City Manager
Peter Lee

Mission Statement

The City of Ocala provides fiscally responsible services consistent with the community's current and future expectations.

City Council's Strategic Priorities

Priority 1: Economic hub
Priority 2: Fiscally sustainable
Priority 3: Engaged workforce
Priority 4: Operational excellence
Priority 5: Quality of place

WELCOME!
Citizens are encouraged to participate in City of Ocala meetings. Speakers wishing to provide public comments to the City Council should complete a written public comment form and shall submit said form to the City Clerk prior to the meeting being called to order. Unless otherwise permitted, no person shall be permitted to provide public comments to City Council if they have not completed and submitted a public comment card prior to the meeting being called to order. Speakers will be limited to 3 (three) minutes. Additional time may be granted by the Council President. When recognized, state name and address. Citizen groups are asked to name a spokesperson.

The City of Ocala encourages civility in public discourse and requests that speakers limit their comments to specific motions and direct their comments to the Council. Cell phones should be turned off or set to vibrate.

The order of agenda items may be changed if deemed appropriate by City Council.

Citizens are encouraged to provide comments in writing to the City Clerk before meetings for inclusion into the public record. Citizens may also provide input to council members via office visits, phone calls, letters and e-mail that will become public record. In some instances, i.e., Quasi-Judicial Hearings, these particular contacts may be prohibited.

APPEALS
Any person who desires to appeal any decision at this meeting will need a record of the proceedings and for this purpose may need to ensure that a verbatim record of the proceedings is made that includes the testimony and evidence upon which the appeal is made.

ADA COMPLIANCE
If reasonable accommodations are needed for you to participate in this meeting, please call the City Manager's Office at 352-629-8401 at least 48 hours in advance so arrangements can be made.

1. Call to Order

2. Roll Call

2a. New Employees
- Ryon Lee, Electric
- Scott Minos, Electric
- Johnny Salcedo, Electric

Department: Public Works

STAFF RECOMMENDATION (Motion Ready):
Approve the award of a two-year contract to Ayopa, Inc., for the provision of grounds maintenance services at the City Complex with a maximum expenditure of $57,999

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
Bid Released to Public: 6/2/25

BACKGROUND:
The Public Works Streets Division needs mowing services at the City Complex located at 1805 NE 30th Avenue, as well as the adjacent rights-of-way along NE 30th Avenue and NE 21st Street. This mowing schedule is based on a set number of cuts per month for each month of the calendar year. The current contract for these services expires on August 22, 2025.

FINDINGS AND CONCLUSIONS:
On June 2, 2025, the City of Ocala issued Invitation to Bid (ITB) No.: PWD/250713 for grounds maintenance services for the City Complex. Ten bids were received with the following results:

Bidder Name	Office Location	Total Bid
Ayopa, Inc	**Sanford, FL**	**$57,998.34**
ESB Light, LLC	Minneola, FL	$68,100.00
BWC Services USA, LLC	Ocala, FL	$74,200.00
Squeekie Klean Landscaping	Reddick, FL	$77,820.00
Three Ponds Rental, LLC	Ocala, FL	$67,075.00
Yellowstone Landscape Southeast, LLC	Bunnell, FL	$70,712.00
Earthscapes Unlimited, Inc	Coleman, FL	$70,638.41
Southern Charm Mowing & Landscaping and	Ocala, FL	$77,500.00
Solo Cats Services	Ocala, FL	$85,800.00
North Central Florida Landscaping	Ocala, FL	$126,800.00

Ayopa, Inc. was found to be the lowest responsive and responsible bidder.

Staff recommends approval of a two-year contract, beginning August 6, 2025, and ending August 5, 2027, with the option for two additional one-year renewal periods.

FISCAL IMPACT:
Funding for this contract is budgeted in account 158-023-430-538-53-34010 for Fiscal Year 2024-25 in the amount of $5,725, and account 158-023-430-538-53-34010 for Fiscal Year 2025-26 in the amount of $29,000, and will be budgeted in account 158-023-430-538-53-34010 for Fiscal Year 2026-27 in the amount of $23,274.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:
- Approve with Changes
- Table
- Deny

AGREEMENT FOR GROUNDS MAINTENANCE SERVICES – CITY COMPLEX

THIS AGREEMENT FOR GROUNDS MAINTENANCE SERVICES – CITY COMPLEX ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **AYOPA, INC.**, a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 47-1995811) ("Contractor").

WHEREAS, on June 2, 2025, City issued a Request for Quotation ("RFQ") for the provision of grounds maintenance services for the City Complex, RFQ No.: PWD/250713 (the "Solicitation"); and

WHEREAS, ten (10) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, the bid submitted by Ayopa, Inc. was found to be the lowest; and

WHEREAS, Contractor was chosen as the intended awardee to provide grounds maintenance services at the City Complex (the "Project"); and

WHEREAS, Contractor certifies that Contractor is qualified and possesses the required experience and licensure.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.

2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Contractor shall only include this Agreement and those documents listed in this section as Exhibits to this Agreement and the quote submitted by Contractor in response to same (the "Solicitation Documents"). Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:
   Exhibit A: Scope of Work (A-1 through A-5)
   Exhibit B: Price Proposal (B-1)
   Exhibit C: Mowing Boundary Map (C-1)

   If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A, then (2) Exhibit B, then (3) Exhibit C.

3. **SCOPE OF SERVICES.** Contractor shall provide all materials, labor, supervision, tools, accessories, equipment necessary for Contractor to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work**. The Scope of Work and/or pricing under this Agreement may only be adjusted by written amendment executed by both parties.

4. **COMPENSATION.** City shall pay Contractor an amount no greater than **FIFTY-SEVEN THOUSAND, NINE HUNDRED NINETY-NINE AND NO/100 DOLLARS ($57,999)** (the "Contract Sum") over the contract term as full and complete compensation for the timely and satisfactory performance of services in accordance with the pricing and frequency detailed in **Exhibit A – Scope of Work** and **Exhibit B – Price Proposal**.

A. **Price Adjustments.** Prices offered shall remain firm for the initial contract term. Requests for price adjustments may be submitted, in writing, **no later than NINETY (90) DAYS** prior to the expiration of the prior term and must include proper CPI justification or other documentation supporting the adjustment. The City will review the submitted request for price adjustment and render a decision, in its sole discretion, as to whether it is in the best interest of the City to adjust the pricing on the awarded goods or services or reject the adjusted pricing and issue a competitive solicitation. In any event, price increases for renewal terms shall be subject to a maximum negotiated increase of **no more than THREE PERCENT (3%)** annually unless there are mitigating market conditions. The City is under no obligation to renew the contract for an additional term or to accept Contractor's proposed price increases. Contractor must receive written notification from the City confirming that the City has accepted the new prices prior to processing any orders at the new cost. Any orders issued by the City prior to formal approval of a price increase shall not be modified. Any payment of the adjusted price by City does not constitute acceptance of new pricing. Contractors are expected to pass along to the City any and all decreases in pricing on products and services or to keep pricing constant when market conditions warrant no such increases.

B. **Invoice Submission**. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and an Invoice Date. Contractor shall submit the original invoice through the responsible City Project Manager at: **City of Ocala Public Works Department**, Attn: **Dudley Bess, 1805 NE 30th Avenue, Building 300, Ocala, Florida 34470** E-Mail: dbess@ocalafl.gov.

C. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

D. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

E. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

F. **Amounts Due to the City**. Contractor must be current and remain current in all obligations due to the City during the performance of services under this Agreement. Payments to Contractor may be offset by any delinquent amounts due to the City or fees and/or charges owed to the City.

G. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification

Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **TERM OF AGREEMENT**. This Agreement shall become effective and commence on **AUGUST 6, 2025,** and continue in effect for a term of **TWO (2) YEARS**, through and including **AUGUST 5, 2027** (the "Term"). This Agreement may be renewed for up to **TWO (2)** additional **ONE (1) YEAR** periods by written consent between City and Contractor.

6. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, pandemics, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.
   A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof, as soon as it becomes aware.
   B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Contractor performance shall be extended for a number of days equal to the duration of the force majeure. Contractor shall be entitled to an extension of time only and, in no event, shall Contractor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.
7. **INSPECTION AND ACCEPTANCE OF THE WORK**. Contractor shall report its progress to the City Project Manager as set forth herein. All services, work, and materials provided by Contractor under this Agreement shall be provided to the satisfaction and approval of the City Project Manager.
   A. The City Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials furnished, or workmanship performed, the rate of progress of the work, the interpretation of the plans and specifications, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Contractor in its Bid. The authority vested in the City Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the work.
   B. Neither the City Project Manager's review of Contractor's work nor recommendations made by City Project Manager pursuant to this Agreement will impose on City Project Manager any responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident Contractor's furnishing and performing the work.
8. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Document, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either

party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.

A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Contractor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Contractor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Contractor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:
   (1) Contractor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;
   (2) Contractor provides material that does not meet the specifications of the Agreement;
   (3) Contractor fails to complete the work required within the time stipulated in the Agreement; or
   (4) Contractor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Contractor cannot or will not perform to the requirements of the Agreement.

B. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Contractor Default**. In the event that Contractor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:
   (1) City shall be entitled to terminate this Agreement without further notice;
   (2) City shall be entitled to hire another Contractor to complete the required work in accordance with the needs of City;
   (3) City shall be entitled to recover from Contractor all damages, costs, and attorney's fees arising from Contractor's default prior to termination; and
   (4) City shall be entitled to recovery from Contractor any actual excess costs by: (i) deduction from any unpaid balances owed to Contractor; or (ii) any other remedy as provided by law.

D. **Termination for Non-Funding**. In the event that budgeted funds to finance this Agreement are reduced, terminated, or otherwise become unavailable, City may terminate this Agreement upon written notice to Contractor without penalty or expense to City. City shall be the final authority as to the availability of budgeted funds.

E. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The City Project Manager shall provide written notice of the termination. Upon receipt of the notice, Contractor shall immediately discontinue all work as directed in the notice, notify all subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or

supplies, in connection with its performance under this Agreement. Contractor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Contractor as permitted under this Agreement and approved by City.

9. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.
10. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Contractor's performance. Any such evaluation will become public record.
11. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any Contractor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.
12. **CONTRACTOR REPRESENTATIONS**. Contractor expressly represents that:

    A. Contractor has read and is fully familiar with all of the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Contractor under this Agreement.
    B. Contractor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Contractor in the Contract Documents, and that the City's written resolution of same is acceptable to Contractor.
    C. Contractor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.
    D. **Public Entity Crimes.** Neither Contractor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors, or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Contractor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Contractor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

13. **CONTRACTOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Contractor:

A. Contractor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.
B. Contractor shall be solely responsible for the means, methods, techniques, sequences, or procedures and safety precautions or programs incident thereto.
C. Contractor shall be responsible to see that the finished work complies accurately with the contract and the intent thereof.
D. Contractor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, and be responsible for all costs associated with same.
E. Contractor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Contractor and City may otherwise agree in writing.

14. **WARRANTY.** Contractor warrants that all labor, materials, and equipment furnished under the agreement are new, of the type and quality required for the Project, and installed in a good and workmanlike manner in accordance with the Contract Documents.

    A. Contractor shall guarantee that the work shall be free from any defects in workmanship for a period of not less than **ONE (1) YEAR** from the date of Final Completion.

    B. Contractor shall guarantee that the materials provided shall be free from any defects for the longer of: (1) **ONE (1) YEAR** from the date of Final Completion; or (2) the period of warranty provided by any supplier or manufacturer.

    C. Contractor shall obtain for the benefit of City and Owner all standard warranties of subcontractors, suppliers, and manufacturers of all material, equipment, or supplies manufactured, furnished, or installed. All written warranties for work, materials, or equipment supplied must be provided to the City Project Manager before final payment will be authorized.

15. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Contractor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.
16. **RESPONSIBILITIES OF CITY.** City or its Representative shall issue all communications to Contractor. City has the authority to request changes in the work in accordance with the terms of this Agreement and with the terms in **Exhibit A.** City has the authority to stop work or to suspend any work.
17. **COMMERCIAL AUTO LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.

18. **GENERAL LIABILITY INSURANCE.** Contractor shall procure and maintain, for the life of this Agreement, commercial general liability insurance with minimum coverage limits not less than:

    A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for bodily injury, property damage, and personal and advertising injury; and
    B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for products and completed operations.
    C. Policy must include coverage for contractual liability and independent contractors.
    D. Policy must include Additional Insured coverage in favor of the City that is no less restrictive than that afforded under the CG 20 26 04 13 Additional Insured Form.

19. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Worker's Compensation insurance shall be provided by Contractor as required by Chapter 440, Florida Statutes, or any other applicable state or federal law, including the U.S. Longshoremen's and Harbor Workers Compensation Act and the Jones Act.

    A. Contractor shall similarly require any and all subcontractors to afford such coverage for all of its employees as required by applicable law.

    B. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent.

    C. Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.

20. **ADDITIONAL INSURANCE REQUIREMENTS.**

    A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.
    B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.
    C. **Certificates of Insurance**. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala.**

Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.gov. Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. **City as Additional Insured**. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation, Auto Liability (except when required by Risk Management) and Professional Liability policies**. Workers Compensation policy must contain a Waiver of Subrogation in favor of the City**.

E. **Notice of Cancellation of Insurance**. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.gov.

F. **Failure to Maintain Coverage**. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. **Severability of Interests**. Contractor shall arrange for its liability insurance to include or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

21. **SAFETY/ENVIRONMENTAL.** Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Contractor shall make an effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury, or property damage. EPA, DEP, OSHA and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:
    A. All employees on the work and other persons that may be affected thereby;
    B. All work, materials, and equipment to be incorporated therein, whether in storage on or off the site; and
    C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

    All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Contractor. Contractor's duties and

responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

22. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.
23. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Contractor, subcontractor, or of any of their agents or employees. nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.
24. **EMERGENCIES**. In an emergency affecting the welfare and safety of life or property, Contractor, without special instruction or authorization from the City Project Manager, is hereby permitted, authorized, and directed to act at its own discretion to prevent threatened loss or injury. Except in the case of an emergency requiring immediate remedial work, any work performed after regular working hours, on Saturdays, Sundays, or legal holidays, shall be performed without additional expense to the City unless such work has been specifically requested and approved by the City Project Manager. Contractor shall be required to provide to the City Project Manager with the names, addresses and telephone numbers of those representatives who can be contacted at any time in case of emergency. Contractor's emergency representatives must be fully authorized and equipped to correct unsafe or excessively inconvenient conditions on short notice by City or public inspectors.
25. **INDEPENDENT CONTRACTOR STATUS.** Contractor acknowledges and agrees that under this Agreement, Contractor and any agent or employee of Contractor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Contractor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Contractor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Contractor in its performance of its obligations under this Agreement.
26. **ACCESS TO FACILITIES.** City shall provide Contractor with access to all City facilities as is reasonably necessary for Contractor to perform its obligations under this Agreement.

27. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.

28. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Contractor under this Agreement be abandoned, or should Contractor become insolvent, or if Contractor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the City Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.

29. **PUBLIC RECORDS.** Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, Contractor shall:
    A. Keep and maintain public records required by the public agency to perform the service.
    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if Contractor does not transfer the records to the public agency.
    D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of Contractor or keep and maintain public records required by the public agency to perform the service. If Contractor transfers all public records to the public agency upon completion of the contract, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Contractor keeps and maintains public records upon completion of the contract, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.gov; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

30. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.

31. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
32. **E-VERIFY.** Pursuant to section 448.095, Contractor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Contractor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Contractor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Contractor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Contractor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Contractor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.
33. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
34. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power, or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power, or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.
35. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.
36. **INDEMNITY.** Contractor shall indemnify and hold harmless City and its elected officials, employees and volunteers against and from all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Contractor, its agents, and employees.
37. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.

38. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	Ayopa, Inc. Attention: Amado Estrema 4366 N. Ronald Reagan Blvd Sanford, Florida 32773 Phone: 407-923-4311 E-mail: ayopaservices@gmail.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

39. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

40. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY

ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

41. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied, and enforced in accordance with the laws of the State of Florida.

42. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.

43. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.

44. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.

45. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.

46. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

47. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.

48. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.

49. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.

50. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no

other representations, warranties, promises, agreements, or understandings, oral, written, or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.

51. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on _____.

(Title)

BACKGROUND

1. Contractor must provide ground maintenance services for the Public Works Department located at 1805 NE 30th Avenue, Ocala, FL 34470. Contractor must provide all labor, equipment, tools, and materials necessary to provide professional landscaping services.
2. All work must be coordinated by the City Project Manager, Dudley Bess, 352-351-6734 dbess@ocalafl.gov.
3. Contractor must provide a valid telephone number and address to the City Project Manager. The phone must be answered during normal working hours, or voicemail must be available to leave a message.
4. Services include maintaining City-owned right-of-way parcels and other designated areas as indicated in Exhibit C - Mowing Boundary Map.

WORK AREAS

1. The specific work areas will be given to the Contractor at the pre-work meeting.
2. See locations noted on **Exhibit C – Mowing Boundary Map.**

DEFINITIONS

1. **Trash** is defined as anything loose and useless (examples but not limited to) bottles, cans, paper, plastic bags, plastic bottles, plastic food wrappers, and Styrofoam cups and plates.
2. **Debris** is defined as objects lying on the ground in an area to be mowed that is mostly organic (examples but not limited to) tree limbs less than six (6) inches in diameter and smaller than six (6) feet in length, tree branches, twigs, hedge clippings, and sapling trimmings. One (1) or two (2) broken concrete blocks would qualify as debris, but an abundance of blocks would be the City's responsibility to move. If the Contractor finds large items such as old tires, concrete blocks, old chairs or sofas, dead car batteries, etc., on a site to be mowed, the Contractor shall contact the City Project Manager to report the findings, and the City will remove and properly dispose of the debris. Otherwise, it is the Contractor's responsibility to remove and properly dispose of the debris before mowing.

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. An employee roster must be provided to the City.
2. Contractor must utilize competent employees in performing work under this Agreement. Employees performing the work must be properly licensed or qualified as required by this Scope of Work.
3. Contractor shall provide an assigned Project Manager, who will be the primary point of contact. The Contractor must provide a valid telephone number and address at all times to the City Project Manager. The telephone must be answered during normal working hours, or voicemail must be available to take a message.
3. At the request of the City, Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in his or her employment. The City and Contractor must each be promptly notified by the other of any complaints received.
4. Contractors' employees must wear suitable work clothes and personal protective equipment as defined by OSHA. Employees shall be clean and in a good appearance as the job conditions permit.

5. Contractor will operate as an independent contractor and not as an agent, representative, partner, or employee of the City of Ocala, and shall control its operations at the work site, and be solely responsible for the acts or omissions of its employees.
6. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.

HOLIDAY SCHEDULE

1. Contractor shall not perform ground maintenance services on City-observed holidays.
2. The City of Ocala recognizes the following holidays: January 1st, Dr. Martin Luther King Jr. 3rd Monday in January, Memorial Day, Last Monday in May, Juneteenth 19th, Independence Day, July 4th, Labor Day, 1st Monday in September, Veterans' Day, November 11, Thanksgiving Day, 4th Thursday in November, Thanksgiving Day (day after) 4th Friday in November, Christmas Eve, December 24th, and Christmas Day, December 25th.
3. If the holiday falls on a Saturday, the holiday shall be observed on the preceding Friday. If the holiday falls on a Sunday, the holiday shall be observed on the following Monday or as designated by the City Manager.

CONTRACTOR RESPONSIBILITIES

The following maintenance duties are required for each mowing cycle at all properties:

1. Contractor is responsible for any damages, including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private If property is damaged or destroyed, the contractor, at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property, no later than one (1) month from the date damage occurred.
2. Contractor shall complete all work performed under this solicitation following the policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
3. Contractor shall obtain and pay for any licenses, additional equipment, dumping and/or disposal fees, etc., required to fulfill this contract.
4. At least one crew member must communicate fluently in English.
5. Contractor's employees shall wear shirts or have a badge that identifies the company, and all trucks belonging to the Contractor must display the **company's name.**
6. When working near roadways, the employee shall wear an FDOT (Florida Department of Transportation) approved vest and place FDOT-approved safety cones and FDOT-approved "Men Working" signs in front of and behind company vehicles.
7. Sinkholes: Contractor shall immediately report any sinkholes found to the Public Works Department: 352-351-6733.
8. Properties having gates: Contractor shall report any gates needing repair for failure to close, open, or lock to the Streets System Manager, Charlie Varney, e-mail: cvarney@ocalafl.gov. All gates must be closed and locked when finished mowing at the City Complex.

9. Locations: Contractor shall submit a list of all locations that have been mowed at the end of each working day.
10. After completion of each location, Contractor shall take a cellphone photo using the Solocator app of the property and email it to the City-designated e-mail address. Please visit www.solocator.com or www.timestamp.com for details.

MOWING

1. Mow at a height of two (2) inches for Bahia grass and three (3) inches for St. Augustine grass. All mowing will be performed **ON WEEKENDS ONLY**. Any change to days and/or times must be approved in advance by the City Project Manager.
2. Proper equipment must be used to mow city sites to prevent scalping, rutting, or cutting off tops of slopes with mowing equipment, causing soil erosion.
3. All equipment must be properly maintained with sharp blades, so the grass is cut and not torn, to prevent damage to the grass plants.
4. **Mow all grassed areas by the frequencies indicated below.**

Month	Cuts Per Month City Complex & ROW	Cuts Per Month Sun Tran Field
January	1	0
February	1	0
March	2	0
April	4	1
May	4	1
June	4	1
July	5	2
August	4	2
September	4	2
October	4	1
November	2	1
December	1	0
Total:	**36**	**11**

5. The SunTran field outlined in **Exhibit B** shall be mowed with a tractor bush hog mower with deck, weed control around any poles, concrete structures, and trees.
6. The City does not include an allowance for delays caused by the effects of inclement weather; however, the City will grant time extensions, on a day-to-day basis, for delays caused by the impact of rain or

other inclement weather conditions. No additional compensation will be made for delays caused by inclement weather. The Contractor shall submit a written request to the City Project Manager (e-mail is the preferred method) for additional days for which work is suspended or delayed by weather.

7. The Contractor must pick up trash and debris in and around the area to be mowed (including fence lines) before mowing and properly dispose of it so that it is not shredded by the mower. The Contractor is responsible for a clean area (free of trash and debris) with a neat appearance, even cut, and no clumps of grass to remain in the mowed areas.
8. Contractor shall be responsible for all damage incurred to any water sprinkler systems, shrubs, trees, etc., while performing grounds maintenance services. All damages shall be immediately reported to the City Project Manager, who will determine the need for replacement and/or repairs. All replacement and/or repairs for damage done by the Contractor shall be performed at no cost to the City. Any damaged ground sprinklers shall be repaired immediately to comply with water conservation regulations.
9. Backflow assemblies are located in various areas throughout the City. In the event a backflow assembly unit is damaged or destroyed by the Contractor, the Contractor shall be liable for all damages and shall be responsible for any costs associated with the repair or replacement of the unit(s). The Contractor's employees shall always have a wrench in their possession to shut off the water, should damage occur to a backflow assembly.
10. Water meter damage shall be reported to the Water Resources Department (352) 351-6772. Repairs must be made within 48 hours of damage occurrence, except for utility-related repairs, which must be completed as soon as possible.
11. The slopes and bottoms of the retention ponds will not be cut by the Contractor within the City Complex.

WEED TRIMMING

1. Trimming shall be done in areas inaccessible by mowers (fence lines, trees, signs, etc).
2. When using chemicals to treat fence lines, special care shall be used to ensure chemicals are not sprayed onto adjacent private property.
3. A three-inch (3") swath shall be sprayed on either side of the fence to maintain the grass and weed control, provided that the adjacent side of the fence is not private property. If the adjacent side is private property, only a three-inch (3") swath shall be sprayed on the City property. Once the vegetation has been treated with chemicals, the dead grass, weeds, and vines shall be removed with a weed-eater or similar device down to ground level, and the remaining dead vegetation removed from the fence.
4. A three-inch (3") diameter area from the base of trees shall be maintained when trimming around trees. The Contractor shall chemically kill or retard the growth directly under trees using suitable and equally effective herbicide. When chemically trimming around trees, special care shall be given so as not to spray the suckers growing from the ground around the tree as this may damage or kill the tree. Removal of the bark greater than 25% of the diameter of the tree shall require the tree to be replaced. This is common around Crape Myrtles and not normally found around oaks and other common hardwood trees.

5. Grass debris shall never be blown into roadways. Grass clippings shall be blown away from roadways, but not into retention ponds. The Contractor shall ensure all cuttings are kept off the streets and sidewalks.
6. **Sidewalks shall be edged. The Contractor shall provide proper edging techniques and equipment to edge all curbs and sidewalks. Gas-powered edging tools are required.**
7. In areas where there are cracks in the sidewalks with grass and weeds growing through the cracks, the vegetation shall be sprayed with an approved herbicide. After the vegetation is dead, it shall be removed with a weed-eater or similar string device.
8. The Contractor shall provide a manicured, professionally mowed project at each location.

MISCELLANEOUS

1. Contractor must immediately report sinkholes to the Public Works Department (352-351-6733).
2. Contractor must have at least one crew member who communicates fluently in English.
3. Properties having gates: The Contractor shall report to the City Project Manager any gates needing repair for failure to close, open, or lock.
4. Contractor's employees shall always wear shirts or have a badge that identifies the company, and all trucks belonging to the Contractor must bear the company's name.
5. When working near roadways, the employee shall wear an FDOT (Florida Department of Transportation) approved vest and place FDOT-approved safety cones and FDOT-approved "**Men Working Signs**" in front of and behind company vehicles.
6. At the end of each working day, the Contractor shall submit a list of all mowing locations that have been mowed to the City Project Manager.
7. All walking trails and/or sidewalks in or around the rights-of-way shall be free of grass clippings and weeds. Edging is required.
8. ***Add the bag litter picked up an amount*** *to each invoice submitted. At the top of the invoice.*
9. After completion of each location, take a cellphone photo using the Solocator app of the property, and email it to the City's designated email address. Please visit www.solocator.com for details.

SAFETY

1. Contractor shall be fully responsible for meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-contractors, staff, public, etc.
2. In no event shall the City be responsible for any damages to any of the Contractor's lost, damaged, destroyed or stolen equipment or clothing.

Submitted By: Christina Guy

Presentation By: John King

Department: Facilities Management

STAFF RECOMMENDATION (Motion Ready):
Approve the purchase of industrial products and services for tile and hard floor restoration from Saniglaze International, LLC, utilizing the General Services Administration Multiple Award Schedule with an aggregate expenditure of $85,000

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The City of Ocala's Facilities Management Department routinely performs floor maintenance in City-owned buildings. This work helps ensure the cleanliness, structural integrity, and aesthetic appeal of these facilities.

FINDINGS AND CONCLUSIONS:
To support this initiative, Facilities Management will resurface tile and hard floors in various City buildings under General Services Administration (GSA) Contract No. 47QSMS24D004N.

As a political subdivision of the state of Florida, the City of Ocala qualifies as an eligible user of cooperative purchasing agreements like the GSA's Multiple Award Schedule (MAS). GSA contracts are negotiated by the federal government with the intent of securing "most favored customer' pricing plus a discount offered to GSA and other authorized purchasers. The underlying agreement is valid from March 14, 2024, through March 13, 2029, and has been evaluated and determined by the City's Procurement and Contracting Department to be cost -effective and to afford the City best value.

FISCAL IMPACT:
Funding is available in Fiscal Year 2024-25 account 001-026-601-519-51-46010 - Facilities Repair & Maintenance.

PROCUREMENT REVIEW:
These goods were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with Changes
- Table
- Deny

COOPERATIVE PURCHASING AGREEMENT FOR TILE AND HARD SURFACE RESTORATION SERVICES

THIS COOPERATIVE PURCHASING AGREEMENT FOR TILE AND HARD SURFACE RESTORATION SERVICES ("Piggyback Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **SANIGLAZE INTERNATIONAL, LLC**, a limited liability company duly organized and authorized to do business in the state of Florida (EIN: 59-3635047) ("Contractor").

WHEREAS, after a competitive procurement process, the United States General Services Administration (GSA) entered into a contract with SaniGLAZE International, LLC for the provision of Tile and Hard Surface Restoration, GSA contract number 47QSMS24D004N (the "GSA Agreement"); and

WHEREAS, in accordance with Chapter 287, Florida Statutes and the City of Ocala's contracting and procurement policies and procedures, City has the legal authority to "piggyback" the purchase of goods and services as contracted by another governmental entity as a form of inter-governmental cooperative purchasing when seeking to utilize the same or similar services provided for in said contract; and

WHEREAS, City desires to purchase labor, services, and materials for the provision of tile and hard surface restoration services pursuant to essentially the same terms and conditions provided under the GSA Agreement as applicable and amended by the terms and conditions of this Piggyback Agreement; and

WHEREAS, Contractor agrees to extend the terms, conditions, and pricing of the GSA Agreement to the City of Ocala, subject to the terms and conditions of the Piggyback Agreement.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

1. **RECITALS.** City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **DEFINITIONS.** As used in this Piggyback Agreement, the following terms shall have the meaning specified below:
   A. **Piggyback Agreement:** shall mean this Cooperative Purchasing Agreement for Tile and Hard Surface Restoration Services as it may from time to time be amended or modified pursuant to its terms and provisions.
   B. **GSA Agreement:** shall mean the contract between U.S. General Services Administration and SaniGLAZE International, LLC and its exhibits, as amended and attached hereto as **Exhibit A – GSA Agreement.**
3. **INCORPORATION OF GSA AGREEMENT.** The GSA Agreement attached hereto as Exhibit A is hereby incorporated by reference as if set forth herein in its entirety. However, to the extent that any terms and conditions set forth in the GSA Agreement conflict with any of the amended or supplemental terms and conditions set forth in this Piggyback Agreement, then the amended and supplemental terms and conditions set forth in this Piggyback Agreement shall be given precedence.
4. **CONTRACT DOCUMENTS.** The Contract Documents which comprise the entire understanding between City and Contractor shall only include this Agreement and those documents listed in

this section as Exhibits to this Agreement. Each of these documents are incorporated herein by reference for all purposes. If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

Exhibits to Agreement: The Exhibits to this Agreement are as follows:

A. Exhibit A: GSA Agreement (A-1 through A-7)

5. **AMENDED TERMS AND CONDITIONS.** The following terms and conditions of the GSA Agreement are modified and replaced, in their entirety, as follows:

A. **COMPENSATION.** City shall pay Contractor a price not to exceed the maximum limiting amount of **EIGHTY-FIVE THOUSAND AND NO/100 DOLLARS ($85,000)** over the contract term for the performance of the work and in accordance with the contract documents based on the most current prices set forth in **Exhibit A – GSA Agreement**.

B. **TIME FOR PERFORMANCE.** This Agreement shall become effective and commence on **AUGUST 6, 2025** and continue through and including **MARCH 13, 2029**.

C. **Invoice Submission**. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and Invoice Date. Contractor shall submit the original invoice through the responsible City Project Manager at: **Facilities Management Department**, 1805 NE 30th Avenue, Bldg. 1000, Ocala, Florida 34470 Attn: **Charles Stewart** E-Mail: cstewart@ocalafl.gov; Office: 352-351-____.

D. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

E. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

F. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

G. **Amounts Due to the City.** Contractor must be current and remain current in all obligations due to the City during the performance of services under the Agreement. Payments to Contractor may be offset by any delinquent amounts due to the City or fees and/or charges owed to the City.

H. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer

Identification Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

6. **COMMERCIAL AUTO LIABILITY INSURANCE**. Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.

7. **GENERAL LIABILITY INSURANCE.** Contractor shall procure and maintain, for the life of this Agreement, commercial general liability insurance with minimum coverage limits not less than:

   A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for bodily injury, property damage, and personal and advertising injury; and
   B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate limit for products and completed operations.
   C. Policy must include coverage for contractual liability and independent contractors.
   D. Policy must include Additional Insured coverage in favor of the City that is no less restrictive than that afforded under the CG 20 26 04 13 Additional Insured Form.

8. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Worker's Compensation insurance shall be provided by Contractor as required by Chapter 440, Florida Statutes, or any other applicable state or federal law, including the U.S. Longshoremen's and Harbor Workers Compensation Act and the Jones Act.

   A. Contractor shall similarly require any and all subcontractors to afford such coverage for all of its employees as required by applicable law.

   B. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent.

   C. Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.

9. **ADDITIONAL INSURANCE REQUIREMENTS.**
   A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.

B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.

C. **Certificates of Insurance**. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.gov.** Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. **City as Additional Insured**. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation, Auto Liability (except when required by Risk Management) and Professional Liability policies**. Workers Compensation policy must contain a Waiver of Subrogation in favor of the City**.

E. **Notice of Cancellation of Insurance**. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.gov.

F. **Failure to Maintain Coverage**. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. **Severability of Interests**. Contractor shall arrange for its liability insurance to include or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

10. **PUBLIC RECORDS.** Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, Contractor shall:

A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if Contractor does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of Contractor or keep and maintain public records required by the public agency to perform the service. If Contractor transfers all public records to the public agency upon completion of the contract, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Contractor keeps and maintains public records upon completion of the contract, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.gov; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

11. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.

12. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.

13. **E-VERIFY.** Pursuant to section 448.095, Contractor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Contractor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Contractor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Contractor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Contractor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Contractor shall provide a copy of its DHS Memorandum

of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.

14. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.

15. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.

16. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

17. **INDEMNITY.** Contractor shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from, all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Contractor, its agents, and employees.

18. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.

19. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:

SaniGLAZE International, LLC
Attention: Michele Yonash
4526 Lenox Avenue
Jacksonville, Florida 32205
Phone: 800-874-5554
E-mail: michele.y@saniglaze.com

If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov

20. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

21. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

22. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.

23. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any

objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.

24. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
25. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
26. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
27. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.
28. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
29. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
30. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.
31. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
32. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on _____.

SaniGLAZE
TILE & HARD SURFACE RESTORATION

Restoration Service	Description
EnduraGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs solid opaque, polymer overcoat on top of existing grout lines; and installs a durable, chemical and urine resistant, clear polymer coating over the entire surface.
EnduraGLAZE+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs solid opaque, polymer overcoat on top of existing grout lines; and installs a durable, chemical and urine resistant, clear Xolite-based coating over the entire surface.
ChromaGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, opaque tinted Xolite-based coating over the entire surface.
ChromaGLAZE+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, opaque tinted Xolite-based coating over the entire surface. A final coat of chemical and urine resistant, clear Xolite-based coating is applied over the entire surface.
VariGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces and installs a durable, chemical and urine resistant, opaque tinted Xolite-based coating over the entire surface with the addition of color chips to enhance the appearance. A final coat of chemical and urine resistant, clear Xolite-based coating is applied over the entire surface.
VariGLAZE+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, opaque tinted Xolite-based coating over the entire surface. Next synthetic chips are spread evenly over the surface while the coating is uncured. After the coating has cured the loose chips are removed and a second coat of chemical and urine resistant, clear Xolite-based coating is applied over the entire tile and grout surface to encapsulate the chips and provide and additional layer of protection. Next a final application of a high-performance urethane-based coating is applied over the entire surface.
VariGLAZE MAX Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and grout surfaces, as well as other surfaces, and installs a durable, chemical and urine resistant, opaque tinted Xolite or epoxy-based coating over the entire surface. Next a full broadcast of synthetic chips is spread evenly over the surface while the coating is uncured. After the coating has cured, the loose chips are removed and an encapsulation coat of chemical and urine resistant, clear epoxy coating is applied over the entire surface. When the encapsulation coat cures, a final coat of a high-performance urethane-based coating is applied over the entire surface.
VariGLAZE MAX+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, opaque tinted Xolite or epoxy-based coating over the entire surface. Next a full broadcast of synthetic chips is spread evenly over the surface while the coating is uncured. After the coating has cured, the loose chips are removed and an encapsulation coat of chemical and urine resistant, clear epoxy coating is applied over the entire surface. When the encapsulation coat cures, a final coat of a high-performance Xolite-based coating is applied over the entire surface.
VariGLAZE MAX Q Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, opaque tinted Xolite or epoxy-based coating over the entire surface. Next a full broadcast of quartz-based solids is spread evenly over the surface while the coating is uncured. After the coating has cured, the loose solids are removed and an encapsulation coat of chemical and urine resistant, clear epoxy coating is applied over the surface. When the encapsulation coat cures, a final coat of a high-performance urethane-based coating is applied over the entire surface.
VariGLAZE MAX Q+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, opaque tinted Xolite or epoxy-based coating over the entire surface. Next a full broadcast of quartz-based solids is spread evenly over the surface while the coating is uncured. After the coating has cured, the loose solids are removed and an encapsulation coat of chemical and urine resistant, clear epoxy coating is applied over the entire surface. When the encapsulation coat cures, a final coat of a high-performance Xolite-based coating is applied over the entire surface.

Restoration Service	Description
XcelKLEEN Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces.
GroutGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a solid opaque, polymer overcoat on top of existing grout lines.
SurfaceGLAZE Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, clear polymer coating over the entire surface.
SurfaceGLAZE+ Process	A multi-step process utilizing proprietary chemicals and compounds that removes embedded contaminants and surface soils from ceramic tile and other hard surfaces, and installs a durable, chemical and urine resistant, clear Xolite-based coating over the entire surface.
EverGLAZE	A set of procedures utilizing specialized equipment and chemicals to maintain tile and grout floor surfaces, as well as other hard surfaces, on a periodic basis that have been restored by one of the SaniGLAZE system's restoration processes.
Site Preparation Minor	Pre-restoration process work necessary before commencement of restoration process steps. Examples include removal of floor coatings/caulking/polyurethane, removal and replacement of partitions or work area impediments, and grout sawing in cases where grout depth is insufficient to achieve permanent bonding of glazing compound.
Site Preparation Moderate	Pre-restoration process work necessary before commencement of restoration process steps. Examples include removal of floor coatings/caulking/polyurethane, removal and replacement of partitions or work area impediments, or grout sawing in cases where grout depth is insufficient.
Site Preparation Extensive	Pre-restoration process work necessary before commencement of restoration process steps. Examples include removal of floor coatings/caulking/polyurethane including SilTanium, Adsil, MicroGuard, PermaTect or other coatings, removal and replacement of partitions or work area impediments, or grout sawing in cases where grout depth is insufficient to achieve permanent bonding of glazing compound.
Site Preparation Extreme	Pre-restoration process work necessary before commencement of restoration process steps. Examples include removing carpet, ceramic tile, wood and other floor coverings including old epoxy and resinous floors and coatings, mastic from glue down applications, and other contaminates by mechanical grinding and similar extreme steps prior to application of new coatings and high build flooring systems.
Floor Leveling	The application of a primary high tensile strength coating over subfloors to repair and/or cover holes, defects, cracks, voids, or other imperfections. Eliminates grout lines prior to the application of topcoats. Works as either a self-leveling or trowel down system.
SpeedCOVE	The installation of a durable cove base (joint between wall and floor) material that creates a consistent, uniform, seamless, monolithic appearance from the flooring surface to the wall. This proprietary system creates a superior waterproof bond and is designed specifically for use with resinous floor coatings, cementitious overlays, and micro-toppings. It will not rot, swell or deteriorate, and can withstand extreme temperatures without warping or cracking.
Vapor Barrier	The installation of a protective coating in areas where moisture and vapor may compromise topcoats. Withstands high vapor transmission rate, up to 13 pounds per 1,000 ft² (5.4 kg per 100m²) in 24 hours. Provides a non-permeable vapor barrier.

N/A

BACKGROUND:
On June 5, 2025, the Ocala Police Department (OPD) was notified that the Florida Department of Transportation (FDOT) State Safety Office allocated funding in the amount of $47,099 for overtime worked by OPD sworn law enforcement officers for the Florida Bicycle Pedestrian High Visibility Enforcement Initiative.

OPD, via the Institute of Police Technology and Management (IPTM), is to receive a $47,099 subgrant award to be utilized by May 8, 2026. These funds will reimburse overtime expenses for sworn police officers conducting high-visibility education and enforcement in areas with the highest rates of traffic crashes that result in severe and fatal injuries to pedestrians and bicyclists. The goal of the project is to mitigate crashes by increasing awareness of, and compliance with, traffic laws within the City of Ocala.

FINDINGS AND CONCLUSIONS:
Funding will be used to pay for overtime for sworn officers working on high-visibility enforcement operations. OPD will continue its focus on education and awareness of traffic laws and will provide FDOT-approved bicycle lights to those seen in violation.

FISCAL IMPACT:
The city will receive $47,099 in grant funding to support the OPD in this program. No match is required; however, any additional benefit costs shall be absorbed by the city. Funds will be housed in accounts 001-050-857-521-52-14010 and 001-050-857-521-52-21010; MUNIS Contract #250772. All other benefits/residual

funds will be deducted from or charged to the following home accounts: 001-018-830-521-52-21010, 001-018-830-521-52-22029, 001-018-830-521-52-23010, and 001-018-830-521-52-24010.

BUDGET RESOLUTION 2025-167

A RESOLUTION AMENDING THE FISCAL YEAR 2024-25 BUDGET TO ACCEPT AND APPROPRIATE A NORTH FLORIDA INSTITUTE OF POLICE TECHNOLOGY AND MANAGEMENT GRANT FROM THE STATE OF FLORIDA IN THE AMOUNT OF $47,099

WHEREAS, the Ocala Police Department recognizes that the community has experienced unnecessary injuries and fatalities related to pedestrians and bicyclists using or crossing Ocala's many roadways; and

WHEREAS, on June 5, 2025, the Ocala Police Department was awarded a grant through the Florida Department of Transportation, effective upon execution through May 8, 2026; and

WHEREAS, the University of North Florida Institute of Police Technology and Management has awarded $47,099 for reimbursement of overtime expenses incurred by sworn police officers conducting high-visibility enforcement and education.

NOW THEREFORE BE IT RESOLVED, BY THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, duly assembled in regular session, that the Fiscal Year 2024-25 budget be amended as outlined below to appropriate $47,099.

SOURCE:

001-334-000-000-09-33164	General Fund- FDOT Safety Grants	$47,099

USE:

001-050-857-521-52-14010	Salaries-Overtime	$43,699
001-050-857-521-52-21010	FICA Taxes	$ 3,400
TOTAL		**$47,099**

This resolution adopted this _____ day of _____, 2025.

RE: Pedestrian and Bicycle Safety High Visibility Enforcement and Support Program
Project Number: 433144-1-8404
Contract Number: G3E95

Dear Mr. Craig,

We are requesting subcontract approval under the aforementioned subgrant agreement. The request is for approval of a contractual services agreement between IPTM and City of Ocala in the amount of $47,098.55. Under the contract, Ocala Police Department will conduct overtime high visibility education and enforcement operations through May 8, 2026.

I appreciate your consideration of this request.

Sincerely,

Angel Williams
Coordinator

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

Letter of Agreement and Contract

In this contract between the City of Ocala ("Vendor") and University of North Florida Training and Services Institute, Inc., d/b/a Institute of Police Technology and Management ("IPTM"), a direct support organization of the University of North Florida ("University"), the Vendor shall perform the services as outlined in the scope of services (Exhibits A & B). The contract period will begin upon execution and will end on May 8, 2026.

Total contract amount will not exceed $47,098.55

The parties to this contract shall be bound by all applicable state and federal requirements as outlined in Florida Department of Transportation (FDOT) Project # 433144-1-8404, FDOT Contract # G3E95. All services must be completed by May 8, 2026. The final invoice must be received by June 5, 2026 or payment will be forfeited.

It is expressly understood that the Vendor is an independent contractor, and not an agent of the FDOT or the University of North Florida. The FDOT and the University's ("State Agencies" or individually "State Agency") respective total liability in negligence or indemnity for acts of its employees or officers shall not exceed the limits of their waiver of sovereign immunity provided under Section 768.28, Florida Statutes. The FDOT, the University, and the Vendor shall each be responsible for its own attorney fees in the event of a dispute.

To the fullest extent permitted by law, the vendor shall indemnify and hold harmless IPTM and the State of Florida, Department of Transportation, including the Department's officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the contractor/consultant and persons employed or utilized by the contractor/consultant in the performance of this Agreement.

This indemnification shall survive the termination of this Agreement. Nothing contained in this paragraph is intended to nor shall it constitute a waiver of the State of Florida and IPTM's sovereign immunity.

Vendor is a subdivision, as defined in Section 768.28, Florida Statutes, and Vendor agrees to be fully responsible only to the extent provided by Section 768.28, Florida Statutes, for the negligent or wrongful acts or omission of any employee of the Vendor while the employee is acting within the course and scope of the employee's employment, and for any damages proximately caused by said acts or omissions or torts.

Nothing herein shall be construed as consent by a State Agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of this contract. No State Agency or subdivision indemnifies any other party or person beyond the extent permitted under the law, no matter what the circumstances. Nothing herein shall be construed as a waiver by the FDOT, the University, and the Vendor of any rights or limits to liability existing under Section 768.28, Florida Statutes.

In accordance with the contract, the Vendor is authorized to perform the tasks detailed in the scope of services (Exhibits A & B) and is fully responsible for satisfactory completion of all services. Services performed prior to receiving an executed contract from the University will not be eligible for reimbursement. This contract does not involve the purchase of Tangible Personal Property, as defined in Chapter 273, Florida Statutes.

This is a cost reimbursable contract. To be eligible for reimbursement, all costs must be allowable pursuant to state and federal expenditure laws, rules and regulations and must be essential to the successful completion of the tasks identified in this contract for services.

If a cost benefits more than one project, a determination must be made and documentation provided to support that the cost is distributed in a reasonable and consistent manner across all benefiting projects.

CANCELLATION: This contract may be unilaterally cancelled by FDOT or the University for refusal by the Vendor to allow public access to all documents, papers, letters, or other material made or received by the Vendor in conjunction with this contract, unless Florida law provides that the records are confidential and/or exempt from the disclosure requirements of section 24(1) of Article 1 of the state constitution and section 119.07(1), Florida Statutes.

EXHIBIT "A"

SCOPE OF SERVICES
PEDESTRIAN AND BICYCLE SAFETY
HIGH VISIBILITY EDUCATION AND ENFORCEMENT CAMPAIGN

I. OBJECTIVE:

The Florida Department of Transportation ("FDOT"), through a subgrant with University of North Florida ("University"), will utilize law enforcement support to reinforce safe pedestrian, bicyclist, and driver behaviors in priority counties in Florida. The goal of this effort is to reduce traffic crashes resulting in serious and fatal injuries to pedestrians and bicyclists using high visibility education and enforcement details.

II. PURPOSE:

In 2023, 3,375 people lost their lives in traffic crashes on Florida's roadways. More than 23% of them were pedestrians (791) and more than 6% were bicyclists (234).

The **Purpose** of this funding opportunity is to develop and implement effective community level High Visibility education and enforcement details in areas with the highest representation of traffic crashes resulting in serious and fatal injuries to pedestrians and bicyclists.

The project **Goal** is to mitigate crashes by increasing awareness of and compliance with traffic laws that protect the safety of pedestrians and bicyclists on Florida's roads.

Pedestrians and bicyclists are more vulnerable than all other road users. Traffic crashes involving pedestrians and bicyclists are more likely to result in fatal or serious injuries than any other types of traffic crashes.

Speed, impairment, and distractions contribute to unsafe conditions for pedestrians and bicyclists and may be included in enforcement operations where there is data to support the need for these interventions to improve the safety of pedestrians and bicyclists.

Pedestrian decoys may only be included in enforcement operations to improve driver yield rates at mid-block crossing locations to improve the safety of pedestrians and bicyclists.

This campaign is a component of Florida's Bicycle/Pedestrian Focused Initiative and is implemented by the Institute of Police Technology and Management (IPTM) under the direction of the Florida Department of Transportation (FDOT). This campaign supports the goals established in Florida's Pedestrian and Bicycle Strategic Safety Plan. High Visibility Enforcement activities are being implemented to mitigate crashes by educating pedestrians, bicyclists, and motorists on traffic laws pertaining to pedestrian and bicycle safety and increasing compliance with those laws.

III. IPTM RESPONSIBILITIES:

IPTM will provide the required training/training materials, a copy of Florida's Pedestrian and Bicycle Strategic Safety Plan, and educational materials to the Vendor for distribution during enforcement operations upon contract execution. Additional educational materials, bicycle lights, and electronic media may be requested by the Vendor but are subject to availability. IPTM reserves the right to review and audit the Vendor's compliance with the terms of this Letter of Agreement and Contract. IPTM also reserves the right to reduce the amount of funding allocated under this Letter of Agreement and Contract when it is determined that the Vendor will be unable to properly utilize the full funding amount as outlined herein.

IV. VENDOR SERVICES AND RESPONSIBILITIES:

Vendor will provide high visibility education and enforcement of all road users, including pedestrians, bicyclists, and motorists, to change behaviors and improve the safety of pedestrians and bicyclists. Vendor will conduct on-street education and enforcement details at pre-approved locations within pre-approved times and distribute educational materials with each contact. Education is the preferred method of behavior correction. Warnings and/or citations to pedestrians, bicyclists, and motorists will be guided by

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

the Vendor's policies and procedures and must comply with Florida law. These operations are designed to reach more than just the individuals who are stopped or contacted, they should also be highly visible to anyone driving, walking, or biking in the area in a way that associates the enforcement activity with the safety awareness campaign. The Vendor shall record all detail activity that documents the education and enforcement outputs for each detail conducted during the contract period using the provided online platform.

To be reimbursable, activities conducted by the Vendor must meet the requirements listed in this Letter of Agreement and Contract to include the following:

- Operations must begin within 60 days of the contract execution date. Exceptions require the approval of IPTM.
- Only overtime hours for sworn law enforcement officers are eligible for reimbursement (non-sworn civilian personnel are not eligible unless explicitly approved in writing by IPTM).
- Operations must be highly visible to anyone driving, walking, or biking in the area. It is strongly suggested that operations include a combination of high visibility elements with a coordinated media awareness campaign similar to those used in sobriety checkpoints or other enforcement mobilizations.
- Funds may not to be used to supplant the Vendor's enforcement and educational efforts funded by other local, state, or federal sources. Duplicated efforts are not eligible for reimbursement.
- Vendor will not be reimbursed for education and enforcement details that take place at locations outside of those pre-approved by the FDOT and outlined in Exhibit C of this agreement.
- Vendor will not be reimbursed for education and enforcement details that take place outside of the day(s) and times of day pre-approved by the FDOT and outlined in Exhibit C of this agreement (each detail location may have different pre-approved days and times of day).

Minimum Level of Service

Vendor shall conduct highly visible education and enforcement operations at each of the identified locations outlined in Exhibit C of this agreement, prioritizing efforts towards higher ranked (Tier 1) locations.

☒Both Tier 1 and Tier 2 locations: Tier 1 locations shall be worked from contract execution through May 8, 2026. Tier 2 locations can be worked in addition to Tier 1 locations from February 1, 2026 through May 8, 2026.

☐Only Tier 2 locations shall be worked from contract execution through May 8, 2026.

A minimum of two (2) media engagements should be conducted in conjunction with these high visibility enforcement operations during the contract period.

Vendor performance will be evaluated based on their prioritization of enforcement details to areas with the highest representation of traffic crashes resulting in serious and fatal injuries to pedestrians and bicyclists and on the visibility of the mobilization.

- Vendor will not be reimbursed for administrative time, travel time, meal breaks or other hours that are not for participation in the education and enforcement overtime details aimed at reducing traffic crashes resulting in serious or fatal injuries to pedestrians or bicyclists, or attendance at required training outside of the training requirement listed within this contractual service agreement.
- Each officer is limited to a maximum of eight (8) hours of reimbursable overtime in any single day (defined as 12:00 a.m. to 11:59 p.m.), unless there are extenuating circumstances at the end of a shift

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

that causes the hours to exceed this limit. **Extenuating circumstances must be documented in the activity report.** There is no pay period limit.

- Officer training is mandatory. For their overtime hours to be reimbursable, officers working the education and enforcement details must first complete the required four-hour training course titled *"Pedestrian and Bicycle Law Enforcement: Laws, Procedures and Best Practices."* To remain eligible, officer "refresher training" is required for any officer who completed the four-hour training course titled *"Pedestrian and Bicycle Law Enforcement: Laws, Procedures and Best Practices"* **prior to June 30, 2024.** The refresher training class titled "*Pedestrian & Bicycle Safety: A Law Enforcement Review"* is not a substitute for the 4-hour classroom course for initial eligibility into this program.

- Vendor may be reimbursed for a limited number of sworn law enforcement officers to attend the required four-hour training course titled *"Pedestrian and Bicycle Law Enforcement: Laws, Procedures and Best Practices"* or the two (2) hour online refresher training course titled "*Pedestrian & Bicycle Safety: A Law Enforcement Review".* For their overtime hours to be reimbursable, attendance at the training must be within the contract period and must be on overtime status. Although every sworn law enforcement officer may attend the training, overtime reimbursement is limited to those officers who will actually take part in education and enforcement details.

- Public awareness is a key element of the high visibility enforcement model. The Vendor is strongly encouraged to distribute a minimum of two (2) media releases during the contract period. The first media release announcing that operations are beginning should be distributed a minimum of seven (7) days in advance of the first education/enforcement detail. The second media release should include a reminder that details are ongoing. This second media release should be distributed approximately halfway through the contract period. Additional media engagement is also encouraged throughout the contract period. Media releases may include social or digital media but must also be distributed through local media outlets. Proof of media engagement should be provided within 30 days of the press release or news report.

- The Vendor shall distribute the provided safety educational materials during all education and enforcement details. Materials will be provided to Vendor free of charge for this purpose.

- Vendor may elect to participate in bicycle light distribution to improve nighttime visibility and compliance with F.S. 316.2065(7). A Bicycle Light Distribution Assurance Form provided by IPTM is required for each bicycle light set that is distributed. The required documentation must be signed by the officer and submitted to IPTM or through the provided online platform along with the detail report for the period in which the lights were distributed.

- Invoice submissions must document that each officer was on overtime status while working the education and enforcement details in order to be eligible for reimbursement.

HIGH VISIBILITY ENFORCEMENT (HVE)

All law enforcement agencies shall conduct High Visibility Enforcement while conducting enforcement under this contractual service agreement.

High Visibility Enforcement is defined as:

Intense:	Enforcement activities are over and above what normally takes place.
Frequent:	Enforcement occurs often enough to create general deterrence.
Visible:	A majority of the public sees or hears about the enforcement.
Strategic:	Enforcement targets high-risk locations during high-risk times.

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

APPROVED PERSONNEL LIST

Prior to commencing the services outlined under this contract, Vendor must submit a list of personnel authorized to participate in overtime details under this agreement through the provided online platform. The name and fully loaded hourly overtime rates to be used for each officer must be submitted. The overtime rates may include the costs of hourly overtime plus associated fringe benefits paid upon the overtime. Only hours from officers listed shown on the authorized personnel list are eligible for reimbursement under this agreement. The authorized personnel list shall be updated as needed to add officers and update overtime pay rates.

METHOD OF COMPENSATION/PAYMENT SCHEDULE

Invoices must be submitted at least monthly (every 30 days), beginning within 90 days of the contract execution date. Invoices must contain the following:

- **Invoice** to include summary of hours charged and total due.

- **Payroll documentation:** Vendor must submit payroll documentation to accompany each invoice. This payroll documentation should clearly indicate that the detail hours worked under this contract were on overtime status along with the overtime rates that were paid. As this is a cost-reimbursable contract, IPTM can only reimburse the Vendor for an amount up to the total costs incurred for the overtime worked; therefore, Vendor must include either a pay stub or payroll ledger documenting payment to each officer for which reimbursement is requested. It is the responsibility of the Vendor to redact any personally identifiable information such as Social Security numbers prior to submission.

  The overtime pay rate for personnel shall be based on the actual cost per employee in accordance with the agency's payroll policy. Each agency shall comply with Fair Labor Standards Act (FLSA) requirements and thresholds for overtime accrual and payment and its own policies and procedures, insofar as those policies apply uniformly to both federally financed and other activities of the agency, as required by 2 CFR 200.403(c). Additional hours may be called overtime, call-out, off duty, extra, additional, etc.

  As part of the "fully burdened" overtime costs, the agency can be reimbursed for the additional benefit costs paid on the overtime worked. These benefit costs must be additional costs incurred specifically as a result of the overtime being reimbursed. These benefits may include associated portions of FICA (Social Security and Medicare), Worker's Compensation, Retirement benefits, and fixed shift differential costs. Prorated portions of leave accrual, health/life insurance, uniform allowance, vehicle usage, salary incentive, and other standard benefits cannot be reimbursed as they are not additional costs incurred specifically as a result of the overtime worked.

- **Detail Activity:** Vendor shall record detail activity that documents the education and enforcement outputs for each detail conducted through the provided online platform. The activity will document that each detail conducted meets the minimum level of service as outlined in this agreement and show the officers assigned, date, days and/or times, location, contacts made, number of materials distributed, and the numbers of educational contacts, warnings and citations issued to motorists, pedestrians, and bicyclists for each statute. Detail Activity submissions shall be consistent with the corresponding invoices and payroll documentation.

All invoices must be submitted through the provided online platform. In case the provided online platform is unavailable, invoice documentation can be sent electronically to ped.bike.safety@iptm.org.

All requests for reimbursement shall be signed by an Authorized Representative of the Vendor, or their delegate.

The University has 40-days to review and process invoices for services. This process begins on the date the Vendor invoice is received, inspected, and approved. Invoices may be returned if not completed properly. If a payment is not available within 40 days from the University approval, a separate interest

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

penalty at a rate as established pursuant to Section 55.03(1), F.S., will be due and payable, in addition to the invoice amount, to the Vendor. Interest penalties of less than one (1) dollar will not be enforced unless the Vendor requests payment. Invoices that have to be returned to a Vendor because of Vendor preparation errors will result in a delay in the payment and is not subject to the interest penalty. The Vendor payment requirements do not start until a properly completed financial reimbursement request is provided to the University.

FINANCIAL CONSEQUENCES

Payment shall be made only after receipt and approval of services provided. If the University determines that the performance of the Vendor does not comply with the contract requirements, the University shall notify the Vendor of the deficiency to be corrected, and the correction shall be made within a timeframe to be specified by the University. If the deficiency is subsequently resolved, the University agrees to pay the invoice(s) for the unpaid amount(s) during the next billing period. If the Vendor is unable to resolve the deficiency, the funds shall be forfeited at the end of this contractual service agreement.

PRE-APPROVED HVE LOCATIONS

Education and enforcement overtime details are only authorized at locations (specific intersections, corridors, and/or regions) that have been pre-approved by the FDOT. Vendor may not be reimbursed for efforts conducted at locations that have not been pre-approved, that take place prior to the date of the approval of this agreement, or that do not comply with the minimum level of service as outlined in this agreement.

Maximum number of officers permitted at pre-approved locations:

- 0.5 mile or less - 3 officers permitted
- 0.51 miles to 0.75 miles – 5 officers permitted
- 0.76 miles or more – 8 officers permitted

The Vendor will not be eligible for reimbursement for officers that exceed the maximum number permitted.

Each pre-approved location will have clearly defined boundaries; day(s) and times of day in which the overtime details can be worked and will be outlined in Exhibit C.

REQUESTS FOR ADDITIONAL FUNDING

The Vendor may request an increase to the total funding amount of this contract during the contract period. If the funding is available, the increased funding request may be considered if the Vendor has:

- satisfied all of the provision listed within this contract
- submitted timely invoices and record of detail activity submissions
- conducted HVE overtime detail efforts in a manner that supports the stated goal
- expended 80% or more of the current contract funding amount
- pedestrian and bicyclist crash circumstances within the Vendor's jurisdiction support the increased funding amount

Increased funding will be based upon availability and must be approved by the FDOT.

Increased funding will be accomplished through an amendment to this contract which must be signed by the FDOT, Vendor, and IPTM.

Requests for increased funding must be submitted to IPTM and received on or before February 27, 2026.

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

NON-DISCRIMINATION AND ETHICAL STANDARDS

No person shall, on the ground of race, color, religion, sex, handicap, or national origin, be subjected to discrimination under any program or activity supported by this contract. The agency agrees to comply with the Florida Civil Rights Act (F.S. 760)
http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&URL=0700-0799/0760/0760.html

All officers participating in High Visibility Enforcement activities are required to comply with the Law Enforcement Officer Ethical Standards of Conduct as established by the Florida Department of Law Enforcement. https://www.fdle.state.fl.us/Content/CJST/Menu/Officer-Requirements-Main-Page/LE-Ethical-Standards-of-Conduct.aspx

CORE ACTIVITY PERFORMANCE MEASURES / MINIMUM LEVEL OF SERVICE TO BE PERFORMED AND CRITERIA FOR EVALUATING SUCCESSFUL COMPLETION.

Each law enforcement agency is encouraged to complete all of the tasks as outlined within this contract. All agencies are required to complete a minimum of (80%) eighty percent of contracted efforts within the contract period to be eligible for "agency of the year award" consideration. Each successive fiscal year, agencies will be prioritized for funding based on percentage of performance expectations that were met.

CONSEQUENCES FOR NON-PERFORMANCE

If the Vendor is unable to properly utilize the full funding amount as outlined herein, the amount of funding for subsequent periods may be reduced. In the event that the required services are in dispute, the invoice may be pro-rated, reduced, or payment withheld until adequate documentation is provided to support the completion of such services and the dispute is resolved. If requirements are not met, the invoice will be pro-rated and payment will only be made for services that were completed as outlined in this agreement. Failure to submit invoices, detail activity reports, or other deliverables as outlined in this contract may result in termination of the agreement.

EXHIBIT "B"

EFFORT SUMMARY

FLORIDA'S PEDESTRIAN AND BICYCLE FOCUSED INTITIATIVE
HIGH VISIBILITY ENFORCEMENT CAMPAIGN

QUANTIFIABLE, MEASURABLE, AND VERIFIABLE DELIVERABLES

- A minimum of two (2) media engagements should be conducted in conjunction with these high visibility enforcement operations during the contract period.
- Detail Activity Reports shall be submitted for each education and enforcement detail worked.
- Bicycle Light Distribution Assurance Forms shall be submitted for each bicycle light kit distributed.
- Invoices shall be submitted for each month or payroll period in which overtime details were performed beginning the month following contract execution.

PERFORMANCE MEASURES

Proof of performance documentation shall be submitted. This includes, but is not limited to, the following:

- Detail Activity Submissions
- Proof of media engagements
- Proof of overtime hours worked

BUDGET/COST ANALYSIS

- The name and fully loaded hourly overtime rates to be used for each officer must be submitted.
- The overtime rates may include the costs of hourly overtime plus associated fringe benefits paid upon the overtime.
- Only hours from officers listed and shown on the authorized personnel list are eligible for reimbursement under this agreement.
- Only overtime hours for sworn law enforcement officers are eligible for reimbursement (non-sworn civilian personnel are not eligible unless explicitly approved in writing by IPTM).
- Each officer is limited to a maximum of eight (8) hours of reimbursable overtime in any single day (defined as 12:00 a.m. to 11:59 p.m.).
- Only maximum number of officers permitted at pre-approved locations are eligible for reimbursement under this agreement.
- Payroll documentation should clearly indicate that the detail hours worked under this contract were on overtime status along with the overtime rates that were paid.
- ☒Both Tier 1 and Tier 2 locations: Tier 1 locations shall be worked from contract execution through May 8, 2026. Tier 2 locations can be worked in addition to Tier 1 locations from February 1, 2026 through May 8, 2026.
  ☐Only Tier 2 locations shall be worked from contract execution through May 8, 2026.
- Payment shall be made only after receipt and approval of services provided.

Total contract amount not to exceed: $47,098.55

Exhibit "D"

FY2025 - Subcontract Agreement Required Federal Clauses, Per Part V

i. The parties to this subcontract shall be bound by all applicable sections of Part V: Acceptance and Agreement of Project # 433144-1-8404, FDOT Contract # G3E95. A final invoice must be received by June 5, 2026 or payment will be forfeited.

ii. **Buy America Act.** The Buy America Act prohibits the use of Federal highway safety grant funds to purchase any manufactured product or software/information technology systems whose unit purchase price is $5,000 or more, including motor vehicles, that is not produced in the United States. NHTSA may waive those requirements if (1) their application would be inconsistent with the public interest; (2) such materials and products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or (3) the inclusion of domestic material will increase the cost of the overall Project contract by more than 25 percent.

iii. **Certification Regarding Federal Lobbying.** The subcontractor certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 31 U.S.C 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

iv. **Cooperation with the Inspector General.** It is the duty of every subcontractor to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing pursuant to this Agreement. Section 20.055(5), F.S.

v. **DBE Assurance**. The consultant or contractor and subconsultant or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The consultant or contractor shall carry out applicable requirements of 49 CFR, Part 26 in the award and administration of USDOT-assisted contracts. Failure by the consultant or contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as the Subrecipient or the Department deems appropriate.

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

vi. **E-Verify**. Any subcontractors performing work or providing services pursuant to the subgrant agreement are required to utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the term of the Agreement.

vii. **Nondiscrimination**. During the performance of this subcontract, the Subcontractor agrees:

1. To comply with all Federal nondiscrimination laws and regulations, as may be amended from time to time

2. Not to participate directly or indirectly in the discrimination prohibited by any Federal non-discrimination law or regulation, as set forth in Appendix B of 49 CFR part 21 and herein

3. To permit access to its books, records, accounts, other sources of information, and its facilities as required by the FDOT State Safety Office, USDOT, or NHTSA

4. That, in the event a Subcontractor fails to comply with any nondiscrimination provisions in this subgrant, the Subrecipient will have the right to impose such subgrant sanctions as it or NHTSA determines are appropriate, including but not limited to withholding payments to the Subcontractor under the contract/agreement until the Subcontractor complies; and/or canceling, terminating, or suspending a contract or funding agreement, in whole or in part.

viii. **Clean Air Act and Federal Water Pollution Control Act**. Subcontracts for amounts in excess of $150,000 must comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) as amended, and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387) as amended. Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

ix. **Integrity Certification**. The Subcontractor certifies that neither it nor its contractors are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in this Agreement by any federal department or agency. This certification is a material representation of fact upon which the Department is relying in entering this Agreement. If it is later determined that the Subcontractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment. The Subcontractor shall provide to the Department immediate written notice if at any time the Subcontractor learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

x. **Contract Work Hours and Safety Standards Act**. All subcontracts in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

xi. **Indemnification and Insurance**. To the extent permitted by law and as limited by and pursuant to the provisions of Section 768.28, F.S., the Subcontractor shall indemnify and hold harmless the Subrecipient and the State of Florida, Department of Transportation, including the Department's officers and employees, from

Docusign Envelope ID: 0B2949A6-F716-4484-A2B9-E146119707D6

liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the contractor/consultant and persons employed or utilized by the contractor/consultant in the performance of this Agreement. This indemnification shall survive the termination of this Agreement. Nothing contained in this paragraph is intended to nor shall it constitute a waiver of the State of Florida and the Subrecipient's sovereign immunity.

xii. **Policy on Banning Text Messaging While Driving Act**. In accordance with Executive Order 13513, Federal Leadership on Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, subcontractors are encouraged to:

Adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving company-owned or rented vehicles, Government-owned, leased or rented vehicles, or privately-owned vehicles when on official business or when performing any work on behalf of the Subrecipient agency and/or the Government.

Conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting and driving.

Insert the substance of this section, including this sentence, in all sub-agreement/subcontracts funded with the subaward provided under this Agreement that are $15,000 or more.

xiii. **Human Trafficking**. The Subcontractor agrees that it and its employees that perform any work on the subcontract shall not, during the term of this Agreement, engage in trafficking in persons, procure a commercial sex act, or use forced labor in the performance of work on the subcontract.

xiv. **Contracting with Small and Minority Businesses, Women's Business Enterprises, and Labor Surplus Area Firms.** The Subcontractor agrees to take the following affirmative steps to assure that minority businesses, women's business enterprise, and labor surplus are used when possible:

1. Place qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assure that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Divide total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establish delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
5. Use the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
6. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (b)(1) through (5) of this section.

xv. **Termination for Convenience**. In accordance with Appendix II to 2 CFR Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, either Party may terminate this Agreement for convenience upon thirty (30) calendar days' advance written notice to the other Party. Termination of this Agreement, as such, will not affect payment for services satisfactorily furnished prior to the termination.

NEW GRANT SET-UP FORM

Departments that have received a grant award must complete this form and submit it to the Grants Coordinator, along with a copy of the fully executed grant agreement, PRIOR to incurring any grant related expenses. Funds will become available for spending after revenue and expenditure codes are established by Office of Budget and Finance and a budget resolution has been adopted by the City Council.

1. DEPARTMENT (Grant Applicant/Contact Person)

Name: LaFayetta Hodges
Title: Grants Coordinator
Phone: 352-369-7085

STAFF RECOMMENDATION (Motion Ready):
Approve a one-year renewal of the contract for continuing professional general aviation engineering services with McFarland Johnson, Inc

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
NA

BACKGROUND:
On February 17, 2022, the City issued Request for Proposals (RFP) No. AIR/220118 for continuing general aviation engineering services. Of the eight firms that responded, Infrastructure Consulting & Engineering, PLLC, and McFarland Johnson, Inc., were found to be the highest ranked. Each firm was subsequently awarded three-year contracts.

This renewal is for McFarland Johnson, Inc.

FINDINGS AND CONCLUSIONS:
The Federal Aviation Administration (FAA) requires competent and qualified firms for its grant-funded projects. McFarland Johnson, Inc. has extensive experience in airport planning and development. Engineering fees for each project are negotiated on a per-project basis using task work orders, and for FAA-funded projects, undergo independent fee reviews. The original continuing contract was for three years, with this renewal being the first of two available one-year renewals.

Since the original contract, McFarland Johnson has completed or is in the process of completing the following task work orders: Airport and Stormwater Master Plans, FS333 Code integration, Design of Concrete Pads, Design of T-hangar rehabilitation, and several independent fee analysis reviews. McFarland Johnson has performed well during the original contract term, and staff recommends approval for the next renewal year.

FISCAL IMPACT:
All services will be approved using task work orders with negotiated scopes and approved proposals. Staff hours and appropriate staff classifications will be negotiated for each task during an assigned project. The department head and City Manager must sign all final task work orders. Any task work order exceeding $50,000 in cost must be calendared for a City Council agenda for final approval. No services will be approved without budgeted allocations.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:
- Approve with Changes

- Deny

FIRST AMENDMENT TO AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES

THIS FIRST AMENDMENT TO AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES ("First Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **MCFARLAND JOHNSON, INC.,** a for-profit corporation duly organized in the state of New York and authorized to do business in the state of Florida (EIN: 16-0770183) ("Consultant").

WHEREAS, on September 14, 2022, City and McFarland Johnson, Inc. entered into an Agreement for Continuing General Aviation Engineering Services, (the "Original Agreement") City of Ocala Contract Number: AIR/220118 for a term of three (3) years from July 20, 2022, through July 19, 2025; and

WHEREAS, City and Consultant now desire to extend the Original Agreement for the first of three (3) available one-year renewals.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Consultant agree as follows:

1. **RECITALS**. City and Consultant hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Consultant is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this First Amendment.
3. **RENEWAL TERM.** The Original Agreement is hereby renewed for an additional one (1) year term beginning on **JULY 20, 2025,** and terminating **JULY 19, 2026.** Thereafter, this Agreement may be renewed for **TWO (2)** optional **ONE (1) YEAR** periods by written consent between City and Consultant.
4. **COMPENSATION.** City shall compensate the Consultant an amount not to exceed **THREE HUNDRED THOUSAND AND NO/100 DOLLARS ($300,000)** (the "Maximum Limiting Amount") during the Initial Term, inclusive of any and all direct costs, indirect costs, and reimbursable expenses, in accordance with the pricing reflected in the Original Agreement. The maximum limiting amount established under this Agreement shall not be exceeded without the City's express written approval verified by amendment or Task Work Order to this Agreement.
5. **NOTICES.** All notices required or permitted under this Agreement shall be given in writing and shall be deemed sufficiently served if delivered by registered or certified mail, with return receipt requested; or delivered personally; or delivered via electronic mail (as provided below) and followed with delivery of a hard copy. All notices shall be addressed to the respective parties as follows:

If to Consultant:	McFarland Johnson, Inc. Attention: James M. Festa, CEO 49 Court Street, Suite 240 Binghamton, New York 13901 Phone: 607-723-9421 E-mail: jfesta@mjinc.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

6. **COUNTERPARTS.** This First Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
7. **ELECTRONIC SIGNATURE(S).** Consultant, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the First Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original First Amendment for all purposes.
8. **LEGAL AUTHORITY**. Each person signing this First Amendment on behalf of either party individually warrants that he or she has full legal power to execute this First Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this First Amendment.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK. SIGNATURE PAGE TO FOLLOW.]

IN WITNESS WHEREOF, the parties have executed this First Amendment on _____.

AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES

THIS AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **MCFARLAND JOHNSON, INC.**, a for-profit corporation duly organized in the state of New York and authorized to do business in the state of Florida (EIN# 16-0770183) ("McFarland") or ("Consultant").

R E C I T A L S :

WHEREAS, on February 17, 2022, City issued a Request for Proposals ("RFP") from qualified engineering firms for the provision of continuing general aviation engineering services, RFP No.: ELE/220118 (the "Solicitation"); and

WHEREAS, eight (8) firms responded to the Solicitation and, after consideration of the evaluation factors set forth in the Solicitation, McFarland Johnson, Inc. and Infrastructure Consulting & Engineering, PLLC, were found to be the highest ranked proposals and selected as finalists in the solicitation process; and

WHEREAS, McFarland Johnson, Inc., was selected as the awardee to provide continuing general aviation engineering services (the "Services"); and

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Consultant agree as follows:

T E R M S O F A G R E E M E N T :

1. **RECITALS**. City and Consultant hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Consultant shall only include: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the proposal submitted by Consultant in response to same (the "Solicitation Documents"); and (d) those documents identified in the Project Specifications section of this Agreement, if any. Each of these documents are incorporated herein by reference for all purposes.

   If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332

A. **Exhibits to Agreement**. The Exhibits to this Agreement are as follows:

Exhibit A: Scope of Work (A-1 through A-5)

Exhibit B: Submitted Proposal (B-1 through B-92)

Exhibit C: Loaded Hourly Rates (C-1 through C-2)

If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A; then (2) Exhibit B; then (3) Exhibit C.

3. **SCOPE OF SERVICES/TASKS.** Consultant shall provide full-service aviation planning and design services, construction management services and inspection of airport development projects more specifically described in **Exhibit A – Scope of Work** and the Contract Documents on an as needed basis and shall include, but be not limited to, those services authorized by individual Task Work Orders for individual related projects (the "Projects"). City and Consultant acknowledge that the Scope of Work may not delineate every detail and minor work task required to be performed by Consultant to complete the individual Projects. If during the course of performance of the services included in this Agreement Consultant determines that work should be performed to complete the Project which is in the Consultant's opinion outside of the level of effort originally anticipated, Consultant shall notify the City Project Manager and obtain written approval by the City Project Manager in a timely manner before proceeding with the work. If Consultant proceeds with said work without notifying the City Project Manager and obtaining written approval, said work shall be deemed to have been performed within the original level of effort. Notice to the City Project Manager does not constitute authorization or approval by City to perform the work. Performance of work by Consultant outside of the originally anticipated level of effort without prior written approval of City is done at Consultant's sole risk.

   A. **Task Work Orders.** Task Work Orders shall be jointly prepared by City and Consultant and shall define the detailed scope of services to be provided for the particular Project. Each Task Work Order shall be separately numbered and approved in accordance with this Agreement and the City's Procurement Policy. The Scope of Work and Task Work Orders issued under this Agreement may only be adjusted by written amendment executed by both parties.

4. **COMPENSATION.** City shall pay Consultant for professional engineering services for amounts approved on negotiated Task Work Orders in accordance with the Fee Schedule set forth in **Exhibit C – Loaded Hourly Rates**. Subcontractor fees will be

negotiated at the time a Task Work Order is initiated for a project using current published rates. The City reserves the right not to use any subcontractor on a project. Payments will be made based on a percentage of project completion by task. Completed tasks must be approved and agreed upon by the designated City of Ocala Project Manager before payment will be made. The final reports and deliverables must be approved and agreed upon by the designated City of Ocala Project Manager before final payment will be made.

A. **Prompt Payment.** Monthly actual payment reporting requirements for prime contractors and consultants are based on prompt payment rules and laws. The same holds true for return of retainage after the subcontractor has completed its work, not when the overall project is finished. Florida law requires timely payment for both construction and non-construction services. Generally, invoices for construction contracts must be paid within **TWENTY-FIVE (25) DAYS** of receipt. Invoices for consultant contracts are payable per the terms of this Agreement, but shall not exceed federal regulations as set forth in ***49 CFR 26.29*** requiring payment of all subcontractors for satisfactory performance within **THIRTY (30) DAYS** of payment to the Prime.

B. **Invoice Submission**. Consultant shall invoice City for all work completed. Invoices must be reviewed and agreed upon by the City of Ocala Project Manager. Review and approval shall not be unreasonably withheld, conditioned, or delayed. All invoices, reports, and other documentation submitted by Consultant shall include the City Contract Number, date, and an assigned Invoice Number. Invoices, reports, and other documentation shall be submitted to the City Project Manager at: **Ocala International Airport**; Attn: **Matt Grow, 1770 SW 60th Avenue, Suite 600, Ocala, Florida 34474**; E-Mail: **mgrow@ocalafl.org.**

5. **TERM.** The term of this Agreement shall commence on **JULY 20, 2022** and shall end on **JULY 19, 2025**. This Agreement may be renewed for no more than three (3), one-year (1-year) renewal terms upon the mutual written consent of both parties, unless terminated by either party pursuant to the terms of this Agreement.
6. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332 (6332.)

the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof, as soon as it becomes aware.

B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Consultant performance shall be extended for a number of days equal to the duration of the force majeure. Consultant shall be entitled to an extension of time only and, in no event, shall Consultant be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays

7. **TERMINATION**. This Agreement may be terminated by either party for cause upon City or Consultant providing written notice to the defaulting party not less than **THIRTY (30) DAYS** prior to the date of termination in the manner specified for the giving of Notices herein. Any such termination shall not affect the rights or obligations accruing to either party under any previously issued and approved Task Work Order.

   A. **City's Remedies Upon Consultant Default**. In the event of Consultant default under this Agreement City shall have the right, at City's option, to pursue any and all remedies available at law or equity, including, without limitation, the right to: (1) terminate this Agreement without further notice; (2) hire another consultant to complete the required work in accordance with the needs of City; (3) recover from Consultant all damages, costs, and attorneys' fees arising from Consultant's default prior to termination; and (4) recover from Consultant any actual excess costs by: (i) deduction from any unpaid balances owed to Consultant; or (ii) any other remedy as provided by law.

8. **STANDARD OF CARE.** Consultant represents and warrants that it has the personnel and experience necessary to perform the Services in a professional and workmanlike manner. Consultant shall render Services consistent with the same degree of care, skill, and diligence exercised by professionals of like experience, knowledge, and resources under similar circumstances at the locale of the Project. Consultant shall re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirements of this Agreement at no additional cost to City. Consultant's standard

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76932.)

of care shall not be altered by the application, interpretation, or construction of any other provision of the Agreement.

9. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Consultant's performance. Any such evaluation will become public record.
10. **CONTRACT FULFILLMENT.** Consultants who enter into any agreement with the City of Ocala and fail to complete the contract term, for any reason, may be subject to future bidding suspension for one (1) year, and up to a possible three (3) year bid debarment for serious contract failures.
11. **COMMERCIAL AUTO LIABILITY INSURANCE.** Consultant shall procure and maintain, for the life of this Agreement, commercial auto liability insurance covering all automobiles owned, non-owned, hired, and scheduled by Consultant with a combined limit of not less than One Million Dollars ($1,000,000) for bodily injury and property damage for each accident. Consultant's commercial automobile liability insurance policy must name, as additional insureds, the City of Ocala, a political subdivision of the State of Florida, and its officials, employees, and volunteers.
12. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Consultant shall procure and maintain, for the life of this Agreement, commercial general liability insurance with combined single limits of not less than One Million Dollars ($1,000,000) per occurrence. The only aggregate limit acceptable is "project aggregate" and the Certificate must show an appropriate endorsement (ISO CG2501 or equal).

    A. If the Commercial General Liability form is used:
        (1) Coverage A- shall include premises, operations, products and completed operations, independent contractors, contractual liability covering this contract and broad form property damage coverage.
        (2) Coverage B - shall include personal injury.
        (3) Coverage C - medical payments, is not required
    B. If the Comprehensive General Liability form is used, it shall include at least:
        (1) Bodily Injury and Property Damage liability for premises, operations, products and completed operations, independent contractors, and property damage resulting from explosion, collapse or underground (XCU) exposures.

13. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY COVERAGE.** Consultant shall procure and maintain, for the life of this Agreement, Workers' Compensation insurance for in amounts required by Florida law and employer's liability insurance with limits of at least $1,000,000 each accident and $1,000,000 policy limit for disease, and shall be responsible for ensuring that any subcontractor has statutory coverage. City

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76932 (6932.)

need not be named as an Additional Insured, but a subrogation waiver endorsement is required.

14. **PROFESSIONAL LIABILITY INSURANCE/ERRORS AND OMISSIONS COVERAGE.** Consultant shall procure and maintain professional liability insurance with an occurrence limit of not less than $1,000,000, exclusive of defense costs. Consultant shall be required to provide continuing professional liability insurance to cover each project for a period of **FIVE (5) YEARS** after project completion. It is recognized that this type of insurance is only available on a claims-made basis and Additional Insured endorsements are not available.

15. **MISCELLANEOUS INSURANCE PROVISIONS**.

A. Insurance Requirements. These insurance requirements shall not relieve or limit the liability of Consultant. City does not in any way represent that these types or amounts of insurance are sufficient or adequate to protect Consultant's interests or liabilities but are merely minimums. No insurance is provided by the City under this contract to cover Consultant. **No work shall be commenced under this contract until the required Certificate(s) of Insurance have been provided**. Work shall not continue after expiration (or cancellation) of the Certificates of Insurance and shall not resume until new Certificate(s) of Insurance have been provided. Insurance written on a "Claims Made" form is not acceptable without consultation with City of Ocala Risk Management.

B. Deductibles. Consultant is responsible for paying any and all deductibles or self-insured retention. Any deductibles or self-insured retentions above $100,000 must be declared to and approved by the City. Approval will not be unreasonably withheld.

C. Certificates of Insurance. Consultant shall provide Certificates of Insurance, accompanied by copies of all endorsements required by this section, that are issued by an agency authorized to do business in the State of Florida and with an A.M. Best rating* of at least an A, showing the "City of Ocala, 110 SE Watula Avenue, Ocala, FL 34471" as an additional insured and certificate holder for General Liability and Commercial Automobile Liability insurance. Original and renewal certificates must be forwarded to the **City of Ocala Contracting Department, Third Floor, 110 SE Watula Avenue, Ocala, FL 34471, E-Mail:** **vendors@ocalafl.org** prior to the policy expiration.

D. Failure to Maintain Coverage. In the event Consultant fails to disclose each applicable deductible/self-insured retention or obtain or maintain in full force and

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

effect any insurance coverage required to be obtained by Consultant under this Agreement, Consultant shall be considered to be in default of this Agreement.

E. Severability of Interests. Consultant shall arrange for its liability insurance to include, or be endorsed to include, a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

16. **PUBLIC RECORDS.** The Consultant shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, the Consultant shall:

A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Consultant does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Consultant or keep and maintain public records required by the public agency to perform the service. If the Consultant transfers all public records to the public agency upon completion of the contract, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of the contract, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332 (6332.)

RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.org; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

16. **AUDIT.** Consultant agrees to maintain such financial and other records as may be prescribed by the City or by applicable federal and state laws, rules, and regulations. Consultant shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
17. **PUBLICITY.** Consultant shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
18. **PUBLIC ENTITY CRIMES.** As provided in Section 287.133(2)(a), Florida Statutes, a person or affiliate who has been placed on the convicted vendor list following a conviction for public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or Consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO, for a period of 36 months from the date of being placed on the convicted vendor list.
19. **DISADVANTAGED BUSINESS ENTERPRISE (DBE):** The City of Ocala adopts FDOT's goal of 10.65% as a race-neutral DBE goal. This means the City's goal is to spend at least 10.65% of expenditures with certified DBE's as prime firms, or as subcontractors/subconsultants. Race-neutrality means the City hopes the overall goal can be achieved through the normal competitive procurement process without using DBE required goals. FDOT funded projects have an overall DBE goal of 10.65%. For projects specifically for the Ocala International Airport, the DBE goal is 12%. Although not a requirement, the City believes this DBE percentage can realistically be achieved on projects through use of DBE prime and DBE subcontractors performing services anticipated on projects. Prime contractors or consultants may be requested to submit a DBE Utilization form indicating their firm's proposed use of DBE subcontractors. Prime construction contractors for FDOT-funded projects are required to visit

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332

http://www.fdot.gov/equalopportunity/eoc.shtm to register and submit their DBE commitments online.

20. **DRUG FREE WORKPLACE REQUIREMENT.** Consultant submitted a drug free workplace certification with their proposal, and agrees to provide a drug free workplace.

A. The Consultant, if other than an individual, shall-within 30 days after award (unless a longer period is agreed to in writing for contracts of 30 days or more performance duration), or as soon as possible for contracts of less than 30 days performance duration:

(1) Publish a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Consultant's workplace and specifying the actions that will be taken against employees for violations of such prohibition;

(2) Establish an ongoing drug-free awareness program to inform such employees about:

(i) The dangers of drug abuse in the workplace;

(ii) The Consultant's policy of maintaining a drug-free workplace;

(iii) Any available drug counseling, rehabilitation, and employee assistance programs; and

(iv) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(3) Provide all employees engaged in performance of the contract with a copy of the statement required by paragraph (b)(1) of this clause;

(4) Notify such employees in writing in the statement required by paragraph (b)(1) of this clause that, as a condition of continued employment on this contract, the employee will:

(i) Abide by the terms of the statement; and

(ii) Notify the employer in writing of the employee's conviction under a criminal drug statute for a violation occurring in the workplace no later than 5 days after such conviction;

(5) Notify the Contracting Officer in writing within 10 days after receiving notice under subdivision (b)(4)(ii) of this clause, from an employee or otherwise receiving actual notice of such conviction. The notice shall include the position title of the employee;

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332 (6332.)

(6) Within 30 days after receiving notice under subdivision (b)(4)(ii) of this clause of a conviction, take one of the following actions with respect to any employee who is convicted of a drug abuse violation occurring in the workplace:

(i) Taking appropriate personnel action against such employee, up to and including termination; or

(ii) Require such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency; and

(7) Make a good faith effort to maintain a drug-free workplace through implementation of paragraphs (b)(1) through (b)(6) of this clause.

B. Consultant, if an individual, agrees by award of the contract or acceptance of a purchase order, not to engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance while performing this contract.

C. In addition to other remedies available to the Government, the Consultant's failure to comply with the requirements of paragraph (b) or (c) of this clause may, pursuant to FAR 23.506, render the Consultant subject to suspension of contract payments, termination of the contract or default, and suspension or debarment.

21. **E-VERIFY.** Pursuant to section 448.095, Consultant shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Consultant shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Consultant certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Consultant understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Consultant may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Consultant shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System

22. **INDEPENDENT CONTRACTOR STATUS**. City expressly acknowledges Consultant is an independent contractor, and nothing in this Agreement is intended nor shall be construed to create an agency relationship, an employer/employee relationship, a joint

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

venture relationship, or any other relationship allowing the City to exercise control or discretion over the manner or method by which Consultant performs hereunder.

23. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances**.**
24. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.
25. **INDEMNITY.** Consultant shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from, all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Consultant, its agents, and employees.
26. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.
27. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

28. **ATTORNEYS FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges billed by the attorney to the prevailing party.

29. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332

RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

30. **GOVERNING LAW**. This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
31. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
32. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
33. **GOVERNING LAW**. This Agreement is and shall be deemed to be a contract entered into and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
34. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
35. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or by reason of this Agreement on

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c7(6932.)

any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

36. **AMENDMENT**. No amendment to this Agreement shall be effective except those agreed to in writing and signed by both of the parties to this Agreement.
37. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
38. **ELECTRONIC SIGNATURE(S)**. Consultant, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this agreement. Further, a duplicate or copy of the agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original agreement for all purposes.
39. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this agreement. Acceptance of, or acquiescence in, a course of performance rendered under this or any prior agreement shall not be relevant or admissible to determine the meaning of this Agreement even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity to make objection. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
40. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

BACKGROUND

The engineering firm will provide continuing professional services for the Ocala International Airport.

It is anticipated that the projects will be funded by Federal grants from the Federal Aviation Administration (FAA) under its Airport Improvement Program, State grants from the Florida Department of Transportation (FDOT) and/or by City (non-grant) funds. This will require the Consultant to provide input and guidance to the Airport about said programs and to ensure the Airport's compliance with all applicable standards, advisory circulars and regulations of the FAA, State of Florida, City of Ocala and Marion County.

All work awarded under this contract will be for projects in which the estimated construction cost of each individual project does not exceed $4 million, and professional services for each individual project does not exceed $500,000 or the maximum sum allowable by law under Florida's Consultants' Competitive Negotiation Act, Section 287.055, Florida Statutes, as amended, whichever is greater, and agreed upon by the parties. All work will be performed in accordance with industry standards and comply with applicable laws, and regulations.

City reserves the right to modify this scope during negotiations for budgetary reasons.

Prices shall remain firm for the term of the awarded contract.

Surcharges will not be accepted in conjunction with this award, and such charges should be incorporated into the pricing structure.

DETAILED SCOPE OF WORK

In accordance with FAA Advisory Circular (AC) 150/5100-14E, Architectural, Engineering and Planning Consultant Services for Airport Grant Projects, the scope of work for this solicitation is being divided into three categories. The first category involves planning services. The second category involves professional services for the design/bidding of airport development projects and the third category involves professional services for the construction administration/inspection of airport development projects. Work orders will be assigned on an as- needed basis.

Category A – Aviation Planning Services

This category includes studies under the headings of airport system and master planning, airport noise compatibility planning and environmental assessments and related studies. These studies include, but are not limited to, the following activities:

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332 (6332.)

1. Design study to establish the framework and detailed work program.
2. Airport data collection and facility inventories.
3. Aeronautical activity forecasts and demand/capacity analyses.
4. Facility requirements determination.
5. Airfield modeling for capacity and delay.
6. Airport layout and terminal area plan development.
7. Airport noise studies under 14 CFR Parts 150 and 161.
8. Compatible land-use planning in the vicinity of airports.
9. On-airport site selection studies.
10. Airport project development schedules and cost estimates.
11. Airport financial planning and benefit cost analysis.
12. Participation in public information and community involvement programs and/or public hearings relating to airport development and planning projects.
13. Environmental Assessments (EA), Environmental Impact Statements (EIS), and other studies in accordance with FAA Orders 5050.4 and 1050.1.
14. Preparation of or updating of the airport layout plan.
15. Airspace analysis.
16. GIS data collection, entry, and analysis and other electronic graphical/mapping efforts.
17. Project feasibility studies

Category B – Architectural/Engineering Design Services for Airport Development Projects

This category includes the basic A/E services normally required for airport development projects. It involves services generally of an architectural, civil, geotechnical, structural, mechanical, and electrical engineering nature, which include, but are not limited to:

Preliminary Phase

This phase involves those activities required for defining the scope of a project and establishing preliminary requirements. Some examples of activities within this phase of a project include, but are not limited to:

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

1. Coordinating with the City on project scope requirements, finances, schedules, operational safety and phasing considerations, site access and other pertinent matters.
2. As applicable, coordinating project with local FAA personnel and other interested stakeholders to identify potential impacts to their operations.
3. Planning, procuring, and/or preparing necessary surveys, geotechnical engineering investigations, field investigations, and architectural and engineering studies required for design considerations.
4. Developing design schematics, sketches, environmental and aesthetic considerations, project recommendations, and preliminary layouts and cost estimates.
5. Preparing project design criteria and other bridging documents commonly used for alternative project delivery methods such as design-build contracting.

Design Phase

This phase includes all activities required to undertake and accomplish a full and complete project design. Examples include, but are not limited to, those below:

1. Conducting and attending meetings and design conferences to obtain information and to coordinate or resolve design matters.
2. Collecting engineering data and undertaking field investigations; performing geotechnical engineering studies; and performing architectural, engineering, and special environmental studies.
3. Preparing necessary engineering reports and recommendations.
4. Preparing detailed plans, specifications, cost estimates, and design/construction schedules.
5. Preparing Construction Safety and Phasing Plan (CSPP).
6. Printing and providing necessary copies of engineering drawings and contract specifications.

Bidding and Negotiation Phase

The firm shall be required to provide complete services as outlined in the contract or assist the Airport Authority, a t a minimum, with the following tasks.

1. Provide final calculations, construction documents and specifications in consultation with the Owner.

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

2. Prepare and file all applications, data, and documents required to obtain approval of all authorities having jurisdiction over the project.
3. Prepare the necessary bidding technical specifications and bid schedule(s).
4. Prepare a written cost estimate, engineering, and functionality recommendations.
5. Additional services as may be necessary and appropriate.

Other Design Services

The development of some projects may involve activities or studies outside the scope of the basic design services routinely performed by the consultant. These special services may vary greatly in scope, complexity, and timing and may involve several different disciplines and fields of expertise. Examples of special services that might be employed for airport projects include, but are not limited to, the following:

1. Soil investigations, including core sampling, laboratory tests, related analyses, and reports.
2. Detailed mill, shop, and/or laboratory inspections of materials and equipment.
3. Land surveys and topographic maps.
4. Field and/or construction surveys.
5. Photogrammetry surveys.
6. Special environmental studies and analyses.
7. Public information and community involvement surveys, studies, and activities.
8. Assisting the City in the preparation of necessary applications for local, State, and Federal grants.
9. Preparation of property maps.
10. Preparation of quality control plan.
11. Other design services as needed.

Category C – Architectural/Engineering Construction Engineering Inspection Services for Airport Development Projects

This category includes the basic construction engineering inspection services normally required for airport development projects. It may include all basic services

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

rendered after the award of a construction contract, including, but not limited to, the following activities:

1. Providing consultation and advice to the City during all phases of construction.
2. Representing the City at preconstruction conferences.
3. Inspecting work in progress periodically and providing appropriate reports to the City.
4. Reviewing and approving shop and erection drawings submitted by contractors for compliance with design concept/drawings.
5. Reviewing, analyzing, and accepting laboratory and mill test reports of materials and equipment.
6. Assisting in the negotiation of change orders and supplemental agreements.
7. Observing or reviewing performance tests required by specifications.
8. Determining amounts owed to contractors and assisting City in the preparation of payment requests for amounts reimbursable from grant projects.
9. Making final inspections and submitting punch-lists and a report of the completed project to the City.
10. Reviewing operations and maintenance manuals.
11. Making final inspections and submitting punch-lists and a report of the completed project to the City.
12. Providing record drawings.
13. Preparing summary of material testing report
14. Preparing summary of project change orders
15. Preparing grant amendment request and associated justification, if applicable.
16. Preparing final project reports including financial summary.
17. Obtaining release of liens from all contractors.

Ms. Tiffany Kimball, Contracting Officer
City of Ocala
750 SW 60TH Avenue,
Ocala, FL 34474

RE: Request for Professional Services (RPS) for Professional Engineering and Planning Services at Ocala International Airport (LOI#AIR/220118)

Dear Ms. Kimball and Selection Committee Members:

McFarland-Johnson, Inc. (MJ) is pleased to present the City of Ocala (City) and Ocala International Airport (OCF) our response to the above-referenced Request for Professional Services. **McFarland Johnson is a 100% employee-owned firm** comprised of nearly **200 airport planners, engineers,** environmental specialists, software developers, technician/CADD specialists, and administrative professionals, that are proud to make a positive difference for our airport clients through our innovative aviation consulting services and deliverables. With over 75 years of experience, MJ has performed airport planning, design and construction services for over 100 general aviation airport clients across the United States. This work has involved planning, engineering and construction phase projects such as master plans, land development, financial analysis, air service/air cargo studies, runway/taxiway/apron design and construction inspection. We are excited about our success and look forward to sharing our best practices and lessons learned in airport engineering and planning with the City and OCF to help achieve your goals for responsible, community-friendly airport operations and growth.

MJ's aviation practice has grown dramatically over our long history and currently represents more than 50% of our total business. In the past five years alone, MJ has worked under dozens of term agreements with municipal owners of general aviation airports providing comprehensive airport planning, environmental, design, construction administration, inspection, and program implementation services. As OCF's General Consultant, MJ will address all key concerns and issues facing OCF's growth and development. This includes general program assistance, planning and development research, contract and request for proposal document preparation, and other value-added services as needed and requested by OCF.

MJ PROVIDES THE CITY OF OCALA THE FOLLOWING UNMATCHED KEY BENEFITS:

1

PROJECT MANAGER WITH 20+YEARS OF EXPERIENCE WORKING WITH THE OCALA INTERNATIONAL AIRPORT

Robert Overby, P.E. has over 25-years of aviation project management experience and over 20-years working at OCF. His long-term relationships with OCF staff, FDOT District 5 and the Orlando ADO will result in immediate project efficiencies and program execution with no learning curve to advance the City's development and funding goals for OCF.

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

2 A UNIQUE DYNAMIC APPROACH TO AIRPORT PLANNING AND DESIGN THAT INCREASES DEVELOPMENT FLEXIBILITY AND MAXIMIZES PROJECT BUDGETS	MJ's technology-based approach to airport planning and design provides a fresh look and value-added tools that no other firm currently provides, ensuring maximum project efficiency and value through, adjustable scenario modeling, flexible solutions and adaptable outcomes that will allow the City and OCF to proactively evaluate and manage changes in your environment.
3 DEPTH OF RESOURCES & PROVEN EXPERIENCE WITH EXPERTISE FOR ALL SITUATIONS	MJ has both national and local general aviation (GA) experience delivering all project types at similar GA and municipal airports, using next-level thinking that is based on an in-depth knowledge of FAA and FDOT regulations, allowing MJ to advise the City on any issue that may arise.
4 GRANT MANAGEMENT & FUNDING SPECIALISTS TO MAXIMIZE YOUR FUNDING DOLLARS	MJ's dedicated in-house grant funding specialists and grant management experts maximize different combinations of AIP funding, tax-exempt bonds, and other federal and state grants. We seek out potential sources of funding beyond the standard FAA and FDOT programs to maximize funding that will benefit OCF's on-going activities.

We have assembled a Team of local and specialty firms that know the City and Airport and are ready to immediately provide the services outlined in **LOI#AIR/220118**. Our Team includes:

- **Michael Baker International (Baker) –** A nationally recognized aviation engineering, planning and architectural firm who led the new OCF General Aviation Terminal project.
- **Geo-Tech, Inc. –** An Ocala based geotechnical testing firm that has become a pioneer in the art of modern engineering.
- **Environmental Resource Solutions –** A SBA Certified 8(a) women-owned local business specializing in environmental resource and wildlife management services.
- **Hubpoint Strategic Advisors –** A leader in commercial air service planning and development with broad national experience at non-hub airports.
- **Webber Air Cargo -** Webber Air Cargo principally provides cargo-related airport planning services for numerous airports including twelve of the top fifteen U.S. airports (including all five of the largest international cargo gateways.
- **HMMH -** A certified Women-Owned Business Enterprise (WBE), Disadvantaged Business Enterprise (DBE) firm providing expert noise and air quality analyses for airports across the globe.

Our Project Manager Robert Overby and all our employee-owners join me in offering MJ's full commitment to the City and OCF and thank you for the opportunity to present our qualifications to the City and the Selection Committee. We believe the MJ Team's commitment, experience, and staff expertise will perform in an entirely different manner than our competition, making the MJ Team truly the right fit to proactively deliver airport engineering and planning services for OCF.

Should you have any questions regarding the information contained within our submission, please don't hesitate to contact your **Project Manager at ROverby@mjinc.com or on his mobile phone at 904-945-2233.**

Sincerely,
MCFARLAND-JOHNSON, INC.

John Mafera
Vice President/Principal-in-Charge

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76982 (cont.)

ABILITY OF PROFESSIONAL TEAM

With over **50% of our business aviation focused**, our employees, in particular those proposed for this assignment, have dedicated their careers to aviation planning and engineering. The MJ Team provides expert in-house airport planning, engineering, and construction services, backed with full-service permitting, design, project implementation and grant management support for general aviation airports throughout the United States. Our professional aviation staff are available from multiple offices to assist with projects as needed, allowing us to pull in leading specialists and broad expertise to address all areas of your planning, engineering and construction phase service needs. This results in increased project efficiency, decreased costs, and increased time savings for our clients. We understand the importance of having a full-services team to deliver on-call assignments, which tend to vary in complexity and duration. The MJ Team brings a broad planning, engineering, and construction perspective with expertise in every area needed to assist in crafting successful plans for meeting the City and OCF's goals.

The following outlines MJ's full-service capabilities and depth of experience at general aviation airports similar in size and market as OCF and the City. All of these services are directly related to the projects identified in the OCF 5-Year CIP:

AVIATION PLANNING SERVICES

- Dynamic Master Planning
- Financial & Business Planning
- Revenue Enhancement Strategies
- Economic Impact Studies
- Airport Master Plans
- FAA, FDOT, CARES Act, BIL & Other Grants
- Part 139 ACM Updates
- Land Use and Commercial Site Development Planning
- Grant Writing and management
- Public Outreach
- NEPA CATEXs, EAs and EISs
- Environmental Studies
- Air Quality Studies
- SWPP & SPCC Plans
- Wetland Delineation
- Environmental Protection Plans & Monitoring
- St. Johns River Water Management District Permitting
- AEDT Noise and Air Quality Modeling

ARCHITECTURAL/ENGINEERING DESIGN SERVICES

- Runway, Taxiways & Aprons
- Obstruction Removal
- Airfield Lighting & Signage
- Aircraft Hangars
- ARFF, Equipment Storage & Maintenance
- Buildings
- Roadway & Parking Lots
- Security (Fences, Gates, Monitoring Systems, etc.)
- Stormwater Management
- Grading and Drainage
- Vehicular Traffic Analysis
- Non-Aviation Development

ARCHITECTURAL/ENGINEERING CONSTRUCTION ENGINEERING INSPECTION SERVICES

- Project Administration
- Shop Drawing Review Project Documentation
- Construction Quality Assurance Testing & Reporting
- Grant Administration
- Resident Project Representation
- Field and Safety Inspections
- Construction Management
- FAA Specifications Compliance
- Reporting Certification of Payments to Contractors
- Construction Phasing and Sequencing
- Scheduling
- Projects Commissioning & Record Plans
- Construction Cost Control
- Value Engineering

Some of our most recent experience in Florida includes work for the following clients:

- Broward County Aviation Department (BCAD)
- Key West International Airport
- The Florida Keys Marathon International Airport
- Monroe County, FL
- City of Islamorada
- City of Miami Beach
- Tallahassee International Airport

Additionally, Project Manager Robert Overby, has recent experience working with the following clients:

- **OCALA INTERNATIONAL AIRPORT**
- Daytona Beach International Airport
- Jacksonville International Airport
- Jacksonville Executive Airport
- Gainesville International Airport
- Pensacola International Airport
- Melbourne International Airport
- Tallahassee International Airport

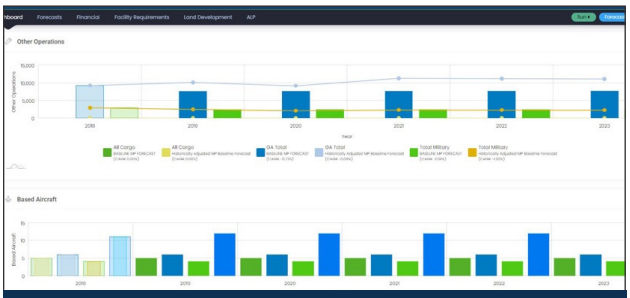
Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332 (6332.)

AVIATION PLANNING

SUCCESS THROUGH INNOVATIVE PLANNING: McFarland Johnson approaches planning activities not as "cookie cutter" projects that closely resemble one another, but rather, MJ specially designs each plan so that it reflects the unique nature of each airport and client, providing our clients with specific, actionable, and measurable plans that can be reasonably executed to maximize the use and economic benefit of their airport assets. McFarland Johnson's aviation planning services include, but are not limited to: business planning, revenue enhancement strategies, financial and economic impact analyses, air service development, terminal facilities analysis, dynamic airport master plans and airport layout plans, site development planning, land acquisition, Navaid studies, airport layout plans (ALP) updates, e-ALP's, and approach feasibility studies

SPECIFIC, RELEVANT MASTER PLANNING EXPERIENCE: At MJ, we take pride in our extensive success in completing innovative airport master planning projects that make a positive difference for our airport clients. We are the airport planning consultant for clients like Florida Keys-Marathon, Key West International, Broward County Aviation Department (BCAD)/Fort Lauderdale, Greenville Downtown, Greenville-Spartanburg, Delaware River & Bay Authority, New Hampshire Department of Transportation, the Vermont Agency of Transportation, the NYSDOT Aviation Bureau, and many others; providing solid plans for both general aviation and commercial service airports.

DYNAMIC AIRPORT MASTER PLANNING: One example of McFarland Johnson's innovation, is our dynamic master planning methodology and Dynamic Analysis Tool (DAT). This innovative approach to airport master planning is a unique and key deliverable of our master plan updates. It makes the traditional, static master plan come alive by providing a tool for airport managers and staff to rapidly calculate and evaluate various operational and development scenarios. The dynamic analysis planning methodology and DAT makes the traditional master plan a true living management tool that can be used, expanded, and built upon well after the master plan project is complete. This process links the forecasts, facility requirements, development scenarios, environmental conditions, financial model, capital improvement plan (CIP) and ALP together so that proposed scenarios can be quickly screened for their impact on the airport's finances, airfield infrastructure, and/or other selected criteria identified by the Airport. **MJ's unique approach keeps the airport master plan flexible, giving the Airport the ability to model future changes and adapt implementation strategies to better plan for changing future conditions and maximize the economic value of projects.** This approach would be extremely beneficial to OCF when evaluating potential new developments such as the proposed Burrell facility and potential impacts due to the World Equestrian Center (WEC).



Screen Capture of GSP Dynamic Airport Master Plan Interface That Gives the County a Flexible Tool to Evaluate Impacts of Changes in Operational Demand on Airport Operations, Facilities and Finances

MJ'S RELEVANT AVIATION PLANNING EXPERIENCE

FINANCIAL PLANNING AND FUNDING

GRANT & FUNDING ASSISTANCE: MJ has a strong track record of assisting airports with federal and state grant administration, as well as other FAA documentation, including Project Readiness Forms and Disadvantaged Business Enterprise (DBE) plans. Our full-time grants staff is familiar with FAA procedures, as well as FDOT Public Transportation Grant Agreements (PTGA) the Joint Automated Capital Improvement Program (JACIP) requirements. Our grants staff also collaborates closely with our clients to submit all documentation on time, or as requested. Examples of airports in which MJ has provided and continues to provide grant management/assistance include Monroe County (Key West International Airport and Florida Keys Marathon Airport), Canandaigua Airport, Saratoga County Airport and Floyd Bennett Memorial Airport.

AIRPORT BUSINESS PLANNING: When it comes to airport business planning, MJ is considered a leader in the field and is highly qualified to provide these services. MJ knows the market, understands the industry and is adept at identifying specific, practical solutions and revenue enhancement strategies for airports. At the most fundamental level, airports are businesses and must operate as such. Airport business planning takes many forms, but is most often associated with the development of plans that incorporate market analytics, deployment strategies, financial analysis, and infrastructure planning. The result is a plan that prioritizes airport development from a strategic business perspective, with the goal of increasing utilization, increasing financial stability, and promoting sustainable growth.

ENGINEERING DESIGN

MJ's airport engineering services include a full range of both airside and landside design capabilities. We have an exceptional group of airport design specialists that understand the demands of meeting design and phasing requirements that provide a safe construction work area for the contractors, while minimizing impacts on airport operations. We have a full complement of civil, transportation, mechanical, electrical and structural engineers experienced at providing comprehensive design packages for our airport clients. Beyond airfield facilities, MJ has been involved in all aspects of landside and terminal design, including rehabilitation and new construction of terminal buildings, passenger boarding facilities, airport support buildings, and aviation fuel facilities, as well as design and/or reconfiguration of access roads and parking. **Prior to joining MJ, Robert Overby and Amanda Sheridan led the Taxiway A Rehabilitation Design Team for the Ocala International Airport.**

Our in-house electrical engineers provide instant support to our design and construction projects. In addition, we have recently completed several relocations and revisions to FAA approach lighting and ILS systems that have included FAA-reimbursable agreements and inclusion of FAA plans in our projects' bid documents. We have provided airfield power and lighting design for many of the above-referenced projects. One specific example of this is the TF Green Airport Runway 16-34 Safety Area Improvements project, in which MJ managed all the electrical and NAVAID / Approach Aid design and construction. Our work included installation of new REIL's and PAPI's, replacement of the ARFF Crash Line, HIRL and MITL lighting relocation and replacement, installation of airport signs, revisions to the Runway threshold lights to work with new EMAS systems, electrical vault modifications, relocation of several MALSR light towers into the EMAS system, and coordination with FAA Airway Facilities.

MJ's landside design experience includes a re-use/relocation of the historic terminal building at Manchester-Boston; a Master Plan Energy Audit at Greater Binghamton Airport; equipment storage facilities at Newport State and Morristown; security improvements at Logan, Manchester- Boston and Hanscom Field; a new JetA and AvGas fuel farm at Windham; hangar design or rehabilitation at Rutland Southern Vermont, Elmira, and Binghamton; a Blackhawk hangar/Army Reserve Readiness Center at Burlington International; parking projects at Manchester-Boston and Worcester Regional; terminal expansion/renovation at Burlington International and Albany International; and access road projects at Manchester-Boston, Hanscom and Albany Airports.

In addition, **recently, Robert Overby has led several completed design and construction projects at Key West International Airport and Florida Keys Marathon Airport, including a new airport access road, elevated maintenance facility, and federal CBP expansion and renovation.**

ARCHITECTURE, M/E/P & STRUCTURAL DESIGN SERVICES - ENERGY-EFFICIENT, SUSTAINABLE, AESTHETICALLY-PLEASING DESIGN: MJ's Facilities Group specializes in overcoming aesthetic challenges without compromising system design, functionality, or energy efficiency. And we back it up with our award-winning designs. MJ provides a full range of planning, design and construction services in support of the construction or modification of airport terminal buildings, aircraft hangars, consolidated rental car facilities, airport rescue and firefighting (ARFF) facilities, and support buildings. We use our multi-disciplined capabilities to provide our clients with teams of experienced structural, mechanical, electrical, plumbing, fire protection, and site/civil engineers, along with our aviation specialists to support all of the airport's building needs. For this assignment, MJ has secured **Michael Baker International, Inc. (Baker)** as an exclusive parter to provide architectural services. Baker was the architect of record fro the New General Aviation Terminal Building at OCF and has a strong working relationship with City and OCF staff.

MJ's recent airport project experience includes an award winning $70 million terminal expansion at Elmira-Corning and a $60 million expansion at the Plattsburgh International Airport; a new airport maintenance facility, security improvements, and terminal renovation projects at the Greater Binghamton Airport; a new restaurant, a new military derivatives completion center, terminal roof, security upgrades and terminal renovations at Elmira Corning; terminal renovations at Albany; equipment storage facilities at Wellsville, Sidney, Piseco, and Lehigh Valley; and new aircraft hangars at Hamilton, Burlington, Tri-Cities, Whitford, Pocono Mountain, Elmira, and Schuylkill Airports. **Additionally, MJ is currently the lead engineer and program manager for Key West International Airport's $90 million Concourse A and Terminal Improvements Program.**

MJ'S RELEVANT DESIGN EXPERIENCE

- Key West International Airport Concourse A and Terminal Improvements Program
- Elmira Corning Regional Airport Terminal Expansion Program
- Key West International Airport New Access Road Design
- Key West International Airport Elevated Maintenance Facility Design
- Key West International Airport Customs & Border Protection (CBP) Design
- Key West International Airport Fuel Farm Expansion Design
- Florida Keys Marathon International Airport Rental Car Facility Design
- Plattsburg International Airport Terminal Expansion
- Orlando Sanford International Airport Rehabilitation of 9L-27R and Taxiway B1
- Burlington International Airport Taxiway B Reconstruction, Markings, Lighting & Signage
- Dover Air Force Base Civil Air Terminal Apron & Taxiway Expansion
- T. F. Green Airport Taxiway N Reconstruction, Marking and Lighting
- Bradley International Airport Taxiway C & R Rehabilitation
- Elmira Corning Regional Airport Runway 24 Extension
- Manchester-Boston Regional Airport Terminal North Expansion
- Ogdensburg International Airport Terminal Expansion
- Elmira Corning Regional Airport New Full Parallel Taxiway A
- TF Green Runway 16-34 Safety Area Improvements Design
- Wilkes-Barre/Scranton International Airport Airline Apron Expansion & Rehabilitation and PAPI Design
- Greater Binghamton Airport Runway 34 Safety Area Improvement Design
- Zephyrhills Municipal Airport Rehabilitation of Runway 4-22
- St. Pete-Clearwater International Airport Terminal Apron Hardstand Expansion – Phases 1 and 2
- Boston Logan International Airport North Cargo Apron Repair
- Jacksonville International Airport Electrical Distribution Upgrades Phase IV
- Elmira Corning Regional Airport Runway 6 Extension & NAVAID Relocation
- Syracuse Hancock International Airport Taxiway M Rehabilitation Design & Lighting
- Morristown Municipal Airport Taxiways D & M Rehabilitation
- Burlington International Airport Terminal Energy Retrofit

CONSTRUCTION SUPPORT SERVICES

MJ's experienced resident engineers and construction administration staff are valued members of our Team; ensuring our aviation clients' construction projects proceed in compliance with design documents and applicable aviation industry standards. We take great pride in our ability to understand our client's unique airport operations and tailor a safety and phasing program that minimizes the impact on airport operations, while providing a high-quality construction project. **To this end, we have full-time dedicated inspection staff ready to begin work in Ocala.**

Our resident engineers come directly from our design engineering staff. We feel it is invaluable experience for an engineer to spend part of the year doing project design and part of the year in the field doing resident engineering. This helps our engineers become better designers, as well as better resident engineers. All of our resident engineers

are experienced at monitoring construction at GA and commercial service airports. They will be your eyes and ears during the construction process and work to see that the contractor provides you with the project that you need, on time, and on budget. MJ has been performing construction administration and resident inspection services for Monroe County at both Key West International and Florida Keys Marathon Airports continuously for the past 5-years.

MJ'S RELEVANT CONSTRUCTION SERVICES EXPERIENCE

- Key West International Airport CBP Expansion and Renovation
- Key West International Airport Elevated Maintenance Facility
- Key West International Airport New Access Road
- Florida Keys Marathon International Airport Rental Car Wash Facility
- Orlando International Airport Taxiway C Rehabilitation and Related Work, Phases A through C
- Boston Logan International Airport North Cargo Apron Repair Construction Phase Services
- Syracuse Hancock International Airport Runway 10-28 Rehabilitation Construction Administration
- Ormond Beach Municipal Airport Construct, Mark, and Light Taxiway G
- Zephyrhills Municipal Airport Rehabilitation of Runway 4-22
- Melbourne International Airport Hangar Improvements (110 Aerospace Drive)
- St. Pete-Clearwater International Airport Terminal Apron Hardstand Expansion – Phases 1 and 2
- T. F. Green Airport Runway 34 End Safety Area, NAVAID Improvements & Wetland Mitigation Construction Administration
- Burlington International Airport Reconstruct, Mark, Light & Sign Taxiway B Reconstruction Construction Administration

ENVIRONMENTAL SERVICES

MJ is a recognized leader in environmental analysis, resource management, and impact evaluation for airport clients. This experience includes National Environmental Policy Act (NEPA) documentation (Environmental Impact Statements, Environmental Assessments, and Categorical Exclusion Forms), archaeological approvals, and other federal, state, and local permits and approvals at Key West International Airport and other facilities including; Fort Lauderdale-Hollywood (FL), Greenville-Spartanburg (SC), Lebanon (NH), Hanscom Field (MA), Newport State (VT), Niagara Falls International (NY), Syracuse Hancock International (NY), Delaware Airpark (DE), and Harrisburg International (PA) Airports, to name a few. We also have experience in aquatic and terrestrial inventories, and hydrogeological investigations. We perform Wildlife Hazard Assessments and Management Plans for airport clients, as well as develop Vegetation Management Plans. Our experience also includes stormwater permits, groundwater management studies, drainage studies and plans, wetland delineations, and wetland permits. We completed air quality studies using and community noise impact assessments using the most recent version of Aviation Environmental Design Tool (AEDT) software; and socioeconomic impact evaluations. **Our staff is also experienced in identifying necessary federal and state permits, preparing permit applications, and submitting permit applications for public agency review and approval, prior to construction of airport improvements. MJ is prepared to assist the City and OCF with any and all environmental considerations for the development of Taxiway C and the west side of the airfield.**

MJ'S RELEVANT ENVIRONMENTAL EXPERIENCE

- Key West International Airport Former Hertz Building HAZMAT Assessment
- Key West International Airport New Access Road Wetland Delineation and Permitting
- Key West International Airport Fuel Farm SFWMD Stormwater Permitting
- Marathon-Florida Keys International Airport Rental Car Wash Facility SFWMD Stormwater Permitting
- Fort Lauderdale-Hollywood International Airport North Runway CATEX
- Fort Lauderdale-Hollywood International Airport SW development Area Short-Form EA
- Buffalo Niagara International Airport Environmental Assessment
- Elmira Corning Regional Airport Runway 6 Extension Environmental Assessment
- Morristown Municipal Airport Habitat Enhancement Plan for Airport Easement
- Edward F. Knapp State Airport Wetland Mitigation
- Harrisburg International Airport Wastewater Treatment Facility Environmental Assessment
- Lebanon Municipal Airport Wildlife Hazard Assessment
- Greater Binghamton Airport Runway 16-34 Safety Area Improvements Environmental Assessment
- Delaware Airpark Environmental Assessment and Wetland Mitigation Design
- NYSDOT Airports Photovoltaic Feasibility Study
- Elmira Corning Regional Airport Access Road & Parking Lot Land Acquisition Environmental Assessment
- Floyd Bennett Airport Wetland Delineation & Mitigation Design
- Fort Lauderdale-Hollywood International Airport Tree Hazard Assessment

ABILITY OF PROFESSIONAL TEAM/ORGANIZATION

The MJ Team is committed to working with the City and OCF, serving as a local extension of your staff and responding to the needs and demands of this contract in an efficient and timely manner. **We have reviewed your 5-year Capital Improvement Plan (CIP) and Mr. Overby has been attending the monthly Airport Advisory Meetings consistently for the past two years to fully understand your goals for OCF**. We have assembled a Team of professionals to specifically matches to the needs of your CIP in addition to listening to the concerns and aspiration of OCF from the Airport Advisory Committee members.

1 EVALUATION CRITERIA NO. 1 | ABILITY OF PROFESSIONAL PERSONNEL

Regardless of the type of service needed, we approach every project by listening carefully to what you need and making sure we clearly understand your issues, concerns, and specific goals. The MJ Team will consider innovative, far-reaching ideas that create airport programs that are flexible, balanced, meet or exceed expectations for service, and are tailored to the specific needs of the City and OCF.

MJ DEVELOPED 3-DIMENSIONAL MODEL OF OCF TERMINAL AND FBO IMPROVEMENTS BASED ON INFORMATION GATHERED FROM AIRPORT ADVISORY MEETINGS THAT CAN BE UTILIZED IMMEDIATELY FOR AIRPORT PLANNING AND DESIGN PROJECTS

Our key personnel were hand-picked by Project Manager Robert Overby, P.E. based on their prior performance on similar projects to OCF, scheduled availability, and their superior ability to complete a specific technical role on this assignment. Although MJ may be considered a "new" firm to the City and OCF, **Robert Overby has led projects at OCF for essentially his entire 25-year career. The major benefit of using the MJ Team for this assignment is that the Team is comprised of local specialty firms that have worked directly with Mr. Overby on numerous projects including some at OCF.**

SUBCONSULTANT PARTNERS

MJ understands that the most efficient and successful way to meet any project need that may arise is with a integrated team of experts with comprehensive and varied airport experience. To that end, we have supplemented MJ's full-service capabilities with a tailor-made team of subconsultants that are known for their depth of resources and specialty experience at airports similar to OCF. Additionally, MJ has partnered with these firms in the past, in some cases multiple times across dozens of projects, and will work seamlessly to implement OCF's project goals. The MJ Team consists of the firms shown in the adjacent table indicating their role in this contract.

SUBCONSULTANT FIRM	ROLE
Michael Baker International, Inc	Architecture
Geotech, Inc	Geotechnical
R.M. Barrineau & Associates, Inc	Surveying & Mapping
Envi. Resource Solutions DBE	**Environmental**
Hubpoint Strategic Advisors, LLC	Cargo
Webber Air Cargo	Air Service
HMMH DBE	**Air & Noise**

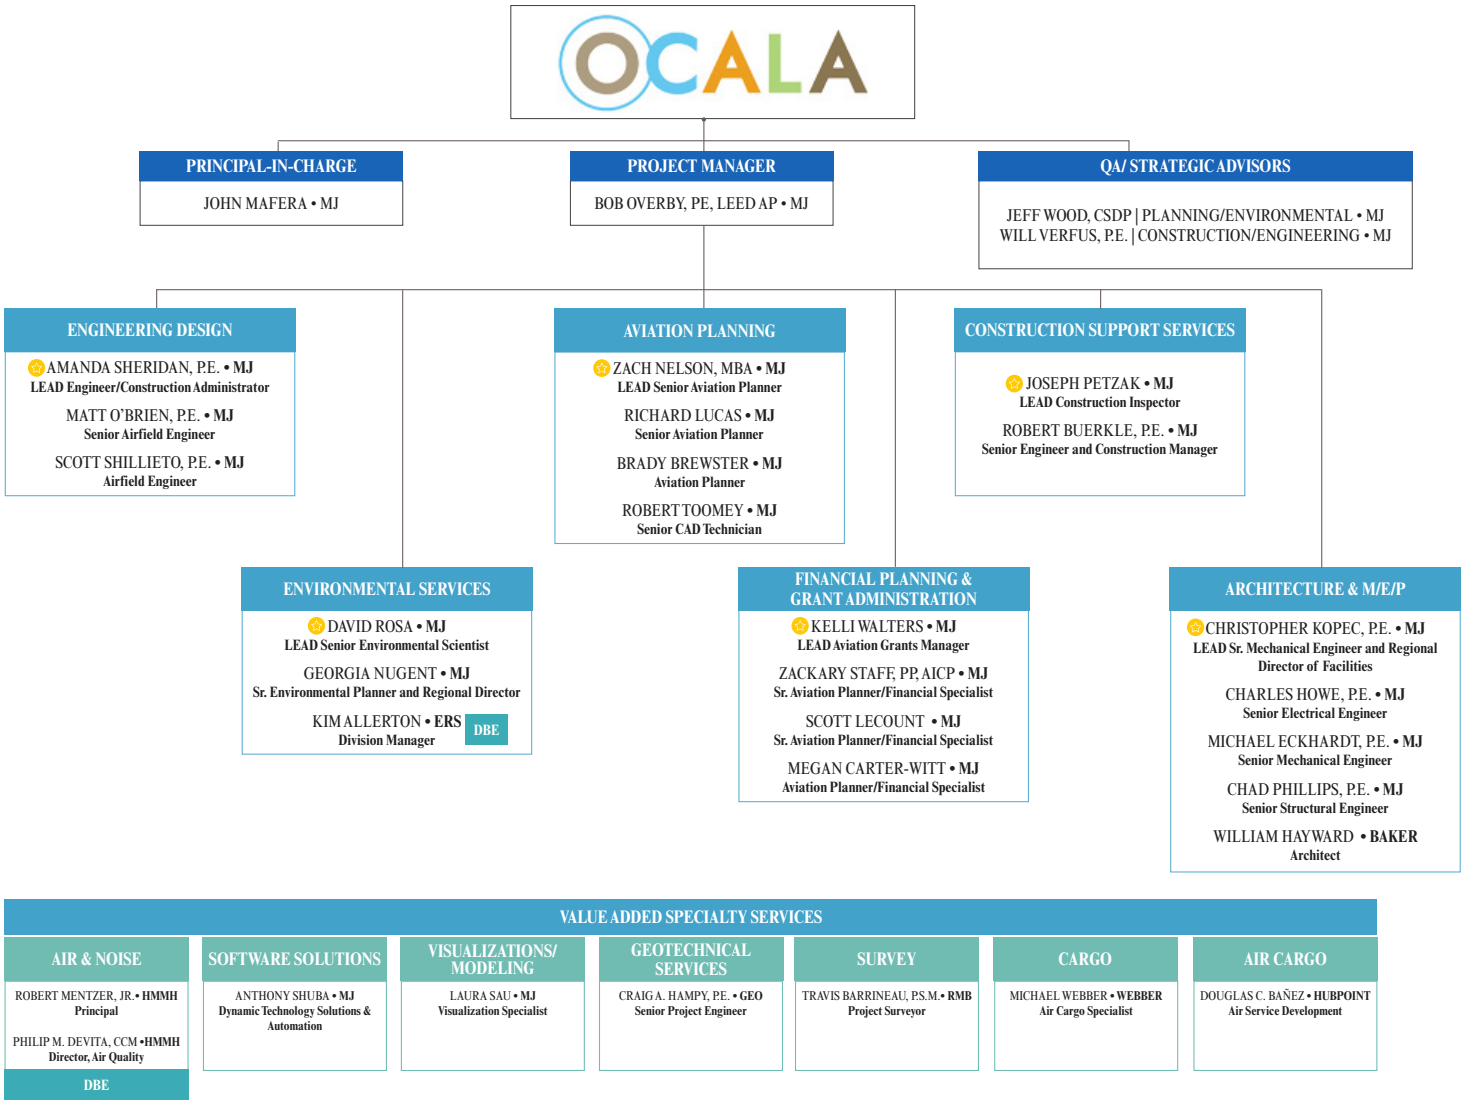
YOUR PROJECT MANAGER'S QUALIFICATIONS

ROBERT OVERBY
PROJECT MANAGER

The MJ Team will be led by **Project Manager, Robert Overby, P.E.,** who brings over 25-years of airport planning, engineering and project management experience to the team. **Throughout his career, Robert has led General Consulting teams at OCF for nearly 20-years and was the Project Engineer for the Runway 18-36 Rehabilitation, Runway 8-26 Rehabilitation and design of Taxiway A.** Additionally, he was the Project Manager for the Air Traffic Control Tower and most recent Airport Master Plan Update. In addition to OCF, Robert served as Project Manager for General Consulting Contracts at the Tallahassee International Airport, Daytona Beach International Airport, Gainesville Regional Airport, Jacksonville Aviation Authority and Pensacola International Airport. Most recently, he has been leading projects at the Key West International Airport and Greensville-Spartanburg International Airport. As your Project Manager, Robert will be the primary point of contact for this project. He will coordinate project task across the entire team and work with the City and OCF staff and project stakeholders.

PROJECT TEAM

We have assembled a strong Project Team, founded on several key factors, including: our ability to provide innovative planning, engineering, permitting, environmental and construction management work; our local presence and high quality, responsive client service; and our familiarity with both the City and OCF and experience at similar Florida and General Aviation airports nationwide. Robert Overby will be supported by a talented group of professionals skilled in all aspects of airport planning, design, environmental, permitting, and construction management services. These dedicated staff are extremely knowledgeable in federal and state guidelines for airport criteria. They keep their skills honed by attending seminars, workshops, and conferences sponsored by the FAA and FDOT, providing the latest updates in aviation technology and procedures, development, and management. Staff members are also familiar with grant and DBE program development and management. The following organizational chart identifies the key team members along with the robust support staff and subconsultant partners, most of whom are already working with the City and OCF.



✱ PLEASE FIND ALL RESUMES FOR YOUR PROJECT TEAM IN **APPENDIX A**

TEAM WORKING TOGETHER ON SIMILAR PROJECTS

We take great pride in our past experience and our ability to meet and exceed your expectations, primarily because we include you every step of the way. Our strategy is to integrate appropriate project "lessons learned" from your staff and our team of partners so we learn from any previous challenges on prior projects. This allows us to tailor each project implementation so we can economically assist you with your ultimate goal of providing facilities and operations that maximize the quality of services delivered to OCF's customers. To this end, **the MJ Team was created specifically by combining firms and staff that have worked together both on similar contracts/ projects and airports, and have successfully delivered projects to OCF and the City.**

MJ is committed to offering qualified subconsultants meaningful opportunities for project participation in areas of their respective strengths and has developed an integrated team of expert firms for OCF. For agreement opportunities like this where specific projects are not fully defined, MJ will work closely with the City and OCF staff to establish a clear scope of services for each task assignment so that we can determine where the subconsultants we have identified within this qualification package can be most appropriately utilized. This close coordination will ensure that you not only meet or exceed overall DBE program goals, but that you receive efficient and timely deliverables utilizing the most appropriate and available resources to meet your project needs.

CHANGE ORDER MANAGEMENT & MINIMIZATION

PLANNING/DESIGN PHASE: MJ utilizes a project control system that permits us to manage cost, schedules and technical quality of work. Cost control reports and budgets are maintained for every project undertaken by the firm. Costs are tracked utilizing biweekly time sheet entries in our comprehensive accounting software. Project Managers receive status reports biweekly which delineate the labor charges for all MJ employees along with a list of direct project expenses, including subconsultant invoices. These accounting measures, combined with project management tools, provide a robust, real-time financial picture of project status. A more comprehensive discussion is presented with the MJ Project Approach in Evaluation Criteria No. 3.

CONSTRUCTION PHASE: **Minimizing change orders is critical to the success of all projects.** MJ prides itself on providing construction documents that are both constructable and minimize change orders. Our proven process includes thorough review of contractor's draw requests and evaluation of construction change order requests submitted by contractors for their reasonableness and potential impact on the scheduled project completion date, as well as viable alternative solutions that maintain progress budgets. The MJ Team will also evaluate and review incentive payments or liquidated damages due to schedule acceleration or delays. Design changes due to unforeseen conditions or contractor's methods of construction are assessed for reasonableness and design options are developed that maintain the construction budget and schedule.

REFERENCES

Our repeat clients are a testament to our success. Our team members strive to deliver the quality service and projects necessary to cultivate trust and forge strong relationships with our clients. Our experience, "whatever it takes" attitude, and ability to respond immediately and efficiently to challenges, have earned us a reputation for competence, which assures our clients that they will receive quality projects. Confirmation of our successful delivery of similar projects is provided in the ***Form 5 | Reference Questionaire for each reference which has been submitted directly to the City, as instructed.*** Supplemental detailed pages of our project references are outlined on the pages that follow.

PAST PERFORMANCE ON SIMILAR PROJECTS

REPUTATION FOR HIGH-CALIBER WORK & PAST PERFORMANCE RECORD

MJ has received dozens of awards and industry recognition for our high-caliber work regionally, as well as nationally. This includes recognition for engineering achievements and leadership ranging from community outreach, environmental work, and planning services, to engineering design and construction. These awards recognize the important achievements of both our clients and employee owners, distinguishing MJ's services in the consulting and engineering industry. MJ has held numerous planning term agreements for airport clients similar in size and nature to OCF. Our ability to deliver airside planning, airside engineering and construction phase services is demonstrated in the following nine examples of similar airport consultant agreements. All completed services have been delivered on time and within budget.

*As stated in the Ocala Bid Portal on 03/07/2022, the following pages are excluded from the proposal's page limit since they serve as additional pages for each reference project to illustrate aspects of the completed project that provides the City information to assess the experience of the Proposer on relevant project work.

MONROE COUNTY AIRPORTS GENERAL CONSULTING SERVICES 5-YEAR TERM

PROJECT DETAILS

- Location: Florida Keys, FL
- On-Budget & On-Schedule
- General Aviation Facilities
- Airport Master Planning, Engineering, Permitting & Construction Administration Services
- Term Agreement

MJ has successfully performed airport projects for Monroe County, providing engineering evaluations, planning, schematic design, design development, preparation of and design criteria reports, cost estimating, specifications, contract documents, bidding support, construction administration and inspections, plans review, environmental evaluations and permitting, and coordination, among others. Our most recent Monroe County projects include:

- Master Plan Update - General Aviation Development Area and NAS Key West Joint Use Study - EYW
- Monroe County Airport Land Development Code (LDC) and Comprehensive Plan Policy Amendments
- Facility HAZMAT Environmental Survey - EYW
- FBO Access Road, Parking, and Stormwater Improvements Planning, Permitting and Design - EYW
- Rental Car Wash Facility Planning, Permitting, Design and Construction - MTH
- Elevated Airport Maintenance Facility Planning, Permitting, Design and Construction - EYW
- Former Hertz Building Demolition - EYW
- Design and Construction CBP Facility Expansion Planning/Programmin & Permitting

BROWARD COUNTY AVIATION DIVISION (BCAD) PLANNING SERVICES AGREEMENT

PROJECT DETAILS

- Location: Fort Lauderdale, FL
- On-Budget & On-Schedule
- General Aviation Facilities
- Airport Master Planning & Engineering Services
- Term Agreement

BCAD is implementing a $3 billion CIP for their facilities, including building new facilities, roads, garages, and utilities. McFarland Johnson, Inc. (MJ) is providing aviation and environmental consulting services to BCAD for the Fort Lauderdale Hollywood International Airport (FLL) and North Perry Airport. To date, MJ has successfully completed the following tasks and assignments: 1. NEPA Documentation and Categorical Exclusion (CATEX) for West Side Dry Retention Pond; 2. Review and revise project documents and previous environmental documentation; 3. Complete ARP SOP 510 form and draft the Technical Supplementary Memorandum to support its transmittal to the FAA.; 4. Review and Evaluation of NEPA Requirements for FY2019 Capital Improvement Plan; 5. Technical memorandum and evaluation of NEPA requirements for the projects identified in the BCAD's CIP for Fiscal Year (FY) 2019 [each project in the CIP was reviewed to determine if the project would constitute a Federal Action, as defined in FAA Order 5050.4B and the level of NEPA review required as part of FAA Order 1050.1F]; 6. Departures Curb Alternatives Review, Evaluation and Recommendations for the reconfiguration of the loading/unloading and thru lanes to reduce congestion; 7. Arrivals Curb Emergency Vehicle Parking Alternatives Review, Evaluation and Recommendation for the reconfiguration of curbfront emergency vehicle parking locations to reduce congestion in conjunction with other terminal curb and roadway improvements; and 8. Cell Phone Waiting Lot Alternatives Review, Evaluation and Recommendation, including alternative layouts, locations and ground access concepts for a new cell phone waiting lot that would redirect circulating traffic and help reduce terminal roadway congestion.

2 EVALUATION CRITERIA NO. 2 | PAST PERFORMANCE

DAYTONA BEACH INTERNATIONAL AIRPORT

PROJECT DETAILS

- Location: Daytona Beach, FL
- On-Budget
- On-Schedule
- General Aviation Facilities
- Airport Planning
- Engineering/Construction

Robert Overby has served as Project Manager/Engineer of Record for the Daytona Beach International Airport for over 20-years. As General Consultant, Mr. Overby has led airfield project including marking/lighting improvements to correct Part 139 inspection deficiencies, runway safety area improvement projects, new ARFF building access road, tree clearing to address wildlife mitigation and has assisted with FAA/FDOT grants and development of 5-year capital improvement programs. He was also the construction engineer of record for sole selection airfield projects including the reconstruction of Runway 7L-25R, Taxiway Y and Taxiway N. Amanda Sheridan served as a resident inspector for the rehabilitation of Taxiway N and tree clearing for wildlife mitigation. A summary of these projects includes:

- Part 139 Marking and Lighting Improvements
- Runway Safety Area Improvements
- ARFF Building Access Road
- Wildlife Tree Clearing
- Runway 7L-25R Reconstruction
- Taxiway Y Construction
- Taxiway N Rehabilitation
- Taxiway N Preliminary Engineering

MASTER CONTRACT FOR ARCHITECTURAL AND ENGINEERING SERVICES FOR AIRPORT IMPROVEMENTS AT PENSACOLA INTERNATIONAL AIRPORT.

PROJECT DETAILS

- Location: Pensacola, FL
- On-Budget
- On-Schedule
- Planning, Engineering and Construction Services

Robert Overby was a project engineer for numerous airfield projects including the rehabilitation of Runway 18-36, Runway 9-27, extension of Runway 18-36, Taxiway A and Taxiway B. Additional projects as a project engineer included avgas fuel tank, terminal pavement marking plans and Airport Master Plan. Recently, Mr. Overby was the client manager for a General Consulting assignment which included projects such as a new Remain-Over-Night parking apron, new General Aviation Federal Inspection Facility and obstruction clearing. A summary of these projects includes:

- Rehabilitation of Runway 18-36
- Rehabilitation of Runway 9-27
- Extension of Runway 18-36
- Rehabilitation of Taxiway A
- Rehabilitation of Taxiway B
- New Fuel Tank
- Terminal Marking Layout
- Airport Master Plan
- Remain-Over-Night Apron
- New General Aviation Federal Inspection Facility

TALLAHASSEE INTERNATIONAL AIRPORT GENERAL CONSULTING CONTRACTS

PROJECT DETAILS

- Location: Tallahassee, FL
- On-Budget
- On-Schedule
- General Aviation Facilities
- Airport Planning
- Engineering

Robert Overby has served as the Project Manager/Engineer of Record for the Tallahassee International Airport for multiple General Consulting Contracts. As General Consultant, Mr. Overby led the airfield design teams for the Reconstruction of Runway 9-27, extension of Runway 18-36 terminal apron drainage rehabilitation. In addition to airfield design, Mr. Overby was the Project Manager for the rehabilitation of the airport maintenance facility, terminal parking lot rehabilitation, terminal security improvements, terminal building interior renovations.
A summary of these projects includes:

- Runway 9-27 Reconstruction
- Runway 18-36 Extension
- Terminal Apron Drainage Improvements
- Maintenance Facility Renovations
- Terminal Parking Lot Rehabilitation
- Terminal Building Security Upgrades
- Terminal Building Interior Renovations

GREENVILLE DOWNTOWN AIRPORT MASTER PLAN

PROJECT DETAILS

- Location: Greenville, SC
- On-Budget
- On-Schedule
- General Aviation Facilities
- Airport Master Planning

The Greenville Downtown Airport Planning Services and Master Plan Update focuses on providing a 20-year development plan for the busiest General Aviation airport in the state of South Carolina by providing focused yet flexible solutions to facilitating new and expanded activities by several disparate types of airport users and tenants. Additionally, a detailed Runway Safety Area (RSA) determination was included in this study effort to provide analysis and guidance relative to mitigating non-standard RSA conditions for the Airport's primary runway without reducing airfield utility. This will provide for additional usable runway length while maintaining required landing distances. After significant engagement with the FAA Airports District Office, FAA Airports Regional office, State Aeronautics Commission, and FAA Headquarters, Airports Division, the preferred mitigation program was identified and Environmental Assessment monies obligated in advance of ALP approvals. The identified improvement proposes EMAS systems at each end of the primary runway after a 370-foot easterly extension over a county road. This improvement when coupled with a 370-foot displacement to one threshold maintains serves to not reduce landing lengths available for any operation and increases runway lengths for takeoff in all directions. Upon completion of the master plan update, MJ was selected for and completed the Environmental Assessment to correct the nonstandard RSAs and protect critical available runway length.

2 EVALUATION CRITERIA NO. 2 | PAST PERFORMANCE

GREENVILLE-SPARTANBURG 5-YEAR ON-CALL PLANNING TERM AGREEMENT

PROJECT DETAILS

- Location: Greer, SC
- On-Budget
- On-Schedule
- Term Agreement

MJ was awarded a five-year on-call planning assignment with the Master Plan as the first task. For the MPU, MJ utilized specialized software, known as a Data Analysis Tool, to develop a flexible master plan for the client. We also customized a land development tool for the client, which enables the Airport to review and assess potential development opportunities, quickly identify available and appropriate parcels for development, and ensure those parcels are utilized for the highest and best use to maximize the economic benefit for the airport. To date, MJ has been involved in several task assignments under this agreement, including:

- Our first task assignment being the Dynamic Master Plan Update ; Miscellaneous land planning support; Auto parking expansion definition and programming report; Expansion of the existing Fixed-Based Operator (FBO) terminal and the expansion of the existing maintenance facilities (which may also include new maintenance-related buildings)
- Airfield Rescue and Fire Fighting Facility building Construction Resident Project Representative
- Passenger facility charge application support. As of 1/22/2020, these tasks represent $2,038,543 in fee.

MORRISTOWN MUNICIPAL AIRPORT TERM AGREEMENT

PROJECT DETAILS

- Location: Morristown, NJ
- On-Budget
- On-Schedule
- General Aviation Facility
- Airport Master Planning
- Term Agreement

McFarland Johnson provides general planning services including obstruction analysis, runway safety area studies, assistance with miscellaneous on- demand planning tasks, and capital program development. In addition, MJ prepared the most recent Master Plan Update for this very busy general aviation airport located in the metropolitan New York City Region. This airport faced many challenges due to its location, environmental constraints, airspace complexities, high demand for facilities suitable for business aviation, and incompatible land uses adjacent to the airport. While fulfilling the requirements of the FAA for the project deliverables, including the ALP plan set, mapping and obstruction data prepared in accordance with the requirements of Advisory Circulars 150/5300-16A, 150/5300-17B, and 150/5300-18B. A detailed inventory of environmental conditions, including a threatened and endangered species study was prepared. This project also involved analysis of the best uses of limited development space, in terms of serving airport users and revenue growth. Alternatives analysis included significant emphasis on sustainable solutions and incorporation of environmental enhancements into the alternatives. Significant public outreach was included. The outreach included convening a technical advisory committee and a series of public meetings, as well as periodic outreach to environmental organizations and regulatory agencies. The project will culminate in the final Master Plan Update report and GIS-format Airport Layout Plan.

2 EVALUATION CRITERIA NO. 2 | PAST PERFORMANCE

DRBA AIRPORTS GENERAL PLANNING SERVICES TERM AGREEMENT

PROJECT DETAILS

- Location: Delaware, NJ
- On-Budget
- On-Schedule
- General Aviation Facilities
- Airport Master Planning
- Term Agreement

Over the past eight years, under several term contracts and renewals, MJ has provided full-service planning and environmental support to the Delaware River & Bay Authority system of airports that are located in both Delaware and New Jersey. With three general aviation facilities, a part 139 certificated commercial service airport and a joint-use facility, the system is diverse in both activity and facility composition. Planning services provided include two airport master plans, a passenger terminal facility assessment, air cargo operations and facility plan, fuel farm planning, capital improvement planning, AIP project eligibility reviews, and Passenger Facility Charge (PFC) program applications and administration. Environmental planning related services include multiple short environmental assessments, wildlife hazard site visits for each of the general aviation airports, a full wildlife hazard assessment for the commercial service airport and multiple airport-wide

✱The project below is not part of our references. **We understand we cannot use the City of Ocala or OCF as a reference**. However, we are using this information for the sole purpose of highlighting our team's past performance and knowledge of the Airport as it is relevant to our team's expertise.

OCALA INTERNATIONAL AIRPORT TAXIWAY A REHABILITATION

PROJECT DETAILS

- Location: Ocala, FL
- On-Budget
- On-Schedule
- Design & Term Agreements
- Planning Engineering Services

Robert Overby served as Project Manager and Project Engineer for multiple term agreements over the past 20-years at the Ocala International Airport. Throughout this period, he has led multiple airfield rehabilitation projects, design and construction of the new Air Traffic Control Tower and the latest airport master plan update. Projects have included:

- Runway 18-36 Rehabilitation
- Runway 8-26 Rehabilitation
- New Air Traffic Control Tower
- Airport Master Plan Update
- Rehabilitation of Taxiway A (Design)
- Airfield Electrical Improvements

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76982 (cont.)

3 **EVALUATION CRITERIA NO. 3 |** PROJECT APPROACH, WILLINGNESS TO MEET TIME AND BUDGET REQUIREMENTS

PROJECT APPROACH

The expectation to provide services on time and within budget is built into the corporate culture at McFarland Johnson. As your Project Manager, Robert Overby will have full authority to commit the resources necessary to complete your projects within budget and schedule. Key to successful progression of each task is the ability to provide the right staff to complete the work elements required and to have access to that staff in a timely manner. MJ reviews monthly long-range projections of workload to define what our staffing needs are over the next year. These projections provide us with the information necessary to determine which additional projects we are able to undertake to ensure successful delivery and level of service.

As your Project Manager, Robert will serve as a liaison between the City, OCF and the MJ Team and will be responsible for communicating the project goals to each Project Team member, as well as delegating responsibilities to the proper individuals. He will oversee the Project Team and will hold periodic staff meetings to coordinate ongoing tasks, monitor progress and report back to OCF to maintain continuous communication. He will review staffing requirements on a regular basis to ensure that appropriate staff is available to keep your projects and overall program on schedule and budget. MJ's proactive approach to projects allows all involved staff to maintain awareness of our client's needs and how their project is progressing. In this manner, MJ responds quickly to changing priorities and can reassign staff to 'get it done' for our clients. We emphasize a proactive approach to project management, where we keep our clients fully informed as to project status.

PROJECT MANAGEMENT PLAN

MJ's approach to project management is client driven and focused on communication and coordination, which we view as two of the most important ingredients to any successful project. MJ has established a collaborative management approach comprised of seasoned airfield engineers, planners and specialists that are focused on delivering superior projects, on-time, within budget, and based on consistent communication and coordination with City and OCF staff. The MJ Team's, plan for servicing the City and OCF begins and ends with Robert Overby, P.E. as your Project Manager. **With over 25-years of airfield engineering and management experience, most of which has been working with OCF, Robert has been and will again be integrated within the City and OCF processes.** He has a strong working relationship with Matt Grow based on experience with previous OCF General Consulting assignments. The most recent was as the design Project Manager/Engineer of Record for the rehabilitation of Taxiway "A". With this General Consulting assignment and all future opportunities at OCF, Robert is committed to exceeding your expectations.

COLLABORATIVE PROJECT SCOPING

The most effective way to control the scope of services and minimize the need for future changes is to develop a comprehensive and detailed scope of work in full collaboration with the City, OCF and all members of the project team. Integral to scoping of projects was the forward-thinking approach of the City and OCF to provide their 5-Year Capital Improvement Program for review and to define the types of projects for the three categories of work anticipated (Aviation Planning, Architectural/Engineering Design and Architectural/Engineering Construction Inspection) throughout the contract. Specifically defining these types of projects enabled the MJ Team to assemble the Team and resources upfront. The steps in preparing this collaborative Scope of Services that accurately describes the full level of work needed to achieve the project goals include the following:

- Prepare a detailed Draft Scope of Services and complete internal Team reviews prior to submitting a draft scope and fee to the City and OCF.
- Meet with OCF to review the Draft Scope of Services and revise based on feedback. This also includes review of the associated project fee and budget, as well as discussion of areas where effort may be adjusted to increase efficiencies and reduce cost.
- Prepare and submit the final Scope of Services or project approval and execution.

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332

3 **EVALUATION CRITERIA NO. 3 |** PROJECT APPROACH, WILLINGNESS TO MEET TIME AND BUDGET REQUIREMENTS

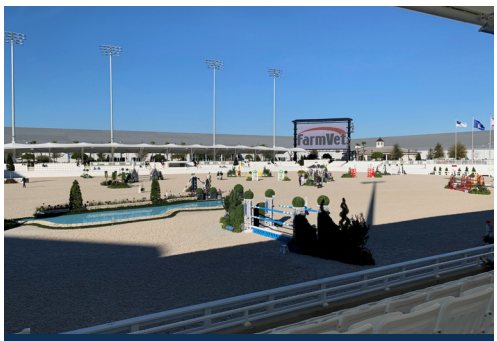
ACTIVE PROJECT MANAGEMENT AND PROGRESS TRACKING

Once the project scope and budget are established, every project at MJ requires development of a written Project Management Plan (PMP) before work can begin to guide execution and management of the project tasks and deliverables. The PMP includes information such as:

- Project Scope of Work
- Detailed project budget
- Detailed project schedule
- Communication plan including name, project role, email, contact number for all MJ Team members
- Quality Assurance and Quality Control measures and report requirements
- A Change Management Plan, and most importantly,
- Client expectations and critical success factors

The PMP will be reviewed by the Principle in Charge, John Mafera, and appropriate Technical Leads. It will be made available to everyone working on the project to ensure complete understanding of responsibilities, schedule, budget and client's needs and expectations. From this basis of collaborative scoping and management planning, regular weekly project meetings, progress reports/ reviews, and earned value tracking will be used to actively track the progress of the project design and identify any potential scope change or additional work well in advance. During construction, the MJ Team will work closely with OCF and project stakeholders to review any change requests for reasonableness and seek available alternative options that maintain the construction budget and schedule. **By utilizing this proven appraoch, the MJ Team will develop and execute a comprehensive scope of work that limits changes or additional work due to scope creep and/or missed work items.**

STAKEHOLDER MEETINGS



World Equestrian Center, Ocala, FL

Based on project size and duration and the City's goals for stakeholder and community engagement, the project may include Stakeholder Meetings. These meetings will ensure the City, OCF and stakeholders are aware of the design status, potential project concerns, and provide an avenue to provide input prior to milestone submittals. The list of appropriate stakeholders will be identified through coordination between MJ and OCF to ensure all necessary groups are included. Potential stakeholders include OCF staff such as Operations and Maintenance, Sheltair Aviation, Flight Schools, and the Air Traffic Control Tower. **An additional stakeholder to consider is the World Equestrian Center (WEC) due the proximity to the Airport and subsequent operational impacts.** Stakeholder engagement programs and meetings have proven to be successful at minimizing questions and identifying items that the design team may not be aware of. Most important is that these meetings have proven to help address potential cost sensitive items during design as opposed to construction which may cause delay or additional cost.

QUALITY SERVICES & QUALITY CONTROL

A unique aspect to the MJ Team organizational structure and project approach is our QA/Strategic Advisors. Quality Assurance (QA) will be led by two senior aviation experts who will assist Robert with identifying and committing appropriate staff for independently reviewing project deliverables. **As Strategic Advisors, Jeffery Wood and William Verfus will also be called upon as "subject matter experts" for engineering, construction, and planning topics for the entire team.** MJ believes that Quality Assurance (QA) is one of the most critical aspects to successful

project delivery. Additionally, for a full-service consulting assignment such as this, proper QA can best be led by an independent subject matter expert. As Strategic Advisors to the Team for this contract, Jeff and William will provide the City with the following key benefits:

1. Lead Quality Assurance for projects within their subject matter or expertise. This effort will include identifying and committing the QA team for each project.

2. Serve as a technical advisor to the Planning, Architectural/Engineering Design and Construction Service Leads when called upon to provide independent and unbiased design or planning guidance. As a team of aviation professionals, MJ commits to maximizing our depth of knowledge and resources utilizing all of our experience, skill sets, and lessons learned firmwide

WORKING WITH THE CITY OF OCALA, OCALA INTERNATIONAL AIRPORT & REGULATORY AGENCIES

Understanding the City and OCF is critical to successfully executing projects on time and within budget. **MJ's project manager, Robert Overby, has worked with Ocala International Airport for the majority of his 25-year career as your general consulting project manager and engineer of record on several projects, and understands what is required to successfully execute projects for the City and OCF.** Additionally, our subconsultant partners have significant experience managing and executing projects for the City and OCF staff. This level of past and present experience working with the City and OCF staff, gives the MJ Team an unparalleled understanding of the processes necessary to execute, manage and deliver projects successfully with no learning curve required.

FAMILIARITY WITH FAA, FDOT AND FL REGULATORY AGENCIES

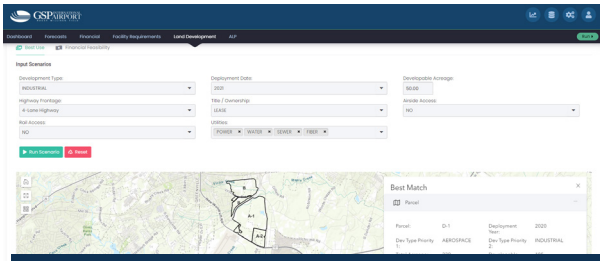
Project Manager Robert Overby and our subconsultant partners have strong existing relationships with the FAA Orlando ADO and Southern Region and FDOT District 5, FDOT Central offices and the St. Johns River Water Management District., providing exceptional access and coordination with federal and state aviation officials. When the need arises, coordination meetings to discuss regulatory guidance or review project scopes, budgets and overall program needs can be scheduled with a quick phone call from our Project Manager to FAA and FDOT partners, greatly increasing the efficiency and success of projects. **Robert has worked with Jennifer Ganley (FAA Orlando ADO) and Allison McCuddy (FDOT District 5) throughout his career on projects at airports throughout Florida, including the Ocala International Airport. Additionally, Amy Reed (FAA Environmentalist) began her career with MJ Team Member Environmental Resource Solutions (ERS). While with ERS, Amy worked on numerous projects with Mr. Overby at the Ocala International Airport, Tallahassee International Airport and Jacksonville International Airport.**

TECHNOLOGY

In addition to providing local responsive service and coordination with the City, OCF, and regulatory agencies, MJ utilizes existing and available technology to streamline the project process and ensure efficient, cost-effective communication and project deliverables. Further, the MJ Team takes pride in being an innovator in the aviation industry, developing advanced technology applications such as our cloud-based Dynamic Aviation Planning Solutions and Airport Inspection Tools. Additionally, MJ employs cutting-edge technology in the workplace including the successful application of the newest advances in project management and project delivery. Understanding that innovation is critical to ensure success for our aviation clients and our business, innovation is an inherent quality in the culture of our company, and it drives maximized value for our clients.

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76932.)

VALUE-ADDED TOOLS AND SERVICES



MJ's Dynamic Land Development Tool Allows Our Clients to Quickly Evaluate Possible Real Estate Development Opportunities Against Their Portfolio Of Land Assets And Quickly Capitalize On Development Opportunities.

One example that demonstrates our application of innovation in ways that maximizes value for our clients is MJ's development of the proprietary Dynamic Analysis Tool (DAT). The DAT is a robust and flexible online tool, developed during the airport planning process, which analyzes future airport scenarios using basic user inputs, allowing an airport sponsor the ability to consider how changes in aircraft operations, cost structure, or even change in airport mission would impact future development and financial outcomes. This allows for consideration of both likely and unforeseen scenarios and adjusts airport plans cost structure and space allocation to incorporate these inputs and scenarios. The growing popularity of MJ's dynamic master plans is a strong indication that our clients value the usefulness the DAT delivers well into the future in this ever-changing industry.

A second value-added service that we are able to offer our clients to assist with difficult development decisions are our modeling and visioning capabilities. MJ utilizes cutting-edge modeling software and techniques to quickly, efficiently, and accurately display rich visualizations of potential solutions, providing an unmatched level of project understanding for our clients. **We utilize these ultra-realistic visualizations to illustrate alternative development options and designs in a virtual environment that is nearly true to life. MJ's visualization capabilities not only provide a comprehensive understanding of the project to our clients but can also be used in enhanced public outreach programs to help individuals better understand the projects taking place in their communities,** which in turn allows for better input from those who will be impacted the most. A specific example of this as it relates to OCF is the proposed Burrell Development and t-hangars on the west and north side of the airport and new hangar development on the south side of the airport. These renderings were created by MJ based on information gathered at the various Airport Advisory Committee meetings and will allow us to immediately execute on your development goals and initiatives.

MJ DEVELOPED 3-DIMENSIONAL MODEL OF HANGAR DEVELOPMENT BASED ON INFORMATION GATHERED FROM AIRPORT ADVISORY MEETINGS

MJ DEVELOPED 3-DIMENSIONAL MODEL OF PROPOSED WEST SIDE MRO AND NORTH SIDE T-HANGAR DEVELOPMENT BASED ON INFORMATION GATHERED FORM AIRPORT ADVISORY MEETINGS

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c7(6932.)

WILLINGNESS TO MEET TIME AND BUDGET REQUIREMENTS

SCHEDULE AVAILABILITY

It is MJ's policy to be selective in responding to Requests for Qualifications. We are committed to focusing on airport projects where our experience and capabilities are well-suited to serve the sponsor's needs. We pride ourselves on maintaining a proactive system of tracking workload to ensure that we have the resources to complete the work required in a timely manner. **With our Team's depth and diversity of personnel, we will successfully deliver any project that may arise at OCF from this agreement and will dedicate our proposed Project Team throughout the length of the General Consultant Agreement.**

MJ uses the above detailed workload tracking system to identify project requirements by staff member for a rolling 12-months

The expectation to provide timely services within budget is built into MJ'S corporate culture. Project Manager, Robert Overby, will have full authority to commit the resources necessary to complete your projects within budget and schedule. Having access to the right staff is key to successful progression of each project and task. The table below provides a list of key staff for this project (as presented in Evaluation Criteria No. 1) and indicates their availability for your project. Please note that we have accounted for vacation time, technical conferences, administrative duties, and other potential assignments. **Be assured that these staff members will be available for your project from beginning to end and will be supported by additional planners, engineers, environmentalists, and other professionals not listed in this proposal as needed.**

WORKLOAD PROJECTION

MJ Project Managers review and report on current project status and future anticipated projects on a monthly basis. This data is utilized to develop a real time workload projection for the overall company in addition to Aviation Planning and Aviation Design/Construction staff. **This data is utilized by Project Managers to collaboratively work together by sharing workload, ensuring all projects, regardless of location are staffed to ensure schedules and budgets are met.** This data is also utilized to prepare for short term or long-term staffages, which ultimately guides our hiring process.

As Robert Overby develops the project scopes and schedules with OCF staff, he will schedule the necessary staff to meet the project deadlines. Mr. Overby will also work closely with the various MJ Team disciplines leads, such as **Amanda Sheridan (Engineering Design) and Zach Nelson (Planning)** to ensure the appropriate staff resources and specialty skill sets are committed to OCF to ensure your goals for project design and delivery are met. At **McFarland-Johnson we take these personnel commitments seriously – we are all cognizant of the fact that when a schedule is agreed to, we have given you a promise that we will meet all of our responsibilities. That is a promise we intend to keep.**

CURRENT WORKLOAD PROJECTION

At right, the MJ Aviation Division's Overall Staff backlog represents the amount of aviation planning, design and construction work that is under contract and scheduled during the next 12 months versus the aviation staff that is available. This data represents the overall MJ Recent and Current Workload requested. It should be noted that this graph only includes work under contract and not anticipated work which MJ has been selected for. Based on the data, MJ will have ample staff for any project requested through this contract.

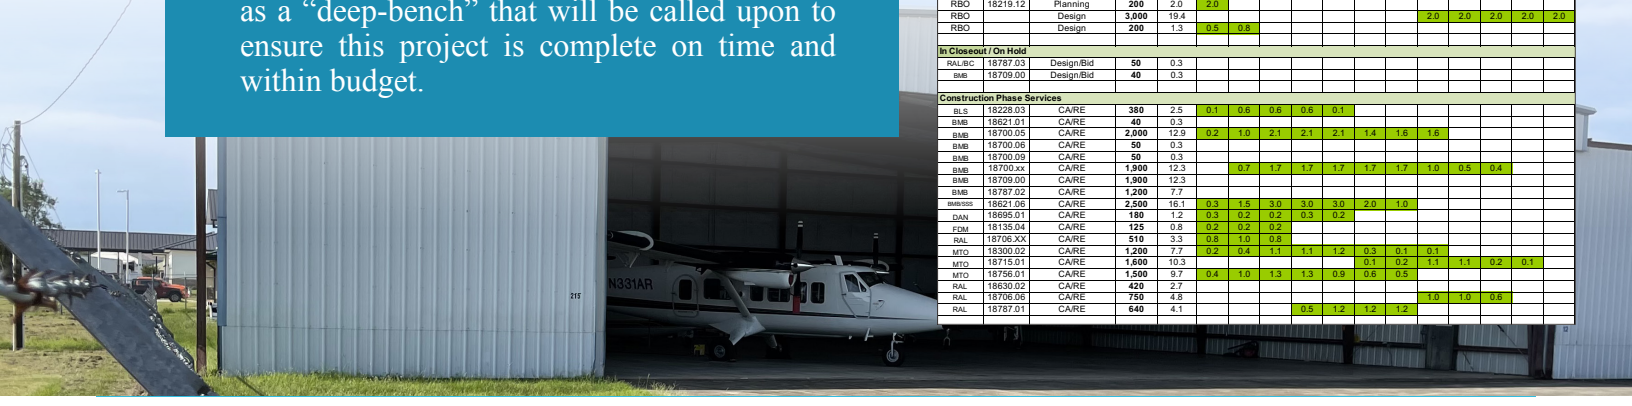
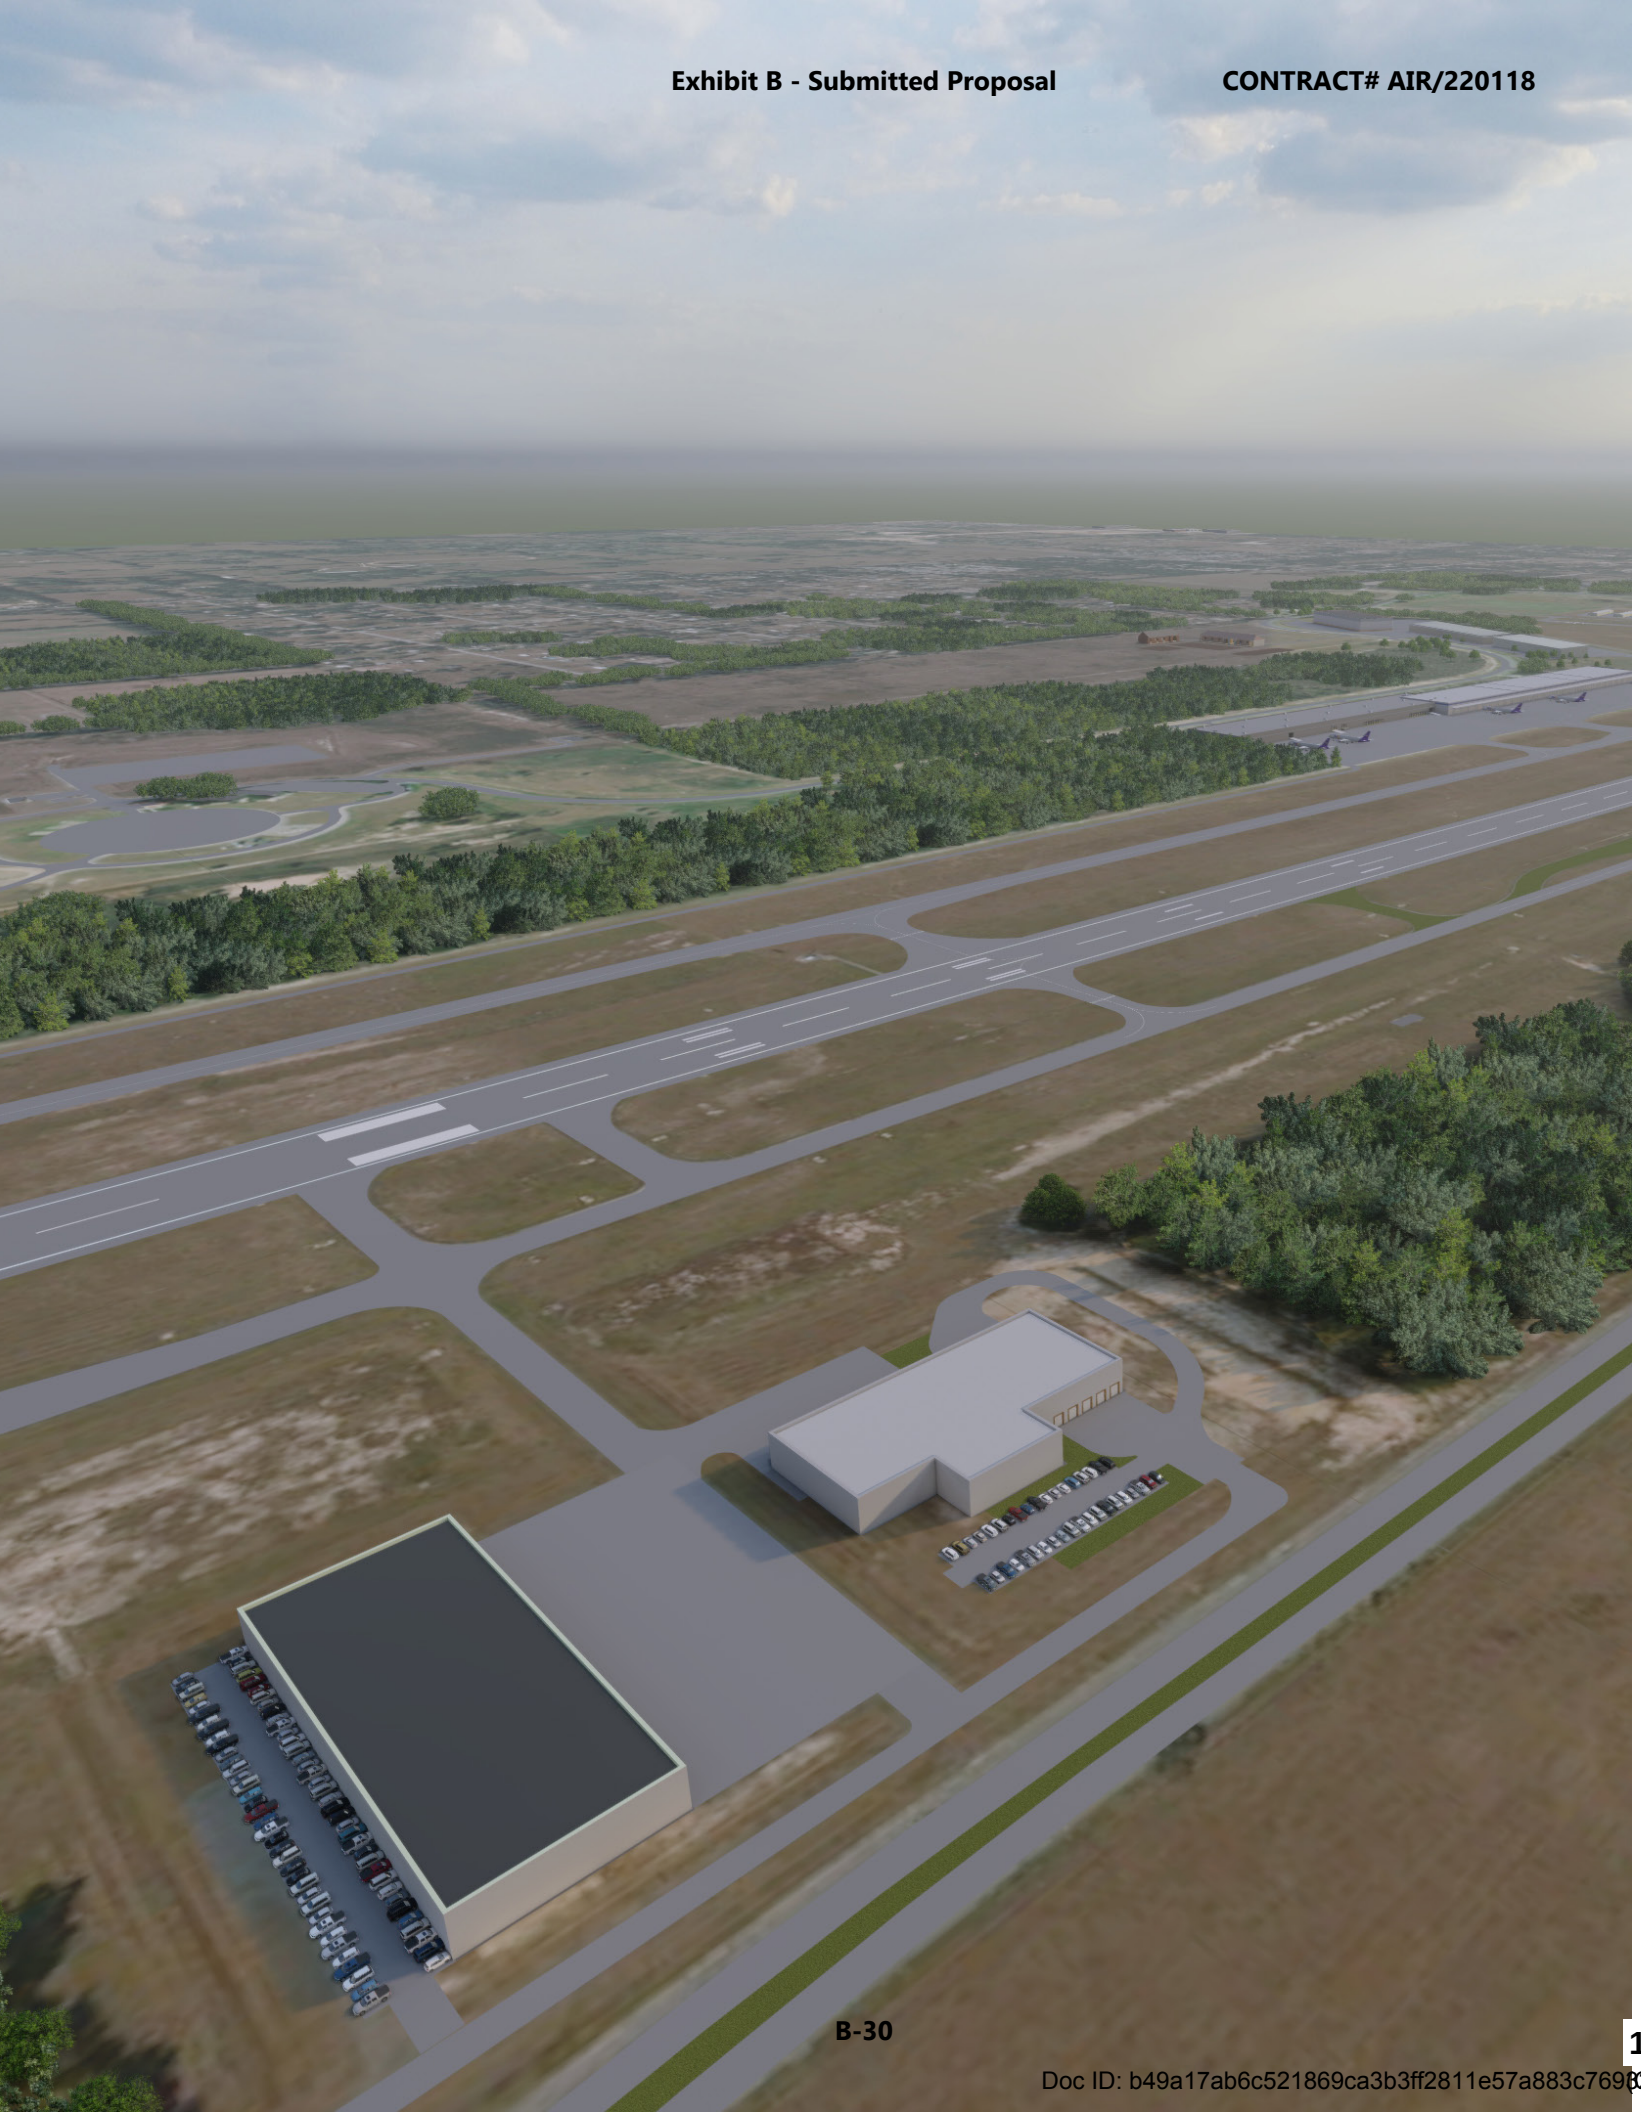
MJ Project Managers work together to ensure success on all projects for all clients. In the event of an accelerated project schedule to acquire FAA grant funding, to meet the needs of a tenant or any other reason, MJ's collaborative approach to staffing and workload projections allows for additional resources not specifically identified in the organizational chart to be called upon. This approach provides an extensive resource of additional planners, engineers and construction specialists that essentially act as a "deep-bench" that will be called upon to ensure this project is complete on time and within budget.





Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76982 (cont.)

ROBERT B. OVERBY, PE, LEED AP

MJ | PROJECT MANAGER

Mr. Overby's experience encompasses over 25-years of dedicated aviation experience in airfield design and planning. Project examples include runway/taxiway/apron construction and/or rehabilitation, terminal/hangar site design, construction management/inspection, grant preparation/management and agency coordination. Airport experience includes general aviation and commercial service airports primarily throughout the southeastern United States. Mr. Overby has worked closely with the FAA's Orlando Airport's District Office and Florida Department of Transportation.

RELEVANT EXPERIENCE

Runway 8-26 Rehabilitation, Ocala International Airport, Ocala, FL-Lead Airfield Civil Engineer. For this runway rehabilitation project, coordinated with FDOT to obtain funding, and developed technical specification for cold-in-place recycling instead of normal mill and overlay.

Runway 9-27 Reconstruction Program, Tallahassee International Airport, Tallahassee, FL-Project Manager. Managed the Runway 9-27 Reconstruction and Runway 18-36 Extension(s) and Rehabilitation. The Runway 18-36 project included extending the runway and parallel taxiway to continue operations with no impact to the commercial air carriers at the Airport during the reconstruction of the primary runway. The approach lighting system and ILS was relocated and a fiber-optic control system installed. The project consisted of earthwork to re-profile the runway to FAA design standards and replacement of all runway lights and signage.

Runway 18-36 Rehabilitation, Ocala International Airport, Ocala, FL-Project Manager. Project included design and bidding phase services for the rehabilitation of Runway 18-36, which was accomplished in less than 60 days. Project included a mill and overlay of the primary runway, which was closed for one week to minimize long term impacts to operations.

Runway 14-32 Rehabilitation, Jacksonville Executive Airport, Jacksonville, FL-Project Manager. Project scope included a mill and overlay, a limited number of connector taxiways, and geometric updates to meet current AC requirements. Project included design, bidding, and construction phase services for the rehabilitation of Runway 14-32 and associated taxiway connectors.

Taxiway N Pre-Engineering, Daytona Beach International Airport, Daytona Beach, FL-Project Manager. Oversaw the evaluation of existing conditions of Taxiway N. Project also included preliminary development of the reconstruction program.

Terminal Rehabilitation Central Circulation Space Design Services, Tallahassee International Airport, Tallahassee, FL-Project Director. Managed the new expanded Security Screening Checkpoint and terminal modernization design, including renovations to existing fire alarm, public address, access controls, and emergency notifications systems.

Airport Security Improvements Design Services, Tallahassee International Airport, Tallahassee, FL-Project Director. Managed design services to review and assess the conditions of the existing security, CCTV, and MUFIDS systems and provided design enhancements to improve the systems in the terminal buildings, the property perimeter, and at other locations such as the fuel farm, ATCT, cargo areas, and operations center.

Taxiway N Reconstruction, Daytona Beach International Airport, Daytona Beach, FL--Project Manager. Provided construction management services for the reconstruction/rehabilitation of Taxiway N, Taxiway P and associated taxiways**.**

ROBERT B. OVERBY, PE, LEED AP

MJ | PROJECT MANAGER

Taxiway Y Construction, Daytona Beach International Airport, Daytona Beach International Airport, Daytona Beach, FL--Project Manger. Provided construction management services for the construction of a new by-pass taxiway.

Runway 16-34 Runway Assessment, Asheville Regional Airport, Asheville, NC-Project manager for the pavement and geometrical assessment of Runway 16-34. Project led to the construction of a new parallel taxiway to allow for reconstruction of Runway 16-34.

Concourse A and C, Jacksonville International Airport, Jacksonville, FL - Project Engineer responsible for providing design and construction administration services for the Concourse A and C aircraft parking apron associated with new concourse construction. Design included airfield lighting, signage and drainage. Responsibilities included coordination with the design team with respect to aircraft parking during construction to minimize aircraft impacts and development of a detailed phasing plan that included modeling of aircraft parking and taxiing in conjunction with various phases of construction. Project Owner: Jacksonville Aviation Authority

Airfield Modifications, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL - Project Engineer responsible for the design of high-speed Taxiway B2, which included a detailed analysis of the geometries and optimal taxiway location. Also responsible for coordination with five (5) other design teams to provide one cohesive design package. The project included design and construction phase services for multiple high-speed exits and connecting taxiways associated with Runway 10L-23R. The design effort was completed on an accelerated design schedule utilizing multiple design teams. High-speed taxiway design was based upon the FAA's REDIM software. Extensive coordination with airlines and FAA staff throughout the project to minimize airport operations was performed. Project included bituminous and concrete pavement design, grading and drainage design, pavement marking/grooving and airfield electrical upgrades (2007). Project Owner: Broward County

Customs Border Patrol Facility Expansion, Key West International Airport, Key West, FL - Engineer responsible for quality control for the design documents, including plan and technical specification review. Planning, design, and construction administration services are being provided for an expansion to the existing Customs Border Patrol facility. Currently, the facility processes 15 passengers per hour. The expanded facility accommodates 150 passengers per hour. Extensive coordination with federal agencies (i.e. DHS and CBP), as well as the FAA and FDOT was required. Project Owner: Monroe County

Elevated Maintenance Facility Design, Key West International Airport, Key West, FL - Engineer responsible for providing constructability review of the final design and construction phase services and Project Manager of Construction Administration Services. Duties included leading the building permit coordination, comment responses and VE revisions and supporting client grant management, and closeout. The scope of work included construction of an elevated airport maintenance vehicle and storage facility area that is connected to the existing elevated airport parking deck. Project Owner: Monroe County

Terminal Expansion Study, Greenville-Spartanburg International Airport, Greer, SC - This project entailed study and development of a project definition and programming (PDP) report that identifies a preferred commercial terminal development program to enable GSP to accommodate up to and beyond 3 million annual enplaned passengers. The resultant $170 million dollar program provides for two concourse expansions, eight additional aircraft gates, expanded commercial aircraft apron (including RON apron), an FIS facility, expanded outbound baggage system, an additional three-unit baggage claim, an expanded administrative suite and significant roadway modifications and terminal curb improvements. Project Owner: Greenville-Spartanburg International Airport

JOHN L. MAFERA, JR.

MJ | PRINCIPAL-IN-CHARGE

Mr. Mafera is a highly-motivated airport consulting professional with 25 years of unique airport planning, design, project and program management experience. He has had direct experience across a broad spectrum of client types and airport issues. Mr. Mafera has served as the business unit leader for a national aviation planning group, aviation business and project and program manager for a variety of multi-disciplinary airport and municipal contracts. Mr. Mafera has specific project experience including strategic airport development plans, airport business and commercial development plans, airport master plans, airport land use planning, eALP and ALP updates, noise compatibility studies, airport site selection and feasibility studies, heliport design, environmental assessments, EMAS and runway safety area studies, aviation forecasting, airport capacity studies, instrument approach and flight procedure planning, and airspace and obstruction analyses. Mr. Mafera is also a certified, instrument-rated, private.

RELEVANT EXPERIENCE

Gerald R. Ford Strategic Real Estate Development Plan, Gerald R. Ford International Airport, Grand Rapids, MI - Project Manager Gerald R. Ford International Airport (GRR), the second busiest commercial service airport in Michigan, is comprised of approximately 3,130 acres of land with approximately 900 acres of property available for lease and development. There are specific real estate development opportunities that require or are significantly enhanced by the presence of the Airport. MJ has been tasked with identifying these aviation/real estate relationships, determining which types of development are appropriate for and desired by the Airport and developing a Strategic Real Estate Development Plan to guide and facilitate desired aviation and non-aviation real estate development. To achieve this objective, MJ will prepare a master land use and site development plan for specific parcels on or adjacent to GRR based on current regional and national market trends and conditions obtained through a real estate market analysis. The unified master land use plan and associated development concepts will provide a framework for future development, evaluate development phasing, costs and financial impacts, identify a strategic implementation action plan and include a comprehensive marketing program and tools to target potential tenants. Project Owner: Gerald R. Ford International Airport Authority

Monroe County (FL) Airports General Consultant 5-Year Term Agreement, Key West Int'l & Florida Keys Marathon Airports, Multiple Locations, FL - Project Manager and Program Manager responsible for coordinating numerous tasks assignments under this agreement. MJ has provided planning, general environmental services, design, permitting and construction services for a number of taks under this term agreement, including a four-bay rental car wash facility at Florida Keys Marathon Airport; as well as demolition of the former Hertz building; expansion of the customs and border protection (CBP) facility; a new two-lane FBO access road; and an elevated parking deck with covered airport maintenance facility area at Key West International Airport. MJ also performed a hazardous materials survey in support of the former Hertz building demolition at Key West International. Project Owner: Monroe County

On-Call Planning Review and Advisory Services, Fort Lauderdale-Hollywood International & North Perry Airports, Fort Lauderdale, FL - Project Manager responsible for coordinating all tasks. Task assignments to date at FLL have included: landside master plan assistance (including parking, circulation and access plans), on-site planning support advisory services (Northwest and West MRO campus development, bikeway analysis, runway drop off safety enhancements, review of NEPA requirements and development of land use alternatives), Categorical Exclusion for the pavement rehabilitation on the North Airfield, and development of a dynamic master plan interface as well as other technical development support (parcel data, portal web page development). Project Owner: Broward County Aviation Department

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76332.)

JOHN L. MAFERA, JR.

MJ | PRINCIPAL-IN-CHARGE

Five-Year On-Call Planning Term Agreement, Greenville-Spartanburg International Airport (GSP), Greer, SC - Program Manager responsible for all contract and technical task assignments under a five-year on-call planning assignment. To date, MJ has been involved in several task assignments under this agreement, including: (1) Master Plan Update; (2) miscellaneous land development planning support; (3) auto parking expansion project definition and programming report; (4) Fixed-Based Operator (FBO) terminal expansion project definition and programming report; (5) airport maintenance facility project definition and programming report (6) Airfield Rescue and Fire Fighting Facility building Construction Resident Project Representative; and (7) passenger facility charge application support. Project Owner: Greenville-Spartanburg Airport Commission

Airport Master Plan Update (MPU), Key West International Airport, Key West, FL - Project Manager responsible for QA/QC, general aviation expansion alternatives, public involvement, and Naval Air Station Key West joint use analysis. This MPU addressed several key issues including runway length requirements, passenger terminal capacity, curbside and parking capacity, aircraft parking positions and apron capacity and configuration, runway and taxiway geometry, and future general aviation (GA) facility requirements. As a subconsultant, MJ was responsible for: evaluation of existing GA and land use conditions, GA and based aircraft forecasts of activity, GA facility requirements and development alternatives, land use planning, NAS Key West joint use facility analyses, and public involvement. Project Owner: Monroe County

Purpose and Need Documentation for Landside Projects, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL - Project Manager - This project included aviation planning analyses essential to the development of required purpose and need projections, calculations, modeling, and documentation to support the alternative refinement of airport landside projects and initiatives including; the Automated People Mover (APM), Parking Garage Demolition and Replacement and the Terminal Loop Roadway and Curbfront Improvements. The purpose and need documentation provided pertinent background information regarding need and justification for the recommended airport improvements as presented in the most recent Master Plan Report, ALP drawing set, and other information provided by BCAD. Existing and projected aviation activity was discussed as it relates to the recommended improvements. Financing, implementation, and phasing of the proposed improvements were also discussed. Project Owner: Broward County

Land Planning & Evaluation Services, Key West & Marathon Airports, Monroe County, FL - Project Manager responsible for overall project, which included detailed site planning, property appraisal, community land use compatibility, environmental impact, and building height/obstruction impact reviews for proposed tenant developments both airports. The project evaluated the overall impact of proposed tenant developments and provide alternatives development solutions when adverse impacts were identified. Project Owner: Monroe County

Phase 1 Dynamic Master Plan Interface, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL - Project Manager - This task included the development of the first phase of a dynamic airport planning and development management interface for FLL that provides adjustable demand-based forecasts, facility development analysis and financial planning, in conjunction with iALP integration and JACIP update capabilities, utilizing existing data from the ongoing FLL airport master plan update. The goal of this interface at full build out will be to provide custom user-defined inputs that adjust levels of forecast demand/activity for subsequent development planning and financial analyses utilizing existing airport master plan update data. Phase I of this development effort included, project administration & coordination meetings, system process and design, Phase I data collection and system integration, Phase I database and user interface development, airport master plan forecasts integration. - Project Owner: Broward County

JEFFREY R. WOOD, CSDP

MJ | STRATEGIC ADVISOR - PLANNING AND ENVIRONMENTAL

Mr. Wood has a diverse environmental background, which includes managing numerous Categorical Exclusion Documents, Environmental Assessments, and Environmental Impact Statements for a variety of projects. Mr. Wood has expert knowledge of FAA requirements and compliance with the National Environmental Policy Act (NEPA). His background includes extensive experience performing wetland delineations and mitigation designs, natural resources inventories, threatened and endangered species habitat surveys, traffic and airport noise studies, air quality studies, and wetland permitting. He is also very familiar with the Airport Improvement Program (AIP) and serves as an FAA liaison. In addition, Jeff is adept at integrating operational needs with AIP requirements to develop Airport Capital Improvement Programs, and he has a track record of success obtaining funding for controversial projects. Mr. Wood is a frequent presenter on airport sustainability issues and is certified as a Sustainable Design Professional through the Association of Energy Engineers.

RELEVANT EXPERIENCE

Master Plan Assistance, Fort Lauderdale Hollywood International Airport, Fort Lauderdale, FL - Lead Environmental Analyst responsible for evaluating environmental constraints and regulatory requirements for cargo facility and cell phone waiting lot alternatives. McFarland Johnson is providing planning assistance under this term agreement. To date, MJ has been involved in a number of task assignments, providing alternatives review and recommendations for projects such as: departure curbs; arrival curb emergency vehicle parking; cell phone waiting lot; and air cargo center. Also provided bike path program development & recommendations; and on-site planning advisory services. Project Owner: Broward County

Fort Lauderdale/Hollywood International Airport Purpose and Need Documentation for Landside Projects, Fort Lauderdale, FL - Principal responsible for strategic review and QA/QC of project documents. This project included aviation planning analyses essential to the development of required purpose and need projections, calculations, modeling, and documentation to support the alternative refinement of airport landside projects and initiatives including; the Automated People Mover (APM), Parking Garage Demolition and Replacement and the Terminal Loop Roadway and Curbfront Improvements. The purpose and need documentation provided pertinent background information regarding need and justification for the recommended airport improvements as presented in the most recent Master Plan Report, ALP drawing set, and other information provided by BCAD. Existing and projected aviation activity was discussed as it relates to the recommended improvements. Financing, implementation, and phasing of the proposed improvements were also discussed. Project Owner: Broward County

On-Call Airport Planning Support and Advisory Services, Broward County Aviation Department, FL - Principal responsible for QA/QC and oversight of project deliverables and schedule. McFarland Johnson is providing planning assistance for Fort Lauderdale/Hollywood International and North Perry Airports under this agreement. To date, MJ has been involved in a number of task assignments, providing alternatives review, site planning and recommendations for projects such as: FLL departure curb improvements; FLL arrival curb emergency vehicle parking; FLL cell phone waiting lot; FLL air cargo center development, FLL and HWO master plan implementation and CIP reviews, various FLL tenant development proposals, FLL commercial aircraft gate modeling and marking revisions, and FLL and HWO NEPA environmental requirements and CATEX/EA document preparation and support. Also, MJ has completed Phase 1 of the Dynamic Airport Master Planning Interface for FLL and provides on-site extension of staff master plan and miscellaneous planning support services. Project Owner: Broward County

JEFFREY R. WOOD, CSDP

MJ | STRATEGIC ADVISOR - PLANNING AND ENVIRONMENTAL

Monroe County Key West International Airport Access Road Design and Construction, Key West, FL - Principal serving as environmental lead responsible for environmental resource identification and permitting. The proposed project involves the conceptual design and permitting of a two-lane landside access road that provides connectivity from S. Roosevelt Boulevard to EYW's fuel farm, fixed base operator (FBO), overflow parking, commercial transportation and airport support areas. Project Owner: Monroe County

Monroe County FKOHT Wetland Mitigation and Environmental Permitting Support, FL - Project Principal responsible for project oversight and QA/QC. The project is funded by FDOT under the Local Agency Program (LAP). MJ is responsible for development of mitigation plans and permitting support for a proposed 1,000' segment of the Florida Keys Overseas Heritage Trail. The project would impact approximately 0.28 acres of coastal wetlands. Compensatory mitigation involves the U.S. Army Corps of Engineers and the South Florida Water Management District. Project Owner: Monroe County

Wilkes-Barre/Scranton Airport Dynamic Master Plan and Airport Layout Plan Update, Wilkes-Barre/ Scranton International Airport, Avoca, PA - Principal serving as the Environmental Task Manager responsible for the Environmental Overview Chapter and evaluating alternatives for potential environmental impacts and permitting requirements. This project involves the development of a dynamic Airport Master Plan that utilizes an innovative approach to airport planning and provides for additional flexibility in airport planning management. The Dynamic Master Plan focuses primarily on landside access, parking and terminal issues, airfield geometry and enhanced commercial land development. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and an enhanced land development and marketing analysis based on highest or best use principles. The Dynamic Master Plan combines all of the data collected with updated aerial mapping to produce an existing conditions Airport Layout Plan (ALP) in keeping with FAA Airports GIS standards. The final product links forecast and market driven development variables to a dynamic and interactive financial plan ALP, making the final dynamic deliverables infinitely more useful to both the FAA and the airport. The land development tool enables the Airport to review and assess potential development opportunities to select for the highest and best use. Project Owner: Wilkes-Barre/Scranton International Airport

Wilmington Airport Dynamic Master Plan, Wilmington Airport, New Castle, DE - Environmental Task Manager responsible for QA/QC review of environmental documentation. With this complex and highly dynamic airport including 4 FBOs, an Air National Guard base, and intermittent periods of commercial service, this plan requires flexibility to take advantage of yet unknown opportunities or changes in market conditions. The plan considers the implications of introduction and expansion of low-cost airline service, which continues to exhibit highly variable growth. An important element of the plan is defining development nodes and evaluating how the growth of those nodes affects other areas of the airport and the financial outlook. In this regard, growth in the passenger terminal area is being evaluated against the GA development opportunities for additional FBOs and large corporate aviation tenants. Airside alternatives that consider the FAA's new airfield geometry requirements add a layer of complexity for the 3 runways at the airport. The dynamic scenario-based interface, combined with the comprehensive AGIS survey, provides a management tool for airport staff, creating flexibility to account for changes within the industry and the general economy. Project Owner: Delaware River and Bay Authority

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76932.)

WILLIAM E. VERFUSS, PE

MJ | STRATEGIC ADVISOR - CONSTRUCTION AND ENGINEERING

Mr. Verfuss has 34 years of progressive experience in the design and management of multi-disciplined projects located throughout the Northeastern United States. This experience includes private, municipal, state, and federally funded projects. His breadth of experience consists of site work, building construction and renovations, and multimillion-dollar pavement construction and rehabilitation efforts. A vast majority of that experience has been spent working with commercial service, general aviation and military airport clients to develop and maintain both their airside and landside airport facilities. He has worked side by side with airport clients to develop and execute capital improvement programs at their airports and is very familiar with airport grant programs, funding requirements and design standards. He has worked with national and regional organizations such as ACI, ACPA, the IPRF, AAAE, and ASCE to improve current design standards through research projects and the review of issues affecting designs across the country.

RELEVANT EXPERIENCE

Greenville-Spartanburg International Airport Dynamic Master Plan & e-ALP Update Greer, SC -Forecast Lead responsible for socio-economic analysis and short/long-term aviation. This Plan includes scenario-based planning analyses and an innovative dynamic planning approach that provides quick feedback regarding possible scenarios and resultant impacts. GSP staff are able to analyze new opportunities and planning challenges proactively before they occur rather than undergoing time consuming and costly planning efforts in a reactionary manner. The Plan focuses primarily on landside access, circulation and auto parking facilities, air cargo facility development and operations, enhanced land development and obstruction planning and consolidation of previous planning efforts into a single electronic source for planning and GIS information. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and enhanced land development and highest or best use principles.

Sullivan County International Airport Term Agreement, Sullivan County International Airport, Monticello, NY - While employed by another firm, Mr. Verfuss served as the Term Agreement Manager for this general aviation airport. He provided aid to the sponsor in the development of the Airport Capital Improvement Program (ACIP), completing applications for Federal and State funding, providing grants administration and supervision of the projects throughout the planning, design and construction phases.During the course of multiple term agreements, the airport was successful in competing for discretionary funding which resulted in the completion of several significant projects. These projects included the Rehabilitation of Runway 16-34 ($3.4M); reconstruction of the terminal apron ($750K); reconstruction of Taxiways A, B, and C ($3.6M); NAVAID improvements, Phases I and II ($200K); Snow Removal Equipment (SRE) building design ($65K); Runway Safety Area (RSA) Study and Environmental Assessment ($75K); perimeter fencing and access controls ($300K). Project Owner: Sullivan County

Perry Warsaw Airport Master Plan Update, Perry-Warsaw Airport, Perry, NY - This project involves a Master Plan Update for the Perry-Warsaw Airport, a general aviation airport in Western New York. The airport is operated by the Towns of Perry and Warsaw and is an important link within the region. The primary objective of the Master Plan Update is to document work completed to date and to ensure that all current FAA design standards are being met. In addition, goals and objectives developed by the Towns of Perry and Warsaw seek to provide a functional and visually appealing facility that supports not only the transportation function, but also supports the region's ongoing and future economic development initiatives. Forecasting and facility requirements for this MPU are key analyses to ensure that these goals will be met. Plans for future facilities include items such

as: new instrument approaches for either end of the primary runway; ensuring compliance with current runway safety area standards; and developing clear runway approaches to ensure the airport operates efficiently. Areas for future hangar and apron development were also identified to ensure that development areas are protected should demand warrant future facilities. Project Owner: Town of Perry

Tri-Cities Airport Master Plan Update, Tri-Cities Airport, Endicott, NY - Since the previous 1993 Master Plan, significant changes to the airport facilities, management structure, and market had warranted an updated Master Plan. Key issues addressed included identification of the critical aircraft, runway length, runway/taxiway separation, and improvements to the Runway 21 approach. A comprehensive inventory of the airport was compiled, forecasts of aviation activity were prepared, and alternatives to address the forecast airport needs were developed. An Airport Layout Plan was also developed. Recommended improvements included increasing the runway/taxiway separation, extending Runway 3-21 to 4000 feet, construction of additional conventional and t-hangars, and other amenities desired by business users. A financial implementation plan completed the study. Public coordination included formation of a technical advisory committee and public information meeting. Project Owner: Village of Endicott

Wilkes-Barre/Scranton Airport Dynamic Master Plan and Airport Layout Plan Update, Wilkes-Barre/Scranton International Airport, Avoca, PA - This project involves the development of a dynamic Airport Master Plan that utilizes an innovative approach to airport planning and provides for additional flexibility in airport planning management. The Dynamic Master Plan focuses primarily on landside access, parking and terminal issues, airfield geometry and enhanced commercial land development. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and an enhanced land development and marketing analysis based on highest or best use principles. The Dynamic Master Plan combines all of the data collected with updated aerial mapping to produce an existing conditions Airport Layout Plan (ALP) in keeping with FAA Airports GIS standards. The final product links forecast and market driven development variables to a dynamic and interactive financial plan ALP, making the final dynamic deliverables infinitely more useful to both the FAA and the airport. The land development tool enables the Airport to review and assess potential development opportunities to select for the highest and best use. Project Owner: Wilkes-Barre/Scranton International Airport

Wilkes-Barre/Scranton Airport Terminal Demolition - Environmental Assessment & Design, Wilkes-Barre/Scranton Airport, Avoca, PA - Project Manager responsible for project coordination. McFarland Johnson is serving as part of a team tasked with the demolition of the old terminal building at the Wilkes-Barre/Scranton International Airport. The project will be completed in three phases: (1) abatement of hazardous materials within the building; (2) building demolition and (3) reclamation of the site including a new aircraft apron, security fencing, and public sidewalks. MJ's responsibilities include the completion of the environmental assessment to enable the project, completion of the construction safety and phasing plans, and design of the new aircraft apron, as well as design of the new security fence and cameras that will service this area. Project Owner: Wilkes-Barre/Scranton International Airport

Greater Binghamton Airport 2011 Five-Year Term Agreement, Greater Binghamton Airport, Maine, NY - Project Manager McFarland Johnson has held several consecutive Term Agreements with the Greater Binghamton Airport. The scope of work under this current term (2011-2016) includes Program Management, Airport Planning, Programming, Environmental Services, Engineering and Design services, construction inspection and administration and specialized services. To date, we have performed 15 task assignments including: Airport Master Plan Update; terminal modifications; apron and tee hangar design and construction administration; rental car service facility design; HVAC system upgrades; security upgrades; Runway 16-34 rehabilitation design; developed a sustainable management plan; and provided administration of the 2015-2016 Passenger Facility Charge Program. Project Owner: Broome County

AMANDA SHERIDAN, PE

MJ | LEAD ENGINEER AND CONSTRUCTION ADMINISTRATOR

Ms. Sheridan has more than six years of experience in the aviation industry. Her design experience includes runway, taxiway, and apron reconstructions and rehabilitations, access roadways, site development, obstruction mitigation, and landside development. Amanda can execute a project from start to finish, including developing plans, specifications, construction cost estimates, construction safety and phasing plans (CSPP), and engineer's reports. Ms. Sheridan is knowledgeable in FAA and DOT design standards, project development procedures, and grant requirements.

RELEVANT EXPERIENCE

Taxiway A Rehabilitation, Ocala International Airport, FL – Civil Engineer responsible airfield design, plan production, and specification development. This project involved design services for the rehabilitation and geometry improvements of existing asphalt Taxiway A, demolition of three connector taxiways, and construction of two new connector taxiways. Project Owner: City of Ocala

Burlington International Airport - Rehabilitate Taxiway A, VT - Project Engineer responsible for leading the design team through project deliverables and construction. The project involves design, bidding, and construction services for the rehabilitation of approximately 1,800 LF x 75' of parallel Taxiway A as well as two connector taxiways. Project includes drainage modifications, review of geometric and grading standards, complex coordination of project phasing to minimize impacts to the parallel runway, new lighting, and permitting. Project Owner: Burlington International Airport

Greenville-Spartanburg - Extension of Staff, Greer, SC - Ms. Sheridan served as a key extension of staff to GSP providing project management for the airfield design and construction projects. She worked closely with GSP staff on tasks related to coordination with consultants, scheduling, project budgeting, Capital Improvement Program planning, contract review, and various owner-requested tasks.McFarland Johnson is providing extension of staff services to GSP providing project management for the airfield design and construction projects. A few of the projects managed by our appointed staff during this time included a parallel taxiway rehabilitation, apron site preparation, utility development, and apron paving. Project Owner: Greenville-Spartanburg Airport Commission

South Access Roadway, Jacksonville Executive at Craig Airport, Jacksonville, FL – Project Manager for this project involving design and bidding services for the construction of a new 1,600 LF asphalt roadway, utilities, and drainage infrastructure. Project Owner: Jacksonville Aviation Authority

Runway 14-32 Rehabilitation, Jacksonville Executive at Craig Airport, Jacksonville, FL - Construction Administrator and Resident Project Representative throughout the length of construction. The project involved design, bidding, and construction services for the asphalt pavement rehabilitation of Runway 14-32 and accompanying taxiway connectors. Project Owner: Jacksonville Aviation Authority

Taxiway A Rehabilitation, Ocala International Airport, FL – Civil Engineer responsible airfield design, plan production, and specification development. This project involved design services for the rehabilitation and geometry improvements of existing asphalt Taxiway A, demolition of three connector taxiways, and construction of two new connector taxiways. Project Owner: City of Ocala

Southwest Remain Overnight (RON) Apron Relocation, Pensacola International Airport, FL – Lead Civil Engineer performing airfield design, plan production and review and specification development. Also served as Resident Project Representative during first 90 days of construction. This project involved design, bidding, and construction services for the reconstruction of an existing asphalt helipad apron to serve as a concrete RON apron, relocation of existing helipads, and electrical and drainage updates. Project Owner: City of Pensacola

AMANDA SHERIDAN, PE

MJ | LEAD ENGINEER AND CONSTRUCTION ADMINISTRATOR

RPZ & Approach Area Obstruction Removal, Daytona Beach International Airport, FL - Project Manager and Lead Civil Engineer. This project involved design and bidding services for the removal of approximately 20 acres of Part 77 surface tree obstructions. Project Owner: Volusia County

Runway 16-34 Rehabilitation, McKinnon-St. Simons Island Airport, St. Simons Island, GA -- Lead Civil Engineer responsible for work tasks including airfield design, plan production, and specification development. The project involved design, bidding, and construction services for the asphalt pavement rehabilitation of Runway 16-34 (3,313' x 75'). Project Owner: Glynn County

West Apron Rehabilitation, Manassas Regional Airport, Manassas, VA - Full-time Resident Project Representative during construction. Design, bidding, and construction services were provided for the rehabilitation of approximately 10,000 square yards of existing asphalt apron pavement. Project Owner: City of Manassas

East General Aviation Apron Expansion, Brunswick Golden Isles Airport, Brunswick, GA - Civil Engineer responsible for airfield design and plan production. This project involved design services for the expansion of 55,000 square yards of concrete pavement on the existing general aviation apron. Project Owner: Glynn County Airport Commission

Runway 15/33 Repair Alkali-Silica Reaction (ASR), Bangor International Airport, Bangor, ME - Senior Engineer responsible for developing and evaluating six pavement design alternatives, providing plan production, and developing construction cost estimates, specifications, and construction safety phasing plans. This project involved the design, bidding and construction services for the repair of two localized surface heaves on Runway 15-33. Project Owner: City of Bangor

Compass Calibration Pad, Brunswick Golden Isles Airport, Brunswick, GA – Lead Civil Engineer responsible for work tasks including airfield design, plan production and review, and specification development. Design and bidding services for the construction of a new concrete compass calibration pad and asphalt taxilane. Project Owner: Glynn County Airport Commission

Tweed - New Haven Airport Master Plan Update, , New Haven, CT - Ms. Sheridan provided cost estimating services. MJ was the prime consultant for the Tweed-New Haven (HVN) Airport Master Plan Update. The project includes airport inventory, preparation of scenario-based forecasts of aviation activity, identification of facility requirements, alternatives analysis, and development of an airport layout plan. Key goals of the Master Plan included addressing the severely undersized terminal and associated landside facilities, determining the ultimate disposition of Runway 14-32, which was inactive at the time the Master Plan started, and determining the ultimate length of the primary runway, RW 2-20. The project also included extensive public outreach and evaluation of environmental constraints and permitting requirements. The project will result in an approved airport layout plan and will provide HVN a flexible planning tool to guide future airport development. Project Owner: Tweed-New Haven Regional Airport Authority

Waterville Taxiway A Reconstruction and New Electrical Vault, Robert LaFleur Airport, Waterville, ME - The City of Waterville is proposing to reconstruct the full-length parallel Taxiway A, and portion of the associated partial stub taxiways at the Robert LaFleur, Waterville Airport (WVL). The MaineSASP has strategically identified Federal Aviation Administration (FAA) eligibility for aviation pavements statewide as a system threat. This project is intended to be submitted for FAA Airport Improvement Program (AIP) funding assistance and the City has tasked McFarland Johnson with design, permitting, and construction oversight of the proposed work. Project Owner: City of Waterville

MATTHEW T. O'BRIEN, PE

MJ | SENIOR AIRFIELD ENGINEER

Matt is experienced in the design and management of aviation improvements for municipal, quasi-municipal and state airports. He understands both operations and infrastructure and he has worked on project scoping, permitting, design, construction oversight, and facility inspection. Matt has developed design reports, contract drawings, specifications, and cost estimates for projects ranging from runway extensions and relocations to taxiway and apron modifications and improvements. His experience includes airports throughout New England from small general aviation facilities like Fryeburg, ME to large commercial facilities like Bradley International in Hartford, CT. He is proficient in the use of AutoCAD Civil 3D, HydroCAD, StormCAD, and AutoTurn.

RELEVANT EXPERIENCE

Cape Cod Gateway Airport Three Year On-Call Planning Services, Barnstable, MA McFarland Johnson was selected to serve as a consultant for this three-term agreement, providing airport planning services for the Cape Cod Gateway Airport (formerly Barnstable Municipal Airport) in Hyannis. The airport is unique in its seasonality and air service role supporting the Cape and Islands region of Massachusetts combined with environmental sensitivities and oversight by the Cape Cod Commission. Tasks under this on-call planning contract include Airport Capital Improvement Plan development, an Airport Business Plan, airline networking presentations, Airport Rates and Charges Study, preparation of an Airport Master Plan, and PFC program amendments. Project Owner: Town of Barnstable, Massachusetts

Bangor Runway 15-33 Repair Alkali-Silica Reaction (ASR) Runway 15/33, Bangor International Airport, Bangor, ME - Project Manager This project involves the design, bidding and construction services for the repair of two localized surface heaves on Runway 15-33. MJ engaged JTC and internal staff to conduct the geotechnical investigation and following the review the results, MJ and APTech developed and presented six pavement design alternatives to the airport and MJ provided recommendations on the best solution for consideration by BGR. The subsequent 30-day period consisted of MJ's publishing of two project deliverables, a stakeholder coordination meeting led by MJ, and the publishing of the final bid documents. MJ reviewed and drafted a Bid Award Recommendation letter to BGR. MJ also completed the FAA Grant Application for execution by the City of Bangor. Pending acceptance of the FAA Grant Application, the ASR repairs will take place in the Fall of 2021. Project Owner: City of Bangor

Pease - Terminal Expansion Design, Portsmouth International Airport at Pease, Portsmouth, NH - The Portsmouth International Airport at Pease is being expanded to include a new concourse and holdroom, a new expanded TSA checkpoint, a new baggage handling system and CBIS building, a new passenger boarding bridge, new concession space, and a new baggage makeup area. Additionally, the project includes improvements to access security, security cameras and paging for the expansion as well as the existing terminal. This $18M expansion includes 24,322 sf of new space. Construction completion is planned for late 2020 and is funded by grants received from the FAA and State of New Hampshire Department of Transportation. The FAA grants include a Supplemental Discretionary Grant as well as use of the airport's Entitlement Grant funding. The proposed improvements are in response to a Study completed in 2018, which identified deficiencies in facility requirements to support the current and planned growth in enplanements at the Airport for both domestic and international carriers. Project Owner: Pease Development Authority

Pease-Terminal Improvements Planning Portsmouth International Airport at Pease, Portsmouth International Airport at Pease, Portsmouth, NH - This study focused on the existing airport terminal building and ancillary needs in the medium-term (2018-2020) and long-term (2020 and beyond). The study considers the

MATTHEW T. O'BRIEN, PE

MJ | SENIOR AIRFIELD ENGINEER

needs of both domestic and international carriers. This project optimized a wide mix of aircraft ranging from A320 to B747 at the existing apron with existing and proposed passenger boarding bridges. This included gate planning, aircraft movements to ensure adequate separation, support vehicle movements, and jet blast reviews for building impacts. Additionally, this project included determining the terminal needs for the short- and long-term capacity and identifying the facility requirements and deficiencies for the terminal building size, automobile parking, and drop off pick-up ramp. Project Owner: Pease Development Authority

Martha's Vineyard Environmental Assessment and Impact Report for Capital Improvement Program Projects, , Martha's Vineyard, MA This project involves preparation of an Environmental Assessment and Environmental Impact Report (EA/EIR) for proposed capital improvements at the Airport. The EA/EIR will be prepared in accordance with FAA National Environmental Policy Act and Massachusetts Environmental Policy Act policies and procedures. The scope of work includes inventory and data collection, development of a purpose and need statement, alternatives development, and Environmental Notification Form (ENF) preparation. Land use, rare species, water supply, wastewater, transportation, energy and solid and hazardous waste resources will all be assessed as part of the ENF. The EA will address climate, Section 4(f) Resources, natural resources and energy supply as well as socioeconomic, environmental justice, and children's environmental health and safety risks. Project Owner: Martha's Vineyard Airport Commission

Belfast-Runway 15 Partial Parallel Taxiway & Runway 33 Bypass Taxiway, Belfast Municipal Airport, Belfast, ME - Project Manager responsible for oversight of all design, permitting, bidding and construction administration. Selected as a new consultant after the project was stalled by permitting, MJ provided stormwater design, wetland permitting, bidding, construction administration and resident engineering oversight on behalf of the City of Belfast. Project Owner: City of Belfast, Maine

Burlington International Airport - Rehabilitate Taxiway A, VT - Project Manager The project involves design, bidding, and construction services for the rehabilitation of approximately 1,800 LF x 75' of parallel Taxiway A as well as two connector taxiways. Project includes drainage modifications, review of geometric and grading standards, complex coordination of project phasing to minimize impacts to the parallel runway, new lighting, and permitting. Project Owner: Burlington International Airport

ESAA-Transient Hangar and Terminal Building Improvement, Eastern Slope Regional Airport, Fryeburg, ME - Project Manager responsible for overall project management including adherence to schedule, coordinating with the architect, and providing support to receive funding. At Eastern Slope Regional Airport in Fryeburg, Maine, MJ is working with the airport authority to construct an FBO style corporate hangar. Working through the congressional delegations of both Maine and New Hampshire, we have helped the authority put together a funding package that includes over $1.5 million. Project Owner: Eastern Slope Airport Authority

Morristown-Runway 5-23 Rehabilitation, Morristown Municipal Airport, Morristown, NJ - Project Engineer responsible for quality control review of design plans. This project included evaluations and analysis, environmental analysis and permitting, design, and bidding associated with the construction of airfield pavement and base course, drainage structures, service roads and bridges, retaining walls, runway safety area (RSA) improvements, Engineered Materials Arresting System (EMAS), and instrument landing system (ILS) facilities for the primary runway at this large general aviation airport. Evaluations completed for the project included on-site environmental investigations, delineation of specifically regulated project areas, evaluations of various impacts in conformance with environmental regulations, geotechnical investigations and laboratory analysis of existing soil properties, investigating and monitoring groundwater elevations, analysis of the current and future

SCOTT S. SHILLIETO, PE

MJ | AIRFIELD ENGINEER

Scott has experience in the design and inspection of aviation projects at both commercial and general aviation facilities. He has assisted on numerous airport design and planning projects, completing tasks that included runway and taxiway layout, drainage design, quantity takeoffs, estimating, pavement design, geometric design, lighting, and signing. He also has experience as a resident engineer at TF Green Airport near Providence, RI, Hanscom Field in Bedford, MA and Manchester Boston Regional Airport, in Manchester, NH. Scott observed construction and completed all required documentation for several projects. Scott is proficient in both AutoCAD Civil3D and MicroStation.

RELEVANT EXPERIENCE

Rhode Island T.F. Green International Airport Runway 34 Construction Administration Phase II - Runway 34 End Safety Area, NAVAID Improvements, and Wetland Mitigation, Rhode Island T.F. Green International Airport, Warwick, RI - Assistant to the Resident Engineer responsible for monitoring the construction of the project. MJ provided resident engineering services to AECOM for Phase II - Runway 34 End Safety Area and NAVAID Improvements and Wetland Mitigation at TF Green Airport, including the runway safety area, EMAS, NAVAID (FAA & RIAC Owned), embankment construction, raising the RW 34 threshold elevation, vehicle service road construction, new pavement, drainage, wetland site mitigations, pavement markings, taxiway and runway lighting, and signage improvements. Project Owner: Rhode Island Airport Corporation

Runway 34 Resident Eng, T.F. Green, RI - Assistant to the Resident Engineer responsible for monitoring the construction of the project. This project reconstructed the end of Runway 34 including a portion of the runway and the entire runway safety (including a new EMAS pad) while providing NAVAID improvements. Project Owner: Rhode Island Airport Corporation

Bangor Runway 15-33 Repair Alkali-Silica Reaction (ASR) Runway 15/33, Bangor International Airport, Bangor, ME - This project involves the design, bidding and construction services for the repair of two localized surface heaves on Runway 15-33. MJ engaged JTC and internal staff to conduct the geotechnical investigation and following the review the results, MJ and APTech developed and presented six pavement design alternatives to the airport and MJ provided recommendations on the best solution for consideration by BGR. The subsequent 30-day period consisted of MJ's publishing of two project deliverables, a stakeholder coordination meeting led by MJ, and the publishing of the final bid documents. MJ reviewed and drafted a Bid Award Recommendation letter to BGR. MJ also completed the FAA Grant Application for execution by the City of Bangor. Pending acceptance of the FAA Grant Application, the ASR repairs will take place in the Fall of 2021. Project Owner: City of Bangor

Belfast-Runway 15 Partial Parallel Taxiway & Runway 33 Bypass Taxiway, Belfast Municipal Airport, Belfast, ME - Assistant Engineer responsible for pavement design/layout, electrical design/layout, safety and phasing plans/reports, erosion control and erosion control plans, bidding and award assistance and miscellaneous construction assistance. Selected as a new consultant after the project was stalled by permitting, MJ provided stormwater design, wetland permitting, bidding, construction administration and resident engineering oversight on behalf of the City of Belfast. Project Owner: City of Belfast, Maine

Bradley Catch Basin Plates Temporary Drainage Structure Repair, Bradley International Airport, Windsor Locks, CT - MJ was contracted to provide design and bid phase services associated with the removal of the existing steel plates and installation of new steel plates on the side-by-side stormwater drainage and glycol collection/ recovery systems catch basins, located on the Air Carrier Apron at Bradley International Airport. MJ provided structural analysis and designed the plates to carry the largest aircraft load anticipated on the Air Carrier Apron as

well as shear calculations for the bolts. As part of the new design, we designed a plate taper and recessed the bolts to allow uninhibited passage of snow clearing vehicles. Additional consideration was given to the stormwater and glycol flows to pass to pass into the basins and provide access to the gate valves located below the catch basin grates. MJ developed the construction safety plan and coordinated with the CAA to determine the progression of the work during construction to minimize impact on passengers. Project Owner: Connecticut Airport Authority

Burlington International Airport - Rehabilitate Taxiway A, VT - The project involves design, bidding, and construction services for the rehabilitation of approximately 1,800 LF x 75' of parallel Taxiway A as well as two connector taxiways. Project includes drainage modifications, review of geometric and grading standards, complex coordination of project phasing to minimize impacts to the parallel runway, new lighting, and permitting. Project Owner: Burlington International Airport

Elmira Corning Terminal Revitalization, Elmira Corning Regional Airport, Horseheads, NY - The design and construction of the $61.5M terminal expansion and renovation, funded through the NY Upstate Airport Economic Development and Revitalization and FAA grant monies, was accomplished with a fast-track approach. The design and construction of the airport terminal improvements was advanced to completion in approximately 18 months, with a scheduled completion date of October 31, 2018. The project included expansion to accommodate a new concourse area, a new security checkpoint, a new baggage handling facility and claim area, and both new and renovated passenger boarding bridges. An enclosed courtyard that showcases the local landscape and was built with sustainable building and renewable energy technologies, including a geothermal heating and cooling system for the entire facility was an important feature. Entirely new M/E/P and fire protection systems were also integral components of this renovated/expanded facility. The project was designed and bid in phases to allow for continued operation of the facility while the terminal expansion was progressing. Project Owner: Chemung County

Hanscom Field Taxilane and Apron Pavement Reconstruction, Laurence G. Hanscom Field, Bedford, MA - Project Engineer responsible for geometric design, pavement parking, shop drawing review, construction safety phasing plan, quantity takeoffs, bidding and addendum preparation, and as-built plans. This project involves design, construction administration and resident engineering for the reconstruction of the taxilane and apron pavements around the Pine Hill T-Hangars at the L.G. Hanscom Field, in conformance with FAA Airport Design guidelines. Recycled pavement was used as a stabilized base course for the new pavement. New bituminous concrete wearing surfaces were constructed throughout the project limits. Phased construction was utilized to minimize disruptions to T-hangar operations. New pavement markings and drainage were also provided. Project Owner: Massachusetts Port Authority

Hanscom Taxiway G Runup Area & Runway 23 Safety Area Improvements, L.G. Hanscom Field, Bedford, MA - Junior Engineer responsible for geometric design, lighting, grading and drainage and preparation of the Construction Safety and Phasing Plan. As the Resident Engineer, Scott was responsible for coordinating testing, monitoring construction activities, reviewing periodic cost estimates, assembling and hosting meetings, and writing meeting minutes. This project involves design, bid phase, construction administration and resident engineering services for the construction of a new runup area on Taxiway G, improvements to the runway safety area (RSA) for the Runway 23 end, and the installation of an airfield access road for a temporary Airfield Rescue and Fire Fighting (ARFF) at L.G. Hanscom Field. The scope of work will include: construction of a new paved aircraft runup area on Taxiway G near the end of Runway 23; rehabilitation of pavement areas within the RSA to reclaim the impervious pavement materials; install 200 ft by 200 ft paved RSA for the Runway 23 end and placement of turf along the rest of the RSA; and constructing a paved road from the temporary ARFF Building Addition to the runway. Careful construction phasing will be provided to minimize disruptions. New pavement markings and lighting improvements to Taxiway G will also be provided. Project Owner: Massachusetts Port Authority

ZACHERIAH E. NELSON, MPA

MJ | LEAD SENIOR AIRPORT PLANNER

Mr. Nelson is an Airport Business Top 40 Under 40 recipient with over 14 years of airport planning and design experience, including both domestic and international projects. Having direct experience across a broad spectrum of airport issues, he has led a variety of projects, including airport master plans, noise compatibility studies, aircraft/airport compatibility assessments, runway safety area determination studies, airspace obstruction analyses, eALP's, aviation forecasting, and airport capacity studies. Mr. Nelson is also experienced in teaching collegiate-level airport planning and design courses, participating in industry conference panel discussions, and conducting focused research.

RELEVANT EXPERIENCE

On-Call Planning Review and Advisory Services, Fort Lauderdale-Hollywood International & North Perry Airports, Fort Lauderdale, FL - Senior Airport Planner responsible for technical deliverables to support alternative development and recommendations for tenant, heliport, airspace planning, air cargo center development and bicycle path programming and providing on-site planning advisory services. McFarland Johnson is providing professional consulting services to the Broward County Aviation Department for projects at Fort Lauderdale Hollywood International Airport and North Perry Airport. Task assignments to date at Fort Lauderdale-Hollywood have included: landside master plan assistance (including parking, circulation and access plans), on-site planning support advisory services (Northwest and West MRO campus development, bikeway analysis, runway drop off safety enhancements, review of NEPA requirements and development of land use alternatives), Categorical Exclusion for the pavement rehabilitation on the North Airfield, and development of a dynamic master plan interface as well as other technical development support (parcel data, portal web page development). Project Owner: Broward County Aviation Department

Dynamic Master Plan Assistance, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL – Senior Airport Planner responsible for technical deliverables to support alternative development and recommendations for tenant, heliport and airspace planning, air cargo center development, and bicycle path programming. McFarland Johnson is providing planning assistance under this term agreement. To date, MJ has been involved in a number of task assignments, providing alternatives review and recommendations for projects such as: departure curbs; arrival curb emergency vehicle parking; cell phone waiting lot; and air cargo center. Also provided bike path program development & recommendations, and on-site planning advisory services. Project Owner: Broward County

Gerald R. Ford Strategic Real Estate Development Plan, Gerald R. Ford International Airport, Grand Rapids, MI - Deputy Project Manager and Lead Planner responsible for branding consultation, alternative development schemas, phasing, financial proformas, DAT development, client engagement and quality review. GRR, the second busiest commercial service airport in Michigan, is comprised of approximately 3,130 acres of land with approximately 900 acres of property available for lease and development. There are specific real estate development opportunities that require or are significantly enhanced by the presence of the Airport. MJ has been tasked with identifying these aviation/real estate relationships, determining which types of development are appropriate for and desired by the Airport and developing a Strategic Real Estate Development Plan to guide and facilitate desired aviation and non-aviation real estate development. To achieve this objective, MJ will prepare a master land use and site development plan for specific parcels on or adjacent to GRR based on current regional and national market trends and conditions obtained through a real estate market analysis. The unified master land use plan and associated development concepts will provide a framework for future development, evaluate development phasing, costs and financial impacts, identify a strategic implementation action plan and include a comprehensive marketing program and tools to target potential tenants.

ZACHERIAH E. NELSON, MPA

MJ | LEAD SENIOR AIRPORT PLANNER

Greenville Downtown Airport Layout Plan (ALP) Updates, Greenville Downtown Airport, Greenville, SC - Project Manager responsible for project coordination. This project will focus on providing a 20-year development plan for the busiest General Aviation airport in the state of South Carolina by providing focused yet flexible solutions to facilitating new and expanded activities by several disparate types of airport users and tenants. Additionally, a detailed Runway Safety Area (RSA) determination will be included in this study effort to provide analysis and guidance relative to mitigating non-standard RSA conditions for the Airport's primary runway without reducing airfield utility. This will provide for additional useable runway length without physical expansion. Project Owner: Greenville Downtown Airport

Greenville-Spartanburg Auto Parking Expansion Project Definition and Programming, Greenville-Spartanburg International Airport, Greer, SC - Deputy Project Manager and Lead Planner responsible for parking demand forecasting, design alternatives identification, value engineering coordination, client engagement and quality review. This project involves development of a project definition and programming (PDP) report, including detailed planning and preliminary engineering drawings, that outline proposed parking development areas, project budgets, and construction schedules to address parking demand through 2025 and 2030 for five (5) parking types and areas. This information will be based on a detailed analysis including: recent changes in parking demand and passenger traffic, preliminary site investigations, revised site layouts, preliminary site grading and construction cost estimates. The PDP will establish forecast demand levels and identify proposed parking areas for public economy parking, employee parking, valet parking and cell phone waiting lot parking. Project Owner: Greenville-Spartanburg Airport Commission

Greenville-Spartanburg International Airport Dynamic Master Plan & e-ALP Update, Greenville-Spartanburg International Airport, Greer, SC - Lead Planner responsible for coordinating and completing project tasks, including inventory of existing conditions and stakeholder engagement, aviation demand forecasting, demand capacity analysis and facility requirements identification, development alternatives support, implementation plan, public participation, and client coordination. This Plan includes scenario-based planning analyses and an innovative dynamic planning approach that provides quick feedback regarding possible scenarios and resultant impacts. GSP staff are able to analyze new opportunities and planning challenges proactively before they occur rather than undergoing time consuming and costly planning efforts in a reactionary manner. The Plan focuses primarily on landside access, circulation and auto parking facilities, air cargo facility development and operations, enhanced land development and obstruction planning and consolidation of previous planning efforts into a single electronic source for planning and GIS information. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and enhanced land development and highest or best use principles. Project Owner: Greenville-Spartanburg Airport Commission

Greenville-Spartanburg International Airport Terminal Expansion Study, Greer, SC - Deputy Project Manager and Lead Planner responsible for development of project definition and programming report (PDP) which identifies a preferred commercial terminal development program to enable GSP to accommodate up to and beyond 3 million annual enplaned passengers. This project entailed study and development of a project definition and programming (PDP) report that identifies a preferred commercial terminal development program to enable GSP to accommodate up to and beyond 3 million annual enplaned passengers. The resultant $170 million dollar program provides for two concourse expansions, eight additional aircraft gates, expanded commercial aircraft apron (including RON apron), an FIS facility, expanded outbound baggage system, an additional three-unit baggage claim, an expanded administrative suite and significant roadway modifications and terminal curb improvements. Project Owner: Greenville-Spartanburg Airport Commission

RICK LUCAS

MJ | SENIOR AVIATION PLANNER

Rick is a project manager, senior aviation planner and licensed private pilot with a unique background in aviation and more than 17 years of airport project management and planning experience. He has been involved in numerous aviation planning studies including airport master plans and state aviation system plans. His expertise includes the research and demand trends analysis of both general aviation and commercial service airports; development of aviation demand forecasts; assessment of airside/landside requirements; financial feasibility assessments; and strategy development; as well as Airline coordination. Rick has extensive experience assisting airport clients with capital program development and funding strategies, supporting program and project development; from needs identification, through funding/grant application and project implementation. Previously, Rick worked in an airport operations department where he learned the fundamentals of airport operations and management, such as knowledge and enforcement of FAR Part 139 and TSR 1542 regulations, emergency accident/incident response, and resolving airport tenant disputes. Rick has also earned a B.S. Degree in Aviation Business Administration, Airport Management from Embry-Riddle Aeronautical University.

RELEVANT EXPERIENCE

Greenville-Spartanburg Auto Parking Expansion Project Definition and Programming, Greenville-Spartanburg International Airport, Greer, SC - Deputy Project Manager and Lead Planner responsible for parking demand forecasting, design alternatives identification, value engineering coordination, client engagement and quality review. This project involves development of a project definition and programming (PDP) report, including detailed planning and preliminary engineering drawings, that outline proposed parking development areas, project budgets, and construction schedules to address parking demand through 2025 and 2030 for five (5) parking types and areas. This information will be based on a detailed analysis including: recent changes in parking demand and passenger traffic, preliminary site investigations, revised site layouts, preliminary site grading and construction cost estimates. The PDP will establish forecast demand levels and identify proposed parking areas for public economy parking, employee parking, valet parking and cell phone waiting lot parking. Project Owner: Greenville-Spartanburg Airport Commission

Greenville-Spartanburg International Airport Terminal Expansion Study, Greer, SC - Deputy Project Manager and Lead Planner responsible for development of project definition and programming report (PDP) which identifies a preferred commercial terminal development program to enable GSP to accommodate up to and beyond 3 million annual enplaned passengers. This project entailed study and development of a project definition and programming (PDP) report that identifies a preferred commercial terminal development program to enable GSP to accommodate up to and beyond 3 million annual enplaned passengers. The resultant $170 million dollar program provides for two concourse expansions, eight additional aircraft gates, expanded commercial aircraft apron (including RON apron), an FIS facility, expanded outbound baggage system, an additional three-unit baggage claim, an expanded administrative suite and significant roadway modifications and terminal curb improvements. Project Owner: Greenville-Spartanburg Airport Commission

Trenton-Mercer Airport New Terminal EA, Design & Construction, Trenton-Mercer Airport, West Trenton, NJ - This project requires preparation of an Environmental Assessment for construction of a new 125,000 SF terminal building, realigned access roads, relocation of the Aircraft Rescue and Firefighting (ARFF) building and an expansion of the vehicle parking lot. Key environmental concerns expressed by the public included noise, air quality, wetlands, floodplains, and stormwater. Project Owner: Mercer County

RICK LUCAS

MJ | SENIOR AVIATION PLANNER

Cape Cod Gateway Airport On-Call Planning & CIP Support, Cape Cod Gateway Airport, Hyannis, MA - Project Manager McFarland Johnson was selected to serve as a consultant for this three-term agreement, providing airport planning services for the Cape Cod Gateway Airport (formerly Barnstable Municipal Airport) in Hyannis. The airport is unique in its seasonality and air service role supporting the Cape and Islands region of Massachusetts combined with environmental sensitivities and oversight by the Cape Cod Commission. Tasks under this on-call planning contract include Airport Capital Improvement Plan development, an Airport Business Plan, airline networking presentations, Airport Rates and Charges Study, preparation of an Airport Master Plan, and PFC program amendments. Project Owner: Town of Barnstable, Massachusetts

Cape Cod Gateway Airport Rates and Charges Study, Cape Cod Gateway Airport, Hyannis, MA - Cape Cod Gateway Airport (formerly Barnstable Municipal Airport) management identified a need to improve the methods by which they establish Airport rates and charges during the annual budgetary cycle. MJ provided a spreadsheet-based financial model that analyzes and demonstrates a direct link between costs borne by the Sponsor and fees charged for use of the airfield and terminal areas. Additionally, the model includes added functionality to support the Sponsor's pricing policy for the fuel concession business, and distinctions rates to accommodate use by signatory and non-signatory operators, and the potential for applying seasonal premiums. The Study documentation provides the basis for a change in rate-making method, includes relevant information and guidance pertaining to FAA grant assurances and Airport Compliance Manual guidance for use by Airport Management and the Airport Commission. Project Owner: Town of Barnstable, Massachusetts

Nantucket Memorial Airport Rates and Charges Study, Nantucket Memorial Airport, Nantucket, MA - The Nantucket Memorial Airport Commission identified a need to study rates and charges at Nantucket Memorial Airport. It was the Airport's goal to evaluate existing levels for rates and charges, as well as to review and update the method for determining rates and charges at the Airport. The study included a review of the existing airport rates and charges, the development of recommendations for updates to existing airport rates and charges, and the development of a recommended rate-setting method and model for recurring use to assist with the long-term development of rates and charges each budget year into the future. In addition, the project included a policy and procedural review to identify any linkage between fees charged with accounts and sub-accounts and to identify any needs for improvements that can aid the Airport in collecting, coding, tracking, and improving the appropriateness of fees for the long-term. Project Owner: Nantucket Airport Commission

DRBA-Develop Passenger Facility Charge Program Application Documents at Wilmington Airport, Wilmington Airport, Wilmington, DE - Senior Airport Planner responsible for project coordination related to the PFC application. This project involves developing a Passenger Facilities Charge (PFC) program application for the Wilmington Airport (ILG). The program incorporates the use of PFC funds collected from 2014 through 2017 and is the first PFC program at ILG. Tasks include coordination with the FAA; the completion of project details and descriptions; preparation of cash flow projections; and establishment and justification of project eligibility. Additionally, the project includes compiling all information for the required notices to air carriers and the public, as well as preparation of a presentation for an air carrier coordination meeting. The result of the project will be a PFC program, meeting all FAA requirements, and the reimbursement of local share costs for over 20 projects. Project Owner: Delaware River and Bay Authority

BRADY BREWSTER

MJ | AVIATION PLANNER

Mr. Brewster is a passionate aviation planner with consulting and on-site experience at a wide range of airports from general aviation fields to the nation's busiest large-hubs. He has conducted Airport Master Plans, including preparation of written narrative reports, forecasts of aviation demand, site planning studies, and graphic model development. He has also conducted commercial aircraft gate analyses, terminal expansion planning studies and coordinated the preparation of policy and procedure documents to optimize planning workflows at large-hub airports. He is experienced in multiple planning platforms including: AviPlan, AutoCAD and Geographic Information Systems (GIS). Mr. Brewster also has experience supporting the day-to-day project and operational planning needs of large commercial service airports as an on-site extension of staff.

RELEVANT EXPERIENCE

Broward - FLL Commercial Air Gate Change Review Process, , Fort Lauderdale, FL - Airport Planner responsible for conducting gate planning and modeling for all 66 existing gates and remaining overnight parking areas at the Fort Lauderdale-Hollywood International Airport. In addition to providing functional figures for maintenance and operations teams to ensure proper paint markings were present on the airfield, Mr. Brewster drafted a policy and procedure documents to directly manage requests from airlines for modification to paint markings at existing gates. This policy, adopted in August 2020 will better utilize airport department resources and ensure a timely planning review is conducted for safety and uniformity of all gate modeling and gate stand paint markings. In addition to policy documentation, an airport-wide model was created with dynamic functionality showing 2D and 3D aircraft parking movements and passenger boarding bridge docking simulations. Project Owner: Broward County

Commercial Aircraft Gate Modeling and Change Review Process at Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL – As a specialist in AviPLAN aircraft modeling software, Mr. Brewster conducted gate planning and modeling for all 66 existing gates and remain overnight parking areas at the Fort Lauderdale-Hollywood International Airport. In addition to providing functional figures for maintenance and operations teams to ensure proper paint markings were present on the airfield, Mr. Brewster drafted a policy and procedure documents to directly manage requests from airlines for modification to paint markings at existing gates. This policy, adopted in August 2020, will better utilize airport department resources and ensure a timely planning review is conducted for safety and uniformity of all gate modeling and gate stand paint markings. In addition to policy documentation, an airport-wide model was created with dynamic functionality showing 2D and 3D aircraft parking movements and passenger boarding bridge docking simulations. Project Owner: Broward County

On-Site Supplemental Planning Support Services for Projects at Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL – Airport Planner for the Broward County Aviation Department responsible for serving as an extension of staff to the Broward County Aviation Department, completing planning analyses, preparing documentation, and conducting advance planning studies to implement an aggressive capital improvement program recommended by the recently completed Master Plan. Fort Lauderdale's vision for the future calls for demand-driven, incremental units of development that include an Automated People Mover (APM) system connecting all four terminals, an intermodal center, a new parking garage and hotel/commercial center, in addition to robust terminal expansion and the addition of a fifth terminal complex to meet growing passenger demand. Mr. Brewster is well versed in FAA planning and design criteria and has prepared maps, figures, reports, and development analyses to strategically guide recommendations on airside and landside development. Project Owner: Broward County

BRADY BREWSTER

MJ | AVIATION PLANNER

Purpose & Need Documentation for Landside Projects at FLL, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL - Extension of staff Airport Planner Airport Planner responsible for serving as an extension of staff to the Broward County Aviation Department, completing planning analyses, preparing documentation and providing QA/QC for all deliverables. This project included aviation planning analyses essential to the development of required purpose and need projections, calculations, modeling, and documentation to support the alternative refinement of airport landside projects and initiatives including the Automated People Mover (APM), Parking Garage Demolition and Replacement and the Terminal Loop Roadway and Curbfront Improvements. The purpose and need documentation provided pertinent background information regarding need and justification for the recommended airport improvements as presented in the most recent Master Plan Report, ALP drawing set, and other information provided by BCAD. Existing and projected aviation activity was discussed as it relates to the recommended improvements. Financing, implementation, and phasing of the proposed improvements were also discussed. Project Owner: Broward County

Greenville-Spartanburg Miscellaneous Land Planning Support, Greenville-Spartanburg International Airport, Greer, SC - Airport Planner responsible for conducting a special study to determine the compatibility of serving a widebody 747 aircraft at the existing terminal layout. Also responsible for preparing 2D and 3D models to show aircraft movements powering in to a proposed widebody parking spot, providing a passenger boarding bridge compatibility assessment, and ensuring all appropriate safety and operational clearances are maintained. Resulted in increased capacity and flexibility for the airport while utilizing existing infrastructure and resources. The Airport has a total of roughly 4,700 acres of land, with approximately 50% of that available for non-aeronautical development. MJ is providing land development and land use planning for various parcels within GSP's portfolio to prepare them for marketing to potential tenants. Parcel development; highest and best use analyses; roadway network and illustrative renderings and modeling are being provided under this task.

City of St. George - SGU Airport Master Plan, St. George Regional Airport, St. George, UT - Airport Planner responsible for assisting with terminal modeling. Conducted spatial analysis for check-in areas, TSA screening areas and passenger hold rooms. He also provided modeling for commercial parking positions on the airfield to ensure compatibility with existing Passenger Boarding Bridges. This project represents the first Airport Master Plan developed for the St. George Regional Airport. The purposed of the Plan is to evaluate the growing needs of the Airport users as well as the aviation needs of the surrounding communities. The first step was to determine a method of forecasting, as there were fewer than ten years of historical data, and the existing facilities were already becoming constrained. A stakeholder committee was established and a public information workshop conducted to encourage public participation in the project. Project Owner: City of St. George

Cape Cod Gateway Airport Master Plan/Airport Layout Plan Update, Cape Cod Gateway Airport, Barnstable, MA - Airport Planner responsible for gate modeling simulations and conceptual terminal modifications that will assess how expanded traffic will impact both airside and landside facilities. McFarland Johnson was selected to create the Master Plan. The airport is unique in its seasonality and air service role supporting the Cape and Islands region of Massachusetts combined with environmental and community sensitivities. The Master Plan includes an airports GIS survey, scenario-based forecasts and capacity that are uniquely influenced by its seasonal service, a robust environmental overview, terminal building and apron review due to changing airline fleets, runway length evaluation, and review of non-standard geometry. Additional considerations are non-aviation revenue and income diversification and roadway access to the airport. Project Owner: Town of Barnstable, Massachusetts

ROBERT TOOMEY

MJ | SENIOR CAD TECHNICIAN

Mr. Toomey is experienced in the use of MicroStation, AutoCAD and ArcView and utilizes this software to develop associated plans, figures and layout sheets for a variety of environmental, planning, and design assignments. Mr. Toomey's experience includes providing plans, details, and quantity estimates to support aviation, highway and bridge projects.

RELEVANT EXPERIENCE

Master Plan Update, Key West International Airport, Key West, FL - Technician responsible for development of Master Plan figures. This Master Plan Update addressed several key issues including runway length requirements, passenger terminal capacity, curbside and parking capacity, aircraft parking positions and apron capacity and configuration, runway and taxiway geometry, and future general aviation (GA) facility requirements. As a subconsultant, MJ is responsible for: evaluation of existing general aviation (GA) and land use conditions, GA and based aircraft forecasts of activity, GA facility requirements and development alternatives, land use planning, NAS Key West joint use facility analyses, and public involvement. Project Owner: Monroe County

Airport Layout Plan Updates, Sumter County Airport, Sumter, SC - CADD Technician responsible for AutoCAD figures, plans and obstruction analysis. McFarland Johnson conducted an Airport Layout Plan Update for Sumter Airport. The project explored the extension of the primary runway to better accommodate mid- to large-sized corporate jets, which are increasingly utilizing the Airport. The plan also identified opportunities to develop new hangar space and diversify airport revenues through targeted asset management. This 14-month project relied heavily on direct engagement with the Airport Sponsor and a diverse group of stakeholders, culminating in an airport development workshop and strong consensus for the recommended plan. The project was funded primarily by the FAA through an AIP grant to the Airport with matching funds provided by both the South Carolina Aeronautics Commission and the Airport Sponsor. Project Owner: Holt Consulting Company, LLC

Airport Layout Plan (ALP) Updates, Greenville Downtown Airport, Greenville, SC - CADD Technician responsible for AutoCAD figures, plans and obstruction analysis. This project will focus on providing a 20-year development plan for the busiest General Aviation airport in the state of South Carolina by providing focused yet flexible solutions to facilitating new and expanded activities by several disparate types of airport users and tenants. Additionally, a detailed Runway Safety Area (RSA) determination will be included in this study effort to provide analysis and guidance relative to mitigating non-standard RSA conditions for the Airport's primary runway without reducing airfield utility. This will provide for additional useable runway length without physical expansion. Project Owner: Greenville Downtown Airport

Dynamic Master Plan & e-ALP Update, Greenville-Spartanburg International Airport, Greer, SC - CADD Technician responsible for AutoCAD figures and plans, GIS work and obstruction analysis. This Plan includes scenario-based planning analyses and an innovative dynamic planning approach that provides quick feedback regarding possible scenarios and resultant impacts. GSP staff are able to analyze new opportunities and planning challenges proactively before they occur rather than undergoing time consuming and costly planning efforts in a reactionary manner. The Plan focuses primarily on landside access, circulation and auto parking facilities, air cargo facility development and operations, enhanced land development and obstruction planning and consolidation of previous planning efforts into a single electronic source for planning and GIS information. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and enhanced land development and highest or best use principles. Project Owner: Greenville-Spartanburg Airport Commission

JOSEPH PETZACK

MJ | LEAD CONSTRUCTION INSPECTOR

Mr. Petzack's experience in the commercial building field includes project management, construction inspection, project planning, scoping, project coordination, and estimating. Commercial building experience also includes inspecting/overseeing single and multiple story additions, new builds, subgrade utilities, and site work.

RELEVANT EXPERIENCE

Key West International Airport Customs and Border Protection Facility Renovation, Key West International Airport, Key West, FL - Construction Inspector responsible for client coordination, schedule, overseeing material installation, quality assurance and project close-out. Planning, design and construction administration services are being provided for an expansion to the existing Customs Border Patrol facility. Currently, the facility processes 15 passengers per hour. The expanded facility will accommodate 150 passengers per hour. Extensive coordination with federal agencies (i.e. DHS and CBP), as well as the FAA and FDOT is required. MJ is providing all civil, M/E/P design construction administration, drainage, environmental, estimation and inspection services. Project Owner: Monroe County

Key West International Airport Elevated Maintenance Facility Design, Permitting and Construction Services, Key West International Airport, Key West, FL - This project involves the construction of an elevated airport maintenance facility at the Airport. The scope of work includes construction of an elevated airport maintenance vehicle and storage facility area that is connected to the existing elevated airport parking deck. The deck will be approximately 100' x 100' to its furthest extent, although the footprint will not be square and will be configured to accommodate site restrictions. A portion of the deck is covered with a roof matching the existing terminal building. Project Owner: Monroe County

Monroe County - EYW Access Road CA, , Key West, FL - This project comprised a new airport access road with parking, drainage, and lighting upgrades. Around 500-feet of two-lane roadway, 140-feet of single-lane land road, 50 parking spots, 440 feet of 8-inch waterline and other miscellaneous items were built. Project Owner: Monroe County

Monroe County - Key West International Airport (EYW) Customs Border Protection Facility Renovations Construction Services, , Key West, FL - Construction Inspector responsible for client coordination, schedule, overseeing material installation, providing quality assurance and project close-out. The project consists of construction to renovate the existing Terminal Building Annex that houses the U.S. Customs and Border Protection Facilities (CBP) at Key West International Airport (EYW) for the County of Monroe, FL. The primary goal of the project is to complete a modernization of the existing CBP facilities and includes demolition and renovation of approximately 5,000 sf of interior space. The construction project is scheduled to start in May 2020 and is scheduled for completion in June 2021. Project Owner: Monroe County

Elmira Corning Terminal Revitalization, Elmira Corning Regional Airport, Horseheads, NY - Construction Inspector responsible for facilitating coordination among multiple primes and subcontractors working in a small space on a tight deadline. The design and construction of the $61.5M terminal expansion and renovation, funded through the NY Upstate Airport Economic Development and Revitalization and FAA grant monies, was accomplished with a fast-track approach. The design and construction of the airport terminal improvements was advanced to completion in approximately 18 months, with a scheduled completion date of October 31, 2018. The project included expansion to accommodate a new concourse area, a new security checkpoint, a new baggage handling facility and claim area, and both new and renovated passenger boarding bridges. An enclosed courtyard that showcases the local landscape and was built with sustainable building and renewable energy technologies,

including a geothermal heating and cooling system for the entire facility was an important feature. Entirely new M/E/P and fire protection systems were also integral components of this renovated/expanded facility. The project was designed and bid in phases to allow for continued operation of the facility while the terminal expansion was progressing. Project Owner: Chemung County

Monroe County - MTH Car Wash Construction Services, , Marathon, FL - Construction Inspector responsible for submittal tracking, schedule, overseeing material installation, quality assurance and project close out. This project includes the construction of a 3,200 square foot car wash facility and driveway path to service rental car fleets and Monroe County Department of Public Works vehicles at the Florida Keys Marathon Airport. The project will include the following major work items: utility installations to service the car wash facility; construction of a four bay CMU car wash building; electrical, and mechanical equipment; asphalt driving path between wash facility and rental car parking area; and stormwater management facilities. MJ will provide professional services including administrative, resident inspection, geotechnical, as well as materials field and laboratory testing services during the construction of the project. Project Owner: Monroe County

T-Hangar Taxilanes Phase I-East Reconstruction & Main Apron Rehabilitation, Cortland County Airport, Cortland, NY - Construction Inspector responsible for construction supervision. The taxilane reconstruction requires an 86,000-sf, full-depth pavement reconstruction. The main apron rehabilitation required approximately 125,000 sf of pavement mill and overlay, and approximately 53,000 sf of full-depth pavement reconstruction. Pavement markings, drainage improvements and new edge and overhead lighting will also be provided. Design, bidding and construction administration services were provided. Project Owner: Cortland County

Hamilton - Apron Expansion Design, Hamilton Municipal Airport, Hamilton, NY - This project included the reconstruction and expansion of the failing pre-existing 22,200 sf aircraft apron, to an increased size of approximately 60,000 sf, in order to accommodate larger aircraft during peak times. The design effort for the aircraft apron expansion, reconstruction, and strengthening included a full-depth asphalt pavement section, grading and drainage, placement of new aircraft tie-down positions, placement of reflective pavement edge delineators, new pavement markings, and demolition of an existing T-hangar. Project Owner: Village of Hamilton

Hamilton 10 Bay T-Hangar Design and Construction Administration, Hamilton Municipal Airport, Hamilton, NY - Construction Inspector responsible for construction supervision. This project involved design and construction administration for a new, single 10-bay T-Hangar and associated site work improvements at the Airport. MJ assisted the Village of Hamilton in applying for and securing grant assistance for the project through the NYS Airport Development Program and administered this grant throughout the course of the project. The scope of services included T-hangar design, new electrical service, automated bi-fold doors, interior and exterior lighting, as well as installation of associated pavement markings. Construction phase services included construction administration, part-time inspection, materials testing, shop drawing review and grant closeout. Project Owner: Village of Hamilton

Hamilton - 10-Bay T Hangar CA, , Hamilton, NY - Construction Inspector responsible for client/contractor coordination, construction quality control, contractor payment, contract document interpretations and project closeout. This project involves design and bidding services for a Terminal Hangar Rehabilitation project at Hamilton Municipal Airport. The project will provide for repairs to the existing 7,000 square foot Terminal Hangar (including the terminal building and an attached maintenance/aircraft storage hangar); Approximately 6,500 square feet of the building is utilized for aircraft maintenance and storage, with the remaining space utilized for the attached general aviation terminal building. Project Owner: Village of Hamilton

ROBERT BUERKLE, PE

MJ | SENIOR ENGINEER & CONSTRUCTION MGR.

Mr. Buerkle is a former airport manager with over 37 years of professional experience in the transportation industry including planning construction management, project management and overall system management. As a former airport manager, Mr. Buerkle has experience in the overall management of airport facilities, budgeting, contract management, reviewing and approving payments, negotiating hangar leases, airport tenant relations, community relations, capital project planning, design and construction management. Mr. Buerkle's experience includes managing projects involving airport safety improvements, airport runways, taxiways, aprons and hangar facilities. Mr. Buerkle's responsibilities included seeking and managing grant funding, grant administration, capital program budgeting and management, system / project planning, preliminary and detailed engineering design, environmental review and permitting, public participation, legislative affairs, cost estimating, bidding, contract / construction administration, construction inspection, materials testing and certification, and construction project management.

RELEVANT EXPERIENCE

City of Oneonta - N66 Terminal Apron Rehabilitation Construction Admin. Oneonta, NY - This project includes the design for a Reconstruction and Rehabilitation of the Terminal Apron at the Oneonta Municipal Airport, with approximately 2,680 sy of reconstruction and 5,370 sy of rehabilitation. An assessment of the existing pavement identified a PCI score of 49 for the entire apron, with some sections rating as low as 23. The pavement was originally constructed in 1965 with the founding of the airport. The useful life for any work on the apron has long since passed (20 years for new construction, 10 years for rehabilitation). The project analyzed the existing pavement and recommend areas of full depth replacement or mill and overlay as necessary. The project included a full geotechnical report including subsurface soil conditions to analyze the existing pavements strengths and compare those to the proposed aircraft uses. The project included the replacement of existing edge lighting (approximately 20 lights) and signage (approximately 2 signs) which had outlived their useful life. The replacement of the apron will provide a minimum 20-year useful life. Without the completion of this project, the terminal apron will continue to deteriorate to the point where the terminal building and the attached fuel farm will be inaccessible. Project Owner: City of Oneonta

Corry-Lawrence Airport - Engineering Services for Apron Rehabilitation, Corry-Lawrence Airport, Corry, PA - The scope of work for this project includes removing the existing apron asphalt pavement, regrading the existing subbase, removing and replacing the existing tie-downs, placing superpave asphalt onto the regraded subbase, regrading, seeding and mulching of the embankment adjacent to the apron, and re-marking the new asphalt. Project Owner: Corry Lawrence Airport Authority

Cortland County Airport Master Plan Update, Wildlife Hazard Evaluation & Pavement Management Plan, Cortland County Airport, Cortland, NY - Task Manager responsible for oversight of PMP document development, and project work scheduling; coordination of mapping and compilation of existing pavement data; QA review of all project deliverables, as well as coordination of client meetings. This Master Plan update included reviewing the airfield for updates to FAA standards noted in AC 150/5300-13A, Airport Design. In addition, the users, aircraft characteristics, and role of the airport in the region's economy had changed since the prior Master Plan, including the presence of a based jet at the airfield with limited capabilities due to a runway length of 3,400 feet. An assessment of numerous alternatives related to an extension of Runway 6-24 was conducted. Two additional studies, a pavement Management Study and a Wildlife Hazard evaluation, were also completed to complement the findings of the Master Plan Update. Project Owner: Cortland County

Elmira Corning Regional Airport Long-Term Parking Lot Expansion, Elmira Corning Regional Airport, Horseheads, NY - This project consists of the creation of 300 additional parking spaces to the existing long-term

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c7(6932.)

lot, including relocation of the exit toll plaza to create a safer and more efficient exit point onto Airport Road and additional queue length for patrons. The project will also realign Airport Road, creating an efficient loop road around the airport parking lots for passenger pick up. MJ also provided land acquisition and re-subdivision services for adjacent parcels, as well as extensive landscaping and aesthetic improvements to the adjacent private hangar facility. An off-site overflow parking lot was also developed to accommodate parking during construction. Project Owner: Chemung County

Elmira Corning Terminal Revitalization, Elmira Corning Regional Airport, Horseheads, NY - Construction Manager responsible for monitoring budgets and construction schedules, as well as contractor coordination. The design and construction of the $61.5M terminal expansion and renovation, funded through the NY Upstate Airport Economic Development and Revitalization and FAA grant monies, was accomplished with a fast-track approach. The design and construction of the airport terminal improvements was advanced to completion in approximately 18 months, with a scheduled completion date of October 31, 2018. The project included expansion to accommodate a new concourse area, a new security checkpoint, a new baggage handling facility and claim area, and both new and renovated passenger boarding bridges. An enclosed courtyard that showcases the local landscape and was built with sustainable building and renewable energy technologies, including a geothermal heating and cooling system for the entire facility was an important feature. Entirely new M/E/P and fire protection systems were also integral components of this renovated/expanded facility. The project was designed and bid in phases to allow for continued operation of the facility while the terminal expansion was progressing. Project Owner: Chemung County

Greater Binghamton Airport Master Plan Update, Greater Binghamton Airport, Maine, NY - This project involves the preparation of a Master Plan Update to assure that the Greater Binghamton Airport and its environs are safe and efficient as well as to evaluate the changing needs of airport users and the aviation needs of the surrounding community. Initial tasks of the project included the acquisition of detailed airport mapping compliant with FAA Advisory Circular 150/5300-18B and data for development of a flexible, scenario-based Airport Master Plan Update and Airport Layout Plan. Baseline data will be collected and presented for use in subsequent planning analyses. The project includes development of an airport inventory, aviation forecasts, environmental overview and facility requirements. Project Owner: Broome County

ERI Terminal Apron Rehabilitation and Expansion CA, Erie International Airport, Erie, PA - Construction Administration services for provided for the full removal of a portion of an existing terminal apron and an addition to make the apron larger to accommodate more passenger boarding bridges. Over 7,000 cubic yards of concrete was placed and over 4,000 tons of P-403b and P-401 surface course was placed. Extra attention to safety was needed due to this being an active apron area with multiple commuter flights during working hours. This $5.8M project was finished 2 months early and on budget. Project Owner: Mead & Hunt, Inc.

Ogdensburg-Terminal Expansion & Renovation, Ogdensburg International Airport, Ogdensburg, NY - Senior Project Engineer responsible for providing contractor submittal reviews and materials testing management. This project involves design for a 4,000 sf expansion, as well as a renovation to the existing 7,200 sf terminal building. The expansion includes all the infrastructure improvements needed to accommodate the operational requirements of a 177-passenger Airbus 320 aircraft and the Low-Cost Carrier (LCC) forecast demand, while complying with current FAA and NYSDOT standards. The expansion includes: total renovation of an existing 3,200 sf hangar storage area for use as a new terminal hold room; complete renovation of the existing terminal layout; and modifications to the structural, mechanical, electrical, plumbing, information technology and fire protection systems. The larger terminal includes expanded ticket counters and queuing areas, an upgraded TSA screening lane, expanded baggage claim areas, passenger waiting areas, restrooms, a flat-plate baggage claim carousel and conveyor system, as well as administrative space. Project Owner: Ogdensburg Bridge & Port Authority

Doc ID: b49a17ab6c521869ca3b3ff2811e57a883c76932.)

DAVID R. ROSA

MJ | LEAD SENIOR ENVIRONMENTAL SCIENTIST

Mr. Rosa has more than 21 years of experience in the environmental field including preparation of National Environmental Policy Act (NEPA) documents, compliance, coordination, permitting, studies, compensatory mitigation, monitoring and environmental management. His project experience includes work in the Southeastern U.S., New York, Puerto Rico, the Caribbean and the U.S. Virgin Islands. He has served as an Environmental Discipline Manager, Project Manager, Environmental Compliance Officer and Permit Coordinator for different types of projects requiring the ability to effectively handle multiple tasks in a fast-paced environment. In those positions, he gained valuable experience in regulatory compliance including preparation of alternative analysis, NEPA documents, agency coordination plans, environmental permit applications, technical reports, monitoring plans and other environmental documentation. He is also a FL Stormwater Erosion and Sedimentation Control Inspector certified by the Florida Department of Environmental Protection (FDEP) and is also in the process of finalizing a training Certificate in Airport Environmental Management from Airport Council International.

RELEVANT EXPERIENCE

On-Call Airport Planning Review and Advisory Services, Broward County Aviation Department, FL - Environmental Project Manager and Sr. Scientist providing technical support on a task assignment basis. Most recent task included aviation planning analyses essential to the development of required purpose and need projections, calculations, modeling, and documentation to support the alternative refinement of airport landside projects and initiatives including the Automated People Mover (APM), Parking Garage Demolition and Replacement and the Terminal Loop Roadway and Curbfront Improvements. Project Owner: Broward County

Fort Lauderdale-Hollywood International Airport Design-Build Runway 9R-27L Expansion, Fort Lauderdale, FL - Environmental Project Manager and Sr. Scientist responsible for agency coordination, obtain approvals from SFWMD, USACE, Broward County ERL / SWM, Broward County Tree Licenses, Dewatering permits, NPDES-Generic Permits, among others. Duties also included delineation of additional wetland areas, contamination screenings and review for dewatering permits, tree surveys and provide environmental support and Stormwater Pollution Prevention Plans (SWPPP) compliance advice. This project involved design and construction via Design-Build Method of the structures that carries Runway 9R-27L and the parallel Taxiway over US-1, FEC RR, Airport's East Perimeter Road, and relocation of NE 10th Street and NE 7th Street improvements. Project Owner: Broward County Aviation Department

Monroe County General Aviation Consultant 5-Year Term Agreement, FL - Environmental Project Manager providing technical support on a task assignment basis. The most recent assignment included a New Access Road to provide a safer and better connectivity for ground support and maintenance vehicles, in particular to fueling trucks that need direct access from S. Roosevelt Boulevard to the existing EYW's fuel farm and terminal apron. Duties and responsibilities included permitting, agency coordination, coastal mitigation (mangroves) and regulatory compliance. Project Owner: Monroe County

Environmental Compliance Support Services, Palm Beach Department of Airports, FL - Environmental Manager responsible for completing the environmental inspections within airports facility including fuel farms, report findings and all work products. Responsibilities included updates to SWPPP associated to MSGP for all four (4) Palm Beach airports, presentation preparation and annual trainings as per MSGP requirements. This project involved environmental inspections at Palm Beach International Airport, F45 Airport, Lantana Airport, and Pahokee Airport, managed by Palm Beach Department of Airports (PBDOA). The purposed of the environmental compliance support services was to help PBDOA maintain compliance with Multi Sector General Permit (MSGP) under the U.S. EPA / FL Department of Airport. Project Owner: Palm Beach Department of Airports

DAVID R. ROSA

MJ | LEAD SENIOR ENVIRONMENTAL SCIENTIST

Florida Keys Overseas Heritage Trail (FKOHT) Wetland Mitigation and Environmental Permitting Support , Key Largo, FL - Project Manager / Senior Scientist responsible for overall design coordination, project deliverables, environmental planning, permitting, wetland mitigation, project schedule and budget control. This project involved the development of a new 974-foot section of the Keys Overseas Heritage Trail (FKOHT) between the Cudjoe Gardens neighborhood and the existing FKOHT crosswalk. MJ developed a Wetland Mitigation Plan and provided environmental permitting support for this new asphalt, multi-use bicycle and pedestrian trail. The scope of work included coordination with regulatory agencies; field validation of wetland boundaries; conducting a wetland functional assessment; preparing a Cumulative Wetland Analysis; preparing an ERP application and obtaining approval from SFWMD; and preparing a CWA Section 404 application and obtaining approval from the USACE. Project Owner: Monroe County

Greenville-Spartanburg Master Plan Environmental Assessment, Greer, SC - Project Manager MJ is providing an Environmental Assessment (EA) under the National Environmental Policy Act (NEPA) in relation to projects identified in a recent master plan update. The EA is being prepared and processed in a manner consistent with applicable federal, regional, and local statutes, regulations, and guidelines. The final product is subject to the FAA and conformed to NEPA (42 U.S.C. 4321 et seq.), the Council on Environmental Quality (CEQ) regulations (40 C.F.R. Parts 1500-1508), applicable Department of Transportation (DOT) Orders, and FAA Orders 1050.1F, Environmental Impacts: Policies and Procedures and 5050.4B, National Environmental Policy Act (NEPA) Implementing Instructions for Airport Actions. The preparation of the EA involved a multidisciplinary effort and preparation of supporting environmental-engineering studies, including: Project Management; Agency Coordination; Inventory and Data Collection; Wetland Delineation; Flora and Fauna Survey; Noise Analysis ; Air Emissions Analysis; Traffic Analysis; Alternative Analysis and Conceptual Design; Public Involvement and an Environmental Impacts Evaluation. Project Owner: Greenville-Spartanburg Airport Commission

Niagara Falls Taxiway Environmental Assessment, Niagara Falls International Airport, Niagara Falls, NY - McFarland Johnson provided professional services to prepare an environmental assessment for the parallel taxiway program at the Niagara Falls International Airport. The project was undertaken through a contract with the airport's sponsor, the Niagara Frontier Transportation Authority with grant assistance from the Federal Aviation Administration and the New York State Department of Transportation. Proposed improvements assessed included the construction of Taxiways B, B1, and B2, the reconstruction of a portion of Taxiway E, the abandonment and removal of portions of Taxiways C, E, and H, and the abandonment and removal of Runway 10R-28L. The environmental assessment will be prepared to address federal and state environmental review requirements in accordance with FAA Orders 5050.4B and 1050.1F. Environmental coordination and documentation will also be developed in accordance with the requirements of 6 NYCRR Part 617 (State Environmental Quality Review as reorganized and adopted on September 20, 1995). Project Owner: Niagara Frontier Transportation Authority

Trenton-Mercer Airport New Terminal EA, Design & Construction, Trenton-Mercer Airport, West Trenton, NJ - Senior Environmental Scientist providing technical support in the preparation of the Environmental Assessment and quality control. This project requires preparation of an Environmental Assessment for construction of a new 125,000 SF terminal building, realigned access roads, relocation of the Aircraft Rescue and Firefighting (ARFF) building and an expansion of the vehicle parking lot. Key environmental concerns expressed by the public included noise, air quality, wetlands, floodplains, and stormwater. Project Owner: Mercer County.

GEORGEANNA M. NUGENT

MJ | SENIOR ENVIRONMENTAL PLANNER & REGIONAL DIRECTOR

Ms. Nugent has put her environmental expertise and project management skills to work on a wide array of municipal, transportation and aviation projects throughout the northeast. She has a thorough understanding of state and federal regulations, including the National Environmental Policy Act (NEPA), the National Historic Preservation Act (NHPA), Section 404 of the Clean Water Act (CWA), and Section 4(f) of the USDOT Act. She is also a Certified Hazardous Materials Manager (CHMM) with extensive knowledge and experience with the Resource Conservation and Recovery Act (RCRA) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). She is currently serving on the American Association of Airport Executives (AAAE) PFAS Working Group and the Airport Cooperative Research Programs (ACRP) Development of PFAS Source Differentiation Guidelines for Airports.

RELEVANT EXPERIENCE

Monroe County (FL) Airports General Consultant 5-Year Term Agreement, Key West Int'l & Florida Keys Marathon Airports, Multiple Locations, FL - Regional Director providing QA/QC and project oversight support on a task assignment basis. MJ has provided planning, general environmental services, design, permitting and construction services for a number of taks under this term agreement, including a four-bay rental car wash facility at Florida Keys Marathon Airport; as well as demolition of the former Hertz building; expansion of the customs and border protection (CBP) facility; a new two-lane FBO access road; and an elevated parking deck with covered airport maintenance facility area at Key West International Airport. MJ also performed a hazardous materials survey in support of the former Hertz building demolition at Key West International. Project Owner: Monroe County

Purpose & Need Documentation for Landside Projects at FLL, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL - Regional Division Director responsible for the QA/QC of the environmental documentation of the proposed projects. This project included aviation planning analyses essential to the development of required purpose and need projections, calculations, modeling, and documentation to support the alternative refinement of airport landside projects and initiatives including the Automated People Mover (APM), Parking Garage Demolition and Replacement and the Terminal Loop Roadway and Curbfront Improvements. The purpose and need documentation provided pertinent background information regarding need and justification for the recommended airport improvements as presented in the most recent Master Plan Report, ALP drawing set, and other information provided by BCAD. Existing and projected aviation activity was discussed as it relates to the recommended improvements. Financing, implementation, and phasing of the proposed improvements were also discussed. Project Owner: Broward County

Martha's Vineyard Environmental Assessment and Impact Report for Capital Improvement Program Projects, Martha's Vineyard, MA – Project Manager responsible for QA/QC of the Environmental Assessment and Environmental Impact Report (EA/EIR) for proposed capital improvements at the Airport. This project involves preparation of an Environmental Assessment and Environmental Impact Report (EA/EIR) for proposed capital improvements at the Airport. The EA/EIR was prepared in accordance with FAA National Environmental Policy Act and Massachusetts Environmental Policy Act policies and procedures. The scope of work included inventory and data collection, development of a purpose and need statement, alternatives development, and Environmental Notification Form (ENF) preparation. Land use, rare species, water supply, wastewater, transportation, energy and solid and hazardous waste resources were assessed as part of the ENF. The EA addressed climate, Section 4(f) Resources, natural resources and energy supply as well as socioeconomic, environmental justice, and children's environmental health and safety risks. Project Owner: Martha's Vineyard Airport Commission

GEORGEANNA M. NUGENT

MJ | SENIOR ENVIRONMENTAL PLANNER & REGIONAL DIRECTOR

Trenton-Mercer Airport New Terminal EA, Design & Construction, Trenton-Mercer Airport, West Trenton, NJ - This project requires preparation of an Environmental Assessment for construction of a new 125,000 SF terminal building, realigned access roads, relocation of the Aircraft Rescue and Firefighting (ARFF) building and an expansion of the vehicle parking lot. Key environmental concerns expressed by the public included noise, air quality, wetlands, floodplains, and stormwater. Project Owner: Mercer County

NYSDOT - FRG Capital Planning & Environmental Engineering Services, Republic Airport, East Farmingdale, NY - Project Manager responsible for completion of categorical exclusion documents. As part of this project, MJ provided environmental and planning assistance associated with managing the capital improvement program for the Airport and to meet Federal Aviation Administration (FAA) requirements associated with the federal Airport Improvement Program (AIP) and state-funded grants. All documents are being completed in accordance with applicable Advisory Circulars and include a full description of the proposed projects as well as impact on environmental resources such as groundwater, wetlands and biological resources. Project Owner: New York State Department of Transportation

Ogdensburg Terminal Area Plan Environmental Assessment, Ogdensburg International Airport, Ogdensburg, NY - Senior Environmental Analyst responsible for completion of the Environmental Assessment. MJ prepared an Environmental Assessment (EA) related to drainage and terminal area improvement projects at the Airport, which was funded with grant assistance from the FAA's Airport Improvement Program and NYSDOT. Preliminary designs and estimates were also provided for these improvements. Drainage improvements involved conveyance and capacity upgrades in the western portion of the airport property and the construction of a new 60-inch culvert under NYS Route 812, discharging to the Oswegatchie River. Improvements to the terminal area included construction of an expanded 3-4 gate passenger terminal building, the expansion of the terminal apron, and the construction of an equipment storage building. Project Owner: Ogdensburg Bridge & Port Authority

Florida Keys Overseas Heritage Trail (FKOHT), Connection at Cudjoe Gardens, Cudjoe Key, FL | Regional Director responsible QA/QC of wetland reports and environmental permitting. Duties included environmental management support to the environmental team for avoidance and minimization efforts and coordination. The Monroe County received a grant from the Florida Department of Transportation through a LAP Agreement to design and construct a missing section of the FKOHT between Cudjoe Gardens neighborhood and the existing FKOHT crosswalk. Project Owner: Monroe County

Port of Albany- Beacon Harbor Site Plan and General Environmental Impact Statement, Albany, NY Senior Environmental Analyst responsible for preparation of various sections of the Environmental Impact Statement, providing response to comments, and developing environmental justice supplemental documentation for the proposed site expansion. The proposed project includes obtaining site plan approval for an industrial park on 81.62 acres of land at the Beacon Island site, located at the confluence of the Normans Kill and Hudson River.

KELLI R. WALTERS

MJ | LEAD AVIATION GRANTS MANAGER

Ms. Walters leads MJ's Grant Administration Department and has 25 years of experience administering and complying with various State and Federal Grant programs. Kelli is instrumental in assisting our aviation clients in obtaining grant funding for projects and keeping grant allocations on track. The federal and state grant process continues to become more burdensome on airports. We recognize that you don't have a huge support staff at the Airport. Kelli and MJ's grant administrators make it easy on you and your staff to comply with grant-related regulations.

RELEVANT EXPERIENCE

Chemung - Terminal Apron Design, Horseheads, NY - This project involved design and construction administration services for the full-depth reconstruction of 84,000 sf of the terminal apron. The 2018 terminal expansion project, which extended the concourse to the east, resulted in jet bridges and aircraft parking positions that were outside of the former concrete parking area. The project required pavement strengthening to accommodate the increased use by heavier aircraft. Pavement, markings, signage and lighting were also provided. Project Owner: Chemung County

Chemung-Elmira Deicing Apron Rehabilitation, Elmira Corning Regional Airport, Horseheads, NY - Grants Administrator responsible for grant pre-applications, grant applications, Federal and State reimbursement requests, grant closeouts and ensuring compliance with grant requirements. MJ undertook an extensive program to determine the quantity and quality of the existing pavements, the condition of the drainage structures that service the area, the deicing fluid separation controls, and the geometry of the pavements. The result was the realization that the existing pavements did not meet the structure required to service the current and projected aircraft fleet mix anticipated to utilize the facility. The design called for the complete full depth replacement of the existing asphalt pavements with concrete pavement, the replacement of the runoff collection trench drain system, new heavy duty catch basins, and the installation of new valves and piping to divert stormwater with deicing fluids to a collection and conveyance system. Project Owner: Chemung County

N66 Terminal Apron Rehabilitation Construction Admin, Oneonta, NY - This project includes the design for a Reconstruction and Rehabilitation of the Terminal Apron at the Oneonta Municipal Airport, with approximately 2,680 sy of reconstruction and 5,370 sy of rehabilitation. An assessment of the existing pavement identified a PCI score of 49 for the entire apron, with some sections rating as low as 23. The pavement was originally constructed in 1965 with the founding of the airport. The useful life for any work on the apron has long since passed (20 years for new construction, 10 years for rehabilitation). The project analyzed the existing pavement and recommend areas of full depth replacement or mill and overlay as necessary. The project included a full geotechnical report including subsurface soil conditions to analyze the existing pavements strengths and compare those to the proposed aircraft uses. The project included the replacement of existing edge lighting (approximately 20 lights) and signage (approximately 2 signs) which had outlived their useful life. The replacement of the apron will provide a minimum 20-year useful life. Without the completion of this project, the terminal apron will continue to deteriorate to the point where the terminal building and the attached fuel farm will be inaccessible. Project Owner: City of Oneonta

Partial Parallel Taxiway Design, Saratoga County Airport, Ballston Spa, NY - This project consists of design and bidding of a Partial Parallel Taxiway at the Saratoga County Airport. The TW is 1,700 linear feet of 35-foot-wide new Partial Parallel Taxiway A for the main runway crossing the airport's secondary runway and providing access to the Airport's Terminal Area and FBO. Included in the design were Taxiway pavement, edge lighting, signage, striping, grading, and drainage. In addition the project removed the non-standard portion of

the parallel taxiway adjacent the intersection to its proper 400' centerline to centerline offset. With the addition of the new TW A the project was able to close the existing taxiway D, creating a staging area for two on-airport glider clubs. The new Taxiway and glider staging has created the separation of powered and non-powered aircraft operations creating a safer operating environment on the airfield. Design efforts included the implementation of a Geotechnical Investigation Program to evaluate the existing soils, presence of groundwater, and inform the pavement design. The project also included the design of offsite mitigation coordinated and approved by the NYSDEC and USFW for impacts to Kerner Blue Butterfly (KBB) habitat. Project Owner: Saratoga County

Greater Binghamton Airport Master Plan Update, Greater Binghamton Airport, Maine, NY - Grants Administrator responsible for annual Capital Improvement Plan Updates and data sheets, grant pre-applications, grant applications, Federal and State reimbursement requests, grant closeouts and ensuring compliance with grant requirements. This project involves the preparation of a Master Plan Update to assure that the Greater Binghamton Airport and its environs are safe and efficient as well as to evaluate the changing needs of airport users and the aviation needs of the surrounding community. Initial tasks of the project included the acquisition of detailed airport mapping compliant with FAA Advisory Circular 150/5300-18B and data for development of a flexible, scenario-based Airport Master Plan Update and Airport Layout Plan. Baseline data will be collected and presented for use in subsequent planning analyses. The project includes development of an airport inventory, aviation forecasts, environmental overview and facility requirements. Project Owner: Broome County

Greater Binghamton Parallel Taxiway B Design, Bidding and Construction Administration, Greater Binghamton Airport, Maine, NY Grants Administrator responsible for grant pre-applications, grant applications, Federal and State reimbursement requests, grant closeouts and ensuring compliance with grant requirements. This project involved the removal of "hot spot" Taxiway G, and extending Taxiway K to provide a full standard parallel taxiway to Runway 10-28 named Taxiway B. The project consisted of constructing 50' wide by 1,830' long new taxiway to complete the full parallel taxiway. A topographic survey and the implementation of a Geotechnical Investigation Program were included to evaluate the existing pavement thickness, soils, and presence of groundwater. This information was used to determine milling depths of the existing asphalt and overlay thicknesses for proposed asphalt. The project design efforts also included a review of current pavement markings, and other FAA Standards. Design profiling each existing Taxiways, H, K, L M, and P was required to ensure FAA standards for grades and cross slopes were met. Other work included the installation of new taxiway edge lights, electrical conduit and wiring, light bases, guide signs and foundations, pavement markings, closed drainage systems, and post construction stormwater management best practices. Construction activity was phased to minimize impacts to airport operations. Runway 10-28 was utilized as a temporary taxiway to maintain GA access to Runway 16-34. Construction within the Runway 16-34 safety area was completed during two weekends with 12-hour night shift periods, to accommodate flight schedules. Project Owner: Broome County

Apron Expansion Design, Hamilton Municipal Airport, Hamilton, NY - Grants Administrator responsible for grant pre-applications, grant applications, Federal and State reimbursement requests, grant closeouts and ensuring compliance with grant requirements. This project included the reconstruction and expansion of the failing pre-existing 22,200 sf aircraft apron, to an increased size of approximately 60,000 sf, in order to accommodate larger aircraft during peak times. The design effort for the aircraft apron expansion, reconstruction, and strengthening included a full-depth asphalt pavement section, grading and drainage, placement of new aircraft tie-down positions, placement of reflective pavement edge delineators, new pavement markings, and demolition of an existing T-hangar. Project Owner: Village of Hamilton

ZACH STAFF, PP, AICP

MJ | SR. AVIATION PLANNER/FINANCIAL SPECIALIST

Mr. Staff is responsible for the preparation of airport planning analyses, financial analyses and associated technical research. He has experience with federal, state, and local environmental permitting and planning requirements and obtaining regulatory approvals. He has an extensive background in geographic information systems (GIS), including creation of large amounts of digital data and data analysis. Mr. Staff's comprehensive planning experience includes interpreting zoning requirements, analyzing auto traffic flows, completing inventories of public spaces, and preparing and analyzing documents used for public hearings and meetings.

RELEVANT EXPERIENCE

Asheville Regional Airport- PFC Amendments 2020, Fletcher, NC - Project Manager and Senior Airport Planner responsible for development of PFC documentation. This project involves the development of amendment documentation and a new application associated with the Passenger Facility Charge (PFC) Program at the Asheville Regional Airport (AVL). The goals of this project are to assist the Airport Authority with development of amendment documents and the expedited development of a new PFC application as a result of changes in estimated project costs and passenger enplanements that are higher than previously forecast. The project includes preparation of application documents, including cash flow estimates, and ongoing coordination with the FAA. As part of the project, MJ will lead all aspects of air carrier coordination and public notice, and will develop the final application and amendment documents for submission to the FAA. Project Owner: Greater Asheville Regional Airport Authority

Pitt-Greenville Passenger Facility Charge (PFC) Administration 2019-2021, Pitt-Greenville Airport, Greenville, NC - Project Manager and Senior Airport Planner responsible for development of PFC documentation and ongoing management of the PFC program. This project provides assistance with the administration of the Passenger Facility Charge (PFC) program at the Airport. The services include assistance with monthly and quarterly reporting responsibilities as required under 14 CFR Part 158, the development of PFC Application #11, the development of PFC program amendment request documents, as well as on-going coordination and communication with the Pitt-Greenville Airport Authority. The goals of the project include review of currently open PFC applications to determine closeout processes and final project costs and the development of amendments to document these revised cost estimates. The development PFC Application #11 includes the preparation of the draft and final Notice of Intent documents, as well as developing documentation for the air carrier coordination and public notice periods. Further, MJ will coordinate all anticipated submissions with the FAA on behalf of the Airport. Project Owner: Pitt-Greenville Airport Authority

Elmira Corning Dynamic Master Plan, Elmira Corning Regional Airport, Horseheads, NY - Airport Planner responsible for completion of the environmental overview and development of the GIS interface. This project involved the development of a Dynamic Master Plan that utilized an innovative approach to airport planning and provides for additional flexibility in airport planning management. The Dynamic Master Plan focuses primarily on terminal issues, auto parking facilities and constraint management. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and phased alternative development that includes constraint management. A sustainability component of this project will also assist in better positioning the airport for future needs. The dynamic Master Plan will combine all of the data collected with updated aerial mapping with a final product consisting of an existing conditions Airport Layout Plan in keeping with FAA Airports GIS standards. The final product links forecast-based facility requirement variables to a dynamic and interactive Airport Layout Plan, making the final dynamic deliverables infinitely more useful for both the FAA and the airport. Project Owner: Chemung County

ZACH STAFF, PP, AICP

MJ | SR. AVIATION PLANNER/FINANCIAL SPECIALIST

MMU Runway 5-23 Rehabilitation Feasibility Study, Morristown Municipal Airport, Morristown, NJ - Airport Planner responsible for document preparation and review. This multi-phased project involves the development of a feasibility study to establish and assess a comprehensive, multi-year, phased development plan for the overall rehabilitation of Runway 5-23. MJ was responsible for the Runway Safety Area, Drainage, NEPA and permitting components of the project. The proposed safety area improvements include installation of an Engineered Materials Arresting System (EMAS) on the Runway 5 end and grading and drainage improvements on the Runway 23 end. The narrative report included an analysis of design alternatives, cost estimates, and a construction phasing plan. Environmental constraints were also evaluated. Project Owner: Town of Morristown

Westchester County Airport Runway 11-29 Feasibility Study, Westchester County Airport, White Plains, NY - Airport Planner / GIS Specialist responsible for the acquisition and analysis of GIS data, assistance with the development of alternatives, and assessment of land use impacts associated with development alternatives. This project involved a study to identify alternatives for the realignment of Runway 11-29. The existing runway was underutilized due to a displaced threshold that was a result of non-standard safety areas and off-airport obstructions that could not be effectively mitigated. The study included the analysis of these obstructions through an AGIS-compliant aerial survey of both the existing runway approaches, and the area that might be utilized for the alternative alignments. Additional considerations within the study included analysis of noise and environmental impacts, construction costs, wind coverage and development opportunities for each of the three alternatives identified in the initial phase of the study. Project Owner: Westchester County

Cape Cod Gateway Airport Master Plan/Airport Layout Plan Update, Cape Cod Gateway Airport, Hyannis, MA – Senior Project Planner responsible for quality assurance. McFarland Johnson was selected to create the Master Plan. The airport is unique in its seasonality and air service role supporting the Cape and Islands Region of Massachusetts combined with environmental and community sensitivities. The Master Plan includes an airports GIS survey, scenario-based forecasts and capacity that are uniquely influenced by its seasonal service, a robust environmental overview, terminal building and apron review due to changing airline fleets, runway length evaluation, and review of non-standard geometry. Additional considerations are non-aviation revenue and income diversification and roadway access to the airport. Project Owner: Town of Barnstable, Massachusetts

Broome County BGM Master Plan Update, Greater Binghamton Airport, Maine, NY - Project Manager responsible for project coordination, public participation and alternatives development. This project involves the preparation of a Master Plan Update to assure that the Greater Binghamton Airport and its environs are safe and efficient as well as to evaluate the changing needs of airport users and the aviation needs of the surrounding community. Initial tasks of the project included the acquisition of detailed airport mapping compliant with FAA Advisory Circular 150/5300-18B and data for development of a flexible, scenario-based Airport Master Plan Update and Airport Layout Plan. Baseline data will be collected and presented for use in subsequent planning analyses. The project includes development of an airport inventory, aviation forecasts, environmental overview and facility requirements. Project Owner: Broome County

Sussex County - Delaware Coastal Airport Master Plan Update, Delaware Coastal Airport, Georgetown, DE - Project Manager responsible for project coordination, quality assurance review, public coordination, and the development of the Airport Layout Plan set. The purpose of the MPU is to confirm that the Airport and its environs are safe and efficient, as well as to evaluate the growing needs of Airport users and the aviation needs of surrounding communities. Initial tasks of the project include the acquisition of detailed planimetric data for the airfield and surrounding area necessary to assist with the development of the MPU and the resultant Airport Layout Plan. A stakeholder committee was established and a public information workshop completed include public participation in the project. Project Owner: Sussex County Government

SCOTT LECOUNT

MJ | SR. AVIATION PLANNER/FINANCIAL SPECIALIST

Mr. LeCount has nearly 25 years of experience and offers specialized expertise advising general aviation and small/non-hub commercial airports on business and management issues, specifically revenue growth strategies, lease and use terms and agreements, fair market rents, airline rate modeling, fee schedules/ rates and charges, minimum standards, and other policy and financial issues. Mr. LeCount's current work also includes statewide system plans, where he has served as technical lead/project manager in Maine, Nebraska, Vermont, and New Hampshire in the last five (5) years. Mr. LeCount's master planning work typically includes financial analysis to identify funding and implementation plans for the CIPs and advising on non-aeronautical development. Scott also has a B.A. Degree in Urban Planning from the University of Cincinnati.

RELEVANT EXPERIENCE

Greenville-Spartanburg International Airport Dynamic Master Plan & e-ALP Update, Greenville-Spartanburg International Airport, Greer, SC - Senior Airport Planner responsible for leading development of financial elements of Plan, including financial feasibility for funding the ACIP, and a financial model that evaluates and forecasts impacts of future growth scenarios for the Airport. This Plan includes scenario-based planning analyses and an innovative dynamic planning approach that provides quick feedback regarding possible scenarios and resultant impacts. GSP staff are able to analyze new opportunities and planning challenges proactively before they occur rather than undergoing time consuming and costly planning efforts in a reactionary manner. The Plan focuses primarily on landside access, circulation and auto parking facilities, air cargo facility development and operations, enhanced land development and obstruction planning and consolidation of previous planning efforts into a single electronic source for planning and GIS information. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and enhanced land development and highest or best use principles. Project Owner: Greenville-Spartanburg Airport Commission

Wilmington New Castle Airport Terminal Operational Capacity Assessment, Wilmington Airport, New Castle, DE - Senior Planner responsible for performing a terminal functional area analysis and financial planning. A terminal capacity assessment was conducted at the Wilmington Airport (ILG) to determine future needs. The existing aged passenger terminal was undersized for the increased air carrier service by Frontier Airlines that had been added in July 2013. The assessment included an inventory of existing terminal facilities and capacity analysis using International air Transport Association (IATA) Level of Service standards. As there was limited historical data for passenger services at ILG, forecast scenarios were prepared based on recent passenger booking data and the terminal functional area requirements were calculated based on a square footage basis. The analysis also included an estimate of parking requirements. Terminal and parking alternatives to address long-range needs were evaluated and developed based on cost, environmental constraints and constructability. A financial model based on a breakdown of eligible and non-eligible Airport Improvement Program costs and financing option was also prepared. Project Owner: Delaware River and Bay Authority

Bradford Regional Airport Business Park Strategy & Development Plan, Bradford Regional Airport, Smethport, PA Lead Planner responsible for making a case to pursue development of a business park at the Airport. This required analysis of short and mid-term financial performance and revenue generation over the period under several different tenant and absorption/lease-up scenarios. The Bradford Regional Airport Authority and McKean County Economic Development (MCED) identified a need to develop a business plan for a planned development on approximately 95 acres of land at the Airport. The plan considers opportunities on the identified site at the Airport and assists the agencies with building and maintaining efforts towards the pursuit of development

on the site that will provide economic benefits to the Airport and the community. Tasks within the study include the inventory of historic and current conditions affecting development at the Airport, a Strengths-Weaknesses-Opportunities-Threats (SWOT) analysis, a highest and best use analysis, the development of a baseline financial analysis, and the development of a recommended action plan and recruitment strategy. Project Owner: Bradford Regional Airport Authority

Cape Cod Gateway Airport Rates and Charges Study, Cape Cod Gateway Airport, Hyannis, MA - Senior Planner responsible for the analysis and development of a Rates & Charges Study, and for serving as lead technical expert on the design and development of an airline rate model. He also designed the spreadsheet-based financial model. Cape Cod Gateway Airport (formerly Barnstable Municipal Airport) management identified a need to improve the methods by which they establish Airport rates and charges during the annual budgetary cycle. MJ provided a spreadsheet-based financial model that analyzes and demonstrates a direct link between costs borne by the Sponsor and fees charged for use of the airfield and terminal areas. Additionally, the model includes added functionality to support the Sponsor's pricing policy for the fuel concession business, and distinctions rates to accommodate use by signatory and non-signatory operators, and the potential for applying seasonal premiums. The Study documentation provides the basis for a change in rate-making method, includes relevant information and guidance pertaining to FAA grant assurances and Airport Compliance Manual guidance for use by Airport Management and the Airport Commission. Project Owner: Town of Barnstable, Massachusetts

Middletown Regional Airport MRO Market Research and Marketing Collateral, Middletown Regional Airport, Middletown, OH - Lead Financial Planner responsible for technical budget and operating analysis, business case/scenario development and pro formas. MJ developed a pursuit strategy for the attraction of a Maintenance, Repair, and Overhaul business to the Airport. The City is currently working through an update to the Master Plan and has identified significant land for aeronautical use that can take advantage of the Airport's runway length, strong existing transportation and logistics network, and its strategic location between Cincinnati and Dayton Metro area. The MRO growth strategy is complemented by the City's success in establishing an on-Airport aviation maintenance program with a local college to build the local workforce. MJ developed a number of tools to aid the City in the pursuit and attraction of an MRO including: analysis of the MRO market; several conceptual site plans; development of marketing brochures/collateral; and a presentation that summarizes the MRO market to be used to win support from elected and appointed officials and other stakeholders. MJ also provided department support with the local development/investment groups, local Community Improvement Corporation, and the City Council during the project. Project Owner: City of Middletown

Nantucket Memorial Airport - On-Airport Housing Study, Nantucket, MA - The Nantucket Memorial Airport Commission had identified a need to study the feasibility of constructing housing at Nantucket Memorial Airport to accommodate airport employees considering the limited housing market in Nantucket. A primary goal for the Airport was to estimate the potential costs and revenues associated with a new employee housing development and assess the financial viability of the initial capital investment, on-going maintenance and operation, and long-term financial performance of the project under consideration. The goal of the project was to produce a benefit/cost model that would help the Airport make sound business decisions related to the proposed development. Project Owner: Nantucket Airport Commission

MEGAN E. CARTER-WITT, AICP

MJ | AVIATION PLANNER/FINANCIAL SPECIALIST

Megan's experience includes Airport Master Plans, Airport Layout Plan Updates, and sustainability planning. Her experience also includes utilizing AEDT software to analyze noise and air quality emissions and preparation of DBE program plans and achievement reports. She is thoroughly familiar with Airport Improvement Program requirements and preparation of FAA Part 139 Certification Manuals. During her time with a previous employer, Megan managed an airport noise complaint system.

RELEVANT EXPERIENCE

Monroe County FL Professional Engineering & Surveying Continuing Services Four to Five-Year Contract Monroe County, FL- MJ has successfully performed airport projects for Monroe County, providing engineering evaluations, planning, schematic design, design development, preparation of and design criteria reports, cost estimating, specifications, contract documents, bidding support, construction administration and inspections, plans review, environmental evaluations and permitting, and coordination, among others.

City of St. George - SGU Airport Master Plan, St. George Regional Airport, St. George, UT - This project represents the first Airport Master Plan developed for the St. George Regional Airport. The purposed of the Plan is to evaluate the growing needs of the Airport users as well as the aviation needs of the surrounding communities. The first step was to determine a method of forecasting, as there were fewer than ten years of historical data, and the existing facilities were already becoming constrained. A stakeholder committee was established and a public information workshop conducted to encourage public participation in the project. Project Owner: City of St. George

Cape Cod Gateway Airport Master Plan/Airport Layout Plan Update, Cape Cod Gateway Airport, Barnstable, MA - Junior Airport Planner responsible for gathering inventory data, forecasting, developing alternatives, analyzing facility requirements, and community engagement aspects of developing the Master Plan. McFarland Johnson was selected to create the Master Plan. The airport is unique in its seasonality and air service role supporting the Cape and Islands region of Massachusetts combined with environmental and community sensitivities. The Master Plan includes an airports GIS survey, scenario-based forecasts and capacity that are uniquely influenced by its seasonal service, a robust environmental overview, terminal building and apron review due to changing airline fleets, runway length evaluation, and review of non-standard geometry. Additional considerations are non-aviation revenue and income diversification and roadway access to the airport. Project Owner: Town of Barnstable, Massachusetts

Burlington Master Plan Update, Burlington International Airport, Burlington, VT - Junior Airport Planner responsible for developing the landside and road access requirements as part of the facility requirements section of the Master Plan Update. MJ is providing a dynamic analysis tool, facility requirements analysis and terminal development alternatives support as part of the comprehensive Airport Master Plan. The facility requirements analysis includes airside, landside and general aviation facility requirements focused on correcting non-standard geometry which was related to the close proximity of the crosswind general aviation runway to the terminal area. The terminal planning analysis was conducted for the baseline forecast scenario and 5 additional derivative scenarios focused on increased or decreased passenger air service. The 1950's era building has undergone many expansions and renovations resulting in many non-standard operating conditions that needed to be addressed and resolved as part of the facility requirements and subsequent alternatives analysis. Project Owner: Burlington International Airport

MEGAN E. CARTER-WITT, AICP

MJ | AVIATION PLANNER/FINANCIAL SPECIALIST

Erie International Airport, Tom Ridge Field, Dynamic Sustainable Master Plan Update, Erie International Airport, Tom Ridge Field, Erie, PA - This project involved the development of a Sustainable Master Plan Update (MPU). The airport recently extended its main runway (Runway 6-24) and has multiple projects scheduled for FAA geometry mitigation. The MPU considers increased airline and ULCC activity, cargo activity, geometry mitigation, and obstruction evaluation. A key requirement for the MPU was the development of the Airport Dynamic Analysis Tool (DAT). The DAT computer-based model links the aviation forecasts, facility requirements, the Airport Layout Plan (ALP) and financial models, allowing the airport to rapidly evaluate scenarios (e.g. new air carrier service, air cargo services, enhanced general aviation growth) to identify key facility requirements and financial implications of these various scenarios. Flexibility in analyzing future needs was critical due to the numerous opportunities that the airport is considering along with the high costs associated with needed maintenance at the airport. Understanding the financial capacity of the airport to take on new development projects, while ensuring that needed airfield projects are completed was an important part of the plan. The MPU also considers the airport's role in regional economic development initiatives and environmental sustainability. Coordination with both local and regional stakeholders is important to determine how the airport would deliver value towards initiatives planned or already underway. Project Owner: Erie Regional Airport Authority

Allegheny County Airport Master Plan Update, Allegheny County Airport, West Mifflin, PA - Junior Airport Planner This project involves the development of a Master Plan Update (MPU) to assure the Airport and its environs are safe and efficient, and evaluate the growing needs of airport users as well as the aviation needs of surrounding communities. The plan will identify existing conditions and develop an overview of environmental conditions, aviation forecasting, capacity and demand, alternatives, and implementation planning and financial feasibility. A Runway Safety Area (RSA) analysis will also be conducted. Together, these tasks will identify areas for future aviation and aviation-compatible development, fully evaluate RSAs and taxiway geometry based on recent FAA guidance, establish the most strategic use of the airport terminal building and ancillary structures, develop a financial model to consider impacts of future changes at the Airport, and provide a complete ALP set. Project Owner: Allegheny County Airport Authority

Greater Binghamton Airport Master Plan Update, Greater Binghamton Airport, Maine, NY - This project involves the preparation of a Master Plan Update to assure that the Greater Binghamton Airport and its environs are safe and efficient as well as to evaluate the changing needs of airport users and the aviation needs of the surrounding community. Initial tasks of the project included the acquisition of detailed airport mapping compliant with FAA Advisory Circular 150/5300-18B and data for development of a flexible, scenario-based Airport Master Plan Update and Airport Layout Plan. Baseline data will be collected and presented for use in subsequent planning analyses. The project includes development of an airport inventory, aviation forecasts, environmental overview and facility requirements. Project Owner: Broome County

Wilmington Airport Dynamic Master Plan, Wilmington Airport, New Castle, DE - With this complex and highly dynamic airport including 4 FBOs, an Air National Guard base, and intermittent periods of commercial service, this plan requires flexibility to take advantage of yet unknown opportunities or changes in market conditions. The plan considers the implications of introduction and expansion of low-cost airline service, which continues to exhibit highly variable growth. An important element of the plan is defining development nodes and evaluating how the growth of those nodes affects other areas of the airport and the financial outlook. In this regard, growth in the passenger terminal area is being evaluated against the GA development opportunities for additional FBOs and large corporate aviation tenants. Airside alternatives that consider the FAA's new airfield geometry requirements add a layer of complexity for the 3 runways at the airport. The dynamic scenario-based interface, combined with the comprehensive AGIS survey, provides a management tool for airport staff, creating flexibility to account for changes within the industry and the general economy. Project Owner: Delaware River and Bay Authority

CHRISTOPHER S. KOPEC, PE, LEED AP

MJ | SENIOR MECHANICAL ENGINEER & REGIONAL DIR. OF FACILITIES

Mr. Kopec's responsibilities include project management and the seamless incorporation of sustainable principles into the design of heating, ventilation, and air conditioning systems for institutional, medical, and commercial clients. His areas of specialty include building energy modeling, including analyzing heat transfer characteristics of building envelopes to optimize building energy performance, and working closely with architects to overcome aesthetic challenges without compromising system design. Mr. Kopec has also instructed LEED-accredited classes for office staff.

RELEVANT EXPERIENCE

Rental Car Wash Facility, Florida Keys Marathon International Airport, Marathon, FL - QA/QC Engineer responsible for oversight of M/E/P disciplines for this project, which included the planning, design and construction of a four-bay rental car wash and staging facility. All land use/site planning, civil and MEP design, construction administration and inspection services are being provided. Project Owner: Monroe County (FL)

Customs Border Patrol Facility Phase III Expansion, Key West International Airport, Key West, FL - QA/QC Engineer responsible for oversight of M/E/P subconsultants. Planning, design and construction administration services are being provided for an expansion to the existing Customs Border Patrol facility. Currently, the facility processes 15 passengers per hour. The expanded facility will accommodate 150 passengers per hour. Extensive coordination with federal agencies (i.e. DHS and CBP), as well as the FAA and FDOT is required. All civil, M/E/P design construction administration, estimation and inspection services will be provided. Project Owner: Monroe County (FL)

key west international airport concourse A terminal improvement program Planning programming and design - Key west, FL - Lead Engineer responsible for oversight of MEP disciplines.McFarland Johnson provided planning/programming, engineering design and permitting services for the Key West International Airport Concourse A Terminal Expansion Program. The project comprises of a new seven gate Concourse A facility totaling 48,802 SF, and space for gates/holdrooms, circulation, concessions, restrooms, TSA security checkpoint, baggage claim, and support areas. A new extended passenger bridge located post-security will connect the existing landside terminal building with the new Concourse A facility. The estimated cost of the terminal program is $85 million. Project Owner: Monroe County (FL)

Maintenance Facility & FBO Project Definition and Programming Report, Greenville-Spartanburg International Airport, Greer, SC - Project Manager responsible for development of the programming phase reports for the airport maintenance and FBO facilities. This project involves development of a project definition and program (PDP) report, including detailed planning and preliminary design drawings that outline the expansion of the existing Fixed-Based Operator (FBO) terminal and the expansion of the existing maintenance facilities, which may include new maintenance-related buildings. The Airport continues to experience significant growth in traffic. As a result, several support buildings need to be evaluated, to not only serve the needs of today, but to help serve future needs, as well. Project Owner: Greenville-Spartanburg International Airport

Schuylkill-Construct Hangar Project Engineering Design Services, Schuylkill County Airport, Pottsville, PA - Senior Mechanical Engineer and Facilities Group Manager responsible for quality assurance review. This project provided a 7,300 square foot hangar capable of housing corporate aircraft. The pre-fabricated metal clear span hangar includes a concrete pier/frost wall foundation, concrete floor and bottom rolling door. The hangar project is funded by a Penn DOT Bureau of Aviation Capital budget grant at a funding level of 50% State and 50% Local shares. During the project formulation and pre-design estimates completed by MJ, it was found that the

CHRISTOPHER S. KOPEC, PE, LEED AP

MJ | SENIOR MECHANICAL ENGINEER & REGIONAL DIR. OF FACILITIES

Hangar project originally funded at $200,000 state and $200,000 local was not sufficient to construct an aircraft hangar to the size meeting the airport's needs. MJ assisted the airport authority in securing additional grants at funding levels of $200,000 state and $200,000 local, thereby increasing the project budget from $400,000 to $800,000. Project Owner: Schuylkill County Airport Authority

Sustainable Master Plan Update, Buffalo Niagara International Airport, Buffalo, NY - Senior Mechanical Engineer and Task Leader responsible for energy and building audit review. This project involves the first-of-its-kind, comprehensive, Sustainable Airport Master Plan in the FAA Eastern Region. The primary goal of this project was not only to develop both air and landside infrastructure and facilities to meet the growing demand, but to identify and implement realistic sustainable targets and practices for current and future projects. The work includes improvements to existing air and landside facilities and recommendations for new and innovative ideas to enhance cost-effective operations, profitability and customer service at the airport. The Sustainability Plan established sustainability goals and targets for the airport, present a prospective inventory of cost-effective environmental initiatives, and establish a procedure by which environmentally-sustainable development and practices are to be integrated into the Master Plan and future airport planning. Project Owner: Niagara Frontier Transportation Authority

Village of Hamilton - Terminal Hangar Rehabilitation Design, Hamilton Municipal Airport, Hamilton, NY - Project Manager This project included design and bid phase services for upgrades to an existing terminal hangar, comprised of a 500 sf terminal structure with an attached 6,500 sf maintenance/aircraft storage hangar. The terminal structure was demolished and replaced with a new 1,200 sf building. Exterior improvements to the hangar structure included a new bi-fold door, a new roof, exterior building skin repairs and repainting, window replacement, wall and roof insulation upgrades, and exterior lighting upgrades. Interior improvements included a new emergency eyewash station, new gas fired domestic water heater, and natural gas heating equipment. The facility was also connected to the municipal water and sewer system. Funding for the project included grants received from the State of New York through the Aviation Capital Grant Program and the Multi-Modal #4 Grant Program, as well as a future grant anticipated through the FAA's Airport Improvement Program. Project Owner: Village of Hamilton

Plattsburgh Terminal Expansion & Renovation Preliminary Design & Environmental Assessment, Plattsburgh International Airport, Plattsburgh, NY - Senior Mechanical Engineer responsible for coordination and management of all M/E/P design tasks. Among other duties, Chris provided design guidance and review for the HVAC systems, including analysis of existing rooftop units, and design and specification of new rooftop units, heat pumps, and energy recovery units. This project involved an environmental assessment (EA) and preliminary design for a new, two-story, 87,731 SF Passenger Terminal Building addition, as well as renovations to the existing, 41,380 SF building. The EA included a compressed schedule with a Finding of No Significant Impact (FONSI) received within less than eight months from notice to proceed. The engineering effort included new and renovated architectural, civil, structural, HVAC, plumbing, fire protection, baggage handling, special systems, passenger boarding bridges and electrical systems. An environmental assessment, site improvements, and paving work, as well as relocation of existing utilities was also included. Analyses of access and parking were performed to define demand and determine the appropriate parking capacity. Based on these analyses, as demand warrants, expansion of existing parking lots was designed. Design also included intersection and roadway improvements for the existing entrance road, as well as reconfiguration of access roads to service the terminal. Project Owner: Clinton County

CHARLES M. HOWE, PE, LEED AP

MJ | SENIOR ELECTRICAL ENGINEER

Mr. Howe's experience in the electrical engineering field includes medium and low-voltage power distribution, fire detection and alarm systems, lighting and lighting control systems, communications, emergency power generation and security systems. His project management expertise encompasses all phases of design, design calculations, oversight and preparation of contract documents, QA/QC preparation of cost estimates, preparation of grant applications, review of payment reimbursement requests, and construction inspection.

RELEVANT EXPERIENCE

Key West International Airport Elevated Maintenance Facility Design, Permitting and Construction Services, Key West International Airport, Key West, FL - QA/QC Engineer responsible for quality review of the electrical portion of the documents. This project involves the construction of an elevated airport maintenance facility at the Airport. The scope of work includes construction of an elevated airport maintenance vehicle and storage facility area that is connected to the existing elevated airport parking deck. The deck will be approximately 100' x 100' to its furthest extent, although the footprint will not be square and will be configured to accommodate site restrictions. A portion of the deck is covered with a roof matching the existing terminal building. Project Owner: Monroe County

Monroe County - EYW Access Road CA, , Key West, FL - This project comprised a new airport access road with parking, drainage, and lighting upgrades. Around 500-feet of two-lane roadway, 140-feet of single-lane land road, 50 parking spots, 440 feet of 8-inch waterline and other miscellaneous items were built. Project Owner: Monroe County

Monroe County - EYW Terminal Expansion Design, , Key West, FL - McFarland Johnson provided engineering design services for the Key West International Airport Concourse A Terminal Expansion Program. The terminal program includes a new seven gate Concourse A facility totaling 48,802 square feet, and will include space for gates/holdrooms, circulation, concessions, restrooms, TSA security checkpoint, baggage claim, and support areas. A new extended passenger bridge located post-security will connect the existing landside terminal building with the new Concourse A facility. The new concourse is comprised of a single-story concrete structure that is supported by piers to align with the second level of the existing terminal, remain above storm surge and flood elevations, and is open below to accommodate airside operations. The estimated cost of the terminal program is $80 million. Project Owner: Key West International Airport

Monroe County - EYW Terminal Expansion Program Verification, Key West International Airport, Key West, FL - Senior Electrical Engineer responsible for verification of existing electrical field conditions, schematic design report recommendations, and 15% schematic design drawing review, as well as preparation of the electrical portion of the verification/findings report. This project involves program validation services, developing a findings report and providing preliminary engineering design services associated with a proposed terminal expansion at the Airport. The proposed expansion will incorporate a new Concourse A totaling 48,802 square feet into the terminal as well as a new extended passenger bridge. MJ developed the program validation based upon the review of the Concourse A Schematic Design Narrative Report and the 15% Schematic Design drawings produced by another consultant. A findings report was developed based upon the review of existing data, identification of design concerns, and confirmation of code compliance. The report also suggested architectural and engineering changes to the initial designs. Project Owner: Monroe County

CHARLES M. HOWE, PE, LEED AP

MJ | SENIOR ELECTRICAL ENGINEER

Greenville-Spartanburg International Airport Terminal Expansion Study, Greer, SC - Senior Electrical Engineer responsible for observation of existing electrical field conditions, review of existing electrical power demand on the existing systems; review of existing emergency power system and available capacity and preparing the electrical portion of the project definition and programming report.. This project entailed study and development of a project definition and programming (PDP) report that identifies a preferred commercial terminal development program to enable GSP to accommodate up to and beyond 3 million annual enplaned passengers. The resultant $170 million dollar program provides for two concourse expansions, eight additional aircraft gates, expanded commercial aircraft apron (including RON apron), an FIS facility, expanded outbound baggage system, an additional three-unit baggage claim, an expanded administrative suite and significant roadway modifications and terminal curb improvements. Project Owner: Greenville-Spartanburg Airport Commission

Runway Incursion Mitigation Project - Reconfigure Taxiway H, , Manchester, NH - This project consists of the design, permitting, bid phase, construction administration, and resident engineering services to reconfigure the northern portion of Taxiway H and Taxiway L pavements to mitigate the existing Hot Spot location at the Airport. The portion of Taxiway H to be reconfigured is located north of the intersection with RW 6-24 and connects to the Runway 17 End of Runway 17-35. The newly configured section of Taxiway H will be renamed to TW K to help minimize confusion from Air Traffic Control Tower directions. The basis of the geometric design to eliminate the existing Hot Spot is based on the preferred Taxiway H alternative recommended as part of the recently completed Airfield Geometry Review and Alternatives Analysis and Airport Layout Plan Update study. The project will also upgrade the existing Airfield Lighting Control and Monitoring System hardware and software, including a remote access option. Project Owner: Manchester-Boston Regional Airport

Wilkes-Barre/Scranton International Airport Taxiway B Extension Design & CI, Wilkes-Barre/Scranton International Airport, Avoca, PA - Senior Electrical Engineer responsible for providing QA/QC review and comments on electrical design as well as assisting with power and communications system design coordination. This project involves designs for the extension of Taxiway B on the Runway 4 approach end at the Airport. The scope of work also includes an environmental assessment, relocation of FAA-owned navigational facilities, coordination with the FAA, stormwater management, embankment fill borrow material staging and coordination, taxiway lighting and signage design, and relocation of the Air Traffic Control Tower Access Road. Project Owner: Wilkes-Barre/Scranton International Airport

Greater Binghamton Parallel Taxiway B Design, Bidding and Construction Administration, Greater Binghamton Airport, Maine, NY - This project involved the removal of “hot spot” Taxiway G, and extending Taxiway K to provide a full standard parallel taxiway to Runway 10-28 named Taxiway B. The project consisted of constructing 50’ wide by 1,830’ long new taxiway to complete the full parallel taxiway. A topographic survey and the implementation of a Geotechnical Investigation Program were included to evaluate the existing pavement thickness, soils, and presence of groundwater. This information was used to determine milling depths of the existing asphalt and overlay thicknesses for proposed asphalt. The project design efforts also included a review of current pavement markings, and other FAA Standards. Design profiling each existing Taxiways, H, K, L M, and P was required to ensure FAA standards for grades and cross slopes were met. Other work included the installation of new taxiway edge lights, electrical conduit and wiring, light bases, guide signs and foundations, pavement markings, closed drainage systems, and post construction stormwater management best practices. Construction activity was phased to minimize impacts to airport operations. Runway 10-28 was utilized as a temporary taxiway to maintain GA access to Runway 16-34. Construction within the Runway 16-34 safety area was completed during two weekends with 12-hour night shift periods, to accommodate flight schedules. Project Owner: Broome County

MICHAEL ECKHARDT, PE

MJ | SENIOR MECHANICAL ENGINEER

Mr. Eckhardt is a licensed mechanical engineer with over 25 years of experience in engineering design solutions for aviation, educational, industrial and commercial clients specializing in engineered plumbing systems and petroleum bulk storage/ dispensing systems. He has been the lead plumbing engineer for airport projects in throughout New York, New Hampshire, Massachusetts, and Connecticut involving terminal expansions, interior renovations, aircraft hangars, and snow removal equipment buildings. He has also led the design of aviation fueling projects at over a dozen airports in New York, Pennsylvania, and New Jersey. Mr. Eckhardt is also serving as the Engineering Project Manager for a terminal-wide HVAC System Replacement project at Buffalo Niagara International Airport.

RELEVANT EXPERIENCE

Pease - Terminal Expansion Design, Portsmouth International Airport at Pease, Portsmouth, NH - Senior Mechanical Engineer responsible for plumbing systems design. The Portsmouth International Airport at Pease is being expanded to include a new concourse and holdroom, a new expanded TSA checkpoint, a new baggage handling system and CBIS building, a new passenger boarding bridge, new concession space, and a new baggage makeup area. Additionally, the project includes improvements to access security, security cameras and paging for the expansion as well as the existing terminal. This $18M expansion includes 24,322 sf of new space. Construction completion is planned for late 2020 and is funded by grants received from the FAA and State of New Hampshire Department of Transportation. The FAA grants include a Supplemental Discretionary Grant as well as use of the airport's Entitlement Grant funding. The proposed improvements are in response to a Study completed in 2018, which identified deficiencies in facility requirements to support the current and planned growth in enplanements at the Airport for both domestic and international carriers. Project Owner: Pease Development Authority

Bradley Airport Terminal Bathroom Renovations, Bradley International Airport, Windsor Locks, CT - Lead Engineer responsible for coordinating with client, owner and code officials during design and construction. As featured on CBS Sunday Morning for the innovative, private, and touchless features that are particularly essential in times of COVID, the renovations of Bradley International Airport's bathrooms involved upgrades to 25 public restrooms within Terminal A. McFarland Johnson provided mechanical, electrical, plumbing and fire suppression system replacement and demolition design services for this project. MJ also provided designs for additional wayfinding signs in the terminal. Project Owner: Connecticut Airport Authority

Schuylkill-Construct Hangar Project Engineering Design Services, Schuylkill County Airport, Pottsville, PA - Project Engineer responsible for QA/QC review of electrical plans. This project provided a 7,300 square foot hangar capable of housing corporate aircraft. The pre-fabricated metal clear span hangar includes a concrete pier/frost wall foundation, concrete floor and bottom rolling door. The hangar project is funded by a Penn DOT Bureau of Aviation Capital budget grant at a funding level of 50% State and 50% Local shares. During the project formulation and pre-design estimates completed by MJ, it was found that the Hangar project originally funded at $200,000 state and $200,000 local was not sufficient to construct an aircraft hangar to the size meeting the airport's needs. MJ assisted the airport authority in securing additional grants at funding levels of $200,000 state and $200,000 local, thereby increasing the project budget from $400,000 to $800,000. Project Owner: Schuylkill County Airport Authority

Trenton-Mercer Airport New Terminal EA, Design & Construction, Trenton-Mercer Airport, West Trenton, NJ - This project requires preparation of an Environmental Assessment for construction of a new 125,000 SF terminal building, realigned access roads, relocation of the Aircraft Rescue and Firefighting (ARFF) building and an expansion of the vehicle parking lot. Key environmental concerns expressed by the public included noise, air quality, wetlands, floodplains, and stormwater. Project Owner: Mercer County

MICHAEL ECKHARDT, PE

MJ | SENIOR MECHANICAL ENGINEER

Village of Hamilton - Terminal Hangar Rehabilitation Design, Hamilton Municipal Airport, Hamilton, NY - This project included design and bid phase services for upgrades to an existing terminal hangar, comprised of a 500 sf terminal structure with an attached 6,500 sf maintenance/aircraft storage hangar. The terminal structure was demolished and replaced with a new 1,200 sf building. Exterior improvements to the hangar structure included a new bi-fold door, a new roof, exterior building skin repairs and repainting, window replacement, wall and roof insulation upgrades, and exterior lighting upgrades. Interior improvements included a new emergency eyewash station, new gas fired domestic water heater, and natural gas heating equipment. The facility was also connected to the municipal water and sewer system. Funding for the project included grants received from the State of New York through the Aviation Capital Grant Program and the Multi-Modal #4 Grant Program, as well as a future grant anticipated through the FAA's Airport Improvement Program. Project Owner: Village of Hamilton

Pease-Terminal Improvements Planning Portsmouth International Airport at Pease, Portsmouth International Airport at Pease, Portsmouth, NH - This study focused on the existing airport terminal building and ancillary needs in the medium-term (2018-2020) and long-term (2020 and beyond). The study considers the needs of both domestic and international carriers. This project optimized a wide mix of aircraft ranging from A320 to B747 at the existing apron with existing and proposed passenger boarding bridges. This included gate planning, aircraft movements to ensure adequate separation, support vehicle movements, and jet blast reviews for building impacts. Additionally, this project included determining the terminal needs for the short- and long-term capacity and identifying the facility requirements and deficiencies for the terminal building size, automobile parking, and drop off pick-up ramp. Project Owner: Pease Development Authority

Greater Binghamton Airport Master Plan Update, Greater Binghamton Airport, Maine, NY - This project involves the preparation of a Master Plan Update to assure that the Greater Binghamton Airport and its environs are safe and efficient as well as to evaluate the changing needs of airport users and the aviation needs of the surrounding community. Initial tasks of the project included the acquisition of detailed airport mapping compliant with FAA Advisory Circular 150/5300-18B and data for development of a flexible, scenario-based Airport Master Plan Update and Airport Layout Plan. Baseline data will be collected and presented for use in subsequent planning analyses. The project includes development of an airport inventory, aviation forecasts, environmental overview and facility requirements. Project Owner: Broome County

Watertown Terminal Apron Reconstruction Design, Watertown International Airport, Watertown, NY - The project involved the pavement rehabilitation of the 75,000 SF commercial apron at the Watertown International Airport. The commercial apron was originally constructed in the 1980's and was rehabilitated in 2003. The existing pavements were exhibiting noticeable wear due to the effects of service loads, weather and time and needed to be replaced or rehabilitated. This area is an intricate part of the airport's operations as it is where they service both commercial and often corporate aircraft. The project objectives include the assessment of the pavement condition to determine the limits of reconstruction and/or overlay; the development of pavement sections; the replacement of apron edge lighting; improvements to the apron operations lighting; replacement and/or improvements to the apron drainage system, to include glycol collection. All described revisions will be completed in accordance with the appropriate FAA Advisory Circular or directives. Project Owner: Jefferson County

CHAD E. PHILLIPS, PE

MJ | SENIOR STRUCTURAL ENGINEER

Chad is responsible for the overall management of numerous projects at McFarland Johnson's Burlington, VT office. He has many years of experience in the structural design and project management of many types of structures. These include industrial, educational, commercial, residential and government buildings, as well as water/wastewater treatment facilities. Chad's current responsibilities include acting as client liaison and providing project design and management, marketing, design review, quality control and construction observations. He has also served as a university instructor, teaching structural steel design, reinforced concrete design and other introduction to engineering courses. Chad also served for 11 years in the U.S. Coast Guard's Civil Engineering Unit in Miami, FL.

RELEVANT EXPERIENCE

Terminal Connectors Bomb Blast Analysis, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL - Project Engineer responsible for bomb blast analysis, modeling the existing and proposed terminals and elevated travelways to determine blast forces at various points along the building and presenting the final report to the client. McFarland Johnson is providing planning assistance under a term agreement for this client. To date, MJ has been involved in a number of task assignments, providing alternatives review and recommendations for projects such as: bomb blast analysis; departure curbs; arrival curb emergency vehicle parking; cell phone waiting lot; and air cargo center. Also provided bike path program development & recommendations, and on-site planning advisory services. Project Owner: Broward County

Key West International Airport Elevated Maintenance Facility Design, Key West International Airport, Key West, FL - Senior Structural Engineer. This project involves the construction of an elevated airport maintenance facility at the Airport. The scope of work includes construction of an elevated parking deck with a maintenance facility area. The deck will be approximately 100' x 100' to its furthest extent, although the footprint will not be square and will be configured to accommodate site restrictions. A portion of the deck is covered with a roof matching the existing terminal building. Project Owner: Monroe County (FL)

Terminal Revitalization, Elmira Corning Regional Airport, Horseheads, NY - Senior Structural Engineer responsible for quality assurance review of structural design plans, project coordination, budgeting, scoping and staff management. Chad identified the primary coordination issues that needed to be addressed early on. He selected the major structural systems and worked to design the critical lateral and vertical load carrying systems. Allowances were made for future loads, not yet determined and provisions made for future changes in configuration and loads as the rest of the design progressed even after the fabrication of the structural steel had begun. The design and construction of the $61.5M terminal expansion and renovation, funded through the NY Upstate Airport Economic Development and Revitalization and FAA grant monies, was accomplished with a fast-track approach in approximately 18 months. The project was designed and bid in phases to allow for continued operation of the facility while the terminal expansion was progressing. Project Owner: Chemung County

Terminal Expansion & Renovation, Plattsburgh International Airport, Plattsburgh, NY - Senior Structural Engineer responsible design and supervision of all structural project components. The renovations to the existing terminal required infill of existing open floor space in several locations. A structural analysis of the existing building was undertaken to determine the ability of the structural bracing systems to support the increased lateral load demands due to the increased mass of the building. The new expansions were designed for the wind and seismic loads of new construction as well as the existing building, bringing the entire structure into code compliance. This terminal expansion involved engineering design services for a two-story, 87,731 sf passenger terminal building addition, as well as renovation to the existing 41,380 sf terminal. Project Owner: Clinton County

CHAD E. PHILLIPS, PE

MJ | SENIOR STRUCTURAL ENGINEER

Pease-Terminal Improvements Planning Portsmouth International Airport at Pease, Portsmouth International Airport at Pease, Portsmouth, NH - Senior Structural Engineer responsible for quality assurance review of structural design plans, project coordination, budgeting, scoping and staff management. This study focused on the existing airport terminal building and ancillary needs in the medium-term (2018-2020) and long-term (2020 and beyond). The study considers the needs of both domestic and international carriers. This project optimized a wide mix of aircraft ranging from A320 to B747 at the existing apron with existing and proposed passenger boarding bridges. This included gate planning, aircraft movements to ensure adequate separation, support vehicle movements, and jet blast reviews for building impacts. Additionally, this project included determining the terminal needs for the short- and long-term capacity and identifying the facility requirements and deficiencies for the terminal building size, automobile parking, and drop off pick-up ramp. Project Owner: Pease Development Authority

Airport Monopole Tower Engineering Study, Edward F. Knapp State Airport, Berlin, VT - Project Manager responsible for structural engineering analysis of a series of monopole towers. Provide engineering study and structural analysis of towers to ensure modified pole configuration is structurally sound with the added weight of the platform materials, added wind loading and other structural considerations. Project Owner: Federal Aviation Administration

Burlington International Airport Terminal Energy Retrofit, Burlington International Airport, Burlington, VT - Project Manager responsible for structural evaluation of the existing structure and design of new structural framing to support new mechanical loads. The project consisted of retrofitting the existing mechanical systems at the Burlington International Airport terminal building to improve energy efficiencies. Project Owner: Burlington International Airportand engineering changes to the initial designs. Project Owner: Monroe County

ANTHONY J. SHUBA

MJ | DYNAMIC TECHNOLOGY SOLUTIONS & AUTOMATION MGR.

Mr. Shuba is a software engineering professional with more than 20 years of experience in the field. He promotes object-oriented approaches to real-time software development and is analytical and detail oriented. Mr. Shuba has advanced knowledge of the Java architecture and web-based solution design. He applies these skills in the development of innovative consulting solutions software, such as MJ's proprietary Dynamic Analysis Tool (DAT), obstruction visualization tools and grant administration software.

RELEVANT EXPERIENCE

Dynamic Master Plan, Fort Lauderdale-Hollywood International Airport, Fort Lauderdale, FL - Software Solutions Manager responsible for the design and development of the DAT database and web application. This Plan includes scenario-based planning analyses and an innovative dynamic planning approach that provides quick feedback regarding possible scenarios and resultant impacts. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points. Project Owner: Broward County

Dynamic Master Plan & e-ALP Update, Greenville-Spartanburg International Airport, Greer, SC - Software Solutions Manager responsible for the design and development of the DAT database and web application. This Plan includes scenario-based planning analyses and an innovative dynamic planning approach that provides quick feedback regarding possible scenarios and resultant impacts. GSP staff can analyze new opportunities and planning challenges proactively before they occur rather than undergoing time consuming and costly planning efforts in a reactionary manner. The Plan focuses primarily on landside access, circulation and auto parking facilities, air cargo facility development and operations, enhanced land development and obstruction planning and consolidation of previous planning efforts into a single electronic source for planning and GIS information. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and enhanced land development and highest or best use principles. Project Owner: Greenville-Spartanburg Airport Commission

Dynamic Master Plan, Wilmington Airport, New Castle, DE - Software Solutions Manager responsible for the design and development of the DAT database and web application. With this complex and highly dynamic airport including 4 FBO's, an Air National Guard base, and intermittent periods of commercial service, this plan requires flexibility to take advantage of yet unknown opportunities or changes in market conditions. The dynamic scenario-based interface, combined with the comprehensive AGIS survey, provides a management tool for airport staff, creating flexibility to account for changes within the industry and the general economy. Project Owner: Delaware River and Bay Authority

Dynamic Master Plan and Airport Layout Plan Update, Wilkes-Barre/Scranton International Airport, Avoca, PA - Software Solutions Manager responsible for the design and development of the DAT databases and web applications. This project involves the development of a dynamic Airport Master Plan that utilizes an innovative approach to airport planning and provides for additional flexibility in airport planning management. The Dynamic Master Plan focuses primarily on landside access, parking and terminal issues, airfield geometry and enhanced commercial land development. The plan incorporates adjustable forecasts, scenario-based planning, planning activity levels with specific trigger points and an enhanced land development and marketing analysis based on highest or best use principles. The Dynamic Master Plan combines all the data collected with updated aerial mapping to produce an existing conditions ALP in keeping with FAA Airports GIS standards. The final product links forecast and market driven development variables to a dynamic and interactive financial plan ALP, making the final dynamic deliverables infinitely more useful to both the FAA and the airport. The land development tool enables the Airport to review and assess potential development opportunities to select for the highest and best use. Project Owner: Wilkes-Barre/Scranton International Airport

LAURA SAU

MJ | VISUALIZATION SPECIALIST

Ms. Sau has experience in 3D graphic model design and development, visualizations, video production and virtual reality. She utilizes her educational experience gained through a Bachelor's Degree in Architecture, as well as her work experience in construction and planning/zoning to develop ultra-realistic project visualizations to engage clients, stakeholders, and the public, which enables all parties to envision how a project will manifest.

RELEVANT EXPERIENCE

Strategic Real Estate Development Plan, Gerald R. Ford International Airport, Grand Rapids, MI - Visualization Specialist responsible for developing photorealistic graphics and 3D model video footage for proposal meetings. Gerald R. Ford International Airport (GRR), the second busiest commercial service airport in Michigan, is comprised of approximately 3,130 acres of land with approximately 900 acres of property available for lease and development. There are specific real estate development opportunities that require or are significantly enhanced by the presence of the Airport. MJ has been tasked with identifying these aviation/real estate relationships, determining which types of development are appropriate for and desired by the Airport and developing a Strategic Real Estate Development Plan to guide and facilitate desired aviation and non-aviation real estate development. To achieve this objective, MJ will prepare a master land use and site development plan for specific parcels on or adjacent to GRR based on current regional and national market trends and conditions obtained through a real estate market analysis. The unified master land use plan and associated development concepts will provide a framework for future development, evaluate development phasing, costs and financial impacts, identify a strategic implementation action plan and include a comprehensive marketing program and tools to target potential tenants. Project Owner: Gerald R. Ford International Airport Authority

Terminal Expansion Study, Greenville-Spartanburg International Airport Greer, SC - Visualization Specialist responsible for developing photorealistic graphics and 3D model video footage for proposal meetings. This project entailed study and development of a project definition and programming (PDP) report that identifies a preferred commercial terminal development program to enable GSP to accommodate up to and beyond 3 million annual enplaned passengers. The resultant $170 million dollar program provides for two concourse expansions, eight additional aircraft gates, expanded commercial aircraft apron (including RON apron), an FIS facility, expanded outbound baggage system, an additional three-unit baggage claim, an expanded administrative suite and significant roadway modifications and terminal curb improvements. Project Owner: Greenville-Spartanburg Airport Commission

Miscellaneous Land Planning Support, Greenville-Spartanburg International Airport, Greer, SC - Visualization Specialist responsible for developing photorealistic graphics for use in land development concepts. The Airport has a total of roughly 4,700 acres of land, with approximately 50% of that available for non-aeronautical development. MJ is providing land development and land use planning for various parcels within GSP's portfolio to prepare them for marketing to potential tenants. Parcel development; highest and best use analyses; roadway network and illustrative renderings and modeling are being provided under this task. Project Owner: Greenville-Spartanburg Airport Commission

South Island Apt - Starbuck Island Mixed Use Development Site Design, Green Island, NY, Village of Green Island, NY - Visualization Specialist responsible for developing photorealistic graphics of the pool area for use in public presentation meetings and 3D model video footage for a project commercial. The project consists of a mixed-use development that comprises of a multi-tenant, 2-story 26,300 s.f. commercial building that will contain office, retail and restaurant spaces with an outdoor sitting area; a 3,500 s.f. branch bank with drive thru lanes; and, four (4), four-story multifamily residential buildings containing approximately 276 units, all on an 11-acre island in the Hudson River. The project required permitting a 14' high sea wall with heavy slope stabilization along the banks of the Hudson River. Our services included the design and permitting for all components of the project which required preparing an Environmental Assessment Report, SEQRA documentation, site plans, coordination and obtaining permits from NYSEDC, USACOE, NYSOGS, and NYSDOS. Project Owner: South Island Apartments, LLC

WILLIAM A. HAYWARD, AIA, CSI-CDT, CCCA, CCS, LEED GA

BAKER | ARCHITECT

Mr. Hayward has extensive experience in aviation terminal additions, baggage handling systems and check point projects, and in particular renovation projects requiring phased construction while maintaining existing operations, involving multiple stakeholders and critical infrastructure elements. During his career he has worked on a myriad of project types and complexity involving over $2.7 billion in successful construction, including government facilities, aviation projects, office buildings, hotels, high-rise condominiums, medical, convention centers, parking garages and recreation and sports complexes. Project size has varied with construction costs for a single project up to $350 million. This has included a number of fast-tracked project schedules, utilizing design-build, design-bid-build, and construction management project delivery methods that were completed on time and within budget.

RELEVANT EXPERIENCE

Architectural, Engineering, and Planning Consultant Services, Tallahassee International Airport (TLH), Tallahassee, Florida-City of Tallahassee, Florida. Architect. Provided architectural support services. Michael Baker is providing full, in-house consulting and engineering services for various projects at the Tallahassee International Airport. These services entail the preparation of an airport master plan, the development of a sustainability master plan, the conducting of a foreign trade zone study, the design and reconstruction of the south apron and rehabilitation of the Airport Rescue and Fire Fighting station, annual training for Wildlife Hazard Management, an environmental assessment for the development of a solar farm, and inspections for stormwater pollution prevention compliance.

DFS Airport Terminal Development, DeFuniak Springs Airport (54J), DeFuniak Springs, Florida-City of DeFuniak Springs. Architect of Record. Architect of Record for the design of the new GA terminal and adjoining hangar. Michael Baker provided design and engineering services for the new general aviation (GA) terminal for DeFuniak Springs Airport. The terminal consists of a 7,500-square-foot FBO and terminal building and an adjoining 11,000-square-foot hangar to replace an existing FBO that has outlived its useful life. This facility will serve as the aviation gateway to this historical community. Michael Baker is providing architectural engineering for the project.

New General Aviation Center Project, Punta Gorda Airport (PGD), Punta Gorda, Florida-Charlotte County Airport Authority. Architect of Record. Architect of Record for the design of the new GA Terminal, including a new future restaurant, FBO, and fight training instructor offices. Michael Baker provided airfield engineering, civil engineering, architecture, structural engineering, environmental services, bidding services, construction administration, and grant support for the construction of the new PGD Air Center at Punta Gorda Airport to relocate the existing general aviation facility. This facility will replace the existing general aviation (GA) facility to make space for a future southern expansion of the Bailey Terminal. The new GA terminal will serve as a gateway to the community.

Tampa International Airport Restroom Improvements, Tampa, Floridaa-Hillsborough County Aviation Authority. Architect of Record. Served as the Architect of Record and Project Manager for the design and construction phases of the project. Michael Baker provided design-phase evaluations for two upgraded restrooms at the Tampa International Airport. For airsides A and E, a complete demolition of the current restrooms preceded the implementation of a unique, modern design that reflected the character and theme of each airside terminal. Michael Baker reviewed the facilities with the airport staff to ensure that the airport's high standards were met and that the maintenance staff could service the restrooms without having to shut them down completely. Additionally, passenger capacity was evaluated. Michael Baker created multiple design options prior to the development of the contract documents. To reduce the time the restrooms would be out of service, the project included phased and accelerated construction work activities.

KIM M. ALLERTON

ERS | DIVISION MANAGER

Ms. Allerton is Division Manager and Senior Environmental Scientist with Environmental Resource Solutions (ERS), A Division of SES Energy Services LLC. In addition to running the day to day operations of the business, she performs a myriad of environmental services. She maintains a strong rapport with the resource and regulatory agencies and coordinates with agencies on behalf of public and private clients. Ms. Allerton is a lead scientist who performs wetland assessments and delineations, environmental resource permitting, mitigation planning, Master Planning Studies, NEPA documents. She is an expert in aviation environmental planning and wildlife hazard assessment. Ms. Allerton brings 31 years of experience in the environmental consulting field with over 25 years related to aviation services. Her public sector experience is unsurpassed having evaluated and permitted hundreds of projects, including a multitude of aviation projects. Ms. Allerton has managed airport projects in Florida, Georgia, Missouri, Arkansas, Kansas, Texas, California, Hawaii and Mexico. Her extensive experience in the environmental consulting field has made her a well-respected expert. She has collaborated with a multitude of airports, local governments, transportation agencies, engineers and planners on hundreds of transportation-related projects including more than 300 aviation-related projects. Her experience includes, but is not limited to, wetland delineation and permitting, NEPA documentation, airport master planning, habitat and wildlife assessment, and endangered species assessments. She is a recognized expert and has provided testimony in the areas of wetland delineation, assessment and permitting

RELEVANT EXPERIENCE

Ocala International Airport (OCF) Misc. Ecological Service, Ocala, FL-Mr. Allerton oversaw multiple projects at OCF under engineering on-call contracts. From 2009-2017, ERS completed a Wildlife Hazard Assessment, Wildlife Hazard Management Plan, multiple annual Wildlife Hazard Training sessions, gopher tortoise surveys and assessments and consulted with OCF staff on Coyote issues.

Jacksonville Aviation Authority Environmental On-Call ,Jacksonville, Florida- Since 1999, ERS has served as the on-call ecological consultant for JAA. Since that time, Ms. Allerton has managed virtually all projects at all four of the airports controlled by JAA: Jacksonville International Airport (JIA), Jacksonville Executive at Craig, Herlong Recreational, and Cecil Field Airport. Projects include conceptually permitting over 160 acres of wetland impacts at JIA for their 20-year stormwater master plan, conducting a Formal Determination with SJRWMD on approximately 5,000 acres at Cecil Airport, completing Wildlife Hazard Assessments at Cecil and Jacksonville Executive, assisting with routine wildlife hazard monitoring pursuant to FAA requirements, developing and managing large-scale on-site conservation areas, and providing permitting assistance on an as-needed basis for any construction project involving impacts to wetlands or protected species. ERS was instrumental in establishing conservation easement language that satisfied FAA (with Part 77 tree clearing and wildlife management/abatement allowances), USACE and the State of Florida wetland regulators. In 2014, ERS successfully permitted 220 acres at Cecil Airport as a long-term protected gopher tortoise recipient site. In addition to serving as wetland mitigation, this area can accommodate more than 600 tortoises, with anticipated revenue to JAA exceeding $600,000. This contract requires extensive knowledge of long range airport planning goals/objectives and compatible adjacent land uses.

Atlanta Regional Airport (Falcon Field) Environmental Assessment, Peachtree City, Georgia- Ms. Allerton managed the completion of an Environmental Assessment for an Obstruction Clearing project at Atlanta Regional Airport. As part of the EA, ERS delineated jurisdictional wetlands within an approximate 218-acre project area and assessed over 9,000 linear feet of stream habitat. The proposed action included clearing trees on airport property within the 14 CFR Part 77 Primary Surface and off airport within the TERPS 20:1 approach at Runway 13 and the TERPS 30:1 approach at Runway 31. In addition, the action also included acquiring one avigation easement. ERS was responsible for extensive agency coordination, including U. S. Army Corps of Engineers (USACE), U.S. Fish and Wildlife Service, GDOT and FAA. The FONSI is anticipated in October 2020.

GEO-TECH, INC.

Craig A. Hampy,P.E.
Senior Project Engineer

Education/Degrees

- High School: Belleview High School, Belleview, FL
- College: Associate of Arts, Central Florida Community College, 2007
  Bachelor of Science in Civil Engineering, Florida State University, 2011

Professional Experience

November 2011 – Present

Project Engineer, Geo-Tech, Inc., Ocala, Florida

Engineering and project management of site evaluations, sinkhole remediation, geotechnical analysis, and design of foundation systems for various structures, roadways, and pavements. Project management with analysis and evaluation of engineering materials and testing, in addition to cost analysis for geotechnical services on major roadway expansion projects. Complete supervision and review of materials testing laboratory procedures and troubleshooting for a wide variety of complications found within construction procedures.

July 2011 – November 2011

Field Engineer, GSE Engineering, Gainesville, Florida

Sinkhole remediation monitoring, including: sinkhole inspections and reports. Geotechnical evaluations with technical report writing and data analysis and interpretation. Laboratory testing supervisor.

June 2005 – August 2007

Supervisor, Foundation Services of Central Florida, Ocala, FL

Sinkhole remediation supervisor, scheduled home inspections, worked on landscaping projects for the Department of Transportation, and acquired residential and commercial permits.

Certifications

- Florida Professional Engineer, Registration No. 83240
- Certified Stormwater Management Inspector

Technical Experience

- Ground Penetrating Radar (GPR) Evaluation & Data Interpretation
- Laboratory Testing
- Cone Penetration Test (CPT) Data Interpretation
- Technical Report Writing
- Site Plan Preparation
- Grout Monitoring
- Auger Cast Pile Monitoring

ROBERT C. MENTZER, JR.

HMMH | PRINCIPAL CONSULTANT

Robert Mentzer has specialized in airport environmental noise studies for airports for more than 25 years. He is a well-qualified Project Manager and Lead Technical Specialist. He has had these roles for several major airport environmental studies and Part 150 noise studies. His project experience ranges from general aviation airports such as TEB and FXE to major airports such as BOS, CLT, DEN and ORD. He also has extensive experience managing several airport noise on-call contracts. Mr. Mentzer has recently completed the Noise Exposure Map and Master Plan Update at Nashville International Airport and was the Noise lead for two EIS Re-Evaluations at Chicago O'Hare International Airport. He is currently involved in NEPA studies in Chicago and Nashville. Mr. Mentzer has led the preparation of noise contours for more than 50 airports, including noise elements of Part 150 Land Use Compatibility Planning Studies, Part 161 Noise and Access Restriction Studies, Environmental Assessments, Environmental Impact Statements, Airport Master Plan Studies, and other studies concerning airport noise.

DOUGLAS C. BAÑEZ

HUBPOINT | AIR SERVICE DEVELOPMENT

Doug Bañez is Founder and Managing Director of Hubpoint Strategic Advisors, LLC – a consultancy serving the aviation, transportation, and logistics sectors. During his 30-year career, Doug has led client engagements in North America, Latin America, Asia and the Middle East in the areas of business strategy, marketing, competitive positioning, and regulatory support. For the aviation community, Doug focuses on economic analyses of airline and airport issues, with particular emphasis on passenger air service development, aviation networks, traffic forecasting, and air cargo market assessments. Doug is a veteran of industry-leading aviation and transportation consulting firms and applies best-practices learned over his career to Hubpoint's client and partner engagements. Throughout his career, Doug has worked with small and non-hub U.S. airports on air service development matters including airports in Jacksonville, NC; Wilmington, DE; Fayetteville, NC; Lewiston, ID; El Paso, TX; Niagara Falls, NY and Mesa, AZ. At the same time, he has led passenger air service development initiatives at large airports including Phoenix Sky Harbor, Washington Dulles, and San Diego. This experience provides Doug with valuable perspective on the unique challenges faced by airports of varying size and operational complexity.

RELEVANT EXPERIENCE

- Developed a strategic plan for air service development efforts at Wilmington Airport (ILG) in Delaware. Led efforts to target and pursue Frontier Airlines and other Ultra Low Cost Carriers (ULCCs). ULCC strategy focused on cost and traveler convenience advantages at ILG compared to larger nearby airports in Philadelphia and Baltimore. Ultimately, Frontier started service to Orlando in February 2021. Provide presentation materials and on-site support for ILG's meetings with airlines at industry air service conferences.

- Lead air service development strategy and advisory services for Albert J. Ellis Airport (OAJ) located in Jacksonville, NC. OAJ seeks additional airlines and scheduled nonstop destinations to augment service by two incumbent network carriers. Perform detailed analysis of OAJ O&D and onboard traffic, current services and potential airline/route priorities. Develop air service presentation materials aimed at target airlines. Arrange and lead airline headquarters meetings for OAJ and provide on-site support for airline meetings at air service conferences. Executed a leakage study for OAJ which is in close proximity to four other commercial airports. Advised development of air service incentive program.

- Provided passenger air service development advice to Lewiston-Nez Perce County Regional Airport (LWS) located in Lewiston, ID. Developed comprehensive air service strategic plan for LWS assessing the current situation and identifying prioritized targets for potential air service – by route and by airline. Perform aviation market analysis and stakeholder outreach to the local community on an ongoing basis. Led headquarters meeting with a major regional airline to promote opportunities at LWS and substantiate the need for additional capacity and flight frequencies. Subsequently, the airline successfully added a fourth daily regional jet frequency and is currently considering further service enhancements at LWS.

- Advise North Carolina's Fayetteville Regional Airport (FAY) regarding air service development strategies to attract new non-stop passenger services. Initial target markets included Washington, DC and Dallas-Fort Worth. Work involved quantifying the impact of current and future travel related to nearby Fort Bragg. Conducted community outreach and traveler surveys to understand leakage factors. Led headquarters and JumpStart meetings with commercial airlines to promote non-stop services to FAY. Subsequently, air services were initiated at FAY to Washington Reagan National Airport (DCA) and Washington Dulles International Airport (IAD). Led development of FAY's application for Small Community Air Service Development Program (SCASDP) grant through the U.S. DOT.

TRAVIS P. BARRINEAU, P.S.M.

RMB | PROFESSIONAL SURVEYOR

R.M. Barrineau and Associates, Inc. (The Company) is licensed by the State of Florida to provide surveying and mapping services. The Company was incorporated in 1988, in Marion County, FL and has been serving Central Florida for 34 years. R.M. Barrineau and Associates, Inc., provides surveying and engineering support services for engineers, architects, contractors, attorneys, lending institutions and government agencies. The Company has provided consultant surveying services at the Ocala International Airport for topographic surveying services for the demolition of the old terminal and the design and construction of the new terminal; construction staking of runway and lighting projects; sketches of descriptions for lease parcels; numerous hangars and as-built surveys. R.M. Barrineau and Associates, Inc. works with civil engineering firms to provide surveying and mapping services for site design. The Company works with site contractors and utility contractors to provide construction layout and as-built surveys for projects ranging from small underground utility installations to shopping centers and 458,000 square foot warehouse buildings. The staff of R.M. Barrineau and Associates, Inc. work with developers in providing surveying services for acquisition of parcels and in platting both residential and commercial subdivisions. Additionally, the staff are skilled in completing ALTA/NSPS Land Title Surveys and reviewing title documents for major commercial land acquisitions. .

RELEVANT EXPERIENCE

PROJECTS AT OCALA INTERNATIONAL AIRPORT

- Project Surveyor for Topographic Survey for New Terminal Building at Ocala International Airport and Construction Staking for Terminal: Provided vertical and horizontal control; SPC's; Civil 3D file
- Project Surveyor for ALTA/NSPS Land Title Survey for four new hangar sites at Ocala International Airport: establish boundaries for the lease parcels; topographic data for parcels; prepare metes and bounds descriptions for the parcels; Civil 3D file
- Project Surveyor for numerous individual hangars at Ocala International Airport: topographic data; metes and bounds descriptions for lease parcels; SPC's; Civil 3D file

MICHAEL WEBBER

WEBBER | AIRPORT & CARGO PLANNING SPECIALIST

In a 31-year career, Michael Webber has led marketing departments of two airports, as well as consulted for numerous airport operators and civil aviation authorities. Consulting assignments include market analyses, forecasts, facilities and strategic plans. Clients have included the four largest international air cargo gateways in the U.S., as well as multiple airports in Africa, Asia, Latin America and the Middle East. On a consulting basis, he managed cargo affairs for Airports Council International – North America (ACI-NA) and was an on-call consultant for IATA (International Air Transport Association). He has completed cargo assignments for the World Bank and U.S. Transportation Security Administration (TSA), and co-authored an air cargo facilities planning guide for the Transportation Research Board (TRB). Project descriptions and client assignments are listed below.

John Mafera, Regional Director of Aviation
MCFARLAND-JOHNSON, INC.
d/b/a MCFARLAND JOHNSON
4651 Sheridan Street, Suite 300B
Hollywood, Florida 33021

Dear Mr. Mafera:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following types of work:

Group 2 - Project Development and Environmental (PD&E) Studies

Group 3 - Highway Design - Roadway

3.1 - Minor Highway Design

Group 6 - Traffic Engineering and Operations Studies

6.1 - Traffic Engineering Studies
6.2 - Traffic Signal Timing

Group 7 - Traffic Operations Design

7.1 - Signing, Pavement Marking and Channelization
7.2 - Lighting
7.3 - Signalization

Group 13 - Planning

13.3 - Policy Planning
13.4 - Systems Planning
13.6 - Land Planning/Engineering

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2022 for contracting purposes.

Approved Rates

Home/ Branch Overhead	Field Overhead	Facilities Capital Cost of Money	Premium Overtime	Reimburse Actual Expenses	Home Direct Expense	Field Direct Expense
179.53%	161.50%	0.072%	Excluded	No	4.01%	17.36%*

*Rent and utilities excluded from field office rate. These costs will be directly reimbursed on contracts that require the consultant to provide field office.

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

Should you have any questions, please feel free to contact me by email at carliayn.kell@dot.state.fl.us or by phone at 850-414-4597.

Sincerely,

Carliayn Kell

RE: Contract Extension Request to Contract Number AIR/220118
Continuing General Aviation Engineering Services

Dear Mr. Grow:

I hope this letter finds you well. I am writing to formally request a one (1) year contract extension of our current contract with Ocala International Airport Contract Number AIR/220118 entered on February 17, 2022, and expected to expire/terminate on July 19, 2025, to provide General Aviation Engineering Services.

McFarland-Johnson, Inc. acknowledge that the terms and conditions of the original Agreement will remain in effect. We are committed to servicing you with our exemplary services.

If you need any additional information, please contact Robert Overby at roverby@mjinc.com.

Sincerely,

Robert B. Overby, P.E.
Airfield Design Manager

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence
PROOF OF PUBLICATION:
Bid Released to the Public: 02/17/22; Selection Committee Meeting: 04/28/22; Final Selection Committee Meeting: 06/07/22

BACKGROUND:
The Airport has historically had an aviation engineering firm on a standing contract to conduct planning and engineering design work on an as needed basis. Airport projects are highly technical and specialized in nature and require firms that understand the rules and requirements of the Federal Aviation Administration (FAA) and Florida Department of Transportation (FDOT). Given the Airport's number of various and wide-ranging projects, it is beneficial to have two aviation engineering consulting firms under contract.

Per Competitive Consulting Negotiations Act rules, work will be divided among the two firms if they are equally qualified for the task. Where one firm has specialized experience or more qualified staff for a particular task, that firm will be assigned the work.

FINDINGS AND CONCLUSIONS:
On February 17, 2022, the City issued Letter of Interest (LOI) No: AIR/220118 seeking qualified firms for the provision of general aviation engineering services. The City received eight (8) responsive proposals to the LOI. A Selection Committee (comprised of an Airport Advisory Board member, Airport staff, and City Engineering staff) was formed to review and score the proposals. Initial scoring received from the Selection Committee on April 28, 2022 resulted in the shortlisting of the top five firms. On June 7, 2022, each shortlisted firm made a presentation to the Selection Committee and participated in a question-and-answer session thereafter. The Selection Committee scored each firm based on weighted criteria and Infrastructure Consulting & Engineering, PLLC, and McFarland Johnson, Inc. were selected as the highest ranked firms.

The FAA requires competent and qualified firms for their grant-funded projects. Both Infrastructure Consulting & Engineering, PLLC, and McFarland Johnson, Inc. have significant airport and planning experience. Engineering fees for each project are negotiated on a per-project basis using Task Work Orders. Additionally, for FAA-funded projects, independent fee reviews are completed. The continuing contracts will be for a three-year period with two optional one-year renewal terms.

FISCAL IMPACT:
All services will be approved through the use of Task Work Orders with negotiated scopes and approved proposals. Staff hours and appropriate staff classifications will be negotiated for each task for each assigned project. All final Task Work Orders must be signed by the department head and City Manager. Any Task Work Orders over $50,000 will be calendared for a City Council agenda for final approval. No services will be approved without budgeted allocations.

PROCUREMENT REVIEW:
These services have been procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
The Agreements will be reviewed and approved for form and legality by City Attorney, Robert W. Batsel, Jr.

ALTERNATIVE:

Department: Aviation

STAFF RECOMMENDATION (Motion Ready):
Approve a one-year renewal of the contract for continuing professional general aviation engineering services with Infrastructure Consulting & Engineering, PLLC

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
NA

BACKGROUND:
On February 17, 2022, the City issued Request for Proposals (RFP) No. AIR/220118 for continuing general aviation engineering services. Of the eight firms that responded, Infrastructure Consulting & Engineering, PLLC, and McFarland Johnson, Inc., were found to be the highest-ranked. Each firm was subsequently awarded three-year contracts.

This renewal is for Infrastructure Consulting & Engineering, PLLC.

FINDINGS AND CONCLUSIONS:
The Federal Aviation Administration (FAA) requires competent and qualified firms for its grant-funded projects. Infrastructure Consulting & Engineering, PLLC, has significant experience in airport planning and development. Engineering fees for each project are negotiated on a per-project basis using task work orders, and for FAA-funded projects, undergo independent fee reviews. The original continuing contract was for three years, with this renewal being the first of two available one-year renewals.

Since the inception of the original contract, Infrastructure Consulting & Engineering has completed or is in the process of completing the following task work orders: Design and Inspection of North Development Access Road, Taxiway C Environmental Assessment and Design, Design A12 Infrastructure, Terminal Apron Rehabilitation Design, Design and Inspection RY36 Sealcoat and Striping, and performed various independent

fee assessments. Infrastructure Consulting & Engineering has performed well during this original contract term, and staff recommends approval for this next renewal year.

FISCAL IMPACT:
All services will be approved using task work orders with negotiated scopes and approved proposals. Staff hours and appropriate staff classifications will be negotiated for each task during an assigned project. The department head and City Manager must sign all final task work orders. Any task work orders exceeding $50,000 in cost must be calendared for a City Council agenda for final approval. No services will be approved without budgeted allocations.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

FIRST AMENDMENT TO AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES

THIS FIRST AMENDMENT TO AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES ("First Amendment") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City") and **INFRASTRUCTURE CONSULTING & ENGINEERING, PLLC,** a professional limited liability company duly organized in the state of South Carolina and authorized to do business in the state of Florida (EIN: 45-3175330) ("Consultant").

WHEREAS, on September 9, 2022, City and Infrastructure Consulting & Engineering, PLLC entered into an Agreement for Continuing General Aviation Engineering Services, (the "Original Agreement") City of Ocala Contract Number: AIR/220118 for a term of three (3) years from July 20, 2022, through July 19, 2025; and

WHEREAS, City and Consultant now desire to extend the Original Agreement for the first of three (3) available one-year renewals.

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Consultant agree as follows:

1. **RECITALS**. City and Consultant hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **INCORPORATION OF ORIGINAL AGREEMENT**. The Original Agreement between City and Consultant is hereby incorporated by reference as if set forth herein in its entirety and remains in full force and effect, except for those terms and conditions expressly amended by this First Amendment.
3. **RENEWAL TERM.** The Original Agreement is hereby renewed for an additional one (1) year term beginning on **JULY 20, 2025,** and terminating **JULY 19, 2026.** Thereafter, this Agreement may be renewed for **TWO (2)** optional **ONE (1) YEAR** periods by written consent between City and Consultant.
4. **COMPENSATION.** City shall compensate the Consultant an amount not to exceed **THREE HUNDRED THOUSAND AND NO/100 DOLLARS ($300,000)** (the "Maximum Limiting Amount") during the Initial Term, inclusive of any and all direct costs, indirect costs, and reimbursable expenses, in accordance with the pricing reflected in the Original Agreement. The maximum limiting amount established under this Agreement shall not be exceeded without the City's express written approval verified by amendment or Task Work Order to this Agreement.
5. **NOTICES.** All notices required or permitted under this Agreement shall be given in writing and shall be deemed sufficiently served if delivered by registered or certified mail, with return receipt requested; or delivered personally; or delivered via electronic mail (as provided below) and followed with delivery of a hard copy. All notices shall be addressed to the respective parties as follows:

If to Consultant:	Infrastructure Consulting & Engineering Attention: Doug Hambrecht, Vice President 5550 W. Idlewild Ave., Suite 115 Tampa, Florida 33634 Phone: 813-330-2701 E-mail: doug.hambrecht@ice-eng.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: cityattorney@ocalafl.gov

6. **COUNTERPARTS.** This First Amendment may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
7. **ELECTRONIC SIGNATURE(S).** Consultant, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the First Amendment that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original First Amendment for all purposes.
8. **LEGAL AUTHORITY**. Each person signing this First Amendment on behalf of either party individually warrants that he or she has full legal power to execute this First Amendment on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this First Amendment.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK. SIGNATURE PAGE TO FOLLOW.]

IN WITNESS WHEREOF, the parties have executed this First Amendment on _____.

AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES

THIS AGREEMENT FOR CONTINUING GENERAL AVIATION ENGINEERING SERVICES ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **INFRASTRUCURE CONSULTING & ENGINEERING, PLLC**, a Professional Limited Liability Company duly organized in the state of South Carolina and authorized to do business in the state of Florida (EIN# 45-3175330) ("Infrastructure Consulting") or ("Consultant").

R E C I T A L S :

WHEREAS, on February 17, 2022, City issued a Request for Proposals ("RFP") from qualified engineering firms for the provision of continuing general aviation engineering services, RFP No.: ELE/220118 (the "Solicitation"); and

WHEREAS, eight (8) firms responded to the Solicitation and, after consideration of the evaluation factors set forth in the Solicitation, McFarland Johnson and Infrastructure Consulting & Engineering, PLLC, were found to be the highest ranked proposals and selected as finalists in the solicitation process; and

WHEREAS, Infrastructure Consulting & Engineering, PLLC, was selected as the awardee to provide continuing general aviation engineering services (the "Services"); and

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Consultant agree as follows:

T E R M S O F A G R E E M E N T :

1. **RECITALS**. City and Consultant hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Consultant shall only include: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the proposal submitted by Consultant in response to same (the "Solicitation Documents"); and (d) those documents identified in the Project Specifications section of this Agreement, if any. Each of these documents are incorporated herein by reference for all purposes.

   If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Count.)

A. **Exhibits to Agreement**. The Exhibits to this Agreement are as follows:

Exhibit A: Scope of Work (A-1 through A-5)

Exhibit B: Submitted Proposal (B-1 through B-107)

Exhibit C: Loaded Hourly Rates (C-1 through C-5)

If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A; then (2) Exhibit B; then (3) Exhibit C.

3. **SCOPE OF SERVICES/TASKS.** Consultant shall provide full-service aviation planning and design services, construction management services and inspection of airport development projects more specifically described in **Exhibit A – Scope of Work** and the Contract Documents on an as needed basis and shall include, but be not limited to, those services authorized by individual Task Work Orders for individual related projects (the "Projects"). City and Consultant acknowledge that the Scope of Work may not delineate every detail and minor work task required to be performed by Consultant to complete the individual Projects. If during the course of performance of the services included in this Agreement Consultant determines that work should be performed to complete the Project which is in the Consultant's opinion outside of the level of effort originally anticipated, Consultant shall notify the City Project Manager and obtain written approval by the City Project Manager in a timely manner before proceeding with the work. If Consultant proceeds with said work without notifying the City Project Manager and obtaining written approval, said work shall be deemed to have been performed within the original level of effort. Notice to the City Project Manager does not constitute authorization or approval by City to perform the work. Performance of work by Consultant outside of the originally anticipated level of effort without prior written approval of City is done at Consultant's sole risk.

   A. **Task Work Orders.** Task Work Orders shall be jointly prepared by City and Consultant and shall define the detailed scope of services to be provided for the particular Project. Each Task Work Order shall be separately numbered and approved in accordance with this Agreement and the City's Procurement Policy. The Scope of Work and Task Work Orders issued under this Agreement may only be adjusted by written amendment executed by both parties.

4. **COMPENSATION.** City shall pay Consultant for professional engineering services for amounts approved on negotiated Task Work Orders in accordance with the Fee Schedule set forth in **Exhibit C – Loaded Hourly Rates**. Subcontractor fees will be

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

negotiated at the time a Task Work Order is initiated for a project using current published rates. The City reserves the right not to use any subcontractor on a project. Payments will be made based on a percentage of project completion by task. Completed tasks must be approved and agreed upon by the designated City of Ocala Project Manager before payment will be made. The final reports and deliverables must be approved and agreed upon by the designated City of Ocala Project Manager before final payment will be made.

A. **Prompt Payment.** Monthly actual payment reporting requirements for prime contractors and consultants are based on prompt payment rules and laws. The same holds true for return of retainage after the subcontractor has completed its work, not when the overall project is finished. Florida law requires timely payment for both construction and non-construction services. Generally, invoices for construction contracts must be paid within **TWENTY-FIVE (25) DAYS** of receipt. Invoices for consultant contracts are payable per the terms of this Agreement, but shall not exceed federal regulations as set forth in ***49 CFR 26.29*** requiring payment of all subcontractors for satisfactory performance within **THIRTY (30) DAYS** of payment to the Prime.

B. **Invoice Submission**. Consultant shall invoice City for all work completed. Invoices must be reviewed and agreed upon by the City of Ocala Project Manager. Review and approval shall not be unreasonably withheld, conditioned, or delayed. All invoices, reports, and other documentation submitted by Consultant shall include the City Contract Number, date, and an assigned Invoice Number. Invoices, reports, and other documentation shall be submitted to the City Project Manager at: **Ocala International Airport**; Attn: **Matt Grow, 1770 SW 60th Avenue, Suite 600, Ocala, Florida 34474**; E-Mail: **mgrow@ocalafl.org.**

5. **TERM.** The term of this Agreement shall commence on **JULY 20, 2022** and shall end on **JULY 19, 2025**. This Agreement may be renewed for no more than three (3), one-year (1-year) renewal terms upon the mutual written consent of both parties, unless terminated by either party pursuant to the terms of this Agreement.

6. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of

the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof, as soon as it becomes aware.

B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Consultant performance shall be extended for a number of days equal to the duration of the force majeure. Consultant shall be entitled to an extension of time only and, in no event, shall Consultant be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays

7. **TERMINATION**. This Agreement may be terminated by either party for cause upon City or Consultant providing written notice to the defaulting party not less than **THIRTY (30) DAYS** prior to the date of termination in the manner specified for the giving of Notices herein. Any such termination shall not affect the rights or obligations accruing to either party under any previously issued and approved Task Work Order.

   A. **City's Remedies Upon Consultant Default**. In the event of Consultant default under this Agreement City shall have the right, at City's option, to pursue any and all remedies available at law or equity, including, without limitation, the right to: (1) terminate this Agreement without further notice; (2) hire another consultant to complete the required work in accordance with the needs of City; (3) recover from Consultant all damages, costs, and attorneys' fees arising from Consultant's default prior to termination; and (4) recover from Consultant any actual excess costs by: (i) deduction from any unpaid balances owed to Consultant; or (ii) any other remedy as provided by law.

8. **STANDARD OF CARE.** Consultant represents and warrants that it has the personnel and experience necessary to perform the Services in a professional and workmanlike manner. Consultant shall render Services consistent with the same degree of care, skill, and diligence exercised by professionals of like experience, knowledge, and resources under similar circumstances at the locale of the Project. Consultant shall re-perform services which fail to satisfy the foregoing standard of care or otherwise fail to meet the requirements of this Agreement at no additional cost to City. Consultant's standard

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Count.)

of care shall not be altered by the application, interpretation, or construction of any other provision of the Agreement.

9. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Consultant's performance. Any such evaluation will become public record.
10. **CONTRACT FULFILLMENT.** Consultants who enter into any agreement with the City of Ocala and fail to complete the contract term, for any reason, may be subject to future bidding suspension for one (1) year, and up to a possible three (3) year bid debarment for serious contract failures.
11. **COMMERCIAL AUTO LIABILITY INSURANCE.** Consultant shall procure and maintain, for the life of this Agreement, commercial auto liability insurance covering all automobiles owned, non-owned, hired, and scheduled by Consultant with a combined limit of not less than One Million Dollars ($1,000,000) for bodily injury and property damage for each accident. Consultant's commercial automobile liability insurance policy must name, as additional insureds, the City of Ocala, a political subdivision of the State of Florida, and its officials, employees, and volunteers.
12. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Consultant shall procure and maintain, for the life of this Agreement, commercial general liability insurance with combined single limits of not less than One Million Dollars ($1,000,000) per occurrence. The only aggregate limit acceptable is "project aggregate" and the Certificate must show an appropriate endorsement (ISO CG2501 or equal).

    A. If the Commercial General Liability form is used:
        (1) Coverage A- shall include premises, operations, products and completed operations, independent contractors, contractual liability covering this contract and broad form property damage coverage.
        (2) Coverage B - shall include personal injury.
        (3) Coverage C - medical payments, is not required
    B. If the Comprehensive General Liability form is used, it shall include at least:
        (1) Bodily Injury and Property Damage liability for premises, operations, products and completed operations, independent contractors, and property damage resulting from explosion, collapse or underground (XCU) exposures.

13. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY COVERAGE.** Consultant shall procure and maintain, for the life of this Agreement, Workers' Compensation insurance for in amounts required by Florida law and employer's liability insurance with limits of at least $1,000,000 each accident and $1,000,000 policy limit for disease, and shall be responsible for ensuring that any subcontractor has statutory coverage. City

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Client.)

need not be named as an Additional Insured, but a subrogation waiver endorsement is required.

14. **PROFESSIONAL LIABILITY INSURANCE/ERRORS AND OMISSIONS COVERAGE.** Consultant shall procure and maintain professional liability insurance with an occurrence limit of not less than $1,000,000, exclusive of defense costs. Consultant shall be required to provide continuing professional liability insurance to cover each project for a period of **FIVE (5) YEARS** after project completion. It is recognized that this type of insurance is only available on a claims-made basis and Additional Insured endorsements are not available.

15. **MISCELLANEOUS INSURANCE PROVISIONS**.

A. Insurance Requirements. These insurance requirements shall not relieve or limit the liability of Consultant. City does not in any way represent that these types or amounts of insurance are sufficient or adequate to protect Consultant's interests or liabilities but are merely minimums. No insurance is provided by the City under this contract to cover Consultant. **No work shall be commenced under this contract until the required Certificate(s) of Insurance have been provided**. Work shall not continue after expiration (or cancellation) of the Certificates of Insurance and shall not resume until new Certificate(s) of Insurance have been provided. Insurance written on a "Claims Made" form is not acceptable without consultation with City of Ocala Risk Management.

B. Deductibles. Consultant is responsible for paying any and all deductibles or self-insured retention. Any deductibles or self-insured retentions above $100,000 must be declared to and approved by the City. Approval will not be unreasonably withheld.

C. Certificates of Insurance. Consultant shall provide Certificates of Insurance, accompanied by copies of all endorsements required by this section, that are issued by an agency authorized to do business in the State of Florida and with an A.M. Best rating* of at least an A, showing the "City of Ocala, 110 SE Watula Avenue, Ocala, FL 34471" as an additional insured and certificate holder for General Liability and Commercial Automobile Liability insurance. Original and renewal certificates must be forwarded to the **City of Ocala Contracting Department, Third Floor, 110 SE Watula Avenue, Ocala, FL 34471, E-Mail:** **vendors@ocalafl.org** prior to the policy expiration.

D. Failure to Maintain Coverage. In the event Consultant fails to disclose each applicable deductible/self-insured retention or obtain or maintain in full force and

effect any insurance coverage required to be obtained by Consultant under this Agreement, Consultant shall be considered to be in default of this Agreement.

E. Severability of Interests. Consultant shall arrange for its liability insurance to include, or be endorsed to include, a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

16. **PUBLIC RECORDS.** The Consultant shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, the Consultant shall:

A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Consultant does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Consultant or keep and maintain public records required by the public agency to perform the service. If the Consultant transfers all public records to the public agency upon completion of the contract, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of the contract, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Count.)

RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.org; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

16. **AUDIT.** Consultant agrees to maintain such financial and other records as may be prescribed by the City or by applicable federal and state laws, rules, and regulations. Consultant shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
17. **PUBLICITY.** Consultant shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
18. **PUBLIC ENTITY CRIMES.** As provided in Section 287.133(2)(a), Florida Statutes, a person or affiliate who has been placed on the convicted vendor list following a conviction for public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or Consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO, for a period of 36 months from the date of being placed on the convicted vendor list.
19. **DISADVANTAGED BUSINESS ENTERPRISE (DBE):** The City of Ocala adopts FDOT's goal of 10.65% as a race-neutral DBE goal. This means the City's goal is to spend at least 10.65% of expenditures with certified DBE's as prime firms, or as subcontractors/subconsultants. Race-neutrality means the City hopes the overall goal can be achieved through the normal competitive procurement process without using DBE required goals. FDOT funded projects have an overall DBE goal of 10.65%. For projects specifically for the Ocala International Airport, the DBE goal is 12%. Although not a requirement, the City believes this DBE percentage can realistically be achieved on projects through use of DBE prime and DBE subcontractors performing services anticipated on projects. Prime contractors or consultants may be requested to submit a DBE Utilization form indicating their firm's proposed use of DBE subcontractors. Prime construction contractors for FDOT-funded projects are required to visit

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

http://www.fdot.gov/equalopportunity/eoc.shtm to register and submit their DBE commitments online.

20. **DRUG FREE WORKPLACE REQUIREMENT.** Consultant submitted a drug free workplace certification with their proposal, and agrees to provide a drug free workplace.

A. The Consultant, if other than an individual, shall-within 30 days after award (unless a longer period is agreed to in writing for contracts of 30 days or more performance duration), or as soon as possible for contracts of less than 30 days performance duration:

(1) Publish a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Consultant's workplace and specifying the actions that will be taken against employees for violations of such prohibition;

(2) Establish an ongoing drug-free awareness program to inform such employees about:

(i) The dangers of drug abuse in the workplace;

(ii) The Consultant's policy of maintaining a drug-free workplace;

(iii) Any available drug counseling, rehabilitation, and employee assistance programs; and

(iv) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(3) Provide all employees engaged in performance of the contract with a copy of the statement required by paragraph (b)(1) of this clause;

(4) Notify such employees in writing in the statement required by paragraph (b)(1) of this clause that, as a condition of continued employment on this contract, the employee will:

(i) Abide by the terms of the statement; and

(ii) Notify the employer in writing of the employee's conviction under a criminal drug statute for a violation occurring in the workplace no later than 5 days after such conviction;

(5) Notify the Contracting Officer in writing within 10 days after receiving notice under subdivision (b)(4)(ii) of this clause, from an employee or otherwise receiving actual notice of such conviction. The notice shall include the position title of the employee;

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

(6) Within 30 days after receiving notice under subdivision (b)(4)(ii) of this clause of a conviction, take one of the following actions with respect to any employee who is convicted of a drug abuse violation occurring in the workplace:

(i) Taking appropriate personnel action against such employee, up to and including termination; or

(ii) Require such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency; and

(7) Make a good faith effort to maintain a drug-free workplace through implementation of paragraphs (b)(1) through (b)(6) of this clause.

B. Consultant, if an individual, agrees by award of the contract or acceptance of a purchase order, not to engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance while performing this contract.

C. In addition to other remedies available to the Government, the Consultant's failure to comply with the requirements of paragraph (b) or (c) of this clause may, pursuant to FAR 23.506, render the Consultant subject to suspension of contract payments, termination of the contract or default, and suspension or debarment.

21. **E-VERIFY.** Pursuant to section 448.095, Consultant shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Consultant shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Consultant certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Consultant understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Consultant may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Consultant shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System

22. **INDEPENDENT CONTRACTOR STATUS**. City expressly acknowledges Consultant is an independent contractor, and nothing in this Agreement is intended nor shall be construed to create an agency relationship, an employer/employee relationship, a joint

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Count.)

venture relationship, or any other relationship allowing the City to exercise control or discretion over the manner or method by which Consultant performs hereunder.

23. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances**.**
24. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.
25. **INDEMNITY.** Consultant shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from, all damages, claims, losses, costs, and expenses, including reasonable attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of the activities contemplated by this Agreement including, without limitation, harm or personal injury to third persons during the term of this Agreement to the extent attributable to the actions of Consultant, its agents, and employees.
26. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.
27. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Count.)

28. **ATTORNEYS FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges billed by the attorney to the prevailing party.

29. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Client.)

RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

30. **GOVERNING LAW**. This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
31. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
32. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
33. **GOVERNING LAW**. This Agreement is and shall be deemed to be a contract entered into and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
34. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
35. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or by reason of this Agreement on

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

36. **AMENDMENT**. No amendment to this Agreement shall be effective except those agreed to in writing and signed by both of the parties to this Agreement.
37. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
38. **ELECTRONIC SIGNATURE(S)**. Consultant, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this agreement. Further, a duplicate or copy of the agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original agreement for all purposes.
39. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this agreement. Acceptance of, or acquiescence in, a course of performance rendered under this or any prior agreement shall not be relevant or admissible to determine the meaning of this Agreement even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity to make objection. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
40. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

BACKGROUND

The engineering firm will provide continuing professional services for the Ocala International Airport.

It is anticipated that the projects will be funded by Federal grants from the Federal Aviation Administration (FAA) under its Airport Improvement Program, State grants from the Florida Department of Transportation (FDOT) and/or by City (non-grant) funds. This will require the Consultant to provide input and guidance to the Airport about said programs and to ensure the Airport's compliance with all applicable standards, advisory circulars and regulations of the FAA, State of Florida, City of Ocala and Marion County.

All work awarded under this contract will be for projects in which the estimated construction cost of each individual project does not exceed $4 million, and professional services for each individual project does not exceed $500,000 or the maximum sum allowable by law under Florida's Consultants' Competitive Negotiation Act, Section 287.055, Florida Statutes, as amended, whichever is greater, and agreed upon by the parties. All work will be performed in accordance with industry standards and comply with applicable laws, and regulations.

City reserves the right to modify this scope during negotiations for budgetary reasons.

Prices shall remain firm for the term of the awarded contract.

Surcharges will not be accepted in conjunction with this award, and such charges should be incorporated into the pricing structure.

DETAILED SCOPE OF WORK

In accordance with FAA Advisory Circular (AC) 150/5100-14E, Architectural, Engineering and Planning Consultant Services for Airport Grant Projects, the scope of work for this solicitation is being divided into three categories. The first category involves planning services. The second category involves professional services for the design/bidding of airport development projects and the third category involves professional services for the construction administration/inspection of airport development projects. Work orders will be assigned on an as- needed basis.

Category A – Aviation Planning Services

This category includes studies under the headings of airport system and master planning, airport noise compatibility planning and environmental assessments and related studies. These studies include, but are not limited to, the following activities:

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6549 (Client.)

1. Design study to establish the framework and detailed work program.
2. Airport data collection and facility inventories.
3. Aeronautical activity forecasts and demand/capacity analyses.
4. Facility requirements determination.
5. Airfield modeling for capacity and delay.
6. Airport layout and terminal area plan development.
7. Airport noise studies under 14 CFR Parts 150 and 161.
8. Compatible land-use planning in the vicinity of airports.
9. On-airport site selection studies.
10. Airport project development schedules and cost estimates.
11. Airport financial planning and benefit cost analysis.
12. Participation in public information and community involvement programs and/or public hearings relating to airport development and planning projects.
13. Environmental Assessments (EA), Environmental Impact Statements (EIS), and other studies in accordance with FAA Orders 5050.4 and 1050.1.
14. Preparation of or updating of the airport layout plan.
15. Airspace analysis.
16. GIS data collection, entry, and analysis and other electronic graphical/mapping efforts.
17. Project feasibility studies

Category B – Architectural/Engineering Design Services for Airport Development Projects

This category includes the basic A/E services normally required for airport development projects. It involves services generally of an architectural, civil, geotechnical, structural, mechanical, and electrical engineering nature, which include, but are not limited to:

Preliminary Phase

This phase involves those activities required for defining the scope of a project and establishing preliminary requirements. Some examples of activities within this phase of a project include, but are not limited to:

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Client.)

1. Coordinating with the City on project scope requirements, finances, schedules, operational safety and phasing considerations, site access and other pertinent matters.
2. As applicable, coordinating project with local FAA personnel and other interested stakeholders to identify potential impacts to their operations.
3. Planning, procuring, and/or preparing necessary surveys, geotechnical engineering investigations, field investigations, and architectural and engineering studies required for design considerations.
4. Developing design schematics, sketches, environmental and aesthetic considerations, project recommendations, and preliminary layouts and cost estimates.
5. Preparing project design criteria and other bridging documents commonly used for alternative project delivery methods such as design-build contracting.

Design Phase

This phase includes all activities required to undertake and accomplish a full and complete project design. Examples include, but are not limited to, those below:

1. Conducting and attending meetings and design conferences to obtain information and to coordinate or resolve design matters.
2. Collecting engineering data and undertaking field investigations; performing geotechnical engineering studies; and performing architectural, engineering, and special environmental studies.
3. Preparing necessary engineering reports and recommendations.
4. Preparing detailed plans, specifications, cost estimates, and design/construction schedules.
5. Preparing Construction Safety and Phasing Plan (CSPP).
6. Printing and providing necessary copies of engineering drawings and contract specifications.

Bidding and Negotiation Phase

The firm shall be required to provide complete services as outlined in the contract or assist the Airport Authority, a t a minimum, with the following tasks.

1. Provide final calculations, construction documents and specifications in consultation with the Owner.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

2. Prepare and file all applications, data, and documents required to obtain approval of all authorities having jurisdiction over the project.
3. Prepare the necessary bidding technical specifications and bid schedule(s).
4. Prepare a written cost estimate, engineering, and functionality recommendations.
5. Additional services as may be necessary and appropriate.

Other Design Services

The development of some projects may involve activities or studies outside the scope of the basic design services routinely performed by the consultant. These special services may vary greatly in scope, complexity, and timing and may involve several different disciplines and fields of expertise. Examples of special services that might be employed for airport projects include, but are not limited to, the following:

1. Soil investigations, including core sampling, laboratory tests, related analyses, and reports.
2. Detailed mill, shop, and/or laboratory inspections of materials and equipment.
3. Land surveys and topographic maps.
4. Field and/or construction surveys.
5. Photogrammetry surveys.
6. Special environmental studies and analyses.
7. Public information and community involvement surveys, studies, and activities.
8. Assisting the City in the preparation of necessary applications for local, State, and Federal grants.
9. Preparation of property maps.
10. Preparation of quality control plan.
11. Other design services as needed.

Category C – Architectural/Engineering Construction Engineering Inspection Services for Airport Development Projects

This category includes the basic construction engineering inspection services normally required for airport development projects. It may include all basic services

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6549 (Count.)

rendered after the award of a construction contract, including, but not limited to, the following activities:

1. Providing consultation and advice to the City during all phases of construction.
2. Representing the City at preconstruction conferences.
3. Inspecting work in progress periodically and providing appropriate reports to the City.
4. Reviewing and approving shop and erection drawings submitted by contractors for compliance with design concept/drawings.
5. Reviewing, analyzing, and accepting laboratory and mill test reports of materials and equipment.
6. Assisting in the negotiation of change orders and supplemental agreements.
7. Observing or reviewing performance tests required by specifications.
8. Determining amounts owed to contractors and assisting City in the preparation of payment requests for amounts reimbursable from grant projects.
9. Making final inspections and submitting punch-lists and a report of the completed project to the City.
10. Reviewing operations and maintenance manuals.
11. Making final inspections and submitting punch-lists and a report of the completed project to the City.
12. Providing record drawings.
13. Preparing summary of material testing report
14. Preparing summary of project change orders
15. Preparing grant amendment request and associated justification, if applicable.
16. Preparing final project reports including financial summary.
17. Obtaining release of liens from all contractors.

City of Ocala – Ocala International Airport
750 SW 60th Avenue, Ocala, FL 34474

March 15, 2022

RE: Request for Professional Engineering and Planning Services at Ocala International Airport
LOI# AIR/220118

Dear Ms. Kimball and Members of the Selection Committee:

For half a decade, **Infrastructure Consulting & Engineering, PLLC (ICE)** has been fortunate to have served the City of Ocala as one of the Ocala International Airport's (OCF's) continuing general aviation consultants. We have partnered with the Airport to help them plan and develop exciting new developments from the Taxiway "A" Reconstruction to the Secondary Parallel Taxiway to 18-36 and Westside Cargo. **We are excited at the opportunity to once again partner with you to continue providing professional engineering and planning services.** By re-selecting the ICE Team, the Airport will have a staff of aviation experts whom you know and trust, are readily available, and eager to continue working in the coming years to successfully deliver the next phase of this Contract. Having closely worked alongside you on the past and ongoing projects, we bring a vested interest and an intimate understanding of the goals and needs at OCF. Our Team's established working relationship with the City's management, who will be involved in the forthcoming airport projects, will allow us to streamline delivery and maintain efficiency.

ICE has been serving as an airport airfield design consultant for the City since 2017. As such, there will no be learning curve should we be once again selected. We know the City's requirements, personnel, and applicable codes/processes. The following aspects highlight the additional key differentiators we can offer to the City.

ICE'S PROJECT EXPERIENCE

Executed TWOs to Date

8

Key Projects

- Apron Rehab. Inspection
- Perimeter Fence
- Runway 18-36 Seal Coat and Marking
- Taxiway "A" Rehab.
- Terminal Restaurant

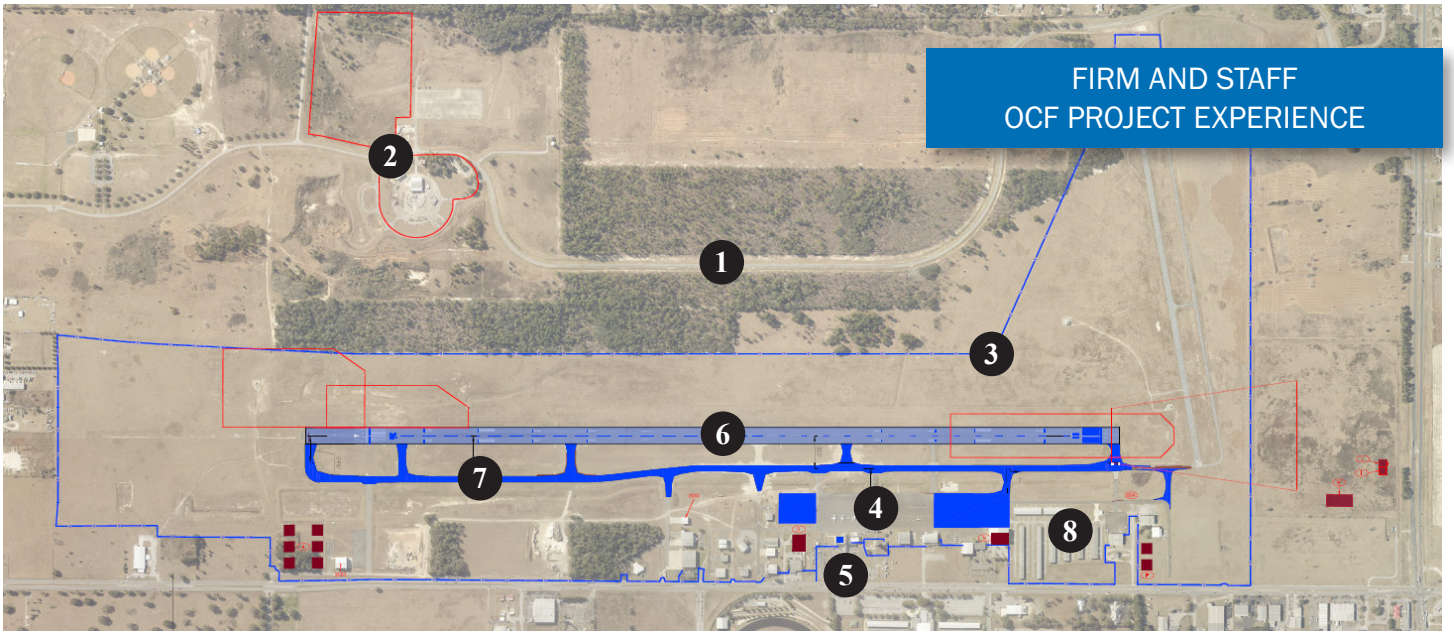
Grant Funding Assistance

$6.1 M

STRONG RELATIONSHIP WITH THE CITY | The City of Ocala is one of the most important clients served by our Florida aviation team. We are committed to continuing to provide the personal attention and responsiveness you deserve and would expect from a small firm while receiving the benefit of a large firm's technical expertise and qualifications. **Doug Hambrecht, PE, will continue to serve as Project Manager, Lead Engineer, and the primary point of contact.** He is well-known to OCF staff having served as the Project Manager on the previous Contract and even several years with a previous firm. Doug has worked for years with Ms. Kimball as well as Matt Grow, Mike Bauer, Paul Constable, and other staff members from Procurement and has strong ties to the Engineering and Public Works Departments.

FedEx Boeing 767 Study at OCF

PROJECT MANAGER'S RELATIONSHIP WITH AIRPORT STAFF | Doug has a unique understanding of the City having designed several projects for the Airport and working closely with City staff. Doug has more than 27 years of experience providing consulting services for clients at both commercial service and general aviation airports with extensive experience including all aspects of aviation planning, design, and construction consulting services as well as an in-depth knowledge of FAA funding process. He is uniquely qualified to assist OCF with their day-to-day and long-term needs and is ready to continue the partnership.



ICE's OCF Project Experience as the Prime Consultant

1. Airfield Design Consultant (2017– Present)
2. Airport Layout Plan (ALP) Update
3. Airfield Perimeter Fence
4. Construction Inspection for Aircraft Apron Rehabilitation and Expansion
5. Restaurant Design and Construction Oversight
6. Runway 18-36 Crack Repair, Seal, and Restripe
7. Taxiway "A" Rehabilitation

ICE Staff's OCF Project Experience Under Prior Employment

8. General Aviation Terminal

KNOWLEDGEABLE AND CENTRALLY LOCATED TEAM | To augment our in-house capabilities, ICE is proud to be supported by specialized experts who have experience working at OCF. **R.M. Barrineau & Associates, Inc.** (survey) is an Ocala-based firm. Other team members, who are located in the central Florida area, include **AVCON, Inc.** (planning, design support, and airfield electrical), **Blue Wing Environmental, LLC *(DBE/WBE)*** (environmental), and **Cal-Tech Testing, Inc. *(DBE)*** (pre-design geotechnical investigations and construction materials testing). Through the depth and locations of our Team, we are able to respond quickly and efficiently with the right resources.

As the firm's designee who will contract with the City, this SOQ is our commitment to enter into a binding agreement and continue to provide professional engineering and planning services at OCF. We very much desire to continue providing these aviation services and are fully prepared to proceed with the work immediately. On behalf of ICE, I pledge that the City and Airport will receive the highest level of service from our Team. Thank you for the opportunity and your consideration. We hope you find the information in this proposal helpful in your evaluation.

Respectfully Submitted,
Infrastructure Consulting & Engineering, PLLC

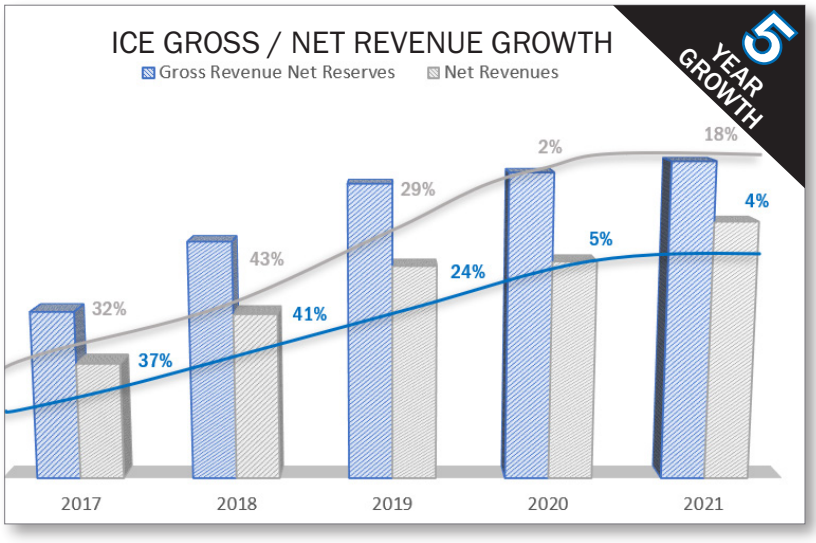
Mitchell Metts, PE | Vice President
mitchell.metts@ice-eng.com | 803-206-8455 (cell)

FIRM SUMMARY

Infrastructure Consulting & Engineering, PLLC (ICE) is a full-service transportation consulting and design firm that has provided professional consulting services to local government clients since our inception in 2005. ICE is a registered professional limited liability company that offers a broad range of professional aviation engineering, planning, and architectural services to general aviation and commercial service airport clients throughout the Southeast. **Our firm's aviation experts have completed numerous projects varying in size, scope, and complexity, including several at Ocala International Airport which are highlighted throughout this submittal. These specialists will continue to provide timely, sound, and cost-effective solutions for all of your aviation design, planning, architectural, and construction challenges.** Our long-standing and strong relationships with the Federal Aviation Administration (FAA) and the Florida Department of Transportation (FDOT) will continue to prove invaluable in providing input and guidance to the Airport for obtaining federal and state funding. ICE currently has 360 professionals, including 104 licensed professionals, providing innovative professional engineering services throughout the United States from our 20 locations, including 5 offices in Florida as shown in the map below.

FINANCIAL CAPACITY

Our executive leadership has demonstrated a responsible approach to financial matters which has provided ICE rapid growth in revenues and total employees since the Firm's establishment. This financial stability allows the ICE Team to successfully provide services at the level required by the City of Ocala. The graphic to the right includes the Firm's increase in gross and net revenue from 2017-2021.



ICE is listed with Dun and Bradstreet, DUNS number 058232290, and the FEID number is 45-3175330. ICE's current FDOT prequalification letter with approved overhead can be found in the Appendix on page 22.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

ABILITY

MANAGEMENT | Effective management and serving the City for this Contract will be rooted in past experience on similar, successful airfield projects and a responsiveness pledge to continue to serve as an extension of your Staff. The plan begins with the assembling of the Project Team. Elham Farzam, PE, the Principal-in-Charge, has assigned the **project management responsibilities to Doug Hambrecht, PE, based on his previous airfield experience, his proximity to Ocala (Tampa), his knowledge of the Ocala International Airport (OCF), and his dedication and reputation for providing exceptional client service and a quality product.**

Doug and Elham have assembled a team that knows the FAA design criteria, specializes in aviation, is familiar with OCF, and is available to dedicate adequate resources to this Contract. The organization chart included on page 6 is a graphic representation of the ICE Team.

All Team members and disciplines will report up to the Project Manager. Assistance and support will be provided by the Principal-in-Charge, Elham Farzam, PE, and the various discipline leads. Doug will be directly involved in all projects, from working daily with designers to quality control submittal reviews of the plans and specifications. Weekly coordination with the Project Team, including subconsultants, will be performed. At key phases, daily coordination is necessary. **Doug will coordinate directly with the Airport Director, Matt Grow, as a single point of contact.** Matt has known Doug for many years and knows that he can be counted on to provide a high-quality product throughout the duration of this Contract. In addition to other key staff, Doug is located in ICE's full-production office in Tampa, Florida. With additional firm-wide expertise available at all times, project personnel are prepared to handle a wide range of assignments currently anticipated under the "Airport Airfield Design Consultant" program as well as any unforeseen needs during the Contract's duration. As the Project Manager, Doug will do whatever it takes to satisfy the City.

The City requires a highly technical Project Manager who can draw on solid experience to understand the components of any project, and who will be committed through availability to implement the Airport's goals. Doug has experience and ability that aligns well with the planned projects at the Airport including runway, apron, taxiway design, perimeter wildlife fencing, hangars, and vertical construction. Other projects such as fuel farms, navigational aids, airfield electrical, cargo operations, roadway design, General Aviation terminal construction, and drainage design illustrate his long history of aviation engineering and his ability to handle all project types. Doug's primary responsibility in management, in order to ensure a successful program at completion, can be broken down as listed to the right.

FUNCTIONAL DUTIES OF ICE'S PROJECT MANAGER

The SCHEDULE is well known and followed by the entire team;

COMPLETE PROJECT UNDERSTANDING and will be present at all client, subconsultant, and design Team meetings;

Ensure TIMELY AND EFFECTIVE COMMUNICATIONS are used reporting up to the City (and down to the design team);

All necessary PERMITS are applied for and obtained;

The Project is designed within the set BUDGET;

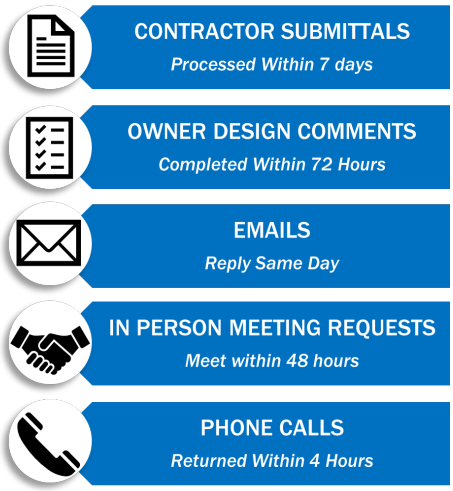
QUALITY CONTROL is maintained and thoroughly enforced;

and the design is complete and ACCURATE so change orders during construction are minimal.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

Doug is very involved with the daily operations and events within a project, maintaining control at all times. He stays involved during construction to make sure the Contract and specifications are adhered to and potential problems are identified early. He is in charge of project files that are meticulously maintained and contain all pertinent information about a project, including contracts, invoices, correspondence, budgets, grant applications, reports, meeting minute,s and future action items.

Overall, our ability to administer and serve the City hinges on effective and frequent communication, not only between the consultant and the City, but also with funding agencies, the design team, subconsultants, permitting agencies, contractors, and other stakeholders. This requires leadership, experience, and consistent availability. Frequent communication is key to successful project outcomes and long-term relationships. The Project Manager and the Team will make it a practice to incorporate the basics combined with Team availability and responsiveness.



PROJECT MANAGER'S CURRENT AND PAST FLORIDA AIRPORT CLIENTS

- Ocala International Airport
- Albert Whitted Airport
- Brooksville-Tampa Bay Regional Airport
- Cecil Airport
- Daytona Beach International Airport
- Destin-Fort Walton Beach Airport
- Jacksonville International Airport
- Kissimmee Gateway Regional Airport
- Marco Island Executive Airport
- Palm Beach International Airport
- Pensacola International Airport
- Punta Gorda Airport
- Sarasota Bradenton International Airport
- Sebastian Municipal Airport
- St. Pete-Clearwater International Airport
- Tallahassee International Airport
- Valkaria Airport
- Zephyrhills Municipal Airport

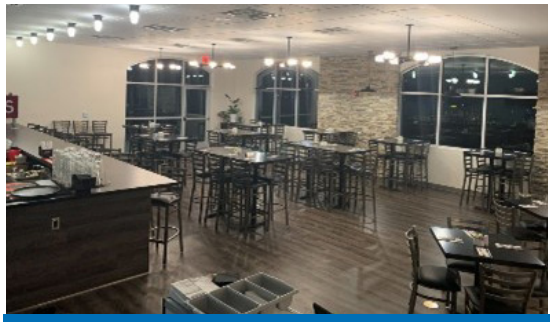
TEAM COLLABORATION | ICE's technical staff fully supports the Project Manager and the Airport's daily and long term needs. **ICE is one of a select group of firms with in-house planning and architectural expertise, which has proven itself in serving OCF over the last five years.** ICE has assisted the Airport staff with day to day development opportunities in the planning realm in developing concepts and evaluating potential airport geometry with growth. This requires our management, engineering, environmental, and architectural team to closely work together to evaluate the opportunities as they present themselves.

Growth for the Airport is coming and with that, a firm with the right team of in-house expertise and specialty subconsultants is required. ICE has proven our team can efficiently work together and act as an efficient, collaborative team. Key ICE staff have been together for 10 and upwards of 20 years. Many of our current employees have reunited together at ICE from previous firms, including our Project Manager/Lead Engineer, Lead Architect, Lead Planner, and much of the production staff. Furthermore, the addition of AVCON for airfield electrical and navigational aids, in addition to planning and design engineering support, has guaranteed the right skillset is always available. **ICE and AVCON have a long history of working together, including on the past COF Contract.**

The resumes provided in the Appendix starting on page 3 illustrate the multitude of projects the ICE team has worked on together at OCF, for different airports in Florida, and throughout the Southeast. The Team has local project experience that indicates the knowledge of local construction and regulations. This is most evident with the

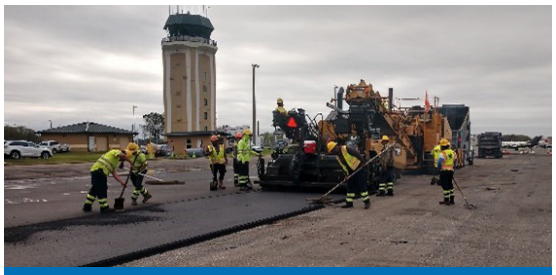
Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (5 pt.)

design of the terminal building and the re-construction of Taxiway "A". Karina Lanier is our Florida aviation architecture lead who was a valuable contributor to the terminal design team. It was this experience that allowed her to assist with design permitting and build-out of the terminal restaurant. Elevation 89 is a hugely successful venture!



Terminal Restaurant Design & Build-Out

The Taxiway "A" construction led by the ICE team involved our Management (Doug), construction Inspection (Jeff Long), and our engineering and design staff for the various late stage design changes made to the plans. Unfortunately, the contractor went out of business and ICE and the City are still working with the boding company for some remaining punch list items. Jeff Long also inspected the recent Apron Rehabilitation and Expansion performed by Ranger.



Taxiway "A" Construction

Much needed on the Airport is a west taxiway to the main runway to serve the future equine transport needs and potentially commercial service. An increase in larger aircraft is being seen as result of the transportation logistics hub Ocala is becoming and the World Equestrian Center. ICE has utilized their in-house skills to evaluate numerous development potentials with the last piece of vacant land to the southeast for box and bulk hangars, T-hangar and RV development to the north, and the much-anticipated west side growth for these larger aircraft. These various development scenarios present an opportunity for our architectural capabilities and aviation planners to work together to formulate the best possible concepts that one day will become reality. **Equally important, the combined availability and a firm culture of client service for engineers, architects, and planners allows ICE to succeed in providing this sound advice and support at a moments notice.**

ICE very much desires to continue to serve as an aviation consultant at the Ocala International Airport. As experts in engineering, architecture, planning, and construction, we are proud to offer the City a team of professionals with a proven track record of delivering numerous projects at similar-sized GA airports. Having worked closely with airport staff for many years, **we bring an understanding of your needs and vision for developing the Airport** backed by the demonstrated experience necessary to deliver, which makes us well-suited to serve as an excellent consultant for the identified Capital Improvement Plan (CIP) projects. **Furthermore, we are committed to prioritizing the City of Ocala and Airport staff at all times.** From concept through completion, our primary focus is to provide exceptional client service. We are a firm that has a keen understanding of FAA Advisory Circulars, rules and processes for grant assurances, construction contracts, project documentation, and construction engineering and inspection. Our long-standing and strong relationships with the FAA and FDOT prove invaluable when assisting our clients in obtaining federal and state funding. Summarized below are the key differentiators that ICE brings and how we can add value to aide OCF in meeting its goals and objectives.

IMMEDIATE AVAILABILITY | Of critical importance to the success of this Contract, the ICE Team has the **immediate availability, resource depth, and capacity** required to expedite work in order to meet tight project and grant funding schedules. **Based on the ample availability of our aviation staff shown in Criteria 4 (page 20) through the end of 2022, we are confident in committing these professionals to you for the Contract term.** Our current assignments will not reduce or impact our capabilities to provide the required services for this Contract. In addition to the staff proposed, the ICE Team has the resource depth available to provide supplementary staff if needed or unexpected events occur. Our Project Manager, Doug Hambrecht, PE, is eager to continue working alongside Airport staff. Our goal is to exceed the City's expectations in all aspects of professionalism and service.

SIMILAR AGENCY AVIATION ON-CALL EXPERIENCE | ICE has been privileged to serve airports and state agencies, through on-call, continuing service agreements, and Indefinite Delivery Contract (IDC) consulting services to municipal clients since our establishment. **ICE currently holds on-call aviation consulting contracts as the prime consultant for the following local governmental agencies: City of Ocala, City of Sebastian, City of St. Petersburg, Brevard County, Collier County, Okaloosa County, and Volusia County**. Working with state, municipal, and local agencies requires a keen understanding of state,

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

federal, and local guidelines which has allowed us the opportunity to prove ourselves as reputable aviation and transportation engineers and a responsive consultant. The ICE Team's current and previous experience working with these airports and others throughout Florida, has afforded our professionals a keen understanding of the processes and intricacies associated with providing professional services on general consulting contracts.

At a glance, our Staff's similar project experience working at General Aviation Airports throughout Florida includes:

- Ocala International Airport
- Bob Sikes Airport
- Cecil Airport
- Jacksonville Executive at Craig Airport
- Brooksville-Tampa Bay Regional Airport
- Treasure Coast International Airport
- Kissimmee Gateway Airport
- Space Coast Regional Airport
- Albert Whitted Airport
- St. Pete-Clearwater International Airport
- Peter O. Knight Airport
- Sebastian Municipal Airport
- North Palm Beach County Airport

ICE's current on-call contract experience for the Cities and Counties makes us adept at reporting to these agencies and administrators while operating as a first-class aviation consultant. We work closely with our clients daily to keep them informed, to successfully execute their vision, and to deliver solutions in a timeframe that exceed their expectations. We provide regular progress updates, facilitate in-person meetings, and continuously monitor schedules and budgets set forth during project development. ICE professionals provide the dedicated service that our clients expect and deserve, and we pride ourselves on timely job progress and delivery of a quality product. As a result, we are honored to have been rewarded with **repeat business and long-term relationships**. Our Project Manager has had a 10-year relationship with the City of Ocala undertaking various projects, concepts, analysis, and general assistance at the Airport over the course of these years.

PROVEN SOLUTIONS | Through our diverse and hands-on experience, there is not much that our airport engineers, architects, aviation planners, and former airport managers have encountered. This enables us to offer proven solutions that have been successfully implemented at other facilities. The value-added services of these our professionals allow us to understand decision impacts to related agency offices. For example, the ICE Staff recently helped the Airport with their impressive terminal building by providing provisions for vacant space planned for future interior build-out. Subsequently, we were entrusted to provide additional architectural services as a follow up for the Airport to convert this space seamlessly into a successful restaurant.

MINIMIZING CHANGE ORDERS | Many change orders improve the overall project. Some are client requested changes. In many of our projects, change orders were solicited to the contractor because it was clear the Project would under run set aside funds. In any event, our Team realizes the number of change orders are often viewed as a reflection on how successful the project was. To minimize change orders, our Team focuses first on an airtight contract and strives for error proof design. This is done by performing exhaustive field reviews of existing conditions, assembling all known information on underground facilities, and extensively checking the design plans. During construction, our Resident Engineers and Inspectors stay ahead of the construction and know how to anticipate small problems before they become large. Our Team has an excellent history of minimizing additional costs.

The following projects have been featured to demonstrate the ICE Team's performance with projects that are similar to those that may be included in this Contract or represent the quality work ICE has achieved for Ocala.

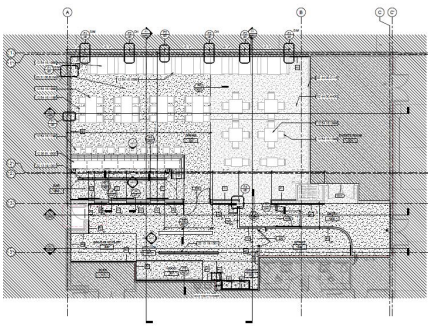
Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

AIRPORT AIRFIELD DESIGN CONSULTANT SERVICES CONTRACT
OCALA INTERNATIONAL AIRPORT

ICE was awarded the Contract for Airport Airfield Design Consultant Services in April 2017. The ICE Team successfully delivered the projects assigned and the services requested, the City continued the partnership and exercised two Contract extensions, the current one ending in March 2022. The following projects have been completed under this Contract:

OWNER'S REPRESENTATIVE
Matt Grow
mgrow@ocalafl.org
(352) 861-2227

RESTAURANT DESIGN AND CONSTRUCTION OVERSIGHT | ICE represented the Airport in the construction administration on this Project that consisted of retrofitting approximately 3,600 SF of unfinished space that faces the apron to rent to as a restaurant. The build-out consists of an open dining area, bar, and kitchen. The retrofit was completed December 2021 and then was transferred to the tenant for the final installation of equipment and furnishings. This was an FDOT funded project and ICE was experienced on the required procedures and billing. ICE managed all communication between the architect, engineers, and general contractor to ensure the Project stayed on schedule and within budget. All communication was funneled through them to the Airport and back the to the Project Team. ICE also managed the submittal, RFI, billing, and change orders. ICE oversaw the design of the restaurant, incorporating details from the owners and approved requests from the employees to produce an efficient and productive layout while still being aesthetically pleasing. The intention was to bring community customers and visitors, not just passengers to the Airport. After the construction of the built-out was complete, the Airport will be building a playground that will have access from the restaurant. The restaurant's design effectively combined Airport's overall vision with the tenant's branding requirements. ICE provided QA/QC for the construction documents to ensure both the restaurant and Airport's specifications were met.



COMPLETION DATE: 2021
PROJECT SIZE: 3,600 SF
PROJECT COST: $500,000

KEY TEAM MEMBERS:
Karina Lanier, AAIA | Project Manager/Architecture
Doug Hambrecht, PE | Principal

CONSTRUCTION INSPECTION FOR AIRCRAFT APRON REHABILITATION AND EXPANSION | This Project included the rehabilitation of the existing apron located between Taxiway "A-3" and "A-4" as well as the expansion of new pavement to the south of "A-7". It involved milling and resurfacing 38,324 square yards of asphalt, construction of 10,374 square yards of new aircraft asphalt apron, installation of aircraft tie downs, temporary and permanent pavement markings, pavement edge lighting, grading, stormwater facilities, and sod. ICE provided a part-time Resident Project Representative (RPR) and inspection services. The RPR was responsible for inspecting construction activities, receiving materials per approved submittals, monitoring contractor activity daily, managing QA activities, coordinating construction activities with Airport

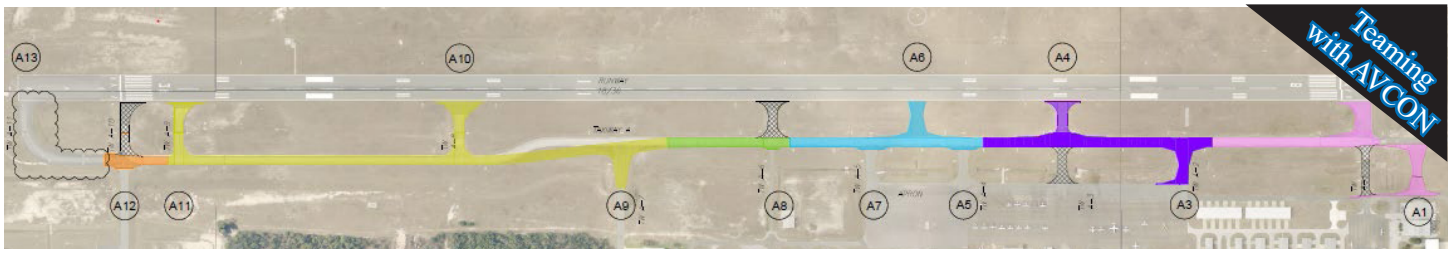
Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

Operations, conducting weekly progress meetings and maintaining the minutes, maintaining redline drawings, conducting Davis-Bacon Interviews, and ensuring contractor compliance with the Safety and Security Plan as well as the Phasing Plan and Construction Management Plan.

COMPLETION DATE: 2021
PROJECT SIZE: 48,698 SF
PROJECT COST: $1.2 Million

KEY TEAM MEMBERS:
Doug Hambrecht, PE | Project Manager
Jeff Long | Senior Inspector

TAXIWAY A REHABILITATION | This Project included milling and overlay of the existing taxiway as well as the demolition of several taxiway connectors and the construction of several new taxiway connectors. Included a re-alignment of portions of the existing taxiway as well as widening and the addition of taxiway edge lights and signage. ICE provided a full-time RPR and inspection services. The RPR was responsible for inspecting all construction activities, receiving materials per approved submittals, monitoring contractor activity daily, managing QA activities, coordinating construction activities with Airport Operations, conducting weekly progress meetings and maintaining the minutes, maintaining redline drawings, conducting Davis-Bacon Interviews, and insuring contractor compliance with the Safety and Security Plan as well as the Phasing Plan and Construction Management Plan. Services also include full construction administration to include FAA and FDOT reporting, reviewing and logging submittals and RFIs, weekly reporting to the Airport Director, issuing change orders, change directives, and information notices, monitoring DBE participation, reviewing pay requests, producing the Construction Safety and Security Plan for acceptance by the FAA, producing the Construction Management Plan, and contracting for Quality Assurance Testing. Services also included full close-out documentation. ICE worked with their current Team member, AVCON, in re-designing the airfield edge light layout. **The Project finished under budget.**



COMPLETION DATE: 2021
PROJECT SIZE: 8,000 SY
PROJECT COST: $5.3 Million

KEY TEAM MEMBERS:
Doug Hambrecht, PE | Project Manager
Hamed Jafarian, PE | Engineer
Amr Mansour, EI | Design Engineer
Sameh Maximos, PE | Engineer
Andrew Nazarkewych | Planning
Mike Allen | CAD Designer
Jeff Long | Senior Inspector

AIRFIELD PERIMETER FENCE | This Project was part of the Capital Improvement Plan (CIP) to eliminate digging under the existing fence by coyotes, gopher tortoises, and other wildlife by constructing a wildlife skirt. A 5' fence skirt was buried a minimum of 36" into the ground under the existing fence fabric and followed the 33,000' (roughly six miles) of existing fence. All swing gates were replaced with sliding gates, and a 6' concrete apron was poured under the gate to limit gaps. ICE provided the design, bidding, and construction phase services for this Project as well as FDOT and FAA grant packages, grant assurances, and closeouts. **The Project was completed on time and under budget.**

ICE partnered with AVCON for the total reconstruction of the existing 2.5-mile-long Taxiway "N" (and Taxiway "A") with reconfigured edge of pavement geometry, paved shoulders widened from 25' to 30' in width, installation of a new storm water drainage system, and the installation of new LED taxiway edge lights. ICE performed the taxiway horizontal geometric design and layout and developing the overall construction safety and phasing plans. This included preparing preliminary layouts, construction phasing schedule, quantities, engineer's estimates, markings, phasing documents and plans, OE/AAA permit, and preparation of bid packages. The intersections were reconfigured and widened to meet AC 150/5300-13A requirements along with the paved shoulders widened from 25' to 30' in width. The existing incandescent taxiway edge lights, which were approximately 20 years old, were replaced with new LED taxiway edge lights. Work included removing failed areas of taxiway pavement and areas of pavement that no longer complied with the new airport design guidance, removing the existing incandescent taxiway edge lights, widening and reconfiguring the taxiway/taxiway intersections to comply with 13A geometry, rehabilitating the existing asphaltic concrete pavement, installing a new underdrain system at the edge of the taxiway and the paved shoulders, removing and replacing all airfield drainage pipe and catch basins. The Project was sequenced and phased to keep the airport safe and fully operational at all times during construction.

ICE served as a subconsultant on this Project that provided professional engineering services to expand the aircraft parking aprons north of the existing apron due to the rapid growth of the Airport. It required three additional aircraft parking spaces for the Airbus A319/A320/A321 and 737-800 aircraft. Originally designed with a blast fence for power in-power out operations, only two positions were originally obtainable, so the Airport directed ICE to revise for straight in operation with tug push back. In total, the Project included 8,600 square yards of 15-inch PCC pavement, 2,600 square yards of macro-fiber reinforced 8-inch PCC pavement, and 3,200 square yards of flexible taxiway pavement. The overall scope for this project included field surveys, geotechnical investigation, geometric layouts, pavement design, stormwater management design and permitting, high mast light standards and electrical modifications, relocation of a pump station, blast fence design and relocation of a security fence, extension of an existing lighted passenger walkway and canopy, signage, pavement markings, bidding, and construction services.

WEST APRON EXPANSION & TAXIWAY REHABILITATION

DESTIN-FORT WALTON BEACH AIRPORT

This complex, $11 Million project enlarged the West Apron at VPS in order to create five additional commercial aircraft ground loading apron spaces for A319/320 and other narrow body aircraft. The spaces also serve as flexible remain overnight (RON) space for aircraft to base for early flights when all of the existing spaces with jet bridges are full or otherwise under exclusive lease by another airline. Adjacent existing asphalt apron pavement, taxiways, and vehicle parking were also rehabilitated. Significant utility relocations were performed to include gravity sewer, force main, electrical, and water service. Structural work included the construction of a steel covered walkway for passengers accessing a future terminal concourse.

ICE worked with Airport staff and the FAA to finalize apron dimensions and develop detailed site development plans including airfield pavement structural design, geometrics, markings, lighting requirements, and other aircraft support infrastructure required (tie-downs, ground points, electrical or other infrastructure for ground power units, etc.). ICE served as the lead design firm and was responsible for project management, QA/QC, airfield design, production design (CADD), environmental services, and grant and bidding services. ICE also provided construction management services for the construction phase. The following design services were provided:

TAXIWAY RECONSTRUCTION

- Replacement of existing asphalt with concrete for taxiway on west side of terminal where Taxiway "D-1" meets the apron to the northern most boundary of the apron

AIRCRAFT PARKING POSITIONS 1-5

- Apron design for ADG III aircraft
- Pavement design for airport's critical aircraft, 757
- Concrete joint design and apron markings
- Stationary ground power and pre-conditioned air units
- High mast site lighting, edge light modifications, and security cameras
- Site clearing for remote terminal
- Fence and gate relocation
- 12" water line relocation; lift station; 8" gravity, 6" force main; and lavatory cart dump

CREDIT CARD LOT

- Modification of existing parking with apron and concourse footprint
- Expansion of parking to account for new concourse
- Extension of canopy walkway
- Modification of lighting

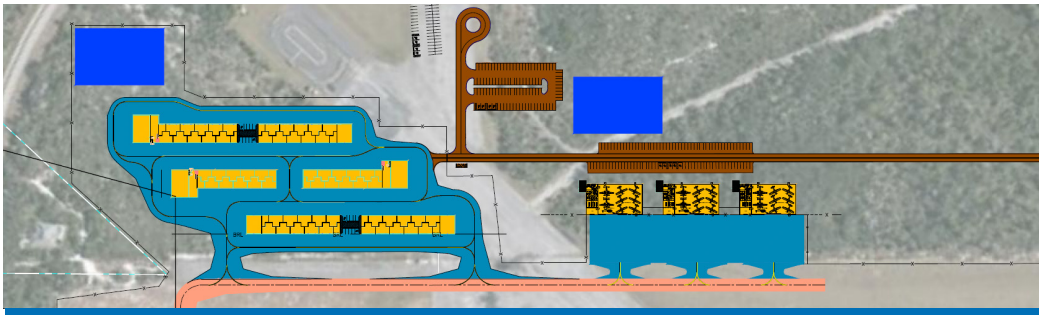
ICE teamed with AVCON for this Project that expanded surface lot parking on the west side of the Airport in conjunction with other passenger capacity expansion projects to meet demand and ensure employees have adequate parking during peak travel periods. The construction was funded through a Supplemental Joint Participation Agreement with the FDOT and included construction of a 506-space parking lot. The scope consisted of grubbing, construction of subgrade improvements, base material and asphalt, pavement markings, concrete curb and sidewalk, grading, storm improvements, and site lighting and security camera improvements. AVCON performed the design. ICE was responsible for the construction inspection services and provided a full-time Resident Project Representative (RPR).



T-HANGARS, BOX HANGARS, AND ACCESS TAXIWAY DEVELOPMENT
VALKARIA AIRPORT

ICE is leading the design for a significant project development consisting of three, 24-unit nested T-Hangar buildings with attached box end hangars as well as three separate bulk hangars to be located off the north end of Runway 14 at the Valkaria Airport. The complete site development, including taxiways, roadway drainage and utilities, includes preparing civil site design drawings, technical specifications, and schematic drawings. The ICE Team will also develop the Construction Documents package for use in bidding and permitting the Project. The design includes six buildings that are 10 T-Hangars each totalling 12,000 square feet. The three small box hangar end units are 2,500 square feet each and the three large box hangars are 6,000 square feet each. The three bulk hangars will each be 90 feet by 130 feet and include 100-foot-wide bi-fold doors. The building footprint will total approximately 15,450 square feet, including 12,000 square feet of box hangars and 3,000 square feet of office and support space, and a workshop space of 450 square feet.

TAXIWAYS "C", "D", AND "E"

SEBASTIAN MUNICIPAL AIRPORT

TAXIWAY "C" | ICE provided engineering and construction management services for a new parallel taxiway on the north side of Runway 5-23 designated as Taxiway "C". Previously, aircraft entering or exiting the Runway 5 threshold were required to cross active runways three times when taxiing from the busy tenant area near the airport's administration building; this project rectified the issue to make it a safer operating environment for all aircraft operators. All taxiways associated with this project were upgraded to the new design standards in FAA Advisory Circular 150/5300-13A, which included the new fillet geometry and direct access to aprons from the runway.

Major components of the design project included:

- Geometric Design
- Aircraft Run-up Aprons
- Removal of Taxiway Pavement
- Stormwater Ponds and Relocation of Existing Infield Drainage
- Environmental Resource Permit from SJRWMD
- Airfield Guide Signs (Entire Airport)
- Airfield Marking

TAXIWAYS "D" AND "E" | ICE provided engineering services for this project which involved adding taxiways to further assist in facilitating traffic movement at X26. These are Taxiway "D" to the south of Runway 5-23 and Taxiway "E" to the south of Runway 10-28. These taxiways were designed to move aircraft safely from the runway intersection crossing point to a crossing at the runway thresholds. All taxiways were designed to ADG II standards (35' width). It was the intent of the airport and the FAA to construct the project in multiple phases to match available funding. ICE provided full, signed and sealed drawings, specifications, and permit documents.

For the Taxiways "C", "D", and "E" projects discussed above at the Sebastian Municipal Airport, ICE and the City of Sebastian met with the FAA several times to illustrate the capacity needs and the safety improvements this project provided. This upfront coordination during visits to Orlando led to a **grant award in excess of $4,200,000 for the City**.

PROJECT APPROACH

PROJECT APPROACH BASICS

Several key procedures will be performed to successfully coordinate individual airport improvement projects assigned throughout the life of the Airfield Design Consultant Contract:

- A design schedule developed and implemented which will provide continuity between project elements and the tasks to be performed by subconsultants.
- The pre-design field work (such as survey, geotechnical, and pavement evaluation) scheduled for minimum impact to airport operations.
- An accurate and thorough set of construction plans and technical specifications produced to eliminate any ambiguities during construction and, thereby, to stay within the construction budget and schedule.
- A detailed construction phasing and sequence plan to effectively minimize downtime at the Airport while providing the maximum flexibility in construction to maintain the project on schedule.
- A competent Resident Inspector and quality assurance testing subconsultant, to ensure a high-quality construction product, which will be completed well within the contract schedule and budget.

The methodology to administer an airport project begins at the planning stage. The ICE Team is more than adequately equipped to administer the early stages of project development to assist clients with the various up-front efforts required before being under contract for design. These services include:

- Financial (FAA AIP Applications, FDOT JACIP, Benefit Cost Studies and Cost Estimates);
- Aviation Planning (Compatibility with airport layout plan (ALP), airspace impacts and alternatives analysis);
- Public Involvement (agencies, tenants, and community);
- Environmental Impacts (Estimate Wetlands, Endangered Species, Mitigation, and Permitting);
- Architectural considerations (Code reviews, NFPA requirements, Land Use and tenant needs);
- Engineering Constraints (utilities, stormwater implications and impacts to operations);
- Preliminary Layouts and Exhibits; and
- Data Collection (site visit, acquire as-builts).

Most important are upfront discussions with City staff to listen and understand the project's needs and intended goals. A detailed project narrative is developed for use in obtaining necessary approvals moving forward. As a partner to the City of Ocala, ICE will ensure a solid foundation for future scoping and project viability.

PROJECT RESOURCES

Project Management | ICE's service to the Airport over this Contract begins and ends with how well the Project Manager supports the City. As the primary point of contact, this individual must make themselves available to attend an onsite meeting and quickly respond with an answer to any question the City may have regarding their airport. A good client-oriented firm like ICE needs to have this mentality regardless of upfront costs or a contract in place. The commitment ICE makes to the Airport and the City of Ocala is to provide this highly qualified, responsive Project Manager that can assist with any issue that arises, regardless of the nature, complexity, or his schedule.

Our Project Manager (PM) is an experienced aviation professional with 27 years of design and construction project on airports. He uniquely fits all the qualifications listed above and has a strong sense of responsibility

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

towards project delivery and accuracy. He has been working for Ocala International Airport for 10 years (5 with a previous firm) where he has assisted in grants, engineering plans, planning layouts, ALP updates, and daily airport consultation. He looks forward to continuing this relationship with Ocala and the ICE Team.

The approach for completing the services required for this contract necessitates a highly qualified Team, which we have assembled. From experience we know frequent communication and coordination with the owner is essential. Our approach begins and ends with solid Project Management. Elements of Project Management to be performed by our PM and other discipline managers working as support will be:

Contract Management – Involving the internal management of the contract including general project bookkeeping, cost tracking, billing, filing, record keeping and contract coordination with project subconsultants. The PM will maintain and monitor project schedules to ensure critical milestones are met by the design team.

Meetings – The PM will attend all submittal review meetings, meetings where critical items are discussed and coordinated, be present or administer meetings with FAA, utilities, permitting agencies, tenants, operations, and other affected parties.

Financial – During design and construction, track all costs related to the project and maintain a spreadsheet of expenses. Have accurate budget information and ensure the design is performed in accordance with the Airport's available funds or advise the owner of potential overruns early in the process so adjustments in scope can be made.

Coordination – Be readily available to the design team, coordinate review and regulatory agency approvals, and schedule and administer design team meetings. Keep the airport apprised of the work progress, schedule, and anticipated review dates by means of phone calls, emails or progress reports.

Production – A key component independent of the Quality Control process is to ensure the overall design is consistent with the airports desired objectives. Review all plans, reports, minutes, schematics, and calculations to ensure these objectives are met.

Administer Construction – Stay involved during construction to ensure not only the technical requirements are met, but make sure the intent and desired functions are realized. Too often attention is deflected once the design is complete. We make sure all the documentation is in place, the schedule is upheld, and costs are controlled.

Closeout – Have impeccable files to facilitate closeout reporting and permit closeouts.

Our goal for the General Consulting role and for each individual assignment, large or small, is to be actively engaged with Matt Grow and Mike Baker so that we function as an integral component of the organization and an extension of the City staff. Our approach is all inclusive: all Team members understanding the objectives with a vital stake in the project's success.

IN-HOUSE DISCIPLINES

Engineers | ICE has many engineers dedicated to aviation. They are highly experienced with all aspects of airport design and the regulations associated with the FAA Advisory Circulars. Every day they produce plans consistent with proper airfield geometry, safety areas, airfield marking and grading. They understand the Ocala International Airport environment from the types of aircraft they serve, the tenant needs, Sheltair's operation, the role of each of the airport's runways (18-36 and 8-26), and the FAA tower requirements. The goal is to provide a complete set of plans and specifications that cover all scenarios and free from errors, omissions, and ambiguities. Also, to utilize our resources to produce accurate cost estimates for budgetary purposes, even in today's supply chain and product shortage uncertain environment.

Architects | ICE is one of the few Florida firms with specialized aviation architecture capabilities in house. This has proven to be extremely beneficial to our clients, and more specifically for OCF when evaluating terminal concepts, hangar placement, and the interior design of the new restaurant. Karina Lanier was part of the design team for the design for the existing terminal building and knows the facility inside out. The advantage to OCF is clear when providing day-to-day consulting advice and solutions.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

Planners | Aviation planning is an in-house service that ICE retains. It has proved extremely beneficial to the airport when evaluating proposed development options. Many opportunities for growth and land leases are available to the airport. ICE has been instrumental in assisting the airport through the last few years with evaluating impressive plans for westside development with the future growth of the area, equine transport, commercial service, intermodal shipping and cargo. Also, tenants for new T-Hangars and corporate hangars see the opportunities the region has and are increasingly interested in basing their aircraft and businesses. ICE hopes to continue this partnership and see this potential materialize.

ICE and Airport planning document for west side development considering cargo, intermodal, north T-Hangars, and commercial service.

Construction Inspection | An integral part of our services is seeing the project through completion. ICE takes the same active role from the completion of the deign through bidding, and into construction. Our experienced construction inspectors and construction management staff have worked very closely with the City's construction staff on the Taxiway "A" construction project and the main apron rehabilitation and inspection. Taxiway "A" required significant coordination with airport operations for closures of the taxiway and runway to provide safe movement of aircraft and tenant access to runways. This year-long project required complete commitment of ICE staff and management to produce a successful project that only highly experienced aviation construction personnel could have accomplished. Our goal is to continue the heavily involvement and support until that element of the construction project is complete and grants are closed successfully with funding agencies.

Environmental Services | The ICE Team has the ability to conduct all applicable environmental studies and prepare all appropriate documentation in accordance with the National Environmental Policy Act (NEPA). Appropriate documentation includes the preparation of Environmental Assessments (EA), Categorical Exclusions (CatEx), or Environmental Impact Statements (EIS) that are in accordance with the Federal Aviation Administration (FAA) Orders 5050.4 and 1050.1. These orders provide instructions and guidance regarding NEPA compliance associated with federal actions involving the use of public airports. Project scoping consists of determining the appropriate level of documentation needed for the assigned project. The ICE team would conduct all environmental technical studies and agency coordination needed to determine and complete NEPA documentations. This includes, but is not limited to protected species assessments, wetland delineations, and cultural resource investigations. For projects resulting in major federal actions that do not qualify as a CatEx, an EA will most likely be required to determine if the action will result in significant impacts. The overall process is similar but will require additional documentation and analysis to determine potential impacts on the numerous environmental and human resources. Actions that normally require an EA are documented in 1050.1E, 401 and include new land acquisitions greater than three acres and federal funding for new/major runway extensions.

IN-HOUSE TECHNICAL SUPPORT

CAD Designers | ICE employs an adequate number of computer aided drafting tools for production support. They have AutoCAD and Civil 3D software that allow them to produce clear sets of drawings for construction and planning documents. Having an experienced group of these technical experts in-house will allow ICE to respond to OCF's needs and meet schedules.

Specialty Subconsultants | ICE will heavily utilize the services of one of the most well-respected firms in Florida, AVCON Inc. They have been a major partner with ICE for many years and have performed well on past assignments at the Airport. AVCON was asked to review and revise the electrical lighting layout for the construction of Taxiway "A" due to some discrepancies in the plans. In less than two weeks, a new design was turned that was accurate and saved money. ICE will also utilize AVCON's technical capabilities for engineering design support and planning. They will continue to be an integral part of the team.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

WILLINGNESS TO MEET TIME AND BUDGET

APPROACH TO MANAGING BUDGET

Since all members of our Team have worked at OCF for several years, we understand the City's needs and the funding needed for their capital projects. During design, the team will be proactive in seeking ways to reduce project costs. This translates to our professional fees as well. ICE's expertise in the aviation discipline allows work within set scope parameters, maximizing efficiency and limit costly redesigns. Because repeat business is so critical to the firm, requesting supplemental fees is avoided whenever possible.

- Listen to the client and understand their needs;
- Estimate a realistic budget based on actual bids (baseline) with contingency,
- Perform early coordination with building departments and regulatory agencies;
- Using existing data and record documents;
- Perform extensive field verification of exist conditions;
- Detailed depiction of underground utilities;
- Utilizing proven solutions in order to simplify the design
- Adhering to scope of work to minimize scope creep;
- Involve experienced and qualified staff who can produce cost-effective designs.

The team will conduct weekly internal progress meetings and perform monthly project reviews to monitor schedules and budgets to identify and resolve project issues early to avoid delays. Detailed cost estimates will be updated regularly and with each design phase submittal. In-depth quality control reviews and constructability reviews will be performed to identify potential discrepancies that can lead to costly change orders. In addition to reviewing the plans, these reviews also encompass contract language and specifications to check for discrepancies and conflicts that a contractor may attempt to take advantage of.

The selected firm for this Contract must be good stewards of the Airport funds. ICE will take the extra effort to find solutions that are more economical without sacrificing quality. Since the ICE staff have been working at OCF for many years, we have records of as-built conditions that date back many years. The is extremely helpful in eliminating unknowns. Frequently, the quality control component of a project often does not recognize missing information that could be available from airport records or subsurface utility efforts, thus going undetected. The ICE Team has a strong background in construction, so elements of constructability, contractor access, staging and work areas, and project phasing can have strong, positive implications on a lower cost.

APPROACH TO MANAGING TIME

The Team understands and realizes that delays in the schedule have an adverse effect on project airport finances and grant funding. Projects that are late could miss FDOT and FAA fiscal year deadlines and be subject to loss of grant funds. Projects that exceed the allotted schedule also cost more in additional administrative costs for the airport staff. This is a drain on the valuable resources to the City.

For each project undertaken by the team, they will prepare a detailed schedule for the client's review and approval. This schedule will highlight critical path items and major work areas, including a breakdown of the sub tasks and corresponding time lines and manpower required to complete the work. Also, included in the schedule is the proper allocation of adequate Quality Control time in advance of each submittal.

Weekly meetings are held with the entire project team, including subconsultants, to evaluate how the design is progressing and determine if the project is on track to meet the deadline or milestone set out in the schedule. If it is determined the project is behind schedule, sufficient additional resources will be made available until the project gets back on track. The key to effective schedule management is understanding where the project currently is, what is left to do, how long it will take, and what resources are needed. This can be accomplished by the Team's experienced Project Managers and engineers who all have a minimum of 20+ years of aviation design experience.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pgs)

Tracking of the project schedule will be the responsibility of the PM who will look at production and evaluate where the project is on a level of completion scale. In the event a component of the production falls behind, a recovery plan will be discussed to ensure the project remains on track. This recovery plan could involve adding staff or working extra hours to get back on track. The schedule update will be provided to the airport staff on a monthly basis during the design phases of the project, along with a narrative report on the progress of work. Permits are applied for early and adequate float time allotted for agency review and questions. The PM will schedule frequent meetings with subconsultants to stay abreast of their progress. Incremental submittals are made by the subconsultant Team members during the course of a design phase to gauge their progress and similarly come up with a plan for recovery if viewed to be behind schedule.

ICE's management of schedule was evident with the Taxiway "A" construction project. With multiple phases requiring different closures of sections of pavement, extreme importance was placed on holding the contractor to that timeframe. This included discussions on staffing and scheduling during our weekly calls with constant tracking of time elapsed with contract time. Our efforts and documentation were used to hold the contractor to these durations and assess liquated damages for periods when they fell short.

GRANT MANAGEMENT APPROACH

In the past, ICE has been integrally involved in conversations and communication with the FAA and FDOT as it relates to proposed developments, eligibility, and funding. Helping OCF obtain funds is an important function of the ICE consulting Team. ICE staff has been serving General Aviation and small to medium-sized commercial service airports for numerous years. Grant application assistance is an upfront, non-reimbursable service that ICE provides to their clients. Management of the grant, tracking the funds, and ensuring grant compliance is typical with all projects. For aviation projects in Florida, the typical sources of project funding are through FAA and/or FDOT grants. ICE has established outstanding relationships with FAA and FDOT staff, most importantly with the representatives of Ocala International Airport, Joe Jerkins (FDOT), Allison McCuddy (FDOT), and Jennifer Ganley (FAA). They trust the Team to properly formulate grants, adhere to grant assurances, deliver timely reporting, and expeditiously close out grants. ICE staff has experience working with the Florida Aviation Database and with the Joint Automated Capital Improvement Program (JACIP). These programs are integrated with FDOT to show project costs and the 5-year capital improvement plan.

The FAA Orlando Airports District Office and the Florida Department of Transportation work closely and share funding on grants, however, the processes they follow is different. For example, FDOT will fund a project based on estimates, however, FAA only funds projects based on hard bids. The FAA will not participate in most projects that are revenue-producing, while FDOT will. Also, certain elements of a single project could be eligible for full funding and others eligible for funding at a lower participation, or none at all. This situation must be managed closely to ensure proper utilization of the grant funding and proper tracking of construction costs.

The grant application is an important first step in securing the funds. In addition to filling out the 424 application form, ICE staff will:

- Write cover letter
- Generate Project Sketches
- Prepare Cost Estimates
- Project Narrative
- Environmental Checklists
- Schedules
- Perform Eligibility Computations
- Sponsor Certifications
- Bid Tabulations (for Construction)

During design and construction, ICE staff ensure the proper procedures are followed for grant compliance. The FDOT requires copies of contracts, signed and sealed drawings, and engineer's certifications. The FAA requires a copy of the plans and specifications. During construction, both agencies want to review change orders with backup information, photos, and justification. For closeout, the ICE Team has their own procedure for compiling file documentation that includes documentation required by both agencies and useful information for the airport staff. This information is provided in a book form and a PDF.

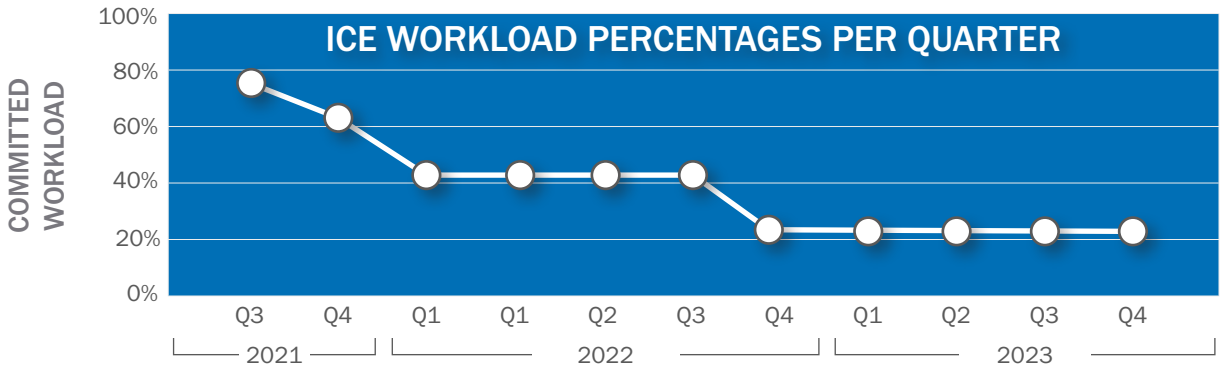
Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f65e8 (5 pt.)

4 Recent, Current, and Projected Workloads of the Firm

Serving as a current aviation consultant for the City, the ICE Team has the understanding and experience of delivering timely projects and services under the Contract. We have conducted an evaluation of our Team's current and projected workload and the availability of the proposed personnel to confidently commit these professionals for the Contract duration. **Our current assignments will not reduce or impact our capabilities to provide the required services provided to the City.** We have reviewed the five-year CIP for the Airport and are extremely confident the ICE Team has sufficient resources and capabilities to allocate to this important Contract.

WORKLOADS

The graphical representation below exhibits ICE's recent closeouts, current workload, and projected commitments for our Florida aviation clients. The backlog illustrates a decrease in our awarded projects over the next 12 months allowing our Team the necessary availability to successfully complete any task orders assigned from the City.



Some of the recent completed projects were the Airport Restaurant Design and Construction for the City of Ocala, CONRAC Facilities Refurbishment for Okaloosa County, and Hangar D Design for City of Sebastian. ICE is currently working on the Runway 18-36 Crack Repair, Seal, & Restripe for the Airport which is estimated to be completed in 2022.

AVAILABILITY

ICE is committed to prioritizing the City and continuing to serve as an extension of your staff. All team members were selected based on the current and projected workloads to ensure proper staffing for each discipline and will be dedicated to this Contract. We have the **immediate availability, resource depth, and capacity** required to expedite work in order to meet tight project and grant funding schedules. In addition to our proposed team, ICE has a deep pool of technical and support professionals working throughout Florida that can be allocated to this Contract as needed.

KEVIN J. THIBAULT, P.E.
SECRETARY

July 29, 2021

Doug Hambrecht, Vice President-Florida Aviation
INFRASTRUCTURE CONSULTING & ENGINEERING, PLLC, LLC
5550 Idlewild Avenue, Suite 102
Tampa, Florida 33634

Dear Mr. Hambrecht:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following types of work:

Group 3 - Highway Design - Roadway

- 3.1 - Minor Highway Design
- 3.2 - Major Highway Design

Group 4 - Highway Design - Bridges

- 4.1.1 - Miscellaneous Structures
- 4.1.2 - Minor Bridge Design
- 4.2.1 - Major Bridge Design - Concrete
- 4.2.2 - Major Bridge Design - Steel

Group 5 - Bridge Inspection

- 5.4 - Bridge Load Rating

Group 6 - Traffic Engineering and Operations Studies

- 6.1 - Traffic Engineering Studies
- 6.2 - Traffic Signal Timing
- 6.3.1 - Intelligent Transportation Systems Analysis and Design
- 6.3.2 - Intelligent Transportation Systems Implementation

Group 7 - Traffic Operations Design

- 7.1 - Signing, Pavement Marking and Channelization
- 7.2 - Lighting
- 7.3 - Signalization

Group 10 - Construction Engineering Inspection

10.1 - Roadway Construction Engineering Inspection
10.3 - Construction Materials Inspection
10.4 - Minor Bridge & Miscellaneous Structures CEI
10.5.1 - Major Bridge CEI - Concrete
10.5.2 - Major Bridge CEI - Steel

Group 13 - Planning

13.5 - Subarea/Corridor Planning

Group 14 - Architect

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2022, for contracting purposes.

Approved Rates

Home/ Branch Overhead	Field Overhead	Facilities Capital Cost of Money	Premium Overtime	Reimburse Actual Expenses	Home Direct Expense	Field Direct Expense
172.41%	157.56%	0.274%	Reimbursed	No	11.60%	10.71%*

*Rent and utilities excluded from field office rate. These costs will be directly reimbursed on contracts that require the consultant to provide field office.

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

Should you have any questions, please feel free to contact me by email at carliayn.kell@dot.state.fl.us or by phone at 850-414-4597.

Sincerely,

Carliayn Kell

DOUG HAMBRECHT, PE

Project Manager

Mr. Hambrecht has been providing consulting services for clients at both commercial service and general aviation airports since 1995. His extensive experience includes all aspects of aviation design and construction consulting services as well as an in-depth knowledge of FAA funding approval process, airport development alternatives and studies, and a unique perspective of knowing what it takes to get airport projects completed successfully from start to finish. His aviation design experience includes taxiway and runway rehabilitation, apron expansions, shade hangar and T-hangar design and improvements, perimeter fencing, parking lot reconfiguration, rental car facility development, fuel farm and security improvements, and entrance and access road improvements. Mr. Hambrecht is focused on quality and accuracy of the delivered product.

Mr. Hambrecht has served as the Project Manager on ICE's current aviation contract for the City of Ocala since 2017. He brings a thorough understanding of the City's preferences and established working relationships with Airport staff. This knowledge allows him to bring continuity and streamlined efficiencies to the next iteration of this Contract.

EDUCATION:
BS, Civil Engineering, State University of New York at Buffalo (1995)
AAS, Aerospace Technology, Farmingdale State College (1989)

EXPERIENCE:
Career: 1995 – Present
ICE: 2015 – Present

REGISTRATION:
Professional Engineer:
FL #57145
AL#38751-E
SC #20227
GA #PE041061

CERTIFICATIONS:
- FDOT Statewide Pavement Management Courses – Airfield Pavement Distress Repair
- Airfield Pavement Inspection Training
- University of Wisconsin Pavement Maintenance and Repair Certification

Current Aviation and Airport GC Contracts

City of Ocala	City of St. Petersburg	Citrus County
City of Everglades	Brevard County	Okaloosa County
City of Sebastian	Collier County	Volusia County

EXPERIENCE:

Taxiway "A" Rehabilitation, Ocala International Airport – Ocala, FL | Mr. Hambrecht served as the Project Manager for the construction of the rehabilitation of the airport's only parallel taxiway to the primary runway. It included the milling and overlay of the existing taxiway as well as the demolition of several taxiway connectors and the construction of several new taxiway connectors. Also included a re-alignment of portions of the existing taxiway as well as widening. New taxiway edge lights and taxiway signage were provided. Mr. Hambrecht responsibilities involved full construction administration to include FAA and FDOT reporting, reviewing and responding to submittals and RFIs, weekly reporting to the Airport Director, issuing change orders, change directives, and information notices, monitoring DBE participation, reviewing pay requests, producing the construction safety and security plan for acceptance by the FAA, producing the Construction Management Plan, quality assurance test results and close out documentation.

Airfield Perimeter Fence, Ocala International Airport – Marion County, FL | This Project was part of the Capital Improvement Plan (CIP) for the City of Ocala and the Ocala International Airport. The purpose of this project was to eliminate digging under the existing fence by coyotes, gopher tortoises, and other wildlife by constructing a wildlife skirt. A 5' fence skirt was buried a minimum of 36" into the ground under the existing fence fabric and followed the 33,000' (roughly six miles) of existing fence. All swing gates were replaced with sliding gates, and a 6" concrete apron was poured under the gate to limit gaps. Mr. Hambrecht served as the Project Manager and oversaw the design, bidding, and construction phase services for this Project. In addition, FDOT and FAA grant packages, grant assurances, and closeouts were provided by ICE.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

Doug Hambrecht, PE | Project Manager

GA Terminal Parking Lot, Ocala International Airport – City of Ocala, FL | As the Client Manager, Mr. Hambrecht was responsible for the design of a 144-space, 60,000-square-foot parking lot as the first phase of a proposed General Aviation terminal expansion program. Project included the undergrounding of overhead utilities, regional stormwater conveyance, landscaping, site lighting and prepared FAA grant applications.

Taxiway "N" Reconstruction, Daytona Beach International Airport – Daytona Beach, FL | ICE served as a subconsultant on this project which consisted of the total reconstruction of the existing 2.5-mile-long Taxiway "N" (and Taxiway "A") with reconfigured edge of pavement geometry, paved shoulders widened from 25' to 30' in width, installation of a new storm water drainage system, and the installation of new LED taxiway edge lights. Mr. Hambrecht was responsible for overseeing the taxiway horizontal geometric design and layout and the development of the overall construction safety and phasing plans for the project.

West Apron Expansion, Destin-Fort Walton Beach Airport – Okaloosa County, FL | This project consisted of enlarging the West Apron to create five additional commercial aircraft ground loading apron spaces for A319/320 and other narrow body aircraft. The spaces also serve as remain overnight (RON) space for aircraft to base for early flights when all of the existing spaces with jet bridges are full or otherwise under exclusive lease by another airline. Mr. Hambrecht served as the Project Manager, worked with airport staff and the FAA to finalize apron dimensions, and developed detailed site development plans including airfield pavement structural design, geometrics, markings, lighting requirements, and other aircraft support infrastructure required (tie-downs, ground points, electrical or other infrastructure for ground power units, etc.). He was responsible for overseeing QA/QC, airfield design, production design (CADD), environmental services, and grant and bidding services as well as construction management during the construction phase.

Shade Hangar, Sebastian Municipal Airport – Sebastian, FL | Serving as Project Manager, Mr. Hambrecht provided performance specifications for a system meeting the airport's desire to be competitively bid. He was also responsible for administering the bidding process. The City of Sebastian and the Sebastian Municipal Airport wanted shade hangars for the west side of the airport. These hangars consist of column(s) support to a roof truss system which stretches and supports a type of polypropylene fabric covering. ICE provided performance specifications for a system meeting the airport's desire to be competitively bid. An in-depth design for the grading, drainage, and permitting of the site was required, as well as obtaining water management permits. The Airport desired a total of 14 shade hangars including 12 units for single engine type aircraft and two larger units for twin engine airplanes.

T-Hangar Replacement, Sarasota Bradenton International Airport – Sarasota, FL | Mr. Hambrecht served as the Project Manager responsible for overall project management including design, construction plans, and construction phase services for the replacement of several T-Hangar buildings, including J-4 and J-5. The clear door width for the set of buildings was 41.5' x 12'. Each building is a standard (stacked) configuration consisting of 14 units (28 total). Also included in this project were two larger hangar buildings (J-7 and J-8) to the south of Taxiway "F". The clear door width for these buildings will be wider than J-4 and J-5 at 47.5' x 14'. Special, larger end units were designed on each of the two buildings with a clear door width of 51' x 16'. At this width, J-7 can accommodate 12 units and J-8 can accommodate 15, both with a nested configuration. Site work consisted of the removal of the asphalt pads under the Port-a-Port buildings, new drainage pipes, and the relocation of the taxilanes to line up with the new doors. On the buildings, manufactured by Erect-a-Tube, ridge vents were provided for air circulation, exterior building mounted LED lights were provided for taxilane illumination, and door types were bifold type.

Entrance Road and Parking Lots Reconfiguration Project, St. Pete-Clearwater International Airport – Clearwater, FL | Mr. Hambrecht served as a Senior Project Manager at ICE for the design assistance and phasing plans for the reconfiguration and realignment of the existing ¾-mile-long entrance road and the reconfiguration and expansion of the existing parking lots at PIE. The pending realignment of the major access roadway to the airport (Roosevelt Boulevard) and the explosive growth in number of passengers flying in and out of PIE were the driving forces behind this project. As a subconsultant, ICE performed the preliminary entrance roadway/parking lots geometric design and layout, quality control reviews, and developed the overall construction

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Count.)

sequencing plans for the project to ensure continuous vehicular access to the terminal and parking areas with safe routes for pedestrians from the parking lots to the terminal building during construction. The project work included constructing new roadway and 68,000 square yards of parking lot pavement, rehabilitating the existing road, replacing the entire stormwater drainage system, constructing new concrete curb and sidewalk, installing new high mast LED streetlights, relocating and reinstalling overhead roadway information signs, and sequencing the work to keep the existing roads, parking lots, and terminal building operational, safe, and accessible during construction.

Taxiways "C", "D", and "E", Sebastian Municipal Airport – Sebastian, FL | Mr. Hambrecht served as the Project Manager for the design of several new parallel taxiways to enhance safety at this uncontrolled airport. Several new taxiways were designed to limit the number of runway crossings, decrease the chances of an incursion, and provide a safer route for taxiing aircraft. A full-length parallel Taxiway "C" to Runway 5-23 on the north side is to be constructed with a partial parallel (Taxiway "D") on the south side. Included will be Taxiway "E", a partial parallel taxiway to Runway 10-28 along the south side to move the main GA traffic to the runways. All work was designed in accordance with the 13A Advisory Circular geometry requirements. Stormwater design was performed to minimize ponds by sheet flowing runoff for treatment 62-330.449 F.A.C. and permits through the Water Management District. Airfield signage, pavement design, pavement marking, and a Construction Safety and Phasing Plan (CSPP) were prepared.

Apron Design, Punta Gorda Airport – Punta Gorda, FL | Mr. Hambrecht served as the Project Manager for the design of the expansion of the aircraft parking aprons at the Punta Gorda Airport which is experiencing rapid growth with Allegiant Air. The project scope included professional engineering services to expand the aircraft parking aprons north of the existing apron to add three additional aircraft parking spaces for the Airbus A319/A320/A321 and 737-800 aircraft. Originally designed with a blast fence for power-in power-out operations, only two positions were originally obtainable, so the airport directed ICE to revise for straight in operation with tug push back. The apron consists of a combination of asphalt and concrete in varying thicknesses for taxiway (4" asphalt/ 14" limerock), aircraft parking (15" concrete 6" recycled conc. base), and ground service equipment (concrete 6" recycled conc. base). Drainage was accomplished by the use of trench drains outfalling to a pipe network and then to a retention pond. These positions were remote from the terminal, requiring a covered walkway to all three positions.

VHB Metropolitan Airport Systems Study, Mobile Downtown Airport – Mobile, AL | Mr. Hambrecht served as a project engineer responsible for providing rough order of magnitude cost estimating services for this project that consisted of determining if it is cost effective to have commercial air services at Mobile Downtown Airport and evaluated if changing the roles of the Mobile Regional Airport and the Mobile Downtown Airport will provide better air service options in the future. Careful consideration was made as to how a role change would affect economic development coupled with known major infrastructure projects on and around the airports. It was also determined if the potential future economic impacts and regional benefits of adding St. Elmo Airport under the ownership and operation of the Airport is beneficial to BFM.

Aerostar Simulator and Hangar Improvements, Kissimmee Gateway Airport – Kissimmee, FL | Mr. Hambrecht served as Project Manager and worked closely with Quantem FBO Group to assist in the planning of hangar improvements to suit the needs of a future tenant. The tenant, Aerostar Training Services, desired to build a flight training campus which included major renovations to an existing hangar. Interior modifications to the existing hangar included a full height dividing wall to separate maintenance operations with aircraft simulators. The planning work and conceptual renderings of the ultimate buildout were exclusively performed by ICE.

Terminal Apron Rehabilitation (Gates 7-10), St. Pete-Clearwater International Airport – Clearwater, FL | Mr. Hambrecht served as the Project Manager for the design of a rehabilitation of 24,000 square feet of terminal apron associated with the terminal building expansion of gates 7-10. Design included utilities relocation, stormwater, cost estimating and concrete pavement. Extensive phasing was required for public safety and access to temporary aircraft parking positions.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

Doug Hambrecht, PE | Project Manager

Southeast T-Hangars, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | Mr. Hambrecht served as the Project Manager responsible for the layout and specifications package for the installation of four T-Hangar structures. The buildings consisted of a prefabricated metal building system with prefabricated roof vents, supplied by Dean Steel Buildings. Two of the larger T-Hangar buildings were a traditional layout with a door clear opening of 54 feet in width and 17 feet in height. Aircraft that could be stored in this hangar include the Piper PA-31 Navajo and Beechcraft King Air C90A. The smaller T-Hangar buildings were a nested layout. The doors have a clear opening of 44 feet in width and 14 feet in height. Aircraft that could be stored in this hangar include the Cessna 172R Skyhawk, Cessna 182 Skylane, Piper PA-23 Aztec, and Raytheon A36 Bonanza. Detailed layout drawings depicted NFPA requirements, wall dimensions, ADA requirements, doorways, floor sloping, spill protection, rainfall downspouts, site work, building mounted lighting, electrical requirements, grounding points, ventilation, locations of fire walls, and other owner and code requirements. Spaces for restrooms, storage, and conditioned office space were provided. Hydraulic and Bi-fold doors were provided for the different structures.

Boarding Bridges for A Gates, Destin-Fort Walton Beach Airport – Valparaiso, FL | Mr. Hambrecht served as the Project Manager for this project that consisted of new Apron Drive Passenger Boarding Bridges (PBBs) with the replacement of the 400hz/48VDC ground power units and the pre-conditioned air units. Bag lift elevators were included to move late bags from the apron the terminal floor. The bridge structure consisted of a ramped fixed tunnel (terminal doors at ground level designed), a rotating rotunda, telescoping bridge tunnel section, a cab with full controls for moving the bridge into position, vertical and horizontal drive system, baggage lift system, and provisions to re-mark the apron for the new parking positions associated with revised docking procedures than what is currently marked and the potential for larger mix of aircraft at these positions.

Runway Re-Marking, Sebastian Municipal Airport – Sebastian, FL | Mr. Hambrecht served as the Project Manager for the re-marking of non-precision Runway 5-23 and VFR Runway 10-28, GPS approach obstruction survey for Runway 5, and runway designation (numbering) calculations for magnetic declination of both runways. He also oversaw the design and construction for this project.

South Cargo Ramp Rehabilitation and Taxiway "N", Cleveland Hopkins International Airport – Cleveland, OH | Mr. Hambrecht served as the Project Engineer for the development of plans and specifications for the concrete joint layout and marking plans for the reconstruction of the cargo ramp and a main taxiway access to Runway 6R-24L and exit for Runway 6L-24R. Project included the various concrete joint details, enhanced centerlines, hold position markings, vehicle service road markings, and surface painted hold position signs.

Terminal Renovation and Addition and Parking Garage, Kotoka International Airport – Accra, Ghana | As the Project Manager, he was responsible for the civil design of a major terminal expansion project, including baggage handling, ticketing, and a concourse expansion. The civil design for this project included a new four lane entrance road, terminal access roads, ramps to a new multi-story parking garage for 2,300 vehicles, overhead terminal wayfinding signage, roadway lighting, landscaping, storm drainage systems, pedestrian walkways and ramps, a 3x6 meter tunnel, and multiple roadway retaining walls.

Terminal Additions Phase 2, Destin-Fort Walton Beach Airport – Valparaiso, FL | Mr. Hambrecht was the Construction Project Manager for site work associated with the terminal concourse expansion and new airline gates. The work included 20,000 square feet of concrete apron reconstruction. Mr. Hambrecht worked closely with the airport and FAA in grant closeout and quarterly reporting.

East Side Additions, Fuel Farm Canopies and Security Improvements, Destin-Fort Walton Beach Airport – Valparaiso, FL | Hambrecht served as the Project Manager responsible for the design of metal roofs to provide shelter and safety for the loading and offloading areas of the airport fuel farm. The project consisted of structural steel coverings over the offloading and loading areas at the fuel farm and a third shelter over the emergency generator. These canopies were designed to provide shade and protection from the elements during fueling operations. The loading area consisted of a cantilever canopy (24'x40') and the offloading area for the larger tanker trucks was a gable type roof (62'x32') construction. All included standing seam roofs, steel "H" columns and cords, shop welded and field bolted connections, and concrete foundations. Three Pan, Tilt, Zoom cameras were

added to the east side development. At the east terminal ramp gate, existing card readers were upgraded to dual height card readers (2 total) at both lanes of the entrance. Mr. Hambrecht provided cost estimating, change order evaluations and grant assistance.

Pavement Reconstruction Taxiway "T" and "H", Jacksonville International Airport – Jacksonville, FL | Mr. Hambrecht served as the Quality Control Manager and was responsible for the design of two major taxiways at JIA. Taxiway "T", a connector to Runway 13-31, was completely removed, shifted, and realigned as a part of the design effort. The determination of the proposed location required an analysis of the occupancy time on the runway, a comparison to other exit points, and service to cargo operations. The pavement section featured 16" of concrete over 8" of cement treated base. The design for Taxiway "H" was limited to concrete slab replacement and spall repair. Taxiway "H" serves as one of the main access points to the Terminal Apron and the General Aviation Area. Mr. Hambrecht also reviewed cost estimates for this project.

Northeast Corporate Center, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | As the Quality Control Manager, Mr. Hambrecht provided detailed, independent review of estimated project costs This project included designing a 205,000-square-foot concrete apron for the future development of up to 10 hangars for medium to large corporate aircraft. The apron and connector taxiway were designed for ADG II aircraft, while a taxiway extension to the facility was designed for larger, Group IV aircraft. Major site elements included 0.5 miles of access roadway, area lighting, airfield NAVAIDS, stormwater piping, and dry pond construction. Subsurface utilities included a water main extension, gravity sewer loop, lift station, and underground power service. Since this project is in the approach to both Runways 27 and 21, significant analysis of part 77 surfaces was required as well as considerations for runway extensions and future RPZs.

Parcel 71 Development, Daytona Beach International Airport – Daytona Beach, FL | As the Quality Control Manager, Mr. Hambrecht was responsible for the design of a 70,000-square-foot asphalt apron for future corporate hangar development. The project included two connector taxiways, airfield electrical, utility infrastructure, access roads, perimeter access control, roadway lighting, construction phasing, and large concrete culvert installation. Permitting efforts included stormwater, floodplain compensation, sewer, water, County Development Order, and driveway connection.

7L-25R Runway Reconstruction, Daytona Beach International Airport – Daytona Beach, FL | Mr. Hambrecht served as the Project Manager responsible for the design of the runway rehabilitation and reconstruction. This is the main runway for Daytona Beach with a length of 10,500'. Reconstruction was necessary for the 2,500' x 50' keel section to the 7L approach where significant pavement distresses occurred. Improvements to the keel involved replacing the asphalt with 15" of Portland Cement Concrete. Detailed grading plans provided milled surface contours and finished grades. Phasing plans accounted for the airport's different needs to provide multiple runways for the flight schools and Embry Riddle's use as well as sufficient length and wind coverage for the airlines. This was provided by incorporating multiple phases of displaced thresholds on 7L-25R and minimizing work zones on the 16-34, the intersecting runway.

Parcel 61 T-Hangars, Daytona Beach International Airport – Daytona Beach, FL | Mr. Hambrecht served as the Project Manager responsible for the design of an 11 unit stacked T-Hangar configuration. The project also included custom hangar specifications, design of stormwater systems, vehicular access improvements, and an aircraft taxilane to service the units.

18L-36R Runway Rehabilitation, Cecil Airport – Jacksonville, FL | Mr. Hambrecht served as the Project Manager responsible for the design of the asphalt rehabilitation and concrete joint repair of Cecil Field's 12,500' runway. Approximately 7,000' of the center portion of the runway is bituminous asphalt, with roughly 5,000' on the south end and 300' on the north end consisting of Portland Cement Concrete (PCC). This project included milling and resurfacing plans, detailed phasing plans, marking plans, and rehabilitation of all the connector Taxiways "A2", "A3", and "B". Drainage design included the evaluation of the infield drainage system to replace pipes with lower maintenance ditches.

Exit Taxiways "C4" and "D", Palm Beach International Airport – West Palm Beach, FL | Mr. Hambrecht served as the Project Engineer responsible for the design of angled exit taxiways in order to decrease runway

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

occupancy times and improve safety for PBIA's main Runway 10L-28R. Plans included electrical design, phasing, safety, demolition, grading and drainage, permitting, and marking. Design efforts included a pavement design to accommodate 847,000-pound aircraft with shoulders and pavement designed for Group V.

South Taxilane Rehabilitation, Palm Beach International Airport – West Palm Beach, FL | Mr. Hambrecht served as the Project Engineer responsible for the design of a 1,600-foot Group III Taxilane. The existing taxilane was removed, strengthened and reconfigured. Edge lighting and guide signs were also provided.

9R-27L Runway Rehabilitation, Cecil Airport – Jacksonville, FL | Mr. Hambrecht served as the Project Engineer responsible for the design of the concrete and asphalt rehabilitation of the 8,000-foot runway, which included milling and resurfacing plans, detailed phasing plans, marking plans, concrete repair, and rehabilitation of all the connector taxiways. Also responsible for videotaping the drainage pipes and identified pipe repair areas under runway and FAA and tower coordination.

Hangar Development, Tallahassee International Airport – Tallahassee, FL | As the Lead Engineer for this project, Mr. Hambrecht was responsible for the civil design of a 25,000-square-foot hangar project at Tallahassee International Airport. Services included were parking design, sidewalks, utilities, landscaping, irrigation, apron access, drainage, site grading, permitting, fencing and gates.

Airfield Markings Improvements, Palm Beach International Airport – West Palm Beach, FL and North Palm Beach County General Aviation Airport – Palm Beach Gardens, FL | As a Project Engineer for this project, Mr. Hambrecht was responsible for the design of updated threshold markings, new enhanced centerline markings and runway hold position lines, and re-marked runway for non-precision approach.

14-32 Runway Extension, Jacksonville Executive at Craig Airport – Jacksonville, FL | Mr. Hambrecht served as the Project Engineer responsible for the preparation of preliminary plans for a 1,600-foot extension of Runway 32 and the parallel taxiway and prepared detailed cost estimates, engineer's reports, pavement design, drainage investigation, site permit requirements, NAVAID (MALSR, glideslope, threshold lights, and PAPI) relocation, and assisted with wetland mitigation.

General Consulting Contract/Multiple Projects, Tallahassee International Airport – Tallahassee, FL | Mr. Hambrecht served as the Project Manager and was responsible for the planning, cost estimating, FAA and FDOT coordination, production of plans, specifications, reports, and construction management and construction inspection for numerous airfield projects. These projects include the rehabilitation of the majority of the airport's taxiways, new taxiway construction (3), the addition of paved shoulders and edge light replacement to Runway 18-36, a General Aviation Central Apron (6 Acre of new pavement), Cargo Apron (20 Acre of new Pavement), Passenger Boarding Bridge rehabilitation (2 new, 6 rehab), and 8 miles of perimeter road. Had a significant involvement in terminal work and several airfield and parking studies.

Rental Car Facilities, Pensacola International Airport – Pensacola, FL | Mr. Hambrecht served as the Project Manager and Lead Engineer responsible for the civil design of a 21-acre site involving the site design for rental car fuel islands, maintenance and office buildings, and automated wash buildings. Design/oversight responsibilities included water, sewer, grading, drainage, pavement, roadway design, parking, site lighting, security, landscaping, cost estimating, schedules, subcontractors, and plan production.

PAPI Installation, Destin-Fort Walton Beach Airport – Valparaiso, FL | As the Construction Manager for this project, Mr. Hambrecht was responsible for the replacement of the VASI system with a 4 box Precision Approach Path Indicator system.

Apron Lighting and Vault Replacement, Destin-Fort Walton Beach Airport – Valparaiso, FL | Mr. Hambrecht served as the Project Manager responsible for the design and construction of 11 new high mast apron lights. Relocation of the voltage-controlled airfield system to a pre-cast enclosure with new home runs to lighting circuit.

Residential Sound Insulation Project, Tallahassee International Airport – Tallahassee, FL | Mr. Hambrecht served as the Construction Manager responsible for the sound insulation upgrades to homes under the 36 departure/18 approach. Project included windows, doors, air conditioning and duct work, and other miscellaneous improvements.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8 (Count.)

Doug Hambrecht, PE | Project Manager

Taxiway "H", Bob Sikes Airport – Crestview, FL | Mr. Hambrecht served as the Project Manager responsible for the design and construction of a taxiway under a grant from Enterprise Florida. This taxiway serves C-130 aircraft for deliveries of technical parts to Manufacturing Technologies Inc., located adjacent to airport property.

Cargo Facility, Destin-Fort Walton Beach Airport – Valparaiso, FL | Mr. Hambrecht served as the Construction Manager responsible for a new 12,000-square-foot cargo building, asphalt parking, concrete tug road/ GSE area, and a 75,000-square-foot aircraft apron.

Rental Car Development Project, Destin-Fort Walton Beach Airport – Valparaiso, FL | Mr. Hambrecht served as the Lead Engineer and Project Manager responsible for the design and construction of a 40-acre development project. Project was designed for five rental car agencies and includes the design of separate facilities such as rental car offices, automated wash facilities, vehicle maintenance bays, and fuel distribution islands. Engineering design work consisted of site grading, storm drainage, SR 85 turn lanes, an entrance road, an aviation fuel farm of (130,000 gallons), rental car ready/return lots, rental car overflow lots for 800 vehicles, signage and pavement marking.

Airfield Perimeter Fence, Tallahassee International Airport – Tallahassee, FL | Mr. Hambrecht served as the Project Manager and Lead Engineer responsible for the design and construction of a new 10' high Wildlife Fence with "V" arm, triple strand barbed wire around the entire perimeter of the Airport. The total length of the project and length of new fence was 9.65 miles. A concrete footer was placed under the fence as a value engineered approved alternative to chain link fabric which prevented any digging by animals. Tight restrictions were placed in the specifications to not permit any gaps in the fence or between gates greater than 2" maximum width. All gates were upgraded to 10' aluminum.

Runway 9-27 and Associated Taxiways Electrical Improvements, Tallahassee International Airport – Tallahassee, FL | As the Project Manager, Mr. Hambrecht was responsible for the design and the construction of the replacement of all Runway lighting fixtures, replacement of airfield lighting cable, installation of runway guard lights for all runway-taxiway intersections and modifications of existing taxiway lead-on and lead-off centerline lights. Also included were electrical vault building constant current regulators, upgrade of the primary power distribution system from 240 volts to 480 volts, airfield lighting control system (ALCS) additions, installation of a new stand-by generator, and necessary modifications for a complete and functioning system including upgrades to the heating, ventilation, and air conditioning (HVAC) equipment.

GA Terminal, Destin-Fort Walton Beach Airport – Valparaiso, FL | Mr. Hambrecht served as the Project Manager/Lead Engineer responsible for the site work for a new General Aviation Terminal Building design to include parking lot design, apron improvements, utility relocation, demolition of existing buildings, drainage design, and permitting. He also served as overall Construction Manager during construction.

Taxilanes - Phase II, North Palm Beach County General Aviation Airport – Palm Beach Gardens, FL | Mr. Hambrecht served as the Project Manager responsible for the design of two ADG I Taxilanes, one ADG II Taxilane, and a concrete fueling apron for future T-Hangar construction.

T-Hangars, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | Mr. Hambrecht served as the Project Manager/Engineer for the design of two T-Hangars consisting of a 14-unit and a 15-unit structure.

Airport Access Road, Sebastian Municipal Airport – Sebastian, FL | Mr. Hambrecht served as the Project Engineer responsible for the design of a western and eastern access road to the airport.

Airfield Perimeter Road, Palm Beach International Airport – West Palm Beach, FL | Mr. Hambrecht served as the Project Engineer responsible for the design of an airfield perimeter road.

City of Zephyrhills, FL | Mr. Hambrecht served as the Project Manager responsible for numerous projects including the Greenslope Drive Extension Project, the addition of City sidewalks for Greenslope, and the design of the Streetscape Project involving brick paver sidewalks, landscaping, parking lots and decorative lighting. Also, served as Construction Manager for all projects.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pgs)

Doug Hambrecht, PE | Project Manager

U.S. 90 – Leon County, FL | Mr. Hambrecht served as the Project Engineer responsible for the design of storm drainage systems for a 4-mile multilane roadway improvement project.

Terminal Development Project, Tyler Pounds Field – Tyler, TX | Mr. Hambrecht served as the Project Engineer responsible for the design portion of a new aircraft apron, access road, loop road, and parking lots. Project also involved perimeter fencing, tollbooths, and sanitary sewer lines.

Riverbanks Zoo – Columbia, SC | Mr. Hambrecht served as the Lead Engineer and Project Manager responsible for $900,000 design of new alignment and also managed construction. Project included two creek crossings, numerous permits (environmental, state, utility, local) and extensive rock blasting and excavation.

U.S. Route 78 – Charleston, SC | Mr. Hambrecht served as the Project Engineer responsible for developing traffic control plans/construction sequencing for the US Route 78/I-26 interchange improvements project and the Phase II project which included the extension of U.S. 78 to U.S. 52. The project involved the widening of U.S. 78 from 2 to 5 lanes and 2 major intersections involving ramps, bridges, and interstate widening.

Palmetto Parkway, Ladson Industrial Park – Charleston County, SC | Mr. Hambrecht served as the Design Engineer responsible for roadway drainage design for a 2-mile two-lane roadway on new location.

Greenville Western Corridor – Greenville, SC | Mr. Hambrecht served as the Project Engineer responsible for phasing plans for the widening/relocation of a major roadway in a downtown environment.

S.C. 161 Improvements – Rock Hill, SC | Mr. Hambrecht served as the Design Engineer responsible for the preliminary geometry, drainage, and superelevation design for a four-lane urban section with curb and gutter.

Lexington County, SC | Mr. Hambrecht served as the Project Manager responsible for a $3.8 million paving and resurfacing program. Duties included horizontal and vertical alignments, pavement design, road design, drainage design, public meetings, preparation of construction documents, coordination of right-of-way acquisition, construction administration and inspection. Over the course of three years, 22 dirt roads were designed for a paved surface.

Richland County, SC | Mr. Hambrecht served as the Project Manager responsible for a $6 million paving and resurfacing program. The program included numerous roadway and drainage improvement projects. The tasks involved all aspects of design from PD&E to final plans, traffic analysis, permitting, construction administration and inspection. Total project duration was four years.

Charleston County, SC | Mr. Hambrecht served as the Project Manager responsible for the design of 6 roadway projects involving the paving of dirt roads.

Town of Irmo, SC | Mr. Hambrecht served as the Project Manager responsible for numerous roadway and sidewalk improvement projects.

U.S. Silica Sand Inc. – Gaston, SC | Mr. Hambrecht served as the Project Manager responsible for a one-mile road relocation project involving roadway design and the evaluation of several tunnel options to service the mining operation.

Charleston County, SC | Mr. Hambrecht served as the Project Manager responsible for 16-intersection improvement projects throughout the County. The design tasks included traffic feasibility studies and schematic interchange layouts.

Berkeley County, SC | Mr. Hambrecht served as the Project Manager responsible for 10 road paving projects and County resurfacing projects.

United Parcel Service Bridge over SC Hwy 302, Columbia Metropolitan Airport – Columbia, SC | Field Construction Engineer responsible for the layout and construction of a steel girder bridge and retaining walls over SC Hwy 302. The existing vertical grade of S.C. Route 302 was lowered by 28 feet to accommodate the construction of a 110-foot-long, single-span bridge structure interfacing between the new air cargo apron and the new UPS sorting facility on the other side of the state road. The also project involved the construction of two 1,500' tapered retaining walls that were 28' high at the abutments.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

ELHAM FARZAM, PE

Principal-in-Charge, Pavement Design

Elham has over 36 years of hands-on experience in heavy-civil projects. He has had the honor to have worked on a number of challenging assignments in the surface and air transportation consulting field assisting federal, state and local authorities in the delivery of a wide variety of projects and programs involving planning, designing and construction.

Certified Safety Bridge Inspector by NHI / FHWA

EXPERIENCE

Henry E. Rohlsen Airport – St. Croix, USVI | Elham served as Project Director on this project that included the update of Airport Master Plan/ALP, update of Environmental Assessment Document and design and construction of 2,400-foot runway extension (to 10,001 feet) of Runway 9-27, and a new air traffic control tower, at an estimated total project cost of $17 million.

Memphis International Airport – Memphis, TN | Elham was the Project Director for this project that included design of the extensions to Taxiways "A" and "S" with the Memphis-Shelby County Airport Authority. The project consisted of approximately 112,000 cubic yards of unclassified excavation, 130,000 square yards of current treated base, 30,000 tons of bituminous surface/base course, and 77,000 square yards of 17-inch PCC pavement. The project was constructed in seven distinctive phases (including sub-phases in 5 of the 7 phases) in an effort to minimize the impact to aircraft operations. The project also included several FAA navigational aids (R/W 36R localizer, R/W 9 RVR, LLWAS, and R/W 18L MALSR) to be relocated.

Fort Wayne International Airport, Fort Wayne, Indiana

- *Loop Access Roadway Program*: Project Director for major landside development including short term and long term, rental and employee parking areas, loop access road, signage and graphics, landscaping, and utilities relocation.

- *Terminal Modernization Program*: Project Director for Construction phase for major terminal building renovation and expansion project including new bag claim wing, new ticketing wing, new concession core area, new upper concourse hold areas and gates, new regional hold area, concourse and gates, new signage and graphics including FIDS/BIDS. Project also included separate bid packages for loading bridges and furnishings.

Greenville-Spartanburg International Airport, Greer, South Carolina | Serving as the Project Director, Mr. Farzam was responsible for the design and construction of a $54 Million runway extension and strengthening project including a 3,400 foot runway extension involving over seven million cubic yards of earthwork, paving, lighting, a complicated NAVAIDs relocation program, and a 50,000+ square yard apron for two B747 aircrafts.

Columbia Metropolitan Airport, Columbia, South Carolina

- *UPS East Air Freight Facility* - Principal-In-Charge for the design and construction phases of the East Air Freight Facility as part of the new UPS Southeastern Hub facility. Project included construction of 180,000 sy of air carrier strength P.C.C. paved apron, aircraft deicing fluid collection, containment and disposal facilities, stormwater detention and sediment control facilities, relocation and widening of 3,200 ft. of a state road, a 50-foot wide bridge with a span of 106 ft. and 4,500 ft. of a 8 in. water main.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

- *Strengthening Extension of Runway 5-23* - Construction Project Manager for strengthening extension of Runway 5-23. The project includes a 3,000-foot extension of R/W 5-23 with permanent 1,000-foot relocation of R/W 23 threshold and 2,000 feet of extension of R/W 5.

McGhee Tyson Airport, Knoxville, Tennessee | Client Project Manager associated with Design and Construction of the following projects:

- *Air Cargo Facilities* - Design and Construction Project Manager for $8.3 Million project consisting of 600,000 cubic yards of excavations, 48,000 square yards of 15" P.C.C. pavement, emergency access road and various improvements to fences and gates.

- *Runway 23L Safety Overrun (AIP-08)* - Design and Construction Project Manager for final design and construction of a 1,000-foot extension to serve as a safety overrun area at the end of Runway 23L. This $750,000 improvement consisted of approximately 200,000 cubic yards of earthwork, drainage improvement, construction of an emergency perimeter access road, and installation of new airport security fencing including a 28 foot automatic electric gate.

- *Replacement of Airport Guidance Signs (AIP-08)* - Design and Construction Project Manager for replacement of approximately 100 L-829 signs with L-858, single or double face signs, including mandatory and information signs and installation of a 20kw regulator.

- *Site Preparation for Runway 5R Extension (AIP-09)* - Design and Construction Project Manager for construction of a 3,000-foot extension to increase the length of R/W 5R-23L to 9,000 feet. This $10.6 million project included construction of embankment utilizing 4,300,000 cubic yards of earth and rockfill, drainage improvements, utility relocations, and TNANG entrance road relocation to accommodate the runway extension.

- *Paving and Airfield Lighting for Runway 5R-23L (AIP-10)* - Design and Construction Project Manager for pavement strengthening of the existing Runway 5R-23L and construction of new pavement and lighting system for Runway 5R extension. This $3.8 million project also included rehabilitation of the existing airfield lighting, pavement grooving, and installation of shoulder underdrain.

- *Construction of Sedimentation Basin/Dam (AIP-12)* - Design and Construction Project Manager for construction of a sediment basin with sediment storage volume of 7 acre-feet, including a 1,500-foot long, 32-foot high earthfill dam and riser structure. The construction also includes excavation of 300,000 cubic yards of earth and rock.

- *Taxiway "B" (North Reconstruction)* - Principal-in-Charge for reconstruction of approximately 1,600 feet of rigid pavement section for Taxiway "B" (North), and the addition of rigid pavement fillets and lead in taper sections for Taxiway "G-6" and "G-7".

Myrtle Beach International Airport/Air Force Base, Myrtle Beach, South Carolina

- *Strengthening of Runway 17-35* – Elham served as the Design and Construction Project Manager for this project that included nighttime asphaltic overlay of center 7,500-foot of runway, reconstruction of two 1,000-foot concrete touch down areas and rehabilitation of airfield lighting system.

Shaw Air Force Base, Sumter, South Carolina

- *Replacement of Runway 4L-22R* - As the Design and Construction Project Manager, Elham oversaw the replacement of an existing runway with a new 10,000-foot concrete runway, including earthwork, major drainage improvement, new airfield lighting system and NAVAIDS, and aircraft arresting systems (BAK-12/14).

McEntire ANG Base, Eastover, South Carolina

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (5 pt.)

Elham Faram, PE | Principal-in-Charge, Pavement Design

Elham served as the Project Director for evaluation and repair/rehabilitation of a base-wide airfield pavement project in excess of $5 million. The work involved development of pavement evaluation program, NDI/PCI work, as well as preparation of construction documents for a $3 million worth of pavement repair and strengthening project.

DeKalb Peachtree Airport - Atlanta, GA | Elham was the Project Manager and directed the Firm's involvement with the design and construction of the "Airfield Pavement Improvements" Project at this busy General Aviation Airport consisting of the following work elements:

- Rehabilitation of Runway 2L-20R;
- Rehabilitation of Runway 2R-20L;
- Construction of an unpaved runway safety area for Runway 20R;
- Construction of asphaltic holding area/pad for Runway 20R;
- Construction of concrete holding area/pad for Runway 20L; and
- Rehabilitation and reconstruction of Clairmont taxilane/ramp and west ramp.

Knoxville Downtown Island Airport - Knoxville, TN | Elham was the Project Manager/Principal-in-Charge of the following projects:

- *Rehabilitation of Runway 8/26 (AIP-03*) – Rehabilitation of Runway 8/26 including asphaltic overlay of 40,000 square yards, single surface treatment for control of reflective cracking.
- *Rehabilitation of Parallel Taxiway (AIP-04)* –Rehabilitation of the 3,800-foot parallel taxiway, medium intensity taxiway lighting system, and the medium intensity lighting system for Runway 8-26.

Lancaster County Airport, South Carolina

- *3,800-Foot Extension of Parallel Taxiway* - Principal-in-Charge. The project includes 200,000 cubic yards of embankment, crushed aggregate base course, P-401 bituminous surface course, miscellaneous drainage structures and drainage pipe, and new medium intensity taxiway lighting system.

Stanly County Airport, North Carolina

- *Extension and Strengthening of Runway 4-22* – Elham served as Design Project Manager for an 800-foot runway extension and safety area widening, as well as taxiway turnarounds at both runway ends, and a new aircraft apron for North Carolina Air National Guard C-130 aircrafts.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f(5 pgs)

MICHAEL HIXSON, PE

Quality Control

Mr. Hixson has many years in airport related projects as designer, engineer, project manager, and business developer. He provides site investigations, preliminary and final design for airport improvement projects, and applications for federal assistance. He has been involved at every level, from conception to completion, on many projects at airports in multiple states. He also provides on-site observation of construction to determine if the work done is in accordance with plans and specifications.

Louisiana Engineering Society | National Society of Professional Engineers

ORGANIZATIONS:
Louisiana Airport Managers & Associates

EXPERIENCE:

Aviation Engineering/Architecture Services for Airport Development Projects, Livingston Executive Airport – Livingston Parish, LA | Mr. Hixson serves as the Project Manager for this project which includes providing program development services for the justification, design, and construction of a new airport in Livingston Parish, Louisiana known as the proposed Livingston Executive Airport. His responsibilities include the comprehensive management of the project, client coordination, QA/QC of plans and specs, and the overall visioning for the airport development. This project includes a Justification Study for the proposed airport to enter the FAA's National Plan of Integrated Airport Systems (NPIAS), a feasibility study and preliminary engineering report for the proposed airport site airport master plan update; website development, community engagement and stakeholder engagement meetings; environmental analysis and permitting; architectural project visioning and conceptual design (including 3D renderings and fly throughs of the recommended airport concept); architectural preliminary building facilities design; engineering airport development and design; and Benefit-Cost Analysis (BCA). It is anticipated that the airport will be constructed and open within the next five years.

Airfield Pavement Rehabilitation, False River Regional Airport – New Roads, LA | This Airfield Pavement Rehabilitation project consists of full-depth reconstruction, milling, and overlay on Runway 18-36 and connector taxiways; Runway 18-36 full-depth repairs; parallel taxiway sealcoat; and pavement markings. Mr. Hixson is currently serving as the Project Manager, and his responsibilities include overseeing construction engineering services, responding to RFIs, unforeseen conditions remediation, and supplemental funding requests. While with a previous employer, Mr. Hixson also served as Senior Project Manager for this project and was responsible for overseeing the design services.

Master Services Agreement (2018-2021), False River Regional Airport – New Roads, LA | Mr. Hixson is currently serving as the Project Manager responsible for client management, securing funding from LaDOTD and FAA, oversight of design and bidding, and construction administration support. Projects completed to date include Automated Weather Observing System (AWOS), Pavement Defects Investigation, Sealcoat/Rejuvenator, Drainage Rehabilitation, Pavement Rehabilitation, Apron Overlay, Detailed Airport Layout Plan/Mini Master Plan, Airfield Pavement Rehabilitation (Design), and Localizer Equipment Shelter and DME. Current project includes Airfield Pavement Rehabilitation (Construction) and Drainage Rehabilitation and Hangar Development Phase I.

Master Services Agreement (2018-2023), DeQuincy Industrial Airpark – DeQuincy, LA | Mr. Hixson currently serves as the Project Manager and is responsible for client management, securing of funding from LaDOTD and FAA, oversight of bidding, and construction administration support. Projects completed to date include Parallel Taxiway Extension, Automated Weather Observing System (AWOS), Fuel Farm, Aircraft Hangar, Access Road and Gate Improvements, Lighting Rehabilitation, Runway and Mid-Apron Crack Seal and Sealcoat, Perimeter Fencing (Design), Upgraded PAPIs to LED and Taxiway Centerline and Edge Reflectors. Current projects include Perimeter Fencing – Phases II and III (Construction).

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

Michael Hixson, PE | Quality Control

Master Services Agreement, Allen Parish Airport – Oakdale, LA | Mr. Hixson has served as Project Manager on various projects at the Allen Parish Airport since 2013. As the Project Manager, his duties and responsibilities include client management, securing of funding from LaDOTD and FAA, oversight of bidding, and construction administration support. The projects that Mr. Hixson has completed to date include Runway 18 N. Drainage Rehabilitation, Airfield Pavement Sealcoat and Remarking, and Obstruction Removal – Environmental Services. Current project includes Obstruction Removal Design and Construction.

Runway 36 RPZ Obstruction Removal, Allen Parish Airport – Oakdale, LA | Mr. Hixson is serving as the Project Manager overseeing all phases of this contract. This project consists of the removal of existing forested areas along the Allen Parish Airport in order to accommodate required sight planes and minimize long-term maintenance. A project study was previously identified, and a wetland delineation conducted to identify any wetland and other waters of the US (WOUS). The project scope consists of the removal of trees and brush areas considered obstruction to Runway 36 end.

Runway 14-32 Extension Engineering and Environmental Services, Alexandria International Airport – Alexandria, LA | Mr. Hixson served as Project Manager providing assistance for the Runway 14-32 extension project. He was responsible for preliminary design, schematic design, overall project coordination between consultants for Runway, and Taxiway design. The scope of work as part of this contract included project scoping, scheduling, and data collection; perform initial site visits; and assist with land acquisition. Other services included performing an environmental assessment, including permitting and mitigation; provide NAVAIDs coordination and approach obstruction evaluation; develop a special hydrological analysis and stormwater pollution prevention plan; and prepare a preliminary engineering report.

Runway 18/36 and 13/31 Intersection Rehabilitation, Hammond Northshore Regional Airport – Hammond, LA | Mr. Hixson served as the Project Manager and his responsibilities included client management, funding procurement, production staff oversight for Pavement Evaluations, Airfield Design, and Grant Administration, as well as sub management, and financial management. This project consisted of providing preliminary design, final design, bidding, construction administration, and resident project representative services for reconstructing the PCC pavement within and on all sides of the Runway 18-36/13-31 intersection. The existing PCC pavement on Runway 13-31 between the bituminous sections (approximately 1,550') was removed and reconstructed. The pavement width was reduced from 150' to only 100' to match the rest of the runway which had already been reconstructed in previous projects. Reduction of the pavement width included removal of 25' of concrete shoulders on both sides of Runway 13-31. This reconstruction encompassed all of the remaining PCC pavement on Runway 13-31.

Multi-Year Contract, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | Mr. Hixson served as the Project Manager for this project and his responsibilities included developing and implementing an aggressive airport expansion program necessary to accommodate larger aircraft used by tenants of nearby Port Fourchon. The short-term goal was to extend, widen, and strengthen the existing runway; construct a full parallel taxiway; and install airfield lighting, signage, and NAVAIDs. Projects completed to date include extending and widening the existing 3,800-foot-by-75-foot runway to 6,500-foot-by-100-foot, AWOS installation, airfield lighting and signage, construction of a new stub-taxiway, runway strengthening, safety area improvements, instrument landing system and perimeter fencing, taxiway connector, and parallel taxiway.

Taxiway "A" North Paving Project, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | Mr. Hixson, Project Manager, was responsible for client management, funding procurement, production staff oversight for Pavement Evaluations, Airfield Pavement Design, Airfield Design, and Grant Administration, as well as sub management, and financial management. The consultant provided design, environmental, grant, bidding, and construction administration services for the Taxiway "A" North paving project. The project was bid with two scenarios: Bid Scenario A (awarded) included an asphalt pavement section; and bid scenario B, a Portland Cement Concrete (PCC) pavement section. For each scenario, the base bid and alternate bid were included. The base bid provided a partial parallel taxiway, and the alternate bid provided a full length parallel taxiway. The Base Bid Scenario A included construction of approximately 2,900 linear feet of a new asphalt

Michael Hixson, PE | Quality Control

parallel taxiway from the approach end of Runway 18 to the existing apron connector taxiway and 1,200 linear feet of new connector taxiways. The taxiway and connectors were designed and built to accommodate service for Aircraft Approach Category C-II.

Runway 13/31 Overlay and Taxiway B Reconstruction, Baton Rouge Metropolitan Airport – Baton Rouge, LA | As Project Manager, Mr. Hixson's responsibilities included coordination between the consultant and all predesign and design subconsultants, design oversight, plan review, cost estimating and construction site visits during the Construction Administration phase of the project. During the design phase, he was responsible for development of construction phasing, which was necessary due to project impacting all three runways and majority of taxiways.

Pavement Defects Investigation, False River Regional Airport – New Roads, LA | Mr. Hixson served as Project Manager and was responsible for overseeing all aspects of the project. The consultant was retained to evaluate a runway pavement issue. The issue appeared to be a base failure and the consultant coordinated a subsurface exploration to determine the cause and limits of failure.

Pavement Condition Index (PCI) Study – LA | As Project Manager, Mr. Hixson was responsible for client management, provided coordination and support for the PCI team, and provided close out report briefing to the owner. The consultant evaluated and inspected airport runways, taxiways, and aprons through visual inspection in accordance with the American Society for Testing and Materials (ASTM) manual D5340-98, to determine the pavement condition index (PCI) number for the state's 48 National Plan of Integrated Airports System (NPIAS) airports. The consultant investigated existing conditions and prepared a detailed report that included the PCI number of each airport, an overall PCI value of the airports surveyed, and a summary of the surfaces inspected at each airport.

Airfield Pavement Crack Sealing and Remarking, False River Regional Airport – New Roads, LA | Mr. Hixson, Project Manager, was responsible for client management, and oversight of design, bidding, and construction administration. The consultant provided engineering services for airfield pavement crack sealing and replacement of pavement markings. Services included grant administration, design, bidding-phase support, and construction administration.

Runway 18-36 Pavement Sealcoat and Remarking, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | As Project Manager, Mr. Hixson was responsible for client management, grant administration, and oversight of design, bidding, and construction administration. The consultant provided engineering services for the Runway 18-36 pavement sealcoat and remarking. Services included design, bidding-phase support, and construction administration. The project consisted of application of coal-tar rejuvenator/sealer to, and remarking of, Runway 18-36, heliport taxiway asphalt pavement, and apron and Taxiways A, A1, and A2.

Drainage Rehabilitation, False River Regional Airport – New Roads, LA | Mr. Hixson served as Project Manager and was responsible for grant management, QA review, bidding phase support, and construction site visits for an isolated pavement repair on a general aviation runway. The consultant provided all required professional services to design, bid/solicit proposals, and administer construction for drainage rehabilitation between Runway 18/36 and the parallel taxiway. The project was necessary to improve safety and provide a long-term solution to drainage and erosion issues around the infield inlets.

Overlay Runway 13/31 and Taxiway "B" Reconstruction, Baton Rouge Metropolitan Airport – Baton Rouge, LA | Mr. Hixson, Project Manager, was responsible for coordination between the consultant and all predesign and design subconsultants, design oversight, plan reviews, cost estimating and construction site visits during the Construction Administration phase of the project. During the design phase, he was responsible for development of construction phasing, which was necessary due to project impacting all three runways and majority of taxiways. Michael Baker provided This project consisted of civil, electrical, and navigation aid (NAVAID) design and construction support for overlay of primary Runway 13/31 and reconstruction of parallel Taxiway "B". The project also included complete airfield lighting rehabilitation for these areas and associated connector taxiways and necessary drainage improvements within the project area.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

Michael Hixson, PE | Quality Control

Perimeter Fence and Gate Improvements, David G. Joyce Airport – Winnfield, LA | As Project Manager, Mr. Hixson was responsible for design oversight, plan review and client management. The consultant provided design, biding phase services, and construction administration for perimeter fence and gate improvements. The project generally consisted of removing the existing fence, clearing the property boundary, and installing approximately 13,415 linear feet of chain-link perimeter fence and gates to serve as a security fence. Items of work included removing existing barb-wire fencing, clearing and grubbing the property boundary, constructing new chain-link fencing and gates, installing erosion control measures, and seeding areas of disturbed soil.

Runway Pavement Repairs, False River Regional Airport – New Roads, LA | Mr. Hixson, Project Manager, was responsible for funding coordination between LaDOTD and FAA, client management, and oversight of design, bidding, and construction administration. The consultant provided engineering and design services for removal and reconstruction of approximately 1,000 square yards of failing asphalt pavement. Services included grant administration, design, bidding, construction administration, and resident project representative.

Terminal Area Improvements, Monroe Regional Airport – Monroe, LA | As Client Services Manager, Mr. Hixson was responsible for client management, grant administration, design phase services, and oversight of bidding and construction administration. The consultant provided inventory, programming, program management, project design, and construction administration for a new commercial terminal area and related facilities. The new commercial terminal, loop road expansion, public and rental car parking, and rental car service areas were constructed in four major phases over a period of roughly three and a half years, allowing for continued operations of existing facilities. The terminal design reflects the local character as a gateway to the City of Monroe and the character of the region. Use of stone on the interior and exterior, and natural cypress wood in key interior spaces, provides a warm and inviting introduction to the community that is reflective of the natural beauty of the area.

Apron Expansion for New Terminal, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | Mr. Hixson, Project Manager, was responsible for client management; grant administration; and oversight of design, bidding, and construction administration. This project consisted of approximately 18,485 square yards of new asphalt apron pavement, 1,900 square yards of new asphalt apron and taxilane pavement and approximately 111 square yards of new 10-inch thick concrete pavement for an aircraft fueling pad, and approximately 1,200 square yards of new asphalt pavement for a taxilane extension. The project included unclassified excavation, offsite borrow material, demolition of existing bituminous pavement and incidental site features, construction of pavement, aggregate base and grassed shoulders, storm drainage pipe, installation of erosion control measures and installation of pavement marking and surface mounted reflectors for the new apron pavement. Other work included demolition of 48 aircraft tiedowns and installation of 42 new aircraft tiedowns. The consultant provided design, bidding, construction administration, and resident project representative services for this project.

Runway Sealcoat and Marking, David G. Joyce Airport – Winnfield, LA | As Project Manager, Mr. Hixson was responsible for oversight of design and provided bidding and construction administration support. The consultant provided design, bidding, construction administration, resident project representative services for cleaning and sealing of approximately 15,000 linear feet of asphalt cracks; application of approximately 36,715 square yards of rejuvenator/sealer to airfield pavement; and replacement of approximately 29,335 square feet of airfield markings.

Airport Layout Plan Update, David G. Joyce Airport – Winnfield, LA | Mr. Hixson, Client Services Manager, was responsible for client management. The consultant led the effort for the Airport Layout Plan (ALP) update that was completed in the fall of 2015. By conducting a detailed evaluation existing and forecast aviation activity at the airport, the study identified a preferred alternative that illustrated several projects that were prioritized for implementation during the duration of the 20-year planning period.

Airport Lighting Rehabilitation, Alexandria International Airport – Alexandria, LA | As Client Services Manager, Mr. Hixson was responsible for client management; and oversight of design, bidding and construction administration.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

Michael Hixson, PE | Quality Control

Runway 18N Drainage, Allen Parish Airport – Oakdale, LA | Mr. Hixson served as Project Manager and was responsible for client management; quality review of design; and oversight of bidding and construction administration.

South Air Carrier Apron Repair, Baton Rouge Metropolitan Airport – Baton Rouge, LA | Mr. Hixson, Operations Manager, was responsible for client management, quality review of the design phase services, and oversight of the bidding and construction administration.

Vault Electrical Design and Construction Services, Alexandria International Airport – Alexandria, LA | As Operations Manager, Mr. Hixson was responsible for client management and oversight of the design, bidding, and construction administration services.

Independent Fee Estimate for Rehabilitation of Taxiway "A", Alexandria International Airport – Alexandria, LA | Mr. Hixson served as Project Manager and was responsible for completing an Independent Fee Analysis for the Rehabilitation of Taxiway "A" for the Alexandria International Airport.

Obstruction Removal, False River Regional Airport – New Roads, LA | Mr. Hixson, Project Manager, was responsible for client management and oversight of project.

EMAS Review, Lafayette Regional Airport – Lafayette, LA | Mr. Hixson served as Project Manager and was responsible for Quality Review of EMAS Plans and Specifications that were prepared by another design firm. Provided the owner with a summary of what items needed to be addressed per the scope of services.

Runway 11-29 Rehabilitation, Lafayette Regional Airport – Lafayette, LA | As Operations Manager, Mr. Hixson was responsible for client management and quality review of the design phase services.

I-49 Support Services (Phase I), Lafayette Regional Airport – Lafayette, LA | Mr. Hixson served as the Project Manager and was responsible for design support services per the owner's request regarding airport operations pertaining to the development of I-49 highway surrounding the airport. His role included meeting and coordinating with FAA, state, and other stakeholders; conducting report/plan reviews; and preparing studies, reports, and design plans.

Runway Rehabilitation, Hammond Northshore Regional Airport – Hammond, LA | Mr. Hixson served as Operations Manager and was responsible for client management; funding assistance coordination with LaDOTD and FAA; oversight of design; and coordination with subconsultants.

Terminal Apron Expansion, Greater Lafourche Port Commission – LA | Project Manager Responsible for construction administration oversight and client management.

Airport Rescue and Firefighting (ARFF) Station Expansion Engineering Services, Lake Charles Regional Airport – Lake Charles, LA | Mr. Hixson served as Client Services Manager. The consultant is providing architecture, civil, structural, mechanical, and electrical engineering services for the design of the Lake Charles Regional Airport Rescue Fire and Fighting (ARFF) station expansion project. The project includes the addition of approximately 2,500 to 3,000 square feet to the ARFF building. Services will be divided into two basic parts: schematic design and construction documents.

Rehabilitation of Runway 13-31 and Reconstruction of Parallel Taxiway B, Baton Rouge Metropolitan Airport – Baton Rouge, LA | Mr. Hixson served as Project Manager and Design Engineer and was responsible for the rehabilitation of Runway 13-31 and reconstruction of parallel Taxiway B. Project included partial depth milling and overlay on Runway 13-31 and reconstruction of existing PCC taxiway pavement and new runway and taxiway edge lighting and guidance signs.

Expansion of Air Carrier Aircraft Parking Apron, Baton Rouge Metropolitan Airport – Baton Rouge, LA | As Project Manager and Design Engineer, Mr. Hixson was responsible for the expansion of the air carrier aircraft parking apron. Project included new PCC pavement, edge lighting, and guidance signs.

Reconstruction of Primary Runway 4L-22R, Baton Rouge Metropolitan Airport – Baton Rouge, LA | As Project Manager and Design Engineer, Mr. Hixson was responsible for the reconstruction of primary Runway

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (5 pt.)

Michael Hixson, PE | Quality Control

4L-22R. Project included full depth reconstruction of existing PCC runway pavement, new runway edge lighting, centerline and Touch Down Zone lighting. The preliminary phase of this project included a study of existing and proposed aircraft activity to determine design aircraft, as well as cost-benefit analysis of various rehabilitation and reconstruction alternatives. Following completion of the runway reconstruction, the Owner issued supplemental agreements for design services in connection with a 600-foot runway extension, including parallel taxiway, as well as Threshold Siting Studies for each end of the two air-carrier runways.

Airport Master Plan Update, Monroe Regional Airport – Monroe, LA | As Project Team Engineer was responsible for update of Airport Master Plan.

New Passenger Terminal, Monroe Regional Airport – Monroe, LA | As Project Team Engineer, was responsible for new Passenger Terminal. Responsibilities included airside civil design and overall project coordination.

Airfield Lighting Rehabilitation, Monroe Regional Airport – Monroe, LA | As Project Team Engineer, was responsible for Airfield Lighting Rehabilitation Project.

Runway Extension, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | As Project Manager and Design Engineer was responsible for 2,700-foot runway extension, full parallel taxiway, airfield NAVAIDS and new electrical vault.

Runway Extension, Huntsville International Airport – Huntsville, AL | As Design Engineer was responsible for 4,600-foot extension of Runway 36.

Runway Extension, Columbia Metropolitan Airport – Columbia, SC | As Project Team Engineer, was responsible for 4,300-foot extension of Runway 11 and roadway tunnel under extension.

Airport State Road Relocation, Piedmont Triad International Airport – Greensboro, NC | Mr. Hixson served as Project Manager and Design Engineer and was responsible for relocation of on-airport state road. Project included new 6-lane signalized intersection with existing 4-lane state highway, revised entrance to existing office park, and relocation of major utilities.

Runway Rehabilitation, Piedmont Triad International Airport – Greensboro, NC | As Project Manager and Design Engineer was responsible for rehabilitation of 10,000-foot runway and new high-speed exit taxiway.

FedEx Hub, Parallel Runway and Taxiway, Piedmont Triad International Airport – Greensboro, NC | As Project Team Engineer, Mr. Hixson was responsible for supplemental design and planning for new FedEx hub, new parallel runway and dual cross field taxiways, and various roadway improvements.

Master Plan Update, Rockingham County NC Shiloh Airport – Rockingham County, NC | Project Manager and Design Engineer responsible for update of Airport Master Plan.

Apron Rehabilitation, Kinston Regional Jetport – Kinston, NC | Project Engineer responsible for ARFF apron rehabilitation.

Site Preparation, Piedmont Triad International Airport – Greensboro, NC | Project Manager and Design Engineer responsible for site preparation for future air cargo expansion project.

Apron Expansion and Taxiway Construction, Piedmont Triad International Airport – Greensboro, NC | Project Team Engineer responsible for design of apron expansion and taxiway construction.

Parking Lot Design, Piedmont Triad International Airport – Greensboro, NC | Project Engineer. Responsible for design of employee parking lots.

Apron Design, Piedmont Triad International Airport – Greensboro, NC | Project Team Engineer responsible for design of air cargo apron.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pgs)

Michael Hixson, PE | Quality Control

Runway 5-23 and Parallel Taxiway, Davidson County Airport – Lexington, NC | Project Engineer responsible for design of a new Runway 5-23 and parallel taxiway, airport entrance road, apron, and T-Hangars.

Parking Lot Design, Mt. Airy/Surry County Airport – Mount Airy, NC | Project Engineer responsible for design of automobile parking lot.

Runway Rehabilitation Design, Martin County Airport – Williamston, NC | Project Engineer responsible for design of runway rehabilitation project.

Runway Extension Design, Stanly County Airport – New London, NC | Project Team Engineer responsible for design and site grading for runway extension and strengthening.

Runway, Taxiway, and Apron Reconstruction, Laurens County Airport – Laurens, SC | Project Team Engineer responsible for design and site grading for the reconstruction of a runway, taxiway, and apron; and for extension of a safety overrun.

Runway Rehabilitation, Lancaster County Airport – Lancaster, SC | Project Team Engineer responsible for design and site grading for runway rehabilitation.

Runway Extension and Partial Parallel Taxiway Construction, Laurens County Airport – Laurens, SC | Project Team Engineer responsible for design and site grading of a 400,000 C.Y. embankment for a runway extension and partial parallel taxiway construction.

Parking Lot Design, Columbia Metropolitan Airport – Columbia, SC | Project Team Engineer responsible for design and site grading for multiple automobile parking lot projects.

Taxiway Rehabilitation, Darlington County Airport – Darlington, SC | Project Team Engineer responsible for design and site grading for the reconstruction/rehabilitation of a taxiway.

Runway Rehabilitation, Knoxville Downtown Island Airport – Knoxville, TN | Project Team Engineer responsible for design and site grading for runway rehabilitation.

Runway Inspection, Columbia Metropolitan Airport – Columbia, SC | Construction Inspector responsible for inspection of runway extension and strengthening, taxiway construction, and runway grooving.

Parallel Taxiway and Cross-Field Taxiway, Memphis International Airport – Memphis, TN | Project Team Engineer responsible for horizontal geometry design, joint layout, site grading, and project coordination of a partial parallel taxiway and cross field taxiway.

Design and Site Grading, Myrtle Beach International Airport – Myrtle Beach, SC | Project Team Engineer responsible for design and site grading for two high speed exit taxiways.

Runway 3-21 Rehabilitation, Greenville-Spartanburg International Airport – Greenville, SC | Project Team Engineer responsible for design and site grading, project coordination between three design teams, cost estimates, and presentation quality of final plans for strengthening of Runway 3-21.

Access Road Design, Greenville-Spartanburg International Airport – Greenville, SC | Project Engineer responsible for design of new access road, horizontal and vertical geometry, grading, drainage, and plan production.

HAMED JAFARIAN, PE

Airside Design

EDUCATION:
MS, Civil Engineering, University of South Florida (Pending)
BS, Civil Engineering, Azad University (2002)

EXPERIENCE:
Career: 2004 – Present
ICE: 2016 – Present

REGISTRATION:
Professional Engineer:
FL #76516
GA #PE039012

CERTIFICATES & TRAINING:
- ICPR
- Streamline Technologies
- Stormwater Retention
- Stormwater Quality and Erosion Control Overview
- ACF 2012
- Civil3D Core Concept
- Autodesk

Mr. Jafarian has more than a decade of experience in the design, project management, and plans preparation for aviation-related projects at numerous airports in Florida and the southeast. He has worked on numerous projects involving the design of runways, taxiways, aprons, airport lighting systems, and other airport infrastructure. He specializes in geometric design of airport runways, taxiways, aprons, airport lighting systems, drainage systems, and other airport infrastructures based on Federal Aviation Administration (FAA) Advisory Circulars and roadway facilities in accordance with FDOT criteria and regulations. Some other areas of expertise are preparation of stormwater pollution prevention plans, pre- and post-development maps, and flood plain compensation calculations.

Mr. Jafarian's airport services extend to FAA Obstruction Evaluation/Airport Airspace Analysis (OE/AAA), airside and landside civil design, engineer's report and other associated services. He has designed flexible and rigid pavements for airports using the FAA programs and has prepared quantities and engineer's estimates for many projects. He has performed a broad range of highway design tasks including horizontal and vertical geometry, pavement design, signing and marking plans, traffic signal installation, utility adjustments, ITS design, MOT plans, quality control, estimates, quantities, and engineer's reports.

EXPERIENCE:

Crack Repair, Seal, and Restripe Runway 18/36, Ocala International Airport – Ocala, FL | Mr. Jafarian served as the Project Manager responsible for designing the crack repair, sealing, and restriping of Runway 18/36. He designed the work in accordance with the requirements of the Federal Aviation Administration (FAA) and the Florida Department of Transportation. A seal coat will be required to limit the iron oxide from the aggregate and rust surface water flow affecting the white edge markings. It will also serve to rejuvenate and slow the raveling of existing pavement and provide a black surface for pilot visibility. A crack seal program will be employed prior to sealing. Mr. Jafarian is responsible for bidding services and will oversee the construction of the crack repair, sealing, and restriping of Runway 18/36. He prepared the contract documents for bidding including front end general provisions, general requirements, and technical specifications for the project. Mr. Jafarian also prepared the FAA grant application for construction, prepared the Construction Safety and Phasing Plan (CSPP), and prepared the details and marking plans for restriping Runway 18/36.

Ocala Gaslight – City of Ocala, FL | Mr. Jafarian was responsible for preparing conceptual drawings for the court house parking lot. Completion date was 2014 with a construction cost of $64k.

West Apron Expansion, Destin-Fort Walton Beach Airport – Okaloosa County, FL | This project created additional ground loading apron spaces or overflow rest overnight (RON) space for aircraft to base overnight for early flights when all the existing spaces with jet bridges are full or otherwise under exclusive lease by another airline. ICE worked with Airport staff and the FAA to finalize apron dimensions and develop detailed site development plans including airfield pavement structural design, geometrics, markings, lighting requirements, and other aircraft support infrastructure required (tie-downs, ground points, electrical or other infrastructure for ground power units, etc.). Mr. Jafarian, serving as Lead Design Engineer, was responsible for the design of the expansion of the aircraft parking aprons west of the existing apron to add parking positions, with five spaces provided for the airbus A-321 aircraft. The apron consisted of a combination of asphalt adjacent to the taxiway

and concrete at the parking positions. The scope included field surveys, geotechnical investigation, geometric layouts, pavement design, stormwater management design and permitting, high mast light standards and electrical modifications, relocation of a pump station, blast fence design and relocating security fence, signage, pavement markings, bidding, and construction services.

Taxiway "N" Reconstruction, Daytona Beach International Airport – Dayton Beach, FL | This project consisted of the total reconstruction of the existing 2.5-mile-long Taxiway "N" (and Taxiway "A") with reconfigured edge of pavement geometry, paved shoulders widened from 25' to 30' in width, installation of a new storm water drainage system, and the installation of new LED taxiway edge lights. ICE served as a subconsultant and performed the taxiway horizontal geometric design and layout and developing the overall construction safety and phasing plans for the project. Mr. Jafarian served as a Project Engineer and was responsible for the design of the project phasing and preparing construction safety plans including the OE/AAA permit.

Apron Expansion, Punta Gorda Airport – Punta Gorda, FL | Mr. Jafarian served as a Project Engineer for the design of the expansion of the aircraft parking aprons at the Punta Gorda Airport which experienced rapid growth with Allegiant Air. The project scope included professional engineering services to expand the aircraft parking aprons north of the existing apron to add parking positions, with three spaces provided for the airbus A-320 aircraft. The apron consisted of a combination of asphalt adjacent to the taxiway and concrete at the parking positions. Drainage was accommodated using trench drains tied to an underground drainage system. These positions were remote from the terminal, requiring a covered walkway to all three positions. The services included: field surveys, geotechnical investigation, geometric layouts, pavement design, storm water management design and permitting, high mast light standards and electrical modifications, relocation of a pump station, blast fence design and relocate security fence, signage, pavement markings, bidding, and construction services.

Aviation Engineering/Architecture Services for Airport Development Projects, Livingston Executive Airport – Livingston Parish, LA | Mr. Jafarian serves as the Civil Engineer for this project which includes providing program development services for the justification, design, and construction of a new airport in Livingston Parish, Louisiana known as the proposed Livingston Executive Airport. His responsibilities include grading of all aspects of the airport using AutoCAD Civil 3D including the entrance road, apron, taxiway, and runway. This project includes a Justification Study for the proposed airport to enter the FAA's National Plan of Integrated Airport Systems (NPIAS), a feasibility study and preliminary engineering report for the proposed airport site airport master plan update; website development, community engagement and stakeholder engagement meetings; environmental analysis and permitting; architectural project visioning and conceptual design (including 3D renderings and fly throughs of the recommended airport concept); architectural preliminary building facilities design; engineering airport development and design; and Benefit-Cost Analysis (BCA). It is anticipated that the airport will be constructed and open within the next five years.

Hangar D, Sebastian Municipal Airport (X26) – Sebastian, FL | Mr. Jafarian is serving as a Project Manager for this design-build project that includes a total building footprint of 11,310 square feet, which can accommodate three King Air 200 or three Pilatus aircraft segregated with an interior wall or fenced partitions. The three storage hangars are 65 feet by 58 feet with 60-foot wide bi-fold hangar doors. The project also includes a 3,000-square-foot office space compatible for future FBO or Airport Business Tenant; 2,000 square feet of office space for local businesses; and two parking lots. The project includes site pavements for apron, taxilanes, and parking, as well as stormwater management. ICE designed the site improvements necessary for the development and the permits. The building will be contractor selected, pre-engineered, and based on detailed specifications prepared by ICE with input from the Airport Director. The design includes taxilane modifications, parking, lighting, utilities, sidewalks, landscaping, irrigation, and drainage. A plan set will be developed for the building to illustrate exterior elevations, floor plans for office space, work areas, windows, doorways, and restrooms. Basic electrical requirements, a code review, and sprinkler system needs will also be detailed. Mr. Jafarian is responsible for the professional services associated with design, permitting, bidding, and construction administration.

Airport Pavement Strength Analysis and Report, Baton Rouge Metropolitan Airport – Baton Rouge, LA | As an Engineer, Mr. Jafarian was responsible for preparing PCN study report per FAA criteria for three runways and all taxiways and aprons within the airport. ICE prepared an Airport Pavement Strength (PCN) Report and

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

analysis for the City of Baton Rouge/Parish of East Baton Rouge on behalf of the Baton Rouge Metropolitan Airport. The scope of service included preliminary investigation and inventory, pavement inspection, data analysis and quality control, geotechnical engineering, and preparation of the final report.

Wando Welch Terminal Traffic Flow Improvements, Phase I – Charleston County, SC | Mr. Jafarian is serving as an Engineer and responsible for geometry design and grading the chassis yard and related site. This project consists of providing engineering services to increase traffic throughout the terminal and to help improve traffic safety. The design includes installation of an additional truck lane from the outbound processing Building 441 to the outbound security gate on Long Point Road, expansion of the outbound security gate, extension of the inbound truck queue lanes at Building 401, installation of a new parking lot at Building 442, parking lot modifications, a new driveway at Building 448, and a new paved driveway to Building 419. Conceptual designs for a new roundabout and queue road around the chassis yard and traffic analyses were also performed for three projected terminal growth scenarios: 1.8 Million Twenty-Foot Equivalent Units (TEUs), 2.5 Million TEUs, and 3.0 Million TEUs.

VHB Metropolitan Airport Systems Study – Mobile, AL | Mr. Jafarian served as a Project Engineer responsible for providing rough order of magnitude cost estimating services for this project that consisted of determining if it is cost effective to have commercial air services at Mobile Downtown Airport (BFM) and evaluated if changing the roles of the Mobile Regional Airport and the Mobile Downtown Airport will provide better air service options in the future. Careful consideration was made as to how a role change would affect economic development coupled with known major infrastructure projects on and around the airports. It was also determined if the potential future economic impacts and regional benefits of adding St. Elmo Ail-port under the ownership and operation of the Airport is beneficial to BFM.

Airport Landside and Terminal Parking Lot Improvements, St. Pete Clearwater International Airport – Clearwater, FL | Mr. Jafarian was an Aviation Engineer for the design assistance and phasing plans for the reconfiguration and realignment of the existing ¾ mile long entrance road and the reconfiguration and expansion of the existing parking lots at the Airport. As a subconsultant, ICE performed the preliminary entrance roadway/parking lots geometric design and layout, quality control reviews, and developed the overall construction sequencing plans for the project to ensure continuous vehicular access to the terminal and parking areas with safe routes for pedestrians from the parking lots to the terminal building during construction.

Taxiways "C", "D", and "E", Sebastian Municipal Airport – Sebastian, FL | Mr. Jafarian served as an Aviation Engineer responsible for designing several new parallel taxiways to enhance safety at this uncontrolled airport. The purpose was to limit the number of runway crossings, decrease the chances of an incursion, and provide a safer route for taxiing aircraft. A full-length parallel Taxiway "C" to Runway 5-23 on the north side was constructed with a partial parallel (Taxiway "D") on the south side. The project also included Taxiway "E," a partial parallel taxiway to Runway 10-28 along the south side to move the main General Aviation traffic to the runways. Mr. Jafarian designed all work in accordance with the 13A Advisory Circular geometry requirements, and he assisted with stormwater designs which were performed to minimize ponds by sheet flowing runoff for treatment through the Water Management District. Mr. Jafarian performed airfield signage design, pavement design, pavement marking design, and prepared a Construction Safety and Phasing Plan (CSPP). He was also responsible for performing geometric design, FAA coordination, setting alignments, plan production, bidding services, construction administration, and submittal reviews.

T-Hangar Replacement, Sarasota Bradenton International Airport – Sarasota, FL | Mr. Jafarian served as a Project Engineer for design, construction plans, and construction phase services for the replacement of existing portable hangar buildings J-4 and J-5. The clear door width for the set of buildings was 41.5' x 12'. Each building is a standard (stacked) configuration consisting of 14 units (28 total). Also included in this project were two larger hangar buildings (J-7 and J-8) to the south of Taxiway "F". The clear door width for these buildings will be wider than J-4 and J-5 at 47.5' x 14'. Special, larger end units were designed on each of the two buildings with a clear door width of 51' x 16'. At this width, J-7 can accommodate 12 units and J-8 can accommodate 15, both with a nested configuration. Taxilane and drainage infrastructure were already in place through a past project designed by ICE staff. Site work consisted of the removal of the asphalt pads under the Port-a-Port buildings, new drainage

pipes, and the relocation of the taxilanes to line up with the new doors. On the building, ridge vents were provided for air circulation. Exterior building mounted LED lights were provided for taxilane illumination. Door types were bifold type. Building manufacturer was Erect-a-Tube.

DFW Pavement Condition Index Study – Dallas Fort Worth, TX | Mr. Jafarian served as a Civil Engineer responsible for preparing PCI, SCI, and FOD exhibits, evaluation and quality control of inserted data into MicoPaver, and comparison to field inspections using GIS.

Runway 11-29 Safety Area Improvements, Merritt Island Airport – Brevard County, FL | Mr. Jafarian was the Civil Engineer responsible for preparing air space study checklist drawings and details.

Runway Exit Connector Taxiway "J", Sarasota Bradenton International Airport – Sarasota, FL | As a Civil Associate, Mr. Jafarian assisted with the design of a 6,500-square yard asphalt paved ADG III runway exit connector taxiway between the main air carrier Runway 14-32 and parallel Taxiway "C". Stormwater design, permitting, and airfield lighting and guidance signage were also included in the project. Construction administration services and part-time inspection services were also provided during construction.

Taxiway "G", Sarasota Bradenton International Airport – Sarasota, FL | Mr. Jafarian assisted with providing engineering services for the design and preparation of final construction documents for the construction of the proposed 1,200 feet Taxiway "G", which will connect Taxiway "H" to Taxiway "C" at the intersection of Taxiway "C-2". The project required modifications to Taxiways "H" and "C" by providing the required pavement tapers at the intersections meeting the requirements for a Group III aircraft. Design of this project consisted of the geometric design, pavement design, drainage design, and the preparation of construction plans in accordance with the FAA Standards and Design Criteria.

Security System Fiber Optic Duct and Phone Line Phase 1, Sarasota Bradenton International Airport – Sarasota, FL | Mr. Jafarian assisted with designing a fiber optic line and duct bank running from the terminal building to the Aircraft Rescue and Firefighting (ARFF) facility for connecting the airport communications center in the terminal building with the ARFF. The duct had to go under the terminal apron and across Runway 4-22 and parallel taxiways via directional bore installation.

Taxiway "F" Rehabilitation, Sarasota Bradenton International Airport – Sarasota, FL | Mr. Jafarian provided professional services associated with design and construction of the Taxiway F Rehabilitation project which consisted of milling and overlaying the taxiway with a nominal two-inch bituminous surface course and minor new pavement construction to enlarge turning radii at an intersecting taxilane. This project included a site investigation and the completed final design consisted of pavement, pavement rehabilitation, and construction plans. He coordinated with the client, Federal Aviation Administration (FAA), Florida Department of Transportation (FDOT), and geotechnical and survey subconsultants while also developing and distributing bidding documents and providing construction administration services.

Airfield Perimeter Service Road Relocation and Widening Phases 1, 2, and 3, Sarasota Bradenton International Airport – Sarasota, FL | Mr. Jafarian assisted with design and construction administration for the widening of approximately 1.7 miles of an existing airfield perimeter service road from one to two lanes and construction of approximately 2.3 miles of new two lane roadway undertaken to allow two-way traffic and open up the midfield and other areas of the airport to public accessible development. This project included drainage design and SWFWMD and Sarasota County permitting. Due to funding limitations, the project was split into three phases.

Master Lighting Plan, Sarasota Bradenton International Airport – Sarasota, FL | Mr. Jafarian was responsible for providing a comprehensive master lighting and inventory plan and details for the whole airport.

Runway 14-32 Runway Safety Area Improvements, Palm Beach International Airport – Palm Beach, FL | Mr. Jafarian assisted with the design of safety area improvements consisting of the installation of an Engineered Materials Arresting System (EMAS). Coordination with ESCO (EMAS manufacturer) and the FAA was required in order to develop the proper design. Key aspects of the project included relocation of the existing crash gate to maintain ARFF access to the runway without impacting the arrestor bed and maintaining taxiway access across

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

the end of the runway during construction. Design started in March 2010 and was completed in June 2010. Construction began in May 2011 and was completed by July 2011.

Taxiway "L" Extension, Palm Beach International Airport – Palm Beach, FL | As a Civil Associate, Mr. Jafarian was responsible the design of the Extension of Taxiway L. This taxiway was designed for ADG III with accommodations for expansion to ADG IV. It provided Runway 10L-28R with a full length parallel taxiway on both sides and a parallel taxiway to the future extension of Runway 10R-28L. This project included relocation of exiting Runway 28R Glide Slope and FAA control cabling along with the design of stormwater management facilities meeting SFWMD requirements for water quantity and quality discharges. Services also included assisting the PBCDOA with construction administration.

Wetland Wildlife Hazard Abatement, Palm Beach County Department of Airports – Palm Beach Gardens, FL | Mr. Jafarian was the Civil Engineer responsible for construction plans and analysis of existing and anticipated future stormwater conditions of the airport in order to meet South Florida Water Management District regulations including dewatering and pump sizing calculation using Ponds Program. He determined the limits of wetland and surface waters that are located near the runways at North Palm Beach County General Aviation Airport and performed a preliminary wildlife hazard assessment. The wetland and surface waters attract birds and other wildlife that contribute to wildlife hazard issues and increase the potential for bird strikes. Mr. Jafarian met with regulatory agencies to determine the feasibility of filling and mitigating for impacts to wetlands, prepared the environmental resource permit application, and provided mitigation options to implement the wildlife hazard abatement measure of filling the wetlands. He obtained state and federal permits for the client, and mitigation credits were purchased from a public restoration area to compensate for impacts to the wetlands.

Air Cargo Ramp Expansion, Palm Beach International Airport – Palm Beach, FL | Mr. Jafarian assisted with the drainage report, ERP application, Engineer's Report, and construction drawings.

South Taxilane Rehabilitation, Palm Beach International Airport – Palm Beach, FL | As a Civil Associate, Mr. Jafarian was responsible for the pond design and flood plain compensation for a 1,600-foot Group III Taxilane. The existing taxilane was removed, strengthened, and reconfigured.

Airfield Markings Improvements, Palm Beach International Airport and North County Airport – Palm Beach County, FL | Mr. Jafarian assisted with the design of updated threshold markings, new enhanced centerline markings, and runway hold position lines. He also re-marked runway for non-precision approach.

Stormwater Pollution Prevention Plan (SWPPP), North County General Aviation Airport – Palm Beach County, FL | As a Civil Associate, Mr. Jafarian assisted with creating a Stormwater Pollution Prevention Plan for this airport. This included a detailed site map and an airport drainage map.

Stormwater Pollution Prevention Plan (SWPPP), Glades Airport – Palm Beach County, FL | Mr. Jafarian assisted with creating a Stormwater Pollution Prevention Plan for this airport which included a detailed site map and an airport drainage map.

Stormwater Pollution Prevention Plan (SWPPP), County Park Airport – Palm Beach County, FL | As a Civil Associate, Mr. Jafarian assisted with creating a Stormwater Pollution Prevention Plan for this airport. This included a detailed site map and an airport drainage map.

Roadway and Parking Lot Improvements Phase 2, St. Pete-Clearwater International Airport – Pinellas County, FL | Mr. Jafarian assisted with the design of miscellaneous airport roadway rehabilitation, parking lot expansion work, and new airport landside terminal signage. Key elements of the project included overlay of the terminal curbfront, Airport Parkway, conversion of an employee to a commercial curbfront for taxis and shuttle vans, construction of a new employee parking lot for UPS, and replacement of all the landside terminal area signage which included two new overhead signs with LED signs to be integrated with the airport's flight information display system.

One-Way Couplet Traffic Analysis – City of St. Pete Beach, FL | Mr. Jafarian assisted with providing traffic analysis of a "one-way-couplet" concept for two streets in the city's downtown business district to assist in

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (Sent.)

encouraging economic growth. He conducted a traffic analysis using Synchro software to determine the impacts of such an operational change for the 2015 build year and for the year 2035. The study also considered emergency evacuation routes, Multimodal Transportation District (MMTD) issues, right-of-way identification of all roadways, corner truck turning radii issues, business operating names on aerial maps, existing bicycle lanes and pedestrian crossings, current and future roadway ownership issues, on-street parking opportunities, and public outreach.

Blind Pass Road, City of St. Pete Beach Public Services Department – Florida | As a Civil Engineer, Mr. Jafarian was responsible for geometric design which included considering the amount of driveway connections along with stormwater and utility adjustment using MicroStation and GEOPAK.

Plumb Elementary Schools, Pinellas County Schools, FL | Mr. Jafarian assisted with the stormwater calculations and geometric design for this project which included three parking lots and a stormwater management system. He reviewed as-built survey plans to provide record drawings for the owner.

Taxiway "A1" and South Apron Improvements, Albert Whitted Airport – St. Petersburg, FL | Mr. Jafarian worked on engineering services including design and preparation of final construction documents for construction of the South Apron and Taxiway "A1" and the installation of a run-up area on Taxiway "A1". The project consisted of demolition of existing Taxiway "A1", revisions to the airfield lighting and signage systems, a new ramp, aircraft parking position markings and tie-downs, airfield markings, drainage system design, and permitting. He provided pre-design services including coordination of geotechnical and survey subconsultants, development of a digital terrain model, and preparation of preliminary plans. Mr. Jafarian also provided final design services consisting of geometric design, pavement design, drainage design, and construction plans.

Taxiway "D" Extension, Albert Whitted Airport – City of St. Petersburg, FL | As a Civil Associate, Mr. Jafarian worked on the drainage report and construction drawings which involved modifying an existing permit.

Air Cargo Facility, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | Mr. Jafarian, serving as an Aviation Engineer, assisted with designing a partial parallel taxiway to the main runway with two exit taxiways and a 130,000 square yard aircraft apron with concrete hardstands. The facility was designed for ADG IV aircraft and included a stormwater retention pond requiring SWFWMD permitting, a gopher tortoise survey, and relocation permitting. Design of the project began in February 2008 and was completed in January 2010. Construction is on hold pending the sponsor acquiring funding.

NE Corporate Center Utility Design, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | Mr. Jafarian was responsible for geometric design of sanitary sewer pipe networks including their easement and lift station and related quantities and cost estimate.

Runway 9-27 PAPI Replacement, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | As a Civil Associate, Mr. Jafarian was responsible for preparing construction plans for replacement of the PAPI system.

18L-36R Runway Rehabilitation, Jacksonville Aviation Authority – Cecil Field, FL | Mr. Jafarian was responsible for the design of the asphalt rehabilitation and concrete joint repair of Cecil Field's 12,500' runway. Approximately 7,000' feet of the center portion of the runway is bituminous asphalt with roughly 5,000' on the south end and 300' on the north end consisting of Portland Cement Concrete (PCC). His responsibilities Included milling and resurfacing plans, detailed phasing plans, marking plans, and rehabilitation of all the connector taxiways "A2", "A3", and "B". Drainage design included the evaluation of the infield drainage system to replace pipes with lower maintenance ditches.

9R-27L Runway Rehabilitation, Jacksonville Aviation Authority – Cecil Field, FL | As a Civil Associate, Mr. Jafarian was responsible for the design of the concrete and asphalt rehabilitation of Cecil Field's 8,000' runway, which included milling and resurfacing plans, detailed phasing plans, marking plans, concrete repair, and rehabilitation of all the connector taxiways. He was also responsible for videotaping the drainage pipes and identified pipe repair areas under runway and FAA and tower coordination.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

Hamed Jafarian, PE | Airside Design

Terminal Access Roadway Rehabilitation, Jacksonville Aviation Authority, FL | Mr. Jafarian was responsible for preparing construction drawings.

Employee Parking Lot Entrance Road, Jacksonville Aviation Authority, FL | As a Civil Associate, Mr. Jafarian was responsible for preparing construction drawing.

Design of New Maintenance Hangar C and Warehouse – Titusville-Cocoa Airport Authority, FL | As a Civil Engineer, Mr. Jafarian was responsible for preparing construction drawings, engineer's report, and a cost estimate.

Eastside Storage Hangar, Space Coast Regional Airport – Titusville-Cocoa Airport Authority, FL | Mr. Jafarian was responsible for preparing construction drawings for Titusville-Cocoa Airport.

West Apron Rehabilitation, Space Coast Regional Airport – City of Titusville, FL | Mr. Jafarian assisted with preparing construction drawings for the west apron rehabilitation at the Space Coast Regional Airport

Airport Drainage Design and Permit Applications – St. Lucie County International Airport, FL | Mr. Jafarian's responsibilities included providing drainage plans, calculations, and assisting with permit applications for the proposed Taxiway "C" improvements. The scope of the project included widening Taxiway "C" from Taxiway "A" to Taxiway "E", including Connector Taxiways "E" and "C8". He completed two primary tasks which were drainage design and permitting of the Taxiway "C" improvements and design and permitting of the modifications to the stormwater ponds to accommodate the Taxiway "C" improvements.

St. Augustine Spoil Island – St. Augustine-St. Johns Airport Authority, FL | As a Civil Associate, Mr. Jafarian was responsible for putting together construction drawings for Spoil Island. He coordinated with Passero and Birkitt on the construction drawings and kept files updated on the Passero website. Mr. Jafarian also kept the client satisfied by answering questions, updating plans, and staying on schedule.

Canal Relocation, Northeast Florida Regional Airport at St. Augustine – St. Johns County, FL | Mr. Jafarian provided plans for canal relocation including an erosion control plan. He also provided an access route to the canal relocation and a phasing plan for sequencing of the project.

Rental Car Facilities – Pensacola Regional Airport, FL | Mr. Jafarian helped provide the civil design of a 21-acre site involving the site design for rental car fuel islands, maintenance and office buildings, and automated wash buildings. His design/oversight responsibilities included water, sewer, grading, drainage, pavement, roadway design, parking, site lighting, security, landscaping, cost estimating, schedules, subcontractors, and plan production.

HCAA Checked Baggage Upgrade, Tampa International Airport – Hillsborough County Aviation Authority, FL | As a Civil Engineer, Mr. Jafarian was responsible for preparing Architectural drawings for upgrading HCAA's baggage claim facility.

IBC Hangar, Miami International Airport – Miami Dade County, FL | Mr. Jafarian provided preliminary cost estimate for building a new hangar Apron and civil site work.

SR 45/9 (From US 41 at Rattlesnake Hammock Road To SR 45 at Immokalee Road) – FDOT District One, Collier County, FL | As a Civil Engineer, Mr. Jafarian worked on this design build project which consisted of traffic signal installations and MOT plan.

SR 43 (US 301 at 19th Avenue NE) – FDOT District Seven, Hillsborough County, FL | Mr. Jafarian worked on this DBPB2 project which included a variety of tasks consisting of pavement markings, utility adjustments, traffic signal installations, addition and improvements of sidewalks, ADA upgrades, traffic control plan, engineer's estimates, and quantity computation.

SR 45 (US 41 / South Tamiami Trail at Riverview) – FDOT District Seven, Hillsborough County, FL | Mr. Jafarian worked on this DBPB2 project and was responsible for a variety of tasks including pavement markings, utility adjustments, traffic signal installations, addition and improvements of sidewalks, ADA upgrades, traffic control plan, engineer's estimates, and quantity computation.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (Count.)

Hamed Jafarian, PE | Airside Design

SR 580 (Busch Blvd. At North 12th Street) – FDOT District Seven, Hillsborough County, FL | Mr. Jafarian, a Civil Engineer, worked on this DBPB2 project which included tasks such as pavement markings, traffic signal installations, mast ARM assemblies, Guide sign, traffic control plan, engineer's estimates, and quantity computation.

US 49 – MDOT District Five, Rankin County, MS | Mr. Jafarian worked on this project which included a variety of tasks such as traffic signal installations, mast ARM assemblies, traffic control plan, ITS design (CCTV, RDS), engineer's estimates, and quantity computation.

Pavement Restoration and Underground Utility Design, 105th Avenue to 127th Avenue – City of Treasure Island, FL | As the Lead Civil Engineer and Project Coordinator, Mr. Jafarian was responsible for handling and coordinating the project with the City of Treasure Island, Duke Energy, and FDOT RRR Project along with providing construction drawings and intersection improvements, easement acquisitions, and necessary permits for the project. He also reviewed shop drawings, construction inspection and punch list per city request, and addressed construction issues in a timely manner.

Curbside Improvement Design, Sarasota Bradenton International Airport and Sarasota Manatee Airport Authority – Sarasota, FL | Mr. Jafarian was responsible for coordinating the preparation of alternative plans for the reconfiguration and rehabilitation of the roadway in front of the airport terminal. He also prepared preliminary cost estimates for each of the alternatives to enable the client to make an informed decision on the most operationally efficient and cost-effective alternative. Mr. Jafarian was responsible for civil design including geometry, pavement marking, and drainage.

CCTV Camera, City of Tampa Transportation Department – Tampa, FL | As a Civil Associate, Mr. Jafarian was responsible for preparing location and mounting detail plans for installation of more than 60 new CCTV cameras in downtown Tampa.

Pavement Design for Parking Lots at Treasure Island Florida – City of Treasure Island, FL | Mr. Jafarian was responsible for creating the typical sections and specifications for the parking lots.

Bike Trail Design, 108th Avenue and Treasure Island Causeway Intersection Improvements and Milling and Resurfacing of Local Roads – City of Treasure Island, FL | As a Civil Associate, Mr. Jafarian was responsible for providing geometric design of the project, in addition assisted on getting a permit exemption through SWFWMD.

Storm Drain Repair at Leo Kidd Avenue – City of Port Richey, FL | As a Civil Associate, Mr. Jafarian provided plans for storm drain repair at Leo Kidd Avenue and assisted on the stormwater calculations.

MARAM ALDADA, PE

Airside Design

EDUCATION:
MS, Civil Engineering, University of Central Florida (2013)

BS, Civil Engineering, Applied Science University, Amman, Jordan (2011)

EXPERIENCE:
Career: 2009 – Present
ICE: 2021 – Present

REGISTRATION:
Professional Engineer: FL #84363

Mr. Aldada serves as a Project Manager for ICE Tampa as part of the Aviation Department. He is a licensed professional airfield engineer with nearly 10 years of experience dedicated to designing airfield engineering projects. His airfield project experience ranges from pavement management to facilities rehabilitation and reconstruction. Mr. Aldada's experience includes knowledge of FAA and FDOT design criteria and regulations as they relate to construction in and around airports. He is well versed in various types of software, including AutoCAD, Autodesk Civil 3D, Pavement Design Software: FAARFIELD and PCASE, AviPlane, AutoTurn, COMFAA, Primavera, MicroPaver, and MicroInspector.

EXPERIENCE:

Taxiway "J" Rehabilitation, Orlando International Airport – Orlando, FL | Mr. Aldada served as Project Engineer on this project that included the rehabilitation of the midfield portion of Taxiway "J", which includes two taxiway bridges. He was responsible for completing the civil engineering design, which included geometric layout, pavement design, profile design, grading, drainage improvement, and marking layout. In addition, Mr. Aldada was part of the construction administration team where his duties included shop drawings review, weekly inspection, coordination between involved parties and pay application review/approval. The work consisted of improving existing pavement section(s) and geometry for taxiway-taxiway and apron-taxiway intersections within the limits of the project to comply with current FAA standards of Advisory Circular 150/5300-13A, Change 1. In addition, electrical improvements included replacing centerline lighting with LED fixtures, replacement of electrical manholes with junction can plazas, and new LED edge lights and LED signage as well as new circuiting and a new grounding grid.

Airport Pavement Management System (APMS) Update, Luis Munoz Marin International Airport – San Juan, Puerto Rico | This APMS report provides an updated baseline validation of the pavements and specific guidance toward necessary maintenance activities as they pertain to the airfield systems at OIA. A key component of an APMS Update is to perform a records review to identify all rehabilitation/construction projects completed since the previous study (2016) and to update the network definition map accordingly. Another vital element of the APMS Update is a physical pavement inspection, which is done in accordance with ASTM D5340 "Standard Test Method for Airport Pavement Condition Index Surveys." All airside pavement sections are re-surveyed and assessed using the Pavement Condition Index (PCI) procedure – the industry standard in aviation for visually assessing the condition of pavements. During a PCI inspection, engineers and technicians identify signs of deterioration on the surface of the pavement called distresses. The type, severity, and amount of distresses present in a pavement are quantified during the pavement survey. The results of the survey are then entered in a computer pavement management database (MicroPAVER) and used to develop a composite index (PCI number). The individual distress information, such as cracking or rutting, provides insight into what may be causing the pavement to deteriorate. These factors can then be used to select the appropriate maintenance or rehabilitation action to correct the problem. Finally, the findings from the various field evaluations and data analysis activities are collectively considered in the development of a 10-Year Capital Improvement Program (CIP) for SJU. In addition, potentially large projects to be completed within the long-term (20-Year outlook) are identified.

Runway 18R-36L Rehabilitation, Orlando International Airport – Orlando, FL | Mr. Aldada served as Project Engineer on this project that involved providing construction support on the repair and resealing of the existing concrete pavement joints, mostly in the keel section of the runway. He was responsible for completing the civil engineering design, which included geometric design, asphalt/PCC pavement design, PCC pavement

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

distress mapping/repair, profile design, grading, drainage improvement, and marking layout. In addition, Mr. Aldada was part of the construction administration team; his duties included shop drawings review, weekly inspection, coordination between involved parties, and pay application review/approval. The project also consisted of repair or replacement of any cracked slabs; reconstruction using new concrete pavement for the north threshold of Runway 18R; resurfacing existing asphalt pavement for the outer runway sections; resurfacing or rejuvenating existing asphalt pavement for the runway shoulders and blast pads; improvements of existing pavement section and geometry for various runway-taxiway intersections to comply with current FAA standards; and improvement of existing runway lighting, marking and signage systems to comply with current FAA standards.

Taxiway "C" South End Rehabilitation, Orlando International Airport – Orlando, FL | This project consisted of the rehabilitation of the existing pavement for the south end of Taxiway C (located between Taxiway F and Taxiway B10), Taxiway B9 and related areas in order to eliminate sections of distressed pavement and maintain the aircraft taxiing capacity. The work also included milling of existing pavement, removing deteriorated pavement, bituminous pavement overlay and associated markings, lighting and signage to restore and maintain the airfield pavement serviceability areas. As Project Engineer, Mr. Aldada was responsible for completing the civil engineering design, which included geometric layout, pavement design, and marking layout. In addition, Mr. Aldada was part of the construction administration team; his duties included shop drawings review, weekly inspection, and attending weekly coordination meetings. The scope of work consisted of a study, design, bidding, permitting, construction administration and other related services necessary to successfully complete the project. Specific tasks included civil and airfield design; topographic surveying; geotechnical exploration, evaluation and documentation of existing conditions; verification of as-built conditions, field location and verification of existing above and underground utilities; cost estimating and scheduling; technical studies; resident engineering; and all other related services including coordination with the Authority, other consultants, the City of Orlando, and all agencies having jurisdiction over the project.

Apron Rehabilitation, Phase 2, Greenville-Spartanburg International Airport – Greer, SC | Mr. Aldada served as Project Engineer on this project that included the second phase for the rehabilitation of the air carrier terminal apron concrete pavement and incorporated an area from the north side of the "garden area" to the north end of the terminal apron, encompassing the aircraft parking and maneuvering areas for Gates B1 through B4. In this role, he was in charge of completing the civil engineering design, which included geometric layout, pavement design, drainage improvement, and marking layout. The project limits extended from the terminal building westward to the apron edge/taxilane edge interface, approximately 450 feet, but did not include the taxilane, and was approximately 720 feet long. Both full strength aircraft pavement and reduced strength GSE pavement (ground support equipment) were addressed and included in this project. The overall goal of this project was to construct the most durable and cost-effective apron rehabilitation possible while minimizing impacts and disruptions to GSP tenant and customer operations. The scope included performing design, bid, and construction phase services.

RUSS HOLLIDAY, PE
SENIOR PROJECT ENGINEER

Mr. Holliday, PE, performs project management and design utilizing AutoCAD, Civil 3D, and other industry standard design software packages. His work experience consists of engineering and project management for airport projects, including all phases of a project from topographical survey reduction, geometry, utility coordination, potable water and sanitary sewer design, drainage design, and pavement design to project cost estimation, bidding, DBE coordination services, construction administration, resident project representative, and project close out. He has extensive experience working with State Water Management Districts, the Florida Department of Transportation and the Federal Aviation Administration personnel.

TAXIWAY F EXTENSION AND CONSTRUCTION OF TAXIWAY E
Winter Haven Regional Airport, Winter Haven, FL | Project Engineer
This $4.1M project consisted of extending Taxiway F to the Runway 5 and 23 ends, new construction of Taxiway E from the Runway 11 end to the intersection of Runway 5-23, and new blast pads on the Runway 5 and 23 ends. The electrical components of the project included new LED taxiway edge lights, cable and conduit, and signage. The project also included drainage improvements and markings.

TAXIWAY E EXTENSION (24 END)
Kissimmee Gateway Airport, Kissimmee, FL | Project Manager
This $3.8M project consisted of the construction of Taxiway Echo pavement and run-up area, adjacent compass rose, edge lighting, grading, marking, and relocation of navigational aids. The project also included a medium intensity taxiway lighting system, upgrading the system's constant current regulator, vault work, cable and duct markers, junction bases, ground rods, and other electrical items necessary to meet FAA standards. Work included removal of one or more existing hangar buildings and foundations, associated apron pavements, underground utilities, tanks, and other facilities which currently obstruct the proposed alignment and construction of the improvements.

RUNWAY 5-23 REHABILITATION
Tampa Executive Airport, Tampa, FL | Senior Project Engineer
This $5.9M project included a pavement condition evaluation, rehabilitation alternatives analysis, and design of an asphalt rehabilitation for Runway 5-23 and the associated connector taxiways. To address changes in the FAA geometric requirements, the taxiway connectors were reconstructed to modify the fillet geometry between Runway 5-23 and Taxiway E. In addition, all of the runway and taxiway edge lighting, REIL's, PAPI's, and MALSR were replaced and the electrical vault upgraded to accommodate the airfield electrical improvements.

RUNWAY 6-24 REHABILITATION
Kissimmee Gateway Airport, Kissimmee, FL | Project Manager
This $2.8M project consisted of pavement and geometry analysis for rehabilitation of Runway 6-24 (5,000 ft x 150 ft); design provision for Runway 6 standard blast pad; airfield lighting, vault, and navigational aid analysis and design to consider future Runway 6 extension and LED versus Quartz/Halogen technology; temporary and permanent runway marking design; stormwater design and permit application; comprehensive land survey and geotechnical testing programs; comprehensive project and cost administration phase services; and FAA grant pre-application services.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pgs)

Russ Holliday, PE | Airside Design

REHABILITATE, MARK AND LIGHT RUNWAY 18-36

Wauchula Municipal Airport, Wauchula, FL | Project Manager

This $2.9M project included pavement, vertical, and horizontal geometry analysis and design for the Rehabilitation of Runway 18-36 (4000 ft x 75 ft) including a minimum of 50 ft tie-ins at crossing taxiways for grade compliance; design provision for standard Blast Pads on both ends, with associated drainage; Medium Intensity Runway Light (MIRL) rehabilitation, REIL units, Airfield Lighting Vault study and necessary modifications, and Navigational Aids (PAPI-4) analysis and design to consider LED technology; design and coordination with the local power company to mark and light existing power poles and power lines; temporary and permanent runway marking design; storm-water and environmental review design and permit application; obstruction clearing in both approaches; comprehensive project and cost administration services; FAA Grant Application services; and DBE Goal and Methodology Update services.

CONSTRUCT, MARK, AND LIGHT TAXIWAY G

Ormond Beach Municipal Airport, Ormond Beach, FL | Project Manager

This $3.9M project included design of a full-length taxiway Golf parallel to existing Runway 17-35, run-up areas at each taxiway end, full taxiway marking per the runway classification to FAA specifications, new base-mounted LED taxiway lights per FAA standards and criteria, new home-run airfield lighting circuits back to a new electrical vault building, and new Runway End Identifier Light units on Runway 17 and 35 ends. The new electrical vault included a 13 ft x 30 ft pre-cast concrete wall building, site constructed, with new Airport Lighting Control System (ALCS), regulators, conductors, main and auxiliary panels, main disconnects, and HVAC System. A new diesel-powered backup generator with support pad and appurtenances was also constructed.

T-HANGAR TAXIWAY/TAXILANE PHASE 2

Wauchula Municipal Airport, Wauchula, FL | Project Manager

This $273K project consisted of the construction of a new aircraft taxiway connection to Taxiway A, and associated taxilanes leading to future T-Hangars. The construction of the taxiway and taxilane was funded at 100% by the FAA. The project had two main components which were to construct approximately 300 ft of main access taxiway and 600 ft of taxilane, comprising two sets of taxilanes, each approximately 300 ft long. Also included in the project were painted surface markings, turfing around the perimeter of new construction, and associated drainage to convey runoff via pipes and swales to the wet detention pond. The purpose of this construction was to provide aircraft access and staging for proposed T-Hangars.

TAXIWAYS N AND A IMPROVEMENTS

Daytona Beach International Airport, Daytona Beach, FL | Senior Project Engineer

The objectives of this $35M project were to extend the useful life of the taxiway pavements, to update the pavement geometry and to enhance the safety of air operations at the Airport. The project included the rehabilitation of the pavement for the length of Taxiway N from the Western edge (Runway 7L) to the Eastern limit (Runway 25R) including the connector taxiways to the limits of Runway 7L-25R. Taxiway A was rehabilitated for approximately 1,000 ft and was realigned as new construction for approximately 800 ft. Taxiways P4 and P5 were removed and replaced to the location approved by the Airport and FAA. Lighting, marking and signage was replaced/upgraded for each of the taxiways. Drainage improvements were made throughout the limits of the project.

TAXIWAYS B, C, AND L REHABILITATION

Orlando Sanford International Airport, Sanford, FL | Senior Project Engineer

The objectives of this $35M project were to extend the useful life of the taxiway pavements, to update the pavement This $10.8M project includes rehabilitation of a large portion of the taxiway system west of Taxiway R, with focus on Taxiway B. These improvements consist of milling the surface pavement to a depth that will remove a large percentage of the surface cracks, an overlay to bring the asphalt up to grade, and the construction of new paved shoulders. Additional elements of work include new asphalt shoulders, new pavement marking and new taxiway edge lights to reflect the new geometry and grading and drainage improvements as required.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pgs)

Amr Mansour, EI

Airside Design, Technical Production

EDUCATION:
BS, Civil Engineering, University of South Florida (2016)

EXPERIENCE:
Career: 2016 – Present
ICE: 2017 – Present

REGISTRATION:
Engineering-In-Training: FL #1100020644

Mr. Mansour is currently serving as a Roadway Designer, working primarily with aviation projects involving the design of runways, taxiways, aprons, hangars, pavement design and marking, and other airport infrastructure. Since joining ICE, Mr. Mansour has been gaining valuable experience working under the supervision of the professional engineers in our Tampa office for our Airport clients throughout the state of Florida. His experience includes CAD production and assisting with construction plans using FAA design criteria and advisory circulars. In addition, Mr. Mansour also assists with preparation of construction permits, project specifications, and grants related applications. Also, under the supervision of our planning department, Mr. Mansour assists with the production of aviation planning projects including master plans and airport layout plans.

EXPERIENCE:

Perimeter Fence, Ocala International Airport – Ocala, FL | Mr. Mansour served as a Design Engineer and took responsibility of the project design and prepared the bid documents under the supervision of the Project Manager. This project was part of the Capital Improvement Plan (CIP) for the City of Ocala and the Ocala International Airport. The purpose of this project was to eliminate digging under the existing fence by coyotes, gopher tortoises, and other wildlife by constructing a wildlife skirt. A 5' fence skirt was buried a minimum of 36" into the ground under the existing fence fabric and followed the 33,000' (roughly six miles) of existing fence. All swing gates were replaced with sliding gates, and a 6" concrete apron was poured under the gate to limit gaps. ICE provided the design, bidding, and construction phase services for this project. In addition, FDOT and FAA grant packages, grant assurances, and closeouts were provided by ICE.

West Apron Expansion, Destin-Fort Walton Beach Airport – Okaloosa County, FL | Mr. Mansour served as a designer and assisted with the CAD production and provided design assistance. This project consisted of enlarging the West Apron to create five additional commercial aircraft ground loading apron spaces for A319/320 and other narrow body aircraft. The spaces also serve as remain overnight (RON) space for aircraft to base for early flights when all of the existing spaces with jet bridges are full or otherwise under exclusive lease by another airline. ICE worked with airport staff and the FAA to finalize apron dimensions and develop detailed site development plans including airfield pavement structural design, geometrics, markings, lighting requirements, and other aircraft support infrastructure required (tie-downs, ground points, electrical or other infrastructure for ground power units, etc.).

Taxiway "N" Reconstruction – Daytona Beach International Airport, FL | This project is currently under design and consists of the total reconstruction of the existing 2.5-mile-long Taxiway "N" (and Taxiway "A") with reconfigured edge of pavement geometry, paved shoulders widened from 25' to 30' in width, installation of a new stormwater drainage system, and the installation of new LED taxiway edge lights at the Daytona Beach International Airport. ICE is serving as a subconsultant and is performing the taxiway horizontal geometric design and layout and developing the overall construction safety and phasing plans for the project. Mr. Mansour is serving as a Design Engineer and is assisting with the CAD production for the Project.

Apron Expansion, Punta Gorda Airport – Punta Gorda, FL | Mr. Mansour served as a Design Engineer providing design assistance for this project which included the expansion of the aircraft parking aprons north of the existing apron. The Punta Gorda Airport is experiencing rapid growth with Allegiant Air. The project scope included professional engineering services to expand the aircraft parking aprons north of the existing apron to add three additional aircraft parking spaces for the Airbus A319/A320/A321 and 737-800 aircraft. Originally designed with a blast fence for power-in power-out operations, only two positions were originally obtainable, so the airport directed ICE to revise for straight in operation with tug push back. The apron consists of a combination of asphalt and concrete in varying thicknesses for taxiway (4" asphalt/14" limerock), aircraft parking (15"

concrete 6" recycled conc. base), and ground service equipment (concrete 6" recycled conc. base). Drainage was accomplished by the use of trench drains outfalling to a pipe network and then to a retention pond. These positions were remote from the terminal, requiring a covered walkway to all three positions.

Taxiway "C", "D", and "E", Sebastian Municipal Airport – Sebastian, FL | Mr. Mansour served as a Design Engineer and assisted with the CAD production for the project which included several new parallel taxiways to enhance safety at this uncontrolled airport. Several new taxiways were designed to limit the number of runway crossings, decrease the chances of an incursion, and provide a safer route for taxiing aircraft. A full-length parallel Taxiway "C" to Runway 5-23 on the north side was constructed with a partial parallel (Taxiway "D") on the south side. Included was Taxiway "E", a partial parallel taxiway to Runway 10-28 along the south side to move the main GA traffic to the runways. All work was designed in accordance with the 13A Advisory Circular geometry requirements. Stormwater design was performed to minimize ponds by sheet flowing runoff for treatment 62-330.449 F.A.C. and permits through the Water Management District. Airfield signage, pavement design, pavement marking, and a Construction Safety and Phasing Plan (CSPP) were prepared.

Acquisition and Installation of Passenger Loading Bridges, Lake Charles Regional Airport – Calcasieu Parish, LA | Mr. Mansour served as a Designer Engineer on this professional consulting services project that included design, bidding, construction support, and grant administration services. ICE reviewed and verified existing construction and equipment characteristics, assemble plans and specifications for the two new bridges located at Gates 1 and 4, and assist the Airport Authority with bidding. The bridge structure consisted of a ramped fixed tunnel, a rotating rotunda, telescoping bridge tunnel section, a cab with full controls for moving the bridge into position, vertical and horizontal drive system, Airport selected accessories, and provisions to mark or re-mark the apron for the new parking position.

Hugh Leatherman Terminal Design – Charleston County, SC | Mr. Mansour served as a Design Engineer and assisted with the CAD production for the proposed Hugh Leatherman Terminal. He was responsible for the design of stormwater systems, erosion control devices, and scour analysis of the proposed bridges onto the site. The SCDOT is under contract with the Port Access Road design build team to build the mainline bridge into the terminal as well as the relocated Tidewater Road bridge. The HLT project will tie in with the mainline bridge and continue the bridge section to the terminal entrance. The project will also tie in with the new Tidewater Road Bridge and continue until the alignment tie downs with the existing Tidewater Road near the west edge of the terminal site. Each of these bridges cross over Shipyard Creek at a large skew which is a tidally influenced waterbody and prone to storm surge events. Due to the skew and surge conditions a 2-dimensional model was created to determine velocity magnitude and direction at each of the proposed bents. Using the results from the model appropriate scour depths were calculated.

Shade Hangar, Sebastian Municipal Airport – Sebastian, FL | Mr. Mansour served as a Design Engineer and was responsible for the project design and prepared the bid documents under the supervision of the project manager. The City of Sebastian and the Sebastian Municipal Airport desired shade hangars for the west side of the airport. These hangars consist of column(s) support to a roof truss system which stretches and supports a type of polypropylene fabric covering. ICE provided performance specifications for a system meeting the airport's desire to be competitively bid. Site work included re-using much of the existing base material for the new pavement. An in-depth design for the grading, drainage, and permitting of the site was required, as well as obtaining water management permits. ICE was also responsible for administering the bidding process. The Airport desired a total of 14 shade hangars including 12 units for single engine type aircraft, and two larger units for twin engine aircraft.

T-Hangar Replacement, Sarasota Bradenton International Airport – Sarasota, FL | Mr. Mansour served as a Design Engineer and assisted with the CAD production for the replacement of several T-Hangar buildings, including J-4 and J-5 and new T-Hangar buildings J-7 and J-8. The clear door width for the set of buildings was 41.5' x 12'. Each building is a standard (stacked) configuration consisting of 14 units (28 total). Also included in this project were two larger hangar buildings (J-7 and J-8) to the south of Taxiway F. The clear door width for these buildings will be wider than J-4 and J-5 at 47.5' x 14'. Special, larger end units were designed on each of the two buildings with a clear door width of 51' x 16'. At this width, J-7 can accommodate 12 units and J-8 can

accommodate 15, both with a nested configuration. Site work consisted of the removal of the asphalt pads under the Port-a-Port buildings, new drainage pipes, and the relocation of the taxilanes to line up with the new doors. On the buildings, manufactured by Erect-a-Tube, ridge vents were provided for air circulation, exterior building mounted LED lights were provided for taxilane illumination, and door types were bifold type.

Wando Welch Terminal Traffic Flow Improvements, Phase 2 – Mt. Pleasant, SC | Mr. Mansour served as the Design Engineer on this project that included an access improvement, a large expansion to the existing port chassis yard, a 20-acre pavement addition, and a new west access road to accommodate additional queue length of trucks. A new checkpoint and vehicle inspection station was designed at this new location. The existing concrete pavement will be rehabilitated due to its age and for uniformity with the expansion. The rehabilitation consisted of breaking and seating the concrete to such a gradation where it could be overlaid with no danger of reflective cracking. A major reconfiguration of the parking stalls and drive isles was needed to provide ease of operation and truck circulation. A large pond was designed and permitted, and storm drainage structures and large pipes move the water off the pavement and into the retention basin. Site lighting was included by high mast poles.

Wando Welch Terminal Traffic Flow Improvements, Phase I – Mt. Pleasant, SC | Mr. Mansour served as a Design Engineer and assisted with the CAD production for this traffic flow improvements project that consists of providing engineering services to increase traffic throughout the terminal and to help improve traffic safety. The design includes installation of an additional truck lane from the outbound processing Building 441 to the outbound security gate on Long Point Road, expansion of the outbound security gate, extension of the inbound truck queue lanes at Building 401, installation of a new parking lot at Building 442, parking lot modifications, a new driveway at Building 448, and a new paved driveway to Building 419. Conceptual designs for a new roundabout and queue road around the chassis yard and traffic analyses were also performed for three projected terminal growth scenarios: 1.8 Million Twenty-Foot Equivalent Units (TEUs), 2.5 Million TEUs, and 3.0 Million TEUs.

Entrance Road and Parking Lots Reconfiguration Project, St. Pete-Clearwater International Airport – Pinellas County, FL | Mr. Mansour served as a Design Engineer on this project which consisted of the reconfiguration and realignment of the existing ¾ mile long entrance road and the reconfiguration and expansion of the existing parking lots. The realignment of the major access roadway to the airport (Roosevelt Boulevard) and the explosive growth in number of passengers flying in and out of PIE were the driving forces behind this project. ICE served as a subconsultant and performed the entrance roadway/parking lots geometric design and layout and developed the overall construction sequencing plans for this project. ICE was also responsible for the design of the airport parking ticketing and toll plazas, technical specifications, and maintenance of traffic plans. The construction sequencing ensured continuous vehicular access to the terminal and parking areas with safe routes for pedestrians from the parking lots to the terminal building during construction.

PREVIOUS EXPERIENCE:

Internship – City of Largo, FL | Mr. Mansour served as a structural/construction intern and his responsibilities included reviewing structural designs and submittals from consultants and contractors. He also reviewed construction procedures, auger cast piles, micropiles, driven precast piles, steel installation, and concrete slabs installation. Mr. Mansour conducted various construction managements tasks such as scheduling values and pay applications, field and change orders, and work directive changes. He also worked with professionals on general civil engineering tasks such as sanitary sewer rehab process documents, conducted site surveying and analyzed data to execute civil engineering projects and performed data collection and statistical analysis that resulted in sound recommendations that were adopted by the department. Additionally, Mr. Mansour utilized AutoCAD software, produced drawings, maintained, archived and retrieved CAD files and drawing documents.

Mr. Maximos has more than 20 years of experience in civil engineering planning, design and project management of aviation projects at commercial service and general aviation airports. He has been responsible for numerous design teams on projects ranging from aviation authorities to state DOTs, including new and rehabilitated runways and parking aprons.

EXPERIENCE:

Aviation Engineering/Architecture Services for Airport Development Projects, Livingston Executive Airport – Livingston Parish, LA | Mr. Maximos serves as the Lead Engineer for this project which includes providing program development services for the justification, design, and construction of a new airport in Livingston Parish, Louisiana known as the proposed Livingston Executive Airport. His responsibilities include design of all aspects of the airport including entrance road, apron, taxiway, and runway. This project includes a Justification Study for the proposed airport to enter the FAA's National Plan of Integrated Airport Systems (NPIAS), a feasibility study and preliminary engineering report for the proposed airport site airport master plan update; website development, community engagement and stakeholder engagement meetings; environmental analysis and permitting; architectural project visioning and conceptual design (including 3D renderings and fly throughs of the recommended airport concept); architectural preliminary building facilities design; engineering airport development and design; and Benefit-Cost Analysis (BCA). It is anticipated that the airport will be constructed and open within the next five years.

Airfield Pavement Rehabilitation, False River Regional Airport – New Roads, LA | Mr. Maximos served as a civil engineer responsible for providing construction administration and inspection support. This project consists of full-depth reconstruction, milling and overlay on runway 18-36 and connector taxiways, runway 18-36 full-depth repairs, parallel taxiway sealcoat, and pavement markings.

Perimeter Fencing, DeQuincy Industrial Airpark – DeQuincy, LA | Mr. Maximos serves as Construction Project Manager responsible for overseeing construction administration and inspection services. This project consists of replacing and installing approximately 17,000 linear feet of 6' chain link fence, new dual swing gates, and clearing and grubbing a 20' wide path.

New Terminal Apron and Fuel Farm, Marion County Airport – Buena Vista, GA | Mr. Maximos served as Project Manager and Engineer of Record providing engineering design services for the new ± 8,600 square yard Apron and Fuel Farm. The project will include a 35-foot-wide partial parallel taxiway tying to existing taxiway turnaround at Runway 32 End, and a stub taxiway connecting the new apron. The project will be tied to the road with a new driveway and parking.

Obstruction Removal Design, Dr. CP Savage Sr. Airport – Montezuma, GA | Mr. Maximos, serving as Project Manager, led the preparation of construction drawings and specifications for the design of obstruction removal at the airport and managed the bidding and procurement processes. His responsibilities also included providing construction observation and administration services for the project.

Runway 8-26 Extension, Burke County Airport – Waynesboro, GA | As Project Manager and Engineer of Record, Mr. Maximos provided a fast-tracked design which included plans and specifications for the additional 1,000' x 75' extension and taxiway turnarounds to meet the expedited schedule of GDOT and the Governor's program. The project also required the removal of obstruction berm, drainage, wetland mitigation, and the replacement of the runway lighting system.

Project Manager Case Study – The following case study illustrates Mr. Maximos' experience in issue resolution, providing leadership in a project team environment, and demonstrates his ability to reach consensus

Sameh Maximos, PE | Technical Production

and resolve issues. The Runway 8-26 Extension project at Burke County Airport was an accelerated project due to the funding timeline provided by the Governor of Georgia. The Project Manager was handed a 90% complete project that had been designed six years earlier. He started the project by meeting with the client to understand the Airport's needs, not only for this project but for other current issues and future projects. When he received the proposed Statement of Work from GDOT, he evaluated what he had and proposed a change of scope to benefit the Airport and its safety, as well as reduce the cost for future projects. After extensive deliberation with GDOT, a consensus was reached to implement the scope change. Meanwhile, the design was progressing concurrently so as to not miss deadlines. On the project design side, the PM conducted weekly progress meetings, mitigating conflicts between the disciplines and between old and new designs to follow current standards, while continuously updating the stake holders on the progress.

Runway 14-32 Pavement Rehabilitation, New Runway Lighting, and a Perimeter Fence, Marion County Airport – Buena Vista, GA | Mr. Maximos served as Project Manager and Engineer of Record providing engineering design services for the rehabilitation of all of the airfield pavement. The Project included a crack relief interlayer and GDOT – 400 resurfacing. His responsibilities also included overseeing construction of the three projects at 82A, which will improve the airport's safety operations.

Crack Seal and Remarking of Runway 18-36, Dr. C P Savage Sr. Airport – Montezuma, GA | As Project Manager, Mr. Maximos managed the preparation of construction documents, bidding, procurement, and provided construction administration services for the completion of the Project. This Project involves the repair of Runway 18-36 by means of sterilizing, routing, cleaning, and sealing cracks found on the 4,220' x 75' asphaltic runway. The Project also included the replacement of runway pavement markings.

Runway 9L Taxiway and Pavement Replacement, Hartsfield-Jackson Atlanta International Airport – Atlanta, GA | Mr. Maximos, Deputy Project Manager, was responsible for the development of the design for taxiway and pavement replacement of Runway 9L to coordinate with the future end around taxiway grading.

Crack Seal, Shoulder Removal and Remarking of Runway 15-33, Plantation Airpark – Sylvania, GA | As Project Manager, Mr. Maximos managed the preparation of construction documents, bidding, procurement, and provided construction administration services for the completion of the project. This project involves the repair of Runway 15-35 by means of sterilizing, routing, cleaning, and sealing cracks found on the 3,787' x 75' asphaltic runway. The project also included the removal of the taxiway shoulders and replacement of pavement markings.

Taxiway "B" South Reconstruction, Baton Rouge Metropolitan Airport – Baton Rouge, LA | As Project Manager, Mr. Maximos managed the replacement of the southern portions of Taxiway "B" to correct runway separation. He also provided technical support and construction administration for the demolition and full depth reconstruction of the 2,700 LF asphaltic concrete taxiway, taxiway lighting improvements, and partial runway rehabilitation. He provided proactive project coordination with airfield stakeholders including the City, LaDOTD, and FAA to implement a smooth construction approach to minimize impacts to airfield operations.

Taxiway "A" South Construction, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | As Project Manager, Mr. Maximos provided technical support for the design team and oversaw the construction observation and administration of 4,300 LF of the new asphaltic concrete parallel taxiway and two 400 LF sections of new taxiways connector.

Taxiway Extension, DeQuincy Industrial Airpark – DeQuincy, LA | Mr. Maximos, serving as Project Manager and Engineer of Record, was responsible for the design and preparation of construction documents for this 1,700 LF asphaltic concrete parallel taxiway extension. He provided construction observation and administration for this project which also included environmental permitting, wetland mitigation, and major storm system design.

Taxiway Extension, Fuel Farm and an AWOS, DeQuincy Industrial Airpark – DeQuincy, LA | Mr. Maximos, Project Manager and Engineer of Record, was responsible for design and preparation of construction documents. He also specified requirements for the fuel farm and the AWOS system. Mr. Maximos provided

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

construction observation and administration for the three projects. The 1,700 LF asphaltic concrete parallel taxiway extension included environmental permitting, wetland mitigation, and major storm system design.

Drainage Rehabilitation, False River Regional Airport – New Roads, LA | As Project Manager, Mr. Maximos was responsible for project management and administration, design, construction supervision, and inspection for the installation of inlet aprons, pipe replacement, structure repair, and complete system evaluation. He also provided close coordination with LaDOTD and FAA staff to successfully integrate the design requirements and expectations to improve a worsening drainage problem on the airfield.

Pavement Defects Evaluation, False River Regional Airport – New Roads, LA | Mr. Maximos served as Project Manager and provided project management and technical support to survey, evaluate, recommend and report on the pavement condition in general and on defective areas in particular.

Runway 13-31 and Taxiway "B" North Rehabilitation, Baton Rouge Metropolitan Airport – Baton Rouge, LA | As Project Manager, Mr. Maximos managed the rehabilitation of a 7,000 LF runway and a 4,300 LF taxiway, the reconstruction of a700 LF taxiway and the construction of a new 200 LF asphalt connector. He also provided technical support and construction administration for the project. Provided proactive coordination with airfield stakeholders including the City, LaDOTD and FAA, to implement a construction approach to minimize impacts to airfield operations.

Taxilane Construction and Perimeter Fence, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | Mr. Maximos served as Project Manager providing project management and administration, design, and construction supervision for a new 600 LF asphaltic concrete taxilane connector, including pavement design, drainage, and marking. The project also included a full new perimeter fence.

MoDOT Bridges Safe and Sound Project – Statewide, Missouri | Mr. Maximos performed analysis and design, along with preparation of the construction documents for a set of bridges out of the 802 new or improved/replaced bridges. He utilized MicroStation and ProjectWise.

Taxiway "A" North Paving, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | Mr. Maximos, Project Manager, was responsible for providing general project administration, construction supervision and inspection for the 2,900 LF of a new asphaltic concrete parallel taxiway and 1,200 LF of new connector taxiways project.

Rehabilitate and Expand South Air Carrier Apron Phase II, Baton Rouge Metropolitan Airport – Baton Rouge, LA | As Project Manager, Mr. Maximos provided technical support and construction administration for a 50,000 SF concrete apron with underdrain system.

Terminal Area Roads and Service Roads, Ras Abu Abbouad Motorway and Approach Interchange, New Doha International Airport – Doha, Qatar | Mr. Maximos served as Civil Engineer responsible for preparing preliminary engineering drawings and supporting calculations for the transportation drawings, roadways plan and profile sheets, ROW limits, road modifications at approach interchanges, bridge structural drawings with plans, elevation and sections. He also designed the drainage ditches and the collection system. The British and AASHTO standards were utilized in the design with adaptation of the local Qatari standards.

Hartsfield-Jackson Atlanta International Airport – Atlanta, GA | As Designer, Mr. Maximos' responsibilities included site grading for the re-routing of underground power tunnel with plan and profiles for the duct-banks, mitigating differences in the design with the architectural firm and achieved confirmation from both sides. Mr. Maximos also performed architectural work and layouts for Atlanta airport auxiliary buildings, and Bank of America offices. He conducted site inspection and survey for Atlanta airport electrical system and prepared corresponding engineering drawings and single line diagram drawings. He acted as liaison between senior engineers and CADD technicians across different disciplines and performed projects file system set up and maintenance.

MIKE ALLEN

Technical Production

Since 1991, Mr. Allen has been providing roadway design services. He has worked directly with project managers and project engineers in roadway design. He has been responsible for efficiently maintaining various aspects of civil design projects while ensuring adherence to design standards through the use of MicroStation, GEOPAK and FDOT Site Menu. Mr. Allen has roadway design experience in Florida, Tennessee, and South Carolina.

EDUCATION:
Associate Degree in Computer Aided Drafting and Design, United Electronics Institute (1991)

EXPERIENCE:
Career: 1991 – Present
ICE: 2016 – Present

EXPERIENCE:

West Apron Expansion, Destin-Fort Walton Beach Airport – Okaloosa County, FL | This Project will enlarge the West Apron at VPS in order to create additional ground loading apron spaces and overflow rest overnight (RON) space for aircraft to base overnight for early flights when all of the existing spaces with jet bridges are full or otherwise under exclusive lease by another airline. ICE is working with Airport staff and the FAA to finalize apron dimensions and develop detailed site development plans including airfield pavement structural design, geometrics, markings, lighting requirements, and other aircraft support infrastructure required (tie-downs, ground points, electrical or other infrastructure for ground power units, etc.). Mr. Allen served as a Designer for the planning, design, and production of plans for this Apron Expansion Project.

Taxiway "N" Reconstruction, Daytona Beach International Airport – Daytona Beach, FL | This project consisted of the total reconstruction of the existing 2.5-mile-long Taxiway "N" (and Taxiway "A") with reconfigured edge of pavement geometry, paved shoulders widened from 25' to 30' in width, installation of a new storm water drainage system, and the installation of new LED taxiway edge lights at the Daytona Beach International Airport (DAB). ICE served as a subconsultant and is performing the taxiway horizontal geometric design and layout and developing the overall construction safety and phasing plans for the Project. Mr. Allen served as a Designer and is responsible for quantity calculations and Construction Phasing Plan revisions for this project.

Apron Expansion, Punta Gorda Airport – Punta Gorda, Florida | Mr. Allen served as a Designer for the planning, design and CAD production of plans for this Apron Expansion Project at the Punta Gorda Airport which is experiencing rapid growth with Allegiant Air. The project scope included professional engineering services to expand the aircraft parking aprons north of the existing apron to add three additional aircraft parking spaces for the Airbus A319/A320/A321 and 737-800 aircraft. Originally designed with a blast fence for power-in power-out operations, only two positions were originally obtainable so the airport directed ICE to revise for straight in operation with tug push back. The apron consists of a combination of asphalt and concrete in varying thicknesses for taxiway (4" asphalt/ 14" limerock), aircraft parking (15" concrete 6" recycled conc. base), and ground service equipment (concrete 6" recycled conc. base). Drainage was accomplished by the use of trench drains outfalling to a pipe network and then to a retention pond. These positions were remote from the terminal, requiring a covered walkway to all three positions.

Taxiways "C," "D," and "E," Sebastian Municipal Airport – Sebastian, FL | Mr. Allen served as a Designer for the planning, design, and production of plans for a new ADG II parallel taxiway to Runway 5-23. A safety concern exists at the airport with aircraft entering and exiting the Runway 5 threshold in that they must cross active runways three times when taxiing from the busy MRO tenant area. One of these crossings involves the intersection of both runways, providing difficult visibility for pilots at this uncontrolled airport. The design included the removal of the taxiway connector that crosses both runways, a west parallel taxiway to 5-23 (Taxiway "C"), a partial parallel to the east (Taxiway "D"), and a partial parallel to Runway 10-28 (Taxiway "E"). Major components of the design included geometric design to new FAA AC 150/5300-13A fillet and radii standards,

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9fa5e8 (Count.)

stormwater ponds and relocation of existing infield drainage, Environmental Resource Permit from SJRWMD, and airfield guide signs (entire airport).

T-Hangar Replacement, Sarasota Bradenton International Airport – Sarasota, Florida | Serving as a Designer, Mr. Allen was responsible for plans production, quantities, and production submittals. The clear door width for the set of buildings was 41.5' x 12'. Each building is a standard (stacked) configuration consisting of 14 units (28 total). Also included in this project were two larger hangar buildings (J-7 and J-8) to the south of Taxiway F. The clear door width for these buildings will be wider than J-4 and J-5 at 47.5' x 14'. Special, larger end units were designed on each of the two buildings with a clear door width of 51' x 16'. At this width, J-7 can accommodate 12 units and J-8 can accommodate 15, both with a nested configuration. Site work consisted of the removal of the asphalt pads under the Port-a-Port buildings, new drainage pipes, and the relocation of the taxilanes to line up with the new doors. On the buildings, manufactured by Erect-a-Tube, ridge vents were provided for air circulation, exterior building mounted LED lights were provided for taxilane illumination, and door types were bifold.

Wando Welch Terminal Traffic Flow Improvements, Phase I – Charleston County, SC | Mr. Allen served as a Designer and provided CAD services and coordination efforts for this traffic flow improvements project that consists of providing engineering services to increase traffic throughout the terminal and to help improve traffic safety. The design includes installation of an additional truck lane from the outbound processing Building 441 to the outbound security gate on Long Point Road, expansion of the outbound security gate, extension of the inbound truck queue lanes at Building 401, installation of a new parking lot at Building 442, parking lot modifications, a new driveway at Building 448, and a new paved driveway to Building 419. Conceptual designs for a new roundabout and queue road around the chassis yard and traffic analyses were also performed for three projected terminal growth scenarios: 1.8 Million Twenty-Foot Equivalent Units (TEUs), 2.5 Million TEUs, and 3.0 Million TEUs.

Entrance Road and Parking Lots Reconfiguration Project, St. Pete-Clearwater International Airport – Clearwater, FL | Mr. Allen served as a Designer responsible for the design of a relocated airside perimeter road due to the widening of Roosevelt Blvd. and the Pinellas Gateway Project. Terminal Parking improvements encompassed the entire site, with a complete reconfiguration. As a major subconsultant to another firm, he was responsible for the Maintenance of Traffic (MOT) Plans. Also, the performance-based specifications for the toll plaza relocation and covered new canopy.

I-77 Widening & Rehabilitation (MM 15-27) – Richland County, SC | ICE was the Primary Design Consultant responsible for successfully delivering all engineering services required for this Design-Build (DB) project. The work involved widening the interstate by adding one lane in the median in each direction for seven miles to include widening of 10 mainline bridges over roadways and streams. This section also included rehabilitation of an asphalt overlay with a concrete base and cross slope verification/correction. The work also included eight additional miles of pavement rehabilitation and cross slope verification/correction of southbound lanes. The pavement throughout the project consisted of asphalt overlay with a concrete base. Mr. Allen served as a Roadway Designer responsible for assisting in the development on the maintenance of traffic plans for this interstate widening project.

SR 580 (Hillsborough Avenue) – Tampa, FL | Mr. Allen served as a Roadway Designer responsible for the drafting of plans to produce FDOT roadway milling and resurfacing plans, including key sheet, typical sections, plan & profile, cross sections, drainage structures, signing & marking sheets and signal sheets.

Knights Griffin Road – Plant City, FL | Mr. Allen served as a Roadway Designer responsible for the production of design plans using MicroStation, GEOPAK and FDOT Software to produce Hillsborough County Roadway Plans. The plans included key sheet, typical sections, general notes, plan & profile, cross sections, utility adjustments, signing and marking sheets and quantity calculations/computation book.

Bruce B. Downs (CR 581)/131st Street Intersection Improvement Project – Tampa, FL | Mr. Allen served as a Roadway Designer responsible for the production of design plans using MicroStation, GEOPAK and FDOT Software to produce Hillsborough County Roadway Plans. The plans included key sheet, typical sections, plan & profile, cross sections, utility adjustments, signing and marking sheets, traffic counts and quantity calculations/computation book.

MARTY MORLAN, PE, ENV SP

Stormwater

EDUCATION:
BS, Civil Engineering, University of Florida (1987)

EXPERIENCE:
Career: 1988 – Present
ICE: 2021 – Present

REGISTRATION:
Professional Engineer: FL #45326
Envision Sustainability Professional (ENV SP)

Mr. Morlan has more than three decades worth of experience in the planning, design, and construction of a wide variety of civil engineering projects (over 175 projects) including transportation, civil/site, stormwater master planning/design, recreational trail and park development. He has strong project management and design experience, including extensive roadway, drainage, and permitting experience. Mr. Morlan has been responsible for all phases of transportation projects from the initial planning and studies, through the final design and permitting as well as during the construction phase. Throughout his diverse career, he has been responsible for preparing preliminary design; conducting various drainage and roadway evaluation studies; preparing final design plans, construction plans, and permit documents; preparation of stormwater studies and designs; providing cost estimating and bid evaluations; coordinating subconsultants; conducting public meetings; providing utility coordination; performing post-design services during construction; performing project management duties; and providing quality control reviews. He provides a unique understanding of issues faced by local governments and agencies, having spent almost ten years of his career with Pinellas County government in the Engineering Division where he managed consultant projects, managed in-house design teams for transportation and stormwater capital improvement projects. He has filled a wide variety of roles as a project manager, engineer, and quality control reviewer for projects/governments. Mr. Morlan also has served clients with expert witness testimonies, GEC project manager, as well as local agency plan reviews for FDOT.

EXPERIENCE:

Miscellaneous Stormwater Consultant Contract, City of Tarpon Springs – Pinellas County, FL | Mr. Morlan managed this miscellaneous contract which included 6 task assignments ranging from preparing an update to the City's stormwater masterplan (Stormwater Action Plan) which included the development of proposed stormwater solutions/projects for 36 problem areas throughout the city and costs as well and developing a 6-year CIP for implementation. Additional assignments included preparing construction plans and performing analysis of multiple stormwater alternatives (ponds, pipes, structures, etc.) throughout the city.

Rockport Terminal Facility - Miscellaneous Stormwater Services for Water Quality Monitoring, CSX Transportation – Tampa, FL | Mr. Morlan performed a stormwater analysis and prepared an ICPR hydrologic/hydraulic model to aid in the design of an outfall control weir (20 feet long) which was designed as a flow measure device (with v-notch). The stormwater model was used to simulate a 100-year storm event to ensure that no flooding of existing buildings/structures would occur as a result of the addition of the outfall control weir structure.

GEC Stormwater Review, I-275 in Tampa and I-75 through Pasco County, FDOT District 7 – Districtwide, FL | Mr. Morlan performed groundwater mounding analysis review for the FL Department of Transportation's drainage department for design-build projects. The review was conducted on multiple stormwater facilities in close proximity to legacy hazardous material properties.

Gerdau Baldwin Steel Mill Floodplain Mapping – Duval County, FL | Mr. Morlan served as Engineer of Record for the stormwater evaluation and floodplain map revision of this 850-acre steel mill site in western Jacksonville. To support the proposed steel mill expansion, prepared an ICPR stormwater model of the subject property to determine the 100-year floodplain elevation for the property. The model development included calibration using Tropical Storm Debbie (17 inches rainfall/72 hours) Services included: stormwater modelling, City of Jacksonville permitting, preparation of a FEMA FIRM Letter of Map Revision (LOMR).

Marty Morlan, PE, ENV SP | Storwater

10th Street Outfall Stormwater Water Quality Improvements – City of Sarasota, FL | Mr. Morlan served as Lead Stormwater Engineer responsible for preparing a BMP Alternatives Report and Preliminary Design for this water quality improvement at the outfall to Sarasota Bay from a 467-acre drainage basin in downtown City of Sarasota. Researched/investigated alternatives (baffle box, sediment sump, wetland marsh). Coordinated proposed alternatives with the proposed FDOT US 41 Roundabout Project. Prepared nutrient reduction calculations, benefit/cost, evaluation of alternatives, and review of Sarasota County Hudson-Bayou stormwater ICPR model and project coordination.

Main Street (Nebraska Avenue) - Congress Street to Rowan Road – Pasco County, FL | Mr. Morlan served as Project Engineer responsible for the complete stormwater design and permitting of an urban curb and gutter 3-lane roadway. Duties included stormwater design, wet-detention pond design, wetland mitigation and floodplain compensation. Prepared and received a Southwest FL Water Management District ERP permit. Project involved 0.6 miles of 2-lane rural widening, including paved shoulders, pond site study, traffic control plans, right-of-way mapping, and environmental study and mitigation of wetlands, permitting and public involvement.

Indian River Drive Stormwater Quality Retrofit and Traffic Calming Improvements – Martin County, FL | This project combined proposed roadway improvements and traffic calming along Indian River Drive with proposed stormwater improvements. The Indian River Drive Stormwater Quality Retrofit proposes to provide a treatment train of Best Management Practices (BMPs). The project proposes to utilize a treatment train of interlocking grass-pave system to initially intercept overland runoff flowing across the roadway to direct it into the ground, then excess runoff will be directed into either a bio-swale detention area or an exfiltration trench for further treatment and then into a 2nd Generation Nutrient Separating Baffle Box prior to discharge into the Indian River Lagoon. The proposed roadway and traffic calming improvements includes the milling and resurfacing of approx. 1,000 feet of Indian River Drive (a rural 2-lane roadway) and the addition of a 10 ft. wide sidewalk and concrete curb along the east side near the Indian River. Minor pavement widening was also added. There are two 24-foot-long speed tables (with 10-foot-wide stamped asphalt crosswalks and raised medians) proposed to provide speed reduction and to allow pedestrians to safely cross the roadway. Curb inlets and stormwater were added to collect the street runoff and direct discharge into a proposed pond with bio-swale and treatment device (baffle box). Mr. Morlan served as the Lead Design Engineer for the complete roadway and some drainage aspects of the project. Mr. Morlan was responsible for the design of geometry of the proposed roadway, sidewalk, curbs and raised crosswalks/speed table. Mr. Morlan also was responsible for the vertical profile design to provide constructability of the roadway cross-sections and keep the improvements within the available narrow (30'-50') right-of-way. Mr. Morlan's design work included the horizontal and vertical layout and design of the proposed curb inlets and storm sewer system.

West Livingston Street Extension Complete Street – Orlando, FL | Mr. Morlan served as Project Engineer for this roadway and streetscape design which is located within the new University of Central FL's downtown campus in the new Creative Village in Downtown Orlando. The 2-lane urban complete street was designed with bike lanes, landscaping, hardscaping (pavers), streetlighting, on-street parking, pedestrian amenities (benches, bike racks, planters) and 10 ft. wide sidewalks. Street tree wells included innovative stormwater design to maximize exfiltration and provide additional water quality treatment. Project included provisions for the Contractor to properly handle the existing arsenic soils on-site during the construction phase.

Roosevelt Boulevard Roadway and Stormwater Improvements – Tarpon Springs, FL | Mr. Morlan served as Project Manager and EOR for this roadway and stormwater improvement project. The roadway was a 2-lane rural local street located near the west end of Dodecanese Boulevard near the City's famous sponge docks. The project area was frequently flooded being adjacent to the Anclote River, lacked stormwater infrastructure which contributed to deteriorated pavement conditions. The project included pavement reconstruction, removal of existing brick roadway, providing an urban 2-lane street with curb and gutter, storm sewer, 6 ft sidewalk and coordination/design with marina entrances, on-street parking as well as an off-site swale/culvert drainage system.

- 2D Hydrodynamic Flow and Transport with Surface-Water Modeling System

PROFESSIONAL ORGs:
- Member, American Society of Civil Engineers
- Member, SC Association of Stormwater Managers

Ms. Warmuth began her engineering career in 2000 and specializes in drainage design and stormwater management. She designs all aspects of highway drainage systems and is well-versed in a variety of hydrologic/hydraulic modeling software, including HEC2, HEC-RAS, HEC-GeoRAS, HEC-HMS, Hydraflow, FESWMS, WSPRO, XP-SWMM, GEOPAK Drainage, StormCAD, CivilStorm, HY-8, HYCHL, and TR-55. Ms. Warmuth is also proficient in sediment and erosion control design as required by NPDES regulations and has experience with the SEDCAD sedimentology computer model. Additionally, her experience consists of designing numerous water quality BMPs including dry detention ponds and infiltration ponds.

EXPERIENCE:

Greenlawn Streetscape – City of Beaufort, SC | This project, awarded under the City of Beaufort IDC, consisted of widening the existing roadway to provide on-street parking, installing sidewalks, storm drainage improvements, street lighting, and landscaping along Greenlawn Street. Ms. Warmuth served as a Senior Water Resources Engineer responsible for stormwater system design, OCRM permitting, and drainage and erosion control plans.

Office Park Road at Pope Avenue and New Orleans Road – Hilton Head Island, SC | This project consisted of the intersection improvements at Office Park Road, Pope Avenue and New Orleans Road and included the addition of a signalized intersection, widening New Orleans Road approach from four lanes to five lanes, widening Office Park Road from three lanes to four lanes and widening south bound Pope Avenue from five lanes to six lanes and retaining the north bound Pope Avenue section at its current 6-lane configuration. Ms. Warmuth served as a Hydraulic Engineer responsible for the stormwater management design that included sedimentation and erosion control design.

38th Avenue North – Myrtle Beach, SC | Ms. Warmuth served as a Project Engineer and performed hydrologic and hydrographic analysis for this road widening project in Myrtle Beach. She designed stormwater drainage facilities using Hydraflow Storm Sewers and SWMM. The Project included road widening from a three-lane shoulder section to a five-lane curb and gutter section. The project consisted of widening a section of 38th Avenue North between US-17 Bypass and Robert Grissom Parkway to five lanes. This project also included a turn lane, bike lanes, and sidewalks.

Extension of I-20 South Frontage Road – Vicksburg, MS | Ms. Warmuth served as Project Engineer and performed hydrologic and hydraulic analyses in accordance with the MDOT Stormwater Management Plan as part of a roadway project to connect two frontage roads over Old Highway 27 and the KCSRR. The extension of an existing box culvert at Durden Creek was also analyzed using HY-8 software. The proposed drainage and erosion control features were a key factor in developing right-of-requirements due to the significant roadway fill heights and the associated benching requirements.

I-26 Widening (MM 85-101), Segments 1, 2, & 3 – Richland, Lexington, & Newberry Counties, SC | This 16-mile widening, and reconstruction Design-Build project consists of widening I-26 from four to six lanes for approximately 12 miles and from four to eight lanes for approximately four miles. It also includes three new interchanges and eight overpasses. Ms. Warmuth is responsible for providing roadway drainage design reports to

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

include field investigations, NPDES permitting, outfall summaries, and channel designs. She is also preparing the roadway drainage design reports to include updates to preliminary drainage design, bridge deck drainage calculations, GeoPAK drainage and Hw/D summaries, storm sewer system for 50-year storm event, sediment and erosion control designs, water quality and post construction designs and supporting documentation.

Replacement of Five Bridges on I-20 – Aiken County, SC | ICE is providing turn-key engineering design services, as a subconsultant, on I-20 East Bound and West Bound lanes over South Edisto River as a part of an I-20 Bridge Replacement Contract that includes five bridge sites. Bridge analysis and HEC-RAS modeling over the river are being performed in accordance with the SCDOT Requirements for Hydraulic Design Studies. Ms. Warmuth is serving a hydraulic engineer responsible for modeling the bridges to determine the hydraulic opening, scour, and associated roadway drainage. This project will require FEMA coordination.

Ripley Station Road Bridge Replacement – Lexington County, SC | Ms. Warmuth is serving as a senior hydraulic engineer responsible for reviewing the bridge hydraulic model and risk assessment report. This project consists of the design services necessary to replace the bridge over Rawls Creek and associated roadway approaches on Ripley Station Road in Irmo. The ICE Team will provide surveying, environmental permitting, geotechnical design, preliminary and final design and plans, utility coordination, and construction support services.

I-95 South Bound over Bagshaw Swamp and I-95 South Bound over SC 46 – Jasper County, SC | Ms. Warmuth is serving as a senior hydraulic engineer responsible for field investigations aiding in the hydraulic design and the quality control of the proposed bridges. The ICE Team will provide project management, field surveys, environmental documentation and permitting, subsurface utility engineering (SUE), bridge/structural design and plans development, roadway design and plans development, geotechnical investigations and reports, hydraulic design, hazardous material survey and reports, utility coordination and plans development, and construction phase support services. The new bridges will accommodate two 12-foot travel lanes and appropriate shoulders. The proposed bridge over Bagshaw Swamp will be approximately 120 feet in length, and the proposed bridge over SC 46 will be approximately 160 feet in length.

Clements Ferry Road Widening, Phase II – Berkeley County, SC | This project consists of widening Clements Ferry Road for approximately 4.5 miles from Jack Primus Road to SC 41. The improvements involve widening the two-lane roadway to a four-lane curb and gutter section with a raised planted median and multi-use path along one side of the roadway. The project also includes construction of a new bridge over Martins Creek and the widening of an existing bridge over an unnamed tributary. This stretch of roadway has a current ADT of 14,200 and includes four signalized intersections. Ms. Warmuth served as a Senior Hydraulic Engineer responsible for reviewing the storm drainage plans and bridge hydraulic model.

Mossy Oaks Watershed Study – City of Beaufort/Town of Port Royal, SC | Ms. Warmuth serves as a senior drainage engineer for the analysis of widespread flooding issues in the Mossy Oaks district in the City of Beaufort and Town of Port Royal. This Project, awarded under the City of Beaufort IDC, involves hydraulic modeling of drainage infrastructure within a 700-acre developed watershed, which will be accomplished using the CivilStorm hydrodynamic flood routing and analysis software. Since the Project is located within a tidal zone, it is also necessary to determine storm surge flooding effects within the watershed. She is providing QA/QC services on the design of the two-dimensional hydrodynamic model of Beaufort River and Battery Creek. This two-dimensional model is being developed using the Surface-Water Modeling System (SMS) software and accepted surge analysis methodologies to model the impacts of extreme tropical storm events on the watershed.

Ride III Dirt Road Paving Project Group 1 – Horry County, SC | ICE is serving as a subconsultant to the primary design firm on this Dirt Road Paving Project which consists of the permitting, design, right of way acquisition, and construction management of the first group of County dirt roads to be paved (25 miles) identified in the 2016 Capital Project Sales Tax referendum. Ms. Warmuth is serving as a Hydraulic Engineer and is responsible for leading the drainage design and QA/QC.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

BOB STEELE, SET

Stormwater

EDUCATION:
BS, Biology, Liberty University (1977) | Diploma, Sanitary Engineer, International Correspondence Schools (1967) | Diploma, Highway Engineer, International Correspondence Schools (1965)

EXPERIENCE:
Career: 1961 – Present
ICE: 2013 – Present

CERTIFICATIONS:
- Certified Senior Engineering Technician, 1979
- Certified Master Modeler – "Stormwater Systems"; Haestad Methods, 2003
- Certificate of Mastery – Completed 30-Hours of Website Training for modeling with XP-SWMM software; XP-Software, Inc., 2008

Mr. Steele is responsible for technical support and design of storm drainage systems, including hydrological studies, storm water management plans, flood studies and general activities as associated with bridge replacement assignments, roadway design, aviation, and land development/sitework projects. Mr. Steele has conducted numerous in-house Hydrology and Hydraulic training seminars for drainage design engineers and designers as well as SCDOT. The training seminar included the use of HEC-RAS, XP-SWMM for selected engineers and designers. During 2006, he was invited to work with XP-Software in "beta testing" the newest version of XP-SWMM.

EXPERINCE:

I-77 Widening & Rehabilitation Project (MM 15 to MM 27) – Richland County, SC | The work involved widening the interstate by adding one lane in the median in each direction for seven miles to include widening of 10 mainline bridges over roadways and streams. This section also included rehabilitation of an asphalt overlay with a concrete base and cross slope verification/correction. The work also included eight additional miles of pavement rehabilitation and cross slope verification/correction of southbound lanes. The pavement throughout the project consisted of asphalt overlay with a concrete base. Mr. Steele served Senior Hydrologist and performed drainage analysis of the existing culverts using HY-8 and XP-Storm. By using XP-Storm he was able to include the upstream storage to account for "real-time" conditions. All analyses were checked for conformity to current SCDOT requirements. Additionally, he built several XP-Storm dynamic models of existing storm sewer systems to check the design more accurately.

S-107 (Alligator Road) Widening – Florence County, SC | This seven-mile project includes widening from a two-lane rural roadway to a three-lane section segment from US 76 to S-103 and to a five-lane curb and gutter section with sidewalk from S-103 to west of US 52. This project also includes replacing the existing structures over I-95 and Alligator Branch Swamp Tributary and major intersection improvements at the US 52 intersection. Mr. Steele serves as a Senior Hydraulic Designer and is responsible for assisting with drainage calculations for this project.

I-85 Widening (MM 80 to 96) – Spartanburg and Cherokee Counties, SC | Mr. Steele assisted in a detailed drainage study and report of the existing drainage systems for this interstate widening project. This project consisted of the development of the Environmental Assessment and Design-Build preparation for widening approximately 16 miles of interstate. Along the approximately 16-mile project area, interchanges at Exit 83 – Battleground Road (SC 110), Exit 87 – Green River Road (S-39), Exit 95 – Pleasant School Road (S-82), and Exit 96 – Shelby Highway (SC 18) were modified to bring them into compliance with state and federal design requirements. The project also included adding a travel lane in each direction, improving various interchanges and exit ramps, and replacement of overpass bridges. This project was separated into three sections.

River's Street Drainage Study – Colleton County, SC | Mr. Steele developed the final design and completion of construction drawings of the drainage systems associated with this roadway improvement project. Several channel hydraulic problems required the use of HEC-RAS. StormCAD was used for Final Design and Analysis of the Storm Drainage Systems.

Bob Steele, SET | Stormwater

Northside and Future Drive, Bluehouse Swamp – North Charleston, SC | This residential subdivision is located just south of Walterboro, South Carolina. The subdivision's roadway system consists of side ditches and driveway pipe culverts for their drainage system. The roadside ditches drain to a collector ditch that is located through the subdivision – from street to street. This section of the county discharges to a private pond before discharging into a swamp. Mr. Steele developed a XP-Storm model of this system of pipe culverts and ditches and the pond. This model was able to show the problem areas and thus by correction to the model.

8th Avenue Improvement Project – Aynor & Horry County, SC | Mr. Steele provided final design and completion of construction drawings of the drainage systems associated with this roadway improvement project that included numerous detention basins for stormwater management. Several channel hydraulic problems required the use of HEC-RAS. The detention basins required the use of PondPack, a flood routing program for the design of the basins. StormCAD was used for Final Design and Analysis of the Storm Drainage Systems.

P-1501 (Walterboro Bypass) – Walterboro, SC | Final design and completion of construction drawings of the drainage systems associated with this roadway improvement project. Built XP-SWMM model of proposed complex drainage system, to utilize the programs capability of calculating and using the storage volume in the large roadside ditches.

SC-120 (Alice Drive) – Sumter, SC | Final design and completion of construction drawings of the drainage systems associated with this roadway improvement project. The adjacent area is fully developed and to be able to provide stormwater management, the proposed storm drainage system has to provide storage for the roadway widening runoff. An XP-SWMM model was developed to analyze the conveyance and required storage for the runoff from the new widening project.

US 25 (3rd Phase) – Greenville, SC | Mr. Steele was the senior designer responsible for hydrological and hydraulic studies relating to project drainage requirements. This project included numerous detention basins for stormwater management. At several locations, right-of-way could not be obtained for the required detention basin, therefore XP-SWMM was used to model the storm drainage systems to incorporate storage in the pipe systems. This resulted in a benefit to the SCDOT of eliminating several offsite detention basins and the maintenance associated with the basins.

U.S. Route 301 – Bamberg, SC | This Town, located in the southeastern part of the state, has been built in a large depression. The drainage outfalls from this Town, drain by a large channel to a river 2-miles north of the town and by a large channel to a swamp 2-miles south of the town. During tropical storm events, a large portion of the Town is flooded and remains flooded for several days following the storm event. U.S. Route 301 has been closed for several days due to the flooding. Using field survey, provided by the SCDOT, 3 large XP-SWMM models were built to analyze the existing drainage systems. These models were used to re-design the existing systems to provide an adequate drainage system, eliminating the flooding. Typical design criteria were used to design a new roadway storm drainage system for U.S. Route 301. The major outfall channel systems were re-designed to be able to convey the runoff from the Town's watersheds.

Red Bay Road Improvement Project – Sumter County, South Carolina | Developed HEC-2/HEC-RAS model of Turkey Creek, an existing FEMA regulated stream, for new bridge widening crossings. Ran model and computer new floodway. Prepared new hydrology study for this HEC-2/HEC-RAS study. Used SCS and USGS Regression Methods to generate runoffs for comparison with FEMA and Corps of Engineers published runoff.

US 25 Widening (Phase 1) – Greenville, SC | Mr. Steele was the senior designer responsible for hydrological and hydraulic studies relating to project drainage requirements. Studies included a flood plain study, utilizing HEC-2, SWMM/EXTRAN, and several storm sewer programs for analyzing the Hydraulic Grade Line.

Sarah Brammell

Senior Ecologist
Qualified Airport Wildlife Biologist

Sarah is an environmental professional with over 20 years of experience and leadership in natural resources, environmental issues in aviation, environmental permitting, NEPA documentation, and wildlife hazard management. Through her combined aviation experience as the previous Sr. Manager of Planning and Environmental Compliance with Lee Count Port Authority and 13 years of aviation consulting, Sarah provides clients with innovative approaches to environmental planning and permitting projects. She is a leader in providing project management and ecological expertise in National Environmental Policy Act (NEPA) projects and Wildlife Hazard Management.

Project experience includes local, state, and federal wildlife and wetland permitting and mitigation, environmental planning/airport master plans, Environmental Assessments (EAs), Categorical Exclusions (CATEX), listed species assessments and agency consultation. Sarah has provided wildlife hazard management services for commercial service, general aviation airports, and the U.S Air Force Air National Guard Bird/Aircraft Strike Hazard (BASH) program. Projects include Wildlife Hazard Assessments, Wildlife Hazard Management Plans, Wildlife Hazard Site Visits, 14 CFR Part 130 Airport Personnel Training, and BASH site visits and training. Ms. Brammell's project experience has spanned the U.S. (in all major regions) and internationally.

BARRETT STONE

NEPA/Environmental Assessments

EDUCATION:
MS, Environmental Health (Health Science Water Quality), University of South Carolina (2000) | BS, Wildlife Biology, Clemson University (1995)

EXPERIENCE:
Career: 1998 – Present
ICE: 2017 – Present

CERTIFICATIONS / TRAININGS:

- FHWA-NHI NEPA & Transportation Decision-Making
- SCDHEC CEPSCI
- Applied Fluvial Geomorphology-Rosgen Level 1
- Comprehensive NEPA Community Impact Assessment
- Environmental Justice, and Public Involvement Training
- 40-hour Basic Wetland Delineation Course
- 24-hour Interagency Consultation for Endangered Species Course

Mr. Stone has experience providing environmental services for a variety of projects throughout South Carolina. His expertise includes NEPA documentation, environmental permitting, and environmental compliance among other environmental related services. Mr. Stone's daily tasks include preparation of Environmental Assessments and Categorical Exclusions, biological assessments, review and interpretation of environmental technical reports, coordination with appropriate state and federal officials, public involvement, wetland delineations, threatened and endangered species assessments, preparation of jurisdictional determination submittals, permit submittals, mitigation planning, and acquisition of applicable Section 404 permits and State 401 Certifications. Prior to the consulting industry, Mr. Stone worked for the South Carolina Department of Health and Environmental Control (SCDHEC) for over six years where he served as an Aquatic Biologist performing stream biological surveys, water quality investigations, and fish tissue collection. He also developed and implemented water quality studies, investigation of non-point source pollution, biological monitoring (fish and macro-invertebrate), and prepared reports.

EXPERIENCE:

Butler Road Improvements – Greenville County, SC | Mr. Stone serves as the Environmental Manager responsible for NEPA compliance including public involvement. The project area includes an EJ community that required extensive public outreach along with general public involvement. Strategies and material utilized included various mailers, newsletters, signage, strategic community meeting, Spanish translation, a virtual public meeting, and an in-person meeting that was conducted in compliance with COVID-19 protocols at the time. The project consists of improving approximately 1.5 miles of existing roadway including construction of a sidewalk and multi-use path.

I-26 Widening (MM 85-101) Final Design and QC Inspection/Testing – Richland, Lexington, and Newberry Counties, SC | Mr. Stone is serving as the Environmental Manager responsible for NEPA compliance and acquisitions of the applicable Section 404/401 permits. This includes preparation of a NEPA re-evaluation; preparation/acquisition of an individual Section 404 permit from the US Army Corps of Engineers and a 401 Water Quality Certification from SC Department of Health and Environmental Control; and environmental compliance support during construction. This Design-Build project includes 16 miles of widening and reconstruction, three new interchanges, and eight overpasses north of Columbia from mile marker 85 to 101. This project will reconstruct pavement, increase capacity, and upgrade interchanges and overpass bridges to meet state and federal design requirements. SCDOT intends to widen I-26 from four lanes to eight lanes from approximately Exit 101 (US 176) to just west of Exit 97 (US 176) and from four lanes to six lanes from just west of Exit 97 (US 176) to just west of Exit 85 (SC 202) in Richland, Lexington, and Newberry Counties. Interchanges will be improved at Exit 97 (US 176), Exit 91 (S-48), and Exit 85 (SC 202). Overpass bridges will be replaced at Koon Road, Shady Grove Road, Mt. Vernon Church Road, Old Hilton Road, Peak Street, Holy Trinity Church Road, and Parr Road. The weigh station at mile marker 94 westbound will also be upgraded.

US 17 Congestion & Infrastructure Study – Charleston County, SC | As an Environmental Planner, Mr. Stone provided direct environmental support and analysis in regard to numerous potential alternatives. Services provided include a comprehensive environmental review which includes data collection and an environmental

screening for potential project impacts such has wetlands and other waters of the U.S., natural resources, endangered species, hazardous waste and underground storage tanks, air quality, and Section 4(f) and 6(f). Mr. Stone is also providing public involvement support services throughout the duration of the project. This project consists of preparing a Congestion & Infrastructure Study on US 17. The study area is approximately three miles from Avondale Avenue at Savannah Highway, across the Ashley River Bridges and through the Crosstown to its connection with I-26 near Coming Street. It includes the intersections and interchanges with major arterials such as SC 61, Wesley Drive, Folly Road, Lockwood Boulevard and the James Island Connector.

US 17 at Main Road (S-20) Interchange Improvements and Main Road (S-20) Widening – Charleston County, SC | Mr. Stone serves as the Environmental Permitting Lead responsible for the preparation and submittal of the Section 404 wetland permit and associated critical area permit to the USACE and SCDHEC-OCRM, respectively. This project consists of providing engineering services necessary for the preparation of an Environmental Impact Statement (EIS), preliminary road and bridge plans, right of way plans, and final construction plans for roadways and bridges; traffic studies for constructing a grade separated interchange at US 17 and Main Road; widening Main Road and Bohicket Road from Betsy Kerrison Parkway at River Road to Bees Ferry Road; replacing the existing Main Road Bridge over the CSX Railroad; and constructing a shared use path from the West Ashley Greenway to Bees Ferry Road. In addition, existing flooding of Main Road between US 17 and CSX Railroad will be addressed.

Pathways Project – Beaufort County, SC | This project consists of the design services necessary for the addition of a 10' pathway along sections of roadways throughout the County. The purpose of this project is to help provide safe walking routes to schools and improved access to residential communities. The total length of the pathways is approximately 16.4 miles for the projects assigned to date. Mr. Stone serves as the Environmental Manager responsible for managing and delivering all environmental services including wetland delineations, jurisdictional determinations, and subsequent wetland permitting services.

Emergency Bridge Package 2018-1 – Orangeburg and Dillon Counties, SC | As the Environmental Manager, Mr. Stone provided NEPA compliance, acquisition of Section 404/401 permitting, and environmental compliance support during construction. This Design-Build (DB) project involved the replacement of three bridges including S-50 (Four Holes Road) over I-26 in Orangeburg County and S-45 (Lester Road) over Little Pee Dee River and Swamp in Dillon County. The original 266' S-50 Bridge (which was severely damaged by vehicular impact and subsequently demolished in March 2018) was replaced with a 2-span, 45" deep Florida I-Beam bridge with a cast-in-place concrete interior bent supported by pile footings and MSE walls in front of pile-supported integral end bents. The design allowed for 2 lanes of future widening in each direction of I-26 to the inside providing a 72' clear opening for both directions of traffic. The bridge replacements on S-45 consisted of prestressed hollow-cored slab superstructures with prestressed pile-supported interior bents at both sites. All three bridges required formal seismic analysis and design in accordance with the SCDOT Seismic Design Specifications, and the S-50 site required a pushover analysis.

Fred Nash Boulevard Widening and Extension – Horry County, SC | This project consists of widening Fred Nash Boulevard to a three-lane section and extending the roadway from its current termini to a proposed intersection with Harrelson Boulevard in Horry County. Mr. Stone is serving as the Environmental Manager responsible for environmental documentation and acquisition of applicable Section 404/401 permits.

SC 421 (Poplar Street/Augusta Road) Bridge Replacement over Little Horse Creek – Aiken County, SC | SCDOT has identified the need to replace the existing SC 421 Bridge over Little Horse Creek in Aiken County, which was originally built in 1957 and reconstructed in 1972. The existing bridge structure is a T-Beam concrete cast-in-place superstructure measuring 94 feet long by 64 feet wide. The existing bridge/approach is a four-lane curb and gutter section with no median and the sidewalks are less than five feet wide. Mr. Stone serves as the Environmental Manger responsible for the completion of a Categorical Exclusion NEPA document and the acquisition of the Section 404 individual permit. The Categorical Exclusion document was completed in 2019 and included de Minimis Section 4(f) evaluation, various environmental technical studies, and public involvement efforts.

Wade Hamilton, EI

Aviation Designer

EDUCATION:
BS, Environmental Engineering, Louisiana State University (2021)

EXPERIENCE:
Career: 2021 – Present
ICE: 2021 – Present

REGISTRATION:
Engineer-In-Training: LA #0035015

CERTIFICATIONS:
NPDES Stormwater

Mr. Hamilton serves as an Aviation Designer for ICE's Baton Rouge office, working for airport clients throughout the state of Louisiana with an emphasis on environmental projects involving hydraulic modeling, environmental site assessments, and NEPA compliance. He has cultivated an understanding of FAA environmental policies and construction specifications as well as industry safety protocols and operational standards. Mr. Hamilton has experience tracking government funding and providing project management services. He is well-versed in ArcGIS, AutoCAD, Autodesk Civil 3D, EPANET, and HEC-RAS.

EXPERIENCE:

Perimeter Fence, Allen Parish Airport – Oakdale, LA | This project involved a preliminary site investigation, wetland delineation, and preparation of GIS figures to be used for environmental permitting applications. Mr. Hamilton served as a Junior Environmental Specialist for the field investigations and as a Designer for the preliminary design. He was responsible for assisted with delineating wetlands, preparing GIS figures, and CATEX documentation.

Airport Obstruction Removal Project, Allen Parish Airport – Oakdale, LA | Serving as a Designer, Mr. Hamilton assisted in the preparation of a workplan for the clearing activities to present to the US Army Corps of Engineers. The scope included the identification of trees obstructing the navigable airspace and selection of an appropriate clearing method. Mr. Hamilton analyzed survey data pertaining to the trees and imaginary 3D surfaces representing the Airport's navigable airspace. He performed slope calculations and helped identify which trees needed to be removed.

T-Hangar Development, DeQuincy Industrial Airpark – DeQuincy, LA | Mr. Hamilton served as a Designer and assisted with the design of three t-hangar buildings and the associated pavements to access the site. Elements of the site development included hydraulic modeling, material volume calculations, and pavement design.

PREVIOUS EXPERIENCE:

Internship – Baton Rouge, LA | Mr. Hamilton served as an Aviation Design Intern for ICE's airport clients statewide. He focused on environmental disciplines including hydraulic modeling, geotechnical engineering, NEPA compliance, and wildlife mitigation. Mr. Hamilton conducted environmental assessments and tracked government funding sources and project timelines. He became abreast with FAA environmental policies and construction specifications and gained experience regarding design rationale and calculations.

Internship – Charleston, SC | Mr. Hamilton served as an Environmental Engineering Intern (II) for Meridian Energy & Environmental, LLC on a contracted project to conduct labelling and safety updates at a chemical manufacturing plant in collaboration with LANXESS Chemicals. In this role, he interpreted process and instrumentation diagrams pertaining to reactors, scrubber equipment, ventilation systems, and related machinery. Mr. Hamilton familiarized with on-site industrial safety protocols and operational standards.

Internship – Charleston, SC | Mr. Hamilton served as an Environmental Engineering Intern (I) for Meridian Energy & Environmental, LLC. During his internship, he designed a hydrogen peroxide-UV light water treatment system for local engine manufacturing clients. Mr. Hamilton also assisted the owner/principal with environmental consulting services and legalities and prepared Form R documentation for clients-based safety and product data sheets.

BRANDON HIERS, PE, ENV SP
SENIOR CIVIL ENGINEER/PAVEMENT ENGINEER

Brandon Hiers, PE, ENV SP, serves as AVCON's Senior Pavement Engineer for airfield pavements from initial materials evaluation through construction administration and acceptance testing. He has been responsible for overall scope development for Airfield Pavement Management System (APMS) programs; in-field pavement evaluations; and modifications of standards to achieve optimal designs. Brandon has attended advanced materials courses with the Asphalt Institute and American Concrete Pavement Association and has successfully designed numerous airfield pavements utilizing both asphalt and concrete. He also serves as technical advisor on airport projects for the firm, ranging from major airfield rehabilitation projects to minor emergency repairs; airline gate, fueling and Passenger Boarding Bridge analysis; grading and drainage design; and utility adjustments. He has hands-on knowledge of FAA's FAARFIELD and COMFAA programs and is an expert at AVIPLAN, used to validate airfield geometry, simulate aircraft movements, and optimize apron utilization.

TAXIWAY F EXTENSION AND CONSTRUCTION OF TAXIWAY E
Winter Haven Regional Airport, Winter Haven, FL | Project Engineer
This $4.1M project consisted of extending Taxiway F to the Runway 5 and 23 ends, new construction of Taxiway E from the Runway 11 end to the intersection of Runway 5-23, and new blast pads on the Runway 5 and 23 ends. The electrical components of the project included new LED taxiway edge lights, cable and conduit, and signage. The project also included drainage improvements and markings.

RUNWAY 14-32 REHABILITATION
Valkaria Airport, Brevard County, FL | Project/Pavement Engineer
The objectives of this $3.5M project were to extend the useful life of the existing pavements, to update the pavement geometry and to enhance the safety of air operations at the airport. Another component of the project involved installing a complete FAA Medium Intensity Runway Lighting (MIRL) system using LED technology for Runway 14-32. In addition, a new electrical vault with new electrical service connection was constructed. Existing runway threshold lights on Runway 10-28 were located and connected to the new electrical vault. The lighting, marking and signage was also replaced/upgraded for the future non-precision approach.

REHABILITATION RUNWAY 4-22
Zephyrhills Municipal Airport, Zephyrhills, FL | Project Manager
Pavement rehabilitation involved recycled stabilized base construction utilizing the existing pavement structure (asphalt and limerock) prior to a 4 in asphalt overlay. Additionally, an area of concrete in poor condition at the Runway 22 end was removed and crushed on site to create additional new base material. The runway numerals were adjusted from 4-22 to 5-23 to account for the current magnetic declination. The project also included rehabilitation of the runway lighting systems (upgrade to LED edge lights, threshold lights, and REILs), new signage, and the installation of two new 4-Box PAPIs, as well as marking and grooving of the runway. A new taxiway and hold apron were constructed to de-conflict the Runway 22 and Runway 18 ends to comply with geometric requirements of FAA AC 150/5300-13A.

REHABILITATION OF RUNWAY 6-24
Kissimmee Gateway Airport, Kissimmee, FL | Project Engineer
This $2.8M project consisted of pavement and geometry analysis for rehabilitation of Runway 6-24 (5,000 x 150 ft); design provision for Runway 6 standard blast pad; airfield lighting, vault, and navigational aid analysis and design to consider future Runway 6 extension and LED versus Quartz/Halogen technology; temporary and permanent runway marking design; stormwater design and permit application; comprehensive land survey and geotechnical testing programs; comprehensive project and cost administration phase services; and FAA grant pre-application services.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (Sent.)

Brandon Hiers, PE, ENV SP | Airfield Electrical

RUNWAY 5-23 REHABILITATION

Tampa Executive Airport, Tampa, FL | Project Engineer

This $5.9M project included a pavement condition evaluation, rehabilitation alternatives analysis, and design of an asphalt rehabilitation for Runway 5-23 and the associated connector taxiways. To address changes in the FAA geometric requirements, the taxiway connectors were reconstructed to modify the fillet geometry between Runway 5-23 and Taxiway E. In addition, all of the runway and taxiway edge lighting, REIL's, PAPI's, and MALSR were replaced and the electrical vault upgraded to accommodate the airfield electrical improvements.

INVESTIGATION OF RUNWAY 12-30 EXTENSION

Mercedita Airport, Ponce, PR | Project Engineer

AVCON performed a preliminary inspection of the pavement at the Mercedita Airport. This included Runway 12-30 (6,900 ft x 150 ft), a single parallel taxiway, and two aprons. The commercial apron was constructed as a concrete pavement structure while all other facilities were constructed as asphalt pavement. The chronology of available aerial imagery indicates that no major rehabilitation has occurred for the concrete apron in over 20 years. The majority of the active runway was last rehabilitated in 2003 and the eastern half of the parallel taxiway was rehabilitated in 2006. A more recent project in 2010 rehabilitated the western runway extension and turn around; however this pavement has yet to be fully accepted and utilized due to issues arising from possible groundwater, construction materials, and/or construction methods. AVCON was tasked by the Puerto Rico Ports Authority with the evaluation of this specific area for determination of possible causes and remediation recommendations.

EAST AND WEST APRON REHABILITATION

DeLand Municipal Airport, DeLand, FL | Project Engineer

This $2.5 project includes the rehabilitation/reconstruction of the East and West Aprons that will be based on the Interim ALP Update (subject to FAA approval). A small section of the existing abandoned pavement will be removed as part of this project and the rest of the pavement will be rehabilitated/reconstructed for use as aircraft parking apron or taxilanes. Aircraft parking spaces will be identified, and tie-down anchors will be installed. Apron taxilanes will be delineated with pavement markings to meet the current FAA geometric requirements and eliminate "direct connect" issues with the runways. This will bring the pavements into compliance with the current FAA design standards per AC 150-5300-13A.

NORTH GENERAL AVIATION RAMP REHABILITATION

Naples Airport, Naples, FL | Project Engineer

This $2.2M project consists of rehabilitation of the flexible asphalt pavements of the North General Aviation ramp and taxilane areas located north, northeast, and east of the Terminal. Portland Cement Concrete aprons were designed around the T-hangars and other hangar buildings to keep flexible paving operations a safe distance away from the structures to prevent damage. The project included 95,000 SY's of asphalt pavement removal/milling and 12,000 tons of new asphalt placement.

RUNWAY 14-32 REHABILITATION

Valkaria Airport, Brevard County, FL | Project Engineer

The objectives of this $3.5M project were to extend the useful life of the existing pavements, to update the pavement geometry and to enhance the safety of air operations at the airport. Another component of the project involved installing a complete FAA Medium Intensity Runway Lighting (MIRL) system using LED technology for Runway 14-32. In addition, a new electrical vault with new electrical service connection was constructed. Existing runway threshold lights on Runway 10-28 were located and connected to the new electrical vault. The lighting, marking and signage was also replaced/upgraded for the future non-precision approach.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8 (5 pt.)

CARL JOHNSON, EC, ACE
SENIOR AIRFIELD LIGHTING SPECIALIST

Mr. Carl Johnson, EC, ACE, has 40+ years of experience in the planning, design, construction, and maintenance of electrical distribution systems and airfield lighting systems. For the last 32 years, his primary focus has been the design and construction/ inspection of area lighting, airfield lighting and NAVAID systems. Mr. Johnson's background in construction and design experience on a wide variety of general aviation, military, and air carrier facilities gives him unique expertise in the planning and detailed design of lighting facilities. He has an extensive knowledge of NFPA, NEC, IES, FAA, and military standards. Mr. Johnson serves as a voting member on the IES Technical Committee for the Illuminating Engineering Society's Recommended Practice 37 (RP-37) Outdoor Lighting for Airport Environments. RP-37 provides FAA and industry recognized guidelines for lighting all aspects of an outdoor airport environment. Mr. Johnson has presented several papers on airfield lighting, electrical maintenance and electrical safety.

RELEVANT EXPERIENCE:

TAXIWAY G AND NEW ELECTRICAL VAULT
Ormond Beach Municipal Airport, Ormond Beach, FL | *Senior Airfield Lighting Specialist*
This $4M project included design of a full-length taxiway Golf parallel to existing Runway 17-35. AVCON completed an Electrical Vault Study and report which included make and inventory of the existing electrical vault, load measurements of equipment and airfield lighting regulators and results. The new electrical vault included a 13 ft x30 ft pre-cast concrete wall building, site constructed, with new Airport Lighting Control System (ALCS), regulators, conductors, main and auxiliary panels, main disconnects, and HVAC System. A new diesel-powered backup generator with support pad and appurtenances was also constructed.

RUNWAY 14-32 REHABILITATION
Valkaria Airport, Brevard County, FL | Senior Airfield Lighting Specialist
One component of this $4M project involved installing a complete FAA Medium Intensity Runway Lighting (MIRL) system using LED technology for Runway 14-32. In addition, a new electrical vault with new electrical service connection was constructed. Existing runway threshold lights on Runway 10-28 were located and connected to the new electrical vault. The lighting, marking and signage was also replaced/upgraded for the

REHABILITATION OF RUNWAY 6-24
Kissimmee Gateway Airport, Kissimmee, FL | Senior Airfield Lighting Specialist
The project consisted of design and bid phase services, including pavement and geometry analysis for rehabilitation of Runway 6-24 (currently 5,000 ft x 150 ft); design provision for the Runway 6 standard blast pad; airfield lighting, vault, and navigational aid analysis and design to consider future Runway 6 extension and LED versus Quartz/ Halogen technology; temporary and permanent runway marking design; storm-water design and permit application; comprehensive land survey and geotechnical testing programs; comprehensive project and cost administration phase services; and FAA grant pre-application services.

TAXIWAY F EXTENSION AND TAXIWAY E
Winter Haven Municipal Airport, Winter Haven, FL | Senior Airfield Lighting Specialist
The project consisted of extending Taxiway F to the Runway 5 and 23 ends, new construction of Taxiway E from the Runway 11 end to the intersection of Runway 5-23, and new blast pads on the Runway 5 and 23 ends. The pavement structure for all new pavements consisted of bituminous surface course on a limerock base course. The total asphalt quantity was approximately 7,225 tons of P-401 asphalt. The 10 ft-wide taxiway shoulders was constructed of compacted and stabilized subgrade. The electrical components of the project included new LED taxiway edge lights, cable and conduit, and signage. The project also included drainage improvements and marking new taxiway pavement and runway blast pads.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9fa5e8 (Sent.)

RUNWAY 4-22 REHABILITATION

Zephyrhills Municipal Airport, Zephyrhills, FL | Senior Airfield Lighting Specialist

Pavement rehabilitation involved recycled stabilized base construction utilizing the existing pavement structure (asphalt and limerock) prior to a 4 in asphalt overlay. Additionally, an area of concrete in poor condition at the Runway 4-22 end was removed and crushed on site to create additional new base material. As part of the project, the runway numerals we adjusted from 4-22 to 5-23 to account for the current magnetic declination. The project also included rehabilitation of the runway lighting system (upgrade to LED edge lights, threshold lights, and REILs), new signage, and the installation of new 4-Box PAPIs, as well as marking and grooving of the entire runway.

REHABILITATION OF TAXIWAYS - PHASE 1

Orlando Executive Airport, Orlando, FL | Senior Airfield Lighting Specialist

This project included the rehabilitation of the existing asphalt pavement, lighting, signage, and markings for Taxilane E and portions of Taxiways E, E4, E5, A, and B. The work also incorporated the reconstruction and realignment of Taxiway E6 and associated grading. This project was one of the first projects constructed in Florida per FAA AC 150/5300-13A (Change 1). Key project elements included milling approximately 24,000 SY of existing taxiway pavement; constructing approximately 11,500 SY of new full strength and shoulder taxiway pavement; placing 5,500 tons of P-401SP asphalt; re-aligning the Taxiway E6 centerline to improve safety; installing LED taxiway edge lights and LED signage; and replacing electrical manholes with safer, more efficient new junction can plazas.

ASSESSMENT OF EXISTING AIRFIELD LIGHTING AND AIRFIELD LIGHTING VAULT

Page Field General Aviation Airport, Ft. Myers, FL | Senior Airfield Lighting Specialist

The project included a visual assessment of existing airfield lighting, signs, and vault at Page Field General Aviation Airport in anticipation of the program to upgrade and refurbish the existing lighting systems serving the airport. The goal of the project was to assess existing conditions, evaluate the requirements for upgrades or enhancements to the various systems, and prepare a series of conceptual estimates of the work. The purpose of this assessment was to bring the lighting system into conformance with current FAA regulatory standards and modern energy initiatives. Following the assessment, AVCON prepared a project report which defined the required upgrades and provided a basis for conceptual cost estimates to be used as part of the long-term, multi-phase airfield enhancement program. The airfield lighting vault assessment identified the incoming power system, regulators, emergency generator, and airfield lighting controls system and provided a general overview of building conditions to provide a framework for long-term implementation.

AIRFIELD LIGHTING VAULT STUDY

Perry Foley Airport, Taylor County, FL | Senior Airfield Lighting Specialist

The project included a detailed field evaluation and electrical capacity assessment to identify the requirements needed to upgrade and refurbish airfield electrical improvements and the existing airfield lighting vault serving Perry Foley Airport. The project included a program to conduct a field evaluation and electrical capacity assessment of the lighting vault in order to establish the baseline operating parameters of the vault. These results enabled the team to make a detailed assessment of upgrade requirements and define the airfield electrical improvement project. The study also included evaluation of vault and beacon tower lightning protection.

REHABILITATION RUNWAY 9L - 27R

Cecil Airport, Jacksonville, FL | Senior Airfield Lighting Specialist

Art performed design quality assurance reviews, provided construction administration phase services, and served as liaison to the Airport for this runway rehabilitation project. Construction consisted of demolition of two historic airplane arresting systems, de-coupling the pavement at the intersection with RW 18R – 36L, milling and resurfacing (M&R) 2-in of asphalt pavement for the 50-ft center keel of the runway, and M&R 1.5-inches for the 75-foot outer sides of the keel section. Also included were adjustments to the intersecting taxiway edge lighting, airfield signing adjustments, and re-painting the runway pavement markings.

RUNWAY 18L-36R REHABILITATION

Cecil Field, Jacksonville, FL | Senior Airfield Lighting Specialist

This rehabilitation project consisted of removing and replacing the center 50-foot concrete keel section of pavement—500' at the 18L end and 5,000' at the 36R end. The project also included remarking the entire runway to current standards. A short construction schedule, 120 days, was implemented to reduce the amount of time the runway would be closed. The project was successfully completed on time due to the combined efforts of the Contractor, RPR, JAA Staff, VQQ staff, and the Engineer.

EAST AND WEST APRON REHABILITATION
DeLand Airport, DeLand, FL | *Senior Electrical Designer*
This $2.5M project includes the rehabilitation/reconstruction of the East and West Aprons that will be based on the Interim ALP Update (subject to FAA approval). A small section of the existing abandoned pavement will be removed as part of this project and the rest of the pavement will be rehabilitated/reconstructed for use as aircraft parking apron or taxilanes. Aircraft parking spaces will be identified, and tie-down anchors will be installed. Apron taxilanes will be delineated with pavement markings to meet the current FAA geometric requirements and eliminate "direct connect" issues with the runways. This will bring the pavements into compliance with the current FAA design standards per AC 150-5300-13A.

REHABILITATE, MARK AND LIGHT RW 18-36
Wauchula Regional Airport, Wauchula, FL | Senior Electrical Designer
This $2.2M project comprised rehabilitating Runway 18-36 as well as standard Blast Pad design provisions, Medium Intensity Runway Light (MIRL) rehabilitation, REIL units, Airfield Lighting Vault study and necessary modifications, Navigational Aids (PAPI-4) analysis and design to consider LED technology, temporary and permanent Runway Marking design, stormwater and environmental review design, and obstruction clearing in both approaches per the latest AMPU.

TAXIWAY G AND NEW ELECTRICAL VAULT
Ormond Beach Municipal Airport, Ormond Beach, FL | *Senior Electrical Designer*
This $4M project included design of a full-length taxiway Golf parallel to existing Runway 17-35. AVCON completed an Electrical Vault Study and report which included make and inventory of the existing electrical vault, load measurements of equipment and airfield lighting regulators and results. The new electrical vault included a 13 ft x30 ft pre-cast concrete wall building, site constructed, with new Airport Lighting Control System (ALCS), regulators, conductors, main and auxiliary panels, main disconnects, and HVAC System. A new diesel-powered backup generator with support pad and appurtenances was also constructed.

TAXIWAY B RECONSTRUCTION
Zephyrhills Municipal Airport, Zephyrhills, FL | Senior Electrical Designer
This project primarily consisted of rehabilitating Taxiway B which was 5,150 ft x 35 ft. The project was divided into two separate bid schedules (to address AIP eligible and non-AIP eligible work). Bid Schedule A consisted of removal of existing asphalt surface course and limerock base course of Taxiway B (35 ft wide); placement of new P-401GY (4 in) asphalt over 6 in P-211 Limerock base course; fillet widening at the Taxiway B/Taxiway A intersection; new construction at the Taxiway B/Runway 1-19 intersection; new airfield markings; new LED lighting; and new LED signage. Bid Schedule B comprised removal of existing limerock and asphalt (outside 35 ft wide Taxiway B limits) near the Terminal Ramp; placement of new P-401GY (4 in) asphalt over 6 in P-211 Limerock base course; and crack sealing and seal coating the remaining Taxiway B pavement outside the reconstruction limits.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

RUNWAY 14-32 REHABILITATION

Valkaria Airport, Brevard County, FL | Senior Electrical Designer

One component of this $4M project involved installing a complete FAA Medium Intensity Runway Lighting (MIRL) system using LED technology for Runway 14-32. In addition, a new electrical vault with new electrical service connection was constructed. Existing runway threshold lights on Runway 10-28 were located and connected to the new electrical vault. The lighting, marking and signage was also replaced/upgraded for the future non-precision approach.

NEW ELECTRICAL VAULT LIGHTING DESIGN

Kissimmee Gateway Airport, Kissimmee, FL | Senior Electrical Designer

AVCON was responsible for the design of the building electrical/lighting and sizing of vault equipment and ALCS system. AVCON also provided an electrical site plan to indicate the power services lines, transformer pad locations, generator housing, control cable (hardware or fiber optic), airfield homeruns, etc. Some specific elements of the project included: electrical service for the airfield lighting vault which powers both the vault and ATCT; energy efficient LED lighting throughout the facility; grounding/lightning protection including a complete UL master label lightning protection system; a complete, addressable fire alarm and mass notification system; and a L-890 Airfield Lighting Control and Monitoring System (ALCMS) to monitor and control the constant current regulators, airport beacon, utility power and generator power systems.

REHABILITATION OF RUNWAY 6-24

Kissimmee Gateway Airport, Kissimmee, FL | Senior Electrical Designer

The project consisted of design and bid phase services, including pavement and geometry analysis for rehabilitation of Runway 6-24 (currently 5,000 ft x 150 ft); design provision for the Runway 6 standard blast pad; airfield lighting, vault, and navigational aid analysis and design to consider future Runway 6 extension and LED versus Quartz/Halogen technology; temporary and permanent runway marking design; storm-water design and permit application; comprehensive land survey and geotechnical testing programs; comprehensive project and cost administration phase services; and FAA grant pre-application services.

TAXIWAY F EXTENSION AND TAXIWAY E

Winter Haven Municipal Airport, Winter Haven, FL | Senior Electrical Designer

The project consisted of extending Taxiway F to the Runway 5 and 23 ends, new construction of Taxiway E from the Runway 11 end to the intersection of Runway 5-23, and new blast pads on the Runway 5 and 23 ends. The pavement structure for all new pavements consisted of bituminous surface course on a limerock base course. The total asphalt quantity was approximately 7,225 tons of P-401 asphalt. The 10 ft-wide taxiway shoulders was constructed of compacted and stabilized subgrade. The electrical components of the project included new LED taxiway edge lights, cable and conduit, and signage. The project also included drainage improvements and marking new taxiway pavement and runway blast pads.

RUNWAY 4-22 REHABILITATION

Zephyrhills Municipal Airport, Zephyrhills, FL | Senior Electrical Designer

Pavement rehabilitation involved recycled stabilized base construction utilizing the existing pavement structure (asphalt and limerock) prior to a 4 in asphalt overlay. Additionally, an area of concrete in poor condition at the Runway 4-22 end was removed and crushed on site to create additional new base material. As part of the project, the runway numerals we adjusted from 4-22 to 5-23 to account for the current magnetic declination. The project also included rehabilitation of the runway lighting system (upgrade to LED edge lights, threshold lights, and REILs), new signage, and the installation of new 4-Box PAPIs, as well as marking and grooving of the entire runway.

RUNWAY 9R MALSR

Cecil Airport, Jacksonville, FL | Senior Electrical Designer

This project consisted of technical planning assistance, survey and base drawings, engineering design, specifications, scheduling, cost estimating, bidding, and construction phase services in connection with the installation of a Medium Intensity Approach Lighting System with Runway Alignment Indicator Lights (MALSR) for Runway 9R. The project included siting, site preparation, utility service coordination, clearing and coordination with FAA to ensure a fully functional system.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9fa5e8 (5 pt.)

RICHARD OSBORNE, CM, ACE

Planning

Mr. Osborne serves as a Vice President of Aviation Planning for ICE supporting aviation projects throughout the Southeast. He is responsible for the production of aviation planning projects including master plans, airport layout plans, statewide system plans, benefit-cost analyses, Part 77 surface evaluation, runway length analyses, conceptual airport development plans, and various specialty studies. He assists with the project review process to ensure that the product delivered to clients is consistent, correct, and continuously improving. Mr. Osborne manages the planning staff in concert with the client and subconsultants to coordinate planning efforts; FAA Advisory Circular compliance; and design of airport facilities, projects, and programs. He is involved in the preparation of plans, reports, staff guidance, proposal preparation, and business development. Prior to joining ICE, Mr. Osborne served as the Director of Planning & Engineering for the Roanoke Regional Airport & Commission in Virginia and the Airport Director at for the City of Winter Haven in Florida. This experience from various locations provides him extensive knowledge of the aviation industry that he utilizes for his clients and the products he delivers.

EDUCATION:
BS, Professional Aeronautics, Aviation Safety (Minor), Embry-Riddle Aeronautical University (2002)

AS, Architectural Design and Construction Technology, Hillsborough Community College (1995)

EXPERIENCE:
Career: 1993 – Present
ICE: 2021 – Present

REGISTRATIONS:
AAAE Certified Member (CM)
AAAE Airport Certified Employee (ACE – Part 139 Operations)

CERTIFICATIONS/ TRAINING/LICENSES:
FAA Private Pilot's Certificate
FAA Small UAS Certificate
Airfield Lighting Training
Florida Real Estate License

EXPERIENCE:

Customs & Border Patrol Point of Entry Study, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | The Airport wanted to investigate the feasibility of establishing a point-of-entry through the implementation of a Customs & Border Patrol Point (CBP) facility. As Project Manager, Mr. Osborne coordinated with CBP personnel, reviewed available guidance, and performed an analysis of potential revenues versus expenses to determine financial feasibility. The forecast of activity and revenues determined that this facility would likely require subsidization with airport finances.

Runway Length Justification Study, Daytona Beach International Airport – Daytona Beach, FL | The FAA required a runway length evaluation of the Airport's main runway, Runway 7L-25R, to determine whether tangible evidence existed to warrant partial or full funding of the rehabilitation. Historical operational data gathered from the FAA FAA's Air Traffic Activity Data System (ATADS) and from the Bureau of Transportation Statistics (BTS) was utilized to determine that a length ranging between 8,100 and 8,800 feet was required. As a result, the pending maintenance project for the full runway length was funded by the FAA. Mr. Osborne served as Senior Planner and Project manager of this effort.

Master Plan Update, Sarasota International Airport – Sarasota, FL | Serving as Project Manager, Mr. Osborne was responsible for the production and oversight of the various master plan elements at the Airport. Mr. Osborne coordinated with team consultants, tenants, airport staff, and staff to gather and share project information to recommend improvements which would allow the Airport to accommodate the anticipated demand throughout the 20-year planning period. Some of the recommended improvements included the re-alignment of taxiways to comply with FAA standards, new rental car off-site facility, commercial apron expansion, and provisions for additional commercial hangar facilities.

Master Plan Update, Tallahassee Regional Airport – Tallahassee, FL | Mr. Osborne served as Senior Airport Planner responsible for the Master Plan Update. Alternatives were taken from the Master Plan Report and integrated into an ALP set and a subsequent Financial Plan showing phasing and cost estimates for all projects scheduled during the 20-year planning period. Grants, Passenger Facility Charges (PFC), and local funds were

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pgs)

allocated to fund various projects and the costs were then integrated into the Airport's financials to show financial deficits and surpluses.

Hillsborough County General Aviation Master Plan Updates – Hillsborough County, FL | Mr. Osborne served as Project Manager and provided oversight for the development of master plan updates for three general aviation (GA) airports: Peter O. Knight Airport (TPF), Tampa Executive Airport (VDF), and Plant City Airport (PCM). The updates assessed the operational efficiency, effectiveness, and safety of each airport; evaluated the airfield configuration, layout, and circulation for conformance with FAA guidance and regulations; developed a business plan that identifies the potential for new revenue generating sources within each airport's existing and/or ultimate property boundaries; evaluated and incorporated the aviation needs of both airport users and the surrounding communities; and assessed the needs of current tenants and requirements necessary to attract new tenants and/or to expand facilities.

Runway 4-22 Airplane Reference Code (ARC) and Runway EMAS Evaluation, Sarasota-Bradenton International Airport – Sarasota, FL | The crosswind runway, Runway 4-22, lacked the needed safety area to accommodate the activity that regularly utilized the runway. Mr. Osborne serving as Project Manage and performed an in-depth analysis of the Airport's operational activity to establish the runway's takeoff and landing length requirements to determine if threshold displacement was a viable option. He was responsible for the oversight and analyses of upgrading an existing general aviation runway from a B-II to a D-II while providing adequate safety area through use of an Engineered Material Arresting System (EMAS). Due to the frequent operations by the Canadair Regional Jet, the resulting analyses determined the only feasible solution that would preserve the runway's takeoff and landing lengths by incorporating the Engineered Material Arresting System (EMAS) at both runway ends.

A380 Implementation Strategy Project, Miami International Airport – Miami, FL | Serving as Aviation/Planner, Mr. Osborne was responsible for determining the most economically feasible improvement alternatives to accommodate the A380 at Miami International Airport. Two separate runway alignments were evaluated along with their respective taxi routes. Alternatives and cost estimates were developed to provide adequate runway and taxiway requirements as indicated in FAA Engineering Briefs #63 and #65.

Passenger Parking Lot Reconfiguration, Roanoke-Blacksburg Regional Airport – Roanoke, VA | Mr. Osborne served as Director of Planning & Engineering and coordinated closely with the civil engineer to reflect changes and improvements to the Airport's main passenger terminal parking facility. The parking lot had not been renovated in many years and was in dire need of rehabilitation and reconstruction. The newly renovated lot included a repositioned toll booth, a roundabout entrance road, and a new cell phone lot.

Consolidated Rental Car (CONRAC) Facility, Roanoke-Blacksburg Regional Airport – Roanoke, VA | Utilizing customer facility charge funding, the Airport constructed a CONRAC facility to be located east of the existing terminal facility. The facility included offices, lighting, HVAC, electrical, plumbing, and signage improvements. Serving as Director of Planning & Engineering, Mr. Osborne was responsible for project oversight which included coordination, budget, schedule, and final inspection.

Airfield Signage and Lighting Project, Roanoke-Blacksburg Regional Airport – Roanoke, VA | As Director of Planning & Engineering, Mr. Osborne coordinated with the Airport's engineering consultant to develop and modify plans, specifications, and ultimately the bid advertisement to select a construction contractor. Prior to the start of construction, Mr. Osborne also coordinated closely with the FAA tower and all airline and cargo operators to inform them of planned closures and night construction activity.

Building 51 Renovation Project, Roanoke-Blacksburg Regional Airport – Roanoke, VA | The Airport purchased a 50,000 square foot building that was located adjacent to the existing property boundary. A large portion of the main floor of the building was renovated for a future tenant. The Project included reconfiguration of the interior, electrical improvements, data cabling, carpet, tile, security access, and two white noise systems. Mr. Osborne served Director of Planning & Engineering and was responsible for project oversight.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

Richard Osborne, CM, ACE | Planning

Concourse A Renovation, Piedmont Triad International Airport – Greensboro, NC | Mr. Osborne served as Director of Planning and worked closely with a large team of consultants to perform various planning tasks for the renovation. These tasks included a detailed aircraft parking and hold room analyses with slope calculations along with the development of multiple schematic drawings.

Master Plan Update, Myrtle Beach International Airport – Myrtle Beach, SC | As Director of Planning, it was Mr. Osborne's responsibility to work closely with the Airport and allocate the resources needed to complete each task on-time and within budget. Current improvement plans include a runway extension, reconfigured parking and access, terminal and concourse expansion, commercial aeronautical development, and land acquisition.

Terminal Gate Utilization and Space Study, Myrtle Beach International Airport – Myrtle Beach, SC | Serving as Director of Planning, Mr. Osborne conducted a thorough evaluation of the terminal space and compared it against the Airport Cooperative Research Program (ACRP) 25 – Airport Passenger Terminal Planning and Design. As a result of this analysis, detailed space needs were identified for various areas of the Airport including hold room, ticket offices, ticket counters, circulation space, restrooms, concessions, and other space needs by type.

New Heliport, Annie Penn Hospital – Reidsville, NC | Mr. Osborne, Director of Planning, worked closely with hospital staff to plan for a new hard surface helicopter landing facility. The study included the analyses 77 surfaces, the identification of obstructions to be lighted or removed, and preliminary construction cost estimates.

Corporate Hangar and Apron Construction, Mount Airy/Surry County Airport – Mount Airy, NC | As Inspector for construction of this corporate hangar project, it was Mr. Osborne's responsibility to ensure that the contractor complied with the plans and specs as needed for a quality product. The Project included substantial grading, drainage improvements, lighting relocation, hangar erection, and apron construction.

Drainage Improvements Project, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | Serving as Airport Manager, Mr. Osborne worked closely with the civil engineer to implement a project to resolve various drainage issues that presented after heavy precipitation events. A plan was developed to divert water in different directions through site grading improvements and to improve drainage flow through the installation by removing vegetation within existing drainage areas and by installing new culverts for improved water flow.

Airport Lighting & Signage Project, South Lafourche Leonard Miller, Jr. Airport – Galliano, LA | As the Owner's Representative, Mr. Osborne coordinated closely with the Airport Engineer to provide input on the development of plans and specs for the advertisement for a construction contractor. After the selection of such, Mr. Osborne acted as the Onsite Representative providing construction oversight needed for staging, airfield access, in-field changes, and punch list items.

ADG-VI Airfield Upgrades Benefit Cost Analysis, Huntsville International Airport – Huntsville, AL | The Madison County Executive Airport Authority (MCEAA) desired a benefit cost analysis (BCA) for the purpose of justifying up to $80 Million in discretionary funding to upgrade the existing airfield to accommodate the 747-800 (ADG-VI) aircraft. The BCA concluded that the improvements would provide a benefit ratio of 1.0 or greater and were therefore deemed financially justifiable. Mr. Osborne served as Manager of Operations – Aviation Planning responsible for the BCA that was approved by the FAA.

Runway End Siting and Obstruction Analysis, Baton Rouge Metropolitan Airport – Baton Rouge, LA. | Obstructions that were once located within the approach paths of Runways 4L and 22R required that the thresholds be displaced to provide adequate clearance. The airport staff had removed many of these obstructions and the Airport desired an updated survey to reevaluate the approaches to determine whether the thresholds could be relocated closer to the runway ends for additional landing length capability. Mr. Osborne served as Project Manager responsible for this extensive planning effort. After evaluating multiple man made and vegetative obstacles in relation to FAA, FAR, and TERPs criteria, it was determined that some tree removal was required prior to relocating the thresholds to the end of usable pavement.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

Richard Osborne, CM, ACE | Planning

Master Plan Update, Columbia Metropolitan Airport – Columbia, SC | Serving as Deputy Project Manager, Mr. Osborne was responsible for the inventory, facility requirements, and ALP set components. During the facility requirements analysis, it was discovered that the main runway did not comply with FAA line of sight standards. Additional improvements included taxiway widening, apron expansions, and relocation of the airport's general aviation facilities to a new complex located on the south side of the Airport. In addition, provisions were made for relocation of the airport's Air Traffic Control Tower and Air Rescue and Fire Fighting (ARFF) facilities.

Aircraft Gate Utilization and Ramp Re-Marking Plan, Greenville Spartanburg International Airport – Greer, SC | The Airport replaced/upgraded 12 of their passenger boarding bridges and prompted staff to evaluate their new passenger boarding bridge performance capabilities to develop an updated aircraft parking and apron marking plan. This study evaluated each of the Airport's existing 13 gate locations (9 gates on Concourse A and 4 gates on Concourse B). Mr. Osborne served as Senior Airport Planner responsible for the new development plan that included the addition of three additional aircraft parking positions and striping plans that denoted the wheel stop locations, blast areas, and aircraft exterior silhouette markings.

Establishment of LPV Approach Procedures, Seven C's Ranch Airport – Freer, TX | The owner of a private airport desired to implement Lateral Performance with Vertical (LPV) guidance approach procedures to each runway end such that it could be accessed during IFR conditions. An Aeronautical survey was conducted and uploaded to the FAA's AGIS website in accordance with Advisory Circulars 150/5300- 16A, 17C, and 18B. Mr. Osborne, Senior Airport Planner, developed an ALP style plan along with an approach evaluation. He coordinated with both the FAA and the owner to get the new procedures implemented and published.

ATCT Tower Shadow and Line of Sight Study, Hammond Northshore Regional Airport – Hammond, LA | Due to increases in activity by larger aircraft, the Airport received a grant to construct an Airport Traffic Control Tower. To identify a suitable location and cab floor height, a shadow analysis was conducted by Mr. Osborne, Senior Airport Planner, performed technical analysis and served as the point of contact to the Airport Manager. Due to Airport's ILS system, the tower height and location was also compared to the TERPS surfaces for impacts. Ultimately, a location and height were identified, and the project moved forward to the design phase.

Runway Reconstruction and Taxiway Analysis Study, McGhee Tyson Airport – Knoxville, TN | A prior evaluation of Runway 5L-23R revealed that the profile did not conform to FAA line of sight standards and therefore posed a potential safety threat that could only be resolved through reconstruction. The new grades and slopes associated with the runway's reconstruction would ultimately affect all taxiways leading to the runway. For this reason, the Metropolitan Knoxville Airport Authority (MKAA) requested that the Airport's entire taxiway network be re-evaluated to identify improvements needed to improve access, capacity, efficiency, or safety. The methods and guidance provided in FAA Engineering Brief 75 (EB75) guided the proposed locations and alignments of development of preliminary concepts that were produced for the MKAAs review and comment. Mr. Osborne served as Senior Airport Planner responsible for project management, technical analysis, and client coordination. Meetings between the MKAA and FAA ATCT personnel were held to review the alternatives and to discuss methods to facilitate smooth traffic flow during construction. Based on the various analyses and meetings conducted, a preferred development concept and accompanying narrative report was developed and included preliminary engineering cost estimates.

Taxiway Widening/Temporary Runway Utilization, Chennault International Airport – Lake Charles, LA | Serving as Project Manager, Mr. Osborne reviewed the geometrical runway design standards to identify potential obstructions that could impact the utilization of Taxiway 'A' as an 8,000' temporary runway. He was also responsible for preparing detailed alternatives that were developed and presented to the Airport for their review and evaluation. As a result, a preferred alternative was identified that the Chennault International Airport Authority (CIAA) would continue to pursue in the future via design and construction.

Airport Overlay District, Lancaster County Airport McWhirter Field – Lancaster, SC | Mr. Osborne served as Senior Airport Planner responsible for developing an airport overlay district to restrict development adjacent to airport property that could otherwise negatively affect the airport's approach procedures or ability to extend its runways in the future. The overlay district ensured that compatible land uses were developed adjacent to the

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

Airport's property and the runway ends. Once submitted, the overlay district was adopted by the County and is now defined in Sec. 3-43, Sec 3-44, and Sec. 3-45 of Lancaster County's Code of Ordinances.

Gate Utilization Study, McGhee Tyson Airport – Knoxville, Tennessee | Mr. Osborne served Senior Airport Planner responsible for the study that created an updated aircraft parking plan. The purpose of the study was to gather accurate structural location and gate performance data to develop a plan that allowed the Metropolitan Knoxville Airport Authority (MKAA) to maximize the utilization of the concourse for aircraft parking, remain overnight (RON) parking, and for power-in/power-out operations. The layouts were developed under the assumption that the gates would be managed in a more efficient common-use arrangement in the future.

Master Plan Update, Tyler Pounds Regional Airport – Tyler, TX | Serving as Senor Airport Planner, Mr. Osborne was responsible for the development of the airport's financial implementation plan and capital improvement program (CIP). He worked closely with the airport director and accounting department to retrieve financial information and to understand the flow of finances. An accurate financial plan forecast, cash flow analysis, and phasing plans were developed to provide the Airport with a vision of future projects and their associated impacts on the finances.

Hangar Feasibility Study, Anderson Regional Airport – Anderson, SC | Serving as Senior Airport Planner, Mr. Osborne created a development plan to construct T-hangars, corporate hangars, and large commercial hangars to make use of a $2.5 Million revenue bond for the Anderson County Regional Airport (AND). A report was produced that illustrated the rates and charges of nearby airports and identified the demand for the various hangar types. Preliminary engineering cost estimates were developed, and potential rates and charges were shown to demonstrate the income potential of each hangar facility by type.

Master Plan Update, Jim Hamilton - L.B. Owen Airport – Columbia, SC | A changing economic climate and new airport vision facilitated the need for updated Master Plan. A review and forecast of activity showed that additional runway length and commercial, corporate, and T-hangar facilities would be necessary to accommodate demand through the 20-year planning period. The proposed plan depicted provisions for new facilities and identified many existing nonstandard conditions including ROFA and FAR Part 77 penetrations as well as a nonstandard runway to taxiway separation issues that were addressed through modification of design standards. Mr. Osborne served as Senior Airport Planner and Project Manager for the Master Plan Update effort.

Master Plan Update, Alexandria International Airport – Alexandria, LA | Mr. Osborne served as the Deputy Project Manager for the England Economic & Industrial Development District. He was responsible for the oversight and production of various master plan components including the Airport Layout Plan Set and inventory chapter. He has close coordination with airport authority staff was necessary to ensure the accuracy and detail of the various Master Plan improvements that were reflected within the ALP Set.

Master Plan Update, Upshur County Airport – Buckhannon, WV | Serving as Project Manager, Mr. Osborne performed engineering and planning services as required create a Master Plan and Airport Layout Plan. In addition to typical master plan elements, this study included mapping services and aeronautical survey of features on and adjacent to the Airport property and within the approach paths to each runway end. This work was subcontracted with a certified title attorney to establish the airport's ownership rights to subsurface minerals in order to identify an alternate source of revenue potential in the future.

Airport Business Plan and ALP Update, Lexington County Airport – Pelion, SC | Lexington County purchased the Airport from the town of Pelion and desired to investigate methods of achieving financial sustainability. A review of the Airport's finances and demand in the area concluded that T-hangar development, runway upgrades, and private development could collectively benefit the airport and help the county achieve its financial goals. Mr. Osborne served as Senior Planner and Project Manager for the ALP Update and Business Plan efforts. The development recommendations of the business plan were incorporated into the master plan alternatives and ultimately into the Airport Layout Plan Set.

Master Plan Update, Smith Reynolds Airport – Winston Salem, NC | Mr. Osborne served as position/role assisting in the development of a Master Plan Update for one of few FAR Part 139 general aviation airports in

the US. The 20-year development plan included recommendations to upgrade airfield navigational aids, improve approach procedures, and identified many areas within the airport's boundaries that would be slated for maintenance repair and overhaul (MRO) facilities as well as for general aviation and corporate hangar development.

Other Master Plan / ALP Updates:

- Aiken Regional Airport – Aiken, SC
- David G Joyce Airport – Winnfield, LA (ALP Update)
- South Lafourche Leonard Miller, Jr. Airport – Galliano, LA
- Darlington County Airport – Darlington, SC
- Zephyrhills Municipal Airport – Zephyrhills, FL
- Danville Regional Airport – Danville, VA
- M Graham Clark Downtown Airport – Branson MO
- Spacecoast Regional Airport – Titusville, FL
- St. Augustine Regional Airport – St. Augustine, FL
- Peter Prince Airport (2R4) – Milton, FL
- Orlando Sanford Airport – Sanford, FL
- Isla Grande Airport – San Juan, Puerto Rico

Miscellaneous Aviation Planning Studies:

- Cargo Study, Baltimore Washington International Airport (BWI) – Baltimore, Maryland
- Tower Line of Sight/Shadow Analysis, St. Petersburg-Clearwater International Airport – Clearwater, FL
- On-Call Services, Palm Beach International Airport – West Palm Beach, FL
- On-Call Services, Daytona Beach International Airport – Daytona Beach, FL
- On-Call Services, Galliano Airport – Cut Off, LA
- Environmental Assessment, La Isabela International Airport – Dominican Republic

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Count.)

MARY SODERSTRUM, AIA, NCARB
SENIOR AIRPORT PLANNER

Mary Soderstrum has over 41 years of experience as an airport planner, a senior aviation executive, facilities programmer, aviation activity forecaster, and architect. She has extensive expertise in airport master planning; facilities forecasting; and planning and design of aviation facilities including passenger terminals, aprons, airside facilities, terminal renovation, and airport expansion programs. Ms. Soderstrum was part of the team that wrote the FAA Advisory Circular 150/5070-6 Airport Master Plans, and she was the principal author of the FDOT Airport Master Plan Guidebook (2010). She recently served as a team member for the FDOT Airport Master Plan Guidebook 2021-2022 Update and the Aviation Project Handbook 2019 Update.

EDUCATION:
Bachelor of Architecture, 1976
University of Kansas

BS Environmental Design, 1975
University of Kansas

PROFESSIONAL REGISTRATION(S):
Professional Architect, FL
No. 0012255

Professional Architect, MO
No. 003931

YEARS OF EXPERIENCE:
41

YEARS WITH AVCON:
10

RELEVANT EXPERIENCE:

AVIATION PROJECT HANDBOOK
FDOT Central Office, Tallahassee, FL | Chief Planner
This project represented annual revisions to the prior Aviation Project Handbook to reflect current statutory regulations and state policies related to aviation funding for capital improvement projects at Florida public-use airports. The Handbook serves as an airport reference manual on the range of state-funding programs for airports, including eligibility criteria as well as conditions and other parameters for applying for aviation grants. In addition to grants, they provide guidance on the State Infrastructure Bank loans and provides current contact information for FAA and FDOT District officials.

GUIDEBOOK FOR AIRPORT MASTER PLANNING
FDOT Central Office, Tallahassee, FL | Chief Planner
This annual project involves a wholesale update to the FDOT's airport master planning manual, including the incorporation of updated data to reflect current FDOT and FAA polices for airport master plans. The Guidebook is the preeminent tool for Florida airports initiating a master plan update as it provides detailed and up-to-date guidance on the various technical elements of a master plan, methods for addressing these elements, and the state policies that compel airports seeking state funding assistance.

PTGA PROJECT SCOPE DESCRIPTIONS
FDOT Central Office, Tallahassee, FL | Chief Planner
This project included the development of project scope descriptions for use by the FDOT Aviation Office in administrating Public Transportation Grant Agreements (PTGAs) with Florida Airports. AVCON coordinated project types consistent with FAA National Priority Ratings and created unique project scope descriptions for the FDOT to utilize in the distribution and execution of state aviation grants to support airport projects. The project scope descriptions identified services commonly associated with airport projects and were developed consistent with Florida statutory requirements for state funding.

MASTER PLAN UPDATE
Ocala International Airport, Ocala, FL | Project Manager
Updated the existing Master Plan and Airport Layout Plans that justified the extension of the primary runway, provided for development of non-aeronautical development on the west side of the airfield, and developed the justification for an ATCT.

AIR TRAFFIC CONTROL TOWER SITING STUDY
Ocala International Airport, Ocala, FL | Project Manager
Directed the study that analyzed three sites on the Airport for the best location of a new contract ATCT based on the new Alternative Siting Process delineated in FAA Order 6480.4A.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

Mary Soderstrum, AIA, NCARB | Planning

AIR TRAFFIC CONTROL TOWER ENVIRONMENTAL ASSESSMENT

Ocala International Airport, Ocala, FL | Project Manager

Performed an environmental assessment on the selected ATCT site to assess the impacts the construction and operation the Tower could have on the environment.

SPACEPORT LAUNCH SITE OPERATOR'S LICENSE APPLICATION

Cecil Airport, Jacksonville, FL | Project Manager

Directed the highly detailed License Application process, which included not only risk assessments for the flight corridor of the anticipated vehicles but also addressed safety and security issues at the Spaceport and the surrounding community but also established a local emergency response plan.

SPACEPORT ENVIRONMENTAL ASSESSMENT

Cecil Airport, Jacksonville, FL | Project Manager

Directed the environmental assessment necessary for a launch site operator's license to operate Cecil Airport as a horizontal launch spaceport for reusable launch vehicles that are being developed as commercial vehicles that will take passengers and payloads into a suborbital flight and return.

INTERIM ALP UPDATE

Gainesville Regional Airport, Gainesville, FL | Project Manager

This project comprises development of an Interim ALP Update concentrating on Taxiway A and ensuring that it meets FAA AC 150/5300-13A.The project consists of geometry changes to Taxiway A. The changes consist of taxiways and taxiway stubs and associated fillets as they meet Taxiway A. These changes will show an extension of Taxiway A west to remove the curve in the existing taxiway before it reaches the threshold of Runway 7 and replacing the curve with a 90-degree angle. In addition, the run-up pads located on Taxiway A-4 and the west end of Taxiway A are being reconfigured to conform with FAA AC 150/5300-13A and sized to accommodate the appropriate sized and number of aircraft; future Taxiway D will be removed per the FAA-ADO; Taxiway A-5 is being reconfigured to move the connection with Taxiway A further to the east to have Taxiway A-5 meet Taxiway A at a 90-degree angle; the existing direct connection between the General Aviation apron and Taxiway A-5 is being removed; Taxiway A-1 is being removed; appropriate fillet size/radius of each turn for both ends of each taxiway connector to Taxiway A is being provided; Building Number 27 is being removed; and the old ARFF building is being removed. AVCON is also preparing cost estimates for the design and construction phases of the Taxiway A project.

MASTER PLAN UPDATE

Perry Foley Airport | Senior Airport Planner

This Master Plan Update included inventory of existing conditions, forecasts of aviation activity, environmental considerations, facility requirements, demand capacity analysis, runway length analysis, wind coverage analysis, the development and evaluation of alternatives, the development of an Airport Industrial Park on the site of a runway recommended for closure, the refinement of the preferred alternative, the updating of the Airport Layout Plan, the development of a Capital Improvement Program with project descriptions, cost estimates, and proposed project schedules.

AIRPORT LAYOUT PLAN UPDATE

Zephyrhills Municipal Airport, Zephyrhills, FL | Senior Airport Planner

This detailed Airport Layout Plan Update (ALP) included the development of new Aviation Activity Forecasts, the determination of the Primary Runway, the determination of runway lengths and widths, a Capital Improvement Program and the determination of funding sources, as well as a complete update of the Airport's Property Map.

MASTER PLAN UPDATE

Wauchula Municipal Airport, Wauchula, FL | Project Manager

This Airport Master Plan Update was prepared for the City of Wauchula and the Wauchula Municipal Airport to provide long-range airport improvement strategies that address the future demand for aviation and aviation-related services at the Wauchula Municipal Airport. This study considered future airport improvements for a 20-year period of 2012 to 2031.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

ANDREW NAZARKEWYCH

Planning

EDUCATION:
AS, Computer Drafting and Design, ITT Technical Institute (2003)

EXPERIENCE:
Career: 2002 – Present
ICE: 2019 – Present

Mr. Nazarkewych is a Senior Aviation Planning Designer and leads the production of aviation planning graphics and technical analyses for the firm. He has completed numerous Airport Layout Plans (ALPs) for airports throughout the country as well as specialty aviation planning assignments. Mr. Nazarkewych specializes in creating unique opportunities to constantly improve the production and quality of products and works across many design platforms including AutoCAD Civil3D, ESRI ArcMap, Blue Marble Global Mapper, and Transoft Solutions AviPLAN applications. In addition to his primary role in aviation planning, he routinely assists with architecture and engineering projects and provides assignments to junior designers and guidance regarding the technical delivery of submittals.

EXPERIENCE:

Airport Master Plan Update, Brooksville-Tampa Bay Regional Airport – Brooksville, FL | As a Senior Designer, Mr. Nazarkewych produced most of the AutoCAD graphics for the Master Plan Update including the Airport Layout Plan (ALP). The study included a large-scale land use analysis due to the availability of property for both aviation and non-aviation purposes. Many of the projects illustrated in the Master Plan Update have been implemented at BKV and Mr. Nazarkewych has assisted with multiple different aviation planning assignments and specialty studies for BKV during his tenure at a previous firm. The firm conducted a Master Plan Update for the Airport and Technology Center to promote safe and efficient airport facilities and the continued economic development of the 430-acre Technology Center, which is home to over 125 manufacturers and aerospace suppliers.

Airport Master Plan Updates, Peter O. Knight Airport, Tampa Executive Airport, and Plant City Airport – Hillsborough County, FL | Mr. Nazarkewych served as the Senior Designer for all graphic production by the company for this large-scale effort. Each airport has its unique character, and he was able to tailor the development of alternatives and recommendations accordingly.

Baggage Screening System Upgrades, Tampa International Airport – Tampa, FL | As Senior Designer, Mr. Nazarkewych was responsible for providing AutoCAD and planning support for this effort including the preparation of pre- and post-construction graphics.

Aviation Engineering/Architecture Services for Airport Development Projects, Livingston Executive Airport – Livingston Parish, LA | Mr. Nazarkewych serves as the Senior Lead Designer for this project which includes providing program development services for the justification, design, and construction of a new airport in Livingston Parish, Louisiana known as the proposed Livingston Executive Airport. His responsibilities include development of report graphics, ALP, NPIAS Justification Study graphics, and assistance with engineering schematics. This project includes a Justification Study for the proposed airport to enter the FAA's National Plan of Integrated Airport Systems (NPIAS), a feasibility study and preliminary engineering report for the proposed airport site airport master plan update; website development, community engagement and stakeholder engagement meetings; environmental analysis and permitting; architectural project visioning and conceptual design (including 3D renderings and fly throughs of the recommended airport concept); architectural preliminary building facilities design; engineering airport development and design; and Benefit-Cost Analysis (BCA). It is anticipated that the airport will be constructed and open within the next five years.

Airport Master Plan Update, Jim Hamilton L.B. Owens Airport – Columbia, SC | As a Designer, Mr. Nazarkewych was responsible for the production of all AutoCAD graphics for the Master Plan Update including the Airport Layout Plan (ALP). This airport is located in Downtown Columbia and surrounded by several sensitive land uses. Mr. Nazarkewych utilized his ability to quickly perform obstruction assessments as part of this effort with a combination of AutoCAD Civil3D and ESRI ArcMap tools. The Master Plan Update included various different obstruction assessments because of the surrounding land uses (e.g., a railroad) and

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

Andrew Nazarkewych | Planning

Mr. Nazarkewych was able to provide a resolution for all issues that allowed the airport to comply with FAA airspace regulations in a safe and efficient manner.

Airport Master Plan Update and Runway Justification Study, Rickenbacker International Airport – Columbus, OH | As a Senior Designer, Mr. Nazarkewych was responsible for the production of all AutoCAD graphics for the Master Plan Update including the Airport Layout Plan (ALP). This former military base has become one of the fastest growing international air cargo airports and multi-modal logistics centers in the United States in a short period of time and continues to experience aviation activity growth and significant development in the surrounding area. Mr. Nazarkewych translated the projected growth demands for wide-body international air cargo activities (including apron requirements and processing facilities) into a realistic development program that the Columbus Regional Airport Authority (CRAA) intends to follow to meet short-term and long-term demands. The Master Plan Update also included a Runway Justification Study to illustrate the need to maintain two parallel runways that are capable of supporting activity between Columbus and locations around the globe. He developed graphics for the Runway Justification Study that illustrated the global locations served from LCK and was able to clearly illustrate CRAA's preservation initiatives for both parallel runways.

Columbia Metropolitan Airport, Airport Master Plan Update – Columbia, SC | Mr. Nazarkewych assisted with the production of report graphics and the Airport Layout Plan (ALP) for the Master Plan Update. His primary role was to assist with AutoCAD efforts and to support the final production of the graphics and documentation for this effort.

Detailed Airport Layout Plan Update, False River Regional Airport – False River, LA | As a Senior Designer, Mr. Nazarkewych was responsible for the production of all AutoCAD graphics for the Detailed Airport Layout Plan Update. The effort included a detailed land use analysis to assist with determining where property acquisition was needed to construct additional hangars and support facilities. He helped to identify the required parcels and to develop a phased development plan for the False River Air Park Commission to follow to meet immediate and long-term development demands.

Airport Layout Plan Update and Business Plan, Orangeburg Municipal Airport – Orangeburg, SC | As a designer, Mr. Nazarkewych was responsible for the production of most AutoCAD graphics for the Airport Layout Plan Update and Business Plan. The effort included a detailed property map depicting existing property, released property, existing easements, and future property acquisition requirements and easements. He utilized his ability to interpret legal descriptions to digitize property information from deeds and to obtain approval of the ALP drawing set by the FAA.

Airport Layout Plan Update and Business Plan, Morehouse Memorial Airport – Bastrop, LA | As a Designer, Mr. Nazarkewych was responsible for the production of all AutoCAD graphics for the Airport Layout Plan Update. He attended meetings with the City of Bastrop to discuss opportunities to fulfill their long-term vision for the airport and translated that in the production of report graphics and the ALP drawing set.

Airport Master Plan Update, Upshur County Regional Airport – Buckhannon, WV | This airport was constructed at the top of a mountain and required an extensive terrain analysis to provide realistic recommendations for future airfield and landside development and also to evaluate obstructions associated with the surrounding mountainous terrain. As a Designer, Mr. Nazarkewych utilized AutoCAD Civil3D to identify the most cost-effective opportunities for development at W22 while complying with FAA requirements.

Airport Layout Plan Update (ALP), Aiken Regional – Aiken, SC | As a designer, Mr. Nazarkewych assisted with the production of AutoCAD graphics for the Airport Layout Plan Update. He assisted with the final delivery and production of submittals to the FAA and with quality control efforts.

Airport Layout Plan (ALP) Update, Darlington County Airport – Darlington, SC | As a designer, Mr. Nazarkewych was responsible for the production of all AutoCAD graphics for the Airport Layout Plan Update. He created high-quality graphics that illustrated opportunities for both aviation and non-aviation development at UDG and was asked to do follow-up work on the ALP to provide a clean full-color ALP that could be utilized for marketing purposes.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6548 (Sent.)

Bob Anderson, AIA

Architecture

EDUCATION:
BS, Architectural Design, Clemson University (1979)

EXPERIENCE:
Career: 1979 – Present
ICE: 2019 – Present

REGISTRATION:
NCARB, 1988, 36362

Registered Architect:
FL #AR100018

PROFESSIONAL AFFILIATIONS:
American Institute of Architects

Mr. Anderson specializes in architectural design for airport structures. His project management experience includes responsibilities for design and development of architectural projects beginning with preliminary studies and conceptual plan development, architectural design, interdisciplinary coordination, construction plan preparation, specifications, estimates, construction administration, and client consultation. With many years of experience, He has been the principal technical specialist in planning, designing, and administering the construction of both new and renovation commercial terminal programs, such as Augusta, Georgia; Monroe, Louisiana; Albany, Georgia; St. Petersburg, Florida, and Myrtle Beach, South Carolina. Mr. Anderson has also developed an area of expertise in creating airport terminal programs that reflect the specifics of their location through a "visioning process," combining physical layout, local design influences, and colors and materials to create unique designs. Mr. Anderson is also very familiar with the intricacies of planning and designing new general aviation terminals and hangars, ARFF stations, rental car maintenance facilities at many locations throughout the South and Eastern US.

EXPERIENCE:

Programming and Conceptual Design for Aircraft Rescue and Fire-Fighting Station (ARFF), Ocala Regional Airport – Ocala, FL | Through meetings with the Airport and Fire Department, Mr. Anderson performed programing for new ARFF station and created conceptual plans and site plans for a new 9,400-square-foot, one-story joint use fire station and airport rescue and firefighting (ARFF) facility. Consultant's tasks included researching and reviewing building and site documents; conducting a site visit; identifying immediate and long-term facility spatial and site development programming needs; identifying and evaluating building and site conceptual alternatives, including a preferred alternative, and preparing cost estimates for local and state funding.

CONRAC Facilities Refurbishment, Destin-Fort Walton Beach Airport – Valparaiso, FL | Mr. Anderson serves as Architect of Record on this project which will refurbish various aspects of the existing CONRAC Facility at the airport in order to satisfy immediate rental agency needs and upgrade aging mechanical equipment. The existing 10-station vacuum island currently serves as a bottleneck to rental car agency operations, inhibiting optimal efficiency. The project involves adding 20 vacuum stations to increase efficiency. The vacuum station will add two central 30hp pumps and debris canisters to power the system along with individual debris canisters to prevent the system from clogging. A steel canopy will be installed to cover the additional vacuum stations. The project also includes refurbishing various aspects of the facility, including replacing the existing fuel pumps with digital models, installing new inventory controls, replacing chip-key with proximity cards, and replacing all the wash equipment in the five-bay building. The project is funded through collected Customer Facility Charges (CFC's).

Hangar Feasibility Study, Gainesville Airport, Gainesville, FL | Mr. Anderson served as Planner and Designer. As a part of a development proposal, the consultant reviewed a 1.0-acre area for a new corporate hangar. Mr., Anderson specifically reviewed the code issues, conceptual site, and building layout for a potential tenant desiring a 14,000-foot hangar and 6,000 square feet of office and support facilities. Client reviews and estimated costs were prepared for client and Airport action.

Hangar Feasibility Study, Valkaria Airport – Valkaria, FL | Mr. Anderson served as Planner and Designer. As a part of an open-end contract, the consultant reviewed a new development area for corporate hangars and shade hangars. Mr., Anderson specifically reviewed the code issues, conceptual site, and building layout for a potential tenant desiring a 12,000-foot hangar and 3,000 square feet of office and classroom facilities for a maintenance repair program. Client reviews and estimated costs were prepared for client and Airport action.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pgs)

Bob Anderson, AIA | Architecture

Hangar Design Criteria Package, Sebastian Municipal Airport, Sebastian, FL | Mr. Anderson served as a Designer. As a part of an open-end contract, the consultant prepared a design -build criteria package for a new 3-bay corporate hangar. Mr., Anderson specifically reviewed the code issues, conceptual site, and building layout an 11,700-foot hangar and 5,000 square feet of office tenant areas, split into two locations. Client reviews and estimated costs were prepared for client and Airport action.

Terminal Renovations, St. Pete-Clearwater International Airport – Clearwater, FL | Mr. Anderson was responsible for Terminal Phase 1A, concepts and schematic design and detailed phasing plans. The consultant provided design and construction services for renovations included hold room expansion, ticketing renovations, and improvements to bag screening and security checkpoints.

Aircraft Rescue and Firefighting (ARFF) Facility, Gainesville Regional Airport – Gainesville, FL | Mr. Anderson duties consisted of reviewing project scopes and programming documents, and also providing Quality Control reviews for completeness and coordination between disciplines and between drawings and specifications. Consultant's design services consisted of design to replace the existing 5,600 s.f. ARFF station built in 1979. The new three-bay station consists of an 8,500 square foot building, new parking lot, and apron approach road on a site adjacent to the ATCT. The consultant provided planning, architecture, and engineering design services for the construction of the new ARFF facility.

Terminal Renovations, Orlando Sanford International Airport – Sanford, FL | Mr. Anderson was responsible for conceptual design and QC reviews of a pay-per-use / first class passenger lounge to accommodate tourist/charter traffic. The consultant provided design services for a 5,100 square foot renovation including a main "palm court" with bar, TV seating areas, private lounge rooms, and amenities for children including a toddler playroom, a game arcade, and a nursing room.

Terminal Area Planning Study, St. Petersburg- Clearwater International Airport – St. Petersburg, FL | Mr. Anderson was responsible for planning and design associated with Master Plan Update. Scope included demand capacity review, building program, floor plan and exterior renovation concepts, and estimates for renovations to the existing termina/ building.

Airport Planning Study, Daytona Beach International Airport – Daytona Beach, FL | Mr. Anderson was responsible for planning concepts for Parcel 62 development for aircraft hangar and aircraft maintenance. Site and building concepts for 150,000-square-foot cargo aircraft maintenance hangar (B727 to B 767 sized aircraft).

Terminal Planning Study, Tallahassee Regional Airport – Tallahassee, FL | Mr. Anderson was responsible for planning study for implementation/feasibility of EDS systems. Review included activity analysis, justification and sizing of equipment, development of multiple concepts illustrating trace detection, CTX and in-line systems, and cost estimates. The work was completed in less than three weeks in order to coordinate with TSA/Boeing rollout start.

General Aviation Terminal Building, Destin Executive Airport – Destin, FL | Mr. Anderson provided project conceptual design and programming. The consultant's design responsibilities consisted of the construction of a new 5,400-square-foot general aviation terminal and involved significant utility work, underground storage tank removal and permitting with the City of Destin. In addition, the project included site and building demolition of three existing buildings prior to construction of the new terminal.

Intermodal General Aviation Center, Albert Whitted Airport – St. Petersburg, FL | As a part of the program management services, Mr. Anderson performed planning and conceptual building and site design and reviews. This project was a part of the facilities enhancement project at the airport. The consultant provided design and construction services for general aviation facilities, which included a 10,000-square-foot terminal, two storage hangars, aircraft apron and taxiways, landside facilities, and utilities.

General Aviation Terminal Building, Gainesville Regional Airport – Gainesville, FL | Serving as a Project Designer and Planner Mr. Anderson was responsible for initial space programming, floor plan, and exterior concepts for 5,000-square-foot general aviation terminal. The FBO tenant was looking to meet Exxon Aviatat standards in new construction or in a renovation of their current facility.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e8e (5 pt.)

KARINA LANIER, AAIA

Architecture

EDUCATION:
Master of Architecture, University of South Florida (2012) | Professional Bachelor of Architecture and Arts, Universidad Piloto de Colombia (2006)

EXPERIENCE:
Career: 2005 – Present
ICE: 2019 – Present

PROFESSIONAL AFFILIATIONS / CREDENTIALS:
- Colombian Society of Architects
- National Professional Council of Architecture and its Ancillary Professions: Professional Registration Number A25192006-52997094

Ms. Lanier specializes in aviation architectural design. She has been involved in many different aviation architecture projects for both public and private sectors, ranging from small to large, and from conception to construction. Her project experience includes assisting with the design of major projects at Tampa International Airport, St. Pete-Clearwater International Airport, and several other Florida airports. Ms. Lanier has both new construction and renovation project experience, including those for: main terminal additions, interior renovations, TSA security line design, baggage handling systems, and restrooms. She effectively collaborates and coordinates with clients, stakeholders, and associated project engineers. Ms. Lanier is proficient in various software, including Revit, Lumion, AutoCAD, SketchUP, Bluebeam, and Artlantis Studio 4. For increased efficiency, Ms. Lanier utilizes software which allows for seamless coordination and collaboration with subconsultants.

EXPERIENCE:

General Aviation Terminal, Ocala International Airport – Ocala, FL | This Design-Build project involved the development of plans for a brand-new 17,500-square-foot general aviation terminal. The project required a design charrette to garner project stakeholder and community input. To help the City of Ocala in meeting its budget, alternatives were prepared during the design phase. The floor plan includes a restaurant, large conference area, rental car company offices, pilot rest and recreational facilities, and office space which allows for the full operation of fixed-base operator (FBO), Sheltair Aviation, which supplies jet fuel and food to the airplanes. For the Design Criteria Package which was developed in order to obtain competitive bids from General Contractors, Ms. Lanier served as the Senior Designer responsible for the Interior Design. Upon selection of the Design-Build firm, Ms. Lanier served as part of the Resident Project Representative (RPR) team, assisting with Construction Administration and the final Interior Design of the terminal.

T-Hangars, Box Hangars, and Access Taxiway Development, Valkaria Airport – Valkaria, Florida | Ms. Lanier is serving as the Task Leader on this project that involves designing, permitting, and bidding of three, 24-unit nested T-Hangar buildings with attached box end hangars as well as two separate box hangars, including taxidrives and taxilanes to be located off the north end of Runway 14. Work includes preparing civil site design drawings, technical specifications, and schematic drawings. Additionally, the team is tasked with developing the Construction Documents package for use in bidding and permitting the project.

Preliminary Design for Skimmers Point Gate Guard Relocation – Gulfport, FL | This residential project involves replacing the existing gate house with a new gate house structure to update the aesthetics to match the guard house on the opposite end of community. The new 250-square-foot ADA-compliant building will feature a clay tile roof, restroom, office, and storage space. Due to the location of the project, utility work was a significant component and required coordination with several utility agency owners. The scope of work consisted of demolishing the current guard building and relocating it southeast. Ms. Lanier was in charge of developing the guard house design and preparing the pricing set.

Restroom Improvements, Tampa International Airport – Hillsborough County, FL | This project involved design-phase evaluations for two upgraded restrooms at the airport. For airsides A and E, a complete demolition of the current restrooms preceded the implementation of a unique, modern design that reflected the character and theme of each airside terminal. As Senior Designer, Ms. Lanier was responsible for creating multiple design options prior to the development of the contract documents. To reduce the time the restrooms would be out of service, the project included phased and accelerated construction work activities.

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

Karina Lainer, AAIA | Architecture

Administration Building Design, Kissimmee Gateway Airport – Osceola County, FL | Ms. Lanier served as the Senior Designer on this project which included the design of a new airport administration building and related site improvements.

Ticketing A Baggage Claim System, St. Pete-Clearwater International Airport – Pinellas County, FL | This project consisted of the renovation and addition of the baggage claim system and airline office renovation. Ms. Lanier served as the Senior Designer and Interior Designer responsible for construction documents, interior design and construction administration of the project.

Phase III Gates 7 through 10 Terminal Expansion, St. Pete-Clearwater International Airport – Pinellas County, FL | This $7.5 Million project consisted of architectural and civil design services for the Phase III renovation and addition of the gates 7 through 10 terminals including the expansion of the TSA Checkpoint A and interior design. Ms. Lanier served as the Project Manager Assistant responsible for the construction administration of the project.

General Aviation Center, Punta Gorda Airport – Punta Gorda, FL | This project consisted of the architectural design of the General Aviation Center relocation for this Airport. Ms. Lanier served as senior designer and was responsible for the production of the construction documents. She also served as the interior designer for this project.

Customs Facility Renovation Planning and Design – St. Lucie, FL | This project consisted of the Customs Facility design for the St. Lucie Airport. The project involved interior renovation of 7,950 square feet. Ms. Lanier served as a Project Manager Assistant and was responsible for the construction administration phase of the project.

Fly School Facility New Hangar and Classroom Facility Design – Charlotte County, FL | This project consisted of a retrofit of an existing hangar to include a new office space inside the hangar as well as a new classroom facility next to the hangar. Mrs. Gutierrez-Lanier served as the Assisted Project Manager/Senior Designer responsible for the construction documents.

Materials Testing Lab/Construction Engineering and Inspection Center – Columbia, SC | The selected site includes an existing 18,000-square-foot warehouse building with limited offices which is suitable for the redevelopment needs of the firm. All new infrastructure was needed to support the building uses, while site improvement needs were very minimal. The selected site will be adjacent to the development of a new corporate headquarters for the firm. The existing warehouse was very industrial in appearance, and not in keeping with the adjacent office uses. The design suggested added windows and continuous canopies on the brick portions of the facades, and new storefront openings and canopies on the industrial metal sides to create a more consistent look for the professional services offered. This also made the facility consistent with the City development objectives for West Columbia. Ms. Lanier led the production from Schematic Design to Construction Documents and is currently leading the Construction Administration. She was also responsible for the Interior Design.

New Corporate Headquarters Building – Columbia, SC | To serve their needs as a growing industry leader, ICE decided to relocate the corporate headquarters to a 3-acre site on Highway 378 in West Columbia. The Initial development totals 33,000 square feet with future expansion capability of another 14,000 square feet. Site design includes approximately 160 parking spaces, as well as utilities and grading. The exterior massing emphasizes the central entry and corner stairways. The lower walls will be of brick and the upper floors of a stucco finish with horizontal reveals. Cantilevered roofs and an angled cornice further emphasize the horizontal nature of the building. Simple efficient materials are durable, cost efficient, and easily available to extend to the future addition. Ms. Lanier is serving as the Lead Designer and she is in charge of preparing the Schematic Design through Construction Documents, including pricing sets. She also focused on the Interior Design of the office. She worked directly with the firm's board of directors, as well as several leaders of the company, to satisfy the intent of the design by utilizing her experience of similar buildings.

JEFF LONG

Construction

EDUCATION:
AS, Civil Engineering, Wake Technical Community College (1994) | AS, Surveying Technology, Wake Technical Community College (1994)

EXPERIENCE:
Career: 1994 – Present
ICE: 2020 – Present

Certifications:
- ✓ ACI & NCDOT Concrete
- ✓ NCDOT Level II Erosion & Sediment Control
- ✓ Conventional Density
- ✓ ABC & Borrow Pit Sampling

Mr. Long has over 27 years of construction engineering inspection experience. His areas of expertise include civil construction inspections, sampling and testing of project materials, contractor coordination, documenting construction related activities and quantities in daily and monthly reports, constructability reviews, pre-construction submittals, quality control, and verification testing. Mr. Long ensures that construction procedures, design, and material specifications are met on each project. Projects have included airfield rehabilitation, roadway widenings and extensions, trailheads, bridges, culverts, land development, and utility services.

EXPERIENCE:

Taxiway A, Ocala International Airport (Construction Management) – Ocala, FL | Mr. Long serves as an Airfield Inspector responsible for providing full time RPR and inspection services. Mr. Long is responsible for inspecting all construction activities on site. The Taxiway A Rehabilitation project includes the milling and overlay of the existing taxiway as well as the demolition of several taxiway connectors and the construction of several new taxiway connectors. The project includes a re-alignment of portions of the existing taxiway as well as widening. Project includes the addition of taxiway edge lights and taxiway signage.

Taxilane and Sitework for Future Hangar Development and Taxiway "A" Repairs, Sebastian Municipal Airport – Sebastian, FL | Mr. Long serves as an Airfield Inspector responsible for providing RPR and inspection services. ICE prepared construction plans, specifications, and bid documents for the construction of a taxilane to serve future box hangar development located along the west side of Taxiway "A" between the existing police station and T-hangar site. ICE also led the design for the rehabilitation of 200 feet of Taxiway "A" on the south side of Runway 10-28, as well as the design of the parking lot and site utilities that will serve the future hangar development.

East Airfield Pavement Rehabilitation, Tampa International Airport (Construction Management) – Tampa, FL | Mr. Long served as an Airfield Inspector and was responsible for airfield construction inspections of construction activities to ensure compliance with the plans and specifications, coordination of the work that required runway, taxiway and airside apron closures with Airport Operations, coordinate and monitor all Quality Assurance testing required by the contractor specifications, document quantities of materials used on the project by generated spreadsheet format, maintain a daily report of construction activities and project photographs. The purpose of this project was to rehabilitate pavements for Taxiways E, U, G, N1 and S. Rehabilitation of these Taxiways consisted of an asphalt mill and overlay. The project also provided for the removal of Taxiway F and partial removal of Taxiway E. These Taxiways were asphalt and/or concrete. Removal of these Taxiways required modifications to the taxiway edge lighting and signage. This project also provided for the removal and reconstruction of connecting Taxiways between the FBO Apron and Taxiways S and D. The existing connecting Taxiways were a combination of concrete and asphalt. The new connecting Taxiways were constructed of hot mix asphalt with a lime rock base. New airfield lighting and stormwater collection was required. This project provided for the rehabilitation of the FBO Apron which included milling/overlay and seal coat. This project also provided for the removal and replacement of existing airfield markings throughout the majority of the airfield.

Taxiway N Reconstruction, Airfield Slab Replacement, Airside F Joint and Slab Rehabilitation and Taxiway W Reconstruction, Tampa International Airport – Tampa, FL | Mr. Long served as an Airfield Inspector and was responsible for; airfield construction inspections of construction activities to ensure compliance with the plans and specifications, coordination of the work that required runway, taxiway and airside apron closures with Airport Operations, coordinate and monitor all Quality Assurance testing required by the contractor specifications, document

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pt.)

quantities of materials used on the project by generated spreadsheet format, maintain a daily report of construction activities and project photographs. project consisted of several elements of work. The first element was the reconstruction of the Western half of Taxiway N in which the current PCC pavement was demolished and replaced by a new asphaltic cement section. The second element of work consisted of the reconstruction of the Southern half of Taxiway W in which the current PCC section was replaced by a new PCC section, with asphaltic shoulders. The existing lighting system associated with those sections of Taxiway N and W were removed and replaced with a new system. Where appropriate existing Quartz lights were replaced by LED lights. The last elements of work included the rehabilitation of airfield slabs and joints throughout the airfield.

Taxiway Rehabilitation – Phase 2, St. Pete-Clearwater International Airport (Construction Management) – Clearwater, FL | Mr. Long served as an Airfield Inspector and was responsible for airfield construction inspections of construction activities to ensure compliance with the plans and specifications, coordination of the work that required runway, taxiway and airside apron closures with Airport Operations, coordinate and monitor all Quality Assurance testing required by the contractor specifications, document quantities of materials used on the project by generated spreadsheet format, maintain a daily report of construction activities and project photographs. This project included performance of full-time inspection and Quality Assurance testing as well as general project administration and coordination. The project team also served as the liaison between the Airport and the Contractor. The areas of work included Taxiway A South of Runway 4-22 and Taxiways F and M (Base Bid); Taxiways B and T (Additive Bid #1); and Taxiways M, J, K and U (Additive Bid #2). Additional services included review of project documentation, conducting the Pre-Construction Conference, submittal reviews and requests for information, contractor pay applications, change orders, site visits and meetings, and Resident Project Representation (RPR).

Taxiway B Reconstruction, Zephyrhills Municipal Airport – Zephyrhills, FL | Mr. Long served as an Airfield Inspector and was responsible for airfield construction inspections of construction activities to ensure compliance with the plans and specifications, coordination of the work that required runway, taxiway and airside apron closures with Airport Operations, coordinate and monitor all Quality Assurance testing required by the contractor specifications, document quantities of materials used on the project by generated spreadsheet format, maintain a daily report of construction activities and project photographs. The project consisted of the reconstruction and realignment of Taxiway B from the FBO to Runway 1-19. Taxiway B was milled and resurfaced from the FBO to Taxiway A. The intersection of Taxiway A and B was reconfigured with new asphalt pavement geometry points, pavement markings, edge lighting and circuitry. Taxiway B from Runway 5-23 to 1-19 was relocated next to the existing portion of old Taxiway B, with new limerock base, asphalt pavement, pavement markings, edge lighting and guide signs. The project included the rehabilitation of the existing section of Taxiway B and portions of aprons located around the FBO by seal coat application.

Terminal Apron Rehabilitation, Sebring Multimodal Logistics Center – Sebring, FL | Mr. Long served as an Airfield Inspector and was responsible for airfield construction inspections of construction activities to ensure compliance with the plans and specifications, coordination of the work that required runway, taxiway and airside apron closures with Airport Operations, coordinate and monitor all Quality Assurance testing required by the contractor specifications, document quantities of materials used on the project by generated spreadsheet format, maintain a daily report of construction activities and project photographs. The purpose of this project was to rehabilitate the 36,500 SYDS of PCC terminal apron. The project involved the recycle of the existing PCC apron into crushed aggregate base course with 9” of P-501 PCC replacement. Construction of taxiways between Taxiway A and the terminal apron were included. Storm drainpipe and trench drain upgrades were required, in addition to airfield edge lighting modifications.

Taxiway A and Bridge, Tampa International Airport – Tampa, FL | Mr. Long served as an Airfield Inspector and was responsible for airfield construction inspections of construction activities to ensure compliance with the plans and specifications, coordination of the work that required runway, taxiway and airside apron closures with Airport Operations, coordinate and monitor all Quality Assurance testing required by the contractor specifications, document quantities of materials used on the project by generated spreadsheet format, maintain a daily report of construction activities and project photographs.

ROBERTO FARINAS

Construction

EDUCATION:
BS, Civil Engineering, Civil Aviation University, Kiev (1986)

EXPERIENCE:
Career: 1986 – Present
ICE: 2019 – Present

REGISTRATION:
Professional Engineer: Ontario, Canada

Since 1986, Mr. Farinas has been involved in infrastructure development projects which includes infrastructure, tunnels, electrical substations, roadways, and underground utilities. He has also been involved in the design, planning, and construction for airport projects in the United States, Canada, Qatar, and Cuba. Having obtained a bachelor's degree in Civil Engineering and as a licensed professional engineer in Canada, Mr. Farinas brings an in-depth understanding of engineering principles coupled with a proven track record performing thorough inspection of various construction activities. Having performed oversight on numerous construction projects through project acceptance and close out, Mr. Farinas is adept at record keeping, documentation, and grant assurances. His project experience includes having served as a Senior Construction Engineer on a multimillion-dollar new airport development project that included the construction of a midfield area systems, taxiways, aircraft aprons, access roads, sub-stations, underground utilities, and tunnels.

EXPERIENCE:

West Apron Expansion Construction, Destin-Fort Walton Beach Airport – Okaloosa County, FL | Mr. Farinas served as an inspector for the construction of this project which consisted of enlarging the West Apron to create five additional commercial aircraft ground loading apron spaces for A319/320 and other narrow body aircraft. The spaces also serve as remain overnight (RON) space for aircraft to base for early flights when all of the existing spaces with jet bridges are full or otherwise under exclusive lease by another airline. Adjacent existing asphalt apron pavement, taxiways and vehicle parking were also rehabilitated. Significant utility relocations were performed to include gravity sewer, force main, electrical and water service. Structural work included the construction of a steel covered walkway for passengers accessing a future terminal concourse. As the full-time RPR, Mr. Farinas' duties included performing inspection of construction activities to ensure work was completed in accordance with the plans and specifications; preparing daily reports; conducting weekly construction progress meetings; photographing the project's progress; coordinating with Airport Operations as well as other Airport contractors under separate contract for multiple projects; conducting Davis-Bacon interviews; and managing the overall QA effort. He also managed field engineering changes and modifications. Additionally, his duties included monitoring weather impacts, and identifying discrepancies or omissions in the issued for construction plans and communicating them to the Project Manager. He was in charge of coordinating the Independent Verification (IV) for testing and approval of materials, soils, asphalt, and concrete; witnessing and approving the testing and commissioning of electrical systems, water, and sanitary sewer lines; performing the preliminary walk through with Airport staff and identifying Punchlist items for rectification, as well as following up for the closure of the items noted; and preparing as-built documentation and close out.

Terminal Expansion, Southwest Florida International Airport – Lee County, FL | Mr. Farinas serves as Inspector on this $331 Million terminal expansion project at the airport. Work involves remodeling 164,000 square feet of the existing facility and adding 117,000 square feet of. ICE serves as a subconsultant on this project responsible for providing CEI services on this project.

General Engineering Consultant for the Town of Indian Shores – Indian Shores, FL | ICE was selected on a continuing contract to provide professional engineering services, such as site plan reviews, general civil engineering services, designs, specifications bid administration, construction services, municipal planning, transportation/traffic engineering, land surveying, environmental/hazardous materials services, management of the Town's NPDES permit, and other consulting services. Mr. Farinas has worked on the following task work orders assigned under this contract as Senior Inspector responsible for performing site reviews:

Doc ID: b7d3402fd6a7ce99e71a66a6e30d3d1cef9f6e9e (5 pgs)

- Residential Lot Site Plan Review – ICE is tasked with performing site plan reviews of single-family lots for new housing. ICE will assess planning and zoning needs and complete ordinance compliance reviews.
- Municipal Center Driveway Revision to Gulf Boulevard – ICE has been tasked to review the current design plans and utilize the paving and grading data to ensure the new driveway design will accommodate the FDOT design requirements. The existing driveway will be closed and converted to four new parking spaces with a new landscape barrier along Gulf Boulevard. ICE will update the design plans as needed and prepare a bid package for approval and place it out to bid for contractor pricing.

Airport Engineering for FAA-FDOT Funded Projects – Various Locations | Mr. Farinas served as an Aviation Project Engineer responsible for performing airport planning, design, construction administration, and technical observation of construction for the following airport projects in Florida:

- **General Aviation Terminal and Parallel Taxiway "C", Page Field Airport (FMY) – Fort Myers, FL**
- **Runway 06-24 Rehabilitation, Southwest Florida International Airport (RSW) – Fort Myers, FL**
- **Lighting and Signage Improvements, Naples Municipal Airport Airfield (APF) – Naples, FL** | Mr. Farinas served as RPR on this project for the City of Naples responsible for overseeing construction activities. He oversaw ensuring the Contractor was performing work as per the drawings and specifications and as per the approved material submittals. He performed daily coordination with airport operations about the work area for the day and the safety procedures to follow to minimize the impact to the aircraft operations, preparing daily reports, quantifying the installed quantities, approving payment requisitions, making sure the Contractor complied with the FAA Advisory Circular, Operational Safety During Construction. Mr. Farinas conducted the construction progress meetings and made sure the approved construction schedule was followed. He witnessed and approved the acceptance testing of the new systems as per the specifications. He participated in the final completion walkdown with the client and the General Contractor as well as prepared the punch list items and followed up to ensure the items were rectified. The scope of work involved the replacement of all the airfield lighting and signage for Runway 5-23 and Runway 14-32, as well as for the taxiway system, including the approach lighting system and the PAPI. Additionally, the CCR and panel at the electrical vault were upgraded.
- **Exit Taxiways, Page Field Airport (FMY) – Fort Myers, FL** | Design and Construction project
- **Airport Layout Plan Update, Page Field Airport (FMY), Fort Myers, FL**
  East Hangars, Page Field Airport (FMY), Fort Myers, FL | Design and Construction project
- **North Quadrant Site Development, Page Field Airport (FMY), Fort Myers, FL** | Design project
- **South Hangars, Page Field Airport (FMY), Fort Myers, FL** | Design and Construction project
- **Southeast Ramp, Page Field Airport (FMY), Fort Myers, FL** | Design and Construction project
- **New Parallel Taxiway "C", Immokalee Regional Airport (IMM) – Immokalee, FL** | Mr. Farinas served as an Aviation Project Engineer at the Immokalee Regional Airport responsible for construction of Taxiway "C", a new parallel taxiway to Runway 36. The following work was included as part of this project: the improvement of the stormwater drainage system, the rehabilitation of the existing General Aviation apron, the installation of new taxiway signage and pavement markings, and improvements to the airfield lighting system. Mr. Farinas served as part-time RPR overseeing the construction activities and ensuring installation was compliant with the drawings, specifications, and the approved material submittals.
- **New Parallel Taxiway, Everglades Airpark (XO1) – Everglades, FL** | Mr. Farinas participated on the planning and the design and prepared cost estimates for the project. He was the part-time RPR for the construction phase and performed technical observation of construction, prepared daily reports, and prepared close out documentation. The project consisted of the construction of a new parallel taxiway to Runway 15-33. Work on this project also included improvement of the stormwater drainage system, the installation of new taxiway signage and pavement markings, and improvements to the airfield lighting system.

Florida Department of Transportation

RON DESANTIS
GOVERNOR

605 Suwannee Street
Tallahassee, FL 32399-0450

KEVIN J. THIBAULT, P.E.
SECRETARY

July 29, 2021

Doug Hambrecht, Vice President-Florida Aviation
INFRASTRUCTURE CONSULTING & ENGINEERING, PLLC, LLC
5550 Idlewild Avenue, Suite 102
Tampa, Florida 33634

Dear Mr. Hambrecht:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following types of work:

Group 3 - Highway Design - Roadway

- 3.1 - Minor Highway Design
- 3.2 - Major Highway Design

Group 4 - Highway Design - Bridges

- 4.1.1 - Miscellaneous Structures
- 4.1.2 - Minor Bridge Design
- 4.2.1 - Major Bridge Design - Concrete
- 4.2.2 - Major Bridge Design - Steel

Group 5 - Bridge Inspection

- 5.4 - Bridge Load Rating

Group 6 - Traffic Engineering and Operations Studies

- 6.1 - Traffic Engineering Studies
- 6.2 - Traffic Signal Timing
- 6.3.1 - Intelligent Transportation Systems Analysis and Design
- 6.3.2 - Intelligent Transportation Systems Implementation

Group 7 - Traffic Operations Design

- 7.1 - Signing, Pavement Marking and Channelization
- 7.2 - Lighting
- 7.3 - Signalization

Group 10 - Construction Engineering Inspection

10.1 - Roadway Construction Engineering Inspection
10.3 - Construction Materials Inspection
10.4 - Minor Bridge & Miscellaneous Structures CEI
10.5.1 - Major Bridge CEI - Concrete
10.5.2 - Major Bridge CEI - Steel

Group 13 - Planning

13.5 - Subarea/Corridor Planning

Group 14 - Architect

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2022, for contracting purposes.

Approved Rates

Home/ Branch Overhead	Field Overhead	Facilities Capital Cost of Money	Premium Overtime	Reimburse Actual Expenses	Home Direct Expense	Field Direct Expense
172.41%	157.56%	0.274%	Reimbursed	No	11.60%	10.71%*

*Rent and utilities excluded from field office rate. These costs will be directly reimbursed on contracts that require the consultant to provide field office.

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

Should you have any questions, please feel free to contact me by email at carliayn.kell@dot.state.fl.us or by phone at 850-414-4597.

Sincerely,

Carliayn Kell
Professional Services
Qualification Administrator

CONSULTING & ENGINEERING

July 15, 2025

Matt Grow
Airport Director
Ocala International Airport
750 SW 60th Avenue
Ocala, FL 34474

Subject: Contract Extension

Dear Mr. Grow:

Our current contract with the City of Ocala expires on 7/19/2025. In the contract, it identifies three(3) one-year renewals. We would like to formally request that the City exercise one or more of these options to continue our long-standing working relationship.

If you happen to have any questions, please don't hesitate to call me at (850) 510-5525.

Respectfully,
Infrastructure Consulting & Engineering, LLC

Doug Hambrecht
Vice President

STAFF RECOMMENDATION (Motion Ready):

Approve three-year contracts with Infrastructure Consulting and Engineering, PLLC and McFarland Johnson, Inc. for continuing professional airport engineering services

..end

..end

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence
PROOF OF PUBLICATION:
Bid Released to the Public: 02/17/22; Selection Committee Meeting: 04/28/22; Final Selection Committee Meeting: 06/07/22

BACKGROUND:
The Airport has historically had an aviation engineering firm on a standing contract to conduct planning and engineering design work on an as needed basis. Airport projects are highly technical and specialized in nature and require firms that understand the rules and requirements of the Federal Aviation Administration (FAA) and Florida Department of Transportation (FDOT). Given the Airport's number of various and wide-ranging projects, it is beneficial to have two aviation engineering consulting firms under contract.

Per Competitive Consulting Negotiations Act rules, work will be divided among the two firms if they are equally qualified for the task. Where one firm has specialized experience or more qualified staff for a particular task, that firm will be assigned the work.

FINDINGS AND CONCLUSIONS:
On February 17, 2022, the City issued Letter of Interest (LOI) No: AIR/220118 seeking qualified firms for the provision of general aviation engineering services. The City received eight (8) responsive proposals to the LOI. A Selection Committee (comprised of an Airport Advisory Board member, Airport staff, and City Engineering staff) was formed to review and score the proposals. Initial scoring received from the Selection Committee on April 28, 2022 resulted in the shortlisting of the top five firms. On June 7, 2022, each shortlisted firm made a presentation to the Selection Committee and participated in a question-and-answer session thereafter. The Selection Committee scored each firm based on weighted criteria and Infrastructure Consulting & Engineering, PLLC, and McFarland Johnson, Inc. were selected as the highest ranked firms.

The FAA requires competent and qualified firms for their grant-funded projects. Both Infrastructure Consulting & Engineering, PLLC, and McFarland Johnson, Inc. have significant airport and planning experience. Engineering fees for each project are negotiated on a per-project basis using Task Work Orders. Additionally, for FAA-funded projects, independent fee reviews are completed. The continuing contracts will be for a three-year period with two optional one-year renewal terms.

FISCAL IMPACT:
All services will be approved through the use of Task Work Orders with negotiated scopes and approved proposals. Staff hours and appropriate staff classifications will be negotiated for each task for each assigned project. All final Task Work Orders must be signed by the department head and City Manager. Any Task Work Orders over $50,000 will be calendared for a City Council agenda for final approval. No services will be approved without budgeted allocations.

PROCUREMENT REVIEW:
These services have been procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
The Agreements will be reviewed and approved for form and legality by City Attorney, Robert W. Batsel, Jr.

Submitted By: Joshua Sasso

Presentation By: Joshua Sasso

Department: Police

STAFF RECOMMENDATION (Motion Ready):
Approve Fiscal Year 2024-2025 renewal of GrayKey forensic software in the amount of $69,520

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The Ocala Police Department has used GrayKey software since 2018. On May 24, 2018, the City posted a Sole Source Posting (SSP) No. SSP-166 for GrayKey software. SSP-166 closed on June 6, 2018, with no objections from other vendors. Grayshift, LLC, was the exclusive distributor for GrayKey in Florida. In March 2023, Grayshift, LLC merged with Magnet Forensics.

The software assists in collecting digital evidence for forensic analysis. It is one of the tools used by digital forensic technicians to process search warrants on computers, phones, tablets, and other electronic devices.

FINDINGS AND CONCLUSIONS:
Renewing this software is essential to ensure the Ocala Police Department maintains current licensing and support for the Graykey system. Since updates to electronic devices happen as often as daily, the software must stay current and receive continuous technical support to meet evidentiary standards. The renewal will help detectives keep up with the increasing demand for digital forensics.

FISCAL IMPACT:
Funding for this purchase was approved as part of the Fiscal Year 2024-25 Police Department budget, and $69,520 is budgeted in expenditure account 001-018-811-521-52-52045. This purchase will be tracked by Munis contract number 250725.

PROCUREMENT REVIEW:
These goods and services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

Text of Legislative File 2024-2076

Approve the Fiscal Year 2023-24 annual renewal of Graykey forensic software in the amount of $55,055

BACKGROUND:

The Ocala Police Department has been utilizing Graykey since 2018. The software aids in the collection of digital evidence to allow data to be forensically analyzed. The software is one of the tools that digital forensic technicians use to process search warrants on computers, phones, tablets, and other electronic devices.

FINDINGS AND CONCLUSIONS:

This software renewal is imperative to ensure that the Ocala Police Department has the current licensing and support for the Graykey software system. There are updates to electronic devices as often as daily and to ensure we are meeting evidentiary requirements; we need to ensure this system is technologically supported.

On May 24, 2018, the City advertised Sole Source Posting (SSP) No. SSP-166 for GrayKey software. SSP-166 closed on June 6, 2018, yielding no objection from any other vendors. Grayshift, LLC, is the sole distributor for GrayKey in the state of Florida.

FISCAL IMPACT:

Funding for this renewal is budgeted in the expenditure account 001-018-811-521-52-52050. This purchase will be tracked by Munis contract number 240964.

PROCUREMENT REVIEW:

These goods and services were procured in compliance with the City's Procurement Policy.

Sole Source Letter

To Whom It May Concern:

This letter is to provide notification that Grayshift, LLC ("Grayshift") is the sole source provider of GrayKey. GrayKey is internally developed and distributed only by Grayshift, and Grayshift owns exclusive distribution and marketing rights. Due to the unique proprietary nature of the technology, GrayKey is sold only as a direct transaction between Grayshift and its end customers. There are no agents or dealers authorized to represent this product.

GrayKey is a special purpose microcomputer with proprietary software that can be connected to a locked iOS device, whether it is an iPhone, iPad, or iPod and provides simple plug and play access to unlock the device. After the successful unlock of the target iOS device, the full contents of the file system are extracted from the iOS device to the GrayKey Unit. Once the extraction is complete, the contents may be downloaded from the GrayKey for further analysis by one of the market leading digital forensics analysis tools.

If you desire additional information, please contact me at the email address or phone number below.

Sincerely,

David Miles
Member and Co-Founder

1. Response Requirements

1.1. Anti-Lobbying/Communications

ANTI-LOBBYING/COMMUNICATION WITH CITY STAFF AND OFFICIALS:

To ensure fair consideration for all proposers/bidders, the City strictly prohibits any communication, whether or not written, verbal, or through a third party, relative to this solicitation with any department, City official, City Council member, or employee during the submission process, except inquiries directly made to the Procurement Department, Procurement Director, or as provided in the protest policy located at: www.bidocala.com/vendor-resources/

Additionally, the City prohibits communications initiated by a proposer/bidder, or agent, or third party of proposer/bidder to any City official(s), City Council member(s), or employee(s) evaluating or considering the proposals/bids prior to, and up to the time an award decision is made at a scheduled City Council meeting.

***** Any prohibited communications initiated by a proposer/bidder, or a third party on behalf of proposer/bidder, will be grounds for disqualifying the offending proposer/bidder from consideration for award of the solicitation >AND< will face a three (3) year debarment from doing any business with the City of Ocala. *****

*1.2. Vendor Agreements

One or more items in this section are required.

Compliance Certification:

As an authorized company representative, I certify my firm or corporation:

☐ Complies fully with the requirements of Florida Statute 287.087 for a Drug Free Workplace.

☐ Agrees to use the Department of Homeland Security's E-Verify system when hiring new employees for the term of the contract. (E-Verify is an electronic system designed to verify the documentation of job applicants. It is operated by the U.S. Department of Homeland Security.)

Owner/Authorized Company Representative initials:

Bidder Certification

By my submission of a bid response to an auction, and in accordance with your solicitation, I hereby submit this proposal and agree, if my proposal is accepted, to execute a contract with the City of Ocala in accordance with the solicitation and proposer response. I certify I have read, and will be bound by, all the terms and conditions of this solicitation and any resulting addenda and amendments, in its entirety and understand the scope of work and specification requirements.

Owner/Authorized Company Representative initials:

*1.3. SPECIAL CONDITIONS

One or more items in this section are required.

ADA NEEDS:
Please call the procurement professional shown on this listing forty-eight (48) hours in advance so arrangements can be made if reasonable accommodations are needed for you to participate in any meeting.

CLARIFICATIONS AND CORRECTIONS:
The City of Ocala reserves the right, where it may serve the City's best interest, to request additional information or clarifications from bidders/proposers, or to allow corrections of errors or omissions.

CONFLICT OF INTEREST:
Disclose the name(s) of any employee, officer, director, shareholder, or agent of your firm that is also a City of Ocala employee or public official:

Disclose the name(s) of any City of Ocala employee or public official that is a known relative of an employee, officer, director, shareholder, or agent of your firm:

Failure to disclose known conflicts of interest may result in bid rejection and/or contract termination, if awarded.

City of Ocala employees who have a 5% or more interest in a bidder's firm must also complete an "Officer and Employee Disclosure Statement" which can be obtained at www.bidocala.com under Vendor Resources. This form includes instructions and relative Florida statutes. Failure to complete this form, if applicable, may result in bid rejection.

CONTRACT FAILURE - BIDDING SUSPENSION

☐ **I understand and agree to the following:**
Bidders who submit a bid and/or enter into a contract with the City of Ocala and fail to fulfill the contract term, for any reason, will be subject to future bidding suspension for year (1), and up to a possible three (3) year bid debarment for serious contractual failures.

Owner/Authorized Company Representative initials:

PERFORMANCE EVALUATION:
At the end of the contract, the City may evaluate vendor performance. This evaluation will become public record.

FLORIDA STATUTE 287.133: Public Entity Crime; denial or revocation of the right to transact business with public entities.

☐ **Vendor on its behalf and its affiliates agrees and affirms that it has not been placed on the convicted vendor list following a conviction of a public entity crime as provided for in Section 287.133(2)(a), Florida Statutes, which states:**
a person or affiliate who has been placed on the convicted vendor list following a conviction for public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO, for a period of 36 months from the date of being placed on the convicted vendor list.

Owner/Authorized Company Representative initials:

Max. File Size you can upload is: 50MB. *.exe files will not be accepted

SAFETY AND ENVIRONMENTAL:
Vendor will be responsible at all times for precautions to achieve the protection of all persons including employees and property throughout the resulting contract term. The Vendor shall make an effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury or property damage. EPA, DEP, OSHA, and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. All hazardous spills, accidents, injuries or claims or potential claims shall be reported promptly to the City Risk Management Department at 352-629-8359.

☐ Agrees to comply with the safety and environmental requirements above.

Owner/Authorized Company Representative initials:

SOLICITATION DOCUMENTS:
The City of Ocala (City) has no responsibility for the accuracy, completeness or sufficiency of any bid documents obtained from any source other than the official City links below:

Bid Ocala: http://www.bidocala.com/
ProRFx Florida: http://florida.prorfx.com/

Obtaining these documents from any other source(s) may result in obtaining incomplete and inaccurate information. Obtaining these documents from any source other than directly from the source listed herein may also result in failure to receive any addenda, corrections, or other revisions to these documents that may be issued.

BIDDER CONTRACTS:
Bidder contracts/agreements will not be accepted. City of Ocala contracts will be used for all goods and services. The requirement of bidder contracts and/or bidder written terms and conditions may result in bid rejection. The City will consider adding appropriate bidder clauses into our contract; please upload any desired clauses with your solicitation response.

1.4. Electronic Bid Response

ELECTRONIC BID RESPONSE REQUIRED:

All bids/proposals **MUST be electronically submitted** by or before the due date under the appropriate solicitation/listing accessed online at: www.bidocala.com or www.prorfx.com

Bids/proposals **may not be submitted by any other means** other than as described above. The City will **NOT** accept bids/proposals sent by U.S. Mail, private couriers, fax or email.

Presentation By: Angel Jacobs

Department: City Clerk

STAFF RECOMMENDATION (Motion Ready):
Approve minutes from July 15, 2025 City Council meeting

OCALA'S RELEVANT STRATEGIC GOALS:
Operational Excellence

PROOF OF PUBLICATION:
N/A

Ocala
City Council
Minutes

110 SE Watula Avenue
Ocala, FL 34471

www.ocalafl.gov

Tuesday, July 15, 2025 **4:00 PM**

1. Call to Order

2. Roll Call

Present: Mayor Ben Marciano
Pro Tem Ire J. Bethea Sr
Council Member James P. Hilty Sr
Council Member Barry Mansfield
Council Member Jay A. Musleh
Council President Kristen M. Dreyer

a. New Employees

- Richard Crile, Electric
- Clay Surdam, Electric

3. Public Notice

- **Public Notice for the July 15, 2025 City Council Regular Meeting was posted on June 10, 2025**

4. Proclamations and Awards

4a. The Mayor's Citizen Recognition Award will be presented to Ashley Gerds

RESULT: POSTPONED

4b. Service Award - Doug Peebles - Director of Ocala Electric Utility - 25 Years of Service

Mayor Marciano and City Manager Pete Lee presented a service award to Doug Peebles in appreciation of his 25 years of service to the City of Ocala.

5. Presentations

15. City Attorney's Report

15a. Approve the Special Election Qualifying Procedures and Schedule

City Attorney Sexton discussed the approval of the special election qualifying procedures and schedule. The City is proposing to hold the special election on September 16, 2025, which is the same date of the original election. Mayor Marciano issued a proclamation calling for a special election to be held on September 16, 2025. The City is requesting City Council approve a qualifications period from 8:00 a.m. Wednesday, July 16, 2025, to 12:00 p.m. noon, Friday July 18, 2025, and qualification requirements used for the general election.

Mark Clark, 4989 SE, 5th Avenue, Ocala, FL, expressed concern the proposed special election qualifying procedures negatively impact City Council's ability to vote, due to conflict of interest.

Mr. Sexton confirmed Council Member Hilty does not need to be recused from the vote. Furthermore, he clarified the qualification regulations.

There being no further discussion the motion carried by roll call vote.

RESULT: APPROVED
MOVER: James P. Hilty Sr
SECONDER: Ire J. Bethea Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

6. Consent Agenda

Consent Agenda items are considered to be routine and will be enacted by one roll call vote. There will be no separate discussion of these items unless members of Council or the public request specific items to be removed for separate discussion and action.

RESULT: APPROVED THE CONSENT AGENDA
MOVER: Ire J. Bethea Sr
SECONDER: Barry Mansfield
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

6k. Approve minutes from July 1, 2025 City Council meeting

Presentation By: Angel Jacobs

7. Consent Agenda Items Held for Discussion

Should any items be removed from the Consent Agenda for discussion, they will be discussed at this time.

8. Introduction and First Readings of Ordinances

9. Public Hearings / Second and Final Readings / Adoption of Ordinances

9a. Public Hearing to consider an amendment to a Site Concurrency Development Agreement pursuant to Chapter 163, Florida Statutes (New Old Town Village LLC) for approximately 38.9 acres located in the 4300-4600 block of E Silver Springs Boulevard (Parcels 27028-004-03, 27028-004-00, 27028-004-01, 27029-000-02, 27028-003-00, and a portion of 2735-000-002) (DMA23-45430); this is the second of two public hearings; the first was held on June 9, 2025, before the Planning and Zoning Commission

Presentation By: Jeff Shrum

Council President Dreyer opened the public hearing for items 9(a) to 9(f).

Growth Management Director Jeff Shrum discussed the adoption of Resolutions 2025-29 and 2025-30 and Ordinances 2025-29, 2025-30, and 2025-31. The property owners are swapping parcels to support their development plans. He provided a brief overview of the subject properties, proposed amendment, acreage correction, PD plan, and staff findings. The Planning & Zoning Commission and staff recommend approval.

Jimmy Gooding, Applicant’s Attorney, 1531 SE 36th Avenue, discussed how the proposed design will remedy parking challenges at Mojo's and support development for both property owners. The future land use will be applied to the subject properties, and

the PD plan provides buffering for residents located to the south. The proposed plan will satisfy both property owners' development needs. He clarified the proposed development does not contain an affordable housing component.

No public comment.

There being no further discussion the motion carried by roll call vote.

RESULT: APPROVED
MOVER: Barry Mansfield
SECONDER: Jay A. Musleh
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

9b. Adopt Resolution 2025-29 to abrogate a portion of NE 47th Court between Block I, Lot 2 and Block F, Lot 17 of Glynnwood Unit 1 as recorded in Plat Book G, Page 91, of the public records of Marion County, Florida (Parcels 2735-0006-017 & 2735-009-002) (Case ABR23-45418) (Quasi-Judicial)

Presentation By: Jeff Shrum

There being no further discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: Barry Mansfield
SECONDER: James P. Hilty Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

9c. Adopt Ordinance 2025-29 to change the Future Land Use designation on approximately 0.78 acres for property located in the 1900 block of NE 49th Avenue (Parcels 2735-006-017 and 2735-009-002) from Neighborhood to Low Intensity (Case LUC23-45427) (Quasi-Judicial)

Presentation By: Jeff Shrum

Introduced By: Ire J. Bethea Sr

There being no further discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: Ire J. Bethea Sr
SECONDER: James P. Hilty Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

9d. Adopt Ordinance 2025-30 to rezone approximately 6.83 acres for property located at the southwestern corner of the intersection at NE 49th Avenue and E Silver Springs Boulevard (Parcel 2735-000-002, 2735-009-001, 2735-009-002, 2735-006-017, and a portion of parcel 27028-004-03) from PD, Planned Development, R-1, Single-Family Residential, & B-2, Community Business, to PD, Planned Development (Case PD23-45431) (Quasi-Judicial)

Presentation By: Jeff Shrum

Introduced By: James P. Hilty Sr

There being no further discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: James P. Hilty Sr
SECONDER: Ire J. Bethea Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

9e. Adopt Ordinance 2025-31 to rezone approximately 0.59 acres for property located at the southwestern corner of the intersection at NE 49th Avenue and E Silver Springs Boulevard (a portion of 2735-000-002) from PD, Planned Development, to B-2, Community Business (Case ZON23-45419) (Quasi-Judicial)

Presentation By: Jeff Shrum

Introduced By: Barry Mansfield

There being no further discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: Barry Mansfield
SECONDER: James P. Hilty Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

9f. Adopt Resolution 2025-30 to approve a resolution for a Planned Development Plan and Standards Book for property located at the southwestern corner of the intersection at NE 49th Avenue and E Silver Springs Boulevard (Parcel 2735-000-002, 2735-009-001, 2735-009-002, 2735-006-017, and a portion of parcel 27028-004-03), approximately 6.83 acres (Case No. PD23-45431) (Quasi-Judicial)

Presentation By: Jeff Shrum

There being no further discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: Barry Mansfield
SECONDER: James P. Hilty Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

9g. Adopt Ordinance 2025-33 to rezone approximately 18.24 acres for the property located southwest of the intersection at SW 48th Avenue and SW 49th Place (Parcel 23832-000-00 and a portion of 23894-002-00) from R-3, Multi-Family Residential, to B-2, Community Business (Case ZON25-0007) (Quasi-Judicial)

Presentation By: Emily Johnson

Introduced By: Ire J. Bethea Sr

Council President Dreyer opened the public hearing.

Senior Planner Emily Johnson discussed the adoption of Ordinance 2025-33. The applicant requested to rezone the subject property from R-3 (Multifamily Residential) to B-2 (Community Business), to accommodate future commercial development. She provided a brief overview of the property's history, rezoning, and staff findings. The Planning & Zoning Commission and staff recommend approval.

Jimmy Gooding, Applicant's Attorney, 1531 SE 36th Avenue, stated the property owner is requesting to revert back to the original zoning, due to a failed real estate transaction with the adjacent property owner, who previously requested to purchase the property to expand the development of multifamily housing.

No public comment.

There being no further discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: Ire J. Bethea Sr
SECONDER: James P. Hilty Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10. General Business

10a. Adopt Resolution 2025-34 providing for the reimposition of non-ad valorem Fire Assessments, establishing proposed rates for Fiscal Year 2025-26, directing preparation of the Fire Assessment Roll, setting a date for a public hearing, and directing publication and mailing notices of proposed Fire Assessments

Presentation By: Tammi Haslam

Budget Director Tammi Haslam discussed the tentative millage rates for Fiscal Year 2025-26. She stated the final action will take place at a public hearing scheduled for Thursday, September 11, 2025.

There being no further discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: Barry Mansfield
SECONDER: James P. Hilty Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10b. Adopt the Fiscal Year 2025-26 tentative millage rates: Basic City - 6.6177; District A - 1.7185; District B - 1.6332; District C - 1.4699

Presentation By: Tammi Haslam

Budget Director Tammi Haslam explained the City must provide its tentative millage rates, rollback rates, and date, time and place of the public budget hearings to the Marion County Property Appriaser no later than August 3, 2025. The tentative millage rates

become the ceiling for the rates and staff recommends the tentative rates remain the same as Fiscal Year 2024-25. She noted the budget will be discussed further at the August 12 Budget Workshop.

There being no further discussion the motion carried by roll call vote.

Ms. Haslam offered Council two options for meeting schedules. The preferred option would move the first Council meeting in September to Wednesday, September 3, to minimize the number of meetings Council would be required to hold.

City Council agreed with the City's preferred option schedule.

City Manager Pete Lee confirmed staff will perform significant public outreach regarding the meeting dates.

RESULT: APPROVED
MOVER: Ire J. Bethea Sr
SECONDER: James P. Hilty Sr
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10c. Adopt Budget Resolution 2025-166 amending the Fiscal Year 2024-25 budget to provide a supplemental appropriation to reconcile cash balance forward accounts and for the continuation of projects not completed in Fiscal Year 2023-24 in the amount of $3,786,945

Presentation By: Tammi Haslam

There being no discussion the motion carried by roll call vote.

RESULT: ADOPTED
MOVER: James P. Hilty Sr
SECONDER: Jay A. Musleh
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10d. Approve a task work order with Infrastructure Consulting & Engineering, PLLC, for design services for the A12 Hangar Infrastructure project in the amount of $147,741

Presentation By: Matthew Grow

Airport Director Matthew Grow clarified the sales marketing process for available spots with Council Member Mansfield.

There being no further discussion the motion carried by roll call vote.

RESULT: APPROVED
MOVER: James P. Hilty Sr
SECONDER: Barry Mansfield
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10e. Approve a task work order with McFarland Johnson, Inc. to provide design services for fuel farm expansion, aircraft wash pad and vehicle parking pads in the amount not to exceed $102,117

Presentation By: Matthew Grow

Airport Director Matthew confirmed the public is allowed to use the aircraft wash pad with Council Member Mansfield. Furthermore, the fuel farm will be operated and maintained by Sheltair Aviation.

There being no further discussion the motion carried by roll call vote.

RESULT: APPROVED
MOVER: Ire J. Bethea Sr
SECONDER: Barry Mansfield
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10f. Approve a contract between the City of Ocala and Cummins, Inc D/B/A Cummins Sales and Service for engine and transmission replacement services on an as-needed basis not to exceed $1,340,270

Presentation By: Tom Duncan

Transit Administrator Tom Duncan clarified the life expectancy of the engine with Mayor Marciano.

There being no further discussion the motion carried by roll call vote.

RESULT: APPROVED
MOVER: James P. Hilty Sr
SECONDER: Barry Mansfield
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10g. Approve a one-year renewal with HM Insurance Group to provide stop-loss insurance for the City's self-insured health plan, with an expenditure of $1,977,347

Presentation By: Todd Swanson

Director of HR & Risk Management Devan Kikendall noted a correction to the agenda item: the policy renewal represents a 6.41% increase in premiums.

Council Member Musleh expressed concern regarding the high premium increases.

There being no further discussion the motion carried by roll call vote.

RESULT: APPROVED
MOVER: Ire J. Bethea Sr
SECONDER: Barry Mansfield
AYE: Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

10h. Approval of agreement with Marion County School Board for the School Resource Officer Program with receivables over three years of $5,946,781

Presentation By: Mike Balken

Police Chief Mike Balken confirmed the department will be servicing all of Ocala's public schools located in the City with Council Member Bethea.

There being no further discussion the motion carried by roll call vote.

RESULT:	APPROVED
MOVER:	James P. Hilty Sr
SECONDER:	Jay A. Musleh
AYE:	Bethea Sr, Hilty Sr, Mansfield, Musleh, and Dreyer

11. Internal Auditor's Report

12. City Manager's Report

- City's storm preparation

City Manager Pete Lee reported the City will continue to monitor the stormy weather along the east coast.

13. Ocala Police Department Report

- Overview of Crime and Traffic Stops

Police Chief Mike Balken reported on the Police Departments efforts for a two-week period, June 30, 2025 to July 13, 2025: 44 significant crimes, 203 arrests, and 1,218 traffic stops. Vehicle crashes on State Road 200 yearly (January-June) comparison: 105 vehicle crashes for 2024 and 122 vehicle crashes for 2025. The department arrested three individuals involved in a series of vehicle burglaries.

Council President Dreyer encouraged pedestrians to drive slower to prevent vehicle crashes on State Road 200. Furthermore, she requested staff present information regarding the types of vehicle crashes at a future meeting.

Mayor Marciano noted U-turns are the major cause of vehicle crashes.

Council Member Musleh discussed how the medians impact the public traveling to merchant destinations.

City Manager Pete Lee stated the City will revisit establishing a cross-access agreement.

- Department Highlights

14. Ocala Fire Rescue Department Report

- **Unit Responses**

  Fire Chief Clint Welborn reported on unit responses for a two-week period, July 1, 2025 to July 14, 2025. The two busiest units: Fire Rescue One (152-unit responses) and Fire Engine Four (97-unit responses).

- **Service calls update**

  Fire Chief Clint Welborn reported on call type spotlights for a two-week period, July 1, 2025 to July 14, 2025: motor vehicle accidents 80, structure fires 4, and community paramedicine/core 71, and 915 calls for service (13,366 calls-to-date).

- **Department Highlights**

  Fire Chief Clint Welborn reported the Florida Task Force 8 was deployed to Texas in response to the devastating floods affecting the state. The department conducted several successful search training courses at the AdventHealth Facility and hosted a successful Mayor for the Day event.

16. Public Comments

- **David Layman, 4567 NE 6th Street, commented on fiber installation issues**

  David Layman, 4567 NE 6th Street, discussed hazardous fiber installations jeopardizing the safety of the public. A fiber installation project completed by a vendor known as Lumen, caused a hazardous gas leak in the residential neighborhood. He suggested the City evaluate allowing multiple fiber companies to access easements and perform audits to protect the safety of the public.

  City Manager Pete Lee stated staff will perform site inspections to support public safety. The City will suspend a vendor's permits if they cause infrastructure damage. The public must report property damage to the City immediately, as vendors should not be encroaching on private property and must restore the property back to the original condition. Furthermore, the City's Code Enforcement Inspectors have been allocated to job sites to ensure the vendor is incompliance.

  City Engineer & Director of Water Resources Sean Lanier stated the City has the ability to suspend a vendor's permits. The City has jurisdiction over the right-of-way; however, residential damage caused by the vendor is considered a civil matter, due to the City's lack of jurisdiction.

  City Attorney Sexton expressed concern about billing the vendor for fire services. He requested Council consider creating penalties for vendors.

  Council Member's Musleh and Hilty support penalizing vendors for being negligent.

  Mr. Lee expressed concern that assigning Fire Department employees to job sites will impact public services. Furthermore, he suggested reevaluating fiber permit fees.

Council Member Dreyer favors Mr. Lanier's suggestion to establish inspection fees.

Mr. Lanier noted the vendor must restore the right-of-way to the original condition.

Mr. Sexton advised City Council that the City has worked with vendors to restore damaged properties back to their original condition.

Council Member Dreyer requested the City require vendors to issue notices to residents.

- **Jerry Lourenco, 2350 NW 27th Avenue, commented on the invitation to bid for the disposal of Class 1 and Class 3 solid waste**

Jerry Lourenco, 2350 NW 27th Avenue, expressed concern regarding an invitation to bid that is currently under review for the disposal of Class 1 and Class 3 solid waste. He questioned why the bid package would require vendors to haul certain items for free. He discussed his concern about the inability to pass along any price increases to the City over the term of the proposed five-year contract.

Council President Dreyer noted Council cannot discuss an open procurement process.

17. Informational Items and Calendaring Items

- Tuesday, August 5, 2025 - 4:00pm - City Council meeting - Council Chambers
- Tuesday, August 12, 2025 - 12:00pm - City Council Workshop Re: FY 2025-26 Budget - Council Chambers

Submitted By: Payal Pandya

Presentation By: Sean Lanier

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Adopt Ordinance 2025-34, amending Sec. 90-20, Code of Ordinances, City of Ocala, Florida, providing for limitations on enclosures under elevated buildings located in flood hazard areas

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place

PROOF OF PUBLICATION:
N/A

BACKGROUND:
Section 90-20 of the Code of Ordinances currently regulates buildings and structures to ensure that, within designated flood-prone areas, development occurs in a manner that mitigates risk.

Section 90-20 does not currently limit enclosures below elevated buildings in flood hazard areas, which would further mitigate flood risks during significant flood events. Regulations to limit enclosures below the base flood elevation have two objectives. First, they protect the structural integrity of the building from wave action or hydrostatic pressure. Second, they discourage property owners from finishing the area below the base flood elevation and storing valuable or hazardous items in that area.

While Ocala has no known structures in this situation (they are found mostly on the coast and along rivers), adding the paragraph in the attached redline version to our ordinance increases our points towards the goal of achieving a Community Rating System (CRS) Class 2 level for flood insurance purposes. We are currently at CRS Class 3. Advancing to a CRS Class 2 level would potentially decrease flood insurance premiums for our residents and businesses.

FINDINGS AND CONCLUSIONS:
This amendment to Section 90-20, Code of Ordinances, will further the protection of health, safety, and welfare of the citizens of Ocala, and potentially decrease flood insurance premiums for our residents and businesses. Staff recommends approval.

FISCAL IMPACT:
N/A

PROCUREMENT REVIEW:
N/A

LEGAL REVIEW:
The ordinance has been reviewed by the City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with changes
- Deny

ORDINANCE 2025-34

AN ORDINANCE OF THE CITY OF OCALA, FLORIDA AMENDING SECTION 90-20, CODE OF ORDINANCES, CITY OF OCALA, FLORIDA; PROVIDING FOR LIMITATIONS ON ENCLOSURES UNDER ELEVATED BUILDINGS; PROVIDING DIRECTION TO STAFF; PROVIDING DIRECTION TO THE CODIFIER; REPEALING INCONSISTENT AND/OR CONFLICTING PROVISONS; PROVIDING FOR SEVERABILITY OF ORDINANCE PROVISIONS; PROVIDING FOR MODIFICATIONS ARISING FROM CONSIDERATION AT A PUBLIC HEARING; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Section 90-20 of the *Code of Ordinances, City of Ocala, Florida*, currently provides for the regulation of buildings and structures so as to ensure that, within areas designated as flood prone, development occurs in a manner in which risk is mitigated; and

WHEREAS, Section 90-20, *Code of Ordinances, City of Ocala, Florida*, does not currently limit the development of enclosures below elevated buildings so as to further mitigate flood risks during significant flood events; and

WHEREAS, the United States of America, Federal Emergency Management Agency (FEMA) recommends limitations on the size of enclosures below elevated buildings in flood-prone areas for several reasons, primarily aimed at minimizing damage and protecting lives and property during flood events; and

WHEREAS, the limitations on enclosures below elevated buildings in flood-prone areas are a key component of FEMA's overall strategy to mitigate flood risks and ensure the safety and resilience of

communities in flood-prone regions; and

WHEREAS, enhancing the regulations in Section 90-20, *Code of Ordinances, City of Ocala, Florida*, so as to limit enclosures below elevated buildings located in flood hazard areas will reduce flood forces and prevent the redirection of flood waters to other structures and will further add to the City of Ocala's efforts to mitigate flood damage; and

WHEREAS, given the above and foregoing, the City of Ocala, Florida now desires to implement a change to said Section 90-20, *Code of Ordinances, City of Ocala, Florida,* to add language prohibiting the development of enclosures below elevated buildings located within flood hazard areas; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendment to Section 90-20, *Code of Ordinances, City of Ocala, Florida*, contained herein are further the protection of the health, safety and welfare of the citizens of Ocala, Florida; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendments to Section 90-20, *Code of Ordinances, City of Ocala, Florida*, contained herein are in the best interest of the City of Ocala, Florida and its citizens; and

NOW THEREFORE, be it ordained, by the City Council of the City of Ocala, Florida, in regular session, as follows:

Section 1. Ratification, Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida ratifies the above-outlined recitals as true and correct; adopts and incorporates them herein as part and parcel of this ordinance.

Section 2. Purpose and Authority for Ordinance.

This ordinance is adopted for the purpose of amending and revising Section 90-20, of the *Code of Ordinances, City of Ocala, Florida* so as to prohibit the development of buildings which contain enclosures below grade within areas designated as flood hazard areas, and is adopted pursuant to the authority granted by Chapter 166, *Florida Statutes*, and other relevant provisions of Florida and federal law.

Section 3. Amendment of Section 90-20, *Code of Ordinances, City of Ocala, Florida*.

Section 90-20 of the *Code of Ordinances, City of Ocala, Florida* is hereby amended by replacement in its entirety with the following:

Section 90-20. Buildings and Structures.

(a) Design and construction of buildings, structures and facilities exempt from the Florida Building Code.

Pursuant to subsection 90-14(c), buildings, structures and facilities that are exempt from the Florida Building Code, including substantial improvement or repair of substantial damage of such buildings, structures and facilities, shall be designed and constructed in accordance with the flood load and flood-resistant construction requirements of ASCE 24. Structures exempt from the Florida Building Code that are not walled and roofed buildings shall comply with the requirements of section 90-26.

(b) Critical facilities.

New critical facilities shall, to the extent feasible, be located outside of the special flood hazard area and outside of the 0.2 percent annual chance flood hazard area (500-year floodplain). If documentation is provided that feasible sites outside of the special flood hazard that satisfy the objectives of a proposed critical facility are not available, then the critical facility shall:

(1) Have the lowest floor elevated or protected to at least the base flood elevation plus 3.0 feet or the elevation required by ASCE 24, whichever is higher;

(2) Have floodproofing and sealing measures taken to ensure that toxic substances will not be displaced by or released into floodwaters; and

(3) Have access routes elevated to or above the base flood elevation shall to the maximum extent possible.

(c) Accessory Structures.

Accessory structures are permitted below the base flood elevation provided the accessory structures are used only for parking or storage, and:

(1) Are one-story and not larger than 600 square feet;

(2) Have flood openings in accordance with Section R322.2 of the Florida Building Code, Residential;

(3) Are anchored to resist flotation, collapse or lateral movement resulting from flood loads;

(4) Have flood damage-resistant materials used below the base flood elevation plus one (1) foot; and

(5) Have mechanical, plumbing and electrical systems, including plumbing fixtures, elevated to or above the base flood elevation plus one (1) foot.

(d) Limitations on enclosures under elevated buildings in a flood hazard area.

Enclosures below elevated buildings (those on posts and/or piers) more than four (4) feet above grade are prohibited, including but not necessarily limited to enclosures with walls designed to breakaway under flood loads.

Section 4. Direction to Staff.

The City Council of the City of Ocala, Florida directs staff as follows:

A. Staff is directed to transmit copies of this ordinance to the State of Florida, Department of Law Enforcement for their review, consideration and approval.

B. Staff is further directed to take any and all other steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 5. Direction to the Codifier.

It is the intention of the City Council of the City of Ocala, Florida that (1) this ordinance shall become and be made a part of the *Code of Ordinances, City of Ocala, Florida*, (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by the City Council.

Section 6. Repealing Inconsistent and/or Conflicting Provisions.

The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 7. Severability of Ordinance Provisions.

If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 8. Modifications Arising from Consideration at a Public Hearing.

It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 9. Effective Date of Ordinance.

This ordinance shall become effective immediately upon approval by the Mayor or becoming law without such approval.

The remainder of this page intentionally left blank.

PASSED AND ADOPTED, in a regular session with a quorum present and voting, by the City Council of the City of Ocala, Florida this ____ day of August 2025.

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendment to Section 90-20, *Code of Ordinances, City of Ocala, Florida*, contained herein are further the protection of the health, safety and welfare of the citizens of Ocala, Florida; and

WHEREAS, the City Council of the City of Ocala, Florida finds and determines that this ordinance and the amendments to Section 90-20, *Code of Ordinances, City of Ocala, Florida*, contained herein are in the best interest of the City of Ocala, Florida and its citizens; and

NOW THEREFORE, be it ordained, by the City Council of the City of Ocala, Florida, in regular session, as follows:

Section 1. Ratification, Adoption and Incorporation of Recitals.

The City Council of the City of Ocala, Florida ratifies the above-outlined recitals as true and correct; adopts and incorporates them herein as part and parcel of this ordinance.

Section 2. Purpose and Authority for Ordinance.

This ordinance is adopted for the purpose of amending and revising Section 90-20, of the *Code of Ordinances, City of Ocala, Florida* so as to prohibit the development of buildings which contain enclosures below grade within areas designated as flood hazard areas, and is adopted pursuant to the authority granted by Chapter 166, *Florida Statutes*, and other relevant provisions of Florida and federal law.

Section 3. Amendment of Section 90-20, *Code of Ordinances, City of Ocala, Florida.*

Section 90-20 of the *Code of Ordinances, City of Ocala, Florida* is hereby amended by replacement in its entirety with the following:

Section 90-20. Buildings and Structures.

(a) Design and construction of buildings, structures and facilities exempt from the Florida Building Code.

Pursuant to subsection 90-14(c), buildings, structures and facilities that are exempt from the Florida Building Code, including substantial improvement or repair of substantial damage of such buildings, structures and facilities, shall be designed and constructed in accordance with the flood load and flood-resistant construction requirements of ASCE 24. Structures exempt from the Florida Building Code that are not walled and roofed buildings shall comply with the requirements of section 90-26.

(b) Critical facilities.

New critical facilities shall, to the extent feasible, be located outside of the special flood hazard area and outside of the 0.2 percent annual chance flood hazard area (500-year floodplain). If documentation is provided that feasible sites outside of the special flood hazard that satisfy the objectives of a proposed critical facility are not available, then the critical facility shall:

(1) Have the lowest floor elevated or protected to at least the base flood elevation plus 3.0 feet or the elevation required by ASCE 24, whichever is higher;

(2) Have floodproofing and sealing measures taken to ensure that toxic substances will not be displaced by or released into floodwaters; and

(3) Have access routes elevated to or above the base flood elevation shall to the maximum extent possible.

(c) Accessory Structures.

Accessory structures are permitted below the base flood elevation provided the accessory structures are used only for parking or storage, and:

(1) Are one-story and not larger than 600 square feet;

(2) Have flood openings in accordance with Section R322.2 of the Florida Building Code, Residential;

(3) Are anchored to resist flotation, collapse or lateral movement resulting from flood loads;

(4) Have flood damage-resistant materials used below the base flood elevation plus one (1) foot; and

(5) Have mechanical, plumbing and electrical systems, including plumbing fixtures, elevated to or above the base flood elevation plus one (1) foot.

(d) Limitations on enclosures under elevated buildings in a flood hazard area.

Enclosures below elevated buildings (those on posts and/or piers) more than four (4) feet above grade are prohibited, including but not necessarily limited to enclosures with walls designed to breakaway under flood loads.

Section 4. Direction to Staff.

The City Council of the City of Ocala, Florida directs staff as follows:

A. Staff is directed to transmit copies of this ordinance to the State of Florida, Department of Law Enforcement for their review, consideration and approval.

B. Staff is further directed to take any and all other steps necessary to effectuate the adoption and implementation of this ordinance; and all other matters as provided for above and herein as well as to ensure the orderly and effective administration and implementation of the intent of this ordinance and the specific matters outlined herein.

Section 5. Direction to the Codifier.

It is the intention of the City Council of the City of Ocala, Florida that (1) this ordinance shall become and be made a part of the *Code of Ordinances, City of Ocala, Florida*, (2) the sections and paragraphs of this ordinance may be renumbered or relettered in order to accomplish said intention; (3) terms or headings not affecting the intent of this ordinance may be changed to further accomplish said intention; and (4) any scrivener's error(s) contained herein which do not affect the intent of this ordinance be corrected with the authorization of the City Manager or their designee and without the need for additional public hearings or consideration by the City Council.

Section 6. Repealing Inconsistent and/or Conflicting Provisions.

The City Council of the City of Ocala, Florida hereby specifically repeals, to the extent of any such conflict, any and all ordinances, resolutions, policies, procedures and/or other articles which are conflicting and/or inconsistent with this ordinance and the intent and direction provided by the City Council herein.

Section 7. Severability of Ordinance Provisions.

If any section, phrase, sentence or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, it is the intent of the City Council of the City of Ocala, Florida that (1) such portion shall be deemed a separate, distinct and independent provision; (2) such holding shall not affect the validity of the remaining portions hereof; and (3) this ordinance be adopted as though any such provision was not included herein.

Section 8. Modifications Arising from Consideration at a Public Hearing.

It is the intention of the City Council of the City of Ocala, Florida that (1) the provisions of this ordinance may be modified as a result of its consideration by the City Council of matters that may arise during the public hearing(s) at which this ordinance is considered; and (2) any such modifications shall be incorporated into the final version of this ordinance.

Section 9. Effective Date of Ordinance.

This ordinance shall become effective immediately upon approval by the Mayor or becoming law without such approval.

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Approve award of the contract for construction services for Phase 3 of the SW 44th/46th Avenue Four-Lane Expansion Project to Commercial Industrial Corp. in the amount of $3,433,678, plus a 10 percent contingency, for a total expenditure not to exceed $3,777,046

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place, Operational Excellence

PROOF OF PUBLICATION:
Bid released to the public: 3/13/2025; Newspaper ad published 3/14/2025

BACKGROUND:
The SW 44th/46th Avenue Four-Lane Expansion Project (the "Project"), Phase 3 (shown as Phase III on the attached 44th Avenue Extension Overview Map), consists of the widening of SW 44th/46th Avenue from State Road 40 to SW 20th Street. Along with the widening of the roadway, the Project consists of stormwater modifications, four-foot-wide bike lanes, and sidewalk construction. The improvements under this project will create approximately 1.25 miles of roadway connectivity and alignment within the City of Ocala.

FINDINGS AND CONCLUSIONS:
On March 13, 2025, the City issued its Invitation to Bid ("ITB") No.: CIP/250467 for Phase 3 of the SW 44th/46th Avenue Four-Lane Expansion Project. ITB No. CIP/250467 was subject to the City's Local Vendor Preference Ordinance, 2017-35.

On April 30, 2025, four bids were received on a unit price basis and were evaluated based on price. After submitting an affidavit verifying that it satisfied the requirements of Ordinance 2017-35 and reducing its bid to 1% below that of lowest bidder, Commercial Industrial Corp. (CIC) was found to be the lowest responsible bidder with a total bid of $3,433,677.44.

Bidder Name & Office Location	Total Bid Am
Commercial Industrial Corp Ocala, FL	**$3,433,677.4**
Superior Asphalt, Inc Brooksville, FL	$3,468,001.0
CW Roberts Contracting, Inc. Wildwood, FL	$3,705,999.8
Art Walker Construction, Inc. Lowell, FL	$3,729,239.0

CIC has previously completed construction projects for the City, and their performance has been very satisfactory. Staff requests a 10 percent contingency in the amount of $343,368 to allow the City Engineer to issue change orders to cover unforeseen conditions and other conflicts that may arise during construction. With the contingency, the total project budget is not to exceed $3,777,045.44.

Staff recommends awarding CIC the contract for the construction of Phase 3 of the SW 44th/46th Avenue Four-Lane Expansion Project.

FISCAL IMPACT:
Funding for this project is available in account string 120-020-394-541-69-6510 in the amount of $3,777,046. A budget resolution to appropriate the additional funds is provided in the general business portion of this agenda.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

CONSTRUCTION SERVICES AGREEMENT FOR THE SW 44TH/46TH AVENUE FOUR-LANE EXTENSION

THIS CONSTRUCTION SERVICES AGREEMENT FOR THE SW 44TH/46TH AVENUE FOUR-LANE EXTENSION (Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **COMMERCIAL INDUSTRIAL CORP.,** a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 59-2407001) ("Contractor").

R E C I T A L S:

WHEREAS, on March 13, 2025, City issued an Invitation to Bid ("ITB") for the provision of construction services related to the four-lane extension of SW 44th/46th Avenue, ITB No.: CIP/250467 (the "Solicitation"); and

WHEREAS, a total of four (4) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, Commercial Industrial Corp. was determined to be the lowest responsive and responsible bidder; and

WHEREAS, Commercial Industrial Corp. was chosen as the intended awardee to provide construction services related to the four-lane extension of SW 44th/46th Avenue (the "Project"); and

WHEREAS, Contractor certifies that Contractor and its subcontractors are qualified and possess the required licensure and skill to perform the work required for the Project; and

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

T E R M S O F A G R E E M E N T:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Contractor shall only include: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the quote submitted by Contractor in response to same (the "Solicitation Documents"); and (d) those documents identified in the Project Specifications section of this Agreement. Each of these documents are incorporated herein by reference for all purposes.
   If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.
   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:

      Exhibit A: Scope of Work (A-1 through A-9)
      Exhibit B: Price Proposal (B-1 through B-2)
      Exhibit C: Plan Set (C-1)
      Exhibit D: Solicitation Answers (D-1)

      If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A, then (2) Exhibit B then (3) Exhibit C, then (4) Exhibit D.

   B. **Project Specifications**: In addition to the Contract Documents and up-to-date copies of shop drawings, this project will require the Contractor to have the following specifications and documents, which are incorporated by reference:

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

i. **City of Ocala "Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure"** available at: www.ocalafl.gov/home/showpublisheddocument/24606

Florida Department of Transportation ("FDOT") Standard Specifications for Road and Bridge Construction (latest edition) available at: http://www.fdot.gov/programmanagement/Implemented/SpecBooks/.

Florida Department of Transportation Standard Plans for Road and Bridge Construction (latest edition): https://www.fdot.gov/design/standardplans/sprbc.shtm

Manual on Uniform Traffic Control Devices (MUTCD), latest edition which can be obtained by downloading from: https://www.fdot.gov/traffic/trafficservices/mutcd.shtm

Florida Department of Transportation Florida Greenbook (latest edition), can be obtained by downloading from: https://www.fdot.gov/roadway/floridagreenbook/fgb.shtm

If there is a conflict between the individual Project Specifications regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedents to the most restrictive specification.

3. **SCOPE OF SERVICES.** Contractor shall provide all materials, labor, supervision, tools, accessories, equipment, permits, fees, testing, inspections, certifications, and all other things necessary for Contractor to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work** and the Solicitation Documents. Prime contractor must perform a minimum of **SIXTY PERCENT (60%)** of the work with its own forces. The Scope of Work under this Agreement may only be adjusted by written amendment executed by both parties.

4. **COMPENSATION.** City shall pay Contractor a maximum limiting amount of **THREE MILLION, FOUR HUNDRED THIRTY-THREE THOUSAND, SIX HUNDRED SEVENTY-SEVEN AND 44/100 DOLLARS ($3,433,677.44)** (the "Contract Sum") as full and complete compensation for the timely and satisfactory completion of the work in compliance with the unit pricing schedule in **Exhibit B – Price Proposal** and other requirements set forth in the Contract Documents. The pricing under this Agreement may only be adjusted by written amendment executed by both parties.

   A. **Monthly Progress Payments**: The compensation amount under this section shall be paid by City, monthly, based upon a percentage of completion of the work as invoiced by Contractor and approved by City. The compensation sought under this Agreement is subject to the express terms of this Agreement and any applicable federal and/or state laws.

   B. **Project Schedule and Progress Reports**. A progress report and updated project schedule must be submitted with each monthly pay request indicating the percent of services completed to date. This report will serve as support for payment to Contractor and the basis for payment in the event project is suspended or abandoned.

   C. **Invoice Submission**. Invoicing shall be completed on an A1A – G703 - Application & Certification type document for payment. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and an Invoice Date. Contractor shall invoice once a month. Contractor shall submit a Certificate of Disbursement of Payment with each invoice after the first payment. In addition, Contractor shall also submit an updated

schedule and Construction Compliance with Specifications and Plans with each invoice. Contractor shall be provided with a cover sheet for invoicing. This cover sheet must be filled out correctly and submitted with each invoice. Contractor shall submit the original invoice through the responsible City Project Manager at: **City of Ocala Engineering & Water Resources Department,** Attn: **Paul Constable**, **1805 NE 30th Avenue, Building 700, Ocala, Florida 34470** E-Mail: pconstable@ocalafl.gov.

D. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

E. **Retainage.** City shall withhold an amount equal to **FIVE PERCENT (5%)** of each monthly progress payment as retainage to secure Contractor's full and faithful performance of its obligations under this Agreement (the "Retainage"). Contractor shall not be entitled to any interest received by City on Retainage. The Retainage shall be payable to Contractor, subject to the provisions of this subsection, upon satisfaction of the following conditions precedent: (1) confirmation from the City Project Manager that Contractor has satisfactorily completed all work in accordance with the provisions of the Agreement; and (2) receipt of the Consent of Surety of the recorded bond for final payment.

F. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

G. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

H. **Amounts Due to the City**. Contractor must be current and remain current in all obligations due to the City during the performance of services under this Agreement. Payments to Contractor may be offset by any delinquent amounts due to the City or fees and/or charges owed to the City.

I. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **TIME FOR PERFORMANCE**. Time is of the essence with respect to the performance of all duties, obligations, and responsibilities set forth in this Agreement and the Contract Documents.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

A. Contractor shall mobilize and commence work no later than **TEN (10)** working days from the date of issuance of a Notice to Proceed for the project by City. At no time will the Contractor be allowed to lag behind.

B. **All work shall be substantially completed by Contractor in a manner satisfactory to the City Project Manager within TWO HUNDRED TEN (210) days of the start date indicated on the Notice to Proceed and ready for final payment within THIRTY (30) days of substantial completion**.

C. The Time for Performance under this Agreement may only be adjusted by Change Order, in the sole and absolute discretion of City. Any request for an extension of the Time for Performance must be submitted in a writing delivered to the City Project Manager, along with all supporting data, within **SEVEN (7)** calendar days of the occurrence of the event giving rise to the need for adjustment unless the City allows an additional period of time to ascertain more accurate data. All requests for adjustments in the Contract Time shall be determined by City.

D. **Weather Days:** Contractor shall submit a written request to the City Project (e-mail is the preferred method) for additional days for which work is suspended or delayed by weather. Weather days shall be reconciled with each monthly pay application for the time period which the application is submitted and shall be final. Contractor performance and execution of work shall be considered in the determination for granting additional days.

E. As to any delay, inefficiency, or interference in this performance of this Agreement caused by any act or failure to act by City, the Contractor's sole remedy shall be the entitlement of an extension of time to complete the performance of the affected work in accordance with the Contract Documents. Contractor agrees to make no claim for extra or additional costs attributable to said delays, inefficiencies, or interference, except as provided in this Agreement.

F. None of the provisions of this section shall exclude City's right of recovery for damages caused by delays or inefficiencies caused by any act or failure to act by Contractor, to include costs incurred by City for the procurement of additional professional services.

6. **LIQUIDATED DAMAGES FOR LATE COMPLETION**. The parties agree that it would be extremely difficult and impracticable under the presently known facts and anticipated circumstances to ascertain and fix the actual damages that City and its residents would incur should Contractor fail to achieve Substantial Completion and/or Final Completion and readiness for final payment by the dates specified for each under the terms of this Agreement. Accordingly, the parties agree that should Contractor fail to achieve Substantial Completion by the date specified, then Contractor shall pay City, as liquidated damages and not as a penalty, the sum of **TWO THOUSAND, SIX HUNDRED FIFTY AND NO/100 DOLLARS ($2,650)** per day for each calendar day of unexcused delay in achieving Substantial Completion beyond the date specified for Substantial Completion in the Contract Documents. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining work within the time specified in the Contract Documents for Final Completion and readiness for final payment or any proper extension thereof granted by City, Contractor shall pay City, as liquidated damages and not as a penalty, additional sum of **TWO HUNDRED AND NO/100 DOLLARS ($200)** per day for each calendar day of unexcused delay in achieving completion and readiness for final payment.

A. **No Waiver of Rights or Liabilities**. Permitting Contractor to continue and finish the work, or any part thereof, beyond the dates specified for Substantial Completion and/or Final

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

Completion and readiness for final payment shall not operate as a waiver on the part of the City of any of its rights under this Agreement. Any liquidated damages assessed pursuant to this section shall not relieve Contractor from liability for any damages or costs of other contractors caused by a failure of Contractor to complete the work as agreed.

B. **Right to Withhold or Deduct Damages**. When liquidated damages are due and owing, City shall have the right to: (1) deduct the liquidated damages from any money in its hands or from any money otherwise due or to become due to Contractor; or to (2) initiate any applicable dispute resolution procedure for the recovery of liquidated damages within the times specified under this Agreement.

C. **Non-Cumulative**. The parties agree and understand that the amounts set forth under this section for liquidated damages are not cumulative with one another. The amount set forth as liquidated damages for Contractor's failure to achieve Substantial Completion shall be assessed upon default and continue until Substantial Completion is attained. The amount set forth as liquidated damages for Contractor's failure to achieve Final Completion and readiness for payment shall be assessed after Substantial Completion is attained and apply until Final Completion is attained.

D. **Additional Costs.** In addition to the liquidated damages set forth under this section, Contractor agrees to pay all costs and expenses incurred by City due to Contractor's delay in performance to include inspection fees, superintendence costs, and travel expenses.

E. **Injunctive Relief.** The parties acknowledge that monetary damages may not be a sufficient remedy for Contractor's failure to achieve Substantial Completion or Final Completion in accordance with the terms of this Agreement, and that City shall be entitled, in addition to all other rights or remedies in law and equity, to seek injunctive relief.

7. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.
8. **MAINTENANCE AND GUARANTEE BOND.** Prior to final payment, Contractor shall furnish a Maintenance and Guarantee Bond in the amount of **TEN PERCENT (10%)** of the total project value, for a period of **THREE (3)** year for labor and **THREE (3)** year for materials from the date of final completion. Prior to the City's receipt of Contractor's fully executed Maintenance and Guarantee Bond, Contractor will warrant all labor and materials completed pursuant to this Agreement.
9. **PUBLIC CONSTRUCTION BOND**. As required by section 255.05, Florida Statutes, Contractor shall furnish a certified and recorded Public Construction Bond in the amount of **THREE MILLION, FOUR HUNDRED THIRTY-THREE THOUSAND, THREE HUNDRED TWENTY AND 99/100 DOLLARS ($3,433,320.99)** as security for the faithful performance of the work as required and set forth in the Contract Documents within the time set forth for performance under this Agreement and for prompt payments to all persons defined in section 713.01, Florida Statutes, who furnish labor, services, or materials for the completion of the work provided for herein.
10. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof as soon as it becomes aware.
B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Contractor performance shall be extended for a number of days equal to the duration of the force majeure. Contractor shall be entitled to an extension of time only and, in no event, shall Contractor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.

11. **INSPECTION AND ACCEPTANCE OF THE WORK**. Contractor shall report its progress to the City Project Manager as set forth herein. All services, work, and materials provided by Contractor under this Agreement shall be provided to the satisfaction and approval of the City Project Manager.
    A. The City Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials furnished, or workmanship performed, the rate of progress of the work, the interpretation of the plans and specifications, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Contractor in its Bid. The authority vested in the City Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the work.
    B. Neither the City Project Manager's review of Contractor's work nor recommendations made by City Project Manager pursuant to this Agreement will impose on City Project Manager any responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident Contractor's furnishing and performing the work.
12. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Document, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.
    A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Contractor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Contractor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Contractor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:
        (1) Contractor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

(2) Contractor provides material that does not meet the specifications of the Agreement;
(3) Contractor fails to complete the work required within the time stipulated in the Agreement; or
(4) Contractor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Contractor cannot or will not perform to the requirements of the Agreement.

B. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Contractor Default**. In the event that Contractor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:
(1) City shall be entitled to terminate this Agreement without further notice;
(2) City shall be entitled to hire another contractor to complete the required work in accordance with the needs of City;
(3) City shall be entitled to recover from Contractor all damages, costs, and attorney's fees arising from Contractor's default prior to termination; and
(4) City shall be entitled to recovery from Contractor any actual excess costs by: (i) deduction from any unpaid balances owed to Contractor; (ii) placing a claim against the public construction bond, or (iii) any other remedy as provided by law.

D. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The City Project Manager shall provide written notice of the termination. Upon receipt of the notice, Contractor shall immediately discontinue all work as directed in the notice, notify all subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Contractor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Contractor as permitted under this Agreement and approved by City.

13. **WARRANTY.** Contractor warrants that all labor, materials, and equipment furnished under the agreement are new, of the type and quality required for the Project, and installed in a good and workmanlike manner in accordance with the Contract Documents. Contractor shall guarantee that the work shall be free from any defects in workmanship for a period of not less than **THREE (3)** years from the date of Final Completion. Contractor shall guarantee that the materials provided shall be free from any defects for the longer of: (1) **THREE (3)** years from the date of Final Completion; or (2) the period of warranty provided by any supplier or manufacturer. All written manufacturers' warranties for materials supplied must be provided to the City Project Manager before final payment will be authorized.
14. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Contractor's performance. Any such evaluation will become public record.

15. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any contractor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.

16. **CONTRACTOR REPRESENTATIONS**. Contractor expressly represents that:

    A. Contractor has read and is fully familiar with all the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Contractor under this Agreement.
    B. Contractor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Contractor in the Contract Documents, and that the City's written resolution of same is acceptable to Contractor.
    C. Contractor has had an opportunity to visit, has visited, or has had an opportunity to examine and ask questions regarding the sites upon which the work is to be performed and is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
    D. Contractor is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
    E. Contractor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.
    F. **Public Entity Crimes.** Neither Contractor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors, or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Contractor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Contractor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

17. **CONTRACTOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Contractor:

    A. Contractor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.
    B. Contractor shall be solely responsible for the means, methods, techniques, sequences, or procedures of construction and safety precautions or programs incident thereto.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

C. Contractor shall be responsible to see that the finished work complies accurately with this Agreement and the intent thereof.
D. Contractor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, including, but not limited to obtaining all permits, licenses, and other authorizations necessary for the prosecution of the work and be responsible for all costs associated with same.
E. Contractor shall operate and cause all construction equipment and materials supplied for or intended to be utilized in the Project to be operated and stored in only those areas prescribed by City. This includes the operations of workmen.
F. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of all construction equipment and materials supplied for or intended to be utilized in the Project, whether furnished by Contractor or City. Contractor shall be responsible for providing adequate safeguards to prevent loss, theft, damage, or commingling with other materials or projects.
G. Contractor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Contractor and City may otherwise agree in writing.

18. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Contractor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.
19. **RIGHT OF ACCESS AND OTHER WORK PERFORMED BY THIRD PARTIES**. City may perform additional work related to the Project itself, or have additional work performed by utility service companies, or let other direct contracts therefore which shall contain General Conditions similar to these. Contractor shall afford the utility service companies and the other contractors who are parties to such direct contracts (or City if City is performing the additional work with City's employees) reasonable opportunity for the introduction and storage of materials and equipment and the execution of work and shall properly connect and coordinate his work with theirs.
    A. If any part of Contractor's work depends for proper execution or results upon the work of any such other contractor or utility service company (or City), Contractor shall inspect and promptly report to City in writing any latent or apparent defects or deficiencies in such work that render it unsuitable for such proper execution and results. Contractor's failure to so report shall constitute an acceptance of the other work as fit and proper for integration with Contractor's work except for latent or non-apparent defects and deficiencies in the other work.
    B. Contractor shall do all cutting, fitting, and patching of work that may be required to make the parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating, or otherwise altering their work, and will only cut or alter their work with the written consent of City.
20. **STORAGE OF MATERIALS/EQUIPMENT**. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of equipment and materials (whether furnished by Contractor or City) to be utilized in the performance of or incorporated into the work.
21. **RESPONSIBILITIES OF CITY.** City or its representative shall issue all communications to Contractor. City has the authority to request changes in the work in accordance with the terms of this Agreement and with the terms in **Exhibit A – Scope of Work.** City has the authority to stop work or to suspend any work.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

22. **COMMERCIAL AUTO LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.
23. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of Commercial General Liability insurance with limits not less than:

    A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and
    B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.
    C. Policy must include coverage for contractual liability and independent contractors.
    D. Policy must include Additional Insured coverage in favor of the City that is no less restrictive than that afforded under the CG 20 26 04 13 Additional Insured Form.

24. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Worker's Compensation insurance shall be provided by Contractor as required by Chapter 440, Florida Statutes, or any other applicable state or federal law, including the U.S. Longshoremen's and Harbor Workers Compensation Act and the Jones Act.

    A. Contractor shall similarly require any and all subcontractors to afford such coverage for all of its employees as required by applicable law.

    B. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent.

    C. Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.

25. **ADDITIONAL INSURANCE REQUIREMENTS.**

    A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.
    B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

of a coverage deductible, co-insurance penalty to include any loss not covered because of the operation of such deductible, co-insurance penalty, or coverage exclusion or limitation.

C. **Certificates of Insurance**. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.gov.** Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. **City as an Additional Insured**. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability on all liability policies identified in this Section with the exception of Workers' Compensation, Auto Liability (except when required by Risk Management) and Professional Liability policies**. Workers Compensation policy must contain a Waiver of Subrogation in favor of the City**.

E. **Notice of Cancellation of Insurance**. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.gov.

F. **Failure to Maintain Coverage**. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. **Severability of Interests**. Contractor shall arrange for its liability insurance to include or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

27. **SAFETY/ENVIRONMENTAL.** Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Contractor shall make an effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury, or property damage. EPA, DEP, OSHA and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

A. All employees on the work and other persons that may be affected thereby;
B. All work, materials, and equipment to be incorporated therein, whether in storage on or off the site; and
C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

28. **TRAFFIC CONTROL AND BARRICADES.** The Contractor shall mitigate impact on local traffic conditions to all extents possible. The Contractor is responsible for establishing and maintaining appropriate traffic control and barricades. The Contractor shall provide sufficient signing, flagging, and barricading to ensure the safety of vehicular and pedestrian traffic at all locations where work is being done under this Agreement.
    a. In addition to the requirements set forth in its bid, the Contractor shall maintain at all times a good and sufficient fence, railing or barrier around all exposed portions of said work in such a manner as to warn vehicular and pedestrian traffic of hazardous conditions.
    b. Should Contractor fail to properly barricade his work or stored material sites in the manner outlined above, the City may have the necessary barricading done, and all cost incurred for said barricading shall be charged to the Contractor.

29. **WORK SITE AND CLEANUP.** Daily, during the progress of the work, Contractor shall keep the premises free from accumulations of waste materials, rubbish, and all other debris resulting from the work. At the completion of the work, Contractor shall remove all waste materials, rubbish, and debris from and about the premises, as well as all tools, appliances, construction equipment and machinery, and surplus materials, and shall leave the site clean and ready for occupancy by City. Contractor shall provide an inventory listing of all surplus materials in an area designated by City. Contractor shall restore to their original condition those portions of the site not designated or alteration by the Contract.

30. **CONSTRUCTION SURVEY LAYOUT.** The work to be performed pursuant to survey work provided by City shall be completed as necessary to establish all proper alignments, right of way, easements, benchmarks, elevations, and grade stakes to complete all phases of this Contract.
    A. Contractor shall immediately bring to City's attention any survey issues that would impede the Contractor's completion of the work. The work performed pursuant to survey work at the Contractor's expense pursuant to this Agreement shall be prepared by a licensed surveyor and provided to the City. Any survey issues with these surveys that would impede the Contractor's completion of the work shall immediately be brought to the City's attention. If additional or corrective survey work is required, it shall be at Contractor's expense.
    B. The City Engineer/City Project Manager shall establish a number of benchmarks on the project which in their opinion will enable the Contractor to perform the work. If Contractor shall remove or destroy any stake, marker, or benchmark on the work without first having

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

secured the approval of the City Engineer/City Project Manager, such stake, or benchmark shall be re-established by and at Contractor's expense.

C. It shall be the responsibility of Contractor to preserve all adjacent property corner markers which might be affected by their operations and replace same if undermined. Corner locations known by City will be made available to Contractor. All original field notes, calculations, and other documents developed by the surveyor in conjunction with this work shall be given to City and become City property. All surveying work must be in accordance with Chapters 177 and 472 of Florida Statutes and Chapter 6IG17 of the Florida Administrative Code.

31. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.
32. **COMPLIANCE WITH F.S. 287.135.** City may terminate Agreement immediately upon discovering that Contractor: (A) has been placed on the Scrutinized Companies that Boycott Israel List; (B) is engaged in a boycott of Israel; (C) has been placed on the Scrutinized Companies with Activities in Sudan List; (D) has been placed on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; or (E) has been engaged in business operations in Cuba or Syria. This Agreement may also be terminated immediately if the Contractor falsely certified they are eligible to bid and contract with local government entities under F.S. 287.135.
33. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Contractor, subcontractor, or of any of their agents or employees, nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.
34. **EMERGENCIES**. In an emergency affecting the welfare and safety of life or property, Contractor, without special instruction or authorization from the City Project Manager, is hereby permitted, authorized, and directed to act at its own discretion to prevent threatened loss or injury. Except in the case of an emergency requiring immediate remedial work, any work performed after regular working hours, on Saturdays, Sundays, or legal holidays, shall be performed without additional expense to the City unless such work has been specifically requested and approved by the City Project Manager. Contractor shall be required to provide to the City Project Manager with the names, addresses and telephone numbers of those representatives who can be contacted at any time in case of emergency. Contractor's emergency representatives must be fully authorized and equipped to correct unsafe or excessively inconvenient conditions on short notice by City or public inspectors.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

35. **INDEPENDENT CONTRACTOR STATUS.** Contractor acknowledges and agrees that under this Agreement, Contractor and any agent or employee of Contractor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Contractor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Contractor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Contractor in its performance of its obligations under this Agreement.

36. **ACCESS TO FACILITIES.** City shall provide Contractor with access to all City facilities as is reasonably necessary for Contractor to perform its obligations under this Agreement.

37. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.

38. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Contractor under this Agreement be abandoned, or should Contractor become insolvent, or if Contractor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the City Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.

39. **PUBLIC RECORDS.** The Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, the Contractor shall:
    A. Keep and maintain public records required by the public agency to perform the service.
    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the public agency.
    D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from

the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.gov; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

40. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
41. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
42. **E-VERIFY.** Pursuant to section 448.095, Contractor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Contractor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Contractor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Contractor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Contractor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Contractor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.
43. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
44. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power, or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power, or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.
45. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

46. **INDEMNITY.** Contractor shall indemnify, defend, and hold harmless City and its elected officials, employees and volunteers against any actions, claims, or damages arising out of, relating to, or resulting from negligent or wrongful acts of Contractor, or any of its officers, agents, or employees, acting within the scope of their office or employment, in connection with the rights granted to or exercised by Contractor.
47. **NO WAIVER OF SOVEREIGN IMMUNITY.** The foregoing indemnification shall not constitute a waiver of the City's sovereign immunity beyond the limits set forth in section 768.28, Florida Statutes. Nor shall the same be construed to constitute agreement by Contractor to indemnify City for the negligent acts or omissions of City, its officers, agents, or employees, or third parties. This indemnification shall survive the termination of this Agreement.
48. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	Commercial Industrial Corp. Attention: Jay Blankenfeld 186 NW 68th Avenue Ocala, Florida 34482 Phone: 352-840-0161 E-mail: jay@cifl.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, Third Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, Third Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: wsexton@ocalafl.gov

49. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

50. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.
51. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the state of Florida and shall in all respects be governed, construed, applied, and enforced in accordance with the laws of the state of Florida.
52. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
53. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
54. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
55. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
56. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

57. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
58. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
59. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.
60. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements, or understandings, oral, written, or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
61. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on _____.

BACKGROUND

1. Contractor shall complete the widening construction of the existing two-lane SW 44th / 46th Avenue from SR 40 to SW 20th Street to create a four-lane divided roadway.
2. Scope of the project will contain stabilization, base, milling and asphalt for four 12-foot travel lanes, 6-foot-wide traffic separator, grass median, 4-foot-wide bike lanes, concrete sidewalks, concrete curb and gutter, curb ramps, sod, gravity wall, as well as signing and thermoplastic pavement marking. Driveway modifications are also anticipated.
3. Drainage work shall include a manhole and inlet top modifications as called out in the plans.
4. Inlet protection system, sediment barrier is also included. Construction activities include mobilization, maintenance of traffic, clearing and grubbing, earthwork, milling, concrete, and paving.
5. All pedestrian facilities must adhere to current ADA standards.
6. Proper maintenance of traffic is required at all times.
7. Contractor shall be responsible for providing all materials, labor, and equipment to complete the project.

FDOT PRE-QUALIFICATION, AND CERTIFICATION REQUIREMENTS

1. **FDOT Pre-Qualification Requirement:** Contractor must be FDOT Pre-Qualified with reviewed financial statements in the following work classes in accordance with Florida State Statute 337.14 and Florida Administrative code 14-22.
    - Grading
    - Flexible Paving
    - Hot Plant – Mix Bitum. Courses
    - Sidewalk
2. **Maintenance of Traffic (MOT)/Temporary Traffic Control (TTC) Certification:** Contractor must possess MOT/TTC Advanced certification. One (1) person who is MOT/TTC Advanced certified must be on site at all times during construction.

PERMIT REQUIREMENTS AND MOT/TTC PLAN

1. **Permits Required:** Contractor shall be responsible for obtaining the following City of Ocala permits at no additional cost to the City:
    - Right-of-Way (ROW) Utilization
    - Notice of Intent to FDEP for Overall Project Construction
2. **Estimated Permit Cost:** The ROW permit cost will be waived upon submission.
3. **Permit Application:** The ROW Utilization Permit Application is available under "Documents" at: https://www.ocalafl.org/government/city-departments-a-h/city-engineer-s-office
4. **Permit Submission Requirements:**

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

A. **If Road/Lane Closure is Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of two (2) weeks prior to the projected time the project will start.

B. **If Road/Lane Closure is not Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of one (1) week prior to the projected time the project will start.

WEATHER DAYS

Weather Days: The Contractor shall submit a written request to the City Project Manager (email is the preferred method) for additional days for which work is suspended or delayed by weather.

A. Weather days shall be reconciled with each monthly pay application for the time period which the application is submitted and shall be final.

B. Contractor performance and execution of work shall be considered in the determination for granting additional days.

SUB-CONTRACTORS

Contractor must perform a minimum of 60% of the work with their own forces.

MOBILIZATION AND MAINTENANCE OF TRAFFIC/TEMPORARY TRAFFIC CONTROL

1. **Mobilization:** Obtaining of required permits and the moving of the Contractors operations and equipment required for construction. Provide on-site construction power and wiring, as needed. Provide on-site sanitary facilities as required by Governing agencies. The Contractor will not be permitted to use the City sanitary facilities during construction. Posting of OSHA required notices and establishing of safety programs and procedures.

2. **Maintenance of Traffic (MOT)/Temporary Traffic Control (TTC):** Maintain traffic per FDOT 102 series index within the limits of the project for the duration of the construction period, including any temporary suspensions of the work. Construct and maintain detours.

   A. Provide facilities for access to residences, businesses, etc., along the project. Furnish, install, and maintain traffic control and safety devices during construction. Furnish and install work zone pavement markings for MOT/TTC in construction areas. Provide any other special requirements for safe and expeditious movement of traffic specified in the Plans.

   B. MOT/TTC includes all facilities, devices and operations as required for safety and convenience of the public within the work zone. Do not maintain traffic over those portions of the project where no work is to be accomplished or where construction operations will not affect existing roads. Do not obstruct or create a hazard to any traffic during the performance of the work and repair any damage to existing pavement open to traffic. FDOT Design Standards are the minimum standards for the use in the development of all Traffic Control Plans (TCPs).

   C. Contractor must have one (1) person that is MOT/TTC Advanced certified on site at all times during construction.

WORK HOURS/CONTRACT TIME

1. The City's normal working hours are Monday through Friday from 7:00 AM to 5:30 PM.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

2. If additional hours are necessary, the Contractor must give 48 hours advance notice to the Project Inspector/City Project Manager.
3. Contractor shall be responsible for inspector's overtime.
4. Night work shall be allowed if it would result in less impact to the public or reduced safety issues at no extra cost to city.
5. No work will be permitted on City observed holidays.
6. Issuance of the Notice to Proceed (NTP) will be given within **TEN (10) DAYS** of the executed Contract date, unless an alternative start date is agreed upon by the City Project Manager. Failure to begin construction within the specified or agreed-upon time frame shall be considered in default by the Contractor.

PROJECT SPECIFICATIONS

This project will require the Contractor to follow the following plans and specifications and any other governing specifications that projects shall be constructed in accordance to:

1. City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure (January 2025) available at:
2. https://www.ocalafl.gov/home/showpublisheddocument/26969/638741677724600000
3. Florida Department of Transportation Standard Specifications (FDOT) for Road and Bridge Construction, latest edition available at: http://www.fdot.gov/programmanagement/Implemented/SpecBooks/
4. Florida Department of Transportation Standard Plans for Road and Bridge Construction, Latest edition available at:

   https://www.fdot.gov/design/standardplans/sprbc.shtm
5. Manual on Uniform Traffic Control Devices (MUTCD), available at: https://www.fdot.gov/traffic/trafficservices/mutcd.shtm
6. **Job Site Documents:** The Contractor must have the above listed documents in addition to up-to-date copies of shop drawings, plans and bid document at job sites at all times.

PROJECT REQUIREMENTS AND EXECUTION OF WORK

1. **Project Schedule:** Contractor must submit project schedule to the City Project Manager for approval. This schedule must be submitted Two (2) weeks prior to the starting of a project and must be updated when the schedule is no longer accurate.
2. **Right-of-Way Maps and As-Builts:** Upon final completion of each individual project, signed and sealed right-of-way maps (when applicable) and as-builts must be submitted and approved by the City.
3. **Material & Construction Equipment:** All material & construction equipment must meet FDOT Standard Specifications for Road and Bridge, latest edition.
4. **Backfilling and Compaction Procedures:** Backfilling and compaction shall be performed in accordance with the FDOT Standard Specifications for Road and Bridge Construction (latest edition)

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

and the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure or as otherwise directed in writing by the City of Ocala.

5. **Open Cuts:** All open cuts in the pavement (asphalt and concrete) shall be saw cut and made square.
6. **Damages:** Contractor shall be responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor, at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
7. **Compliance:** The Contractor shall complete all work performed under this contract in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
8. Locate, protect, and relocate any and all underground utilities necessary to complete the work specified in the contract, and verify all field conditions, measurements, and elevations.
9. Contractor shall be responsible for distribution of outage/construction notices to customers at least **five (5) days** prior to an outage or construction activity.
10. 10. The Fire Hydrant Assembly line-item unit price includes a fire hydrant to grade (36″ min to 60″ max).

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
3. Contractor shall provide an assigned project manager, who will be the primary point of contact. Contractor must provide a valid telephone number, email, and address for the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
4. An employee roster shall be provided to the City Project Manager.
5. All workers within the right-of-way shall wear ANSI/ISEA Class 2 apparel (safety vest or equivalent).
6. The Contractor's employees shall wear suitable work clothes and personal protective equipment as defined by OSHA (hard hats, bucket harnesses, etc.) and meeting Manual on Uniform Traffic Control Devices (MUTCD) requirements as indicated for all work conducted and be as clean and in as good appearance as the job conditions permit.
7. Contractor shall operate as an independent contractor and not as an agent, representative, partner, or employee of the City of Ocala, and shall control his operations at the work site, and be solely responsible for the acts or omissions of his employees.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

8. Contractor personnel shall abide by the City's smoking regulations. Smoking is restricted to designated smoking areas only and is not permitted in any City buildings.
9. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
10. Contractor and sub-contractor vehicles shall have their company name located on the side and all personnel shall be required to wear a company shirt.

PROJECT SIGNS

1. Contractor shall be required to provide **two (2)** portable signs to be placed at locations that are approved by City Project Manager.
2. If during the term of this Agreement sign becomes broken or inaccurate, Contractor shall replace or make sign accurate at no extra charge to the City of Ocala.
3. Sign Construction Detail and Required Information can be found in the City of Ocala Standard Details for Construction on Detail G-31A & G-31B.

The cost to move signs to new project locations and the replacement of broken and inaccurate signs shall be included in the initial cost of each sign.

SURVEY LAYOUT

1. The City Engineer/City Project Manager may, as required, establish a number of benchmarks on the project which in their opinion will enable the Contractor to perform the work.
2. If the Contractor shall remove or destroy any stake, marker, or benchmark on the work without first having secured the approval of the City Engineer, such stake, or benchmark shall be re-established by and at the Contractor's expense.
3. It shall be at the responsibility of the Contractor to preserve all adjacent property corner markers which might be affected by their operation and replace same if undermined. Corner locations known by the City will be available to the Contractor.
4. All survey work must be in accordance with Chapters 177 and 472 of Florida Statutes and Chapter 6IG17 of the Florida Administrative Code.

TESTING REQUIREMENTS

1. Contractor Quality Control Plan is required.
    - Earthwork (Including Density Logbook)
    - Base Course
    - Asphalt
    - Concrete

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

2. Contractor shall be responsible for arranging, obtaining, and paying for all inspections and tests required. Such inspections and tests shall be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to City Project Manager.
3. Results of all required testing and inspections shall be submitted to the project inspector to achieve Final Completion Certification. For other requirements for Tests and Inspection refer to Article 14 in the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.
4. Asphalt samples will only be taken at the job site or asphalt plant and will have to meet these specifications. All work which has not been tested and accepted shall not be paid for.

EROSION SEDIMENT AND FLOOD CONTROL

1. Contractor shall provide the City of Ocala with an Erosion Control Plan that shall include spill reporting and response.
2. If contaminated soil or groundwater is encountered, contact the City Project Manager.
3. Provide, maintain, and operate temporary facilities to control erosion and sediment, and to protect work and existing facilities from flooding during construction.
4. Maintain drainage ways and construct temporary drainage facilities to allow runoff to flow properly.
5. Contractor shall be required to inspect pollution control measures daily. Written documentation of inspection must be submitted weekly and within 24 hours after a rainstorm in excess of 0.50 inches. The Contractor shall report all inspection findings and corrective actions taken as a result of the inspection. Inspection reports (DOT form 650-040-03) shall be signed by the Contractor and submitted weekly to the City Project manager, along with the name and certificate number of the person signing this form.

CONSTRUCTION WORK AREAS

1. The City of Ocala shall not be responsible for providing property or lay down yards to the Contractor for their materials or equipment. If private property is used, the City requires a copy of the agreement between the property owner and the Contractor. **Utilizing private property without written permission is prohibited.**
2. Components of the project, including temporary work and storage areas, will be located on-site per project. Staging areas will be sited inside the right-of-way or within City property. Material shall be transported to the proper station for construction, assembly, response to possible public concern.
3. Provide on-site sanitary facilities as required by governing agencies.
4. Any work areas in roadways must at least be filled temporarily with asphalt millings or covered with a FDOT approved steel road plate before the roadway can be opened to traffic. If millings are used the Contractor must maintain the millings daily until the millings are replaced with permanent asphalt.

SITE HOUSEKEEPING AND CLEANUP

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

1. **Waste/Debris:** The Contractor shall keep the premises free at all times from accumulation of waste materials and rubbish caused by operations and employees. Contractor shall provide approved containers for collection and disposal of waste materials, debris, and rubbish. Contractor shall dispose of debris in a legal manner. At least once weekly dispose of such waste materials, debris, and rubbish off-site.
2. **Cleanup:** Periodic cleanup to avoid hazards or interference with operations at the site, and to leave the site in a reasonable neat condition. Work site will be completely cleaned after each day of work. Sweep all roadways affected by the construction and where adjacent to work daily.
3. **Water Use:** The use of water to prevent the blowing of dust and debris during cutting operations and or cleaning operations is **mandatory**.
4. **Individual Project Cleaning:** At completion of each individual project, Contractor shall remove from the site all tools, equipment, surplus materials, debris, temporary facilities, scaffolding, and equipment. The areas of work shall be swept thoroughly and all marks, stains, rust, dirt, paint drippings, and the like shall be removed from all new and existing work to the satisfaction of the Owner.
5. **Final Cleaning:** Upon completion of work, clean entire work, and project site as applicable.
   A. Leave the work and adjacent areas affected in a cleaned condition satisfactory to the City Project Manager/City Engineer.
   B. Remove any foreign materials from exposed surfaces.
   C. Broom clean exterior paved driveways and parking areas.
   D. Hose clean sidewalks and concrete exposed surfaces.

SAFETY

1. The Contractor shall be fully responsible for meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-contractors, all building and site occupants, staff, public, etc.
2. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.
3. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.

SUBMITTALS

1. Provide submittals as required by City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.
2. Submit copies of permits and approvals for construction as required by laws and regulations of governing agencies.
3. Submit temporary construction parking area plans, storage yard, storage trailer location, staging area plan, and plan for disposal of waste materials.

WARRANTY

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

1. Contractor shall provide a three (3) year material and labor warranty from the date of substantial completion, against operational failure caused by defective material or workmanship which occurs during normal use.
2. All manufacturer warranty documentation and owner manuals must be provided before final payment request.

SUBSTANTIAL COMPLETION PROCESS

1. When the Contractor considers the work as substantially complete, the Contractor shall submit to the City:
   A. A written notice that the work or designated portion thereof, is substantially complete.
   B. A list of items to be completed or corrected.
2. Within a reasonable time after receipt of such notice, the City will make an inspection to determine the status of completion.
3. Should the City determine that the work is not substantially complete:
   A. The City will promptly notify the Contractor in writing, giving the reasons, therefore.
   B. The Contractor shall remedy the deficiencies in the work and send a second written notice of substantial completion to the City.
   C. The City will re-inspect the work.
4. When the City finds that the work is substantially complete, the City shall prepare a Certificate of Substantial Completion with a list of items (punch list) to be completed or corrected before final payment.

FINAL COMPLETION PROCESS

1. When the Contractor considers the work complete, the Contractor shall submit written certification that:
   A. Contract documents have been reviewed.
   B. Work has been inspected for compliance with Contract documents.
   C. Work has been completed in accordance with Contract documents.
   D. Equipment and systems have been tested in the presence of the City representative and are operational.
2. The City will make an inspection to verify the status of completion with reasonable promptness after receipt of such certification.
3. Should the City consider that the work is incomplete or defective:
   A. The City will promptly notify the Contractor in writing, listing the incomplete or defective work.
   B. The Contractor shall take immediate steps to remedy the stated deficiencies and send a second written certification to the City that the work is complete.
   C. The City will re-inspect the work.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

4. When the City finds that the work is acceptable under the Contract documents, the City shall request the Contractor make closeout submittals.
5. **Final Application for Payment:** Contractor shall submit the final application for payment in accordance with the procedures and requirements stated in the scope of work and general conditions.

CONTRACTOR CLOSEOUT DOCUMENTS

1. Evidence of compliance with requirements of governing authorities.
2. Consent of Surety to final payment.
3. Approved project record documents include electronic (CADD) and hard copy signed and sealed "As Built" by professional surveyor.
4. Completion of all submittals as required by Contract documents.
5. Warranties and operational manuals (2 copies).

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

The Contract Plans for Southwest 44th/46th Avenue 4-Lane Expansion – Phase 3 are available for inspection and copying at:
1805 NE 30th Avenue, Bldg. 700, Ocala, Florida 34470.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

1. The Contractor will handle the adjustment of existing manholes and valves to grade.

2. The City is keeping the millings.

3. Gravity wall shall be per FDOT Index 400-011-Scheme 1.

4. Traffic will be able to drive on the milled areas.

5. A sidewalk survey is not required.

6. For D curb detail, refer to FDOT Index 520-001 "D" curb – For "D" curb behind sidewalk, refer to FDOT Index 522-00.

7. For the gravity height of wall details, refer to FDOT Index 400-011-Scheme 1. The height of the walls is estimated at 2 feet.

8. For the details on the D curb behind the sidewalk, refer to FDOT Index 522-002.

9. The compacted roadway subbase is for the new lanes, not the new sidewalk. All work to construct the sidewalk will be covered under item G-58-4 OR G-58-6.

10. For the millings, the City has multiple locations that may be utilized but the Furthest location from site is the City Complex, 1805 NE 30th Avenue, Ocala, FL.

11. The sod type is Bahia.

12. Any material generated on site will be utilized first, then imported material if needed.

13. Detectable warning pay item is for existing ramps without detectable warning mats.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and

BID TABULATION & NOTICE OF INTENT TO AWARD

Bid Name: **Southwest 44th/46th Avenue 4-Lane Extension**

ProRFx ID: ITB0312250000037
Solicitation: ITB# CIP/250467
ProRFX Type: ITB: Services

Bids: 4

Senior Buyer: Eileen Marquez
Buyer Email: emarquez@ocalafl.org
Buyer Phone: 352-629-8362

Notifications Sent: 20,155

5/27/2025 Notice of Intent to Award to **Commercial Industrial Corp, pending City Council approval.**

Bidder Name	Office Location	Total Bid Amount
***Commercial Industrial Corp**	**Ocala, FL**	**$3,433,677.44**
Superior Asphalt, Inc.	**Brooksville, FL**	**$3,468,001.00**
CW Roberts Contracting, Inc.	**Wildwood, FL**	**$3,705,999.86**
Art Walker Construction, Inc.	**Lowell, FL**	**$3,729,239.00**

LOCAL VENDOR PREFERENCE: Rates valued at 1% lower than the rates submitted by the lowest responsible non-local bidder.

				Bidder:	Superior Asphalt, Inc.		*Commercial Industrial Corp		CW Roberts Contracting, Inc.		Art Walker Construction, Inc.	
				Location:	Brooksville, FL		Ocala, FL		Wildwood, FL		Lowell, FL

VALID ONLY WITH EMBOSSED SEAL

PREPARED BY

OCALA City Engineer's Office

PROJECT No. 14101

PROJECT: SW 44TH / 46TH AVE 4-LANE EXPANSION

SIGNATURE SHEET

SHEET No. 02

GENERAL NOTES:

1. THE CONTRACTOR SHALL SCHEDULE A PRE-CONSTRUCTION CONFERENCE WITH THE CITY OF OCALA ENGINEER OF RECORD.
2. THE CONTRACTOR SHALL APPLY FOR A CITY OF OCALA RIGHT-OF-WAY PERMIT NO LESS THAN FIVE (5) BUSINESS DAYS PRIOR TO STARTING THE PROPOSED CONSTRUCTION.
3. ELEVATIONS SHOWN HEREON ARE BASED ON NORTH AMERICAN VERTICAL DATUM OF 1988. STATIONS AND OFFSETS ARE BASED ON ROADWAY PLANS.
4. THESE PLANS REFLECT CONDITIONS KNOWN AT THE TIME OF PLAN DEVELOPMENT. IT IS THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY ALL PERTINENT UTILITY COMPANIES AT LEAST (7) FULL BUSINESS DAYS PRIOR TO CONSTRUCTION SO THAT THESE COMPANIES CAN FIELD STAKE THE LOCATION OF THEIR FACILITIES PRIOR TO COMMENCEMENT OF WORK.
5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL UTILITY LOCATION COORDINATION EFFORTS AS REQUIRED BY OSHA AND THE FLORIDA STATUTE REGULATING PROTECTION OF EXISTING UTILITIES. THE CONTRACTOR IS FURTHER REMINDED THAT NOT ALL UTILITY PROVIDERS ARE SUBSCRIBERS TO THE SUNSHINE STATE ONE-CALL SYSTEM, AND IT SHALL BE INCUMBENT UPON THE CONTRACTOR TO MAKE EVERY EFFORT TO ENSURE THAT ALL UTILITIES ARE LOCATED PRIOR TO CONSTRUCTION ACTIVITIES
6. IN THE EVENT THAT ACTUAL FIELD CONDITIONS PREVENT THE APPLICATION OF THESE PLANS AND/OR THE SPECIFICATIONS OR PROGRESSION OF THE WORK SPECIFIED IN THE PLANS, PARTICULARLY DUE TO CONFLICTS WITH ANY UTILITY LOCATIONS, ALL CONFLICTS SHALL BE RESOLVED PRIOR TO THE SETTING OF OR PLACING OF ANY SUB-GRADE AND/OR BURIED ITEMS. SHOULD THE CONTRACTOR ENCOUNTER ANY CONFLICTS DURING CONSTRUCTION ACTIVITIES, WORK IN THE AREA SHALL CEASE AND THE CITY TRANSPORTATION ENGINEER OF RECORD, NOEL J COOPER, P.E. (AT 352-351-6708) SHALL BE IMMEDIATELY NOTIFIED AND PROVIDED ALL PERTINENT INFORMATION FOR PREPARATION OF A REMEDIAL DESIGN SOLUTION.
7. THE CONTRACTOR SHALL PROVIDE A TRAFFIC CONTROL PLAN FOR THIS PROJECT IN ACCORDANCE WITH THE CURRENT EDITION OF THE "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES" (MUTCD); THE FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) ROADWAY AND TRAFFIC DESIGN STANDARDS, LATEST EDITION; AND ANY REQUIREMENTS OF THE CITY OF OCALA THAT MEET OR EXCEED ANY OF THE AFOREMENTIONED GOVERNING JURISDICTIONS.
8. THE CONTRACTOR SHALL HAVE A STATE OF FLORIDA CERTIFIED MAINTENANCE OF TRAFFIC SUPERVISOR WITH THE RESPONSIBILITY OF MAINTAINING THE POSITIONING AND CONDITION OF ALL TRAFFIC CONTROL DEVICES, WARNING DEVICES AND BARRIERS THROUGHOUT THE DURATION OF THE PROJECT. THE ENGINEER OF RECORD SHALL BE KEPT ADVISED AS TO THE IDENTIFICATION AND MEANS OF CONTACTING THIS AFOREMENTIONED SUPERVISOR ON A 24-HOUR BASIS.
9. THE REQUIRED TRAFFIC CONTROL DEVICES, WARNING DEVICES, AND BARRIERS ERECTED BY THE CONTRACTOR PRIOR TO COMMENCEMENT OF CONSTRUCTION WHICH NO LONGER APPLY TO THE CURRENT CONSTRUCTION CONDITIONS, AND MAY OTHERWISE CREATE HAZARDOUS CONDITIONS DURING THE ONGOING CONSTRUCTION PROCESS, SHALL BE IMMEDIATELY REMOVED OR COVERED BY THE CONTRACTOR.
10. IF ANY EXISTING SIGNS ARE REMOVED OR RELOCATED DURING CONSTRUCTION, THE CONTRACTOR SHALL REINSTALL THEM IMMEDIATELY AT THE PROPER HEIGHT AND DISTANCE.
11. THE CONTRACTOR SHALL NOT REMOVE OR DAMAGE ANY BUILDING FOUNDATIONS, AND SHALL NOTIFY THE ENGINEER OF RECORD OF ANY PROBLEMS OR CONCERNS.
12. THE CONTRACTOR SHALL ADJUST ANY AND ALL EXISTING UTILITIES MANHOLE COVERS, INLETS, AND PULLBOX COVERS TO FINAL GRADE AS NECESSARY WITHIN THE WORK AREA.
13. ANY AND ALL EXISTING UTILITIES, SUCH AS WATER VALVES, MANHOLES, AND METER BOXES, SHALL BE PROTECTED FROM DAMAGE. IF DAMAGE OCCURS DURING CONSTRUCTION ACTIVITIES, THE CONTRACTOR SHALL REPAIR SAID ITEM(S) AT THEIR OWN EXPENSE.
14. THE CONTRACTOR SHALL INSTALL INLET PROTECTION DEVICES AT ALL INLETS TO MINIMIZE DEBRIS ENTERING THE STORM DRAIN SYSTEM. (AS APPROVED BY FDEP).
15. THE CONTRACTOR SHALL REPAIR OR REPLACE ALL PAVEMENT MARKINGS, RPM'S, TRAFFIC LOOPS OR HOMERUNS THAT ARE DAMAGED DURING THE CONSTRUCTION PROCESS.
16. THE CONTRACTOR SHALL BE RESPONSIBLE TO MAINTAIN ACCEPTABLE ACCESS TO ALL RESIDENCES AND BUSINESSES ALONG THE PROJECT ROUTE WHENEVER CONSTRUCTION ACTIVITIES INTERFERE WITH THE EXISTING MEANS OF ACCESS. FLAGMEN SHALL BE USED WHEN NO ALTERNATE ACCESS IS POSSIBLE.
17. IN THE EVENT THAT EXISTING MAILBOXES ARE TO BE RELOCATED AND/OR REMOVED, THE CONTRACTOR SHALL NOTIFY THE POSTMASTER OF THE OCALA POST OFFICE NO LESS THAN SEVEN (7) BUSINESS DAYS (EXCLUDING WEEKENDS AND POSTAL HOLIDAYS) PRIOR TO COMMENCEMENT OF THE WORK.
18. SIDEWALKS, INCLUDING PORTIONS OF DRIVEWAYS (EXISTING OR PROPOSED) WITHIN SIDEWALK PATH, SHALL COMPLY WITH ADA ACCESSIBILITY STANDARDS. WHERE EXISTING DRIVEWAYS ARE NOT COMPLIANT, THE CONTRACTOR SHALL ADVISE THE ENGINEER OF RECORD, AND REMOVE AND REPLACE SAID ITEM.
19. WHEN OPERATING OUTSIDE THE CITY OF OCALA RIGHT-OF-WAY, THE CONTRACTOR SHALL GIVE PROPER NOTIFICATION AND OBTAIN WRITTEN PERMISSION TO DO SO FROM THE OWNER OF EACH PARTICULAR PROPERTY.
20. UNLESS OTHERWISE SPECIFIED ON THE PLANS, THE CONTRACTOR SHALL MAINTAIN [AT LEAST] ONE LANE OF TRAFFIC IN EACH DIRECTION FOR THE DURATION OF THE PROJECT. THE CONTRACTOR MAY, UPON APPROVAL FROM THE ENGINEER OF RECORD, RESTRICT TRAFFIC TO ONE-WAY OPERATION FOR SHORT PERIODS OF TIME PROVIDED THAT ADEQUATE MEANS OF TRAFFIC CONTROL ARE IN PLACE AND TRAFFIC IS NOT UNREASONABLY DELAYED.
21. ALL UNSUITABLE MATERIALS ENCOUNTERED SHALL BE DISPOSED OF AND REPLACED WITH APPROVED MATERIALS. NO TEMPORARY OR PERMANENT DEPOSITS SHALL BE MADE OUTSIDE OF THE PROPOSED RIGHT-OF-WAY EXCEPT AS APPROVED BY THE ENGINEER OF RECORD.
22. THE CONTRACTOR SHALL HAVE EXCAVATED MATERIALS LOADED ONTO DUMP TRUCKS DIRECTLY BEHIND THE EQUIPMENT AND HAULED OFF TO THE DESIGNATED SITE WITH CITY OF OCALA APPROVED TRAFFIC CONTROL MEASURES IN PLACE ACCORDINGLY TO ACCOMMODATE THIS PROCESS.
23. THE CONTRACTOR SHALL RESTORE ALL DISTURBED AREAS TO ORIGINAL CONDITION - UNLESS OTHERWISE INSTRUCTED BY THE ENGINEER OF RECORD IN WRITING.
24. THE CONTRACTOR SHALL BE NOISE SENSITIVE FOR NIGHT OPERATIONS (WHEN APPLICABLE).
25. DURING NON-WORKING HOURS, THE CONTRACTOR SHALL NOT STORE ANY MATERIALS OR PARK ANY EQUIPMENT WITHIN 30 FEET OF THE EDGE OF THE TRAVELED WAY. IF THE ABOVE IS NOT POSSIBLE, THE CONTRACTOR SHALL APPOINT AN APPROVED STORAGE AREA, AND SUCH AREA SHALL BE PROPERLY DELINEATED AND ADVANCE WARNING SHALL BE UTILIZED.
26. THE CONTRACTOR SHALL PROVIDE THE CITY OF OCALA TRAFFIC DIVISION WITH ONE (1) ELECTRONIC COPY OF AN AS-BUILT PLAN FORMATTED IN AUTOCAD, VERSION 2021 OR GREATER AT THE CONCLUSION OF THE PROJECT SCOPE OF WORK.

IMPORTANT NOTE TO CONTRACTOR

THESE PLANS HAVE BEEN PREPARED BASED UPON THE CITY OF OCALA'S 2023 PLANIMETRIC DRAWINGS PREPARED BY AERIAL CARTOGRAPHICS, INC. WITH AERIAL PHOTOGRAPHY DATES OF 12/14/22 AND 2/28/23. HORIZONTAL DATUM IS BASED ON THE CITY OF OCALA G.P.S. DERIVED THREE MILE CONTROL GRID, UTILIZING THE NORTH AMERICAN DATUM 1983, 1990 ADJUSTMENT OF THE STATE PLANE COORDINATES, FLORIDA WEST ZONE (902). VERTICAL DATUM IS BASED ON THE CITY OF OCALA G.P.S. DERIVED THREE MILE CONTROL GRID, UTILIZING THE NORTH AMERICAN VERTICAL DATUM OF 1988

THE CONTRACTOR SHALL FIELD-VERIFY ALL EXISTING UTILITIES IN THE PROJECT AREA AND OTHER UTILITIES WHICH MAY BE AFFECTED BY THE PROPOSED CONSTRUCTION ACTIVITIES THE CITY OF OCALA WILL MAKE AVAILABLE TO THE CONTRACTOR AWARDED THE PROJECT ALL RELEVANT UTILITY INFORMATION IN THE AREA WITHIN ITS POSSESSION

ADA NOTES:

1. THE PROJECT SHALL BE CONSTRUCTED TO MEET CURRENT ADA STANDARDS FOR ACCESSIBLE DESIGN.
2. CURB RAMPS SHALL BE CONSTRUCTED IN ACCORDANCE WITH THE APPLICABLE FDOT STANDARD SPECIFICATIONS PLANS FOR ROAD AND BRIDGE CONSTRUCTION.

FDOT NOTES:

1. THE CONTRACTOR SHALL INSURE THAT ALL CONSTRUCTION WITHIN THE FDOT RIGHT-OF-WAY SHALL BE IN ACCORDANCE WITH THE LATEST FDOT DESIGN STANDARDS, THE STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, AND THE UTILITY ACCOMMODATION (UAM).
2. THE CONTRACTOR SHALL REVIEW AND COMPLY WITH THE "SPECIAL PROVISIONS" AND OTHER ATTACHMENTS TO THE FDOT PERMIT FOR THIS PROJECT.
3. THE CONTRACTOR SHALL CALL "FLORIDA SUNSHINE ONE-CALL" FOR UTILITY LOCATION SERVICES AT LEAST (2) BUSINESS DAYS PRIOR TO CONSTRUCTION (1-800-432-4770).
4. THE CONTRACTOR SHALL INSURE MAINTENANCE OF TRAFFIC (MOT) PLAN & TRAFFIC CONTROL THROUGHOUT THE WORK ZONE AS PER THE FDOT STANDARD INDEX 102- 600 SERIES.
5. THE CONTRACTOR SHALL CONDUCT A SIDEWALK SURVEY TO DETERMINE THE EXISTING CONDITION OF AFFECTED SIDEWALKS AND SUBMIT SAID SURVEY TO FDOT AND THE CITY OF OCALA's ENGINEER OF RECORD PRIOR TO CONSTRUCTION.
6. AT SUCH LOCATIONS WHERE FDOT SIGNS, REFLECTORS, OR OTHER STRUCTURES WILL INTERFERE WITH PROPOSED CONSTRUCTION, THE CONTRACTOR SHALL NOTIFY THE LOCAL MAINTENANCE OFFICE OR PROJECT ENGINEER AT LEAST 48 HOURS PRIOR TO CONSTRUCTION. ALL ITEMS THAT REQUIRE RELOCATION OR REPLACEMENT WILL BE THE RESPONSIBILITY OF THE CONTRACTOR. IF THE WORK IS WITHIN 500' OF THE TRAFFIC SIGNAL CONTRACTOR SHALL CONTACT THE CITY OF OCALA PUBLIC WORKS DEPARTMENT - TRAFFIC OPERATIONS (352) 351-6733.
7. THE CONTRACTOR SHALL NOTIFY ALL PROPERTY OWNERS AFFECTED BY THE PROPOSED CONSTRUCTION ACTIVITIES IN ADVANCE OF SUCH OPERATIONS IN ACCORDANCE WITH FDOT NOTIFICATION REQUIREMENTS.
8. THE CONTRACTOR SHALL COORDINATE ALL UTILITY CLEARANCES WITH THE OWNER OF SUCH UTILITIES PRIOR TO CONSTRUCTION COMMENCEMENT.
9. THE CONTRACTOR SHALL RESTORE AND RE-SOD ALL DISTURBED AREAS WITH ARGENTINE BAHIA IN ACCORDANCE WITH THE FDOT STANDARD SPECIFICATIONS. THE CONTRACTOR SHALL MAINTAIN THAT PORTION OF THE RIGHT-OF-WAY AFFECTED BY THE PERMIT UNTIL VEGETATION IS ESTABLISHED. PERFORM ALL WORK NECESSARY, INCLUDING WATERING AND FERTILIZING, TO SUSTAIN AN ESTABLISHED TURF UNTIL FINAL ACCEPTANCE, AT NO ADDITIONAL EXPENSE TO FDOT OR THE CITY OF OCALA. PROVIDE FILLING, LEVELING, AND REPAIRING OF ANY WASHED OR ERODED AREAS, AS MAY BE NECESSARY.
10. THE CONTRACTOR IS RESPONSIBLE FOR MOWING, AT NO ADDITIONAL EXPENSE TO FDOT OR THE CITY OF OCALA, ANY AREA WITHIN PUBLIC RIGHT-OF-WAYS WHERE THE PERMITTED WORK OR WHERE UTILITY LOCATE FLAGS PLACED FOR PERMITTED WORK CREATES A HINDRANCE FOR OR INTERFERES WITH MAINTENANCE ENTITY'S REGULAR MOWING OPERATIONS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MOWING UNTIL ALL SUCH HINDRANCES ARE REMOVED SO THAT REGULAR MAINTENANCE ENTITY MOWING CAN BE RESUMED. THE CONTRACTOR SHALL MEET THE MOWING REQUIREMENTS ESTABLISHED BY THE DEPARTMENT'S MAINTENANCE RATING PROGRAM (MRP). CONTACT THE LOCAL FDOT MAINTENANCE OFFICE FOR DETAILS (352.732.1338).
11. ALL UTILITY LOCATION FLAGS SHALL BE REMOVED BY THE CONTRACTOR WHEN THEY ARE NO LONGER NEEDED.

SURVEY & MAPPING NOTES:

1. COORDINATES AND BEARINGS SHOWN HEREON ARE BASED ON FLORIDA STATE PLANE COORDINATES, WEST ZONE AND WERE DERIVED FROM GPS OBSERVATIONS REFERENCED TO THE FDOT PERMANENT REFERENCE NETWORK.
2. ELEVATIONS SHOWN HEREON ARE BASED ON NORTH AMERICAN VERTICAL DATUM OF 1988 AND ARE REFERENCED TO CITY CONTROL POINTS SHOWN ON THIS DRAWING.
3. IT IS THE RESPONSIBILITY OF THE CONTRACTOR, PRIOR TO THE COMMENCEMENT OF CONSTRUCTION, TO ENSURE ALL EXISTING SURVEY MARKERS ARE LOCATED, CLEARLY MARKED AND PROTECTED, BY THE CONTRACTORS SURVEYOR.
4. ANY SURVEY MARKER, INCLUDING, BUT NOT LIMITED TO, PUBLIC LAND SURVEY SECTION CORNER MARKERS, BENCH MARKS, PROPERTY CORNERS, ETC., WHICH ARE DISTURBED DURING CONSTRUCTION SHALL BE REPLACED AT THE CONTRACTOR'S EXPENSE PRIOR TO FINAL PAYMENT.
5. ADDITIONALLY, SURVEY STAKES PLACED MARKING THE LOCATIONS OF MARKERS, PROPERTY LINES, RIGHT-OF-WAY LINES, OR ANY OTHER POINT, PLACED FOR CONSTRUCTION AND SUBSEQUENTLY DISTURBED OR DESTROYED DURING CONSTRUCTION SHALL BE REPLACED AS NEEDED AT THE RESPONSIBILITY OF THE CONTRACTOR.
6. RESETTING OF MONUMENTS AND MARKERS SHALL BE PERFORMED BY A PROFESSIONAL LAND SURVEYOR, LICENSED TO PRACTICE IN THE STATE OF FLORIDA AND SHOWN AS RE-SET ON AS-BUILT PLANS.
7. UNLESS PRIOR AGREEMENT IS MADE, IT SHALL NOT BE THE RESPONSIBILITY OF THE CITY SURVEYOR TO REPLACE ANY SURVEY MARKERS.

SIGNING & PAVEMENT MARKING NOTES:

1. THE CONTRACTOR SHALL CONTACT THE CITY OF OCALA PUBLIC WORKS DEPARTMENT - TRAFFIC OPERATIONS AT (352)-351-6733 AT LEAST (48) HOURS PRIOR TO COMMENCEMENT OF CONSTRUCTION ACTIVITIES. ALL ITEMS THAT REQUIRE RELOCATION OR REPLACEMENT WILL BE THE RESPONSIBILITY OF THE CONTRACTOR.
2. ALL SIGN ASSEMBLIES AND SIGN PANELS TO BE RELOCATED SHALL BE RELOCATED OUT OF THE CONSTRUCTION AREA, THEN RE-INSTALLED AFTER CONSTRUCTION IS COMPLETED. ANY DAMAGED SIGNAGE SHALL BE REPLACED AT CONTRACTOR'S EXPENSE.
3. THE CONTRACTOR SHALL REPAIR OR REPLACE ALL PAVEMENT MARKINGS THAT ARE DAMAGED DURING CONSTRUCTION.
4. THERMOPLASTIC STRIPING, AS DEFINED UNDER FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) STANDARD SPECIFICATION FOR ROAD AND BRIDGE CONSTRUCTION #711, IS REQUIRED FOR FINISHED CONSTRUCTION ON CITY OF OCALA RIGHT-OF-WAY. WHERE ROADWAY PAVEMENT IS INSTALLED OR REPLACED, THERMOPLASTIC STRIPING SHALL BE INSTALLED BY THE CONTRACTOR AT LEAST 14 DAYS AFTER FINAL PAVING; OTHERWISE THERMOPLASTIC STRIPING IS TO BE INSTALLED CONCURRENT TO OTHER PROJECT WORK. CONTRACTOR SHALL BE PAID FOR ONLY ONE APPLICATION OF THERMOPLASTIC STRIPING PER ITEM.
5. WHERE CROSSWALK ARE PROPOSED, THE CONTRACTOR SHALL ENSURE THAT ANY EXISTING STOP LINE(S) ARE A MIN. 4' FROM THE PROPOSED CROSSWALK LINES.

THE OFFICIAL RECORD OF THIS SHEET IS THE ELECTRONIC FILE DIGITALLY SIGNED AND SEALED UNDER RULE 61G15-23.004, F.A.C.

ENGINEER OF RECORD

NOEL JOHN COOPER, P.E.
P.E. LICENSE NUMBER: 69534
STATE OF FLORIDA, DATED: / / .
VALID ONLY WITH EMBOSSED SEAL

PREPARED BY

OCALA City Engineer's Office

PROJECT No. 14101

PROJECT: SW 44TH / 46TH AVE 4-LANE EXPANSION

GENERAL NOTES

SHEET No. 03

ENVIRONMENTAL NOTES:

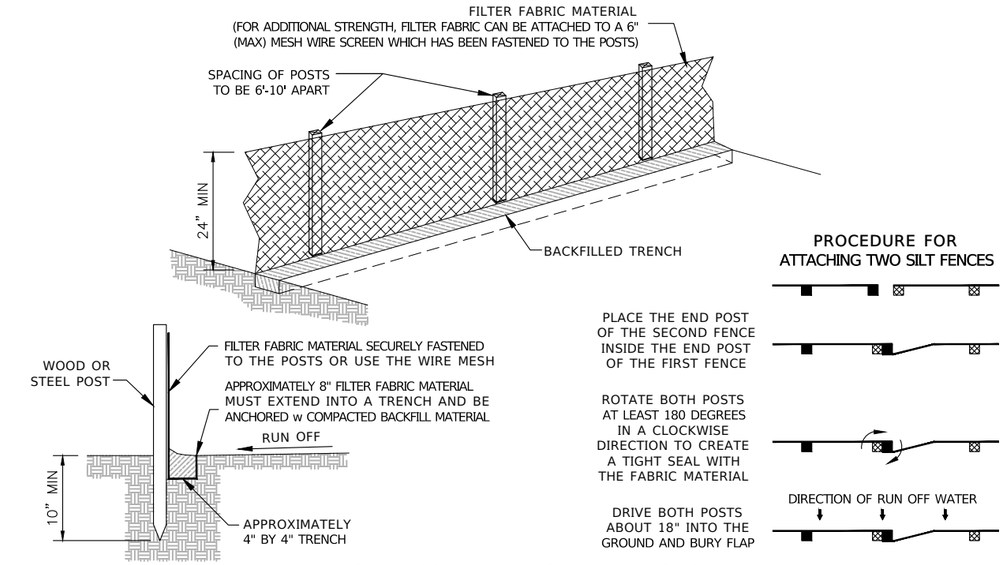
1. THE CONTRACTOR SHALL FORMULARIZE THEMSELVES WITH THE GENERAL NOTES AND FDOT NOTES THAT ARE PROVIDED IN THIS PLAN SET ON A SEPARATE SHEET
2. THE CITY OF OCALA OPERATES UNDER A FDEP NPDES 'GENERAL PERMIT THAT REQUIRES THE CITY AND, IN TURN, ITS CONTRACTORS TO FOLLOW CERTAIN AND SPECIFIC ENVIRONMENTAL PRACTICES AND PROCEDURES TO PREVENT THE POLLUTION OF THE CITY'S GROUNDWATER AND STORMWATER SYSTEM
3. ALL WATER COLLECTED AND PUMPED DURING TRENCH DEWATERING ACTIVITIES SHALL BE DISPOSED OF IN UPLAND AREAS INTO DISCHARGE LOCATIONS THAT SHALL BE A MINIMUM OF 75 FEET FROM THE NEAREST WATER BODY OR WETLAND AREA TO ALLOW FOR MAXIMUM OVERLAND FILTRATION OF SOIL PARTICLES
4. STAKED SILT SCREEN, TURBIDITY BARRIERS OR OTHER PERIMETER CONTROL METHODS APPROVED BY THE FDEP SHALL BE UTILIZED AS SILT BARRIERS AND PLACED IN LOCATIONS SHOWN ON THE PLANS AND AT OTHER LOCATIONS AS REQUIRED TO KEEP SEDIMENT FROM REACHING PRIVATE PROPERTY. THESE BARRIERS SHALL BE INSTALLED BY THE CONTRACTOR BEFORE COMMENCING WITH ANY CONSTRUCTION ACTIVITIES WITHIN OR ADJACENT TO PRIVATE PROPERTY
5. THE CONTRACTOR SHALL MONITOR AND MAINTAIN ALL SILT BARRIERS AND FENCING INCLUDING DAILY INSPECTIONS TO CHECK THEIR INTEGRITY. ANY LOOSE OR DAMAGED SILT BARRIERS AND FENCING SHALL BE IMMEDIATELY REPAIRED OR REPLACED AS NECESSARY. ONCE CONSTRUCTION IS COMPLETED AND FINISHED GRADING AND STABILIZATION HAS BEEN ACHIEVED, SILT BARRIERS AND FENCING SHALL BE COMPLETELY REMOVED BY THE CONTRACTOR TO THE SATISFACTION OF THE ENGINEER OF RECORD, AND BEFORE FINAL ACCEPTANCE
6. THE CONTRACTOR SHALL NOT REMOVE ANY TREES WITHOUT COORDINATING SUCH REMOVAL WITH THE ENGINEER OF RECORD. IF ANY TREES ARE REMOVED IN WETLAND JURISDICTIONAL, OR NATIVE VEGETATION AREAS WITHOUT PROPER AUTHORIZATION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR PREPARING A DETAILED RESTORATION AND/OR MITIGATION PLAN, SUBMITTING THE PLAN TO, AND OBTAINING APPROVAL FROM THE FDEP, THE WATER MANAGEMENT DISTRICT, THE CITY ENGINEER'S OFFICE, THE OWNER AND THE ENGINEER OF RECORD, AS WELL AS COMPLETING ANY MONITORING AND MAINTENANCE REQUIREMENTS IMPOSED AS A RESULT OF THE TREE REMOVAL

HAZARDOUS MATERIALS

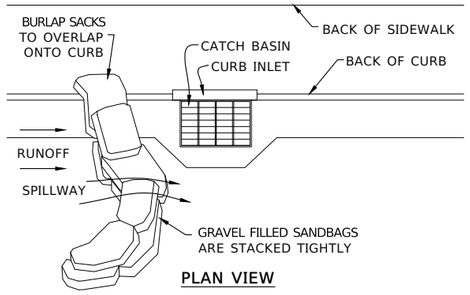
1. THE CONTRACTOR SHALL FOLLOW GOOD HOUSEKEEPING PRACTICES TO MINIMIZE THE RISK OF SPILLS OR UNINTENDED EXPOSURE OF PETROLEUM AND OTHER HAZARDOUS MATERIALS TO STORMWATER RUNOFF OR SEEPAGE INTO THE GROUNDWATER
2. THE CONTRACTOR SHALL HAVE PRE-PREPARED PROCEDURES CLEARLY POSTED FOR SPILL CONTAINMENT AND CLEAN-UP
3. THE CONTRACTOR SHALL STORE AND USE PETROLEUM AND OTHER HAZARDOUS PRODUCTS ACCORDING TO RECOMMENDED PROCEDURES
4. THE CONTRACTOR SHALL DESIGNATE AN AREA FOR DISCHARGE OF SURPLUS CONCRETE, AND CONCRETE TRUCK DRUM WASH WATER. INSTALL A CONTAINMENT BERM AROUND THIS DESIGNATED AREA TO PREVENT RUNOFF BEYOND THE DESIGNATED AREA. ALL SURPLUS CONCRETE SHALL BE REMOVED FROM THE PROJECT SITE PRIOR TO FINAL INSPECTION
5. THE CONTRACTOR SHALL UPON RELEASE, IMMEDIATELY INITIATE RECOMMENDED METHODS FOR SPILL CONTAINMENT AND CLEAN-UP
6. THE THE CONTRACTOR SHALL, WITHIN 24-HOURS OF THE SPILL/RELEASE, NOTIFY THE 'STATE WARNING POINT' (AT 1.800.320.0519 OR 1.850.413.9911) OF ALL RELEASES EQUAL TO OR EXCEEDING THE REPORTABLE QUANTITY
7. THE CONTRACTOR SHALL HANDLE, COLLECT, AND DISPOSE OF HAZARDOUS MATERIALS, SANITARY WASTE, AND CONSTRUCTION WASTE MATERIALS ACCORDING TO THE APPLICABLE STATE LAWS AND REGULATIONS, CITY ORDINANCES, OR AS DIRECTED BY THE CITY

EROSION CONTROL NOTES:

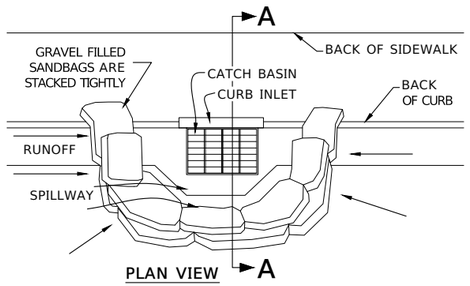
1. THE CONTRACTOR SHALL ADHERE TO ALL STATE AND LOCAL EROSION CONTROL REGULATIONS
2. THE FOLLOWING PRACTICES WILL BE USED BY THE CONTRACTOR TO MAINTAIN EROSION AND SEDIMENT CONTROLS:
   a) ALL MEASURES WILL BE MAINTAINED IN GOOD WORKING ORDER
   b) IF A REPAIR IS NECESSARY, IT WILL BE INITIATED WITHIN 24 HOURS OF REPORT
   c) ALL POLLUTION CONTROLS SHALL BE MAINTAINED AT ALL TIMES
   d) BUILT-UP SEDIMENT WILL BE REMOVED FROM STAKED SILT FENCE WHEN IT HAS REACHED ONE-HALF THE HEIGHT OF THE SILT FENCE
2. THE CONTRACTOR SHALL PREVENT THE DISCHARGE OF SEDIMENT DUE TO CONSTRUCTION OPERATIONS. ALL NEW AND EXISTING DRAIN PIPES AND STRUCTURES SHALL BE FLUSHED CLEAN PRIOR TO FINAL PAYMENT
3. ALL STORM SEWER INLETS SHALL BE PROTECTED BY THE CONTRACTOR SO THAT SEDIMENT LADEN WATER WILL NOT ENTER THE STORM SYSTEM WITHOUT FIRST BEING FILTERED
4. ALL DISTURBED AREAS ARE TO BE SODDED. ALL STABILIZATION PRACTICES SHALL BE PERFORMED AS SOON AS PRACTICAL AT LOCATIONS WHERE CONSTRUCTION ACTIVITIES HAVE TEMPORARILY OR PERMANENTLY CEASED. PERMANENT VEGETATION SHALL NOT BE CONSIDERED ESTABLISHED UNTIL GROUND COVER IS ACHIEVED AND, IN THE OPINION OF THE ENGINEER OF RECORD, PROVIDES ADEQUATE COVER AND IS MATURE ENOUGH TO CONTROL SOIL EROSION SATISFACTORILY, TO SURVIVE ADVERSE WEATHER CONDITIONS
5. THE CONTRACTOR SHALL PLACE STAKED SILT FENCE(S) IN ACCORDANCE WITH CITY OF OCALA SPECIFICATIONS
6. THE CONTRACTOR SHALL PROVIDE LITTER CONTROL AND COLLECTION WITHIN THE PROJECT BOUNDARIES DURING CONSTRUCTION ACTIVITIES. ALL FERTILIZERS, HYDROCARBON, OR OTHER CHEMICAL CONTAINERS SHALL BE DISPOSED OF BY THE CONTRACTOR ACCORDING TO EPA'S STANDARD PRACTICES AS DETAILED BY THE MANUFACTURER
7. THE CONTRACTOR SHALL INSURE THAT LOADED HAUL TRUCKS BE COVERED WITH TARPAULIN(S), EXCESS DIRT ON THE ROAD SHALL BE REMOVED DAILY, AND AREAS WITHIN THE LIMITS OF CONSTRUCTION SHALL BE DAMPENED WITH WATER AS REQUIRED FOR DUST CONTROL
8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE AND REPAIRS OF EROSION AND SEDIMENT CONTROL DEVICES, AS WELL AS REMOVAL OF EROSION AND SEDIMENT CONTROL DEVICES AFTER THE NOTICE OF TERMINATION. MAINTENANCE, AND REPAIR REQUIRED FOR THE CONTROL AND ABATEMENT OF EROSION AND WATER POLLUTION SHALL BE INCLUDED IN THE PROJECT COST
9. TOXIC SUBSTANCES SHALL BE DISPOSED OF BY THE CONTRACTOR IN ACCORDANCE TO THE EPA'S STANDARD PRACTICES
10. POLLUTION CONTROL MEASURES SHALL BE INSPECTED DAILY BY THE CONTRACTOR. WRITTEN DOCUMENTATION OF INSPECTIONS SHALL BE WRITTEN EVERY SEVEN CALENDAR DAYS AND WITHIN 24 HOURS OF A RAIN EVENT OF 0.5 INCHES OR GREATER
11. THE CONTRACTOR SHALL PROVIDE THE CITY OF OCALA WITH AN EROSION CONTROL PLAN THAT WILL INCLUDE SPILL REPORTING AND RESPONSE. IF CONTAMINATED SOIL OR GROUNDWATER IS ENCOUNTERED, CONTACT THE ENGINEER OF RECORD



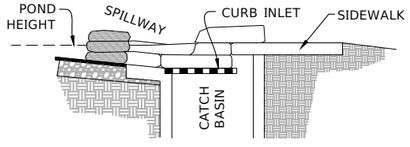
TYPICAL SILT FENCE DETAILS



PLAN VIEW



PLAN VIEW



SECTION A-A

PROCEDURE NOTES

1. PLACE CURB TYPE SEDIMENT BARRIERS ON GENTLY SLOPING STREET SEDIMENTS WHERE WATER CAN POND AND ALLOW SEDIMENT TO SEPARATE FROM RUNOFF
2. SANDBAGS, OF EITHER BURLAP OR WOVEN GEOTEXTILE FABRIC, ARE FILLED WITH GRAVEL, LAYERED AND PACKED TIGHTLY
3. LEAVE ONE SANDBAG GAP IN THE TOP ROW TO PROVIDE A SPILLWAY FOR OVERFLOW
4. INSPECT BARRIERS AND REMOVE SEDIMENT AFTER EACH STORM EVENT. SEDIMENT AND GRAVEL MUST BE REMOVED FROM THE TRAVELED WAY IMMEDIATELY

CURB AND GUTTER SEDIMENT BARRIER

1. PLACE GRAVEL FILLED BURLAP BAGS ON GENTLY SLOPING STREET SEGMENTS ACCORDING TO THE SPACING CHART (SEE PLATE 4.08p)
2. PLACE TWO OR MORE BAGS AT EACH INTERVAL IN A MANNER WHICH PROVIDES MAXIMUM SUPPORT
3. WHEN STACKING SEVERAL BAGS HIGH, LEAVE A ONE BAG GAP TO PROVIDE AN OVERFLOW SPILLWAY
4. SEDIMENTS MUST BE REMOVED AFTER EACH RAIN EVENT

MAINTENANCE

1. THE STRUCTURE SHALL BE INSPECTED AFTER EACH RAIN AND REPAIR MADE AS NEEDED
2. SEDIMENT SHALL BE REMOVED AND THE TRAP RESTORED TO ITS ORIGINAL DIMENSIONS WHEN THE SEDIMENT HAS TO $\frac{1}{4}$ OF THE DESIGN DEPTH OF THE TRAP. REMOVED SEDIMENT SHALL BE DEPOSITED IN A SUITABLE AREA AND IN SUCH A MANNER THAT IT WILL NOT ERODE
3. STRUCTURES SHALL BE REMOVED AND THE AREA STABILIZED WHEN THE REMAINING DRAINAGE AREA HAS BEEN PROPERLY STABILIZED

CURB INLET SEDIMENT BARRIER

THE OFFICIAL RECORD OF THIS SHEET IS THE ELECTRONIC FILE DIGITALLY SIGNED AND SEALED UNDER RULE 61G15-23.004, F.A.C.

TYPICAL HATCH PATTERN LEGEND

TYPICAL MATERIAL TYPE HATCH PATTERNS WITHIN THE ROADWAY PLAN SHEETS ARE DEFINED AS FOLLOWS:

- MILL AND RESURFACE EXISTING ASPHALT PAVEMENT PER FDOT DESIGN SPECIFICATIONS
- PROPOSED 4" CONCRETE (MIN. 3,000 PSI) (BID ALTERNATE)
- PROPOSED ASPHALT PAVEMENT AND LIMEROCK BASE PER TYPICAL FDOT DESIGN SPECIFICATIONS
- HOT MIX RECLAIM EXISTING ASPHALT AND LIMEROCK. ADD ASPHALT PAVEMENT FDOT DESIGN SPECIFICATIONS
- PROPOSED 6" CONCRETE WITH FIBER MESH REINFORCEMENT (MIN 3,000 PSI)
- PROPOSED TYPE IV, OPTION 1, CONCRETE SEPARATOR
- HOT MIX RECLAIM EXISTING LIMEROCK BASE. ADD ASPHALT AND LIMEROCK AS NEEDED PER FDOT DESIGN SPECIFICATIONS
- PROPOSED 6" THICK FIBER RE-ENFORCED CONCRETE DRIVEWAY (MIN. 3,000 PSI)
- PROPOSED ASPHALT MEDIAN OPENING/ROADWAY STUB. REGULAR 10" BASE, OMIT 1" FRICTION COURSE
- DETECTABLE WARNING SURFACE (RED BRICK COLOR WHERE APPLICABLE)
- PROPOSED COMMERCIAL ASPHALT DRIVEWAY
- TYPICAL GRASS MEDIAN w ARGENTINE BAHIA

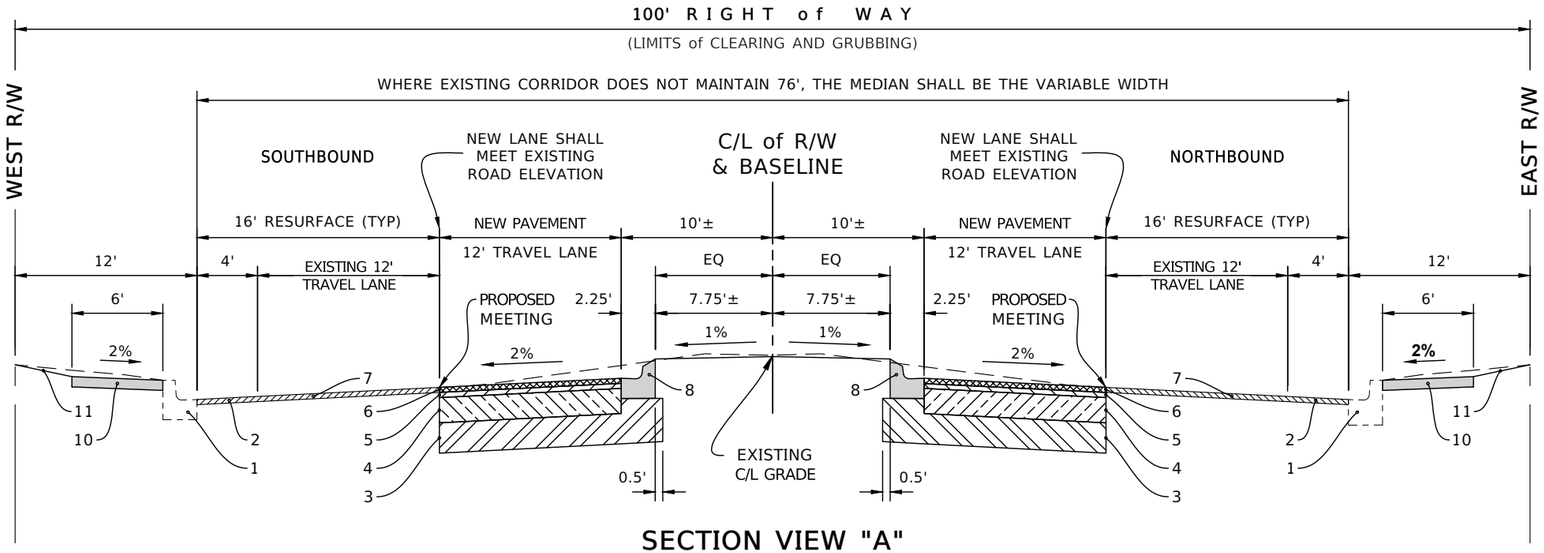
PROJECT OVERVIEW

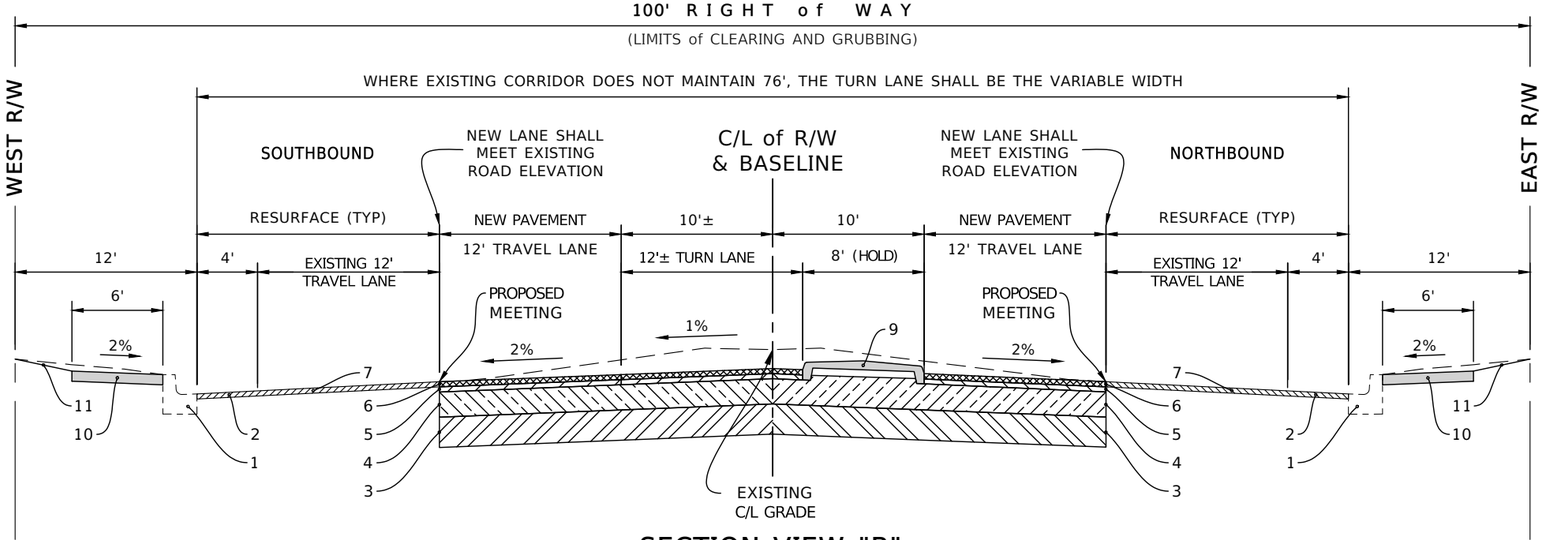
SHEET No. 07

THE OFFICIAL RECORD OF THIS SHEET IS THE ELECTRONIC FILE DIGITALLY SIGNED AND SEALED UNDER RULE 61G15-23.004, F.A.C.



SECTION VIEW "A"
TYPICAL EXPANDED 4-LANE ROADWAY

(STA 111+50.00 - STA 122+30.00)
and
(STA 125+65.00 - STA 161+90.00)
REFER TO PLAN VIEW FOR
LOCATIONS OF BULLNOSE OPENINGS



SECTION VIEW "B"
4-LANE ROADWAY w TURN LANE

(STA 122+85.00 - STA 125+20.00)
and
(STA 140+95.00 - STA 142+08.50)
(DETAIL MIRRORED AT STA 142/144)

ROADWAY DESIGN SPEED = 45 MPH.

NORTHBOUND (EAST SIDE) LANES ALONG CURVE(S) WHERE ROADWAY IS SUPER-ELEVATED:

AT THE 22' RIGHT SIDE OFFSET FROM
THE CENTERLINE OF THE RIGHT-OF-WAY:

- HOLD THE EXISTING GRADE ELEVATION AT THE PROPOSED MEETING OF THE NEW TRAVEL LANE
- MAINTAIN THE EXISTING SLOPE ALONG THE EXISTING PAVEMENT AND PROJECT THE EXISTING SURFACE TOWARDS THE C/L OF THE RIGHT-OF-WAY TO THE DESIRED ELEVATION ALONG THE NEW TRAVEL LANE

SOUTHBOUND (WEST SIDE) LANES, ALONG CURVE(S) WHERE ROADWAY IS SUPER-ELEVATED:

AT THE 22' LEFT SIDE OFFSET FROM
THE CENTERLINE OF THE RIGHT-OF-WAY:

- HOLD THE EXISTING GRADE ELEVATION AT THE PROPOSED MEETING OF THE NEW TRAVEL LANE
- MAINTAIN THE EXISTING SLOPE ALONG THE EXISTING PAVEMENT AND PROJECT THE EXISTING SURFACE TOWARDS THE C/L OF THE RIGHT-OF-WAY TO THE DESIRED ELEVATION ALONG THE NEW TRAVEL LANE

ROADWAY KEYNOTE LEGEND .

1. EXISTING CURB AND GUTTER
2. EXISTING 4' WIDE BICYCLE LANE (REF)
3. STABILIZED SUB-GRADE (12" LBR-40)
4. 10" LIMEROCK BASE COURSE (LBR-100) (COMPACTED TO 98% OF MAXIMUM DENSITY PER AASHTO T-180)
5. SP-12.5 ASPHALT (2" STRUCTURAL COURSE)
6. FC-9.5 ASPHALT (2" FRICTION COURSE)
7. SAWCUT, MILL & REPLACE 2" DEEP FOR FC-9.5 ASPHALT (FRICTION COURSE) TO MATCH FLUSH WITH EXISTING PAVEMENT TO GUTTER EDGE OF EXISTING CURB
8. PROPOSED TYPE "E" CURB AND GUTTER (PER FDOT INDEX 520-001)
9. 8' WIDE TYPE IV TRAFFIC SEPARATOR, MOUNTABLE, OPTION 1 (PER FDOT INDEX 520-020)
10. 4" THICK CONCRETE SIDEWALK (PER FDOT INDEX 522-001)
    (CONTRACTOR SHALL MATCH FRONT OF NEW SIDEWALK w EXISTING BACK OF CURB ELEVATION AND PROVIDE 2% MAX SLOPE THROUGHOUT)
11. ADJUSTED GRADE ELEVATION TO MEET BACK OF NEW SIDEWALK
    (CONTRACTOR SHALL PROVIDE GRADE LEVEL RETAINING WALL TYPE CURBING AT BACK OF NEW SIDEWALKS FOR LOCATION(S) WHERE RIGHT-OF-WAY SHOULDER SLOPE EXCEEDS MINIMUM REQUIRED GRADE AT LOCATIONSSHOWN ON PLAN VIEWS)

THE OFFICIAL RECORD OF THIS SHEET IS THE ELECTRONIC FILE DIGITALLY SIGNED AND SEALED UNDER RULE 61G15-23.004, F.A.C.

Submitted By: Paul Constable

Presentation By: Sean Lanier

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Adopt Budget Resolution 2025-168 amending the Fiscal Year 2024-25 budget to transfer funds from the Infrastructure Sales Surtax reserve for contingencies account for Phase 3 of the SW 44th/46th Avenues Four-Lane Expansion project in the amount of $3,777,046

OCALA'S RELEVANT STRATEGIC GOALS:
Economic Hub, Fiscally Sustainable

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The SW 44th/46th Avenue Four-Lane Expansion Project (the Project), Phase 3 (shown as Phase III on the attached 44th Avenue Extension Overview Map), consists of the widening of SW 44th/46th Avenue from State Road 40 to SW 20th Street. Along with widening the roadway, the Project consists of stormwater modifications, four-foot-wide bike lanes, and sidewalk construction. The improvements under this project will create approximately 1.25 miles of roadway connectivity and alignment within the City of Ocala.

FINDINGS AND CONCLUSIONS:
On March 13, 2025, the City issued its Invitation to Bid (ITB) No.: CIP/250467 for Phase 3 of the SW 44th/46th Avenue Four-Lane Expansion Project. On April 30, 2025, four bids were received, on a unit price basis as follows:

Bidder Name & Office Location	Total Bid Amount
Commercial Industrial Corp Ocala, FL	**$3,433,677.44**
Superior Asphalt, Inc Brooksville, FL	$3,468,001.00
CW Roberts Contracting, Inc.	$3,705,999.86

Wildwood, FL	
Art Walker Construction, Inc. Lowell, FL	$3,729,239.00

Commercial Industrial Corp (CIC) was found to be the lowest responsible bidder with a total bid of $3,433,677.44. CIC has previously completed construction projects for the City, and their performance has been very satisfactory.

Staff requests a 10 percent contingency in the amount of $343,368 to allow the City Engineer to issue change orders to cover unforeseen conditions and other conflicts that may arise during construction. With the contingency, the total project budget is not to exceed $3,777,045.44.

Staff recommends approval.

FISCAL IMPACT:
The Infrastructure Sales Surtax Reserve for Contingencies account 120-099-999-541-81-99999 is an appropriate use for the project funding in the amount of $3,777,046. The expense account is Construction in Progress account 120-020-394-541-69-65010.

BUDGET RESOLUTION 2025-168

A RESOLUTION AMENDING THE FISCAL YEAR 2024-25 BUDGET TO TRANSFER FUNDS FROM THE INFRASTRUCTURE SALES SURTAX RESERVE FOR CONTINGENCIES ACCOUNT FOR PHASE 3 OF THE SW 44th/46th AVENUE PROJECT TOTALING $3,777,046

WHEREAS, the SW 44th/46th Avenue 4-Lane Expansion Project ("the Project") Phase 3 (shown as Phase III on the attached 44th Avenue Extension Overview Map) consists of the widening of SW 44th/46th Avenue from State Road 40 to SW 20th Street; and

WHEREAS, the project also includes stormwater modifications, four-foot-wide bike lanes, and sidewalk construction; and

WHEREAS, the project will create approximately 1.25 miles of connectivity and alignment of roadway within the City of Ocala; and

WHEREAS, this project should be funded this fiscal year to complete construction promptly; and

WHEREAS, the Infrastructure Sales Surtax reserve for contingencies account has a balance of $7,808,573 and is an appropriate use for the project funding.

NOW THEREFORE, BE IT RESOLVED THAT THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, duly assembled in regular session, that the Fiscal Year 2024-25 budget be amended as outlined below.

SOURCE:

120-099-999-541-81-99999	Reserve for Contingencies	($3,777,046)

USE:

120-020-394-541-69-65010	Construction in Progress	$3,777,046

This resolution adopted this _____ day of _____, 2025.

OCALA City Engineer's Office

PROJECT No. 14101

PROJECT: SW 44TH / 46TH AVE 4-LANE EXPANSION

SIGNATURE SHEET

SHEET No. 02

GENERAL NOTES:

1. THE CONTRACTOR SHALL SCHEDULE A PRE-CONSTRUCTION CONFERENCE WITH THE CITY OF OCALA ENGINEER OF RECORD.
2. THE CONTRACTOR SHALL APPLY FOR A CITY OF OCALA RIGHT-OF-WAY PERMIT NO LESS THAN FIVE (5) BUSINESS DAYS PRIOR TO STARTING THE PROPOSED CONSTRUCTION.
3. ELEVATIONS SHOWN HEREON ARE BASED ON NORTH AMERICAN VERTICAL DATUM OF 1988. STATIONS AND OFFSETS ARE BASED ON ROADWAY PLANS.
4. THESE PLANS REFLECT CONDITIONS KNOWN AT THE TIME OF PLAN DEVELOPMENT. IT IS THE CONTRACTOR'S RESPONSIBILITY TO NOTIFY ALL PERTINENT UTILITY COMPANIES AT LEAST (7) FULL BUSINESS DAYS PRIOR TO CONSTRUCTION SO THAT THESE COMPANIES CAN FIELD STAKE THE LOCATION OF THEIR FACILITIES PRIOR TO COMMENCEMENT OF WORK.
5. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL UTILITY LOCATION COORDINATION EFFORTS AS REQUIRED BY OSHA AND THE FLORIDA STATUTE REGULATING PROTECTION OF EXISTING UTILITIES. THE CONTRACTOR IS FURTHER REMINDED THAT NOT ALL UTILITY PROVIDERS ARE SUBSCRIBERS TO THE SUNSHINE STATE ONE-CALL SYSTEM, AND IT SHALL BE INCUMBENT UPON THE CONTRACTOR TO MAKE EVERY EFFORT TO ENSURE THAT ALL UTILITIES ARE LOCATED PRIOR TO CONSTRUCTION ACTIVITIES
6. IN THE EVENT THAT ACTUAL FIELD CONDITIONS PREVENT THE APPLICATION OF THESE PLANS AND/OR THE SPECIFICATIONS OR PROGRESSION OF THE WORK SPECIFIED IN THE PLANS, PARTICULARLY DUE TO CONFLICTS WITH ANY UTILITY LOCATIONS, ALL CONFLICTS SHALL BE RESOLVED PRIOR TO THE SETTING OF OR PLACING OF ANY SUB-GRADE AND/OR BURIED ITEMS. SHOULD THE CONTRACTOR ENCOUNTER ANY CONFLICTS DURING CONSTRUCTION ACTIVITIES, WORK IN THE AREA SHALL CEASE AND THE CITY TRANSPORTATION ENGINEER OF RECORD, NOEL J COOPER, P.E. (AT 352-351-6708) SHALL BE IMMEDIATELY NOTIFIED AND PROVIDED ALL PERTINENT INFORMATION FOR PREPARATION OF A REMEDIAL DESIGN SOLUTION.
7. THE CONTRACTOR SHALL PROVIDE A TRAFFIC CONTROL PLAN FOR THIS PROJECT IN ACCORDANCE WITH THE CURRENT EDITION OF THE "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES" (MUTCD); THE FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) ROADWAY AND TRAFFIC DESIGN STANDARDS, LATEST EDITION; AND ANY REQUIREMENTS OF THE CITY OF OCALA THAT MEET OR EXCEED ANY OF THE AFOREMENTIONED GOVERNING JURISDICTIONS.
8. THE CONTRACTOR SHALL HAVE A STATE OF FLORIDA CERTIFIED MAINTENANCE OF TRAFFIC SUPERVISOR WITH THE RESPONSIBILITY OF MAINTAINING THE POSITIONING AND CONDITION OF ALL TRAFFIC CONTROL DEVICES, WARNING DEVICES AND BARRIERS THROUGHOUT THE DURATION OF THE PROJECT. THE ENGINEER OF RECORD SHALL BE KEPT ADVISED AS TO THE IDENTIFICATION AND MEANS OF CONTACTING THIS AFOREMENTIONED SUPERVISOR ON A 24-HOUR BASIS.
9. THE REQUIRED TRAFFIC CONTROL DEVICES, WARNING DEVICES, AND BARRIERS ERECTED BY THE CONTRACTOR PRIOR TO COMMENCEMENT OF CONSTRUCTION WHICH NO LONGER APPLY TO THE CURRENT CONSTRUCTION CONDITIONS, AND MAY OTHERWISE CREATE HAZARDOUS CONDITIONS DURING THE ONGOING CONSTRUCTION PROCESS, SHALL BE IMMEDIATELY REMOVED OR COVERED BY THE CONTRACTOR.
10. IF ANY EXISTING SIGNS ARE REMOVED OR RELOCATED DURING CONSTRUCTION, THE CONTRACTOR SHALL REINSTALL THEM IMMEDIATELY AT THE PROPER HEIGHT AND DISTANCE.
11. THE CONTRACTOR SHALL NOT REMOVE OR DAMAGE ANY BUILDING FOUNDATIONS, AND SHALL NOTIFY THE ENGINEER OF RECORD OF ANY PROBLEMS OR CONCERNS.
12. THE CONTRACTOR SHALL ADJUST ANY AND ALL EXISTING UTILITIES MANHOLE COVERS, INLETS, AND PULLBOX COVERS TO FINAL GRADE AS NECESSARY WITHIN THE WORK AREA.
13. ANY AND ALL EXISTING UTILITIES, SUCH AS WATER VALVES, MANHOLES, AND METER BOXES, SHALL BE PROTECTED FROM DAMAGE. IF DAMAGE OCCURS DURING CONSTRUCTION ACTIVITIES, THE CONTRACTOR SHALL REPAIR SAID ITEM(S) AT THEIR OWN EXPENSE.
14. THE CONTRACTOR SHALL INSTALL INLET PROTECTION DEVICES AT ALL INLETS TO MINIMIZE DEBRIS ENTERING THE STORM DRAIN SYSTEM. (AS APPROVED BY FDEP).
15. THE CONTRACTOR SHALL REPAIR OR REPLACE ALL PAVEMENT MARKINGS, RPM'S, TRAFFIC LOOPS OR HOMERUNS THAT ARE DAMAGED DURING THE CONSTRUCTION PROCESS.
16. THE CONTRACTOR SHALL BE RESPONSIBLE TO MAINTAIN ACCEPTABLE ACCESS TO ALL RESIDENCES AND BUSINESSES ALONG THE PROJECT ROUTE WHENEVER CONSTRUCTION ACTIVITIES INTERFERE WITH THE EXISTING MEANS OF ACCESS. FLAGMEN SHALL BE USED WHEN NO ALTERNATE ACCESS IS POSSIBLE.
17. IN THE EVENT THAT EXISTING MAILBOXES ARE TO BE RELOCATED AND/OR REMOVED, THE CONTRACTOR SHALL NOTIFY THE POSTMASTER OF THE OCALA POST OFFICE NO LESS THAN SEVEN (7) BUSINESS DAYS (EXCLUDING WEEKENDS AND POSTAL HOLIDAYS) PRIOR TO COMMENCEMENT OF THE WORK.
18. SIDEWALKS, INCLUDING PORTIONS OF DRIVEWAYS (EXISTING OR PROPOSED) WITHIN SIDEWALK PATH, SHALL COMPLY WITH ADA ACCESSIBILITY STANDARDS. WHERE EXISTING DRIVEWAYS ARE NOT COMPLIANT, THE CONTRACTOR SHALL ADVISE THE ENGINEER OF RECORD, AND REMOVE AND REPLACE SAID ITEM.
19. WHEN OPERATING OUTSIDE THE CITY OF OCALA RIGHT-OF-WAY, THE CONTRACTOR SHALL GIVE PROPER NOTIFICATION AND OBTAIN WRITTEN PERMISSION TO DO SO FROM THE OWNER OF EACH PARTICULAR PROPERTY.
20. UNLESS OTHERWISE SPECIFIED ON THE PLANS, THE CONTRACTOR SHALL MAINTAIN [AT LEAST] ONE LANE OF TRAFFIC IN EACH DIRECTION FOR THE DURATION OF THE PROJECT. THE CONTRACTOR MAY, UPON APPROVAL FROM THE ENGINEER OF RECORD, RESTRICT TRAFFIC TO ONE-WAY OPERATION FOR SHORT PERIODS OF TIME PROVIDED THAT ADEQUATE MEANS OF TRAFFIC CONTROL ARE IN PLACE AND TRAFFIC IS NOT UNREASONABLY DELAYED.
21. ALL UNSUITABLE MATERIALS ENCOUNTERED SHALL BE DISPOSED OF AND REPLACED WITH APPROVED MATERIALS. NO TEMPORARY OR PERMANENT DEPOSITS SHALL BE MADE OUTSIDE OF THE PROPOSED RIGHT-OF-WAY EXCEPT AS APPROVED BY THE ENGINEER OF RECORD.
22. THE CONTRACTOR SHALL HAVE EXCAVATED MATERIALS LOADED ONTO DUMP TRUCKS DIRECTLY BEHIND THE EQUIPMENT AND HAULED OFF TO THE DESIGNATED SITE WITH CITY OF OCALA APPROVED TRAFFIC CONTROL MEASURES IN PLACE ACCORDINGLY TO ACCOMMODATE THIS PROCESS.
23. THE CONTRACTOR SHALL RESTORE ALL DISTURBED AREAS TO ORIGINAL CONDITION - UNLESS OTHERWISE INSTRUCTED BY THE ENGINEER OF RECORD IN WRITING.
24. THE CONTRACTOR SHALL BE NOISE SENSITIVE FOR NIGHT OPERATIONS (WHEN APPLICABLE).
25. DURING NON-WORKING HOURS, THE CONTRACTOR SHALL NOT STORE ANY MATERIALS OR PARK ANY EQUIPMENT WITHIN 30 FEET OF THE EDGE OF THE TRAVELED WAY. IF THE ABOVE IS NOT POSSIBLE, THE CONTRACTOR SHALL APPOINT AN APPROVED STORAGE AREA, AND SUCH AREA SHALL BE PROPERLY DELINEATED AND ADVANCE WARNING SHALL BE UTILIZED.
26. THE CONTRACTOR SHALL PROVIDE THE CITY OF OCALA TRAFFIC DIVISION WITH ONE (1) ELECTRONIC COPY OF AN AS-BUILT PLAN FORMATTED IN AUTOCAD, VERSION 2021 OR GREATER AT THE CONCLUSION OF THE PROJECT SCOPE OF WORK.

IMPORTANT NOTE TO CONTRACTOR

THESE PLANS HAVE BEEN PREPARED BASED UPON THE CITY OF OCALA'S 2023 PLANIMETRIC DRAWINGS PREPARED BY AERIAL CARTOGRAPHICS, INC. WITH AERIAL PHOTOGRAPHY DATES OF 12/14/22 AND 2/28/23. HORIZONTAL DATUM IS BASED ON THE CITY OF OCALA G.P.S. DERIVED THREE MILE CONTROL GRID, UTILIZING THE NORTH AMERICAN DATUM 1983, 1990 ADJUSTMENT OF THE STATE PLANE COORDINATES, FLORIDA WEST ZONE (902). VERTICAL DATUM IS BASED ON THE CITY OF OCALA G.P.S. DERIVED THREE MILE CONTROL GRID, UTILIZING THE NORTH AMERICAN VERTICAL DATUM OF 1988

THE CONTRACTOR SHALL FIELD-VERIFY ALL EXISTING UTILITIES IN THE PROJECT AREA AND OTHER UTILITIES WHICH MAY BE AFFECTED BY THE PROPOSED CONSTRUCTION ACTIVITIES THE CITY OF OCALA WILL MAKE AVAILABLE TO THE CONTRACTOR AWARDED THE PROJECT ALL RELEVANT UTILITY INFORMATION IN THE AREA WITHIN ITS POSSESSION

ADA NOTES:

1. THE PROJECT SHALL BE CONSTRUCTED TO MEET CURRENT ADA STANDARDS FOR ACCESSIBLE DESIGN.
2. CURB RAMPS SHALL BE CONSTRUCTED IN ACCORDANCE WITH THE APPLICABLE FDOT STANDARD SPECIFICATIONS PLANS FOR ROAD AND BRIDGE CONSTRUCTION.

FDOT NOTES:

1. THE CONTRACTOR SHALL INSURE THAT ALL CONSTRUCTION WITHIN THE FDOT RIGHT-OF-WAY SHALL BE IN ACCORDANCE WITH THE LATEST FDOT DESIGN STANDARDS, THE STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, AND THE UTILITY ACCOMMODATION (UAM).
2. THE CONTRACTOR SHALL REVIEW AND COMPLY WITH THE "SPECIAL PROVISIONS" AND OTHER ATTACHMENTS TO THE FDOT PERMIT FOR THIS PROJECT.
3. THE CONTRACTOR SHALL CALL "FLORIDA SUNSHINE ONE-CALL" FOR UTILITY LOCATION SERVICES AT LEAST (2) BUSINESS DAYS PRIOR TO CONSTRUCTION (1-800-432-4770).
4. THE CONTRACTOR SHALL INSURE MAINTENANCE OF TRAFFIC (MOT) PLAN & TRAFFIC CONTROL THROUGHOUT THE WORK ZONE AS PER THE FDOT STANDARD INDEX 102- 600 SERIES.
5. THE CONTRACTOR SHALL CONDUCT A SIDEWALK SURVEY TO DETERMINE THE EXISTING CONDITION OF AFFECTED SIDEWALKS AND SUBMIT SAID SURVEY TO FDOT AND THE CITY OF OCALA's ENGINEER OF RECORD PRIOR TO CONSTRUCTION.
6. AT SUCH LOCATIONS WHERE FDOT SIGNS, REFLECTORS, OR OTHER STRUCTURES WILL INTERFERE WITH PROPOSED CONSTRUCTION, THE CONTRACTOR SHALL NOTIFY THE LOCAL MAINTENANCE OFFICE OR PROJECT ENGINEER AT LEAST 48 HOURS PRIOR TO CONSTRUCTION. ALL ITEMS THAT REQUIRE RELOCATION OR REPLACEMENT WILL BE THE RESPONSIBILITY OF THE CONTRACTOR. IF THE WORK IS WITHIN 500' OF THE TRAFFIC SIGNAL CONTRACTOR SHALL CONTACT THE CITY OF OCALA PUBLIC WORKS DEPARTMENT - TRAFFIC OPERATIONS (352) 351-6733.
7. THE CONTRACTOR SHALL NOTIFY ALL PROPERTY OWNERS AFFECTED BY THE PROPOSED CONSTRUCTION ACTIVITIES IN ADVANCE OF SUCH OPERATIONS IN ACCORDANCE WITH FDOT NOTIFICATION REQUIREMENTS.
8. THE CONTRACTOR SHALL COORDINATE ALL UTILITY CLEARANCES WITH THE OWNER OF SUCH UTILITIES PRIOR TO CONSTRUCTION COMMENCEMENT.
9. THE CONTRACTOR SHALL RESTORE AND RE-SOD ALL DISTURBED AREAS WITH ARGENTINE BAHIA IN ACCORDANCE WITH THE FDOT STANDARD SPECIFICATIONS. THE CONTRACTOR SHALL MAINTAIN THAT PORTION OF THE RIGHT-OF-WAY AFFECTED BY THE PERMIT UNTIL VEGETATION IS ESTABLISHED. PERFORM ALL WORK NECESSARY, INCLUDING WATERING AND FERTILIZING, TO SUSTAIN AN ESTABLISHED TURF UNTIL FINAL ACCEPTANCE, AT NO ADDITIONAL EXPENSE TO FDOT OR THE CITY OF OCALA. PROVIDE FILLING, LEVELING, AND REPAIRING OF ANY WASHED OR ERODED AREAS, AS MAY BE NECESSARY.
10. THE CONTRACTOR IS RESPONSIBLE FOR MOWING, AT NO ADDITIONAL EXPENSE TO FDOT OR THE CITY OF OCALA, ANY AREA WITHIN PUBLIC RIGHT-OF-WAYS WHERE THE PERMITTED WORK OR WHERE UTILITY LOCATE FLAGS PLACED FOR PERMITTED WORK CREATES A HINDRANCE FOR OR INTERFERES WITH MAINTENANCE ENTITY'S REGULAR MOWING OPERATIONS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MOWING UNTIL ALL SUCH HINDRANCES ARE REMOVED SO THAT REGULAR MAINTENANCE ENTITY MOWING CAN BE RESUMED. THE CONTRACTOR SHALL MEET THE MOWING REQUIREMENTS ESTABLISHED BY THE DEPARTMENT'S MAINTENANCE RATING PROGRAM (MRP). CONTACT THE LOCAL FDOT MAINTENANCE OFFICE FOR DETAILS (352.732.1338).
11. ALL UTILITY LOCATION FLAGS SHALL BE REMOVED BY THE CONTRACTOR WHEN THEY ARE NO LONGER NEEDED.

SURVEY & MAPPING NOTES:

1. COORDINATES AND BEARINGS SHOWN HEREON ARE BASED ON FLORIDA STATE PLANE COORDINATES, WEST ZONE AND WERE DERIVED FROM GPS OBSERVATIONS REFERENCED TO THE FDOT PERMANENT REFERENCE NETWORK.
2. ELEVATIONS SHOWN HEREON ARE BASED ON NORTH AMERICAN VERTICAL DATUM OF 1988 AND ARE REFERENCED TO CITY CONTROL POINTS SHOWN ON THIS DRAWING.
3. IT IS THE RESPONSIBILITY OF THE CONTRACTOR, PRIOR TO THE COMMENCEMENT OF CONSTRUCTION, TO ENSURE ALL EXISTING SURVEY MARKERS ARE LOCATED, CLEARLY MARKED AND PROTECTED, BY THE CONTRACTORS SURVEYOR.
4. ANY SURVEY MARKER, INCLUDING, BUT NOT LIMITED TO, PUBLIC LAND SURVEY SECTION CORNER MARKERS, BENCH MARKS, PROPERTY CORNERS, ETC., WHICH ARE DISTURBED DURING CONSTRUCTION SHALL BE REPLACED AT THE CONTRACTOR'S EXPENSE PRIOR TO FINAL PAYMENT.
5. ADDITIONALLY, SURVEY STAKES PLACED MARKING THE LOCATIONS OF MARKERS, PROPERTY LINES, RIGHT-OF-WAY LINES, OR ANY OTHER POINT, PLACED FOR CONSTRUCTION AND SUBSEQUENTLY DISTURBED OR DESTROYED DURING CONSTRUCTION SHALL BE REPLACED AS NEEDED AT THE RESPONSIBILITY OF THE CONTRACTOR.
6. RESETTING OF MONUMENTS AND MARKERS SHALL BE PERFORMED BY A PROFESSIONAL LAND SURVEYOR, LICENSED TO PRACTICE IN THE STATE OF FLORIDA AND SHOWN AS RE-SET ON AS-BUILT PLANS.
7. UNLESS PRIOR AGREEMENT IS MADE, IT SHALL NOT BE THE RESPONSIBILITY OF THE CITY SURVEYOR TO REPLACE ANY SURVEY MARKERS.

SIGNING & PAVEMENT MARKING NOTES:

1. THE CONTRACTOR SHALL CONTACT THE CITY OF OCALA PUBLIC WORKS DEPARTMENT - TRAFFIC OPERATIONS AT (352)-351-6733 AT LEAST (48) HOURS PRIOR TO COMMENCEMENT OF CONSTRUCTION ACTIVITIES. ALL ITEMS THAT REQUIRE RELOCATION OR REPLACEMENT WILL BE THE RESPONSIBILITY OF THE CONTRACTOR.
2. ALL SIGN ASSEMBLIES AND SIGN PANELS TO BE RELOCATED SHALL BE RELOCATED OUT OF THE CONSTRUCTION AREA, THEN RE-INSTALLED AFTER CONSTRUCTION IS COMPLETED. ANY DAMAGED SIGNAGE SHALL BE REPLACED AT CONTRACTOR'S EXPENSE.
3. THE CONTRACTOR SHALL REPAIR OR REPLACE ALL PAVEMENT MARKINGS THAT ARE DAMAGED DURING CONSTRUCTION.
4. THERMOPLASTIC STRIPING, AS DEFINED UNDER FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) STANDARD SPECIFICATION FOR ROAD AND BRIDGE CONSTRUCTION #711, IS REQUIRED FOR FINISHED CONSTRUCTION ON CITY OF OCALA RIGHT-OF-WAY. WHERE ROADWAY PAVEMENT IS INSTALLED OR REPLACED, THERMOPLASTIC STRIPING SHALL BE INSTALLED BY THE CONTRACTOR AT LEAST 14 DAYS AFTER FINAL PAVING; OTHERWISE THERMOPLASTIC STRIPING IS TO BE INSTALLED CONCURRENT TO OTHER PROJECT WORK. CONTRACTOR SHALL BE PAID FOR ONLY ONE APPLICATION OF THERMOPLASTIC STRIPING PER ITEM.
5. WHERE CROSSWALK ARE PROPOSED, THE CONTRACTOR SHALL ENSURE THAT ANY EXISTING STOP LINE(S) ARE A MIN. 4' FROM THE PROPOSED CROSSWALK LINES.

THE OFFICIAL RECORD OF THIS SHEET IS THE ELECTRONIC FILE DIGITALLY SIGNED AND SEALED UNDER RULE 61G15-23.004, F.A.C.

PREPARED BY

OCALA City Engineer's Office

PROJECT No. 14101

PROJECT: SW 44TH / 46TH AVE 4-LANE EXPANSION

GENERAL NOTES

SHEET No. 03

ENVIRONMENTAL NOTES:

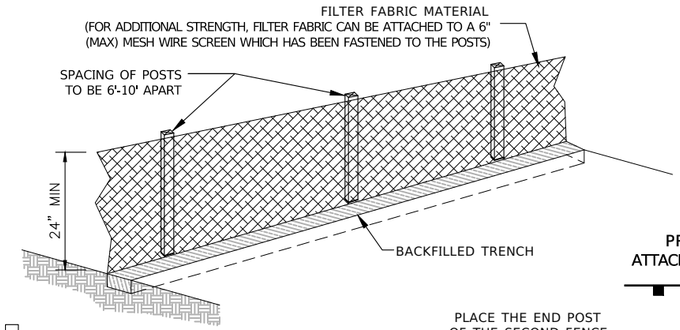
1. THE CONTRACTOR SHALL FORMULARIZE THEMSELVES WITH THE GENERAL NOTES AND FDOT NOTES THAT ARE PROVIDED IN THIS PLAN SET ON A SEPARATE SHEET
2. THE CITY OF OCALA OPERATES UNDER A FDEP NPDES 'GENERAL PERMIT THAT REQUIRES THE CITY AND, IN TURN, ITS CONTRACTORS TO FOLLOW CERTAIN AND SPECIFIC ENVIRONMENTAL PRACTICES AND PROCEDURES TO PREVENT THE POLLUTION OF THE CITY'S GROUNDWATER AND STORMWATER SYSTEM
3. ALL WATER COLLECTED AND PUMPED DURING TRENCH DEWATERING ACTIVITIES SHALL BE DISPOSED OF IN UPLAND AREAS INTO DISCHARGE LOCATIONS THAT SHALL BE A MINIMUM OF 75 FEET FROM THE NEAREST WATER BODY OR WETLAND AREA TO ALLOW FOR MAXIMUM OVERLAND FILTRATION OF SOIL PARTICLES
4. STAKED SILT SCREEN, TURBIDITY BARRIERS OR OTHER PERIMETER CONTROL METHODS APPROVED BY THE FDEP SHALL BE UTILIZED AS SILT BARRIERS AND PLACED IN LOCATIONS SHOWN ON THE PLANS AND AT OTHER LOCATIONS AS REQUIRED TO KEEP SEDIMENT FROM REACHING PRIVATE PROPERTY. THESE BARRIERS SHALL BE INSTALLED BY THE CONTRACTOR BEFORE COMMENCING WITH ANY CONSTRUCTION ACTIVITIES WITHIN OR ADJACENT TO PRIVATE PROPERTY
5. THE CONTRACTOR SHALL MONITOR AND MAINTAIN ALL SILT BARRIERS AND FENCING INCLUDING DAILY INSPECTIONS TO CHECK THEIR INTEGRITY. ANY LOOSE OR DAMAGED SILT BARRIERS AND FENCING SHALL BE IMMEDIATELY REPAIRED OR REPLACED AS NECESSARY. ONCE CONSTRUCTION IS COMPLETED AND FINISHED GRADING AND STABILIZATION HAS BEEN ACHIEVED, SILT BARRIERS AND FENCING SHALL BE COMPLETELY REMOVED BY THE CONTRACTOR TO THE SATISFACTION OF THE ENGINEER OF RECORD, AND BEFORE FINAL ACCEPTANCE
6. THE CONTRACTOR SHALL NOT REMOVE ANY TREES WITHOUT COORDINATING SUCH REMOVAL WITH THE ENGINEER OF RECORD. IF ANY TREES ARE REMOVED IN WETLAND JURISDICTIONAL, OR NATIVE VEGETATION AREAS WITHOUT PROPER AUTHORIZATION, THE CONTRACTOR SHALL BE RESPONSIBLE FOR PREPARING A DETAILED RESTORATION AND/OR MITIGATION PLAN, SUBMITTING THE PLAN TO, AND OBTAINING APPROVAL FROM THE FDEP, THE WATER MANAGEMENT DISTRICT, THE CITY ENGINEER'S OFFICE, THE OWNER AND THE ENGINEER OF RECORD, AS WELL AS COMPLETING ANY MONITORING AND MAINTENANCE REQUIREMENTS IMPOSED AS A RESULT OF THE TREE REMOVAL

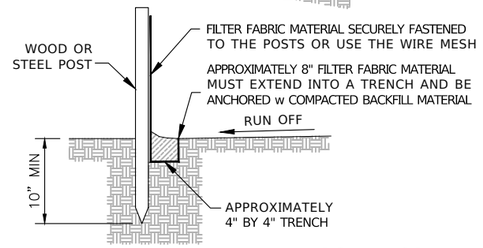
HAZARDOUS MATERIALS

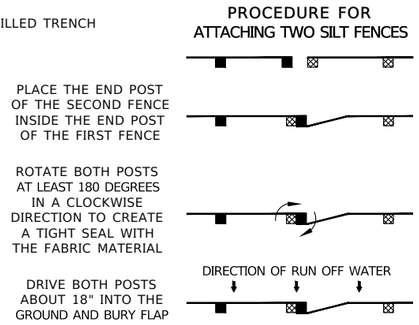
1. THE CONTRACTOR SHALL FOLLOW GOOD HOUSEKEEPING PRACTICES TO MINIMIZE THE RISK OF SPILLS OR UNINTENDED EXPOSURE OF PETROLEUM AND OTHER HAZARDOUS MATERIALS TO STORMWATER RUNOFF OR SEEPAGE INTO THE GROUNDWATER
2. THE CONTRACTOR SHALL HAVE PRE-PREPARED PROCEDURES CLEARLY POSTED FOR SPILL CONTAINMENT AND CLEAN-UP
3. THE CONTRACTOR SHALL STORE AND USE PETROLEUM AND OTHER HAZARDOUS PRODUCTS ACCORDING TO RECOMMENDED PROCEDURES
4. THE CONTRACTOR SHALL DESIGNATE AN AREA FOR DISCHARGE OF SURPLUS CONCRETE, AND CONCRETE TRUCK DRUM WASH WATER. INSTALL A CONTAINMENT BERM AROUND THIS DESIGNATED AREA TO PREVENT RUNOFF BEYOND THE DESIGNATED AREA. ALL SURPLUS CONCRETE SHALL BE REMOVED FROM THE PROJECT SITE PRIOR TO FINAL INSPECTION
5. THE CONTRACTOR SHALL UPON RELEASE, IMMEDIATELY INITIATE RECOMMENDED METHODS FOR SPILL CONTAINMENT AND CLEAN-UP
6. THE THE CONTRACTOR SHALL, WITHIN 24-HOURS OF THE SPILL/RELEASE, NOTIFY THE 'STATE WARNING POINT' (AT 1.800.320.0519 OR 1.850.413.9911) OF ALL RELEASES EQUAL TO OR EXCEEDING THE REPORTABLE QUANTITY
7. THE CONTRACTOR SHALL HANDLE, COLLECT, AND DISPOSE OF HAZARDOUS MATERIALS, SANITARY WASTE, AND CONSTRUCTION WASTE MATERIALS ACCORDING TO THE APPLICABLE STATE LAWS AND REGULATIONS, CITY ORDINANCES, OR AS DIRECTED BY THE CITY

EROSION CONTROL NOTES:

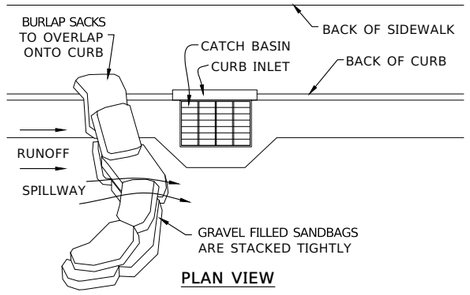
1. THE CONTRACTOR SHALL ADHERE TO ALL STATE AND LOCAL EROSION CONTROL REGULATIONS
2. THE FOLLOWING PRACTICES WILL BE USED BY THE CONTRACTOR TO MAINTAIN EROSION AND SEDIMENT CONTROLS:
   a) ALL MEASURES WILL BE MAINTAINED IN GOOD WORKING ORDER
   b) IF A REPAIR IS NECESSARY, IT WILL BE INITIATED WITHIN 24 HOURS OF REPORT
   c) ALL POLLUTION CONTROLS SHALL BE MAINTAINED AT ALL TIMES
   d) BUILT-UP SEDIMENT WILL BE REMOVED FROM STAKED SILT FENCE WHEN IT HAS REACHED ONE-HALF THE HEIGHT OF THE SILT FENCE
2. THE CONTRACTOR SHALL PREVENT THE DISCHARGE OF SEDIMENT DUE TO CONSTRUCTION OPERATIONS. ALL NEW AND EXISTING DRAIN PIPES AND STRUCTURES SHALL BE FLUSHED CLEAN PRIOR TO FINAL PAYMENT
3. ALL STORM SEWER INLETS SHALL BE PROTECTED BY THE CONTRACTOR SO THAT SEDIMENT LADEN WATER WILL NOT ENTER THE STORM SYSTEM WITHOUT FIRST BEING FILTERED
4. ALL DISTURBED AREAS ARE TO BE SODDED. ALL STABILIZATION PRACTICES SHALL BE PERFORMED AS SOON AS PRACTICAL AT LOCATIONS WHERE CONSTRUCTION ACTIVITIES HAVE TEMPORARILY OR PERMANENTLY CEASED. PERMANENT VEGETATION SHALL NOT BE CONSIDERED ESTABLISHED UNTIL GROUND COVER IS ACHIEVED AND, IN THE OPINION OF THE ENGINEER OF RECORD, PROVIDES ADEQUATE COVER AND IS MATURE ENOUGH TO CONTROL SOIL EROSION SATISFACTORILY, TO SURVIVE ADVERSE WEATHER CONDITIONS
5. THE CONTRACTOR SHALL PLACE STAKED SILT FENCE(S) IN ACCORDANCE WITH CITY OF OCALA SPECIFICATIONS
6. THE CONTRACTOR SHALL PROVIDE LITTER CONTROL AND COLLECTION WITHIN THE PROJECT BOUNDARIES DURING CONSTRUCTION ACTIVITIES. ALL FERTILIZERS, HYDROCARBON, OR OTHER CHEMICAL CONTAINERS SHALL BE DISPOSED OF BY THE CONTRACTOR ACCORDING TO EPA'S STANDARD PRACTICES AS DETAILED BY THE MANUFACTURER
7. THE CONTRACTOR SHALL INSURE THAT LOADED HAUL TRUCKS BE COVERED WITH TARPAULIN(S), EXCESS DIRT ON THE ROAD SHALL BE REMOVED DAILY, AND AREAS WITHIN THE LIMITS OF CONSTRUCTION SHALL BE DAMPENED WITH WATER AS REQUIRED FOR DUST CONTROL
8. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE MAINTENANCE AND REPAIRS OF EROSION AND SEDIMENT CONTROL DEVICES, AS WELL AS REMOVAL OF EROSION AND SEDIMENT CONTROL DEVICES AFTER THE NOTICE OF TERMINATION. MAINTENANCE, AND REPAIR REQUIRED FOR THE CONTROL AND ABATEMENT OF EROSION AND WATER POLLUTION SHALL BE INCLUDED IN THE PROJECT COST
9. TOXIC SUBSTANCES SHALL BE DISPOSED OF BY THE CONTRACTOR IN ACCORDANCE TO THE EPA'S STANDARD PRACTICES
10. POLLUTION CONTROL MEASURES SHALL BE INSPECTED DAILY BY THE CONTRACTOR. WRITTEN DOCUMENTATION OF INSPECTIONS SHALL BE WRITTEN EVERY SEVEN CALENDAR DAYS AND WITHIN 24 HOURS OF A RAIN EVENT OF 0.5 INCHES OR GREATER
11. THE CONTRACTOR SHALL PROVIDE THE CITY OF OCALA WITH AN EROSION CONTROL PLAN THAT WILL INCLUDE SPILL REPORTING AND RESPONSE. IF CONTAMINATED SOIL OR GROUNDWATER IS ENCOUNTERED, CONTACT THE ENGINEER OF RECORD



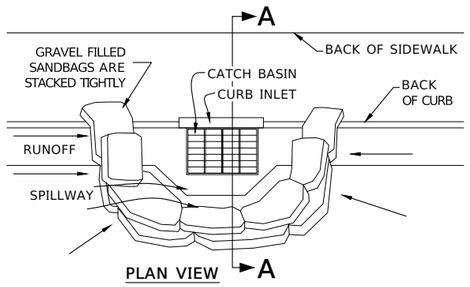




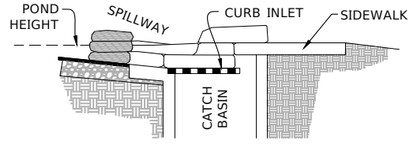
TYPICAL SILT FENCE DETAILS



PLAN VIEW



PLAN VIEW



SECTION A-A

PROCEDURE NOTES

1. PLACE CURB TYPE SEDIMENT BARRIERS ON GENTLY SLOPING STREET SEDIMENTS WHERE WATER CAN POND AND ALLOW SEDIMENT TO SEPARATE FROM RUNOFF
2. SANDBAGS, OF EITHER BURLAP OR WOVEN GEOTEXTILE FABRIC, ARE FILLED WITH GRAVEL, LAYERED AND PACKED TIGHTLY
3. LEAVE ONE SANDBAG GAP IN THE TOP ROW TO PROVIDE A SPILLWAY FOR OVERFLOW
4. INSPECT BARRIERS AND REMOVE SEDIMENT AFTER EACH STORM EVENT. SEDIMENT AND GRAVEL MUST BE REMOVED FROM THE TRAVELED WAY IMMEDIATELY

CURB AND GUTTER SEDIMENT BARRIER

1. PLACE GRAVEL FILLED BURLAP BAGS ON GENTLY SLOPING STREET SEGMENTS ACCORDING TO THE SPACING CHART (SEE PLATE 4.08p)
2. PLACE TWO OR MORE BAGS AT EACH INTERVAL IN A MANNER WHICH PROVIDES MAXIMUM SUPPORT
3. WHEN STACKING SEVERAL BAGS HIGH, LEAVE A ONE BAG GAP TO PROVIDE AN OVERFLOW SPILLWAY
4. SEDIMENTS MUST BE REMOVED AFTER EACH RAIN EVENT

MAINTENANCE

1. THE STRUCTURE SHALL BE INSPECTED AFTER EACH RAIN AND REPAIR MADE AS NEEDED
2. SEDIMENT SHALL BE REMOVED AND THE TRAP RESTORED TO ITS ORIGINAL DIMENSIONS WHEN THE SEDIMENT HAS TO $\frac{1}{4}$ OF THE DESIGN DEPTH OF THE TRAP. REMOVED SEDIMENT SHALL BE DEPOSITED IN A SUITABLE AREA AND IN SUCH A MANNER THAT IT WILL NOT ERODE
3. STRUCTURES SHALL BE REMOVED AND THE AREA STABILIZED WHEN THE REMAINING DRAINAGE AREA HAS BEEN PROPERLY STABILIZED

CURB INLET SEDIMENT BARRIER

SIGNING & MARKING LEGEND

B/C = BACK OF CURB
EOP = EDGE OF PAVEMENT
RPM = RAISER PAVEMENT MARKER
W/R = WHITE/RED RPM
Y/Y = YELLOW/YELLOW RPM
Y/R = YELLOW/RED RPM
MD/Y = MONO-DIRECTION YELLOW RPM
BLUE = BLUE RPM (HYDRANT MARKER)

SIGNING & MARKING NOTES

1. FOR TYPE "E" CURB, INSTALL RPM's ALONG THE PAVEMENT EDGE MARKING USING THE SAME SPACING SHOWN
2. ORIENT TRAFFIC FACES OF RPM's IN CURB MEDIAN RADII TO BE PARALLEL TO DIRECTION OF TRAVEL LANES
3. USE EPOXY ADHESIVE TO INSTALL RPM's ON CONCRETE MEDIAN NOSE CURBS
4. INSTALL RPM"S ON CLEAN UNPAINTED SURFACE. DO NOT PAINT CURB SURFACE WHERE RPM's WILL BE PLACED

ABOVE PROVIDED FROM
"FDOT STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION"

CONSTRUCTION SERVICES AGREEMENT FOR THE SW 44TH/46TH AVENUE FOUR-LANE EXTENSION

THIS CONSTRUCTION SERVICES AGREEMENT FOR THE SW 44TH/46TH AVENUE FOUR-LANE EXTENSION (Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **COMMERCIAL INDUSTRIAL CORP.,** a for-profit corporation duly organized and authorized to do business in the state of Florida (EIN: 59-2407001) ("Contractor").

R E C I T A L S:

WHEREAS, on March 13, 2025, City issued an Invitation to Bid ("ITB") for the provision of construction services related to the four-lane extension of SW 44th/46th Avenue, ITB No.: CIP/250467 (the "Solicitation"); and

WHEREAS, a total of four (4) firms responded to the Solicitation and, after consideration of price and other evaluation factors set forth in the Solicitation, Commercial Industrial Corp. was determined to be the lowest responsive and responsible bidder; and

WHEREAS, Commercial Industrial Corp. was chosen as the intended awardee to provide construction services related to the four-lane extension of SW 44th/46th Avenue (the "Project"); and

WHEREAS, Contractor certifies that Contractor and its subcontractors are qualified and possess the required licensure and skill to perform the work required for the Project; and

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Contractor agree as follows:

T E R M S O F A G R E E M E N T:

1. **RECITALS**. City and Contractor hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The Contract Documents which comprise the entire understanding between City and Contractor shall only include: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the quote submitted by Contractor in response to same (the "Solicitation Documents"); and (d) those documents identified in the Project Specifications section of this Agreement. Each of these documents are incorporated herein by reference for all purposes.
   If there is a conflict between the terms of this Agreement and the Contract Documents, then the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.
   A. **Exhibits to Agreement**: The Exhibits to this Agreement are as follows:

      Exhibit A: Scope of Work (A-1 through A-9)
      Exhibit B: Price Proposal (B-1 through B-2)
      Exhibit C: Plan Set (C-1)
      Exhibit D: Solicitation Answers (D-1)

      If there is a conflict between the individual Exhibits regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedence in the following order: (1) Exhibit A, then (2) Exhibit B then (3) Exhibit C, then (4) Exhibit D.

   B. **Project Specifications**: In addition to the Contract Documents and up-to-date copies of shop drawings, this project will require the Contractor to have the following specifications and documents, which are incorporated by reference:

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

i. **City of Ocala "Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure"** available at: www.ocalafl.gov/home/showpublisheddocument/24606

Florida Department of Transportation ("FDOT") Standard Specifications for Road and Bridge Construction (latest edition) available at: http://www.fdot.gov/programmanagement/Implemented/SpecBooks/.

Florida Department of Transportation Standard Plans for Road and Bridge Construction (latest edition): https://www.fdot.gov/design/standardplans/sprbc.shtm

Manual on Uniform Traffic Control Devices (MUTCD), latest edition which can be obtained by downloading from: https://www.fdot.gov/traffic/trafficservices/mutcd.shtm

Florida Department of Transportation Florida Greenbook (latest edition), can be obtained by downloading from: https://www.fdot.gov/roadway/floridagreenbook/fgb.shtm

If there is a conflict between the individual Project Specifications regarding the scope of work to be performed, then any identified inconsistency shall be resolved by giving precedents to the most restrictive specification.

3. **SCOPE OF SERVICES.** Contractor shall provide all materials, labor, supervision, tools, accessories, equipment, permits, fees, testing, inspections, certifications, and all other things necessary for Contractor to perform its obligations under this Agreement as set forth in the attached **Exhibit A - Scope of Work** and the Solicitation Documents. Prime contractor must perform a minimum of **SIXTY PERCENT (60%)** of the work with its own forces. The Scope of Work under this Agreement may only be adjusted by written amendment executed by both parties.

4. **COMPENSATION.** City shall pay Contractor a maximum limiting amount of **THREE MILLION, FOUR HUNDRED THIRTY-THREE THOUSAND, SIX HUNDRED SEVENTY-SEVEN AND 44/100 DOLLARS ($3,433,677.44)** (the "Contract Sum") as full and complete compensation for the timely and satisfactory completion of the work in compliance with the unit pricing schedule in **Exhibit B – Price Proposal** and other requirements set forth in the Contract Documents. The pricing under this Agreement may only be adjusted by written amendment executed by both parties.

   A. **Monthly Progress Payments**: The compensation amount under this section shall be paid by City, monthly, based upon a percentage of completion of the work as invoiced by Contractor and approved by City. The compensation sought under this Agreement is subject to the express terms of this Agreement and any applicable federal and/or state laws.

   B. **Project Schedule and Progress Reports**. A progress report and updated project schedule must be submitted with each monthly pay request indicating the percent of services completed to date. This report will serve as support for payment to Contractor and the basis for payment in the event project is suspended or abandoned.

   C. **Invoice Submission**. Invoicing shall be completed on an A1A – G703 - Application & Certification type document for payment. All invoices submitted by Contractor shall include the City Contract Number, an assigned Invoice Number, and an Invoice Date. Contractor shall invoice once a month. Contractor shall submit a Certificate of Disbursement of Payment with each invoice after the first payment. In addition, Contractor shall also submit an updated

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

schedule and Construction Compliance with Specifications and Plans with each invoice. Contractor shall be provided with a cover sheet for invoicing. This cover sheet must be filled out correctly and submitted with each invoice. Contractor shall submit the original invoice through the responsible City Project Manager at: **City of Ocala Engineering & Water Resources Department,** Attn: **Paul Constable**, **1805 NE 30th Avenue, Building 700, Ocala, Florida 34470** E-Mail: pconstable@ocalafl.gov.

D. **Payment of Invoices by City**. The City Project Manager must review and approve all invoices prior to payment. City Project Manager's approval shall not be unreasonably withheld, conditioned, or delayed. Payments by City shall be made no later than the time periods established in section 218.735, Florida Statutes.

E. **Retainage.** City shall withhold an amount equal to **FIVE PERCENT (5%)** of each monthly progress payment as retainage to secure Contractor's full and faithful performance of its obligations under this Agreement (the "Retainage"). Contractor shall not be entitled to any interest received by City on Retainage. The Retainage shall be payable to Contractor, subject to the provisions of this subsection, upon satisfaction of the following conditions precedent: (1) confirmation from the City Project Manager that Contractor has satisfactorily completed all work in accordance with the provisions of the Agreement; and (2) receipt of the Consent of Surety of the recorded bond for final payment.

F. **Withholding of Payment**. City reserves the right to withhold, in whole or in part, payment for any and all work that: (i) has not been completed by Contractor; (ii) is inadequate or defective and has not been remedied or resolved in a manner satisfactory to the City Project Manager; or (iii) which fails to comply with any term, condition, or other requirement under this Agreement. Any payment withheld shall be released and remitted to Contractor within **THIRTY (30)** calendar days of the Contractor's remedy or resolution of the inadequacy or defect.

G. **Excess Funds**. If due to mistake or any other reason Contractor receives payment under this Agreement in excess of what is provided for by the Agreement, Contractor shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30)** days of Contractor's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgments at the highest rate as allowed by law.

H. **Amounts Due to the City**. Contractor must be current and remain current in all obligations due to the City during the performance of services under this Agreement. Payments to Contractor may be offset by any delinquent amounts due to the City or fees and/or charges owed to the City.

I. **Tax Exemption**. City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Contractor shall not be exempted from paying sales tax to its suppliers for materials to fulfill contractual obligations with the City, nor will Contractor be authorized to use City's Tax Exemption Number for securing materials listed herein.

5. **TIME FOR PERFORMANCE**. Time is of the essence with respect to the performance of all duties, obligations, and responsibilities set forth in this Agreement and the Contract Documents.

A. Contractor shall mobilize and commence work no later than **TEN (10)** working days from the date of issuance of a Notice to Proceed for the project by City. At no time will the Contractor be allowed to lag behind.

B. **All work shall be substantially completed by Contractor in a manner satisfactory to the City Project Manager within TWO HUNDRED TEN (210) days of the start date indicated on the Notice to Proceed and ready for final payment within THIRTY (30) days of substantial completion**.

C. The Time for Performance under this Agreement may only be adjusted by Change Order, in the sole and absolute discretion of City. Any request for an extension of the Time for Performance must be submitted in a writing delivered to the City Project Manager, along with all supporting data, within **SEVEN (7)** calendar days of the occurrence of the event giving rise to the need for adjustment unless the City allows an additional period of time to ascertain more accurate data. All requests for adjustments in the Contract Time shall be determined by City.

D. **Weather Days:** Contractor shall submit a written request to the City Project (e-mail is the preferred method) for additional days for which work is suspended or delayed by weather. Weather days shall be reconciled with each monthly pay application for the time period which the application is submitted and shall be final. Contractor performance and execution of work shall be considered in the determination for granting additional days.

E. As to any delay, inefficiency, or interference in this performance of this Agreement caused by any act or failure to act by City, the Contractor's sole remedy shall be the entitlement of an extension of time to complete the performance of the affected work in accordance with the Contract Documents. Contractor agrees to make no claim for extra or additional costs attributable to said delays, inefficiencies, or interference, except as provided in this Agreement.

F. None of the provisions of this section shall exclude City's right of recovery for damages caused by delays or inefficiencies caused by any act or failure to act by Contractor, to include costs incurred by City for the procurement of additional professional services.

6. **LIQUIDATED DAMAGES FOR LATE COMPLETION**. The parties agree that it would be extremely difficult and impracticable under the presently known facts and anticipated circumstances to ascertain and fix the actual damages that City and its residents would incur should Contractor fail to achieve Substantial Completion and/or Final Completion and readiness for final payment by the dates specified for each under the terms of this Agreement. Accordingly, the parties agree that should Contractor fail to achieve Substantial Completion by the date specified, then Contractor shall pay City, as liquidated damages and not as a penalty, the sum of **TWO THOUSAND, SIX HUNDRED FIFTY AND NO/100 DOLLARS ($2,650)** per day for each calendar day of unexcused delay in achieving Substantial Completion beyond the date specified for Substantial Completion in the Contract Documents. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining work within the time specified in the Contract Documents for Final Completion and readiness for final payment or any proper extension thereof granted by City, Contractor shall pay City, as liquidated damages and not as a penalty, additional sum of **TWO HUNDRED AND NO/100 DOLLARS ($200)** per day for each calendar day of unexcused delay in achieving completion and readiness for final payment.

A. **No Waiver of Rights or Liabilities**. Permitting Contractor to continue and finish the work, or any part thereof, beyond the dates specified for Substantial Completion and/or Final

Completion and readiness for final payment shall not operate as a waiver on the part of the City of any of its rights under this Agreement. Any liquidated damages assessed pursuant to this section shall not relieve Contractor from liability for any damages or costs of other contractors caused by a failure of Contractor to complete the work as agreed.

B. **Right to Withhold or Deduct Damages**. When liquidated damages are due and owing, City shall have the right to: (1) deduct the liquidated damages from any money in its hands or from any money otherwise due or to become due to Contractor; or to (2) initiate any applicable dispute resolution procedure for the recovery of liquidated damages within the times specified under this Agreement.

C. **Non-Cumulative**. The parties agree and understand that the amounts set forth under this section for liquidated damages are not cumulative with one another. The amount set forth as liquidated damages for Contractor's failure to achieve Substantial Completion shall be assessed upon default and continue until Substantial Completion is attained. The amount set forth as liquidated damages for Contractor's failure to achieve Final Completion and readiness for payment shall be assessed after Substantial Completion is attained and apply until Final Completion is attained.

D. **Additional Costs.** In addition to the liquidated damages set forth under this section, Contractor agrees to pay all costs and expenses incurred by City due to Contractor's delay in performance to include inspection fees, superintendence costs, and travel expenses.

E. **Injunctive Relief.** The parties acknowledge that monetary damages may not be a sufficient remedy for Contractor's failure to achieve Substantial Completion or Final Completion in accordance with the terms of this Agreement, and that City shall be entitled, in addition to all other rights or remedies in law and equity, to seek injunctive relief.

7. **DELAYS AND DAMAGES.** The Contractor agrees to make no claim for extra or additional costs attributable to any delays, inefficiencies, or interference in the performance of this contract occasioned by any act or omission to act by the City except as provided in the Agreement. The Contractor also agrees that any such delay, inefficiency, or interference shall be compensated for solely by an extension of time to complete the performance of the work in accordance with the provision in the standard specification.
8. **MAINTENANCE AND GUARANTEE BOND.** Prior to final payment, Contractor shall furnish a Maintenance and Guarantee Bond in the amount of **TEN PERCENT (10%)** of the total project value, for a period of **THREE (3)** year for labor and **THREE (3)** year for materials from the date of final completion. Prior to the City's receipt of Contractor's fully executed Maintenance and Guarantee Bond, Contractor will warrant all labor and materials completed pursuant to this Agreement.
9. **PUBLIC CONSTRUCTION BOND**. As required by section 255.05, Florida Statutes, Contractor shall furnish a certified and recorded Public Construction Bond in the amount of **THREE MILLION, FOUR HUNDRED THIRTY-THREE THOUSAND, THREE HUNDRED TWENTY AND 99/100 DOLLARS ($3,433,320.99)** as security for the faithful performance of the work as required and set forth in the Contract Documents within the time set forth for performance under this Agreement and for prompt payments to all persons defined in section 713.01, Florida Statutes, who furnish labor, services, or materials for the completion of the work provided for herein.
10. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party ("Force Majeure"). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.

A. The party affected by force majeure shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof as soon as it becomes aware.
B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications of the terms of this Agreement that may be necessary or appropriate in order to arrive at an equitable solution. Contractor performance shall be extended for a number of days equal to the duration of the force majeure. Contractor shall be entitled to an extension of time only and, in no event, shall Contractor be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.

11. **INSPECTION AND ACCEPTANCE OF THE WORK**. Contractor shall report its progress to the City Project Manager as set forth herein. All services, work, and materials provided by Contractor under this Agreement shall be provided to the satisfaction and approval of the City Project Manager.
    A. The City Project Manager shall decide all questions regarding the quality, acceptability, and/or fitness of materials furnished, or workmanship performed, the rate of progress of the work, the interpretation of the plans and specifications, and the acceptable fulfillment of the Agreement, in his or her sole discretion, based upon both the requirements set forth by City and the information provided by Contractor in its Bid. The authority vested in the City Project Manager pursuant to this paragraph shall be confined to the direction or specification of what is to be performed under this Agreement and shall not extend to the actual execution of the work.
    B. Neither the City Project Manager's review of Contractor's work nor recommendations made by City Project Manager pursuant to this Agreement will impose on City Project Manager any responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident Contractor's furnishing and performing the work.
12. **TERMINATION AND DEFAULT**. Either party, upon determination that the other party has failed or refused to perform or is otherwise in breach of any obligation or provision under this Agreement or the Contract Document, may give written notice of default to the defaulting party in the manner specified for the giving of notices herein. Termination of this Agreement by either party for any reason shall have no effect upon the rights or duties accruing to the parties prior to termination.
    A. **Termination by City for Cause**. City shall have the right to terminate this Agreement immediately, in whole or in part, upon the failure of Contractor to carry out any obligation, term, or condition of this Agreement. City's election to terminate the Agreement for default shall be communicated by providing Contractor written notice of termination in the manner specified for the giving of notices herein. Any notice of termination given to Contractor by City shall be effective immediately, unless otherwise provided therein, upon the occurrence of any one or more of the following events:
        (1) Contractor fails to timely and properly perform any of the services set forth in the specifications of the Agreement;

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

(2) Contractor provides material that does not meet the specifications of the Agreement;
(3) Contractor fails to complete the work required within the time stipulated in the Agreement; or
(4) Contractor fails to make progress in the performance of the Agreement and/or gives City reason to believe that Contractor cannot or will not perform to the requirements of the Agreement.

B. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.

C. **City's Remedies Upon Contractor Default**. In the event that Contractor fails to cure any default under this Agreement within the time period specified in this section, City may pursue any remedies available at law or equity, including, without limitation, the following:
(1) City shall be entitled to terminate this Agreement without further notice;
(2) City shall be entitled to hire another contractor to complete the required work in accordance with the needs of City;
(3) City shall be entitled to recover from Contractor all damages, costs, and attorney's fees arising from Contractor's default prior to termination; and
(4) City shall be entitled to recovery from Contractor any actual excess costs by: (i) deduction from any unpaid balances owed to Contractor; (ii) placing a claim against the public construction bond, or (iii) any other remedy as provided by law.

D. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. The City Project Manager shall provide written notice of the termination. Upon receipt of the notice, Contractor shall immediately discontinue all work as directed in the notice, notify all subcontractors of the effective date of the termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Contractor shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Contractor as permitted under this Agreement and approved by City.

13. **WARRANTY.** Contractor warrants that all labor, materials, and equipment furnished under the agreement are new, of the type and quality required for the Project, and installed in a good and workmanlike manner in accordance with the Contract Documents. Contractor shall guarantee that the work shall be free from any defects in workmanship for a period of not less than **THREE (3)** years from the date of Final Completion. Contractor shall guarantee that the materials provided shall be free from any defects for the longer of: (1) **THREE (3)** years from the date of Final Completion; or (2) the period of warranty provided by any supplier or manufacturer. All written manufacturers' warranties for materials supplied must be provided to the City Project Manager before final payment will be authorized.
14. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Contractor's performance. Any such evaluation will become public record.

15. **NOTICE REGARDING FAILURE TO FULFILL AGREEMENT**. Any contractor who enters into an Agreement with the City of Ocala and fails to complete the contract term, for any reason, shall be subject to future bidding suspension for a period of **ONE (1)** year and bid debarment for a period of up to **THREE (3)** years for serious contract failures.

16. **CONTRACTOR REPRESENTATIONS**. Contractor expressly represents that:

    A. Contractor has read and is fully familiar with all the terms and conditions of this Agreement, the Contract Documents, and other related data and acknowledges that they are sufficient in scope and detail to indicate and convey understanding of all terms and conditions of the work to be performed by Contractor under this Agreement.
    B. Contractor has disclosed, in writing, all known conflicts, errors, inconsistencies, discrepancies, or omissions discovered by Contractor in the Contract Documents, and that the City's written resolution of same is acceptable to Contractor.
    C. Contractor has had an opportunity to visit, has visited, or has had an opportunity to examine and ask questions regarding the sites upon which the work is to be performed and is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
    D. Contractor is satisfied with the site conditions that may affect cost, progress, and performance of the work, as observable or determinable by Contractor's own investigation.
    E. Contractor is familiar with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement whatsoever.
    F. **Public Entity Crimes.** Neither Contractor, its parent corporations, subsidiaries, members, shareholders, partners, officers, directors, or executives, nor any of its affiliates, contractors, suppliers, subcontractors, or consultants under this Agreement have been placed on the convicted vendor list following a conviction of a public entity crime. Contractor understands that a "public entity crime" as defined in section 287.133(1)(g), Florida Statutes, is "a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States…" Contractor further understands that any person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime: (1) may not submit a bid, proposal, or reply on a contract: (a) to provide any goods or services to a public entity; (b) for the construction or repair of a public building or public work; or (c) for leases of real property to a public entity; (2) may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and (3) may not transact business with any public entity in excess of the threshold amount provided in section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

17. **CONTRACTOR RESPONSIBILITIES**. Except as otherwise specifically provided for in this Agreement, the following provisions are the responsibility of the Contractor:

    A. Contractor shall competently and efficiently supervise, inspect, and direct all work to be performed under this Agreement, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.
    B. Contractor shall be solely responsible for the means, methods, techniques, sequences, or procedures of construction and safety precautions or programs incident thereto.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

C. Contractor shall be responsible to see that the finished work complies accurately with this Agreement and the intent thereof.
D. Contractor shall comply with all local, state, and Federal laws, regulations, and ordinances which may affect cost, progress, or its performance under this Agreement, including, but not limited to obtaining all permits, licenses, and other authorizations necessary for the prosecution of the work and be responsible for all costs associated with same.
E. Contractor shall operate and cause all construction equipment and materials supplied for or intended to be utilized in the Project to be operated and stored in only those areas prescribed by City. This includes the operations of workmen.
F. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of all construction equipment and materials supplied for or intended to be utilized in the Project, whether furnished by Contractor or City. Contractor shall be responsible for providing adequate safeguards to prevent loss, theft, damage, or commingling with other materials or projects.
G. Contractor shall continue its performance under this Agreement during the pendency of any dispute or disagreement arising out of or relating to this Agreement, except as Contractor and City may otherwise agree in writing.

18. **NO EXCLUSIVITY**. It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Contractor or as prohibit City from either acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.
19. **RIGHT OF ACCESS AND OTHER WORK PERFORMED BY THIRD PARTIES**. City may perform additional work related to the Project itself, or have additional work performed by utility service companies, or let other direct contracts therefore which shall contain General Conditions similar to these. Contractor shall afford the utility service companies and the other contractors who are parties to such direct contracts (or City if City is performing the additional work with City's employees) reasonable opportunity for the introduction and storage of materials and equipment and the execution of work and shall properly connect and coordinate his work with theirs.
    A. If any part of Contractor's work depends for proper execution or results upon the work of any such other contractor or utility service company (or City), Contractor shall inspect and promptly report to City in writing any latent or apparent defects or deficiencies in such work that render it unsuitable for such proper execution and results. Contractor's failure to so report shall constitute an acceptance of the other work as fit and proper for integration with Contractor's work except for latent or non-apparent defects and deficiencies in the other work.
    B. Contractor shall do all cutting, fitting, and patching of work that may be required to make the parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating, or otherwise altering their work, and will only cut or alter their work with the written consent of City.
20. **STORAGE OF MATERIALS/EQUIPMENT**. Contractor shall be fully responsible for receipt, inspection, acceptance, handling, and storage of equipment and materials (whether furnished by Contractor or City) to be utilized in the performance of or incorporated into the work.
21. **RESPONSIBILITIES OF CITY.** City or its representative shall issue all communications to Contractor. City has the authority to request changes in the work in accordance with the terms of this Agreement and with the terms in **Exhibit A – Scope of Work.** City has the authority to stop work or to suspend any work.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

22. **COMMERCIAL AUTO LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Contractor's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Contractor does not own vehicles, Contractor shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Contractor's Commercial General Liability policy or separate Commercial Automobile Liability policy.
23. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Contractor shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of Commercial General Liability insurance with limits not less than:

    A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury; and
    B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations.
    C. Policy must include coverage for contractual liability and independent contractors.
    D. Policy must include Additional Insured coverage in favor of the City that is no less restrictive than that afforded under the CG 20 26 04 13 Additional Insured Form.

24. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY.** Worker's Compensation insurance shall be provided by Contractor as required by Chapter 440, Florida Statutes, or any other applicable state or federal law, including the U.S. Longshoremen's and Harbor Workers Compensation Act and the Jones Act.

    A. Contractor shall similarly require any and all subcontractors to afford such coverage for all of its employees as required by applicable law.

    B. Contractor shall waive and shall ensure that Contractor's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Contractor's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent.

    C. Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.

25. **ADDITIONAL INSURANCE REQUIREMENTS.**

    A. Contractor's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Contractor shall not be interpreted as limiting Contractor's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Contractor's interests or liabilities or to protect Contractor from claims that may arise out of or result from the negligent acts, errors, or omissions of Contractor, any of its agents or subcontractors, or for anyone whose negligent act(s) Contractor may be liable.
    B. No insurance shall be provided by the City for Contractor under this Agreement and Contractor shall be fully and solely responsible for any costs or expenses incurred as a result

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

of a coverage deductible, co-insurance penalty to include any loss not covered because of the operation of such deductible, co-insurance penalty, or coverage exclusion or limitation.

C. **Certificates of Insurance**. No work shall be commenced by Contractor under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Contractor allow any subcontractor to commence work until all similarly required certificates and endorsements of the subcontractor have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Contractor shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.gov.** Contractor's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Insurance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. **City as an Additional Insured**. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability on all liability policies identified in this Section with the exception of Workers' Compensation, Auto Liability (except when required by Risk Management) and Professional Liability policies**. Workers Compensation policy must contain a Waiver of Subrogation in favor of the City**.

E. **Notice of Cancellation of Insurance**. Contractor's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Contractor's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Contractor to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.gov.

F. **Failure to Maintain Coverage**. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Contractor. Contractor's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

G. **Severability of Interests**. Contractor shall arrange for its liability insurance to include or be endorsed to include a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

27. **SAFETY/ENVIRONMENTAL.** Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Contractor shall make an effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury, or property damage. EPA, DEP, OSHA and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

A. All employees on the work and other persons that may be affected thereby;
B. All work, materials, and equipment to be incorporated therein, whether in storage on or off the site; and
C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

All, injury, or loss to any property caused, directly or indirectly, in whole or in part, by Contractor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, shall be remedied by Contractor. Contractor's duties and responsibilities for the safety and protection of the work shall continue until such time as the work is completed and accepted by City.

28. **TRAFFIC CONTROL AND BARRICADES.** The Contractor shall mitigate impact on local traffic conditions to all extents possible. The Contractor is responsible for establishing and maintaining appropriate traffic control and barricades. The Contractor shall provide sufficient signing, flagging, and barricading to ensure the safety of vehicular and pedestrian traffic at all locations where work is being done under this Agreement.
    a. In addition to the requirements set forth in its bid, the Contractor shall maintain at all times a good and sufficient fence, railing or barrier around all exposed portions of said work in such a manner as to warn vehicular and pedestrian traffic of hazardous conditions.
    b. Should Contractor fail to properly barricade his work or stored material sites in the manner outlined above, the City may have the necessary barricading done, and all cost incurred for said barricading shall be charged to the Contractor.

29. **WORK SITE AND CLEANUP.** Daily, during the progress of the work, Contractor shall keep the premises free from accumulations of waste materials, rubbish, and all other debris resulting from the work. At the completion of the work, Contractor shall remove all waste materials, rubbish, and debris from and about the premises, as well as all tools, appliances, construction equipment and machinery, and surplus materials, and shall leave the site clean and ready for occupancy by City. Contractor shall provide an inventory listing of all surplus materials in an area designated by City. Contractor shall restore to their original condition those portions of the site not designated or alteration by the Contract.

30. **CONSTRUCTION SURVEY LAYOUT.** The work to be performed pursuant to survey work provided by City shall be completed as necessary to establish all proper alignments, right of way, easements, benchmarks, elevations, and grade stakes to complete all phases of this Contract.
    A. Contractor shall immediately bring to City's attention any survey issues that would impede the Contractor's completion of the work. The work performed pursuant to survey work at the Contractor's expense pursuant to this Agreement shall be prepared by a licensed surveyor and provided to the City. Any survey issues with these surveys that would impede the Contractor's completion of the work shall immediately be brought to the City's attention. If additional or corrective survey work is required, it shall be at Contractor's expense.
    B. The City Engineer/City Project Manager shall establish a number of benchmarks on the project which in their opinion will enable the Contractor to perform the work. If Contractor shall remove or destroy any stake, marker, or benchmark on the work without first having

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

secured the approval of the City Engineer/City Project Manager, such stake, or benchmark shall be re-established by and at Contractor's expense.

C. It shall be the responsibility of Contractor to preserve all adjacent property corner markers which might be affected by their operations and replace same if undermined. Corner locations known by City will be made available to Contractor. All original field notes, calculations, and other documents developed by the surveyor in conjunction with this work shall be given to City and become City property. All surveying work must be in accordance with Chapters 177 and 472 of Florida Statutes and Chapter 6IG17 of the Florida Administrative Code.

31. **NON-DISCRIMINATORY EMPLOYMENT PRACTICES**. During the performance of the contract, the Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status and shall take affirmative action to ensure that an employee or applicant is afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not limited to: recruitment, employment, termination, rates of pay or other forms of compensation and selection for training or retraining, including apprenticeship and on-the-job training.
32. **COMPLIANCE WITH F.S. 287.135.** City may terminate Agreement immediately upon discovering that Contractor: (A) has been placed on the Scrutinized Companies that Boycott Israel List; (B) is engaged in a boycott of Israel; (C) has been placed on the Scrutinized Companies with Activities in Sudan List; (D) has been placed on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; or (E) has been engaged in business operations in Cuba or Syria. This Agreement may also be terminated immediately if the Contractor falsely certified they are eligible to bid and contract with local government entities under F.S. 287.135.
33. **SUBCONTRACTORS.** Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by City or its representatives to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, nor shall it create any obligation on the part of City or its representatives to pay or seek payment of any monies to any subcontractor of Contractor or any other persons or organizations having a direct contract with Contractor, except as may otherwise be required by law. City shall not be responsible for the acts or omissions of any Contractor, subcontractor, or of any of their agents or employees, nor shall it create any obligation on the part of City or its representatives to pay or to seek the payment of any monies to any subcontractor or other person or organization, except as may otherwise be required by law.
34. **EMERGENCIES**. In an emergency affecting the welfare and safety of life or property, Contractor, without special instruction or authorization from the City Project Manager, is hereby permitted, authorized, and directed to act at its own discretion to prevent threatened loss or injury. Except in the case of an emergency requiring immediate remedial work, any work performed after regular working hours, on Saturdays, Sundays, or legal holidays, shall be performed without additional expense to the City unless such work has been specifically requested and approved by the City Project Manager. Contractor shall be required to provide to the City Project Manager with the names, addresses and telephone numbers of those representatives who can be contacted at any time in case of emergency. Contractor's emergency representatives must be fully authorized and equipped to correct unsafe or excessively inconvenient conditions on short notice by City or public inspectors.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

35. **INDEPENDENT CONTRACTOR STATUS.** Contractor acknowledges and agrees that under this Agreement, Contractor and any agent or employee of Contractor shall be deemed at all times to be an independent contractor and shall be wholly responsible for the manner in which it performs the services and work required under this Agreement. Neither Contractor nor its agents or employees shall represent or hold themselves out to be employees of City at any time. Neither Contractor nor its agents or employees shall have employee status with City. Nothing in this Agreement shall constitute or be construed to create any intent on the part of either party to create an agency relationship, partnership, employer-employee relationship, joint venture relationship, or any other relationship which would allow City to exercise control or discretion over the manner or methods employed by Contractor in its performance of its obligations under this Agreement.

36. **ACCESS TO FACILITIES.** City shall provide Contractor with access to all City facilities as is reasonably necessary for Contractor to perform its obligations under this Agreement.

37. **ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement to any third party without the prior express approval of the other party, which shall not be unreasonably withheld.

38. **RIGHT OF CITY TO TAKE OVER CONTRACT.** Should the work to be performed by Contractor under this Agreement be abandoned, or should Contractor become insolvent, or if Contractor shall assign or sublet the work to be performed hereunder without the written consent of City, the City Project Manager shall have the power and right to hire and acquire additional men and equipment, supply additional material, and perform such work as deemed necessary for the completion of this Agreement. Under these circumstances, all expenses and costs actually incurred by City to accomplish such completion shall be credited to City along with amounts attributable to any other elements of damage and certified by the City Project Manager. The City Project Manager's certification as to the amount of such liability shall be final and conclusive.

39. **PUBLIC RECORDS.** The Contractor shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, the Contractor shall:
    A. Keep and maintain public records required by the public agency to perform the service.
    B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
    C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the public agency.
    D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from

the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK; 352-629-8266; E-mail: clerk@ocalafl.gov; City Hall, 110 SE Watula Avenue, Ocala, FL 34471.

40. **AUDIT.** Contractor shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
41. **PUBLICITY.** Contractor shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
42. **E-VERIFY.** Pursuant to section 448.095, Contractor shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Contractor shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Contractor certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Contractor understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Contractor may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Contractor shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.
43. **CONFLICT OF INTEREST.** Contractor is required to have disclosed, with the submission of their bid, the name of any officer, director, or agent who may be employed by the City. Contractor shall further disclose the name of any City employee who owns, directly or indirectly, any interest in Contractor's business or any affiliated business entity. Any additional conflicts of interest that may occur during the contract term must be disclosed to the City of Ocala Procurement Department.
44. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power, or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power, or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances.
45. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.

46. **INDEMNITY.** Contractor shall indemnify, defend, and hold harmless City and its elected officials, employees and volunteers against any actions, claims, or damages arising out of, relating to, or resulting from negligent or wrongful acts of Contractor, or any of its officers, agents, or employees, acting within the scope of their office or employment, in connection with the rights granted to or exercised by Contractor.
47. **NO WAIVER OF SOVEREIGN IMMUNITY.** The foregoing indemnification shall not constitute a waiver of the City's sovereign immunity beyond the limits set forth in section 768.28, Florida Statutes. Nor shall the same be construed to constitute agreement by Contractor to indemnify City for the negligent acts or omissions of City, its officers, agents, or employees, or third parties. This indemnification shall survive the termination of this Agreement.
48. **NOTICES.** All notices, certifications or communications required by this Agreement shall be given in writing and shall be deemed delivered when personally served, or when received if by facsimile transmission with a confirming copy mailed by registered or certified mail, postage prepaid, return receipt requested. Notices can be concurrently delivered by e-mail. All notices shall be addressed to the respective parties as follows:

If to Contractor:	Commercial Industrial Corp. Attention: Jay Blankenfeld 186 NW 68th Avenue Ocala, Florida 34482 Phone: 352-840-0161 E-mail: jay@cifl.com
If to City of Ocala:	Daphne M. Robinson, Esq., Contracting Officer City of Ocala 110 SE Watula Avenue, Third Floor Ocala, Florida 34471 Phone: 352-629-8343 E-mail: notices@ocalafl.gov
Copy to:	William E. Sexton, Esq., City Attorney City of Ocala 110 SE Watula Avenue, Third Floor Ocala, Florida 34471 Phone: 352-401-3972 E-mail: wsexton@ocalafl.gov

49. **ATTORNEYS' FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses reasonably incurred even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in

addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges reasonably billed by the attorney to the prevailing party.

50. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.
51. **GOVERNING LAW.** This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the state of Florida and shall in all respects be governed, construed, applied, and enforced in accordance with the laws of the state of Florida.
52. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
53. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all whom shall be bound by the provisions hereof.
54. **MUTUALITY OF NEGOTIATION.** Contractor and City acknowledge that this Agreement is a result of negotiations between Contractor and City, and the Agreement shall not be construed in favor of, or against, either party because of that party having been more involved in the drafting of the Agreement.
55. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
56. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or because of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

57. **AMENDMENT.** No amendment to this Agreement shall be effective except those agreed to in writing and signed by both parties to this Agreement.
58. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
59. **ELECTRONIC SIGNATURE(S).** Contractor, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this Agreement. Further, a duplicate or copy of the Agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original Agreement for all purposes.
60. **ENTIRE AGREEMENT.** This Agreement, including exhibits, (if any) constitutes the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements, or understandings, oral, written, or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this Agreement. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
61. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on _____.

BACKGROUND

1. Contractor shall complete the widening construction of the existing two-lane SW 44th / 46th Avenue from SR 40 to SW 20th Street to create a four-lane divided roadway.
2. Scope of the project will contain stabilization, base, milling and asphalt for four 12-foot travel lanes, 6-foot-wide traffic separator, grass median, 4-foot-wide bike lanes, concrete sidewalks, concrete curb and gutter, curb ramps, sod, gravity wall, as well as signing and thermoplastic pavement marking. Driveway modifications are also anticipated.
3. Drainage work shall include a manhole and inlet top modifications as called out in the plans.
4. Inlet protection system, sediment barrier is also included. Construction activities include mobilization, maintenance of traffic, clearing and grubbing, earthwork, milling, concrete, and paving.
5. All pedestrian facilities must adhere to current ADA standards.
6. Proper maintenance of traffic is required at all times.
7. Contractor shall be responsible for providing all materials, labor, and equipment to complete the project.

FDOT PRE-QUALIFICATION, AND CERTIFICATION REQUIREMENTS

1. **FDOT Pre-Qualification Requirement:** Contractor must be FDOT Pre-Qualified with reviewed financial statements in the following work classes in accordance with Florida State Statute 337.14 and Florida Administrative code 14-22.
    - Grading
    - Flexible Paving
    - Hot Plant – Mix Bitum. Courses
    - Sidewalk
2. **Maintenance of Traffic (MOT)/Temporary Traffic Control (TTC) Certification:** Contractor must possess MOT/TTC Advanced certification. One (1) person who is MOT/TTC Advanced certified must be on site at all times during construction.

PERMIT REQUIREMENTS AND MOT/TTC PLAN

1. **Permits Required:** Contractor shall be responsible for obtaining the following City of Ocala permits at no additional cost to the City:
    - Right-of-Way (ROW) Utilization
    - Notice of Intent to FDEP for Overall Project Construction
2. **Estimated Permit Cost:** The ROW permit cost will be waived upon submission.
3. **Permit Application:** The ROW Utilization Permit Application is available under "Documents" at: https://www.ocalafl.org/government/city-departments-a-h/city-engineer-s-office
4. **Permit Submission Requirements:**

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

A. **If Road/Lane Closure is Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of two (2) weeks prior to the projected time the project will start.

B. **If Road/Lane Closure is not Needed:** Contractor must submit a City of Ocala ROW permit and MOT/TTC Plan a minimum of one (1) week prior to the projected time the project will start.

WEATHER DAYS

Weather Days: The Contractor shall submit a written request to the City Project Manager (email is the preferred method) for additional days for which work is suspended or delayed by weather.

A. Weather days shall be reconciled with each monthly pay application for the time period which the application is submitted and shall be final.

B. Contractor performance and execution of work shall be considered in the determination for granting additional days.

SUB-CONTRACTORS

Contractor must perform a minimum of 60% of the work with their own forces.

MOBILIZATION AND MAINTENANCE OF TRAFFIC/TEMPORARY TRAFFIC CONTROL

1. **Mobilization:** Obtaining of required permits and the moving of the Contractors operations and equipment required for construction. Provide on-site construction power and wiring, as needed. Provide on-site sanitary facilities as required by Governing agencies. The Contractor will not be permitted to use the City sanitary facilities during construction. Posting of OSHA required notices and establishing of safety programs and procedures.

2. **Maintenance of Traffic (MOT)/Temporary Traffic Control (TTC):** Maintain traffic per FDOT 102 series index within the limits of the project for the duration of the construction period, including any temporary suspensions of the work. Construct and maintain detours.

   A. Provide facilities for access to residences, businesses, etc., along the project. Furnish, install, and maintain traffic control and safety devices during construction. Furnish and install work zone pavement markings for MOT/TTC in construction areas. Provide any other special requirements for safe and expeditious movement of traffic specified in the Plans.

   B. MOT/TTC includes all facilities, devices and operations as required for safety and convenience of the public within the work zone. Do not maintain traffic over those portions of the project where no work is to be accomplished or where construction operations will not affect existing roads. Do not obstruct or create a hazard to any traffic during the performance of the work and repair any damage to existing pavement open to traffic. FDOT Design Standards are the minimum standards for the use in the development of all Traffic Control Plans (TCPs).

   C. Contractor must have one (1) person that is MOT/TTC Advanced certified on site at all times during construction.

WORK HOURS/CONTRACT TIME

1. The City's normal working hours are Monday through Friday from 7:00 AM to 5:30 PM.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

2. If additional hours are necessary, the Contractor must give 48 hours advance notice to the Project Inspector/City Project Manager.
3. Contractor shall be responsible for inspector's overtime.
4. Night work shall be allowed if it would result in less impact to the public or reduced safety issues at no extra cost to city.
5. No work will be permitted on City observed holidays.
6. Issuance of the Notice to Proceed (NTP) will be given within **TEN (10) DAYS** of the executed Contract date, unless an alternative start date is agreed upon by the City Project Manager. Failure to begin construction within the specified or agreed-upon time frame shall be considered in default by the Contractor.

PROJECT SPECIFICATIONS

This project will require the Contractor to follow the following plans and specifications and any other governing specifications that projects shall be constructed in accordance to:

1. City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure (January 2025) available at:
2. https://www.ocalafl.gov/home/showpublisheddocument/26969/638741677724600000
3. Florida Department of Transportation Standard Specifications (FDOT) for Road and Bridge Construction, latest edition available at: http://www.fdot.gov/programmanagement/Implemented/SpecBooks/
4. Florida Department of Transportation Standard Plans for Road and Bridge Construction, Latest edition available at:

   https://www.fdot.gov/design/standardplans/sprbc.shtm
5. Manual on Uniform Traffic Control Devices (MUTCD), available at: https://www.fdot.gov/traffic/trafficservices/mutcd.shtm
6. **Job Site Documents:** The Contractor must have the above listed documents in addition to up-to-date copies of shop drawings, plans and bid document at job sites at all times.

PROJECT REQUIREMENTS AND EXECUTION OF WORK

1. **Project Schedule:** Contractor must submit project schedule to the City Project Manager for approval. This schedule must be submitted Two (2) weeks prior to the starting of a project and must be updated when the schedule is no longer accurate.
2. **Right-of-Way Maps and As-Builts:** Upon final completion of each individual project, signed and sealed right-of-way maps (when applicable) and as-builts must be submitted and approved by the City.
3. **Material & Construction Equipment:** All material & construction equipment must meet FDOT Standard Specifications for Road and Bridge, latest edition.
4. **Backfilling and Compaction Procedures:** Backfilling and compaction shall be performed in accordance with the FDOT Standard Specifications for Road and Bridge Construction (latest edition)

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

and the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure or as otherwise directed in writing by the City of Ocala.

5. **Open Cuts:** All open cuts in the pavement (asphalt and concrete) shall be saw cut and made square.
6. **Damages:** Contractor shall be responsible for any and all damages including but not limited to buildings, curbing, pavement, landscaping, or irrigation systems caused by their activity. Should any public or private property be damaged or destroyed, the Contractor, at their expense, shall repair or make restoration as acceptable to the City of destroyed or damaged property no later than one (1) month from the date damage occurred.
7. **Compliance:** The Contractor shall complete all work performed under this contract in accordance with policies and procedures of the City of Ocala and all applicable State and Federal laws, policies, procedures, and guidelines.
8. Locate, protect, and relocate any and all underground utilities necessary to complete the work specified in the contract, and verify all field conditions, measurements, and elevations.
9. Contractor shall be responsible for distribution of outage/construction notices to customers at least **five (5) days** prior to an outage or construction activity.
10. 10. The Fire Hydrant Assembly line-item unit price includes a fire hydrant to grade (36″ min to 60″ max).

CONTRACTOR EMPLOYEES AND EQUIPMENT

1. Contractor must utilize competent employees in performing the work. Employees performing the work must be properly licensed or qualified as required by the scope/project.
2. At the request of the City, the Contractor must replace any incompetent, unfaithful, abusive, or disorderly person in their employment. The City and the Contractor must each be promptly notified by the other of any complaints received.
3. Contractor shall provide an assigned project manager, who will be the primary point of contact. Contractor must provide a valid telephone number, email, and address for the City Project Manager. The telephone must be answered during normal working hours or voicemail must be available to take a message.
4. An employee roster shall be provided to the City Project Manager.
5. All workers within the right-of-way shall wear ANSI/ISEA Class 2 apparel (safety vest or equivalent).
6. The Contractor's employees shall wear suitable work clothes and personal protective equipment as defined by OSHA (hard hats, bucket harnesses, etc.) and meeting Manual on Uniform Traffic Control Devices (MUTCD) requirements as indicated for all work conducted and be as clean and in as good appearance as the job conditions permit.
7. Contractor shall operate as an independent contractor and not as an agent, representative, partner, or employee of the City of Ocala, and shall control his operations at the work site, and be solely responsible for the acts or omissions of his employees.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

8. Contractor personnel shall abide by the City's smoking regulations. Smoking is restricted to designated smoking areas only and is not permitted in any City buildings.
9. Contractor must possess/obtain all required equipment to perform the work. A list of equipment shall be provided to the City upon request.
10. Contractor and sub-contractor vehicles shall have their company name located on the side and all personnel shall be required to wear a company shirt.

PROJECT SIGNS

1. Contractor shall be required to provide **two (2)** portable signs to be placed at locations that are approved by City Project Manager.
2. If during the term of this Agreement sign becomes broken or inaccurate, Contractor shall replace or make sign accurate at no extra charge to the City of Ocala.
3. Sign Construction Detail and Required Information can be found in the City of Ocala Standard Details for Construction on Detail G-31A & G-31B.

The cost to move signs to new project locations and the replacement of broken and inaccurate signs shall be included in the initial cost of each sign.

SURVEY LAYOUT

1. The City Engineer/City Project Manager may, as required, establish a number of benchmarks on the project which in their opinion will enable the Contractor to perform the work.
2. If the Contractor shall remove or destroy any stake, marker, or benchmark on the work without first having secured the approval of the City Engineer, such stake, or benchmark shall be re-established by and at the Contractor's expense.
3. It shall be at the responsibility of the Contractor to preserve all adjacent property corner markers which might be affected by their operation and replace same if undermined. Corner locations known by the City will be available to the Contractor.
4. All survey work must be in accordance with Chapters 177 and 472 of Florida Statutes and Chapter 6IG17 of the Florida Administrative Code.

TESTING REQUIREMENTS

1. Contractor Quality Control Plan is required.
    - Earthwork (Including Density Logbook)
    - Base Course
    - Asphalt
    - Concrete

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

2. Contractor shall be responsible for arranging, obtaining, and paying for all inspections and tests required. Such inspections and tests shall be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to City Project Manager.
3. Results of all required testing and inspections shall be submitted to the project inspector to achieve Final Completion Certification. For other requirements for Tests and Inspection refer to Article 14 in the City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.
4. Asphalt samples will only be taken at the job site or asphalt plant and will have to meet these specifications. All work which has not been tested and accepted shall not be paid for.

EROSION SEDIMENT AND FLOOD CONTROL

1. Contractor shall provide the City of Ocala with an Erosion Control Plan that shall include spill reporting and response.
2. If contaminated soil or groundwater is encountered, contact the City Project Manager.
3. Provide, maintain, and operate temporary facilities to control erosion and sediment, and to protect work and existing facilities from flooding during construction.
4. Maintain drainage ways and construct temporary drainage facilities to allow runoff to flow properly.
5. Contractor shall be required to inspect pollution control measures daily. Written documentation of inspection must be submitted weekly and within 24 hours after a rainstorm in excess of 0.50 inches. The Contractor shall report all inspection findings and corrective actions taken as a result of the inspection. Inspection reports (DOT form 650-040-03) shall be signed by the Contractor and submitted weekly to the City Project manager, along with the name and certificate number of the person signing this form.

CONSTRUCTION WORK AREAS

1. The City of Ocala shall not be responsible for providing property or lay down yards to the Contractor for their materials or equipment. If private property is used, the City requires a copy of the agreement between the property owner and the Contractor. **Utilizing private property without written permission is prohibited.**
2. Components of the project, including temporary work and storage areas, will be located on-site per project. Staging areas will be sited inside the right-of-way or within City property. Material shall be transported to the proper station for construction, assembly, response to possible public concern.
3. Provide on-site sanitary facilities as required by governing agencies.
4. Any work areas in roadways must at least be filled temporarily with asphalt millings or covered with a FDOT approved steel road plate before the roadway can be opened to traffic. If millings are used the Contractor must maintain the millings daily until the millings are replaced with permanent asphalt.

SITE HOUSEKEEPING AND CLEANUP

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

1. **Waste/Debris:** The Contractor shall keep the premises free at all times from accumulation of waste materials and rubbish caused by operations and employees. Contractor shall provide approved containers for collection and disposal of waste materials, debris, and rubbish. Contractor shall dispose of debris in a legal manner. At least once weekly dispose of such waste materials, debris, and rubbish off-site.
2. **Cleanup:** Periodic cleanup to avoid hazards or interference with operations at the site, and to leave the site in a reasonable neat condition. Work site will be completely cleaned after each day of work. Sweep all roadways affected by the construction and where adjacent to work daily.
3. **Water Use:** The use of water to prevent the blowing of dust and debris during cutting operations and or cleaning operations is **mandatory**.
4. **Individual Project Cleaning:** At completion of each individual project, Contractor shall remove from the site all tools, equipment, surplus materials, debris, temporary facilities, scaffolding, and equipment. The areas of work shall be swept thoroughly and all marks, stains, rust, dirt, paint drippings, and the like shall be removed from all new and existing work to the satisfaction of the Owner.
5. **Final Cleaning:** Upon completion of work, clean entire work, and project site as applicable.
   A. Leave the work and adjacent areas affected in a cleaned condition satisfactory to the City Project Manager/City Engineer.
   B. Remove any foreign materials from exposed surfaces.
   C. Broom clean exterior paved driveways and parking areas.
   D. Hose clean sidewalks and concrete exposed surfaces.

SAFETY

1. The Contractor shall be fully responsible for meeting all OSHA, local, state, and national codes concerning safety provisions for their employees, sub-contractors, all building and site occupants, staff, public, etc.
2. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.
3. In no event shall the City be responsible for any damages to any of the Contractor's equipment, materials, property, or clothing lost, damaged, destroyed or stolen.

SUBMITTALS

1. Provide submittals as required by City of Ocala Standard Specifications for Construction of Streets, Stormwater, Traffic, Water and Sewer Infrastructure.
2. Submit copies of permits and approvals for construction as required by laws and regulations of governing agencies.
3. Submit temporary construction parking area plans, storage yard, storage trailer location, staging area plan, and plan for disposal of waste materials.

WARRANTY

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

1. Contractor shall provide a three (3) year material and labor warranty from the date of substantial completion, against operational failure caused by defective material or workmanship which occurs during normal use.
2. All manufacturer warranty documentation and owner manuals must be provided before final payment request.

SUBSTANTIAL COMPLETION PROCESS

1. When the Contractor considers the work as substantially complete, the Contractor shall submit to the City:
   A. A written notice that the work or designated portion thereof, is substantially complete.
   B. A list of items to be completed or corrected.
2. Within a reasonable time after receipt of such notice, the City will make an inspection to determine the status of completion.
3. Should the City determine that the work is not substantially complete:
   A. The City will promptly notify the Contractor in writing, giving the reasons, therefore.
   B. The Contractor shall remedy the deficiencies in the work and send a second written notice of substantial completion to the City.
   C. The City will re-inspect the work.
4. When the City finds that the work is substantially complete, the City shall prepare a Certificate of Substantial Completion with a list of items (punch list) to be completed or corrected before final payment.

FINAL COMPLETION PROCESS

1. When the Contractor considers the work complete, the Contractor shall submit written certification that:
   A. Contract documents have been reviewed.
   B. Work has been inspected for compliance with Contract documents.
   C. Work has been completed in accordance with Contract documents.
   D. Equipment and systems have been tested in the presence of the City representative and are operational.
2. The City will make an inspection to verify the status of completion with reasonable promptness after receipt of such certification.
3. Should the City consider that the work is incomplete or defective:
   A. The City will promptly notify the Contractor in writing, listing the incomplete or defective work.
   B. The Contractor shall take immediate steps to remedy the stated deficiencies and send a second written certification to the City that the work is complete.
   C. The City will re-inspect the work.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

4. When the City finds that the work is acceptable under the Contract documents, the City shall request the Contractor make closeout submittals.
5. **Final Application for Payment:** Contractor shall submit the final application for payment in accordance with the procedures and requirements stated in the scope of work and general conditions.

CONTRACTOR CLOSEOUT DOCUMENTS

1. Evidence of compliance with requirements of governing authorities.
2. Consent of Surety to final payment.
3. Approved project record documents include electronic (CADD) and hard copy signed and sealed "As Built" by professional surveyor.
4. Completion of all submittals as required by Contract documents.
5. Warranties and operational manuals (2 copies).

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

The Contract Plans for Southwest 44th/46th Avenue 4-Lane Expansion – Phase 3 are available for inspection and copying at:
1805 NE 30th Avenue, Bldg. 700, Ocala, Florida 34470.

Docusign Envelope ID: B1C021DB-B889-48D7-8D55-2437AB7BE300

1. The Contractor will handle the adjustment of existing manholes and valves to grade.

2. The City is keeping the millings.

3. Gravity wall shall be per FDOT Index 400-011-Scheme 1.

4. Traffic will be able to drive on the milled areas.

5. A sidewalk survey is not required.

6. For D curb detail, refer to FDOT Index 520-001 "D" curb – For "D" curb behind sidewalk, refer to FDOT Index 522-00.

7. For the gravity height of wall details, refer to FDOT Index 400-011-Scheme 1. The height of the walls is estimated at 2 feet.

8. For the details on the D curb behind the sidewalk, refer to FDOT Index 522-002.

9. The compacted roadway subbase is for the new lanes, not the new sidewalk. All work to construct the sidewalk will be covered under item G-58-4 OR G-58-6.

10. For the millings, the City has multiple locations that may be utilized but the Furthest location from site is the City Complex, 1805 NE 30th Avenue, Ocala, FL.

11. The sod type is Bahia.

12. Any material generated on site will be utilized first, then imported material if needed.

13. Detectable warning pay item is for existing ramps without detectable warning mats.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

File #: 2025-1675 Agenda Item #: 10c.

Submitted By: Payal Pandya

Presentation By: Sean Lanier

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Approve Task Work Order No. 10 with Black & Veatch Corporation for Professional Engineering Services to prepare the City's revised Federal Emergency Management Agency Floodplain Zone AE model, letter of map revisions package, and corresponding request for additional information responses in the amount of $186,243

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place.

PROOF OF PUBLICATION:
N/A

BACKGROUND:

The City of Ocala (City) has completed several floodplain revisions within its Zone A and Zone AE floodplains, which were developed from different Flood Insurance Studies (FIS). In the past, the City has had multiple challenges with the Federal Emergency Management Agency (FEMA) accepting modifications to the AE floodplain, causing confusion and delays in acceptance of the letter of map revisions (LOMRs). Now that several watershed models overlaying the City's AE floodplains have been completed, a programmatic update to the AE flood plains acceptable to FEMA can be finalized. Once completed, future map revisions, utilizing the most current information, will make LOMR approval faster and more efficient.

FINDINGS AND CONCLUSIONS:

On September 20, 2022, City Council approved a five-year Continuing Professional Engineering Services Agreement (Contract No. ENG/220321) with Black & Veatch Corporation (Black & Veatch) with an initial expenditure threshold of $300,000. The initial contract term expires on September 30, 2025.

All work, allocated staff hours, and appropriate staff classifications are assigned by individual Task Work Orders negotiated and approved between the City and Black & Veatch, subject to the terms and conditions of the Continuing Professional Engineering Services Agreement. Negotiated task work orders are signed by the head of the utilizing department, the Procurement & Contracting Officer, and the appropriate executive leader

(City Manager or City Council). Task Work Orders exceeding $50,000 are calendared for City Council approval.

The City has requested Task Work Order (TWO) No. 10 from Black & Veatch to provide engineering services to prepare the revised AE model, LOMR package, and corresponding request for additional information (RAI) responses to get FEMA approval and acceptance of the revised AE model. Staff recommends approval of TWO No. 10.

FISCAL IMPACT:
Funding for this agreement is available in account string 158-020-430-538-53-31010 in the amount of $186,243.

PROCUREMENT REVIEW:
These services were procured in compliance with the City's Procurement Policy.

LEGAL REVIEW:
This Agreement has been reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with Changes

TASK ORDER NO. 10 TO THE AGREEMENT ENG/220321
SCOPE OF SERVICES

Owner: City of Ocala, Florida
Engineer: Black & Veatch Corporation
Project: AE Model Revision

BACKGROUND

The City of Ocala (City) has completed several floodplain revisions within their Zone A and Zone AE floodplains, which were developed from different Flood Insurance Studies (FIS). The city has had multiple challenges with FEMA accepting modifications to the AE floodplain, causing confusion and delays in accepting the previous letter of map revision (LOMR). With several Watershed Models completed that overlay the City's AE floodplains, a programmatic update to the AE flood zones can be completed and gain acceptance from FEMA so that future map revisions utilize the latest information. Refer to Figure 1 for the extent of the Cities AE flood model. The models used for the refinement within the AE flood model will include the Florida Ridge Model, Ocklawaha Marion, Lake Panasoffkee Model, Marshall Swamp, and West Ocala.

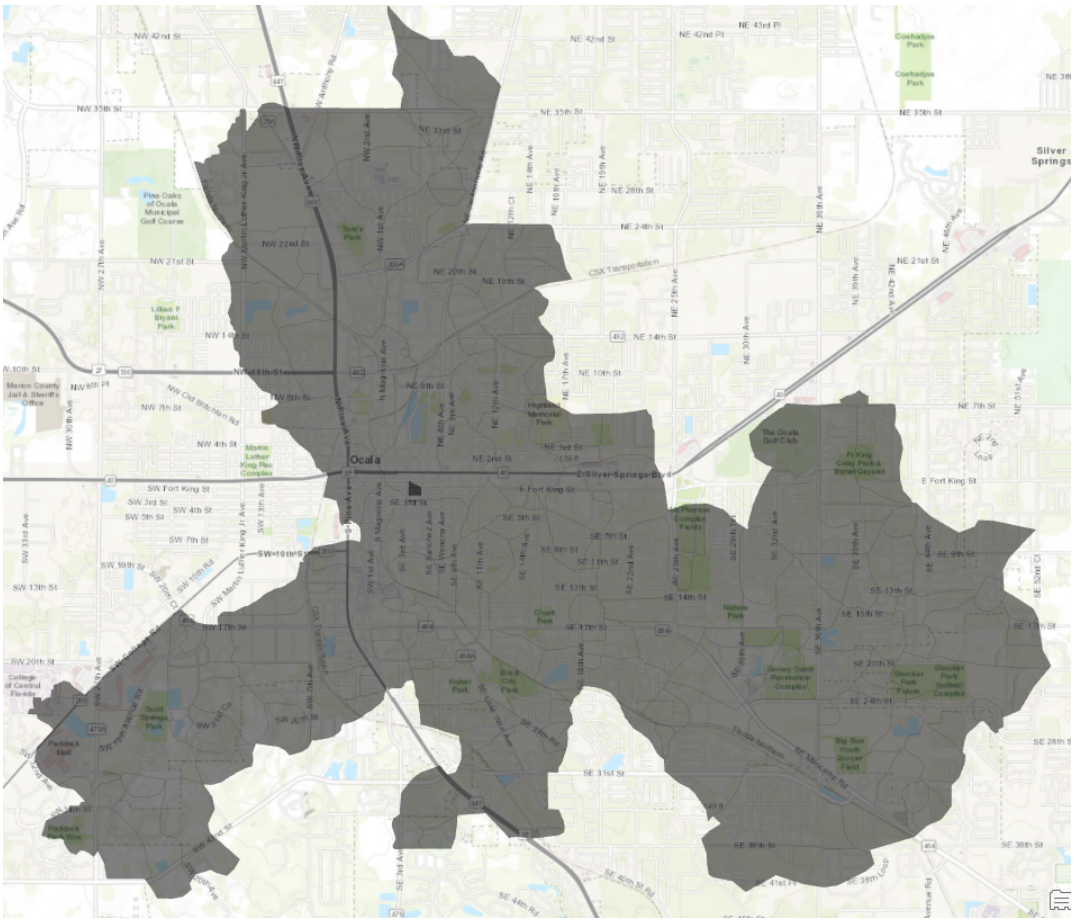

Figure 1: Extent of AE Flood Zone

The City has requested Black & Veatch (Consultant) to provide engineering services to support preparing the revised AE model, LOMR package, and corresponding RAI Response.

Docusign Envelope ID: 6AB32618-2000-41C2-99C0-C0E261B8BE12

Scope of Services

The Scope of Services, by Task, included under this Amendment is summarized below. The City will pay all LOMR fees, which are not included in this scope and fee estimate.

Task 1 – Project Kick-Off Meeting and Data Collection

The Consultant will schedule and conduct one (1) project kickoff meeting. Attendees will include the Consultant's Project Manager, the Project Engineer, the City's Project Manager, and other key City staff. The goal of the meeting will be to confirm project goals, roles, and responsibilities and to review the scope of services and schedule to ensure mutual understanding and enhance collaboration among project stakeholders and participants. The data request will include drawings, record drawings, geotechnical testing, stormwater models, GIS, and other necessary information.

This task will be billed on a lump sum basis. The consultant will prepare a project data request for the City that will be discussed in the Kick-Off Meeting.

Task 2 – Corrected Effective/ Existing Condition Model Preparation

The Consultant will update the duplicate effective model to the corrected effective model utilizing readily available data, such as soils, basin delineation, other regional models, land use, record drawings, previous LOMR applications, and the 2021 digital elevation model (DEM). Then, the existing conditions model will be prepared to incorporate information from up to five flood control projects, such as Fisher Park, SE Watula, DRAs, and other relevant flood control projects, which will be incorporated where survey information is available. During model development, the Consultant will coordinate with the FEMA Clearing House to ensure all the latest information for this area has been incorporated into the model and that there is consistency among the models. The Consultant will anticipate two (2) weeks for City review and two (2) weeks to address City comments as part of the schedule.

This task will be billed on a lump sum basis.

Task 3 – Letter of Map Revision (LOMR) Package Preparation

The Consultant will prepare a draft of the LOMR package and document the findings. All materials developed for the LOMR will be made available to City staff for review and approval before submittal, and all materials, data, and model data sets will be provided to the City in digital and paper copy, as appropriate. As part of the LOMR application, the Consultant will prepare a model report that documents the refinements that took place as part of the documentation process for FEMA. The Consultant will anticipate two (2) weeks for City review and two (2) weeks to address City comments as part of the schedule. The Consultant will hold a Task 3 coordination meeting to discuss the LOMR package and coordinate with the City on initial comments.

This task will be billed on a lump sum basis. The Consultant will work with the City to submit the revised LOMR documentation online.

Task 4 – National Flood Insurance Program Additional Data Required to Support LOMR

The Consultant will provide support in response to any potential requests from the National Flood Insurance Program (NFIP) as part of their initial review. The Consultant will prepare a response to the NFIP request for additional data. The response letter will address each comment and prepare the necessary documentation. The Consultant will work with the City to submit the revised LOMR documentation online to NFIP. All materials developed for additional data requests will be made available to City staff for review and approval before submittal, and all materials, data, and model data sets will be provided to the City in digital and paper copy, as appropriate. The Consultant will anticipate two (2) weeks for City review and two (2) weeks to address City comments as part of the schedule.

Docusign Envelope ID: 6AB32618-2000-41C2-99C0-C0E261B8BE12

Because the exact scope of this task is currently unknown, the time under this task will be billed on a time & material basis until the allocated budget is spent.

Task 5 – RAI Response Support
In the event of a request for additional information (RAI) from FEMA or NFIP, the consultant will provide additional support as needed at the request of the City. Supplementary support may include refining model information, updating tables, reviewing other local models, and performing other tasks. This effort does not include field visits or survey efforts. This task assumes that the existing models will sufficiently complete the LOMR. All materials developed for the RAI will be made available to City staff for review and approval before submittal, and all materials, data, and model data sets will be provided to the City in digital and paper copy, as appropriate. The Consultant will anticipate two (2) weeks for City review and two (2) weeks to address City comments as part of the schedule.

Because the exact scope of this task is currently unknown, the time under this task will be billed on a time & material basis until the allocated budget is spent.

Project Schedule (Based on Calendar Days from NTP)

Description	Days Elapsed from Notice to Proceed
Task 1 – Project Kick-Off Meeting and Data Collection	21
Task 2 – Model Preparation and Survey Coordination	200
Task 3 – Letter of Map Revision (LOMR) Package Preparation	220
Task 4 – National Flood Insurance Program Additional Data Required to Support LOMR	400
Task 5 – Supplemental RAI Response Support	580

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

AGREEMENT FOR CONTINUING POFESSIONAL ENGINEERING SERVICES - CITYWIDE

THIS AGREEMENT FOR CONTINUING PROFESSIONAL ENGINEERING SERVICES - CITYWIDE ("Agreement") is entered into by and between the **CITY OF OCALA**, a Florida municipal corporation ("City"), and **BLACK & VEATCH CORPORATION**, a foreign for-profit corporation duly organized in the state of Delaware and authorized to do business in the state of Florida (EIN# 43-1833073) ("Black & Veatch") or ("Consultant").

R E C I T A L S :

WHEREAS, the City has a need for professional engineering services to be performed citywide on a continuing and as needed basis; and

WHEREAS, on May 19, 2020, City issued a Request for Proposals ("RFP") for the procurement of various professional engineering services from qualified firms on a continuing and as needed basis, RFP No.: ENG/190603 (the "Solicitation"); and

WHEREAS, Black & Veatch Corporation submitted a proposal and was selected as a finalist and awardee for the provision of professional engineering services for the workgroups set forth in **Exhibit B – Awarded Work Groups**; and

WHEREAS, the City desires to contract with Black & Veatch for the provision of professional engineering services upon the terms and conditions set forth herein and Black & Veatch desires to perform such services upon said terms and conditions and based upon its qualifications package attached hereto as **Exhibit C – Consultant Proposal**; and

NOW THEREFORE, in consideration of the foregoing recitals, the following mutual covenants and conditions, and other good and valuable consideration, City and Consultant agree as follows:

T E R M S O F A G R E E M E N T :

1. **RECITALS**. City and Consultant hereby represent, warrant, and agree that the Recitals set forth above are true and correct and are incorporated herein by reference.
2. **CONTRACT DOCUMENTS**. The documents comprising the entire understanding between City and Consultant shall include only: (a) this Agreement; (b) those documents listed in this section as Exhibits to this Agreement; (c) the City's Solicitation for the Project and the proposal submitted by Consultant in response thereto (the "Solicitation Documents"); (d) those documents identified in the Project Specifications section of this Agreement, if any; and (e) the task work orders issued for individual projects pursuant to this Agreement (collectively the "Contract Documents). The Contract Documents are incorporated herein by reference for all purposes. Any conflict between the terms of this Agreement and the Contract Documents shall be construed in favor of this Agreement and the terms of this Agreement shall control, amend, and supersede any conflicting terms contained in the remaining Contract Documents.
   A. **Exhibits to Agreement**. The Exhibits to this Agreement are as follows:

      Exhibit A: Consultant Loaded Rate Sheet (A-1 through A-2)
      Exhibit B: Awarded Work Groups (B-1)
      Exhibit C: Consultant Proposal (C-1)

3. **SCOPE OF SERVICES.** Consultant agrees to perform professional engineering services for City on an as needed basis based on task work orders mutually negotiated by and between the City and Consultant for various individual City projects. Consultant shall provide all labor, materials, permits, equipment, transportation and supervision necessary for the provision of professional engineering services to the City under this Agreement unless otherwise agreed to in writing by City.

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

A. The scope of work to be performed by Consultant pursuant to task work orders issued under this Agreement may consist of, but will not necessarily be limited to, providing general and customary engineering services for City projects for studies, design, plans production, construction management, development plan review, and other miscellaneous engineering projects.
B. Task work orders shall, by mutual agreement of the parties, set forth the: (1) scope of services for the individual project; (2) time for performance; (3) method and amount of compensation; (4) items to be provided to the City (the "Deliverables"); (5) material information regarding the services; (6) data that must be provided by the City to Consultant; and (6) name and contact information for the City's Project Manager for the individual project.
C. City does not guarantee, warrant, or represent that any certain number of projects or any particular type of project will be assigned to Consultant under the terms of this Agreement.
D. The purpose of this Agreement is not to authorize a specific project, but rather to set forth certain duties, obligations, rights, and responsibilities that may be incorporated by reference into any subsequently issued task work order mutually agreed to by City and Consultant.
E. City shall have no obligation to reimburse Consultant for services rendered outside of the scope of any task work order unless and until City has given written approval of the work and the reimbursement.
F. City shall have the sole discretion to select the projects, if any, that may be given to the Consultant.
G. City reserves the right to approve or disapprove the use of any subconsultant for its projects.
H. Consultant shall perform all Services in accordance with the terms and conditions of this Contract and with any and all applicable regulations and requirements of all interested governmental agencies.
I. Consultant shall utilize sufficient qualified personnel acceptable to the City to perform any and all services under this Agreement and any task work order issued hereunder. Consultant shall promptly remove any person from performing services as the City may request in writing and promptly replace such person with a person who shall be approved in writing by the City. Consultant agrees to include a similar provision in its agreements with any and all subconsultants.
J. **Standard of Care.** Consultant shall perform all Services in a timely, efficient, and cost-effective manner and in a manner that comports with the standards of professional engineering services ordinarily exercised by reputable members of Consultant's profession. Consultant shall re-perform any services which fail to satisfy the foregoing standard of care at no additional cost to City. Consultant's standard of care shall not be altered by the application, interpretation, or construction of any other provision of this Agreement.

4. **CONTRACT TERM.** The term of this Agreement shall commence and continue in full force for a period of **FIVE (5) YEARS** beginning on **OCTOBER 1, 2020** and ending on **SEPTEMBER 30, 2025** (the "Initial Term"). This Agreement may be renewed for no more than **TWO (2)** consecutive **ONE (1) YEAR** terms upon the mutual written consent of both parties, unless terminated earlier by either party pursuant to the terms of this Agreement.
5. **COMPENSATION.** City shall compensate the Consultant an amount not to exceed **THREE HUNDRED THOUSAND AND NO/100 DOLLARS ($300,000)** (the "Maximum Limiting Amount") during the Initial Term, inclusive of any and all direct costs, indirect costs, and reimbursable expenses, in accordance with the pricing reflected in **Exhibit A – Consultant Loaded Rate Sheet** and the terms of this Agreement. The maximum limiting amount established under this

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

Agreement shall not be exceeded without the City's express written approval verified by amendment or change order to this Agreement.

A. It is expressly understood that Consultant is not entitled to the total amount of Compensation referenced above. Rather, Compensation shall be based on satisfactory completion and delivery of all work product and deliverables identified in the scope of work for each individual task work order up to the maximum limiting amount established herein.

B. For services rendered by Consultant pursuant to individual task work orders issued under this Agreement, City shall pay Consultant in accordance with the amounts set forth in **Exhibit A – Consultant Loaded Rate Sheet**.

C. Compensation due may be calculated as (1) a lump sum amount; or (2) a guaranteed maximum price based on per diem or hourly rates set forth in **Exhibit A – Consultant Loaded Rate Sheet**, which shall not be exceeded unless agreed to in a writing executed by both parties.

D. Consultant shall submit invoices on a monthly basis to the City Project Manager identified on the related task work order for those services satisfactorily performed and materials satisfactorily delivered. By submitting its invoice, Consultant certifies to City that: (1) Consultant has billed City for all services rendered by it and any of its consultants or subconsultants through the date of the invoice; (2) any reimbursable expenses present on the face of the invoice, if allowed, have been reasonably incurred by Consultant; and (3) the amount requested by Consultant is currently due and owing.

E. Consultant invoices shall be sufficiently detailed and adequately describe the work accomplished in accordance with the related task work order. All invoices, reports, and other documentation submitted by Consultant shall include the City Contract Number, invoice date, and an assigned invoice number. City reserves the right to request additional documentation to support the charges reflected. All completed tasks must be approved and agreed upon by the City Project Manager before payment will be authorized.

F. **Prompt Payment.** Monthly actual payment reporting requirements for prime consultants and subconsultants are based on prompt payment rules and laws. The same holds true for return of retainage after the subcontractor has completed its work, not when the overall project is finished. Florida law requires timely payment for both construction and non-construction services. Generally, invoices for construction contracts must be paid within **TWENTY-FIVE (25) DAYS** of receipt. Invoices for consultant contracts are payable per the terms of this Agreement, but shall not exceed federal regulations as set forth in 49 CFR Part 26, specifically section 26.29, requiring payment of all subcontractors for satisfactory performance within **THIRTY (30) DAYS** of payment to the Prime.

G. **Excess Funds.** If due to mistake or any other reason Consultant receives payment under this Agreement in excess of what is invoiced and/or provided for under the terms of this Agreement or any related task work order, Consultant shall promptly notify City upon discovery of the receipt of the overpayment. Any overpayment shall be refunded to City within **THIRTY (30) DAYS** of Consultant's receipt of the overpayment or must also include interest calculated from the date of the overpayment at the interest rate for judgment at the highest rate allowed by law.

H. **Tax Exemption.** City is exempt from all federal excise and state sales taxes (State of Florida Consumer's Certification of Exemption 85-8012621655C-9). The City's Employer Identification Number is 59-60000392. Consultant shall not be exempted from paying sales tax to its suppliers for services or material required to fulfill Consultant's contractual obligations with

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

the City, nor will Consultant be authorized to use City's Tax Exemption Number for securing materials listed herein

6. **FORCE MAJEURE**. Neither party shall be liable for delay, damage, or failure in the performance of any obligation under this Agreement if such delay, damage, or failure is due to causes beyond its reasonable control, including without limitation: fire, flood, strikes and labor disputes, acts of war, acts of nature, terrorism, civil unrest, acts or delays in acting of the government of the United States or the several states, judicial orders, decrees or restrictions, or any other like reason which is beyond the control of the respective party (each a "Force Majeure" event). The party affected by any event of force majeure shall use reasonable efforts to remedy, remove, or mitigate such event and the effects thereof with all reasonable dispatch.
   A. The party affected by a force majeure event shall provide the other party with full particulars thereof including, but not limited to, the nature, details, and expected duration thereof as soon as it becomes aware.
   B. When force majeure circumstances arise, the parties shall negotiate in good faith any modifications to the terms of this Agreement and/or any related task work order that may be necessary or appropriate in order to arrive at an equitable solution.
   C. Consultant performance shall be extended for a number of days equal to the duration of the force majeure event. Consultant shall be entitled to an extension of time only and, in no event, shall Consultant be entitled to any increased costs, additional compensation, or damages of any type resulting from such force majeure delays.
7. **TERMINATION**. This Agreement may be terminated by either party for cause upon City or Consultant providing written notice to the defaulting party not less than **THIRTY (30) DAYS** prior to the date of termination in the manner specified for the giving of Notices herein. Any such termination shall not affect the rights or obligations accruing to either party under any previously issued and approved Task Work Order.
   A. **Contractor's Opportunity to Cure Default**. City may, in its sole discretion, provide Contractor with an opportunity to cure the violations set forth in City's notice of default to Contractor. Contractor shall commence to cure the violations immediately and shall diligently and continuously prosecute such cure to completion within a reasonable time as determined by City. If the violations are not corrected within the time determined to be reasonable by City or to the reasonable satisfaction of City, City may, without further notice, declare Contractor to be in breach of this Agreement and pursue all remedies available at law or equity, to include termination of this Agreement without further notice.
   B. **City's Remedies Upon Consultant Default**. In the event of Consultant default under this Agreement City shall have the right, at City's option, to pursue any and all remedies available at law or equity, including, without limitation, the right to:
      (1) terminate this Agreement without further notice;
      (2) hire another consultant to complete the required work in accordance with the needs of City;
      (3) recover from Consultant all damages, costs, and attorneys' fees arising from Consultant's default prior to termination; and
      (4) recover from Consultant any actual excess costs by: (i) deduction from any unpaid balances owed to Consultant; or (ii) any other remedy as provided by law.
   C. **Termination for Convenience**. City reserves the right to terminate this Agreement in whole or in part at any time for the convenience of City without penalty or recourse. Upon receipt of the City's Notice of Termination, Consultant shall immediately discontinue all work as directed in the Notice, provide notice to all subconsultants of the effective date of the

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

termination, and minimize all further costs to City including, but not limited to, the placing of any and all orders for materials, facilities, or supplies, in connection with its performance under this Agreement. Consultant shall be entitled to receive compensation solely for: (1) the actual cost of the work completed in conformity with this Agreement; and/or (2) such other costs incurred by Consultant as permitted under this Agreement and approved by City.

D. **Delivery of Materials Upon Termination**. In the event of termination of this Agreement (or any task work order issued hereunder), for any reason prior to Consultant's satisfactory completion of all services, Consultant agrees to promptly provide to City, at no additional cost or expense, one (1) copy of any and all of the following items which may have been produced or created prior to and including the date of termination to City: data, specifications, calculations, estimates, plans, drawings, construction documents, photographs, summaries, reports, memoranda, and any other information, instrument, or materials (whether or not completed) that were generated or prepared by Consultant in rendering the Services described herein and not previously furnished to City by Consultant pursuant to this Agreement or associated task work order.

8. **PERFORMANCE EVALUATION**. At the end of the contract, City may evaluate Consultant's performance. Any such evaluation will become public record.
9. **CONTRACT FULFILLMENT.** Consultants who enter into any agreement with the City of Ocala and fail to complete the contract term, for any reason, may be subject to future bidding suspension for **ONE (1) YEAR**, and up to a possible **THREE (3) YEAR** bid debarment for serious contract failures.
10. **COMMERCIAL AUTO LIABILITY INSURANCE.** Consultant shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial auto liability insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury and property damage arising out of Consultant's operations and covering all owned, hired, scheduled, and non-owned automobiles utilized in said operations. If Consultant does not own vehicles, Consultant shall maintain coverage for hired and non-owned automobile liability, which may be satisfied by way of endorsement to Consultant's Commercial General Liability policy or separate Commercial Automobile Liability policy.
11. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Consultant shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement a policy of commercial general liability insurance with limits not less than:

    A. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for bodily injury, property damage, and personal and advertising injury;
    B. One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) aggregate (or project aggregate, if a construction project) for products and completed operations;
    C. Policy must include coverage for contractual liability and independent contractors;
    D. The City, a Florida municipal corporation, and its officials, employees, and volunteers are to be covered as an additional insured with a CG 20 26 04 13 Additional Insured – Designated Person or Organization Endorsement or similar endorsement providing equal or broader Additional Insured Coverage with respect to liabilities arising out of activities performed by or on behalf of Consultant. This coverage shall contain no special limitation on the scope of protection to be afforded to the City, its officials, employees, and volunteers.

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

12. **WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY COVERAGE.** Consultant shall procure, maintain, and keep in full force, effect, and good standing for the life of this Agreement adequate workers' compensation and employer's liability insurance covering all of its employees in at least such amounts as required by Chapter 440, Florida Statutes, and all other state and federal workers' compensation laws, including the U.S. Longshore Harbor Workers' Act and the Jones Act, if applicable. Contractor shall similarly require any and all of its subcontractors to afford such coverage for all of its employees as required by applicable law. Consultant shall waive and shall ensure that Consultant's insurance carrier waives, all subrogation rights against the City of Ocala and its officers, employees, and volunteers for all losses or damages. Consultant's policy shall be endorsed with WC 00 03 13 Waiver of our Right to Recover from Others or its equivalent. **Exceptions and exemptions to this Section may be allowed at the discretion of the City's Risk Manager on a case-by-case basis in accordance with Florida Statutes and shall be evidenced by a separate waiver.**
13. **PROFESSIONAL LIABILITY AND/OR ERRORS AND OMISSIONS INSURANCE COVERAGE.** Consultant shall procure, maintain, and keep in full force, effect, and good standing - until the third anniversary of the expiration of this Agreement or the third anniversary of acceptance of work by City - professional liability or errors and omissions insurance coverage for wrongful acts in an amount not less than One Million Dollars ($1,000,000) per claim and Two Million Dollars ($2,000,000) aggregate, exclusive of defense costs. It is recognized that this type of insurance is only available on a claims-made basis and additional insured endorsements are not available.
14. **MISCELLANEOUS INSURANCE PROVISIONS**.

    A. Consultant's insurance coverage shall be primary insurance for all applicable policies. The limits of coverage under each policy maintained by Consultant shall not be interpreted as limiting Consultant's liability or obligations under this Agreement. City does not in any way represent that these types or amounts of insurance are sufficient or adequate enough to protect Consultant's interests or liabilities or to protect Consultant from claims that may arise out of or result from the negligent acts, errors, or omissions of Consultant, any of its agents or subconsultants, or for anyone whose negligent act(s) Consultant may be liable.
    B. No insurance shall be provided by the City for Consultant under this Agreement and Consultant shall be fully and solely responsible for any costs or expenses incurred as a result of a coverage deductible, co-insurance penalty, or self-insured retention to include any loss not covered because of the operation of such deductible, co-insurance penalty, self-insured retention, or coverage exclusion or limitation.
    C. Certificates of Insurance. No work shall be commenced by Consultant under this Agreement until the required Certificate of Insurance and endorsements have been provided nor shall Consultant allow any subconsultant to commence work until all similarly required certificates and endorsements of the subconsultant have also been provided. Work shall not continue after expiration (or cancellation) of the Certificate of Insurance and work shall not resume until a new Certificate of Insurance has been provided. **Consultant shall provide evidence of insurance in the form of a valid Certificate of Insurance (binders are unacceptable) prior to the start of work contemplated under this Agreement to: City of Ocala. Attention: Procurement & Contracting Department, Address: 110 SE Watula Avenue, Third Floor, Ocala Florida 34471, E-Mail: vendors@ocalafl.org.** Consultant's Certificate of Insurance and required endorsements shall be issued by an agency authorized to do business in the State of Florida with an A.M. Best Rating of A or better. The Certificate of Insurance shall indicate whether coverage is being provided under a claims-made or occurrence form. If any coverage is provided on a claims-made form, the Certificate of Ins

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

urance must show a retroactive date, which shall be the effective date of the initial contract or prior.

D. City as an Additional Insured. The City of Ocala shall be named as an Additional Insured and Certificate Holder on all liability policies identified in this Section with the exception of Workers' Compensation and Professional Liability policies.

E. Notice of Cancellation of Insurance. Consultant's Certificate of Insurance shall provide **THIRTY (30) DAY** notice of cancellation, **TEN (10) DAY** notice if cancellation is for non-payment of premium. In the vent that Consultant's insurer is unable to accommodate the cancellation notice requirement, it shall be the responsibility of Consultant to provide the proper notice. Such notification shall be in writing by registered mail, return receipt requested, and addressed to the certificate holder. Additional copies may be sent to the City of Ocala at vendors@ocalafl.org.

F. Certificates of Insurance, accompanied by copies of all endorsements required by this section, that are issued by an agency authorized to do business in the State of Florida and with an A.M. Best rating* of at least an A, showing the "City of Ocala, 110 SE Watula Avenue, Ocala, FL 34471" as an additional insured and certificate holder for General Liability and Commercial Automobile Liability insurance. Original and renewal certificates must be forwarded to the **City of Ocala Contracting Department, Third Floor, 110 SE Watula Avenue, Ocala, FL 34471, E-Mail: vendors@ocalafl.org** prior to the policy expiration.

G. Failure to Maintain Coverage. The insurance policies and coverages set forth above are required and providing proof of and maintaining insurance of the types and with such terms and limits set forth above is a material obligation of Consultant. Consultant's failure to obtain or maintain in full force and effect any insurance coverage required under this Agreement shall constitute material breach of this Agreement.

H. Severability of Interests. Consultant shall arrange for its liability insurance to include, or be endorsed to include, a severability of interests/cross-liability provision so that the "City of Ocala" (where named as an additional insured) will be treated as if a separate policy were in existence, but without increasing the policy limits.

16. **NO EXCLUSIVITY.** It is expressly understood and agreed by the parties that this is not an exclusive agreement. Nothing in this Agreement shall be construed as creating any exclusive arrangement with Consultant or as prohibiting the City from acquiring similar, equal, or like goods and/or services or from executing additional contracts with other entities or sources.

17. **PUBLIC RECORDS.** The Consultant shall comply with all applicable provisions of the Florida Public Records Act, Chapter 119, Florida Statutes. Specifically, the Consultant shall:

A. Keep and maintain public records required by the public agency to perform the service.

B. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Consultant does not transfer the records to the public agency.

D. Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Consultant or keep and maintain public records required by the public agency to perform the service. If the Consultant transfers all public records to the public agency upon completion of the contract, the Consultant shall destroy any duplicate public

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of the contract, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

E. A contractor who fails to provide public records to City within a reasonable time may be subject to penalties under section 119.10, Florida Statutes.

IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT: CITY OF OCALA, OFFICE OF THE CITY CLERK, 110 SE WATULA AVENUE, OCALA FLORIDA 34471; TELEPHONE: 352-629-8266; E-MAIL: clerk@ocalafl.org.

17. **AUDIT.** Consultant agrees to maintain such financial and other records as may be prescribed by the City or by applicable federal and state laws, rules, and regulations. Consultant shall comply and cooperate immediately with any inspections, reviews, investigations, or audits relating to this Agreement as deemed necessary by the Florida Office of the Inspector General, the City's Internal or External auditors or by any other Florida official with proper authority.
18. **PUBLICITY.** Consultant shall not use City's name, logo, seal or other likeness in any press release, marketing materials, or other public announcement without City's prior written approval.
19. **PUBLIC ENTITY CRIMES.** As provided in Section 287.133(2)(a), Florida Statutes, a person or affiliate who has been placed on the convicted vendor list following a conviction for public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or Consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO, for a period of 36 months from the date of being placed on the convicted vendor list.
20. **DRUG FREE WORKPLACE CERTIFICATION.** If not already completed during the solicitation process, in compliance with section 287.087, Florida Statutes, Consultant shall, prior to the commencement of work under this Agreement, execute the City's Drug Free Workplace Certification and it shall thereafter be deemed to be included as part of this Agreement.
21. **NON-DISCRIMINATORY PRACTICES.** Consultant, for itself, its delegates, successors-in-interest, and assigns, and as part of the consideration hereof, does hereby covenant and agree that in the furnishing of Services to the City under this Agreement, no person shall be excluded from participation in, denied the benefits of, or otherwise subjected to discrimination in regard to this Agreement on the basis of race, color, religion ancestry, national origin, sex, pregnancy, age, disability, sexual orientation, gender identity, marital or domestic partner status, familial status, or veteran status. Consultant further covenants and agrees that it shall comply with all existing requirements concerning discrimination imposed by any and all applicable local, state, and federal rules, regulations, or guidelines and as such rules, regulations, or guidelines may from time to time be amended.

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

22. **E-VERIFY.** Pursuant to section 448.095, Consultant shall register with and use the U.S. Department of Homeland Security's ("DHS") E-Verify System, accessible at https://e-verify.uscis.gov/emp, to verify the work authorization status of all newly hired employees. Consultant shall obtain affidavits from any and all subcontractors in accordance with paragraph 2(b) of section 448.095, Florida Statutes, and maintain copies of such affidavits for the duration of this Agreement. By entering into this Agreement, Consultant certifies and ensures that it utilizes and will continue to utilize the DHS E-Verify System for the duration of this Agreement and any subsequent renewals of same. Consultant understands that failure to comply with the requirements of this section shall result in the termination of this Agreement and Consultant may lose the ability to be awarded a public contract for a minimum of one (1) year after the date on which the Agreement was terminated. Consultant shall provide a copy of its DHS Memorandum of Understanding upon City's request. Please visit www.e-verify.gov for more information regarding the E-Verify System.
23. **INDEPENDENT CONTRACTOR STATUS**. City expressly acknowledges Consultant is an independent contractor, and nothing in this Agreement is intended nor shall be construed to create an agency relationship, an employer/employee relationship, a joint venture relationship, or any other relationship allowing the City to exercise control or discretion over the manner or method by which Consultant performs hereunder.
24. **WAIVER.** The failure or delay of any party at any time to require performance by another party of any provision of this Agreement, even if known, shall not affect the right of such party to require performance of that provision or to exercise any right, power or remedy hereunder. Any waiver by any party of any breach of any provision of this Agreement should not be construed as a waiver of any continuing or succeeding breach of such provision, a waiver of the provision itself, or a waiver of any right, power or remedy under this Agreement. No notice to or demand on any party in any circumstance shall, of itself, entitle such party to any other or further notice or demand in similar or other circumstances**.**
25. **SEVERABILITY OF ILLEGAL PROVISIONS.** Wherever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under the applicable law. Should any portion of this Agreement be declared invalid for any reason, such declaration shall have no effect upon the remaining portions of this Agreement.
26. **INDEMNITY.** Consultant shall indemnify City and its elected officials, employees and volunteers against, and hold City and its elected officials, employees and volunteers harmless from damages, claims, losses, costs, and expenses, including attorneys' fees, which City or its elected officials, employees or volunteers may sustain, or which may be asserted against City or its elected officials, employees or volunteers, arising out of negligent errors, acts, or omissions by Consultant and contemplated by this Agreement to the extent allowed by section 725.08, Florida Statutes, and to the extent that the services rendered pursuant to the Agreement were services of a "Design Professional" as defined in section 725.08(4), Florida Statute, including without limitation, harm or personal injury to third persons during the term of this Agreement.
27. **NO WAIVER OF SOVEREIGN IMMUNITY.** Nothing herein is intended to waive sovereign immunity by the City to which sovereign immunity may be applicable, or of any rights or limits of liability existing under Florida Statute § 768.28. This term shall survive the termination of all performance or obligations under this Agreement and shall be fully binding until any proceeding brought under this Agreement is barred by any applicable statute of limitations.
28. **NOTICES.** All notices required or permitted under this Agreement shall be given in writing and shall be deemed sufficiently served if delivered by registered or certified mail, with return receipt requested; or delivered personally; or delivered via electronic mail (as provided below) and

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

followed with delivery of a hard copy. All notices shall be addressed to the respective parties as follows:

If to Consultant:	Black & Veatch Corporation Rasesh Shah, P.E. 1201 South Orange Avenue Orlando, Florida 32801 Phone: 407-419-3562 Email: **Shahrr@BV.com**
If to City of Ocala:	Daphne M. Robinson, Esq. - Contracting Officer City of Ocala 110 SE Watula Avenue, 3rd Floor Ocala, Florida 34471 Phone: 352-629-8343 Fax: 352-690-2025 Email: notices@ocalafl.org
Copy to:	Robert W. Batsel, Jr., Esq. Gooding & Batsel, PLLC 1531 S.E. 36th Ave. Ocala, Florida 34471 Phone: 352-579-6536 Email: rbatsel@lawyersocala.com

29. **ATTORNEYS FEES.** If any civil action, arbitration or other legal proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of this Agreement, the successful or prevailing party shall be entitled to recover reasonable attorneys' fees, sales and use taxes, court costs and all expenses even if not taxable as court costs (including, without limitation, all such fees, taxes, costs and expenses incident to arbitration, appellate, bankruptcy and post-judgment proceedings), incurred in that civil action, arbitration or legal proceeding, in addition to any other relief to which such party or parties may be entitled. Attorneys' fees shall include, without limitation, paralegal fees, investigative fees, administrative costs, sales and use taxes and all other charges billed by the attorney to the prevailing party.
30. **JURY WAIVER.** IN ANY CIVIL ACTION, COUNTERCLAIM, OR PROCEEDING, WHETHER AT LAW OR IN EQUITY, WHICH ARISES OUT OF, CONCERNS, OR RELATES TO THIS AGREEMENT, ANY AND ALL TRANSACTIONS CONTEMPLATED HEREUNDER, THE PERFORMANCE HEREOF, OR THE RELATIONSHIP CREATED HEREBY, WHETHER SOUNDING IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, TRIAL SHALL BE TO A COURT OF COMPETENT JURISDICTION AND NOT TO A JURY. EACH PARTY HEREBY IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY. NEITHER PARTY HAS MADE OR RELIED UPON ANY ORAL REPRESENTATIONS TO OR BY ANY OTHER PARTY REGARDING THE ENFORCEABILITY OF THIS PROVISION. EACH PARTY HAS READ AND UNDERSTANDS THE EFFECT OF THIS JURY WAIVER PROVISION.

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

31. **GOVERNING LAW**. This Agreement is and shall be deemed to be a contract entered and made pursuant to the laws of the State of Florida and shall in all respects be governed, construed, applied and enforced in accordance with the laws of the State of Florida.
32. **JURISDICTION AND VENUE.** The parties acknowledge that a majority of the negotiations, anticipated performance and execution of this Agreement occurred or shall occur in Marion County, Florida. Any civil action or legal proceeding arising out of or relating to this Agreement shall be brought only in the courts of record of the State of Florida in Marion County or the United States District Court, Middle District of Florida, Ocala Division. Each party consents to the exclusive jurisdiction of such court in any such civil action or legal proceeding and waives any objection to the laying of venue of any such civil action or legal proceeding in such court and/or the right to bring an action or proceeding in any other court. Service of any court paper may be effected on such party by mail, as provided in this Agreement, or in such other manner as may be provided under applicable laws, rules of procedures or local rules.
33. **REFERENCE TO PARTIES.** Each reference herein to the parties shall be deemed to include their successors, assigns, heirs, administrators, and legal representatives, all who shall be bound by the provisions hereof.
34. **SECTION HEADINGS.** The section headings herein are included for convenience only and shall not be deemed to be a part of this Agreement.
35. **RIGHTS OF THIRD PARTIES.** Nothing in this Agreement, whether express or implied, is intended to confer any rights or remedies under or by reason of this Agreement on any persons other than the parties hereto and their respective legal representatives, successors and permitted assigns. Nothing in this Agreement is intended to relieve or discharge the obligation or liability of any third persons to any party to this Agreement, nor shall any provision give any third persons any right of subrogation or action over or against any party to this Agreement.
36. **AMENDMENT**. No amendment to this Agreement shall be effective except those agreed to in writing and signed by both of the parties to this Agreement.
37. **COUNTERPARTS.** This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument.
38. **ELECTRONIC SIGNATURE(S)**. Consultant, if and by offering an electronic signature in any form whatsoever, will accept and agree to be bound by said electronic signature to all terms and conditions of this agreement. Further, a duplicate or copy of the agreement that contains a duplicated or non-original signature will be treated the same as an original, signed copy of this original agreement for all purposes.
39. **ENTIRE AGREEMENT.** This Agreement, including those documents referenced in the Contract Documents section of this Agreement, constitute the entire Agreement between the parties hereto with respect to the subject matter hereof. There are no other representations, warranties, promises, agreements or understandings, oral, written or implied, among the Parties, except to the extent reference is made thereto in this Agreement. No course of prior dealings between the parties and no usage of trade shall be relevant or admissible to supplement, explain, or vary any of the terms of this agreement. Acceptance of, or acquiescence in, a course of performance rendered under this or any prior agreement shall not be relevant or admissible to determine the meaning of this Agreement even though the accepting or acquiescing party has knowledge of the nature of the performance and opportunity to make objection. No representations, understandings, or agreements have been made or relied upon in the making of this Agreement other than those specifically set forth herein.

Doc ID: b04fd56e27eaff34d07c9985d1aa2d30b153c758

40. **LEGAL AUTHORITY**. Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement on 09 / 25 / 2022.

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Approve Grant Agreement 25PLN17 with the Florida Department of Environmental Protection for the completion of an Adaptation Plan consistent with the Florida Adaptation Planning Guidebook in the amount of $300,000

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place.

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The City of Ocala (City) currently operates stormwater management facilities and programs within the incorporated City limits. To address flood protection for its residents, the City seeks to identify and address critical issues through the creation and implementation of a Stormwater Master Plan (SWMP). The SWMP will address these needs by identifying limits of flooding during the various design storm events based on the most up-to-date development information and topographic data.

The SWMP will be based on an existing conditions stormwater model and associated data developed as part of the Vulnerability Assessment (VA) currently in progress as a separate project performed under Kimley-Horn and Associates, Inc (Kimley-Horn) Task Work Order (TWO) No.37, and partially funded by Florida Department of Environmental Protection (FDEP) grant agreement 24PLN40. The SWMP will use the model developed in the VA to analyze the flood impacts to a higher level of detail within the City. The SWMP will also make recommendations for implementation of projects to address and mitigate the flood risk to critical infrastructure identified in the VA.

In June 2024, Kimley-Horn applied on the City's behalf for grant 25PL17 to help fund the proposed cost of $462,170.11 for the development of the SWMP from the VA, as shown in TWO No.51 from Kimley-Horn and Associates.

FINDINGS AND CONCLUSIONS:

FDEP grant agreement 25PLN17 will provide partial funding to complete an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook, which will be used for the creation and implementation of a Stormwater Master Plan (SWMP) for City of Ocala. Staff recommends approval.

FISCAL IMPACT:
Funding for this grant will be appropriated into account 158-050-396-538-53-31010 in the amount of $300,000. A budget resolution is provided on the same agenda to appropriate the grant funding.

PROCUREMENT REVIEW:
This Standard Grant Agreement has been reviewed by the Procurement and Contracting Officer in compliance with City policy.

LEGAL REVIEW:
This Agreement will be reviewed and approved for form and legality by City Attorney, William E. Sexton.

ALTERNATIVE:

- Approve with Changes
- Table
- Deny

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Standard Grant Agreement

This Agreement is entered into between the Parties named below, pursuant to section 215.971, Florida Statutes:

1. Project Title (Project): City of Ocala Adaptation Plan

Agreement Number: 25PLN17

2. Parties **State of Florida Department of Environmental Protection, 3900 Commonwealth Boulevard Tallahassee, Florida 32399-3000** (Department)

Grantee Name: City of Ocala

Entity Type: Local Government

Grantee Address: 110 SE Watula Avenue Ocala, Florida 34471

FEID: 59-6000392

(Grantee)

3. Agreement Begin Date: 7/1/2024

Date of Expiration: 6/30/2027

4. Project Number: *(If different from Agreement Number)*

Project Location(s): Marion County, Florida

Project Description: The project will complete an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook. The Project will include public outreach and stakeholder engagement.

5. Total Amount of Funding: $300,000.00

Funding Source?	Award #s or Line-Item Appropriations:	Amount per Source(s):
☑ State ☐ Federal	FY 24-25 GAA Line Item #1854	$ 300,000.00
☐ State ☐ Federal		$
☐ State ☐ Federal		$
☐ Grantee Match		$
	Total Amount of Funding + Grantee Match, if any:	$ 300,000.00

6. Department's Grant Manager

Name: George Begley or successor

Address: Resilient Florida Program
3900 Commonwealth Boulevard, MS230
Tallahassee, Florida 32399

Phone: 850-245-8020

Email: George.Begley@FloridaDEP.gov

Grantee's Grant Manager

Name: Sean Lanier or successor

Address: City of Ocala
1805 NE 30th Ave, Bldg 600
Ocala, Florida 34470

Phone: 352-351-6772

Email: SLanier@OcalaFL.gov

7. The Parties agree to comply with the terms and conditions of the following attachments and exhibits which are hereby incorporated by reference:

☑ Attachment 1: Standard Terms and Conditions Applicable to All Grants Agreements
☑ Attachment 2: Special Terms and Conditions
☑ Attachment 3: Grant Work Plan
☑ Attachment 4: Public Records Requirements
☑ Attachment 5: Special Audit Requirements
☑ Attachment 6: Program-Specific Requirements
☐ Attachment 7: Grant Award Terms (Federal) *Copy available at https://facts.fldfs.com, in accordance with section 215.985, F.S.
☐ Attachment 8: Federal Regulations and Terms (Federal)
☐ Additional Attachments (if necessary):
☑ Exhibit A: Progress Report Form
☐ Exhibit B: Property Reporting Form
☑ Exhibit C: Payment Request Summary Form
☐ Exhibit D: Quality Assurance Requirements
☐ Exhibit E: Advance Payment Terms and Interest Earned Memo
☑ Exhibit J: Common Carrier or Contracted Carrier Attestation Form PUR1808

☑ Additional Exhibits (if necessary): Exhibit F: Final Project Report, Exhibit G: Photographer Release Form, Exhibit H: Contractual Services Certification

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Invoice reduction

If Grantee does not meet a deadline for any deliverable, the Department will reduce the invoice by 1% for each day the deadline is missed, unless an extension is approved in writing by the Department.

c. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

   i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

   ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department

does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/state-agencies/reference-guide-for-state-expenditures.pdf.

e. Rural Communities and Rural Areas of Opportunity. If Grantee is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" (RAO) as defined in subsection 288.0656(2), F.S., such Grantee may request from the Department that all invoice payments under this Agreement be directed to the relevant county or municipality or to the RAO itself. The Department will agree to Grantee's request if:

i. Grantee demonstrates that it is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" under subsection 288.0656(2), F.S.;

ii. Grantee demonstrates current financial hardship using one (1) or more of the "economic distress" factors defined in subsection 288.0656(2)(c), F.S.;

iii. Grantee's performance has been verified by the Department, which has determined that Grantee is eligible for invoice payments and that Grantee's performance has been completed in accordance with this Agreement's terms and conditions; and

iv. Applicable federal and state law(s), rule(s) and regulation(s) allow for such payments.

This subsection may not be construed to alter or limit any other applicable provisions of federal or state law, rule, or regulation. A current list of Florida's designated RAOs can be accessed at the following web address: https://floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity.

f. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

g. State Funds Documentation. Pursuant to section 216.1366, F.S., if Contractor meets the definition of a non-profit organization under section 215.97(2)(m), F.S., Contractor must provide the Department with documentation that indicates the amount of state funds:

i. Allocated to be used during the full term of the contract or agreement for remuneration to any member of the board of directors or an officer of Contractor.

ii. Allocated under each payment by the public agency to be used for remuneration of any member of the board of directors or an officer of the Contractor.

The documentation must indicate the amounts and recipients of the remuneration. Such information must be posted on the State's the contract tracking system and maintained pursuant to section 215.985, F.S., and must be posted on the Contractor's website, if Contractor maintains a website.

h. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

i. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

j. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

k. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: https://www.myfloridacfo.com/division/aa/local-governments/judgement-interest-rates.

l. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. For grants funded with federal funds, nonconsumable and/or nonexpendable personal property or equipment costing $10,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in 2 CFR 200. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.

i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-

price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.

ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with section 112.061, F.S.

e. Direct Purchase Equipment. For grants funded fully or in part with state funds, equipment is defined as capital outlay costing $5,000 or more. For grants funded fully with federal funds, equipment is defined as capital outlay costing $10,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform

that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.

d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.

e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant

Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first

arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Development, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.

b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.

c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.

d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Build America, Buy America Act (BABA) - Infrastructure Projects with Federal Funding.
This provision does not apply to Agreements that are wholly funded by Coronavirus State and Local Fiscal Recovery Funds under the American Rescue Plan Act. Also, this provision does not apply where

there is a valid waiver in place. However, the provision may apply to funds expended before the waiver or after expiration of the waiver.

If applicable, Recipients or Subrecipients of an award of Federal financial assistance from a program for infrastructure are required to comply with the Build America, Buy America Act (BABA), including the following provisions:

a. All iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

b. All manufactured products used in the project are produced in the United States-this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and

c. All construction materials are manufactured in the United States-this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

25. Investing in America

Grantees of an award for construction projects in whole or in part by the Bipartisan Infrastructure Law or the Inflation Reduction Act, including the following provision:

a. Signage Requirements

a. Investing in America Emblem: The recipient will ensure that a sign is placed at construction sites supported in whole or in part by this award displaying the official Investing in America emblem and must identify the project as a "project funded by President Biden's Bipartisan Infrastructure Law" or "project funded by President Biden's Inflation Reduction Act" as applicable. The sign must be placed at construction sites in an easily visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period.

The recipient will ensure compliance with the guidelines and design specifications provided by EPA for using the official Investing in America emblem available at: https://www.epa.gov/invest/investing-america-signage.

b. Procuring Signs: Consistent with section 6002 of RCRA, 42 U.S.C. 6962, and 2 CFR 200.323, recipients are encouraged to use recycled or recovered materials when procuring signs. Signage costs are considered an allowable cost under this assistance agreement provided that the costs associated with signage are reasonable. Additionally, to increase public awareness of projects serving communities where English is not the predominant language, recipients are encouraged to translate the language on signs (excluding the official Investing in America emblem or EPA logo or seal) into the appropriate non-English language(s). The costs of such translation are allowable, provided the costs are reasonable.

26. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.

b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in section 287.135, F.S. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized

Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

c. As provided in subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions, then they shall become inoperative.

27. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to section 216.347, F.S., except that pursuant to the requirements of section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with sections 11.062 and 216.347, F.S.

28. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

29. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.

b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:

   i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

   ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,

   iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.331 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect,

general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

30. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

31. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

32. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.
b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.
c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Development at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

33. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee

is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

34. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

35. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

36. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

37. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

38. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

39. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

40. Disclosure of Gifts from Foreign Sources.

If the value of the grant under this Agreement is $100,000 or more, Grantee shall disclose to Department any current or prior interest of, any contract with, or any grant or gift received from a foreign country of concern, as defined in section 286.101, F.S., if such interest, contract, or grant or gift has a value of $50,000 or more and such interest existed at any time or such contract or grant or gift was received or in force at any time during the previous 5 years. Such disclosure shall include the name and mailing address of the disclosing entity, the amount of the contract or grant or gift or the value of the interest disclosed, the applicable foreign country of concern and, if applicable, the date of termination of the contract or interest, the date of receipt of the grant or gift, and the name of the agent or controlled entity that is the source or interest holder. If the disclosure requirement is applicable as described above, then within 1 year before applying for any grant, Grantee must also provide a copy of such disclosure to the Department of Financial Services.

41. Food Commodities.

To the extent authorized by federal law, the Department, its grantees, contractors and subcontractors shall give preference to food commodities grown or produced in this state when purchasing food commodities, including farm products as defined in section 823.14, F.S., of any class, variety, or use thereof in their natural state or as processed by a farm operation or processor for the purpose of marketing such product.

42. Anti-human Trafficking.

If the Grantee is a nongovernmental entity, the Grantee must provide the Department with an affidavit signed by an officer or a representative of the Grantee under penalty of perjury attesting that the Grantee does not use coercion for labor or services as defined in section 787.06, F.S.

43. Iron and Steel for Public Works Projects.

If this Agreement funds a "public works project" as defined in section 255.0993, F.S., or the purchase of materials to be used in a public works project, any iron or steel permanently incorporated in the Project must be "produced in the United States," as defined in section 255.0993, F.S. This requirement does not apply if the Department determines that any of the following circumstances apply to the Project:

(1) iron or steel products produced in the United States are not produced in sufficient quantities, reasonably available, or of satisfactory quality;
(2) the use of iron or steel products produced in the United States will increase the total cost of the project by more than twenty percent (20%); or
(3) complying with this requirement is inconsistent with the public interest.

Further, this requirement does not prevent the Contractor's minimal use of foreign steel and iron materials if:

(1) such materials are incidental or ancillary to the primary product and are not separately identified in the project specifications; and
(2) the "cost" of such materials, as defined in section 255.0993, F.S., does not exceed one-tenth of one percent (1%) of the total Project Cost under this Agreement or $2,500, whichever is greater.

Electrical components, equipment, systems, and appurtenances, including supports, covers, shielding, and other appurtenances related to an electrical system that are necessary for operation or concealment (excepting transmission and distribution poles) are not considered to be iron or steel products and are, therefore, exempt from the requirements of this paragraph.

This provision shall be applied in a manner consistent with and may not be construed to impair the state's obligations under any international agreement.

44. Complete and Accurate information.

Grantee represents and warrants that all statements and information provided to DEP are current, complete, and accurate. This includes all statements and information in this Grant, as well as its Attachments and Exhibits.

45. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. 25PLN17

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is the City of Ocala Adaptation Plan. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement is the same as the term of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods may be added in accordance with 2.a above and are contingent upon proper and satisfactory technical and administrative performance by the Grantee and the availability of funding.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. All insurance policies shall be through insurers licensed and authorized to issue policies in Florida, or alternatively, Grantee may provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Commercial General Liability Insurance.
The Grantee shall provide adequate commercial general liability insurance coverage and hold such liability insurance at all times during the Agreement. The Department, its employees, and officers shall be named as an additional insured on any general liability policies. The minimum limits shall be $250,000 for each occurrence and $500,000 policy aggregate.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The Department, its employees, and officers shall be named as an additional insured on any automobile insurance policy. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation and Employer's Liability Coverage.
The Grantee shall provide workers' compensation, in accordance with Chapter 440, F.S. and employer liability coverage with minimum limits of $100,000 per accident, $100,000 per person, and $500,000 policy aggregate. Such policies shall cover all employees engaged in any work under the Grant.

d. Other Insurance. None.

9. Quality Assurance Requirements.
There are no special Quality Assurance requirements under this Agreement.

10. Retainage.
No retainage is required under this Agreement.

11. Subcontracting.
The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.
The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.
There are no special Office of Policy and Budget reporting requirements for this Agreement.

14. Common Carrier.

a. Applicable to contracts with a common carrier – firm/person/corporation that as a regular business transports people or commodities from place to place. If applicable, Contractor must also fill out and return PUR 1808 before contract execution. If Contractor is a common carrier pursuant to section 908.111(1)(a), Florida Statutes, the Department will terminate this contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808.

b. Applicable to solicitations for a common carrier – Before contract execution, the winning Contractor(s) must fill out and return PUR 1808, and attest that it is not willfully providing any service in furtherance of transporting a person into this state knowing that the person unlawfully present in the United States according to the terms of the federal Immigration and Nationality Act, 8 U.S.C. ss. 1101 et seq. The

Department will terminate a contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808.

15. Financial Assistance and Payment of Invoices to Rural Communities or Rural Areas of Opportunity
This agreement does not provide federal or state financial assistance to a county or municipality that is a rural community or rural area of opportunity as those terms are defined in s. 288.0656(2).

16. Additional Terms.
None.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
GRANT WORK PLAN
AGREEMENT NO. 25PLN17

ATTACHMENT 3

PROJECT TITLE: City of Ocala Adaptation Plan

PROJECT LOCATION: The Project is located in the City of Ocala within Marion County, Florida.

PROJECT DESCRIPTION:
The City of Ocala (Grantee) will complete the City of Ocala Adaptation Plan Project (Project) to include an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook. The Project may include public outreach and stakeholder engagement.

TASKS AND DELIVERABLES:

Task 1: Kick Off Meeting

Description: The Grantee will develop an overall project management plan and address initial actions and then conduct a kick-off meeting for the project. Meeting attendees will discuss the project scope, project goals, schedule, key milestones, and deliverables in order to develop a consistent project approach. The Grantee will prepare the agenda, draft project schedule, presentation, and other meeting materials as necessary.

Deliverables: The Grantee will provide the following:

- **1.1:** Kick-off meeting agenda (including location, date, and time); a copy of the presentation, if applicable, and all materials created for the meeting; and a summary report or meeting minutes that includes the meeting purpose, stakeholder input, and outcomes.

Task 2: Draft Adaptation Needs and Strategies

Description: The Grantee will develop adaptation needs and strategies for inclusion in the AP. The AP will include a table listing the adaptation needs and corresponding recommended strategies for each as well as a map illustrating the critical assets identified as adaptation needs. The AP shall be consistent with the guidelines in the Florida Adaptation Planning Guidebook.

Deliverables: The Grantee will provide the following:

- **2.1:** A draft AP.

Task 3: Community Prioritization of Adaptation Needs

Description: The Grantee will conduct a public meeting to develop a prioritization of adaptation needs for the community. The Grantee will present the draft AP that includes the following: assessment of adaptive capacities, adaptation needs, and identification of adaptation strategies. The purpose of the meeting is to allow the public to provide community-specific input on the identified adaptation needs and strategies as identified in the draft AP as well as an opportunity to prioritize adaptation needs. The Grantee will prepare all social media notifications, meeting invitations, meeting materials, presentations, and graphics utilized during the meeting, as applicable.

Deliverables: The Grantee will provide the following:

- **3.1:** The agenda (including location, date, and time); a copy of the presentation, if applicable, and all materials created for the meeting; and a summary report or meeting minutes that includes the meeting purpose, stakeholder input, and outcomes.

Task 4: Final Adaptation Plan

Description: The Grantee will complete an AP that is consistent with the Florida Adaptation Planning Guidebook. The AP will also include a list of prioritized projects for each asset class as defined in subsection 380.093(2), Florida Statutes, for consideration and implementation.

Deliverables: The Grantee will provide the following:

- **4.1:** A final AP, to include any products or documentation, either within or as appendices or independent sections, resulting from all optional subtasks included in the Task Description.

PERFORMANCE MEASURES: The Grantee will submit all deliverables for each task to ResilientFloridaGrants@FloridaDEP.gov on or before the Task Due Date listed in the Project Timeline. The deliverables for each task must be submitted in chronological order, with the exception of the "Conduct Steering Committee Meetings" and "Peril of Flood Compliance" tasks, if included. Grantees must have received a Deliverable Acceptance Letter from the Department's Grant Manager prior to submitting any subsequent deliverables. The Department's Grant Manager will review the deliverable(s) to verify that they meet the specifications in the Grant Work Plan and the task description, to include any work being performed by any subcontractor(s), and will provide written acceptance or non-acceptance of the deliverable(s) to the Grantee within thirty (30) calendar days. Deliverables that the Department determines are not acceptable must be corrected and resubmitted within thirty (30) calendar days prior to the Agreement's Date of Expiration, and in coordination with the Department's Grant Manager. Tasks may include multiple deliverables to be completed. The Department will accept partial and full deliverables. Incomplete deliverables will not be accepted. A "partial deliverable" is defined as a deliverable consisting of one (1) or more (but not all) subcomponents listed in the deliverable list for a single task, where such subcomponent(s) are delivered to the Department at one hundred percent (100%) completion. A "full deliverable" is defined as a deliverable comprising all subcomponents listed in the deliverable list for a single task, all delivered to the Department at one hundred percent (100%) completion. An "incomplete deliverable" is defined as a deliverable for which one hundred percent (100%) completion has not been achieved for any of the subcomponents listed in the deliverable list for a single task. A task is considered one hundred percent (100%) complete upon the Department's receipt and approval of all deliverable(s) listed within the task and the Department's approval provided by the Deliverable Acceptance Letter. All deliverables must be received by the Task Due Date and accepted by the Department on or before the Agreement's Date of Expiration, or the Consequences for Non-Performance set forth herein shall apply.

CONSEQUENCES FOR NON-PERFORMANCE: For each task deliverable not received and accepted by the Department at one hundred percent (100%) completion on or before the Agreement's Date of Expiration, the Department will reduce the relevant Task Funding Amount(s) paid to Grantee in proportion to the percentage of the deliverable(s) not fully completed. For each task deliverable not received by the Department by the specified Task Due Date listed in the Agreement's most recent Project Timeline, the Department will reduce the relevant Task Funding Amount(s) by 5% per calendar day, which will be imposed until the Department has received the task deliverable. The Consequence for Non-Performance will be applied to and included in the relevant task deliverable's payment request.

PAYMENT REQUEST SCHEDULE: Following the Grantee's full or partial completion of a task's deliverable(s) and acceptance by the Department's Grant Manager, the Grantee may submit a payment request for cost reimbursement using the Exhibit C, Payment Request Summary Form. All payment requests must be accompanied by the Deliverable Acceptance Letter; the Exhibit A, Progress Report Form, detailing all progress made in the invoice period; and supporting fiscal documentation including match, if applicable. Interim payments will not be accepted. Payment requests will not be accepted until all required Exhibit A, Progress Report Forms, have been submitted to the Department's Grant Manager for all reporting periods dating back to the Agreement Execution Date. For the reporting period beginning on the Agreement Begin Date and ending on the Agreement Execution Date, submittal of a single Exhibit A, Progress Report Form, covering only this reporting period will be acceptable. Upon the Department's receipt of the aforementioned documents and supporting fiscal documentation, the Department's Grant Manager will have ten (10) working days to review and approve or deny the payment request.

PROJECT TIMELINE AND BUDGET DETAIL: The tasks must be completed by, and all deliverables received by, the corresponding task due date listed in the table below. Cost-reimbursable grant funding must not exceed the budget amounts indicated below. Requests for any change(s) must be submitted prior to the current task due date listed in the Project Timeline. Requests are to be sent via email to the Department's Grant Manager, with the details of the request and the reason for the request made clear.

Task No.	Task Title	DEP Amount	Match Amount	Total Amount	Task Start Date	Task Due Date
1	Kick Off Meeting	$10,731	$0	$10,731	7/1/2024	6/30/2026
2	Draft Adaptation Needs and Strategies	$186,830	$0	$186,830	7/1/2024	9/30/2026
3	Community Prioritization of Adaptation Needs	$61,539	$0	$61,539	7/1/2024	12/31/2026
4	Final Adaptation Plan	$40,900	$0	$40,900	7/1/2024	3/31/2027
	Total:	**$300,000**	**$0**	**$300,000**		

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution and section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $1,000,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $1,000,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $1,000,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from non-federal entities).

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at https://sam.gov/content/assistance-listings.

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and time the reporting package was delivered to the recipient and any correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	State Awarding Agency	State Fiscal Year[1]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category
Original Agreement	Florida Department of Environmental Protection	FY 24.25	37.098	Resilient Florida Programs	$300,000.00	140078
State Program B	State Awarding Agency	State Fiscal Year[2]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category

Total Award	$300,000.00	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [https://sam.gov/content/assistance-listings] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The

[1] Subject to change by Change Order.
[2] Subject to change by Change Order.

services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
PROGRAM-SPECIFIC REQUIREMENTS
RESILIENT FLORIDA PROGRAM

ATTACHMENT 6

General

1. Deliverable and Payment Request Submissions. All grant deliverables and payment requests (Exhibit C) must be submitted to ResilientFloridaGrants@FloridaDEP.gov.

2. Contractual Services. For all grant agreements that include Contractual Services as an expenditure category, the Grantee must submit Exhibit H, Contractual Services Certification, and all required supporting documentation for all contractors conducting work under the grant agreement, prior to submitting a payment request for contractual services.

3. Grantee Match Form. If the grant agreement includes match requirements in Attachment 2, the Grantee must submit the Grantee Match Form upon execution of the grant agreement and at any time there are changes to the match funding amount and/or funding source throughout the grant agreement period.

4. Project Photos. The Grantee must submit Exhibit G, Photo Release Form, with the first submission of deliverables and reports (Exhibit A and F) that include photos.

5. DEP Logo and Funding Source Disclaimer. The final Vulnerability Assessment Report, Adaptation Plan report or document, and any permanent signage created for an implementation project included on the Statewide Flooding and Sea Level Rise Resilience Plan must include the Department's logo (which can be found on the Department's website at: https://floridadep.gov or by contacting the Grant Manager for a copy) as well as the following language:

   "This work was funded in part through a grant agreement from the Florida Department of Environmental Protection's Office of Resilience and Coastal Protection Resilient Florida Program. The views, statements, findings, conclusions, and recommendations expressed herein are those of the author(s) and do not necessarily reflect the views of the State of Florida or any of its subagencies."

6. Final Project Report. The Grantee must submit Exhibit F, Final Project Report Form, prior to requesting final payment. The Final Project Report may be submitted in lieu of the final Exhibit A, Progress Report Form, only in instances where the next quarterly progress report falls after the Agreement's Date of Expiration. For grants funded with American Rescue Plan Act (ARPA) Funds that are not completed by the Agreement's Date of Expiration, Exhibit F must also be submitted to ResilientFloridaGrants@FloridaDEP.gov upon completion of the project, which may be after the Agreement's Date of Expiration.

7. Copyright, Patent and Trademark. The Department reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for state government purposes:
   a. The copyright in any work developed under this Agreement; and
   b. Any rights or copyright to which the Grantee or subcontractor purchases ownership with grant support.

8. Geographic Information System (GIS) files and associated metadata. All GIS files and associated metadata must adhere to the Resilient Florida Program's GIS Data Standards (found on the Resilient Florida Program website: https://floridadep.gov/rcp/resilient-florida-program/documents/resilient-florida-program-gis-data-standards), and raw data sources shall be defined within the associated metadata.

9. Program Deliverable Acceptance and Disclaimer. The Department's acceptance of any specific project's task deliverables required by that project's Resilient Florida Program grant agreement, does not guarantee the Department's acceptance of the same or similar task deliverables, as required by a different Resilient Florida Program grant agreement, notwithstanding the Grantee(s) and/or project(s) at issue being the same or similar. The Department will review and accept all deliverables individually, pursuant to the terms and conditions of each grant agreement for which they are submitted, including Attachment 3, Grant Work Plan. The Department's acceptance of a specific deliverable does not constitute the Department's confirmation that the conclusions or statements made within said deliverable are truthful or accurate, including, but not limited to, claims of scientific validity and the certification of engineering practices. If a dispute arises between the Department and Grantee regarding the veracity of a specific deliverable's content, the Department may request that the Grantee provide additional documentation (e.g., a certification statement signed and sealed by a licensed Professional Engineer), verifying that the conclusions or statements at issue are true and correct to the best of the Grantee's knowledge, prior to the Department's acceptance of said deliverable.

10. Sunshine Law Compliance. As per Paragraph 23 to Attachment 1, Standard Terms and Conditions, the Grantee is solely responsible for ensuring that its actions (and those of its agents) under the Agreement are made in compliance with Section 286.011, Florida Statutes—Florida's Government in the Sunshine Law—where applicable.

Implementation Grants

11. Sea Level Impact Projection Study Requirement. If a state-funded construction project is located within an area where a Sea Level Impact Protection (SLIP) study is required pursuant to Section 380.0937, Florida Statutes, the Grantee is responsible for conducting such a SLIP study and submitting the resulting report to the Department. The SLIP study report must be received by the Department, approved by the Department, and published on the Department's website for at least thirty (30) days before construction can commence. Upon submission to the Department, SLIP study reports must meet all relevant statutory requirements, as well as the standards and criteria indicated in Chapter 62S-7, Florida Administrative Code.

12. Permits. The Grantee acknowledges that receipt of this grant does not imply nor guarantee that a federal, state, or local permit will be issued for a particular activity. The Grantee agrees to ensure that all necessary permits are obtained prior to implementation of any grant-funded activity that may fall under applicable federal, state, or local laws. Further, the Grantee shall abide by all terms and conditions of each applicable permit for any grant-funded activity. Upon request, the Grantee must provide a copy of all required, acquired, and approved permits for the project.

13. Grant funds may not be used to support ongoing efforts to comply with certain legal requirements or actions that were unanticipated, non-existent, or unknown to the Department at the time of this Agreement's execution, including regulatory and permit compliance requirements, non-compliance and citation fees, fees resulting from unanticipated permit conditions, settlement agreements, and compliance with formal or informal enforcement actions to resolve violations of applicable rules and statutes (including consent orders, Closed Without Official Enforcement agreements, and similar enforcement actions). Grant funds may be utilized to support ongoing efforts to comply with permit-required conditions, as approved by the Resilient Florida Program (e.g., pre-, during-, and post-construction monitoring and mitigation efforts).

Grants Funded with American Rescue Plan Act (ARPA) Funds

14. Match Expenditure Monitoring. For any match-funded deliverable(s) identified in Attachment 3, Grant Work Plan, not accepted by the Department by the Date of Expiration listed in Section 3 to the Standard Grant Agreement (as modified by any properly executed amendment(s), as applicable), the Grantee must submit Exhibit M, Match Expenditure Monitoring Form, to the Department prior to ARPA-funded grant closeout to identify all remaining deliverable(s) which are to be completed solely using Grantee match funding. Failure

to submit Exhibit M and all remaining Project deliverables to the Department, as well as meet the Match Requirements identified in Section 7 to Attachment 2, may hinder the Grantee's chances of receiving future grant awards from the Resilient Florida Program.

PROJECT TITLE: Enter the title shown on the first page of the grant agreement.

MONTH & YEAR: Enter month and year of publication

The final Project Report must contain the following sections: Executive Summary, Methodology, Outcome, and Further Recommendations. The Final Project Report must comply with the publication requirements in the grant agreement. Please limit the final project report to no more than five (5) pages. One electronic copy shall be submitted to the Department's Grant Manager for approval. Final payment will be held until receipt and approval of the Final Project Report.

Questions regarding completion of the Final Project Report should be directed to the Department's Grant Manager, identified in paragraph 18 of this agreement.

Florida Department of Environmental Protection

PHOTOGRAPHER RELEASE FORM
FOR PHOTOGRAPHS, VIDEOS, AUDIO RECORDINGS AND ARTWORKS

DEP AGREEMENT NO: 25PLN17

RELEASE FORM FOR PHOTOGRAPHS, VIDEOS, AUDIO RECORDINGS AND ARTWORKS

Owner/Submitter's Name: _____

Address: _____

City: _____ **State:** _____ **Zip:** _____

Phone Number: (_____) _____ **Email:** _____

License and Indemnification

I certify that I am the owner of the photograph(s), video(s), audio recording(s) and/or artwork(s) being submitted and am eighteen (18) years of age or older.

I hereby grant to the Florida Department of Environmental Protection the royalty-free and non-exclusive right to distribute, publish and use the photograph(s), video(s), audio recording(s) and art work(s) submitted herewith (the "Work") to promote the Florida Department of Environmental Protection. Uses may include, but are not limited to:

1. Promotion of FDEP (including, but limited to publications, websites, social media venues, advertisements, etc.); and
2. Distribution to the media; and
3. Use in commercial products.

The Florida Department of Environmental Protection reserves the right to use/not use any Work as deemed appropriate by the Florida Department of Environmental Protection. No Work will be returned once submitted.

I hereby acknowledge that the Florida Department of Environmental Protection shall bear no responsibility whatsoever for protecting the Work against third-party infringement of my copyright interest or other intellectual property rights or other rights I may hold in such Work, and in no way shall be responsible for any losses I may suffer as a result of any such infringement; and I hereby represent and warrant that the Work does not infringe the rights of any other individual or entity.

I hereby unconditionally release, hold harmless and indemnify the Florida Department of Environmental Protection, its employees, volunteers, and representatives of and from all claims, liabilities and losses arising out of or in connection with the Florida Department of Environmental Protection's use of the Work. This release and indemnification shall be binding upon me, and my heirs, executors, administrators and assigns.

I have read and understand the terms of this release.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
RESILIENT FLORIDA GRANT PROGRAM
CONTRACTUAL SERVICES CERTIFICATION

Exhibit H

Required for all grant agreements that include Contractual Services as an expenditure category.

DEP Agreement Number: 25PLN17

Project Title: City of Ocala Adaptation Plan

Grantee: City of Ocala

Subcontractor: _____

Note: Submit separate Exhibit H Certification for each additional subcontractor.

Prior to making a request for payment of contractual services, the Grantee must provide the following to the Department Grant Manager then responsible for the Grantee's Resilient Florida Grant Program grant agreement:

1. Documentation of the Grantee's procurement process, as consistent with Attachment 1, Paragraph 9(c) and Attachment 2, Paragraph 11;
2. A list of all subcontractor quote and/or bid amounts (as applicable), including the company name and address for each subcontractor;
3. An explanation of how and why the Grantee made their determination(s) for the subcontractor(s) selected to perform certain task(s) under the Grantee's relevant grant agreement;
4. A copy of the Grantee's executed subcontract agreement, as required by Attachment 2, Paragraph 11; and
5. This Exhibit H, signed and dated by the Grantee's own (non-Departmental) grant manager.

By signing below, I certify that, on behalf of the Grantee, I have provided all the information required by items 1. through 4. of this exhibit, as stated above, to the Department Grant Manager currently responsible for the Grantee's Resilient Florida Grant Program grant agreement. I also certify that the procurement process the Grantee utilized follows all of said Grantee's non-Departmental policies and procedures for subcontractors.

Kimley»Horn

INDIVIDUAL PROJECT ORDER NUMBER 2024-7

Describing a specific agreement between Kimley-Horn and Associates, Inc. (Kimley-Horn or Consultant) and The City of Ocala (the City or Client) in accordance with the terms of the Master Agreement for Continuing Professional Services, Contract ENG/210895 dated September 25, 2022, which is incorporated herein by reference.

Identification of Project:

Project: Stormwater Master Plan
Client: City of Ocala
Project Manager: Alan Garri, P.E.

General Category of Services:

The scope of services and fees described herein are based upon the following assumptions and project understanding.

1. The City currently operates stormwater management facilities and programs within the incorporated City limits. To address flood protection for its residents, the City seeks to identify and address critical issues through the creation and implementation of a Stormwater Master Plan (SWMP). This Project helps to address these needs by identifying limits of flooding during the various design storm events based on the most up-to-date development information and topographic data. The City also desires to include an analysis of existing water quality concerns in this SWMP.

2. The SWMP will be based on an existing conditions stormwater model and associated data developed as part of a Vulnerability Assessment to be completed for the City as a separate project.

3. It is understood that the model developed as part of the Vulnerability Assessment may be regional in nature and may not reflect a model scale that would capture proposed improvements. Additional model revisions within areas of interest should be performed to ensure that proposed improvements are modeled at an appropriate scale.

4. The SWMP will include an analysis of pollutant loading within the City based on available land use data, existing conveyance and assumed treatment based on the created existing conditions ICPR4 model.

5. The SWMP will evaluate conceptual improvements to the existing stormwater management system within the City based on modeled flooding reduction, modeled water quality improvement, and estimated cost.

6. The completed model and findings of this Project may be leveraged in future projects, such as infrastructure projects, FEMA map revisions, and grant applications. However, additional project-specific updates and information may be needed as the model being created is a planning level tool specifically for the SWMP.

SPECIFIC SCOPE OF BASIC SERVICES

Kimley-Horn will provide the services specifically set forth below.

Task 1 - Project Meetings and Administration

A. Kickoff Meeting: Kimley-Horn will attend a kickoff meeting with the City to introduce team members, discuss the scope and timeline of work, establish communication preferences, and discuss project administration and invoicing. During the Kickoff Meeting, the City will identify historic flooding locations.

B. Progress Meetings: Kimley-Horn will attend up to eight progress meetings throughout the duration of the project. Kimley-Horn will prepare a meeting agenda and meeting notes for each progress meeting and will provide these to the City.

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

C. Deliverables:

1) Meeting Agenda and Notes for Kickoff Meeting – one (1) electronic copy in PDF format

2) Meeting Agenda and Notes for each progress meeting – one (1) electronic copy in PDF format for each of the 8 meetings

Task 2 - Area of Interest Identification and Data Collection

A. Area of interest identification: Based on findings from the vulnerability assessment, Kimley-Horn and City will meet to identify fifteen (15) areas of interest that have the potential for future stormwater improvements or that are of special concern to the City. Kimley-Horn will prepare a map that serves as a list of selected areas of interest based on this meeting.

B. Field Visit: Within the selected areas of interest, Kimley-Horn will visit the field to verify local drainage patterns and drainage structures. Kimley-Horn will photograph and document the size and material of the accessible major conveyance stormwater structures visited. It is anticipated that areas and structures that have already been visited in past studies or are already to the desired level of detail will be visited as needed. This total subtask is limited to 5 days of fieldwork.

C. Survey and Coordination with Surveyor: Kimley-Horn will coordinate with the surveyor to identify survey needs and provide requested information to the surveyor. It is anticipated that survey needs will be identified for some areas ahead of others. The cost associated with Task 2C will only be for Kimley-Horn's coordination efforts. Cost for the survey work will be approved under a separate contract amendment.

D. Deliverables:

1) Kimley-Horn will compile information collected in Task 2 into a single deliverable folder with a list of data collected. The data contained in the deliverable will be limited to data relevant to model development.

2) Areas of Interest Map – One (1) electronic copy in PDF format

Task 3 - Existing Conditions Model Refinement

A. Existing Conditions Model – Area of Interest Refinement: Kimley-Horn will utilize the existing model created as a baseline for a refined existing conditions model that will provide additional model detail at each of the ten selected areas of interest. The additional model detail of the refined model will represent existing drainage patterns that are local in each area of interest that were not reflected in the existing model from the vulnerability assessment. The additional model detail may include changes to the basins, nodes, and links of the existing conditions model that reflect local storm structures, storage areas, or other local drainage features. Refinement to this level of detail will be limited to the areas of interest.

B. Deliverable:

1) Exhibit of level pool floodplains for one design storm event at each area of interest

Task 4 - Pollutant Loading Analysis

A. Water Quality Data Review: Kimley-Horn will review available Florida Department of Environmental Protection (FDEP) documents, including Total Maximum Daily Loads or Basin Management Action Plans ("BMAPs") within the study area, as well as review available water quality data from FDEP and Environmental Protection Agency (EPA).

B. Pollutant Loading Analysis: Based on the findings of the water quality data review, the City will provide direction on pollutants of interest (anticipated to be 2-5). For each pollutant of interest, Kimley-Horn will perform a spreadsheet-based pollutant load analysis that will calculate assumed

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

loading within the project area for a given calendar year. It is anticipated that pollutant loading will be based on land use and include each modeled basin. The analysis will summarize pollutant loadings into identified areas of pollutant concern based on flow direction and loading from the stormwater model. Kimley-Horn will submit a Technical Memorandum that will summarize the pollutant load analysis methodology and results to the City for review and comment and will update the pollutant analysis one time based on City feedback.

C. Deliverable:

1) Pollutant Loading Analysis Technical Memorandum

Task 5 - Flood Protection Level of Service Determination

A. Level of Service Analysis: The City will provide a list of desired Level of Service ("LOS") criteria, which will consist of goals for existing structural and paved features to be above the floodplain elevations of certain design storms based on the results of Task 3. Kimley-Horn will review landmark elevations which will include estimated ground elevations around building footprints, assumed finish floor elevations, and pavement elevations. The City will provide the building footprint layer and road centerline layer if available, or open-source data will be utilized. Kimley-Horn will compare the landmark elevations to the relevant design storm floodplains as defined by the City's LOS criteria to identify areas where the LOS criteria is not being met. Kimley-Horn will then prepare maps showing all portions of the City that are not meeting LOS criteria.

B. Deliverable:

1) Level of Service Maps

Task 6 - Alternatives Analysis

A. Initial Project Selection: Based on the results from Tasks 4 and 5, Kimley-Horn will identify areas for potential projects. Once basins are identified, Kimley-Horn will review those areas for open land or other potential project locations for proposed projects. Kimley-Horn will meet with the City to review locations of potential projects and choose areas and/or types of projects to focus on for the alternatives analysis. Kimley-Horn will discuss flood reduction goals with the City and create preliminary layouts of the drainage improvements.

B. Project Refinement: Kimley-Horn will identify a list of up to ten (10) proposed project areas. For each project area, Kimley-Horn will conduct an alternatives analysis that will perform up to ten (10) model iterations that will reflect proposed stormwater improvement alternatives associated with the identified projects. The modeled iterations will be reviewed, and the most effective iteration will be chosen as the Refined Project. Kimley-Horn will create updated level pool floodplains from the Refined Projects and prepare an exhibit comparing the level pool floodplains for each design storm in existing conditions and for the Refined Projects. The LOS Analysis will be updated for each project, demonstrating the project's level of service. The Pollutant Loading Analysis will be updated for each project to demonstrate the effectiveness of pollutant reduction.

C. Preliminary Project Layout: Kimley-Horn will create a Preliminary Project Layout for each Refined Project. This layout will serve as exhibit that illustrates the scale and nature of the project. Each Preliminary Project Layout will include a schematic of the existing modeled infrastructure and preliminary schematics of proposed storage and infrastructure changes. A Preliminary Project Layout will be prepared for all model storm events with existing and proposed model results in the form of level pool floodplains shown for a chosen storm event. The Preliminary Project Layouts will show the level of service improvement for each project area for a chosen storm event.

D. Deliverable:

1) List of Selected Projects

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

2) Preliminary Project Layouts – one for each design storm event – 10 total

3) Updated Pollutant Loading Analysis that will include analysis on pollutant loading reduction associated with Refined Projects.

4) Updated LOS Analysis will include analysis of LOS improvement associated with Refined Projects.

Task 7 - Benefit-Cost Analysis

A. Preliminary Opinions of Probable Construction Cost: Kimley-Horn will prepare preliminary opinions of probable construction cost (OPCC) (Class II level) for the ten (10) Refined Projects. The preliminary OPCC will be developed using current industry information. The information will be used to compare the alternatives and general anticipated cost. Further refinement of the OPCC will be developed in the future.

B. Benefit-Cost Rank: Kimley-Horn will prepare an overall benefit-cost analysis. The benefits will be based on the overall drainage improvements (LOS improvement) and improved water quality based on the Best Management Practice (BMP) analysis. The cost will be based on the prepared cost estimate for each alternative. Kimley-Horn will compare the benefits to the cost and create a ranking for review with the City.

C. Decision Support Matrix: Kimley-Horn will prepare a decision support matrix that compares the benefits and anticipated costs of each alternative, as well as additional considerations provided by the City. Kimley-Horn will meet with the City to obtain any additional input and will add additional potential categories for use in a decision support matrix. The City will also provide input if each category should be weighted.

D. Deliverables:

1) Opinion of Probable Construction Cost – one (1) OPC for each of the ten (10) Refined Projects.

2) Benefit-Cost Ranking – one (1) electronic copy in PDF format

3) Decision Support Matrix – one (1) electronic copy in PDF format

Task 8 - Final Report and Recommendation

A. Grant Funding Opportunities Review: Kimley-Horn will review grants that may be available for projects developed under Task 6. This will be completed more generally based on project types, rather than project by project. A description of potential grant funding sources will be included in the Final Report.

B. Recommend Alternative Report: Kimley-Horn will create a report describing the analysis used to determine the final recommended alternatives. The report will include a brief discussion of model development, preliminary layouts, opinions of probable costs, and the decision support matrix. Kimley-Horn will submit a draft version of the report to the City for review. Kimley-Horn will address City comments and prepare a final report for submittal to the City.

C. Deliverables:

1) Draft Report (PDF)

2) Final Report, signed and sealed (PDF)

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

INFORMATION PROVIDED BY CLIENT

Kimley-Horn shall be entitled to rely on the completeness and accuracy of all information provided by the City or the City's consultants or representatives. The City shall provide all information requested by Kimley-Horn during the Project.

SCHEDULE

Kimley-Horn will prove the Scope of Services as expeditiously as practicable with the goal of meeting a mutually beneficial schedule.

METHOD OF COMPENSATION

Kimley-Horn will perform the services in Tasks 1 - 8 for the total lump sum labor fee below.

Task Description	*Lump Sum Fee*
Task 1- Project Meetings and Administration	$16,531.90
Task 2 - Area of Interest Identification and Data Collection	$24,517.62
Task 3 - Existing Conditions Model Refinement	$49,217.00
Task 4 - Pollutant Loading Analysis	$65,529.62
Task 5 - Flood Protection Level of Service Determination	$25,485.85
Task 6 - Alternatives Analysis	$123,073.66
Task 7 - Benefit-Cost Analysis	$94,803.66
Task 8 - Final Report and Recommendation	$63,010.80
Total	***$462,170.11***

In addition to the lump sum labor fee, direct reimbursable expenses such as express delivery services, fees, air travel, and other direct expenses will be billed at 1.15 times cost. All permitting, application, and similar project fees will be paid directly by the Client.

Lump sum fees will be invoiced monthly based upon the overall percentage of services performed. Reimbursable expenses will be invoiced based upon expenses incurred. Payment will be due within 25 days of your receipt of the invoice and should include the invoice number and Kimley-Horn project number.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and

File #: BR-2025-169 Agenda Item #: 10e.

Submitted By: Payal Pandya

Presentation By: Sean Lanier

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Adopt Budget Resolution 2025-169 appropriating funds from the Florida Department of Environmental Protection to complete an Adaptation Plan consistent with the Florida Adaptation Planning Guidebook in the amount of $300,000

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place.

PROOF OF PUBLICATION:
N/A

BACKGROUND:
The City of Ocala (City) currently operates stormwater management facilities and programs within the incorporated City limits. To address flood protection for its residents, the City seeks to identify and address critical issues through the creation and implementation of a Stormwater Master Plan (SWMP). The SWMP will address these needs by identifying limits of flooding during the various design storm events based on the most up-to-date development information and topographic data.

The SWMP will be based on an existing conditions stormwater model and associated data developed as part of the Vulnerability Assessment (VA) currently in progress as a separate project performed under Kimley-Horn and Associates, Inc (Kimley-Horn) Task Work Order (TWO) No.37, and partially funded by Florida Department of Environmental Protection (FDEP) grant agreement 24PLN40. The SWMP will use the model developed in the VA to analyze the flood impacts to a higher level of detail within the City. The SWMP will also make recommendations for implementation of projects to address and mitigate the flood risk to critical infrastructure identified in the VA.

In June 2024, Kimley- Horn applied on the City's behalf for grant 25PL17 to help fund the proposed cost of $462,170.11 for the development of the SWMP from the VA, as shown in TWO No.51 from Kimley-Horn and Associates.

FINDINGS AND CONCLUSIONS:

FDEP grant agreement 25PLN17 will provide partial funding to complete an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook, which will be used for the creation and implementation of a Stormwater Master Plan (SWMP) for City of Ocala. Staff recommends approval.

FISCAL IMPACT:
The total estimated cost of the Project is $462,170.11. FDEP agrees to reimburse the city in an amount not to exceed $300,000 which will be appropriated in account 158-050-396-538-53-31010. Funding in the amount of $162,170.11 to cover the additional cost of the project will be available in account 158-020-396-538-53-31010.

BUDGET RESOLUTION 2025-169

A RESOLUTION AMENDING THE FISCAL YEAR 2024-25 BUDGET TO ACCEPT AND APPROPRIATE FUNDS FROM THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION TO COMPLETE AN ADAPTATION PLAN CONSISTENT WITH THE FLORIDA ADAPTATION PLANNING GREENBOOK IN THE AMOUNT OF 300,000

WHEREAS, the City has been awarded a grant from the Florida Department of Environmental Protection (25PLN17) in the amount $300,000 to complete an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook; and

WHEREAS, the grant is to identify and address critical issues through the creation and implementation of a Stormwater Master Plan (SWMP); and

WHEREAS, the grant funding represents $300,000 of the total estimated project cost of $462,170.11; and

WHEREAS, the city will match the remaining $162,170.11 of the project cost.

NOW THEREFORE, BE IT RESOLVED THAT THE CITY COUNCIL OF THE CITY OF OCALA, FLORIDA, duly assembled in regular session, that the Fiscal Year 2024-25 budget be amended as outlined below.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Standard Grant Agreement

This Agreement is entered into between the Parties named below, pursuant to section 215.971, Florida Statutes:

1. Project Title (Project): City of Ocala Adaptation Plan

Agreement Number: 25PLN17

2. Parties: **State of Florida Department of Environmental Protection, 3900 Commonwealth Boulevard Tallahassee, Florida 32399-3000** (Department)

Grantee Name: City of Ocala

Entity Type: Local Government

Grantee Address: 110 SE Watula Avenue Ocala, Florida 34471

FEID: 59-6000392

(Grantee)

3. Agreement Begin Date: 7/1/2024

Date of Expiration: 6/30/2027

4. Project Number: *(If different from Agreement Number)*

Project Location(s): Marion County, Florida

Project Description: The project will complete an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook. The Project will include public outreach and stakeholder engagement.

5. Total Amount of Funding: $300,000.00

Funding Source?	Award #s or Line-Item Appropriations:	Amount per Source(s):
☑ State ☐ Federal	FY 24-25 GAA Line Item #1854	$ 300,000.00
☐ State ☐ Federal		$
☐ State ☐ Federal		$
☐ Grantee Match		$
	Total Amount of Funding + Grantee Match, if any:	$ 300,000.00

6. Department's Grant Manager

Name: George Begley or successor

Address: Resilient Florida Program
3900 Commonwealth Boulevard, MS230
Tallahassee, Florida 32399

Phone: 850-245-8020

Email: George.Begley@FloridaDEP.gov

Grantee's Grant Manager

Name: Sean Lanier or successor

Address: City of Ocala
1805 NE 30th Ave, Bldg 600
Ocala, Florida 34470

Phone: 352-351-6772

Email: SLanier@OcalaFL.gov

7. The Parties agree to comply with the terms and conditions of the following attachments and exhibits which are hereby incorporated by reference:

☑ Attachment 1: Standard Terms and Conditions Applicable to All Grants Agreements
☑ Attachment 2: Special Terms and Conditions
☑ Attachment 3: Grant Work Plan
☑ Attachment 4: Public Records Requirements
☑ Attachment 5: Special Audit Requirements
☑ Attachment 6: Program-Specific Requirements
☐ Attachment 7: Grant Award Terms (Federal) *Copy available at https://facts.fldfs.com, in accordance with section 215.985, F.S.
☐ Attachment 8: Federal Regulations and Terms (Federal)
☐ Additional Attachments (if necessary):

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Invoice reduction

If Grantee does not meet a deadline for any deliverable, the Department will reduce the invoice by 1% for each day the deadline is missed, unless an extension is approved in writing by the Department.

c. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

   i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

   ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department

does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/state-agencies/reference-guide-for-state-expenditures.pdf.

e. Rural Communities and Rural Areas of Opportunity. If Grantee is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" (RAO) as defined in subsection 288.0656(2), F.S., such Grantee may request from the Department that all invoice payments under this Agreement be directed to the relevant county or municipality or to the RAO itself. The Department will agree to Grantee's request if:

i. Grantee demonstrates that it is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" under subsection 288.0656(2), F.S.;

ii. Grantee demonstrates current financial hardship using one (1) or more of the "economic distress" factors defined in subsection 288.0656(2)(c), F.S.;

iii. Grantee's performance has been verified by the Department, which has determined that Grantee is eligible for invoice payments and that Grantee's performance has been completed in accordance with this Agreement's terms and conditions; and

iv. Applicable federal and state law(s), rule(s) and regulation(s) allow for such payments.

This subsection may not be construed to alter or limit any other applicable provisions of federal or state law, rule, or regulation. A current list of Florida's designated RAOs can be accessed at the following web address: https://floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity.

f. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

g. State Funds Documentation. Pursuant to section 216.1366, F.S., if Contractor meets the definition of a non-profit organization under section 215.97(2)(m), F.S., Contractor must provide the Department with documentation that indicates the amount of state funds:

i. Allocated to be used during the full term of the contract or agreement for remuneration to any member of the board of directors or an officer of Contractor.

ii. Allocated under each payment by the public agency to be used for remuneration of any member of the board of directors or an officer of the Contractor.

The documentation must indicate the amounts and recipients of the remuneration. Such information must be posted on the State's the contract tracking system and maintained pursuant to section 215.985, F.S., and must be posted on the Contractor's website, if Contractor maintains a website.

h. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

i. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

j. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

k. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: https://www.myfloridacfo.com/division/aa/local-governments/judgement-interest-rates.

l. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. For grants funded with federal funds, nonconsumable and/or nonexpendable personal property or equipment costing $10,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in 2 CFR 200. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.

i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-

price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.

ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with section 112.061, F.S.

e. Direct Purchase Equipment. For grants funded fully or in part with state funds, equipment is defined as capital outlay costing $5,000 or more. For grants funded fully with federal funds, equipment is defined as capital outlay costing $10,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform

that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.

d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.

e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant

Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first

arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Development, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.

b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.

c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.

d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Build America, Buy America Act (BABA) - Infrastructure Projects with Federal Funding.
This provision does not apply to Agreements that are wholly funded by Coronavirus State and Local Fiscal Recovery Funds under the American Rescue Plan Act. Also, this provision does not apply where

there is a valid waiver in place. However, the provision may apply to funds expended before the waiver or after expiration of the waiver.

If applicable, Recipients or Subrecipients of an award of Federal financial assistance from a program for infrastructure are required to comply with the Build America, Buy America Act (BABA), including the following provisions:

a. All iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

b. All manufactured products used in the project are produced in the United States-this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and

c. All construction materials are manufactured in the United States-this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

25. Investing in America

Grantees of an award for construction projects in whole or in part by the Bipartisan Infrastructure Law or the Inflation Reduction Act, including the following provision:

a. Signage Requirements

a. Investing in America Emblem: The recipient will ensure that a sign is placed at construction sites supported in whole or in part by this award displaying the official Investing in America emblem and must identify the project as a "project funded by President Biden's Bipartisan Infrastructure Law" or "project funded by President Biden's Inflation Reduction Act" as applicable. The sign must be placed at construction sites in an easily visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period.

The recipient will ensure compliance with the guidelines and design specifications provided by EPA for using the official Investing in America emblem available at: https://www.epa.gov/invest/investing-america-signage.

b. Procuring Signs: Consistent with section 6002 of RCRA, 42 U.S.C. 6962, and 2 CFR 200.323, recipients are encouraged to use recycled or recovered materials when procuring signs. Signage costs are considered an allowable cost under this assistance agreement provided that the costs associated with signage are reasonable. Additionally, to increase public awareness of projects serving communities where English is not the predominant language, recipients are encouraged to translate the language on signs (excluding the official Investing in America emblem or EPA logo or seal) into the appropriate non-English language(s). The costs of such translation are allowable, provided the costs are reasonable.

26. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.

b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in section 287.135, F.S. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized

Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

c. As provided in subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions, then they shall become inoperative.

27. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to section 216.347, F.S., except that pursuant to the requirements of section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with sections 11.062 and 216.347, F.S.

28. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

29. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.

b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:

   i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

   ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,

   iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.331 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect,

general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

30. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

31. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

32. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.
b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.
c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Development at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

33. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee

is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

34. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

35. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

36. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

37. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

38. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

39. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

40. Disclosure of Gifts from Foreign Sources.

If the value of the grant under this Agreement is $100,000 or more, Grantee shall disclose to Department any current or prior interest of, any contract with, or any grant or gift received from a foreign country of concern, as defined in section 286.101, F.S., if such interest, contract, or grant or gift has a value of $50,000 or more and such interest existed at any time or such contract or grant or gift was received or in force at any time during the previous 5 years. Such disclosure shall include the name and mailing address of the disclosing entity, the amount of the contract or grant or gift or the value of the interest disclosed, the applicable foreign country of concern and, if applicable, the date of termination of the contract or interest, the date of receipt of the grant or gift, and the name of the agent or controlled entity that is the source or interest holder. If the disclosure requirement is applicable as described above, then within 1 year before applying for any grant, Grantee must also provide a copy of such disclosure to the Department of Financial Services.

41. Food Commodities.

To the extent authorized by federal law, the Department, its grantees, contractors and subcontractors shall give preference to food commodities grown or produced in this state when purchasing food commodities, including farm products as defined in section 823.14, F.S., of any class, variety, or use thereof in their natural state or as processed by a farm operation or processor for the purpose of marketing such product.

42. Anti-human Trafficking.

If the Grantee is a nongovernmental entity, the Grantee must provide the Department with an affidavit signed by an officer or a representative of the Grantee under penalty of perjury attesting that the Grantee does not use coercion for labor or services as defined in section 787.06, F.S.

43. Iron and Steel for Public Works Projects.

If this Agreement funds a "public works project" as defined in section 255.0993, F.S., or the purchase of materials to be used in a public works project, any iron or steel permanently incorporated in the Project must be "produced in the United States," as defined in section 255.0993, F.S. This requirement does not apply if the Department determines that any of the following circumstances apply to the Project:

(1) iron or steel products produced in the United States are not produced in sufficient quantities, reasonably available, or of satisfactory quality;
(2) the use of iron or steel products produced in the United States will increase the total cost of the project by more than twenty percent (20%); or
(3) complying with this requirement is inconsistent with the public interest.

Further, this requirement does not prevent the Contractor's minimal use of foreign steel and iron materials if:

(1) such materials are incidental or ancillary to the primary product and are not separately identified in the project specifications; and
(2) the "cost" of such materials, as defined in section 255.0993, F.S., does not exceed one-tenth of one percent (1%) of the total Project Cost under this Agreement or $2,500, whichever is greater.

Electrical components, equipment, systems, and appurtenances, including supports, covers, shielding, and other appurtenances related to an electrical system that are necessary for operation or concealment (excepting transmission and distribution poles) are not considered to be iron or steel products and are, therefore, exempt from the requirements of this paragraph.

This provision shall be applied in a manner consistent with and may not be construed to impair the state's obligations under any international agreement.

44. Complete and Accurate information.

Grantee represents and warrants that all statements and information provided to DEP are current, complete, and accurate. This includes all statements and information in this Grant, as well as its Attachments and Exhibits.

45. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. 25PLN17

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is the City of Ocala Adaptation Plan. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement is the same as the term of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods may be added in accordance with 2.a above and are contingent upon proper and satisfactory technical and administrative performance by the Grantee and the availability of funding.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual (Subcontractors)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
There is no match required on the part of the Grantee under this Agreement.

8. Insurance Requirements

Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. All insurance policies shall be through insurers licensed and authorized to issue policies in Florida, or alternatively, Grantee may provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Commercial General Liability Insurance.
The Grantee shall provide adequate commercial general liability insurance coverage and hold such liability insurance at all times during the Agreement. The Department, its employees, and officers shall be named as an additional insured on any general liability policies. The minimum limits shall be $250,000 for each occurrence and $500,000 policy aggregate.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The Department, its employees, and officers shall be named as an additional insured on any automobile insurance policy. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation and Employer's Liability Coverage.
The Grantee shall provide workers' compensation, in accordance with Chapter 440, F.S. and employer liability coverage with minimum limits of $100,000 per accident, $100,000 per person, and $500,000 policy aggregate. Such policies shall cover all employees engaged in any work under the Grant.

d. Other Insurance. None.

9. Quality Assurance Requirements.
There are no special Quality Assurance requirements under this Agreement.

10. Retainage.
No retainage is required under this Agreement.

11. Subcontracting.
The Grantee may subcontract work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontract to the Department prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.
The work will not be performed on State-owned land.

13. Office of Policy and Budget Reporting.
There are no special Office of Policy and Budget reporting requirements for this Agreement.

14. Common Carrier.

a. Applicable to contracts with a common carrier – firm/person/corporation that as a regular business transports people or commodities from place to place. If applicable, Contractor must also fill out and return PUR 1808 before contract execution. If Contractor is a common carrier pursuant to section 908.111(1)(a), Florida Statutes, the Department will terminate this contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808.

b. Applicable to solicitations for a common carrier – Before contract execution, the winning Contractor(s) must fill out and return PUR 1808, and attest that it is not willfully providing any service in furtherance of transporting a person into this state knowing that the person unlawfully present in the United States according to the terms of the federal Immigration and Nationality Act, 8 U.S.C. ss. 1101 et seq. The

Department will terminate a contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808.

15. Financial Assistance and Payment of Invoices to Rural Communities or Rural Areas of Opportunity
This agreement does not provide federal or state financial assistance to a county or municipality that is a rural community or rural area of opportunity as those terms are defined in s. 288.0656(2).

16. Additional Terms.
None.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
GRANT WORK PLAN
AGREEMENT NO. 25PLN17

ATTACHMENT 3

PROJECT TITLE: City of Ocala Adaptation Plan

PROJECT LOCATION: The Project is located in the City of Ocala within Marion County, Florida.

PROJECT DESCRIPTION:
The City of Ocala (Grantee) will complete the City of Ocala Adaptation Plan Project (Project) to include an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook. The Project may include public outreach and stakeholder engagement.

TASKS AND DELIVERABLES:

Task 1: Kick Off Meeting

Description: The Grantee will develop an overall project management plan and address initial actions and then conduct a kick-off meeting for the project. Meeting attendees will discuss the project scope, project goals, schedule, key milestones, and deliverables in order to develop a consistent project approach. The Grantee will prepare the agenda, draft project schedule, presentation, and other meeting materials as necessary.

Deliverables: The Grantee will provide the following:

- **1.1:** Kick-off meeting agenda (including location, date, and time); a copy of the presentation, if applicable, and all materials created for the meeting; and a summary report or meeting minutes that includes the meeting purpose, stakeholder input, and outcomes.

Task 2: Draft Adaptation Needs and Strategies

Description: The Grantee will develop adaptation needs and strategies for inclusion in the AP. The AP will include a table listing the adaptation needs and corresponding recommended strategies for each as well as a map illustrating the critical assets identified as adaptation needs. The AP shall be consistent with the guidelines in the Florida Adaptation Planning Guidebook.

Deliverables: The Grantee will provide the following:

- **2.1:** A draft AP.

Task 3: Community Prioritization of Adaptation Needs

Description: The Grantee will conduct a public meeting to develop a prioritization of adaptation needs for the community. The Grantee will present the draft AP that includes the following: assessment of adaptive capacities, adaptation needs, and identification of adaptation strategies. The purpose of the meeting is to allow the public to provide community-specific input on the identified adaptation needs and strategies as identified in the draft AP as well as an opportunity to prioritize adaptation needs. The Grantee will prepare all social media notifications, meeting invitations, meeting materials, presentations, and graphics utilized during the meeting, as applicable.

Deliverables: The Grantee will provide the following:

- **3.1:** The agenda (including location, date, and time); a copy of the presentation, if applicable, and all materials created for the meeting; and a summary report or meeting minutes that includes the meeting purpose, stakeholder input, and outcomes.

Task 4: Final Adaptation Plan

Description: The Grantee will complete an AP that is consistent with the Florida Adaptation Planning Guidebook. The AP will also include a list of prioritized projects for each asset class as defined in subsection 380.093(2), Florida Statutes, for consideration and implementation.

Deliverables: The Grantee will provide the following:

- **4.1:** A final AP, to include any products or documentation, either within or as appendices or independent sections, resulting from all optional subtasks included in the Task Description.

PERFORMANCE MEASURES: The Grantee will submit all deliverables for each task to ResilientFloridaGrants@FloridaDEP.gov on or before the Task Due Date listed in the Project Timeline. The deliverables for each task must be submitted in chronological order, with the exception of the "Conduct Steering Committee Meetings" and "Peril of Flood Compliance" tasks, if included. Grantees must have received a Deliverable Acceptance Letter from the Department's Grant Manager prior to submitting any subsequent deliverables. The Department's Grant Manager will review the deliverable(s) to verify that they meet the specifications in the Grant Work Plan and the task description, to include any work being performed by any subcontractor(s), and will provide written acceptance or non-acceptance of the deliverable(s) to the Grantee within thirty (30) calendar days. Deliverables that the Department determines are not acceptable must be corrected and resubmitted within thirty (30) calendar days prior to the Agreement's Date of Expiration, and in coordination with the Department's Grant Manager. Tasks may include multiple deliverables to be completed. The Department will accept partial and full deliverables. Incomplete deliverables will not be accepted. A "partial deliverable" is defined as a deliverable consisting of one (1) or more (but not all) subcomponents listed in the deliverable list for a single task, where such subcomponent(s) are delivered to the Department at one hundred percent (100%) completion. A "full deliverable" is defined as a deliverable comprising all subcomponents listed in the deliverable list for a single task, all delivered to the Department at one hundred percent (100%) completion. An "incomplete deliverable" is defined as a deliverable for which one hundred percent (100%) completion has not been achieved for any of the subcomponents listed in the deliverable list for a single task. A task is considered one hundred percent (100%) complete upon the Department's receipt and approval of all deliverable(s) listed within the task and the Department's approval provided by the Deliverable Acceptance Letter. All deliverables must be received by the Task Due Date and accepted by the Department on or before the Agreement's Date of Expiration, or the Consequences for Non-Performance set forth herein shall apply.

CONSEQUENCES FOR NON-PERFORMANCE: For each task deliverable not received and accepted by the Department at one hundred percent (100%) completion on or before the Agreement's Date of Expiration, the Department will reduce the relevant Task Funding Amount(s) paid to Grantee in proportion to the percentage of the deliverable(s) not fully completed. For each task deliverable not received by the Department by the specified Task Due Date listed in the Agreement's most recent Project Timeline, the Department will reduce the relevant Task Funding Amount(s) by 5% per calendar day, which will be imposed until the Department has received the task deliverable. The Consequence for Non-Performance will be applied to and included in the relevant task deliverable's payment request.

PAYMENT REQUEST SCHEDULE: Following the Grantee's full or partial completion of a task's deliverable(s) and acceptance by the Department's Grant Manager, the Grantee may submit a payment request for cost reimbursement using the Exhibit C, Payment Request Summary Form. All payment requests must be accompanied by the Deliverable Acceptance Letter; the Exhibit A, Progress Report Form, detailing all progress made in the invoice period; and supporting fiscal documentation including match, if applicable. Interim payments will not be accepted. Payment requests will not be accepted until all required Exhibit A, Progress Report Forms, have been submitted to the Department's Grant Manager for all reporting periods dating back to the Agreement Execution Date. For the reporting period beginning on the Agreement Begin Date and ending on the Agreement Execution Date, submittal of a single Exhibit A, Progress Report Form, covering only this reporting period will be acceptable. Upon the Department's receipt of the aforementioned documents and supporting fiscal documentation, the Department's Grant Manager will have ten (10) working days to review and approve or deny the payment request.

PROJECT TIMELINE AND BUDGET DETAIL: The tasks must be completed by, and all deliverables received by, the corresponding task due date listed in the table below. Cost-reimbursable grant funding must not exceed the budget amounts indicated below. Requests for any change(s) must be submitted prior to the current task due date listed in the Project Timeline. Requests are to be sent via email to the Department's Grant Manager, with the details of the request and the reason for the request made clear.

Task No.	Task Title	DEP Amount	Match Amount	Total Amount	Task Start Date	Task Due Date
1	Kick Off Meeting	$10,731	$0	$10,731	7/1/2024	6/30/2026
2	Draft Adaptation Needs and Strategies	$186,830	$0	$186,830	7/1/2024	9/30/2026
3	Community Prioritization of Adaptation Needs	$61,539	$0	$61,539	7/1/2024	12/31/2026
4	Final Adaptation Plan	$40,900	$0	$40,900	7/1/2024	3/31/2027
	Total:	**$300,000**	**$0**	**$300,000**		

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution and section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

Telephone: **(850) 245-2118**
Email: public.services@floridadep.gov

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $1,000,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $1,000,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $1,000,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from non-federal entities).

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at https://sam.gov/content/assistance-listings.

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at http://www.fldfs.com/and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

PART IV: REPORT SUBMISSION

1. Copies of reporting packages for audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and required by PART I of this form shall be submitted, when required by 2 CFR 200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR 200.36 and 200.512

   A. The Federal Audit Clearinghouse designated in 2 CFR §200.501(a) (the number of copies required by 2 CFR §200.501(a) should be submitted to the Federal Audit Clearinghouse), at the following address:

By Mail:

Federal Audit Clearinghouse
Bureau of the Census
1201 East 10th Street
Jeffersonville, IN 47132

Submissions of the Single Audit reporting package for fiscal periods ending on or after January 1, 2008, must be submitted using the Federal Clearinghouse's Internet Data Entry System which can be found at http://harvester.census.gov/facweb/

2. Copies of financial reporting packages required by PART II of this Attachment shall be submitted by or on behalf of the recipient directly to each of the following:

A. The Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

B. The Auditor General's Office at the following address:

Auditor General
Local Government Audits/342
Claude Pepper Building, Room 401
111 West Madison Street
Tallahassee, Florida 32399-1450

The Auditor General's website (http://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or management letters required by PART III of this Attachment shall be submitted by or on behalf of the recipient directly to the Department of Environmental Protection at one of the following addresses:

By Mail:
Audit Director
Florida Department of Environmental Protection
Office of Inspector General, MS 40
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Electronically:
FDEPSingleAudit@dep.state.fl.us

4. Any reports, management letters, or other information required to be submitted to the Department of Environmental Protection pursuant to this Agreement shall be submitted timely in accordance with 2 CFR 200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

5. Recipients, when submitting financial reporting packages to the Department of Environmental Protection for audits done in accordance with 2 CFR 200, Subpart F-Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (non and for-profit organizations), Rules of the Auditor General, should indicate the date and time the reporting package was delivered to the recipient and any correspondence accompanying the reporting package.

PART V: RECORD RETENTION

The recipient shall retain sufficient records demonstrating its compliance with the terms of the award and this Agreement for a period of **five (5)** years from the date the audit report is issued, and shall allow the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to the Department of Environmental Protection, or its designee, Chief Financial Officer, or Auditor General upon request for a period of **three (3)** years from the date the audit report is issued, unless extended in writing by the Department of Environmental Protection.

EXHIBIT – 1

FUNDS AWARDED TO THE RECIPIENT PURSUANT TO THIS AGREEMENT CONSIST OF THE FOLLOWING:

Note: If the resources awarded to the recipient represent more than one federal program, provide the same information shown below for each federal program and show total federal resources awarded

Federal Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following:					
Federal Program A	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	
Federal Program B	Federal Agency	CFDA Number	CFDA Title	Funding Amount	State Appropriation Category
				$	

Note: Of the resources awarded to the recipient represent more than one federal program, list applicable compliance requirements for each federal program in the same manner as shown below:

Federal Program A	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.:(eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	
Federal Program B	First Compliance requirement: i.e.: (what services of purposes resources must be used for)	
	Second Compliance requirement: i.e.: (eligibility requirement for recipients of the resources)	
	Etc.	
	Etc.	

Note: If the resources awarded to the recipient for matching represent more than one federal program, provide the same information shown below for each federal program and show total state resources awarded for matching.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Matching Resources for Federal Programs:					
Federal Program A	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category
Federal Program B	Federal Agency	CFDA	CFDA Title	Funding Amount	State Appropriation Category

Note: If the resources awarded to the recipient represent more than one state project, provide the same information shown below for each state project and show total state financial assistance awarded that is subject to section 215.97, F.S.

State Resources Awarded to the Recipient Pursuant to this Agreement Consist of the Following Resources Subject to Section 215.97, F.S.:						
State Program A	State Awarding Agency	State Fiscal Year[1]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category
Original Agreement	Florida Department of Environmental Protection	FY 24.25	37.098	Resilient Florida Programs	$300,000.00	140078
State Program B	State Awarding Agency	State Fiscal Year[2]	CSFA Number	CSFA Title or Funding Source Description	Funding Amount	State Appropriation Category

Total Award	$300,000.00	

Note: List applicable compliance requirement in the same manner as illustrated above for federal resources. For matching resources provided by the Department for DEP for federal programs, the requirements might be similar to the requirements for the applicable federal programs. Also, to the extent that different requirements pertain to different amount for the non-federal resources, there may be more than one grouping (i.e. 1, 2, 3, etc.) listed under this category.

For each program identified above, the recipient shall comply with the program requirements described in the Catalog of Federal Domestic Assistance (CFDA) [https://sam.gov/content/assistance-listings] and/or the Florida Catalog of State Financial Assistance (CSFA) [https://apps.fldfs.com/fsaa/searchCatalog.aspx], and State Projects Compliance Supplement (Part Four: State Projects Compliance Supplement [https://apps.fldfs.com/fsaa/state_project_compliance.aspx]. The

[1] Subject to change by Change Order.
[2] Subject to change by Change Order.

services/purposes for which the funds are to be used are included in the Agreement's Grant Work Plan. Any match required by the Recipient is clearly indicated in the Agreement.

ATTACHMENT 6

General

1. Deliverable and Payment Request Submissions. All grant deliverables and payment requests (Exhibit C) must be submitted to ResilientFloridaGrants@FloridaDEP.gov.

2. Contractual Services. For all grant agreements that include Contractual Services as an expenditure category, the Grantee must submit Exhibit H, Contractual Services Certification, and all required supporting documentation for all contractors conducting work under the grant agreement, prior to submitting a payment request for contractual services.

3. Grantee Match Form. If the grant agreement includes match requirements in Attachment 2, the Grantee must submit the Grantee Match Form upon execution of the grant agreement and at any time there are changes to the match funding amount and/or funding source throughout the grant agreement period.

4. Project Photos. The Grantee must submit Exhibit G, Photo Release Form, with the first submission of deliverables and reports (Exhibit A and F) that include photos.

5. DEP Logo and Funding Source Disclaimer. The final Vulnerability Assessment Report, Adaptation Plan report or document, and any permanent signage created for an implementation project included on the Statewide Flooding and Sea Level Rise Resilience Plan must include the Department's logo (which can be found on the Department's website at: https://floridadep.gov or by contacting the Grant Manager for a copy) as well as the following language:

   "This work was funded in part through a grant agreement from the Florida Department of Environmental Protection's Office of Resilience and Coastal Protection Resilient Florida Program. The views, statements, findings, conclusions, and recommendations expressed herein are those of the author(s) and do not necessarily reflect the views of the State of Florida or any of its subagencies."

6. Final Project Report. The Grantee must submit Exhibit F, Final Project Report Form, prior to requesting final payment. The Final Project Report may be submitted in lieu of the final Exhibit A, Progress Report Form, only in instances where the next quarterly progress report falls after the Agreement's Date of Expiration. For grants funded with American Rescue Plan Act (ARPA) Funds that are not completed by the Agreement's Date of Expiration, Exhibit F must also be submitted to ResilientFloridaGrants@FloridaDEP.gov upon completion of the project, which may be after the Agreement's Date of Expiration.

7. Copyright, Patent and Trademark. The Department reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for state government purposes:
   a. The copyright in any work developed under this Agreement; and
   b. Any rights or copyright to which the Grantee or subcontractor purchases ownership with grant support.

8. Geographic Information System (GIS) files and associated metadata. All GIS files and associated metadata must adhere to the Resilient Florida Program's GIS Data Standards (found on the Resilient Florida Program website: https://floridadep.gov/rcp/resilient-florida-program/documents/resilient-florida-program-gis-data-standards), and raw data sources shall be defined within the associated metadata.

9. Program Deliverable Acceptance and Disclaimer. The Department's acceptance of any specific project's task deliverables required by that project's Resilient Florida Program grant agreement, does not guarantee the Department's acceptance of the same or similar task deliverables, as required by a different Resilient Florida Program grant agreement, notwithstanding the Grantee(s) and/or project(s) at issue being the same or similar. The Department will review and accept all deliverables individually, pursuant to the terms and conditions of each grant agreement for which they are submitted, including Attachment 3, Grant Work Plan. The Department's acceptance of a specific deliverable does not constitute the Department's confirmation that the conclusions or statements made within said deliverable are truthful or accurate, including, but not limited to, claims of scientific validity and the certification of engineering practices. If a dispute arises between the Department and Grantee regarding the veracity of a specific deliverable's content, the Department may request that the Grantee provide additional documentation (e.g., a certification statement signed and sealed by a licensed Professional Engineer), verifying that the conclusions or statements at issue are true and correct to the best of the Grantee's knowledge, prior to the Department's acceptance of said deliverable.

10. Sunshine Law Compliance. As per Paragraph 23 to Attachment 1, Standard Terms and Conditions, the Grantee is solely responsible for ensuring that its actions (and those of its agents) under the Agreement are made in compliance with Section 286.011, Florida Statutes—Florida's Government in the Sunshine Law—where applicable.

Implementation Grants

11. Sea Level Impact Projection Study Requirement. If a state-funded construction project is located within an area where a Sea Level Impact Protection (SLIP) study is required pursuant to Section 380.0937, Florida Statutes, the Grantee is responsible for conducting such a SLIP study and submitting the resulting report to the Department. The SLIP study report must be received by the Department, approved by the Department, and published on the Department's website for at least thirty (30) days before construction can commence. Upon submission to the Department, SLIP study reports must meet all relevant statutory requirements, as well as the standards and criteria indicated in Chapter 62S-7, Florida Administrative Code.

12. Permits. The Grantee acknowledges that receipt of this grant does not imply nor guarantee that a federal, state, or local permit will be issued for a particular activity. The Grantee agrees to ensure that all necessary permits are obtained prior to implementation of any grant-funded activity that may fall under applicable federal, state, or local laws. Further, the Grantee shall abide by all terms and conditions of each applicable permit for any grant-funded activity. Upon request, the Grantee must provide a copy of all required, acquired, and approved permits for the project.

13. Grant funds may not be used to support ongoing efforts to comply with certain legal requirements or actions that were unanticipated, non-existent, or unknown to the Department at the time of this Agreement's execution, including regulatory and permit compliance requirements, non-compliance and citation fees, fees resulting from unanticipated permit conditions, settlement agreements, and compliance with formal or informal enforcement actions to resolve violations of applicable rules and statutes (including consent orders, Closed Without Official Enforcement agreements, and similar enforcement actions). Grant funds may be utilized to support ongoing efforts to comply with permit-required conditions, as approved by the Resilient Florida Program (e.g., pre-, during-, and post-construction monitoring and mitigation efforts).

Grants Funded with American Rescue Plan Act (ARPA) Funds

14. Match Expenditure Monitoring. For any match-funded deliverable(s) identified in Attachment 3, Grant Work Plan, not accepted by the Department by the Date of Expiration listed in Section 3 to the Standard Grant Agreement (as modified by any properly executed amendment(s), as applicable), the Grantee must submit Exhibit M, Match Expenditure Monitoring Form, to the Department prior to ARPA-funded grant closeout to identify all remaining deliverable(s) which are to be completed solely using Grantee match funding. Failure

to submit Exhibit M and all remaining Project deliverables to the Department, as well as meet the Match Requirements identified in Section 7 to Attachment 2, may hinder the Grantee's chances of receiving future grant awards from the Resilient Florida Program.

CITY OF OCALA ADAPTATION PLAN

City of Ocala

Final Project Report

Insert Month & Year

This report is funded in part through a grant agreement from the Florida Department of Environmental Protection. The views, statements, findings, conclusions, and recommendations expressed herein are those of the author(s) and do not necessarily reflect the views of the State of Florida or any of its subagencies.

Part I. Executive Summary

Part II. Methodology

Part III. Outcome

Include the following: 1) evaluation of project's ability to meet goals and expected performance measures and provide explanation for why goals were not met, if applicable; 2) identify successful outcomes, areas for improvement, and quantifiable metrics (including the assigned metric in Exhibit A, if applicable) as a result of the project; and 3) final project photos, if an implementation construction project.

Part IV. Further Recommendations

Instructions for completing Exhibit F Final Project Report Form:

DEP AGREEMENT NO.: This is the number on your grant agreement.

GRANTEE NAME: Enter the name of the grantee's agency.

PROJECT TITLE: Enter the title shown on the first page of the grant agreement.

MONTH & YEAR: Enter month and year of publication

The final Project Report must contain the following sections: Executive Summary, Methodology, Outcome, and Further Recommendations. The Final Project Report must comply with the publication requirements in the grant agreement. Please limit the final project report to no more than five (5) pages. One electronic copy shall be submitted to the Department's Grant Manager for approval. Final payment will be held until receipt and approval of the Final Project Report.

Questions regarding completion of the Final Project Report should be directed to the Department's Grant Manager, identified in paragraph 18 of this agreement.

PHOTOGRAPHER RELEASE FORM
FOR PHOTOGRAPHS, VIDEOS, AUDIO RECORDINGS AND ARTWORKS

DEP AGREEMENT NO: 25PLN17

RELEASE FORM FOR PHOTOGRAPHS, VIDEOS, AUDIO RECORDINGS AND ARTWORKS

Owner/Submitter's Name: _____

Address: _____

City: _____ **State:** _____ **Zip:** _____

Phone Number: (_____) _____ **Email:** _____

License and Indemnification

I certify that I am the owner of the photograph(s), video(s), audio recording(s) and/or artwork(s) being submitted and am eighteen (18) years of age or older.

I hereby grant to the Florida Department of Environmental Protection the royalty-free and non-exclusive right to distribute, publish and use the photograph(s), video(s), audio recording(s) and art work(s) submitted herewith (the "Work") to promote the Florida Department of Environmental Protection. Uses may include, but are not limited to:

1. Promotion of FDEP (including, but limited to publications, websites, social media venues, advertisements, etc.); and
2. Distribution to the media; and
3. Use in commercial products.

The Florida Department of Environmental Protection reserves the right to use/not use any Work as deemed appropriate by the Florida Department of Environmental Protection. No Work will be returned once submitted.

I hereby acknowledge that the Florida Department of Environmental Protection shall bear no responsibility whatsoever for protecting the Work against third-party infringement of my copyright interest or other intellectual property rights or other rights I may hold in such Work, and in no way shall be responsible for any losses I may suffer as a result of any such infringement; and I hereby represent and warrant that the Work does not infringe the rights of any other individual or entity.

I hereby unconditionally release, hold harmless and indemnify the Florida Department of Environmental Protection, its employees, volunteers, and representatives of and from all claims, liabilities and losses arising out of or in connection with the Florida Department of Environmental Protection's use of the Work. This release and indemnification shall be binding upon me, and my heirs, executors, administrators and assigns.

I have read and understand the terms of this release.

CONTRACTUAL SERVICES CERTIFICATION

Exhibit H

Required for all grant agreements that include Contractual Services as an expenditure category.

DEP Agreement Number: 25PLN17

Project Title: City of Ocala Adaptation Plan

Grantee: City of Ocala

Subcontractor: _____

Note: Submit separate Exhibit H Certification for each additional subcontractor.

Prior to making a request for payment of contractual services, the Grantee must provide the following to the Department Grant Manager then responsible for the Grantee's Resilient Florida Grant Program grant agreement:

1. Documentation of the Grantee's procurement process, as consistent with Attachment 1, Paragraph 9(c) and Attachment 2, Paragraph 11;
2. A list of all subcontractor quote and/or bid amounts (as applicable), including the company name and address for each subcontractor;
3. An explanation of how and why the Grantee made their determination(s) for the subcontractor(s) selected to perform certain task(s) under the Grantee's relevant grant agreement;
4. A copy of the Grantee's executed subcontract agreement, as required by Attachment 2, Paragraph 11; and
5. This Exhibit H, signed and dated by the Grantee's own (non-Departmental) grant manager.

By signing below, I certify that, on behalf of the Grantee, I have provided all the information required by items 1. through 4. of this exhibit, as stated above, to the Department Grant Manager currently responsible for the Grantee's Resilient Florida Grant Program grant agreement. I also certify that the procurement process the Grantee utilized follows all of said Grantee's non-Departmental policies and procedures for subcontractors.

INDIVIDUAL PROJECT ORDER NUMBER 2024-7

Describing a specific agreement between Kimley-Horn and Associates, Inc. (Kimley-Horn or Consultant) and The City of Ocala (the City or Client) in accordance with the terms of the Master Agreement for Continuing Professional Services, Contract ENG/210895 dated September 25, 2022, which is incorporated herein by reference.

Identification of Project:

Project: Stormwater Master Plan
Client: City of Ocala
Project Manager: Alan Garri, P.E.

General Category of Services:

The scope of services and fees described herein are based upon the following assumptions and project understanding.

1. The City currently operates stormwater management facilities and programs within the incorporated City limits. To address flood protection for its residents, the City seeks to identify and address critical issues through the creation and implementation of a Stormwater Master Plan (SWMP). This Project helps to address these needs by identifying limits of flooding during the various design storm events based on the most up-to-date development information and topographic data. The City also desires to include an analysis of existing water quality concerns in this SWMP.

2. The SWMP will be based on an existing conditions stormwater model and associated data developed as part of a Vulnerability Assessment to be completed for the City as a separate project.

3. It is understood that the model developed as part of the Vulnerability Assessment may be regional in nature and may not reflect a model scale that would capture proposed improvements. Additional model revisions within areas of interest should be performed to ensure that proposed improvements are modeled at an appropriate scale.

4. The SWMP will include an analysis of pollutant loading within the City based on available land use data, existing conveyance and assumed treatment based on the created existing conditions ICPR4 model.

5. The SWMP will evaluate conceptual improvements to the existing stormwater management system within the City based on modeled flooding reduction, modeled water quality improvement, and estimated cost.

6. The completed model and findings of this Project may be leveraged in future projects, such as infrastructure projects, FEMA map revisions, and grant applications. However, additional project-specific updates and information may be needed as the model being created is a planning level tool specifically for the SWMP.

SPECIFIC SCOPE OF BASIC SERVICES

Kimley-Horn will provide the services specifically set forth below.

<u>Task 1 - Project Meetings and Administration</u>

A. Kickoff Meeting: Kimley-Horn will attend a kickoff meeting with the City to introduce team members, discuss the scope and timeline of work, establish communication preferences, and discuss project administration and invoicing. During the Kickoff Meeting, the City will identify historic flooding locations.

B. Progress Meetings: Kimley-Horn will attend up to eight progress meetings throughout the duration of the project. Kimley-Horn will prepare a meeting agenda and meeting notes for each progress meeting and will provide these to the City.

C. Deliverables:

1) Meeting Agenda and Notes for Kickoff Meeting – one (1) electronic copy in PDF format

2) Meeting Agenda and Notes for each progress meeting – one (1) electronic copy in PDF format for each of the 8 meetings

Task 2 - Area of Interest Identification and Data Collection

A. Area of interest identification: Based on findings from the vulnerability assessment, Kimley-Horn and City will meet to identify fifteen (15) areas of interest that have the potential for future stormwater improvements or that are of special concern to the City. Kimley-Horn will prepare a map that serves as a list of selected areas of interest based on this meeting.

B. Field Visit: Within the selected areas of interest, Kimley-Horn will visit the field to verify local drainage patterns and drainage structures. Kimley-Horn will photograph and document the size and material of the accessible major conveyance stormwater structures visited. It is anticipated that areas and structures that have already been visited in past studies or are already to the desired level of detail will be visited as needed. This total subtask is limited to 5 days of fieldwork.

C. Survey and Coordination with Surveyor: Kimley-Horn will coordinate with the surveyor to identify survey needs and provide requested information to the surveyor. It is anticipated that survey needs will be identified for some areas ahead of others. The cost associated with Task 2C will only be for Kimley-Horn's coordination efforts. Cost for the survey work will be approved under a separate contract amendment.

D. Deliverables:

1) Kimley-Horn will compile information collected in Task 2 into a single deliverable folder with a list of data collected. The data contained in the deliverable will be limited to data relevant to model development.

2) Areas of Interest Map – One (1) electronic copy in PDF format

Task 3 - Existing Conditions Model Refinement

A. Existing Conditions Model – Area of Interest Refinement: Kimley-Horn will utilize the existing model created as a baseline for a refined existing conditions model that will provide additional model detail at each of the ten selected areas of interest. The additional model detail of the refined model will represent existing drainage patterns that are local in each area of interest that were not reflected in the existing model from the vulnerability assessment. The additional model detail may include changes to the basins, nodes, and links of the existing conditions model that reflect local storm structures, storage areas, or other local drainage features. Refinement to this level of detail will be limited to the areas of interest.

B. Deliverable:

1) Exhibit of level pool floodplains for one design storm event at each area of interest

Task 4 - Pollutant Loading Analysis

A. Water Quality Data Review: Kimley-Horn will review available Florida Department of Environmental Protection (FDEP) documents, including Total Maximum Daily Loads or Basin Management Action Plans ("BMAPs") within the study area, as well as review available water quality data from FDEP and Environmental Protection Agency (EPA).

B. Pollutant Loading Analysis: Based on the findings of the water quality data review, the City will provide direction on pollutants of interest (anticipated to be 2-5). For each pollutant of interest, Kimley-Horn will perform a spreadsheet-based pollutant load analysis that will calculate assumed

loading within the project area for a given calendar year. It is anticipated that pollutant loading will be based on land use and include each modeled basin. The analysis will summarize pollutant loadings into identified areas of pollutant concern based on flow direction and loading from the stormwater model. Kimley-Horn will submit a Technical Memorandum that will summarize the pollutant load analysis methodology and results to the City for review and comment and will update the pollutant analysis one time based on City feedback.

C. Deliverable:

1) Pollutant Loading Analysis Technical Memorandum

Task 5 - Flood Protection Level of Service Determination

A. Level of Service Analysis: The City will provide a list of desired Level of Service ("LOS") criteria, which will consist of goals for existing structural and paved features to be above the floodplain elevations of certain design storms based on the results of Task 3. Kimley-Horn will review landmark elevations which will include estimated ground elevations around building footprints, assumed finish floor elevations, and pavement elevations. The City will provide the building footprint layer and road centerline layer if available, or open-source data will be utilized. Kimley-Horn will compare the landmark elevations to the relevant design storm floodplains as defined by the City's LOS criteria to identify areas where the LOS criteria is not being met. Kimley-Horn will then prepare maps showing all portions of the City that are not meeting LOS criteria.

B. Deliverable:

1) Level of Service Maps

Task 6 - Alternatives Analysis

A. Initial Project Selection: Based on the results from Tasks 4 and 5, Kimley-Horn will identify areas for potential projects. Once basins are identified, Kimley-Horn will review those areas for open land or other potential project locations for proposed projects. Kimley-Horn will meet with the City to review locations of potential projects and choose areas and/or types of projects to focus on for the alternatives analysis. Kimley-Horn will discuss flood reduction goals with the City and create preliminary layouts of the drainage improvements.

B. Project Refinement: Kimley-Horn will identify a list of up to ten (10) proposed project areas. For each project area, Kimley-Horn will conduct an alternatives analysis that will perform up to ten (10) model iterations that will reflect proposed stormwater improvement alternatives associated with the identified projects. The modeled iterations will be reviewed, and the most effective iteration will be chosen as the Refined Project. Kimley-Horn will create updated level pool floodplains from the Refined Projects and prepare an exhibit comparing the level pool floodplains for each design storm in existing conditions and for the Refined Projects. The LOS Analysis will be updated for each project, demonstrating the project's level of service. The Pollutant Loading Analysis will be updated for each project to demonstrate the effectiveness of pollutant reduction.

C. Preliminary Project Layout: Kimley-Horn will create a Preliminary Project Layout for each Refined Project. This layout will serve as exhibit that illustrates the scale and nature of the project. Each Preliminary Project Layout will include a schematic of the existing modeled infrastructure and preliminary schematics of proposed storage and infrastructure changes. A Preliminary Project Layout will be prepared for all model storm events with existing and proposed model results in the form of level pool floodplains shown for a chosen storm event. The Preliminary Project Layouts will show the level of service improvement for each project area for a chosen storm event.

D. Deliverable:

1) List of Selected Projects

2) Preliminary Project Layouts – one for each design storm event – 10 total

3) Updated Pollutant Loading Analysis that will include analysis on pollutant loading reduction associated with Refined Projects.

4) Updated LOS Analysis will include analysis of LOS improvement associated with Refined Projects.

Task 7 - Benefit-Cost Analysis

A. Preliminary Opinions of Probable Construction Cost: Kimley-Horn will prepare preliminary opinions of probable construction cost (OPCC) (Class II level) for the ten (10) Refined Projects. The preliminary OPCC will be developed using current industry information. The information will be used to compare the alternatives and general anticipated cost. Further refinement of the OPCC will be developed in the future.

B. Benefit-Cost Rank: Kimley-Horn will prepare an overall benefit-cost analysis. The benefits will be based on the overall drainage improvements (LOS improvement) and improved water quality based on the Best Management Practice (BMP) analysis. The cost will be based on the prepared cost estimate for each alternative. Kimley-Horn will compare the benefits to the cost and create a ranking for review with the City.

C. Decision Support Matrix: Kimley-Horn will prepare a decision support matrix that compares the benefits and anticipated costs of each alternative, as well as additional considerations provided by the City. Kimley-Horn will meet with the City to obtain any additional input and will add additional potential categories for use in a decision support matrix. The City will also provide input if each category should be weighted.

D. Deliverables:

1) Opinion of Probable Construction Cost – one (1) OPC for each of the ten (10) Refined Projects.

2) Benefit-Cost Ranking – one (1) electronic copy in PDF format

3) Decision Support Matrix – one (1) electronic copy in PDF format

Task 8 - Final Report and Recommendation

A. Grant Funding Opportunities Review: Kimley-Horn will review grants that may be available for projects developed under Task 6. This will be completed more generally based on project types, rather than project by project. A description of potential grant funding sources will be included in the Final Report.

B. Recommend Alternative Report: Kimley-Horn will create a report describing the analysis used to determine the final recommended alternatives. The report will include a brief discussion of model development, preliminary layouts, opinions of probable costs, and the decision support matrix. Kimley-Horn will submit a draft version of the report to the City for review. Kimley-Horn will address City comments and prepare a final report for submittal to the City.

C. Deliverables:

1) Draft Report (PDF)

2) Final Report, signed and sealed (PDF)

INFORMATION PROVIDED BY CLIENT

Kimley-Horn shall be entitled to rely on the completeness and accuracy of all information provided by the City or the City's consultants or representatives. The City shall provide all information requested by Kimley-Horn during the Project.

SCHEDULE

Kimley-Horn will prove the Scope of Services as expeditiously as practicable with the goal of meeting a mutually beneficial schedule.

METHOD OF COMPENSATION

Kimley-Horn will perform the services in Tasks 1 - 8 for the total lump sum labor fee below.

Task Description	*Lump Sum Fee*
Task 1- Project Meetings and Administration	$16,531.90
Task 2 - Area of Interest Identification and Data Collection	$24,517.62
Task 3 - Existing Conditions Model Refinement	$49,217.00
Task 4 - Pollutant Loading Analysis	$65,529.62
Task 5 - Flood Protection Level of Service Determination	$25,485.85
Task 6 - Alternatives Analysis	$123,073.66
Task 7 - Benefit-Cost Analysis	$94,803.66
Task 8 - Final Report and Recommendation	$63,010.80
Total	***$462,170.11***

In addition to the lump sum labor fee, direct reimbursable expenses such as express delivery services, fees, air travel, and other direct expenses will be billed at 1.15 times cost. All permitting, application, and similar project fees will be paid directly by the Client.

Lump sum fees will be invoiced monthly based upon the overall percentage of services performed. Reimbursable expenses will be invoiced based upon expenses incurred. Payment will be due within 25 days of your receipt of the invoice and should include the invoice number and Kimley-Horn project number.

Department: Engineering

STAFF RECOMMENDATION (Motion Ready):
Approve Task Work Order No. 51 with Kimley-Horn & Associates, Inc. for the provision of professional engineering services related to the creation and implementation of a Stormwater Master Plan for the City of Ocala in the amount of $462,170

OCALA'S RELEVANT STRATEGIC GOALS:
Quality of Place.

PROOF OF PUBLICATION:
N/A

BACKGROUND:

The City of Ocala (City) currently operates stormwater management facilities and programs within the incorporated City limits. To address flood protection for its residents, the City seeks to identify and address critical issues through the creation and implementation of a Stormwater Master Plan (SWMP). The SWMP will address these needs by identifying limits of flooding during the various design storm events based on the most up-to-date development information and topographic data.

The SWMP will be based on an existing conditions stormwater model and associated data developed as part of the Vulnerability Assessment (VA) which is currently in progress as a separate project performed under Kimley -Horn and Associates, Inc. (Kimley-Horn) Task Work Order (TWO) No.37 and partially funded by Florida Department of Environmental Protection (FDEP) grant agreement 24PLN40. The SWMP will use the model developed in the VA to analyze the flood impacts to a higher level of detail within the City. The SWMP will also make recommendations for implementation of projects to address and mitigate the flood risk to critical infrastructure identified in the VA.

In June 2024, Kimley- Horn applied on the City's behalf for grant 25PL17 to help fund the proposed cost of $462,170.11 for the development of the SWMP from the VA, as shown in TWO No.51 from Kimley-Horn and Associates.

Services are being provided in accordance with the City's Agreement for Continuing Professional Engineering Services (Contract No. ENG/210895) which was approved by City Council on September 20, 2022.

FINDINGS AND CONCLUSIONS:
As the VA is still in progress by Kimley-Horn, and the SWMP is developed from the VA, the Engineering Department requests approval of Task Work Order No. 51 to allow Kimley-Horn to provide the engineering services necessary for the creation and implementation of the SWMP for City at a lump sum cost of $462,170.11. Staff recommends approval.

FISCAL IMPACT:
This project has a total cost of $462,170.11, and funds are available in Fiscal Year 2025. $300,000 is funded by the FDEP grant 25PL17 in account 158-050-396-538-53-31010, and the remaining balance of $162,170.11 is funded by Stormwater Utility Funds in account 158-020-396-538-53-31010.

PROCUREMENT REVIEW:
These services were procured, and Task Work Order reviewed, in compliance with the City's Procurement Policy.

LEGAL REVIEW:
The Master Service Agreement governing this Task Work Order was reviewed and approved for form and legality by former City Attorney, Robert W. Batsel, Jr

ALTERNATIVE:

Kimley»Horn

INDIVIDUAL PROJECT ORDER NUMBER 2024-7

Describing a specific agreement between Kimley-Horn and Associates, Inc. (Kimley-Horn or Consultant) and The City of Ocala (the City or Client) in accordance with the terms of the Master Agreement for Continuing Professional Services, Contract ENG/210895 dated September 25, 2022, which is incorporated herein by reference.

Identification of Project:

Project: Stormwater Master Plan
Client: City of Ocala
Project Manager: Alan Garri, P.E.

General Category of Services:

The scope of services and fees described herein are based upon the following assumptions and project understanding.

1. The City currently operates stormwater management facilities and programs within the incorporated City limits. To address flood protection for its residents, the City seeks to identify and address critical issues through the creation and implementation of a Stormwater Master Plan (SWMP). This Project helps to address these needs by identifying limits of flooding during the various design storm events based on the most up-to-date development information and topographic data. The City also desires to include an analysis of existing water quality concerns in this SWMP.

2. The SWMP will be based on an existing conditions stormwater model and associated data developed as part of a Vulnerability Assessment to be completed for the City as a separate project.

3. It is understood that the model developed as part of the Vulnerability Assessment may be regional in nature and may not reflect a model scale that would capture proposed improvements. Additional model revisions within areas of interest should be performed to ensure that proposed improvements are modeled at an appropriate scale.

4. The SWMP will include an analysis of pollutant loading within the City based on available land use data, existing conveyance and assumed treatment based on the created existing conditions ICPR4 model.

5. The SWMP will evaluate conceptual improvements to the existing stormwater management system within the City based on modeled flooding reduction, modeled water quality improvement, and estimated cost.

6. The completed model and findings of this Project may be leveraged in future projects, such as infrastructure projects, FEMA map revisions, and grant applications. However, additional project-specific updates and information may be needed as the model being created is a planning level tool specifically for the SWMP.

SPECIFIC SCOPE OF BASIC SERVICES

Kimley-Horn will provide the services specifically set forth below.

Task 1 - Project Meetings and Administration

A. Kickoff Meeting: Kimley-Horn will attend a kickoff meeting with the City to introduce team members, discuss the scope and timeline of work, establish communication preferences, and discuss project administration and invoicing. During the Kickoff Meeting, the City will identify historic flooding locations.

B. Progress Meetings: Kimley-Horn will attend up to eight progress meetings throughout the duration of the project. Kimley-Horn will prepare a meeting agenda and meeting notes for each progress meeting and will provide these to the City.

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

C. Deliverables:

1) Meeting Agenda and Notes for Kickoff Meeting – one (1) electronic copy in PDF format

2) Meeting Agenda and Notes for each progress meeting – one (1) electronic copy in PDF format for each of the 8 meetings

Task 2 - Area of Interest Identification and Data Collection

A. Area of interest identification: Based on findings from the vulnerability assessment, Kimley-Horn and City will meet to identify fifteen (15) areas of interest that have the potential for future stormwater improvements or that are of special concern to the City. Kimley-Horn will prepare a map that serves as a list of selected areas of interest based on this meeting.

B. Field Visit: Within the selected areas of interest, Kimley-Horn will visit the field to verify local drainage patterns and drainage structures. Kimley-Horn will photograph and document the size and material of the accessible major conveyance stormwater structures visited. It is anticipated that areas and structures that have already been visited in past studies or are already to the desired level of detail will be visited as needed. This total subtask is limited to 5 days of fieldwork.

C. Survey and Coordination with Surveyor: Kimley-Horn will coordinate with the surveyor to identify survey needs and provide requested information to the surveyor. It is anticipated that survey needs will be identified for some areas ahead of others. The cost associated with Task 2C will only be for Kimley-Horn's coordination efforts. Cost for the survey work will be approved under a separate contract amendment.

D. Deliverables:

1) Kimley-Horn will compile information collected in Task 2 into a single deliverable folder with a list of data collected. The data contained in the deliverable will be limited to data relevant to model development.

2) Areas of Interest Map – One (1) electronic copy in PDF format

Task 3 - Existing Conditions Model Refinement

A. Existing Conditions Model – Area of Interest Refinement: Kimley-Horn will utilize the existing model created as a baseline for a refined existing conditions model that will provide additional model detail at each of the ten selected areas of interest. The additional model detail of the refined model will represent existing drainage patterns that are local in each area of interest that were not reflected in the existing model from the vulnerability assessment. The additional model detail may include changes to the basins, nodes, and links of the existing conditions model that reflect local storm structures, storage areas, or other local drainage features. Refinement to this level of detail will be limited to the areas of interest.

B. Deliverable:

1) Exhibit of level pool floodplains for one design storm event at each area of interest

Task 4 - Pollutant Loading Analysis

A. Water Quality Data Review: Kimley-Horn will review available Florida Department of Environmental Protection (FDEP) documents, including Total Maximum Daily Loads or Basin Management Action Plans ("BMAPs") within the study area, as well as review available water quality data from FDEP and Environmental Protection Agency (EPA).

B. Pollutant Loading Analysis: Based on the findings of the water quality data review, the City will provide direction on pollutants of interest (anticipated to be 2-5). For each pollutant of interest, Kimley-Horn will perform a spreadsheet-based pollutant load analysis that will calculate assumed

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

loading within the project area for a given calendar year. It is anticipated that pollutant loading will be based on land use and include each modeled basin. The analysis will summarize pollutant loadings into identified areas of pollutant concern based on flow direction and loading from the stormwater model. Kimley-Horn will submit a Technical Memorandum that will summarize the pollutant load analysis methodology and results to the City for review and comment and will update the pollutant analysis one time based on City feedback.

C. Deliverable:

1) Pollutant Loading Analysis Technical Memorandum

Task 5 - Flood Protection Level of Service Determination

A. Level of Service Analysis: The City will provide a list of desired Level of Service ("LOS") criteria, which will consist of goals for existing structural and paved features to be above the floodplain elevations of certain design storms based on the results of Task 3. Kimley-Horn will review landmark elevations which will include estimated ground elevations around building footprints, assumed finish floor elevations, and pavement elevations. The City will provide the building footprint layer and road centerline layer if available, or open-source data will be utilized. Kimley-Horn will compare the landmark elevations to the relevant design storm floodplains as defined by the City's LOS criteria to identify areas where the LOS criteria is not being met. Kimley-Horn will then prepare maps showing all portions of the City that are not meeting LOS criteria.

B. Deliverable:

1) Level of Service Maps

Task 6 - Alternatives Analysis

A. Initial Project Selection: Based on the results from Tasks 4 and 5, Kimley-Horn will identify areas for potential projects. Once basins are identified, Kimley-Horn will review those areas for open land or other potential project locations for proposed projects. Kimley-Horn will meet with the City to review locations of potential projects and choose areas and/or types of projects to focus on for the alternatives analysis. Kimley-Horn will discuss flood reduction goals with the City and create preliminary layouts of the drainage improvements.

B. Project Refinement: Kimley-Horn will identify a list of up to ten (10) proposed project areas. For each project area, Kimley-Horn will conduct an alternatives analysis that will perform up to ten (10) model iterations that will reflect proposed stormwater improvement alternatives associated with the identified projects. The modeled iterations will be reviewed, and the most effective iteration will be chosen as the Refined Project. Kimley-Horn will create updated level pool floodplains from the Refined Projects and prepare an exhibit comparing the level pool floodplains for each design storm in existing conditions and for the Refined Projects. The LOS Analysis will be updated for each project, demonstrating the project's level of service. The Pollutant Loading Analysis will be updated for each project to demonstrate the effectiveness of pollutant reduction.

C. Preliminary Project Layout: Kimley-Horn will create a Preliminary Project Layout for each Refined Project. This layout will serve as exhibit that illustrates the scale and nature of the project. Each Preliminary Project Layout will include a schematic of the existing modeled infrastructure and preliminary schematics of proposed storage and infrastructure changes. A Preliminary Project Layout will be prepared for all model storm events with existing and proposed model results in the form of level pool floodplains shown for a chosen storm event. The Preliminary Project Layouts will show the level of service improvement for each project area for a chosen storm event.

D. Deliverable:

1) List of Selected Projects

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

2) Preliminary Project Layouts – one for each design storm event – 10 total

3) Updated Pollutant Loading Analysis that will include analysis on pollutant loading reduction associated with Refined Projects.

4) Updated LOS Analysis will include analysis of LOS improvement associated with Refined Projects.

Task 7 - Benefit-Cost Analysis

A. Preliminary Opinions of Probable Construction Cost: Kimley-Horn will prepare preliminary opinions of probable construction cost (OPCC) (Class II level) for the ten (10) Refined Projects. The preliminary OPCC will be developed using current industry information. The information will be used to compare the alternatives and general anticipated cost. Further refinement of the OPCC will be developed in the future.

B. Benefit-Cost Rank: Kimley-Horn will prepare an overall benefit-cost analysis. The benefits will be based on the overall drainage improvements (LOS improvement) and improved water quality based on the Best Management Practice (BMP) analysis. The cost will be based on the prepared cost estimate for each alternative. Kimley-Horn will compare the benefits to the cost and create a ranking for review with the City.

C. Decision Support Matrix: Kimley-Horn will prepare a decision support matrix that compares the benefits and anticipated costs of each alternative, as well as additional considerations provided by the City. Kimley-Horn will meet with the City to obtain any additional input and will add additional potential categories for use in a decision support matrix. The City will also provide input if each category should be weighted.

D. Deliverables:

1) Opinion of Probable Construction Cost – one (1) OPC for each of the ten (10) Refined Projects.

2) Benefit-Cost Ranking – one (1) electronic copy in PDF format

3) Decision Support Matrix – one (1) electronic copy in PDF format

Task 8 - Final Report and Recommendation

A. Grant Funding Opportunities Review: Kimley-Horn will review grants that may be available for projects developed under Task 6. This will be completed more generally based on project types, rather than project by project. A description of potential grant funding sources will be included in the Final Report.

B. Recommend Alternative Report: Kimley-Horn will create a report describing the analysis used to determine the final recommended alternatives. The report will include a brief discussion of model development, preliminary layouts, opinions of probable costs, and the decision support matrix. Kimley-Horn will submit a draft version of the report to the City for review. Kimley-Horn will address City comments and prepare a final report for submittal to the City.

C. Deliverables:

1) Draft Report (PDF)

2) Final Report, signed and sealed (PDF)

Docusign Envelope ID: 8C8DCE3C-7142-4898-B3DE-FF1F167B8A42

INFORMATION PROVIDED BY CLIENT

Kimley-Horn shall be entitled to rely on the completeness and accuracy of all information provided by the City or the City's consultants or representatives. The City shall provide all information requested by Kimley-Horn during the Project.

SCHEDULE

Kimley-Horn will prove the Scope of Services as expeditiously as practicable with the goal of meeting a mutually beneficial schedule.

METHOD OF COMPENSATION

Kimley-Horn will perform the services in Tasks 1 - 8 for the total lump sum labor fee below.

Task Description	*Lump Sum Fee*
Task 1- Project Meetings and Administration	$16,531.90
Task 2 - Area of Interest Identification and Data Collection	$24,517.62
Task 3 - Existing Conditions Model Refinement	$49,217.00
Task 4 - Pollutant Loading Analysis	$65,529.62
Task 5 - Flood Protection Level of Service Determination	$25,485.85
Task 6 - Alternatives Analysis	$123,073.66
Task 7 - Benefit-Cost Analysis	$94,803.66
Task 8 - Final Report and Recommendation	$63,010.80
Total	***$462,170.11***

In addition to the lump sum labor fee, direct reimbursable expenses such as express delivery services, fees, air travel, and other direct expenses will be billed at 1.15 times cost. All permitting, application, and similar project fees will be paid directly by the Client.

Lump sum fees will be invoiced monthly based upon the overall percentage of services performed. Reimbursable expenses will be invoiced based upon expenses incurred. Payment will be due within 25 days of your receipt of the invoice and should include the invoice number and Kimley-Horn project number.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, City of Ocala - Procurement & Contracting (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact City of Ocala - Procurement & Contracting:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: contracts@ocalafl.org

To advise City of Ocala - Procurement & Contracting of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at contracts@ocalafl.org and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from City of Ocala - Procurement & Contracting

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to contracts@ocalafl.org and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with City of Ocala - Procurement & Contracting

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to contracts@ocalafl.org and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify City of Ocala - Procurement & Contracting as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by City of Ocala - Procurement & Contracting during the course of your relationship with City of Ocala - Procurement & Contracting.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Standard Grant Agreement

This Agreement is entered into between the Parties named below, pursuant to section 215.971, Florida Statutes:

1. Project Title (Project): City of Ocala Adaptation Plan

Agreement Number: 25PLN17

2. Parties **State of Florida Department of Environmental Protection, 3900 Commonwealth Boulevard Tallahassee, Florida 32399-3000** (Department)

Grantee Name: City of Ocala

Entity Type: Local Government

Grantee Address: 110 SE Watula Avenue Ocala, Florida 34471

FEID: 59-6000392

(Grantee)

3. Agreement Begin Date: 7/1/2024

Date of Expiration: 6/30/2027

4. Project Number: *(If different from Agreement Number)*

Project Location(s): Marion County, Florida

Project Description: The project will complete an Adaptation Plan (AP) consistent with the Florida Adaptation Planning Guidebook. The Project will include public outreach and stakeholder engagement.

5. Total Amount of Funding: $300,000.00

Funding Source?	Award #s or Line-Item Appropriations:	Amount per Source(s):
☑ State ☐ Federal	FY 24-25 GAA Line Item #1854	$ 300,000.00
☐ State ☐ Federal		$
☐ State ☐ Federal		$
☐ Grantee Match		$
	Total Amount of Funding + Grantee Match, if any:	$ 300,000.00

6. Department's Grant Manager

Name: George Begley or successor

Address: Resilient Florida Program
3900 Commonwealth Boulevard, MS230
Tallahassee, Florida 32399

Phone: 850-245-8020

Email: George.Begley@FloridaDEP.gov

Grantee's Grant Manager

Name: Sean Lanier or successor

Address: City of Ocala
1805 NE 30th Ave, Bldg 600
Ocala, Florida 34470

Phone: 352-351-6772

Email: SLanier@OcalaFL.gov

7. The Parties agree to comply with the terms and conditions of the following attachments and exhibits which are hereby incorporated by reference:

☑ Attachment 1: Standard Terms and Conditions Applicable to All Grants Agreements
☑ Attachment 2: Special Terms and Conditions
☑ Attachment 3: Grant Work Plan
☑ Attachment 4: Public Records Requirements
☑ Attachment 5: Special Audit Requirements
☑ Attachment 6: Program-Specific Requirements
☐ Attachment 7: Grant Award Terms (Federal) *Copy available at https://facts.fldfs.com, in accordance with section 215.985, F.S.
☐ Attachment 8: Federal Regulations and Terms (Federal)
☐ Additional Attachments (if necessary):
☑ Exhibit A: Progress Report Form

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement; and/or
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subgrantees shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Invoice reduction

If Grantee does not meet a deadline for any deliverable, the Department will reduce the invoice by 1% for each day the deadline is missed, unless an extension is approved in writing by the Department.

c. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.

   i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

   ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department

does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/state-agencies/reference-guide-for-state-expenditures.pdf.

e. Rural Communities and Rural Areas of Opportunity. If Grantee is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" (RAO) as defined in subsection 288.0656(2), F.S., such Grantee may request from the Department that all invoice payments under this Agreement be directed to the relevant county or municipality or to the RAO itself. The Department will agree to Grantee's request if:

i. Grantee demonstrates that it is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" under subsection 288.0656(2), F.S.;

ii. Grantee demonstrates current financial hardship using one (1) or more of the "economic distress" factors defined in subsection 288.0656(2)(c), F.S.;

iii. Grantee's performance has been verified by the Department, which has determined that Grantee is eligible for invoice payments and that Grantee's performance has been completed in accordance with this Agreement's terms and conditions; and

iv. Applicable federal and state law(s), rule(s) and regulation(s) allow for such payments.

This subsection may not be construed to alter or limit any other applicable provisions of federal or state law, rule, or regulation. A current list of Florida's designated RAOs can be accessed at the following web address: https://floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity.

f. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

g. State Funds Documentation. Pursuant to section 216.1366, F.S., if Contractor meets the definition of a non-profit organization under section 215.97(2)(m), F.S., Contractor must provide the Department with documentation that indicates the amount of state funds:

i. Allocated to be used during the full term of the contract or agreement for remuneration to any member of the board of directors or an officer of Contractor.

ii. Allocated under each payment by the public agency to be used for remuneration of any member of the board of directors or an officer of the Contractor.

The documentation must indicate the amounts and recipients of the remuneration. Such information must be posted on the State's the contract tracking system and maintained pursuant to section 215.985, F.S., and must be posted on the Contractor's website, if Contractor maintains a website.

h. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

i. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

j. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

k. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: https://www.myfloridacfo.com/division/aa/local-governments/judgement-interest-rates.

l. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual Costs (Subcontractors). Match or reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. For grants funded with federal funds, nonconsumable and/or nonexpendable personal property or equipment costing $10,000 or more purchased for the Project under a subcontract is subject to the requirements set forth in 2 CFR 200. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors.

i. For fixed-price (vendor) subcontracts, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-

price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract. The Grantee may request approval from Department to award a fixed-price subcontract resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract.

ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S. or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with section 112.061, F.S.

e. Direct Purchase Equipment. For grants funded fully or in part with state funds, equipment is defined as capital outlay costing $5,000 or more. For grants funded fully with federal funds, equipment is defined as capital outlay costing $10,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department, and does not include any equipment purchased under the delivery of services to be completed by a subcontractor. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform

that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.

c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.

d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Sub-Grantees and/or Subcontractors. The Grantee shall require its sub-grantees and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its sub-grantees and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Sub-grantees and/or subcontractors must provide proof of insurance upon request.

b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.

c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.

d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.

e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.

b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.

c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.

d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.

e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant

Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first

arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchases may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this Agreement.

b. Pursuant to sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Development, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts issued as a result of this Agreement.

b. No person, on the grounds of race, creed, color, religion, national origin, age, gender, or disability, shall be excluded from participation in; be denied the proceeds or benefits of; or be otherwise subjected to discrimination in performance of this Agreement.

c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.

d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Build America, Buy America Act (BABA) - Infrastructure Projects with Federal Funding.
This provision does not apply to Agreements that are wholly funded by Coronavirus State and Local Fiscal Recovery Funds under the American Rescue Plan Act. Also, this provision does not apply where

there is a valid waiver in place. However, the provision may apply to funds expended before the waiver or after expiration of the waiver.

If applicable, Recipients or Subrecipients of an award of Federal financial assistance from a program for infrastructure are required to comply with the Build America, Buy America Act (BABA), including the following provisions:

a. All iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

b. All manufactured products used in the project are produced in the United States-this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and

c. All construction materials are manufactured in the United States-this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

25. Investing in America

Grantees of an award for construction projects in whole or in part by the Bipartisan Infrastructure Law or the Inflation Reduction Act, including the following provision:

a. Signage Requirements

a. Investing in America Emblem: The recipient will ensure that a sign is placed at construction sites supported in whole or in part by this award displaying the official Investing in America emblem and must identify the project as a "project funded by President Biden's Bipartisan Infrastructure Law" or "project funded by President Biden's Inflation Reduction Act" as applicable. The sign must be placed at construction sites in an easily visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period.

The recipient will ensure compliance with the guidelines and design specifications provided by EPA for using the official Investing in America emblem available at: https://www.epa.gov/invest/investing-america-signage.

b. Procuring Signs: Consistent with section 6002 of RCRA, 42 U.S.C. 6962, and 2 CFR 200.323, recipients are encouraged to use recycled or recovered materials when procuring signs. Signage costs are considered an allowable cost under this assistance agreement provided that the costs associated with signage are reasonable. Additionally, to increase public awareness of projects serving communities where English is not the predominant language, recipients are encouraged to translate the language on signs (excluding the official Investing in America emblem or EPA logo or seal) into the appropriate non-English language(s). The costs of such translation are allowable, provided the costs are reasonable.

26. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.

b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in section 287.135, F.S. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized

Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

c. As provided in subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions, then they shall become inoperative.

27. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to section 216.347, F.S., except that pursuant to the requirements of section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with sections 11.062 and 216.347, F.S.

28. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted, Grantee shall similarly require each subcontractor to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

29. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its sub-grantees and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its sub-grantees and/or subcontractors, respectively.

b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:

   i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;

   ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,

   iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.331 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect,

general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
    i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
    ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
    iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

30. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

31. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

32. Subcontracting.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.
b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.
c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract. The Department shall not be liable to any subcontractor for any expenses or liabilities incurred under any subcontract and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract.
e. The Department will not deny Grantee's employees, subcontractors, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. The Department supports diversity in its procurement program and requests that all subcontracting opportunities afforded by this Agreement embrace diversity enthusiastically. The award of subcontracts should reflect the full diversity of the citizens of the State. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Development at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s), and without the fault or negligence of either, unless the subcontracted products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

33. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee

is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

34. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

35. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

36. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

37. Grantee's Employees, Subcontractors and Agents.

All Grantee employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

38. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

39. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

40. Disclosure of Gifts from Foreign Sources.

If the value of the grant under this Agreement is $100,000 or more, Grantee shall disclose to Department any current or prior interest of, any contract with, or any grant or gift received from a foreign country of concern, as defined in section 286.101, F.S., if such interest, contract, or grant or gift has a value of $50,000 or more and such interest existed at any time or such contract or grant or gift was received or in force at any time during the previous 5 years. Such disclosure shall include the name and mailing address of the disclosing entity, the amount of the contract or grant or gift or the value of the interest disclosed, the applicable foreign country of concern and, if applicable, the date of termination of the contract or interest, the date of receipt of the grant or gift, and the name of the agent or controlled entity that is the source or interest holder. If the disclosure requirement is applicable as described above, then within 1 year before applying for any grant, Grantee must also provide a copy of such disclosure to the Department of Financial Services.

41. Food Commodities.

To the extent authorized by federal law, the Department, its grantees, contractors and subcontractors shall give preference to food commodities grown or produced in this state when purchasing food commodities, including farm products as defined in section 823.14, F.S., of any class, variety, or use thereof in their natural state or as processed by a farm operation or processor for the purpose of marketing such product.

42. Anti-human Trafficking.

If the Grantee is a nongovernmental entity, the Grantee must provide the Department with an affidavit signed by an officer or a representative of the Grantee under penalty of perjury attesting that the Grantee does not use coercion for labor or services as defined in section 787.06, F.S.

43. Iron and Steel for Public Works Projects.

If this Agreement funds a "public works project" as defined in section 255.0993, F.S., or the purchase of materials to be used in a public works project, any iron or steel permanently incorporated in the Project must be "produced in the United States," as defined in section 255.0993, F.S. This requirement does not apply if the Department determines that any of the following circumstances apply to the Project:

(1) iron or steel products produced in the United States are not produced in sufficient quantities, reasonably available, or of satisfactory quality;
(2) the use of iron or steel products produced in the United States will increase the total cost of the project by more than twenty percent (20%); or
(3) complying with this requirement is inconsistent with the public interest.

Further, this requirement does not prevent the Contractor's minimal use of foreign steel and iron materials if:

(1) such materials are incidental or ancillary to the primary product and are not separately identified in the project specifications; and
(2) the "cost" of such materials, as defined in section 255.0993, F.S., does not exceed one-tenth of one percent (1%) of the total Project Cost under this Agreement or $2,500, whichever is greater.

Electrical components, equipment, systems, and appurtenances, including supports, covers, shielding, and other appurtenances related to an electrical system that are necessary for operation or concealment (excepting transmission and distribution poles) are not considered to be iron or steel products and are, therefore, exempt from the requirements of this paragraph.

This provision shall be applied in a manner consistent with and may not be construed to impair the state's obligations under any international agreement.

44. Complete and Accurate information.

Grantee represents and warrants that all statements and information provided to DEP are current, complete, and accurate. This includes all statements and information in this Grant, as well as its Attachments and Exhibits.

45. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. 25PLN17

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is the City of Ocala Adaptation Plan. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement is the same as the term of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods may be added in accordance with 2.a above and are contingent upon proper and satisfactory technical and administrative performance by the Grantee and the availability of funding.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
