CONTACT	STEPHEN KNIGHT	2/10/2026	2/10/2026	I was contacted by the renter (Andrea 352-553-5778) who stated the other tenant closed off the breaker box area and she has no access to it. She further stated he then cut off her power to her apartment.
CONTACT	YVETTE J GRILLO	2/10/2026	2/10/2026	Received a phone call from a female with a caller ID of "Hollie Berrie" stating she resides in the home, and another person lives in the other half of the home which controls the circuit breaker panel and has turned the power off on her side of the home and that is why she is using a generator to power her side. He refuses to allow her on his side to turn her power back on through the panel box. Gave her Inspector Knight's cell number and advised her to call him to share this information. Called to city utilities and spoke with Brian Clark X8303 and he stated the deceased property owner's son "Dan" had been in to advise he was having issues with possible squatters in his father's home. Brian stated someone is paying the electric bill and appears per the son's comments that Mr. Michael Voss had passed away in November 2025. Last payment on account was made on 2/2/2026. Female caller states she has lived in the home for last 6 years, but a male subj has taken over the other half of the house.
CONTACT	STEPHEN KNIGHT	2/13/2026	2/13/2026	I was contacted mike vose who is the son and stated he is working with attorneys and they are working through the process.

Good afternoon, Veronica.

We have removed the meter and disconnected service at the pole for location 526918. Brian Clark contacted us after receiving a report that a generator was being used to supply power to part of the residence. According to the information shared with my technician on site, the home appears to be divided by a wall: one portion previously occupied by Michael Voss, and the other by an individual who states they have lived at the location for approximately six years.

She also reported that after Mr. Voss passed away sometime between September and October of last year, his friend took over the residence and shut off the breakers supplying her portion of the home. Since we have confirmed that Mr. Voss is deceased, can we proceed with moving the account to vacant status? One of the occupants has been repeatedly contacting our customer service office asking what is required to have service restored.

Additionally, I came across a Facebook post this morning that raises some safety concerns. Based on the content, I recommend that if we need to return to this location for any reason, we do so with police assistance. I can share the post if needed.

Yvette,

So I had the meter go out there to make sure nothing was connected to our meter can. And after further investigation into the work not being permitted, they pulled the meter. Here are the notes from the service order.
