FOLLOW UP	RDH	2/13/2025	2/13/2025	NON COMPLIANT	<p>On this date, I returned to the property with Building Inspector Greg McClellan to post the structure as dangerous. Upon arrival, we were met by the Tenant at the front door who granted permission to the interior of the home and around the entire home again. While conducting an inspection around the rear of the home with the Tenant, I observed approximately 3 houses down another residence appearing to have a blue tarp covering the entire roof. This was noted for a separate inspection. Prior to departure, I documented with photographs the Dangerous Building Posting at the front door. Additionally, the tenant was informed everyone is required to vacate or it could be an arrestable offense as indicated on the posting. She was also informed removal of the posting is also an arrestable offense as indicated on the posting. Due to the nature and severity of the violations, accompanied by several previous code enforcement cases against this home, I am proceeding directly to a Notice of Violation and Public Hearing.</p>
FOLLOW UP	RDH	3/6/2025	3/6/2025	NON COMPLIANT	<p>Upon inspection on this date, I observed the residence appears as though it has been vacated, but unable to verify. Additionally, the derelict vehicle(s) have been removed, and that particular violation has been voluntarily abated. All other violations remain, and no permits have been applied for to conduct necessary repairs, nor has any additional information been received from the property owner. Proceeding to the scheduled hearing.</p>

INITIAL	RDH	2/12/2025	2/12/2025	NON COMPLIANT	On February 12, 2025 I was contacted by the Ocala Police Department and requested to respond to this location regarding what they perceived as a dangerous structure occupied by renters. Upon arrival, I observed conditions that did appear to create a dangerous structural situation, including sag in the roofing, shifted porch columns, and sewage backing up onto the property. Additionally, there was roof damage visible, appearing to be the result of a large limb or tree previously falling on one corner of the roof. I took photos and contacted the Building Department for review of the circumstances. After Building Department review, and discussion with the Chief Building Official, it was determined the structure was dangerous to the extent engineering and permits will be required for significant repairs to make it habitable. Until then, the Building Department deemed the structure dangerous, and all occupants need to vacate for their safety. Follow up to occur on February 13th, 2025, for posting by the Building Department.
