Dear Valued Cogent Customer,

Cogent has been providing you for many years with IPv4 address allocation services. During this time, IPv4 addresses have become increasingly scarce, and customer requirements have become more elaborate. As a result, market prices for IPv4 address allocations have raised significantly, while your price for your Cogent IPv4 services has remained the same.

To adapt to these market dynamics, Cogent will, as of January 1, 2025, increase the Monthly Recurring Charges (MRC) for your IPv4 services as listed below, to the level of Cogent's current IPv4 pricing.

| Order | Current MRC | New MRC |
|-------------|----------------|----------------|
| 3-001334191 | 2,129.92 (USD) | 3,600.00 (USD) |

These MRC changes will be reflected on our January 2025 invoice. Please note that any of your Cogent IPv4 services **not listed above are not affected by these changes.**

Should you have any question regarding your invoice in general, or these rate changes in particular, please reach out to the Cogent Billing Department, either by phone at 1-877-7-Cogent (1-877-726-4368) option 1, or by email at billing@cogentco.com.

Thank you again for your business and for having chosen Cogent as your service provider. Please note, Sprint Wireline is now part of Cogent.

Sincerely,

Cogent Billing
