Case Number
ENV26-0081

INITIAL	JGB	2/24/2026	2/24/2026	NON COMPLIANT	Last week I conducted a inspection at the neighboring property for a potential illicit discharge from a hose. That case was unfounded. I verified at the time of that inspection there was not silt fencing up around this site. This home sits significantly higher than the surrounding property's and dirt is washing off onto the neighbors properties. I asked Zachery Jacobson, project manager to take a look at the property and informed Greg McClellan of the complaint as well. Silt fencing needs to be installed by the contractor. I attempted to call the contractor via the issued BLD permit and they did not answer and the mail box was full. Please see photos. CLTO sent to admin. RI in 30 days.
FOLLOW UP	JGB	3/26/2026	3/26/2026	COMPLETED	Silt fencing has not been installed to contain the washouts from occuring onto neighboring properties. Also there is junk and debris all over the construction site. Please remove all junk and debris from the construction site. There is no dumpster or containment on site. Trash is scattered throughout the property. NOVPH sent to admin.
FOLLOW UP	JGB	3/30/2026	3/30/2026	COMPLETED	I had a conversation this morning with Greg in regards to this property and the neighboring property. They both have severe washouts on the coners of the the building pad. Greg informed me this would deem the structure unsafe as it stands currently. Per greg and the building department they are requesting a angle of repose from an engineer and the contractor needs to make the necessary repairs to get the structure back into compliance with the FBC. Both structures have the same violations. I am asking the office staff to remove this case from the scheduled agenda and renoticing them with the updated violations. PHOTOS PROVIDED FROM DWAIN THOMAS.

FOLLOW UP	JGB	4/30/2026	4/30/2026	COMPLETED	I verified this morning that the vioalctions are all still present. The debris are more organized on the site however there is no containment still on site with debris piled up on site. There is still no silt fencing on the site preventing dirt from staying on site. I sent Greg a message to get an update where we are at with the engineering letter for the washout from underneath the building.
FOLLOW UP	JGB	5/26/2026	5/26/2026	COMPLETED	Please see photos attached on 5.26.26 These were taken by Greg McClellan, showing there has been no changes to the property. Per Jennipher Buller Please schedule for the JUNE CODE BOARD.
HEARING INSPECTION	RSM	6/9/2026	6/9/2026	COMPLETED	GET UPDATED PHOTOS FOR HEARING. GET WITH GREG. HE IS AWARE OF THIS PROPERTY AND EVERYTHING NEEDED TO GET IT BACK INTO COMPLAINE. On 6-9-26, I checked the property relating to the pending hearing. On this day, I noted the violations to remain as depicted in the attached photos. Proceed to hearing.

ENV26-0081

MEETING	JEFFREY GUILBAULT	4/14/2026	4/14/2026	Today, I met with the Chief Building Official, Greg McClelen, Dwain Thomas, and a Building Inspector, along with the contractor (Jeff with RAM Contracting Services) and the property owner. During the meeting, we discussed ongoing issues related to the site, permitting, and required building inspections. The permit is currently on hold due to the need for a stem wall to be installed. Per Truman, the permit will remain on hold until the stem wall permit is issued and installation is actively underway to prevent further erosion onto neighboring properties. I advised both the contractor and the property owner that all existing violations must be corrected to avoid proceeding to a hearing. They have already begun making progress, including site cleanup and implementing containment measures. The properties in question are adjacent to one another. Additionally, per Truman, a licensed engineer will be required to evaluate and approve the erosion that has occurred beneath the slab.
				Find the Respondent(s) guilty of violating city code section(s): 34-95, 82-181, 82-182, and 102-312 and order to: 1.) (a) Clean the property grounds fully and properly removing any construction debris and unsightly or unsanitary items by 4:00 pm on Thursday, July 9th, 2026. If the Respondent(s) fail to comply by 7:00 am on Friday, July 10th, 2026, the City shall enter upon the property and take whatever steps are necessary to bring the violations into compliance, to include cleaning the property grounds, fully and properly removing any construction debris and unsightly or unsanitary items. Additionally, there shall be a fine of \$50.00 per day that shall run in addition to any other fines until this violation has been abated. (b) Upon abatement of any violations of section 34-95 by the City, a \$100.00 service fee shall be applied pursuant to

STAFF RECOMMENDATION	JENNIPHER L BULLER	5/22/2026	6/4/2026	section 34-92(c)(2) of the City of Ocala Code of Ordinances. 2,) Comply with the corrective action recommended in the signed and sealed engineer's letter detailing the requirements necessary to bring the site into compliance with the Florida Building Code, including the following: The eroded area shall be restored by placing clean approved structural fill adjacent to the foundation so as to provide a minimum horizontal protection width of 3 feet measured outward from the edge of the monolithic slab. This protection strip shall be graded to slope away from the structure at 5%. Beyond this 3-foot protection zone, the finished grade shall continue at a slope not steeper than 4 horizontal to 1 vertical. All fill shall be placed in lifts and compacted to a minimum of 90% Modified Proctor density. Compaction shall be performed using equipment and methods that will not impose damaging vibration, surcharge, or other adverse effects on the house structure or foundation. Immediately upon completion of the fill work, the repaired area shall be stabilized and protected against erosion by sod, vegetation, erosion-control mat, or another approved stabilization system by 4:00 pm on Thursday, July 9th, 2026. If the Respondent(s) fail to comply by 7:00 am on Friday, July 10th, 2026, there shall be a fine of \$200.00 per day thereafter that shall run in addition any other fines until this violation has been abated. 3,) Immediately implement and maintain appropriate best management practices (BMPs), including but not limited to the proper installation and maintenance of silt fencing or other approved erosion and sediment control measures, so as to prevent runoff, erosion, or sediment discharge in violation of Section 102-312; or otherwise bring the property into full compliance with the requirements of said section by 4:00 pm on Thursday, July 9th, 2026. If the Respondent(s) fail to comply by 7:00 am on Friday, July 10th, 2026, there shall be a fine of \$100.00 per day thereafter that shall run in addition to any other fines until this violation have been
----------------------	--------------------	-----------	----------	---

				abated. 4.) Pay the cost of prosecution of \$264.85 by July 9th, 2026. Non-compliance (Massey) hearing: 08/13/2026

RE: 2511-002-000 | 59 NW 21ST PL OCALA, FL.

Dear Property Owner:

Many times, homeowners and business owners are unaware of violations of the City of Ocala's Code of Ordinances existing on their property. A complaint has been reported to, or a violation was personally observed by a City of Ocala Code Enforcement Inspector on the referenced property listed above. Please review the violations and how to abate them as follows:

Compliance Requested on or before: 3/26/2026

Violations:

Section 102-312. - Requirement to prevent, control and reduce stormwater pollutants
Please install silt fencing to prevent erosion onto neighboring properties.

Our goal is to assist you in becoming compliant with City Code. The City of Ocala Code Enforcement believes a reasonable time to correct the above violation(s) would be by the date indicated. Should the violation(s) continue beyond the time specified for correction, the case may proceed to the Code Board/Special Magistrate for a hearing.

You may contact the inspector assigned as indicated below. We appreciate all your efforts to help the City of Ocala, and our division in keeping Ocala a clean and safe place to live.

JEFFREY GUILBAULT,
Code Environmental Inspector
352-598-7571 jguilbault@ocalafl.gov

Section 82-182. - Dangerous buildings declared nuisance; abatement required; time limits.
Please obtain a angle of repose from an engineer and submit it to the building department.
Please make necessary repairs per the engineers letter. Corners of the structure have
washouts under the foundation.

Dear property owner, or agent,

You are hereby notified that the above listed violation(s) exists relating to the City of Ocala Code of Ordinances.

This correspondence will serve as notification that the above stated violation(s) must be corrected by the date indicated. **IT SHALL BE THE RESPONSIBILITY OF YOU, THE RESPONDENT, TO REQUEST A RE-INSPECTION TO VERIFY COMPLIANCE ON, OR BEFORE THIS DATE.** If you, the respondent, fails to verify compliance on or before the aforementioned date, or if the code inspector elects to proceed to a public hearing even after compliance is met, the public hearing will be conducted on the date at time indicated at:

*City of Ocala - City Hall – 2nd Floor (Council Chambers)
110 SE Watula Avenue Ocala, FL 34471*

The Municipal Code Enforcement Board/Special Magistrate has the authority to levy fines up to \$250 per day for a first violation and up to \$500 per day for a repeat violation, and to levy a lien on the real and personal property of the violator(s). A cost of prosecution will be levied in this case pursuant to Florida Statutes section 162.07(2).

You are entitled to be represented by counsel, present testimony, and evidence, and to testify on your behalf. Subpoenas for witnesses and for records, surveys, plats, and other materials may be requested and will be issued by this Board/ Special Magistrate through the office of the City Clerk of the City of Ocala, Florida. If you should decide to appeal any decision made by this Code Enforcement Board/Special Magistrate with respect to any matter considered at this meeting, you will need a record of the proceedings, and that, for such purpose, you may need to ensure that a verbatim record of the proceedings is made, on which the appeal is to be based.

IF SPECIAL ACCOMMODATIONS ARE NEEDED FOR YOU TO ATTEND OR PARTICIPATE IN THIS MEETING, PLEASE CALL 48 HOURS IN ADVANCE SO ARRANGEMENTS CAN BE MADE. PLEASE CALL THE SECRETARY OF THE MUNICIPAL CODE ENFORCEMENT BOARD/SPECIAL MAGISTRATE AT (352) 629-8309 TO MAKE SPECIAL ARRANGEMENTS.

For further information regarding your code enforcement case, you may contact the person assigned to your case by email or telephone below:

Re: Fill Erosion Repair at Residence

Address: 59 NW 21st Place, Ocala, Fl. 34475

Dear Inspector,

The contractor constructed the fill pad up to the edge of the house without providing a protective perimeter of fill around the residence. As a result, the exposed edge of the pad was subject to erosion, which caused loss of fill material and left portions of the monolithic slab foundation exposed. At this time, no visible damage to the monolithic slab foundation is evident. However, unless the corrective measures recommended below are implemented immediately, loss of support beneath the slab may occur, potentially resulting in structural damage, including cracking and differential settlement.

To correct this condition, the eroded area shall be restored by placing clean approved structural fill adjacent to the foundation so as to provide a minimum horizontal protection width of 3 feet measured outward from the edge of the monolithic slab. This protection strip shall be graded to slope away from the structure at 5%. Beyond this 3-foot protection zone, the finished grade shall continue at a slope not steeper than 4 horizontal to 1 vertical.

All fill shall be placed in lifts and compacted to a minimum of 90% Modified Proctor density. Compaction shall be performed using equipment and methods that will not impose damaging vibration, surcharge, or other adverse effects on the house structure or foundation.

Immediately upon completion of the fill work, the repaired area shall be stabilized and protected against erosion by sod, vegetation, erosion-control mat, or another approved stabilization system.

Should you require any additional information, please do not hesitate to contact me.

Sincerely,

Alberto Guida, P.E.

Subject: Re: 59 NW 21st Place BLD25-2600 and 67 NW 21st Place BLD26-0033

Thanks for the detailed report and update. My principal concern, aside from the condition of the site and quality of construction taking place there, is the fact that the license holder has apparently stated that he has never been to the site. As a result of these combined circumstances I hereby authorize the posting of a Stop Work order at both addresses until the licensed contractor, Ram Contracting Services, Inc., contacts me and satisfies my concerns related to oversight of the work taking place under his license, including non-code compliant construction within the buildings, and the overall safety and grading conditions at the two sites. We have had to repeatedly disapprove multiple inspections due to the discovery of non-code compliant issues. I believe that situation exists because of the lack of oversight. I am not yet prepared to pursue disciplinary action against the contractor, but must hear from him promptly.

Update on the property:

The individual who previously identified himself as the job Superintendent, "Mullan" (321-477-8805), is actually the property owner, Mr. Lajuan Chambers.

I spoke with Mr. Chambers this morning. He explained that his grader has been in the hospital, and they need the skid steer to complete the site cleanup. I reiterated the importance of having a licensed engineer visit the property to evaluate the existing structural conditions and provide an engineered plan for any potential retaining wall.

Subject: 59 NW 21st Place BLD25-2600 and 67 NW 21st Place BLD25-0033

On March 30, 2026, at approximately 9:10 a.m., I spoke with Superintendent Mullan (321-477-8805). At approximately 9:30 a.m., I was able to contact the license holder, Jeff Ramsey (407-947-0330) with Ram Contracting Services.

During our conversation, I outlined several issues observed on site, including: dangerous undermining of the footers, the potential need for a retaining wall, the requirement for engineering evaluation of the undermined footers, necessary corrective actions (including possible retaining wall design), the presence of junk/debris without a dumpster on site, and an illicit discharge concern.

Mr. Ramsey advised that he is currently dealing with a death in the family and is unable to meet today or tomorrow. I requested that he contact me later today with his availability to review the site conditions.

Mr. Ramsey also stated that he has only reviewed the plans and has not personally been on site.

At approximately 11:30 a.m. on March 30, 2026, Mr. Ramsey returned my call and advised that he is working toward correcting the identified issues. We agreed to place the permit on hold until a meeting can occur and the deficiencies are addressed, at which point the permit may be returned to issued status. Mr. Ramsey acknowledged that additional engineering will be required to address the structural concerns, including the potential retaining wall.

Current site photos were provided to Mr. Ramsey via text message.
