The Legislature finds, however, that necessary maintenance of existing facilities and public school enrollment growth impair the ability of some districts to achieve the goal of this section within 5 years. Therefore, the Legislature is increasing its commitment to school funding in this act, in part to help districts reduce the number of temporary, relocatable student stations at over-capacity schools. The Legislature intends that local school districts also increase their investment toward meeting this goal. Each district's progress toward meeting this goal shall be measured annually by comparing district facilities work programs for replacing relocatables with the state capital outlay projections for education prepared by the Office of Educational Facilities ~~and SMART Schools Clearinghouse~~. District facilities work programs shall be

monitored by the ~~Office of Educational Facilities SMART Schools Clearinghouse~~ to measure the commitment of local school districts toward this goal.
