

	Mobile Communication Services (MCS-2)	SUNCOM Contract No.: DMS-19/20-006A End User Price List (EUPL)
DETAILED PRODUCT DESCRIPTION		
VOICE (PER MINUTE) RATE PLAN	SOC CODE	CONTRACT PRICE
(Flat Rate) Per Minute Voice Plan	ODNN00360	4.0¢ Nationwide Rate with 500 Mobile-to-Mobile minutes and 500 Nights & Weekend minutes with 4.0¢ Overage

Example: (Flat Rate) Per Minute Voice Plan (4.0¢ Nationwide Rate with 500 Mobile-to-Mobile minutes and 500 Nights & Weekend minutes with \$0.04 Overage) plus MSG3 (Unlimited Messages (SMS/MMS)) for \$5.15 = \$5.15/month plus any per minute voice charges.

Government Nation Flat Rate Voice Plan

AT&T Government Nation Flat Rate lets you pay by the minute with a flat per-minute rate on calls made or received anywhere on the AT&T network, and you can take advantage of our national network with no roaming charges. Available only to Government customers with a qualified wireless Government agreement from AT&T ("Government Agreement") and their respective Corporate Responsibility Users ("CRUs"). Flat Rate Plans are only available to customers' CRUs whose principal residence or principal Government office is within an eligible AT&T Wireless network area that has been fully integrated and has the system capacity to support Flat Rate Plans.

Minute Increment Billing and Usage

Airtime and other measured usage are billed in full-minute increments, and actual airtime and usage are rounded up to the next full increment at the end of each call for billing purposes. AT&T charges a full-minute increment of usage for every fraction of the

last minute used on each wireless call. Calls placed on networks served by other carriers may take longer to be processed, and billing for these calls may be delayed. Unanswered outgoing calls of 30 seconds or longer will incur airtime.

Mobile to Mobile Minutes

If applicable to your plan, Mobile to Mobile Minutes may be used when directly dialing or receiving calls from any other AT&T wireless phone number from within your calling area. Mobile to Mobile Minutes may not be used for interconnection to other networks. Calls to AT&T voicemail and return calls from voicemail are not included.

Nights and Weekends

Nights are 9:00 p.m. to 6:00 a.m. Weekends are 9:00 p.m. Friday to 6:00 a.m. Monday (based on time of day at the cell site or switch providing your Service). Included long distance calls can be made from the 50 United States, Puerto Rico and U.S. Virgin Islands to the 50 United States, Puerto Rico, U.S. Virgin Islands, Guam and Northern Mariana Islands. Roaming charges do not apply when roaming within the Services area of land-based networks of the 50 United States, Puerto Rico and U.S. Virgin Islands. Additional charges apply to Services used outside the land borders of the U.S., Puerto Rico and U.S. Virgin Islands.

VOICE POOLED MINUTE PLANS	SOC CODE	CONTRACT PRICE
100 Min Pooled Voice Plan (Nationwide)	GOVP100	\$18.54, 25¢/min over 100; unlimited Mobile-to-Mobile minutes, and 5000 Nights & Weekend minutes
200 Min Pooled Voice Plan (Nationwide)	GOVP200	\$20.60, 25¢/min over 200; unlimited Mobile-to-Mobile minutes, and 5000 Nights & Weekend minutes
300 Min Pooled Voice Plan (Nationwide)	GOVP300U	\$23.69, 25¢/min over 300; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
400 Min Pooled Voice Plan (Nationwide)	GOVP400U	\$24.99, 25¢/min over 400; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
500 Min Pooled Voice Plan (Nationwide)	GOVP500	\$31.93, 25¢/min over 500; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
600 Min Pooled Voice Plan (Nationwide)	GOVP600	\$32.99, 25¢/min over 600; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
700 Min Pooled Voice Plan (Nationwide)	GOVP700	\$33.99, 25¢/min over 700; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
800 Min Pooled Voice Plan (Nationwide)	GOVP800	\$39.14, 25¢/min over 800; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
900 Min Pooled Voice Plan (Nationwide)	GOVP900	\$41.20, 25¢/min over 900; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
1000 Min Pooled Voice Plan (Nationwide)	GOVP1000	\$45.32, 25¢/min over 1000; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
6000 Min Pooled Voice Plan (Nationwide)	GOVP6000	\$131.84, 25¢/min over 6000; unlimited Mobile-to-Mobile minutes, and unlimited Nights & Weekend minutes
Government Voice Pooled Nation Plan Customer's Corporate Responsibility User's (CRU's) may activate service on the Government Voice Pooled Nation Plans described above ("Pooled Plans"). Government CRU's on a Pooled Plan aggregate, or "pool", their Anytime Minutes in a single account (a "Pool"). Every billing cycle, each CRU first uses his or her Anytime Minutes. If a CRU does not use all his or her Anytime Minutes, it creates an underage in the amount of unused Anytime Minutes ("Under Minutes"). If a		

CRU uses more than his or her Anytime Minutes, it creates an overage with respect to Anytime Minutes (“Over Minutes”). The Pool’s Under Minutes and Over Minutes are then aggregated respectively and compared. If the aggregate Under Minutes exceeds the aggregate Over Minutes, then no CRU in the Pool pays Additional Minute charges. If the aggregate Over Minutes exceeds the aggregate Under Minutes, then the ratio of Under Minutes to Over Minutes is applied to the Anytime Minutes of each CRU in the Pool with Overage Minutes, resulting in a monetary credit against the corresponding Additional Minute charges. For example, if a Pool has 900 Under Minutes and 1000 Over Minutes (90%), then each CRU with Over Minutes will receive a credit equal to 90% of his or her Additional Minute charges. CRUs changing price points or migrating to Pooled Plans during a bill cycle may result in one-time proration(s) or other minor impacts to the credit calculation. Customer may have more than one Pool; however, an individual CRU can only be in one Pool at a time. AT&T reserves the right to limit the number of CRUs in a Pool due to Government needs and system limitations. CRUs on Pooled Plans and end users on prior versions of AT&T’s wireless pooled plans, including but not limited to Government National Pooled Plans and Government Local Pooled Plans, cannot be in the same Pool. End users on non-pooling wireless plans from AT&T may be included in the same account as CRUs on the Pooled Plans; however, these non-pooling end users will not receive the pooling benefits or contribute Anytime Minutes to the Pool. Mobile-to-Mobile Minutes, Night & Weekend Minutes and/or any other promotional minutes are not included in a Pool. Nights and Weekend Minutes and Mobile to Mobile Minutes cannot be pooled. When your entire pool of minutes has been retired, additional minutes inside the AT&T Government Pooled Nation plan National Service Area is \$0.25 each. Call-forwarded minutes are charged at the additional airtime per-minute rate of the rate plan. Consolidated invoicing required.

UNLIMITED VOICE PLAN	SOC CODE	CONTRACT PRICE
Unlimited Voice Plan (Nationwide)	BN7NM0A60	\$49.99

Unlimited Voice Services

Unlimited voice Services are provided primarily for live dialog between two individuals. If your use of unlimited voice Services for conference calling or call forwarding exceeds 750 minutes per month, AT&T may, at its option, terminate your Service or change your plan to one with no unlimited usage components. Unlimited voice Services may not be used for monitoring services, data transmissions, transmission of broadcasts, transmission of recorded material, or other connections which don’t consist of uninterrupted live dialog between two individuals. If AT&T finds that you’re using an unlimited voice Service offering for other than live dialog between two individuals, AT&T may, at its option terminate your Service or change your plan to one with no unlimited usage components. AT&T will provide notice that it intends to take any of the above actions, and you may terminate the CRU’s service.

PER MEGABYTE; DATA PLAN	SOC CODE	CONTRACT PRICE
Per MB; Data	MPPU	Allowed on feature phone only (\$0.00 MRC, \$2.00/MB overage)
<p>Pay Per Use Data Plan Provides Pay-Per-Use (PPU) data. PPU plan is auto-attached to all activations. Mobile Web Data Packages are Bolt-On features for handset browsing and CANNOT be used on BlackBerry, iPhone, LaptopConnect, or Smartphone devices Note: Data Pay Per Use is available. However, customers should be discouraged from using PPU with these equipment types due to potential high usage charges. These plans should NOT be used for Tethering customers. Customers may be removed from these plans if improper usage is determined. These plans do NOT include International Roaming! Connect to the mobile web, email, search applications and more. Customer must have a voice plan provisioned. Feature(s) must be added on a per line basis.</p>		

SMARTPHONE HOTSPOT/TETHERING DATA PLANS	SOC CODES	CONTRACT PRICE
5GB Hotspot/Tethering Pooled Data Plan (Does Not Include Messaging) MSG3 (Unlimited Messaging) may be added depending on the voice plan selected	BDPP50, BDPSML50, BDPBB50E, BDPBL50E, BDPIP50E, BDPIPS50E	\$32.96, \$0.015 per MB over 5GB (Pooled)
<p>Example: GOVP300U (\$23.69, 25¢/min over 300; unlimited Mobile-to-Mobile minutes, and unlimited Mobile-to-Mobile minutes) plus BDPIP50E (\$32.96, \$0.015 per MB over 5GB (Pooled)) = \$56.65/month. If you need unlimited messaging, you add the MSG3 (Unlimited Messages (SMS/MMS)) for \$0.00 = \$56.65/month.</p> <p>Government Data Pooled Nation Plan</p> <p>Make managing your mobile workforce easier than ever. Pooled wireless data access is a simple and economical way to share data among Corporate Responsibility Users (CRUs). Workers use the data they need. Light users and heavy users can help balance each other out. It's a smart way to help control costs. Within a single Billing Account Number ("BAN"), CRUs activated on separate Government Pooled Nation for Data Plans are combined to create a "Data Pool." Every billing cycle, each CRU first uses his or her plans included domestic data usage ("Included Usage"). If a CRU does not use all his or her Included Usage, it creates an underage in the amount of the unused KB of data usage ("Under Usage"). If a CRU uses more than his or her Included Usage, it creates an overage in the amount of the excess KB of data usage ("Over Usage"). The Data Pools Under Usage amounts for each CRU and Over Usage amounts for each CRU are then aggregated respectively and the totals are compared. If the aggregate Under Usage amount exceeds the aggregate Over Usage amount, then the difference is allocated among each CRU in the Data Pool with Over Usage, resulting in a credit on the invoice equal to the amount of each such CRU's additional data usage charges. Any excess Under Usage will be forfeited. If the aggregate Over Usage amount exceeds the aggregate Under Usage amount, then the ratio of Under Usage to Over Usage is applied equally to the data usage of each CRU in the Data Pool with Over Usage, resulting in a credit on the invoice against each such CRU's corresponding additional data usage charges to partially offset such charges. For example, if a Data Pool has 900 Under Usage KB and 1000 Over Usage KB (which means a ratio of 90%), then each CRU with Over Usage will receive a bill credit equal to 90% of his or her additional data usage charges. CRUs changing price points or migrating Government Pooled Nation for Data plans during a bill cycle may result in one-time proration(s) or other minor impacts to the credit calculation. Customer may have more than one Data Pool within a Foundation Account Number; however, CRUs in one Data Pool cannot take advantage of another Data Pools Under Usage, and each CRU can only participate in one Data Pool at a time. AT&T reserves the right</p>		

to limit the number of CRUs in a Data Pool due to Government needs and system limitations. CRUs on non-pooling AT&T plans may be included in the same BAN as CRUs on Government Pooled Nation for Data Plans; however, these non-pooling CRUs will not receive the pooling benefits or contribute Included Usage to other CRUs in a Data Pool. Additional terms and conditions apply – for details, see your company’s Government Agreement, including without limitation, the “Enterprise Customers: Additional Service and Equipment Related Terms” found at www.att.com/abs-addtl-terms. Wi-Fi: Wi-Fi enabled device required. Wi-Fi access includes AT&T Wi-Fi Basic. Other restrictions apply. See attwifi.com for details and locations. International roaming not included.

AT&T Data Plans with Tethering

Tethering is a wireless or wired method in which your AT&T mobile device is used as a modem or router to provide a Internet Access connection to other devices, such as laptops, netbooks, tablets, Smartphones, other phones, USB modems, network routers, mobile hotspots, media players, gaming consoles, and other data-capable devices. AT&T data plans with tethering enabled may be used for tethering your AT&T Mobile device to other devices. If you are on a data plan that does not include a monthly megabyte allowance and additional data usage rates, you agree that AT&T has the right to impose additional charges if you use more than 5 GB in a month; prior to the imposition of any additional charges, AT&T shall provide you with notice and you shall have the right to terminate your Service (early termination charges may apply).

UNLIMITED SMARTPHONE DATA PLANS	SOC CODES	CONTRACT PRICE
Unlimited Data Plan (Includes Unlimited Messaging)	RLTEEMB1, RLTEEMB2, RHSEMB1, RHSEMB2, RGOVEJB5, RLTEMB1VG, RLTEMB1G, RLTBEMB1V, RLTBEMB1G	\$23.69
Unlimited Data Plan (Does Not Include Unlimited Messaging)	RLTESMTE2, RLTEBW7, RGOVEJN1, LTETBW7V, LTETBW7, RLTTBW7VG, RLTTBW7G, LTBTBW7, RLBTBW7G, LTBTBW7V, RLTEBW7, LTBTBW7SV, LTBTBWS7	\$23.69
<p>Example: GOVP300U (\$23.69, 25¢/min over 300; unlimited Mobile-to-Mobile minutes, and unlimited Mobile-to-Mobile minutes) plus RLTEEMB1 (\$23.69, Unlimited Data Plan with Unlimited Messaging) = \$47.38/month.</p> <p>Intended Uses Of AT&T's Wireless Data Service</p> <p>AT&T's wireless data network is a shared resource, which AT&T manages for the benefit of all of its customers so that they can enjoy a consistent, high-quality mobile broadband experience and a broad range of mobile Internet services, applications and content. However, certain activities and uses of the network by an individual customer or small group of customers can negatively impact the use and enjoyment of the network by others. Therefore, certain activities and uses of AT&T's wireless data service are permitted and others are prohibited. The terms and conditions of your use of AT&T's wireless data service are set forth below</p> <p>Permitted Activities. AT&T's wireless data services are intended to be used for the following permitted activities: (i) web browsing; (ii) email; and (iii) intranet access if permitted by your rate plan (for example, access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation); (d) uploading and downloading applications and content to and from the Internet or third-party application stores, and I using applications and content without excessively contributing to network congestion.</p> <p>You agree to use AT&T's wireless data services only for these permitted activities</p> <p>Prohibited Activities: AT&T's wireless data services are not intended to be used in any manner which has any of the following effects and such use is prohibited if it: (a) conflicts with applicable law, (b) hinders other customers' access to the wireless network, (c) compromises network security or capacity, (d) excessively and disproportionately contributes to network congestion, I adversely impacts network service levels or legitimate data flows, (f) degrades network performance, (g) causes harm to the network or other customers, (h) is resold either alone or as part of any other good or service, (i) tethers a wireless device to a computing device (such as a computer, Smartphone, eBook or eReader,</p>		

media player, laptop, or other devices with similar functions) through use of connection kits, applications, devices or accessories (using wired or wireless technology) and you have not subscribed to a specific data plan designed for this purpose, or (j) there is a specific data plan required for a particular use and you have not subscribed to that plan.

The following specific uses of AT&T's wireless data service are prohibited

- AT&T's wireless data services may not be used in any manner that defeats, obstructs or penetrates, or attempts to defeat, obstruct or penetrate the security measures of AT&T's wireless network or systems, or another entity's network or systems; that accesses, or attempts to access without authority, the accounts of others; or that adversely affects the ability of other people or systems to use either AT&T's wireless services or other parties' Internet-based resources. For example, this includes, but is not limited to, malicious software or "malware" that is designed, intentionally or unintentionally, to infiltrate a network or computer system such as spyware, worms, Trojan horses, rootkits, and/or crimeware; "denial of service" attacks against a network host or individual user; and "spam" or unsolicited commercial or bulk email (or activities that have the effect of facilitating unsolicited commercial email or unsolicited bulk e-mail).
- AT&T's wireless data services may not be used in any manner that has the effect of excessively contributing to network congestion, hindering other customers' access to the network, or degrading network performance by maintaining a sustained and continuous wireless data service connection or active wireless Internet connection. For example, this includes, but is not limited to, server devices or host computer applications such as continuous Web camera posts or broadcasts, automatic data feeds, or automated machine-to-machine connections; "autoresponders," "cancel-bots," or similar automated or manual routines that generate excessive amounts of traffic or that disrupt user groups or email use by others; use of the service as a substitute or backup for private lines or full-time or dedicated data connections; peer-to-peer (P2P) file sharing services; and software or other devices that maintain continuous active Internet connections when a connection would otherwise be idle or any "keep alive" functions, unless they adhere to AT&T data retry requirements (as may be modified from time to time).
- AT&T's wireless data services also may not be used with high bandwidth applications, services and content that is not optimized to work with AT&T's wireless data services and, therefore disproportionately and excessively contribute to network congestion. This includes, but is not limited to, redirecting television signals for viewing on computing devices, web broadcasting, and/or the operation of servers, telemetry devices, or supervisory control and data acquisition devices, unless they meet AT&T's wireless data services optimization requirements. You agree not to use AT&T's wireless data services for any of these prohibited activities. AT&T's Rights to Ensure Compliance. You agree that AT&T has the right to take any and all actions necessary to enforce this Section 4.2 if you use AT&T's wireless data services in any manner that is prohibited, including, but not limited to, the following actions:
 - AT&T may modify, without advance notice, the permitted and prohibited activities, and the optimization requirements for your wireless data services;
 - AT&T may engage in any reasonable network management practice to enhance customer service, to reduce network congestion, to adapt to advances and changes in technology, and/or to respond to the availability of wireless bandwidth and spectrum;
 - AT&T may reduce your data throughput speeds at any time or place if your data usage exceeds an applicable, identified usage threshold during any billing cycle. AT&T will provide you with advance notice of the usage threshold applicable to your data plan, or any changes to the applicable usage threshold either by a bill insert, email, text message or other appropriate means;
 - AT&T may use reasonable methods to monitor and collect customer usage information to better optimize the operation of the network. Details concerning the information that AT&T collects about its customers, and how it uses and protects that information are addressed in the AT&T Privacy Policy (see att.com/privacy);

- If you are an AT&T unlimited data plan customer, AT&T may migrate you from the unlimited data plan to a tiered data plan and bill you the appropriate monthly fees. We will provide you with notice of this change at least one billing cycle in advance either by a bill insert, email, text message, or other appropriate means;
- AT&T may interrupt, suspend, cancel, or terminate your wireless data services without advance notice.

Unlimited Data Customers

If you are a grandfathered AT&T unlimited plan data service customer, you agree that “unlimited” means you pay a fixed monthly charge for wireless data service regardless of how much data you use. You further agree that “unlimited” does not mean that you can use AT&T’s wireless data service in any way that you choose or for any prohibited activities, and that if you use your unlimited data plan in any manner that is prohibited, AT&T can limit, restrict, suspend or terminate your data service or switch you to a tiered data plan.

ALL INCLUSIVE PLANS

800 Min Pooled Voice Plan (Nationwide) 25¢/min over 800; Unlimited Mobile-to-Mobile minutes, and Unlimited Nights & Weekend minutes, Unlimited Hotspot/Tethering Data, and Unlimited Messaging	GOVP800 PLUS ONE OF THE FOLLOWING: GSA3IUNAT, GSA3IUNVT, GSALBUNVT, GSALBUNTE, GSABBUNVT, GSABBUNTE, GSA4IUNAT, GSA4IUNVT, GSASPUNAT, GSALUNLTE, GSALUNTEV PLUS RGOVMSG3	\$72.83

900 Min Pooled Voice Plan (Nationwide) 25¢/min over 900; Unlimited Mobile-to-Mobile minutes, and Unlimited Nights & Weekend minutes and Unlimited Hotspot/Tethering Data only	GOVP900 PLUS ONE OF THE FOLLOWING: GSA3IUNAT, GSA3IUNVT, GSALBUNVT, GSALBUNTE, GSABBUNVT, GSABBUNTE, GSA4IUNAT, GSA4IUNVT, GSASPUNAT, GSALUNLTE, GSALUNTEV	\$74.89
900 Min Pooled Voice Plan (Nationwide) 25¢/min over 900; Unlimited Mobile-to-Mobile minutes, and Unlimited Nights & Weekend minutes, Unlimited Hotspot/Tethering Data, and Unlimited Messaging	GOVP900 PLUS ONE OF THE FOLLOWING: GSA3IUNAT, GSA3IUNVT, GSALBUNVT, GSALBUNTE, GSABBUNVT, GSABBUNTE, GSA4IUNAT, GSA4IUNVT, GSASPUNAT, GSALUNLTE, GSALUNTEV PLUS RGOVMSG3	\$74.89
1000 Min Pooled Voice Plan (Nationwide) 25¢/min over 1000; Unlimited Mobile-to-Mobile minutes, and Unlimited Nights & Weekend minutes and Unlimited Hotspot/Tethering Data only	GOVP1000 PLUS ONE OF THE FOLLOWING: GSA3IUNAT, GSA3IUNVT, GSALBUNVT, GSALBUNTE, GSABBUNVT, GSABBUNTE, GSA4IUNAT, GSA4IUNVT, GSASPUNAT, GSALUNLTE, GSALUNTEV	\$79.01
1000 Min Pooled Voice Plan (Nationwide) 25¢/min over 1000; Unlimited Mobile-to-Mobile minutes, and Unlimited Nights & Weekend minutes, Unlimited Hotspot/Tethering Data, and Unlimited Messaging	GOVP1000 PLUS ONE OF THE FOLLOWING: GSA3IUNAT, GSA3IUNVT, GSALBUNVT, GSALBUNTE, GSABBUNVT, GSABBUNTE, GSA4IUNAT, GSA4IUNVT, GSASPUNAT, GSALUNLTE, GSALUNTEV PLUS RGOVMSG3	\$79.01
Example: GOVP300U (25¢/min over 300; unlimited Mobile-to-Mobile minutes, and unlimited Mobile-to-Mobile minutes) plus GSA3IUNAT (Unlimited Hotspot/Tethering Data) plus RGOVMSG3 (Unlimited Messages (SMS/MMS)) = \$57.38/month.		

*STANDALONE SMARTPHONE UNLIMITED HOTSPOT/TETHERING DATA PLAN WITH NATIONWIDE FLAT RATE VOICE PLAN BUNDLE	SOC CODE	CONTRACT PRICE
Unlimited Hotspot/Tethering Data Plan for \$35.99/month when bundled with our Nationwide Flat Rate Voice Plan at \$0.05/minute with Unlimited Mobile to Mobile and Unlimited Nights and Weekends <u>Note:</u> Unlimited Messaging (SMS/MMS) code RGOVMSG3 may be added for no additional charge	ODNNO007 PLUS ONE OF THE FOLLOWING: GSA3IUNAT, GSA3IUNVT, GSALBUNVT, GSALBUNTE, GSABBUNVT, GSABBUNTE, GSA4IUNAT, GSA4IUNVT, GSASPUNAT, GSALUNLTE, GSALUNTEV	\$35.99 and 5.0¢/Minute

Government Nation Flat Rate Voice Plan

AT&T Government Nation Flat Rate lets you pay by the minute with a flat per-minute rate on calls made or received anywhere on the AT&T network. And, you can take advantage of our national network with no roaming charges. Available only to Government customers with a qualified wireless Government agreement from AT&T ("Government Agreement") and their respective Corporate Responsibility Users ("CRUs"). Flat Rate Plans are only available to customers' CRUs whose principal residence or principal Government office is within an eligible AT&T Wireless network area that has been fully integrated and has the system capacity to support Flat Rate Plans.

Minute Increment Billing and Usage

Airtime and other measured usage are billed in full-minute increments, and actual airtime and usage are rounded up to the next full increment at the end of each call for billing purposes. AT&T charges a full-minute increment of usage for every fraction of the last minute used on each wireless call. Calls placed on networks served by other carriers may take longer to be processed, and billing for these calls may be delayed. Unanswered outgoing calls of 30 seconds or longer will incur airtime.

Mobile To Mobile Minutes

If applicable to your plan, Mobile to Mobile Minutes may be used when directly dialing or receiving calls from any other AT&T wireless phone number from within your calling area. Mobile to Mobile Minutes may not be used for interconnection to other networks. Calls to AT&T voicemail and return calls from voicemail are not included.

Nights and Weekends

Nights are 9:00 p.m. to 6:00 a.m. Weekends are 9:00 p.m. Friday to 6:00 a.m. Monday (based on time of day at the cell site or switch providing your Service). Included long distance calls can be made from the 50 United States, Puerto Rico and U.S. Virgin Islands to the 50 United States, Puerto Rico, U.S. Virgin Islands, Guam and Northern Mariana Islands. Roaming charges do not apply when roaming within the Services area of land-based networks of the 50 United States, Puerto Rico and U.S. Virgin Islands. Additional charges apply to Services used outside the land borders of the U.S., Puerto Rico and U.S. Virgin Islands.

AT&T Data Plans with Tethering

Tethering is a wireless or wired method in which your AT&T mobile device is used as a modem or router to provide a Internet Access connection to other devices, such as laptops, netbooks, tablets, Smartphones, other phones, USB modems, network routers, mobile hotspots, media players, gaming consoles, and other data-capable devices. AT&T data plans with tethering enabled may be used for tethering your AT&T Mobile device to other devices. If you are on a data plan that does not include a monthly megabyte allowance and additional data usage rates, you agree that AT&T has the right to impose additional charges if you use more than 5 GB in a month; prior to the imposition of any additional charges, AT&T shall provide you with notice and you shall have the right to terminate your Service (early termination charges may apply).

TABLETS, MI-FI, NETBOOKS, AIRCARDS DATA PLANS	SOC CODES	CONTRACT PRICE
5GB Cross Device Pooling: Tablets, Mi-Fi, Netbooks, and Aircards	BDPDC50, BDPDCL50, BDPPAD50, BDPPDL50	\$33.99, \$0.015 per MB over 5GB (Pooled)
<p>Government Data Pooled Nation Plan</p> <p>Make managing your mobile workforce easier than ever. Pooled wireless data access is a simple and economical way to share data among Corporate Responsibility Users (CRUs). Workers use the data they need. Light users and heavy users can help balance each other out. It's a smart way to help control costs. Within a single Billing Account Number ("BAN"), CRUs activated on separate Government Pooled Nation for Data Plans are combined to create a "Data Pool." Every billing cycle, each CRU first uses his or her plans included domestic data usage ("Included Usage"). If a CRU does not use all his or her Included Usage, it creates an underage in the amount of the unused KB of data usage ("Under Usage"). If a CRU uses more than his or her Included Usage, it creates an overage in the amount of the excess KB of data usage ("Over Usage"). The Data Pools Under Usage amounts for each CRU and Over Usage amounts for each CRU are then aggregated respectively and the totals are compared. If the aggregate Under Usage amount exceeds the aggregate Over Usage amount, then the difference is allocated among each CRU in the Data Pool with Over Usage, resulting in a credit on the invoice equal to the amount of each such CRU's additional data usage charges. Any excess Under Usage will be forfeited. If the aggregate Over Usage amount exceeds the aggregate Under Usage amount, then the ratio of Under Usage to Over Usage is applied equally to the data usage of each CRU in the Data Pool with Over Usage, resulting in a credit on the invoice against each such CRU's corresponding additional data usage charges to partially offset such charges. For example, if a Data Pool has 900 Under Usage KB and 1000 Over Usage KB (which means a ratio of 90%), then each CRU with Over Usage will receive a bill credit equal to 90% of his or her additional data usage charges. CRUs changing price points or migrating Government Pooled Nation for Data plans during a bill cycle may result in one-time proration(s) or other minor impacts to the credit calculation. Customer may have more than one Data Pool within a Foundation Account Number; however, CRUs in one Data Pool cannot take advantage of another Data Pools Under Usage, and each CRU can only participate in one Data Pool at a time. AT&T reserves the right to limit the number of CRUs in a Data Pool due to Government needs and system limitations. CRUs on non-pooling AT&T plans may be included in the same BAN as CRUs on Government Pooled Nation for Data Plans; however, these non-pooling CRUs will not receive the pooling benefits or contribute Included Usage to other CRUs in a Data Pool. Additional terms and conditions apply – for details, see your company's Government Agreement, including without limitation, the "Enterprise Customers: Additional Service and Equipment Related Terms" found at www.att.com/abs-addtl-terms. Wi-Fi: Wi-Fi enabled device required. Wi-Fi access includes AT&T Wi-Fi Basic. Other restrictions apply. See attwifi.com for details and locations. International roaming not included.</p>		

UNLIMITED DATA CONNECT PLAN	SOC CODES	CONTRACT PRICE
Unlimited Data Connect	LTEDDUG, DDUG, PADUNGOV, LTEPDUNGV, LTETBUNGV, TABUNGOV	\$34.99

Data Connect and Laptop Connect plans
 These plans provide for unlimited data usage for 3G and 4G/LTE capable Netbooks, Notebooks, Laptops, and USB devices. Plan provides unlimited domestic data. Voice calling is Pay-Per-Use (PPU). In-Network and Out-of-Network rates apply.

UNLIMITED DATA CONNECT PLAN (Continued)	SOC CODES	CONTRACT PRICE
Unlimited LTE Hotspot/Tethering Data Plan for the Apple iPad	GOVPADUN	\$34.99
<p>Data Connect and Laptop Connect plans This plan provides for unlimited data usage for LTE capable Apple iPad devices. Plan provides unlimited domestic data and unlimited mobile hotspot. Voice calling is Pay-Per-Use (PPU). In-Network and Out-of-Network rates apply.</p>		

TELEMETRY DATA PLANS	SOC CODES	CONTRACT PRICE
1 MB Pooled Plan	PTCJ, PCTJ	\$4.00
2 MB Pooled Plan	PCTK, PTCK	\$4.50
3 MB Pooled Plan	PTCL, PCTL	\$5.00
4 MB Pooled Plan	PTCM, PCTM	\$5.50
5 MB Pooled Plan	PTCN, PCTN	\$6.00
10 MB Pooled Plan	PTCI, PCTI	\$8.50
20 MB Telemetry	WWC5, WWC6	\$10.00
50 MB Business Connect Plans	CCPSB14L	\$12.00
250 MB LTE Business Connect CCS Pooled Standalone	CCPSA11L	\$14.99
1000 MB LTE Business Connect CCS Pooled Stand Alone	CCPSA12L	\$24.99
5000 MB LTE Business Connect CCS Pooled Stand Alone	CCPSA13L	\$33.99

(Telemetry Data) Government Connect Plans

Are intended for use with machine-to-machine and/or Wireless Wide Area Network (WWAN) applications and not for support of individual remote or mobile workers using a laptop or PDA. For plans designed for laptop and PDA customers, see DataConnect rate plan brochure. AT&T also imposes the following charges: a Regulatory Cost Recovery Fee of up to \$1.25 to help defray its costs incurred in complying with obligations and charges imposed by State and Federal telecom regulation, a gross receipts surcharge, and State and Federal Universal Service charges. The Regulatory Cost Recovery Fee is not a tax or a government-required charge. ELIGIBILITY: Valid eligible Government or government agreement for wireless service required. Government Connect plans are restricted to corporate responsibility end users ("Corporate Responsibility Users" or "CRUs"). Individual responsibility end users (a.k.a. "Sponsorship Employees") may not activate lines under Government Connect plans. Government customer and CRU service address(es) must be within an AT&T-owned wireless network coverage area. Fixed wireless deployments must be installed within an AT&T-owned wireless network coverage area. Ask your AT&T account representative for address verification. Government Connect plans only work with select equipment, features, billing services and service offerings. VOICE CALLING: Voice calling is restricted on the 1MB, 5MB, and 10MB plans. For primary and backUp plans with a voice-capable device, voice calls are \$0.40 per minute on AT&T's wireless network and \$0.69 per minute for domestic roaming voice calls off AT&T's wireless network. See AT&T Nation® Rate Plan map for voice coverage area. If desired, subscribers may request voice blocking on any rate plan at no additional cost. MESSAGING: The default rate is \$0.20/message for Text/Instant Messages and \$0.30/message for Picture/Video Messages. Charges for international messages from the U.S. are \$0.20/message for Text Messages and \$0.50/message for Picture/Video Messages. Additional charges for premium content apply. MISCELLANEOUS: AT&T strongly encourages the use of compatible customer-provided and/or third-party security solutions, such as virtual private networks (VPNs). Additional eligibility, billing, usage and other restrictions and terms apply. See General Terms and Conditions and applicable Additional Terms that follow. I. GENERAL TERMS AND CONDITIONS APPLICABLE TO AT&T'S GOVERNMENT CONNECT WIRELESS DATA SERVICES, INCLUDING BUT NOT LIMITED TO, FEATURES THAT MAY BE USED WITH SUCH WIRELESS DATA SERVICES AND WIRELESS CONTENT. AT&T provides wireless data services, including but not limited to, features that may be used with wireless data services and wireless content ("Services"). The absolute capacity of the wireless data network is limited. Accordingly, service is only provided for circumscribed purposes and pricing for Data Services is device dependent, based on the transmit and receive capacity of each device. A pricing plan designated for one type of device may not be used with another device. These Services may be subject to credit approval and may only be available when combined with certain voice rate plans. Compatible data-enabled wireless device required. Usage/Billing: Usage and monthly fees will be charged as specified in your plan. DATA TRANSPORT IS BILLED IN FULL-KILOBYTE INCREMENTS, AND ACTUAL TRANSPORT IS ROUNDED UP TO THE NEXT FULL-KILOBYTE INCREMENT AT THE END OF EACH DATA SESSION FOR BILLING PURPOSES. AT&T CHARGES A FULL KILOBYTE OF DATA TRANSPORT FOR EVERY FRACTION OF THE LAST KILOBYTE OF DATA TRANSPORT USED ON EACH DATA SESSION. NETWORK OVERHEAD, SOFTWARE UPDATE REQUESTS, AND RESEND REQUESTS CAUSED BY NETWORK ERRORS CAN INCREASE MEASURED KILOBYTES. AIRTIME AND OTHER MEASURED USAGE ARE BILLED IN FULL-MINUTE INCREMENTS AND ROUNDED UP TO THE NEXT FULLMINUTE INCREMENT AT THE END OF EACH CALL FOR BILLING PURPOSES. Data sent and received includes, but is not limited to downloads, email, overhead and software update checks. Unless designated for International or Canada use, prices and included use apply to EDGE/GPRS and BroadbandConnect access and use on AT&T's wireless network and its partner wireless networks within the United States and its territories (Puerto Rico and the U.S. Virgin Islands), excluding areas within the Gulf of Mexico. Usage on networks not owned by AT&T is limited as provided in your data plan. Charges will be based on the location of the site receiving and transmitting service and not the location of the subscriber. BroadbandConnect access requires a compatible, eligible 3G device. Overage is billed by the kilobyte. Service charges paid in advance for monthly or annual Services are nonrefundable. Some Services may require an additional monthly subscription fee and/or be

subject to additional charges and restrictions. See applicable rate plan materials for complete pricing and terms. Prices do not include taxes, directory assistance, roaming, universal services fees or other exactions and are subject to change. In order to assess your usage during an applicable billing period, you may obtain approximate usage information by calling customer service or using one of our automated systems. Voice: If you have a voice-capable device, unless you request voice blocking, select a data plan that restricts voice access or select a qualified voice plan, the default rate for voice calls on AT&T's wireless network are \$0.40 per minute and \$0.69 per minute for domestic roaming voice calls off AT&T's wireless network (rates are subject to change without notice). Additional taxes and surcharges may apply. See AT&T Nation® map at store or att.com/wireless for default wireless voice coverage area. If you request voice blocking or your selected data plan restricts voice access, all voice calling capabilities (except for outgoing calls from the device to 911 or 611) will be blocked, including without limitation, calls from 911 or 611 to the device. If you have a wireless voice plan, wireless voice calls are billed as provided in your wireless voice rate plan. Roaming: Roaming charges for wireless data or voice service may be charged with some plans when outside AT&T's wireless network. Display on your device will not indicate whether you will incur roaming charges. Services originated or received while outside your plan's included coverage area are subject to roaming charges. Use of Services when roaming is dependent upon roaming carrier's support of applicable network technology and functionality. Check with roaming carriers individually for support and coverage details. Billing for domestic and international roaming usage may be delayed up to three billing cycles due to reporting between carriers. You may be required to (1) use a device programmed with AT&T's preferred roaming database; and (2) have a mailing address and live in the United States, Puerto Rico or the U.S. Virgin Islands. International Roaming: See att.com/wireless international or dial 866.246.4852 for more information and for a list of currently available countries and carriers. Compatible international-capable device required. Certain countries and/or carriers within a roaming zone may be unavailable with certain plans or Services while roaming. Availability, quality of coverage and Services while roaming are not guaranteed. Rates apply to AT&T's wireless customers only. Certain tenure, billing and credit restrictions and additional charges may apply. Many devices including iPhone transmit and receive data messages without user intervention and can generate unexpected charges when taken out of the United States. Cancellations/Early Termination Fee: An Early Termination Fee of \$175 may be assessed against you in the event that you terminate your Wireless Service Agreement and/or selected plan before the expiration of its term. For Service activated on or after May 25, 2008, the Early Termination Fee will be reduced by \$5 for each full month toward your minimum term that you complete. You may cancel your service, for any reason and without incurring the Early Termination Fee, within thirty (30) days of signing your Wireless Service Agreement, PROVIDED, however, that if you cancel service you will remain responsible for any service fees and charges incurred. If you cancel within three (3) days of signing your Wireless Service Agreement, you will be entitled to a refund of your activation fee, if any. If you exercise this option, you may be required to return devices and associated accessories purchased in connection with your Wireless Service Agreement. Service Availability and Access/Coverage: AT&T does not guarantee availability of wireless network. Services may be subject to certain equipment and compatibility/limitations including memory, storage, network availability, coverage, accessibility and data conversion limitations. Services (including without limitation, eligibility requirements, plans, pricing, features and/or service areas) are subject to change without notice. When outside coverage area, access will be limited to information and applications previously downloaded to or resident on your device. Coverage areas vary between AT&T BroadbandConnect, EDGE and GRPS. AT&T BroadbandConnect only available in select markets. See coverage map(s), available at store or from your sales representative, for details. AT&T BroadbandConnect download speeds only available on the AT&T BroadbandConnect network. Actual download speeds depend upon device characteristics, network, network availability and coverage levels, tasks, file characteristics, applications and other factors. Performance may be impacted by transmission limitations, terrain, in-building/in-vehicle use and capacity constraints. Information/Content: Certain information or content is provided by independently owned and operated content providers or service providers who are subject to change at any time without notice. AT&T IS NOT

A PUBLISHER OF THIRD-PARTY INFORMATION OR CONTENT AND IS NOT RESPONSIBLE FOR ANY OPINIONS, ADVICE, STATEMENTS, OR OTHER INFORMATION, SERVICES OR GOODS PROVIDED BY THIRD PARTIES. Third-party content or service providers may impose additional charges. Policies regarding intellectual property, privacy and other policies may differ among AT&T's content or service providers and you are bound by such policies when you visit their respective sites or use their services. It is your responsibility to read the rules or service agreements of each content provider or service provider. Any information you involuntarily or voluntarily provide third parties is governed by their policies. The accuracy, appropriateness, content, completeness, timeliness, usefulness, security, safety, merchantability, fitness for a particular purpose, transmission or correct sequencing of any information or downloaded data is not guaranteed or warranted by AT&T or any content providers or other third party. Delays or omissions may occur. Neither AT&T nor its content providers, service providers or other third parties shall be liable to you for any loss or injury arising out of or caused, in whole or in part, by any information acquired through the Service. You acknowledge that every Government or personal decision, to some degree or another, represents an assumption of risk, and that neither AT&T nor its content and service providers or suppliers, in providing access to information, underwrites, can underwrite, or assumes your risk in any manner whatsoever. Prohibited and Permissible Uses: Except as may otherwise be specifically permitted or prohibited for select data plans, data sessions may be conducted only for Wireless Wide Area Network (WWAN) applications (e.g. machine-to-machine connections). While most common uses for Wireless Wide Area Network (WWAN) applications are permitted by your data plan, there are certain uses that cause extreme network capacity issues and interference with the network and are therefore prohibited. Examples of prohibited uses include, without limitation, the following: (i) server devices or host computer applications; (ii) "auto-responders," "cancelbots," or similar automated or manual routines which generate excessive amounts of net traffic, or which disrupt net user groups or email use by others; (iii) "spam" or unsolicited commercial or bulk email (or activities that have the effect of facilitating unsolicited commercial email or unsolicited bulk email); (iv) any activity that adversely affects the ability of other people or systems to use either AT&T's wireless services or other parties' Internet-based resources, including "denial of service" (DoS) attacks against another network host or individual user; (v) accessing, or attempting to access without authority, the accounts of others, or to penetrate, or attempt to penetrate, security measures of AT&T's wireless network or another entity's network or systems; downloading movies using P2P file sharing services, redirecting television signals for viewing on Personal Computers, web broadcasting, and/ or for the operation of servers, is prohibited. Furthermore, plans (unless specifically designated for tethering usage) cannot be used for any applications that tether the device (through use of, including without limitation, connection kits, other phone/PDA-to-computer accessories, Bluetooth® or any other wireless technology) to Personal Computers (including without limitation, laptops), or other equipment for any purpose. Accordingly, AT&T reserves the right to (i) deny, disconnect, modify and/or terminate Service, without notice, to anyone it believes is using the Service in any manner prohibited or whose usage adversely impacts its wireless network or service levels or hinders access to its wireless network, including without limitation, after a significant period of inactivity or after sessions of excessive usage and (ii) otherwise protect its wireless network from harm, compromised capacity or degradation in performance, which may impact legitimate data flows. You may not send solicitations to AT&T's wireless subscribers without their consent. You may not use the Services other than as intended by AT&T and applicable law. Plans are for individual, non-commercial use only and are not for resale. AT&T may, but is not required to, monitor your compliance, or the compliance of other subscribers, with AT&T's terms, conditions, or policies. Security: AT&T DOES NOT GUARANTEE SECURITY. Data encryption is available with some, but not all, Services sold by AT&T. If you use your device to access company email or information, it is your responsibility to ensure your use complies with your company's internal IT and security procedures. Changes to the terms and conditions: These terms and conditions may be changed from time to time. AT&T will post the most current version of these terms and conditions at https://www.wireless.att.com/businesscenter/en_US/pdf/legal/large-business-GTCs-061619.pdf or other appropriate location. Please check these regularly to inform yourself about changes

to the terms and conditions. Access Requirements: Additional hardware, software, subscription, credit or debit card, Internet access from your compatible PC and/or special network connection may be required and you are solely responsible for arranging for or obtaining all such requirements. Some solutions may require third-party products and/or services, which are subject to any applicable third-party terms and conditions and may require separate purchase from and/or agreement with the third-party provider. AT&T is not responsible for any consequential damages caused in any way by the preceding hardware, software or other items/requirements for which you are responsible. Miscellaneous: Not all plans or Services are available for purchase or use in all sales channels, in all areas or with all devices. AT&T is not responsible for loss or disclosure of any sensitive information you transmit. AT&T's wireless services are not equivalent to landline Internet. AT&T is not responsible for nonproprietary services or their effects on devices. If applicable, use of Desktop Toolbar requires compatible home computer products. AT&T RESERVES THE RIGHT TO TERMINATE YOUR SERVICES WITH OR WITHOUT CAUSE, INCLUDING WITHOUT LIMITATION, UPON EXPIRATION OR TERMINATION OF YOUR WIRELESS SERVICE AGREEMENT. Caller ID blocking is not available when using the Services, and your wireless number is transmitted to Internet sites you visit. You may receive unsolicited messages from third parties as a result of visiting Internet sites, and a per-message charge may apply whether the message is read or unread, solicited or unsolicited. Additional Terms: See below for additional terms relating to specific Services and rate plans. In addition, all use of AT&T's wireless network and the Services is governed by AT&T's Acceptable Use Policy, which can be found at att.com/Acceptable Use Policy, as determined solely by AT&T. AT&T can revise its Acceptable Use Policy at any time without notice by updating this posting. Use of the Services is subject to Terms and Conditions of your Wireless Service Agreement. See Wireless Service Agreement, att.com/wireless or AT&T Customer Service for additional conditions, restrictions, privacy policy and information. Intellectual Property: All trademarks, service marks and trade names used on, or in connection with the Services are the property of their respective owners. You must respect the intellectual property rights of AT&T, our third-party content providers, and any other owner of intellectual property whose protected property may appear on any website and/or dialogue box controlled by AT&T or accessed through the AT&T's websites. Except for material in the public domain, all material displayed in association with the Service is copyrighted or trademarked. Except for personal, non-commercial use, trademarked and copyrighted material may not be copied, downloaded, redistributed or otherwise exploited, in whole or in part, without the permission of the owner.

II. ADDITIONAL TERMS APPLICABLE TO GOVERNMENT CONNECT FOR SPECIFIC WIRELESS DATA SERVICES, TEXT, INSTANT MESSAGING AND PICTURE/VIDEO MESSAGING. Messages are limited to 160 characters per message. Premium text and picture/video messages are charged at their stated rates. Standard rates apply to all incoming messages when in the U.S. Different, non-standard per message charges apply to international messages sent from the U.S. Text, Instant, Picture, and Video messages are charged when sent or received, whether read or unread, solicited or unsolicited. AT&T does not guarantee delivery of messages. Text, Instant, Picture, and Video messages, including downloaded content, not delivered within 7 days will be deleted. AT&T reserves the right to change this delivery period as needed without notification. You are charged for each part of messages that are delivered to you in multiple parts. Picture/Video Messaging, data plan, and Text Messaging may need to be provisioned on an account in order to use Picture/ Video Messaging. Some elements of Picture/Video messages may not be accessible, viewable, or heard due to limitations on certain wireless phones, PCs, or e-mail. AT&T reserves the right to change the Picture/Video message size limit at any time without notification. Picture/Video Messaging pricing is for domestic messages only. When a single message is sent to multiple recipients, the sender is charged for one message for each recipient and each recipient is charged for the message received. Text message notifications may be sent to non-Picture/Video Messaging subscribers if they subscribe to Text Messaging. Fixed wireless deployments: INSTALLATION MUST BE WITHIN AN AT&T-OWNED WIRELESS NETWORK COVERAGE AREA AND USAGE OF THE SERVICES ON OTHER CARRIERS' WIRELESS NETWORKS ("OFFNET USAGE") IS PROHIBITED. If your fixed wireless deployment incurs any off-net usage, AT&T may at its option

terminate your wireless service or access to data Services, deny your continued use of other carriers' coverage, or change your plan to one imposing usage charges for off-net usage. AT&T will provide notice that it intends to take any of the above actions and you may terminate your agreement. Mobile wireless deployments: If your mobile wireless deployment Off-net Usage exceeds 10% of the kilobytes included with your plan during any two consecutive months, AT&T may at its option terminate your wireless service or access to data Services, deny your continued use of other carriers' coverage, or change your plan to one imposing usage charges for offnet usage. AT&T will provide notice that it intends to take any of the above actions and you may terminate your agreement. Government Connect plans (excluding \$29.99 plan): Consolidated billing is required. WIN Advantage® may also be required. AT&T will not provide Customer Care support on an individual subscriber basis, including without limitation, 611 calls from the device into the AT&T Customer Care support center. For Customer Care support, you must go through one designated contact, such as your telecom manager or system administrator, for all your CRUs under the plan. Pooling: Within a single Foundation Account (FAN), Customer's CRUs with pooling on an eligible Government Connect Plan ("Pooled Plan") aggregate or "pool" their included data usage ("Included Usage"), creating a "Pool." To pool together, each CRU in the Pool must subscribe to a Pooled Plan that has the same amount of Included Usage and the same Additional Kilobyte charge ("Similar Pooled Plan"). Every billing cycle, each CRU first uses his or her Included Usage. If a CRU does not use all his or her Included Usage it creates an underage in the amount of unused kilobytes ("Under Usage"). If a CRU uses more than his or her included usage it creates an overage with respect to kilobytes of data usage ("Over Usage"). The Pool's Under Usage kilobytes and Over Usage kilobytes are then aggregated respectively and compared. If the aggregate Under Usage kilobytes exceed the aggregate Over Usage kilobytes, then no CRU in the Pool pays Additional Kilobyte charges. If the aggregate Over Usage kilobytes exceed the aggregate Under Usage kilobytes, then the ratio of Under Usage kilobytes to Over Usage kilobytes is applied to the data usage of each CRU in the Pool with Overage Usage, resulting in a monetary credit against the corresponding Additional Kilobyte charges. For example, if a Pool has 900 Under Usage kilobytes and 1,000 Over Usage kilobytes (90%), then each CRU with Over Usage will receive a credit equal to 90% of his or her Additional Kilobyte charges. CRUs changing price points or migrating to Pooled Plans during a bill cycle may result in one-time proration(s) or other minor impacts to the credit calculation. Customer may have more than one Pool within a FAN provided that Customer may only have one Pool for Similar Pooled Plans within a FAN; however, an individual CRU can only be in one Pool at a time. AT&T reserves the right to limit the number of CRUs in a Pool due to Government needs and system limitations. CRUs on Pooled Plans and CRUs participating in a legacy Telemetry connect plan pool created prior to February 17, 2006 ("Legacy Pool") cannot be in the same Pool but can be within the same FAN. End users on non-pooling AT&T plans may be included in the same FAN as CRUs on pooled plans; however, these non-pooling end users will not receive the pooling benefits or contribute Included Usage to a pool.

MESSAGING PLANS	SOC CODE	CONTRACT PRICE
200 Messages (SMS/MMS)	RMSG1	\$0.00, 10.0¢/message over 200
*Unlimited Messaging (SMS/MMS) SOC Code *(should be used when a Flat Rate Voice Plan, Pooled Voice Plan, or Unlimited Voice Plan is added to a feature phone or when a Flat Rate Voice Plan, Pooled Voice Plan, or Unlimited Voice Plan is added to a smartphone with a 5GB Pooled Hotspot/Tethering Data Plan otherwise, it is \$5.15)	MSG3	*\$0.00/\$5.15
**Unlimited Messaging (SMS/MMS) SOC Code (Should be used when adding a pooled minute voice plan or unlimited voice plan to a smartphone Unlimited Hotspot/Tethering Data Plan otherwise, it is \$5.15)	RGOVMSG3	**\$0.00/\$5.15

ENHANCED PUSH TO TALK PLANS (ePTT)	SOC CODES	CONTRACT PRICE
Enhanced PTT Bolt-On with a Non-Flat Rate Plan	EPPT05, EPTT05F, EPTTAPNLB	\$3.00, Unlimited ePTT

Enhanced PTT Integrated Dispatch Software	EPTTDP, FNEPTTDP1, FNIDC	\$30, Per License

Enhanced Push to Talk Plans

AT&T Enhanced Push-to-Talk (“Enhanced PTT”) is an IP-based end-to-end communications and applications platform that provides sub-second connections, advanced features that operate on a broad portfolio of compatible smartphone and rugged phone devices, and integration with various advanced mobility applications for use on the AT&T wireless data network and compatible Internet-connected networks.

General

Enhanced PTT subscribers can hold near-instant voice communications with individuals and groups of up to 250 designated users with compatible devices (“End Users”) on AT&T’s wireless data network and compatible Wi-Fi networks. Using the online Corporate Administrator Tool, subscribers can create lists of up to 1,000 contacts and view their contacts’ availability in real time through the use of status indicators. In addition, supervisors can override PTT calls in order to communicate time-sensitive messages to their teams. Using the optional Integrated Dispatch feature, subscribers can view End Users’ locations on a map and record PTT communications with the administrator’s PC. Using the optional Interoperability Feature, EPTT users can communicate with Land Mobile Radio and other external PTT networks using additional equipment, services and/or software available from third-party providers.

Enhanced Push to Talk Integrated Dispatch Software

Integrated Dispatch allows a dispatcher to operate from a centralized corporate facility and manage the activities for a set of mobile Enhanced Push-to-Talk users (also called fleet members) working in the field. This enables an organization to effectively manage day to day dispatch operations and rapidly respond to incidents, urgent situations, customer requests, facility events, and other situations that require quick actions. Managing your mobile users is easier than ever with the ability to see the location and PTT availability status of your group in near real-time. Using Integrated Dispatch, your administrators can view all of their EPTT users on a map, send and receive individual or group calls, send highly secure messages & files, and more – all from the convenience of a web-browser solution.

Important Information

Software: Enhanced PTT (the “Service”) consists of client software that is installed on supported devices that operate on the AT&T wireless data network and compatible Internet-connected networks. Use of the service on supported smartphones and PCs requires download and installation of the Enhanced PTT client software onto such devices. Other software on an end user’s device may impair performance. Customer and its end users must accept the EPTT End User License Agreement that may be found at www.att.com/eptteula prior to Customer’s installation and use of the Enhanced PTT software on their devices and PCs. Use of Integrated Dispatch software requires acceptance of the Integrated Dispatch End User License Agreement presented during installation. AT&T or its suppliers retain all right, title and interest, including, without limitation, all intellectual property rights, in and to all such software. SERVICE LIMITATIONS: ENHANCED PTT IS NOT INTENDED FOR USE IN EMERGENCY OR CRITICAL COMMUNICATIONS SETTINGS, OR WHERE ENCRYPTION IS REQUIRED FOR END-TO-END DATA IN TRANSIT. Availability, security, speed, timeliness, accuracy and reliability of service are not guaranteed. If the Customer attempts to access Enhanced PTT via a custom Access Point Name (APN), through a firewall or from a network that does not meet the specified network access criteria defined at Enabling Requirements, the Service will not work. Enhanced PTT service is not compatible with traditional circuit-switched voice calls or certain other AT&T wireless services, including, without limitation, voice mail/Visual Voice Mail, AT&T Address Book, and Wireless Priority Service. The Service requires use of a supported wireless device or a Personal Computer running Windows Vista OS or higher (“PC”). Use of the Enhanced PTT client for PCs may require that the PC be connected to AT&T’s wireless network through an integrated modem/aircard or mobile hotspot device with a qualified data plan service. A list of supported devices is available at www.att.com/eptt, which is subject to change. The user interface and service performance may vary by device, and Integrated Dispatch features may not be compatible with all wireless devices. The Service is available to Customers with a qualified AT&T Government or government agreement (“Enterprise Agreement”) and their associated corporate responsibility users (“CRUs”) and individual responsibility users (“IRUs”). It may not be available for purchase in all areas, and not all service features and functionality are available on all supported devices. The Corporate Administrator Tool, Integrated Dispatch and Enhanced PTT client for PCs are only available for use with CRUs. Service performance is subject to transmission limitations and terrain, system, capacity and other limitations. The Service is not compatible with devices provisioned through the AT&T Control Center or Enterprise On Demand platforms. Enhanced PTT is designed to work only over AT&T’s domestic wireless data network footprint and for AT&T subscribers over compatible Wi-Fi networks. Enhanced PTT is disabled while using domestic or international roaming cellular wireless networks. Wireless data coverage is not available in some areas. AT&T mobility coverage maps are available at <https://www.att.com/maps/wireless-coverage.html>. Wireless data coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Usage of Enhanced PTT on networks other than the AT&T wireless data network is dependent on proper configuration and quality of the network connection (see Enabling Requirements for details). AT&T is unable to provide troubleshooting or configuration assistance for third-party network connections and may be limited in its ability to troubleshoot service problems for transmissions made using such networks. AT&T provides no customer support in this regard other than verifying connectivity to the AT&T network and the Service.

FIRSTNET

What is FirstNet?

FirstNet is a nationwide public safety communications platform dedicated to first responders in a public-private partnership between AT&T and the First Responder Network Authority.

What is FirstNet's Mission?

To deploy, operate, maintain, and improve the first high-speed, nationwide wireless broadband network dedicated to public safety. This reliable, highly secure, interoperable, and innovative public safety communications platform will bring 21st century tools to public safety agencies and first responders, allowing them to get more information quickly and helping them to make faster and better decisions.

Who qualifies for FirstNet?

We have 2 types of eligible Public Safety Entities, Primary Users and Extended Primary Users. Primary Users are Public Safety Entities that act as first responders, the agencies who are at an emergency scene first. This includes law enforcement, fire protection services, emergency medical services, emergency (911) call dispatching and government Public Safety Answering Points, emergency planning and management offices, and ambulance services.

Extended Primary Users are those agencies, organizations, non-profit or for-profit companies that provide public safety services in support of Primary Users. They provide mitigation, remediation, overhaul, clean-up, restoration, or other such services during or after an incident.

FirstNet Eligibility:

In order to take advantage of the AT&T FirstNet Solution, Customer must (a) be a qualified "Public Service Entity" as recognized by the First Responder Network Authority, or a FirstNet Eligible User and (b) restrict access to the AT&T FirstNet Solution solely to Authorized Users (as defined in the AT&T FirstNet Solution Service Guide described below) who must be located in a state or territory which has opted in to use the AT&T FirstNet Nationwide Public Safety Broadband Network.

Who will manage the FirstNet account and pay the bill?

Primary Users can have two types of authorized users: Agency Paid Users and Subscriber Paid Users; Extended Primary Users can have only Agency Paid Users.

Agency Paid Users are employees and contractors of a qualified Public Safety Entity. The Public Safety Entity pays for the FirstNet service for Agency Paid Users.

Subscriber Paid Users are verified and approved (a) employees of a Primary User Public Safety Entity or (b) qualified volunteer personnel affiliated with a Primary User Public Safety Entity. Subscriber Paid Users pay for their own FirstNet service.

CUSTOM FIRSTNET MOBILE PLANS

1. FirstNet Custom Offer:

Provided the Customer remains in full compliance with the terms and conditions of the Agreement, and subject to all corresponding conditions set forth in this §2 (including all sub-sections and Tables), Contractor will provide Customer and the FirstNet Eligible Users, as defined in this Amendment, the following custom offer: the FirstNet Mobile Plans as described in Section 2.1 herein (the “Custom FirstNet Mobile Pooled and Unlimited Plans”) the FirstNet Mobile Plans – Subscriber Paid as described in Section 2.2 herein (the “Custom FirstNet Mobile Subscriber Paid Plans”) and the FirstNet Activation Credit as described in Section 2.3 herein, collectively referred to herein as the “Custom FirstNet Mobile Plans”. The Custom FirstNet Mobile Plans are, at times, referred to as the “Custom Offer”. The Custom Offer is available for the term of the Agreement.

1.1 Custom FirstNet Mobile Pooled and Unlimited Plans.

The Custom FirstNet Mobile Pooled and Unlimited Plans shall consist of the following:

**TABLE 1.1.1
CUSTOM FIRSTNET MOBILE-POOLED PLANS FOR SMARTPHONES****

	Add -a- Line	2GB	5GB	50GB	100GB	500GB	1000GB
For use with an unsubsidized device	\$15.99 MSC*	\$24.50 MSC	\$36.00 MSC	\$205.00 MSC	\$373.00 MSC	\$1,745.00 MSC	\$3,350.00 MSC

Unlimited FirstNet Enhanced PTT Only Plan for use with a subsidized, compatible Feature Phone	\$17.99 Monthly Service Charge
*Enhanced PTT includes Unlimited, Voice, Text, Data, and Mobile Hotspot	

TABLE 1.1.6 CUSTOM FIRSTNET MOBILE RATE PLANS FOR ERK DEVICES*	
SERVICE	PRICE
Monthly ERK Pay-Per-Use Plan for feature phones, smartphones, and MiFi's	\$5.00 per month
Talk	\$0.25 per minute
Text	\$0.10 per message
Data	\$10 per GB (billed in per-KB increments at \$0.000009536 per KB)
*Pricing does not include FirstNet Ready® phones (requires non-subsidized or customer owned (COAM) devices), mobile broadband devices, or accessories. FirstNet Ready® Devices are sold separately through your AT&T FirstNet Representative. Available only to Public Safety Entities with a FirstNet Service Agreement (Business Agreement) and only for Agency Paid User lines of service. Excludes applicable shipping, taxes, and surcharges. Device setup and configuration not included. Professional services for processing and Kit available at an additional cost. See rate plan brochure for full details http://marketing.web.att.com/oil/download?oilID=43c2ee73170669 .	

Custom FirstNet Mobile Plans – Subscriber Paid.

In addition to Custom FirstNet Mobile Pooled and Unlimited Plans available to Customer and its CRUs, Contractor offers a Subscriber Paid version of such plans to eligible individuals associated with a Primary User Public Safety Entity. Customer hereby authorizes Contractor to provide such individuals with the discounts set forth in §1.2 (the “Custom FirstNet Mobile Subscriber Paid Plans”). Customer must remain eligible for the Custom FirstNet Mobile Plans described in §1.1 for the Custom FirstNet Mobile Subscriber Paid Plans described in §1.2 to apply. The corresponding subscriber must be eligible to activate Service on the underlying version of the corresponding Custom FirstNet Mobile Subscriber Paid Plan. The Custom FirstNet Mobile Subscriber Paid Plans are only available to Subscriber Paid Users. For all Custom FirstNet Mobile Subscriber Paid Plans, the corresponding Plan’s Monthly Service Charge will appear on the invoice at the standard price set forth in the Sales Information, but the customized net monthly price set forth in the corresponding table below will be achieved via application of a modifier also reflected on the invoice.

FirstNet Rapid Response LMR3,4 Interoperability Add-On (standard)	Unlimited communication between FirstNet Rapid Response users and LMR users	\$5.00/per user
FirstNet Rapid Response LMR Interop Site License Fee	Site licensing fee for each RoIP Gateway	\$2500 (one-time charge)
Streaming Video Add-On	Video steaming feature to push or pull video to individuals or groups	\$20.00/per device
User license	Wi-Fi Application User License	\$20.00/per device
Web Dispatch Solution	Web browser solution to manage daily operations, locate users, send, and receive individual or group calls, send highly secure messages and files.	\$260.00/per seat
Web Dispatch with Video	Web Dispatch Solution with streaming video feature	\$300.00/per seat

(1) Requires a FirstNet Capable device w/ a FirstNet SIM with an existing FirstNet wireless rate plan and a Rapid Response subscription. See www.firstnet.com/rapidresponse for details. Not eligible for contract-based discounts.

(2) "Unlimited" applies to use of FirstNet Rapid Response on AT&T's U.S. domestic wireless data network footprint (including supported domestic roaming partners with a connection to the FirstNet Core). Such FirstNet Rapid Response usage does not count as part of the usage or data allowance under FirstNet Wireless voice or data plans. Use of FirstNet Rapid Response while roaming on partners who do not have connection to the FirstNet Core is not supported. Video may be ltd to SD. Speed, usage, and other restrictions apply.

(3) Requires a FirstNet Rapid Response subscription.

(4) Requires installation of customer owned and operated equipment.

AT&T Mobility Application Solutions		
AT&T Mobile Field Solutions	Netmotion VPN	A client/server software-only mobile Virtual Private Network ("VPN") for Windows operating devices, including laptops, tablets, pocket PCs and smartphones, that provides application persistence to the Transport Layer of the Open System Interconnection ("OSI") Layer. The Solution also helps to protect the VPN tunnel and applications from data loss, and it does not require multiple log-ins or re-authentication when a user suspends, and resumes use of devices or transitions across networks

AT&T Managed Applications – The Mutualink Interoperable Response and Preparedness Platform (IRAPP)*

AT&T Mutualink Interoperable Response and Preparedness Platform (IRAPP)

Several Components delineated herein and in pricing

Enhance response for public safety agencies, hospitals, schools, and critical infrastructure entities by utilizing the Mutualink Interoperable Response and Preparedness Platform (IRAPP) network. Not only will police, fire or emergency management agency achieve new levels of secure, advanced communications, including voice, video, data and radio interoperability, but you are connecting into vast growing network of partners. New levels of interconnectivity for collaboration and coordination for event and incident management emerge

AT&T Mobility Application Solutions		
AT&T FirstNet Control Center Platform	AT&T FirstNet Control Center Platform	<p>AT&T FirstNet CC will give you global visibility into the activity of all your SIMs on the AT&T network, but more than that, use this proven platform to:</p> <p>Drive efficiency and profitability, empowered with robust self-service tools for provisioning, real-time diagnostics, usage controls, and more. The CC Portal gives you 24x7 access to your wireless account, so you can more productively and efficiently manage your services.</p> <p>Control Costs – Start with a no-touch activation experience— automatically activating your devices on the network as soon as your end users or installers switch them on in the field. Then utilize automated overage controls, notifications, and rules to control costs once your devices are in use. Eliminate manual efforts and use the automation engine in the AT&T CC to save time and money.</p> <p>Automation Engine –Streamline your business processes and scale faster using a powerful automation engine to programmatically control your devices. Monitor SIMs, usage, rate plans, or other elements of your connected device business and trigger actions to run automatically when critical events occur.</p>

		<p>Gain Strategic Insight—Get the intelligence you need to manage your connected device business for maximum efficiency. AT&T CC puts everything from data utilization and costs to performance and provisioning status at your fingertips. You'll see important usage trends, which devices cost the most, and whether your devices are working as expected in the field.</p> <p>Troubleshoot Problems Instantly – Run detailed diagnostics on any device, online and in real-time, whether on the AT&T network or roaming internationally. Check provisioning status, see connection session history, and view real-time connectivity status. Immediately identify connectivity issues and get the information you need to get them resolved quickly.</p> <p>CC may require a Commercial Connectivity Services (CCS) APN</p> <ul style="list-style-type: none"> • <u>FirstNet CC supports all approved FirstNet Data plans listed in the AT&T MCS End User Price List</u>
