5. **COVENANTS OF CITY.** The City covenants and agrees:

- 5.1 To accept and perpetually maintain the Public Improvements within the boundaries of the Subdivision upon the acceptance of the Improvements and after the completion of the one (1) year maintenance period.
- 5.2 That, if the provisions of Sections 6.1, 6.2 and 6.3 below are not applicable, upon completion of the Improvements, and upon approval of the Subdivision by the City Council, all of which must be in accordance with the provisions of this Agreement, it will permit connections to the City's water and sewer systems with respect to the Lots in the Subdivision.
- 5.3 That, if the provisions of Sections 6.1, 6.2 and 6.3 below are applicable, it will issue building permits for the vertical construction of residences on Lots located in the Subdivision, and will make all customary building inspections during the construction thereof, but the City will be authorized to withhold the issuance of certificates of occupancy for building structures constructed on Lots until (i) all supporting improvements for the Lots have been constructed and approved by the City; and (ii) the final Plat has been recorded.

6. **RECORDING PLAT.** The City will allow the immediate recording of the Plat of the Subdivision, and the conveyance of Lots in the Subdivision (or portions thereof). If the Developer complies with the following provisions of this Section. If the Developer elects not to provide a Letter of Credit or other acceptable surety to the City to guarantee the construction of the Improvements for the Subdivision, the Plat will be recorded upon the completion of the construction of the Improvements in accordance with the Plans, and the acceptance thereof by the City. - 6.1 **Cost Estimate.** Developer will submit to the City, and the City will review and approve, a "*Cost Estimate*" prepared by the Developer's Engineer. The Cost Estimate must be certified to the City.
- 6.2 **Letter of Credit.** Upon the Developer providing to the City a Letter of Credit issued by a financial institution authorized to do business in the State of Florida in the amount of one hundred twenty percent (120%) of the approved Cost Estimate which guarantees to the City the performance of the Developer's obligations

under this Agreement, (which Letter of Credit must be in form and content acceptable to the City and the City's attorney) the City will complete the execution of the Plat of the Subdivision and allow the Plat to be recorded in the Public Records of Marion County, Florida.

- 6.3 **Sale of Lots or Tracts.** Upon the recording of the Plat the Developer will be entitled to convey individual Lots or Tracts in the Subdivision to third party purchasers. The purchasers of any Lots will be entitled to submit building plans and site plans, procure site plan approvals, procure building plan approvals, procure construction permits, and subject to paragraph 5.3 of this Agreement procure Certificates of Occupancy for improvements constructed on Lots in accordance with the normal approval procedures of the City as established under the City Code. No purchaser of a Lot or Tract in the Subdivision will be obligated to complete the obligations of Developer to the City under the terms of this Agreement in order to procure the issuance of a final Certificate of Occupancy by the City for the purchaser's improvements constructed on a Lot or Tract in the Subdivision but City shall not be required to issue such Certificate of Occupancy until the conditions in paragraph 5.3 of the Agreement have occurred.

7. **STORMWATER DRAINAGE FACILITIES.** Installation and maintenance of the stormwater drainage facilities (including, without limitation, the improvements previously referred to as the stormwater conveyance system improvements and stormwater retention areas) located in the Subdivision shall be in accordance with the following provisions.

- 7.1 **Construction Standards.** All stormwater drainage facilities, whether or not such facilities are to be dedicated to the public, will be constructed to the construction standards and Development Regulations of the City, and the regulations of the District.

- 7.2 **Disclaimer of Responsibility.** The City does not assume responsibility for the surface stormwater runoff from individual Lots to adjacent Lots or adjacent properties, the responsibility of which shall be solely that of the Developer.

- 7.3 **Assignment of Developer's Obligations.**

- 7.3.1 The obligations of Developer with respect to the maintenance or any stormwater management facilities located within the Subdivision, and the responsibility for any surface stormwater runoff from any Lot, roadway, or common area to any adjacent Lot or other properties as set forth in the preceding Section, may be assigned by Developer to a Homeowners' Association. Ownership and maintenance of all stormwater or surface water management facilities located within the Subdivision shall be in accordance with the rules and regulations of the District, and in accordance with any permit issued by the District with respect to the Subdivision. The assignment of Developer's rights and obligations under this Section shall become effective by the recording of an assignment from

Developer to the Homeowners' Association, which document must be recorded in the Public Records of Marion County, Florida.

- 7.3.2 Written notice of the assignment and the recording of the instrument of assignment must be provided to the City. No assignment of Developer's obligations pursuant to this Section shall operate to release or discharge Developer's obligations to construct the Public Improvements or maintain them for the time period specific elsewhere in this Agreement.

8. **SIDEWALKS.** The plans for the Subdivision include an entrance roadway sidewalk providing pedestrian access from the Subdivision to NW 22<sup>nd</sup> Street, and construction of an internal sidewalk system. In addition to those specifications shown on the Plans, the following provisions shall apply with respect to sidewalks to be installed in the Subdivision:
- 8.1 Developer shall install the sidewalk connecting NW 22<sup>nd</sup> Street to the internal sidewalk system of the Subdivision, at the time of the construction of the Subdivision's improvements.
- 8.2 All sidewalks within the Subdivision shall be constructed by the Developer simultaneous with the construction of road improvements.
9. **TRAFFIC CONTROL DEVICES.** All traffic control devices to be constructed by the Developer shall be constructed in accordance with the construction standards of the City.
10. **ELECTRIC FACILITIES & SERVICE.** Electric utility infrastructure and service provisions shall follow the policies and procedures in accordance with the City's Code of Ordinances, Sec. 70-541 thru Sec. 70-720.
11. **REPAIR OF DEFECTIVE IMPROVEMENTS:** With respect to any of the improvements which are subject to a one (1) year period of maintenance by the Developer, as set forth elsewhere in this Agreement, if during the maintenance period the City provides notice to the Developer that the improvement needs repair or replacement, the Developer will at its sole expense immediately initiate the repair and replacement of the defective improvements, and pursue the completion of the repair and replacement with due diligence. Such repair or replacement must be completed prior to the City assuming responsibility for permanent maintenance (as to any portion of the improvements for which repair or replacement is underway at the expiration of the one (1) year maintenance period).
12. **DRAINAGE RETENTION AREA FENCES.** Developer will not be required to fence drainage retention areas located within the Subdivision provided that the applicable drainage retention area complies with the following requirements.
- 12.1 The slope ratio for the sides of the drainage retention area must be 4:1, or flatter than 4:1.

13. **BUILDING PERMITS – MODEL UNITS.** Subject to the terms of this Section the City agrees to issue to the Developer, upon submission by the Developer to the City of the required applications and supporting documentation and any applicable fees, building permits necessary for the construction of not greater than ten (10) single family residential homes, to be located upon parcels which will be individual Lots when the final plat of the Subdivision is recorded. With respect to the issuance of these permits the Developer agrees as follows:
- 13.1 The Developer acknowledges that the City will not issue Certificates of Occupancy with respect to any residence constructed until the conditions in paragraph 5.3 of this Agreement has occurred.
- 13.2 The actions of the City under this Agreement allowing the issuance of building permits to the Developer for the construction of a model unit or model units does not in any fashion constitute the acceptance of the improvements in the Subdivision by the City as completed in accordance with the Plans, or the final Plat of the Subdivision. The Developer must comply with the applicable City regulations and normal procedures in procuring final City acceptance and approval of the final City approval of the Plat for recording.
- 13.3 The Developer agrees that the Developer will not sell or convey any interest in that portion of the Property upon which any model unit is constructed pursuant to the terms of this Agreement prior to the final acceptance of the improvements by the City (or provisions of a surety to the City as set forth above) and the recording of the Plat of the Subdivision.
- 13.4 When the Developer makes application to the City for a building permit for this Agreement the Developer must submit a sketch showing that lot upon which the residential unit will be constructed and the legal description of said lot. The parcel for which the building permit is issued must correspond to what will be a single lot when the Plat of the Subdivision is recorded.
- 13.5 The Developer hereby agrees to indemnify and hold City harmless from any and all losses, claims, damages, expenses, judgments, litigation expenses, attorneys' fees or other liabilities of any nature incurred by the City as a result of this Agreement by the City to issue building or development permits to the Developer as described in this Section. This grant of indemnity will expressly survive the termination of this Agreement and the acceptance and recording of the final Plat of the Subdivision.
