<p>Section 82-182. - Dangerous buildings declared nuisance; abatement required; time limits.</p>	<p>CHARLES HANNAH</p>	<p>4/2/2026</p>				<p>Single Family residence split and converted into a duplex through complete interior renovation without permits or required approvals. Additional violations include dangerous electrical conditions on the exterior.</p> <p>A design professional and state licensed contractor is required to obtain plans and permits for a complete interior renovation already completed and bring the entire structure into compliance with the current Florida Building Code. An alternative compliance method is obtaining a demolition permit and demolishing the structure.</p> <p>Additionally, the structure shall be vacated as per a "Dangerous Structure" posting by the City of Ocala Building Department, due to dangerous conditions presenting an eminent threat to the safety of any occupants.</p> <p>Exterior renovations without permits includes a re-roof without required permits and exterior door without permits to "unit 2." These items shall be included in the complete set of plans and permits for renovations or may be abated through demolition of the structure.</p>

INITIAL	CAN	4/2/2026	4/3/2026	COMPLETED	<p>On April 2, 2026, at approximately 1300, I was requested by my supervisor to respond to the area of 24 NW 6th Terr to stand by for a OPD search warrant to be executed. I was informed OPD had requested Code Enforcement be present to document any Code Violations on the property as well as any property in proximity, I observed various violations outside but was unable to complete my overall investigation due to prolonged police activity and was unable to photograph any violations due to police and suspects on the property. I responded the following morning and observed and noted a derelict vehicle (Nissan Sentra) in driveway without a DMV tag, a roof which appears to have been recently replaced without a permit (2023 shows brown roof, now black). Wood fence around rear of property is leaning and in need of general repair. Junk and debris on property generally including old doors in rear. All visual inspections and photographs were obtained from the street and the right-of-way area.</p>
					<p>On April 6, 2026, I obtained Body Camera Footage from the Ocala Police Department Records Division showing a walk-thru of the residence pursuant to a search warrant. In the video, and confirmed via conversation with an OPD officer, it was confirmed the single-family residence has been converted to a duplex, encompassing "units 1 and 2." Within the video was clear evidence of unpermitted work, including definitive separation between the "units." Unit 2 was videoed first and showed a full kitchen facility with sink, oven, and microwave, plus a single bedroom, closet, and 1 full bathroom (sink, toilet, and shower.) What appeared to be a new water heater was also visible in the corner of the "living area" of "unit 2." "Unit 1" walked directly into a living/kitchen area housing a sink,</p>

CASE WORK	RDH	4/6/2026	4/6/2026	COMPLETED	<p>oven, and microwave all resembling "unit 2" kitchen equipment, then showed to have 2 bedrooms and 1 full bathroom (Sink, toilet, and bath).</p> <p>Overall, this entire structure is comprised of 2 kitchens, 2 living areas, 3 bedrooms, and 2 bathrooms; however, previous sale listings on Realtor.com and Marion County Property Appraiser confirm this to have been a single-family residence of only 2 bedrooms and 1 bathroom.</p> <p>Under a previous owner and code enforcement case, I had been inside the home during an inspection and am familiar with the interior layout. Upon entry through the front door of what is now "unit 1," the home opened into a large open living area with the kitchen at the rear of the home (west side of residence). The two bedrooms and single bathroom were along the northern side of the home. Now, in viewing the body-camera footage, it is evident that what once was a large open living area, is now closed off to accommodate the bedroom, closet, and bathroom of "unit 2," and "unit 1" now is direct access in the new kitchen area. Additionally, the entrance to "unit 2" used to be a window only, not a door for entry.</p> <p>Sometime in early 2025, immediately after the property sold to the current owner (Sold in December 2024) I was in the area and observed a white, unmarked van, appearing to be a commercial van often used in construction or property management parked in front of the residence. Individuals were on scene, and plywood and construction lumber was in the front lawn. I checked the permitting database and confirmed no permits in review or issued for active construction,</p>
-----------	-----	----------	----------	-----------	---

						<p>so I stopped to make contact. Upon stopping, all doors to the residence immediately closed, and an individual put someone on the phone with me claiming to be the property manager. A search of my city cell phone's text history confirmed the date to be February 13, 2025, and the individual I spoke with was Christian Pestana and 305-609-6847. He was immediately defensive and informed me to leave the home or he would sue the city. At that time, without entry to the home, I had no evidence to rely on of unpermitted work, so I left the scene. As of today, the ownership remains the same as that day when construction appeared to be in progress. Furthermore, having been in the residence prior to the sell, I can confirm significant work has been performed without required permits. I have notified the Building Department for further conversation on the matter regarding next steps or involvement with their department and will proceed with code enforcement action in coordination with them.</p> <p>Based on the circumstances, this scenario will be divided amongst two seperate cases. Case CE26-0467 will be to pursue compliance on non-life safety violations. This case, CE26-0496, is to pursue the immediate life safety violations.</p>
FOLLOW UP	GEM	4/8/2026	4/8/2026	COMPLETED		<p>McClellan completed a follow-up inspection to code's initial review of body camera footage and was allowed inside unit 2 for an inspection. Photos attached to case file.</p>
COMPLIANCE	SKN	5/29/2026	5/29/2026	COMPLETED		<p>Compliance date on FAO. No one should be occupying residence.</p> <p>I completed the compliance inspection and found no permit and no evidence the issues had been corrected.</p>
