**Describe, by list, specific changes you are requesting to do to your property. Include the types of materials to be used, as well as dimensions. A site plan must be provided for additions to buildings, new construction (including garages, sheds, other accessory buildings), fences and site work (including driveways, parking areas and other improvements). The site plan must show setbacks of the proposed new work items from property lines. Attach additional pages as necessary.**

We are looking to add a detached garage in the rear of the property.  
 This would replace the small shed/ covered storage area in the same location.  
 Photos attached show proposed location for placement as well as building we would like to replace.

**Required additional materials for submission:**

- Completed and signed COA application
- Detailed drawings and specifications for all new materials – windows, doors, siding, roofing materials, fencing etc.
- Site plan
- Copy of property deed or proof of ownership
- Authorization letter for non-property owner representative\*
- For New Construction: a set of building plans, no larger than 11 x 17, for structural changes or new construction. This includes all four elevations with drawn to scale dimensions. \*  Please list any additional attachments:
