1.1. INTRODUCTION AND PROJECT OVERVIEW

The City of Ocala ("City"), through this Invitation to Negotiate ("ITN"), seeks proposals from interested and qualified for-profit and non-profit developers, builders, partnerships and/or agencies interested in constructing affordable and safe residential units designed to meet City Council's goal of increasing the availability of affordable housing for ownership and rent in Ocala, Florida, and contribute to neighborhood stabilization efforts.

The constructed housing units may be multi-family units or single-family units for rent or homeownership in accordance with the parcel's current zoning designation. The housing type(s) offered must benefit households up to 120% of Area Median Income as defined by the United States Department of Housing and Urban Development.

In order to be eligible for consideration, prospective developers, builders, partnerships and/or agencies must meet the minimum qualifications set forth in this ITN and demonstrate proven experience, financial resources, and professional expertise to develop, market, and rent and/or sell quality, affordably priced, residential units. The City reserves the right to request additional information or require execution of additional documentation as may be reasonably necessary to determine the financing of construction of the developed units.

The City's Selection Committee shall review all proposals, conduct interviews, and recommend one or more proposals to City Council based on the evaluation criteria set forth herein. City Council may accept any proposal that it deems to serve the public interest and reserves the right to reject any or all proposals.

The transfer of title to the property shall not occur until all of the terms of the sale are complete. Language shall be included in the deed document to allow title to revert to the City in the event that construction is not initiated within six (6) months of closing and any deposit or other funds paid by developer shall be forfeited to the City. Construction must be completed and a certificate of occupancy issued for the completed units no later than eighteen months (18 months) from the date of closing. City staff shall schedule and monitor progress meetings to ensure construction is complete in accordance with the Development Agreement.

Proposers are encouraged to communicate any questions regarding this ITN by the deadline set forth for questions herein. All questions should be sent in writing via e-mail to the Buyer Contact identified. Questions and answers will be communicated to all proposers by issuing an addendum posted to www.bidocala.com.

1.2. PURPOSE AND OBJECTIVES OF THE PROJECT

A. PURPOSE

By and through Resolution 2023-40, adopted by City Council on September 19, 2023, the City currently holds an inventory of vacant lots located throughout the city for which it intends to offer for sale to qualified for-profit and non-profit developers, builders, partnerships and/or agencies for the purposes of developing and constructing new affordable housing units.

This ITN is intended to support activities that increase the supply of safe and affordable housing available for rent and ownership within the city limits of Ocala, Florida and reduce the number of vacant and blighted properties on the City's surplus property list.

B. OBJECTIVES

The City's objectives for its affordable housing parcels include the following:

(1) Affordable Housing Costs

The City wishes to promote development of single-family or multi-family housing at rents and/or sales prices (inclusive of insurance, property taxes, and homeowners' association fees, where applicable) that accommodate a range of households and are affordable to income groups ranging from 30% to 120% of Marion County's Area Median Income (AMI).

(2) Long-Term Preservation of Affordable Housing Stock

The City desires to maximize public benefit by using development incentives and subsidies to provide a mix of affordable housing opportunities that are available to citizens of the City of Ocala for the longest affordability period possible. The desired minimum affordability period for both rental and for-sale housing units is twenty (20) years after the date of issuance of a certificate of occupancy for new construction projects in accordance with Section 106-105 of the Code of Ordinances, City of Ocala, Florida.

(3) Property Standards and Integration with the Community

The City desires site plans with housing density and building design that are compatible with the surrounding residential setting, meet all applicable building codes, and integrate the ***Design Guidelines and Minimum Project Specifications*** attached hereto as **EXHIBIT D**.

(4) Development Schedule

The City desires development schedules that are realistic and timed to the availability of off-site infrastructure and which chart a realistic and efficient timeframe to begin construction for the delivery of habitable affordable housing units within eighteen (18) months of closing.

(5) Financial Ability of Developer and Financial Sustainability of Project

The City desires to partner with developers who are able to provide evidence of funding commitment to complete construction (i.e. construction cost estimate and bank funding commitment letter, bank statement and/or grant agreement).

For housing developed to serve as rental units, the City prefers secure financing with debt structure that ensures affordable rental rates and long-term operational sustainability throughout the desired affordability period.

For housing developed for homeownership, the City is looking for profit and loss statements based upon realistic development costs and initial sales prices that are affordable to the citizens of Ocala, and which will be affordable upon resale.

(6) Ad Valorem Tax Revenue

The City desires to attain the highest and best use of the property. The City-owned property is currently vacant, unimproved and non-taxable. Development of the property through this partnership will result in increased ad valorem taxes to be levied against the taxable value of real and personal property.

1.3. MINIMUM QUALIFICATIONS

Responding developers, builders, partnerships and/or agencies shall be required to meet minimum qualifications at the time proposals are submitted. When a development team is comprised of a lead developer and one or more co-developers, minimum qualifications may be satisfied collectively. Proposals must clearly demonstrate that the developer, builder, partnership and/or agency meet the following qualifications:

- A. Have no less than three (3) years of relevant project experience involving the development and construction of housing projects;
- B. Have principally developed and completed no less than three (3) separate housing projects;
- C. Have creditworthiness and a demonstrated capacity to secure financial commitments proposed to complete the development;
- D. Be authorized to do business in the state of Florida and possess all required business and professional licenses;
- E. Be able to comply with the proposed or required performance schedule; and
- F. Have a satisfactory record of contractual performance.

The following information is provided for the purpose of consolidating data relevant to the subject property. Prior to responding to the Solicitation, proposers are responsible for (a) examining the Solicitation thoroughly; (b) visiting the project site to become familiar with local conditions that may affect cost, progress, or performance; (c) studying and carefully correlating proposer's observations with the Solicitation; and (d) notifying the Buyer Contact of all conflicts, errors, or discrepancies found in the Solicitation.

See Parcel Identification Information attached hereto as **EXHIBIT B** for assessed value information. Because this purchase price is nominal, the City may be deemed at closing to have provided Developer with a City incentive in the amount of the fair market value of the property.

- B. **Site Control.** The City of Ocala is fee-title owner of the subject Property. The City intends to provide site control by fee-simple conveyance, subject to final approval by City Council. The Property will be sold to the successful developer pursuant to the terms and conditions of the Development Agreement. The Property will be sold on an “as-is” basis.

To determine the eligibility of fee incentives, Proposers should consult Section 106-105, Code of Ordinances for the City of Ocala, Florida.

- G. **Occupancy Timeline.** Developer shall ensure rental and/or homeownership units are rented and/or sold to end users within eighteen (18) months of receipt of certificate of occupancy.
- H. **Accessibility.** Proposers are required to design a project that is pedestrian friendly and accessible to persons with disabilities in compliance with the Americans with Disabilities Act (ADA).

The Developer seeking to acquire surplus land for the development of affordable housing should be prepared to commit to ensuring the process of income verification will occur according to program requirements. In order to leverage local funds and to maximize the development of affordable housing, qualified homebuyers may be awarded home purchase assistance from local affordable housing programs. Homebuyers may be required to attend a homebuyer education class with an approved housing counseling agency.
