Subject: Opposition to Case ABR25-0008

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

To Whom It May Concern

Department of Growth Management

I am writing regarding Case ABR25-0008 to formally express my strong opposition to this request and to any further development or approvals connected to this area.

I live near the subject property and have already witnessed significant environmental destruction in the area surrounding my home. Trees have been removed, natural land has been cleared, and wildlife has lost its habitat.

Since this clearing began, I have personally seen foxes, wild turkeys, raccoons, and other animals wandering through nearby properties after losing their natural environment. What was once a peaceful natural area has been heavily damaged.

I own neighboring land that I have intentionally preserved with trees and natural habitat because I believe wildlife deserves protection and safe space to survive. I will never sell that land, and I hope the city will consider the environmental impact that continued development is having on this community and its wildlife.

For these reasons, I strongly oppose this request and any additional actions that would further destroy the remaining natural area.

Please include my comments in the public record for this case.

Sincerely,

Adriana Rick
