FOLLOW UP	RSM	10/3/2025	10/3/2025	NON COMPLIANT	COMPLIANCE DATE ON NOVPH	<p>On 10-3-25, I checked on the property in regards to the compliance date on the previously posted/issued notice of hearing. On this day, I noted the derelict vehicle had been removed. However, the overgrowth remained, and the condition of the structure had not changed with the door found to be unsecured/open at the time of inspection. There was a dumpster in the front portion of the property and debris present indicative of the interior of the home being cleaned out. There were no permits located related to any renovation efforts or demolition actions. Photos were uploaded to the case which is scheduled for a hearing.</p>
HEARING INSPECTION	RSM	10/7/2025	10/7/2025	NON COMPLIANT		<p>On 10-7-25, I conducted an inspection relating to the pending hearing. On this day, I noted the violations remained. A check of the city's permit database showed no permits had been applied for or issued in regards. Photos attached - proceed to hearing</p>
						<p>OVERGROWN PROPERTY</p> <p>On 9-11-25, I responded to the property in regard to a citizen complaint of overgrowth. Upon arrival, I noted overgrowth on the property along the front yard and fence line. I also noted that the roof was covered with tarps and the peak of the roof appeared to be sagging which caused concern over the structural integrity. A large tree limb was also observed on top of the roof. Based on these circumstances, I contacted Building Project Inspector Greg McClellan who responded later to conduct a more thorough inspection. Upon arrival, it was noted that the exterior of the building was in a dilapidated state with what appeared to be unsealed doors/windows and that would not secure. The tenant was asked if interior entry would be permitted to which permission was</p>

INITIAL	RSM	9/11/2025	9/11/2025	NON COMPLIANT	DANGEROUS BUILDING (UNINHABITABLE)	granted. Upon entry it was observed that the floors were in an obvious/apparent unsafe condition with visible sagging and holes. In the rear most bedroom, there was a large hole in the ceiling as it appeared to be collapsed inward. The interior was in a dilapidated state with gaps in the loose ceiling boards and electrical outlets with some being taped over. In the kitchen area of the home, the sink appeared to be inoperative and in speaking with the tenant, she stated that there was no running water. She also stated that the roof would leak when it rained. A derelict vehicle (no registration tag) was also parked in the driveway. Mr. McClellan subsequently tagged /posted the building as uninhabitable and dangerous and the tenant(s) were advised of same and urged to vacate the premises for their own safety. Lastly 3 dogs were observed to be on the property, all of which were chained to a tree and not appearing to be properly cared for. Intentions were to contact Marion County Animal Control to appropriately deal with the matter. Photos were taken/uploaded to the case and a request was submitted to Admin. to generate a NOVPH (Notice of Violation & Public Hearing) . Follow-up was scheduled accordingly.

Subject: 1945 NW 4th Street - Dangerous Building Posting

On September 11, 2025, I responded to a request from Code Enforcement to evaluate a possible dangerous structure.

Inspection Details:

Upon arrival at the property, significant structural deficiencies were immediately observed. The roof was visibly compromised, showing deflection and areas of caving.

The current residents, Jasmine and RJ, along with Environmental Officer Rob Moore, accompanied me throughout the property and inside the structure.

Observed Conditions:

- **Roof/Ceiling Collapse:** Multiple sections of the ceiling had collapsed completely. Rainwater intrusion was evident throughout the interior.
 - **Floors:** Multiple areas floors have collapsed and unsafe to travel thru out the property.
 - **Windows:** Multiple windows broken
 - **Plumbing Issues:** Per resident statements, the plumbing system is non-functional. Water service is disconnected due to an active leak.
 - **Electrical Hazards:** Exposed wiring was present in several areas, posing a clear safety risk.
-

Action Taken:

Based on the observed conditions, the structure has been deemed unsafe for occupancy.

Please see attached photographs for documentation of these findings.
