				Matt,

See email chain below. Electrical permit application was never approved and they disregarded the comments from Planning Staff regarding minor site plan requirements (with photometric plan) on June 16, 2025 as well as my unresolved comment in the permit review. It appears that the site lighting was installed without an electrical permit in addition to site work and tree removal completed without a minor site plan or active tree removal permits.

Please let me know if I can be of further assistance.

Thanks,

Andrew (Andy) Gray
