We would like to add two plant window boxes in front of the house.  
I have attached an image from the manufacturer's website, along with dimensions and an image of proposed window boxes on the house. The window boxes have not been installed.

We received a CO for fence on 8-5-21, we would like to change and get re-approval for fence.

Black aluminum/ Antebellum-Abigail style/4 feet high fence. With 1 small 4 ft. front gate matching Abigail style, around perimeter of front yard.

Change- Not installing 12ft motorized gate

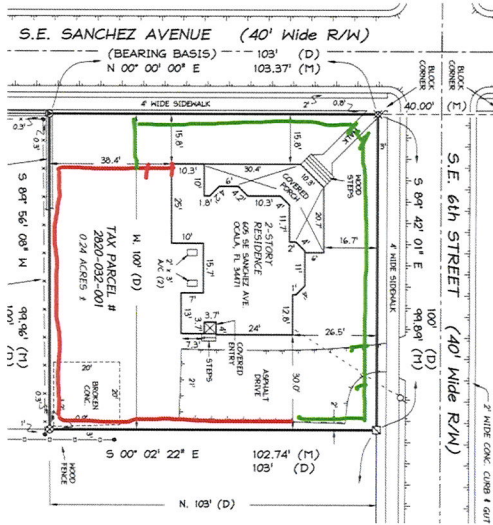

Standard 6ft tall natural wood fence around perimeter of backyard.

Change- not extending fence on the SE Sanchez side of property.

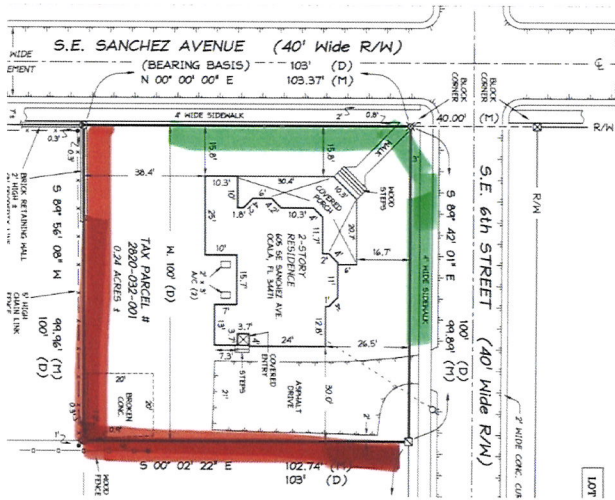

Original design already approved!

New design to incorporate the new drive access in the rear of the house and better functionality for the property.

## Landscaping

This is our current landscaping situation, and what we plan to incorporate into our yard. Unfortunately, we were not aware of the need for a CA for our landscaping project, or we would have included this with the request for the Arbor that was done last year.

Below is a current project diagram, except for a few plants that were not in season.

(The 7 oakleaf hydrangeas and 8 peach roses drifts are not planted, but we plan to, as soon as they are available)

We chose these plants to be visually compatible with the environment by planting plants that already existed in the neighborhood, and to be sensitive to the individual house. We also chose some native Florida plants. (Oak leaf Hydrangeas, Magnolia, Firebush, Hibiscus, and Jasmine)

Along with plants and trees, we added granite stone to the back of the house for accessibility to our back area and front corner of our driveway. We added mulch under plants (note on diagram, brown color) to add as a medium for the young plants to grow. When we acquired the house, we acquired a yard full of weeds and a grade of land that caused water to rush and pool under the house. We removed unhealthy landscaping material from the front yard, then graded the land and added dirt to eliminate water from further damage to the house. The weeds and dirt were replaced with perennial peanut grass along the sides of the house, directly in front of SE Sanchez Ave and SE 6th Street. Additionally, we would like to add 3 Podocarpus over by our Arbor and Shed to block our trash cans. We would also like to add Magic Camellia along the porch, on Sanchez Ave, and 2 red Maple trees in the back yard.
