BACKGROUND:

AdventHealth Ocala, in partnership with the City of Ocala, by and through its Ocala Fire Rescue, will be providing a community paramedicine program. This program will help physicians monitor the health of vulnerable patients to produce better outcomes and reduce the number of ambulance transports, visits to the emergency department, and hospital readmissions.

Key Program Aspects:

- Ocala Fire Rescue (OFR) will staff one community paramedic, Monday through Friday from 8 am to 5 pm for the post-discharge re-admission program.
- OFR will provide post-discharge care by having the community paramedic visit the patients at home after discharge to monitor the patient's condition, answer health questions, and provide coaching on home care and healthcare equipment use and maintenance, and ensure patients have access to medications prescribed to them.
- There will be a maximum of twenty (20) patients at any given time in the program.
- Each patient that participates in the Program will remain in the Program for at least thirty (30) days which may be extended up to ninety (90) days as needed.
- OFR will provide medical oversight for the Program through its Medical Director as it relates to the community paramedic.
- The term of the Program will be September 1, 2021 through August 31, 2022, and may be renewed by mutual written consent.

The Community Foundation for Ocala/Marion County will provide a grant to the City to fund approximately 80% of the cost of the community paramedicine program.
