An ordinary backyard is full of activity during all four seasons- if you know where to look! Experience the life of critters by digging, scrambling, and flying through their dynamic habitats while learning how life changes with the weather. This exhibit offers a variety of active play opportunities that get kids excited about exploring nature in their own backyards.

EDUCATIONAL MISSION:

My Wild Backyard aims to connect children with nature by engaging in interactive experiences that allow them to uncover the amazing lives of animals. This exhibit will educate children about weather and the changes that affect plants and animals during the four unique seasons of the year through immersing guests in a nature-inspired environment.
