INITIAL	JGB	2/24/2026	2/24/2026	NON COMPLIANT	Last week I conducted a inspection at the neighboring property for a potential illicit discharge from a hose. That case was unfounded. I verified at the time of that inspection there was not silt fencing up around this site. This home sits significantly higher than the surrounding property's and dirt is washing off onto the neighbors properties. I asked Zachery Jacobson, project manager to take a look at the property and informed Greg McClellan of the complaint as well. Silt fencing needs to be installed by the contractor. I attempted to call the contractor via the issued BLD permit and they did not answer and the mail box was full. Please see photos. CLTO sent to admin. RI in 30 days.
FOLLOW UP	JGB	3/26/2026	3/26/2026	COMPLETED	Silt fencing has not been installed to contain the washouts from occuring onto neighboring properties. Also there is junk and debris all over the construction site. Please remove all junk and debris from the construction site. There is no dumpster or containment on site. Trash is scattered throughout the property. NOVPH sent to admin.
FOLLOW UP	JGB	3/30/2026	3/30/2026	COMPLETED	I had a conversation this morning with Greg in regards to this property and the neighboring property. They both have severe washouts on the coners of the the building pad. Greg informed me this would deem the structure unsafe as it stands currently. Per greg and the building department they are requesting a angle of repose from an engineer and the contractor needs to make the necessary repairs to get the structure back into compliance with the FBC. Both structures have the same violations. I am asking the office staff to remove this case from the scheduled agenda and renoticing them with the updated violations. PHOTOS PROVIDED FROM DWAIN THOMAS.

FOLLOW UP	JGB	4/30/2026	4/30/2026	COMPLETED		I verified this morning that the vioalctions are all still present. The debris are more organized on the site however there is no containment still on site with debris piled up on site. There is still no silt fencing on the site preventing dirt from staying on site. I sent Greg a message to get an update where we are at with the engineering letter for the washout from underneath the building.
FOLLOW UP	JGB	5/26/2026	5/26/2026	COMPLETED		Please see photos attached on 5.26.26 These were taken by Greg McClellan, showing there has been no changes to the property. Per Jennipher Buller Please schedule for the JUNE CODE BOARD.
HEARING INSPECTION	RSM	6/9/2026	6/9/2026	COMPLETED		GET UPDATED PHOTOS FOR HEARING. GET WITH GREG. HE IS AWARE OF THIS PROPERTY AND EVERYTHING NEEDED TO GET IT BACK INTO COMPLAINECE. On 6-9-26, I checked the property relating to the pending hearing. On this day, I noted the violations to remain as depicted in the attached photos. Proceed to hearing.
COMPLIANCE	JGB	7/10/2026	7/10/2026	COMPLETED		Compliance inspection has been completed and the property remains in violation. I have created a AFF OF NON COMP. Please see photos.

MEETING	JEFFREY GUILBAULT	4/14/2026	4/14/2026	Today, I met with the Chief Building Official, Greg McClelen, Dwain Thomas, and a Building Inspector, along with the contractor (Jeff with RAM Contracting Services) and the property owner. During the meeting, we discussed ongoing issues related to the site, permitting, and required building inspections. The permit is currently on hold due to the need for a stem wall to be installed. Per Truman, the permit will remain on hold until the stem wall permit is issued and installation is actively underway to prevent further erosion onto neighboring properties. I advised both the contractor and the property owner that all existing violations must be corrected to avoid proceeding to a hearing. They have already begun making progress, including site cleanup and implementing containment measures. The properties in question are adjacent to one another. Additionally, per Truman, a licensed engineer will be required to evaluate and approve the erosion that has occurred beneath the slab.
				Find the Respondent(s) guilty of violating city code section(s): 34-95, 82-181, 82-182, and 102-312 and order to: 1.) (a) Clean the property grounds fully and properly removing any construction debris and unsightly or unsanitary items by 4:00 pm on Thursday, July 9th, 2026. If the Respondent(s) fail to comply by 7:00 am on Friday, July 10th, 2026, the City shall enter upon the property and take whatever steps are necessary to bring the violations into compliance, to include cleaning the property grounds, fully and properly removing any construction debris and unsightly or unsanitary items. Additionally, there shall be a fine of \$50.00 per day that shall run in addition to any other fines

This protection strip shall be graded to slope away from the structure at 5%. Compaction shall be performed using equipment and methods that will not impose damaging vibration, surcharge, or other adverse effects on the house structure or foundation. Immediately upon completion of the fill work, the repaired area shall be stabilized and protected against erosion by sod, vegetation, erosion-control mat, or another approved stabilization system by 4:00 pm on Thursday, July 9th, 2026. Violation Information

Location of Violation

Left side of property

Nature of the Violation

The property beside us has been under construction and the sand piled at the side of the property is washing out onto our property and is getting close to ruining our air conditions. They should have a barrier along the side of their property to stop construction debris from washing onto our property. We need this remedied ASAP before they damage our AC equipment.
