price is for all quantities quote #123041

Items that are in stock can be delivered within a couple of days. I used a 7 day lead time in case something would need to be transferred from one location to another. Let me know if you have any questions. Thank you.

No offering, EKL, 7.18.2024

Please note initial time of delivery may be longer if this is not a stocked item. We do have a warehouse in Ocala to stock reoccurring purchases that would bring the delivery time down to 1-2 days.

No attached boiler plates.
