FSA Contract # FSA20-EQU18.0

We respectfully submit this quotation for the following NEW Toyota Internal Combustion Lift Truck (1 each):

TOYOTA MODEL 50-8FG80U, Internal Combustion Lift Truck, quality engineered with the following specification:

- Pneumatic Tires
- LP Gas Powered - UL Type "LP" Rating

SYSTEM OF ACTIVE STABILITY™ (SAS)

Toyota's industry exclusive System of Active Stability (SAS) helps reduce lift truck instability by electronically monitoring and controlling various functions of the lift truck.

- **Active Mast Function Controller (AMC):** Should the operator inadvertently place the lift truck in a potentially unstable longitudinal condition, these same sensors trigger the SAS controller to activate the AMC, which limits forward tilt and/or tilt back speed to help reduce the likelihood of a longitudinal tip over.

2-SPEED AUTOMATIC (POWERSHIFT) TRANSMISSION

A standard 2-speed automatic transmission with 2 forward and 2 reverse gears provides superior torque, gradeability and acceleration to get the job done. Designed by Toyota engineers, this electronically controlled transmission passed 120 testing parameters to ensure it can meet the rigorous demands of your application. A standard 1st gear lock switch on the left-hand side of the steering column also allows the operator to lock the transmission in 1st gear when needed.

AUTOMATIC FORK LEVELING

Toyota's Automatic Fork Leveling feature increases productivity while reducing damage with a push of a button. By depressing the Automatic Fork Leveling button during forward tilt, operators are quickly and easily able to level the forks.

FULL FLOATING PLANETARY DRIVE AXLE

Your Toyota lift truck is outfitted with a rugged planetary drive axle. This planetary drive axle decreases the torsional stresses commonly experienced with power shifting, resulting in greater durability, reliability, which results in increased uptime.

WET DISC BRAKES

Force-cooled wet disc brakes are virtually maintenance free to help eliminate downtime and repair costs.

PREMIUM, 4-WAY ADJUSTABLE, FULL SUSPENSION SEAT WITH NON-CINCHING SEAT BELT

Operator comfort is taken to a new level with Toyota's Premium, 4-way adjustable, full suspension vinyl seat. With

lumbar, weight, tilt, and almost 6 inches of fore/aft adjustability, your operators will be comfortable and productive throughout their shift. Standard non-cinching seat belt provides additional comfort in applications requiring frequent reverse travel.

LCD MULTI-FUNCTION DISPLAY II

Features on the new MFD II include data log functions, fuel information, & operation data log all with QR code output; fuel gauge (excluding LP); and password protected administrator level access that can manipulate functions such as travel, vehicle management, and operation data log functions.

Mast 2-Stage (V) mast with limited free lift provides excellent visibility to load and fork tips, while providing smooth, quiet and consistent operation. Mast specifications:
 Maximum Fork Height - **180"**
 Overall Lowered Height - 140.2" (Overhead Guard Height - 90.90")
