Re: **BUDGETARY ESTIMATE**
Project: Advent Hospital (Overhead power line removal)
S. Pine Ave & SW 14th St.
Ocala, Fl.

Dear Valeriu:

In response to your request for a cost estimate to serve the above project, City of Ocala Utility Services has performed a budgetary estimate for the construction of electric utilities, to assist the customer in determining a budget for the project.

In accordance with the Electric Utilities Service Rules and Regulations, Section #70-606, the customer shall pay the overhead/underground cost differential and will supply an underground conduit system.

BUDGETARY ESTIMATE COST TO CUSTOMER: \$ 23,809.79

Please note: This is a budgetary estimate only, not a binding quote. Actual City of Ocala Utility Services Work Order billing to the customer could vary, possibly significantly. This budgetary estimate is subject to change due to conditions, both known and unknown, considered and not considered, including but not limited to design changes, material and labor cost changes, estimated net revenue, and changes in policy. City of Ocala Utility Services shall not be held responsible in the event this budgetary estimate differs from the actual cost billed to customer before commencement of construction. This budgetary estimate in no way relieves the customer from paying full construction costs associated with the work order to construct electric utilities.

If there are any questions, please contact me at (352) 351-6620.

Sincerely,

Paul Sookdeo
Electric Engineering Division
