Good morning,

Below is a comment from a citizen about, I believe, item 5d on tonight's P&Z agenda.

Thank you,
Pam

Good evening,

I read an article about a transitional recovery facility for the homeless men in our area. Although, it is needed, this specific location isn't the best choice. It would be within 2 miles of several schools. I have a child that attends St. John and I find this concerning. I don't think it is safe for the children and families, in the surrounding schools if this could to happen. The men in the facility could potentially wonder to these schools and start begging for money from parents putting their kids in the cars during carline, and or sleeping on the schools property. How would we know if any of these men are registered sex offenders? If they are, they are way to close to schools. It just scares me thinking of this potential change. Please reconsider this zoning.

I am unable to attend the meeting that is scheduled for this Monday, so this is why I am writing this letter. All I ask is that you all change the location of this facility to a piece of property not near schools or even homes.

Thank you.

Jen Reese
