DEFINITIONS

1. Trash: Trash is defined as anything loose and useless (examples but not limited to) bottles, cans, paper, plastic bags, plastic bottles, plastic food wrappers and Styrofoam cups and plates.
2. Debris: Debris is defined as objects lying on the ground in an area to be mowed that are mostly organic (examples but not limited to) tree limbs less than six inches (6") in diameter and smaller than six feet (6') in length, tree branches, twigs, hedge clippings and sapling trimmings. One (1) or two (2) broken concrete blocks would qualify as debris but an abundance of blocks would be the City's responsibility to move. If the Contractor finds large items such as old tires, concrete blocks, old chairs or sofas, dead car batteries, etc., on a site to be mowed please call the City contact to report the findings and the City will remove and properly dispose of the debris. Otherwise, it is the Contractor's responsibility to remove and properly dispose of debris before mowing.

MOWING

1. Mowing and all related services at a park or parcel should be started and completed on the same day (weather permitting). For larger parcels, the Contractor should attempt to complete all work in one area and then move the operation to the next area of that parcel. The intent is that a parcel will not be left for days with the parcel mowed, but with high grass still standing around benches, bleachers, etc. waiting on follow up trimming and weed eating.
2. Mow at a height of two inches (2") for Bahia grass, four inches (4") inches for St. Augustine grass, and three inches (3") for Zoysia grass. Mow Anderson Park at three inches (3").
3. Mow all grassed areas in accordance with the frequency indicated on the price page proposal. Specific mowing dates and days will be set by the City. Contractor must follow City noise ordinance when planning mowing times.
4. The City does not include an allowance for delays caused by inclement weather; however, the City will grant time extensions, on a day-to-day basis for delays caused by the effects of rain or other inclement weather conditions. No additional compensation will be made for delays caused by the inclement weather.
5. Proper equipment must be used to mow mounds in the parks and parcels sites to prevent scalping, rutting, or cutting off tops of slopes with mowing equipment, causing soil erosion. Size of equipment needs to match the size of the area to be mowed. Note – This may require the use of hand equipment (push mowers, weed eaters, etc.) in limited areas.
6. All equipment must be properly maintained mechanically. The blades must be sharpened so that the grass is cut and not torn, causing damage to the grass plants. Tires must be equally inflated to avoid uneven cuts, etc. The Contractor is responsible for operating equipment at speeds that result in proper cuts.
7. Contractor must pick up and remove trash and debris in and around the area to be mowed to include fence lines before mowing and properly dispose of it so it is not chopped up by mower. The Contractor is responsible for a clean area (free of trash and debris) with neat appearance, even cut and no clumps

Exhibit A – SCOPE OF WORK**CONTRACT# REC/230068**

of grass to remain in the mowed areas. If the cuttings leave a thick blanket like cover over the existing cut area the operator must repeat the cycle to scatter the grass cuttings. All mowed areas will be inspected by the City's contract monitoring group. Debris must be removed from the site; not thrown under trees.

8. The Contractor will be responsible for all damages incurred to any water sprinkler systems, fences, shrubs, trees, value boxes, etc., while performing the grounds maintenance. Leaning signs and bollards leaning due to contact with equipment will need to be straighten up. Any ground sprinklers damaged are to be repaired immediately to comply with water conservation regulations. All damages are to be reported to the User City where final disposition will be made as to replace and/or repair.
9. Backflow assemblies are located in various areas throughout the City. In the event a backflow assembly unit is damaged or destroyed by the Contractor, the Contractor shall be liable for all damages and shall be responsible for any costs associated with the repair or replacement of the unit(s). The Contractor's employees shall at all times have a wrench in their possession to shut off the water should damage occur. Report any damage within 15 minutes to Jeff Kerley, (352) 368-5527. In the event that Jeff Kerley cannot be reached, please call Parks Operations (352) 368-5550 or the Park Ranger on-call number (352) 789-1133.
10. Water meter damage should be reported to the Water Resources Department (352) 351-6772. Repairs must be made within 48 hours of damage occurrence, with the exception of utility related repairs, which must be completed as soon as possible.
11. No air blowers shall be used to blow grass debris into roadway. Grass clippings shall be blown away from roadways, but not into retention ponds. All cuttings must be kept off/removed from the streets, sidewalks, pavilions, restrooms trails, landscape beds and public art.
12. When mowing, grass is to be directed away from pools, ponds, retention areas, fences, athletic fields, landscape beds, gardens, plaza's, splash pads, playgrounds, artwork, picnic areas, fence lines and other park amenities. In insidences where mowing occurs around the above-mentioned areas, a rear discharge mower must be used. All cuttings must be kept off/removed from these areas and amenities. If cuttings do manage to get into these areas, Contractor shall be responsible for blowing those areas off, and/or costs to remediate the situation (i.e. cleaning out a pool).

TRIMMING AND WEED CONTROL

1. The use of chemicals in place of weed eating around parks amenities and support facilities is NOT permitted. Glyphosate and other non-selective herbicides and similar chemicals with application rates per the manufacturer's recommendations are only permitted to be used to spray fence lines and cracks in sidewalks and other paved surfaces or to kill or retard the growth directly under trees as specified herein and shall not be used for any other purpose unless written consent is provided by the City. All plans for use of herbicides must be approved in writing by the City Project Manager before herbicides are applied.
2. When using chemicals to treat fence lines, special care shall be used so chemicals are not sprayed onto adjacent private property and use a cone on the sprayer to prevent overspray. Care should be taken to not over spray onto adjacent turf. A three inch (3") swath is to be sprayed on either side of the fence to maintain grass and weed control providing the adjacent side of the fence is not private property. If

Exhibit A – SCOPE OF WORK**CONTRACT# REC/230068**

the adjacent side is private property only a three inch (3") swath shall be sprayed on the City property. Once the vegetation has been trimmed down to ground level with a weed eater or similar device and the remaining vegetation removed from the fence, the area should be treated with chemicals. Trimming and chemical treating of said vegetation shall be done on the same day the mowing is done. Over spraying resulting in damage of grass will require exact replacement of sod at Contractor's expense.

3. A one foot (1') diameter area from the base of trees shall be maintained when trimming around trees. Chemically kill or restrict the growth directly under trees using Glyphosate and other non-selective herbicides or other suitable and equally effective herbicide. When chemically trimming around trees, special care is to be given to avoid spraying the suckers growing from the ground around the tree; this may damage or kill the tree. Removal of the bark by weed eater or other equipment that is greater than 25% of the diameter of the tree will result in the tree being replaced at the expense of the Contractor. This is common around Crape Myrtles and not normally found around Oaks and other common hard wood trees.
4. Sidewalks, courts (basketball, racquetball, tennis), parking lots, curbs and hard surface trails (asphalt/concrete) are to be mechanically edged (NOT chemically edged) and where there are cracks in the sidewalks, trails and curbs with grass and weeds growing through the cracks the vegetation shall be sprayed with an approved herbicide and after the vegetation is dead it is to be removed with a weed-eater or similar string device and remove debris as work is being done. Walking trails need to be edged once monthly, one the first mowing date of each month.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. The Contractor shall provide an assigned Project Manager, who will be the primary point of contact. Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
3. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
4. The employees of the Contractor must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in as good appearance as the job conditions permit.
5. Contractor will operate as an independent Contractor and not as an agent, representative, partner or employee of the City of Ocala, and shall control their operations at the work site, and be solely responsible for the acts or omissions of their employees.
6. No smoking is allowed on City property or projects.
7. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
8. All company trucks must have a visible company name/logo on the outside of the vehicle.

MISCELLANEOUS

2. At least one crewmember must communicate fluently in English.
3. A supervisor or crew leader must be on-site to certify that all work has been completed according to the specifications of the contract. While the City will certainly monitor the Contractor's work for compliance with the contract specifications, it is **not** the City's responsibility to supervise or monitor the work of crews performing the work. If the City has to frequently contact the Contractor about issues, it is indicative of improper supervision by the Contractor, and the City may terminate the contract for cause.
4. Properties having gates: Any gates needing repair for failure to close, open, or lock must be reported to the department* responsible for that area. All gates must be closed and locked when finished mowing. *If Contractor is unsure of which City department is responsible for the gate in question, please notify the City Parks Operations Division Head.
5. All Contractor's employees are to wear shirts or have a badge which identifies their company, and all trucks belonging to the Contractor must bear the company's name. Shirts must be worn at all times while working on City property.
6. When working near roadways or within roadway medians, the Contractor shall wear an FDOT approved vest; and FDOT approved safety cones and FDOT approved "Men Working Signs" shall be placed appropriately in front of and behind their truck. The Contractor is responsible for fully understanding these requirements and costs related to compliance shall be included in Contractor's price proposal.
7. Contractor will submit a weekly report to the City Project Manager. The weekly report shall list the properties mowed, and identify any problems or issues at any of the sites as well as the Contractor's recommendations to resolve the issue or problem.
8. Contractor will suggest a schedule for what day each park is going to be mowed during the week and shall provide that schedule to the City Project Manager for approval. The City reserves the right to designate the scheduled mowing day for any particular property as needed to accommodate City programming schedules and will discuss same with Contractor when establishing the schedule
9. All properties will be mowed in a one week period (one cycle). During March to May when the properties are mowed every other week, the properties shall all still be mowed in one week (and not split up between the two weeks).
10. To allow for bad weather or other unforeseen issues, certain properties may be mowed on Saturday. This extra day is not intended to be used every week, but only in the above mentioned circumstances.
11. If a property is not mowed within the one week period (Monday thru Saturday), then the property will not be mowed until the next mowing cycle and regularly scheduled day. The properties that are not mowed during that cycle will not be billed or paid by the City. It will be the City's responsibility to

Exhibit A – SCOPE OF WORK**CONTRACT# REC/230068**

determine if the properties missed during that cycle will need to be mowed before the next cycle. If so, the City will mow them.

12. The properties should be mowed according to the schedule to avoid having more than seven (7) days between mowing during the weekly mowing schedule.
13. If the Contractor is regularly not able to complete the scheduled mowing cycle as outlined above, the City will interpret this to mean that the Contractor does not have the resources to successfully execute this contract and may terminate the contract for cause.
14. A batwing mower can be used at Lillian Bryant and Ocala Regional Sportsplex to assist in getting the parks mowed in the allotted time. The Contractor may store this piece of equipment at WRF #3 under the following conditions:
 - A. The City will not provide a covered storage area.
 - B. The City will not be responsible for any damage to the equipment while it is stored on City property.
 - C. The equipment will only be accessible at WRF #3 from 8am to 5pm during the week.
 - D. All other specifications must be complied with.

 - B. Provide access to drawings, specifications, schedules, reports, and other information prepared by/for the City of Ocala pertinent to the Contractor's responsibilities.
 - C. Provide office facilities for the Contractor, if needed.
2. The City reserves the right to purchase any materials for the Contractor to use. The Contractor shall not charge a mark-up fee for material furnished by the City.

Exhibit A – SCOPE OF WORK**CONTRACT# REC/230068**
