MEMORANDUM

DATE: June 25, 2025
TO: East Ocala CRA Advisory Committee
FROM: Marie Mesadieu, Economic Development Specialist
RE: East Ocala Residential Property Improvement Grant Application CRA25-0014

Address: 224 NE 10th Avenue (Parcel: 2834-004-001)

Applicant: TC Opportunity II, LLC

Project: A CRA grant requesting for replacing the HVAC system, adding insulation, landscape improvement, tree removal, and install a privacy fence to the property.

A summary of the work items and quotes received are attached.

Findings and Conclusion:

- The home was built in 1966.
- The applicant acquired it in March 2025 and have done some interior improvements.
- The building sits on 0.18 acres of land and will be used as a rental property.
- The HVAC unit will be replaced with a modern, energy-efficient system, and new insulation will be installed to make the home energy efficient. The HVAC system was replaced nearly 30 years ago and has exceeded its lifespan.
- The new HVAC will improve the living condition and will be more functional to the home.
- The landscape improvements include the removal of two (2) oak trees and one (1) Cedar tree and replace them with attractive native landscaping. The trees have overgrown and may become a risk to the structure of the building.
- A new irrigation system will be installed to properly maintain the new landscape.
- Adding a new white 6” vinyl privacy fence with two 6” gates to provide security to the home (See image 7).

"1,392 structures, representing approximately 68.4 percent of the structures in the East Ocala CRA have issues concerning Quality of Structure....a concentration of older, poorly maintained and deteriorated buildings creates many negative influences in an area including a loss of economic status, a lack of interest in new development, and increased occurrence of crime, and decreased revenues for businesses." (*The East Ocala Redevelopment Plan*)

- These improvements are included in the priority work elements listed in the East Ocala CRA Residential Property Improvement grant framework.
- The application meets the requirements of the grant program and is eligible for consideration.

The Grant Review Committee (GRC) visited the property on April 15, 2025. Please refer to the images below for highlights of the existing condition. The full application is also attached.

Attached - Application form, Cost estimates, Photographs of existing conditions, Maps, and Marion County Property Appraiser's Property Card.

201 SE 3rd St, 2nd Floor
Ocala, FL 34471

Subject: Grant Application for 224 NE 10th Ave, Ocala, FL 34470

Dear East Ocala CRA Advisory Board,

On behalf of TC Opportunity II, LLC, we would like to express our sincere gratitude to the East Ocala CRA for the opportunity to apply for grant funding to improve the property located at 224 NE 10th Ave. We greatly appreciate the CRA's mission to revitalize and enhance the neighborhoods within the district, and we believe our proposed improvements align strongly with these goals.

The proposed project includes replacing a nearly 30-year-old air conditioning unit with a modern, energy-efficient system, installing new insulation to improve energy efficiency, removing older trees and replacing them with attractive native and xeriscape landscaping. Additionally, we intend to install an irrigation system to ensure proper establishment of the new plantings, as well as a privacy fence in the backyard to enhance both security and quality of life for future residents.

These improvements contribute directly to the CRA's objectives by increasing the affordability and attractiveness of the property and surrounding area. By modernizing the home's infrastructure and introducing sustainable landscaping, we are ensuring long-term cost savings for residents while simultaneously enhancing curb appeal. Furthermore, these upgrades support the development of NE 10th Avenue as a gateway street to the Oak Park/Wyomina neighborhood, fostering a welcoming and cohesive entryway into the community.

While our goal has been to implement these improvements in the long run, the grant allows us to accomplish them in the short term to the benefit of both the neighborhood and the city. This accelerated timeline ensures that the positive impact of these upgrades is realized much sooner, further advancing the CRA's mission of neighborhood revitalization and community enhancement.

We are committed to working alongside the CRA to continue revitalizing the East Ocala area, and we deeply appreciate your consideration of our application. Thank you for your time, dedication, and investment in the betterment of our neighborhoods. Please do not hesitate to reach out if any additional information is required.

Sincerely,

TC Opportunity II, LLC

Robert J. Jenkins, MGR

Applicant

I, TC Opportunity II, LLC, owner/occupant of building at
224 NE 10th Avenue Ocala, FL 34470, have read and understand the
terms and conditions of the Program and agree to the general conditions and terms outlined in
the application process and guidelines of the Program.

Property Information – For staff use only

Is the property assessed Marion County property taxes? Y / N

Are property taxes paid up to date? Y / N

Is the property in condemnation or receivership? Y / N

Is there an active City code enforcement case on the property? Y / N

Is the building on the National Register of Historic Places? Y / N

GENERAL CONDITIONS

It is expressly understood and agreed that the applicant shall be solely responsible for all safety conditions and compliance with all safety regulations, building codes, ordinances, and other applicable regulations.

It is expressly understood and agreed that the applicant will not seek to hold the City of Ocala, the Grant Review Committee (Committee) and/or its agents, employees, board members, officers and/or directors liable for any property damage, personal injury, or other loss relating in any way to the Program.

It is expressly understood and agreed that the applicant will hold harmless the City, its agents, officers, employees and attorneys for all costs incurred in additional investigation or study of, or for supplementing, redrafting, revising, or amending any document (such as an Environmental Impact Report, specific plan, or general plan amendment) if made necessary by said proceeding and if the applicant desires to pursue such approvals and/or clearances, after initiation of the proceeding, which are conditioned on the approval of these documents.

The applicant authorizes the City of Ocala to promote any approved project including but not limited to displaying a sign at the site, during and after construction, and using photographs and descriptions of the project in City of Ocala materials and press releases.

If the applicant fails to perform the work approved by the Committee, the City reserves the right to cancel the grant. The applicant also understands that any work started/completed before the application is approved by the Committee is done at their own risk, and that such work will jeopardize their grant award.

Completion of this application by the applicant DOES NOT guarantee that grant monies will be awarded to the applicant.

-------	------------

Do you have questions, concerns or would like to revise your estimate? We are available any time by calling, texting or email. Got a lower bid? We offer competitive pricing, as long as the other company operates to the same standards as we do. Licensed w/ liability and (most important) worker's compensation insurance, which is not required for tree contractors to carry in the state of Florida!

NOTICE: Outdoor Solutions takes all necessary precautions to avoid damage to the surrounding work area. Unfortunately, due to the nature of stump grinding we are not always able to prevent damage to underground utilities or hazards such as, but not limited to: irrigation, phone, electric, gas and cable lines. For the safety and production of tree work our crane and/or other tree equipment might be used on your property. Due to the nature of using such equipment we are not always able to prevent damage to the surrounding work area. This includes, but is not limited to, driveways, sidewalks, septic systems, pool decks, screen rooms and landscaping. We cannot be held responsible for any damage to said items. Our Outdoor Solutions Crew takes every precaution to make sure these things do not happen, and we treat your property as if it were our own.....NOTHING LESS!

Terms and Conditions

Once customer agrees to schedule their service, the contract is binding on both parties. Customer agrees to hire Outdoor Solutions of Central Florida LLC to provide the service for agreed price upon completion; and Outdoor Solutions of Central Florida LLC agrees to perform services for payment received. Cancellations for scheduled services must be phoned in 48 hours before the scheduled service or will result in 15% cancellation fee.

If payment is not received within 30 days of the invoice date, Outdoor Solutions of Central Florida LLC reserves the right to record a construction/contractor's lien on the property. This lien is a legal claim against the property for the unpaid balance and may impact the property's title, potentially affecting the ability to sell or refinance until the debt is satisfied. Additionally, any legal fees incurred in the process of recording and enforcing the lien will be added to the outstanding balance. We urge you to make prompt payment to avoid this action and any related legal consequences.

Outdoor Solutions of Central Florida LLC is not liable for any damages caused by a tree or limb falling after an estimate has been provided and/or accepted but prior to the scheduled service date. Once an estimate is given or accepted, the responsibility for any potential damages remains with the property owner until our team can safely perform the agreed upon services. We strongly encourage scheduling services promptly to mitigate any risk.

Outdoor Solutions of Central Florida LLC is not responsible for any additional damage that may occur during the removal of a tree that has already caused damage to a structure. If a tree has fallen on a structure, such as a roof, and further damage is unavoidable in the process of safely removing the tree, we are not liable for any subsequent damages. Our primary concern is the safe and efficient removal of the tree to prevent any further risk or hazard.

Terms & Conditions

Payment Terms

A 15% deposit is required upon signing. The remaining balance must be paid within one day of project completion. Payment is required within one day regardless of inspection status or HOA approval. If additional time is needed for final payment, please notify Ocala Fence in advance to discuss payment terms. Payments can be made via check (preferred), cash, or through our online payment portal (bank draft or credit card). Please note that a 3% processing fee applies to online payments. Cancellations made after three (3) business days from the contract signing will incur a fee of 15% of the total contract amount. All materials remain the property of Ocala Fence, LLC until full payment is received. For any questions or concerns, please contact Ocala Fence at (352) 274-0823.

Scheduling

To be scheduled for service, the following items must be submitted:

- Signed Estimate & Site Drawing (by signing, you agree to the provided site drawing)
- 15% Deposit paid via check, cash, or online payment
- Signed Terms & Conditions Contract (sent as an e-sign document)
-

Warranty Information

All materials are covered by the manufacturer's warranty. Ocala Fence, LLC guarantees that all installation procedures will be free from craftsmanship defects for one (1) year for wood and chain link fences, and five (5) years for vinyl or aluminum fences after installation. This warranty covers installation errors only. Natural changes in fence materials, including aging, warping, and cracking, are excluded. Gates are not covered for sagging or warping. Acts of God, storm damage, vandalism, and normal wear and tear are also excluded. For warranty claims, please contact us with a detailed description and photographs of any defects. Ocala Fence is not liable for damages resulting from failure to mitigate damage.

Licensing and Insurance

Ocala Fence, LLC carries full general liability insurance and workers' compensation. Proof of insurance is available upon request.

Lumber Quality

We use #2 grade or better pressure-treated pine lumber. Pine is preferred for its density, which retains treatment chemicals effectively. The grading system refers to appearance, and #2 grade may have knots or small areas of bark known as "wane." We carefully select each piece of lumber during construction to minimize unattractive features. If you prefer a higher-quality appearance, #1 grade lumber is available at an additional cost. All gate and wood posts are set in concrete.

Wood Appearance and Shrinkage

Pressure-treated lumber will be wet upon arrival and will shrink as it dries. This shrinkage is most noticeable in gaps between pickets, which may result in a 1/8" to 1/4" gap. Please inquire about fence styles that offer complete privacy.

Nails

Ocala Fence utilizes pneumatic nail guns that countersink nails for better holding power. We use hot-dipped galvanized nails suitable for ACQ lumber, specifically ring-shank nails, which provide superior holding strength to reduce warping and prevent pop-ups.

Property Lines

It is the customer's responsibility to identify and mark property lines before installation. If property corners are not marked, the customer accepts responsibility for any discrepancies. We can assist in determining property lines if survey stakes or a site plan is available. Payment upon completion will signify customer approval of the fence location, which will typically be placed 4-6 inches inside the property line unless specified otherwise. Ocala Fence is not responsible for costs associated with moving a fence installed per customer request.

Homeowner's Associations and Permits

Permits may be required by local authorities or homeowner associations before installation. It is the homeowner's responsibility to obtain necessary permits. While Ocala Fence can assist by providing necessary documents, securing permits and HOA approvals is ultimately the homeowner's duty. We are not responsible for any violations of local regulations or HOA guidelines.

Clearing a Path

A clear path approximately 2 feet wide is required for fence installation. Our builders will remove minor obstacles, but for larger clearing projects, we can provide an estimate. Please inform us of any sensitive landscaping that requires special care.

Buried Utilities and Irrigation Systems

Prior to construction, Ocala Fence will arrange to have buried utility lines located, as required by Florida law. Homeowners must mark any private lines, such as irrigation systems, as these will not be marked by locating services. Ocala Fence is not liable for damage to unmarked private lines. Please inform us of any unmarked utilities to ensure extra care during installation.

Private lines include but are not limited to:

- Underground sprinkler and irrigation lines
- Water lines feeding pools or other structures
- Underground electric lines for outdoor lighting, pools, sheds, etc.
- French drains or similar systems

Public utilities will be marked with a 2-foot grace area on either side. Ocala Fence will attempt to dig carefully around marked utilities, and if any lines are hit, the customer agrees that Ocala Fence is not liable for repair costs. If a utility company bills us for repairs, the customer agrees to reimburse that amount. Gate or post placement may be adjusted based on the location of utilities. For locating private lines, please visit Sunshine811.

Terms & Conditions

Payment Terms

A **15% nonrefundable deposit** is due at signing. Any special order material will require a **50% nonrefundable deposit**. The payment for the remaining balance is due upon the completion of your fence. Should final payment lead time be longer than one day, Ocala Fence is to be notified of payment terms and agree to the customer's request beforehand. Payment can be made via check, cash, or e-payment. **Customers who cancel after three (3) business days of signing the contract will forfeit their deposit.** All materials remain the property of Ocala Fence, LLC until the contract is paid in full. Should you have any questions or concerns, please do not hesitate to contact Ocala Fence directly at (352) 274-0823.

Schedule

In order to be placed on the schedule, all of the following items are due.

- Signed Estimate
- Paid Deposit either by check, cash, or e-payment
- Signed Terms & Conditions Contract

Warranty Information

All materials will be warranted by applicable manufacturer's warranty. Ocala Fence, LLC warrants to the original purchaser (property owner at time of purchase) that any installation procedures performed will be free from craftsmanship defects for a period of One (1) year ("warranty period") on wood and chain link, Five (5) years on vinyl or aluminum after the installed product. This covers installation errors only. Fence material will change in appearance, dimension and shape due to the process of aging and exposure to the elements. Wood fence material are subject to warping and cracking. Defects to the fence and fence hardware caused by these natural changes to the material are specifically excluded from this warranty. **Warranty does not include sagging or warping of gates.** Please ask our staff about the upgraded wood gate with steel frame. Also excluded are Acts of God, vandalism, climbing, vehicular and/or lawnmower damage, swinging on gates and normal wear and tear. In the event of a craftsmanship or a manufacturer's product defect, please contact our office by phone or in writing. Please provide a detailed description of the defect and provide photographs of the defect, if possible. Ocala Fence is not responsible for damages caused by the lack of mitigation of damages.

License and Insurance

Ocala Fence, LLC carries full general liability insurance and Worker's Compensation. Proof of same is available upon request.

Lumber

We use #2 grade or better pine lumber which has been pressure-treated with ACQ or MCQ treatment. Pine is the most commonly used wood for pressure treating because its density accepts and retains the treatment chemicals better than most other species. MCQ is the newest treatment chemical and leaves the wood much lighter than the traditional green color of ACQ.

The grading system (#2 grade) refers only to the appearance of each board. It is normal for #2-grade pine lumber to have knots or small areas of bark called "wane". Ocala Fence hand picks each piece of lumber during the construction process to reduce or eliminate unattractive pieces. If you are concerned about blemishes, #1-grade lumber is available at a higher cost. All gate posts and wood posts are concreted.

Wood Appearance and Shrinkage

All pressure-treated lumber will be wet when it arrives on your job site. As the lumber dries, it will shrink a little. This shrinkage is particularly noticeable in the gaps between pickets. Pickets on privacy fence spaced 0" apart during construction; can be expected to shrink to result in a 1/8" to 1/4" gap between each picket. Let us know if you would like to know about fence styles which offer total privacy.

Nails

Ocala Fence uses pneumatic (air powered) nail guns during construction. These guns shoot nails into the wood and countersink the head of the nail. This is done on purpose to give the nail better holding power. We use only hot-dipped galvanized nails which are approved for ACQ lumber. Our nails are also ring-shank, meaning they have a series of small rings along the length of the nail. These nails have greater holding power which reduces warping and virtually eliminate pop-ups.

Property Lines

Ocala Fence will need to know where your property lines are before we can begin to build your fence. It is the customer's sole responsibility for knowing and advising Ocala Fence where the fence will need to be installed. The Customer will need to know where the property lines are and have them marked prior to installation. If the customer insists on building without property lines or property corners marked, then they accept responsibility. If the customer's survey corner stakes are in place, or if the customer can provide a copy of the site plan, we can usually help determine where the lines are, however it is the sole responsibility of the customer to assure the fence is installed in the correct location. Payment upon completion of the fence will serve as customer approval of the fence location. Unless the customer specifies otherwise, we typically build fences approximately 4-6 inches inside the property lines. Ultimately the placement of the fence is the homeowner's responsibility and the fence will be installed as requested by the customer. Ocala Fence is not responsible for the cost of moving a fence line that was placed in a location specifically requested by the customer.

Homeowner's Associations and Permits

A permit may be required by your city and/or county as well as approval by the Homeowner's Association, Architectural Committee, or builder before a fence can be installed. It is ultimately the Home Owner's responsibility to find out if their city and/or county requires permits for fence installation and to obtain one if necessary. We do not require a copy of the permit in order to build your fence. Ocala Fence will help in any way possible to ease you through this process. We are happy to provide drawings and any construction information which may be needed. However, obtaining Permits and HOA Approval is the responsibility of the homeowner. Ocala Fence is not responsible for any violation of City or County regulations to include homeowner's HOA covenants and guidelines.

Clearing A Path

If you have a wooded or obstructed lot, we will need a path approximately 2 feet wide to be cleared where you would like the fence installed. Minor obstacles such as saplings, tree limbs, or occasional rocks will be moved by our builders as part of the normal installation process. We will gladly provide you with an estimate to clear the path if you do not want the hassle. Please be aware that we make every effort to tread lightly on our customer's property. Please let us know in advance of any landscaping or vegetation which may require extra gentle handling.

Buried Utilities & Irrigation Systems

Before construction, Ocala Fence will call to have your buried utility lines located. These lines will be marked in temporary spray paint. Private lines such as buried wires to a shed or pool pump, as well as the water pipes of an irrigation system, by anyone other than the homeowner and Ocala Fence cannot be responsible for damage to unmarked private lines during installation. Please make us aware if you have any of these situations and extra care can be taken.

Private lines include but are not limited to:

1. Underground sprinkler and/or irrigation lines
2. Underground water lines that feed a swimming pool or other structure
3. Underground electric lines (other than local utility lines) that supply power to lamp posts, walkway/yard lighting, wiring for pools, sheds, invisible dog fences, wells, etc.
4. French drains or related items
5. Any electrical, water or cable locations (including satellite lines) where the utility in your city did not provide marking services
6. All public utilities are connected to meters (including water). After a public utility reaches the meter on your house/property that line is considered private. If the lines leave the meter and runs to another area of the house, that line will not be marked by the locating service. It is the customers responsibility to advise Ocala Fence of the location of that line.

All lines that are marked by a locating service (public lines) have a grace area of 2 feet to each side of the marking. That means the line could be within a 4-foot-wide path. Ocala Fence will attempt to span that area when setting our posts. If spanning that area is not possible or practical, Ocala Fence will make every effort to carefully hand dig. In the event that we hit a line (public or private) the customer agrees that Ocala Fence is not liable for any potential costs associated with the repair of that line. If a utility company invoices Ocala Fence for a repair, then the customer agrees to reimburse Ocala Fence for the exact amount of the repair invoice. Please note that the placement of a gate or a post may be dictated by the location of any public or private utility line. If you have a private gas or power line, please visit <http://www.sunshine811.com/> to find a list of contractors who can help locate your private lines prior to installation.
