**BACKGROUND**

1. Contractor shall perform ground mosquito spraying for adult mosquitoes on an as-needed basis. The City of Ocala covers **(47.20)** square miles.
2. For the mosquito control treatment, the City is gridded into thirty-seven (37) sections. When a section(s) has been determined to have a nuisance population of mosquitoes and requires adulticiding, the City Project Manager or designee will schedule a mission with the Contractor to spray the specific solicited adulticide chemical for that mission.

**TRUCK MOUNT ULV**

Spray adulticide using ULV (ultra-low volume) sprayers which are affixed to the back of a truck, while maintaining a 10-mph travel speed. ULV sprayers dispense very fine droplets that stay aloft and kill flying mosquitoes on contact. The flow rate for truck mount ULV spraying is mid-flow, as recommended on the product label.

**BARRIER ULV**

The City may request adulticide ULV barrier spraying to be performed in limited areas prior to a planned public event/function. These areas may require the application to be performed by a backpack sprayer or the use of an All-Terrain Vehicle (ATV) at the product's application rate.

**RESPONSE TIME/METHOD OF TYPICAL TREATMENT/WORKING CONDITIONS**

1. Contractor shall, within forty-eight (48) hours of a request by the City, adulticide the products requested for treatment at the correct application formula within the specified sections of the city. The sections to undergo adulticiding, as well as the methods and product, will be determined by the Project Manager or designee.
2. Adulticiding shall occur between dusk and dawn when the temperature, wind speed, and other weather conditions are optimal.

**CONTRACTOR RESPONSIBILITIES**

1. Application rates of any and all products must not exceed maximum dosage rates. Contractor must follow specific label guidelines.
2. Plan work in a manner that will minimize the inconvenience caused to City residents.
3. Adhere to NO SPRAY ZONES determined by the City.
4. Submit an invoice no later than forty-eight (48) hours post-treatment.
5. Contractor shall be responsible for submitting application reports required by state regulatory agencies.
6. A detailed report of treatment emailed to City Project Manager no later than forty-eight (48) hours post treatment to include the application site, the volume of application, and application speed.
7. Spraying vehicles must be tracked using GPS technology and reports.
8. Calibration records of all spray equipment.

**AERIAL SPRAYING**

1. **Project Summary:** In the event conditions develop that warrant more aggressive and/or widespread control of adult mosquitoes, aerial spraying will be performed, utilizing a fixed-wing aircraft affixed with an ultra-low volume applicator to disseminate adulticide. The areas to undergo

aerial adulticide, as well as the methods and products used to perform adulticide, will be determined by the City.

- a. Contractor shall ensure that pilots are qualified and licensed for aerial application and meet all requirements of Federal Aviation Regulation (FAR) 137 – Agricultural Aircraft Operations. The pilot in command of any flights made for these services must be instrument qualified for multi-engine or rotorcraft-helicopter aircraft operations.
- b. **Aerial Application Rates:** Anvil 10+10 shall have an application rate of 0.50 fluid ounces per acre, not to exceed 0.62 ounces per acre, as instructed on the product label.
- c. Duet shall have an application rate of 1.0 ounces per acre, not to exceed 1.28 ounces per acre, as instructed on the product label.
- d. Additionally, one (1) Shure MX412S/S must be installed in a podium on the stage, connected to the mixer in the control room via XLR cable.

## SAFETY

1. Contractor is solely responsible for ensuring safety during construction, and for conformance to all applicable OSHA standards; and local, state, and national codes concerning safety provisions for their employees, sub-contractors, all building and site occupants, staff, public, and all persons in or around the work area.
2. Job site visits by City staff do not constitute approval, awareness, or liability for any hazardous condition.
3. Contractor shall be responsible for securing their equipment, materials, clothing, and other property.
4. Prior to completion, storage and adequate protection of all material and equipment will be the Contractor's responsibility.
5. Contractor will exercise every necessary precaution for the safety of the property and the protection of any and all persons and/or property located adjacent to or making passage through the said property. All claims and repairs shall be made by the Contractor in a timely manner (48 hours).
6. In no event shall the City be responsible for any damages to any of the Contractor's lost, damaged, destroyed or stolen equipment, materials, property, or clothing.
