Department: Water & Sewer

STAFF RECOMMENDATION (Motion Ready):

Approve two-year contract for liquid sodium hypochlorite with Odyssey Manufacturing Company with an estimated aggregate expenditure of \$1,190,000

..end

OCALA'S RELEVANT STRATEGIC GOALS:

Operational Excellence

PROOF OF PUBLICATION:

Bid Released to Public: 6/20/23

BACKGROUND:

Liquid sodium hypochlorite (bleach) is used to disinfect drinking water, wastewater, and reclaimed water. This product is necessary to meet Florida Department of Environmental Protection and St. John's River Water Management District permit requirements and is used by Water Treatment Plant #1, Water Reclamation Facility #2, and Water Reclamation Facility #3.

On July 7, 2023, the City's Invitation to Bid ("ITB") No.: WRS/230584 closed with three vendors submitting proposals: (1) Odyssey Manufacturing Company; (2) Allied Universal Corporation; and (3) Brenntag Mid-South, Inc. Odyssey Manufacturing Company was found to be the lowest responsive and responsible bidder at \$1.75 per gallon.

FINDINGS AND CONCLUSIONS:

The Water Resources Department estimates a total annual usage of approximately 340,000 gallons: 90,000 gallons at WTP #1; 150,000 gallons at WRF #2; and 100,000 gallons at WRF #3.

Staff recommends approval of a two-year contract with Odyssey Manufacturing Company for the term starting October 1, 2023 and ending September 30, 2025. This contract has two optional one-year renewals.

FISCAL IMPACT:

Funding for this contract is budgeted in Fiscal Year 2023-24 in the following account strings:

- WTP #1: 455-030-301-533-53-52010 \$157,500
- WRF #2: 455-030-305-535-53-52010 \$262,500
- WRF #3: 455-030-308-535-53-52010 \$175,000

PROCUREMENT REVIEW:

These goods and services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:

This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.
