Procurement/Contracting/P-Card Policy Exception Request Form

Approval Status

Approved

Select exception type:

Procurement

Reason for procurement exception:

Standardization

Enter a brief description of your exception request:

The Information Technology department has been working with CIP, Recreation and Parks, and Morse Communications to gather all the necessary physical security requirements for the Mary Sue Rich Facility project. The scope of the items requested includes digital cameras, building access control readers, intrusion detection alarms, and a storage server for camera footage for a total of \$116,362.90.

Access Control (badge readers):
\$37,044.00

IDS (building alarms): \$13,272.00

CCTV (cameras): \$51,281.00

Dell Storage Server: \$14,765.90

Attached you will find the quotes provided by Morse Communication and Dell, as well as the mock-up floor plans where the physical security devices will be installed at the interior and exterior of the building.

IT would like to request an exception to procurement for this project and all physical security projects, to standardize on the same vendor and software that we use throughout the City and the Recreation and Parks department.

If we bid this and other physical project out to another vendor, we will likely be receiving equipment and software that are not compatible with the current processes and systems we have in place now. This will cause more management overhead for IT and a disconnected user experience for these departments.

Attach all documents related to the exception that can assist the Contracting Officer's decision.
