 - Unless otherwise stated, all contracts are for a period of three (3) years with an option to renew for up to two (2) additional one-year terms or any combination of time equally not more than 2 years if agreed to by Region 14 ESC and the vendor.

 - Any/all contracts exceeding one (1) year shall include a standard “funding out” clause. A contract for the acquisition, including lease, of real or personal property is a commitment of the entity’s current revenue only, provided the contract contains either or both of the following provisions:

 - Since this is a national contract, knowing the tax laws in each state is the sole responsibility of the vendor.

- ◆ Adding authorized distributors/dealers

 - Purchase orders and payment can only be made to awarded vendor or distributors/business partners/resellers previously approved by NCPA.
 - Pricing provided to members by added distributors or dealers must also be less than or equal to the pricing offered by the awarded contract holder.

- ◆ Permits
 - Since this is a national contract, knowing the permit laws in each state is the sole responsibility of the vendor.
- ◆ Indemnity
 - The awarded vendor shall protect, indemnify, and hold harmless Region 14 ESC and its participants, administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the vendor, vendor employees or vendor subcontractors in the preparation of the solicitation and the later execution of the contract.
- ◆ Franchise Tax
 - The respondent hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes.
- ◆ Supplemental Agreements
 - The entity participating in this contract and awarded vendor may enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in this contract i.e. invoice requirements, ordering requirements, specialized delivery, etc. Any supplemental agreement developed as a result of this contract is exclusively between the participating entity and awarded vendor.

◆ Certificates of Insurance

- Certificates of insurance shall be delivered to the Public Agency prior to commencement of work. The insurance company shall be licensed in the applicable state in which work is being conducted. The awarded vendor shall give the participating entity a minimum of ten (10) days notice prior to any modifications or cancellation of policies. ◆ Legal Obligations

- It is the Respondent's responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services identified in this RFP and any awarded contract and shall comply with all while fulfilling the RFP. Applicable laws and regulation must be followed even if not specifically identified herein.

◆ Protest

- A protest of an award or proposed award must be filed in writing within ten (10) days from the date of the official award notification and must be received by 5:00 pm CST. Protests shall be filed with Region 14 ESC and shall include the following:
 - Name, address and telephone number of protester
 - Original signature of protester or its representative
 - Identification of the solicitation by RFP number
 - Detailed statement of legal and factual grounds including copies of relevant documents and the form of relief requested
- Any protest review and action shall be considered final with no further formalities being considered.

◆ Force Majeure

- If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer

period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

- The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders and regulation of any kind of government of the United States or any civil or military authority; insurrections; riots; epidemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty

◆ Prevailing Wage

- It shall be the responsibility of the Vendor to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the purchaser. It shall further be the responsibility of the Vendor to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of this contract and adjust wage rates accordingly.

◆ Termination

- Either party may cancel this contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.

◆ Open Records Policy

- Because Region 14 ESC is a governmental entity responses submitted are subject to release as public information after contracts are executed. If a vendor believes that its response, or parts of its response, may be exempted from disclosure, the vendor must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, the respondent must specify which exception(s) are applicable and provide detailed reasons to substantiate the exception(s).

- The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 14 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the respondent are not acceptable. Region 14 ESC must comply with the opinions of the OAG. Region14 ESC assumes no responsibility for asserting legal arguments on behalf of any vendor. Respondent are advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

◆ **Define your standard terms of payment.**

immixGroup payment terms are net 30 days after receipt of invoice.

◆ **Who is your competition in the marketplace?**

immixGroup competitors are other Value-Added Distributors in the public sector market, including Carahsoft, TD Synnex, Avnet, and Ingram Micro.

♦ **What differentiates your company from competitors?**

After two decades in the public sector market, immixGroup is a well-known and highly regarded industry veteran with a comprehensive, customizable array of offerings designed and proven to enable government procurement professionals to gain access to and more easily transact with technology providers. immixGroup built, and continues to build, its track record of success by leveraging core competencies: SLED Support Center, Government and Technology Knowledge, Strategic Supplier Relationships, Depth and Breadth, and Automation. These core competencies have driven our success on contracts we currently hold and will enable us to deliver value for Region 14 ESC/NCPA and its customer base. Each competency is described below.

SLED Support Center

immixGroup with its parent company, Arrow Electronics, have established the SLED Support Center, as shown in **Figure 1** below, to provide direct support to channel partners and suppliers to better meet the demands of SLED customers. The SSC provides support in two ways: (1) Value added services to drive opportunities in the SLED marketplace and (2) deal support through flexible financing options, partner utilization, and contract support. The SSC utilizes personnel both in the field and from within our offices in McLean, VA. With our engineering and integration resources, we are able to build custom solutions (hardware and software) specific to the end-user needs. This integration capability allows us to provide scalable deployment of predetermined configurations to multiple end-user centers.

Figure 1: SLED Support Center (SSC)

Sales – Dedicated, in-territory sales experts who can assist in understanding the market, end-user requirements and how to ensure a smooth order and delivery process.

SLED Compliance – Legal and compliance professionals who are familiar with the requirements of doing business with this market and can provide assistance in negotiating terms and conditions on behalf of our suppliers and partners.

Contracts – We manage and are constantly expanding our broad portfolio of SLED contracts to provide more opportunities for our suppliers and partners to access this marketplace.

Partners – We work with nearly 1,000+ active SLED partners who we help match up with our suppliers and negotiate arrangements that are mutually beneficial to all parties.

Marketing – Our broad portfolio of marketing services enables suppliers and partners to reach their target markets more effectively, through events, webinars, social media outreach and digital marketing.

Market Intelligence – Skilled analysts do ongoing research to understand what drives end-user IT decisions which is shared with partners and suppliers so they can target their efforts more efficiently.

Engineering – Access to our labs for custom configuration and testing as well as deployment and implementation assistance limits risk to end-users.

Revenue Management – Flexible financing options allow partners and suppliers to meet the unique purchasing requirements of government.

Government & Technology Industry Knowledge

immixGroup is a thought leader in the federal and state/local level technology markets and brings a unique perspective to industry discussions as a distributor of complex, enterprise level IT products. Our executives frequently participate on industry panels, train managers from leading technology companies, and write articles on the issues affecting the public sector IT landscape. These include technology and acquisition trends, the impacts of budget tightening on public sector agencies and contractors, and new delivery and licensing models (such as XaaS and cloud-based utility license models). Our internal team of market intelligence consultants and analysts researches the public sector's business and technology requirements to identify likely fits between the public sector's needs and the COTS products we represent. We analyze this information, align it with product and procurement trends, and systematically share it with our public sector customers and manufacturers. This facilitates a productive dialogue between buyers and sellers and ensures products are acquired with future needs in mind.

This unique perspective has resulted in direct relationships between immixGroup and hundreds of leading and emerging technology manufacturers - the critical vendors that can meet the requirements of NCPA's customers and deliver the flexibility, functionality, and performance the public sector needs for the future. Our thought leadership is a foundational competency that serves as a key differentiator in helping cash-strapped customers with complex requirements secure the necessary technologies under new usage and licensing models. We expect a continued need for this expertise in the future and see the NCPA program as a key contract vehicle for accessing such technologies and solutions for state and local government customers.

Strategic Supplier Relationships

immixGroup sees significant value in securing direct relationships with its manufacturer partners instead of working through third-party distributors for product access. While immixGroup has access to more than 300 different IT manufacturers (around 100 of which offer top cybersecurity products and services), it is our direct relationships with key vendors that bring a heightened level of manufacturer access and the accompanying capability to support NCPA's purpose and drive value to its customer base. As the owner of the intellectual property involved, the manufacturer is uniquely positioned to drive product roadmaps in sync with ever-evolving commercial standards in the industry. By working directly with the manufacturer, immixGroup establishes an accurate and timely flow of information to communicate details on product descriptions, functionality, warranties and support, and other key characteristics such as energy savings and accessibility. We gather and maintain this information through our ISO-certified business processes and share it with our public sector customers as they plan and execute their mission-critical procurements. These direct relationships also ensure traceability throughout the supply chain and guarantee authenticity and remediation in the event counterfeit or damaged products are discovered. immixGroup has taken a leading role in developing a program to meet the public sector's emerging standards in this area.

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal or quotation.

The manufacturer-provided intelligence also includes product install-base details and historical sales across both products and customers; immixGroup leverages this data to identify opportunities to work with customers to deliver strategic sourcing opportunities. This may involve consolidation of purchases to achieve greater discounts from manufacturers, co-terming warranty and support to reduce multiple procurement cycles and provide enhanced support to all users (usually at no additional cost), and product upgrades to ensure enterprise systems are interoperable and current.

Depth & Breadth

immixGroup presently has active distribution and reseller agreements with large, established manufacturers, as well as many smaller and emerging manufacturers and service providers. We prioritize direct, authorized, and strategic relationships with these technology partners, allowing us to offer our customers a remarkable range of technical capabilities and customizable solutions spanning a full range of IT products and services. Our direct manufacturer relationships are led by manufacturer-focused account management teams assigned by technology groups. Dedicated teams support our largest manufacturers such as NetApp, Palo Alto, Riverbed, and Fortinet. Other Sectors focus on best-of-breed technology portfolios including, Business Operations, Data Intelligence, Compute, Virtualization, Networking, Storage, DevOps, and Security.

We leverage our market intelligence analysts, executives, and account management teams to identify new technologies and work diligently to secure their products within our product portfolio offerings. Our success now leads to many new manufactures proactively seeking relationships with immixGroup, often as complimentary products to those offered by existing manufacturers, as well as to position new technologies within the market. Over the past five years we have averaged approximately 30 new supplier relationships per year.

Automation

immixGroup leverages automation to deliver efficiency and high standards of customer service while maintaining quality and lowering transaction costs. Automation is at the heart of every immixGroup ISO-certified process, including price list updates, technology refreshes, quoting, order processing, tracking, invoicing, customer satisfaction, and payment.

Our e-Commerce Strategy is built around two principles. First, we electronically transmit the business documents that support the procurement and fulfillment process (such as quotes, purchase orders, and invoices) between immixGroup and our manufacturer partners. This is our proven, scalable business-to-business (B2B) operation. Second, we provide product information (such as technology specifications, pricing, shipment information, order status, and open invoices) in near real-time through immixGroup's Web portal. Our Web portal architecture allows us to rapidly set up and customize a portal to provide the needed documentation to authorized portal visitors.

immixGroup's core competencies, as well as our successful track record and deep experience with public sector contracts, align well with NCPA. We strongly believe a contract award to immixGroup will drive achievement of the objectives set forth in this RFP, and we look forward to establishing a mutually beneficial relationship.

◆ **Describe how your company will market this contract if awarded.**

We understand that the ultimate success of this contract for both immixGroup and NCPA will heavily depend on marketing efforts; immixGroup has a large and experienced marketing department which will actively market the NCPA contract directly to customers, Suppliers, and Partners with a rollout of these activities:

immixGroup's process emphasizes marketing information through the channel – our partners are the ones speaking daily with the customer community and we amplify our market presence by supporting their efforts. We will provide marketing kits to partners to help them promote the contract vehicle with specific messaging approved by NCPA; the kits will include sample tweets, a contract FAQ, customer talking points, a link to the contract website, and a press release for the partner to publish. We will begin implementing these activities within 90 days of award and continue to execute these marketing plans throughout the life of the contract to maintain a high level of awareness within the industry.

◆ **Describe how you intend to introduce NCPA to your company.**

In addition to our marketing activities, immixGroup's implementation plan includes action items across multiple business units designed to boost engagement and speed up the ramp-to-revenue timetable.

Continuous learning is a highly valued practice at immixGroup and upon award, the immixGroup Contracts/Programs team will develop a curriculum to educate the salesforce, including authorized partners, on how to market the new contract. This course will serve to raise awareness of the NCPA contract, instruct reps in how to drive revenue through the vehicle, and ensure compliance on all orders received under the contract.

◆ Describe your firm's capabilities and functionality of your on-line catalog / ordering website.

immixGroup will create a dedicated page on our public website providing NCPA members access to key contract details:

- Supplier(s) supported on contract
- Real-time pricing access
- Key contacts and ordering instructions
- Authorized participating dealers

immixGroup will handle all NCPA orders through mail, phone, facsimile, EDI, XML, or email communication.

immixGroup, while a distributor, does not warehouse products. Rather, immixGroup relies on the manufacturer or another manufacturer's authorized source of supply, for stocking and drop shipping products directly to the customer. Fill rate, service level and out of stock metrics reside with the manufacturer and/or source of supply.

♦ **Describe your company's Customer Service Department (hours of operation, number of service centers, etc.)**

immixGroup's commitment to customer satisfaction is demonstrated throughout its core business processes, from order processing and tracking to invoicing and beyond; all customers who have product delivered to them through immixGroup are tracked in our ISO-certified Quality Management System. immixGroup maintains several work instructions and policies surrounding ensuring customer service and customer satisfaction. On a monthly basis we measure our efforts regarding follow up with customers to ensure receipt of product, ensure satisfaction with order process, and to offer assistance where appropriate. In all cases our metrics are on target and better than industry standards.

immixGroup is committed to providing customers the following support services free of charge:

- Timely and accurate quarterly sales reports, based on current offerings and prices
- Timely dispatch of up-to-date hard and soft copy ordering guides
- Commercially available technical specifications, either on-line or in hard copy form, for any product available on our contracts, per a customer's request
- Configuration analysis to determine the suitability, correctness and availability of our offerings to the customer's requirement

Further, immixGroup account teams provide acknowledgement within four (4) business hours of receipt of a quote request or purchase order; validated purchase orders are generally processed within 24 hours. Order receipt methods include mail, phone, and electronic means such as facsimile, e-mail, or other internet-based communications. Order status reports are available on-demand by contacting your account manager.

The standard hours of operation for our customer service department are 8:30-5:30 EST, Monday through Friday. However, it has been our experience that the processing of orders and the need for customer and technical service spikes throughout the course of the year, reflecting various fiscal year ends. As such, we use a cross-trained workforce to adapt to high-volume workloads and provide extended coverage when needed to ensure that resources are available to customers as-needed during non-work hours, especially during End of Month (EOM) and End of Quarter (EOQ).

♦ **Green Initiatives (if applicable)**

- **As our business grows, we want to make sure we minimize our impact on the Earth's climate. We are taking every step we can to implement innovative and responsible environmental practices throughout NCPA to reduce our carbon footprint, reduce waste, conserve energy, ensure efficient computing, and much more. To that effort we ask respondents to provide their companies environmental policy and/or green initiative.**

immixGroup adheres to the green initiatives established by its parent company, Arrow Electronics, Inc., in their efforts to bring environmental sustainability to technology and electronics. The Arrow Environmental Policy, part of our umbrella Corporate Social Responsibility program, is focused on using technology to prevent environmental damage and allow us to live more sustainably. Examples of this policy in action include work with the Denver Zoo to sponsor recycling of technology products and the sponsorship of DigiTruck, a mobile classroom that can operate off-grid in remote areas. Further, immixGroup offices are located in a LEED green certified office building. For a full accounting of the

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.
