Project Services	1	\$5,174.40
Freight	1	\$4,976.00
Grand Total	7	\$42,503.99

The following provisions apply to this quote and shall only be incorporated into any resulting award/order to the extent the quoted items include products impacted by global supply chain constraints (including, but not limited to, DRAM-related components or other OEM-identified constrained materials):

As acknowledged by the NASA SEWP Program Office and the GSA, there is a global shortage of DRAM that is impacting price, availability, and lead times upon certain products containing the constrained memory. Accordingly, Seller's pricing is based upon current market conditions, including ongoing global supply chain constraints, limited material availability, and volatile input costs, as passed on to Seller by the impacted original equipment manufacturers and their distributors. As a result, all quotations are subject to change without notice.

Unless otherwise expressly stated in writing, Seller's quotation is valid for the period noted on the top portion of this quote, ("Validity Period"). After expiration of the Validity Period, pricing and availability must be reconfirmed by Seller.

Notwithstanding the foregoing, all quoted prices are expressly contingent upon (i) the original equipment manufacturer(s) ("OEM") and/or supplier honoring the pricing and terms upon which the quotation is based, and (ii) such OEMs and/or suppliers being willing and able to accept and fulfill the order at the agreed upon price at the time of Buyer's purchase order and upon shipment. In the event of any increase in cost, withdrawal of supply, allocation, delay, or refusal by the OEM or upstream suppliers, Seller reserves the right, upon written notice to Buyer, to adjust pricing, revise delivery schedules, or cancel the quotation or any unfulfilled portion of an order without liability.

In the event of an increase in price by the Seller, Seller acknowledges that the Buyer shall have the right to modify or cancel for convenience all or a portion of the impacted order.

Buyer acknowledges and agrees that Seller shall not be responsible for price increases, delays, or nonperformance caused by supply chain disruptions, force majeure events, or actions of OEMs or upstream suppliers beyond Seller's reasonable control.
