STAFF RECOMMENDATION	DALE HOLLINGSWORTH	11/7/2025	11/7/2025	Find the Respondent(s) guilty of violating city code section(s): 82-181 and 82-182 and order to: 1.) Apply for and obtain issuance of all required permits needed to meet the Current Florida Building and City of Ocala Municipal Ordinances to conduct necessary repairs and renovations by 4:00pm on Thursday, January 22nd, 2026. Once all required permits are issued, all repairs to the structure shall be completed by a licensed contractor within 90 days after the issuance of the initial permits. If the Respondent(s) fail to comply by 7:00am on Friday, January 23rd, 2026, or if any of the issued permits expire without a final inspection finding that the work complies with both the Florida Building Code and City of Ocala municipal ordinances, there shall be a fine of \$100.00 per day thereafter that shall run in addition to any other fines until the violations have been abated. Additionally, the City shall enter upon the property and take whatever steps are necessary to bring the violation(s) into compliance, to include demolition and removal of all improvements including the structure, structure contents, and site improvements. 2.) Pay the cost of prosecution of \$240.47 by January 22nd, 2026.

Code Enforcement Case Narrative – 11/03/2025

On July 30th, 2024, the Hillside Plaza Laundromat experienced an explosion affecting numerous units throughout the structure. In the following days, numerous city departments conducted inspections, including the Building Department and Code Enforcement Division, concluding the structure was undeniably dangerous. Conversations immediately began with property ownership, specifically Mr. Mike Pardee, and he in turn began conversations with an engineer to discuss abatement activity. Soon after the explosion, protective fencing was installed surrounding most of the parking lot and building, except for the pharmacy at the west end of the building which was confirmed by engineering reports to be unaffected by the explosion. Through continued conversations by email, phone, and in person, an anticipated timeline for repairs was submitted to the City of Ocala Building Department by Mr. Pardee. The following is a timeline of events regarding this matter, including Mr. Pardee's provided timeline and milestone deadlines entered chronologically in red.

07/30/2024 - Explosion occurred.

07/31/2024 - Initial city official inspections take place.

08/07/2024 - Emergency Securement Letters received by the City from Caliber Design engineer. Building Department staff advised Mr. Pardee to proceed with securing the property and structure and conduct any necessary inventory removal.

10/02/2024 - Email received by Building Department staff from Caliber Design engineer advising they are working in the "proposal stage" with an architect to create plans for repairs and improvements.

02/24/2025 - **Mr. Pardee's anticipated timeline and milestones letter received.**

03/03/2025 - Email received by Building Department staff from architect with Martinez Architecture advising the structural engineer was still working on final details, that he originally anticipated completed drawings at the end of February, and that he now anticipates completed drawings sometime this week.

03/15/2025 - **"Submit engineering plan to the City of Ocala."**

03/19/2025 - Building Department contacted the Caliber Design engineer who advised they will have the plans submitted back to the architect within 7 days.

(352) 629-CITY (2489)

City of Ocala

- 05/14/2025 - "Select contractor. Plan approval by the city. Clean-up and preparation."
- 06/11/2025 - Building permit application received for complete remodel.
- 06/17/2025 - Revised permit application received, removing interior remodels from permit to allow quicker exterior renovations for safety purposes. Interior renovation permits to be applied separately.
- 07/10/2025 - Code Enforcement agreed to submit Partial Release of Liens for 4 unrelated parcels encumbered by previous, but currently valid, Hillside Plaza code enforcement liens. Intent on the agreement was to allow the released properties to be sold to ensure funding for the Hillside Plaza project.
- 08/27/2025 - ProjectDox (ePlans) workflow opened, allowing applicant to upload plans for the permit application.
- 09/09/2025 - Building plans received from the applicant and routed by the City to required department reviewers.
- 09/12/2025 - Building plans returned to the applicant for corrections noted by the structural and electrical reviewers.
- 10/23/2025 - Code Enforcement notified by Ocala Police Department that there has now been an increase of break-ins into the liquor store at unit 1419 due to the condition of the structure.
- 10/24/2025 - Code Enforcement case opened after 40+ days of plans being with the applicant without new uploads being submitted to the city.
- 11/15/2025 - "Begin and complete infrastructure upgrades, accessibility improvements, building facades, and landscaping."

Throughout the process outlined in the aforementioned timelines, Code Enforcement has actively monitored the situation without entry of a formal Code Enforcement case; however, Code Enforcement believes at this time the location continues to present a serious threat to the safety and welfare of the community, progress has stalled after providing what we believed to be a reasonable time to comply, and the lack of progress has resulted in increased criminal activity.

Subject: Emergency Securement Letter

Hey Mike,

Attached is the letter for you to plywood over the shattered windows openings. Also included is a paragraph to allow you to install a tarp over two mechanical exhaust penetration on the roof where it appears that either the mechanical exhaust fans were removed by the firefighters or blown off in the blast.

This should be sufficient for you to get the required emergency permit to protect the building from intruders. The opening protection letter does not address the vacant unit on the north end of the building (since no grass or storefront) was broken or damaged. Also it does not cover installing plywood on the laundromat unit nor the adjacent units on either side. Those units will be covered in the letters to come.

Thanks,
Mike
