PROOF OF PUBLICATION:

Ocala Gazette - October 6, 2023

BACKGROUND:

- Petitioner: 4B Investments, LLC
- Property Owner: 4B Investments, LLC
- Agent: W. James Gooding III, Gooding & Batsel, PLLC

- On October 25, 2006, the City Council adopted a Future Land Use Map (FLUM) Amendment LUC06-0002 by Ordinance No. 5579, which changed the future land use of the subject properties from Low-Density Residential and Public Buildings and Facilities to Medium Density Residential. Future Land Use Element Policy 18.3 was adopted by Ordinance No. 5580 in association with LUC06-002 and imposed the following development conditions on the subject properties:
 1. Development on the Amendment area shall not exceed 12 units per acre, with the dwelling unit type being restricted to those allowed under the Low-Density Residential Future Land Use Classification;
 2. The Property shall be developed as a PUD to address density, site design, architectural characteristics, buffers around the entire site, and access along both frontages;
 3. The development must provide secured access connection, to and from NE 19th Avenue;
 4. Prior to final development approval, the property owner/developer is required to submit a traffic analysis consistent with the City's Traffic Study Guidelines and Concurrency Management System requirements; and
 5. The property owner/developer will be required to provide all necessary traffic improvements identified in the traffic analysis, or provide (as to required improvements for which proportional share payments would be applicable by the City's Code of Ordinances) required proportionate share contribution payment.
- The current request is to delete the policy and associated development conditions, to allow for the subject properties to be developed in a manner consistent with the present Low Intensity future land use designation. The maximum development potential of this site with the requested deletion of the future land use policy is 177 dwellings, 59 more than presently permitted.
- Deletion of the Policy would allow for development of apartment dwellings on the subject properties. Presently, apartments are prohibited via the Policy's condition that dwelling unit types be restricted to those allowed under the Low-Density Residential Future Land Use Classification. The Low-Density Residential FLU exclusively allowed for detached and attached single-family houses, duplexes, townhouses, and mobile homes.
- The remainder of the development conditions will be addressed as part of the City's development review process.
- The Planning & Zoning Commission voted unanimously to recommend approval at the June 12, 2023, meeting.
- The proposed text amendment was transmitted to the Florida Department of Commerce (formerly Florida Department of Economic Opportunity) and other relevant state agencies for review on July 20, 2023. On August 18, 2023, the Department of Commerce provided a letter of no comment in response to the Expedited State Review; no further comments nor objections were received from any state agency.

FINDINGS AND CONCLUSIONS: The proposed deletion of the future land use Policy will allow for future development consistent with the Low-Intensity future land use designation and is compatible with the

surrounding area. Staff recommends approval of the request.
