Facilities:

- *Adopted Level of Service (LOS) Solid Waste:* 4.6 developed park acres per 1,000 population for each Regional Park Service Area (RPSA).

- *Available Capacity:* Capacity is available. The City's 71,017 population requires 326.68 developed park acres. The city currently owns and maintains 635.7 developed park acres, pursuant to the Summer 2026 Activity Guide released by the Recreation and Parks Department.

Solid Waste: The subject property is located within the City's service area; refuse pickup will be determined during the site plan or subdivision review process.

- *Adopted Level of Service (LOS) Solid Waste: 3.54 pounds per capita per day for residential development.*
- *Available Capacity: Solid waste is transported to facilities outside of the City and the City's current contract allows for unlimited tonnage of solid waste.*

Schools: The subject property is serviced by Saddlewood Elementary (operating at 96% capacity), Liberty Middle (operating at 93.34% capacity) and West Port High School (operating at 117.22% capacity). The concurrently submitted Planned Development Plan may generate up to 75 additional Elementary School-aged students, up to 30 additional Middle School-aged students, and up to 41 additional High School-aged students. The West Port High School is over capacity and will require payment of school concurrency fees as appropriate during the development review process.

Table 3: Student Generation:

PD26-0001 Scenario					
School Level	**MFR Student Generation Rate**	**SFR Student Generation Rate**	**MFR Units 360**	**SFR Units 230**	**Total**
Elementary	0.137	0.107	50	25	**75**
Middle	0.055	0.043	20	10	**30**
High	0.066	0.071	24	17	**41**

Other Public Facilities:

Electric: The subject property is not in the Ocala Electric Utility service territory. The project will be serviced by Sumter Electric.

Internet: The subject property is not in an Ocala Fiber service area.

Stormwater: Due to the prior mining use, there are several low spots on the subject property within the AE FEMA Flood Zones. The concurrent PD Plan indicates that these areas will be incorporated into the amenity and drainage retention areas which service the property. For any future development, runoff must be retained on-site to match pre-development conditions. Facilities must be designed to provide flood protection for a 100 year, 24-hour storm event.

Fire Service: Ocala Fire Rescue Station #6 is located approximately 0.33 miles from the subject property, at 5220 SW 50th Court, which is within the desired industry standard of 1.5 miles for fire service.

Summary Staff Comments: *The subject property is adjacent to City Limits. Additionally, annexation will provide the city with jurisdiction and oversight for any future development of the property. Having direct decision-making authority over development will help the city ensure compatible and appropriate urban development. Further, the annexation and future development will promote the connection to city utilities, providing additional revenue to maintain public facilities.*

Section 5 - Staff Findings and Recommendation

Based on the staff analysis, the following findings are noted:

- The subject property shares a common property boundary with properties within the city to the north.
- The annexation will not result in the creation of an enclave.
- The requested annexation and future development of the property will provide a positive return on connection to city services.
- The annexation will establish the City as the decision-making authority over the property providing the opportunity to ensure appropriate and compatible urban development along this southwest fringe area of the city.
- No level of service issues have been identified for public facilities with the exception that there are no current connection points for sanitary sewer within the right-of-way of SW 52nd Street. sanitary sewer Connection will be required to the north within the Fore Ranch development.

Staff Recommendation: Approval of ANX26-0001 with the following Conditions

1. The existing agricultural use shall cease within one year after zoning approval or prior to any future development of the site whichever occurs first.
2. The existing structures and septic system must be removed from the property prior to any future development of the property.
3. Connection to city public facilities will be required upon further development of the property.

File #: ORD-2026-18 Agenda Item #: 8b.

Submitted By: David Sablan

Presentation By: Aubrey Hale

Department: Growth Management

FORMAL TITLE:
Public Hearing to transmit to the Florida Department of Commerce an amendment to the Future Land Use Element of the Comprehensive Plan and Introduction of Ordinance 2026-18 to change the Future Land Use designation of approximately 82.40 acres for property at 5575 SW 52nd Street (Parcel 23835-000-00) from High Residential (County) to Low Intensity (City) (Case LUC26-0001) (Quasi-Judicial)

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:

- Petitioner/Property Owner: Ocala 52 Partners, LLC
- Agent: Tillman & Associates Engineering, LLC

Key Points:

As a result of a concurrent petition for annexation, the petitioner requests a change in the future land use designation for the subject property from High Residential (County) to Low Intensity (City) (LUC26-0001). The proposed change in land use designation must be submitted to the Florida Department of Commerce (Florida Commerce) for an expedited state review in accordance with F.S. 163.3184(3). The Florida Commerce review process requires state agency review before final consideration by the local government. The petitioner has submitted two concurrent petitions:

- Annexation into the city to facilitate future development of the site and connection to available city utilities (ANX26-0001)
- Rezoning to change the zoning from A-1 General Agriculture (County) to PD, Planned Development (City) (PD26-0001).

The applicant acquired the property in July of 2024, and it is approximately 82.40 acres. Currently, the subject property is not located within the Ocala city limits and is within the jurisdiction of Marion County. The

property has the following current Marion County designations:

- Future Land Use: High Residential (up to 8/units per acre)
- Zoning: General Agriculture (A-1)
- Current Use: Agriculture

The subject property was formerly used for the mining of earth and other minerals until approximately 2022. As a result of the discontinuation of mining activities, FDEP has since issued a Release of Reclamation Obligations in recognition of reclamation activities completed since the mining activity ceased on the property. There are currently several small structures and a septic system on the property that must be removed prior to any further development of the site. At the southern end of the property, there is a ±6.7-acre lake, and at the northeasterly corner of the property, there is a ±16,000 square-foot pond. It is noted that the concurrently submitted zoning (PD) amendment indicates that both water bodies will be preserved and are integrated into the design of the PD as amenities and drainage retention areas.

Zoning and Land Use Details:
For consideration of the future land use amendment, there are several key factors to consider:

- Pursuant to Section 122-246 of the Code of Ordinances, upon annexation into the City, a future land use designation must be processed at the earliest available date.
- The density and nature of the project are consistent with the proposed Low Intensity future land use, providing urban-level development of 7.16 units per acre.
- The proposed Low Intensity future land use is consistent with other Low Intensity designations within the surrounding area.

FINDINGS AND CONCLUSIONS:

- This requested Low Intensity future land use is the result of annexation of the subject property, which requires a City future land use designation consistent with Section 122-246(b) of the Code of Ordinances and providing compliance with the Comprehensive Plan.

- The requested Low Intensity future land use change is compatible with and complementary to the adjacent Neighborhood and Low Intensity future land use designations within the surrounding area.

- City utilities are available at this location, and no level of service issues have been identified for public facilities, except for sanitary sewer. No sanitary sewer connections exist within the right-of-way of SW 52nd Street, and the nearest connection point is located to the north within the Fore Ranch development. Consistent with the conditions of annexation, connection to City public facilities will be required to develop the property.

- The requested amendment to change the land use from a Marion County designation of High Residential to the City's Low Intensity future land use is consistent with the city's comprehensive plan and land development regulations.

Staff recommends approval.

ORDINANCE 2026-18

AN ORDINANCE AMENDING THE FUTURE LAND USE MAP SERIES OF THE CITY OF OCALA, FLORIDA, COMPREHENSIVE PLAN AS REQUIRED IN SECTION 163.3161 THROUGH AND INCLUDING SECTION 163.3248, FLORIDA STATUTES; DETAILING THE FUTURE LAND USE CHANGE (CASE NO. LUC26-0001) INVOLVED AND TO AMEND THE FUTURE LAND USE MAP SERIES FROM HIGH RESIDENTIAL (COUNTY) TO LOW INTENSITY (CITY) FOR PROPERTY LOCATED AT 5575 SW 52ND STREET (PARCEL NUMBER 23835-000-00), APPROXIMATELY 82.40 ACRES; PROVIDING DIRECTION TO STAFF; REPEALING INCONSISTENT AND/OR CONFLICTING PROVISIONS; PROVIDING FOR SEVERABILITY OF ORDINANCE PROVISIONS; PROVIDING FOR MODIFICATIONS ARISING FROM CONSIDERATION AT A PUBLIC HEARING; PROVIDING DIRECTION TO THE CODIFIER; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Legislature of the State of Florida adopted the Local Government Comprehensive Planning and Land Development Regulation Act of 1985, as contained in Section 163.3161 through and including Section 163.3248, Florida Statutes, which required the City of Ocala, Florida, to prepare and adopt a comprehensive plan in accordance with the requirements of the said act; and

WHEREAS, the City of Ocala has prepared a comprehensive plan which meets the requirements of the Local Government Comprehensive Planning and Land Development Regulation Act of 1985; and

WHEREAS, the City of Ocala on October 22, 1991, adopted this plan including a Future Land Use Element consisting of a land use map series; and

WHEREAS, the Local Government Comprehensive Planning and Land Development Regulation Act of 1985 provides for the amendment of an adopted plan or element or portion thereof; and

WHEREAS, on October 19, 2010, City Council adopted the Ocala 2035 Vision; and

WHEREAS, one of the strategies of the Ocala 2035 Vision was to initiate Comprehensive Plan

Amendments (adopted on January 22, 2013) to be consistent with the Ocala 2035 Vision.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF OCALA, FLORIDA, in regular session, as follows:

Section 1. The City of Ocala Comprehensive Plan, Future Land Use Element and Map Series is hereby amended as required by the Florida Local Government Comprehensive Planning and Land Development Regulation Act of 1985 contained in Section 163.3161 through and including Section 163.3248, Florida Statutes and pursuant to Section 106-38 of the Code of Ordinances, City of Ocala, Florida. The lands described below are hereby reclassified according to the City of Ocala Comprehensive Plan, Future Land Use Element as Public and the attached land use map is incorporated by reference into this ordinance:

THE NE ¼ OF THE SW ¼ AND THE SE ¼ OF THE SW ¼ OF SECTION 33, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA. EXCEPT THE SOUTH 30 FEET FOR ROAD RIGHT-OF-WAY.

AND

THE WEST 1.5 CHAINS OF THE SW ¼ OF SE ¼ OF SECTION 33, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA.
BEING 82.40 ACRES, MORE OR LESS.

Section 2. Direction to Staff. The City Council of the City of Ocala, Florida directs staff to take any and all steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 3. Repealing Inconsistent and/or Conflicting Provisions. The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures, and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 4. Severability of Ordinance Provisions. If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 5. Modifications Arising from Consideration at a Public Hearing. It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 6. Direction to the Codifier. It is the intention of the City Council of the City of Ocala, Florida that (1) the Future Land Use Map of the City of Ocala is hereby amended to reflect the change in land use from Commercial (County) to Public (City) as to lands described in Section 1 of this ordinance; (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or

consideration by City Council.

Section 7. This ordinance shall become effective upon approval by the mayor, or upon becoming law without such approval.

Section 8. The effective date of this small-scale development amendment shall be 31 days after adoption, unless the amendment is challenged pursuant to Section 163.3187(5), F.S. If challenged, the effective date of the amendment shall be the date a final order is issued by the state land planning agency, or the Administration Commission, finding the amendment in compliance with Section 163.3184, F.S. No development orders, development permits or land uses dependent on this amendment may be issued or commence before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this amendment may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the state land planning agency, 107 East Madison Street, MSC 160, Tallahassee, Florida 32399-6545.

Staff Report

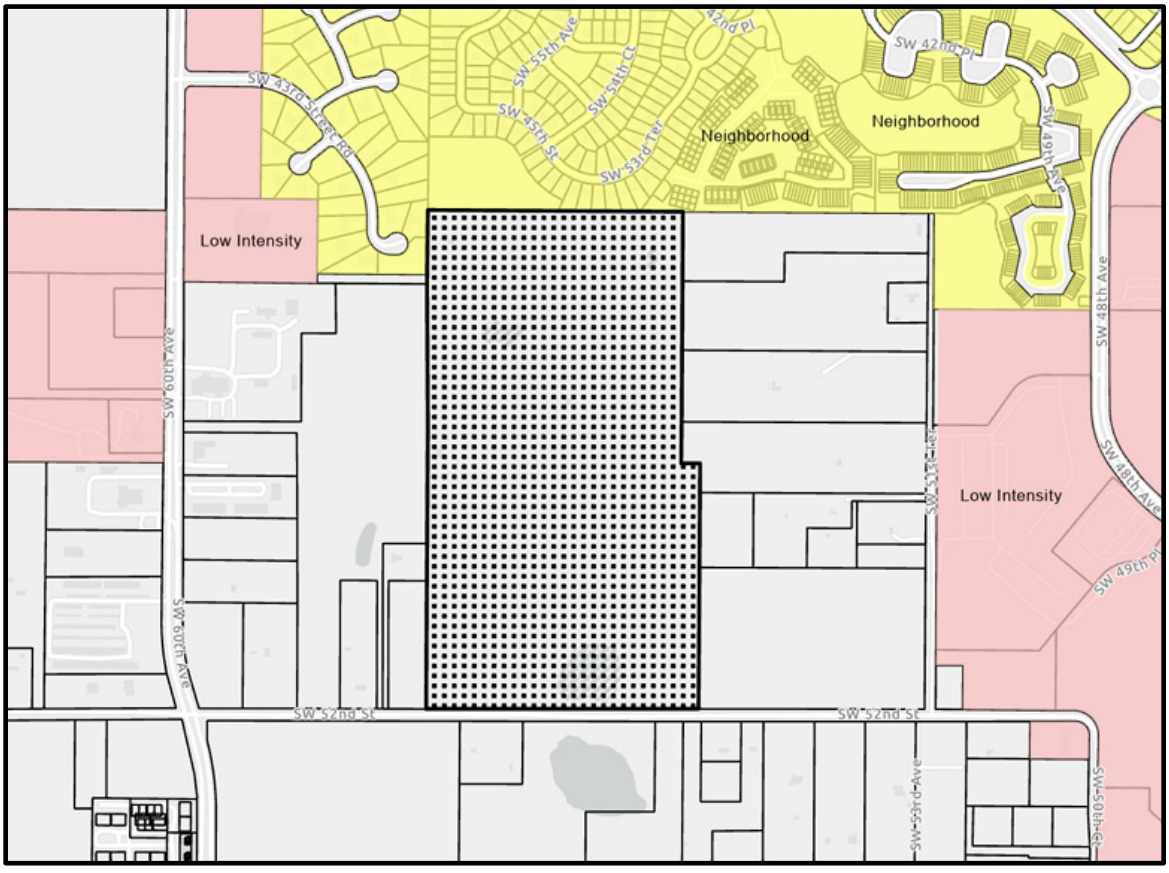
Case No. LUC26-0001
Planning & Zoning Commission: May 26, 2026
City Council (1st Reading): June 2, 2026
City Council (Adoption): August 4, 2026

Applicant:	Ocala 52 Partners, LLC
Property Owner:	Ocala 52 Partners, LLC
Project Planner:	David Sablan, Planner II
Applicant Request:	Land use change from High Residential (County) to Low Intensity (City)

Parcel Information

Acres:	±82.40 acres
Parcel(s)#:	23835-000-00
Location:	5575 SW 52nd Street
Existing use:	Undeveloped (formerly used for mining)
Future Land Use Designation:	High Residential (County)
Zoning Designation:	A-1, General Agriculture (County)
Special District(s)/Plan(s):	N/A
Approved Agreement(s):	N/A

Figure 1. Case Map



Section 1 - Applicant Request

The applicant is requesting a future land use amendment to change the land use category for the subject property from High Residential (County) to Low Intensity (City) (LUC26-0001). The petitioner has submitted two concurrent petitions:

- Annexation into the city to provide for the future development of the site and connection to available city utilities.
- Rezoning to change the zoning from A-1, General Agriculture (County) to PD, Planned Development, with single-family residential (SFR), multi-family residential (MFR), and commercial land uses, and development standards (PD26-0001).

The agent, Tillman & Associates Engineering, LLC, is representing the applicant in this request.

Section 2 - Background Information

The subject property, identified as Parcel 23835-000-00, contains an approximate 82.40 acres and is generally located within the 5500 block of SW 52nd Street. The subject properties are currently within the jurisdiction of Marion County and share its northern border with the existing Fore Ranch Planned Unit Development and the existing Hunt Club at Fox Point neighborhood, both of which are located within City of Ocala jurisdiction. The current Marion County designations of the properties are:

.

Future Land Use:	High Residential land use (County), a maximum of 8 dwelling units per acre.
Zoning:	A-1, General Agriculture (County). The County code of ordinances indicates the intent of the A-1 district is to preserve agriculture as the primary use. This zoning classification in the Urban Area may be used for agriculture until it is rezoned to another permitted classification.

It is noted that the applicant acquired the subject property in July 2024.

Marion County Property Appraiser records (Book 2024, Page 1930) indicate that an agreement was entered into between G.W. O'Neal to White Construction Company, Inc. in April 1994 for exclusive mining rights of earth and minerals from the subject property. The agreement states that the property had been used for mining and removal of earth and minerals in the past, but no records are available to indicate the date of which this mining began. Staff believes mining operations began as early as the 1960s and continued until approximately 2022 based on available aerial imagery. Under Florida Statutes (F.S.) Chapter 378, the cessation of mining operations triggers land reclamation obligations to protect the public's health, safety, and welfare, the protection of the state's environment, and the subsequent beneficial use of the disturbed and reclaimed land. In October 2022, the Florida Department of Environmental Protection (FDEP) issued a Release of Reclamation Obligations in recognition of reclamation activities completed on the property.

Several small structures and a septic system currently exist on the property that will be required to be removed when the property is developed consistent with the conditions of annexation. At the southern end of the property there is a ±6.7-acre lake and a ±16,000 square foot pond at the northeasterly corner of the property. Both water bodies will be preserved and are integrated into the design of the PD.

Table 1: Adjacent Property Information:

Direction	Future Land Use	Zoning District	Current Use
North	Neighborhood (City)	PUD-04, Planned Unit Development (City)	Fore Ranch PUD (City)
East	High Residential (County)	A-1, General Agriculture (County)	Large lot SFR & Undeveloped (County)
South	High Residential (County)	A-1, General Agriculture (County)	Undeveloped (County)
West	Northwest (City) - Neighborhood West/southwest (County) -Medium Residential (County)	Northwest (City) - No Zoning West/southwest (County) - A-1, General Agriculture (County)	Northwest (City) - Hunt Club at Fox Point West/southwest (County) - Large lot SFR & Undeveloped

Table 2: Existing and Proposed Development Standards

	Future Land Use Category	Permitted Land Uses	Allowable Density	Allowable FAR
Existing (County)	High Residential	Residential – single-family and multi-family	4-8 du/ac	N/A
Proposed (City)	Low Intensity	Residential, office, commercial, public, recreation, institutional, light industrial, educational facilities	3 to 18 du/ac	Up to 0.75

Section 3 – Staff Analysis

Pursuant to Code of Ordinances Section 122-246, all annexed territory shall be subject to the land use change process to bring the land use into compliance with the City's comprehensive plan. The Case Map reflects adjacent, annexed properties designated to the north as Neighborhood Future Land Use and nearby properties to the east and west being designated as Low Intensity Future Land Use. As reflected in Table 2 above, the change in potential development intensity is as follows:

Marion County:	City of Ocala:
Minimum - 4 units per acre (329 units)	Minimum - 3 units per acre (247 units)
Maximum - 8 units per acre (659 units)	Maximum - 18 units per acre (1,483 units)

While it is not binding, it is noted that the concurrent zoning application for a PD zoning designation indicates a maximum of 590 dwelling units (7.16 units per acre), which is less than the maximum development potential as currently permitted with the County's future land use designation (659 units).

Consistency with Comprehensive Plan:

The requested future land use amendment is consistent with the following Objectives and Policies of the City of Ocala Future Land Use Element:

1. *Future Land Use Element Policy 6.3: Low Intensity. The intent of the Low Intensity land use classification is to identify areas that are generally oriented towards the automobile as the primary mode of transportation, with pedestrian circulation and activity being generally less than High Intensity/Central Core and Medium Intensity/Special District districts. Low Intensity may contain a single use. Mixed use development is encouraged. Permitted uses include office, commercial, public, recreation, institutional, educational facilities and residential. Light industrial shall only be allowable in designated locations as specified in the Land Development Code and must meet the intent of the Low Intensity category, including form and design guidelines as applicable. It is also the intent of this category to promote a walkable suburban form.*

   The form of buildings and development may be regulated for specified areas by a Form Based Code or Corridor Overlay. Buildings may have larger setbacks from the street and public right-of- way than other mixed-use districts, as depicted in Figure E. Buildings may have surface parking between the building and the street, though rear and side yard parking is encouraged for non- residential uses, as depicted in Figure F. Low Intensity areas may have large open space areas such as community and regional parks, trails, or surface stormwater management facilities designed as amenities.

   The minimum density and intensity in this future land use category is 3 dwelling units per gross acre or 0.00 FAR. The maximum density and intensity is 18 dwelling units per acre or 0.75 FAR.

   Increased density and intensity incentives may be approved for inclusion of workforce housing, green building and sustainable design standards, setting aside right-of-way for trails, employment-generating uses, exemplary urban design, or other benefits to the City as specified in the Land Development Code. The location and application of incentives shall be set forth in the Land Development Code.

   Staff Comment:

   - The combined density of all residential housing types is 7.16 units per acre, which is less than half of the potential maximum of 18 units per acre for the Low Intensity future land use category.
   - The form and building standards will be further defined with the subsequent Planned Development Rezoning currently in process.

2. *Future Land Use Element Policy 12.1. The City shall require that all development have adequate services and facilities including water, roads, sewage collection and treatment, stormwater drainage, recreation, and solid waste disposal, to the extent required by state law, other provisions of this Comprehensive Plan, or the City's Land Development Code.*

   Staff Comment: Additional development of the subject property will be required to connect to city utilities to ensure adequate public services for the development. Level of service and facility impact will be determined at the time of development.

3. *Future Land Use Element Policy 13.2: The City shall continue to enforce the provisions of the Land Development Code that requires new development to pay for its share of existing or planned capital facilities through an impact fee charge, mobility fee, or other appropriate means.*

   Staff Comment: Development of the site will require connection to city facilities that will include payment of appropriate connection, service, and impact fees.

Consistency with Land Development Regulations:

The requested future land use amendment is consistent with the following Sections of the City of Ocala Code of Ordinances:

Subsection 122-246 – Annexed territory:

(a) All territory which may be annexed to the city after the effective date of the ordinance from this section is derived shall be considered to be zoned in the zoning classification given it by the county zoning code; provided that if no such classification exists in the zoning ordinance of the city then the property shall be zoned within the city under that classification most closely corresponding to the existing county classification.

Staff Comment: The future land use category change is accompanied by an annexation request and a rezoning application (PD26-0001) to rezone the property from A-1, General Agriculture (Marion County) to PD, Planned Development (City). The proposed development program and permitted uses included in the proposed PD plan (single family residential, multi-family residential, and commercial), is consistent with the Low Intensity Future Land Use category and the existing Fore Ranch and Hunt Club at Fox Point neighborhoods.

(b) All annexed territory shall, at the earliest available date, be subject to the land use change process to bring the land use into compliance with the comprehensive plan. This process may result in a different land use designation and zoning classification.

Staff Comment: The annexation request is accompanied by a concurrent request to change the subject property future land use from High Residential (Marion County) to Low Intensity (City) (LUC26-0001). Final action on the annexation will be required prior to final action on the requested future land use amendment to ensure proper jurisdiction/authority for the action. Due to the property size (larger than 50 acres), it is necessary to transmit the land use change to the Florida Department of Commerce for an expedited state review, pursuant to F.S. 163.3184. Subsequent to review by state agencies, the concurrent request will provide a City of Ocala future land use designation for the subject properties, providing consistency with this requirement.

Section 4 - Level of Service (LOS) Analysis

A. Required Public Facilities (adopted LOS standards in the comprehensive plan):

For the consideration of annexation and future land use designation, the purpose of this analysis is to identify any potential issues with the city's ability to provide public services to the property to be annexed. However, it should be noted that the specific need for services will need to be further evaluated at the time of future development or connection to city services. Currently, the area is not served with City sanitary sewer service. The nearest connection point resides within the Fore Ranch development, adjacent to the subject property to the north. The comprehensive plan sanitary sewer sub element includes policy 2.7, requiring connection, unless the nearest available sewer connections is greater than one-eighth mile from the property. Sewer lines are not located within the right-of-way of SW 52nd Street and the connection point is not within one-eighth of a mile of the property. Consistent with the conditions of annexation, development of the subject property will require connection to all city facilities upon development of the property.

The following LOS information is provided to indicate available and remaining capacity for required public facilities (those facilities identified in the Comprehensive Plan, Capital Improvement Element Objective 1). As necessary, the analysis may utilize population per household estimates as established by the Florida Bureau of Economic and Business Research (BEBR). The most recent (2025) estimates

indicate an average population per household at 2.33 people for Marion County.

Transportation: The subject property has frontage along SW 52nd Street, which connects to SW 60th Avenue to the west. The congestion management data from the Ocala-Marion TPO for the affected roadway is provided below. Developments proposing to generate 100 or more peak hour trips are required to submit a traffic study as part of the site plan review. The concurrent PD Plan indicates that a maximum of 590 new dwelling units are proposed, a traffic study will be required during the site plan process.

Table 2: Congestion Management Data

Road/Street Names	Lanes	Speed Limit	Functional Classification	Adopted LOS	LOS Capacity	2023 AADT	Existing LOS
SW 60th Ave From: SR 200 To: SW 43rd St Rd	4	45	Arterial	E	35,820	18,300	C

Potable Water: The project is within the City's active service area and service is available. A City water main runs along SW 52nd Street in front of the property. Connections will be determined during the site plan or subdivision review and approval process.

- *Adopted Level of Service (LOS) Potable Water:* 300 gallons per day (gpd) per equivalent residential unit (ERU), or the equivalent of 167 gallons per capita daily (gpcd).
- *Available Capacity:* Capacity is available. The permitted capacity of the City's water system is 18 million gallons daily (mgd), currently 17 million gallons is consumed daily.

Sanitary Sewer: The project is within the City's active service area, however there are no existing sanitary sewer lines accessible from the adjacent SW 52nd Street right-of-way (ROW). The nearest existing publicly accessible sanitary sewer line is a force main line on SW 50th Ct, approximately 1,875 feet east of the eastern boundary of the project. The extension of City sanitary sewer lines and connections will be required upon development of the site during the site or subdivision review and approval process.

- *Adopted Level of Service (LOS) Sanitary Sewer: 250 gallons per day (gpd) per equivalent residential unit (ERU), or the equivalent of 80 gallons per capita daily (gpcd).*
- *Available Capacity: Capacity is available. The permitted capacity of Water Reclamation Facility #2 is 6.5 million gallons daily (mgd) and the permitted capacity of Water Reclamation Facility #3 is 4.0 million gallons daily (mgd). currently 6.3 million gallons is consumed daily.*

Parks and Recreation Facilities:

- *Adopted Level of Service (LOS) Solid Waste:* 4.6 developed park acres per 1,000 population for each Regional Park Service Area (RPSA).
- *Available Capacity:* Capacity is available. The City's 71,017 population requires 326.68 developed park acres. The city currently owns and maintains 635.7 developed park acres, pursuant to the Summer 2026 Activity Guide released by the Recreation and Parks Department.

Solid Waste: The subject property is located within the City's service area; refuse pickup will be determined during the site plan or subdivision review process.

- *Adopted Level of Service (LOS) Solid Waste: 3.54 pounds per capita per day for residential development.*

- *Available Capacity: Solid waste is transported to facilities outside of the City.*

Schools: The subject property is serviced by Saddlewood Elementary (operating at 96% capacity), Liberty Middle (operating at 93.34% capacity) and West Port High School (operating at 117.22% capacity). The concurrently submitted Planned Development Plan may generate up to 75 additional Elementary School-aged students, up to 30 additional Middle School-aged students, and up to 41 additional High School-aged students. The West Port High School is over capacity and will require payment of school concurrency fees, which will take place during the building permit stage prior to the issuance of a Certificate of Occupancy.

Table 3: Student Generation:

PD26-0001 Scenario					
School Level	**MFR Student Generation Rate**	**SFR Student Generation Rate**	**MFR Units 360**	**SFR Units 230**	**Total**
Elementary	0.137	0.107	50	25	**75**
Middle	0.055	0.043	20	10	**30**
High	0.066	0.071	24	17	**41**

Other Public Facilities:

Electric: The subject property is not in the Ocala Electric Utility service territory. The project will be serviced by Sumter Electric.

Internet: The subject property is not in an Ocala Fiber service area.

Stormwater: Due to the prior mining use, there are several low spots on the subject property within the AE FEMA Flood Zones. It is noted that, the concurrent PD Plan indicates that these areas will be incorporated into the amenity and drainage retention areas which service the property For any future development, runoff must be retained on-site to match pre-development conditions. Facilities must be designed to provide flood protection for a 100 year, 24-hour storm event.

Fire Service: Ocala Fire Rescue Station #6 is located approximately 0.33 miles from the subject property, at 5220 SW 50th Ct, which is within the desired industry standard of 1.5 miles for fire service.

Summary Staff Comments: *The location of the subject property in relation to existing nearby fire station and other city facilities will improve the efficiency of existing city fire facilities and other city services for any future development. Additionally having direct decision-making authority over future land use, zoning, and development will help the city ensure compatible and appropriate urban development. Further, the annexation and future development will promote the connection to city utilities, providing additional revenue to maintain public facilities.*

Section 5 - Staff Findings and Recommendation

- This requested Low Intensity future land use is the result of annexation of the subject property which requires a City future land use designation consistent with Section 122-246(b) of the Code of Ordinances and providing compliance with the Comprehensive Plan.
- The requested Low Intensity future land use change is consistent with the adjacent Neighborhood and Low Intensity future land use designations within the surrounding area.
- City utilities are available at this location, and no level of service issues have been identified for public facilities with the exception of sanitary sewer. No sanitary sewer connections exist withir

the adjacent right-of-way of SW 52nd Street and the nearest connection point for sanitary sewer is located north within the Fore Ranch development. Consistent with the conditions of annexation, connection to City public facilities will be required upon development of the property.

- The requested amendment to change the land use from a Marion County designation of High Residential to the City's Low Intensity future land use is consistent with the city's comprehensive plan and land development regulations.

Staff Recommendation: Approval of LUC26-0001

File #: 2026-1498 Agenda Item #: 9a.

Submitted By: David Sablan

Presentation By: Aubrey Hale

Department: Growth Management

STAFF RECOMMENDATION (Motion Ready):
Ordinance 2026-16 to rezone from B-2, Community Business, to M-1, Light Industrial, for property located in the 200 block of SW 27th Avenue (Parcel 22780-002-00), approximately 1.25 acres (Case ZON26-0001) (Quasi -Judicial)

OCALA'S RELEVANT STRATEGIC GOALS:
Economic Hub

PROOF OF PUBLICATION:
N/A

BACKGROUND:

- Petitioner and Property Owner: Alvarez Family Investment Lots LLC
- Agent: Rodney K. Rogers, Rogers Engineering & Land Surveying, LLC

Key Points:

The petitioner is requesting a rezoning of 1.25 acres of undeveloped property from B-2, Community Business, to M-1, Light Industrial.

Zoning and Land Use Factors for Consideration:

- The property is surrounded by M-1, Light Industrial, on its eastern, western, and southern sides, with existing industrial uses to the north and a Sprint telecommunications facility to the west. Of the three parcels to the north, two are zoned B-4 (General Business), and one is zoned M-1.
- The M-1 zoning district allows for a broad range of uses, including wholesale and distribution.
- The subject property's access is SW 27th Avenue, a minor arterial roadway.

- The surrounding area is comprised of a mixture of industrial and commercial (developed and undeveloped) properties along the SR 40 and SW/NW 27th Avenue corridors.

Planning and Zoning Commission:

The proposed rezoning was presented to the Planning and Zoning Commission on April 14, 2026. During the hearing, the Commission had no additional questions. There were no public comments or objections. The Planning and Zoning Commission voted five to zero to recommend approval of the proposed rezoning to City Council.

FINDINGS AND CONCLUSIONS:

- The subject property is currently vacant, undeveloped, and meets the minimum lot standards for the M-1 zoning district. Rezoning the property will not create a non-conforming use or structure.

- The proposed rezoning is consistent with the Employment Center Future Land Use, the comprehensive plan, and land development regulations (pursuant to Section 122-244 of the Code of Ordinances).

- The M-1, Light Industrial, zoning district is consistent with the surrounding M-1 and B-4 zoning designations and the existing development in the area.

- City utilities are available at this location, and no level of service issues have been identified for public facilities as a result of the zoning amendment.

Staff recommends approval.

ORDINANCE 2026-16

AN ORDINANCE AMENDING THE ZONING MAP OF THE CITY OF OCALA, FLORIDA, CHANGING THE ZONING FROM B-2, COMMUNITY BUSINESS, TO M-1, LIGHT INDUSTRIAL, FOR CERTAIN PROPERTY LOCATED IN THE 200 BLOCK OF SW 27TH AVENUE (PARCEL 22780-002-00), APPROXIMATELY 1.25 ACRES (CASE NO. ZON26-0001); PROVIDING DIRECTION TO STAFF; REPEALING INCONSISTENT AND/OR CONFLICTING PROVISIONS; PROVIDING FOR SEVERABILITY OF ORDINANCE PROVISIONS; PROVIDING FOR MODIFICATIONS ARISING FROM CONSIDERATIONS AT A PUBLIC HEARING; PROVIDING DIRECTION TO THE CODIFIER; AND PROVIDING FOR AN EFFECTIVE DATE.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, in regular session, as follows:

Section 1. The lands described below are hereby rezoned and reclassified according to the zoning regulation of the City of Ocala, Florida, as M-1, Light Industrial:

PARCEL NUMBER 22780-002-00

BEGINNING AT A POINT 445.0 FEET WEST OF THE NORTHEAST CORNER OF THE NE 1/4 OF THE SE 1/4 OF SECTION 14, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA; THENCE RUN S. 0° 8' W., 285.00 FEET; THENCE EAST 100.00 FEET; THENCE N. 0° 8' E., 285.00 FEET; THENCE WEST 100.00 FEET TO THE POINT OF BEGINNING. AND THE SOUTH 180 FEET OF THE NORTH 465 FEET OF THE EAST 345 FEET OF THE NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF SECTION 14, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA. EXCEPT THE EAST 30 FEET FOR ROADWAY. AND EXCEPT: COMMENCING AT THE INTERSECTION OF THE SOUTH LINE OF THE NORTH 465.00 FEET OF THE NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF SECTION 14, TOWNSHIP 15 SOUTH, RANGE 21 EAST IN MARION COUNTY, FLORIDA, WITH THE WEST LINE OF S.W. 27TH AVENUE, BEING A LINE PARALLEL WITH AND WESTERLY 30.00 FEET FROM THE EAST LINE OF SAID SECTION 14; THENCE NORTH 00 DEGREES 38 MINUTES 42 SECONDS EAST ALONG SAID WEST LINE A DISTANCE OF 95.10 FEET TO THE POINT OF BEGINNING; THENCE NORTH 00 DEGREES 37 MINUTES 46 SECONDS WEST, A DISTANCE OF 84.92 FEET TO THE SOUTH LINE OF THE NORTH 285.00 FEET OF SAID NORTHEAST QUARTER OF THE SOUTHEAST QUARTER; THENCE SOUTH 89 DEGREES 28 MINUTES 09 SECONDS EAST, ALONG SAID SOUTH LINE A DISTANCE OF 1.91 FEET TO SAID WEST LINE OF SOUTHWEST 27TH AVENUE; THENCE SOUTH 00 DEGREES 39 MINUTES 42 SECONDS WEST, A DISTANCE OF 84.90 FEET TO THE POINT OF BEGINNING.

Section 2. Direction to Staff. The City Council of the City of Ocala, Florida directs staff to take any and all steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 3. Repealing Inconsistent and/or Conflicting Provisions. The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures, and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 4. Severability of Ordinance Provisions. If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 5. Modifications Arising from Consideration at a Public Hearing. It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 6. Direction to the Codifier. It is the intention of the City Council of the City of Ocala, Florida that (1) the zoning map of the City of Ocala is hereby amended to reflect the change in zoning classification from B-2, General Business, to M-1, Light Industrial, as to lands described in Section 1 of this ordinance; (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by City Council.

Section 7. This ordinance shall become effective upon approval by the mayor, or upon becoming law without such approval.

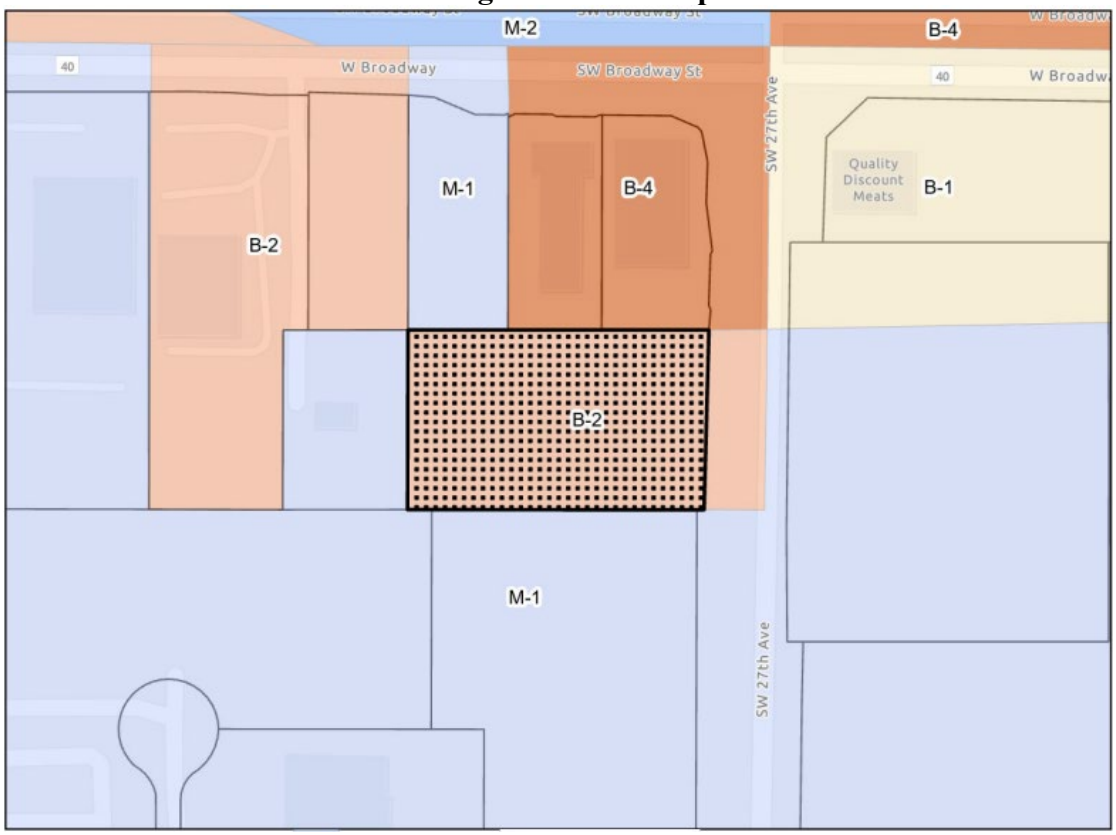
Rezoning Staff Report

Case No. ZON26-0001
Planning & Zoning Commission: April 13, 2026
City Council (1st Reading): May 19, 2026
City Council (Adoption): June 2, 2026

Applicant:	John Alvarez
Property Owner:	Alvarez Family Investment Lots LLC
Project Planner:	Breah Miller, Planner II
Amendment Request:	Rezone from B-2, Community Business, to M-1, Light Industrial
Parcel Information	
Acres:	±1.25 acres
Parcel(s)#:	22780-002-00
Location:	the 200 block of SW 27th Avenue
Existing use:	Undeveloped
Future Land Use Designation:	Employment Center
Zoning Designation:	B-2, Community Business
Special District(s)/Plan(s):	West Ocala CRA
Approved Agreement(s):	N/A

Figure 1. Case Map



Section 1 - Applicant Request

The applicant is requesting to rezone a 1.25-acre property from B-2, Community Business, to M-1, Light Industrial.

The agent, Rodney Rogers, Rogers Engineering & Land Surveying, LLC, is representing the applicant in this request.

Section 2 - Background Information

The subject property encompasses a total of approximately 1.25 acres. The current designations of the property are:

Zoning: **B-2, Community Business,** district is intended primarily for community businesses, including retail sales, personal and business services, and all office uses. Businesses shall be based on walk-in trade, rather than delivery of supplies and large commodities.

Future Land Use: **Employment Center,** a maximum of 24 dwelling units per acre, a maximum of 2.0 floor area ratio (FAR).

The subject property is undeveloped and is accessed from SW 27th Avenue.

Table 1: Adjacent Property Information:

Direction	Future Land Use	Zoning District	Current Use
North	Employment Center	B-4, General Business & M-1, Light Industrial	Retail (Lumber & Hardware), Retail (Vacant) Undeveloped
East	Public	M-1, Light Industrial	City of Ocala Drainage Retention Area (across SW 27th Ave)
South	Employment Center	M-1, Light Industrial	Private Drainage Retention Area
West	Employment Center	M-1, Light Industrial	Undeveloped, Telecommunications Facility.

The subject property is accessed from SW 27th Avenue, a minor arterial roadway and is near to the intersection of SR 40, a principal arterial roadway. The subject property is surrounded on three sides (east, west, and south) by parcels with M-1 zoning. Three parcels border the subject property to the north, two are zoned B-4, General Business, and one is zoned M-1 as shown on Figure 1 – Case Map. The surrounding area west of the intersection of SW 27th Avenue and SR 40 consist of a mix of light industrial and commercial business uses. Further west towards I75, properties have a mix of light industrial and commercial uses, with predominately light industrial along the southern side of SR 40. The properties east of the intersection of SW 27th Avenue and SR 40 transition from commercial business within one-quarter mile of the intersection to residential uses along the north and south side of SR 40.

Section 3 – Staff Analysis

This report reviews the proposed rezoning for alignment with the city's adopted vision plans, comprehensive plan, and relevant land development regulations.

Consistency with Ocala 2035 Vision:

The Ocala 2035 Vision established the basis for what would ultimately guide development and growth in the City of Ocala. The 2035 Vision context map identified varied levels of intensity: high intensity at the central core, medium and medium-low intensity along primary corridors, and low intensity in the remaining areas of the city. Following the completion of the 2035 Vision, the comprehensive plan was amended creating six total Future Land Use (FLU) categories. In doing so, new land uses were designated in this area considering both existing and future development along with consistency of the 2035 Vision context map.

Additionally, the 2035 Vision led to the West Ocala Vision & Community Plan (West Ocala Vision) which was adopted in 2015, and established goals for revitalization in the West Ocala area by focusing on preservation, infill development, and density/intensity management. The subject property and surrounding area are identified as Employment Center in the West Ocala Vision & Community Plan.

The requested rezoning is consistent with the 2035 Vision context map for the location of medium-low intensity development.

Consistency with Comprehensive Plan:

The requested rezoning is consistent with the following Objectives and Policies of the City of Ocala Future Land Use Element:

1. *Future Land Use Element Policy 6.5: Employment Center. The intent of the Employment Center land use is to provide a regionally-important hub for business, enterprise, research and development, and employment activities. Employment Centers are generally single use districts, but may include more than one (1) use if there are appropriate buffers and transitions between complementary uses. Permitted uses shall include a primary use and may include a secondary use. Primary uses are industrial, office and commercial. Secondary uses are public, recreation, institutional, and residential, as well as educational facilities. There are no form requirements in this land use category.*

   Access is primarily from major collectors, arterials, or limited-access highways. The primary modes of transportation include automobiles, trucks, freight rail, bus, and commuter rail transit. Provisions should be made for walking, bicycles, and transit.

   There is no minimum density and intensity in this future land use category. The maximum density and intensity before any incentives is 24 dwelling units per gross acre or 2.00 FAR. The location and application of incentives shall be set forth in the Land Development Code.

   Staff Comment:

   Rezoning to M-1 aligns with the Employment Center Future Land Use designation:

   - The proposed M-1 zoning district is consistent with the existing Employment Center Future Land Use category which allows light industrial uses.
   - The subject property is accessed from a minor arterial roadway, SW 27th Avenue. Minor arterial roads are intended to carry high volumes of traffic and connect major areas of the city to neighborhoods, commercial uses, and highways. They are also intended to support higher-intensity uses along corridors, with lower-intensity uses transitioning to the rear, consistent with the proposed rezoning.

2. *Future Land Use Element Objective 14: The City shall continue existing regulations or adopt new regulations to ensure that development is consistent with the Future Land Use Map and are compatible with neighboring development, available services and facilities, and topography and soil conditions.*

Staff Comment:

The requested rezoning aligns with current zoning of the surrounding properties (M-1 and B-4) and is consistent with the underlying Employment Center FLU.

Consistency with the West Ocala Vision & Community Plan

The requested rezoning is consistent with the following land use category in the West Ocala Vision & Community Plan:

1. *Employment Center: The intent of the Employment Center land use is to promote a regionally-important and vibrant hub for business, enterprise, research and development and employment activities. Access is primarily from major collectors, arterials or limited-access highways.*

Staff Comment:

The subject property is accessed from a minor arterial roadway, SW 27th Avenue. Minor arterial roads are intended to carry high volumes of traffic and connect major areas of the city to neighborhoods, commercial uses, and highways. They are also intended to support higher-intensity uses along corridors, with lower-intensity uses transitioning to the rear, which is consistent with the proposed rezoning.

Consistency with Land Development Regulations:

The requested rezoning is consistent with the following Sections of the City of Ocala Code of Ordinances:

1. Section 122-244 - *District criteria:* Zoning districts allowed under each land use classification.

Employment Center	O-1*****, OP*****, B-1*****, B-1A*****, B-2*****, B-2A*****, B-4*****, B-5*****, SC, **M-1**, M-2, M-3, G-U, INST, A-1***, PD, FBC

***** Residential units are only allowed as part of a Planned Development (PD) zoning district

Staff Comment: The requested M-1 zoning district is consistent with the existing Employment Center Future Land Use designation.

Table 2: Existing and Proposed Zoning District Standards

	Zoning District	Intent and Purpose	Minimum Lot Area (square feet)	Maximum Building Height (feet)
Existing	B-2, Community Business	Intended for community businesses, including retail sales, personal and business services, and all office uses. Businesses shall be based on walk-in trade, rather than delivery of supplies and large commodities.	10,000	50-feet

Proposed	M-1, Light Industrial	Intended primarily for wholesale distribution, warehouse storage, research and development, showroom sales, and light manufacturing of finished or semi-finished products. The light industrial uses shall be compatible with the surrounding uses. Outdoor manufacturing is not allowed in the M-1 district. Outdoor storage is allowed as a permitted accessory use, if it complies with design criteria in section 122-763. Specific uses shall be controlled by the standards for industrial performance in article VIII of this Chapter 122.	10,000	60-feet

Staff Comment:

The subject property, comprising 1.25-acres meeting the minimum lot area (10,000 square feet) and the approximate 180 feet of frontage on SW 27th Avenue meets the minimum 100 feet lot width required for the M-1 zoning district.

Section 4 - Level of Service (LOS) Analysis

The benefit of LOS analysis for a zoning amendment is limited due to the lack of specific proposed development. While worst case buildout scenarios can be reviewed, they are typically unrealistic and provide significantly overstated impacts to public facilities. Further, public schools are not impacted by the potential for residential development as they are restricted in the M-1 zoning district. Additionally, further detailed LOS impact analysis will be required to address the specific proposed development as part of subsequent application review.

Section 5 - Staff Findings and Recommendation

- The subject property is currently vacant and undeveloped, therefore rezoning the property will not result in the creation of a non-conforming use or structure.
- The proposed rezoning is consistent with the Employment Center Future Land Use, the comprehensive plan and land development regulations (pursuant to Section 122-244 of the Code of Ordinances).
- The M-1, Light Industrial, zoning district is consistent with the surrounding M-1, and B-4 zoning designations.

City utilities are available at this location, and no level of service issues have been identified for public facilities as a result of the zoning amendment.

Staff Recommendation: Approval of ZON26-0001

Exhibit A. Permitted Uses Table

*Permitted by Special Exception
#Within the Employment Center FLU area residential units are only allowed as part of a Planned Development (PD) zoning district.

Permitted Use Type	B-2, Community Business	M-1, Light Industrial
Residential Operation	• Bed and breakfast • Community residential home, maximum of twelve unrelated residents per single-family residential dwelling. • Fraternity or sorority house • Residence- gallery • Residence- office • Rooming/boarding house	
Residential Type	• Multifamily dwellings*# • Single-family dwelling# • Single-family (attached) dwelling unit# • Two-family dwelling#	
General Retail	• Auto Supply Store • Bakery Store • Department store • Drugstore • Electronics store • Furniture store • Garden and nursery sales • Grocery store • Hardware store • Home decorating store • Pharmacy • Roadside fruit and vegetable sales • Specialty retail stores • Swimming pool sales (enclosed) • Used merchandise store • Videotape store	• Furniture store • Home garden/hobby farm equipment sales • Used merchandise store
Vehicular Sales		• Construction/farm equipment sales*
Agricultural Use		• Indoor greenhouse • Indoor Hemp facility
Business Service	• Equipment rental and leasing • General business service • Parking garage (or structure) • Parking lot • Radio/TV broadcasting facility • Security systems service	• Advertising service (on-site/off-site signs) • Construction service establishment • Day labor service establishment* • Equipment rental and leasing • General business service • Maintenance and cleaning service • Parking garage (or structure) • Parking lot • Pest control service • Radio/TV broadcasting facility

		• Security systems service
Eating or Drinking Establishment	• Alcoholic beverage establishment (off-premises consumption) • Alcoholic beverage establishment (on-premises consumption) • Drive-in or drive-through restaurant* • Fast-food restaurant • Restaurant (enclosed)	• Alcoholic beverage establishment (off-premises consumption) • Restaurant (enclosed)
Hospitality and Tourism	• Antique gallery/art gallery/museum • Conference center • Hotel/convention center • Motel	
Office Use	• Commercial photography (art and graphic design service) • Computer maintenance and repair • Financial institution • Photocopying and duplicating services • Photofinishing laboratory • Prepackaged software services • Print shop • Professional and business office	• Commercial photography (art and graphic design service) • Computer maintenance and repair • Photofinishing laboratory • Prepackaged software services • Print shop • Professional and business office
Personal Service	• Check cashing establishment • Coin-operated laundry and dry cleaning • Emergency shelter • Funeral home and/or crematory • Hairstyling shop • Laundry and dry cleaning pickup establishment • Laundry and dry cleaning service • Major household repair establishment • Mini-warehouse (self-service storage facility) • Minor household repair establishment • Recreational vehicle park • Recycling collection point • Tattoo or body piercing establishment	• Bail bonds agency • Kennel • Laundry and dry cleaning service • Major household repair establishment • Mini-warehouse (self-service storage facility) • Minor household repair establishment • Recycling collection point
Vehicular Service	• Auto repair, minor • Automobile cleaning/detailing services • Drive-through facility (non-restaurant) • Full-service station • Self-service station/convenience store	• Auto repair, minor • Repair garage • Self-service station/convenience store
Community Service	• Church/place of worship • Day care facility • Library • Private club	• Day care facility*

Educational Use	• Colleges/universities • Community education center • School, private elementary and secondary • Speech and language center/school • Vocational professional school	• Community education center

Department: Growth Management

FORMAL TITLE:
Expansion of the sale of beer, wine, and liquor for on-premises consumption to include outdoor consumption within the approved sidewalk café area for Martin & Weiss, LLC, doing business as The Tipsy Skipper, located at 48 South Magnolia Avenue, Suite A (Parcel 2853-046-009) (Quasi-Judicial)

OCALA'S RELEVANT STRATEGIC GOALS:
Economic Hub, Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
Martin & Weiss, LLC, doing business as (dba) The Tipsy Skipper, has applied for the expansion of the sale of beer, wine, and liquor for on-premises consumption to include outdoor consumption within the approved sidewalk café area at 48 South Magnolia Avenue, Suite A (Parcel 2853-046-009).

Applicant:	Martin & Weiss, LLC, dba, The Tipsy Skipper
Property Owner:	National Growth Partners LLC
Address:	48 South Magnolia Avenue, Suite A
Building area:	1800 square feet
Seats/employees:	50 seats / four employees
Required parking:	18 spaces
Provided parking:	Downtown Public Parking Available
Outside Sound:	No

- **Police Presence:** There have been seven calls for service to this location in the past two years. Two were criminal in nature. Location report is attached.

  Pursuant to Section 6-33(c)(11) and (12) of the City of Ocala Code of Ordinances, staff reviewed the information provided by OPD and determined that the incidents were not related to the operation of the proposed establishment, did not occur at the subject restaurant, and did not involve the unlawful sale or

service of alcoholic beverages at the establishment. Therefore, the arrest history does not adversely affect staff's position regarding the request under the applicable code criteria.

- **Request:** The purpose of this request is for approval of the expansion of an existing State 4COP alcohol permit to allow the sale of beer, wine, and liquor for on-premises consumption to include outdoor consumption within the approved sidewalk café area for Martin & Weiss, LLC, (dba) The Tipsy Skipper. The proposed hours of operation are 6 p.m. - 12 a.m. Monday - Thursday, 6 p.m. - 2 a.m. Friday and Saturday, 2 p.m. - 12 a.m. Sunday. (*Code of Ordinances Section 6-5 limits the hours and times during which alcoholic and intoxicating beverages may be sold, consumed or served, or permitted to be served or consumed, in any place or on any premises defined as a business establishment as follows: for each day of the week except Sunday, between the hours of 7 a.m. and 2 a.m. the following days. On Sunday, Alcoholic beverages may be sold for consumption on the premises only, between the hours of 11 a.m. and 2 a.m. on Monday; and beer, ale, and wine may be sold in sealed containers for consumption off the premises only, between the hours of 7 a.m. on Sunday and 2 a.m. on Monday*.)

- **Staff Comments:** Comments were requested from Growth Management, Police, and Fire Departments, and legal review by the City Attorney. No comments or objections were received.

FINDINGS AND CONCLUSIONS: This request is for a provisional location permit, subject to the applicant satisfying the requirements of the City's Code of Ordinances Section 6-32(d) to obtain their appropriate state-issued license.

Proximity to schools, churches, and daycare centers: None within a 500-foot radius.

Proximity to other Alcohol Beverage Establishments: There are 16 within a 500-foot radius.

INFORMATION REGARDING ALCOHOLIC BEVERAGE LOCATION PERMITS

When applying for a permit an applicant may seek more than one type of location permit for the same location, as described in the application form.

A location permit granted by the City may be granted to an individual, group of individuals or any legal entity recognized by the State of Florida, but any such permit granted shall not be transferable to another party or to a location other than that described in the original application.

A public hearing is required to be held by the city council for new location permits. If a location permit was issued after January 1, 2008, the building director may approve the request without the requirement for a public hearing.

The building director may approve or deny a location permit pursuant to Section 6-33(g):

(1) A bona fide nonprofit civic organization for on-premise consumption for a special event;
(2) An existing site with a location permit changing ownership;
(3) An existing site with a location permit changing the type of permit; or
(4) A former site with a location permit issued after January 1, 2008, seeking a new permit.

Applicants requesting on-premise consumption outside an enclosed building shall submit an application for a public hearing. A site plan must be submitted with the application and shall be reviewed by the building, planning and fire departments. The notice for the public hearing shall conform to the requirements as indicated in Section 3-25, paragraph (c). At the public hearing, the city council shall consider this request as a separate issue and shall be guided by the criteria listed below:

(1) The size and location of the portion of property to be used for outside consumption;
(2) Ingress/egress to the outside area;
(3) The proximity of the outside area to schools, churches, public recreation areas, public buildings and areas of public assembly, taking into consideration noise and light intrusion;
(4) The proximity of the outside area to established residential areas, taking into consideration noise and light intrusion;
(5) The proximity of the establishment to other establishments operating outside consumption;
(6) Hours of operation; and
(7) Screening and buffering.

Excessive or disturbing noise is a violation of Section 34-171 of the City's Code of Ordinances. The Ocala Police Department may terminate any event which is considered to be in violation of this code. A fine may be imposed for contravention of the noise regulation.

INFORMATION REGARDING ALCOHOLIC BEVERAGE LOCATION PERMITS

When applying for a permit an applicant may seek more than one type of location permit for the same location, as described in the application form.

A location permit granted by the City may be granted to an individual, group of individuals or any legal entity recognized by the State of Florida, but any such permit granted shall not be transferable to another party or to a location other than that described in the original application.

A public hearing is required to be held by the city council for new location permits. If a location permit was issued after January 1, 2008, the building director may approve the request without the requirement for a public hearing.

The building director may approve or deny a location permit pursuant to Section 6-33(g):

(1) A bona fide nonprofit civic organization for on-premise consumption for a special event;
(2) An existing site with a location permit changing ownership;
(3) An existing site with a location permit changing the type of permit; or
(4) A former site with a location permit issued after January 1, 2008, seeking a new permit.

Applicants requesting on-premise consumption outside an enclosed building shall submit an application for a public hearing. A site plan must be submitted with the application and shall be reviewed by the building, planning and fire departments. The notice for the public hearing shall conform to the requirements as indicated in Section 3-25, paragraph (c). At the public hearing, the city council shall consider this request as a separate issue and shall be guided by the criteria listed below:

(1) The size and location of the portion of property to be used for outside consumption;
(2) Ingress/egress to the outside area;
(3) The proximity of the outside area to schools, churches, public recreation areas, public buildings and areas of public assembly, taking into consideration noise and light intrusion;
(4) The proximity of the outside area to established residential areas, taking into consideration noise and light intrusion;
(5) The proximity of the establishment to other establishments operating outside consumption;
(6) Hours of operation; and
(7) Screening and buffering.

Excessive or disturbing noise is a violation of Section 34-171 of the City's Code of Ordinances. The Ocala Police Department may terminate any event which is considered to be in violation of this code. A fine may be imposed for contravention of the noise regulation.

STAFF RECOMMENDATION (Motion Ready):
One-year renewal of the agreement with C.W. Roberts Contracting, Inc., for Transportation Rehabilitation Improvement Program projects with an aggregate expenditure amount not to exceed $6,000,000

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
On May 2, 2023, the City Council (Council) approved Contract No. CIP/230266 with C.W. Roberts Contracting, Inc. (CWR), for Transportation Rehabilitation Improvement Program (TRIP) projects for an initial term of two years with a maximum limiting amount not to exceed $5,000,000. Per the contract terms, two optional one-year renewals may be exercised, with a maximum 3 percent pricing increase at each renewal. The initial term expired on May 2, 2025.

On March 19, 2024, Council approved the First Amendment increasing the aggregate expenditure to $10,000,000.

On May 6, 2024, the City approved the Second Amendment modifying the Unit Pricing Schedule by adding lines to Exhibit B.

On April 15, 2025, Council approved the Third Amendment, including the first one-year renewal term with CWR for TRIP projects. This amendment stipulated an amount not to exceed $3,000,000 and contained a 3% increase to the unit pricing schedule.

FINDINGS AND CONCLUSIONS:
CWR has agreed to renew the contract for a second one-year term and has requested a 2.4 percent increase. If approved, the renewal will extend the contract to May 2, 2027.

CWR is a local contractor with excellent references. They have performed well on City projects and consistently produced high-quality work. Staff recommends approval of the second one-year renewal option of the contract.

FISCAL IMPACT:
Funding is available for Fiscal Year 2025-26 in account 120-020-255-541-54-46010 in the amount of $1,000,000. The remaining $5,000,000 will be appropriated in the upcoming fiscal year as needed.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with Changes
- Table
- Deny

FOURTH AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS

THIS FOURTH AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") ("Fourth Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **C.W. ROBERTS CONTRACTING, INC.,** a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 59-1683951) ("Contractor").

WHEREAS, on May 8, 2023, City and Contractor entered into a Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "Original Agreement"), City of Ocala Contract Number: CIP/230266 for a term of two (2) years from May 3, 2023, to May 2, 2025; and

WHEREAS, on April 4, 2024, City and Contractor entered into a First Amendment to Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "First Amendment") amending the total amount of compensation described in the Original Agreement; and

WHEREAS, on May 6, 2024, City and Contractor entered into a Second Amendment to Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "Second Amendment") to modify the unit pricing schedule by adding line items to Exhibit B – Price Proposal attached to the Original Agreement; and

WHEREAS, On May 12, 2025, City and Contractor entered into a Third Amendment to Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "Third Amendment") to renew the Original Agreement for the first of two available one-year renewal terms, and to revise the pricing schedule attached as Exhibit B – Amended Price Proposal; and

WHEREAS, City and Contractor now desire to amend the Original Agreement, as amended, to renew the Original Agreement for the second of two available one-year renewals, and to further revise the pricing schedule.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Contractor agree as follows:

1. **RECITALS.** City and Contractor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Contractor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Fourth Amendment.
3. **AMENDMENT TO EXHIBIT B – PRICE PROPOSAL**. The document attached to the Original Agreement as **Exhibit B – Amended Price Proposal** is hereby deleted and replaced, in its entirety, with the document attached to this Fourth Amendment as **Amended Exhibit B – Price Proposal**.
4. **RENEWAL TERM.** The Original Agreement is hereby renewed for an additional one (1) year term commencing **MAY 3, 2026,** and ending **MAY 2, 2027**.

5. **COMPENSATION**. Contractor shall be paid a price not to exceed the maximum limiting amount of **SIX MILLION AND NO/100 DOLLARS ($6,000,000)** (the "Contract Sum") over the Renewal Term as full and complete compensation for the timely and satisfactory performance of services.

6. **NOTICES.** All notices, certifications or communications required by this Fourth Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	C.W. Roberts Contracting, Inc. Attention: Stuart Savoy 4208 CR 124-A Wildwood, Florida 34785 Phone: 352-330-2540 E-mail: ssavoy@cwrcontracting.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

6. **COUNTERPARTS.** This Fourth Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

7. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Fourth Amendment. Further, a duplicate or copy of the Fourth Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Fourth Amendment for all purposes.

8. **LEGAL AUTHORITY**. Each person signing this Fourth Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Fourth Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Fourth Amendment.

IN WITNESS WHEREOF, the parties have executed this Fourth Amendment on _____.

ATTEST: **CITY OF OCALA**

_____
Angel B. Jacobs
City Clerk

_____
Ire J Bethea Sr.
City Council President

Approved as to form and legality:

C.W. ROBERTS CONTRACTING, INC.

_____
William E. Sexton, Esq.
City Attorney

Exhibit B - Amended Price Proposal

ITB# CIP/230266 Transportation Rehabilitation Improvement Program

BIDDER NAME	LOCATION
CW Roberts Contracting, Inc.	Wildwood, FL

ITEM	DESCRIPTION	UOM	UNIT COST
G-03	Project Sign	EA	$1,793.02
G-04	Emergency Call Out (24 Hours A Day)	HR	$2,109.44
G-05	Maintenance of Traffic (Used W/emergency call out ONLY)	DAY	$5,590.02
G-06-1	Silt Fence & Sediment Control (Installation and Removal)	LF	$8.44
G-06-2	Silt Fence & Sediment Control (Installation and Removal)	LF	$4.75
G-07	Tree Protection/ Construction Fence	LF	$16.88
G-08-1	Remove and Relocate Existing Mailboxes	EA	$290.05
G-08-2	New Mailbox (Furnish&install)	EA	$527.36
G-09	Clearing and Grubbing - LIGHT	SY	$68.56
G-10	Clearing and Grubbing - HEAVY	SY	$142.39
G-11-1	Excavation, General	CY	$63.28
G-11-2	Excavation, General	CY	$36.39
G-11-3	New Sidewalk Excavation	SY	$33.75
G-11-4	New Sidewalk Excavation	SY	$28.74
G-12-1	Backfill W/Off-site Material	CY	$101.25
G-12-2	Backfill W/Off-site Material	CY	$63.28
G-15-1	Finish Grading	SY	$17.40
G-15-2	Finish Grading	SY	$9.28
G-17-1	Remove and Replace Unsuitable Material	CY	$131.84
G-17-2	Remove and Replace Unsuitable Material	CY	$121.29
G-18-1	Stabilized subgrade	SY	$29.27
G-18-2	Stabilized subgrade	SY	$21.09
G-19-1	Limerock- New Material for Reworking Base	CY	$38.50
G-19-2	Limerock- New Material for Reworking Base	CY	$37.13
G-19-3	Limerock- 4" Base	SY	$36.92
G-19-4	Limerock- 4" Base	SY	$16.24
G-19-5	Limerock- 6" Base	SY	$44.30
G-19-6	Limerock- 6" Base	SY	$22.15
G-19-7	Limerock- 8" Base	SY	$52.74
G-19-8	Limerock- 8" Base	SY	$27.95
G-19-9	Limerock- 10" Base	SY	$53.79
G-19-10	Limerock- 10" Base	SY	$36.39
G-19-11	Limerock- 12" Base	SY	$63.81
G-19-12	Limerock- 12" Base	SY	$38.23
G-20-1	Temporary Construction Tracking Pad	LS	$2,953.22
G-20-2	No. 57 Stone	CY	$111.80
G-20-3	No. 57 Stone	CY	$105.47
G-21-1	Removal of Existing Concrete Sidewalks / Driveways	SY	$52.74
G-21-2	Removal of Existing Concrete Sidewalks / Driveways	SY	$41.93
G-22-1	Removal of Existing Concrete Curb & Gutter /or Traffic Separator	LF	$36.39
G-22-2	Removal of Existing Concrete Curb & Gutter /or Traffic Separator	LF	$25.84
G-23	Concrete Fill	CY	$379.70
G-24-1	Joint Sealer for Pavement and Structures: Hot Pour Crack Sealing	GAL	$63.28
G-24-2	Joint Sealer for Pavement and Structures: Hot Pour Crack Sealing	GAL	$58.01
G-25-1	Removal of Existing Asphalt Pavement	SY	$52.74
G-25-2	Removal of Existing Asphalt Pavement	SY	$36.92
G-26-1	Temporary Asphalt Millings	TN	$82.27
G-26-2	Temporary Asphalt Millings	TN	$52.74
G-27-1	Mill Existing Asphalt Pavement at 1" Depth	SY	$14.77
G-27-2	Mill Existing Asphalt Pavement at 1" Depth	SY	$5.73
G-27-3	Mill Existing Asphalt Pavement at 1.5" Depth	SY	$14.92
G-27-4	Mill Existing Asphalt Pavement at 1.5" Depth	SY	$6.22
G-27-5	Mill Existing Asphalt Pavement at 2" Depth	SY	$15.03
G-27-6	Mill Existing Asphalt Pavement at 2" Depth	SY	$6.33
G-28-1	Compacted Roadway Subbase	SY	$9.81
G-28-2	Compacted Roadway Subbase	SY	$5.54
G-29-1	Reclaimed Asphalt Pavement Base (Reclaim 6" to 8")	SY	$20.41

G-29-2	Reclaimed Asphalt Pavement Base (Reclaim 6" to 8")	SY	$13.31
G-32-1	Miscellaneous Asphalt (25 ≤ tons)	TN	$590.64
G-32-2	Asphalt Berms, Speed Bumps & Curbs	TN	$305.87
G-32-3	Asphalt Leveling Superpave 9.5	TN	$208.31
G-32-4	Asphalt Pavement Superpave - 9.5	TN	$242.59
G-32-5	Asphalt Pavement Superpave - 9.5	TN	$201.45
G-32-6	Asphalt Pavement Superpave - 9.5	TN	$172.97
G-32-7	Asphalt Pavement FC 9.5 w/Poly	TN	$268.95
G-32-8	Asphalt Pavement FC 9.5 w/Poly	TN	$219.38
G-32-9	Asphalt Pavement FC 9.5 w/Poly	TN	$200.40
G-32-10	Asphalt Pavement Superpave - 12.5	TN	$237.31
G-32-11	Asphalt Pavement Superpave - 12.5	TN	$199.34
G-32-12	Asphalt Pavement Superpave - 12.5	TN	$171.92
G-33-1	Roadway Guardrail	LF	$52.74
G-33-2	Roadway Guardrail - End treatment (Approach)	EA	$2,425.86
G-34-1	Object Marker, Type 1	EA	$263.68
G-34-2	Object Marker, Type 2	EA	$189.85
G-34-3	Object Marker, Type 3	EA	$263.68
G-34-4	Object Marker, Type 4	EA	$400.79
G-35-1	Delineator, Flexible Tubular	EA	$131.84
G-35-2	Delineator, non-Flexible	EA	$105.47
G-35-3	Delineator, Flexible High Visibility Median	EA	$263.68
G-35-4	Delineator, Flexible High Performance	EA	$326.96
G-40	Pull and Junction Box, Furnish & Install	EA	$3,085.06
G-41	Pull and Junction Box, Install	EA	$1,845.76
G-42	Pull and Junction Box, relocate	EA	$1,845.76
G-43-1	Type C Stormwater Inlet, 0'-6'	EA	$7,172.10
G-43-2	Type C Stormwater Inlet, 6'-12'	EA	$15,820.80
G-43-3	Type C Stormwater Inlet, 12' - 18'	EA	$30,375.94
G-43-4	Type C Stormwater Inlet, 18' - 24'	EA	$65,392.64
G-43-5	Type D Storm water Inlet, 0'-6'	EA	$7,172.10
G-43-6	Type D Storm water Inlet, 6'- 12'	EA	$15,820.80
G-43-7	Type D Stormwater Inlet, 12'-18'	EA	$30,375.94
G-43-8	Type D Stormwater Inlet, 18' - 24'	EA	$65,392.64
G-43-9	Type 1 Stormwater Inlet, 0'- 6'	EA	$7,172.10
G-43-10	Type 1 Stormwater Inlet, 6'- 1 2'	EA	$15,820.80
G-43-11	Type 1 Stormwater Inlet, 12'-18'	EA	$30,375.94
G-43-12	Type 1 Stormwater Inlet, 18 ' - 24 '	EA	$65,392.64
G-43-13	Type 2 Stormwater inlet, 0'- 6'	EA	$7,172.10
G-43-14	Type 2 Stormwater inlet, 6' - 12'	EA	$15,820.80
G-43-15	Type 2 Stormwater inlet, 12' - 18'	EA	$30,375.94
G-43-16	Type 2 Stormwater inlet, 18' -24'	EA	$65,392.64
G-43-17	Type 4 Stormwater inlet, 0'- 6'	EA	$7,172.10
G-43-18	Type 4 Stormwater inlet, 6' - 12'	EA	$15,820.80
G-43-19	Type 4 Stormwater inlet, 12' - 18'	EA	$30,375.94
G-43-20	Type 4 Stormwater inlet, 18' -24'	EA	$65,392.64
G-43-21	Type 5 Stormwater inlet, 0'- 6'	EA	$7,172.10
G-43-22	Type 5 Stormwater inlet, 6' - 12'	EA	$15,820.80
G-43-23	Type 5 Stormwater inlet, 12' - 18'	EA	$30,375.94
G-43-24	Type 5 Stormwater inlet, 18' -24'	EA	$65,392.64
G-43-25	Type 6 Stormwater inlet, 0'- 6'	EA	$7,172.10
G-43-26	Type 6 Stormwater inlet, 6' - 12'	EA	$15,820.80
G-43-27	Type 6 Stormwater inlet, 12' - 18'	EA	$30,375.94
G-43-28	Type 6 Stormwater inlet, 18' -24'	EA	$65,392.64
G-43-29	Type 9 Stormwater inlet, 0'- 6'	EA	$7,172.10
G-43-30	Type 9 Stormwater inlet, 6' - 12'	EA	$15,820.80
G-43-31	Type 9 Stormwater inlet, 12' - 18'	EA	$30,375.94
G-43-32	Type 9 Stormwater inlet, 18' -24'	EA	$65,392.64
G-45	Stormwater Manhole Cover Adjustments	EA	$1,212.93
G-46-1	12" RCP Stormwater Pipe, 0 ' -6'	LF	$156.10
G-46-2	12" RCP Stormwater Pipe, 6'-12'	LF	$167.70
G-46-3	12" RCP Stormwater Pipe, 12'-18'	LF	$268.95
G-46-4	12" RCP Stormwater Pipe, 18'-24'	LF	$712.99

Reference: Contract CIP/230266

Subject: **Contract Renewal – CPI-Based Price Adjustment Determination**

C.W. Roberts Contracting does desire to renew this contract for an additional year with price increases outlined below as provided for by contract.

This letter is provided to formally interpret and apply the pricing adjustment provision contained in the contract, which states:

“Pricing increases shall not exceed the lesser of (i) the percentage increase reflected in the Consumer Price Index for All Urban Consumers, not seasonally adjusted, based upon the most recent 12-month period, or (ii) three percent (3%) annually.”

The Consumer Price Index for All Urban Consumers (CPI-U), Not Seasonally Adjusted, as published by the U.S. Bureau of Labor Statistics, increased by 2.4% over the 12 months ending January 2026.

Pursuant to the “lesser of” requirement in the contract provision, the allowable price adjustment must be determined by comparing:

- CPI-U (12-month change): 2.4%
- Contractual cap: 3.0%

C.W. Roberts Contracting, Inc. requests contract pricing adjustment as outlined above and documented by the attached Table 1, consumer price Index for All Urban Consumers.

THIRD AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS

THIS THIRD AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") ("Third Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **C.W. ROBERTS CONTRACTING, INC.** a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 59-1683951) ("Contractor").

WHEREAS, on May 8, 2023, City and Contractor entered into a Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "Original Agreement"), City of Ocala Contract Number: CIP/230266 for a term of two (2) years from May 3, 2023, to May 2, 2025; and

WHEREAS, on April 4, 2024, City and Contractor entered into a First Amendment to Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "First Amendment") amending the total amount of compensation described in the Original Agreement; and

WHEREAS, on May 6, 2024, City and Contractor entered into a Second Amendment to Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "Second Amendment") to modify the unit pricing schedule by adding line items to Exhibit B – Price Proposal attached to the Original Agreement; and

WHEREAS, City and Contractor now desire to renew the Original Agreement for the first of two available one-year renewal terms, with a 3% increase to the pricing schedule for the Renewal Term.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT.** The Original Agreement between City and Contractor is hereby incorporated by reference as if set forth herein its entirety and remains in full force and effect except for those terms and conditions expressly amended by this Third Amendment.
3. **AMENDMENT TO EXHIBIT B – PRICE PROPOSAL**. The document attached to the Original Agreement as **Exhibit B – Price Proposal** is hereby deleted and replaced, in its entirety, with the document attached to this Third Amendment as **Exhibit B – Amended Price Proposal**.
4. **RENEWAL TERM.** The Original Agreement is hereby renewed for an additional (1) one-year term commencing **MAY 3, 2025,** and ending **MAY 2, 2026**. This Agreement may be renewed for **ONE (1)** additional **ONE (1) YEAR** period by written consent between City and Contractor.
5. **COMPENSATION.** City shall pay Contractor a price not to exceed **THREE MILLION AND NO/100 DOLLARS ($3,000,000)** (the "Contract Sum") over the Renewal Term as full and complete compensation for the timely and satisfactory provision of services.
6. **NOTICES.** All notices, certifications or communications required by this Third Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if

by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	C.W. Roberts Contracting, Inc. Attention: Stuart Savoy 4208 CR 124-A Wildwood, Florida 34785 Phone: 352-330-2540 E-mail: ssavoy@cwrcontracting.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

7. **COUNTERPARTS.** This Third Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

8. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Third Amendment. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Third Amendment for all purposes.

9. **LEGAL AUTHORITY**. Each person signing this Third Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Third Amendment.

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

STAFF RECOMMENDATION (Motion Ready):
Approve one one-year renewal of the agreement with C.W. Roberts Contracting, Inc., for Transportation Rehabilitation Improvement Program projects in an amount not to exceed $3,000,000

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
On May 3, 2023, the City of Ocala (City) entered into Contract No. CIP/230266 with C.W. Contracting, Inc. (CWR) for annual Transportation Rehabilitation Improvement Program (TRIP) projects. The initial term of the contract was for two years and expires on May 2, 2025. Per the contract terms, two additional one-year renewals may be enacted with the possibility of a maximum 3 percent pricing increase at renewal.

FINDINGS AND CONCLUSIONS:
CWR has agreed to renew the contract for the first one-year renewal and requested the maximum increase of 3 percent. If approved, the renewal will extend the contract to May 2, 2026.

CWR is a local contractor with excellent references. They have performed well on City projects and consistently produced high-quality work. Therefore, staff recommends approval of the first one-year renewal option of the contract.

FISCAL IMPACT:
Funding is available for Fiscal Year 2024-25 and has been encumbered in account 091-020-255-541-54-46010 in the amount of $388,250 and 120-020-255-541-54-46010 in the amount of $131,490. Additional funds will be appropriated in the upcoming fiscal year as needed.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William

E. Sexton.

ALTERNATIVE:

- Approve with Changes
- Table
- Deny

SECOND AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS

THIS SECOND AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS ("Second Amendment") is entered into by and between **CITY OF OCALA**, a Florida municipal corporation ("City"), and **C.W. ROBERTS CONTRACTING, INC.**, a for-profit corporation duly organized in and authorized to do business in the state of Florida (EIN# 59-1683951) ("Contractor").

WHEREAS, on May 8, 2023, City and Contractor entered into a Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "Original Agreement"), City of Ocala Contract Number: CIP/230266 for a term from May 3, 2023 to May 2, 2025; and

WHEREAS, on April 4, 2024, City and Contractor entered into the First Amendment to Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects amending the total amount of compensation described in the Original Agreement; and

WHEREAS, City and Contractor now wish to add line items to the unit pricing schedule attached to the Original Agreement as Exhibit B – Price Proposal.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Contractor agree as follows:

1. **RECITALS.** City and Contractor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Contractor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this Second Amendment.
3. **AMENDMENT TO EXHIBIT B.** The document attached to the Original Agreement as **Exhibit B – Price Proposal** is hereby deleted and replaced in its entirety with **Amended Exhibit B – Price Proposal.**
4. **NOTICES**. All notices, certifications or communications required by this Second Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:

If to City of Ocala:	Daphne M. Robinson, Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 PH: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

5. **COUNTERPARTS.** This Second Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
6. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Second Amendment. Further, a duplicate or copy of the Second Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Second Amendment for all purposes.
7. **LEGAL AUTHORITY**. Each person signing this Second Amendment on behalf of either party individually warrants that he or she has full legal power to execute this Second Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Second Amendment.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

FIRST AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS

THIS FIRST AMENDMENT TO CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS ("First Amendment") is entered into by and between **CITY OF OCALA**, a Florida municipal corporation ("City"), and **C.W. ROBERTS CONTRACTING, INC.**, a for-profit corporation duly organized in and authorized to do business in the state of Florida (EIN# 59-1683951) ("Contractor").

WHEREAS, on May 8, 2023, City and Contractor entered into a Construction Services Agreement for Transportation Rehabilitation Improvement Program ("TRIP") Projects (the "Original Agreement"), City of Ocala Contract Number: CIP/230266 for a term from May 3, 2023 to May 2, 2025; and

WHEREAS, City and Contractor now desire to amend the total amount of compensation described in the Original Agreement.

NOW THEREFORE, in consideration of each of the foregoing recitals and the following mutual covenants, conditions and other good and valuable consideration, the receipt and sufficiency of which is hereby mutually acknowledged, City and Contractor agree as follows:

1. **RECITALS.** City and Contractor hereby represent and warrant that the Recitals set forth above are true and correct.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Contractor, as amended, is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this First Amendment.
3. **COMPENSATION.** City shall pay Contractor a maximum limiting amount not to exceed **TEN MILLION AND NO/100 DOLLARS ($10,000,000**) (the "Contract Sum") over the entire contract term as full and complete compensation for the timely and satisfactory completion of the work in compliance with the Contract Documents.
4. **NOTICES**. All notices, certifications or communications required by this First Amendment shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:

C.W. Roberts Contracting, Inc.
Attn: Paul Carlson

Wildwood, Florida 34785
Phone: 352-330-2540
E-mail: pcarlson@cwrcontracting.com

DocuSign Envelope ID: 6A0041DC-D1EE-4AF2-9BB3-8C0792AD317C

If to City of Ocala:	Daphne M. Robinson, Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 PH: 352-629-8343 E-mail: notices@ocalafl.org
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.org

5. **COUNTERPARTS.** This First Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
6. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this First Amendment. Further, a duplicate or copy of the First Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original First Amendment for all purposes.
7. **LEGAL AUTHORITY**. Each person signing this First Amendment on behalf of either party individually warrants that he or she has full legal power to execute this First Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this First Amendment.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK. SIGNATURE PAGE TO FOLLOW.]

DocuSign Envelope ID: 6A0041DC-D1EE-4AF2-9BB3-8C0792AD317C

IN WITNESS WHEREOF, the parties have executed this First Amendment on 4/4/2024.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

STAFF RECOMMENDATION (Motion Ready):
Approve First Amendment to the Construction Services Agreement with C.W. Roberts Contracting, Inc. for the Transportation Rehabilitation Improvement Program increasing the aggregate expenditure to an amount not to exceed $10,000,000

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place, Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
On May 8, 2023, the City of Ocala (City) and C.W. Roberts Contracting, Inc. (CWR) entered into the Construction Services Agreement for Transportation Rehabilitation Improvement Program (TRIP) (Contract No. CIP/230266) for a term of two years with an aggregate expenditure amount not to exceed $5,000,000.

During the first year of the initial contract term, the City increased its mill and overlay and road reclamation projects to be completed using the TRIP Program. These addditional projects, along with scheduled projects, have resulted in expenditures totaling $4,747,514 under Contract No. CIP/230266.

FINDINGS AND CONCLUSIONS:
CIP staff anticipates an additional $5,000,000 in expenditures under Contract No. CIP/230266 through May 2, 2025. This First Amendment will increase the maximum limiting amount to match the new anticipated spending level of $10,000,000.

FISCAL IMPACT:
Funding is available for FY2024 in account 091-020-255-541-54-46010 in the amount of $2,898,484 and 120-020-255-541-54-46010 in the amount of $843,420. Additional budgeted funds will be appropriated in the upcoming fiscal year as needed.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Amendment will be reviewed and approved for form and legality by City Attorney, William

E. Sexton.

CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS

THIS CONSTRUCTION SERVICES AGREEMENT FOR TRANSPORTATION REHABILITATION IMPROVEMENT PROGRAM ("TRIP") PROJECTS ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **C.W. ROBERTS CONTRACTING, INC.**, a for profit corporation duly organized and authorized to do business in the state of Florida (EIN: 59-1683951) ("Contractor").

R E C I T A L S :

WHEREAS, on February 23, 2023, City issued an Invitation to Bid ("ITB") for the provision of construction services related to the City's Transportation Rehabilitation Improvement Program ("TRIP") projects planned or requested by the City for the maintenance of highways, municipal roads, and rural roads within the City's rights-of-way, ITB No.: CIP/230266 (the "Solicitation"); and

WHEREAS, one (1) firm responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, C.W. Roberts Contracting, Inc. was chosen as the intended awardee to provide construction services related to the City's Transportation Rehabilitation Improvement Program ("TRIP") projects planned or requested by the City for the maintenance of highways, municipal roads, and rural roads within the City's rights-of-way (the "Services"); and

WHEREAS, Contractor certifies that Contractor, and its subcontractors are qualified and possess the required licensure and skill to perform the work required for the Project.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

T E R M S O F A G R E E M E N T:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Contractor shall only include: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the bid submitted by Contractor in response to same (the "Solicitation Documents"); and (d) those documents identified in the Project Specifications section of this

   Agreement. Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:

   Exhibit A: Scope of Work (A-1 through A-7)
   Exhibit B: Price Proposal (B-1 through B-6)
   Exhibit C: Standard Specifications for Sitework (C-1 through C-2)
   Exhibit D: Measurement and Payment (D-1)

   If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

following order: (1) Exhibit A, then (2) Exhibit B, then (3) Exhibit C, then (4) Exhibit D.

3. **SCOPE OF SERVICES.** Contractor shall provide all materials, labor, supervision, tools, accessories, equipment, permits, fees, testing, inspections, certifications, and all other things necessary for Contractor to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work** and the Solicitation Documents. In the event of a conflict between this Agreement and the Solicitation Documents, this Agreement and all its Exhibits shall be given precedence to resolve any identified inconsistency. The Scope of Work under this Agreement may only be adjusted by written amendment executed by both parties.
4. **PROJECT SPECIFICATIONS.** Projects require the Contractor to have the following specifications and documents, which are incorporated by reference:
   A. **City of Ocala "Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure"** available at: https://www.ocalafl.org/home/showpublisheddocument/22736/638121592055800000
   B. **Florida Department of Transportation (FDOT) Standard Specifications for Road and Bridge Construction (MOST RECENT)** available at: http://www.fdot.gov/programmanagement/Implemented/SpecBooks/
   C. **Manual on Uniform Traffic Control Devices (MUTCD)**, available at: https://www.fdot.gov/traffic/trafficservices/mutcd.shtm
   D. **Commercial Conduit Rules and Regulations,** available for inspection and copying at: 1805 NE 30th Avenue, Building 400, Ocala, Florida 34470.

   Contractor shall have a copy of up-to-date shop drawings, plans, and bid documents located at the job sites at all times. In the event of a conflict between the individual Project Specifications regarding the scope of work to be performed, the specification with the more restrictive provision shall take precedence over the others.
5. **COMPENSATION.** City shall pay Contractor a maximum limiting amount not to exceed **FIVE MILLION AND NO/100 DOLLARS ($5,000,000)** (the "Contract Sum") over the entire contract term as full and complete compensation for the timely and satisfactory completion of the work in compliance with the Contract Documents, as follows:
   A. **Monthly Progress Payments**: The compensation amount under this section shall be paid by City, monthly, based upon a percentage of completion of the work as invoiced by Contractor and approved by City. The compensation sought under this Agreement is subject to the express terms of this Agreement and any applicable Federal and/or state laws.
   B. **Project Schedule and Progress Reports**. A progress report and updated project schedule must be submitted with each monthly pay request indicating the percent of services completed to date. This report will serve as support for payment to Contractor and the basis for payment in the event project is suspended or abandoned.
   C. **Invoice Submission**. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and an Invoice Date. City will provide Contractor with an invoice cover sheet. Invoice cover sheets are required to be accurately completed and submitted with each invoice. Contractor shall submit the original invoice, no more than once

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

monthly, through the responsible City Project Manager at: **City of Ocala Engineering & Water Resources Department, Capital Improvement Projects Division,** Attn: **Paul Constable**, Address: **1805 NE 30th Avenue, Bldg. 700, Ocala, Florida 34470**, E-Mail: **pconstable@ocalafl.org.**

D. **Payment of Invoices by City**. The City Project Manager shall review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

E. **Retainage.** City shall withhold an amount equal to **FIVE PERCENT (5%)** of each monthly progress payment as retainage to secure Contractor's full and faithful performance of its obligations under this Agreement (the "Retainage"). Contractor shall not be entitled to any interest received by City on Retainage. The Retainage shall be payable to Contractor, subject to the provisions of this subsection, upon satisfaction of the following conditions precedent: (1) confirmation from the City Project Manager that Contractor has satisfactorily completed all work in accordance with the provisions of the Agreement; and (2) receipt of the Consent of Surety of the recorded bond for final payment.

F. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

G. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

H. **Amounts Due to the City**. Contractor must be current and remain current in all obligations due to the City during the performance of services under this Agreement. Payments to Contractor may be offset by any delinquent amounts due to the City or fees and/or charges owed to the City.

I. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

6. **TIME FOR PERFORMANCE**. Time is of the essence with respect to the performance of all duties, obligations, and responsibilities set forth in this Agreement and the Contract Documents.

A. **Effective Date and Term.** This Agreement shall become effective and commence on **MAY 3, 2023** and continue through and including **MAY 2, 2025**. This Agreement may be renewed

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

for up to **TWO (2)** additional **ONE YEAR (1-Year)** terms by written consent between City and Contractor.

B. **Renewal Pricing Increases.** Pricing shall remain firm and fixed during the Initial Term of this Agreement. Any renewal price adjustment shall be subject to negotiation and must be approved by the City of Ocala. Vendor shall submit a written request for price adjustment identifying the reason for the price increase, and attach suitable documentation in support of same, no less than **NINETY (90) DAYS** prior to the expiration of the then existing Contract Term. No retroactive price adjustments will be allowed. Pricing increases shall not exceed the lesser of: (i) the amount of the percentage increase reflected in the Consumer Price Index for all Urban Consumers (CPI-U), not seasonally adjusted, based upon the most recent **TWELVE (12) MONTH** period; or (ii) **THREE PERCENT (3%) ANNUALLY** unless there are mitigating market conditions.

C. **Notices to Proceed on Individual Projects**. City shall issue written Notices to Proceed for individual projects in alignment with project schedules. Contractor and City shall agree upon the time needed to complete each individual project as assigned. Contractor agrees to commence work within **SEVEN (7)** days of the date of issuance of a Notice to Proceed for each individual project. Contractor shall complete assigned projects within the time limits specified in the Notice to Proceed and substantial completion and final completion dates shall be strictly enforced by City. At no time will Contractor be allowed to lag. Contractor shall be expected to accurately track contract time and progress for each assigned project. Notices to Proceed for additional projects will not be issued if Contractor has failed to properly complete and close out previous projects assigned under this Agreement.

D. The Time for Performance under this Agreement may only be adjusted by Change Order, in the sole and absolute discretion of City. Any request for an extension of the Time for Performance must be submitted in a writing delivered to the City Project Manager, along with all supporting data. All requests for adjustments in the Contract Time shall be determined by City.

E. As to any delay, inefficiency, or interference in this performance of this Agreement caused by any act or failure to act by City, the Contractor's sole remedy shall be the entitlement of an extension of time to complete the performance of the affected work in accordance with the Contract Documents. Contractor agrees to make no claim for extra or additional costs attributable to said delays, inefficiencies, or interference, except as provided in this Agreement.

F. **Weather Days.** Contractor shall submit a written request to the City Project Manager (e-mail is the preferred method) for additional days for which work is suspended or delayed by weather. Weather days shall be reconciled with each monthly pay application for the time period for which the application is submitted and shall be final. Contractor performance and execution of work will be considered in the determination for granting additional days.

G. None of the provisions of this section shall exclude City's right of recovery for damages caused by delays or inefficiencies caused by any act or failure to act by Contractor, to include costs incurred by City for the procurement of additional professional services.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

7. **LIQUIDATED DAMAGES FOR LATE COMPLETION**. The parties agree that it would be extremely difficult and impracticable under the presently known facts and anticipated circumstances to ascertain and fix the actual damages that City and its residents would incur should Contractor fail to achieve Substantial Completion and/or Final Completion and readiness for final payment by the dates specified for each individual project under the terms of this Agreement. Accordingly, the parties agree that should Contractor fail to achieve Substantial Completion by the dates specified on each City-issued Notice to Proceed, then Contractor shall pay City, as liquidated damages and not as a penalty, the daily sum given in the schedule below based on individual project cost for each calendar day of unexcused delay in achieving Substantial Completion beyond the date specified for Substantial Completion for each individual project in the City-issued Notice to Proceed:

Individual Project Cost	Liquidated Damages
$299,000 and under	$980
$300,000 but less than $2,000,000	$1,699
$2,000,000 but less than $5,000,000	$2,650

After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining work within the time specified in the Contract Documents for Final Completion and readiness for final payment or any proper extension thereof granted by City, Contractor shall pay City, as liquidated damages and not as a penalty, the additional sum of **TWO HUNDRED AND NO/100 DOLLARS ($200.00)** per day for each calendar day of unexcused delay in achieving completion and readiness for final payment.

A. **No Waiver of Rights or Liabilities**. Permitting Contractor to continue and finish the work, or any part thereof, beyond the dates specified for Substantial Completion and/or Final Completion and readiness for final payment shall not operate as a waiver on the part of the City of any of its rights under this Agreement. Any liquidated damages assessed pursuant to this section shall not relieve Contractor from liability for any damages or costs of other contractors caused by a failure of Contractor to complete the work as agreed.

B. **Right to Withhold or Deduct Damages**. When liquidated damages are due and owing, City shall have the right to: (1) deduct the liquidated damages from any money in its hands or from any money otherwise due or to become due to Contractor; or to (2) initiate any applicable dispute resolution procedure for the recovery of liquidated damages within the times specified under this Agreement.

C. **Non-Cumulative**. The parties agree and understand that the amounts set forth under this section for liquidated damages are not cumulative with one another. The amount set forth as liquidated damages for Contractor's failure to achieve Substantial Completion shall be assessed upon default and continue until Substantial Completion is attained. The amount set forth as liquidated damages for Contractor's failure to achieve Final Completion and readiness for payment shall be assessed after Substantial Completion is attained and apply until Final Completion is attained.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

D. **Additional Costs.** In addition to the liquidated damages set forth under this section, Contractor agrees to pay all costs and expenses incurred by City due to Contractor's delay in performance to include inspection fees, superintendence costs, and travel expenses.

E. **Injunctive Relief.** The parties acknowledge that monetary damages may not be a sufficient remedy for Contractor's failure to achieve Substantial Completion or Final Completion in accordance with the terms of this Agreement, and that City shall be entitled, in addition to all other rights or remedies in law and equity, to seek injunctive relief.

8. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.
   A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof as soon as it becomes aware.
   B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Contractor performance shall be extended for a number of days equal to the duration of the force majeure. Contractor shall be entitled to an extension of time only and, in no event, shall Contractor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.
9. **INSPECTION AND ACCEPTANCE OF THE WORK**. Contractor shall report its progress to the City Project Manager as set forth herein. All services, work, and materials provided by Contractor under this Agreement shall be provided to the satisfaction and approval of the Project Manager.
   A. The Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials furnished, or workmanship performed, the rate of progress of the work, the interpretation of the plans and specifications, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Contractor in its Proposal. The authority vested in the Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the work.
   B. Neither the Project Manager's review of Contractor's work nor recommendations made by Project Manager pursuant to this Agreement will impose on Project Manager any responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident Contractor's furnishing and performing the work.
10. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Document, may give written notice of default to the defaulting party

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.

A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Contractor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Contractor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Contractor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:

(1) Contractor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;

(2) Contractor provides material that does not meet the specifications of the Agreement;

(3) Contractor fails to complete the work required within the time stipulated in the Agreement; or

(4) Contractor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Contractor cannot or will not perform to the requirements of the Agreement.

B. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Contractor Default**. In the event that Contractor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following: (1) City shall be entitled to terminate this Agreement without further notice;

(2) City shall be entitled to hire another contractor to complete the required work in accordance with the needs of City;

(3) City shall be entitled to recover from Contractor all damages, costs, and attorney's fees arising from Contractor's default prior to termination; and

(4) City shall be entitled to recovery from Contractor any actual excess costs by: (i) deduction from any unpaid balances owed to Contractor; or (ii) placing a claim against the public construction bond; or (iii) any other remedy as provided by law.

D. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The Project Manager shall provide written notice of the termination. Upon receipt of the notice, Contractor shall immediately discontinue all work as directed in the notice, notify all

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Contractor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Contractor as permitted under this Agreement and approved by City.

11. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.

12. **MAINTENANCE AND GUARANTEE BOND.** Prior to final Payment, Contractor shall furnish a Maintenance and Guarantee Bond in the amount of **10% OF THE TOTAL PROJECT VALUE** for a period of **THREE (3)** years for labor and **THREE (3)** years for materials from the date of Substantial Completion. Prior to the City's receipt of Contractor's fully executed Maintenance and Guarantee Bond, Contractor will warrant all labor and materials completed pursuant to this Agreement.

13. **PUBLIC CONSTRUCTION BOND.** As required by section 255.05, Florida Statutes, Contractor shall furnish a certified and recorded Public Construction Bond in the amount of **TWO HUNDRED FIFTY THOUSAND AND NO/100 DOLLARS ($250,000)** as security for the faithful performance of the work as required and set forth in Exhibit A – Scope of Work within the time set forth for performance under this Agreement and for prompt payments to all persons defined in section 713.01, Florida Statutes, who furnish labor, services, or materials for the completion of the work provided for herein.

14. **CONSTRUCTION SURVEY LAYOUT.** The City Engineer/City Project Manager may, as required, establish a number of benchmarks on the project which in their opinion will enable the Contractor to perform the work. If Contractor shall remove or destroy any stake, marker or benchmark on the work without first having secured the approval of the City Engineer/City Project Manager, such stake, or benchmark shall be re-established by and at Contractor's expense. It shall be the responsibility of Contractor to preserve all adjacent property corner markers which might be affected by their operations and replace same if undermined. Corner locations known by City will be made available to Contractor. All original field notes, calculations, and other documents developed by the surveyor in conjunction with this work shall be given to City and become City property. All surveying work must be in accordance with Chapters 177 and 472 of Florida Statutes and Chapter 6IG17 of the Florida Administrative Code.

15. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Contractor's performance. Any such evaluation will become public record.

16. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any contractor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.

17. **CONTRACTOR REPRESENTATIONS**. Contractor expressly represents that:

    A. Contractor has read and is fully familiar with all the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Contractor under this Agreement.

    B. Contractor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Contractor in the Contract Documents, and that the City's written resolution of same is acceptable to Contractor.

    C. Contractor has had an opportunity to visit, has visited, or has had an opportunity to examine and ask questions regarding the sites upon which the work is to be performed and is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.

    D. Contractor is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.

    E. Contractor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.

    F. **Public Entity Crimes.** Neither Contractor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Contractor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Contractor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

18. **CONTRACTOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Contractor:

    A. Contractor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

B. Contractor shall be solely responsible for the means, methods, techniques, sequences, or procedures of construction and safety precautions or programs incident thereto.

C. Contractor shall be responsible to see that the finished work complies accurately with the contract and the intent thereof.

D. Contractor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, to include obtaining all permits, licenses, and other authorizations necessary for the prosecution of the work and be responsible for all costs associated with same.

E. Contractor shall operate and cause all construction equipment and materials supplied for or intended to be utilized in the Project to be operated and stored in only those areas prescribed by City. This includes the operations of workmen.

F. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of all construction equipment and materials supplied for or intended to be utilized in the Project, whether furnished by Contractor or City. Contractor shall be responsible for providing adequate safeguards to prevent loss, theft, damage, or commingling with other materials or projects.

G. Contractor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Contractor and City may otherwise agree in writing.

19. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Contractor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.

20. **RIGHT OF ACCESS AND OTHER WORK PERFORMED BY THIRD PARTIES**. City may perform additional work related to the Project itself, or have additional work performed by utility service companies, or let other direct contracts therefore which shall contain General Conditions similar to these. Contractor shall afford the utility service companies and the other contractors who are parties to such direct contracts (or City, if City is performing the additional work with City's employees) reasonable opportunity for the introduction and storage of materials and equipment and the execution of work and shall properly connect and coordinate his work with theirs.

A. If any part of Contractor's work depends for proper execution or results upon the work of any such other contractor or utility service company (or City), Contractor shall inspect and promptly report to City in writing any latent or apparent defects or deficiencies in such work that render it unsuitable for such proper execution and results. Contractor's failure to so report shall constitute an acceptance of the other work as fit and proper for integration with Contractor's work except for latent or non-apparent defects and deficiencies in the other work.

B. Contractor shall do all cutting, fitting, and patching of work that may be required to make the parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating, or otherwise altering their work, and will only cut or alter their work with the written consent of City.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

21. **STORAGE OF MATERIALS/EQUIPMENT**. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of equipment and materials (whether furnished by Contractor or City) to be utilized in the performance of or incorporated into the work.
22. **RESPONSIBILITIES OF CITY.** City or its representative shall issue all communications to Contractor. City has the authority to request changes in the work in accordance with the terms of this Agreement and with the terms in **Exhibit A – Scope of Work.** City has the authority to stop work or to suspend any work.
23. **COMMERCIAL AUTO LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.
24. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial general liability insurance with limits not less than:
    A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and
    B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.
    C. Policy must include coverage for contractual liability and independent contractors.
    D. The City, a Florida municipal corporation, and its officials, employees, and volunteers are to be covered as additional insureds with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liabilities arising out of activities performed by or on behalf of Contractor. This coverage shall contain no special limitation on the scope of protection to be afforded to the City, its officials, employees, and volunteers.
25. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement adequate workers' compensation and employer's liability insurance covering all of its employees in at least such amounts as required by Chapter 440, Florida Statutes, and all other state and federal workers' compensation laws, including the U.S. Longshore Harbor Workers' Act and the Jones Act, if applicable. Contractor shall similarly require any and all of its subcontractors to afford such coverage for all of its employees as required by applicable law. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent. **Exceptions and exemptions to this Section may be allowed at the discretion of the City's**

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.

26. **MISCELLANEOUS INSURANCE PROVISIONS.**

A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.

B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.

C. Certificates of Insurance. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.org.** Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. Failure to Maintain Coverage. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

E. City as an Additional Insured. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section except for Workers' Compensation and Professional Liability policies.

F. Notice of Cancellation of Insurance. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation**, TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.org.

G. Severability of Interests. Contractor shall arrange for its liability insurance to include or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

27. **SAFETY/ENVIRONMENTAL.** Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Contractor shall make an effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury or property damage. EPA, DEP, OSHA and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

A. All employees on the work and other persons that may be affected thereby;

B. All work, materials and equipment to be incorporated therein, whether in storage on or off the site; and

C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

28. **TRAFFIC CONTROL AND BARRICADES.** The Contractor shall mitigate impact on local traffic conditions to all extents possible. The Contractor is responsible for establishing and maintaining appropriate traffic control and barricades. The Contractor shall provide sufficient signing, flagging and barricading to ensure the safety of vehicular and pedestrian traffic at all locations where work is being done under this Agreement.

A. In addition to the requirements set forth in bid, the Contractor shall maintain at all times a good and sufficient fence, railing or barrier around all exposed portions of said work in such a manner as to warn vehicular and pedestrian traffic of hazardous conditions.

B. Should Contractor fail to properly barricade his work or stored material sites in the manner outlined above, the City may have the necessary barricading done, and all cost incurred for said barricading shall be charged to the Contractor.

29. **WORK SITE AND CLEANUP.** Daily, during the progress of the work, Contractor shall keep the premises free from accumulations of waste materials, rubbish, and all other debris resulting from the work. At the completion of the work, Contractor shall remove all waste materials, rubbish, and debris from and about the premises, as well as all tools, appliances, construction equipment

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

and machinery, and surplus materials, and shall leave the site clean and ready for occupancy by City. Contractor shall provide an inventory listing of all surplus materials in an area designated by City. Contractor shall restore to their original condition those portions of the site not designated or alteration by the Contract.

30. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.
31. **SUBCONTRACTORS.** Contractor must perform a minimum of 60% of the work with their own forces. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Contractor, subcontractor, or of any of their agents or employees, nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.
32. **EMERGENCIES**. In an emergency affecting the welfare and safety of life or property, Contractor, without special instruction or authorization from the City Project Manager, is hereby permitted, authorized and directed to act at its own discretion to prevent threatened loss or injury. Except in the case of an emergency requiring immediate remedial work, any work performed after regular working hours, on Saturdays, Sundays or legal holidays, shall be performed without additional expense to the City unless such work has been specifically requested and approved by the City Project Manager. Contractor shall be required to provide to the City Project Manager with the names, addresses and telephone numbers of those representatives who can be contacted at any time in case of emergency. Contractor's emergency representatives must be fully authorized and equipped to correct unsafe or excessively inconvenient conditions on short notice by City or public inspectors.

33. **INDEPENDENT CONTRACTOR STATUS.** Contractor acknowledges and agrees that under this Agreement, Contractor and any agent or employee of Contractor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Contractor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Contractor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Contractor in its performance of its obligations under this Agreement.

34. **ACCESS TO FACILITIES.** City shall provide Contractor with access to all City facilities as is reasonably necessary for Contractor to perform its obligations under this Agreement.

35. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.

36. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Contractor under this Agreement be abandoned, or should Contractor become insolvent, or if Contractor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.

37. **PUBLIC RECORDS.** The Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, the Contractor shall:

    A. Keep and maintain public records required by the public agency to perform the service.

    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the public agency.

    D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; Email: clerk@ocalafl.org; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

38. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.

39. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.

40. **E-VERIFY.** Pursuant to section 448.095, Contractor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Contractor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Contractor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Contractor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Contractor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Contractor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.

41. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.

42. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement.

    No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.

43. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

44. **INDEMNITY.** Contractor shall indemnify and hold harmless City and its elected officials, employees and volunteers against and from all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Contractor, its agents, and employees.

45. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.

46. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail.
All notices shall be addressed to the respective parties as follows:

If to Contractor:	C.W. Roberts Contracting, Inc. Attention: Paul Carlson 4208 CR 124-A Wildwood, Florida 34785 Phone: 352-330-2540 E-mail: pcarlson@cwrcontracting.com
If to City of Ocala:	Daphne Robinson, Esq., Contracting Officer City of Ocala, City Hall 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.org
Copy to:	William E. Sexton, Esq. City Attorney City of Ocala, City Hall 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.org

47. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

48. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.
49. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
50. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
51. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
52. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
53. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

54. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

55. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.

56. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

57. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.

58. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.

59. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

BACKGROUND

1. Contractor must complete Projects that are assigned to the Transportation Rehabilitation Improvement Program. Projects within the program consist of:

   - Repaving eroded pavement
   - Highway/pavement markers
   - Restriping
   - Replacing asphalt surface with overlays
   - Reconstructing roadways/parking lots into lime rock base (Reclaim)
   - Asphalt paving
   - Thermoplastic painting
   - Asphalt milling
   - New asphalt parking lot/trail construction
   - Concrete sidewalks
   - Curb
   - Conduit
   - Guardrail
   - Concrete curb and gutter removal/replacement
   - Repair existing stormwater conveyance system
   - Installation of new stormwater pipes and structures
   - Removal/installation of concrete wheel stops
   - Asphalt utility cut repairs

2. Rehabilitation of existing infrastructure will be on an "as requested" basis by the City. This may include any of the line items listed in the solicitation. Some typical examples include grinding of existing pavement markings and installation of thermoplastic pavement markings on existing roadways/parking lots. Work may also include restoration and sod of disturbed areas. Proper maintenance of traffic is required at all times.

3. Plan Set - Construction plans for the Transportation Rehabilitation Improvement Program will be distributed to the Contractor for review as projects are defined and prioritized for construction. Upon receipt and review of plans, Contractor will provide a detailed quote for review by the City Project Manager.

4. Contractor is responsible for providing all materials, labor, and equipment to complete the project.

PERMIT REQUIREMENTS AND MOT/TTC PLAN

1. **Permits Required:** Contractor is responsible for obtaining the following City of Ocala permits at no additional cost to the City:

   - Right-of-Way (ROW) Utilization

2. **Estimated Permit Cost:** The ROW permit cost will be waived upon submission.

3. **Permit Application:** The ROW Utilization Permit Application is available under "Documents" at: https://www.ocalafl.org/government/city-departments-a-h/city-engineer-s-office

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

4. **Permit Submission Requirements:**

   A. **If Road/Lane Closure is Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of two (2) weeks prior to the projected time the project will start.

   B. **If Road/Lane Closure is not Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of one (1) week prior to the projected time the project will start.

MOBILIZATION AND MAINTENANCE OF TRAFFIC/TEMPORARY TRAFFIC CONTROL

1. **Mobilization and Maintenance of Traffic Cost:** The cost for the mobilization of Contractor's equipment and MOT (Maintenance of Traffic) as required by the City and by FDOT Manual on Traffic Control and Safe Practices for Street & Highway Construction and Standard Index 100 is considered incidental to other items of related work and shall be spread out through all line items.

2. **Mobilization:** Obtaining required permits and moving of the Contractor's operations and equipment is required for construction. Contractor must provide on-site construction power and wiring, as needed. Contractor must provide on-site sanitary facilities as required by Governing agencies. Contractor is not permitted to use the City sanitary facilities during construction. The posting of OSHA required notices and established safety programs and procedures are required before mobilization.

3. **Maintenance of Traffic (MOT)/Temporary Traffic Control (TTC):** Contractor must maintain traffic per FDOT 100 series index within the limits of the project for the duration of the construction period, including any temporary suspensions of the work. Contractor must construct and maintain detours.

   A. Provide facilities for access to residences, businesses, etc., along the project. Furnish, install and maintain traffic control and safety devices during construction. Furnish and install work zone pavement markings for MOT/TTC in construction areas. Provide any other special requirements for safe and expeditious movement of traffic specified in the Plans.

   B. MOT/TTC includes all facilities, devices and operations as required for safety and convenience of the public within the work zone. Do not maintain traffic over those portions of the project where no work is to be accomplished or where construction operations will not affect existing roads. Do not obstruct or create a hazard to any traffic during the performance of the work and repair any damage to existing pavement open to traffic. FDOT Design Standards are the minimum standards for the use in the development of all Traffic Control Plans (TCPs).

   C. Contractor must have one (1) person that is MOT/TTC Advanced certified on site at all times during construction.

EMERGENCY WORK

1. The City of Ocala may require Contractor to perform emergency work on roadways within the City during nights and weekends due to utility breaks and/or natural disasters. Emergency work is defined as work not scheduled. When called, Contractor must respond within one (1) hour to assess the nature of the emergency. Once the Contractor has assessed the emergency, Contractor will coordinate the repairs needed to open roadway. Contractor may use the below line items only during emergency call outs along with any other Contract line items needed for repairs:
   a. **Line-item G-04 Emergency Call Out:** Price for the minimum of an 8-man crew and equipment needed. If there are less than 8 employees on site, the item price will be decreased to reflect the number of employees on site. *Example made for simple math: The price of an 8-man crew is $100 per hour. If 6 employees are on site, the invoiced price can only be $75 per hour.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

b. **Line-Item G-05 Maintenance of Traffic:** Payment shall include, but is not limited to, all costs for traffic control, road closures, detours, message/arrow boards and all incidentals and appurtenances required by the Engineer and F.D.O.T. This item **will only** be used under emergency call outs. All other projects will adhere to previously stated guidelines for MOT under section "**MOBILIZATION AND MAINTENANCE OF TRAFFIC/TEMPORARY TRAFFIC CONTROL"**

PROJECT REQUIREMENTS AND EXECUTION OF WORK

1. **Project Schedule:** Contractor must submit project schedule to the City Project Inspector/Project Manager for approval for all project locations that will take longer than 30 calendar days to complete. This schedule must be submitted prior to the starting of a project and must be updated when the schedule is no longer accurate.
2. **Right-of-Way Maps and As-Builts:** Upon final completion of each individual project, signed and sealed right-of-way maps (when applicable) and as-builts must be submitted and approved by the City.
3. **Material and Construction Equipment:** All material & construction equipment must meet FDOT Standard Specifications for Road and Bridge Construction, latest edition.
4. **Backfilling and Compaction Procedures:** Backfilling and compaction shall be performed in accordance with the FDOT Standard Specifications for Road and Bridge Construction (latest edition) and the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure or as otherwise directed in writing by the City of Ocala.
5. **Open Cuts:** All open cuts in the pavement (asphalt and concrete) shall be saw cut and made square.
6. **Damages:** Contractor is responsible for all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor, at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
7. **Compliance:** Contractor shall complete all work performed under this Contract in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
8. **Work Hours:** City's normal working hours are Monday through Friday from 7:00 AM to 5:30 PM. If additional hours are necessary, Contractor must give 48 hours advance notice to the Project Inspector/Project Manager. Contractor will be responsible for inspector's overtime. Night work will be allowed if it results in less impact to the public or reduced safety issues at no extra cost to City. No work will be permitted on City observed holidays.
9. **Warranty:** Contractor will provide a three (3) year material and labor warranty from the date of substantial completion for each project, against operational failure caused by defective material or workmanship which occurs during normal use. All manufacturer warranty documentation and owner manuals must be provided before final payment request.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

2. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
3. Contractor shall provide an assigned project manager, who will be the primary point of contact. Contractor must provide a valid telephone number, email, and address for the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
4. An employee roster must be provided.
5. All workers within the right-of-way shall wear ANSI/ISEA Class 2 apparel (safety vest or equivalent).
6. The employees of the Contractor must wear suitable work clothes and personal protective equipment as defined by OSHA (hard hats, bucket harnesses, etc.) and meeting Manual on Uniform Traffic Control Devices (MUTCD) requirements as indicated for all work conducted and be as clean and in as good appearance as the job conditions permit.
7. Contractor will operate as an independent Contractor and not as an agent, representative, partner, or employee of the City of Ocala, and shall control its operations at the work site, and be solely responsible for the acts or omissions of its employees.
8. Contractor personnel shall abide by the City's smoking regulations. Smoking is restricted to designated smoking areas only and is not permitted in any City buildings.
9. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
10. Prime Contractor and sub-contractor vehicles shall have their company name located on the side and all personnel shall be required to wear a company shirt.

PROJECT SIGNS

1. Contractor is required to provide two (2) portable signs to be relocated as project progresses at locations that are approved by City Inspectors.
2. If the signs become broken or inaccurate, Contractor will replace or make sign accurate at no extra charge to the City of Ocala.
3. Sign construction details and required information can be found in the City of Ocala Standard Details for Construction (FEB. 2023 edition) on detail G-31A & G-31B

The cost to move signs to new project locations and the replacement of broken and inaccurate signs is to be included in the initial cost of each sign.

SURVEY LAYOUT

1. The City Engineer/Project Manager may, as required, establish benchmarks on the project which, in their opinion, will enable the Contractor to perform the work.
2. If Contractor shall remove or destroy any stake, marker or benchmark on the work without first having secured the approval of the City Engineer, such stake, marker or benchmark shall be re-established by and at Contractor's expense.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

3. It shall be the responsibility of Contractor to preserve all adjacent property corner markers which might be affected by their operation and replace same if undermined. Corner locations known by City will be available to Contractor.
4. All survey work must be in accordance with Chapters 177 and 472 of Florida Statutes and Chapter 6IG17 of the Florida Administrative Code.

TESTING REQUIREMENTS

1. Contractor shall be responsible for arranging, obtaining, and paying for all inspections and tests required. Such inspections and tests shall be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to City Engineer.
2. Results of all required testing and inspections shall be submitted to the project inspector to achieve Final Completion Certification. For other requirements for Tests and Inspections refer to Article 14 in the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.
3. Asphalt samples will only be taken at the job site or asphalt plant and will have to meet these specifications. All work which has not been tested and accepted shall not be paid for.

EROSION SEDIMENT AND FLOOD CONTROL

1. Contractor must provide, maintain, and operate temporary facilities to control erosion and sediment, and to protect work and existing facilities from flooding during construction.
2. Contractor must maintain drainage ways and construct temporary drainage facilities to allow runoff to flow properly.

CONSTRUCTION WORK AREAS

1. The City of Ocala is not responsible for providing property or lay down yards to Contractor for their materials or equipment. If private property is used, City requires a copy of the agreement between the property owner and the Contractor. **Utilizing private property without written permission is prohibited.**
2. Components of the project, including temporary work and storage areas, will be located on-site per project. Staging areas will be sited inside the right-of-way or within City property. Material will be transported to the proper station for construction, assembly, and response to possible public concern.
3. Contractor must provide on-site sanitary facilities as required by Governing agencies.
4. Any work areas in roadways must be filled temporarily with asphalt millings or covered with a FDOT approved steel road plate before the roadway can be opened to traffic. If millings are used, Contractor must maintain the millings each day until they are replaced with permanent asphalt.

SITE HOUSEKEEPING AND CLEANUP

1. **Waste/Debris:** Contractor shall keep the premises free, at all times, from accumulation of waste materials and rubbish caused by operations and employees. Contractor will provide approved containers for collection and disposal of waste materials, debris, and rubbish. Contractor shall dispose such waste materials, debris, and rubbish run-off off-site in a legal manner at least once a week of.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

2. **Cleanup:** Contractor must perform periodic cleanup to avoid hazards or interference with operations at the site and leave the site in a reasonable neat condition. Work site must be completely cleaned after each day of work. Contractor must sweep all roadways affected by construction and areas adjacent to daily work.
3. **Water Use:** The use of water to prevent the blowing of dust and debris during cutting operations and/or cleaning operations is **mandatory**.
4. **Individual Project Cleaning:** At completion of each individual project, Contractor shall remove from the site all tools, equipment, surplus materials, debris, temporary facilities, scaffolding, and equipment. The areas of work shall be swept thoroughly and all marks, stains, rust, dirt, paint drippings, and the like shall be removed from all new and existing work to the satisfaction of the Owner.
5. **Final Cleaning:** Upon completion of work, Contractor must clean entire work and project site as applicable.

   Contractor must:

   A. Leave the work and affected adjacent areas in clean condition satisfactory to the City Project Manager/City Engineer.
   B. Remove all foreign materials from exposed surfaces.
   C. Broom clean exterior paved driveways and parking areas.
   D. Hose clean sidewalks and concrete exposed surfaces.

SAFETY

1. The Contractor shall be fully responsible for meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-contractors, building and site occupants, staff, public, etc.
2. Prior to completion, storage and adequate protection of all material and equipment is the Contractor's responsibility.
3. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.

SUBMITTALS

1. Contractor must provide submittals as required by City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.
2. Contractor must submit copies of permits and approvals for construction as required by laws and regulations of governing agencies.
3. Contractor must submit temporary construction parking area plans, storage yard, storage trailer location, staging area plan, and plan for disposal of waste materials.

SUBSTANTIAL COMPLETION PROCESS

1. When Contractor considers the work as substantially complete, Contractor shall submit to City:
   A. Written notice that the work or designated portion thereof, is substantially complete.
   B. A list of items to be completed or corrected.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

2. Within a reasonable time after receipt of such notice, City will perform and inspection to determine the status of completion.
3. Should the City determine that the work is not substantially complete:
   A. City will promptly notify Contractor in writing, giving reasons therefore.
   B. Contractor shall remedy the deficiencies in the work and send a second written notice of substantial completion to the City.
   C. City will re-inspect the work.
4. When City finds that the work is substantially complete, City shall prepare a Certificate of Substantial Completion with a list of items (punch list) to be completed or corrected before final payment.

FINAL COMPLETION PROCESS

1. When Contractor considers the work complete, Contractor shall submit written certification that:
   A. Contract documents have been reviewed.
   B. Work has been inspected for compliance with Contract documents.
   C. Work has been completed in accordance with Contract documents.
   D. Equipment and systems have been tested in the presence of the City representative and are operational.
2. The City will perform an inspection to verify the status of completion with reasonable promptness after receipt of such certification.
3. Should City consider the work incomplete or defective:
   A. City will promptly notify Contractor in writing, listing the incomplete or defective work.
   B. Contractor shall take immediate steps to remedy the stated deficiencies and send a second written certification to the City that the work is complete.
   C. City will re-inspect the work.
4. When the City finds that the work is acceptable under the Contract documents, City shall request the Contractor make closeout submittals.
5. **Final Application for Payment:** Contractor shall submit the final application for payment in accordance with the procedures and requirements stated in the scope of work and general conditions.

CONTRACTOR CLOSEOUT DOCUMENTS

1. Evidence of compliance with requirements of governing authorities.
2. Consent of Surety to final payment.
3. Approved project record documents include electronic (CADD) and hard copy signed and sealed "As Built" by professional surveyor.
4. Completion of all submittals as required by Contract documents.
5. Warranties and operational manuals (2 copies).

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

GENERAL REQUIREMENTS

1. Work specified in this section consists of preparing roadways for resurfacing and returning the site to its original or better condition.
2. Contractor shall examine the work site and make their own determination on the character of materials and conditions to be encountered on the work site.
3. Neither the City, nor City Engineer shall be held responsible for variations found between the drawings and actual field conditions that develop through the period of construction.
4. Standard general site work requirements can be found in the FDOT Standard Specifications for Road and Bridge Construction, latest edition.

PAVEMENT PREPARATION

1. Before any bituminous materials are applied, all loose material, dust, dirt, clumps of asphalt, vegetation, and any other loose foreign material shall be removed from the full width of the application.
2. The original edges of pavement shall be established and particular care taken in cleaning up these edges, so maximum pavement width is utilized and to ensure that the prime or tack coats will adhere. Reflective pavement markers and thermoplastic stripes and markings shall be removed when necessary.

CLIP EDGES OF PAVEMENT

1. Where no curbs exist, the edge of road shall be scraped to define the edge of pavement. The existing grass removed beyond the defined edge shall be kept to a minimum (approximately three inches [3"]).
2. The Contractor shall dispose of all loose material scraped within 48 hours of being clipped.
3. New sod will not be laid along the edge of pavement unless specified in the plans or may be installed in specific problem areas as determined by the City Engineer/Project Manager. In areas where sod is installed, the existing grass type shall be matched. Where there is not an established type, Argentine Bahia shall be used.

RECLAIMED PAVEMENT

1. Specific to this contract, existing asphalt pavement may be mixed (or reclaimed) into an existing road base where called for on the plans.

SPREADING AND MIXING

1. Once existing asphalt is mixed into the existing lime rock base of the road, it is graded to the minimum depth required to achieve six (6) inches to (8) inches of compacted mix, or as called for in the plans.
2. Mixing shall allow for uniform spread of mixed material within the lime rock base mix. Contractor must re-establish existing lines and grades.

COMPACTING AND FINISHING MIX BASE

1. Mix shall be graded back to original crown and shape and cut to a level that allows for the thickness of the final asphalt surface course in regard to existing utility structures, driveways, and curbs.
2. The reworked base mix shall be compacted to a density of not less than 98% of maximum density.
3. All excess material is considered to be Contractor's material and must be hauled off site to Contractor's own storage yard in a timely manner.
4. City property will not be used for storage of excess material.

DocuSign Envelope ID: 04EC6E26-C7A5-40CC-BC99-B16F9786D1C2

PRIME & TACK COAT

1. Prime or Tack Coat is incidental to other items of related work and shall be included in the price of the asphalt.

2. Prime and tack coats will be used on all roadway surfaces that the City of Ocala requires use on.

3. Tack coat shall be CRS-1h (trackless tack) to help reduce tracking onto existing streets

PAVING OF RECLAIMED ROADS

1. Reclaimed roads will be paved as soon as possible.

2. At no time will a reclaimed road be left in an unpaved status longer than seven (7) days once it has compacted and graded to finish grade.

ROOT REMOVAL

1. Removal of concrete sidewalk/driveway, removal of curb and excavation shall also include all costs for removal and disposal of roots that are encountered during these activities.

2. Roots will be removed to a distance that will allow for forms to be placed and not be interfered with.

GRASSING

1. Contractor shall repair sod-disturbed areas affected by their work as directed by the Engineer with a grass type that matches existing sod. In areas where there is not an established grass type, Argentine Bahia shall be used.

2. It is the intent of this specification that Contractor shall produce a satisfactory strand of grass, free of weeds and foreign growth. Contractor is responsible for sod for a minimum of sixty (60) days after installation. If sod does not flourish within the sixty (60) days Contractor will remove and replace sod at no additional cost to the City of Ocala.

CLEAN UP

1. During the progress of the work, the adjacent areas affected thereby shall be kept clean of all rubbish and surplus materials, unneeded construction equipment shall be removed, and all damage shall be repaired so the public and property owners will be inconvenienced as little as possible. The site of the work shall have a neat, orderly, and workmanlike appearance at all times.

2. When construction material or debris has washed, flowed, fallen, or been discarded into ditches, gutters, drains, catch basins, or elsewhere (either within the construction limits or on public or private property), as a result of Contractor operations, such material or debris shall be entirely removed and satisfactorily disposed of during progress of the work, and the ditches, channels, drains, etc., kept in a clean and neat condition. This operation is expected to be performed on a daily basis.

3. It shall be up to Contractor to restore all property, both public and private, which has been disturbed by the Contractor during execution of the contract. This shall include removal of all excess fills, sub-grade, lime rock, asphalt, and surface material which might be displaced off the roadway during construction. Contractor shall provide a site for dumping excess material. The use of private property as a construction storage or dumpsite is prohibited without providing the City Engineer/Project Manager with a written authorization form from the Property Owner.

G-107	**Decorative Stamp installed in concrete finish (City provides stamp)**	**EA**

Payment for this item shall be made at the unit price set forth in the Bid Schedule and shall constitute full compensation for all cost associated with installing a decorative stamp at each location as specified in the Contract Documents. (Each location may have up to two (2) stamps in a five feet by five feet (5' x 5') area.

G-108-1	**1" SCDH 40 PVC, Conduit, Furnish & Install**	**LF**
G-108-2	**2" SCDH 40 PVC, Conduit, Furnish & Install**	**LF**
G-108-3	**3" SCDH 40 PVC, Conduit, Furnish & Install**	**LF**
G-108-4	**4" SCDH 40 PVC, Conduit, Furnish & Install**	**LF**
G-108-5	**6" SCDH 40 PVC, Conduit, Furnish & Install**	**LF**

Payment for conduit items includes full compensation for equipment, labor and material necessary to execute the work as required by the plans and applicable City Standards. Payment includes trench excavation, installation of conduit, installation of necessary sweeps and 4' stub ups, pull strings, placement of warning tape, backfilling and compacting of trench and other work necessary for complete installation

***All other line items measurements and payments descriptions can be found in the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.**

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

Text of Legislative File 2023-1078

Submitted By: Paul Constable
Presentation By: Sean Lanier
Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Approve a two-year contract with C.W. Roberts Contracting, Inc. for the Transportation Rehabilitation Improvement Program with an aggregate expenditure not to exceed $5,000,000

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place, Operational Excellence

PROOF OF PUBLICATION:
Bid released to public: 2/23/2023 Newspaper ad posted: 2/28/2023

BACKGROUND:
This is a two-year contract with the possibility of two, one-year renewals for the reconstruction, rehabilitation, and resurfacing of paved streets and roads as identified by the City's Engineering Department for the Transportation Rehabilitation and Improvement Program (TRIP). The three types of rehabilitation utilized in the contract are reclamation, mill and pave, and overlay.

The scope for this contract includes but is not limited to: the removal and replacement of asphalt; concrete sidewalks; curb; asphalt stripping; asphalt milling; asphalt reclaiming; and all other facets that are included within the contract for the resurfacing and construction of roads and other projects that are assigned to the program.

Contract work is broken up into individual projects with purchase orders issued against the contract for each project throughout the contract period. The total amount to be spent on the contract is not expected to exceed $5,000,000 over the two-year period of the contract.

FINDINGS AND CONCLUSIONS:
On February 23, 2023, the City of Ocala issued an ITB CIP/230266 for the Transportation Rehabilitation Improvement Program. One bid was received on March 30, 2023. Bids were requested and received on a line-item price basis, then sample projects were used with submitted unit prices to determine low bid as follows:

Bidder Name & Office Location Total Bid Amount
C.W. Roberts Contracting, Inc. $738,265.36
Wildwood, FL.

C.W. Roberts Contracting, Inc. was the only bidder. This contractor has completed similar projects in the last five years for the City of Ocala and their experience is well documented. They currently hold the expiring TRIP contract and the new pricing that was submitted with their bid

falls in line with the 24% increase on contract pricing that Florida Department of Transpiration has experienced over the last year. Engineering recommends the approval of this contract.

FISCAL IMPACT:
Funding is available for FY2023 in G/L 091-020-255-541-54-46010 in the amount of $50,000 and 120-020-255-541-54-46010 in the amount of $1,500,000. Additional budgeted funds will be appropriated in the upcoming fiscal year as needed.

PROCUREMENT REVIEW:
These goods and services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

Department: Aviation

FORMAL TITLE:
Award of a 40-year Ground Lease Agreement to GLJ Aviation LLC

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence, Fiscally Sustainable

PROOF OF PUBLICATION:
Released to the Public: 3/28/26

BACKGROUND:
On March 28, 2024, the City advertised an opportunity to engage with parties qualified, capable, and willing to fund, design, develop, and operate a facility or enterprise that will serve or support operations at the Ocala International Airport in compliance with Federal Aviation Administration policies and Airport standards. The invitation to negotiate (ITN), ITN No. AIR/240448, stated that the City intended to enter negotiations with a developer, culminating in a 40-year lease of the subject property and addressing the parties' rights and obligations regarding the development of the subject City-owned property.

The solicitation closed on May 7, 2025. One response was received from GLJ Aviation LLC (the Developer). After reviewing the Developer's ITN response, the internal selection committee voted to recommend an award to GLJ Aviation LLC.

Using the lease agreement included in the ITN as the basis for negotiations, staff met with the Developer and agreed on the terms of the proposed long-term lease.

The "Hexaport," a hangar that was constructed in the early 1980s and leased to numerous entities over the years, recently had its 40-year ground lease expire. The property is currently on a month-to-month arrangement with the City and is wholly within the Option parcel identified in the proposed GLJ lease agreement. The City has long desired to redevelop the property, as the existing building configuration and operational use are not compatible with the larger aircraft activity surrounding the site. Staff has worked closely with the Hexaport occupants to facilitate an orderly and equitable transition. The GLJ lease allows for a 120-day due diligence time frame, along with 120 days to secure permitting. Collectively, these periods provide approximately eight

months prior to potential redevelopment activity on the site.

FINDINGS AND CONCLUSIONS:

- Maximum lease term of 40 years.
- Ground lease rate of $0.36 per square foot, increasing 3 percent annually beginning January 1, 2027, as established by the 2025 appraisal.
- Five-year right of first refusal on an adjacent parcel at a rate of $1,000 per acre, per year (approximately $3,000 annually).
- The Airport Advisory Board reviewed the proposal but had questions regarding the Option term.
- Staff recommends approval.

FISCAL IMPACT:

The primary lease parcel consists of approximately 67,860 square feet and is projected to generate approximately $24,429.60 during the first full lease year. The ROFR parcel is a little over three acres and generates approximately $3,000 in annual revenue while the Option is active. Estimated annual revenue for Fiscal Year 2026-27 is approximately $27,429.60 in account 451-362-000-000-02-31211.

PROCUREMENT REVIEW:

The underlying solicitation was conducted in compliance with the City's Procurement Policy.

LEGAL REVIEW:

This Agreement has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

GROUND LEASE AT AIRPORT

THIS LEASE is entered into effective _____, 2026 ("Effective Date"), between City of Ocala, a Florida municipal corporation ("Landlord"), and _____, a _____ ("Tenant").

NOW, THEREFORE, in consideration of the mutual covenants set forth herein, and other good and valuable consideration (the receipt and sufficiency of which is hereby acknowledged), the parties do hereby agree as follows:

1. Lease of Premises.

1.1. Landlord leases to Tenant, and the Tenant leases from Landlord, real property located in Marion County, Florida, and all improvements now or hereafter located thereon (collectively the "Premises") as follows: The real property ("Property") described in the attached **Exhibit A** and consisting of approximately _____ acres.

1.2. The Premises are located at the Ocala International Airport ("Airport") owned and operated by Landlord.

1.3. This Lease includes the right of ingress and egress to and from the Premises by means of existing means of ingress and egress across the Airport to be used in common with others having similar rights of passage thereon (except when the Airport is closed to the public). The use of any such means of ingress and egress is subject to the present and future rules and regulations of the Airport. Landlord may, at any time, temporarily or permanently close such means of ingress and egress so long as an alternative means of ingress and egress remains available to Tenant. Tenant shall not do or permit anything to be done which will interfere with the free access and passage of others to space adjacent to the Premises or in any streets near the Premises.

2. Option for Additional Parcel. For a period of five (5) years commencing on the Effective Date of this Lease (the "Option Period"), Tenant shall have a continuing option to lease that certain parcel of land adjacent to the Premises and more particularly described on Exhibit [__] attached hereto and incorporated herein (the "Option Parcel"), provided, however, that if this Lease is terminated during the Feasibility Study Period pursuant to Section 4, this Section shall automatically terminate and be of no further force or effect. If at any time during the Option Period Landlord receives a bona fide written proposal or offer from a n unaffiliated third party in an arm's-length transaction to lease the Option Parcel that Landlord is willing to accept, Landlord shall first give written notice to Tenant setting forth all material terms of such proposed lease, together with a complete copy of the applicable written proposal or offer, including, without limitation, the term, rent, permitted use, commencement date, renewal rights, tenant improvement rights or obligations, and any other material economic or operational terms. Tenant shall have thirty (30) days after receipt of such notice, which period shall not commence unless such notice includes all required information, within which to elect, by written notice to Landlord, to lease the Option Parcel upon the terms set forth in Landlord's notice. If Tenant timely exercises its option, Landlord and Tenant shall execute a lease amendment or separate lease for the Option Parcel incorporating such terms within thirty (30) days after Tenant's election. If Tenant fails timely to exercise its option, Landlord may lease the Option Parcel to such third party upon terms not more favorable in any respect to such third party, and not materially different in any respect, than those offered to Tenant. If Landlord does not

enter into such lease within one hundred eighty (180) days after Tenant declines or fails to exercise, or if the terms offered to the third party are materially changed or become more favorable to the third party, then Tenant's option shall be deemed reinstated in full, and Landlord shall again comply with this Section before leasing the Option Parcel. Landlord shall not structure, divide, combine, or otherwise alter a proposed transaction involving the Option Parcel for the purpose of avoiding Tenant's rights under this Section.

2.1 In the event that Tenant exercise the aforementioned option for the Option Parcel, Landlord and Tenant shall enter into a new, separate written lease agreement for the Option Parcel which shall be under substantially similar terms and conditions as this Lease.

2.2 Landlord and Tenant understand, acknowledge and agree that the Option Parcel:

2.2.1 Is approximately 134,000 square feet or 3.07 acres in size;

2.2.2 Is currently improved by a physical structure with six bays/hangars which is commonly referred to as the "hexaport";

2.2.3 Said hexaport is currently the subject of a lease agreement between the City of Ocala and the Hexaport tenant which has a six-month term and which is subject to termination by the City upon not more than six months' notice such that it could be made available to Tenant in approximately that time period; and

2.2.4 Upon exercise by Tenant of the Option as outlined above and herein, the Option Parcel would be leased to Tenant with the aforementioned hexaport improvement which may, at the sole and exclusive discretion of Tenant, be utilized by Tenant or demolished by Tenant.

2.3 In consideration for the aforementioned option, Tenant shall pay to Landlord an annual fee in the amount of One Thousand U.S. Dollars ($1,000.00) per acre (the "Option Fee") and Tenant shall pay to Landlord said Option Fee on each subsequent anniversary of the Effective Date of this Lease.

3. Term.

3.1. The term of this Lease is thirty (30) years, beginning on May 1, 2026, and ending at 5:00 pm on April 30, 2056.

3.2. So long as Tenant is not in default under this Lease, Tenant has the right to renew the term of this Lease for two (2) additional terms of five (5) years each. Each renewal shall automatically occur unless Tenant gives written notice of non-renewal to Landlord at least 180 days prior to the expiration of the initial term of this Lease (as to the first renewal) or any then-current renewal term (as to any subsequent renewal). All terms and conditions that govern the initial term shall govern any renewal term, except as expressly set forth herein.

4. Feasibility Study. Tenant may, during the period commencing with the execution of this Lease by Tenant and concluding one hundred twenty (120) days after the Effective Date (the "Feasibility Study Period"), determine whether the Property is suitable, in Tenant's sole and absolute discretion,

for Tenant's use. Tenant may conduct a Phase I environmental assessment and any other tests, analyses, surveys and investigations ("Inspections") that Tenant deems necessary to determine, to Tenant's satisfaction, the Property's engineering, architectural and environmental properties; zoning and land use restrictions; subdivision status; soil and grade; availability of access to public roads, water and other utilities; consistency with local, state and regional growth management plans; availability of permits, governmental approvals and licenses; and other Inspections that Tenant deems appropriate to determine the Property's suitability for the Tenant's intended use. Landlord gives Tenant, its agents and other representatives, the right to enter the Property at any time during the Feasibility Study Period for the purpose of conducting Inspections. Landlord shall fully cooperate with Tenant and its professionals in connection with the foregoing. Tenant shall deliver written notice to City prior to the expiration of the Feasibility Study Period if Tenant determines the Property is not acceptable, in which event this Lease shall be deemed canceled and of no further effect.

5. Rent.

5.1. During the term of this Lease, Tenant shall pay monthly rent as follows:

5.1.1. Tenant shall commence paying monthly rent upon issuance of a Certificate of Occupancy for the hangar to be constructed thereon by Tenant, or One Hundred and Eighty (180) days after issuance of all permits by all governmental agencies necessary to allow such construction, whichever shall first occur. In connection therewith:

a. Tenant shall apply for all necessary permits for the hangar within ninety (90) calendar days after approval of this Lease by the Landlord and make good faith efforts to obtain all necessary permits as soon as possible.

b. Tenant shall commence construction of the hangar within one hundred eighty (180) days of issuance of such permits, subject to extension for Force Majeure.

c. Tenant shall complete construction of the hangar within eighteen (18) months after issuance of such permits.

5.1.2. Tenant shall pay monthly rent, after the date that rent payments are to commence pursuant to paragraph 4.1.1, in the following amounts:

a. Until December 31, 2026, the monthly rent shall be _____ ($__.__) per month, which amount shall be adjusted at the time that a Certificate of Occupancy is issued. The rate at the time that the Certificate of Occupancy is issued shall be based upon a constructed building footprint with a rate of THIRTYTHIRTY-SIX U.S. CENTS ($00.36) per square foot; and

b. Commencing on January 1, 2027, and on each January 1 thereafter, the monthly rent shall be increased by an amount equal to three (3%) percent of the prior year's monthly rent.

5.2. The monthly rent is payable without Landlord's demand on the first day of each calendar month during the Lease term. If rent payments commence on a day other than the first day

of a calendar month, or terminate on a day other than the last day of a calendar month, the rent will be prorated on a daily basis.

5.3. All rent payable under this Lease shall be paid to Landlord without set-off or withholding for any reason and shall be mailed or delivered to Landlord at Landlord's address as set forth elsewhere in this Lease, or such other address of which Landlord shall notify Tenant, so that it is received prior to the date it is due.

6. Additional Payments.

6.1. Additional Rent Payments. In addition to the rent under paragraph 4, all other payments that the Tenant is obligated to make under this Lease are considered additional rent, regardless of whether the payments are so designated. All additional payments are due and payable at the time the Landlord demands payment or at the time the next succeeding rent installment is due, whichever occurs first. Landlord shall have the same remedies for Tenant's failure to pay additional rent as it does for Tenant's failure to pay monthly installments of rent. All further references to "rent" shall include both monthly installments of rent and additional rent. The provisions of this paragraph shall apply only concerning remedies, and not concerning rent upon which sales and use taxes are to be calculated or paid.

6.2. Utility or Service Charges. The Tenant agrees to pay all charges for gas, electricity or other illumination, heating, air conditioning, water, sewer, telephone service and other utilities attributed to the Premises.

6.3. Ad Valorem Taxes and Assessments.

6.3.1. Tenant shall pay as additional rent during the term of this Lease all ad valorem and real property taxes and all special assessments levied or assessed by any lawful authority against the Premises. In the event any governmental authority having jurisdiction shall levy any general or special assessment against the Premises, Tenant shall also pay to Landlord as additional rent such assessment. Landlord shall have the option to take the benefit of any statute or ordinance permitting any such assessment for public betterments or improvements to be paid over a period of time in which case the Tenant shall be obligated to pay only the said fraction of the installments of any such assessments which shall become due and payable during the term of this lease.

6.3.2. Landlord may, at its sole discretion, estimate the taxes and assessments referred to in this paragraph 5 and require Tenant to pay one-twelfth (1/12th) thereof monthly in advance, together with the payment of fixed minimum annual rent. After the end of each Lease year, Landlord shall furnish Tenant a statement of the actual taxes and assessments, and there shall be an adjustment between Landlord and Tenant with payment to or repayment by Landlord, as the case may require, to the end that Landlord shall receive the entire amount of Tenant's proportionate share for such annual period.

6.4. Sales and Use Taxes. At the time rent payments are made, the Tenant agrees to pay to the Landlord any sales and use taxes that arise because of payment of rent to the Landlord.

6.5. Past Due Rent. If any monthly rental payment is not paid on or before the tenth (10th) day of each month, such payment shall bear interest at ten percent (10%) per annum. A payment is considered late if received ten (10) business days or more after such payment is due. (This is not a grace period; any payment not received when due is a default.) If payment made by check is dishonored by Tenant's bank, the amount due shall be deemed a "late payment" and treated as set forth herein.

6.6. Amounts Advanced by Landlord. Any amount advanced by Landlord pursuant to the terms and provisions of this Agreement shall be repaid to Landlord by Tenant by the first of the calendar month following the date of such advance unless otherwise specifically provided in this Agreement.

6.7. Tenant's Taxes. Tenant further covenants and agrees to pay promptly when due all taxes assessed against all fixtures, furnishings, equipment and stock-in-trade placed in or on the Premises during the term of this Lease.

7. Landlord's Services, Utilities and Taxes.

7.1. Tenant shall obtain, at its sole cost and expense, all utilities (e.g., without limitation, electricity, telephone, water, sewer, and trash collection services) service for the Premises. Tenant shall be responsible for all costs associated with extending utility lines from their current point of termination to improvements to be constructed by Tenant hereunder.

7.2. Landlord shall, at its sole cost, design, construct, and maintain the access road serving the rear/southern boundary of the Premises.

7.3. Landlord shall cooperate in good faith with Tenant, at no out-of-pocket cost to Landlord, in connection with obtaining utility easements and extensions across Airport property as reasonably necessary to serve the Premises.

7.4. Landlord shall not be liable for full or partial stoppage or interruption of the above services or utilities unless such stoppage or interruption is caused by the negligence or willful misconduct of Landlord, its agents, or employees. In such event, Landlord shall promptly restore such services at its sole cost, and if any such interruption continues for more than five (5) consecutive business days, monthly rent shall abate on a per diem basis until services are restored.

8. Use of Premises.

8.1. Tenant shall have the right to use the Premises for the following and for no other purpose without Landlord's prior written consent, which consent may be withheld by Landlord in its sole discretion:

8.1.1. Storage and maintenance of aircraft that are either owned or leased by Tenant.

8.1.2. Storage of aviation fuel, lubricants, aircraft parts and other items of personal property necessary for Tenant's use to maintain and operate aircraft owned or leased by Tenant, provided that all such items of personal property, other than gasoline, shall be contained within improvements to be constructed by Tenant on the Premises. No explosives or combustible materials will be permitted within or about any improvements except for fuel in aircraft tanks or small containers of

lubricants, cleaning materials, and other aviation-related materials stored in containers or cabinets that have been approved by the EPA or local Fire Marshall.

8.1.3. Construction on the Premises of private offices attached to hangar. If offices are to be open to the public, tenant agrees to construct all necessary security measures to prevent the general public from accessing the Airport Operations Area.

8.1.4. Tenant may use the Premises for the storage, maintenance, and operation of aircraft and for related aviation-commercial activities, subject to applicable Airport rules, FAA requirements, and SASO minimum standards.

8.1.5. At the discretion of the Landlord (which may be withdrawn at any time), nonexclusive use of all airport facilities which are not specifically leased to other tenants under private leases.

8.2. Tenant shall not sell nor dispense from mobile fuelers or other typical fueling devices without the express written permission from the Airport Director, which may be withheld or conditioned in the Airport Director's sole discretion, aviation fuels of any kind upon the Premises or otherwise at the Airport.

8.3. No outside storage shall be allowed. All areas not paved or covered by the Improvements shall be grassed and landscaped as approved.

8.4. Tenant agrees that no business shall be carried on, nor any act or acts done or permitted to be done on the Premises that in any manner conflicts with any applicable valid law or regulation of the City of Ocala, Marion County, State of Florida, and the United States of America or any department, bureau or agency thereof.

8.5. Tenant will not do or suffer to be done in or upon the Premises any act or thing which amounts to a nuisance or creates waste to the Premises.

8.6. Tenant shall not produce any disturbances on any Airport property that interferes with the operation by the Landlord or the Federal Aviation Administration of air navigational communications or flight equipment on the Airport.

8.7. Tenant shall comply with all present and future written instructions of the Landlord in disposing of its trash and refuse at Tenant's expense and shall use a system of refuse disposal approved by the Landlord.

8.8. Tenant shall not do nor permit to be done any act or thing upon the Premises, which may constitute a hazardous condition so as to increase the risks attendant upon the operations permitted by this Lease.

8.9. Nuisance/Hazardous Substances.

8.9.1. Tenant shall not commit any nuisance, nor permit the admission of any objectionable noise, or odor, nor burn any trash or refuse within the Premises, nor bring on, deposit or allow to be brought on or deposited on the Premises any asbestos materials or any other Hazardous Substance or materials as the same may be defined by State, Federal or local laws, rules, statutes, or regulations; nor make

any use of the Premises or any part thereof or equipment therein which is improper, offensive or contrary to any law.

8.9.2. Tenant shall not cause or commit any Hazardous Substance to be used, stored, generated or disposed of on or in the Premises by Tenant, Tenant's agents, employees, contractors, or invitees, without first obtaining Landlord's written consent. If Hazardous Substances are used, stored, generated, or disposed of on or in the Premises except as permitted above, or if the Premises become contaminated in any manner for which Tenant is legally liable, Tenant shall indemnify and hold harmless the Landlord from any and all claims, damages, fines, judgments, penalties, costs, liabilities or losses (including, but without limitation, a decrease in value of the Premises, damages due to loss or restriction of rentable or usable space, or any damages due to adverse impact on marketing of the space, and any and all sums paid for settlement of claims, attorneys' fees, consultant and expert fees, and costs) arising during or after the Lease Term and arising as a result of such contamination by Tenant. Without limitation of the foregoing, if Tenant causes or permits the presence of any Hazardous Substance on the Premises and such results in contamination, Tenant shall promptly, at its sole expense, take any and all actions necessary to return the Premises to the condition existing prior to the presence of any such Hazardous Substance on the Premises. Tenant shall first obtain Landlord's approval for any such remedial action.

8.9.3. As used herein "Hazardous Substance" means any substance which is toxic, ignitable, reactive, or corrosive and which is regulated by any local government, the State of Florida, or the United States Government. "Hazardous Substance" includes any and all material or substances which are defined as "Hazardous Substance" pursuant to State, Federal, or local government law. "Hazardous Substance" includes, but is not restricted to, asbestos, polychlorobipenyls ("PCB's") and petroleum.

9. Improvements.

9.1. Tenant's Right to Construct Buildings and Other Improvements.

9.1.1. Tenant shall have the right to construct structures, buildings, and other improvements, including without limitation a hangar with ancillary office, ("Improvements") on the Premises, at Tenant's sole cost and expense, pursuant to paragraph 7 above. In connection with any construction, Tenant shall be permitted to grade, level, and fill the land, remove trees and shrubs, install roadways and walkways, and install utilities, provided all of the foregoing serve the Improvements erected on the Premises. Landlord shall have no liability for any costs or expenses in connection with the construction of Improvements on the Premises. All improvements shall be in accordance with the applicable building codes and other laws and ordinances.

9.1.2. Tenant shall submit plans to Landlord in advance of construction of any proposed Improvements before construction may begin. Plans shall reasonably comply with existing improvements of others at the Airport. Approval of said plans shall not be unreasonably delayed or withheld. Tenant shall not be required to apply for permits until the plans are approved by the Landlord.

9.1.3. Landlord shall cooperate with Tenant to facilitate timely execution of required documents, permits, legal descriptions, permit approvals or other matters requiring Landlord's consent.

9.2. Signage. Tenant may display in, on, or above the Premises any sign or decoration, the nature of which is permitted by applicable law and is not dangerous, unsightly or detrimental to the Premises. At the termination of this Lease, Tenant shall if so requested by landlord, remove any signs it has placed on the Premises, repairing any damage caused thereby.

9.3. Fencing. Tenant acknowledges that all fencing must comply with applicable security requirements.

9.4. Tenant's Delivery of Possession After Termination or Expiration.

9.4.1. On the expiration or early termination of this Lease (the "Expiration Date"), Tenant shall promptly quit and surrender the Premises and Improvements, and deliver to Landlord actual possession and ownership of the Premises and Improvements in good order, condition, and repair.

9.4.2. Tenant shall have the right to remove from the Premises and Improvements all movable trade fixtures, movable equipment, and articles of personal property used or procured for use in connection with the operation of its business on or before the Expiration Date, provided that Tenant shall promptly repair, or cause to be repaired, any damage resulting to the Premises or Improvements by reason of this removal. Any trade fixtures, equipment, or articles of personal property of Tenant that remain at or on the Premises after the Expiration Date shall be deemed to have been abandoned by Tenant, and may either be retained by Landlord as its property or disposed of by Landlord without accountability to Tenant for the value of these trade fixtures, equipment, or articles of personal property, or any proceeds derived from the sale of these items.

10. Condition of Premises.

10.1. Tenant's Acceptance and Maintenance of Premises. UPON TENANT'S OCCUPANCY OF THE PREMISES, TENANT WILL BE DEEMED TO HAVE ACCEPTED THE PREMISES IN THE CONDITION THEY ARE IN ON THAT DATE "AS IS" AND WITH NO ADDITIONAL WARRANTIES, EXCEPT AS EXPRESSLY SET FORTH HEREIN. Subject to Landlord's obligations set forth in this Lease, Tenant agrees to maintain the Premises in the same condition, order, and repair as they are on that date, except for reasonable wear and tear arising from the use specified in this Lease.

10.2. Obligations to Repair.

10.2.1. Tenant shall, at its own expense and risk, maintain the Premises and all Improvements in good repair and condition at all times, including, without limitation, the interior and exterior of the Premises and Improvements, the roof, exterior walls and air-conditioning system. Tenant shall keep the Premises and Improvements in a clean, sanitary and safe condition at all times. The plumbing and other facilities shall not be used for any other purposes than that, for which they were constructed, and no foreign substances of any kind shall be deposited in

the plumbing or other facilities, and the expense of any breakage, stoppage or damage resulting from the violation of this provision by Tenant shall be borne by the Tenant. In the event Landlord incurs any expense for repairs or maintenance that are the duty of Tenant to perform, Landlord may demand repayment of same from Tenant, and Tenant shall make payment within ten days after the demand as additional rent.

10.2.2. Landlord shall not be liable for any damage or inconvenience that may arise through repair or alterations of any part of the Premises or Improvements, except to the extent such damage or inconvenience results from the negligence or willful misconduct of Landlord, its employees, agents, or contractors.

10.2.3. Tenant shall replace all electric light bulbs and tubes in the electrical fixtures in the Premises or Improvements as shall be necessary.

10.2.4. If Tenant fails to perform its obligations to repair or maintain according to the provisions of the preceding subparagraphs above within a reasonable time after notice from Landlord of the need for such repair or maintenance (or immediately if the failure to perform repairs or maintenance endangers the safety of persons or property), Landlord may, in addition to all other remedies available under this Lease, make the repairs or perform the maintenance, or have the repairs made or maintenance performed at its own expense. Tenant shall, within ten (10) days of Landlord's demand, reimburse Landlord for the reasonable expense of the repair or maintenance.

10.3. Damage to Premises. On the Landlord's demand, the Tenant shall pay for all damages the Premises, the Improvements or any portion thereof that are caused by the act or neglect of the Tenant, its invitees, or any persons in the Tenant's employ or control.

10.4. Condition at End of Term. At the earlier of the expiration of the Lease term or the termination of this Lease, the Tenant will quit the Premises and will surrender them to the Landlord. The Tenant will remove all personal and other property that belongs to the Tenant under this Lease and will repair all damages to the Premises or Improvements caused by that removal.

10.5. Landlord Not Responsible. Except for the negligence of Landlord or Landlord's employees, agents or contractors, Landlord shall not be responsible for any damage to property of Tenant or of others located in or about the Premises nor for the loss of or damage to any property of Tenant or of others by theft or misappropriation or otherwise. Landlord shall not be liable for any injury or damage to persons or property resulting from fire, explosion, falling plaster, steam, gas, electricity, water, rain or leaks from any part of the Premises or from the pipes, appliances or plumbing works or from the roof, street or subsurface or from any other place or by dampness or by any other cause of whatever nature. Landlord shall not be liable for any such damage caused by occupants of adjacent property, occupants of the Improvements, or the public.

11. Entry and Inspection of Premises.

11.1. The Landlord is entitled to enter the Premises during all reasonable hours, upon reasonable notice to Tenant for the following reasons:

11.1.1. To provide services, fulfill other obligations or exercise rights hereunder.

11.1.2. To examine the Premises.

11.1.3. To make all repairs, additions, or alterations that the Landlord or agent deems necessary for safety, comfort, or preservation of the Premises or of the building.

11.1.4. To remove signs, fixtures, alterations, or additions that do not conform to this Lease.

11.2. Landlord shall have the right to use any means that Landlord may deem proper to open doors in an emergency situation that is immediately jeopardizing persons or property in order to reasonably obtain entry to the Premises. In all non-emergency circumstances, Landlord shall provide reasonable prior notice and obtain Tenant's consent (not to be unreasonably withheld). Tenant waives any claim for damages for any injury or inconvenience to or interference with Tenant's business, any loss of occupancy or quiet enjoyment of the Premises, and any other loss in, upon, or arising from Landlord's entry onto the Premises in such an emergency.

11.3. Any entry to the Premises obtained by Landlord for any of the above stated purposes and by any of such means, or otherwise, shall not be construed or deemed a forcible or unlawful entry onto the Premises, or an eviction of Tenant from the Premises or any part of the Premises.

11.4. In the event that any personal property of Tenant shall obstruct the access of the Landlord, its officers, employees, agents or contractors or the utility company furnishing utility service to any of the existing utility, mechanical, electrical and other systems and thus shall interfere with the inspection, maintenance or repair of any such system, Tenant shall move such property as directed by Landlord or such utility company in order that access may be had to the system or part thereof for inspection, maintenance or repair. If Tenant shall fail to so move such property, after direction from the Landlord or such utility company to do so, the Landlord or the utility company may move it and Tenant hereby agrees to pay the cost of such moving upon demand. The exercising of this right of the Landlord shall not be construed to be an eviction of Tenant, nor be made the grounds for any abatement of rental.

12. Insurance, Indemnity.

12.1. Indemnification.

12.1.1. Tenant shall hold the Landlord harmless from, and indemnify Landlord against, any and all liability, damages, out of pocket costs and reasonable attorneys' fees, injury, actions or causes of action whatsoever:

a. Suffered or occasioned upon the Premises or arising out of the operation, conduct and use of the Premises, except those caused or created by Landlord, or its agent, employees or contractors;

b. For any injury to or death of any person or persons or damage to property caused by the negligence or willful misconduct of Tenant, or its invitees, agents or employees, or by a default by Tenant under this Lease; or

c. Resulting from any generation, use, treatment, storage or release of any hazardous or toxic materials or substances or wastes at the Premises by Tenant or its agents during the Lease term or resulting from any violation during the Lease term of any environmental laws, rules or regulations applicable to the Premises or any operation conducted thereon.

12.1.2. Tenant's grant of indemnity to Landlord hereby survives expiration of this Lease.

12.2. Defense of Landlord. In the event any action or proceeding shall be brought against Landlord by reason of any matter for which Landlord is indemnified hereunder, Tenant shall, upon notice from Landlord, at Tenant's sole cost and expense, resist and defend the same, provided however, that Tenant shall not admit liability in any such matter on behalf of Landlord without the written consent of Landlord and provided further that Landlord shall not admit liability for, nor enter into any compromise or settlement of, any claim for which they are indemnified hereunder, without the prior written consent of Tenant which may not be unreasonably withheld.

12.3. Disclaimer of Liability. Landlord shall not be liable for injury or damage occurring to any person or property arising out of this Lease, or as a result of Tenant's possession of the Premises, including, without limitation, harm or personal injury to Tenant or third persons during Tenant's possession of the Premises or the term of this Lease, except in the event any such injury or damage is caused as the direct result of Landlord's gross negligence or willful misconduct.

12.4. Notice, Cooperation, and Expenses.

12.4.1. Landlord shall give Tenant prompt notice of the making of any claim or the commencement of any action, suit or other proceeding covered by the provisions of this paragraph. Nothing herein shall be deemed to prevent Landlord from cooperating with Tenant and participating in the defense of any litigation by Landlord's own counsel. Tenant shall pay all reasonable expenses incurred by Landlord in response to any such action, suits, or proceedings. These expenses shall include all out-of-pocket expenses such as reasonable attorney fees and shall also include the reasonable value of any services rendered by Landlord's attorney, and the actual expenses of Landlord's agents, employees, or expert witnesses, and disbursements and liabilities assumed by Landlord in connection with such suits, actions, or proceedings but shall not include attorney's fees for services that are unnecessarily duplicative of services provided Landlord by Tenant.

12.4.2. If Tenant requests Landlord to assist it in such defense then Tenant shall pay all expenses incurred by Landlord in response thereto, including defending itself with regard to any such actions, suits, or proceedings. These expenses shall include all out-of-pocket expenses such as reasonable attorney fees and shall also include the costs of any services rendered by Landlord's attorney, and the actual expenses of Landlord's agents, employees, or expert witnesses, and disbursements and liabilities assumed by Landlord in connection with such suits, actions, or proceedings.

12.4.3. Tenant shall give Landlord prompt notice of the making of any claim or the commencement of any action, suit or other proceeding covered by the provisions of this paragraph.

12.5. General Liability Insurance. Tenant shall maintain during the entire Agreement term and all periods in which Tenant is in possession of the Premises, such general liability insurance as will provide coverage for claims for damages for personal injury, including accidental death, as well as for claims for property damage, which may arise directly or indirectly from the Premises or Tenant's possession of the Premises, with combined single limits of not less than $200,000.00 per occurrence and with a $1,000,000.00 aggregate. The "City of Ocala" shall be named as an Additional Insured.

12.5.1. If the Commercial General Liability form is used:

a. Coverage A shall include premises, operations, products and completed operations, independent contractors, contractual liability covering this contract and broad form property damage coverages.

b. Coverage B shall include personal injury.

c. Coverage C, medical payments, is not required.

12.5.2. If the Comprehensive General Liability form is used, it shall include, at least Bodily Injury and Property damage liability for premises, operations, products and completed operations, independent contractors and property damage resulting from explosion, collapse or underground (XCU) exposures.

12.5.3. Tenant shall arrange for its liability insurances to include, or be endorsed to include, a severability of interest/cross liability provision, so that Landlord (as Additional Insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

12.6. Property Insurance. At all times during the term of this Agreement, Tenant shall maintain, at its sole cost, All Risk Replacement Cost insurance covering the Premises including, without limitation, all improvements, together with any other insurance that Landlord may require from time to time. The insurance shall be carried by insurance companies authorized to transact business in Florida, selected by Tenant and approved by Landlord. In addition, the following conditions shall be met:

12.6.1. The insurance shall be in amounts no less than one hundred percent (100%) of the replacement cost of the buildings and other improvements located on the Premises (but sufficient to satisfy the requirements of any coinsurance clause).

12.6.2. The insurance shall be maintained for the mutual benefit of Landlord and Tenant. The insurance policy or policies shall name both Landlord and Tenant as insureds as their interests may appear.

12.6.3. Any and all fire or other insurance proceeds that become payable at any time during the Term of this Lease because of damage to or destruction of any Improvements on the Premises shall be paid to Tenant in trust and applied by Tenant toward the cost of repairing, restoring, and replacing the damaged or destroyed Improvements in the manner required by paragraph 17 of this Lease.

a. Proceeds shall be applied first toward the reduction of the unpaid principal balance of any and all obligations secured pursuant to paragraph 15.2 of this Lease.

b. The balance of the proceeds, if any, shall be paid to Landlord to compensate Landlord, at least in part, for the loss to the fee estate of value of the damaged or destroyed Improvements.

12.7. Construction Insurance. Tenant shall, at its sole expense, procure and maintain during the course of the construction of any improvement or alterations on the Premises constructed during the term of this Lease, "builder's risk," owner's contingent or protective liability insurance naming Landlord as an additional insured covering claims not covered by or under the terms of the above mentioned comprehensive public liability insurance, and Tenant shall also carry during such period of construction Worker's Compensation Insurance covering all persons employed by Tenant on or in connection with such construction.

12.8. Aviation Liability Insurance. At all times during the term of this Agreement, Tenant shall maintain, at its sole cost, Aviation Liability insurance with combined single limits of not less than $200,000.00 per occurrence, $1,000,000.00 aggregate, and is to include bodily injury and property damage liability arising out of the operation, maintenance or use of any aircraft, including, owned, non-owned and hired aircraft.

12.9. Deductibles. Tenant's deductibles or self-insured retentions shall be disclosed to Landlord and may be disapproved by the latter. They shall be reduced or eliminated at the option of Landlord upon recommendation of Landlord's Risk Management Department. The Tenant is responsible for the amount of any deductible or self-insured retention.

12.10. Insurance Requirements. These insurance requirements shall not relieve or limit the liability of Tenant. Landlord does not in any way represent that these types or amounts of insurance are sufficient or adequate to protect Tenant's interests or liabilities, but are merely the minimums. No insurance is provided by Landlord under this Lease to cover Tenant or its contractors or sub-contractors.

12.11. Duplicate Insurance. Insurance required of Tenant or any other insurance of Tenant which covers Landlord shall be considered primary, and insurance or self-insurance of Landlord shall be considered excess, as may be applicable to claims against Landlord which arise out of this Lease.

12.12. Certificates. Tenant shall provide a Certificate of Insurance issued by a company authorized to do business in the State of Florida and with an A.M. Best rating of at least B+, which provide for at least 30 days' notice of cancellation to be given to City. Such Certificate shall be delivered to: City of Ocala, 110 SE Watula Ave, Attention Procurement Manager, Ocala, FL 34478.

12.13. Landlord May Change Limits. Landlord reserves the right to increase or decrease, or expand or narrow, the minimum limits or amounts of insurance requirements set forth above to conform to changes in Landlord's liability under Florida law (including the Florida Tort Claims Act), provided (i) any such change shall be commercially reasonable and consistent with limits required of similarly situated tenants at the Airport, (ii) Landlord

shall provide Tenant not less than one hundred twenty (120) days' prior written notice, and (iii) Tenant shall have a reasonable opportunity to obtain conforming coverage at renewal.

12.14. Failure to Provide Insurance. In the event that Tenant shall fail to obtain or maintain in full force and effect any insurance coverage required to be obtained by Tenant under this Agreement, Landlord may procure same from such insurance carriers as Landlord may reasonably deem proper, irrespective that a lesser premium for such insurance coverage may have been obtained from another insurance carrier, and Tenant shall pay as additional rent, upon demand of Landlord, any and all premiums, costs, charges and expenses incurred or expended by Landlord in obtaining such insurance. Notwithstanding the foregoing sentence, in the event Landlord shall procure insurance coverage required of Tenant hereunder, Landlord shall in no manner be liable to Tenant for any insufficiency or failure of coverage with regard to such insurance or any loss to Tenant occasioned thereby, and additionally, the procurement of such insurance by Landlord shall not relieve Tenant of its obligations under this Agreement to maintain insurance coverage in the types and amounts herein specified, and Tenant shall nevertheless hold Landlord harmless from any loss or damage incurred or suffered by Landlord from Tenant's failure to maintain such insurance.

12.15. Safety/Environmental.

12.15.1. Tenant is responsible at all times for precautions to achieve the protection of all persons including employees, and property.

12.15.2. Tenant shall make special effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury or property damage. NFPA, EPA, DEP, and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. All hazardous material spills, accidents, injuries or claims or potential claims shall be immediately reported promptly to Landlord's Risk Management Department.

12.16. Miscellaneous.

12.16.1. Tenant shall be responsible for carrying such insurance as Tenant may desire to protect Tenant's own equipment, contents, personal property and other property on the Premises, and business loss insurance

12.16.2. Tenant may not perform or fail to do any act with respect to the Premises, may not use or occupy the Premises, and may not conduct or operate the Tenant's business, in any manner that is objectionable to the insurance companies, it causes them to void or suspend any insurance, or that causes them to increase the premiums above the amounts that would usually have been in effect for the occupancy under this Lease. Tenant may not permit or suffer another person to do so with respect to the Premises.

13. Liens and Mortgages on Premises.

13.1. Construction Liens Incurred by Tenant. The Tenant shall not subject the Landlord's interest or estate to any liability under any construction or other lien law. No provisions of this Lease may be construed as to imply that the Landlord has consented to the Tenant incurring such a lien. If any construction lien, lis pendens, or other lien is filed against the Premises or the building for any work, labor, services, or materials that a lienor claims to

have performed or furnished for the Tenant or any person holding through or under the Tenant, the Tenant must cause that lien to be canceled and discharged of record within twenty days after the Landlord gives notice to the Tenant. If such a lien is filed, the Landlord may satisfy the lien after giving notice to the Tenant as provided in this paragraph and without limiting the Landlord's rights or remedies under this Lease. The Tenant shall promptly reimburse the Landlord for any amounts expended to satisfy the lien and for any expenses incurred in connection with that satisfaction. The Tenant has no right of setoff against the Landlord. The Tenant's failure to cancel and discharge of record any lien under to this paragraph is a default by the Tenant under the provisions of this Lease.

13.2. Leasehold Mortgages Permitted.

13.2.1. Landlord acknowledges and agrees that Tenant shall have the right to finance its interest in this Lease including, without limitation, the cost of constructing the Improvements. Landlord agrees that notwithstanding any other provision of this Lease, either express or implied, to the contrary, such financing may be in the form of a mortgage, including, in connection therewith, a collateral assignment of this Lease, or other forms of financing utilized by Tenant from time to time (collectively, "Leasehold Mortgage"). Any such leasehold financing shall be subordinate to this Lease and shall not allow the holder of the Leasehold Mortgage ("Leasehold Mortgagee") to eliminate or damage Landlord's reversionary interest in the Improvements.

13.2.2. After the recording of any Leasehold Mortgage made by Tenant, notwithstanding anything to the contrary contained in this Lease, so long as such Leasehold Mortgage is a lien on the leasehold estate of Tenant hereunder and Landlord has actually received from such Leasehold Mortgagee or from the Tenant written notice of the Leasehold Mortgage together with the identity of and the address of the Leasehold Mortgagee, Landlord and Tenant agree as follows:

a. If Tenant or any mortgagee under a Leasehold Mortgage ("Leasehold Mortgagee") has delivered to Landlord prior written notice of the address of such Leasehold Mortgagee, Landlord shall deliver to such Leasehold Mortgagee a copy of any notice given under this Lease in the same manner and at the same time such notice is delivered by Landlord to Tenant. Landlord agrees that no notice of default, termination of this Lease or termination of Tenant's right to possession of the Premises, and no reletting of the Premises by Landlord predicated on the giving of any such notice, shall be effective unless Landlord gives the Leasehold Mortgagee written notice (or a copy of the notice given to Tenant) of the default termination or re-entry, as the case may be, and the Leasehold Mortgagee shall have the rights set forth in this subparagraph, with regard thereto.

b. In the event of a default by Tenant under this Lease, the Leasehold Mortgagee shall have the same periods to cure a default following Leasehold Mortgagee's receipt of written notice as are provided to Tenant in paragraph 15.1 of this Lease (the "Cure Period"). If Tenant defaults under any provision of this Lease, the Leasehold Mortgagee, without prejudice to its rights against Tenant, shall have the right to cure such default within the Cure Period whether the same consists of the failure to pay rent or the failure to perform any other obligation on Tenant's part to be performed under this Lease.

Landlord shall accept performance by the Leasehold Mortgagee as though the same had been performed by Tenant and, for such purpose, Landlord and Tenant hereby authorize the Leasehold Mortgagee to enter upon the Premises and to perform any of Tenant's obligations under this Lease, provided that the Leasehold Mortgagee shall indemnify and hold Landlord harmless from all claims and liabilities arising out of such action, including attorneys' fees. In the event of any default under this Lease, Landlord shall not terminate this Lease, or take any action to effect a termination of this Lease, or re-enter, take possession of or relet the Premises or similarly enforce performance of this Lease in any manner, provided that within the Cure Period the Leasehold Mortgagee cures such default.

13.2.3. Any Leasehold Mortgagee shall be liable for performance of the obligations of Tenant under this Lease only during the period that Leasehold Mortgagee is actually in possession of the Premises or has actual ownership of the leasehold estate created hereunder. Landlord acknowledges and agrees that any third-party purchaser at a foreclosure sale, or any third party purchaser of the leasehold interest hereunder from the Leasehold Mortgagee after the Leasehold Mortgagee's acquisition thereof, shall have the right to encumber its leasehold interest with a Leasehold Mortgage, and the mortgagee thereunder shall have all of the rights of a Leasehold Mortgagee set forth in this subparagraph. The provisions of this subparagraph are for the benefit of and shall be enforceable by any Leasehold Mortgagee.

13.2.4. There shall be no merger of this Lease or any interest in this Lease or of the leasehold estate hereby created with the fee estate in the Premises by reason of the fact that this Lease or any interest hereunder may be directly or indirectly held by or for the account of any person who holds, directly or indirectly, the fee estate in the Premises or any interest in the fee estate. Except in the case of a surrender on the expiration of the Term of this Lease, no surrender by Tenant of the Premises or this Lease, or any interest therein, shall be valid or effective without the prior written consent of the Leasehold Mortgagee; provided, however, that the foregoing shall not be deemed to limit Landlord's right to terminate this Lease pursuant to the provisions of paragraph 15.2 below (subject to the provisions of paragraph 15.1) or any other provision of this Lease or Landlord's rights at law or in equity. No termination or rejection of this Lease by Tenant, including, without limitation, a rejection of this Lease in any bankruptcy proceeding, shall be valid or effective without the prior written consent of the Leasehold Mortgagee, which consent shall not be unreasonably withheld, delayed, or conditioned. Landlord acknowledges and agrees that the Leasehold Mortgagee shall not be bound by any material amendment, modification, or change made to any provision of this Lease without the prior written consent of the Leasehold Mortgagee, which consent shall not be unreasonably withheld, delayed, or conditioned.

13.2.5. Landlord agrees that the Leasehold Mortgage (or an ancillary instrument made by Tenant in connection therewith) may include an assignment to the Leasehold Mortgagee of the rents from any sublease of the Premises, provided that Tenant shall have the right to collect any such rents so long as no default has occurred under the Leasehold Mortgage.

13.3. Upon execution of this Lease, Tenant shall simultaneously to execute, acknowledge and deliver without charge a memorandum of lease substantially similar to the instrument attached hereto as **Exhibit B** ("Memorandum of Lease"), containing a confirmation that the interest of Landlord shall not be subject to liens as set forth herein. The Memorandum of Lease is hereby incorporated into this Lease as if fully set forth herein.

14. Assignments and Sublets.

14.1. Permissible Assignments and Sublets.

14.1.1. The Tenant may not assign this Lease, nor license or grant any concession for the use of the Premises, to another person without obtaining the Landlord's prior written consent, which shall not be unreasonably withheld.

14.1.2. Tenant may, however, sublease portions of the Premises to other persons without obtaining Landlord's prior written consent, provided that such sublease is subject, in all regards, to the provisions of this Lease. In no event, however, may Tenant sublease all or any portion of the Premises to a fixed base operator to sell fuel. If the Premises are sublet:

a. Each subtenant shall provide liability insurance consistent with the provisions of paragraph 11.5 of this Lease.

b. In the event that the Tenant is in default, Landlord may collect from any subtenant, or any other person or entity occupying the Premises, the rent, charges or fees payable by such subtenant, person or entity, and may apply the net amount collected to the rent owed by Tenant hereunder. Nothing set forth herein shall obligate Landlord to do so, however.

14.2. Continued Liability of Tenant. If the Tenant makes any assignment, sublease, license, or grant of a concession, the Tenant will nevertheless remain unconditionally liable for the performance and financial obligations of all of the terms, conditions, and covenants of this Lease.

14.3. Landlord's Right to Collect Rent From Any Occupant. If the Tenant is in default on any payments under this Lease and any other person is subletting or occupying the Premises, or if the Tenant assigns this Lease, the Landlord may collect rent from the assignee, subtenant, or occupant. The Landlord may apply the net amount collected to the rent required under this Lease. The Landlord's collection of the rent does not waive the covenant against assignment and subletting under this Lease nor does it constitute the Landlord's acceptance of the assignee, subtenant, or occupant as a Tenant, nor the Landlord's waiver of the Tenant's further performance of the covenants contained in this Lease.

15. Airport Specific Provisions.

15.1. Specific Airport Regulations.

15.1.1. Tenant acknowledges that, as part of the Airport, this Lease, and the use of the Premises, shall be governed by specific Federal, State and local rules, laws and regulations including, without limitations, the following:

a. The Airport Rules and Regulations, a copy of which has been provided to Tenant, and any subsequent amendments thereto or revisions thereof.

b. The Airport Minimum Standards, a copy of which has been provided to Tenant, and any subsequent amendments thereto or revisions thereof.

15.1.2. Tenant shall, at all times, comply with all such laws, regulations, rules and policies.

15.1.3. Landlord shall have the right to deny access to the Airport to any person or entity that fails or refuses to obey and comply with such laws, regulations, rules and policies.

15.2. Nondiscrimination.

15.2.1. Tenant for itself, its successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree that: (1) no person on the grounds of race, color, or national origin shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of such facilities, (2) in the construction of any improvements on, over or under such land and the furnishing of services thereon, no person on the grounds of race, color, or national origin shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination, (3) that Tenant shall use the premises in compliance with all other requirements imposed by or pursuant to Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Nondiscrimination in Federally assisted programs of the Department of Transportation-Effectuation of Title VI of the Civil Rights Act of 1964, and as such Regulations may be amended.

15.2.2. In the event of breach of any of the above nondiscrimination covenants, shall have, in addition to all remedies available hereunder or at law or equity, the right to terminate the lease and to re-enter and as if such lease had never been made or issued. The provision shall not be effective until the procedures of Title 49, Code of Federal Regulations, Part 21 are followed and completed, including exercise or expiration of appeal rights.

15.2.3. Further, Landlord reserves the right to take whatever action it may be entitled to by law or equity to take in order to enforce this paragraph. This provision is to be considered as a covenant on the part of Tenant, a breach of which continuing after notice by Landlord to cease and desist will constitute a material breach of this Agreement and will entitle Landlord, at its option, to exercise its right of termination as provided for herein or take any action that it deems necessary to enforce compliance herewith.

15.2.4. Tenant shall include the foregoing provisions in every agreement or concession pursuant to which any person or persons, other than Tenant, operates any facility at the Premises providing service to the public and shall include thereon a provision granting Landlord a right to take such action as the United States may direct to enforce such covenant.

15.2.5. Tenant shall indemnify and hold harmless Landlord from any claims and demands of third persons including the United States of America resulting from Tenant's

noncompliance with any of the provisions of this paragraph and Tenant shall reimburse Landlord for any loss or expense incurred by reason of such noncompliance.

15.3. Governmental Requirements.

15.3.1. Tenant shall procure all licenses, certificates, permits or other authorization from all governmental authorities, if any, having jurisdiction over Tenant's operations at the Premises which may be necessary for Tenant's operations.

15.3.2. Without waiving any right to protect any assessment or to claim any exception to which Tenant may be entitled by law, Tenant shall pay taxes, license, certification, permit and examination fees and excise taxes which may be assessed, levied, exacted or imposed on the Premises, leasehold interest or operations hereunder or on the gross receipts or income to Tenant therefrom and shall make all applications, reports, and returns required in connection therewith.

15.3.3. It shall be a condition of this Lease:

a. That Landlord reserves unto itself, its successors and assigns, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the Premises, together with the right to cause in such airspace such noise as may be inherent in the operation of aircraft, now known or hereafter used, for navigation of or flight in the such airspace, and for use of such airspace for landing on, taking off from or operating on the Airport.

b. That Tenant expressly agrees for itself, its successors and assigns, to restrict the height of structures, objects of natural growth and other obstructions on the hereinafter described real property to such a height so as to comply with Federal Aviation Regulations, Part 77.

c. That Tenant expressly agrees for itself, its successors and assigns, to prevent any use of the Premises which would interfere with or adversely affect the operation or maintenance of the airport, or otherwise constitute an airport hazard.

15.3.4. Landlord does not hereby grant any exclusive rights at the Airport to Tenant or any greater rights or privileges with respect to the use of the Premises than are expressly granted hereunder.

16. Default by Tenant.

16.1. Events of Default. Upon the happening of one or more of the events set forth below (any of which is referred to hereinafter as an "Event of Default"), and subject to notice to any Leasehold Mortgagee, Landlord shall have any and all rights and remedies hereinafter set forth:

16.1.1. If Tenant should fail to pay rent when it becomes due and such failure continues for ten (10) days after Landlord provides Tenant with written notice of such failure.

16.1.2. If Tenant should fail to pay rent within ten (10) days of when it becomes due more than three (3) times during any of twelve (12) consecutive months (notwithstanding Landlord's acceptance of rent from Tenant) and without the necessity of Landlord providing Tenant with written notice or opportunity to cure.

16.1.3. If Tenant does not commence construction of the hangar substantially in accordance with paragraph 4.1.1 above, and such failure continues for thirty (30) days after written notice from Landlord specifying the deficiency.

16.1.4. If Tenant violates any other material term, condition or covenant herein on the part of Tenant to be performed and such failure continues for fifteen (15) days after Landlord provides Tenant with written notice of such failure; provided, however, if the default is one which cannot be cured within such time period, Tenant will have such additional time as maybe required so long as Tenant diligently pursues the remedy. Notwithstanding the foregoing:

a. If Tenant has previously defaulted under a material term, condition or covenant of this Lease and is provided with notice of and an opportunity to clear such breach, any subsequent breach of the same term, condition, or covenant shall constitute a breach of this Agreement without further notice or opportunity to cure; or

b. The failure to provide insurance shall constitute an immediate default hereunder without the necessity of notice or an opportunity to cure, unless no insurance is available commercially in the state of Florida.

16.1.5. In the event a petition in bankruptcy under any present or future bankruptcy laws (including but not limited to reorganization proceedings) be filed by or against the Tenant and such petition is not dismissed within thirty (30) days from the filing thereof, or in the event Tenant is adjudged a bankrupt;

16.1.6. In the event an assignment for the benefit of creditors is made by Tenant; or

16.1.7. In the event of an appointment by any court of a receiver or other court officer of Tenant's property and such receivership is not dismissed within thirty (30) days from such appointment.

16.2. Landlord's Remedies.

16.2.1. If any Event of Default occurs, Landlord shall have the right, at the option of Landlord, to pursue one or more of the following remedies, in addition to all other remedies available at law or equity:

a. Terminate this Lease and thereupon reenter and take possession of the Premises with or without legal process.

b. Declare all remaining rent under the Lease immediately due and owing.

c. Without terminating this Lease, reenter and relet the Premises, or any part thereof, with or without legal process, for the account of Tenant upon such

terms and conditions as Landlord may deem advisable or satisfactory, in which event the rents received on such reletting shall be applied:

1). First, to the expenses of such reletting and collection including but not limited to, necessary renovation and alterations of the Premises, reasonable attorney's fees, any real estate commissions paid;

2). Second, toward payment of all sums due or to become due Landlord hereunder; and

3). Third, if a sufficient sum shall not be thus realized or secured to pay such sums and other charges due Landlord, then, Tenant shall pay Landlord any deficiency monthly, and Landlord may bring an action therefor as such monthly deficiency shall arise.

4). Nothing herein, however, shall be construed to require Landlord to reenter and relet in any event. Landlord shall not, in any event, be required to pay Tenant any surplus of any sums received by Landlord on a reletting of the Premises in excess of the rent provided in this Lease.

d. Remove all or any part of the Tenant's property from the Premises and any property removed may be stored in any public warehouse or elsewhere at the cost of, and for the account of Tenant, and Landlord shall not be responsible for the care or safekeeping thereof whether in transport, storage or otherwise. Tenant hereby waives any claim against Landlord for loss, destruction and/or damage or injury that may be occasioned by any of the previously mentioned acts. In addition to any statutory lien granted to Landlord, this Lease shall be deemed and considered to grant Landlord a security interest in the previously mentioned items and Landlord shall have all the rights of a secured party under the Uniform Commercial Code.

16.2.2. No reentry or taking possession of the Premises by Landlord shall be construed as an election on Landlord's part to terminate this Lease unless a written notice of such intention is given to Tenant. Notwithstanding any such reletting without termination, Landlord may at all times thereafter elect to terminate this Lease for such previous default. Any such reentry shall be allowed by Tenant without hindrance, and Landlord shall not be liable in damages for any such reentry, or guilty of trespass or forcible entry.

16.3. Landlord May Cure Tenant's Defaults. If Tenant shall default in the performing of any covenant or condition of this Lease, Landlord may, at its sole discretion, perform the same for the account of Tenant and Tenant shall reimburse Landlord for any expense incurred therefore together with interest thereon at the highest legal rate. This provision imposes no duty on Landlord nor waives any right of Landlord otherwise provided in this Lease.

17. Default by Landlord.

17.1. Landlord's Default. Landlord will be deemed in default or this Lease if Landlord fails to perform or observe any agreement or condition of this Lease on its part to be performed or observed and if such failure continues for thirty days after Tenant provides Landlord with written notice of such failure. If the default is one that cannot be cured within thirty days,

Landlord will have such additional time as may be required so long as Landlord diligently pursues the remedy.

17.2. Remedies upon Landlord's Default. If Landlord defaults in the performance of any of the obligations or conditions required to be performed by Landlord under this Lease, Tenant may, after giving notice as provided above, either cure the default and deduct the cost thereof from rent subsequently becoming due hereunder, or elect to terminate this Lease. In that event, this Lease shall terminate upon the date specified in the notice, unless Landlord has meanwhile cured the default to the satisfaction of Tenant.

18. Destruction or Damage to Premises from Casualty.

18.1. Destruction or Fifty Percent Damage. In the event that the Improvements are completely destroyed, or are damaged in excess of fifty percent, due to any cause whatsoever, Tenant shall:

18.1.1. At its own expense repair, restore, or replace the destroyed property if Tenant deems it practical or advisable to do so, and this Lease shall continue in full force and effect; or

18.1.2. If Tenant deems it impractical or inadvisable to repair, restore, or replace the destroyed property, this Lease shall terminate on sixty days' written notice to Landlord.

18.2. Damage Less Than Fifty Percent. In the event that damage to the Improvements due to any cause whatsoever is not in excess of fifty percent, Tenant shall at its own expense repair, restore, or replace the damaged Improvements with due diligence, and this Lease shall continue in full force and effect.

18.3. Definitions. The phrase "completely destroyed" shall be construed to mean the destruction of the safe, tenantable use of occupancy of all Improvements under this Lease. The phrase "damaged in excess of fifty percent" shall be construed to mean any damage to the Improvements (excluding damage caused solely by water used in extinguishing fire) that will require an expenditure in excess of fifty percent of the market value (immediately prior to the damage) of the Improvements to accomplish required repairs, restoration, or replacement.

19. Quiet Enjoyment. The Landlord covenants that so long as the Tenant pays the rent and additional rent and performs the covenants under this Lease, the Tenant is entitled to peaceful and quiet possession and enjoyment of the Premises for the Lease term, subject to the Lease provisions.

20. Premises Subject to Agreements. This Lease and the Premises are subject to all present agreements between Landlord, on the one hand, and the Federal Aviation Administration DOT, on the other hand, matters of record, and zoning and building laws, ordinances, regulations, and codes affecting or governing the Premises, or that may affect and govern the Premises after the execution of this Lease, and all matters that may be disclosed by inspection or survey.

21. Estoppel Certificates. Landlord or Tenant shall have the right to request the other party to provide an estoppel certificate, as described below, without charge, fifteen days after the requesting party sends a written notice. This estoppel certificate shall consist of a written statement certifying the following information to the requesting party or to any person specified by that party:

21.1. That this Lease is unmodified and in full force and effect; or, if there have been any modifications in this Lease, that this Lease is in full force and effect as modified, specifying the nature of each modification.

21.2. The dates through which the rent and other charges payable under this Lease have been paid.

21.3. Whether the other party to this Lease is in default in the performance or observance of any covenant, agreement, condition, term, or provision contained in this Lease, to the best knowledge of the certifying party, and, if so, specifying the nature of each default the certifying party has knowledge of.

21.4. Any other information with respect to this Lease and the Premises that the requesting party shall reasonably request.

22. Miscellaneous Provisions.

22.1. Accord and Satisfaction. If the Tenant pays or the Landlord receives any amount that is less than the amount stipulated to be paid under any Lease provision, that payment is considered to be made only on account of an earlier payment of that stipulated amount. No endorsement or statement on any check or letter may be deemed an accord and satisfaction. The Landlord may accept any check or payment without prejudice to the Landlord's right to recover the balance due or to pursue any other available remedy.

22.2. RADON GAS. RADON IS A NATURALLY OCCURRING RADIOACTIVE GAS THAT, WHEN IT HAS ACCUMULATED IN A BUILDING IN SUFFICIENT QUANTITIES, MAY PRESENT HEALTH RISKS TO PERSONS WHO ARE EXPOSED TO IT OVER TIME. LEVELS OF RADON THAT EXCEED FEDERAL AND STATE GUIDELINES HAVE BEEN FOUND IN BUILDINGS IN FLORIDA. ADDITIONAL INFORMATION REGARDING RADON AND RADON TESTING MAY BE OBTAINED FROM YOUR COUNTY PUBLIC HEALTH UNIT.

22.3. Broker Representation. Each party covenants to and represents to the other that neither party has dealt with any real estate broker, sales person or agent in this Agreement and each party hereby agrees to indemnify and hold harmless the other from and against any real estate brokers claiming by, through or under them.

22.4. Entity Tenant. If Tenant purports to be is a corporation or other entity, the persons executing this Lease on behalf of Tenant hereby covenant, represent and warrant that Tenant is a duly incorporated or formed, or duly qualified (if foreign) corporation or entity and is authorized to do business in the State where the Premises is located (a copy of evidence thereof to be supplied to Landlord upon request); and that the person executing this Lease on behalf of Tenant is duly authorized to execute, acknowledge, and deliver this Lease to Landlord.

22.5. Enforcement. All of the terms and provisions of this agreement shall be binding upon, inure to the benefit of, and be enforceable by the parties and their respective legal representatives, heirs, estates, successors and permitted assigns.

22.6. Exclusive Venue. The parties agree that the exclusive venue for any litigation, suit, action, counterclaim, or proceeding, whether at law or in equity, which arises out of concerns, or

relates to this agreement, any and all transactions contemplated hereunder, the performance hereof, or the relationship created hereby, whether sounding in contract, tort, strict liability, or otherwise, shall be in Marion County, Florida.

22.7. JURY WAIVER. EACH PARTY HEREBY COVENANTS AND AGREES THAT IN ANY LITIGATION, SUIT, ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. ANY PARTY MAY FILE AN ORIGINAL COUNTERPART OR A COPY OF THIS AGREEMENT WITH ANY COURT, AS WRITTEN EVIDENCE OF THE CONSENT OF THE PARTIES HERETO OF THE WAIVER OF THEIR RIGHT TO TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY THE OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

22.8. Notices.

22.8.1. All notices, requests, consents and other communications (each a "Communication") required or permitted under this Agreement shall be in writing (including emailed communication) and shall be (as elected by the person giving such notice) hand delivered by messenger or courier service, emailed or mailed by Registered or Certified Mail (postage pre-paid), Return Receipt Requested, addressed as set forth below each party's signature line, addresses as any party may designate by Communication complying with the terms of this paragraph.

22.8.2. Each such Communication shall be deemed delivered:

a. On the date of delivered if by personal delivery;

b. On the date of email transmission if by email (subject to paragraph 21.8.5); and

c. If the Communication is mailed, on the earlier of: (a) the date upon which the Return Receipt is signed; or (b) the date upon which delivery is refused.

d. Notwithstanding the foregoing, service by personal delivery delivered, or by email sent, after 5:00 p.m. shall be deemed to have been made on the next day that is not a Saturday, Sunday or legal holiday.

22.8.3. If a Communication is delivered by multiple means, the Communication shall be deemed delivered upon the earliest date determined in accordance with the preceding subparagraph.

22.8.4. If the above provisions require Communication to be delivered to more than one person (including a copy), the Communication shall be deemed delivered to all such persons on the earliest date it is delivered to any of such persons.

22.8.5. Concerning Communications sent by email:

a. The Communication shall not be deemed to have been delivered if the sender receives a message from the sender's or the recipient's internet service provider or otherwise that the email was not delivered or received;

b. If the sender receives an automatic reply message indicating that the recipient is not present to receive the email (commonly referred to as an "out of the office message"), the email shall not be deemed delivered until the recipient returns;

c. Any email that the recipient replies to, or forwards to any person, shall be deemed delivered to the recipient.

d. The sender must print the email to establish that is was sent (though it need not do so at the time the email was sent); and

e. The sender shall maintain the digital copy of the email in its email system for a period of no less than one year after it was sent.

22.9. Governing Laws. This agreement and all transactions contemplated by this agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of Florida without regard to principles of conflicts of laws.

23.0. Attorney's Fees. If any legal action or other proceeding (including, without limitation, appeals or bankruptcy proceedings) whether at law or in equity, which: arises out of, concerns, or relates to this agreement, any and all transactions contemplated hereunder, the performance hereof, or the relationship created hereby; or is brought for the enforcement of this agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses even if not taxable as court costs, incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

23.1. Counterparts. This agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute the same instrument.

23.2. Remedies. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power or remedy hereunder shall preclude any other or further exercise thereof.

23.3. Severability Clause. Provisions contained in this agreement that are contrary to, prohibited by or invalid under applicable laws or regulations shall be deemed omitted from this document and shall not invalidate the remaining provisions thereof.

23.4. Waiver.

23.4.1. A failure to assert any rights or remedies available to a party under the terms of this agreement, or a waiver of the right to remedies available to a party by a course of dealing or otherwise shall not be deemed to be a waiver of any other right or remedy under this agreement, unless such waiver of such right or remedy is contained in a writing signed by the party alleged to have waived his other rights or remedies.

23.4.2. No payment by Tenant or receipt by Landlord or its agents of a lesser amount than the rent and other charges stipulated in this Lease shall be deemed to be other than a payment on account thereof, nor shall any endorsement or statement on any check or any letter accompanying any check or payment be deemed an accord and satisfaction, and Landlord or its agents may accept such check or payment without prejudice to Landlord's right to recover the balance of the amount due or to pursue any other remedy provided in this Lease or by applicable Law.

23.5. Entire Understanding. This agreement represents the entire understanding and agreement between the parties with respect to the subject matter hereof, and supersedes all other negotiations (if any) made by and between the parties. The provisions of this agreement may not be amended, supplemented, waived, or changed orally but only by a writing making specific reference to this agreement signed by the party as to whom enforcement of any such amendment, supplement, waiver or modification is sought.

FORM MEMORANDUM OF LEASE

See attached.

This Instrument Prepared by and Return To:
Robert W. Batsel, Jr.
Gilligan, Gooding, Batsel, Anderson & Phelan, P.A.
1531 SE 36th Avenue
Ocala, FL 34471

MEMORANDUM OF LEASE

THIS MEMORANDUM OF LEASE dated _____, 20___, by and between:

- City of Ocala, a Florida municipal corporation ("Landlord"); and
- _____, a Florida _____ ("Tenant").

WHEREAS:

A. Landlord and Tenant have entered into a "Ground Lease at Airport" (the "Lease") concerning the real property described in the attached **Exhibit A**, together with all improvements thereon and appurtenances thereto (collectively the "Property")

B. Pursuant to the Lease, Tenant is permitted to construct structures, buildings, and other improvements, finance such construction, and grant a leasehold mortgage as security in connection therewith, subject to Landlord's interest (including its reversionary interest in the improvements) and certain limitations set forth therein.

C. Landlord and Tenant desire to publicly evidence the existence of the Lease and certain rights and obligations of Landlord and Tenant pursuant to the terms thereof.

NOW THEREFORE, in consideration of the matters set forth above (which are incorporated herein by reference) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Landlord and Tenant did on _____, 20____, enter into the Lease concerning Tenant's possession and use of the Property.

2. The term of the Lease is thirty (30) years. Tenant has the right to renew the term of the Lease for two (2) additional terms of five (5) years each.

3. The estate of the Landlord and each and every interest of the Landlord in the Property and the Lease shall in no manner be subject to lien, claim, demand or imposition under the Construction Lien Laws of the State of Florida, or otherwise, for any improvements, labor, materials or services (collectively "Improvements") furnished to, or rendered at or upon, the Premises by or at the request of the Tenant, whether or not Landlord shall have consented to same, it being acknowledged that any and all of such Improvements are for the sole and exclusive benefit of the Tenant. This provision is herein set forth pursuant to Section 713.10, Florida Statutes.

4. Pursuant to the Lease, Tenant has the right to finance its interest in the Lease including, without limitation, the cost of constructing the Improvements (as defined in the Lease). Such financing may be in the form of a mortgage, including, in connection therewith, a collateral assignment of the Lease, or other forms of financing utilized by Tenant from time to time (collectively, "Leasehold Mortgage"). Any such leasehold financing shall be subordinate to the Lease and shall not allow the holder of the

Leasehold Mortgage ("Leasehold Mortgagee") to eliminate or damage Landlord's reversionary interest in the Improvements.

5. Nothing herein contained shall be deemed to modify, limit, or in any way abridge or amend any term or condition of the Lease, reference to which, and each and every of the provisions thereof, is hereby expressly made.

IN WITNESS WHEREOF, the parties hereto have hereunto executed this instrument for the purpose herein expressed, the day and year above written.

THE CITY OF OCALA RESERVES THE RIGHT TO REJECT ANY AND ALL SUBMISSIONS

INVITATION TO NEGOTIATE NO. AIR/240448
AVIATION DEVELOPMENT OPPORTUNITIES AT OCALA INTERNATIONAL AIRPORT
A9 SOUTH PARCEL

The City of Ocala, Florida ("City"), through this Invitation to Negotiate ("ITN") is seeking proposals from qualified and interested firms or individuals for expanded development opportunities for facilities or enterprises that will serve or support operations at Ocala International Airport ("OIA"). Resulting developments are required to comply with all Federal Aviation Administration ("FAA") regulations and Ocala International Airport's Minimum Standards for Commercial Aeronautical Activities and its Development Standards.

EXHIBITS: Each of the following Exhibits are incorporated into and made a part of this ITN as if fully set forth

EXHIBIT A: Exhibit A - A9 Site Details
EXHIBIT B: Airport Layout Plan
EXHIBIT C: OIA Minimum Standards
EXHIBIT D: OIA Development Standards
EXHIBIT E: Sample Ground Lease Terms and Conditions
EXHIBIT F: Financial Review Committee Documentation
EXHIBIT G: Hexaport Lease

SECTION 1
INTRODUCTION TO INVITATION TO NEGOTIATE

1.1. INTRODUCTION AND BACKGROUND

Ocala International Airport is a nationally ranked, Part 139-certified general aviation airport located approximately 70 miles northwest of downtown Orlando. The airport has two runways, the longest of which measures 7,467 feet long by 150 feet wide with precision approaches (Runway 18/36). Recreational flying, flight training, freight/cargo, and business aviation represent the primary activities at the airport.

A state-of-the-art, 17,500-square-foot general aviation terminal building was completed in 2020 and is home to OIA's fixed base operator (FBO), office space, and a restaurant that has been instrumental in attracting members of the public to the airport. Through its four flight school tenants, the airport supports a variety of career training and education opportunities for current and aspiring aviation professionals. Additionally, community events are often hosted at OIA, including the Experimental Aviation Association's Wings Over Ocala Car and Plane Show, periodic fly-in events, and a 5K run. OCF also serves as a gateway to the area's renowned equine industry and the recently opened World Equestrian Center, the largest equestrian complex in the United States.

OIA has an aggressive 5-year capital improvement plan with over $20 million in improvements planned, including a new west-side taxiway, an access road to facilitate expanded t-hangar development adjacent the crosswind runway, along with several new privately owned corporate hangars.

1.2. OBJECTIVES OF THIS INVITATION TO NEGOTIATE

(a) The objective of this ITN is to identify and engage a master developer or other qualified firm (hereinafter referred to as the "Developer") capable and willing to fund, design, develop, and operate a facility or enterprise that will serve or support operations at OIA in compliance with FAA policies and OIA standards.

(b) All construction must adhere to **EXHIBIT D**, OIA Development Standards.

(c) The City intends to enter into time-limited negotiations with the Developer culminating into a Lease and Development Agreement ("Development Agreement") securing the long-term lease of the subject

property and addressing the parties' rights and obligations with respect to the development of the subject City-owned property.

(d) The document attached to this ITN as **EXHIBIT E** is a Sample Ground Lease and Development Agreement. Proposers shall include with their submission a detailed list of any exceptions to the terms and conditions set forth therein. The City reserves the right to accept or reject any or all exceptions at its sole discretion.

1.3. MINIMUM QUALIFICATIONS (PRE-QUALIFICATION REQUIREMENTS)

Responding firms or teams must meet the following standards as they pertain to this ITN:

(a) Must be legally qualified and properly certified to engage in contracting through a certified or registered general contractor or a certified or registered building contractor as the qualifying agent, and qualified to perform the services proposed in response to this ITN under any other applicable laws or regulations.

(b) Must demonstrate and clearly show in their written proposals that they meet the minimum standards of competency and experience to provide the services outlined in this ITN.

(c) Must have, and be able to demonstrate, adequate technical resources, financial resources and equipment, or have the ability to obtain and to manage such resources and equipment, as required during the performance period of the proposed contract.

(d) Must be able to comply with the proposed or required performance schedule.

(e) Must have a satisfactory record of contractual performance.

1.4. OWNERSHIP, ZONING, AND SITE DISCLOSURES

(a) **Ownership of the Property.** The parcel associated with this offering is owned by the City of Ocala.

(b) **Existing Environmental Conditions.** Successful proposer will be responsible for clearing and grading the site to within 1-2% % slope to existing taxilane access at A9, according to FAA specifications.

(c) **Zoning and Permitting.** Aviation hangars and associated aerospace offices only.

(d) **Examination of the Project Site.** Prior to responding to the Solicitation, proposers are responsible for (a) examining the Solicitation thoroughly; (b) visiting the project site to become familiar with local conditions that may affect cost, progress, or performance; (d) studying and carefully correlating proposer's observations with the Solicitation; and (e) notifying the Buyer Contact of all conflicts, errors, or discrepancies found in the Solicitation.

1.5. PROPOSED PROJECT SCHEDULE

Based on the information currently available to the City, the anticipated schedule to be followed in the selection of a Developer will be as follows:

Milestone	Date*
Deadline for ITN clarification and questions	**May 15, 2024 at 5:00 p.m. (EST)**
Deadline for submission	**May 17, 2024 at 2:00 p.m. (EST)**
Administrative review of proposals	TBD

Evaluation Committee Meeting and Preliminary Scoring	TBD
Deadline for Completion of Financial Review Committee Review	TBD
Shortlisted Firms – Presentations and Interviews (if required)	TBD
Final Scoring/Ranking and Posting of Recommended Firm	TBD
Development Agreement Negotiations	TBD
City Council Approval Date	TBD
Developer Agreement and Contract Execution	TBD

***The City reserves the right to modify this schedule at any time. These dates may be extended, changed, or updated within the listing at www.bidocala.com. Proposers are responsible for verifying all listing information prior to submitting a response to this solicitation.**

1.6. QUESTIONS AND CLARIFICATIONS

Proposers are encouraged to communicate any questions regarding this ITN by the deadline set forth herein. Questions should be sent in writing via e-mail to the Buyer Contact identified. Questions and answers will be communicated to all proposers by issuing an addendum posted to www.bidocala.com.

END OF SECTION

SECTION 2
SCOPE OF SERVICES AND SPECIFICATIONS

It is expected for the successful firm or team to have advanced skills and significant experience in the design and construction of a high-quality project.

2.1. PROJECT SPECIFICATIONS

The project design and all associated construction documents shall clearly demonstrate compliance with all applicable state and local codes and regulations. The successful firm shall follow the most recent editions of the following codes and standard specifications:

(a) OIA Minimum Standards attached hereto as **EXHIBIT C** sets forth the minimum qualifications and criteria of an operator engaged in a commercial aeronautical operation at the airport.

(b) OIA Development Standards attached hereto as **EXHIBIT D** sets forth requirements regarding development performance and aesthetic standards.

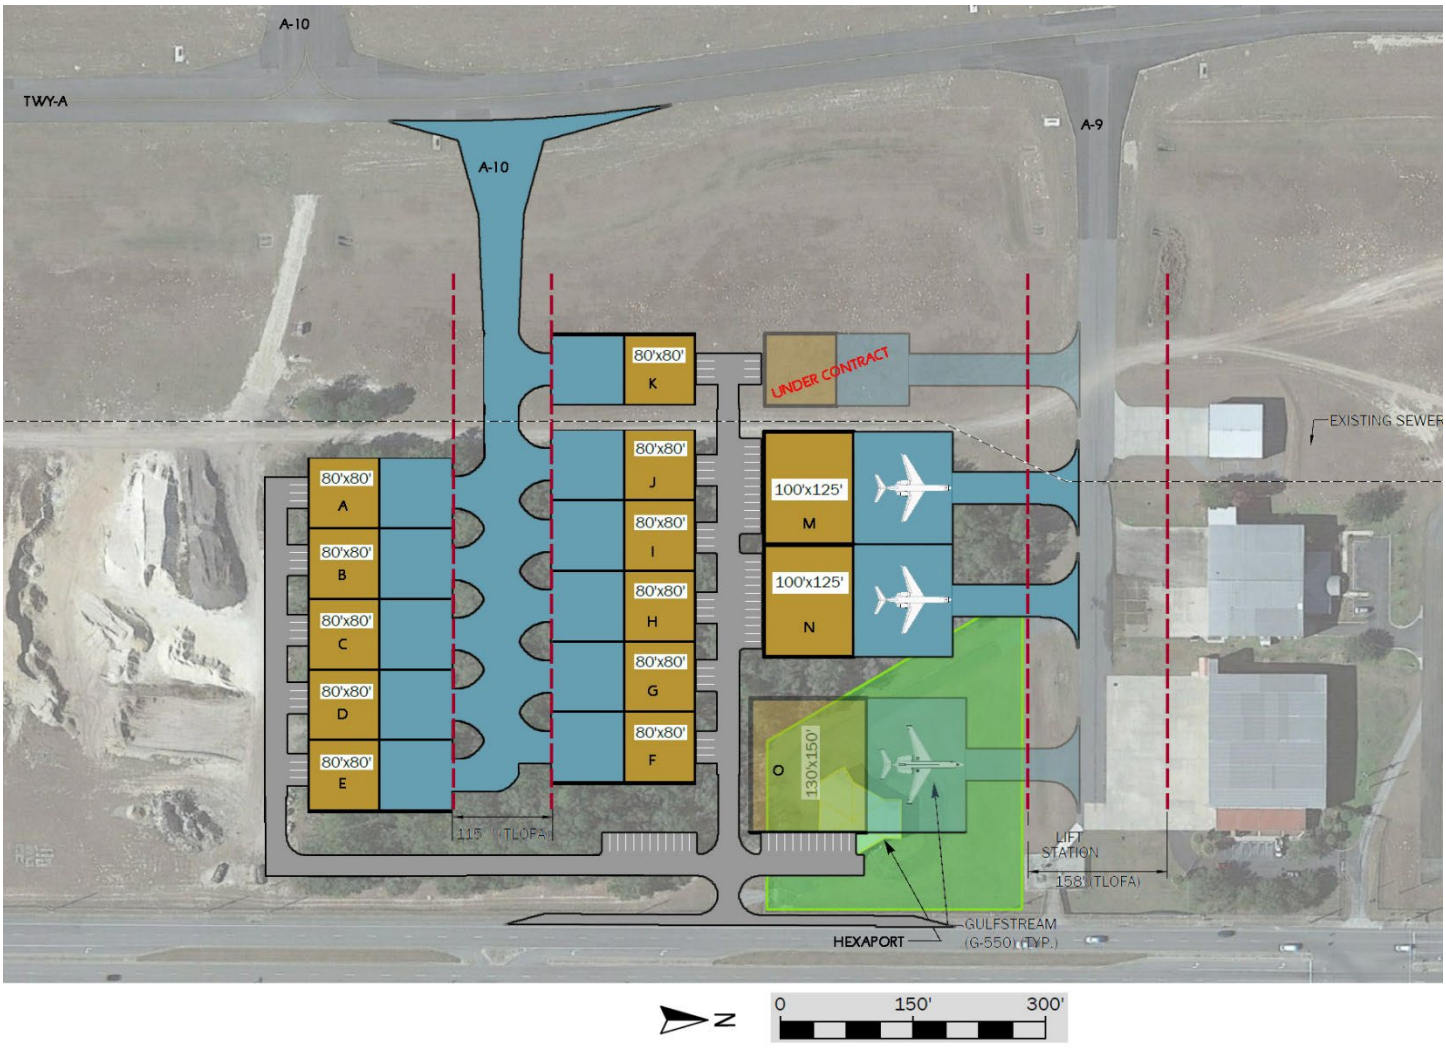
(c) Airport Master Stormwater Plan https://www.ocalafl.gov/home/showpublisheddocument/24332

2.2. PRELIMINARY PROJECT REQUIREMENTS

(a) **Price Per Square Foot**: The minimum price per square foot is $0.26 per square foot. Proposals offering less than this minimum price per square foot shall be rejected.

(b) **Size**: Development opportunities for the site are as follows:.

a. Hangars A through K require the construction of TWY-A10 connector to design group II specifications.
b. Hangars A through K will be uniformly the same size, the smallest being 70'x70' and the largest 80'x80' with matching apron dimensions. These hangars could have interior or lean-to offices attached to facilitate commercial businesses.
c. Hangars M and N shall be no less than 100'x125' each (although it could be constructed as one large hangar of at least 100'x250') with matching apron dimensions.
d. The site for Hangar O is available after November 2025, however developers are encouraged to offer proposals now. Reference 2.2(f) for more details.
e. Hangars M through O could be shifted closer to the existing taxilane so long as the developer relocates the existing Hexaport taxilane (see 2.2(f) below).
f. Hangars M through O could have interior or lean-to offices attached.
g. All hangars aprons A through O must remain clear of Taxilane Obstacle Free Areas (TLOFA). T-hangars shall not be considered.



(c) **Construction Material**: Construction shall be of steel beam, concrete block, or tilt wall.

(d) **Preferred Use/Type**: Any aviation-related use.

(e) The City reserves the right to make modifications to the foregoing project requirements as necessary.

(f) HEXAPORT: The Hexaport is an existing single building with 6 (six) individual hangars/owners whose lease expires in November 2025. This property is served by the main taxilane A9 and a diagonal connector. The current location of the diagonal could impact development of Hangars M and N. Relocation and/or realignment is the responsibility of the Developer. The City will entertain proposals for this parcel, which is available after November 2025.

2.3. INSURANCE REQUIREMENTS

(a) **Commercial Auto Liability**. Awarded firm shall procure and maintain for the life of this agreement commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of firm's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations.

(b) **Commercial General Liability**. Awarded firm shall procure and maintain for the life of this agreement commercial liability insurance with minimum coverage limits not less than:

(1) One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and

(2) One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.

(3) Policy must include coverage for contractual liability and independent contractors.

(c) **Workers' Compensation and Employer's Liability**. Awarded firm shall procure and maintain for the life of this agreement adequate workers' compensation and employer's liability insurance covering all of its employees in at least such amounts as required by Chapter 440, Florida Statutes, and all other state and federal workers' compensation laws. Firm shall ensure any and all subcontractors have the required coverage for all of their employees as required by applicable law. Firm shall waive, and shall ensure that its insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages.

(d) **City as Additional Insured and Endorsements**. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this section with the exception of Workers' Compensation and Professional Liability policies. Firm's Worker's Compensation policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent. Firm's Commercial General Liability policy shall be endorsed with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liabilities arising out of activities performed by or on behalf of vendor.

(e) **Other Miscellaneous Insurance Provisions**.

(1) These insurance requirements shall not relieve or limit the liability of vendor. City does not in any way represent that these types or amounts of insurance are sufficient or adequate to protect vendor's interests or liabilities but are merely minimums. No insurance is provided by the City under any contract to cover firm.

(2) No work shall be commenced under any contract until the required Certificate(s) of Insurance have been provided. Work shall not continue after expiration (or cancellation) of the Certificates of Insurance and shall not resume until new Certificate(s) of Insurance have been provided. Insurance written on a "Claims Made" form is not acceptable without consultation with City of Ocala Risk Management.

(3) Firm shall arrange for its liability insurance to include, or be endorsed to include, a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

END OF SECTION

SECTION 3
PROPOSAL SUBMISSION AND EVALUATION CRITERIA

Proposers shall follow the submittal requirements set forth herein. Responses that do not adhere to the following format or which fail to include the requested information/documents may be considered non-responsive and therefore ineligible for award. The City reserves the right to seek additional/supplemental information as needed.

SUBMITTAL OF PROPOSALS: All proposals must be electronically submitted before 2:00 p.m. (EST) on the listing end date/bid close date identified at www.bidocala.com. Proposals received after this time and date will

not be considered. **Proposals may not be submitted by any other means.** The City will not accept proposals sent by U.S. Mail, couriers, fax, or e-mail.

PAGE SIZE AND FORMAT: Proposals shall contain 8 ½" x 11" pages only with a minimum font size of 11 points. There is no page limit for this ITN; however, if there are page limits for specific Sections, it will be noted below.

COVER PAGE: The cover page shall include the title of this ITN along with the proposer's firm name, address, contact person, telephone number, and e-mail address:

3.1. ORGANIZATION OF PROPOSAL

Proposers shall follow the submittal requirements set forth herein. Responses that do not adhere to the following format or which fail to include the requested information/documents may be considered non-responsive and therefore ineligible for award. The City reserves the right to seek additional/supplemental information as needed.

Respondents shall construct their response in the following format and a tab must separate each section.

(a) **Transmittal Letter.** A transmittal letter must accompany the submittal and must be signed by an individual legally empowered to represent the development firm/team. The transmittal letter should include the following:

(1) Identification of the individuals authorized to represent the development firm/team in any negotiations, along with their mailing address, phone and fax numbers, and e-mail addresses.

(2) A short narrative describing proposer's understanding of the scope of work and a brief summary of proposer's approach and concept of the Project and why the proposer is the most qualified and best choice to be awarded this Project.

(3) Specific statement that the proposer has read and understands all procedures and criteria associated with the submittal requirements.

(4) Acknowledgement of receipt of this ITN and understanding that all terms and conditions contained herein may be incorporated into a resulting contract.

(5) Statement that the individual who will execute the resulting contract shall be authorized to do so as a representative of the team submitting the response.

(b) **TAB 1 – Project Team Composition, Qualifications, Roles, and Availability.** The emphasis of this section shall be on key personnel that will be committed to the Project and their specific Project roles.

(1) Provide a brief narrative which provides a general description of the Project team, highlighting the team's qualifications and experience and the team's ability to provide the services detailed in the Solicitation.

(2) Provide an organizational chart depicting proposer's key personnel that will be committed to the Project. Key personnel must include primary contacts for construction related issues, design related issues, and principal officers that will be involved in the Project. The personnel identified in the organizational chart are expected by City to be utilized for the Project. City reserves the right to disallow substitutions without prior City approval.

(3) For each key personnel identified, describe their respective role and responsibilities with respect to this Project and provide a resume for each individual depicting education, certifications, professional

affiliations, licensure, experience on similar or related projects of this size and scope; and any other unique qualifications.

(4) Identify and provide qualifications and experience of any sub-contractors, if any, and the resources available to perform the work for the duration of the Project.

(5) Please also provide:

i. The location of the principal office of your firm that will be responsible for overseeing the Project;

ii. Florida professional and contractor licenses held by the firm and key personnel who will be assigned to this Project, complete with license numbers and an indication of whether the license is held by the individual or the firm;

iii. State which member of the team will provide bonds for the Project. For that team member, provide a statement from AM Best, Inc., indicating a rating of A or better.

iv. If proposer is a Minority Business Enterprise certified by the state of Florida, provide a copy of said certification.

(c) **TAB 2 – Experience of the Proposing Firm and Project Team**. Here, proposers should address their specific experience as it relates to the work required for this Project. The evaluation of the proposer and team will in part be based on the nature of their respective experience.

(1) List at least two (2), but no more than three (3), projects in Florida and the southeastern United States where the firm and/or project team provided similar services in the last five (5) years, whether complete or ongoing. For each project submitted as proof of experience, please identify:

i. Project name;

ii. Project location;

iii. Project description;

iv. Owner's name;

v. Project initial budget and final budget;

vi. Project start date;

vii. Number of change orders;

viii. Initial and final substantial completion dates;

ix. Summary of work actually performed by firm or team; and

x. Project reference information (name, title during project, phone, and e-mail)

(2) Identify all contracts or subcontracts awarded to the firm or team that have been terminated prior to completion within the last five (5) years.

(3) Identify all claims arising from a contract which have resulted in litigation or arbitration within the last five (5) years. Briefly describe the circumstances and outcomes of each.

(d) **TAB 3 – Development Concept.** This is the proper place for graphic materials that demonstrate how the specific plan will tie into local goals and satisfy the general intent of this ITN. It should be as detailed and complete as possible and set forth:

(1) A written description of the proposed development project, noting the overall concept, and its relationship to City goals, guiding principles, and objectives as stated in the ITN.

(2) Identify Proposer's offer for per square foot pricing. The minimum acceptable price per square foot is $0.26. Offers reflecting pricing less than the minimum will not be considered.

(3) Describe the facility proposed for construction. Specify total number of for sale or rental units, mix of different types, square footage size of units, rent or sales price targets.

(4) Identify any proposed parking facilities to be included in the project including number of parking spaces provided and if facilities can accommodate public parking.

(5) Identify on-site and off-site infrastructure support, and/or utilities requirements.

(6) Rents, values, units, square footage of all the above sufficient in detail to support any estimates of taxes or other receipts that will accrue to the benefit of the City.

(7) Project Conceptual Plans and Design must be addressed within this tab and should include the following exhibits or materials:

i. This visual concept plan should be of specific detail to discern the mass, scale, quality of materials, mix of uses, signing, and overall architectural quality as well as the treatment/interface with the urban realm. Illustrative site plans and diagrams are preferred.

ii. The format for any plans can reflect photographic examples of projects previously developed by the proposing team, sketch illustrations or computer renderings. The intent is to provide the reviewers with a solid understanding of the proposer's commitment to the City's vision of OIA.

iii. Respondents should demonstrate how stormwater is integrated throughout all phases of the development process.

(e) **TAB 4 – Marketing of Project.** Provide a narrative, supported by graphics if appropriate describing the structure and means for the marketing of the various elements of the project including, for example, preliminary estimate of pricing, lease or rental terms with respect to commercial hangar units and other pertinent information to understanding the positioning of the concept detailed above.

(f) **TAB 5 – Basic Financial Structure of the Proposed Project**

(1) Identify the likely financing method, debt-to-equity ratios, and types of debt to be utilized.

(2) A list of likely funding sources and discussion of the sources and uses of funds for construction.

(3) Identify all likely financial partners, equity partners, financial institutions with which developer will create a relationship in this project and provide statements by these parties indicating their interest to participate in the project.

(4) Provide bank and financial references for the principal(s) as Developer.

(5) Provide bank and financial references for the key financial parties.

(6) Additional financial information shall be requested directly by the City's Financial Review Committee should proposer be selected for further consideration. A document containing a list of this additional financial information attached to this ITN as **EXHIBIT F**. Proposer need not submit this additional financial information with its proposal.

(g) **TAB 6 – Ground Lease and Development Agreement**. Respondents will provide a general outline of any additional terms and conditions that Respondent would like to be incorporated into the Ground Lease and Development Agreement, as well as any objections to existing terms and conditions.

3.2. EVALUATION CRITERIA AND PROCESS

(a) **Administrative Review of Proposals**. City Procurement staff shall first review all proposals in detail to make a determination as to the responsiveness of each proposer:

(1) A proposal will be deemed responsive where it complies with the requirements as set forth in this solicitation, including the submission of all required documentation in the format outlined by this ITN.

(2) If a proposal is found to be inadequate with regard to any of the requirements set forth in this solicitation, the City's Procurement and Contracting Officer, in his/her sole discretion, shall make a determination as to whether or not the deficiency can fairly be corrected or if the proposal should be rejected and found to be non-responsive.

(3) Only those proposals found to be responsive shall be submitted to the Selection Committee.

(b) **Selection Committee Preliminary Review (Pass/Fail)**. Preliminary Review shall consist of the evaluation of proposal quality and clarity, as well as the proposer's understanding of the project and design and construction approach on a pass/fail basis. Selection Committee members will individually assess a pass or fail score for each of the evaluation criteria noted below. Proposals that do not receive a majority passing score will be rejected. Proposals receiving a majority passing score will be shortlisted and shall move forward to Financial Review.

PRELIMINARY REVIEW EVALUATION CRITERIA	SCORING (PASS/FAIL)
Proposal Quality Including Clarity and Understanding of Project and Objectives	Pass/Fail
Design and Construction Approach and Process	Pass/Fail

(c) **Financial Review Committee Review**. A financial review committee consisting of non-voting members will be formed for the purposes of reviewing specific portions of a proposal and requesting specific information and documentation necessary to determine project feasibility with regard to cost, financing, and proposer's financial resources to perform the contract and provide the services. The Financial Review Committee's findings will be provided to the Selection Committee for use in Final Scoring.

(d) **Selection Committee Final Review**. Selection Committee Final Review shall consist of the evaluation of the proposals received only from those firms shortlisted during Preliminary Review against the evaluation criteria noted below. If oral interviews are determined to be necessary, final scoring will be conducted after the interviews.

FINAL REVIEW EVALUATION CRITERIA	SCORING (100 POINTS)
Development Concept and Compatibility	40
Qualifications and Experience of the Firm and Team Members	40
Financial Ability of Firm and Fiscal Impact to City	20
Total Maximum Points	**100**

(e) **Negotiations.** Negotiation meetings will be conducted in Ocala, Florida and the City will distribute instructions and/or agendas in advance of each negotiation session.

(1) Representatives for each Proposer should plan to be available, without interruptions, for the entirety of the Proposer's scheduled negotiation meeting. Negotiations will include discussions of the scope of project and development plans to be provided by the Developer until acceptable terms are agreed upon, or it is determined that an acceptable agreement cannot be reached.

(2) The Procurement and Contracting Department, along with departmental staff and the City Attorney's Office shall attempt to negotiate a contract with the highest-ranked vendor under terms and conditions that are fair, competitive, and reasonable.

(3) Should the City be unable to negotiate a satisfactory contract with the highest-ranked vendor, negotiations with that vendor shall be terminated and negotiations with the next highest-ranked vendor shall proceed. If negotiations with the next highest-ranked vendor are unsuccessful, negotiations shall be terminated and attempted with the third highest-ranked vendor. This process shall continue until an agreement is reached or until the Procurement and Contracting Officer rejects all proposals and either cancels the solicitation or readvertises for new proposals.

(4) Negotiations will not be open to the public, but will be recorded pursuant to Section 286.0113, Florida Statutes. The recorded sessions and any records presented at the meeting will remain exempt from Florida Public Records until such times as the City provides notice of an intended decision or until 30 days after the final reply, whichever occurs first. Provided, however, if the information provided at the meeting is deemed to be material to the ITN, then an addendum will be issued to all responders.

(f) **Posting the Notice of Intent to Award.** After negotiations are conducted, it shall be the City's intent to award the contract to the responsible and responsive vendor that the agency determines will provide the best value to the City. The Buyer shall prepare and post a Notice of Intent to Award to The City's eProcurement system and will request required insurance certificates, performance and payment bods, or other contractual documents from the vendor.

(g) **Council Approval:** The intent to award and contract shall be submitted as a standalone City Council agenda item. The final negotiated agreement must be determined to be fair, competitive, and reasonable by City Council before formal award.

GENERAL NOTES:

1. THE (NAVD88) VERTICAL CONTROL DATUM WAS USED FOR ALL ELEVATIONS.
2. THE (NAD83) COORDINATE SYSTEM WAS USED FOR ALL LATITUDE AND LONGITUDE COORDINATES.
3. ALL ELEVATIONS SHOWN ARE ABOVE MEAN SEA LEVEL (AMSL) UNLESS OTHERWISE NOTED.
4. ALL TRAVERSE WAY CALCULATIONS REFERENCE FEDERAL AVIATION REGULATIONS (FAR) PART 77 WHICH SPECIFIES CLEARANCE REQUIREMENTS FOR ROADS, RAILROADS AND WATERWAYS AS FOLLOWS: A) 17 FEET FOR AN INTERSTATE HIGHWAY, B) 15 FEET FOR ANY OTHER PUBLIC ROADWAY, C) 10 FEET OR THE HEIGHT OF THE HIGHEST MOBILE OBJECT THAT WOULD NORMALLY TRAVERSE THE ROAD, D) 23 FEET FOR A RAILROAD, AND E) FOR A WATERWAY OR ANY OTHER TRAVERSE WAY NOT PREVIOUSLY MENTIONED, AN AMOUNT EQUAL TO THE HEIGHT OF THE HIGHEST MOBILE OBJECT THAT WOULD NORMALLY TRAVERSE IT.
5. EXISTING FENCE HEIGHT IS APPROXIMATELY 6' TALL. IT IS RECOMMENDED THAT FUTURE FENCING IS 7' TALL WITH 1' OF 3 STRAND BARBWIRE PER AC 150/5300-13B, SECTION 6.B.2.1.

PLAN REFERENCED NOTES:

A. THE BUILDING RESTRICTION LINE (BRL) HAS BEEN ESTABLISHED TO REMAIN BEYOND AND CLEAR OF ALL RUNWAY PROTECTION ZONES (RPZS), OBSTACLE FREE ZONES (OFZS), OBJECT FREE AREAS (OFAS), SAFETY AREAS, NAVAID CRITICAL AREAS AND ATCT CLEAR LINE OF SIGHT (LOS).

B. RUNWAY / HOLDING POSITION MARKING SEPARATION DISTANCES ARE AS FOLLOWS:
EXISTING 18-36 / FUTURE 1-19 = 250'
EXISTING 8-26 = 125'
FUTURE 9-27 = 200'

C. ONLY A SAMPLE OF TAXIWAY EDGE SAFETY MARGIN (TESM) LINEWORK HAS BEEN SHOWN FOR EXISTING AND FUTURE TAXIWAY B. (SEE DETAIL A THIS SHEET) FOR THE PURPOSE OF CLARITY. THE TESM LINEWORK FOR EXISTING TAXIWAY A AND FUTURE TAXIWAY C HAS NOT BEEN SHOWN. THE TESM FOR TAXIWAY A IS 7.5' FROM EDGE OF PAVEMENT AND THE TESM FOR TAXIWAY C IS 14' FROM EDGE OF PAVEMENT.

SECTION 6	WAIVER OF MINIMUM STANDARDS PROVISIONS		17
SECTION 7	RATES AND CHARGES		18

SECTION 1. INTRODUCTION

The City of Ocala adopted these Minimum Standards to foster, encourage, promote and develop general aviation and related aeronautical activities at the Ocala International Airport, while promoting safety in all activities, enhancing the availability of high quality services for Airport users and promoting the orderly development of Airport property. In promulgating these Minimum Standards, the Airport will provide a fair and reasonable opportunity without creating an exclusive right or unjust economic discrimination to any potential operators to qualify or otherwise compete for available Airport facilities and the furnishing of selected aeronautical activities. These Minimum Standards will be administered by the Airport Director or its designee.

SECTION 2. DEFINITIONS

Terms used in these Minimum Standards are defined below, and, if the context permits, shall have the same meaning set forth therein even if they are not capitalized. Other words relating to aeronautical practices, processes and equipment will be construed according to their general usage in the aviation industry, unless a different meaning is apparent from the context or specifically defined otherwise. All other words will be construed according to their common literal meaning.

A. Airport: Shall mean the Ocala International Airport.

B. Agreement: Shall mean a written agreement, including a lease, between an Operator and City, or a written agreement, including a sublease, between an Operator and an FBO. The term shall include all amendments to such agreement, lease or sublease.

C. Aircraft Maintenance: Shall mean activities necessary for the maintenance, overhaul, repair, inspection or modification of an aircraft or aircraft components, at a facility that is adequately equipped and staffed to handle the such activities and to promptly obtain parts to permit the Operator of such facility to do so.

D. City: Shall mean the City of Ocala, a Florida municipal corporation.

E. Commercial Aeronautical Operation ("CAO"): Shall mean a commercial aeronautical operation that involves, makes possible, or is required for the operation of aircraft, or which contributes to or is required for the safety of aircraft operations, and where the purpose of the operation is to secure earnings, income, compensation, or profit, whether or not objectives are accomplished.

F. Core Services: Shall mean those services that must be provided to general aviation Airport patrons by an FBO and cannot be subleased to a person. These services are described in Section 5.2.

G. FAA: Shall mean the Federal Aviation Administration.

H. FBO: Shall mean a CAO, or an Operator of a CAO, that meets the requirements of these Minimum Standards to qualify as a FBO, including engaging in the retail sale of aviation fuels, Aircraft Maintenance and other Core Services.

I. Minimum Standards: Shall mean these qualifications or criteria established by the City as the minimum requirements of an Operator engaged in an Airport CAO.

J. Operator: Shall mean a person engaging in, or proposing to engage in, a CAO.

K. Person: Shall mean an individual, trustee, partnership, corporation, limited liability company or any legal entity

L. Specialized Aviation Service Operator ("SASO"): Shall mean a CAO, or an Operator of a CAO, that meets the requirements of these Standards to qualify as a SASO.

SECTION 3. QUALIFICATION REQUIREMENTS

Prospective Operators must submit to the Airport Director the following information prior to entering into an Agreement with the Airport or an FBO:

A. A detailed business plan that adequately describes the scope of the intended operation and the approach to be utilized in performing the CAO in order to provide high quality service to general aviation patrons and the general public.

B. A statement from a bank, trust company or other source acceptable to the City evidencing the financial responsibility of the prospective Operator. The City shall be the sole judge of what constitutes adequate financial capacity.

C. A statement of past experience that establishes that the prospective Operator is qualified to perform the CAO that the Operator proposes to perform.

SECTION 4. GENERAL REQUIREMENTS

4.1 REQUIREMENT OF AN AGREEMENT

Prior to commencing a CAO, the prospective Operator shall enter into an Agreement with the City or an FBO, which will set forth the terms and conditions under which the Operator will operate at the Airport; if the Operator enters into an Agreement with an FBO, it shall provide a copy of such Agreement to City. Such terms and conditions will not be inconsistent with these Minimum Standards.

4.2 ADEQUATE ASSURANCE

The prospective Operator must, upon execution of its Agreement, deliver a performance bond or other adequate assurance in an amount equal to six months of the estimated payments to the Airport, and in any form acceptable to City in its reasonable discretion. If the adequate assurance will expire or no longer be valid during the term of the Agreement (e.g., as would be the case with an official bank check or letter of credit), the Operator shall renew the adequate assurance or take other action to ensure that the adequate assurance remains valid; if the operator fails to do so, the City may recover the amount of the adequate assurance and take other action necessary to protect its rights (including termination of the Operator's Agreement with the City)).

4.3 INSURANCE

The Operator will procure and maintain, during the term of the Agreement, insurance of the types and in the minimum limits determined by the City for the prospective CAO.

4.4 COMPLIANCE WITH LAWS

The prospective Operator will procure and maintain during the term of the Agreement, all licenses, permits and other similar authorizations required for the conduct of business operations.

4.5 MISCELLANEOUS

A. Where more than one CAO is to be engaged in, the Minimum Standards may vary as to each CAO, but may not necessarily be cumulative.

B. The applicable Minimum Standards for any Operator will be predicated upon the nature of the CAO. If at a later date, the CAO is expanded to encompass new or additional types of activities, these new or additional activities must meet the established Minimum Standards for them.

C. CAO shall conduct its operations in an orderly, ethical and commercially reasonable manner. CAO shall control the conduct, demeanor and appearance of its employees, subtenants, invitees and others doing business at the Premises.

SECTION 5. MINIMUM STANDARDS

5.1 MINIMUM STANDARDS

The following criteria are set forth in these Minimum Standards for an Operator engaging in one or more selected CAO at the Airport.

An Operator who is based at the Airport will be subject to applicable federal, state and local laws, codes, ordinances and other jurisdictional regulatory measures including all applicable City and Airport policies, procedures, directives, rules and regulations.

Information regarding rentals, fees and charges to the CAO will be made available to the prospective Operator by the Airport Director.

The Airport recognizes that certain Operators are presently conducting business on the Airport at the time of the enactment of these Minimum Standards that may occupy facilities, or be conducting certain operations, not in compliance with these Minimum Standards. Such facilities or operations will be governed by the existing Agreement provisions, and may be continued or extended by agreement at the City's sole discretion. However, in no event may a nonconforming use be transferred through sale or assignment.

The Airport has the option to exercise its proprietary right to provide one or more CAOs on an exclusive basis.

5.2 FBO

Each FBO will be subject to the following requirements and standards:

A. Core Services. Each FBO shall provide the following CAOs:

1. Tie-down and hangar storage.

2. Sale and into plane dispensing of aviation fuels.

3. Adequate ramp service for general aviation aircraft users, with a qualified attendant available on the ramp for the purpose of providing aircraft guidance, aircraft parking, tie-down and after hour on-call service.

4. Operation of a fuel farm facility for the storage, handling and delivery of aviation fuel products.

5. Emergency service to disabled general aviation aircraft on the Airport, including towing and transporting disabled aircraft at the request of the owner or operator of the aircraft, or the Airport.

6. Flight planning and flight services facilities, local navigation charts, flight planning materials and weather information available during hours of operation for the Airport patron.

7. Courtesy transportation providing passenger transportation service between FBO and reasonable nearby destinations.

B. Other Service Requirements: Each FBO must:

a. Operate either: (1) a Part 145 Repair Station; or (b) a facility that provides Non-145 Aircraft Maintenance; and

b. Provide the Core Services, or subcontract for the following CAOs to a minimum total value of 3. (For purposes of calculating the values of the CAOs, an FBO that provides a Part 145 Repair Station may not include any value from any Non-145 Aircraft Maintenance, to achieve the total value requirement.)

Value	Commercial Aeronautical Operation (CAO)	
2	Part 145 Repair Station	Operating a Repair Station that is certified under, and in compliance with, Part 145 of Title 14, CFR, and employing, or subcontracting for, at least two employees currently certified by FAA to perform airframe or power-plant repair. At least one of these employees must be appropriately rated to perform 100-hour and annual / phase inspections. At least one employee must be "on call" during off-duty hours.
1	Non-145 Aircraft Maintenance	Operating a facility that provides aircraft maintenance but is not certified under Part 145 of Title 14, CFR, and employing, or subcontracting for, at least two employees currently certified by FAA to perform airframe or power-plant repair. At least one of these employees must be appropriately rated to perform 100-hour and annual inspections. At least one employee must be "on call" during off-duty ours.
1	Aircraft Charter	Non-scheduled air charter (FAR Part 135) for transporting passengers, cargo, and mail, including air ambulance.
1	Aircraft Paint Shop	Aircraft painting for all types of aircraft.
1	Avionics Repair and Installations	Avionics repair station specializing in general aviation instrumentation and radios.
.5	Aircraft Flight Training	Flight training school with a two certified flight instructors and two airworthy, owned or leased aircraft, including at least one aircraft suitable for instrument flight instruction.
.5	Aircraft Rental	Aircraft rental with two airworthy, owned or leased aircraft, including at least one aircraft suitable for instrument flight operation.
.5	Aircraft Interior Repair	Aircraft interior repairs for all types of aircraft.
.5	Aircraft Sales	Aircraft sales with at least one pilot with ratings appropriate to the types of aircraft to be demonstrated and an on-airport inventory of four aircraft.
.5	Propeller Repair	Propeller repairs for all types of aircraft.
.5	Aircraft Wash and Detailing	Aircraft washing and detailing for all types of aircraft.

C. Prohibited Services

1. No commercial services or activities will be conducted from any non-commercial hangar facility on the Airport.

2. Other prohibited services may be identified in the Agreement.

D. Land and Facility Requirements.

1. The minimum ground leased for an FBO will be ten (10) acres.

2. The minimum facilities required will be as follows:

a. One hangar for aircraft storage with an area not less than 10,000 square feet.
b. One maintenance hangar with an area not less than 10,000 square feet and with sufficient parts and shop space adequate to house any aircraft upon which services are being performed.
c. Office/terminal building with an area not less than 5,000 square feet and with amenities including office, pilot's lounge, public telephone, flight planning, restaurant or appropriate vending machines, weather reporting equipment, pilot sleep/rest room, and restroom facilities.
d. Paved ramp with area not less than four acres (174,240 square feet) and with access to hangar sufficient to unload based or owned aircraft from the hangar onto the Operator's lease area without overflow onto non-leased areas.
e. Tie down facilities, equipped with ropes or other aircraft restraining devices, adequate to accommodate 25 aircraft at the Airport.
f. Automobile paved parking to adequately park visiting Airport patron's vehicles and meet all jurisdictional agencies code criteria.
g. An aviation fuel farm facility with a minimum capacity of 12,000 gallons of aviation gasoline and 12,000 gallons of jet fuel storage, along with at least two (2) metered and filter equipped dispensers, fixed or mobile, for dispensing both AVGAS and JET-A fuels.
h. An above ground fuel storage tank with all appurtenant equipment necessary to guarantee 24 hour self-fueling for Airport patrons.

F. Service Hours. Each FBO will be open for business to the public as follows:

1. Core Services and Aircraft Maintenance: Seven days a week, 12 hours a day with emergency "on-call" service provided during off duty hours.

2. All other CAOs: Five days a week, eight hours a day

G. Minimum Management and Staffing Standards.

1. The activities of an FBO will be supervised by a full time, on-site manager or supervisor who will be responsible for adhering to these Minimum Standards and the terms of its Agreement.

2. The FBO will provide, at a minimum, sufficient staff to fill the following key positions:

   a. General Manager
   b. Line Service Manager

3. All staff will be trained and qualified to perform the duties for which they are employed.

4. All staff will wear uniforms and protective clothing and equipment, as appropriate.

5. Additional minimum management and staffing standards may be specified individually in the Agreement.

H. Verification of Appropriate Documentation.

The FBO will obtain and maintain all appropriate licenses, waivers and permits from federal, state and local jurisdictional agencies in regard to the legal and safe operation of their business activity at the Airport. Said documentation will be provided to the Airport prior to commencement.

I. Each FBO shall have an Agreement with the City, and may not merely have an Agreement (including a sublease) with another FBO.

5.3 SASO

Each SASO will be subject to the following requirements and standards:

A. A person can operate as a SASO through an Agreement with the City or with an FBO.

B. Minimum Service, Management and Staffing Standards.

1. Activities permitted under an Agreement by a SASO may include, but will not be limited to, the following CAOs:

a. Aircraft maintenance and repair
b. Avionics and instrument repair
c. Propeller repair
d. Aircraft painting
e. Aircraft upholstery
f. Aircraft accessories
g. Flight training school with a certified flight instructor and two airworthy, owned or leased aircraft, including at least one aircraft suitable for instrument flight instruction.
h. Aircraft rental with two airworthy, owned or leased aircraft, including at least one aircraft suitable for instrument flight operation.
i. Aircraft leasing
j. Non-scheduled air charter for transporting passengers, cargo, and mail, including air ambulance.

i. All operations will be conducted in accordance with and certificated under FAR Part 135 and amendments thereto and all other applicable rules and regulations.

ii. Operators will provide services and equipment for servicing passengers and for handling freight, luggage and ticketing and make available ground transportation for transient patrons.

k. Aircraft sales
l. Aerial advertising
m. Agricultural aerial spraying
n. Aerial photography, mapping or survey
o. Aerial firefighting
p. Power line or pipeline patrols
q. Aircraft Management

2. A SASO offering any of the services listed above, will have a minimum of one employee (with ratings appropriate to the work to be performed) on-site

during operating hours. At all other times, one person must be available, on call, who will respond onsite, if necessary, to customer inquiries and Airport concerns.

3. A prospective SASO that is not based at the Airport and has a temporary, non-recurring, need to conduct operations at the Airport may operate through an Agreement. Such SASOs include, but are not limited, to the following:

   a. Aerial advertising
   b. Air ambulance
   c. Agricultural aerial spraying
   d. Aerial photography, mapping or survey
   e. Aerial firefighting
   f. Power line or pipeline patrols
   g. Mobile aircraft detailing
   h. Mobile aircraft repair and maintenance (reference section 5.4).

C. Prohibited Services.

1. No commercial services or activities will be conducted from any non-commercial hangar facility on the Airport.

2. No commercial services offering tie-down and hangar storage for general aviation aircraft, both itinerant and local.

3. No commercial sale or into plane dispensing of aviation fuels.

4. Other prohibited services may be identified in the Agreement.

D. Land and Facility Requirements Under an Agreement.

1 The minimum ground lease for a SASO will be adequate for the service provided and, in any event, for an area not less than 1/2 acre.

2. The minimum facilities required will be as follows:

   a. Hangar space adequate for the service provided and, in any event, an area not less than 3,600 square feet of floor space.
   b. Paved ramp area not less than the total square feet of associated hangar area. Ramp area must be sufficient to unload aircraft from the hangar onto the Operator's lease area without overflow onto non-leased areas.
   c. An office or administration facility will be adequate for the service provided and, in any event, an area not less than 750 square feet.
   d. All SASO facilities will be required to provide public telephone and public sanitary restroom facilities.

e. Automobile paved parking to adequately park visiting Airport patron's vehicles and meet all jurisdictional agencies code criteria.

E. Public Service Hours. Each SASO shall be open for business to the public as follows: Five days a week, eight hours a day

F. Verification of Appropriate Documentation.

The SASO will obtain and maintain all appropriate licenses, waivers and permits from federal, state and local jurisdictional agencies in regard to the legal and safe operation of their business activity at the Airport. Said documentation will be provided to the Airport prior to commencement.

SECTION 5.4. MOBILE AIRCRAFT REPAIR AND MAINTENANCE

STATEMENT OF CONCEPT

A mobile Aircraft Repair and Maintenance Services Operator ("Mobile Repair Operator") means a person providing one or more of the following services at the aircraft based location: airframe, engine or accessory overhaul; repair services on aircraft; and sales of aircraft parts and accessories. A Mobile Repair Operator must provide A&P/AI personnel certified by the Federal Aviation Administration under FAR 65 to perform aircraft maintenance and inspection services. This category shall also include the sale of aircraft parts and accessories, but such is not an exclusive right. This category is being included to ensure that customers of the FBO, to the extent approved by the FBO and the AIRPORT, have the ability to choose the entity to conduct maintenance on their aircraft.

MINIMUM STANDARDS

1. Land
   The Mobile Repair Operator is not required to lease any land from an FBO or the AIRPORT, but must have an executed agreement with an FBO for access to the leasehold where the aircraft is based. As this category is to provide customer service to the based aircraft, all operations under this category shall occur on the FBO where the aircraft is based.

2. Hangar and Shops

   The Mobile Repair Operator is not required to lease any hangar space, but must have an executed agreement with an FBO for use of hangar space for maintenance purposes.

3. Aircraft Apron

   The Mobile Repair Operator is not required to lease any aircraft apron, but must have an executed agreement with an FBO for use of apron for maintenance purposes to support its activities.

4. Aircraft Service Equipment

   a. The Mobile Repair Operator shall at all times maintain an adequate supply of all necessary parts, equipment and accessories required to support their contract customers. This may be satisfied by a Just in Time Contract with parts supplier.

   b. If the Mobile Repair Operator is involved with moving aircraft, they shall have, or lease, at least one aircraft tug of sufficient power or braking weight to handle any aircraft the Maintenance Operator is permitted to service under the its FAA certificate.

5. Hours of Operation

a. The Mobile Repair Operator shall be "on-call" with a reasonable response time to OCF.

6. Personnel and Training

a. The Mobile Repair Operator shall have in its employ, and on duty during the appropriate business hours, trained personnel in such numbers as are required to meet these Minimum Standards in a safe and efficient manner, but never less than one (1) person currently certified by the FAA with ratings appropriate to the work being performed, and who holds an airframe/power plant and an aircraft inspector rating.

b. The Mobile Repair Operator shall maintain during business hours a responsible person in charge to supervise its operations on the Airport and with the authorization to represent and act for and on behalf of the Maintenance Operator. This person may be located off-site.

c. All employees will be in uniform with the name of the company prominently displayed.

7. Permit Agreement

a. The Mobile Repair Operator shall execute a permit agreement with the AIRPORT and a vendor agreement with an FBO approved by the AIRPORT which shall specify which types of aeronautical services the Mobile Repair Operator is authorized to provide, and shall contain, if applicable, provisions for fees payable to the AIRPORT, insurance, indemnification, environmental requirements and a security deposit or other form of contract security as required in these Standards acceptable to the AIRPORT. The Mobile Repair Operator shall provide the AIRPORT with its vendor agreement with the FBO together with its permit application under this rules.

c. Each Mobile Repair Operator shall provide the AIRPORT with a signed copy of all agreements or contracts with FBO(s) currently serving the Airport.

d. Each Mobile Repair Operator shall advise the AIRPORT within five (5) working days of any changes in their agreement(s) or contract(s) with any FBO(s) by using the form supplied in Appendix "D" of these Standards.

8. Required Fees and Payments

The exact fees and payments will be determined on an individual basis and incorporated into the permit agreement with the AIRPORT and with the FBO.

9. Limitation on Mobile Repair Operator Services

The following limitations apply to Mobile Repair Operators:

a. Mobile Repair Operators shall not advertise that they are based at OCF.

SECTION 6: WAIVER OF MINIMUM STANDARDS PROVISIONS

Waiver of Standards

The City in its sole discretion may waive all or any portion of these standards for the benefit of the Airport:

A. 1. General Public in time of emergency.

2. Performing public service to the aircraft industry of performing a non-profit emergency medical or rescue service for the general public by means of aircraft.

3. Fire prevention or firefighting operations.

4. Police enforcement or safety operations.

B. Other Waiver Procedure

If a requirement or standard is unreasonable or reasonably anticipated to adversely affect an Operator's business, the Operator may request that the requirement or standard be waived. The request must be in writing and filed through the Airport. Such request shall be reviewed by the Airport Director who shall provide a recommendation to the Airport Advisory Board which shall then provide recommendation to the Ocala City Council. Ocala City Council may consider waiver of any portion of the standards for the benefit of the aviation community or the Airport.

SECTION 7
RATES AND CHARGES

The following rates and charges are applicable to the following activities or sales. All amounts are assessed on an annual basis unless specifically noted:

THE FOLLOWING APPLIES TO ALL AIRPORT USERS

FUEL FLOWAGE

AVGAS (100LL) Fuel:	$0.065 per gallon
JET-A Fuel:	$0.065 per gallon

OTHER CAOs NOT SPECIFICALLY LISTED ABOVE:

Annual payment of a minimum of $500 or $125 per single, $150 per twin, $175 per turboprop, $200 per jet, $200 per helicopter (whichever is greater).

LANDING FEE

Aircraft over 100,000lbs MGTOW:	$300.00 per arrival

PASSENGER STAIRS:	$300 per use

SPECIAL EVENTS

Special Events:	$50.00 per day

CAR RENTALS	10% Adjusted Gross Revenue

LOCATION FEES

Commercial Filming	$300 per hour
Commercial Photography	$100 per hour

T-HANGAR RATES

T- Hangar Sizes	MONTHLY RATE	WAIT LIST LEASE DEPOSIT
1,088 sq. ft.	$330	$330
1,267 sq. ft.	$415	$330
1,309 sq. ft.	$546	$330

SECTION I
Introduction and Land Uses

A. Introduction

These standards have been developed to facilitate the short-term and long-term goals for future development of the Ocala International Airport. These goals are varied, but include: 1) ensuring a high quality of design; 2) promote design consistency throughout the development; and 3) protect the long-term values of the development. It is the Purpose of these standards to compliment the Ocala International Airport Master Plan by unifying the Airport Master Plan concepts during the implementation phases of the aviation and non-aviation related land use developments.

The manual will serve as the structure for controlling the development performance and aesthetic standards. These standards are to be strictly adhered to and do not alleviate the developer from other necessary regulatory responsibilities. These standards have been written with flexibility to allow for a wide range of land use categories, adoption for a wide variety of site sizes, locations and infrastructure improvements.

The manual will afford the City of Ocala control over the development of the Airport to assure the long-term integrity of the development. Further objectives of these standards include:

- Promote measures that will assure airport safety and security are properly addressed.
- Promote efficient use of land to minimize environmental impacts.
- Assure compatibility of the development proposed by the various uses.
- Designate and maintain appropriate corridors for utilities, public access to various airport facilities and controlled airside access (if available).
- Provide adequate separation between buildings and public right-of–ways.
- Provide ample off street parking with appropriate landscaping to screen vehicle and equipment storage.
- Minimize to the maximum extent possible conflicts with applicable regulations of the Federal Aviation Administration, Florida Department of Transportation, City of Ocala, and the various other agencies having jurisdiction.

Where during the implementation of these standards a conflict arises between these standards and any ordinance of the City of Ocala, the provision of City of Ocala ordinances shall prevail.

Requests for information and assistance regarding these development standards and the application of these objectives to the proposed development should be directed to:

Airport Director
Ocala International Airport
750 S.W. 60th Avenue
Ocala, FL 34474

B. Land Uses

1. General

All developers/owners leasing property within the Airport must have, prior to placing any parcel of land into use, written authorization from the City of Ocala.

No use of the land shall be permitted which is offensive by reason of odor, fumes, dust, smoke, noise, or pollution, or which is injurious to a building or person on the land or on neighboring property or which is in violation of any governmental statutes or regulations.

2. Specific Uses

Ocala International Airport encompasses approximately 1463 acres of land dedicated to a variety of aviation and non-aviation related land uses. These land uses include:

Aviation Sites. These sites offer development opportunity for a variety of aviation related uses, and are located in close proximity to the established aircraft operational areas.

Industrial Sites. The non-aviation related industrial sites for development are located on the west side of the Airport and encompass approximately (366) acres. Allowable uses for the development of this property include zoning classifications M-1 and M-2, as defined in accordance with Article V of the City of Ocala Zoning Code.

Commercial Sites. The non-aviation related commercial sites identified for development are located along State Road 40 on the north side of the Airport. These development sites encompass approximately (121) acres. Allowable uses for the development of this property include zoning classification B-2 and B-2A, as defined in accordance with Article V of the City of Ocala Zoning Code, with the exception that any residential use shall not be permitted.

The implementation of land use controls associated with the development of Airport property shall be in conformance with the Land Development Code of the City of Ocala. However, various uses that may be permitted under the Land Development Code have been determined to be incompatible with Airport Operations. Those incompatible land uses include, but are not limited to:

- Schools (other than aviation related training schools)
- Day Care centers
- Hospitals
- Nursing homes
- Single and multi-family residential units
- Mobile Home Parks
- Churches
- Auditoriums
- Concert Halls

SECTION II
APPLCATION of
Other REQUIREMENTS

A. City of Ocala Ordinances, Codes and Regulations along with those of the various other agencies apply, to a greater or lesser extent, to all construction and development on the Airport.

B. Development approval by the City of Ocala does not guarantee the proposal will be permitted or otherwise approved for any intended use or purpose, or that required regulatory development permits or approvals can be obtained.

C. All pertinent requirements of public agencies must be adhered to in the development of Ocala International Airport property, and all plans must be routed through the permitting/approval process of the City of Ocala. Prior to development each developer must verify the current code requirements, as they may be amended from time to time. These Development Standards may be more restrictive than local land use regulations, site development standards, landscape requirements, or in other matters. In every case in which these standards are at variance with public agency requirements, the more restrictive regulations will govern.

D. Acquisition of all required regulatory permits and approvals, including construction permits and development approval by the City of Ocala, are the sole responsibility of the developer proposing a particular development. The consequences of failure to obtain required approvals or permits shall rest solely with the developer.

SECTION III
REVIEW PROCESS

A. Introduction

Development approval by the City of Ocala is required prior to the undertaking of any site improvements, construction or installation including clearing, grading, paving, signs, walls, fences, and drainage facilities, as well as lighting, building structures, landscaping and all alterations considered external to a building. This approval shall be in writing and shall become part of the file for each individual development. Although the City of Ocala shall not be responsible for monitoring or otherwise administering the actions of the various other jurisdictional agencies, copies of all permit applications and approvals shall be forwarded to the City.

B. Approval Process and Review Procedures

The approval process for all development at the Ocala International Airport shall proceed in accordance with the site plan review requirements established under Article IV of the City of Ocala Ordinances. In addition to site plan review, all buildings proposed to be constructed at Ocala International Airport shall undergo architectural review.

At least forty-five (45) days prior to submittal of a Site Plan by developer to the City pursuant to the requirements of Section 122-214 of Article IV of the City of Ocala Ordinances, the developer shall present the proposed Site Plan to the Airport Advisory Board for formal review and comment. The function of the Airport Advisory Board shall be as follows:

1. Evaluate all Site and Building Designs, based upon individual site and Tenant requirements, on adherence to aesthetic and performance quality standards defined in these standards and compatibility with the adjoining sites and common spaces.

2. Interpret the standards. If conflicts arise in meeting these standards, the Airport Advisory Board will review and evaluate the conditions, and make recommendations to the developer and/or City to resolve the conflicts.

3. Coordinate compatibility of all designs to maintain a unified character of common spaces such as stormwater management, landscape areas and development cores.

4. Make recommendations to update design standards as may be necessary in the future.

The City of Ocala reserves the right to modify the design and development standards as may be required in the future to achieve the development goals.

Future additions and alterations to completed developments are subject to review and approval by the City of Ocala.

C. Overview of Review Process

The following is a general overview of the review and approval process.

1. Obtaining a lease agreement or, if applicable, a future amendment to an existing lease with the City covering the leasehold interest to be developed.

2. Submit ten (10) copies of the formal Site Plan review package to the Airport Advisory Board for review and comment. The submittal should be made to:

Airport Director
Ocala International Airport
750 S.W. 60th Avenue
Ocala, FL 34474

3. After receipt of comments by the Airport Advisory Board, submit for formal site plan review and approval by the City of Ocala.

4. If applicable, apply for and obtain approval of the leasehold improvement by the Federal Aviation Administration by submitting a properly documented FAA Form 7460-1. This document shall be prepared by the developer and submitted to the City for transmittal to the FAA.

5. Complete development of final plans and specifications for the leasehold development and obtain all approvals required for the leasehold development.

6. Apply to the City of Ocala for a building permit for the proposed improvement, alteration and/or renovation as required by City Code.

7. Within 60-days following substantial completion of the development, provide the City with "as built" documentation. Substantial completion shall be considered as the date of the Occupancy Permit issued by the City.

D. Required Minimum Documentation

In addition to the general and specific information required by the City for site plan review, the following information is required in order to conduct any required architectural review.

1. Dimensioned building floor plans and elevations, all faces (1/16" = 1' or 1/8" = 1'), showing the type, quality and color of all materials proposed. This drawing shall include the floor slab elevation and any item of permanent construction placed adjacent to or on top of the building.

2. If applicable, line of sight drawings evidencing a clear line of site from the proposed location of the Air Traffic Control Tower cab over all leasehold development, including aircraft parking adjacent to the development, to any aircraft operational area that may be impacted by the development.

3. Color scheme, layout and method of lighting for all exterior signage permanently attached to the building. If not shown on the building elevation, a separate drawing shall be submitted that shows the relationship between the proposed signage and the architecture of the building.

4. Color scheme, layout, location and method of lighting of all freestanding signs.

5. A color perspective rendering of the building and site entry sign, suitable for presentation.

6. Samples of all exterior material of the type, texture and color proposed should be submitted.

E. Miscellaneous Development Requirements

1. **Basis of Approval**. Review and approval will be based on standards set forth in this document, and the Ordinances of the City of Ocala. Plans will be reviewed not only for the quality of the specific proposal, but also for the development's effect and impact on its neighbors and on the general existing or planned surroundings. Evaluation will be made of spatial relationships among buildings and between buildings and other surrounding elements with the

intent of minimizing detrimental visual impact.

The City's interest in reviewing development proposed on the Airport is to assure that a high quality of compatible development is consistently achieved. When questions of judgment or interpretation arise, the decision of the City is final. All issues not covered specifically by these Standards will be resolved by the City on a case-by-case basis.

2. **General Security Requirements**. The developer shall design, construct and separate the development in a manner that assists the City of Ocala in controlling access between the airside and landside portions of the airport, if applicable. Security access points shall be designated on the site plan.

   The operation of all ground equipment, mobile or stationary, required for construction, repair, or any other purpose within the limits of the airfield shall be reviewed and approved by the City.

   All lessees operating within the active aircraft operations area (AOA) may be required to be badged by the City. Lessees shall be responsible for providing the required information to the Airport to obtain badges.

3. **Historical Resources**. The developer shall include a provision in all applicable construction that will suspend construction operations should archaeological and/or historical resources be discovered on the site of the development.

   Such findings shall be immediately reported to the Airport Director who will in turn notify the Florida Division of Historical Resources (FDHR), and the appropriate City departments.

   No disruption of the findings shall be permitted and no development as defined under Section 380.04, Florida Statutes, shall occur within a minimum 100-foot radius of the site(s) of discovery until such time as the FDHR has surveyed the findings and determined significance and appropriate protective measures.

   The developer shall be subject to all conditions determined by the FDHR.

4. **Wastewater Pretreatment**. The developer shall, in the development of schematic or preliminary design of industrial type leasehold developments, coordinate with the City in order to determine wastewater pretreatment requirements. All wastewater pretreatment shall conform to the requirements of Section ??? of the City Code.

   The generation of hazardous wastewater shall be prohibited unless adequate facilities are constructed and used for hazardous effluent storage (temporary and/or permanent), treatment and/or removal, and appropriate sludge disposal methods are used in accordance with the rules and policies of the U.S. Environmental Protection Agency (US EPA), Florida Department of Environmental Protection (FDEP), and City of Ocala Department of Public Works.

Hazardous effluent shall be handled in accordance with US EPA and FDEP criteria.

5. **Stormwater Management**.
All stormwater management facilities shall be designed in accordance with the requirements of the City of Ocala.

6. **Water Conservation**.
Water conservation measures shall be incorporated in all developments. These measures may include the use of water-saving plumbing devices, drought resistant native vegetation for landscaping, limited irrigation during drought conditions, and all requirements of Chapter 553, Florida Statutes.

7. **Source of Irrigation Water.** The source of irrigation water shall be provided by the public access reuse system owned by the City of Ocala.

8. **Hazardous Materials**.

a. All developers/lessees that will use, handle, store, display or generate hazardous materials as that term may be defined under state or federal law (i.e., materials that are ignitable, corrosive, toxic or reactive) shall do so in accordance with the statutes, rules and regulations of local, state and federal governmental authorities. The following list includes, but is not limited, those commonly occurring waste types that have the potential of being hazardous. Additions to this list may be made based on the discretion of the Airport Director..

(1) Waste pesticides.

(2) Washing and rinsing solutions containing pesticides.

(3) Empty pesticide containers.

(4) Spent toxaphene solutions or sludges from dipping.

(5) Spent pesticide solutions or sludges other than toxaphene from dipping.

(6) Dust containing heavy metals.

(7) Washing and rinsing solutions containing heavy metals.

(8) Wastewater treatment sludges containing heavy metals.

(9) Waste ink.

(10) Ignitable paint wastes containing flammable solvents (flash point less than 140 degrees F),

(11) Liquid paint wastes containing heavy metals (cadmium, chromium, mercury or lead).

(12) Spent solvents.

(13) Still bottoms from the distillation of solvents.

(14) Filtration residues from dry cleaning operations.

(15) Cyanide wastes.

(16) Strongly acidic or alkaline wastes.

(17) Spent plating wastes.

(18) Waste ammonia.

(19) Photographic wastes.

(20) Ignitable wastes (flash point less than 140 degrees F).

(21) Wastewater sludges containing pentachlorophenol, creosote, or arsenic.

(22) Waste formaldehyde.

(23) Lead-acid batteries.

(24) Waste explosives.

(25) Waste oil.

(26) Other ignitable, corrosive, reactive and EP toxic, as these waste types are

defined in 40 CFR 26L21, 261,22, 261.23 and 261,24.

b. Buildings where significant amounts of hazardous materials or hazardous wastes, as generally defined above, are to be used, displayed, handled, generated, or stored shall be constructed with impervious floors, without drains, to ensure containment and facilitate cleanup of any spill or leakage. The temporary or permanent storage of hazardous materials shall be in a facility with impervious floor and side walls adequate to contain the hazardous materials.

c. The outside storage of hazardous materials or hazardous waste shall be prohibited.

d. All hazardous waste generators shall contract with a licensed public or private hazardous waste disposal service or processing facility and the City shall be provided copies of the following forms of documentation of proper hazardous waste management practices:

(1) a hazardous waste manifest.

(2) a shipment to a permitted hazardous waste management facility, or.

(3) a confirmation of receipt of materials from a recycling or a waste exchange operation,

e. The generation of hazardous effluent shall be prohibited unless adequate facilities, approved by the City and the Florida Department of Environmental Protection, are constructed and used by tenants generating such effluent.

f. Hazardous sludge materials generated by effluent pretreatment shall be disposed of in a manner approved by the U.S. Environmental Protection Agency and the Florida Department of Environmental Protection.

g. Proper on-site handling and temporary storage procedures for all hazardous waste that may be generated on site shall be identified in accordance with local, regional, state and federal hazardous waste programs,

h. Reasonable access to facilities shall be provided for monitoring by the City and all applicable regulatory agencies.

i. Hazardous spill contingency plans shall be developed and approved as indicated below for all industrial parcels prior to beneficial occupancy of the leasehold development.

(1) the plan shall be submitted to the Airport Director and the Florida Department of Environmental Protection (if applicable) for review and approval prior to development of any industrial leaseholds.

(2) Upon approval, the plan shall be submitted to the Ocala Engineering Department. In addition a copy of the approved plan shall be submitted to the Airport Director with documentation indicating regulatory approval.

(3) This plan shall be implemented immediately in the event of any future spills.

F. Operational Requirements During Construction

The operation of all ground equipment, mobile or stationary, required for construction, repair, or any other purpose within the limits of City property shall be governed as follows:

1. All equipment and materials when not in use or, about to be installed shall be stored on the leasehold or in a location

approved for this purpose by the Airport Director. All equipment on the airside of any leasehold, whether or not it is in use, shall be properly marked with yellow, or orange and white checkered flags of a size not less than 2 feet square during the day and with amber electric flasher lights at night, or as otherwise instructed. No equipment shall be parked within 750 feet of the centerline of any runway or within 250 feet of the centerline of any taxiway, unless specifically authorized by the Airport Director. Equipment parked on the airfield area shall be kept to an absolute minimum and restricted to equipment actually used or needed for the work under progress.

2. Parking areas for Contractor equipment, supplies, materials and employee vehicles will be as established by the Airport Director or as indicated on the plans.
3. Contractor shall conform to the requirements of the Airport Director as to the placement, type and service of special barricades, obstruction and hazard marking and lighting devices used to identify danger areas.
4. Neither equipment nor personnel shall use any runway, taxiway or apron for the purpose of hauling materials or access to the work, unless approved by the Airport Director. Authorized equipment operating on any hard surface is limited to that equipment with pneumatic tires. Prior to use of any hard surface, permission shall be obtained from the Airport Director. All drivers shall be instructed to be alert for aircraft and to follow routes designated for vehicular traffic All vehicles will be clearly marked to identify owner. No privately-owned vehicle will be operated on runways or taxiways.
5. Prior to initiation of operations which will require the crossing of any hard surface used by aircraft, the Contractor shall assure himself that a signalman, with visual or radio contact with the Air Traffic Control Tower (if applicable), or capable of monitoring air traffic, is on duty at the site of the crossing to regulate traffic. Moving aircraft have priority over all other traffic on the field. Only equipment equipped with pneumatic tires shall be allowed to cross paved areas. It shall be the responsibility of the Contractor to keep paved surfaces free of any material at all times that might drop from moving vehicles while crossing paved areas.
6. Hauling across Runway Protection Zones of any runway will not be permitted, unless authorized by the Airport Director.
7. Contractor must agree to permit only his bona fide employees and those of his subcontractors access during actual hours of work.

G. Minimum Insurance Requirements During Construction

It is incumbent on the developer to assure that its construction contractor has sufficient insurance provided by a reliable insurance company authorized to do business in the State of Florida to protect the interests of the City. These insurance requirements shall not relieve or limit the liability of the developer or construction contractor. The City does not in any way represent that these types or amounts of insurance are sufficient or adequate to protect the developer or construction contractor's interests or liabilities, but are merely minimums. No insurance is provided by the City to cover developer or contractor(s). Prior

to the issuance of a building permit, the developer shall provide the City with documentation acceptable to the City that its contractor has satisfied the following minimum requirements:

1. General Requirements

a. Developer shall require that each contractor take out and maintain insurance of such types and in such amounts as are necessary to cover his responsibilities and liabilities on each leasehold development, and shall require all his subcontractors to carry similar insurance.

b. The City will accept, in lieu of all subcontractors carrying similar insurance, an "Owner's and Contractor's Protective Liability Policy" paid for by the contractor and written in the name of the City for the amounts specified hereinafter, including all the special coverage. Said policy must protect the City for all claims for bodily injury and/or property damage arising out of operations for the named insurance by said contractor, or any subcontractor of said contractor.

c. No contractor or subcontractor shall commence work under this contract until he has obtained all insurance required under this Section and such insurance has been approved by the City. In the event that a contractor's insurance, or any portion of it should lapse, the developer shall immediately require its contractor to suspend operations until such time as adequate coverage is reinstated.

d. Each contractor shall file with the City a Certificate of Insurance. Any certificate submitted and found to be altered or incomplete will be returned as unsatisfactory. If requested by the City, contractor through the developer shall furnish the City with true copies of each policy required of the contractor or its subcontractors.

e. Said policies will not be canceled or materially altered, except after fifteen (15) calendar days advance written notice to the City, mailed to the following address:

Airport Director
Ocala International Airport
750 SW 60th Ave
Ocala, FL 34474

2. Required Coverage: Insurance under this Section shall, as a minimum, include the following coverage:

a. Worker's Compensation and Employer's Liability Insurance:

(1) The contractor shall procure and maintain at its expense, insurance of the kind and in the amount hereinafter provided, by companies authorized to do such business in the State of Florida, covering all operations under this Contract whether performed by them or by a subcontractor.

(2) Before commencing the work, the contractor shall furnish to the City a certificate, or certificates, in a form satisfactory to the City, showing that they have complied with this paragraph, which certificate, or certificates, shall designate the City of Ocala as an additional named insured.

(3) The kinds of amounts of insurance required shall be stated in a policy covering the obligations of the contractor in accordance with the provisions of Florida Worker's Compensation Law.

b. Comprehensive General Liability Insurance covering:

Policies of bodily injury, liability and property damage liability insurance, of the types hereinafter specified, each with limits of liability of not less than $1,000,000.00 for all damages arising out of bodily injury, including death, at any time resulting therefrom sustained by one person in any one accident, and not less than $1,000,000.00 for all damages arising out of injury to or destruction of property, with respect to the following:

(1) Operations, Premises Liability, Including, but not limited to, Bodily Injury, including death at any time resulting therefrom, to any person or Property Damage resulting from execution of the work provided for in this contract, or due to or arising in any manner from any act or omission or negligence of the contractor and any subcontractor, their respective employees or agents.

(2) Elevator Liability, including, but not limited to, Bodily Injury, including death at any time resulting therefrom, to any person or Property Damage resulting from operation or use of any elevator or hoist, if either or both are operated or used in connection with execution of this contract.

(3) Contractor's Protective Liability, including, but not limited to, Bodily Injury, including death at any time resulting therefrom, to any person or Property Damage arising from acts or omissions of any subcontractor, their employees or agents

(4) Products, including, but not limited to, Bodily Injury, including death at any time resulting therefrom to any person or Property Damage because of goods, products, materials, or equipment used or installed under this contract.

(5) Contractual Liability.

Each and every policy for liability insurance, carried by each contractor and subcontractor, as required by this Section, shall specifically include Contractual Liability coverage.

c. Special Requirements.

The insurance required under requirements for comprehensive general liability shall specifically include the following special hazards:

(1) Property Damage caused by conditions otherwise subject to exclusions "x,c,u" Explosion, Collapse or Underground Damage.

(2) Broad Form Property Damage endorsement, which has reference to property in the "care, custody, or control" of the insured.

(3) "Occurrence" Bodily Injury coverage in lieu of "caused by accident".

(4) "Occurrence" Property Damage coverage in lieu of "caused by accident".

d. Comprehensive Automobile Liability covering:

(1) All owned, hired, or non-owned vehicles including the loading or unloading thereof,

(2) Special Requirements:

The insurance provided under this section shall specifically include the following special hazards:

(a) "Occurrence" Bodily Injury in lieu of "caused by accident."

(b) "Occurrence" Property Damage in lieu of "caused by accident."

(3) The insurance under this section shall be written in the following limits of liability as a minimum:

(a) Automobile Bodily Injury: Each Person: $500,000

Each Occurrence $1,000,000

(b) Automobile Property Damage

Each Occurrence $1,000,000

3. Indemnity

The developer and contractor shall indemnify and hold harmless the City and their elected officials, employees and volunteers from and against all claims, losses and expenses, including legal costs, arising out of or resulting from, the performance of any agreement with the City, provided that any such claims, damage, loss or expense is attributed to bodily injury, sickness, disease, personal injury or death, or to injury to or destruction of tangible personal property including the loss or loss of use resulting therefrom and is caused in whole or in part by any negligent act or omission of the developer or contractor.

SECTION IV
SITE DEVELOPMENT STANDARDS

THE PURPOSE OF THESE SITE DEVELOPMENT STANDARDS, WHICH SET FORTH LOT REQUIREMENTS, BUFFERS, SITE LAYOUT, UTILITY, DRAINAGE, AND CIRCULATION REQUIREMENTS, IS TO ENSURE, TO THE EXTENT POSSIBLE, THE OVERALL SAFETY AND SECURITY OF THE OCALA INTERNATIONAL AIRPORT.

The intent of these standards is to furthermore produce a development which is aesthetically and environmentally pleasing, while protecting the values and interests of adjoining property owners.

A. Buildings

1. All buildings shall be set back from the airfield ramps, taxiways, and other areas used by aircraft in compliance with standards established by the FAA or as required by the City. All development shall conform to the dimensional requirements detailed on the Airport Layout Plan.

2. Lot Requirements

All lot requirements shall conform to Section 122 of the Code of Ordinances of the City of Ocala.

3. Buffers

The buffer requirements set forth in Section 122-260 of the Code of Ordinances of the City of Ocala are applicable.

B. Parking

1. Sufficient parking shall be provided on the leasehold for each developer's employees, patrons and visitors. All parking areas and spaces shall be identified on the site plan. The design of all parking areas shall comply with Article VI of the Code of Ordinances of the City of Ocala, and applicable Americans with Disabilities Act (ADA) regulations.

2. Specific requirements are as follows:

a. No parking shall be permitted on or adjacent to streets or driveways. All parking areas shall be paved and marked.

b. Parking in areas between buildings and roads shall be acceptable if these are designated on the site plan as parking areas, are screened from roadways by landscaping and/or berms.

c. Handicapped parking spaces will be located in areas convenient to building entrances. The number and dimensions of spaces so provided shall be consistent with ADA regulations.

C. Driveways and Sidewalks

1. Driveways:

Onsite vehicular circulation should follow a clear hierarchy to provide:

* Proper ingress and egress based on projected traffic volume.
* Ease of orientation for visitors.
* Clear sense of arrival.
* Site distance.

a. General

The width and number of driveways for a parcel or leasehold shall be determined by the type of use to which the leasehold is put and the volume of traffic projected to use the driveway(s). In general, driveways will conform to the requirements of the City of Ocala.

b. Access and egress points shall be designed to minimize hazards, inconvenience and congestion by providing simple circulation patterns and ample stacking room, No access points shall lead

directly into a parking bay. Instead, access shall lead into distribution roads which in turn feed into parking bays.

c. Landscaping or commercial signs located within an island in a driveway may be approved by the City. Landscaping shall not block sight distance or pose a traffic hazard,

d. The developer shall be responsible for all arrangements and agreements with adjacent property owners when joint use driveways or internal cross easements are permitted by the City. Said agreements shall be in writing and subject to the approval of the City.

e. Permits: A permit to work within any public right-of-way will be required for all driveways constructed on City owned and maintained roadways. All building plans submitted for permits shall show all existing and proposed driveways, including any required acceleration/ deceleration or left-turn lanes. The City shall review all such building plans on both City and State roadways. A separate permit from FDOT will be required for all driveways on State roads.

Driveway permits will not be issued and access to a parcel will be denied unless a site plan showing the existing or proposed development is submitted or other documents submitted indicating the proposed usage of the driveway and parcel.

2. Sidewalks

a. General. Sidewalks shall be permitted only to provide for internal circulation on leasehold property. Additional sidewalks may be approved based on a showing of necessity if required to accommodate pedestrian traffic between leaseholds.

b. Design Requirements.

(1) All sidewalks shall be designed in accordance with the requirements of the City.

(2) Sidewalks shall be designed and pedestrian roadway crossings located to minimize pedestrian/vehicle conflicts and to provide adequate site distance for both the pedestrians and the vehicle drivers. Proper warning signs and special markings shall be provided if deemed necessary by the City.

(3) Handicap ramps shall be located at all pedestrian crossings through curbs.

D. Landscaping and Irrigation

1. A landscape and irrigation plan shall be prepared and submitted to the Airport Advisory Board and City in accordance with these standards. All landscaping shall conform to the City of Ocala Zoning Code.

2. All landscaped and sodded areas shall be provided with 100% coverage by an automatic underground irrigation system. Sod and landscape areas shall be on separate zones.

3. Plant materials used in conformance with the provision of this section shall equal the standards of Florida #1, as given in "Grades and Standards for Nursery Plants" and other amendments thereto for the highest quality available. Plant materials must be selected for interest, structure, texture, color and ultimate growth in harmony with and complementary to the building and other materials.

4. Maintenance of all landscaping and irrigation systems shall be the responsibility of the developer. All landscaped and sodded areas will be maintained in accordance with the approved plan and maintenance will be enforced.

5. Landscaping items shall not be greater than 2.5 feet in height when located within the line of sight required to maintain adequate sight distance at all intersections,

horizontal curves, driveways and pedestrian crossings.

6. All trees used in landside landscaping shall have a minimum trunk diameter of 4 inches and shall have a minimum unobstructed clear height of 7 feet from the sidewalk or roadway surface to the bottom of the branches. Trees that have a drip line which protrudes over the roadway surface shall have a minimum unobstructed clear height of 14 feet from the roadway surface to the bottom of the branches.

E. Site Grading

1. A grading and drainage plan for the leasehold development shall be submitted by the developer to the City for approval. The use of landscaped earth mounds and berms for screening in parking lot medians, roadway medians, parking setbacks and parking lot islands is encouraged. A comprehensively designed drainage, landscaping and pedestrian system is required in all areas.

2. The minimum first floor elevation shall be established above 100-year flood plain elevations as defined by the Federal Emergency Management Administration.

3. The developer shall provide measures to reduce soil erosion and sediment deposits in drainage channels, ponds and downstream areas during construction. Specific measures shall be included on all plans submitted fix approval.

4. The developer shall protect all existing utilities not required to be removed throughout construction. The developer shall also be responsible to maintain access to adjoining existing buildings, if required. The developer shall furnish, place and maintain all required safety and protection devices.

5. The developer shall conduct all grading operations to minimize the creation of dust and shall include measures in the leasehold development specifications to prevent or alleviate the possibility of a problem. In the event the creation of dust creates the potential for the obstruction or interference with aircraft operational areas, the Airport Director has the authority to limit grading operations or otherwise direct dust control operations.

6 Unless otherwise directed, it shall be the developer's responsibility to remove all materials and equipment not necessary for the development of the lease property from the airport.

7. The developer shall be responsible for the clean-up of debris and rubbish resulting from its construction activity The developer shall comply with all Federal, state and local hauling and disposal regulations.

F. Drainage and Storm Water Management

All leasehold development shall satisfy the drainage and retention and/or detention requirements of the City of Ocala, the Florida Department of Environmental Protection and the Southwest Florida Water Management District.

Specific requirements for each leasehold area should be coordinated with each regulatory agency early in the development of site engineering. This coordination should include a conceptual drainage plan which outlines the impact of the proposed development.

G. Paving Requirements

The standard construction and material specifications of the City of Ocala shall be

used for roadway, driveway and parking lots for all non-aviation related aircraft operational areas. Those prepared by the Federal Aviation Administration shall be used for aircraft operational areas.

All airfield pavement design shall conform to the relevant FAA Advisory Circulars for pavement design, using as the design aircraft the most critical aircraft proposed to be used over the life of the development.

H. Fencing and Gates

1. Airside: Security fencing shall comply with FAA specifications for chain link fence. The fence separating the airside and the landside shall be chain link not less than 6 feet high and topped with 3 strands of barbed wire. The barbed wire shall be slanted away from the airside at a 45-degree angle. A landscaped screening shall be provided, and located no closer than 10 feet from the fence. The screen shall be maintained in a manner to preclude overgrowth of the security fence.

2. All other leasehold fencing shall be concrete, masonry or poly coated chain link. A 10-foot landscape border screening the chain link fence shall be placed on the public side of the fence. Wood fencing is not permitted.

3. Under no circumstances will developer's fences be located on lands other than those leased by the developer. Fences shall be provided, as needed, to prevent uncontrolled access from landside areas to airfield areas (if applicable). All fences shall be designated on any site plan as to the location and type.

I. Outside Storage

l. The location of outside storage areas and materials used for screening shall be a part of the site plan submitted by the developer to the City and Airport Advisory Board.

2. All outside storage of equipment or other materials shall be screened by an opaque screen utilizing materials that are the same as or similar to the main building or by installation of berms and landscaping acceptable to the City.
3. Equipment and materials shall not be stored in areas fronting the access road.

J. Loading areas

1. All truck loading docks and areas shall be visually screened from public view. No loading docks or areas shall be permitted on the fronts of buildings except for warehouse operations with proper screening approved by the City. Trucks are prohibited from using common passage service roads for access to loading docks and/or area. It shall be the developer's responsibility to provide adequate off-street parking for trucks awaiting access to loading areas or docks.

2. All loading areas shall be designed to enable all truck maneuvering to occur in the developer's parking area, not on the street system.

3. Open storage in loading areas is prohibited. Loading areas shall be identified on any site plan. Standard turning radius shall be required for specific truck sizes intending to use loading areas.

K. Refuse Collection Areas

1. All outdoor refuse collection areas shall be visually screened from public view and

adjacent properties by an opaque screen utilizing materials that are the same as or similar to the main building it serves or by installation of berms and landscaping acceptable to the City. No refuse collection area shall be permitted in a front area.

2. The location of refuse collection areas and materials used for screening shall be designated on the site plan.

L. Electrical Utility and Telecommunication Lines

All electrical and telecommunication transmission lines on the lessee's parcel shall be installed and maintained underground.

M. Exterior Lighting

1. Plans for lighting shall be submitted by the developer to the City and Airport Advisory Board for approval. Lighting in parking areas shall be a uniform style throughout the development.

2. Where pedestrian walkways are not adequately illuminated by street lighting or parking lot lighting, uniform walkway lights shall be used consistent with the style and design of the street lighting system. Lighting poles in parking lots shall be located within parking medians or islands.

3. Any plaza, courtyard, terrace or other exterior pedestrian area adjacent to buildings or incorporated as part of the individual site plan shall use lighting compatible with the lighting styles of the walkway and parking areas.

4. All lighting shall be restricted to down lighting, or shielded. Such lighting shall be restrained in design and levels of illumination so as not to be a hazard to Airport operations or interfere in future air traffic control tower operations. If so requested by the City to resolve a question of interference, the developer shall submit a signed and sealed drawing provided by a registered lighting engineer.

5. A minimum of one-foot candle shall be maintained within parking lots and along pedestrian access ways to buildings. All other pedestrian circulation lighting shall be a minimum of 1/2 foot candle.

6. All aircraft apron lighting shall be designed and constructed in accordance with current FAA Advisory Circulars.

N. Potable Water and Sanitary Sewer Facilities

1. Each developer shall outline in writing its requirements for potable water and sanitary sewer service at the proposed leasehold location.

a. If potential service is available through the City, the developer shall submit a written request for service. This request shall include, but not necessarily be limited to, the following types of information:

(1) an estimate of the quantities of potable water and sanitary sewage that the system will be required to handle. All calculations on which these estimates were based shall also be submitted.

(2) any special requirements such as minimum potable water pressure or peak rates of sewage flow that the lessee expects to be accommodated.

(3) the composition of any sanitary sewage including the method and anticipated efficacy of the pretreatment industrial type waste by the lessee.

b. If potable water and/or sanitary service is not available through the City, the developer shall submit a plan indicating the proposed source of potable water and method proposed for disposing sanitary sewage and industrial wastes.

c. Final details for the installation of the facilities required to provide potable water and dispose of sanitary and industrial type wastes shall be subject to all applicable local, state and federal regulatory requirements. The lessee shall provide the City with a copy of all permits and/or approvals issued any agency with jurisdiction.

d. A copy of all permits obtained by the developer at the date of site plan submission shall be submitted along with the site plan. Any permit for which approval is pending shall be so identified and submitted immediately following issuance.

e. All development constructed on property owned or controlled by the City of Ocala shall fully conform to the requirements of the City and all applicable regulatory agencies.

O. Environmental Protection

All Airport development shall conform to the specific regulatory requirements of applicable state and federal agencies pertaining to threatened and endangered plant and animal species that may be present at any site proposed for development. Specifically the requirements of the Florida Fish and Wildlife Commission shall be adhered to during the development of any site due to potential relocations of various gopher tortoise burrows that have been discovered around the Airport.

SECTION V
BUILDING DEVELOPMENT STANDARDS

A. Building Materials

Architectural designs will be evaluated in terms of the sensitive integration of form, textures, and colors with the particular landscape and topographical character of each site. All windows and glass surfaces shall be non-reflective glass.

Colors, textures, exposed aggregate, and other details must be reviewed by the Airport Advisory Board and approved by the City as a part of the plans submitted by the developer during the site plan review process. Suggested colors include white, beige and light earth tones. There shall be no obligation or requirement for the City to approve any proposed material. Building materials that produce glare or other effects that are hazardous to aircraft operation shall not be permitted. The color palette shall be approved by the City, and should be consulted prior to color selections by the developer.

The following types of building materials may be approved by the City.

1. Exterior walls

a. Office and Industrial Buildings or portions of building containing offices:

(1) Tilt up or precast concrete panels.

(2) Precast concrete with exposed coquina aggregate

(3) Stucco

(4) Smooth and Split Face Block

b. Incidental type buildings or Aircraft Hangars including Maintenance Hangars:

(1) Same as paragraph1(a) of this Section, or as otherwise approved.

(2) Metal walls for aircraft hangars only are acceptable, but other materials may be approved.

c. Warehouse space:

(1) Same as paragraph 1(a) of this Section, or as otherwise approved.

(2) A minimum of 10 feet of block or other material in combination with metal may be approved.

2. Exterior Fascia

(a) Fractured face concrete masonry
(b) Flush profile metal panels
(c) Painted stucco.

3. Exterior Glazing.

Energy efficient or Tinted window glass shall be permitted to the extent that it may be required to satisfy Florida Energy Code requirements. The color of tinting shall be "earth tone" or blue and shall be subject to the approval of the City.

Selection of glass assemblies, exterior wall components, roof materials, service entrance doors and other exterior building elements that exceed the minimum insulating values required by codes is encouraged.

B. Building Orientation and Architectural Detail

1. Distinct entrances for users shall be provided. Building footprints shall be

presented on the site plan. The building on each site shall be oriented to minimize public view of service docks and overhead doors.

2. The building, or any component thereof, shall be oriented to preclude it from becoming an obstruction to a clear line of sight from the proposed Air Traffic Control Tower (ATCT) to any portion of the air operations area. The developer shall submit a scaled plan that depicts the status of any impact on the ATCT's clear line of sight for approval by the City.

3. Passive solar design considerations are encouraged. Some aspects of passive solar design which may be considered in the planning are noted below:

a. Orientation and location of the building on a site.

b. Massing of buildings or building parts to create shadows for reducing heat gain and wind velocities which affect infiltration during the winter months.

c. Configuration of the building to incorporate such features as interior courtyards or clustering of parts of the building.

d. Amount, location and shading of windows.

e. Use of vestibules and/or revolving doors to reduce infiltration at the entrance.

f. Natural ventilation is encouraged and can be achieved by proper orientation of the building and appropriate location of windows, etc.

g. A higher level of architectural detail is encouraged for building entries.

h. Paving, lighting and site architectural features are recommended to further entrance the entrance detail.

C. Mechanical and Electrical Service

1. All mechanical equipment shall be housed within the building when possible. When roof-mounted equipment is required, it must be concealed by parapet walls taller than the tallest piece of roof mounted equipment. Plumbing vents are the only non-screened roof penetrations allowed.

2. Any exterior mechanical or electrical equipment, satellite dishes or other large pieces of equipment, shall be screened so as to be an integral part of the architectural design and not in public view.

3. All electrical installations will conform to the National Electric Code and the City of Ocala building codes.

D. Roof Appearance and Construction

1. Since roofs are highly visible from aircraft using the Airport, roofs shall be attractively designed and constructed. Signs, lettering, designs or other graphics shall not be placed, painted or otherwise located on roofs

2. Roofs shall not be constructed of materials that are reflective or create glare. Roofs shall not be white in color unless approved by the City.

E. Sound Attenuation

Since the leaseholds are subject to noise levels associated with the Airport, noise abatement building construction

techniques are required for office buildings and other buildings where people are located inside for a substantial portion of the work day.

F. Graphic and Sign Standards

In general, signage and graphics will be designed in harmony with the architecture of the leasehold improvements and other signage and development on the Airport.

Only those signs that conform to the zoning code of the City of Ocala will be approved. No sign will be erected until plans, elevations, sections, details and specifications have been reviewed and approved.

All signs shall be maintained in a safe and attractive condition so as to preserve the aesthetic qualities established for the Airport.

SECTION VI
MAINTENANCE

A. Paved Areas

Pavement surfaces, sidewalks and plazas shall be kept cleaned and washed frequently and as required per seasonal demand. Parking lots shall be kept free of debris and leaves per seasonal demand. Cracks, joints and other openings in the pavement surfaces shall be repaired promptly.

B. Lawn Maintenance

Lawns and other ground cover shall be kept well trimmed at all times. Procedures for fertilizing, trimming, and weed control shall be set on timely basis and adhered to. Removal of leaves shall be done within a reasonable time range during the fall season. Catch basins and other drainage collection points shall be cleaned regularly. A regular schedule for pesticide control and groundskeeping shall be maintained.

C. Trees and Other Plants

Seasonal fertilizing, annual pruning and cutting dead branches shall be done as required. Extra care shall be taken far the new planting in their initial stage of establishment on the site.

D. Watering

All plants shall be watered weekly during the growing season. Lawn areas shall be watered as required to produce healthy lawns especially during the summer months.

E. Building Maintenance Cleaning

To insure the quality standards projected for the development, all buildings shall be well maintained and clean at all times. Provision of services shall be made for necessary cleaning of masonry and washing and polishing of metals, particularly at the main entrances. Broken glass, damaged windows, light poles and lamps shall be repaired or replaced promptly.

F. Equipment Storage

Storage of all maintenance equipment shall be within buildings or well screened. It shall not be visible from access roads, common open spaces or adjacent lots.

G. Radiation and Electrical Emissions

No activities shall be permitted that emit dangerous radioactivity beyond enclosed areas. There shall be no electrical disturbance adversely affecting the operation at any point of any equipment other than of the creator of such disturbance.

H. Other Nuisance Characteristics

No noise, odors, vibration, smoke, air pollution, liquid or solid wastes, heat, glare, dust, or other such adverse influences shall be permitted that will in any way have an objectionable effect upon adjacent or nearby property. All wastes shall be disposed of in a manner that is not dangerous to public health and safety, nor will damage public waste transmission or disposal facilities.

GROUND LEASE AT AIRPORT

THIS LEASE is entered into effective _____ __, 20__ ("Effective Date"), between City of Ocala, a Florida municipal corporation ("Landlord"), and _____ a _____ ("Tenant").

NOW, THEREFORE, in consideration of the mutual covenants set forth herein, and other good and valuable consideration (the receipt and sufficiency of which is hereby acknowledged), the parties do hereby agree as follows:

1. **Lease of Premises.**

1.1. Landlord leases to Tenant, and the Tenant leases from Landlord, real property located in Marion County, Florida, and all improvements now or hereafter located thereon (collectively the "Premises") as follows: The real property ("Property") described in the attached **Exhibit A** and consisting of approximately ___ acres.

1.2. The Premises are located at the Ocala International Airport ("Airport") owned and operated by Landlord.

1.3. This Lease includes the right of ingress and egress to and from the Premises by means of existing means of ingress and egress across the Airport to be used in common with others having similar rights of passage thereon (except when the Airport is closed to the public). The use of any such means of ingress and egress is subject to the present and future rules and regulations of the Airport. Landlord may, at any time, temporarily or permanently close such means of ingress and egress so long as an alternative means of ingress and egress remains available to Tenant. Tenant shall not do or permit anything to be done which will interfere with the free access and passage of others to space adjacent to the Premises or in any streets near the Premises.

2. **Term**.

2.1. The term of this Lease is thirty (30) years, beginning on _____ __, _____ and ending at 5:00 pm on _____ __, _____

2.2. So long as Tenant is not in default under this Lease, Tenant has the right to renew the term of this Lease for two (2) additional terms of five (5) years each. Each renewal shall automatically occur unless Tenant gives written notice of non-renewal to Landlord at least 180 days prior to the expiration of the initial term of this Lease (as to the first renewal) or any then-current renewal term (as to any subsequent renewal). All terms and conditions that govern the initial term shall govern any renewal term, except as expressly set forth herein.

3. **Feasibility Study.** Tenant may, during the period commencing with the execution of this Lease by Tenant and concluding 90 days after the Effective Date (the "Feasibility Study Period"), determine whether the Property is suitable, in Tenant's sole and absolute discretion, for Tenant's use. Tenant may conduct a Phase I environmental assessment and any other tests, analyses, surveys and investigations ("Inspections") that Tenant deems necessary to determine, to Tenant's satisfaction, the Property's engineering, architectural and environmental properties; zoning and land use restrictions; subdivision status; soil and grade; availability of access to public roads, water and other utilities; consistency with local, state and regional growth management plans; availability of permits, governmental approvals and licenses; and other Inspections that Tenant deems

SAMPLE CONTRACT

appropriate to determine the Property's suitability for the Tenant's intended use. Landlord gives Tenant, its agents and other representatives, the right to enter the Property at any time during the Feasibility Study Period for the purpose of conducting Inspections. Landlord shall fully cooperate with Tenant and its professionals in connection with the foregoing. Tenant shall deliver written notice to City prior to the expiration of the Feasibility Study Period if Tenant determines the Property is not acceptable, in which event this Lease shall be deemed canceled and of no further effect.

4. **Rent.**

4.1. During the term of this Lease, Tenant shall pay monthly rent as follows:

4.1.1. Tenant shall commence paying monthly rent upon issuance of a Certificate of Occupancy for the hangar to be constructed thereon by Tenant, or Two Hundred Forty (240) days after issuance of all permits by all governmental agencies necessary to allow such construction, whichever shall first occur. In connection therewith:

a. Tenant shall apply for all necessary permits for the hangar within ninety (90) calendar days after approval of this Lease by the Landlord and make good faith efforts to obtain all necessary permits as soon as possible.

b. Tenant shall commence construction of the hangar within ninety (90) days of issuance of such permits.

c. Tenant shall complete construction of the hangar within two hundred forty (240) days after issuance of such permits.

4.1.2. Tenant shall pay monthly rent, after the date that rent payments are to commence pursuant to paragraph 4.1.1, in the following amounts:

a. Until December 31, 20__, the monthly rent shall be _____ ($___.__) per month; and

b. Commencing on January 1, 20__, and on each January 1 thereafter, the monthly rent shall be increased by an amount equal to three (3%) percent of the prior year's monthly rent.

4.2. The monthly rent is payable without Landlord's demand on the first day of each calendar month during the Lease term. If rent payments commence on a day other than the first day of a calendar month, or terminate on a day other than the last day of a calendar month, the rent will be prorated on a daily basis.

4.3. All rent payable under this Lease shall be paid to Landlord without set-off or withholding for any reason and shall be mailed or delivered to Landlord at Landlord's address as set forth elsewhere in this Lease, or such other address of which Landlord shall notify Tenant, so that it is received prior to the date it is due.

5. **Additional Payments.**

SAMPLE CONTRACT

5.1. Additional Rent Payments. In addition to the rent under paragraph 4, all other payments that the Tenant is obligated to make under this Lease are considered additional rent, regardless of whether the payments are so designated. All additional payments are due and payable at the time the Landlord demands payment or at the time the next succeeding rent installment is due, whichever occurs first. Landlord shall have the same remedies for Tenant's failure to pay additional rent as it does for Tenant's failure to pay monthly installments of rent. All further references to "rent" shall include both monthly installments of rent and additional rent. The provisions of this paragraph shall apply only concerning remedies, and not concerning rent upon which sales and use taxes are to be calculated or paid.

5.2. Utility or Service Charges. The Tenant agrees to pay all charges for gas, electricity or other illumination, heating, air conditioning, water, sewer, telephone service and other utilities attributed to the Premises.

5.3. Ad Valorem Taxes and Assessments.

5.3.1. Tenant shall pay as additional rent during the term of this Lease all ad valorem and real property taxes and all special assessments levied or assessed by any lawful authority against the Premises. In the event any governmental authority having jurisdiction shall levy any general or special assessment against the Premises, Tenant shall also pay to Landlord as additional rent such assessment. Landlord shall have the option to take the benefit of any statute or ordinance permitting any such assessment for public betterments or improvements to be paid over a period of time in which case the Tenant shall be obligated to pay only the said fraction of the installments of any such assessments which shall become due and payable during the term of this Lease.

5.3.2. Landlord may, at its sole discretion, estimate the taxes and assessments referred to in this paragraph 5 and require Tenant to pay one-twelfth (1/12th) thereof monthly in advance, together with the payment of fixed minimum annual rent. After the end of each Lease year, Landlord shall furnish Tenant a statement of the actual taxes and assessments, and there shall be an adjustment between Landlord and Tenant with payment to or repayment by Landlord, as the case may require, to the end that Landlord shall receive the entire amount of Tenant's proportionate share for such annual period.

5.4. Sales and Use Taxes. At the time rent payments are made, the Tenant agrees to pay to the Landlord any sales and use taxes that arise because of payment of rent to the Landlord.

5.5. Past Due Rent. If any monthly rental payment is not paid on or before the tenth (10th) day of each month, such payment shall bear interest at ten percent (10%) per annum. A payment is considered late if received ten (10) business days or more after such payment is due. Any payment not received when within ten (10) business days after each month shall be deemed a default under this Lease.) If payment made by check is dishonored by Tenant's bank, the amount due shall be deemed a "late payment" and treated as set forth herein.

5.6. Amounts Advanced by Landlord. Any amount advanced by Landlord pursuant to the terms and provisions of this Agreement shall be repaid to Landlord by Tenant by the first of the calendar month following the date of such advance unless otherwise specifically provided in this Agreement.

SAMPLE CONTRACT

5.7. Tenant's Taxes. Tenant further covenants and agrees to pay promptly when due all taxes assessed against all fixtures, furnishings, equipment and stock-in-trade placed in or on the Premises during the term of this Lease.

6. **Landlord's Services, Utilities and Taxes.**

6.1. Tenant shall obtain, at its sole cost and expense, all utilities (e.g., without limitation, electricity, telephone, water, sewer, and trash collection services) service for the Premises. Tenant shall be responsible for all costs associated with extending utility lines from their current point of termination to improvements to be constructed by Tenant hereunder.

6.2. Landlord shall not be liable for full or partial stoppage or interruption of the above services or utilities unless negligence on the part of Landlord shall be shown, and Landlord shall not be liable for consequential damages in any event.

7. **Use of Premises.**

7.1. Tenant shall have the right to use the Premises for the following and for no other purpose without Landlord's prior written consent, which consent may be withheld by Landlord in its sole discretion:

7.1.1. Storage and maintenance of aircraft that are either owned or leased by Tenant.

7.1.2. Storage of aviation fuel, lubricants, aircraft parts and other items of personal property necessary for Tenant's use to maintain and operate aircraft owned or leased by Tenant, provided that all such items of personal property, other than gasoline, shall be contained within improvements to be constructed by Tenant on the Premises. No explosives or combustible materials will be permitted within or about any improvements except for fuel in aircraft tanks or small containers of lubricants, cleaning materials, and other aviation-related materials stored in containers or cabinets that have been approved by the EPA or local Fire Marshall.

7.1.3. Construction on the Premises of private offices attached to hangar.

7.1.4. At the discretion of the Landlord (which may be withdrawn at any time), nonexclusive use of all airport facilities which are not specifically leased to other tenants under private leases.

7.2. Tenant shall not sell nor dispense from mobile fuelers or other typical fueling devices without the express written permission from the Airport Director, which may be withheld or conditioned in the Airport Director's sole discretion, aviation fuels of any kind upon the Premises or otherwise at the Airport.

7.3. No outside storage shall be allowed. All areas not paved or covered by the Improvements shall be grassed and landscaped as approved.

7.4. Tenant agrees that no business shall be carried on, nor any act or acts done or permitted to be done on the Premises that in any manner conflicts with any applicable valid law or regulation of the City of Ocala, Marion County, State of Florida, and the United States of America or any department, bureau or agency thereof.

SAMPLE CONTRACT

7.5. Tenant will not do or suffer to be done in or upon the Premises any act or thing which amounts to a nuisance or creates waste to the Premises.

7.6. Tenant shall not produce any disturbances on any Airport property that interferes with the operation by the Landlord or the Federal Aviation Administration of air navigational communications or flight equipment on the Airport.

7.7. Tenant shall comply with all present and future written instructions of the Landlord in disposing of its trash and refuse at Tenant's expense and shall use a system of refuse disposal approved by the Landlord.

7.8. Tenant shall not do nor permit to be done any act or thing upon the Premises, which may constitute a hazardous condition so as to increase the risks attendant upon the operations permitted by this Lease.

7.9. Nuisance/Hazardous Substances.

7.9.1. Tenant shall not commit any nuisance, nor permit the admission of any objectionable noise, or odor, nor burn any trash or refuse within the Premises, nor bring on, deposit or allow to be brought on or deposited on the Premises any asbestos materials or any other Hazardous Substance, except as permitted above, or materials as the same may be defined by State, Federal or local laws, rules, statutes, or regulations; nor make any use of the Premises or any part thereof or equipment therein which is improper, offensive or contrary to any law.

7.9.2. Tenant shall not cause or commit any Hazardous Substance to be used, stored, generated or disposed of on or in the Premises by Tenant, Tenant's agents, employees, contractors, or invitees, without first obtaining Landlord's written consent. If Hazardous Substances are used, stored, generated, or disposed of on or in the Premises except as permitted above, or if the Premises become contaminated in any manner for which Tenant is legally liable, Tenant shall indemnify and hold harmless the Landlord from any and all claims, damages, fines, judgments, penalties, costs, liabilities or losses (including, but without limitation, a decrease in value of the Premises, damages due to loss or restriction of rentable or usable space, or any damages due to adverse impact on marketing of the space, and any and all sums paid for settlement of claims, attorneys' fees, consultant and expert fees, and costs) arising during or after the Lease Term and arising as a result of such contamination by Tenant. Without limitation of the foregoing, if Tenant causes or permits the presence of any Hazardous Substance on the Premises and such results in contamination, Tenant shall promptly, at its sole expense, take any and all actions necessary to return the Premises to the condition existing prior to the presence of any such Hazardous Substance on the Premises. Tenant shall first obtain Landlord's approval for any such remedial action.

7.9.3. As used herein "Hazardous Substance" means any substance which is toxic, ignitable, reactive, or corrosive and which is regulated by any local government, the State of Florida, or the United States Government. "Hazardous Substance" includes any and all material or substances which are defined as "Hazardous Substance" pursuant to State, Federal, or local government law. "Hazardous Substance" includes, but is not restricted to, asbestos, polychlorobiphenyls ("PCB's") and petroleum.

SAMPLE CONTRACT

8. **Improvements.**

8.1. Tenant's Right to Construct Buildings and Other Improvements.

8.1.1. Tenant shall have the right to construct structures, buildings, and other improvements ("Improvements") on the Premises, at Tenant's sole cost and expense, pursuant to paragraph 7 above. In connection with any construction, Tenant shall be permitted to grade, level, and fill the land, remove trees and shrubs, install roadways and walkways, and install utilities, provided all of the foregoing serve the Improvements erected on the Premises. Landlord shall have no liability for any costs or expenses in connection with the construction of Improvements on the Premises. All improvements shall be in accordance with the applicable building codes and other laws and ordinances.

8.1.2. Tenant shall submit plans to Landlord in advance of construction of any proposed Improvements before construction may begin. Plans shall reasonably comply with existing improvements of others at the Airport. Approval of said plans shall not be unreasonably delayed or withheld. Tenant shall not be required to apply for permits until the plans are approved by the Landlord.

8.1.3. Landlord shall cooperate with Tenant to facilitate timely execution of required documents, permits, legal descriptions, permit approvals or other matters requiring Landlord's consent.

8.1.4. Tenant coordinate stormwater permitting with the City of Ocala Stormwater Division and if practical, utilize regional stormwater ponds located at Ocala International Airport.

8.2. Signage. Tenant may display in, on, or above the Premises any sign or decoration, the nature of which is permitted by applicable law and is not dangerous, unsightly or detrimental to the Premises. At the termination of this Lease, Tenant shall if so requested by landlord, remove any signs it has placed on the Premises, repairing any damage caused thereby.

8.3. Fencing. Tenant acknowledges that all fencing must comply with applicable security requirements.

8.4. Tenant's Delivery of Possession After Termination or Expiration.

8.4.1. On the expiration or early termination of this Lease (the "Expiration Date"), Tenant shall promptly quit and surrender the Premises and Improvements, and deliver to Landlord actual possession and ownership of the Premises and Improvements in good order, condition, and repair.

8.4.2. Tenant shall have the right to remove from the Premises and Improvements all movable trade fixtures, movable equipment, and articles of personal property used or procured for use in connection with the operation of its business on or before the Expiration Date, provided that Tenant shall promptly repair, or cause to be repaired, any damage resulting to the Premises or Improvements by reason of this removal. Any trade fixtures, equipment, or articles of personal property of Tenant that remain at or on the Premises after the Expiration Date shall be deemed to have

SAMPLE CONTRACT

been abandoned by Tenant, and may either be retained by Landlord as its property or disposed of by Landlord without accountability to Tenant for the value of these trade fixtures, equipment, or articles of personal property, or any proceeds derived from the sale of these items.

9. **Condition of Premises.**

9.1. Tenant's Acceptance and Maintenance of Premises. UPON TENANT'S OCCUPANCY OF THE PREMISES, TENANT WILL BE DEEMED TO HAVE ACCEPTED THE PREMISES IN THE CONDITION THEY ARE IN ON THAT DATE "AS IS" AND WITH NO ADDITIONAL WARRANTIES, EXCEPT AS EXPRESSLY SET FORTH HEREIN. Subject to Landlord's obligations set forth in this Lease, Tenant agrees to maintain the Premises in the same condition, order, and repair as they are on that date, except for reasonable wear and tear arising from the use specified in this Lease.

9.2. Obligations to Repair.

9.2.1. Tenant shall, at its own expense and risk, maintain the Premises and all Improvements in good repair and condition at all times, including, without limitation, the interior and exterior of the Premises and Improvements, the roof, exterior walls and air-conditioning system. Tenant shall keep the Premises and Improvements in a clean, sanitary and safe condition at all times. The plumbing and other facilities shall not be used for any other purposes than that, for which they were constructed, and no foreign substances of any kind shall be deposited in the plumbing or other facilities, and the expense of any breakage, stoppage or damage resulting from the violation of this provision by Tenant shall be borne by the Tenant. In the event Landlord incurs any expense for repairs or maintenance that are the duty of Tenant to perform, Landlord may demand repayment of same from Tenant, and Tenant shall make payment within ten days after the demand as additional rent.

9.2.2. Landlord shall not be liable for any damage or inconvenience that may arise through repair or alterations of any part of the Premises or Improvements.

9.2.3. Tenant shall replace all electric light bulbs and tubes in the electrical fixtures in the Premises or Improvements as shall be necessary.

9.2.4. If Tenant fails to perform its obligations to repair or maintain according to the provisions of the preceding subparagraphs above within a reasonable time after notice from Landlord of the need for such repair or maintenance (or immediately if the failure to perform repairs or maintenance endangers the safety of persons or property), Landlord may, in addition to all other remedies available under this Lease, make the repairs or perform the maintenance, or have the repairs made or maintenance performed at its own expense. Tenant shall, within ten (10) days of Landlord's demand, reimburse Landlord for the reasonable and actual expense of the repair or maintenance.

9.3. Damage to Premises. On the Landlord's demand, the Tenant shall pay for all damages to the Premises, the Improvements, or any portion thereof that are caused by any negligent act or omission of the Tenant, its invitees, or any persons in the Tenant's employ or control.

SAMPLE CONTRACT

9.4. Condition at End of Term. At the earlier of the expiration of the Lease term or the termination of this Lease, the Tenant will quit the Premises and will surrender them to the Landlord. The Tenant will remove all personal and other property that belongs to the Tenant under this Lease and will repair all damages to the Premises or Improvements caused by that removal.

9.5. Landlord Not Responsible. Except for the negligence of Landlord or Landlord's employees, agents or contractors, Landlord shall not be responsible for any damage to property of Tenant or of others located in or about the Premises nor for the loss of or damage to any property of Tenant or of others by theft or misappropriation or otherwise. Landlord shall not be liable for any injury or damage to persons or property resulting from fire, explosion, falling plaster, steam, gas, electricity, water, rain or leaks from any part of the Premises or from the pipes, appliances or plumbing works or from the roof, street or subsurface or from any other place or by dampness or by any other cause of whatever nature. Landlord shall not be liable for any such damage caused by occupants of adjacent property, occupants of the Improvements, or the public.

10. **Entry and Inspection of Premises.**

10.1. The Landlord is entitled to enter the Premises during all reasonable hours, upon reasonable notice to Tenant for the following reasons:

10.1.1. To provide services, fulfill other obligations or exercise rights hereunder.

10.1.2. To examine the Premises.

10.1.3. To make all repairs, additions, or alterations that the Landlord or agent deems necessary for safety, comfort, or preservation of the Premises or of the building.

10.1.4. To remove signs, fixtures, alterations, or additions that do not conform to this Lease.

10.2. Landlord shall have the right to use any means that Landlord may deem proper to open doors in an emergency situation that is immediately jeopardizing persons or property in order to reasonably obtain entry to the Premises. Tenant waives any claim for damages for any injury or inconvenience to or interference with Tenant's business, any loss of occupancy or quiet enjoyment of the Premises, and any other loss in, upon, or arising from Landlord's entry onto the Premises in the event of such an emergency.

10.3. Any entry to the Premises obtained by Landlord for any of the above stated purposes and by any of such means, or otherwise, shall not be construed or deemed a forcible or unlawful entry onto the Premises, or an eviction of Tenant from the Premises or any part of the Premises manner, and during an event of emergency.

10.4. In the event that any personal property of Tenant shall obstruct the access of the Landlord, its officers, employees, agents or contractors or the utility company furnishing utility service to any of the existing utility, mechanical, electrical and other systems and thus shall interfere with the inspection, maintenance or repair of any such system, Tenant shall move such property as directed by Landlord or such utility company in order that access may be had to the system or part thereof for inspection, maintenance or repair. If Tenant shall fail to so move such property, after direction notice from the Landlord or such utility company

SAMPLE CONTRACT

to do so, the Landlord or the utility company may move it and Tenant hereby agrees to pay the cost of such moving upon demand. The exercising of this right of the Landlord shall not be construed to be an eviction of Tenant, nor be made the grounds for any abatement of rental.

11. **Insurance, Indemnity.**

11.1. Indemnification.

11.1.1. Tenant shall hold the Landlord harmless from, and indemnify Landlord against, any and all liability, damages, out of pocket costs and reasonable attorneys' fees, injury, actions or causes of action whatsoever:

a. Suffered or occasioned upon the Premises or arising out of the operation, conduct and use of the Premises, except those caused or created by Landlord, or its agent, employees or contractors;

b. For any injury to or death of any person or persons or damage to property caused by the negligence or willful misconduct of Tenant, or its invitees, agents or employees, or by a default by Tenant under this Lease; or

c. Resulting from any generation, use, treatment, storage or release of any hazardous or toxic materials or substances or wastes at the Premises by Tenant or its agents during the Lease term or resulting from any violation during the Lease term of any environmental laws, rules or regulations applicable to the Premises or any operation conducted thereon.

11.1.2. Tenant's grant of indemnity to Landlord hereby survives expiration of this Lease.

11.2. Defense of Landlord. In the event any action or proceeding shall be brought against Landlord by reason of any matter for which Landlord is indemnified hereunder, Tenant shall, upon notice from Landlord, at Tenant's sole cost and expense, resist and defend the same, provided however, that Tenant shall not admit liability in any such matter on behalf of Landlord without the written consent of Landlord and provided further that Landlord shall not admit liability for, nor enter into any compromise or settlement of, any claim for which they are indemnified hereunder, without the prior written consent of Tenant which may not be unreasonably withheld.

11.3. Disclaimer of Liability. Landlord shall not be liable for injury or damage occurring to any person or property arising out of this Lease, or as a result of Tenant's possession of the Premises, including, without limitation, harm or personal injury to Tenant or third persons during Tenant's possession of the Premises or the term of this Lease, except in the event any such injury or damage is caused as the direct result of Landlord's negligence or willful misconduct.

11.4. Notice, Cooperation, and Expenses.

11.4.1. Landlord shall give Tenant prompt notice of the making of any claim or the commencement of any action, suit or other proceeding covered by the provisions of this paragraph. Nothing herein shall be deemed to prevent Landlord from cooperating with Tenant and participating in the defense of any litigation by

SAMPLE CONTRACT

Landlord's own counsel. Tenant shall pay all reasonable expenses incurred by Landlord in response to any such action, suits, or proceedings. These expenses shall include all out-of-pocket expenses such as reasonable attorney fees and shall also include the reasonable value of any services rendered by Landlord's attorney, and the actual expenses of Landlord's agents, employees, or expert witnesses, and disbursements and liabilities assumed by Landlord in connection with such suits, actions, or proceedings but shall not include attorney's fees for services that are unnecessarily duplicative of services provided Landlord by Tenant.

11.4.2. If Tenant requests Landlord to assist it in such defense then Tenant shall pay all expenses incurred by Landlord in response thereto, including defending itself with regard to any such actions, suits, or proceedings. These expenses shall include all out-of-pocket expenses such as reasonable attorney fees and shall also include the costs of any services rendered by Landlord's attorney, and the actual expenses of Landlord's agents, employees, or expert witnesses, and disbursements and liabilities assumed by Landlord in connection with such suits, actions, or proceedings.

11.4.3. Tenant shall give Landlord prompt notice of the making of any claim or the commencement of any action, suit or other proceeding covered by the provisions of this paragraph.

12. **Insurance.**

12.1. As a condition precedent to the effectiveness of this Agreement, during the term of this Agreement and during any renewal or extension term of this Agreement, the Tenant, at the Tenant's sole expense, shall provide insurance of such types and with such terms and limits as noted below. Providing proof of and maintaining adequate insurance coverage are material obligations of the Tenant. The Tenant shall provide the Landlord a certificate of insurance evidencing such coverage. The Tenant's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by the Tenant shall not be interpreted as limiting the Tenant's liability and obligations under this Agreement. All insurance policies shall be from insurers authorized to write insurance policies in the State of Florida and that possess an A.M. Best rating of A-, VII or better. All insurance policies are subject to approval by the Landlord's Risk Manager.

12.2. The coverages, limits, and endorsements required herein protect the interests of the Landlord, and these coverages, limits, and endorsements may not be relied upon by the Tenant for assessing the extent or determining appropriate types and limits of coverage to protect the Tenant against any loss exposure, whether as a result of this Agreement or otherwise. The requirements contained herein, as well as the Landlord's review or acknowledgement, are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by the Tenant under this Agreement.

12.3. The following insurance policies and coverages are required:

12.3.1. **Commercial General Liability.**

a. Coverage must be afforded under a Commercial General Liability policy with limits not less than:

1). $2,000,000 each occurrence and $2,000,000 aggregate for Bodily Injury, Property Damage, and Personal and Advertising Injury

SAMPLE CONTRACT

2). $2,000,000 each occurrence and $2,000,000 aggregate for Products and Completed Operations

b. Policy must include coverage for Contractual Liability and Independent Contractors.

1). The Landlord and the Landlord's officers, employees, and volunteers are to be covered as additional insureds with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liability arising out of activities performed by or on behalf of the Tenant. The coverage shall contain no special limitation on the scope of protection afforded to the Landlord or the Landlord's officers, employees, and volunteers. If Landlord requires other fixed base operator tenants at Airport to increase their policy limits for the insurance described in this subparagraph, then Tenant agrees to increase its insurance accordingly.

12.3.2. **Pollution and Remediation Legal Liability (Hazardous Materials).**

a. Pollution Liability Coverage. For the purpose of this section, the term "hazardous materials" includes all materials and substances that are designated or defined as hazardous by Florida or Federal law or by the rules or regulations of Florida or any Federal Agency. If work being performed involves hazardous materials (including fuel handling or storage), the Tenant shall procure and maintain any or all of the following coverage, which will be specifically addressed upon review of exposure.

b. For sudden and gradual occurrences and in an amount not less than $1,000,000 per claim arising out of this Agreement, including but not limited to, clean-up costs, remediation, and third-party liability.

12.3.3. **Property Coverage**

a. Coverage must be afforded in an amount not less than 100% of the replacement value of the property with a deductible of no more than $25,000 each claim. Coverage form shall include, but not be limited to:

1). All Risk Coverage including Flood and Windstorm with no coinsurance clause.

2). Any separate Flood and/or Windstorm deductibles are subject to approval by the Landlord.

b. This policy shall insure the interests of the Landlord and Tenant in the property against all risk of physical loss and damage and name the Landlord as a loss payee.

c. The Tenant shall, at the Tenant's own expense, take all reasonable precautions to protect the Premises from damage or destruction.

d. All rights of subrogation shall be waived against Landlord under the property coverage policy.

SAMPLE CONTRACT

12.3.4. **Builder's Risk Coverage.**

a. For improvements under construction, coverage must be afforded in an amount not less than 100% of the total project cost, including soft costs, with a deductible of no more than $25,000 each claim. Coverage form shall include, but not be limited to:

1). All Risk Coverage including Flood and Windstorm with no coinsurance clause.

2). Storage and transport of materials, equipment, supplies of any kind whatsoever to be used on or incidental to the project.

3). Equipment Breakdown for cold testing of all mechanized, pressurized, or electrical equipment.

b. This policy shall insure the interests of the owner, contractor, and subcontractors in the property against all risk of physical loss and damage and name the Landlord as a loss payee. This insurance shall remain in effect until the work is completed and the property has been accepted by the City.

12.3.5. **Commercial General Liability or Aviation Liability.**

a. Coverage must be afforded under a Commercial General Liability policy with limits not less than:

1). $2,000,000 each occurrence and $2,000,000 aggregate for Bodily Injury, Property Damage, and Personal and Advertising Injury

2). $2,000,000 each occurrence and $2,000,000 aggregate for Products and Completed Operations

b. If Landlord requires other fixed base operator tenants at Airport to increase their policy limits for the insurance described in this subparagraph, then Tenant agrees to increase its insurance limits accordingly.

c. Policy must include coverage for Contractual Liability.

d. The Landlord and the Landlord's officers, employees, and volunteers are to be covered as additional insureds with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liability arising out of activities performed by or on behalf of the Tenant. The coverage shall contain no special limitation on the scope of protection afforded to the Landlord or the Landlord's officers, employees, and volunteers.

12.3.6. **Workers' Compensation and Employer's Liability**

a. Coverage must be afforded per Chapter 440, Florida Statutes. Any person or entity performing work for or on behalf of the Landlord must provide Workers' Compensation insurance. Exceptions and exemptions will be

SAMPLE CONTRACT

allowed by the Landlord's Risk Manager, if they are in accordance with Florida Statute.

b. The Tenant waives, and the Tenant shall ensure that the Tenant's insurance carrier waives, all subrogation rights against the Landlord and the Landlord's officers, employees, and volunteers for all losses or damages. The Landlord requires the policy to be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or equivalent.

13. **Deductibles**

13.1. Tenant's deductibles or self-insured retentions shall be disclosed to Landlord and may be disapproved by the latter. They shall be reduced or eliminated at the option or Landlord upon recommendation of Landlord's Risk Management Department. The Tenant is responsible for the amount of any deductible or self-insured retention.

14. **Insurance Requirements**

14.1. These insurance requirements shall not relieve or limit the liability of Tenant. Landlord does not in any way represent that these types or amounts of insurance are sufficient or adequate to protect Tenant's interests or liabilities but are merely the minimums. No insurance is provided by Landlord under this Lease to cover Tenant or its contractors or sub-contractors.

14.2. Duplicate Insurance. Insurance required of Tenant or any other insurance of Tenant which covers Landlord shall be considered primary, and insurance or self-insurance of Landlord shall be considered excess, as may be applicable to claims against Landlord which arise out of this Lease.

14.2.1. Insurance Certificate Requirements:

a. The Certificate Holder should read as: City of Ocala
b. The Tenant shall provide the Landlord with valid Certificates of Insurance (binders are unacceptable) no later than thirty (30) days prior to the inception of this agreement.
c. The Tenant shall provide to the Landlord a Certificate of Insurance having a thirty (30) day notice of cancellation; ten (10) days' notice if cancellation is for nonpayment of premium.
d. In the event that the insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of the Tenant to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested, and addressed to the certificate holder.
e. In the event the Agreement term goes beyond the expiration date of the insurance policy, the Tenant shall provide the Landlord with an updated Certificate of Insurance no later than ten (10) days prior to the expiration of the insurance currently in effect. The Landlord reserves the right to suspend the Agreement until this requirement is met.
f. The Certificate of Insurance shall indicate whether coverage is provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.
g. The Landlord shall be included as a Loss Payee on all property and builder's risk policies, where applicable.

SAMPLE CONTRACT

h. The Landlord shall be named as an Additional Insured on all liability policies, with the exception of Workers' Compensation.
i. The Landlord shall be granted a Waiver of Subrogation on the Tenant's Workers' Compensation insurance policy.
j. The title of the Agreement, Bid/Contract number, event dates, or other identifying reference must be listed on the Certificate of Insurance.

14.3. Failure to Provide Insurance. In the event that Tenant shall fail to obtain or maintain in full force and effect any insurance coverage required to be obtained by Tenant under this Agreement, Landlord may procure same from such insurance carriers as Landlord may deem proper, irrespective that a lesser premium for such insurance coverage may have been obtained from another insurance carrier, and Tenant shall pay as additional rent, upon demand of Landlord, any and all premiums, costs, charges and expenses incurred or expended by Landlord in obtaining such insurance. Notwithstanding the foregoing sentence, in the event Landlord shall procure insurance coverage required of Tenant hereunder, Landlord shall in no manner be liable to Tenant for any insufficiency or failure of coverage with regard to such insurance or any loss to Tenant occasioned thereby, and additionally, the procurement of such insurance by Landlord shall not relieve Tenant of its obligations under this Agreement to maintain insurance coverage in the types and amounts herein specified, and Tenant shall nevertheless hold Landlord harmless from any loss or damage incurred or suffered by Landlord from Tenant's failure to maintain such insurance.

14.4. Collection of Insurance. In the event of destruction of or damage to over fifty percent (50%) of any of the Premises or the buildings or other structures covered by insurance and Tenant's election to rebuild the Premises or the buildings or other structures pursuant to the Tenant's option provided in this Lease, the funds payable pursuant to such insurance policies shall be payable to, and deposited in, a commercial national bank as trustee, located in Ocala, Florida, selected by the Landlord, as a trust fund, and the funds shall be used for the purpose of reconstruction or repair, as the case may be, of any of the buildings or other structures so damaged or destroyed. Such reconstruction and repair work shall be done in strict conformity with the ordinances and charter of the Landlord. Should the cost of reconstruction or repair exceed the amount of funds available from the proceeds of such insurance policy then in such event, such funds shall be used as far as the same will permit in paying the cost of the reconstruction or repair. In the event that the cost of such reconstruction or repair work shall be less than the proceeds derived from such insurance policies, the surplus shall be unencumbered by Landlord.

14.5. Safety/Environmental.

14.5.1. Tenant is responsible at all times for precautions to achieve the protection of all persons including employees, and property.

14.5.2. Tenant shall make special effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury, or property damage. NFPA, EPA, DEP, and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. All hazardous material spills, accidents, injuries or claims or potential claims shall be immediately reported promptly to Landlord's Risk Management Department.

14.6. Miscellaneous.

SAMPLE CONTRACT

14.6.1. Tenant shall be responsible for carrying such insurance as Tenant may desire to protect Tenant's own equipment, contents, personal property and other property on the Premises, and business loss insurance.

14.6.2. The Tenant has the sole responsibility for the payment of all insurance premiums and shall be fully and solely responsible for any costs or expenses as a result of a coverage deductible, co-insurance penalty, or self-insured retention; including any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation. Any costs for adding the Landlord as an Additional Insured shall be at the Tenant's expense.

14.6.3. Tenant may not perform or fail to do any act with respect to the Premises, may not use or occupy the Premises, and may not conduct or operate the Tenant's business, in any manner that is objectionable to the insurance companies, it causes them to void or suspend any insurance, or that causes them to increase the premiums above the amounts that would usually have been in effect for the occupancy under this Lease. Tenant may not permit or suffer another person to do so with respect to the Premises.

14.6.4. If the Tenant's primary insurance policy/policies do not meet the minimum requirements, as set forth in this Agreement, the Tenant may provide evidence of an Umbrella/Excess insurance policy to comply with this requirement.

14.6.5. The Tenant's insurance coverage shall be primary insurance as applied to the Landlord and the Landlord's officers, employees, and volunteers. Any insurance or self-insurance maintained by the Landlord covering the Landlord, the Landlord's officers, employees, or volunteers shall be non-contributory.

14.6.6. All required insurance policies must be maintained until this Agreement is terminated. Any lapse in coverage may be considered breach of contract. In addition, Tenant must provide to the Landlord confirmation of coverage renewal via an updated certificate of insurance should any policies expire prior to the expiration of this Agreement. The Landlord reserves the right to review, at any time, coverage forms and limits of Tenant's insurance policies.

14.6.7. The Tenant shall provide notice of any and all claims, accidents, and any other occurrences associated with this Agreement to the Tenant's insurance company or companies and the Landlord's Risk Management office, as soon as practical.

14.6.8. It is the Tenant's responsibility to ensure that any and all of the Tenant's independent contractors and subcontractors comply with these insurance requirements. All coverages for independent contractors and subcontractors shall be subject to all of the applicable requirements stated herein. Any and all deficiencies are the responsibility of the Tenant. The Landlord reserves the right to adjust insurance limits from time to time at its discretion with notice to Tenant.

15. **Liens and Mortgages on Premises.**

15.1. Construction Liens Incurred by Tenant. The Tenant shall not subject the Landlord's interest or estate to any liability under any construction or other lien law. No provisions of this Lease may be construed as to imply that the Landlord has consented to the Tenant

SAMPLE CONTRACT

incurring such a lien. If any construction lien, lis pendens, or other lien is filed against the Premises or the building for any work, labor, services, or materials that a lienor claims to have performed or furnished for the Tenant or any person holding through or under the Tenant, the Tenant must cause that lien to be canceled and discharged of record within twenty days after the Landlord gives notice to the Tenant. If such a lien is filed, the Landlord may satisfy the lien after giving notice to the Tenant as provided in this paragraph and without limiting the Landlord's rights or remedies under this Lease. The Tenant shall promptly reimburse the Landlord for any amounts expended to satisfy the lien and for any expenses incurred in connection with that satisfaction. The Tenant has no right of setoff against the Landlord. The Tenant's failure to cancel and discharge of record any lien under to this paragraph within one hundred twenty (120) days is a default by the Tenant under the provisions of this Lease.

15.2. Leasehold Mortgages Permitted.

15.2.1. Landlord acknowledges and agrees that Tenant shall have the right to finance its interest in this Lease including, without limitation, the cost of constructing the Improvements. Landlord agrees that notwithstanding any other provision of this Lease, either express or implied, to the contrary, such financing may be in the form of a mortgage, including, in connection therewith, a collateral assignment of this Lease, or other forms of financing utilized by Tenant from time to time (collectively, "Leasehold Mortgage"). Any such leasehold financing shall be subordinate to this Lease and shall not allow the holder of the Leasehold Mortgage ("Leasehold Mortgagee") to eliminate or damage Landlord's reversionary interest in the Improvements.

15.2.2. After the recording of any Leasehold Mortgage made by Tenant, notwithstanding anything to the contrary contained in this Lease, so long as such Leasehold Mortgage is a lien on the leasehold estate of Tenant hereunder and Landlord has actually received from such Leasehold Mortgagee or from the Tenant written notice of the Leasehold Mortgage together with the identity of and the address of the Leasehold Mortgagee, Landlord and Tenant agree as follows:

a. If Tenant or any mortgagee under a Leasehold Mortgage ("Leasehold Mortgagee") has delivered to Landlord prior written notice of the address of such Leasehold Mortgagee, Landlord shall deliver to such Leasehold Mortgagee a copy of any notice given under this Lease in the same manner and at the same time such notice is delivered by Landlord to Tenant. Landlord agrees that no notice of default, termination of this Lease or termination of Tenant's right to possession of the Premises, and no reletting of the Premises by Landlord predicated on the giving of any such notice, shall be effective unless Landlord gives the Leasehold Mortgagee written notice (or a copy of the notice given to Tenant) of the default termination or re-entry, as the case may be, and the Leasehold Mortgagee shall have the rights set forth in this subparagraph, with regard thereto.

b. In the event of a default by Tenant under this Lease, the Leasehold Mortgagee shall have the same periods to cure a default following Leasehold Mortgagee's receipt of written notice as are provided to Tenant in paragraph 18.1 of this Lease (the "Cure Period"). If Tenant defaults under any provision of this Lease, the Leasehold Mortgagee, without prejudice to its rights against

SAMPLE CONTRACT

Tenant, shall have the right to cure such default within the Cure Period whether the same consists of the failure to pay rent or the failure to perform any other obligation on Tenant's part to be performed under this Lease. Landlord shall accept performance by the Leasehold Mortgagee as though the same had been performed by Tenant and, for such purpose, Landlord and Tenant hereby authorize the Leasehold Mortgagee to enter upon the Premises and to perform any of Tenant's obligations under this Lease, provided that the Leasehold Mortgagee shall indemnify and hold Landlord harmless from all claims and liabilities arising out of such action, including attorneys' fees. In the event of any default under this Lease, Landlord shall not terminate this Lease, or take any action to affect a termination of this Lease, or re-enter, take possession of or relet the Premises or similarly enforce performance of this Lease in any manner, provided that within the Cure Period the Leasehold Mortgagee cures such default.

15.2.3. Any Leasehold Mortgagee shall be liable for performance of the obligations of Tenant under this Lease only during the period that Leasehold Mortgagee is actually in possession of the Premises or has actual ownership of the leasehold estate created hereunder. Landlord acknowledges and agrees that any third-party purchaser at a foreclosure sale, or any third party purchaser of the leasehold interest hereunder from the Leasehold Mortgagee after the Leasehold Mortgagee's acquisition thereof, shall have the right to encumber its leasehold interest with a Leasehold Mortgage, and the mortgagee thereunder shall have all of the rights of a Leasehold Mortgagee set forth in this subparagraph. The provisions of this subparagraph are for the benefit of and shall be enforceable by any Leasehold Mortgagee.

15.2.4. There shall be no merger of this Lease or any interest in this Lease or of the leasehold estate hereby created with the fee estate in the Premises by reason of the fact that this Lease or any interest hereunder may be directly or indirectly held by or for the account of any person who holds, directly or indirectly, the fee estate in the Premises or any interest in the fee estate. Except in the case of a surrender on the expiration of the Term of this Lease, no surrender by Tenant of the Premises or this Lease, or any interest therein, shall be valid or effective without the prior written consent of the Leasehold Mortgagee; provided, however, that the foregoing shall not be deemed to limit Landlord's right to terminate this Lease pursuant to the provisions of paragraph 18.2 below (subject to the provisions of paragraph 18.1) or any other provision of this Lease or Landlord's rights at law or in equity. No termination or rejection of this Lease by Tenant, including, without limitation, a rejection of this Lease in any bankruptcy proceeding, shall be valid or effective without the prior written consent of the Leasehold Mortgagee, which consent shall not be unreasonably withheld, delayed, or conditioned. Landlord acknowledges and agrees that the Leasehold Mortgagee shall not be bound by any material amendment, modification, or change made to any provision of this Lease without the prior written consent of the Leasehold Mortgagee, which consent shall not be unreasonably withheld, delayed, or conditioned.

15.2.5. Landlord agrees that the Leasehold Mortgage (or an ancillary instrument made by Tenant in connection therewith) may include an assignment to the Leasehold Mortgagee of the rents from any sublease of the Premises, provided that Tenant

SAMPLE CONTRACT

shall have the right to collect any such rents so long as no default has occurred under the Leasehold Mortgage.

15.3. Upon execution of this Lease, Tenant shall simultaneously execute, acknowledge and deliver without charge a memorandum of lease substantially similar to the instrument attached hereto as **Exhibit B** ("Memorandum of Lease"), containing a confirmation that the interest of Landlord shall not be subject to liens as set forth herein. The Memorandum of Lease is hereby incorporated into this Lease as if fully set forth herein.

16. **Assignments and Sublets.**

16.1. Permissible Assignments and Sublets.

16.1.1. The Tenant may not assign this Lease, nor license or grant any concession for the use of the Premises, to another person without obtaining the Landlord's prior written consent, which shall not be unreasonably withheld.

16.1.2. Tenant may, however, sublease portions of the Premises to other persons without obtaining Landlord's prior written consent, provided that such sublease is subject, in all regards, to the provisions of this Lease. In no event, however, may Tenant sublease all or any portion of the Premises to a fixed base operator to sell fuel. If the Premises are sublet:

a. Each subtenant shall provide liability insurance consistent with the provisions of paragraph 11.4.3 of this Lease.

b. In the event that the Tenant is in default, Landlord may collect from any subtenant, or any other person or entity occupying the Premises, the rent, charges, or fees payable by such subtenant, person or entity, and may apply the net amount collected to the rent owed by Tenant hereunder. Nothing set forth herein shall obligate Landlord to do so, however.

16.2. Continued Liability of Tenant. If the Tenant makes any assignment, sublease, license, or grant of a concession, the Tenant will nevertheless remain unconditionally liable for the performance and financial obligations of all of the terms, conditions, and covenants of this Lease.

16.3. Landlord's Right to Collect Rent From Any Occupant. If the Tenant is in default on any payments under this Lease and any other person is subletting or occupying the Premises, or if the Tenant assigns this Lease, the Landlord may collect rent from the assignee, subtenant, or occupant. The Landlord may apply the net amount collected to the rent required under this Lease. The Landlord's collection of the rent does not waive the covenant against assignment and subletting under this Lease nor does it constitute the Landlord's acceptance of the assignee, subtenant, or occupant as a Tenant, nor the Landlord's waiver of the Tenant's further performance of the covenants contained in this Lease.

17. **Airport Specific Provisions.**

17.1. Specific Airport Regulations.

SAMPLE CONTRACT

17.1.1. Tenant acknowledges that, as part of the Airport, this Lease, and the use of the Premises, shall be governed by specific Federal, State and local rules, laws and regulations including, without limitations, the following:

a. The Airport Rules and Regulations, a copy of which has been provided to Tenant, and any subsequent amendments thereto or revisions thereof.

b. The Airport Minimum Standards, a copy of which has been provided to Tenant, and any subsequent amendments thereto or revisions thereof.

17.1.2. Tenant shall, at all times, comply with all such laws, regulations, rules and policies.

17.1.3. Landlord shall have the right to deny access to the Airport to any person or entity that fails or refuses to obey and comply with such laws, regulations, rules and policies.

17.2. Nondiscrimination.

17.2.1. Tenant for itself, its successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree that: (1) no person on the grounds of race, color, or national origin shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of such facilities, (2) in the construction of any improvements on, over or under such land and the furnishing of services thereon, no person on the grounds of race, color, or national origin shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination, (3) that Tenant shall use the premises in compliance with all other requirements imposed by or pursuant to Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, Part 21 Nondiscrimination in Federally assisted programs of the Department of Transportation-Effectuation of Title VI of the Civil Rights Act of 1964, and as such Regulations may be amended.

17.2.2. In the event of breach of any of the above nondiscrimination covenants, shall have, in addition to all remedies available hereunder or at law or equity, the right to terminate the lease and to re-enter and as if such lease had never been made or issued. The provision shall not be effective until the procedures of Title 49, Code of Federal Regulations, Part 21 are followed and completed, including exercise or expiration of appeal rights.

17.2.3. Further, Landlord reserves the right to take whatever action it may be entitled to by law or equity to take in order to enforce this paragraph. This provision is to be considered as a covenant on the part of Tenant, a breach of which continuing after notice by Landlord to cease and desist will constitute a material breach of this Agreement and will entitle Landlord, at its option, to exercise its right of termination as provided for herein or take any action that it deems necessary to enforce compliance herewith.

17.2.4. Tenant shall include the foregoing provisions in every agreement or concession pursuant to which any person or persons, other than Tenant, operates any facility at the Premises providing service to the public and shall include thereon a provision

SAMPLE CONTRACT

granting Landlord a right to take such action as the United States may direct to enforce such covenant.

17.2.5. Tenant shall indemnify and hold harmless Landlord from any claims and demands of third persons including the United States of America resulting from Tenant's noncompliance with any of the provisions of this paragraph and Tenant shall reimburse Landlord for any loss or expense incurred by reason of such noncompliance.

17.3. Governmental Requirements.

17.3.1. Tenant shall procure all licenses, certificates, permits or other authorization from all governmental authorities, if any, having jurisdiction over Tenant's operations at the Premises which may be necessary for Tenant's operations.

17.3.2. Without waiving any right to protect any assessment or to claim any exception to which Tenant may be entitled by law, Tenant shall pay taxes, license, certification, permit and examination fees and excise taxes which may be assessed, levied, exacted or imposed on the Premises, leasehold interest or operations hereunder or on the gross receipts or income to Tenant therefrom and shall make all applications, reports, and returns required in connection therewith.

17.3.3. It shall be a condition of this Lease:

a. That Landlord reserves unto itself, its successors and assigns, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the Premises, together with the right to cause in such airspace such noise as may be inherent in the operation of aircraft, now known or hereafter used, for navigation of or flight in the such airspace, and for use of such airspace for landing on, taking off from or operating on the Airport.

b. That Tenant expressly agrees for itself, its successors, and assigns, to restrict the height of structures, objects of natural growth and other obstructions on the hereinafter described real property to such a height so as to comply with Federal Aviation Regulations, Part 77.

c. That Tenant expressly agrees for itself, its successors, and assigns, to prevent any use of the Premises which would interfere with or adversely affect the operation or maintenance of the airport, or otherwise constitute an airport hazard.

17.3.4. Landlord does not hereby grant any exclusive rights at the Airport to Tenant or any greater rights or privileges with respect to the use of the Premises than are expressly granted hereunder.

18. **Default by Tenant.**

18.1. Events of Default. Upon the happening of one or more of the events set forth below (any of which is referred to hereinafter as an "Event of Default"), and subject to notice to any Leasehold Mortgagee, Landlord shall have any and all rights and remedies hereinafter set forth:

SAMPLE CONTRACT

18.1.1. If Tenant should fail to pay rent when it becomes due and such failure continues for ten (10) days after Landlord provides Tenant with written notice of such failure.

18.1.2. If Tenant should fail to pay rent within ten (10) days of when it becomes due more than three (3) times during any of twelve (12) consecutive months (notwithstanding Landlord's acceptance of rent from Tenant) and without the necessity of Landlord providing Tenant with written notice or opportunity to cure.

18.1.3. If Tenant does not commence construction of the hangar as described paragraph 4.1.1 within six (6) months of the Effective Date and without the necessity of Landlord providing Tenant with written notice or opportunity to cure.

18.1.4. If Tenant violates any other material term, condition or covenant herein on the part of Tenant to be performed and such failure continues for fifteen (15) days after Landlord provides Tenant with written notice of such failure; provided, however, if the default is one which cannot be cured within such time period, Tenant will have such additional time as maybe required so long as Tenant diligently pursues the remedy. Notwithstanding the foregoing:

a. If Tenant has previously defaulted under a material term, condition or covenant of this Lease and is provided with notice of and an opportunity to clear such breach, any subsequent breach of the same term, condition, or covenant shall constitute a breach of this Agreement without further notice or opportunity to cure; or

18.1.5. In the event a petition in bankruptcy under any present or future bankruptcy laws (including but not limited to reorganization proceedings) be filed by or against the Tenant and such petition is not dismissed within thirty (30) days from the filing thereof, or in the event Tenant is adjudged a bankrupt;

18.1.6. In the event an assignment for the benefit of creditors is made by Tenant; or

18.1.7. In the event of an appointment by any court of a receiver or other court officer of Tenant's property and such receivership is not dismissed within thirty (30) days from such appointment.

18.2. Landlord's Remedies.

18.2.1. If any Event of Default occurs, Landlord shall have the right, at the option of Landlord, to pursue one or more of the following remedies, in addition to all other remedies available at law or equity:

a. Terminate this Lease and thereupon reenter and take possession of the Premises with or without legal process.

b. Declare all remaining rent under the Lease immediately due and owing.

c. Without terminating this Lease, reenter and relet the Premises, or any part thereof, with or without legal process, for the account of Tenant upon such

SAMPLE CONTRACT

terms and conditions as Landlord may deem advisable or satisfactory, in which event the rents received on such reletting shall be applied:

1). First, to the expenses of such reletting and collection including but not limited to, necessary renovation and alterations of the Premises, reasonable attorney's fees, any real estate commissions paid;

2). Second, toward payment of all sums due or to become due Landlord hereunder; and

3). Third, if a sufficient sum shall not be thus realized or secured to pay such sums and other charges due Landlord, then, Tenant shall pay Landlord any deficiency monthly, and Landlord may bring an action therefor as such monthly deficiency shall arise.

4). Nothing herein, however, shall be construed to require Landlord to reenter and relet in any event. Landlord shall not, in any event, be required to pay Tenant any surplus of any sums received by Landlord on a reletting of the Premises in excess of the rent provided in this Lease.

d. Remove all or any part of the Tenant's property from the Premises and any property removed may be stored in any public warehouse or elsewhere at the cost of, and for the account of Tenant, and Landlord shall not be responsible for the care or safekeeping thereof whether in transport, storage or otherwise. Tenant hereby waives any claim against Landlord for loss, destruction and/or damage or injury that may be occasioned by any of the previously mentioned acts. In addition to any statutory lien granted to Landlord, this Lease shall be deemed and considered to grant Landlord a security interest in the previously mentioned items and Landlord shall have all the rights of a secured party under the Uniform Commercial Code.

18.2.2. No reentry or taking possession of the Premises by Landlord shall be construed as an election on Landlord's part to terminate this Lease unless a written notice of such intention is given to Tenant. Notwithstanding any such reletting without termination, Landlord may at all times thereafter elect to terminate this Lease for such previous default. Any such reentry shall be allowed by Tenant without hindrance, and Landlord shall not be liable in damages for any such reentry, or guilty of trespass or forcible entry.

18.3. Landlord May Cure Tenant's Defaults. If Tenant shall default in the performing of any covenant or condition of this Lease, Landlord may, at its sole discretion, perform the same for the account of Tenant and Tenant shall reimburse Landlord for any expense incurred therefore together with interest thereon at the highest legal rate. This provision imposes no duty on Landlord nor waives any right of Landlord otherwise provided in this Lease.

19. **Default by Landlord.**

19.1. Landlord's Default. Landlord will be deemed in default or this Lease if Landlord fails to perform or observe any agreement or condition of this Lease on its part to be performed or observed and if such failure continues for thirty days after Tenant provides Landlord with written notice of such failure. If the default is one that cannot be cured within thirty days,

SAMPLE CONTRACT

Landlord will have such additional time as may be required so long as Landlord diligently pursues the remedy.

19.2. Remedies upon Landlord's Default. If Landlord defaults in the performance of any of the obligations or conditions required to be performed by Landlord under this Lease, Tenant may, after giving notice as provided above, either cure the default and deduct the cost thereof from rent subsequently becoming due hereunder or elect to terminate this Lease. In that event, this Lease shall terminate upon the date specified in the notice, unless Landlord has meanwhile cured the default to the satisfaction of Tenant.

20. **Destruction or Damage to Premises from Casualty.**

20.1. Destruction or Fifty Percent Damage. In the event that the Improvements are completely destroyed, or are damaged in excess of fifty percent, due to any cause whatsoever, Tenant shall:

20.1.1. At its own expense repair, restore, or replace the destroyed property if Tenant deems it practical or advisable to do so, and this Lease shall continue in full force and effect; or

20.1.2. If Tenant deems it impractical or inadvisable to repair, restore, or replace the destroyed property, this Lease shall terminate on sixty days' written notice to Landlord.

20.2. Damage Less Than Fifty Percent. In the event that damage to the Improvements due to any cause whatsoever is not in excess of fifty percent, Tenant shall at its own expense repair, restore, or replace the damaged Improvements with due diligence, and this Lease shall continue in full force and effect.

20.3. Definitions. The phrase "completely destroyed" shall be construed to mean the destruction of the safe, tenantable use or occupancy of all Improvements under this Lease. The phrase "damaged in excess of fifty percent" shall be construed to mean any damage to the Improvements that will require an expenditure in excess of fifty percent of the market value (immediately prior to the damage) of the Improvements to accomplish required repairs, restoration, or replacement.

21. **Quiet Enjoyment.** The Landlord covenants that so long as the Tenant pays the rent and additional rent and performs the covenants under this Lease, the Tenant is entitled to peaceful and quiet possession and enjoyment of the Premises for the Lease term, subject to the Lease provisions.

22. **Premises Subject to Agreements.** This Lease and the Premises are subject to all present agreements between Landlord, on the one hand, and the Federal Aviation Administration DOT, on the other hand, matters of record, and zoning and building laws, ordinances, regulations, and codes affecting or governing the Premises, or that may affect and govern the Premises after the execution of this Lease, and all matters that may be disclosed by inspection or survey.

23. **Estoppel Certificates.** Landlord or Tenant shall have the right to request the other party to provide an estoppel certificate, as described below, without charge, fifteen days after the requesting party sends a written notice. This estoppel certificate shall consist of a written statement certifying the following information to the requesting party or to any person specified by that party:

SAMPLE CONTRACT

23.1. That this Lease is unmodified and in full force and effect; or, if there have been any modifications in this Lease, that this Lease is in full force and effect as modified, specifying the nature of each modification.

23.2. The dates through which the rent and other charges payable under this Lease have been paid.

23.3. Whether the other party to this Lease is in default in the performance or observance of any covenant, agreement, condition, term, or provision contained in this Lease, to the best knowledge of the certifying party, and, if so, specifying the nature of each default the certifying party has knowledge of.

23.4. Any other information with respect to this Lease and the Premises that the requesting party shall reasonably request.

24. **Miscellaneous Provisions.**

24.1. Accord and Satisfaction. If the Tenant pays or the Landlord receives any amount that is less than the amount stipulated to be paid under any Lease provision, that payment is considered to be made only on account of an earlier payment of that stipulated amount. No endorsement or statement on any check or letter may be deemed an accord and satisfaction. The Landlord may accept any check or payment without prejudice to the Landlord's right to recover the balance due or to pursue any other available remedy.

24.2. RADON GAS. RADON IS A NATURALLY OCCURRING RADIOACTIVE GAS THAT, WHEN IT HAS ACCUMULATED IN A BUILDING IN SUFFICIENT QUANTITIES, MAY PRESENT HEALTH RISKS TO PERSONS WHO ARE EXPOSED TO IT OVER TIME. LEVELS OF RADON THAT EXCEED FEDERAL AND STATE GUIDELINES HAVE BEEN FOUND IN BUILDINGS IN FLORIDA. ADDITIONAL INFORMATION REGARDING RADON AND RADON TESTING MAY BE OBTAINED FROM YOUR COUNTY PUBLIC HEALTH UNIT.

24.3. Broker Representation. Each party covenants to and represents to the other that neither party has dealt with any real estate broker, salesperson or agent in this Agreement and each party hereby agrees to indemnify and hold harmless the other from and against any real estate brokers claiming by, through or under them.

24.4. Entity Tenant. If Tenant purports to be is a corporation or other entity, the persons executing this Lease on behalf of Tenant hereby covenant, represent and warrant that Tenant is a duly incorporated or formed, or duly qualified (if foreign) corporation or entity and is authorized to do business in the State where the Premises is located (a copy of evidence thereof to be supplied to Landlord upon request); and that the person executing this Lease on behalf of Tenant is duly authorized to execute, acknowledge, and deliver this Lease to Landlord.

24.5. Enforcement. All of the terms and provisions of this agreement shall be binding upon, inure to the benefit of, and be enforceable by the parties and their respective legal representatives, heirs, estates, successors and permitted assigns.

24.6. Exclusive Venue. The parties agree that the exclusive venue for any litigation, suit, action, counterclaim, or proceeding, whether at law or in equity, which arises out of concerns, or

SAMPLE CONTRACT

relates to this agreement, any and all transactions contemplated hereunder, the performance hereof, or the relationship created hereby, whether sounding in contract, tort, strict liability, or otherwise, shall be in Marion County, Florida.

24.7. JURY WAIVER. EACH PARTY HEREBY COVENANTS AND AGREES THAT IN ANY LITIGATION, SUIT, ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. ANY PARTY MAY FILE AN ORIGINAL COUNTERPART OR A COPY OF THIS AGREEMENT WITH ANY COURT, AS WRITTEN EVIDENCE OF THE CONSENT OF THE PARTIES HERETO OF THE WAIVER OF THEIR RIGHT TO TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY THE OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

24.8. Notices.

24.8.1. All notices, requests, consents and other communications (each a "Communication") required or permitted under this Agreement shall be in writing (including emailed communication) and shall be (as elected by the person giving such notice) hand delivered by messenger or courier service, emailed or mailed by Registered or Certified Mail (postage pre-paid), Return Receipt Requested, addressed as set forth below each party's signature line, addresses as any party may designate by Communication complying with the terms of this paragraph.

24.8.2. Each such Communication shall be deemed delivered:

a. On the date of delivered if by personal delivery;

b. On the date of email transmission if by email (subject to paragraph 24.8.5); and

c. If the Communication is mailed, on the earlier of: (a) the date upon which the Return Receipt is signed; or (b) the date upon which delivery is refused.

d. Notwithstanding the foregoing, service by personal delivery delivered, or by email sent, after 5:00 p.m. shall be deemed to have been made on the next day that is not a Saturday, Sunday, or legal holiday.

24.8.3. If a Communication is delivered by multiple means, the Communication shall be deemed delivered upon the earliest date determined in accordance with the preceding subparagraph.

SAMPLE CONTRACT

24.8.4. If the above provisions require Communication to be delivered to more than one person (including a copy), the Communication shall be deemed delivered to all such persons on the earliest date it is delivered to any of such persons.

24.8.5. Concerning Communications sent by email:

a. The Communication shall not be deemed to have been delivered if the sender receives a message from the sender's or the recipient's internet service provider or otherwise that the email was not delivered or received;

b. If the sender receives an automatic reply message indicating that the recipient is not present to receive the email (commonly referred to as an "out of the office message"), the email shall not be deemed delivered until the recipient returns;

c. Any email that the recipient replies to, or forwards to any person, shall be deemed delivered to the recipient.

d. The sender must print the email to establish that it was sent (though it need not do so at the time the email was sent); and

e. The sender shall maintain the digital copy of the email in its email system for a period of no less than one year after it was sent.

24.9. Governing Laws. This agreement and all transactions contemplated by this agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of Florida without regard to principles of conflicts of laws.

23.0. Attorney's Fees. If any legal action or other proceeding (including, without limitation, appeals or bankruptcy proceedings) whether at law or in equity, which: arises out of, concerns, or relates to this agreement, any and all transactions contemplated hereunder, the performance hereof, or the relationship created hereby; or is brought for the enforcement of this agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of this agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorney's fees, court costs and all expenses even if not taxable as court costs, incurred in that action or proceeding, in addition to any other relief to which such party or parties may be entitled.

23.1. Counterparts. This agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute the same instrument.

23.2. Remedies. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power or remedy hereunder shall preclude any other or further exercise thereof.

23.3. Severability Clause. Provisions contained in this agreement that are contrary to, prohibited by or invalid under applicable laws or regulations shall be deemed omitted from this document and shall not invalidate the remaining provisions thereof.

SAMPLE CONTRACT

23.4. Waiver.

23.4.1. A failure to assert any rights or remedies available to a party under the terms of this agreement, or a waiver of the right to remedies available to a party by a course of dealing or otherwise shall not be deemed to be a waiver of any other right or remedy under this agreement, unless such waiver of such right or remedy is contained in a writing signed by the party alleged to have waived his other rights or remedies.

23.4.2. No payment by Tenant or receipt by Landlord or its agents of a lesser amount than the rent and other charges stipulated in this Lease shall be deemed to be other than a payment on account thereof, nor shall any endorsement or statement on any check or any letter accompanying any check or payment be deemed an accord and satisfaction, and Landlord or its agents may accept such check or payment without prejudice to Landlord's right to recover the balance of the amount due or to pursue any other remedy provided in this Lease or by applicable Law.

23.5. Entire Understanding. This agreement represents the entire understanding and agreement between the parties with respect to the subject matter hereof and supersedes all other negotiations (if any) made by and between the parties. The provisions of this agreement may not be amended, supplemented, waived, or changed orally but only by a writing making specific reference to this agreement signed by the party as to whom enforcement of any such amendment, supplement, waiver, or modification is sought.

SAMPLE CONTRACT

This Instrument Prepared by and Return To:
Robert W. Batsel, Jr.
Gilligan, Gooding, Batsel, Anderson & Phelan, P.A.
1531 SE 36th Avenue
Ocala, FL 34471

MEMORANDUM OF LEASE

THIS MEMORANDUM OF LEASE dated _____, 20__, by and between: City of Ocala, a Florida municipal corporation ("Landlord"); and _____, a _____ ("Tenant").

WHEREAS:

A. Landlord and Tenant have entered into a "Ground Lease at Airport" (the "Lease") concerning the real property described in the attached **Exhibit A**, together with all improvements thereon and appurtenances thereto (collectively the "Property")

B. Pursuant to the Lease, Tenant is permitted to construct structures, buildings, and other improvements, finance such construction, and grant a leasehold mortgage as security in connection therewith, subject to Landlord's interest (including its reversionary interest in the improvements) and certain limitations set forth therein.

C. Landlord and Tenant desire to publicly evidence the existence of the Lease and certain rights and obligations of Landlord and Tenant pursuant to the terms thereof.

NOW THEREFORE, in consideration of the matters set forth above (which are incorporated herein by reference) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Landlord and Tenant did on _____, 20__, enter into the Lease concerning Tenant's possession and use of the Property.

2. The term of the Lease is thirty (30) years. Tenant has the right to renew the term of the Lease for two (2) additional terms of ten (10) years each.

3. The estate of the Landlord and each and every interest of the Landlord in the Property and the Lease shall in no manner be subject to lien, claim, demand or imposition under the Construction Lien Laws of the State of Florida, or otherwise, for any improvements, labor, materials or services (collectively "Improvements") furnished to, or rendered at or upon, the Premises by or at the request of the Tenant, whether or not Landlord shall have consented to same, it being acknowledged that any and all of such Improvements are for the sole and exclusive benefit of the Tenant. This provision is herein set forth pursuant to Section 713.10, Florida Statutes.

4. Pursuant to the Lease, Tenant has the right to finance its interest in the Lease including, without limitation, the cost of constructing the Improvements (as defined in the Lease). Such financing may be in the form of a mortgage, including, in connection therewith, a collateral assignment of the Lease, or other forms of financing utilized by Tenant from time to time (collectively, "Leasehold Mortgage"). Any such leasehold financing shall be subordinate to the Lease and shall not allow the holder of the

SAMPLE CONTRACT

Leasehold Mortgage ("Leasehold Mortgagee") to eliminate or damage Landlord's reversionary interest in the Improvements.

5. Nothing herein contained shall be deemed to modify, limit, or in any way abridge or amend any term or condition of the Lease, reference to which, and each and every of the provisions thereof, is hereby expressly made.

IN WITNESS WHEREOF, the parties hereto have hereunto executed this instrument for the purpose herein expressed, the day and year above written.

SAMPLE CONTRACT

1. **Financial Review.**

1.1. Financial Reviews and Information.

1.1.1. As and when required, Developer shall request the Financial Review Committee to conduct its financial review (the "Financial Review") of the Project and shall submit to the Financial Review Committee information (the "Financial Information") confirming the financial ability of Developer and the Developer Principals to develop the Project.

1.1.2. Unless modified pursuant to paragraph 1.1.3.1, the Financial Information shall include the following:

1.1.2.1. Information concerning the Developer Principals including prior development experience, current or ongoing development of Projects similar to the Project in which the Developer Principals or the Real Estate Firm are or have been involved, and credit bureau reports for each Developer Principal.

1.1.2.2. The last two (2) years' federal corporate income tax returns of the Developer Principals and of Developer (if Developer was required to file such tax returns).

1.1.2.3. Financial statements of Developer and each Developer Principal accurately representing their financial condition as of a date that is no less than six months prior to the date of delivery of the financial statements.

1.1.2.4. A complete pro forma and cash flow projection on the Project, including all assumptions.

1.1.2.5. Feasibility study of the Project.

1.1.2.6. Estimates of Construction Costs for the Project provided by a licensed general contractor to be used for the Project (or for Phase 1 if the Project is built in Phases) and copies of the construction contract with such contractor.

1.1.2.7. A loan commitment or other documentation establishing that Developer or the Developer Principals have sufficient financing or resources in place to develop the Project (or for Phase 1 if the Project is built in Phases).

1.1.2.8. Proof that Developer has the Equity Investment if required.

1.1.3. In connection with the Financial Review:

1.1.3.1. Developer or the Financial Review Committee may request City to permit the types of Financial Information described in paragraph 1.1.2 be modified based upon the following factors: whether the Financial

Information is subject to the Florida Public Records Act (notwithstanding paragraph 1.3.3); and such other matters as otherwise render the provision of the Financial Information described in paragraph 1.1.2 inappropriate and unnecessary. In considering the information to be provided, City shall consider, not only the matters asserted by the requesting party, but also City's reasonable necessity to assure that Developer and the Developer Principals have the financial ability to develop the Project.

1.1.3.2. City and Developer shall request that no person serve on the Financial Review Committee who is employed by, or represents, a financial institution: (a) if a Developer Principal owns stock in such financial institution; (b) if a Developer Principal serves on the Board of Directors of such financial institution; or (c) if the financial institution has a business relationship with a Developer Principal that would create an appearance of impropriety if such person were to serve on the Financial Review Committee.

1.1.3.3. The Financial Review Committee shall review the Financial Information submitted and make a report to City Council concerning its findings as to whether Developer and the Developer Principals have the financial ability to develop the Project.

1.1.4. As of the Effective Date, City anticipates that the Financial Review Committee shall consist of at least three persons selected in writing by the Ocala/Marion County Chamber of Commerce, Inc., a Florida not for profit corporation ("CEP"), or selected by one or more persons selected by the CEP: whose primary offices are in Marion County; who are employed by banks or similar financial institutions with offices in Marion County; who are experienced in commercial lending; and who are willing to serve on the Financial Review Committee for no compensation. In the event that the CEP is unable or unwilling to select such persons, City shall select persons meeting the foregoing qualifications in its sole discretion. Although the CEP has a role in selecting the members of the Financial Review Committee, the Financial Review Committee is not a committee of, nor under the control of, the CEP and shall perform its duties hereunder without any direction from CEP.

1.2. Council Determination. Conveyance of incentives shall be subject to City Council's determination that Developer and the Developer Principals have the financial ability to develop the Project, and that the Developer Principals or the Real Estate Firm has the experience to develop and market the Project, based upon any report of the Financial Review Committee and other information available to City Council.

1.3. Relationship Between City and Financial Review Committee. The relationship between City and the Financial Review Committee is as follows:

1.3.1. The Financial Review Committee is not, and will not be, a department, division, bureau, commission or other separate unit of government created or established by, City.

1.3.2. The Financial Review Committee was not created by law or ordinance of City or any other public agency.

1.3.3. Although City anticipates that the Financial Review Committee will provide a report to City as set forth in paragraph 1.1.3.3, City has not entered into a contract with the Financial Review Committee concerning such report or other activities of the Financial Review Committee hereunder.

1.3.4. Therefore, in light of the foregoing, City and Developer believe and intend that all documents or other information provided by or on behalf of Developer to the Financial Review Committee shall be kept confidential by the Financial Review Committee and are not subject to the Florida Public Records Act. Nothing set forth herein shall preclude the disclosure of such documents or other information: (a) in any litigation involving City or Developer in which the such documents or other information is relevant, but the parties shall endeavor to protect such documents or other information from disclosure pursuant to available procedures under Florida law (including requesting that such documents or other information be sealed, if appropriate); or (b) pursuant to a subpoena or court order. Except in connection with any such use, City shall not request the Financial Review Committee to provide the information or documents to City. Further, City and Developer acknowledge that the Financial Review Committee may destroy information and documents provided to it by or on behalf of Developer hereunder upon Developer's request and that therefore it may be unable to obtain such information in connection with any permitted use thereof.

AMENDMENT NO. 1 TO HEXAPORT LEASE

THIS AGREEMENT is entered into effective August 27, 2010 between: City of Ocala, a Florida municipal corporation ("City" or "Landlord"); and Ocala Hex-A-Port, Inc. (Tenant").

WITNESSETH

WHEREAS:

A. City and Tenant are parties to an Airport Land Lease (the "Original Lease") dated November 7, 1995.

B. Pursuant to paragraph 10 of the Original Lease, the rent increased to $992.64 per month in January 2009.

C. Tenant has requested that the premises that are the subject of the Original Lease be reduced in size, and that the Original Lease be otherwise amended as set forth herein.

D. City has agreed to such matters pursuant to the terms and conditions hereof.

NOW, THEREFORE, in consideration of the foregoing, and the exchange of the mutual covenants set forth herein, City and Tenant agree as follows:

1. **Recitals.** The recitals contained above are true, correct, and are incorporated herein by reference.

2. **Leased Premises.** The Original Lease is amended to provide that Exhibit A thereto is replaced with the attached Exhibit A. Therefore, the attached Exhibit A now describes the premises that are subject to the Lease.

3. **Deletion of Option to Renew.** Paragraph 9 entitled "OPTION TO RENEW" is deleted in its entirety and the following language is hereby substituted therefor:

> *9. TERM OF LEASE. The term of this Lease shall expire November 6, 2025.*

4. **Rent.** Paragraph 10 entitled "FIXED RENT" is deleted in its entirety and the following language is hereby substituted therefor:.

> 10. *RENT.*
>
> 10.1. *During the remaining term of this Lease, Tenant shall pay rent as stated in Exhibit B. Such rent is calculated as follows:*
>
> *10.1.1. Commencing on August 1, 2010, and continuing through December 1, 2010, Tenant shall pay monthly rent of Eight Hundred Twenty-Three and 50/100 Dollars ($823.50) per month (based on the per acre rental value of the premises at $12,200.35); and*

10.1.2. Commencing on January 1, 2011, and on each January 1 thereafter, the total monthly rent shall be increased by an amount equal to three (3%) percent of the prior year's monthly rent.

10.2. *The rent is payable without Landlord's demand on the first day of each calendar month during the Lease term. If rent payments commence on a day other than the first day of a calendar month, or terminate on a day other than the last day of a calendar month, the rent will be prorated on a daily basis.*

10.3. *All rent payable under this Lease shall be paid to Landlord without set-off or withholding for any reason and shall be mailed or delivered to Landlord at Landlord's address as set forth elsewhere in this Lease, or such other address of which Landlord shall notify Tenant, so that it is received prior to the date it is due.*

10.4. *In addition to the rent under this paragraph 10, all other payments that the Tenant is obligated to make under this Lease are considered additional rent, regardless of whether the payments are so designated. All additional payments are due and payable at the time the Landlord demands payment or at the time the next succeeding rent installment is due, whichever occurs first. Landlord shall have the same remedies for Tenant's failure to pay additional rent as it does for Tenant's failure to pay monthly installments of rent. All further references to "rent" shall include both monthly installments of rent and additional rent.*

10.5. *At the time rent payments are made, the Tenant agrees to pay to the Landlord all sales and use taxes that arise because of payment of rent to the Landlord.*

5. **Effect on Original Lease.** Except as expressly set forth herein, the Original Lease is not amended or modified. All references in the Original Lease or herein to "this Lease" or "this Agreement" shall be deemed to refer to the Original Lease as amended hereby.

IN WITNESS WHEREOF, the parties have executed this Agreement this 27 day of August, 2010.

CITY MGR. OFF.

AIRPORT LAND LEASE

THIS LEASE is entered into this 7th day of November, 1995, between the City of Ocala, herein called "OCALA" and Ocala Hexaport, Inc., herein called "TENANT".

W I T N E S S E T H:

IN CONSIDERATION of the mutual covenants herein contained the parties agree:

1. AREA AND TERM OF LEASE. The property leased is a tract of land owned by OCALA which is a part of Ocala Regional Airport, as shown on the legal description attached as "Exhibit A". The term of the lease is thirty (30) years from the above date, subject to the revision extension provisions contained herein. All previous airport land leases are hereby revoked by agreement of OCALA and TENANT.

2. USES AND PURPOSES. TENANT shall have the right to use the premises for the following and for no other purpose:

   a. Storage of aircraft which are either owned or leased by the TENANT in said airport hangar. No storage of anything other than aircraft shall be allowed. The TENANT shall be required to keep accurate records concerning ownership of the premises. Such information shall be made available to OCALA immediately upon request.

   b. Loading and unloading of personal property on the leased premises by motor vehicles or aircraft.

   c. Right to construct driveways, taxiways, aprons, paved area, and other improvements on the leased premises and taxiways from the leased premises to the existing taxiways, subject to prior written approval of plans not specifically leased to other tenants under private lease.

   d. Nonexclusive use of all airport facilities which are not specifically leased to other tenants under private leases.

   e. No commercial business may be operated from this leased premises.

   f. Performance of preventive maintenance by TENANT as allowed by the Federal Aviation Regulations. No other maintenance or commercial operations shall be allowed.

3. IMPROVEMENTS AND CONSTRUCTION ON THE PREMISES. Any improvements and construction on the premises must be approved in writing by the Ocala Airport Manager and all buildings and improvements constructed by the TENANT shall be in accordance with the building code of OCALA and all other laws and ordinances applicable.

4. MAINTENANCE. The premises and all improvements shall, at all times, be maintained in good and safe condition and shall present an attractive appearance, all at the sole cost of the TENANT. If, in the opinion of the Airport Manager, and after notice, the subject leased premises are not maintained, OCALA may maintain the premises and bill the TENANT. Payment shall be due upon TENANT'S receipt of invoice, and delinquent thirty (30) days thereafter. No outside storage shall be allowed except for parking of aircraft. All areas not paved or covered by the t-hangar facility shall be grassed and landscaped as approved on site plan. An underground water sprinkler system is required.

5. MECHANIC'S AND MATERIALMEN'S LIENS. No materialman or laborer shall have the right to any lien against the interest of OCALA in the leased premises for any unpaid material or labor. TENANT shall pay for all material, labor and fees necessary for said improvements within thirty (30) days from completion thereof, and shall indemnify and hold OCALA harmless from any claim for labor or materials.

6. OPERATION OF AIRPORT. OCALA shall maintain the Airport in accordance with the rules and regulations of Federal Aviation Administration and TENANT shall likewise comply with such rules.

7. UTILITIES. TENANT shall pay for all utilities used on the leased premises and shall promptly pay all charges therefore when due. Appropriate connection charges to Ocala's water and sewer system will be paid when available.

8. COMPLIANCE WITH LAWS. TENANT shall at all times promptly comply with all present and future laws of Federal Government, State of Florida, and any political subdivision thereof and shall not use the premises or permit the use of the premises for any unlawful or immoral purpose or any activity thereon which may create a public or private nuisance.

9. OPTION TO RENEW. This lease shall be revisited every five (5) years provided that during the term of the lease TENANT shall have fully complied with all of the provisions contained herein. At the end of thirty (30) years, TENANT, at its option, may elect not to extend the lease provided TENANT notifies OCALA at its intent not to extend at lease thirty (30) days before the expiration of the term. TENANT and OCALA have both the option to renew this lease for another thirty (30) year term, should both parties desire and agree to do so.

10. FIXED RENT. All rent shall be due upon the first day of each month and delinquent ten (10) days thereafter. The monthly rental amount for the initial five (5) year period shall be $318.35, plus tax, and all extensions hereof shall be one percent (1%) of the "per acre value of the land" as defined herein, multiplied by the number of acres shown in Exhibit A. For the initial five (5) year period, the "per acre value of the land" shall be $31,835 (based on cumulative 8.6 CPI increase over the last 3 years). Rent shall begin at the time of approval hereof. The "per acre value of the land" as set forth above shall be adjusted every five (5) years pursuant to Paragraph 9, for any net increase in the purchasing power of the dollar as reflected in the Cost of Living Index ("CPI") as hereinafter defined. For the purposes hereof the CPI shall be the "Consumer Price Index" for all urban consumers (CPI-U) (1967 equals 100), all items as published for north Florida area or the area most closely related to the north Florida as reasonably determined by OCALA, and as published by the United States Department of Labor, Bureau of Labor, Bureau of Labor Statistics. Such adjustment shall be made by increasing the "per acre value of the land" by the product obtained when multiplying the "per acre value of the land" for the previous five (5) year period by the sum of the increases in the CPI for each of the five (5) preceding years. In the alternative, OCALA may, at its discretion, perform a bona fide appraisal on or about the date of review (every 5 year term), of the leased property (excluding any improvements added by TENANT) and establish the appraised value as the "per acre value of the land" for the next five year period. In no event, however, shall the "per acre value of the land", regardless of the method by which it is established, exceed one hundred sixty percent (160%) of the "per acre value of the land" for the previous five year period nor shall it be less than that said amount.

11. TERMINATION BY TENANT. If at any time during the term of this lease or any extended term hereof OCALA discontinues the operation of the Ocala Regional Airport, Jim Taylor Field, or in the event of the closing thereof by order of State or Federal authorities by reason of the action or failure of action by OCALA, or in the event of any other action or inaction on the part of OCALA which renders the leased premises unusable for the uses and purposes for which leased or if OCALA breaches any of the agreements contained herein and fails to remedy said breach for a period of thirty (30) days after written notice from TENANT of such breach, this agreement may be terminated by the TENANT and OCALA shall pay to TENANT the then fair market value of any improvements to the leased property made by TENANT less the net value (value of costs of removal) of any portions of such improvements removable by TENANT.

12. ABATEMENT OF RENT. If for any of the causes stated in Paragraph 11 above, the Airport or improvements on the premises shall become completely unusable by the TENANT for a period of more than forty-eight (48) hours, the rent shall be abated during the time such Airport or premises shall remain unusable.

13. NONWAIVER OF DEFAULT. No waiver of default by either party of any of the terms of this lease shall be construed as a waiver of any subsequent default.

14. INTEREST ON RENT ARREARAGE. Any installment of rent accruing under the provisions of this lease that is not paid when due shall bear interest at the rate of ten percent (10%) per annum from the date when the same was payable by the terms hereof, until the same is paid lessee.

15. TERMINATION BY OCALA. If TENANT shall default in the payment of rent or if TENANT shall default in any other term of this lease, or if TENANT files a voluntary petition in bankruptcy or is adjudicated bankrupt in an involuntary proceeding or if a receiver or trustee of the property of TENANT is appointed, or if any levy is made against the leasehold interest of the TENANT which remains unsatisfied for twenty (20) or more days, OCALA shall have the right to terminate this lease and take possession of the leased property and all improvements thereon at no cost to OCALA, provided that TENANT shall have thirty (30) days after written notice by OCALA to cure any default, except that in the case of default in the payment of rent, TENANT shall have ten (10) days after written notice to cure said default.

16. RESPONSIBILITY OF TENANT FOR INDEMNIFICATION OF OCALA. TENANT shall indemnify and hold OCALA harmless from any claim, demand, loss or damage to person or property on the leased premises or arising from TENANT'S improvement and operation thereof, and, to secure such indemnity, shall purchase and maintain liability insurance in an amount not less than ONE MILLION DOLLARS ($1,000,000) with OCALA, as Landlord, as a named insured.

17. RIGHT OF OCALA TO INSPECT PREMISES. OCALA shall have the right to enter the leased premises at any reasonable hour for inspection of for any other lawful purpose.

18. PAYMENT OF TAXES. TENANT shall pay all taxes which may be imposed against the improvements on the leased premises or upon any personal property therein before such taxes become delinquent and before any interest attaches. TENANT, upon demand by OCALA, shall give to OCALA adequate security against loss by reason of such contest.

19. NONEXCLUSIVE PROVISION. Notwithstanding anything herein contained that may be or appear to be to the contrary, it is expressly understood and agreed that the rights granted under this agreement, as such rights relate to any landing area as referred to in Section 303 of the Civil Aeronautics Act (C. 601,

Title III, Sec. 303, 52 Stat, 986; 49 U.S.C.A. Sec. 453), are nonexclusive, and OCALA herein reserves the right to grant similar privileges to others.

20. RESTRICTIONS AGAINST DISCRIMINATION. TENANT hereby agrees that it will not discriminate against an person or persons because of race, creed, sex, color or national origin in furnishing, or refusing to furnish to such person or persons the use of any facility, services, privileges, or accommodations offered or operated on the leased premises. It is agreed that the TENANT'S noncompliance with the provisions of this clause shall constitute a material breach of this agreement. In the event of such noncompliance OCALA may take appropriate action to enforce compliance, may terminate this agreement, or may pursue such other remedies as may be provided by law at total cost of TENANT.

21. AFFIRMATIVE ACTION PLAN. The TENANT assures that it will undertake an affirmative action program if required by 14 CRF Part 152, Subpart E, to insure that no person shall on the grounds of race, creed, color, national origin, or sex be excluded from participating in any employment activities in connection with any operation of the leased premises covered by 14 CRF Part 152, Subpart E.

22. COVENANTS OF OCALA. OCALA represents that it has authority to enter into this lease agreement subject to all requirements as have been and may from time to time be imposed by the United States through its Department and agencies upon OCALA as owner and operator of OCALA REGIONAL AIRPORT.

23. NOTICES. Notices to OCALA shall be sufficient if sent by certified mail to the Airport Manager, City Hall, Post Office Box 1270, Ocala, Florida 34478-1270, and to TENANT if sent by certified mail to George R. McCoy, 1920 SW 37th Avenue, Ocala, Florida 34474 or such other address as the parties may designate in writing.

24. TIME OF THE ESSENCE. Time is declared to be of the essence of each provision contained herein. This agreement shall be binding upon the parties hereto, their successors, personal representatives and assigns.

25. ASSIGNMENT BY TENANT. TENANT may not assign this lease or premises or transfer a controlling interest of TENANT without prior written consent of OCALA, which consent shall not unreasonably withheld.

26. OWNERSHIP OF MOVABLE STRUCTURES AFTER EXPIRATION. Upon termination of the Airport Hangar Lease for any reason, all improvements and construction on the premises, together with the movable structures situated on the premises shall, at the option of OCALA, become the sole and exclusive property of OCALA. Within thirty (30) days of the termination of the Airport Hangar

Lease. OCALA shall provide written notice to the TENANT of its intent to exercise this option.

27. SUBLETTING AND COMMERCIAL UNDERTAKING. TENANT shall not at any time sublet all or any portion of the leased premises on the facility without the prior written consent of OCALA, which such consent may be conditioned upon such additional terms and conditions as OCALA may seek to impose on the sublease. TENANT shall not enter into a commercial business without prior written consent of OCALA, which such consent may be conditioned upon such additional terms and conditions as OCALA may seek to impose.

28. ENVIRONMENTAL COMPLIANCE. Attached hereto as Exhibit "B" is an addendum setting forth "Environmental Compliance Matters" which shall be binding upon the parties to this agreement.

IN WITNESS WHEREOF, the parties have executed this lease the date above written.

Approved as to form and legality:

Patrick G. Gilligan
City Attorney

ACCEPTED BY CITY COUNCIL
on 14th day of November, 1995
By: Valerie Forster
~~Senior~~ Deputy City Clerk

EXHIBIT "A"

A) COMMENCE AT THE N.E. CORNER OF THE S.E. 1/4 OF SECTION 20, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA; THENCE S.00°26'43"W. ALONG THE EAST BOUNDARY OF SAID SECTION 20 A DISTANCE OF 1657.52 FEET; THENCE N.89°33'17"W. 85.00 FEET TO A POINT ON THE WEST RIGHT-OF-WAY LINE OF S.W. 60TH AVENUE (COUNTY ROAD C-225-A); THENCE S.00°26'43"W. ALONG SAID WEST RIGHT-OF-WAY LINE 156.23 FEET TO THE POINT OF BEGINNING;

1) THENCE CONTINUE S.00°26'43"W. ALONG SAID WEST RIGHT-OF-WAY LINE 188.77 FEET;

2) THENCE N.89°33'17"W. 170.00 FEET;

3) THENCE N.28°23'51"W. 115.00 FEET;

4) THENCE N.61°36'09"E. 47.19 FEET;

5) THENCE N.30°12'08"E. 75.19 FEET;

6) THENCE S.89°33'17"E. 146.83 FEET TO THE POINT OF BEGINNING.

CONTAINING 35382.62 SQUARE FEET OR 0.81 ACRES, MORE OR LESS.

B) TOGETHER WITH A NON-EXCLUSIVE LEASEHOLD EASEMENT FOR INGRESS AND EGRESS OVER A TAXIWAY DESCRIBED AS:

COMMENCE AT THE N.E. CORNER OF THE S.E. 1/4 OF SECTION 20, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA; THENCE S.00°26'43"W. ALONG THE EAST BOUNDARY OF SAID SECTION 20 A DISTANCE OF 1657.52 FEET; THENCE N.89°33'17"W. 85.00 FEET TO A POINT ON THE WEST RIGHT-OF-WAY LINE OF S.W. 60TH AVENUE (COUNTY ROAD C-225-A); THENCE CONTINUE N.89°33'17"W. 337.17 FEET TO THE POINT OF BEGINNING;

1) THENCE S.28°23'51"E. 267.85 FEET;

2) THENCE S. 61°36'09"W. 20.00 FEET;

3) THENCE N.28°23'51"W. 278.86 FEET;

4) THENCE S.89°33'17"E. 22.83 FEET TO THE POINT OF BEGINNING.

CONTAINING 5467.04 SQUARE FEET OR 0.13 ACRES, MORE OR LESS.

C) TOGETHER WITH A NON-EXCLUSIVE LEASEHOLD WATER LINE EASEMENT TWO (2) FEET EITHER SIDE OF THE CENTERLINE DESCRIBED AS:

COMMENCE AT THE N.E. CORNER OF THE S.E. 1/4 OF SECTION 20, TOWNSHIP 15 SOUTH, RANGE 21 EAST, MARION COUNTY, FLORIDA; THENCE S.00°26'43"W. ALONG THE EAST BOUNDARY OF SAID SECTION 20 A DISTANCE OF 1657.52 FEET; THENCE N.89°33'17"W. 85.00 FEET TO A POINT ON THE WEST RIGHT-OF-WAY LINE OF S.W. 60TH AVENUE (COUNTY ROAD C-225-A); THENCE S.00°26'43"W. ALONG SAID WEST RIGHT-OF-WAY LINE 260.52 FEET; THENCE DEPARTING SAID RIGHT-OF-WAY LINE N.89°33'17"W. 106.87 FEET TO A POINT OF REFERENCE, SAID POINT HAVING AN X-COORDINATE OF 429976.0091 AND A Y-COORDINATE OF 1756802.2022; THENCE S.79°14'10"W. 66.54 FEET TO A WATER VALVE, SAID POINT BEING THE POINT OF BEGINNING OF THIS CENTERLINE DESCRIPTION;

1) THENCE N.28°57'34"W. ALONG THE CENTERLINE OF AN UNDERGROUND WATER LINE 301.75 FEET;

2) THENCE CONTINUING ALONG THE CENTERLINE OF SAID WATER LINE N.89°33'17"W. 33.88 FEET TO THE POINT OF TERMINUS OF THIS CENTERLINE DESCRIPTION, SAID POINT BEING ON THE WESTERLY BOUNDARY OF PARCEL "C" AND BEING S.28°23'51"E. 12.08 FEET FROM THE N.W. CORNER OF SAID PARCEL "C".

EXHIBIT "B"

ENVIRONMENTAL COMPLIANCE MATTERS

(A) OCALA and TENANT expressly agree that there are no third party beneficiaries to this Article or any portion of this Lease.

(B) For the purposes of this part, the following terms shall be defined as follows:

1. "Hazardous Material" means any radioactive, hazardous, or toxic substance, material, waste or similar term, the presence of which on the Premises, or the discharge or emission of which from the premises, is prohibited by Governmental Requirements (hereafter defined) or which require special handling in collection, storage, treatment, or disposal by any Governmental Requirements. The term Hazardous Material includes, but is not limited to, any material, substance, waste or similar term which is:

(i) Defined as a hazardous material under the laws of the State of Florida as they are amended from time to time;

(ii) Defined as a hazardous substance under Section 311 of the Federal Water Pollution Control Act (33 U.S.C. Section 1317) as amended from time to time;

(iii) Defined as a hazardous waste under Section 1004 of the Federal Resource Conservation and Recovery Act (RCRA) (42 U.S.C. Section 6901, et seq.) as amended from time to time;

(iv) Defined as a hazardous waste substance under Section 101 of the Comprehensive Environmental Response, Compensation and Liability Act, (CERCLA) and (SARA) (42 U.S.C. Section 9601, et seq.), as amended from time time;

(v) Defined as a radioactive, hazardous, or toxic substance, waste, material or similar term in any rules and regulations, as amended from time to time, which are adopted by any administrative agency; including, but not limited to the Environmental Protection Agency, the Occupational Safety and Health Administration, and any such similar state or local agency having jurisdiction over the Premises, whether or not such rules and regulations have the force of law;

(vi) Determined to contain asbestos or polychlorinated bipheryls;

(vii) Defined as a radioactive, hazardous, or toxic waste, substance, material or similar term in any other statute, regulation, rule or law presently in effect, or enacted or adopted as any time after the date of this Lease, by local authorities, the State of Florida, and/or the federal government or

(viii) Subject to regulation under the Toxic Substances Control Act (TSCA) 15 USC, Section 2601, et seq.)

2. "Governmental Requirements" shall mean all laws, ordinances, statutes, codes, regulations, orders, and decrees of the United State, the State of Florida, and all local or governmental or regulatory authorities exercising jurisdiction over OCALA or the Premises.

(a) The "Termination Date" shall be the date on which the term and all extended terms of this Lease shall have expired.

(b) "Hazardous Material Contamination" shall mean the contamination (whether presently existing or hereafter occurring) of the Demised premises, or the contamination of the buildings, facilities, soil, ground water, air or other elements on, or of, as a result of Hazardous Material at any time emanating from the Demised Premises.

(C) To the best of OCALA'S knowledge, as of the date the TENANT'S obligation to pay rent begins, there will not be any Hazardous Material on or in the Demised Premises, or being released or discharged therefrom (the term "Demised Premises" expressly including for the purposes of this Section, all buildings and other improvements located thereon, all of OCALA'S personal property, the soil and the ground water thereof, including the streams crossing or abutting the Demised Premises and the aquifer underlying the Demised Premises), whether such Hazardous Material be located or placed on or within the Demised Premises by spill, release, discharge, disposal, storage, or otherwise.

To the best of OCALA'S knowledge after due and diligent inquiry: (1) no part of the Demised Premises has ever been used as a manufacturing, storage, or dump site for Hazardous Material, nor is any part of the Demised Premises affected by any Hazardous Material Contamination; (2) no property adjoining the Demised Premises has ever been used as a manufacturing, storage, or dump site for Hazardous Material; and (3) no property adjoining the Demised Premises is affected by Hazardous Material Contamination. As soon as practicable, after the TENANT'S obligation to pay begins, OCALA may, at its expense, deliver to TENANT an environmental audit of the property. If such audit reveals the presence of any hazardous waste, OCALA shall, at its sole expense, remove and dispose of the same.

TENANT covenants and agrees that from the date its obligation to pay rent begins through the Termination Date, TENANT and TENANT'S agents, contractors, authorized representatives, lisencees, permitees, and employees (collectively "Tenants's Agents") shall not engage in any of the following prohibited activities, and OCALA shall use its best and diligent efforts to see that OCALA'S invitees and tenants, and such tenants' employees, agents and invitees shall not, except in accordance with applicable governmental laws and regulations:

(1) Cause or permit any release or discharge of Hazardous Material from the Demised Premises; or

(2) Cause or permit any manufacturing, holding, handling, retaining, transporting, spilling, leaking, or dumping of Hazardous Material in or on any portion of the Demised Premises; or

(3) Otherwise place, keep, or maintain, or allow to be placed, kept, or maintained, any Hazardous Material on any portion of the Demised Premises.

(D) From the date TENANT'S obligation to pay rent begins through the Termination Date, OPERATOR shall comply, and cause TENANT'S agents and the Demised Premises to comply, with all laws, ordinances, rules, and regulations of all authorities having jurisdiction over the TENANT, TENANT'S agent, the Demised Premises, or the use of the Demised Premises, and pertaining to any Hazardous Material (herein called "Hazardous Material Laws").

(E) If Hazardous Material is shown to have been discharged onto the Demised Premises by TENANT, its agents, lisencees, permitees, or employees in violation of Hazardous Materials Laws, TENANT shall pay immediately when due the cost of removal of any such Hazardous Material from the Demised Premises in compliance with all Governmental Requirements, and keep the entire Demised Premises free of any lien imposed pursuant to any laws, regulations, or orders of any governmental or regulatory authority having to do with the removal of such Hazardous Material. If the United States Environmental Protection Agency (EPA) determines that the source of the hazardous waste was outside of the lands described on Exhibit A, and if the TENANT or TENANT'S agents, invitees, tenants, and the agents of invitees and tenants have not contributed to the presence of such hazardous waste, removal may not be at his expense. In the instances where the removal and disposal of the hazardous waste is the TENANT'S obligation, it shall within thirty (30) days after demand by OCALA obtain and deliver to OCALA a bond, letter of credit, or similar financial assurance for the benefit of OCALA evidencing to OCALA'S satisfaction, that the necessary funds are available to pay the cost of removing, treating, and disposing of all Hazardous Material or Hazardous Material Contamination on the Demised Premises and discharging any assessments or liens which may be established on the Demised Premises as a result thereof.

(F) To the best of OCALA'S knowledge, no report, analysis, study, or other document asserting that Hazardous Material Contamination exists on the Demised Premises or identifying any Hazardous Material as being located upon released or discharged from the Demised Premises has been issued.

TENANT shall:

(1) Give notice to OCALA immediately upon OPERATOR'S acquiring knowledge of the presence of any Hazardous Material on the

Demised Premises in violation of applicable Hazardous Materials Laws or of any Hazardous Material Contamination thereof, with a full description thereof.

(2) Immediately advise OCALA in writing of any notices received by TENANT or TENANT'S agents alleging that the Demised Premises contains Hazardous Material in violation of applicable Hazardous Material Laws or Hazardous Material Contamination or that a violation or potential violation of any Hazardous Material Laws by TENANT, TENANT'S agents, or the Demised Premises exists (whether such notices are received from the Environmental Protection Agency, the Occupational Safety and Health Agency, or any other federal, state or local governmental agency or regional office thereof);

(3) Immediately advise OCALA in writing of any and all enforcements, cleanup, removal or other governmental or regulatory actions instituted, completed or threatened with respect to the Demised Premises or any property adjoining the Demised Premises pursuant to any Hazardous Material Laws;

(4) Immediately advise OCALA in writing of all claims made or threatened by any third party against TENANT, TENANT's agent, or the Demised Premises relating to damage, contribution, cost recovery compensation, loss or injury resulting from any Hazardous Material or Hazardous Material Contamination pertaining to the Premises; and

(5)Immediately advise OCALA in writing upon TENANT'S discovery of any occurrence or condition on any real property adjoining or in the vicinity of the Demised Premises which does, or could, cause the Demised Premises, or any part thereof, to contain Hazardous Material or Hazardous Material Contamination or other be in violation of any Hazardous Material Laws.

(G) Without OCALA'S prior written consent, which shall not be unreasonably withheld, TENANT shall not take any remedial action in response to the presence of any Hazardous Material or Hazardous Material Contamination upon or about the Demised Premises, nor enter into any settlement agreement, consent degree, or other compromise in respect to any violation or alleged violation of any Hazardous Material Laws, which remedial action, settlement, consent or compromise might, in Ocala's judgment, impair the value of the Demised Premises, provided, however, that OCALA's prior written consent shall not be necessary in the event that the Presence of Hazardous Material or Hazardous Material Contamination on or about the Demised Premises either poses an immediate threat to the health, safety or welfare of any individual or is of such a nature than an immediate remedial response is necessary. In such event, TENANT shall notify OCALA as soon as practicable of any action so taken. OCALA shall not withhold its consent, where such consent is required hereunder, if either (i) a particular remedial action is ordered by a court of competent jurisdiction, or (ii) TENANT establishes to the reasonable satisfaction of the OCALA

that there is no reasonable alternative to such remedial action which would result in less impairment to the value of the Demised Premises.

(H) In addition to the other remedies provided to OCALA, OCALA shall have the right, but not the obligation to cause all Hazardous Materials or Hazardous Material Contamination found on or in the Demised Premises to be removed therefrom, and in such event, the cost of the removal, including all expenses, charges, and fees incurred by OCALA in connection therewith, including attorneys, engineers, and consultants fees, shall be payable by TENANT on demand for Hazardous Materials shown to have been discharged into the Demised Property by TENANT, its agents, licensees, permitees, or employees in violation of Hazardous Material Laws, and shall bear interest at Citibank of New York prime rate plus three percent (3%) per annum from the date advanced until paid. OPERATOR shall give to OCALA and its agents and employees access to the Demised Premises for such purposes. TENANT hereby grants to OCALA, its agents and employees, full right and authority to remove any such Hazardous Material on the premises in violation of applicable Hazardous Material Laws or Hazardous Material Contamination from the Demised premises.

(I) OCALA, at any time and from time to time during the term of the Lease and all extensions thereof, if it has reasonable cause to suspect that any provision of this Article is not being complied with, may notify TENANT in writing that it desires a site assessment or environmental audit (such assessment or audit being herein called the "Audit") of the Demised Premises to be made, and at any time thereafter cause such site assessment or environmental audit to be made of the Demised Premises. If a violation of this Exhibit "B" is found, then the audit shall be at TENANT'S sole expense. If no violation is found, OCALA shall pay for subject audit. Such Audit(s) shall be performed in a manner reasonably calculated to confirm and verify compliance with the provisions of this Article. Such results shall be kept confidential by both OCALA and TENANT unless either party is legally compelled or required to disclose such results, or disclosure is reasonably required in order to pursue rights or remedies provided herein or at law.

TENANT covenants to reasonably cooperate with the persons conducting the Audit (the "Auditors") to allow entry and reasonable access to all portions of the Demised Premises for the purpose of the Audit, to supply the Auditors with all available historical and operations information regarding the Demised Premises as may reasonably be requested by the Auditors, and to make available for meetings with the Auditors appropriate personnel having knowledge of matters relevant to the Audit. For any Hazardous Material Contamination shown to have been discharged on to the Demised Premises by TENANT, its agents, licensees, permitees, or employees, in violation of Hazardous Material Laws, TENANT covenants to comply, at its sole cost and expense, with all recommendations contained in the Audit, including any recommendation for additional testing and studies to detect the

presence of Hazardous Material or Hazardous Material Contamination, or to otherwise confirm and verify TENANT'S compliance with the provisions of this Article.

(J) TENANT warrants that during the initial term, all extended terms of this lease, and upon surrender of the premises to OCALA that the property described on Exhibit "A" and all improvements thereon will be free of all hazardous waste in violation of applicable Hazardous Materials Laws to the extent required above. The TENANT shall be solely responsible for, and hereby agrees to indemnify and hold OCALA (including the respective employees, agents, and officials of OCALA) harmless from, any and all actions, loss, liability, damage, cost or expense occasioned by, resulting from, or consequent to any Hazardous Material held or used in violation of applicable Hazardous Material Laws or Hazardous Material Contamination shown to have been discharged onto the Demised Premises by TENANT its agents, licensees, permitees, or employees in violation of Hazardous Materials Laws; any releases or discharges of Hazardous Material from the Demised Premises; any manufacturing, maintaining, holding, handling, transporting, spilling, leaking or dumping of Hazardous Material on or at the Demised Premises, any other violation of Hazardous Material Laws; any claim or assertion that any such Hazardous Material or Hazardous Material Contamination is so located on the Demised Premises or that any such activities or violations have been, or are being, engaged in on the Demised Premises; or any other failure or alleged failure of TENANTO, TENANT'S agents, or the Demised Premises to comply with the provision of this Article notwithstanding any and all attempts by TENANT to exercise due diligence in ascertaining whether or not any of the events outlined above affect the Demised Premises. Such Loss, liability, damage, cost, or expenses hereby indemnified against shall include without limitation:

(1) All foreseeable consequential damages;

(2) The costs for any required or necessary repair, cleanup or detoxification of the Demised Premises, including the soil and ground water thereof, and the preparation and implementation of any closure, remedial or other required plans;

(3) Damage to any natural resources; and

(4) All reasonable costs and expenses incurred by OCALA in connection with clauses (1), (2), and (3), including but not limited reasonable attorneys' and consultants' fees.

The obligation of both parties to hold the other harmless and to indemnify shall survive the expiration or termination of this lease. All costs and expenses incurred by OCALA for which TENANT has indemnified OCALA shall be paid by TENANT to OCALA within fifteen (15) days of demand therefore.

File #: 2026-1285 Agenda Item #: 10c.

Submitted By: Christina Guy

Presentation By: John King

Department: Fleet

FORMAL TITLE:
Utilization of the Florida Sheriffs Association agreement with Nextran Truck Centers for the purchase of an automated side loader refuse truck for the Public Works department, in the amount of $432,521

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
On December 28, 2022, Unit #06-273, a 2021 automated side loader refuse truck, was removed from service following an incident that caused significant damage to the unit. Following a thorough assessment completed on March 27, 2023, it was concluded that the repair expenses exceed the cost of replacing the truck, rendering restoration financially imprudent. As a result, the truck was declared a total loss. Funding for $477,837 was subsequently approved to acquire a new unit to replace Unit #06-273.

FINDINGS AND CONCLUSIONS:
Staff recommends acquiring a refuse truck that meets operational specifications to ensure efficient and reliable residential solid waste collection throughout the City. The replacement unit will be sourced from Nextran Truck Centers, utilizing the Florida Sheriffs Association Contract No. FSA25-VEH23.0, resulting in a total expenditure of $432,521. Unit #06-273 has been declared totaled and issued a Certificate of Destruction; it retains a salvage value of $4,003 and will be retained temporarily for use as a source of spare parts.

FISCAL IMPACT:
This agenda item is accompanied by a Budget Resolution authorizing the appropriation of $477,837 from the General Liability Claims Reserves. Of this amount, $432,521 will be designated for the purchase, while the remaining $45,316 will be allocated for future equipment needs. Funds will be distributed to account 453-023-602-534-66-64010 - Public Works Sanitation Machinery and Equipment.

PROCUREMENT REVIEW:

These goods were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
N/A. The City's standard and approved Purchase Order terms and conditions shall govern this purchase. Any conflicting terms and conditions offered by the suppliers will be reviewed for form and legality by City Attorney, William E. Sexton.

I have read and understand the above. It is intended by my signature hereon that this be a binding, enforceable sales agreement. I further understand that the terms and conditions that follow are a true and integral part of this agreement.

_____ _____
Purchaser's Signature ***Date***

_____ _____
Accepted by Nextran Truck Centers ***Date***

This agreement shall not be binding on Nextran Truck Centers until accepted by the General Manager.

TERMS AND CONDITIONS

1. Acceptance. The purchaser identified on the first page hereof ("**Purchaser**") and Nextran Corporation, a Florida corporation d/b/a Nextran Truck Centers ("**Dealer**") hereby agree that these Terms and Conditions are incorporated into, and constitute an integral part of, the Sales Agreement governing Purchaser's purchase of motor vehicles from Dealer as more particularly described on the first page hereof.

2. Purchaser's Payment of Charges. Purchaser shall pay all charges arising out of or associated with this Agreement, whether correctly stated on page one of this Sales Agreement or otherwise, including without limitation all tag, license, tire, battery and lien fees, and all federal, state and local taxes. Purchaser shall pay all amounts required to pay off and satisfy in full all liens on Purchaser's trade-in vehicle(s), as may be required by any such lien holder, regardless of whether the lien holder has quoted the wrong amount, the payoff amount has changed since the date of any such quote, or Purchaser has failed to disclose all lien holders on such vehicle(s). If Purchaser chooses to pay any portion of the purchase price by using a bank or credit card, Purchaser shall pay all charges associated with the use of such card imposed on Dealer and shall promptly reimburse Dealer upon demand for any such costs arising after the consummation of any sale.

3. Deposit. Upon the execution of this Sales Agreement, Purchaser shall pay to Dealer a non-refundable deposit in the amount set forth on the first page of this Sales Agreement. If Dealer fails to deliver the motor vehicle(s) as contemplated herein, Purchaser's sole remedy against Dealer shall be a return of the deposit as liquidated damages in full settlement of any and all claims relating to this Sales Agreement, and Purchaser hereby waives any claims to the contrary. If Purchaser fails to pay the balance of the Selling Price, fails to take delivery of the motor vehicle for any reason or otherwise breaches its obligations under this Sales Agreement, Dealer shall be entitled to retain the entire deposit as liquidated damages in full settlement of any and all related claims. Purchaser and Dealer acknowledge that their actual damages arising out of any breach of this Sales Agreement would be difficult or impossible to calculate with specificity and that the foregoing treatment of the deposit constitutes mutually bargained liquidated damages and not a penalty.

4. Commercially Reasonable Efforts. Dealer shall use all commercially reasonable efforts to make prompt delivery of the motor vehicle(s) contemplated hereby. However, Purchaser acknowledges and agrees that time is not of the essence with respect to the transactions contemplated in this Sales Agreement.

5. Warranties. DEALER MAKES NO REPRESENTATIONS OR WARRANTIES OTHER THAN THE MANUFACTURER'S WARRANTY ON NEW MOTOR VEHICLES. ALL USED MOTOR VEHICLES ARE **SOLD BY PURCHASER "AS IS, WITHOUT WARRANTY," EITHER EXPRESS OR IMPLIED. DEALER SPECIFICALLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OF THE MOTOR VEHICLE(S) SOLD UNDER THIS SALES AGREEMENT, ALL OF WHICH PURCHASER HEREBY WAIVES TO THE FULLEST EXTENT PERMITTED BY LAW.** Purchaser acknowledges that no person is authorized to make any representations or warranties to the contrary, whether oral or written. _____ ***(Initials of Purchaser)***

6. Limitation of Liability; Waiver of Claims. Purchaser shall have the right to fully inspect the motor vehicles sold under this Sales Agreement at the time of delivery. Dealer shall not be liable for, and Purchaser's acceptance of such motor vehicle constitutes Purchaser's waiver of, any and all claims, causes of action, losses and damages arising out of Dealer's sale of the motor vehicle to Purchaser, including without limitation any and all actual, incidental or consequential damages arising out of: a) loss, damage or delays for any reason; b) failure to supply any property ordered hereunder; c) loss of use, loss of time, lost profits or income; d) changes in design, materials or specifications; e) modifications to the motor vehicle performed by others; and f) defects in design, materials or workmanship, in each case with respect to the motor vehicles purchased by Purchaser pursuant to this Sales Agreement.

Purchaser shall indemnify, defend and hold Dealer and its affiliated companies and their officers, agents, and employees harmless from and against all loss, liability and expense, including reasonable attorneys' fees, by reason of bodily injury including death, and property damage, sustained by any persons including but not limited to the officers, agents and employees of Purchaser, as a result of the maintenance, use, operation, servicing, transportation, defect in or failure of such motor vehicles, whether such bodily injury, death or property damage is due or claimed to be due in whole or in part, to any neglect, default, defect, fault, failure, act or omission, by or on behalf of Dealer, its officers, agents and employees or any other person, including but not limited to any claims of strict liability in tort, breach of warranty, and/or negligence. Purchaser acknowledges that this waiver constitutes a material inducement for Dealer to consummate the transactions contemplated in this Sales Agreement and is subject to no exceptions.

7. Modifications by Others. Purchaser acknowledges that any requested modifications to the motor vehicles subject to this Sales Agreement to be performed by others are Purchaser's sole responsibility, and Purchaser shall pay Dealer for the cost of such modifications, regardless of whether Purchaser takes delivery of the vehicle. Dealer is not liable for any defects in design, materials or workmanship, or any errors or omissions by such third parties.

8. Trade-in Allowance. The trade-in allowance set forth on page one of this Sales Agreement is based upon an appraisal by Dealer of the trade-in described herein in its present mechanical condition and with the equipment and attachments described on Dealer's appraisal sheet. Such trade-in shall be subject to reappraisal at the time of delivery of the motor vehicle to be sold hereunder. Purchaser shall be liable for any differences in the trade-in allowance due to changes in mechanical condition, equipment or attachments.

9. Entire Agreement. This Sales Agreement constitutes the complete and exclusive statement of the terms of the agreement between Purchaser and Dealer concerning the subject matter hereof and supersedes all prior agreements, understandings, negotiations and discussions of the parties, whether written or oral. No modification, course of conduct, amendment, supplement to or waiver of this Sales Agreement shall be binding unless made in writing and signed by both Purchaser and Dealer.

10. Assignment. This Sales Agreement may not be assigned by Purchaser without Dealer's prior written consent, and any attempted assignment by Purchaser shall be null and void. Subject to the foregoing, this Sales Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, successors, permitted assigns and legal representatives. There are no third party beneficiaries of this Sales Agreement.

11. Governing Law; Consent to Jurisdiction; Waiver of Right to Trial by Jury. This Sales Agreement and the rights and obligations of the parties hereunder shall be governed by, and construed and interpreted in accordance with, the laws of the State of Florida, without giving effect to the conflict of laws principles thereof. Venue for any litigation, legal action or other proceedings arising out of or relating to this Sales Agreement shall lie solely in the courts of the State of Florida located in Dade County, Florida. Purchaser and Dealer (a) agree that such courts shall have exclusive jurisdiction over any matters arising out of or related to this Sales Agreement and (b) hereby waive any and all claims to the effect that any of such courts constitutes an inconvenient forum. The parties hereby irrevocably and unconditionally waive any right they may have to a trial by jury in any suit, action, proceeding, or counterclaim arising out of or relating to this SALES Agreement.

12. Miscellaneous. Risk of loss shall pass to the Purchaser upon delivery of the motor vehicle sold under this Sales Agreement. A facsimile of this Sales Agreement shall have the same legal effect as an original hereof. In the event of any litigation arising out of this Sales Agreement, the non-prevailing party shall reimburse the prevailing party for the reasonable attorneys' fees and other expenses incurred by the prevailing party in connection therewith.

1.0 GENERAL CONDITIONS

1.01 BID CORRESPONDENCE

All correspondence regarding this bid should be directed to the Florida Sheriffs Association ("FSA"). Please be sure to reference the bid number and title and provide your contact information. Communication for this Invitation to Bid should be identified by contract number and title and directed to:

Florida Sheriffs Association
Attn: Cooperative Purchasing Program Coordinator
2617 Mahan Drive
Tallahassee, FL 32308
E-mail: CPP@flsheriffs.org

1.02 PURPOSE

The Florida Sheriffs Association invites interested bidders, including manufacturers and dealers or authorized representatives (each a "Bidder" and together, "Bidders"), to submit responses in accordance with this solicitation document for Bid FSA25-VEH23.0 Heavy Trucks and Buses. The FSA Cooperative Purchasing Program will conduct the solicitation process and administer the resulting contract. The purpose of this bid is to establish contracts with manufacturers and/or manufacturers' authorized dealers for contract terms specified under Section 1.03 for the purchase of on a "no trade-in basis."

1.03 TERM OF CONTRACT

The term for Contract FSA25-VEH23.0 Heavy Trucks and Buses ("Contract" or "Agreement") shall remain in effect for two years from date of Contract execution by the FSA, and may be extended by mutual agreement, at the sole option and discretion of the FSA. The initial term of this Contract begins October 1, 2025, and ends September 30, 2027.

Contract extensions will only be executed when the FSA determines, based on then-existing conditions, that it is in the best interest of the FSA and the purchasers to do so.

1.04 JURISDICTION

This Agreement and the provisions contained herein shall be governed by and interpreted and construed in accordance with the laws of the State of Florida. Each party consents that the venue for any litigation arising out of or related to this Agreement shall lie in the appropriate court in and for Leon County, Florida.

1.05 SHERIFF AS COUNTY CONSTITUTIONAL OFFICER

The Offices of the Sheriff in the State of Florida are constitutional offices of the State of Florida. Each has the authority either individually or collectively to execute contracts for all goods and services for the proper conduct of that office. Section 30.53, *Florida Statutes*, exempts the sheriffs' offices from the provisions of the Florida Statutes that would otherwise require sealed and competitive bidding procedures "concerning the purchase and procurement of supplies and equipment, selection of personnel, and the hiring, firing, and setting of salaries of such personnel".

The Offices of the Sheriff are not required by law to accept the lowest priced proposal and may reject any or all of the proposals without recourse. Bidders are solely responsible for their own bid preparation costs and nothing in this solicitation in any way obligates the participating sheriffs' offices for any payment for any activity or costs incurred by any Bidder in responding to this solicitation.

1.06 FUNDING

In the case of certain purchasers, including state agencies, funds expended for the purposes of a contract must be appropriated by the Florida Legislature, the individual purchaser or the purchaser's appropriating authority for each fiscal year included within the contract period. For such purchasers, their performances and obligations to pay for products or services under any resulting contract or Purchase Order, including this Contract, are contingent upon such an annual appropriation by the Legislature, individual purchaser or by the appropriating authority. Therefore, any contract or Purchase Order, including this Contract, with such a purchaser shall automatically terminate without penalty or termination costs in the event of non-appropriation.

1.07 CURRENCY

All transaction amounts, bids, quotes, provisions, payments or any part of this Contract relating to currency are to be made in United States Dollars.

1.08 GENERAL DEFINITIONS

The terms used in this Contract are defined as the following:

A. Bidder: A business or enterprise that submits a formal bid to the Florida Sheriffs Association Cooperative Purchasing Program in accordance with these Terms and Conditions. A bidder, that is not the Manufacturer, must be authorized by the Manufacturer to market and sell an item for which they are bidding.

B. Bid System: The online forum used for the submission of bids and review of bid results for the specifications connected to this Invitation to Bid. VendorLink is the software used for this bid.

C. Build Sheet: A document from the Bidder that confirms that the item submitted meets or exceeds the FSA Base Specifications. Build Sheets include, but are not limited to, the factory options list and door data plate information for vehicles that include details such as engine size and transmission, paint codes, production date, axle code, etc.

D. Dealer: An enterprise authorized by the Manufacturer to market, sell, provide, and service the items for the Florida Sheriffs Association Cooperative Purchasing Program. Dealers may be Vendor-owned and controlled, in whole or in part, or independently owned and controlled.

E. End User: A term used to distinguish the person who ultimately uses or is intended to use a product or for whom a product is designed for use.

F. Factory: Refers to the Manufacturer produced products.

G. Fleet Advisory Committee ("Committee"): An employee of a sheriff's office or other local governmental agency, or person who FSA CPP identifies as a subject matter expert who assists with the development of bid specifications and evaluation of bid responses. The Committee makes recommendations to the FSA CPP but is not responsible for final awards.

H. Florida Sheriffs Association Cooperative Purchasing Program ("FSA CPP"): The entity that administers the Invitation to Bid and contract administration functions for the resulting contract(s).

I. FSA Base Specifications: Written descriptions of the minimum requirements for each item or item group developed by the FSA CPP for Bidders to bid on. These item requirements may be unique to FSA CPP and require additional components to the Manufacturer's standard item.

J. Invitation to Bid: A competitive solicitation and award process established through the issuance of an invitation to Bidders, vendors, Dealers and Manufacturers to submit a price offer on a specific product to be provided. This term shall include the FSA Base Specifications available to Bidders on the Bid System and references to solicitation documents. The term shall not include requests for proposals, requests for quotes, requests for letters of interest, or purchase orders based on oral or written quotations.

K. Manufacturer: The original producer or provider of items offered on this Contract.

L. Manufacturer's Suggested Retail Price ("MSRP"): The Manufacturer's recommended retail selling price, list price, published list price, or other usual and customary price that would be paid by the purchaser. The following are acceptable sources of current MSRPs and MSRP Lists for use in submission of the bid solicitation and the resulting contract:
    a. Manufacturer's Computer Printouts
    b. Chrome Systems, Inc.'s PC Carbook Plus and PC Carbook Fleet Edition
    c. Manufacturer's Annual U.S. Price Book
    d. Manufacturer's official website

M. Non-Scheduled Option: Any optional new or unused component, feature or configuration that is not included or listed in the FSA Base Specifications or options provided by the Vendor.

N. Production Cutoff: A date used by Manufacturers to notify vendors and Dealers that the Manufacturer has reached maximum capacity for orders or are discontinuing the production of an item. Vehicle Manufacturers use this term when referring to any given model year for production.

O. Published List Price: A standard "quantity of one" price currently available to government and educational purchasers, excluding cooperative or volume discounts.

P. Purchase Order: An official request for order from a purchaser to an awarded Vendor for an item that has been awarded on this Contract. Purchase Orders placed using this Contract formalize the Terms and Conditions of this Contract under which a Vendor furnishes items to a purchaser.

Q. Purchaser: An entity that seeks to obtain items awarded on this Contract by meeting the eligible user criteria.

R. Qualifications Packet: This packet containing the required forms, attestations, authorizations, and organizational information needed by Bidders to qualify.

S. Terms and Conditions: This document, which serves as the governing Invitation to Bid and Contract for the identified FSA CPP Invitation to Bid and resulting contract(s). Standard regulations, processes, procedures, and compliance requirements are identified herein. Bidders complete a Qualifications Packet during the bid process indicating they agree to comply with the Terms and Conditions, and that this will serve as the

Contract for both parties, should the Bidder(s) receive award. Bidder must respond to the Contract Signature Form affirming acceptance of the Terms and Conditions, which will serve as the Contract for both parties, should the Bidder receive an award.

T. Third Party Supplier: Businesses external to a Bidder or Vendor that provide products and services which contribute to the overall finished item in this Contract. Third Party Suppliers are contractors and/or subcontractors under the direction and responsibility of the Bidder or Vendor.

U. Vendor: The Bidder(s) that receive award, who agree to provide the contract items that meet the requirements of this ITB and FSA Base Specifications of the Contract. The Vendor must agree to the Terms and Conditions, which will serve as the governing Contract. If the Vendor is not the Manufacturer, the Vendor must be authorized by the Manufacturer to market, sell, provide, and service all awarded items.

V. Vendor Installed: A product or service provided by the Vendor or other third party; not the factory.

1.09 ELIGIBLE PURCHASERS OF CONTRACT

Awarded bid contract pricing will be extended and guaranteed to the Florida Sheriffs Association, any unit of local government, political subdivision or agency of the State of Florida ("State"). This includes, but is not limited to counties, municipalities, sheriffs' offices, clerks, property appraisers, tax collectors, supervisors of elections, school boards or districts, water management districts, other special districts, police and fire departments, emergency response units, state universities and colleges, or other state, local or regional government entities within the State of Florida. Eligible purchaser also includes all Eligible Users as defined in Section 60A-1.001(2), *Florida Administrative Code* ("F.A.C.").

All purchasers are bound by applicable Federal and State law, local ordinances, rules and regulations for purchases made under this Contract. Participating agencies cannot guarantee any order other than those ordered by the individual agency.

In addition, awarded bids can be extended and guaranteed to other entities, which can include out-of-state sales, in accordance with Vendors' individual Manufacturers' agreements. Vendors that wish to extend contract pricing to entities other than those defined here are governed by their Manufacturers' agreements and must agree to the Terms and Conditions.

1.10 LEGAL REQUIREMENTS

Federal, State, and local laws, ordinances, rules and regulations, including any applicable motor vehicle dealer laws, that in any manner affect the items covered herein apply to this Contract and all services, work, materials, and supplies provided by Vendor in order to fulfill its obligations under this Contract. Lack of knowledge by the Bidder of applicable legal requirements will in no way be a cause for relief from responsibility.

Bidders have the option to certify that they are willing to accept Purchase Orders funded in whole or in part with Federal funds. By opting in, Bidders certify that they are willing to comply with the requirements outlined in Appendix D upon receipt of a federally funded Purchase Order. This is not a requirement of the Invitation to Bid or Contract. Bidders are not required to opt-in; however, they are required to indicate whether they will opt-in or opt-out of receiving federally funded Purchase Orders. FSA CPP has taken actions to provide and develop information, materials, and resources for Bidders, Vendors and purchasers that will assist in the use of Federal funding with this

Contract. It is the responsibility of the purchaser to determine compliance for each Vendor, if they wish to use Federal funds for purchase or intend to request reimbursements using Federal funds.

1.11 PATENTS & ROYALTIES

The Vendor, without exception, shall indemnify and hold harmless the Florida Sheriffs Association ("FSA") and its employees from liability of any nature or kind, including costs and expenses for, or on account of, any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the Contract, including its use by the FSA or a purchaser.

If the Bidder uses any design, device or materials covered by letters, patent, or copyright, it is mutually understood and agreed, without exception, that the bid prices shall include all royalties or costs in any way arising, directly or indirectly, from the use of such design, device, or materials in any way involved in the work.

1.12 FEDERAL AND STATE STANDARDS

It is the intent of FSA CPP that all specifications herein are in full and complete compliance with all Federal and State of Florida laws, requirements, and regulations applicable to the type and class of commodities and contractual services being provided.

In addition, any applicable Federal or State legal or regulatory requirements that become effective during the term of the Terms and Conditions, regarding the items and services specifications, safety, and environmental requirements shall immediately become a part of the Terms and Conditions. The Vendor shall meet or exceed any such requirements of the laws and regulations. If an apparent conflict exists, the Vendor shall contact the FSA CPP immediately.

1.13 UNDERWRITERS' LABORATORIES

Unless otherwise stipulated in the bid, all manufactured items and fabricated assemblies shall be Underwriters' Laboratories, or U.L., listed or re-examination listing where such has been established by U.L. for the item(s) offered and furnished.

1.14 AMERICANS WITH DISABILITIES ACT

To request this material in accessible format, sign language interpreters, information on access for persons with disabilities, or any accommodation to review any document or participate in any FSA sponsored proceeding, please contact FSA Human Resources at (850) 877-2165 five business days in advance to initiate your request. TTY users may also call the Florida Relay Service at 711.

1.15 REASONABLE ACCOMMODATION

In accordance with the Title II of the Americans with Disabilities Act, any person requiring an accommodation because of a disability at the bid opening must contact the FSA Human Resources at (850) 877-2165.

1.16 DISADVANTAGED BUSINESSES

As part of the solicitation process FSA CPP makes information publicly available to potentially qualified entities, and conducts additional outreach to qualified:

- Small businesses,
- Minority-owned small businesses,
- Women-owned small business enterprises, and
- Disadvantaged business enterprises.

FSA CPP takes necessary affirmative steps to ensure that minority businesses, women's business enterprises, and labor surplus area firms are used, when possible, as recommended by 2 C.F.R. § 200.321. FSA CPP will:

- Evaluate whether small, minority, and women's businesses are potential sources,
- Place those qualified small and minority businesses and women's business enterprises on solicitation lists, and
- Search the Small Business Administration, Minority Business Development Agency, and Labor Surplus Area reports for additional potential sources.

Bidders self-certify in the Qualifications Packet whether they meet the state and federal definitions of a small business, minority-owned small business, women-owned small business enterprise, and disadvantaged business.

1.17 ANTI-DISCRIMINATION, E-VERIFY, AND ANTI-HUMAN TRAFFICKING REQUIREMENTS

The Bidder certifies that they are in compliance as applicable by federal or state law with the non-discrimination clause contained in Section 202, Executive Order 11246, as amended by Executive Order 11375, relative to equal employment opportunity for all persons without regard to race, color, religion, sex or national origin.

The Vendor shall comply with and perform all applicable provisions of Section 448.095, *Florida Statutes*. The Vendor shall register with and use the United States Department of Homeland Security's E-Verify system to verify the work authorization status of all newly hired employees. The FSA CPP, or purchaser, may terminate this Agreement immediately for cause if there is a good faith belief that the Vendor has knowingly violated Section 448.091, *Florida Statutes*.

If the Vendor anticipates entering into agreements with a subcontractor for the services and/or work contemplated under this Agreement, the Vendor will not enter into the subcontractor agreement without first receiving an affidavit from the subcontractor regarding compliance with Section 448.095, *Florida Statutes*, and stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. The Vendor shall maintain a copy of such affidavit for the duration of the agreement and provide a copy to the FSA CPP, or purchaser, upon request.

In the event that the FSA CPP, or purchaser, has a good faith belief that a subcontractor has knowingly violated Section 448.095, *Florida Statutes*, but the Vendor has otherwise complied with its obligations hereunder, the FSA CPP, or purchaser, shall promptly notify the Vendor. The Vendor agrees to immediately terminate the agreement with the subcontractor upon notice from the FSA CPP or purchaser. Further, absent such notification from the FSA CPP or purchaser, the Vendor or any subcontractor who has a good faith belief that a person or entity with which it is contracting has knowingly violated Section 448.09(1), *Florida Statutes*, shall promptly terminate its agreement with such person or entity.

By entering into this Contract, the Vendor represents that no public employer has terminated a contract with the Vendor under Section 448.095(5)(c), *Florida Statutes*, within the year immediately preceding the date of this Contract.

The Vendor certifies, by acceptance of this Contract, that neither it nor its principals utilize coercion for labor or services as defined in Section 787.06, *Florida Statutes*. The Vendor agrees to execute an affidavit in a form satisfactory to FSA CPP or the purchaser in compliance with Section 787.06(13), *Florida Statutes*.

1.18 BEST COMMERCIAL PRACTICES

The apparent silence or omission of any description from the specifications shall be regarded as meaning that only the best commercial practices, size, and design are to be used. All workmanship is to be first quality. All interpretations of FSA Base Specifications shall be upon the basis of this statement.

1.19 PUBLIC ENTITY CRIMES ("PEC") AND SCRUTINIZED COMPANIES STATEMENTS

In accordance with the Public Entity Crimes Act, Section 287.133, *Florida Statutes*, a person or affiliate who has been placed on the convicted vendor list, maintained by the State of Florida Department of Management Services following a conviction for public entity crimes, may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a vendor, supplier, sub-vendor, or consultant under a contract with a public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, *Florida Statutes*, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

In accordance with Section 287.135, *Florida Statutes*, Bidder certifies that neither it nor any of its officers, directors, executives, partners, shareholders, members, or agents is on the Scrutinized Companies with Activities in Sudan List, the Scrutinized Companies with Activities in the Iran Terrorism Sectors List, or the Scrutinized Companies that Boycott Israel List created pursuant to Sections 215.4725 and 215.473, *Florida Statutes*, and in the event such status changes, Bidder and/or Vendor, if status changes after award, shall immediately notify FSA CPP and/or the purchaser. If Bidder and/or Vendor, if applicable after award, is found to have submitted a false statement, has been placed on the Scrutinized Companies with Activities in Sudan List, the Scrutinized Companies with Activities in the Iran Terrorism Sectors List, or has been engaged in business operations in Cuba or Syria, or is now or in the future on the Scrutinized Companies that Boycott Israel List, or engaged in a boycott of Israel, the FSA CPP may immediately terminate this Contract.

1.20 TAX EXEMPTION

Purchasers making a purchase pursuant to the awarded bid are generally exempt from Federal Excise and State Sales Tax. It is the responsibility of the Vendor to verify that the purchaser is exempt by obtaining the purchaser's Federal Excise and State Taxes and Use Certificate Number.

The Florida Sheriffs Association is a 501(c)3 organization and is exempt from all Federal Excise and State Taxes. The FSA State Sales Tax and Use Certificate Number is 85-8012646919C-3.

1.21 ORDER OF PRECEDENCE IN THE EVENT OF CONFLICT

In the event of conflict, the conflict may be resolved in the following order of priority (highest to lowest):

- Addenda to Contract Terms and Conditions, if issued
- Contract Conditions
- General Conditions

- Addenda to FSA Base Specifications, if issued
- FSA Base Specifications
- Bidder Instructions

1.22 COMMUNICATIONS

Communications between a Bidder, lobbyist or consultant and FSA are limited to matters of process or procedure and shall be made in writing to the FSA CPP Staff.

Bidders should not rely on representations, statements, or explanations other than those made in this Invitation to Bid or in any written addendum to this Invitation to Bid, and no oral representations, statements, or explanations shall be deemed to bind the FSA or Eligible Users.

1.23 CLARIFICATION AND ADDENDA

Any questions or clarifications concerning the Invitation to Bid shall be submitted to FSA CPP by e-mail to CPP@flsheriffs.org with the bid title and number referenced on all correspondence. Final questions must be received by the date for Request for Clarification stated on the Bid Calendar. Questions and answers will be posted to the FSA CPP website on the date indicated on the Bid Calendar. Questions received during the cone of silence date listed on the bid calendar will not be addressed, except as provided herein.

Interpretation of the specifications or any solicitation documents will **not** be made to the Bidder verbally, and if any verbal clarifications are provided, they are without legal effect. FSA CPP will make every attempt to e-mail updates to registered Bidders. However, posting to the FSA CPP website or the Bid System constitutes proper notice of addenda.

The FSA CPP shall issue a formal addendum if substantial changes that impact the submission of bids are required. Any such addenda shall be binding on the Bidder and shall become a part of the solicitation document. In the event of conflict with the original specifications, addenda shall govern to the extent specified. Subsequent formal addenda, if any, shall govern over prior formal addenda only to the extent specified. The FSA will not be responsible for any explanation or interpretation made verbally or in writing except those made through the posting of a formal addendum.

The bid submission constitutes acknowledgment of addenda to the FSA Base Specifications. Bids that fail to account for the specification addenda shall be determined to be nonresponsive; however, the FSA CPP may waive this requirement when in its best interest.

After the start of the Contract term, FSA CPP will notify all Vendors of any addenda and will require acknowledgement of the new terms and conditions. If the Vendor does not agree to the new terms and conditions, the Vendor's award can be removed or replaced by another Vendor or qualified responsive bidder.

1.24 SIGNED BID CONSIDERED AN OFFER

The signed bid shall be considered an offer on the part of the Bidder, which offer shall be deemed accepted upon approval by the FSA CPP. The bid submission must be signed by an authorized representative. Submission of a bid in the FSA CPP Bid System constitutes a signed bid for purposes of bid evaluation. An electronic signature may be used and shall have the same force and effect as a written signature.

1.25 ASSIGNMENT OF CONTRACT

No right or interest in this contract may be assigned, transferred, conveyed, sublet or otherwise disposed of, without prior written consent of the FSA CPP.

If the original Vendor sells or transfers all assets or the entire portion of the assets used to perform this Contract, a successor-in-interest must perform all obligations under this Contract. FSA CPP reserves the right to reject the acquiring entity as Vendor. A change of name agreement will not change the contractual obligations of the Vendor.

In the event a Manufacturer reassigns the product line to an alternate company, the Vendor is required to notify the FSA CPP in writing of the change within 10 business days of the reassignment. If the Vendor is not already an approved FSA CPP Vendor, the alternate company is required to submit a Qualifications Packet to the FSA CPP to become an approved Vendor *prior to* conducting any qualified sales. FSA CPP may approve such assignments of existing or new vendors at its discretion. The Vendor is required to honor the contract pricing and all of the applicable Terms and Conditions throughout the remaining term of the Contract.

1.26 TERMINATION OF PRODUCT LINE

If a Vendor terminates a product line (Manufacturer or brand), the Vendor is required to notify the FSA CPP within 10 business days of the decision not to retain the product line. FSA CPP may remove the terminated products from the Contract. In the event of a termination of a product line (Manufacturer or brand), the purchaser shall compensate the Vendor in accordance with the Contract for all goods delivered by the Vendor prior to termination, net of any costs incurred by the purchaser and FSA as a consequence of the termination.

1.27 DEMONSTRATION OF COMPETENCY

Bidders must be able to demonstrate a good record of performance for a reasonable period of time, and have sufficient financial support, equipment and organization to ensure they can satisfactorily execute the services if awarded a Contract under the Terms and Conditions herein stated.

The terms "equipment" and "organization" as used herein shall be construed to mean a fully equipped and well-established company in line with the best business practices in the industry and as determined by the FSA CPP.

The FSA CPP may consider any evidence available and may require submission of supporting documentation regarding the financial, technical and other qualifications and abilities of a Bidder, including past performance with the FSA CPP, in making the award.

FSA CPP may inspect the Bidder's facility prior to the award of a Contract. Bids will only be considered from firms which are regularly engaged in the business of providing the goods or services described in this Invitation to Bid.

1.28 VENDOR ABILITY TO PERFORM

The FSA CPP may require Bidders to show proof that they have been designated as authorized representatives of a Manufacturer or supplier, which is the actual source of supply. In these instances, the FSA CPP may also require information from the source of supply regarding the quality, packaging and characteristics of the products. Any conflicts between this material information provided by the source of supply and the information contained in the bid submission may render the bid nonresponsive.

During the Contract term, FSA CPP may review the Vendor's record of performance and may require submission of supporting documentation to ensure that the Vendor is providing sufficient financial support, equipment and organization.

If the FSA CPP determines that the Vendor no longer possesses the financial support, equipment and organization in order to comply with this section, FSA has the authority to immediately terminate the Contract.

By responding to this Invitation to Bid, the Bidder warrants that, to the best of his or her knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Bidder's ability to satisfy the obligations of a resulting contract. The Bidder warrants that neither it nor any affiliate is currently on the convicted vendor list maintained pursuant to Section 287.133, *Florida Statutes*, or on any similar list maintained by any other state or the federal government. The Bidder, by responding to this Invitation to Bid, acknowledges and warrants that, if selected, Bidder (being then considered a "Vendor") shall immediately notify the FSA CPP and purchaser(s) in writing if its ability to perform is compromised in any manner during the term of the Contract.

1.29 FINANCIAL RESPONSIBILITY

Bidder affirms by the submission of the bid and by signature on the Contract Signature Form that the Bidder:

- Has fully read and understands the scope, nature, and quality of work to be performed or the services to be rendered under this Invitation to Bid and has adequate facilities and personnel to fulfill such requirements.
- Accepts the financial responsibility associated with this bid and declares that they have the access to capital (in the form of liquidity or credit lines) in order to meet the financial demands of such award.
- Has assessed the financial responsibility required to serve the Contract as bid, including such details as the obligations to perform all items bid, zones bid, and quantities that could be ordered, as well as timing of payment from purchasers, which can be 45 calendar days from receipt of invoice.

1.30 QUALITY AND SAFETY

All materials used for the manufacture or construction of any supplies, materials or equipment covered by this bid shall be new. The items bid must be new, the latest model, of the best quality, and highest-grade workmanship that meet or exceed federal safety standards.

Items requiring certification should require certification of options in cases where non-certified options could result in the decertification of the original product or warranty. In all cases where options are not certified, the Bidder (or, if after award, the Vendor) must disclose to the end user that the non-certified options are not required to be certified. All options must meet or exceed federal safety standards.

1.31 NONCONFORMANCE

Items may be tested for conformance with specifications. Items delivered that do not conform to specifications may be rejected and returned at the Vendor's expense.

Any violation of these stipulations may also result in:

- Vendor's name being removed from the awarded vendor list.
- FSA and purchasers being advised not to do business with Vendor.

1.32 GRATUITIES

Bidders shall not offer any gratuities, favors, or anything of monetary value to any official, employee, or agent of the FSA, for the purpose of influencing consideration of this bid. Bidders shall disclose in writing any conflicts of interest to FSA prior to any award, or as soon as practicable after learning of any such conflict, including any contractual or employment relationships with FSA or potential purchasers of Bidder's products or services.

1.33 TIE BIDS

FSA CPP has the right to award multiple Bidders the primary or alternate award in the event of a tie. In the event the FSA CPP desires to break tie bids, and businesses have qualifying drug-free work programs, the award will be made using the following criteria, in order:

- Bidder within the State of Florida; and if none, then,
- Vendors' performance record with purchasers; and if none, then
- Coin Toss.

1.34 RIGHT TO AUDIT

Vendor shall establish and maintain a reasonable accounting system that enables FSA CPP to readily identify Vendor's sales. FSA CPP and its authorized representatives shall have the right to audit and to make copies of all related records pertaining to this Contract, including all government sales and eligible user information, whether kept by or under the control of the Vendor, including, but not limited to those kept by its employees, agents, assignees, successors, sub-vendors, or third-party suppliers in whatever form they may be kept – written or electronic. Such records shall include, but not be limited to:

- Accounting records, including but not limited to Purchase Orders, confirmation of orders or invoices, paid vouchers, cancelled checks, deposit slips, ledgers, and bank statements;
- Written policies and procedures;
- Subcontract files (including proposals of successful and unsuccessful Bidders, bid recaps, etc.);
- Original estimates, quotes, or work sheets;
- Contract amendments and change order files;
- Insurance documents; or
- Memoranda or correspondence.

Vendor shall maintain such records during the term of this Contract and for a period of three (3) years after the completion of this Contract or for such period of time as is required for retaining public records pursuant to Florida law. At the Vendor's expense and upon written notice from FSA CPP, the Vendor shall provide such records for inspection and audit by FSA CPP and its authorized representatives. Such records shall be made available to FSA CPP during normal business hours within three (3) business days of receipt of the written notice. FSA CPP may select the Vendor's place of business or offsite location for the audit. The FSA CPP may also request the Vendor provide requested records via e-mail.

Vendor shall ensure FSA has these rights with Vendor's employees, agents, assignees, successors, and third-party suppliers, and the obligations of these rights shall be explicitly included in any subcontracts or agreements formed between the Vendor and any sub-vendors to the extent that those subcontracts or agreements relate to fulfillment of the Vendor's obligations to FSA or purchaser(s).

Professional fees, personnel costs and travel costs incurred by FSA under its authority to audit and not addressed elsewhere will be the responsibility of the FSA. However, if the audit identifies underreporting, overpricing or overcharges (of any nature) by the Vendor to FSA or a purchaser in excess of three percent (3%) of the total Contract billings, the Vendor shall reimburse FSA for the total costs of the audit not to exceed $5,000. If the audit discovers substantive findings related to fraud, misrepresentation, or non-performance, FSA may recoup all the costs of the audit work from the Vendor.

Any adjustments or payments that must be made as a result of any such audit or inspection of the Vendor's invoices or records shall be made within a reasonable amount of time (not to exceed 60 calendar days) from presentation of FSA's findings to Vendor.

FSA has the right to assess damages or seek reimbursements or refunds based on audit results.

1.35 LICENSES AND PERMITS

The Bidder shall obtain and pay for all licenses, permits and inspection fees for this bid submission and any resulting contract. Where Vendors are required to enter or go onto FSA or purchaser property to deliver materials or perform work or services as a result of a bid award, the Vendor will assume the full duty, obligation and expense of obtaining all necessary licenses, permits and insurance.

The Bidder must, by the time of award, be actively registered to do business in the State of Florida on SunBiz.gov.

1.36 PERFORMANCE BONDS

Purchasers may request a performance bond from a Vendor. Performance bonds are recommended with pre-payment and will be at the expense of the requesting agency. Purchasers should determine the best practice in comparing performance bond expense against any prior discounts that may be available.

1.37 ELIMINATION FROM CONSIDERATION

This Invitation to Bid shall not be awarded to any person or Bidder who has outstanding debts to the FSA, whether in relation to current or previous bid awards or for other business purposes.

1.38 INDEPENDENT PREPARATION

A Bidder shall not, directly or indirectly, collude, consult, communicate or agree with any other Bidder as to any matter related to the bid each is submitting. Additionally, a Bidder shall not induce any other Bidder to modify, withdraw, submit, or not submit a bid.

Bidders and Vendors who are found to have engaged in these acts will be considered nonresponsive and will be suspended or barred from bid participation. Any contract award resulting from these acts may be terminated for default. Further, any such acts detected by the FSA may be reported to relevant law enforcement and/or prosecutorial agencies.

Bidders may submit multiple bids without violating this provision if the bid submitted is not from the same Manufacturer and product line. Dealers that share the same ownership may submit multiple bids without violating this provision if the Bidders are not in the same region featuring the same Manufacturer and product line.

1.39 DEFAULT

In case of default on the part of Vendor, the FSA CPP may take necessary steps to otherwise procure the products sought, including but not limited to procuring the products or services from the next highest ranked Bidder or from other sources. A defaulting Vendor may be held liable for costs incurred by the FSA in procuring replacement products.

1.40 PROTESTS AND ARBITRATION

Any person who is adversely affected by the decision or intended decision to award shall file a "Notice of Protest" in writing to the FSA CPP within three (3) business days after the posting of the Intent to Award and shall file a formal written protest within five (5) business days after filing the Notice of Protest. Failure to file both a notice of protest and a formal written protest within the above referenced timelines shall constitute a waiver of proceedings.

The burden is on the party protesting the award of the bid to establish grounds for invalidating the award(s). The formal written protest must state with particularity the facts and law upon which the protest is based. Options are for informational purposes only and will not serve as a basis for protest. Failure to do so will result in a denial of protest. Formal written protest which states with particularity the facts and law upon which the protest is based will be reviewed by FSA legal counsel for legal soundness and validity, and corrective action will be taken as needed contingent upon the validity of such claims. However, any additional time required and costs incurred by the FSA to substantiate a protesting party's claim(s) beyond the normal scope of its legal review due to the vague or inconclusive nature of the protesting party's filing will be reimbursable to the FSA and deducted from the protesting party's bond or security which must accompany their filing.

Any Bidder who files an action protesting a decision or intended decision pertaining to this Contract shall post a bond, cashier's check or money order payable to the Florida Sheriffs Association in the amount equal to ten percent (10%) of the item being protested. The bond, cashier's check or money order must be filed at the time of filing the formal written protest or within the five (5) business day period allowed for filing the formal written protest. FSA CPP will provide the amount required within two (2) business days of the notice of protest received. This bond or security will be conditioned upon the payment of all costs which may be adjudged against the protesting party in a court of law and/or to reimburse the FSA for additional legal expenses incurred and required to substantiate the protesting party's claim(s). Failure to post the bond or security requirement within the time allowed for filing will result in a denial of protest. The filing of the protest shall not stay the implementation of the bid award by the Florida Sheriffs Association.

Should the unsuccessful Bidder(s) decide to appeal the decision of the FSA, they shall file a notice to FSA CPP within three (3) business days of the FSA bid protest decision regarding their intent to request arbitration. A demand for arbitration with the American Arbitration Association's ("AAA") commercial panel under its rules and regulations must be made within ten (10) business days of the FSA bid protest decision. Any person who files for an arbitration with the AAA shall post with the Florida Sheriffs Association at the time of filing the formal written arbitration request, a bond, cashier's check or money order payable to the Florida Sheriffs Association in the amount equal to ten percent of the product line being protested. This amount will be the same amount as the FSA CPP provided at the time of filing the initial protest. Failure to provide written notice to FSA CPP, file a demand for arbitration with the AAA, or failure to post the required bond and security requirement within the specified timelines shall constitute a waiver of arbitration proceedings. By responding to this procurement, the Bidder expressly agrees to the use of mandatory binding arbitration to resolve any appeals of the decision of the FSA, and any claims arising from or in any way relating to the procurement process, and expressly waives any and all rights that it may otherwise have to pursue such claims in any other forum, judicial or otherwise.

If the party filing for arbitration does not prevail, it shall pay all costs, legal expenses and attorneys' fees of the prevailing party incurred in connection with the arbitration. However, if the filing party prevails, the parties shall share equally the fees and expenses of the arbitration and AAA and each shall bear the cost of their own attorneys' fees. The filing for arbitration shall not stay the implementation of the bid award by the Florida Sheriffs Association.

1.41 NONPERFORMANCE

By virtue of the bid submission, Bidder acknowledges its obligation to sell items in all zones for which it is awarded. Upon award, failure of the Vendor to comply with these requirements may result in the imposition of liquidated damages of up to $1,000 per item, which amount the Vendor agrees is reasonable, or probation, suspension, termination or a combination thereof from current and future bids at the FSA CPP's discretion.

The Vendor shall at all times during the Contract term remain responsive and responsible. In determining Vendor's responsibility, the FSA CPP shall consider all information or evidence that demonstrates the Vendor's ability or willingness to fully satisfy the requirements of the Terms and Conditions.

Vendors that are not in compliance with any of the provisions of this Contract can be assessed liquidated damages, suspended or terminated from the Contract. The FSA CPP at its sole discretion may remove a noncompliant Vendor from future competitive bid solicitations; or take other actions including suspension from the Contract until compliance issues are resolved, limit current or future vendor participation by items or zones, or other actions as determined by FSA CPP at its sole discretion.

At FSA CPP's discretion, Vendors may be required to develop corrective action plans to address contract compliance. Failure to abide by corrective action plans will result in termination of the Contract and future competitive bid solicitations at the discretion of the FSA CPP.

In situations where there is evidence that the Vendor has engaged in egregious breaches of the Contract with respect to either the FSA CPP and/or the purchaser, the Contract can be terminated immediately and the Vendor will be removed from future solicitations for a period of up to three (3) years, or a permanent ban from the bid process at the sole discretion of FSA CPP.

Specific conditions for termination include, but are not limited to: failure to perform, refusal to accept orders during the Contract term while Manufacturer orders are still being accepted for current model year or the new year if the vehicle is price protected by the factory, charging amounts exceeding MSRP on factory or Vendor installed items and packages, requiring the purchase of additional options over and above the base vehicle as a condition of acceptance of order, providing aftermarket options where factory options are available without the consent of the purchaser, any misrepresentation of optional equipment or service as being factory that fails to meet the definition as described in this document, and any other practice deemed to be inconsistent with the intent of the Contract.

Any Vendor presented with a valid Purchase Order consistent with Vendor bid quotes or other agreed upon terms and pricing is required by this Contract to accept such Purchase Order and deliver the product. Purchase Orders must be fulfilled whether or not the Purchase Order includes options. The Vendor must deliver this product in accordance with the Terms and Conditions – regardless of whether doing so will provide the Vendor with a profit or loss.

Failure to deliver the item may result in the purchaser seeking damages for the difference of cost to issue a new Purchase Order with another Vendor, plus any legal fees and damages that may be incurred in the process to facilitate a completed order. Additionally, FSA CPP may seek damages for nonpayment of administrative fees, to

which FSA CPP is entitled, according to Section 3.25, and any attorneys' fees incurred in the recovery of these damages.

1.42 SEVERABILITY

In the event any provision of this Contract is held to be unenforceable for any reason, the unenforceability thereof shall not affect the remainder of the Contract, which shall remain in full force and effect and enforceable in accordance with its terms.

1.43 TERMINATION FOR CAUSE

If, through any cause within the reasonable control of the Vendor, it shall fail to fulfill in a timely manner, or otherwise violate any of the terms of this Contract, the FSA shall have the right to terminate the services remaining to be performed. Written notice of the deficiencies shall be given to the Vendor and unless the deficiencies are corrected within ten (10) business days, the Contract may be terminated for cause immediately. The right to exercise the option to terminate for cause shall be in the sole discretion of the FSA, and the failure to exercise such right shall not be deemed to constitute a waiver of this right.

In the event of a termination for cause, the purchaser shall compensate the Vendor in accordance with the Contract for all services performed by the Vendor prior to termination, net of any costs incurred by the purchaser and FSA as a consequence of the default.

Notwithstanding the above, the Vendor shall not be relieved of liability to the FSA for damages sustained by the FSA by virtue of any breach of the Contract by the Vendor, and the FSA may reasonably withhold payments to the Vendor for the purposes of offset until such time as the exact amount of damages due the FSA from the Vendor is determined.

1.44 TERMINATION WITHOUT CAUSE

The FSA can terminate the Contract in whole or part without cause by giving written notice to the Vendor of such termination, which shall become effective thirty (30) calendar days following receipt by Vendor of such notice.

In the event of termination without cause, all finished or unfinished documents and other materials shall be properly delivered to the FSA.

The Vendor shall not furnish any product after it receives the notice of termination, except as necessary to complete the continued portion of the Contract, if any. The Vendor shall not be entitled to recover any lost profits that the Vendor expected to earn on the balance of the Contract or cancellation charges.

Any payments to the Vendor shall be only to the total extent of the purchaser's liability for goods or services delivered prior to the date of notice to terminate the Contract.

1.45 CONTRACT ADVERTISEMENT AND USE OF FSA LOGO

The FSA CPP logo is an official logo of the Florida Sheriffs Association designed to promote the program. The FSA CPP logo may be used by Vendors in accordance with the policy contained in this Section 1.45. Use of the FSA CPP logo is limited to the original version received from the FSA. Modifications are not permitted.

Methods of use include, but are not limited to:

- Electronic mediums such as websites, digital marketing campaigns, social media and e-mail; or
- Print media such as forms, marketing campaigns, business cards, posters, banners, brochures, flyers and postcards.

Vendors may request use of the FSA CPP logo by contacting cpp@flsheriffs.org, and should include a brief description of how the Vendor intends to use it. The official FSA sheriff's star and wreath logo may not be used without prior written permission.

2.0 BIDDER INSTRUCTIONS

2.01 QUALIFICATION

Bidders are required to complete the Qualifications Packet as part of the bid submission. A Bidder becomes a qualified bidder if they comply with this section and Section 2.09, Mandatory Pre-Bid Meeting.

Qualifications Packet information required for bid submission include:

- Qualification Form
    - Contact Information
    - Business Profile
    - References
    - Disqualifications & Defaults
- Compliance Attestations
    - E-Verify
    - Anti-Human Trafficking
    - Workers' Compensation
    - Drug-Free Workplace
    - Compliance with Applicable Federal, State, and Local Laws and Ordinances
    - Sunbiz
- Federal Compliance

The Qualifications Packet is located on the Bid System.

2.02 LICENSING AND FACILITIES

Bidders are required to obtain all required licenses, including any applicable motor vehicle dealer licenses, and registrations, and comply with all applicable Federal, State, and local laws and ordinances, including any applicable motor vehicle dealer laws, in order to bid on any motor vehicle.

Bidders must maintain a repair facility within the State of Florida to provide warranty service for the items bid. If Bidders do not have a facility, the Bidder must be able to assist purchasers in obtaining warranty work as authorized by the Manufacturer.

2.03 INSURANCE AND INDEMNIFICATION

Vendor shall maintain, at its sole cost and expense, the insurance coverages required by FSA and purchasers through the duration of this Contract, with limits of liability not less than the following:

- Workers' Compensation Insurance in accordance with the laws of the State of Florida.
- Comprehensive General Liability Insurance covering the Vendor's legal liability for bodily injury and property damage, contractual liability, and completed products and operation, with limits of not less than $1,000,000 per occurrence and $2,000,000 aggregate, and covering at least the following hazards:
    - Independent Contractors Coverage for bodily injury and property damage in connection with any subcontractors' operation.
- Automobile Liability Insurance covering the Vendor's legal liability for bodily injury and property damage in limits of not less than $1,000,000 per occurrence, providing coverage for any accident arising out of or resulting from the operation, maintenance, or use by the Vendor of any owned, non-owned, or hired automobiles, trailers, or other equipment required to be licensed.

- Garage Keepers Liability Insurance covering the Vendor's legal liability for property damage in limits of not less than $1,000,000 per occurrence.

It is understood and agreed that all insurance policies of insurance provided by the Vendor are primary coverage and non-contributory with respect to any insurance or self-insurance the FSA or purchasers possess that may apply to a loss resulting from the work performed pursuant to this Contract. All insurance policies issued to cover the insurance requirements herein shall provide full coverage from the first dollar of exposure.

Vendor shall be fully liable for the actions of its agents, officers, employees, contractors, partners, subcontractors, and third party suppliers, performing work under this Contract, and shall fully indemnify and hold harmless the Florida Sheriffs Association ("FSA"), the purchasers, and each of their officers, agents, and employees from suits, actions, damages, and costs of every name and description, including legal counsels' fees and court costs, arising from or relating to negligence, omissions, personal injury or damage to real or personal tangible property alleged to be caused in whole or in part by Vendor, its agents, officers, employees, contractors, partners, subcontractors, and third party suppliers; provided, however, that the Vendor shall not indemnify for that portion of any loss or damages resulting directly from the grossly negligent acts or omissions of the FSA or purchasers or for that portion of any loss or damages proximately caused by intentional wrongful acts or omissions of the FSA or purchasers.

All insurance policies shall be issued by companies authorized to do business under the laws of the State of Florida and these companies must have a rating of B+ or better per the AM Best Rating. At no time shall the Vendor be without insurance in the required amounts. No policy may be changed to provide for less coverage than is required or canceled during the term of this Contract without at least thirty (30) days' written notice to the FSA and/or purchasers, as applicable.

The Vendor must specifically and distinctly assume, and does so assume, all risks of damage or injury to property or persons used or employed on or in connection with the work to be performed by Vendor pursuant to this Contract and of all damage or injury to any person or property wherever located, resulting from any action, omission or operation by the Vendor, its agents, officers, employees, contractors, partners, subcontractors, and third party suppliers, under this Contract or in connection with the work contemplated herein. It is understood and agreed that at all times the Vendor, its agents, officers, employees, contractors, partners, subcontractors, and third party suppliers, are acting as independent contractors to the FSA and/or purchasers, as applicable. Nothing in this Contract shall be interpreted or construed as creating or establishing the relationship of employer and employee between the FSA and/or purchasers and the Vendor or any of its agents, officers, employees, contractors, partners, subcontractors, and third party suppliers, or anyone directly or indirectly employed by the Vendor. The parties acknowledge that the Vendor is not an employee for state or federal tax purposes. The Vendor shall hire and pay all of Vendor's employees, agents, subcontractors or anyone directly or indirectly employed by the Vendor, all of whom at all times being entirely under the Vendor's supervision, direction and control. The Vendor shall be responsible for the means, manner, and methods by which its duties, obligations, and responsibilities under this Contract are met to the satisfaction of the FSA and/or purchasers, as applicable. The Vendor shall be responsible for every part of the work contemplated herein, and for all labor, expertise, materials, tools, appliances and property of every description, used in connection with this Contract.

The Vendor will secure and maintain policies of third-party suppliers performing work or providing services and/or materials to or for Vendor in furtherance of Vendor's performance under this Contract. All third-party supplier insurance policies must be made available to the FSA and/or purchasers upon written request. Compliance by the Vendor and all third-party suppliers with the foregoing requirements as to carrying insurance and furnishing copies of the insurance policies will not relieve the Vendor or any of its third-party suppliers of each of their liabilities and obligations under any section or provisions of this Contract. Vendor must be as fully responsible to the FSA and/or

purchasers for the acts and omissions of the third-party suppliers and of persons employed by the third-party suppliers as Vendor is for acts and omissions of persons directly employed by the Vendor.

The FSA and/or purchasers may request, and upon such request the Vendor must furnish, proof of insurance, within seven (7) calendar days of receipt of the written request once the contract times have commenced. Should the Vendor fail to provide acceptable evidence of current insurance during the Contract term, the FSA and/or purchasers, as applicable, have the right, but not obligation, to consider the Contract breached and terminate the Contract effective immediately, in the sole discretion of the FSA and/or purchasers, as applicable. If Vendor fails to have secured and maintained the required insurance, the FSA and/or purchasers has the right to consider alternate insurance coverage proffered by the Vendor, but has no obligation to do so.

The FSA and/or purchasers will give the Vendor the opportunity to take over and settle or defend any such action at Vendor's sole expense. As permitted by law and within a reasonable time period, the FSA and/or purchasers will give the Vendor written notice of an action or threatened action. Vendor will not be liable for commercially unreasonable costs, expenses or compromises incurred solely by the FSA, or purchasers, in any legal action without Vendor's prior written consent, which consent shall not be unreasonably withheld, conditioned, or delayed.

The Comprehensive General liability insurance coverage, Automobile liability insurance coverage, and Garage Keeper's liability insurance coverage must extend to and include the following contractual indemnity and hold harmless agreement:

> *The Vendor hereby agrees to indemnify and hold harmless the FSA, a 501(c)3, its officers, agents, and employees from all claims for bodily injuries and for all damages to property, including tangible and intangible, per the insurance requirement under the specifications including costs of investigation, all expenses of litigation, including reasonable legal counsel fees (including paralegal and other expert and support service fees) and the cost of appeals arising out of any such claims or suits because of any and all acts, omissions or commissions by the Vendor, its agents, officers, employees, contractors, partners, subcontractors, and third party suppliers under the Contract FSA25-VEH23.0 Heavy Trucks and Buses.*

The foregoing indemnity agreement must apply to any and all claims and suits other than claims and suits arising out of the sole and exclusive gross negligence of the FSA, its officers, agents, and employees, as determined by a court of competent jurisdiction.

The Vendor will notify the insurance agent without delay of the existence of the Hold Harmless Agreement contained within this Contract and furnish a copy of the Hold Harmless Agreement to the insurance agent and carrier.

The Vendor, at all times during the full duration of work under this Contract, including any extra or additional work approved by and consented to in writing by the parties in connection with this Contract, shall meet the requirements of the foregoing provisions.

2.04 SPECIFICATIONS

All items covered by this Invitation to Bid and any resulting contract, and the specifications shall be the Manufacturer's current basic production model, and shall, as a minimum, be equipped with all standard factory equipment in accordance with the Manufacturer's latest literature unless otherwise noted in the Bid System or FSA Base Specifications.

The FSA Base Specifications are contained in the FSA CPP Bid System, may be requested from FSA CPP, and are retained within FSA CPP's archive. As part of the bid submission, Bidders will be required to provide confirmation that the item bid meets the FSA Base Specifications. FSA CPP may reject bids that fail to provide confirmation that the item(s) bid meet the FSA Base Specifications.

FSA CPP develops the specifications with subject matter experts and publicly available information. However, FSA CPP does not have access to full details from the Manufacturer and relies on Bidders to assist in this process. Bidders should immediately notify the FSA CPP of any inaccuracies in the specifications. All notifications of inaccuracies must be in writing.

If awarded a contract, Vendor(s) must offer and supply an item that either meets or exceeds all the requirements included in the applicable FSA Base Specifications, unless a purchaser specifically issues a Purchase Order for a base item and option that differs from the FSA Base Specifications. Failure of a Vendor to comply with these provisions will result in Vendor being held responsible for all costs required to bring the item into compliance with the contract specifications.

2.05 SEALED BIDS

For purposes of this solicitation, a sealed bid is considered a bid submitted using the FSA CPP Bid System.

2.06 MISTAKES

Bidders are expected to examine the FSA Base Specifications, delivery schedules, bid prices and all information pertaining to servicing this Contract before submitting a bid. Failure to do so will be at the Bidder's risk.

2.07 EXCEPTIONS

Any requested exceptions, deviations, or contingencies a Bidder may have to the Terms and Conditions must be documented in Bidder's submission. Exceptions to the FSA Base Specifications at the time of the bid submission shall reference the item number, make and model. FSA CPP has the discretion to grant or deny, in whole or in part, the Bidder's requested exception, deviation or contingency to the specifications or Terms and Conditions. Bidder acknowledges that the bid may be disqualified if FSA CPP rejects the proposed exceptions.

2.08 EQUIVALENTS

Prior to the opening of the Bid System, Bidders may request item equivalents. The Bidder must submit the Manufacturer name and model number (or product identifier) of each equivalent requested to FSA CPP. Complete, descriptive, technical literature should demonstrate that the equivalent conforms with FSA Base Specifications. If a bid uses equivalents without prior approval, the bid may be disqualified.

2.09 MANDATORY PRE-BID MEETING

Bidders are required to attend or participate in the **mandatory** Pre-Bid Meeting. The Pre-Bid Meeting is designed for Bidders, the Fleet Advisory Committee, and the FSA CPP to clarify questions on the Terms and Conditions and to confirm all FSA Base Specifications. Questions relating to the items, specifications, the bid process, or award can be asked at the Pre-Bid Meeting. Bidders have the opportunity to suggest technical modifications or corrections before the FSA Base Specifications are finalized.

FSA CPP reserves the right to grant attendance exceptions to the mandatory Pre-Bid Meeting if the Bidder has requested authorization, agrees in writing to meet all the Terms and Conditions without exception and further waives their right to protest the bid process in its entirety or any portion thereof.

2.10 PRICES QUOTED

Items and options should reflect the most complete price and be below MSRP and, at a minimum, should cover the cost of the item or option bid.

Prices quoted in the bid submission should reflect the final amount the Bidder can expect to receive for payment for the items bid for the duration of the Contract, unless otherwise provided in the Contract. Prices submitted as indicated in the sealed bid are final. Bidders acknowledge that prices quoted will be valid for a period of sixty (60) calendar days from the date of bid opening.

Each item, make, and model must be priced and bid separately. Prices must be inclusive of all the components included in the FSA Base Specification.

Prices bid must include the administrative fee FSA CPP charges to administer the Contract, as outlined in these Terms and Conditions. The administrative fee is three quarters of one percent (.0075).

Prices bid must be at least cost, be Free On Board ("FOB") destination, and must include delivery to the purchaser.

Upon award, the Vendor has the authority to offer additional discounts based on prompt payment, quantity, as well as additional Manufacturer or vendor discounts.

2.11 OPTION PRICING

FSA CPP requests Bidders include most frequently purchased options in the Bid System. Option pricing must include the administrative fee. Bidders must provide a price for each option in addition to a percent below MSRP for factory-installed options or a percent above cost for other options.

The FSA CPP has the discretion to disqualify Bidders if the option pricing is excessive. In order to determine if pricing is excessive, Bidders and, if awarded a contract, Vendors agree to provide documentation to FSA CPP to verify cost at any time during the solicitation process or during the Contract term. This information is for comparison purposes and will not be published.

Options are intended to add or delete equipment or features from the FSA Base Specifications. Options can provide an upgrade or downgrade to a Manufacturer's model, such as a slightly different engine size or horsepower, and should not be made available for purchase separate from the base vehicle or equipment. Options may only provide a downgrade to a Manufacturer's model when specifically requested in a Purchase Order issued in accordance with the Terms and Conditions by a purchaser. Bidders shall NOT use options to create an item that is available as another item bid on this Invitation to Bid.

The use of options to facilitate the sale of an alternate Manufacturer's product which is outside the scope of the FSA Base Specifications will be determined nonresponsive and the bid will be rejected in whole or part by the FSA CPP. Bidders must disclose which options require the purchase of other options or are dependent on another option in their bid submission. Option pricing will include all costs of labor associated with the option and cost of labor should not be listed separately.

Bidder must use proper Manufacturer codes for factory options. Options available through the factory should be bid as and supplied to purchaser as factory options, unless otherwise requested in writing by the purchaser. Factory package options are permitted under this Contract. Factory package options included in the bid submission must detail what components the package includes.

If the Bidder wishes to offer credit to the purchaser for an option that is standard on the FSA Base Specifications, the Bidder should include the word "Credit" at the beginning of the description field and continue to describe the option being credited. For example, "Credit: one key fob" and enter the price the Bidder will credit the purchaser.

2.12 BID SUBMISSION

Bidders must submit a bid electronically using the Bid System. Bid submissions include a price for each item and option bid in accordance with Sections 2.10, 2.11, 2.12, and 2.13. Each Bidder must submit a Qualifications Packet for each bid. The bid must be received by the date and time specified on the Bid Calendar in Appendix B. Failure to meet all submission requirements by the date indicated on the Bid Calendar will result in rejection of the bid.

Bid System: VendorLink
The Bid System is located at https://www.myvendorlink.com. Bidders are encouraged to participate in training provided. Usernames and passwords will be issued to Bidders after registering in the Bid System. Contact VendorLink at support@evendorlink.com if technical issues arise during bid submission.

Prices are to be rounded to the nearest whole dollar. If a Bidder submits bid pricing using cents, the following formula will be applied to round the bid pricing to the nearest whole dollar: $.01-.49 will be rounded down to the dollar bid (e.g., $50.49 = $50) and $.50-.99 will be rounded to the next dollar (e.g., $50.50 =$51).

Bid Submission
To ensure correct bid submittal and formatting, Bidders shall:

- Offer a price for each item bid by zone.
- Upload files as instructed in the Bid System; files requested will be .pdf.
- Follow all instructions outlined in this Invitation to Bid and provide all requested information.

The bid shall include the following documents:

- Executed Qualifications Packet.
- Build sheet for each item bid as a single .pdf.
- Any requested exceptions or equivalents.

Option Upload
An option sheet should be submitted for each item bid. The Bid System will accept option information for each item through a .pdf file upload. Each option sheet should include a header to identify the FSA CPP contract title and number, the Bidder name, item number, make and model. Each option sheet should include:

- Option
- Description
- Manufacturer order code or identifying code
- Price
- Cost plus percent for all items not installed at the factory
- Percent below MSRP for factory installed options

Repair and Replacement Parts Upload - Optional

If a Vendor chooses to sell repair and replacement parts upon award, a parts pricing sheet should be submitted with the bid. Parts are listed by Vendor and are not tied to items bid. A template is offered in the bid system. Each pricing sheet should include:

- Category
- Description
- MSRP or List Price discount percentage
- Exceptions to discount provided
- Quantity discounts

FSA CPP may ask awarded Vendors to supply one (1) hard copy set of the bid with digital signatures and original compliance forms, prior to the Contract execution. Hard copy bids should not be submitted unless specifically requested by FSA CPP. FSA is not responsible for Bidder's improper use of the Bid System. Exceptions may be granted to Bidders by FSA CPP pursuant this section should any Bid System malfunctions occur.

2.13 ZONE BIDDING

Bidders may bid in one or more geographic zones. Bidders must submit pricing for each zone they wish to be evaluated. The zone map is included in Appendix A. The geographic zones are in place to assist Bidders in estimating costs of delivery, which must be included in the price bid and quoted to the purchaser.

2.14 EXECUTION OF BID

By submitting a response to this Invitation to Bid, the Bidder agrees to the Terms and Conditions and to be bound by such Terms and Conditions if selected for award. The Bidder must respond to the Contract Signature Form with the signature of an authorized representative five (5) days prior to award.. All Terms and Conditions are applicable throughout the term of the awarded contract and are not specific to any given year, make or model.

2.15 MODIFICATION OR WITHDRAWALS OF BIDS

A Bidder may submit a modified bid to replace all or any portion of a previously submitted bid until the due date and time of the bid submission listed in the Bid Calendar. Modifications received after the bid due date and time will not be considered.

Bids can be withdrawn in writing prior to the contract award. If a Bidder must withdraw the bid, the Bidder must contact FSA CPP immediately. Bid withdrawals are handled on a case-by-case basis and can result in a limitation of participation in future bids.

2.16 LATE BIDS

The responsibility for submitting a bid before the due date and time on the Bid Calendar is solely and strictly the responsibility of the Bidder. The FSA is not responsible for delays caused by technical problems, any internet outages or delays incurred by electronic delivery, or any other occurrence. Any reference to time will be based on Eastern Time.

2.17 BID OPENING

Bids shall be opened on the date and time specified on the Bid Calendar. The bid opening may occur at the Florida Sheriffs Association, 2617 Mahan Drive, Tallahassee, Florida, or may be offered online.

FSA CPP will provide a bid inspection period for Bidders following the bid opening. The date, time and duration will be announced prior to the bid opening.

2.18 DETERMINATION OF RESPONSIVENESS

Determination of responsiveness will take place at the time of bid opening and evaluation. In order to be deemed a responsive bidder, the bid must conform in all material respects to the requirements stated in the Invitation to Bid. As set forth in Section 2.22, FSA CPP reserves the right to waive or allow a Bidder to correct minor irregularities.

2.19 RESPONSIBLE BIDDER CRITERIA

Bids will be evaluated to determine if qualifications and Contract requirements are met. Responses that do not meet all requirements of this Invitation to Bid or fail to provide all required information, documents or materials may be rejected as nonresponsive. The FSA CPP will not request documentation or consider a Bidder's social, political or ideological interests in determining if the Bidder is a responsible bidder. FSA CPP will not give preference to a Bidder based on the Bidder's social, political, or ideological interests.

Bidders whose responses, past performance, or current status do not reflect the capability, integrity, or reliability to fully and in good faith perform the requirements of the Contract may be rejected as non-responsible. In determining a responsible Bidder, the following factors may be considered:

- Adequacy of facilities, staffing, and financial resources;
- Previous experience with FSA contract or other similar government contracts;
- Ability to provide excellent customer service, including on previous FSA contracts; and
- Any other information relevant to the responsibility of a Bidder of which FSA CPP is aware.

In addition to the requirements set forth by these Terms and Conditions, FSA CPP reserves the right to request staffing, performance and financial information from any Bidder during the evaluation process.

FSA CPP reserves the right to determine which responses meet the requirements, specifications, Terms and Conditions of the solicitation, and which Bidders are responsive and responsible.

FSA CPP further reserves the right to limit participation of Bidders who, in FSA CPP's sole discretion, are determined to present responsibility concerns that call into question the Bidder's ability to perform but that do not rise to the level of requiring rejection of the Bidder as non-responsible.

2.20 BASIS FOR AWARD

The FSA CPP shall make award to the qualified, responsive and responsible Bidder(s) who submitted the lowest offer price by item, Manufacturer, and zone. Awards may also be made to subsequent lowest responsive and responsible Bidders by item, Manufacturer, and zone, when determined to be in the best interest of the FSA and the purchaser(s). FSA CPP has the discretion to consider option pricing in making the award and to disqualify Bidders for proposing excessive percent(s) or option pricing.

Awards will not be given to any parties listed on the government wide exclusion in the System for Award Management.

FSA CPP reserves the right to accept or reject any and all bids, and to waive any minor irregularity, technicality or omission if it determines that doing so will serve the purchaser's best interest. FSA CPP reserves the right to make multiple awards for each item, if determined to be in the best interest of the FSA and the purchasers.

Awards will be posted on the FSA CPP website according to the date posted in the Bid Calendar.

2.21 BID TABULATIONS

The bid tabulation report will be posted on the FSA CPP website after the bid submission closes.

If there is a delay in posting the bid tabulation results, FSA CPP will post a notice of the delay and a revised date for posting of results.

2.22 MINOR IRREGULARITIES/RIGHT TO REJECT

The FSA CPP has the right to accept or reject any and all bids, or separate portions thereof, and to waive any minor irregularity, technicality or omission if the FSA CPP determines that doing so will serve its best interest or the best interest of the purchasers. A minor irregularity is a variation from the Terms and Conditions of this procurement that does not affect the price of the bid or give the Bidder a substantial advantage over other Bidders and thereby restrict or stifle competition and does not adversely impact the interests of the FSA or the purchasers. At its option, the FSA CPP may allow a Bidder to correct minor irregularities but is under no obligation to do so. In doing so, the FSA CPP may request a Bidder to provide clarifying information or additional materials to correct the irregularity. However, the FSA CPP will not request, and a Bidder may not provide, the FSA CPP with additional materials that affect the price of the bid or give the Bidder an advantage or benefit not enjoyed by other Bidders.

The FSA CPP may also reject any bids not submitted in the manner specified in this Invitation to Bid.

2.23 CONE OF SILENCE

This Invitation to Bid is subject to the Cone of Silence that begins the date the bid submission opens through the intent to award date as indicated in the Bid Calendar. During this period, all communications regarding this solicitation between FSA and Bidder will cease, except for procedural questions, questions regarding problems incurred in the use of the Bid System, or communications initiated by the FSA CPP. All permitted communications during this period shall be made in writing to the contact person identified in Section 1.01 of this Invitation to Bid.

3.0 CONTRACT CONDITIONS

3.01 GENERAL REQUIREMENTS

Once the bid has been awarded, the Terms and Conditions of this document become the Contract between the FSA and the awarded Vendor. The Terms and Conditions apply to all items purchased from this Contract.

3.02 STATEMENT OF AUTHORITY

Each person signing the Contract warrants that they are duly authorized to do so and binds the respective party to the Contract.

3.03 VENDOR CONTACT INFORMATION

The Vendor shall maintain current contact information with FSA CPP at all times for sales and submission of Purchase Orders, quarterly reports and administrative fee payments. If a change occurs during the term of this Contract, the Vendor must notify FSA immediately.

3.04 ADDITIONS OR DELETIONS

FSA CPP reserves the right to add or delete any items from the Vendor's bid or this Contract when deemed to be in the best interest of FSA and purchasers, at its discretion. This decision to take action may be based upon and not limited to few or no sales, product recalls and other safety issues, Vendor or Manufacturer performance, or the product's lack of relevance.

For items that come to market during the Contract term, FSA CPP may authorize qualified and awarded Vendors to offer the new item under the existing Contract Terms and Conditions, if the Manufacturer authorizes a Vendor to sell the item. FSA CPP will request awarded Vendors submit pricing and will evaluate the responses prior to authorizing awarded Vendors to offer the new item.

3.05 CONTRACT EXTENSION

Contract Extension
The Contract may be extended by mutual agreement for up to two (2) additional years, on a year-to-year basis. FSA reserves the right to execute a Contract extension or to allow the Contract to fully or partially terminate and readvertise for bids, whichever is in the best interest of FSA.

The Vendor may request price adjustments for Contract extensions as provided for herein. If no request is received from the Vendor, the FSA will assume that the Vendor has agreed that the optional term may be exercised without a price adjustment. Any adjustment request received after the execution of an extension may not be considered unless otherwise provided for in this Contract.

Month-to-Month Continuation
In the event a new contract is not active at the time of this Contract's expiration, this Contract's Terms and Conditions shall extend on a month-to-month basis and shall not constitute an implied extension of the Contract. Such a month-to-month continuation shall be upon the compensation and payment provided herein.

3.06 PRICE ADJUSTMENT

The Terms and Conditions provide the following methods of price adjustments:

- Annual Price Adjustments
- Changes to Manufacturer Production or Design
- Manufacturer Certified Adjustments
- Equitable Adjustments

Price adjustment requests must clearly substantiate a need to increase or decrease the price. Price adjustments will not be considered if Vendors are delinquent on administrative fee payments or have outstanding quarterly reports.

Annual Price Adjustment

The FSA CPP may consider annual price adjustments due to:

- Changes in the Producer Price Index ("PPI") as published by the U.S. Department of Labor, Bureau of Labor Statistics ("BLS"); or
- As a result of changes to national or state standards that require substantial price adjustments.

FSA CPP may consider other documentation related to the change to national or state standards but is not obligated to grant price changes without literature from the Manufacturer. The FSA CPP will consider the request and will make a final determination on the change in price.

Changes to Manufacturer Production or Design

Significant changes by the Manufacturer to the production of and specification design may initiate a price adjustment request. FSA CPP will consider order dates, production factors, model year, or other conditions, as well as the replacement or complete redesign of items. Vendors must provide documentation from the Manufacturer.

Manufacturer Certified Adjustments

Vendors must provide documentation from the Manufacturer to FSA CPP that shows the additional costs or price adjustments imposed by the Manufacturer and substantiate the need for a related price adjustment for this Contract.

Equitable Adjustments

The FSA CPP, on behalf of FSA, may make an equitable adjustment to the Contract terms or pricing at its discretion.

3.07 CONDITIONS

It is understood and agreed that any item offered or shipped as a result of this Contract shall be the most current model offered.

3.08 PRODUCTION CUTOFF

Vendors shall notify the FSA CPP in writing no less than sixty (60) calendar days prior to the close of final order date by the Manufacturer when the final order date is during the term of the Contract. Purchase Orders received by the Vendor ten (10) business days prior to the final order date must be accepted and entered into the order system with

the Manufacturer. Purchase Orders issued and received after the production cutoff date will be subject to availability. In this case, the Vendor and Manufacturer have the discretion whether to choose to provide next year's model at current year's prices until the end of the Contract term. If the Manufacturer cutoff date is during the term of the Contract and will affect the purchaser's ability to obtain the items, FSA CPP may consider substitutions from the same Manufacturer.

3.09 FACILITIES

The FSA CPP reserves the right to inspect the Vendor's facilities at any time with prior notice.

3.10 CAB AND CHASSIS PURCHASES

Vendors performing upfitting of cab and chassis should be licensed and certified to perform such work. Vendors are responsible for tag and title work if the chassis is completed by the Vendor or the Vendor's contracted third-party supplier. The requirements of Section 319.21, *Florida Statutes*, related to the Manufacturer statement of origin apply to cab and chassis purchases apply.

Cabs and chassis may be purchased from the Vendor without any required additional upfitting by the Vendor. Vendors are not responsible for tag and title if an incomplete chassis is requested and sold to the purchaser.

3.11 FACTORY-INSTALLED OPTIONS

All options specified as factory-installed are to be installed on the item at the primary site of assembly and are to be the Manufacturer's standard assembly-line product. Aftermarket and vendor-installed equipment will not be accepted as factory-installed. Vendors found supplying aftermarket or vendor-installed equipment where factory-installed are specified shall be required to retrieve all delivered items and supply new items meeting the specifications.

All factory-ordered options are to be original equipment Manufacturer ("OEM") and installed at the primary site of assembly unless otherwise noted by the Vendor and acknowledged in writing by the purchaser. Verbal agreements will not be recognized.

3.12 VENDOR-INSTALLED OPTIONS

All vendor-installed accessories, equipment, or options shall be installed according to the Manufacturer's specifications. All vendor-installed options must be manufactured by an established Manufacturer of the product provided. Vendors are required to disclose make and model of product being offered, the design and model must be approved by the purchaser prior to installation. Prior to any purchase, the Vendor must also disclose the warranty of any accessory, equipment or option that is less than or exceeds the factory or equipment warranty coverage. Any Vendor that violates this provision will be considered in default of the Contract. FSA may terminate the Contract in accordance with these Terms and Conditions.

3.13 NON-SCHEDULED OPTIONS

A non-scheduled option is an option not listed on the FSA CPP published award. Vendors may provide non-scheduled options at less than MSRP or the Published List Price. Non-scheduled options should be identified and listed as a separate line item with the price and discount on the Purchase Order. Non-scheduled options are covered under these Terms and Conditions.

3.14 FORCE MAJEURE

A Vendor shall not be penalized for a delay resulting from the Vendor's failure to comply with delivery requirements if neither the fault nor the negligence of the Vendor or its employees contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Vendor's control, or for any of the foregoing that third party suppliers if no alternate source of supply is available to the Vendor.

3.15 PARTS

Vendors may sell repair and replacement parts. Parts pricing must include the administrative fee. If a Vendor wishes to offer parts under this Contract, the Vendor must provide a price list to FSA and offer a discount below MSRP or Published List Price. Bidders and/or Vendors, as applicable, may include parts pricing sheet with the bid submission or following award. Bidders and/or Vendors, as applicable, may use the template offered in the bid system. Items listed below are required for the pricing sheet:

- Description.
- MSRP or List Price discount percentage.
- Exceptions to discount provided.
- Quantity discounts.

3.16 PURCHASE ORDERS

To initiate a purchase, a Purchase Order must be issued to the Vendor, which includes:

- FSA CPP contract title and number;
- FSA CPP item number;
- Make and model or item description; and
- Purchaser name, phone number and email address.

The Vendor's acceptance of a purchaser's order will indicate that the Vendor agrees to deliver an awarded item that will be fully compatible with all of its options. Production schedules and delivery dates should be discussed at the time the quote is provided to the purchaser, or if no quote is provided, when the Purchase Order is delivered to the Vendor. Vendor shall place the order with the Manufacturer within ten (10) business days of receipt of the Purchase Order. The Vendor shall ensure that all orders are placed in full compliance with the specifications and the Terms and Conditions of the Contract and the Purchase Order. Any changes that are required to bring an item into compliance with the various options due to an incorrect order will be accomplished at the Vendor's expense.

The Vendor should supply a confirmation of order to the purchaser and FSA CPP fifteen (15) calendar days from receipt of Purchase Order without request by the purchaser. Any additional information needed to complete this form should be obtained by the Vendor from the purchaser.

While it is recommended that a purchaser purchase from the zone which is closest to their location, it is not mandatory to do so. If the purchaser determines that a Vendor in another zone can better serve their needs, the purchaser may order from a Vendor in another zone. Vendors that provide awarded items outside of an awarded zone may upon mutual agreement between the Vendor and the purchaser charge a delivery fee.

If a Vendor receives a Purchase Order for an item for which they were not awarded, the Vendor must notify the purchaser and return the Purchase Order to the purchaser within three (3) business days.

The Vendor must submit electronic copies of Purchase Orders within fifteen (15) calendar days of the Purchase Order issue date. Purchase Orders should be submitted through the reporting tool provided by FSA CPP. Purchase Orders received by the Vendor after this deadline must be submitted to FSA CPP as soon as possible with the date received by the Vendor and cause for the delay. Purchase Orders should contain the following required information:

- Purchaser name,
- Purchase Order number,
- Purchase Order issue date,
- FSA CPP contract title and number,
- Item number,
- Item make and model, or item description,
- Item price,
- Options by item, and
- Estimated delivery date.

Purchase Orders vary in format and information provided. If a Purchase Order does not include the required information, the Vendor must submit supplemental documentation to FSA CPP at the same time the Purchase Order is due. Such information may be in bid quotes, equipment proposals, confirmation of orders, or other documents. If a purchaser does not use Purchase Orders, written communication from the purchaser to the Vendor will be provided to FSA CPP.

3.17 REGISTRATION, TAG, AND TITLE

Title items shall be the responsibility of the Vendor. If the purchaser is a government agency, the purchaser has the right to choose to register and title the item. Costs of registration, tag and title shall not exceed the statutory rates.

3.18 DELIVERY

Vendors are to inspect the item to confirm the item meets or exceeds the FSA Base Specifications, Manufacturer specification, and Purchase Order. Deliveries not complying with these requirements may be rejected and will have to be redelivered at Vendor's expense.

Delivery shall be within the normal working hours of the purchaser, Monday through Friday, excluding holidays. Delivery schedules shall be agreed to by the purchaser and the Vendor. Vendor shall notify the purchaser no less than twenty-four (24) hours prior to delivery of the time and location, which shall reflect the mutually agreed upon delivery details. The Vendor shall be responsible for delivering items that are properly serviced, clean and in first class operating condition. Items shall be delivered with each of the following documents completed or included:

1. Copy of the Purchase Order.
2. Copy of the FSA Base Specifications.
3. Copy of Manufacturer's invoice, price sheet, build sheet or other documentation that verifies what components are included on the item(s) being delivered
4. Copy of the pre-delivery service report
5. Registration warranty certification
6. Owner's manual
7. Registration, tag and title or an application for the registration, as applicable

All items with fuel tanks of thirty-five (35) gallons or less must contain no less than one quarter (1/4) tank of fuel as indicated by the fuel gauge at the time of delivery. For items that have more than thirty-five (35) gallons, a minimum of one eighth (1/8) of a tank of fuel must be provided. All electric vehicles must be delivered with a minimum charge level of 10 percent. The purchaser has the option to reject a vehicle with more than 350 odometer miles or may deduct $0.51 cents per mile in excess of 350 miles from the invoice, unless distance above 350 miles was previously approved by the purchaser. Deliveries of less than 350 miles may be accomplished by driving the vehicle. Any delivery accomplished by driving the vehicle must be supervised and the driver must comply with Manufacturer's break-in requirements and all applicable traffic laws. Deliveries in excess of 350 miles shall be made by transport, or otherwise approved by the purchaser, however, this requirement shall not apply to incomplete chassis.

When items require service or adjustments upon delivery, the Vendor shall either remedy the defect or be responsible for reimbursing the Manufacturer's local authorized representative or other service provider to remedy the defect. Such service or adjustments shall be initiated by the Vendor within 48 hours after notification by a purchaser, not to include weekends and holidays. Delivery will not be considered complete until all services or adjustments are satisfactory, and the item is redelivered or repaired. The cost of any transportation required to address the defect shall be the responsibility of the Vendor until the items are satisfactory and accepted by the purchaser.

3.19 INSPECTION AND ACCEPTANCE

Final acceptance shall be given only after the purchaser inspects or confirms the item meets Contract specifications. Delivery of an item to a purchaser does not constitute acceptance for the purpose of payment. Inspection and acceptance will be at the purchaser's destination unless otherwise previously agreed upon location was provided in the Purchase Order. Should the delivered items differ in any respect from the FSA Base Specifications, payment can be withheld until such time as the Vendor completes the necessary corrective action.

3.20 INVOICING AND PAYMENTS

Invoicing and payments shall be the responsibility of the Vendor and purchaser placing orders using this Contract. Vendors must invoice each purchaser independently. The Vendor shall be paid upon submission of invoices to the purchaser after satisfactory delivery and acceptance of the items. While the Local Government Prompt Payment Act applies to ensure timely payment of Vendor invoices, the FSA CPP encourages purchasers to make payment within thirty (30) days of acceptance of the item. The Local Government Prompt Payment Act is defined in Sections 218.70–218.79, *Florida Statutes*.

3.23 WARRANTY

All warranties shall begin at the time of delivery and final acceptance by the purchaser. The purchaser's warranty should not be active for incomplete items and items delivered to a third-party supplier before final delivery.

3.24 QUARTERLY REPORTS

Quarterly reports are the contractual responsibility of each Vendor. Quarterly reports must be completed and submitted electronically. The quarterly report template shall be submitted using the tool provided by FSA CPP. Quarterly reports which do not adhere to the required format or are not complete of all Purchase Orders received and/or deliveries made during the quarter will be returned to the Vendor for correction.

Quarterly reports are due no later than the 15th day of the month following the end of the quarter. Quarterly reports shall follow the schedule below for the duration of the Contract. If a Contract extension is executed, the quarterly reports will maintain the same schedule for future reporting periods.

Contract Years: October 1, 2025 – September 30, 2027

Year 1 Quarter 1:	October 1 – December 31	Q1 Report Due:	January 15
Year 1 Quarter 2:	January 1 – March 31	Q2 Report Due:	April 15
Year 1 Quarter 3:	April 1 – June 30	Q3 Report Due:	July 15
Year 1 Quarter 4:	July 1 – September 30	Q4 Report Due:	October 15
Year 2 Quarter 1:	October 1 – December 31	Q1 Report Due:	January 15
Year 2 Quarter 2:	January 1 – March 31	Q2 Report Due:	April 15
Year 2 Quarter 3:	April 1 – June 30	Q3 Report Due:	July 15
